Item #08

Date: June 20, 2023

To: Mayor and City Council

From: Dan Flores, Community Development Director
Jim Schaad, City Manager

Subject: Lease Agreement for Bryant Field

Recommendation:

Pass a Motion to approve a Lease Agreement for Bryant Field, between the City of Marysville and Highlands Community Charter School.

Background:

Highlands Community Charter School is a Public Adult Community Charter School with a strong presence in the Sacramento and San Diego Region as well as a branch located in the City of Marysville. An important component of the mission of Highlands is building legacies leading to self-sufficiency and generational change through strong community partnerships. Highlands has expressed a desire to lease Bryant Field as a training and event facility, further enhancing its partnership commitment with the City of Marysville.

Discussion and Analysis:

Highlands Community Charter School is an Adult Charter School with over 13,000 students and 30 locations throughout the State of California. Highlands has demonstrated a strong commitment and substantially invested in improving and maintaining Bryant Field. Highlands' commitment and investment have made it possible for the Marysville Drakes Baseball Team to safely play baseball on the field. The Drakes are part of a larger independent professional baseball league called the "Pecos League" with 16 teams throughout the United States including 8 teams in California. The improvements have also created a more attractive environment for other potential events at the ballpark.

Highlands recognized the benefit of training students at Bryant Field and utilizing the stadium for large events related to their school. The City created a mutually beneficial lease agreement. The lease agreement is to be effective May 1, 2023, as Highlands did some maintenance and improvements beginning on that date.

Some key terms of the lease agreement include 1) The lease is for 3 years with the option for renewal. 2) The lease rate is $2,000 per month with a 3% increase each year. 3) The Lessee (Highlands) will be solely responsible for all maintenance and City-approved improvements to the ballpark or field. 4) The Lessee is responsible for all utility expenses (water, sewer, electricity, gas) during the term of the lease. 5) The City will maintain the right to continue holding community and other reserved events at the ballpark under the terms indicated in the lease agreement. 6) All billboards, banners, and other forms of advertising including electronic billboards must be pre-approved by the City. 7) Lessee will have naming rights

LEASE

This Lease ("Agreement") is made effective May 1, 2023 and is by and between the City of Marysville, a Municipal Corporation ("City") and Highlands Community Charter School ("Lessee").

RECITALS

The City owns a facility commonly known as Bryant Field ("Bryant Field") which is located on real property ("Property") at 1431 C Street in the City of Marysville, Yuba County, California and designated as Assessor's Parcel Number 009-144-001.

Lessee desires to lease from the City, on a shared-use basis Bryant Field pursuant to this Agreement.

IN WITNESS WHEREOF, the parties agree as follows:

SECTION 1
Incorporation of Recitals

The foregoing recitals are not merely recitals but are contractual in nature and are incorporated into this Agreement.

SECTION 2
Definitions

In addition to the terms defined elsewhere in this Agreement, the following terms shall be defined as follows:

1. Rent - means the Rent as specified in Section 4 of this Agreement as well as other monetary obligations of the Lessee pursuant to this Agreement.

2. City - means City of Marysville.

3. Lessee - means Highlands Community Charter School.

4. Baseball Games - means all baseball games played at Bryant Field involving the Marysville League Drakes as a participant, including without limitation, all pre-season games, exhibition games, regular season games, post-season "playoff" games, and "all-star" games involving the Marysville Drakes as well as practice days reserved by the Marysville Drakes.

5. The Marysville Drakes - means the Baseball Club known by such name and sponsored by the Pecos League of Professional Baseball Clubs LLC.

6. Community Events - means any and all events promoted, sponsored and/or staged by City or on behalf of City.

7. Other Reserved Events - means an organized activity on a designated date(s), whether open to the public or reserved for private gatherings, other than baseball home games, or community events, which is booked, promoted, sponsored or staged by Lessee, including without limitation, concerts or other live and film performances or presentations festivals, fairs, tournaments, rallies and exhibitions as approved in advance by the City. Lessee has the exclusive right and obligation to manage and operate security and ushering services sufficient to control pedestrian traffic within Bryant Field and at the Property and adjacent area during all Other Reserved Events. Lessee shall obtain an approved safety plan from the City's Chief of Police and adhere to the same for Other Reserved Events (which safety plan may differ from event to event depending on the nature thereof). Lessee shall not hold Other Reserved Events of a political nature.

SECTION 3
Terms of Shared Use Lease

The City leases to Lessee on the terms and conditions set forth in this Agreement to conduct other reserved events subject to the provisions stated herein.

Lessee shall conduct all activities at the Property in compliance with all laws.

Lessee shall have the right to use and occupy the Property for Other Reserved Events in compliance with the provisions of this Section.

The City anticipates that the Marysville Drakes will reserve baseball games in the Spring and Summer of each year in addition to the baseball home games presently scheduled to be played at Bryant Field at the Property. In addition to baseball home games, the City intends to promote, sponsor and/or stage community events. With the exception of baseball home games and community events, Lessee shall have the right to book, promote, sponsor and/or stage Other Reserved Events on condition that Lessee provide City a minimum of 60 days advance notice of Lessee's proposed Other Reserved Event and obtains the City's consent to same, which consent will not be unreasonably withheld.

SECTION 4
Rent and Other Consideration

1. Rent. Lessee shall pay to City monthly Rent of $2,000.00 per month payable in advance on the 1st day of each month. Rents shall commence on the 1st of the month following execution of this Agreement (the "Rent Commencement Date"). Rent shall increase 3% per year on the anniversary of the Rent Commencement Date such that the monthly Rent shall increase by 3% above the Rent in effect for the previous year. Should Lessee exercise the option to extend the term of this Agreement, the 3% annual increases shall continue through the Extended Term.

2. Ticket Sales and Pricing. In its sole discretion, Lessee shall set ticket prices and admission fees for Other Reserved Events.

3. General Public Parking. City agrees to make available on-street and off-street parking, at City's discretion, for Other Reserved Events within a ten (10) minute walk of the Property. Lessee is solely responsible for providing adequate parking attendants at all off-street private property locations where event parking is sanctioned. Lessee shall not close, block or restrict access to any City streets absent a separate written agreement with City concerning the closure or any other restricted access or use of City streets. Except that Lessee may cause C Street to be closed between 14th Street and 16th Street for its other reserved events provided it is in compliance with the other terms and provisions of this Agreement.

4. Media Rights. Lessee has the exclusive right to all radio and television broadcast, telecast, webcast, cablecast, video on demand and all other forms of media and distribution rights for Other Reserved Events and to retain all revenues generated thereby.

5. Utilities. The cost of utility services, namely the water, sewer, gas, electric, as well as trash and recycled product removal and any other services or utilities shall be the responsibility of Lessee to the extent the same are incurred with respect to Lessee's use of the Property. The City will invoice Lessee monthly for all utilities and Lessee shall pay an invoice for the same within fifteen (15) days of receipt of such invoice.

SECTION 5
Capital Improvements, Maintenance, Repairs and Operations

1. Security/Usher Services and Traffic Control. Lessee has the exclusive right and obligation to manage and operate security and ushering services sufficient to control pedestrian traffic within Property and vehicle parking attendants during Other Reserved Events.

2. Set-up and Clean-up for Other Reserved Events. Lessee shall have the exclusive right and obligation to manage and operate the Property during Other Reserved Events and shall, at its sole expense, clean the Property and all improvements therein and keep it in orderly condition. Lessee shall comply with all applicable federal, state and local laws, codes, ordinances, and regulations, including without limitation, ADA and access laws, waste management, recycling, county health and alcoholic beverage sales/license laws.

3. Lessee is Responsible for all Aspects of Maintenance and Repair. During the term of this Agreement in addition to its obligations under paragraph 2 (Setup and Cleanup for Other Reserved Events), Lessee is responsible at its sole expense to fully and completely maintain the Property and all City-owned facilities therein. These maintenance obligations are ongoing. Lessee shall be responsible for all aspects of maintenance and repairs to include without limitation any capital repairs and major maintenance of the Property and all City-owned capital facilities therein. In addition to major maintenance of the Property and all City-owned capital facilities, Lessee shall be responsible for regular maintenance as well. These obligations include clean-up of seating and concession areas and maintenance of

seats, public laboratories and restroom facilities, regular and routine maintenance of the HVAC, plumbing, electrical, water, sewage and onsite drainage systems.

As described above, Lessee is further responsible to maintain the facilities which are the subject of this Agreement in a fully operational condition such that the structures and facilities at the Property and all City-owned capital facilities therein shall be in at least as good or better condition at the end of this Agreement than the condition of such facilities on the effective date of this Agreement. Lessee's obligations of maintenance, replacement and repair shall not take into consideration "reasonable wear and tear". To the contrary, Lessee's obligations require Lessee to maintain and repair the Property and all City-owned capital facilities at all times so as to negate the effects of "ordinary wear and tear". Without limiting the generality of the foregoing, Lessee is responsible for capital replacement and repairs of the structure, structural members, foundations, footings, roof, balconies, floors, columns, steps, ramps, doors, windows, walls, fixed stadium seats and seating areas, fixed concession areas, water and plumbing systems, electrical systems and electrical lights (including light standards and field lighting/ballasts), pipes and mains, sidewalks, fencing, parking surfaces, the scoreboard and all integral components of the foregoing and all fences and fencing. Such major maintenance and repair responsibilities Lessee apply whether the major maintenance or repair is ordinary or extraordinary, foreseen or unforeseen, necessitated by wear and tear, obsolescence, or any other cause.

4. Discretionary Improvements. Lessee has the right, at its own expense, to make alterations and improvements to the Property as are reasonably necessary or appropriate for Lessee's conduct of its business, subject to prior written approval by City and, once approved, such alterations or improvements are performed in a good and workmanlike manner by qualified personnel. Any necessary operations, maintenance and/or repairs relating to such alterations or improvements are the sole responsibility of Lessee, unless City first agrees in writing to accept responsibility. At the end of the term of this Agreement, any improvement installed by Lessee shall remain at the Property and shall be property of City. Lessee shall obtain all required City permits prior to making any improvements. Lessee shall comply with applicable general plan, zoning and other requirements of the City regarding improvements they install.

SECTION 6
Term, Termination, Default, Remedies

1. Term and Option to Extend. The Term of this Agreement shall be 3 years commencing with the Rent Commencement Date on the 1st of the month provided Lessee is not in default under the Terms of this Agreement, Lessee shall have the option to extend this Agreement for an additional 3 years by providing written notice to the City no earlier than 6 months nor later than 2 months prior to the expiration of the Original Term.

2. By Destruction. In accordance with Section 7 of this Agreement, City may terminate this Agreement.

3. Default by Lessee. It shall be a default under this Agreement if any of the following occurs:

A. Lessee fails to pay the Rent, and any other costs, surcharges or other monetary obligations as required by this Agreement; or

B. Lessee fails to observe and comply with any other term, condition, covenant or agreement to be observed and complied with by Lessee under this Agreement.

4. Remedies. As to any monetary defaults or obligation of Lessee to pay any monies to City, such default shall continue uncured for a period of three (3) days after Lessee receives notice from City, City shall be entitled to terminate this Agreement. As to any default of Lessee of a non-monetary nature, if such default continues uncured for a period of three (3) days after Lessee receives notice from City specifying the nature of the default in reasonable detail (or such period if such default cannot be reasonably cured within such 3-day period, provided Lessee commences such cure within such 3-day period and thereafter diligently pursues such to completion), City shall have the right, in addition to any other remedy available hereunder, or at law, or in equity, to terminate this Agreement. Termination of this Agreement shall not relieve Lessee of its obligation to make any monetary payment required of it pursuant to this Agreement (including the full payment of all license fees) nor shall Lessee's obligations of indemnity, insurance and other obligations which would naturally survive termination be excused. All such obligations shall continue to be binding upon Lessee until such obligations have been performed and satisfied in full.

5. Lessee's Right to Terminate for Loss of Funding Source. Lessee may, upon 90 days' notice to City, terminate this Agreement in the event they lose their funding source for their operations.

SECTION 7
Damage or Destruction

1. In the event the Property is substantially or totally damaged or destroyed so as to be unfit for occupancy or use by Lessee as contemplated, City in its sole and absolute discretion may terminate this Agreement. In the event City elects to terminate this Agreement, it may give Notice of Termination which shall be effective immediately. Whether City elects to terminate this Agreement pursuant to this section, City shall have no liability to Lessee with respect to any losses or damage occasioned by Lessee due to such termination or due to any delays occasioned by the time of repair, construction/reconstruction of the Property facilities. Lessee shall obtain business interruption insurance or take such other financial precautions as it deems necessary for any losses which might arise from the destruction or substantial destruction of the Property.

2. Restoration of the Property. For termination of this Agreement other than for damage or destruction as described in paragraph 1 above (to include expiration of this Agreement according to its terms or termination occasioned by default), Lessee will return the Property to its original or subsequently improved condition, and shall return to City all equipment and tangible personal property owned by City, if any, in good working condition, or reimburse City for reasonable cost of repairing such damage and/or replacing such personal property.

SECTION 8
Indemnity; Insurance

1. Indemnity by Lessee. Lessee shall indemnify and hold City, and its representatives officers, directors, employees and agents free and harmless from any and all claims, suits, liens, demands, damages, injuries, liabilities, losses and expenses of any kind (including reasonable attorneys' fees, expert witnesses and costs of investigation with regard to any claim, demand or action) to the extent they arise out of or are in any way connected with the performance of this Agreement by City, its agents, directors or employees or by Lessee, its agents, directors or employees whether such claims, liens, demands, losses or expenses are based upon a contract or upon a claim for personal injury, death, or property damage or upon any other legal or equitable theory whatsoever. Lessee agrees at its own expense and upon written request by City, to defend any claim, suit, action or demand brought against City on any injury, loss, or liability, actual or alleged covered herein. Notwithstanding this defense obligation, Lessee shall not be required to indemnify City from loss or liability to the extent such loss or liability arises from the sole negligence or willful misconduct of City, its agents, directors and employees, at such time that such sole negligence or willful misconduct has been finally determined by a court of competent jurisdiction. Lessee shall provide City with a defense until such determination has been made (*i.e.*, until a court of competent jurisdiction has finally determined that the loss or liability arises from the sole negligence or willful misconduct of City, Lessee shall provide a defense as to such loss or liability). Lessee's obligations of defense and indemnity arise even if the claim is frivolous or lacking in merit. The defense indemnification obligations of this Agreement are undertaken in addition to, and shall in no way be limited by, the insurance obligations contained in this Agreement. The indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Lessee or its agents under workers' compensation acts, disability benefit acts or other employment benefit acts. The Lessee shall pay all costs that may be incurred by the City in enforcing this indemnity, including reasonable attorneys' fees. Lessee's indemnity obligations survive this Agreement.

Lessee's duties to defend is separate and independent of its duty to indemnify. The duty to defend includes claims for which the City may be liable without fault of be strictly liable. The duty to defend applies regardless of whether the issues of negligence, strict liability, fault, default or other obligation on the part of the City has been determined. The duty to defend applies immediately regardless of whether the City has paid any sums or incurred any detriment arising out of or relating (directly or indirectly) to any claims. Notwithstanding the foregoing, the City on behalf of itself reserves the right to assume the

defense of any action, arbitration or proceeding against which Lessee may have an obligation to defend pursuant to this Agreement including the right to appoint counsel of its choice, without effecting Lessee's obligation to indemnify for the cost of such defense.

Lessee shall be liable to the City for any loss or damage to City property arising from or in connection with Lessee's performance hereunder.

2. Insurance Requirements.

A. Commercial General Liability. During the term of this Agreement, Lessee shall at all times maintain in full force and effect commercial general liability insurance in an amount determined as reasonably necessary from time to time by Northern California Cities Self-Insurance Fund (NCCSIF), a California joint powers agency, or City's subsequent insurance carrier. At the commencement of this Agreement, the commercial general liability insurance shall be $2,000,000 minimum combined single limit and a general aggregate limit of at least $4,000,000. The policy shall cover bodily injury, property damage, personal injury and other covered loss however occurring during the policy term. The coverage shall be primary and any insurance maintained by City shall be excess insurance only. Such insurance shall contain endorsements: (a) deleting any employee exclusion on personal injury coverage; (b) including employees as additional insureds; (c) deleting any liquor liability exclusion; (d) providing for coverage of employer's automobile non-ownership liability.

The commercial general liability insurance policy shall provide coverage on an "occurrence" basis, including products and complete operations, property damage, bodily injury and personal and advertising injury. If a general aggregate limit applies, the general aggregate limit shall apply separately to this Agreement and the Property.

B. Automobile Liability. Lessee shall, during the term of this Agreement maintain coverage for automobile liability using ISO Form CA 00 01 covering any auto (Code 1), hired (Code 8) and non-owned automobiles (Code 9), with limits of no less than $1,000,000 per accident for bodily injury and property damage.

C. Property Insurance. During the term of this Agreement Lessee shall at all times during this Agreement maintain in full force and effect property insurance, special extended coverage or all-risk coverage insurance (including, but not limited to coverage for vandalism and malicious mischief) in the amount of 100% of the full replacement value of all improvements at the Property. Such policy shall contain a replacement cost endorsement and a stipulated amount endorsement. Lessee may maintain the required coverage by means of coverage obtained by City through City's insurance carrier, which may change from time to time, for which Lessee shall reimburse City for coverage required during the Baseball Season.

D. Workers' Compensation. During the term of this Agreement Lessee shall at all times maintain in full force and effect workers' compensation insurance as required by the laws of the State of California. Lessee may be permissibly self-insured in accordance with applicable law.

E. Forms of Policies: Deductibles. All insurance policies required by this section shall provide for severability of interests; shall provide that an act or omission of one of the named or additional insureds shall not reduce or void coverage to the other named or additional insureds, shall not reduce or void coverage to the other named or additional insureds; and shall afford coverage for all claims based on acts, omissions, injury and damage, which claims occurred or arose (or the onset of which occurred or arose) in whole or in part during the policy period. All insurance policies required to be carried under this section shall be (a) written by companies rated A-VII or better in *Best's Insurance Guide* and authorized to do business in California, and (b) name City, its officers, officials, employees and volunteers as additional insureds. Any deductible amounts in excess of $5,000 under any insurance policies required to be carried by Lessee by this section shall be subject to City's prior written approval. Lessee shall be responsible for any such deductible amount, so that so far as City is concerned, it will be as if the insurance had no deductible.

Each insurance policy required above shall provide that coverage shall not be cancelled, except with no less than thirty (30) days prior notice to City.

Lessee hereby grants to City a waiver of any right to subrogation which any insurer of said Lessee may acquire against City by virtue of the payment of any loss under such insurance. Lessee agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not City has received a waiver of subrogation endorsement from the insurer.

City reserves the right to modify these insurance requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage or other special circumstances.

City, its officers, officials, employees and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the Lessee including materials, parts or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Lessee's insurance (at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37 forms if later revisions are used).

For any claims related to this Agreement, the Lessee's insurance coverage shall be primary insurance as respect to City, its officers, officials, employees and volunteers. Any insurance or self-insurance maintained by City, its officers,

officials, employees or volunteers shall be in excess of Lessee's insurance and shall not contribute to it.

F. Insurance Endorsements: Failure to Deliver. Lessee shall furnish City upon execution of this Agreement, and thereafter within 30 days prior to the expiration of each such policy, amendatory endorsements issued by the insurer carrier of each policy of insurance carried hereunder and such policy endorsement to verify the additional insured status of City. The endorsements shall expressly provide that the policy shall not be cancellable or subject to reduction of coverage or otherwise be subject to modification except after 30 days' prior written notice to City. If Lessee shall fail to procure such insurance or deliver such endorsements, City may, at its option, and in addition to City's other remedies in the event of default by Lessee under this Agreement procure the same for the account of Lessee, and the cost thereof shall be paid to City as an additional license fee. Failure to obtain and maintain the required endorsements prior to the commencement of the Baseball Season in 2023 shall not waive Lessee's obligation to provide them. City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

SECTION 9
Sublicense or Assignment of Agreement

1. No Assignment or Sublicense. The license granted to Lessee is personal to Lessee and may not be assigned or sublicensed in whole or in part to any third party without the prior written consent of City, which City may withhold in its sole discretion.

2. No Release. Regardless of City's consent, no sublicensing or assignment shall release Lessee of Lessee's obligations or alter the primary liability of Lessee to pay the Rent and all monetary obligations under this Agreement and to perform all other obligations to be performed by Lessee hereunder, to include the indemnity and insurance obligations. Consent to one assignment or sublicensing shall not be deemed consent to any subsequent assignment or sublicensing. In the event of any default an assignee of Lessee, or any successor of Lessee in the performance of any of the terms hereof, City may proceed directly against Lessee without the necessity of exhausting remedies against such assignee or successor. City may consent to subsequent sublicensing or assignment of this Agreement or amendments or modifications of this Agreement with assignees of Lessee, without notifying Lessee, or any successor of Lessee, and without obtaining its or their consent thereto, and such action shall not relieve Lessee of liability under this Agreement.

SECTION 10
Additional Agreements

1. Hazardous Materials. For purposes of this paragraph "Hazardous Materials" shall mean any substances or materials classified as hazardous materials, hazardous substances, hazardous waste or toxic waste under any federal, state or local statute, regulation or ordinance, including by not limited to any petroleum products and agricultural chemicals

used as pesticides or herbicides. Lessee shall not, and shall not permit any third party to, transport onto, store on or use on the Property any Hazardous Materials. Lessee shall not release or allow any third party to release any Hazardous Materials on any portion of Property. Lessee, at Lessee's sold expense, shall conduct any and all investigation, clean-up and/or eliminate any and all Hazardous Materials released in violation of this paragraph 2.

2. Security. Lessee shall provide reasonable security personnel for Other Reserved Events and related operations conducted at the Property, and any other activities permitted by this Agreement.

3. Community Events. From time to time, as stated herein, City has the right to schedule City sponsored community events.

4. Additional Obligations of Lessee.

A. Lessee shall keep and maintain a valid business license issued by City during the term of this Agreement. Lessee must secure such permits, variances and licenses as may be necessary or desirable to operate its business as contemplated in this Agreement at its sole expense and obligation.

B. Lessee shall pay any possessory interest tax levied against the Property by the Assessor of Yuba County. Any taxes owing as a result of the private or commercial use of the Property are the sole expense of Lessee, including any subsequent taxes, levies or increases to existing taxes to which Lessee or its affiliates would be subject.

C. Lessee shall abide by all local ordinances, rules and regulations, and all State laws, pertaining to the operation of a baseball facility open to members of the public, including, but not limited to all such ordinances, rules, regulations and laws pertaining to health, fire, safety, the sale of food and beverages, and alcohol sales and consumption.

D. Cooperation to Protect Surrounding Neighborhood. Lessee agrees to cooperate with City to insure that Property is used in such a manner as not to produce undue annoyance to persons living in the neighborhood surrounding the Property. Measures to be taken may include, but are not limited to, noise restrictions, hours during which the Property may not be used, crowd controls, parking restrictions, and related matters.

E. Access by City. Authorized personnel from City shall have reasonable access to the Property at all times during the term of this Agreement to ensure compliance with all the provisions of this Agreement. Such access does not provide the right to interfere with the on-going business operations of Lessee.

SECTION 11
NAMING RIGHTS

1. For the Term of this Agreement, Lessee shall have the right to name the stadium at the Property to include signage associated with such naming rights as approved in writing in advance by the City.

   The name selected by Lessee shall be subject to the City's approval, which approval shall not be unreasonably withheld, provided however, that "Bryant Field" must remain as part of the name selected by Lessee.

2. Future Departure of Marysville Drakes. In the event the Marysville Drakes cease to utilize the property to conduct baseball games in the future, Lessee shall have a first right to negotiate for a substitute baseball team. In the even the Drakes decline to enter into a license agreement to hold baseball games at Bryant Field, the City shall provide written notice to Lessee. Lessee shall, within fifteen (15) days of the date of such notice, advise the City in writing if it intends to negotiate to have a substitute baseball team hold baseball games at the Property. Should Lessee fail to request negotiation with the City within fifteen (15) days of the date the City notifies Lessee of its intention to negotiate to have a substitute baseball team or should the parties fail to reach an agreement within sixty (60) days of such notification, the City shall be free to negotiate with others concerning a substitute baseball team to hold baseball games at the Property. The City must approve the name of any successor team within its absolute discretion. Should Lessee advise the City of such intention, the parties agree to negotiate in good faith to reach an agreement for a substitute team to hold baseball games at the Property.

SECTION 12
MISCELLANEOUS

1. Rent Payable in United States Money. Rent and all other sums payable under this Agreement must be paid in lawful money of the United States of America,

2. No Partnership or Other Legal Entity Formed. By virtue of this Agreement no partnership, joint venture, or other legal entity is formed between the parties and neither becomes the guarantor or obligator of any debt, liability or obligation of the other.

3. Lessee's Employees No employee, agent, contractor, or other person to the employ of one party shall be deemed to be in the employ of the other party.

4. No Independent Contractor. Neither City, nor Lessee, shall be independent contractors of one another pursuant to the terms of this Agreement.

5. No Liens or Encumbrances.

A. Lessee shall not permit to be enforced against the Property or any part of them, any mechanic's, materialmen's, contractor's or subcontractor's lien arising from any work of improvement, however it may arise. Lessee shall defend and indemnify City against all liability and loss of any type arising out of work performed at the Property by Lessee, together with reasonable attorneys' fees and all costs and expenses incurred by city in negotiation, settling defending or otherwise protecting against such claims in the event of the breach by Lessee of the duty to defend or indemnify City.

B. If Lessee does not protect the Property from a lien or liens as provided in paragraph A, and a final judgment has been rendered against Lessee by a court of competent jurisdiction for the foreclosure for a mechanic's, materialman's, contractor's or subcontractor's lien claim, and if Lessee fails to stay the execution of the judgment by lawful means or to pay the judgment, City shall have the right, but not the duty, to pay or otherwise discharge, stay, or prevent the execution of any such judgment or lien or both. Lessee shall reimburse City for all sums paid by City under this paragraph, together with all City's reasonable attorneys' fees and costs, plus interest on those sums, fees and costs at the rate of 10% per year from the date of payment until the date of reimbursement.

6. Integrated Agreement; Amendments. This Agreement covers all matters concerning the use and occupancy of the Property by Lessee. All prior understandings, whether written or oral, shall be of no further force or effect. All amendments hereto shall be in writing, signed by both parties.

7. Notices. Notices to either party, and correspondence between them, shall be made by personal delivery, fax, overnight delivery (Federal Express or equivalent), or registered U.S. Mail.

To the extent a time limit is prescribed for the giving of any notice, such notice shall be deemed given:

A. Upon personal delivery.

B. Upon the sending of fax; provided another copy is provided by another method described above on the same day as the fax is sent.

C. At the time shown as the time received by the overnight delivery service or the U.S. Postal Service.

The addresses, phone numbers and fax numbers of the parties are as follows. A party will promptly notify the other in writing of any changes.

8. Authority. Each party represents that the person signing this Agreement on its behalf has been duly authorized to do so in accordance with all applicable laws pertaining thereto and that the signature of such person is to be construed as legally binding the party to the terms and conditions of this Agreement.

9. Binding on Heirs, Successors, and Assigns. This Agreement, and each term and condition of it, shall be binding on the heirs, successors, and assigns of the parties. Nothing in this subparagraph permits Lessee to assign or sublet all or any rights under this Agreement.

10. Modification: Waiver. Changes or modifications to this Agreement may be made by mutual written agreement of the parties. No change or modification shall be effective unless in a writing executed by the parties. No waiver shall be deemed given unless in writing, and one waiver shall not constitute a subsequent waiver.

11. Provisions are Covenants and Conditions. All provisions, whether covenants or conditions, on the part of Lessee shall be deemed to be both covenants and conditions.

12. Nuisance. Lessee shall not commit or permit the maintenance or commission of any nuisance within the Property.

13. Captions. The captions of the various sections or paragraphs of this Agreement are for convenience and ease of reference only and do not define, limit, augment or describe the scope, content or intent of this Agreement or of any part of this Agreement.

14. Number and Gender. The singular number includes the plural whenever the context so requires. The neuter gender includes the feminine and masculine, the masculine includes the feminine and neuter and the feminine includes the neuter and the masculine, and each includes corporation, partnership or other legal entity when the context so requires.

15. Severability. The unenforceability, invalidity or illegality of any provision shall not render the other provisions unenforceable, invalid or illegal.

16. Exclusive Representative. The parties agree that they shall each designate exclusive representatives for purposes of ongoing communications concerning this Agreement. Each party agrees that it shall not communicate with other persons concerning the subject matter of this Agreement except with the designated representatives of each party. In that regard the designated representative(s) for Lessee shall be Mike Reid, the designated representative for City shall be Dan Flores, Community Development Director. Either party may change its designated representative(s) by giving notice to the other party pursuant to Section 13 subdivision 7 of this Agreement.

17. Governing Law and Attorneys' Fees. This Agreement shall be governed and construed in accordance with the laws of the State of California. If this Agreement gives rise to a dispute, lawsuit or other legal proceeding between the parties hereto, the prevailing party shall be entitled to recover its court costs and reasonable attorneys', expert fees in addition to any other relief to which such party may be entitled.

18. Authority. Each individual executing this Agreement on behalf of Lessee represents and warrants that he is duly authorized to execute and deliver this Agreement on behalf of Lessee.

19. Time is of the Essence. Time is of the essence in performance of this Agreement.

20. No Third-Party Beneficiaries. Except as specifically provided in this Agreement, nothing in this Agreement is intended to create any third-party benefit.

21. Severability. If any provision of this Agreement or the application of any provision of this Agreement is held by a court of competent jurisdiction to be invalid, void or unenforceable to any extent, the remaining provisions of this Agreement and the application of it will remain in full force and will not be affected, impaired or invalidated.

22. Identification of Lessee's Owners. Concomitantly with execution of this Agreement, Lessee shall provide City with a list setting forth the identity of every person, firm or other entity holding an ownership interest in Lessee.

23. Signage. The use of digital or electronic billboard signage is not currently permitted at the Property. The City reserves the right (assuming it acquires the rights to do so) to locate a digital/electronic billboard on the back of the scoreboard (or other appropriate location outside of Bryant Field on the Property).

Lessee shall not erect any billboards or signage on the outside of the stadium at Bryant Field absent the City's advance written consent to do so.

24. Recorded Memorandum. Following execution of this Lease, the City shall cause a memorandum thereof in the form shown on attached Exhibit A to be recorded with the official records of the County of Yuba.

25. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together, when signed by all the parties hereto, shall constitute one and the same instrument.

IN WITNESS WHEREOF, the parties have executed this Agreement, effective on the date set forth below.

MEMORANDUM OF LEASE

THIS MEMORANDUM OF LEASE ("Memorandum") dated as of _____ is entered into between the City of Marysville ("City") and Highlands Community Charter School ("Lessee")

RECITALS

A. On or about May 1, 2023, City and Lessee entered into that certain Lease, pursuant to which City leased to Tenant and Tenant leased from Landlord, on a shared possession basis, real property, more particularly described as 1431 C Street in the City of Marysville, Yuba County, California and designated as Assessor's Parcel Number 009-144-001 ("Premises").

B. City and Lessee desire to execute this Memorandum to provide constructed notice of Tenant's rights under the Lease to all third parties.

NOW THEREFORE FOR GOOD AND VALUABLE CONSIDERATION the receipt and adequacy of which are hereby acknowledged, the parties agree as follows:

1. Term. City leases to Lessee for a term of three (3) years, with a three (3) year option to extend.

2. Lease Terms. The Lease of the Premises to Lessee is pursuant to the Lease which is incorporated in this Memorandum by reference.

3. Assignment. Lessee's rights and obligations under the Lease shall not be assigned without City's prior written consent, and any assignment without this consent shall be void.

4. Successors and Assigns. This Memorandum and the Lease shall bind and inure to the benefit of the parties and their respective heirs, successors and assigns, subject, however, to the provisions of the Lease on assignment.

EXHIBIT A

5. Governing Law. This Memorandum and the Lease are governed by California law.

MUTUAL TERMINATION OF LEASE AGREEMENT

RECITALS

Whereas, City of Marysville, a municipal corporation ("City") and Highlands Community Charter Technical Schools ("Lessee") entered into a lease ("Lease"), made effective May 1, 2023, of a facility commonly known as Bryant Field ("Bryant Field") which is located on real property ("Property") at 1431 C Street in the City of Marysville, Yuba County, California and designated as Assessor's Parcel Number 09-144-01.

Whereas, City and Lessee now mutually agree to terminate the Lease upon the terms of this agreement ("Agreement") set forth herein.

NOW THEREFORE, in consideration of the undertakings of the Parties as set forth in this "Termination Agreement", and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound, the City and Lessee (collectively, "Parties") hereby agree as follows:

1. **Termination of Agreement.** Effective November 30, 2024 ("Termination Date"), the Parties agree to terminate the Agreement. The Agreement shall have no force or effect after the Termination Date.

2. **Consideration**. City shall continue to receive payment equal lease payments from Lessee from December 1. 2024, through April 30, 2026, in the amount of $33,639.80.

    - City shall also have the ability to lease the Property to another lessee as of the Termination Date.
    - The Lessee will sell certain equipment (Exhibit A) to the City for $1.00 (one dollar and no cents), with the option of having it returned if the Lessee leases the Property in the future. City expressly acknowledges this option and the potential for Lessee to lease the Property in the future, subject to mutual agreement of the Parties.

3. **Effect of Termination on Agreement.** Except as expressly provided in this Agreement, the Parties acknowledge and agree that their respective rights and obligations under the Lease are terminated, aside from claims which might be the subject of indemnity obligations, which shall survive until the claims are resolved.

4. **Fees and Expenses.** Each Party hereto shall bear its own fees and expenses (including attorneys' fees) incurred in connection with the Agreement, this Termination Agreement, and the consummation of the transactions contemplated hereby.

5. **Representations.** Each Party hereby represents and warrants that it has not assigned or otherwise conveyed or delegated, in whole or in part, any claim or right that it has or may have under the Agreement to any third party. Each Party represents that the execution and delivery of this Termination Agreement is the duly authorized and binding act of the Party, and that the Party's signatory hereto is duly authorized to execute this Agreement on behalf of the Party.

6. **No Admission of Liability.** City and Lessee expressly agree and acknowledge that their entering into this Termination Agreement shall not be construed in any manner as an admission of any liability, obligation, or wrongdoing on the part of either Party. Each Party expressly denies any and all liability or wronging with respect to the Agreement.

7. **Cooperation between the Parties.** Each Party shall fully cooperate with the other Party with respect to the performance of this Termination Agreement. Each Party will provide or make available to the other Party any information and will execute, acknowledge and deliver such further documents that may reasonably be required in order to effectively perform this Termination Agreement, and to evidence the termination of the Agreement, and to release all obligations and liabilities of the Parties thereunder.

IN WITNESS WHEREOF, THE PARTIES HAVE EXECUTED THIS TERMINATION AGREEMENT AS OF THE TERMINATION DATE.

Subject: 406 9th Ave - Buyout

Julio,

After meeting with our brokers today we would like to touch base with the landlord at 406 9th Ave (San Diego) to request a buyout. Newmark reported that based on the market conditions and time remaining on this lease our chance for sublease is basically non-existent so want to ensure due diligence and attempt every option we have to abate the encumbered expenses. I have attached a copy of the lease, any recommended language or feedback is appreciated.

> Matthew,
>
> I reviewed the lease. As I suspect the brokers may have told you, there really aren't any great provisions in the lease that would be helpful for securing early termination. AIRCRE form leases like this are typically drafted in favor of the landlord, and they leave it completely up to the landlord's discretion whether or not to agree to early lease termination through a buyout or otherwise, outside of a few limited circumstances that don't seem to apply here (damage/destruction of the premises, capital improvements need to be installed, etc.). Even after a landlord breach of the lease, there is no tenant termination right, so getting out of the lease will be entirely a matter of negotiation.
>
> Given the short time remaining on the lease, negotiating a buyout may be a long shot unless the landlord has an independent motive to cooperate, such as having another tenant reliably lined up or having an existing tenant who wants to expand into your suite. It may be unlikely, but it's still certainly worth reaching out to ask, and I would defer to your brokers on the strategy for conducting that negotiation.

Thanks Julio. That is as expected.

+Blackmon, Jack can we touch base with the landlord and request any possible terms or buyout options. We need to ensure we are completing our due diligence to the utmost degree on this item.

Allan and I connected just a moment ago. Without coming off as too aggressive or forceful, I did my best to grind him down to a settlement amount.
He shared that his personal financial situation is not on fire now, and that he is very concerned that he would be able to identify a tenant during the holidays.

Long story short, he is willing to cooperate with an early termination but would need the full rental amount paid as a component of that termination. He is also willing to deduct the current security deposit from that amount.

If this works for HCCTS, we can determine the final remaining balance and draft a termination agreement.

HCCS	Highlands Community Charter School
SETA	Sacramento Employment and Training Agency
TE	TOPSPro Enterprise
TRUSD	Twin Rivers Unified School District
WIOA	Workforce Innovation Opportunity Act

Preface

Highlands Community Charter School respectfully submits this charter petition material revision request to the Twin Rivers Unified School District, seeking to continue the effective work of serving students in the District. This material revision is being submitted as the Charter School is requesting the following changes to the charter:

1. **Updated Number of Sites**
   HCCS requests to maintain 14 sites as detailed in Element P the material revision.

2. **Updated Credential Qualifications**
   In the 2024-2025 school year, HCCS modified credential requirements for teachers based on a May 2025 update from the CTC and additional guidance communicated by TRUSD. This material revision will align the charter document with our commitment to utilize K-12 credentials rather than adult credentials for its teachers.

3. **Proposed Career Technical Education (CTE) Programs for 2025-2026 School Year**
   HCCS proposes to operate seven CTE programs in the 2025-2026 school year:
   - Culinary Arts
   - Digital Literacy and Multimedia
   - Early Childhood Education (ECE)
   - Medical Services
   - Microsoft Office Specialist (MOS) Certification
   - Personal Finance
   - Real Estate

4. **Addition of Grade 11**
   HCCS proposes to add grade 11 in compliance with guidance from TRUSD.

5. **Addition of CAST and CAASPP Assessments**
   HCCS will test students in both CAST and CAASPP based on guidance from the California Department of Education and TRUSD. While these assessments are intended for students in traditional high school programs, and HCCS serves adults, HCCTS has implemented this assessment to ensure compliance and accountability in its academic programs.

6. **Enhanced Curriculum for Improved English Learner Support**
   The HCCTS Board has approved the Savvas curriculum for HCCS. Implementation has begun with professional development support from Savvas in alignment with Professional Learning Community (PLC) structures.

7. **Lottery Procedures**
   HCCS respectfully requests approval to update its current lottery procedures to more accurately reflect the Charter School's existing admission practices. While maintaining full compliance with all applicable provisions of the California Education Code, HCCS

seeks to clarify and enhance its written policies and procedures to ensure greater transparency, accessibility, and alignment with the school's mission of serving adult learners. These updates will streamline the admissions process, reflect current operational structures, and better address the needs of the diverse student population.

With TRUSD's approval, HCCS will continue to uphold equitable and compliant admission practices while refining procedures to ensure they are clear, consistent, and supportive of the school's commitment to access and inclusion.

Assurances, Affirmations, and Declarations

As the authorized lead petitioner, I hereby certify that the information submitted in petition for renewal of Highlands Community Charter School ("HCCS" or the "Charter School"), located within the boundaries of the Twin Rivers Unified School District ("TRUSD" or the "District") and outside of the District pursuant to the WIOA exemption to site restrictions contained in the Charter Schools Act of 1992 is true to the best of my knowledge and belief; I also certify that this petition does not constitute the conversion of a private school to the status of a public charter school.

Highlands Community Charter School shall:

- Be nonsectarian in its programs, admission policies, employment practices, and all other operations. (California Education Code (hereinafter "Ed. Code") § 47605(e)(1).)
- Not charge tuition. (Ed. Code § 47605(e)(1).)
- Not discriminate against any pupil on the basis of the characteristics listed in Ed. Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics). (Ed. Code § 47605(e)(1).)
- Admit all pupils who wish to attend Charter School (Ed. Code § 47605(e)(2)(A).) unless HCCS receives a greater number of applications than there are spaces for students, in which case it will hold a public random drawing to determine admission. Except as required by Education Code Section 47605(e)(2), admission to HCCS shall not be determined according to the place of residence of the student or of that student's parent or legal guardian within the State. Preference in the public random drawing shall be given as required by Education Code Section 47605(e)(2)(B)(i)-(iv). In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of HCCS in accordance with Education Code Section 47605(e)(2)(C). (Ed. Code § 47605(e)(2)(A)-(C).)
- If a pupil is expelled or leaves Charter School without graduating or completing the school year for any reason, notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades and health information. If the pupil is subsequently expelled or leaves the school district without graduating or completing the school year for any reason, the school district shall provide this information to the Charter School within 30 days if the Charter School demonstrates that the pupil had been enrolled in the Charter School. (Ed. Code § 47605(e)(3).)
- The Charter School may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance to, or continued enrollment at, the Charter School. [Ref. Education Code Section 47605(n)]
- The Charter School shall adhere to each of the conditions in Education Code Section 47605(e)(4)(A)-(D), including: (A) not discouraging a student from enrolling or seeking

to enroll in the Charter School for any reason; (B) not requesting a student's records or requiring a parent, guardian, or student to submit the student's records before enrollment; (C) not encouraging a student currently attending the Charter School to disenroll or transfer to another school for any reason; and (D) providing a copy of the California Department of Education ("CDE") notice regarding the requirements in Education Code Section 47605(e)(4)(A)-(D) to a parent/guardian or student if the student is 18 years of age or older: (i) when a parent/guardian or student inquires about enrollment (ii) before conducting an enrollment lottery, or (iii) before disenrollment of a student. [Ref. Education Code Section 47605(e)(4)(A)-(D)]

- Meet all statewide standards and conduct the pupil assessments required pursuant to Education Code section 60605 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in non-charter public schools. (Ed. Code § 47605(d)(1).)
- Consult, on a regular basis, with Charter School's students and teachers regarding the Charter School's educational programs. (Ed. Code § 47605(d)(2).)
- Adhere to all provisions of federal law related to students with disabilities including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Individuals with Disabilities Education Improvement Act of 2004.
- Meet all requirements for employment set forth in applicable provisions of law, including but not limited to credentials, as necessary. (Title 5 California Code of Regulations § 11967.5.1(f)(5)(C).)
- Ensure that teachers in the Charter School hold the Commission on Teacher Credentialing certificate, permit, or other document required for the teacher's certificated assignment. The Charter School may use local assignment options authorized in statute and regulations for the purpose of legally assigning certificated teachers, in the same manner as a governing board of a school district. (Ed. Code § 47605(l)(1).)
- At all times maintain all necessary and appropriate insurance coverage.
- For each fiscal year, offer, at a minimum, the number of minutes of instruction per grade level as required by Education Code § 47612.5(a)(1)(A)-(D).
- Maintain accurate and contemporaneous written records that document all pupil attendance and make these records available for audit and inspection. (Ed. Code § 47612.5(a)(2).)
- Comply with any applicable jurisdictional limitations to the locations of its facilities. (Ed. Code § 47605; Ed. Code § 47605.1.)
- Comply with all laws establishing the minimum and maximum age for public school enrollment. (Ed. Code §§ 47612(b) and 47610.)
- Comply with all applicable portions of the Elementary and Secondary Education Act ("ESEA'), as reauthorized and amended as the Every Student Succeeds Act ("ESSA").
- Comply with the Public Records Act.
- Comply with the Family Educational Rights and Privacy Act.
- Comply with the Ralph M. Brown Act.
- Comply with Government Code Section 1090, et seq., as set forth in Education Code Section 47601.1.
- Comply with Political Reform Act, Government Code Section 81000, et seq.
- Meet or exceed the legally required minimum number of school days. (Title 5 California

Code of Regulations § 11960.)

Charter School declares that it shall be deemed the exclusive public school employer of Charter School's employees for the purposes of the Educational Employment Relations Act.

Element A The Educational Program

Program Focus: Opportunities for Adult Learners

The Highlands Story
Highlands Community Charter School (HCCS) has been in operation since August 2014 and is one of two public charter schools operated by Highlands Community Charter and Technical Schools. HCCS exists to provide second chances — to serve adult learners aged 22 and older who, for a wide variety of reasons, were unable to earn a high school diploma through traditional pathways.

We serve a uniquely diverse student population, the majority of whom are immigrants and refugees. Some of our students arrive with advanced degrees from their home countries, having previously worked as engineers, teachers, and medical professionals. Others have had little or no formal education and are just beginning to learn to read, write, or speak English for the first time. Our model is built to honor this range of lived experiences — meeting students where they are and helping them reach where they want to go.

HCCS is open to all adult learners over the age of 22 and accepts students according to available capacity and lottery procedures. At our core, we believe that every student — regardless of their starting point — deserves access to a high-quality education, a pathway to a better future, and the unwavering support of a school community that sees their potential.

In July 2025, HCCS entered an era of renewal and accountability under the leadership of Executive Director Jonathan Raymond, former superintendent of Sacramento City Unified. With a sharpened focus on transparency, equity, and academic rigor, we are reimagining what second-chance education can be in California.

Our goal is to urgently rebuild an adult education program on a foundation of institutional integrity and a deep commitment to putting students first in every decision. We are raising standards across the board to implement clear policies for fiscal responsibility, place K-12 credentialed teachers in every classroom, lower class sizes, develop a rigorous and standards-aligned curriculum, enable more professional learning for teachers, and expand access to career training to support workforce needs throughout the regions we serve.

While the school has temporarily cut back staffing and reduced its enrollment capacity as part of program restructuring, it has laid essential groundwork for deep structural change. Every initiative proposed in this revision reflects our commitment to building educational programs that deliver on HCCS's commitment to serving its students, families, and the public.

HCCS has also launched a comprehensive five-year strategic planning process to reimagine how we deliver services and meet the evolving needs of our learners. We are investing in academic

excellence, workforce relevance, and a culture of care. With these changes, we believe Highlands can become a statewide model for high-quality adult education that transforms lives.

Mission Statement
HCCS is a diverse community for social justice, serving the underserved by providing access to education, technology, communication, and employment for 21st-century achievers. Through community partnerships, HCCS builds new legacies leading to self-sufficiency and generational change.

Vision
The vision of HCCS is to eradicate educational inequality and promote workforce success.

Executive Leadership
The Executive Leadership at Highlands Community Charter School provides high-quality leadership to create and sustain a meaningful learning environment that supports student academic progress.

Under the direction of the Board, the Cabinet—comprising the Executive Director, Chief Academic Officer, Chief Operating Officer, and Chief Business Officer—develops, implements, and evaluates key school systems and processes, including academic, human resources, finances, assessment, facilities, and accountability.

Leadership Team

Jonathan Raymond, Executive Director
Jonathan Raymond is a nationally respected education leader known for helping institutions navigate moments of deep crisis and emerge stronger, more accountable, and more student-centered. He most recently served as Senior Vice President and Superintendent in Residence at City Year, a national youth development and education nonprofit, where he oversaw education policy and provided strategic guidance to local and national systems working at the intersection of education, equity, and workforce development. As the Superintendent of the City School District of New Rochelle, he led the district through the final stages of the COVID-19 pandemic, investing in whole-child supports, accelerating learning recovery, and strengthening school-community partnerships. His leadership prioritized mental health, expanded after-school and summer enrichment, and delivered resources to students most impacted by the Pandemic.

Prior to that, Raymond served as Superintendent of Sacramento City Unified School District, where he guided one of California's largest urban districts through historic budget deficits, deep structural reform, and the early stages of a statewide shift toward equity-driven education. Under his leadership, the district raised graduation rates, introduced whole-child support, launched early learning and summer programs, and transformed some of its most underserved schools into high-performing campuses — all while navigating one of the toughest fiscal climates in California's history.

Raymond's crisis-tested leadership is grounded in a lifelong commitment to public service. He

previously served as Executive Director of the Massachusetts COVID-19 Relief Fund, Chief Accountability Officer of the Charlotte-Mecklenburg Schools in North Carolina, and President of the Stuart Foundation, California's largest K-12 education philanthropy. He began his career as a labor law attorney and brings legal, nonprofit, and philanthropic expertise to every challenge. He is a graduate of the Broad Superintendents Academy, holds a JD from George Mason University School of Law, an MA from The Fletcher School of Law and Diplomacy at Tufts University, and a BA from Tufts University. He also completed the Executive Management Program at Harvard Business School.

Throughout his work, Raymond has earned a reputation for putting students first, building trust in fractured environments, and helping systems rise from instability to renewal. As the newly appointed Executive Director of Highlands Community Charter, he brings that same steady hand to a school community that is ready to rebuild and thrive.

Teresa Cummings, Chief Operations Officer
Teresa holds a Ph.D. from the University of Illinois, Chicago, and has worked in the field of education for more than 29 years. Her work as a teacher, administrator, and author of mathematics curricula has spanned the breadth of the education community from PreK-12 through community college and university levels. She has extensive experience in executive-level district administration, as well as research and development for various non-profits, Riverside County Office of Education, and the Stuart Foundation, including co-development of an organizational health review.

Eric Chapman, Chief Academic Officer
Eric Chapman holds a Master of Education from California State University, Sacramento, and has dedicated more than 25 years to the field of education. He began his career as a classroom teacher and instructional coach in the Del Paso Heights School District before moving into school leadership, serving as principal at four sites within Sacramento City Unified School District. In these roles, he led transformative turnaround efforts in literacy, family engagement, and community school models, while guiding schools through continuous improvement cycles, professional learning, and student-centered restructuring initiatives. Since 2008, his leadership has focused on building systems that foster equity, innovation, and academic achievement. Eric now serves as Chief Academic Officer for Highlands Community Charter and Technical Schools, where he directs efforts in career technical education, workforce alignment, and equity-driven systems that expand opportunities for adult learners. Recognized as a mentor and collaborator, he is deeply committed to advancing student success and harnessing the power of schools to strengthen communities.

Matthew Lemos, Chief Business Officer
Matthew Lemos brings more than two decades of leadership experience in finance, operations, and team management across both the education and hospitality sectors. He began his career in the gaming industry, serving as a floor supervisor, pit manager, and head trainer, where he developed expertise in staff development, customer service, and process improvement. Transitioning to the nonprofit and education fields, Matthew has spent the past six years directing financial services for charter schools in California and Nevada. He has overseen

multimillion-dollar budgets, compliance with state and federal regulations, and the development of policies and systems that ensure fiscal stability and operational excellence.

Matthew currently serves as Chief Business Official for Highlands Community Charter and Technical Schools, where he provides strategic leadership in finance, operations, and risk management to support the school's mission of preparing career-ready graduates. Known for his strong communication skills, ethical leadership, and collaborative approach, he is dedicated to building sustainable systems that strengthen schools and expand opportunities for students and staff alike.

Melissa Roberson, Director of Accountability and Assessment
Melissa Roberson is the Director of Accountability and Assessment, bringing over a decade of experience in education with a strong foundation in teaching, leadership, and data-driven decision-making. She earned her Master's degree from the University of Southern California in 2016 and went on to serve as a principal for five years, where she championed student outcomes and teacher growth. With a background as an experienced ELD and ESL teacher, Melissa has deep expertise in instructional strategies and supporting English learners. In her current role, she oversees WASC accreditation, state reporting, and manages the relationship with the Twin Rivers Unified School District, ensuring compliance and alignment with school goals. Known for her integrity, student-centered approach, and sharp focus on data, Melissa is dedicated to building systems that elevate teaching and learning for all students.

Mayra Valdivia, Director of School Services
Mayra Valdivia is an educator and administrator dedicated to advancing student success through strategic leadership, community partnership, and program development. She began her career as a high school counselor, supporting students' academic, social-emotional, and career growth, and later served as Lead ELD Counselor, directing programs that expanded services for English learners. She went on to serve as Director of Student Services and Assistant Deputy Director at Highlands Community Charter and Technical Schools, overseeing counseling, student support, and departmental operations while strengthening community partnerships. In 2024, she was appointed Deputy Director of School Services, where she supervises directors, guides program implementation, and represents the organization in legislative and community settings to advocate for policies benefiting students and families. Mayra holds a Master of Science in School Counseling from California State University, Sacramento, and earned her Preliminary Administrative Services Credential in 2024. She has also completed leadership and charter school business officer training through the Charter Schools Development Center. Fluent in English and Spanish, she is a strong advocate for equity and access, committed to expanding opportunities for diverse student populations.

The Population HCCS Desires to Educate
HCCS has the motto "...it's never too late." The school specifically focuses on providing educational opportunities for adults 22 years and older without a US high school diploma who have been unserved or underserved by the traditional educational system. This includes students who were unable to complete high school due to circumstances such as early parenthood, justice system involvement, or economic necessity, as well as immigrants and refugees seeking educational opportunities in the United States. HCCS provides a viable educational choice for

adult learners interested in completing their high school education in a supportive environment that recognizes their diverse backgrounds, experiences, and goals.

The school serves students from 89 countries, with the five most represented countries as of the 2024-2025 school year being Afghanistan (5,830 students), Ukraine (1,383), Russia (1,356), Mexico (1,014), and Vietnam (318). This international diversity reflects both global migration patterns and Sacramento's role as a resettlement community for refugees and immigrants.

Student Population Characteristics

Demographics and Geographic Distribution

HCCS enrolls students primarily from Sacramento County, serving a culturally and linguistically diverse population. Women comprise 58.90% of the student body, men 41%, and 0.10% identify as nonbinary. The school serves grades 9-12, with all students being 22 years of age or older.

Language and Cultural Diversity

Approximately 90% of HCCTS students are English Language Learners, though the school also serves English proficient students seeking to complete their education through credit recovery. Based on enrollment data, there are multiple primary languages represented at HCCS, reflecting the diverse countries of origin of the student population. The five most represented countries at HCCS as of Census day for the 2024-2025 school year are Afghanistan, Ukraine, Russia, Mexico, and Vietnam. The table below shows the top five countries of origin for students at HCCS by year for the last three years, along with the number of students enrolled by year for that country.

	2022-2023	2023-2024	2024-2025
1	Afghanistan (2,875)	Afghanistan (3,755)	Afghanistan (5,830)
2	Ukraine (990)	Ukraine (1,305)	Ukraine (1,383)
3	Mexico (920)	Russia (1,239)	Russia (1,356)
4	Russia (634)	Mexico (1,036)	Mexico (1,014)
5	United States (381)	Vietnam (268)	Vietnam (318)

Socioeconomic Status

The overwhelming majority of HCCS students qualify as socioeconomically disadvantaged, with over 97% qualifying for this status in the 2023-2024 census, an increase from the historical 90%+ rate.

Free and reduced lunch eligibility has grown significantly:

Year	Students Eligible for Free/Reduced Lunch
2022-2023	5,690
2023-2024	9,350
2024-2025	11,546

Housing Instability
A significant portion of the student population experiences housing instability:

Year	Enrolled Homeless Students
2022-2023	450
2023-2024	1,584
2024-2025	1,365

Due to the social stigma associated with homelessness, these numbers likely represent underreporting, as many students temporarily staying with friends or family may not identify as homeless.

Student Challenges and Needs

Varied Educational Backgrounds
The educational backgrounds of HCCS students vary dramatically. Some refugee and immigrant students arrive with advanced degrees from their countries of origin and extensive English language experience, while others may have never had formal education and lack literacy in their first language. US-born students typically have experienced interruptions in their education due to various life circumstances.

Multiple Responsibilities
Many students are adults managing multiple responsibilities, including employment, family care, and basic needs. They often lack access to reliable transportation, computer technology, and childcare. Limited free time presents ongoing challenges for academic engagement and completion.

Trauma and Life Experiences
Students frequently arrive having experienced various forms of trauma including displacement, poverty, addiction, homelessness, and incarceration. Ex-offenders face particular challenges re-entering educational settings and often require additional academic and social-emotional support.

Access to Basic Needs
Many students lack access to fundamental necessities including food, appropriate clothing, school supplies, and stable housing. The refugee population faces additional challenges adapting to new customs, culture, and technology while building English proficiency and seeking employment.

Student Goals and Motivations

Students enroll at HCCS with diverse but interconnected goals: improving English language skills, completing their high school education, accessing better employment skills and opportunities, supporting their families, and participating more fully in their communities. For many, earning a high school diploma represents both a long-deferred dream and a critical step toward economic stability and further education. HCCS recognizes that academic achievement must be pursued alongside students' broader life goals, creating pathways that honor both educational attainment and personal aspirations.

Characteristics of an Educated Person in the 21st Century

HCCS holds that an educated person in the 21st century is well-rounded, literate in both academics and the needs of their well-being, and balanced in knowledge of core subjects, communication, career and civic readiness, and the use of technology. In the grades 9-12 high school context, this means students engage in a coherent course of study that builds critical thinking and problem-solving, and helps them act with increasing independence and confidence in academic and professional settings. Our students become empathetic, collaborative members of the community. Through collaboration, they set and pursue personal, academic, and career goals. A climate of mutual trust and support leads students to demonstrate empathy and to engage in respectful, productive communication. Teachers guide students to see themselves as global citizens who are empowered and responsible for making positive changes in their immediate environments and beyond. Accordingly, an educated person in California today is literate in English and able to communicate and function competitively and productively in the workforce, in higher-education classrooms, and in their communities.

Our students **seek understanding and peace** within multi-age, multicultural classrooms and respect the rights of others to do the same. We support students in developing personal habits for a healthy lifestyle—balancing academics, leisure, work, family, and community. Students who have had limited access to technology learn to use digital tools as a means to succeed in school, work, and civic life.

Our students are **scholars** who build proficiency in English, Mathematics, Science, and Social Studies/History. As members of the California/ Sacramento community, they communicate effectively and contribute to the world around them. They are prepared to meet the expectations of college classrooms and to engage thoughtfully with new ideas.

Our students are **community members** who collaborate with others, contribute to projects, and manage and resolve conflicts using the communication tools learned in our classrooms. They are motivated to provide meaningful service and to apply their developing talents in real settings. We send our students into the workforce confident in the skills they have developed and prepared to communicate, collaborate, and contribute.

Our students are **citizens** of the world who understand the foundations of constitutional democracy, the rights and responsibilities of all, and the importance of staying informed about political, social, and environmental issues. By learning together in diverse classrooms and on our

campuses, students deepen their understanding of other political, social, and cultural systems and practice peaceful coexistence.

Our students are **members of an increasingly technical and information-based world** and are competent, comfortable users of a wide range of technologies. They view technology as an integral part of learning and life and remain open to new tools and approaches as they emerge.

Educational Philosophy and Approach

HCCS supports all adult learners to have agency and to chart the path that will help them achieve their academic vision. We have research-based beliefs about learning in general, learning for adults, and learning for English Language Learners that inform our approach to teaching and learning. Our educational philosophy is grounded in three interconnected beliefs that recognize the complexity and humanity of adult learning. These principles guide every aspect of our instructional design, student support systems, and organizational culture.

Learning Occurs in the Context of Safe and Trusting Relationships

Adult learners, particularly those who have experienced educational trauma or systemic barriers, require learning environments that prioritize psychological safety alongside academic rigor. Trust is not a luxury in adult education—it is a prerequisite for the kind of vulnerable, transformative learning that leads to lasting change.

Trauma-Informed Educational Practices

Many of our students carry the impacts of various forms of trauma, including displacement or systemic oppression. Our approach recognizes that trauma affects learning by impacting memory, concentration, and the ability to take academic risks. We create predictable, supportive environments where students can rebuild their relationship with learning in contexts that feel safe and affirming.

Relational Pedagogy

We understand that learning is fundamentally relational. Students are more likely to engage in challenging academic work when they feel seen, known, and valued by their instructors and peers. Our educators invest time in building authentic relationships with students, learning about their goals, interests, and concerns. This relational foundation allows for the kind of honest feedback and academic push that leads to growth.

Community Building and Peer Support

We intentionally cultivate learning communities where students support each other's growth and success. This includes structured opportunities for peer collaboration, study groups, and mentoring relationships.

Mental Health and Wraparound Services

We recognize that academic success is interconnected with students' overall well-being. Our support systems include connections to mental health resources, basic needs support, and advocacy services that address the systemic barriers our students face. We work in partnership

with community organizations to provide comprehensive support that allows students to focus on their learning.

Addressing the Social-Emotional Impacts of Educational Interruption
Students with interrupted formal education often experience complex emotions related to their academic journey, including shame about gaps in their knowledge, anxiety about academic performance, or frustration with the pace of progress. We create learning environments that normalize diverse educational pathways and celebrate the varied forms of knowledge students bring.

Instruction Must Meet Students Where They Are
Meeting students where they are is more than an instructional strategy—it is a fundamental stance that honors the diverse pathways that bring adult learners to our doors. Our students arrive with varying levels of formal education, different cultural approaches to learning, and unique combinations of strengths and areas for growth. This reality requires us to move beyond one-size-fits-all approaches toward responsive teaching that builds on what students already know and can do.

Supporting Students with Interrupted or Inconsistent Formal Education (SIFE)
A significant portion of our student population has experienced interruptions in their formal schooling due to migration, economic necessity, political instability, or family circumstances. These students bring rich life experiences and often sophisticated problem-solving skills, yet they may have gaps in traditional academic content or unfamiliarity with formal educational expectations. We reject deficit-based approaches that focus on what these students lack, instead building comprehensive support systems that honor their strengths while addressing their specific learning needs.

Our approach to supporting SIFE students includes intensive foundational skill development alongside grade-level content engagement, recognizing that these students need both remediation and acceleration. We provide explicit instruction in academic literacy skills—including how to navigate textbooks, online curricula resources, take notes, and engage in classroom discussions—while maintaining high expectations for critical thinking and complex problem-solving.

Asset-Based Assessment and Instructional Design
We begin by understanding each student's full educational profile, including formal schooling, work experience, community involvement, and self-directed learning. This comprehensive view allows us to design learning experiences that connect new knowledge to existing understanding while addressing genuine learning needs. Rather than focusing on deficits, we identify the multiple entry points through which students can engage with rigorous academic content.

Flexible Pathways and Differentiated Support
Meeting students where they are means creating multiple pathways through our curriculum that allow for different paces, learning styles, and life circumstances. Our new curriculum, which covers all disciplines, allows teachers to alter the reading level of the text to meet the student at

their level and provide translated background text and videos that build background knowledge to enhance ELLs access to the core grade-level curriculum and the grade 9-12 California State Standards. This includes offering content in various modalities, providing choice in how students demonstrate their learning, and designing support systems that accommodate working adults with family responsibilities and other commitments.

Diagnostic and Responsive Teaching
Our teachers continuously gather information about student understanding and adjust instruction accordingly. This goes beyond initial placement to include ongoing formative assessment that reveals how students are making sense of new concepts and where additional support or challenge is needed. We create learning environments where struggle is normalized as part of the learning process, and where students receive the specific feedback they need to move forward. See more about this in the professional development section.

Cultural and Linguistic Responsiveness
Meeting students where they are requires a deep understanding of the cultural frameworks and prior educational experiences that shape how students approach learning. We work to understand not just what students know, but how they know it—the cultural tools and ways of thinking they bring that can be leveraged for new learning.

Effective Adult Learning Requires Agency and Relevance
Adult learners bring intrinsic motivation and clear goals that can be powerful drivers of academic success when properly leveraged. Our role is to create learning experiences that honor students' autonomy while providing the structure and support they need to achieve their educational objectives.

Self-Directed Learning and Goal Setting
We work with students to identify their short-term and long-term goals and help them understand how their coursework connects to these aspirations. This begins in orientation, where they learn the pathways and requirements so that students can make informed decisions about their academic path. Students participate in setting their own learning objectives within the framework of academic standards, and they regularly reflect on their progress toward these goals. This self-direction increases engagement and helps students develop the metacognitive skills essential for lifelong learning.

Choice and Flexibility in Learning
Adult learners thrive when they have options in how they engage with content and demonstrate their learning. We provide multiple ways for students to explore topics of interest, pursue individual research projects, and showcase their growing knowledge and skills.

Real-World Connections and Application
Learning feels most relevant when students can see immediate applications to their lives and goals. The curriculum we use has many opportunities to connect academic content to contemporary issues, workplace skills, and community engagement opportunities. Students

might analyze historical patterns to understand current social issues or conduct scientific investigations related to health or environmental concerns in their communities.

Career and College Integration
We explicitly connect academic learning to students' career and college goals, helping them understand how the skills they're developing will serve them in future educational and professional contexts. This includes developing academic habits of mind, communication skills, and critical thinking abilities that transfer across contexts.

Student Voice and Feedback
Students have regular opportunities to provide feedback about their learning experiences and suggest improvements to courses and programs. Please see the student survey section below for more detailed information. We view students as partners in the educational process, recognizing that their insights about what supports their learning are essential for continuous improvement. This feedback loop helps students develop advocacy skills while ensuring our programs remain responsive to their needs.

Ownership of Learning Outcomes
We support students in developing the ability to assess their own learning and set goals for improvement. This includes teaching students to use rubrics, reflect on their growth over time, and identify specific strategies that support their success.
These three foundational beliefs work together to create learning environments where adult students can achieve their educational goals while developing the skills, knowledge, and confidence they need for continued success in their academic, professional, and civic lives.

Foundational Research and Theories Supporting Our Approach

Adult Education Learning Theories
HCCS applies research-based adult learning theories to design educational programs that recognize adult students have different needs than traditional K-12 students. The school incorporates adult learning theories, differentiated instruction, and student-centered approaches to meet diverse learner needs. Malcolm Knowles' foundational research (1980) identifies key differences between adult and child learners: adults are self-directed, bring rich life experiences, are problem-oriented, and are motivated by internal factors. Patricia Cross (1981) emphasizes that adult learners are typically voluntary participants who may feel insecure about learning but are motivated to solve real-world problems. Cross identifies multiple motivation sources, including personal achievement, social factors, and career advancement.

Sociocultural Theories
According to Sociocultural Theory (SCT), social interaction is the foundation of all learning (Walqui, 2008). Sociocultural perspectives in language acquisition emphasize real-world participation with authentic language and activities that occur in everyday life (Zuengler & Miller, 2006). Some of the primary assumptions of Sociocultural Theories are that learning occurs before development, that language is the primary tool for thought (Mitchell, Myles, & Marsden, 2013), that writing and speaking are connected (Lightbrown & Spada, 2012), that

mediation is essential to learning (Walqui, 2008), and that concept-based instruction aids learning (Mitchell, Myles, & Marsden, 2013).

The Zone of Proximal Development (ZPD) and Scaffolding are two very important concepts in Sociocultural Theory. The ZPD is the stage in which the learner can advance as a result of support (scaffolding) that's provided to them by an interlocutor (Lightbrown & Spada, 2012). Scaffolding is defined as, "a process of setting up" the situation to make the student's entry easy and successful and then gradually pulling back and handing the role to the student so that the student becomes independent enough to handle it (Walqui, 2008). For example, in traditional Sociocultural Theory meaningful interactions take place between an expert (teacher) and a novice (student), where the expert provides the learner with scaffolding during the learner's ZPD.

Differentiated Instruction

Each student arrives at a different level, with unique learning styles, interests, and abilities. Recognizing this diversity, differentiated instruction is utilized to ensure the needs of all students are met. Differentiated instruction (also known as differentiated learning) is a teaching framework in which the teacher works to simultaneously address the diverse learning needs of all students in one class (Maloy, Verock-O'Loughlin, Edwards, & Woolf, 2013). It is commonly used in multi-level classrooms to meet the needs of students with special educational needs, English language learners, and with students who are advanced or in talented and gifted programs. It allows students the opportunity to learn through various avenues, and each student has different expectations based on learning styles and abilities.

According to the U.S. Department of Education's Literacy Information and Communication System (2012), differentiated instruction engages students at a range of different levels with various learning styles and makes learning meaningful for students at every level. According to Carol Ann Tomlinson (2003), differences in student learning exist in four categories: readiness (prior knowledge), interest (curiosity), learning profile (formal or informal), and affect (self-regard). Before teachers can differentiate their lessons, teachers must understand their students' levels, abilities, learning styles, interests, strengths, and challenges (Corley, 2005).

Content-Based Instruction (CBI)

CBI is particularly critical for high school English Language Learners because it addresses the dual challenge of mastering academic content while developing the academic language skills essential for school success. By embedding language development within meaningful content learning, CBI creates authentic contexts for language use, builds subject-specific vocabulary, and prepares students for college-level coursework. Research shows this empowering approach encourages learners to become independent, continuing their language development beyond the classroom while simultaneously meeting rigorous academic standards required for high school graduation and post-secondary success.

For students developing foundational language skills such as reading and writing, context plays a critical role in supporting both language and literacy development. Content-Based Instruction (CBI) provides context-rich materials through the curriculum, offering meaningful opportunities for students to build language skills while engaging with relevant academic topics. One of the

most critical challenges we face is the persistent and widening vocabulary gap, which can significantly impact the academic progress of learners across all age groups. CBI addresses this challenge.

Supporting our English Learner Population

As a charter school exclusively serving students over the age of 21, the English assessment requirements of federal and state law applicable to students aged 3 through 21, as defined by Education Code section 306, do not apply to HCCS.[1] Almost all of the students at HCCS are classified in CALPADS as adult English Language Learners or ADELs. Therefore, HCCS students do not take the English Language Proficiency Assessments for California (ELPAC) or appear in the California Dashboard for purposes of the English Language Proficiency Indicator (ELPI). HCCS goes to great lengths to serve the needs of our English Language Learners.

Language learning for adults can differ from traditional models of education. It is deeply personal work that builds on the rich linguistic and cultural assets that students bring with them. Because compulsory education requirements do not apply to adult students, myriad factors constantly pull them away from their educational goals. Our approach to supporting English Language Learners recognizes that language acquisition happens most effectively when it is meaningful, relevant, and connected to students' lived experiences and goals.

At HCCS, we understand that our students are not empty vessels waiting to be filled with English. They are accomplished individuals who have navigated complex systems, often in multiple languages, and bring sophisticated problem-solving skills and cultural knowledge that enrich our entire learning community. Our role is to create learning environments where students can leverage these strengths while building academic and professional English proficiency.

Our approach to English language learning is grounded in several research-informed principles that guide our instructional design and student support:

Language and Content Learning Are Interconnected.

Research consistently shows that students learn language most effectively when it is embedded in meaningful, content-rich contexts (see CBI explanation above). Our integrated approach ensures that students are simultaneously building language skills and engaging with rigorous, standards-aligned academic material relevant to their goals.

Students' Home Languages Are Resources, Not Barriers.

Multilingualism is an asset that enhances cognitive flexibility and cross-cultural communication skills. We create space for students to use their full linguistic repertoire as they build English proficiency, recognizing that translanguaging—the fluid use of multiple languages—is a natural and effective learning strategy. We also believe that our students bring life experience, motivation, and clear goals that can accelerate their learning when properly supported.

[1] Education Code section 306, section (a), defines “English learner” for ELPAC and ELPI requirements by incorporating the definition of 20 U.S.C. 7801 (20)(A), i.e. “the term ‘English learner’, when used with respect to an individual, means an individual who is aged 3 through 21.”

Authentic Assessment Drives Responsive Instruction.
We move beyond standardized measures to develop assessment practices that capture the full range of our students' growing capabilities. This includes portfolio-based assessments, project-based demonstrations of learning, and self-assessment tools that help students track their own progress toward their goals.

Language Assessment Upon Enrollment

As a WIOA partner, HCCS assesses all students during the admissions process and monitors their progress through CASAS testing. The first assessment, administered during registration, is the placement exam, which evaluates students' reading, writing, listening, speaking, and grammar skills. This exam is scored with an internally developed rubric.

During orientation, students also complete CASAS reading and listening assessments. CASAS provides standardized progress testing designed to measure learning along a continuum, from beginning literacy and English language acquisition through the completion of secondary-level skills. Several test series monitor student progress, with difficulty levels ranging from below Level A through Level E. Administering CASAS at enrollment establishes a baseline, followed by post-testing after 70–100 hours of instruction to track student progress over time.

If a teacher determines that a placement is inaccurate, a reassessment may be requested. If the reassessment results in a different level placement, the placement team updates the student's record in PowerSchool and informs the teacher of the revised placement.

The placement rubric is updated annually based on teacher and student feedback. Updates are shared with the curriculum team to confirm alignment with HCCS level objectives. Any additional feedback is integrated before the rubric is finalized for use in the upcoming school year.

Reclassification
As an exclusively adult-serving charter school, HCCS serves English Language learners who must be designated in CALPADS as Adult English Language Learners (ADEL). ADEL students do not participate in ELPAC testing and do not appear as English Language learners on the California Dashboard for purposes of the English Language Proficiency Indicator (ELPI). We track and report ESL advancement as determined by CASAS testing.

Enrollment and Class Size to Support Learning Goals
Enrollment at Highlands Community Charter School has increased each year since its opening. In the 2021–2022 school year, enrollment was 3,751; in 2022–2023, enrollment rose to 6,749; and in 2023–2024, enrollment grew again to 9,069 students, according to the DataQuest census day snapshot. By the end of the 2023–2024 school year, HCCS experienced a significant increase in enrollment and heavily impacted classes. Teachers reported that students were often unprepared with essential skills, and frequent roster changes disrupted instruction. In response, the enrollment process was revised for the 2024–2025 school year to better prepare students and support more strategic class planning. In the 2024-2025 school year new students were enrolled

on a biweekly basis rather than continuously throughout the term. Orientation was also updated to include study skills, academic planning, and CASAS assessments.

Five-Year Enrollment Rollout Plan
HCCS has dramatically reduced its enrollment due to updated credential requirements for teachers. As a result, HCCS has recently laid off 631 employees (teachers who only possess an adult education credential as well as staff that would support these teachers and the students that they serve).

Although we currently have over 2,700 students on a waitlist waiting to enroll, the school needs to rebuild its capacity to serve them. For the 2025-2026 school year, HCCS currently has approximately 1,000 students enrolled and plans to increase growth at a reasonable pace over the following four fiscal years as it hires and/or trains additional K-12 credentialed teachers. The five-year enrollment rollout plan is as follows:

Year	Number of Students
2025-2026	1,000
2026-2027	1,100
2027-2028	1,210
2028-2029	1,331
2029-2030	1,464

In the 2024-2025 school year, HCCTS adopted a Class Sizes and Enrollment Board Policy (6151BP) which stated that, “While California does not mandate class size limits for grades 9-12, HCCTS recognizes the importance of maintaining class sizes that promote a productive learning environment, reduce teacher workload, and enhance student engagement. Optimal class sizes are essential to support personalized instruction, improve student outcomes, and foster academic success. The Board of Directors, in consultation with the Executive Director, will establish appropriate class size limits that align with HCCTS’ instructional goals and student needs.” For the school year 2025-2026, class sizes are set at 30-1.

Class Size Guidelines

- Student-to-Teacher Ratios: Class sizes will be managed to ensure student-to-teacher ratios that support personalized instruction and academic success.

- Program-Specific Adjustments: Class sizes may vary depending on the nature of the program (e.g., independent study, bridge programs, or high school completion).

Enrollment Management

● Enrollment Caps: Each classroom will have an enrollment cap aligned with physical capacity and instructional goals.
● Monitoring and Rebalancing: HCCS Principals will regularly monitor enrollment and class sizes, making adjustments as needed to maintain educational quality and compliance with capacity guidelines.

● Cross-Reference with Physical Capacity: Class sizes and enrollment numbers will be managed in coordination with physical capacity limits as outlined in BP 7110 Physical Classroom Capacity to ensure compliance with Fire Marshal regulations and building codes.

Impact on Instruction and Student Outcomes

● Teacher Workload: Class size limits will be established to reduce teacher workload and promote effective instruction.

● Student Engagement: Class sizes will be prioritized in courses requiring intensive instruction or student participation.

Admission Process
HCCS has introduced a comprehensive admission process to better prepare and place incoming students. This process includes registration, grade level placement, an overview of student expectations and services, and covers any technology-related needs. This enhanced enrollment process ensures students are fully supported from registration to their first day, setting them up for success at HCCS.

2025-2026 ACADEMIC SCHOOL CALENDAR

July 1 - Aug 1	Summer Break	Jan 19	Martin Luther King Jr. Day	May 25	Memorial Day
Aug 4 - Aug 13	Staff Development Days	Feb 12	Lincoln Day	Jun 19	Juneteenth
Sept 1	Labor Day	Feb 16	Presidents' Day	Jun 29 - Jun 30	Staff Development Days
Nov 12	Veterans Day Observed	Mar 27	César Chávez Day Observed		
Nov 24 - Nov 28	Thanksgiving Break	Mar 30 - Apr 3	Spring Break		
Dec 22 - Jan 2	Winter Break	Apr 6 - 7	Staff Development Days		

Goals of HCCS Program and Student Learning Outcomes

HCCS has three Schoolwide Learner Outcomes (SLO):

- Academic Growth: Students demonstrate measurable achievement each term through standards-aligned assessments and performance tasks.
- Career Progress: Students make documented progress toward individualized education, workforce skill development, and career goals.
- Digital Communication: Students use technology effectively and responsibly for personal, academic, and workplace communication.

Many of our learners enter HCCS with significant gaps in English language proficiency, academic skills, communication, and technology use. These SLOs are designed to close those gaps and set students on a path to long-term college, career, and community success. To make this real in classrooms, and to build a bridge to content standards, we embed Integrated English Language Development supports within the facilitation of learning across all content areas. We monitor progress through course and credit completion, common formative assessments, and CASAS progress monitoring data.

By offering adult education to learners 22+ who have not yet earned a U.S. high school diploma, we work to reduce educational inequity. Our programs are centered around K-12 state standards shaped by the needs of our students and community, and grounded in a commitment to equity and social justice. We emphasize technology fluency, workforce readiness, and supportive services that remove barriers to learning so students can persist and complete. At HCCS, we believe in our students, we believe in our community partners, and we believe that it's never too late.

The Instructional Leadership Team: Stewards of HCCS's Academic Goals
The goals of the HCCS program are created and supported by the Instructional Leadership Team (ILT), a cross-functional leadership team. The ILT is comprised of the CAO, the principals, teacher leaders, Director of Professional Learning, Director of CASAS testing, and Director of Curriculum. The ILT meets every other week to ensure that HCCS is meeting its academic goals by analyzing student learning data and designing professional learning support that responds to these data as well as to teacher-reported needs. The ILT works to create coherence across our goals and accountability requirements to support teachers in understanding how these efforts overlap and form our core goals.

Common Core Standards
HCCS is committed to providing a rigorous, standards-based education that meets the unique needs of adult English language learners while ensuring students progress toward California State Standards across all subject areas. Our curriculum design and instructional practices are systematically aligned with the California Common Core State Standards for English Language Arts and Mathematics, the Next Generation Science Standards, and the California History-Social Science Standards. We integrate English Language Development (ELD) standards with content

area instruction, utilizing sheltered instruction strategies and culturally responsive teaching practices that honor students' diverse linguistic and cultural backgrounds. Teachers employ scaffolded approaches to make grade-level content accessible, incorporating visual supports, collaborative learning structures, and native language resources when appropriate to support comprehension and academic language development. Through regular assessment of both English proficiency growth and content mastery, we continuously monitor student progress, adjusting instruction to meet learners where they are while maintaining high expectations for academic achievement.

Core Subjects
HCCS offers students access to an A-G curriculum in English Language Arts, Mathematics, Science, History/Social Studies and electives.

English Language Arts
The English Language Arts courses guide students through a progressive sequence from foundational grammar and language skills to advanced writing, research, and literary analysis. Rooted in Common Core standards, the curriculum emphasizes critical thinking, effective communication, and collaboration. Students engage with diverse fiction and nonfiction texts from various cultures centered on Social-Emotional Learning themes, developing skills in reading comprehension, argumentation, and narrative writing. The program culminates in advanced coursework focused on research proficiency, source evaluation, and multimedia presentations, preparing learners for academic success and professional communication.

Mathematics
The Mathematics courses build foundational skills through a sequence aligned with California Common Core standards, beginning with Pre-Algebra and progressing to Algebra 1 and Geometry. Students develop proficiency with key concepts such as fractions, decimals, ratios, proportions, equations, and basic geometry. Emphasis is placed on applying mathematical reasoning to real-life contexts like financial calculations and problem-solving. The curriculum fosters critical thinking and the ability to represent mathematical situations numerically, graphically, verbally, and symbolically, preparing students for success in advanced math courses and everyday life.

History-Social Science
The History-Social Science courses provide students with a comprehensive understanding of civics, U.S. history, world history, government, economics, and ethnic studies. Instruction integrates literacy and critical thinking, connecting academic content with learners' personal and community experiences. Students explore foundational principles of democracy, historical events, cultural diversity, and economic systems, emphasizing analytical skills through document analysis and inquiry-based learning. The curriculum prepares students to engage as informed citizens, fostering cultural awareness, social justice, and active participation in society.

Science
The Science courses offer foundational courses in Earth Science and Life Science, fulfilling graduation requirements while building scientific literacy and critical thinking. Earth Science

introduces students to the dynamics of Earth and space systems, climate, natural phenomena, and human environmental impact. Life Science covers biological concepts such as chemistry, biodiversity, population dynamics, genetics, and environmental interactions. The curriculum emphasizes conceptual understanding and real-world application of scientific principles.

Visual and Performing Arts
The Visual and Performing Arts courses introduce students to fundamental concepts in stage performance, music theory, and vocal technique. Courses cover stage presence, character development, and the structure of the music industry, alongside foundational music theory, history, and vocal training. Students develop confidence and skills for performance and gain an understanding of music's cultural significance, preparing those interested in careers in music, theater, or entertainment.

Electives
The Electives program offers diverse opportunities for students to develop critical reading, communication, and public speaking skills. Courses like *Reading for Pleasure* foster a love of reading through engagement with socially relevant themes, enhancing comprehension and analytical abilities. Public Speaking electives build students' rhetorical knowledge, speech planning, and presentation skills while promoting ethical communication and confidence. These courses enrich students' academic experience and prepare them for effective expression in various personal and professional contexts.

English for Work and Life Series
The English for Work and Life Series of courses supports students at all stages of English acquisition, from emerging literacy to intermediate fluency. Courses focus on building foundational language skills through systematic instruction in phonics, vocabulary, grammar, and real-world communication. Students progress from recognizing letters and sounds to composing organized paragraphs and participating in workplace and academic conversations. Through engaging, high-interest content and digital literacy tasks, learners gain the language and confidence needed to succeed in academic, personal, and professional settings.

Curriculum

HCCTS recently engaged in a curriculum adoption process to procure Savvas, a standards-aligned curriculum for HCCS courses. We followed an articulated adoption process and received guidance from our UMass Global credentialing partner who had extensive experience with curricular materials that best serve ELLs. Our process involved reviewing materials utilized by other surrounding school districts as well as following recommendations by EdReports in order to understand the best options for our context. We engaged in vendor demos, received teacher feedback around our top choices, and delivered our final proposal to the board of directors for approval.

The HCCTS board approved the adoption of the Savvas curriculum in August 2025. There were many elements that led to this choice including a single user-friendly platform for both teachers and students, and a high rating on EdReports. The curriculum is also used by Twin Rivers

Unified School District, Elk Grove Unified School District, and Los Angeles Unified School District. In order to support teachers to gain familiarity and comfort with the new curriculum, the start of classes was extended until August 14th and teachers met in professional learning communities (PLCs) to build their knowledge of the standards-aligned curriculum. Our contract with Savvas includes access to both an online digital curriculum and to teacher edition textbooks and student workbooks.

Supports for English Learners Level 0-1

ABCEnglish
A curriculum provided by an external agency, ABCEnglish offers literacy-level lessons ideal for students who are new to learning English. Lessons are presented through accessible slides and worksheets designed for classroom delivery.

Burlington English
An online English language learning platform offering both teacher-led lessons with presentations and printable materials, as well as self-paced student lessons accessible by phone or computer. The program integrates reading, writing, listening, and speaking skills, and includes thematic content, short stories, citizenship, and Workplace English and CASAS practice modules.

EL Civics Curriculum
In-house developed theme packets intended to support English Language Learners with English language acquisition, civic participation, and workforce skills. Aligned to ESL objectives from CASAS and NRS ESL levels.

Understanding Learning: Using Student Assessments to Support HCCS Goals

We employ multiple forms of assessment to monitor student progress and inform instruction:

- **Formative Assessments:** These include ongoing evaluation through teacher observation, projects, presentations, and performance tasks.
- **Summative Assessments:** End-of-unit and semester evaluations measuring mastery of learning objectives. These assessments are part of the core curriculum.
- **Portfolio Assessments:** Student-led self-assessment using assignments of choice to demonstrate learning in students' focal areas. The ILT is currently mapping the implementation of the portfolio project.
- **Student Surveys**: Self-perception data helps us to understand the student experience.
- **CASAS testing:** Comprehensive Adult Student Assessment System, a competency based adult assessment program validated by the U.S. Department of Education for use in adult education conducted after 70-100 hours of instruction time. The assessment is administered every 6-8 weeks.
- **CAST:** California Science Test, a state assessment mandated for those in high school.
- **CAASPP**: California Assessment of Student Performance and Progress, a state assessment mandated for those in high school grade 11.
- **EL Civics Assessments**

Administered 3 times per program year

- **ELD Level Placement Test**
  Upon enrollment
- **ELD Level Exit Test**
  Administered to determine readiness to advance to the next ELD level

Professional Development Supporting HCCS Goals

High-quality professional learning is about creating a learning system. It is more than training staff in best practices; it is about creating a culture of curiosity that acknowledges the uncertainty inherent in teaching and learning. Central to our revised professional learning program is creating a practice of inquiry at the leadership level that focuses its interest on the practitioners working most closely with the students. What are teachers learning about their students' learning? Where are teachers' gaps in knowledge and capacity? These are the questions that inform the design and goals of the professional learning offerings.

HCCS leadership works in partnership with HCCS principals and teacher leaders through the ILT to take a partnership approach to designing professional learning. There are several core beliefs about practitioner-based learning that informs the HCCS approach to professional learning:

- Teaching is complex and uncertain work that requires an inquiry stance to ensure that students' needs are being met.
- Agency and relevancy are guiding drivers for adult learners; being able to articulate their own goals and see where they are on the path to achieving those goals is essential for adult learners.
- For instruction to be changed and improved, the learning experience of students must be public (not hidden away).
- Educators (teachers and leaders) are professionals engaged in important work, and they deserve a level of professional support and care that takes their work seriously.
- Pursuing collective goals is essential to supporting systems transformation

Professional Development Focusing on Language Acquisition
Central to HCCS professional development is continuously developing strong instructional strategies to meet the needs of our ELLs. Supporting English Language Learners effectively requires ongoing professional learning and reflection. All HCCS educators engage in continuous inquiry about how to better serve our multilingual learners.

Language-Responsive Teaching Practices
Our professional learning focuses on developing instructional strategies that make content accessible while maintaining high expectations. This includes training in visual supports, collaborative learning structures, and formative assessment techniques that help teachers understand what students know and can do.

Cultural Responsiveness and Asset-Based Thinking
We work to examine our own assumptions about language learning and ensure that our instructional practices build on students' cultural and linguistic strengths. This includes learning

about our students' educational backgrounds and understanding how different cultural approaches to learning can inform our teaching.

Data-Informed Decision Making
As part of our inquiry-based PLCs, we develop systems for collecting and analyzing data about student language development that go beyond test scores. This includes documentation of student growth in academic discussions, writing development over time, and students' own reflections on their learning progress through portfolios.

Our commitment to English Language Learners extends beyond language acquisition to encompass the full development of students as confident, capable learners who can succeed in their chosen academic and professional pathways. Ultimately, we measure our success not just by English proficiency gains, but by our students' ability to use their multilingual skills to contribute meaningfully to their communities and achieve their educational goals.

HCCS Professional Learning Structures
There are multiple existing structures that support professional development at HCC for teachers and leaders.

Friday Professional Development Sessions
Our bi-weekly Friday afternoon professional learning sessions are designed as both collaborative inquiry spaces where educators engage in job-embedded learning directly connected to their daily practice, and also an opportunity to receive specialized instructional support that they or the Instructional Leadership Team has requested. These sessions follow a flexible structure that can shift between collective inquiry—examining student work and learning data to collaboratively problem-solve around specific instructional challenges—and targeted professional development that addresses identified needs such as trauma-informed pedagogy, advanced strategies for supporting students with interrupted formal education, or innovative approaches to integrated content-language instruction.

Teachers work in cross-disciplinary teams when engaging in inquiry cycles, analyzing how their students are navigating rigorous academic content and sharing effective practices for maintaining high expectations while providing comprehensive support. When focused on specialized instruction, sessions might feature expert facilitators, peer observations with feedback, or deep dives into research-based strategies that teachers have specifically requested to strengthen their practice. This dual approach ensures that professional learning is both responsive to emerging classroom needs and proactive in building the specialized expertise our diverse adult learner population requires, while maintaining our commitment to practitioner-centered learning that directly impacts student success.

Bi-Monthly Principal PLC
Leading is complex and uncertain work, and HCCS supports its two principals in PLC sessions led by the Chief Academic Officer. This principal learning community operates as a space for collaborative problem-solving where school leaders can examine challenges, share effective practices, and develop coordinated approaches to supporting their unique adult learner populations. Sessions focus on analyzing school-level data to understand how students are

progressing toward their educational goals, discussing instructional leadership strategies that support teachers in serving English Language Learners and students with interrupted formal education, and developing systems-level responses to emerging needs within their school communities. The Chief Academic Officer facilitates these meetings using the same inquiry-based approach that guides teacher professional learning, encouraging principals to bring real dilemmas from their practice, examine multiple perspectives, and test solutions collaboratively. This structure ensures that leadership decisions are grounded in evidence and aligned across both school sites, while providing principals with the professional support and intellectual partnership they need to lead effectively in the complex landscape of adult education. The PLC also serves as a space for principals to reflect on their own growth as instructional leaders and to coordinate their efforts in supporting teacher development and student success.

Twice Per Week Teacher PLCs

Teachers engage in professional learning community work twice weekly, with sessions strategically designed to strengthen both instructional planning and data-informed decision making. One session each week is dedicated to collaborative planning time where teachers work in grade-level or content-area teams to design learning experiences that integrate rigorous academic content with the specific supports their English Language Learners and students with interrupted formal education need to succeed. These co-planning sessions allow educators to share strategies, align expectations across courses, and ensure that assessment practices accurately capture student growth while maintaining high standards. The second weekly session follows protocols and practices that focus on collaborative examination of student work and performance data to understand learning patterns, identify instructional adjustments, and develop targeted interventions. During these data inquiry sessions, teachers bring actual student artifacts—writing samples, project work, assessment results—and engage in structured conversations that move beyond simply identifying which students are struggling to understand why certain approaches are or aren't working and what specific instructional moves might better support student learning. This dual structure ensures that teachers have dedicated time for both proactive planning and reflective analysis, creating a continuous cycle of improvement that keeps student learning at the center of all professional practice.

Teacher Coaching

Teaching standards-aligned high school curriculum to newcomer adults with varying degrees of education in their home language and a wide range of English skills is challenging teaching. To support excellent instruction, HCCS is in the process of investing in on the ground coaching for our teachers. This will include the opportunity to observe instructional models, to co-plan with professionals with expertise in supporting students with interrupted formal education, and to engage in guided reflection on the impact of instruction. At the time of the writing of the material revision, we plan to begin Phase 1 of the teacher coaching program by October 15th. Principals, the Director of Professional Learning, the Curriculum Coordinator, and teacher leaders will participate in a rigorous train-the-trainer model to enable sustained on the ground support of teachers ongoing development.

The Role of Data and Assessments in Informing Instructional and Systems Improvement

Assessment is a core to instructional improvement at HCCS. Not only does assessment tell us

where our students are in their learning, but patterns in the data reveal where we need to focus our professional learning efforts. HCCS is committed to creating a system that is responsive to what we are learning about our students and their needs. Leadership is curious about what is happening between the teacher and the student and rests its instructional improvement design on the data that comes from the classroom.

Formal Assessment and Improvement
The instructional leadership team (ILT) will review CASAS data to understand students' academic progress and to track areas where we need to improve our instructional approach. In addition, the ILT will use CAASPP and CAST data to understand the general themes in improvement and then support teachers to use more granular classroom data to understand barriers to student progress.

Informal Assessments and Improvement
Working in their PLCs, teachers will use classroom-based data– both qualitative and quantitative to determine the areas of their practice where they would like more support. This is one source of the design for the content input on PL Fridays. The ILT uses classroom observation data to help determine the focus of improvement efforts.

Student Climate Surveys and Systems Improvement
Centering the students' experience as core to our approach to improving the learning experience The HCCS instructional improvement process involves looking at both student mastery data and student perception data. One important source of student perception data is the student climate surveys. While we do not rely on this self-report data to give us the whole picture of the student learning experience, we do value this source of data to understand HCCS's social and emotional conditions for learning.

Every year, HCCS conducts anonymous student climate surveys. These surveys are sent out to students in the following languages:

- English
- Arabic
- Spanish
- Persian
- Armenian
- Pashto
- Russian
- Turkish
- Ukrainian
- Vietnamese
- Chinese

Students have access to completing these surveys via QR codes, push notifications sent to their cell phones, with the support of their teachers in their classrooms, and via the Brain app.

Teachers encourage and support student participation by engaging students in lessons that have practice surveys. Paraeducators are also utilized to provide language support during this process. The purpose of these surveys is to understand the following:

- Relationships
- Classroom Climate
- Classroom Support and Access to Resources
- Goal Setting & Student Progress
- Safety, Maintenance, and Facilities
- Workforce and CTE Programs
- Lessons, Instruction, and Curriculum

HCCS students are asked to read each statement and indicate their level of agreement with the statement from the following options:

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly Disagree

The table below shows the percentage of HCCS students who agree or strongly agree with each statement for the year indicated for the last three years.

Survey Statement	2022 - 2023	2023 - 2024	2024 - 2025
Lessons help me in my daily life.	96%	88%	95%
Lessons are interesting.	95%	90%	95%
I know what I need to do to make progress in my classes.	96%	90%	94%
The lessons (in person or online) help me learn (My teacher offers me an opportunity to learn everyday).	95%	89%	95%
I have the learning materials (pencils, notebooks, binders, books) I need to learn.	95%	89%	94%
I have the technology I need to learn.	95%	91%	96%
The school, classrooms, and buildings are clean and in good condition.	96%	94%	93%
The school tells me important information regularly (holidays, school announcements, events).	94%	95%	97%
All students from different backgrounds and countries are treated kindly.	92%	96%	97%
All students from different cultural backgrounds, races, or ethnicities respect each other at school.	92%	97%	96%

My teacher really cares about me and respects me.	93%	98%	98%
My counselor really cares about me and respects me.	91%	92%	87%
The school helps me turn my college and career goals into a plan.	90%	84%	88%
I know how to get help if I feel sad, stressed, lonely, or depressed.	85%	78%	85%
I want to learn more about mental health and how to deal with stress.	76%	57%	67%
I feel connected to the school, my classmates, and teacher.	85%	83%	90%
I feel safe at school (I trust our leaders to make our school safe).	87%	95%	94%
I know how to log in and check my student email.	72%	90%	93%
I know how to log in to my online learning tools	77%	84%	91%
Highlands helps me learn to use technology by giving mobile devices and digital literacy training.	64%	79%	94%
I use my school phone, Chromebook, or hotspot 5 or more days a week.	*ND	*ND	77%

**ND denotes that there was no data available for that school year*

Student Academic Supports

Because many of our students have little prior education in their native language and, for many of them, they come in with low levels of English, HCCS provides extra support to ensure students' academic success. Classroom teachers are available to meet with students before and after school during their office hours to support students who are struggling academically.

Paraeducators

English proficiency and learning needs vary widely for our incoming students. HCCS paraeducators provide crucial language scaffolding by providing individualized instructional support in students' native languages and creating more opportunities for meaningful English language practice, ensuring that our Level 0 students can fully benefit from our educational programs.

Additionally, paraeducators who share students' cultural backgrounds can create a more comfortable environment that reduces the anxiety often experienced by new students and immigrant populations. While teachers focus primarily on academic instruction, paraeducators provide crucial social-emotional support to help students navigate their educational environment successfully. Paraeducators also help students build digital literacy, fluency with the HCCS systems, and provide academic support.

HCCS hired 32 new paraeducators in 2024–2025 to expand instructional support across its sites. All but two of those paraeducators were released in June 2025 as part of the school’s

restructuring process, which prioritized staffing of credentialed instructors. HCCS plans to rehire three additional paraeducators this school year as it builds its program capacity and will further increase paraeducator staffing as part of its sustainable five-year growth plan.

Literacy Support
During the 2025-2026 school year, HCCS will hire staff to provide literacy support for English language learners. This will focus on building literacy through phonemic awareness, phonics, vocabulary building, pronunciation, and writing skills.

Tutoring Program
HCCS will implement an in-person tutoring program to replace previous online tutoring opportunities. Based on feedback from students and staff, online tutoring no longer effectively serves the needs of our student population. Key challenges, detailed below, include a lack of digital literacy skills, low student engagement, and limited availability of support. The design of our in-person tutoring program will focus on effectively addressing these findings.

<u>Challenges for Students Accessing Online Tutoring</u>

- Cultural barriers – example: Afghan women
    - Our student population with the highest level of need for one-on-one tutoring
    - Working one-on-one with male tutors would violate cultural and religious norms
    - Afghan women typically have limited experience or skill with technology
    - Afghan women may have limited literacy skills and English language skills
    - Require in-person, one-on-one support by Dari or Pashto-speaking women tutors
- Technology barriers
    - Online login processes may limit access for students with low technical proficiency
    - Our student population may not have access to high-speed internet at home
    - Our student population may not have a device with internet access for use at home
    - Most online tutoring is chat-based, requiring literacy and typing skills
- Linguistic barriers
    - Top 5 languages:
        - Dari
        - Pashto
        - Ukrainian
        - Russian
        - Spanish
    - Online tutoring by English-speaking tutors cannot support students with limited English proficiency

<u>In-Person Tutoring Program Design</u>
HCCS is in the process of contracting with a tutoring business to offer students in-person tutoring that will:

- Account for cultural and technological barriers when assessing student needs
- Staff tutors who can serve specific cultural and linguistic populations of greatest need
- Implement and refine best practices for providing one-on-one academic support

- Develop robust translated learning materials for students in multiple formats

Student Success Team (SST)
At HCCS, the Student Success Team (SST) process is a collaborative, data-driven approach to identify and implement support strategies for students experiencing academic, behavioral, or attendance-related challenges. The goal is to equip educators with additional tools and resources to meet students' needs in the general education setting and, when necessary, connect students with services such as tutoring, counseling, or basic needs assistance. While SST may result in a referral to a 504 committee, its primary function is not to initiate such referrals.

SST Membership and Roles
SSTs are convened by the Director of Student Services or designee and include the student's counselor (as the facilitator), current teacher(s), the student, and guardians when applicable. Additional specialists such as social workers, speech therapists, healthcare providers, paraeducators, and language navigators may be invited based on student needs.

Referral Process
Students may be referred to the SST for persistent academic or behavioral concerns. Before referral, teachers must document the use of differentiated instructional strategies and collaboration with other staff. Referrals are submitted using a standardized form and must include relevant data such as attendance records, academic assessments, behavior logs, and prior interventions.

SST Meeting Process
Scheduling: SST meetings are scheduled promptly based on the urgency of the concern and include all relevant team members.

Data Collection
The team reviews comprehensive student data to inform the discussion.

Intervention Planning
A tailored plan is developed with specific goals, strategies, responsible staff, and a timeline for implementation.

Follow-Up
A follow-up meeting is held six weeks after the initial meeting to assess student progress and adjust the intervention plan as needed.

Documentation
All decisions, meeting minutes, and progress reports are documented and stored in the student's confidential file in accordance with FERPA and HCCTS policy.

SST Outcomes
The SST may recommend continued interventions within the general education setting, changes in instructional methods or placement, referrals to support services or external agencies, or, if

appropriate, a referral to the 504 Committee. All recommendations are monitored and evaluated for effectiveness.

Confidentiality and Compliance
SST processes comply with all applicable privacy laws, including FERPA. All records and discussions remain confidential and are shared only with authorized personnel.

Socioeconomically Disadvantaged Students
At Highlands Community Charter School, students from low socioeconomic backgrounds thrive and learn in a nurturing, caring, and collaborative environment. HCCS identifies socioeconomically disadvantaged and low-income students consistent with state and federal definitions upon registration through our Household Income Data Collection form and PowerSchool SIS system. This subgroup makes up a large majority of our student population.

To best serve our socioeconomically disadvantaged and low-income students, HCCS provides professional development that is focused on intentional instruction, reflecting a diagnostic approach that is driven by identified instructional needs. HCCS teachers understand the importance of positive teacher-student relationships and how to incorporate continual monitoring and assessment to guide instruction. Students participate in academic enrichment activities that align with their level-pacing academic plans and learn cognitive strategies such as the structure of language, how to establish goal-setting and procedural self-talk, how to sort relevant from irrelevant cues, and how to use mental models. Additionally, to meet the economic needs of these students, HCCS holds workshops with partners on issues related to economic need and building financial independence.

Instructional Days and Minutes Calculations
HCCS maintains multiple bell schedules that consistently exceed the minimum instructional time required under Education Code Section 47612.5(a), which mandates 64,800 minutes annually. Both AM and PM bell schedules detail 5 consist of 5 instructional days, Monday through Friday with 5 periods each except on 17 modified Friday schedules designed to incorporate time for teacher professional development. The Academic Calendar(found on page 25) includes 197 instructional days, 180 regular and 17 modified Fridays, totaling 65,087 minutes for both AM and PM schedules.

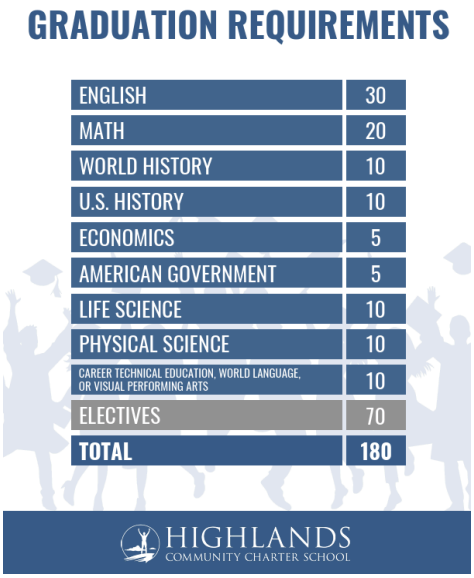
Graduation Requirements
HCCS' high school students are eligible to graduate when they have been awarded 180 high school credits: 110 Academic including a mandatory 10 credits academic credits from Workforce Readiness courses, and 70 in elective or Career Technical Education (CTE) credits. As part of the 180 credits, transfer credits and employment credits count toward this total. As soon as the high school students complete 180 credits and those credits are verified, students are eligible to apply for their diplomas. After students receive their diplomas, they are asked to participate in a graduation ceremony.

Counselors help ensure students meet graduation requirements by developing graduation plans and conducting regular check-ins. During check-ins, counselors update students on their academic progress, including credit attainment and requirements left to graduate. Each student is provided with an academic progress report. In the 2024–2025 school year, we have adopted A–G approved courses to expand college readiness opportunities for our students. As part of this effort, counselors engage students in conversations about their aspirations for higher education as they approach the high school program.

Subject to appropriations by the State, the Charter School will comply with requirements under AB 101 to offer a one-semester course in ethnic studies and will mandate that students complete this course as a graduation requirement commencing with students graduating in the 2029-30 school year.

The Charter School will comply with requirements under AB 2927 to offer a one-semester course in personal finance by the 2027-28 school year and will mandate that students complete this course as a graduation requirement commencing with students graduating in the 2030-31 school year.



Attendance Policy
HCCS recognizes that attendance is a critical indicator of student progress and overall academic success. Despite the inherent challenges in ensuring consistent engagement among adult learners across all instructional periods, the school remains committed to full-day attendance expectations for all students.

In the 2024–2025 school year, HCCS has implemented a series of initiatives aimed at improving student attendance, enhancing the accuracy of attendance reporting, and strengthening accountability measures for both educators and administrators. These efforts include the adoption of a revised Attendance Enforcement Policy (BP 5113.1) by the HCCS Board of Directors on March 20, 2025. Key changes in the updated policy include:

- 80% Daily Attendance Rule: Students must be present for at least 80% of scheduled instructional hours weekly.
- 15-Minute Rule: Students who check in but leave within the first 15 minutes of class without prior approval will be marked absent. Repeated violations may result in intervention and disenrollment.
- Meaningful Engagement: Attendance is verified by meaningful engagement. Students who check in but fail to participate meaningfully will be marked absent.
- Forgery of Attendance Records: Any student found falsifying attendance records, including signing in for another student, will face disciplinary action, including possible suspension, expulsion, or disenrollment.

HCCTS employs tiered intervention strategies to support students struggling with attendance before taking disciplinary action:

- Notifications: Calls, text messages, and emails will provide immediate alerts to students who have not met attendance requirements.
- Outreach & Support: Students flagged for low attendance will be contacted by school staff to assess barriers and develop a support plan.
- Attendance Contracts: Students with ongoing attendance issues may be placed on a probationary attendance contract outlining expectations and consequences.
- Disenrollment Procedures: Students failing to meet attendance requirements after documented interventions may be disenrolled following due process, as outlined in BP 5111.5 (Disenrollment).

Additionally, HCCS has drafted and adopted the following policies to help enforce attendance.

  - 5111.5 Disenrollment and Involuntary Removal (Revised and Approved 03/20/2025) - Outlines the involuntary disenrollment for students who accumulate ten consecutive unexcused absences despite HCCS staff's efforts to re-engage them.
  - 5120 BP Satisfactory Academic Progress (Approved 03/20/25) - Outlines students must maintain active attendance
  - 5131 BP Student Conduct (Revised and Approved 03/20/2025) - Outlines the ramifications of students who forge attendance records
  - 6164.5 BP Student Success Teams (Revised and Approved 04/25/2025) - Outlines interventions to support students reportedly struggling with attendance

In addition to the board policies, HCCS has updated the bell schedule for the 2025-2026 school year, which now contains 5 periods rather than 3 periods for the AM schedule. It meets the minimum number of instructional minutes, and it has only one PM schedule for all sites, rather than three (as in the 2024-2025 school year).

Record Retention & Compliance

- BP 5120 (Satisfactory Academic Progress) now mandates that manual attendance records, including sign-in sheets, be retained for three years in both physical and digital formats to ensure compliance with California Code of Regulations, Title 5 and facilitate accurate auditing.
- The Director of Attendance is responsible for overseeing record retention and compliance audits to maintain regulatory standards.
- Random attendance audits will be conducted regularly to identify and prevent discrepancies.

We believe in holding our students accountable and supporting them when they need it. Our paraeducators, teachers, and counselors maintain communication with our students when students are absent. We want to ensure that if our students are having personal hardships, we are supporting them and providing them with every service we have available, either at HCCS, at one of our partner organizations, or at an external location.

Attendance Calendars
In the 2024-2025 school year HCCTS contracted with Charter Impact to assist with setting up 20-day Attendance Calendars in PowerSchool to ensure correct divisors in calculating ADA for P-2.

Effective October 2024 HCCTS began using a 20-day calendar as required by Ed Code. This has been corrected for the 24-25 school year and will be accurate for all school years moving forward.

An example of the 20 day calendar can be seen below for the 2025-2026 school year:

Academic Progress
HCCS has established a Satisfactory Academic Progress (SAP) policy (BP 5120) to ensure that students are consistently advancing toward their academic and career goals. This policy applies to all students enrolled in high school education. To remain enrolled, students must meet SAP standards, which include maintaining a minimum GPA, earning required credits, making measurable progress in English language acquisition (for ELD students), and fulfilling the specific SAP criteria of their CTE programs. SAP is evaluated every six weeks, and students who do not meet the requirements may be placed on Academic Notice. Continued noncompliance will result in disenrollment.

Attendance and engagement are also key components of SAP evaluation, with manual

attendance records retained for at least three years in accordance with California regulations. Students who do not meet SAP in their CTE program may appeal by submitting a written reflection and evidence of corrective actions. Approved appeals result in a probationary period during which students must meet SAP standards to maintain enrollment. The policy aligns with state and federal regulations and is reviewed regularly to ensure legal compliance and support for student success.

Career Technical Education (CTE)

CTE programs provide students with hands-on job training while earning course credits and industry recognized certifications. Courses help students build skills for careers, develop student agency and confidence, and build social capital, all while pursuing career pathways that allow students to earn a liveable wage

HCCS recognizes the importance of robust Career Technical Education programs, especially for traditionally underserved students. Programs in the past were developed with student interests in mind and course expansion was historically based on student interests. Moving forward, HCCS will align workforce needs with student interests to identify the most viable CTE classes and pathways.

Currently, HCCTS offers one Personal Finance course as part of our CTE program. We are looking to add a licensed real estate class, relaunch the culinary, welding, health services, early childhood education, and digital literacy classes in the new calendar year. Further efforts to expand CTE offerings revolve around business, community organization and school partnership. The redesign effort is just beginning, and involves identifying the leading businesses and industries in the Greater Sacramento Metropolitan that have job opportunities at liveable wages and can support workforce development pathway programs for students with industry aligned certificates. Community-based organizations are serving as intermediaries to facilitate employer and school-based connections, and later to provide adult mentors and internship opportunities for students. The redesign emphasizes clear pathways, flexible schedules, strong language supports, and meaningful work based learning. New courses will be carefully vetted and released in phases.

Highlands Community Charter School currently offers one Personal Finance through the CTE program in 2025-26. To grow capacity and pathway offerings, our CTE program is entering a redesign led by a cross functional team. We are centering student voices and using labor market data and teacher input to shape offerings that put learners first. The plan emphasizes clear pathways based on local and regional employer needs, flexible schedules, strong language supports, and meaningful work based learning. Courses will be carefully vetted and released in phases based on sustainable capacity and resources.

HCCS will have seven CTE programs in the 2025-2026 school year:

- Culinary Arts
- Digital Literacy and Multimedia
- Early Childhood Education (ECE)
- Medical Services

- Microsoft Office Specialist (MOS) Certification
- Personal Finance
- Real Estate

Culinary Arts

Culinary Overview

Introductory culinary skills with emphasis on safety, sanitation, knife skills, basic cooking methods, menu planning, and kitchen teamwork.

Culinary Target Certifications

- ServSafe Food Handler (all students)
- ServSafe Manager offered where feasible and appropriate

Culinary Program Requirements

- Safety routines, lab participation, and recipe labs portfolio
- Food handler exam completion; uniform and non-slip shoes for lab days

Work-based Learning

- Guest chefs, site tours, catering practice for school events, community tastings
- Instructor recruitment plan prepared (internal posting or partner hire)

Digital Literacy and Multimedia

Digital Literacy and Multimedia Overview

Practical digital storytelling with emphasis on device basics, file management, online collaboration, visual design, audio and video basics, and portfolio building.

Digital Literacy Target Certifications

- IC3 Digital Literacy certification, where available
- Adobe Certified Professional exam prep in tools such as Photoshop, Illustrator, or Premiere Pro when feasible
- School-issued certificate of completion with project portfolio

Digital Literacy Progress

- Curriculum outline drafted; equipment and facility scheduling in planning with partner

Program Requirements

- Completion of project-based modules and a curated digital portfolio
- Regular practice in productivity and creative apps; responsible use and digital citizenship modules

Digital Literacy Work-based Learning

- School communications projects, partner briefs, social media content labs, guest designers and media professionals

Digital Literacy Progress
- Curriculum outline drafted; device and software access plan in place with partner sites
- Instructor recruitment plan prepared (internal posting or partner hire)

Early Childhood Education (ECE)

ECE Overview
Prepares students for entry roles in preschool and childcare settings with a focus on child development, safety, learning environments, and family partnerships. Strong language supports are embedded for multilingual learners.

ECE Target Certifications
- Pediatric CPR and First Aid
- California Mandated Reporter Training
- California Child Development Permit pathway awareness; assistance with Assistant or Associate Teacher permit application where eligible

ECE Program Requirements
- Attendance and completion of coursework and practicum tasks
- Readiness for site requirements when applicable (background clearance, TB test, immunizations per host site; program will help students navigate)
- Portfolio with lesson snapshots, observation notes, and reflections

ECE Work-based Learning
- Classroom observations, lab hours, guest talks with site directors, optional short externship when available

ECE Progress
- Hiring teachers for this program
- Curriculum map drafted using English for Work and Life for integrated language routines
- Site partner list in development for observations and talks

Medical Services

Medical Services Overview
Entry-level health care services skills with emphasis on patient safety, infection control, vital signs, medical terminology, front office workflows, and team communication.

Medical Services Target Certifications
- American Heart Association BLS CPR and First Aid
- OSHA Bloodborne Pathogens awareness
- HIPAA privacy and security training
- Where feasible and appropriate: NHA Certified Medical Administrative Assistant exam prep

Program Requirements
- Safety routines, lab skills checklists, and a skills and reflections portfolio
- Completion of required CPR and safety training; appropriate attire for lab days

Work-based Learning
- Guest talks by medical assistants and clinic managers, site tours, mock front desk scenarios, community health events

Microsoft Office Specialist (MOS) Certification Prep

MOS Overview
Hands-on prep for industry-recognized Microsoft Office Specialist exams. Focus on Word, Excel, and PowerPoint with options to extend to Outlook or Access based on student goals.

MOS Target Certifications
- Microsoft Office Specialist Associate exams (Word, Excel, PowerPoint)
- Option to pursue additional exams for Expert level where appropriate

MOS Program Requirements
- Regular practice in Office applications; completion of scenario-based projects
- Exam readiness checks; testing through a Certiport Authorized Testing Center (onsite or partner)

MOS Work-based learning
- Real world admin projects, resume and report formatting, data dashboards for career pathways

MOS Progress
- Two MOS CTE teacher positions posted
- Certiport testing access plan underway (site authorization or partner center)

Personal Finance

Personal Finance Overview
Practical money skills for work and life: banking, budgeting, credit, debt, insurance, taxes, benefits, and introductory investment. Currently offered; will continue within CTE to strengthen career readiness.

Personal Finance Target Certifications
- Local certificate of completion with portfolio evidence
- Optional third-party exam (for example, W!se Financial Literacy Certification) if adopted by the school

Personal Finance Program requirements
- Completion of unit tasks and a capstone budget and benefits plan
- Demonstration of digital skills for online banking simulations and tax prep scenarios

Personal Finance Work based learning
- Speakers from banks and credit unions, mock benefit selection, VITA site visit when available

Personal Finance Progress
- Running now; pacing and assessments aligned to power standards are being finalized for 2025–2026

Personal Finance Progress
- Curriculum outline drafted; lab equipment and site visit scheduling in planning with partner clinics
- Instructor recruitment plan prepared (internal posting or partner hire)

Real Estate

Real Estate Overview
Foundations of residential real estate with emphasis on California practice and principles, ethics, property types, basic finance, contracts, and client communication.

Real Estate Target Certifications
- Preparation for the California Real Estate Salesperson license pathway
    - Completion of required coursework hours and state application steps
    - Exam readiness checks and study support

Real Estate Program Requirements
- Completion of course modules and case studies; portfolio of forms, disclosures, and client communication samples
- Attendance at exam prep sessions; Live Scan and state application guidance provided

Real Estate Work-based Learning
- Guest brokers and agents, office tours, open house observations, neighborhood property walks, mock client meetings

Real Estate Progress
- Curriculum outline drafted; broker partner interest meetings underway
- Instructor recruitment plan prepared (internal posting or partner hire)

CTE Program Accountability and Progress Indicators

- Access: enrollment by site and pathway; ELD levels served
- Engagement: attendance and weekly progress submissions

- Learning: pass rates on unit performance tasks and portfolios
- Credentials: number of certifications earned (ServSafe, MOS, CPR/First Aid, Mandated Reporter, optional personal finance cert)
- Work based learning: hours, site visits, guest speakers, externship participation
- Placement and advancement: students moving into jobs, internships, capstone, or next level training

Workforce Services

The Center for Workforce Solutions is located at the main campus on Hillsdale Blvd. The Center accepts both walk-ins and appointments and connects students to a variety of services including:

- Job fairs
- Job search services
- Assistance with CalJOBS
- Application help
- Resume and CV writing
- Cover letter writing
- Interview practice and preparation
- Job postings
- On-site interviews and hiring
- Free Application for Federal Student Aid (FAFSA) support
- College campus tours
- Referrals to partners and other external agencies
- Center for Workforce Solutions

Workforce Innovation and Opportunity Act

In 2014, the Workforce Innovation and Opportunity Act (WIOA) became law, formerly known as the Workforce Investment Act (WIA). It is designed to help job seekers gain access to education, training, and employment and to ultimately help unemployed and underemployed youth, dislocated workers, and workers with disabilities to successfully find jobs.

Under Ed. Code 47605.1(f)(1) HCCS provides instruction exclusively in partnership with the federal Workforce Investment Act of 1998 (29 U.S.C. Sec. 3101 et seq.), now known as WIOA. HCCS partners with The Sacramento Education and Training Agency, the local workforce development board for Sacramento County. All students may only be admitted under the terms of an exclusive partnership agreement, which limits students to those 22 years of age or older.

Under Education Code 47605.1(f), other than being required to have sites in California, there are no other jurisdictional boundaries for campuses of Highlands Community Charter School due to our WIOA exclusive partnership requirement.

Technology

HCCS students have varying levels of knowledge and experience with technology. Some students are very familiar and comfortable using computers and computer programs. Some students have excellent typing, composition, and internet skills, while others struggle to turn on a computer.

HCCS prioritizes and supports the use of technology in our learning environments because increasing experience and proficiency with technology contributes to successful educational outcomes and better career opportunities for 21st-century learners. Because digital resources can provide valuable benefits to our students, we design our learning programs to help them build digital literacy for the modern age.

One goal at HCCS is to help students integrate technology into their lives via classroom lessons, relevant examples, classwork, projects, and opportunities to improve communication skills. Technology standards and objectives are integrated into the curriculum and clearly defined for the teachers. Across varying sites, the teachers incorporate technology into their lessons. Teachers use educational learning videos, tutorials, web-based reading programs, Microsoft Office, and Google Classroom. Teachers model the use of technology in their classrooms and show students how to access and utilize key tools such as email and document sharing. HCCS expects teachers to use and adapt technology as appropriate to accommodate students' varying skill levels and educational needs. In addition, the IT Department and Digital Navigators work diligently to support teachers and students who need assistance expanding their digital skills.

In recent years, HCCS has overcome complex challenges to ensure that its students, teachers, and school sites have equitable access to technology. With support from our IT Department, all HCCS classrooms now have access to the items listed below.

Equipment Available in HCCS Classrooms

Standard Equipment (All Classrooms)

- Projector onto whiteboard
- Document Camera
- Speakers
- 30 Chromebooks
- 30 over-the-ear headphones w/mic
- 1 Charging cart

Available upon Request (All Classrooms)

- Additional Chromebooks and headphones
- Projector Screen
- Student Earbuds

We believe that digital literacy will become increasingly crucial for student success in the 21st century, with benefits for academic achievement, career opportunities, and social engagement. Through consistent exposure to digital tools across courses and targeted instruction in digital literacy, HCCS seeks to ensure that students develop the technological competencies necessary for academic advancement, workplace readiness, and full participation in modern society.

Student Services
Highlands Community Charter School has a unique opportunity to work with adult learners who have faced many life challenges. As a result, our students require a wide range of academic, career, and personal support to achieve their goals. In the 2025-26 school year, we have the opportunity to sustainably grow our student services staff, which faced staffing cuts during restructuring in the first part of the year. At the time of this material revision, we plan to develop an Intervention Coordinator role to support partnerships with community agencies. These agencies provide essential support well beyond what HCCS can offer, such as dental and medical services, nutrition, child care, housing support, and other necessities that will support their academic success.

Orientation/Student Onboarding
HCCS holds an orientation at the beginning of each year to help students become familiar with the school's policies, procedures, and programs, supporting student agency in making informed decisions about their academic plan. In August 2025, the orientation was expanded to provide additional clarity regarding updated academic policies, attendance requirements, the new five-period bell schedule, and our new curriculum, Savvas.

Navigators
To ensure equitable access to our programs, HCCS has employed dedicated staff members to ensure every student understands all the services available to them. With students who speak over 39 languages, often with limited English proficiency, Navigators provide multilingual communication, academic and career support, and access to community resources. HCCS Navigators speak English, Farsi/Dari, Spanish, Russian, Armenian, and Pashto, and travel to all campuses to present on services and programs. In June 2025, as part of organization restructuring, the Navigators were released from their positions. HCCTS plans to redesign and reinstate the Navigator program, with staffing and implementation to begin by January 2026.

English Learner (EL) Services and New Student Supports
HCCS provides comprehensive support for new students and English learners. HCCS student services staff provide comprehensive orientation services that help students navigate the HCCS system. The academic supports are listed in the educational philosophy section. HCCS also provides native language support and cultural transition assistance. Specialized programming for recently arrived immigrant students, including orientation to U.S. school systems, technology set up support, accelerated English language acquisition, academic skill building, and social-emotional support to ease cultural transitions. We provide translation services and family engagement programs to support the entire family's integration into our school community.

Student Advisory Council
In the 2025-2026 school year, HCCS will establish two Executive Student Advisory Councils – one for the AM student cohort and one for the PM student cohort. In Fall 2025, the Chief Academic Officer (CAO) will meet with students nominated for the Advisory Councils. The first student advisory council meeting is set for mid-November. The Councils will meet quarterly with the Executive Director to contribute student perspectives on HCCS initiatives, increasing student agency, belonging, and leadership. The quarterly meetings provide consistent opportunities for

students to share their experiences, identify challenges, and contribute to solutions that enhance the educational environment for all newcomers, ultimately supporting their academic success and social-emotional well-being.

Community Partnerships
Highlands Community Charter School serves a very high-needs student population and has developed multiple partnerships with external organizations to address those needs. These partnerships expand the school's reach within the community and increase student access to the tools necessary to achieve their goals. Partnership refers to a collaborative relationship between Highlands Community Charter and Technical Schools (HCCTS) and an external agency that supports students by facilitating access to essential services. In some cases, partnerships include agreements related to shared locations, supporting educational efforts by expanding access to instruction and services in settings where students already utilize essential resources.

These partnerships include the following organizations:
- SALAM Islamic Center
- SHRA
- La Familia Counseling Center
- CalAsian Chamber of Commerce
- Lao Family Community Development
- Department of Human Assistance
- Sacramento Employment and Training Agency (SETA)
- Mack Road Partnership

Many of these community partners provide support that is beyond the scope of HCCS services. This includes connecting students to dental services, food banks, clothing, etc.

Student Support and Counseling
We are proud to have highly trained, compassionate counselors who support every student. Our counselors can provide assistance and information on many issues, including:
- Family issues
- Personal issues
- Conflict management
- Substance abuse and recovery
- Student support groups
- Homeless services
- Accessing government programs
- FAFSA
- Parenting and family resources

Our students face many challenges and have many barriers to completing their education and accomplishing their goals. At HCCS, our counselors understand our students' needs and assist them by addressing barriers because we want our students to complete their classes and graduate. We believe that by meeting our students where they are, they are more likely to continue and complete their programs to graduate.

Services for Students with Disabilities

Overview

Highlands Community Charter School is categorized as an independent LEA, serving adults 22 years of age and older. Therefore, it is not required to join a SELPA pursuant to Education Code 47641(a), either on its own or with a grouping of charter school LEAs as a consortium. As such, HCCS does not receive state and federal revenues in accordance with SELPA's allocation plan.

HCCS will continue to make all necessary arrangements to serve students with disabilities and comply with all applicable federal, state, and school district mandates governing service to students with disabilities, including but not limited to Section 504 of the Rehabilitation Act ("Section 504"), the Americans with Disabilities Act ("ADA") and the Individuals with Disabilities Education Improvement Act of 2004 ("IDEIA"). Students will receive information about Section 504 protections when enrolled in the program.

IDEIA applies to children with disabilities and does not apply to adult students over the age of 21.[2] California likewise requires special education services only through age 22, but HCCS integrates IDEIA principles as part of its mission to provide K-12 educational opportunities to adult students in compliance with all applicable laws. For students who provide the school with a copy of a previously approved IEP, the Student Success Team ("SST") will review the IEP and work with the student to identify reasonable accommodations that provide equal access to the student's educational program, including a 504 plan if appropriate. HCCS will incorporate the student's reasonable accommodation needs into the student's educational plan as part of their individual learning strategy based on identified needs in the previous IEP.

Disabled students without a previous IEP may request reasonable accommodation by contacting school staff. Accommodation requests will be referred to the SST, who will evaluate the request, review the student's documented needs, and work with students in an interactive process to determine what accommodation is necessary to support their academic success.

504 services can also begin with a Response to Intervention based on academic challenges identified by Student Success Team members. The team will work with the student to identify individual barriers to academic success and create an academic support plan. If the student does not make satisfactory progress and consents to evaluation, they may be referred for evaluation under Section 504 of the IDEA. Any decision to deny or grant a reasonable accommodation by the SST shall be made in accordance with applicable federal and state law, including IDEA, ADA, and the California Education Code.

HCCS does not require students to provide detailed medical records to document a disability. A doctor's note or other documentation of impairment, including records of academic impairment, may support an accommodation need. Students also have the right to refuse accommodation

[2] 20 U.S.C. 1412(a)(1)(A): "A free appropriate public education is available to all children with disabilities residing in the State between the ages of 3 and 21, inclusive..."

solutions offered by the school or propose a different alternative as part of the interactive process.

Reasonable accommodation can include, but are not limited to, modifications to school policies, practices, or procedures; auxiliary aids for classroom learning such as transcripts, readers, or modified equipment; altered testing conditions; presence of a student's trained service animal; or other measures necessary to ensure equal access to HCCS's educational programs, as required by 304 C.F.R. 104.44. HCCS may deny accommodation requests by a person with a qualifying disability and documented need if the requested accommodation imposes an undue financial, operational, or administrative burden, or fundamentally alters its educational program, provided no reasonable alternative can be found to meet the student's needs.

Plan and Timeline for Maintaining Western Association of Schools and Colleges (WASC) Accreditation

In the 2024–2025 school year, HCCS completed a comprehensive WASC Self-Study that involved 12 internal focus groups and resulted in the development of a six-year WASC Action Plan aligned with LCAP goals. Over 200 staff members and nearly 100 students participated in the self-study process through these focus groups. In October 2024, a six-person WASC Visiting Committee conducted a three-day site visit, holding eight additional focus groups with staff and students. The committee visited 14 sites in person and reviewed 18 more virtually through pre-recorded tours. Following this extensive review, the Visiting Committee evaluated HCCS across 14 accreditation status factors, rating 11 as Highly Effective or Effective, 3 as Somewhat Effective, and none as Ineffective.

In March of 2025 WASC informed HCCS it was postponing its accreditation decision pending the result of the California State Audit. HCCS remains in probationary status as of September 2025. To ensure compliance with all program requirements, HCCS has developed a three-year plan to maintain its WASC accreditation, including measures to reduce student-teacher ratios, improve professional development, enhance data tracking, and increase EL support.

Recruiting Qualified Teachers

Highlands Community Charter School recruits well-qualified educators to our community by posting vacant teaching positions on the recruitment website www.edjoin.org, a third-party employment entity used throughout California and the greater United States as a central advertising location for many different educational organizations. Additionally, we attend the annual Teacher Recruitment Fair held each spring at Sacramento State University in order to meet with new teachers beginning their careers. We also send out recruitment flyers to additional institutes of higher education in the surrounding area, per the school's staffing needs. More efforts will be made going forward to aggressively recruit and retain exceptional educators with both adult and k-12 credentials, given the unique population of students we serve.

UMass Global

Highlands Community Charter and Technical Schools is partnering with UMass Global to help our intern teachers earn a California Preliminary Teaching Credential. UMass Global provides advising, admissions support, and the required coursework, while Highlands provides a paid

classroom placement, a site mentor, and job-embedded coaching. We also recruit and train Mentor Teachers—experienced educators who meet weekly with interns to co-plan, observe, and give feedback. University supervisors and site mentors conduct joint observations, so candidates get clear, consistent guidance as they complete clinical hours and state assessments. Our shared professional learning centers on HCCS priorities like integrated ELD, literacy across the curriculum, and effective use of adopted materials. The partnership is formalized in an MOU and builds a steady, well-supported pipeline of prepared teachers for our classrooms.

Transferability of Courses
Governing Law: If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A to G" admissions criteria may be considered to meet college entrance requirements.-- California Education Code § 47605 (c) (5) (A) (iii)

Information about WASC accreditation can be found at HCCS' website. HCCS is currently WASC-accredited on a probationary basis. Further determination will be made by the WASC commission in 2026.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

"The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups served by the charter school, as that term is defined in subparagraph (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school." (Ed. Code § 47605(c)(5)(B).)
"The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card." (Ed. Code § 47605(c)(5)(C).)

Measurable Goals of the Educational Program

In accordance with Education Code Section 47606.5, the Charter School shall comply with all elements of the LCAP pursuant to regulations and a template adopted by the California State Board of Education and reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter. The Charter School shall submit the LCAP to the District and the County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The current LCAP is on file with the District and is also available on our website at http://www.gcccharters.org. The LCAP and any revisions necessary to implement the LCAP, including outcomes and methods of measurement listed in the Charter, shall not be considered a material revision to the Charter, and shall be maintained by SAVA at the school.

HCCS was founded to serve historically disadvantaged populations. It has always served a larger than 90% socially and economically disadvantaged student population. The founding philosophy of HCCS demands that it offers extensive support beyond that which would normally be available to students in a traditional high school setting and far beyond that available in CAEP settings. To that end, all support services are available to all students. This, along with the radically different makeup of the HCCS student population compared to most schools, has led HCCS to set its performance targets for all students rather than for traditionally designated subgroups.

Alignment With State Priorities

STATE PRIORITY #1— BASIC SERVICES The degree to which teachers are appropriately assigned (E.C. §44258.9) and fully credentialed, and every pupil has

sufficient access to standards-aligned instructional materials (E.C. § 60119), and school facilities are maintained in good repair (E.C. §17002(d))	
Subpriority A: Fully Credentialed Teachers	
Goal	100% of core teachers will hold a valid CA Teaching Credential with appropriate English learner authorization as defined by the CA Commission on Teaching Credentialing, and will be appropriately assigned.
Method	In addition to hiring credentialed teachers HCCS will support teachers in the credentialing process including obtaining Intern credentials and the completion of any necessary credentialing program.
Measurement	Initial and annual verification of core teacher credential as reported by the CA Commission on Teacher Credentialing; CALPADS Report 3.5 NCLB Core Course Section Compliance; Annual publication of School Accountability Report Card.
Subpriority B: Access to Standards Aligned Instructional Materials	
Goal	100% of pupils will have access to standards-aligned materials and additional instructional materials as outlined in the charter petition.
Method	All instructional materials will be assessed for alignment with state common core standards, CASAS standards and ELP objectives.
Measurement	Executive Director or designee will review all instructional materials before purchase pursuant to E.C. § 60119.

STATE PRIORITY #2— IMPLEMENTATION OF COMMON CORE STATE STANDARDS Implementation of Common Core State Standards, including how EL students will be enabled to gain academic content knowledge and English language proficiency	
Subpriority A: Implementation of Standards	
Goal	At HCCS 100% of core academic classrooms will offer curriculum aligned to common core state standards.
Method	Offer a wide range of standards-aligned materials to ensure teachers have access to diverse standards-aligned methods and modalities and individual student needs can be met through access to multiple aligned curricula.
Measurement	Engagement with curricula will be tracked for engagement and impact and assessed by the Executive Director, Chief Academic Officer, Director of Curriculum or other designee.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Subpriority B: EL Student Access to Academic Content	
Goal	100% of English Language Learners will gain academic content knowledge through implementation of Common Core State Standards.
Method	EL students will be offered differentiated instruction in contexts integrating Common Core State Standards with ELP objectives such as English for Work and Life and EL Civics courses.
Measurement	Student progress will be measured through course completion, level exit tests, EL Civics tests and applicable state testing including CAASPP and CAST.
Subpriority C: EL Students and English Language Proficiency	
Goal	100% of English Language Learners will make measurable progress towards English language proficiency.
Method	EL students participate in English Language Arts/Literacy instruction with appropriate in-class instructional support which includes structured English language development, small group teacher support, paraeducator support, and usage of SDAIE strategies.
Measurement	The school will track annual metrics including the rate of progress from Intermediate ESL (equivalent to Federal NRS ESL Level 5) to Bridge (Equivalent to Federal NRS Level 6)

STATE PRIORITY #3— Educational partner involvement. State priority 3 references parental involvement, including efforts to seek parent input for making decisions for schools, and how the school will promote parent participation. However as all HCCS students are 22 years and over HCCS will focus instead on engaging the feedback of educational partners including but not limited to students and community partners.	
Subpriority A: Educational partner engagement	
Goal	Promote student involvement in setting schoolwide priorities and implementing academic programs and student services through a minimum of 5 educational partner events annually.
Method	Engage students in community partner events to solicit and gather student feedback.
Measurement	Student feedback will be recorded, collated, and analyzed by HCCS staff incorporating both qualitative and qualitative methodologies. Student feedback will be incorporated into the annual LCAP.
Subpriority B: Student Participation	

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Goal	Each year HCCS will circulate a student satisfaction survey.The survey will be made available in not less than the 5 most widely spoken languages among the student population.
Method	Each year HCCS will circulate a student satisfaction survey. The survey will be made available in no less than the 5 most widely spoken languages among the student population. Additionally, Working in PLCs each teacher has a minimum of 2-3 focal students with whom they are collecting warm/street data to understand the students' learning experience so that they can be responsive.
Measurement	HCCS will track the number and percentage of students participating in the survey. Before and after each survey period HCCS staff will discuss and implement strategies to increase student participation.
Subpriority C: Community Partner Engagement	
Goal	Maximize the opportunity for HCCS students and staff to meaningfully engage with community partners by hosting at least 5 events accessible to HCCS students remotely (i.e. through Zoom).
Method	Community partner events will be held throughout the year including job fairs, immigrant resource presentations, Know Your Rights presentations from local agencies, and cultural events celebrating diverse student backgrounds.
Measurement	All community partner events will be assessed for engagement and impact including number of students engaged. This will be documented in the LCAP.

STATE PRIORITY 4: Student Achievement Academic Achievement Metrics, performance on standardized tests, progress of English Language Learners	
Subpriority A: Academic Achievement Metrics	
Goal	Schoolwide academic achievement metrics will meet targets as agreed upon with our Authorizer as outlined below in HCCS Academic Achievement Metrics.
Method	All HCCS students take regular CASAS tests every 6-8 weeks. All counselors schedule regular meetings with 12th-grade students and provide a personalized graduation plan to ensure all 12th graders graduate within the same program year as admission to the 12th grade.
Measurement	All Academic Achievement measurements are reported to the Authorizer yearly in an annual report.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Subpriority B: Standardized Tests	
Goal	Implement two mandatory training on Smarter Balanced assessment for teachers and paraeducators.
Method	HCCS will begin implementation of Smarter Balanced (SBAC) for 11th grade in the 2025-2026 school year. The designated LEA CAASPP coordinator will coordinate training and implementation.
Measurement	The designated LEA CAASPP coordinator will report CAASPP results to HCCS and TRUSD.
Subpriority C: Progress of English Language Learners	
Goal	English Language Learners will see consistent growth including average CASAS Reading STEPS gains of 2 points or greater per program year and Measurable Skills Gains as reported to NRS meeting or exceeding the state average.
Method	CASAS tests will be taken by all students every 8 weeks at a minimum, the percentage of students with pre and post test scores will meet or exceed 55%.
Measurement	The CASAS coordinator will review monthly progress reports.

STATE PRIORITY #5— STUDENT ENGAGEMENT Pupil engagement, as measured by all of the following, as applicable: A. School attendance rates B. Chronic absenteeism rates C. Middle school dropout rates (EC §52052.1(a)(3)) D. High school dropout rates E. High school graduation rates	
Subpriority A: Student Attendance Rates	
Goal	HCCS will ensure an 80% attendance rate.
Method	Attendance with sufficient academic progress will be a requirement of continued enrollment at HCCS. Students not meeting requirements will receive academic support and intervention.
Measurement	HCCS will produce monthly, quarterly, and annual attendance reports and track periodic attendance rates which will be visualized in Schoolytics.
Subpriority B: Chronic Absenteeism	
Goal	HCCS will reduce chronic absenteeism by 5% yearly.
Method	HCCS will enforce mandatory attendance policies designed to promote attendance. See the attendance SOP attached in the appendix.

Measurement	HCCS will report chronic absenteeism in Dataquest.
Subpriority C: Graduation Rates	
Goal	The HCCS DASS 1-Year graduation rate will meet or exceed 20 percent.
Method	All HCCS 12th graders will be prepared for graduation with personalized graduation plans and extensive academic and counseling support.
Measurement	The reported number of graduates in CALPADS will be compared against the cumulative enrolled population of 12th grade students for the school year.

STATE PRIORITY #6— SCHOOL CLIMATE School climate, as measured by all of the following, as applicable: A. Pupil suspension rates B. Pupil expulsion rates C. Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness	
Subpriority A: Pupil Suspension Rates	
Goal	HCCS will maintain a suspension rate of less than two percent.
Method	HCCS will train teachers, principals, and counselors in social-emotional learning techniques and behavior management.
Measurement	HCCS will track student suspension in PowerSchool and report it in CALPADS.
Subpriority B: Pupil Expulsion Rates	
Goal	HCCS will maintain an expulsion rate of less than two percent.
Method	HCCS will train teachers, principals, and counselors in social-emotional learning techniques and behavior management.
Measurement	HCCS will report student expulsion rates using CALPADS.
Subpriority C: School Climate	
Goal	HCCS will ensure 90% of enrolled students respond to the student climate survey.
Method	As part of HCCS community partner engagement, the yearly student climate surveys will be distributed to all students by teachers. Teachers will be trained on the survey and participation incentivized.
Measurement	The accountability department will collate and analyze student survey results and present the results to the HCCTS Board of Directors.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

STATE PRIORITY #7— COURSE ACCESS The extent to which pupils have access to, and are enrolled in, a broad course of study, including programs and services developed and provided to unduplicated students (classified as EL, FRPM-eligible, or foster youth; E.C. §42238.02) and students with exceptional needs. "Broad course of study" includes the following, as applicable: Grades 9-12: English, social sciences, science, mathematics, visual and performing arts, applied arts, and career technical education.	
Goal	100% of students will have access to all content areas. As a school with many credit recovery students, not all students will be enrolled in all subjects, however all students will have access to the courses needed to graduate high school with a broad course of study.
Method	HCCS students with limited English proficiency are enrolled in classes with designated English support which offer integrated access to all content areas.
Measurement	Yearly review of course outlines, descriptions, ELP objectives, and EL Civics content areas.

STATE PRIORITY #8— Pupil Outcomes	
Subpriority A: English	
Goal	All students will demonstrate an increase in proficiency in English Language Arts/Literacy.
Method	All English learners will be supported with English language instruction integrated with ELA standards. All English proficient high school students will demonstrate mastery through course completion. All students will receive regular CASAS reading testing.
Measurement	Average CASAS reading tests will meet or exceed 2 points per program year. Yearly the program will meet or exceed California state targets for Measurable Skills Gains.
Subpriority B: Social Science	
Goal	All EL students will be enrolled in Civics education.
Method	Students will take 3 yearly CASAS Civics exams.
Measurement	The school will maintain an 85% passing rate for Civics exams.
Subpriority C: Mathematics	

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Goal	All students enrolled in Mathematics will make measurable progress.
Method	Math students will receive pre and post CASAS testing to evaluate the effectiveness of the program.
Measurement	All math students will meet or exceed a 2% CASAS Math Goals gain on average.

Method for Measuring, Analyzing, and Reporting Pupil Progress Toward Outcomes

Assessment

Key Measurement Methods

Measurement Outcome	Method of Measurement	Frequency of Assessment
CASAS Gains	CASAS Reading, Listening, and Math assessments	Every 6 to 8 weeks
English Language Proficiency Progress	Internally developed ESL Level exit test	Term
EL Civics Assessments	CASAS approved assessment plans (COAAPS)	Three times each year in the following months: November, March, June
High School Content Mastery	Course assessments and course grades Savvas imbedded assessments	At the end of every high school course Savvas: mid-unit assessments; formal and informal evaluations
ELA and Math Achievement	Smarter Balanced (CAASPP) Savvas imbedded assessments	CAASPP: Once in grade 11. Savvas: mid-unit assessments; formal and informal evaluations
Science Achievement	CAST Savvas imbedded assessments	Once in high school grades 10 or 12. Savvas: mid-unit assessments; formal and informal evaluations

English Language Proficiency Placement
HCCS assesses all students as part of the admission process. Non-native English speakers receive an internally developed placement test to determine English proficiency. Additionally all students receive CASAS testing to establish a baseline for academic achievement.

State Testing
In compliance with Ed. Code HCCS will offer the California Assessment of Student Performance and Progress (CAASPP) and the Smarter Balanced Assessments Consortium

(SBAC) to all students in 11th grade. HCCS also offers California Science Tests (CAST) to all 12th-grade students who have not previously taken the science test in high school. Testing will be coordinated by the Assessment Coordinator with academic staff and test proctors. Because CAASPP testing is new to HCCS, the determination of the details of testing windows and procedures will be an ongoing process by academic and assessment staff.

Student Growth
HCCS uses the Comprehensive Adult Student Assessment System (CASAS), a competency based adult assessment program validated by the U.S. Department of Education for use in adult education. While HCCTS is a K-12 institution there are few assessment programs designed to evaluate the growth of adult students. Consequently, CASAS is an essential tool for the evaluation of student progress at Highlands. The test series used by HCCS are listed below.

Test Series
CASAS Reading STEPS
CASAS Listening STEPS
CASAS Reading GOALS 2
CASAS Math GOALS 2

Students receive CASAS testing every 6-8 weeks. Testing is conducted via an application installed on HCCS Chromebooks. Testing can only occur in a proctored environment and is conducted by test proctors or teachers.

All students receive CASAS reading tests. CASAS Math assessments are administered to all students enrolled in math courses to evaluate the effectiveness of the instruction they receive.

Schoolwide CASAS outcomes include average point gain, measurable skills gains, and pre- and post-testing rates. Below are the average point gains for the previous three program years.

Average Point Gain per Program Year			
	2022-2023	**2023-2024**	**2024-2025**
ESL Students			
CASAS Reading STEPS	5.1 points	6.3 points	5.2 points
CASAS Listening STEPS	4.0 points	4.1 points	5.8 points
Adult Basic Education Students			
CASAS Reading GOALS 2	5.4 points	6.4 points	4.9 points
CASAS Math GOALS 2	3.4 points	2.8 points	6.0 points

Element B Measurable Student Outcomes and Element C Student Progress Measurements

The data reveals several encouraging trends across both programs. For English Language Learners, CASAS Listening scores have shown steady year-over-year improvement, culminating in a significant gain of 5.8 points in 2024–2025—the highest in three years—indicating that recent adjustments to listening instruction are proving effective. Although reading gains dipped slightly this year, they remain above the 2022–2023 baseline, suggesting partial retention of prior improvements.

At the high school level, CASAS Math scores rose dramatically in 2024–2025, jumping from 2.8 to 6.0 points, signaling substantial progress in math instruction. ABE students also demonstrated consistently strong gains in reading from 2022–2024, reflecting effective literacy practices despite a slight decrease in the most recent year.

Measurable skills gains represent the number of students progressing in an Educational Functioning Level as defined by the National Reporting System (NRS), the federal accountability system. Measurable skills gains are an important indicator of both English language and academic progress.

Percentage of students with pre and post test achieving a measurable skills gain				
ESL Educational Functioning Level		2022-2023	2023-2024	2024-2025
Level 1	Achieved	60.38%	67.27%	55.07%
	CA State target	30.50%	34.00%	TBD
Level 2	Achieved	75.78%	78.10%	80.73$
	CA State target	30.50%	40.00%	TBD
Level 3	Achieved	70.87%	73.84%	78.76%
	CA State target	34.50%	37.00%	TBD
Level 4	Achieved	61.21%	70.21%	71.31%
	CA State target	30.50%	34.50%	TBD
Level 5	Achieved	59.62%	68.13%	68.44%
	CA State target	31.50%	34.50%	TBD
Level 6	Achieved	51.67%	64.01%	62.63%
	CA State target	21.50%	25.00%	TBD

Percentage of students with pre and post test achieving a measurable skills gain				
ABE Educational Functioning Level		2022-2023	2023-2024	2024-2025
Level 1	Achieved	88.89%	75.00%	72.50%
	CA State target	40.00%	44.00%	TBD
Level 2	Achieved	52.50%	61.26%	70.85%

	CA State target	42.50%	44.00%	TBD
Level 3	Achieved	56.85%	60.32%	60.33%
	CA State target	38.00%	43.00%	TBD
Level 4	Achieved	63.28%	71.19%	75.50%
	CA State target	40.50%	43.00%	TBD
Level 5	Achieved	50.91%	52.74%	59.92%
	CA State target	35.50%	42.00%	TBD
Level 6	Achieved	8.51%	0.00%	20.34%
	CA State target	36.50%	43.50%	TBD

Highlands Measurable Skills Gain for all learners compared to state average

	2022-2023	2023-2024	2024-2025
HCCS	42.3%	49.6%	57.8%
CA State Average	44.36%	44.8%	TBD

CASAS pre and post tests are essential for measuring student progress but also serve as an important measure of student engagement. .

Percentage of Learners with Pre and Post CASAS Test		
2022-2023	2023-2024	2024-2025
56.61%	64.68%	75%

The data above reflects a clear upward trend in the percentage of students who received both a pre- and post-test over the past three years. In 2022–2023, 56.61% of students received both tests. This increased to 64.68% in 2023–2024 and rose again to 75% in 2024–2025. This steady improvement demonstrates HCCS's growing commitment to data-driven instruction and collective efforts to ensure more students are assessed consistently, allowing HCCS to better capture and respond to their academic development.

Teachers, counselors, and proctors at HCCS work diligently to ensure that all students complete both the CASAS pre- and post-tests; however, reaching 100% participation remains a challenge. To address this, HCCS is implementing several strategic measures, including hiring additional proctors, expanding staff training, purchasing more laptops to support testing, and developing a more structured and comprehensive testing schedule. Additionally, the recent hiring (August 2024) of a dedicated CASAS Coordinator has provided focused leadership to further strengthen the assessment processes. Through these efforts, HCCS is committed to increasing the percentage of students completing both assessments in the coming years.

EL Civics Civic Objective and Additional Assessment Plan Data (COAAP)
Integrated English Language and Civics (ELCivics) programs are designed to offer English language learners access to English language literacy instruction while learning crucial concepts for participation in the workforce and civic life in the United States. EL Civics assessments are developed according to assessment plans (COAAPs) supplied by CASAS and reported to the state via TOPSPro Enterprise, a state developed software tool.

For the past five years EL Civics assessments have been conducted through Google Forms. EL Civics data was collated and reported through automated Google API scripts. While initially cost effective the maintenance of an increasingly large dataset became impractical. In 2025 EL Civics implemented a pilot with Edcite to streamline the reporting process, improve the quality of the assessment, and to offer more accurate and detailed data tracking.

EL Civics Assessment Data				
Program Year	**Theme**	**COAAP #**	**Attempted Assessments**	**Passed Assessments**
2022-2023	Employment	33.7	1407	951
2022-2023	Pharmacy	28.1	1695	1107
2022-2023	Education	13.5	1906	1503
	Totals			3561
2023-2024	Employment	33.9	2322	1830
2023-2024	Personal Finance	1.8	2351	1864
2023-2024	DMV	12.7	2522	2049
	Total			5743
2024-2025	Employment	33.8	5279	3270
2024-2025	Health and Nutrition	46.7	4573	3329
2024-2025	Education	13.6	2804	2216

High School Graduation
Graduation is the best way to identify course completion for high school students. At HCCS, graduation day is like a holiday worthy of celebration. It is the culmination of years of hard work, determination, perseverance, and overcoming sometimes very serious hardships. HCCS loves to celebrate student success and provide an opportunity for students' families to celebrate this success as well. When students earn their credits, they may petition for their diploma and exit as a graduate. Since this happens on a very regular basis, HCCS provides more than one opportunity a year for students to celebrate and "walk the stage." HCCS holds graduation ceremonies every summer and winter. Each year, the venue has changed in response to graduation growth.

HCCS Graduation Rate

Historically, HCCS has used two graduation rates to track graduation: a one-year graduation rate utilized by DASS schools and the traditional 4-to-5-year cohort rate. The default method of measurement for graduation rate is the 4-to-5-year cohort rate. This measures the percentage of students who graduate in exactly 4 or 5 years after first entering the 9th grade.

HCCS faces a unique situation regarding its 4- and 5-year cohort graduation rate. Before 2021, English language learner students were designated primary students and enrolled in grades 1 and 2. In 2020-2021, all HCCS students were redesignated as high school students to better recognize their adult status. This resulted in a massive increase in 4-year cohort size. However, over 80% of these students still lacked basic secondary education skills, leading a very large number of students to spend extra time in the 9th grade as they develop their English language and academic skills.

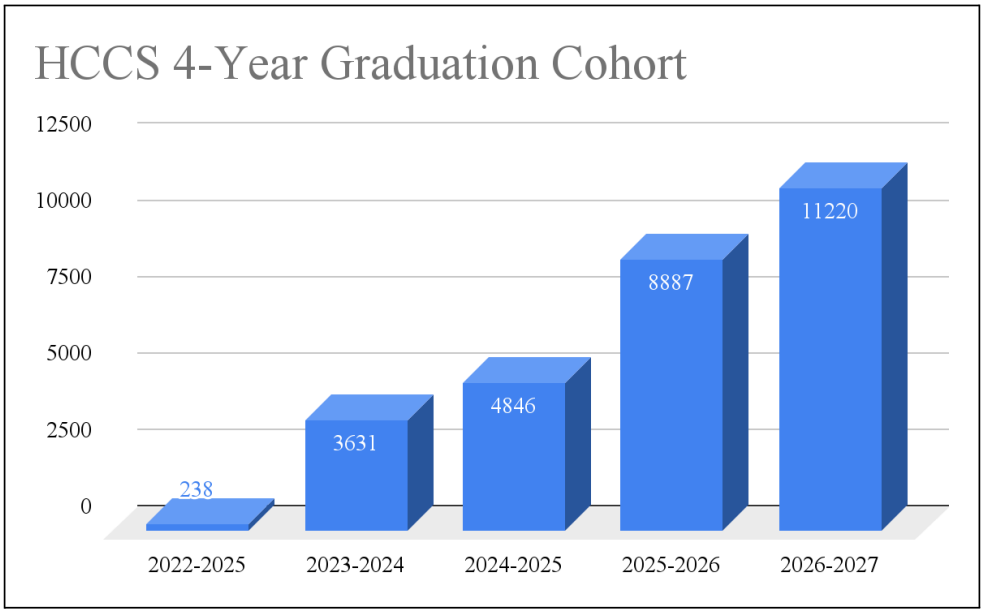
Other students have entered HCCS with better English proficiency and more academic achievement in their countries of origin, leading them to graduate much faster. Students in the 2025 Winter graduation were enrolled for 2.5 years on average.

Students who graduate in 1-3 years are not reported as graduates for the graduation rate as presented on the California Dashboard until 4 years after their first entry in a high school. For example, if a student enrolls in the 2022-2023 school year and graduates in the 2024-2025 school year, they will not be counted in the published 4-to-5-year graduation rate until 2026-2027. Students who graduate in more than 5 years will never appear in the published 4-to-5-year graduation rate. So, an adult student who may have dropped out at 18 and finished their diploma at the age of 23 will not be represented in this graduation rate even if it only took them an additional year of school to complete their education.

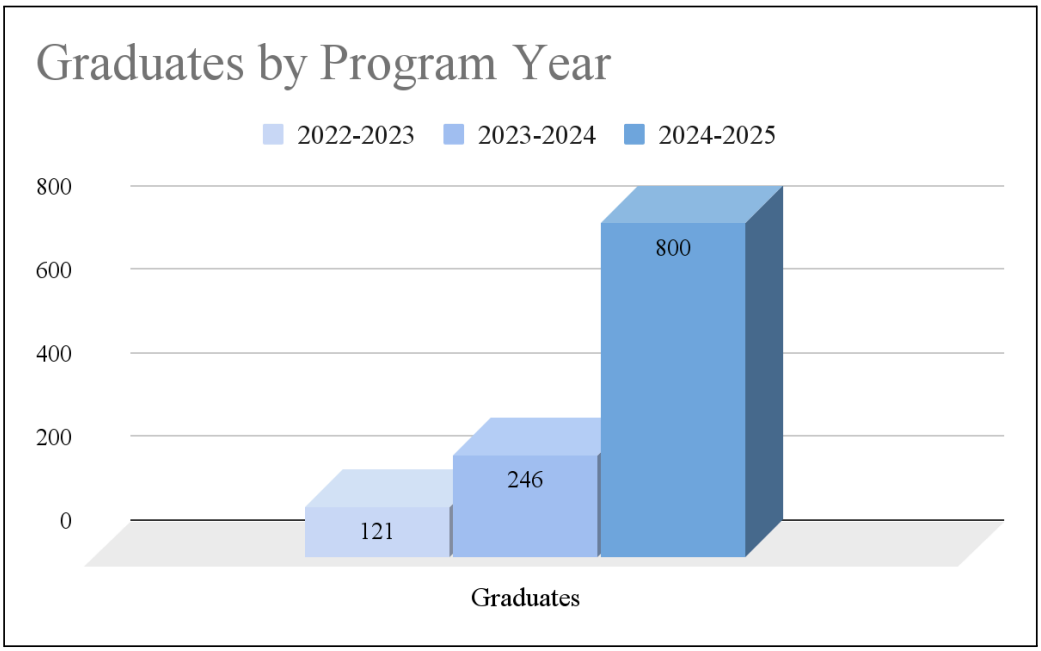
For a school explicitly intended to serve alternative students who enter with an extremely wide range of educational backgrounds and levels of credit attainment, the cohort graduation rate is at very best a lagging indicator. In practice, it obscures rather than reveals the achievements made by students and the outcomes of the program. Furthermore, the proposed reduction in enrollment over the next five years will ensure that the cohort graduation rate will be at best highly unpredictable.

The chart below demonstrates the scale of the issue. While HCCS will continue to track and report the 4-year cohort rate, it will also track and report the 1-year DASS graduation rate to provide a more comprehensive picture of the outcomes of its academic programs.
.

Element B Measurable Student Outcomes and Element C Student Progress Measurements



While the raw number of HCCS graduates has grown dramatically, only 176 of HCCS' over 800 graduates reported in CALPADS for the 2024-2025 school year will be accounted for in the published 4-year cohort rate.



Element B Measurable Student Outcomes and Element C Student Progress Measurements

HCCS 1-Year Graduation Rate
HCCS students must work to overcome a wide variety of barriers to participate in education and achieve academic success. An adult learner is engaged with responsibilities and demands that pay no respect to their academic journey, making them inherently at very high risk of not completing their education. In every sense, these are alternative students. In recognition of this status, HCCS continues to track and report the 1-year graduation rate. The 1-year graduation rate is calculated as follows

$$\frac{\text{\# graduates as reported in CALPADS - (all students without 90 days cumulative enrollment)}}{\text{All students enrolled in 12th grade for the program year (all students without 90 days cumulative enrollment)}}$$

2022-2023	2023-2024	2024-2025
22.8%	32.1%	55.5%

ESL Level Progress
English Language learners progress through courses designed to advance their English Language skills while giving them the opportunity to engage with increasingly in-depth standards aligned content. Level 3 (Intermediate) is a particularly significant milestone. Completion of this level indicates that the student is able to participate in High School with significantly reduced designated support.

Alternative School Status
HCCS is accountable to the California Department of Education to ensure that HCCS students meet the state's standards. In 2013, the Local Control Funding Formula (LCFF) was adopted by California to ensure accountability using the California School Dashboard. The traditional standards were intended for traditional schools and, in many ways, fail to understand the needs of alternative students. As a result, the California Department of Education recognized alternative accountability measures for alternative schools.

In March 2015, HCCS adopted the Alternative Schools Accountability Model (ASAM), and we complied with their requirements. Then the Dashboard Alternative School Status (DASS) replaced the previous ASAM model, and since the beginning of the 2017–18 school year, HCCS has been accountable to the California Department of Education and adhered to the indicators set forth by DASS. In November 2024, HCCS agreed on a formal set of DASS metrics with Twin Rivers. In December 2024, however, HCCS was informed by the CDE that it would lose its DASS status. Despite this, HCCS will continue to track the agreed-upon metrics as Academic Achievement Metrics.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

HCCS Academic Achievement Metrics
Academic Achievement
CASAS ESL
1. The percentage of HCCS English Language learners with a pre and post-test achieving a Measurable Skills Gain in the National Reporting System will meet or exceed California state targets, as reported by NRS Performance in TOPSpro Enterprise (TE).
CASAS ABE
1. The percentage of HCCS high school learners with a pre and post-test, achieving a Measurable Skills Gain in the National Reporting System will meet or exceed California state targets, as reported by NRS Performance in TOPSpro Enterprise (TE).

Academic Improvement
CASAS ESL
1. The average Comprehensive Adult Student Assessment Systems (CASAS) Reading Gains for English Language Learners at HCCS enrolled in International High School will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSpro Enterprise.
2. The percentage of HCCS English Language Learners in International High School Level 3 students moving to high school will meet or exceed 5%, as reported by Student Level Gains in PowerSchool.
CASAS ABE
1. The average CASAS Reading Gains for learners enrolled in high school at HCCS will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSpro Enterprise.
2. The average CASAS math gains for learners enrolled in high school at HCCS will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSPro Enterprise.
3. The 1-year Graduation Rate for HCCS learners will meet or exceed 20% as reported in California School Dashboard.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Student Engagement
All Levels
1. The percentage of HCCS students with a CASAS pre- and post-test will meet or exceed 55% as measured by NRS Data Integrity in TOPSpro Enterprise.

CAREER TECHNICAL EDUCATION (CTE) & WORKFORCE
CASAS ABE
1. The percentage of 12th-grade HCCS high school students who are enrolled in a CTE program will meet or exceed 10% as measured by CTE Enrollment Percentage in PowerSchool.
2. The percentage of HCCS high school graduates who complete a CTE program will meet or exceed 4% as measured by Graduate CTE Completers in PowerSchool.

Teacher-Designed Formative Assessments
At HCCS, teachers utilize many informal assessment techniques to ensure student learning in the following subjects: reading and vocabulary, writing and grammar, speaking and pronunciation, listening, technology and computer literacy, math and consumer economics, science, history/social science/ community resources/government and law, and health and independent living. Assessment tools used to monitor student progress include:

- Benchmark assessments
- Oral class presentations
- Multimedia presentations
- Journal writing
- Independent class projects
- Essays
- Tests and quizzes
- Daily homework
- Book reports
- Movie reviews
- Portfolios
- Group projects
- Research projects
- Grammar diagnostics
- Reading comprehension checks
- Workbooks

Grading and Progress Reporting Systems
HCCS uses the traditional grading system A, B, C, D, and F. For GPA points, an A has a value of four points, a B has a value of three, a C has two, a D has one, and an F has zero. Although

teachers may add a plus or minus to a grade, they do not affect the students' GPA. Students must receive a letter grade of B or better to pass a class or earn credits. If a student receives a grade lower than a B, they must engage in additional work until they demonstrate sufficient effort and mastery to receive a B. Students receive grades after they finish a course, partial course completion, or at the end of a term, whichever comes first.

Evaluation Methods
At HCCS evaluation is based upon a variety of evaluation methods to measure whether students meet requirements; these include teacher evaluation, self-assessment, publisher tests, and samples of work such as homework or portfolios.

High school course completion is tied to end of unit and end of course assessments. Students must receive a minimum of 80% on all assessments to receive credit.

Plan to Collect, Analyze, Use, and Report Academic Performance and Other Data
HCCS uses assessment data in four primary ways. First, assessment serves as a diagnostic tool to identify content areas a student has not yet mastered. This allows instructional staff to gain a clear understanding of each student's strengths and areas for growth, enabling timely and targeted academic support when needed.

Second, aggregated student learning data are used to evaluate overall school performance. A dedicated team of professionals at HCCS analyzes a broad range of academic indicators, including enrollment trends, placement assessments, demographic data, CASAS assessments and gains, course grades, graduation rates, and student retention. By examining student outcomes over time, the school is able to assess performance by teacher, course, program, and schoolwide, and compare results to those of similar institutions.

Third, assessment data inform decisions regarding student progression and formal recognition, such as level completion, graduation, licensure, or certification

Finally, assessments are used to identify students who may be underperforming relative to their peer group, prompting review of placement and potential intervention support. In cases where a student is not adequately progressing in a course, reassignment to a remedial course or additional instructional support from teachers, paraeducators, or specialists may be required to ensure the student is able to complete course materials and meet academic expectations.

Retention
HCCS addresses student retention through the development of school-based student engagement systems and strong partnerships that support teaching, learning, and student achievement. These student engagement systems coordinate efforts to strengthen two-way communication between students and the school. Retention is supported through cooperation between academic staff, counselors, and classified staff. HCCS will ensure specific roles relating to retention and engagement are added to the organization as appropriate to enrollment and student needs.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Program Audit and TRUSD Oversight
HCCS will compile and provide an annual performance report to TRUSD. This report will, at a minimum, include the following data:

- A summary showing student progress toward the pupil outcomes using data from the assessment instruments.
- A summary of major decisions and policies established by the HCCTS Board of Directors during the year.
- Data on the level of student involvement in HCCS and summary data from an annual student satisfaction survey.
- Data regarding the number of staff working at HCCS and their qualifications.
- A copy of the HCCS health and safety policies and/or a summary of any major changes to those policies during the year.
- An overview of HCCS admissions practices during the year and data regarding the numbers of students enrolled, the number on waitlists, and the number of students expelled and/or suspended.
- Analyses of the effectiveness of HCCS's internal and external dispute mechanisms and data on the number and resolution of disputes and complaints.

Element D Governance

"The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement." (Ed. Code § 47605(c)(5)(D).)

Governance Overview

Highlands Community Charter School (HCCS) operates as a directly funded independent charter school under Highlands Community Charter and Technical Schools, a California nonprofit public benefit- corporation, in compliance with applicable California law. HCCS commits to maintaining its nonprofit status in good standing and "active" status throughout the term of its Charter.

The Charter School is governed by the Highlands Community Charter and Technical School's Board of Directors (the "Board.") The Board of Directors provides ongoing oversight of the Charter School's academic performance, financial health, and legal compliance. This oversight includes reviewing regular reports from the Executive Director and leadership team, approving budgets and audits, evaluating progress toward organizational goals, and ensuring that the school remains faithful to the terms of its charter. The Board operates in accordance with its adopted by-laws and delegates management to key HCCS staff, including the Executive Director. The Board is not involved in handling the day-to-day details of running the charter school.

HCCS operates autonomously although in close harmony with Twin Rivers Unified School District, with the exception of the supervisory oversight as required by statute and other contracted services as negotiated between HCCS and TRUSD. Pursuant to California Education Code Section 47604(d), TRUSD will not be liable for the debts and obligations of HCCS, operated by a California public benefit corporation, or for claims arising from the performance of acts, errors, or omissions by HCCS as long as TRUSD has complied with all oversight responsibilities required by law.

Board Composition and Membership

Board of Directors
Mike Reid (Corporate President)

Mike Reid is a Board Member for Highlands. He has been an educator for over 38 years and has served in various roles throughout his career, including teacher, Vice-Principal, Principal, and Schools Superintendent. He has had the opportunity to assist and be recognized for three California Distinguished Schools.

His work in charter schools spans over nine years, during which he oversaw the development of a new charter school and served

as the Learning Analyst for another. He also served as a consultant for the state of Hawaii for nearly three years, focusing on school academic improvement.

Sharon Rocco (Corporate Vice-President)

Sharon Rocco was born in Oregon and moved to California in 1959. In 1967, Rocco moved to Manila, Republic of the Philippines, and graduated from Brent Episcopalian Boarding School in Baguio City. In 1969, she returned to Sacramento, California, and completed college at California State University, Sacramento with a Bachelor's degree in Social Work and Corrections. Sharon began her career in 1975 with the California Department of Corrections as a Parole Agent and served both in rank and file and administrative positions until she retired in 2005. Sharon was elected to Highlands Community Charter School's Board of Directors in July 2015.

Mary DeChance (Corporate Treasurer)

Mary DeChance is an educational leader who began her career as a Resource Specialist and later made meaningful impacts as a Principal, District Director of Special Education, District Director, and Interim Coordinator for Early Childhood Education. Mary most recently was Faculty Lead at National University serving from 2005 until her retirement in 2016. Mary holds a BA in Behavioral Science and a Master's Degree in Special Education from the National University. Mary was appointed to the Highlands Community Charter and Technical School board in November 2020.

Board Member Selection Process
The Board of Directors shall consist of a minimum of three and a maximum of eight members; however, following the resignation of any director serving as of September 20, 2024, the maximum number of members shall be reduced to seven. To mitigate the occurrence of tie votes, the Board endeavors to maintain an odd number of members. Furthermore, school districts or county offices authorized to oversee HCCTS schools are entitled to appoint one voting representative to the Board.

Candidates for Board membership are sought from diverse professional backgrounds, including education, finance, law, public policy, human resources, and community leadership. Ideal candidates demonstrate alignment with HCCS's mission, a commitment to its success, and the ability to provide expertise or resources in support of the school.

People who work for the school (or have close family ties to someone who does) cannot serve on the Board. Each director serves a 3-year term and stays in the role until a new director is chosen. If a director leaves—due to resignation, death, legal issues, or missing three meetings—the

Board can fill that spot by majority vote. Chartering authorities can fill or remove their own representatives.

In accordance with Education Code Section 47604.2(b)(2), the Board may, upon receipt of a qualifying petition, choose to include at least one student member. If appointed, the student member may be granted preferential voting rights as provided by law.

Board members may resign at any time by submitting written notice. However, no resignation shall be effective if it would reduce the Board below the minimum required membership, unless the Attorney General is notified. Should a vacancy arise due to resignation, death, legal disqualification, or failure to attend three consecutive meetings, the Board may fill the position by majority vote. Chartering authorities retain the right to appoint or remove their own representatives. Reductions in the Board's authorized size will not prematurely terminate current directors' terms.

HCCS will not make contracts or approve actions where a director or key employee have a potential financial interest in the contract or action that precludes HCCS from approving the same pursuant to Section 1090, the PRA, or other statutory, regulatory, or common law preclusions of conflicts of interest. It also will not loan money or property to any director or officer, except that it can advance money for work-related expenses that will be reimbursed. Lastly, HCCS promises to protect and cover legal costs or damages for its directors, officers, employees, and certain others if they face lawsuits or legal actions related to their role, as allowed by law. If someone asks for this protection, the Board will quickly decide if they qualify and approve it if they do.

Officers of the Corporation: Roles, Responsibilities, and Appointments
The Corporation is required to have a Chair of the Board, President, Secretary, and Treasurer, with the option to appoint additional officers as needed. Officers are appointed by the Board, report to the Board, and may have duties outlined in employment contracts. One person can hold multiple officer roles, except the same person cannot be both Chair/President and Secretary/Treasurer. Officers may be removed by the Board or resign with written notice. Vacancies are filled following the same process as original appointments. The Chair leads Board meetings, and the Vice-Chair fills in when the Chair is absent. The President (also called Executive Director) manages the Corporation's daily operations. The Secretary keeps records of Board meetings and official documents, while the Treasurer manages the Corporation's finances, provides reports, and may be required to give a bond to ensure proper handling of funds.

Board Members shall complete annual Brown Act, conflict of interest, sexual harassment, mandated reporter training, and other mandatory training requirements.

Roles of the Board
The Board of Directors is responsible for managing the Corporation's activities and has the authority to make key decisions. This includes hiring and removing staff, setting their duties and pay, relocating offices, operating in or outside California, borrowing money, using a corporate seal, and seeking outside funding to support and expand the organization's services. All actions

must follow applicable laws and the Corporation's governing documents. For more information, see the bylaws in the appendix.

The Board may initiate and carry out any program or activity that is not in conflict with or inconsistent with any law and which is not in conflict with the purposes for which charter schools are established, and consistent with the Articles of Incorporation. The Board may execute any powers delegated to it by law, and shall discharge any duty imposed by law upon it and may delegate to an employee of the Charter School any of those duties with the exception of budget approval or revision, approval of the fiscal audit and performance report, and the adoption of Board policies. The Board, however, retains ultimate responsibility over the performance of those powers or duties so delegated. Other key and Executive employee roles and positions seen in the following organizational charts are described below.

Board members participate in retreats and trainings to support ongoing development and stay informed about key school initiatives. These sessions include updates on the State Audit, legal and financial compliance, and accountability and data monitoring. In the 2024 calendar year, the following board trainings and retreats were held:

- **March 15th, 2024-** Form 700 Training Provided by Young, Minney & Corr
- **August 24th, 2024-** Board Retreat- Strategic Planning, Gamification & The Brain, Future Data Analysis, Board Training Planning, Twin Rivers Oversight Reports
- **September 4th, 2024-** Board Training on Governance and Financial Oversight
- **October 31, 2024-** Collaborative Circles Board Training Session #1

Governance Structure

Highlands Community Charter School (HCCS) affirms that its Board of Directors serves as the sole governing authority of the Charter School. The Board holds ultimate responsibility for the governance and oversight of HCCS, with each member carrying a fiduciary duty to safeguard the long-term success and sustainability of the organization. The Board is charged with addressing all major governance and operational matters in accordance with applicable laws, Board policies, and the terms of the Charter. Key responsibilities include overseeing the school's financial health, ensuring proper expenditure and accountability of public funds, establishing general and curriculum-related policies, approving and monitoring the annual budget and financial procedures, and engaging in strategic planning and fundraising efforts. The Board is also responsible for the selection, evaluation, and, if necessary, dismissal of the Executive Director, as well as the approval and oversight of personnel policies. In addition, the Board works to build broad-based support and strategic partnerships that further the mission of the school. To fulfill its oversight role, the Board meets regularly to review academic and operational data, financial reports, and compliance documentation. Through these processes, it ensures alignment with the school's mission, holds leadership accountable, and monitors key performance indicators to drive continuous improvement.

HCCS has adopted a conflict of interest code that complies with the Political Reform Act, Corporations Code Conflicts of Interest rules, and any charter-specific conflicts of interest regulations. Notwithstanding any rule, regulation, provision, or Corporation Bylaw to the

contrary, the HCCS' Board of Directors and the Charter School shall at all times and in all respects comply with all conflict of interests laws generally applicable to the District's Board of Trustees, including but not limited to Government Code section 1090 and the Political Reform Act. The responsibilities of the HCCS Board, as further outlined in the Bylaws, include but are not limited to:

- Uphold the Vision of the Charter School.
- Oversee the implementation of the HCCS's charter.
- Provide notice and hold meetings in compliance with the Brown Act.
- Create and implement goals for the Charter School.
- Ensure compliance with applicable law, such as the Public Records Act and policies such as the Conflict of Interest Code.
- Provide oversight of instructional programs and materials.
- Approve and provide input for student policies.
- Monitor management of school liabilities, insurance, health, safety and risk-related matters.
- Receive and review quarterly financial reports and the yearly financial audit.
- Work with the chief administrator to set goals.
- Enact policies to support the successful operation of HCCS.
- Attend ethics training (AB 2158).

Governance Procedures and Operations

Meeting Requirements and Procedures

All Board meetings are held in accordance with the Brown Act and Education Code Section 47604.1(c) and are open to the public; each agenda includes time for community input regarding Highlands Community Charter School. Governing Board meeting agendas are posted at the entrance of the Charter School's main office and on the Highlands Community Charter School website at least 72 hours prior to any regularly scheduled meeting and at least 24 hours in advance of special meetings. Emergency meetings may be held without standard notice when immediate action is required. Meetings are held at the principal office of HCCS or other publicly accessible, non-discriminatory locations within California designated by Board resolution or meeting notice. Teleconferencing is permitted if the public can attend from all listed locations, and votes are conducted by roll call. Under AB 2449 (effective through January 1, 2026), Board members may also participate remotely under certain conditions without disclosing their location, provided public access is preserved. Meeting minutes are posted to the HCCS website within 72 hours of approval and are available upon request. The Board meets regularly—typically monthly during the school year—and meetings are calendared annually, with rescheduling allowed for holidays.

Decision-Making Procedures

HCCS retains General Counsel to ensure Brown Act compliance for all HCCS board activities, including decision-making procedures. Board members have also been provided with Brown Act reference materials and may participate in yearly meetings held by California Charter Schools Association ("CCSA") and/or Charter Schools Development Center ("CSDC"), which feature ethics presentations, including Brown Act and conflict of interest reviews. All Board members are encouraged to participate in such presentations.

A majority of all voting Board members constitutes a quorum for all business transactions except adjournment. Every action taken or decision made by a majority of Board members present at a duly held Board meeting is considered an act of the Board, subject to more stringent provisions of the California Nonprofit Public Benefit Corporation Law, including, without limitation, those provisions relating to:

- Approval of contracts or transactions in which a director has a direct or indirect material financial interest,
- Approval of certain transactions between corporations having common directorships,
- Creation of and appointments to committees of the board, and
- Indemnification of directors.

Meetings may be held by telephone or other telecommunications equipment pursuant HCCS Bylaws and in accordance with the terms and provisions of the Ralph M. Brown Act, California Government Code Sections 54950, et seq., as said chapter may be modified by subsequent legislation.

Educational Partner Involvement

Educational Partner Involvement Plan and Process

It is critical that all students are invested in the success of the Charter School and have a voice in matters critical to the Charter School's success. HCCS believes that student investment is integral to a successful student education, and it is commonly accepted that student involvement can have positive and long-lasting educational results. Therefore, HCCS makes every effort to ensure that student input is considered in the Board's decision-making process. To assure the greatest involvement, HCCS provides multiple opportunities for student feedback.

As part of its continuous improvement efforts, Highlands Community Charter School (HCCS) conducts Educational Partner (EdPartner) events throughout the year, beginning each fall with the distribution of staff and student climate surveys. Starting in the 2024–2025 school year, both surveys are administered via SurveyMonkey to enhance anonymity and encourage honest, constructive feedback.

The staff survey is distributed first and has seen steadily increasing participation, with 346 Highlands staff and 13 Equity Initiatives staff responding in 2024–2025—up from 223 respondents the previous year—resulting in a participation rate of 92.76%. The survey includes questions across several key areas: mission, vision, and schoolwide goals; communication and leadership; workplace culture and environment; onboarding and support; compensation and benefits; digital tools and technology; professional development and growth; and curriculum and instruction. These categories are designed to assess organizational strengths and identify areas for growth. Survey results are presented to the HCCTS Board of Directors and shared with all staff through infographic posters displayed at every school site to promote transparency and engagement.

The student climate surveys are sent out to all students in eleven different language options. In the 2024-2025 school year, the survey was hosted on Survey Monkey, which allowed for ease of

use for students as well. Teachers are encouraged to have their students take the survey during class to increase participation.

Highlands' student survey was available to students in 12 languages, including English, Spanish, Russian, Ukrainian, Dari, Pashto, Arabic, Chinese, Vietnamese, Armenian, Turkish, and Hmong, and resulted in 3,610 student responses, compared to 2,169 last year.

In February 2024, HCCS held the Reading with Relevance event to gather information on the curriculum and its impact. Highlands engaged 36 educational partners during this event and had them participate in the Reading with Relevance Book Fair Impact Survey afterward.

During the Black History event in February 2024, Highlands focused on engaging educational partners and collecting feedback. The Black History Month Assembly Feedback Form from February 2024 garnered 27 responses from educational partners.

During the Building a Community School Lunch and Dinner sessions, Highlands concentrated on gathering suggestions for improvements in the domains of wellness, health, social-emotional support, additional academic opportunities, CTE, and community enhancements. HCCS held discussions with educational partners, which resulted in 22 summarized responses on the Building a Community School survey.

In March 2024, Highlands hosted a meeting with principals to gather their insights on the key challenges and opportunities for growth. Following the discussions, participants were requested to complete the Principal Feedback Survey, which provided subsequent data from 6 principals.

In April 2024, HCCS sent out the Leadership Survey to collect the directors' feedback on the following categories: communication, job and role clarity, work environment, recognition, relationships, curriculum, and professional development. HCCS has gathered responses that highlight the enhancements across the categories, alongside some challenges. Seven of the directors participated in the Survey.

In April 2024, Highlands facilitated a Your Voice Matters event for CTE programs at the Grand Avenue campus. HCCS engaged 42 educational partners and gathered feedback on strengths, improvement areas, and solutions.

In the 2023-2024 school year, Highlands hosted educational partner events titled Your Voice Matters at 11 locations, compared to one location in the previous year. The purpose of visiting more sites was to get more feedback from students with different needs at various school locations. For the 2023-2024 school year, HCCS gathered educational partner feedback from a total of 830, including 26 responses from students who enrolled in the Equity Initiatives program at the “Your Voice Matters” events, compared to 270 in the 2022-2023 school year. Combined with the all-staff climate surveys and student surveys, the principal meeting, leadership feedback survey, and other educational partner events, HCCS engaged 4,926 while gathering educational partner feedback.

Each educational partner event had a facilitator and notetaker who led the discussion in three areas: school strengths, growth opportunities, and possible solutions. The responses were recorded in Google Forms. HCCS analyzed the data to identify growth areas and build the LCAP goals and actions. HCCS found a high level of consistency in climate surveys and educational partner responses. After careful review, HCCS used this feedback to determine where to increase and decrease spending.

HCCS encourages students and staff to attend, speak, and present at Board meetings; HCCS requests that students and staff complete various surveys. HCCS proactively reaches out to students regularly to encourage them to meet with the counselors to continue discussing their goals and needs, and HCCS is proudly responsive to the feedback it receives.

HCCS encourages and teaches the students how to maintain direct influence over the direction of their educational process. Students have equal say, and sometimes, greater say, in their learning according to their academic needs. Teachers collaborate with students, other teachers, staff, administration, and community partners to determine what new programs and resources would be most beneficial to student achievement and well-being.

In planning to draft the LCAP, leadership consults with teachers, administrators, other school personnel, partners, and students in developing the annual update. This feedback is provided during EdPartner events. Following these events, the data is reviewed, proposals for a new funding formula are created and presented to the board of directors as well as the executive cabinet. Goals are then amended based on recommendations provided from the school community. Amended plans are then presented for feedback to staff, students, and all other interested parties at regularly scheduled meetings. All stakeholders are invited to submit public comments and final plans are approved at a public board meeting. HCCS will consider TRUSD recommendations and comments when drafting its LCAP. The Charter School shall present a report on the annual update to the LCAP and the local control funding formula budget each year as part of a nonconsent item at a regularly scheduled Board meeting.

Additionally, HCCS uses the school website to keep the students informed of all upcoming activities, important calendar items, and Board meeting minutes. HCCS promotes student involvement by encouraging students to contribute to and drive website content through the sharing of their personal stories which are connected to the website via an Instafeed of social media content.

The Board of Directors may, in its discretion, form Committees, in accordance with the Bylaws and applicable law, to accomplish the objectives and responsibilities of the Board and to ensure that the school achieves its mission and goals.

Element E Employee Qualifications

"The qualifications to be met by individuals to be employed by the charter school." (Ed. Code § 47605(c)(5)(E).)

Qualified Employment

HCCS shall recruit professional, effective, and qualified personnel for all administrative, instructional, instructional support, and non-instructional support roles who align with the school's instructional philosophy, mission, and vision. In accordance with Education Code 47605(e)(1), HCCS shall remain nonsectarian in its employment practices and all other operations. The Charter School shall not discriminate against any individual (employee or pupil) on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, immigration status, or any other characteristic included in the definition of hate crimes set forth in Section 422.55 of the Penal Code, or based on association with an individual who has any of the aforementioned characteristics.

All employees must possess the personal qualities, knowledge, and relevant experience outlined in the responsibilities and qualifications section of the posted job description, as determined by HCCS staff in coordination with Human Resources. HCCS staff and Human Resources personnel shall recommend applicants suitable for employment. Following the interview process, final approval shall rest with the Executive Director.

Executive Leadership 2025-2026

Executive Director, Jonathan Raymond
Chief Business Official, Matthew Lemos
Chief Operations Officer, Teresa Cummings
Chief Academic Officer, Eric Chapman

For more information on the resumes of each of the cabinet members and their job descriptions, see the appendix.

Administrative Services Credentials

HCCS supports and encourages leadership to obtain administrative services credentials through the CTC. HCCS currently partners with two programs to do this: the Sacramento County Office of Education and the San Diego County Office of Education. As of June 2025, 14 employees at HCCTS have participated in a preliminary and or clear administrative services credential program or have been accepted and will begin in the next cohort.

HCCTS administrators or employees who have completed or are currently enrolled in preliminary or clear administrative credential programs:

1. Eric Chapman, Chief Academic Officer
2. Teresa Cummings, Chief Operations Officer
3. Mayra Valdivia, Senior Director of School Services

4. Christina Martinez, Director of CTE, Workforce and Adult Education
5. Andrew Michaud, Director of Instruction and Professional Learning
6. Isa Cacho, Director of Student Services
7. Melissa Roberson, Director of Accountability and Assessment
8. Carol Zheng, Curriculum Coordinator
9. Niccole Scrogins, Admin on Special Assignment
10. Maya Perry, CICA Principal
11. Khrystsina Talstyka, HCCS Principal

The following employees have been accepted to a preliminary administrative services credential through the Sacramento County Office of Education and will begin in the next cohort:

1. Catherine Thirkill, CASAS Coordinator
2. Vicki Neal, HCCS Principal

HCCS has developed and adopted Board Policy 4331 – Administrative Credential Reimbursement, which outlines the reimbursement procedures for participation in approved credentialing programs. Additional details are provided in the appendix.

Evaluations

In the 2024-2025 school year, the Board Policy: 4115 Personnel Evaluation and Supervision outlined the maintenance of a comprehensive personnel evaluation policy to support continuous improvement, accountability, and alignment with the school's mission. This policy applies to all certificated and classified staff and outlines clear expectations for professional conduct, job performance, stakeholder engagement, and compliance. Evaluations are conducted annually and may include observations, self-assessments, performance appraisals, and goal-setting reviews, depending on the employee's role. Supervisors are responsible for providing timely feedback, maintaining documentation, and supporting employee growth. All evaluation records are kept confidential and stored in personnel files in accordance with privacy laws. For more information regarding Board Policy: 4115 Personnel Evaluation and Supervision, see the appendix.

Frontline is an integrated system used for payroll, employee evaluation, and professional learning management. As part of its evaluation functionality, the platform securely stores all employee evaluations and monitors performance trends over time. It facilitates a standardized evaluation process across the organization and provides automated reminders to supervisors regarding upcoming deadlines. All employees are required to review and electronically acknowledge their evaluations within the system.

Teacher Credentialing

HCCTS agrees that all teachers should hold a valid teaching credential for their certificated assignment in conformance with Education Code Section 47605(l)(1) and that classroom paraeducators should not be permitted to teach as the teacher of record or without the immediate supervision of an appropriately credentialed teacher without valid teaching credentials for their assignment. In prior years, teachers at HCCS held adult education credentials as recommended by the CTC and the San Diego County Office of Education. In February 2025, the CTC decided to enforce K-12 teaching credentials.

HCCS has already implemented the following to improve compliance and accountability. In the 2024–2025 school year, HCCTS significantly changed its credentialing and staffing procedures. The school established a credentialing support team of internal staff and credentialing consultants and reviewed more than 300 staff profiles. Individual credential pathway plans were developed, and 269 one-on-one consultations were held with teachers. HCCTS launched a partnership to create an intern credential pathway with tuition coverage for staff and offered reimbursement for credential exam fees and coursework through Board Policy 4112.3: Teacher Credentialing Reimbursements. All staff with noncompliant assignments were notified, and instruction in July 2025 was suspended to allow credential corrections before the next school year.

Board Policy 4112.2 now requires all certificated staff to hold valid and appropriate credentials at the time of hire and to submit timely proof of renewal. In alignment with updated guidance from the CTC and CDE—and following the loss of DASS status—HCCTS has transitioned away from Adult Education credentials. All teachers are now required to hold single-subject or multiple-subject credentials.

To support compliance, HCCTS created a centralized credentialing dashboard and updated its use of Frontline to track credential status, staff evaluations, and assignment alignment.
Per Board Policy 4112.2, certificated employees must:

- Hold the appropriate credential for their assignment upon hire;
- Maintain active credentials and complete renewals as required;
- Adhere to applicable state and federal regulations;
- Submit proof of credential validity and renewal to Human Resources within required timelines.

For more information from the Board Policy 4112.2: Credentialing Requirements Communications, see the appendix.

Instructional Paraeducators
Instructional paraeducators at Highlands Community Charter School (HCCS) play a vital role in supporting certificated teachers by providing instructional assistance and academic support in students' primary languages. To ensure all paraeducators meet minimum qualifications, HCCS requires a high school diploma or equivalent, successful completion of an English proficiency exam with a score of 70% or higher, and the ability to communicate effectively with diverse student populations. In alignment with state and federal requirements, HCCS verifies educational qualifications and exam results during the hiring process and maintains documentation to ensure compliance.

Applicant Screening
All job applicants at HCCS go through a rigorous pre-employment screening process to ensure they meet all requirements and qualifications for the role they are applying for. HCCS uses the website Edjoin to post job openings. This is also where new applicants apply for positions. Within Edjoin, HR is able to filter applications based on minimum qualifications. Only employees who meet these requirements are eligible for interviews. HCCS BP 4111 outlines the hiring process for external candidates. As part of the pre-employment job application, candidates

are asked about their relationships to other employees in order to ensure that no relatives are involved in the hiring decisions and that family members do not report to each other.

HCCTS Hiring and Anti-Nepotism Policy
HCCTS has adopted Board Policy 4212.8, prohibiting relatives from participating in hiring or evaluation processes involving family members to address concerns about nepotism and favoritism. Interviewers must complete disclosure forms, and job postings, evaluations, and offers are now tracked and reviewed centrally by the HR department to ensure consistency and equity.

Organizational Chart & Job Descriptions
HCCTS regularly updates the organizational chart for accuracy based on the roles and structures needed within the organization. During the 2024-2025 school year, HCCTS drafted and revised a total of 25 job descriptions. The purpose is to ensure role clarity for all employees and ensure there is consistency between the work performed, role requirements, and appropriate pay.

Hiring Process
The hiring process at Highlands Community Charter School (HCCS) is designed to ensure consistency, transparency, and alignment with organizational needs and compliance standards. It begins with the submission of a Position Control Form (PCF) whenever a position needs to be backfilled or newly created. The PCF includes essential details such as the job description and a designated leadership contact, and is reviewed weekly by the Executive Cabinet. Upon approval and required signatures, the Human Resources team posts the position on EdJoin.org and communicates the posting status to the hiring manager. This step ensures that each job opening is intentional, well-defined, and appropriately authorized.

Once posted, hiring managers review applicants within EdJoin by evaluating qualifications in relation to the job description. Candidates are categorized as prescreened, interviewed, or removed, providing a clear record of each applicant's status. Notes from prior interviews are required for third interview requests and must be documented either via email or directly in the EdJoin system. For current staff changes, such as promotions or changes in FTE, an EE Update—rather than a PCF—is submitted to accurately reflect the employee's new assignment. Altogether, this structured process supports effective hiring decisions while maintaining clarity, documentation, and compliance across the organization.

Employee Positions and Qualifications

Employee Positions
See Appendix for the 2025 Organizational Chart.

Professional Development
In the 2024–2025 school year, HCCS adopted a Professional Development Policy to support the continuous growth of all staff: 4131 BP Professional Development. The policy aligns professional learning with HCCS's mission, vision, and strategic goals, with a focus on improving student outcomes and meeting legal and regulatory requirements.

HCCS offers a variety of professional development opportunities, including in-service training, workshops, online modules, and compliance-focused sessions. In accordance with Education Code 47605.1(f) and its WIOA partnership, HCCTS may conduct professional development at any location in California.

The Executive Director oversees alignment and implementation, while leadership identifies needs and encourages staff participation. Employees are expected to engage actively and apply their learning. Funding is provided in line with organizational priorities, and travel is reimbursed per Board Policy 3350. HCCS evaluates professional development effectiveness through staff feedback, performance data, and evidence of improved practice, with a commitment to equity and access for all staff.

In 2024-2025, HCCS offered extensive internal and external professional development, covering topics like CPR, active shooter response, equity, SEL, and leadership. HCCS provides two all-staff mandatory Professional Development opportunities throughout the year: three days in August and two days in May. All staff training includes Title IX training, Mandatory Reporter & Child Abuse Prevention Training, Sexual Harassment Prevention Training, FERPA, Workplace Violence Prevention Training, and Comprehensive School Site Safety Training.

Teachers and paraeducators receive training on assessments such as the California Science Test (CAST) and English Literacy and Civics (EL Civics) assessments, end-of-level assessments, and CASAS assessments. Additionally, teachers and paraeducators receive training on any curriculum updates and curriculum instructional strategies. Teachers in the process of getting their credential or who have their preliminary credential are assigned a mentor teacher and must meet with them regularly.

Highlands Community Charter School (HCCS) recognizes the critical role of targeted professional development in fostering staff effectiveness and advancing organizational goals. While HCCS offers all-staff professional development days to promote schoolwide alignment and collaboration, a dedicated portion of these days is intentionally reserved for department-specific professional development. This approach ensures that staff receive training that is both relevant to their roles and responsive to the unique needs of their departments.

To coordinate these efforts across departments, the Chief Academic Officer—or their designee—works collaboratively with department directors or lead team members to plan and implement tailored professional development sessions. This decentralized model promotes professional learning that is contextualized, job-embedded, and aligned with departmental objectives, while still supporting the broader mission and strategic priorities of HCCS. For more information on department professional development, see the appendix.

Element F Health and Safety Procedures

"The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall require all of the following
That each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237.

For all schools, the development of a school safety plan, which shall include the safety topics listed in subparagraphs (A) to (M), inclusive of paragraph (2)of subdivision (a)of Section 32282. For schools serving pupils in any of grades 7 to 12, inclusive, the development of a school safety plan shall also include the safety topic listed in subparagraph (N) of paragraph (2) of subdivision (a) of Section 32282.

That the school safety plan be reviewed and updated by March 1 of every year by the charter school." (Ed. Code § 47605(c)(5)(F).

Health and Safety Policies and Procedures

Custodian of Records
HCCS Community Charter School designates the Executive Director to serve as the Charter School's Custodian of Records per California Department of Justice requirements. The Executive Director is confirmed as the Custodian of Records by the California Department of Justice.

Promoting Student Health and Wellness
HCCS will ensure the safety of the students and staff by complying with all applicable state and federal safety laws. HCCS shall adhere to Board policies pertaining to the safety and health of all employees and students.

Emergency Operations Guide
The Emergency Operations Guide for Highlands Community Charter School (HCCS) is a comprehensive manual that outlines the protocols, procedures, and responsibilities necessary to ensure the safety and well-being of students, staff, and visitors in the event of an emergency. Designed to comply with California law, the guide establishes HCCS staff as disaster service workers and provides step-by-step instructions for responding to a wide range of emergencies—including natural disasters, active shooter situations, hazardous material releases, and more. It includes critical contact information, evacuation procedures, communication tools, and detailed roles within the Incident Command System, ensuring a coordinated and effective response to any crisis. All staff are required to review the guide annually and be prepared to carry out assigned emergency duties. For more information about the emergency operation guide, please refer to the appendix.

Board Policies
- 5125 BP Student Records
- 5131 BP Student Conduct

- 5132 BP Student Dress Code
- 3542 BP Vehicle Use
- 5144 BP Student Discipline
- 5131.6 BP Alcohol and Other Drugs
- 5144.1 BP Suspension and Expulsion
- 5145.2 BP Student Freedom of Expression
- 5131.7 BP Weapons and Dangerous Instruments
- 1250 BP Registration of Visitors, Guests, and Outsiders
- 5142 BP Children on Campus and the Early Learning Center
- 3516 BP School Safety & Emergency Preparedness Plan
- 4212.8 BP - Anti-Nepotism and Employment of Relatives
- 4119.12 BP - Title IX Policy Prohibiting Discrimination on the Basis of Sex
- 5145.71 BP - Title IX Policy Prohibiting Discrimination on the Basis of Sex
- 5141.31 BP Health Examinations, Immunizations, and Oral Health Assessments
- 5145.3 BP Harassment, Discrimination, Intimidation, and Bullying Prevention

Social and Emotional Support and Guidance
Teachers, counselors, and all staff members who engage with students are expected to listen actively, provide support, demonstrate empathy, and guide students in developing healthy social and emotional skills. Maintaining an open-minded, trustworthy, and respectful approach is essential to fostering student well-being. HCCS is also committed to identifying students in need of mental health support and actively collaborates with community mental health organizations to connect students with appropriate resources and services.

Staff Safety Training and Protocols
HCCS staff are trained annually in active shooter response protocols, aligned with the procedures outlined in the School Safety Guide and emergency response reports. These trainings are complemented by regular campus-wide drills and communication system tests to ensure preparedness and coordination across all school sites. In addition to emergency preparedness, all staff participate in annual CPR and first aid certification, as well as any additional health and safety training required by state or federal guidelines. Staff contracts reflect agreement to comply with these safety procedures.

Student Drills and Emergency Procedures
To promote student safety and readiness, HCCS conducts fire drills and evacuation drills regularly throughout the academic year at all school sites. These drills are documented and reviewed to ensure efficiency and compliance with fire code and safety regulations.

Academic, College, and Career Counseling
Counselors meet with students one-on-one throughout the school year to discuss academic progress and set SMART goals (specific, measurable, attainable, relevant, and timely). Counselors offer college and career counseling through individual and group sessions.

Background Checks
HCCS certifies that criminal record summary information has been obtained for all staff prior to employment. Classified staff submit fingerprints to a California and multi-state Live Scan prior to employment. The multi-state search should ensure all convictions are reported. Furthermore, HCCS shall comply with the applicable state and federal laws regarding the fingerprinting and background clearance of employees, contractors, and volunteers prior to engaging in employment, volunteerism, or contract services or any other unsupervised contact with students of the Charter School. The Charter School shall not hire any person, in either a certificated or classified position, who has been convicted of a violent or serious felony except as otherwise provided by law, pursuant to Education Code Sections 44830.1 and 45122.1. The HCCS Executive Director or appointed confidential designee shall review California Department of Justice and Federal Bureau of Investigation reports on prospective employees, contractors, and volunteers to determine whether an individual may provide service within the Charter School, except with respect to reports relative to her or himself, in which case a confirmed member of the Board or appointed confidential designee will review the respective report. The Executive Director or appointed confidential designee shall monitor compliance with this policy on a continuous and ongoing basis.

Mandated Child Abuse Reporting
All HCCS employees are mandated child abuse reporters and will follow all applicable reporting laws. HCCS provides all employees and other persons working on behalf of HCCS who are mandated reporters with annual training on child abuse detection and reporting, which shall occur within the first six weeks of each school year, or within the first six weeks of a person's employment if employed after the beginning of the school year.

Tuberculosis (TB) Risk Assessment and Examination
HCCS shall adhere to existing state laws regarding tuberculosis screening of employees. HCCS requires a tuberculosis risk assessment and, if necessary, examination for all employees working in direct contact with students prior to commencing employment and working with students, and for employees at least once each four years thereafter. Highlands Community Charter School certifies that applicable health record information has been obtained for all relevant employees and volunteers prior to initial employment.

Immunizations
HCCS adheres to all applicable laws and existing Board policy related to legally required immunizations and health-related issues for both employees and entering students at HCCS.

CPR/First Aid Training
All designated employees are CPR and First Aid trained as part of internal practice.

Medication in School
The Charter School will adhere to Education Code Section 49423 regarding administration of medication in school. The Charter School will adhere to Education Code Section 49414 regarding epinephrine auto-injectors and training for staff members; per AB 1651 (2023), the Charter School shall store emergency epinephrine auto-injectors in an accessible location upon

need for emergency use and include that location in annual notices required by law. To the extent the Charter School maintains a stock of albuterol inhalers to respond to respiratory distress in students, the Charter School shall comply with the requirements of Education Code Section 49414.7, including with respect to training, notices, and the stocking of albuterol inhalers.

Diabetes
The Charter School shall make type 1 diabetes informational materials accessible to the parent or guardian of a pupil when the pupil is first enrolled in elementary school.

Vision, Hearing, and Scoliosis
Students will be screened for vision, hearing, and scoliosis. The Charter School will adhere to Education Code Section 49450 et seq. as applicable to the grade levels served by the Charter School.

Suicide Prevention Policy
The Charter School shall maintain a policy on student suicide prevention in accordance with Education Code Section 215. The Charter School shall review, at minimum every fifth year, its policy on pupil suicide prevention and, if necessary, update its policy. Pursuant to AB 58 (2021-22), the Charter School will also review and update its suicide prevention policy to incorporate best practices identified by the California Department of Education's model policy, as revised.

Prevention of Human Trafficking
The Charter School shall identify and implement the most appropriate methods of informing parents and guardians of students in grades 12 of human trafficking prevention resources.

Menstrual Products
The Charter School shall stock the school's restrooms at all times with an adequate supply of menstrual products, available and accessible, free of cost, in all women's restrooms and all-gender restrooms, and in at least one men's restroom. The Charter School shall post a notice regarding the requirements of Education Code Section 35292.6 in a prominent and conspicuous location in every restroom required to stock menstrual products, as specified. This notice shall include the text of Education Code Section 35292.6 and contact information, including an email address and telephone number, for a designated individual responsible for maintaining the requisite supply of menstrual products.

All Gender Restrooms
As required by law, on or before July 1, 2026, HCCS will provide and maintain at least one all-gender restroom available at all sites.

California Healthy Youth Act
The Charter School shall teach sexual health education and human immunodeficiency virus prevention education to students in grade 12, at least once in high school, pursuant to the California Healthy Youth Act (Education Code Section 51930, et seq.).

Mental Health Education
If the Charter School offers one or more courses in health education to students in high school, the Charter School shall include in those courses instruction in mental health that meets the requirements of Education Code Section 51925, et seq.

Mental Health Information
The Charter School shall create and post a poster at the school site identifying approaches and resources addressing student health in compliance with Education Code Section 49428.5. The poster shall be displayed in English and the primary language(s) spoken by 15 percent or more of the students enrolled at the school site. The poster shall be prominently and conspicuously displayed in appropriate public areas that are accessible to, and commonly frequented by, students at the school site. The poster shall also be digitized and distributed online to students through social media, internet websites, portals, and learning platforms at the beginning of each school year.

Workplace Violence Prevention Plan
The Charter School shall establish, implement, and maintain, at all times in all work areas, an effective workplace violence prevention plan consistent with the requirements of Labor Code Section 6401.9.

Comprehensive School Safety Plan
The Charter School shall adopt a Comprehensive School Safety Plan, to be reviewed and updated by March 1 of every year, which shall include, but not be limited to: (1) an assessment of the current status of school crime committed on Charter School facilities and at Charter School-related functions; and (2) identifying appropriate strategies and programs that will provide or maintain a high level of school safety and address the Charter School's procedures for complying with applicable laws related to school safety, which shall include the development of all of the following pursuant to Education Code Section 32282(a)(2)(A)-(N):

- Child abuse reporting procedures
- Routine and emergency disaster procedures
- Policies for students who committed an act under Section 48915 and other Charter School-designated serious acts leading to suspension, expulsion, or mandatory expulsion recommendations
- Procedures to notify teachers of dangerous students pursuant to Education Code Section 49079
- A discrimination and harassment policy consistent with Education Code Section 200
- Provisions of any school wide dress code that prohibits students from wearing "gang-related apparel," if applicable
- Procedures for safe ingress and egress of pupils, parents, and employees to and from the Charter School
- A safe and orderly environment conducive to learning
- The rules and procedures on Charter School discipline adopted pursuant to Education Code Sections 35291, 35291.5, and 47605
- Procedures for conducting tactical responses to criminal incidents

- Procedures to prepare for active shooters or other armed assailants by conducting a drill, if this topic is covered in the School Safety Plan
- Procedures to assess and respond to reports of any dangerous, violent, or unlawful activity that is being conducted or threatened to be conducted at the school, at an activity sponsored by the school, or on a school bus serving the school
- Procedures to respond to incidents involving an individual experiencing a sudden cardiac arrest or a similar life-threatening medical emergency while on school grounds
- A protocol in the event a pupil is suffering or is reasonably believed to be suffering from an opioid overdose

The CSSP is a detailed, annually updated strategy for preparing for, responding to, and recovering from various emergencies and ensuring a safe learning environment for students and staff. This plan assesses campus risks, addresses potential safety concerns and threats, and outlines procedures for safety-related incidents

More information about the Comprehensive School Safety Plan can be found in the appendix.

Emergency Preparedness
Highlands Community Charter Schools shall adhere to an Emergency Preparedness Handbook drafted specifically to the needs of the facility in conjunction with law enforcement and the Fire Marshal. The handbook shall include, but not be limited to the following responses: fire, flood, earthquake, terrorist threats, and hostage situations. If assuming a facility that was previously used as a school site, any existing emergency preparedness plan for the school site shall be used as a starting basis for updating the handbook for the Charter School.

Staff shall receive training in emergency response, including appropriate "first responder" training or its equivalent.

Disaster procedures included in the School Safety Plan shall address and include adaptations for students with disabilities. To the extent an employee, parent/guardian, educational rights holder, or student brings concerns regarding the procedures to the Site Administrator and, if there is merit to the concern, the Site Administrator shall direct the School Safety Plan to be modified accordingly.

Bloodborne Pathogens
Highlands Community Charter School adheres to state and federal standards for dealing with bloodborne pathogens and other potentially infectious materials in the workplace. HCCS maintains a written infectious disease control plan designed to protect employees and students from possible infection due to contact with blood-borne viruses, including HIV and hepatitis B virus (HBV). This plan includes the training of staff and is included in the Charter School's Comprehensive School Safety Plan. Whenever exposed to blood or other bodily fluids through injury or accident, staff and students will be directed to follow the latest medical protocol for disinfecting and waste disposal procedures.

Drug Free/Alcohol Free/Smoke Free Environment
HCCS maintains a drug, alcohol, and smoke-free environment (workplace and campus).

Integrated Complaint and Investigation Procedure
HCCS utilizes an anonymous complaint process through a third-party vendor called Navex.

Navex
In the 2024-2025 school year, HCCTS partnered with Navex One to improve the process for receiving anonymous complaints and concerns from employees.

Navex is a vendor that allows employees to submit anonymous or non-anonymous complaints to employers. The school's goal for the use of Navex is to ensure clear communication regarding unethical or illegal activities within the organization while remaining anonymous and confidential. Employees can access Navex in three ways:

- By calling a phone line that is connected to HCCTS
- By accessing a website using a computer and a URL
- By scanning a QR code with a cell phone camera

Each Navex case is documented and then shared with the HCCTS Human Resources Department, where each case is investigated. Once enough information has been collected, the case is finalized, and actions are taken. This system has improved communication between employees and HR and has allowed improved transparency in reporting.

Discrimination and Harassment Policies and Procedures
HCCS is committed to providing a charter school free of discrimination, harassment, and retaliation. There are three components to this commitment. All employees receive and sign an employee handbook annually that informs them of HCCS's sexual harassment policy. Additional site-based sexual harassment training is taught to all staff, and annual training is facilitated through "Safe Schools," an online program.

HCCS is also committed to providing a workplace free of discrimination, harassment, and retaliation based upon the real or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, immigration status, nationality, national origin, ancestry, ethnic group identification, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or based on a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance, or regulation.

HCCS uses policies adopted by the Board regarding discrimination and harassment (including employee-to-employee, employee-to-student, student-to-employee, and student-to-student misconduct). Misconduct of this nature is very serious and will be addressed in accordance with Board policies. Any complaint of unlawful harassment, discrimination, or sexual harassment is actively investigated by HCCS, to include, where appropriate, the retention of outside investigators, in accordance with the Charter School's Uniform Complaint Procedure.

A copy of the policy shall be provided as part of any orientation program conducted for new and continuing pupils at the beginning of each quarter, semester, or summer session, as applicable, and to each faculty member, all members of the administrative staff, and all members of the support staff at the beginning of the first quarter or semester of the school year, or at the time that there is a new employee hired. The Charter School shall create a poster that notifies students of the applicable policy on sexual harassment in accordance with Education Code Section 231.6 and shall prominently and conspicuously display the poster in each bathroom and locker at the schoolsite and in public areas at the schoolsite that are accessible to, and commonly frequented by, pupils.

School Facility Safety
Highlands Community Charter School complies with Education Code 47610 by either utilizing facilities that are compliant with the Field Act or facilities that are compliant with the California Building Standards Code. HCCS adheres to laws specific to charter schools on the local and state levels regarding facilities. HCCS agrees to test sprinkler systems, fire extinguishers, and fire alarms annually at its facilities to ensure that they are maintained in an operable condition at all times.

Bullying Prevention
The Charter School shall adopt procedures for preventing acts of bullying, including cyberbullying. The Charter School shall annually make available the online training module developed by the CDE pursuant to Education Code Section 32283.5(a) to certificated school site employees and all other school site employees who have regular interaction with children.

Supporting LGBTQ Students
Through the completion of the 2029-30 school year, the charter school shall use an online training delivery platform and curriculum at least one hour of required LGBTQ cultural competency training annually to teachers and other certificated employees and maintain records of such training as required by Education Code Section 218.

SAFETY Act
Pursuant to AB 1955 (2024), employees of the Charter School shall not be required to disclose any information related to a pupil's LGBTQ+ identity to any other person without the pupil's consent unless otherwise required by state or federal law. This provision shall not limit a parent's ability to request school records on behalf of their child.

Homicide Threats
The Charter School shall comply with all requirements under Education Code Sections 49390-49395 regarding mandatory reporting in response to homicidal threats. All employees and Board members who are alerted to or who observe any threat or perceived threat in writing or through an action or a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity shall make a report to law enforcement.

Gun Safety Notice
At the beginning of the first semester, the Charter School shall distribute a notice to the parents/guardians of each student addressing California's child gun access prevention laws and laws related to firearm safety, utilizing the most updated model language published by the California Department of Education.

Athletic Programs
The Charter School shall comply with all applicable laws related to health and safety policies and procedures surrounding athletic programs at charter schools, including but not limited to providing information to athletes regarding sudden cardiac arrest and annually providing each athlete with an Opioid Factsheet for Patients.

Transportation Services
The Charter School shall comply with the requirements of AB 88 (2023-24), if applicable, relating to background checks, testing, and other requirements for individuals and entities providing transportation services to students.

Extreme Weather Policy
On or before July 1, 2026, the Charter School will develop, adopt, and implement a weather policy that includes protocols for extreme weather conditions, and incorporate the standardized guidelines developed by the CDE.

Title IX
HCCS complies with Education Code Section 221.61 by posting in a prominent and conspicuous location on its website the following information related to the federal regulations implementing Title IX of the Education Amendments of 1972:

The name and contact information of the Charter School's Title IX Coordinator, including the Title IX Coordinator's phone number and email address.

The rights of the pupil and the public and the responsibilities of the Charter School, which includes, but is not limited to, internet web links to information about those rights and responsibilities located on the website of the Office for Equal Opportunity and the U.S. Department of Education Office of Civil Rights (OCR), and the list of rights specified in Education Code Section 221.8.

A description of how to file a complaint under Title IX, which shall include all of the following:

A. An explanation of the statute of limitations within which a complaint must be filed after an alleged incident of discrimination has occurred, and how a complaint may be filed beyond the statute of limitations.
B. An explanation of how the complaint will be investigated and how the complainant may further pursue the complaint, including, but not limited to, web links to this information on the U.S. Department of Education OCR website.

C. A link to the U.S. Department of Education OCR complaint form, and the contact information for the office, including the phone number and email address for the office.

Element G Balanced Enrollment

"The means by which the charter school will achieve a balance of racial and ethnic pupils, special education pupils, and English learner pupils, including redesignated fluent English proficient pupils, as defined by evaluation rubrics in Section 52064.5, that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted." (Ed. Code § 47605(c)(5)(G).)

Assurances

Highlands Community Charter School shall:

- Be nonsectarian in all programs, admission policies, employment practices, and operations; not charge tuition; and not discriminate against any pupil on the basis of disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any characteristic listed in Penal Code § 422.55.
- Admit all pupils who wish to attend to the extent that space allows; admission shall not be determined by place of residence except as otherwise required by law; and, if applications exceed capacity, offers of admission shall be made by public random drawing (lottery) consistent with Ed. Code § 47605(d)(2).
- **Apply any enrollment preferences** only as permitted by law and as stated in the charter; **preferences will not require mandatory parent volunteer hours** as a condition of admission (Ed. Code §47605(e)(2)(B)(iv)) and **shall not limit access** for pupils protected by Ed. Code §47605(e)(2)(B)(iii).
- Preferences, if given, shall not result in limiting enrollment access for pupils based on nationality, race, ethnicity, or sexual orientation; and shall not result in limiting enrollment access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or economically disadvantaged pupils, or foster youth. (Education Code § 47605(e)(2)(B)(iii)).
- Not discourage enrollment in the charter school or encourage disenrollment/ transfer of a student from the charter school, for any reason, including but not limited to academic performance or any characteristics of the student listed under Education Code §47605(e)(2)(B)(iii).
- Not request or require submission of a student's IEP, Section 504 plan, or other records prior to admission, participation in any lottery, any pre-enrollment event, or as a condition of enrollment; HCCS may request only the information necessary to apply any admissions preferences stated in the charter.

Achieving and Maintaining Student Population Balance Plan & Goal

Highlands Community Charter School strives, through recruitment and admissions practices, to achieve a racial and ethnic, special education, and English Learner balance among its students that is reflective of the general population residing within the territorial jurisdiction that it serves.

HCCS will include an open enrollment policy. Students are considered for admission to the school without regard to ethnicity, national origin, gender, gender expression, gender identity, disability, sexual orientation or any of the characteristics listed in Education Code Section 220. (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics).

HCCS will implement a coordinated advertising and recruitment strategy to ensure that all students are informed of the educational opportunities available. These efforts will be ongoing throughout the year and will be designed to reach a broad and diverse audience. In alignment with HCCS's commitment to serving students from all ethnic and cultural backgrounds, a variety of advertising methods will be employed to promote equitable access and inclusive outreach.

Each year, HCCS analyzes enrollment trends in order to optimize efforts to recruit and retain students. An informal designated committee, composed of various stakeholders from the instructional, administrative, and operational sides of the school, meets regularly to discuss a problem-solving plan. Using both quantitative and qualitative feedback from the previous year, the plan allows the team to work together to clearly identify enrollment trends and their root causes, determine potential solutions, and generate strategies to successfully implement and track solutions in the upcoming year. Some of the valuable sources of data for this exercise come from student satisfaction surveys and non-mandatory exit interviews through which feedback is gathered.

Marketing: Advertising and Sponsorship to Increase Student Enrollment
Board Policy 1325, adopted in the 2024-2025 school year, establishes clear guidelines for how HCCTS may allocate funds for advertising, particularly as a strategy to increase student enrollment. All advertising expenditures must align with the school's mission and strategic goals and demonstrate a meaningful return on investment. Advertising is intended to raise awareness of HCCTS programs, highlight the benefits of enrollment, and promote the school's values to prospective students in the broader community.

Advertising campaigns must be pre-approved and fit within an annually reviewed budget that may not exceed 1% of the overall school budget without Board approval. Approval levels for advertising expenditures are tiered by amount, with campaigns over $100,000 requiring direct Board authorization.

Advertising efforts must clearly communicate the educational opportunities HCCTS offers—including adult high school diplomas, career preparation, and hands-on skill development—and use platforms that are cost-effective and aligned with the school's target audiences. All advertising must also comply with legal and ethical standards and adhere to brand identity guidelines to build recognition and trust within the community.

Additionally, advertising effectiveness is monitored and reviewed annually to ensure alignment with HCCTS's enrollment and engagement objectives, with quarterly reporting to the Executive

Director and an annual summary to the Board. For more information about the Board Policy 1325, see the appendix.

Element H Admissions Policies and Procedures

"Admission policies and procedures, consistent with [Education Code Section 47605] subdivision." (e). (Ed. Code § 47605(c)(5)(H).)

Admission and Enrollment Requirements

California Innovative Career Academy is nonsectarian in its programs, admission policies, and all other operations. HCCS will not discriminate on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code, or association with an individual who has any of the aforementioned characteristics [Ed. Code § 47605(e)(1)]. HCCS shall comply with all applicable laws governing minimum age requirements for registration in charter schools. The school shall not use any test, assessment, or interview to determine a student's eligibility for admission. However, following registration, all students may be administered diagnostic assessments, dubbed "placement tests," solely for the purpose of determining appropriate instructional placement. These assessments are used to inform grade-level placement and have no bearing on a student's eligibility for admission.

HCCS admits all students who meet the following criteria:

- Demonstrate a desire to enroll in the academic program
- Fall within the categories the school is legally authorized to serve
- Meet the eligibility requirement of being age 22 or older under the exclusive WIOA agreement
- Students do not have a U.S. high school diploma
- Submit a timely application

Required Documents

- Proof of Identification
- Proof of California Address (may be covered by proof of identification)
- HCCS Online Registration, which includes but not limited to the following:
    - Emergency Consent and Contact Information
    - National School Lunch Program Form (NSLP)
    - Home Language Survey
- CalJOBS Registration (Any forms required by a WIOA partner

Enrollment Period

Initial applications are accepted at any time during the school year. The HCCS admission process consists of the completion of an online student registration form. The admission process also includes students to participate in orientation, grade level placement, and academic planning.

Education Exclusively in Partnership with the Workforce Investment Opportunity Act (WIOA)

Per Ed. Code §§ 47612.1 and 47605.1(f)(1), HCCS provides instruction exclusively in partnership with the Workforce Investment Opportunity Act of 1998 through its partnership

agreement with the Sacramento Employment and Training Agency (SETA) or other WIOA organization. As such, HCCS only legally serves students who are receiving WIOA-funded services and does so under the terms of a Partnership Agreement. HCCS will provide a copy of the Partnership Agreement to the District on or before July 1, 2019.

The SETA or other WIOA service provider will provide HCCS students with the services specifically outlined in and attached hereto under "Tab 9—Workforce Agreements." HCCS will provide the District with documentation that confirms SETA or other WIOA service provider is qualified and authorized to provide such services contemplated in the Partnership Agreement.

Not Possessing a U.S. High School Diploma
Students who have a U.S. high school diploma (also known as a "regular high school diploma") will not be admitted to Highlands Community Charter School. Students who possess a GED, CHSPE, foreign credential, or any other alternative degree that is not fully aligned with the academic standards of the State of California may be admitted.

HCCS Proposed Lottery Process
If HCCS receives registrations in excess of its enrollment capacity, the lottery process will be used to select admitted students. HCCS will conduct a public random drawing facilitated by PowerSchool Enrollment School Choice, a third-party platform. The drawing will take place in a public setting at our Hillsdale Campus, located at 5655 Hillsdale Blvd, Sacramento, CA 95842. The lottery will be held up to two weeks before the start of the school year. Notice of the random drawing will be provided through written postings at the school site and on the school's website.

The lottery is open to the public, and prospective students are encouraged to attend; however, they are not required to be present at the time of the drawing to be eligible for admission. Results will be communicated to prospective students.

The lottery will be conducted using student numbers assigned to each prospective student. As numbers are drawn, they will be displayed for everyone in attendance to see. Once all available seats for a specific grade level, site, and schedule preference (regular daytime or evening) have been filled, the designated staff member will announce that any additional students drawn will be placed on the waitlist. Students will be added to the waitlist for that grade level, site, and schedule preference (regular daytime or evening) in the order their numbers are drawn.

Waiting List Priorities
A waiting list will be implemented when the number of applications exceeds the enrollment capacity for a specific grade level, site, and schedule preference (regular daytime or evening). In the event of a lottery, admission will be offered to prospective students based on lottery results until capacity is reached. Once capacity is met, all remaining names drawn will be placed on a waiting list in the order they were selected.

New applicants who register after the lottery deadline will be offered a seat if space is available in their grade level, site, and schedule preference (regular daytime or evening), or they will be added to the waiting list in the order the application was received. As seats become available, they will be offered to students starting with the lowest numerical ranking on the waiting list.

Notifying Students of a Seat Offering
Once a seat becomes available for an applicant who has the lowest numerical ranking on the waiting list, the student will be contacted by the Registration department to confirm their seat. Any admitted students who decline an offered seat or who fail to confirm by the deadline will lose their position to the next applicant on the waiting list. The waiting list is kept on file at the school and is valid for the duration of the school year.

Documenting the Fair Execution of Lottery and Waitlist Procedures
Copies of lottery results and waiting list(s) are readily available for inspection at the school office. These records will be maintained by the Registration department.

Communicating to All Interested Parties
Applications are available digitally online on the HCCS website. HCCS advertises the open application period to the surrounding communities and also communicates the timeline, rules, and procedures for the lottery process if necessary. Typical methods for these communications include, but are not limited to, web advertising, newspaper and magazine ads, radio ads, home mailers, and flyers.

Element I Annual Financial Audits

"The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority." (Ed. Code § 47605(c)(5)(I).)

Annual Audit Procedures

Contracting with an Independent Auditor
Highlands Community Charter School (HCCS) conducts an annual independent fiscal audit in compliance with Education Code Sections 47605(c)(5)(I) and 47605(m). All financial records are maintained in accordance with Generally Accepted Accounting Principles (GAAP), and audits are conducted in accordance with generally accepted auditing standards and the State Controller's K–12 Audit Guide.

In the 2024–2025 school year, the HCCS Board of Directors adopted Board Policy 3581 – Data Retention and Record Management, which provides a comprehensive framework for the classification, retention, and secure disposal of records by staff, contractors, and affiliates. The policy applies to all administrative, financial, personnel, student, and instructional records, including communications in paper, digital, audio, or video format. This policy ensures that all audit-related documentation is properly maintained and readily accessible. For additional details, refer to the appendix entry for BP 3581.

Audit Timeline Overview
In alignment with Board Policy 3100 – Budget Development and Oversight, audit procedures are embedded in the school's annual budget cycle and financial governance structure. Each spring, the Executive Director and Chief Business Official (CBO) recommend an independent auditor for approval by the Board of Directors. Following the close of the fiscal year, the CBO finalizes and closes the books, compiles the necessary financial documentation, and coordinates with the independent auditor to conduct the audit.

Upon completion, the auditor prepares a report, which is formally presented to the Board of Directors. The Executive Director and CBO review any audit findings or exceptions and coordinate the necessary corrective actions. In accordance with statutory deadlines, the finalized audit report is submitted to the charter authorizer (Twin Rivers Unified School District), the Sacramento County Superintendent of Schools, the State Controller's Office, and the California Department of Education (CDE) by December 15 of each year. For additional detail, see appendix reference BP 3100.

Audit Completion Timeline
The audit is expected to be finalized within six months of the fiscal year's end. The Board of Directors formally reviews each year's audit findings and takes appropriate action to ensure full compliance with state and federal requirements.

Selection Criteria for Independent Auditors
The selected auditor must be a Certified Public Accountant (CPA) with experience in public school and charter school finance and must be listed as an approved audit provider by the State Controller. HCCS is solely responsible for all associated audit costs. Where applicable, the audit scope will include federal compliance elements outlined in Office of Management and Budget (OMB) Circulars and related federal guidelines.

Resolution of Audit Findings
Any audit exceptions or deficiencies are first reviewed by the HCCS Audit Committee, which provides formal recommendations to the Board of Directors. The Board submits a written report to the charter authorizer describing how identified findings have been addressed, along with supporting documentation. In cases where findings remain unresolved at the time of submission, the report includes a corrective action plan and projected timeline for resolution. HCCS aims to address all audit findings within six months. Disputes regarding the resolution of audit findings will follow the dispute resolution procedures set forth in this charter.

Audit Committee Review & Board Action
The HCCS Audit Committee reviews the CAP and forwards recommendations to the Board of Directors for approval. The CAP remains on the Board's agenda for status reporting each meeting until all items are closed.

Authorizer Notification & Documentation
Within 30 days of Board acceptance, HCCS submits to the charter authorizer a written report describing how each finding has been addressed or will be addressed, with supporting documentation. If any item is not yet resolved, the submission includes the Board-approved CAP and projected completion dates.

Timelines & Monitoring
HCCS aims to fully resolve audit findings within six months of audit issuance. Progress is monitored against milestones; if delays arise, management provides revised timelines and interim controls to the Audit Committee and Board.

Material Weaknesses/Significant Deficiencies
Any material weakness or significant deficiency triggers immediate Board notification, expedited remediation steps, and—if warranted—the engagement of external advisors to strengthen internal controls.

Public Access and Appeals
Audit reports are public records and will be made available upon request. Any audit appeals or requests for summary review will be submitted to the Education Audit Appeals Panel (EAAP) in accordance with applicable law.

Element J Suspension and Expulsion Procedures

"The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that are consistent with all of the following:
For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil's side of the story.
For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:
(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.
(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.
(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five school days before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a homeless child or youth, or a foster child or youth, in the native language of the homeless or foster child's educational rights holder. In the case of a foster child or youth, the written notice shall also be provided to the foster child's attorney and county social worker. If the pupil is an Indian child, as defined in Section 224.1 of the Welfare and Institutions Code, the written notice shall also be provided to the Indian child's tribal social worker and, if applicable, county social worker. The written notice shall inform the pupil, the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker. The written notice shall inform the pupil, the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, or county social worker, or the Indian child's tribal social worker or, if applicable, county social worker initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).
(iv) A foster child's educational rights holder, attorney, and county social worker and an Indian child's tribal social worker and, if applicable, county social worker shall have the same rights a parent or guardian of a child has to receive a suspension notice, expulsion

notice, manifestation determination notice, involuntary transfer notice, and other documents and related information." Education Code Section 47605(c)(5)(J).

School Climate and Student Discipline System

Highlands Community Charter and Technical Schools (HCCTS) has adopted 5144.1 Suspension and Expulsion Board Policy to promote student learning and ensure campus safety. The policy is closely aligned with California Education Code Section 48900 et seq. and is reviewed annually for updates. Disciplinary actions, including suspension, expulsion, or involuntary removal, are applied fairly and consistently and are clearly outlined in the Student Handbook. Students and families receive written notice of these policies upon enrollment. The policy prohibits corporal punishment and outlines due process protections for all students, including those with disabilities or Section 504 plans. Involuntary removal requires written notice in the student's native language and an opportunity for a hearing. Students remain enrolled during the hearing process unless suspended or expelled for misconduct. For more information about Board Policy 5144.1, see the appendix.

HCCS Discipline Philosophy

Highlands Community Charter School prides itself on meeting student needs and developing action plans to address extenuating circumstances as they arise, recognizing that many students come to the organization due to hardships that have prevented the fulfillment of their educational goals. By addressing the needs of each student directly, barriers to student success are removed.

Should a disciplinary action be required, Student Success Team meetings (SSTs) and 504 plan meetings (when applicable) are organized to review individual extenuating circumstances. Counselors, teachers, directors, and other assigned personnel assist with addressing student needs by creating an action plan for both the staff and the student.

School-Wide Positive Behavior Intervention and Support

The Student Success Team (SST) is a problem solving and coordinating structure that assists students, teachers, staff, and community partners to develop positive solutions for maximizing student potential. It provides an opportunity for school staff, the adult student, community agencies, and other important people to present their concerns about an individual student. The SST focuses in-depth on one student at a time, and invites the adult student to participate in finding solutions. Through discussion and study, they plan a positive course of action and assign responsibilities, as well as monitor the results of a student. This process informs individual actions for students, including referral to the formal SST process and class-wide actions to address issues such as use of class resources, behavior management, and classroom modifications.

The following is implemented during the time of behavioral intervention:

- Asset Based Delivery: The SST always starts with a discussion of a student's strengths/assets and develops solutions that build on these strengths
- Problem Solving: The SST gathers background information regarding the student in the areas of school, home, family, health, and collaboratively brainstorms solutions to address areas of concern.

- Service Coordination: An action plan is developed for interventions and supports are implemented designed to address the students' needs; team members are assigned responsibilities for action items.
- Monitor Results: Actions items are monitored and a follow up SST meeting is scheduled to review the results/outcomes of interventions, make adjustments and continue to strategize positive solutions to ensure student success.

The coordination of school, home and community interventions improve student learning, and provide focused, positive support to teachers, students and staff. An SST can help students who are facing significant concerns relating to:

- Academics
- Attendance problems
- Behavioral/emotional issues
- Consideration for 504 services
- Retention
- Health issues (including substance abuse)
- Social adjustment

Tiered Behavior Intervention

Members of a Student Support Team:

- The Adult Student is always invited to participate in the decisions of their own education and goal setting.
- Designated administrator
- Classroom teacher(s)
- Resource personnel or specialists, such as community outreach consults, social workers, probation officers, community resources representatives, or mental health consultant
- Others invited as appropriate

All SST team members are active contributors, and the process defines special roles that some members of the team must fill to achieve the greatest positive outcome. Team members may change roles from one SST meeting to the next. However, during any meeting each team member's role is clearly defined before the meeting begins and then maintained throughout that meeting.

Facilitator

This person facilitates the working of the team and is the SST coordinator/leader. The success of the team depends largely on this person, who guides the flow of the meeting, and coordinates logistics before and after the meeting.

The facilitator directs but does not dominate the SST meetings, eliciting the most helpful contributions of the group and, most important, keeping a positive tone at the meeting. The facilitator directs the process with respect for all members and accommodates the needs of the group. The facilitator reassures and supports the efforts of colleagues and students.

Recorder

The recorder is responsible for documenting the SST meeting discussion, including students' strengths, concerns, interventions, action items and results. The recorder does this by using the Student Success Plan form or the Student Success Plan Follow-up Form.

Team Member

An effective team member is a positive contributor to the work of the team. The team members participate but do not control the flow of the meeting. Members come prepared with information about the student. Contributions that address difficult problem areas are positive, looking at constructive solutions, rather than characterizing, blaming, or stereotyping. Interventions are linked to the student's strengths.

The Adult Student as a Team Member

The Adult student is a full-fledged member of the SST, and they are always included. At the SST the student can share his/her perspective and concerns, contribute critical problem-related information from home, and share effective and ineffective home interventions. Many times, the adult student can clarify questions for the team and participate in the implementation of strategies developed by the whole team.

Outreach to Students

When connecting with students, care must be taken to ensure the most positive experience possible. Reaching out to and engaging the student is a key element in making the SST process successful. This effort involves much more than sending a written notice of a meeting or making a simple phone call. It involves extending oneself as a representative of the school and serving as a bridge for the student to the classroom and the larger school environment.

Adult students often resist this engagement. The barriers they present to any involvement may mask deeper fears or concerns. Being a student with school or social concerns can cause the student to have feelings of defensiveness or guilt. Many students may feel they will be unfairly attacked or made to feel worse than they already do in an SST meeting. They may have had former experiences with school meetings that were not successful, or they were not kept well informed, and they may be reluctant to trust another meeting at school.

Adult students may also have time, work, child care, or transportation issues barring their way to participating in the meeting. The SST process must include support to students to accommodate these very real issues. Any support provided has both symbolic and concrete meaning to students and contributes to the success of the meeting for both students and team members.

The person performing the outreach/engagement role must be sensitive to these issues. Information about the purpose of the meeting must be presented with an emphasis on the shared concerns and responsibilities. An explanation of the SST process must be provided, emphasizing that the process is a collaborative strategy that builds upon the student's strengths to attain the highest degree of success for the student. The student

must also be given an opportunity to ask any questions or share any concerns s/he may have with the upcoming meeting.

Adult students may also have time, work, child care, or transportation issues barring their way to participating in the meeting. The SST process must include support to students to accommodate these very real issues. Any support provided has both symbolic and concrete meaning to students and contributes to the success of the meeting for both students and team members.

Restorative Justice Practices
Student Success Team Follow-up Practices: The action plan created at the SST meeting is only as good as the follow-up practices that ensure its implementation.

Steps for Implementation

Case Management

It is very important to clearly define on the Student Success Plan who is responsible for each "action item" and to designate the administrator in charge of monitoring the implementation of the plan. This creates an accountability system that is monitored and reviewed when the team comes together again for the Follow-up SST meeting(s).

Case manager tasks may include:

meeting with the student and with the teacher regarding the action plan,
making phone calls and/or sending reminder notes to team members regarding action items, and/or helping students and their families follow through with referrals to on-site and community-based services.

Feedback to the Referral Source

The administrator, or a designated member, provides the referral source with feedback in a timely manner after the initial SST meeting. Even when the referral source is unable to attend the SST meeting, it is beneficial to involve them in some ownership of the plan, particularly classroom strategies, modifications and adaptations.

Student/Family Support

Working with students to be a part of the plan and to undertake actions on their own behalf is an important part of the follow-up. The student has to feel that s/he has some control over their own goals and plans, and that school staff are their allies, rather than the ones who have all the control. During the SST meeting the student is an equal partner in developing the action plan. The assigned administrator or another staff member who has a relationship with the student may want to check in with the student periodically to offer support toward implementing action items.

Follow-Up SST Meetings / Ongoing monitoring of student progress

At the end of every initial SST, a follow-up SST meeting date is set, preferably within 4-6 weeks. At the follow-up SST meeting action items are reviewed and student progress is discussed. The follow-up SST meeting is documented on the Student Success Plan

Follow-up Form. The action plan may need to be modified and additional interventions added depending on student progress.

Communicating, Teaching, and Modeling: Suspension Alternatives through Professional Development

Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. HCCS staff are trained and annually review de-escalation strategies for students in crises. These strategies focus on developing relationships with students, identifying and avoiding, when possible, triggers for undesirable behavior, and stabilize students who have been triggered safely through the use of de-escalation techniques.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians[3], detention during and after school hours, community service, use of alternative educational environments, suspension, expulsion, and involuntary removal.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this Pupil Suspension and Expulsion Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom HCCS has a basis of knowledge of a suspected disability pursuant to the IDEIA or who is qualified for services under Section 504 is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to regular education students except when federal and state law mandates additional or different procedures. HCCS will follow all applicable federal and state laws when imposing any form of discipline on a student identified as an individual with disabilities or for whom HCCS has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students and shall notify the District of the same.

No student shall be involuntarily removed by the Charter School for any reason unless the student has been provided written notice of intent to remove the student no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the student, and shall inform him or her of the right to initiate the procedures specified below for suspensions, before the effective date of the action. If the student initiates the

[3] The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term "parent/guardian" shall include these parties.

procedures specified below for suspensions, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision.

As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the suspension and expulsion procedures described below.

In-School Suspension

Authorization and Implementation of In-School Suspensions
HCCS offers in-school suspension as a means of reducing time missed from learning for behavioral issues. Should the need for in-school suspension arise due to a violation of student conduct violations, as defined by the Highlands Community Charter School Student Handbook, in-school suspension will be served through the enrollment of and attendance in the Highlands Community Charter School Alternative Education/Independent Study Program. An assigned advisor will work with the student to arrange a schedule for the student to engage in credit recovery and after-school tutoring as needed to ensure she is able to keep up with his/her school work while on suspension. Grounds for in-school suspension shall not exceed grounds for expulsion as defined by the Student Expulsion policy. Notification procedures and the maximum number of days for in-school suspension per incident as well as academic year are the same as out-of-school suspensions.

To ensure that HCCS adequately provide safety for students, staff, and visitors to the school and serve the best interests of students, in-school suspension will not be offered to any student who:

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence,
- Engaged in harassment, threats, or intimidation against a pupil or group of pupils or school district personnel, or
- Made terrorist threats against school officials or school property, or both.

Grounds For Suspension and Expulsion

Scope of Disciplinary Jurisdiction
A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at any time, including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

Suspension Offenses

Discretionary Suspension Offenses
Students may be suspended for any of the following acts when it is determined the student:

A. Caused, attempted to cause, or threatened to cause physical injury to another person.
B. Willfully used force of violence upon the person of another, except self-defense.
C. Unlawfully possessed, used, or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind.

D. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage, or intoxicant.
E. Committed or attempted to commit robbery or extortion.
F. Caused or attempted to cause damage to school property or private property, which incudes but is not limited to, electronic files and databases.
G. Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases.
H. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a student.
I. Committed an obscene act or engaged in habitual profanity or vulgarity.
J. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.
K. Knowingly received stolen school property or private property, which includes but is not limited to, electronic files and databases.
L. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
M. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
N. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
O. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, “hazing” means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. For purposes of this section, “hazing” does not include athletic events or school-sanctioned events.
P. Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this section, “terroristic threat” shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family’s safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the

personal property of the person threatened or his or her immediate family. Students may be also recommended for expulsion for conduct described in this provision.

Q. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

R. Caused, attempted to cause, threaten to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

S. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students, in a sufficiently severe or pervasive nature, to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading student rights by creating an intimidating or hostile educational environment. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

T. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act (defined as the transmission of a communication, including, but not limited to, a message, text, sound, or image, or a post on a social network internet website, or an act of cyber sexual bullying, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager) directed specifically toward a student or school personnel.
    1. "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including acts one or more acts committed by a student or group of students which would be deemed sexual harassment, hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
        i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
        ii. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
        iii. Causing a reasonable student to experience substantial interference with his or her academic performance.
        iv. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
    2. "Electronic Act" means the creation or transmission originated on or off the school site, by means of an electronic device, including, but not limited to, a

telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:

i. A message, text, sound, video or image.

ii. A post on a social network internet website including, but not limited to:

a. Posting to or creating a burn page. A "burn page" means an internet website created for the purpose of having one or more of the effects as listed in subparagraph (1) above.

b. Creating a credible impersonation of another actual student for the purpose of having one or more of the effects listed in subparagraph (1) above. "credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.

c. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious student or a profile using the likeness of attributes of an actual student other than the student who created the false profile.

iii. An act of cyber bullying.

a. For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

b. For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3. Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

U. A student who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a student who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (A) and (B).

V. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a

certificated school employee, with the Executive Director's and/or Director of Curriculum and Instruction (or assigned designee's) concurrence.

W. Cheated on school classwork or otherwise has acted in an unethical manner as determined by the Administration based upon school policies and guidelines.

Non-Discretionary Suspension Offenses/Non-Discretionary Expulsion Offenses
Students must be suspended and recommended for expulsion for any of the following acts when it is determined the student:

A. Possessed, sold, or otherwise furnished any firearm, explosive, or other destructive device unless, in the case of possession of any device of this type, the students had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Curriculum and Instruction (or assigned designee's) concurrence.
B. Brandished a knife at another person
C. Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053, et seq.
D. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 or former Section 288a of the Penal Code, or committed a sexual battery as defined in Penal Code Section 243.4.

Expulsion Offenses

Mandatory Recommendation for Expulsion
Students must be expelled for any of the following acts when it is determined pursuant to the procedures below that the student:

A. Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the students had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Curriculum and Instruction (or assigned designee's) concurrence. Possession of an imitation firearm is not an offense for which suspension or expulsion is mandatory.
B. Brandished a knife at another person.
C. Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053-11058.
D. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 or former Section 288a of the Penal Code, or committed a sexual battery as defined by Penal Code Section 243.4.
E. Possession of an explosive.

If it is determined by the Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the student shall be provided due process rights of notice and a hearing as required in this policy.

The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.

The term "destructive device" means (A) any explosive, incendiary, or poison gas, including but not limited to: (i) bomb, (ii) grenade, (iii) rocket having a propellant charge of more than four ounces, (iv) missile having an explosive or incendiary charge of more than one-quarter ounce, (v) mine, or (vi) device similar to any of the devices described in the preceding clauses.
A decision to expel a pupil shall be based on a finding that other means of correction are not feasible or have repeatedly failed to bring about proper conduct, or that due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

Discretionary Recommendation for Expulsion
Students shall be recommended for expulsion, unless the Executive Director or the Executive Director's designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the following acts:

A. Causing serious physical injury to another person, except in self-defense.
B. Possession of any knife or other dangerous object of no reasonable use to the pupil.
C. Unlawfully possessing any controlled substance, as defined in Health and Safety Code Sections 11053-11058 except for either the first offense of possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis, or the possession of over-the-counter medication for use by the pupil for medical purposes or medication prescribed for the pupil be a physician.
D. Robbery or extortion.
E. Assault or battery, as defined in Penal Code Sections 240 and 242, upon any Charter School employee.

<u>Out-Of-School Suspension Procedures</u>

Suspension Authority
HCCS will ensure that the process for investigating incidents and collecting evidence will be fair and thorough before a student is suspended. A student may only be suspended by the Executive Director and/or Chief Academic Officer, or in the case of the Executive Director and Chief Academic Officer's absence or inability to carry out proper suspension procedures, an assigned designee.

Conference
Suspension will be preceded, if possible, by a conference conducted by the Executive Director and/or Chief Academic Officer or an assigned designee with the student and, whenever practical, the teacher, supervisor, or Charter School employee who referred the student to the Executive Director and/or Chief Academic Officer and Instruction or assigned designee.

The conference may be omitted if the Executive Director and/or Director of Curriculum and Instruction or an assigned designee determines that an emergency situation exists. An

"emergency situation" involves a clear and present danger to the lives, safety, or health of students or charter school personnel. If a student is suspended without this conference, the student will be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student will be informed of the reason for the disciplinary action, including the other means of correction that were attempted before the suspension, and the evidence against him or her, and will be given a meaningful opportunity to present his or her version and evidence in his or her defense. This conference will be held within two school days, unless the student waives this right or is physically unable to attend for any reason, including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure to attend a conference with Charter School officials. Reinstatement of the suspended student shall not be contingent upon attendance by the student at the conference.

Student Notification
Students will have due process rights with regard to suspensions and expulsions. At the time of the suspension, an administrator or designee will make a reasonable effort to contact the student by telephone or in person. Initial contact will be followed by a written notice. This notice will state the specific offense(s) committed by the student. In addition, the notice will also state the date and time the student may return to school.

Maximum Suspension
The length of the suspension will be determined by the Executive Director and/or the Chief Academic Officer or an assigned designee based on the severity of the offense(s), as evidenced by witness statements, physical evidence, and other relevant factors. For students with IEPs, the students SST team will consult with the Executive Director and/or the Chief Academic Officer or an assigned designee on additional factors that are relevant to the decision. The length of suspension for students may not exceed a period of 5 consecutive days per suspension. The total number of days for which a student may be suspended from school shall not exceed 20 school days in any school year.

Meaningful Education for Suspended Students
A student on suspension will be provided meaningful access to education during the term of the suspension. An advisor of the suspended student will collect and provide the student with classroom material and current assignments to be completed at home during the length of the suspension. Missed tests will also be coordinated to be completed either at home or upon return. Written notification listing all required assignments will be given to the student, and all needed materials will be left in the front office.

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon

the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

Suspension Pending the Outcome of an Expulsion Process
Upon a recommendation of expulsion by the Executive Director and/or the Chief Academic Officer or the Administrative Panel, the student or representative will be invited to a conference to determine if the suspension for the student should be extended pending an expulsion hearing. This determination will be made by the Executive Director and/or the Chief Academic Officer or the Administrative Panel upon either of the following: 1) the student's presence will be disruptive to the education process; or 2) the student poses a threat or danger to others or property. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing. The maximum number of days a student may be suspended is thirty days (30) unless the expulsion hearing is postponed for good cause, in which case the suspension could be extended further. Procedures for providing a student on suspension with meaningful access to education during the term of the suspension pending the outcome of an expulsion process is outlined above in the section titled, "In School Suspension."

Expulsion Procedures

Rules and Procedures for Student Expulsion
Prior to making an expulsion recommendation, students will be provided adequate notice of the reason for disciplinary actions and a meaningful opportunity to be heard by invitation to a conference to determine if the student should be placed on suspension or if an existing suspension for the student should be extended pending an expulsion hearing. This determination will be made by the Executive Director and/or Director of Curriculum and Instruction (or assigned designee) upon either of the following findings:

- The student's presence will likely be disruptive to the educational process
- The student poses a threat or danger to others or property.

Upon this determination, the student placed on suspension or will have his/her suspension extended pending the results of an expulsion hearing.

Students will be recommended for expulsion if at least one of the following findings may be substantiated:

- Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
- Due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Authority to Expel
As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as

required by law. A student may be expelled either by the HCCS Board following a hearing before it or by the HCCS Board upon the recommendation of the Executive Director and/or the Director of Curriculum and Instruction, or a neutral and impartial Administrative Panel may be assigned by the Board as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the student nor a Board member of the Charter School's governing board. The Executive Director and/or the Director of Curriculum and Instruction or the Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the HCCS Board of Directors shall make the final determination.

Expulsion Procedures
Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing will be held within thirty (30) school days after the Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel or designee determines that the student has committed an expellable offense.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision on whether to expel. The hearing shall be held in closed session (complying with all student confidentiality rules under FERPA) unless the student makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing,
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based,
3. A copy of HCCS disciplinary rules which relate to the alleged violation,
4. Notification of the student's obligation to provide information about the student's status at HCCS to any other school district or school to which the student seeks enrollment,
5. The opportunity for the student to appear in person or to employ and be represented by counsel or a non-attorney advisor,
6. The right to inspect and obtain copies of all documents to be used at the hearing,
7. The opportunity to confront and question all witnesses who testify at the hearing, and
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

Reasonable accommodations, including language support for a student whose primary language is other than English will be made available at the hearing, upon request.

Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses
HCCS may, upon finding good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be

examined only by the HCCS Board or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the student.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days' notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time s/he testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. HCCS must also provide the victim with a room separate from the hearing room for the complaining witness's use prior to and during breaks in testimony.
3. At the discretion of the person or panel conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which s/he may leave the hearing room.
4. The person or panel conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness. The person or panel conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours s/he is normally in school, if there is no good cause to take the testimony during other hours.
5. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person or panel conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
6. If one or both support persons are also a witness, HCCS must present evidence that the witness's presence is both desired by the witness and will be helpful to HCCS. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom s/he believes is prompting, swaying, or influencing the witness.
7. The testimony of the support person shall be presented before the testimony of the complaining witness, and the complaining witness shall be excluded from the courtroom during that testimony.
8. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
9. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person

conducting the hearing that extraordinary circumstances exist requiring the evidence to be heard. Before such a determination regarding an extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

Record of Hearing
A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

Presentation of Evidence
While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board, Panel, or designee determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The Decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the student shall immediately be returned to his/her educational program.

Written Notice to Expel
The Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel, following a decision of the Board to expel, shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student. This notice shall also include the following: (a) Notice of the specific offense committed by the student; and (b) Notice of the student's obligation to inform any new district in which the student seeks to enroll of the student's status with HCCS.

The Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel, shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: (a) The student's name; and (b) The specific expellable offense committed by the student.

Disciplinary Records
HCCS shall maintain records of all student suspensions and expulsions at HCCS. Such records shall be made available to the authorizer upon request.

No Right to Appeal
The student shall have no right of appeal from expulsion from HCCS, as the HCCS Board's decision to expel shall be final.

Expelled Students/Alternative Education
HCCS shall ensure that students suspended from HCCS are provided with an appropriate alternative educational program (class work and homework assignments, etc.) during the period of the student's suspension from school. Whenever a student is expelled from HCCS, HCCS shall notify the student and the student in writing of the student's duty to attend the public school district in which the residency of either the parent or legal guardian is located. HCCS shall also notify the public school district in which the residency of either the parent or legal guardian is located whenever a student is expelled from HCCS.

Rehabilitation Plans

Rehabilitation Plans, Criteria, and Expulsion
Students who are expelled from HCCS shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the student may reapply to HCCS for readmission.

Readmission
The decision to readmit a student or to admit a previously expelled student from another school district or charter school shall be in the sole discretion of the Board following a meeting with the Executive Director or designee and the student and guardian or representative to determine whether the student has completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Executive Director or designee shall make a recommendation to the Board following the meeting regarding his or her determination. The student's readmission is also contingent upon HCCS capacity at the time the student seeks readmission.

Notice to Teachers
The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

Element J Suspension and Expulsion Procedures

Element K Employee Retirement Systems

"The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security." (Ed. Code § 47605(c)(5)(K).)

Certificated, Classified, and Other Staff Members

All full-time certificated employees at Highlands Community Charter School participate in a qualified retirement plan, including, but not limited to, the State Teachers Retirement System (STRS) or the federal Social Security system, based on their eligibility to participate. HCCS teachers participate in STRS. Non-certificated/classified staff participate in a 401A defined contribution plan.

HCCS employees may be eligible to participate in school-sponsored retirement and benefit plans, as outlined in policies adopted by the Board of Directors. In the event that the Internal Revenue Service enacts regulations prohibiting nonprofit entities from participating in publicly funded retirement systems such as the California State Teachers' Retirement System (CalSTRS), employees will instead be enrolled in Social Security and/or an alternative employer-sponsored retirement plan approved by the HCCS Board. Prospective employees are informed of their retirement system options during the application process and advised that employment with HCCS may affect their eligibility for continued participation in a previous retirement system. The Executive Director is responsible for ensuring appropriate retirement coverage is arranged for all staff. To support recruitment and retention of highly qualified personnel, HCCS offers a competitive compensation and benefits package that reflects market conditions and professional experience.

STRS reporting is conducted in collaboration with Charter Impact, HCCS's contracted fiscal services provider specializing in payroll taxes and CalSTRS compliance. While contributions and deductions are processed through HCCS's internal payroll department, Charter Impact oversees all reporting, auditing, and submission of required documentation to CalSTRS. The HCCS Finance Department performs regular reconciliations to ensure accuracy and alignment with STRS liability reporting cycles.

Element L Public School Attendance Alternatives

"The public school attendance alternatives for students residing within the school district who choose not to attend charter schools." (Ed. Code § 47605(c)(5)(L).)

Informing Students of Public School Attendance Alternatives

No student may be required to attend Highlands Community Charter School. Students who reside within the District who choose not to attend HCCS may attend school according to District policy or at another school district or school within the District in accordance with existing enrollment and transfer policies of their district or county of residence. Each student enrolled in HCCS is informed on admissions forms that the students have no right to admission in a particular school of a local education agency (or program of any local education agency) as a consequence of enrollment in HCCS, except to the extent that such a right is extended by the local education agency. This information is also communicated to students through orientation and registration staff, who are available to answer questions and provide support in multiple languages as needed.

Element M Rights of District Employees

"The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school." (Ed. Code § 47605(c)(5)(M).)

No public school employee will be required to work at Highlands Community Charter School. Employees of the District who choose to leave the employment of the District to work in the Charter School will have no automatic rights of return to the District after employment by HCCS unless specifically granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District.

All employees of HCCS will be considered the exclusive employees of HCCS and not of Twin Rivers (TRUSD), for the purposes of the Education Employment Relations Act, unless otherwise mutually agreed in writing. Employment by HCCS provides no rights of employment at any other entity, including any rights in the case of closure of HCCS.

HCCS has a board approved Employee Handbook which outlines employee rights as well as employee responsibilities. The Employee Handbook for 2024-2025 is linked in the appendix.

Employee Representation

Governing Law: The petition does not contain a declaration of whether or not the charter school shall be deemed the exclusive public school employer of the employees of the Charter School for the purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code.
--California Education Code Section 47605 (c) (6).

HCCS shall be deemed the exclusive public school employer of the employees of HCCS for the purposes of the Education Employment Relations Act ("EERA"). HCCS shall comply with the EERA.

HCCS is independent from Twin Rivers Unified School District, and any District employees who choose to work at HCCS shall resign their status as employees of Twin Rivers Unified School District or other school district and all of their rights and benefits thereof. All persons employed by HCCS shall not be deemed to be employees of Twin Rivers Unified School District for any purpose whatsoever. HCCS employees shall have no employment rights of any kind with Twin Rivers Unified School District.

HCCS will develop and maintain an Employee Handbook detailing the rights and responsibilities of all HCCS employees and shall comply with all anti-discrimination and sexual harassment employment laws applicable to public agencies. On or before the first day of operation, and by August 1 of each subsequent year, HCCS shall provide Twin Rivers Unified School District with two (2) copies of the Employee Handbook. HCCS shall annually update and revise the Employee

Handbook to reflect changes in the law and/or policies. HCCS shall be solely responsible for the hiring and compensation of HCCS employees, including but not limited to, salary, health benefits, sick leave, vacation, and retirement benefits. Twin Rivers Unified School District shall have no obligation to provide beginning teacher support or assessment to any HCCS teacher or employee.

HCCS will provide all instruction exclusively in partnership with the Greater Sacramento Urban League (GSUL). Per Education Code, all education provided by HCCS to GSUL will be provided at no cost to the partner or student. The Greater Sacramento Urban League will inform their clients about their ability to participate in HCCS. The Partnership Agreement between HCCS and GSUL will detail the terms required for clients of GSUL to join HCCS.

Element N Mandatory Dispute Resolution

"The procedures to be followed by the charter school and the chartering authority to resolve disputes relating to provisions of the charter." (Ed. Code § 47605(c)(5)(N).)

Written Notification of Mandatory Dispute Resolution

Disputes Arising from within HCCS

It is the intent of Twin Rivers Unified School District (TRUSD) and HCCS that complaints and disputes be resolved quickly and informally in an atmosphere of cooperation whenever possible. If employees are represented by a union, they must first exhaust their internal remedies before filing a grievance.

Complaints regarding the operation of HCCS, which do not involve TRUSD liability or issues of student health or safety, will be forwarded to HCCS for processing according to procedures adopted by HCCS prior to being addressed by TRUSD. HCCS procedures will include reasonably expeditious timelines and a full opportunity for students who are minors directly affected to express their concerns. TRUSD will not address the dispute if HCCS is able to fully resolve the problem unless HCCS requests TRUSD's involvement.

The Charter School shall also maintain a Uniform Complaint Policy and Procedures as required by state law.

Disputes between HCCS and TRUSD

HCCS and TRUSD will always attempt to resolve any disputes amicably and reasonably without resorting to formal procedures.

In the event of any dispute between HCCS and TRUSD, excluding revocation of the Charter but including audit exceptions and deficiencies, the complaining party will prepare a written dispute statement, which will be simultaneously submitted to the TRUSD Superintendent or designee and the HCCS Executive Director. The Executive Director and the Superintendent or designee will meet and confer within five (5) business days from the date of receipt of the written dispute statement and attempt to resolve the dispute. In the event that this conference fails to resolve the dispute, each party will identify two members of their respective governing boards who shall meet with the Superintendent or designee and the Executive Director within ten (10) business days and attempt to resolve the dispute. If this joint meeting fails to resolve the dispute, either party will, within five (5) business days following the meeting, submit the matter to the Sacramento County Superintendent of Schools. The parties agree to be bound by the County Superintendent's decision and will indicate as such when submitting the matter to the County Superintendent. If the County Superintendent declines to hear the matter, the parties may agree to submit their dispute to a mutually agreeable, neutral third-party mediator for resolution in accordance with any procedure determined and prescribed by the mediator and agreed to by the parties. Review by the County Superintendent or mediator will be held within forty-five (45) business days of receipt of the initial dispute statement. The cost of the mediator will be equally

shared between TRUSD and HCCS. If the parties are unable to resolve the matter before a mutually agreeable mediator, either party may pursue any other remedy available under the law.

Unless directed otherwise, all written dispute notifications between the District and Charter School shall be addressed as follows:

Dr. Steven Martinez
Twin Rivers Unified School District
5115 Dudley Blvd.
McClellan, California 95652

Jonathan Raymond
Highlands Community Charter School
1111 Howe Ave, Suite 540
Sacramento, California 95825

In the event that the TRUSD Board of Trustees believes that the dispute relates to an issue that could lead to revocation of the charter in accordance with Education Code Section 47607, this will be noted in the written dispute statement. However, participation in the dispute resolution procedures outlined in this section shall not be interpreted to impede the TRUSD's ability to proceed with revocation in accordance with Education Code Section 47607 and its implementing regulations.

HCCS shall timely notify TRUSD of any and all complaints filed against HCCS by its employees, students, and vendors, involving violations of the Charter, the MOU, State or federal law, or alleged financial mismanagement.

Revocation Protocol
HCCS and Twin Rivers Unified School District (TRUSD) agree that the dispute resolution procedure set forth above will not apply to any matter that could lead to revocation of the Charter. Prior to revocation of the Charter, TRUSD shall provide HCCS with written notice of its belief and an opportunity to meet with and respond to TRUSD within a reasonable time, which shall be not less than five (5) business days, prior to issuing a written notice to "cure and correct," unless TRUSD determines in writing that the violation constitutes a severe and imminent threat to the health or safety of the pupils in accordance with Education Code section 47607(g) and its implementing regulations. Thereafter, if TRUSD determines that revocation is warranted, it will comply with the procedures set forth in Education Code Section 47607.

Element O Charter School Closure Procedures

"The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records." (Ed. Code § 47605(c)(5)(O).)

Closure Agents

The following procedures shall apply in the event HCCS closes. The following procedures apply regardless of the reason for closure.

Closure of HCCS will be documented by official action of the Board of Directors of HCCS. The action will identify the reason for closure. The official action will also identify an entity and person(s) responsible for closure-related activities. The HCCS Board shall promptly notify TRUSD, within 10 business days, of the closure and the effective date of the closure. The entity responsible for implementing the closure procedures will be experienced in dissolution and closure of public educational programs and will comply with all legal requirements regarding the confidentiality of student records. The Chair of the Board of Directors will serve as the official contact for purposes of implementing the closure protocol set forth in the Charter and its plan for maintaining and transferring student records, payment of debts and liabilities, and distribution of remaining assets. Closure initiated by the HCCS Board will not take effect before the end of the normal school year in June unless agreed to in writing by TRUSD.

The HCCS Board of Directors will promptly notify students of HCCS, TRUSD, the Sacramento County Office of Education, the Charter School's SELPA, the retirement systems in which HCCS's employees participate (e.g., Public Employees' Retirement System, State Teachers' Retirement System, and federal social security), and the California Department of Education of the closure as well as the effective date of the closure. This notice will also include the name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure; the students' school districts of residence; and the manner in which students may obtain copies of their records, including specific information on completed courses and credits that meet graduation requirements.

The HCCS Board of Directors will ensure timely notification to the students of HCCS of the closure and will provide information to assist students in locating suitable alternative programs. This notice will be provided promptly, within ten (10) business days, following the HCCS Board's decision to close HCCS. HCCS will provide TRUSD with all student contact information promptly following such a decision.

The HCCS Board of Directors will also develop a list of students in each grade level and the classes they have completed, together with information on each student's districts of residence, which the Board will provide to the entity responsible for closure-related activities.

As applicable, HCCS will provide students and TRUSD with copies of all appropriate student records and will otherwise assist students in transferring to their next school. All transfers of

student records will be made in compliance with the Family Educational Rights and Privacy Act ("FERPA") 20 U.S.C. § 1232g. HCCS will store original records of HCCS students in HCCS administrative office until the closure of HCCS. No later than the date of closure, all records will be transferred to TRUSD. If the District will not or cannot store the records, the HCCS will work with the County Office of Education to determine a suitable alternative location for storage.

All state assessment results, special education records, and personnel records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law.

As soon as it is reasonably practical, HCCS will prepare final financial records. Within six (6) months, following the date of closure, final financial records shall be prepared and an independent audit completed. HCCS will pay for the final audit (Reserve Fund). The audit will be prepared according to standards for public school audits by a qualified Certified Public Accountant experienced in public school audits selected by HCCS and will be provided to TRUSD promptly upon its completion. The final audit will include an accounting of all financial assets, including cash and accounts receivable and an inventory of property, equipment, and other items of material value, an accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation, and an assessment of the disposition of any restricted funds received by or due to HCCS.

HCCS will complete and file any annual reports required pursuant to Education Code section 47604.33. On closure of HCCS, all assets of HCCS, including but not limited to all leaseholds, personal property, intellectual property and all ADA apportionments and other revenues generated by students attending HCCS, remain the sole property of the HCCS and shall be distributed in accordance with the Articles of Incorporation upon the dissolution of the non-profit public benefit corporation to another California public educational entity. Any assets acquired from the TRUSD or TRUSD property will be promptly returned upon HCCS closure to the TRUSD. The distribution shall include return of any grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law, as appropriate, which may include submission of final expenditure reports for entitlement grants and the filing of any required Final Expenditure Reports and Final Performance Reports, as well as the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted.

On closure, HCCS shall remain solely responsible for all liabilities arising from the operation of HCCS. Should Highlands Community Charter Schools dissolve as a nonprofit public benefit corporation, the HCCS Board will follow the procedures set forth in the California Corporations Code for the dissolution of a nonprofit public benefit corporation and file all necessary filings with the appropriate state and federal agencies.

HCCS will utilize the reserve fund to undertake any expenses associated with the closure procedures identified above.

Element P Additional Provisions

Facilities

"The facilities to be used by the charter school. The description of the facilities to be used by the charter school shall specify where the charter school intends to locate." (Ed. Code § 47605(h).)

Facilities Mission

As a public charter school, the HCCS mission is to provide a safe, stimulating, and vibrant student-centered learning community that primarily addresses the academic and transitional needs of students who are credit deficient and seeking a high school diploma. HCCS:

- provides adequate space on site for maintaining current site activities,
- locates near public facilities that offer services that complement the instructional facilities at HCCS such as libraries, parks, and institutional facilities, and
- provides adequate site space to accommodate necessary support functions, such as staff and visitor parking, loading/unloading for student transportation, and usable and safe outdoor and dining areas.

In order to properly meet the facilities needs of HCCS, an understanding of the proposed educational programs, services, and student trends is required. Including classroom space, the square footage calculations include a variety of administrative and clerical spaces, hallways, student/staff break areas, restrooms, custodial closets, storage area and utilities closets.

Locations

Highlands Community Charter School's main campus is located at 5655 Hillsdale Blvd, Sacramento, CA 95842. HCCS students are served at 12 locations around the greater Sacramento region in the 2025-2026 school year. HCCS locations include the following:

HCCS Locations 2025-2026	
Student Serving Locations	
Name	Address
33rd St.	2520 33rd St, Sacramento, CA 95817
37th Ave.	3301 37th Avenue, Sacramento, CA 95824
Boxwood St.	2260 Boxwood Street, Sacramento, CA 95815
Center Pkwy.	7839 Center Parkway, Sacramento, CA 95823
College Oak Dr.	4545 College Oak Drive, Sacramento, CA 95841
Folsom Blvd.	10013 Folsom Blvd, Sacramento, CA 95827

Franklin Blvd.	5961 Franklin Blvd, Sacramento, CA 95824
Hillsdale Blvd.	5655 Hillsdale Blvd, Sacramento, CA 95842
Howe Ave.	1111 Howe Avenue, Sacramento, CA 95825
Hurley Way	3205 Hurley Way, Sacramento, CA 95864
Industrial Pkwy.	8180 Industrial Parkway, Sacramento, CA 95824
Marconi Ave.	3727 Marconi Ave, Sacramento, CA 95821
Old Auburn Rd.	7817 Old Auburn Road, Citrus Heights, CA 95610
Todhunter Ave.	800 Todhunter Avenue, West Sacramento, CA 95605

Administrative Support Locations	
Name	Address
Arden Way	901 Arden Way, Sacramento, CA 95815 (Warehouse/Receiving)
Florin Rd.	3801 Florin Road, Suite 107, Sacramento, CA 95823
Hemlock St.	5537 Hemlock Street, Sacramento, CA 95841

HCCS is nonsectarian in its programs, admission policies, and all other operations, even at sites located at religious institutions. All HCCS sites are accessible to students by foot, public transportation, or car. HCCS ensures that the facilities align with all building and fire codes for instructional purposes as provided in Education Code Section 47610. In addition, HCCS will alert TRUSD at least 30 days prior to occupancy of every site to be leased, purchased, or controlled by the school for instructional purposes. HCCS will not pursue Proposition 39 facilities from the District.

Annual Operational Agreement
HCCS and Twin Rivers Unified School District (TRUSD) will negotiate in good faith on an annual basis to develop an Annual Operational Agreement/Memorandum of Understanding establishing the specific financial, operational, and service relationship between the two parties. Additionally, it may address other matters of mutual interest not otherwise resolved within the terms of HCCS' Charter.

Operational Powers and Liabilities
HCCS shall be fiscally responsible for its own operations and shall manage its operations efficiently and economically within the constraints of its annual budget.

HCCS shall have no authority to enter into a contract that would bind Twin Rivers Unified School District (TRUSD) or to extend the credit of TRUSD to any third person or party without the express written consent of TRUSD. HCCS shall clearly indicate to all vendors and other entities and individuals outside TRUSD with which or with whom HCCS enters into an agreement or contract for goods or services that the obligations of HCCS under such an

agreement or contract are solely the responsibility of HCCS and are not the responsibility of TRUSD.

Insurance

Insurance Coverage
HCCS secures and maintains, during the term of the Charter, commercially reasonable general liability, property, errors and omissions, worker's compensation, and other necessary insurance coverage in the amounts specified by the Annual Memorandum of Understanding to protect HCCS from claims that may arise from its operations. Each policy shall include language stating particular who is insured, extent of insurance, locations and operations to which insurance applies, expiration date, to whom cancellation or reduction notice will be sent; and (3) a statement that the District and its officers, employees and agents are named as additional insured.

Coverage amounts will be based on recommendations provided by the District and the Charter School's insurer. The District Board of Education shall be named as an additional insured on all policies of the Charter School. The Charter School will provide copies of certificates of insurance, as provided herein, to the District upon request.

Fiscal Matters
The petitioner or petitioners also shall be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cash flow and financial projections for the first three years of operation. (Ed. Code § 47605(h).)

Funding
HCCS receives funding according to the Local Control Funding Formula pursuant to Education Code Section 42238.02(d) and its successors will opt to receive its funding directly from the state. An account for HCCS will be maintained at the Twin Rivers Unified School District (TRUSD). Any funds due to HCCS that flow through TRUSD shall be forwarded to HCCS as soon as practical.

Fiscal Strength
HCCS has significant financial strength. This strength includes strong financial reserves to ensure smooth cash flow and the meeting of all obligations. Moving forward HCCS will continue to have very strong financials as can be seen in the five-year budget and financial projections, see appendix.

Budgets and Cash Flow
A five-year budget and financial projections are included in the appendix. This document is based upon the Local Control Funding Formula and the best estimates of revenues and costs available to HCCS at this time.

Financial Reporting
HCCS will provide reports to TRUSD as follows, as required by Education Code Section 47604.33, and may provide additional fiscal reports as requested by TRUSD:

- By July 1, a preliminary budget for the current fiscal year. For a charter school in its first year of operation, financial statements submitted with the charter petition pursuant to Education Code Section 47605(h) will satisfy this requirement.
- By July 1, an annual update (LCAP) is required pursuant to Education Code Section 47606.5.
- By December 15, an interim financial report for the current fiscal year reflecting changes through October 31. Additionally, on December 15, a copy of HCCS's annual, independent financial audit report for the preceding fiscal year shall be delivered to the State Controller, State Department of Education, and County Superintendent of Schools.
- By March 15, a second interim financial report for the current fiscal year reflecting changes through January 31.
- By September 15, a final unaudited report for the full prior year. The report submitted to HCCS shall include an annual statement of all HCCS's receipts and expenditures for the preceding fiscal year.

For reports 1-4, above, HCCS shall also provide with each financial report supporting and/or back up information, including but not limited to multi-year projections for current and two subsequent years, assumptions used for two subsequent years, explanation for major variances by category between reporting periods, enrollment projection, ADA P2 projection by grade level, COLA & Deficit percentage, calculation used for determining general purpose funding, list of statutory benefit rates, list of H&W rates and number of participants, and number of FTEs for certificated and classified employees for each year.

Pursuant to Education Code Section 47604.3, HCCS shall promptly respond to all reasonable inquiries including, but not limited to, inquiries regarding its financial records, cash flow and budget, and ADA P2 projections from the District. HCCS agrees to and submits to the right of the District to monitor the Charter School's ADA projections and cash flow shortages in order to carry out the District's statutorily required oversight.

District Reports

Twin Rivers Unified School District (TRUSD) agrees to file all reports specifically required by law pertaining to their role as an authorizing agent to be filed with the California Department of Education or any other State or federal agency by a local educational agency on behalf of HCCS and/or TRUSD. HCCS will promptly provide TRUSD with any information, data, or documentation necessary for TRUSD to timely file such reports in accordance with law. HCCS will be solely responsible for the accuracy of all data submitted to TRUSD. HCCS will be responsible for filing all other reports as may be required by law.

Attendance Reporting, School Calendar, and Other Data

HCCS will provide Twin Rivers Unified School District (TRUSD) with a copy of the HCCS annual attendance calendar no later than July 1 of each year. HCCS will maintain no less than the minimum number of instructional days and minutes required by the Education Code and/or the California Code of Regulations for each grade level served.

Subject to TRUSD approval, HCCS will establish and maintain an attendance reporting system to record and account for the Charter School's ADA, as defined in Title V California Code of Regulations section 11960. HCCS will timely report ADA figures to TRUSD as necessary to enable the school to receive funding. The Charter School will provide TRUSD with a monthly enrollment report no later than the 15th calendar day of the following attendance month. HCCS will provide all data and reports required by TRUSD in hard copy and electronic data files. HCCS will submit enrollment and demographic information to the CDE to the extent and in the manner specifically required by law or regulations applicable to charter schools. Upon request, HCCS will provide TRUSD with documentation of the teacher/student ratio for the Charter School. HCCS will also provide TRUSD with amended ADA reports for the 2024-2025 school year and all other prior years as recommended by the FCMAT audit report of May 2018.

Annual Review and Notice to District of Change in Status
HCCS will participate in an annual review conducted by Twin Rivers Unified School District (TRUSD), if any, of all programs offered at the Charter School, including their effectiveness and student achievement. Both parties will act reasonably and in good faith in both the review and the response to the review.

HCCS will provide TRUSD no less than thirty (30) days prior written notice of any actions taken by the Charter School that may and/or will affect and/or change the status of HCCS, and which falls within TRUSD oversight responsibilities. Nothing herein shall preclude the parties from negotiating or amending the charter to include additional services not contemplated by this charter.

Regulations and Compliance
HCCS will work diligently to comply with all rules and regulations placed upon it by regulatory entities, such that it follows both the letter of the law and the spirit of the law. We recognize that the California legislature enacted charter school law to encourage innovation in the field of education, and thus, we will use all authority and ability granted to us as a school to innovate and push beyond the status quo. We will do so responsibly and with accountability.

Technology
HCCS will utilize technology in all aspects of how it functions to lower the cost of education, improve efficiency, and improve the effectiveness of education. Recognizing that there is always a cost-benefit tradeoff when using technology, HCCS will purchase hardware, software, and services based on the value it brings to the overall learning process.

HCCS will consider the full cost-benefit of technology purchases, including upfront costs, cost of support, cost of modification, and approximate lifespan of the technology, and compare this with the benefits that the technology adds to the educational process and overall system of the school.

Other Clauses and Procedures

Term of Charter
The term of this charter shall begin on July 1, 2019 and expire June 30, 2027.

Amendment of Charter
Any amendments to this charter shall be made by the mutual agreement of the governing boards of TRUSD and HCCS. HCCS may present a petition to amend the charter at any time, and TRUSD agrees to respond to such petitions pursuant to the process and timelines specified in Education Code Section 47605 or its successors.

Cooperation
Twin Rivers Unified School District (TRUSD) agrees to cooperate with HCCS in all matters related to the implementation of this charter and interactions with the California State Board of Education.

Severability
The manner in which administrative services of the charter school are to be provided. (Ed. Code § 47605(h).)

HCCS conducts or procures all of its own administrative and business services including, but not limited to, academic, special education, financial management, accounts payable/receivable, payroll, human resources, and instructional program development either through its own staff or through an appropriately qualified third-party contractor. All contracts are vetted for conflict of interest as adopted by the HCCS Board of Directors. HCCS provides or procures all administrative services to further ensure high quality services, in a cost-effective manner.

Pursuant to California law, the authorizer will be required to provide oversight and performance monitoring services, including monitoring school and student performance data, reviewing the school's audit reports, performing annual site visits, engaging in any necessary dispute resolution processes, and considering charter amendment and renewal requests. HCCS agrees to and submits to the right of the District to make random visits and inspections in order to carry out its statutorily required oversight in accordance with Education Code Sections 47604.32 and 47607.

Potential Civil Liability Effects
Potential civil liability effects, if any, upon the charter school and upon the school district. (Ed. Code § 47605(h).)

HCCS is operated by a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701(d).

Pursuant to Education Code Section 47604(d), an entity that grants a charter to a charter school operated by a non-profit public benefit corporation shall not be liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors, or omissions by the charter school if the authority has complied with all oversight responsibilities required by law. HCCS shall work diligently to assist TRUSD in meeting any and all oversight obligations

under the law, including monthly meetings, statutory fiscal reporting, or other requested protocol to ensure the District will not be liable for the operation of HCCS.

Further, HCCS and TRUSD have a memorandum of understanding, wherein HCCS indemnifies TRUSD for the actions of HCCS under this charter.

The corporate bylaws of HCCS provide for indemnification of the HCCS Governing Board of Directors, officers, agents, and employees, and HCCS maintains general liability insurance, Board Members and Officers insurance, and fidelity bonding to secure against financial risks.

As stated above, insurance amounts will be determined by recommendation of TRUSD and the TRUSD insurance company for schools of similar size, location, and student population. TRUSD will be named an additional insured on the general liability insurance of HCCS.

The HCCS Board will institute appropriate risk management practices as discussed herein, including screening of employees, establishing codes of conduct for students, and dispute resolution.

Funding and Oversight Fee

HCCS elects to receive the state aid portion of charter school general-purpose entitlement and categorical block grant funds and any other funding as now computed by the Local Control Funding Formula pursuant to Education Code Section 42238.02 and implemented by Education Code Section 42238.03, and as received by the Charter School for its "Adult Education" programs, directly in accordance with Education Code Section 47651(a)(1). Funds for the Charter School shall be deposited directly into an account for the "Highlands Community Charter School" with the Sacramento County Office of Education ("SCOE"). The SCOE will then remit the funds to the Charter School. The District shall transfer to the Charter School funding in lieu of property taxes in accordance with Education Code Section 47635. HCCS recognizes that the District shall have no responsibilities for funding the Charter School beyond that required by law.

Neither Greater Sacramento Urban League nor any other WIOA service provider in partnership with HCCS receives any type or amount of apportionment. Furthermore, these partners do not operate as an adult school program.

The Charter School agrees that all funding received for the Charter School, from any and all sources, including but not limited to all funding sources set forth in this Charter, or other agreement with the District, shall be used exclusively to operate the Charter School, and shall not be used, either directly or indirectly, or by loan or gift, to fund, assist, pay for the debts of, or towards the operation of, any other school or establishment managed, controlled, or operated by the Corporation or Charter School, or operated by its members, officers, agents, servants, and employers, or for any other purpose whatsoever, unless mutually agreed by the parties.

In consideration for the actual costs of supervisorial oversight by the District, the Charter School shall pay an amount not to exceed one percent (1%) of the revenue of the Charter School (hereinafter, the "Oversight Fee") pursuant to Education Code section 47613. "Supervisorial

oversight" for purposes of this section shall be limited to those duties listed in Education Code section 47604.32(a)(1) through (5), only. "Revenue" for purposes of this calculation is defined pursuant to Education Code section 47613(f) in the current fiscal year from the local control funding formula calculated pursuant to Education Code sections 42238.02 and 42238.03. "Revenue" for purposes of this calculation shall not include Charter School fundraising activities, private donations, other public grants, or any other source of income developed by the Charter School.

Payment Schedule

The Charter School shall pay the supervisorial oversight fee and any other fees in quarterly installments for each school year. The District shall invoice the Charter School for fees due as of September 30, December 31, March 31, and June 30, with invoices to be prepared and submitted by the District to the Charter School within thirty (30) calendar days during the year and by September 15 (when the books are closed) at the end of the year. The Charter School shall pay all invoices within fifteen (15) business days of their issuance by the District. In the event payment is not received within five (5) business days following the payment due date, and/or if such payment is returned or unpaid due to insufficient funds, the Charter School authorizes the District to deduct any such fees or payments from future apportionments or any other monies received by the SCOE and/or District for the Charter School. The District may elect to offset and deduct any such fees from the District's in-lieu property tax revenues next payable to the Charter School, in which case the District shall provide the Charter School with a detailed statement showing the amount of any such offset.

HIGHLANDS
COMMUNITY CHARTER AND TECHNICAL SCHOOLS

September 26, 2025

Ryan DiGiulio
Chief Business Official
Twin Rivers Unified School District
5115 Dudley Blvd
McClellan Park, CA 95652

Subject: Notice of Violation Pursuant to Education Code 47606 for Highlands Community Charter School

Dear Mr. DiGiulio,

On June 12, 2025, Twin Rivers Unified School District ("TRUSD") provided Highlands Community Charter and Technical Schools ("HCCTS") with a formal Notice of Violation. We recognize the seriousness of the issues outlined and we acknowledge that, under prior leadership, Highlands failed to meet expectations in several important areas. Mistakes were made, and those mistakes have eroded trust.

Since that time, Highlands has undergone a profound transition. With new leadership and outside experts engaged in finance and compliance, we have embraced accountability and implemented sweeping reforms. HCCTS is also in the process of bringing on a new board of directors to lead the school in improved governance and systems of accountability. Changes include:

- New systems for financial oversight and internal controls,
- Stronger credentialing processes in partnership with UMass Global,
- Clearer academic and attendance standards, with daily monitoring,
- Adoption of more than 100 new board policies to strengthen compliance and transparency, and

- A material revision to the HCCS charter which outlines these and other changes to HCCS.

HCCTS is committed to working in close partnership with TRUSD to demonstrate that these changes are not temporary fixes, but lasting improvements. Our goal is to move forward with a constructive relationship, grounded in transparency and shared accountability, to ensure Highlands is in full compliance and able to continue serving our students.

We respectfully submit the enclosed materials as HCCTS' formal response to the Notice of Violation. If you have additional questions or would like further information, please do not hesitate to contact me directly at (617) 823-9341 or jonathan.raymond@hccts.org.

Thank you for your attention and for your ongoing oversight as we work to build a stronger, more accountable Highlands.

Thank you,

Jonathan Raymond
Executive Director
Highlands Community Charter and Technical Schools

I. BACKGROUND

Highlands Community Charter and Technical Schools recognizes and respects TRUSD's role as our authorizer, as outlined in MOU Amendment No. 3 signed on January 23, 2024. This amendment clearly defines the district's oversight responsibilities, including the approval of new facilities, ensuring safe learning environments, and providing supervisorial guidance.

We acknowledge that the Notice of Violation issued on June 12, 2025, falls squarely within TRUSD's responsibilities. We take this notice with the utmost seriousness. Under past leadership, Highlands fell short of meeting expectations in several areas. Mistakes were made, and we own that.

Today, under new leadership,, Highlands is fully committed to addressing every issue raised. In many cases, corrective actions have already been completed; in others, substantial progress is underway. Where issues remain outside of our direct control, we have taken every step possible to mitigate them and are actively working toward full resolution.

This response provides a clear account of the corrective actions already taken, the progress still in motion, and the timelines by which remaining matters will be fully resolved. Our commitment is to demonstrate that Highlands is not only curing past deficiencies but building a sustainable, compliant, and transparent system for the future.

II. VIOLATIONS OF THE CHARTER

A. HCCTS Grade Levels

Education Code section 47604(a)(4) provides in part: "After receiving approval of its petition, a charter school that proposes to expand operations to one or more additional sites or grade levels shall request a material revision to its charter and shall notify the chartering authority of those additional locations or grade levels."

- *There are no exemptions for the requirement to submit a material revision request to change grade levels.*
- *The District is issuing the NOV as part of our oversight responsibilities to address HCCS' failure to submit the required Material Revision request to change grades.*

Education Code section 47605(a)(4) makes clear that a charter school seeking to expand operations to additional sites or grade levels must submit a material revision to its charter and notify its authorizer. HCCTS recognizes that there are no exemptions to this requirement and acknowledges that it did not submit a material revision when grade levels were changed beginning in the 2020–21 school year.

In the 2020-2021 school year, leadership at HCCTS shifted from grades 1, 2, and 12 to grades 9, 10, and 12 in order to:

- Create clarity in the community that HCCS was a high school
- Align more closely with traditional high school programs
- Allow English Language Learners the opportunity to earn high school credits and make progress toward their high school diploma
- Show student progress as students move between grade levels
- Create clear pathways for international high school students and high school students to graduation
- To improve graduation rates

While HCCTS communicated with TRUSD staff regarding these changes (Exhibit A) and believed the adjustments had support, the formal requirement for a material revision was not pursued at that time. We recognize this was a failure of process, and we take responsibility for not following the proper procedures.

Since then, Highlands has taken corrective action. In June 2024, HCCTS began preparing a comprehensive material revision. That revision reflects:

- The addition of grade 11, as requested by TRUSD (Exhibits B & C),
- The removal of grades 1 and 2, and
- The continued offering of grades 9, 10, and 12.

The proposed material revision was completed and board approved on September 18, 2025, see Exhibit D, after which it will be submitted to TRUSD for consideration. This action is intended to fully align Highlands' charter with current practice, CDE guidance, and TRUSD oversight. The proposed revision is attached here as Exhibit E.

Accordingly, this issue will be fully resolved once TRUSD acts on the submitted material revision. If the TRUSD Board does not approve the revision, HCCTS will comply by returning to the grade levels specified in the existing approved charter.

Highlands regrets that this process was not followed in the past. Under new leadership, we are committed to full compliance, clear communication, and a constructive working relationship with TRUSD to ensure that changes moving forward are properly authorized and transparent.

Attached you will find the following documents to support HCCTS' response to this issue:

- Exhibit A: 2024.12.02 HCCTS Response Grade 9 and 10
- Exhibit B: 2024.06.03 TRUSD RFI High School Program

- Exhibit C: 2024.08.28 HCCTS Addition of 11th Grade
- Exhibit D: Board Agenda for September 18, 2025 HCCTS Board of Directors
- Exhibit E: HCCS Material Revision Board approved on September 18, 2025

B. HCCS Locations

MOU Amendment No. 3 provides in part: "The terms of the MOU are intended by the District and Charter School to become part of the standards and procedures set forth in the Charter School's Charter approved by the District ("Charter"). Along with the Charter, this MOU will govern the relationship between the District and the Charter School regarding the operation of the Charter School. To the extent the terms of the MOU is/are inconsistent with any terms of the Charter, the MOU shall control. In addition, if the Charter is silent on an issue addressed by the MOU, the MOU shall control. As such, any violation of MOU by Charter School that also constitutes grounds for revocation per Education Code section 47607 will be treated and enforced by the District in the same manner, subject to Education Code Section 47607 and applicable implementing regulations, as it would any other violation constituting a ground for revocation."

- *October 3, 17 and November 7, 2024 HCCTS Board approved sites/locations that were not included on MOU Amendment No. 3.*
- *On multiple occasions the District notified HCCTS of the requirement to submit a material revision request, before occupying a new location. HCCTS failed to comply.*
- *HCCTS June 1, 2025, newest "tentative" location list still includes sites not approved for operation for HCCS.*
- *The District is issuing the NOV as part of our oversight responsibilities to address HCCS' failure to submit the required Material Revision request before adding new facilities.*

MOU Amendment No. 3 governs the approval and operation of Highlands' facilities and makes clear that any new locations require District authorization through a material revision. Highlands acknowledges that in the past, locations were opened or relocated without first completing the formal material revision process required by the MOU. This was a failure of compliance, and we take responsibility for it.

These missteps were not intentional, but they reflect a lack of attention to detail under prior leadership. Historically, Highlands relied on a more informal process with the District regarding the addition, relocation, or consolidation of sites. In some cases, leadership believed that moves such as opening an additional suite within an existing facility or relocating to a site nearby did not constitute a "new" location requiring a material revision. That interpretation was incorrect, and we recognize that now.

The District's request for an updated site list on June 1, 2025, coincided with a period of significant transition at Highlands, including organizational restructuring and site consolidations. While those circumstances contributed to delays in providing a finalized list, they do not excuse the failure to comply with the MOU requirement.

Highlands has since taken corrective steps. A material revision updating all current operating locations was prepared and sent to the HCCTS Board on September 18, 2025 for submission to TRUSD. Moving forward, Highlands will strictly comply with the requirement to submit a material revision for any facility location change, ensuring that the District is fully informed and that all operations are authorized.

This issue will be fully resolved once the TRUSD Board approves the submitted material revision. If the Board does not approve certain sites, Highlands will immediately limit operations to District-approved locations.

Under new leadership, Highlands is committed to transparency, accuracy, and compliance in its facilities reporting and to maintaining a constructive partnership with TRUSD on all matters related to school sites.

Below are the HCCS locations as approved in the HCCS material revision on September 18, 2025:

HCCA Locations 2025-2026	
Student Serving Locations	
Name	Address
33rd St.	2520 33rd St, Sacramento, CA 95817
37th Ave.	3301 37th Avenue, Sacramento, CA 95824
Boxwood St.	2260 Boxwood Street, Sacramento, CA 95815
Center Pkwy.	7839 Center Parkway, Sacramento, CA 95823
College Oak Dr.	4545 College Oak Drive, Sacramento, CA 95841
Folsom Blvd.	10013 Folsom Blvd, Sacramento, CA 95827
Franklin Blvd.	5961 Franklin Blvd, Sacramento, CA 95824
Hillsdale Blvd.	5655 Hillsdale Blvd, Sacramento, CA 95842
Howe Ave.	1111 Howe Avenue, Sacramento, CA 95825
Hurley Way	3205 Hurley Way, Sacramento, CA 95864
Industrial Pkwy.	8180 Industrial Parkway, Sacramento, CA 95824

Marconi Ave.	3727 Marconi Ave, Sacramento, CA 95821
Old Auburn Rd.	7817 Old Auburn Road, Citrus Heights, CA 95610
Todhunter Ave.	800 Todhunter Avenue, West Sacramento, CA 95605

Administrative Support Locations	
Name	Address
Arden Way	901 Arden Way, Sacramento, CA 95815 (Warehouse/Receiving)
Florin Rd.	3801 Florin Road, Suite 107, Sacramento, CA 95823
Hemlock St.	5537 Hemlock Street, Sacramento, CA 95841

III. ALLEGED VIOLATIONS OF THE LAW

A. HCCTS Annual Independent Audit Report

The Charter School is in violation of Education Code sections 47604.33 and 47605, and its own Charter, for failing to complete and submit its 2023-24 annual independent audit report to the District.

- *HCCTS requested an extension to the December 15, 2024, deadline for submitting its 2023-24 audit report.*
- *The District granted an extension until January 15,2025, but HCCTS failed to meet this deadline and has subsequently missed multiple additional extension deadlines, including March 31, 2025, and April 18,2025.*
- *To-date HCCTS' audit report has not been submitted to the District.*
- *The District is issuing the NOV as part of TRUSD oversight responsibilities to address HCCS' failure to submit the 2023-24 annual independent audit report.*

Education Code sections 47604.33 and 47605, as well as the HCCTS charter, require timely completion and submission of an annual independent audit report. Highlands acknowledges that the 2023–24 audit has not yet been submitted to TRUSD and that multiple deadlines were missed.

Highlands contracted with Eide Bailly to conduct the 2023–24 audit (Exhibit F). While a draft was provided on May 9, 2025, the process has been significantly delayed due to a combination of external and internal factors (Exhibit G). These include:

- Eide Bailly's 2022–23 audit being selected for review by the State Controller, which diverted capacity and slowed the 2023–24 work,

- Errors identified in the draft related to unduplicated pupil counts, which required national-level review and corrections, and

- Additional testing required following the release of the California State Auditor's report, which heightened risk assessments.

Highlands has consistently provided documentation requested by the auditor and followed up on promised delivery timelines as demonstrated in Exhibit J which details an extensive list of document requests fulfilled by HCCTS staff. However, the final report has not yet been released by Eide Bailly. Legal counsel has formally demanded its completion (Exhibit H) and Highlands continues to press for immediate resolution (Exhibit I).

To date, Eide Bailly has not indicated any significant findings in the draft report. While the delay has been deeply frustrating, Highlands has acted in good faith throughout the process, and the draft report demonstrates that we have been cooperative and responsive.

Moving forward, Highlands will ensure timely completion of audits by:

- Holding vendors accountable through stricter contracts and oversight; and

- Engaging with TRUSD earlier in the process to provide status updates and transparency.

We will provide TRUSD with the completed audit report immediately upon its release by Eide Bailly. We regret the delays and are committed to ensuring this problem does not repeat.

Attached you will find the following documents:

- Exhibit F: Eide Bailly Communication Tracker 2024-2025
- Exhibit G: 2025.04.17 Letter from Eide Bailly regarding State Controller and State Auditor
- Exhibit H: 2025.8.5 Letter to Eide Bailly Requesting Production of Audit
- Exhibit I: 2025.9.11 YM&C Follow-up letter to Eide Bailly
- Exhibit J: Document requests from Eide Baily fulfilled by HCCTS

B. HCCTS Credentialing & Misassignments

HCCS has provided instruction to its students using teachers who do not hold the appropriate credential as required by California Education Code, which is a requirement for receipt of ADA funding.

- *HCCTS has submitted ADA revisions for teachers who did not have any credential, but the majority of HCCTS teachers do not have the appropriate, required credentials.*
- *ADA funding is directly tied to appropriately credentialed teachers.*
- *HCCTS relied on guidance from a Credentials Technician from San Diego County Office of Education (SDCOE) and her interpretation of credential requirements, but failed to consult with the CTC.*
- *The District is issuing the NOV as part of our oversight responsibilities to address the disallowed ADA which resulted in misappropriately credentialed teachers.*

Highlands agrees that all teachers must hold valid teaching credentials and that paraeducators should not serve as classroom teachers without them. We acknowledge that, under prior practice, Highlands relied on adult education credentials based on guidance previously received from outside agencies (Exhibit K). While this approach was followed for years without audit findings, it did not meet current expectations from CDE and CTC, and we take responsibility for correcting it.

Beginning in 2024–25, Highlands laid off teachers who did not hold the required credentials and re-staffed classes with appropriately credentialed teachers (Exhibit L). We also undertook a full review of our credentialing and staffing systems to ensure alignment with updated guidance and long-term compliance (Exhibit M).

Key corrective actions include:

- **Credentialing Review:** Examined over 300 staff profiles and held 269 individual consultations with certificated staff to create personalized compliance pathways.

- **Support Systems:** Established a credentialing support team of staff and consultants; built a centralized credentialing database; and partnered with UMass Global to provide flexible, remote intern credential pathways (Exhibit N and Exhibit O), and are hiring mentor teachers (Exhibit P, Exhibit Q, and Exhibit R)

- **Financial and Professional Support:** Adopted Board Policy 4112.3 (Exhibit S) to reimburse staff for exam fees and coursework; approved a K–12 Teacher Retention Incentive (Exhibit T), and aligned hiring timelines with CTC testing windows and permit options.

- **Hiring Reforms:** Suspended instruction in July 2025 to allow time to re-staff with fully credentialed teachers before the school year, implemented structured hiring and rehire processes tied to credential readiness; and issued updated teacher agreements.

- **Governance Safeguards:** Adopted new board policies requiring all certificated staff to hold valid credentials at hire and renewal, mandating use of Frontline to track compliance, and prohibiting nepotism in hiring through Board Policy 4212.8 (Exhibit U).

Through these actions, Highlands has corrected past practices and put in place systems that ensure all teachers moving forward will hold valid K–12 credentials. Instruction has resumed with properly credentialed staff, and we are committed to ongoing monitoring and support to keep Highlands fully compliant.

This issue is now resolved, and Highlands has turned the page with stronger systems that protect both compliance and instructional quality.

Attached you will find evidence of steps taken by HCCTS to fully cure alleged teacher credentialing issues:

- Exhibit K: Email from San Diego County Office of Education Nancy Mora
- Exhibit L: Resolution Of The Board Of Directors Of Highlands Community Charter And Technical Schools Approving Reduction In Force For Credentialed Teachers

- Exhibit N: 2025.06.10 Formalized agreement with UMass Global
- Exhibit O: Example of Teacher Agreement HCCTS K-12 Single Subject Credential Pathway
- Exhibit P: Mentor Teacher Job Description (Full Time)
- Exhibit Q: Edjoin Mentor Teacher Job Posting
- Exhibit R: Mentor Teacher at Highlands Community Charter School - Sacramento _ EDJOIN.pdf
- Exhibit S: 4112.3 BP Teacher Credentialing Reimbursements
- Exhibit T: Teacher Retention Bonus Agreement
- Exhibit U: 4212.8 BP - Anti-Nepotism and Employment of Relatives

C. HCCS Instructional Minutes

Demonstrating fiscal mismanagement and its non-compliance with the law, HCCS has received ADA funds while not meeting requirements for collecting ADA apportionment as outlined by the Education Code. Specifically, Education Code 47612.5(e)(1) states: "For purposes of calculating average daily attendance for classroom-based instruction apportionments, at least 80 percent of the instructional time offered by the charter school shall be at the schoolsite, and the charter school shall require the attendance of all pupils for whom a classroom-based apportionment is claimed at the school site for at least 80 percent of the minimum instructional time required..."

- *It was observed by Scott Leaman and Dennis Snelling (TRUSD Contractors/Consultants) that **some** students were being sent home with packets, arriving and leaving continuously without intending to stay, and provided work packets as part of the instructional day.*

- *HCCS submitted ADA revisions for 22-23 and 23-24 school years to address classes taught by non- credentialed teachers and to address items identified by the Attendance Report authored by Dennis Snelling, but the revisions did not address this violation.*
- *Further compounding the issue and contributing to the disallowed ADA, is the fact that HCCS discarded attendance records, thereby removing any documented evidence of student attendance, which is necessary to verify the accuracy of enrollment reported for ADA.*
- *HCCTS is required to address the practices outlined above and the disallowed ADA resulting from the violation of Ed. Code.*
- *The District is issuing the NOV as part of our oversight responsibilities to address HCCS' failure to meet the requirement for at least 80% of instruction to be offered at the school site.*

Highlands Community Charter and Technical Schools (HCCTS) acknowledges that past classroom observations identified instances where ***some*** students arrived late, left early, or were provided instructional packets when departing. However, Highlands is appealing the State Auditor's findings for both schools because it has always maintained a written policy requiring daily attendance that was and is communicated in the student handbook (Exhibit V) and reinforced during new student onboarding.

In regard to disallowed ADA, there were numerous flaws with the state audit process as noted in our request for summary review for Highlands that was filed with the Education Audit Appeals Panel and the formal appeal that was filed with the Education Audit Appeals Panel for CICA. Among them was the assertion in the state audit report that Highlands did not do enough to enforce its attendance policy, which led to the conclusion that the schools owed back a significant amount of apportionment to the state. Please see our attached appeal and supporting documents (Exhibits W & X) for more information on the legal and factual issues in dispute.

It is important for you to know that Highlands staff made substantial efforts to engage students, including phone calls, texts, and emails during the audit period. More than 5,000 outreach contacts specifically regarding attendance were recorded during the state audit period (Exhibit Y). Highlands also offered wrap-around support such as food pantries, clothing closets, and counseling to reduce barriers to attendance. Technology access was suspended when students were disenrolled for non-compliance.

In short, Highlands is appealing the State Auditor findings because we believe that the Auditor misinterpreted the law and did not consider records provided by Highlands that demonstrate efforts to enforce its attendance policy. Because the appeals process is ongoing, we do not have a final decision as of the date of filing this NOV response, but Highlands is diligently pursuing this appeal.

Highlands also recognizes that its handling of paper back-up records for attendance was inconsistent. While PowerSchool serves as the official record of attendance under Education Code § 44809 and 5 C.C.R. § 401, paper records were intended to provide redundancy in case of system outages. Some records were not centralized, creating the perception that they had been discarded. TRUSD staff are welcome to review our paper attendance records at any time. Highlands acknowledges that best practice is to retain these back-up records for at least three years and has committed to doing so going forward (Exhibit Z).

Notwithstanding the fact that Highlands believes in good faith that they met all legal requirements during the period reviewed by the State Auditor, in response to the state audit and district oversight, Highlands has taken the following additional steps:

- Surveyed all sites to confirm the retention of thousands of paper records from the last three years
- Adopted new procedures to ensure consistent retention of both digital and paper records (Exhibit Z)
- Standardized attendance enforcement across sites, with clear protocols for outreach and intervention (Exhibit Y)
- Contracted with Schoolhouse Partners, LCC to complete a forensic audit (Exhibit AB)

Highlands is committed to continuous improvement in this area. We will ensure attendance expectations are consistently communicated, enforcement is applied uniformly across all sites, and records are retained in accordance with law and best practice (Exhibit Z). Our goal is not only compliance, but to strengthen the systems that keep students engaged, supported, and on track to succeed (Exhibit AA).

To improve in the areas of attendance tracking and enforcement, HCCTS has taken corrective action to address and resolve these concerns, as outlined below. HCCS has strengthened both policies and record-keeping practices as follows:

1. Attendance Enforcement
    a. 5111.5 Disenrollment and Involuntary Removal (Revised and Approved 03/20/2025) - Outlines the involuntary disenrollment for students who accumulate ten consecutive unexcused absences despite HCCS staff's efforts to re-engage them (Exhibit AD).
    b. 5113.1 BP Attendance Enforcement (Approved 03/20/2025) - Outlines 80% attendance rule (Exhibit AA)
    c. 5120 BP Satisfactory Academic Progress (Approved 03/20/25) - Outlines students must maintain active attendance. Requires that all manual attendance records, including sign-in sheets, be retained for a minimum of three years in accordance with the California Code of Regulations, Title 5. (Exhibit AC)

   d. 5131 BP Student Conduct (Revised and Approved 03/20/2025) - Outlines the ramifications of students who forge attendance records (Exhibit AE)
   e. 6164.5 BP Student Success Teams (Revised and Approved 04/25/2025) - Outlines interventions to support students reportedly struggling with attendance (Exhibit AF)

2. Updated Bell Schedules for the 2025-2026
   a. Contains 5 periods rather than 3 periods for the AM schedule (Exhibit AG)
   b. Has only one track (Exhibit AI)
   c. Meets the minimum number of instructional minutes (Exhibit AH)
   d. Has only one PM schedule for all sites, rather than three (as in the 2024-2025 school year) (Exhibit AG)

3. Class Sizes
   a. 6151 BP Class Sizes and Enrollment (Approved 5/15/2025) - Sets class size and enrollment guidelines to support instruction and student success. Ensures manageable student-to-teacher ratios and adapts to program needs. Aligns class sizes with physical space limits and adjusts as needed (Exhibit AJ)
   b. 6170 BP Student-to-Teacher/Paraeducator Ratios (Approved 6/5/2025) - Sets student-to-teacher and paraeducator ratios to support instructional quality and safety. Limits general class sizes to 40:1 and follows legal ratios for independent study. Assigns paraeducators based on need, targeting 1 per 120 students. Provides extra support for students with SST or 504 plans (Exhibit AK)
   c. 7110 BP Physical Classroom Capacity (Approved 5/15/2025) - Defines and enforces classroom capacity limits to comply with safety codes and building regulations. Coordinates capacity limits with enrollment policies to support safe attendance (Exhibit AL)

4. Additional Attendance Measures:
   a. Automated Attendance Notifications: Robocalls and text alerts will immediately notify students of attendance deficiencies.
   b. Enhanced Teacher Training: Teachers will receive strengthened training on attendance monitoring and engagement tracking.
   c. The 80% Attendance Rule: Students must maintain at least 80% attendance to remain engaged in learning, per California Education Code § 51747. (Exhibit AA)
   d. Administrative Spot Checks: School administrators will conduct random compliance checks to ensure adherence to attendance policies.
   e. Updated Tiered Re-engagement Framework: Students with persistent attendance or academic progress issues will follow a structured re-engagement process.

Those who fail to improve despite interventions may be disenrolled in accordance with school policy BP 5111.5. (Exhibit AD)

HCCTS has taken all steps that it can to improve attendance policies, re-engagement strategies, and employee training to ensure students are re-engaged when there are attendance concerns. These changes should fully cure any outstanding concern that the District could have relating to attendance going forward. HCCTS also has taken all steps necessary to pursue its appeals of apportionment findings with regard to the state audit period where it believes that it met all legal requirements. There is nothing more that HCCTS can do with regard to the audit appeals until such time as a decision is made by the Education Audit Appeals Panel

HCCTS Evidence

- Exhibit V: HCCS Student Handbook

- Exhibit AI: Academic Calendar 2025-2026
- Exhibit AJ: 6151 BP Class Sizes and Enrollment
- Exhibit AK: 6170 BP Student-to-Teacher/Paraeducator Ratios
- Exhibit AL: 7110 BP Physical Classroom Capacity

D. HCCTS Exclusive Partnership Agreement

"Instruction must be provided exclusively in partnership with Workforce Innovation and Opportunity Act (WIOA) programs."

- *During its 2024–25 oversight review, the District discovered that HCCTS had allowed individuals who were non-students to participate in its Career Technical Education (CTE) Truck Driving program.*
- *The practice began in 2014 at the direction of a Board member, was supported by the Executive Director, and continued with Board approval through 2024-25.*
- *The WIOA partnership agreement requires instruction to be provided exclusively in partnership with WIOA.*

- *Providing instruction to non-students as part of HCCTS' partnership with the Volunteers of America, Local 185 Union, Sacramento County Sheriff's Office, and the Sacramento Police Department, violates this agreement.*
- *The District is issuing the NOV as part of our oversight responsibilities to address the breach of the exclusive partnership agreement and all resulting funds tied to the agreement.*

Highlands acknowledges that past practices in the Truck Driving program violated the requirements of our Workforce Innovation and Opportunity Act (WIOA) partnership agreement, which stipulates that instruction must be provided exclusively in partnership with WIOA programs. Beginning in 2014, and with the support of prior leadership, non-students were allowed to participate in the program through informal arrangements with outside organizations.

Highlands takes full responsibility for this lapse. Under current leadership, the practice has been ended and corrective steps have been taken to ensure compliance. Specifically:

- A formal investigation was completed by the Director of HR in 2024–25 (Exhibit AM).
- Disciplinary action was taken against an employee.
- A stop notice was issued in December 2024 prohibiting non-student participation (Exhibit AN).
- Between December 2024 and January 2025, Highlands discontinued informal partnerships with Local 185, the Sacramento Police Department, and the Sacramento County Sheriff's Office.
- On January 6, 2025, Highlands officially ended all non-student participation across programs (Exhibit AO).
- The Truck Driving program was suspended and will remain paused until Highlands can ensure full compliance with WIOA requirements, its charter, and the MOU.

These actions have fully cured the issue. Moving forward, Highlands has strengthened oversight of program partnerships, reinforced compliance training for staff, and adopted new safeguards to ensure all instruction aligns exclusively with WIOA requirements. This reflects our commitment to correcting past mistakes, complying with all partnership agreements, and ensuring that every program we operate directly serves only enrolled students.

Attached you will find the following documents showing progress made by HCCTS regarding the truck driving program:

- Exhibit AM: 2025.03.28 Letter from HCCTS detailing investigation into the Truck Driving program

- Exhibit AN: 2024.12.02 TRUSD Findings Regarding Truck Driving
- Exhibit AO: 2024.12.02 Truck Driving Program Follow-up

IV. FISCAL MISMANAGEMENT

A. HCCTS San Diego Location

Engaged in fiscal mismanagement.

- *The condominium advertises being able to "watch the ballgame from your balcony" and is the highest priced unit in the facility.*
- *The decision to engage in this exorbitant real estate transaction, even though students were not in or around the area is questionable.*
- *Compounding the issue is the fact that the admin facility lacks any direct connection to educational services or student benefit demonstrating a fiscal mismanagement.*
- *The District is issuing the NOV as part of our oversight responsibilities to ensure that HCCTS address the fiscal mismanagement.*

Highlands acknowledges that the decision to lease a condominium office in San Diego was a misstep that does not align with our mission or our responsibility to ensure all expenditures directly benefit students. While the space was briefly used by a remote employee and originally intended to support exploration of expansion opportunities, the location did not provide meaningful educational value. We recognize that this was poor judgment under prior leadership and understand the District's concern that this constituted fiscal mismanagement.

Highlands has since vacated the property and taken corrective steps to minimize the financial impact. We engaged Newmark Realty on March 27, 2025, to sublease the space, revised the listing in June 2025, and remains prepared to accept any commercially reasonable offer. While it is not possible to control the timing of sublease offers, Highlands is committed to recouping as much value as possible and bringing this matter to resolution (Exhibit AP and Exhibit AQ).

This decision reflects mistakes of the past. Moving forward, Highlands has implemented stronger financial controls and multi-level approval processes to ensure that all facility and spending decisions are directly tied to student learning and educational services. These safeguards are designed to prevent similar errors and to reinforce our commitment to fiscal responsibility, transparency, and compliance.

Attached below you will find:

- Exhibit AP: Sublease Agreement for San Diego
- Exhibit AQ: Sublease Marketing Materials by Newark Realty

B. HCCS Marysville 2 Location

"engaged in fiscal mismanagement" regarding the allegations listed below:

- *HCCTS terminated the lease effective November 30, 2024, with an agreement that obligates HCCTS to continue paying $33,639.80 in lease payments through April 30, 2026.*
- *HCCTS sold publicly funded equipment (valued at $52,494.34) to the City of Marysville f or $1.00.*
- *The ongoing lease payments, the disposal of equipment at a nominal price, and the initial misrepresentation of the site's intended use constitute fiscal mismanagement.*

Highlands acknowledges that the decision to open and lease the Marysville 2 site under prior leadership was unsound and did not reflect appropriate planning or stewardship of public resources. Entering into the lease and purchasing equipment were poor decisions that created the appearance — and in practice, the reality — of fiscal mismanagement.

In November 2024, Highlands reached a termination agreement with the City of Marysville that ended the lease early (Exhibit AR). While Highlands remains obligated to make lease payments through April 2026, this arrangement resulted in a net savings of approximately $88,000 compared to the original lease terms. The transfer of equipment for $1 was part of the inducement necessary to secure this early termination and avoid further taxpayer losses (Exhibit AS and Exhibit AT).

While this solution limited financial damage, Highlands acknowledges that the initial decision to enter into the lease and purchase equipment without a detailed instructional or operational plan was a mistake. This is an important lesson, and the current administration is committed to ensuring that all future facility decisions are grounded in sound strategic planning, tied directly to student benefit, and compliant with the requirements of MOU Amendment No. 3.

This matter has been resolved to the fullest extent possible given the circumstances created under prior leadership. Moving forward, Highlands has implemented stronger financial controls and multi-level approval processes to ensure that no facility or equipment decisions are made without thorough analysis, transparency, and clear educational purpose. The current administration did not have the ability to prevent or unwind those initial decisions. Instead, our responsibility now is to mitigate losses and resolve the matter as prudently as possible.

Marysville 2 – Lease, Oversight, and Financial Summary Timeline

1. **May 1, 2023 – Lease Execution**
   HCCTS entered into a lease with the City of Marysville for Bryant Field at $2,000/month

with a 3% annual increase. Intended use: CTE training site (landscaping, sports officiating) and community events. (Exhibit AU and Exhibit AV)

2. **June 24, 2023 – Sponsorship Event**
   HCCTS hosted "Highlands Night at the Ballpark" with approximately 250 attendees. This event was conducted under the $25,000 sponsorship agreement with the Marysville Drakes.

3. **March 14, 2024 – First TRUSD Notice of Concern**
   TRUSD raised concerns about the site's use, lack of student enrollment, and legality of the $25,000 sponsorship.

4. **April 5, 2024 – HCCTS Initial Response**
   HCCTS clarified CTE plans, explained the sponsorship as a marketing expense, and explained lease terms.

5. **June 17, 2024 – TRUSD Follow-Up Letter**
   TRUSD questioned the lease-before-enrollment practice and raised student health/safety concerns due to the site's outdoor-only nature.

6. **July 23, 2024 – HCCTS Second Response**
   HCCTS reiterated program planning steps, outlined the plan to expand officiating in August 2024, and confirmed indoor fallback at Marysville 1.

7. **August 15, 2024 – Third TRUSD Notice of Concern**
   TRUSD requested a final decision on the site's future and additional documentation on the sponsorship under Ed Code §47604.3.

8. **September 24, 2024 – HCCTS Response**
   HCCTS acknowledged staffing issues, stated that they had no knowledge of how the $25,000 was used by the Drakes, and confirmed lease termination discussions. (Exhibit AW)

9. **October 16, 2024 – TRUSD Closure of Sponsorship Inquiry**
   TRUSD determined no further action was required regarding the sponsorship and asked to be informed of the lease status. (Exhibit AY)

10. **November 30, 2024 – Lease Termination Executed**
    The lease was mutually terminated. HCCTS agreed to pay $33,639.80 in lease-equivalent payments through April 30, 2026, and transferred $52,494.34 in equipment to the City for $1, with rights to reclaim if HCCTS reuses the site.

11. **January 14, 2025 – HCCTS Lease Termination Report**
    HCCTS formally confirmed lease closure, financial commitments, and equipment disposition with the right of retrieval.

12. **February 19, 2025 – Final HCCTS Report**
    HCCTS documented the marketing event ("Highlands Night at the Ballpark"), confirmed equipment transfer, and noted the option to return if CTE programs are re-established. (Exhibit AZ)

13. **June 9, 2025 – TRUSD Notice of Violations and Revocation Consideration**
TRUSD issued a formal letter identifying alleged violations by HCCTS, including:
- Misuse of public funds for a private baseball team
- Program inactivity during the lease term
- Transfer of $52,000+ in equipment for $1
- Continuation of lease-equivalent payments post-termination

Evidence
- Exhibit AR: Mutual Termination of Lease Agreement
- Exhibit AS: Marysville_Expenses Chart
- Exhibit AT: Itemized Equipment from Marysville 2
- Exhibit AU: Marysville_Baseball field Lease agreement
- Exhibit AV: Marysville 2_Lease agreement
- Exhibit AW: 2024.09.24 Response NOC_RFI Marysville 2
- Exhibit AY: 2024.10.16 Letter from TRUSD with findings regarding Marysville 2
- Exhibit AZ: 2025.02.19 Letter from HCCTS explaining use of equipment following termination of Marysville 2 lease

V. Employment of Celebrities & Professional Athletes and Use of Public Funds

The District has asked Highlands to provide additional information regarding past employment arrangements for individuals identified as "professional/celebrity athletes." Highlands has previously shared details on this matter and offers the following to close out all outstanding questions.

Under prior leadership, salaries and job classifications for these employees were not aligned with established job descriptions or salary schedules. Highlands acknowledges that this was a mistake and understands the District's concern.

Since then, Highlands has taken corrective action:

- Job descriptions for the relevant positions were updated and formally approved by the Board.

- Roles were reviewed and reclassified to ensure alignment with board-approved duties and appropriate compensation structures.

- These employees are no longer employed by Highlands as of the 2025–26 school year so this is not an ongoing issue..

Highlands also recognizes that these issues were symptomatic of a broader lack of policies and procedures to govern hiring, compensation, and promotions. To address this, Highlands has engaged Jennifer Lopez Consulting, LLC to conduct a comprehensive review of all related

policies, with recommendations due by December 2025. The Board will consider these recommendations to ensure consistent, transparent practices moving forward.

We further acknowledge the State Auditor's finding that the absence of clear policies created the potential for inequity and favoritism. Highlands is committed to fully implementing the Auditor's recommendations and to ensuring that compensation practices are fair, transparent, and aligned with both law and best practice. Recommendations 22 and 23 from the State Audit Report are below, along with our current status of implementation.

Recommendation 22

To ensure that pay is assigned equitably and based on merit and performance, Highlands should implement policies by December 2025 to create a merit-based structure for devising its salary schedules, evaluating staff, assigning salaries and salary increases, and deciding on annual bonus amounts.

HCCTS BP 4111 (Exhibit BA) establishes the requirement for a structured hiring process including screening of candidates, panel interview requirements, and offers of employment. HCCTS Board Policy 4111.2 (Exhibit BB), establishing a structured and equitable promotion process that recognizes demonstrated competence. In alignment with these policies, HCCTS will collaborate with an independent contractor to develop policies and procedures that ensure a fair and consistent pay structure. Additionally, HCCTS has implemented staff evaluations through the third-party platform Frontline, providing a centralized system for storing and referencing all evaluations.

Recommendation 23

To prevent favoritism and pay inequity, Highlands should, by December 2025, implement a policy to adhere to its salary schedules and not allow executive management to approve increases outside of salary schedule limits.

Currently no employees at HCCTS have salaries that are outside of the salary schedule based on their job description. HCCTS's new Chief Operations Officer (COO) is currently reviewing all salaries to identify and address potential pay inequities and continuing to improve the process of determining starting salaries for all employees. The COO will work with an independent contractor to ensure that a comprehensive set of policies and procedures, including salary schedules and pay increases, is in place and fully implemented by January 2026.

Evidence

- Exhibit BA: 4111 BP
- Exhibit BB:4111.2 BP

VI. SUMMARY

This response provides evidence that HCCS has either already fully cured or has taken every possible step to cure all of the concerns raised by the District and will continue to vigorously pursue resolution of the few items that are outside of the school's control.

HIGHLANDS
COMMUNITY CHARTER SCHOOL

Highlands Community Charter School

Respectfully Submitted to the Twin Rivers Unified School District Board of Trustees

For the Charter term of July 1st, 2019–June 30th, 2027

TRUSD	Twin Rivers Unified School District
WIOA	Workforce Innovation Opportunity Act

Preface

Highlands Community Charter School respectfully submits this charter petition material revision request to the Twin Rivers Unified School District, seeking to continue the effective work of serving students in the District. This material revision is being submitted as the Charter School is requesting the following changes to the charter:

1. **Updated Number of Sites**
   HCCS requests to maintain 14 sites as detailed in Element P the material revision.

2. **Updated Credential Qualifications**
   In the 2024-2025 school year, HCCS modified credential requirements for teachers based on a May 2025 update from the CTC and additional guidance communicated by TRUSD. This material revision will align the charter document with our commitment to utilize K-12 credentials rather than adult credentials for its teachers.

3. **Proposed Career Technical Education (CTE) Programs for 2025-2026 School Year**
   HCCS proposes to operate seven CTE programs in the 2025-2026 school year:
   - Culinary Arts
   - Digital Literacy and Multimedia
   - Early Childhood Education (ECE)
   - Medical Services
   - Microsoft Office Specialist (MOS) Certification
   - Personal Finance
   - Real Estate

4. **Addition of Grade 11**
   HCCS proposes to add grade 11 in compliance with guidance from TRUSD.

5. **Addition of CAST and CAASPP Assessments**
   HCCS will test students in both CAST and CAASPP based on guidance from the California Department of Education and TRUSD. While these assessments are intended for students in traditional high school programs, and HCCS serves adults, HCCTS has implemented this assessment to ensure compliance and accountability in its academic programs.

6. **Enhanced Curriculum for Improved English Learner Support**
   The HCCTS Board has approved the Savvas curriculum for HCCS. Implementation has begun with professional development support from Savvas in alignment with Professional Learning Community (PLC) structures.

7. **Lottery Procedures**
   HCCS respectfully requests approval to update its current lottery procedures to more accurately reflect the Charter School's existing admission practices. While maintaining full compliance with all applicable provisions of the California Education Code, HCCS

seeks to clarify and enhance its written policies and procedures to ensure greater transparency, accessibility, and alignment with the school's mission of serving adult learners. These updates will streamline the admissions process, reflect current operational structures, and better address the needs of the diverse student population.

With TRUSD's approval, HCCS will continue to uphold equitable and compliant admission practices while refining procedures to ensure they are clear, consistent, and supportive of the school's commitment to access and inclusion.

Assurances, Affirmations, and Declarations

As the authorized lead petitioner, I hereby certify that the information submitted in petition for renewal of Highlands Community Charter School ("HCCS" or the "Charter School"), located within the boundaries of the Twin Rivers Unified School District ("TRUSD" or the "District") and outside of the District pursuant to the WIOA exemption to site restrictions contained in the Charter Schools Act of 1992 is true to the best of my knowledge and belief; I also certify that this petition does not constitute the conversion of a private school to the status of a public charter school.

Highlands Community Charter School shall:

- Be nonsectarian in its programs, admission policies, employment practices, and all other operations. (California Education Code (hereinafter "Ed. Code") § 47605(e)(1).)
- Not charge tuition. (Ed. Code § 47605(e)(1).)
- Not discriminate against any pupil on the basis of the characteristics listed in Ed. Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics). (Ed. Code § 47605(e)(1).)
- Admit all pupils who wish to attend Charter School (Ed. Code § 47605(e)(2)(A).) unless HCCS receives a greater number of applications than there are spaces for students, in which case it will hold a public random drawing to determine admission. Except as required by Education Code Section 47605(e)(2), admission to HCCS shall not be determined according to the place of residence of the student or of that student's parent or legal guardian within the State. Preference in the public random drawing shall be given as required by Education Code Section 47605(e)(2)(B)(i)-(iv). In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of HCCS in accordance with Education Code Section 47605(e)(2)(C). (Ed. Code § 47605(e)(2)(A)-(C).)
- If a pupil is expelled or leaves Charter School without graduating or completing the school year for any reason, notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades and health information. If the pupil is subsequently expelled or leaves the school district without graduating or completing the school year for any reason, the school district shall provide this information to the Charter School within 30 days if the Charter School demonstrates that the pupil had been enrolled in the Charter School. (Ed. Code § 47605(e)(3).)
- The Charter School may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance to, or continued enrollment at, the Charter School. [Ref. Education Code Section 47605(n)]
- The Charter School shall adhere to each of the conditions in Education Code Section 47605(e)(4)(A)-(D), including: (A) not discouraging a student from enrolling or seeking

to enroll in the Charter School for any reason; (B) not requesting a student's records or requiring a parent, guardian, or student to submit the student's records before enrollment; (C) not encouraging a student currently attending the Charter School to disenroll or transfer to another school for any reason; and (D) providing a copy of the California Department of Education ("CDE") notice regarding the requirements in Education Code Section 47605(e)(4)(A)-(D) to a parent/guardian or student if the student is 18 years of age or older: (i) when a parent/guardian or student inquires about enrollment (ii) before conducting an enrollment lottery, or (iii) before disenrollment of a student. [Ref. Education Code Section 47605(e)(4)(A)-(D)]

- Meet all statewide standards and conduct the pupil assessments required pursuant to Education Code section 60605 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in non-charter public schools. (Ed. Code § 47605(d)(1).)
- Consult, on a regular basis, with Charter School's students and teachers regarding the Charter School's educational programs. (Ed. Code § 47605(d)(2).)
- Adhere to all provisions of federal law related to students with disabilities including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Individuals with Disabilities Education Improvement Act of 2004.
- Meet all requirements for employment set forth in applicable provisions of law, including but not limited to credentials, as necessary. (Title 5 California Code of Regulations § 11967.5.1(f)(5)(C).)
- Ensure that teachers in the Charter School hold the Commission on Teacher Credentialing certificate, permit, or other document required for the teacher's certificated assignment. The Charter School may use local assignment options authorized in statute and regulations for the purpose of legally assigning certificated teachers, in the same manner as a governing board of a school district. (Ed. Code § 47605(l)(1).)
- At all times maintain all necessary and appropriate insurance coverage.
- For each fiscal year, offer, at a minimum, the number of minutes of instruction per grade level as required by Education Code § 47612.5(a)(1)(A)-(D).
- Maintain accurate and contemporaneous written records that document all pupil attendance and make these records available for audit and inspection. (Ed. Code § 47612.5(a)(2).)
- Comply with any applicable jurisdictional limitations to the locations of its facilities. (Ed. Code § 47605; Ed. Code § 47605.1.)
- Comply with all laws establishing the minimum and maximum age for public school enrollment. (Ed. Code §§ 47612(b) and 47610.)
- Comply with all applicable portions of the Elementary and Secondary Education Act ("ESEA'), as reauthorized and amended as the Every Student Succeeds Act ("ESSA").
- Comply with the Public Records Act.
- Comply with the Family Educational Rights and Privacy Act.
- Comply with the Ralph M. Brown Act.
- Comply with Government Code Section 1090, et seq., as set forth in Education Code Section 47601.1.
- Comply with Political Reform Act, Government Code Section 81000, et seq.
- Meet or exceed the legally required minimum number of school days. (Title 5 California

Code of Regulations § 11960.)

Charter School declares that it shall be deemed the exclusive public school employer of Charter School's employees for the purposes of the Educational Employment Relations Act.

Element A The Educational Program

Program Focus: Opportunities for Adult Learners

The Highlands Story
Highlands Community Charter School (HCCS) has been in operation since August 2014 and is one of two public charter schools operated by Highlands Community Charter and Technical Schools. HCCS exists to provide second chances — to serve adult learners aged 22 and older who, for a wide variety of reasons, were unable to earn a high school diploma through traditional pathways.

We serve a uniquely diverse student population, the majority of whom are immigrants and refugees. Some of our students arrive with advanced degrees from their home countries, having previously worked as engineers, teachers, and medical professionals. Others have had little or no formal education and are just beginning to learn to read, write, or speak English for the first time. Our model is built to honor this range of lived experiences — meeting students where they are and helping them reach where they want to go.

HCCS is open to all adult learners over the age of 22 and accepts students according to available capacity and lottery procedures. At our core, we believe that every student — regardless of their starting point — deserves access to a high-quality education, a pathway to a better future, and the unwavering support of a school community that sees their potential.

In July 2025, HCCS entered an era of renewal and accountability under the leadership of Executive Director Jonathan Raymond, former superintendent of Sacramento City Unified. With a sharpened focus on transparency, equity, and academic rigor, we are reimagining what second-chance education can be in California.

Our goal is to urgently rebuild an adult education program on a foundation of institutional integrity and a deep commitment to putting students first in every decision. We are raising standards across the board to implement clear policies for fiscal responsibility, place K-12 credentialed teachers in every classroom, lower class sizes, develop a rigorous and standards-aligned curriculum, enable more professional learning for teachers, and expand access to career training to support workforce needs throughout the regions we serve.

While the school has temporarily cut back staffing and reduced its enrollment capacity as part of program restructuring, it has laid essential groundwork for deep structural change. Every initiative proposed in this revision reflects our commitment to building educational programs that deliver on HCCS's commitment to serving its students, families, and the public.

HCCS has also launched a comprehensive five-year strategic planning process to reimagine how we deliver services and meet the evolving needs of our learners. We are investing in academic excellence, workforce relevance, and a culture of care. With these changes, we believe Highlands can become a statewide model for high-quality adult education that transforms lives.

Mission Statement
HCCS is a diverse community for social justice, serving the underserved by providing access to education, technology, communication, and employment for 21st-century achievers. Through community partnerships, HCCS builds new legacies leading to self-sufficiency and generational change.

Vision
The vision of HCCS is to eradicate educational inequality and promote workforce success.

Executive Leadership
The Executive Leadership at Highlands Community Charter School provides high-quality leadership to create and sustain a meaningful learning environment that supports student academic progress.

Under the direction of the Board, the Cabinet—comprising the Executive Director, Chief Academic Officer, Chief Operating Officer, and Chief Business Officer—develops, implements, and evaluates key school systems and processes, including academic, human resources, finances, assessment, facilities, and accountability.

Leadership Team

Jonathan Raymond, Executive Director
Jonathan Raymond is a nationally respected education leader known for helping institutions navigate moments of deep crisis and emerge stronger, more accountable, and more student-centered. He most recently served as Senior Vice President and Superintendent in Residence at City Year, a national youth development and education nonprofit, where he oversaw education policy and provided strategic guidance to local and national systems working at the intersection of education, equity, and workforce development. As the Superintendent of the City School District of New Rochelle, he led the district through the final stages of the COVID-19 pandemic, investing in whole-child supports, accelerating learning recovery, and strengthening school-community partnerships. His leadership prioritized mental health, expanded after-school and summer enrichment, and delivered resources to students most impacted by the Pandemic.

Prior to that, Raymond served as Superintendent of Sacramento City Unified School District, where he guided one of California's largest urban districts through historic budget deficits, deep structural reform, and the early stages of a statewide shift toward equity-driven education. Under his leadership, the district raised graduation rates, introduced whole-child support, launched early learning and summer programs, and transformed some of its most underserved schools into high-performing campuses — all while navigating one of the toughest fiscal climates in California's history.

Raymond's crisis-tested leadership is grounded in a lifelong commitment to public service. He previously served as Executive Director of the Massachusetts COVID-19 Relief Fund, Chief Accountability Officer of the Charlotte-Mecklenburg Schools in North Carolina, and President of

the Stuart Foundation, California's largest K-12 education philanthropy. He began his career as a labor law attorney and brings legal, nonprofit, and philanthropic expertise to every challenge. He is a graduate of the Broad Superintendents Academy, holds a JD from George Mason University School of Law, an MA from The Fletcher School of Law and Diplomacy at Tufts University, and a BA from Tufts University. He also completed the Executive Management Program at Harvard Business School.

Throughout his work, Raymond has earned a reputation for putting students first, building trust in fractured environments, and helping systems rise from instability to renewal. As the newly appointed Executive Director of Highlands Community Charter, he brings that same steady hand to a school community that is ready to rebuild and thrive.

Teresa Cummings, Chief Operations Officer
Teresa holds a Ph.D. from the University of Illinois, Chicago, and has worked in the field of education for more than 29 years. Her work as a teacher, administrator, and author of mathematics curricula has spanned the breadth of the education community from PreK-12 through community college and university levels. She has extensive experience in executive-level district administration, as well as research and development for various non-profits, Riverside County Office of Education, and the Stuart Foundation, including co-development of an organizational health review.

Eric Chapman, Chief Academic Officer
Eric Chapman holds a Master of Education from California State University, Sacramento, and has dedicated more than 25 years to the field of education. He began his career as a classroom teacher and instructional coach in the Del Paso Heights School District before moving into school leadership, serving as principal at four sites within Sacramento City Unified School District. In these roles, he led transformative turnaround efforts in literacy, family engagement, and community school models, while guiding schools through continuous improvement cycles, professional learning, and student-centered restructuring initiatives. Since 2008, his leadership has focused on building systems that foster equity, innovation, and academic achievement. Eric now serves as Chief Academic Officer for Highlands Community Charter and Technical Schools, where he directs efforts in career technical education, workforce alignment, and equity-driven systems that expand opportunities for adult learners. Recognized as a mentor and collaborator, he is deeply committed to advancing student success and harnessing the power of schools to strengthen communities.

Matthew Lemos, Chief Business Officer
Matthew Lemos brings more than two decades of leadership experience in finance, operations, and team management across both the education and hospitality sectors. He began his career in the gaming industry, serving as a floor supervisor, pit manager, and head trainer, where he developed expertise in staff development, customer service, and process improvement. Transitioning to the nonprofit and education fields, Matthew has spent the past six years directing financial services for charter schools in California and Nevada. He has overseen multimillion-dollar budgets, compliance with state and federal regulations, and the development of policies and systems that ensure fiscal stability and operational excellence.

Matthew currently serves as Chief Business Official for Highlands Community Charter and Technical Schools, where he provides strategic leadership in finance, operations, and risk management to support the school's mission of preparing career-ready graduates. Known for his strong communication skills, ethical leadership, and collaborative approach, he is dedicated to building sustainable systems that strengthen schools and expand opportunities for students and staff alike.

Melissa Roberson, Director of Accountability and Assessment
Melissa Roberson is the Director of Accountability and Assessment, bringing over a decade of experience in education with a strong foundation in teaching, leadership, and data-driven decision-making. She earned her Master's degree from the University of Southern California in 2016 and went on to serve as a principal for five years, where she championed student outcomes and teacher growth. With a background as an experienced ELD and ESL teacher, Melissa has deep expertise in instructional strategies and supporting English learners. In her current role, she oversees WASC accreditation, state reporting, and manages the relationship with the Twin Rivers Unified School District, ensuring compliance and alignment with school goals. Known for her integrity, student-centered approach, and sharp focus on data, Melissa is dedicated to building systems that elevate teaching and learning for all students.

Mayra Valdivia, Director of School Services
Mayra Valdivia is an educator and administrator dedicated to advancing student success through strategic leadership, community partnership, and program development. She began her career as a high school counselor, supporting students' academic, social-emotional, and career growth, and later served as Lead ELD Counselor, directing programs that expanded services for English learners. She went on to serve as Director of Student Services and Assistant Deputy Director at Highlands Community Charter and Technical Schools, overseeing counseling, student support, and departmental operations while strengthening community partnerships. In 2024, she was appointed Deputy Director of School Services, where she supervises directors, guides program implementation, and represents the organization in legislative and community settings to advocate for policies benefiting students and families. Mayra holds a Master of Science in School Counseling from California State University, Sacramento, and earned her Preliminary Administrative Services Credential in 2024. She has also completed leadership and charter school business officer training through the Charter Schools Development Center. Fluent in English and Spanish, she is a strong advocate for equity and access, committed to expanding opportunities for diverse student populations.

The Population HCCS Desires to Educate
HCCS has the motto "...it's never too late." The school specifically focuses on providing educational opportunities for adults 22 years and older without a US high school diploma who have been unserved or underserved by the traditional educational system. This includes students who were unable to complete high school due to circumstances such as early parenthood, justice system involvement, or economic necessity, as well as immigrants and refugees seeking educational opportunities in the United States. HCCS provides a viable educational choice for adult learners interested in completing their high school education in a supportive environment that recognizes their diverse backgrounds, experiences, and goals.

The school serves students from 89 countries, with the five most represented countries as of the 2024-2025 school year being Afghanistan (5,830 students), Ukraine (1,383), Russia (1,356), Mexico (1,014), and Vietnam (318). This international diversity reflects both global migration patterns and Sacramento's role as a resettlement community for refugees and immigrants.

Student Population Characteristics

Demographics and Geographic Distribution

HCCS enrolls students primarily from Sacramento County, serving a culturally and linguistically diverse population. Women comprise 58.90% of the student body, men 41%, and 0.10% identify as nonbinary. The school serves grades 9-12, with all students being 22 years of age or older.

Language and Cultural Diversity

Approximately 90% of HCCTS students are English Language Learners, though the school also serves English proficient students seeking to complete their education through credit recovery. Based on enrollment data, there are multiple primary languages represented at HCCS, reflecting the diverse countries of origin of the student population. The five most represented countries at HCCS as of Census day for the 2024-2025 school year are Afghanistan, Ukraine, Russia, Mexico, and Vietnam. The table below shows the top five countries of origin for students at HCCS by year for the last three years, along with the number of students enrolled by year for that country.

	2022-2023	2023-2024	2024-2025
1	Afghanistan (2,875)	Afghanistan (3,755)	Afghanistan (5,830)
2	Ukraine (990)	Ukraine (1,305)	Ukraine (1,383)
3	Mexico (920)	Russia (1,239)	Russia (1,356)
4	Russia (634)	Mexico (1,036)	Mexico (1,014)
5	United States (381)	Vietnam (268)	Vietnam (318)

Socioeconomic Status

The overwhelming majority of HCCS students qualify as socioeconomically disadvantaged, with over 97% qualifying for this status in the 2023-2024 census, an increase from the historical 90%+ rate.

Free and reduced lunch eligibility has grown significantly:

Year	Students Eligible for Free/Reduced Lunch
2022-2023	5,690
2023-2024	9,350
2024-2025	11,546

Housing Instability
A significant portion of the student population experiences housing instability:

Year	Enrolled Homeless Students
2022-2023	450
2023-2024	1,584
2024-2025	1,365

Due to the social stigma associated with homelessness, these numbers likely represent underreporting, as many students temporarily staying with friends or family may not identify as homeless.

Student Challenges and Needs

Varied Educational Backgrounds
The educational backgrounds of HCCS students vary dramatically. Some refugee and immigrant students arrive with advanced degrees from their countries of origin and extensive English language experience, while others may have never had formal education and lack literacy in their first language. US-born students typically have experienced interruptions in their education due to various life circumstances.

Multiple Responsibilities
Many students are adults managing multiple responsibilities, including employment, family care, and basic needs. They often lack access to reliable transportation, computer technology, and childcare. Limited free time presents ongoing challenges for academic engagement and completion.

Trauma and Life Experiences
Students frequently arrive having experienced various forms of trauma including displacement, poverty, addiction, homelessness, and incarceration. Ex-offenders face particular challenges re-entering educational settings and often require additional academic and social-emotional support.

Access to Basic Needs
Many students lack access to fundamental necessities including food, appropriate clothing, school supplies, and stable housing. The refugee population faces additional challenges adapting to new customs, culture, and technology while building English proficiency and seeking employment.

Student Goals and Motivations

Students enroll at HCCS with diverse but interconnected goals: improving English language skills, completing their high school education, accessing better employment skills and opportunities, supporting their families, and participating more fully in their communities. For many, earning a high school diploma represents both a long-deferred dream and a critical step toward economic stability and further education. HCCS recognizes that academic achievement must be pursued alongside students' broader life goals, creating pathways that honor both educational attainment and personal aspirations.

Characteristics of an Educated Person in the 21st Century

HCCS holds that an educated person in the 21st century is well-rounded, literate in both academics and the needs of their well-being, and balanced in knowledge of core subjects, communication, career and civic readiness, and the use of technology. In the grades 9-12 high school context, this means students engage in a coherent course of study that builds critical thinking and problem-solving, and helps them act with increasing independence and confidence in academic and professional settings. Our students become empathetic, collaborative members of the community. Through collaboration, they set and pursue personal, academic, and career goals. A climate of mutual trust and support leads students to demonstrate empathy and to engage in respectful, productive communication. Teachers guide students to see themselves as global citizens who are empowered and responsible for making positive changes in their immediate environments and beyond. Accordingly, an educated person in California today is literate in English and able to communicate and function competitively and productively in the workforce, in higher-education classrooms, and in their communities.

Our students **seek understanding and peace** within multi-age, multicultural classrooms and respect the rights of others to do the same. We support students in developing personal habits for a healthy lifestyle—balancing academics, leisure, work, family, and community. Students who have had limited access to technology learn to use digital tools as a means to succeed in school, work, and civic life.

Our students are **scholars** who build proficiency in English, Mathematics, Science, and Social Studies/History. As members of the California/ Sacramento community, they communicate effectively and contribute to the world around them. They are prepared to meet the expectations of college classrooms and to engage thoughtfully with new ideas.

Our students are **community members** who collaborate with others, contribute to projects, and manage and resolve conflicts using the communication tools learned in our classrooms. They are motivated to provide meaningful service and to apply their developing talents in real settings. We send our students into the workforce confident in the skills they have developed and prepared to communicate, collaborate, and contribute.

Our students are **citizens** of the world who understand the foundations of constitutional democracy, the rights and responsibilities of all, and the importance of staying informed about political, social, and environmental issues. By learning together in diverse classrooms and on our

campuses, students deepen their understanding of other political, social, and cultural systems and practice peaceful coexistence.

Our students are **members of an increasingly technical and information-based world** and are competent, comfortable users of a wide range of technologies. They view technology as an integral part of learning and life and remain open to new tools and approaches as they emerge.

Educational Philosophy and Approach

HCCS supports all adult learners to have agency and to chart the path that will help them achieve their academic vision. We have research-based beliefs about learning in general, learning for adults, and learning for English Language Learners that inform our approach to teaching and learning. Our educational philosophy is grounded in three interconnected beliefs that recognize the complexity and humanity of adult learning. These principles guide every aspect of our instructional design, student support systems, and organizational culture.

Learning Occurs in the Context of Safe and Trusting Relationships

Adult learners, particularly those who have experienced educational trauma or systemic barriers, require learning environments that prioritize psychological safety alongside academic rigor. Trust is not a luxury in adult education—it is a prerequisite for the kind of vulnerable, transformative learning that leads to lasting change.

Trauma-Informed Educational Practices

Many of our students carry the impacts of various forms of trauma, including displacement or systemic oppression. Our approach recognizes that trauma affects learning by impacting memory, concentration, and the ability to take academic risks. We create predictable, supportive environments where students can rebuild their relationship with learning in contexts that feel safe and affirming.

Relational Pedagogy

We understand that learning is fundamentally relational. Students are more likely to engage in challenging academic work when they feel seen, known, and valued by their instructors and peers. Our educators invest time in building authentic relationships with students, learning about their goals, interests, and concerns. This relational foundation allows for the kind of honest feedback and academic push that leads to growth.

Community Building and Peer Support

We intentionally cultivate learning communities where students support each other's growth and success. This includes structured opportunities for peer collaboration, study groups, and mentoring relationships.

Mental Health and Wraparound Services

We recognize that academic success is interconnected with students' overall well-being. Our support systems include connections to mental health resources, basic needs support, and advocacy services that address the systemic barriers our students face. We work in partnership

with community organizations to provide comprehensive support that allows students to focus on their learning.

Addressing the Social-Emotional Impacts of Educational Interruption
Students with interrupted formal education often experience complex emotions related to their academic journey, including shame about gaps in their knowledge, anxiety about academic performance, or frustration with the pace of progress. We create learning environments that normalize diverse educational pathways and celebrate the varied forms of knowledge students bring.

Instruction Must Meet Students Where They Are
Meeting students where they are is more than an instructional strategy—it is a fundamental stance that honors the diverse pathways that bring adult learners to our doors. Our students arrive with varying levels of formal education, different cultural approaches to learning, and unique combinations of strengths and areas for growth. This reality requires us to move beyond one-size-fits-all approaches toward responsive teaching that builds on what students already know and can do.

Supporting Students with Interrupted or Inconsistent Formal Education (SIFE)
A significant portion of our student population has experienced interruptions in their formal schooling due to migration, economic necessity, political instability, or family circumstances. These students bring rich life experiences and often sophisticated problem-solving skills, yet they may have gaps in traditional academic content or unfamiliarity with formal educational expectations. We reject deficit-based approaches that focus on what these students lack, instead building comprehensive support systems that honor their strengths while addressing their specific learning needs.

Our approach to supporting SIFE students includes intensive foundational skill development alongside grade-level content engagement, recognizing that these students need both remediation and acceleration. We provide explicit instruction in academic literacy skills—including how to navigate textbooks, online curricula resources, take notes, and engage in classroom discussions—while maintaining high expectations for critical thinking and complex problem-solving.

Asset-Based Assessment and Instructional Design
We begin by understanding each student's full educational profile, including formal schooling, work experience, community involvement, and self-directed learning. This comprehensive view allows us to design learning experiences that connect new knowledge to existing understanding while addressing genuine learning needs. Rather than focusing on deficits, we identify the multiple entry points through which students can engage with rigorous academic content.

Flexible Pathways and Differentiated Support
Meeting students where they are means creating multiple pathways through our curriculum that allow for different paces, learning styles, and life circumstances. Our new curriculum, which covers all disciplines, allows teachers to alter the reading level of the text to meet the student at

their level and provide translated background text and videos that build background knowledge to enhance ELLs access to the core grade-level curriculum and the grade 9-12 California State Standards. This includes offering content in various modalities, providing choice in how students demonstrate their learning, and designing support systems that accommodate working adults with family responsibilities and other commitments.

Diagnostic and Responsive Teaching
Our teachers continuously gather information about student understanding and adjust instruction accordingly. This goes beyond initial placement to include ongoing formative assessment that reveals how students are making sense of new concepts and where additional support or challenge is needed. We create learning environments where struggle is normalized as part of the learning process, and where students receive the specific feedback they need to move forward. See more about this in the professional development section.

Cultural and Linguistic Responsiveness
Meeting students where they are requires a deep understanding of the cultural frameworks and prior educational experiences that shape how students approach learning. We work to understand not just what students know, but how they know it—the cultural tools and ways of thinking they bring that can be leveraged for new learning.

Effective Adult Learning Requires Agency and Relevance
Adult learners bring intrinsic motivation and clear goals that can be powerful drivers of academic success when properly leveraged. Our role is to create learning experiences that honor students' autonomy while providing the structure and support they need to achieve their educational objectives.

Self-Directed Learning and Goal Setting
We work with students to identify their short-term and long-term goals and help them understand how their coursework connects to these aspirations. This begins in orientation, where they learn the pathways and requirements so that students can make informed decisions about their academic path. Students participate in setting their own learning objectives within the framework of academic standards, and they regularly reflect on their progress toward these goals. This self-direction increases engagement and helps students develop the metacognitive skills essential for lifelong learning.

Choice and Flexibility in Learning
Adult learners thrive when they have options in how they engage with content and demonstrate their learning. We provide multiple ways for students to explore topics of interest, pursue individual research projects, and showcase their growing knowledge and skills.

Real-World Connections and Application
Learning feels most relevant when students can see immediate applications to their lives and goals. The curriculum we use has many opportunities to connect academic content to contemporary issues, workplace skills, and community engagement opportunities. Students

might analyze historical patterns to understand current social issues or conduct scientific investigations related to health or environmental concerns in their communities.

Career and College Integration
We explicitly connect academic learning to students' career and college goals, helping them understand how the skills they're developing will serve them in future educational and professional contexts. This includes developing academic habits of mind, communication skills, and critical thinking abilities that transfer across contexts.

Student Voice and Feedback
Students have regular opportunities to provide feedback about their learning experiences and suggest improvements to courses and programs. Please see the student survey section below for more detailed information. We view students as partners in the educational process, recognizing that their insights about what supports their learning are essential for continuous improvement. This feedback loop helps students develop advocacy skills while ensuring our programs remain responsive to their needs.

Ownership of Learning Outcomes
We support students in developing the ability to assess their own learning and set goals for improvement. This includes teaching students to use rubrics, reflect on their growth over time, and identify specific strategies that support their success.
These three foundational beliefs work together to create learning environments where adult students can achieve their educational goals while developing the skills, knowledge, and confidence they need for continued success in their academic, professional, and civic lives.

Foundational Research and Theories Supporting Our Approach

Adult Education Learning Theories
HCCS applies research-based adult learning theories to design educational programs that recognize adult students have different needs than traditional K-12 students. The school incorporates adult learning theories, differentiated instruction, and student-centered approaches to meet diverse learner needs. Malcolm Knowles' foundational research (1980) identifies key differences between adult and child learners: adults are self-directed, bring rich life experiences, are problem-oriented, and are motivated by internal factors. Patricia Cross (1981) emphasizes that adult learners are typically voluntary participants who may feel insecure about learning but are motivated to solve real-world problems. Cross identifies multiple motivation sources, including personal achievement, social factors, and career advancement.

Sociocultural Theories
According to Sociocultural Theory (SCT), social interaction is the foundation of all learning (Walqui, 2008). Sociocultural perspectives in language acquisition emphasize real-world participation with authentic language and activities that occur in everyday life (Zuengler & Miller, 2006). Some of the primary assumptions of Sociocultural Theories are that learning occurs before development, that language is the primary tool for thought (Mitchell, Myles, & Marsden, 2013), that writing and speaking are connected (Lightbrown & Spada, 2012), that

mediation is essential to learning (Walqui, 2008), and that concept-based instruction aids learning (Mitchell, Myles, & Marsden, 2013).

The Zone of Proximal Development (ZPD) and Scaffolding are two very important concepts in Sociocultural Theory. The ZPD is the stage in which the learner can advance as a result of support (scaffolding) that's provided to them by an interlocutor (Lightbrown & Spada, 2012). Scaffolding is defined as, "a process of setting up" the situation to make the student's entry easy and successful and then gradually pulling back and handing the role to the student so that the student becomes independent enough to handle it (Walqui, 2008). For example, in traditional Sociocultural Theory meaningful interactions take place between an expert (teacher) and a novice (student), where the expert provides the learner with scaffolding during the learner's ZPD.

Differentiated Instruction

Each student arrives at a different level, with unique learning styles, interests, and abilities. Recognizing this diversity, differentiated instruction is utilized to ensure the needs of all students are met. Differentiated instruction (also known as differentiated learning) is a teaching framework in which the teacher works to simultaneously address the diverse learning needs of all students in one class (Maloy, Verock-O'Loughlin, Edwards, & Woolf, 2013). It is commonly used in multi-level classrooms to meet the needs of students with special educational needs, English language learners, and with students who are advanced or in talented and gifted programs. It allows students the opportunity to learn through various avenues, and each student has different expectations based on learning styles and abilities.

According to the U.S. Department of Education's Literacy Information and Communication System (2012), differentiated instruction engages students at a range of different levels with various learning styles and makes learning meaningful for students at every level. According to Carol Ann Tomlinson (2003), differences in student learning exist in four categories: readiness (prior knowledge), interest (curiosity), learning profile (formal or informal), and affect (self-regard). Before teachers can differentiate their lessons, teachers must understand their students' levels, abilities, learning styles, interests, strengths, and challenges (Corley, 2005).

Content-Based Instruction (CBI)

CBI is particularly critical for high school English Language Learners because it addresses the dual challenge of mastering academic content while developing the academic language skills essential for school success. By embedding language development within meaningful content learning, CBI creates authentic contexts for language use, builds subject-specific vocabulary, and prepares students for college-level coursework. Research shows this empowering approach encourages learners to become independent, continuing their language development beyond the classroom while simultaneously meeting rigorous academic standards required for high school graduation and post-secondary success.

For students developing foundational language skills such as reading and writing, context plays a critical role in supporting both language and literacy development. Content-Based Instruction (CBI) provides context-rich materials through the curriculum, offering meaningful opportunities for students to build language skills while engaging with relevant academic topics. One of the

most critical challenges we face is the persistent and widening vocabulary gap, which can significantly impact the academic progress of learners across all age groups. CBI addresses this challenge.

Supporting our English Learner Population

As a charter school exclusively serving students over the age of 21, the English assessment requirements of federal and state law applicable to students aged 3 through 21, as defined by Education Code section 306, do not apply to HCCS.[1] Almost all of the students at HCCS are classified in CALPADS as adult English Language Learners or ADELs. Therefore, HCCS students do not take the English Language Proficiency Assessments for California (ELPAC) or appear in the California Dashboard for purposes of the English Language Proficiency Indicator (ELPI). HCCS goes to great lengths to serve the needs of our English Language Learners.

Language learning for adults can differ from traditional models of education. It is deeply personal work that builds on the rich linguistic and cultural assets that students bring with them. Because compulsory education requirements do not apply to adult students, myriad factors constantly pull them away from their educational goals. Our approach to supporting English Language Learners recognizes that language acquisition happens most effectively when it is meaningful, relevant, and connected to students' lived experiences and goals.

At HCCS, we understand that our students are not empty vessels waiting to be filled with English. They are accomplished individuals who have navigated complex systems, often in multiple languages, and bring sophisticated problem-solving skills and cultural knowledge that enrich our entire learning community. Our role is to create learning environments where students can leverage these strengths while building academic and professional English proficiency.

Our approach to English language learning is grounded in several research-informed principles that guide our instructional design and student support:

Language and Content Learning Are Interconnected.

Research consistently shows that students learn language most effectively when it is embedded in meaningful, content-rich contexts (see CBI explanation above). Our integrated approach ensures that students are simultaneously building language skills and engaging with rigorous, standards-aligned academic material relevant to their goals.

Students' Home Languages Are Resources, Not Barriers.

Multilingualism is an asset that enhances cognitive flexibility and cross-cultural communication skills. We create space for students to use their full linguistic repertoire as they build English proficiency, recognizing that translanguaging—the fluid use of multiple languages—is a natural and effective learning strategy. We also believe that our students bring life experience, motivation, and clear goals that can accelerate their learning when properly supported.

[1] Education Code section 306, section (a), defines “English learner” for ELPAC and ELPI requirements by incorporating the definition of 20 U.S.C. 7801 (20)(A), i.e. “the term ‘English learner’, when used with respect to an individual, means an individual who is aged 3 through 21.”

Authentic Assessment Drives Responsive Instruction.
We move beyond standardized measures to develop assessment practices that capture the full range of our students' growing capabilities. This includes portfolio-based assessments, project-based demonstrations of learning, and self-assessment tools that help students track their own progress toward their goals.

Language Assessment Upon Enrollment

As a WIOA partner, HCCS assesses all students during the admissions process and monitors their progress through CASAS testing. The first assessment, administered during registration, is the placement exam, which evaluates students' reading, writing, listening, speaking, and grammar skills. This exam is scored with an internally developed rubric.

During orientation, students also complete CASAS reading and listening assessments. CASAS provides standardized progress testing designed to measure learning along a continuum, from beginning literacy and English language acquisition through the completion of secondary-level skills. Several test series monitor student progress, with difficulty levels ranging from below Level A through Level E. Administering CASAS at enrollment establishes a baseline, followed by post-testing after 70–100 hours of instruction to track student progress over time.

If a teacher determines that a placement is inaccurate, a reassessment may be requested. If the reassessment results in a different level placement, the placement team updates the student's record in PowerSchool and informs the teacher of the revised placement.

The placement rubric is updated annually based on teacher and student feedback. Updates are shared with the curriculum team to confirm alignment with HCCS level objectives. Any additional feedback is integrated before the rubric is finalized for use in the upcoming school year.

Reclassification
As an exclusively adult-serving charter school, HCCS serves English Language learners who must be designated in CALPADS as Adult English Language Learners (ADEL). ADEL students do not participate in ELPAC testing and do not appear as English Language learners on the California Dashboard for purposes of the English Language Proficiency Indicator (ELPI). We track and report ESL advancement as determined by CASAS testing.

Enrollment and Class Size to Support Learning Goals
Enrollment at Highlands Community Charter School has increased each year since its opening. In the 2021–2022 school year, enrollment was 3,751; in 2022–2023, enrollment rose to 6,749; and in 2023–2024, enrollment grew again to 9,069 students, according to the DataQuest census day snapshot. By the end of the 2023–2024 school year, HCCS experienced a significant increase in enrollment and heavily impacted classes. Teachers reported that students were often unprepared with essential skills, and frequent roster changes disrupted instruction. In response, the enrollment process was revised for the 2024–2025 school year to better prepare students and support more strategic class planning. In the 2024-2025 school year new students were enrolled

on a biweekly basis rather than continuously throughout the term. Orientation was also updated to include study skills, academic planning, and CASAS assessments.

Five-Year Enrollment Rollout Plan
HCCS has dramatically reduced its enrollment due to updated credential requirements for teachers. As a result, HCCS has recently laid off 631 employees (teachers who only possess an adult education credential as well as staff that would support these teachers and the students that they serve).

Although we currently have over 2,700 students on a waitlist waiting to enroll, the school needs to rebuild its capacity to serve them. For the 2025-2026 school year, HCCS currently has approximately 1,000 students enrolled and plans to increase growth at a reasonable pace over the following four fiscal years as it hires and/or trains additional K-12 credentialed teachers. The five-year enrollment rollout plan is as follows:

Year	Number of Students
2025-2026	1,000
2026-2027	1,100
2027-2028	1,210
2028-2029	1,331
2029-2030	1,464

In the 2024-2025 school year, HCCTS adopted a Class Sizes and Enrollment Board Policy (6151BP) which stated that, “While California does not mandate class size limits for grades 9-12, HCCTS recognizes the importance of maintaining class sizes that promote a productive learning environment, reduce teacher workload, and enhance student engagement. Optimal class sizes are essential to support personalized instruction, improve student outcomes, and foster academic success. The Board of Directors, in consultation with the Executive Director, will establish appropriate class size limits that align with HCCTS’ instructional goals and student needs.” For the school year 2025-2026, class sizes are set at 30-1.

Class Size Guidelines

- Student-to-Teacher Ratios: Class sizes will be managed to ensure student-to-teacher ratios that support personalized instruction and academic success.

- Program-Specific Adjustments: Class sizes may vary depending on the nature of the program (e.g., independent study, bridge programs, or high school completion).

Enrollment Management

● Enrollment Caps: Each classroom will have an enrollment cap aligned with physical capacity and instructional goals.
● Monitoring and Rebalancing: HCCS Principals will regularly monitor enrollment and class sizes, making adjustments as needed to maintain educational quality and compliance with capacity guidelines.

● Cross-Reference with Physical Capacity: Class sizes and enrollment numbers will be managed in coordination with physical capacity limits as outlined in BP 7110 Physical Classroom Capacity to ensure compliance with Fire Marshal regulations and building codes.

Impact on Instruction and Student Outcomes

● Teacher Workload: Class size limits will be established to reduce teacher workload and promote effective instruction.

● Student Engagement: Class sizes will be prioritized in courses requiring intensive instruction or student participation.

Admission Process
HCCS has introduced a comprehensive admission process to better prepare and place incoming students. This process includes registration, grade level placement, an overview of student expectations and services, and covers any technology-related needs. This enhanced enrollment process ensures students are fully supported from registration to their first day, setting them up for success at HCCS.

2025-2026 ACADEMIC SCHOOL CALENDAR

July 1 - Aug 1	Summer Break	Jan 19	Martin Luther King Jr. Day	May 25	Memorial Day
Aug 4 - Aug 13	Staff Development Days	Feb 12	Lincoln Day	Jun 19	Juneteenth
Sept 1	Labor Day	Feb 16	Presidents' Day	Jun 29 - Jun 30	Staff Development Days
Nov 12	Veterans Day Observed	Mar 27	César Chávez Day Observed		
Nov 24 - Nov 28	Thanksgiving Break	Mar 30 - Apr 3	Spring Break		
Dec 22 - Jan 2	Winter Break	Apr 6 - 7	Staff Development Days		

Goals of HCCS Program and Student Learning Outcomes

HCCS has three Schoolwide Learner Outcomes (SLO):

- Academic Growth: Students demonstrate measurable achievement each term through standards-aligned assessments and performance tasks.
- Career Progress: Students make documented progress toward individualized education, workforce skill development, and career goals.
- Digital Communication: Students use technology effectively and responsibly for personal, academic, and workplace communication.

Many of our learners enter HCCS with significant gaps in English language proficiency, academic skills, communication, and technology use. These SLOs are designed to close those gaps and set students on a path to long-term college, career, and community success. To make this real in classrooms, and to build a bridge to content standards, we embed Integrated English Language Development supports within the facilitation of learning across all content areas. We monitor progress through course and credit completion, common formative assessments, and CASAS progress monitoring data.

By offering adult education to learners 22+ who have not yet earned a U.S. high school diploma, we work to reduce educational inequity. Our programs are centered around K-12 state standards shaped by the needs of our students and community, and grounded in a commitment to equity and social justice. We emphasize technology fluency, workforce readiness, and supportive services that remove barriers to learning so students can persist and complete. At HCCS, we believe in our students, we believe in our community partners, and we believe that it's never too late.

The Instructional Leadership Team: Stewards of HCCS's Academic Goals
The goals of the HCCS program are created and supported by the Instructional Leadership Team (ILT), a cross-functional leadership team. The ILT is comprised of the CAO, the principals, teacher leaders, Director of Professional Learning, Director of CASAS testing, and Director of Curriculum. The ILT meets every other week to ensure that HCCS is meeting its academic goals by analyzing student learning data and designing professional learning support that responds to these data as well as to teacher-reported needs. The ILT works to create coherence across our goals and accountability requirements to support teachers in understanding how these efforts overlap and form our core goals.

Common Core Standards
HCCS is committed to providing a rigorous, standards-based education that meets the unique needs of adult English language learners while ensuring students progress toward California State Standards across all subject areas. Our curriculum design and instructional practices are systematically aligned with the California Common Core State Standards for English Language Arts and Mathematics, the Next Generation Science Standards, and the California History-Social Science Standards. We integrate English Language Development (ELD) standards with content

area instruction, utilizing sheltered instruction strategies and culturally responsive teaching practices that honor students' diverse linguistic and cultural backgrounds. Teachers employ scaffolded approaches to make grade-level content accessible, incorporating visual supports, collaborative learning structures, and native language resources when appropriate to support comprehension and academic language development. Through regular assessment of both English proficiency growth and content mastery, we continuously monitor student progress, adjusting instruction to meet learners where they are while maintaining high expectations for academic achievement.

Core Subjects
HCCS offers students access to an A-G curriculum in English Language Arts, Mathematics, Science, History/Social Studies and electives.

English Language Arts
The English Language Arts courses guide students through a progressive sequence from foundational grammar and language skills to advanced writing, research, and literary analysis. Rooted in Common Core standards, the curriculum emphasizes critical thinking, effective communication, and collaboration. Students engage with diverse fiction and nonfiction texts from various cultures centered on Social-Emotional Learning themes, developing skills in reading comprehension, argumentation, and narrative writing. The program culminates in advanced coursework focused on research proficiency, source evaluation, and multimedia presentations, preparing learners for academic success and professional communication.

Mathematics
The Mathematics courses build foundational skills through a sequence aligned with California Common Core standards, beginning with Pre-Algebra and progressing to Algebra 1 and Geometry. Students develop proficiency with key concepts such as fractions, decimals, ratios, proportions, equations, and basic geometry. Emphasis is placed on applying mathematical reasoning to real-life contexts like financial calculations and problem-solving. The curriculum fosters critical thinking and the ability to represent mathematical situations numerically, graphically, verbally, and symbolically, preparing students for success in advanced math courses and everyday life.

History-Social Science
The History-Social Science courses provide students with a comprehensive understanding of civics, U.S. history, world history, government, economics, and ethnic studies. Instruction integrates literacy and critical thinking, connecting academic content with learners' personal and community experiences. Students explore foundational principles of democracy, historical events, cultural diversity, and economic systems, emphasizing analytical skills through document analysis and inquiry-based learning. The curriculum prepares students to engage as informed citizens, fostering cultural awareness, social justice, and active participation in society.

Science
The Science courses offer foundational courses in Earth Science and Life Science, fulfilling graduation requirements while building scientific literacy and critical thinking. Earth Science

introduces students to the dynamics of Earth and space systems, climate, natural phenomena, and human environmental impact. Life Science covers biological concepts such as chemistry, biodiversity, population dynamics, genetics, and environmental interactions. The curriculum emphasizes conceptual understanding and real-world application of scientific principles.

Visual and Performing Arts
The Visual and Performing Arts courses introduce students to fundamental concepts in stage performance, music theory, and vocal technique. Courses cover stage presence, character development, and the structure of the music industry, alongside foundational music theory, history, and vocal training. Students develop confidence and skills for performance and gain an understanding of music's cultural significance, preparing those interested in careers in music, theater, or entertainment.

Electives
The Electives program offers diverse opportunities for students to develop critical reading, communication, and public speaking skills. Courses like *Reading for Pleasure* foster a love of reading through engagement with socially relevant themes, enhancing comprehension and analytical abilities. Public Speaking electives build students' rhetorical knowledge, speech planning, and presentation skills while promoting ethical communication and confidence. These courses enrich students' academic experience and prepare them for effective expression in various personal and professional contexts.

English for Work and Life Series
The English for Work and Life Series of courses supports students at all stages of English acquisition, from emerging literacy to intermediate fluency. Courses focus on building foundational language skills through systematic instruction in phonics, vocabulary, grammar, and real-world communication. Students progress from recognizing letters and sounds to composing organized paragraphs and participating in workplace and academic conversations. Through engaging, high-interest content and digital literacy tasks, learners gain the language and confidence needed to succeed in academic, personal, and professional settings.

Curriculum

HCCTS recently engaged in a curriculum adoption process to procure Savvas, a standards-aligned curriculum for HCCS courses. We followed an articulated adoption process and received guidance from our UMass Global credentialing partner who had extensive experience with curricular materials that best serve ELLs. Our process involved reviewing materials utilized by other surrounding school districts as well as following recommendations by EdReports in order to understand the best options for our context. We engaged in vendor demos, received teacher feedback around our top choices, and delivered our final proposal to the board of directors for approval.

The HCCTS board approved the adoption of the Savvas curriculum in August 2025. There were many elements that led to this choice including a single user-friendly platform for both teachers and students, and a high rating on EdReports. The curriculum is also used by Twin Rivers

Unified School District, Elk Grove Unified School District, and Los Angeles Unified School District. In order to support teachers to gain familiarity and comfort with the new curriculum, the start of classes was extended until August 14th and teachers met in professional learning communities (PLCs) to build their knowledge of the standards-aligned curriculum. Our contract with Savvas includes access to both an online digital curriculum and to teacher edition textbooks and student workbooks.

Supports for English Learners Level 0-1

ABCEnglish
A curriculum provided by an external agency, ABCEnglish offers literacy-level lessons ideal for students who are new to learning English. Lessons are presented through accessible slides and worksheets designed for classroom delivery.

Burlington English
An online English language learning platform offering both teacher-led lessons with presentations and printable materials, as well as self-paced student lessons accessible by phone or computer. The program integrates reading, writing, listening, and speaking skills, and includes thematic content, short stories, citizenship, and Workplace English and CASAS practice modules.

EL Civics Curriculum
In-house developed theme packets intended to support English Language Learners with English language acquisition, civic participation, and workforce skills. Aligned to ESL objectives from CASAS and NRS ESL levels.

Understanding Learning: Using Student Assessments to Support HCCS Goals

We employ multiple forms of assessment to monitor student progress and inform instruction:

- **Formative Assessments:** These include ongoing evaluation through teacher observation, projects, presentations, and performance tasks.
- **Summative Assessments:** End-of-unit and semester evaluations measuring mastery of learning objectives. These assessments are part of the core curriculum.
- **Portfolio Assessments:** Student-led self-assessment using assignments of choice to demonstrate learning in students' focal areas. The ILT is currently mapping the implementation of the portfolio project.
- **Student Surveys**: Self-perception data helps us to understand the student experience.
- **CASAS testing:** Comprehensive Adult Student Assessment System, a competency based adult assessment program validated by the U.S. Department of Education for use in adult education conducted after 70-100 hours of instruction time. The assessment is administered every 6-8 weeks.
- **CAST:** California Science Test, a state assessment mandated for those in high school.
- **CAASPP**: California Assessment of Student Performance and Progress, a state assessment mandated for those in high school grade 11.
- **EL Civics Assessments**

Administered 3 times per program year

- **ELD Level Placement Test**
  Upon enrollment
- **ELD Level Exit Test**
  Administered to determine readiness to advance to the next ELD level

Professional Development Supporting HCCS Goals

High-quality professional learning is about creating a learning system. It is more than training staff in best practices; it is about creating a culture of curiosity that acknowledges the uncertainty inherent in teaching and learning. Central to our revised professional learning program is creating a practice of inquiry at the leadership level that focuses its interest on the practitioners working most closely with the students. What are teachers learning about their students' learning? Where are teachers' gaps in knowledge and capacity? These are the questions that inform the design and goals of the professional learning offerings.

HCCS leadership works in partnership with HCCS principals and teacher leaders through the ILT to take a partnership approach to designing professional learning. There are several core beliefs about practitioner-based learning that informs the HCCS approach to professional learning:

- Teaching is complex and uncertain work that requires an inquiry stance to ensure that students' needs are being met.
- Agency and relevancy are guiding drivers for adult learners; being able to articulate their own goals and see where they are on the path to achieving those goals is essential for adult learners.
- For instruction to be changed and improved, the learning experience of students must be public (not hidden away).
- Educators (teachers and leaders) are professionals engaged in important work, and they deserve a level of professional support and care that takes their work seriously.
- Pursuing collective goals is essential to supporting systems transformation

Professional Development Focusing on Language Acquisition
Central to HCCS professional development is continuously developing strong instructional strategies to meet the needs of our ELLs. Supporting English Language Learners effectively requires ongoing professional learning and reflection. All HCCS educators engage in continuous inquiry about how to better serve our multilingual learners.

Language-Responsive Teaching Practices
Our professional learning focuses on developing instructional strategies that make content accessible while maintaining high expectations. This includes training in visual supports, collaborative learning structures, and formative assessment techniques that help teachers understand what students know and can do.

Cultural Responsiveness and Asset-Based Thinking
We work to examine our own assumptions about language learning and ensure that our instructional practices build on students' cultural and linguistic strengths. This includes learning

about our students' educational backgrounds and understanding how different cultural approaches to learning can inform our teaching.

Data-Informed Decision Making
As part of our inquiry-based PLCs, we develop systems for collecting and analyzing data about student language development that go beyond test scores. This includes documentation of student growth in academic discussions, writing development over time, and students' own reflections on their learning progress through portfolios.

Our commitment to English Language Learners extends beyond language acquisition to encompass the full development of students as confident, capable learners who can succeed in their chosen academic and professional pathways. Ultimately, we measure our success not just by English proficiency gains, but by our students' ability to use their multilingual skills to contribute meaningfully to their communities and achieve their educational goals.

HCCS Professional Learning Structures
There are multiple existing structures that support professional development at HCC for teachers and leaders.

Friday Professional Development Sessions
Our bi-weekly Friday afternoon professional learning sessions are designed as both collaborative inquiry spaces where educators engage in job-embedded learning directly connected to their daily practice, and also an opportunity to receive specialized instructional support that they or the Instructional Leadership Team has requested. These sessions follow a flexible structure that can shift between collective inquiry—examining student work and learning data to collaboratively problem-solve around specific instructional challenges—and targeted professional development that addresses identified needs such as trauma-informed pedagogy, advanced strategies for supporting students with interrupted formal education, or innovative approaches to integrated content-language instruction.

Teachers work in cross-disciplinary teams when engaging in inquiry cycles, analyzing how their students are navigating rigorous academic content and sharing effective practices for maintaining high expectations while providing comprehensive support. When focused on specialized instruction, sessions might feature expert facilitators, peer observations with feedback, or deep dives into research-based strategies that teachers have specifically requested to strengthen their practice. This dual approach ensures that professional learning is both responsive to emerging classroom needs and proactive in building the specialized expertise our diverse adult learner population requires, while maintaining our commitment to practitioner-centered learning that directly impacts student success.

Bi-Monthly Principal PLC
Leading is complex and uncertain work, and HCCS supports its two principals in PLC sessions led by the Chief Academic Officer. This principal learning community operates as a space for collaborative problem-solving where school leaders can examine challenges, share effective practices, and develop coordinated approaches to supporting their unique adult learner populations. Sessions focus on analyzing school-level data to understand how students are

progressing toward their educational goals, discussing instructional leadership strategies that support teachers in serving English Language Learners and students with interrupted formal education, and developing systems-level responses to emerging needs within their school communities. The Chief Academic Officer facilitates these meetings using the same inquiry-based approach that guides teacher professional learning, encouraging principals to bring real dilemmas from their practice, examine multiple perspectives, and test solutions collaboratively. This structure ensures that leadership decisions are grounded in evidence and aligned across both school sites, while providing principals with the professional support and intellectual partnership they need to lead effectively in the complex landscape of adult education. The PLC also serves as a space for principals to reflect on their own growth as instructional leaders and to coordinate their efforts in supporting teacher development and student success.

Twice Per Week Teacher PLCs

Teachers engage in professional learning community work twice weekly, with sessions strategically designed to strengthen both instructional planning and data-informed decision making. One session each week is dedicated to collaborative planning time where teachers work in grade-level or content-area teams to design learning experiences that integrate rigorous academic content with the specific supports their English Language Learners and students with interrupted formal education need to succeed. These co-planning sessions allow educators to share strategies, align expectations across courses, and ensure that assessment practices accurately capture student growth while maintaining high standards. The second weekly session follows protocols and practices that focus on collaborative examination of student work and performance data to understand learning patterns, identify instructional adjustments, and develop targeted interventions. During these data inquiry sessions, teachers bring actual student artifacts—writing samples, project work, assessment results—and engage in structured conversations that move beyond simply identifying which students are struggling to understand why certain approaches are or aren't working and what specific instructional moves might better support student learning. This dual structure ensures that teachers have dedicated time for both proactive planning and reflective analysis, creating a continuous cycle of improvement that keeps student learning at the center of all professional practice.

Teacher Coaching

Teaching standards-aligned high school curriculum to newcomer adults with varying degrees of education in their home language and a wide range of English skills is challenging teaching. To support excellent instruction, HCCS is in the process of investing in on the ground coaching for our teachers. This will include the opportunity to observe instructional models, to co-plan with professionals with expertise in supporting students with interrupted formal education, and to engage in guided reflection on the impact of instruction. At the time of the writing of the material revision, we plan to begin Phase 1 of the teacher coaching program by October 15th. Principals, the Director of Professional Learning, the Curriculum Coordinator, and teacher leaders will participate in a rigorous train-the-trainer model to enable sustained on the ground support of teachers ongoing development.

The Role of Data and Assessments in Informing Instructional and Systems Improvement

Assessment is a core to instructional improvement at HCCS. Not only does assessment tell us

where our students are in their learning, but patterns in the data reveal where we need to focus our professional learning efforts. HCCS is committed to creating a system that is responsive to what we are learning about our students and their needs. Leadership is curious about what is happening between the teacher and the student and rests its instructional improvement design on the data that comes from the classroom.

Formal Assessment and Improvement

The instructional leadership team (ILT) will review CASAS data to understand students' academic progress and to track areas where we need to improve our instructional approach. In addition, the ILT will use CAASPP and CAST data to understand the general themes in improvement and then support teachers to use more granular classroom data to understand barriers to student progress.

Informal Assessments and Improvement

Working in their PLCs, teachers will use classroom-based data– both qualitative and quantitative to determine the areas of their practice where they would like more support. This is one source of the design for the content input on PL Fridays. The ILT uses classroom observation data to help determine the focus of improvement efforts.

Student Climate Surveys and Systems Improvement

Centering the students' experience as core to our approach to improving the learning experience The HCCS instructional improvement process involves looking at both student mastery data and student perception data. One important source of student perception data is the student climate surveys. While we do not rely on this self-report data to give us the whole picture of the student learning experience, we do value this source of data to understand HCCS's social and emotional conditions for learning.

Every year, HCCS conducts anonymous student climate surveys. These surveys are sent out to students in the following languages:

- English
- Arabic
- Spanish
- Persian
- Armenian
- Pashto
- Russian
- Turkish
- Ukrainian
- Vietnamese
- Chinese

Students have access to completing these surveys via QR codes, push notifications sent to their cell phones, with the support of their teachers in their classrooms, and via the Brain app.

Teachers encourage and support student participation by engaging students in lessons that have practice surveys. Paraeducators are also utilized to provide language support during this process. The purpose of these surveys is to understand the following:

- Relationships
- Classroom Climate
- Classroom Support and Access to Resources
- Goal Setting & Student Progress
- Safety, Maintenance, and Facilities
- Workforce and CTE Programs
- Lessons, Instruction, and Curriculum

HCCS students are asked to read each statement and indicate their level of agreement with the statement from the following options:

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly Disagree

The table below shows the percentage of HCCS students who agree or strongly agree with each statement for the year indicated for the last three years.

Survey Statement	2022 - 2023	2023 - 2024	2024 - 2025
Lessons help me in my daily life.	96%	88%	95%
Lessons are interesting.	95%	90%	95%
I know what I need to do to make progress in my classes.	96%	90%	94%
The lessons (in person or online) help me learn (My teacher offers me an opportunity to learn everyday).	95%	89%	95%
I have the learning materials (pencils, notebooks, binders, books) I need to learn.	95%	89%	94%
I have the technology I need to learn.	95%	91%	96%
The school, classrooms, and buildings are clean and in good condition.	96%	94%	93%
The school tells me important information regularly (holidays, school announcements, events).	94%	95%	97%
All students from different backgrounds and countries are treated kindly.	92%	96%	97%
All students from different cultural backgrounds, races, or ethnicities respect each other at school.	92%	97%	96%

My teacher really cares about me and respects me.	93%	98%	98%
My counselor really cares about me and respects me.	91%	92%	87%
The school helps me turn my college and career goals into a plan.	90%	84%	88%
I know how to get help if I feel sad, stressed, lonely, or depressed.	85%	78%	85%
I want to learn more about mental health and how to deal with stress.	76%	57%	67%
I feel connected to the school, my classmates, and teacher.	85%	83%	90%
I feel safe at school (I trust our leaders to make our school safe).	87%	95%	94%
I know how to log in and check my student email.	72%	90%	93%
I know how to log in to my online learning tools	77%	84%	91%
Highlands helps me learn to use technology by giving mobile devices and digital literacy training.	64%	79%	94%
I use my school phone, Chromebook, or hotspot 5 or more days a week.	*ND	*ND	77%

**ND denotes that there was no data available for that school year*

Student Academic Supports

Because many of our students have little prior education in their native language and, for many of them, they come in with low levels of English, HCCS provides extra support to ensure students' academic success. Classroom teachers are available to meet with students before and after school during their office hours to support students who are struggling academically.

Paraeducators

English proficiency and learning needs vary widely for our incoming students. HCCS paraeducators provide crucial language scaffolding by providing individualized instructional support in students' native languages and creating more opportunities for meaningful English language practice, ensuring that our Level 0 students can fully benefit from our educational programs.

Additionally, paraeducators who share students' cultural backgrounds can create a more comfortable environment that reduces the anxiety often experienced by new students and immigrant populations. While teachers focus primarily on academic instruction, paraeducators provide crucial social-emotional support to help students navigate their educational environment successfully. Paraeducators also help students build digital literacy, fluency with the HCCS systems, and provide academic support.

HCCS hired 32 new paraeducators in 2024–2025 to expand instructional support across its sites. All but two of those paraeducators were released in June 2025 as part of the school’s

restructuring process, which prioritized staffing of credentialed instructors. HCCS plans to rehire three additional paraeducators this school year as it builds its program capacity and will further increase paraeducator staffing as part of its sustainable five-year growth plan.

Literacy Support
During the 2025-2026 school year, HCCS will hire staff to provide literacy support for English language learners. This will focus on building literacy through phonemic awareness, phonics, vocabulary building, pronunciation, and writing skills.

Tutoring Program
HCCS will implement an in-person tutoring program to replace previous online tutoring opportunities. Based on feedback from students and staff, online tutoring no longer effectively serves the needs of our student population. Key challenges, detailed below, include a lack of digital literacy skills, low student engagement, and limited availability of support. The design of our in-person tutoring program will focus on effectively addressing these findings.

<u>Challenges for Students Accessing Online Tutoring</u>

- Cultural barriers – example: Afghan women
    - Our student population with the highest level of need for one-on-one tutoring
    - Working one-on-one with male tutors would violate cultural and religious norms
    - Afghan women typically have limited experience or skill with technology
    - Afghan women may have limited literacy skills and English language skills
    - Require in-person, one-on-one support by Dari or Pashto-speaking women tutors
- Technology barriers
    - Online login processes may limit access for students with low technical proficiency
    - Our student population may not have access to high-speed internet at home
    - Our student population may not have a device with internet access for use at home
    - Most online tutoring is chat-based, requiring literacy and typing skills
- Linguistic barriers
    - Top 5 languages:
        - Dari
        - Pashto
        - Ukrainian
        - Russian
        - Spanish
    - Online tutoring by English-speaking tutors cannot support students with limited English proficiency

<u>In-Person Tutoring Program Design</u>
HCCS is in the process of contracting with a tutoring business to offer students in-person tutoring that will:

- Account for cultural and technological barriers when assessing student needs
- Staff tutors who can serve specific cultural and linguistic populations of greatest need
- Implement and refine best practices for providing one-on-one academic support

- Develop robust translated learning materials for students in multiple formats

Student Success Team (SST)
At HCCS, the Student Success Team (SST) process is a collaborative, data-driven approach to identify and implement support strategies for students experiencing academic, behavioral, or attendance-related challenges. The goal is to equip educators with additional tools and resources to meet students' needs in the general education setting and, when necessary, connect students with services such as tutoring, counseling, or basic needs assistance. While SST may result in a referral to a 504 committee, its primary function is not to initiate such referrals.

SST Membership and Roles
SSTs are convened by the Director of Student Services or designee and include the student's counselor (as the facilitator), current teacher(s), the student, and guardians when applicable. Additional specialists such as social workers, speech therapists, healthcare providers, paraeducators, and language navigators may be invited based on student needs.

Referral Process
Students may be referred to the SST for persistent academic or behavioral concerns. Before referral, teachers must document the use of differentiated instructional strategies and collaboration with other staff. Referrals are submitted using a standardized form and must include relevant data such as attendance records, academic assessments, behavior logs, and prior interventions.

SST Meeting Process
Scheduling: SST meetings are scheduled promptly based on the urgency of the concern and include all relevant team members.

Data Collection
The team reviews comprehensive student data to inform the discussion.

Intervention Planning
A tailored plan is developed with specific goals, strategies, responsible staff, and a timeline for implementation.

Follow-Up
A follow-up meeting is held six weeks after the initial meeting to assess student progress and adjust the intervention plan as needed.

Documentation
All decisions, meeting minutes, and progress reports are documented and stored in the student's confidential file in accordance with FERPA and HCCTS policy.

SST Outcomes
The SST may recommend continued interventions within the general education setting, changes in instructional methods or placement, referrals to support services or external agencies, or, if

appropriate, a referral to the 504 Committee. All recommendations are monitored and evaluated for effectiveness.

Confidentiality and Compliance
SST processes comply with all applicable privacy laws, including FERPA. All records and discussions remain confidential and are shared only with authorized personnel.

Socioeconomically Disadvantaged Students
At Highlands Community Charter School, students from low socioeconomic backgrounds thrive and learn in a nurturing, caring, and collaborative environment. HCCS identifies socioeconomically disadvantaged and low-income students consistent with state and federal definitions upon registration through our Household Income Data Collection form and PowerSchool SIS system. This subgroup makes up a large majority of our student population.

To best serve our socioeconomically disadvantaged and low-income students, HCCS provides professional development that is focused on intentional instruction, reflecting a diagnostic approach that is driven by identified instructional needs. HCCS teachers understand the importance of positive teacher-student relationships and how to incorporate continual monitoring and assessment to guide instruction. Students participate in academic enrichment activities that align with their level-pacing academic plans and learn cognitive strategies such as the structure of language, how to establish goal-setting and procedural self-talk, how to sort relevant from irrelevant cues, and how to use mental models. Additionally, to meet the economic needs of these students, HCCS holds workshops with partners on issues related to economic need and building financial independence.

Instructional Days and Minutes Calculations
HCCS maintains multiple bell schedules that consistently exceed the minimum instructional time required under Education Code Section 47612.5(a), which mandates 64,800 minutes annually. Both AM and PM bell schedules detail 5 consist of 5 instructional days, Monday through Friday with 5 periods each except on 17 modified Friday schedules designed to incorporate time for teacher professional development. The Academic Calendar(found on page 25) includes 197 instructional days, 180 regular and 17 modified Fridays, totaling 65,087 minutes for both AM and PM schedules.

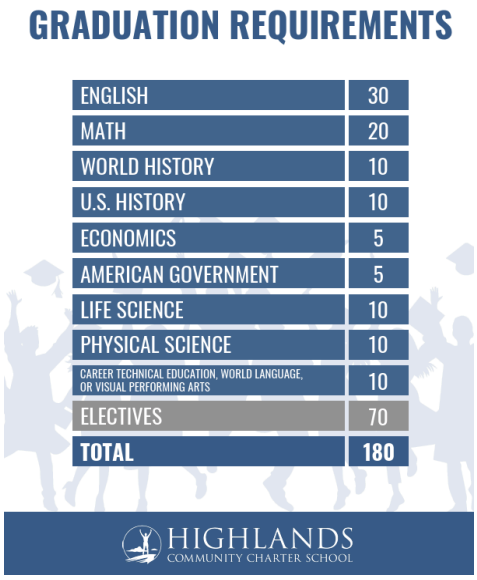
Graduation Requirements
HCCS' high school students are eligible to graduate when they have been awarded 180 high school credits: 110 Academic including a mandatory 10 credits academic credits from Workforce Readiness courses, and 70 in elective or Career Technical Education (CTE) credits. As part of the 180 credits, transfer credits and employment credits count toward this total. As soon as the high school students complete 180 credits and those credits are verified, students are eligible to apply for their diplomas. After students receive their diplomas, they are asked to participate in a graduation ceremony.

Counselors help ensure students meet graduation requirements by developing graduation plans and conducting regular check-ins. During check-ins, counselors update students on their academic progress, including credit attainment and requirements left to graduate. Each student is provided with an academic progress report. In the 2024–2025 school year, we have adopted A–G approved courses to expand college readiness opportunities for our students. As part of this effort, counselors engage students in conversations about their aspirations for higher education as they approach the high school program.

Subject to appropriations by the State, the Charter School will comply with requirements under AB 101 to offer a one-semester course in ethnic studies and will mandate that students complete this course as a graduation requirement commencing with students graduating in the 2029-30 school year.

The Charter School will comply with requirements under AB 2927 to offer a one-semester course in personal finance by the 2027-28 school year and will mandate that students complete this course as a graduation requirement commencing with students graduating in the 2030-31 school year.



Attendance Policy
HCCS recognizes that attendance is a critical indicator of student progress and overall academic success. Despite the inherent challenges in ensuring consistent engagement among adult learners across all instructional periods, the school remains committed to full-day attendance expectations for all students.

In the 2024–2025 school year, HCCS has implemented a series of initiatives aimed at improving student attendance, enhancing the accuracy of attendance reporting, and strengthening accountability measures for both educators and administrators. These efforts include the adoption of a revised Attendance Enforcement Policy (BP 5113.1) by the HCCS Board of Directors on March 20, 2025. Key changes in the updated policy include:

- 80% Daily Attendance Rule: Students must be present for at least 80% of scheduled instructional hours weekly.
- 15-Minute Rule: Students who check in but leave within the first 15 minutes of class without prior approval will be marked absent. Repeated violations may result in intervention and disenrollment.
- Meaningful Engagement: Attendance is verified by meaningful engagement. Students who check in but fail to participate meaningfully will be marked absent.
- Forgery of Attendance Records: Any student found falsifying attendance records, including signing in for another student, will face disciplinary action, including possible suspension, expulsion, or disenrollment.

HCCTS employs tiered intervention strategies to support students struggling with attendance before taking disciplinary action:

- Notifications: Calls, text messages, and emails will provide immediate alerts to students who have not met attendance requirements.
- Outreach & Support: Students flagged for low attendance will be contacted by school staff to assess barriers and develop a support plan.
- Attendance Contracts: Students with ongoing attendance issues may be placed on a probationary attendance contract outlining expectations and consequences.
- Disenrollment Procedures: Students failing to meet attendance requirements after documented interventions may be disenrolled following due process, as outlined in BP 5111.5 (Disenrollment).

Additionally, HCCS has drafted and adopted the following policies to help enforce attendance.

  - 5111.5 Disenrollment and Involuntary Removal (Revised and Approved 03/20/2025) - Outlines the involuntary disenrollment for students who accumulate ten consecutive unexcused absences despite HCCS staff's efforts to re-engage them.
  - 5120 BP Satisfactory Academic Progress (Approved 03/20/25) - Outlines students must maintain active attendance
  - 5131 BP Student Conduct (Revised and Approved 03/20/2025) - Outlines the ramifications of students who forge attendance records
  - 6164.5 BP Student Success Teams (Revised and Approved 04/25/2025) - Outlines interventions to support students reportedly struggling with attendance

In addition to the board policies, HCCS has updated the bell schedule for the 2025-2026 school year, which now contains 5 periods rather than 3 periods for the AM schedule. It meets the minimum number of instructional minutes, and it has only one PM schedule for all sites, rather than three (as in the 2024-2025 school year).

Record Retention & Compliance

- BP 5120 (Satisfactory Academic Progress) now mandates that manual attendance records, including sign-in sheets, be retained for three years in both physical and digital formats to ensure compliance with California Code of Regulations, Title 5 and facilitate accurate auditing.
- The Director of Attendance is responsible for overseeing record retention and compliance audits to maintain regulatory standards.
- Random attendance audits will be conducted regularly to identify and prevent discrepancies.

We believe in holding our students accountable and supporting them when they need it. Our paraeducators, teachers, and counselors maintain communication with our students when students are absent. We want to ensure that if our students are having personal hardships, we are supporting them and providing them with every service we have available, either at HCCS, at one of our partner organizations, or at an external location.

Attendance Calendars
In the 2024-2025 school year HCCTS contracted with Charter Impact to assist with setting up 20-day Attendance Calendars in PowerSchool to ensure correct divisors in calculating ADA for P-2.

Effective October 2024 HCCTS began using a 20-day calendar as required by Ed Code. This has been corrected for the 24-25 school year and will be accurate for all school years moving forward.

An example of the 20 day calendar can be seen below for the 2025-2026 school year:

Academic Progress
HCCS has established a Satisfactory Academic Progress (SAP) policy (BP 5120) to ensure that students are consistently advancing toward their academic and career goals. This policy applies to all students enrolled in high school education. To remain enrolled, students must meet SAP standards, which include maintaining a minimum GPA, earning required credits, making measurable progress in English language acquisition (for ELD students), and fulfilling the specific SAP criteria of their CTE programs. SAP is evaluated every six weeks, and students who do not meet the requirements may be placed on Academic Notice. Continued noncompliance will result in disenrollment.

Attendance and engagement are also key components of SAP evaluation, with manual

attendance records retained for at least three years in accordance with California regulations. Students who do not meet SAP in their CTE program may appeal by submitting a written reflection and evidence of corrective actions. Approved appeals result in a probationary period during which students must meet SAP standards to maintain enrollment. The policy aligns with state and federal regulations and is reviewed regularly to ensure legal compliance and support for student success.

Career Technical Education (CTE)

CTE programs provide students with hands-on job training while earning course credits and industry recognized certifications. Courses help students build skills for careers, develop student agency and confidence, and build social capital, all while pursuing career pathways that allow students to earn a liveable wage

HCCS recognizes the importance of robust Career Technical Education programs, especially for traditionally underserved students. Programs in the past were developed with student interests in mind and course expansion was historically based on student interests. Moving forward, HCCS will align workforce needs with student interests to identify the most viable CTE classes and pathways.

Currently, HCCTS offers one Personal Finance course as part of our CTE program. We are looking to add a licensed real estate class, relaunch the culinary, welding, health services, early childhood education, and digital literacy classes in the new calendar year. Further efforts to expand CTE offerings revolve around business, community organization and school partnership. The redesign effort is just beginning, and involves identifying the leading businesses and industries in the Greater Sacramento Metropolitan that have job opportunities at liveable wages and can support workforce development pathway programs for students with industry aligned certificates. Community-based organizations are serving as intermediaries to facilitate employer and school-based connections, and later to provide adult mentors and internship opportunities for students. The redesign emphasizes clear pathways, flexible schedules, strong language supports, and meaningful work based learning. New courses will be carefully vetted and released in phases.

Highlands Community Charter School currently offers one Personal Finance through the CTE program in 2025-26. To grow capacity and pathway offerings, our CTE program is entering a redesign led by a cross functional team. We are centering student voices and using labor market data and teacher input to shape offerings that put learners first. The plan emphasizes clear pathways based on local and regional employer needs, flexible schedules, strong language supports, and meaningful work based learning. Courses will be carefully vetted and released in phases based on sustainable capacity and resources.

HCCS will have seven CTE programs in the 2025-2026 school year:

- Culinary Arts
- Digital Literacy and Multimedia
- Early Childhood Education (ECE)
- Medical Services

- Microsoft Office Specialist (MOS) Certification
- Personal Finance
- Real Estate

Culinary Arts

Culinary Overview

Introductory culinary skills with emphasis on safety, sanitation, knife skills, basic cooking methods, menu planning, and kitchen teamwork.

Culinary Target Certifications

- ServSafe Food Handler (all students)
- ServSafe Manager offered where feasible and appropriate

Culinary Program Requirements

- Safety routines, lab participation, and recipe labs portfolio
- Food handler exam completion; uniform and non-slip shoes for lab days

Work-based Learning

- Guest chefs, site tours, catering practice for school events, community tastings
- Instructor recruitment plan prepared (internal posting or partner hire)

Digital Literacy and Multimedia

Digital Literacy and Multimedia Overview

Practical digital storytelling with emphasis on device basics, file management, online collaboration, visual design, audio and video basics, and portfolio building.

Digital Literacy Target Certifications

- IC3 Digital Literacy certification, where available
- Adobe Certified Professional exam prep in tools such as Photoshop, Illustrator, or Premiere Pro when feasible
- School-issued certificate of completion with project portfolio

Digital Literacy Progress

- Curriculum outline drafted; equipment and facility scheduling in planning with partner

Program Requirements

- Completion of project-based modules and a curated digital portfolio
- Regular practice in productivity and creative apps; responsible use and digital citizenship modules

Digital Literacy Work-based Learning

- School communications projects, partner briefs, social media content labs, guest designers and media professionals

Digital Literacy Progress
- Curriculum outline drafted; device and software access plan in place with partner sites
- Instructor recruitment plan prepared (internal posting or partner hire)

Early Childhood Education (ECE)

ECE Overview
Prepares students for entry roles in preschool and childcare settings with a focus on child development, safety, learning environments, and family partnerships. Strong language supports are embedded for multilingual learners.

ECE Target Certifications
- Pediatric CPR and First Aid
- California Mandated Reporter Training
- California Child Development Permit pathway awareness; assistance with Assistant or Associate Teacher permit application where eligible

ECE Program Requirements
- Attendance and completion of coursework and practicum tasks
- Readiness for site requirements when applicable (background clearance, TB test, immunizations per host site; program will help students navigate)
- Portfolio with lesson snapshots, observation notes, and reflections

ECE Work-based Learning
- Classroom observations, lab hours, guest talks with site directors, optional short externship when available

ECE Progress
- Hiring teachers for this program
- Curriculum map drafted using English for Work and Life for integrated language routines
- Site partner list in development for observations and talks

Medical Services

Medical Services Overview
Entry-level health care services skills with emphasis on patient safety, infection control, vital signs, medical terminology, front office workflows, and team communication.

Medical Services Target Certifications
- American Heart Association BLS CPR and First Aid
- OSHA Bloodborne Pathogens awareness
- HIPAA privacy and security training
- Where feasible and appropriate: NHA Certified Medical Administrative Assistant exam prep

Program Requirements
- Safety routines, lab skills checklists, and a skills and reflections portfolio
- Completion of required CPR and safety training; appropriate attire for lab days

Work-based Learning
- Guest talks by medical assistants and clinic managers, site tours, mock front desk scenarios, community health events

Microsoft Office Specialist (MOS) Certification Prep

MOS Overview
Hands-on prep for industry-recognized Microsoft Office Specialist exams. Focus on Word, Excel, and PowerPoint with options to extend to Outlook or Access based on student goals.

MOS Target Certifications
- Microsoft Office Specialist Associate exams (Word, Excel, PowerPoint)
- Option to pursue additional exams for Expert level where appropriate

MOS Program Requirements
- Regular practice in Office applications; completion of scenario-based projects
- Exam readiness checks; testing through a Certiport Authorized Testing Center (onsite or partner)

MOS Work-based learning
- Real world admin projects, resume and report formatting, data dashboards for career pathways

MOS Progress
- Two MOS CTE teacher positions posted
- Certiport testing access plan underway (site authorization or partner center)

Personal Finance

Personal Finance Overview
Practical money skills for work and life: banking, budgeting, credit, debt, insurance, taxes, benefits, and introductory investment. Currently offered; will continue within CTE to strengthen career readiness.

Personal Finance Target Certifications
- Local certificate of completion with portfolio evidence
- Optional third-party exam (for example, W!se Financial Literacy Certification) if adopted by the school

Personal Finance Program requirements
- Completion of unit tasks and a capstone budget and benefits plan
- Demonstration of digital skills for online banking simulations and tax prep scenarios

Personal Finance Work based learning
- Speakers from banks and credit unions, mock benefit selection, VITA site visit when available

Personal Finance Progress
- Running now; pacing and assessments aligned to power standards are being finalized for 2025–2026

Personal Finance Progress
- Curriculum outline drafted; lab equipment and site visit scheduling in planning with partner clinics
- Instructor recruitment plan prepared (internal posting or partner hire)

Real Estate

Real Estate Overview
Foundations of residential real estate with emphasis on California practice and principles, ethics, property types, basic finance, contracts, and client communication.

Real Estate Target Certifications
- Preparation for the California Real Estate Salesperson license pathway
    - Completion of required coursework hours and state application steps
    - Exam readiness checks and study support

Real Estate Program Requirements
- Completion of course modules and case studies; portfolio of forms, disclosures, and client communication samples
- Attendance at exam prep sessions; Live Scan and state application guidance provided

Real Estate Work-based Learning
- Guest brokers and agents, office tours, open house observations, neighborhood property walks, mock client meetings

Real Estate Progress
- Curriculum outline drafted; broker partner interest meetings underway
- Instructor recruitment plan prepared (internal posting or partner hire)

CTE Program Accountability and Progress Indicators

- Access: enrollment by site and pathway; ELD levels served
- Engagement: attendance and weekly progress submissions

- Learning: pass rates on unit performance tasks and portfolios
- Credentials: number of certifications earned (ServSafe, MOS, CPR/First Aid, Mandated Reporter, optional personal finance cert)
- Work based learning: hours, site visits, guest speakers, externship participation
- Placement and advancement: students moving into jobs, internships, capstone, or next level training

Workforce Services

The Center for Workforce Solutions is located at the main campus on Hillsdale Blvd. The Center accepts both walk-ins and appointments and connects students to a variety of services including:

- Job fairs
- Job search services
- Assistance with CalJOBS
- Application help
- Resume and CV writing
- Cover letter writing
- Interview practice and preparation
- Job postings
- On-site interviews and hiring
- Free Application for Federal Student Aid (FAFSA) support
- College campus tours
- Referrals to partners and other external agencies
- Center for Workforce Solutions

Workforce Innovation and Opportunity Act

In 2014, the Workforce Innovation and Opportunity Act (WIOA) became law, formerly known as the Workforce Investment Act (WIA). It is designed to help job seekers gain access to education, training, and employment and to ultimately help unemployed and underemployed youth, dislocated workers, and workers with disabilities to successfully find jobs.

Under Ed. Code 47605.1(f)(1) HCCS provides instruction exclusively in partnership with the federal Workforce Investment Act of 1998 (29 U.S.C. Sec. 3101 et seq.), now known as WIOA. HCCS partners with The Sacramento Education and Training Agency, the local workforce development board for Sacramento County. All students may only be admitted under the terms of an exclusive partnership agreement, which limits students to those 22 years of age or older.

Under Education Code 47605.1(f), other than being required to have sites in California, there are no other jurisdictional boundaries for campuses of Highlands Community Charter School due to our WIOA exclusive partnership requirement.

Technology

HCCS students have varying levels of knowledge and experience with technology. Some students are very familiar and comfortable using computers and computer programs. Some students have excellent typing, composition, and internet skills, while others struggle to turn on a computer.

HCCS prioritizes and supports the use of technology in our learning environments because increasing experience and proficiency with technology contributes to successful educational outcomes and better career opportunities for 21st-century learners. Because digital resources can provide valuable benefits to our students, we design our learning programs to help them build digital literacy for the modern age.

One goal at HCCS is to help students integrate technology into their lives via classroom lessons, relevant examples, classwork, projects, and opportunities to improve communication skills. Technology standards and objectives are integrated into the curriculum and clearly defined for the teachers. Across varying sites, the teachers incorporate technology into their lessons. Teachers use educational learning videos, tutorials, web-based reading programs, Microsoft Office, and Google Classroom. Teachers model the use of technology in their classrooms and show students how to access and utilize key tools such as email and document sharing. HCCS expects teachers to use and adapt technology as appropriate to accommodate students' varying skill levels and educational needs. In addition, the IT Department and Digital Navigators work diligently to support teachers and students who need assistance expanding their digital skills.

In recent years, HCCS has overcome complex challenges to ensure that its students, teachers, and school sites have equitable access to technology. With support from our IT Department, all HCCS classrooms now have access to the items listed below.

Equipment Available in HCCS Classrooms

Standard Equipment (All Classrooms)

- Projector onto whiteboard
- Document Camera
- Speakers
- 30 Chromebooks
- 30 over-the-ear headphones w/mic
- 1 Charging cart

Available upon Request (All Classrooms)

- Additional Chromebooks and headphones
- Projector Screen
- Student Earbuds

We believe that digital literacy will become increasingly crucial for student success in the 21st century, with benefits for academic achievement, career opportunities, and social engagement. Through consistent exposure to digital tools across courses and targeted instruction in digital literacy, HCCS seeks to ensure that students develop the technological competencies necessary for academic advancement, workplace readiness, and full participation in modern society.

Student Services
Highlands Community Charter School has a unique opportunity to work with adult learners who have faced many life challenges. As a result, our students require a wide range of academic, career, and personal support to achieve their goals. In the 2025-26 school year, we have the opportunity to sustainably grow our student services staff, which faced staffing cuts during restructuring in the first part of the year. At the time of this material revision, we plan to develop an Intervention Coordinator role to support partnerships with community agencies. These agencies provide essential support well beyond what HCCS can offer, such as dental and medical services, nutrition, child care, housing support, and other necessities that will support their academic success.

Orientation/Student Onboarding
HCCS holds an orientation at the beginning of each year to help students become familiar with the school's policies, procedures, and programs, supporting student agency in making informed decisions about their academic plan. In August 2025, the orientation was expanded to provide additional clarity regarding updated academic policies, attendance requirements, the new five-period bell schedule, and our new curriculum, Savvas.

Navigators
To ensure equitable access to our programs, HCCS has employed dedicated staff members to ensure every student understands all the services available to them. With students who speak over 39 languages, often with limited English proficiency, Navigators provide multilingual communication, academic and career support, and access to community resources. HCCS Navigators speak English, Farsi/Dari, Spanish, Russian, Armenian, and Pashto, and travel to all campuses to present on services and programs. In June 2025, as part of organization restructuring, the Navigators were released from their positions. HCCTS plans to redesign and reinstate the Navigator program, with staffing and implementation to begin by January 2026.

English Learner (EL) Services and New Student Supports
HCCS provides comprehensive support for new students and English learners. HCCS student services staff provide comprehensive orientation services that help students navigate the HCCS system. The academic supports are listed in the educational philosophy section. HCCS also provides native language support and cultural transition assistance. Specialized programming for recently arrived immigrant students, including orientation to U.S. school systems, technology set up support, accelerated English language acquisition, academic skill building, and social-emotional support to ease cultural transitions. We provide translation services and family engagement programs to support the entire family's integration into our school community.

Student Advisory Council
In the 2025-2026 school year, HCCS will establish two Executive Student Advisory Councils – one for the AM student cohort and one for the PM student cohort. In Fall 2025, the Chief Academic Officer (CAO) will meet with students nominated for the Advisory Councils. The first student advisory council meeting is set for mid-November. The Councils will meet quarterly with the Executive Director to contribute student perspectives on HCCS initiatives, increasing student agency, belonging, and leadership. The quarterly meetings provide consistent opportunities for

students to share their experiences, identify challenges, and contribute to solutions that enhance the educational environment for all newcomers, ultimately supporting their academic success and social-emotional well-being.

Community Partnerships
Highlands Community Charter School serves a very high-needs student population and has developed multiple partnerships with external organizations to address those needs. These partnerships expand the school's reach within the community and increase student access to the tools necessary to achieve their goals. Partnership refers to a collaborative relationship between Highlands Community Charter and Technical Schools (HCCTS) and an external agency that supports students by facilitating access to essential services. In some cases, partnerships include agreements related to shared locations, supporting educational efforts by expanding access to instruction and services in settings where students already utilize essential resources.

These partnerships include the following organizations:
- SALAM Islamic Center
- SHRA
- La Familia Counseling Center
- CalAsian Chamber of Commerce
- Lao Family Community Development
- Department of Human Assistance
- Sacramento Employment and Training Agency (SETA)
- Mack Road Partnership

Many of these community partners provide support that is beyond the scope of HCCS services. This includes connecting students to dental services, food banks, clothing, etc.

Student Support and Counseling
We are proud to have highly trained, compassionate counselors who support every student. Our counselors can provide assistance and information on many issues, including:
- Family issues
- Personal issues
- Conflict management
- Substance abuse and recovery
- Student support groups
- Homeless services
- Accessing government programs
- FAFSA
- Parenting and family resources

Our students face many challenges and have many barriers to completing their education and accomplishing their goals. At HCCS, our counselors understand our students' needs and assist them by addressing barriers because we want our students to complete their classes and graduate. We believe that by meeting our students where they are, they are more likely to continue and complete their programs to graduate.

Services for Students with Disabilities

Overview

Highlands Community Charter School is categorized as an independent LEA, serving adults 22 years of age and older. Therefore, it is not required to join a SELPA pursuant to Education Code 47641(a), either on its own or with a grouping of charter school LEAs as a consortium. As such, HCCS does not receive state and federal revenues in accordance with SELPA's allocation plan.

HCCS will continue to make all necessary arrangements to serve students with disabilities and comply with all applicable federal, state, and school district mandates governing service to students with disabilities, including but not limited to Section 504 of the Rehabilitation Act ("Section 504"), the Americans with Disabilities Act ("ADA") and the Individuals with Disabilities Education Improvement Act of 2004 ("IDEIA"). Students will receive information about Section 504 protections when enrolled in the program.

IDEIA applies to children with disabilities and does not apply to adult students over the age of 21.[2] California likewise requires special education services only through age 22, but HCCS integrates IDEIA principles as part of its mission to provide K-12 educational opportunities to adult students in compliance with all applicable laws. For students who provide the school with a copy of a previously approved IEP, the Student Success Team ("SST") will review the IEP and work with the student to identify reasonable accommodations that provide equal access to the student's educational program, including a 504 plan if appropriate. HCCS will incorporate the student's reasonable accommodation needs into the student's educational plan as part of their individual learning strategy based on identified needs in the previous IEP.

Disabled students without a previous IEP may request reasonable accommodation by contacting school staff. Accommodation requests will be referred to the SST, who will evaluate the request, review the student's documented needs, and work with students in an interactive process to determine what accommodation is necessary to support their academic success.

504 services can also begin with a Response to Intervention based on academic challenges identified by Student Success Team members. The team will work with the student to identify individual barriers to academic success and create an academic support plan. If the student does not make satisfactory progress and consents to evaluation, they may be referred for evaluation under Section 504 of the IDEA. Any decision to deny or grant a reasonable accommodation by the SST shall be made in accordance with applicable federal and state law, including IDEA, ADA, and the California Education Code.

HCCS does not require students to provide detailed medical records to document a disability. A doctor's note or other documentation of impairment, including records of academic impairment, may support an accommodation need. Students also have the right to refuse accommodation

[2] 20 U.S.C. 1412(a)(1)(A): "A free appropriate public education is available to all children with disabilities residing in the State between the ages of 3 and 21, inclusive..."

solutions offered by the school or propose a different alternative as part of the interactive process.

Reasonable accommodation can include, but are not limited to, modifications to school policies, practices, or procedures; auxiliary aids for classroom learning such as transcripts, readers, or modified equipment; altered testing conditions; presence of a student's trained service animal; or other measures necessary to ensure equal access to HCCS's educational programs, as required by 304 C.F.R. 104.44. HCCS may deny accommodation requests by a person with a qualifying disability and documented need if the requested accommodation imposes an undue financial, operational, or administrative burden, or fundamentally alters its educational program, provided no reasonable alternative can be found to meet the student's needs.

Plan and Timeline for Maintaining Western Association of Schools and Colleges (WASC) Accreditation

In the 2024–2025 school year, HCCS completed a comprehensive WASC Self-Study that involved 12 internal focus groups and resulted in the development of a six-year WASC Action Plan aligned with LCAP goals. Over 200 staff members and nearly 100 students participated in the self-study process through these focus groups. In October 2024, a six-person WASC Visiting Committee conducted a three-day site visit, holding eight additional focus groups with staff and students. The committee visited 14 sites in person and reviewed 18 more virtually through pre-recorded tours. Following this extensive review, the Visiting Committee evaluated HCCS across 14 accreditation status factors, rating 11 as Highly Effective or Effective, 3 as Somewhat Effective, and none as Ineffective.

In March of 2025 WASC informed HCCS it was postponing its accreditation decision pending the result of the California State Audit. HCCS remains in probationary status as of September 2025. To ensure compliance with all program requirements, HCCS has developed a three-year plan to maintain its WASC accreditation, including measures to reduce student-teacher ratios, improve professional development, enhance data tracking, and increase EL support.

Recruiting Qualified Teachers

Highlands Community Charter School recruits well-qualified educators to our community by posting vacant teaching positions on the recruitment website www.edjoin.org, a third-party employment entity used throughout California and the greater United States as a central advertising location for many different educational organizations. Additionally, we attend the annual Teacher Recruitment Fair held each spring at Sacramento State University in order to meet with new teachers beginning their careers. We also send out recruitment flyers to additional institutes of higher education in the surrounding area, per the school's staffing needs. More efforts will be made going forward to aggressively recruit and retain exceptional educators with both adult and k-12 credentials, given the unique population of students we serve.

UMass Global

Highlands Community Charter and Technical Schools is partnering with UMass Global to help our intern teachers earn a California Preliminary Teaching Credential. UMass Global provides advising, admissions support, and the required coursework, while Highlands provides a paid

classroom placement, a site mentor, and job-embedded coaching. We also recruit and train Mentor Teachers—experienced educators who meet weekly with interns to co-plan, observe, and give feedback. University supervisors and site mentors conduct joint observations, so candidates get clear, consistent guidance as they complete clinical hours and state assessments. Our shared professional learning centers on HCCS priorities like integrated ELD, literacy across the curriculum, and effective use of adopted materials. The partnership is formalized in an MOU and builds a steady, well-supported pipeline of prepared teachers for our classrooms.

Transferability of Courses

Governing Law: If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A to G" admissions criteria may be considered to meet college entrance requirements.-- California Education Code § 47605 (c) (5) (A) (iii)

Information about WASC accreditation can be found at HCCS' website. HCCS is currently WASC-accredited on a probationary basis. Further determination will be made by the WASC commission in 2026.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

"The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups served by the charter school, as that term is defined in subparagraph (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school." (Ed. Code § 47605(c)(5)(B).)
"The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card." (Ed. Code § 47605(c)(5)(C).)

Measurable Goals of the Educational Program

In accordance with Education Code Section 47606.5, the Charter School shall comply with all elements of the LCAP pursuant to regulations and a template adopted by the California State Board of Education and reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter. The Charter School shall submit the LCAP to the District and the County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The current LCAP is on file with the District and is also available on our website at http://www.gcccharters.org. The LCAP and any revisions necessary to implement the LCAP, including outcomes and methods of measurement listed in the Charter, shall not be considered a material revision to the Charter, and shall be maintained by SAVA at the school.

HCCS was founded to serve historically disadvantaged populations. It has always served a larger than 90% socially and economically disadvantaged student population. The founding philosophy of HCCS demands that it offers extensive support beyond that which would normally be available to students in a traditional high school setting and far beyond that available in CAEP settings. To that end, all support services are available to all students. This, along with the radically different makeup of the HCCS student population compared to most schools, has led HCCS to set its performance targets for all students rather than for traditionally designated subgroups.

Alignment With State Priorities

STATE PRIORITY #1— BASIC SERVICES The degree to which teachers are appropriately assigned (E.C. §44258.9) and fully credentialed, and every pupil has

sufficient access to standards-aligned instructional materials (E.C. § 60119), and school facilities are maintained in good repair (E.C. §17002(d))	
Subpriority A: Fully Credentialed Teachers	
Goal	100% of core teachers will hold a valid CA Teaching Credential with appropriate English learner authorization as defined by the CA Commission on Teaching Credentialing, and will be appropriately assigned.
Method	In addition to hiring credentialed teachers HCCS will support teachers in the credentialing process including obtaining Intern credentials and the completion of any necessary credentialing program.
Measurement	Initial and annual verification of core teacher credential as reported by the CA Commission on Teacher Credentialing; CALPADS Report 3.5 NCLB Core Course Section Compliance; Annual publication of School Accountability Report Card.
Subpriority B: Access to Standards Aligned Instructional Materials	
Goal	100% of pupils will have access to standards-aligned materials and additional instructional materials as outlined in the charter petition.
Method	All instructional materials will be assessed for alignment with state common core standards, CASAS standards and ELP objectives.
Measurement	Executive Director or designee will review all instructional materials before purchase pursuant to E.C. § 60119.

STATE PRIORITY #2— IMPLEMENTATION OF COMMON CORE STATE STANDARDS Implementation of Common Core State Standards, including how EL students will be enabled to gain academic content knowledge and English language proficiency	
Subpriority A: Implementation of Standards	
Goal	At HCCS 100% of core academic classrooms will offer curriculum aligned to common core state standards.
Method	Offer a wide range of standards-aligned materials to ensure teachers have access to diverse standards-aligned methods and modalities and individual student needs can be met through access to multiple aligned curricula.
Measurement	Engagement with curricula will be tracked for engagement and impact and assessed by the Executive Director, Chief Academic Officer, Director of Curriculum or other designee.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Subpriority B: EL Student Access to Academic Content	
Goal	100% of English Language Learners will gain academic content knowledge through implementation of Common Core State Standards.
Method	EL students will be offered differentiated instruction in contexts integrating Common Core State Standards with ELP objectives such as English for Work and Life and EL Civics courses.
Measurement	Student progress will be measured through course completion, level exit tests, EL Civics tests and applicable state testing including CAASPP and CAST.
Subpriority C: EL Students and English Language Proficiency	
Goal	100% of English Language Learners will make measurable progress towards English language proficiency.
Method	EL students participate in English Language Arts/Literacy instruction with appropriate in-class instructional support which includes structured English language development, small group teacher support, paraeducator support, and usage of SDAIE strategies.
Measurement	The school will track annual metrics including the rate of progress from Intermediate ESL (equivalent to Federal NRS ESL Level 5) to Bridge (Equivalent to Federal NRS Level 6)

STATE PRIORITY #3— Educational partner involvement. State priority 3 references parental involvement, including efforts to seek parent input for making decisions for schools, and how the school will promote parent participation. However as all HCCS students are 22 years and over HCCS will focus instead on engaging the feedback of educational partners including but not limited to students and community partners.	
Subpriority A: Educational partner engagement	
Goal	Promote student involvement in setting schoolwide priorities and implementing academic programs and student services through a minimum of 5 educational partner events annually.
Method	Engage students in community partner events to solicit and gather student feedback.
Measurement	Student feedback will be recorded, collated, and analyzed by HCCS staff incorporating both qualitative and qualitative methodologies. Student feedback will be incorporated into the annual LCAP.
Subpriority B: Student Participation	

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Goal	Each year HCCS will circulate a student satisfaction survey.The survey will be made available in not less than the 5 most widely spoken languages among the student population.
Method	Each year HCCS will circulate a student satisfaction survey. The survey will be made available in no less than the 5 most widely spoken languages among the student population. Additionally, Working in PLCs each teacher has a minimum of 2-3 focal students with whom they are collecting warm/street data to understand the students' learning experience so that they can be responsive.
Measurement	HCCS will track the number and percentage of students participating in the survey. Before and after each survey period HCCS staff will discuss and implement strategies to increase student participation.
Subpriority C: Community Partner Engagement	
Goal	Maximize the opportunity for HCCS students and staff to meaningfully engage with community partners by hosting at least 5 events accessible to HCCS students remotely (i.e. through Zoom).
Method	Community partner events will be held throughout the year including job fairs, immigrant resource presentations, Know Your Rights presentations from local agencies, and cultural events celebrating diverse student backgrounds.
Measurement	All community partner events will be assessed for engagement and impact including number of students engaged. This will be documented in the LCAP.

STATE PRIORITY 4: Student Achievement Academic Achievement Metrics, performance on standardized tests, progress of English Language Learners	
Subpriority A: Academic Achievement Metrics	
Goal	Schoolwide academic achievement metrics will meet targets as agreed upon with our Authorizer as outlined below in HCCS Academic Achievement Metrics.
Method	All HCCS students take regular CASAS tests every 6-8 weeks. All counselors schedule regular meetings with 12th-grade students and provide a personalized graduation plan to ensure all 12th graders graduate within the same program year as admission to the 12th grade.
Measurement	All Academic Achievement measurements are reported to the Authorizer yearly in an annual report.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Subpriority B: Standardized Tests	
Goal	Implement two mandatory training on Smarter Balanced assessment for teachers and paraeducators.
Method	HCCS will begin implementation of Smarter Balanced (SBAC) for 11th grade in the 2025-2026 school year. The designated LEA CAASPP coordinator will coordinate training and implementation.
Measurement	The designated LEA CAASPP coordinator will report CAASPP results to HCCS and TRUSD.
Subpriority C: Progress of English Language Learners	
Goal	English Language Learners will see consistent growth including average CASAS Reading STEPS gains of 2 points or greater per program year and Measurable Skills Gains as reported to NRS meeting or exceeding the state average.
Method	CASAS tests will be taken by all students every 8 weeks at a minimum, the percentage of students with pre and post test scores will meet or exceed 55%.
Measurement	The CASAS coordinator will review monthly progress reports.

STATE PRIORITY #5— STUDENT ENGAGEMENT Pupil engagement, as measured by all of the following, as applicable: A. School attendance rates B. Chronic absenteeism rates C. Middle school dropout rates (EC §52052.1(a)(3)) D. High school dropout rates E. High school graduation rates	
Subpriority A: Student Attendance Rates	
Goal	HCCS will ensure an 80% attendance rate.
Method	Attendance with sufficient academic progress will be a requirement of continued enrollment at HCCS. Students not meeting requirements will receive academic support and intervention.
Measurement	HCCS will produce monthly, quarterly, and annual attendance reports and track periodic attendance rates which will be visualized in Schoolytics.
Subpriority B: Chronic Absenteeism	
Goal	HCCS will reduce chronic absenteeism by 5% yearly.
Method	HCCS will enforce mandatory attendance policies designed to promote attendance. See the attendance SOP attached in the appendix.

Measurement	HCCS will report chronic absenteeism in Dataquest.
Subpriority C: Graduation Rates	
Goal	The HCCS DASS 1-Year graduation rate will meet or exceed 20 percent.
Method	All HCCS 12th graders will be prepared for graduation with personalized graduation plans and extensive academic and counseling support.
Measurement	The reported number of graduates in CALPADS will be compared against the cumulative enrolled population of 12th grade students for the school year.

STATE PRIORITY #6— SCHOOL CLIMATE School climate, as measured by all of the following, as applicable: A. Pupil suspension rates B. Pupil expulsion rates C. Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness	
Subpriority A: Pupil Suspension Rates	
Goal	HCCS will maintain a suspension rate of less than two percent.
Method	HCCS will train teachers, principals, and counselors in social-emotional learning techniques and behavior management.
Measurement	HCCS will track student suspension in PowerSchool and report it in CALPADS.
Subpriority B: Pupil Expulsion Rates	
Goal	HCCS will maintain an expulsion rate of less than two percent.
Method	HCCS will train teachers, principals, and counselors in social-emotional learning techniques and behavior management.
Measurement	HCCS will report student expulsion rates using CALPADS.
Subpriority C: School Climate	
Goal	HCCS will ensure 90% of enrolled students respond to the student climate survey.
Method	As part of HCCS community partner engagement, the yearly student climate surveys will be distributed to all students by teachers. Teachers will be trained on the survey and participation incentivized.
Measurement	The accountability department will collate and analyze student survey results and present the results to the HCCTS Board of Directors.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

STATE PRIORITY #7— COURSE ACCESS The extent to which pupils have access to, and are enrolled in, a broad course of study, including programs and services developed and provided to unduplicated students (classified as EL, FRPM-eligible, or foster youth; E.C. §42238.02) and students with exceptional needs. "Broad course of study" includes the following, as applicable: Grades 9-12: English, social sciences, science, mathematics, visual and performing arts, applied arts, and career technical education.	
Goal	100% of students will have access to all content areas. As a school with many credit recovery students, not all students will be enrolled in all subjects, however all students will have access to the courses needed to graduate high school with a broad course of study.
Method	HCCS students with limited English proficiency are enrolled in classes with designated English support which offer integrated access to all content areas.
Measurement	Yearly review of course outlines, descriptions, ELP objectives, and EL Civics content areas.

STATE PRIORITY #8— Pupil Outcomes	
Subpriority A: English	
Goal	All students will demonstrate an increase in proficiency in English Language Arts/Literacy.
Method	All English learners will be supported with English language instruction integrated with ELA standards. All English proficient high school students will demonstrate mastery through course completion. All students will receive regular CASAS reading testing.
Measurement	Average CASAS reading tests will meet or exceed 2 points per program year. Yearly the program will meet or exceed California state targets for Measurable Skills Gains.
Subpriority B: Social Science	
Goal	All EL students will be enrolled in Civics education.
Method	Students will take 3 yearly CASAS Civics exams.
Measurement	The school will maintain an 85% passing rate for Civics exams.
Subpriority C: Mathematics	

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Goal	All students enrolled in Mathematics will make measurable progress.
Method	Math students will receive pre and post CASAS testing to evaluate the effectiveness of the program.
Measurement	All math students will meet or exceed a 2% CASAS Math Goals gain on average.

Method for Measuring, Analyzing, and Reporting Pupil Progress Toward Outcomes

Assessment

Key Measurement Methods

Measurement Outcome	Method of Measurement	Frequency of Assessment
CASAS Gains	CASAS Reading, Listening, and Math assessments	Every 6 to 8 weeks
English Language Proficiency Progress	Internally developed ESL Level exit test	Term
EL Civics Assessments	CASAS approved assessment plans (COAAPS)	Three times each year in the following months: November, March, June
High School Content Mastery	Course assessments and course grades Savvas imbedded assessments	At the end of every high school course Savvas: mid-unit assessments; formal and informal evaluations
ELA and Math Achievement	Smarter Balanced (CAASPP) Savvas imbedded assessments	CAASPP: Once in grade 11. Savvas: mid-unit assessments; formal and informal evaluations
Science Achievement	CAST Savvas imbedded assessments	Once in high school grades 10 or 12. Savvas: mid-unit assessments; formal and informal evaluations

English Language Proficiency Placement
HCCS assesses all students as part of the admission process. Non-native English speakers receive an internally developed placement test to determine English proficiency. Additionally all students receive CASAS testing to establish a baseline for academic achievement.

State Testing
In compliance with Ed. Code HCCS will offer the California Assessment of Student Performance and Progress (CAASPP) and the Smarter Balanced Assessments Consortium

(SBAC) to all students in 11th grade. HCCS also offers California Science Tests (CAST) to all 12th-grade students who have not previously taken the science test in high school. Testing will be coordinated by the Assessment Coordinator with academic staff and test proctors. Because CAASPP testing is new to HCCS, the determination of the details of testing windows and procedures will be an ongoing process by academic and assessment staff.

Student Growth
HCCS uses the Comprehensive Adult Student Assessment System (CASAS), a competency based adult assessment program validated by the U.S. Department of Education for use in adult education. While HCCTS is a K-12 institution there are few assessment programs designed to evaluate the growth of adult students. Consequently, CASAS is an essential tool for the evaluation of student progress at Highlands. The test series used by HCCS are listed below.

Test Series
CASAS Reading STEPS
CASAS Listening STEPS
CASAS Reading GOALS 2
CASAS Math GOALS 2

Students receive CASAS testing every 6-8 weeks. Testing is conducted via an application installed on HCCS Chromebooks. Testing can only occur in a proctored environment and is conducted by test proctors or teachers.

All students receive CASAS reading tests. CASAS Math assessments are administered to all students enrolled in math courses to evaluate the effectiveness of the instruction they receive.

Schoolwide CASAS outcomes include average point gain, measurable skills gains, and pre- and post-testing rates. Below are the average point gains for the previous three program years.

Average Point Gain per Program Year			
	2022-2023	**2023-2024**	**2024-2025**
ESL Students			
CASAS Reading STEPS	5.1 points	6.3 points	5.2 points
CASAS Listening STEPS	4.0 points	4.1 points	5.8 points
Adult Basic Education Students			
CASAS Reading GOALS 2	5.4 points	6.4 points	4.9 points
CASAS Math GOALS 2	3.4 points	2.8 points	6.0 points

The data reveals several encouraging trends across both programs. For English Language Learners, CASAS Listening scores have shown steady year-over-year improvement, culminating in a significant gain of 5.8 points in 2024–2025—the highest in three years—indicating that recent adjustments to listening instruction are proving effective. Although reading gains dipped slightly this year, they remain above the 2022–2023 baseline, suggesting partial retention of prior improvements.

At the high school level, CASAS Math scores rose dramatically in 2024–2025, jumping from 2.8 to 6.0 points, signaling substantial progress in math instruction. ABE students also demonstrated consistently strong gains in reading from 2022–2024, reflecting effective literacy practices despite a slight decrease in the most recent year.

Measurable skills gains represent the number of students progressing in an Educational Functioning Level as defined by the National Reporting System (NRS), the federal accountability system. Measurable skills gains are an important indicator of both English language and academic progress.

Percentage of students with pre and post test achieving a measurable skills gain				
ESL Educational Functioning Level		2022-2023	2023-2024	2024-2025
Level 1	Achieved	60.38%	67.27%	55.07%
	CA State target	30.50%	34.00%	TBD
Level 2	Achieved	75.78%	78.10%	80.73$
	CA State target	30.50%	40.00%	TBD
Level 3	Achieved	70.87%	73.84%	78.76%
	CA State target	34.50%	37.00%	TBD
Level 4	Achieved	61.21%	70.21%	71.31%
	CA State target	30.50%	34.50%	TBD
Level 5	Achieved	59.62%	68.13%	68.44%
	CA State target	31.50%	34.50%	TBD
Level 6	Achieved	51.67%	64.01%	62.63%
	CA State target	21.50%	25.00%	TBD

Percentage of students with pre and post test achieving a measurable skills gain				
ABE Educational Functioning Level		2022-2023	2023-2024	2024-2025
Level 1	Achieved	88.89%	75.00%	72.50%
	CA State target	40.00%	44.00%	TBD
Level 2	Achieved	52.50%	61.26%	70.85%

Element B Measurable Student Outcomes and Element C Student Progress Measurements

	CA State target	42.50%	44.00%	TBD
Level 3	Achieved	56.85%	60.32%	60.33%
	CA State target	38.00%	43.00%	TBD
Level 4	Achieved	63.28%	71.19%	75.50%
	CA State target	40.50%	43.00%	TBD
Level 5	Achieved	50.91%	52.74%	59.92%
	CA State target	35.50%	42.00%	TBD
Level 6	Achieved	8.51%	0.00%	20.34%
	CA State target	36.50%	43.50%	TBD

Highlands Measurable Skills Gain for all learners compared to state average

	2022-2023	2023-2024	2024-2025
HCCS	42.3%	49.6%	57.8%
CA State Average	44.36%	44.8%	TBD

CASAS pre and post tests are essential for measuring student progress but also serve as an important measure of student engagement. .

Percentage of Learners with Pre and Post CASAS Test		
2022-2023	2023-2024	2024-2025
56.61%	64.68%	75%

The data above reflects a clear upward trend in the percentage of students who received both a pre- and post-test over the past three years. In 2022–2023, 56.61% of students received both tests. This increased to 64.68% in 2023–2024 and rose again to 75% in 2024–2025. This steady improvement demonstrates HCCS's growing commitment to data-driven instruction and collective efforts to ensure more students are assessed consistently, allowing HCCS to better capture and respond to their academic development.

Teachers, counselors, and proctors at HCCS work diligently to ensure that all students complete both the CASAS pre- and post-tests; however, reaching 100% participation remains a challenge. To address this, HCCS is implementing several strategic measures, including hiring additional proctors, expanding staff training, purchasing more laptops to support testing, and developing a more structured and comprehensive testing schedule. Additionally, the recent hiring (August 2024) of a dedicated CASAS Coordinator has provided focused leadership to further strengthen the assessment processes. Through these efforts, HCCS is committed to increasing the percentage of students completing both assessments in the coming years.

EL Civics Civic Objective and Additional Assessment Plan Data (COAAP)
Integrated English Language and Civics (ELCivics) programs are designed to offer English language learners access to English language literacy instruction while learning crucial concepts for participation in the workforce and civic life in the United States. EL Civics assessments are developed according to assessment plans (COAAPs) supplied by CASAS and reported to the state via TOPSPro Enterprise, a state developed software tool.

For the past five years EL Civics assessments have been conducted through Google Forms. EL Civics data was collated and reported through automated Google API scripts. While initially cost effective the maintenance of an increasingly large dataset became impractical. In 2025 EL Civics implemented a pilot with Edcite to streamline the reporting process, improve the quality of the assessment, and to offer more accurate and detailed data tracking.

EL Civics Assessment Data				
Program Year	**Theme**	**COAAP #**	**Attempted Assessments**	**Passed Assessments**
2022-2023	Employment	33.7	1407	951
2022-2023	Pharmacy	28.1	1695	1107
2022-2023	Education	13.5	1906	1503
	Totals			3561
2023-2024	Employment	33.9	2322	1830
2023-2024	Personal Finance	1.8	2351	1864
2023-2024	DMV	12.7	2522	2049
	Total			5743
2024-2025	Employment	33.8	5279	3270
2024-2025	Health and Nutrition	46.7	4573	3329
2024-2025	Education	13.6	2804	2216

High School Graduation
Graduation is the best way to identify course completion for high school students. At HCCS, graduation day is like a holiday worthy of celebration. It is the culmination of years of hard work, determination, perseverance, and overcoming sometimes very serious hardships. HCCS loves to celebrate student success and provide an opportunity for students' families to celebrate this success as well. When students earn their credits, they may petition for their diploma and exit as a graduate. Since this happens on a very regular basis, HCCS provides more than one opportunity a year for students to celebrate and "walk the stage." HCCS holds graduation ceremonies every summer and winter. Each year, the venue has changed in response to graduation growth.

HCCS Graduation Rate

Historically, HCCS has used two graduation rates to track graduation: a one-year graduation rate utilized by DASS schools and the traditional 4-to-5-year cohort rate. The default method of measurement for graduation rate is the 4-to-5-year cohort rate. This measures the percentage of students who graduate in exactly 4 or 5 years after first entering the 9th grade.

HCCS faces a unique situation regarding its 4- and 5-year cohort graduation rate. Before 2021, English language learner students were designated primary students and enrolled in grades 1 and 2. In 2020-2021, all HCCS students were redesignated as high school students to better recognize their adult status. This resulted in a massive increase in 4-year cohort size. However, over 80% of these students still lacked basic secondary education skills, leading a very large number of students to spend extra time in the 9th grade as they develop their English language and academic skills.

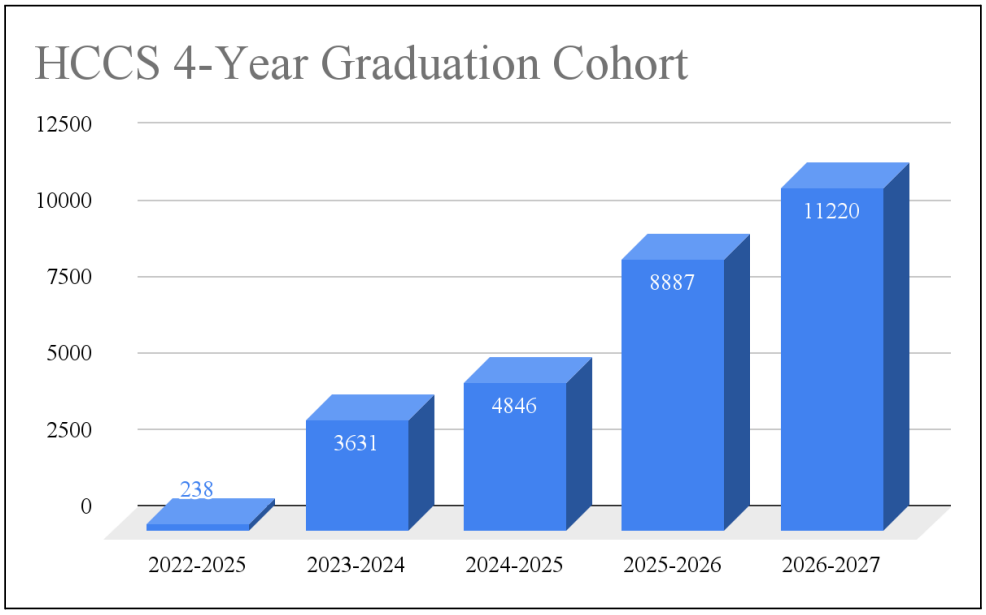
Other students have entered HCCS with better English proficiency and more academic achievement in their countries of origin, leading them to graduate much faster. Students in the 2025 Winter graduation were enrolled for 2.5 years on average.

Students who graduate in 1-3 years are not reported as graduates for the graduation rate as presented on the California Dashboard until 4 years after their first entry in a high school. For example, if a student enrolls in the 2022-2023 school year and graduates in the 2024-2025 school year, they will not be counted in the published 4-to-5-year graduation rate until 2026-2027. Students who graduate in more than 5 years will never appear in the published 4-to-5-year graduation rate. So, an adult student who may have dropped out at 18 and finished their diploma at the age of 23 will not be represented in this graduation rate even if it only took them an additional year of school to complete their education.

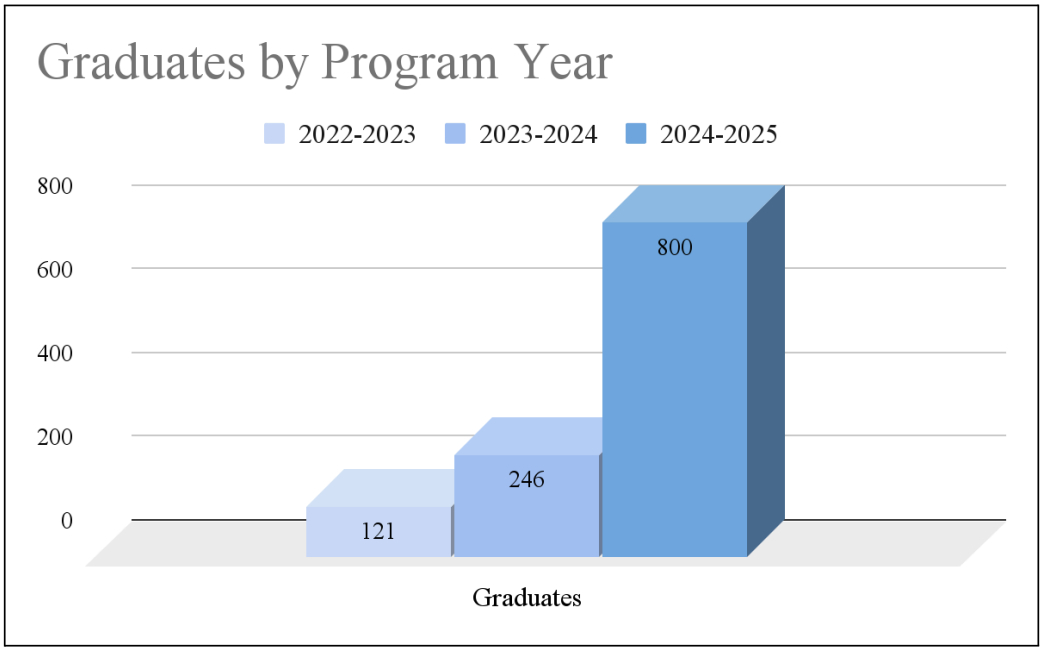
For a school explicitly intended to serve alternative students who enter with an extremely wide range of educational backgrounds and levels of credit attainment, the cohort graduation rate is at very best a lagging indicator. In practice, it obscures rather than reveals the achievements made by students and the outcomes of the program. Furthermore, the proposed reduction in enrollment over the next five years will ensure that the cohort graduation rate will be at best highly unpredictable.

The chart below demonstrates the scale of the issue. While HCCS will continue to track and report the 4-year cohort rate, it will also track and report the 1-year DASS graduation rate to provide a more comprehensive picture of the outcomes of its academic programs.
.

Element B Measurable Student Outcomes and Element C Student Progress Measurements



While the raw number of HCCS graduates has grown dramatically, only 176 of HCCS' over 800 graduates reported in CALPADS for the 2024-2025 school year will be accounted for in the published 4-year cohort rate.



Element B Measurable Student Outcomes and Element C Student Progress Measurements

HCCS 1-Year Graduation Rate
HCCS students must work to overcome a wide variety of barriers to participate in education and achieve academic success. An adult learner is engaged with responsibilities and demands that pay no respect to their academic journey, making them inherently at very high risk of not completing their education. In every sense, these are alternative students. In recognition of this status, HCCS continues to track and report the 1-year graduation rate. The 1-year graduation rate is calculated as follows

$$\frac{\text{\# graduates as reported in CALPADS - (all students without 90 days cumulative enrollment)}}{\text{All students enrolled in 12th grade for the program year (all students without 90 days cumulative enrollment)}}$$

2022-2023	2023-2024	2024-2025
22.8%	32.1%	55.5%

ESL Level Progress
English Language learners progress through courses designed to advance their English Language skills while giving them the opportunity to engage with increasingly in-depth standards aligned content. Level 3 (Intermediate) is a particularly significant milestone. Completion of this level indicates that the student is able to participate in High School with significantly reduced designated support.

Alternative School Status
HCCS is accountable to the California Department of Education to ensure that HCCS students meet the state's standards. In 2013, the Local Control Funding Formula (LCFF) was adopted by California to ensure accountability using the California School Dashboard. The traditional standards were intended for traditional schools and, in many ways, fail to understand the needs of alternative students. As a result, the California Department of Education recognized alternative accountability measures for alternative schools.

In March 2015, HCCS adopted the Alternative Schools Accountability Model (ASAM), and we complied with their requirements. Then the Dashboard Alternative School Status (DASS) replaced the previous ASAM model, and since the beginning of the 2017–18 school year, HCCS has been accountable to the California Department of Education and adhered to the indicators set forth by DASS. In November 2024, HCCS agreed on a formal set of DASS metrics with Twin Rivers. In December 2024, however, HCCS was informed by the CDE that it would lose its DASS status. Despite this, HCCS will continue to track the agreed-upon metrics as Academic Achievement Metrics.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

HCCS Academic Achievement Metrics
Academic Achievement
CASAS ESL
1. The percentage of HCCS English Language learners with a pre and post-test achieving a Measurable Skills Gain in the National Reporting System will meet or exceed California state targets, as reported by NRS Performance in TOPSpro Enterprise (TE).
CASAS ABE
1. The percentage of HCCS high school learners with a pre and post-test, achieving a Measurable Skills Gain in the National Reporting System will meet or exceed California state targets, as reported by NRS Performance in TOPSpro Enterprise (TE).

Academic Improvement
CASAS ESL
1. The average Comprehensive Adult Student Assessment Systems (CASAS) Reading Gains for English Language Learners at HCCS enrolled in International High School will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSpro Enterprise.
2. The percentage of HCCS English Language Learners in International High School Level 3 students moving to high school will meet or exceed 5%, as reported by Student Level Gains in PowerSchool.
CASAS ABE
1. The average CASAS Reading Gains for learners enrolled in high school at HCCS will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSpro Enterprise.
2. The average CASAS math gains for learners enrolled in high school at HCCS will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSPro Enterprise.
3. The 1-year Graduation Rate for HCCS learners will meet or exceed 20% as reported in California School Dashboard.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

Student Engagement
All Levels
1. The percentage of HCCS students with a CASAS pre- and post-test will meet or exceed 55% as measured by NRS Data Integrity in TOPSpro Enterprise.

CAREER TECHNICAL EDUCATION (CTE) & WORKFORCE
CASAS ABE
1. The percentage of 12th-grade HCCS high school students who are enrolled in a CTE program will meet or exceed 10% as measured by CTE Enrollment Percentage in PowerSchool.
2. The percentage of HCCS high school graduates who complete a CTE program will meet or exceed 4% as measured by Graduate CTE Completers in PowerSchool.

Teacher-Designed Formative Assessments
At HCCS, teachers utilize many informal assessment techniques to ensure student learning in the following subjects: reading and vocabulary, writing and grammar, speaking and pronunciation, listening, technology and computer literacy, math and consumer economics, science, history/social science/ community resources/government and law, and health and independent living. Assessment tools used to monitor student progress include:

- Benchmark assessments
- Oral class presentations
- Multimedia presentations
- Journal writing
- Independent class projects
- Essays
- Tests and quizzes
- Daily homework
- Book reports
- Movie reviews
- Portfolios
- Group projects
- Research projects
- Grammar diagnostics
- Reading comprehension checks
- Workbooks

Grading and Progress Reporting Systems
HCCS uses the traditional grading system A, B, C, D, and F. For GPA points, an A has a value of four points, a B has a value of three, a C has two, a D has one, and an F has zero. Although

teachers may add a plus or minus to a grade, they do not affect the students' GPA. Students must receive a letter grade of B or better to pass a class or earn credits. If a student receives a grade lower than a B, they must engage in additional work until they demonstrate sufficient effort and mastery to receive a B. Students receive grades after they finish a course, partial course completion, or at the end of a term, whichever comes first.

Evaluation Methods
At HCCS evaluation is based upon a variety of evaluation methods to measure whether students meet requirements; these include teacher evaluation, self-assessment, publisher tests, and samples of work such as homework or portfolios.

High school course completion is tied to end of unit and end of course assessments. Students must receive a minimum of 80% on all assessments to receive credit.

Plan to Collect, Analyze, Use, and Report Academic Performance and Other Data
HCCS uses assessment data in four primary ways. First, assessment serves as a diagnostic tool to identify content areas a student has not yet mastered. This allows instructional staff to gain a clear understanding of each student's strengths and areas for growth, enabling timely and targeted academic support when needed.

Second, aggregated student learning data are used to evaluate overall school performance. A dedicated team of professionals at HCCS analyzes a broad range of academic indicators, including enrollment trends, placement assessments, demographic data, CASAS assessments and gains, course grades, graduation rates, and student retention. By examining student outcomes over time, the school is able to assess performance by teacher, course, program, and schoolwide, and compare results to those of similar institutions.

Third, assessment data inform decisions regarding student progression and formal recognition, such as level completion, graduation, licensure, or certification

Finally, assessments are used to identify students who may be underperforming relative to their peer group, prompting review of placement and potential intervention support. In cases where a student is not adequately progressing in a course, reassignment to a remedial course or additional instructional support from teachers, paraeducators, or specialists may be required to ensure the student is able to complete course materials and meet academic expectations.

Retention
HCCS addresses student retention through the development of school-based student engagement systems and strong partnerships that support teaching, learning, and student achievement. These student engagement systems coordinate efforts to strengthen two-way communication between students and the school. Retention is supported through cooperation between academic staff, counselors, and classified staff. HCCS will ensure specific roles relating to retention and engagement are added to the organization as appropriate to enrollment and student needs.

Program Audit and TRUSD Oversight
HCCS will compile and provide an annual performance report to TRUSD. This report will, at a minimum, include the following data:

- A summary showing student progress toward the pupil outcomes using data from the assessment instruments.
- A summary of major decisions and policies established by the HCCTS Board of Directors during the year.
- Data on the level of student involvement in HCCS and summary data from an annual student satisfaction survey.
- Data regarding the number of staff working at HCCS and their qualifications.
- A copy of the HCCS health and safety policies and/or a summary of any major changes to those policies during the year.
- An overview of HCCS admissions practices during the year and data regarding the numbers of students enrolled, the number on waitlists, and the number of students expelled and/or suspended.
- Analyses of the effectiveness of HCCS's internal and external dispute mechanisms and data on the number and resolution of disputes and complaints.

Element D Governance

"The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement." (Ed. Code § 47605(c)(5)(D).)

Governance Overview

Highlands Community Charter School (HCCS) operates as a directly funded independent charter school under Highlands Community Charter and Technical Schools, a California nonprofit public benefit- corporation, in compliance with applicable California law. HCCS commits to maintaining its nonprofit status in good standing and "active" status throughout the term of its Charter.

The Charter School is governed by the Highlands Community Charter and Technical School's Board of Directors (the "Board.") The Board of Directors provides ongoing oversight of the Charter School's academic performance, financial health, and legal compliance. This oversight includes reviewing regular reports from the Executive Director and leadership team, approving budgets and audits, evaluating progress toward organizational goals, and ensuring that the school remains faithful to the terms of its charter. The Board operates in accordance with its adopted by-laws and delegates management to key HCCS staff, including the Executive Director. The Board is not involved in handling the day-to-day details of running the charter school.

HCCS operates autonomously although in close harmony with Twin Rivers Unified School District, with the exception of the supervisory oversight as required by statute and other contracted services as negotiated between HCCS and TRUSD. Pursuant to California Education Code Section 47604(d), TRUSD will not be liable for the debts and obligations of HCCS, operated by a California public benefit corporation, or for claims arising from the performance of acts, errors, or omissions by HCCS as long as TRUSD has complied with all oversight responsibilities required by law.

Board Composition and Membership

Board of Directors
Mike Reid (Corporate President)

Mike Reid is a Board Member for Highlands. He has been an educator for over 38 years and has served in various roles throughout his career, including teacher, Vice-Principal, Principal, and Schools Superintendent. He has had the opportunity to assist and be recognized for three California Distinguished Schools.

His work in charter schools spans over nine years, during which he oversaw the development of a new charter school and served

as the Learning Analyst for another. He also served as a consultant for the state of Hawaii for nearly three years, focusing on school academic improvement.

Sharon Rocco (Corporate Vice-President)

Sharon Rocco was born in Oregon and moved to California in 1959. In 1967, Rocco moved to Manila, Republic of the Philippines, and graduated from Brent Episcopalian Boarding School in Baguio City. In 1969, she returned to Sacramento, California, and completed college at California State University, Sacramento with a Bachelor's degree in Social Work and Corrections. Sharon began her career in 1975 with the California Department of Corrections as a Parole Agent and served both in rank and file and administrative positions until she retired in 2005. Sharon was elected to Highlands Community Charter School's Board of Directors in July 2015.

Mary DeChance (Corporate Treasurer)

Mary DeChance is an educational leader who began her career as a Resource Specialist and later made meaningful impacts as a Principal, District Director of Special Education, District Director, and Interim Coordinator for Early Childhood Education. Mary most recently was Faculty Lead at National University serving from 2005 until her retirement in 2016. Mary holds a BA in Behavioral Science and a Master's Degree in Special Education from the National University. Mary was appointed to the Highlands Community Charter and Technical School board in November 2020.

Board Member Selection Process
The Board of Directors shall consist of a minimum of three and a maximum of eight members; however, following the resignation of any director serving as of September 20, 2024, the maximum number of members shall be reduced to seven. To mitigate the occurrence of tie votes, the Board endeavors to maintain an odd number of members. Furthermore, school districts or county offices authorized to oversee HCCTS schools are entitled to appoint one voting representative to the Board.

Candidates for Board membership are sought from diverse professional backgrounds, including education, finance, law, public policy, human resources, and community leadership. Ideal candidates demonstrate alignment with HCCS's mission, a commitment to its success, and the ability to provide expertise or resources in support of the school.

People who work for the school (or have close family ties to someone who does) cannot serve on the Board. Each director serves a 3-year term and stays in the role until a new director is chosen. If a director leaves—due to resignation, death, legal issues, or missing three meetings—the

Board can fill that spot by majority vote. Chartering authorities can fill or remove their own representatives.

In accordance with Education Code Section 47604.2(b)(2), the Board may, upon receipt of a qualifying petition, choose to include at least one student member. If appointed, the student member may be granted preferential voting rights as provided by law.

Board members may resign at any time by submitting written notice. However, no resignation shall be effective if it would reduce the Board below the minimum required membership, unless the Attorney General is notified. Should a vacancy arise due to resignation, death, legal disqualification, or failure to attend three consecutive meetings, the Board may fill the position by majority vote. Chartering authorities retain the right to appoint or remove their own representatives. Reductions in the Board's authorized size will not prematurely terminate current directors' terms.

HCCS will not make contracts or approve actions where a director or key employee have a potential financial interest in the contract or action that precludes HCCS from approving the same pursuant to Section 1090, the PRA, or other statutory, regulatory, or common law preclusions of conflicts of interest. It also will not loan money or property to any director or officer, except that it can advance money for work-related expenses that will be reimbursed. Lastly, HCCS promises to protect and cover legal costs or damages for its directors, officers, employees, and certain others if they face lawsuits or legal actions related to their role, as allowed by law. If someone asks for this protection, the Board will quickly decide if they qualify and approve it if they do.

Officers of the Corporation: Roles, Responsibilities, and Appointments
The Corporation is required to have a Chair of the Board, President, Secretary, and Treasurer, with the option to appoint additional officers as needed. Officers are appointed by the Board, report to the Board, and may have duties outlined in employment contracts. One person can hold multiple officer roles, except the same person cannot be both Chair/President and Secretary/Treasurer. Officers may be removed by the Board or resign with written notice. Vacancies are filled following the same process as original appointments. The Chair leads Board meetings, and the Vice-Chair fills in when the Chair is absent. The President (also called Executive Director) manages the Corporation's daily operations. The Secretary keeps records of Board meetings and official documents, while the Treasurer manages the Corporation's finances, provides reports, and may be required to give a bond to ensure proper handling of funds.

Board Members shall complete annual Brown Act, conflict of interest, sexual harassment, mandated reporter training, and other mandatory training requirements.

Roles of the Board
The Board of Directors is responsible for managing the Corporation's activities and has the authority to make key decisions. This includes hiring and removing staff, setting their duties and pay, relocating offices, operating in or outside California, borrowing money, using a corporate seal, and seeking outside funding to support and expand the organization's services. All actions

must follow applicable laws and the Corporation's governing documents. For more information, see the bylaws in the appendix.

The Board may initiate and carry out any program or activity that is not in conflict with or inconsistent with any law and which is not in conflict with the purposes for which charter schools are established, and consistent with the Articles of Incorporation. The Board may execute any powers delegated to it by law, and shall discharge any duty imposed by law upon it and may delegate to an employee of the Charter School any of those duties with the exception of budget approval or revision, approval of the fiscal audit and performance report, and the adoption of Board policies. The Board, however, retains ultimate responsibility over the performance of those powers or duties so delegated. Other key and Executive employee roles and positions seen in the following organizational charts are described below.

Board members participate in retreats and trainings to support ongoing development and stay informed about key school initiatives. These sessions include updates on the State Audit, legal and financial compliance, and accountability and data monitoring. In the 2024 calendar year, the following board trainings and retreats were held:

- **March 15th, 2024-** Form 700 Training Provided by Young, Minney & Corr
- **August 24th, 2024-** Board Retreat- Strategic Planning, Gamification & The Brain, Future Data Analysis, Board Training Planning, Twin Rivers Oversight Reports
- **September 4th, 2024-** Board Training on Governance and Financial Oversight
- **October 31, 2024-** Collaborative Circles Board Training Session #1

Governance Structure

Highlands Community Charter School (HCCS) affirms that its Board of Directors serves as the sole governing authority of the Charter School. The Board holds ultimate responsibility for the governance and oversight of HCCS, with each member carrying a fiduciary duty to safeguard the long-term success and sustainability of the organization. The Board is charged with addressing all major governance and operational matters in accordance with applicable laws, Board policies, and the terms of the Charter. Key responsibilities include overseeing the school's financial health, ensuring proper expenditure and accountability of public funds, establishing general and curriculum-related policies, approving and monitoring the annual budget and financial procedures, and engaging in strategic planning and fundraising efforts. The Board is also responsible for the selection, evaluation, and, if necessary, dismissal of the Executive Director, as well as the approval and oversight of personnel policies. In addition, the Board works to build broad-based support and strategic partnerships that further the mission of the school. To fulfill its oversight role, the Board meets regularly to review academic and operational data, financial reports, and compliance documentation. Through these processes, it ensures alignment with the school's mission, holds leadership accountable, and monitors key performance indicators to drive continuous improvement.

HCCS has adopted a conflict of interest code that complies with the Political Reform Act, Corporations Code Conflicts of Interest rules, and any charter-specific conflicts of interest regulations. Notwithstanding any rule, regulation, provision, or Corporation Bylaw to the

contrary, the HCCS' Board of Directors and the Charter School shall at all times and in all respects comply with all conflict of interests laws generally applicable to the District's Board of Trustees, including but not limited to Government Code section 1090 and the Political Reform Act. The responsibilities of the HCCS Board, as further outlined in the Bylaws, include but are not limited to:

- Uphold the Vision of the Charter School.
- Oversee the implementation of the HCCS's charter.
- Provide notice and hold meetings in compliance with the Brown Act.
- Create and implement goals for the Charter School.
- Ensure compliance with applicable law, such as the Public Records Act and policies such as the Conflict of Interest Code.
- Provide oversight of instructional programs and materials.
- Approve and provide input for student policies.
- Monitor management of school liabilities, insurance, health, safety and risk-related matters.
- Receive and review quarterly financial reports and the yearly financial audit.
- Work with the chief administrator to set goals.
- Enact policies to support the successful operation of HCCS.
- Attend ethics training (AB 2158).

Governance Procedures and Operations

Meeting Requirements and Procedures

All Board meetings are held in accordance with the Brown Act and Education Code Section 47604.1(c) and are open to the public; each agenda includes time for community input regarding Highlands Community Charter School. Governing Board meeting agendas are posted at the entrance of the Charter School's main office and on the Highlands Community Charter School website at least 72 hours prior to any regularly scheduled meeting and at least 24 hours in advance of special meetings. Emergency meetings may be held without standard notice when immediate action is required. Meetings are held at the principal office of HCCS or other publicly accessible, non-discriminatory locations within California designated by Board resolution or meeting notice. Teleconferencing is permitted if the public can attend from all listed locations, and votes are conducted by roll call. Under AB 2449 (effective through January 1, 2026), Board members may also participate remotely under certain conditions without disclosing their location, provided public access is preserved. Meeting minutes are posted to the HCCS website within 72 hours of approval and are available upon request. The Board meets regularly—typically monthly during the school year—and meetings are calendared annually, with rescheduling allowed for holidays.

Decision-Making Procedures

HCCS retains General Counsel to ensure Brown Act compliance for all HCCS board activities, including decision-making procedures. Board members have also been provided with Brown Act reference materials and may participate in yearly meetings held by California Charter Schools Association ("CCSA") and/or Charter Schools Development Center ("CSDC"), which feature ethics presentations, including Brown Act and conflict of interest reviews. All Board members are encouraged to participate in such presentations.

A majority of all voting Board members constitutes a quorum for all business transactions except adjournment. Every action taken or decision made by a majority of Board members present at a duly held Board meeting is considered an act of the Board, subject to more stringent provisions of the California Nonprofit Public Benefit Corporation Law, including, without limitation, those provisions relating to:

- Approval of contracts or transactions in which a director has a direct or indirect material financial interest,
- Approval of certain transactions between corporations having common directorships,
- Creation of and appointments to committees of the board, and
- Indemnification of directors.

Meetings may be held by telephone or other telecommunications equipment pursuant HCCS Bylaws and in accordance with the terms and provisions of the Ralph M. Brown Act, California Government Code Sections 54950, et seq., as said chapter may be modified by subsequent legislation.

Educational Partner Involvement

Educational Partner Involvement Plan and Process

It is critical that all students are invested in the success of the Charter School and have a voice in matters critical to the Charter School's success. HCCS believes that student investment is integral to a successful student education, and it is commonly accepted that student involvement can have positive and long-lasting educational results. Therefore, HCCS makes every effort to ensure that student input is considered in the Board's decision-making process. To assure the greatest involvement, HCCS provides multiple opportunities for student feedback.

As part of its continuous improvement efforts, Highlands Community Charter School (HCCS) conducts Educational Partner (EdPartner) events throughout the year, beginning each fall with the distribution of staff and student climate surveys. Starting in the 2024–2025 school year, both surveys are administered via SurveyMonkey to enhance anonymity and encourage honest, constructive feedback.

The staff survey is distributed first and has seen steadily increasing participation, with 346 Highlands staff and 13 Equity Initiatives staff responding in 2024–2025—up from 223 respondents the previous year—resulting in a participation rate of 92.76%. The survey includes questions across several key areas: mission, vision, and schoolwide goals; communication and leadership; workplace culture and environment; onboarding and support; compensation and benefits; digital tools and technology; professional development and growth; and curriculum and instruction. These categories are designed to assess organizational strengths and identify areas for growth. Survey results are presented to the HCCTS Board of Directors and shared with all staff through infographic posters displayed at every school site to promote transparency and engagement.

The student climate surveys are sent out to all students in eleven different language options. In the 2024-2025 school year, the survey was hosted on Survey Monkey, which allowed for ease of

use for students as well. Teachers are encouraged to have their students take the survey during class to increase participation.

Highlands' student survey was available to students in 12 languages, including English, Spanish, Russian, Ukrainian, Dari, Pashto, Arabic, Chinese, Vietnamese, Armenian, Turkish, and Hmong, and resulted in 3,610 student responses, compared to 2,169 last year.

In February 2024, HCCS held the Reading with Relevance event to gather information on the curriculum and its impact. Highlands engaged 36 educational partners during this event and had them participate in the Reading with Relevance Book Fair Impact Survey afterward.

During the Black History event in February 2024, Highlands focused on engaging educational partners and collecting feedback. The Black History Month Assembly Feedback Form from February 2024 garnered 27 responses from educational partners.

During the Building a Community School Lunch and Dinner sessions, Highlands concentrated on gathering suggestions for improvements in the domains of wellness, health, social-emotional support, additional academic opportunities, CTE, and community enhancements. HCCS held discussions with educational partners, which resulted in 22 summarized responses on the Building a Community School survey.

In March 2024, Highlands hosted a meeting with principals to gather their insights on the key challenges and opportunities for growth. Following the discussions, participants were requested to complete the Principal Feedback Survey, which provided subsequent data from 6 principals.

In April 2024, HCCS sent out the Leadership Survey to collect the directors' feedback on the following categories: communication, job and role clarity, work environment, recognition, relationships, curriculum, and professional development. HCCS has gathered responses that highlight the enhancements across the categories, alongside some challenges. Seven of the directors participated in the Survey.

In April 2024, Highlands facilitated a Your Voice Matters event for CTE programs at the Grand Avenue campus. HCCS engaged 42 educational partners and gathered feedback on strengths, improvement areas, and solutions.

In the 2023-2024 school year, Highlands hosted educational partner events titled Your Voice Matters at 11 locations, compared to one location in the previous year. The purpose of visiting more sites was to get more feedback from students with different needs at various school locations. For the 2023-2024 school year, HCCS gathered educational partner feedback from a total of 830, including 26 responses from students who enrolled in the Equity Initiatives program at the “Your Voice Matters” events, compared to 270 in the 2022-2023 school year. Combined with the all-staff climate surveys and student surveys, the principal meeting, leadership feedback survey, and other educational partner events, HCCS engaged 4,926 while gathering educational partner feedback.

Each educational partner event had a facilitator and notetaker who led the discussion in three areas: school strengths, growth opportunities, and possible solutions. The responses were recorded in Google Forms. HCCS analyzed the data to identify growth areas and build the LCAP goals and actions. HCCS found a high level of consistency in climate surveys and educational partner responses. After careful review, HCCS used this feedback to determine where to increase and decrease spending.

HCCS encourages students and staff to attend, speak, and present at Board meetings; HCCS requests that students and staff complete various surveys. HCCS proactively reaches out to students regularly to encourage them to meet with the counselors to continue discussing their goals and needs, and HCCS is proudly responsive to the feedback it receives.

HCCS encourages and teaches the students how to maintain direct influence over the direction of their educational process. Students have equal say, and sometimes, greater say, in their learning according to their academic needs. Teachers collaborate with students, other teachers, staff, administration, and community partners to determine what new programs and resources would be most beneficial to student achievement and well-being.

In planning to draft the LCAP, leadership consults with teachers, administrators, other school personnel, partners, and students in developing the annual update. This feedback is provided during EdPartner events. Following these events, the data is reviewed, proposals for a new funding formula are created and presented to the board of directors as well as the executive cabinet. Goals are then amended based on recommendations provided from the school community. Amended plans are then presented for feedback to staff, students, and all other interested parties at regularly scheduled meetings. All stakeholders are invited to submit public comments and final plans are approved at a public board meeting. HCCS will consider TRUSD recommendations and comments when drafting its LCAP. The Charter School shall present a report on the annual update to the LCAP and the local control funding formula budget each year as part of a nonconsent item at a regularly scheduled Board meeting.

Additionally, HCCS uses the school website to keep the students informed of all upcoming activities, important calendar items, and Board meeting minutes. HCCS promotes student involvement by encouraging students to contribute to and drive website content through the sharing of their personal stories which are connected to the website via an Instafeed of social media content.

The Board of Directors may, in its discretion, form Committees, in accordance with the Bylaws and applicable law, to accomplish the objectives and responsibilities of the Board and to ensure that the school achieves its mission and goals.

Element E Employee Qualifications

"The qualifications to be met by individuals to be employed by the charter school." (Ed. Code § 47605(c)(5)(E).)

Qualified Employment

HCCS shall recruit professional, effective, and qualified personnel for all administrative, instructional, instructional support, and non-instructional support roles who align with the school's instructional philosophy, mission, and vision. In accordance with Education Code 47605(e)(1), HCCS shall remain nonsectarian in its employment practices and all other operations. The Charter School shall not discriminate against any individual (employee or pupil) on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, immigration status, or any other characteristic included in the definition of hate crimes set forth in Section 422.55 of the Penal Code, or based on association with an individual who has any of the aforementioned characteristics.

All employees must possess the personal qualities, knowledge, and relevant experience outlined in the responsibilities and qualifications section of the posted job description, as determined by HCCS staff in coordination with Human Resources. HCCS staff and Human Resources personnel shall recommend applicants suitable for employment. Following the interview process, final approval shall rest with the Executive Director.

Executive Leadership 2025-2026

Executive Director, Jonathan Raymond
Chief Business Official, Matthew Lemos
Chief Operations Officer, Teresa Cummings
Chief Academic Officer, Eric Chapman

For more information on the resumes of each of the cabinet members and their job descriptions, see the appendix.

Administrative Services Credentials

HCCS supports and encourages leadership to obtain administrative services credentials through the CTC. HCCS currently partners with two programs to do this: the Sacramento County Office of Education and the San Diego County Office of Education. As of June 2025, 14 employees at HCCTS have participated in a preliminary and or clear administrative services credential program or have been accepted and will begin in the next cohort.

HCCTS administrators or employees who have completed or are currently enrolled in preliminary or clear administrative credential programs:

1. Eric Chapman, Chief Academic Officer
2. Teresa Cummings, Chief Operations Officer
3. Mayra Valdivia, Senior Director of School Services

4. Christina Martinez, Director of CTE, Workforce and Adult Education
5. Andrew Michaud, Director of Instruction and Professional Learning
6. Isa Cacho, Director of Student Services
7. Melissa Roberson, Director of Accountability and Assessment
8. Carol Zheng, Curriculum Coordinator
9. Niccole Scrogins, Admin on Special Assignment
10. Maya Perry, CICA Principal
11. Khrystsina Talstyka, HCCS Principal

The following employees have been accepted to a preliminary administrative services credential through the Sacramento County Office of Education and will begin in the next cohort:

1. Catherine Thirkill, CASAS Coordinator
2. Vicki Neal, HCCS Principal

HCCS has developed and adopted Board Policy 4331 – Administrative Credential Reimbursement, which outlines the reimbursement procedures for participation in approved credentialing programs. Additional details are provided in the appendix.

Evaluations

In the 2024-2025 school year, the Board Policy: 4115 Personnel Evaluation and Supervision outlined the maintenance of a comprehensive personnel evaluation policy to support continuous improvement, accountability, and alignment with the school's mission. This policy applies to all certificated and classified staff and outlines clear expectations for professional conduct, job performance, stakeholder engagement, and compliance. Evaluations are conducted annually and may include observations, self-assessments, performance appraisals, and goal-setting reviews, depending on the employee's role. Supervisors are responsible for providing timely feedback, maintaining documentation, and supporting employee growth. All evaluation records are kept confidential and stored in personnel files in accordance with privacy laws. For more information regarding Board Policy: 4115 Personnel Evaluation and Supervision, see the appendix.

Frontline is an integrated system used for payroll, employee evaluation, and professional learning management. As part of its evaluation functionality, the platform securely stores all employee evaluations and monitors performance trends over time. It facilitates a standardized evaluation process across the organization and provides automated reminders to supervisors regarding upcoming deadlines. All employees are required to review and electronically acknowledge their evaluations within the system.

Teacher Credentialing

HCCTS agrees that all teachers should hold a valid teaching credential for their certificated assignment in conformance with Education Code Section 47605(l)(1) and that classroom paraeducators should not be permitted to teach as the teacher of record or without the immediate supervision of an appropriately credentialed teacher without valid teaching credentials for their assignment. In prior years, teachers at HCCS held adult education credentials as recommended by the CTC and the San Diego County Office of Education. In February 2025, the CTC decided to enforce K-12 teaching credentials.

HCCS has already implemented the following to improve compliance and accountability. In the 2024–2025 school year, HCCTS significantly changed its credentialing and staffing procedures. The school established a credentialing support team of internal staff and credentialing consultants and reviewed more than 300 staff profiles. Individual credential pathway plans were developed, and 269 one-on-one consultations were held with teachers. HCCTS launched a partnership to create an intern credential pathway with tuition coverage for staff and offered reimbursement for credential exam fees and coursework through Board Policy 4112.3: Teacher Credentialing Reimbursements. All staff with noncompliant assignments were notified, and instruction in July 2025 was suspended to allow credential corrections before the next school year.

Board Policy 4112.2 now requires all certificated staff to hold valid and appropriate credentials at the time of hire and to submit timely proof of renewal. In alignment with updated guidance from the CTC and CDE—and following the loss of DASS status—HCCTS has transitioned away from Adult Education credentials. All teachers are now required to hold single-subject or multiple-subject credentials.

To support compliance, HCCTS created a centralized credentialing dashboard and updated its use of Frontline to track credential status, staff evaluations, and assignment alignment.
Per Board Policy 4112.2, certificated employees must:

- Hold the appropriate credential for their assignment upon hire;
- Maintain active credentials and complete renewals as required;
- Adhere to applicable state and federal regulations;
- Submit proof of credential validity and renewal to Human Resources within required timelines.

For more information from the Board Policy 4112.2: Credentialing Requirements Communications, see the appendix.

Instructional Paraeducators
Instructional paraeducators at Highlands Community Charter School (HCCS) play a vital role in supporting certificated teachers by providing instructional assistance and academic support in students' primary languages. To ensure all paraeducators meet minimum qualifications, HCCS requires a high school diploma or equivalent, successful completion of an English proficiency exam with a score of 70% or higher, and the ability to communicate effectively with diverse student populations. In alignment with state and federal requirements, HCCS verifies educational qualifications and exam results during the hiring process and maintains documentation to ensure compliance.

Applicant Screening
All job applicants at HCCS go through a rigorous pre-employment screening process to ensure they meet all requirements and qualifications for the role they are applying for. HCCS uses the website Edjoin to post job openings. This is also where new applicants apply for positions. Within Edjoin, HR is able to filter applications based on minimum qualifications. Only employees who meet these requirements are eligible for interviews. HCCS BP 4111 outlines the hiring process for external candidates. As part of the pre-employment job application, candidates

are asked about their relationships to other employees in order to ensure that no relatives are involved in the hiring decisions and that family members do not report to each other.

HCCTS Hiring and Anti-Nepotism Policy
HCCTS has adopted Board Policy 4212.8, prohibiting relatives from participating in hiring or evaluation processes involving family members to address concerns about nepotism and favoritism. Interviewers must complete disclosure forms, and job postings, evaluations, and offers are now tracked and reviewed centrally by the HR department to ensure consistency and equity.

Organizational Chart & Job Descriptions
HCCTS regularly updates the organizational chart for accuracy based on the roles and structures needed within the organization. During the 2024-2025 school year, HCCTS drafted and revised a total of 25 job descriptions. The purpose is to ensure role clarity for all employees and ensure there is consistency between the work performed, role requirements, and appropriate pay.

Hiring Process
The hiring process at Highlands Community Charter School (HCCS) is designed to ensure consistency, transparency, and alignment with organizational needs and compliance standards. It begins with the submission of a Position Control Form (PCF) whenever a position needs to be backfilled or newly created. The PCF includes essential details such as the job description and a designated leadership contact, and is reviewed weekly by the Executive Cabinet. Upon approval and required signatures, the Human Resources team posts the position on EdJoin.org and communicates the posting status to the hiring manager. This step ensures that each job opening is intentional, well-defined, and appropriately authorized.

Once posted, hiring managers review applicants within EdJoin by evaluating qualifications in relation to the job description. Candidates are categorized as prescreened, interviewed, or removed, providing a clear record of each applicant's status. Notes from prior interviews are required for third interview requests and must be documented either via email or directly in the EdJoin system. For current staff changes, such as promotions or changes in FTE, an EE Update—rather than a PCF—is submitted to accurately reflect the employee's new assignment. Altogether, this structured process supports effective hiring decisions while maintaining clarity, documentation, and compliance across the organization.

Employee Positions and Qualifications

Employee Positions
See Appendix for the 2025 Organizational Chart.

Professional Development
In the 2024–2025 school year, HCCS adopted a Professional Development Policy to support the continuous growth of all staff: 4131 BP Professional Development. The policy aligns professional learning with HCCS's mission, vision, and strategic goals, with a focus on improving student outcomes and meeting legal and regulatory requirements.

HCCS offers a variety of professional development opportunities, including in-service training, workshops, online modules, and compliance-focused sessions. In accordance with Education Code 47605.1(f) and its WIOA partnership, HCCTS may conduct professional development at any location in California.

The Executive Director oversees alignment and implementation, while leadership identifies needs and encourages staff participation. Employees are expected to engage actively and apply their learning. Funding is provided in line with organizational priorities, and travel is reimbursed per Board Policy 3350. HCCS evaluates professional development effectiveness through staff feedback, performance data, and evidence of improved practice, with a commitment to equity and access for all staff.

In 2024-2025, HCCS offered extensive internal and external professional development, covering topics like CPR, active shooter response, equity, SEL, and leadership. HCCS provides two all-staff mandatory Professional Development opportunities throughout the year: three days in August and two days in May. All staff training includes Title IX training, Mandatory Reporter & Child Abuse Prevention Training, Sexual Harassment Prevention Training, FERPA, Workplace Violence Prevention Training, and Comprehensive School Site Safety Training.

Teachers and paraeducators receive training on assessments such as the California Science Test (CAST) and English Literacy and Civics (EL Civics) assessments, end-of-level assessments, and CASAS assessments. Additionally, teachers and paraeducators receive training on any curriculum updates and curriculum instructional strategies. Teachers in the process of getting their credential or who have their preliminary credential are assigned a mentor teacher and must meet with them regularly.

Highlands Community Charter School (HCCS) recognizes the critical role of targeted professional development in fostering staff effectiveness and advancing organizational goals. While HCCS offers all-staff professional development days to promote schoolwide alignment and collaboration, a dedicated portion of these days is intentionally reserved for department-specific professional development. This approach ensures that staff receive training that is both relevant to their roles and responsive to the unique needs of their departments.

To coordinate these efforts across departments, the Chief Academic Officer—or their designee—works collaboratively with department directors or lead team members to plan and implement tailored professional development sessions. This decentralized model promotes professional learning that is contextualized, job-embedded, and aligned with departmental objectives, while still supporting the broader mission and strategic priorities of HCCS. For more information on department professional development, see the appendix.

Element F Health and Safety Procedures

"The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall require all of the following
That each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237.

For all schools, the development of a school safety plan, which shall include the safety topics listed in subparagraphs (A) to (M), inclusive of paragraph (2)of subdivision (a)of Section 32282. For schools serving pupils in any of grades 7 to 12, inclusive, the development of a school safety plan shall also include the safety topic listed in subparagraph (N) of paragraph (2) of subdivision (a) of Section 32282.

That the school safety plan be reviewed and updated by March 1 of every year by the charter school." (Ed. Code § 47605(c)(5)(F).

Health and Safety Policies and Procedures

Custodian of Records
HCCS Community Charter School designates the Executive Director to serve as the Charter School's Custodian of Records per California Department of Justice requirements. The Executive Director is confirmed as the Custodian of Records by the California Department of Justice.

Promoting Student Health and Wellness
HCCS will ensure the safety of the students and staff by complying with all applicable state and federal safety laws. HCCS shall adhere to Board policies pertaining to the safety and health of all employees and students.

Emergency Operations Guide
The Emergency Operations Guide for Highlands Community Charter School (HCCS) is a comprehensive manual that outlines the protocols, procedures, and responsibilities necessary to ensure the safety and well-being of students, staff, and visitors in the event of an emergency. Designed to comply with California law, the guide establishes HCCS staff as disaster service workers and provides step-by-step instructions for responding to a wide range of emergencies—including natural disasters, active shooter situations, hazardous material releases, and more. It includes critical contact information, evacuation procedures, communication tools, and detailed roles within the Incident Command System, ensuring a coordinated and effective response to any crisis. All staff are required to review the guide annually and be prepared to carry out assigned emergency duties. For more information about the emergency operation guide, please refer to the appendix.

Board Policies
- 5125 BP Student Records
- 5131 BP Student Conduct

- 5132 BP Student Dress Code
- 3542 BP Vehicle Use
- 5144 BP Student Discipline
- 5131.6 BP Alcohol and Other Drugs
- 5144.1 BP Suspension and Expulsion
- 5145.2 BP Student Freedom of Expression
- 5131.7 BP Weapons and Dangerous Instruments
- 1250 BP Registration of Visitors, Guests, and Outsiders
- 5142 BP Children on Campus and the Early Learning Center
- 3516 BP School Safety & Emergency Preparedness Plan
- 4212.8 BP - Anti-Nepotism and Employment of Relatives
- 4119.12 BP - Title IX Policy Prohibiting Discrimination on the Basis of Sex
- 5145.71 BP - Title IX Policy Prohibiting Discrimination on the Basis of Sex
- 5141.31 BP Health Examinations, Immunizations, and Oral Health Assessments
- 5145.3 BP Harassment, Discrimination, Intimidation, and Bullying Prevention

Social and Emotional Support and Guidance
Teachers, counselors, and all staff members who engage with students are expected to listen actively, provide support, demonstrate empathy, and guide students in developing healthy social and emotional skills. Maintaining an open-minded, trustworthy, and respectful approach is essential to fostering student well-being. HCCS is also committed to identifying students in need of mental health support and actively collaborates with community mental health organizations to connect students with appropriate resources and services.

Staff Safety Training and Protocols
HCCS staff are trained annually in active shooter response protocols, aligned with the procedures outlined in the School Safety Guide and emergency response reports. These trainings are complemented by regular campus-wide drills and communication system tests to ensure preparedness and coordination across all school sites. In addition to emergency preparedness, all staff participate in annual CPR and first aid certification, as well as any additional health and safety training required by state or federal guidelines. Staff contracts reflect agreement to comply with these safety procedures.

Student Drills and Emergency Procedures
To promote student safety and readiness, HCCS conducts fire drills and evacuation drills regularly throughout the academic year at all school sites. These drills are documented and reviewed to ensure efficiency and compliance with fire code and safety regulations.

Academic, College, and Career Counseling
Counselors meet with students one-on-one throughout the school year to discuss academic progress and set SMART goals (specific, measurable, attainable, relevant, and timely). Counselors offer college and career counseling through individual and group sessions.

Background Checks
HCCS certifies that criminal record summary information has been obtained for all staff prior to employment. Classified staff submit fingerprints to a California and multi-state Live Scan prior to employment. The multi-state search should ensure all convictions are reported. Furthermore, HCCS shall comply with the applicable state and federal laws regarding the fingerprinting and background clearance of employees, contractors, and volunteers prior to engaging in employment, volunteerism, or contract services or any other unsupervised contact with students of the Charter School. The Charter School shall not hire any person, in either a certificated or classified position, who has been convicted of a violent or serious felony except as otherwise provided by law, pursuant to Education Code Sections 44830.1 and 45122.1. The HCCS Executive Director or appointed confidential designee shall review California Department of Justice and Federal Bureau of Investigation reports on prospective employees, contractors, and volunteers to determine whether an individual may provide service within the Charter School, except with respect to reports relative to her or himself, in which case a confirmed member of the Board or appointed confidential designee will review the respective report. The Executive Director or appointed confidential designee shall monitor compliance with this policy on a continuous and ongoing basis.

Mandated Child Abuse Reporting
All HCCS employees are mandated child abuse reporters and will follow all applicable reporting laws. HCCS provides all employees and other persons working on behalf of HCCS who are mandated reporters with annual training on child abuse detection and reporting, which shall occur within the first six weeks of each school year, or within the first six weeks of a person's employment if employed after the beginning of the school year.

Tuberculosis (TB) Risk Assessment and Examination
HCCS shall adhere to existing state laws regarding tuberculosis screening of employees. HCCS requires a tuberculosis risk assessment and, if necessary, examination for all employees working in direct contact with students prior to commencing employment and working with students, and for employees at least once each four years thereafter. Highlands Community Charter School certifies that applicable health record information has been obtained for all relevant employees and volunteers prior to initial employment.

Immunizations
HCCS adheres to all applicable laws and existing Board policy related to legally required immunizations and health-related issues for both employees and entering students at HCCS.

CPR/First Aid Training
All designated employees are CPR and First Aid trained as part of internal practice.

Medication in School
The Charter School will adhere to Education Code Section 49423 regarding administration of medication in school. The Charter School will adhere to Education Code Section 49414 regarding epinephrine auto-injectors and training for staff members; per AB 1651 (2023), the Charter School shall store emergency epinephrine auto-injectors in an accessible location upon

need for emergency use and include that location in annual notices required by law. To the extent the Charter School maintains a stock of albuterol inhalers to respond to respiratory distress in students, the Charter School shall comply with the requirements of Education Code Section 49414.7, including with respect to training, notices, and the stocking of albuterol inhalers.

Diabetes
The Charter School shall make type 1 diabetes informational materials accessible to the parent or guardian of a pupil when the pupil is first enrolled in elementary school.

Vision, Hearing, and Scoliosis
Students will be screened for vision, hearing, and scoliosis. The Charter School will adhere to Education Code Section 49450 et seq. as applicable to the grade levels served by the Charter School.

Suicide Prevention Policy
The Charter School shall maintain a policy on student suicide prevention in accordance with Education Code Section 215. The Charter School shall review, at minimum every fifth year, its policy on pupil suicide prevention and, if necessary, update its policy. Pursuant to AB 58 (2021-22), the Charter School will also review and update its suicide prevention policy to incorporate best practices identified by the California Department of Education's model policy, as revised.

Prevention of Human Trafficking
The Charter School shall identify and implement the most appropriate methods of informing parents and guardians of students in grades 12 of human trafficking prevention resources.

Menstrual Products
The Charter School shall stock the school's restrooms at all times with an adequate supply of menstrual products, available and accessible, free of cost, in all women's restrooms and all-gender restrooms, and in at least one men's restroom. The Charter School shall post a notice regarding the requirements of Education Code Section 35292.6 in a prominent and conspicuous location in every restroom required to stock menstrual products, as specified. This notice shall include the text of Education Code Section 35292.6 and contact information, including an email address and telephone number, for a designated individual responsible for maintaining the requisite supply of menstrual products.

All Gender Restrooms
As required by law, on or before July 1, 2026, HCCS will provide and maintain at least one all-gender restroom available at all sites.

California Healthy Youth Act
The Charter School shall teach sexual health education and human immunodeficiency virus prevention education to students in grade 12, at least once in high school, pursuant to the California Healthy Youth Act (Education Code Section 51930, et seq.).

Mental Health Education
If the Charter School offers one or more courses in health education to students in high school, the Charter School shall include in those courses instruction in mental health that meets the requirements of Education Code Section 51925, et seq.

Mental Health Information
The Charter School shall create and post a poster at the school site identifying approaches and resources addressing student health in compliance with Education Code Section 49428.5. The poster shall be displayed in English and the primary language(s) spoken by 15 percent or more of the students enrolled at the school site. The poster shall be prominently and conspicuously displayed in appropriate public areas that are accessible to, and commonly frequented by, students at the school site. The poster shall also be digitized and distributed online to students through social media, internet websites, portals, and learning platforms at the beginning of each school year.

Workplace Violence Prevention Plan
The Charter School shall establish, implement, and maintain, at all times in all work areas, an effective workplace violence prevention plan consistent with the requirements of Labor Code Section 6401.9.

Comprehensive School Safety Plan
The Charter School shall adopt a Comprehensive School Safety Plan, to be reviewed and updated by March 1 of every year, which shall include, but not be limited to: (1) an assessment of the current status of school crime committed on Charter School facilities and at Charter School-related functions; and (2) identifying appropriate strategies and programs that will provide or maintain a high level of school safety and address the Charter School's procedures for complying with applicable laws related to school safety, which shall include the development of all of the following pursuant to Education Code Section 32282(a)(2)(A)-(N):

- Child abuse reporting procedures
- Routine and emergency disaster procedures
- Policies for students who committed an act under Section 48915 and other Charter School-designated serious acts leading to suspension, expulsion, or mandatory expulsion recommendations
- Procedures to notify teachers of dangerous students pursuant to Education Code Section 49079
- A discrimination and harassment policy consistent with Education Code Section 200
- Provisions of any school wide dress code that prohibits students from wearing "gang-related apparel," if applicable
- Procedures for safe ingress and egress of pupils, parents, and employees to and from the Charter School
- A safe and orderly environment conducive to learning
- The rules and procedures on Charter School discipline adopted pursuant to Education Code Sections 35291, 35291.5, and 47605
- Procedures for conducting tactical responses to criminal incidents

- Procedures to prepare for active shooters or other armed assailants by conducting a drill, if this topic is covered in the School Safety Plan
- Procedures to assess and respond to reports of any dangerous, violent, or unlawful activity that is being conducted or threatened to be conducted at the school, at an activity sponsored by the school, or on a school bus serving the school
- Procedures to respond to incidents involving an individual experiencing a sudden cardiac arrest or a similar life-threatening medical emergency while on school grounds
- A protocol in the event a pupil is suffering or is reasonably believed to be suffering from an opioid overdose

The CSSP is a detailed, annually updated strategy for preparing for, responding to, and recovering from various emergencies and ensuring a safe learning environment for students and staff. This plan assesses campus risks, addresses potential safety concerns and threats, and outlines procedures for safety-related incidents

More information about the Comprehensive School Safety Plan can be found in the appendix.

Emergency Preparedness
Highlands Community Charter Schools shall adhere to an Emergency Preparedness Handbook drafted specifically to the needs of the facility in conjunction with law enforcement and the Fire Marshal. The handbook shall include, but not be limited to the following responses: fire, flood, earthquake, terrorist threats, and hostage situations. If assuming a facility that was previously used as a school site, any existing emergency preparedness plan for the school site shall be used as a starting basis for updating the handbook for the Charter School.

Staff shall receive training in emergency response, including appropriate "first responder" training or its equivalent.

Disaster procedures included in the School Safety Plan shall address and include adaptations for students with disabilities. To the extent an employee, parent/guardian, educational rights holder, or student brings concerns regarding the procedures to the Site Administrator and, if there is merit to the concern, the Site Administrator shall direct the School Safety Plan to be modified accordingly.

Bloodborne Pathogens
Highlands Community Charter School adheres to state and federal standards for dealing with bloodborne pathogens and other potentially infectious materials in the workplace. HCCS maintains a written infectious disease control plan designed to protect employees and students from possible infection due to contact with blood-borne viruses, including HIV and hepatitis B virus (HBV). This plan includes the training of staff and is included in the Charter School's Comprehensive School Safety Plan. Whenever exposed to blood or other bodily fluids through injury or accident, staff and students will be directed to follow the latest medical protocol for disinfecting and waste disposal procedures.

Drug Free/Alcohol Free/Smoke Free Environment
HCCS maintains a drug, alcohol, and smoke-free environment (workplace and campus).

Integrated Complaint and Investigation Procedure
HCCS utilizes an anonymous complaint process through a third-party vendor called Navex.

Navex
In the 2024-2025 school year, HCCTS partnered with Navex One to improve the process for receiving anonymous complaints and concerns from employees.

Navex is a vendor that allows employees to submit anonymous or non-anonymous complaints to employers. The school's goal for the use of Navex is to ensure clear communication regarding unethical or illegal activities within the organization while remaining anonymous and confidential. Employees can access Navex in three ways:

- By calling a phone line that is connected to HCCTS
- By accessing a website using a computer and a URL
- By scanning a QR code with a cell phone camera

Each Navex case is documented and then shared with the HCCTS Human Resources Department, where each case is investigated. Once enough information has been collected, the case is finalized, and actions are taken. This system has improved communication between employees and HR and has allowed improved transparency in reporting.

Discrimination and Harassment Policies and Procedures
HCCS is committed to providing a charter school free of discrimination, harassment, and retaliation. There are three components to this commitment. All employees receive and sign an employee handbook annually that informs them of HCCS's sexual harassment policy. Additional site-based sexual harassment training is taught to all staff, and annual training is facilitated through "Safe Schools," an online program.

HCCS is also committed to providing a workplace free of discrimination, harassment, and retaliation based upon the real or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, immigration status, nationality, national origin, ancestry, ethnic group identification, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or based on a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance, or regulation.

HCCS uses policies adopted by the Board regarding discrimination and harassment (including employee-to-employee, employee-to-student, student-to-employee, and student-to-student misconduct). Misconduct of this nature is very serious and will be addressed in accordance with Board policies. Any complaint of unlawful harassment, discrimination, or sexual harassment is actively investigated by HCCS, to include, where appropriate, the retention of outside investigators, in accordance with the Charter School's Uniform Complaint Procedure.

A copy of the policy shall be provided as part of any orientation program conducted for new and continuing pupils at the beginning of each quarter, semester, or summer session, as applicable, and to each faculty member, all members of the administrative staff, and all members of the support staff at the beginning of the first quarter or semester of the school year, or at the time that there is a new employee hired. The Charter School shall create a poster that notifies students of the applicable policy on sexual harassment in accordance with Education Code Section 231.6 and shall prominently and conspicuously display the poster in each bathroom and locker at the schoolsite and in public areas at the schoolsite that are accessible to, and commonly frequented by, pupils.

School Facility Safety
Highlands Community Charter School complies with Education Code 47610 by either utilizing facilities that are compliant with the Field Act or facilities that are compliant with the California Building Standards Code. HCCS adheres to laws specific to charter schools on the local and state levels regarding facilities. HCCS agrees to test sprinkler systems, fire extinguishers, and fire alarms annually at its facilities to ensure that they are maintained in an operable condition at all times.

Bullying Prevention
The Charter School shall adopt procedures for preventing acts of bullying, including cyberbullying. The Charter School shall annually make available the online training module developed by the CDE pursuant to Education Code Section 32283.5(a) to certificated school site employees and all other school site employees who have regular interaction with children.

Supporting LGBTQ Students
Through the completion of the 2029-30 school year, the charter school shall use an online training delivery platform and curriculum at least one hour of required LGBTQ cultural competency training annually to teachers and other certificated employees and maintain records of such training as required by Education Code Section 218.

SAFETY Act
Pursuant to AB 1955 (2024), employees of the Charter School shall not be required to disclose any information related to a pupil's LGBTQ+ identity to any other person without the pupil's consent unless otherwise required by state or federal law. This provision shall not limit a parent's ability to request school records on behalf of their child.

Homicide Threats
The Charter School shall comply with all requirements under Education Code Sections 49390-49395 regarding mandatory reporting in response to homicidal threats. All employees and Board members who are alerted to or who observe any threat or perceived threat in writing or through an action or a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity shall make a report to law enforcement.

Gun Safety Notice
At the beginning of the first semester, the Charter School shall distribute a notice to the parents/guardians of each student addressing California's child gun access prevention laws and laws related to firearm safety, utilizing the most updated model language published by the California Department of Education.

Athletic Programs
The Charter School shall comply with all applicable laws related to health and safety policies and procedures surrounding athletic programs at charter schools, including but not limited to providing information to athletes regarding sudden cardiac arrest and annually providing each athlete with an Opioid Factsheet for Patients.

Transportation Services
The Charter School shall comply with the requirements of AB 88 (2023-24), if applicable, relating to background checks, testing, and other requirements for individuals and entities providing transportation services to students.

Extreme Weather Policy
On or before July 1, 2026, the Charter School will develop, adopt, and implement a weather policy that includes protocols for extreme weather conditions, and incorporate the standardized guidelines developed by the CDE.

Title IX
HCCS complies with Education Code Section 221.61 by posting in a prominent and conspicuous location on its website the following information related to the federal regulations implementing Title IX of the Education Amendments of 1972:

The name and contact information of the Charter School's Title IX Coordinator, including the Title IX Coordinator's phone number and email address.

The rights of the pupil and the public and the responsibilities of the Charter School, which includes, but is not limited to, internet web links to information about those rights and responsibilities located on the website of the Office for Equal Opportunity and the U.S. Department of Education Office of Civil Rights (OCR), and the list of rights specified in Education Code Section 221.8.

A description of how to file a complaint under Title IX, which shall include all of the following:

A. An explanation of the statute of limitations within which a complaint must be filed after an alleged incident of discrimination has occurred, and how a complaint may be filed beyond the statute of limitations.
B. An explanation of how the complaint will be investigated and how the complainant may further pursue the complaint, including, but not limited to, web links to this information on the U.S. Department of Education OCR website.

C. A link to the U.S. Department of Education OCR complaint form, and the contact information for the office, including the phone number and email address for the office.

Element G Balanced Enrollment

"The means by which the charter school will achieve a balance of racial and ethnic pupils, special education pupils, and English learner pupils, including redesignated fluent English proficient pupils, as defined by evaluation rubrics in Section 52064.5, that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted." (Ed. Code § 47605(c)(5)(G).)

Assurances

Highlands Community Charter School shall:

- Be nonsectarian in all programs, admission policies, employment practices, and operations; not charge tuition; and not discriminate against any pupil on the basis of disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any characteristic listed in Penal Code § 422.55.
- Admit all pupils who wish to attend to the extent that space allows; admission shall not be determined by place of residence except as otherwise required by law; and, if applications exceed capacity, offers of admission shall be made by public random drawing (lottery) consistent with Ed. Code § 47605(d)(2).
- **Apply any enrollment preferences** only as permitted by law and as stated in the charter; **preferences will not require mandatory parent volunteer hours** as a condition of admission (Ed. Code §47605(e)(2)(B)(iv)) and **shall not limit access** for pupils protected by Ed. Code §47605(e)(2)(B)(iii).
- Preferences, if given, shall not result in limiting enrollment access for pupils based on nationality, race, ethnicity, or sexual orientation; and shall not result in limiting enrollment access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or economically disadvantaged pupils, or foster youth. (Education Code § 47605(e)(2)(B)(iii)).
- Not discourage enrollment in the charter school or encourage disenrollment/ transfer of a student from the charter school, for any reason, including but not limited to academic performance or any characteristics of the student listed under Education Code §47605(e)(2)(B)(iii).
- Not request or require submission of a student's IEP, Section 504 plan, or other records prior to admission, participation in any lottery, any pre-enrollment event, or as a condition of enrollment; HCCS may request only the information necessary to apply any admissions preferences stated in the charter.

Achieving and Maintaining Student Population Balance Plan & Goal

Highlands Community Charter School strives, through recruitment and admissions practices, to achieve a racial and ethnic, special education, and English Learner balance among its students that is reflective of the general population residing within the territorial jurisdiction that it serves.

HCCS will include an open enrollment policy. Students are considered for admission to the school without regard to ethnicity, national origin, gender, gender expression, gender identity, disability, sexual orientation or any of the characteristics listed in Education Code Section 220. (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics).

HCCS will implement a coordinated advertising and recruitment strategy to ensure that all students are informed of the educational opportunities available. These efforts will be ongoing throughout the year and will be designed to reach a broad and diverse audience. In alignment with HCCS's commitment to serving students from all ethnic and cultural backgrounds, a variety of advertising methods will be employed to promote equitable access and inclusive outreach.

Each year, HCCS analyzes enrollment trends in order to optimize efforts to recruit and retain students. An informal designated committee, composed of various stakeholders from the instructional, administrative, and operational sides of the school, meets regularly to discuss a problem-solving plan. Using both quantitative and qualitative feedback from the previous year, the plan allows the team to work together to clearly identify enrollment trends and their root causes, determine potential solutions, and generate strategies to successfully implement and track solutions in the upcoming year. Some of the valuable sources of data for this exercise come from student satisfaction surveys and non-mandatory exit interviews through which feedback is gathered.

Marketing: Advertising and Sponsorship to Increase Student Enrollment

Board Policy 1325, adopted in the 2024-2025 school year, establishes clear guidelines for how HCCTS may allocate funds for advertising, particularly as a strategy to increase student enrollment. All advertising expenditures must align with the school's mission and strategic goals and demonstrate a meaningful return on investment. Advertising is intended to raise awareness of HCCTS programs, highlight the benefits of enrollment, and promote the school's values to prospective students in the broader community.

Advertising campaigns must be pre-approved and fit within an annually reviewed budget that may not exceed 1% of the overall school budget without Board approval. Approval levels for advertising expenditures are tiered by amount, with campaigns over $100,000 requiring direct Board authorization.

Advertising efforts must clearly communicate the educational opportunities HCCTS offers—including adult high school diplomas, career preparation, and hands-on skill development—and use platforms that are cost-effective and aligned with the school's target audiences. All advertising must also comply with legal and ethical standards and adhere to brand identity guidelines to build recognition and trust within the community.

Additionally, advertising effectiveness is monitored and reviewed annually to ensure alignment with HCCTS's enrollment and engagement objectives, with quarterly reporting to the Executive

Director and an annual summary to the Board. For more information about the Board Policy 1325, see the appendix.

Element H Admissions Policies and Procedures

"Admission policies and procedures, consistent with [Education Code Section 47605] subdivision." (e). (Ed. Code § 47605(c)(5)(H).)

Admission and Enrollment Requirements

California Innovative Career Academy is nonsectarian in its programs, admission policies, and all other operations. HCCS will not discriminate on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code, or association with an individual who has any of the aforementioned characteristics [Ed. Code § 47605(e)(1)]. HCCS shall comply with all applicable laws governing minimum age requirements for registration in charter schools. The school shall not use any test, assessment, or interview to determine a student's eligibility for admission. However, following registration, all students may be administered diagnostic assessments, dubbed "placement tests," solely for the purpose of determining appropriate instructional placement. These assessments are used to inform grade-level placement and have no bearing on a student's eligibility for admission.

HCCS admits all students who meet the following criteria:

- Demonstrate a desire to enroll in the academic program
- Fall within the categories the school is legally authorized to serve
- Meet the eligibility requirement of being age 22 or older under the exclusive WIOA agreement
- Students do not have a U.S. high school diploma
- Submit a timely application

Required Documents

- Proof of Identification
- Proof of California Address (may be covered by proof of identification)
- HCCS Online Registration, which includes but not limited to the following:
    - Emergency Consent and Contact Information
    - National School Lunch Program Form (NSLP)
    - Home Language Survey
- CalJOBS Registration (Any forms required by a WIOA partner

Enrollment Period

Initial applications are accepted at any time during the school year. The HCCS admission process consists of the completion of an online student registration form. The admission process also includes students to participate in orientation, grade level placement, and academic planning.

Education Exclusively in Partnership with the Workforce Investment Opportunity Act (WIOA)

Per Ed. Code §§ 47612.1 and 47605.1(f)(1), HCCS provides instruction exclusively in partnership with the Workforce Investment Opportunity Act of 1998 through its partnership

agreement with the Sacramento Employment and Training Agency (SETA) or other WIOA organization. As such, HCCS only legally serves students who are receiving WIOA-funded services and does so under the terms of a Partnership Agreement. HCCS will provide a copy of the Partnership Agreement to the District on or before July 1, 2019.

The SETA or other WIOA service provider will provide HCCS students with the services specifically outlined in and attached hereto under "Tab 9—Workforce Agreements." HCCS will provide the District with documentation that confirms SETA or other WIOA service provider is qualified and authorized to provide such services contemplated in the Partnership Agreement.

Not Possessing a U.S. High School Diploma
Students who have a U.S. high school diploma (also known as a "regular high school diploma") will not be admitted to Highlands Community Charter School. Students who possess a GED, CHSPE, foreign credential, or any other alternative degree that is not fully aligned with the academic standards of the State of California may be admitted.

HCCS Proposed Lottery Process
If HCCS receives registrations in excess of its enrollment capacity, the lottery process will be used to select admitted students. HCCS will conduct a public random drawing facilitated by PowerSchool Enrollment School Choice, a third-party platform. The drawing will take place in a public setting at our Hillsdale Campus, located at 5655 Hillsdale Blvd, Sacramento, CA 95842. The lottery will be held up to two weeks before the start of the school year. Notice of the random drawing will be provided through written postings at the school site and on the school's website.

The lottery is open to the public, and prospective students are encouraged to attend; however, they are not required to be present at the time of the drawing to be eligible for admission. Results will be communicated to prospective students.

The lottery will be conducted using student numbers assigned to each prospective student. As numbers are drawn, they will be displayed for everyone in attendance to see. Once all available seats for a specific grade level, site, and schedule preference (regular daytime or evening) have been filled, the designated staff member will announce that any additional students drawn will be placed on the waitlist. Students will be added to the waitlist for that grade level, site, and schedule preference (regular daytime or evening) in the order their numbers are drawn.

Waiting List Priorities
A waiting list will be implemented when the number of applications exceeds the enrollment capacity for a specific grade level, site, and schedule preference (regular daytime or evening). In the event of a lottery, admission will be offered to prospective students based on lottery results until capacity is reached. Once capacity is met, all remaining names drawn will be placed on a waiting list in the order they were selected.

New applicants who register after the lottery deadline will be offered a seat if space is available in their grade level, site, and schedule preference (regular daytime or evening), or they will be added to the waiting list in the order the application was received. As seats become available, they will be offered to students starting with the lowest numerical ranking on the waiting list.

Notifying Students of a Seat Offering
Once a seat becomes available for an applicant who has the lowest numerical ranking on the waiting list, the student will be contacted by the Registration department to confirm their seat. Any admitted students who decline an offered seat or who fail to confirm by the deadline will lose their position to the next applicant on the waiting list. The waiting list is kept on file at the school and is valid for the duration of the school year.

Documenting the Fair Execution of Lottery and Waitlist Procedures
Copies of lottery results and waiting list(s) are readily available for inspection at the school office. These records will be maintained by the Registration department.

Communicating to All Interested Parties
Applications are available digitally online on the HCCS website. HCCS advertises the open application period to the surrounding communities and also communicates the timeline, rules, and procedures for the lottery process if necessary. Typical methods for these communications include, but are not limited to, web advertising, newspaper and magazine ads, radio ads, home mailers, and flyers.

Element I Annual Financial Audits

"The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority." (Ed. Code § 47605(c)(5)(I).)

Annual Audit Procedures

Contracting with an Independent Auditor
Highlands Community Charter School (HCCS) conducts an annual independent fiscal audit in compliance with Education Code Sections 47605(c)(5)(I) and 47605(m). All financial records are maintained in accordance with Generally Accepted Accounting Principles (GAAP), and audits are conducted in accordance with generally accepted auditing standards and the State Controller's K–12 Audit Guide.

In the 2024–2025 school year, the HCCS Board of Directors adopted Board Policy 3581 – Data Retention and Record Management, which provides a comprehensive framework for the classification, retention, and secure disposal of records by staff, contractors, and affiliates. The policy applies to all administrative, financial, personnel, student, and instructional records, including communications in paper, digital, audio, or video format. This policy ensures that all audit-related documentation is properly maintained and readily accessible. For additional details, refer to the appendix entry for BP 3581.

Audit Timeline Overview
In alignment with Board Policy 3100 – Budget Development and Oversight, audit procedures are embedded in the school's annual budget cycle and financial governance structure. Each spring, the Executive Director and Chief Business Official (CBO) recommend an independent auditor for approval by the Board of Directors. Following the close of the fiscal year, the CBO finalizes and closes the books, compiles the necessary financial documentation, and coordinates with the independent auditor to conduct the audit.

Upon completion, the auditor prepares a report, which is formally presented to the Board of Directors. The Executive Director and CBO review any audit findings or exceptions and coordinate the necessary corrective actions. In accordance with statutory deadlines, the finalized audit report is submitted to the charter authorizer (Twin Rivers Unified School District), the Sacramento County Superintendent of Schools, the State Controller's Office, and the California Department of Education (CDE) by December 15 of each year. For additional detail, see appendix reference BP 3100.

Audit Completion Timeline
The audit is expected to be finalized within six months of the fiscal year's end. The Board of Directors formally reviews each year's audit findings and takes appropriate action to ensure full compliance with state and federal requirements.

Selection Criteria for Independent Auditors
The selected auditor must be a Certified Public Accountant (CPA) with experience in public school and charter school finance and must be listed as an approved audit provider by the State Controller. HCCS is solely responsible for all associated audit costs. Where applicable, the audit scope will include federal compliance elements outlined in Office of Management and Budget (OMB) Circulars and related federal guidelines.

Resolution of Audit Findings
Any audit exceptions or deficiencies are first reviewed by the HCCS Audit Committee, which provides formal recommendations to the Board of Directors. The Board submits a written report to the charter authorizer describing how identified findings have been addressed, along with supporting documentation. In cases where findings remain unresolved at the time of submission, the report includes a corrective action plan and projected timeline for resolution. HCCS aims to address all audit findings within six months. Disputes regarding the resolution of audit findings will follow the dispute resolution procedures set forth in this charter.

Audit Committee Review & Board Action
The HCCS Audit Committee reviews the CAP and forwards recommendations to the Board of Directors for approval. The CAP remains on the Board's agenda for status reporting each meeting until all items are closed.

Authorizer Notification & Documentation
Within 30 days of Board acceptance, HCCS submits to the charter authorizer a written report describing how each finding has been addressed or will be addressed, with supporting documentation. If any item is not yet resolved, the submission includes the Board-approved CAP and projected completion dates.

Timelines & Monitoring
HCCS aims to fully resolve audit findings within six months of audit issuance. Progress is monitored against milestones; if delays arise, management provides revised timelines and interim controls to the Audit Committee and Board.

Material Weaknesses/Significant Deficiencies
Any material weakness or significant deficiency triggers immediate Board notification, expedited remediation steps, and—if warranted—the engagement of external advisors to strengthen internal controls.

Public Access and Appeals
Audit reports are public records and will be made available upon request. Any audit appeals or requests for summary review will be submitted to the Education Audit Appeals Panel (EAAP) in accordance with applicable law.

Element J Suspension and Expulsion Procedures

"The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that are consistent with all of the following:
For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil's side of the story.
For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:
(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.
(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.
(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five school days before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a homeless child or youth, or a foster child or youth, in the native language of the homeless or foster child's educational rights holder. In the case of a foster child or youth, the written notice shall also be provided to the foster child's attorney and county social worker. If the pupil is an Indian child, as defined in Section 224.1 of the Welfare and Institutions Code, the written notice shall also be provided to the Indian child's tribal social worker and, if applicable, county social worker. The written notice shall inform the pupil, the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker. The written notice shall inform the pupil, the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, or county social worker, or the Indian child's tribal social worker or, if applicable, county social worker initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).
(iv) A foster child's educational rights holder, attorney, and county social worker and an Indian child's tribal social worker and, if applicable, county social worker shall have the same rights a parent or guardian of a child has to receive a suspension notice, expulsion

notice, manifestation determination notice, involuntary transfer notice, and other documents and related information." Education Code Section 47605(c)(5)(J).

School Climate and Student Discipline System

Highlands Community Charter and Technical Schools (HCCTS) has adopted 5144.1 Suspension and Expulsion Board Policy to promote student learning and ensure campus safety. The policy is closely aligned with California Education Code Section 48900 et seq. and is reviewed annually for updates. Disciplinary actions, including suspension, expulsion, or involuntary removal, are applied fairly and consistently and are clearly outlined in the Student Handbook. Students and families receive written notice of these policies upon enrollment. The policy prohibits corporal punishment and outlines due process protections for all students, including those with disabilities or Section 504 plans. Involuntary removal requires written notice in the student's native language and an opportunity for a hearing. Students remain enrolled during the hearing process unless suspended or expelled for misconduct. For more information about Board Policy 5144.1, see the appendix.

HCCS Discipline Philosophy

Highlands Community Charter School prides itself on meeting student needs and developing action plans to address extenuating circumstances as they arise, recognizing that many students come to the organization due to hardships that have prevented the fulfillment of their educational goals. By addressing the needs of each student directly, barriers to student success are removed.

Should a disciplinary action be required, Student Success Team meetings (SSTs) and 504 plan meetings (when applicable) are organized to review individual extenuating circumstances. Counselors, teachers, directors, and other assigned personnel assist with addressing student needs by creating an action plan for both the staff and the student.

School-Wide Positive Behavior Intervention and Support

The Student Success Team (SST) is a problem solving and coordinating structure that assists students, teachers, staff, and community partners to develop positive solutions for maximizing student potential. It provides an opportunity for school staff, the adult student, community agencies, and other important people to present their concerns about an individual student. The SST focuses in-depth on one student at a time, and invites the adult student to participate in finding solutions. Through discussion and study, they plan a positive course of action and assign responsibilities, as well as monitor the results of a student. This process informs individual actions for students, including referral to the formal SST process and class-wide actions to address issues such as use of class resources, behavior management, and classroom modifications.

The following is implemented during the time of behavioral intervention:

- Asset Based Delivery: The SST always starts with a discussion of a student's strengths/assets and develops solutions that build on these strengths
- Problem Solving: The SST gathers background information regarding the student in the areas of school, home, family, health, and collaboratively brainstorms solutions to address areas of concern.

- Service Coordination: An action plan is developed for interventions and supports are implemented designed to address the students' needs; team members are assigned responsibilities for action items.
- Monitor Results: Actions items are monitored and a follow up SST meeting is scheduled to review the results/outcomes of interventions, make adjustments and continue to strategize positive solutions to ensure student success.

The coordination of school, home and community interventions improve student learning, and provide focused, positive support to teachers, students and staff. An SST can help students who are facing significant concerns relating to:

- Academics
- Attendance problems
- Behavioral/emotional issues
- Consideration for 504 services
- Retention
- Health issues (including substance abuse)
- Social adjustment

Tiered Behavior Intervention

Members of a Student Support Team:

- The Adult Student is always invited to participate in the decisions of their own education and goal setting.
- Designated administrator
- Classroom teacher(s)
- Resource personnel or specialists, such as community outreach consults, social workers, probation officers, community resources representatives, or mental health consultant
- Others invited as appropriate

All SST team members are active contributors, and the process defines special roles that some members of the team must fill to achieve the greatest positive outcome. Team members may change roles from one SST meeting to the next. However, during any meeting each team member's role is clearly defined before the meeting begins and then maintained throughout that meeting.

Facilitator

This person facilitates the working of the team and is the SST coordinator/leader. The success of the team depends largely on this person, who guides the flow of the meeting, and coordinates logistics before and after the meeting.

The facilitator directs but does not dominate the SST meetings, eliciting the most helpful contributions of the group and, most important, keeping a positive tone at the meeting. The facilitator directs the process with respect for all members and accommodates the needs of the group. The facilitator reassures and supports the efforts of colleagues and students.

Recorder

The recorder is responsible for documenting the SST meeting discussion, including students' strengths, concerns, interventions, action items and results. The recorder does this by using the Student Success Plan form or the Student Success Plan Follow-up Form.

Team Member

An effective team member is a positive contributor to the work of the team. The team members participate but do not control the flow of the meeting. Members come prepared with information about the student. Contributions that address difficult problem areas are positive, looking at constructive solutions, rather than characterizing, blaming, or stereotyping. Interventions are linked to the student's strengths.

The Adult Student as a Team Member

The Adult student is a full-fledged member of the SST, and they are always included. At the SST the student can share his/her perspective and concerns, contribute critical problem-related information from home, and share effective and ineffective home interventions. Many times, the adult student can clarify questions for the team and participate in the implementation of strategies developed by the whole team.

Outreach to Students

When connecting with students, care must be taken to ensure the most positive experience possible. Reaching out to and engaging the student is a key element in making the SST process successful. This effort involves much more than sending a written notice of a meeting or making a simple phone call. It involves extending oneself as a representative of the school and serving as a bridge for the student to the classroom and the larger school environment.

Adult students often resist this engagement. The barriers they present to any involvement may mask deeper fears or concerns. Being a student with school or social concerns can cause the student to have feelings of defensiveness or guilt. Many students may feel they will be unfairly attacked or made to feel worse than they already do in an SST meeting. They may have had former experiences with school meetings that were not successful, or they were not kept well informed, and they may be reluctant to trust another meeting at school.

Adult students may also have time, work, child care, or transportation issues barring their way to participating in the meeting. The SST process must include support to students to accommodate these very real issues. Any support provided has both symbolic and concrete meaning to students and contributes to the success of the meeting for both students and team members.

The person performing the outreach/engagement role must be sensitive to these issues. Information about the purpose of the meeting must be presented with an emphasis on the shared concerns and responsibilities. An explanation of the SST process must be provided, emphasizing that the process is a collaborative strategy that builds upon the student's strengths to attain the highest degree of success for the student. The student

must also be given an opportunity to ask any questions or share any concerns s/he may have with the upcoming meeting.

Adult students may also have time, work, child care, or transportation issues barring their way to participating in the meeting. The SST process must include support to students to accommodate these very real issues. Any support provided has both symbolic and concrete meaning to students and contributes to the success of the meeting for both students and team members.

Restorative Justice Practices
Student Success Team Follow-up Practices: The action plan created at the SST meeting is only as good as the follow-up practices that ensure its implementation.

Steps for Implementation

Case Management

It is very important to clearly define on the Student Success Plan who is responsible for each "action item" and to designate the administrator in charge of monitoring the implementation of the plan. This creates an accountability system that is monitored and reviewed when the team comes together again for the Follow-up SST meeting(s).

Case manager tasks may include:

meeting with the student and with the teacher regarding the action plan,
making phone calls and/or sending reminder notes to team members regarding action items, and/or helping students and their families follow through with referrals to on-site and community-based services.

Feedback to the Referral Source

The administrator, or a designated member, provides the referral source with feedback in a timely manner after the initial SST meeting. Even when the referral source is unable to attend the SST meeting, it is beneficial to involve them in some ownership of the plan, particularly classroom strategies, modifications and adaptations.

Student/Family Support

Working with students to be a part of the plan and to undertake actions on their own behalf is an important part of the follow-up. The student has to feel that s/he has some control over their own goals and plans, and that school staff are their allies, rather than the ones who have all the control. During the SST meeting the student is an equal partner in developing the action plan. The assigned administrator or another staff member who has a relationship with the student may want to check in with the student periodically to offer support toward implementing action items.

Follow-Up SST Meetings / Ongoing monitoring of student progress

At the end of every initial SST, a follow-up SST meeting date is set, preferably within 4-6 weeks. At the follow-up SST meeting action items are reviewed and student progress is discussed. The follow-up SST meeting is documented on the Student Success Plan

Follow-up Form. The action plan may need to be modified and additional interventions added depending on student progress.

Communicating, Teaching, and Modeling: Suspension Alternatives through Professional Development

Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. HCCS staff are trained and annually review de-escalation strategies for students in crises. These strategies focus on developing relationships with students, identifying and avoiding, when possible, triggers for undesirable behavior, and stabilize students who have been triggered safely through the use of de-escalation techniques.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians[3], detention during and after school hours, community service, use of alternative educational environments, suspension, expulsion, and involuntary removal.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this Pupil Suspension and Expulsion Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom HCCS has a basis of knowledge of a suspected disability pursuant to the IDEIA or who is qualified for services under Section 504 is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to regular education students except when federal and state law mandates additional or different procedures. HCCS will follow all applicable federal and state laws when imposing any form of discipline on a student identified as an individual with disabilities or for whom HCCS has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students and shall notify the District of the same.

No student shall be involuntarily removed by the Charter School for any reason unless the student has been provided written notice of intent to remove the student no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the student, and shall inform him or her of the right to initiate the procedures specified below for suspensions, before the effective date of the action. If the student initiates the

[3] The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term "parent/guardian" shall include these parties.

procedures specified below for suspensions, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision.

As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the suspension and expulsion procedures described below.

In-School Suspension

Authorization and Implementation of In-School Suspensions
HCCS offers in-school suspension as a means of reducing time missed from learning for behavioral issues. Should the need for in-school suspension arise due to a violation of student conduct violations, as defined by the Highlands Community Charter School Student Handbook, in-school suspension will be served through the enrollment of and attendance in the Highlands Community Charter School Alternative Education/Independent Study Program. An assigned advisor will work with the student to arrange a schedule for the student to engage in credit recovery and after-school tutoring as needed to ensure she is able to keep up with his/her school work while on suspension. Grounds for in-school suspension shall not exceed grounds for expulsion as defined by the Student Expulsion policy. Notification procedures and the maximum number of days for in-school suspension per incident as well as academic year are the same as out-of-school suspensions.

To ensure that HCCS adequately provide safety for students, staff, and visitors to the school and serve the best interests of students, in-school suspension will not be offered to any student who:

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence,
- Engaged in harassment, threats, or intimidation against a pupil or group of pupils or school district personnel, or
- Made terrorist threats against school officials or school property, or both.

Grounds For Suspension and Expulsion

Scope of Disciplinary Jurisdiction
A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at any time, including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

Suspension Offenses

Discretionary Suspension Offenses
Students may be suspended for any of the following acts when it is determined the student:

A. Caused, attempted to cause, or threatened to cause physical injury to another person.
B. Willfully used force of violence upon the person of another, except self-defense.
C. Unlawfully possessed, used, or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind.

D. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage, or intoxicant.
E. Committed or attempted to commit robbery or extortion.
F. Caused or attempted to cause damage to school property or private property, which incudes but is not limited to, electronic files and databases.
G. Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases.
H. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a student.
I. Committed an obscene act or engaged in habitual profanity or vulgarity.
J. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.
K. Knowingly received stolen school property or private property, which includes but is not limited to, electronic files and databases.
L. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
M. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
N. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
O. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, “hazing” means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. For purposes of this section, “hazing” does not include athletic events or school-sanctioned events.
P. Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this section, “terroristic threat” shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family’s safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the

personal property of the person threatened or his or her immediate family. Students may be also recommended for expulsion for conduct described in this provision.

Q. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

R. Caused, attempted to cause, threaten to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

S. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students, in a sufficiently severe or pervasive nature, to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading student rights by creating an intimidating or hostile educational environment. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

T. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act (defined as the transmission of a communication, including, but not limited to, a message, text, sound, or image, or a post on a social network internet website, or an act of cyber sexual bullying, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager) directed specifically toward a student or school personnel.
    1. "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including acts one or more acts committed by a student or group of students which would be deemed sexual harassment, hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
        i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
        ii. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
        iii. Causing a reasonable student to experience substantial interference with his or her academic performance.
        iv. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
    2. "Electronic Act" means the creation or transmission originated on or off the school site, by means of an electronic device, including, but not limited to, a

telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:

i. A message, text, sound, video or image.

ii. A post on a social network internet website including, but not limited to:

a. Posting to or creating a burn page. A "burn page" means an internet website created for the purpose of having one or more of the effects as listed in subparagraph (1) above.

b. Creating a credible impersonation of another actual student for the purpose of having one or more of the effects listed in subparagraph (1) above. "credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.

c. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious student or a profile using the likeness of attributes of an actual student other than the student who created the false profile.

iii. An act of cyber bullying.

a. For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

b. For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3. Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

U. A student who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a student who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (A) and (B).

V. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a

certificated school employee, with the Executive Director's and/or Director of Curriculum and Instruction (or assigned designee's) concurrence.

W. Cheated on school classwork or otherwise has acted in an unethical manner as determined by the Administration based upon school policies and guidelines.

Non-Discretionary Suspension Offenses/Non-Discretionary Expulsion Offenses
Students must be suspended and recommended for expulsion for any of the following acts when it is determined the student:

A. Possessed, sold, or otherwise furnished any firearm, explosive, or other destructive device unless, in the case of possession of any device of this type, the students had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Curriculum and Instruction (or assigned designee's) concurrence.
B. Brandished a knife at another person
C. Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053, et seq.
D. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 or former Section 288a of the Penal Code, or committed a sexual battery as defined in Penal Code Section 243.4.

Expulsion Offenses

Mandatory Recommendation for Expulsion
Students must be expelled for any of the following acts when it is determined pursuant to the procedures below that the student:

A. Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the students had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Curriculum and Instruction (or assigned designee's) concurrence. Possession of an imitation firearm is not an offense for which suspension or expulsion is mandatory.
B. Brandished a knife at another person.
C. Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053-11058.
D. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 or former Section 288a of the Penal Code, or committed a sexual battery as defined by Penal Code Section 243.4.
E. Possession of an explosive.

If it is determined by the Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the student shall be provided due process rights of notice and a hearing as required in this policy.

The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.

The term "destructive device" means (A) any explosive, incendiary, or poison gas, including but not limited to: (i) bomb, (ii) grenade, (iii) rocket having a propellant charge of more than four ounces, (iv) missile having an explosive or incendiary charge of more than one-quarter ounce, (v) mine, or (vi) device similar to any of the devices described in the preceding clauses.
A decision to expel a pupil shall be based on a finding that other means of correction are not feasible or have repeatedly failed to bring about proper conduct, or that due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

Discretionary Recommendation for Expulsion
Students shall be recommended for expulsion, unless the Executive Director or the Executive Director's designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the following acts:

A. Causing serious physical injury to another person, except in self-defense.
B. Possession of any knife or other dangerous object of no reasonable use to the pupil.
C. Unlawfully possessing any controlled substance, as defined in Health and Safety Code Sections 11053-11058 except for either the first offense of possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis, or the possession of over-the-counter medication for use by the pupil for medical purposes or medication prescribed for the pupil be a physician.
D. Robbery or extortion.
E. Assault or battery, as defined in Penal Code Sections 240 and 242, upon any Charter School employee.

Out-Of-School Suspension Procedures

Suspension Authority
HCCS will ensure that the process for investigating incidents and collecting evidence will be fair and thorough before a student is suspended. A student may only be suspended by the Executive Director and/or Chief Academic Officer, or in the case of the Executive Director and Chief Academic Officer's absence or inability to carry out proper suspension procedures, an assigned designee.

Conference
Suspension will be preceded, if possible, by a conference conducted by the Executive Director and/or Chief Academic Officer or an assigned designee with the student and, whenever practical, the teacher, supervisor, or Charter School employee who referred the student to the Executive Director and/or Chief Academic Officer and Instruction or assigned designee.

The conference may be omitted if the Executive Director and/or Director of Curriculum and Instruction or an assigned designee determines that an emergency situation exists. An

"emergency situation" involves a clear and present danger to the lives, safety, or health of students or charter school personnel. If a student is suspended without this conference, the student will be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student will be informed of the reason for the disciplinary action, including the other means of correction that were attempted before the suspension, and the evidence against him or her, and will be given a meaningful opportunity to present his or her version and evidence in his or her defense. This conference will be held within two school days, unless the student waives this right or is physically unable to attend for any reason, including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure to attend a conference with Charter School officials. Reinstatement of the suspended student shall not be contingent upon attendance by the student at the conference.

Student Notification
Students will have due process rights with regard to suspensions and expulsions. At the time of the suspension, an administrator or designee will make a reasonable effort to contact the student by telephone or in person. Initial contact will be followed by a written notice. This notice will state the specific offense(s) committed by the student. In addition, the notice will also state the date and time the student may return to school.

Maximum Suspension
The length of the suspension will be determined by the Executive Director and/or the Chief Academic Officer or an assigned designee based on the severity of the offense(s), as evidenced by witness statements, physical evidence, and other relevant factors. For students with IEPs, the students SST team will consult with the Executive Director and/or the Chief Academic Officer or an assigned designee on additional factors that are relevant to the decision. The length of suspension for students may not exceed a period of 5 consecutive days per suspension. The total number of days for which a student may be suspended from school shall not exceed 20 school days in any school year.

Meaningful Education for Suspended Students
A student on suspension will be provided meaningful access to education during the term of the suspension. An advisor of the suspended student will collect and provide the student with classroom material and current assignments to be completed at home during the length of the suspension. Missed tests will also be coordinated to be completed either at home or upon return. Written notification listing all required assignments will be given to the student, and all needed materials will be left in the front office.

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon

the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

Suspension Pending the Outcome of an Expulsion Process
Upon a recommendation of expulsion by the Executive Director and/or the Chief Academic Officer or the Administrative Panel, the student or representative will be invited to a conference to determine if the suspension for the student should be extended pending an expulsion hearing. This determination will be made by the Executive Director and/or the Chief Academic Officer or the Administrative Panel upon either of the following: 1) the student's presence will be disruptive to the education process; or 2) the student poses a threat or danger to others or property. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing. The maximum number of days a student may be suspended is thirty days (30) unless the expulsion hearing is postponed for good cause, in which case the suspension could be extended further. Procedures for providing a student on suspension with meaningful access to education during the term of the suspension pending the outcome of an expulsion process is outlined above in the section titled, "In School Suspension."

Expulsion Procedures

Rules and Procedures for Student Expulsion
Prior to making an expulsion recommendation, students will be provided adequate notice of the reason for disciplinary actions and a meaningful opportunity to be heard by invitation to a conference to determine if the student should be placed on suspension or if an existing suspension for the student should be extended pending an expulsion hearing. This determination will be made by the Executive Director and/or Director of Curriculum and Instruction (or assigned designee) upon either of the following findings:

- The student's presence will likely be disruptive to the educational process
- The student poses a threat or danger to others or property.

Upon this determination, the student placed on suspension or will have his/her suspension extended pending the results of an expulsion hearing.

Students will be recommended for expulsion if at least one of the following findings may be substantiated:

- Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
- Due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Authority to Expel
As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as

required by law. A student may be expelled either by the HCCS Board following a hearing before it or by the HCCS Board upon the recommendation of the Executive Director and/or the Director of Curriculum and Instruction, or a neutral and impartial Administrative Panel may be assigned by the Board as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the student nor a Board member of the Charter School's governing board. The Executive Director and/or the Director of Curriculum and Instruction or the Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the HCCS Board of Directors shall make the final determination.

Expulsion Procedures
Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing will be held within thirty (30) school days after the Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel or designee determines that the student has committed an expellable offense.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision on whether to expel. The hearing shall be held in closed session (complying with all student confidentiality rules under FERPA) unless the student makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing,
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based,
3. A copy of HCCS disciplinary rules which relate to the alleged violation,
4. Notification of the student's obligation to provide information about the student's status at HCCS to any other school district or school to which the student seeks enrollment,
5. The opportunity for the student to appear in person or to employ and be represented by counsel or a non-attorney advisor,
6. The right to inspect and obtain copies of all documents to be used at the hearing,
7. The opportunity to confront and question all witnesses who testify at the hearing, and
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

Reasonable accommodations, including language support for a student whose primary language is other than English will be made available at the hearing, upon request.

Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses
HCCS may, upon finding good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be

examined only by the HCCS Board or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the student.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days' notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time s/he testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. HCCS must also provide the victim with a room separate from the hearing room for the complaining witness's use prior to and during breaks in testimony.
3. At the discretion of the person or panel conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which s/he may leave the hearing room.
4. The person or panel conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness. The person or panel conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours s/he is normally in school, if there is no good cause to take the testimony during other hours.
5. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person or panel conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
6. If one or both support persons are also a witness, HCCS must present evidence that the witness's presence is both desired by the witness and will be helpful to HCCS. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom s/he believes is prompting, swaying, or influencing the witness.
7. The testimony of the support person shall be presented before the testimony of the complaining witness, and the complaining witness shall be excluded from the courtroom during that testimony.
8. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
9. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person

conducting the hearing that extraordinary circumstances exist requiring the evidence to be heard. Before such a determination regarding an extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

Record of Hearing
A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

Presentation of Evidence
While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board, Panel, or designee determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The Decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the student shall immediately be returned to his/her educational program.

Written Notice to Expel
The Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel, following a decision of the Board to expel, shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student. This notice shall also include the following: (a) Notice of the specific offense committed by the student; and (b) Notice of the student's obligation to inform any new district in which the student seeks to enroll of the student's status with HCCS.

The Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel, shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: (a) The student's name; and (b) The specific expellable offense committed by the student.

Disciplinary Records
HCCS shall maintain records of all student suspensions and expulsions at HCCS. Such records shall be made available to the authorizer upon request.

No Right to Appeal
The student shall have no right of appeal from expulsion from HCCS, as the HCCS Board's decision to expel shall be final.

Expelled Students/Alternative Education
HCCS shall ensure that students suspended from HCCS are provided with an appropriate alternative educational program (class work and homework assignments, etc.) during the period of the student's suspension from school. Whenever a student is expelled from HCCS, HCCS shall notify the student and the student in writing of the student's duty to attend the public school district in which the residency of either the parent or legal guardian is located. HCCS shall also notify the public school district in which the residency of either the parent or legal guardian is located whenever a student is expelled from HCCS.

Rehabilitation Plans

Rehabilitation Plans, Criteria, and Expulsion
Students who are expelled from HCCS shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the student may reapply to HCCS for readmission.

Readmission
The decision to readmit a student or to admit a previously expelled student from another school district or charter school shall be in the sole discretion of the Board following a meeting with the Executive Director or designee and the student and guardian or representative to determine whether the student has completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Executive Director or designee shall make a recommendation to the Board following the meeting regarding his or her determination. The student's readmission is also contingent upon HCCS capacity at the time the student seeks readmission.

Notice to Teachers
The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

Element K Employee Retirement Systems

"The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security." (Ed. Code § 47605(c)(5)(K).)

Certificated, Classified, and Other Staff Members

All full-time certificated employees at Highlands Community Charter School participate in a qualified retirement plan, including, but not limited to, the State Teachers Retirement System (STRS) or the federal Social Security system, based on their eligibility to participate. HCCS teachers participate in STRS. Non-certificated/classified staff participate in a 401A defined contribution plan.

HCCS employees may be eligible to participate in school-sponsored retirement and benefit plans, as outlined in policies adopted by the Board of Directors. In the event that the Internal Revenue Service enacts regulations prohibiting nonprofit entities from participating in publicly funded retirement systems such as the California State Teachers' Retirement System (CalSTRS), employees will instead be enrolled in Social Security and/or an alternative employer-sponsored retirement plan approved by the HCCS Board. Prospective employees are informed of their retirement system options during the application process and advised that employment with HCCS may affect their eligibility for continued participation in a previous retirement system. The Executive Director is responsible for ensuring appropriate retirement coverage is arranged for all staff. To support recruitment and retention of highly qualified personnel, HCCS offers a competitive compensation and benefits package that reflects market conditions and professional experience.

STRS reporting is conducted in collaboration with Charter Impact, HCCS's contracted fiscal services provider specializing in payroll taxes and CalSTRS compliance. While contributions and deductions are processed through HCCS's internal payroll department, Charter Impact oversees all reporting, auditing, and submission of required documentation to CalSTRS. The HCCS Finance Department performs regular reconciliations to ensure accuracy and alignment with STRS liability reporting cycles.

Element L Public School Attendance Alternatives

"The public school attendance alternatives for students residing within the school district who choose not to attend charter schools." (Ed. Code § 47605(c)(5)(L).)

Informing Students of Public School Attendance Alternatives

No student may be required to attend Highlands Community Charter School. Students who reside within the District who choose not to attend HCCS may attend school according to District policy or at another school district or school within the District in accordance with existing enrollment and transfer policies of their district or county of residence. Each student enrolled in HCCS is informed on admissions forms that the students have no right to admission in a particular school of a local education agency (or program of any local education agency) as a consequence of enrollment in HCCS, except to the extent that such a right is extended by the local education agency. This information is also communicated to students through orientation and registration staff, who are available to answer questions and provide support in multiple languages as needed.

Element M Rights of District Employees

"The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school." (Ed. Code § 47605(c)(5)(M).)

No public school employee will be required to work at Highlands Community Charter School. Employees of the District who choose to leave the employment of the District to work in the Charter School will have no automatic rights of return to the District after employment by HCCS unless specifically granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District.

All employees of HCCS will be considered the exclusive employees of HCCS and not of Twin Rivers (TRUSD), for the purposes of the Education Employment Relations Act, unless otherwise mutually agreed in writing. Employment by HCCS provides no rights of employment at any other entity, including any rights in the case of closure of HCCS.

HCCS has a board approved Employee Handbook which outlines employee rights as well as employee responsibilities. The Employee Handbook for 2024-2025 is linked in the appendix.

Employee Representation

Governing Law: The petition does not contain a declaration of whether or not the charter school shall be deemed the exclusive public school employer of the employees of the Charter School for the purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code.
--California Education Code Section 47605 (c) (6).

HCCS shall be deemed the exclusive public school employer of the employees of HCCS for the purposes of the Education Employment Relations Act ("EERA"). HCCS shall comply with the EERA.

HCCS is independent from Twin Rivers Unified School District, and any District employees who choose to work at HCCS shall resign their status as employees of Twin Rivers Unified School District or other school district and all of their rights and benefits thereof. All persons employed by HCCS shall not be deemed to be employees of Twin Rivers Unified School District for any purpose whatsoever. HCCS employees shall have no employment rights of any kind with Twin Rivers Unified School District.

HCCS will develop and maintain an Employee Handbook detailing the rights and responsibilities of all HCCS employees and shall comply with all anti-discrimination and sexual harassment employment laws applicable to public agencies. On or before the first day of operation, and by August 1 of each subsequent year, HCCS shall provide Twin Rivers Unified School District with two (2) copies of the Employee Handbook. HCCS shall annually update and revise the Employee

Handbook to reflect changes in the law and/or policies. HCCS shall be solely responsible for the hiring and compensation of HCCS employees, including but not limited to, salary, health benefits, sick leave, vacation, and retirement benefits. Twin Rivers Unified School District shall have no obligation to provide beginning teacher support or assessment to any HCCS teacher or employee.

HCCS will provide all instruction exclusively in partnership with the Greater Sacramento Urban League (GSUL). Per Education Code, all education provided by HCCS to GSUL will be provided at no cost to the partner or student. The Greater Sacramento Urban League will inform their clients about their ability to participate in HCCS. The Partnership Agreement between HCCS and GSUL will detail the terms required for clients of GSUL to join HCCS.

Element N Mandatory Dispute Resolution

"The procedures to be followed by the charter school and the chartering authority to resolve disputes relating to provisions of the charter." (Ed. Code § 47605(c)(5)(N).)

Written Notification of Mandatory Dispute Resolution

Disputes Arising from within HCCS

It is the intent of Twin Rivers Unified School District (TRUSD) and HCCS that complaints and disputes be resolved quickly and informally in an atmosphere of cooperation whenever possible. If employees are represented by a union, they must first exhaust their internal remedies before filing a grievance.

Complaints regarding the operation of HCCS, which do not involve TRUSD liability or issues of student health or safety, will be forwarded to HCCS for processing according to procedures adopted by HCCS prior to being addressed by TRUSD. HCCS procedures will include reasonably expeditious timelines and a full opportunity for students who are minors directly affected to express their concerns. TRUSD will not address the dispute if HCCS is able to fully resolve the problem unless HCCS requests TRUSD's involvement.

The Charter School shall also maintain a Uniform Complaint Policy and Procedures as required by state law.

Disputes between HCCS and TRUSD

HCCS and TRUSD will always attempt to resolve any disputes amicably and reasonably without resorting to formal procedures.

In the event of any dispute between HCCS and TRUSD, excluding revocation of the Charter but including audit exceptions and deficiencies, the complaining party will prepare a written dispute statement, which will be simultaneously submitted to the TRUSD Superintendent or designee and the HCCS Executive Director. The Executive Director and the Superintendent or designee will meet and confer within five (5) business days from the date of receipt of the written dispute statement and attempt to resolve the dispute. In the event that this conference fails to resolve the dispute, each party will identify two members of their respective governing boards who shall meet with the Superintendent or designee and the Executive Director within ten (10) business days and attempt to resolve the dispute. If this joint meeting fails to resolve the dispute, either party will, within five (5) business days following the meeting, submit the matter to the Sacramento County Superintendent of Schools. The parties agree to be bound by the County Superintendent's decision and will indicate as such when submitting the matter to the County Superintendent. If the County Superintendent declines to hear the matter, the parties may agree to submit their dispute to a mutually agreeable, neutral third-party mediator for resolution in accordance with any procedure determined and prescribed by the mediator and agreed to by the parties. Review by the County Superintendent or mediator will be held within forty-five (45) business days of receipt of the initial dispute statement. The cost of the mediator will be equally

shared between TRUSD and HCCS. If the parties are unable to resolve the matter before a mutually agreeable mediator, either party may pursue any other remedy available under the law.

Unless directed otherwise, all written dispute notifications between the District and Charter School shall be addressed as follows:

Dr. Steven Martinez
Twin Rivers Unified School District
5115 Dudley Blvd.
McClellan, California 95652

Jonathan Raymond
Highlands Community Charter School
1111 Howe Ave, Suite 540
Sacramento, California 95825

In the event that the TRUSD Board of Trustees believes that the dispute relates to an issue that could lead to revocation of the charter in accordance with Education Code Section 47607, this will be noted in the written dispute statement. However, participation in the dispute resolution procedures outlined in this section shall not be interpreted to impede the TRUSD's ability to proceed with revocation in accordance with Education Code Section 47607 and its implementing regulations.

HCCS shall timely notify TRUSD of any and all complaints filed against HCCS by its employees, students, and vendors, involving violations of the Charter, the MOU, State or federal law, or alleged financial mismanagement.

Revocation Protocol
HCCS and Twin Rivers Unified School District (TRUSD) agree that the dispute resolution procedure set forth above will not apply to any matter that could lead to revocation of the Charter. Prior to revocation of the Charter, TRUSD shall provide HCCS with written notice of its belief and an opportunity to meet with and respond to TRUSD within a reasonable time, which shall be not less than five (5) business days, prior to issuing a written notice to "cure and correct," unless TRUSD determines in writing that the violation constitutes a severe and imminent threat to the health or safety of the pupils in accordance with Education Code section 47607(g) and its implementing regulations. Thereafter, if TRUSD determines that revocation is warranted, it will comply with the procedures set forth in Education Code Section 47607.

Element O Charter School Closure Procedures

"The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records." (Ed. Code § 47605(c)(5)(O).)

Closure Agents

The following procedures shall apply in the event HCCS closes. The following procedures apply regardless of the reason for closure.

Closure of HCCS will be documented by official action of the Board of Directors of HCCS. The action will identify the reason for closure. The official action will also identify an entity and person(s) responsible for closure-related activities. The HCCS Board shall promptly notify TRUSD, within 10 business days, of the closure and the effective date of the closure. The entity responsible for implementing the closure procedures will be experienced in dissolution and closure of public educational programs and will comply with all legal requirements regarding the confidentiality of student records. The Chair of the Board of Directors will serve as the official contact for purposes of implementing the closure protocol set forth in the Charter and its plan for maintaining and transferring student records, payment of debts and liabilities, and distribution of remaining assets. Closure initiated by the HCCS Board will not take effect before the end of the normal school year in June unless agreed to in writing by TRUSD.

The HCCS Board of Directors will promptly notify students of HCCS, TRUSD, the Sacramento County Office of Education, the Charter School's SELPA, the retirement systems in which HCCS's employees participate (e.g., Public Employees' Retirement System, State Teachers' Retirement System, and federal social security), and the California Department of Education of the closure as well as the effective date of the closure. This notice will also include the name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure; the students' school districts of residence; and the manner in which students may obtain copies of their records, including specific information on completed courses and credits that meet graduation requirements.

The HCCS Board of Directors will ensure timely notification to the students of HCCS of the closure and will provide information to assist students in locating suitable alternative programs. This notice will be provided promptly, within ten (10) business days, following the HCCS Board's decision to close HCCS. HCCS will provide TRUSD with all student contact information promptly following such a decision.

The HCCS Board of Directors will also develop a list of students in each grade level and the classes they have completed, together with information on each student's districts of residence, which the Board will provide to the entity responsible for closure-related activities.

As applicable, HCCS will provide students and TRUSD with copies of all appropriate student records and will otherwise assist students in transferring to their next school. All transfers of

student records will be made in compliance with the Family Educational Rights and Privacy Act ("FERPA") 20 U.S.C. § 1232g. HCCS will store original records of HCCS students in HCCS administrative office until the closure of HCCS. No later than the date of closure, all records will be transferred to TRUSD. If the District will not or cannot store the records, the HCCS will work with the County Office of Education to determine a suitable alternative location for storage.

All state assessment results, special education records, and personnel records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law.

As soon as it is reasonably practical, HCCS will prepare final financial records. Within six (6) months, following the date of closure, final financial records shall be prepared and an independent audit completed. HCCS will pay for the final audit (Reserve Fund). The audit will be prepared according to standards for public school audits by a qualified Certified Public Accountant experienced in public school audits selected by HCCS and will be provided to TRUSD promptly upon its completion. The final audit will include an accounting of all financial assets, including cash and accounts receivable and an inventory of property, equipment, and other items of material value, an accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation, and an assessment of the disposition of any restricted funds received by or due to HCCS.

HCCS will complete and file any annual reports required pursuant to Education Code section 47604.33. On closure of HCCS, all assets of HCCS, including but not limited to all leaseholds, personal property, intellectual property and all ADA apportionments and other revenues generated by students attending HCCS, remain the sole property of the HCCS and shall be distributed in accordance with the Articles of Incorporation upon the dissolution of the non-profit public benefit corporation to another California public educational entity. Any assets acquired from the TRUSD or TRUSD property will be promptly returned upon HCCS closure to the TRUSD. The distribution shall include return of any grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law, as appropriate, which may include submission of final expenditure reports for entitlement grants and the filing of any required Final Expenditure Reports and Final Performance Reports, as well as the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted.

On closure, HCCS shall remain solely responsible for all liabilities arising from the operation of HCCS. Should Highlands Community Charter Schools dissolve as a nonprofit public benefit corporation, the HCCS Board will follow the procedures set forth in the California Corporations Code for the dissolution of a nonprofit public benefit corporation and file all necessary filings with the appropriate state and federal agencies.

HCCS will utilize the reserve fund to undertake any expenses associated with the closure procedures identified above.

Element P Additional Provisions

Facilities

"The facilities to be used by the charter school. The description of the facilities to be used by the charter school shall specify where the charter school intends to locate." (Ed. Code § 47605(h).)

Facilities Mission

As a public charter school, the HCCS mission is to provide a safe, stimulating, and vibrant student-centered learning community that primarily addresses the academic and transitional needs of students who are credit deficient and seeking a high school diploma. HCCS:

- provides adequate space on site for maintaining current site activities,
- locates near public facilities that offer services that complement the instructional facilities at HCCS such as libraries, parks, and institutional facilities, and
- provides adequate site space to accommodate necessary support functions, such as staff and visitor parking, loading/unloading for student transportation, and usable and safe outdoor and dining areas.

In order to properly meet the facilities needs of HCCS, an understanding of the proposed educational programs, services, and student trends is required. Including classroom space, the square footage calculations include a variety of administrative and clerical spaces, hallways, student/staff break areas, restrooms, custodial closets, storage area and utilities closets.

Locations

Highlands Community Charter School's main campus is located at 5655 Hillsdale Blvd, Sacramento, CA 95842. HCCS students are served at 12 locations around the greater Sacramento region in the 2025-2026 school year. HCCS locations include the following:

HCCS Locations 2025-2026	
Student Serving Locations	
Name	Address
33rd St.	2520 33rd St, Sacramento, CA 95817
37th Ave.	3301 37th Avenue, Sacramento, CA 95824
Boxwood St.	2260 Boxwood Street, Sacramento, CA 95815
Center Pkwy.	7839 Center Parkway, Sacramento, CA 95823
College Oak Dr.	4545 College Oak Drive, Sacramento, CA 95841
Folsom Blvd.	10013 Folsom Blvd, Sacramento, CA 95827

Franklin Blvd.	5961 Franklin Blvd, Sacramento, CA 95824
Hillsdale Blvd.	5655 Hillsdale Blvd, Sacramento, CA 95842
Howe Ave.	1111 Howe Avenue, Sacramento, CA 95825
Hurley Way	3205 Hurley Way, Sacramento, CA 95864
Industrial Pkwy.	8180 Industrial Parkway, Sacramento, CA 95824
Marconi Ave.	3727 Marconi Ave, Sacramento, CA 95821
Old Auburn Rd.	7817 Old Auburn Road, Citrus Heights, CA 95610
Todhunter Ave.	800 Todhunter Avenue, West Sacramento, CA 95605

Administrative Support Locations	
Name	Address
Arden Way	901 Arden Way, Sacramento, CA 95815 (Warehouse/Receiving)
Florin Rd.	3801 Florin Road, Suite 107, Sacramento, CA 95823
Hemlock St.	5537 Hemlock Street, Sacramento, CA 95841

HCCS is nonsectarian in its programs, admission policies, and all other operations, even at sites located at religious institutions. All HCCS sites are accessible to students by foot, public transportation, or car. HCCS ensures that the facilities align with all building and fire codes for instructional purposes as provided in Education Code Section 47610. In addition, HCCS will alert TRUSD at least 30 days prior to occupancy of every site to be leased, purchased, or controlled by the school for instructional purposes. HCCS will not pursue Proposition 39 facilities from the District.

Annual Operational Agreement
HCCS and Twin Rivers Unified School District (TRUSD) will negotiate in good faith on an annual basis to develop an Annual Operational Agreement/Memorandum of Understanding establishing the specific financial, operational, and service relationship between the two parties. Additionally, it may address other matters of mutual interest not otherwise resolved within the terms of HCCS' Charter.

Operational Powers and Liabilities
HCCS shall be fiscally responsible for its own operations and shall manage its operations efficiently and economically within the constraints of its annual budget.

HCCS shall have no authority to enter into a contract that would bind Twin Rivers Unified School District (TRUSD) or to extend the credit of TRUSD to any third person or party without the express written consent of TRUSD. HCCS shall clearly indicate to all vendors and other entities and individuals outside TRUSD with which or with whom HCCS enters into an agreement or contract for goods or services that the obligations of HCCS under such an

agreement or contract are solely the responsibility of HCCS and are not the responsibility of TRUSD.

Insurance

Insurance Coverage
HCCS secures and maintains, during the term of the Charter, commercially reasonable general liability, property, errors and omissions, worker's compensation, and other necessary insurance coverage in the amounts specified by the Annual Memorandum of Understanding to protect HCCS from claims that may arise from its operations. Each policy shall include language stating particular who is insured, extent of insurance, locations and operations to which insurance applies, expiration date, to whom cancellation or reduction notice will be sent; and (3) a statement that the District and its officers, employees and agents are named as additional insured.

Coverage amounts will be based on recommendations provided by the District and the Charter School's insurer. The District Board of Education shall be named as an additional insured on all policies of the Charter School. The Charter School will provide copies of certificates of insurance, as provided herein, to the District upon request.

Fiscal Matters
The petitioner or petitioners also shall be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cash flow and financial projections for the first three years of operation. (Ed. Code § 47605(h).)

Funding
HCCS receives funding according to the Local Control Funding Formula pursuant to Education Code Section 42238.02(d) and its successors will opt to receive its funding directly from the state. An account for HCCS will be maintained at the Twin Rivers Unified School District (TRUSD). Any funds due to HCCS that flow through TRUSD shall be forwarded to HCCS as soon as practical.

Fiscal Strength
HCCS has significant financial strength. This strength includes strong financial reserves to ensure smooth cash flow and the meeting of all obligations. Moving forward HCCS will continue to have very strong financials as can be seen in the five-year budget and financial projections, see appendix.

Budgets and Cash Flow
A five-year budget and financial projections are included in the appendix. This document is based upon the Local Control Funding Formula and the best estimates of revenues and costs available to HCCS at this time.

Financial Reporting
HCCS will provide reports to TRUSD as follows, as required by Education Code Section 47604.33, and may provide additional fiscal reports as requested by TRUSD:

- By July 1, a preliminary budget for the current fiscal year. For a charter school in its first year of operation, financial statements submitted with the charter petition pursuant to Education Code Section 47605(h) will satisfy this requirement.
- By July 1, an annual update (LCAP) is required pursuant to Education Code Section 47606.5.
- By December 15, an interim financial report for the current fiscal year reflecting changes through October 31. Additionally, on December 15, a copy of HCCS's annual, independent financial audit report for the preceding fiscal year shall be delivered to the State Controller, State Department of Education, and County Superintendent of Schools.
- By March 15, a second interim financial report for the current fiscal year reflecting changes through January 31.
- By September 15, a final unaudited report for the full prior year. The report submitted to HCCS shall include an annual statement of all HCCS's receipts and expenditures for the preceding fiscal year.

For reports 1-4, above, HCCS shall also provide with each financial report supporting and/or back up information, including but not limited to multi-year projections for current and two subsequent years, assumptions used for two subsequent years, explanation for major variances by category between reporting periods, enrollment projection, ADA P2 projection by grade level, COLA & Deficit percentage, calculation used for determining general purpose funding, list of statutory benefit rates, list of H&W rates and number of participants, and number of FTEs for certificated and classified employees for each year.

Pursuant to Education Code Section 47604.3, HCCS shall promptly respond to all reasonable inquiries including, but not limited to, inquiries regarding its financial records, cash flow and budget, and ADA P2 projections from the District. HCCS agrees to and submits to the right of the District to monitor the Charter School's ADA projections and cash flow shortages in order to carry out the District's statutorily required oversight.

District Reports

Twin Rivers Unified School District (TRUSD) agrees to file all reports specifically required by law pertaining to their role as an authorizing agent to be filed with the California Department of Education or any other State or federal agency by a local educational agency on behalf of HCCS and/or TRUSD. HCCS will promptly provide TRUSD with any information, data, or documentation necessary for TRUSD to timely file such reports in accordance with law. HCCS will be solely responsible for the accuracy of all data submitted to TRUSD. HCCS will be responsible for filing all other reports as may be required by law.

Attendance Reporting, School Calendar, and Other Data

HCCS will provide Twin Rivers Unified School District (TRUSD) with a copy of the HCCS annual attendance calendar no later than July 1 of each year. HCCS will maintain no less than the minimum number of instructional days and minutes required by the Education Code and/or the California Code of Regulations for each grade level served.

Subject to TRUSD approval, HCCS will establish and maintain an attendance reporting system to record and account for the Charter School's ADA, as defined in Title V California Code of Regulations section 11960. HCCS will timely report ADA figures to TRUSD as necessary to enable the school to receive funding. The Charter School will provide TRUSD with a monthly enrollment report no later than the 15th calendar day of the following attendance month. HCCS will provide all data and reports required by TRUSD in hard copy and electronic data files. HCCS will submit enrollment and demographic information to the CDE to the extent and in the manner specifically required by law or regulations applicable to charter schools. Upon request, HCCS will provide TRUSD with documentation of the teacher/student ratio for the Charter School. HCCS will also provide TRUSD with amended ADA reports for the 2024-2025 school year and all other prior years as recommended by the FCMAT audit report of May 2018.

Annual Review and Notice to District of Change in Status
HCCS will participate in an annual review conducted by Twin Rivers Unified School District (TRUSD), if any, of all programs offered at the Charter School, including their effectiveness and student achievement. Both parties will act reasonably and in good faith in both the review and the response to the review.

HCCS will provide TRUSD no less than thirty (30) days prior written notice of any actions taken by the Charter School that may and/or will affect and/or change the status of HCCS, and which falls within TRUSD oversight responsibilities. Nothing herein shall preclude the parties from negotiating or amending the charter to include additional services not contemplated by this charter.

Regulations and Compliance
HCCS will work diligently to comply with all rules and regulations placed upon it by regulatory entities, such that it follows both the letter of the law and the spirit of the law. We recognize that the California legislature enacted charter school law to encourage innovation in the field of education, and thus, we will use all authority and ability granted to us as a school to innovate and push beyond the status quo. We will do so responsibly and with accountability.

Technology
HCCS will utilize technology in all aspects of how it functions to lower the cost of education, improve efficiency, and improve the effectiveness of education. Recognizing that there is always a cost-benefit tradeoff when using technology, HCCS will purchase hardware, software, and services based on the value it brings to the overall learning process.

HCCS will consider the full cost-benefit of technology purchases, including upfront costs, cost of support, cost of modification, and approximate lifespan of the technology, and compare this with the benefits that the technology adds to the educational process and overall system of the school.

Other Clauses and Procedures

Term of Charter
The term of this charter shall begin on July 1, 2019 and expire June 30, 2027.

Amendment of Charter
Any amendments to this charter shall be made by the mutual agreement of the governing boards of TRUSD and HCCS. HCCS may present a petition to amend the charter at any time, and TRUSD agrees to respond to such petitions pursuant to the process and timelines specified in Education Code Section 47605 or its successors.

Cooperation
Twin Rivers Unified School District (TRUSD) agrees to cooperate with HCCS in all matters related to the implementation of this charter and interactions with the California State Board of Education.

Severability
The manner in which administrative services of the charter school are to be provided. (Ed. Code § 47605(h).)

HCCS conducts or procures all of its own administrative and business services including, but not limited to, academic, special education, financial management, accounts payable/receivable, payroll, human resources, and instructional program development either through its own staff or through an appropriately qualified third-party contractor. All contracts are vetted for conflict of interest as adopted by the HCCS Board of Directors. HCCS provides or procures all administrative services to further ensure high quality services, in a cost-effective manner.

Pursuant to California law, the authorizer will be required to provide oversight and performance monitoring services, including monitoring school and student performance data, reviewing the school's audit reports, performing annual site visits, engaging in any necessary dispute resolution processes, and considering charter amendment and renewal requests. HCCS agrees to and submits to the right of the District to make random visits and inspections in order to carry out its statutorily required oversight in accordance with Education Code Sections 47604.32 and 47607.

Potential Civil Liability Effects
Potential civil liability effects, if any, upon the charter school and upon the school district. (Ed. Code § 47605(h).)

HCCS is operated by a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701(d).

Pursuant to Education Code Section 47604(d), an entity that grants a charter to a charter school operated by a non-profit public benefit corporation shall not be liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors, or omissions by the charter school if the authority has complied with all oversight responsibilities required by law. HCCS shall work diligently to assist TRUSD in meeting any and all oversight obligations

under the law, including monthly meetings, statutory fiscal reporting, or other requested protocol to ensure the District will not be liable for the operation of HCCS.

Further, HCCS and TRUSD have a memorandum of understanding, wherein HCCS indemnifies TRUSD for the actions of HCCS under this charter.

The corporate bylaws of HCCS provide for indemnification of the HCCS Governing Board of Directors, officers, agents, and employees, and HCCS maintains general liability insurance, Board Members and Officers insurance, and fidelity bonding to secure against financial risks.

As stated above, insurance amounts will be determined by recommendation of TRUSD and the TRUSD insurance company for schools of similar size, location, and student population. TRUSD will be named an additional insured on the general liability insurance of HCCS.

The HCCS Board will institute appropriate risk management practices as discussed herein, including screening of employees, establishing codes of conduct for students, and dispute resolution.

Funding and Oversight Fee

HCCS elects to receive the state aid portion of charter school general-purpose entitlement and categorical block grant funds and any other funding as now computed by the Local Control Funding Formula pursuant to Education Code Section 42238.02 and implemented by Education Code Section 42238.03, and as received by the Charter School for its "Adult Education" programs, directly in accordance with Education Code Section 47651(a)(1). Funds for the Charter School shall be deposited directly into an account for the "Highlands Community Charter School" with the Sacramento County Office of Education ("SCOE"). The SCOE will then remit the funds to the Charter School. The District shall transfer to the Charter School funding in lieu of property taxes in accordance with Education Code Section 47635. HCCS recognizes that the District shall have no responsibilities for funding the Charter School beyond that required by law.

Neither Greater Sacramento Urban League nor any other WIOA service provider in partnership with HCCS receives any type or amount of apportionment. Furthermore, these partners do not operate as an adult school program.

The Charter School agrees that all funding received for the Charter School, from any and all sources, including but not limited to all funding sources set forth in this Charter, or other agreement with the District, shall be used exclusively to operate the Charter School, and shall not be used, either directly or indirectly, or by loan or gift, to fund, assist, pay for the debts of, or towards the operation of, any other school or establishment managed, controlled, or operated by the Corporation or Charter School, or operated by its members, officers, agents, servants, and employers, or for any other purpose whatsoever, unless mutually agreed by the parties.

In consideration for the actual costs of supervisorial oversight by the District, the Charter School shall pay an amount not to exceed one percent (1%) of the revenue of the Charter School (hereinafter, the "Oversight Fee") pursuant to Education Code section 47613. "Supervisorial

oversight" for purposes of this section shall be limited to those duties listed in Education Code section 47604.32(a)(1) through (5), only. "Revenue" for purposes of this calculation is defined pursuant to Education Code section 47613(f) in the current fiscal year from the local control funding formula calculated pursuant to Education Code sections 42238.02 and 42238.03. "Revenue" for purposes of this calculation shall not include Charter School fundraising activities, private donations, other public grants, or any other source of income developed by the Charter School.

Payment Schedule

The Charter School shall pay the supervisorial oversight fee and any other fees in quarterly installments for each school year. The District shall invoice the Charter School for fees due as of September 30, December 31, March 31, and June 30, with invoices to be prepared and submitted by the District to the Charter School within thirty (30) calendar days during the year and by September 15 (when the books are closed) at the end of the year. The Charter School shall pay all invoices within fifteen (15) business days of their issuance by the District. In the event payment is not received within five (5) business days following the payment due date, and/or if such payment is returned or unpaid due to insufficient funds, the Charter School authorizes the District to deduct any such fees or payments from future apportionments or any other monies received by the SCOE and/or District for the Charter School. The District may elect to offset and deduct any such fees from the District's in-lieu property tax revenues next payable to the Charter School, in which case the District shall provide the Charter School with a detailed statement showing the amount of any such offset.

HCCS Material Revision Presentation 12.02.2025

Our Students

We support students where they are, using their strengths to help them learn and succeed.

HCCS Sites

HCCS is requesting approval to operate at the 17 locations listed below.

14 Student Serving Sites:

- 33rd St. (2520 33rd St, Sacramento, CA 95817)
- 37th Ave. (3301 37th Avenue, Sacramento, CA 95824)
- Boxwood St. (2260 Boxwood Street, Sacramento, CA 95815)
- Center Pkwy. (7839 Center Parkway, Sacramento, CA 95823)
- College Oak Dr. (4545 College Oak Drive, Sacramento, CA 95841)
- Folsom Blvd. (10017 Folsom Blvd, Sacramento, CA 95827)
- Franklin Blvd. (5961 Franklin Blvd, Sacramento, CA 95824)
- Hillsdale Blvd. (5655 Hillsdale Blvd, Sacramento, CA 95842)
- Howe Ave. (1111 Howe Avenue, Sacramento, CA 95825)
- Hurley Way (3205 Hurley Way, Sacramento, CA 95864)
- Industrial Pkwy. (8180 Industrial Parkway, Sacramento, CA 95824)
- Marconi Ave. (3727 Marconi Ave, Sacramento, CA 95821)
- Old Auburn Rd. (7817 Old Auburn Road, Citrus Heights, CA 95610)
- Todhunter Ave. (800 Todhunter Avenue, West Sacramento, CA 95605)

3 Administrative Support Locations:

- Arden Way (901 Arden Way, Sacramento, CA 95815)
- Florin Rd. (3801 Florin Road, Suite 107, Sacramento, CA 95823)
- Hemlock St. (5537 Hemlock Street, Sacramento, CA 95841)

HCCS Sites

If TRUSD does not approve the proposed site list included in the HCCS Material Revision, HCCS requests to operate at the locations outlined in the MOU Amendment No. 3 executed on January 23, 2024. Please note some sites' leases previously approved in the MOU Amendment No. 3 have been terminated. Even though TRUSD previously approved sites outside of Sacramento County, those locations will no longer be operated by HCCS. In addition, HCCTS has closed some of the sites inside the Sacramento County previously approved by TRUSD due to declining enrollment.

- 12th Street (701 12th Street, Suite 203, Sacramento, CA 95814)
- 24th/St. Anne's (7720 24th Street, Sacramento, CA 95832)
- 65th St/Bach Viet South (6853 65th Street, Sacramento, CA 95828)
- Arden 2 (2260 Boxwood Street, Sacramento, CA 95815 - Warehouse and Video Production)
- ARI Elder Creek/ARI South (6270 Elder Creek Road, Sacramento, CA 95824)
- ARI Sunrise/ARI North (5750 Sunrise Blvd, #100, Citrus Heights, CA 95610)
- Asher (1215 Howe Avenue, #101, Sacramento, CA 95825)
- Auburn (4441 Auburn Blvd, Suite H&M, and J, Sacramento, CA 95841)
- Bowling (7171 Bowling Drive, #1120, Sacramento, CA 95823)
- Capitol Mall (555 Capitol Mall, #735, Sacramento, CA 95814 Classroom & Administrative Space)
- Center Parkway (7839 Center Parkway, Sacramento, CA 95823)
- College Oak (4545 College Oak Drive, Sacramento, CA 95841)
- Del Paso/Cavalry (1100 Las Palmas Avenue, Sacramento, CA 95815)
- Del Paso 2 (3730 Marysville Blvd, Sacramento, CA 95838)

- Saint John's (Address redacted due to the privacy of our students)
- SHRA Marina Vista (30 Seavey Circle, Sacramento, CA 95818)
- South Side Park (730 S Street, Sacramento, CA 95811)
- West Sac/Holy Cross (800 Todhunter Avenue,West Sacramento, CA 95605)
- Yuba City (229 Clark Avenue, Suite Q & V, Yuba City, CA 95991)

HCCS Sites

Administrative Sites:

- American River (3600 American River Drive #280, Sacramento, CA 95864)
- Arden (901 Arden Way, Sacramento, CA 95815)
- Capitol Mall (555 Capitol Mall, #1275, #725, #550, Sacramento, CA 95814)
- El Camino (4813 El Camino Avenue, Suites A & B, Carmichael, CA 95608)
- Fair Oaks 2 (6110 Fair Oaks Blvd, Unit A, Carmichael, CA 95608)
- Howe Avenue (1111 Howe Avenue, #115, Sacramento, CA 95825)
- Raley Blvd (4350 Raley Blvd, Suite 300, Sacramento, CA 95838)

HCCS Grade Levels

HCCS proposes to remove grades 1 and 2 and add grades 9, 10, and 11 to better meet the needs of our students and as requested by TRUSD.

Current HCCS Grade Levels	
Grades	Credits
Grade 9	0-50
Grade 10	51-149
Grade 12	150-180

HCCS Grade Levels with Material Revision Approval

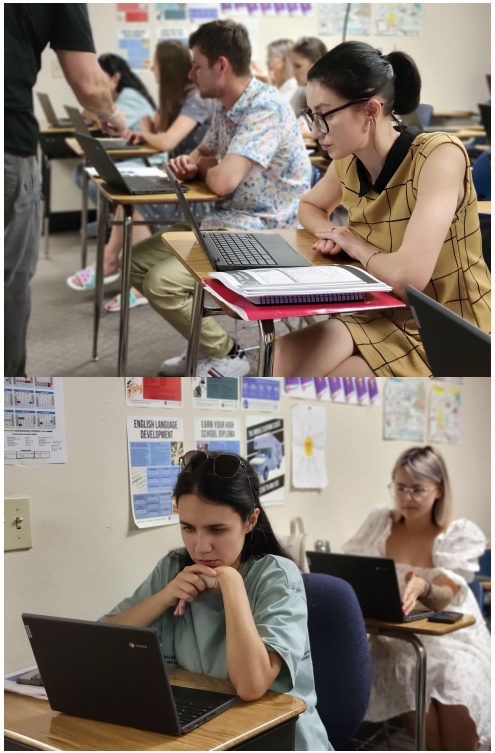
If the HCCS material revision is approved	
Grades	Credits
Grade 9	0-50
Grade 10	51-100
Grade 11	101-149
Grade 12	150-180

- Create 11th grade in PowerSchool
- Modify master schedule
- Move students in PowerSchool from grade 10 to grade 11 if they have between 101-149 credits
- Contract with Charter Impact to support with the transition
- Implement CAASPP for all eligible grade 11 students
- HCCTS board approved the course outline for English 9-12
- HCCS leadership sent a request to Charter Impact to identify grade 11 students
- HCCS academic leadership has drafted a new master schedule which reflects these grades
- HCCS leadership is revisiting the enrollment procedures for the updated grade levels

HCCS Grade Levels

If the HCCS material revision is not approved, HCCS will implement the following actions by Spring 2026:
HCCS will move the students currently enrolled in grades 9 and 10 to grade 12
HCCS will place all English Language Learner students based on their language proficiency, credits earned and prior class standing
Students with lower English language proficiency will be placed in Grades 1–2
All incoming students will be reviewed for prior grade for identification in CALPADS
All returning HS students to HCCS will be enrolled in grade 12
HCCS Curriculum will be in alignment with the Charter Renewal approved by TRUSD in 2019

- Create grade 1 and 2 in PowerSchool
- Modify master schedule
- Move students in PowerSchool from grade 9 and 10 to grade 12
- Contract with Charter Impact to support with the transition
- HCCTS board approved the course outline for English 9-12
- HCCS academic leadership has drafted a new master schedule which reflects these grades
- HCCS leadership is revisiting the enrollment procedures for the updated grade levels



Proposed CTE Programs for 2025-2026 School Year

- Digital Literacy and an enhanced multimedia component
- Personal Finance
- Real Estate
- Microsoft Certifications
- Culinary
- Medical Services
- Early Childhood Education

Updated Credential Qualifications

University of Massachusetts Global
A private nonprofit affiliate

In the 2024-2025 school year, HCCS modified credential requirements for teachers as required by the CTC and communicated by TRUSD. In the 2025-2026 school year, HCCS implemented it. This material revision will align the charter to the agreement made by the school to utilize single-subject credentials rather than adult credentials.

New Curriculum and Assessments

HCCS has implemented the following new assessments as recommended by TRUSD:

- CAST Testing
- CAASPP Testing

- SAVVAS Curriculum was implemented in the beginning of the 2025-2026 school year to ensure that our curriculum is aligned to CCSS
- Professional Learning Communities (PLC) were implemented with professional development support from Savvas
- Professional Development for academic staff was planned in HCCS Academic Calendar for 15 days during the school year

What's at Stake

BUILD HIGHLANDS BACK BETTER

HCCS NOV Intent to Revoke 12.02.2025

BUILD HIGHLANDS BACK BETTER

- **We appreciate the District staff's willingness to work on a calendar for the material revisions and hearings on the notices of violation for both schools so that you can consider our proposed cures.**
- **Staff provided helpful feedback on our material revisions, and we worked hard through the Thanksgiving holiday to meet TRUSD expectations.**
- **Tonight we will be sharing with you how we have cured all violations in the Notice of Intent to Revoke the charter school, and we welcome any questions that you may have.**
- **This reform effort began with questions raised by the media and subsequently the state auditor and TRUSD.**

BUILD HIGHLANDS BACK BETTER

- **We have already:**
  - **Changed our Board**
  - **Changed our administrative team**
  - **Changed more than 100 school policies and procedures**
  - **Changed our auditor**
  - **Changed our principal legal counsel**
  - **Brought in a reputable charter school business/back office firm to validate internal work**
  - **Laid off teachers with adult education credentials and replaced them**
  - **Consolidated operations in Sacramento County in fewer locations to allow better oversight by both our team and TRUSD.**

BUILD HIGHLANDS BACK BETTER

- **Tonight you are going to hear about our ongoing reform efforts.**
- **All of these efforts are designed not just to save the schools, but also to ensure that academic programs will be better for the students we serve.**

Notice of Violation: Grade Levels

- On September 18, 2025, the HCCTS Board of Directors approved a material revision to remove grades one and two and to add grades nine, ten, and eleven
- On September 26, 2025, HCCTS submitted the HCCS material revision to TRUSD
- If TRUSD approves the material revision:

Grades	Credits
Grade 9	0-50
Grade 10	51-100
Grade 11	101-149
Grade 12	150-180

Notice of Violation: Grade Levels

If the HCCS material revision is approved:	If the HCCS material revision is not approved, HCCS will implement the following actions by Spring 2026:
HCCS will identify all students currently in grade 10 who have between 101 and 149 credits and move them to grade 11	HCCS will move the students currently enrolled in grades 9 and 10 to grade 12
	HCCS will place all English Language Learner students based on their language proficiency, credits earned and prior class standing
	Students with lower English language proficiency will be placed in Grades 1–2
	All incoming students will be reviewed for prior grade for identification in CALPADS
	All returning HS students to HCCS will be enrolled in grade 12
	HCCS Curriculum will be in alignment with the Charter Renewal approved by TRUSD in 2019

Notice of Violation: HCCS Sites

- On September 18, 2025, HCCS prepared a material revision listing all student sites it intends to operate going forward and presented it to the Highlands board. This is a smaller number of sites, all in Sacramento County.
- On September 26, 2025, HCCS submitted the board approved material revision to TRUSD.
- On November 20, 2025 HCCS provided TRUSD with all the lease agreements for all HCCS facilities from 2023 to present.
- If TRUSD does not approve the proposed site list included in the HCCS Material Revision, HCCS will operate at the locations outlined in the MOU Amendment No 3 executed in January 23, 2024.

HCCS Sites with MOU No. 3 Approval

Please note some sites' leases previously approved in the MOU Amendment No 3 have been terminated. Even though TRUSD previously approved sites outside of Sacramento County, those locations will no longer be operated by HCCS. In addition, we have closed some of the sites inside the Sacramento County previously approved by TRUSD due to declining enrollment.

- Raley Blvd (4350 Raley Blvd, Suite 300, Sacramento, CA 95838)

Notice of Violation: 23-24 Independent Audit Report

- On May 12, 2025 HCCS provided TRUSD with a first draft of the Eide Bailly audit.
- On October 10, 2025 HCCS provided TRUSD with an updated draft audit.
- On October 26 and October 31, HCCS provided the District the full correspondence record covering the prior two years.
- Two options going forward to fully cure this:
    - Highlands is attempting to reach a settlement with the State relating to the state audit report that would provide Eide Bailly with certainty about the finances of the school by resolving concerns raised in the state audit. If there is a settlement, we hope that the audit report can be further revised to reflect the certainty provided by the settlement.
    - If a settlement cannot be reached by the end of the revocation process, Highlands can submit the draft audit it has received and this would satisfy the requirement to provide an audit. It would then proceed to continue to address concerns raised in the draft audit.

Notice of Violation: Failure to Track and Meet Instructional Minutes

Effective August 14, 2025, HCCS has taken the following actions:

- Implemented a five-period bell schedule, providing 336 minutes per day for regular instruction and 271 minutes on teacher professional development days.
  HCCS offers 184 regular instructional days and 15 teacher PD days
- Moved to a single track for attendance for both AM and PM classes
- Approved the HCCTS Academic Calendar for 25-26 school year which includes 65,889 instructional minutes for both AM and PM bell schedules, exceeding the 64,800 minimum requirement by 1,089
- Reduced class sizes by creating an enrollment cap of 30 students for each class

Notice of Violation: Credential Misassignment

Credential assignments have been corrected, and we will continue verifying placements and adjusting staff as needed to ensure students are taught by properly assigned teachers.

HCCS has partnered with the University of Massachusetts to ensure all teachers obtain the right credentials. Previously the school used adult education credentials to teach the all-adult student body.

University of Massachusetts Global
A private nonprofit affiliate

Notice of Violation: Exclusive Partnership Agreement

- On January 14, 2025, HCCTS discontinued the partnerships between the truck driving program and Sac County Sheriff, Sac Police, and Local 185. All partners and CTE Truck Driving employees were informed and this information was sent to TRUSD
- On June 30, 2025 HCCTS laid off all employees associated with the truck driving program
- On August 14, 2025, HCCTS started the new school year and did not open the truck driving program.
- On October 31, 2025, HCCTS met with TRUSD and provided separation notices of all previous truck driving and CTE employees and their dates of employment. HCCTS also provided letters and email correspondence sent from Sac County Sheriff, and Sac Police in January 2025 asking HCCTS not to discontinue the partnership.
- On November 6, 2025, HCCTS sent TRUSD letters written by Sac County Sheriff and Sac Police confirming partnerships ended on January 14, 2025.

Notice of Violation: Fiscal Mismanagement - Marysville 2

- On November 30, 2024, HCCTS terminated the lease with the City of Marysville.
- On January 14, 2025, HCCTS sent TRUSD a letter that outlined the lease termination with Marysville 2 and included the final buyout amount of that lease. In that letter, HCCTS provided evidence that no additional money would be paid to the City of Marysville and that operations had been finalized.
- On January 21, 2025, HCCTS completed a buyout of the lease for $31,579.80.
- On May 9, 2025, HCCTS paid the final utility bill of $1,782.01.
- On June 17, 2025 HCCTS sent TRUSD a letter showing that the lease had been terminated, resulting in a significant savings of $88,316 to HCCTS. Invoices were included.
- On November 4, 2025 HCCTS sent TRUSD the Lease Termination Agreement, the final payment to the city of Marysville, and the final utility bill.

Notice of Violation: Fiscal Mismanagement - San Diego

- On November 11, 2024 HCCTS asked a remote worker living in San Diego to vacate the office space where he had been working and he vacated on November 29, 2024.
- On March 27, 2025, HCCTS contracted with Newmark to sublet the space in San Diego.
- On June 3, 2025, HCCTS disconnected the internet and all utilities.
- On October 26, 2025 HCCTS informed TRUSD that the San Diego site was vacated and provided the Newmark sublease contract as evidence of actions taken.
- On November 4, 2025, having no interested parties to sublet, HCCTS requested to terminate the lease agreement for the San Diego location.
- On November 13, 2025, HCCTS signed the lease termination and submitted the final invoice for the San Diego location on November 15, 2025.
- On November 18, 2025 HCCTS sent TRUSD the lease termination and final check to show that the lease in San Diego was fully terminated.

Notice of Violation: Grade Levels

HCCS has proposed offering grades 9-12 as recommended by TRUSD. If TRUSD approves the material revision, HCCS will offer grades 9-12 and the issue of grade levels will be resolved.

TRUSD Review	HCCS Response	Evidence
Tardiness in responding to the Material Revision requirement.	HCCS acknowledges that the original charter petition stated that HCCS would serve grades 1, 2, and 12 and has been serving grades 9, 10, and 12 without a material revision. The new material revision is requesting to offer grades 9, 10, 11, and 12. HCCS hopes that the updated material revision for grade levels will be approved by TRUSD and the issue will be resolved. HCCS is committed to only serving the grades approved by TRUSD. If TRUSD denies the grades proposed in the material revision, HCCS will go back to serving only grades 1, 2, and 12 as outlined in the prior charter renewal.	The HCCS Material Revision was board approved on 09/18/25. HCCS has drafted two detailed grade level transition plans which were both sent to TRUSD on 11/20/25. One plan shows how HCCS will move from serving grades 9,10, and 12 back to grades 1, 2, and 12 if the material revision is denied. The second plan shows how HCCS will add grade 11 if the material revision is approved.
Unable to assert the item is remedied until the Material	HCCTS is fully prepared to move forward with the grade levels approved by TRUSD once the	The HCCTS Board of Directors has reviewed

Revision is reviewed by TRUSD Board of Trustees.	TRUSD Board determines whether it wishes the school to operate at the previously approved grade levels or in alignment with TRUSD staff's request that it operate grades 9-12.	and approved the HCCS Material Revisions three times during the 2024-2025 school year. Each time, HCCS has provided the updated version to TRUSD immediately following board approval. The first HCCS Material Revision was presented and approved on 09/26/25. Then after additional feedback from legal, we took the material revisions back to the board on 10/09/25 and submitted it to TRUSD on 10/10/25. TRUSD provided CICA feedback on the material revision and after making the changes, it went back to the HCCTS board on 12/02/25, and will be sent back to TRUSD the same day.
Exhibits not accessible to District	HCCS submitted a formal response to TRUSD	The HCCTS Director of

until 9/29/25.	for the NOVs which were due on 09/26/25. The evidence was provided to TRUSD on the due date via email with a link to the Google Drive folder where the evidence was contained. Prior to the due date HCCS asked TRUSD how they preferred to receive the evidence (such as via email, Google Drive, flash drive). TRUSD did not express a preference. On the due date HCCS sent TRUSD a link to a Google Drive folder which contained the evidence. Following receipt, TRUSD said they would like to receive the evidence via email and/or via flash drive. HCCS converted all of the evidence to PDF and both emailed it to Shari Warta and put everything on a flashdrive and drove it to TRUSD where it was delivered in person on 09/29/25. Please note that HCCS delivered the evidence to TRUSD on the due date.	Accountability, Melissa Roberson emailed the TRUSD Project Manager, Shari Warta a link to the evidence on 10/31/25 at 10:30 a.m.

Notice of Violation: Locations

HCCS has proposed operating at 14 student-serving sites and 3 admin sites. These sites are accurately reflected in the HCCS material revision. If TRUSD accepts the HCCS material revision, the locations violation will be resolved.

TRUSD Review	HCCS Response	Evidence

Tardiness in responding to the Material Revision requirement.	HCCS acknowledges that MOU Amendment No. 3 between TRUSD and HCCS, dated 01/25/24 contains a list of approved sites where TRUSD has agreed to allow HCCS to operate. HCCS acknowledges operating sites not listed in the MOU Amendment No. 3 and has drafted the HCCS material revision with updated sites that clearly shows which sites HCCS is currently operating in for both serving students and providing office space for staff. All sites outside Sacramento County have been eliminated. HCCS hopes that the material revision will be approved by TRUSD and the issue will be resolved.	HCCS Material Revision Board Approved 09/18/25. HCCTS updated board policy for opening and closing procedures which now includes authorizer approval for the addition of any new site, board approved by HCCTS on 12/02/25 and sent to TRUSD on 12/02/25.
Unable to assert the item is remedied until the Material Revision is reviewed by TRUSD Board of Trustees.	HCCS is committed to aligning with TRUSD for operating only within the approved sites. If TRUSD denies the HCCS material revision, HCCS has a plan to return to the HCCS locations approved in MOU Amendment No.3. If the material revision is approved, HCCS will operate at the new approved locations. As a result, this issue is fully remedied regardless of whether TRUSD agrees to the material revision or compels the charter school to only operate at facilities included in MOU Amendment No. 3.	HCCS drafted a detailed plan which outlines how HCCS will return from the sites where we are currently serving students back to MOU Amendment No. 3 sites. This was sent to TRUSD on 11/20/25. HCCS drafted another detailed plan which shows where and how HCCS will close sites between January to June of 2025, consistent with the locations approved in

		the material revision. This was provided to TRUSD on 12/01/25.
If the Material Revision is not approved, TRUSD would require further actions to cease operations and address ongoing expenses at the locations not listed in the MOU Amendment No. 3.	HCCS is committed to aligning with TRUSD for operating only within the approved sites. If TRUSD denies the HCCS material revision, HCCS has a plan to return to the HCCS locations approved in MOU Amendment No.3. Regardless of which sites are approved by TRUSD, the school is committed to reducing its facilities costs in alignment with its lower enrollment, and has developed a plan to generate significant savings through termination of now unnecessary facilities leases.	

Notice of Violation: Independent Audit Report

HCCTS contracted with Eide Bailly to conduct the 2023–24 audit. While a draft was provided to TRUSD on May 9, 2025 and again on October 10, 2025, the process has been significantly delayed due to a combination of external and internal factors which include:

- Eide Bailly's 2022–23 audit being selected for review by the State Controller, which diverted capacity and slowed the 2023–24 work,

- Errors identified in the draft related to unduplicated pupil counts, which required national-level review and corrections, and

- Additional testing required following the release of the California State Auditor's report, which heightened risk assessments.

TRUSD Review	HCCS Response	Evidence
HCCS provided a draft of the reports on 10/10/25.	The delay in providing the independent audit is due to factors largely outside of HCCTS' control. HCCTS contracted with a vendor approved by the State Controller to produce the audit in a reasonable time frame, and that vendor did not deliver a completed product in a timely way. As delays have mounted, HCCTS has taken every step possible to produce a completed audit. In order to comply to the extent possible, HCCTS has provided TRUSD with two drafts of the audit as supplied by Eide Bailly. On 12/02/25 HCCTS sent an email to Eide Bailly accepting the independent audit produced by Eide Bailly for HCCTS for the 2023-2024 school year.	HCCS sent TRUSD a comprehensive list which contained all the communication HCCTS had with Eide Bailly from 2023-2025. HCCS sent TRUSD a letter from Eide Bailly regarding State Controller and State Auditor dated 04/17/25. HCCS sent TRUSD a legal letter HCCTS had drafted by legal counsel at YM&C, which was sent on 9/11/25, demanding that Eide Bailly release the audit.

Although HCCTS has taken action to resolve the issue, this item remains open until the final audit report is received	HCCTS has now accepted the final audit draft.	HCCTS sent TRUSD Independent State Audit completed by Eide Bailly for HCCTS on 05/09/25. HCCTS sent TRUSD the updated Independent State Audit for HCCTS on 10/08/25. HCCTS sent TRUSD Document requests from Eide Baily that were fulfilled by HCCTS.

Notice of Violation: Instructional Minutes

TRUSD Review	HCCS Response	Evidence
The legitimacy of its practices during the audit period remains unresolved pending a decision from the Education Audit Appeals Panel	HCCS has taken several actions to improve attendance policies and procedures to ensure that HCCS meets the minimum number of instructional minutes. Among these items are: implementing a five period bell schedule where	HCCTS sent TRUSD the 2025-2026 Academic School Calendar HCCS sent TRUSD the

	teachers take attendance for each period, moving to one attendance track, and reducing class sizes through enrollment caps. The report by the California State Auditor found no evidence of fraudulent attendance. The State Auditor's determination that HCCS was ineligible for apportionment rests on its interpretation rests on an untested interpretation of the requirement that the school "must require the student to attend at least 80% of the minimum required instructional minutes at the school site." HCCTS acknowledges that multiple academic calendars for the 2025-2026 school year have been presented and approved by the HCCTS Board of Directors. These changes were primarily due to changes in the start date of HCCS academic year and modification of the professional development schedule. While HCCTS provided updated calendars to TRUSD via email and the Smartsheet uploader, HCCTS understands that this may have led to confusion for TRUSD regarding which calendar was accurate. HCCS' most recent board-approved calendar is going back to TRUSD on 12/02/25 with an updated instructional minutes calculation that shows a total of 65,889 minutes for the 2025-2026 school year. The change includes a reduction of 2.5 professional development days to meet the	2025-2026 five-period bell schedule HCCTS sent TRUSD the Instructional Minutes Calculations for the 2025-2026 school year HCCS sent TRUSD Class Size Reports on 08/21/25. HCCS sent TRUSD complete class rosters for all HCCS teachers on 10/30/25. HCCS sent TRUSD Open Seats Report on 10/30/25. HCCS sent the revised academic calendar and minutes calculations to TRUSD on 12/2/25.

	instructional minutes.	
The adequacy of the response remains unresolved due to the pending audit appeal and the lack of independently verified evidence that students met the 80% in-person instructional time threshold	HCCTS is appealing the finding that it was not eligible for apportionment. HCCS made substantial efforts to encourage student attendance and to ensure students had access to education at the school site for 100% of the required instructional minutes. This is demonstrated in the following ways: ● Log entries in PowerSchool that show staff contacting students to re-engage them ● Dropping students for non attendance ● Deactivating students' technology for non attendance ● The daily bell schedules had credentialed teachers available to students for all periods, even if students were not present Although the entire Power School database was provided to the state auditor, it is not clear whether any of this data was reviewed by the state auditor. But HCCS is not just relying on the above or its legal arguments in the appeal to justify that this matter has been cured. Since the state audit was released, HCCS has implemented a number of changes in both policies and standard operating procedures to	

	ensure that the school is compliant with law, enforcing its attendance policy, and supporting student re-engagement. HCCS made these changes to ensure that it addressed all concerns raised by the state auditor even though it does not agree with the state auditor's conclusion that HCCS was not eligible to claim $180 million in attendance funding. As a result of these changes, HCCS can demonstrate that it has fully remedied this issue even without a conclusion being reached on the audit appeal.	
Inadequate evidence of steps taken to ensure compliance	HCCTS has met all requirements outlined in the law including offering the required number of instructional days and instructional minutes, maintaining primary documentation of attendance in its learning management system, and following up with students who have attendance issues. HCCTS drafted the HCCS Attendance SOP and provided TRUSD with the HCCTS Board-approved version on 11/07/25. Please note that teachers were trained on updated attendance practices starting in August of 2025 and all attendance practices were in place prior to the approval of the newly updated and formalized attendance SOPs. All HCCS teachers are trained each year on attendance taking policies and procedures. At the beginning of the 2025-2026 school year	HCCTS updated attendance expectations for the 2025-2026 school year as outlined in the Student Handbook HCCTS updated attendance policies to ensure students are present for at least 80%. HCCS outlines attendance expectations for all students during new student orientations. HCCTS drafted the

	HCCS conducted additional trainings to outline the policy changes, the new attendance procedures, and updates to the paper based attendance policies which serve as a backup for PowerSchool.	HCCS Attendance SOP and provided TRUSD with the HCCTS Board-approved version on 11/07/25.
	In recognition that a higher level of accountability is appropriate, HCCS is taking steps to ensure continuous improvement in its attendance practices. This includes strengthened attendance verification and audits, more clearly defined attendance expectations for students, a standardized system for retention of paper back-up documentation, and the implementation of standardized attendance taking procedures across all HCCS locations. HCCS has launched an internal attendance auditing process which tracks weekly teacher attendance and monthly audits. These internal audit procedures are included in the HCCS attendance SOPs which were provided to TRUSD on 11/07/25. These updated and improved attendance practices are outlined in the following HCCTS board polices: 5113 BP Absences and Excuses 5113.1 BP Attendance Enforcement	HCCTS provided TRUSD with the 2025-2026 Start of the Year Presentation. HCCTS provided TRUSD with the 2025-2026 CCS Classroom Attendance Auditing Checklist (Template). HCCTS provided TRUSD with the Summary of Attendance Observations from Hillsdale on 09/25/25. HCCTS provided TRUSD with the HCCS Department Meeting Slides held on 10/02/25. HCCTS provided TRUSD with the 10/02/25

		instructions for printing attendance sheets from PowerSchool. HCCTS provided TRUSD with Follow-Ups on the 10/03/25 HCCS Academics Department Meeting. HCCTS provided TRUSD with the HCCT Department Meeting 10/03/25 Zoom Attendees. HCCS provided TRUSD with classroom attendance audits for the following HCCS teachers: Ron Lewis, Christina Schiesari, Sky Fuller, Asya Grigoryan, Khaled Mohammadi, John Leyva, Julie Giger, Faith Johnston, Irena Pachkevitch, Forrest Speciale. HCCTS provided TRUSD

		with the HCCTS Student Attendance Agreement.

Notice of Violation: Teacher Credentialing & Misassignments

TRUSD Review	HCCS Response	Evidence
The monthly assignment monitoring data provides evidence that HCCTS has changed staffing practices and reformed to comply with the law moving forward	HCCS is in full compliance with teacher credentialing and reports.	**No additional evidence required because TRUSD found that this issue has been remedied.**
HCCTS staff have become more knowledgeable about credentialing options to ensure compliance	HCCS credentialing coordinators have been trained on the new requirements and are working closely with TRUSD and the SDCOE to ensure HCCS teachers meet the requirements of the CTC.	
HCCTS subsequent actions show a credible shift to K-12 appropriate credentialing	HCCS is committed to teacher credentialing compliance.	

Notice of Violation: Exclusive Partnership Agreement/ Truck Driving Program

HCCTS discontinued the relationships between the truck driving program and outside agencies including Local 185, Sacramento County Sheriff, and Sacramento Police. These partnerships officially ended on January 14, 2024 and the truck driving program was discontinued on June 30, 2025 for all HCCTS students. At this time, there is no plan in place to bring back the truck driving program.

TRUSD Review	HCCS Response	Evidence
Lack of evidence that proves the partnerships with outside entities were terminated	The HCCS truck driving program was discontinued on 06/30/25. There are no partnerships with any outside entities at this time because the program no longer exists. Detailed evidence of this has been provided to TRUSD between December 2024 and November 2025. HCCS acknowledges that students not enrolled in a WIOA program were previously enrolled in the truck driving program, but this practice was discontinued in January 2024. The intent of the partnerships were to benefit the wider community and the school through mutually beneficial cooperation, but HCCS acknowledges that there should have been an agreement where these participants were registered in CalJobs to avoid a violation of our	HCCTS provided TRUSD with a Letter to HCCS from Sac County Sheriff Jim Cooper dated 01/23/25. HCCTS has provided TRUSD with the Letter to HCCS from the Sac Police Department requesting that HCCS continue the partnership. HCCTS provided TRUSD with the email sent from Sergey Ivanyuk (HCCS Truck Driving Coordinator) to the truck driving team regarding the discontinuation of

	exclusive partnership. The benefit to the community and the end of the partnership are both demonstrated by the Sacramento County Sheriff's appeal to the former interim Executive Director to not discontinue the partnership. These formal letters and emails were sent to TRUSD. Last month, HCCS also provided letters to TRUSD from its former partner organizations in which they note the date the partnership was terminated.	the partnerships with Sac Police, Sac Sheriff, and Labor Union 185 on 01/15/25. HCCTS provided TRUSD with the email sent from Sacramento County Sheriff's Office to HCCTS former Executive Director, Bill McGuire requesting to continue the trucking driving partnership on 01/23/25. HCCTS provided TRUSD with the email sent from Bill McGuire to Stephen Scarrazzo at the Sacramento County Sheriff's Office on 02/01/25 outlining changes HCCS is making with partnerships. HCCTS provided TRUSD with a letter from the Sacramento Police Department on 11/06/25 which affirms

		that the partnership with HCCTS ended in January of 2024.
The CTE Instructor's statements were inconsistent with HCCS's response	HCCS' response is supported by all entities with which it had partnerships as evidenced by their letters. Two of these entities are law enforcement agencies. The District is improperly relying on a statement from one former employee over the statement of not just the school, but multiple credible outside agencies who sent the individuals to participate in the truck driving program. HCCS requests that the District re-weigh the evidence in light of the letters provided by outside agencies and consider this issue fully resolved in light of the new evidence.	All HCCTS truck driving employees from the 2024-2025 school year are no longer employees at HCCTS, so it is not possible for a current instructor's statements to be inconsistent with that of the school. HCCTS provided TRUSD with the former Truck Driving employee names, roles, and dates of employment.

Notice of Violation: Fiscal Mismanagement Marysville 2

TRUSD Review	HCCS Response	Evidence
The lease termination date is 4/30/2026, therefore the violation remains open.	The Marysville 2 (baseball field) lease was terminated on 11/30/25 and fully bought-out as a cost saving measure. There	On 01/14/25, HCCTS sent TRUSD a letter that outlined the lease

	are no ongoing payments and there is no ongoing agreement.	termination with Marysville 2 and included the final buyout amount of that lease. In that letter, HCCTS provided evidence that no additional money would be paid to the City of Marysville and that operations had been finalized.
This violation may never be resolved in full since HCCTS still spent money on an unused property with funds that will never be recovered, including lease payments, utilities, equipment purchases and a sponsorship/donation	HCCS has done its best to mitigate the loss associated with this agreement. The termination agreement was arrived at as the best possible cost-saving measure that would be acceptable by both parties. The sale of $5K in assets for $1 was done as a part of the negotiations necessary to mitigate any additional on-going expenses. The ongoing expenses far exceeded this concession by HCCS. HCCS requests that the District find that the charter school has remedied this matter through terminating the lease. The intent of the revocation statute is to bring a charter school into compliance with law and its charter. This has happened here. The law was never intended to be applied in a manner that would effectively require a charter school to be perfect in all of its operations because any issue could later	On 06/12/25 HCCTS sent TRUSD another letter outlining all expenses related to Marysville 2 and why it was cost effective to terminate the lease with the buyout rather than to continue the lease at Marysville 2. This included payment of water, utilities, and the cost of landscaping. On 11/4/25 HCCTS sent TRUSD the Lease Termination Agreement, the final payment to the city of Marysville, and the final utility bill.

	support revocation even after it is corrected.	

Notice of Violation: Fiscal Mismanagement San Diego

TRUSD Review	HCCS Response	Evidence
The property has not been sublet	HCCTS terminated the San Diego lease agreement on 11/15/25 and paid the final bill on 11/17/25. These items were sent to TRUSD on 11/18/25.	On 10/26/25, HCCTS sent TRUSD information regarding the San Diego lease agreement that contained the actions taken by HCCTS. HCCTS informed TRUSD that the space was empty, and we provided the contract between HCCTS and Newmark real estate agency to show the intention to sublet.
The lease remains in place with expenses ongoing	The lease has been terminated and there are no additional ongoing expenses.	On 11/29/24, HCCTS asked a remote worker living in San Diego to vacate the space where he had been working

		On 06/03/25, HCCTS disconnected the internet and all utilities On 03/27/25, HCCTS contracted with Newmark real estate agency to sublet the space in San Diego. On 11/04/25, having no interested parties to sublet, HCCTS requested to terminate the lease agreement for the San Diego location. HCCTS terminated the San Diego lease agreement on 11/15/25 and paid the final bill on 11/17/25.
The past moneys spent on the expensive property, which was not directly used for HCCTS students, has not been addressed or remedied.	HCCS has vacated the property. HCCS can only attempt to mitigate the financial loss associated with the lease by subletting the property at the most favorable rate it can obtain or terminating the lease to mitigate further losses. HCCS attempted first to sublet the property but found that not to be feasible, so it terminated the lease to help	On 10/31/25 HCCTS met with TRUSD and reviewed the evidence for San Diego. On 11/18/25 HCCTS sent TRUSD the lease termination and final

	mitigate further financial losses. HCCS requests that the District find that the charter school has remedied this matter through terminating the lease. The intent of the revocation statute is to bring a charter school into compliance with law and its charter. This has happened here. The law was never intended to be applied in a manner that would effectively require a charter school to be perfect in all of its operations because any issue could later support revocation even after it is corrected.	check to show that the lease in San Diego was fully terminated.
	HCCTS has implemented stronger financial controls, including requiring written authorization from the District with an attendant fiscal analysis before presenting any potential site to the HCCTS Board.	On 12/02/25 HCCTS updated BP 7150.5 School Site Opening and Closure Policy, which addresses the process of opening and closing sites. This policy ensures that all sites have a benefit to students, and requires a written report analyzing the financial analysis which must be submitted to the school's authorizer prior to opening.

CONCLUSION

HCCS has worked diligently to fully address every issue in the Notice of Violation presented by TRUSD. We have remedied all of these issues through board changes, administrator changes, policy changes, procedure changes, staffing changes, staff training, holding staff accountable to implement new policies, and stopping bad fiscal and operational decisions of prior leadership. This has all been part of Building Highlands Back Better. There is still more work to do, but the changes made to date fully remedy the concerns expressed in your notice. We are determined to make you proud of HCCS again. Amidst all of these changes, it is important that none of us lose sight of the students served by HCCS. There is no program like ours in the community, and a school closure would impact them dramatically. Please carefully consider what this program means to them, how much work we have put in to turn this school around, and how committed the new leadership team is to making this school even better in the years ahead.

Preface

Highlands Community Charter School respectfully submits this charter petition material revision request to the Twin Rivers Unified School District, seeking to continue the effective work of serving students in the District. This material revision is being submitted as the Charter School is requesting the following changes to the charter:

1. **Updated Number of Sites**
   HCCS requests to maintain 14 sites as detailed in Element P the material revision.

2. **Updated Credential Qualifications**
   In the 2024-2025 school year, HCCS modified credential requirements for teachers based on a May 2025 update from the CTC and additional guidance communicated by TRUSD. This material revision will align the charter document with our commitment to utilize K-12 credentials rather than adult credentials for its teachers.

3. **Proposed Career Technical Education (CTE) Programs for 2025-2026 School Year**
   HCCS proposes to operate seven CTE programs in the 2025-2026 school year:
   - Culinary Arts
   - Digital Literacy and Multimedia
   - Early Childhood Education (ECE)
   - Medical Services
   - Microsoft Office Specialist (MOS) Certification
   - Personal Finance
   - Real Estate

4. **Addition of Grade 11**
   HCCS proposes to add grade 11 in compliance with guidance from TRUSD.

5. **Addition of CAST and CAASPP Assessments**
   HCCS will test students in both CAST and CAASPP based on guidance from the California Department of Education and TRUSD. While these assessments are intended for students in traditional high school programs, and HCCS serves adults, HCCTS has implemented this assessment to ensure compliance and accountability in its academic programs.

6. **Enhanced Curriculum for Improved English Learner Support**
   The HCCTS Board has approved the Savvas curriculum for HCCS. Implementation has begun with professional development support from Savvas in alignment with Professional Learning Community (PLC) structures.

7. **Lottery Procedures**
   HCCS respectfully requests approval to update its current lottery procedures to more accurately reflect the Charter School's existing admission practices. While maintaining full compliance with all applicable provisions of the California Education Code, HCCS seeks to clarify and

enhance its written policies and procedures to ensure greater transparency, accessibility, and alignment with the school's mission of serving adult learners. These updates will streamline the admissions process, reflect current operational structures, and better address the needs of the diverse student population.

With TRUSD's approval, HCCS will continue to uphold equitable and compliant admission practices while refining procedures to ensure they are clear, consistent, and supportive of the school's commitment to access and inclusion.

Assurances, Affirmations, and Declarations

As the authorized lead petitioner, I hereby certify that the information submitted in petition for renewal of Highlands Community Charter School ("HCCS" or the "Charter School"), located within the boundaries of the Twin Rivers Unified School District ("TRUSD" or the "District") and outside of the District pursuant to the WIOA exemption to site restrictions contained in the Charter Schools Act of 1992 is true to the best of my knowledge and belief; I also certify that this petition does not constitute the conversion of a private school to the status of a public charter school.

Highlands Community Charter School shall:

- Be nonsectarian in its programs, admission policies, employment practices, and all other operations. (California Education Code (hereinafter "Ed. Code") § 47605(e)(1).)
- Not charge tuition. (Ed. Code § 47605(e)(1).)
- Not discriminate against any pupil on the basis of the characteristics listed in Ed. Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics). (Ed. Code § 47605(e)(1).)
- Admit all pupils who wish to attend Charter School (Ed. Code § 47605(e)(2)(A).) unless HCCS receives a greater number of applications than there are spaces for students, in which case it will hold a public random drawing to determine admission. Except as required by Education Code Section 47605(e)(2), admission to HCCS shall not be determined according to the place of residence of the student or of that student's parent or legal guardian within the State. Preference in the public random drawing shall be given as required by Education Code Section 47605(e)(2)(B)(i)-(iv). In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of HCCS in accordance with Education Code Section 47605(e)(2)(C). (Ed. Code § 47605(e)(2)(A)-(C).)
- If a pupil is expelled or leaves Charter School without graduating or completing the school year for any reason, notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades and health information. If the pupil is subsequently expelled or leaves the school district without graduating or completing the school year for any reason, the school district shall provide this information to the Charter School within 30 days if the Charter School demonstrates that the pupil had been enrolled in the Charter School. (Ed. Code § 47605(e)(3).)
- The Charter School may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance to, or continued enrollment at, the Charter School. [Ref. Education Code Section 47605(n)]
- The Charter School shall adhere to each of the conditions in Education Code Section 47605(e)(4)(A)-(D), including: (A) not discouraging a student from enrolling or seeking to enroll in the Charter School for any reason; (B) not requesting a student's records or requiring a parent, guardian, or student to submit the student's records before enrollment; (C) not encouraging a student currently attending the Charter School to disenroll or transfer to another school for any

reason; and (D) providing a copy of the California Department of Education ("CDE") notice regarding the requirements in Education Code Section 47605(e)(4)(A)-(D) to a parent/guardian or student if the student is 18 years of age or older: (i) when a parent/guardian or student inquires about enrollment (ii) before conducting an enrollment lottery, or (iii) before disenrollment of a student. [Ref. Education Code Section 47605(e)(4)(A)-(D)]

- Meet all statewide standards and conduct the pupil assessments required pursuant to Education Code section 60605 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in non-charter public schools. (Ed. Code § 47605(d)(1).)
- Consult, on a regular basis, with Charter School's students and teachers regarding the Charter School's educational programs. (Ed. Code § 47605(d)(2).)
- Adhere to all provisions of federal law related to students with disabilities including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Individuals with Disabilities Education Improvement Act of 2004.
- Meet all requirements for employment set forth in applicable provisions of law, including but not limited to credentials, as necessary. (Title 5 California Code of Regulations § 11967.5.1(f)(5)(C).)
- Ensure that teachers in the Charter School hold the Commission on Teacher Credentialing certificate, permit, or other document required for the teacher's certificated assignment. The Charter School may use local assignment options authorized in statute and regulations for the purpose of legally assigning certificated teachers,in accordance with all of the requirements of applicable statutes or regulations, in the same manner as a governing board of a school district. (Ed. Code § 47605(l)(1).)
- At all times maintain all necessary and appropriate insurance coverage.
- For each fiscal year, offer, at a minimum, the number of minutes of instruction per grade level as required by Education Code § 47612.5(a)(1)(A)-(D).
- Maintain accurate and contemporaneous written records that document all pupil attendance and make these records available for audit and inspection. (Ed. Code § 47612.5(a)(2).)
- Comply with any applicable jurisdictional limitations to the locations of its facilities. (Ed. Code § 47605; Ed. Code § 47605.1.)
- Comply with all laws establishing the minimum and maximum age for public school enrollment. (Ed. Code §§ 47612(b) and 47610.)
- Comply with all applicable portions of the Elementary and Secondary Education Act ("ESEA'), as reauthorized and amended as the Every Student Succeeds Act ("ESSA").
- Comply with the Public Records Act.
- Comply with the Family Educational Rights and Privacy Act.
- Comply with the Ralph M. Brown Act.
- Comply with Government Code Section 1090, et seq., as set forth in Education Code Section 47601.1.
- Comply with Political Reform Act, Government Code Section 81000, et seq.
- Meet or exceed the legally required minimum number of school days. (Title 5 California Code of Regulations § 11960.)

Charter School declares that it shall be deemed the exclusive public school employer of Charter School's employees for the purposes of the Educational Employment Relations Act.

Element A The Educational Program

Program Focus: Opportunities for Adult Learners

The Highlands Story
Highlands Community Charter School (HCCS) has been in operation since August 2014 and is one of two public charter schools operated by Highlands Community Charter and Technical Schools. HCCS exists to provide second chances — to serve adult learners aged 22 and older who, for a wide variety of reasons, were unable to earn a high school diploma through traditional pathways.

We serve a uniquely diverse student population, the majority of whom are immigrants and refugees. Some of our students arrive with advanced degrees from their home countries, having previously worked as engineers, teachers, and medical professionals. Others have had little or no formal education and are just beginning to learn to read, write, or speak English for the first time. Our model is built to honor this range of lived experiences — meeting students where they are and helping them reach where they want to go.

HCCS is open to all adult learners over the age of 22 and accepts students according to available capacity and lottery procedures. At our core, we believe that every student — regardless of their starting point — deserves access to a high-quality education, a pathway to a better future, and the unwavering support of a school community that sees their potential.

In July 2025, HCCS entered an era of renewal and accountability under the leadership of Executive Director Jonathan Raymond, former superintendent of Sacramento City Unified. With a sharpened focus on transparency, equity, and academic rigor, we are reimagining what second-chance education can be in California.

Our goal is to urgently rebuild an adult education program on a foundation of institutional integrity and a deep commitment to putting students first in every decision. We are raising standards across the board to implement clear policies for fiscal responsibility, place K-12 credentialed teachers in every classroom, lower class sizes, develop a rigorous and standards-aligned curriculum, enable more professional learning for teachers, and expand access to career training to support workforce needs throughout the regions we serve.

While the school has temporarily cut back staffing and reduced its enrollment capacity as part of program restructuring, it has laid essential groundwork for deep structural change. Every initiative proposed in this revision reflects our commitment to building educational programs that deliver on HCCS's commitment to serving its students, families, and the public.

HCCS has also launched a comprehensive five-year strategic planning process to reimagine how we deliver services and meet the evolving needs of our learners. We are investing in academic excellence, workforce relevance, and a culture of care. With these changes, we believe Highlands can become a statewide model for high-quality adult education that transforms lives.

Mission Statement
HCCS is a diverse community for social justice, serving the underserved by providing access to education, technology, communication, and employment for 21st-century achievers. Through community partnerships, HCCS builds new legacies leading to self-sufficiency and generational change.

Vision
The vision of HCCS is to eradicate educational inequality and promote workforce success.

Executive Leadership
The Executive Leadership at Highlands Community Charter School provides high-quality leadership to create and sustain a meaningful learning environment that supports student academic progress.

Under the direction of the Board, the Cabinet—comprising the Executive Director, Deputy Director/Chief Academic Officer, Deputy Director/Chief Operating Officer, and Chief Business Officer—develops, implements, and evaluates key school systems and processes, including academic, human resources, finances, assessment, facilities, and accountability.

Leadership Team

Jonathan Raymond, Executive Director
Jonathan Raymond is a nationally respected education leader known for helping institutions navigate moments of deep crisis and emerge stronger, more accountable, and more student-centered. He most recently served as Senior Vice President and Superintendent in Residence at City Year, a national youth development and education nonprofit, where he oversaw education policy and provided strategic guidance to local and national systems working at the intersection of education, equity, and workforce development. As the Superintendent of the City School District of New Rochelle, he led the district through the final stages of the COVID-19 pandemic, investing in whole-child supports, accelerating learning recovery, and strengthening school-community partnerships. His leadership prioritized mental health, expanded after-school and summer enrichment, and delivered resources to students most impacted by the Pandemic.

Prior to that, Raymond served as Superintendent of Sacramento City Unified School District, where he guided one of California's largest urban districts through historic budget deficits, deep structural reform, and the early stages of a statewide shift toward equity-driven education.
Under his leadership, the district raised graduation rates, introduced whole-child support, launched early learning and summer programs, and transformed some of its most underserved schools into high-performing campuses — all while navigating one of the toughest fiscal climates in California's history.

Raymond's crisis-tested leadership is grounded in a lifelong commitment to public service. He previously served as Executive Director of the Massachusetts COVID-19 Relief Fund, Chief Accountability Officer of the Charlotte-Mecklenburg Schools in North Carolina, and President of the Stuart Foundation, California's largest K-12 education philanthropy. He began his career as a labor law attorney and brings legal, nonprofit, and philanthropic expertise to every challenge. He is a graduate of the Broad Superintendents Academy, holds a JD from George Mason

University School of Law, an MA from The Fletcher School of Law and Diplomacy at Tufts University, and a BA from Tufts University. He also completed the Executive Management Program at Harvard Business School.

Throughout his work, Raymond has earned a reputation for putting students first, building trust in fractured environments, and helping systems rise from instability to renewal. As the newly appointed Executive Director of Highlands Community Charter, he brings that same steady hand to a school community that is ready to rebuild and thrive.

Teresa Cummings, Ph.D., Deputy Director/Chief Operations Officer
Teresa is a seasoned systems-level leader with over three decades of experience transforming education through strategy, accountability, and innovation. She has served as Chief of Staff and Chief Accountability Officer, bringing clarity, alignment, and execution to large-scale organizational priorities. Holding a Ph.D. from the University of Illinois, Chicago, Teresa's career spans the full spectrum of education—from PreK–12 classrooms to community colleges and universities—where she has excelled as a teacher, administrator, and author of mathematics curricula.

Her leadership portfolio includes extensive executive-level district administration, where she has shaped policy, accountability systems, and instructional improvement at scale. Beyond the district level, Teresa has advanced research and development efforts for non-profits, the Riverside County Office of Education, and the Stuart Foundation, where she co-developed an organizational health review now used to strengthen institutional performance.

Across every role, Teresa has been recognized for her ability to integrate research, practice, and policy into sustainable systems that drive student achievement and organizational excellence.

Eric Chapman, Deputy Director/Chief Academic Officer
Eric Chapman holds a Master of Education from California State University, Sacramento, and has dedicated more than 25 years to the field of education. He began his career as a classroom teacher and instructional coach in the Del Paso Heights School District before moving into school leadership, serving as principal at four sites within Sacramento City Unified School District. In these roles, he led transformative turnaround efforts in literacy, family engagement, and community school models, while guiding schools through continuous improvement cycles, professional learning, and student-centered restructuring initiatives. Since 2008, his leadership has focused on building systems that foster equity, innovation, and academic achievement. Eric now serves as Chief Academic Officer for Highlands Community Charter and Technical Schools, where he directs efforts in career technical education, workforce alignment, and equity-driven systems that expand opportunities for adult learners. Recognized as a mentor and collaborator, he is deeply committed to advancing student success and harnessing the power of schools to strengthen communities.

Matthew Lemos, Chief Business Officer
Matthew Lemos brings more than two decades of leadership experience in finance, operations, and team management across both the education and hospitality sectors. He began his career in the gaming industry, serving as a floor supervisor, pit manager, and head trainer, where he developed expertise in staff development, customer service, and process improvement. Transitioning to the nonprofit and education fields, Matthew has spent the past six years directing financial services for charter schools in

California and Nevada. He has overseen multimillion-dollar budgets, compliance with state and federal regulations, and the development of policies and systems that ensure fiscal stability and operational excellence.

Matthew currently serves as Chief Business Official for Highlands Community Charter and Technical Schools, where he provides strategic leadership in finance, operations, and risk management to support the school's mission of preparing career-ready graduates. Known for his strong communication skills, ethical leadership, and collaborative approach, he is dedicated to building sustainable systems that strengthen schools and expand opportunities for students and staff alike.

Bindy Grewal, Ed.D., Director of Human Resources
Bindy Grewal is an accomplished educational leader and human resources executive with more than three decades of experience serving California public schools. She holds an Ed.D. in Educational Administration and Foundations from the University of the Pacific and a Master's in Educational Leadership from California State University, East Bay. Over the course of her distinguished career, she has held roles spanning classroom teaching, school administration, district leadership, and executive-level human resources management.

Bindy most recently served as the Assistant Superintendent for Elk Grove Unified School District, where she oversaw 43 schools serving more than 30,000 students. In this role, she provided strategic leadership as part of the Superintendent's Cabinet, guided principals and directors, managed complex operational and instructional systems across multiple school calendars, and played a key role in districtwide initiatives including COVID-19 distance-learning transitions, school closures during environmental crises, early learning program enhancements, and major facilities planning. She was also an active member of the district bargaining team, addressing negotiations, compliance matters, and board-level issues with professionalism and clarity.

Prior to her executive leadership role, Dr. Grewal served as Director of Certificated Human Resources, where she led all aspects of certificated HR operations, including recruitment, employee relations, policy interpretation, staffing, investigations, and labor compliance. Her earlier administrative career included serving as a principal for nine years, earning the California Distinguished School Award, and as a vice principal for four years, where she strengthened school cultures, improved academic performance, and supervised comprehensive instructional programs.

Melissa Roberson, Director of Accountability and Assessment
Melissa Roberson is the Director of Accountability and Assessment, bringing over a decade of experience in education with a strong foundation in teaching, leadership, and data-driven decision-making. She earned her Master's degree from the University of Southern California in 2016 and went on to serve as a principal for five years, where she championed student outcomes and teacher growth. With a background as an experienced ELD and ESL teacher, Melissa has deep expertise in instructional strategies and supporting English learners. In her current role, she oversees WASC accreditation, state reporting, and manages the relationship with the Twin Rivers Unified School District, ensuring compliance and alignment with school goals. Known for her integrity, student-centered approach, and sharp focus on data, Melissa is dedicated to building systems that elevate teaching and learning for all students.

Mayra Valdivia, Interim Director of School Services
Mayra Valdivia is an educator and administrator dedicated to advancing student success through strategic leadership, community partnership, and program development. She began her career as a high school counselor, supporting students' academic, social-emotional, and career growth, and later served as Lead ELD Counselor, directing programs that expanded services for English learners. She went on to serve as Director of Student Services and Assistant Deputy Director at Highlands Community Charter and Technical Schools, overseeing counseling, student support, and departmental operations while strengthening community partnerships. In 2024, she was appointed Deputy Director of School Services, where she supervises directors, guides program implementation, and represents the organization in legislative and community settings to advocate for policies benefiting students and families. Mayra holds a Master of Science in School Counseling from California State University, Sacramento, and earned her Preliminary Administrative Services Credential in 2024. She has also completed leadership and charter school business officer training through the Charter Schools Development Center. Fluent in English and Spanish, she is a strong advocate for equity and access, committed to expanding opportunities for diverse student populations.

The Population HCCS Desires to Educate
HCCS has the motto "...it's never too late." The school specifically focuses on providing educational opportunities for adults 22 years and older without a US high school diploma who have been unserved or underserved by the traditional educational system. This includes students who were unable to complete high school due to circumstances such as early parenthood, justice system involvement, or economic necessity, as well as immigrants and refugees seeking educational opportunities in the United States. HCCS provides a viable educational choice for adult learners interested in completing their high school education in a supportive environment that recognizes their diverse backgrounds, experiences, and goals.

The school serves students from 89 countries, with the five most represented countries as of the 2024-2025 school year being Afghanistan (5,830 students), Ukraine (1,383), Russia (1,356), Mexico (1,014), and Vietnam (318). This international diversity reflects both global migration patterns and Sacramento's role as a resettlement community for refugees and immigrants.

Student Population Characteristics

Demographics and Geographic Distribution
HCCS enrolls students primarily from Sacramento County, serving a culturally and linguistically diverse population. Women comprise 58.90% of the student body, men 41%, and 0.10% identify as nonbinary. The school serves grades 9-12, with all students being 22 years of age or older.

Language and Cultural Diversity
Approximately 90% of HCCTS students are English Language Learners, though the school also serves English proficient students seeking to complete their education through credit recovery. Based on enrollment data, there are multiple primary languages represented at HCCS, reflecting the diverse countries of origin of the student population. The five most represented countries at HCCS as of Census day for the 2024-2025 school year are Afghanistan, Ukraine, Russia, Mexico, and Vietnam. The table

below shows the top five countries of origin for students at HCCS by year for the last three years, along with the number of students enrolled by year for that country.

	2022-2023	2023-2024	2024-2025
1	Afghanistan (2,875)	Afghanistan (3,755)	Afghanistan (5,830)
2	Ukraine (990)	Ukraine (1,305)	Ukraine (1,383)
3	Mexico (920)	Russia (1,239)	Russia (1,356)
4	Russia (634)	Mexico (1,036)	Mexico (1,014)
5	United States (381)	Vietnam (268)	Vietnam (318)

Socioeconomic Status
The overwhelming majority of HCCS students qualify as socioeconomically disadvantaged, with over 97% qualifying for this status in the 2023-2024 census, an increase from the historical 90%+ rate.

Free and reduced lunch eligibility has grown significantly:

Year	Students Eligible for Free/Reduced Lunch
2022-2023	5,690
2023-2024	9,350
2024-2025	11,546

Housing Instability
A significant portion of the student population experiences housing instability:

Year	Enrolled Homeless Students
2022-2023	450
2023-2024	1,584
2024-2025	1,365

Due to the social stigma associated with homelessness, these numbers likely represent underreporting, as many students temporarily staying with friends or family may not identify as homeless.

Student Challenges and Needs

Varied Educational Backgrounds
The educational backgrounds of HCCS students vary dramatically. Some refugee and immigrant students arrive with advanced degrees from their countries of origin and extensive English language experience, while others may have never had formal education and lack literacy in their first language. US-born students typically have experienced interruptions in their education due to various life circumstances.

Multiple Responsibilities
Many students are adults managing multiple responsibilities, including employment, family care, and basic needs. They often lack access to reliable transportation, computer technology, and childcare. Limited free time presents ongoing challenges for academic engagement and completion.

Trauma and Life Experiences
Students frequently arrive having experienced various forms of trauma including displacement, poverty, addiction, homelessness, and incarceration. Ex-offenders face particular challenges re-entering educational settings and often require additional academic and social-emotional support.

Access to Basic Needs
Many students lack access to fundamental necessities including food, appropriate clothing, school supplies, and stable housing. The refugee population faces additional challenges adapting to new customs, culture, and technology while building English proficiency and seeking employment.

Student Goals and Motivations

Students enroll at HCCS with diverse but interconnected goals: improving English language skills, completing their high school education, accessing better employment skills and opportunities, supporting their families, and participating more fully in their communities. For many, earning a high school diploma represents both a long-deferred dream and a critical step toward economic stability and further education. HCCS recognizes that academic achievement must be pursued alongside students' broader life goals, creating pathways that honor both educational attainment and personal aspirations.

Characteristics of an Educated Person in the 21st Century

HCCS holds that an educated person in the 21st century is well-rounded, literate in both academics and the needs of their well-being, and balanced in knowledge of core subjects, communication, career and civic readiness, and the use of technology. In the grades 9-12 high school context, this means students engage in a coherent course of study that builds critical thinking and problem-solving, and helps them act with increasing independence and confidence in academic and professional settings. Our students become empathetic, collaborative members of the community. Through collaboration, they set and pursue personal, academic, and career goals. A climate of mutual trust and support leads students to demonstrate empathy and to engage in respectful, productive communication. Teachers guide students to see themselves as global citizens who are empowered and responsible for making positive changes in their immediate environments and beyond. Accordingly, an educated person in California today is

literate in English and able to communicate and function competitively and productively in the workforce, in higher-education classrooms, and in their communities.

Our students **seek understanding and peace** within multi-age, multicultural classrooms and respect the rights of others to do the same. We support students in developing personal habits for a healthy lifestyle—balancing academics, leisure, work, family, and community. Students who have had limited access to technology learn to use digital tools as a means to succeed in school, work, and civic life.

Our students are **scholars** who build proficiency in English, Mathematics, Science, and Social Studies/History. As members of the California/ Sacramento community, they communicate effectively and contribute to the world around them. They are prepared to meet the expectations of college classrooms and to engage thoughtfully with new ideas.

Our students are **community members** who collaborate with others, contribute to projects, and manage and resolve conflicts using the communication tools learned in our classrooms. They are motivated to provide meaningful service and to apply their developing talents in real settings. We send our students into the workforce confident in the skills they have developed and prepared to communicate, collaborate, and contribute.

Our students are **citizens** of the world who understand the foundations of constitutional democracy, the rights and responsibilities of all, and the importance of staying informed about political, social, and environmental issues. By learning together in diverse classrooms and on our campuses, students deepen their understanding of other political, social, and cultural systems and practice peaceful coexistence.

Our students are **members of an increasingly technical and information-based world** and are competent, comfortable users of a wide range of technologies. They view technology as an integral part of learning and life and remain open to new tools and approaches as they emerge.

Educational Philosophy and Approach

HCCS supports all adult learners to have agency and to chart the path that will help them achieve their academic vision. We have research-based beliefs about learning in general, learning for adults, and learning for English Language Learners that inform our approach to teaching and learning. Our educational philosophy is grounded in three interconnected beliefs that recognize the complexity and humanity of adult learning. These principles guide every aspect of our instructional design, student support systems, and organizational culture.

Learning Occurs in the Context of Safe and Trusting Relationships

Adult learners, particularly those who have experienced educational trauma or systemic barriers, require learning environments that prioritize psychological safety alongside academic rigor. Trust is not a luxury in adult education—it is a prerequisite for the kind of vulnerable, transformative learning that leads to lasting change.

Trauma-Informed Educational Practices
Many of our students carry the impacts of various forms of trauma, including displacement or systemic oppression. Our approach recognizes that trauma affects learning by impacting memory, concentration, and the ability to take academic risks. We create predictable, supportive environments where students can rebuild their relationship with learning in contexts that feel safe and affirming.

Relational Pedagogy
We understand that learning is fundamentally relational. Students are more likely to engage in challenging academic work when they feel seen, known, and valued by their instructors and peers. Our educators invest time in building authentic relationships with students, learning about their goals, interests, and concerns. This relational foundation allows for the kind of honest feedback and academic push that leads to growth.

Community Building and Peer Support
We intentionally cultivate learning communities where students support each other's growth and success. This includes structured opportunities for peer collaboration, study groups, and mentoring relationships.

Mental Health and Wraparound Services
We recognize that academic success is interconnected with students' overall well-being. Our support systems include connections to mental health resources, basic needs support, and advocacy services that address the systemic barriers our students face. We work in partnership with community organizations to provide comprehensive support that allows students to focus on their learning.

Addressing the Social-Emotional Impacts of Educational Interruption
Students with interrupted formal education often experience complex emotions related to their academic journey, including shame about gaps in their knowledge, anxiety about academic performance, or frustration with the pace of progress. We create learning environments that normalize diverse educational pathways and celebrate the varied forms of knowledge students bring.

Instruction Must Meet Students Where They Are
Meeting students where they are is more than an instructional strategy—it is a fundamental stance that honors the diverse pathways that bring adult learners to our doors. Our students arrive with varying levels of formal education, different cultural approaches to learning, and unique combinations of strengths and areas for growth. This reality requires us to move beyond one-size-fits-all approaches toward responsive teaching that builds on what students already know and can do.

Supporting Students with Interrupted or Inconsistent Formal Education (SIFE)
A significant portion of our student population has experienced interruptions in their formal schooling due to migration, economic necessity, political instability, or family circumstances. These students bring rich life experiences and often sophisticated problem-solving skills, yet they may have gaps in traditional academic content or unfamiliarity with formal educational expectations. We reject deficit-based approaches that focus on what these students lack, instead building comprehensive support systems that honor their strengths while addressing their specific learning needs.

Our approach to supporting SIFE students includes intensive foundational skill development alongside grade-level content engagement, recognizing that these students need both remediation and acceleration. We provide explicit instruction in academic literacy skills—including how to navigate textbooks, online curricula resources, take notes, and engage in classroom discussions—while maintaining high expectations for critical thinking and complex problem-solving.

Asset-Based Assessment and Instructional Design
We begin by understanding each student's full educational profile, including formal schooling, work experience, community involvement, and self-directed learning. This comprehensive view allows us to design learning experiences that connect new knowledge to existing understanding while addressing genuine learning needs. Rather than focusing on deficits, we identify the multiple entry points through which students can engage with rigorous academic content.

Flexible Pathways and Differentiated Support
Meeting students where they are means creating multiple pathways through our curriculum that allow for different paces, learning styles, and life circumstances. Our new curriculum, which covers all disciplines, allows teachers to alter the reading level of the text to meet the student at their level and provide translated background text and videos that build background knowledge to enhance ELLs access to the core grade-level curriculum and the grade 9-12 California State Standards. This includes offering content in various modalities, providing choice in how students demonstrate their learning, and designing support systems that accommodate working adults with family responsibilities and other commitments.

Diagnostic and Responsive Teaching
Our teachers continuously gather information about student understanding and adjust instruction accordingly. This goes beyond initial placement to include ongoing formative assessment that reveals how students are making sense of new concepts and where additional support or challenge is needed. We create learning environments where struggle is normalized as part of the learning process, and where students receive the specific feedback they need to move forward. See more about this in the professional development section.

Cultural and Linguistic Responsiveness
Meeting students where they are requires a deep understanding of the cultural frameworks and prior educational experiences that shape how students approach learning. We work to understand not just what students know, but how they know it—the cultural tools and ways of thinking they bring that can be leveraged for new learning.

Effective Adult Learning Requires Agency and Relevance
Adult learners bring intrinsic motivation and clear goals that can be powerful drivers of academic success when properly leveraged. Our role is to create learning experiences that honor students' autonomy while providing the structure and support they need to achieve their educational objectives.

Self-Directed Learning and Goal Setting
We work with students to identify their short-term and long-term goals and help them understand how their coursework connects to these aspirations. This begins in orientation, where they learn the pathways and requirements so that students can make informed decisions about their academic path. Students participate in setting their own learning objectives within the framework of academic standards, and they regularly reflect on their progress toward these goals. This self-direction increases engagement and helps students develop the metacognitive skills essential for lifelong learning.

Choice and Flexibility in Learning
Adult learners thrive when they have options in how they engage with content and demonstrate their learning. We provide multiple ways for students to explore topics of interest, pursue individual research projects, and showcase their growing knowledge and skills.

Real-World Connections and Application
Learning feels most relevant when students can see immediate applications to their lives and goals. The curriculum we use has many opportunities to connect academic content to contemporary issues, workplace skills, and community engagement opportunities. Students might analyze historical patterns to understand current social issues or conduct scientific investigations related to health or environmental concerns in their communities.

Career and College Integration
We explicitly connect academic learning to students' career and college goals, helping them understand how the skills they're developing will serve them in future educational and professional contexts. This includes developing academic habits of mind, communication skills, and critical thinking abilities that transfer across contexts.

Student Voice and Feedback
Students have regular opportunities to provide feedback about their learning experiences and suggest improvements to courses and programs. Please see the student survey section below for more detailed information. We view students as partners in the educational process, recognizing that their insights about what supports their learning are essential for continuous improvement. This feedback loop helps students develop advocacy skills while ensuring our programs remain responsive to their needs.

Ownership of Learning Outcomes
We support students in developing the ability to assess their own learning and set goals for improvement. This includes teaching students to use rubrics, reflect on their growth over time, and identify specific strategies that support their success.
These three foundational beliefs work together to create learning environments where adult students can achieve their educational goals while developing the skills, knowledge, and confidence they need for continued success in their academic, professional, and civic lives.

Foundational Research and Theories Supporting Our Approach

The instructional strategies employed at HCCS are fully congruent with the pedagogical design and theoretical underpinnings of the Savvas curriculum. This alignment is operationalized through a coherent language development pathway, an integrated system of academic and linguistic supports, and the deliberate application of empirically grounded second-language acquisition frameworks. Collectively, these elements ensure that English Learners acquire the linguistic competencies necessary to engage meaningfully with the standards-based SAVVAS instructional sequence.

Savvas provides a rigorous, standards-aligned curriculum with embedded language supports intended to promote equitable access to grade-level content. HCCS extends this foundation by implementing designated and integrated language development structures that supply the additional scaffolding required for emerging bilingual learners. Instructional delivery is anchored in Content-Based Instruction, explicit literacy development, and structured reading and writing supports, all of which are consistent with the instructional routines, text complexities, and cognitive demands embedded within the Savvas program.

Educators systematically assess student language proficiency, academic readiness, and individual learning profiles to differentiate instruction within the Savvas framework. This diagnostic approach ensures that English Learners can access, process, and demonstrate mastery of rigorous academic content while developing the academic discourse and literacy skills essential for secondary coursework. When combined with the onramp for adult English Learners and the school's comprehensive support systems, these strategies cultivate the academic language, confidence, and disciplinary knowledge required for students to progress through Savvas-aligned high school coursework, meet graduation requirements, and transition successfully to postsecondary pathways

Adult Education Learning Theories
HCCS applies research-based adult learning theories to design educational programs that recognize adult students have different needs than traditional K-12 students. The school incorporates adult learning theories, differentiated instruction, and student-centered approaches to meet diverse learner needs. Malcolm Knowles' foundational research (1980) identifies key differences between adult and child learners: adults are self-directed, bring rich life experiences, are problem-oriented, and are motivated by internal factors. Patricia Cross (1981) emphasizes that adult learners are typically voluntary participants who may feel insecure about learning but are motivated to solve real-world problems. Cross identifies multiple motivation sources, including personal achievement, social factors, and career advancement.

Sociocultural Theories
According to Sociocultural Theory (SCT), social interaction is the foundation of all learning (Walqui, 2008). Sociocultural perspectives in language acquisition emphasize real-world participation with authentic language and activities that occur in everyday life (Zuengler & Miller, 2006). Some of the primary assumptions of Sociocultural Theories are that learning occurs before development, that language is the primary tool for thought (Mitchell, Myles, & Marsden, 2013), that writing and speaking are connected (Lightbrown & Spada, 2012), that mediation is essential to learning (Walqui, 2008), and that concept-based instruction aids learning (Mitchell, Myles, & Marsden, 2013).

The Zone of Proximal Development (ZPD) and Scaffolding are two very important concepts in Sociocultural Theory. The ZPD is the stage in which the learner can advance as a result of support (scaffolding) that's provided to them by an interlocutor (Lightbrown & Spada, 2012). Scaffolding is

defined as, “a process of setting up” the situation to make the student’s entry easy and successful and then gradually pulling back and handing the role to the student so that the student becomes independent enough to handle it (Walqui, 2008). For example, in traditional Sociocultural Theory meaningful interactions take place between an expert (teacher) and a novice (student), where the expert provides the learner with scaffolding during the learner’s ZPD.

Differentiated Instruction
Each student arrives at a different level, with unique learning styles, interests, and abilities. Recognizing this diversity, differentiated instruction is utilized to ensure the needs of all students are met. Differentiated instruction (also known as differentiated learning) is a teaching framework in which the teacher works to simultaneously address the diverse learning needs of all students in one class (Maloy, Verock-O’Loughlin, Edwards, & Woolf, 2013). It is commonly used in multi-level classrooms to meet the needs of students with special educational needs, English language learners, and with students who are advanced or in talented and gifted programs. It allows students the opportunity to learn through various avenues, and each student has different expectations based on learning styles and abilities.

According to the U.S. Department of Education’s Literacy Information and Communication System (2012), differentiated instruction engages students at a range of different levels with various learning styles and makes learning meaningful for students at every level. According to Carol Ann Tomlinson (2003), differences in student learning exist in four categories: readiness (prior knowledge), interest (curiosity), learning profile (formal or informal), and affect (self-regard). Before teachers can differentiate their lessons, teachers must understand their students’ levels, abilities, learning styles, interests, strengths, and challenges (Corley, 2005).

Content-Based Instruction (CBI)
CBI is particularly critical for high school English Language Learners because it addresses the dual challenge of mastering academic content while developing the academic language skills essential for school success. By embedding language development within meaningful content learning, CBI creates authentic contexts for language use, builds subject-specific vocabulary, and prepares students for college-level coursework. Research shows this empowering approach encourages learners to become independent, continuing their language development beyond the classroom while simultaneously meeting rigorous academic standards required for high school graduation and post-secondary success.

For students developing foundational language skills such as reading and writing, context plays a critical role in supporting both language and literacy development. Content-Based Instruction (CBI) provides context-rich materials through the curriculum, offering meaningful opportunities for students to build language skills while engaging with relevant academic topics. One of the most critical challenges we face is the persistent and widening vocabulary gap, which can significantly impact the academic progress of learners across all age groups. CBI addresses this challenge.

<u>Supporting our English Learner Population</u>
As a charter school exclusively serving students over the age of 21, the English assessment requirements of federal and state law applicable to students aged 3 through 21, as defined by Education Code section

306, do not apply to HCCS.[1] Almost all of the students at HCCS are classified in CALPADS as adult English Language Learners or ADELs. Therefore, HCCS students do not take the English Language Proficiency Assessments for California (ELPAC) or appear in the California Dashboard for purposes of the English Language Proficiency Indicator (ELPI). HCCS goes to great lengths to serve the needs of our English Language Learners.

Language learning for adults can differ from traditional models of education. It is deeply personal work that builds on the rich linguistic and cultural assets that students bring with them. Because compulsory education requirements do not apply to adult students, myriad factors constantly pull them away from their educational goals. Our approach to supporting English Language Learners recognizes that language acquisition happens most effectively when it is meaningful, relevant, and connected to students' lived experiences and goals.

At HCCS, we understand that our students are not empty vessels waiting to be filled with English. They are accomplished individuals who have navigated complex systems, often in multiple languages, and bring sophisticated problem-solving skills and cultural knowledge that enrich our entire learning community. Our role is to create learning environments where students can leverage these strengths while building academic and professional English proficiency.

Our approach to English language learning is grounded in several research-informed principles that guide our instructional design and student support:

Highlands Community Charter Schools (HCCS) is transitioning towards offering traditional A–G pathways. Our model is intentionally designed to provide adult learners, including English Learners, with an accessible, research-informed pathway to meeting high school graduation requirements and achieving academic readiness. The instructional framework is grounded in adult learning theory, sociocultural perspectives, differentiated instruction, and content-based language development to ensure that language and academic content are mutually reinforcing. Consistent with research demonstrating that students acquire language most effectively when it is embedded in meaningful, content-rich learning experiences, HCCS integrates academic English development with standards-aligned coursework through intentional scaffolding, structured reading and writing supports, explicit vocabulary development, and teacher-guided learning within each student’s Zone of Proximal Development. Within this design, students’ home languages are treated as cognitive and cultural assets. Translanguaging practices are encouraged so that learners may draw from their full linguistic repertoires, while their prior life experiences, motivation, and goal orientation are leveraged to accelerate access to academically rigorous material. This integrated model ensures that English Learners develop the linguistic, academic, and cognitive foundation necessary to successfully engage in high school–level coursework within the independent-study setting.

To prepare our newcomers for this rigorous, standards-aligned high school program, we provide a structured and research-aligned onramp for adult English Learners who are at the beginning stages of

[1] Education Code section 306, section (a), defines “English learner” for ELPAC and ELPI requirements by incorporating the definition of 20 U.S.C. 7801 (20)(A), i.e. “the term ‘English learner’, when used with respect to an individual, means an individual who is aged 3 through 21.”

English acquisition, including newcomer students, students with interrupted formal education, and those with limited or no prior schooling.

This supported approach pairs a designated English Language Development course (English for Work and Life) with an English Language Arts course to ensure coherent progression across both language acquisition and literacy development. Students may also enroll in additional courses across the HCCS program to continue building academic readiness while progressing toward high school graduation requirements. All courses use state-adopted, standards-based instructional materials and supplemental resources to ensure alignment with California's academic expectations and to provide students with access to rich, grade-level content appropriately scaffolded for their language proficiency.

The instructional structure of the onramp to high school is anchored by three core courses designed to support language growth, academic engagement, and foundational skill development. English as a Second Language (ESL) offers targeted instruction in listening, speaking, reading, and writing within real-world, functional contexts, supporting cultural integration, early literacy development, and the communicative confidence essential for success in both academic and community life. English for Work and Life (EFWL/ELD) provides a multi-level, inclusive class structure that builds practical communication skills for personal, academic, and workplace settings. With an emphasis on functional vocabulary, grammar, digital literacy, and real-life tasks, EFWL equips students to navigate contemporary communication demands while benefiting from peer-supported and collaborative learning. English 9, taught through Savvas myPerspectives, introduces students to diverse literary and informational texts and develops their abilities in close reading, discussion, analysis, and academic writing. This course strengthens vocabulary, comprehension, composition, and critical thinking, guiding learners toward producing narrative, argumentative, expository, and research-based writing. Together, these courses form a coherent and integrated sequence that ensures adult English Learners at HCCS receive rigorous, standards-aligned instruction paired with the linguistic scaffolding necessary to thrive within the independent-study model.

Language and Content Learning Are Interconnected.
Research consistently shows that students learn language most effectively when it is embedded in meaningful, content-rich contexts (see CBI explanation above). Our integrated approach ensures that students are simultaneously building language skills and engaging with rigorous, standards-aligned academic material relevant to their goals.

Students' Home Languages Are Resources, Not Barriers.
Multilingualism is an asset that enhances cognitive flexibility and cross-cultural communication skills. We create space for students to use their full linguistic repertoire as they build English proficiency, recognizing that translanguaging—the fluid use of multiple languages—is a natural and effective learning strategy. We also believe that our students bring life experience, motivation, and clear goals that can accelerate their learning when properly supported.

Authentic Assessment Drives Responsive Instruction.
We move beyond standardized measures to develop assessment practices that capture the full range of our students' growing capabilities. This includes portfolio-based assessments, project-based demonstrations of learning, and self-assessment tools that help students track their own progress toward their goals.

Language Assessment Upon Enrollment

As a WIOA partner, HCCS assesses all students during the admissions process and monitors their progress through CASAS testing. The first assessment, administered during registration, is the placement exam, which evaluates students' reading, writing, listening, speaking, and grammar skills. This exam is scored with an internally developed rubric.

During orientation, students also complete CASAS reading and listening assessments. CASAS provides standardized progress testing designed to measure learning along a continuum, from beginning literacy and English language acquisition through the completion of secondary-level skills. Several test series monitor student progress, with difficulty levels ranging from below Level A through Level E. Administering CASAS at enrollment establishes a baseline, followed by post-testing after 70–100 hours of instruction to track student progress over time.

If a teacher determines that a placement is inaccurate, a reassessment may be requested. If the reassessment results in a different level placement, the placement team updates the student's record in PowerSchool and informs the teacher of the revised placement.

The placement rubric is updated annually based on teacher and student feedback. Updates are shared with the curriculum team to confirm alignment with HCCS level objectives. Any additional feedback is integrated before the rubric is finalized for use in the upcoming school year.

Reclassification
As an exclusively adult-serving charter school, HCCS serves English Language learners who must be designated in CALPADS as Adult English Language Learners (ADEL). ADEL students do not participate in ELPAC testing and do not appear as English Language learners on the California Dashboard for purposes of the English Language Proficiency Indicator (ELPI). We track and report ESL advancement as determined by CASAS testing.

Enrollment and Class Size to Support Learning Goals
Enrollment at Highlands Community Charter School has increased each year since its opening. In the 2021–2022 school year, enrollment was 3,751; in 2022–2023, enrollment rose to 6,749; and in 2023–2024, enrollment grew again to 9,069 students, according to the DataQuest census day snapshot. By the end of the 2023–2024 school year, HCCS experienced a significant increase in enrollment and heavily impacted classes. Teachers reported that students were often unprepared with essential skills, and frequent roster changes disrupted instruction. In response, the enrollment process was revised for the 2024–2025 school year to better prepare students and support more strategic class planning. In the 2024-2025 school year new students were enrolled on a biweekly basis rather than continuously throughout the term. Orientation was also updated to include study skills, academic planning, and CASAS assessments.

Five-Year Enrollment Rollout Plan
HCCS has dramatically reduced its enrollment due to updated credential requirements for teachers. As a result, HCCS has recently laid off 631 employees (teachers who only possess an adult education credential as well as staff that would support these teachers and the students that they serve).

Although we currently have over 2,700 students on a waitlist waiting to enroll, the school needs to rebuild its capacity to serve them. For the 2025-2026 school year, HCCS currently has approximately 1,000 students enrolled and plans to increase growth at a reasonable pace over the following four fiscal years as it hires and/or trains additional K-12 credentialed teachers. The five-year enrollment rollout plan is as follows:

Year	Number of Students
2025-2026	1,000
2026-2027	1,100
2027-2028	1,210
2028-2029	1,331
2029-2030	1,464

In the 2024-2025 school year, HCCTS adopted a Class Sizes and Enrollment Board Policy (6151BP) which stated that, “While California does not mandate class size limits for grades 9-12, HCCTS recognizes the importance of maintaining class sizes that promote a productive learning environment, reduce teacher workload, and enhance student engagement. Optimal class sizes are essential to support personalized instruction, improve student outcomes, and foster academic success. The Board of Directors, in consultation with the Executive Director, will establish appropriate class size limits that align with HCCTS’ instructional goals and student needs.” For the school year 2025-2026, class sizes are set at 30-1.

Class Size Guidelines

- Student-to-Teacher Ratios: Class sizes will be managed to ensure student-to-teacher ratios that support personalized instruction and academic success.

- Program-Specific Adjustments: Class sizes may vary depending on the nature of the program (e.g., independent study, bridge programs, or high school completion).

Enrollment Management

- Enrollment Caps: Each classroom will have an enrollment cap aligned with physical capacity and instructional goals.

● Monitoring and Rebalancing: HCCS Principals will regularly monitor enrollment and class sizes, making adjustments as needed to maintain educational quality and compliance with capacity guidelines.

● Cross-Reference with Physical Capacity: Class sizes and enrollment numbers will be managed in coordination with physical capacity limits as outlined in BP 7110 Physical Classroom Capacity to ensure compliance with Fire Marshal regulations and building codes.

Impact on Instruction and Student Outcomes

● Teacher Workload: Class size limits will be established to reduce teacher workload and promote effective instruction.

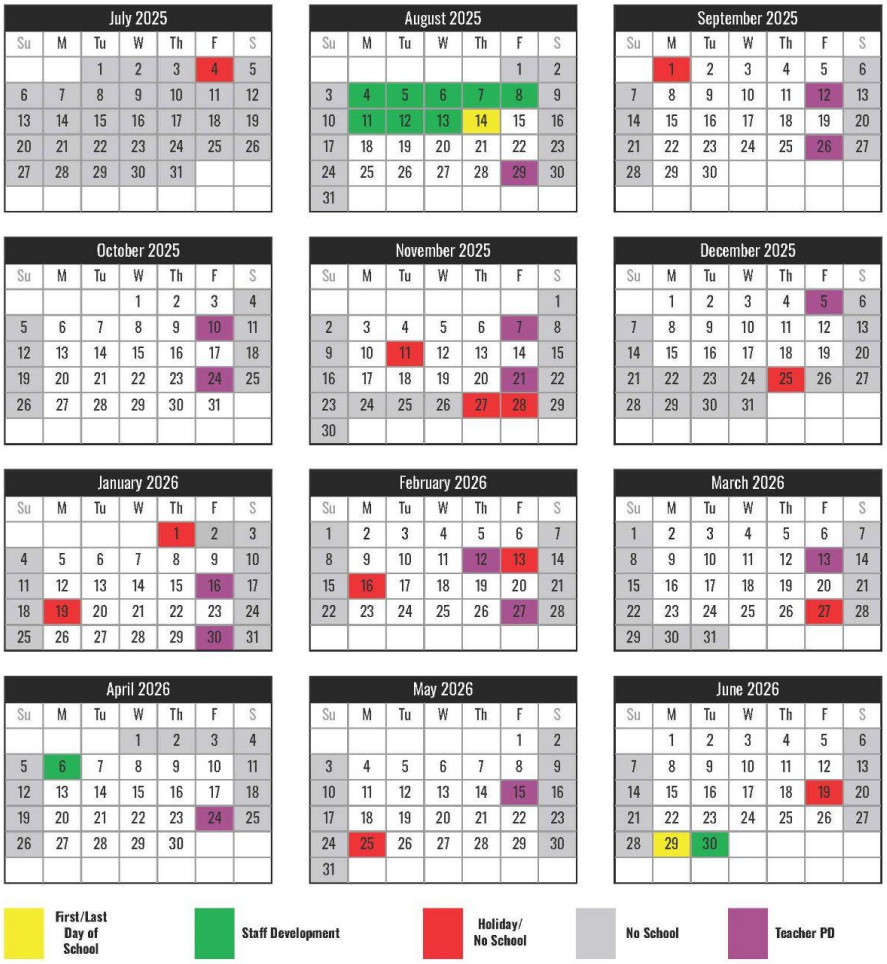
● Student Engagement: Class sizes will be prioritized in courses requiring intensive instruction or student participation.

Admission Process

HCCS has introduced a comprehensive admission process to better prepare and place incoming students. For students not selected in the lottery. This process includes an application placing students in a pre-registration pool where there is no waitlist, or appended to the waitlist in order of application. Students are selected from the waitlist or pre-registration list as appropriate. Students move from pre-registration to orientation where registration, grade level placement,and enrollment are completed including an overview of student expectations and services, and covers any technology-related needs. This enhanced enrollment process ensures students are fully supported from registration to their first day, setting them up for success at HCCS.

HIGHLANDS
COMMUNITY CHARTER AND TECHNICAL SCHOOLS

2025-2026 ACADEMIC SCHOOL CALENDAR



Goals of HCCS Program and Student Learning Outcomes

HCCS has three Schoolwide Learner Outcomes (SLO):

- Academic Growth: Students demonstrate measurable achievement each term through standards-aligned assessments and performance tasks.
- Career Progress: Students make documented progress toward individualized education, workforce skill development, and career goals.
- Digital Communication: Students use technology effectively and responsibly for personal, academic, and workplace communication.

Many of our learners enter HCCS with significant gaps in English language proficiency, academic skills, communication, and technology use. These SLOs are designed to close those gaps and set students on a path to long-term college, career, and community success. To make this real in classrooms, and to build a bridge to content standards, we embed Integrated English Language Development supports within the facilitation of learning across all content areas. We monitor progress through course and credit completion, common formative assessments, and CASAS progress monitoring data.

By offering adult education to learners 22+ who have not yet earned a U.S. high school diploma, we work to reduce educational inequity. Our programs are centered around K-12 state standards shaped by the needs of our students and community, and grounded in a commitment to equity and social justice. We emphasize technology fluency, workforce readiness, and supportive services that remove barriers to learning so students can persist and complete. At HCCS, we believe in our students, we believe in our community partners, and we believe that it's never too late.

The Instructional Leadership Team: Stewards of HCCS's Academic Goals
The goals of the HCCS program are created and supported by the Instructional Leadership Team (ILT), a cross-functional leadership team. The ILT is comprised of the CAO, the principals, teacher leaders, Curriculum Coordinator, Director of CASAS testing, and Director of Instruction & Professional Learning. The ILT meets every other week to ensure that HCCS is meeting its academic goals by analyzing student learning data and designing professional learning support that responds to these data as well as to teacher-reported needs. The ILT works to create coherence across our goals and accountability requirements to support teachers in understanding how these efforts overlap and form our core goals.

Common Core Standards
HCCS is committed to providing a rigorous, standards-based education that meets the unique needs of adult English language learners while ensuring students progress toward California State Standards across all subject areas. Our curriculum design and instructional practices are systematically aligned with the California Common Core State Standards for English Language Arts and Mathematics, the Next Generation Science Standards, and the California History-Social Science Standards. We integrate English Language Development (ELD) standards with content area instruction, utilizing sheltered instruction strategies and culturally responsive teaching practices that honor students' diverse linguistic and cultural backgrounds. Teachers employ scaffolded approaches to make grade-level content accessible, incorporating visual supports, collaborative learning structures, and native language resources when appropriate to support comprehension and academic language development. Through regular assessment of both English proficiency growth and content mastery, we continuously monitor student progress, adjusting instruction to meet learners where they are while maintaining high expectations for academic achievement.

Core Subjects
HCCS offers students access to an A-G curriculum in English Language Arts, Mathematics, Science, History/Social Studies and electives. The English Language Arts, Mathematics, Science, and History/Social Studies courses use the Savvas curriculum.

English Language Arts
The English Language Arts courses guide students through a progressive sequence from foundational grammar and language skills to advanced writing, research, and literary analysis. Rooted in Common Core standards, the Savvas curriculum emphasizes critical thinking, effective communication, and collaboration. Students engage with diverse fiction and nonfiction texts from various cultures centered on Social-Emotional Learning themes, developing skills in reading comprehension, argumentation, and narrative writing. The program culminates in advanced coursework focused on research proficiency, source evaluation, and multimedia presentations, preparing learners for academic success and professional communication.

Mathematics
The Mathematics courses build foundational skills through a sequence aligned with California Common Core standards, beginning with Pre-Algebra and progressing to Algebra 1 and Geometry. Students develop proficiency with key concepts such as fractions, decimals, ratios, proportions, equations, and basic geometry. The Savvas curriculum places emphasis on applying mathematical reasoning to real-life contexts like financial calculations and problem-solving. The curriculum fosters critical thinking and the ability to represent mathematical situations numerically, graphically, verbally, and symbolically, preparing students for success in advanced math courses and everyday life.

History-Social Science
The History-Social Science courses provide students with a comprehensive understanding of civics, U.S. history, world history, government, economics, and ethnic studies. Instruction integrates literacy and critical thinking, connecting academic content with learners' personal and community experiences. Students explore foundational principles of democracy, historical events, cultural diversity, and economic systems, emphasizing analytical skills through document analysis and inquiry-based learning.

The Savvas curriculum prepares students to engage as informed citizens, fostering cultural awareness, social justice, and active participation in society.

Science
The Science courses offer foundational courses in Earth Science and Life Science, fulfilling graduation requirements while building scientific literacy and critical thinking. Earth Science introduces students to the dynamics of Earth and space systems, climate, natural phenomena, and human environmental impact. Life Science covers biological concepts such as chemistry, biodiversity, population dynamics, genetics, and environmental interactions. The Savvas curriculum emphasizes conceptual understanding and real-world application of scientific principles.

Visual and Performing Arts
The Visual and Performing Arts courses introduce students to fundamental concepts in stage performance, music theory, and vocal technique. Courses cover stage presence, character development, and the structure of the music industry, alongside foundational music theory, history, and vocal training. Students develop confidence and skills for performance and gain an understanding of music's cultural significance, preparing those interested in careers in music, theater, or entertainment.

Electives
The Electives program offers diverse opportunities for students to develop critical reading, communication, and public speaking skills. Courses like *Reading for Pleasure* foster a love of reading through engagement with socially relevant themes, enhancing comprehension and analytical abilities. Public Speaking electives build students' rhetorical knowledge, speech planning, and presentation skills while promoting ethical communication and confidence. These courses enrich students' academic experience and prepare them for effective expression in various personal and professional contexts.

English for Work and Life Series
The English for Work and Life Series of courses supports students at all stages of English acquisition, from emerging literacy to intermediate fluency. Courses focus on building foundational language skills through systematic instruction in phonics, vocabulary, grammar, and real-world communication. Students progress from recognizing letters and sounds to composing organized paragraphs and participating in workplace and academic conversations. Through engaging, high-interest content and digital literacy tasks, learners gain the language and confidence needed to succeed in academic, personal, and professional settings.

<u>Curriculum</u>

HCCTS recently engaged in a curriculum adoption process to procure Savvas, a standards-aligned curriculum for HCCS courses. We followed an articulated adoption process and received guidance from our UMass Global credentialing partner who had extensive experience with curricular materials that best serve ELLs. Our process involved reviewing materials utilized by other surrounding school districts as well as following recommendations by EdReports in order to understand the best options for our context. We engaged in vendor demos, received teacher feedback around our top choices, and delivered our final proposal to the board of directors for approval.

The HCCTS board approved the adoption of the Savvas curriculum in August 2025. There were many elements that led to this choice including a single user-friendly platform for both teachers and students, and a high rating on EdReports. The curriculum is also used by Twin Rivers Unified School District, Elk Grove Unified School District, and Los Angeles Unified School District. In order to support teachers to gain familiarity and comfort with the new curriculum, the start of classes was extended until August 14th and teachers met in professional learning communities (PLCs) to build their knowledge of the standards-aligned curriculum. Our contract with Savvas includes access to both an online digital curriculum and to teacher edition textbooks and student workbooks.

Supports for English Learners Level 0-1

ABCEnglish
A curriculum provided by an external agency, ABCEnglish offers literacy-level lessons ideal for students who are new to learning English. Lessons are presented through accessible slides and worksheets designed for classroom delivery.

Burlington English
An online English language learning platform offering both teacher-led lessons with presentations and printable materials, as well as self-paced student lessons accessible by phone or computer. The program integrates reading, writing, listening, and speaking skills, and includes thematic content, short stories, citizenship, and Workplace English and CASAS practice modules.

EL Civics Curriculum
In-house developed theme packets intended to support English Language Learners with English language acquisition, civic participation, and workforce skills. Aligned to ESL objectives from CASAS and NRS ESL levels.

Understanding Learning: Using Student Assessments to Support HCCS Goals

We employ multiple forms of assessment to monitor student progress and inform instruction:

- **Formative Assessments:** These include ongoing evaluation through teacher observation, projects, presentations, and performance tasks.
- **Summative Assessments:** End-of-unit and semester evaluations measuring mastery of learning objectives. These assessments are part of the core curriculum.
- **Portfolio Assessments:** Student-led self-assessment using assignments of choice to demonstrate learning in students' focal areas. The ILT is currently mapping the implementation of the portfolio project.
- **Student Surveys**: Self-perception data helps us to understand the student experience.
- **CASAS testing:** Comprehensive Adult Student Assessment System, a competency based adult assessment program validated by the U.S. Department of Education for use in adult education conducted after 70-100 hours of instruction time. The assessment is administered every 6-8 weeks.
- **CAST:** California Science Test, a state assessment mandated for those in high school.

- **CAASPP**: California Assessment of Student Performance and Progress, a state assessment mandated for those in high school grade 11.
- **EL Civics Assessments**
  Administered 3 times per program year
- **ELD Level Placement Test**
  Upon enrollment
- **ELD Level Exit Test**
  Administered to determine readiness to advance to the next ELD level

Professional Development Supporting HCCS Goals

High-quality professional learning at HCCS centers around training teachers to effectively use the Savvas curriculum as well as creating a learning system for the teachers to continuously engage in instructional improvement. It is more than training staff in best practices; it is about creating a culture of curiosity that acknowledges the uncertainty inherent in teaching and learning. Central to our revised professional learning program is creating a practice of inquiry at the leadership level that focuses its interest on the practitioners working most closely with the students. What are teachers learning about their students' learning? Where are teachers' gaps in knowledge and capacity? These are the questions that inform the design and goals of the professional learning offerings. In addition to this inquiry-based approach to professional development, HCCS has an extended professional development contract with Savvas to ensure that teachers have a deep understanding of the Savvas instructional methods and curricular options for differentiation to support the multiple ELL levels.

HCCS leadership works in partnership with HCCS principals and teacher leaders through the ILT to take a partnership approach to designing professional learning. There are several core beliefs about practitioner-based learning that informs the HCCS approach to professional learning:

- Teaching is complex and uncertain work that requires an inquiry stance to ensure that students' needs are being met.
- Agency and relevancy are guiding drivers for adult learners; being able to articulate their own goals and see where they are on the path to achieving those goals is essential for adult learners.
- For instruction to be changed and improved, the learning experience of students must be public (not hidden away).
- Educators (teachers and leaders) are professionals engaged in important work, and they deserve a level of professional support and care that takes their work seriously.
- Pursuing collective goals is essential to supporting systems transformation

Professional Development Focusing on Language Acquisition
Central to HCCS professional development is continuously developing strong instructional strategies to meet the needs of our ELLs. Supporting English Language Learners effectively requires ongoing professional learning and reflection. All HCCS educators engage in continuous inquiry about how to better serve our multilingual learners.

Language-Responsive Teaching Practices

Our professional learning focuses on developing instructional strategies that make content accessible while maintaining high expectations. This includes training in visual supports, collaborative learning structures, and formative assessment techniques that help teachers understand what students know and can do.

Cultural Responsiveness and Asset-Based Thinking
We work to examine our own assumptions about language learning and ensure that our instructional practices build on students' cultural and linguistic strengths. This includes learning about our students' educational backgrounds and understanding how different cultural approaches to learning can inform our teaching.

Data-Informed Decision Making
As part of our inquiry-based PLCs, we develop systems for collecting and analyzing data about student language development that go beyond test scores. This includes documentation of student growth in academic discussions, writing development over time, and students' own reflections on their learning progress through portfolios.

Our commitment to English Language Learners extends beyond language acquisition to encompass the full development of students as confident, capable learners who can succeed in their chosen academic and professional pathways. Ultimately, we measure our success not just by English proficiency gains, but by our students' ability to use their multilingual skills to contribute meaningfully to their communities and achieve their educational goals.

HCCS Professional Learning Structures
There are multiple existing structures that support professional development at HCC for teachers and leaders.

Friday Professional Development Sessions
Our bi-weekly Friday afternoon professional learning sessions are designed as both collaborative inquiry spaces where educators engage in job-embedded learning directly connected to their daily practice, and also an opportunity to receive specialized instructional support that they or the Instructional Leadership Team has requested. These sessions follow a flexible structure that can shift between collective inquiry—examining student work and learning data to collaboratively problem-solve around specific instructional challenges—and targeted professional development that addresses identified needs such as trauma-informed pedagogy, advanced strategies for supporting students with interrupted formal education, or innovative approaches to integrated content-language instruction.

Teachers work in cross-disciplinary teams when engaging in inquiry cycles, analyzing how their students are navigating rigorous academic content and sharing effective practices for maintaining high expectations while providing comprehensive support. When focused on specialized instruction, sessions might feature expert facilitators, peer observations with feedback, or deep dives into research-based strategies that teachers have specifically requested to strengthen their practice. This dual approach ensures that professional learning is both responsive to emerging classroom needs and proactive in building the specialized expertise our diverse adult learner population requires, while maintaining our commitment to practitioner-centered learning that directly impacts student success.

Bi-Monthly Principal PLC

Leading is complex and uncertain work, and HCCS supports its two principals in PLC sessions led by the Chief Academic Officer. This principal learning community operates as a space for collaborative problem-solving where school leaders can examine challenges, share effective practices, and develop coordinated approaches to supporting their unique adult learner populations. Sessions focus on analyzing school-level data to understand how students are progressing toward their educational goals, discussing instructional leadership strategies that support teachers in serving English Language Learners and students with interrupted formal education, and developing systems-level responses to emerging needs within their school communities. The Chief Academic Officer facilitates these meetings using the same inquiry-based approach that guides teacher professional learning, encouraging principals to bring real dilemmas from their practice, examine multiple perspectives, and test solutions collaboratively. This structure ensures that leadership decisions are grounded in evidence and aligned across both school sites, while providing principals with the professional support and intellectual partnership they need to lead effectively in the complex landscape of adult education. The PLC also serves as a space for principals to reflect on their own growth as instructional leaders and to coordinate their efforts in supporting teacher development and student success.

Twice Per Week Teacher PLCs

Teachers engage in professional learning community work twice weekly, with sessions strategically designed to strengthen both instructional planning and data-informed decision making. One session each week is dedicated to collaborative planning time where teachers work in grade-level or content-area teams to design learning experiences that integrate rigorous academic content with the specific supports their English Language Learners and students with interrupted formal education need to succeed. These co-planning sessions allow educators to share strategies, align expectations across courses, and ensure that assessment practices accurately capture student growth while maintaining high standards. The second weekly session follows protocols and practices that focus on collaborative examination of student work and performance data to understand learning patterns, identify instructional adjustments, and develop targeted interventions. During these data inquiry sessions, teachers bring actual student artifacts—writing samples, project work, assessment results—and engage in structured conversations that move beyond simply identifying which students are struggling to understand why certain approaches are or aren't working and what specific instructional moves might better support student learning. This dual structure ensures that teachers have dedicated time for both proactive planning and reflective analysis, creating a continuous cycle of improvement that keeps student learning at the center of all professional practice.

Teacher Coaching

Teaching standards-aligned high school curriculum to newcomer adults with varying degrees of education in their home language and a wide range of English skills is challenging teaching. To support excellent instruction, HCCS is in the process of investing in on the ground coaching for our teachers. This will include the opportunity to observe instructional models, to co-plan with professionals with expertise in supporting students with interrupted formal education, and to engage in guided reflection on the impact of instruction. At the time of the writing of the material revision, we plan to begin Phase 1 of the teacher coaching program by October 15th. Principals, the Director of Professional Learning, the Curriculum Coordinator, and teacher leaders will participate in a rigorous train-the-trainer model to enable sustained on the ground support of teachers ongoing development.

The Role of Data and Assessments in Informing Instructional and Systems Improvement

Assessment is a core to instructional improvement at HCCS. Not only does assessment tell us where our students are in their learning, but patterns in the data reveal where we need to focus our professional learning efforts. HCCS is committed to creating a system that is responsive to what we are learning about our students and their needs. Leadership is curious about what is happening between the teacher and the student and rests its instructional improvement design on the data that comes from the classroom.

Formal Assessment and Improvement
The instructional leadership team (ILT) will review CASAS data to understand students' academic progress and to track areas where we need to improve our instructional approach. In addition, the ILT will use CAASPP and CAST data to understand the general themes in improvement and then support teachers to use more granular classroom data to understand barriers to student progress.

Informal Assessments and Improvement
Working in their PLCs, teachers will use classroom-based data– both qualitative and quantitative to determine the areas of their practice where they would like more support. This is one source of the design for the content input on PL Fridays. The ILT uses classroom observation data to help determine the focus of improvement efforts.

Student Climate Surveys and Systems Improvement
Centering the students' experience as core to our approach to improving the learning experience
The HCCS instructional improvement process involves looking at both student mastery data and student perception data. One important source of student perception data is the student climate surveys. While we do not rely on this self-report data to give us the whole picture of the student learning experience, we do value this source of data to understand HCCS's social and emotional conditions for learning.

Every year, HCCS conducts anonymous student climate surveys. These surveys are sent out to students in the following languages:

- English
- Arabic
- Spanish
- Persian
- Armenian
- Pashto
- Russian
- Turkish
- Ukrainian
- Vietnamese
- Chinese

Students have access to completing these surveys via QR codes, push notifications sent to their cell phones, with the support of their teachers in their classrooms, and via the Brain app.

Teachers encourage and support student participation by engaging students in lessons that have practice surveys. Paraeducators are also utilized to provide language support during this process. The purpose of these surveys is to understand the following:

- Relationships
- Classroom Climate
- Classroom Support and Access to Resources
- Goal Setting & Student Progress
- Safety, Maintenance, and Facilities
- Workforce and CTE Programs
- Lessons, Instruction, and Curriculum

HCCS students are asked to read each statement and indicate their level of agreement with the statement from the following options:

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly Disagree

The table below shows the percentage of HCCS students who agree or strongly agree with each statement for the year indicated for the last three years.

Survey Statement	2022 - 2023	2023 - 2024	2024 - 2025
Lessons help me in my daily life.	96%	88%	95%
Lessons are interesting.	95%	90%	95%
I know what I need to do to make progress in my classes.	96%	90%	94%
The lessons (in person or online) help me learn (My teacher offers me an opportunity to learn everyday).	95%	89%	95%
I have the learning materials (pencils, notebooks, binders, books) I need to learn.	95%	89%	94%
I have the technology I need to learn.	95%	91%	96%
The school, classrooms, and buildings are clean and in good condition.	96%	94%	93%
The school tells me important information regularly (holidays, school announcements, events).	94%	95%	97%
All students from different backgrounds and countries are treated kindly.	92%	96%	97%
All students from different cultural backgrounds, races, or ethnicities respect each other at school.	92%	97%	96%

My teacher really cares about me and respects me.	93%	98%	98%
My counselor really cares about me and respects me.	91%	92%	87%
The school helps me turn my college and career goals into a plan.	90%	84%	88%
I know how to get help if I feel sad, stressed, lonely, or depressed.	85%	78%	85%
I want to learn more about mental health and how to deal with stress.	76%	57%	67%
I feel connected to the school, my classmates, and teacher.	85%	83%	90%
I feel safe at school (I trust our leaders to make our school safe).	87%	95%	94%
I know how to log in and check my student email.	72%	90%	93%
I know how to log in to my online learning tools	77%	84%	91%
Highlands helps me learn to use technology by giving mobile devices and digital literacy training.	64%	79%	94%
I use my school phone, Chromebook, or hotspot 5 or more days a week.	*ND	*ND	77%

**ND denotes that there was no data available for that school year*

Student Academic Supports

Because many of our students have little prior education in their native language and, for many of them, they come in with low levels of English, HCCS provides extra support to ensure students' academic success. Classroom teachers are available to meet with students before and after school during their office hours to support students who are struggling academically.

Paraeducators

English proficiency and learning needs vary widely for our incoming students. HCCS paraeducators provide crucial language scaffolding by providing individualized instructional support in students' native languages and creating more opportunities for meaningful English language practice, ensuring that our Level 0 students can fully benefit from our educational programs.

Additionally, paraeducators who share students' cultural backgrounds can create a more comfortable environment that reduces the anxiety often experienced by new students and immigrant populations. While teachers focus primarily on academic instruction, paraeducators provide crucial social-emotional support to help students navigate their educational environment successfully. Paraeducators also help students build digital literacy, fluency with the HCCS systems, and provide academic support.
HCCS hired 32 new paraeducators in 2024–2025 to expand instructional support across its sites. All but two of those paraeducators were released in June 2025 as part of the school's restructuring process, which prioritized staffing of credentialed instructors. HCCS plans to rehire three additional

paraeducators this school year as it builds its program capacity and will further increase paraeducator staffing as part of its sustainable five-year growth plan.

Literacy Support
During the 2025-2026 school year, HCCS will hire staff to provide literacy support for English language learners. This will focus on building literacy through phonemic awareness, phonics, vocabulary building, pronunciation, and writing skills.

Tutoring Program
HCCS will implement an in-person tutoring program to replace previous online tutoring opportunities. Based on feedback from students and staff, online tutoring no longer effectively serves the needs of our student population. Key challenges, detailed below, include a lack of digital literacy skills, low student engagement, and limited availability of support. The design of our in-person tutoring program will focus on effectively addressing these findings.

<u>Challenges for Students Accessing Online Tutoring</u>

- Cultural barriers – example: Afghan women
    - Our student population with the highest level of need for one-on-one tutoring
    - Working one-on-one with male tutors would violate cultural and religious norms
    - Afghan women typically have limited experience or skill with technology
    - Afghan women may have limited literacy skills and English language skills
    - Require in-person, one-on-one support by Dari or Pashto-speaking women tutors
- Technology barriers
    - Online login processes may limit access for students with low technical proficiency
    - Our student population may not have access to high-speed internet at home
    - Our student population may not have a device with internet access for use at home
    - Most online tutoring is chat-based, requiring literacy and typing skills
- Linguistic barriers
    - Top 5 languages:
        - Dari
        - Pashto
        - Ukrainian
        - Russian
        - Spanish
    - Online tutoring by English-speaking tutors cannot support students with limited English proficiency

<u>In-Person Tutoring Program Design</u>
HCCS is in the process of contracting with a tutoring business to offer students in-person tutoring that will:

- Account for cultural and technological barriers when assessing student needs
- Staff tutors who can serve specific cultural and linguistic populations of greatest need
- Implement and refine best practices for providing one-on-one academic support
- Develop robust translated learning materials for students in multiple formats

Student Success Team (SST)
At HCCS, the Student Success Team (SST) process is a collaborative, data-driven approach to identify and implement support strategies for students experiencing academic, behavioral, or attendance-related challenges. The goal is to equip educators with additional tools and resources to meet students' needs in the general education setting and, when necessary, connect students with services such as tutoring, counseling, or basic needs assistance. While SST may result in a referral to a 504 committee, its primary function is not to initiate such referrals.

SST Membership and Roles
SSTs are convened by the Director of Student Services or designee and include the student's counselor (as the facilitator), current teacher(s), the student, and guardians when applicable. Additional specialists such as social workers, speech therapists, healthcare providers, paraeducators, and language navigators may be invited based on student needs.

Referral Process
Students may be referred to the SST for persistent academic or behavioral concerns. Before referral, teachers must document the use of differentiated instructional strategies and collaboration with other staff. Referrals are submitted using a standardized form and must include relevant data such as attendance records, academic assessments, behavior logs, and prior interventions.

SST Meeting Process
Scheduling: SST meetings are scheduled promptly based on the urgency of the concern and include all relevant team members.

Data Collection
The team reviews comprehensive student data to inform the discussion.

Intervention Planning
A tailored plan is developed with specific goals, strategies, responsible staff, and a timeline for implementation.

Follow-Up
A follow-up meeting is held six weeks after the initial meeting to assess student progress and adjust the intervention plan as needed.

Documentation
All decisions, meeting minutes, and progress reports are documented and stored in the student's confidential file in accordance with FERPA and HCCTS policy.

SST Outcomes
The SST may recommend continued interventions within the general education setting, changes in instructional methods or placement, referrals to support services or external agencies, or, if appropriate, a referral to the 504 Committee. All recommendations are monitored and evaluated for effectiveness.

Confidentiality and Compliance
SST processes comply with all applicable privacy laws, including FERPA. All records and discussions remain confidential and are shared only with authorized personnel.

Socioeconomically Disadvantaged Students
At Highlands Community Charter School, students from low socioeconomic backgrounds thrive and learn in a nurturing, caring, and collaborative environment. HCCS identifies socioeconomically disadvantaged and low-income students consistent with state and federal definitions upon registration through our Household Income Data Collection form and PowerSchool SIS system. This subgroup makes up a large majority of our student population.

To best serve our socioeconomically disadvantaged and low-income students, HCCS provides professional development that is focused on intentional instruction, reflecting a diagnostic approach that is driven by identified instructional needs. HCCS teachers understand the importance of positive teacher-student relationships and how to incorporate continual monitoring and assessment to guide instruction. Students participate in academic enrichment activities that align with their level-pacing academic plans and learn cognitive strategies such as the structure of language, how to establish goal-setting and procedural self-talk, how to sort relevant from irrelevant cues, and how to use mental models. Additionally, to meet the economic needs of these students, HCCS holds workshops with partners on issues related to economic need and building financial independence.

Instructional Days and Minutes Calculations
HCCS maintains multiple bell schedules that consistently exceed the minimum instructional time required under Education Code Section 47612.5(a), which mandates 64,800 minutes annually. Both AM and PM bell schedules detail 5 consist of 5 instructional days, Monday through Friday with 5 periods each except on 17 modified Friday schedules designed to incorporate time for teacher professional development. The Academic Calendar (found on page 27) includes 197 instructional days, 180 regular and 17 modified Fridays, totaling 65,087 minutes for both AM and PM schedules.

Instructional Requirements Report
2025-2026

Total	**184**	**15**	**199**

Count	Day Type
184	Regular Days
15	Teacher PD Days
10	Staff Development Days

Graduation Requirements
HCCS students are eligible to graduate when they have been awarded 180 high school credits: 110 Academic including a mandatory and 70 in elective or Career Technical Education (CTE) credits. As part of the 180 credits, transfer credits and employment credits count toward this total. As soon as the high school students complete 180 credits and those credits are verified, students are eligible to apply for their diplomas. After students receive their diplomas, they are asked to participate in a graduation ceremony.

Required Courses	
English	3 courses / 30 credits
Math	2 courses / 20 credits
World History	1 course / 10 credits
U.S. History	1 course/ 10 credits
Economics	1 course/ 5 credits
American Government	1 course/ 5 credits
Life Science	1 course/ 10 credits
Physical Science	1 course/ 10 credits
Career Technical Education, World Language, or Visual and Performing Arts	1 course/ 10 credits
Electives	70 credits

Credits for Prior Learning and Experience
HCCS has an established process for reviewing and awarding transfer credit to ensure students are placed on a clear path toward graduation.

The Transcript and Records Team evaluates all available records, including high school transcripts, college and international transcripts and degrees, and completion certificates. Credits are awarded using consistent, school-approved criteria.

For students who have completed high school equivalency exams, credit is awarded only upon submission of official GED or HiSET documentation.

After evaluation, each student receives a summary of awarded credits and remaining requirements, providing a clear plan to complete their diploma.

Counseling and Progress Monitoring
Counselors help ensure students meet graduation requirements by developing graduation plans and conducting regular check-ins. During check-ins, counselors update students on their academic progress, including credit attainment and requirements left to graduate. Each student is provided with an academic progress report. In the 2024–2025 school year, we have adopted A–G approved courses to expand college readiness opportunities for our students. As part of this effort, counselors engage students in conversations about their aspirations for higher education as they approach the high school program.

Grade Level Progression
Because all students are over 22 years, they cannot be assigned to grade levels based on age. HCCS uses credit attainment to determine grade level. This does mean that students may enter school at a variety of grade levels and many students may not fall neatly into a four-year graduation plan. Holistic support systems are designed to ensure that students who are not on track receive timely, individualized intervention. Counselors develop graduation plans and conduct regular check-ins to review academic progress, update students on credits earned, and identify the steps needed to advance toward the next grade level and ultimately graduation. Each student receives an academic progress report that guides these conversations and helps counselors connect students to college readiness opportunities, including the A-G approved courses adopted in the 2024–2025 school year. As students refine their academic and career goals, counselors also introduce relevant CTE programs and provide information about program expectations, requirements, and timelines to support informed, meaningful transitions through grade levels.

The proposed grade level progress as defined through credit accrual is as follows:

Grade	Credits
9	0-49
10	50-99
11	100-149
12	150-180

In a standard 4 year graduation plan, students are enrolled in five courses each semester. Successful completion of all courses each school year will yield credits that place students within the ranges shown above. This will ensure all students enrolled in five core and/or electives classes will complete the full 180 graduation credits.

Subject to appropriations by the State, the Charter School will comply with requirements under AB 101

to offer a one-semester course in ethnic studies and will mandate that students complete this course as a graduation requirement commencing with students graduating in the 2029-30 school year.

The Charter School will comply with requirements under AB 2927 to offer a one-semester course in personal finance by the 2027-28 school year and will mandate that students complete this course as a graduation requirement commencing with students graduating in the 2030-31 school year.

Attendance Policy
HCCS recognizes that attendance is a critical indicator of student progress and overall academic success. Despite the inherent challenges in ensuring consistent engagement among adult learners across all instructional periods, the school remains committed to full-day attendance expectations for all students.

HCCS attendance policies procedures and expectations are set forth in the HCCS Attendance Standard Operating Procedure (SOP), attached to the appendix of this document.

Teachers are expected to take paper-based attendance every period in accordance with HCCS policies and protocols. Paper attendance records are referenced by teachers as they input the attendance records into PowerSchool. PowerSchool attendance records must be updated by teachers at the end of instructional day every day.

In an effort to ensure attendance policies and protocols are followed by teachers, HCCS implements monitoring processes:

- Monthly random in-classroom visits by an administrator to verify adherence to the attendance taking process.
- Daily attendance checks by the Attendance Team to verify attendance data is input into PowerSchool daily by each teacher.
- Weekly attendance certification by teachers to verify the accuracy of attendance data that was entered into PowerSchool for the preceding week.

5113.1 BP Attendance Enforcement Policy supports the Attendance SOP by outlining the following key provisions:

- 80% Daily Attendance Rule: Students must be present for at least 80% of scheduled instructional hours weekly.
- 15-Minute Rule: Students who check in but leave within the first 15 minutes of class without prior approval will be marked absent. Repeated violations may result in intervention and disenrollment.
- Meaningful Engagement: Attendance is verified by meaningful engagement. Students who check in but fail to participate meaningfully will be marked absent.
- Forgery of Attendance Records: Any student found falsifying attendance records, including signing in for another student, will face disciplinary action, including possible suspension, expulsion, or disenrollment.

HCCS employs tiered intervention strategies to support students struggling with attendance before taking disciplinary action:

- Notifications: Calls, text messages, and emails will provide immediate alerts to students who have not met attendance requirements.

- Outreach & Support: Students flagged for low attendance will be contacted by school staff to assess barriers and develop a support plan.
- Attendance Contracts: Students with ongoing attendance issues may be placed on a probationary attendance contract outlining expectations and consequences.
- Disenrollment Procedures: Students failing to meet attendance requirements after documented interventions may be disenrolled as outlined in BP 5111.5 (Disenrollment).

The following policies are in place to support enforcement of attendance:.

- 5111.5 Disenrollment and Involuntary Removal (Revised and Approved 03/20/2025) - Outlines the involuntary disenrollment for students who accumulate ten consecutive unexcused absences despite HCCS staff's efforts to re-engage them.
- 5120 BP Satisfactory Academic Progress (Approved 03/20/25) - Outlines students must maintain active attendance
- 5131 BP Student Conduct (Revised and Approved 03/20/2025) - Outlines the ramifications of students who forge attendance records
- 6164.5 BP Student Success Teams (Revised and Approved 04/25/2025) - Outlines interventions to support students reportedly struggling with attendance

HCCS has updated the bell schedule for the 2025-2026 school year, which now contains 5 periods rather than 3 periods for the AM schedule. It meets the minimum number of instructional minutes, and it has only one PM schedule for all sites, rather than three (as in the 2024-2025 school year).

Record Retention & Compliance

- BP 5120 (Satisfactory Academic Progress) now mandates that manual attendance records, including sign-in sheets, be retained for three years in both physical and digital formats to ensure compliance with California Code of Regulations, Title 5 and facilitate accurate auditing.
- The Director of Attendance is responsible for overseeing record retention and compliance audits to maintain regulatory standards.
- Random attendance audits will be conducted regularly to identify and prevent discrepancies.

We believe in holding our students accountable and supporting them when they need it. Our paraeducators, teachers, and counselors maintain communication with our students when students are absent. We want to ensure that if our students are having personal hardships, we are supporting them and providing them with every service we have available, either at HCCS, at one of our partner organizations, or at an external location.

Attendance Calendars

In the 2024-2025 school year HCCTS contracted with Charter Impact to assist with setting up 20-day Attendance Calendars in PowerSchool to ensure correct divisors in calculating ADA for P-2.

Effective October 2024 HCCTS began using a 20-day calendar as required by Ed Code. This has been corrected for the 24-25 school year and will be accurate for all school years moving forward.

An example of the 20 day calendar can be seen below for the 2025-2026 school year:

HIGHLANDS
COMMUNITY CHARTER AND TECHNICAL SCHOOLS

Academic Progress

HCCS has established a Satisfactory Academic Progress (SAP) policy (BP 5120) to ensure that students are consistently advancing toward their academic and career goals. This policy applies to all students enrolled in high school education. To remain enrolled, students must meet SAP standards, which include maintaining a minimum GPA, earning required credits, making measurable progress in English language acquisition (for ELD students), and fulfilling the specific SAP criteria of their CTE programs. SAP is evaluated every six weeks, and students who do not meet the requirements may be placed on Academic Notice. Continued noncompliance will result in disenrollment.

Attendance and engagement are also key components of SAP evaluation, with manual attendance records retained for at least three years in accordance with California regulations. Students who do not meet SAP in their CTE program may appeal by submitting a written reflection and evidence of corrective actions. Approved appeals result in a probationary period during which students must meet SAP standards to maintain enrollment. The policy aligns with state and federal regulations and is reviewed regularly to ensure legal compliance and support for student success.

<u>Career Technical Education (CTE)</u>

CTE programs provide students with hands-on job training while earning course credits and industry recognized certifications. Courses help students build skills for careers, develop student agency and confidence, and build social capital, all while pursuing career pathways that allow students to earn a liveable wage

HCCS recognizes the importance of robust Career Technical Education programs, especially for traditionally underserved students. Programs in the past were developed with student interests in mind and course expansion was historically based on student interests. Moving forward, HCCS will align workforce needs with student interests to identify the most viable CTE classes and pathways.

Currently, HCCTS offers one Personal Finance course as part of our CTE program. We are looking to add a licensed real estate class, relaunch the culinary, welding, health services, early childhood education, and digital literacy classes in the new calendar year. Further efforts to expand CTE offerings revolve around business, community organization and school partnership. The redesign effort is just beginning, and involves identifying the leading businesses and industries in the Greater Sacramento Metropolitan that have job opportunities at liveable wages and can support workforce development pathway programs for students with industry aligned certificates. Community-based organizations are serving as intermediaries to facilitate employer and school-based connections, and later to provide adult mentors and internship opportunities for students. The redesign emphasizes clear pathways, flexible schedules, strong language supports, and meaningful work based learning. New courses will be carefully vetted and released in phases.

Highlands Community Charter School currently offers one Personal Finance through the CTE program in 2025-26. To grow capacity and pathway offerings, our CTE program is entering a redesign led by a cross functional team. We are centering student voices and using labor market data and teacher input to shape offerings that put learners first. The plan emphasizes clear pathways based on local and regional employer needs, flexible schedules, strong language supports, and meaningful work based learning. Courses will be carefully vetted and released in phases based on sustainable capacity and resources.

HCCS will have seven CTE programs in the 2025-2026 school year:

- Culinary Arts
- Digital Literacy and Multimedia
- Early Childhood Education (ECE)
- Medical Services
- Microsoft Office Specialist (MOS) Certification
- Personal Finance
- Real Estate

Culinary Arts

Culinary Overview

Introductory culinary skills with emphasis on safety, sanitation, knife skills, basic cooking methods, menu planning, and kitchen teamwork.

Culinary Target Certifications

- ServSafe Food Handler (all students)
- ServSafe Manager offered where feasible and appropriate

Culinary Program Requirements
- Safety routines, lab participation, and recipe labs portfolio
- Food handler exam completion; uniform and non-slip shoes for lab days

Work-based Learning
- Guest chefs, site tours, catering practice for school events, community tastings
- Instructor recruitment plan prepared (internal posting or partner hire)

Digital Literacy and Multimedia

Digital Literacy and Multimedia Overview
Practical digital storytelling with emphasis on device basics, file management, online collaboration, visual design, audio and video basics, and portfolio building.

Digital Literacy Target Certifications
- IC3 Digital Literacy certification, where available
- Adobe Certified Professional exam prep in tools such as Photoshop, Illustrator, or Premiere Pro when feasible
- School-issued certificate of completion with project portfolio

Digital Literacy Progress
- Curriculum outline drafted; equipment and facility scheduling in planning with partner

Program Requirements
- Completion of project-based modules and a curated digital portfolio
- Regular practice in productivity and creative apps; responsible use and digital citizenship modules

Digital Literacy Work-based Learning
- School communications projects, partner briefs, social media content labs, guest designers and media professionals

Digital Literacy Progress
- Curriculum outline drafted; device and software access plan in place with partner sites
- Instructor recruitment plan prepared (internal posting or partner hire)

Early Childhood Education (ECE)

ECE Overview
Prepares students for entry roles in preschool and childcare settings with a focus on child development, safety, learning environments, and family partnerships. Strong language supports are embedded for multilingual learners.

ECE Target Certifications
- Pediatric CPR and First Aid
- California Mandated Reporter Training
- California Child Development Permit pathway awareness; assistance with Assistant or Associate Teacher permit application where eligible

ECE Program Requirements
- Attendance and completion of coursework and practicum tasks
- Readiness for site requirements when applicable (background clearance, TB test, immunizations per host site; program will help students navigate)
- Portfolio with lesson snapshots, observation notes, and reflections

ECE Work-based Learning
- Classroom observations, lab hours, guest talks with site directors, optional short externship when available

ECE Progress
- Hiring teachers for this program
- Curriculum map drafted using English for Work and Life for integrated language routines
- Site partner list in development for observations and talks

Medical Services

Medical Services Overview
Entry-level health care services skills with emphasis on patient safety, infection control, vital signs, medical terminology, front office workflows, and team communication.

Medical Services Target Certifications
- American Heart Association BLS CPR and First Aid
- OSHA Bloodborne Pathogens awareness
- HIPAA privacy and security training
- Where feasible and appropriate: NHA Certified Medical Administrative Assistant exam prep

Program Requirements
- Safety routines, lab skills checklists, and a skills and reflections portfolio
- Completion of required CPR and safety training; appropriate attire for lab days

Work-based Learning
- Guest talks by medical assistants and clinic managers, site tours, mock front desk scenarios, community health events

Microsoft Office Specialist (MOS) Certification Prep

MOS Overview
Hands-on prep for industry-recognized Microsoft Office Specialist exams. Focus on Word, Excel, and PowerPoint with options to extend to Outlook or Access based on student goals.

MOS Target Certifications
- Microsoft Office Specialist Associate exams (Word, Excel, PowerPoint)
- Option to pursue additional exams for Expert level where appropriate

MOS Program Requirements
- Regular practice in Office applications; completion of scenario-based projects
- Exam readiness checks; testing through a Certiport Authorized Testing Center (onsite or partner)

MOS Work-based learning
- Real world admin projects, resume and report formatting, data dashboards for career pathways

MOS Progress
- Two MOS CTE teacher positions posted
- Certiport testing access plan underway (site authorization or partner center)

Personal Finance

Personal Finance Overview
Practical money skills for work and life: banking, budgeting, credit, debt, insurance, taxes, benefits, and introductory investment. Currently offered; will continue within CTE to strengthen career readiness.

Personal Finance Target Certifications
- Local certificate of completion with portfolio evidence
- Optional third-party exam (for example, W!se Financial Literacy Certification) if adopted by the school

Personal Finance Program requirements
- Completion of unit tasks and a capstone budget and benefits plan
- Demonstration of digital skills for online banking simulations and tax prep scenarios

Personal Finance Work based learning
- Speakers from banks and credit unions, mock benefit selection, VITA site visit when available

Personal Finance Progress
- Running now; pacing and assessments aligned to power standards are being finalized for 2025–2026

Personal Finance Progress
- Curriculum outline drafted; lab equipment and site visit scheduling in planning with partner clinics

- Instructor recruitment plan prepared (internal posting or partner hire)

Real Estate

Real Estate Overview
Foundations of residential real estate with emphasis on California practice and principles, ethics, property types, basic finance, contracts, and client communication.

Real Estate Target Certifications
- Preparation for the California Real Estate Salesperson license pathway
    - Completion of required coursework hours and state application steps
    - Exam readiness checks and study support

Real Estate Program Requirements
- Completion of course modules and case studies; portfolio of forms, disclosures, and client communication samples
- Attendance at exam prep sessions; Live Scan and state application guidance provided

Real Estate Work-based Learning
- Guest brokers and agents, office tours, open house observations, neighborhood property walks, mock client meetings

Real Estate Progress
- Curriculum outline drafted; broker partner interest meetings underway
- Instructor recruitment plan prepared (internal posting or partner hire)

CTE Program Accountability and Progress Indicators

- Access: enrollment by site and pathway; ELD levels served
- Engagement: attendance and weekly progress submissions
- Learning: pass rates on unit performance tasks and portfolios
- Credentials: number of certifications earned (ServSafe, MOS, CPR/First Aid, Mandated Reporter, optional personal finance cert)
- Work based learning: hours, site visits, guest speakers, externship participation
- Placement and advancement: students moving into jobs, internships, capstone, or next level training

Workforce Services
The Center for Workforce Solutions is located at the main campus on Hillsdale Blvd. The Center accepts both walk-ins and appointments and connects students to a variety of services including:
- Job fairs
- Job search services
- Assistance with CalJOBS
- Application help

- Resume and CV writing
- Cover letter writing
- Interview practice and preparation
- Job postings
- On-site interviews and hiring
- Free Application for Federal Student Aid (FAFSA) support
- College campus tours
- Referrals to partners and other external agencies
- Center for Workforce Solutions

Workforce Innovation and Opportunity Act
In 2014, the Workforce Innovation and Opportunity Act (WIOA) became law, formerly known as the Workforce Investment Act (WIA). It is designed to help job seekers gain access to education, training, and employment and to ultimately help unemployed and underemployed youth, dislocated workers, and workers with disabilities to successfully find jobs.

Under Ed. Code 47605.1(f)(1) HCCS provides instruction exclusively in partnership with the federal Workforce Investment Act of 1998 (29 U.S.C. Sec. 3101 et seq.), now known as WIOA. HCCS partners with The Sacramento Education and Training Agency, the local workforce development board for Sacramento County. All students may only be admitted under the terms of an exclusive partnership agreement, which limits students to those 22 years of age or older.

Under Education Code 47605.1(f), other than being required to have sites in California, there are no other jurisdictional boundaries for campuses of Highlands Community Charter School due to our WIOA exclusive partnership requirement.

Technology
HCCS students have varying levels of knowledge and experience with technology. Some students are very familiar and comfortable using computers and computer programs. Some students have excellent typing, composition, and internet skills, while others struggle to turn on a computer.

HCCS prioritizes and supports the use of technology in our learning environments because increasing experience and proficiency with technology contributes to successful educational outcomes and better career opportunities for 21st-century learners. Because digital resources can provide valuable benefits to our students, we design our learning programs to help them build digital literacy for the modern age.

One goal at HCCS is to help students integrate technology into their lives via classroom lessons, relevant examples, classwork, projects, and opportunities to improve communication skills. Technology standards and objectives are integrated into the curriculum and clearly defined for the teachers. Across varying sites, the teachers incorporate technology into their lessons. Teachers use educational learning videos, tutorials, web-based reading programs, Microsoft Office, and Google Classroom. Teachers model the use of technology in their classrooms and show students how to access and utilize key tools such as email and document sharing. HCCS expects teachers to use and adapt technology as appropriate to accommodate students' varying skill levels and educational needs. In addition, the IT Department and Digital Navigators

work diligently to support teachers and students who need assistance expanding their digital skills.

In recent years, HCCS has overcome complex challenges to ensure that its students, teachers, and school sites have equitable access to technology. With support from our IT Department, all HCCS classrooms now have access to the items listed below.

Equipment Available in HCCS Classrooms

Standard Equipment (All Classrooms)

- Projector onto whiteboard
- Document Camera
- Speakers
- 30 Chromebooks
- 30 over-the-ear headphones w/mic
- 1 Charging cart

Available upon Request (All Classrooms)

- Additional Chromebooks and headphones
- Projector Screen
- Student Earbuds

We believe that digital literacy will become increasingly crucial for student success in the 21st century, with benefits for academic achievement, career opportunities, and social engagement. Through consistent exposure to digital tools across courses and targeted instruction in digital literacy, HCCS seeks to ensure that students develop the technological competencies necessary for academic advancement, workplace readiness, and full participation in modern society.

Student Services

Highlands Community Charter School has a unique opportunity to work with adult learners who have faced many life challenges. As a result, our students require a wide range of academic, career, and personal support to achieve their goals. In the 2025-26 school year, we have the opportunity to sustainably grow our student services staff, which faced staffing cuts during restructuring in the first part of the year. At the time of this material revision, we plan to develop an Intervention Coordinator role to support partnerships with community agencies. These agencies provide essential support well beyond what HCCS can offer, such as dental and medical services, nutrition, child care, housing support, and other necessities that will support their academic success.

Orientation/Student Onboarding

HCCS holds an orientation at the beginning of each year to help students become familiar with the school's policies, procedures, and programs, supporting student agency in making informed decisions about their academic plan. In August 2025, the orientation was expanded to provide additional clarity regarding updated academic policies, attendance requirements, the new five-period bell schedule, and our new curriculum, Savvas.

Navigators
To ensure equitable access to our programs, HCCS has employed dedicated staff members to ensure every student understands all the services available to them. With students who speak over 39 languages, often with limited English proficiency, Navigators provide multilingual communication, academic and career support, and access to community resources. HCCS Navigators speak English, Farsi/Dari, Spanish, Russian, Armenian, and Pashto, and travel to all campuses to present on services and programs. In June 2025, as part of organization restructuring, the Navigators were released from their positions. HCCTS plans to redesign and reinstate the Navigator program, with staffing and implementation to begin by January 2026.

English Learner (EL) Services and New Student Supports
HCCS provides comprehensive support for new students and English learners. HCCS student services staff provide comprehensive orientation services that help students navigate the HCCS system. The academic supports are listed in the educational philosophy section. HCCS also provides native language support and cultural transition assistance. Specialized programming for recently arrived immigrant students, including orientation to U.S. school systems, technology set up support, accelerated English language acquisition, academic skill building, and social-emotional support to ease cultural transitions. We provide translation services and family engagement programs to support the entire family's integration into our school community.

Student Advisory Council
In the 2025-2026 school year, HCCS will establish two Executive Student Advisory Councils – one for the AM student cohort and one for the PM student cohort. In Fall 2025, the Chief Academic Officer (CAO) will meet with students nominated for the Advisory Councils. The first student advisory council meeting is set for mid-November. The Councils will meet quarterly with the Executive Director to contribute student perspectives on HCCS initiatives, increasing student agency, belonging, and leadership. The quarterly meetings provide consistent opportunities for students to share their experiences, identify challenges, and contribute to solutions that enhance the educational environment for all newcomers, ultimately supporting their academic success and social-emotional well-being.

Community Partnerships
Highlands Community Charter School serves a very high-needs student population and has developed multiple partnerships with external organizations to address those needs. These partnerships expand the school's reach within the community and increase student access to the tools necessary to achieve their goals. Partnership refers to a collaborative relationship between Highlands Community Charter and Technical Schools (HCCTS) and an external agency that supports students by facilitating access to essential services. In some cases, partnerships include agreements related to shared locations, supporting educational efforts by expanding access to instruction and services in settings where students already utilize essential resources.

These partnerships include the following organizations:
- SALAM Islamic Center
- SHRA
- La Familia Counseling Center
- CalAsian Chamber of Commerce

- Lao Family Community Development
- Department of Human Assistance
- Sacramento Employment and Training Agency (SETA)
- Mack Road Partnership

Many of these community partners provide support that is beyond the scope of HCCS services. This includes connecting students to dental services, food banks, clothing, etc.

Student Support and Counseling
We are proud to have highly trained, compassionate counselors who support every student. Our counselors can provide assistance and information on many issues, including:

- Family issues
- Personal issues
- Conflict management
- Substance abuse and recovery
- Student support groups
- Homeless services
- Accessing government programs
- FAFSA
- Parenting and family resources

Our students face many challenges and have many barriers to completing their education and accomplishing their goals. At HCCS, our counselors understand our students' needs and assist them by addressing barriers because we want our students to complete their classes and graduate. We believe that by meeting our students where they are, they are more likely to continue and complete their programs to graduate.

Plan for Students Who Are Academically Low Achieving
HCCS serves a historically underserved, adult student population—more than 90% of whom are socially and economically disadvantaged and many of whom enter the school significantly below grade level in English language arts, mathematics, and workplace readiness skills. As an adult high school and workforce development program, HCCS has always existed to provide extensive academic, linguistic, and socio-emotional supports to ensure that all students, especially those who are academically low achieving, receive the individualized instruction and wraparound services required for success.

Identification of Low-Achieving Students

HCCS uses multiple, high-resolution measures to identify students who require additional academic support:

- **CASAS Assessments (Reading, Math, Listening):** Administered upon enrollment and at regular intervals to establish baseline performance, monitor progress, and identify instructional gaps.

- **ESL-Level Assessments:** Provide fine-grained, standards-aligned data to identify specific literacy and numeracy skill deficits.

- **Attendance and Engagement Data:** Chronic absenteeism or inconsistent classroom participation are early indicators of academic difficulty.

- **Educational partner outreach:** As their own primary stakeholders feedback is solicited directly from students on how to improve their school experiences.

Differentiated and Individualized Instruction
Differentiation is a key tool in addressing academic achievement. Teachers adjust pacing, scaffolding, and instructional materials based on CASAS scale scores, ESL level, and demonstrated classroom performance. Strategies include:

- Targeted mini-lessons and reteach cycles

- Sentence frames, vocabulary supports, and guided reading for literacy-based needs

- Practice with real-world math tasks for numeracy development

- Flexible grouping for collaborative learning

Integrated English Language Development
Because a majority of low-achieving students are also English learners, teachers embed language development into all content areas using:

- Explicit academic vocabulary instruction

- Structured writing practice

- Oral language routines

- Visual, digital, and manipulative-based supports

Social-Emotional and Wraparound Supports
Many low-achieving adult students face barriers unrelated to academics. HCCS provides:

- Assistance with housing, food access, mental health referrals, and childcare resources

- Workforce services to help students connect coursework to short- and long-term employment goals

- Attendance monitoring and proactive outreach to address barriers such as transportation or work schedules

Plan to support students who are academically high-achieving

CTE Opportunities and Workforce Advancement

HCCS places strong emphasis on connecting academically high-achieving students to early career training. Supports include:

- Priority referral to CTE programs (welding, medical assistant, CDL, business technology, early childhood education, and others)
- Integrated academic–CTE projects that apply math, reading, and writing to real workforce tasks
- Career coach and navigator assistance to help students transition into training aligned with their goals

Students demonstrating readiness may enter CTE programs earlier in their academic sequence while continuing to complete graduation credits.

College Dual Enrollment
HCCS plans to support high-achieving students by resuming dual enrollment partnerships with local community colleges. These offerings are a topic of high interest and serve as an effective bridge between the high-support environment at HCCS and the wider academic community.

Monitoring and Support
Teachers and instructional leadership regularly review CASAS results, course performance, and student progress to ensure high-achieving students are consistently challenged.

Services for Students with Disabilities

Overview

Highlands Community Charter School is categorized as an independent LEA, serving adults 22 years of age and older. Therefore, it is not required to join a SELPA pursuant to Education Code 47641(a), either on its own or with a grouping of charter school LEAs as a consortium. As such, HCCS does not receive state and federal revenues in accordance with SELPA's allocation plan.

HCCS will continue to make all necessary arrangements to serve students with disabilities and comply with all applicable federal, state, and school district mandates governing service to students with disabilities, including but not limited to Section 504 of the Rehabilitation Act ("Section 504"), the Americans with Disabilities Act ("ADA") and the Individuals with Disabilities Education Improvement Act of 2004 ("IDEIA"). Students will receive information about Section 504 protections when enrolled in the program.

IDEIA applies to children with disabilities and does not apply to adult students over the age of 21.[2] California likewise requires special education services only through age 22, but HCCS integrates IDEIA principles as part of its mission to provide K-12 educational opportunities to adult students in compliance with all applicable laws. For students who provide the school with a copy of a previously approved IEP, the Student Success Team ("SST") will review the IEP and work with the student to

[2] 20 U.S.C. 1412(a)(1)(A): "A free appropriate public education is available to all children with disabilities residing in the State between the ages of 3 and 21, inclusive..."

identify reasonable accommodations that provide equal access to the student's educational program, including a 504 plan if appropriate. HCCS will incorporate the student's reasonable accommodation needs into the student's educational plan as part of their individual learning strategy based on identified needs in the previous IEP.

Disabled students without a previous IEP may request reasonable accommodation by contacting school staff. Accommodation requests will be referred to the SST, who will evaluate the request, review the student's documented needs, and work with students in an interactive process to determine what accommodation is necessary to support their academic success.

504 services can also begin with a Response to Intervention based on academic challenges identified by Student Success Team members. The team will work with the student to identify individual barriers to academic success and create an academic support plan. If the student does not make satisfactory progress and consents to evaluation, they may be referred for evaluation under Section 504 of the IDEA. Any decision to deny or grant a reasonable accommodation by the SST shall be made in accordance with applicable federal and state law, including IDEA, ADA, and the California Education Code.

HCCS does not require students to provide detailed medical records to document a disability. A doctor's note or other documentation of impairment, including records of academic impairment, may support an accommodation need. Students also have the right to refuse accommodation solutions offered by the school or propose a different alternative as part of the interactive process.

Reasonable accommodation can include, but are not limited to, modifications to school policies, practices, or procedures; auxiliary aids for classroom learning such as transcripts, readers, or modified equipment; altered testing conditions; presence of a student's trained service animal; or other measures necessary to ensure equal access to HCCS's educational programs, as required by 304 C.F.R. 104.44. HCCS may deny accommodation requests by a person with a qualifying disability and documented need if the requested accommodation imposes an undue financial, operational, or administrative burden, or fundamentally alters its educational program, provided no reasonable alternative can be found to meet the student's needs.

Plan and Timeline for Maintaining Western Association of Schools and Colleges (WASC) Accreditation

In the 2024–2025 school year, HCCS completed a comprehensive WASC Self-Study that involved 12 internal focus groups and resulted in the development of a six-year WASC Action Plan aligned with LCAP goals. Over 200 staff members and nearly 100 students participated in the self-study process through these focus groups. In October 2024, a six-person WASC Visiting Committee conducted a three-day site visit, holding eight additional focus groups with staff and students. The committee visited 14 sites in person and reviewed 18 more virtually through pre-recorded tours. Following this extensive review, the Visiting Committee evaluated HCCS across 14 accreditation status factors, rating 11 as Highly Effective or Effective, 3 as Somewhat Effective, and none as Ineffective.

In March of 2025 WASC informed HCCS it was postponing its accreditation decision pending the result of the California State Audit. HCCS remains in probationary status as of September 2025. To ensure compliance with all program requirements, HCCS has developed a three-year plan to maintain its

WASC accreditation, including measures to reduce student-teacher ratios, improve professional development, enhance data tracking, and increase EL support.

Recruiting Qualified Teachers

Highlands Community Charter School recruits well-qualified educators to our community by posting vacant teaching positions on the recruitment website www.edjoin.org, a third-party employment entity used throughout California and the greater United States as a central advertising location for many different educational organizations. Additionally, we attend the annual Teacher Recruitment Fair held each spring at Sacramento State University in order to meet with new teachers beginning their careers. We also send out recruitment flyers to additional institutes of higher education in the surrounding area, per the school's staffing needs. More efforts will be made going forward to aggressively recruit and retain exceptional educators with both adult and k-12 credentials, given the unique population of students we serve.

UMass Global

Highlands Community Charter and Technical Schools is partnering with UMass Global to help our intern teachers earn a California Preliminary Teaching Credential. UMass Global provides advising, admissions support, and the required coursework, while Highlands provides a paid classroom placement, a site mentor, and job-embedded coaching. We also recruit and train Mentor Teachers—experienced educators who meet weekly with interns to co-plan, observe, and give feedback. University supervisors and site mentors conduct joint observations, so candidates get clear, consistent guidance as they complete clinical hours and state assessments. Our shared professional learning centers on HCCS priorities like integrated ELD, literacy across the curriculum, and effective use of adopted materials. The partnership is formalized in an MOU and builds a steady, well-supported pipeline of prepared teachers for our classrooms.

Transferability of Courses

Governing Law: If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A to G” admissions criteria may be considered to meet college entrance requirements.-- California Education Code § 47605 (c) (5) (A) (iii)

Information about WASC accreditation can be found at HCCS’ website. HCCS is currently WASC-accredited on a probationary basis. Further determination will be made by the WASC commission in 2026.

Element B Measurable Student Outcomes and Element C Student Progress Measurements

"The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups served by the charter school, as that term is defined in subparagraph (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school." (Ed. Code § 47605(c)(5)(B).)
"The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card." (Ed. Code § 47605(c)(5)(C).)

Measurable Goals of the Educational Program

In accordance with Education Code Section 47606.5, the Charter School shall comply with all elements of the LCAP pursuant to regulations and a template adopted by the California State Board of Education and reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter. The Charter School shall submit the LCAP to the District and the County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The current LCAP is on file with the District and is also available on our website at http://hccs.hccts.org. The LCAP and any revisions necessary to implement the LCAP, including outcomes and methods of measurement listed in the Charter, shall not be considered a material revision to the Charter, and shall be maintained by HCCS at the school.

Measurement of Progress
HCCS intends to implement 11th grade and begin administering state assessments during the 2025–2026 school year. Prior to this year, HCCS did not serve 11th grade students and therefore did not participate in CAASPP testing. Given the limited time remaining in the current charter term, HCCS will begin administering CAASPP assessments and analyzing baseline data; however, the school will not yet have sufficient longitudinal information to establish multi-year academic goals tied to CAASPP performance. During this initial implementation year, the Academics Department and the Accountability & Assessment Department will jointly review CAASPP results and use these findings to develop goals, targets, and instructional priorities for the subsequent charter term.

In the absence of historical state testing data, HCCS will continue to utilize existing internal and external assessments as the most reliable indicators of student achievement. Specifically, HCCS will maintain its use of CASAS testing to supplement CAASPP results and provide higher-resolution, ongoing measures of student progress. CASAS provides more frequent testing cycles and is better aligned with the

developmental needs of adult learners, enabling staff to identify skill gains, instructional gaps, and needs for pacing adjustments throughout the year.
While Smarter Balanced assessments (SBAC) and other CAASPP assessments are the state's primary measures of academic performance, their design presents unique limitations for adult education settings. CAASPP is intended to measure longitudinal growth across consecutive years of enrollment in traditional K–12 settings. In contrast, adult learners often return to school after significant educational gaps, may enter at grade 12 without any prior CAASPP history, and frequently do not remain enrolled long enough to participate in the grade-specific testing intervals for which CAASPP was designed. Additionally, adult learners are in a different developmental context than school-age children, further complicating the interpretation of CAASPP results as growth measures.

Therefore, while HCCS will fully participate in CAASPP testing, these assessments require augmentation to yield actionable information for instructional planning in an adult-serving charter school. CASAS and EL Civics assessments will continue to serve as essential tools for monitoring progress throughout the year and evaluating student skill development that may not be captured through CAASPP alone.

Subgroups
HCCS was founded to serve historically disadvantaged populations and consistently enrolls a student body that is more than 90% socioeconomically disadvantaged. Consistent with the school's founding mission, HCCS provides comprehensive support services to all students, exceeding what is typically available in traditional high school or adult education settings. Because of this mission-driven model and the unique demographics of HCCS's student body, the school has historically focused its performance monitoring on overall student performance rather than on traditional K–12 subgroup designations.

Beginning with the first year of CAASPP participation, HCCS will analyze performance across all required state-defined subgroups as reported through CALPADS. In addition to these standard subgroups, HCCS will augment its analysis by examining linguistic and cultural subgroups that are particularly relevant in an adult education context. For example, the CALPADS category of "White" includes large populations of English learners from Russia, Ukraine, Afghanistan, and other regions whose educational needs differ significantly despite being grouped together in state-defined categories.

To ensure equitable support for all learners, HCCS will review state testing results, CASAS data, and EL Civics performance through multiple analytical lenses. This approach allows the school to identify meaningful subgroup differences, understand the diverse needs of its students, and develop targeted strategies that address both state-defined and locally relevant subgroups.

Cycles of Inquiry
HCCS implements a structured, data-driven cycle of inquiry to ensure that instruction remains responsive to student needs and that gaps in progress are identified and addressed in a timely manner. This continuous improvement process integrates teacher-level, site-level, and schoolwide data and is supported by professional development, leadership oversight, and ongoing monitoring.

Teacher-Level Cycles of Inquiry
The CASAS Coordinator leads regular professional development sessions designed to build teacher capacity in data analysis and instructional planning. During these sessions, teachers review their class-

level CASAS data, examine patterns in student skill gains, and identify students who may require additional instructional support or targeted interventions. The CASAS Coordinator guides teachers in interpreting score changes, drill-down indicators, modality-specific patterns, and student persistence factors. Together, teachers and the Coordinator establish clear instructional priorities for the next cycle—such as reinforcing specific competencies, adjusting pacing, differentiating reading or listening tasks, or implementing targeted small-group instruction. These priorities are revisited in subsequent cycles to evaluate progress and refine strategies.

Leadership-Level Cycles of Inquiry

At a higher level, HCCS utilizes CASAS analytics provided through Schoolytics to monitor schoolwide and site-based trends. These dashboards allow administrators—including the CASAS Coordinator, site leaders, and the Chief Academic Officer—to analyze longitudinal score patterns, level completion rates, and the distribution of learning gains across classrooms and school sites. This broader analysis helps identify exemplary instructional practices as well as classrooms or programs that may require additional coaching, professional development, or resource allocation.

Integration and Continuous Monitoring

Findings from both teacher-level and leadership-level analysis are integrated into HCCS's ongoing instructional planning process. Priorities identified in each cycle inform PD offerings, coaching sessions, curriculum adjustments, and the deployment of academic supports. Subsequent CASAS and EL Civics assessment results are reviewed during the next inquiry cycle to determine whether interventions were effective or require further refinement. This structured, iterative approach ensures that HCCS's instructional program remains responsive, equitable, and closely aligned to the needs of its adult learner population.

Alignment With State Priorities

Alignment with State Priorities

STATE PRIORITY #1— BASIC SERVICES The degree to which teachers are appropriately assigned (E.C. §44258.9) and fully credentialed, and every pupil has sufficient access to standards-aligned instructional materials (E.C. § 60119), and school facilities are maintained in good repair (E.C. §17002(d))	
Subpriority A: Fully Credentialed Teachers	
Goal	100% of core teachers will hold an appropriate and valid California Teaching Credential. These teachers may be fully credentialled or hold intern or emergency credentials as is appropriate to the teaching assignment. All teachers will be denoted as Fully Credentialed or Intern by CDE.
Method	Monthly Credential Monitoring. Each month HCCS will document the credentialing status of all teachers in a report accessible to TRUSD and HCCS

	leadership. Including an analysis of all temporary assignments and internships.
Measurement	Percentage of Teachers noted as Ineffective or Out-of-Field by CDE as reported in the annual SARC.
Subpriority B: Access to Standards Aligned Instructional Materials	
Goal	100% of pupils will have access to standards-aligned materials and additional instructional materials as outlined in the charter petition.
Method	Review and approve all instructional materials each summer before the start of the school year to ensure alignment with Common Core, CASAS, and English Language Proficiency objectives. Conduct a midyear materials audit to evaluate sufficiency, replacement needs, and alignment with evolving instructional standards.
Measurement	Confirm 100 percent student access to standards aligned materials by the first week of each academic term, verified through distribution logs and classroom inventories. Executive Director or designee will review all instructional materials before purchase pursuant to E.C. § 60119. Report annually on instructional materials sufficiency in the School Accountability Report Card and maintain documentation verifying compliance with state requirements

STATE PRIORITY #2— IMPLEMENTATION OF COMMON CORE STATE STANDARDS Implementation of Common Core State Standards, including how EL students will be enabled to gain academic content knowledge and English language proficiency	
Subpriority A: Implementation of Standards	
Goal	At HCCS 100% of core academic classrooms will offer curriculum aligned to common core state standards.
Method	**Provide quarterly professional development on standards aligned instructional practices**, ensuring teachers can effectively use diverse curriculum materials to meet varied student needs. **Conduct three implementation checks per year** (fall, winter, spring) to monitor curriculum engagement and instructional fidelity through classroom observations and teacher reflection logs.

Measurement	By August 30th each year, verify that 100 percent of core academic classrooms are equipped with Common Core aligned curriculum, confirmed through an annual instructional materials review conducted by the Executive Director or designee. Confirmed in the annual SARC.
Subpriority B: EL Student Access to Academic Content	
Goal	100% of English Language Learners will gain academic content knowledge through implementation of Common Core State Standards.
Method	Measure EL students' access to academic content each trimester using course completion data, EL Civics assessments, and progress toward mastery of integrated ELD and Common Core learning objectives. EL students will be offered differentiated instruction in contexts integrating Common Core State Standards with ELP objectives such as English for Work and Life and EL Civics courses.
Measurement	Administer level exit tests and track EL Civics performance annually to determine whether English Learners are gaining academic content knowledge in alignment with program expectations. Monitor English language proficiency growth each semester using CASAS reading scores, measurable skill gains, and redesignation indicators to ensure every EL student demonstrates measurable progress.
Subpriority C: EL Students and English Language Proficiency	
Goal	100% of English Language Learners will make measurable progress towards English language proficiency.
Method	EL students participate in English Language Arts/Literacy instruction with appropriate in-class instructional support which includes structured English language development, small group teacher support, paraeducator support, and usage of SDAIE strategies.
Measurement	The school will track annual metrics including the rate of redesignation from Intermediate ESL to Adult Basic Education, measurable skills gains, and CASAS reading gains.

STATE PRIORITY #3— Educational partner involvement. State priority 3 references parental involvement, including efforts to seek parent input for making decisions for

schools, and how the school will promote parent participation. However as all HCCS students are 22 years and over HCCS will focus instead on engaging the feedback of educational partners including but not limited to students and community partners.	
Subpriority A: Educational partner engagement	
Goal	Promote student involvement in setting schoolwide priorities and implementing academic programs and student services through hosting at least five educational partner events.
Method	**Collect and analyze student feedback after each event** using qualitative and quantitative methods, with findings compiled within 30 days and incorporated into annual planning and the LCAP.
Measurement	Student feedback will be recorded, collated, and analyzed by HCCS staff incorporating both qualitative and qualitative methodologies. Student feedback will be incorporated into the annual LCAP.
Subpriority B: Student Participation	
Goal	Survey students in 10 more languages to promote engagement with school culture and receive actionable quantitative feedback, with at least 50% student participation.
Method	Each year HCCS will circulate a student satisfaction survey.The survey will be made available in not less than the 5 most widely spoken languages among the student population. Results will be analyzed and presented to the HCCTS Board with recommendations for LCAP priorities based on the results.
Measurement	HCCS will track the number and percentage of students participating in the survey.
Subpriority C: Community Partner Engagement	
Goal	Maximize the opportunity for HCCS students and staff to meaningfully engage with community partners by hosting at least 5 events accessible to HCCS students remotely (i.e. through Zoom).
Method	Community partner events will be held throughout the year including job fairs, immigrant resource presentations, Know Your Rights presentations from local agencies, and cultural events celebrating diverse student backgrounds.

Measurement	All community partner events will be assessed for engagement and impact including number of students engaged and the results will be reported to the HCCTS Board with recommendations for incorporation into the LCAP. Publish an annual summary of educational partner engagement in the LCAP by June 30, including event counts, participation levels, survey data, and key themes that informed schoolwide decision making.

STATE PRIORITY 4: Student Achievement **Academic Achievement Metrics, performance on standardized tests, progress of English Language Learners**	
Subpriority A: Academic Achievement Metrics	
Goal	The school will analyze available CAST and CAASPP results and identify any subgroups performing below average. Schoolwide academic achievement metrics will meet targets as agreed upon with our Authorizer as quantified below in HCCS Academic Achievement Metrics with the goal of an annual 2 point increase in reading and math indicators.
Method	The SBAC will be administered for all 11th Grade students and CAST for all 12th grade students. All HCCS students take regular CASAS tests every 6-8 weeks. All 12th grade students have regular meetings scheduled with counselors and are provided a personalized graduation plan to ensure they graduate within the same program year as admission to the 12th grade.
Measurement	All Academic Achievement measurements are reported to the Authorizer yearly in an annual report.
Subpriority B: Standardized Tests (SBAC)	
Goal	Ensure all students and teachers are adequately prepared to engage with SBAC. 100% of teachers will receive training on SBAC. 100% of students will be informed of the SBAC testing window.
Method	Implement two mandatory trainings on Smarter Balanced assessment for teachers and paraeducators before January 30. HCCS will begin implementation of Smarter Balanced (SBAC) for 11th grade

	in the 2025-2026 school year. The designated LEA CAASPP coordinator will coordinate training and implementation.
Measurement	The designated LEA CAASPP coordinator will report CAASPP results to HCCS and TRUSD. The CAASPP coordinator will conduct a review of training, timeline and results to be presented to the HCCTS Board in September of each school year.
Subpriority C: Progress of English Language Learners	
Goal	English Language Learners will see consistent growth including average CASAS Reading STEPS gains of 2 points or greater per program year and Measurable Skills Gains as reported to NRS meeting or exceeding the state average.
Method	CASAS tests will be taken by all students every 8 weeks at a minimum, the percentage of students with pre and post test scores will meet or exceed 55%.
Measurement	The CASAS coordinator will review monthly progress reports. The progress of English Language learners will be analyzed and reported in the HCCS annual progress report provided to TRUSD each year.

STATE PRIORITY #5— STUDENT ENGAGEMENT Pupil engagement, as measured by all of the following, as applicable: A. School attendance rates B. Chronic absenteeism rates C. Middle school dropout rates (EC §52052.1(a)(3)) D. High school dropout rates E. High school graduation rates	
Subpriority A: Student Attendance Rates	
Goal	HCCS will ensure an 80% attendance rate.
Method	Attendance with sufficient academic progress will be a requirement of continued enrollment at HCCS. Students not meeting requirements will receive academic support and intervention.
Measurement	Monthly, quarterly and annual attendance reports, Periodic attendance rates will be visualized in Schoolytics.
Subpriority B: Chronic Absenteeism	
Goal	HCCS will reduce chronic absenteeism by 5% yearly.
Method	HCCS will enforce mandatory attendance policies designed to promote attendance. See the attendance SOP attached in the appendix.

Measurement	As reported in Dataquest.
Subpriority C: Graduation Rates	
Goal	HCCS will monitor graduation rates to evaluate the progress of subgroups. HCCS will develop a plan to address the progress of all subgroups performing below the school average.
Method	HCCS will analyze CAPLADS graduate data and identify subgroups performing below average. The Chief Academic Officer will create an equity plan to address discrepancies. All HCCS 12th graders will be prepared for graduation with personalized graduation plans and extensive academic and counseling support.
Measurement	The results of the graduation analysis will be presented annually to the HCCTS Board in September of each school year. This analysis will include a plan and target for each underperforming subgroup.

STATE PRIORITY #6— SCHOOL CLIMATE School climate, as measured by all of the following, as applicable: A. Pupil suspension rates B. Pupil expulsion rates C. Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness	
Subpriority A: Pupil Suspension Rates	
Goal	HCCS will maintain a suspension rate of less than two percent.
Method	HCCS will train teachers, principals, and counselors in social-emotional learning techniques and behavior management.
Measurement	HCCS will track student suspension in PowerSchool and report it in CALPADS.
Subpriority B: Pupil Expulsion Rates	
Goal	HCCS will maintain an expulsion rate of less than two percent.
Method	HCCS will train teachers, principals, and counselors in social-emotional learning techniques and behavior management.
Measurement	HCCS will report student expulsion rates using CALPADS.

Subpriority C: School Climate	
Goal	HCCS will ensure 90% of enrolled students respond to the student climate survey.
Method	As part of HCCSScommunity partner engagement, the yearly student climate surveys will be distributed to all students by teachers. Teachers will be trained on the survey and participation incentivized.
Measurement	The accountability department will collate and analyze student survey results and present the results to the HCCTS Board of Directors including year over year trends in responses and rate of survey completion.

STATE PRIORITY #7— COURSE ACCESS The extent to which pupils have access to, and are enrolled in, a broad course of study, including programs and services developed and provided to unduplicated students (classified as EL, FRPM-eligible, or foster youth; E.C. §42238.02) and students with exceptional needs. "Broad course of study" includes the following, as applicable: Grades 9-12: English, social sciences, science, mathematics, visual and performing arts, applied arts, and career technical education.	
Goal	100% of students will have access to all content areas. As a school with many credit recovery students, not all students will be enrolled in all subjects, however all students will have access to the courses needed to graduate high school with a broad course of study.
Method	Conduct an annual audit of the full course catalog by July 31 to verify that all required subject areas—including English, social sciences, science, mathematics, visual and performing arts, applied arts, and CTE—are available to students. Review all student schedules each semester to confirm that 100 percent of students have access to the courses needed for graduation and to ensure equitable access for English Learners, unduplicated students, and students with exceptional needs.
Measurement	Evaluate and update course outlines and descriptions annually by September 30 to maintain alignment with Common Core State Standards, ELP objectives, and EL Civics content areas. Monitor enrollment patterns quarterly to ensure that designated English support classes are providing integrated access to core content areas for English Learners and that course availability aligns with student demand. Publish an annual Course Access Report each January summarizing course

	offerings, student enrollment trends, access to designated supports, and any adjustments made to maintain compliance and alignment with state priorities.

STATE PRIORITY #8— Pupil Outcomes	
Subpriority A: English	
Goal	All students will demonstrate an increase in proficiency in English Language Arts/Literacy as measured by state testing scores and CASAS test.
Method	HCCS will implement the SBAC annually with the first test to be conducted in Spring 2026. All English learners will receive English language instruction integrated with ELA standards. All English proficient high school students will demonstrate mastery through course completion. All students will receive regular CASAS reading testing
Measurement	HCCS will analyze initial ELA results for the SBAC and produce an analysis and plan to be presented to the Board in September of the 2026-2027 school year. Average CASAS reading tests will meet or exceed 2 points per program year. Yearly the program will meet or exceed California state targets for Measurable Skills Gains.
Subpriority B: Social Science	
Goal	All English language learners will participate in Civics education.
Method	Students will take 3 yearly EL Civics Civics exams.
Measurement	The school will maintain an 85% passing rate for Civics exams.
Subpriority C: Mathematics	
Goal	All students enrolled in Mathematics will make measurable progress.
Method	Math students will receive pre and post CASAS testing to evaluate the effectiveness of the program.
Measurement	All math students will meet or exceed a 2% CASAS Math Goals gain on average.

Method for Measuring, Analyzing, and Reporting Pupil Progress Toward Outcomes

Assessment

Key Measurement Methods

Measurement Outcome	Method of Measurement	Frequency of Assessment
CASAS Gains	CASAS Reading, Listening, and Math assessments	Every 6 to 8 weeks
English Language Proficiency Progress	Internally developed ESL Level exit test	Term
EL Civics Assessments	CASAS approved assessment plans (COAAPS)	Three times each year in the following months: November, March, June
High School Content Mastery	Course assessments and course grades Savvas imbedded assessments	At the end of every high school course Savvas: mid-unit assessments; formal and informal evaluations
ELA and Math Achievement	Smarter Balanced (CAASPP) Savvas imbedded assessments	CAASPP: Once in grade 11. Savvas: mid-unit assessments; formal and informal evaluations
Science Achievement	CAST Savvas imbedded assessments	Once in high school grades 10 or 12. Savvas: mid-unit assessments; formal and informal evaluations

English Language Proficiency Placement
HCCS assesses all students as part of the admission process. Non-native English speakers receive an internally developed placement test to determine English proficiency. Additionally all students receive CASAS testing to establish a baseline for academic achievement.

State Testing
In compliance with Ed. Code HCCS will offer the California Assessment of Student Performance and Progress (CAASPP) and the Smarter Balanced Assessments Consortium (SBAC) to all students in 11th grade. HCCS also offers California Science Tests (CAST) to all 12th-grade students who have not previously taken the science test in high school. Testing will be coordinated by the Assessment Coordinator with academic staff and test proctors. Because CAASPP testing is new to HCCS, the determination of the details of testing windows and procedures will be an ongoing process by academic and assessment staff.

Physical Fitness Test (PFT)
HCCS acknowledges the importance of testing; however, the PFT was intended for children in grades: 5, 7, and 9. It was developed by The Cooper Institute to measure the fitness of youth. All of the healthy performance zones were determined by age and gender, ages 5-17+ and were norm referenced for the outcomes of children. HCCS believes that the PFT would cause considerable stress to adult students and its imposition would likely reduce the chances that adult students remain motivated to complete their education.

Student Growth
HCCS uses the Comprehensive Adult Student Assessment System (CASAS), a competency based adult assessment program validated by the U.S. Department of Education for use in adult education. While HCCTS is a K-12 institution there are few assessment programs designed to evaluate the growth of adult students. Consequently, CASAS is an essential tool for the evaluation of student progress at Highlands. The test series used by HCCS are listed below.

Test Series
CASAS Reading STEPS
CASAS Listening STEPS
CASAS Reading GOALS 2
CASAS Math GOALS 2

Students receive CASAS testing every 6-8 weeks. Testing is conducted via an application installed on HCCS Chromebooks. Testing can only occur in a proctored environment and is conducted by test proctors or teachers.

All students receive CASAS reading tests. CASAS Math assessments are administered to all students enrolled in math courses to evaluate the effectiveness of the instruction they receive.

Schoolwide CASAS outcomes include average point gain, measurable skills gains, and pre- and post-testing rates. Below are the average point gains for the previous three program years.

Average Point Gain per Program Year			
	2022-2023	**2023-2024**	**2024-2025**
ESL Students			
CASAS Reading STEPS	5.1 points	6.3 points	5.2 points
CASAS Listening STEPS	4.0 points	4.1 points	5.8 points
Adult Basic Education Students			
CASAS Reading GOALS	5.4 points	6.4 points	4.9 points

2			
CASAS Math GOALS 2	3.4 points	2.8 points	6.0 points

The data reveals several encouraging trends across both programs. For English Language Learners, CASAS Listening scores have shown steady year-over-year improvement, culminating in a significant gain of 5.8 points in 2024–2025—the highest in three years—indicating that recent adjustments to listening instruction are proving effective. Although reading gains dipped slightly this year, they remain above the 2022–2023 baseline, suggesting partial retention of prior improvements.

At the high school level, CASAS Math scores rose dramatically in 2024–2025, jumping from 2.8 to 6.0 points, signaling substantial progress in math instruction. ABE students also demonstrated consistently strong gains in reading from 2022–2024, reflecting effective literacy practices despite a slight decrease in the most recent year.

Measurable skills gains represent the number of students progressing in an Educational Functioning Level as defined by the National Reporting System (NRS), the federal accountability system. Measurable skills gains are an important indicator of both English language and academic progress.

Percentage of students with pre and post test achieving a measurable skills gain				
ESL Educational Functioning Level		2022-2023	2023-2024	2024-2025
Level 1	Achieved	60.38%	67.27%	55.07%
	CA State target	30.50%	34.00%	TBD
Level 2	Achieved	75.78%	78.10%	80.73$
	CA State target	30.50%	40.00%	TBD
Level 3	Achieved	70.87%	73.84%	78.76%
	CA State target	34.50%	37.00%	TBD
Level 4	Achieved	61.21%	70.21%	71.31%
	CA State target	30.50%	34.50%	TBD
Level 5	Achieved	59.62%	68.13%	68.44%
	CA State target	31.50%	34.50%	TBD
Level 6	Achieved	51.67%	64.01%	62.63%
	CA State target	21.50%	25.00%	TBD

Percentage of students with pre and post test achieving a measurable skills gain				
ABE Educational Functioning Level		2022-2023	2023-2024	2024-2025
Level 1	Achieved	88.89%	75.00%	72.50%
	CA State target	40.00%	44.00%	TBD
Level 2	Achieved	52.50%	61.26%	70.85%
	CA State target	42.50%	44.00%	TBD
Level 3	Achieved	56.85%	60.32%	60.33%
	CA State target	38.00%	43.00%	TBD
Level 4	Achieved	63.28%	71.19%	75.50%
	CA State target	40.50%	43.00%	TBD
Level 5	Achieved	50.91%	52.74%	59.92%
	CA State target	35.50%	42.00%	TBD
Level 6	Achieved	8.51%	0.00%	20.34%
	CA State target	36.50%	43.50%	TBD

Highlands Measurable Skills Gain for all learners compared to state average

	2022-2023	2023-2024	2024-2025
HCCS	42.3%	49.6%	57.8%
CA State Average	44.36%	44.8%	TBD

CASAS pre and post tests are essential for measuring student progress but also serve as an important measure of student engagement. .

Percentage of Learners with Pre and Post CASAS Test		
2022-2023	2023-2024	2024-2025
56.61%	64.68%	75%

The data above reflects a clear upward trend in the percentage of students who received both a pre- and post-test over the past three years. In 2022–2023, 56.61% of students received both tests. This increased to 64.68% in 2023–2024 and rose again to 75% in 2024–2025. This steady improvement demonstrates HCCS's growing commitment to data-driven instruction and collective efforts to ensure more students are assessed consistently, allowing HCCS to better capture and respond to their academic development.

Teachers, counselors, and proctors at HCCS work diligently to ensure that all students complete both the CASAS pre- and post-tests; however, reaching 100% participation remains a challenge. To address this, HCCS is implementing several strategic measures, including hiring additional proctors, expanding staff training, purchasing more laptops to support testing, and developing a more structured and comprehensive testing schedule. Additionally, the recent hiring (August 2024) of a dedicated CASAS Coordinator has provided focused leadership to further strengthen the assessment processes. Through these efforts, HCCS is committed to increasing the percentage of students completing both assessments in the coming years.

EL Civics Civic Objective and Additional Assessment Plan Data (COAAP)
Integrated English Language and Civics (ELCivics) programs are designed to offer English language learners access to English language literacy instruction while learning crucial concepts for participation in the workforce and civic life in the United States. EL Civics assessments are developed according to assessment plans (COAAPs) supplied by CASAS and reported to the state via TOPSPro Enterprise, a state developed software tool.

For the past five years EL Civics assessments have been conducted through Google Forms. EL Civics data was collated and reported through automated Google API scripts. While initially cost effective the maintenance of an increasingly large dataset became impractical. In 2025 EL Civics implemented a pilot with Edcite to streamline the reporting process, improve the quality of the assessment, and to offer more accurate and detailed data tracking.

EL Civics Assessment Data				
Program Year	**Theme**	**COAAP #**	**Attempted Assessments**	**Passed Assessments**
2022-2023	Employment	33.7	1407	951
2022-2023	Pharmacy	28.1	1695	1107
2022-2023	Education	13.5	1906	1503
	Totals			3561
2023-2024	Employment	33.9	2322	1830
2023-2024	Personal Finance	1.8	2351	1864
2023-2024	DMV	12.7	2522	2049
	Total			5743
2024-2025	Employment	33.8	5279	3270
2024-2025	Health and Nutrition	46.7	4573	3329

2024-2025	Education	13.6	2804	2216

High School Graduation
Graduation is the best way to identify course completion for high school students. At HCCS, graduation day is like a holiday worthy of celebration. It is the culmination of years of hard work, determination, perseverance, and overcoming sometimes very serious hardships. HCCS loves to celebrate student success and provide an opportunity for students' families to celebrate this success as well. When students earn their credits, they may petition for their diploma and exit as a graduate. Since this happens on a very regular basis, HCCS provides more than one opportunity a year for students to celebrate and "walk the stage." HCCS holds graduation ceremonies every summer and winter. Each year, the venue has changed in response to graduation growth.

HCCS Graduation Rate
Historically, HCCS has used two graduation rates to track graduation: a one-year graduation rate utilized by DASS schools and the traditional 4-to-5-year cohort rate. The default method of measurement for graduation rate is the 4-to-5-year cohort rate. This measures the percentage of students who graduate in exactly 4 or 5 years after first entering the 9th grade.

HCCS faces a unique situation regarding its 4- and 5-year cohort graduation rate. Before 2021, English language learner students were designated primary students and enrolled in grades 1 and 2. In 2020-2021, all HCCS students were redesignated as high school students to better recognize their adult status. This resulted in a massive increase in 4-year cohort size. However, over 80% of these students still lacked basic secondary education skills, leading a very large number of students to spend extra time in the 9th grade as they develop their English language and academic skills.

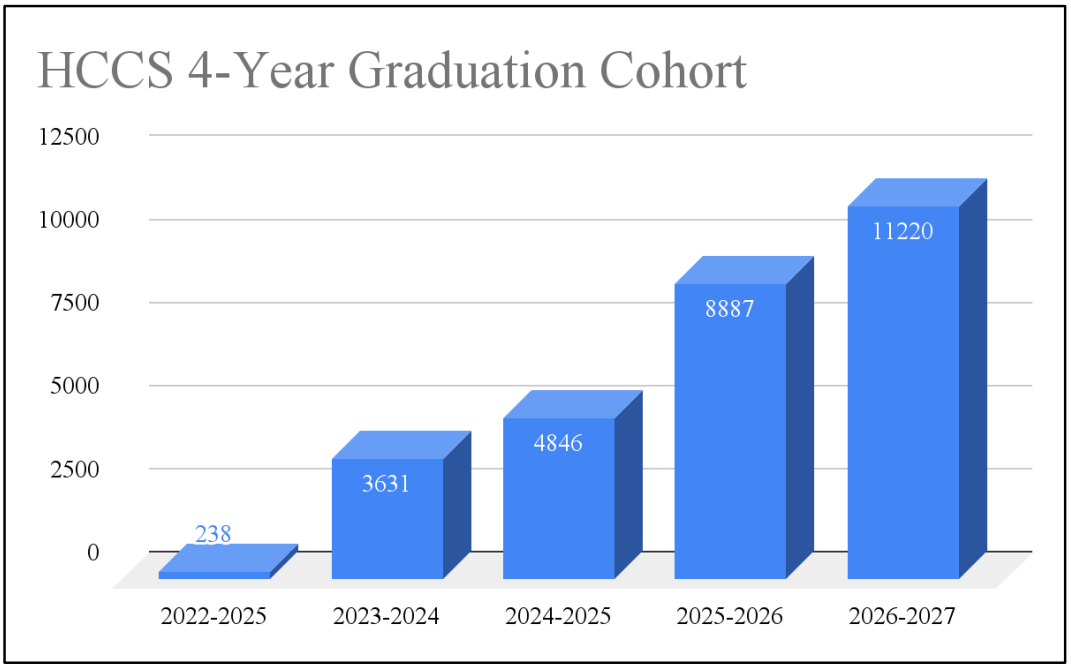
Other students have entered HCCS with better English proficiency and more academic achievement in their countries of origin, leading them to graduate much faster. Students in the 2025 Winter graduation were enrolled for 2.5 years on average.

Students who graduate in 1-3 years are not reported as graduates for the graduation rate as presented on the California Dashboard until 4 years after their first entry in a high school. For example, if a student enrolls in the 2022-2023 school year and graduates in the 2024-2025 school year, they will not be counted in the published 4-to-5-year graduation rate until 2026-2027. Students who graduate in more than 5 years will never appear in the published 4-to-5-year graduation rate. So, an adult student who may have dropped out at 18 and finished their diploma at the age of 23 will not be represented in this graduation rate even if it only took them an additional year of school to complete their education.

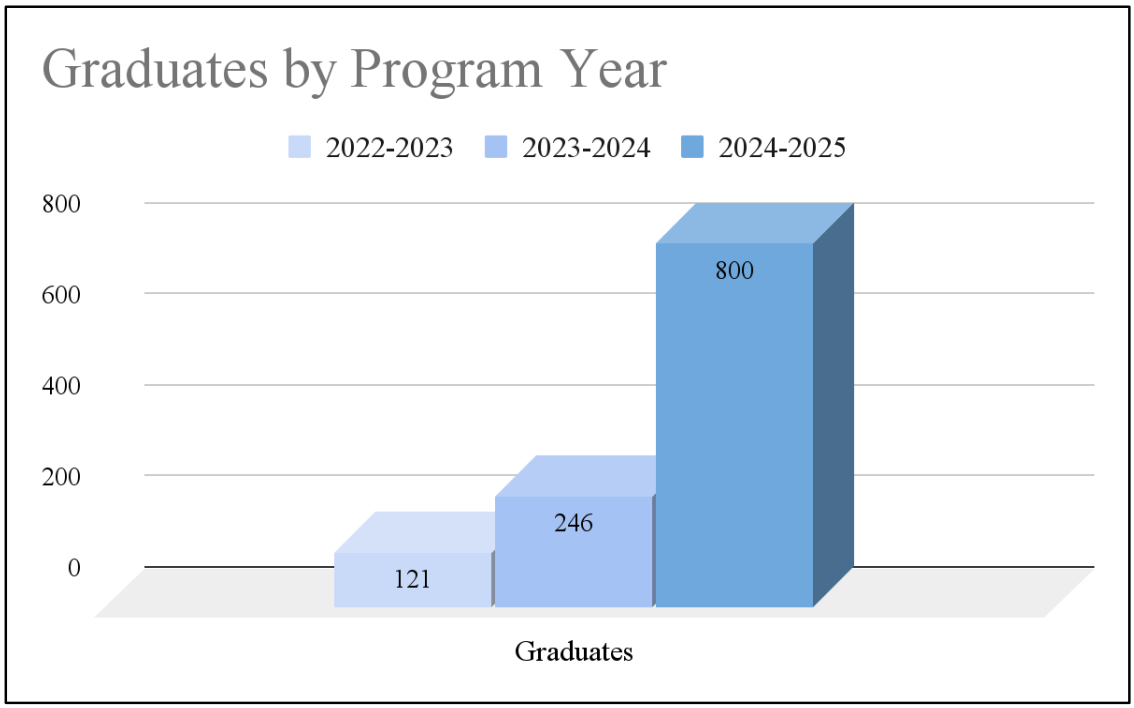
For a school explicitly intended to serve alternative students who enter with an extremely wide range of educational backgrounds and levels of credit attainment, the cohort graduation rate is at very best a lagging indicator. In practice, it obscures rather than reveals the achievements made by students and the outcomes of the program. Furthermore, the proposed reduction in enrollment over the next five years will ensure that the cohort graduation rate will be at best highly unpredictable.

The chart below demonstrates the scale of the issue. While HCCS will continue to track and report the 4-year cohort rate, it will also track and report the 1-year DASS graduation rate to provide a more comprehensive picture of the outcomes of its academic programs.

.



While the raw number of HCCS graduates has grown dramatically, only 176 of HCCS' over 800 graduates reported in CALPADS for the 2024-2025 school year will be accounted for in the published 4-year cohort rate.



HCCS 1-Year Graduation Rate

HCCS students must work to overcome a wide variety of barriers to participate in education and achieve academic success. An adult learner is engaged with responsibilities and demands that pay no respect to their academic journey, making them inherently at very high risk of not completing their education. In every sense, these are alternative students. In recognition of this status, HCCS continues to track and report the 1-year graduation rate. The 1-year graduation rate is calculated as follows

$$\frac{\text{\# graduates as reported in CALPADS - (all students without 90 days cumulative enrollment)}}{\text{All students enrolled in 12th grade for the program year (all students without 90 days cumulative enrollment)}}$$

2022-2023	2023-2024	2024-2025
22.8%	32.1%	55.5%

ESL Level Progress

English Language learners progress through courses designed to advance their English Language skills while giving them the opportunity to engage with increasingly in-depth standards aligned content. Level

3 (Intermediate) is a particularly significant milestone. Completion of this level indicates that the student is able to participate in High School with significantly reduced designated support.

Alternative School Status

HCCS is accountable to the California Department of Education to ensure that HCCS students meet the state's standards. In 2013, the Local Control Funding Formula (LCFF) was adopted by California to ensure accountability using the California School Dashboard. The traditional standards were intended for traditional schools and, in many ways, fail to understand the needs of alternative students. As a result, the California Department of Education recognized alternative accountability measures for alternative schools.

In March 2015, HCCS adopted the Alternative Schools Accountability Model (ASAM), and we complied with their requirements. Then the Dashboard Alternative School Status (DASS) replaced the previous ASAM model, and since the beginning of the 2017–18 school year, HCCS has been accountable to the California Department of Education and adhered to the indicators set forth by DASS. In November 2024, HCCS agreed on a formal set of DASS metrics with Twin Rivers. In December 2024, however, HCCS was informed by the CDE that it would lose its DASS status. Despite this, HCCS will continue to track the agreed-upon metrics as Academic Achievement Metrics.

HCCS Academic Achievement Metrics
Academic Achievement
CASAS ESL
1. The percentage of HCCS English Language learners with a pre and post-test achieving a Measurable Skills Gain in the National Reporting System will meet or exceed California state targets, as reported by NRS Performance in TOPSpro Enterprise (TE).
CASAS ABE
1. The percentage of HCCS high school learners with a pre and post-test, achieving a Measurable Skills Gain in the National Reporting System will meet or exceed California state targets, as reported by NRS Performance in TOPSpro Enterprise (TE).

Academic Improvement
CASAS ESL
1. The average Comprehensive Adult Student Assessment Systems (CASAS) Reading Gains for English Language Learners at HCCS enrolled in International High School will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSpro Enterprise.
2. The percentage of HCCS English Language Learners in International High School Level 3

Academic Improvement
students moving to high school will meet or exceed 5%, as reported by Student Level Gains in PowerSchool.
CASAS ABE
1. The average CASAS Reading Gains for learners enrolled in high school at HCCS will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSpro Enterprise.
2. The average CASAS math gains for learners enrolled in high school at HCCS will meet or exceed an average 2-point gain, as measured by Learning Gains Summary in TOPSPro Enterprise.
3. The 1-year Graduation Rate for HCCS learners will meet or exceed 20% as reported in California School Dashboard.

Student Engagement
All Levels
1. The percentage of HCCS students with a CASAS pre- and post-test will meet or exceed 55% as measured by NRS Data Integrity in TOPSpro Enterprise.

CAREER TECHNICAL EDUCATION (CTE) & WORKFORCE
CASAS ABE
1. The percentage of 12th-grade HCCS high school students who are enrolled in a CTE program will meet or exceed 10% as measured by CTE Enrollment Percentage in PowerSchool.
2. The percentage of HCCS high school graduates who complete a CTE program will meet or exceed 4% as measured by Graduate CTE Completers in PowerSchool.

Teacher-Designed Formative Assessments
At HCCS, teachers utilize many informal assessment techniques to ensure student learning in the following subjects: reading and vocabulary, writing and grammar, speaking and pronunciation, listening, technology and computer literacy, math and consumer economics, science, history/social science/ community resources/government and law, and health and independent living. Assessment tools used to monitor student progress include:

- Benchmark assessments
- Oral class presentations

- Multimedia presentations
- Journal writing
- Independent class projects
- Essays
- Tests and quizzes
- Daily homework
- Book reports
- Movie reviews
- Portfolios
- Group projects
- Research projects
- Grammar diagnostics
- Reading comprehension checks
- Workbooks

Grading and Progress Reporting Systems
HCCS uses the grading system A, B, C, D, and NG. For GPA points, an A has a value of four points, a B has a value of three, a C has two, a D has one, and an NG has zero. Although teachers may add a plus or minus to a grade, they do not affect the students' GPA. Students must receive a letter grade of D or better to pass a class or earn credits. If a student receives a grade lower than a D, they must engage in additional work until they demonstrate sufficient effort and mastery to receive a D. Students receive grades after they finish a course, partial course completion, or at the end of a term, whichever comes first.

Evaluation Methods
At HCCS evaluation is based upon a variety of evaluation methods to measure whether students meet requirements; these include teacher evaluation, self-assessment, publisher tests, and samples of work such as homework or portfolios.

High school course completion is tied to end of unit and end of course assessments. Students must receive a minimum of 80% on all assessments to receive credit.

Plan to Collect, Analyze, Use, and Report Academic Performance and Other Data
HCCS uses assessment data in four primary ways. First, assessment serves as a diagnostic tool to identify content areas a student has not yet mastered. This allows instructional staff to gain a clear understanding of each student's strengths and areas for growth, enabling timely and targeted academic support when needed.

Second, aggregated student learning data are used to evaluate overall school performance. A dedicated team of professionals at HCCS analyzes a broad range of academic indicators, including enrollment trends, placement assessments, demographic data, CASAS assessments and gains, course grades, graduation rates, and student retention. By examining student outcomes over time, the school is able to assess performance by teacher, course, program, and schoolwide, and compare results to those of similar institutions.

Third, assessment data inform decisions regarding student progression and formal recognition, such as level completion, graduation, licensure, or certification

Finally, assessments are used to identify students who may be underperforming relative to their peer group, prompting review of placement and potential intervention support. In cases where a student is not adequately progressing in a course, reassignment to a remedial course or additional instructional support from teachers, paraeducators, or specialists may be required to ensure the student is able to complete course materials and meet academic expectations.

Retention
HCCS addresses student retention through the development of school-based student engagement systems and strong partnerships that support teaching, learning, and student achievement. These student engagement systems coordinate efforts to strengthen two-way communication between students and the school. Retention is supported through cooperation between academic staff, counselors, and classified staff. HCCS will ensure specific roles relating to retention and engagement are added to the organization as appropriate to enrollment and student needs.

Program Audit and TRUSD Oversight
HCCS will compile and provide an annual performance report to TRUSD. This report will, at a minimum, include the following data:

- A summary showing student progress toward the pupil outcomes using data from the assessment instruments.
- A summary of major decisions and policies established by the HCCTS Board of Directors during the year.
- Data on the level of student involvement in HCCS and summary data from an annual student satisfaction survey.
- Data regarding the number of staff working at HCCS and their qualifications.
- A copy of the HCCS health and safety policies and/or a summary of any major changes to those policies during the year.
- An overview of HCCS admissions practices during the year and data regarding the numbers of students enrolled, the number on waitlists, and the number of students expelled and/or suspended.
- Analyses of the effectiveness of HCCS's internal and external dispute mechanisms and data on the number and resolution of disputes and complaints.

Element D Governance

"The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement." (Ed. Code § 47605(c)(5)(D).)

Governance Overview

Highlands Community Charter School (HCCS) operates as a directly funded independent charter school under HCCTS, a California nonprofit public benefit-corporation, in compliance with applicable California law. HCCS commits to maintaining its nonprofit status in good standing and "active" status throughout the term of its Charter.

The Charter School is governed by the Highlands Community Charter and Technical School's Board of Directors (the "Board.") The Board provides ongoing oversight of the Charter School's academic performance, financial health, and legal compliance. This oversight includes reviewing regular reports from the Executive Director and leadership team, approving budgets and audits, evaluating progress toward organizational goals, and ensuring that the school remains faithful to the terms of its charter. The Board operates in accordance with its adopted by-laws and delegates management to key HCCS staff, including the Executive Director. The Board is not involved in handling the day-to-day details of running the charter school.

HCCS operates autonomously although in close harmony with Twin Rivers Unified School District, with the exception of the supervisory oversight as required by statute and other contracted services as negotiated between HCCS and TRUSD. Pursuant to California Education Code Section 47604(d), TRUSD will not be liable for the debts and obligations of HCCS, operated by a California public benefit corporation, or for claims arising from the performance of acts, errors, or omissions by HCCS as long as TRUSD has complied with all oversight responsibilities required by law.

Board Composition and Membership

Board of Directors
Mike Reid (Corporate President)

Mike Reid is a Board Member for Highlands. He has been an educator for over 38 years and has served in various roles throughout his career, including teacher, Vice-Principal, Principal, and Schools Superintendent. He has had the opportunity to assist and be recognized for three California Distinguished Schools.

His work in charter schools spans over nine years, during which he oversaw the development of a new charter school and served as the Learning Analyst for another. He also served as a consultant for the state of Hawaii for nearly three years, focusing on school academic improvement.

Sharon Rocco (Corporate Vice-President)

Sharon Rocco was born in Oregon and moved to California in 1959. In 1967, Rocco moved to Manila, Republic of the Philippines, and graduated from Brent Episcopalian Boarding School in Baguio City. In 1969, she returned to Sacramento, California, and completed college at California State University, Sacramento with a Bachelor's degree in Social Work and Corrections. Sharon began her career in 1975 with the California Department of Corrections as a Parole Agent and served both in rank and file and administrative positions until she retired in 2005. Sharon was elected to Highlands Community Charter School's Board of Directors in July 2015.

Matt Levesque

Matt Levesque is a longtime educator who taught English and Career & Technical Education before serving as a Vice Principal and Principal at multiple school sites. His career has been defined by a commitment to supporting underserved and at-promise students, beginning with his work at a Continuation High School, where he later became Principal.

Matt helped expand student success pathways and played a key role in developing the Industrial Technology program at Highlands. He retired in 2024 and joined the Board in 2025 to support Highlands' mission to "Build Back Better."

Symia Stigler

Symia Stigler is a national leader in K–12 program design, attendance improvement, and workforce pathways. She previously served as Executive Director of the Attendance Institute and Deputy Director of Sacramento READS, where she led regional literacy, attendance, and youth development efforts.

Her expertise spans K–12 and postsecondary education, workforce development, multi-sector partnerships, and community-driven program design focused on improving outcomes for young people.

Pamela A. Pascual

Pamela Pascual brings extensive executive experience in organizational design, trauma-informed practice, governance, and community engagement. As CEO of Let's Talk About It Corp. (LTAIC), she has championed learner-centered reforms grounded in transparency, collaborative leadership, and strong support systems for adult learners and their families.

Her work reflects a long-standing commitment to elevating community voices and strengthening equitable, learner-focused education systems.

Board Member Selection Process

The Board of Directors shall consist of a minimum of three and a maximum of eight members; however, following the resignation of any director serving as of September 20, 2024, the maximum number of members shall be reduced to seven. To mitigate the occurrence of tie votes, the Board endeavors to maintain an odd number of members. Furthermore, school districts or county offices authorized to oversee HCCTS schools are entitled to appoint one voting representative to the Board.

Candidates for Board membership are sought from diverse professional backgrounds, including education, finance, law, public policy, human resources, and community leadership. Ideal candidates demonstrate alignment with HCCS's mission, a commitment to its success, and the ability to provide expertise or resources in support of the school.

People who work for the school (or have close family ties to someone who does) cannot serve on the Board. Each director serves a 3-year term and stays in the role until a new director is chosen. If a director leaves—due to resignation, death, legal issues, or missing three meetings—the Board can fill that spot by majority vote. Chartering authorities can fill or remove their own representatives.

In accordance with Education Code Section 47604.2(b)(2), the Board may, upon receipt of a qualifying petition, choose to include at least one student member. If appointed, the student member may be granted preferential voting rights as provided by law.

Board members may resign at any time by submitting written notice. However, no resignation shall be effective if it would reduce the Board below the minimum required membership, unless the Attorney General is notified. Should a vacancy arise due to resignation, death, legal disqualification, or failure to attend three consecutive meetings, the Board may fill the position by majority vote. Chartering authorities retain the right to appoint or remove their own representatives. Reductions in the Board's authorized size will not prematurely terminate current directors' terms.

HCCS will not make contracts or approve actions where a director or key employee have a potential financial interest in the contract or action that precludes HCCS from approving the same pursuant to Government Code Section 1090, the Political Reform Act, or other statutory, regulatory, or common law preclusions of conflicts of interest. It also will not loan money or property to any director or officer, except that it can advance money for work-related expenses that will be reimbursed. Lastly, HCCS

promises to protect and cover legal costs or damages for its directors, officers, employees, and certain others if they face lawsuits or legal actions related to their role, as allowed by law. If someone asks for this protection, the Board will quickly decide if they qualify and approve it if they do.

Officers of the Corporation: Roles, Responsibilities, and Appointments
The Corporation is required to have a Chair of the Board, President, Secretary, and Treasurer, with the option to appoint additional officers as needed. Officers are appointed by the Board, report to the Board, and may have duties outlined in employment contracts. One person can hold multiple officer roles, except the same person cannot be both Chair/President and Secretary/Treasurer. Officers may be removed by the Board or resign with written notice. Vacancies are filled following the same process as original appointments. The Chair leads Board meetings, and the Vice-Chair fills in when the Chair is absent. The President (also called Executive Director) manages the Corporation's daily operations. The Secretary keeps records of Board meetings and official documents, while the Treasurer manages the Corporation's finances, provides reports, and may be required to give a bond to ensure proper handling of funds.

Board Members shall complete annual Brown Act, conflict of interest, sexual harassment, mandated reporter training, and other mandatory training requirements.

Roles of the Board
The Board of Directors is responsible for managing the Corporation's activities and has the authority to make key decisions. This includes hiring and removing staff, setting their duties and pay, relocating offices, operating in or outside California, borrowing money, using a corporate seal, and seeking outside funding to support and expand the organization's services. All actions must follow applicable laws and the Corporation's governing documents. For more information, see the bylaws in the appendix.

The Board may initiate and carry out any program or activity that is not in conflict with or inconsistent with any law and which is not in conflict with the purposes for which charter schools are established, and consistent with the Articles of Incorporation. The Board may execute any powers delegated to it by law, and shall discharge any duty imposed by law upon it and may delegate to an employee of the Charter School any of those duties with the exception of budget approval or revision, approval of the fiscal audit and performance report, and the adoption of Board policies. The Board, however, retains ultimate responsibility over the performance of those powers or duties so delegated. Other key and Executive employee roles and positions seen in the following organizational charts are described below.

Board members participate in retreats and trainings to support ongoing development and stay informed about key school initiatives. These sessions include updates on the State Audit, legal and financial compliance, and accountability and data monitoring. In the 2024 calendar year, the following board trainings and retreats were held:

- **March 15th, 2024-** Form 700 Training Provided by Young, Minney & Corr
- **August 24th, 2024-** Board Retreat- Strategic Planning, Gamification & The Brain, Future Data Analysis, Board Training Planning, Twin Rivers Oversight Reports
- **September 4th, 2024-** Board Training on Governance and Financial Oversight
- **October 31, 2024-** Collaborative Circles Board Training Session #1

Governance Structure

Highlands Community Charter School (HCCS) affirms that its Board of Directors serves as the sole governing authority of the Charter School. The Board holds ultimate responsibility for the governance and oversight of HCCS, with each member carrying a fiduciary duty to safeguard the long-term success and sustainability of the organization. The Board is charged with addressing all major governance and operational matters in accordance with applicable laws, Board policies, and the terms of the Charter. Key responsibilities include overseeing the Charter School's financial health, ensuring proper expenditure and accountability of public funds, establishing general and curriculum-related policies, approving and monitoring the annual budget and financial procedures, and engaging in strategic planning and fundraising efforts. The Board is also responsible for the selection, evaluation, and, if necessary, dismissal of the Executive Director, as well as the approval and oversight of personnel policies. In addition, the Board works to build broad-based support and strategic partnerships that further the mission of the school. To fulfill its oversight role, the Board meets regularly to review academic and operational data, financial reports, and compliance documentation. Through these processes, it ensures alignment with the school's mission, holds leadership accountable, and monitors key performance indicators to drive continuous improvement.

HCCS has adopted a conflict of interest cod that complies with the Political Reform Act, Corporations Code Conflicts of Interest rules, and any charter-specific conflicts of interest regulations. Notwithstanding any rule, regulation, provision, or Corporation Bylaw to the contrary, the HCCS' Board of Directors and the Charter School shall at all times and in all respects comply with all conflict of interests laws generally applicable to the District's Board of Trustees, including but not limited to Government Code section 1090 and the Political Reform Act. The responsibilities of the HCCS Board, as further outlined in the Bylaws, include but are not limited to:

- Uphold the Vision of the Charter School.
- Oversee the implementation of the HCCS's charter.
- Provide notice and hold meetings in compliance with the Brown Act.
- Create and implement goals for the Charter School.
- Ensure compliance with applicable law, such as the Public Records Act and policies such as the Conflict of Interest Code.
- Provide oversight of instructional programs and materials.
- Approve and provide input for student policies.
- Monitor management of school liabilities, insurance, health, safety and risk-related matters.
- Receive and review quarterly financial reports and the yearly financial audit.
- Work with the chief administrator to set goals.
- Enact policies to support the successful operation of HCCS.
- Attend ethics training (AB 2158).

The current County Conflict of Interest Code can be found in the appendix of this document.

Governance Procedures and Operations

<u>Meeting Requirements and Procedures</u>

All Board meetings are held in accordance with the Brown Act and Education Code Section 47604.1(c) and are open to the public; each agenda includes time for community input regarding Highlands Community Charter School. Governing Board meeting agendas are posted at the entrance of the Charter School's main office and on the Highlands Community Charter School website at least 72 hours prior to any regularly scheduled meeting and at least 24 hours in advance of special meetings. Emergency meetings may be held without standard notice when immediate action is required. Meetings are held at the principal office of HCCS or other publicly accessible, non-discriminatory locations within California designated by Board resolution or meeting notice. Teleconferencing is permitted if the public can attend from all listed locations, and votes are conducted by roll call. Under AB 2449 (effective through January 1, 2026), Board members may also participate remotely under certain conditions without disclosing their location, provided public access is preserved. Meeting minutes are posted to the HCCS website within 72 hours of approval and are available upon request. The Board meets regularly—typically monthly during the school year—and meetings are calendared annually, with rescheduling allowed for holidays.

Decision-Making Procedures

HCCS retains General Counsel to ensure Brown Act compliance for all HCCS board activities, including decision-making procedures. Board members have also been provided with Brown Act reference materials and may participate in yearly meetings held by California Charter Schools Association ("CCSA") and/or Charter Schools Development Center ("CSDC"), which feature ethics presentations, including Brown Act and conflict of interest reviews. All Board members are encouraged to participate in such presentations.

A majority of Directors currently in office constitutes a quorum for all business transactions except adjournment. Every action taken or decision made by a majority of Board members present at a duly held Board meeting is considered an act of the Board, subject to more stringent provisions of the California Nonprofit Public Benefit Corporation Law, including, without limitation, those provisions relating to:

- Approval of contracts or transactions in which a director has a direct or indirect material financial interest,
- Approval of certain transactions between corporations having common directorships,
- Creation of and appointments to committees of the board, and
- Indemnification of directors.

Meetings may be held by telephone or other telecommunications equipment pursuant HCCS Bylaws and in accordance with the terms and provisions of the Ralph M. Brown Act, California Government Code Sections 54950, et seq., as said chapter may be modified by subsequent legislation.

The Board of Directors may, in its discretion, form Committees, in accordance with the Bylaws and applicable law, to accomplish the objectives and responsibilities of the Board and to ensure that the school achieves its mission and goals. To deepen partner input into governance, the Board of Directors may form standing or ad hoc committees, in accordance with bylaws and applicable law.

Committees may be formed to incorporate stakeholder feedback into educational policies and plans, establish workgroups to focus on tasks and objectives requiring sustained input and investigation, and liaise between the Board and community members and other partners.

Committees may include representatives from staff, students, or community partners where appropriate, ensuring the school's governance remains inclusive and mission-aligned.

Educational Partner Involvement

Educational Partner Involvement Plan and Process

It is critical that all students are invested in the success of the Charter School and have a voice in matters critical to the Charter School's success. HCCS believes that student investment is integral to a successful student education, and it is commonly accepted that student involvement can have positive and long-lasting educational results. Therefore, HCCS makes every effort to ensure that student input is considered in the Board's decision-making process. To assure the greatest involvement, HCCS provides multiple opportunities for student feedback.

As part of its continuous improvement efforts, Highlands Community Charter School (HCCS) conducts Educational Partner (EdPartner) events throughout the year, beginning each fall with the distribution of staff and student climate surveys. Starting in the 2024–2025 school year, both surveys are administered via SurveyMonkey to enhance anonymity and encourage honest, constructive feedback.

The staff survey is distributed first and has seen steadily increasing participation, with 346 HCCS staff responding in 2024–2025—up from 223 respondents the previous year—resulting in a participation rate of 92.76%. The survey includes questions across several key areas: mission, vision, and schoolwide goals; communication and leadership; workplace culture and environment; onboarding and support; compensation and benefits; digital tools and technology; professional development and growth; and curriculum and instruction. These categories are designed to assess organizational strengths and identify areas for growth. Survey results are presented to the HCCTS Board of Directors and shared with all staff through infographic posters displayed at every school site to promote transparency and engagement.

The student climate surveys are sent out to all students in eleven different language options. In the 2024-2025 school year, the survey was hosted on Survey Monkey, which allowed for ease of use for students as well. Teachers are encouraged to have their students take the survey during class to increase participation.

HCCS' student survey was available to students in 12 languages, including English, Spanish, Russian, Ukrainian, Dari, Pashto, Arabic, Chinese, Vietnamese, Armenian, Turkish, and Hmong, and resulted in 3,610 student responses, compared to 2,169 last year.

In February 2024, HCCS held the Reading with Relevance event to gather information on the curriculum and its impact. Highlands engaged 36 educational partners during this event and had them participate in the Reading with Relevance Book Fair Impact Survey afterward.

During the Black History event in February 2024, Highlands focused on engaging educational partners and collecting feedback. The Black History Month Assembly Feedback Form from February 2024 garnered 27 responses from educational partners.

During the Building a Community School Lunch and Dinner sessions, Highlands concentrated on gathering suggestions for improvements in the domains of wellness, health, social-emotional support, additional academic opportunities, CTE, and community enhancements. HCCS held discussions with educational partners, which resulted in 22 summarized responses on the Building a Community School survey.

In March 2024, Highlands hosted a meeting with principals to gather their insights on the key challenges and opportunities for growth. Following the discussions, participants were requested to complete the Principal Feedback Survey, which provided subsequent data from 6 principals.

In April 2024, HCCS sent out the Leadership Survey to collect the directors' feedback on the following categories: communication, job and role clarity, work environment, recognition, relationships, curriculum, and professional development. HCCS has gathered responses that highlight the enhancements across the categories, alongside some challenges. Seven of the directors participated in the Survey.

In April 2024, Highlands facilitated a Your Voice Matters event for CTE programs at the Grand Avenue campus. HCCS engaged 42 educational partners and gathered feedback on strengths, improvement areas, and solutions.

In the 2023-2024 school year, Highlands hosted educational partner events titled Your Voice Matters at 11 locations, compared to one location in the previous year. The purpose of visiting more sites was to get more feedback from students with different needs at various school locations. For the 2023-2024 school year, HCCS gathered educational partner feedback from a total of 830, including 26 responses from students who enrolled in the Equity Initiatives program at the “Your Voice Matters” events, compared to 270 in the 2022-2023 school year. Combined with the all-staff climate surveys and student surveys, the principal meeting, leadership feedback survey, and other educational partner events, HCCS engaged 4,926 while gathering educational partner feedback.

Each educational partner event had a facilitator and notetaker who led the discussion in three areas: school strengths, growth opportunities, and possible solutions. The responses were recorded in Google Forms. HCCS analyzed the data to identify growth areas and build the LCAP goals and actions. HCCS found a high level of consistency in climate surveys and educational partner responses. After careful review, HCCS used this feedback to determine where to increase and decrease spending.

HCCS encourages students and staff to attend, speak, and present at Board meetings; HCCS requests that students and staff complete various surveys. HCCS proactively reaches out to students regularly to encourage them to meet with the counselors to continue discussing their goals and needs, and HCCS is proudly responsive to the feedback it receives.

HCCS encourages and teaches the students how to maintain direct influence over the direction of their educational process. Students have equal say, and sometimes, greater say, in their learning according to their academic needs. Teachers collaborate with students, other teachers, staff, administration, and community partners to determine what new programs and resources would be most beneficial to student achievement and well-being.

In planning to draft the LCAP, leadership consults with teachers, administrators, other school personnel, partners, and students in developing the annual update. This feedback is provided during EdPartner events. Following these events, the data is reviewed, proposals for a new funding formula are created and presented to the board of directors as well as the executive cabinet. Goals are then amended based on recommendations provided from the school community. Amended plans are then presented for feedback to staff, students, and all other interested parties at regularly scheduled meetings. All stakeholders are invited to submit public comments and final plans are approved at a public board meeting. HCCS will consider TRUSD recommendations and comments when drafting its LCAP. The Charter School shall present a report on the annual update to the LCAP and the local control funding formula budget each year as part of a nonconsent item at a regularly scheduled Board meeting.

Additionally, HCCS uses the school website to keep the students informed of all upcoming activities, important calendar items, and Board meeting minutes. HCCS promotes student involvement by encouraging students to contribute to and drive website content through the sharing of their personal stories which are connected to the website via an Instafeed of social media content.

Element E Employee Qualifications

"The qualifications to be met by individuals to be employed by the charter school." (Ed. Code § 47605(c)(5)(E).)

Qualified Employment

HCCS shall recruit professional, effective, and qualified personnel for all administrative, instructional, instructional support, and non-instructional support roles who align with the school's instructional philosophy, mission, and vision. In accordance with Education Code 47605(e)(1), HCCS shall remain nonsectarian in its employment practices and all other operations. The Charter School shall not discriminate against any individual (employee or pupil) on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, immigration status, or any other characteristic included in the definition of hate crimes set forth in Section 422.55 of the Penal Code, or based on association with an individual who has any of the aforementioned characteristics.

All employees must possess the personal qualities, knowledge, and relevant experience outlined in the responsibilities and qualifications section of the posted job description, as determined by HCCS staff in coordination with Human Resources. HCCS staff and Human Resources personnel shall recommend applicants suitable for employment. Following the interview process, final approval shall rest with the Executive Director.

Executive Leadership 2025-2026

Executive Director, Jonathan Raymond
Chief Business Official, Matthew Lemos
Deputy Director/Chief Operating Officer, Teresa Cummings, Ph.D.
Deputy Director/Chief Academic Officer, Eric Chapman

For more information on the resumes of each of the cabinet members and their job descriptions, see the appendix.

Administrative Services Credentials

HCCS supports and encourages leadership to obtain administrative services credentials through the CTC. HCCS currently partners with two programs to do this: the Sacramento County Office of Education and the San Diego County Office of Education. As of June 2025, 14 employees at HCCTS have participated in a preliminary and or clear administrative services credential program or have been accepted and will begin in the next cohort.

HCCTS administrators or employees who have completed or are currently enrolled in preliminary or clear administrative credential programs:

1. Eric Chapman, Deputy DirectorChief Academic Officer
2. Teresa Cummings, Ph.D. Deputy Director/Chief Operating Officer
3. Bindy Grewal, Ed.D., Director of Human Resources

4. Mayra Valdivia, Interim Director of Student Services~~Intervention Coordinator~~
~~5.~~ Andrew Michaud, Director of Instruction and Professional Learning
~~6.~~5. ~~Isa Cacho, Director of Student Services~~
~~7.~~6. Melissa Roberson, Director of Accountability and Assessment
~~8.~~7. Carol Zheng, Curriculum Coordinator
~~9.~~8. Niccole Scrogins, Interim Director of Performance Management and Continuous Improvement
~~10.~~9.
~~11.~~10. Khrystsina Talstyka, HCCS Principal

The following employees have been accepted to a preliminary administrative services credential through the Sacramento County Office of Education and will begin in the next cohort:

1. Catherine Thirkill, CASAS Coordinator
2. Vicki Neal, HCCS Principal

HCCS has developed and adopted Board Policy 4331 – Administrative Credential Reimbursement, which outlines the reimbursement procedures for participation in approved credentialing programs. Additional details are provided in the appendix.

Evaluations

In the 2024-2025 school year, the Board Policy: 4115 Personnel Evaluation and Supervision outlined the maintenance of a comprehensive personnel evaluation policy to support continuous improvement, accountability, and alignment with the school's mission. This policy applies to all certificated and classified staff and outlines clear expectations for professional conduct, job performance, stakeholder engagement, and compliance. Evaluations are conducted annually and may include observations, self-assessments, performance appraisals, and goal-setting reviews, depending on the employee's role. Supervisors are responsible for providing timely feedback, maintaining documentation, and supporting employee growth. All evaluation records are kept confidential and stored in personnel files in accordance with privacy laws. For more information regarding Board Policy: 4115 Personnel Evaluation and Supervision, see the appendix.

Frontline is an integrated system used for payroll, employee evaluation, and professional learning management. As part of its evaluation functionality, the platform securely stores all employee evaluations and monitors performance trends over time. It facilitates a standardized evaluation process across the organization and provides automated reminders to supervisors regarding upcoming deadlines. All employees are required to review and electronically acknowledge their evaluations within the system.

Teacher Credentialing

HCCTS agrees that all teachers should hold a valid teaching credential for their certificated assignment in conformance with Education Code Section 47605(l)(1) and that classroom paraeducators should not be permitted to teach as the teacher of record or without the immediate supervision of an appropriately credentialed teacher without valid teaching credentials for their assignment. In prior years, teachers at HCCS held adult education credentials as recommended by the CTC and the San Diego County Office of Education. In February 2025, the CTC decided to enforce K-12 teaching credentials.

HCCS has already implemented the following to improve compliance and accountability. In the 2024–2025 school year, HCCTS significantly changed its credentialing and staffing procedures. The school established a credentialing support team of internal staff and credentialing consultants and reviewed more than 300 staff profiles. Individual credential pathway plans were developed, and 269 one-on-one consultations were held with teachers. HCCTS launched a partnership to create an intern credential pathway with tuition coverage for staff and offered reimbursement for credential exam fees and coursework through Board Policy 4112.3: Teacher Credentialing Reimbursements. All staff with noncompliant assignments were notified, and instruction in July 2025 was suspended to allow credential corrections before the next school year.

Board Policy 4112.2 now requires all certificated staff to hold valid and appropriate credentials at the time of hire and to submit timely proof of renewal. In alignment with updated guidance from the CTC and CDE—and following the loss of DASS status—HCCTS has transitioned away from Adult Education credentials. All teachers are now required to hold single-subject or multiple-subject credentials.

To support compliance, HCCTS created a centralized credentialing dashboard and updated its use of Frontline to track credential status, staff evaluations, and assignment alignment.
Per Board Policy 4112.2, certificated employees must:

- Hold the appropriate credential for their assignment upon hire;
- Maintain active credentials and complete renewals as required;
- Adhere to applicable state and federal regulations;
- Submit proof of credential validity and renewal to Human Resources within required timelines.

For more information from the Board Policy 4112.2: Credentialing Requirements Communications, see the appendix.

Instructional Paraeducators
Instructional paraeducators at Highlands Community Charter School (HCCS) play a vital role in supporting certificated teachers by providing instructional assistance and academic support in students' primary languages. To ensure all paraeducators meet minimum qualifications, HCCS requires a high school diploma or equivalent, successful completion of an English proficiency exam with a score of 70% or higher, and the ability to communicate effectively with diverse student populations. In alignment with state and federal requirements, HCCS verifies educational qualifications and exam results during the hiring process and maintains documentation to ensure compliance.

Applicant Screening
All job applicants at HCCS go through a rigorous pre-employment screening process to ensure they meet all requirements and qualifications for the role they are applying for. HCCS uses the website Edjoin to post job openings. This is also where new applicants apply for positions. Within Edjoin, HR is able to filter applications based on minimum qualifications. Only employees who meet these requirements are eligible for interviews. HCCS BP 4111 outlines the hiring process for external candidates. As part of the pre-employment job application, candidates are asked about their relationships to other employees in order to ensure that no relatives are involved in the hiring decisions and that family members do not report to each other.

HCCTS Hiring and Anti-Nepotism Policy
HCCTS has adopted Board Policy 4212.8, prohibiting relatives from participating in hiring or evaluation processes involving family members to address concerns about nepotism and favoritism. Interviewers must complete disclosure forms, and job postings, evaluations, and offers are now tracked and reviewed centrally by the HR department to ensure consistency and equity.

Organizational Chart & Job Descriptions
HCCTS regularly updates the organizational chart for accuracy based on the roles and structures needed within the organization. During the 2024-2025 school year, HCCTS drafted and revised a total of 25 job descriptions. The purpose is to ensure role clarity for all employees and ensure there is consistency between the work performed, role requirements, and appropriate pay.

Hiring Process
The hiring process at Highlands Community Charter School (HCCS) is designed to ensure consistency, transparency, and alignment with organizational needs and compliance standards. It begins with the submission of a Position Control Form (PCF) whenever a position needs to be backfilled or newly created. The PCF includes essential details such as the job description and a designated leadership contact, and is reviewed weekly by the Executive Cabinet. Upon approval and required signatures, the Human Resources team posts the position on EdJoin.org and communicates the posting status to the hiring manager. This step ensures that each job opening is intentional, well-defined, and appropriately authorized.

Once posted, hiring managers review applicants within EdJoin by evaluating qualifications in relation to the job description. Candidates are categorized as prescreened, interviewed, or removed, providing a clear record of each applicant's status. Notes from prior interviews are required for third interview requests and must be documented either via email or directly in the EdJoin system. For current staff changes, such as promotions or changes in FTE, an EE Update—rather than a PCF—is submitted to accurately reflect the employee's new assignment. Altogether, this structured process supports effective hiring decisions while maintaining clarity, documentation, and compliance across the organization.

Employee Positions and Qualifications

Employee Positions
See Appendix for the 2025 Organizational Chart.

Professional Development
In the 2024–2025 school year, HCCS adopted a Professional Development Policy to support the continuous growth of all staff: 4131 BP Professional Development. The policy aligns professional learning with HCCS's mission, vision, and strategic goals, with a focus on improving student outcomes and meeting legal and regulatory requirements.

HCCS offers a variety of professional development opportunities, including in-service training, workshops, online modules, and compliance-focused sessions. In accordance with Education Code 47605.1(f) and its WIOA partnership, HCCTS may conduct professional development at any location in California.

The Executive Director oversees alignment and implementation, while leadership identifies needs and encourages staff participation. Employees are expected to engage actively and apply their learning. Funding is provided in line with organizational priorities, and travel is reimbursed per Board Policy 3350. HCCS evaluates professional development effectiveness through staff feedback, performance data, and evidence of improved practice, with a commitment to equity and access for all staff.

In 2024-2025, HCCS offered extensive internal and external professional development, covering topics like CPR, active shooter response, equity, SEL, and leadership. HCCS provides two all-staff mandatory Professional Development opportunities throughout the year: three days in August and two days in May. All staff training includes Title IX training, Mandatory Reporter & Child Abuse Prevention Training, Sexual Harassment Prevention Training, FERPA, Workplace Violence Prevention Training, and Comprehensive School Site Safety Training.

Teachers and paraeducators receive training on assessments such as the California Science Test (CAST) and English Literacy and Civics (EL Civics) assessments, end-of-level assessments, and CASAS assessments. Additionally, teachers and paraeducators receive training on any curriculum updates and curriculum instructional strategies. Teachers in the process of getting their credential or who have their preliminary credential are assigned a mentor teacher and must meet with them regularly.

Highlands Community Charter School (HCCS) recognizes the critical role of targeted professional development in fostering staff effectiveness and advancing organizational goals. While HCCS offers all-staff professional development days to promote schoolwide alignment and collaboration, a dedicated portion of these days is intentionally reserved for department-specific professional development. This approach ensures that staff receive training that is both relevant to their roles and responsive to the unique needs of their departments.

To coordinate these efforts across departments, the Chief Academic Officer—or their designee—works collaboratively with department directors or lead team members to plan and implement tailored professional development sessions. This decentralized model promotes professional learning that is contextualized, job-embedded, and aligned with departmental objectives, while still supporting the broader mission and strategic priorities of HCCS. For more information on department professional development, see the appendix.

Element F Health and Safety Procedures

"The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall require all of the following
That each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237.

For all schools, the development of a school safety plan, which shall include the safety topics listed in subparagraphs (A) to (M), inclusive of paragraph (2)of subdivision (a)of Section 32282. For schools serving pupils in any of grades 7 to 12, inclusive, the development of a school safety plan shall also include the safety topic listed in subparagraph (N) of paragraph (2) of subdivision (a) of Section 32282.

That the school safety plan be reviewed and updated by March 1 of every year by the charter school." (Ed. Code § 47605(c)(5)(F).

Health and Safety Policies and Procedures

Custodian of Records

HCCS Community Charter School designates the Executive Director to serve as the Charter School's Custodian of Records per California Department of Justice requirements. The Executive Director is confirmed as the Custodian of Records by the California Department of Justice.

Promoting Student Health and Wellness

HCCS will ensure the safety of the students and staff by complying with all applicable state and federal safety laws. HCCS shall adhere to Board policies pertaining to the safety and health of all employees and students.

Emergency Operations Guide

The Emergency Operations Guide for Highlands Community Charter School (HCCS) is a comprehensive manual that outlines the protocols, procedures, and responsibilities necessary to ensure the safety and well-being of students, staff, and visitors in the event of an emergency. Designed to comply with California law, the guide establishes HCCS staff as disaster service workers and provides step-by-step instructions for responding to a wide range of emergencies—including natural disasters, active shooter situations, hazardous material releases, and more. It includes critical contact information, evacuation procedures, communication tools, and detailed roles within the Incident Command System, ensuring a coordinated and effective response to any crisis. All staff are required to review the guide annually and be prepared to carry out assigned emergency duties. For more information about the emergency operation guide, please refer to the appendix.

Board Policies

- 5125 BP Student Records
- 5131 BP Student Conduct

- 5132 BP Student Dress Code
- 3542 BP Vehicle Use
- 5144 BP Student Discipline
- 5131.6 BP Alcohol and Other Drugs
- 5144.1 BP Suspension and Expulsion
- 5145.2 BP Student Freedom of Expression
- 5131.7 BP Weapons and Dangerous Instruments
- 1250 BP Registration of Visitors, Guests, and Outsiders
- 5142 BP Children on Campus and the Early Learning Center
- 3516 BP School Safety & Emergency Preparedness Plan
- 4212.8 BP - Anti-Nepotism and Employment of Relatives
- 4119.12 BP - Title IX Policy Prohibiting Discrimination on the Basis of Sex
- 5145.71 BP - Title IX Policy Prohibiting Discrimination on the Basis of Sex
- 5141.31 BP Health Examinations, Immunizations, and Oral Health Assessments
- 5145.3 BP Harassment, Discrimination, Intimidation, and Bullying Prevention

Social and Emotional Support and Guidance
Teachers, counselors, and all staff members who engage with students are expected to listen actively, provide support, demonstrate empathy, and guide students in developing healthy social and emotional skills. Maintaining an open-minded, trustworthy, and respectful approach is essential to fostering student well-being. HCCS is also committed to identifying students in need of mental health support and actively collaborates with community mental health organizations to connect students with appropriate resources and services.

Staff Safety Training and Protocols
HCCS staff are trained annually in active shooter response protocols, aligned with the procedures outlined in the School Safety Guide and emergency response reports. These trainings are complemented by regular campus-wide drills and communication system tests to ensure preparedness and coordination across all school sites. In addition to emergency preparedness, all staff participate in annual CPR and first aid certification, as well as any additional health and safety training required by state or federal guidelines. Staff contracts reflect agreement to comply with these safety procedures.

Student Drills and Emergency Procedures
To promote student safety and readiness, HCCS conducts fire drills and evacuation drills regularly throughout the academic year at all school sites. These drills are documented and reviewed to ensure efficiency and compliance with fire code and safety regulations.

Academic, College, and Career Counseling
Counselors meet with students one-on-one throughout the school year to discuss academic progress and set SMART goals (specific, measurable, attainable, relevant, and timely). Counselors offer college and career counseling through individual and group sessions.

Background Checks
HCCS certifies that criminal record summary information has been obtained for all staff prior to employment. Classified staff submit fingerprints to a California and multi-state Live Scan prior to

employment. The multi-state search should ensure all convictions are reported. Furthermore, HCCS shall comply with the applicable state and federal laws regarding the fingerprinting and background clearance of employees, contractors, and volunteers prior to engaging in employment, volunteerism, or contract services or any other unsupervised contact with students of the Charter School. The Charter School shall not hire any person, in either a certificated or classified position, who has been convicted of a violent or serious felony except as otherwise provided by law, pursuant to Education Code Sections 44830.1 and 45122.1. The HCCS Executive Director or appointed confidential designee shall review California Department of Justice and Federal Bureau of Investigation reports on prospective employees, contractors, and volunteers to determine whether an individual may provide service within the Charter School, except with respect to reports relative to her or himself, in which case a confirmed member of the Board or appointed confidential designee will review the respective report. The Executive Director or appointed confidential designee shall monitor compliance with this policy on a continuous and ongoing basis.

Mandated Child Abuse Reporting
In accordance with EC § 44691 all HCCS employees are mandated child abuse reporters and will follow all applicable reporting laws. HCCS provides all employees and other persons working on behalf of HCCS who are mandated reporters with annual training on child abuse detection and reporting, which shall occur within the first six weeks of each school year, or within the first six weeks of a person's employment if employed after the beginning of the school year.

Tuberculosis (TB) Risk Assessment and Examination
HCCS shall adhere to existing state laws regarding tuberculosis screening of employees. HCCS requires a tuberculosis risk assessment and, if necessary, examination for all employees working in direct contact with students prior to commencing employment and working with students, and for employees at least once each four years thereafter. Highlands Community Charter School certifies that applicable health record information has been obtained for all relevant employees and volunteers prior to initial employment.

Immunizations
HCCS shall adhere to all applicable laws and existing Board policy related to legally required immunizations and health-related issues for both employees and entering students at HCCS.

CPR/First Aid Training
All designated employees are CPR and First Aid trained as part of internal practice.

Medication in School
The Charter School shall adhere to Education Code Section 49423 regarding administration of medication in school. The Charter School will adhere to Education Code Section 49414 regarding epinephrine auto-injectors and training for staff members; per AB 1651 (2023), the Charter School shall store emergency epinephrine auto-injectors in an accessible location upon need for emergency use and include that location in annual notices required by law. To the extent the Charter School maintains a stock of albuterol inhalers to respond to respiratory distress in students, the Charter School shall comply with the requirements of Education Code Section 49414.7, including with respect to training, notices, and the stocking of albuterol inhalers.

Diabetes
The Charter School shall make type 1 diabetes informational materials accessible to the parent or guardian of a pupil when the pupil is first enrolled in elementary school.

Vision, Hearing, and Scoliosis
Students will be screened for vision, hearing, and scoliosis. The Charter School will adhere to Education Code Section 49450 et seq. as applicable to the grade levels served by the Charter School.

Suicide Prevention Policy
The Charter School shall maintain a policy on student suicide prevention in accordance with Education Code Section 215. The Charter School shall review, at minimum every fifth year, its policy on pupil suicide prevention and, if necessary, update its policy. Pursuant to AB 58 (2021-22), the Charter School will also review and update its suicide prevention policy to incorporate best practices identified by the California Department of Education's model policy, as revised.

Prevention of Human Trafficking
The Charter School will provide accessible information on human trafficking prevention resources for our adult learners, as well as parents and guardians of students in grades 6-12, in accordance with EC 49381.

Menstrual Products
The Charter School shall stock the school's restrooms at all times with an adequate supply of menstrual products, available and accessible, free of cost, in all women's restrooms and all-gender restrooms, and in at least one men's restroom. The Charter School shall post a notice regarding the requirements of Education Code Section 35292.6 in a prominent and conspicuous location in every restroom required to stock menstrual products, as specified. This notice shall include the text of Education Code Section 35292.6 and contact information, including an email address and telephone number, for a designated individual responsible for maintaining the requisite supply of menstrual products.

All Gender Restrooms
As required by EDC § 35292.5, on or before July 1, 2026, HCCS will provide and maintain at least one all-gender restroom available at all sites.

California Healthy Youth Act
The Charter School shall teach sexual health education and human immunodeficiency virus prevention education to students in grade 12, at least once in high school, pursuant to the California Healthy Youth Act (Education Code Section 51930, et seq.).

Mental Health Education
If the Charter School offers one or more courses in health education to students in high school, the Charter School shall include in those courses instruction in mental health that meets the requirements of Education Code Section 51925, et seq.

Mental Health Information
The Charter School shall create and post a poster at the school site identifying approaches and resources addressing student health in compliance with Education Code Section 49428.5. The poster shall be displayed in English and the primary language(s) spoken by 15 percent or more of the students enrolled at the school site. The poster shall be prominently and conspicuously displayed in appropriate public areas that are accessible to, and commonly frequented by, students at the school site. The poster shall also be digitized and distributed online to students through social media, internet websites, portals, and learning platforms at the beginning of each school year.

Workplace Violence Prevention Plan
The Charter School shall establish, implement, and maintain, at all times in all work areas, an effective workplace violence prevention plan consistent with the requirements of Labor Code Section 6401.9.

Comprehensive School Safety Plan
The Charter School shall adopt a Comprehensive School Safety Plan, to be reviewed and updated by March 1 of every year, which shall include, but not be limited to: (1) an assessment of the current status of school crime committed on Charter School facilities and at Charter School-related functions; and (2) identifying appropriate strategies and programs that will provide or maintain a high level of school safety and address the Charter School's procedures for complying with applicable laws related to school safety, which shall include the development of all of the following pursuant to Education Code Section 32282(a)(2)(A)-(O):

- Child abuse reporting procedures
- Routine and emergency disaster procedures
- Policies for students who committed an act under Section 48915 and other Charter School-designated serious acts leading to suspension, expulsion, or mandatory expulsion recommendations
- Procedures to notify teachers of dangerous students pursuant to Education Code Section 49079
- A discrimination and harassment policy consistent with Education Code Section 200
- Provisions of any school wide dress code that prohibits students from wearing "gang-related apparel," if applicable
- Procedures for safe ingress and egress of pupils, parents, and employees to and from the Charter School
- A safe and orderly environment conducive to learning
- The rules and procedures on Charter School discipline adopted pursuant to Education Code Sections 35291, 35291.5, and 47605
- Procedures for conducting tactical responses to criminal incidents
- Procedures to prepare for active shooters or other armed assailants by conducting a drill, if this topic is covered in the School Safety Plan
- Procedures to assess and respond to reports of any dangerous, violent, or unlawful activity that is being conducted or threatened to be conducted at the school, at an activity sponsored by the school, or on a school bus serving the school
- Procedures to respond to incidents involving an individual experiencing a sudden cardiac arrest or a similar life-threatening medical emergency while on school grounds

- A protocol in the event a pupil is suffering or is reasonably believed to be suffering from an opioid overdose
- Procedures to notify students, parents and guardians of pupils, teachers, administrators and school personnel when the school confirms the presence of immigration enforcement on the schoolsite.

The CSSP is a detailed, annually updated strategy for preparing for, responding to, and recovering from various emergencies and ensuring a safe learning environment for students and staff. This plan assesses campus risks, addresses potential safety concerns and threats, and outlines procedures for safety-related incidents

More information about the Comprehensive School Safety Plan can be found in the appendix.

Emergency Preparedness
Highlands Community Charter Schools shall adhere to an Emergency Preparedness Handbook drafted specifically to the needs of the facility in conjunction with law enforcement and the Fire Marshal. The handbook shall include, but not be limited to the following responses: fire, flood, earthquake, terrorist threats, and hostage situations. If assuming a facility that was previously used as a school site, any existing emergency preparedness plan for the school site shall be used as a starting basis for updating the handbook for the Charter School.

Staff shall receive training in emergency response, including appropriate "first responder" training or its equivalent.

Disaster procedures included in the School Safety Plan shall address and include adaptations for students with disabilities. To the extent an employee, parent/guardian, educational rights holder, or student brings concerns regarding the procedures to the Site Administrator and, if there is merit to the concern, the Site Administrator shall direct the School Safety Plan to be modified accordingly.

Bloodborne Pathogens
Highlands Community Charter School adheres to state and federal standards for dealing with bloodborne pathogens and other potentially infectious materials in the workplace. HCCS maintains a written infectious disease control plan designed to protect employees and students from possible infection due to contact with blood-borne viruses, including HIV and hepatitis B virus (HBV). This plan includes the training of staff and is included in the Charter School's Comprehensive School Safety Plan. Whenever exposed to blood or other bodily fluids through injury or accident, staff and students will be directed to follow the latest medical protocol for disinfecting and waste disposal procedures.

Drug Free/Alcohol Free/Smoke Free Environment
HCCS maintains a drug, alcohol, and smoke-free environment (workplace and campus).

Integrated Complaint and Investigation Procedure
HCCS utilizes an anonymous complaint process through a third-party vendor called Navex.

Navex

In the 2024-2025 school year, HCCTS partnered with Navex One to improve the process for receiving anonymous complaints and concerns from employees.

Navex is a vendor that allows employees to submit anonymous or non-anonymous complaints to employers. The school's goal for the use of Navex is to ensure clear communication regarding unethical or illegal activities within the organization while remaining anonymous and confidential. Employees can access Navex in three ways:

- By calling a phone line that is connected to HCCTS
- By accessing a website using a computer and a URL
- By scanning a QR code with a cell phone camera

Each Navex case is documented and then shared with the HCCTS Human Resources Department, where each case is investigated. Once enough information has been collected, the case is finalized, and actions are taken. This system has improved communication between employees and HR and has allowed improved transparency in reporting.

Discrimination and Harassment Policies and Procedures
HCCS is committed to providing a charter school free of discrimination, harassment, and retaliation. There are three components to this commitment. All employees receive and sign an employee handbook annually that informs them of HCCS's sexual harassment policy. Additional site-based sexual harassment training is taught to all staff, and annual training is facilitated through "Safe Schools," an online program.

HCCS is also committed to providing a workplace free of discrimination, harassment, and retaliation based upon the real or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, immigration status, nationality, national origin, ancestry, ethnic group identification, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or based on a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance, or regulation.

HCCS uses policies adopted by the Board regarding discrimination and harassment (including employee-to-employee, employee-to-student, student-to-employee, and student-to-student misconduct). Misconduct of this nature is very serious and will be addressed in accordance with Board policies. Any complaint of unlawful harassment, discrimination, or sexual harassment is actively investigated by HCCS, to include, where appropriate, the retention of outside investigators, in accordance with the Charter School's Uniform Complaint Procedure.

A copy of the policy shall be provided as part of any orientation program conducted for new and continuing pupils at the beginning of each quarter, semester, or summer session, as applicable, and to each faculty member, all members of the administrative staff, and all members of the support staff at the beginning of the first quarter or semester of the school year, or at the time that there is a new employee hired. The Charter School shall create a poster that notifies students of the applicable policy on sexual harassment in accordance with Education Code Section 231.6 and shall prominently and conspicuously

display the poster in each bathroom and locker at the schoolsite and in public areas at the schoolsite that are accessible to, and commonly frequented by, pupils.

School Facility Safety
Highlands Community Charter School complies with Education Code 47610 by either utilizing facilities that are compliant with the Field Act or facilities that are compliant with the California Building Standards Code. HCCS adheres to laws specific to charter schools on the local and state levels regarding facilities. HCCS agrees to test sprinkler systems, fire extinguishers, and fire alarms annually at its facilities to ensure that they are maintained in an operable condition at all times.

Bullying Prevention
The Charter School shall adopt procedures for preventing acts of bullying, including cyberbullying. The Charter School shall annually make available the online training module developed by the CDE pursuant to Education Code Section 32283.5(a) to certificated school site employees and all other school site employees who have regular interaction with children.

Supporting LGBTQ Students
Through the completion of the 2029-30 school year, the charter school shall use an online training delivery platform and curriculum at least one hour of required LGBTQ cultural competency training annually to teachers and other certificated employees and maintain records of such training as required by Education Code Section 218.

SAFETY Act
Pursuant to AB 1955 (2024), employees of the Charter School shall not be required to disclose any information related to a pupil's LGBTQ+ identity to any other person without the pupil's consent unless otherwise required by state or federal law. This provision shall not limit a parent's ability to request school records on behalf of their child.

Homicide Threats
The Charter School shall comply with all requirements under Education Code Sections 49390-49395 regarding mandatory reporting in response to homicidal threats. All employees and Board members who are alerted to or who observe any threat or perceived threat in writing or through an action or a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity shall make a report to law enforcement.

Gun Safety Notice
The Charter School shall comply with requirements of Ed. Code § 49392 to annually provide information about the safe storage of fire arms. Annually at the beginning of the first semester, the Charter School shall distribute a notice to each student addressing California's child gun access prevention laws and laws related to firearm safety, utilizing the most updated model language published by the California Department of Education.

Athletic Programs
The Charter School shall comply with all applicable laws related to health and safety policies and procedures surrounding athletic programs at charter schools, including but not limited to providing information to athletes regarding sudden cardiac arrest and annually providing each athlete with an Opioid Factsheet for Patients.

Transportation Services
The Charter School shall comply with the requirements of EC § 39837, if applicable, relating to background checks, testing, and other requirements for individuals and entities providing transportation services to students.

Extreme Weather Policy
On or before July 1, 2026, the Charter School will develop, adopt, and implement a weather policy that includes protocols for extreme weather conditions, and incorporate the standardized guidelines developed by the CDE.

Title IX
HCCS complies with Education Code Section 221.61 by posting in a prominent and conspicuous location on its website the following information related to the federal regulations implementing Title IX of the Education Amendments of 1972:

The name and contact information of the Charter School's Title IX Coordinator, including the Title IX Coordinator's phone number and email address.

The rights of the pupil and the public and the responsibilities of the Charter School, which includes, but is not limited to, internet web links to information about those rights and responsibilities located on the website of the Office for Equal Opportunity and the U.S. Department of Education Office of Civil Rights (OCR), and the list of rights specified in Education Code Section 221.8.

A description of how to file a complaint under Title IX, which shall include all of the following:

A. An explanation of the statute of limitations within which a complaint must be filed after an alleged incident of discrimination has occurred, and how a complaint may be filed beyond the statute of limitations.
B. An explanation of how the complaint will be investigated and how the complainant may further pursue the complaint, including, but not limited to, web links to this information on the U.S. Department of Education OCR website.
C. A link to the U.S. Department of Education OCR complaint form, and the contact information for the office, including the phone number and email address for the office.

Element G Balanced Enrollment

"The means by which the charter school will achieve a balance of racial and ethnic pupils, special education pupils, and English learner pupils, including redesignated fluent English proficient pupils, as defined by evaluation rubrics in Section 52064.5, that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted." (Ed. Code § 47605(c)(5)(G).)

Achieving and Maintaining Student Population Balance Plan & Goal

Highlands Community Charter School strives, through recruitment and admissions practices, to achieve a racial and ethnic, special education, and English Learner balance among its students that is reflective of the general population residing within the territorial jurisdiction that it serves. HCCS will include an open enrollment policy. Students are considered for admission to the school without regard to ethnicity, national origin, gender, gender expression, gender identity, disability, sexual orientation or any of the characteristics listed in Education Code Section 220. (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics).

HCCS will implement a coordinated advertising and recruitment strategy to ensure that all students are informed of the educational opportunities available. These efforts will be ongoing throughout the year and will be designed to reach a broad and diverse audience. In alignment with HCCS's commitment to serving students from all ethnic and cultural backgrounds, a variety of advertising methods will be employed to promote equitable access and inclusive outreach.

The primary method utilized to recruit students with various backgrounds is collaboration with our community partners. Each partner serves a unique population that would benefit by having access to a high school educational pathway for its adults. Collaboratively with our partners, we communicate with their communities about the Charter School, the services offered, and how they would benefit by enrolling and earning their high school diploma.

Another method we utilize is by utilizing the United States Postal Service's (USPS) Every Door Direct Mail (EDDM) service. Organizations that utilize this service are able to send via USPS mass mailers to all homes within a postal route in a chosen zip code. Prior to selecting zip codes and postal routes, Charter School administrative staff review the demographic data within EDDM's search tool. The tool provides all of the following data on the postal route: number of residences, number of businesses, percentage of the population that is aged 25-34, average household size, and average household income. Charter School administrative staff can also review data from the United States Census Bureau (USCB), which provides zip-code-level data on estimated population by age, race, ethnicity, school enrollment, languages spoken at home, employment status, employment industries, and poverty status. Data from EDDM and USCB can be used to select target zip codes for the EDDM service. Post cards and/or fliers describing Charter School requirements and services are sent to select zip codes.

Each year, HCCS analyzes enrollment trends in order to optimize efforts to recruit and retain students. An informal designated committee, composed of various stakeholders from the instructional, administrative, and operational sides of the school, meets regularly to discuss a problem-solving plan. Using both quantitative and qualitative feedback from the previous year, the plan allows the team to work together to clearly identify enrollment trends and their root causes, determine potential solutions, and generate strategies to successfully implement and track solutions in the upcoming year. Some of the valuable sources of data for this exercise come from student satisfaction surveys and non-mandatory exit interviews through which feedback is gathered.

Marketing: Advertising and Sponsorship to Increase Student Enrollment

Board Policy 1325, adopted in the 2024-2025 school year, establishes clear guidelines for how HCCTS may allocate funds for advertising, particularly as a strategy to increase student enrollment. All advertising expenditures must align with the school's mission and strategic goals and demonstrate a meaningful return on investment. Advertising is intended to raise awareness of HCCTS programs, highlight the benefits of enrollment, and promote the school's values to prospective students in the broader community.

Advertising campaigns must be pre-approved and fit within an annually reviewed budget that may not exceed 1% of the overall school budget without Board approval. Approval levels for advertising expenditures are tiered by amount, with campaigns over $100,000 requiring direct Board authorization.

Advertising efforts must clearly communicate the educational opportunities HCCTS offers—including adult high school diplomas, career preparation, and hands-on skill development—and use platforms that are cost-effective and aligned with the school's target audiences. All advertising must also comply with legal and ethical standards and adhere to brand identity guidelines to build recognition and trust within the community.

Additionally, advertising effectiveness is monitored and reviewed annually to ensure alignment with HCCTS's enrollment and engagement objectives, with quarterly reporting to the Executive Director and an annual summary to the Board. For more information about the Board Policy 1325, see the appendix.

Element H Admissions Policies and Procedures

"Admission policies and procedures, consistent with [Education Code Section 47605] subdivision." (e). (Ed. Code § 47605(c)(5)(H).)

Assurances

Highlands Community Charter School shall:

- Be nonsectarian in all programs, admission policies, employment practices, and operations; not charge tuition; and not discriminate against any pupil on the basis of disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any characteristic listed in Penal Code § 422.55.
- Admit all pupils who wish to attend to the extent that space allows; admission shall not be determined by place of residence except as otherwise required by law; and, if applications exceed capacity, offers of admission shall be made by public random drawing (lottery) consistent with Ed. Code § 47605(d)(2).
- **Apply any enrollment preferences** only as permitted by law and as stated in the charter; **preferences will not require mandatory parent volunteer hours** as a condition of admission (Ed. Code §47605(e)(2)(B)(iv)) and **shall not limit access** for pupils protected by Ed. Code §47605(e)(2)(B)(iii).
- Preferences, if given, shall not result in limiting enrollment access for pupils based on nationality, race, ethnicity, or sexual orientation; and shall not result in limiting enrollment access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or economically disadvantaged pupils, or foster youth. (Education Code § 47605(e)(2)(B)(iii)).
- Not discourage enrollment in the charter school or encourage disenrollment/ transfer of a student from the charter school, for any reason, including but not limited to academic performance or any characteristics of the student listed under Education Code §47605(e)(2)(B)(iii).
- Not request or require submission of a student's IEP, Section 504 plan, or other records prior to admission, participation in any lottery, any pre-enrollment event, or as a condition of enrollment; HCCS may request only the information necessary to apply any admissions preferences stated in the charter.

Admission and Enrollment Requirements

HCCA shall be nonsectarian in its programs, admission policies, and all other operations. HCCS will not discriminate on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code, or association with an individual who has any of the aforementioned characteristics [Ed. Code § 47605(e)(1)]. HCCS shall comply with all applicable laws governing minimum age requirements for registration in charter schools. HCCS shall not use any test, assessment, or interview to determine a student's eligibility for

admission. However, following registration, all students may be administered diagnostic assessments, dubbed "placement tests," solely for the purpose of determining appropriate instructional placement. These assessments are used to inform grade-level placement and have no bearing on a student's eligibility for admission. In accordance with Education Code § 47605(e)(4) HCCS will make available the CDE Complaint Notice and Form available during the application process and during the enrollment process, prior to the finalization of enrollment. This form will also be posted on the Charter School website.

HCCS admits all students who meet the following criteria:

- Demonstrate a desire to enroll in the academic program
- Fall within the categories the school is legally authorized to serve
- Meet the eligibility requirement of being age 22 or older under the exclusive WIOA agreement
- Students do not have a U.S. high school diploma
- Submit a timely application

Required Documents

- Proof of Identification
- Proof of California Address (may be covered by proof of identification)
- HCCS Online Registration, which includes but not limited to the following:
    - Emergency Consent and Contact Information
    - National School Lunch Program Form (NSLP)
    - Home Language Survey
- CalJOBS Registration (Any forms required by a WIOA partner

Enrollment Period

Initial applications are accepted at any time during the school year. The HCCS admission process consists of the completion of an online student application form. The admission process also includes students to participate in orientation, grade level placement, and academic planning.

The nature of adult education and the diversity of backgrounds served by HCCS mean that differentiation and scaffolding to ensure that all students are able to participate throughout the year. Students who are admitted after the school year begins will join the classes in progress. Teachers assess the students' content knowledge to determine an integration plan. Students who need additional knowledge to catch up to the class are provided additional support and scaffolding from their teachers. These students also receive support from paraeducators, reading specialists and literacy specialists.

Education Exclusively in Partnership with the Workforce Investment Opportunity Act (WIOA)

Per Ed. Code §§ 47612.1 and 47605.1(f)(1), HCCS provides instruction exclusively in partnership with the Workforce Investment Opportunity Act of 1998 through its partnership agreement with the Sacramento Employment and Training Agency (SETA) or other WIOA organization. As such, HCCS only legally serves students who are receiving WIOA-funded services and does so under the terms of a Partnership Agreement. HCCS will provide a copy of the Partnership Agreement to the District on or before July 1, 2019.

The SETA or other WIOA service provider will provide HCCS students with the services specifically outlined in and attached hereto under "Tab 9—Workforce Agreements." HCCS will provide the District

with documentation that confirms SETA or other WIOA service provider is qualified and authorized to provide such services contemplated in the Partnership Agreement.

Not Possessing a U.S. High School Diploma
Students who have a U.S. high school diploma (also known as a "regular high school diploma") will not be admitted to Highlands Community Charter School. Students who possess a GED, CHSPE, foreign credential, or any other alternative degree that is not fully aligned with the academic standards of the State of California may be admitted.

HCCS Proposed Lottery Process
If the number of applications exceeds the enrollment capacity, admission will be determined by a random lottery process. HCCS will conduct a public random drawing facilitated by PowerSchool Enrollment School Choice, a third-party platform. The drawing will take place in a public setting at our Howe Campus located at 1111 Howe Avenue, Sacramento, CA 95825. The lottery will be held up to two weeks before the start of the school year. Notice of the random drawing will be provided through written postings at the HCCS Howe location and on the Highlands Community Charter School official website.

The following enrollment preferences will apply in the event of a public random drawing:

1. All students currently enrolled in HCCS
2. Non-youth residents of TRUSD; as defined by WIOA as those 22 years of age or older
3. All other residents of TRUSD
4. All other applicants

The lottery is open to the public, and prospective students are encouraged to attend; however, they are not required to be present at the time of the drawing to be eligible for admission. Results will be communicated immediately after the lottery through a mass SMS notification.

The lottery will be conducted using student numbers assigned to each prospective student. As numbers are drawn, they will be displayed for everyone in attendance to see. Once all available seats for a specific grade level, site, and schedule preference (regular daytime or evening) have been filled, the designated staff member will announce that any additional students drawn will be placed on the waitlist. Students will be added to the waitlist for that grade level, site, and schedule preference (regular daytime or evening) in the order their numbers are drawn.

Waiting List Priorities
A waiting list will be implemented when the number of applications exceeds the enrollment capacity for a specific grade level, site, and schedule preference (regular daytime or evening). In the event of a lottery, admission will be offered to prospective students based on lottery results until capacity is reached. Once capacity is met, all remaining names drawn will be placed on a waiting list in the order they were selected.

New applicants who register after the lottery deadline will be offered a seat if space is available in their grade level, site, and schedule preference (regular daytime or evening), or they will be added to the

waiting list in the order the application was received. As seats become available, they will be offered to students starting with the lowest numerical ranking on the waiting list.

Notifying Students of a Seat Offering
Once a seat becomes available for an applicant who has the lowest numerical ranking on the waiting list, the student will be contacted by the Registration department to confirm their seat. Any admitted students who decline an offered seat or who fail to confirm by the deadline will lose their position to the next applicant on the waiting list. The waiting list is kept on file at the school and is valid for the duration of the school year.

Documenting the Fair Execution of Lottery and Waitlist Procedures
Copies of lottery results and waiting list(s) are readily available for inspection at the school office. These records will be maintained by the Registration department.

Communicating to All Interested Parties
Applications are available digitally online on the HCCS website. HCCS advertises the open application period to the surrounding communities and also communicates the timeline, rules, and procedures for the lottery process if necessary. Typical methods for these communications include, but are not limited to, web advertising, newspaper and magazine ads, radio ads, home mailers, and flyers.

Element I Annual Financial Audits

"The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority." (Ed. Code § 47605(c)(5)(I).)

Annual Audit Procedures

Contracting with an Independent Auditor

Highlands Community Charter School (HCCS) conducts an annual independent fiscal audit in compliance with Education Code Sections 47605(c)(5)(I) and 47605(m). All financial records are maintained in accordance with Generally Accepted Accounting Principles (GAAP), and audits are conducted in accordance with generally accepted auditing standards and the State Controller's K–12 Audit Guide.

In the 2024–2025 school year, the HCCS Board of Directors adopted Board Policy 3581 – Data Retention and Record Management, which provides a comprehensive framework for the classification, retention, and secure disposal of records by staff, contractors, and affiliates. The policy applies to all administrative, financial, personnel, student, and instructional records, including communications in paper, digital, audio, or video format. This policy ensures that all audit-related documentation is properly maintained and readily accessible. For additional details, refer to the appendix entry for BP 3581.

Audit Timeline Overview

In alignment with Board Policy 3100 – Budget Development and Oversight, audit procedures are embedded in the school's annual budget cycle and financial governance structure. Each spring, the Executive Director and Chief Business Official (CBO) recommend an independent auditor for approval by the Board of Directors. Following the close of the fiscal year, the CBO finalizes and closes the books, compiles the necessary financial documentation, and coordinates with the independent auditor to conduct the audit.

Upon completion, the auditor prepares a report, which is formally presented to the Board of Directors. The Executive Director and CBO review any audit findings or exceptions and coordinate the necessary corrective actions. In accordance with statutory deadlines, the finalized audit report is submitted to the charter authorizer (Twin Rivers Unified School District), the Sacramento County Superintendent of Schools, the State Controller's Office, and the California Department of Education (CDE) by December 15 of each year. For additional detail, see appendix reference BP 3100.

Audit Completion Timeline

The audit is expected to be finalized within six months of the fiscal year's end. The Board of Directors formally reviews each year's audit findings and takes appropriate action to ensure full compliance with state and federal requirements.

Selection Criteria for Independent Auditors
The selected auditor must be a Certified Public Accountant (CPA) with experience in public school and charter school finance and must be listed as an approved audit provider by the State Controller. HCCS is solely responsible for all associated audit costs. Where applicable, the audit scope will include federal compliance elements outlined in Office of Management and Budget (OMB) Circulars and related federal guidelines.

Resolution of Audit Findings
Any audit exceptions or deficiencies are first reviewed by the HCCS Audit Committee, which provides formal recommendations to the Board of Directors. The Board submits a written report to the charter authorizer describing how identified findings have been addressed, along with supporting documentation. In cases where findings remain unresolved at the time of submission, the report includes a corrective action plan and projected timeline for resolution. HCCS aims to address all audit findings within six months. Disputes regarding the resolution of audit findings will follow the dispute resolution procedures set forth in this charter.

Audit Committee Review & Board Action
The HCCS Audit Committee reviews the CAP and forwards recommendations to the Board of Directors for approval. The CAP remains on the Board's agenda for status reporting each meeting until all items are closed.

Authorizer Notification & Documentation
Within 30 days of Board acceptance, HCCS submits to the charter authorizer a written report describing how each finding has been addressed or will be addressed, with supporting documentation. If any item is not yet resolved, the submission includes the Board-approved CAP and projected completion dates.

Timelines & Monitoring
HCCS aims to fully resolve audit findings within six months of audit issuance. Progress is monitored against milestones; if delays arise, management provides revised timelines and interim controls to the Audit Committee and Board.

Material Weaknesses/Significant Deficiencies
Any material weakness or significant deficiency triggers immediate Board notification, expedited remediation steps, and—if warranted—the engagement of external advisors to strengthen internal controls.

Public Access and Appeals
Audit reports are public records and will be made available upon request. Any audit appeals or requests for summary review will be submitted to the Education Audit Appeals Panel (EAAP) in accordance with applicable law.

Element J Suspension and Expulsion Procedures

"The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that are consistent with all of the following:
For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil's side of the story.
For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:
(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.
(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.
(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five school days before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a homeless child or youth, or a foster child or youth, in the native language of the homeless or foster child's educational rights holder. In the case of a foster child or youth, the written notice shall also be provided to the foster child's attorney and county social worker. If the pupil is an Indian child, as defined in Section 224.1 of the Welfare and Institutions Code, the written notice shall also be provided to the Indian child's tribal social worker and, if applicable, county social worker. The written notice shall inform the pupil, the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker. The written notice shall inform the pupil, the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, or county social worker, or the Indian child's tribal social worker or, if applicable, county social worker initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).
(iv) A foster child's educational rights holder, attorney, and county social worker and an Indian child's tribal social worker and, if applicable, county social worker shall have the same rights a parent or guardian of a child has to receive a suspension notice, expulsion notice, manifestation

determination notice, involuntary transfer notice, and other documents and related information." Education Code Section 47605(c)(5)(J).

School Climate and Student Discipline System

Highlands Community Charter and Technical Schools (HCCTS) has adopted 5144.1 Suspension and Expulsion Board Policy to promote student learning and ensure campus safety. The policy is closely aligned with California Education Code Section 48900 et seq. and is reviewed annually for updates. Disciplinary actions, including suspension, expulsion, or involuntary removal, are applied fairly and consistently and are clearly outlined in the Student Handbook. Students and families receive written notice of these policies upon enrollment. The policy prohibits corporal punishment and outlines due process protections for all students, including those with disabilities or Section 504 plans. Involuntary removal requires written notice in the student's native language and an opportunity for a hearing. Students remain enrolled during the hearing process unless suspended or expelled for misconduct. For more information about Board Policy 5144.1, see the appendix.

HCCS Discipline Philosophy

Highlands Community Charter School prides itself on meeting student needs and developing action plans to address extenuating circumstances as they arise, recognizing that many students come to the organization due to hardships that have prevented the fulfillment of their educational goals. By addressing the needs of each student directly, barriers to student success are removed.

Should a disciplinary action be required, Student Success Team meetings (SSTs) and 504 plan meetings (when applicable) are organized to review individual extenuating circumstances. Counselors, teachers, directors, and other assigned personnel assist with addressing student needs by creating an action plan for both the staff and the student.

School-Wide Positive Behavior Intervention and Support

The Student Success Team (SST) is a problem solving and coordinating structure that assists students, teachers, staff, and community partners to develop positive solutions for maximizing student potential. It provides an opportunity for school staff, the adult student, community agencies, and other important people to present their concerns about an individual student. The SST focuses in-depth on one student at a time, and invites the adult student to participate in finding solutions. Through discussion and study, they plan a positive course of action and assign responsibilities, as well as monitor the results of a student. This process informs individual actions for students, including referral to the formal SST process and class-wide actions to address issues such as use of class resources, behavior management, and classroom modifications.

The following is implemented during the time of behavioral intervention:

- Asset Based Delivery: The SST always starts with a discussion of a student's strengths/assets and develops solutions that build on these strengths
- Problem Solving: The SST gathers background information regarding the student in the areas of school, home, family, health, and collaboratively brainstorms solutions to address areas of concern.

- Service Coordination: An action plan is developed for interventions and supports are implemented designed to address the students' needs; team members are assigned responsibilities for action items.
- Monitor Results: Actions items are monitored and a follow up SST meeting is scheduled to review the results/outcomes of interventions, make adjustments and continue to strategize positive solutions to ensure student success.

The coordination of school, home and community interventions improve student learning, and provide focused, positive support to teachers, students and staff. An SST can help students who are facing significant concerns relating to:

- Academics
- Attendance problems
- Behavioral/emotional issues
- Consideration for 504 services
- Retention
- Health issues (including substance abuse)
- Social adjustment

Tiered Behavior Intervention

Members of a Student Support Team:

- The Adult Student is always invited to participate in the decisions of their own education and goal setting.
- Designated administrator
- Classroom teacher(s)
- Resource personnel or specialists, such as community outreach consults, social workers, probation officers, community resources representatives, or mental health consultant
- Others invited as appropriate

All SST team members are active contributors, and the process defines special roles that some members of the team must fill to achieve the greatest positive outcome. Team members may change roles from one SST meeting to the next. However, during any meeting each team member's role is clearly defined before the meeting begins and then maintained throughout that meeting.

Facilitator

This person facilitates the working of the team and is the SST coordinator/leader. The success of the team depends largely on this person, who guides the flow of the meeting, and coordinates logistics before and after the meeting.

The facilitator directs but does not dominate the SST meetings, eliciting the most helpful contributions of the group and, most important, keeping a positive tone at the meeting.

The facilitator directs the process with respect for all members and accommodates the needs of the group. The facilitator reassures and supports the efforts of colleagues and students.

Recorder

The recorder is responsible for documenting the SST meeting discussion, including students' strengths, concerns, interventions, action items and results. The recorder does this by using the Student Success Plan form or the Student Success Plan Follow-up Form.

Team Member

An effective team member is a positive contributor to the work of the team. The team members participate but do not control the flow of the meeting. Members come prepared with information about the student. Contributions that address difficult problem areas are positive, looking at constructive solutions, rather than characterizing, blaming, or stereotyping. Interventions are linked to the student's strengths.

The Adult Student as a Team Member

The Adult student is a full-fledged member of the SST, and they are always included. At the SST the student can share his/her perspective and concerns, contribute critical problem-related information from home, and share effective and ineffective home interventions. Many times, the adult student can clarify questions for the team and participate in the implementation of strategies developed by the whole team.

Outreach to Students

When connecting with students, care must be taken to ensure the most positive experience possible. Reaching out to and engaging the student is a key element in making the SST process successful. This effort involves much more than sending a written notice of a meeting or making a simple phone call. It involves extending oneself as a representative of the school and serving as a bridge for the student to the classroom and the larger school environment.

Adult students often resist this engagement. The barriers they present to any involvement may mask deeper fears or concerns. Being a student with school or social concerns can cause the student to have feelings of defensiveness or guilt. Many students may feel they will be unfairly attacked or made to feel worse than they already do in an SST meeting. They may have had former experiences with school meetings that were not successful, or they were not kept well informed, and they may be reluctant to trust another meeting at school.

Adult students may also have time, work, child care, or transportation issues barring their way to participating in the meeting. The SST process must include support to students to accommodate these very real issues. Any support provided has both symbolic and concrete meaning to students and contributes to the success of the meeting for both students and team members.

The person performing the outreach/engagement role must be sensitive to these issues. Information about the purpose of the meeting must be presented with an emphasis on the shared concerns and responsibilities. An explanation of the SST process must be provided, emphasizing that the process is a collaborative strategy that builds upon the student's strengths to attain the highest degree of success for the student. The student must also be given an opportunity to ask any questions or share any concerns s/he may have with the upcoming meeting.

Adult students may also have time, work, child care, or transportation issues barring their way to participating in the meeting. The SST process must include support to students to accommodate

these very real issues. Any support provided has both symbolic and concrete meaning to students and contributes to the success of the meeting for both students and team members.

Restorative Justice Practices
Student Success Team Follow-up Practices: The action plan created at the SST meeting is only as good as the follow-up practices that ensure its implementation.

Case Management
It is very important to clearly define on the Student Success Plan who is responsible for each "action item" and to designate the administrator in charge of monitoring the implementation of the plan. This creates an accountability system that is monitored and reviewed when the team comes together again for the Follow-up SST meeting(s).

Case manager tasks may include:
- meeting with the student and with the teacher regarding the action plan
- making phone calls and/or sending reminder notes to team members regarding action items,
- and/or helping students and their families follow through with referrals to on-site and community-based services.

Feedback to the Referral Source
The administrator, or a designated member, provides the referral source with feedback in a timely manner after the initial SST meeting. Even when the referral source is unable to attend the SST meeting, it is beneficial to involve them in some ownership of the plan, particularly classroom strategies, modifications and adaptations.

Student/Family Support
Working with students to be a part of the plan and to undertake actions on their own behalf is an important part of the follow-up. The student has to feel that s/he has some control over their own goals and plans, and that school staff are their allies, rather than the ones who have all the control. During the SST meeting the student is an equal partner in developing the action plan. The assigned administrator or another staff member who has a relationship with the student may want to check in with the student periodically to offer support toward implementing action items.

Ongoing monitoring of student progress
At the end of every initial SST, a follow-up SST meeting date is set, preferably within 4-6 weeks. At the follow-up SST meeting action items are reviewed and student progress is discussed. The follow-up SST meeting is documented on the Student Success Plan Follow-up Form. The action plan may need to be modified and additional interventions added depending on student progress.

Communicating, Teaching, and Modeling: Suspension Alternatives through Professional Development
Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. HCCS staff are trained and annually review de-escalation strategies for students in crises. These strategies focus on developing relationships with students, identifying and avoiding, when possible, triggers for

undesirable behavior, and stabilize students who have been triggered safely through the use of de-escalation techniques.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians[3], detention during and after school hours, community service, use of alternative educational environments, suspension, expulsion, and involuntary removal.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this Pupil Suspension and Expulsion Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom HCCS has a basis of knowledge of a suspected disability pursuant to the IDEIA or who is qualified for services under Section 504 is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to regular education students except when federal and state law mandates additional or different procedures. HCCS will follow all applicable federal and state laws when imposing any form of discipline on a student identified as an individual with disabilities or for whom HCCS has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students and shall notify the District of the same.

No student shall be involuntarily removed by the Charter School for any reason unless the student has been provided written notice of intent to remove the student no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the student, and shall inform him or her of the right to initiate the procedures specified below for suspensions, before the effective date of the action. If the student initiates the procedures specified below for suspensions, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision.

As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the suspension and expulsion procedures described below.

In-School Suspension

Authorization and Implementation of In-School Suspensions

HCCS offers in-school suspension as a means of reducing time missed from learning for behavioral issues. Should the need for in-school suspension arise due to a violation of student conduct violations, as

[3] The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term "parent/guardian" shall include these parties.

defined by the Highlands Community Charter School Student Handbook, in-school suspension will be served through the enrollment of and attendance in the Highlands Community Charter School Alternative Education/Independent Study Program. An assigned advisor will work with the student to arrange a schedule for the student to engage in credit recovery and after-school tutoring as needed to ensure she is able to keep up with his/her school work while on suspension. Grounds for in-school suspension shall not exceed grounds for expulsion as defined by the Student Expulsion policy. Notification procedures and the maximum number of days for in-school suspension per incident as well as academic year are the same as out-of-school suspensions.

To ensure that HCCS adequately provide safety for students, staff, and visitors to the school and serve the best interests of students, in-school suspension will not be offered to any student who:

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence,
- Engaged in harassment, threats, or intimidation against a pupil or group of pupils or school district personnel, or
- Made terrorist threats against school officials or school property, or both.

Grounds For Suspension and Expulsion

Scope of Disciplinary Jurisdiction

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at any time, including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

Suspension Offenses

Discretionary Suspension Offenses

Students may be suspended for any of the following acts when it is determined the student:

A. Caused, attempted to cause, or threatened to cause physical injury to another person.
B. Willfully used force of violence upon the person of another, except self-defense.
C. Unlawfully possessed, used, or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind.
D. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage, or intoxicant.
E. Committed or attempted to commit robbery or extortion.
F. Caused or attempted to cause damage to school property or private property, which incudes but is not limited to, electronic files and databases.
G. Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases.
H. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew

packets and betel. This section does not prohibit the use of his or her own prescription products by a student.

I. Committed an obscene act or engaged in habitual profanity or vulgarity.
J. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.
K. Knowingly received stolen school property or private property, which includes but is not limited to, electronic files and databases.
L. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
M. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
N. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
O. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, "hazing" means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. For purposes of this section, "hazing" does not include athletic events or school-sanctioned events.
P. Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family's safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family. Students may be also recommended for expulsion for conduct described in this provision.
Q. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.
R. Caused, attempted to cause, threaten to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.
S. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students, in a sufficiently severe or pervasive nature, to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial

disorder and invading student rights by creating an intimidating or hostile educational environment. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

T. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act (defined as the transmission of a communication, including, but not limited to, a message, text, sound, or image, or a post on a social network internet website, or an act of cyber sexual bullying, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager) directed specifically toward a student or school personnel.
    1. "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including acts one or more acts committed by a student or group of students which would be deemed sexual harassment, hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
        i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
        ii. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
        iii. Causing a reasonable student to experience substantial interference with his or her academic performance.
        iv. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
    2. "Electronic Act" means the creation or transmission originated on or off the school site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
        i. A message, text, sound, video or image.
        ii. A post on a social network internet website including, but not limited to:
            a. Posting to or creating a burn page. A "burn page" means an internet website created for the purpose of having one or more of the effects as listed in subparagraph (1) above.
            b. Creating a credible impersonation of another actual student for the purpose of having one or more of the effects listed in subparagraph (1) above. "credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.
            c. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious student or a profile using the likeness of attributes of an actual student other than the student who created the false profile.

iii. An act of cyber bullying.
   a. For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
   b. For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3. Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

U. A student who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a student who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (A) and (B).
V. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Instruction & Professional Learning (or assigned designee's) concurrence.
W. Cheated on school classwork or otherwise has acted in an unethical manner as determined by the Administration based upon school policies and guidelines.

Non-Discretionary Suspension Offenses/Non-Discretionary Expulsion Offenses
Students must be suspended and recommended for expulsion for any of the following acts when it is determined the student:

A. Possessed, sold, or otherwise furnished any firearm, explosive, or other destructive device unless, in the case of possession of any device of this type, the students had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Instruction & Professional Learning (or assigned designee's) concurrence.
B. Brandished a knife at another person
C. Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053, et seq.
D. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 or former Section 288a of the Penal Code, or committed a sexual battery as defined in Penal Code Section 243.4.

Expulsion Offenses

Mandatory Recommendation for Expulsion

Students must be expelled for any of the following acts when it is determined pursuant to the procedures below that the student:

A. Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the students had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Instruction & Professional Learning (or assigned designee's) concurrence. Possession of an imitation firearm is not an offense for which suspension or expulsion is mandatory.
B. Brandished a knife at another person.
C. Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053-11058.
D. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 or former Section 288a of the Penal Code, or committed a sexual battery as defined by Penal Code Section 243.4.
E. Possession of an explosive.

If it is determined by the Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the student shall be provided due process rights of notice and a hearing as required in this policy.

The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.

The term "destructive device" means (A) any explosive, incendiary, or poison gas, including but not limited to: (i) bomb, (ii) grenade, (iii) rocket having a propellant charge of more than four ounces, (iv) missile having an explosive or incendiary charge of more than one-quarter ounce, (v) mine, or (vi) device similar to any of the devices described in the preceding clauses.
A decision to expel a pupil shall be based on a finding that other means of correction are not feasible or have repeatedly failed to bring about proper conduct, or that due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

Discretionary Recommendation for Expulsion

Students shall be recommended for expulsion, unless the Executive Director or the Executive Director's designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the following acts:

A. Causing serious physical injury to another person, except in self-defense.
B. Possession of any knife or other dangerous object of no reasonable use to the pupil.
C. Unlawfully possessing any controlled substance, as defined in Health and Safety Code Sections 11053-11058 except for either the first offense of possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis, or the possession of over-the-counter

medication for use by the pupil for medical purposes or medication prescribed for the pupil be a physician.

D. Robbery or extortion.
E. Assault or battery, as defined in Penal Code Sections 240 and 242, upon any Charter School employee.

Out-Of-School Suspension Procedures

Suspension Authority
HCCS will ensure that the process for investigating incidents and collecting evidence will be fair and thorough before a student is suspended. A student may only be suspended by the Executive Director and/or Chief Academic Officer, or in the case of the Executive Director and Chief Academic Officer's absence or inability to carry out proper suspension procedures, an assigned designee.

Conference
Suspension will be preceded, if possible, by a conference conducted by the Executive Director and/or Chief Academic Officer or an assigned designee with the student and, whenever practical, the teacher, supervisor, or Charter School employee who referred the student to the Executive Director and/or Chief Academic Officer and Instruction or assigned designee.

The conference may be omitted if the Executive Director and/or Director of Instruction & Professional Learning or an assigned designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety, or health of students or charter school personnel. If a student is suspended without this conference, the student will be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student will be informed of the reason for the disciplinary action, including the other means of correction that were attempted before the suspension, and the evidence against him or her, and will be given a meaningful opportunity to present his or her version and evidence in his or her defense. This conference will be held within two school days, unless the student waives this right or is physically unable to attend for any reason, including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure to attend a conference with Charter School officials. Reinstatement of the suspended student shall not be contingent upon attendance by the student at the conference.

Student Notification
Students will have due process rights with regard to suspensions and expulsions. At the time of the suspension, an administrator or designee will make a reasonable effort to contact the student by telephone or in person. Initial contact will be followed by a written notice. This notice will state the specific offense(s) committed by the student. In addition, the notice will also state the date and time the student may return to school.

Maximum Suspension
The length of the suspension will be determined by the Executive Director and/or the Chief Academic Officer or an assigned designee based on the severity of the offense(s), as evidenced by witness

statements, physical evidence, and other relevant factors. For students with IEPs, the students SST team will consult with the Executive Director and/or the Chief Academic Officer or an assigned designee on additional factors that are relevant to the decision. The length of suspension for students may not exceed a period of 5 consecutive days per suspension. The total number of days for which a student may be suspended from school shall not exceed 20 school days in any school year.

Meaningful Education for Suspended Students
A student on suspension will be provided meaningful access to education during the term of the suspension. An advisor of the suspended student will collect and provide the student with classroom material and current assignments to be completed at home during the length of the suspension. Missed tests will also be coordinated to be completed either at home or upon return. Written notification listing all required assignments will be given to the student, and all needed materials will be left in the front office.

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

Suspension Pending the Outcome of an Expulsion Process
Upon a recommendation of expulsion by the Executive Director and/or the Chief Academic Officer or the Administrative Panel, the student or representative will be invited to a conference to determine if the suspension for the student should be extended pending an expulsion hearing. This determination will be made by the Executive Director and/or the Chief Academic Officer or the Administrative Panel upon either of the following: 1) the student's presence will be disruptive to the education process; or 2) the student poses a threat or danger to others or property. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing. The maximum number of days a student may be suspended is thirty days (30) unless the expulsion hearing is postponed for good cause, in which case the suspension could be extended further. Procedures for providing a student on suspension with meaningful access to education during the term of the suspension pending the outcome of an expulsion process is outlined above in the section titled, "In School Suspension."

<u>Expulsion Procedures</u>

Rules and Procedures for Student Expulsion
Prior to making an expulsion recommendation, students will be provided adequate notice of the reason for disciplinary actions and a meaningful opportunity to be heard by invitation to a conference to determine if the student should be placed on suspension or if an existing suspension for the student

should be extended pending an expulsion hearing. This determination will be made by the Executive Director and/or Director of Instruction & Professional Learning (or assigned designee) upon either of the following findings:

- The student's presence will likely be disruptive to the educational process
- The student poses a threat or danger to others or property.

Upon this determination, the student placed on suspension or will have his/her suspension extended pending the results of an expulsion hearing.

Students will be recommended for expulsion if at least one of the following findings may be substantiated:

- Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
- Due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Authority to Expel
As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law. A student may be expelled either by the HCCS Board following a hearing before it or by the HCCS Board upon the recommendation of the Executive Director and/or the Director of Instruction & Professional Learning, or a neutral and impartial Administrative Panel may be assigned by the Board as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the student nor a Board member of the Charter School's governing board. The Executive Director and/or the Director of Instruction & Professional Learning or the Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the HCCS Board of Directors shall make the final determination.

Expulsion Procedures
Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing will be held within thirty (30) school days after the Executive Director and/or the Director of Instruction & Professional Learning or an Administrative Panel or designee determines that the student has committed an expellable offense.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision on whether to expel. The hearing shall be held in closed session (complying with all student confidentiality rules under FERPA) unless the student makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing,
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based,
3. A copy of HCCS disciplinary rules which relate to the alleged violation,
4. Notification of the student's obligation to provide information about the student's status at HCCS to any other school district or school to which the student seeks enrollment,
5. The opportunity for the student to appear in person or to employ and be represented by counsel or a non-attorney advisor,
6. The right to inspect and obtain copies of all documents to be used at the hearing,
7. The opportunity to confront and question all witnesses who testify at the hearing, and
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

Reasonable accommodations, including language support for a student whose primary language is other than English will be made available at the hearing, upon request.

Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses
HCCS may, upon finding good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the HCCS Board or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the student.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days' notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time s/he testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. HCCS must also provide the victim with a room separate from the hearing room for the complaining witness's use prior to and during breaks in testimony.
3. At the discretion of the person or panel conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which s/he may leave the hearing room.
4. The person or panel conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness. The person or panel conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours s/he is normally in school, if there is no good cause to take the testimony during other hours.
5. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person or panel conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
6. If one or both support persons are also a witness, HCCS must present evidence that the witness's presence is both desired by the witness and will be helpful to HCCS. The person presiding over

the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom s/he believes is prompting, swaying, or influencing the witness.

7. The testimony of the support person shall be presented before the testimony of the complaining witness, and the complaining witness shall be excluded from the courtroom during that testimony.
8. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
9. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence to be heard. Before such a determination regarding an extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

Record of Hearing
A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

Presentation of Evidence
While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board, Panel, or designee determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The Decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the student shall immediately be returned to his/her educational program.

Written Notice to Expel
The Executive Director and/or the Director of Instruction & Professional Learning or an Administrative Panel, following a decision of the Board to expel, shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student. This notice shall also include the following: (a) Notice of the specific offense committed by the student; and (b) Notice of the student's obligation to inform any new district in which the student seeks to enroll of the student's status with HCCS.

The Executive Director and/or the Director of Instruction & Professional Learning or an Administrative Panel, shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: (a) The student's name; and (b) The specific expellable offense committed by the student.

Disciplinary Records
HCCS shall maintain records of all student suspensions and expulsions at HCCS. Such records shall be made available to the authorizer upon request.

No Right to Appeal
The student shall have no right of appeal from expulsion from HCCS, as the HCCS Board's decision to expel shall be final.

Expelled Students/Alternative Education
HCCS shall ensure that students suspended from HCCS are provided with an appropriate alternative educational program (class work and homework assignments, etc.) during the period of the student's suspension from school. Whenever a student is expelled from HCCS, HCCS shall notify the student and the student in writing of the student's duty to attend the public school district in which the residency of either the parent or legal guardian is located. HCCS shall also notify the public school district in which the residency of either the parent or legal guardian is located whenever a student is expelled from HCCS.

<u>Rehabilitation Plans</u>

Rehabilitation Plans, Criteria, and Expulsion
Students who are expelled from HCCS shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date

not later than one year from the date of expulsion when the student may reapply to HCCS for readmission.

Readmission
The decision to readmit a student or to admit a previously expelled student from another school district or charter school shall be in the sole discretion of the Board following a meeting with the Executive Director or designee and the student and guardian or representative to determine whether the student has completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Executive Director or designee shall make a recommendation to the Board following the meeting regarding his or her determination. The student's readmission is also contingent upon HCCS capacity at the time the student seeks readmission.

Notice to Teachers
The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

Element K Employee Retirement Systems

"The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security." (Ed. Code § 47605(c)(5)(K).)

Certificated, Classified, and Other Staff Members

All full-time certificated employees at Highlands Community Charter School participate in a qualified retirement plan, including, but not limited to, the State Teachers Retirement System (STRS) or the federal Social Security system, based on their eligibility to participate. HCCS teachers participate in STRS. Non-certificated/classified staff participate in a 401A defined contribution plan.

HCCS employees may be eligible to participate in school-sponsored retirement and benefit plans, as outlined in policies adopted by the Board of Directors. In the event that the Internal Revenue Service enacts regulations prohibiting nonprofit entities from participating in publicly funded retirement systems such as the California State Teachers' Retirement System (CalSTRS), employees will instead be enrolled in Social Security and/or an alternative employer-sponsored retirement plan approved by the HCCS Board. Prospective employees are informed of their retirement system options during the application process and advised that employment with HCCS may affect their eligibility for continued participation in a previous retirement system.
The Executive Director is responsible for ensuring appropriate retirement coverage is arranged for all staff. To support recruitment and retention of highly qualified personnel, HCCS offers a competitive compensation and benefits package that reflects market conditions and professional experience.

STRS reporting is conducted in collaboration with Charter Impact, HCCS's contracted fiscal services provider specializing in payroll taxes and CalSTRS compliance. While contributions and deductions are processed through HCCS's internal payroll department, Charter Impact oversees all reporting, auditing, and submission of required documentation to CalSTRS. The HCCS Finance Department performs regular reconciliations to ensure accuracy and alignment with STRS liability reporting cycles.

Element L Public School Attendance Alternatives

"The public school attendance alternatives for students residing within the school district who choose not to attend charter schools." (Ed. Code § 47605(c)(5)(L).)

Informing Students of Public School Attendance Alternatives

No student may be required to attend Highlands Community Charter School. Students who reside within the District who choose not to attend HCCS may attend school according to District policy or at another school district or school within the District in accordance with existing enrollment and transfer policies of their district or county of residence. Each student enrolled in HCCS is informed on admissions forms that the students have no right to admission in a particular school of a local education agency (or program of any local education agency) as a consequence of enrollment in HCCS, except to the extent that such a right is extended by the local education agency. This information is also communicated to students through orientation and registration staff, who are available to answer questions and provide support in multiple languages as needed.

While K-12 attendance alternatives are limited for adult students there are a number of adult education programs that may serve to meet adult students' educational needs.

Sacramento City Unified School District (SCUSD): The Charles A. Jones Career and Education Center offers academic and career training, including ESL, US citizenship classes, and high school completion. It also provides online career training programs in areas like business, health, and computer science, with financial aid available for qualified students.
Twin Rivers Adult School: Offers ESL, adult high school, and career education programs, including those in skilled trades and workforce preparation.
Elk Grove Adult and Community Education: Provides workforce training and other educational opportunities, including paraprofessional certification and support for job seekers.
Natomas Unified School District Adult Education: Provides opportunities for college and career readiness, GED and high school diploma preparation, ESL, and US citizenship classes.
Folsom Cordova Adult School: Located in Rancho Cordova, this is another school within the Capital Adult Education network.
Encina Adult Center: Located in the Arden Arcade area, this center offers a range of academic and career training classes through the San Juan Unified School District.

Element M Rights of District Employees

"The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school." (Ed. Code § 47605(c)(5)(M).)

No public school employee will be required to work at Highlands Community Charter School. Employees of the District who choose to leave the employment of the District to work in the Charter School will have no automatic rights of return to the District after employment by HCCS unless specifically granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District.

All employees of HCCS will be considered the exclusive employees of HCCS and not of Twin Rivers (TRUSD), for the purposes of the Education Employment Relations Act, unless otherwise mutually agreed in writing. Employment by HCCS provides no rights of employment at any other entity, including any rights in the case of closure of HCCS.

HCCS has a board approved Employee Handbook which outlines employee rights as well as employee responsibilities. The Employee Handbook for 2024-2025 is linked in the appendix.

Employee Representation

HCCS shall be deemed the exclusive public school employer of the employees of HCCS for the purposes of the Education Employment Relations Act ("EERA"). HCCS shall comply with the EERA.

HCCS is independent from Twin Rivers Unified School District, and any District employees who choose to work at HCCS shall resign their status as employees of Twin Rivers Unified School District or other school district and all of their rights and benefits thereof. All persons employed by HCCS shall not be deemed to be employees of Twin Rivers Unified School District for any purpose whatsoever. HCCS employees shall have no employment rights of any kind with Twin Rivers Unified School District.

HCCS will develop and maintain an Employee Handbook detailing the rights and responsibilities of all HCCS employees and shall comply with all anti-discrimination and sexual harassment employment laws applicable to public agencies. On or before the first day of operation, and by August 1 of each subsequent year, HCCS shall provide Twin Rivers Unified School District with two (2) copies of the Employee Handbook. HCCS shall annually update and revise the Employee Handbook to reflect changes in the law and/or policies. HCCS shall be solely responsible for the hiring and compensation of HCCS employees, including but not limited to, salary, health benefits, sick leave, vacation, and retirement benefits. Twin Rivers Unified School District shall have no obligation to provide beginning teacher support or assessment to any HCCS teacher or employee.

HCCS will provide all instruction exclusively in partnership with the Greater Sacramento Urban League

(GSUL). Per Education Code, all education provided by HCCS to GSUL will be provided at no cost to the partner or student. The Greater Sacramento Urban League will inform their clients about their ability to participate in HCCS. The Partnership Agreement between HCCS and GSUL will detail the terms required for clients of GSUL to join HCCS.

Element N Mandatory Dispute Resolution

"The procedures to be followed by the charter school and the chartering authority to resolve disputes relating to provisions of the charter." (Ed. Code § 47605(c)(5)(N).)

Written Notification of Mandatory Dispute Resolution

Disputes Arising from within HCCS

It is the intent of Twin Rivers Unified School District (TRUSD) and HCCS that complaints and disputes be resolved quickly and informally in an atmosphere of cooperation whenever possible. If employees are represented by a union, they must first exhaust their internal remedies before filing a grievance.

Complaints regarding the operation of HCCS, which do not involve TRUSD liability or issues of student health or safety, will be forwarded to HCCS for processing according to procedures adopted by HCCS prior to being addressed by TRUSD. HCCS procedures will include reasonably expeditious timelines and a full opportunity for students who are minors directly affected to express their concerns. TRUSD will not address the dispute if HCCS is able to fully resolve the problem unless HCCS requests TRUSD's involvement.

The Charter School shall also maintain a Uniform Complaint Policy and Procedures as required by state law.

Disputes between HCCS and TRUSD

HCCS and TRUSD will always attempt to resolve any disputes amicably and reasonably without resorting to formal procedures.

In the event of any dispute between HCCS and TRUSD, excluding revocation of the Charter but including audit exceptions and deficiencies, the complaining party will prepare a written dispute statement, which will be simultaneously submitted to the TRUSD Superintendent or designee and the HCCS Executive Director. The Executive Director and the Superintendent or designee will meet and confer within five (5) business days from the date of receipt of the written dispute statement and attempt to resolve the dispute. In the event that this conference fails to resolve the dispute, each party will identify two members of their respective governing boards who shall meet with the Superintendent or designee and the Executive Director within ten (10) business days and attempt to resolve the dispute. If this joint meeting fails to resolve the dispute, either party will, within five (5) business days following the meeting, submit the matter to the Sacramento County Superintendent of Schools. The parties agree to be bound by the County Superintendent's decision and will indicate as such when submitting the matter to the County Superintendent. If the County Superintendent declines to hear the matter, the parties may agree to submit their dispute to a mutually agreeable, neutral third-party mediator for resolution in accordance with any procedure determined and prescribed by the mediator and agreed to by the parties. Review by the County Superintendent or mediator will be held within forty-five (45) business days of receipt of the initial dispute statement. The cost of the mediator will be equally shared between TRUSD and HCCS. If the parties are unable to resolve the matter before a mutually agreeable mediator, either party may pursue any other remedy available under the law.

Unless directed otherwise, all written dispute notifications between the District and Charter School shall be addressed as follows:

Dr. Steven Martinez
Twin Rivers Unified School District
5115 Dudley Blvd.
McClellan, California 95652

Jonathan Raymond
Highlands Community Charter School
1111 Howe Ave, Suite 540
Sacramento, California 95825

In the event that the TRUSD Board of Trustees believes that the dispute relates to an issue that could lead to revocation of the charter in accordance with Education Code Section 47607, this will be noted in the written dispute statement. However, participation in the dispute resolution procedures outlined in this section shall not be interpreted to impede the TRUSD's ability to proceed with revocation in accordance with Education Code Section 47607 and its implementing regulations.

HCCS shall timely notify TRUSD of any and all complaints filed against HCCS by its employees, students, and vendors, involving violations of the Charter, the MOU, State or federal law, or alleged financial mismanagement.

Revocation Protocol
HCCS and Twin Rivers Unified School District (TRUSD) agree that the dispute resolution procedure set forth above will not apply to any matter that could lead to revocation of the Charter. Prior to revocation of the Charter, TRUSD shall provide HCCS with written notice of its belief and an opportunity to meet with and respond to TRUSD within a reasonable time, which shall be not less than five (5) business days, prior to issuing a written notice to "cure and correct," unless TRUSD determines in writing that the violation constitutes a severe and imminent threat to the health or safety of the pupils in accordance with Education Code section 47607(g) and its implementing regulations. Thereafter, if TRUSD determines that revocation is warranted, it will comply with the procedures set forth in Education Code Section 47607.

Element O Charter School Closure Procedures

"The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records." (Ed. Code § 47605(c)(5)(O).)

Closure Agents

The following procedures shall apply in the event HCCS closes. The following procedures apply regardless of the reason for closure.

Closure of HCCS will be documented by official action of the Board of Directors of HCCS. The action will identify the reason for closure. The official action will also identify an entity and person(s) responsible for closure-related activities. The HCCS Board shall promptly notify TRUSD, within 10 business days, of the closure and the effective date of the closure. The entity responsible for implementing the closure procedures will be experienced in dissolution and closure of public educational programs and will comply with all legal requirements regarding the confidentiality of student records. The Chair of the Board of Directors will serve as the official contact for purposes of implementing the closure protocol set forth in the Charter and its plan for maintaining and transferring student records, payment of debts and liabilities, and distribution of remaining assets. Closure initiated by the HCCS Board will not take effect before the end of the normal school year in June unless agreed to in writing by TRUSD.

The HCCS Board of Directors will promptly notify students of HCCS, TRUSD, the Sacramento County Office of Education, the Charter School's SELPA, the retirement systems in which HCCS's employees participate (e.g., Public Employees' Retirement System, State Teachers' Retirement System, and federal social security), and the California Department of Education of the closure as well as the effective date of the closure. This notice will also include the name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure; the students' school districts of residence; and the manner in which students may obtain copies of their records, including specific information on completed courses and credits that meet graduation requirements.

The HCCS Board of Directors will ensure timely notification to the students of HCCS of the closure and will provide information to assist students in locating suitable alternative programs. This notice will be provided promptly, within ten (10) business days, following the HCCS Board's decision to close HCCS. HCCS will provide TRUSD with all student contact information promptly following such a decision.

The HCCS Board of Directors will also develop a list of students in each grade level and the classes they have completed, together with information on each student's districts of residence, which the Board will provide to the entity responsible for closure-related activities.

As applicable, HCCS will provide students and TRUSD with copies of all appropriate student records and will otherwise assist students in transferring to their next school. All transfers of student records will be made in compliance with the Family Educational Rights and Privacy Act ("FERPA") 20 U.S.C. §

1232g. HCCS will store original records of HCCS students in HCCS administrative office until the closure of HCCS. No later than the date of closure, all records will be transferred to TRUSD. If the District will not or cannot store the records, the HCCS will work with the County Office of Education to determine a suitable alternative location for storage.

All state assessment results, special education records, and personnel records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law.

As soon as it is reasonably practical, HCCS will prepare final financial records. Within six (6) months, following the date of closure, final financial records shall be prepared and an independent audit completed. HCCS will pay for the final audit (Reserve Fund). The audit will be prepared according to standards for public school audits by a qualified Certified Public Accountant experienced in public school audits selected by HCCS and will be provided to TRUSD promptly upon its completion. The final audit will include an accounting of all financial assets, including cash and accounts receivable and an inventory of property, equipment, and other items of material value, an accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation, and an assessment of the disposition of any restricted funds received by or due to HCCS.

HCCS will complete and file any annual reports required pursuant to Education Code section 47604.33. On closure of HCCS, all assets of HCCS, including but not limited to all leaseholds, personal property, intellectual property and all ADA apportionments and other revenues generated by students attending HCCS, remain the sole property of the HCCS and shall be distributed in accordance with the Articles of Incorporation upon the dissolution of the non-profit public benefit corporation to another California public educational entity. Any assets acquired from the TRUSD or TRUSD property will be promptly returned upon HCCS closure to the TRUSD. The distribution shall include return of any grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law, as appropriate, which may include submission of final expenditure reports for entitlement grants and the filing of any required Final Expenditure Reports and Final Performance Reports, as well as the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted.

On closure, HCCS shall remain solely responsible for all liabilities arising from the operation of HCCS. Should Highlands Community Charter Schools dissolve as a nonprofit public benefit corporation, the HCCS Board will follow the procedures set forth in the California Corporations Code for the dissolution of a nonprofit public benefit corporation and file all necessary filings with the appropriate state and federal agencies.

HCCS will utilize the reserve fund to undertake any expenses associated with the closure procedures identified above.

Element P Additional Provisions

Facilities

"The facilities to be used by the charter school. The description of the facilities to be used by the charter school shall specify where the charter school intends to locate." (Ed. Code § 47605(h).)

Facilities Mission

As a public charter school, the HCCS mission is to provide a safe, stimulating, and vibrant student-centered learning community that primarily addresses the academic and transitional needs of students who are credit deficient and seeking a high school diploma. HCCS:

- provides adequate space on site for maintaining current site activities,
- locates near public facilities that offer services that complement the instructional facilities at HCCS such as libraries, parks, and institutional facilities, and
- provides adequate site space to accommodate necessary support functions, such as staff and visitor parking, loading/unloading for student transportation, and usable and safe outdoor and dining areas.

In order to properly meet the facilities needs of HCCS, an understanding of the proposed educational programs, services, and student trends is required. Including classroom space, the square footage calculations include a variety of administrative and clerical spaces, hallways, student/staff break areas, restrooms, custodial closets, storage area and utilities closets.

Locations

Highlands Community Charter School's main campus is located at 5655 Hillsdale Blvd, Sacramento, CA 95842. HCCS students are served at 12 locations around the greater Sacramento region in the 2025-2026 school year. HCCS locations include the following:

HCCS Locations 2025-2026	
Student Serving Locations	
Name	Address
33rd St.	2520 33rd St, Sacramento, CA 95817
37th Ave.	3301 37th Avenue, Sacramento, CA 95824
Boxwood St.	2260 Boxwood Street, Sacramento, CA 95815
Center Pkwy.	7839 Center Parkway, Sacramento, CA 95823
College Oak Dr.	4545 College Oak Drive, Sacramento, CA 95841
Folsom Blvd.	10013 Folsom Blvd, Sacramento, CA 95827

Franklin Blvd.	5961 Franklin Blvd, Sacramento, CA 95824
Hillsdale Blvd.	5655 Hillsdale Blvd, Sacramento, CA 95842
Howe Ave.	1111 Howe Avenue, Sacramento, CA 95825
Hurley Way	3205 Hurley Way, Sacramento, CA 95864
Industrial Pkwy.	8180 Industrial Parkway, Sacramento, CA 95824
Marconi Ave.	3727 Marconi Ave, Sacramento, CA 95821
Old Auburn Rd.	7817 Old Auburn Road, Citrus Heights, CA 95610
Todhunter Ave.	800 Todhunter Avenue, West Sacramento, CA 95605

Administrative Support Locations	
Name	Address
Arden Way	901 Arden Way, Sacramento, CA 95815 (Warehouse/Receiving)
Florin Rd.	3801 Florin Road, Suite 107, Sacramento, CA 95823
Hemlock St.	5537 Hemlock Street, Sacramento, CA 95841

HCCS is nonsectarian in its programs, admission policies, and all other operations, even at sites located at religious institutions. All HCCS sites are accessible to students by foot, public transportation, or car. HCCS ensures that the facilities align with all building and fire codes for instructional purposes as provided in Education Code Section 47610. In addition, HCCS will alert TRUSD at least 30 days prior to occupancy of every site to be leased, purchased, or controlled by the school for instructional purposes. HCCS will not pursue Proposition 39 facilities from the District.

Annual Operational Agreement
HCCS and Twin Rivers Unified School District (TRUSD) will negotiate in good faith on an annual basis to develop an Annual Operational Agreement/Memorandum of Understanding establishing the specific financial, operational, and service relationship between the two parties. Additionally, it may address other matters of mutual interest not otherwise resolved within the terms of HCCS' Charter.

Operational Powers and Liabilities
HCCS shall be fiscally responsible for its own operations and shall manage its operations efficiently and economically within the constraints of its annual budget.

HCCS shall have no authority to enter into a contract that would bind Twin Rivers Unified School District (TRUSD) or to extend the credit of TRUSD to any third person or party without the express written consent of TRUSD. HCCS shall clearly indicate to all vendors and other entities and individuals outside TRUSD with which or with whom HCCS enters into an agreement or contract for goods or services that the obligations of HCCS under such an agreement or contract are solely the responsibility of HCCS and are not the responsibility of TRUSD.

Insurance

Insurance Coverage
HCCS secures and maintains, during the term of the Charter, commercially reasonable general liability, property, errors and omissions, worker's compensation, and other necessary insurance coverage in the amounts specified by the Annual Memorandum of Understanding to protect HCCS from claims that may arise from its operations. Each policy shall include language stating particular who is insured, extent of insurance, locations and operations to which insurance applies, expiration date, to whom cancellation or reduction notice will be sent; and (3) a statement that the District and its officers, employees and agents are named as additional insured.

Coverage amounts will be based on recommendations provided by the District and the Charter School's insurer. The District Board of Education shall be named as an additional insured on all policies of the Charter School. The Charter School will provide copies of certificates of insurance, as provided herein, to the District upon request.

Fiscal Matters
The petitioner or petitioners also shall be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cash flow and financial projections for the first three years of operation. (Ed. Code § 47605(h).)

Funding
HCCS receives funding according to the Local Control Funding Formula pursuant to Education Code Section 42238.02(d) and its successors will opt to receive its funding directly from the state. An account for HCCS will be maintained at the Twin Rivers Unified School District (TRUSD). Any funds due to HCCS that flow through TRUSD shall be forwarded to HCCS as soon as practical.

Fiscal Strength
HCCS has significant financial strength. This strength includes strong financial reserves to ensure smooth cash flow and the meeting of all obligations. Moving forward HCCS will continue to have very strong financials as can be seen in the five-year budget and financial projections, see appendix.

Budgets and Cash Flow
A five-year budget and financial projections are included in the appendix. This document is based upon the Local Control Funding Formula and the best estimates of revenues and costs available to HCCS at this time.

Financial Reporting
HCCS will provide reports to TRUSD as follows, as required by Education Code Section 47604.33, and may provide additional fiscal reports as requested by TRUSD:

- By July 1, a preliminary budget for the current fiscal year. For a charter school in its first year of operation, financial statements submitted with the charter petition pursuant to Education Code Section 47605(h) will satisfy this requirement.
- By July 1, an annual update (LCAP) is required pursuant to Education Code Section 47606.5.

- By December 15, an interim financial report for the current fiscal year reflecting changes through October 31. Additionally, on December 15, a copy of HCCS's annual, independent financial audit report for the preceding fiscal year shall be delivered to the State Controller, State Department of Education, and County Superintendent of Schools.
- By March 15, a second interim financial report for the current fiscal year reflecting changes through January 31.
- By September 15, a final unaudited report for the full prior year. The report submitted to HCCS shall include an annual statement of all HCCS's receipts and expenditures for the preceding fiscal year.

For reports 1-4, above, HCCS shall also provide with each financial report supporting and/or back up information, including but not limited to multi-year projections for current and two subsequent years, assumptions used for two subsequent years, explanation for major variances by category between reporting periods, enrollment projection, ADA P2 projection by grade level, COLA & Deficit percentage, calculation used for determining general purpose funding, list of statutory benefit rates, list of H&W rates and number of participants, and number of FTEs for certificated and classified employees for each year.

Pursuant to Education Code Section 47604.3, HCCS shall promptly respond to all reasonable inquiries including, but not limited to, inquiries regarding its financial records, cash flow and budget, and ADA P2 projections from the District. HCCS agrees to and submits to the right of the District to monitor the Charter School's ADA projections and cash flow shortages in order to carry out the District's statutorily required oversight.

District Reports

Twin Rivers Unified School District (TRUSD) agrees to file all reports specifically required by law pertaining to their role as an authorizing agent to be filed with the California Department of Education or any other State or federal agency by a local educational agency on behalf of HCCS and/or TRUSD. HCCS will promptly provide TRUSD with any information, data, or documentation necessary for TRUSD to timely file such reports in accordance with law. HCCS will be solely responsible for the accuracy of all data submitted to TRUSD. HCCS will be responsible for filing all other reports as may be required by law.

Attendance Reporting, School Calendar, and Other Data

HCCS will provide Twin Rivers Unified School District (TRUSD) with a copy of the HCCS annual attendance calendar no later than July 1 of each year. HCCS will maintain no less than the minimum number of instructional days and minutes required by the Education Code and/or the California Code of Regulations for each grade level served.

Subject to TRUSD approval, HCCS will establish and maintain an attendance reporting system to record and account for the Charter School's ADA, as defined in Title V California Code of Regulations section 11960. HCCS will timely report ADA figures to TRUSD as necessary to enable the school to receive funding. The Charter School will provide TRUSD with a monthly enrollment report no later than the 15th calendar day of the following attendance month. HCCS will provide all data and reports required by TRUSD in hard copy and electronic data files. HCCS will submit enrollment and demographic information to the CDE to the extent and in the manner specifically required by law or regulations

applicable to charter schools. Upon request, HCCS will provide TRUSD with documentation of the teacher/student ratio for the Charter School. HCCS will also provide TRUSD with amended ADA reports for the 2024-2025 school year and all other prior years as recommended by the FCMAT audit report of May 2018.

Annual Review and Notice to District of Change in Status
HCCS will participate in an annual review conducted by Twin Rivers Unified School District (TRUSD), if any, of all programs offered at the Charter School, including their effectiveness and student achievement. Both parties will act reasonably and in good faith in both the review and the response to the review.

HCCS will provide TRUSD no less than thirty (30) days prior written notice of any actions taken by the Charter School that may and/or will affect and/or change the status of HCCS, and which falls within TRUSD oversight responsibilities. Nothing herein shall preclude the parties from negotiating or amending the charter to include additional services not contemplated by this charter.

Regulations and Compliance
HCCS will work diligently to comply with all rules and regulations placed upon it by regulatory entities, such that it follows both the letter of the law and the spirit of the law. We recognize that the California legislature enacted charter school law to encourage innovation in the field of education, and thus, we will use all authority and ability granted to us as a school to innovate and push beyond the status quo. We will do so responsibly and with accountability.

Technology
HCCS will utilize technology in all aspects of how it functions to lower the cost of education, improve efficiency, and improve the effectiveness of education. Recognizing that there is always a cost-benefit tradeoff when using technology, HCCS will purchase hardware, software, and services based on the value it brings to the overall learning process.

HCCS will consider the full cost-benefit of technology purchases, including upfront costs, cost of support, cost of modification, and approximate lifespan of the technology, and compare this with the benefits that the technology adds to the educational process and overall system of the school.

Other Clauses and Procedures

Term of Charter
The term of this charter shall begin on July 1, 2019 and expire June 30, 2027.

Amendment of Charter
Any amendments to this charter shall be made by the mutual agreement of the governing boards of TRUSD and HCCS. HCCS may present a petition to amend the charter at any time, and TRUSD agrees to respond to such petitions pursuant to the process and timelines specified in Education Code Section 47605 or its successors.

Cooperation
Twin Rivers Unified School District (TRUSD) agrees to cooperate with HCCS in all matters related to the implementation of this charter and interactions with the California State Board of Education.

Severability
The manner in which administrative services of the charter school are to be provided. (Ed. Code § 47605(h).)

HCCS conducts or procures all of its own administrative and business services including, but not limited to, academic, special education, financial management, accounts payable/receivable, payroll, human resources, and instructional program development either through its own staff or through an appropriately qualified third-party contractor. All contracts are vetted for conflict of interest as adopted by the HCCS Board of Directors. HCCS provides or procures all administrative services to further ensure high quality services, in a cost-effective manner.

Pursuant to California law, the authorizer will be required to provide oversight and performance monitoring services, including monitoring school and student performance data, reviewing the school's audit reports, performing annual site visits, engaging in any necessary dispute resolution processes, and considering charter amendment and renewal requests. HCCS agrees to and submits to the right of the District to make random visits and inspections in order to carry out its statutorily required oversight in accordance with Education Code Sections 47604.32 and 47607.

Potential Civil Liability Effects
Potential civil liability effects, if any, upon the charter school and upon the school district. (Ed. Code § 47605(h).)

HCCS is operated by a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701(d).

Pursuant to Education Code Section 47604(d), an entity that grants a charter to a charter school operated by a non-profit public benefit corporation shall not be liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors, or omissions by the charter school if the authority has complied with all oversight responsibilities required by law. HCCS shall work diligently to assist TRUSD in meeting any and all oversight obligations under the law, including monthly meetings, statutory fiscal reporting, or other requested protocol to ensure the District will not be liable for the operation of HCCS.

Further, HCCS and TRUSD have a memorandum of understanding, wherein HCCS indemnifies TRUSD for the actions of HCCS under this charter.

The corporate bylaws of HCCS provide for indemnification of the HCCS Governing Board of Directors, officers, agents, and employees, and HCCS maintains general liability insurance, Board Members and Officers insurance, and fidelity bonding to secure against financial risks.

As stated above, insurance amounts will be determined by recommendation of TRUSD and the TRUSD insurance company for schools of similar size, location, and student population. TRUSD will be named an additional insured on the general liability insurance of HCCS.

The HCCS Board will institute appropriate risk management practices as discussed herein, including screening of employees, establishing codes of conduct for students, and dispute resolution.

Funding and Oversight Fee

HCCS elects to receive the state aid portion of charter school general-purpose entitlement and categorical block grant funds and any other funding as now computed by the Local Control Funding Formula pursuant to Education Code Section 42238.02 and implemented by Education Code Section 42238.03, and as received by the Charter School for its "Adult Education" programs, directly in accordance with Education Code Section 47651(a)(1). Funds for the Charter School shall be deposited directly into an account for the "Highlands Community Charter School" with the Sacramento County Office of Education ("SCOE"). The SCOE will then remit the funds to the Charter School. The District shall transfer to the Charter School funding in lieu of property taxes in accordance with Education Code Section 47635. HCCS recognizes that the District shall have no responsibilities for funding the Charter School beyond that required by law.

Neither Greater Sacramento Urban League nor any other WIOA service provider in partnership with HCCS receives any type or amount of apportionment. Furthermore, these partners do not operate as an adult school program.

The Charter School agrees that all funding received for the Charter School, from any and all sources, including but not limited to all funding sources set forth in this Charter, or other agreement with the District, shall be used exclusively to operate the Charter School, and shall not be used, either directly or indirectly, or by loan or gift, to fund, assist, pay for the debts of, or towards the operation of, any other school or establishment managed, controlled, or operated by the Corporation or Charter School, or operated by its members, officers, agents, servants, and employers, or for any other purpose whatsoever, unless mutually agreed by the parties.

In consideration for the actual costs of supervisorial oversight by the District, the Charter School shall pay an amount not to exceed one percent (1%) of the revenue of the Charter School (hereinafter, the "Oversight Fee") pursuant to Education Code section 47613. "Supervisorial oversight" for purposes of this section shall be limited to those duties listed in Education Code section 47604.32(a)(1) through (5), only. "Revenue" for purposes of this calculation is defined pursuant to Education Code section 47613(f) in the current fiscal year from the local control funding formula calculated pursuant to Education Code sections 42238.02 and 42238.03. "Revenue" for purposes of this calculation shall not include Charter School fundraising activities, private donations, other public grants, or any other source of income developed by the Charter School.

Payment Schedule

The Charter School shall pay the supervisorial oversight fee and any other fees in quarterly installments for each school year. The District shall invoice the Charter School for fees due as of September 30, December 31, March 31, and June 30, with invoices to be prepared and submitted by the District to the Charter School within thirty (30) calendar days during the year and by September 15 (when the books

are closed) at the end of the year. The Charter School shall pay all invoices within fifteen (15) business days of their issuance by the District. In the event payment is not received within five (5) business days following the payment due date, and/or if such payment is returned or unpaid due to insufficient funds, the Charter School authorizes the District to deduct any such fees or payments from future apportionments or any other monies received by the SCOE and/or District for the Charter School. The District may elect to offset and deduct any such fees from the District's in-lieu property tax revenues next payable to the Charter School, in which case the District shall provide the Charter School with a detailed statement showing the amount of any such offset.

Notice of Violation: Grade Levels

HCCS has committed to returning to serving the grade levels outlined in its charter.

TRUSD Review	HCCS Response	Evidence
Tardiness in responding to the Material Revision requirement.	HCCS acknowledges that the original charter petition stated that HCCS would serve grades 1, 2, and 12 and has been serving grades 9, 10, and 12 without a material revision. HCCS will return to serving grades 1,2 and 12.	On 1/2/26 HCCS submitted a plan to realign to grades 1,2 and 12 entitled Academic Grade Configuration and High School Designation (see Attached).

Notice of Violation: Locations

HCCS originally proposed operating at 14 student serving sites and 3 admin sites in its material revision. However, HCCS is now proposing to operate at 13 student serving sites and 2 administrative sites. These sites are accurately reflected in the HCCS material revision. If TRUSD approves the HCCS material revision, the locations violation will be resolved. If HCCS material revision is not approved, HCCS will return to only sites approved in MOU Amendment #3.

TRUSD Review	HCCS Response	Evidence
Tardiness in responding to the Material Revision requirement.	HCCS acknowledges that MOU Amendment No. 3 between TRUSD and HCCS, dated	HCCS revised material revision board approved

	01/25/24 contains a list of approved sites where TRUSD has agreed to allow HCCS to operate. HCCS acknowledges operating sites not listed in the MOU Amendment No. 3 and has drafted the HCCS material revision with updated sites that clearly shows which sites HCCS is currently operating in for both serving students and providing office space for staff. All sites outside Sacramento County have been eliminated. HCCS hopes that the material revision will be approved by TRUSD and the issue will be resolved.	1/2/26. HCCTS updated board policy for opening and closing procedures which now includes authorizer approval for the addition of any new site, board approved by HCCTS on 12/02/25 and sent to TRUSD on 12/02/25.
Unable to assert the item is remedied until the Material Revision is reviewed by TRUSD Board of Trustees.	HCCS is committed to aligning with TRUSD for operating only within the approved sites. If TRUSD denies the HCCS material revision, HCCS has a plan to return to the HCCS locations approved in MOU Amendment No.3. If the material revision is approved, HCCS will operate at the new approved locations. As a result, this issue is fully remedied regardless of whether TRUSD agrees to the material revision or compels the charter school to only operate at facilities included in MOU Amendment No. 3.	HCCS drafted a detailed plan which outlines how HCCS will return from the sites where we are currently serving students back to MOU Amendment No. 3 sites. This was sent to TRUSD on 11/20/25. HCCS drafted another detailed plan which shows where and how HCCS will close sites between January to June of 2025, consistent with the locations approved in the material revision. This was provided to

		TRUSD on 12/01/25. The HCCTS Board of Directors will be revising the closure plan on January 8, 2026 to reflect the additional site closures contained in the revised material revision (See attached revised material revisions).
If the Material Revision is not approved, TRUSD would require further actions to cease operations and address ongoing expenses at the locations not listed in the MOU Amendment No. 3.	HCCS is committed to aligning with TRUSD for operating only within the approved sites. If TRUSD denies the HCCS material revision, HCCS has a plan to return to the HCCS locations approved in MOU Amendment No.3. Regardless of which sites are approved by TRUSD, the school is committed to reducing its facilities costs in alignment with its lower enrollment, and has developed a plan to generate significant savings through termination of now unnecessary facilities leases.	

Notice of Violation: Independent Audit Report

HCCTS contracted with Eide Bailly to conduct the 2023–24 audit. While a draft was provided on May 9, 2025 and again on October 10, 2025, the process was significantly delayed due to a combination of external and internal factors which include:

- Eide Bailly's 2022–23 audit being selected for review by the State Controller, which diverted capacity and slowed the 2023–24 work.

- Errors identified in the draft related to unduplicated pupil counts, which required national-level review and corrections, and

- Additional testing required following the release of the California State Auditor's report, which heightened risk assessments.

The report however is now complete, and has been filed with the District.

TRUSD Review	HCCS Response	Evidence
HCCS provided a draft of the reports on 10/10/25.	The delay in providing the independent audit is due to factors largely outside of HCCTS' control. HCCTS contracted with a vendor approved by the State Controller to produce the audit in a reasonable time frame, and that vendor did not deliver a completed product in a timely way. As delays have mounted, HCCTS has taken every step possible to produce a completed audit. In order to comply to the extent possible, HCCTS has provided TRUSD with two drafts of the audit as supplied by Eide Bailly. On 12/02/25 HCCTS sent an email to Eide Bailly accepting the independent audit	HCCS sent TRUSD a comprehensive list which contained all the communication HCCTS had with Eide Bailly from 2023-2025. HCCS sent TRUSD a letter from Eide Bailly regarding State Controller and State Auditor dated 04/17/25. HCCS sent TRUSD a legal letter HCCTS had

	produced by Eide Bailly for HCCTS for the 2023-2024 school year. The audit report was finalized by Eide Bailly on 1/1/26.	drafted by legal counsel at YM&C, which was sent on 9/11/25, demanding that Eide Bailly release the audit. See attached audit report.
Although HCCTS has taken action to resolve the issue, this item remains open until the final audit report is received	HCCTS has now accepted the final audit draft, and it has been filed with the District.	HCCTS sent TRUSD Independent State Audit completed by Eide Bailly for HCCTS on 05/09/25. HCCTS sent TRUSD the updated Independent State Audit for HCCTS on 10/08/25. HCCTS sent TRUSD Document requests from Eide Baily that were fulfilled by HCCTS. The audit report has been filed with the district.

Notice of Violation: Instructional Minutes

TRUSD Review	HCCS Response	Evidence
The legitimacy of its practices during the audit period remains unresolved pending a decision from the Education Audit Appeals Panel	HCCS has taken several actions to improve attendance policies and procedures to ensure that HCCS meets the minimum number of instructional minutes. Among these items are: implementing a five period bell schedule where teachers take attendance for each period, moving to one attendance track, and reducing class sizes through enrollment caps. The report by the California State Auditor found no evidence of fraudulent attendance. The State Auditor's determination that HCCS was ineligible for apportionment rests on its interpretation rests on an untested interpretation of the requirement that the school "must require the student to attend at least 80% of the minimum required instructional minutes at the school site." HCCTS acknowledges that multiple academic calendars for the 2025-2026 school year have been presented and approved by the HCCTS Board of Directors. These changes were primarily due to changes in the start date of HCCS academic year and modification of the	HCCTS sent TRUSD the 2025-2026 Academic School Calendar HCCS sent TRUSD the 2025-2026 five-period bell schedule HCCTS sent TRUSD the Instructional Minutes Calculations for the 2025-2026 school year HCCS sent TRUSD Class Size Reports on 08/21/25. HCCS sent TRUSD complete class rosters for all HCCS teachers on 10/30/25. HCCS sent TRUSD Open Seats Report on 10/30/25.

	professional development schedule. While HCCTS provided updated calendars to TRUSD via email and the Smartsheet uploader, HCCTS understands that this may have led to confusion for TRUSD regarding which calendar was accurate. HCCS' most recent board-approved calendar is going back to TRUSD on 12/02/25 with an updated instructional minutes calculation that shows a total of 65,889 minutes for the 2025-2026 school year. The change includes a reduction of 2.5 professional development days to meet the instructional minutes.	HCCS sent the revised academic calendar and minutes calculations to TRUSD on 12/2/25.
The adequacy of the response remains unresolved due to the pending audit appeal and the lack of independently verified evidence that students met the 80% in-person instructional time threshold	HCCTS is appealing the finding that it was not eligible for apportionment. HCCS made substantial efforts to encourage student attendance and to ensure students had access to education at the school site for 100% of the required instructional minutes. This is demonstrated in the following ways: ● Log entries in PowerSchool that show staff contacting students to re-engage them ● Dropping students for non attendance ● Deactivating students' technology for non attendance ● The daily bell schedules had credentialed teachers available to students for all periods, even if students were not present	

	Although the entire Power School database was provided to the state auditor, it is not clear whether any of this data was reviewed by the state auditor. But HCCS is not just relying on the above or its legal arguments in the appeal to justify that this matter has been cured. Since the state audit was released, HCCS has implemented a number of changes in both policies and standard operating procedures to ensure that the school is compliant with law, enforcing its attendance policy, and supporting student re-engagement. HCCS made these changes to ensure that it addressed all concerns raised by the state auditor even though it does not agree with the state auditor's conclusion that HCCS was not eligible to claim $180 million in attendance funding. As a result of these changes, HCCS can demonstrate that it has fully remedied this issue even without a conclusion being reached on the audit appeal.	
Inadequate evidence of steps taken to ensure compliance	HCCTS has met all requirements outlined in the law including offering the required number of instructional days and instructional minutes, maintaining primary documentation of attendance in its learning management system, and following up with students who have attendance issues.	HCCTS updated attendance expectations for the 2025-2026 school year as outlined in the Student Handbook HCCTS updated

	HCCTS drafted the HCCS Attendance SOP and provided TRUSD with the HCCTS Board-approved version on 11/07/25. Please note that teachers were trained on updated attendance practices starting in August of 2025 and all attendance practices were in place prior to the approval of the newly updated and formalized attendance SOPs. All HCCS teachers are trained each year on attendance taking policies and procedures. At the beginning of the 2025-2026 school year HCCS conducted additional trainings to outline the policy changes, the new attendance procedures, and updates to the paper based attendance policies which serve as a backup for PowerSchool.	attendance policies to ensure students are present for at least 80%. HCCS outlines attendance expectations for all students during new student orientations. HCCTS drafted the HCCS Attendance SOP and provided TRUSD with the HCCTS Board-approved version on 11/07/25.
	In recognition that a higher level of accountability is appropriate, HCCS is taking steps to ensure continuous improvement in its attendance practices. This includes strengthened attendance verification and audits, more clearly defined attendance expectations for students, a standardized system for retention of paper back-up documentation, and the implementation of standardized attendance taking procedures across all HCCS locations. HCCS has launched an internal attendance	HCCTS provided TRUSD with the 2025-2026 Start of the Year Presentation. HCCTS provided TRUSD with the 2025-2026 CCS Classroom Attendance Auditing Checklist (Template). HCCTS provided TRUSD with the Summary of

	auditing process which tracks weekly teacher attendance and monthly audits. These internal audit procedures are included in the HCCS attendance SOPs which were provided to TRUSD on 11/07/25. These updated and improved attendance practices are outlined in the following HCCTS board polices: 5113 BP Absences and Excuses 5113.1 BP Attendance Enforcement	Attendance Observations from Hillsdale on 09/25/25. HCCTS provided TRUSD with the HCCS Department Meeting Slides held on 10/02/25. HCCTS provided TRUSD with the 10/02/25 instructions for printing attendance sheets from PowerSchool. HCCTS provided TRUSD with Follow-Ups on the 10/03/25 HCCS Academics Department Meeting. HCCTS provided TRUSD with the HCCT Department Meeting 10/03/25 Zoom Attendees. HCCS provided TRUSD with classroom attendance audits for the following HCCS

		teachers: Ron Lewis, Christina Schiesari, Sky Fuller, Asya Grigoryan, Khaled Mohammadi, John Leyva, Julie Giger, Faith Johnston, Irena Pachkevitch, Forrest Speciale. HCCTS provided TRUSD with the HCCTS Student Attendance Agreement.

Notice of Violation: Teacher Credentialing & Misassignments

TRUSD Review	HCCS Response	Evidence
The monthly assignment monitoring data provides evidence that HCCTS has changed staffing practices and reformed to comply with the law moving forward	HCCS is in full compliance with teacher credentialing and reports.	**No additional evidence required because TRUSD found that this issue has been remedied.**

HCCTS staff have become more knowledgeable about credentialing options to ensure compliance	HCCS credentialing coordinators have been trained on the new requirements and are working closely with TRUSD and the SDCOE to ensure HCCS teachers meet the requirements of the CTC.	
HCCTS subsequent actions show a credible shift to K-12 appropriate credentialing	HCCS is committed to teacher credentialing compliance.	

Notice of Violation: Exclusive Partnership Agreement/ Truck Driving Program

HCCTS discontinued the relationships between the truck driving program and outside agencies including Local 185, Sacramento County Sheriff, and Sacramento Police. These partnerships officially ended on January 14, 2024 and the truck driving program was discontinued on June 30, 2025 for all HCCTS students. At this time, there is no plan in place to bring back the truck driving program.

TRUSD Review	HCCS Response	Evidence
Lack of evidence that proves the partnerships with outside entities were terminated	The HCCS truck driving program was discontinued on 06/30/25. There are no partnerships with any outside entities at this time because the program no longer exists. Detailed evidence of this has been provided to TRUSD between December 2024 and	HCCTS provided TRUSD with a Letter to HCCS from Sac County Sheriff Jim Cooper dated 01/23/25. HCCTS has provided TRUSD with the Letter to HCCS from the Sac Police Department requesting that

	November 2025. HCCS acknowledges that students not enrolled in a WIOA program were previously enrolled in the truck driving program, but this practice was discontinued in January 2024. The intent of the partnerships were to benefit the wider community and the school through mutually beneficial cooperation, but HCCS acknowledges that there should have been an agreement where these participants were registered in CalJobs to avoid a violation of our exclusive partnership. The benefit to the community and the end of the partnership are both demonstrated by the Sacramento County Sheriff's appeal to the former interim Executive Director to not discontinue the partnership. These formal letters and emails were sent to TRUSD. Last month, HCCS also provided letters to TRUSD from its former partner organizations in which	HCCS continue the partnership. HCCTS provided TRUSD with the email sent from Sergey Ivanyuk (HCCS Truck Driving Coordinator) to the truck driving team regarding the discontinuation of the partnerships with Sac Police, Sac Sheriff, and Labor Union 185 on 01/15/25. HCCTS provided TRUSD with the email sent from Sacramento County Sheriff's Office to HCCTS former Executive Director, Bill McGuire requesting to continue the trucking driving partnership on 01/23/25. HCCTS provided TRUSD with the email sent from Bill McGuire to Stephen Scarrazzo at the Sacramento County Sheriff's Office on 02/01/25 outlining changes HCCS is making with partnerships. HCCTS provided TRUSD with a letter from the Sacramento Police Department on 11/06/25 which affirms that the partnership with

	they note the date the partnership was terminated.	HCCTS ended in January of 2024. HCCTS sent TRUSD a letter dated December 20, 2024 stating that HCCTS will no longer serve non-students starting January 2025.
The CTE Instructor's statements were inconsistent with HCCS's response	HCCS' response is supported by all entities with which it had partnerships as evidenced by their letters. Two of these entities are law enforcement agencies. The District is improperly relying on a statement from one former employee over the statement of not just the school, but multiple credible outside agencies who sent the individuals to participate in the truck driving program. HCCS requests that the District re-weigh the evidence in light of the letters provided by outside agencies and consider this issue fully resolved in light of the new evidence.	All HCCTS truck driving employees from the 2024-2025 school year are no longer employees at HCCTS, so it is not possible for a current instructor's statements to be inconsistent with that of the school. HCCTS provided TRUSD with the former Truck Driving employee names, roles, and dates of employment.

Notice of Violation: Fiscal Mismanagement Marysville 2

TRUSD Review	HCCS Response	Evidence
The lease termination date is 4/30/2026, therefore the violation remains open.	The Marysville 2 (baseball field) lease was terminated on 11/30/25 and fully bought-out as a cost saving measure. There are no ongoing payments and there is no ongoing agreement.	On 01/14/25, HCCTS sent TRUSD a letter that outlined the lease termination with Marysville 2 and included the final buyout amount of that lease. In that letter, HCCTS provided evidence that no additional money would be paid to the City of Marysville and that operations had been finalized.
This violation may never be resolved in full since HCCTS still spent money on an unused property with funds that will never be recovered, including lease payments, utilities, equipment purchases and a sponsorship/donation	HCCS has done its best to mitigate the loss associated with this agreement. The termination agreement was arrived at as the best possible cost-saving measure that would be acceptable by both parties. The sale of $5K in assets for $1 was done as a part of the negotiations necessary to mitigate any additional on-going expenses. The ongoing expenses far exceeded this concession by HCCS.	On 06/12/25 HCCTS sent TRUSD another letter outlining all expenses related to Marysville 2 and why it was cost effective to terminate the lease with the buyout rather than to continue the lease at Marysville 2. This

	HCCS requests that the District find that the charter school has remedied this matter through terminating the lease. The intent of the revocation statute is to bring a charter school into compliance with law and its charter. This has happened here. The law was never intended to be applied in a manner that would effectively require a charter school to be perfect in all of its operations because any issue could later support revocation even after it is corrected.	included payment of water, utilities, and the cost of landscaping. On 11/4/25 HCCTS sent TRUSD the Lease Termination Agreement, the final payment to the city of Marysville, and the final utility bill.

Notice of Violation: Fiscal Mismanagement San Diego

TRUSD Review	HCCS Response	Evidence
The property has not been sublet	HCCTS terminated the San Diego lease agreement on 11/15/25 and paid the final bill on 11/17/25. These items were sent to TRUSD on 11/18/25.	On 10/26/25, HCCTS sent TRUSD information regarding the San Diego lease agreement that contained the actions taken by HCCTS. HCCTS informed TRUSD that the space was empty, and we provided the contract

		between HCCTS and Newmark real estate agency to show the intention to sublet. HCCTS provided to TRUSD evidence of lease termination.
The lease remains in place with expenses ongoing	The lease has been terminated and there are no additional ongoing expenses.	On 11/29/24, HCCTS asked a remote worker living in San Diego to vacate the space where he had been working On 06/03/25, HCCTS disconnected the internet and all utilities On 03/27/25, HCCTS contracted with Newmark real estate agency to sublet the space in San Diego. On 11/04/25, having no interested parties to sublet, HCCTS requested to terminate the lease agreement for the San Diego location.

		HCCTS terminated the San Diego lease agreement on 11/15/25 and paid the final bill on 11/17/25.
The past moneys spent on the expensive property, which was not directly used for HCCTS students, has not been addressed or remedied.	HCCS has vacated the property. HCCS can only attempt to mitigate the financial loss associated with the lease by subletting the property at the most favorable rate it can obtain or terminating the lease to mitigate further losses. HCCS attempted first to sublet the property but found that not to be feasible, so it terminated the lease to help mitigate further financial losses. HCCS requests that the District find that the charter school has remedied this matter through terminating the lease. The intent of the revocation statute is to bring a charter school into compliance with law and its charter. This has happened here. The law was never intended to be applied in a manner that would effectively require a charter school to be perfect in all of its operations because any issue could later support revocation even after it is corrected.	On 10/31/25 HCCTS met with TRUSD and reviewed the evidence for San Diego. On 11/18/25 HCCTS sent TRUSD the lease termination and final check to show that the lease in San Diego was fully terminated.
	HCCTS has implemented stronger financial controls, including requiring written	On 12/02/25 HCCTS updated BP 7150.5

	authorization from the District with an attendant fiscal analysis before presenting any potential site to the HCCTS Board.	School Site Opening and Closure Policy, which addresses the process of opening and closing sites. This policy ensures that all sites have a benefit to students, and requires a written report analyzing the financial analysis which must be submitted to the school's authorizer prior to opening.

CONCLUSION

HCCS has worked diligently to fully address every issue in the Notice of Violation presented by TRUSD. We have remedied all of these issues through board changes, administrator changes, policy changes, procedure changes, staffing changes, staff training, holding staff accountable to implement new policies, and stopping bad fiscal and operational decisions of prior leadership. This has all been part of Building Highlands Back Better. There is still more work to do, but the changes made to date fully remedy the concerns expressed in your notice. We are determined to make you proud of HCCS again. Amidst all of these changes, it is important that none of us lose sight of the students served by HCCS. There is no program like ours in the community, and a school closure would impact them dramatically. Please carefully consider what this program means to them, how much work we have put in to turn this school around, and how committed the new leadership team is to making this school even better in the years ahead.

BUILD HIGHLANDS BACK BETTER

HCCS Material Revision Presentation 1.13.26

Purpose

- This Material Revision cures the Notice Of Violation of the Charter regarding locations.

- If the Material Revision is not approved HCCS will occupy only the locations listed in MOU Amendment No. 3

Material Revision Updates

- Addresses locations only
- No educational program updates
- No grade level changes. Serves grades 1, 2 & 12 as outlined in the charter

Material Revision Updates - Locations

The locations requested in the material revision consolidate operations to 13 student serving locations in Sacramento county.

13 Student Serving Sites:

- 33rd St. (2520 33rd St, Sacramento, CA 95817)
- 37th Ave. (3301 37th Avenue, Sacramento, CA 95824)
- Boxwood St. (2260 Boxwood Street, Sacramento, CA 95815)
- Center Pkwy. (7839 Center Parkway, Sacramento, CA 95823)
- College Oak Dr. (4545 College Oak Drive, Sacramento, CA 95841)
- Folsom Blvd. (10017 Folsom Blvd, Sacramento, CA 95827)
- Franklin Blvd. (5961 Franklin Blvd, Sacramento, CA 95824)
- Grand Ave (1333 Grand Ave, Sacramento, CA 95838)
- Howe Ave. (1111 Howe Avenue, Sacramento, CA 95825)
- Industrial Pkwy. (8180 Industrial Parkway, Sacramento, CA 95824)
- Marconi Ave. (3727 Marconi Ave, Sacramento, CA 95821)
- Old Auburn Rd. (7817 Old Auburn Road, Citrus Heights, CA 95610)
- Todhunter Ave. (800 Todhunter Avenue, West Sacramento, CA 95605)

2 Administrative Support Locations:

- Arden Way (901 Arden Way, Sacramento, CA 95815)
- Florin Rd. (3801 Florin Road, Suite 107, Sacramento, CA 95823)

Highlands has made considerable progress on curing the notice of violation

Material Revision is Cure to One of the Issues

1. Material revision would cure the issues pertaining to site locations and update the petition to current law.
2. Credential misassignments fully cured through hiring K-12 credentialed teachers.
3. Audit has been turned in, fully curing the failure to turn in an audit.
4. Out-of-County leases in San Diego and Marysville have been terminated and new policies adopted to prevent similar issues in the future, fully curing the concern about fiscal mismanagement.
5. Alleged violation of WIOA Exclusive Partnership Agreement fully cured through disenrollment of non-WIOA students and closure of the program in question.
6. Instructional minutes concern fully cured through new Board policies on class size and re-engagement of students with attendance issues, staff training on those policies and implementation.
7. A plan has been submitted to transition back to grade levels in the charter if a material revision relating to grade levels and the academic program is not approved by TRUSD Board in Spring 2026.

HCCS NOV Intent to Revoke 01.27.2026

BUILD HIGHLANDS BACK BETTER

- **Tonight we will be sharing with you how we have cured all violations in the Notice of Intent to Revoke the charter school.**
- **Tonight you are going to hear about our ongoing reform efforts.**
- **All of these efforts have cured the notices of violation.**

BUILD HIGHLANDS BACK BETTER

HCCS has already:

- Changed our administrative team
- Changed more than 125 school policies and procedures
- Changed our principal legal counsel
- Brought in a reputable charter school business/back office firm to validate internal work
- Hired K-12 credentialed teachers
- Consolidated operations in Sacramento County in fewer locations to allow better oversight by both our team and TRUSD

BUILD HIGHLANDS BACK BETTER

HCCS Notices of Violations

1. *Grade Levels
2. *Locations
3. Independent Audit
4. Instructional Minutes
5. Credentialing
6. Exclusive Partnership
7. Fiscal Mismanagement
    a. Marysville 2
    b. San Diego

*HCCS initially planned to cure through the HCCS Material Revision submitted to TRUSD on 9/26, however due to the TRUSD denial of the material revision, HCCS has submitted formal plans to cure alternatively

BUILD HIGHLANDS BACK BETTER

HCCS Notice of Violation: Grade Levels

HCCS originally planned to cure the grade levels with the material revision which was submitted to TRUSD on 9/26/2025 with the addition of grades 9, 10, and 11

HCCS presented a plan to TRUSD on 12/2/2025 to transition back to grades approved in the charter petition if denied

HCCS submitted the revised material revision on 1/2/26 which removed grade level changes

HCCS added back grades 1 & 2 on 1/20/2026 and is implementing the phase out of grades 9 & 10 pursuant to the HCCS plan submitted to TRUSD

HCCS formally began serving grades 1, 2, & 12 on 1/20/26

BUILD HIGHLANDS BACK BETTER

HCCS Notice of Violation: Locations

HCCS originally planned to cure the locations with the material revision which was submitted to TRUSD on 9/26/2025

HCCS presented a location plan to TRUSD on 12/2/2025 to transition back to MOU Amendment No. 3 sites if denial

HCCS then presented an updated material revision with changes to the locations only on 1/2/2026

Following the TRUSD denial on the HCCS Material Revision, HCCS returned to the locations approved in MOU Amendment No. 3

BUILD HIGHLANDS BACK BETTER

HCCS Notice of Violation: Independent Audit

The 2024-2025 independent audit from Eide Bailly was provided to TRUSD on 1/2/2026.

BUILD HIGHLANDS BACK BETTER

HCCS Notice of Violation: Instructional Minutes

HCCS cured the instructional minutes concern by:

- Creating a five period bell schedule for both AM and PM classes
- Ensuring all teachers offer direct instruction for all periods
- Moved to a single attendance track
- Ensuring 65,800 instructional minutes
- Reducing class sizes with enrollment caps
- Restructuring the class
- Updated attendance SOPs and practices

BUILD HIGHLANDS BACK BETTER

HCCS Notice of Violation: Credentialing

Credential misassignments fully cured through the following:

- Laid off teachers with adult education credentials
- Partnered with UMASS Global to enroll eligible teachers into an internship program where they can earn a single-subject teaching credential
- Hired K-12 credentialed teachers

BUILD HIGHLANDS BACK BETTER

HCCS Notice of Violation: Exclusive Partnership

The alleged violation of WIOA Exclusive Partnership Agreement was fully cured through the disenrollment of non-WIOA students and closure of the program in question in January 2025.

BUILD HIGHLANDS BACK BETTER

HCCS Notice of Violation: Fiscal Mismanagement

Marysville 2- The out-of-county lease in Marysville has been terminated and new policies adopted to prevent issues in the future, fully curing the concern about fiscal mismanagement. This was finalized 11/30/2024.

San Diego- The out-of-county lease in San Diego has been terminated and new policies adopted to prevent issues in the future, fully curing the concern about fiscal mismanagement. This was finalized 11/17/2025.

BUILD HIGHLANDS BACK BETTER

HCCS Closing Summary

HCCS has presented all the requested evidence and documentation to TRUSD and has taken all necessary steps to address and resolve the identified Notices of Violation.

HCCS respectfully requests that the TRUSD Board clear the Notice of Violation and allow HCCS to continue serving our community.

Thank You

HIGHLANDS
COMMUNITY CHARTER SCHOOL

Addressing Notices of Violation

A Comprehensive Implementation and Grade-Level Construction Plan

Highlands Community Charter School

Context and Overview

Highlands Community Charter School, consistent with proposed material revisions, continues to ensure all adult learners receive the academic and language support appropriate to their needs. Should the material revisions not be approved, all students currently enrolled in the high school program will be transitioned to Grade 12 to maintain continuity of services and stability as they progress toward diploma completion. New students and pre-registered students currently on the waitlist will be assessed using CASAS Reading scores, internal assessments, and transcript review protocols to determine placement into the instructional environment where they can be most successful.

Adult learners who require foundational literacy and English language development, including newcomers and individuals with limited or interrupted formal schooling, will be placed into Grade 1 or Grade 2 only if they have never previously been identified as a Grade 3 or higher student in a U.S.–based educational setting. Learners who were once enrolled in Grade 1 and later discontinued their U.S. schooling may be placed in Grade 2 if appropriate, based on literacy and language assessments. These early-grade placements focus on developing essential English proficiency, academic vocabulary, and foundational reading and writing skills necessary for eventual progress into the high school program. Students already enrolled in high school who require additional literacy support will continue to receive targeted interventions and direct support from literacy specialists. As students demonstrate measurable improvement in reading proficiency and English language growth, they may transition into the high school diploma track, where they will receive counseling and guidance for academic planning, career pathways, and CTE opportunities.

This placement model ensures that every learner is placed into a grade level that reflects their language development, literacy foundation, and long-term academic goals, while maintaining full alignment with the approved petition.

Contingency Plan for HCCS Material Revision

If the HCCS material revision is not approved by TRUSD, Highlands Community Charter School will implement the following actions beginning January 14, 2026**:**

- Move all students currently enrolled in Grades 9 and 10 into Grade 12.
- Assign English language learners requiring intensive intervention—based on language proficiency, credits earned, prior assigned grade level, and prior academic standing—to Grades 1 and 2.
- Review all incoming students for prior grade level to ensure eligibility and accurate CALPADS identification.
- Enroll all returning high school students in Grade 12.
- Maintain curriculum alignment with the Charter Renewal approved by Twin Rivers Unified School District in 2019.

These steps ensure full compliance with TRUSD expectations while maintaining accurate reporting, continuity of services, and appropriate placement of adult learners.

Grade-Level Construction and Instructional Alignment

Highlands Community Charter Schools will construct grade levels based on student needs, transcript review protocols, assessment data, and alignment with the approved charter.

A. Grade 12 Structure

Students currently enrolled or previously in the high school program, as well as new students who demonstrate adequate academic readiness and English language proficiency through CASAS and internal assessments, will be placed in Grade 12. Students in Grade 12 will have access to:

- Core high school diploma coursework
- Career readiness guidance

- CTE exploration opportunities
- Targeted academic and literacy interventions

This structure ensures uninterrupted progress toward graduation for learners prepared for high school-level coursework.

B. Grades 1 and 2 (Foundational Literacy and Language Development)

Students needing targeted English language development or foundational literacy instruction will be placed into Grades 1 or 2, so long as they have not been previously designated as a Grade 3 or above student previously. These grades support newcomer adults, English learners with limited formal education, and individuals needing substantial skill development prior to entering high school coursework.

Instruction will be delivered by fully credentialed teachers at regional sites selected based on:

- Student population density
- Language development needs
- Geographic accessibility

Instruction will emphasize:

- Foundational literacy development
- Oral and aural language practice
- Academic vocabulary building
- Structured English language development
- Confidence-building through evidence-based practices

These supports ensure students gain the academic and linguistic skills necessary to transition successfully into Grade 12.

C. Transition Pathway Into Grade 12

As adult learners in Grades 1 and 2 demonstrate improved English proficiency, literacy skills, and academic readiness, they may transition into Grade 12. HCCS counselors will support this transition through:

- Individualized graduation planning
- Continuous academic progress monitoring
- Career pathway and CTE exploration
- Personalized guidance aligned to student goals

Prior to the January 14, 2026 start date, students identified through the enrollment and registration process will begin to identify Grades 1 and 2 to ensure timely placement and a smooth transition into the new structure.

Conclusion

This plan provides a clear, compliant, and comprehensive approach for Highlands Community Charter School to address the Notices of Violation and maintain full alignment with the 2019 reauthorized petition. The placement structure, instructional model, and contingency measures demonstrate HCCS's readiness to meet TRUSD requirements while ensuring that adult learners receive high-quality, developmentally appropriate instruction tailored to their academic and language needs.

HIGHLANDS
COMMUNITY CHARTER AND TECHNICAL SCHOOLS

January 9, 2026

Dr. Steven Martinez
Superintendent
Twin Rivers Unified School District
5115 Dudley Blvd
McClellan Park, CA 95652

RE: Notice of Violation Area Grade Level Changes Cure

In place of the Comprehensive Grade Level Transition and Implementation Plan submitted to TRUSD for Highlands Community Charter School (HCCS) on January 2, 2026, HCCTS is submitting the following plan to address the grade level Notice of Violation for Highlands Community Charter School.

HCCS' approved Charter authorizes the Charter School to provide instruction to students in grades 1, 2, and 12. HCCS is curing the Notice of Violation by returning to the grade level designations outlined in the approved Charter. As part of this corrective action, HCCS is currently only enrolling students into grades 1, 2, and 12.

Progress to Date

HCCS has taken the following actions to implement the grade level transition and placement plan:

- Enrollment into grades 9 and 10 has ceased. Students being enrolled from the current wait list are assigned to a grade through the enrollment process outlined in the current approved Charter.
- On January 8, 2026, the Highlands Board of Directors approved the adoption of the Grades 1 and 2 Savvas curriculum (English Language Arts, Mathematics, and Science) for Spring 2026 implementation.
- The Board approved the Multiple Subject Teacher job description to support the continued growth of the Grades 1 and 2 English Language Development program.

- Highlands Community Charter School hosted student orientations on January 8 and January 9, 2026 welcoming new students into Grades 1, 2, and 12 only.
- Classes for grades 1 and 2 will begin instruction at the start of the second semester of the current 2025-26 school year.
- Current HCCS students who were in grade 9 and 10 starting in the 2025-26 school year, and who meet three of the six re-designation criteria as outlined in the approved Charter, will remain in the high school program and are being redesignated into grade 12 starting January 12, 2026.
- Current HCCS grade 9 and 10 students who do not meet at least three of the six re-designation criteria outlined in the approved Charter for Grade 12 will be re-designated into Grades 1 or 2, or referred to California Innovative Career Academy (CICA) for the 2026-27 school year. Grade-level standing will be determined in accordance with the CICA Charter.

To ensure instructional continuity and minimize unintended academic disruption, HCCS will be implementing grade-level reclassification at the end of the 2025-26 academic school year for students who meet re-designation criteria to a lower grade level (Grades 1 and 2). When a student is already enrolled in high school and earning credits toward graduation, best practice is to maintain the student's placement through the end of the school year, as midyear changes to a lower grade segment can disrupt data integrity in CALPADS, and expo= the Charter School to audit exceptions and findings by the California Department of Education related to enrollment, attendance, and funding compliance.

HCCS shall be in full compliance with its approved Charter with respect to all grade-level assignments, and all enrollment and re-designation processes shall be fully implemented by July 1, 2026.

If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Jonathan Raymond
Executive Director

HIGHLANDS
COMMUNITY CHARTER AND TECHNICAL SCHOOLS

January 2, 2026

Dr. Steven Martinez
Superintendent
Twin Rivers Unified School District
5115 Dudley Blvd
McClellan Park, CA 95652

RE: Comprehensive Grade-Level Transition and Implementation Plan

Dear Dr. Martinez,

This document is respectfully submitted to present a comprehensive academic, programmatic, and compliance-based framework governing grade-level offerings, instructional placement, and assessment-informed student progression at Highlands Community Charter School. It is intended to respond directly to the procedural history, oversight communications, and differing interpretations that have emerged following the 2019 Charter Reauthorization, subsequent programmatic expansions, and the issuance of a Notice of Violation related to grade-level determinations. In response, the analysis that follows is grounded in the language and instructional intent of the 2019 Charter Petition while accounting for the current enrollment realities and educational needs of the adult learners Highlands serves. The purpose of this document is to articulate a coherent and defensible instructional framework that preserves academic continuity for students, aligns assessment to instructional need rather than enrollment status, maintains compliance with CALPADS and ADA reporting requirements, and establishes clear, assessment-informed pathways toward full participation in Grade 12 diploma-oriented coursework. Collectively, this plan is intended to demonstrate Highlands' progress toward curing the grade-level concerns identified in the Notice of Violation.

This work reflects Highland's deep commitment to its students and community, and its recognition that alignment to the charter represents a substantive instructional responsibility rather than a procedural exercise. The framework reflects a deliberate shift away from instructional assumptions that, while well intentioned, have not consistently aligned with research, best practice, or the lived educational realities of adult learners with interrupted or limited formal schooling. In their place, Highlands affirms an approach informed by evidence-based instructional design, established principles of adult education, English language

development research, and developmentally responsive learning progression. At its core, this plan centers dignity, care, and accountability by meeting students where they are academically, preserving momentum toward graduation, and expanding access to meaningful academic and career pathways. Through this approach, Highlands commits to an educational model that is instructional sound, operational compliant, and worthy of the trust placed in it by students, families, authorizer, and the broader educational community.

Background and Procedural Timeline Regarding Grade Level Alignment

The HCCS petition for renewal approved in 2019 specifies that HCCS will serve grades 1,2 and 12. In 2021, responding to feedback from numerous stakeholders, HCCS began serving grades 9,10 and 12. A system was established to assign students to grade levels based on credit attainment, and all grades 1 and 2 students were redesignated to high school. TRUSD was aware of this change in grade levels served. In 2024, the District contacted HCCTS asking for clarification on how grade levels were assigned and eventually requesting the addition of 11th grade by correspondence dated August 5, 2024:

> *"TRUSD believes that HCCTS should include 11th grade in its High School program for both HCCS and CICA. The current profile of the High School track is structured as a regular high school program, and the omission of 11th grade presents an inconsistency that needs to be addressed to ensure proper reporting and progress tracking."*

Upon receipt of the Notice Of Violation which indicated the District's view that a material revision was necessary, HCCTS began work on a material revision to the charter to serve grades 9, 10, 11 and 12. This material revision was submitted on October 10, 2025 and then again on December 2, 2025. It incorporates changes in response to initial feedback from TRUSD staff.

In the course of discussions on the material revision, it became clear that there were significant details to work in the educational program language that accompanies the grade level changes before the material revision would be satisfactory to TRUSD staff and the district staff would not have time to provide additional feedback, nor would HCCS have time to re-submit material revision changes on the educational program before the January 2 cutoff date. Given the limited time, HCCS elected not to address grade levels in the proposed material revision and instead simply address compliance with site requirements and make other necessary legal updates. HCCS continues to work on the details of a material revision to the charter in order to present an education program properly aligned with high school grades 9, 10, 11, and 12 which addresses District feedback and provides all the necessary intensive English Language support for all students to complete their education.

Absent an approved material revision, HCCS has committed to complying with the grade levels outlined in the Charter in order to cure the Notice of Violation. The preliminary plan involved

moving all currently enrolled high school students to grade 12 and assessing incoming students for placement in grades 1, 2 or 12 based on CASAS testing, with any students previously enrolled in high school admitted to grade 12.

In a meeting on December 16, 2025, HCCS was informed by TRUSD staff that the District believed that the charter would not allow for moving all currently enrolled high school students to 12th grade. Their reading of the charter dictates that placement in the high school program be based upon CASAS testing. The reading presented by the District staff would require changing the grade level of high school students currently enrolled in grades 9 or 10 to elementary grades 1 and 2. Respectfully, HCCS disagrees with this reading of the charter. The intended purpose of CASAS testing in the charter is to serve as a method of measuring progress, an aid to placement, and an indicator of readiness to redesignate from an English Language Development program as represented in CALPADS by grades 1 and 2 to a High School program. HCCS is concerned about the impact this restructuring would have on its students including potential disruption to academic continuity and the adverse effect on student motivation and persistence. We feel that the addition of further designated English Language support with additional layers integrated support in core curriculum within the current instructional program would serve students best. The redesignation of students based solely on CASAS scores is not aligned with the intended use of CASAS assessments as described in the charter and is inconsistent with recognized best practices in adult education and English language development. Research based guidance emphasizes the use of multiple measures to inform instructional placement, differentiated support, and readiness for advancement within an instructional program, rather than using a single assessment to determine grade level assignment or promotion; both the CASAS Technical Manual and the California English Learner Roadmap describe CASAS as a tool for instructional planning and progress monitoring, not as a mechanism for retroactive grade level reassignment once students are formally enrolled in a high school program. Additionally, HCCS is concerned that redesignating students who are currently designated as high school students to Grades 1 or 2 within CALPADS would be misaligned with the intent of California Education Code, established CALPADS reporting conventions, and recognized best practices in adult education and English language development, and would set a precedent that conflates instructional support needs with grade level enrollment in ways that are inconsistent with research based placement and progression models.

In light of this procedural history and the differing interpretations regarding grade level determinations, the proposal that follows returns to the language, structure, and intent of the 2019 Highlands Community Charter School Reauthorization Petition in order to offer an instructional program that is compliant with the grade levels as specified in the charter while offering instructional pathways designed to meet the needs of the population HCCS serves.

Academic Grade Configuration and High School Designation as Outlined within the HCCS 2019 Petition

This overview provides an academic and programmatic interpretation of how grade levels are defined and operationalized within the 2019 Highlands Community Charter School Reauthorization Petition. The intent is to ensure a shared understanding of how the petition identifies a clearly defined grade configuration consisting exclusively of Grades 1, 2, and 12. This configuration establishes the instructional architecture of the school and frames how students are cohorted, supported, and progressed through the educational program.

Within this structure, the petition consistently differentiates between two distinct instructional pathways:

- **Grades 1 and 2**, which serve as foundational learning environments designed to support adult learners through intensive English Language Development, early literacy acquisition, foundational mathematics, and targeted academic intervention. Instruction in these grades is intentionally structured to address identified learning gaps, build core academic skills, and prepare students for increased instructional rigor and full participation in Grade 12 diploma-oriented coursework.
- **Grade 12**, which functions as the school's high school program.

No additional grade levels are described or implied in the petition. All references to high school instruction, academic credit, and completion outcomes are largely anchored to Grade 12, underscoring its unique role within the overall program design.

While the grade distinctions of Grades 1, 2, and 12 will be implemented with fidelity as outlined in the charter petition, careful consideration must be given to students currently enrolled at Highlands Community Charter School in Grades 9 and 10. To avoid disruption to existing students' progress toward high school graduation and to preserve established instructional support structures, HCCS proposes that these cohorts remain in their current grade-level designations while Highlands continues to seek a material revision in spring 2026 pertaining to these grade levels and grade 11. Students in Grades 9 and 10 will continue to receive targeted instructional support and remediation within their existing pathways, rather than being reassigned to substantially lower grade levels such as Grades 1 or 2. Additionally, former students of Highlands who were previously placed in grades 9 or 10 and are now on the waitlist seeking to return would be placed in the appropriate high school grade level (e.g., in grade 9 if they started but had not yet completed 9th grade, or in 10th grade if they previously completed 9th grade or in 12th grade if they have transitioned from 9th and 10th grades).

High School Enrollment, Credit Accumulation, and Completion

The petition characterizes high school progress through the completion of coursework and the attainment of graduation outcomes, rather than through traditional grade-to-grade promotion.

Within this framework, graduation is presented as the culminating academic milestone for high school (Grade 12) students.

This distinction is significant in that:

- Graduation is treated as an outcome associated with Grade 12 participation.
- Credit accumulation and course completion are features of a grades 9-12 instructional model.
- Grades 1 and 2 (ELD) are not positioned as a culminating pathway and are *designed to support readiness for full enrollment in the Grade 12 diploma track*.

Instructional Progression from English Language Development (Grades 1, 2) to High School (Grade 12) Coursework

The petition describes a structured instructional progression through which students receiving English Language Development instruction build readiness for full participation in Grade 12 diploma-oriented coursework. This progression reflects a shift in instructional focus and academic expectations rather than a change in grade level determination.

Once a student's high school participation is established through CALPADS enrollment, ADA generation, and the earning of high school credit, instructional readiness should be demonstrated by access to Grade 12 coursework, not by changing the student's grade-level.

Foundational Instructional Contexts: Grades 1 and 2 (English Language Development)

Instruction in Grades 1 and 2 in the charter emphasizes foundational learning aligned to student readiness and includes the following components:

  - English Language Development across reading, writing, listening, speaking, grammar, and syntax.
  - Foundational literacy and numeracy development.
  - Instruction in foundational mathematics, science, and social science is provided to strengthen academic readiness and contextual understanding, with a clear focus

Current Grades 9 and 10 Instructional Context and Spring 2026 Transition Plan

Assuming no additional material revision is approved by the TRUSD Board in spring 2026 that would make grades 9, 10 and 11 permanent, Highlands' plan for the Spring 2026 semester is to utilize Grades 9 and 10 as temporary instructional contexts for students who are currently enrolled or had been enrolled in the high school program and whose assessment data indicate the need for intensified foundational support prior to full participation in Grade 12 diploma oriented coursework. While Grades 9 and 10 are not explicitly identified within the 2019 Charter Petition, their use during this period is intended to preserve continuity of enrollment, instructional

stability, and progress toward graduation while the school realigns fully to the approved grade configuration of Grades 1, 2, and 12.

Students currently assigned to Grades 9 and 10 during Spring 2026 will remain enrolled in the high school program, retain their CALPADS high school designation and continue earning or remaining eligible for transcripted high school credit. Instruction within this context is designed to address documented learning needs while preparing students for appropriate transition into High School (Grade 12), and standards aligned course of study.

Upon students' return for the Spring 2026 semester, all students currently placed in Grades 9 and 10 will be reevaluated using CASAS, comprehensive teacher evaluation, additional instructional measures to determine appropriate placement, and student self-assessment, all consistent with the charter petition.

Assessment results will inform one of the following transitions:

- Transition into Grade 12 for students who demonstrate sufficient instructional readiness to access high school graduation requirements
- Transition to CICA for fall 2026 if the students are not demonstrating readiness for grade 12 standards, and a material revision authorizing grades 9, 10 and 11 at Highlands is not approved in Spring 2026 by TRUSD.

This reassessment and transition process reflects the school's commitment to aligning instructional placement with demonstrated academic need while returning grade level enrollment to the charter approved configuration. Grades 9 and 10 will function solely as interim instructional contexts during this alignment period if a material revision is not approved, and are not intended to represent permanent grade level offerings under the existing charter.

This approach ensures instructional responsiveness, protects students' progress toward graduation, and maintains compliance with CALPADS reporting and the academic framework established in the 2019 Charter Petition.

New students enrolling in Highlands will be placed in grades 1, 2 or 12 pursuant to the criteria contained in the charter, thus effectuating immediate full compliance for all new students even as the existing students are going through a transition period.

Grade 12 Instructional Context (High School Program)

Grade 12 represents the instructional context in which students engage in coursework aligned to high school graduation requirements, including:

- Instruction across all high school content areas required for diploma completion.
- Core academic instruction aligned to graduation standards.

- Ongoing instructional support and monitoring consistent with reclassification guidance.
- Access to Career and Technical Education pathways for students who meet a minimum CASAS Reading score of 220.

Assessment Informed Readiness for Grade 12 Coursework

Readiness for increased academic rigor and access to Grade 12 coursework is informed by assessment data, including:

- A minimum CASAS Reading score of 220

Instructional Placement Levels and CALPADS Grade-Level Stability (Rationale)

At Highlands Community Charter School, we intentionally distinguish between a student's official grade-level enrollment and the instructional support the students require. A student's CALPADS grade level reflects the academic program in which the student is formally enrolled, while instructional placement levels are used to determine the intensity and type of instruction needed to support progress at any given time.

Once a student is enrolled in grades 9–12, earning high school credit, and generating ADA, the student's CALPADS grade level remains within the high school band. This stability is essential to maintaining accurate transcripts, tracking graduation progress, ensuring proper course reporting, and preserving ADA integrity. Instructional needs are addressed separately through flexible placement levels that operate outside of CALPADS, and are implemented through the master schedule, course design, English Language Development service models, and documented academic interventions.

By using instructional placement levels as a tool for differentiation rather than changing grade level enrollment, HCCS is able to respond thoughtfully to assessment data, adjust instruction as students grow, and provide appropriate support while maintaining clear, compliant, and auditable state reporting.

This approach is further supported by established practice at Highlands Community Charter School during the 2021–22 academic year, when Grades 9 and 10 were formally added to the high school program. At that time, students enrolled in Grades 9 and 10 were appropriately designated in CALPADS as high school students while receiving differentiated instructional support based on assessed need. Maintaining CALPADS high school designation for current Grades 9 and 10 students is therefore consistent with prior implementation, reflects continuity in program design, and reinforces an instructional model that preserves enrollment stability while allowing flexibility in service delivery.

Role of Assessment in Program Placement

Highlands Community Charter School (HCCS) uses a multi-measure assessment framework to guide student placement, instructional planning, and progression. Placement decisions are grounded in demonstrated readiness and academic development rather than age or time in the program.

Assessment System Overview

Placement and progression decisions are informed by the following measurements:

1. CASAS Standardized Assessments
    a. Reading
    b. Math*
    c. Listening (Grades 1-2, & Grades 9-10)
2. Internal Benchmark Assessments: Level Exit Tests (ELD Only)
3. Teacher Evaluation and Student Self-Assessment
4. Publisher-Embedded Assessments (e.g., SAVVAS, Burlington English, & Edmentum) and Samples of Student Work

*Although the 2019 Petition states all students will participate in the CASAS math assessment, CASAS does not offer a math assessment for English Language Development students. For this reason, we will only offer CASAS Math to non-ELD students.

No single measure is used in isolation.

INSTRUCTIONAL STAGES: HIGH SCHOOL 12 & NEWCOMER PATHWAY 1,2 FRAMEWORK

Instructional Stage (HCCTS Placement Exam)	Program	ESL Level	NRS Level	CASAS Scale	Teacher Evaluation & Student Self Assessment	Instructional Focus
Emerging Literacy	Foundational Literacy (ELD)	ESL 1	NRS ESL 1	Reading (≤170)	Not Considered	Foundational literacy & oral language
Literacy	Foundational Literacy (ELD)	ESL 1	NRS ESL 1	Reading (171–183)	Not Considered	Early reading & writing
Low Beginning	Foundational Literacy (ELD)	ESL 1	NRS ESL 2	Reading (184–196)	Not Considered	Sentence-level comprehension
High Beginning	High School w/ Intensive Support	ESL 2	NRS ESL 3	Reading (197–206)	Considered	Paragraph development
Intermediate	High School w/ Support	ESL 2	NRS ESL 4	Reading (207–227)	Considered	Academic language growth
High School	High School	ESL 2+	NRS ESL 4 and +	Reading (227+)	Not Required	Diploma Completion

CASAS as the Universal Benchmark Tool

CASAS Reading serves as a universal benchmark assessment for pathway and grade-level placement, with Math and Listening used to refine instructional support. Internal placement and curricular embedded assessments support teacher evaluation and student self-assessment in reviewing readiness for progression through instructional stages more comprehensively.

ELD: Grades 1 and 2

Students with CASAS Reading scores aligned to emerging through high-beginning literacy levels are placed in Grades 1–2, where instruction emphasizes:

- Foundational literacy and numeracy
- English language development across all domains
- Academic readiness and acculturation
- Foundation mathematics, science, social science

High School Program – Grades 9 and 10

Students previously enrolled and placed in Grades 9 and 10 are currently designated as high school students. Instructional placement within Grades 9 and 10 was informed by CASAS Reading data, teacher evaluation, student self assessment, and other assessment measures and emphasizes:

- Intensive and targeted English Language Development aligned to student readiness
- Development of academic language and literacy necessary for access to diploma-oriented coursework
- Foundational mathematics instruction and targeted academic intervention to address identified learning gaps
- Scaffolded instruction in science and social science to build disciplinary language and academic context
- Ongoing instructional monitoring and support to prepare students for full participation in Grade 12 coursework

Instructional support for Grades 9 and 10 currently operate within the high school program and do not alter CALPADS grade-level enrollment. Assessment data are used to determine instructional intensity and service delivery rather than grade-level placement.

These two grades will phase out at the end of Spring 2026 in the event that a material revision is not approved.

High School Program – Grade 12

Students demonstrating intermediate-to-advanced CASAS Reading proficiency are placed in Grade 12, where instruction emphasizes:

- Academic language development
- Full credit-bearing coursework
- Preparation for graduation and career pathways

Internal Benchmarks and Ongoing Monitoring

Internal benchmark assessments are administered to ELD students regularly to monitor progress, validate placement, and guide instructional adjustments. Benchmarks align to English language development objectives, literacy, numeracy, and course-level learning outcomes.

Teacher Evaluation and Student Self-Assessment

Teacher evaluation provides professional judgment grounded in ongoing formative assessment of student performance, engagement, and readiness for instructional progression. Student self assessment complements this process by supporting goal setting and offering insight into learners' self perceived readiness and confidence. Together, these measures are incorporated at initial orientation and at key transition points to ensure placement decisions are responsive, developmentally appropriate, and equitable, particularly for adult learners whose prior educational experiences may not align with traditional assessment structures commonly used within the United States.

Curriculum-Based Evidence of Learning

Publisher-embedded assessments and authentic samples of student work are used to document growth and mastery. These measures provide qualitative and formative evidence that complements standardized and benchmark data.

Program Transitions

Transitions between the grades 1-2 and the High School Program (Grade12) are determined through a holistic review of the four components for redesignation contained on page 102 of the charter. Advancement reflects demonstrated readiness for academic language use and diploma-oriented instruction, not time-based promotion. The same can be said for program transition between grades 9-10 and 12.

- Redesignation Criteria to enter grade 12:
    - CASAS minimum reading score of 220
    - ELD Teacher Formative & Summative Assessments. Summative exit assessments to be administered, minimally, at the conclusion of each term.
    - Student Self Assessment
    - Student Information System (PowerSchool) utilized to conduct cohort evaluation to determine comparative growth.

This assessment-driven approach reinforces the distinction between the different programs grades 1-2, grades 9-10, and grade 12 at HCCS.

References to grades 9 and 10 will only be applicable in Spring 2026 unless a material revision is approved to make them permanent,

Coherence and Internal Alignment

- New students who do not possess a high school transcript, require intensive designated English Language Development instruction, and demonstrate CASAS Reading assessment scores below 220 or National Reporting System Level 4 will be assigned to Grades 1 or 2 as foundational instructional contexts designed to build readiness for high school coursework.
- Exemption: Students currently enrolled in Grades 9 and 10 are formally designated as high school students and participate in diploma oriented instruction with differentiated instructional supports informed by assessment data. These grades currently function as preparatory stages within the high school program, supporting academic language

development, foundational skill strengthening, and readiness for full participation in Grade 12 coursework. They will not be reclassified in Spring 2026.

- Full academic credit accumulation, graduation eligibility, and diploma completion outcomes are addressed in connection with Grade 12 participation, reflecting the culminating instructional context of the high school program.

Concluding Academic Interpretation

The 2019 Reauthorization Petition establishes Grade 12 as the primary academic designation for students fully participating in the high school diploma track. Students assigned to Grade 12 engage in credit bearing coursework, progress toward graduation, and complete the requirements associated with earning a high school diploma. Students designated as Grades 9 and 10 during the 2025–2026 school year remain enrolled in the high school program and engage in high school level credit bearing coursework aligned to diploma requirements, with language development and instructional support provided as needed. New students assigned to Grades 1 and 2 participate in English Language Development and foundational instruction integrated across content areas and aligned with state content standards. These cohorts of students are not considered part of the high school program until they demonstrate readiness for access to Grade 12 coursework through a formal, assessment informed instructional transition.

This instructional framework reflects a purposeful alignment between assessment, program placement, and student progression, supporting adult learners through a coherent and developmentally responsive educational pathway.

Recommended Assignment Considerations

Assignment: Grades 1 and 2 (English Language Development)

- Grades 1 and 2 function as foundational instructional contexts for newly enrolling students.
- Assignment occurs only at initial enrollment and is informed by CASAS assessment data, prior educational history, the Home Language Survey, and documented instructional need.
- Instruction prioritizes intensive English Language Development, foundational literacy and numeracy, and targeted academic intervention delivered across content areas and aligned with all applicable state content standards.
- Placement in Grades 1 and 2 does not represent high school enrollment in CALPADS.
- These instructional contexts are designed to build readiness for access to Grade 12 diploma-oriented coursework in alignment with the California English Learner Roadmap.

Assignment: Grade 12

- Grade 12 represents full participation in the high school instructional program.
- Students earn transcripted high school credit toward graduation.
- Grade level enrollment remains stable and is not adjusted based on instructional need.

Academic Rationale for Instructional Placement Grades 9 and 10

- Some high school students demonstrate assessment results indicating the need for additional instructional support.
- HCCS addresses these needs through intensified English Language Development, foundational mathematics, and targeted academic intervention delivered within the high school program.
- Instructional placement levels are documented in the student information system and guide service delivery.
- Students enrolled in grades 9 and 10 remain enrolled in the high school program in CALPADS until comprehensive assessment and evaluations are completed through the end of the Spring semester 2026.
- This approach ensures compliance with state reporting requirements while supporting equitable access, instructional coherence, and progress toward full participation in Grade 12 diploma oriented instruction.
- Instructional support is provided through designated and integrated English Language Development, intervention courses, and differentiated scheduling consistent with EL Roadmap principles.
- If a material revision to add Grades 9, 10, and 11 to the charter is not approved in Spring 2026, placement of students who would otherwise enroll in these grade levels will be determined through comprehensive assessment protocols, and students for whom Highlands Community Charter School cannot offer an authorized instructional placement will be referred to California Innovative Career Academy (CICA).

Deliverables and Timelines

Instructional Launch: January 12, 2026

Phase 1: Charter Alignment and Enrollment Controls

December 29, 2025 – January 12, 2026 Deliverables

- Formal affirmation that the charter authorized grade configuration consists of Grades 1, 2, and 12.
- Implementation of enrollment protocols ensuring that all new students enrolled on or after January 12, 2026 are placed only into:

    - Grades 1–2, as a unified foundational English Language Development and literacy program for students who do not possess a high school transcript or demonstrate readiness for diploma oriented coursework; or
    - Grade 12, for students who have completed prior high school coursework or demonstrate readiness for graduation aligned instruction.
- Documentation confirming that Grades 9 and 10 are not used for new student enrollment, but may continue to serve:
    - Students currently enrolled at Highlands, and
    - Returning students previously enrolled at Highlands, placed according to documented coursework completion (for example, placement in Grade 9 if 9th grade was not completed, Grade 10 if 9th grade was completed, or Grade 12 if both Grades 9 and 10 were completed).

Phase 2: Curriculum, Systems, and Instructional Readiness

December 29, 2025 – January 5, 2026 Deliverables

- Finalization and documentation of instructional materials for the Grades 1–2 foundational program, aligned to English Language Development, foundational literacy, and foundational mathematics.
- Verification that instructional programming aligns exclusively to charter authorized grades.
- Activation of digital curriculum access and instructional platforms.
- Archival of curriculum and instructional documentation to support audit and compliance review.

Phase 3: Scheduling and Staffing Alignment

January 5, 2026 – January 9, 2026 Deliverables

- Construction of Grades 1–2 class schedules for newly enrolling students.
- Assignment of appropriately credentialed instructional staff to support the Grades 1–2 foundational program.
  Construction of second semester course schedules for students currently enrolled in Grades 9, 10, and 12, ensuring:
    - Continuity of enrollment and instruction,

    - Access to integrated English Language Development and foundational literacy supports within core academic coursework, and
      No disruption to transcripted credit accumulation or graduation progress.
- Confirmation that Grades 9 and 10 scheduling is limited to continuing or returning students only.

Phase 4: Assessment Review and Instructional Placement Confirmation

January 6, 2026 – January 10, 2026 Deliverables

- Review of CASAS Reading results, National Reporting System indicators, teacher evaluation, and other instructional measures for all continuing students.
- Assignment of instructional placement levels within the student information system to guide service delivery.
- Confirmation that instructional placement decisions do not alter CALPADS grade level enrollment.
- Documentation validating ADA integrity, transcript continuity, and compliance with state reporting requirements.

Phase 5: Instructional Launch

January 12, 2026 Deliverables

- Launch of the Grades 1–2 foundational instructional program for newly enrolling students.
- Implementation of revised second semester schedules for existing Grades 9, 10, and 12 students.
- Delivery of instruction aligned to:
    - The charter authorized grade configuration,
    - The California English Learner Roadmap, and
    - Evidence based adult education and language development practices.

Phase 6: Monitoring, Transition Planning, and Material Revision Review

January 13, 2026 – Spring 2026 Deliverables

- Ongoing monitoring of student progress using CASAS, internal benchmarks, and instructional data.

Continued documentation of instructional placement levels to support differentiated instruction.
Preparation and submission of a Material Revision to TRUSD early in the Spring 2026 semester seeking authorization for Grades 9, 10, and 11.

- Development of a Fall 2026 transition plan that:
    - Fully implements only Grades 1–2 and Grade 12 if the material revision is not approved, and
    - Ensures students are placed based on completed coursework, readiness, and continuity of instruction.

Phase 7: Full Charter Alignment

Fall 2026 Deliverables

- Full implementation of the charter authorized grade configuration of Grades 1–2 and Grade 12 only, if no material revision is approved.
- Transition or referral of students who cannot be served within the authorized grade span to appropriate partner programs.
- Final documentation demonstrating resolution of the grade level concerns identified in the Notice of Violation.

If you have any questions or further concerns regarding this matter, please do not hesitate to reach out to me.

Sincerely,

Jonathan Raymond
Executive Director

Assurances, Affirmations, and Declarations

As the authorized lead petitioner, I hereby certify that the information submitted in petition for renewal of Highlands Community Charter School ("HCCS" or the "Charter School"), located within the boundaries of the Twin Rivers Unified School District ("TRUSD" or the "District") is true to the best of my knowledge and belief; I also certify that this petition does not constitute the conversion of a private school to the status of a public charter school.

Highlands Community Charter School shall:

- Be nonsectarian in its programs, admission policies, employment practices, and all other operations. (California Education Code (hereinafter "Ed. Code") § 47605(e)(1).)

- Not charge tuition. (Ed. Code § 47605(e)(1).)

- Not discriminate against any pupil on the basis of the characteristics listed in Ed. Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics). (Ed. Code § 47605(e)(1).) The Charter School shall also comply with AB 715 (2025).

- Admit all pupils who wish to attend Charter School (Ed. Code § 47605(e)(2)(A).) unless HCCS receives a greater number of applications than there are spaces for students, in which case it will hold a public random drawing to determine admission. Except as required by Education Code Section 47605(e)(2), admission to HCCS shall not be determined according to the place of residence of the student or of that student's parent or legal guardian within the State. Preference in the public random drawing shall be given as required by Education Code Section 47605(e)(2)(B)(i)-(iv). In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of HCCS in accordance with Education Code Section 47605(e)(2)(C). (Ed. Code § 47605(e)(2)(A)-(C).)

- If a pupil is expelled or leaves Charter School without graduating or completing the school year for any reason, notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades and health information. If the pupil is subsequently expelled or leaves the school district without graduating or completing the school year for any reason, the school district shall provide this information to the Charter School within 30 days if the Charter School demonstrates that the pupil had been enrolled in the Charter School. (Ed. Code § 47605(e)(3).)

- The Charter School may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance to, or continued enrollment at, the Charter School. [Ref. Education Code Section 47605(n)]

- The Charter School shall adhere to each of the conditions in Education Code Section 47605(e)(4)(A)-(D), including: (A) not discouraging a student from enrolling or seeking to enroll

in the Charter School for any reason; (B) not requesting a student's records or requiring a parent, guardian, or student to submit the student's records before enrollment; (C) not encouraging a student currently attending the Charter School to disenroll or transfer to another school for any reason; and (D) providing a copy of the California Department of Education ("CDE") notice regarding the requirements in Education Code Section 47605(e)(4)(A)-(D) to a parent/guardian or student if the student is 18 years of age or older: (i) when a parent/guardian or student inquires about enrollment (ii) before conducting an enrollment lottery, or (iii) before disenrollment of a student. [Ref. Education Code Section 47605(e)(4)(A)-(D)]

- Meet all statewide standards and conduct the pupil assessments required pursuant to Education Code section 60605 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in non-charter public schools. (Ed. Code § 47605(d)(1).)

- Consult, on a regular basis, with Charter School's students and teachers regarding the Charter School's educational programs. (Ed. Code § 47605(d)(2).)
- Adhere to all provisions of federal law related to students with disabilities including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Individuals with Disabilities Education Improvement Act of 2004.

- Meet all requirements for employment set forth in applicable provisions of law, including but not limited to credentials, as necessary. (Title 5 California Code of Regulations § 11967.5.1(f)(5)(C).)

- Ensure that teachers in the Charter School hold the Commission on Teacher Credentialing certificate, permit, or other document required for the teacher's certificated assignment. The Charter School may use local assignment options authorized in statute and regulations for the purpose of legally assigning certificated teachers, in accordance with all of the requirements of the applicable statuses or regulations in the same manner as a governing board of a school district. (Ed. Code § 47605(l)(1).)

- At all times maintain all necessary and appropriate insurance coverage.

- For each fiscal year, offer, at a minimum, the number of minutes of instruction per grade level as required by Education Code § 47612.5(a)(1)(A)-(D).

- Maintain accurate and contemporaneous written records that document all pupil attendance and make these records available for audit and inspection. (Ed. Code § 47612.5(a)(2).)

- Comply with any applicable jurisdictional limitations to the locations of its facilities. (Ed. Code § 47605; Ed. Code § 47605.1.)

- Comply with all laws establishing the minimum and maximum age for public school enrollment. (Ed. Code §§ 47612(b) and 47610.)

- Comply with all applicable portions of the Elementary and Secondary Education Act ("ESEA'), as reauthorized and amended as the Every Student Succeeds Act ("ESSA").

- Comply with the Public Records Act.

- Comply with the Family Educational Rights and Privacy Act.
- Comply with the Ralph M. Brown Act.
- Comply with Government Code Section 1090, *et seq.,* as set forth in Education Code Section 47601.1.
- Comply with Political Reform Act, Government Code Section 81000, *et seq.*
- Meet or exceed the legally required minimum number of school days. (Title 5 California Code of Regulations § 11960.)
- Comply with the provisions of AB 49 (2025) including but not limited to provisions relating to the collection and disclosure of information or documents regarding citizenship or immigration status of students or their family members.

Charter School declares that it shall be deemed the exclusive public school employer of Charter School's employees for the purposes of the Educational Employment Relations Act.

Element 1: The Educational Program

The educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners. **(Ed. Code § 47605(c)(5)(A)(i).)**

The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals. **(Ed. Code § 47605(c)(5)(A)(ii).)**

If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A" to "G" admissions criteria may be considered to meet college entrance requirements. **(Ed. Code § 47605(c)(5)(A)(iii).)**

General Information

1.1: General Information Table

GENERAL INFORMATION

The contact person for Charter School is:	Jonathan Raymond
The contact address for Charter School is:	1333 Grand Ave, Sacramento, CA 95835
The address or ZIP Code of the target community to be served by Charter School is:	95838
This location is in TRUSD Board District:	Yes
This location is in TRUSD Local District:	Yes
County-District-School Code	34-76505-0130757
he grade configuration of Charter School is:	1, 2, 12
The number of students in the current year is	1530
The grade level(s) of the students in the first year are:	1, 2, 12
Charter School's scheduled first day of instruction in 2019-2020 is:	July 8, 2019
The enrollment capacity is:	2150

The type of instructional calendar is:	Multi-track, year-round calendar
The number of instructional minutes is:	Grades 1 and 2: 50,970 Grade 12: 82,740
The current bell schedule for Charter School is:	Grades 1 and 2: M, T, W, F: 8:25–12:25/Th: 8:25–11:40 or M, T, W, F:1:00–5:00/Th: 12:10–2:00 or M-F: 5:00–9:00 Grade 12: M, T, W, F: 8:45–3:15/Th: 8:00–2:00
The term of this Charter shall be from:	July 1, 2019 to June 30, 2027

Community Need for Charter School

Dropouts in the United States

In the United States, a student drops out of high school every nine seconds (Lehr, Johnson, Bremer, Cosio, & Thompson, 2004). That is 7,000 students who drop out of high school every single day. Annually that totals 1.3 million students who fail to graduate (Alliance for Excellent Education, 2011, p. 1). This is especially true of minority students and those who are socioeconomically disadvantaged (Balfanz & Legters, 2004). Non-graduates are far more likely than graduates to be unemployed, to rely on government assistance, or to resort to criminal behavior (Alliance for Excellent Education, 2011). Public high schools in the United States have an 80% graduation rate (Hefling, 2014). However, in large urban school districts that cater to large numbers of children from socioeconomically disadvantaged backgrounds, the graduation rate decreases significantly to 50% (Guryan & Ludwig, n.d.). This has a huge impact on the national, state, and local economy for several reasons, among them, lost tax revenue, higher unemployment rates, dependence on government assistance programs, the community cost of crimes committed, and the cost to incarcerate criminals. By providing access to education and training to students 22 years of age or older, we believe that we will not only improve the lives of our students and their families but also improve the community and the economy. By creating taxpayers, reducing the number of people receiving government assistance, and reducing the number of crimes and criminals, we are improving our community.

Who Is Dropping Out?

A dropout is defined as a student who is between 16-24 years old who is not enrolled in high school and has not earned a high school diploma or an equivalency. According to a study conducted by the National Center for Education Statistics (NCES), when broken down by race and socioeconomic status, minority students and socioeconomically disadvantaged students are dropping out of school at a much higher rate than non-minority students and socioeconomically advantaged students. American Indian students have a dropout rate of 46%; Hispanic and African American students have a dropout rate of 43%; and Asian students have a drop out rate of 17% (Alliance for Excellent Education, 2011, p. 3). Data shows that there is a strong relationship between poverty and high school dropout rates. A study conducted in 2009 showed students from low-income families were five times more likely to drop out of high school than students from high-income families (American Psychological Association, 2012, p. 1). Another study done by the

NCES in 2014 concluded that only 2.6% of students who dropped out of high school were from high-income families and 5.4% of students who dropped out of high school were from medium-income families. Of the Hispanic and African American students in the United States, approximately half of them are served by high schools in predominantly low-income neighborhoods where dropout rates fluctuate between 40% and 50% (Balfanz & Legters, 2004). According to the California Department of Education in the 2013-14 school year 56,756 students dropped out of high school in Sacramento and 52,249 dropped out the following school year. Of those who dropped out in the 2013-14 school year, 20.8% were English language learners, 20.3% were black, 18.8% were Native Americans, and 14.4% were socioeconomically disadvantaged.

Dropouts and Lost Tax Revenue

When a student drops out of high school, there is a huge financial impact at the local, state, and national level. Dropout rates lead to lost tax revenues. According to the *New York Post*, every year high school dropouts cost our nation approximately $1.8 billion in lost tax revenue ("High school dropouts cost $1.8 billion every year," 2013). A study on lost tax revenue conducted by Northwestern University found that the estimated cost per high school dropout is $305,000 in potential economic gain through tax revenues to the local, state, and federal governments (Fogg, Harrington, & Khatiwada, 2008, p. vii). If only 50% of the students who dropped out in California's largest metropolitan areas were recovered, it is predicted that the economic benefits to California would be huge. The dropout recovery would invest approximately $247 million more per year into our local economy. Home sales would increase by 2.92 billion dollars. In California alone, it would increase our state and local tax revenues by $129 million every year (Carter, 2011). As a result, the California Legislature is working to address issues surrounding dropout rates such as providing schools with adequate resources to increase dropout recovery and reduce dropout rates.

Dropouts and Wages

High school graduates and college graduates make significantly more money on average than non-graduates. In 2009, college graduates made an average of $46,930 per year while the average annual wage for a high school graduate was $27,380. The same year, the average annual wage for a high school dropout was $19,540 (Alliance for Excellent Education, 2011, p. 1). Dropouts are three times more likely than college graduates to be unemployed. According to the Georgetown Center on Education and Workforce, 65% of jobs in 2020 will require some form of education.

Dropouts and Crime

High school dropouts are significantly more likely to be convicted of a crime and to be incarcerated than high school and college graduates. A study in 2007 showed that male dropouts aged 16 to 24 were more than six times as likely to be incarcerated than high school graduates. The same study showed that male dropouts were 63 times more likely to be incarcerated than males with a bachelor's degree (American Psychological Association, 2012). In the United States, an overwhelming number of men in our prison system are high school dropouts. According to the Bureau of Justice Statistics, approximately 68% of inmates do not have a high school diploma (Wolf Harlow, 2003), and more than 40% of inmates have less than a high school education. According to the Alliance for Excellent Education, Americans could save 18.5 billion dollars annually in prison systems simply by reducing high school dropout rates by 5% for men age 20-60 (Dianda, 2008).

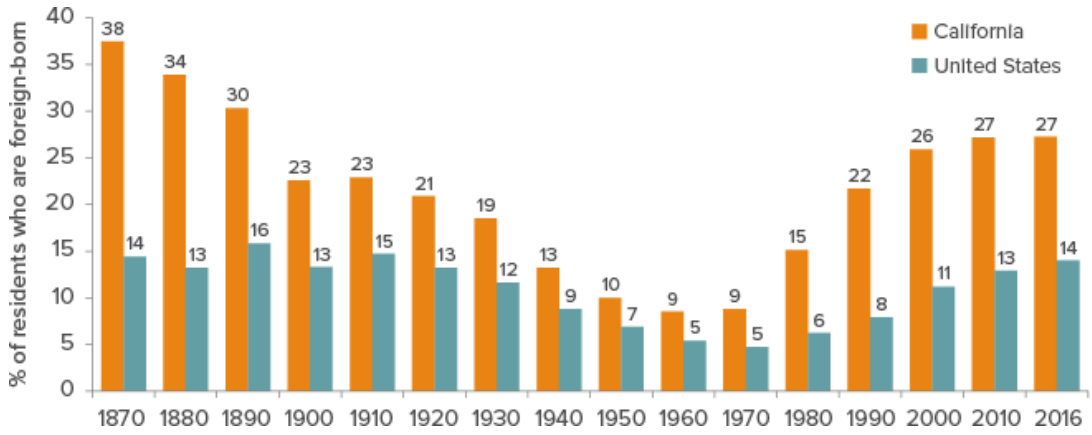
Dropouts and Public Assistance

Dropouts are also more likely to receive government assistance than high school and college graduates (American Psychological Association, 2012, p. 6). Given the lower wage earning potential and the higher unemployment rates, many high school dropouts have inadequate income to live on their own or support a family (Sum, Khatiwada, & McLaughlin, 2009, p. 13). Due to these income inadequacies, high school dropouts are more likely to be on public assistance or federal assistance for needy families. "If all single

mothers obtained at least a high school education, the annual cost savings would be $3.8 billion" (Dianda, 2008, p. 4).

Immigrants in California

According to the Public Policy Institute of California (PPIC), there are approximately 10 million immigrants in California, which is about one quarter of our state's total population. We have more immigrants in California than in any other state in the nation. According to the US Census, half of all children in California have at least one immigrant parent. Of those immigrants, almost 80% of them are working age adults, and approximately 34% of them do not have a high school diploma. Although immigrants are just as likely to work as Americans, they tend to make 24% less money. It is imperative that these immigrants have the opportunity to access education, learn English, complete their high school diploma, and attend vocational and college training. Research shows that many foreign-born immigrant and minorities have lower high school graduation rates. According to the California Department of Education's Fall 2017 of Ed Facts there were 1,271,150 English language learners in the California public school system., which is 20.4% of the total enrollment in California and 2,637,412 speak a language other than English at home. Below is a graph that shows immigrants living in California and the United States by year from 1870-2016.



(Source: US Census Bureau, Decennial Censuses, and the American Community Survey)

Sacramento and the Twin Rivers Unified School District

In 2002, the Civil Rights Project at Harvard University labeled Sacramento the most diverse city in the United States. According to the 2010 US Census, the Sacramento metropolitan area had 2.7 million people; 45% are white, 27% are Hispanic or Latino, 18% are Asian, 15% are black, 7% identified as two or more races, and the remaining are Pacific Islander and Native American (National Center for Education Statistics, 2014). Demographers expect the minority population to continue to grow in Sacramento and it is estimated that by 2050 Sacramento will grow by 54%. It is estimated that in Sacramento 62% of the population speaks English while 38% are English learners. In Sacramento, our minority populations are more likely to experience poverty than the white population. In Sacramento only 14% of the white population is socioeconomically disadvantaged, compared to 28% of the black population, 27% of the Hispanic population, 26% of the Native population, and 23% of people who identified as two or more races, which are all living in poverty. Approximately 63% of people living in Sacramento are participating in the workforce with employment at 56% and unemployment at 10.5%. Minority groups have higher rates of

unemployment with 17% unemployment for our black population, 15% for people who identified as two or more races, and 14% for Native Americans. Level of education is directly related to employment with a positive linear relationship. For people living in Sacramento without a high school education, only 56% of them are employed compared to 70% of high school graduates, 78% with some college, and 87% for those with a bachelor's degree or higher. Within the Twin Rivers Unified School District, 31.7% of students drop out between ninth and twelfth grade with nearly 500 more students who stay enrolled through twelfth grade but do not graduate. According to the 2010 Census, almost 20% of adults living in the Twin Rivers Unified School District do not have a high school diploma or equivalent (Public Policy Institute of California, 2012).

Highlands Community Charter School

Highlands Community Charter Schools offers a quality program of instruction that serves students from a wide range of age, ethnic, cultural and language backgrounds, specifically targeting high school dropouts, parents, immigrants, veterans, former foster youth and ex-offenders. Highlands provides the appropriate primary and secondary career technical education to help students from these groups to succeed. As our mission states, we are "serving the unserved."

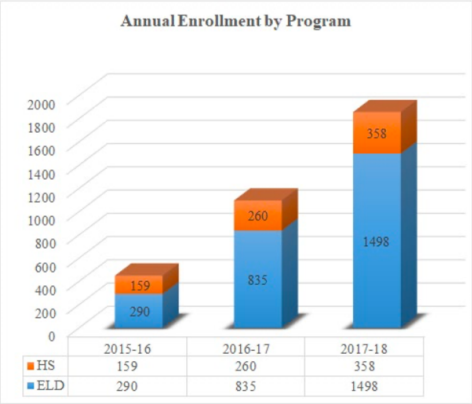
At HCCS we understand the community we serve, and we provide that community with educational tools and opportunities. In California, we have a growing immigrant and refugee population. In order for immigrants and English learners to successfully enter the workforce, they need to improve their English. We have an astounding percentage of adults in our community who have been unable to complete a high school diploma or equivalency. At HCCS we love our community, and we believe that by educating adults, we will see economic growth, civic engagement, a reduction in crime, and a reduced number of our community members relying on government assistance. We foresee that we will continue to grow throughout Sacramento and California in order to meet the growing needs of adults in our state and in our community.

1.2: HCCS Term Performance and Meeting the Needs of the Community

Enrollment

At HCCS our enrollment has grown each year since our doors opened. In the 2015–2016 school year, enrollment was 449; in the 2016–2017 school year, enrollment more than doubled to 1,095; and in the 2017–2018 school year, our enrollment grew again to 1,856 students. In the 2017–2018 school year, the student community experienced a shift in our demographics with a large influx of refugees from Afghanistan. Due to this, the previous primary student language of Spanish was replaced by Farsi/Dari. Many of these refugees were not able to access education in their home countries, and their literacy level at entry was very low. In response to this need, we opened sites in their communities and hired paraeducators who are fluent in Farsi, Dari, and Pashto. HCCS responded to this community need by partnering with community-based organizations that provide refugee assistance like International Rescue Committee, World Relief, Opening Doors and Lao Family Community Development, Inc. Our high school program has also experienced steady growth each year. Even with a very strong labor market, students still continue to enroll into the program and graduate.

Below is a graph that shows our annual enrollment for the 2015–16, 2016–17, and 2017–18 school years for both English Language Development ("ELD") and the High School Completion Program:



This shows that the high school program doubled in size in two years from 159 students in the 2015–16 school year to 358 students in the 2017–18 school year. At the same time, the ELD program grew from 290 students in the 2015–16 school year to 1,498 students in the 2017–18 school year.

Enrollment in CTE

Current CTE programs at HCCS are unique in that some of these programs are offered through our school, and some are extended to students by way of partnerships. At HCCS we have Truck Driving, Early Childhood Education, and Entrepreneurship as part of our internal CTE programs. Our external CTE programs are with Cosmo Beauty Academy and Asher College. Cosmetology and Manicuring are both located at Cosmo Beauty Academy. We also partner with Asher College to extend three programs: A+ Information Technology ("IT"), Medical Office Administration, and Office Administration which includes Microsoft Office certifications. Enrollment numbers in each of these programs can be seen below over the past three years.

Highlands Community Charter School CTE Program Enrollment

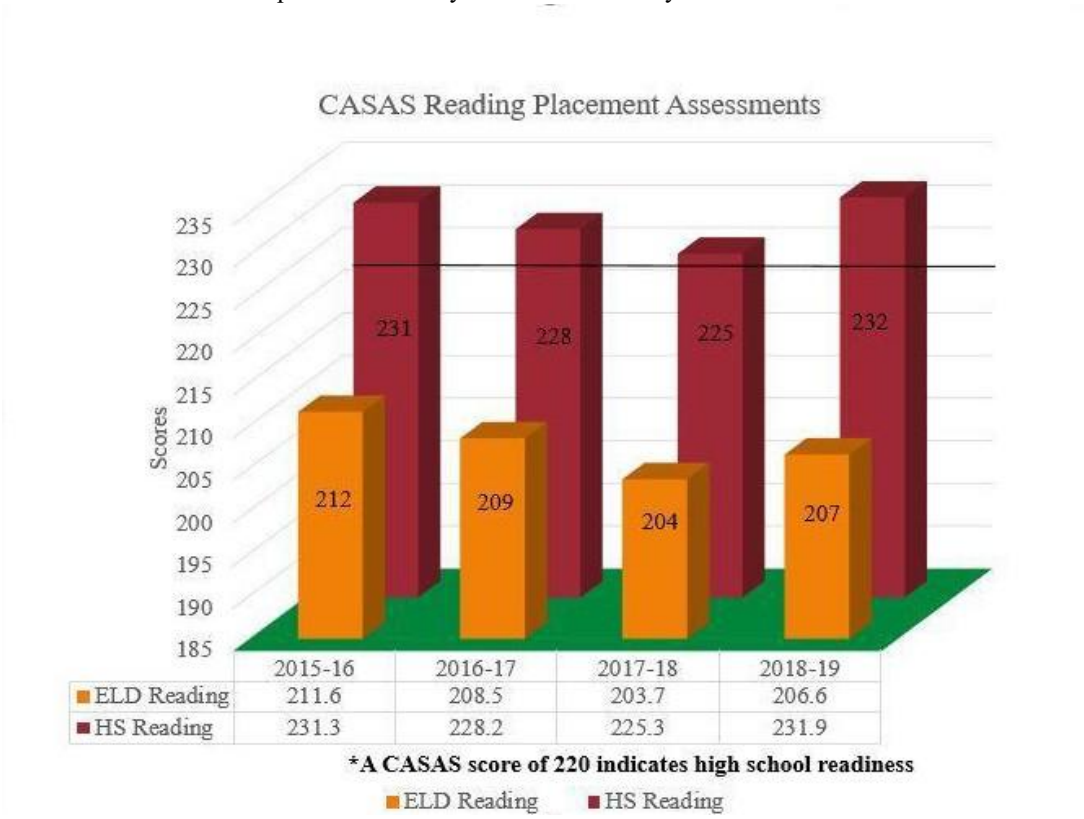
CTE Enrollment				
Program	**15–16**	**16–17**	**17–18**	**Grand Total**
Business	22	30	14	66
Career	159	253	277	689
Early Childhood Education	41	88	88	217
Computer A+ Tech	88	9	13	110
Cosmo Beauty Academy	3	18	25	46
Microsoft Office	41	81	69	191
Truck	140	75	55	270
Grand Total	494	586	649	1729

Assessment

At HCCS we place a high value on student assessment. We use assessments to understand student needs and levels. HCCS also uses assessment to ensure student understanding. The assessment process varies

between ELD and high school, but all programs require various assessments during enrollment and throughout the classes/programs. At HCCS our assessment process begins during enrollment and orientation. All new high school students are given a Comprehensive Adult Student Assessment System ("CASAS") reading and math test during their new student orientation. ELD students are also CASAS tested as part of the enrollment process, but ELD students are tested in reading, math, and listening. ELD students are also given an internally normed speaking test and a writing test by a teacher before beginning classes. These assessments are used to place students in the appropriate classes. These CASAS tests, both in ELD and in high school, are the Life Skills Series provided by CASAS. It is imperative that the content of our lessons is meaningful to the students' lives and relevant to our students' goals.

Below is a bar graph that demonstrates CASAS Reading placement assessments for new high school and ELD students for the three previous school years as well as this year:

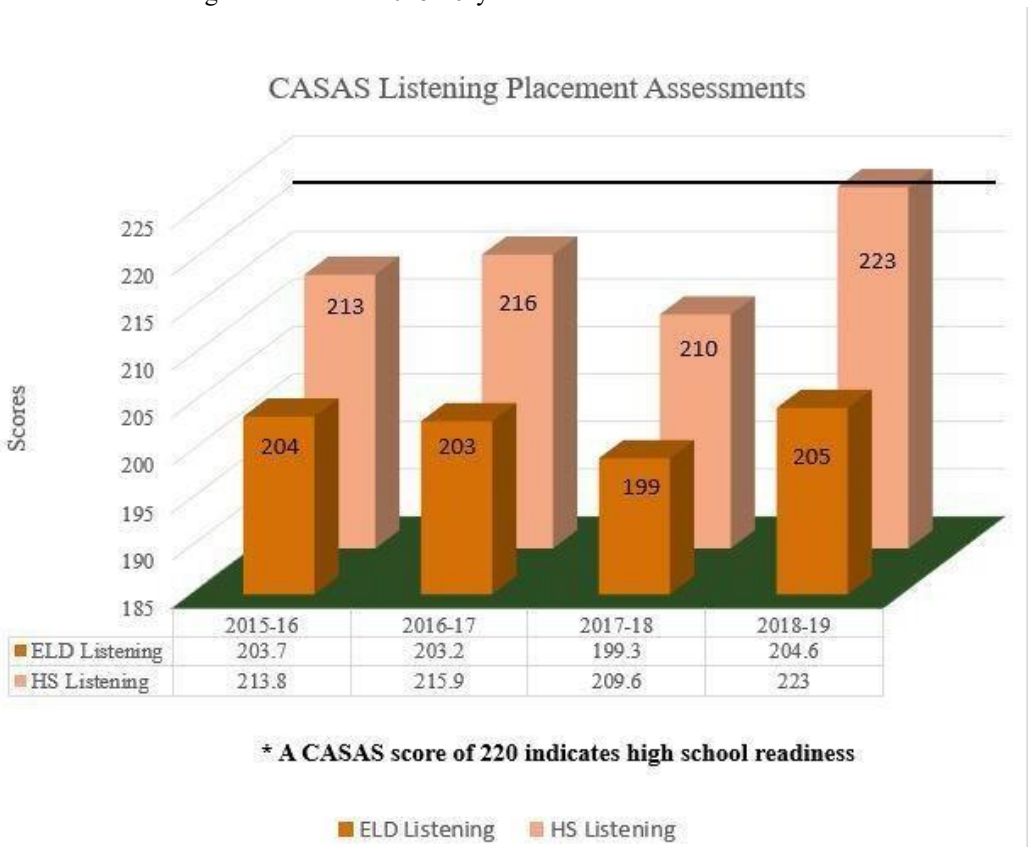


For high school students, CASAS assessments are very important. High school teachers and counselors use the CASAS Reading score to determine if students need to be placed in a remedial reading class called Reading Skills or if the student needs to work with a Reading Specialist. The score is also used to determine if high school students have reading scores required to enter any of Highlands Community Charter School's Career Technical Education ("CTE") programs. Our high school students averaged an entry CASAS reading score of 231 for the 2015–16 school year, 228 for the 2016–17 school year, and 225 for the 2017–18 school year.

In the ELD program, reading scores (as well as other test scores) are used to place students into the appropriate class level. Our ELD students scored lower on average than the high school students with an

average entry CASAS Reading score of 211 for the 2015–16 school year, 208 for the 2016–17 school year, and 203 for the 2017–18 academic year. This average score is largely impacted by the increased number of refugee students HCCS continues to serve. Of the 1,856 students enrolled, 646 are from Afghanistan, Syria, and Iraq. Many of those students enroll into our ELD program with very low rates of English literacy and some without literacy in their first language. These CASAS Reading assessments allow us to identify pre-literacy, non-literacy, and literacy ELD students who need additional support. They also help us to identify the higher level ELD students who are good candidates for the high school/CTE program.

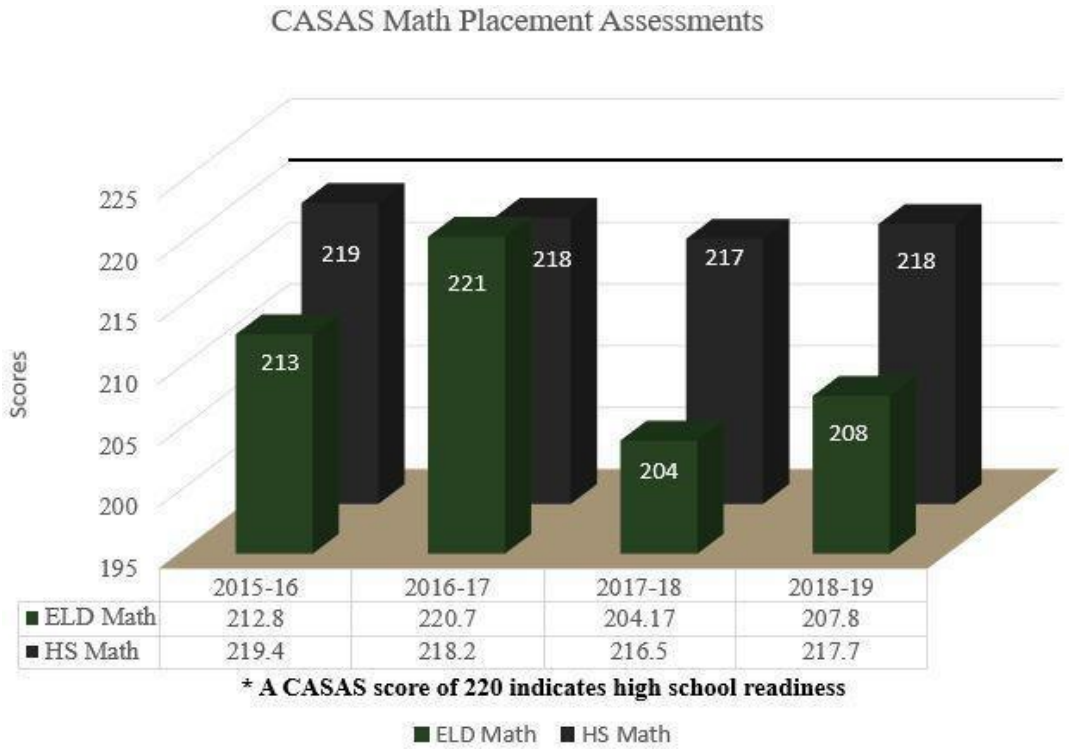
While high school students are not required to take the CASAS Listening assessment, ELD students are. Below is a bar graph that shows the average CASAS listening scores for ELD students over the past three years and what has been gathered for the 2018–19 year so far.



On the CASAS Listening assessment, ELD students had an average score of 203 in the 2015–16 school year, 203 in the 2016–17 school year, 199 for the 2017–18 school year, and 204 for the 2018–19 academic year so far.

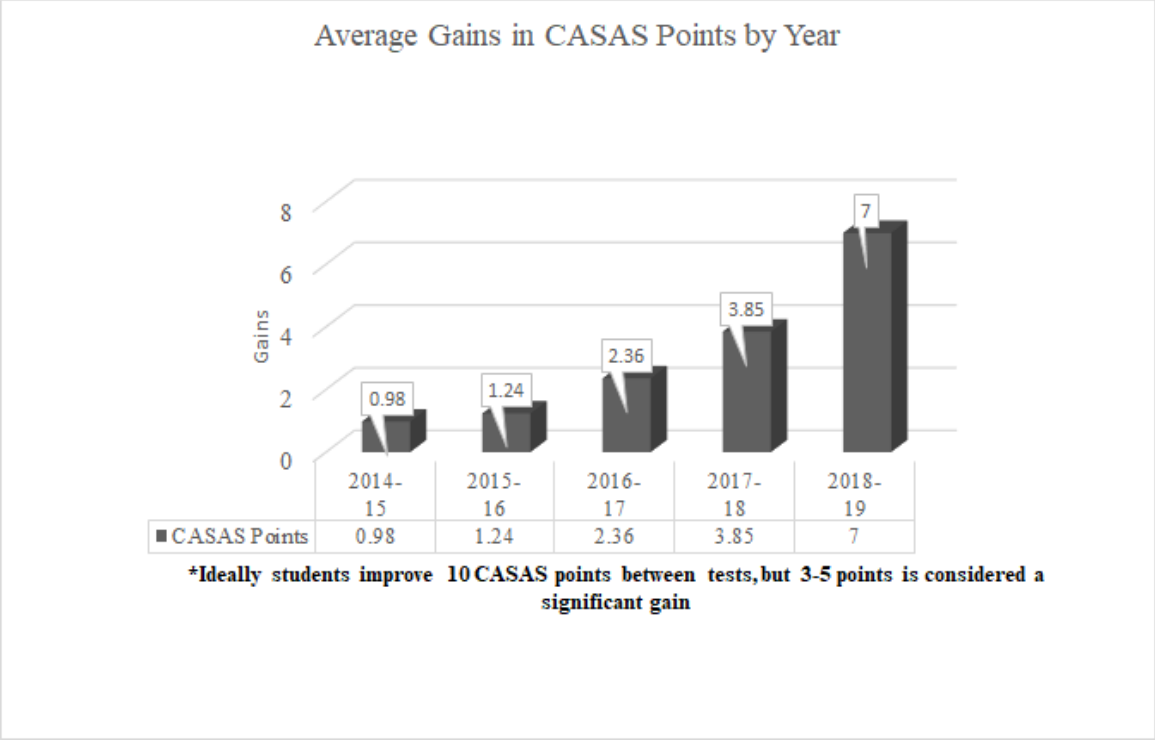
CASAS Math assessments have always been administered to all incoming high school students during the enrollment process, but we have recently made an increased effort to make sure both ELD and high school students are completing the initial CASAS Math placement exam. The assessments are used in conjunction with students' transcripts to determine their level and to place them in the appropriate classes.

Below are the average incoming CASAS Math assessment scores for high school and ELD students by year:

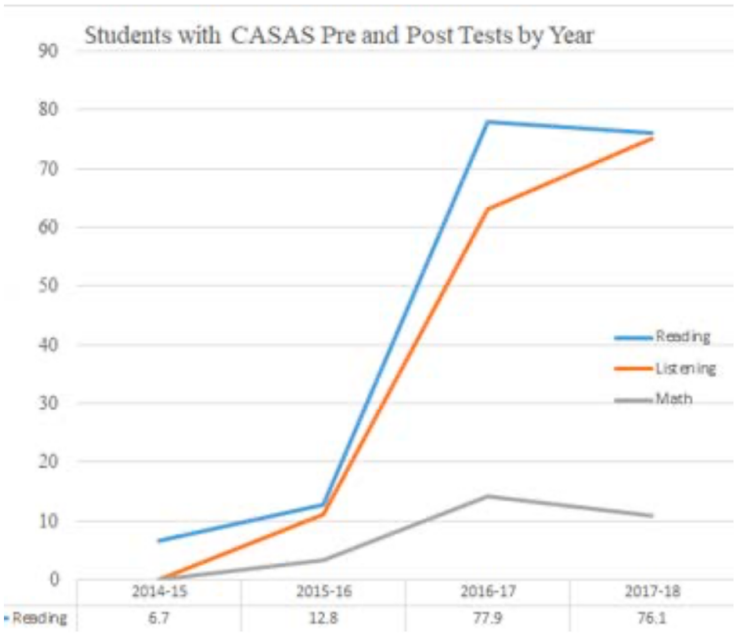


Overall, high school students tend to score higher on CASAS Math assessments, but in the 2016–17 school year, ELD students scored slightly higher with an average first score of 220. During the same school year, the high school students averaged 218. Overall, high school students averaged a CASAS Math pre-test of 218, while ELD students averaged 211.

At HCCS we use CASAS in two primary ways: to assess incoming students for placement and to measure academic progress. Our goal is to have students complete a level between assessments. A complete level is approximately 10 points. If a student came to HCCS and scored 180, they would need 10 points to make it to the next level at 190. However, if a student scored 188, that student would only need a two point gain in order to reach the next level. Below is a graph that depicts our average CASAS gains by year.



Although we have not captured the number of student gains that we would ideally like to see, we have steadily improved each year from only .98 points in the 2014–15 school year to 3.85 in the 2017–18 year. This year we are projecting an average gain of 7 points based on the gains we have for this school year and the five year trend. In order for us to capture our students' gains, it is imperative that our students consistently receive pre- and post-tests. At HCCS we are committed to increasing our level of CASAS assessments. Below is a graph that shows the number of students who received CASAS pre- and post-tests for the last four school years.



In the 2014–15 school year, we had a very low percentage of pre- and post-tests compared to the 2017–18 school year, when for reading and listening, we had pre- and post-tests at 76.1% and 75.2% respectively. This percentage is based on our Average Daily Attendance (ADA). Every year we have improved in reading and listening, even while our enrollment grew expeditiously. The one test in which we need to improve is math. As this graph indicates, we have not made improvements in the number of CASAS pre- and post-math assessments. In prior years, we did not assess our ELD students in math as part of the enrollment process and instead primarily assessed our high school students. Beginning in the 2018–19 school year, both high school and ELD students will be assessed in math as part of the enrollment process.

Teachers, counselors, and proctors do their best to get CASAS pre- and post- tests from every student; unfortunately, we have been unable to get them from every student. By hiring several new proctors, training more teachers and staff, purchasing more laptops to run CASAS, and developing a more rigorous testing schedule, HCCS will provide more succinct data regarding CASAS testing pre- and post-tests in the future.

Grades

At HCCS we have two systems for student grades: one is for ELD students, and one is for high school students. For the ELD students, we use the letter grades M, A, D, and E. M has a Grade Point Average ("GPA") value of four points, A has a value of three points, D has a value of two, and E has a value of one GPA point. The letter grade of M is equivalent to 90% mastery, where E is 80%, D is 70%, and E is 60% or below. In ELD, the M grade is the only grade that demonstrates level mastery and readiness for level promotion.

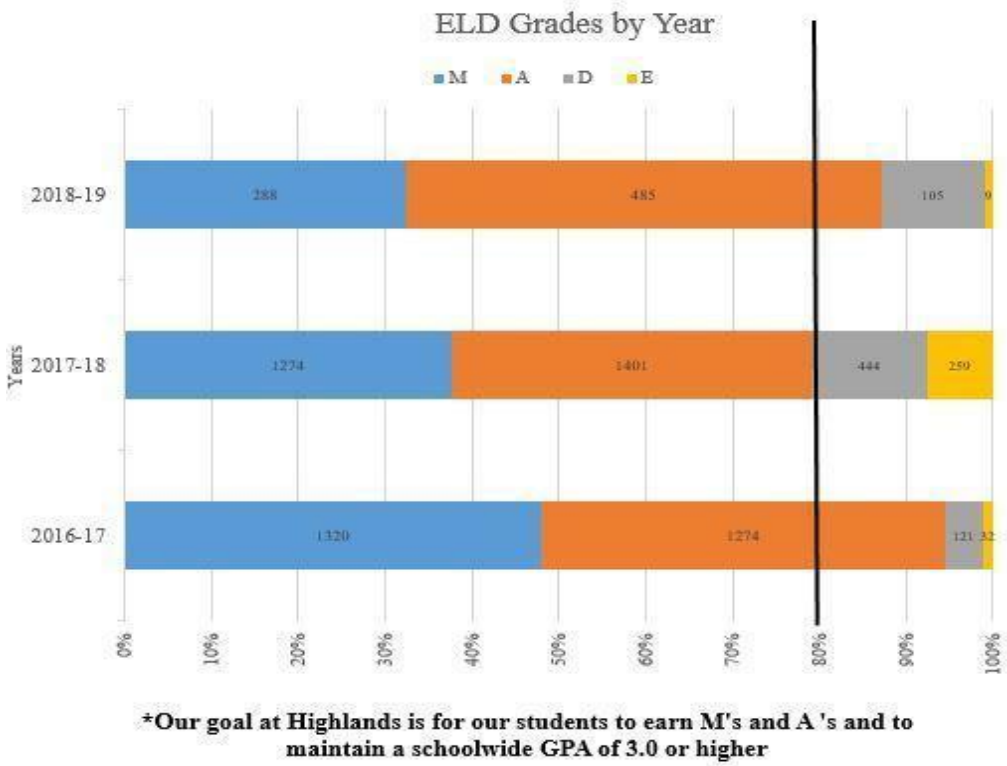
Grades	**Descriptions**
M- Meeting	The student is meeting or exceeding standards.

A- Approaching	The student is approaching standards.
D- Developing	The student is developing an understanding of standards.
E- Emerging	The student has an emerging understanding of the standards.

In the 2016–17 school year, ELD students received a total of 1,320 M's and 850 A's for a total of 2,170. For the same year, 121 students earned D's and 32 students earned E's. In the 2017–18 school year, we gave 1,274 students M's, 1,401 students A's, 444 students D's, and 259 E's. So far in the 2018–19 school year, HCCS has only entered grades for one quarter. Last quarter, 288 students earned M's, 484 earned A's, 105 earned D's, and 9 students earned E's.

It is important to note that this chart shows the total number of each grade given per academic year. The ELD students are graded in the subjects of reading, writing, speaking, and listening. The CASAS post-tests are also utilized as an external assessment to determine a student's grade.

Below is a bar chart that shows the distribution of ELD grades by percentage and year:

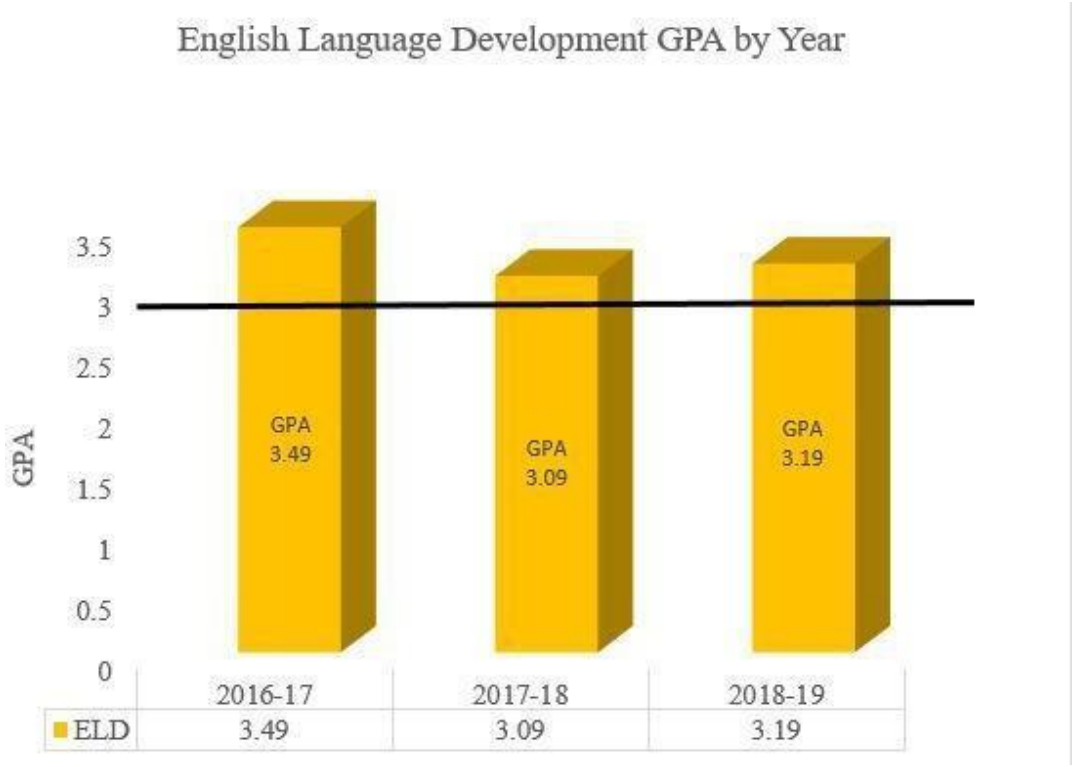


***Our goal at Highlands is for our students to earn M's and A 's and to maintain a schoolwide GPA of 3.0 or higher**

In the 2016–17 school year, 56% of the ELD students completed a level, and 93% of them received either an M or an A. Only 5% received a D, and 1% received an E. In the 2017–18 school year, 38% of the ELD students completed a level and 79% earned either an M or an A. That same year, 13% of the ELD students earned a D, and 7% earned an E. In the 2018–19 academic year, so far 32% of the ELD students have

completed a level and earned an M and 87% have earned either an M or an A. Almost 12% of ELD students earned a D and 1% earned an E.

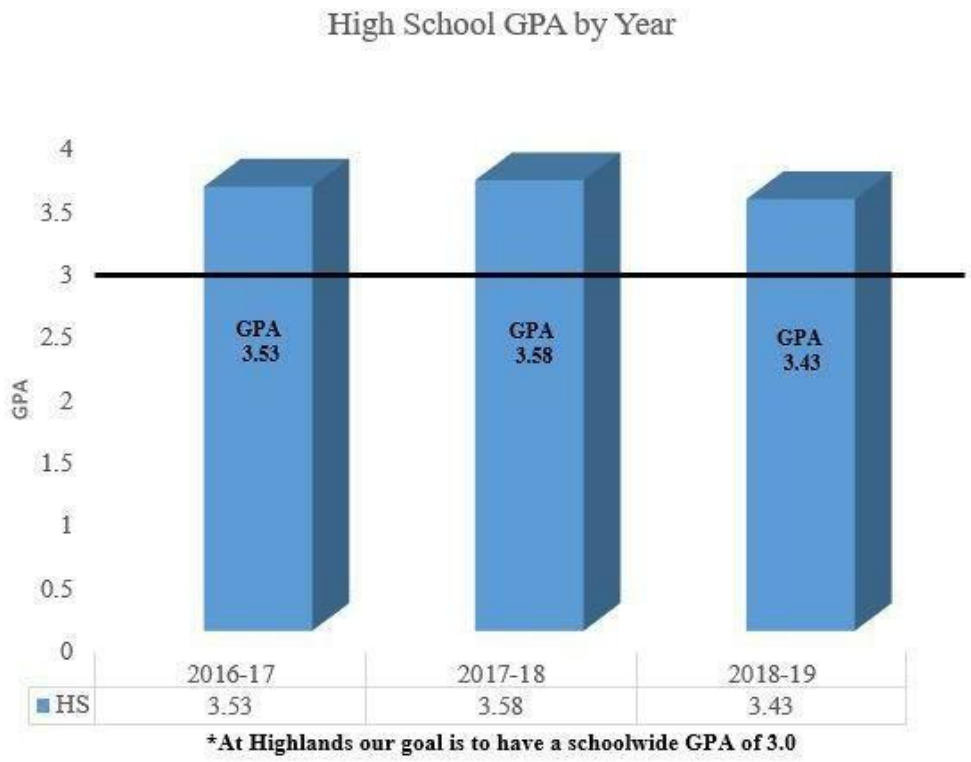
Success and accurate grades for all our students, both ELD and high school, are very important to us. Our goal is to have a schoolwide grade point average of 3.0 or higher. Below is the English Language Development GPA data for the 2016–17, 2017–18, and what has been documented so far in the 2018–19 school year:



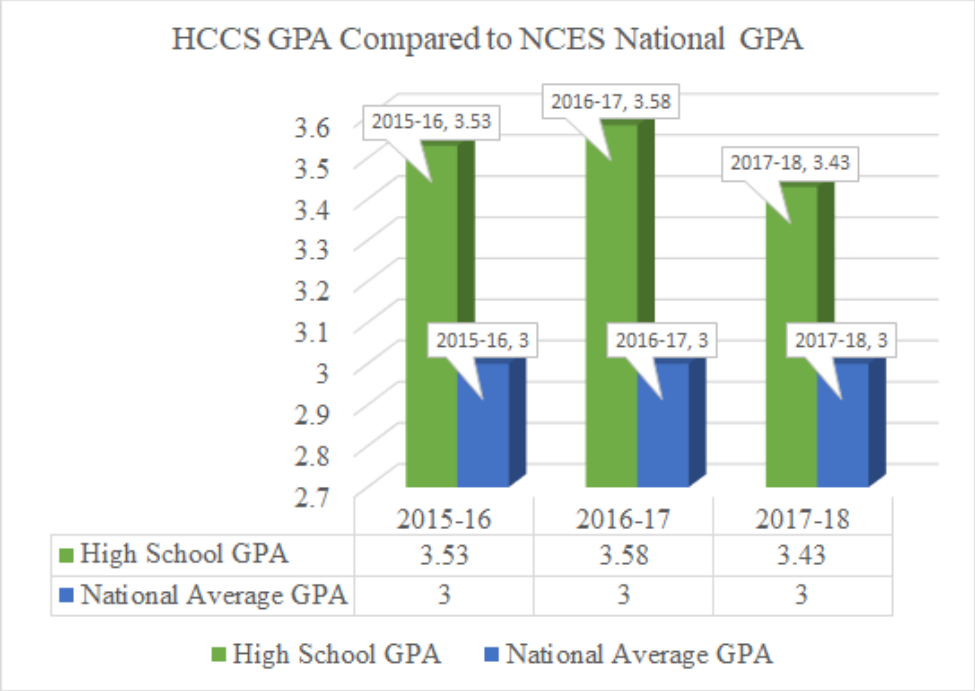
Since we implemented the MADE grading system for ELD students in the last quarter of the 2016–17 school year, ELD students have maintained a grade point average of 3.0 or higher. In the 2016–17 school year, ELD students had an average GPA of 3.49. During the 2017–18 school year, ELD students had an average GPA of 3.09, and so far in the 2018–19 academic year, they have an average GPA of 3.19.

As mentioned before, HCCS's schoolwide goal is to have an average GPA of 3.0 or better for all programs. While all of our programs have achieved this goal for the last three years, the high school students tend to have a higher GPA than the ELD students.

Below is a graph of the High School GPA by year for the past three academic school years:

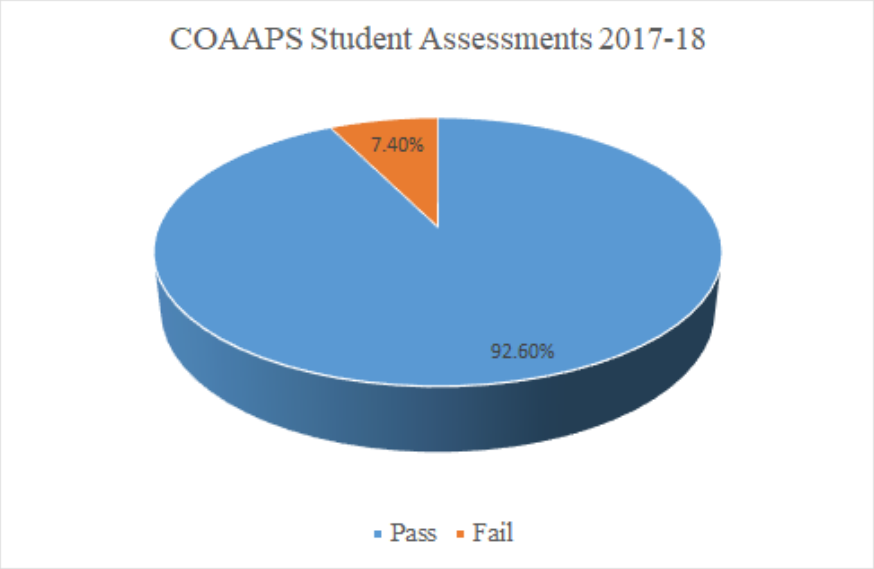


While the ELD students had an average GPA of 3.49 in the 2016–17 school year, the high school students had an average GPA of 3.53. For the 2017–18 school year, the high school students had an average GPA of 3.58 while the ELD students had a GPA of 3.09—a considerable difference at .49 GPA points. This year the difference in grade point average between ELD and high school students is declining with a smaller gap of .24 GPA points, where high school students have an average GPA of 3.43, and ELD students have an average GPA of 3.19.

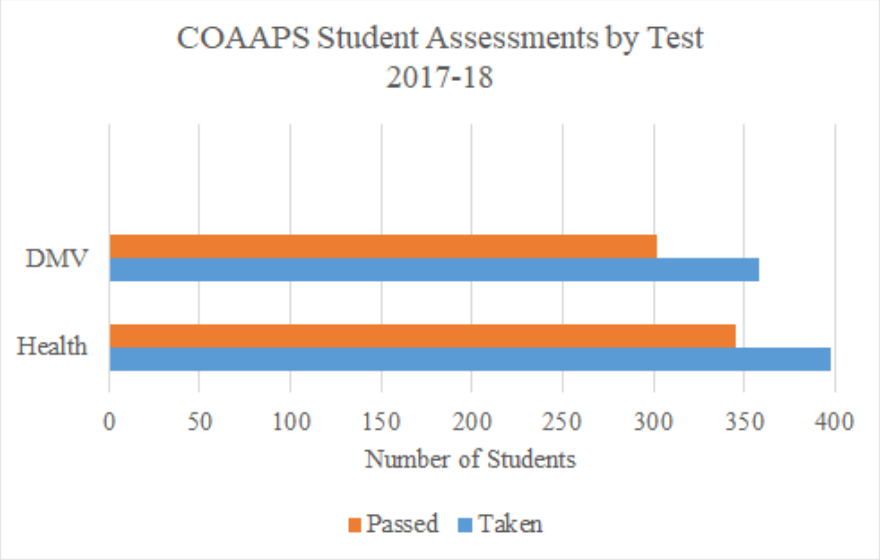


COAAPS Data

In 2016–17, HCCS applied for a Workforce Innovation Opportunity Act ("WIOA") grant and it was awarded for the 2017–18 school year. Then in 2017–18, we began creating EL Civics modules for the students and assessing them on the objectives. For the 2017–18 school year, we selected two themes based on students' greatest needs: community resources (DMV) and health (Healthcare). For the DMV packets, HCCS chose three relevant objectives related to Community Resources (DMV): Reading and Understanding Street Signs (Objectives 12.1, 12.2), Traffic Stops (Objective 12.8), and Citations (Objective 12.10). For Health packets, HCCS chose: Talking to a Doctor (Objectives 28.2, 28.5), Making Doctor Appointments (Objectives 28.4, 28.12), and Completing Medical History Forms (Objective 28.6



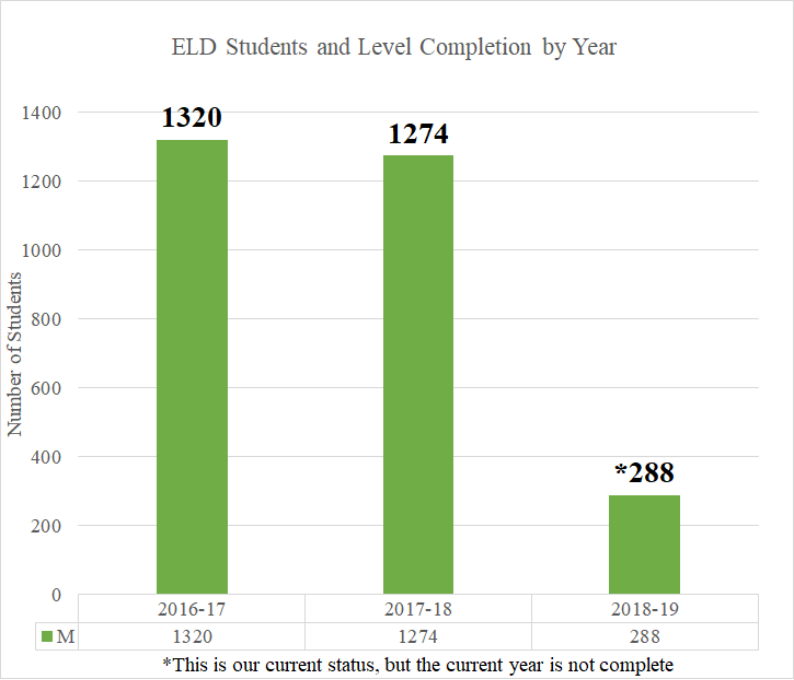
HCCS asked the ELD teachers to choose at least one of the themes based on their students' interests and needs. Overall, these EL Civics materials were taught in 32 classrooms: DMV was taught in 14 classrooms and Health was taught in 18 classrooms. A total of 756 students were assessed. Below is a graph that shows our student learning data for the 2017–18 school year



Of the 756 students who were assessed, 700 of them passed their assessment. Overall, 92.6% of our students passed while the remaining 7.4% of our students did not. Of the 756 students who were taught EL Civics, 358 students studied DMV and 398 studied Health. Our students did slightly better on their EL Civics Health assessments than on the DMV assessments, but overall our students did very well on both.

Promotion and Graduation

Below is a table that shows the number of ELD students who were promoted for the 2016–17, 2017–18, and so far in the 2018–19 school year in one or more of the following areas: reading, writing, speaking, or listening:



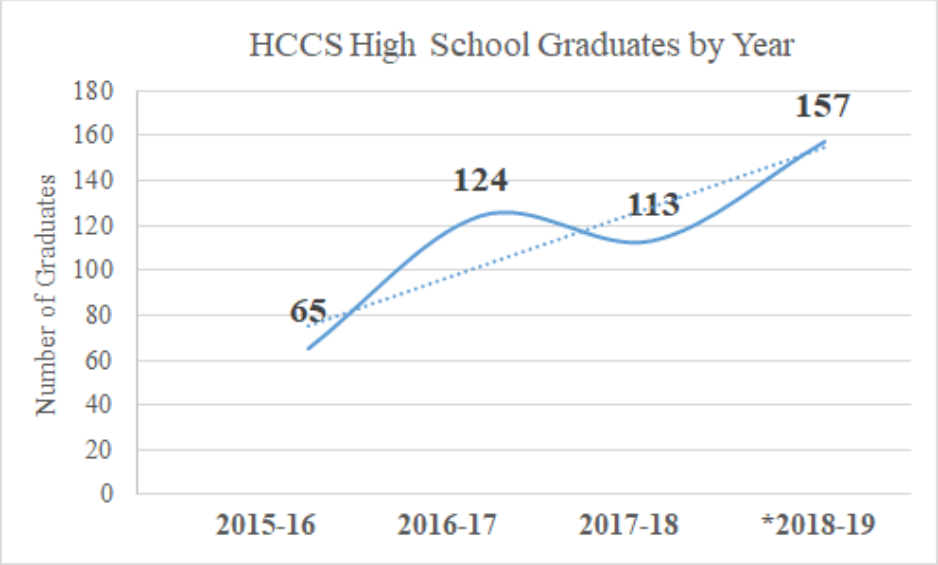
In the 2016–17 school year, 56% of the ELD students completed at least one level compared to 37% in the 2017–18 year, and so far in the 2018–19 school year 288 students have progressed at least one level. At the end of the 2016–17 school year, the grading system was introduced. It is possible that during the first quarter of grading, teachers were still learning to appropriately assign grades. That may have resulted in a high distribution of M grades compared to the 2017–18 school year. We are currently in the second quarter of the 2018–19 school year which explains the low number of M grades and ELD level completions.

High School Graduation Data

Rather than promotion, graduation is the best way to identify course completion for our high school students. At HCCS our graduation day is like a holiday worthy of celebration. It is the culmination of

years of hard work, determination, perseverance, and overcoming sometimes very serious hardships. HCCS loves to celebrate student success and provide an opportunity for students' families to celebrate this success as well. When students earn their credits, they may petition for their diploma, and exit as a graduate. Since this happens on a very regular basis, we wanted to provide more than one opportunity a year for students to celebrate and "walk the stage." At HCCS we hold a graduation ceremony every summer and winter. Each year the venue has changed in response to graduation growth. Most recently, we held the Summer 2018 Graduation at The Center at Twenty Three Hundred, which is a venue that holds approximately 500 attendees.

Below is a graph that shows the number of high school graduates per year for the 2015–16, 2016–17, 2017–18 school years, and our graduation projections for the 2018–19 school year.



***This is projected for the 2018-19 school year based**

The number of students who graduated from HCCS doubled each year for the first two years and has held steady at about 120 students for the past two school years. In the 2015–16 school year, we had 65 students graduate. There were 124 students who graduated in the 2016–17 school year, and 113 students who graduated in the 2017–18 school year. For the 2018–19 school year, we project that of the 350 students we have enrolled in high school, 157 will graduate.

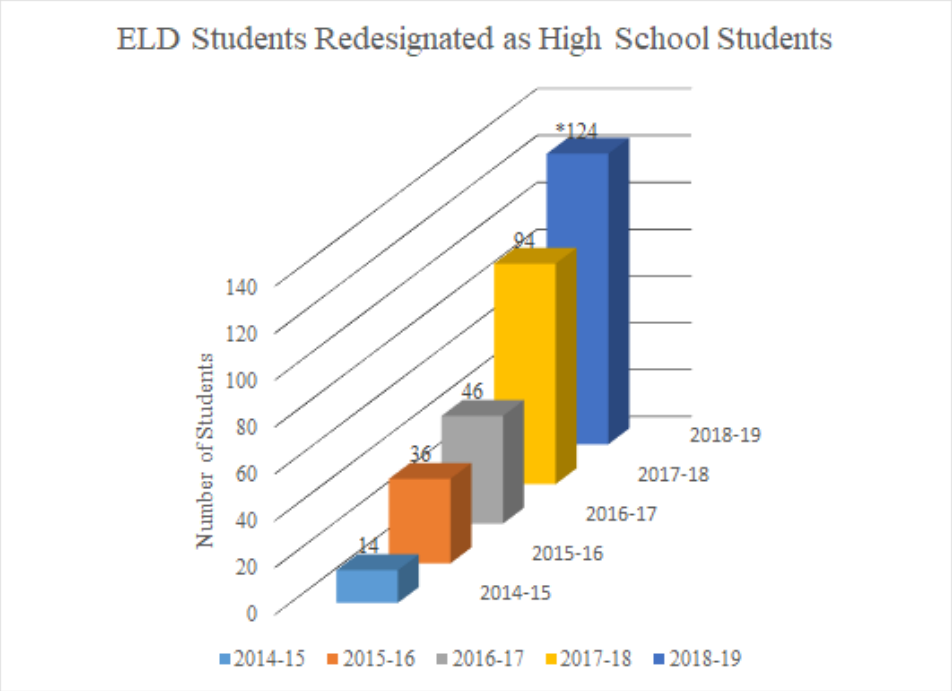
Re-designation

At HCCS we want to ensure that we are providing our ELD students with all of the tools they need to achieve their goals. One way we do this is by transitioning our ELD students from our English Language Development program into our high school program and re-designating them as high school students.

To be re-designated from ELD to high school, each student should satisfy at least three of the following criteria: a minimum CASAS reading score of 225, CASAS minimum listening score of 225, a minimum CASAS math score of 220, a minimum ELD level 6 equivalent rubric score on the HCCS writing assessment, a minimum ELD level 6 equivalent rubric score on the HCCS speaking assessment, a minimum score of "approaching" on the student ELD portfolio rubric. A teacher recommendation may

take the place of an ELD portfolio if a student has not produced a portfolio of work. All new students, who have been in attendance less than one month, or incoming students should use the HCCS writing assessment requirement as one of their three criteria.

Below is a graph that shows the number of our ELD students who have entered our high school program by year:

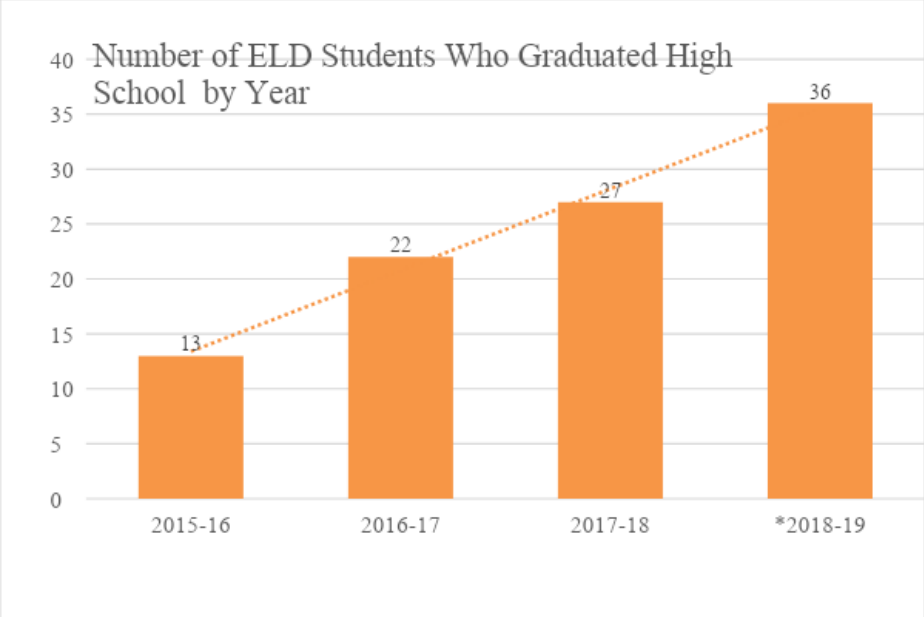


***For the 2018-19 school year this number is projected based on the trend and enrollment**

Since the 2014–15 school year, we have had a steady increase in the number of ELD students who have been reclassified from our ELD program to our high school program. We saw the biggest increase during the 2017–18 school year. So far for the 2018–19 school year, 31 ELD students have been reclassified as high school students. Based on that figure, we are projecting that 124 ELD students will reclassify by the end of the 2018–19 school year.

ELD Graduation Data

Similarly, we have seen a steady increase in the number of ELD students who have graduated from our high school program. From the 2015–16 school year to the 2017–2018 school year, the number of high school graduates more than doubled. Based on the 9 graduates in the first quarter for the current school year, we project 36 students who began instruction at HCCS in our ELD program will graduate from High School this year.



***For the 2018-19 school year this number is projected based on the trend and enrollment**

CTE Programs

HCCS recognizes the importance of a robust Career Technical Education program, especially for students who have been traditionally unserved. Programs have been created with our students in mind. We hope that our programs will lead to livable wage careers. Historically, we have sought to expand our programs based on student needs and interests. For example, when students were interested in entering the medical field, HCCS attempted to create a program that would allow students to gain knowledge and experience in that field. In addition to student needs and interests, HCCS has also looked at local workforce and regional plans to grow its current and future programs.

Community Partnerships

We know that our students have many needs and that we do not possess the resources to address all of them. For that reason, we have developed many community partnerships with other schools and organizations. Since we opened our doors in the 2014–15 school year, we have created 16 partnerships. Through these partnerships we have a wider reach in our community, and our students have increased access to the tools they need to achieve their goals.

External CTE Programs

We are pleased to have six internal CTE programs and two external CTE programs as part of our high school program at HCCS. We know that our students need more than English Language Development and a high school diploma; they need the tools and skills to get a living wage job. One way that we are able to offer state of the art training and programs is through our partnership with Asher College and Cosmo Beauty Academy. At HCCS we are pleased that a total of 1729 students have participated in our career programs, both internal and external.

Asher College

At HCCS we are proud to partner with Asher College, a vocational and trade school in Sacramento that opened in 1989 to provide hands-on training in medical, business, and information technology. Through this program, we are able to offer our students three information technology programs at no cost. These programs include A+ Information Technology, Medical Office Administration, and Office Administration, which includes Microsoft Office Certifications. Since we began our partnership with Asher College, 191 students have taken Microsoft Office and 208 have taken Computer A+ Tech.

Cosmo Beauty Academy

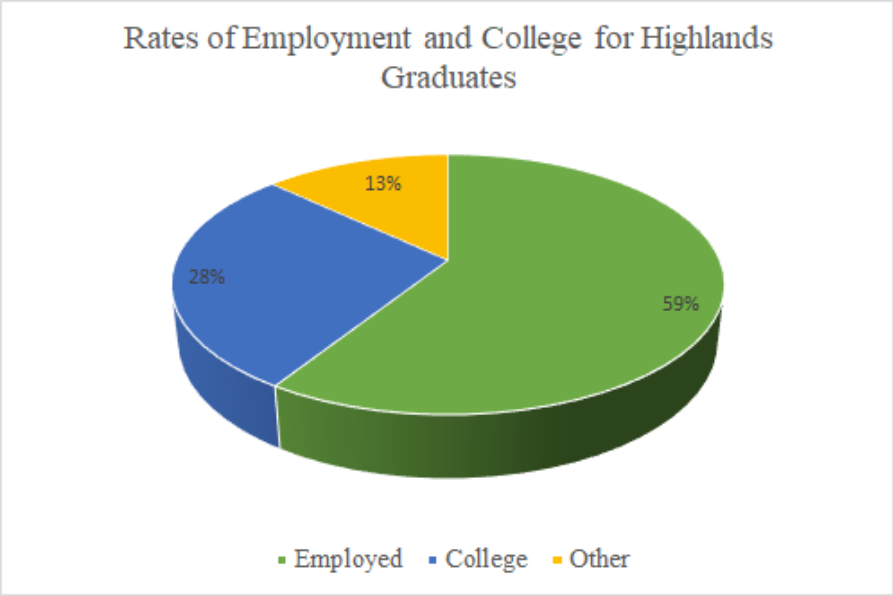
We are also proud to partner with Cosmo Beauty Academy (Cosmo), a vocational beauty school that offers cosmetology, esthetics, and manicuring programs. It first opened in 2007 in Sacramento and is accredited by the Board of Barbering and Cosmetology, the Bureau of Private Postsecondary Education, and the National Accrediting Commission of Career Arts & Sciences. Since we began partnering with Cosmo in the 2015–16 school year, 46 of our students have participated in their program.

Academic Support and Student Support Services

At HCCS we have the unique opportunity to work with adult learners who have faced many challenges and who require both academic and personal support in order to successfully meet their academic and career goals. Over the last five years, our students have demonstrated and communicated the things they need and ways they need to be supported. In response to our students' needs, we have developed several academic services and student support services. Academically, we support our students through our Career Success Center, ELD Navigators, library and reading services, and CTE programs and partnerships, as well as many other academic support services. Our student support services include homeless services, a free clothing closet, and a Civics 101: Rights and Responsibilities class presented by the District Attorney's Office. Our students have faced many academic and personal challenges throughout their educational journeys, and it is truly our pleasure to support them through our educational programs while they achieve their goals. We recognize that our students have many needs. While many of their needs are academic, some are personal. Our student-centered teachers, staff, and counselors interact with our students regularly to understand the areas where they need the most help. We want to improve our students' lives through our services. We have found that many of our students are unable to succeed in their classes when their basic physiological needs are not being satisfied. At HCCS we have created extensive academic and student support services to meet the needs of our student population.

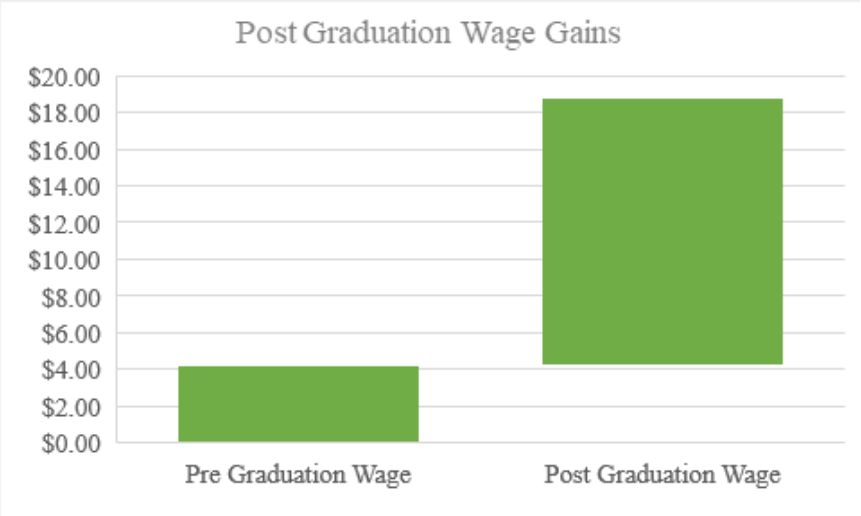
Employment/Wage Gain Data

At HCCS we have contacted over 300 high school/CTE graduates and asked them about their lives and careers after graduation. Below is a pie chart that represents the percentage of high school/CTE graduates who are employed and/or in college and those who are not:



Of the students contacted, 28% are attending community colleges, state colleges, or private colleges while 59% are employed. The remaining 13% were unemployed or not pursuing further education. This means that of the students surveyed, 87% of our graduates are either working or are in college. At HCCS we pride ourselves on turning tax takers into tax payers and helping student create legacies where there may not have been any before.

In addition to employment rates and higher education, we have also collected information on wages. Part of our mission is to build new legacies leading to self-sufficiency and generational change. One of the ways we do this is through wage gains. Below is a graph that compares our students' average wage when they enrolled at HCCS compared to the average wage of our high school graduates.



At HCCS our average graduate wage gain is $10.37 per hour post-graduation. When our students enrolled we documented their wages and then compared them to the wage they were earning after graduating from HCCS. This makes a direct impact on students' abilities to establish self-sufficiency. Our students' prior average wage was very low because many students had never worked or were relying on public assistance. Providing CTE training through the high school program enables students to earn livable wages upon high school completion. Some of our CTE programs, like Truck Driving, have a higher average wage upon completion due to the labor market for that specific occupation. The average wage for a truck driver upon completion of the program is $21.50.

Academic Support Services

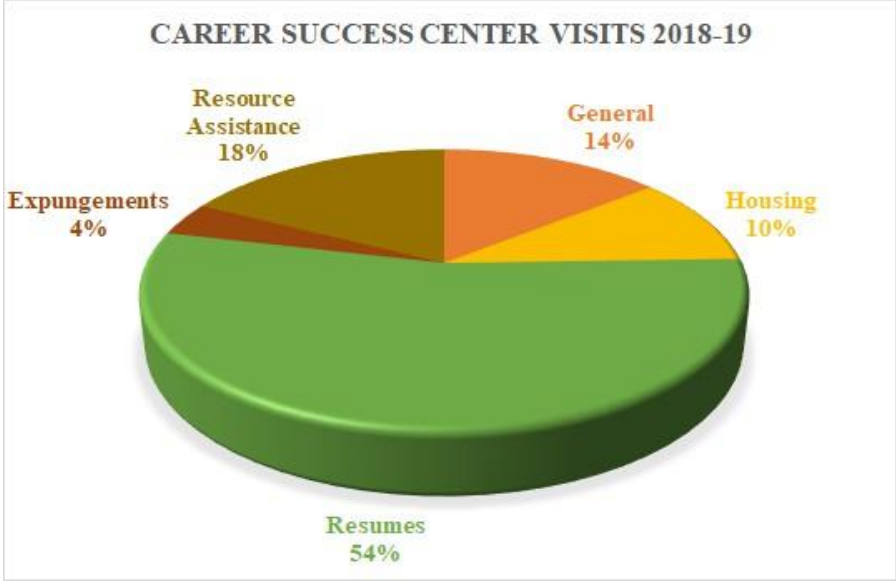
Career Success

Our Career Success Center ("CSC") was created in the 2015–16 school year to review our students' resumes. Today we provide many services to our students in order to assist them with finding employment. We currently have four employees who work in our Career Success Center, including two Transition Specialists, a Student Engagement Liaison, and a Career Center Supervisor. The Career Success Center is located at our main campus on Grand Avenue and it's open from 8am to 3pm, Monday through Friday. In addition to our Career Success Center, our support staff organizes workshops and field trips. At our Career Success Center, we accept both walk-ins and appointments and we connect our students to the following services:

- Job fairs
- Job search
- Assistance with CalJOBS

- Application help
- Contacting employers
- Resume and CV writing
- Cover letter writing
- Interview practice and preparation
- Job postings
- On-site interviews and hiring
- Expungements
- Free Application for Federal Student Aid (FAFSA) support
- College campus tours
- One-on-one academic support

At HCCS our students have many goals, but all of them want to improve their lives. We support our students through academic and employment support. For our ex-offenders, we work alongside them to get their records expunged when possible. These services are available to our current ELD and high school students as well as our alumni because, At HCCS "it's never too late." At the beginning of the 2018–19 school year, we began tracking services provided at the Career Success Center, and so far this year, we have seen 191 students in the Center as well in workshops. Here is a breakdown of students using our services:



In July 2018, we began tracking our students' logins to our Career Success Center and workshops. So far this year, the majority of our students visiting the Career Success Center have needed help with their resumes or CVs, at 54%. Resource assistance was the next most common service with 18% of students needing help with resources. Resource assistance refers to resource outsourcing. When students need access to a service that we do not provide, we offer a referral to a partner or an organization equipped to assist our students. Around 14% of our students required general knowledge or support; students often have questions about the types of services offered at our Career Success Center. Next, 10% of our students needed help with housing services while only 4% needed support with expungements.

Expungements

Our expungement process begins at the Career Success Center. Our Career Success Center has employees who are experienced in the expungement process. We have forms and contact information to begin the process. Our staff collaborates with our students to ensure that all of the steps are followed. We will even attend court with our students. We have had many students go through the process and clear their record of DUI's, narcotic offenses, property offenses, and many other criminal cases.

ELD Navigators

At HCCS we have amazing programs and opportunities for our students, and we want to ensure that every student understands all of the services that we provide. We currently have and students who speak over 39 languages, there have been some barriers to clear communication. In October 2018 we extended our counseling services to include ELD Navigators. Our Navigators serve a critical role by communicating with our ELD students and providing academic and career support. This program was developed to ensure that all of our students at HCCS have access to all of the community resources, school activities, and support that they need. Our Navigators speak English, Farsi/Dari, Spanish, Russian, Armenian, and Pashto, and they travel to all of our campuses to present our school's services and programs. Since we've implemented this program, our Navigators have presented in 13 classrooms at eight of our sites. Following their site presentations, our ELD Navigators work one-on-one with our ELD students (in our students' native languages) to address their individual needs.

Library Services

We started our library in September 2016 to provide books to our students. We started the library by taking book donations from various resources throughout Sacramento. When we first started our library, we only had 100 books. Our vision was to have a library conveniently located at our main campus where students of all reading levels could borrow books. Today, we have over 1500 book titles logged into our library system using Book Retriever. We have approximately 15 teachers and 130 students regularly utilizing our library resources. Additionally, we provide access to our books through our Mobile Library, a repurposed RV, which delivers both clothes and books to our off-site locations. We currently have 50 books in the Mobile Library, and more than 300 books are being stored for future off-site delivery. Through the mobile library service we hope to significantly increase the number of teachers and students using our library services.

Reading Services

At HCCS most of our students enroll into our high school program at a remedial reading level and need to improve their reading and literacy skills in order to complete their diploma. Through CASAS reading assessments and teacher recommendations, we realized that our students desperately needed academic support in this area. In the 2015–16 academic school year we implemented two supplemental reading classes for our high school students: Reading Skills I and Reading Skills II. These classes introduce the

Systematic Instruction and Phoneme Awareness, Phonics, and Site Words (SIPPS). SIPPS is a foundational reading program that builds reading skills and improves reading comprehension. It is designed for students who struggle with decoding. This program is used as a tool for intervention and assists teachers in helping remedial readers at the K-12 reading level. This class is treated as an elective class and lasts for six weeks. Students could earn up to five credits over the duration of the course. After six weeks of the class, the majority of students showed gains in confidence and in reading level. Students also showed improvements on the Slosson Oral Reading Test. Some students remained in the reading skills class to finish their five credits, and others moved on to complete academic credits. Some students who needed more reading improvement continued in reading skills, moving on to part II.

Then in the 2017–18 school year, we re-evaluated our high school reading program. We realized that we had many high school students struggling in their classes as a result of their reading level, so we decided to expand our remedial reading services. The idea was that if students could improve their reading comprehension, then our other academic high school classes would become more accessible to them. We hired a Reading Specialist in order to help tackle this task. The Reading Specialist travels to our high school sites and works with both individuals and groups who need remedial reading support. Our Reading Specialist has also created a curriculum to combat low literacy. It is focused on: decoding, fluency, spelling, and reading comprehension. We hope that by providing additional academic support to our remedial high school readers, they will have one more tool to succeed and achieve their goals.

Student Support Services

Positive Direction

Positive Direction is a student group that meets weekly at lunch. During this student group, lunch is provided to our students at no cost to them. The primary purpose of this group is to provide our students with strategies for managing stress. This is also a place where we provide tools to our students to help them overcome barriers. It is a confidential place where all of our students are welcome. In addition to managing stress, weekly discussions focus on improving interpersonal communication skills and nurturing healthy relationships with friends and family. Other topics of discussion include time management skills, study skills, and active listening. Finally, the group also addresses personal issues our students may have, such as coping skills for dealing with anxiety, depression, and past trauma. At HCCS we know that our students have overcome many challenging obstacles before enrolling, and we want to ensure that we are supporting the whole student.

Homeless Services

One of the obstacles that many of our students face is homelessness. While only a small percentage of our students live in shelters, in cars, or on the street, many of them are in transitional or short-term housing, staying with friends or family, or sleeping on couches. To address this need, we created a Homeless Services program as part of our student support services. Through our Homeless Services program, we serve our homeless student population though prevention, early intervention, and emergency support. We coordinate and collaborate with other agencies to connect our students with emergency, short-term housing (such as shelters) and long-term housing solutions. We work in conjunction with Sac Steps Forward to find housing placements and to meet the needs of our homeless students. We believe that by helping our students secure safe housing they can focus on meeting their educational and career goals.

Clothing Closet

One of the services we are very proud of is our Clothing Closet. We began working to open our Clothing Closet in March 2017 to provide our students with free, gently used, professional interview wear for our

students with job interviews. In April 2017, we had our grand opening. When we started, we had open hours every morning, at lunch, and an hour in the afternoon. To get things started, our staff and teachers went through their closets and donated everything they could part with. One of our high school students volunteered to wash, dry, hang, and organize all of the donations. Upon her graduation, that student was hired at HCCS and continued to work in that capacity. Although the primary goal was to collect work attire, we accepted every type of clothing, even children's clothes. As the closet grew, we began receiving requests from students for additional products such as diapers and toilet paper. Although our primary goal is to provide clothes, we will take any student request. We frequently receive notifications from our students about household items, strollers, and furniture that our students need. Our students at Grand Avenue were very happy with the service, but due to the limited transportation and mobility of our off-site students, they were unable to access our Clothing Closet. Therefore, in September 2017, we purchased an RV to mobilize our closet and provide access to our students at our off-site locations. Since we started the Clothing Closet, we have served approximately 1800 of our students at 11 of our locations. For many of our students, their inability to purchase professional clothes was a barrier to employment and to ultimately achieving their goals. This is one way we are able to meet some of our students' immediate needs and support them while they actively take steps to improve their lives.

District Attorney's Office: Rights and Responsibilities

In March 2018, we began partnering with the Sacramento County District Attorney's Office, Sacramento County Sheriff's Office, Sacramento Police Department, County Code Enforcement, and the Sacramento City Attorney's Office to provide Civics 101, Rights and Responsibilities to our ELD students. Most of our ELD students are immigrants and refugees who are new to the United States. The class provides an overview of essential laws and practices that protect immigrants in the United States and covers the following topics:

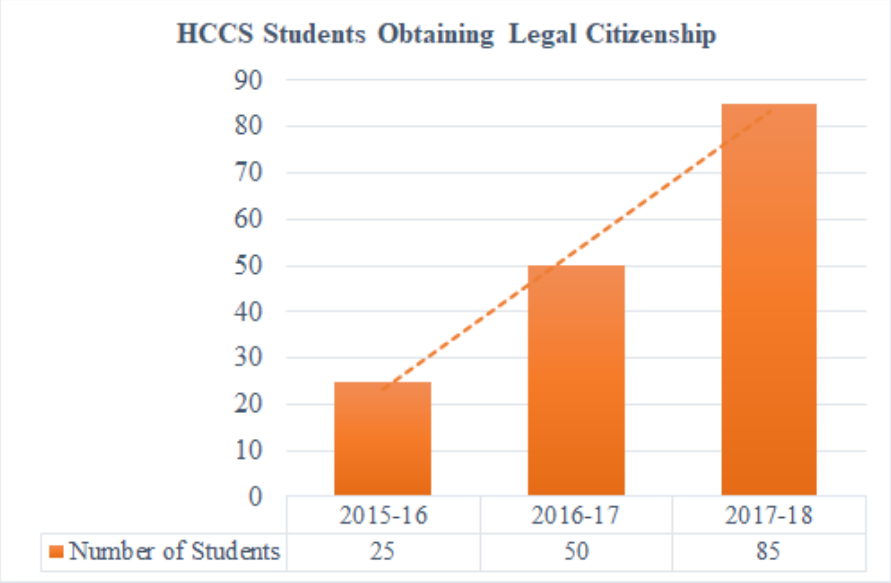
- The First Amendment and the right to assemble peacefully
- The Fourth Amendment and the right to privacy from government intrusion
- The Fifth Amendment and due process
- The criminal justice system in the United States
- Renters' rights and legal actions
- Police and community partnerships
- How to interact with a police officer
- Laws in the United States
- Traffic laws, traffic stops, and citations
- Reporting crimes and emergencies
- When to call 9-1-1 and how to report a non-emergency
- Educational systems, compulsory attendance for K-12 students, and truancy
- Using public transportation (busses and trains)
- Neighborhood watch and community safety

Last year this class was taught in English and translated into six languages. The class will begin again in November 2018 and will be taught through April 2019. We expect 1580 of our ELD students to complete the class in the 2018–19 school year.

Citizenship

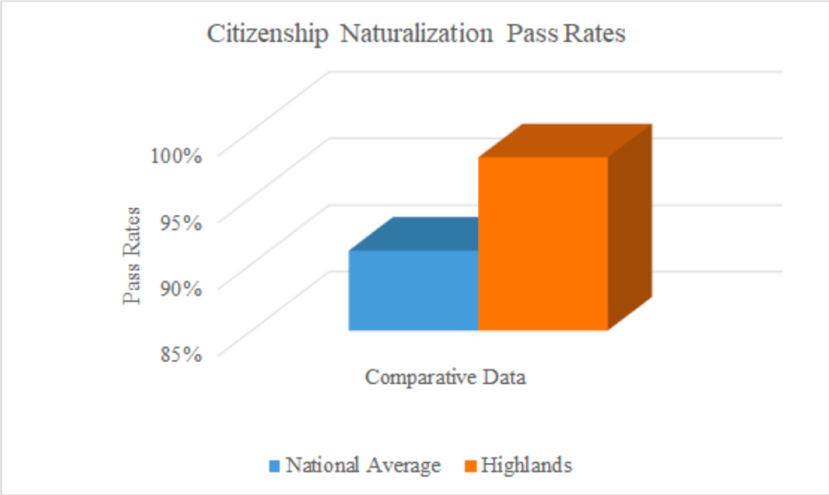
Since 2015, we have served more than 400 students in our Citizenship Preparation classes: 387 of them in the last three years and the 25 who are currently enrolled. In this class, our foreign-born students study and learn how to complete the N-400 application for naturalization and prepare for the United States

naturalization interview. Since the interview has two components, Civics and English, the course covers the requirements for both. In Civics, our students learn the principles of American democracy and American government, and their rights and responsibilities as citizens. Our students practice reading, writing, and speaking in English while they role-play and prepare for the interview. Throughout the class, students also have access to legal advising through our community partner, Opening Doors. Below is a graph that shows the number of students who completed the citizenship class and became naturalized, obtaining legal US citizenship through our classes:



Since we started offering citizenship classes through our ELD program, the classes have grown each year. We have had over 400 students enrolled in our classes, but not every student completes the application or has the interview immediately following the course. Above is the data for our students who completed the process immediately following the class. In 2015–16 which was our first year offering the class, we had 25 students become legal citizens. That number doubled to 50 in the 2016–17 school year. Then in the 2017–18 school year, we had 85 students become naturalized legal citizens. For the 2018–19 school year, so far we have had six students become legal citizens. Since we started, that is a total of 166 HCCS students who have become legal citizens through the support of our classes.

At HCCS we are not only proud of the number of students who have become citizens, but we are also very proud of our students' pass rates. The national average is 91% and at HCCS our pass rate is 98%, seven points higher than the national average. With the success of this program, we have decided to expand it for the 2018–19 school year with additional teachers teaching the course and at more of our off-site locations.



Field Trips

At HCCS our teachers, students, and staff value getting authentic community experiences and actualizing their classroom knowledge in real-life situations. This is reflected in our Local Control Accountability Plan ("LCAP") data and budget. Every year, teachers take our students on engaging and educational trips outside of their traditional learning environments. Past field trips have included:

- Sacramento's State Capitol
- Sacramento Public Libraries
- A tour at Raley Field
- Sacramento River Cats baseball game
- Sacramento City College information sessions
- Resume workshops
- A 4th of July fireworks display in Old Town Sacramento
- The Crocker Art Museum
- Sutter's Fort and the State Indian Museum
- Career fairs
- The Sacramento History Museum
- Lighthouse Charter School
- Mission North Park
- A parenting class hosted by UC Davis' MIND Institute

Hundreds of our students have benefited from these field trips, and they have greatly contributed to our students' learning, cultural awareness, and community involvement and participation. Below you can see a previous ELD Conversation Club at the State Capitol:

Student and Staff Satisfaction Surveys

At HCCS we want to ensure that we are meeting the needs of both our students and staff. In order to understand what we are doing well and where we need to improve, we utilize student and staff satisfaction surveys.

Student Satisfaction

Every year as part of our LCAP we conduct student satisfaction surveys to measure connectedness, student learning, how students view staff, courses, and course materials. The following student satisfaction data is from the 2017–18 LCAP. Of our students, 726 responded in the student satisfaction survey, and the following graphs represent student feedback.

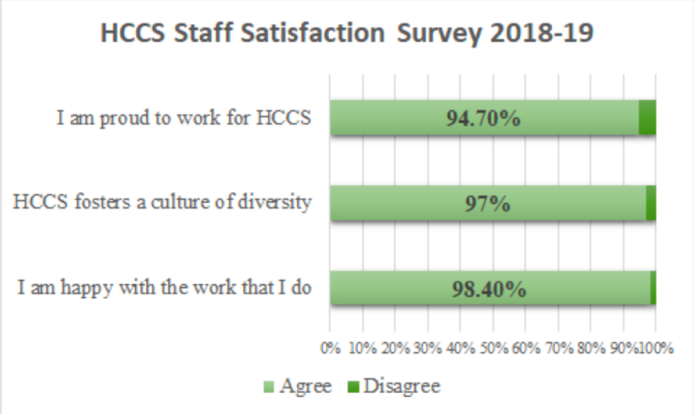
Staff Satisfaction



During the 2018–19 Staff Satisfaction Survey, 130 of our 154 staff were surveyed. The results reflected are the opinions of the 84% of our staff who participated. Of our staff who participated, 98.4% said that they either strongly agree or agree that they are happy with the work that they do while 97% of our staff agreed that we foster a culture of diversity and 94.7% said that they are proud to work for HCCS. Areas where we need to improve are related to technology. Of our staff surveyed, 66.2% said that technology issues are addressed in a timely manner, and 67% agreed that our Information Technology Department was open to employee ideas and suggestions. These surveys are essential to understanding our staffs' needs, and we look forward to improving our school and our staff experience and improving our Information Technology Department.

Challenges

We started HCCS in 2014 in response to the unmet educational needs of adults in our community. On our first day of classes, we started with 7 students and one site, and today we have 2,050 students enrolled and a total of 24 sites. We have grown very quickly, legitimizing how important we are in the communities that we serve. At HCCS we do our best to respond to the needs of our community. We have worked to adapt to the changing needs of our students as our student demographic has shifted from primarily serving ex-offenders in high school to serving immigrants and refugees in English Language Development/Citizenship and high school/CTE. Although we have many points of pride, primarily the success of our students, we recognize that as a school, we have areas where we need to improve.

At HCCS we have faced some obstacles in consistently implementing CASAS pre-tests and post-tests for some of our students at our satellite locations. We have experienced significant growth each year, and we have opened many new sites, which has created the need for a significant level of additional test proctors, computer technology, and internet access to maintain testing consistently. CASAS testing is a standard practice for most schools serving adults in California, it is mandated by WIOA that CASAS assessments are reported for adult participants, and it is one of our standard assessments; therefore, it is imperative that we improve our CASAS assessment practices. At HCCS we have made a significant organizational commitment to improving our testing practices schoolwide. We have increased the number of administrative staff, proctors, and teachers who are CASAS trained, and over the last two school years, we have hired five additional proctors as well as a Lead Proctor. All of our clerical administrative staff are currently CASAS certified. We are currently implementing a new CASAS testing schedule to ensure that new students are tested each week at our satellite sites as part of their enrollment process and our proctor's CASAS schedule is going to ensure every site is retested every six to eight weeks.

At HCCS we are accountable to the California Department of Education to ensure that our students meet the state's standards. In 2013, the Local Control Funding Formula (LCFF) was adopted by California to ensure accountability using the California School Dashboard. The traditional standards were intended for traditional schools and in many ways fail to understand the needs of alternative students. As a result, California Department of Education recognized alternative accountability measures for alternative schools. In March 2015, we adopted the Alternative Schools Accountability Model (ASAM) and we complied with their requirements. Then the Dashboard Alternative School Status (DASS) replaced the previous ASAM model, and since the beginning of the 2017–18 school year, we have been accountable to the California Department of Education and adhered to the indicators set forth by DASS.

1.3: HCCS Target Student Population

At HCCS our school's target student population is adults who are 22 years and older without a US high school diploma. We specifically serve adults who have been unserved by the traditional educational system in the United States. This includes students who have been unable to complete high school such as young parents and ex-offenders. It also includes English Language Learners such as immigrants and refugees. Our demographic data shows that we have students from 71 countries. The ten most represented countries at HCCS are Afghanistan, Mexico, United States, Ukraine, Russia, China, Vietnam, Syria, Moldova, and El Salvador. Women make up 65% of our student population At HCCS and men make up the remaining 35%.

We have two programs: high school and English Language Development. Career Technical Education (CTE) is part of our high school program and Citizenship is part of ELD program. Our ELD students are classified as elementary education students and are placed into either first or second grade. Our lower level ELD students are categorized as first graders while our higher level ELD students are considered second graders. All of our high school and CTE students are enrolled into grade 12.

Interests
Our students come to HCCS because they want a better life; they want to learn or improve their English; they want to continue their education; or they want a job. At HCCS our students have varied interests and goals. Some of them want to complete our English Language Development program to participate in our community and help their children with homework, while some of our ELD students want to improve their English enough to complete our program and then go to high school and on to college. For our high school students, their interests vary as well. Some of them want to graduate high school and a CTE program. For others, they want to finish high school and then move on to college or a career path. No matter their ultimate goals, all of our students come to HCCS because they want a better life for themselves and their families, and it is our pleasure to support them.

Backgrounds
At HCCS our student population is diverse and so are our students' backgrounds and stories. However, there are some similarities that our students share. Over 90% of our students qualify as socioeconomically disadvantaged.

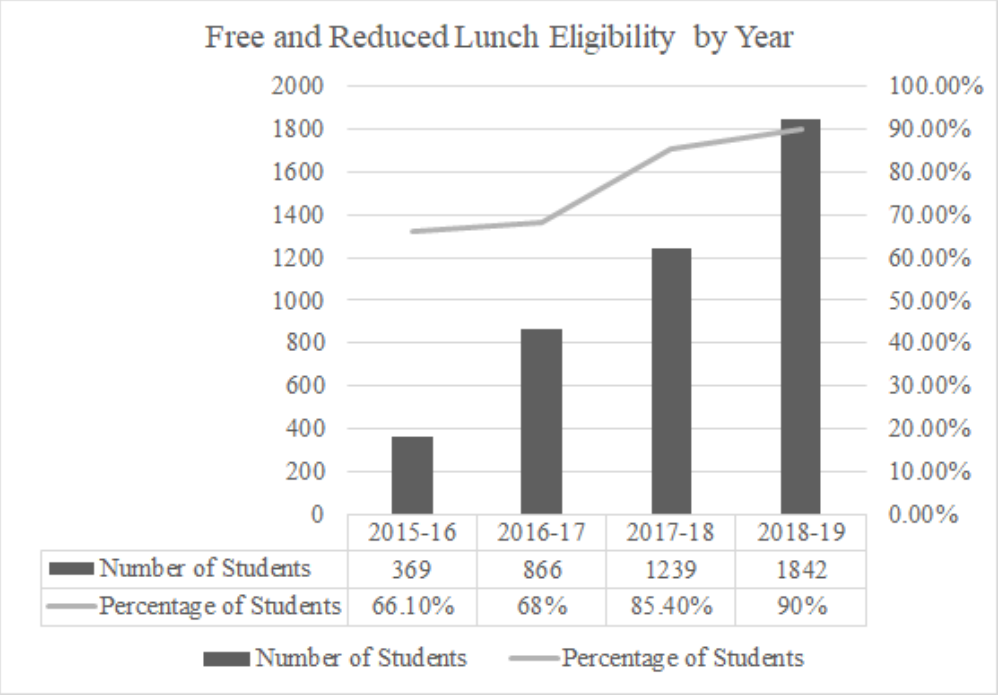
Our refugee students are primarily from Afghanistan, Syria, and Iraq. Men from Afghanistan tend to have a stronger educational and employment background than women and have higher literacy rates. Men also tend to score higher on our initial assessments in reading, writing, speaking, and listening. Many of the men from Afghanistan were engineers who worked with the US Army and were granted a Special Immigrant Visa because their lives were in danger after working with Americans. This also results in Afghan men having higher fluency in English than women, on average. The majority of women from Afghanistan were stay-at-home mothers, even those who graduated from a university. Most of the women from Afghanistan completed some primary education; although, many are illiterate in their first language, and some had never attended school before coming to HCCS. This is especially true for the women from the rural Southwestern regions of Afghanistan where Pashto is spoken.

Our high school and CTE students come primarily from two groups. Most of them are from the United States with the majority of that group being native to California. These students have a variety of backgrounds from race and ethnicity to academic and behavioral backgrounds. The other main group of high school students are students who come directly from our ELD program. Our students who have attended high schools in the United States had to leave school for many different reasons. Some had to

leave to work and contribute to their families at home. Others were suspended or expelled and asked not to return. There were others that left because they found school too difficult or boring. Our ELD students who come to the high school and CTE programs often have different reasons for completing a high school or CTE program. Many of them already have at least a high school diploma from their home country, but they need a United States high school diploma to develop their lives and careers or further their education. There are some ELD students who have very little education from their home countries as well. These students take ELD classes and blossom into students who believe they are capable, and they move on to high school/CTE.

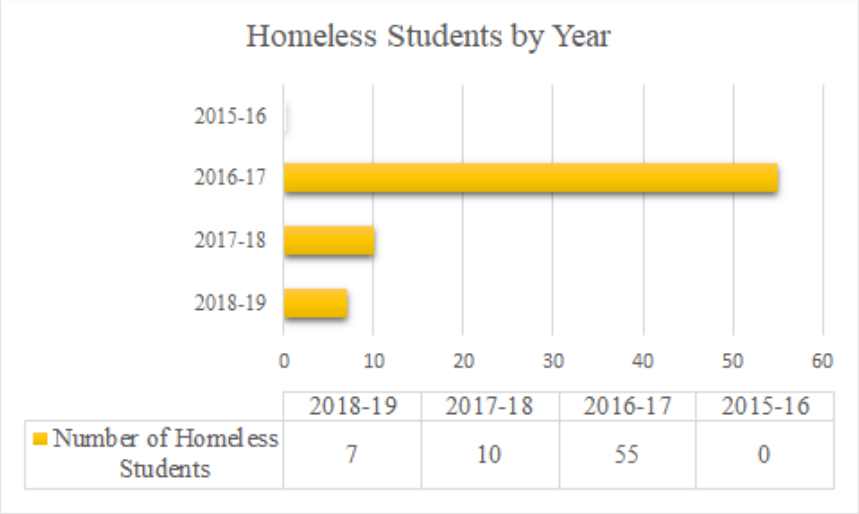
Student Challenges

Our student population is unique and our students face many challenges. The majority of our students are socioeconomically disadvantaged and lack access to reliable transportation, computer technology, and childcare. Below is a graph that shows our students who are eligible for free or reduced lunch:



Our free and reduced lunch eligibility has been tracked in CALPADS over the last four school years and shows that since we first started tracking in the 2015–16 school year, our socioeconomically disadvantaged population has grown both numerically and by percentage of our population. In 2015–16 it is documented that we had 369 students who qualified for free and reduced lunch. Then in the 2016–17 school year, the number increased to 866. In the 2017–18 school year, that number increased by 473 to 1329. In 2015–16, 66% of our students qualified for free and reduced lunch, and we currently have 1842 of 2050 or 90% of our student population qualifying. This data indicates that each year we are serving more students who require access to services. Many of our students have struggled with addiction, homelessness, and the social-emotional impacts of those and many other challenges. Some of our students are ex-offenders. Our students who have been incarcerated face a great deal of adversity re-entering school and trying to find employment and often lack the educational skills they need to succeed in an academic setting. These

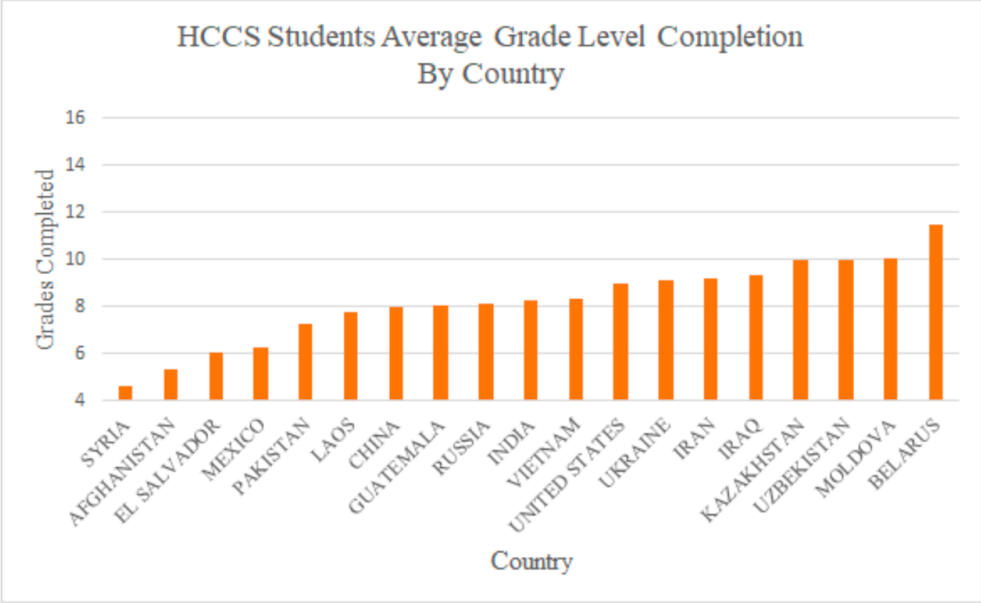
students are often deficient in academic skills and require remedial courses. Below is a graph that shows the number of homeless students at HCCS:



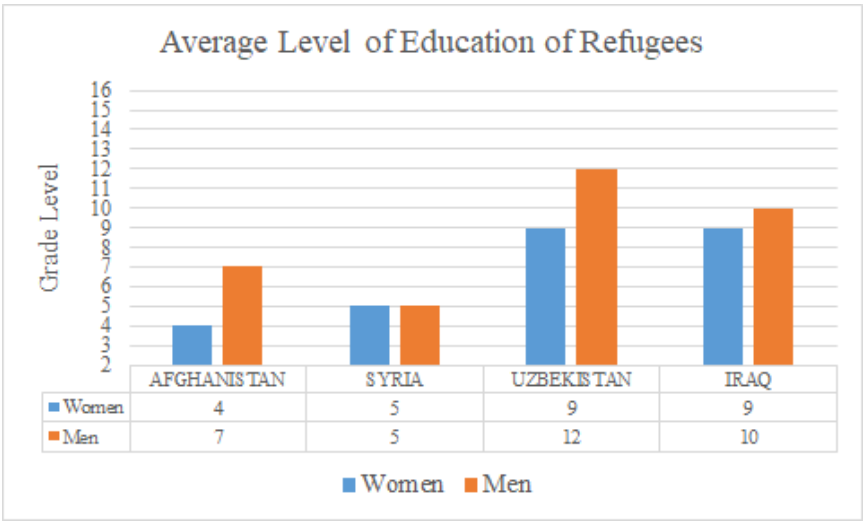
Because of the social stigma associated with homelessness, it is often underreported by students. There is also the critical issue of defining it. For our reporting purposes, we consider a student to be homeless if they are living on the streets, in shelters or cars, or in a temporary living situation without a fixed address. Many of our students who are temporarily staying with friends or family until they can "get on their feet" do not report that they are homeless.

Many of our students also lack access to many basic items such as food, clothing, diapers, books, and school supplies. Our students are also very busy and have a limited amount of free time. Our students are often adults with families, and many of them are employed while juggling several responsibilities.

Our refugee population also faces many challenges. Many of these students come to the United States with very low English fluency, some of whom lack literacy in their first language. Below is a graph that shows our students' average level of education by country:



All of our students come to us with a different level of education, but this is the average level of education of our students by country. It includes students in both our ELD and our high school programs. Our refugee students from Syria and Afghanistan tend to have the lowest level of education on average while our students from Kazakhstan, Uzbekistan, Moldova, and Belarus have the highest average level of education. It is also important to consider that these are averages. Many of our immigrant and refugee students have no formal education, yet some are college graduates. Below is a graph that shows our students' level of education by country and gender for our refugee populations:



At HCCS the majority of our students are English learners. In fact, of the 2,052 enrolled, 1767 qualify as English Learners. Of those students, we have more students from Afghanistan than any other country, and the majority are women. As depicted in the graph, women from Afghanistan come to us with very little

formal education. This change in our demographic has led us to increase the number of ELD literacy courses and beginning ELD courses to meet the needs of our students. Both men and women from Syria have very little formal education with an average grade level completed being five years. For our students from Afghanistan and Syria, it is imperative that we provide them with literacy tools because many of these students lack literacy in their native language. Our students from Uzbekistan and Iraq tend to have higher levels of education on average. In Uzbekistan women have an average of 9 years, while men have an average of 12 years. In Iraq women also have an average of 9 years and men have an average of 10.

These students not only struggle with language fluency, but also adapting to the new customs, culture, and meeting their basic needs. The majority of our refugee students depend on the Department of Human Assistance for financial support while they transition from being unemployed to being employed. Many of them also have very large families and struggle to find childcare.

In response to our students' needs and the challenges they face, we provide the following services:

- Free bus passes to our students for each day of attendance
- Access to computers and computer labs
- Free play care for potty-trained, non-school-aged children at Grand Avenue, Maple/St. Rose, Holy Cross and coming soon to Capitol Christian (children must be potty-trained and be up-to-date on immunizations)
- A clothing closet at Grand Avenue and a mobile clothing closet that provides free, gently used clothing to our students
- A small food pantry where students can get free shelf-stable food
- A Homeless Services Program who connecting students to community resources
- A library at Grand Avenue where students can get books
- Counselors who assist students with both academic and personal advising
- Free basic school supplies for all of our students
- A Career Success Center where students can get help with resumes and applications
- Literacy support and remedial reading classes
- ELD Navigators who help our ELD students transition into high school and CTE
- Citizenship classes
- Supplemental services to our students through our community partnerships and external CTE programs such as Asher College and Cosmos Beauty Academy
- Student support groups

Exclusive Partnerships

One way that we meet the needs of our students is through community partnerships. We have exclusive partnerships with Greater Sacramento Urban League (GSUL), Opening Doors, Asian Resources, Inc. (ARI), and Bach Viet. Our partners work to improve educational and employment opportunities in underserved urban communities to enhance the workforce and the local economy. At HCCS we provide instruction to students exclusively in partnership at no cost to our partners or our students. Our partners notify students about opportunities to participate in our program and provide students with details of the terms required for participation. Through these partnerships, we are able to reach more students and have a larger community impact.

Workforce Innovation and Opportunity Act

In 2014, the US Department of Labor signed the Workforce Innovation and Opportunity Act (WIOA) into law, formerly known as the Workforce Investment Act (WIA). It is designed to help job seekers gain access

to education, training, and employment and to ultimately help unemployed and underemployed youth, dislocated workers, and workers with disabilities to successfully find jobs. At HCCS we applied for a WIOA grant and received one for the 2017–18 school year and for the 2018–19 school year. We have used this $360,000 grant to fund positions such as the Reading Specialist and test proctors to assist our students in literacy and testing. It provides us additional funding for technology. Last year, we purchased 330 laptops, laptop carts, and computers. This year, we plan to purchase 650 computers. Through our exclusive partnerships and funding, we are able to support our students where they truly need it most: through reading support, assessment, and access to technology.

HCCS complies with Ed. Code 47605.1(f)(1) which requires our charter school provides instruction exclusively in partnership with the federal Workforce Investment Act of 1998 (29 U.S.C. Sec. 3101 et seq.), now known as WIOA. All students may only be admitted under the terms of an exclusive partnership agreement. These partnership agreements have a requirement that students must not qualify for WIOA youth services, which inherently limits students to 22 years of age or older that we may collect apportionment funding.

Under Education Code 47605.1(f), other than being required to have sites in California, there are no other jurisdictional boundaries for campuses of Highlands Community Charter School due to our WIOA exclusive partnership requirement.

Goals and Philosophy

1.5: Alignment of Educational Program with Vision/Mission with Student Population

Motto: It's never too late!

Vision: Our vision is to eradicate educational inequality.

Mission: We are a diverse community for social justice, serving the unserved, providing access to education, technology, communication, and employment for 21st century achievers. Through community

partnerships, we will build new legacies leading to self-sufficiency and generational change.

Schoolwide Learner Outcomes:

1. Students will demonstrate measurable achievements each term through assessment.
2. Students will make progress toward their career goals.
3. Students will use technology to communicate for personal and academic use.

Our motto is "It's never too late" because at HCCS it isn't too late for our students to achieve their goals. It isn't too late for them to learn English, get a high school diploma, complete one of our career technical education programs, or to start a career. Our students are adults who do not have a US high school diploma and are 22 years old and older. Our students come to us from all over the world and for many of them HCCS is the first school they have ever attended. We support and encourage them that no matter what their educational background is or where they are from, it isn't too late for them to build a better life and future for themselves and their families through our English Language Development and high school/CTE programs.

At HCCS our vision is to eradicate educational inequality. We believe that education is a human right, and we recognize that there is inequality in systems of education not only in our community but also in our country and around the world. There are many factors that contribute to educational inequality. Among them are country of origin, social class, family history and values, and gender. Our students are primarily from economically disadvantaged countries, communities, and families. Our vision is to end inequality for the people who need it the most: those without access to English, good teachers, classes, programs, schools, and technology. We understand the need for equity in education, and we are passionate about our vision and creating equal access.

Our mission states that we are a diverse community for social justice, serving the unserved, providing access to education, technology, communication, and employment for 21st century achievers. Through community partnerships, we will build new legacies leading to self-sufficiency and generational change. At HCCS we are truly a diverse community of staff, teachers, and administrators who are advocates for social change. Our student population is comprised of educationally unserved adult students 22 years old and older without a US high school diploma. Our students are non-native English speakers, immigrants, refugees, the socially and economically disadvantaged, students who have been unserved by the traditional educational system, marginalized groups, ex-offenders, and community members who have been displaced by traditional schools. Although we recognize that our students have many unmet needs, we concentrate our efforts on four critical areas: education, technology, communication, and career readiness. At HCCS we have developed excellent relationships with our community members and other community organizations. Currently, we have 18 community partners who work diligently alongside us to support our students. We believe that by providing access to education and employment, our students are empowered with the resources to become self-sufficient problem-solvers who can break generational cycles of poverty.

At HCCS we have three Schoolwide Learner Outcomes. Our first is that students will demonstrate measurable achievements each term through assessment. Our second is that students will make progress toward their career goals. Our third and final outcome is that students will use technology to communicate for personal and academic use. Many of our students enroll in our programs deficient in English, academic content, verbal and written communication, and technological skills. We are driven to ensure our students make progress in their academic subject areas, employment and career goals, and in their levels of technological ability.

We believe by offering educational programs for adults who are 22 years old and older and do not have a US high school diploma, we are working towards eliminating educational inequality. The programs and classes we offer are in response to the needs of our students and the needs of our community. We are passionate about equity in education and issues surrounding social justice, and we have an important role to play in rectifying an equitable educational community. At HCCS we believe in our students; we believe in our community; and we believe that "it's never too late."

1.6: Characteristics of an Educated Person in the 21st Century

HCCS holds that an educated person in the 21st century is well-rounded, literate, and balanced in knowledge of core subjects, communication, career readiness, and the use of technology. HCCS students are able to use their intellects to their fullest capacity. Our students become empathetic, collaborative members of the community and are motivated to set and achieve personal, academic, and/or career goals. We develop students who demonstrate proactive empathy towards others through respectful and productive communication. Our teachers guide students to view themselves as global citizens who are empowered and responsible for making positive changes in the world and within the immediate environment. Accordingly, the educated person in California in the 21st century is literate in English and possesses the ability to communicate and function competitively and productively in the workforce and higher education classroom.

Our students seek understanding and peace within a multi-age, multicultural classroom and appreciate and protect the rights of others to do likewise. We proudly participate in helping our students develop personal habits leading to a healthy lifestyle that includes balancing academics, leisure, work, family, and community. Students who have had few opportunities with technology learn how to utilize technology as a tool to succeed within our community.

Our students are SCHOLARS and are proficient in English, Math, Science, and Social Studies/History. As members of the California community, our students communicate effectively and contribute to the world around them. Our students are ready to tackle the challenges and rigor of the college classroom and in many ways are better prepared to share, accept, and challenge new ideas.

Our students are HEALTHY PHYSICAL BEINGS and are knowledgeable of and practice good nutrition, safety, and a healthy lifestyle. We watch them develop habits of physical discipline and health management in ways that provide pleasure, stress release, and fitness.

Our students are COMMUNITY MEMBERS and are able to collaborate with others, cooperate on projects, and manage and resolve conflicts through the communicative tools learned in our classrooms. Our students are motivated and ready to provide meaningful service to others and make significant contributions with developed talents. We proudly send our students into the workforce confident that they will succeed because of the communication, collaboration, and competency they have developed.

Our students are CITIZENS OF THE WORLD and understand the basis of our constitutional democracy and the rights and responsibilities of all, and stay informed on important political, social, and environmental issues. We integrate our very diverse student population within our classrooms and campuses to help develop citizens who are informed regarding other political, social, and cultural systems and who seek to understand and co-exist peacefully.

Our students are MEMBERS OF AN INCREASINGLY TECHNICAL AND INFORMATION-BASED WORLD and, as such, are competent and comfortable using a wide variety of technology as an integral part of life and are open to embracing new alternatives as they become available.

1.7: How Learning Best Occurs

Student learning best occurs at HCCS when our students are successfully connected to the materials and curriculum. Through repetition and exploration, our students explore various concepts and ideas through materials that are designed to promote self-confidence and independence. Students are encouraged to manage and track their own progress by self-checking their work. Tapping into prior knowledge, our students' learning is enriched by the repeated use of materials and reinforcement of familiar content. Teachers blend learning modalities as students learn about Math and Consumer Economics, Life Science, Civics and Consumer Resources, Health and Independent Living, Technology and Computer Literacy, etc. Learning best occurs when our students engage in research and high-level thinking activities. Further, learning is made available as ideas are presented, shared, discussed, and evaluated. Appealing to the whole individual, we place a strong emphasis on creating aesthetically-pleasing classroom environments where students feel safe and secure. Building trust and confidence is another piece that helps connect our students to the materials and curriculum. When our students are offered a safe environment where they can be challenged and successful, they are able to reach their full potentials.

HCCS believes that learning best occurs when:

- students are actively engaged in meaningful tasks,
- a connection is made between what students learn and the real world in which they live,
- individual plans and support is an intrinsic part of the educational program,
- students have some choice in the structure of their own projects and plans,
- work is accomplished individually and as members of a group,
- activities are integrated and meaningful,
- work is developmentally appropriate, leads to success, and is progressively complex,
- meaning is constructed from experiences,
- students are encouraged and expected to learn,
- coaches, mentors, family members, and advocates support the learners,
- students are encouraged to help others learn and to learn from others, and
- students are educated year round.

HCCS is committed to the goal of developing self-motivated, competent, life-long learners. Our curriculum is designed to promote individual initiative, critical thinking, self-reliance, intra- and interpersonal awareness and community involvement.

We incorporate several instructional strategies and learning theories into our teaching practices that are best suited for adults. We recognize that adults have unique learning needs and abilities and we work to engage and challenge our students at every level. Differentiated instruction, content-based instruction, and theme-based instruction ensure that our adult students at different ability levels are engaged. This is important at HCCS because our classes are multi-level. We also use student-centered instructional techniques to ensure that learning objectives are aligned not only to curriculum objectives but also to our students' needs. One key component in student-centered instruction is building on prior knowledge and understanding our students' backgrounds, strengths, and weaknesses. At HCCS our students have very different backgrounds

with a variety of skills. It is important that we understand our students' backgrounds, skills, and abilities to help them achieve their goals. We also use project-based learning, a dynamic student-centered approach that engages students to explore real world problems through active learning in long-term, theme-based projects. We engage our students with real and complex problems because our students have real and complex problems. It is imperative that we develop problem-solving and critical thinking skills in our students to ensure that their best learning occurs.

1.8: HCCS Annual Goals and Actions

LCFF STATE PRIORITIES	
GOAL #1	
A reputation in the community for providing quality academic, English language development, and career education to adults who lack a U.S. high school diploma	Related State Priorities: 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☒ 6 ☐ 7 ☐ 8 ☐
	Local Priorities: 1 ☐ 2 ☐
Specific Annual Actions to Achieve Goal	

1. \Under the guidance of our Executive Director, HCCS expanded current and new partnerships with Commations unity Based organizations: Asian Resources Inc., Council on American Islamic Relations California, Russian Baptist Church of Bryte, Sacramento Area League of Associated Muslims and the California Black Chamber of Commerce Foundation.
2. HCCS has partnered with various advertising and media outlets such as Afisha Media Group, Jay King, Russian American Media, The Crescent, KSFM, and Ukraine Relief, to reach more potential students. A Back to School open house was held in Fall 2017 to provide resources and information about HCCS and community partners.
3. New student orientation is held weekly at the main campus and some off sites. All new students receive an "It's Never Too Late" t-shirt upon enrollment to promote school unity and pride. Students also receive supplemental supplies in their classroom such as supplies for project-based learning.

Expected Annual Measurable Outcomes

Outcome #1: Collaborating with community-based organizations has allowed us to reach students who are in need of quality educational programs. HCCS' ADA is 1250 and has earned an alumni rating of an "A" from former students and graduates' survey.

Metric/Method for Measuring: Average alumni and student rating

Applicable	**Baseline**	2019–2020	2020–2021	2021–2022	2022–2023	2023–2024

Specific Annual Actions to Achieve Goal

1. HCCS provides daily bus passes to our students at each of our 23 sites throughout the greater Sacramento region.
2. HCCS has designated a certificated teacher to work part time to coordinate homeless services and housing resources for our student populations.
3. HCCS has placed water dispensers at all of our school sites so students may access filtered hot and cold water throughout the day. Nutritional boxed lunches were provided at numerous sites to our students at no cost throughout the school year.
4. HCCS offers site-based learning with some additional field trips which were paid for from base funds.
5. HCCS partnered with Mental Health California to provide "Mental Health First Aid" training to staff and students. One staff member is attending the California Consortium of Addiction Programs and Professionals (CCAPP) Academy to become a substance abuse specialist and provide support to students. Four school counselors also provide day-to-day mental health support.

Expected Annual Measurable Outcomes

Outcome #1: HCCS presently provides play care, free bus passes, employment services, mental health resources, housing resources, and clothing closets. Our goal for attendance was 64%, and we are on track to approach 75%.

Metric/Method for Measuring: Average daily attendance (increase by approximately 3% annually)

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-2024

Specific Annual Actions to Achieve Goal

1. HCCS invested in 21 paraeducators to support all high-needs students. Four full-time and three part-time paraeducators who assist in seven classrooms were added this year.
2. Two Transition Specialists provide comprehensive career coaching services to current students and alumni. Two college transfer fairs with Sacramento City College were held to assist students with their transition to college and navigating financial aid. Four school counselors also work with students on setting goals, career exploration, and other career and college counseling services.
3. Students are recognized for perfect attendance on a weekly basis to promote students persistence. A student rally was held in the spring at the Grand Avenue campus to recognize student achievement.
4. A peer mentor provides follow-up services for our alumni students and provides resources and assistance with transitioning out of high school and into colleges and careers.
5. HCCS provides assistance with exams for California Department of Education Credentialing, Cosmetology, CPR certification for students, Department of Motor Vehicles and Department of Transportation Physical Examination fees for Truck Driving Career Technical Education participants.

Expected Annual Measurable Outcomes

Outcome #1: HCCS has supported student and alumni achievement by investing in additional paraeducators in classrooms and enhanced technology resources. These investments along with other proven investments have allowed our students to exceed our schoolwide GPA goal of 2.77 to 2.44. HCCS is on course to meet our high school graduation goal of 40%. We exceeded our goal of 60% for non-exempt alumni gaining and maintaining employment with 59%. And 19% of our alumni are enrolled in college or post-secondary education which exceeds our goal of 10%.

Metric/Method for Measuring: Number of students with either clear goals, GPA, graduation rates, alumni employment and college enrollment rates

1. A teacher on special assignment along with some CTE teachers continued to work developing new courses, aligning our current Career Technical Education pathways and exploring new programs such as a Digital Media program via the Arts Media and Entertainment pathway. Exploration of a culinary and entrepreneurship program for students and how this might become a pathway. We continue to offer child care careers, entrepreneurship, cosmetology, Information Technology, office careers, and Truck Driving where students can earn a Class A License.
2. Equipment to expand and enhance our current CTE programs including supplies for Child Development and Truck Driving.

Expected Annual Measurable Outcomes

Outcome #1: HCCS is committed to student success and providing opportunities to obtain a livable-wage career. HCCS provides classes in child psychology and parent education. The CTE courses available consist of Truck Driving Class A License, Early Childhood Education Careers, Microsoft Suite Certification, A+ Information Technology, Medical Office Training, Cosmetology, Manicuring, Entrepreneurship, and Culinary Arts.

Metric/Method for Measuring: CTE program participation and completion rates of long-term students

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-2024
CTE Students	7% CTE participation rate 31% CTE completion rate	12% 36%	17% 41%	22% 46%	27% 51%	32% 56%

GOAL #7

Support adult immigrants in becoming part of the United States of America by helping them learn English, citizenship, civics, and other relevant basic skills and knowledge.

1. HCCS has significantly increased our certificated ESL staff and elementary program through base fund expenditures. Supplementary classes such as conversation, computer literacy, and phonics are funded through supplemental and concentrated funds.
2. Our focus as a school has shifted towards transitioning students into our High School Completion program from our ELD program. We continue to provide HiSET instruction at our Maple campus. The instructor at Cosmo Beauty Academy provides instruction in Spanish in all academic subjects to individual students as required.
3. Three Bridge classes are taught to assist English Language Learners with the transition into our High School Completion program. We have 30 students who have been promoted this year. HCCS has also assisted 76 students in obtaining their United States citizenship through our Citizenship English Language Development courses.

Expected Annual Measurable Outcomes

Specific Annual Actions to Achieve Goal

Outcome #1: We exceeded our metrics in elementary English language development: 58% of our ELD learners have made significant learning gains on the Comprehensive Adult Student Assessment System (CASAS) reading assessment, exceeding our goal of 52%. Shifting significant resources and obtaining additional paraeducators has been highly effective.
Metric/Method for Measuring: The percentage of long-term English learners who make "significant progress" (expected 30pt gain annually) on the CASAS Reading, Listening, and Math assessments, HCCS Writing and Speaking assessments and ELD rubrics.

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-2024
English language learners	52% of English learners made significant progress (max. 30 pt. gain) on assessments	52%	55%	55%	58%	60%

GOAL #8

HCCS will have excellent teachers.

Specific Annual Actions to Achieve Goal

1. There are 38 teachers in the Designated Subjects credentialing program with the San Diego County Office of Education. Three teachers are also going through the Sacramento County Office of Education Teacher Induction Program. We currently support nine mentors for the Designated Subjects Program and two mentors for the Teacher Induction Program. A teacher on special assignment continues to coordinate and support the mentor teachers.
2. One Thursday per month, two hours are designated for professional development. A three-day professional development session is held twice per year. Staff are surveyed annually to address professional development needs that will be addressed at a professional development retreat. Lead teachers also design and implement professional development for their peers. Teachers attend various technology conferences.

Expected Annual Measurable Outcomes

Outcome #1: HCCS exceeded our goal on teacher credentialing because we recruit highly skilled teachers from the UC and CSU systems. They come to HCCS with master's degrees and a wealth of teaching experience but need their Designated Subjects Credential.

Metric/Method for Measuring: The number of teacher misassignments, the percentage of elementary and secondary teachers without a credential

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-2024
	The # of teacher misassignments is 0 The percentage of elementary and secondary teachers without a CTC credential is 19%	0 19%	0 15%	0 10%	0 10%	0 0%

GOAL #9

A safe school environment that is conducive to student learning.

Specific Annual Actions to Achieve Goal

1. A teacher on special assignment has worked with individual teachers and sites to promote instructional excellence, Common Core State Standard implementation, and content specific standards. The teacher on special assignment has developed resources to support instruction and promote student learning as well as supported teachers through coaching, modeling, and professional development. In addition, the teacher on special assignment has provided teachers support for students with 504 plans via professional development and technical assistance in the areas of curriculum, instruction, and compliance.
2. Supplemental and concentration funds were used to purchase 90 laptops, 4 charging stations, and 150 headphones for students. WIOA grant money was leveraged to purchase 195 additional laptops, 145 headsets, 100 computer mice, and 8 charging stations.
3. HCCS purchased English Language Development workbooks and Cambridge readers. *Keys to Algebra* was purchased to supplement high school algebra.
4. Science lab supplies were purchased for our science classrooms.

Expected Annual Measurable Outcomes

Outcome #1: A teacher on special assignment has worked with teachers and paraeducators to promote instructional excellence, Common Core standards implementation, and content specific support. The teacher on special assignment has developed resources to support instruction and promote student learning.

Metric/Method for Measuring: The percentage of curricula that is aligned with California State Standards and the percentage of students who have access to sufficient instructional materials. Student success is measured by "significant progress" on the CASAS Reading, Listening, and Math assessments, HCCS Writing and Speaking assessments, HS and ELD rubrics, course completion and level advancement, program completion, and graduation rates.

Applicable Student Groups	Baseline	2019-2020	2020-2021	2021-2022	2022-2023	2023-2024
All students schoolwide	100% of curricula aligned with California State Standards	100%	100%	100%	100%	100%
	100% of students have access to materials	100%	100%	100%	100%	100%

1.9: How the Goals of the Program Enable Students to Become Self-Motivated, Competent and Lifelong Learners

At HCCS our goals are to enable students to become self-motivated, competent, and lifelong learners. By removing barriers to education, assisting our students in achieving their goals, and in helping our students to obtain livable-wage jobs, we inspire our students and provide the tools for them to be self-motivated. In order for our students to be competent, we support them with materials, resources, and quality instruction. We also support our students to be competent in technology by providing them with access to laptops, computers, and the basic computer skills necessary for the 21st century. For our students who are also parents, we provide free play care for their potty-trained, non-school-aged children. We want our students to be lifelong learners who are great parents, critical thinkers, and problem solvers who are productive and active members of society. To encourage our students in their lifelong learning, we integrate our immigrant population to be part of the United States and part of our community, to learn English, and to become civic-minded people engaged in local events. Additionally, we have provided valuable training such as CPR to ensure lifelong safety. Our goals ensure that we are supporting our students in areas where they need it most by providing access to the tools and resources they need in order to reach their goals.

Instructional Design

1.10: Overall Curricular and Instructional Design Informed by Key Educational Theories and Research

HCCS Curriculum Standards

We are a very unique school in that while we serve adults, we are teaching content at many levels. Within our ELD and high school programs, we teach: reading, writing, speaking, listening, math, science, technology, health, civics, and social science, often integrating several subjects into a single lesson. In order to meet the California Common Core State Standards, ELD standards, and all of the adult education

standards, our curriculum was developed and adapted in alignment with seven sets of standards:

- California Common Core State Standards (CCSS)
- California English Language Development Standards (CA ELD)
- California English-as-a-Second-Language Model Standards for Adult Education (CA ESL MSAD)
- Comprehensive Adult Student Assessment Systems (CASAS) content standards and competencies
- Workforce Innovation and Opportunity Act (WIOA)
- Western Association of Schools and Colleges
- National Reporting Systems (NRS) standards for English as a Second Language (ESL) Educational Functioning Level Descriptors

Our content and themes are based primarily on the California Common Core State Standards and the Comprehensive Adult Student Assessment System content standards and competencies. The remaining standards were integrated into the leveled objectives by program and subject. Our curriculum objectives are the foundation of our instruction. Our monthly themes are aligned with CASAS competencies and WIOA's English Language Civics themes and provide additional teaching and learning opportunities in high interest topics related to essential daily tasks and community engagement.

Curriculum Goals and Principles

At Highlands Community Charter School, we understand the importance of providing a curriculum of depth, breadth, and rigor, which is why we develop and adapt curriculum in alignment with the above standards.

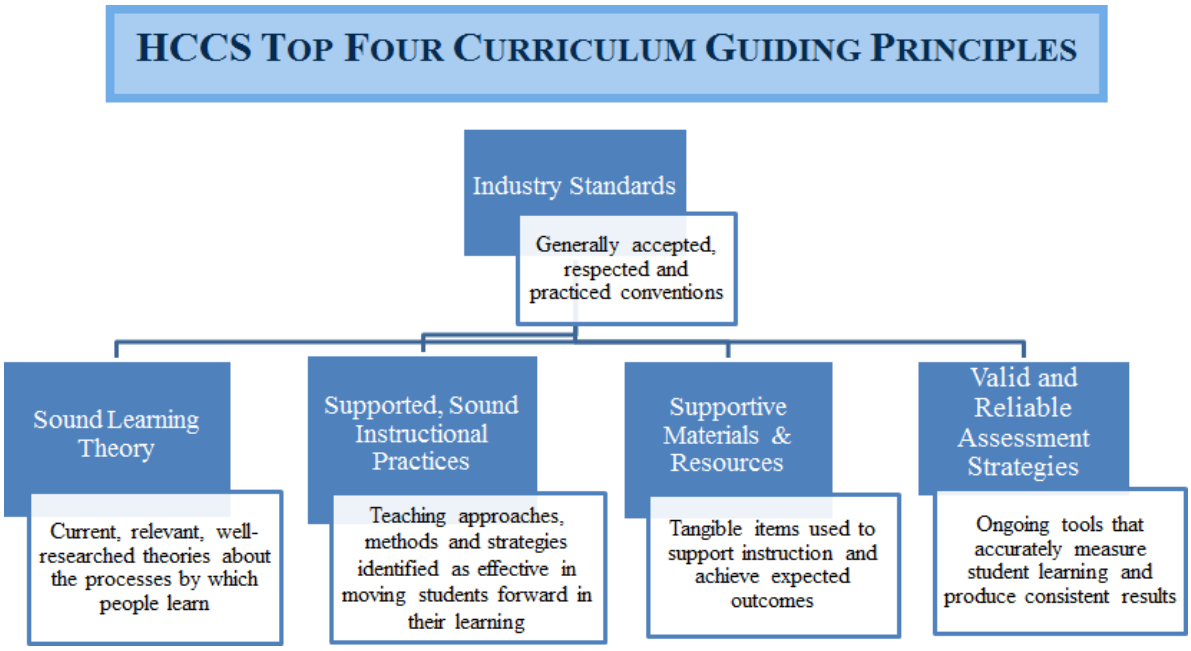
We believe that our students are worthy of academic excellence, and we strive to ensure that they believe it as well. More than this, we know that in order to fully live our vision, mission, and motto, the curriculum we deliver to our diverse student population must additionally meet our own internal curricular goals and core curricular principles.

Our HCCS Curricula Goal

At HCCS it is our goal to develop and deliver a curriculum that is: ★ Concise, Balanced, and Accessible without Compromising the Integrity of the Curriculum.

Our Core Curricular Principles

1. Industry Standards: Generally accepted, respected, and practiced teaching conventions
2. Sound Learning Theory: Current, relevant, well–researched theories about the processes by which people learn
3. Supported Sound Instructional Practices: Teaching approaches, methods and strategies identified as effective in moving students forward in their learning
4. Supportive Materials and Resources: Tangible items used to support instruction and achieve expected outcomes
5. Valid and Reliable Assessment Strategies: Ongoing tools that accurately measure student learning and produce consistent results



The Educational Program

Our instructional division is made up of administrators, coordinators, specialists, a counseling team, a teaching team, an assessment team, and an academic support team.

Adult Education Learning Theories

At HCCS we rely on research and educational learning theories in designing our educational programs because we know that our adult students have different needs than students in traditional K-12 schools. In order to meet the diverse needs of our students, we consider adult learning theories, sociocultural theories, differentiated instruction, content-based instruction, theme-based instruction, and student-centered instruction.

According to Malcolm Knowles (1980), there are several key factors that separate children from adults in terms of motivation, experience, readiness, and problem-solving abilities. According to Ryan Tracey in his 2009 article *Adult Learning Principles? Sminciples!,* Malcolm Knowles' theories on adult learners state that, "Adult learners are self-directed, bring experience with them to the learning environment, are ready to learn, are problem-oriented, and are motivated to learn by internal factors." Patricia Cross (1981) characterizes adult learners by motivation, personal characteristics, life circumstances, and focuses on personality differences between adults and children. According to Cross, individual elements that impact adult learners include physiological, sociocultural, and psychological factors. Along with personal elements, Cross emphasizes the impact of full-time versus part-time instruction and whether it's mandatory or voluntary. While Knowles asserts that adult learners are motivated by internal factors, Cross offers several sources of motivation for adult learners including social, external, social welfare, personal achievement, escape, and personal fulfillment. Cross also emphasizes that adults are usually voluntary learners. They are more likely than children to be insecure about their learning, and they usually want to solve their problems.

At HCCS we respect and appreciate that our students are adults and come to us with life experiences,

employment, and educational histories. Every single student has unique skills and abilities. Our teachers and counselors get to know students and their backgrounds in order to understand not only their educational areas for growth but also their goals, motives, and their problems. We know that each student is overcoming a unique set of obstacles. By understanding our students as people, we can work with them to accommodate their learning styles and ultimately assist them in achieving their goals. While some of our students come to us with a great deal of confidence, others need a great deal of encouragement and support in their personal, academic, and career aspirations.

Sociocultural Theories

According to Sociocultural Theory (SCT), social interaction is the foundation of all learning (Walqui, 2008). Sociocultural perspectives in language acquisition emphasize real-word participation with authentic language and activities that occur in everyday life (Zuengler & Miller, 2006). Some of the primary assumptions of Sociocultural Theories are that learning occurs before development, that language is the primary tool for thought (Mitchell, Myles, & Marsden, 2013), that writing and speaking are connected (Lightbrown & Spada, 2012), that mediation is essential to learning (Walqui, 2008), and that concept-based instruction aids learning (Mitchell, Myles, & Marsden, 2013). The Zone of Proximal Development (ZPD) and Scaffolding are two very important concepts in Sociocultural Theory. The ZPD is the stage in which the learner can advance as a result of support (scaffolding) that's provided to them by an interlocutor (Lightbrown & Spada, 2012). Scaffolding is defined as, "a process of setting up" the situation to make the student's entry easy and successful and then gradually pulling back and handing the role to the student so that the student becomes independent enough to handle it (Walqui, 2008). For example, in traditional Sociocultural Theory meaningful interactions take place between an expert (teacher) and a novice (student), where the expert provides the learner with scaffolding during the learner's ZPD.

At HCCS we value meaningful, real world communication, interaction, participation, and authentic language, and we utilize it in our educational programs. We do this in our classrooms and in our community field trips. In our English Language Development program, we emphasize English conversation practice that takes place in real-life scenarios and situations such as at doctor's appointments and hospitals, grocery stores, schools and colleges, libraries, job interviews, the DMV, post office, etc. In our high school English program, our teachers use weekly themes to address real world issues. The problem based lessons are based on our students' needs and current events. These lessons are introduced and students' use role playing, presentations, internet research, and paragraph writing to demonstrate understanding. Our CTE programs strongly emphasize practical hands-on experiences and real-world learning. Truck driving, early childhood education, cosmetology, manicuring, and our computer technology programs all rely on real world practice and problem solving to engage our students.

Our teachers, students, and staff value field trips, and it is reflected in our LCAP data and budget. Many English Language Development, high school, CTE, and Citizenship teachers take our students on engaging and educational trips outside of their traditional learning environments. Past field trips include Sacramento's State Capitol, several Sacramento Public Libraries, Raley Field and a Sacramento River Cats baseball game, Sacramento City College Information sessions, resume workshops, a 4th of July fireworks display in Old Town Sacramento, Crocker Art Museum, Sutter's Fort and Indian Museum, The Sacramento History Museum, Lighthouse Charter School, Mission North Park, a parenting class hosted by UC Davis' MIND Institute, multiple career fairs, and many others. Hundreds of our students have benefited from these field trips, and they have greatly contributed to our students' learning, cultural awareness, community involvement and participation. These field trips and experiences give our students opportunities to interact within our community and learn through meaningful real life experiences.

Differentiated Instruction

Differentiated instruction (also known as differentiated learning) is a teaching framework in which the teacher works to simultaneously address the diverse learning needs of all students in one class (Maloy, Verock-O'Loughlin, Edwards, & Woolf, 2013). It is commonly used in multi-level classrooms to meet the needs of students with special educational needs, English language learners, and with students who are advanced or in talented and gifted programs. It allows students the opportunity to learn through various avenues and each student has different expectations based on learning styles and abilities. According to the U.S. Department of Education's Literacy Information and Communication System (2012), the design is intended to engage students at a range of different levels with various learning styles and to make learning meaningful for students at every level. According to Carol Ann Tomlinson (2003), differences in student learning exists in four categories: readiness (prior knowledge), interest (curiosity), learning profile (formal or informal), and affect (self-regard). Before teachers can differentiate their lessons, it is imperative that teachers understand their students' levels, abilities, learning styles, interests, strengths, and challenges (Corley, 2005). Once they do, teachers can take a single concept or theme and facilitate learning at a variety of levels. Students can then demonstrate subject mastery in a variety of ways. Differentiated instruction takes many forms, and it requires the strategic use of groups and flexibility. Most of the teacher's work in differentiated instruction occurs before, not during class. The teacher selects a theme and then chooses learner outcomes. In differentiated instruction a teacher might allow students to select their method of assessment and delivery such as writing a paper, giving an oral presentation, making a website, writing a poem, making a storyboard, creating a PowerPoint Presentation or a Prezi, or making a short documentary.

At HCCS we have multi-level adult classes with students of varying abilities in our ELD, high school, CTE, and citizenship programs. Our students speak different languages and come from different countries. Some of our students come to us with advanced degrees from other countries where they were doctors and engineers, and others have had no prior education. In our high school program, some of our students come to us with almost enough credits to graduate, and other students come to our program without any. Every student comes to HCCS at a different level. Each student has their own learning style, interests, and abilities. We recognize the differences in our diverse student population and utilize differentiated instruction to ensure we meet the needs of all our students.

Content-Based Instruction (CBI)

In order to meet the depth, breadth, and rigor set forth in our ambitious schoolwide curriculum objectives that are written in alignment to the multiple sets of standards listed above, we implement content-based instruction practices in our classrooms. At HCCS we make every effort to ensure that students are given ample and meaningful access to content competencies as well as practice with the necessary skills to critically analyze content in which they are exposed. Employing content-based instruction strategies in our classroom is one way our teachers meet the rigorous requirements of our curriculum.

For our ELD learners who are developing foundational, language-domain skills like reading and writing, the role of context is fundamental to supporting their language and literacy development. Content-Based Instruction provides the context rich materials of our content curriculum for their skills development.

Perhaps the most important thing to note is the ever-widening gap in vocabulary that will forever impede the academic progress of ELD learners of all ages. Content-based instruction is one tool we use at Highlands Community Charter School to help bridge the vocabulary gap of our non-native speakers and native non-literate readers alike.

Content-based instruction is founded on important principles, but its success depends on the details of its implementation.

Sound teaching practices that our teachers integrate into content-based instruction classrooms

1. Extended input, meaningful output, and feedback on language and grasp of content
2. Information gathering, processing, and reporting
3. Integrated skills
4. Task-based activities and project work, enhanced by cooperative learning principles
5. Strategy training
6. Visual support
7. Contextualized grammar instruction
8. Culminating synthesis activities

Methods we use to promote the acquisition of content (and language)

- We make sure that our learners consider input from a variety of sources representing diverse perspectives on related subject matter.
- We guide our students in revisiting input for different purposes.
- We ensure that our students have many opportunities to synthesize knowledge that originates from multiple sources.

Approaches we use for building curricular coherence

- We scrutinize the ways we define instructional units – themes are central ideas and topics are subunits of the theme.
- We use planned transitions across topics and across tasks within topics.
- We consider threads – links across themes in curriculum development.

Theme-based Instruction

At HCCS we select monthly, schoolwide themes for our ELD program. Our aim is to engage students at every level using that theme while teachers focus on level appropriate content.

Themes for the 2018–19 school year:

- July- Technology
- August- Goals
- September- Educational systems
- October- Employment
- November- Laws/ Government/ Immigrant Rights
- December- Consumer Economics
- January- Health
- February- Housing
- March- Transportation Systems
- April- Emergencies
- May- Food/ Nutrition
- June- Family/ Parenting/ Family Resources

Student-Centered Instruction

Student-centered instruction is teaching and lesson planning that focuses on students. As teachers, we must get to know our students, their backgrounds, what they know, how they learn, and their goals. Teachers can then design lessons to build on student knowledge and focus on teaching topics that are relevant and meaningful to students. This is especially important in adult education where students are electing to continue their education. We demonstrate student-centered instruction by working with our students to choose topics and themes for each month.

Based on the five assumptions, Knowles also presents the four principles of Andragogy which HCCS also considers when designing curriculum and instruction for our students:

- Adults need to be involved in the planning and evaluation of their instruction
- Experience (including mistakes) proved the basis for learning activities
- Adults are most interested in learning subjects that have immediate relevance and impact to their jobs or personal lives
- Adult learning is problem-centered rather than content-oriented

Although adult learners are responsible for their own decisions, we believe that it is our responsibility to encourage and guide students to make the decisions that are best suited for them. We are confident that all students can learn and grow from our staff who are dedicated to student achievement and building relationships that will last a lifetime. Our ELD and high school programs are essential to the success of our adult learners. Our students have come back to school to change their lives, and we believe that it is our duty to ensure it happens.

1.11: HCCS Curriculum and Instruction

Innovative Curricular Components

Adult Literacy

At HCCS we believe it is imperative for our students to be able to read and write. Without reading and writing skills, they will not be able to achieve their academic or career goals. Many of our students enroll with us at a low reading and writing level. In response to this, we created programs for both our ELD and high school students. We hired a Lead Literacy Teacher and a Reading Specialist, and we created a Remedial Literacy course for our ELD students. This course is intended for students who are progressing in all of their subjects but need support with reading. For our high school students, we created two remedial reading classes. These classes focus on phonemic awareness, sounds, and pronunciation. When classroom teachers notice that a student is falling behind, they are referred to either a specialist or a remedial class. By providing additional literacy support for our students, we ensure that they are able to read and write.

Outcomes-Based Learning

At HCCS we have created extensive curriculum objectives aligned to California Common Core Standards, and we have implemented monthly themes that relate to CASAS competencies and English Language Civics Objectives supported by WIOA. These serve as the foundations of our curriculum. Within our themes, classes, levels, and objectives, we utilize outcomes-based learning. We begin our lessons with a desired outcome and then work with our students to develop the skills they need in order to meet the outcome. This is relevant at every level of instruction in both of our programs. In the ELD program, we focus on tasks such as reading a short book, writing a paragraph, having a short conversation, giving an informal presentation, or completing a job application. In our high school program, we focus on tasks such as reading a novel, writing an essay, having a debate, giving a formal presentation, and completing a college application. In CTE, students demonstrate their understanding based on their respective program. In Truck Driving, students practice safe truck-driving techniques they have learned. At Cosmo Beauty Academy, students demonstrate their learning through the applied practice of the cosmetic and manicuring techniques they have learned. We believe that by ensuring our curriculum objectives are aligned to standards and by using outcomes based learning, all of our students are focused on the immediate learning goals. Our

standards are high; the expectations are clear; and we support our students in reaching program and course objectives.

Proficiency Requirements

We believe that we get the best work out of our students when expectations are high. This is why, at HCCS, we ensure that our students are meeting our rigorous standards before they are promoted to the next level or before they pass a class. Although proficiency requirements are different for our ELD and high school programs, both require students to perform at a high level of mastery. In order for one of our ELD students to complete a level and move up to the next class, they must receive the highest grade available in the course. In our ELD courses, students are eligible to receive one of four grades for each subject: M, A, D, or E. The grade of M indicates that the student is meeting or exceeding the standards and objectives of the class for their level. Until our students have earned this grade, they remain in their class. In our high school program, students are graded on a traditional grading scale of A-F. In order for a student in high school to pass a class, they must earn a C or better. If they do not earn a C or better, the student must complete supplemental assignments to pass the course and earn credits toward graduation.

The grading criteria for our high school students includes successful completion of all coursework, papers, projects, presentations, and end-of-unit tests required in any given course. The grading criteria for ELD students includes CASAS reading and listening assessments as well as the successful completion of all coursework, papers, projects, presentations, tests and end-of-term exams which cover all skills taught. High school and ELD instructors will use rubrics aligned to standards found on the HCCS alignment matrices to guide their grading process of all coursework, papers, projects, presentations, end-of-unit/term exams and final course/level grades.

Student Success

Our students' success is very important to us, and one way we ensure their success is through our student support services. Through our student support services, we offer assistance with classwork, homework, resume writing, job search, job fairs, mock interviews, career advising, FAFSA support, college applications, college advising, housing services, homeless services, and expungements. Over the last year, we have grown and now offer field trips, student support groups, one-on-one college and career advising, and workshops geared toward college and career readiness. Our student success team contacts our high school and CTE graduates to find out whether they are employed or attending college, whether part-time or full-time, and their hourly wage. At HCCS we want all our students and our alumni to be successful.

Intervention and Enrichment

Attendance Policy

At HCCS we say that progress requires commitment and commitment requires attendance. We believe that attendance is crucial for our students' success. When our students are not present in class, we contact them either by email, text, or a phone call. We believe in holding our students accountable and supporting them when they need it. Our paraeducators, teachers, and counselors maintain communication with our students when students are absent. We want to ensure that if our students are having personal hardships, we are supporting them and providing them with every service we have available either at HCCS, at one of our partner organizations, or at an external location.

Homework Policy

At HCCS we believe that level and content appropriate homework improves students' understanding of classwork and improves academic performance. While homework is not required for most of our classes,

we do assign up to two hours of optional daily homework for students who want or need supplemental practice. According to our policy, homework is due the class after it was assigned. For example, homework given on Monday is due on Tuesday, and homework given on Friday is due on Monday. Homework is not given to students who are absent for that day. For example, a student who is absent on Tuesday will not be given homework for Tuesday. Students will not be able to get homework from their friend or teacher once the class is over. All homework should be completed by the student. Students can get help with their homework, but family and friends should not write or complete homework for them. All homework should be in the students' handwriting. Also, students can work together after class, but students should not copy each other. Each student should have their own answers. Cheating will result in no credit for homework for that day.

Independent Study

We believe it is important for our students to have the flexibility, study skills, motivation, and discipline to work and study independently. At HCCS we have two options for students interested in independent study: service-learning and field study.

Service Learning

Service learning is a one-day, independent study option where students volunteer in the community. Examples of appropriate service-learning opportunities include:

- Cleaning up a park or public place
- Working at a local school
- Volunteering at a local hospital
- Working at a local library
- Feeding the homeless
- Reading to children at after school program
- Helping at a cultural event in the community

Service learning is usually offered by teachers at HCCS when there is professional development or teacher training for all teachers. It is an opportunity for students to engage in the community. Students complete a form that includes their personal information and asks for a description of what they did for their service learning. They are also required to have someone verify the number of hours of participation.

Field Study

Field study is an independent study option where students can study for up to seven consecutive days at home and receive classroom credit. In field study, a teacher creates daily work assignments. These work assignments are similar in level and content to traditional coursework and should take approximately the same amount of time to complete as the daily class. If the normal class is one hour, then the teacher provides one hour of work. If the course is four hours, the teacher provides approximately four hours of work for the students to complete at home.

Field study is typically offered to students during times when they are unable to attend class. Common reasons for students to enroll in a field study include but are not limited to the following:

- They are observing an important cultural holiday or celebration.
- They are traveling.
- They have a family emergency.
- They have a medical condition.
- Their children are home from school and they don't have childcare.

- They do not have transportation for a set period of time.
- They have family visiting from overseas

In order for students to participate in field study, they must complete a master agreement and agree to complete the work in a set amount of time. After the field study period is complete, students must turn in the completed work to their teacher. At that time, the teacher checks for completion before giving credit.

Here at HCCS we have a diverse student population that comes to us from all over the world. They have religious holidays that are not recognized by the federal government. We recognize the value of their beliefs and traditions, and we support them by providing the opportunity for them to celebrate their culture with their families while still continuing their coursework. We also understand that our students have children, families, emergencies, and sometimes situations that do not make it possible them to attend class. While we firmly believe that attendance is crucial for their success, we believe that by providing our students with supplemental materials and work, they do not have to choose between learning and religion or learning and family.

Counseling Services
We are proud to have highly trained, compassionate counselors who support each and every student. Our counselors are able to provide assistance and information on many issues including:

- Family issues
- Personal issues
- Conflict management
- Career counseling
- Substance abuse and recovery
- Student support groups
- Homeless services
- Accessing government programs
- FAFSA
- Parenting and family resources

Our students face many challenges and have many barriers to completing their education and accomplishing their goals. At HCCS our counselors understand our students' needs and assist them by addressing barriers because we want our students to complete their classes and graduate. We believe that by meeting our students where they are, they are more likely to continue and complete their programs to graduate.

Curricular and Instructional Materials

1.12 : Comprehensive Course List ELD Course Descriptions

Non-Literacy - Level 0

In this course students will learn the foundational principles of English and basic communication skills. This is a combined skills class where students will work on reading, writing, speaking, and listening. The content of this course is focused on daily living and prepares students for formal and informal social exchanges. Special emphasis is placed on building phonemic awareness, vocabulary building, and sharing personal information.

Literacy - Level 1

In this course students will further develop their reading and writing skills with a strong emphasis on sentence completion and accuracy. Students will delve deeper into grammatical structures of English and will continue to expand their use of verbs. The content of this course focuses on authentic language used in

a variety of settings. This course prepares students to communicate during daily events and routine activities.

Beginning Low - Level 2
This course focuses on clear speaking and pronunciation using authentic language. In writing, students focus on spelling and mechanics and legibility while in reading they focus on sight words. Conversationally, the focus is on asking and answering "*Wh*-" questions and comprehending brief messages. During this course, students brainstorm ideas as well as plan and deliver brief oral presentations.

Beginning High - Level 3
In this course students will learn and use a growing number of verb forms, compare and contrast ideas, offer and negotiate meaning using evidence, paraphrase, comprehend morphological changes, and distinguish homophones.

Intermediate Low - Level 4
In this course students will use their reading, writing, and speaking skills to deliver oral presentations. There is a strong emphasis on complex sentences, exchanging ideas, and making connections between joint ideas. During this course, students will read and comprehend moderately complex passages and ideas with specialized vocabulary with the purpose of identifying the main idea. There is a special emphasis on writing well organized summaries.

Intermediate High - Level 5
In this course students will use complex sentence structure and grammar and incorporate supporting opinions into their productive tasks. There is a strong focus on increasingly complex multi-paragraph compositions and referential language as well as understanding detailed instructions. During this course, students are required to draw from personal experiences to infer meaning and to collaborate on projects. This course emphasizes the integration of word processing skills in written communication.

Advanced Low - Level 6
This course is designed to begin developing the foundational skills necessary for academic success in a mainstream high school and even college level class. It focuses on advanced reading and writing strategies and implements technological and research skills. Through thematic readings, students engage in critical evaluations of texts. Special emphasis is placed on writing revisions and feedback, group projects, and presentations.

Advanced High - Level 7
This course is designed to support students who are transferring from the ELD program to high school English. It focuses on improving reading comprehension skills, logical thinking processes, and a broad range of writing skills, from the expository to the creative. It covers the basics of language, literature and written composition. In this course students will explore literature genres, the rules of language, the conventions of grammar, the mechanics of writing, as well as many of the facets of narrative and expository writing. At the completion of this course students, should be ready for high school English.

Citizenship
This course is designed for students to learn the basic knowledge of U.S. government, history, civics, reading, and writing skills and to prepare for, apply for, and pass the USCIS Citizenship Exam. Language functions and language forms are integrated into listening, reading, writing, and speaking activities, all designed to improve the student's ability to take and pass the USCIS exam. Through lectures and individual and pair/group participation, the student is exposed to the language needed to prepare for the reading,

writing, and interview portion of the USCIS exam.

High School Course Descriptions

Foundational Mathematics
This course reinforces arithmetic skills, developing the pre-algebra concepts of variable recognition, signed numbers, formulas, and single variable equations. Students will be introduced to algebraic symbolism, simplifying expressions, solutions to elementary equations, and the graphic representations associated with variables.

Pre-Algebra
This course provides an introduction to elementary algebraic concepts while reviewing basic math skills. It is a self-paced course with credits dependent on work completed and concepts mastered. The course first revisits prerequisite skills to ensure students have foundational math concepts that are vital for higher math courses. The course curriculum is closely aligned to California State Math Standards which can be located throughout the textbook throughout each chapter.

Students will learn to think flexibly about relationships among variables, expressions and properties, integers and equations, fractions, decimals, exponents and roots, ratios, rates, proportion and percents, algebra on coordinate plane, geometry basics, and critical thinking with word problems. Students will learn to recognize and understand how to convert fractions to decimals and percents while using these representations in estimation, computations, and applications. Students will investigate and explore mathematical concepts while developing a variety of strategies for analyzing complex situations. The course will show a connection between computational and applied math while making meaningful connections to students' life experiences: calculating discounts, markups, commissions, and profit. Students will evaluate simple and multi-step equations and inequalities while using the correct order of operations when solving numerical and algebraic expressions. Lastly, students will be analyzing situations numerically, graphically, verbally, and symbolically throughout the course.

Algebra 1
Algebra 1 is designed to help provide students with the foundation for all future mathematics courses. Students will explore operations, terms and expressions, equations, polynomials, rational numbers, multiplying and dividing rational expressions, adding and subtracting rational expressions, graphs, systems of equations, and square roots and quadratic equations. Common Core standards are taught and reinforced as the students learn how to apply the concepts in real life situations. Algebraic skills and concepts are developed and used in a variety of problem solving contexts. The course is self-paced with credits dependent on work completed and concepts mastered.

Students will use variables and appropriate operations to write an expression, an equation, an inequality, or a system of equations or inequalities that represent a verbal description. The course will further explore graphing linear functions while noting the vertical change per unit of horizontal change is always the same and know that the ratio (rise over run) is called the slope of the graph. Students will be able to identify a point lies on a line, given an equation of the line, and derive linear equations by using the point-slope formula. Students will be expected to demonstrate skills that will be valuable not only in this course but also in future educational and vocational settings including oral presentations and technology. A primary goal of this course is for students to actively engage in a positive learning experience in which there is increased appreciation and understanding of mathematics.

United States (U.S.) History
This course provides students with an awareness of our national heritage. Students will develop a better and deeper understanding of how our country became what it is today. Students will continue to develop their reading, writing, thinking and research skills with the use of primary and secondary sources.

This course is aligned to the Common Core State Standards for Literacy in History/Social Science, and students will employ the following skills: develop socio-political literacy to understand different political and social systems, the relationship between a culture and its laws, and the differences between democratic and non-democratic systems; develop an understanding of different cultural values, belief systems, rights, and responsibilities inherent in participatory citizenship; develop analytical, critical thinking, and study skills, which help students understand major national and international dilemmas occurring today.

This course focuses on the study of modern American history and begins with a review of United States history from the nation's beginnings to the start of the 20th century. Connecting with past learning will highlight the initial segment of the class. An in-depth investigation of historical events and periods, the fostering of multicultural awareness, the recognition of ethical, civic, and democratic values present in American history, and the development of a historical perspective in relation to contemporary events represent the major aspects of the course. Literature, music, art, primary readings, videos, simulations and other activities will be used to enhance the subject.

American Government
American Government is a thematic course focused on the origins and structure of the United States government; the nature and function of the executive, legislative, and judicial branches; individual rights and responsibilities within the U.S. legal system; individual and societal roles and responsibilities as citizens functioning within the U.S. political and electoral system; the nature and function of state and local governments; and contrasting U.S. government with other systems of government. American Government is aligned to the Common Core State Standards for Literacy in History/Social Science, and students will demonstrate the following skills: students develop abilities to critically analyze, compare and contrast, and develop and defend opinions and positions, both orally and in writing, on the main areas of course focus.

The goal of this course is to enable a student to have a full understanding of all aspects of American government and its impact on his or her life thus becoming a self-directed, productive achiever who will be a successful and valued member of our community.

World History
This course emphasizes the political, economic, social, and geographic aspects of world history beginning with early democratic development and concluding with modern 21st century issues. Critical thinking skills are emphasized, stressing cause-effect relationships. This course is aligned to the Common Core State Standards for Literacy in History/Social Science, and the curriculum integrates these literacy standards throughout the course.

This course explores how the connection between the past and the future will continue to form our lives. In World History, students recognize the growing interdependence of people and cultures throughout the world. Students trace the rise of democratic ideas and develop an understanding of the historical roots of current world issues, especially as they pertain to international relations. They extrapolate from the American experience that democratic ideals are often achieved at a high price, remain vulnerable, and are not practiced everywhere in the world. Students develop an understanding of current world issues and relate them to their historical, geographical, political, economic, and cultural contexts. Students consider multiple accounts of events in order to understand international relations from a variety of perspectives

Economics
This course will provide students with an understanding of the principles of economics. As students become familiar with how markets work, they will interact with lessons to apply the key microeconomic concepts of supply and demand as well as the role of prices. This course targets important aspects of the world economy, including international trade and global economic challenges, and encourages students to apply the economic way of thinking to a variety of situations relevant to their everyday lives.

Economics is aligned to Common Core State Standards for Literacy in History/Social Science, and students will employ the following skills: interpret and summarize common economic terms, concepts and economic reasoning; explain the elements of America's market economy in a global setting and the influence of the federal government on the American economy; analyze the elements of the U.S. labor market in a global setting; categorize the aggregate economic behavior of the U.S. economy; and synthesize issues of international trade and explain how the U.S. economy affects and is affected by economic forces beyond the United States.

Biology A and Biology B
This two semester course fulfills the Biological Science graduation requirements. This course explores the origins, organization, reproduction, genetics, growth, development, evolution, behavior, and interdependence of living things. This course also includes cellular structure and function, general plant and animal physiology, and taxonomy. Students will work individually and in small groups. Laboratories and other investigations will be performed to supplement and enhance course topics. The goal of this course is to enable a student to have a full understanding of Biological Science as well as its impact on his or her life and thereby become a productive achiever who will be a successful and valued member of our community.

Earth Science
Earth Science is an introductory science course that meets the minimum graduation requirements. It contains components of physics, chemistry, and earth science topics. These topics include the study of atoms, molecules, compounds, chemical reaction, motion, forces, energy, waves, as well as Earth's place in the universe, its composition, and the processes that modify the surface. The goal of this course is to enable a student to have a full understanding of Physical Science and its impact on his or her life.

English A
This class focuses on introducing students to different types of texts: fiction, poetry, non-fiction, plays, etc. and on improving reading comprehension skills, critical thinking processes, and a broad range of writing skills from the expository to the creative. English A covers the basics of language, literature, and written composition as a preparation for the sequential English curriculum. The class covers the genre of literature, the rules of language, the conventions of grammar, the mechanics of writing, as well as many of the facets of narrative and expository writing.

This course calls for students to engage in a range of tasks based on the grade 9-10 ELA Common Core Standards: determine themes and central ideas, analyze character development, author's choice, points of view, interpret, assess, integrate and evaluate, collaborate, adapt, and apply. Students are required to demonstrate the critical thinking, problem solving, and collaboration demanded of 21st century living and learning, with emphasis on meaning making, effective expression, content knowledge, and language development. The course stresses a balanced comprehensive program that develops student ability to read and write, comprehend and compose, appreciate and analyze, and perform and enjoy the language arts. The standards continue to emphasize reading informative texts and literature as well as writing compositions

according to major text structures and genres and giving oral presentations.

English B
This course is a continuation of the themes and skills introduced in English A. English B focuses on improving reading comprehension skills, critical thinking processes, and a broad range of writing skills from the expository to the creative. English B continues to expand upon the basics of language, literature, and writing. The class covers the genre of literature, the rules of language, the conventions of grammar, the mechanics of writing, as well as many of the facets of narrative and expository writing.

This course calls for students to engage in a range of tasks based on grade 9-10 ELA Common Core Standards. Students will be able to analyze multiple themes or central ideas, analyze the impact of an author's choice(s), determine meanings of words, analyze multiple interpretations of literature, assess, integrate and evaluate, collaborate, adapt, apply that which requires the critical thinking, problem solving, and collaboration demanded of 21st century living and learning, with emphasis on meaning making, effective expression, content knowledge, and language development. The course stresses a balanced comprehensive program that develops student ability to read and write, comprehend and compose, appreciate and analyze, and perform and enjoy the language arts. The standards continue to emphasize reading informational texts and literature as well as writing compositions according to major text structures and genres and giving oral presentations.

English C
This course is a continuation of the themes and skills introduced in English B. English C focuses on improving reading comprehension skills, critical thinking processes, and a broad range of writing skills, from the expository to the creative. English C continues to expand upon the basics of language, literature, and writing with more depth. It requires the student to read complex texts and write longer essays with more analysis or analysis of more texts than English B. The class covers the genre of literature, the rules of language, the conventions of grammar, the mechanics of writing, as well as many of the facets of narrative and expository writing.

This course calls for students to engage in a range of tasks based on grades 11-12 ELA Common Core Standards. Students will be able to analyze multiple themes or central ideas, analyze the impact of an author's choice(s), determine meanings of words, analyze multiple interpretations of literature, assess, integrate and evaluate, collaborate, adapt, apply that which requires the critical thinking, problem solving, and collaboration demanded of 21st century living and learning, with emphasis on meaning making, effective expression, content knowledge, and language development. The course stresses a balanced comprehensive program that develops student ability to read and write, comprehend and compose, appreciate and analyze, and perform and enjoy the language arts. The standards continue to emphasize reading informational and literary texts as well as writing compositions according to major text structures and genres and giving oral presentations.

CTE and Elective Course Descriptions

Career Readiness

Career Success
The Career Success course focuses on two integrated areas of instruction: career preparedness and technology. Course content ranges from high school and career preparation to computer literacy skills. The area of technology is designed to be interwoven throughout course instruction. Mastery of the content

standards provides a strong foundation of student acquisition of the skills, attitudes, and knowledge that enables them to achieve success in school, at work, and across the life span. As part of preparing students to be college and career ready, this course also equips them with the skills needed for the workplace, continuing education, and lifelong learning.

The purpose of this course is for students to be able to demonstrate basic computer skills including typing, email, Google Drive, and internet searching; identify the effects of workplace behaviors; analyze personal skills, interests, and abilities and relate them to current career opportunities; and examine the employment process, including searching for a job, filling out a job application, writing a resume, developing and practicing interview skills, and completing required employment forms.

Personal Finance

This course challenges students to alter their thinking and behavior regarding their personal finances while teaching skills in money management, financial planning, spreadsheets, word processor and presentation software applications. This instructional course provides individuals with exploratory experiences related to personal finance which are designed to change behavior. These experiences explore various financial influences including spending, saving, debt, credit and credit history, investing, mortgages, retirement planning, etc. Students develop spending behaviors and habits that will lead to wealth accumulation. The course also provides exploration in the following areas: mathematical calculations applied to analytical information (spreadsheets), consumer marketing concepts (financial traps), computer literacy, economic concepts, and financial and technological developments.

Literacy Support

Reading Skills I
This is an elective course for the development of reading skills for students whose reading skills are far below high school level (e.g., most students taking this course will be reading at below 6th grade). Emphasis is placed on accelerating student learning so that students will achieve the ability to read at the high school level or make significant strides towards that objective. Skills learned in this class include syllabication, vocabulary acquisition, fluency, speed, and reading comprehension.

Reading for Pleasure
This elective course will help students improve their reading skills as they expand and explore their reading preferences by choosing to read three novels and completing activities based upon their novels. To earn the five credits for this course, the student must read and keep a reading log of three novels that the teacher has approved for the student to read. In addition to the detailed reading log, the student must also complete one project for each novel. This course focuses on Common Core reading standards for grade 9-10.

English Novel Elective
This elective course helps students with critical thinking, literary analysis, and the development of creativity within academic writing. In this course, students pick one of a list of teacher approved novels. They will then use that book to complete the majority of their assignments in the class. The assignments vary from essays to creating projects that use creativity, imagination, and textual examples. Students are also required to keep a reading log journal and complete formal assessments on the reading. They will also do assignments that relate to English but that may not be related to the actual novel that they are reading. The course objectives are based on ELA Common Core Standards for grade 9-10.

Entrepreneurship

Leadership (Beginning)
Understanding and executing principles of leadership is critical for students to improve their opportunities at school, work, and at home. This class explores how focusing on the causes or laws of leadership will improve the outcomes or effects of our leadership efforts. This class is a laboratory where students are taught principles and then given opportunities to discuss, explore, and implement these principles.

In the leadership setting, students are challenged to develop their literacy and vocabulary as they read and discuss various books, articles and videos; enhance their understanding of computer applications (including word-processing and presentation applications); elevate their reading, analytical, and writing skills as they read and compose a book report on a selected leadership book; and expand their presenting skills as they create and present their findings developed through the book report process. Students will also be expected to improve their teamwork, collaboration, and leadership skills and abilities as they work in small groups to teach leadership concepts to their classmates.

Entrepreneurial Mindset (Intermediate)
The mindset of an entrepreneur is critical to the development of the business concept and the overall success of any business. This class builds on the leadership principles taught in Leadership class and explores the mindsets taught through relevant books, material, and other resources. As students study these texts, their own mindsets and behaviors are challenged and changed. Students realize that their thoughts or mindsets

affect their behaviors and ultimately the success of their business concept.

Students will build and develop effective mindsets while they explore their personal business concepts and prepare for developing their business plans in the capstone class (Business Planning). Students will expand and refine the skills they developed in the leadership class as they continue to read, analyze, write, and present materials studies in this course.

Business Planning (Advanced)
Business Planning is the capstone class and applies all of the learning and knowledge learned and developed in the previous classes in the entrepreneurship pathway (i.e. Leadership and Entrepreneurial Mindset). Students in this class will develop and write their own business plans (or an assigned project-based business plan), and as they execute this assignment they will research their business concept, location, product, etc. to determine market demand; brainstorm business names and search the United States Patent and Trade Office (USPTO) and Secretary of State (SOS) of all states to determine uniqueness. They will also research local business requirements, apply for appropriate licenses, explore business entity structures, and determine the most effective entity for business concepts; and file articles of incorporation with the Secretary of State's office. Students will register trademarks and patents with the USPTO. Students will analyze, define, and present startup costs, and research funding requirements and potential funding sources.

Where applicable, potential internships with be developed. Students will utilize a suite of business-essential apps including spreadsheets, word-processing, and presentation programs. Students refine their leadership skills as they present their business plans to classmates and potential investors/partners. These skills, knowledge, and tools will be valuable assets as students launch and lead their business plans to implementation.

Early Childhood Education

Child Psychology (Beginning)
In Child Psychology, students learn theories of historically significant psychologists who laid the foundation for scientific research and a clearer understanding of children and the human mind. This course explores how psychological perspectives influence personality and play a role in human development across the lifespan. Students explore and learn how each stage in human development can and does require specific things for human children to grow up strong and healthy. Students examine how children's behaviors are developed, memories are stored, and language is acquired, and the critical period these things must happen. Students also learn about the symptoms and classifications of psychological disorders, along with the various forms of treatments available. After completing this course, students will be equipped with problem solving strategies and even learn strategies to cope with stress. Practical, everyday application of the content is a focus of this course along with background knowledge in child development and the mind.

Through the use of online software, teacher lectures, and projects this course is designed to promote critical thinking through inquiry, problem solving, and reflection. The course guides students to connect prior knowledge, backgrounds, life experiences, and interests to learning the materials. The students will connect classroom learning to their life experiences and cultural backgrounds. The course supports all students to use first and second language skills to achieve the learning goals. The course uses assessment date to establish learning goals and to plan, differentiate, and modify instruction. Students learn new vocabulary and critical issues of child development through extended video's, open lectures that address emergent literacy, critical period to acquire language, the developmental stages of children, and cutting edge exploration of trauma development in childhood and its effect on children. Students will be gaining

emerging knowledge, exploring for increased understanding, applying that knowledge to themselves, integrating their new knowledge with old knowledge, and innovating or becoming creative in their teaching methods with children.

Early Childhood Education (Intermediate)
In Early Childhood Education, students learn more about understanding the childhood experience. Students will create interesting lessons and stimulating learning environments that provide a safe and encouraging experience for children. They will discover how to get children excited about learning, and just as importantly, to feel confident about their abilities; identify good nutrition for children's physical development; analyze and apply how to keep a safe, healthy, and clean childcare environment or preschool classroom; identify the rules and regulations of childcare facilities; develop and implement creative lessons and teach children through play. Students will also learn how to record, observe, and communicate with children; and create a plan for personal and professional growth to set child development goals.

Early Childhood Education (Advanced)
This capstone course prepares students for employment in the care and guidance of young children under the supervision of professional personnel. Instruction includes child growth and development, nutrition, program planning and management, health and safety, guidance, recreational and play activities, child abuse and neglect, developmentally appropriate practices, interpersonal relationships and regulations, operational procedures, emergency and disaster procedures, policies, standards, and licensing, supervision and maintenance of children's environment, professionalism, and classroom management.

Truck Driving

Class A Permit
This basic unit will consist of classroom learning leading to a DMV CDL Class A Permit. Students will take and pass the DMV Class A CDL permit written examination. This course will cover the general knowledge, air brake procedure, and combination. Students will also have the option to become endorsed in doubles and triples, tankers, and hazmat through this course.

Pre-Trip and Inspection (Beginning)
In this beginning course, students will memorize parts of the vehicle by name, learn all internal and external inspections of the vehicle and trailer, and be able to perform/apply leakage tests to the vehicle.

General Skills (Intermediate)
In this intermediate course, students will begin to operate the vehicle under guided supervision. Students will practice straight line backing, offset backing to the right and left, parallel parking on the driver's side and conventional side, and alley docking.

Road and Class A License (Advanced)
In the advanced course, students will learn to shift using a 6-speed, double clutch, brake properly, drive through intersections, drive through urban businesses, change lanes, drive on the expressway/highway, stop/start effectively, drive around curves, cross railroads, correctly maneuver bridges, overpasses, and other signals, and pass a regular traffic check.

Teaching Assistant
Students can earn credit for being a teacher's assistant in which students may assist other students, prepare

materials, run copies, or complete other work at the direction of the instructor.

External Partnerships
At HCCS we have partnerships with Asher College and Cosmo Beauty Academy, and each of these partnerships provides its own courses for our students to receive credit and/or certifications. Courses offered at each are listed below.

Asher College Courses
- A+ PC Support Level 1, Level 2
- Career Success Level 2
- Medical Law and Ethics
- Medical Terminology
- Microsoft Excel
- Microsoft Word
- MS Office Essentials
- Office Administration
- Typing Fundamentals

Cosmo Beauty Academy
- Introduction, Level 2, Level 3, Level 4

Updated Course Descriptions
At HCCS we are currently updating and improving our curriculum and course descriptions as part of our Schoolwide Learner Outcomes for our Western Association of Schools and Colleges (WASC) self-study. As an adult serving charter, we do not presently offer any college preparatory A-G courses.

1.13: Instructional Methods and Strategies Used to Deliver the Curriculum

In our mission statement, we assert that we are a diverse community for social justice, serving the unserved, providing access to education, technology, communication, and employment for 21st century achievers. Through community partnerships, we will build new legacies leading to self-sufficiency and generational change. Through our instructional methods, we want to ensure that we are working consistently with our mission and our schoolwide learner outcomes. At HCCS we have three Schoolwide Learner Outcomes. Our first is that students will demonstrate measurable achievements each term through assessment. Our second is that students will make progress toward their career goals. Third, students will use technology to communicate for personal and academic use.

At HCCS we utilize the following instructional methods to ensure exceptional academic performance:
- Standards-based Instruction
- Systematic Instructional Delivery
- Student Engagement
- The systematic use of assessments
- Data-driven Instruction

Standards-based Instruction
At HCCS our curriculum is based on seven sets of standards, with Common Core Standards and CASAS

at the foundation. Our teachers use our curriculum objectives within each subject and level to ensure that our standards are met. Lessons are taught based on objectives and monthly themes that integrate high interest topics and content. Formative and summative assessment data is used to measure students' prior knowledge and to ensure that our students are meeting our standards.

Systematic Instructional Design
Clear expectations, consistent policies, and strategic instructional planning and assessment are at the foundation of our educational programs.

Clear Expectations
Clear expectations are imperative for our students to be successful. We believe that by creating clear expectations for behavior, attendance, classroom etiquette, homework, content standards, and assessments, our students become accountable for their own progress and success. Our students are at HCCS because they do not have a US issued high school diploma, and they are 22 years old and older. We know that many of our students were not able to graduate during their first attempt at high school and that the traditional education system did not meet their needs. We also recognize that for some of our ELD students, HCCS is the first school they have ever attended. At HCCS we hold all of our students to high academic performance standards. Through this process, students benefit in the following ways:

- Students are held to high standards.
- Students are expected to meet the curriculum objectives for their level.
- Objectives and outcomes are clear.
- Student feedback is related to specific outcomes.
- Students know what they are expected to learn.
- Students have equal access to learning and learning materials.
- Students learn personal responsibility.

Consistent Policies
Consistent policies are also part of our educational program and are closely tied to clear expectations. At HCCS we have consistent policies for the following processes and programs:

- Enrollment in CalJOBS
- HCCS student registration process
- ELD placement tests
- CASAS assessment
- Attendance policy
- Homework policy
- ELD grading system (MADE)
- High school grading system (A-F)
- ELD level completion
- High school course completion
- Transfer credit evaluation
- ELD to high school re-designation process
- ELL Reclassification process
- Graduation requirements

Because of our student population, we must provide clear expectations and consistent policies to ensure

that all of our students clearly understand what they need to do to succeed at HCCS and achieve their goals.

Strategic Instructional Planning and Assessment
Strategic instructional planning and assessment are essential to our instructional success.

Student Engagement
Students learn best when they are present and actively engaged in their learning. We want our students to be passionate, motivated learners who are fully engaged in their educational experience. At HCCS our teachers engage our students intellectually, emotionally, physically, and culturally. Intellectual engagement refers to the academic component of teaching. Emotional engagement refers to the relationship between teachers and students and involves monitoring students' moods and emotions. Physical engagement refers to kinesthetic learning where students engage in physical movements or activities. Cultural engagement refers to incorporating student culture into the classroom in a way that students feel culturally accepted while also learning about the cultures of other students. This is critical for new immigrants and refugees to acclimate into their classroom, school, and community.

Intellectual Engagement
- Academic topics are high interest to the students.
- Learning is relevant to students' daily lives.
- Teachers allow students to make choices about projects.
- Instruction is differentiated for students at different levels.
- Learning is authentic and related to the real world.

Emotional Engagement
- Teachers foster classrooms with positive emotions and unconditional, positive regard.
- Students' moods and emotions are monitored by teachers and counselors.
- Teachers support students with peer groups and counselors.
- Teachers and staff build positive and supportive relationships with students.
- Teachers support students and their goals.

Physical Engagement
- Students are engaged in kinesthetic learning through creating and doing.
- Students move around in class, like walking around to complete an activity.
- Teachers reinforce lessons with body movements, using physical activity.

Cultural Engagement
- Students from different cultures are made to feel welcome and safe.
- Students are taught about cultural norms and laws in the United States.
- Culturally diverse speakers are welcome to share in our classrooms.
- Important documents are translated into students' first language.
- Lessons are created to include a multicultural perspective.

Assessments
At HCCS we use a variety of formal and informal testing measures and assessments to evaluate our students. We begin our assessments during enrollment when students are given a diagnostic test and a CASAS test. During daily classes, our teachers assess students through a variety of ways. At the end of every academic unit, teachers use formal assessments and enter grades. CASAS assessments are also used as a measurement

of progress and are administered every six to eight weeks.

The evaluation of student learning has four goals in the following priority:

1. To assist student learning as a diagnostic tool by determining which specific content areas a student has not mastered so they can improve their learning in that specific area.
2. To use aggregated measurements of student learning as part of the measurement of how the school as a whole is performing.
3. To determine if a student has met or exceeded the necessary level of competency to gain formal recognition, such as to complete a level or receive a diploma, licensure, or certification.
4. To determine if the student is underperforming in relation to their peer group and evaluate if intervention supports are required.

When we assess our students it is to better understand what they know. When we have students who cannot pass a class, we find alternative solutions for them. We understand that some students need remedial support and others may need more challenges and opportunities for growth. When our students have not mastered level appropriate standards or objectives, we find alternative teaching methods to deliver the same content. Our teachers understand the importance of both formative and summative assessment in gauging student comprehension.

Data-driven Instruction

In order to improve student learning, we work to understand our students and adapt to the needs of our students. At HCCS we make data-driven decisions and create data-driven instruction. As part of this cyclical process, we collect many forms of raw data. We then analyze it, make instructional decisions, plan, and reflect. Raw data that we consider in our instruction relies heavily on assessment but also includes:

- Program enrollment data
- Enrollment assessment data
- Demographic data
- Student satisfaction surveys
- Student safety data
- Expulsions data

College entrance informationBy analyzing assessments and data, we better understand where our students are from, what experiences they bring with them, what they are able to do, and the gaps in their understanding. At HCCS our teachers and staff understand how assessment and data inform us about our students and areas for us to improve in educating and meeting the needs of our students.

1.14: How the Curriculum Addresses California Content and Performance Standards

At HCCS all of our curricular standards are directly aligned to the California Common Core Standards, California ELD standards, California English-as-a-Second-Language Model Standards for Adults, CASAS competencies, Workforce Innovation and Opportunity Act standards, Western Association of Schools and Colleges, and the National Reporting Systems (NRS) standards for English as a Second Language.

To ensure that all of our students are meeting program, subject, course, and level objectives, each lesson plan is designed with a specific lesson objective. Each daily lesson is part of a weekly lesson plan, which is part of our larger monthly themes. Our monthly themes are essential elements of our annual academic plan. Through the creation and implementation of monthly unit plans, we ensure that all of our students are taught specific content, even if they complete a level or class.

Monthly Unit Plans

In our ELD program, we have theme-based monthly plans that are part of our standards. Each theme has an extensive list of corresponding lesson objectives within the unit. Based on the needs of the students and the level of the class, teachers select the content objectives appropriate for their class based on their curriculum objectives. Teachers also use the themed unit plans as part of their content for teaching other subjects including reading, writing, speaking, listening, math, and technology.

Month	Theme	Topics	Month	Theme	Topics
Jul	Technology	Technology Vocabulary Using Email Downloading Apps/ Using Smartphones Typing Skills Microsoft Office Internet Research Skills	Aug	Goals	Setting Goals Vocabulary Smart Goals Creating Goals/ Plans Personal/ Educational/ Employment Short-term/ Long-term goals Language Goals

English Language (EL) Civics Lesson Plans and Assessments
In partnership with the Workforce Innovation and Opportunity Act (WIOA), we teach English Language (EL) Civics lessons which are designed to engage ELD students in civic responsibility through community involvement. These monthly lessons correspond to our monthly unit plans and are tied to leveled assessments. These lessons incorporate high interest content with reading, writing, speaking, and listening tasks as well as role playing activities and games. The EL Civics assessments focus on level appropriate objectives and are differentiated to ensure that students at every level are able to participate.

Professional Development and Lesson Plans
On the second Thursday of every month, our teachers and staff participate in professional development. During this time, teachers gather by program and level. Curriculum planning, lesson planning, materials gathering and sharing, and assessment planning are essential to the successful implementation of our curriculum objectives. During this time, teachers work together to create, gather, and share materials that are aligned to the courses and levels based on the theme or subject. This collaboration of lessons, materials, and assessments are then shared on our Drive to ensure that teachers continue to have access to the shared documents.

1.15: How the Instructional Program Supports the Development of Technology-Related Skills and Technology Use

At HCCS we value and support technology because we understand that it is directly connected to our students' success. Experience, exposure, and proficiency in technology are critically important for our students and for all 21st century learners. Since the beginning of our school, our administration has made technology a priority. In the beginning, we were unable to acquire the newest technology available, and as result, digital literacy was not provided to the extent we would have hoped. We previously accepted refurbished technology in partnership with certain organizations. In a lot of ways, this helped us to ensure

that students had access to technology in the early years of the school's development. Since then, technology has been implemented more and more, not only in a wider scope but in a more in-depth way. Our goal is for students to be able to utilize computers in a way that reflects the world in which they live. Since HCCS opened its doors to students in the 2014-15 school year, our technology department has expanded significantly. In the beginning, our Information Technology (IT) department was a one-person department. One person was enough to cover distribution of technology materials, maintenance, and internet connectivity. We now have a three-person IT team which consists of one IT Manager and two IT Technicians. At HCCS we are proud to say that our computer-to-student ratio is 2:1, and we work each year to upgrade classroom technology. At HCCS we will continue to increase access, improve our technology, and then utilize it in our classrooms.

Technology at Highlands Community Charter School is always evolving to meet both staff and student needs. A little over a year ago, HCCS was inundated with an unreliable network infrastructure. This meant that many employees and students were unable to print, check emails, and use the internet consistently. We remedied this by completely changing the topology of the network. We completely upgraded our hardware and internet services. We were previously plagued with viruses and malware. This was solved with the introduction of Sophos Central. Lastly, most of our computers used by both staff and students were outdated. As was mentioned before, this has become a central focus to replace all student computers with updated laptops and provide all staff with more modern laptops, computers, online programs, and software.

One of our goals is to truly integrate technology into students' lives via classroom lessons, relevant examples, classwork, projects, and helping students to communicate in our modern world. Technology standards and objectives are integrated into our curriculum and are clearly defined for our teachers. Across varying sites, our teachers incorporate technology into their lessons. Our teachers use educational learning videos, tutorials, web-based reading programs, Microsoft Office, and Google Classroom. Teachers model the use of technology in their classrooms and show students how to access and utilize Google docs, emails, etc. Our goal is to have all teachers using and adapting technology to accommodate our students' levels and needs. A new Digital Literacy curriculum is currently being piloted using Northstar Digital Literacy tasks and assessments, and soon it will be incorporated into our ELD and high school programs.

At HCCS we face a complex challenge with technology. Not all of our students, teachers, and sites have the same level of access to technology nor is the same level of technological access possible at all sites. Technology is not limited to computer access, but some sites have more specialized tools than others (e.g., smartboards, document cameras, printers, computer labs, etc.). To combat this issue, teachers encourage students to use their phones to access the internet and to use applications to access email, language applications, such as *Duolingo* and *Pronunciator*, and access classroom materials using Google Classroom. We are currently increasing access to technology at our off-site locations and working to ensure that access is equitable. This means purchasing more updated computers, installing projectors, and training teachers to implement digital literacy.

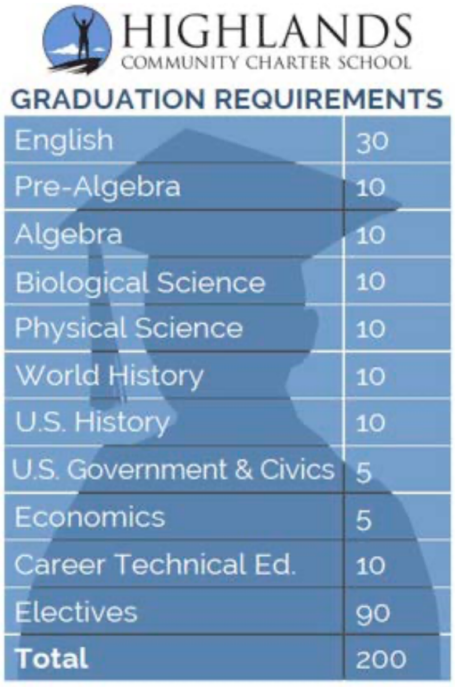
Our students have varying levels of knowledge and experience with technology. Some of our students are very familiar and comfortable using computers and computer programs. Some of our students have excellent typing skills, experience composing documents, sending emails, surfing the web, etc. while others struggle to turn on a computer. Our plan is to implement digital literacy diagnostic assessments to ensure that all of our students are able to use technology at a basic level for each student's class, and we are working with nationally recognized assessments like the Northstar Digital Literacy Assessment. Technology, academic success, career goals, and social engagement are all important for our students, and we believe that in order for students to be fully successful in the 21st century, they must become digitally literate.

CASAS Computer-based Assessments

At HCCS we use CASAS computer-based assessments for all of our students in reading, listening, and mathematics. CASAS assessments are standardized tests that are reliable and valid assessments for native and non-native English speakers. The purpose of the assessments is to track student progress over time. Although the assessment is available as a paper-based assessment, a computer-based assessment, and on the internet, at HCCS we use the computer-based format. We believe that teaching our students to use computers for their standardized tests is a valuable and transferable skill. During CASAS, students practice turning on a computer, opening a program, typing personal information, using a mouse to navigate between screens, opening and closing windows, plugging headphones into a computer, adjusting the volume on their computers, selecting answers, and closing a program. We know how important these skills are for our students, and we support our students while they learn how to complete these basic computer tasks.

1.16: Graduation Requirements

At HCCS we have two primary programs with subgroupings in each. We offer a High School Completion program and an English Language Development (ELD) program. Under the high school program, we have Career Technical Education (CTE) pathways, and we offer a citizenship course under the ELD program. These elements, along with interventions and supplemental offerings, comprise our school's educational program. The high school curriculum at HCCS is based on the California Department of Education graduation requirements. The following chart shows what is required of high school students At HCCS with 200 credits minimum required to graduate.



HCCS' high school students are eligible to graduate when they have been awarded 200 high school credits: 100 Academic, 90 Elective, and 10 Career Technical (CTE) credits. As part of the 200 credits, transfer credits and employment credits count toward this total. High school credits are awarded by 5 credits (in 9 weeks) and 10 credits (in 18 weeks). Currently, high school credits are awarded every nine weeks when students

receive grades.

During the 2014–15 and 2015–16 school years, high school students received grades every six weeks. During the 2017–18 school year, we transitioned from a six-week grading period to an eight-week grading period. As soon as the high school students complete 200 credits and those credits are verified, students are eligible to apply for their diploma. After students receive their diploma, they are asked to participate in a graduation ceremony.

Counselors and the registrar work together to compose an educational plan for each student. The registrar and counselors also collaborate to ensure transfer students have received all their previously earned credits. Thus, credits are verified once the registrar receives and processes the students' official transcripts from their previous school(s). Once the counselor is aware of the students' graduation status, counselors schedule students into their respective classes. It should be noted that each student is required to take either Career Success or Leadership in order to ensure their CTE requirements are fulfilled.

Counselors help ensure students will meet graduation requirements by conducting routine check-ins. Over the duration of each check-in, counselors update students on their academic progress; this includes discussing credits earned over the course of the each term. Moreover, each student is provided with an academic progress report. In addition, counselors and students discuss the next class/classes students will enroll into and why. As an adult serving charter, we do not presently offer any college preparatory A-G courses.

Credits Awarded for GED and HiSET

At HCCS most of our students earn credits in two ways: by transferring them from a previous school or by earning them at HCCS through completing courses. However, we sometimes award class credit for students who have passed the GED or HiSET. For the GED, we award credits when students have completed certain sections of the GED where it is appropriate and when it is not prohibited by law. Students are also awarded credits for the HiSET. Students are awarded credits after passing either the English or Spanish version of the test, with the exception of English Language Arts, if the test is taken in Spanish. While students can earn credits, all HiSET students are enrolled in high school, and transcripts are evaluated by HCCS counselors and registrar. Credits are awarded from the HiSET on a case by case basis and are categorized as academic or elective as needed.

1.17: Plan and Timeline for Maintaining Western Association of Schools and Colleges (WASC) Accreditation

Highlands Community Charter School received a 3-year preliminary Western Association of Schools & Colleges (WASC) accreditation in the 2015–16 school year and is currently WASC Accredited through June 30, 2019. HCCS is currently undergoing the Self-Study process to renew the accreditation prior to expiration and has scheduled a seven person team of WASC representatives to visit HCCS's many locations during February of 2019. HCCS has grown exponentially as have our programs, locations, enrollment, and partnerships. Each instance of growth or change was centered on the benefits they would bring to our students. HCCS submitted substantive change reports to WASC in October of 2018, which were accepted.

HCCS school leadership has used the WASC Action Plan and Local Control Accountability Plan (LCAP) to align all student schoolwide goals. Through the implementation of the WASC plan and LCAP, HCCS engages in authentic stakeholder reviews and input on everything from budget and governance to facilities

and curriculum. HCCS utilizes its diverse Leadership Cabinets as a critical review group that reviews, informs, and recommends programmatic development and improvement. The mid-year LCAP review, curriculum review, and WASC review act as internally driven programmatic audits assessing progress against designated goals.

1.18: Informing Students about the Transferability of Courses

Students meet with their assigned counselors in one-on-one appointments that are set to make individual course maps and goals. During these individual meetings, the counselor discusses with the student his/her scope and sequence of all requirements and grade equivalents needed to ensure graduation and college acceptance. If a student is not on-target with his/her graduation road map, the counselor also helps amend his/her scope and sequence to earn necessary credit redemptions and all other prerequisites. Our ELD Navigators are bilingual or multilingual and can provide necessary presentations and documents in the appropriate languages. ELD Navigators work with the students individually to educate them according to their individual goals.

Within the context of these relationships and various presentations, students will be informed about the transferability of courses to other high schools and college, including WASC accreditation. As HCCS is not a college preparatory charter school, it will not generally include A-G classes, but students will be informed that, as graduate, they may enroll in a community college or another college that does not require A-G college preparatory courses.

1.19: Transitional Kindergarten

Serving adults ages 22 years and older, Highlands Community Charter School does not provide a Transitional Kindergarten program. However, we do provide Early Childcare Education (ECE) courses as part of our Career Technical Education ECE program. Through this program, our adult students who are interested in Early Childcare Education provide care to non-school-age children of HCCS students in play care at various sites while working toward a Child Development Associate Teaching Credential and/or a State of California in-home Child Care License.

Academic Calendar and Schedules

1.20: School Calendar

The 2019–2020 calendar below indicates the beginning and end of instructional days for students in yellow. Highlighted in red are the student holidays, gray are breaks, and green are teacher work days/non-student days.

1.21: Sample Daily Schedules

Through our daily schedules, we ensure that our students are making progress toward course level completion and high school graduation. Our schedules below are listed by program for regular days and early release days.

ELD Regular Day

Time	Period Description	Minutes Per Period
8:25–9:25	Writing & Grammar	60
9:25–10:00	Speaking & Pronunciation	35
10:00–10:45	Math & Consumer Economics	45
10:45–12:00	Reading & Vocabulary	75
12:00–12:25	Technology & Computer Literacy	25
Total		**240 Minutes**

ELD Early Release Day

Time	Period Description	Minutes Per Period
8:25–9:05	Writing & Grammar	40
9:05–9:40	Speaking & Pronunciation	35
9.40–10:15	Math & Consumer Economics	35
10:15–11:00	Reading & Vocabulary	45
11:00–11:40	Technology & Computer Literacy	40
Total		**195 Minutes**

English Language Development: Citizenship

	Monday	Tuesday	Wednesday	Thursday	Friday
5:00–7:00	History and American Government Vocabular y Listening	History and American Government Reading and Vocabulary	Writing and Grammar Reading and Vocabulary Speaking and Pronunciation Listening	Writing and Grammar Reading and Vocabulary Speaking and Pronunciation Listening	Speaking and Pronunciation Listening Mock Interviews

7:00–9:00	Homework Review Writing and Grammar Reading and Vocabulary Speaking and Pronunciation Listening N400 100q	Listening Speaking and Pronunciation N400: Textbook and CD/ Oral practice	Reading and Vocabulary Writing and Grammar N400 and 100q	Writing and Grammar Reading and Vocabulary Speaking and Pronunciation Listening Test Preparation	Quizzes and Tests
Total Minutes:	**240**	**240**	**240**	**240**	**240**

High School Regular Day

Time	**Period Description**	**Minutes Per Period**
8:45–10:10	English Language Arts	130
10:11–10:15	Break	
10:15–12:25	Algebra	130
12:26–12:59	Lunch	
1:05–3:15	American History	130
Total		**390**

High School Early Release Day

Time	**Period Description**	**Minutes Per Period**
8:00–9:45	English Language Arts	105
9:46–9:50	Break	
9:50–11:35	Algebra	105
11:36–12:14	Lunch	
12:15–2:00	American History	105
Total		**315**

Students must be enrolled in a program with these minimum minutes of instruction. This includes all of our CTE programs and partnerships.

1.22: Instructional Days and Minutes Calculations

Grades	Number of Regular Days	Number of Instr. Minutes Per Regular Day	Number of Early Dismissal Days	Number of Instr. Minutes Per Early Dismissal Day	Number of Minimum Days	Number of Instr. 1.23: Early College and Middle College

HCCS is not an Early College or Middle College High School. As such, requirements for these programs are not applicable to the educational programs at HCCS.

Professional Development

1.24: Recruiting Qualified Teachers

Highlands Community Charter School recruits well qualified educators to our community by posting vacant teaching positions on the recruitment website www.edjoin.org, a third party employment entity used throughout California and the greater United States as a central advertising location for many different educational organizations. Additionally, we attend the annual Teacher Recruitment Fair held each spring at Sacramento State University in order to meet with new teachers beginning their careers in Adult Education. This gives us the opportunity to market our charter school as a competitive organization in which to work. We also send out recruitment flyers to additional institutes of higher education in the surrounding area, per the school's staffing needs.

1.25: Ongoing Professional Development

Recognizing the importance of staff development and teacher training, Highlands Community Charter School honors its staff by providing numerous professional growth/orientation opportunities throughout the year. We give our teachers weekly opportunities to use additional out-of-class time for lesson planning, grading, and preparation. Additionally, we offer monthly workshops, trainings, and collaborative opportunities for each of our employees schoolwide within their departments. Some of these include the following:

- During more than half a dozen Teacher Work Days/Non Student Days, HCCS provides a full day of schoolwide staff professional development, offering sessions addressing such topics as employee benefits, community partnerships, CPR training, sexual harassment training, Safeschools Trainings, Catapult Emergency System training, etc.
- HCCS offers monthly instructional professional development days that feature break-out sessions and workshops led by our Professional Learning Coordinator and Lead Teachers addressing such topics as standards alignment and curriculum, use of instructional approaches, materials and assessments, application of technology in the classroom, cultural awareness, leadership, literacy/pre-literacy, etc.
- In addition, HCCS is committed to providing full-time certificated teachers with funding designated to support his/her participation in the pursuit of additional training, advanced degrees or designations, continuing coursework at the college or university level, or attendance at educational workshops and/or conferences, contingent upon annual budget allocations. Our teachers have attended EdTech, California Association for Bilingual Education (CABE), Positive Behavioral Intervention Systems (PBIS), Systematic Instruction and Phoneme Awareness, Phonics, and Sight Words (SIPPS), California Teachers of English to Speakers of Other Languages (CATESOL), CASAS Institute, and Workforce Investment Opportunity Act conferences.

Professional development and collaboration will continue to be scheduled on a regular and ongoing basis to support teachers and staff throughout their careers at HCCS. In establishing a professional teaching environment, HCCS will continue to ensure collaborative, schoolwide planning time for teachers to design student-focused curriculum, pedagogy, and assessment through which students can make connections and deepen their understanding of concepts and achieve higher levels of academic success.

Moving forward, HCCS will continue to strengthen internal professional development, which will focus on curriculum alignment and teaching strategies/delivery. We plan to begin a structured and supported system for teachers to observe their peers and learn from one another first hand. Additionally, we are in the process of creating a systematic approach to external professional development, which will ensure that each teacher is allotted the same number of conference opportunities throughout the year. HCCS will continue to survey teachers and students' needs, allowing for those results to drive the professional development calendar.

In order to ensure that HCCS teachers are prepared to successfully deliver a rigorous curriculum, we hope to improve upon initial induction as well as ongoing professional development for all teachers in all disciplines. After much internal dialogue and cross-departmental discussion, HCCS created a professional

development plan for the 2019–20 school year which will include common themes of curriculum implementation, teaching strategies, and improved communication.

	ELD	HS	CTE	Office
Summer	Curriculum: objectives, materials, lesson plans, rubrics	Collaboration: cross-curricular/team building	Curriculum: align to state mandated requirements	Customer Service: conflict management
Fall	Instructional Strategies: multilevel, differentiation	Leadership: teacher culture, sharing, CTSP	Engagement: student buy-in for CTE programs	Legality: registration, orientation, files, FERPA
Winter	Cultural Competency: teachers and students	Curriculum: standardize, accountability (check-ins)	Integration: high school/CTE course content	Health/Safety: process and protocol clearly delivered
Spring	Classroom Management: techniques, sharing, teams	Grading System: process for credits, progress reports	Relevance: graduation to job market transfer of skills	CASAS/ PowerSchool: training, internally and externally

At Highlands Community Charter School, we recognize the important role new teacher support plays in preparing great teachers for the rest of their careers as educators. It is the mission of the induction team at HCCS to not only provide regular support through mentorship and professional development but also provide new teachers with leadership skills and the opportunity to demonstrate their abilities through systems of professional growth. Partnering with both Sacramento County Office of Education's Induction program for Single and Multi Subject Credentials and the San Diego County Office of Educations' Designated Subjects Credentialing Consortium for CTE and Adult Education Credentials, HCCS facilitates and provides sponsorship through two years of growth and professional learning, covering the cost of tuition, training, and mentor partnerships. Highlands Community Charter School prides itself on helping teachers build lifelong skills both in the classroom and in their long-term professional goals as academic leaders dedicated to the success of students.

Meeting the Needs of All Students

1.26: English Learners

Highlands Community Charter School is committed to all students, including English Language Learners ("ELLs"). HCCS meets all applicable legal requirements for ELLs as it pertains to annual notifications, student identification, placement, program options, ELL and content instruction, teacher qualifications and training, Reclassification to Fluent English Proficient status (RFEP), monitoring and evaluating program effectiveness, and standardized testing requirement. HCCS implements policies to assure proper placement, evaluation, and communication regarding ELLs and their rights.

Identifying English Language Learners
HCCS administers the Home Language Survey ("HLS") upon initial enrollment though our registration forms where students answer the following Home Language Survey questions:

1. Do you speak English fluently?
2. What language did you first learn to speak?
3. What language do you most frequently read/speak at home?

These questions are used to determine a student's home language status as follows:

- *English Only (EO)*

If the answers to the three questions are "English", the child is classified as English Only.

- *Possible English Language Learner*

If the answers to any of the three questions on the Home Language Survey indicate a language other than English, or a combination of English and another language, and there is evidence of significant non-English exposure, then the student is assessed using CASAS to measure his or her level of English proficiency. The student is then consulted by a staff member regarding the need to administer the assessment, the results, and the subsequent program placement of the student.

- *Self-Identified English Language Learner*

If a student initially self-identifies as an ELL, s/he is immediately assessed for English language proficiency for appropriate placement and is automatically placed in an ELD classroom appropriate to his/her level.

Educational Program for English Language Acquisition

As HCCS is required to timely identify potential ELLs and provide them with an effective English language acquisition program that affords meaningful access to the school's academic core curriculum, instructional plans for ELLs are (1) based on sound educational theory; (2) adequately supported with trained teachers and appropriate materials and resources; and (3) periodically evaluated to make sure the program is successful and modified when the program is not successful.

HCCS implements our own English Learner Instructional/Master Plan. The instructional plan encompasses the following, including but not limited to:

- How ELLs' needs will be identified;
- What services will be offered;
- How, where, and by whom the services will be provided;
- How the program for ELLs is evaluated each year and how the results of this assessment will be used to improve those services (annual report of the assessments)

Using Standardized Assessment to Support Student Progress

In accordance with state and federal regulations, students whose HLS indicate that a language other than English is used at home are assessed for their English language proficiency level within 30 calendar days of enrollment. In addition, students are notified of the assessment results and program placement within 30 calendar days of initial enrollment.

Based on a student's overall performance on the CASAS, s/he may be classified as an English Language Learner or an Initially Fluent English Proficient (IFEP) student. Once a student is identified as an ELL, s/he is placed in an ELD class that supports her/his identified level. State and federal guidelines require each EL to be assessed annually to determine their progress in acquiring English language proficiency; however, at HCCS each student is assessed every six to eight weeks with the CASAS and additional end-of term

assessments to capture progression and to advance through program levels efficiently until she/he meets the eligibility criteria and is Reclassified Fluent English Proficient (RFEP).

Strategies for ELL Instruction and Intervention

The instructional design model used at HCCS places heavy emphasis on differentiated instruction to meet the needs of the ELL population based on academic and language readiness. Through the well-defined professional development plan that accompanies this instructional design model, teachers are trained on a variety of instructional strategies to be used specifically with EL students. These strategies include support materials from state adopted materials, academic language scaffolding, and full-time instructional support with our English language learner expert instructional staff. Our Professional Learning Coordinator conducts regular staff development sessions to review current practices and develop strategies for students.

In order for the ELL students to remain current with their peers, HCCS emphasizes alignment to state adopted standards and materials to ensure ELLs have the same core base of knowledge. Additionally, ELLs are provided with supplementary materials to create extensions and scaffolding to the curriculum for better understanding of the materials.

The use of academic language scaffolding demonstrates to ELLs the step-by-step processes to complete tasks on their own. Scaffolding includes several linked strategies including modeling academic language, contextualizing academic language using visuals, gestures, and demonstrations, and using hands-on learning activities that involve academic language.

Process for EL Reclassification

We have developed a process and an accompanying form outlining the criteria for EL reclassification. Specifically, we assess the four components laid out in CDE's guidance:

1. We will continue to assess English language proficiency (ELP), using CASAS (Comprehensive Adult Student Assessment Systems) results, which we obtain every 6-8 weeks from our students. We pair that with internal measures of English language proficiency which are designed around our curriculum and are in turn aligned with state and federal standards.
2. Our ELD teachers use both periodic and end-of-term assessments to review students' mastery of curriculum. Our high school teachers use formal assessments at the end of chapter, unit, and term to assess students' mastery of curriculum.
3. As adults, our students are invited to participate with opinions and consultation regarding their readiness for reclassification. They are advised at the beginning of the year (or upon entry into our ELD program) and then annually of their rights and the process of reclassification.
4. We use PowerSchool and other tracking methods to establish the range of performance by English proficient students, and then use those results to compare with ELs' performance.

Process for Monitoring Progress of ELs and Reclassified (RFEP) Students

We are making substantial improvements to our schoolwide curriculum for ELD classes, our internal assessments and instructors' ability to use them, and our entry and tracking processes for ELs' progress. With these fully in place, we will be better able to track students and obtain more useful data on ELs' progress. The same will be true of reclassified students as they proceed in our programs. Enhanced assessments and tracking, along with our Reclassification Specialist in charge of the reclassification and monitoring processes, will allow us to do more tracking during progress.

Process for Monitoring Progress and Effectiveness of Supports for Long Term English Learners (LTELs) and for Students At-Risk of Becoming LTELs

Given that our program is much shorter than six years, we have not implemented a process for identifying or monitoring the progress of LTELs. Nevertheless, we are improving our methods for identifying and intervening with at-promise students. In our high school program, teachers and counselors have implemented a program to identify students at risk of not making academic progress. This process will help identify students at risk of becoming LTELs. The Reclassification Specialist, working with our data team, will also work within our ELD program to identify students whose progress is slower than expected.

1.27: Students Achieving Above Grade Level

While Highlands Community Charter School does not subscribe to a Gifted and Talented Education (GATE) specific program as we are primarily serving adults who have previously faced many obstacles to achieving academic success, our methodology meets the advanced educational needs of our high achieving students within the regular classroom by tailoring individualized learning plans for each of our students and providing level appropriate content and support. However, we recognize that many of these obstacles are not necessarily intellectual, and as such, we strive to identify and support our high achievers.

With our highly individualized learning plans and differentiated classrooms, identifying high achievers comes naturally as students are able to demonstrate proficiency and progress on a daily basis through one-on-one formative assessments, bi-monthly CASAS assessments, and course completion rates. In HCCS high school classrooms, students are able to progress through course content as quickly as they feel comfortable and are awarded grades and credits upon course completion even though course content is designed to take either nine (9) weeks or eighteen (18) weeks depending on the course. Additionally, all High School students at HCCS are assessed in reading and math every six (6) to eight (8) weeks. In the ELD classroom, students work in multi-level classrooms where their instructors formatively assess them on a daily basis and can freely adjust and deliver content complexity as necessary as multiple levels and content areas are being addressed daily. HCCS ELD students are assessed in reading, listening, and math by CASAS proctors every six (6) to eight (8) weeks. ELD Teachers administer summative assessments at appropriate times during the term, including at the term's end and award progress marks to determine whether individual students are ready to advance to the next level.

Based on these assessments, individualized and small group lesson plans are prepared for each student. Students working above content level are placed in the curriculum at the appropriate level, which allows them to work in a content-accessible environment. For example, a Low Beginning ELD student may be working in the Low Beginning curriculum in Writing but at a High Beginning curriculum level in Reading. This student might change group settings throughout the day to allow for higher stimulation of content through new group settings. This allows for individualized instruction in the coursework area that is appropriate for the student and allows them to work at a pace and in an environment that is most appropriate to their abilities. Students who are advanced in all content areas can work ahead in all coursework, and students who have a specific aptitude in one or two subjects can work ahead in those specific subjects but still receive the time and attention they need for content areas in need of deeper focus. This classroom-based, individualized learning environment allows academically high achieving students to accelerate their learning, propelling them more quickly toward high school completion and diploma obtainment.

Additionally, we currently implement or are working toward the implementation of the following enrichment programs for students who show great aptitude in other areas of the curriculum:

- Our Early Childhood Education (ECE) program students currently use *Edynamic* to access

advanced classes and electives. We plan to train teachers on the use and implementation of this resource as an additional tool to support our high achieving students in their academic goals and keep them engaged in their learning throughout their academic careers here at HCCS.

- High achievers may currently choose to become teaching assistants in various elective classes, where they can hone their own academic skills through the guidance they provide other students with the direct support and oversight of the instructor.

By providing individualized programs for high-achieving students, Highlands Community Charter School is able to meet the needs of those students who have a greater aptitude in one specific subject matter area, as well as those students who are high achievers in multiple areas. In this way, all students' needs are being addressed.

1.28: Students Achieving Below Grade Level

Students Achieving Below Grade Level

We choose to serve the unserved and recognize that this means many of our students have struggled with academic achievement in the past. We believe that all of our students are capable of greatness and go through great strides to remove obstacles to their achievement today. Our classrooms, by design, effectively serve students who, historically, are academically low-achieving, as well as those who are academically high-achieving.

Given the vast differences in educational, cultural, socio-economic, geographical, and emotional backgrounds of our students, we know that they will all learn at different paces. In the same way we identify and support our high achieving students, we use highly individualized and differentiated classroom setting and multiple assessment strategies to determine which of our students are in need of additional supports in order for them to successfully achieve their academic goals. Our individualized and differentiated classrooms support students in completing their required coursework and curricular content in a self-paced fashion, allowing them additional class time and instructional support to master curricular content before advancing.

By having a year-round learning program, our students are able to maintain their focus, motivation, and educational momentum with less interference of external distractions that might deter them from returning at summer's end. This promotes in our students a sense of commitment, and we regularly tell them, "Progress requires commitment, and commitment requires attendance." When our students feel committed to their own achievements, this leads to happiness which contributes to great learning environments for all and radiates to the surrounding community. All of our students have decided to further their education because they desire to learn and produce purposeful, meaningful work in order to better navigate the world around them and participate in the community in contributory ways. When they are able to learn at their own pace, and the teacher, through his/her observations of each student, is able to prepare individualized lessons to meet the needs of the students in his/her classroom, this system has a foundation built on trust and respect of the individual, resulting in community members who make marked impressions on all those who witness success beyond expectations.

Our plan for low academic achievers includes three remediation areas. These include: Student Success Team (SST) plans, access to academic support programs, and the availability of supplemental materials to teachers.

Student Success Team (SST) members identify specific academic areas of need for low achievers and plan interventions that are monitored and reviewed at subsequent meetings. Plans include specific modifications within the classroom, resource materials and referral to supplementary assistance, and programs that target specific academic skills.

Programs, assistance, and services that target the needs of academically low achievers include:

- Reading Specialist
- High School Reading Skills classes
- Multilingual Paraeducators
- Math Paraeducators
- Literacy Classes - our ELD non-literate students, who have had very little, if any, access to written texts in their native languages are provided specialized instruction by Second Language Learner (SLL) literacy specialists.
- SIPPS Reading
- Student Engagement Liaisons

HCCS's curriculum has the flexibility to provide concrete materials for those students who are not ready for more abstract learning. The flexibility of the curriculum also allows for students within a classroom to work at multiple skill levels. Students' individualized work plans are modified to target skill remediation as needed or to provide additional challenges for skills already achieved. In addition to the availability of a wide variety of materials, teachers have access to supplementary materials and support from the Resource Program. Teachers check out materials to target skill areas as needed. They also have access to the Pre-referral Intervention Manual (PRIM), which provides multiple classroom interventions for specific academic areas.

Response to Intervention (RTI)/Student Success Team (SST)
Highlands Community Charter School teachers and staff utilize the Response to Intervention Model (RTI) to address the educational needs of our low achieving students to ensure learning is occurring. Struggling students are identified by procedures established by each school site, including CASAS results, student performance below 70% in a core subject area and/or failing to make adequate progress to next level courses. These students are provided with interventions such as highly qualified, research-based classroom instruction, ongoing student assessment, multilevel and differentiated instruction, and strong student involvement. These services are provided by a variety of personnel, including paraeducators (i.e. teacher assistants) and teachers during a scheduled RTI period. After appropriately utilizing the RTI process, students requiring further modifications other than additional instruction and re-teaching will trigger the Student Study Team (SST).

The SST focuses in-depth on one student at a time and encourages the adult student to participate in finding solutions. The SST uses a systematic problem solving and coordinating approach to assist students, teachers, and staff in seeking positive solutions to concerns that are interfering with success and to maximize student potential. The SST clarifies problems and concerns, develops strategies and organizes resources, provides a system for school accountability, and serves to assist and counsel the parent, teacher, and student. This process informs individual and class wide actions to address issues such as use of classroom resources, behavioral management, and classroom modifications. Many students can benefit from an SST, including those students achieving below or above grade level and students who have experienced emotional trauma, behavioral issues, or language issues.

Anyone who has a concern for a student can refer that student to an SST based on the RTI model for

consideration. Our adult students may also self-identify and seek services for themselves. The referring party completes an HCCS SST Referral Form and submits it to the Director of Curriculum and Instruction and the student's counselor, who establishes an SST meeting. Anyone who is connected with that student can be included in the SST to provide information to share about the student's strengths, concerns, and strategies that have been used in the past. These people may include, but are not limited to, teachers, parents, counselors, doctors, administration, social workers, advocates, and law enforcement. Progress on action items is monitored by setting a follow-up SST meeting date within 4-6 weeks of the initial meeting. At the follow-up SST meeting, action items are reviewed, and student progress is discussed. The follow-up SST meeting is documented on the *Student Success Plan Follow Up,* at which time the action plan may need to be modified and additional interventions may be added depending on student progress.

A key goal to the HCCS RTI model is to improve the outcomes for all students. After implementation of an SST plan and follow up, if the problem continues, revisions to the plan may be discussed, or if necessary, a referral for special education or Section 504 assessment might be deemed necessary by the SST.

1.29a: Socioeconomically Disadvantaged/Low Income Students

At Highlands Community Charter School, students from low socioeconomic backgrounds thrive and learn in a nurturing, caring, and collaborative environment. HCCS identifies socioeconomically disadvantaged/low income students upon registration through our Household Income Data Collection form, and the information collected is recorded in our PowerSchool SIS system, allowing HCCS staff to monitor and track students in this subgroup.

As a large majority of our student population are identified as socioeconomically disadvantaged/low income, HCCS provides professional development that is focused on intentional instruction, reflecting a diagnostic approach that is driven by identified instructional needs. HCCS teachers understand the importance of positive teacher-student relationships and how to incorporate continual monitoring and assessment to guide instruction. Students participate in fun academic enrichment activities that are aligned to their level-pacing academic plans and are taught cognitive strategies such as the structure of language, how to establish goal-setting and procedural self-talk, how to sort relevant from irrelevant cues, and how to use mental models. Additionally, in order to meet the economic needs of this subgroup of students, HCCS holds workshops with partners on issues related to economic need.

1.29b: Students with Disabilities

Overview

Highlands Community Charter School will make all necessary arrangements to serve students with disabilities and comply with all applicable federal, state, and school district mandates serving students with disabilities, including but not limited to Section 504 of the Rehabilitation Act ("Section 504"), the Americans with Disabilities Act ("ADA") and the Individuals with Disabilities Education Improvement Act of 2004 ("IDEIA").

Highlands Community Charter School is categorized as an independent LEA, serving adults 22 years of age and older and is not required to join a SELPA pursuant to Education Code 47641(a) either on its own or with a grouping of charter school LEA's as a consortium. As such, HCCS does not receive state and federal revenues in accordance with the SELPA's allocation plan. However, if a student, who previously

had an IEP, enrolls at HCCS, a copy of the previous IEP is reviewed to identify specific learning disabilities from the SST to determine if the student is then 504 referable. If HCCS can meet the accommodation requirements from the previous IEP, then these accommodations will be incorporated into an SST as strategies. Any decision to deny or grant an accommodation by the SST shall be made in accordance with the law. Implementation of Special Education service begins with a Response to Intervention and pre-referral remediation and monitoring of low achievers by Student Success Team members. The team identifies problem areas for low achievers and plans interventions that are monitored and reviewed at subsequent meetings. When students do not make satisfactory progress after implementation of remedial programs and strategies, they may be referred for evaluation under Section 504 of the IDEIA.

Students in this subgroup are monitored in the same way as their general education peers except with some accommodations and modifications according to each student's SST or 504. Special education teachers are expected and required to provide progress reports on SST/504 goals at the same frequency in which general education teachers provide report cards and progress reports.

1.30: Students in Other Subgroups

Former Foster Youth

HCCS students are identified as former *Foster Youth* through enrollment applications. HCCS tracks students formerly in foster care through CALPADS. Students' assigned school counselors at HCCS meet the needs of each student individually by providing access to resources (e.g., clothing closet, food pantry) or to partners and mental health providers who are readily available to assist with the mental health needs frequently associated with students formerly from the foster care system. Interventions for students formerly in foster care are provided as needed through an SST (Student Success Team) process, which is provided depending on need based in academic and behavior performance. Additional support is provided to HCCS former Foster Youth through our student meetings and teacher and administrator open door availability. Teachers track how former Foster Youth are performing academically in their SST Action Plans after each benchmark to ensure they are maintaining growth.

Standard English Learners

Standard English Learner (SEL) students who speak African American Vernacular English (AAVE) and Latino American Language have mastered a language variety that is of a non-mainstream form. Each of these varieties is based largely in English vocabulary and grammar but employs its own phonological, lexical, syntactic, discourse, pragmatic, and usage features. These non-mainstream varieties are systematic and highly structured, with explicit rules for forming sounds, words, and sentences and are highly effective and useful as language systems in their communities of practice. The retention and application of the complex linguistic rules of these English varieties generate differences between the students' home speech and the language of the school. SELs are identified through examination of writing samples since SELs tend to write in an oral style that reflects the dialectical variance. Teachers and Specialists meet the needs of this subgroup through daily classroom instruction and support. HCCS provides focused professional development for its instructional team and monitors the progress of students in this subgroup through assessments and tasks that identify features of AAVE and Mexican American English such as students' ability to use context clues, word parts, multiple choice, examining writing samples, and monitoring fluency.

"A Typical Day"

1.31: A Day in the Life of HCCS

Many of our students start their day with their children, getting them ready for school, walking them to school, to the bus stop, or dropping them off in their car. Some of our students bring their small children to school at HCCS with them for play care. For our night classes, our students often arrive at school right after work.

Once our students arrive at school, they go to class, greet their teachers and classmates, enjoy tea or coffee, and settle into class. Days typically start with a warm-up, reading, or discussion to get students' brains warmed up and excited for the day ahead. Our teachers utilize thought provoking subjects to spark our students' intellect.

All of our classrooms utilize technology—many of them in very innovative ways. You may find a teacher utilizing Google Classroom and assigning projects to students which they receive on their personal cell phones. Other classrooms may utilize personal laptops where students can independently research topics, use web-based tools in study groups, or work on their resumes. Each teacher is able to tailor the classroom technology to his/her student population. For our multilevel high school classes, students are grouped at tables by the subject they are currently studying and work as a team towards their projects or work.

One of the most cherished experiences of our students at HCCS is the diversity of our "HCCS family". We have students from over 60 countries who speak 30 different languages. Our students become friends, support systems, mentors, and sometimes family during their time at HCCS. While walking our campus at lunch or break time, you will find diverse groups of students socializing together, laughing, or sharing food. Food is a huge part of the HCCS culture. It brings people together, allows our students to share their culture, and strengthens the relationships of our students.
Our high school students rotate classes based on their credit deficiency and level. A high school student's typical day could start in our English classroom, where they are reading a novel, then go to their pre-algebra or algebra course, where every student who walks through our doors with math anxiety leaves with confidence and appreciation for math, and their day may end in a career success class where they are learning about soft skills, interviewing techniques, and proper career attire.

During their time at HCCS, our students will come into contact with a number of different support personnel from paraeducators in their classrooms who can provide one-on–one assistance to career counselors in the student success center who can assist with record expungement, license reinstatement, and refer students to part-time employment to survive while attending school. Their counselor checks in with them on a regular basis, and our clear connection group provides a weekly support group for students who are dealing with a variety of addictions.

Student Biographies
Lupe Aguilera spent most of her life making noise so that someone would notice her. As a child, who grew up in a family of 14 siblings, Lupe was never given the recognition or support she needed to believe in herself. What's worse is that no one believed her when she told them she was being abused in her own household. "It got to the point where I wanted to just shut myself out. So I got myself into trouble all the time because I felt like my mom wasn't paying attention to me," Lupe said. "I thought if I got into trouble, maybe she would start paying attention to me." When she realized no one was listening, Lupe said she started to act like the housemaid in order to get herself away from her abuser. She would clean up the five-bedroom, three-bathroom home once a week so that she could get permission to leave for as long as she

liked.

Lupe went from couch to couch, family to family, group home to shelter, trying to find someone, anyone who would care. Finally, she found that one person who turned it all around for her, but it wasn't until much later in her life—after she had already had two children of her own. "I was in the shelter with my kids, and I was still messing up—still coming home late and drunk. I couldn't get it right. After a while, the workers at the shelter called me in. They were just tired of me because I couldn't get my shit together," Lupe remembers. They all sat Lupe down at a table and told her that everyone had voted her out, that no one wanted her there anymore, and that they didn't see anything in her. They told Lupe what she had been convincing them of all along—a truth she had believed herself.

"But there was this one guy there. His name was Jeff, and I'm never going to forget hi. He told me, 'I do see something in you, and I think you should stay. I think you should work this program like I know you can.' And ever since he told me that and believed in me, I got my shit together. I think I was just always looking for someone to do that, but I didn't know that it was that I needed," she said. Finding her place in this shelter helped Lupe to understand that when you fall down, it's okay to ask for help getting back up. "When I initially left to join the shelter, I told my parents, who I was living with at the time, that I was going to a hotel because I knew they would disown me if I told them. They had too much pride and thought they could help me themselves. Plus, me living with them was providing them with more disposable income," she said.

But once Lupe broke down and told her parents, the opportunities started opening up. "They were so mad at me," Lupe said as she started to cry. "I just told them that it's good for me and good for my kids and that I'm trying to be something better that I know I can be." Shortly after, Lupe earned a spot in transitional housing and started making strides for herself and her family. She started working full time and attending AA and NA meetings. "I couldn't believe I was making moves without having a partner by my side," Lupe said, "because Mexican women think that we need a partner to be with us because they are going to be our suppliers for everything and that we gotta depend on them, but it's not true. We need to know that we can depend on ourselves."

The outreach that she received through her shelter and those giving back in the community shook Lupe to her core. "It was so crazy—I never knew there were people out there like that. It made me change my ways," she said. Lupe said when she looks back on the years of her life that were spent high, she remembers how desperate she felt and doesn't want to ever return there. "I was going crazy. Like I would see or hear things that weren't even there. I would take so many pills, and I would faint," she said. "I just want to be better. My mom has always been that person who takes advantage of everybody. So I didn't want to be like my mom, and I still don't want to be like my mom. I think that's why I try to do everything I can for my kids now."

Lupe's relationship with her children has evolved greatly over the years, and she has finally won custody of her boys from a relationship which caused her much turmoil in her past. "Going through the custody battle with my kids was so hard because I couldn't read or write. I was constantly using my phone and talking to it to see how things were spelled to write it down on all that formal paperwork. It was hard," Lupe said. "I've come so far, and I won't stand for things anymore. I'm not going to be cleaning up after anyone else for the rest of my life." Now is the time in Lupe's life where she is focused on herself and her family. The first step in that journey was her graduation from Highlands Community Charter School on January 25, 2018. She is also an employee, working in the Clothing Closet and providing resources to those of our students in need. It was Lupe's vision to develop a mobile clothing closet for our school, which has made resources more readily available to those who are not on our main campus.

Brian is a 32 year old who attended 8 different schools from elementary to high school due to behavioral issues. He was given an IEP for his ADHD and never had expectations of success for himself. He dropped out of school in 10th grade, joined a gang, and started selling drugs to buy what his single mother couldn't afford. His choices led him to multiple incarcerations, never working an honest job, and a severe lack of self-confidence. While Brian was on probation, he was referred to a community partner for permanent housing where HCCS provided on-site education. Brian enrolled in our High School Completion program and our Truck Driving program to earn his diploma and Class A License. Brian faced significant challenges with Math and required one-on-one support and instruction. In the past, Brian had significant anxiety and struggles with math. HCCS was able to provide assistance to Brian, and he was able to pass his Algebra class and build his self-confidence and ability to succeed in school. While studying for his high school diploma, he also took our Truck Driving Pathway and earned his Class A License. Passing his Class A Permit test was a huge confidence builder and one of the first successes he's had in his life. This gave him the confidence to learn the skills necessary to pass his behind-the-wheel test and earn his Class A License. With a high school diploma and Class A License under his belt, Brian was able to go out and start his first job. This is a huge accomplishment for Brian! Now, two years later, Brian is still working as a Truck Driver for a local distribution company, earning a livable wage, supporting his family, and giving back to the community.

Shatoya is a 26-year-old high school dropout. She dropped out of school after her mother passed away when Shatoya was in the 11th grade and was placed in foster care. In and out of different homes and dealing with the death of her mother, Shatoya was not able to recover and stay in school. Shatoya lives in the Del Paso Heights neighborhood and was riding the bus one day when she saw a sign for Highlands Community Charter School and decided to stop and see what we had to offer. Shatoya always promised herself that she would earn her diploma for her mom and for herself. She enrolled in school and started the next day. At HCCS Shatoya became very active in student government, tutored her peers, and volunteered with the food distribution program. She earned a 4.0 and had perfect attendance during her time here. The teachers and staff recognized the bright young woman's potential and encouraged her to go to college and continue her education after graduation. Upon graduation, Shatoya enrolled at American River College to become a social worker to help young girls like she once was and change lives. While at American River College, she used her skills and passion from Highlands Community Charter School and assisted in the development of a student food pantry for students. Shatoya earned her associate degree and is currently working for the County of Sacramento while continuing to pursue her education and a bachelor's degree.

Blanca is a mother of 4 and an immigrant from Mexico. She worked at Jack-in-the-Box for 12 years as a manager to support her family. Blanca enrolled in our ELD program to improve her English and get a better job. She entered our program with good speaking and listening skills but needed to improve her reading and writing skills in English. Blanca spent 18 months in our ELD program, moving from Level 3 to Level 7. After completing Level 7, Blanca took our Bridge to high school class and re-designated to our high school program. While attending our High School Completion program, she was able to finally pursue her dream of getting a better job by taking our Early Childhood Education pathway and earning her Child Development Associate Credential. Blanca is currently taking Algebra, Economics, and interning with our Play care program. When Blanca walks the stage to receive her high school diploma with her children and husband in the audience, she will be living out her dream of a better job, showing her kids you can accomplish anything you put your mind to, and creating generational change.

Katya is a 30 year old immigrant from Ukraine where she was a bank manager. Katya came to the United States as an adult with her husband who was a successful lawyer in Ukraine. Katya had a basic understanding of English from her education in Ukraine, but wasn't confident in her speaking skills because

of her accent. When Katya and her husband came to the United States, they had $120 and an empty apartment. Katya's husband worked as a pizza delivery man at night to support their dream of becoming successful in the United States. Katya was able to connect with our student services staff who coordinated a donation of furniture, clothing, kitchen items, and toiletries for their home. Katya enrolled in our High Beginning ELD class and took her studies very seriously. She made a lot of friends from different countries, and they met outside of class for coffee to practice English and explore Sacramento together. Katya moved quickly through the levels and progressed to our ELD Bridge class in one year while also volunteering in a lower level class in the afternoons. Katya's teacher saw her potential, work ethic, and positive attitude and recommended her for a paraeducator position at HCCS for a literacy level course. Katya is now an employee of Highlands Community Charter School and loves giving back, changing lives, and encouraging students on their journey.

Elements 2 & 3: Measurable Pupil Outcomes and Method by which Pupil Progress Toward Outcomes will be Measured

The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups served by the charter school, as that term is defined in subparagraph (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school. **(Ed. Code § 47605(c)(5)(B).)**

The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card. **(Ed. Code § 47605(c)(5)(C).)**

Measurable Goals of the Educational Program

2.1: Description of Measurable Goals and Objectives

HCCS' annual goals and unique educational goals/objectives may be found in *Element 1—1.8: HCCS Annual Goals and Actions*

Measurable Pupil Outcomes: Summative Assessment Performance Targets

2.2: Specific Performance Targets

HCCS' specific performance targets may be found in *Element 1—1.8: HCCS Annual Goals and Actions*

2.3: Plan for Assessing Student Growth and Achievement

HCCS' annual measurable goals may be found in *Element 1—1.8: HCCS Annual Goals and Actions* (IF included in LCFF)

2.4: Other Performance Targets

HCCS' annual measurable goals may be found in *Element 1—1.8: HCCS Annual Goals and Actions* (IF included in LCFF)

Method for Measuring Pupil Progress Toward Outcomes: Formative Assessment

3.1: Monitoring and Measuring Student Progress

Measuring Student Progress
At HCCS our assessment procedures are essential accountability tools and help us to improve instruction and ensure student success. Our assessments and assessment results allow us to measure and track student progress. As we previously discussed in Element l, all of our curriculum objectives and assessments are aligned to the Common Core State Standards. Other formative and summative assessments are intended to assist us in the following areas:

- To inform our teachers of their students' levels and needs
- To ensure teachers recognize both areas of strength and growth and can supplement instruction where it is needed
- To provide our students with meaningful feedback about progress toward goals
- To ensure our school is making progress toward our vision, mission, and schoolwide learner outcomes
- To compare our school's academic performance data with other similar schools

As part of our instructional program, we assess students using a variety of assessment tools, including formal and informal assessments. We believe that all students excel academically when they are held to high standards and that all of our students meet our curriculum standards which we utilize to continuously assess our students' progress.

HCCS Assessments and Frequency

Enrollment Assessment
At HCCS we assess all of our ELD and high school students as part of the enrollment process. The assessment process varies between programs, but both programs assess all incoming students during registration.

ELD Placement Test
For our ELD students, we use two types of assessments. For reading, listening, and math we use CASAS and for writing and speaking we use in-house benchmark assessments designed by our Lead ELD Teachers and approved by our Director of Curriculum and Instruction. Our CASAS assessments are paper-based for our Literacy students and are computer-based for our Beginning Low to Advanced students. For our speaking test, the teacher begins by introducing themselves and asking the student basic conversation questions, such as their name and how to spell it. Then the teacher presents images to the new student and asks leveled questions about the pictures. The purpose of the speaking test is to illicit as much English as possible within the context of the images. If students can appropriately respond to questions, the teacher continues showing images and asking increasingly difficult questions. Students are then given a speaking level based on the test. After the speaking assessment, students are asked to respond to a leveled writing prompt that correlates to the level they received on the speaking test. If the writing prompt is too difficult, the teacher can give them the prompt that is a level below. The purpose of the writing prompt is to get a sample of the writing that represents the students' ability. The writing assessment is then graded, and the student is placed in the appropriate class.

High School Placement Test
For our high school students, we only utilize CASAS assessments as part of our new student enrollment. High school students are assessed in reading and math and placed in classes based on their enrollment

assessments as well as their transcripts. For our ELD students who are moving into our high school program, we assess them in reading, listening, and math to ensure that they are ready to enter high school.

CASAS Assessments

The one assessment tool that is utilized as a universal screener across all programs is the Comprehensive Adult Student Assessment Systems (CASAS). This nationally recognized assessment system integrates Common Core Standards which align to our curriculum in both ELD and high school programs. All students are provided these universal screeners to initially assess placement level and later on to assess learning gains throughout their time at HCCS. Additionally, we use CASAS to track our students' levels and progress through our ELD and High School Completion programs. After the enrollment process, students are CASAS tested on average every 6 to 8 weeks. Our goal is for students to improve by one level per every term, where one level is equal to a minimum of one point and a maximum of ten points.

Teacher Designed Formative Assessments

At HCCS teachers utilize many informal assessment techniques to ensure student learning in the following subjects: reading and vocabulary, writing and grammar, speaking and pronunciation, listening, technology and computer literacy, math and consumer economics, science, history/social science/ community resources/government and law, and health and independent living. Assessment tools used to monitor student progress include:

- Benchmark assessments
- Oral class presentations
- Multimedia presentations
- Journal writing
- Independent class projects
- Essays
- Tests and quizzes
- Daily homework
- Book reports
- Movie reviews
- Portfolios
- Group projects
- Research projects
- Grammar diagnostics
- Reading comprehension checks
- Workbooks

Key Measurement Methods

Measurement Outcome	Method of Measurement	Frequency of Assessment
CASAS Gains	CASAS Reading, Listening, and Math assessments	Every 6 to 8 weeks
ELD Unit Assessments	Theme-based objective assessments	Monthly
ELD Content Mastery	End of term assessments and course grade	At the end of each term
High School Content Mastery	Course assessments and course grades	At the end of every high school course

Evaluation Methods

At HCCS evaluation is based upon a variety of evaluation methods to measure whether students meet requirements; these include teacher evaluation, self-assessment, publisher tests, and samples of work such as homework or portfolios. While course completion does not include an end-of-course evaluation such as a standardized test, many assessment types are implemented. Formative assessments that have been aligned to the state standards for the various units of study for the academic courses are used. For example, our U.S. History course has several standards-aligned units of study, each of which has a schoolwide, formative assessment tool that is used as part of the completion process. At HCCS our students are a very diverse group at varying levels. Through the guidance of our Director of Curriculum and Instruction, we elected to use formative assessment as part of the assessment process and throughout smaller units as a basis for some of the skills assessment. In this manner, we have one form of assessment that we can use to indicate proficiency for smaller units in a course. These formative assessments are only one measure of assessment. Evaluation measures are varied and include projects, teacher evaluations, work samples, etc. At HCCS we evaluate a number of common core standards such as presentation skills in the listening and speaking standards, integration of technology, or demonstration of research skills. One of the primary roles of providing instruction is to evaluate the student's proficiency and skills acquisition, and we use multiple measures of assessment in our courses as part of our course evaluations.

Multiple Assessments

At HCCS we use CASAS scores as one measurement of a student's proficiency and skills attainment; however, they are not the only measure. CASAS scores help us to identify strengths, challenges, and areas of need. As an accountability measure, they are also in alignment with how CASAS scores are used along with the State's accountability indicators.

HCCS utilizes various methodologies to determine students' levels of academic success and, ultimately, their ability to graduate. These evaluations are based upon a variety of evaluation methods to measure whether students meet requirements; these include teacher evaluation, self-assessment, publisher tests, and samples of work such as homework and formative and summative tests and criteria.

The practice of using multiple assessment measures in a classroom is a generally accepted teaching practice. In fact, a teacher who relies solely upon a standardized test does not provide a platform for evaluating a number of Common Core standards such as presentation skills in the listening and speaking standards, integration of technology, or demonstration of research skills. An evaluation of such skills has long been the professional purview of a course's teacher. One of the primary roles of the teacher besides providing instruction is to evaluate the student's proficiency and skills acquisition. Further, the completion of a course by a standardized test is not a requirement for any school for the issuance of the course's credits.

Data Analysis and Reporting

3.2: Plan to Collect, Analyze, Use, and Report Academic Performance and Other Data

At HCCS we use assessment data in four primary ways. First, we want to assist student learning as a diagnostics tool by determining which specific content areas a student has not mastered so they can improve their learning in that specific area. For teachers, this means truly understanding our students' strengths and weaknesses. We want to ensure that if a student is falling behind in an area, we can provide them with the tools they need. We have paraeducators in English and math and Reading and Literacy Specialists. If we understand where our students need to improve, we can assist them.

Second, we use aggregated measurements of student learning as part of the measurement of how the school as a whole is performing. This is a critical component for our stakeholders. At HCCS we have a team of professionals who analyze academic performance data. We look at everything from enrollment and enrollment assessments to demographic data, CASAS assessments and gains, grades, graduation rates and retention data. By analyzing student learning by year, we see how we are doing by teacher, course, program, and school compared to similar schools.

Third, we use assessment data to determine if a student has met or exceeded the necessary level of competency to gain formal recognition such as to complete a level or receive a diploma, licensure, or certification. In our ELD program, when a student meets all of the content and level objectives with an M, the student completes the level and moves to the next course. CASAS scores and teacher assessments are also considered part of the level completion process. For high school students, they complete courses when they earn a C or higher and have earned the required credits.

Lastly, we use assessments to determine if a student is underperforming in relation to their peer group, and we then evaluate if intervention supports are required or if the student is in the appropriate course. There are times when students are enrolled in courses that they are not able to complete. At HCCS one use of assessment is to ensure that students are appropriately placed. In some instances, it is imperative that a student enrolls in a remedial course to get the academic support they need, while other times the student can get support from their teacher, a paraeducator, or a specialist who will work with the student until they are able to complete course materials and assessments.

Grading, Progress Reporting, and Promotion/Retention

3.3: Grading and Progress Reporting Systems

English Language Development Grades
At HCCS we have two grading systems: one for ELD and one for high school. Our ELD grading system is M, A, D, and E.

M is for a student who is meeting or exceeding standards. This student regularly turns in assignments on time that are of A or B quality. This student would also be eligible to advance to the next level within ELD.

A is for a student who is approaching standards. This student is submitting assignments of average quality much like you would see with a C student. This student is trying but may be struggling with content and needs more time in this level. This student is not eligible for level advancement.

D is for a student who is still developing an understanding of the standards at the time grades are assigned. This student might submit assignments of below average or D quality or might be unable to complete assignments on time because they are new or because the content is too difficult. This student is not eligible for level advancement but may need to be dropped one level for comprehensible input.

E is for a student with emerging understanding of standards. At HCCS this grade is reserved for a student with poor effort to complete assignments. The assignments submitted by this student would be of very poor quality or similar to an F student.

At HCCS we first started the ELD grading system, MADE, at the end of the 2016–17 school year. Prior to the 2016–17 school year, we did not have an ELD grading system in place. It was created to ensure that the ELD students were proficient and meeting each level objective stated within HCCS's ELD curriculum before moving to the next level. It was also created to show ELD level completion, as M indicates that an ELD student is ready to move the next level. ELD students receive grade reports at the end of each term.

High School Grades

For our high school students, we use the traditional grading system A, B, C, D, and F. For GPA points, an A has a value of four points, B has a value of three, C has two, D has one, and F has zero. Although teachers may add a plus or minus to a grade, they do not impact the students' GPA. In high school, students must receive the letter grade of C or better to pass a class or earn credits. If a student receives a grade lower than a C, they must complete alternative assignments until they can get a C or better in the class. During the 2014–15, 2015–16 school years, high School students received grades every six weeks. During the 2017–18 school year, we transitioned from a six week grading period to an eight week grading period. In the 2018–19 school year, we transitioned to a nine week grading period.

Promotions

At HCCS there are two systems to address level promotion and graduation: one for ELD and one for high school. At HCCS our ELD students are promoted to the next level when they have met all of the curriculum objectives for that level and have received the grade of M. For the 2016–17 and the 2017–18 school years, ELD students received grades every 12 weeks and were eligible for level promotion at that time. The grading schedule changed for the 2018–19 school year to every nine weeks. Although ELD students do not earn credits for their classes, our high school students do.

At HCCS all of our high school students are enrolled in our high school program into twelfth grade and remain in the twelfth grade until they are eligible to graduate. While our high school students are not eligible for grade promotion, they are eligible to graduate when they have earned enough credits. Our high school students are eligible to graduate when they have earned 200 high school credits: 100 Academic, 90 Elective, and 10 Career Technical (CTE) credits. As part of the 200 credits, transfer credits and employment credits count toward this total. High school credits are awarded by 5 credits in 9 weeks and 10 credits in 18 weeks. Currently, high school credits are awarded every nine to eighteen weeks at the end of each course when students receive course grades.

Retention

At HCCS we address retention through the development of school-based student engagement systems and strong partnerships that support teaching, learning, and student achievement. These student engagements

systems coordinate efforts to strengthen two-way communication between students and the school. We have many professionals who support retention: Navigators, Reclassification Specialist, Reading Specialist, Transition Specialist, and Student Engagement Liaison. This collaboration not only helps student relations but also increases student achievement and retention.

Program Audit

HCCS will compile and provide to TRUSD an annual performance report. This report will, at a minimum, include the following data:

- A summary showing student progress toward the pupil outcomes using data from the assessment instruments.
- A summary of major decisions and policies established by HCCS Board of Directors during the year.
- Data on the level of student involvement in HCCS and summary data from an annual student satisfaction survey.
- Data regarding the number of staff working at HCCS and their qualifications.
- A copy of the HCCS health and safety policies and/or a summary of any major changes to those policies during the year.
- An overview of HCCS admissions practices during the year and data regarding the numbers of students enrolled, the number on waiting lists, and the number of students expelled and/or suspended.
- Analyses of the effectiveness of HCCS's internal and external dispute mechanisms and data on the number and resolution of disputes and complaints.

Element 4: Governance

The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement. **(Ed. Code § 47605(c)(5)(D).)**

Governance Structure

Highlands Community Charter School is a directly funded independent charter school operated by Highlands Community Charter and Technical Schools, a California non-profit public benefit corporation, pursuant to California law. The Charter School agrees to maintain its non-profit public benefit corporation in good standing and "active" status throughout the term of its Charter.

The Charter School is governed by the Highlands Community Charter and Technical School's Board of Directors (the "Board") which is responsible for ensuring progress toward the mission, faithfulness to the charter, and fiscal viability. The Board operates in accordance with its adopted by-laws and delegates management to key HCCS staff, the Executive Director, Director of Curriculum and Instruction, and Chief Operating Officer. The Board is not involved in handling the day-to-day details of running the charter school.

HCCS operates autonomously although in close harmony with Twin Rivers Unified School District, with the exception of the supervisory oversight as required by statute and other contracted services as negotiated between HCCS and TRUSD. Pursuant to California Education Code Section 47604(d), TRUSD will not be liable for the debts and obligations of HCCS, operated by a California public benefit corporation, or for claims arising from the performance of acts, errors, or omissions by HCCS as long as TRUSD has complied with all oversight responsibilities required by law.

4.1: Governance Structure

HCCS agrees and acknowledges that the governing board of HCCS is the sole controlling governing body for the Charter School. The Board of Directors is responsible for governing the Charter School. The Board Members each have a personal fiduciary duty to look out for the long-term well-being of the Charter School. The Board is responsible for addressing major matters including, but not limited to, the governance and operation of Charter School in compliance with applicable law, policy, and the Charter, as they may be amended from time to time; the Charter School's financial management and viability, including but not limited to all expenditures and accounting of all public funds received by or on behalf of the Charter School and its students; setting the Charter School's general policies and overall curriculum policies; approving and monitoring the annual budget and financial procedures; fund-raising; selection, hiring, evaluating, and termination of the Charter School's Executive Director and Compliance Officer; approving personnel policies and monitoring their implementation; establish broad support and future partnerships to further the mission assuring that the Charter School fulfills its charter contract; and, strategic planning.

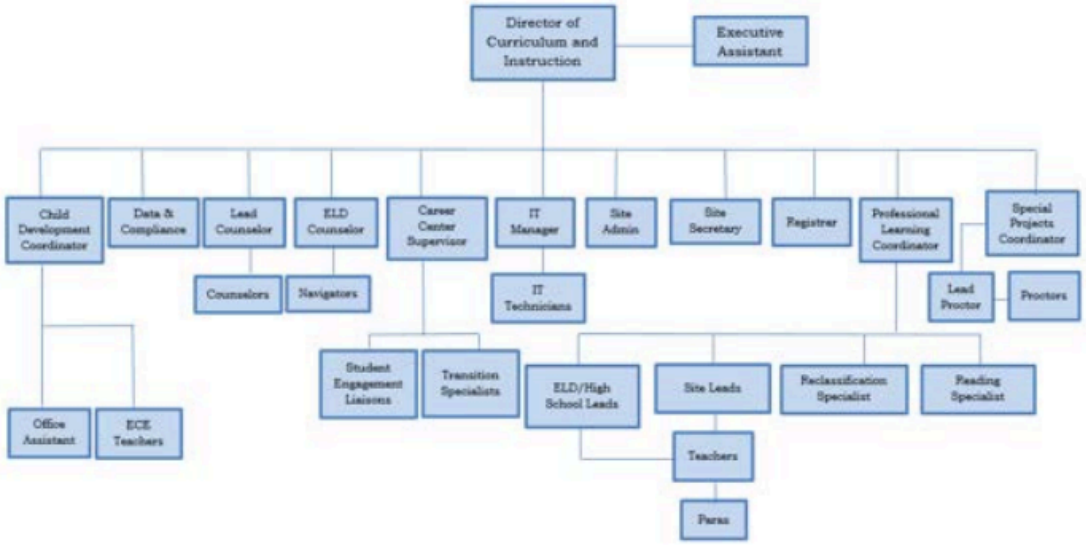
HCCS has adopted a conflict of interest code which complies with the Political Reform Act, Corporations Code Conflicts of Interest rules, and any charter school specific conflicts of interest regulations. Notwithstanding any rule, regulation, provision, or Corporation Bylaw to the contrary, the HCCS' Board of Directors and the Charter School shall at all times and in all respects comply with all conflict of interests

laws generally applicable to the District's Board of Trustees, including but not limited to, EC Section 47604.1, Government Code section 1090 and the Political Reform Act. The responsibilities of the HCCS Board as further outlined in the Bylaws include but are not limited to:

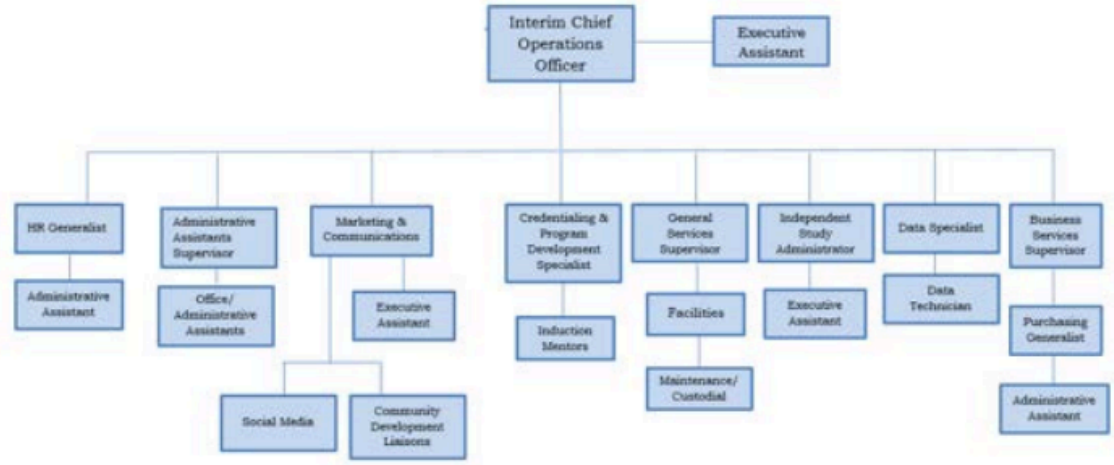
- Uphold the Vision of the Charter School.
- Oversee the implementation of the HCCS's charter.
- Provide notice and hold meetings in compliance with the Brown Act.
- Create and implement goals for the Charter School.
- Ensure compliance with applicable law such as Government Code 1090, Political Reform Act, the Public Records Act and the Conflict of Interest Code.
- Provide oversight of instructional programs and materials.
- Approve and provide input for student policies.
- Monitor management of school liabilities, insurance, health, safety and risk-related matters.
- Receive and review quarterly financial reports and the yearly financial audit.
- Work with chief administrator to set goals.
- Enact policies to support the successful operation of HCCS.
- Attend ethics training (Govt. Code 53234-53235.1)
- Attend fiscal training (EC 35220-35223)

The Board may initiate and carry out any program or activity that is not in conflict with or inconsistent with any law and which is not in conflict with the purposes for which charter schools are established, and consistent with the Articles of Incorporation. The Board may execute any powers delegated to it by law, and shall discharge any duty imposed by law upon it and may delegate to an employee of the Charter School any of those duties with the exception of budget approval or revision, approval of the fiscal audit and performance report, and the adoption of Board policies. The Board, however, retains ultimate responsibility over the performance of those powers or duties so delegated. Other key and Executive employee roles and positions seen in the following organizational charts are described below.

Instructional Division
2018-2019



Operational Division
2018-2019



The Executive Team at Highlands Community Charter School plays a critical role in creating, improving, and maintaining a meaningful learning environment that promotes the academic progress of our students. The executive team includes an Executive Director, Director of Curriculum and Instruction, and the Chief Operations Officer. Through high quality leadership, our executive team successfully develops, implements, and evaluates school systems and policies, including but not limited to finances, assessment, facilities, and accountability measures under the direction of a school board.

Our *Executive Director* assumes administrative responsibility and leadership for the planning, operation, supervision, and evaluation of the education programs, services, and facilities of HCCS and for the performance appraisal of the staff. It is the responsibility of our Executive Director to oversee the school facilities, selection and employment of HCCS personnel, evaluation, promotion, termination or discipline of HCCS personnel, and the preparation and submittal of reports as directed by the Board, to include regular goals and forecasts as directed. The HCCS Executive Director manages the day-to-day operations of HCCS by preparing and submitting required budgets and reports as required by a charter school. Our Executive Director develops partnerships for providing educational services by HCCS, interacts with HCCS accountants and attorneys, and performs other duties lawfully assigned by action of the Board. The Executive Director shall receive ethics training in accordance with SB 827 (2025).

The *Director of Curriculum and Instruction* provides leadership and focus for the development, coordination, implementation, and evaluation of instructional quality and content of curriculum and instructional materials, technology infusion, and professional development programs for Highlands Community Charter School.

The *Chief Operations Officer* plans, organizes, monitors, coordinates and supervises a complex system of school operations, including but not limited to: staff evaluations, student engagement, school safety, employee performance, school climate, data analysis and impact on instruction, organizational alignment of curriculum per the Director of Curriculum and Instruction, budget development, professional development for classified employees, leadership training, and community partnerships. The Chief Operations Officer provides leadership in promoting the educational objectives and values of collaborative planning, implementation of the decided curriculum per the Director of Curriculum and Instruction for classified employees, effective instructional practices and support programs and services, and directly supervises HCCS individual department leadership.

In order to ensure that the Board of Directors, officers, management, and employees are in compliance with applicable statutes and regulations, that HCCS policies and procedures are being followed and that behavior in the organization meets the HCCS standards of conduct, HCCS employs a *Compliance Officer* who functions as an independent and objective person who reviews and evaluates compliance issues/concerns within the organization.

Governing Board Composition and Member Selection

4.2: Board Composition

HCCS is governed by a corporate Board of Directors in accordance with its adopted corporate bylaws, which are consistent with the terms of this charter. The Board of Directors has nine (9) voting members, including a TRUSD appointed representative. Each director brings significant experience and strong

commitment to the organization. The current HCCS Board of Directors includes:

- Ernie Daniels, Corporate President
- Doyle Radford, Vice President
- Matt Powers, Corporate Secretary
- Sharon Rocco, Board Member
- Rick Jones, Board Member
- Sonja Cameron, Board Member
- Sondra Betancourt, Board Member (TRUSD Representative)
- Kevin Ferreira, Board Member
- Mellonie Yang, Board Member

The Board addresses program concerns regarding the operation and improvement of Highlands Community Charter School. The Board is the final policy-making authority for Highlands Community Charter School. The Board, working with the Executive Director, recommends programs, policies, and schedules designed to meet the evolving educational needs of HCCS students and teachers.

In order to be more inclusive of representation programmatically of our students and community, the board voted and appointed new members Ernie Daniels and Kevin Ferreira in August of 2017, and Mellonie Yang in February of 2019. Mr. Daniels is a longtime community member who has strong ties to the community. He has a very keen sense of awareness of the local populace and serves on a variety of local community organizations. Mr. Ferreira is the President of the Craft Trades of Northern California which include: local iron workers, carpenters, and electricians. The knowledge he possesses in regard to understanding and forming community partnerships with business entities is invaluable. Ms. Yang joins our board with nearly 20 years of public service attorney experience. She is the Senior Staff Attorney for California Department of Correction and Rehabilitation. In her many years of service, she has advocated for public safety and on behalf of victims including elders and children.

As of July of 2017, Ms. Sondra Betancourt joined our Board of Directors by appointment from our authorizer, the TRUSD. Her appointment appropriately addressed the need to ensure that a community member was appointed by the authorizer as the former member that was appointed had previously served as a Board member on the Twin River Unified School District.

The changes in our governance structure have provided a broader scope, depth and level of inclusiveness to how we operate our school as a whole. We represent our community and students with better comprehension. Particularly, with the addition of the appointed representative from our authorizing district, the level of mutual understanding and transparency for both Local Educational Agencies (LEA)s has increased significantly.

4.3 Member Selection

HCCS is governed by the Board of Directors pursuant to the adopted Bylaws, as may be subsequently amended from time to time, which shall be consistent with this charter. The process of selecting members of the Highlands Community Charter School Board of Directors is described in detail in the Bylaws of the organization. All Directors are designated by the existing Board of Directors. As outlined in the Bylaws, Board members serve a term of 3 years. The HCCS Governing Board of Directors will consist of at least three (3) members or up to as many as eleven (11) members. TRUSD may appoint a representative to sit on the Board of Directors. Should the District exercise this right, causing an even number of members, an

additional Board member would be designated by the Board. These additional appointed and designated Board members may expand the board past the general limit of 11 members.

Board member candidates may have experience in the following areas:

- K–12 Education
- Finance
- Information Technology
- Law
- Marketing
- Public Policy
- Facilities / Real Estate
- Social Services
- Human Resources
- Child Development
- Non Profit
- Parent / Community

Ideal candidates demonstrate an understanding of, alignment with, and endorsement of the charter and mission of HCCS, possess a willingness to dedicate themselves to ensuring the success of the Charter School, understand the Charter School as a direct-funded, independent charter school authorized by TRUSD, and are able to provide resources or expertise and experience in support of the Charter School and organization.

With retention of General Counsel to advise on conflict matters, along with training available to Board members, HCCS has, and will continue to be proactive to prevent any actual or potential conflicts of interest. HCCS will not enter into any consulting contracts or agreements that are deemed to be a real or potential violation of conflict of interest laws, and our General Counsel will ensure that all Board activities are conducted to prevent such conflicts of interest from arising.

Upon receipt of a petition for student representation that meets the requirements of Education Code Section 47604.2(b)(2), the Board of Directors shall order the inclusion within its membership, in addition to the number of members otherwise prescribed, of at least one student member. A student member of the Board of Directors shall have preferential voting rights as defined in Education Code Section 47604.2(b)(4).

Governance Procedures and Operations

4.4: Meeting Requirements and Procedures

All Board meetings are held in accordance with the Brown Act and Education Code Section 47604.1(c) and are open to the public; each agenda will include time for community input with regards to Highlands Community Charter School. Governing Board meeting agendas are posted at the entrance of the Charter School's main office and on the Highlands Community Charter School website for public viewing 72 hours in advance of any regularly scheduled meeting. Meeting minutes are posted to the HCCS website within 72 hours of approval and are available by public request. Meetings are held at the principal office of HCCS or other locations within California designated by resolution of the HCCS Governing Board of Directors or in

the notice of the meeting. The Board meets on a regular basis (e.g., monthly during the school year and as appropriate at other times). Meetings are calendared annually.

4.5: Decision Making Procedures

HCCS retains General Counsel to ensure Brown Act compliance for all HCCS board activities, including decision making procedures. Board members have also been provided with Brown Act reference materials and may participate in yearly meetings held by California Charter Schools Association ("CCSA") and/or Charter Schools Development Center ("CSDC") which feature ethics presentations, including Brown Act and conflict of interest reviews. All Board members are encouraged to participate in such presentations.

A majority of all voting Board members constitutes a quorum for all business transactions except adjournment. Every action taken or decision made by a majority of Board members present at a duly held Board meeting is considered an act of the Board, subject to more stringent provisions of the California Nonprofit Public Benefit Corporation Law, including, without limitation, those provisions relating to:

- approval of contracts or transactions in which a director has a direct or indirect material financial interest,
- approval of certain transactions between corporations having common directorships,
- creation of and appointments to committees of the board, and
- indemnification of directors.

Meetings may be held by telephone or other telecommunications equipment pursuant HCCS Bylaws and in accordance with the terms and provisions of the Ralph M. Brown Act, California Government Code Sections 54950, et seq., as said chapter may be modified by subsequent legislation.

Stakeholder Involvement

4.6: Stakeholder Involvement Plan and Process

It is critical that all students are invested in the success of the Charter School and have a voice in matters critical to the Charter School's success. HCCS believes that student investment is integral to a successful student education, and it is commonly accepted that student involvement can have positive and long-lasting educational results. Therefore, we make every effort to ensure that student input is considered in the Board's decision-making process. To assure the greatest involvement, HCCS provides multiple opportunities for student feedback. We encourage students and staff to attend, speak, and present at Board meetings; we request that students and staff complete various surveys (e.g., English Learner Advisory Committee ("ELAC") surveys, student satisfaction surveys, exit surveys); we proactively reach out to students regularly to encourage them to meet with our counselors to continue discussing their goals and needs; and we are proudly responsive to the feedback we receive.

We encourage and teach our students how to maintain direct influence over the direction of their educational process. Students have equal say, and sometimes, greater say, in their learning according to their academic needs. Our teachers collaborate with students, other teachers, staff, administration, and community partners to determine what new programs and resources would be most beneficial to student achievement and well-being. The birth of our mobile clothing closet, housing resource connections, and

ELD Navigators program are all examples of student influence on governance and fiduciary direction of the school.

In planning to draft the LCAP, leadership consults with teachers, administrators, other school personnel, partners, and students in developing the annual update. This feedback is provided during a variety of meetings and discussions schoolwide. Following these meetings, the Executive Director meets with the school leadership team to discuss the changes in the funding formula and how those funds could be used to best meet student needs, after which the Director of Curriculum and Instruction collaborates with the designated coordinator to draft a plan in accordance with State Priorities and local goals. Once decided, the Executive Director and the Director of Curriculum and Instruction meet with school faculty and present State Priorities and the school goals. Goals are then amended based on recommendations provided from the school community. Amended plans are then presented for feedback to staff, students, and all other interested parties at regularly scheduled meetings. All stakeholders are invited to submit public comment and final plans are approved at a public board meeting. HCCS will consider TRUSD recommendations and comments when drafting its LCAP for the 2019-2020 school year. The Charter School shall present a report on the annual update to the LCAP and the local control funding formula budget for parents on or before February 28 of each year as part of a nonconsent item at a regularly scheduled Board meeting.

Student consultations occur with regular frequency in order to promote student input. We consult students by way of student/teacher collaborations, student/counselor collaborations, email, conventional postal delivery services, phone communication, student surveys, and student participation in school activities. Teachers are consulted regularly through monthly professional development opportunities, instructional collaboration, mentor teaching, email, and staff surveys. Responses gleaned from the student and staff surveys help the Charter School make program modifications to better serve the students.

Other student engagement strategies that we employ include:

- Student education initiative featuring a variety of sessions on topics such as college admissions, financial aid, financial literacy, student rights, etc.
- Posting of Board meeting announcements in the Charter School's main office.
- Translation of student communication materials into Spanish, Russian, Farsi, and Arabic.
- Frequent opportunities for student involvement in Charter School activities.
- Volunteer opportunities on campus.

Additionally, we use our school website to keep our students informed of all upcoming activities, important calendar items, and Board meeting minutes. We promote student involvement by encouraging students to contribute to and drive website content through the sharing of their personal stories which are connected to our website via our Instafeed of social media content.

The Board of Directors may, in its discretion, form Committees, in accordance with the Bylaws and applicable law, to accomplish the objectives and responsibilities of the Board and to ensure that the school achieves its mission and goals.

Element 5: Employee Qualifications

The qualifications to be met by individuals to be employed by the charter school. **(Ed. Code § 47605(c)(5)(E).)**

Overview

HCCS believes that all of its employees play a key role in creating a successful learning environment and will recruit professional, effective, and qualified personnel to serve in administrative, instructional, instructional support, and non-instructional support capacities. All employment is contingent upon successful Live Scan reporting through the Department of Justice and a background/reference check. Additionally, staff working with children or working at a campus site with children shall also maintain: First Aid/Cardiopulmonary Resuscitation ("CPR") Certification as part of our internal practice, and current tuberculosis ("TB") testing or risk assessment. HCCS maintains a drug, alcohol, and smoke-free workplace and campus, enforces all applicable laws and policies against harassment of protected classes, upholds requirements for mandated reporters, and provides appropriate due process for complaints, disputes or grievances involving or affecting staff members. Upon confirmation of employment, all HCCS staff shall complete orientation and training as applicable to their position that supports their willingness and ability to fulfill the responsibilities and duties of their position in accordance with the organization's policies and educational philosophy.

HCCS is independent from TRUSD and any District employees who choose to work at HCCS will resign their status as employees of TRUSD or other school districts and all of their rights and benefits thereof. No person employed by HCCS shall be deemed to be employees of TRUSD for any purpose whatsoever. HCCS employees shall have no employment rights of any kind with TRUSD.

HCCS maintains an Employee Handbook detailing the rights and responsibilities of all HCCS employees and shall comply with all anti-discrimination and sexual harassment employment laws applicable to public agencies. On or before August 1 of each subsequent year, HCCS shall provide TRUSD with two (2) copies of the Employee Handbook. HCCS shall annually update and revise the Employee Handbook to reflect changes in the law and/or policies. HCCS shall be solely responsible for the hiring and compensation of HCCS employees, including but not limited to salary, health benefits, sick leave, vacation, and retirement benefits.

All employees will possess appropriate qualifications according to the HCCS adopted personnel policies and federal and state statutes applicable to charter schools.

Employee Positions and Qualifications

5.1 & 5.2: Employee Positions, Job Descriptions, and Minimum Qualifications

Executive Team

The executive team at Highlands Community Charter School plays a critical role in creating, improving, and maintaining a meaningful learning environment that promotes the academic progress of our students. Through high quality leadership, our executive team successfully develops, implements, and evaluates school systems and policies, including but not limited to finances, assessment, facilities, and accountability measures under the direction of the Board. Our HCCS executive team job descriptions and qualifications

are outlined below.

Executive Director
Our *Executive Director* assumes administrative responsibility and leadership for the planning, operation, supervision, and evaluation of the education programs, services, and facilities of HCCS and for the performance appraisal of the staff. It is the responsibility of our Executive Director to oversee the school facilities, selection and employment of HCCS personnel, evaluation, promotion, termination or discipline of HCCS personnel, and the preparation and submittal of reports as directed by the Board, to include regular goals and forecasts as directed. The HCCS Executive Director manages the day-to-day operations of HCCS by preparing and submitting required budgets and reports as required by a charter school. Our Executive Director develops partnerships for providing educational services by HCCS, interacts with HCCS accountants and attorneys, and performs other duties lawfully assigned by action of the Board. Our HCCS Executive Director must minimally possess a bachelor's degree or any experience directly related to the field of work equivalent to a (4) four year degree and program administration and planning experience, preferably with experience in management as an executive officer.

Director of Curriculum and Instruction
The *Director of Curriculum and Instruction* provides leadership and focus for the development, coordination, implementation and evaluation of instructional quality and content of curriculum and instructional materials, technology infusion and professional development programs for Highlands Community Charter School. The Director of Curriculum and Instruction possesses, at a minimum, a bachelor's degree, preferably a master's degree, in a field related to Education, seven (7) years teaching experience in English Language Development, high school core classes or Career Technical Education ("CTE").

Chief Operating Officer
The *Chief Operating Officer* plans, organizes, monitors, coordinates and supervises a complex system of school operations, including but not limited to: staff evaluations, student engagement, school safety, employee performance, school climate, data analysis and impact on instruction, organizational alignment of curriculum per the Director of Curriculum and Instruction, budget development, professional development for classified employees, leadership training and community partnerships. The Chief Operating Officer provides leadership in promoting the educational objectives and values of collaborative planning, implementation of the decided curriculum per the Director of Curriculum and Instruction for classified employees, effective instructional practices and support programs and services, and directly supervises HCCS individual department leadership. The minimum qualifications for this position include any combination equivalent to a four-year degree in business, public administration or a related field, preferably with five years of increasing responsibility and experience in the administration of operational programs in education.

Executive Assistants
HCCS employs executive level support staff members who report directly to their respective Directors. *Executive Assistants* provide administrative support in one-on-one working relationships. The Executive Assistants serve as the primary point of contact for internal and external audiences on all matters pertaining to their Director. The Executive Assistants serve as liaisons to the Board of Directors and senior management and organize and coordinate administrative outreach and external relations efforts. HCCS Executive Assistants demonstrate a high degree of self-directedness, proactive attitudes, sound independent judgment, discretionary decision making, and professional accountability. HCCS Executive Assistants accommodate different work styles, demonstrate sound and consistent judgment, make timely decisions in relatively complex situations, and prioritize among multiple projects. At a minimum, HCCS Executive

Assistants have 3 or more years of experience working at a senior and/or administrative level. Possession of an AA/BA or equivalent experience is preferred.

Instructional Division

Highlands Community Charter School recognizes the immense importance of our instructional staff in achieving our mission and the goals set out in our Schoolwide Learning Objectives. Our teachers motivate students and support their achievements while fostering positive, trusting relationships to create a productive learning environment. Our instructional support staff ensure students and teachers are working together in a safe and supportive climate and encourage access to additional resources as necessary. As such, HCCS screens and hires highly qualified staff for our Instructional Division who, under the direction of the Director of Curriculum and Instruction, meet the minimum specified qualifications outlined below.

Administrators

Administrators play a key role in the delivery of quality instruction at Highlands Community Charter School. Our Administrators ensure that educational strategies are in place to support effective learning for all students. They serve as facilitators, guides, and supporters of quality instructional practices in addition to overseeing day-to-day operations and expeditiously making improvements as necessary.

Site Administrators

Highlands Community Charter School employs *Site Administrators* who serve as the operational leaders and administer the site(s), faithfully perform the duties for HCCS in accordance with Board Policies as may be assigned by the Board, and comply with all lawful Board directives, state and federal law, rules, and regulations as they exist or as they are adopted or amended. The HCCS Site Administrators hold bachelor's degrees or an equivalent combination of experience, training, and education with prior experience working in an academic leadership capacity.

Coordinators

Coordinators are an integral part of the academic team, supporting various elements of the instructional program, supervising instructional staff, effectively delivering curriculum through staff training, supporting the achievement of departmental goals, learning outcomes, and benchmarks. Academic coordinators at Highlands Community Charter School are innovative and responsive to student needs. HCCS coordinator position and qualifications follow.

Special Projects Coordinator

To best serve students through an offering of broad course offerings and programs, HCCS employs a *Special Projects Coordinator* to provide leadership and project management to key strategic initiatives in support of quality instruction. The Special Projects Coordinator directs and coordinates the planning, facilitation, and writing of the Local Control Accountability Plan as well as services, accountability, compliance, and other activities connected with targeted academic processes, programs, and projects. In addition, the Special Projects Coordinator reviews and ensures compliance mandates are met for the Workforce Innovation and Opportunity Act ("WIOA") as part of HCCS's ongoing Career and Technology Education programs development, oversees student monitoring, tracking data from internal or external measures to assist second language speakers with achieving reclassification, and understands current practices related to State associated compliance mandates (e.g., Local Control Accountability Plan, WIOA, Categorical programs, and English Language Learners), current requirements for students to achieve graduation eligibility, and matriculation practices related to student credit status agreements with local colleges. The Special Projects Coordinator implements professional learning methods for adult learning, possesses professional presentation skills with small or large group participants and has a proven track

record of working successfully with teachers, support staff, and students. The Special Projects Coordinator possesses prior knowledge relating to state mandates such as LCFF-LCAP, WIOA, CTE, is skilled in the use of data management systems, English learner certifications, and has the ability to meet deadlines as articulated by various compliance mandates (e.g., WASC, School Reauthorization, Reclassification).

Professional Learning Coordinator
In addition, supportive efforts include the hiring of a *Professional Learning Coordinator* whose chief responsibility is to coordinate the ELD Program, advise and act in an academic leadership capacity. The Professional Learning Coordinator possesses previous experience coordinating ELD Professional Development and the ability to work with sensitive and confidential information and maintain confidentiality. The HCCS Professional Development Coordinator communicates well with a diverse group of people on a daily basis. Minimum qualifications include 5 years teaching experience and the possession of a valid California teaching credential, the ability to work with sensitive and confidential information and maintain confidentiality and the ability to communicate with a diverse group of people on a daily basis.

Child Development Coordinator
As part of our Early Childhood Education program, our *Child Development Program Coordinator* plans, organizes, and coordinates the Child Development Associate ("CDA") program and the Play Care Program to comply with District, licensing, and other requirements including mandated legal and regulatory provisions; supervises staff assigned to the Center; prepares, recommends, and implements policies, procedures, and operations that pertain to the Child Development Program which includes the CDA credentialing and Play Care Program at all sites. At a minimum, the Child Development Program Coordinator possesses a master's degree from an accredited college/university, preferably in human development, child development, or early childhood education and/or bachelor's degree with a minimum of four (4) years' experience in a child care center environment with increasing supervisory responsibility. The Child Development Program Coordinator has possession of, or eligibility to obtain and retain, a Child Development Program Director Permit issued by the California Commission on Teacher Credentialing; experience in directing a licensed program and the corresponding management experience; and demonstrated sensitivity to and understanding of the diverse academic, socioeconomic, cultural, ethnic, and disability backgrounds of high school students.

Academic Specialists
As part of ongoing and growing efforts to support our instructional team and in order to ensure students are receiving the highest quality instruction and support HCCS can provide, we employ specialists to support school instruction and operations. Each academic specialist candidate possesses the necessary education and professional experience related to their field of specialty to qualify them for the duties and responsibilities of the position. Our specialist positions and qualifications are as follows:

Credentialing and Program Development Specialist:

The Credentialing and Program Development Specialist coordinates and provides analytics, data management, event support, policy and procedure compliance, and technical services to programs such as professional development, curriculum and instruction, and/or sites with standalone, categorical, community-based, or other specially funded education programs that contribute to and encourage attendance and retention for targeted students or groups. The Credentialing and Program Development Specialist is a position that is part of research, data management, analytics, and event support to academic and administrative programs and services, as well as Human Resources. The Credentialing and Program Development Specialist applies program logistics and planning skills along with research, data compilation,

and statistical analysis knowledge to provide decision support to a range of programs and services such as those for enhanced learning, professional growth and development, and teacher support. The Credentialing and Program Development Specialist demonstrates success in working with a wide range of stakeholders such as educational oversight agencies, service providers, human resources, school administrators, board of governance, certificated, classified and leadership staff. The Credentialing and Program Development Specialist is responsible for assisting in the hire of new teachers and confirming/guaranteeing their eligibility to teach by providing credentialing analytics. The position requires a well-developed knowledge of school administrative services, programs for developing and retaining teachers, and services for retaining and engaging students, parents/families, and communities; computers, office productivity applications such as word processing, spreadsheets, and graphics, and specialized data management programs used in education; writing skills to prepare brochures, technical materials, and reports; and human relation skills to make formal presentations, facilitate group processes, and exercise sensitivity to diverse populations. The position requires working knowledge of program goals and objectives, procedures and regulations, the roll of cultural, social, and related activities in student engagement, community demographics; the professional development programs that enhance teaching; and math skills sufficient to read and analyze financial statements. The position requires the ability to carry out all aspects of the job; convert program goals into action plans; evaluate program outcomes; to plan, prioritize, and assign work in order to meet yearly schedules and timelines; facilitate meetings and processes involving diverse groups; maintain confidentiality of private and sensitive information; and secure funding, secure local interagency partnerships, and accomplish goals within financial limitations, maintain productive and cooperative working relationships with others as well as a bachelor's degree or equivalent combination of experience, training, and education with prior experience working in a school setting.

Reclassification Specialist
The *Reclassification Specialist* performs a variety of complex clerical and statistical record keeping duties related to the enrollment, transition, graduation or withdrawal of students including those in special programs, according to established policies and procedures. This individual receives, sets up, and evaluates records, updates files with class credits and grades as needed, evaluates records for compliance with graduation requirements, and maintains and archives academic records. The Reclassification Specialist possesses a high school diploma and college-level coursework in business practices, or equivalent, and three years of progressive experience providing administrative support in records, attendance, and data entry of student information. Additional higher education may substitute for some experience.

Reading Specialist
The *Reading Specialist* works with students who are identified by the Director of Curriculum and Instruction or designee and who have a written 504 plan. The HCCS Reading Specialist provides direct services to these individuals on a one-to-one or group basis. Instruction occurs in an appropriate educational setting and may include the general education classroom. The Reading Specialist, with other Academic Leadership team members, defines specific goals and objectives in the written 504 plan and participates in the annual review, triennial review and any special review of the students' progress. The minimum qualifications that the Reading Specialist possesses are three (3) or more years of teaching experience, including both regular and special education, and a valid and clear teaching credential in either Multi/Single Subjects or Adult Education.

Counseling Team
Our school counselors and other counseling support staff are vital members of the HCCS educational team. We employ counselors to assist each and every student in a multitude of areas including academic achievement, career readiness, and social/emotional health, safety, and development, ensuring our students become productive, well-adjusted participants in the community. Outlined below are the positions and

qualifications of our counselors and counseling support staff.

Lead Counselor
The *Lead Counselor* at Highlands Community Charter School manages the Counseling Services Program. This individual provides academic counselor evaluations and program administration while cooperating with the administrative staff in planning curricular programs to meet the needs of students. The HCCS Lead Counselor prepares publications as required and conducts evaluative studies of the school programs and their effectiveness in achieving student learning outcomes. At a minimum, our Lead Counselor possesses a bachelor's degree, and prior job related experience, preferably with progressively responsible management experience.

ELD Counselor
The *ELD Counselor* oversees advising and/or academic program for the English Language Development Program. The minimum qualifications met by the HCCS ELD Counselor are equivalent to a master's degree and experience in counseling, successful experience working in schools as an outside agent, demonstrated experience in developing and managing complex schedules and using effective interpersonal communication skills.

Counselors
HCCS *Counselors* provide counseling and guidance services to students. The Counselors identify and counsel students with special needs and behavioral, social, and school adjustment problems. HCCS Counselors refer students to other community resources, support groups and social service agencies as appropriate. At a minimum, HCCS Counselors possess a bachelor's degree with a major in School Counseling and two (2) years of experience as a high school counselor.

ELD Navigators
HCCS employs *ELD Navigators* under the direct supervision of the ELD Counselor or designee. The ELD Navigators work with English language learners to deliver assistance in the students' native languages whenever possible while connecting to community and school resources and services. The ELD Navigators provide a means for clear communication for students to receive information regarding school activities, procedures, programs, career technical guidance and services available. At a minimum, ELD Navigators possess a bachelor's degree or an equivalent combination of experience, training, and education with prior experience working in a school setting. HCCS ELD Navigators are bilingual or even multilingual, preferably in Spanish, Farsi, or Slavic dialects.

Teaching Team (Instructional)

At HCCS we know that teachers are the direct line for ensuring that our students are able to achieve the goals set forth in our mission and schoolwide learner outcomes. Therefore, we screen and hire only qualified teachers. Teachers are responsible for facilitating a learning environment supportive of California state educational standards and HCCS philosophy. Teachers hold a minimum of a bachelor's degree from a degree granting institution and valid authorization to serve as a California credentialed teacher from the California Commission on Teacher Credentialing (CCTC). Accordingly, HCCS teachers have:

1. A bachelor's degree from a degree granting college or university,
2. A California State teaching credential, or a University Intern Credential while actively working toward completion of a California State teaching credential, or an appropriate Adult Education or other Designated Subjects credentials, and Demonstrated subject matter competence.

California Education Code 44253.3 requires all teachers with a Multi or Single Subject credential serving English Language Learner (ELL) students hold appropriate authorization: CLAD/CTEL/SB 395/AB 2913.

While not all HCCS teachers who have Multi and Single Subject credentials instruct ELL students, as a part of HCCS' ongoing commitment to excellence, HCCS strives to prepare every certificated staff member to serve ELL/ELD students by properly equipping teachers with the tools and training needed to serve this high demographic of HCCS students. This commitment and opportunity for professional development is provided both to those holding CLAD certifications through their Multi and Single Subject credentials as well as those who are not required to possess it, such as those with CTE or Designated Subjects credentials. Upon employment, all HCCS certificated staff are offered ELD training and ongoing professional development throughout the year by working with ELD academic leaders and mentors to improve test scores, develop teaching instruction, and identify areas of strengths and weaknesses in student learning. HCCS encourages all certificated staff to complete, update and maintain their ELL authorizations through ongoing education and training, both at the university level and through HCCS professional development.

HCCS key administrative staff will have training to assure understanding in determining the fulfillment of applicable ESEA/ESSA requirements. HCCS teacher credentials are reviewed by the Director of Curriculum and Instruction, the Credentialing Specialist and the Human Resources Generalist annually and on an ongoing basis as needed. These documents shall be maintained on file at HCCS headquarters and shall be subject to periodic inspection by TRUSD.

TRUSD reserves the right to review HCCS hiring decisions to ensure compliance with applicable federal and State mandates regarding qualified teachers and to determine whether a teacher is deemed to be appropriately credentialed for their certificated assignment. No later than September 1 of each year, HCCS will provide TRUSD proof of employment of appropriately credentialed, full-time equivalent teachers at HCCS for that school year consistent with the qualification requirements.

As a diverse community for social justice serving a diverse population of the formerly unserved, our teachers are specialists in the type of classroom instruction they provide. Our teachers come from a multitude of professional backgrounds in education which ensures that our students are receiving the greatest support available to them. HCCS strives to ensure that all students are provided highly qualified teachers, providing high caliber instruction to meet our learners' needs. Following are job descriptions for the various teaching positions we currently offer, including any additionally required and/or desired qualifications.

Lead Teachers
HCCS *Lead Teachers* provide instructional leadership and serve as a support for teachers and students, in order that they may assist in the building of positive, productive school environments. HCCS Lead teachers are professionals who have excellent teaching and leadership skills. They draw upon their teaching experience to serve as expert resources, mentors, or counselors for teachers and students and provide input and assistance in the forming of a student-centered learning environment that meets and exceeds the State Core Curriculum Content Standards, following the approved curricula and directives of the school. HCCS Lead Teachers possess valid California teaching credential, three (3) years of successful teaching experience, and a recommendation from an HCCS Administrator.

Site Leads
Site Leads oversee the programs, operations, and personnel for an assigned school, assure safe and positive learning environments for the students and staff, and report to the Director of Curriculum and Instruction regarding site and personnel status. The minimum qualifications our Site Leads meet are five years teaching experience and a valid California teaching credential.

Academic Teachers

HCCS *Academic Teachers* will instruct in one or more core academic subject area(s) and provide related services to adult students. Our teachers must have a strong desire to work with adult students to help them achieve their academic, personal, and professional goals. HCCS Academic teachers use engagement strategies, standards-based lesson plans and curriculum planning with a team. Our teachers participate in site and professional association meetings, develop and implement lessons, keep accurate records and grades, and attend a majority of after-school meetings/events.

English Language Development (ELD) Teachers Our *English Language Development (ELD) Teachers* create lesson plans to teach non-native speakers to read, write, speak and understand English. They help students learn English grammar, pronunciation and conversational skills. ELD Teachers are expected to improve the reading, writing, listening and speaking skills of the increasing population of global newcomers to HCCS. ELD Teachers plan, implement, monitor, and assess a classroom instructional program. Our ELD teachers possess a Bachelor's degree from an accredited institution, possess or qualify for an Adult Education Elementary and Secondary Basic Skills teaching credential, a Multiple Subject credential, or any Single Subject credential, and have a certification for teaching English Learners (TESOL, TEFL, etc.) and/or a degree (or minor) in teaching English and/or English as a Second Language. ELD teachers at HCCS have taught English as a Second Language for at least 3 years and have the ability to communicate with a diverse group of people on a daily basis.

Career and Technical Education Teachers
The *CTE Teachers: Heavy Truck and Bus* instruct and provide related services to adult students attending the HCCS Heavy-Duty Truck Driving, Bus, and OSHA Forklift program. The HCCS CTE Teachers have, at a minimum, current Class A and Class B driver's licenses, three years of driving experience as a Class "A" Driver, and an appropriate California teaching credential to teach adults the designated trade, technical, or vocational subject assigned to them, which may include but is not limited to, an appropriate Career Technical Education credential, Adult Career Technical Education credential, Vocational credential, or Adult Vocational credential.

Early Childhood Education (ECE) Teachers
HCCS *Early Childhood Education (ECE) teachers* perform instructional duties as members of a co-teaching team in a preschool/school age children setting under the direction and supervision if the Child Development Coordinator. ECE teachers collaborate in curriculum, planning, and implementation of related activities. Their work is performed in collaboration with ECE Paraeducators. At a minimum, ECE teachers hold a high school diploma and a current Child Development Teacher Permit from State of California. ECE teachers possess at least one (1) year experience in working with preschool aged children, formal training in basic first-aid and CPR with a Pediatric Certification, a TB clearance certificate within the last year, state mandated-reporting certificate, and all required immunizations by the State of California.

Paraeducators
HCCS recognizes the value of trained paraprofessional staff (teacher assistant/cultural assistant) in the classroom to aid the teacher in the instruction of students. In response to HCCS' desire to meet the same qualifications as other quality schools, HCCS chooses to adopt the ESEA/ESSA, formerly NCLB, Highly Qualified Paraprofessional provisions as part of the minimum qualifications of this position. HCCS *Paraeducators* assist certificated teacher(s) in the instruction of students placed in regular programs, monitor and report student progress in areas of behavior and performance, and perform clerical and instructional support duties. HCCS Paraeducators have highly proficient oral and written use of the English language.

Early Childhood Education (ECE) Paraeducators
ECE Paraeducators perform instructional duties as members of a co-teach team and collaborate in

curriculum, planning, and implementation of related activities. Our ECE Paraeducators work in collaboration and under the general direction of an ECE teacher. All of our paraeducators have a high school diploma, a current Child Development Associate (CDA) or Child Development Associate Credential or a credential approved by the Department of Children and Family Services or State of California Teacher Credentialing as being equivalent to or greater than the Child Development Associate Credential (CDAE), and one (1) year of experience in working with preschool or elementary school-aged children. Additionally, ECE Paraeducators must possess and renew the following prior to expiration and maintain active as a condition of employment:

- A state-awarded associate teacher permit or higher
- TB clearance certificate
- Pediatric CPR and First Aid certificate
- Mandated Reporter certificate

Assessment Team

Assessment is a powerful learning tool that supports student learning, informs teaching practices, and improves the quality of education. As such, we employ a team of test proctors to help enhance learning and education by providing accountability measures during test taking and ensuring academic integrity.

Highlands Community Charter School employs *Lead Proctors* who provide leadership and serve as a support for Test Proctors and students, in order that they may assist in the building of positive, productive school environments. Our Lead Proctors possess a minimum of two (2) years of experience as a proctor, knowledge of CASAS policies, WIOA II Grant, and testing protocol, proficiency in Excel, Word, and TOPS Database, and excellent customer service and ability to pivot.

Test Proctors

HCCS Test Proctors administer assessments and exams, including the CASAS (Comprehensive Adult Student Assessment System). This is done at multiple sites, often requiring transporting laptop computers as part of our mobile testing center. To minimally qualify, our Test Proctors must possess a high school diploma, computer literacy including basic word processing, spreadsheet, and database skills, the vigilance necessary to prevent cheating, the ability to administer testing rules, and the ability to communicate with a diverse group of people on a daily basis. Preferably, ideal candidates possess an associate degree, have test proctoring or similar experience, and are bilingual in both English and one or more of the following languages: Spanish, Russian, Farsi or Arabic. All testing proctors are trained in CASAS with the result being a certificate of training completion. They are provided professional development and attend a 2-4 week shadow internship. They are also required to attend an annual CASAS conference further allowing them to develop professional competence using CASAS.

Academic Support Team

The Highlands Community Charter School academic support team is essential for the support they offer to our staff, ensuring that our academic operations run efficiently. Our academic support team helps to maximize student success and achievement by enabling all instructional teams to work effectively in delivering schoolwide goals.

Data Analyst and Compliance Officer

The *Data Analyst and Compliance Officer* learns and applies clearly defined program and research design procedures, conducts surveys, designs data structures, analyzes statistical information and coordinates the preparation of data driven reports. The Data Analyst and Compliance Officer's expanded knowledge of research procedures creates the ability to design and coordinate program steps to meet standards and outcomes, as well as perform difficult academic assessments using statistical inferences and research

literature prepared by others. At a minimum, the Data Analyst and Compliance Officer has strong and polished interpersonal, written and oral communication skills, is a creative, strategic and analytical thinker with the ability to manage multiple projects, is experienced in developing and managing budgets, hiring, and training, supervising and assessing personnel, is highly organized and able to work well with others, has knowledge of Microsoft Office and Windows based computer application and database management, has previous supervisory experience, and is able to work with a variety of populations, including adults who are in recovery, adults transitioning out of homelessness, and persons in need of our unique academic offerings. Ideally this individual has experience interacting with school boards and community-based organizations.

Registrar
The *Registrar* is responsible for maintaining student records, processing student enrollment, transfers, and withdrawals for the campus. The HCCS Registrar has a high school diploma and 2 years' experience as a Registrar or Office Assistant.

Site Secretary
The *Site Secretary* performs a variety of complex technical and secretarial duties, coordinates the work flow of the school office, provides information and assistance to students, faculty, administrators, staff, and school visitors, and performs public relations and communication services as assigned. At a minimum, the Site secretary is required to have two (2) years secretarial and/or clerical experience, one year of secretarial and/or clerical experience within an educational organization, and an associate degree or higher from an accredited college or university.

Operational Division

The Operational Division at Highlands Community Charter School is fundamental in ensuring that we are able to continuously improve and strategically manage the environment in which effective teaching and learning takes place. Our Operational Division provides support and mobilizes resources schoolwide to ensure efficient planning, application and optimum use of school resources. The HCCS Operations Division provides hands-on support with all aspects of school operations, giving all of HCCS the confidence to move forward with our vision and mission. As such, HCCS screens and hires highly qualified staff for our Operational Division who, under the direction of the Chief Operations Officer, meet the minimum specified qualifications outlined below.

Directors
At Highlands Community Charter School, we understand the vital contributions our Operational Directors make through the leadership they provide. Our Operational Directors exercise this leadership by tirelessly striving to reach our long-term vision of eradicating educational inequality and promoting student achievement through planning, policy setting, advocacy, and monitoring performance to effectively hold HCCS staff accountable to achieving the goals set in our mission so that each and every student succeeds.

Director of Marketing and Communications
The *Director of Marketing and Communications* is responsible for the overall public communications of HCCS. This includes, but is not limited to, planning, directing, and coordinating the internal and external communications to and from the governing board of directors, and with the public, administration, faculty, and staff. Our Director of Marketing and Communications possesses, at a minimum, any combination equivalent to graduation from a 4-year accredited college with specialization in journalism, English or public relations plus experience in public relations management, public information, public affairs or similar occupations. In this position, the Director of Marketing and Communications has progressively responsible experience, preferably in a supervisory or administrative capacity, conducting complex

research and/or media analysis in a major media market with prior on-camera media experience preferred.

Supervisors
Our Supervisors play a key role in helping us reach our mission by setting goals for performance, allocating work, monitoring productivity and compliance, providing leadership, building teamwork, and ensuring workforce involvement.

General Services Supervisor
At HCCS our *General Services Supervisor* plans, organizes, directs, administers, reviews, and evaluates schoolwide facilities, maintenance, operations, and purchasing. This position must also supervise warehouse programs and services encompassing facilities planning, construction and maintenance, hazardous materials management, safety management, property management, architectural services, custodial, grounds maintenance, purchasing/warehouse, and general operational services. In this position, the General Services Supervisor exercises independent authority within the scope of responsibilities. This scope includes supervising appropriate staff working in facilities, maintenance, operations, and purchasing/warehouse. The General Services Supervisor acts as a liaison with other HCCS department directors and various city, county, state, and federal agencies in relation to the facilities, maintenance, operations, and purchasing/warehouse activities at HCCS. The qualifications of our General Services Supervisor include an understanding of principles, methods, and practices of school planning, organization, and direction of custodial operations and facilities planning as well as maintenance and purchasing/warehouse service. In this position they are also qualified to complete budget preparation and control, policies, practices, and procedures pertaining to the maintenance, repair, and operation of building complexes. Knowledge of applicable health and safety regulations, equipment, materials, and supplies used in educational settings are also critical. Additionally, the General Services Supervisor is involved with contract management and administration, both oral and written communication, principles and practices of administration, supervision, training, interpersonal skills, patience, and courtesy. Minimum qualifications include experience with computers and assigned software, environmental, health, and safety knowledge, and knowledge related to the regulation of employees, buildings, and property, technical knowledge, preventive maintenance, materials, equipment, and procedures used in various building construction trades and custodial and grounds service operations.

Independent Studies ("IS") Supervisor
The Highlands Community Charter School *Independent Studies Supervisor* is responsible for all programs that are aligned to an Independent Studies instructional model, including program compliance including attendance, CALPADS reporting, instructional assignment, charter petition, and charter renewal. WASC accreditation, campus/facility management, and fiscal compliance are all conditions to successfully fulfilling the job. The IS Supervisor has the ability to coordinate and manage the Independent Studies program. This is a classified administrative position that supervises the program on a variety of HCCS campuses and is part of HCCS's high school diploma program. The HCCS Independent Studies Supervisor should possess a BS or BA degree from a recognized college institution in Liberal Studies, Business Administration, or a degree of a similar nature that is in alignment to the job of being an Independent Studies Supervisor. Background knowledge of Independent Study and its components related to State and local measures for accountability are essential. The Independent Studies Supervisor must have a thorough knowledge of school SIS (Student Identification Systems, i.e. Powerschool) and its use for guiding Independent Studies as well as the ability to function independently and effectively. In this position it is essential to meet critical timelines and reporting timelines associated with Independent Study. This person must also have the ability to use technology effectively with regards to communication, record keeping, staff presentations, fiscal accountability, or stated mandated compliance associated with Independent Studies. The IS Supervisor must possess the ability to prepare and lead presentations with staff,

administration, community stakeholders, and the Board of Trustees for HCCS as well as a thorough understanding of the compliance regulations governing Independent Studies as a recognized educational alternative. It is also essential for this position to have a thorough knowledge of CALPADS and its use for Independent Study tracking, including student demographics, course completions, and student status toward diploma success. The IS Supervisor can communicate effectively and clearly both orally and in writing with a diverse staff and student population, has a proven track record of leadership practices associated to classified and certificated staff, understands and is prepared to produce all documentation necessary to perform and complete annual audit requirements associated with Independent Study.

Business Services Supervisor
The *Business Services Supervisor* is responsible for all areas relating to accounting, developing and maintaining accounting principles, practices, and procedures to ensure accurate and timely financial statements. Our Business Services Supervisor performs a variety of accounting duties in the processing of payroll, accounts payable, accounts receivable, and purchasing and is qualified through a strong understanding of accounting theory and generally accepted accounting principles. The Business Services Supervisor has a proven work ethic and possesses a can-do attitude and ability to meet assigned deadlines. This person is proficient in Microsoft Excel, Microsoft Office, email systems, and has the ability to communicate with a diverse group of people on a daily basis. Preferable qualifications include 6-8 years accounting/finance experience, specifically within a public or school district setting.

Career Services Supervisor
Our *Career Services Supervisor* assists all students and alumni in the development of career technical education, career identification, job search, and employment opportunities. In addition, the HCCS Career Services Supervisor continually works to expand the scope of services through the implementation of data-driven workshops and the utilization of various internal and external resources. The Career Services Supervisor also aims to accomplish organizational objectives by managing staff and seeking professional development. Our Career Services Supervisor is qualified through experience in planning, organizing, monitoring, implementing, and supporting career services, work experience, and supplementary instruction programs. The Career Services Supervisor also supervises the performance of assigned personnel and communicates effectively both orally and in writing, interpreting, applying, explaining rules, regulations, policies, and procedures. This person is responsible for establishing and maintaining cooperative and effective working relationships, analyzing situations accurately and adopting effective course of actions, meeting schedules and timelines, working independently with little direction, preparing comprehensive narrative and statistical reports, directing the maintenance of a variety of reports and files related to assigned activities, and maintaining consistent, punctual and regular attendance.

Administrative/Office Assistants Supervisor
HCCS employs an *Administrative/Office Assistants Supervisor* who plans, organizes and supervises the activities of assigned administrative and office assistants sections within the established office and school sites as directed. The Administrative/Office Assistants Supervisor is responsible for the maintenance of records, reports, and student filing procedures and analyzes assigned projects. The Administrative Supervisor supervises, reviews, and assigns project functions to administrative staff. At a minimum, the Administrative Office Assistants Supervisor possesses an associate degree or equivalent combination of experience, training, and education with prior experience. Experience working in a school setting preferred, and is bilingual, preferably in one or more of the following languages: Spanish, Farsi, or Slavic dialects.

Managers
Managers at HCCS contribute to the achievement of our mission by arranging various factors of the organization. Managers effectively allocate and integrate resources while motivating HCCS staff in their

departments. They also negotiate for resources and other support, providing the assurance that staff and students at Highlands Community Charter School are able to achieve the goals set out in our mission and schoolwide learner outcomes.

Facilities Manager
The *Facilities Manager* coordinates, schedules, and monitors use of school facilities for academic and/or nonacademic events organized by HCCS and the community. The Facilities Manager also performs a variety of logistics support duties such as arranging for space, energy and lighting, staffing and security, food services, and clean-up. The Facilities Manager also prepares specialized records, contracts, and reports for facility use and coordinates with partnering schools to assist in classroom and teacher needs facilitation, and provides a variety of logistics, contracting, and support to scheduling offering school site campuses facilities for use. The position requires a high school diploma or equivalent plus four years of progressively responsible experience in an event or facilities planning environment, an Associate's degree in business, program administration, or equivalent is preferred and may substitute for some experience

IT Manager
Our *IT Manager* maintains and expands our computer networks, manages the WAN, LAN, SAN and EDI computer platforms, while looking for ways to grow our networks in a cost-effective way to meet future needs. The IT Manager is responsible for developing network maintenance and growth plans, creating annual and project budgets, managing the IT staff, and keeping the executive team up to date on the latest networking technologies that could help the Highlands Community Charter School to succeed. At a minimum, the IT Manager possesses a bachelor's degree in Computer Science or related field and 5+ years of experience in information technology management

Operational Specialists
As part of our ongoing and growing efforts to support our operational team and in order to ensure students are receiving the highest quality instruction and support HCCS can provide, we employ specialists to support school instruction and operations. Each operational specialist candidate possesses the necessary education and professional experience related to their field of specialty to qualify them for the duties and responsibilities of the position. Our specialist positions and qualifications are as follows:

Transition Specialists
Transition Specialists at Highlands Community Charter School provide transition and employment services to students and qualified California State and Sacramento County ex-offenders; assist participants with enrollment, making appointments, telephone calls, writing letters and filing forms; and provide individual job development, placement assistance, job coaching, follow-along, and follow-up services. Our Transition Specialists are qualified with one (1) year of experience in career advising and/or job development or closely related field is required, an associate degree or higher from an accredited college or university, evidence of the ability to type 30 wpm, preferably with experience working with students and/or adults with special needs.

Data Specialist
The *Data Specialist* will be responsible for maintenance of data throughout the systems used by Highlands Community Charter School. The Data Specialist will work with employees, partner organizations, and The California Department of Education (CDE) to ensure proper usage and implementation of data systems used by HCCS. The Data Specialist will be the primary point of contact for all data-related matters for HCCS, including but not limited to audits, CALPADS, and Principle Apportionments. This job requires someone who possesses high attention to detail, good judgment, efficient execution, is highly reliable, and has the ability to quickly learn and implement new technology. The minimum qualifications for this position

are an understanding of how to manage a database, proven ability to develop scripts and software, strong problem solving skills, and effective communication skills.

Maintenance Specialist
The *Maintenance Specialist* performs inspections, maintenance, and repairs to ensure that all students, staff, and the community are provided a safe, attractive, clean, and healthy environment for learning and work. The Maintenance Specialist minimum requirements include a high school diploma and certificates pertaining to the trade; holds a license for the type of equipment to be driven, with no serious violations, demonstrates knowledge, a minimum of three years of experience, and proficiency in several areas of maintenance (e.g., plumbing, painting, carpentry, masonry/concrete/tile, window glazing, electrical, mechanical, HVAC systems, roof repair, plastering/spackling, field/playground maintenance, furniture repair, and small engine repair); has excellent integrity and demonstrates good moral character and initiative; exhibits a personality that demonstrates interpersonal skills to relate well with students, staff, administration, and the community; and demonstrates the ability to communicate effectively in English, using proper grammar and vocabulary.

Social Media Specialist
The *Social Media Specialist* position performs professional-level marketing/public relations/social media duties that align with HCCS goals and objectives for student achievement. The Social Media Specialist also actively participates in the creation, design, and production of HCCS publications and manages and develops content for our website and social media. Our Social Media Specialist is a self-starter who thrives in a fast-paced team, has strong organizational skills and enjoys problem solving. Ideally, the Social Media Specialist has a bachelor's degree from an accredited college or university in a field related to marketing, advertising, public relations or communications, five (5) years of experience performing communications/marketing/public relations at the professional level, and has experience in a diverse public education setting. The Social Media Specialist is preferably bilingual in English and 1 other language.

Generalists
HCCS employs ‘Generalists’ who have a diversity of skills and abilities in which they excel and whose knowledge is dispersed over a wide range of subjects. We recognize the value of members of our team being able to see deeper inside this interconnectedness of instruction, operations, and students services and find solutions that help us reach our mission.

Human Resources Generalist
The *Human Resources Generalist* assists managers and supervisors with the interpretation and routine application of District policies, procedures, and appropriate Memorandum of Understanding pertaining to Human Resources. Our Human Resources Generalist responds to requests for documentation related to human resources and risk management activities; assists employees and departments with the interpretation of personnel related procedures; works with hiring authorities to perform all aspects of the recruitment and hiring process including developing and posting jobs; job announcements, reviews and screens applications; and develops and administers appropriate selection tools while maintaining eligibility lists and fingerprinting. We require that our Human Resources Generalist possesses the equivalent to an Associate's degree in Human Resource Management, Business Administration, Labor Relations or Organizational Leadership and two (2) years increasingly responsible experience performing human resource functions, payroll, or other administrative clerical, financial and/ or statistical record keeping that can be directly related to the essential duties and responsibilities of the classification of Human Resources Specialist. A Bachelor's degree in Human Resource Management, Labor Relations or Organizational Leadership may substitute for the experience requirement. A Bachelor's Degree in one of the relevant fields or a specialized certificate in Labor Relations or Human Resource Management is desirable.

Purchasing Generalist
HCCS employs a *Purchasing Generalist* who has experience with accounts payable, purchasing, general accounting principles, and travel reimbursement processing. Our Purchasing Generalist has excellent organizational and analytical skills to assume general assignments and independently follow through to successful completion; strong interpersonal and oral communication skills to effectively and professionally communicate in person and on the telephone, and give directions to a diverse group of people including faculty, staff, and students; excellent communication skills (oral, written, and interpersonal) to effectively interpret instructions and interact with a wide variety of people in a helpful, effective, and informative manner using tact and diplomacy. The HCCS Purchasing Generalist has demonstrated skills to interpret policies, procedures and requirements and apply to processes and procedures related to research, teaching, the department, school and university; elicit information needed to clarify inquiries and requests; demonstrated computer skills utilizing Microsoft Word, Excel, PowerPoint, Outlook, and Adobe Acrobat, and excellent mathematical skills to accurately complete assigned budgetary, accounting and purchasing tasks bookkeeping, and controlled documents. It is the responsibility of the Purchasing Generalist to track all orders & receipt of goods and work with vendors to resolve any issues or returns, monitor all purchase orders, maintain and use a purchasing card in compliance with HCCS policies and procedures, keep an accurate log, reconcile monthly statements, keep an inventory of goods and distribute goods as requested/needed, provide timely turn-around on all requisitions and purchase orders throughout school, maintain procurement documents in a retrievable manner, maintain useful and up-to-date information relative to the procurement area that may affect centralization or good business practices, confirm that all submitted documentation is accurate and complete, review site policies, operation procedures, work instructions and forms for format consistency, and review documents and written external communication for format, consistency, and compliance with existing procedures. The minimum qualifications for this position include, any equivalent combination of training and experience which provides the required skills, knowledge, and abilities may be considered qualifying at the sole discretion of HCCS, equivalent to an Associate's degree, Trade or Technical School, two (2) years of experience in the purchase of specialized operations of equipment, technical services, or equivalent combination of education and experience, competent with MS excel based and other purchasing systems, and knowledge and skills equivalent to completion of two years of college.

Liaisons
Liaisons at HCCS are an integral part of the positive connections and partnerships we make in the community. HCCS Liaisons aid our communication with the community, prospective partners, former students, and the like to ensure our students, past and present, are connected to what they need.

Community Development Liaisons
Community Development Liaisons at HCCS develop and maintain partnership arrangements with private, public, and voluntary sectors and the local communities to meet the service needs and operations of HCCS. The Community Development Liaisons work consistently to ensure continuous local development and that all associated processes are accurate, professional, and consistent at all times. Community Development Liaisons contribute to the overall success of HCCS in accordance with our schoolwide learning outcomes, mission, and vision by providing seamless service to clients. Our Community Development Liaisons qualify through work experience in a multicultural environment. They have excellent customer skills with meticulous attention to detail, proven ability to prioritize and work on their own initiative whilst respecting boundaries, excellent networking, and promotional skills, good IT skills, particularly MS Office. Community Development Liaisons have the ability to communicate with a diverse group of people on a daily basis, preferably with experience in community development.

Student Engagement Liaison
The *Student Engagement Liaison* works with students to promote and enhance attendance. The purpose is to determine the cause of student absences and to provide assistance to students to enhance school attendance. The Student Engagement Liaison must have an associate degree or equivalent combination of experience, training, and education with prior experience working in a school setting and be bilingual in a language other than English, preferably in *Spanish, Farsi, Slavic* dialects.

Administrative Support Team
The administrative support team at HCCS is essential in supporting the daily operations of all HCCS sites. With the support of members of this team, staff in all divisions are better able to serve our students and our mission.

Data Technician
The *Data Technician* assists the Data Specialist in maintaining data throughout the systems used by HCCS. The Data Technician provides technical assistance and prepares complex reports and information for the use by HCCS personnel, partner organizations, and the California Department of Education. Data Technicians are highly reliable and have high attention to detail, good judgment, efficient execution, and the ability to learn quickly and implement new technology. At a minimum, Data Technicians should have a high school diploma and an associate/bachelor's degree in an analytical field or at least 2+ years of experience with data systems and/or Student Information Systems, including experience with CALPADS.

Information Technology Technicians
The *Information Technology Technicians* install, configure, update, maintain, and repair computer and microcomputer workstations, network peripherals, and communication systems as well as instruct and coordinate with personnel and perform related and non-related work as required. The position requires a minimum of 2 years recent experience in the computer/technology equipment maintenance field. An Associate's degree in computer science or related technical field is highly desirable.

Custodians
HCCS *Custodians* perform custodial cleaning and replenishment of dispensers for school sites, multi-use, offices, surrounding grounds, and related facilities. In addition to demonstrating the competencies and abilities required of the position, Custodians must work cooperatively and productively with the staff, students, and facility users. Our Custodians are required to have a basic knowledge of the methods, materials, tools, and equipment used in custodial and facility care and cleaning. They should also understand work hazards and safe work techniques, including lifting procedures, chemical reactions and proper safety precautions for use of cleaning substances, and building repairs. Custodians need sufficient reading and writing abilities to read work instructions and document work activity onto standardized forms and sufficient human relations skill to exercise courtesy when dealing with others.

Administrative Assistant II
Administrative Assistant II staff perform highly technical and complex tasks, facilitate and expedite work, and perform other related duties as required. Administrative Assistant II staff serve as assistants to management with responsibility over a division. All of their duties and responsibilities require a high level of initiative and independent decision-making. At a minimum, Administrative Assistant II staff possess four years of increasingly responsible full-time experience at a level comparable to a school secretary or higher is required or two years as an Administrative Assistant I in a School District and the ability to communicate with a diverse group of people on a daily basis.

Administrative Assistant I

Administrative Assistant I serve as assistants to school administrators and perform complex and highly specialized secretarial and administrative support duties; relieve executive staff of clerical and administrative details; plan, organize, and coordinate office activities, provide administrative details and communication. Administrative Assistant I have experience in the operations, principles, practices, procedures, rules, and methods of the district and assigned office or division, the operation of a computer and assigned software, modern office methods and equipment, computers and application software, accurate record-keeping techniques, correct English usage, grammar, spelling, punctuation and vocabulary, using receptionist and telephone techniques, district organization, operations, policies and objectives, interpret and apply legal mandates, policies, rules and regulations, and operational procedures pertaining to school operation. Administrative Assistant I are able to effectively and efficiently operate computer terminals and computers and utilize application software, compose correspondence independently, establish and maintain comprehensive and accurate files and records and prepare concise and complete reports as required, type 50 words per minute, make mathematical calculations with speed and accuracy, understand and carry out oral and written directions, communicate both orally and in writing in a clear and concise manner, apply policies and procedures related to the assigned duties and responsibilities of the position, establish and maintain cooperative and effective working relationships, and work with discretion and in confidence with student and staff information.

Office Assistants

Office Assistants perform varied secretarial and clerical work functions in support of daily operations. Qualifications include the ability to learn and apply policies, regulations and operational procedures, effectively and efficiently operate computers, utilize application software, establish and maintain comprehensive and accurate files and records, prepare concise and complete reports as required, type 40 words per minute, make mathematical calculations with speed and accuracy, understand and carry out oral and written directions, communicate both orally and in writing in a clear and concise manner, apply policies and procedures related to the assigned duties and responsibilities of the position, establish and maintain cooperative and effective working relationships, work independently with little direction, meet schedules and timelines, compose documents and correspondence, use appropriate spelling, grammar, and punctuation. Office Assistants must also perform correspondence and report writing, use automated record management and filing systems, and telephone techniques. Office Assistants are familiar with modern office practices and procedures including methods and equipment, computers, assigned software, district organization, operations, policies and objectives.

Element 6: Health and Safety Procedures

The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall require all of the following

(i) That each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237.

(ii) For all schools, the development of a school safety plan, which shall include the safety topics listed in subparagraphs (A) to (M), inclusive of paragraph (2)of subdivision (a)of Section 32282. For schools serving pupils in any of grades 7 to 12, inclusive, the development of a school safety plan shall also include the safety topic listed in subparagraph (N) of paragraph (2) of subdivision (a) of Section 32282.

(iii) That the school safety plan be reviewed and updated by March 1 of every year by the charter school. **(Ed. Code § 47605(c)(5)(F).)**

6.1: Custodian of Records

HCCS Community Charter School designates the Executive Director to serve as the Charter School's Custodian of Records per California Department of Justice requirements. The Executive Director is confirmed as the Custodian of Records by the California Department of Justice.

6.2: Promoting Student Health and Wellness

HCCS will ensure the safety of the students and staff by complying with all applicable state and federal safety laws. HCCS shall adhere to Board policies pertaining to the safety and health of all employees and students.

Health, Wellness, and Nutrition

HCCS' Health curriculum reflects the California Health Education Content Standards and teaches students about a fit and healthy lifestyle. Because of the diverse cultural backgrounds we serve, it is essential that we put great effort into health education in our classrooms to address the varying and culturally unique health education needs of each student. Many of our students need help navigating and utilizing community resources available to them to access basic health knowledge for developing a healthy lifestyle. Our teachers proudly emphasize health education for our students while our Student Support Services staff continually evaluate and address the needs of our students.

Social and Emotional Support and Guidance

Teachers, counselors, and all other staff who interact with students listen, support, empathize, and guide students towards healthy social and emotional development. Being open-minded, trustworthy, and respectful of our students is imperative to the social and emotional well-being. HCCS also makes every effort possible to identify students in need of mental health services and to make community resource connections with community mental health organizations to offer additional support and services.

Academic, College, and Career Counseling

Counselors meet with students one-on-one throughout the school year to discuss academic progress and set SMART goals (specific, measurable, attainable, relevant, and timely). ELD students also meet with ELD Navigators in groups and individually to discuss general academic topics such as graduation requirements and promotion goals. Counselors offer college and career counseling through individual and group sessions.

Community Partners, Resources, and Referrals

We partner with a variety of community agencies to assist us in meeting our students' and families' varying needs from housing, financial, legal, and immigration services to medical and dental clinics. Our partners include International Refugee Committee ("IRC"), Asian Resources, Inc. ("ARI"), Lao Family Community Development, Greater Sacramento Urban League, La Familia Counseling Center, Inc., to name a few.

Background Checks
HCCS certifies that criminal record summary information has been obtained for all staff prior to employment. Classified staff submit fingerprints to a California and multi-state Live Scan prior to employment. The multi-state search should ensure all convictions are reported. Furthermore, HCCS shall comply with the applicable state and federal laws regarding the fingerprinting and background clearance of employees, contractors, and volunteers prior to engaging in employment, volunteerism, or contract services or any other unsupervised contact with students of the Charter School. The Charter School shall not hire any person, in either a certificated or classified position, who has been convicted of a violent or serious felony except as otherwise provided by the law, pursuant to Education Code Sections 44830.1 and 45122.1. The HCCS Executive Director or appointed confidential designee shall review California Department of Justice and Federal Bureau of Investigation reports on prospective employees, contractors, and volunteers to determine whether an individual may provide service within the Charter School, except with respect to reports relative to her or himself, in which case a confirmed member of the Board or appointed confidential designee will review the respective report. The Executive Director or appointed confidential designee shall monitor compliance with this policy on a continuous and ongoing basis.

Mandated Child Abuse Reporting
In accordance with Education Code Section 44691 all HCCS employees are mandated child abuse reporters and will follow all applicable reporting laws. HCCS provides all employees, and other persons working on behalf of HCCS who are mandated reporters, with annual training on child abuse detection and reporting, which shall occur within the first six weeks of each school year, or within the first six weeks of a person's employment if employed after the beginning of the school year.

Tuberculosis (TB) Risk Assessment and Examination
HCCS shall adhere to existing state laws regarding tuberculosis screening of employees, including Education Code Section 49406**.** HCCS requires a tuberculosis risk assessment and, if necessary, examination for all employees working in direct contact with students prior to commencing employment and working with students, and for employees at least once each four years thereafter**,** in accordance with Education Code Section 49406. Highlands Community Charter School certifies that applicable health record information has been obtained for all relevant employees and volunteers prior to initial employment.

Immunizations
HCCS adheres to all applicable laws and existing Board policy related to legally required immunizations and health related issues for both employees and entering students at HCCS.

CPR/First Aid Training
All designated employees are CPR and First Aid trained as part of internal practice.

Medication in School
The Charter School will adhere to Education Code Section 49423 regarding administration of medication in school. The Charter School will adhere to Education Code Section 49414 regarding epinephrine auto-injectors and training for staff members; per AB 1651 (2023), the Charter School shall store emergency epinephrine auto-injectors in an accessible location upon need for emergency use and include that location in annual notices required by law. To the extent the Charter School maintains a stock of albuterol

inhalers to respond to respiratory distress in students, the Charter School shall comply with the requirements of Education Code Section 49414.7, including with respect to training, notices, and the stocking of albuterol inhalers.

Diabetes

The Charter School shall make type 1 diabetes informational materials accessible to the parent or guardian of a pupil when the pupil is first enrolled in elementary school.

Vision, Hearing, and Scoliosis

Students will be screened for vision, hearing, and scoliosis. The Charter School will adhere to Education Code Section 49450 et seq. as applicable to the grade levels served by the Charter School.

Suicide Prevention Policy

The Charter School shall maintain a policy on student suicide prevention in accordance with Education Code Section 215. The Charter School shall review, at minimum every fifth year, its policy on pupil suicide prevention and, if necessary, update its policy. Pursuant to AB 58 (2021-22), the Charter School will also review and update its suicide prevention policy to incorporate best practices identified by the California Department of Education's model policy, as revised.

Prevention of Human Trafficking

In accordance with Education Code section 49381, the Charter School shall provide accessible information on human trafficking prevention resources for our adult learners, as well as parents and guardians of students in grades 6-12 in accordance with EC 49381.

Menstrual Products

The Charter School shall stock the school's restrooms at all times with an adequate supply of menstrual products, available and accessible, free of cost, in all women's restrooms and all-gender restrooms, and in at least one men's restroom. The Charter School shall post a notice regarding the requirements of Education Code Section 35292.6 in a prominent and conspicuous location in every restroom required to stock menstrual products, as specified. This notice shall include the text of Education Code Section 35292.6 and contact information, including an email address and telephone number, for a designated individual responsible for maintaining the requisite supply of menstrual products.

All Gender Restrooms

In accordance with Education Code Section 35292.5, on or before July 1, 2026, the Charter School shall provide and maintain at least one all-gender restroom for voluntary student use at each of its schoolsites that has more than one female restroom and more than one male restroom designated exclusively for student use. The restroom shall have signage identifying the bathroom as being open to all genders, it shall remain unlocked, unobstructed, and easily accessible by any student, and be available during school hours and school functions when students are present. The Charter School shall designate a staff member to serve as a point of contact and to post a notice regarding these requirements.

School Meals

The Charter School shall provide breakfast and lunch free of charge during each school day to any pupil who requests a meal without consideration of the pupil's eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period. The meals provided under this paragraph shall be nutritionally adequate meals that qualify for federal reimbursement.

The Charter School shall provide each student adequate time to eat as determined by the Charter School in

consideration of available guidance.

Recess
Except where a field trip or other educational program is taking place, if the Charter School provides recess, to the extent required by Education Code Section 49056, the Charter School shall provide supervised and unstructured recess, distinct from physical education courses and mealtimes, of at least 30 minutes on regular instructional days and at least 15 minutes on early release days. The Charter School shall not restrict a student's recess unless there is an immediate threat to the physical safety of the student or one or more of their peers.

California Healthy Youth Act
The Charter School shall teach sexual health education and human immunodeficiency virus prevention education to students in grade 12, at least once in high school, pursuant to the California Healthy Youth Act (Education Code Section 51930, *et seq.*).

Mental Health Education
If the Charter School offers one or more courses in health education to students in high school, the Charter School shall include in those courses instruction in mental health that meets the requirements of Education Code Section 51925, *et seq.*

Mental Health Information
The Charter School shall create and post a poster at the schoolsite identifying approaches and resources addressing student health in compliance with Education Code Section 49428.5. The poster shall be displayed in English and the primary language(s) spoken by 15 percent or more of the students enrolled at the schoolsite. The poster shall be prominently and conspicuously displayed in appropriate public areas that are accessible to, and commonly frequented by, students at the schoolsite. The poster shall also be digitized and distributed online to students through social media, internet websites, portals, and learning platforms at the beginning of each school year.

Workplace Violence Prevention Plan
The Charter School shall establish, implement, and maintain, at all times in all work areas, an effective workplace violence prevention plan consistent with the requirements of Labor Code Section 6401.9.

Comprehensive School Safety Plan
The Charter School shall adopt a Comprehensive School Safety Plan, to be reviewed and updated by March 1 of every year, which shall include, but not be limited to: (1) an assessment of the current status of school crime committed on Charter School facilities and at Charter School-related functions; and (2) identifying appropriate strategies and programs that will provide or maintain a high level of school safety and address the Charter School's procedures for complying with applicable laws related to school safety, which shall include the development of all of the following pursuant to Education Code Section 32282(a)(2)(A)-(O):

a. child abuse reporting procedures
b. routine and emergency disaster procedures
c. policies for students who committed an act under Section 48915 and other Charter School-designated serious acts leading to suspension, expulsion, or mandatory expulsion recommendations
d. procedures to notify teachers of dangerous students pursuant to Education Code Section 49079
e. a discrimination and harassment policy consistent with Education Code Section 200
f. provisions of any schoolwide dress code that prohibits students from wearing "gang-related

apparel," if applicable
g. procedures for safe ingress and egress of pupils, parents, and employees to and from the Charter School
h. a safe and orderly environment conductive to learning
i. the rules and procedures on Charter School discipline adopted pursuant to Education Code Sections 35291, 35291.5, and 47605
j. procedures for conducting tactical responses to criminal incidents
k. procedures to prepare for active shooters or other armed assailants by conducting a drill, if this topic is covered in the School Safety Plan
l. procedures to assess and respond to reports of any dangerous, violent, or unlawful activity that is being conducted or threatened to be conducted at the school, at an activity sponsored by the school, or on a schoolbus serving the school
m. procedures to respond to incidents involving an individual experiencing a sudden cardiac arrest or a similar life-threatening medical emergency while on school grounds
n. a protocol in the event a pupil is suffering or is reasonably believed to be suffering from an opioid overdose
o. Each comprehensive school safety plan shall contain procedures to notify pupils, parents and guardians of pupils, teachers, administrators, and school personnel when the school confirms the presence of immigration enforcement at any schoolsite. If a previously adopted school safety plan does not contain this information it shall be included at the next review, but no later than March 1, 2026.

Emergency Preparedness

Highlands Community Charter School's shall adhere to an Emergency Preparedness Handbook drafted specifically to the needs of the facility in conjunction with law enforcement and the Fire Marshal. This handbook shall include, but not be limited to the following responses: fire, flood, earthquake, terrorist threats, and hostage situations. If assuming a facility that was previously used as a school site, any existing emergency preparedness plan for the school site shall be used as a starting basis for updating the handbook for the Charter School.

Staff shall receive training in emergency response, including appropriate "first responder" training or its equivalent.

Disaster procedures included in the School Safety Plan shall address and include adaptations for students with disabilities. To the extent an employee, parent/guardian, educational rights holder, or student brings concerns regarding the procedures to the Site Administrator and, if there is merit to the concern, the Site Administrator shall direct the School Safety Plan to be modified accordingly.

Bloodborne Pathogens

Highlands Community Charter School adheres to state and federal standards for dealing with blood borne pathogens and other potentially infectious materials in the workplace. HCCS maintains a written infectious control plan designed to protect employees and students from possible infection due to contact with blood borne viruses, including HIV and hepatitis B virus (HBV). This plan includes the training of staff and is included in the Charter School's Comprehensive School Safety Plan. Whenever exposed to blood or other bodily fluids through injury or accident, staff and students will be directed to follow the latest medical protocol for disinfecting and waste disposal procedures.

Drug Free/Alcohol Free/Smoke Free Environment

HCCS maintains a drug, alcohol, and smoke-free environment (workplace and campus).

Integrated Complaint and Investigation Procedure

HCCS shall utilize a complaint and investigation procedure to centralize all complaints and concerns coming into the Charter School. Under the direction of the Board, the Executive Director shall be responsible for investigation, remediation, and follow-up on matters submitted through this procedure. All issues not resolved by the school site may be resolved at the executive level.

Discrimination and Harassment Policies and Procedures

HCCS is committed to providing a charter school free of discrimination and sexual harassment. There are three components to this commitment. All employees receive and sign an employee handbook annually that informs them of HCCS' sexual harassment policy. Additional site-based sexual harassment training is taught to all staff, and annual training is facilitated through "Safe Schools" an online program. HCCS is also committed to providing a workplace free of discrimination and any harassment based upon the real or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, immigration status, nationality, national origin, ancestry, ethnic group identification, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medial are leave,, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance, or regulation. HCCS uses policies adopted by the Board regarding discrimination harassment (including employee to employee, employee to student, student to employee, and student to student misconduct). Misconduct of this nature is very serious and will be addressed in accordance with Board policies. Any complaint of unlawful harassment, discrimination, or sexual harassment, is actively investigated by HCCS, to include, where appropriate, the retention of outside investigators, in accordance with the Charter School's Uniform Complaint Procedure.

A copy of the policy shall be provided as part of any orientation program conducted for new and continuing pupils at the beginning of each quarter, semester, or summer session, as applicable, and to each faculty member, all members of the administrative staff, and all members of the support staff at the beginning of the first quarter or semester of the school year, or at the time that there is a new employee hired. The Charter School shall create a poster that notifies students of the applicable policy on sexual harassment in accordance with Education Code Section 231.6, and shall prominently and conspicuously display the poster in each bathroom and locker at the schoolsite and in public areas at the schoolsite that are accessible to, and commonly frequented by, pupils.

School Facility Safety

Highlands Community Charter School complies with Education Code 47610 by either utilizing facilities that are compliant with the Field Act or facilities that are compliant with the California Building

Standards Code. HCCS adheres to laws specific to charter schools on the local and state level regarding facilities. HCCS agrees to test sprinkler systems, fire extinguishers, and fire alarms annually at its facilities to ensure that they are maintained in an operable condition at all times.

Bullying Prevention

The Charter School shall adopt procedures for preventing acts of bullying, including cyberbullying. The Charter School shall annually make available the online training module developed by the CDE pursuant to Education Code Section 32283.5(a) to certificated schoolsite employees and all other schoolsite employees who have regular interaction with children.

Supporting LGBTQ Students

Through the completion of the 2029-30 school year, the charter school shall use an online training delivery platform and curriculum at least one hour of required LGBTQ cultural competency training annually to teachers and other certificated employees and maintain records of such training as required by Education Code Section 218.

SAFETY Act

Pursuant to AB 1955 (2024), employees of the Charter School shall not be required to disclose any information related to a pupil's LGBTQ+ identity to any other person without the pupil's consent unless otherwise required by state or federal law. This provision shall not limit a parent's ability to request school records on behalf of their child.

Homicide Threats

The Charter School shall comply with all requirements under Education Code Sections 49390-49395 regarding mandatory reporting in response to homicidal threats. All employees and Board members who are alerted to or who observe any threat or perceived threat in writing or through an action or a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity shall make a report to law enforcement.

Gun Safety Notice

The Charter School shall comply with requirements of Education Code section 49392 to annually provide information about the safe storage of fire arms. Annually at the beginning of the first semester, the Charter School shall distribute a notice to each student addressing California's child gun access prevention laws and laws related to firearm safety, utilizing the most updated model language published by the California Department of Education.

Athletic Programs

The Charter School shall comply with all applicable laws related to health and safety policies and procedures surrounding athletic programs at charter schools, including but not limited to providing information to athletes regarding sudden cardiac arrest and annually providing each athlete an Opioid Factsheet for Patients.

Transportation Services

The Charter Schol shall comply with the requirements of Education Code Section 39875(c), if applicable, relating to background checks and testing for individuals providing transportation services to students.

Extreme Weather Policy

In accordance with Education Code section 33355, on or before July 1, 2026, the Charter School shall develop, adopt, and implement a weather policy that includes protocols for extreme weather conditions, and incorporate the standardized guidelines developed by the CDE.

SB 98, SB 495, SB 848, AB 727, AB 962, AB 772 Compliance

The Charter School safety plan and other policies of the Charter School shall comply with SB 98 (2025), SB 495 (2025), SB 848 (2025), AB 727 (2025), AB 962 (2025), and AB 772.

Title IX

HCCS complies with Education Code Section 221.61 by posting in a prominent and conspicuous location

on its web site the following information related to the federal regulations implementing Title IX of the Education Amendments of 1972:

The name and contact information of the Charter School's Title IX Coordinator, including the Title IX Coordinator's phone number and email address.

The rights of the pupil and the public and the responsibilities of the Charter School, which includes, but is not limited to, internet web links to information about those rights and responsibilities located on the website of the Office for Equal Opportunity and the U.S. Department of Education Office of Civil Rights (OCR), and the list of rights specific in Education Code Section 221.8.

A description of how to file a complaint under Title IX, which shall include all of the following:

(a) An explanation of the statute of limitations within which a complaint must be filed after an alleged incident of discrimination has occurred, and how a complaint may be filed beyond the statute of limitations.

(b) An explanation of how the complaint will be investigated and how the complainant may further pursue the complaint, including, but not limited to, web links to this information on the U.S. Department of Education OCR website.

(c) A link to the U.S. Department of Education OCR complaint form, and the contact information for the office, including the phone number and email address for the office.

Element 7: Means to Achieve Student Population Balance

The means by which the charter school will achieve a balance of racial and ethnic pupils, special education pupils, and English learner pupils, including redesignated fluent English proficient pupils, as defined by evaluation rubrics in Section 52064.5, that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted. **(Ed. Code § 47605(c)(5)(G).)**

7.1 & 7.2: Plan for Achieving and Maintaining Student Population Balance & How to Reach This Goal

Highlands Community Charter School strives, through recruitment and admissions practices, to achieve a racial and ethnic, special education, and English Learner balance among its students that is reflective of the general population residing within the territorial jurisdiction of the District. HCCS will include an open enrollment policy. Students are considered for admission to the school without regard to ethnicity, national origin, gender, gender expression, gender identity, disability, sexual orientation or any of the characteristics listed in Education Code Section 220, including immigration status.

(actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics).

HCCS will implement a coordinated advertising and recruiting strategy that ensures all students are notified about the educational opportunities we offer. These efforts will be on-going, throughout the year. As HCCS is committed to serving all ethnic groups, we use various advertising techniques to recruit students from all backgrounds.

Each year HCCS conducts an analysis of enrollment trends in order to optimize our efforts to recruit and retain students. An informal designated committee, comprised of various stakeholders from the instructional, administrative, and operational sides of the school, meets regularly to discuss a problem solving plan. Using both quantitative and qualitative feedback from the previous year, the plan allows the team to work together to clearly identify enrollment trends and their root causes, determine potential solutions, and generate strategies to successfully implement and track solutions in the upcoming year. Some of valuable sources of data for this exercise come from student satisfaction surveys and non-mandatory exit interviews through which feedback is gathered.

Externally, HCCS addresses retention and attrition through the development of school-based student engagement systems and strong partnerships that support teaching, learning, and student achievement. These student engagements systems coordinate efforts to strengthen two-way communication between students and the school. Some of these systems include our ELD Navigators, Reclassification Specialist, Reading Specialist, Transition Specialist, and Student Engagement Liaison. This collaboration not only helps student relations, but also increases student achievement and hopefully retention.

HCCS will actively recruit adult students from Sacramento County that reflect a diverse student population both with regard to racial and ethnic and special education diversity, but also with regard to socio-economic diversity and English Language Learners. HCCS will implement a student recruitment strategy that includes, but is not necessarily limited to, the following elements to ensure racial and ethnic, special education, and English Learner balance of students that is reflective of the District:

- An enrollment process that is scheduled and adopted to include a timeline that allows for a broad-based recruiting and application process.
- The development of promotional and informational materials that appeal to all of the various racial and ethnic, special education, and English Learner groups represented in the County.
- Distribution of informational materials to community organizations, community religious institutions, and other organizations that serve various racial and ethnic, special education, and English Learner populations, such as the libraries, recreation centers, local businesses, middle schools, and faith based organizations.
- The appropriate development of promotional and informational materials in languages other than English to appeal to limited English proficient populations, including but not limited to Farsi, Spanish, Russian, and Arabic.
- The use of various advertising mediums that allow individuals whose first language is something other than English to obtain information relevant to programs at the school.
- Announcing enrollment and recruiting information in local newspapers, online news sources, and social media. HCCS will continue to add sources to stay current with the latest technologies and trends.
- Presentations at various multicultural events, including community fairs and events.

Element 8: Admission Requirements

Admission policies and procedures, consistent with [Educations Code Section 47605] subdivision (e). **(Ed. Code § 47605(c)(5)(H).)**

Admission Requirements

8.1: Admission and Enrollment Requirements

Highlands Community Charter School is nonsectarian in its programs, admission policies, and all other operations. HCCS shall not discriminate on the basis any protected characteristics listed in Education Code section 220, including but not limited to actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code or association with an individual who has any of the aforementioned characteristics [Ref. Education Code § 47605(e)(1)]. HCCS shall comply with all laws establishing minimum and maximum age for public school attendance in charter schools. No test or assessment shall be administered to students prior to acceptance and enrollment into HCCS. However, subsequent to acceptance, students are assessed for placement into appropriate class levels for enrollment.

HCCS admits all students who:

- wish to enroll in our academic program,
- we are legally allowed to serve,
- meet the exclusive WIOA agreement requirement of being age 22 and older, and
- submit a timely application.

Education Exclusively in Partnership with the Workforce Investment Opportunity Act (WIOA)
Per Education Code §§ 47612.1 and 47605.1 (f)(1), HCCS provides instruction exclusively in partnership with the Workforce Investment Opportunity Act of 1998 through its partnership agreement with the Greater Sacramento Urban League (GSUL) or other WIOA organization. As such, we only legally serve students who are receiving WIOA funded services and do so under the terms of a Partnership Agreement. HCCS will provide a copy of the Partnership Agreement to the District on or before July 1, 2019.

The GSUL or other WIOA service provider will provide HCCS students with the services specifically outlined in and attached hereto under "Tab 9—Workforce Agreements". HCCS will provide the District with documentation that confirms GSUL or other WIOA service provider is qualified and authorized to provide such services contemplated in the Partnership Agreement.

Not Possessing a U.S. High School Diploma
Students who have a U.S. high school diploma (also known as a "regular high school diploma") will not be admitted to Highlands Community Charter School. Students who possess a GED, CHSPE, foreign credential, or any other alternative degree that is not fully aligned with the academic standards of the State of California, may be admitted.

Student Recruitment

8.2: Recruiting Students with Low Academic Performance, Socioeconomic Disadvantages and Disabilities

Our recruitment efforts reflect our objective nature as a charter school and in no way favor or bias any demographic. When students with Individualized Education Plans ("IEP"s) enroll, it is the school's policy to collect any and all information pertaining to the student's IEP and to assess whether the IEP is transferable to a 504 plan. HCCS is committed to serving academically low-achieving and socioeconomically disadvantaged students to offer them a seamless path to success in employment, higher education, and life. HCCS serves a community where a predominant number of students in our target population qualify for free or reduced-price lunch according to federal guidelines. We are dedicated to making sure that all community members are equally aware of the alternative we are providing to students within the communities we intend to serve.

HCCS conducts student outreach activities throughout the calendar year. A variety of techniques are utilized including posters, flyers, local school visits, community-based organization visits, presentations at various multicultural events, public business tabling (sitting outside markets and other businesses that allow us to pass out flyers to the public) and various advertising, including in local English, Spanish, Farsi, and Russian publications and radio stations. All promotional materials are in various languages, including Spanish, Farsi, Russian, and Arabic, to inform non-English speaking populations about our school.

In order to ensure we attract low-achieving, economically disadvantaged, and special education students, we conduct our outreach in the surrounding communities with similar demographics. Our marketing and recruiting materials highlight that our program is available to all students with a variety of needs and backgrounds. Our recruiting teams are trained to ensure all families are notified that our program currently serves a large population of economically disadvantaged students and that we accept students regardless of past academic performance.

Lottery Preferences and Procedures

8.3: Identification and Rationale of Admission Preferences

If HCCS receives a number of applications that exceeds the number of available spaces, a single public random drawing/lottery will be used to select admitted students, with the exception of existing students, who are guaranteed admission in the following school year. The following enrollment preferences and affirmative action preferences in the case of a public random drawing shall be as follows:

1. All students currently enrolled in HCCS
2. Non-youth residents of the District; as defined by WIOA as those 22 years of age and older
3. All other applicants

At the conclusion of the public random drawing, all students who were not granted admission due to capacity shall be given the option to put their name on a waitlist according to their draw in the lottery. This waitlist will allow students the option of enrollment if an opening occurs during the current school year at their grade level. In no circumstance will the waitlist carry over to the following school year.

HCCS and the District agree to adhere to the requirements related to admission preferences as set forth in Education Code Section 47605(e)(2)(B)(i)-(iv).

In accordance with Education Code Section 47605(e)(4)(A), the Charter School shall not discourage a pupil from enrolling or seeking to enroll in the Charter School for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code Section 47605(e)(2)(B)(iii), including pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation. Similarly, in accordance with Section 47605(e)(4)(C), the Charter School shall not encourage a pupil currently attending the Charter School to disenroll from the Charter School or transfer to another school for any reason, including, but not limited to the academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code Section 47605(e)(2)(B)(iii), as listed above.

Pursuant to Education Code Section 47605(e)(4)(D), the Charter School shall post a notice developed by the CDE on the Charter School website, outlining the requirements of Section 47605(e)(4), and make this notice available to parents.

8.4: Implementation of a Public Random Drawing

Open Enrollment Period and Enrollment Procedures
Initial applications are accepted at any time during the school year. The HCCS admission process consists of the completion of both a paper-based and online student registration form and optional attendance at one of our weekly orientations.

Enrollment packets for students who are admitted also gather the following:

- Proof of Immunization
- Proof of Withdrawal from Previous School (such as transcripts)
- Proof of Not Having a U.S. high school diploma
- Home Language Survey
- Completion of Emergency Medical Information Form
- Proof of minimum age requirements, e.g. birth certificate or driver's license
- Release of records[1]
- Any forms required by the Greater Sacramento Urban League or other WIOA partner

Following the open enrollment period each year, applications are counted to determine whether the number of students who wish to attend HCCS have exceeded HCCS's capacity. In the event that this happens,

[1] In accordance with Education Code Section 47605(e)(4)(B), the Charter School shall not request a pupil's records or require a parent, guardian, or pupil to submit the pupil's records to the Charter School before enrollment.

HCCS will hold a public random drawing to determine enrollment with the exception of existing students who are guaranteed enrollment in the following school year. This public random drawing is conducted in a public setting, at a time and place (e.g., the main school site) to be made known in advance to the community. The public random drawing process will be used to determine who will be offered enrollment and the order of the waitlist.

The public shall be notified of the random drawing through written notices posted at the school campus and on our website. Applicants who have completed registration are notified of the lottery via automated and/or personal telephone calls, email notifications, and letters sent to home addresses. If there are more available seats in a grade level than there are applicants, all students who have completed registration will be offered a seat.

At the conclusion of the public random drawing, all students who were not granted admission due to capacity will be given the option to put their name on a waiting list according to their draw in the lottery. This waiting list will allow students the option of enrollment if an opening occurs during the current school year at their grade level. New students will be added to the waiting list on a first come, first served basis. If the waiting list is exhausted, then the school may hold additional random drawings.

Communicating to All Interested Parties

Applications are available digitally online on the Highlands Community Charter School website and hard copies are available at all HCCS sites. Our school advertises the open application period to the surrounding communities and also communicates the timeline, rules, and procedures for the lottery process if necessary. Typical methods for these communications include, but are not limited to, web advertising, newspaper and magazine ads, radio ads, home mailers, and fliers.

Ensuring Fair Execution of Lottery Procedures

The lottery will be coordinated by an individual designated by the Executive Director but moderated by an objective third party (usually a community leader or liaison) in a location open to the public and advertised to the school community. Given the native languages of the anticipated target community, all proceedings will be conducted in English, Spanish, Farsi, Russian, and Arabic, as needed.

The lottery is open to the public and students are encouraged to attend; however, students are not required to be present at the time of the drawing to be eligible for admission. Results are published in English, Spanish, Farsi, Russian, and Arabic, as needed. Results are mailed to all applicants and follow up phone calls are made by the designated Enrollment Team and/or school office staff.

The lottery will be made random through use of numbers assigned to each applicant. All applicant numbers will be published and provided to students before the lottery begins. When a student's number is drawn, both the number and student's name will be announced verbally, and the student will be added to a master list which will be projected for those in attendance. Once all available seats in a grade level have been filled, the designated Enrollment Team will announce to those present that all remaining applicants drawn will be placed on the waitlist for that grade level in the order that they are drawn.

Lottery Time and Location

The random public drawing (lottery) will be held in a public space in the community that is large enough to accommodate all interested students. The lottery process is open to the public. The public is notified of the random drawing through written notices posted at the school campus and on our website. The random public drawing (lottery) will be scheduled in the event that applications for enrollment exceed school capacity. The lottery will be held at a time that is determined to be convenient for the students in our school

community to attend.

Waiting List Priorities

A waiting list will be implemented when the number of applications exceeds the enrollment capacity at each grade level. In the event of a lottery, admission to the school will be offered to applicants based on the results of the public random drawing until capacity is reached. All remaining names drawn after capacity for a grade level is reached will be placed on a waiting list in the order they are drawn. New applicants who register after the lottery deadline will be offered a seat if space is available in the grade level they have applied for or added to the waitlist in the order that the application was received. As seats become available in a grade level, the student with the lowest numerical ranking will be offered that seat.

Notifying Students of a Seat Offering

Once a seat becomes available for an applicant who has the lowest numerical ranking on the waiting list, the student will be notified of acceptance within a week of the lottery by the designated Enrollment Team and/or school office staff and must accept enrollment within two weeks of notification by confirming with the school staff their intent to complete the enrollment process and/or submitting a completed enrollment packet. Any families who decline an offered seat or who fail to confirm by the deadline will lose their position to the next applicant on the waiting list. The waiting list is kept on file at the school and is valid for the duration of the school year.

Documenting the Fair Execution of Lottery and Waitlist Procedures

Copies of all registration forms, lottery results, and waiting lists are readily available for inspection at the school office. These records will be maintained by the designated Enrollment Team.

Volunteering at HCCS is not mandatory and is not a condition of admission or continued enrollment at HCCS.

Element 9: Annual Financial Audits

The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority. **(Ed. Code § 47605(c)(5)(I).)**

Annual Audit Procedures

9.1: Contracting with an Independent Auditor

An annual independent fiscal audit of the books and records of HCCS is conducted as required by Education Code Sections 47605(c)(5)(I) and 47605(m). The books and records of HCCS are kept in accordance with generally accepted accounting principles, and as required by applicable law, the audit employs generally accepted accounting procedures. The audit will be conducted in accordance with applicable provisions within the California Code of Regulations governing audits of charter schools as published in the State Controller's K-12 Audit Guide.

9.2: Completing the Audit

It is anticipated that the annual audit will be completed within six months of the close of the fiscal year. A copy of the auditor's findings will be forwarded to TRUSD, the County Superintendent of Schools, the State Controller, and to the CDE by the 15th of December of each year. The Board of Directors will receive and review each year's audit.

9.3: Selecting an Independent Auditor

The auditor will have, at a minimum, a CPA and experience with educational institution accounting requirements and practices and shall be approved by the State Controller on its published list as an educational audit provider. HCCS shall be solely responsible for all costs associated with auditing services. To the extent required under applicable federal law, the audit scope will be expanded to include items and processes specified in applicable Office of Management and Budget Circulars.

9.4: Administering the Resolution Process

The HCCS audit committee will review any audit exceptions or deficiencies and then report to the Board of Directors with recommendations on how to resolve them. The Board will submit a report to TRUSD describing how the exceptions and deficiencies have been corrected by the time of the audit submission, along with supporting documentation. Additionally, HCCS will inform TRUSD of any outstanding exceptions or deficiencies at the time of audit submission and how they will be resolved to the satisfaction of TRUSD along with an anticipated timeline for the same. Typically all audit exceptions or deficiencies will be addressed within six months. Any disputes regarding the resolution of audit exceptions and deficiencies will be referred to the dispute resolution process contained in this charter agreement.

9.5: Submission

The Board of Directors will submit a report to TRUSD regarding how the exceptions and deficiencies have been, or will be, resolved to the satisfaction of TRUSD.

Audit appeals or requests for summary review shall be submitted to the Education Audit Appeals Panel ("EAAP") in accordance with applicable law.

The independent financial audit of HCCS is public record to be provided to the public upon request.

Element 10: Suspension and Expulsion Procedures

The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that are consistent with all of the following:

(i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil's side of the story.

(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:

(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five school days before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a homeless child or youth, or a foster child or youth, in the native language of the homeless or foster child's educational rights holder. In the case of a foster child or youth, the written notice shall also be provided to the foster child's attorney and county social worker. If the pupil is an Indian child, as defined in Section 224.1 of the Welfare and Institutions Code, the written notice shall also be provided to the Indian child's tribal social worker and, if applicable, county social worker. The written notice shall inform the pupil, the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker. The written notice shall inform the pupil, the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent or guardian, the homeless child's educational rights holder, the foster child's educational rights holder, attorney, or county social worker, or the Indian child's tribal social worker or, if applicable, county social worker initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).

(iv) A foster child's educational rights holder, attorney, and county social worker and an Indian child's tribal social worker and, if applicable, county social worker shall have the same rights a parent or guardian of a child has to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, and other documents and related information. Education Code Section 47605(c)(5)(J).

School Climate and Student Discipline System

10.1: HCCS Discipline Philosophy

Highlands Community Charter School prides itself on the meeting of student needs and developing an action plan to address extenuating circumstances as they arise, recognizing that many of our students come to our organization due to hardship that has prevented their educational goals from reaching fulfillment. By addressing the needs of each student head on, we remove the barriers that prevent student success.

HCCS implements a philosophy that all students deserve a second chance by providing services that include individual one-on-one student counseling, a drug and alcohol rehabilitation and prevention support group called Clear Connections that meets twice a week, and a Positive Direction support group that meets once a week which focuses on a different student success theme per month. We also provide services that address criminal history and homelessness if these occurrences impede student attendance. Additional addressing

of student needs include a transportation plan for adults who do not have vehicle access to and from school, a clothing and food closet for those students who are lacking basic necessities, and free child care for those students who are not able to attend class due to young children between the ages of 2 and 5 who are not school age eligible.

HCCS encourages the utilization of these services as prevention from student disenrollment, suspension, or expulsion when applicable. Should a disciplinary action be required, Student Success Team meetings (SSTs) and 504 plan meetings (when applicable) are organized to review the student's individual extenuating circumstance which prevents attendance. Counselors, teachers, directors, and other assigned personnel assist with the addressing of these student needs by creating an action plan for both staff and the student.

School-Wide Positive Behavior Intervention and Support

The Student Success Team (SST) is a problem solving and coordinating structure that assists students, teachers, staff, and community partners to develop positive solutions for maximizing student potential. It provides an opportunity for school staff, the adult student, community agencies, and other important people to present their concerns about an individual student. The SST focuses in-depth on one student at a time, and invites the adult student to participate in finding solutions. Through discussion and study, they plan a positive course of action and assign responsibilities, as well as monitor the results of a student. This process informs individual actions for students, including referral to the formal SST process and class-wide actions to address issues such as use of class resources, behavior management, and classroom modifications.

The following is implemented during the time of behavioral intervention:

- Asset Based Delivery: The SST always starts with a discussion of a student's strengths/assets and develops solutions that build on these strengths
- Problem Solving: The SST gathers background information regarding the student in the areas of school, home, family, health, and collaboratively brainstorms solutions to address areas of concern.
- Service Coordination: An action plan is developed for interventions and supports are implemented designed to address the students' needs; team members are assigned responsibilities for action items.
- Monitor Results: Actions items are monitored and a follow up SST meeting is scheduled to review the results/outcomes of interventions, make adjustments and continue to strategize positive solutions to ensure student success.

The coordination of school, home and community interventions improve student learning, and provide focused, positive support to teachers, students and staff. An SST can help students who are facing significant concerns relating to:

- Academics
- Attendance problems
- Behavioral/emotional issues
- Consideration for 504 services
- Retention
- Health issues (including substance abuse)
- Social adjustment

Tiered Behavior Intervention

Members of a Student Support Team:

- The Adult Student is always invited to participate in the decisions of their own education and

goal setting.
- Designated administrator
- Classroom teacher(s)
- Resource personnel or specialists, such as community outreach consults, social workers, probation officers, community resources representatives, or mental health consultant
- Others invited as appropriate

All SST team members are active contributors, and the process defines special roles that some members of the team must fill to achieve the greatest positive outcome. Team members may change roles from one SST meeting to the next. However, during any meeting each team member's role is clearly defined before the meeting begins and then maintained throughout that meeting.

Facilitator

- This person facilitates the working of the team and is the SST coordinator/leader. The success of the team depends largely on this person, who guides the flow of the meeting, and coordinates logistics before and after the meeting.
- The facilitator directs but does not dominate the SST meetings, eliciting the most helpful contributions of the group and, most important, keeping a positive tone at the meeting.
- The facilitator directs the process with respect for all members and accommodates the needs of the group. The facilitator reassures and supports the efforts of colleagues and students.

Recorder

- The recorder is responsible for documenting the SST meeting discussion, including students' strengths, concerns, interventions, action items and results. The recorder does this by using the *Student Success Plan* form or the *Student Success Plan Follow-up Form*.

Team Member

- An effective team member is a positive contributor to the work of the team. The team members participate but do not control the flow of the meeting. Members come prepared with information about the student. Contributions that address difficult problem areas are positive, looking at constructive solutions, rather than characterizing, blaming, or stereotyping. Interventions are linked to the student's strengths.

The Adult Student as a Team Member

- The Adult student is a full-fledged member of the SST, and they are always included. At the SST the student can share his/her perspective and concerns, contribute critical problem-related information from home, and share effective and ineffective home interventions. Many times, the adult student can clarify questions for the team and participate in the implementation of strategies developed by the whole team.

Outreach to Students

- When connecting with students, care must be taken to ensure the most positive experience possible. Reaching out to and engaging the student is a key element in making the SST process successful. This effort involves much more than sending a written notice of a meeting or making a simple phone call. It involves extending oneself as a representative of the school and serving as a bridge for the student to the classroom and the larger school environment.

- Adult students often resist this engagement. The barriers they present to any involvement may mask

deeper fears or concerns. Being a student with school or social concerns can cause the student to have feelings of defensiveness or guilt. Many students may feel they will be unfairly attacked or made to feel worse than they already do in an SST meeting. They may have hadformer experiences with school meetings that were not successful, or they were not kept well informed, and they may be reluctant to trust another meeting at school.

- Adult students may also have time, work, child care, or transportation issues barring their way to participating in the meeting. The SST process must include support to students to accommodate these very real issues. Any support provided has both symbolic and concrete meaning to students and contributes to the success of the meeting for both students and team members.

- The person performing the outreach/engagement role must be sensitive to these issues. Information about the purpose of the meeting must be presented with an emphasis on the shared concerns and responsibilities. An explanation of the SST process must be provided, emphasizing that the process is a collaborative strategy that builds upon the student's strengths to attain the highest degree of success for the student. The student must also be given an opportunity to ask any questions or share any concerns s/he may have with the upcoming meeting.

- Adult students may also have time, work, child care, or transportation issues barring their way to participating in the meeting. The SST process must include support to students to accommodate these very real issues. Any support provided has both symbolic and concrete meaning to students and contributes to the success of the meeting for both students and team members.

Restorative Justice Practices

Student Success Team Follow-up Practices: The action plan created at the SST meeting is only as good as the follow-up practices that ensure its implementation.

Steps for Implementation:

1. **Case Management**

It is very important to clearly define on the *Student Success Plan* who is responsible for each "action item" and to designate the administrator in charge of monitoring the implementation of the plan. This creates an accountability system that is monitored and reviewed when the team comes together again for the Follow-up SST meeting(s).

Case manager tasks may include:

- meeting with the student and with the teacher regarding the action plan,
- making phone calls and/or sending reminder notes to team members regarding action items, and/or
- helping students and their families follow through with referrals to on-site and community-based services.

2. **Feedback to the Referral Source**

The administrator, or a designated member, provides the referral source with feedback in a timely manner after the initial SST meeting. Even when the referral source is unable to attend the SST meeting, it is beneficial to involve them in some ownership of the plan, particularly classroom strategies, modifications and adaptations.

3. **Student/Family Support**

Working with students to be a part of the plan and to undertake actions on their own behalf is an important part of the follow-up. The student has to feel that s/he has some control over their own goals and plans, and that school staff are their allies, rather than the ones who have all the control. During the SST meeting the student is an equal partner in developing the action plan. The assigned administrator or another staff member who has a relationship with the student may want to check in with the student periodically to offer support toward implementing action items.

4. **Follow-Up SST Meetings / Ongoing monitoring of student progress**

At the end of every initial SST, a follow-up SST meeting date is set, preferably within 4-6 weeks. At the follow-up SST meeting action items are reviewed and student progress is discussed. The follow-up SST meeting is documented on the *Student Success Plan Follow-up Form*. The action plan may need to be modified and additional interventions added depending on student progress.

Communicating, Teaching, and Modeling: Suspension Alternatives through Professional Development

Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. HCCS staff are trained and annually review in de-escalation strategies for students in crises. These strategies focus on developing relationships with students, identifying and avoiding, when possible, triggers for undesirable behavior, and stabilize students who have been triggered safely through the use of de-escalation techniques.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians[2], detention during and after school hours, community service, use of alternative educational environments, suspension, expulsion, and involuntary removal.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this Pupil Suspension and Expulsion Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom HCCS has a basis of knowledge of a suspected disability pursuant to the IDEIA or who is qualified for services under Section 504 is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to regular education students except when federal and state law mandates additional or different procedures. HCCS will follow all applicable federal and state laws when imposing any form of discipline on a student identified as an individual with disabilities or for whom HCCS has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students and shall notify the District of the same.

No student shall be involuntarily removed by the Charter School for any reason unless the student has been

[2] The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term "parent/guardian" shall include these parties.

provided written notice of intent to remove the student no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the student, and shall inform him or her of the right to initiate the procedures specified below for suspensions, before the effective date of the action. If the student initiates the procedures specified below for suspensions, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does

not include suspensions or expulsions pursuant to the suspension and expulsion procedures described below.

In-School Suspension

10.2 : Authorization and Implementation of In-School Suspensions

HCCS offers in-school suspension as a means of reducing time missed from learning for behavioral issues. Should the need for in-school suspension arise due to a violation of student conduct violations, as defined by the Highlands Community Charter School Student Handbook, in-school suspension will be served through the enrollment of and attendance in the Highlands Community Charter School Alternative Education/Independent Study Program. An assigned advisor will work with the student to arrange a schedule for the student to engage in credit recovery and after-school tutoring as needed to ensure she is able to keep up with his/her school work while on suspension. Grounds for in-school suspension shall not exceed grounds for expulsion as defined by the Student Expulsion policy. Notification procedures and the maximum number of days for in-school suspension per incident as well as academic year are the same as out-of-school suspensions.

To ensure that HCCS adequately provide safety for students, staff, and visitors to the school and serve the best interests of students, in-school suspension will not be offered to any student who:

- caused, attempted to cause, threatened to cause, or participated in an act of hate violence,
- engaged in harassment, threats, or intimidation against a pupil or group of pupils or school district personnel, or
- made terrorist threats against school officials or school property, or both.

Grounds for Suspension and Expulsion

10.3 : Scope of Disciplinary Jurisdiction

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at any time, including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

10.4 : Suspension Offenses

Discretionary Suspension Offenses
Students may be suspended for any of the following acts when it is determined the student:

A. Caused, attempted to cause, or threatened to cause physical injury to another person.
B. Willfully used force of violence upon the person of another, except self-defense.
C. Unlawfully possessed, used, or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind.
D. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage, or intoxicant.
E. Committed or attempted to commit robbery or extortion.
F. Caused or attempted to cause damage to school property or private property, which incudes but is not limited to, electronic files and databases.
G. Stole or attempted to steal school property or private property, which includes but is not limited to, electronic files and databases.
H. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a student.
I. Committed an obscene act or engaged in habitual profanity or vulgarity.
J. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.
K. Knowingly received stolen school property or private property, which includes but is not limited to, electronic files and databases.
L. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
M. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
N. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
O. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, “hazing” means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. For purposes of this section, “hazing” does not include athletic events or school-sanctioned events.
P. Made terroristic threats against school officials and/or school property, which includes but is not limited to, electronic files and databases. For purposes of this section, “terroristic threat” shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or

her immediate family's safety, or for the protection of school property, which includes but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her

immediate family. Students may be also recommended for expulsion for conduct described in this provision.

Q. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

R. Caused, attempted to cause, threaten to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

S. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students, in a sufficiently severe or pervasive nature, to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading student rights by creating an intimidating or hostile educational environment. This section shall apply to students in any of grades 4 to 12, inclusive. Students may be also recommended for expulsion for conduct described in this provision.

T. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act (defined as the transmission of a communication, including, but not limited to, a message, text, sound, or image, or a post on a social network Internet Web site, or an act of cyber sexual bullying, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager) directed specifically toward a student or school personnel.

1. "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including acts one or more acts committed by a student or group of students which would be deemed sexual harassment, hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
    i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
    ii. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
    iii. Causing a reasonable student to experience substantial interference with his or her academic performance.
    iv. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
2. "Electronic Act" means the creation or transmission originated on or off the school site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
    i. A message, text, sound, video or image.

ii. A post on a social network Internet Web stie including, but not limited to:
    a. Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one of more of the effects as listed in subparagraph (1) above.
    b. Creatin ga credible impersonation of another actual student for the purpose of having one or more of the effects listed in subparagraph (1) above. "credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.
    c. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious student or a profile using the likeness of attributes of an actual student other than the student who created the false profile.

iii. An act of cyber bullying.
    a. For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
    b. For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3. Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

U. A student who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a student who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (A) and (B).

V. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Curriculum and Instruction (or assigned designee's) concurrence.

W. Cheated on school classwork or otherwise has acted in an unethical manner as determined by the Administration based upon school policies and guidelines.

Non-Discretionary Suspension Offenses/Non-Discretionary Expulsion Offenses

Students must be suspended and recommended for expulsion for any of the following acts when it is determined the student:

A. Possessed, sold, or otherwise furnished any firearm, explosive, or other destructive device unless, in the case of possession of any device of this type, the students had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director

of Curriculum and Instruction (or assigned designee's) concurrence.

B. Brandished a knife at another person
C. Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053, *et seq.*
D. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 or former Section 288a of the Penal Code, or committed a sexual battery as defined in Penal Code Section 243.4.

10.5: Expulsion Offenses

Mandatory Recommendation for Expulsion
Students must be expelled for any of the following acts when it is determined pursuant to the procedures below that the student:

A. Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the students had obtained written permission to possess the item from a certificated school employee, with the Executive Director's and/or Director of Curriculum and Instruction (or assigned designee's) concurrence. Possession of an imitation firearm is not an offense for which suspension or expulsion is mandatory.
B. Brandished a knife at another person.
C. Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053-11058.
D. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 287, 288, or 289 or former Section 288a of the Penal Code, or committed a sexual battery as defined by Penal Code Section 243.4.
E. Possession of an explosive.

If it is determined by the Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the student shall be provided due process rights of notice and a hearing as required in this policy.

The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.

The term "destructive device" means (A) any explosive, incendiary, or poison gas, including but not limited to: (i) bomb, (ii) grenade, (iii) rocket having a propellant charge of more than four ounces, (iv) missile having an explosive or incendiary charge of more than one-quarter ounce, (v) mine, or (vi) device similar to any of the devices described in the preceding clauses.

A decision to expel a pupil shall be based on a finding that other means of correction are not feasible or have repeatedly failed to bring about proper conduct, or that due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

Discretionary Recommendation for Expulsion
Students shall be recommended for expulsion, unless the Executive Director or the Executive Director's designee determines that expulsion should not be recommended under the circumstances or that an

alternative means of correction would address the following acts:

A. Causing serious physical injury to another person, except in self-defense.
B. Possession of any knife or other dangerous object of no reasonable use to the pupil.
C. Unlawfully possessing any controlled substance, as defined in Health and Safety Code Sections 11053-11058 except for either the first offense of possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis, or the possession of over-the-counter medication for use by the pupil for medical purposes or medication prescribed for the pupil be a physician.
D. Robbery or extortion.
E. Assault or battery, as defined in Penal Code Sections 240 and 242, upon any Charter School employee.

Out-of-School Suspension Procedures

10.6: Rules and Procedures for Out-of-School Student Suspension

Suspension Authority
HCCS will ensure that the process for investigating incidents and collecting evidence will be fair and thorough before a student is suspended. A student may only be suspended by the Executive Director's and/or Director of Curriculum and Instruction, or in the case of the Executive Director's and Director of Curriculum and Instruction's absence or inability to carry out proper suspension procedures, an assigned designee.

Conference
Suspension will be preceded, if possible, by a conference conducted by the Executive Director's and/or Director of Curriculum and Instruction or an assigned designee with the student and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Executive Director's and/or Director of Curriculum and Instruction or assigned designee.

The conference may be omitted if the Executive Director's and/or Director of Curriculum and Instruction or an assigned designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety, or health of students or charter school personnel. If a student is suspended without this conference, the student will be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student will be informed of the reason for the disciplinary action, including the other means of correction that were attempted before the suspension, and the evidence against him or her and will be given a meaningful opportunity to present his or her version and evidence in his or her defense. This conference will be held within two school days, unless the student waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure to attend a conference with Charter School officials. Reinstatement of the suspended student shall not be contingent upon attendance by the student at the conference.

Student Notification
Students will have due process rights with regards to suspensions and expulsions. At the time of the suspension, an administrator or designee will make a reasonable effort to contact the student by telephone

or in person. Initial contact will be followed by a written notice. This notice will state the specific offense(s) committed by the student. In addition, the notice will also state the date and time the student may return to school.

10.7: Maximum Suspension

The length of the suspension will be determined by the Executive Director and/or the Director of Curriculum and Instruction or an assigned designee based on the severity of the offense(s), as evidenced by witness statements, physical evidence, and other relevant factors. For students with IEPs, the students SST team will consult with the Executive Director and/or the Director of Curriculum and Instruction or an assigned designee on additional factors that are relevant to the decision. The length of suspension for students may not exceed a period of 5 consecutive days per suspension. The total number of days for which a student may be suspended from school shall not exceed 20 school days in any school year.

10.8: Meaningful Education for Suspended Students

A student on suspension will be provided meaningful access to education during the term of the suspension. An advisor of the suspended student will collect and provide the student with classroom material and current assignments to be completed at home during the length of the suspension. Missed tests will also be coordinated to be completed either at home or upon return. Written notification listing all required assignments will be given to the student and all needed materials will be left in the front office.

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

10.9: Suspension Pending the Outcome of an Expulsion Process

Upon a recommendation of Expulsion by the Executive Director and/or the Director of Curriculum and Instruction or Administrative Panel, the student or representative will be invited to a conference to determine if the suspension for the student should be extended pending an expulsion hearing. This determination will be made by the Executive Director and/or the Director of Curriculum and Instruction or Administrative Panel upon either of the following: 1) the student's presence will be disruptive to the education process; or 2) the student poses a threat or danger to others or property. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing. The maximum number of days a student may be suspended is thirty days (30) unless the expulsion hearing is

postponed for good cause, in which case the suspension could be extended further. Procedures for providing a student on suspension with meaningful access to education during the term of the suspension pending the outcome of an expulsion process is outlined above in section 10.8.

Expulsion Procedures

10.10 : Rules and Procedures for Student Expulsion

Prior to making an expulsion recommendation, students will be provided adequate notice of the reason for disciplinary actions and a meaningful opportunity to be heard by invitation to a conference to determine if the student should be placed on suspension or if an existing suspension for the student should be extended pending an expulsion hearing. This determination will be made by the Executive Director and/or Director of Curriculum and Instruction (or assigned designee) upon either of the following findings:

- The student's presence will likely be disruptive to the educational process
- The student poses a threat or danger to others or property.

Upon this determination, the student placed on suspension or will have his/her suspension extended pending the results of an expulsion hearing.

Students will be recommended for expulsion if at least one of the following findings may be substantiated:

- Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
- Due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Authority to Expel
As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law. A student may be expelled either by the HCCS Board following a hearing before it or by the HCCS Board upon the recommendation of the Executive Director and/or the Director of Curriculum and Instruction or a neutral and impartial Administrative Panel may be assigned by the Board as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the student nor a Board member of the Charter School's governing board. The Executive Director and/or the Director of Curriculum and Instruction or Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the HCCS Board of Directors shall make the final determination.

Expulsion Procedures
Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing will be held within thirty (30) school days after the Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel or designee determines that the student has committed an expellable offense .

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all student

confidentiality rules under FERPA) unless the student makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing,
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based,
3. A copy of HCCS disciplinary rules which relate to the alleged violation,
4. Notification of the student's obligation to provide information about the student's status at HCCS to any other school district or school to which the student seeks enrollment,
5. The opportunity for the student to appear in person or to employ and be represented by counsel or a non-attorney advisor,
6. The right to inspect and obtain copies of all documents to be used at the hearing,
7. The opportunity to confront and question all witnesses who testify at the hearing, and
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

Reasonable accommodations, including language support for a student whose has a primary language other than English will be made available at the hearing, upon request.

Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

HCCS may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the HCCS Board or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the student.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days' notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time s/he testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. HCCS must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the person or panel conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which s/he may leave the hearing room.
4. The person or panel conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.The person or panel conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours s/he is normally in school, if there is no good cause to take the testimony during other hours.
5. Prior to a complaining witness testifying, the support persons must be admonished that the hearing

is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person or panel conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

6. If one or both of the support persons is also a witness, HCCS must present evidence that the witness' presence is both desired by the witness and will be helpful to HCCS. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom s/he believes is prompting, swaying, or influencing the witness.
7. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
8. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
9. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board, Panel or designee determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The Decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the student shall immediately be returned to his/her educational program.

Written Notice to Expel
The Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel, following a decision of the Board to expel, shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student. This notice shall also include the following: (a) Notice of the specific offense committed by the student; and (b) Notice of the student's obligation to inform any new district in which the student seeks to enroll of the student's status with HCCS.

The Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel, shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: (a) The student's name; and (b) The specific expellable offense committed by the student.

Disciplinary Records
HCCS shall maintain records of all student suspensions and expulsions at HCCS. Such records shall be made available to the authorizer upon request.

No Right to Appeal
The student shall have no right of appeal from expulsion from HCCS as HCCS Board's decision to expel shall be final.

Expelled students/Alternative Education
HCCS shall ensure that students suspended from HCCS are provided with an appropriate alternative educational program (class work and homework assignments, etc.) during the period of the student's suspension from school. Whenever a student is expelled from HCCS, HCCS shall notify the student and the student in writing of the student's duty to attend the public school district in which the residency of either the parent or legal guardian is located. HCCS shall also notify the public school district in which the residency of either the parent or legal guardian is located whenever a student is expelled from HCCS.

10.11: Rehabilitation Plans

Rehabilitation Plans, Criteria, and Expulsion
Students who are expelled from HCCS shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the student may reapply to HCCS for readmission.

Readmission
The decision to readmit a student or to admit a previously expelled student from another school district or charter school shall be in the sole discretion of the Board following a meeting with the Executive Director or designee and the student and guardian or representative to determine whether the student has successfully

completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Executive Director or designee shall make a recommendation to the Board following the meeting regarding his or her determination. The student's readmission is also contingent upon HCCS capacity at the time the student seeks readmission.

Notice to Teachers

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities

1. Notification of SELPA

HCCS shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student who HCCS or SELPA would be deemed to have knowledge that the student had a disability.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's 504 Plan would reflect this change), and to progress toward meeting the goals set out in the student's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment or functional analysis, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a student with a disability because of a violation of a code of student conduct, HCCS, the parent/guardian (in the case of a minor), and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the student's IEP/504 Plan, any teacher observations, and any relevant information provided by the students to determine:

a. If the conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; or
b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If HCCS, the parent (in the case of a minor), and relevant members of the IEP/504 Team determine that either of the above is applicable for the student, the conduct shall be determined to be a manifestation of the student's disability.

If HCCS, the parent (in the case of a minor), and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the student's disability, the IEP/504 Team shall:

c. Conduct a functional behavioral assessment or a functional analysis assessment, and implement a behavioral intervention plan for such student, provided that HCCS had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
d. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the student already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
e. Return the student to the placement from which the student was removed, unless the parent (in the case of a minor) and HCCS agree to a change of placement as part of the modification of the behavioral intervention plan.

If HCCS, the parent (in the case of a minor), and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the IEP/504 Plan, then HCCS may apply the relevant disciplinary procedures to students with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent of a student with a disability who disagrees with any decision regarding placement, or the manifestation determination, or HCCS believes that maintaining the current placement of the student is substantially likely to result in injury to the student or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or HCCS, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, whichever occurs first, unless the parent and HCCS agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the student is substantially likely to result in injury to the student or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a student with a disability to the placement from which the student was removed; or (2) order a change in placement of a student with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or to others.

5. Special Circumstances

HCCS personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code of student conduct.

The Executive Director and/or the Director of Curriculum and Instruction or an Administrative Panel, may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

a. Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;
b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
c. Has inflicted serious bodily injury, as defined by 20 U.S.C. Section 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEIA and who has violated HCCS disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if HCCS had knowledge that the student was disabled before the behavior occurred.

HCCS shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to HCCS supervisory or administrative personnel, or to one of the student's teachers, that the student is in need of special education or related services.
b. A parent has requested an evaluation of the student.
c. The student's teacher, or other HCCS personnel, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the director of special education or to other HCCS supervisory personnel.

If HCCS knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEIA-eligible students with disabilities, including the right to stay-put.

If HCCS had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. HCCS shall conduct an expedited evaluation if requested by the student; however the student shall remain in the education placement determined by HCCS pending the results of the evaluation.

HCCS shall not be deemed to have knowledge of that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

Element 11: Employee Retirement Systems

The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security. **(Ed. Code § 47605(c)(5)(K).)**

11.1-3: Certificated, Classified, and Other Staff Members

All eligible full time certificated employees at Highlands Community Charter School participate in a qualified retirement plan including, but not limited to, State Teachers Retirement System (STRS) or the federal social security system based on their eligibility to participate. HCCS teachers participate in STRS. Non-certificated/classified staff participate in a 401A defined contribution plan.

Employees may have access to other school-sponsored retirement plans and other benefit plans according to policies developed by the Board of Directors and adopted as HCCS employee policies. In the event that the Internal Revenue Service adopts regulations barring non-profit entities from participating in the public-funded retirement plan (STRS), employees will be covered by federal social security and/or an employer-sponsored retirement plan as approved by the HCCS Board of Directors. HCCS will inform all applicants for positions within HCCS of the retirement system options for employees of HCCS and notify all applicants that accepting employment at HCCS may exclude the employee from further coverage in their current retirement system. The Executive Director shall be responsible for ensuring that appropriate arrangements for retirement coverage are made. HCCS will develop a mix of salaries and benefits, commensurate with location and experience, necessary to attract and retain well-trained teachers and staff.

Element 12: Public School Attendance Alternatives

The public school attendance alternatives for students residing within the school district who choose not to attend charter schools. **(Ed. Code § 47605(c)(5)(L).)**

12.1: Informing Students of Public School Attendance Alternatives

No student may be required to attend Highlands Community Charter School. Students who reside within the District who choose not to attend HCCS may attend school according to District policy or at another school district or school within the District in accordance with existing enrollment and transfer policies of their district or county of residence. Each student enrolled in HCCS are informed on admissions forms that the students have no right to admission in a particular school of a local education agency (or program of any local education agency) as a consequence of enrollment in HCCS, except to the extent that such a right is extended by the local education agency.

Element 13: Rights of District Employees

The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school. **(Ed. Code § 47605(c)(5)(M).)**

No public school employee will be required to work at Highlands Community Charter School. Employees of the District who choose to leave the employment of the District to work in the Charter School will have no automatic rights of return to the District after employment by HCCS unless specifically granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District.

All employees of HCCS will be considered the exclusive employees of HCCS and not of Twin Rivers (TRUSD), for the purposes of the Education Employment Relations Act, unless otherwise mutually agreed in writing. Employment by HCCS provides no rights of employment at any other entity, including any rights in the case of closure of HCCS.

Element 14: Dispute Resolution Procedures

The procedures to be followed by the charter school and the chartering authority to resolve disputes relating to provisions of the charter. **(Ed. Code § 47605(c)(5)(N).)**

14.1: Providing Written Notification

Disputes Arising from within HCCS

It is the intent of Twin Rivers Unified School District (TRUSD) and HCCS that complaints and disputes be resolved quickly and informally in an atmosphere of cooperation whenever possible. If employees are represented by a union, they must first exhaust their internal remedies before filing a grievance.

Complaints regarding the operation of HCCS which do not involve TRUSD liability or issues of student health or safety will be forwarded to HCCS for processing according to procedures adopted by HCCS prior to being addressed by TRUSD. HCCS procedures will include reasonably expeditious time lines and a full opportunity for students who are minors directly affected to express their concerns. TRUSD will not address the dispute if HCCS is able to fully resolve the problem unless HCCS requests TRUSD involvement.

The Charter School shall also maintain a Uniform Complaint Policy and Procedures as required by state law.

Disputes between HCCS and TRUSD

HCCS and TRUSD will always attempt to resolve any disputes amicably and reasonably without resorting to formal procedures.

In the event of any dispute between HCCS and TRUSD, excluding revocation of the Charter but including audit exceptions and deficiencies, the complaining party will prepare a written dispute statement which will be simultaneously submitted to the TRUSD Superintendent or designee and the HCCS Executive Director. The Executive Director and the Superintendent or designee will meet and confer within five (5) business days from the date of receipt of the written dispute statement and attempt to resolve the dispute. In the event that this conference fails to resolve the dispute, each party will identify two members of their respective governing boards who shall meet with the Superintendent or designee and the Executive Director within ten (10) business days and attempt to resolve the dispute. If this joint meeting fails to resolve the dispute, either party will, within five (5) business days following the meeting, submit the matter to the Sacramento County Superintendent of Schools. The parties agree to be bound by the County Superintendent's decision and will indicate as such when submitting the matter to the County Superintendent. If the County Superintendent declines to hear the matter, the parties may agree to submit their dispute to a mutually agreeable, neutral third-party mediator for resolution in accordance with any procedure determined and prescribed by the mediator and agreed to by the parties. Review by the County Superintendent or mediator will be held within forty-five (45) business days of receipt of the initial dispute statement. The cost of the mediator will be equally shared between TRUSD and HCCS. If the parties are unable to resolve the matter before a mutually agreeable mediator, either party may pursue any other remedy available under the law.

Unless directed otherwise, all written dispute notifications between the District and Charter School shall be addressed as follows:

Dr. Steven Martinez
Twin Rivers Unified School District
5155 Dudley Blvd.

McClellan, California 95652

Jonathan Raymond
Highlands Community Charter School
1333 Grande Ave
Sacramento, California 95838

In the event that the TRUSD Board of Trustees believes that the dispute relates to an issue that could lead to revocation of the charter in accordance with Education Code Section 47607, this will be noted in the written dispute statement. However, participation in the dispute resolution procedures outlined in this section shall not be interpreted to impede the TRUSD's ability to proceed with revocation in accordance with Education Code Section 47607 and its implementing regulations.

HCCS shall timely notify TRUSD of any and all complaints filed against HCCS by its employees, students, and vendors, involving violations of the Charter, the MOU, State or federal law, or alleged financial mismanagement.

Revocation Protocol
HCCS and Twin Rivers Unified School District (TRUSD) agree that the dispute resolution procedure set forth above will not apply to any matter that could lead to revocation of the Charter. Prior to revocation of the Charter, TRUSD shall provide HCCS with written notice of its belief and an opportunity to meet with and respond to TRUSD within a reasonable time, which shall be not less than five (5) business days, prior to issuing a written notice to "cure and correct," unless TRUSD determines in writing that the violation constitutes a severe and imminent threat to the health or safety of the pupils in accordance with Education Code section 47607(d) and its implementing regulations. Thereafter, if TRUSD determines that revocation is warranted, it will comply with the procedures set forth in Education Code section 47607.

Element 15: Charter School Closure Procedures

The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records. **(Ed. Code § 47605(c)(5)(O).)**

15.1: Closure Agents

The following procedures shall apply in the event HCCS closes. The following procedures apply regardless of the reason for closure.

Closure of HCCS will be documented by official action of the Board of Directors of HCCS. The action will identify the reason for closure. The official action will also identify an entity and person(s) responsible for closure-related activities. The HCCS Board shall promptly notify (TRUSD), within 10 business days, of the closure and the effective date of the closure. The entity responsible for implementing the closure procedures will be experienced in dissolution and closure of public educational programs and will comply with all legal requirements regarding the confidentiality of student records. The Chair of the Board of Directors will serve as the official contact for purposes of implementing the closure protocol set forth in the Charter and its plan for maintaining and transferring student records, and payment of debts and liabilities and distribution of remaining assets. Closure initiated by the HCCS Board will not take effect before the end of the normal school year in June unless agreed to in writing by TRUSD.

The HCCS Board of Directors will promptly notify students of HCCS, TRUSD, the Sacramento County Office of Education, the Charter School's SELPA, the retirement systems in which HCCS's employees participate (e.g., Public Employees' Retirement System, State Teachers' Retirement System, and federal social security), and the California Department of Education of the closure as well as the effective date of the closure. This notice will also include the name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure; the students' school districts of residence; and the manner in which students may obtain copies of their records, including specific information on completed courses and credits that meet graduation requirements.

The HCCS Board of Directors will ensure timely notification to the students of HCCS of the closure and will provide information to assist students in locating suitable alternative programs. This notice will be provided promptly, within ten (10) business days, following the HCCS Board's decision to close HCCS. HCCS will provide TRUSD with all student contact information promptly following such decision.

The HCCS Board of Directors will also develop a list of students in each grade level and the classes they have completed, together with information on each student's districts of residence, which the Board will provide to the entity responsible for closure-related activities.

As applicable, HCCS will provide students and TRUSD with copies of all appropriate student records and will otherwise assist students in transferring to their next school. All transfers of student records will be made in compliance with the Family Educational Rights and Privacy Act ("FERPA") 20 U.S.C. § 1232g. HCCS will store original records of HCCS students in HCCS administrative office until the closure of HCCS. No later than the date of closure, all records will be transferred to TRUSD. If the District will not or cannot store the records, the HCCS will work with the County Office of Education to determine a suitable alternative location for storage. All state assessment results, special education records, and personnel

records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law.

As soon as is reasonably practical, HCCS will prepare final financial records. Within six (6) months, following the date of closure, final financial records shall be prepared and an independent audit completed. HCCS will pay for the final audit (Reserve Fund). The audit will be prepared according to standards for public school audits by a qualified Certified Public Accountant experienced in public school audits selected by HCCS and will be provided to TRUSD promptly upon its completion. The final audit will include an accounting of all financial assets, including cash and accounts receivable and an inventory of property, equipment, and other items of material value, an accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation, and an assessment of the disposition of any restricted funds received by or due to HCCS.

HCCS will complete and file any annual reports required pursuant to Education Code section 47604.33. On closure of HCCS, all assets of HCCS, including but not limited to all leaseholds, personal property, intellectual property and all ADA apportionments and other revenues generated by students attending HCCS, remain the sole property of the HCCS and shall be distributed in accordance with the Articles of Incorporation upon the dissolution of the non-profit public benefit corporation to another California public educational entity. Any assets acquired from the TRUSD or TRUSD property will be promptly returned upon HCCS closure to the TRUSD. The distribution shall include return of any grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law, as appropriate, which may include submission of final expenditure reports for entitlement grants and the filing of any required Final Expenditure Reports and Final Performance Reports, as well as the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted.

On closure, HCCS shall remain solely responsible for all liabilities arising from the operation of HCCS. Should Highlands Community Charter Schools dissolve as a nonprofit public benefit corporation, the HCCS Board will follow the procedures set forth in the California Corporations Code for the dissolution of a nonprofit public benefit corporation and file all necessary filings with the appropriate state and federal agencies.

HCCS will utilize the reserve fund to undertake any expenses associated with the closure procedures identified above.

Additional Provisions

Facilities

The facilities to be used by the charter school. The description of the facilities to be used by the charter school shall specify where the charter school intends to locate. **(Ed. Code § 47605(h).)**

16.1: Facilities Mission

As a public charter school, the HCCS mission is to provide a safe, stimulating, and vibrant student-centered learning community that primarily addresses the academic and transitional needs of students who are credit deficient and seeking a high school diploma. HCCS:

- provides adequate space on site for maintaining current site activities,
- locates near public facilities that offer services that complement the instructional facilities at HCCS such as libraries, parks, and institutional facilities, and
- provides adequate site space to accommodate necessary support functions, such as staff and visitor parking, loading/unloading for student transportation, and useable and safe outdoor and dining areas.

In order to properly meet the facilities needs of HCCS, an understanding of the proposed educational programs, services, and student trends is required. Including classroom space, the square footage calculations include a variety of administrative and clerical spaces, hallways, student/staff break areas, restrooms, custodial closets, storage area and utilities closets.

HCCS is nonsectarian in its programs, admission policies, and all other operations, even at sites located at religious institutions. All HCCS sites are accessible to students by foot, public transportation, or car. HCCS ensures that the facilities align with all building and fire codes for instructional purposes as provided in Education Code Section 47610. In addition HCCS will alert TRUSD at least 30 days prior to occupancy of every site to be leased, purchased, or controlled by the school for instructional purposes. HCCS will not pursue Proposition 39 facilities from the District.

16.2: Annual Operational Agreement

HCCS and Twin Rivers Unified School District (TRUSD) will negotiate in good faith on an annual basis to develop an Annual Operational Agreement/Memorandum of Understanding establishing the specific financial, operational and service relationship between the two parties. Additionally, it may address other matters of mutual interest not otherwise resolved within the terms of HCCS' Charter.

16.3: Operational Powers and Liabilities

HCCS shall be fiscally responsible for its own operations and shall manage its operations efficiently and economically within the constraints of its annual budget.

HCCS shall have no authority to enter into a contract that would bind Twin Rivers Unified School District (TRUSD) or to extend the credit of TRUSD to any third person or party without the express written consent of TRUSD. HCCS shall clearly indicate to all vendors and other entities and individuals outside TRUSD with which or with whom HCCS enters into an agreement or contract for goods or services that the obligations of HCCS under such an agreement or contract are solely the responsibility of HCCS and are not the responsibility of TRUSD.

Insurance

16.4: Insurance Coverage

HCCS secures and maintains, during the term of the Charter, commercially reasonable general liability, property, errors and omissions, worker's compensation, and other necessary insurance coverage in the amounts specified by the Annual Memorandum of Understanding to protect HCCS from claims that may arise from its operations. Each policy shall include language stating particular who is insured, extent of insurance, locations and operations to which insurance applies, expiration date, to whom cancellation or reduction notice will be sent; and (3) a statement that the District and its officers, employees and agents are named as additional insured.

Coverage amounts will be based on recommendations provided by the District and the Charter School's insurer. The District Board of Education shall be named as an additional insured on all policies of the Charter School. The Charter School will provide copies of certificates of insurance, as provided herein, to the District upon request.

Fiscal Matters

The petitioner or petitioners also shall be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cash flow and financial projections for the first three years of operation. **(Ed. Code § 47605(h).)**

16.5: Funding

HCCS receives funding according to the Local Control Funding Formula pursuant to Education Code Section 42238.02(d) and its successors will opt to receive its funding directly from the state. An account for HCCS will be maintained at the Twin Rivers Unified School District (TRUSD). Any funds due to HCCS that flow through TRUSD shall be forwarded to HCCS as soon as practical.

16.6: Fiscal Strength

HCCS has significant financial strength. This strength includes strong financial reserves to ensure smooth cash flow and the meeting of all obligations. Moving forward HCCS will continue to have very strong financials as can be seen in the five-year budget and financial projections under Tab 4.

16.7: Budgets and Cash Flow

A five year budget and financial projections is included under Tab 4. This document is based upon the Local Control Funding Formula and the best estimates of revenues and costs available to HCCS at this time.

16.8: Financial Reporting

HCCS will provide reports to TRUSD as follows as required by Education Code Section 47604.33 and may provide additional fiscal reports as requested by TRUSD:

By July 1, a preliminary budget for the current fiscal year. For a charter school in its first year of operation, financial statements submitted with the charter petition pursuant to Education Code Section 47605(h) will satisfy this requirement.

1. By July 1, an annual update (LCAP) required pursuant to Education Code Section 47606.5.
2. By December 15, an interim financial report for the current fiscal year reflecting changes through October 31. Additionally, on December 15, a copy of HCCS's annual, independent financial audit report for the preceding fiscal year shall be delivered to the State Controller, State Department of Education and County Superintendent of Schools.
3. By March 15, a second interim financial report for the current fiscal year reflecting changes through January 31.
4. By September 15, a final unaudited report for the full prior year. The report submitted to HCCS shall include an annual statement of all HCCS's receipts and expenditures for the preceding fiscal year.

For reports 1-4, above, HCCS shall also provide with each financial report supporting and/or back up information, including but not limited to multi-year projections for current and two subsequent years, assumptions used for two subsequent years, explanation for major variances by category between reporting periods, enrollment projection, ADA P2 projection by grade level, COLA & Deficit percentage, calculation used for determining general purpose funding, list of statutory benefit rates, list of H&W rates and number of participants, and number of FTEs for certificated and classified employees for each year.

Pursuant to Education Code Section 47604.3, HCCS shall promptly respond to all reasonable inquiries including, but not limited to, inquiries regarding its financial records, cash flow and budget, and ADA P2 projections from the District. HCCS agrees to and submits to the right of the District to monitor the Charter School's ADA projections and cash flow shortages in order to carry out the District's statutorily required oversight.

16.9 : District Reports

Twin Rivers Unified School District (TRUSD) agrees to file all reports specifically required by law pertaining to their role as an authorizing agent to be filed with the California Department of Education or any other State or federal agency by a local educational agency on behalf of HCCS and/or TRUSD. HCCS will promptly provide TRUSD with any information, data, or documentation necessary for TRUSD to timely file such reports in accordance with law. HCCS will be solely responsible for the accuracy of all data submitted to TRUSD. HCCS will be responsible for filing all other reports as may be required by law.

16.10 : Attendance Reporting, School Calendar, and Other Data

HCCS will provide Twin Rivers Unified School District (TRUSD) with a copy of the HCCS annual attendance calendar no later than July 1 of each year. HCCS will maintain no less than the minimum number of instructional days and minutes required by the Education Code and/or the California Code of Regulations for each grade level served.

Subject to TRUSD approval, HCCS will establish and maintain an attendance reporting system to record and account for the Charter School's ADA, as defined in Title V California Code of Regulations section 11960. HCCS will timely report ADA figures to TRUSD as necessary to enable the school to receive funding. The Charter School will provide TRUSD with a monthly enrollment report no later than the 15th calendar day of the following attendance month. HCCS will provide all data and reports required by TRUSD in hard copy and electronic data files. HCCS will submit enrollment and demographic information to the California Education Data System (CBEDS), or its successor, the California Student Information System (CSIS), to the extent and in the manner specifically required by law or regulations applicable to charter schools. Upon request, HCCS will provide TRUSD with documentation of the teacher/student ratio for the Charter School. HCCS will also provide TRUSD with amended ADA reports for the 2016-17 school year and all other prior years as recommended by the FCMAT audit report of May 2018.

16.11 : Annual Review and Notice to District of Change in Status

HCCS will participate in an annual review conducted by Twin Rivers Unified School District (TRUSD), if any, of all programs offered at the Charter School, including their effectiveness and student achievement. Both parties will act reasonably and in good faith in both the review and the response to the review.

HCCS will provide TRUSD no less than thirty (30) days prior written notice of any actions taken by the Charter School that may and/or will affect and/or change the status of HCCS, and which falls within TRUSD oversight responsibilities. Nothing herein shall preclude the parties from negotiating or amending the charter to include additional services not contemplated by this charter.

16.12 : Regulations and Compliance

HCCS will work diligently to comply with all rules and regulations placed upon it by regulatory entities, such that it follows both the letter of the law and the spirit of the law. We recognize that the California legislature enacted charter school law to encourage innovation in the field of education, and thus we will use all authority and ability granted to us as a school to innovate and push beyond the status quo. We will do so responsibly and accountability.

16.13 : Technology

HCCS will utilize technology in all aspects of how it functions to lower the cost of education, improve efficiency, and improve the effectiveness of education. Recognizing that there is always a cost-benefit

tradeoff when using technology, HCCS will purchase hardware, software, and services based upon the value it brings to the overall learning process.

HCCS will consider the full cost-benefit of technology purchases, including upfront costs, cost of support, cost of modification, and approximate lifespan of the technology, and compare this with the benefits that the technology adds to the educational process and overall system of the school.

Other Clauses and Procedures

16.14 : Term of Charter

The term of this charter shall begin on July 1, 2019 and expire June 30, 2027.

16.15 : Amendment of Charter

Any amendments to this charter shall be made by the mutual agreement of the governing boards of TRUSD and HCCS. HCCS may present a petition to amend the charter at any time, and TRUSD agrees to respond to such petitions pursuant to the process and timelines specified in Education Code Section 47605 or its successors.

16.16 : Cooperation

Twin Rivers Unified School District (TRUSD) agrees to cooperate with HCCS in all matters related to the implementation of this charter and interactions with the California State Board of Education.

16.17 : Severability

The terms of this charter are severable. In the event that any of the provisions are determined to be unenforceable or invalid for any reason, the remainder of the charter shall remain in effect, unless mutually agreed otherwise by the Twin Rivers Unified School District (TRUSD) Board of Trustees and HCCS Board of Directors.

16.18 : Administrative Services

The manner in which administrative services of the charter school are to be provided. **(Ed. Code § 47605(h).)**

HCCS conducts or procures all of its own administrative and business services including, but not limited to, academic, special education, financial management, accounts payable/receivable, payroll, human resources, and instructional program development either through its own staff or through an appropriately qualified third-party contractor. All contracts are vetted for conflict of interest as adopted by the HCCS Board of Directors. HCCS provides or procures all administrative services to further ensure high quality services, in a cost-effective manner.

Pursuant to California law, the authorizer will be required to provide oversight and performance monitoring services, including monitoring school and student performance data, reviewing the school's audit reports, performing annual site visits, engaging in any necessary dispute resolution processes, and considering charter amendment and renewal requests. HCCS agrees to and submits to the right of the District to make random visits and inspections in order to carry out its statutorily required oversight in accordance with Education Code Sections 47604.32 and 47607.

16.19 : Potential Civil Liability Effects

Potential civil liability effects, if any, upon the charter school and upon the school district. (Ed. Code § 47605(h).)

HCCS is operated by a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701(d).

Pursuant to Education Code Section 47604(d), an entity that grants a charter to a charter school operated by a non-profit public benefit corporation shall not be liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors, or omissions by the charter school if the authority has complied with all oversight responsibilities required by law. HCCS shall work diligently to assist TRUSD in meeting any and all oversight obligations under the law, including monthly meetings, statutory fiscal reporting, or other requested protocol to ensure the District will not be liable for the operation of HCCS.

Further, HCCS and TRUSD have a memorandum of understanding, wherein HCCS indemnifies TRUSD for the actions of HCCS under this charter.

The corporate bylaws of HCCS provide for indemnification of the HCCS Governing Board of Directors, officers, agents, and employees, and HCCS maintains general liability insurance, Board Members and Officers insurance, and fidelity bonding to secure against financial risks.

As stated above, insurance amounts will be determined by recommendation of TRUSD and the TRUSD insurance company for schools of similar size, location, and student population. TRUSD will be named an additional insured on the general liability insurance of HCCS.

The HCCS Board will institute appropriate risk management practices as discussed herein, including screening of employees, establishing codes of conduct for students, and dispute resolution.

16.20 : Funding and Oversight Fee

HCCS elects to receive the state aid portion of charter school general-purpose entitlement and categorical block grant funds and any other funding as now computed by the Local Control Funding Formula pursuant to Education Code Section 42238.02 and implemented by Education Code Section 42238.03, and as received by the Charter School for its "Adult Education" programs, directly in accordance with Education Code Section 47651(a)(1). Funds for the Charter School shall be deposited directly into an account for the "Highlands Community Charter School" with the Sacramento County Office of Education ("SCOE"). The SCOE will then remit the funds to the Charter School. The District shall transfer to the Charter School funding in-lieu-of property taxes in accordance with Education Code Section 47635. HCCS recognizes that the District shall have no responsibilities for funding the Charter School beyond that required by law. Neither Greater Sacramento Urban League nor any other WIOA service provider in partnership with HCCS receives any type or amount of apportionment. Furthermore, these partners do not operate as an adult school program.

The Charter School agrees that all funding received for the Charter School, from any and all sources, including but not limited to all funding sources set forth in this Charter, or other agreement with the District,

shall be used exclusively to operate the Charter School, and shall not be used, either directly or indirectly, or by loan or gift, to fund, assist, pay for the debts of, or towards the operation of, any other school or establishment managed, controlled, or operated by the Corporation or Charter School, or operated by its members, officers, agents, servants, and employers, or for any other purpose whatsoever, unless mutually agreed by the parties.

In consideration for the actual costs of supervisorial oversight by the District, the Charter School shall pay an amount not to exceed one percent (1%) of the revenue of the Charter School (hereinafter, the "Oversight Fee") pursuant to Education Code section 47613. "Supervisorial oversight" for purposes of this section shall be limited to those duties listed in Education Code section 47604.32(a)(1) through (5), only. "Revenue" for purposes of this calculation is defined pursuant to Education Code section 47613(f) in the current fiscal year from the local control funding formula calculated pursuant to Education Code sections 42238.02 and 42238.03. "Revenue" for purposes of this calculation shall not include Charter School fund-raising activities, private donations, other public grants, or any other source of income developed by the Charter School.

16:22: Payment Schedule

The Charter School shall pay the supervisorial oversight fee and any other fees in quarterly installments for each school year. The District shall invoice the Charter School for fees due as of September 30, December 31, March 31, and June 30, with invoices to be prepared and submitted by the District to the Charter School within thirty (30) calendar days during the year and by September 15 (when the books are closed) at the end of the year. The Charter School shall pay all invoices within fifteen (15) business days of their issuance by the District. In the event payment is not received within five (5) business days following the payment due date, and/or if such payment is returned or unpaid due to insufficient funds, the Charter School authorizes the District to deduct any such fees or payments from future apportionments or any other monies received by the SCOE and/or District for the Charter School. The District may elect to offset and deduct any such fees from the District in-lieu property tax revenues next payable to the Charter School, in which case the District shall provide the Charter School with a detailed statement showing the amount of any such offset.

A Comprehensive High School Grade-Level Transition and Implementation Plan for Adding Grade 11

Highlands Community Charter School and California Innovative Career Academy

Context and Overview

Highlands Community Charter School (HCCS) and California Innovative Career Academy (CICA), consistent with proposed material revisions, are prepared to transition from the grade configuration outlined in the 2019 petition to a fully aligned 9th–12th grade high school model. Under the existing petition, both schools operate Grades 9, 10, and 12. With approval of the material revisions, Grade 11 will be added to create a complete, sequential high school pathway designed to support adult learners in completing diploma requirements with appropriate scaffolds and academic guidance.

All current and incoming students will undergo a comprehensive transcript evaluation process. This protocol includes verifying accrued credits, reviewing course histories, determining progress toward graduation requirements, and analyzing CASAS Reading scores and internal diagnostics to assign each student to the appropriate grade level—9, 10, 11, or 12—within the revised structure.

The transition to a four-grade high school model strengthens academic sequencing, reinforces accurate placement based on transcripted coursework, and ensures students have clear, developmentally appropriate access to the state-aligned high school curriculum and career pathway supports.

Evidence of Readiness to Implement Grade 11

HCCS and CICA demonstrate full operational readiness to implement Grade 11 upon approval of material revisions. The schools have the staffing structures, instructional materials, assessment systems, and administrative infrastructure needed to support an expanded grade configuration.

Key components of readiness include:

- **Credentialed Teachers:** Both schools employ fully credentialed teachers prepared to deliver Grade 11 coursework.
- **Curricular Infrastructure:** The currently adopted Savvas curriculum for Grades 9 and 10 will be expanded through the purchase and implementation of appropriately standards-aligned 11th-grade Savvas materials to ensure vertical coherence and full standards alignment across Grades 9–12.
- **Master Scheduling Capacity:** Existing master schedules can be expanded to include Grade 11 sections without disruption to current programming.
- **Counseling and Transcript Evaluation Systems:** Both schools have established transcript review protocols, graduation planning systems, and assessments that ensure accurate grade-level placement and progression tracking.
- **Data and Compliance Infrastructure:** Enrollment, CALPADS reporting, and SIS configurations are fully capable of supporting Grade 11 coding and monitoring.

These elements collectively demonstrate the schools' capacity to operationalize Grade 11 immediately upon approval and ensure full compliance with district expectations.

Detailed Plan for Adding Grade 11

A. Placement and Grade-Level Determination

Grade 11 will serve as the intermediate academic year between Grades 10 and 12, providing students with rigorous standards-based instruction and structured preparation for diploma completion. Placement into Grade 11 will be determined through:

- Transcript review and verification of accrued credits
- Analysis of academic progress toward graduation requirements
- Evaluation of CASAS and internal diagnostic assessments
- Counselor review of academic readiness, career goals, and pathway alignment

Students placed in Grade 11 will receive:

- Grade 11 college- and career-preparation

- Embedded academic and language support across content areas
- CTE exploration opportunities and guidance on pathways available across HCCS and CICA
- Ongoing monitoring and check-ins to ensure students remain on track for Grade 12 coursework

---

Operational Readiness for Grade 11 Implementation

To ensure immediate and seamless implementation of Grade 11, HCCS and CICA have prepared the following:

- **Updated Master Schedules:** Integration of Grade 11 sections aligned to staffing and credentialing.
- **Curriculum and Materials:** Acquisition of Savvas Grade 11 curriculum and supplemental instructional resources.
- **Professional Development:** Teacher preparation for Grade 11 instructional delivery, pacing guides, and assessment practices.
- **Data Systems:** SIS and CALPADS updates to ensure Grade 11 enrollment and reporting accuracy.
- **Counseling Protocols:** Revised academic pathways, graduation audits, and credit checks to reflect the 9–12 model.

All operational components—including instruction, data systems, staffing, facilities, and counseling—are fully prepared for the expanded grade configuration.

Student Transition Process

A. Transitioning Students Into Grade 11

Upon approval of the material revisions, HCCS and CICA will implement a structured, evidence-based transition process that includes:

1. **Transcript Evaluation:** Verification of credits earned, course histories, and alignment to diploma requirements.
2. **Assessment Review:** Use of CASAS and internal diagnostics to support placement decisions.
3. **Counselor Review:** Individualized evaluation of academic goals, career pathways, and readiness for upper-division coursework.
4. **Grade Assignment:** Placement into Grades 9, 10, 11, or 12 based on verified credit standing and academic readiness.
5. **Student Orientation:** Clear communication of expectations, course requirements, schedules, and available supports.

This ensures accurate and equitable placement across all high school grade levels.

B. Transitioning Students Back to Approved Grades (If Needed)

If material revisions are not approved, HCCS and CICA will:

- Maintain the grade configuration authorized in the 2019 petition (Grades 1, 2,, and 12).
- Reassign any students preliminarily identified for Grade 11 back to Grade 12 based on transcript and diagnostic assessment review.
- Ensure all grade-level adjustments maintain CALPADS accuracy and compliance.
- Provide counseling support to ensure clarity regarding credit requirements and academic progression.

This ensures compliance without disruption to instruction or student pathways.

Conclusion

This transition plan demonstrates that Highlands Community Charter School and California Innovative Career Academy are fully prepared to implement Grade 11 upon approval of the material revisions. The plan articulates operational readiness, curriculum alignment, transcript-driven placement procedures, and robust student support systems that ensure accurate grade-level assignment and sustained progress toward diploma completion.

Whether transitioning to a complete Grade 9–12 configuration or reverting to the 2019 petition grade structure if required, both schools remain committed to compliance, academic rigor, and high-quality instructional access for all adult learners.

Subject: RE: HCCTS Audit - TRUSD Notice of Concern
To: Matthew Lemos <matthew.lemos@hccts.org>, Jonathan Clement <jclement@eidebailly.com>
Cc: Melissa Roberson <melissa.roberson@hccts.org>, Maryana Mazyak <maryana.mazyak@hccts.org>

Hi Matthew,

Regarding the deadline of tomorrow that cannot be achieved for a report issuance. Currently we are working through final review of workpapers and final drafting of the report and then it will need to go to our national office for their review and approval due to the prior period restatement. I have met with the team just now and we will be moving folks off other projects this week and next so that Highlands is the only priority on everyone's list until it's completed. With that being said it's possible we could issue as soon as next week at the end of the week but I would realistically expect that it's more likely we would have a final draft to you around end of next week with a final review and approval from you and the national office completed the following week and issuance at that time during the week of April 28th. Unfortunately, we had significantly underestimated the time it would take for us to work through the comments, recommendations, and concerns from the various SCO, State Auditor's Office, and the attendance reviews that have been ongoing or were completed as we needed to be careful to address everything noted that may be relevant to the audit.

Thank you,

Scott Gustafsson | CPA | CFE | CITP

Independent Auditor's Report

Governing Board
Highlands Community Charter and Technical Schools
Sacramento, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Highlands Community Charter and Technical Schools (the Organization) (a California Nonprofit Public Benefit Corporation), which comprise the statement of financial position as of June 30, 2024, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of Highlands Community Charter and Technical Schools as of June 30, 2024, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States *(Government Auditing Standards)*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Correction of an Error

As discussed in Note 8 to the financial statements, the Organization restated the beginning net assets balance to reflect an understatement of accounts payable from the previous period. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary information such as the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations (CFR)* Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and other supplementary

information on pages 19-26 are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards and other supplementary information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Information

Management is responsible for the other information included in the financial statements. The other information comprises the Local Education Agency Organization Structure but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated _____, 2025 on our consideration of the Organization's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

Cash, End of Year	$ 47,720,201
Supplemental Cash Flow Disclosure	
Cash paid during the year in interest	$ 3,364

Note 1 - Principal Activity and Significant Accounting Policies

Organization

Highlands Community Charter and Technical Schools (the Organization) is a California not-for-profit organization. During the fiscal year ended June 30, 2024, the Organization operated two charter schools, Highlands Community Charter School and California Innovative Career Academy.

Highlands Community Charter School petitioned and was approved for a charter through Twin Rivers Unified School District on July 1, 2019, for a seven-year period ending June 30, 2026. The Organization was approved by the State of California Department of Education on July 1, 2014, and currently serves approximately 9,069 students.

California Innovative Career Academy petitioned and was approved for a charter through Twin Rivers Unified School District on July 1, 2019, for a seven-year period ending June 30, 2026. The Organization was approved by the State of California Department of Education on June 27, 2019, and currently serves approximately 3,180 students. California Innovative Career Academy opened on August 12, 2019.

The mission of the Organization is serving the unserved, by providing the education for a high school diploma to students, along with elective courses leading to a Certificate of Completion in one of the Organization's Career and Technical Education courses, thereby giving students all of the tools necessary to obtain a livable wage job, and a future for themselves and their family. The Organization offers students additional courses and time beyond the required schedules listed in the Schedule of Instructional Time.

Basis of Accounting

The accompanying financial statements were prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as applicable to nonprofit organizations. Revenues are recognized as discussed below, and expenditures are recognized in the accounting period in which the liability is incurred.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor restrictions.

Net Assets with Donor Restrictions – Net assets subject to donor (or certain grantor) restrictions. Some donor imposed (or grantor) restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity.

Concentration of Credit Risk

The Organization maintains its cash in bank deposit accounts which exceed federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 per depositor, per insured bank, for each account ownership category. At June 30, 2024, the Organization had approximately $50,935,184, in excess of FDIC-insured limits.

Receivables and Credit Policies

Receivables consist primarily of noninterest-bearing amounts due for educational programs. Management determines the allowance for uncollectable receivables based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Receivables are written off when deemed uncollectable. No allowance for doubtful accounts has been established, as the Organization deems all amounts to be fully collectible. Substantially all outstanding receivables as of June 30, 2024 are due from state and/or federal sources related to grant contributions and are expected to be collected within a period of less than one year.

Property and Equipment

Property and equipment additions over $5,000 are recorded at cost, or if donated, at fair value on the date of donation. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets ranging from 3 to 30 years, or in the case of capitalized leased assets or leasehold improvements, the lesser of the useful life of the asset or the lease term. When assets are sold or otherwise disposed of, the cost and related depreciation or amortization are removed from the accounts, and any remaining gain or loss is included in the statement of activities. Cost of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed currently.

The Organization reviews the carrying values of property and equipment for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment during the year ended June 30, 2024.

Right-of-Use Leased Assets and Liabilities

Right-of-use leased assets and the related liabilities are recognized at the lease commencement date and represent the Organization's right-of-use an underlying asset and lease obligations for the lease term. Right-of-use leased assets are measured at the initial value of the lease liability plus any payments made to the lessor before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term, plus any initial direct costs necessary to place the lease asset into service. Right-of-use leased assets are amortized over the shorter of the lease term or the useful life of the underlying asset using the straight-line method. The amortization period varies among the leases.

Revenue and Revenue Recognition

Operating funds for the Organization are derived principally from state and federal sources. The Organization receives state funding based on each of the enrolled student's average daily attendance (ADA) in its school. Contributions are recognized when cash or notification of an entitlement is received.

A portion of the Organization's revenue is derived from cost-reimbursable federal and state contracts and grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Organization has incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as refundable advances in the statement of financial position.

Donated Services and In-Kind Contributions

Volunteers contribute significant amounts of time to program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by generally accepted accounting principles. Contributed goods are recorded at fair value at the date of donation. Donated professional services are recorded at the respective fair values of the services received. No significant contributions of such goods or services were received during the year ended June 30, 2024.

Functional Allocation of Expenses

The financial statements report categories of expenses that are attributed to program service activities or supporting services activities such as management and general activities and fundraising and development activities. The costs of program and supporting services activities have been summarized on a functional basis in the statement of activities. The statement of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited based on management's estimates. The expenses that are allocated include salaries, employee benefits, fees for services, office expenses, and occupancy, which are allocated on the basis of estimates of time and effort.

Income Taxes

The Organization, including other related entities noted above, is organized as a California nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3), and qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi). It is also exempt from State franchise and income taxes under Section 23701(d) of the California Revenue and Taxation Code. The Organization is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Organization is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purposes. The Organization determined that it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

Management believes that the Organization has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the financial statements. The Organization would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Financial Instruments and Credit Risk

Deposit concentration risk is managed by placing cash, money market accounts, and certificates of deposit with financial institutions believed by management to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, no losses have been experienced in any of these accounts. Credit risk associated with accounts receivable is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from governmental agencies supportive of the Organization's mission.

Note 2 - Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date, comprise the following:

Cash	$ 47,720,201
Receivables	24,681,067
Less: net assets with donor restrictions	(10,610,292)
Total	$ 61,790,976

As part of the Organization's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations become due.

Note 3 - Property and Equipment

Property and equipment consist of the following at June 30, 2024:

Leasehold improvements	$ 1,547,496
Building	1,016,493
Computer and equipment	1,226,610
Total property and equipment	3,790,599
Less accumulated depreciation and amortization	(1,500,697)
Total	$ 2,289,902

Note 4 - Leases

The Organization leases certain real property for the operations of the charter school and equipment at various terms under long-term non-cancelable operating lease and finance lease agreements. The leases expire at various dates through 2028 and provide for renewal options ranging from 1 year to 5 years. The Organization includes in the determination of the right-of-use assets and lease liabilities any renewal options reasonably certain to be exercised. The Organization's operating lease provides for increases in future minimum annual rental payments. Additionally, the operating lease agreement requires the Organization to pay real estate taxes, insurance, and repairs.

The weighted-average discount rate is based on the discount rate implicit in the lease. If the implicit rate is not readily determinable from the lease, the Organization estimates an applicable incremental borrowing rate. The incremental borrowing rate is estimated using the Organization's applicable borrowing rates and the contractual lease term.

The Organization has elected the short-term lease exemption for all leases with a term of 12 months or less for both existing and ongoing operating leases to not recognize the asset and liability for these leases. Lease payments for short-term leases are recognized on straight-line basis.

The Organization elected the practical expedient to not separate lease and non-lease components for real property and equipment leases.

Total lease costs for the year ended June 30, 2024 were as follows:

Operating lease cost	$ 9,064,309
Finance lease cost	66,553
Interest expense	3,364
Amortization of right-of-use assets	63,189

The following table summarizes the supplemental cash flow information for the year ended June 30, 2024:

Cash paid for amounts included in the measurement of lease liabilities	
Operating cash flows from operating leases	$ 8,072,100
Operating cash flows from finance leases	66,553
Right-of-use assets obtained in exchange for lease liabilities	
Operating leases	$ 2,317,117

The following summarizes the weighted-average remaining lease term and weighted-average discount rate:

Weighted-average remaining lease term	
Operating leases	3.45 Years
Finance leases	0.53 Years
Weighted-average discount rate	
Operating leases	5.00%
Finance leases	5.00%

The future minimum lease payments under noncancelable operating and finance leases with terms greater than one year are listed below as of June 30, 2024:

	June 30, 2024	
	Operating	Finance
2025	$ 7,236,985	$ 38,822
2026	7,619,222	-
2027	7,877,643	-
2028	1,491,631	-
2029	120,972	-
Total lease payments	24,346,453	38,822
Less interest	(1,861,803)	(479)
Present value of lease liabilities	$ 22,484,650	$ 38,343

Note 5 - Net Assets

Net assets consist of the following at June 30, 2023:

Net assets with donor restrictions	
Subject to expenditure for specified purpose	
State programs	$ 10,610,292
Satisfaction of purpose restrictions	
Federal programs	$ 2,109,495
State programs	14,381,675
Total nets assets released from donor restrictions	$ 16,491,170

Note 6 - Employee Retirement Systems

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS)

Plan Description

The Organization contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. If a participating employer stops contribution to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers as all plan assets are held by the plan and all benefit obligations are borne by the STRP.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2022, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: http://www.calstrs.com/member-publications.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0% of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the State is the sponsor of the STRP and obligor of the trust. In addition, the State is both an employer and nonemployer contributing entity to the STRP.

The Organization contributes exclusively to the STRP Defined Benefit Program; thus, disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2024, are summarized as follows:

	STRP Defined Benefit Program	
Hire date	On or before December 31, 2012	On or after January 1, 2013
Benefit formula	2% at 60	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	60	62
Monthly benefits as a percentage of eligible compensation	2.0% - 2.4%	2.0% - 2.4%
Required employee contribution rate	10.25%	10.205%
Required employer contribution rate	19.10%	19.10%
Required state contribution rate	10.828%	10.828%

Contributions

Required member, the Organization, and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1% of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2024, are presented above and the Organization's total contributions were $4,436,840.

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law. If a participating employer stops contribution to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers as all plan assets are held by the plan and all benefit obligations are borne by the STRP.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2022, annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at: https://www.calpers.ca.gov/page/forms-publications.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2024, are summarized as follows:

	School Employer Pool (CalPERS)	
Hire date	On or before December 31, 2012	On or after January 1, 2013
Benefit formula	2% at 55	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	55	62
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%
Required employee contribution rate	7.00%	8.00%
Required employer contribution rate	26.680%	26.680%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Organization is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2024, are presented above and the total Organization's contributions were $3,213,018.

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the Organization. These payments consist of State General Fund contributions to CalSTRS in the amount of $1,486,339 (10.828% of annual payroll). Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements.

Note 7 - Contingencies, Risks, and Uncertainties

The Organization has received State and Federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate disallowances under terms of the grants, it is believed that any reimbursement, if required, would not be material.

The Organization applied for and received loan forgiveness from the SBA on its PPP loan of $2,973,000. In accordance PPP loan requirements, the Organization is required to maintain PPP loan files and certain underlying supporting documents for periods ranging from three to six years. The Organization is also required to permit access to such files upon request by the SBA. Accordingly, there is potential the PPP loan could be subject to further review by the SBA and that previously recognized forgiveness could be reversed based on the outcome of this review.

The Organization's credit filings remain open for potential examination by the Internal Revenue Service through the statute of limitations, which has varying expiration dates extending through 2027. Any disallowed claims resulting from such examinations could be subject to repayment to the federal government.

Note 8 - Restatement of Prior Year Net Assets

The Organization has restated the beginning net assets to reflect an increase in accounts payable for the year ending June 30, 2023, due to a correction of an error. As a result, the effect on the current fiscal year is as follows:

Net Assets - Beginning, as previously reported on June 30, 2023	$ 65,785,407
Accounts payable	(12,816,625)
Net Asset - Beginning, as Restated on July 1, 2023	$ 52,968,782

Note 9 - Subsequent Events

The Organization's management has evaluated events or transactions that may occur for potential recognition or disclosure in the financial statements through _____, 2025, which is the date the financial statements were available to be issued. Management has determined that there were no subsequent events or transactions that would have a material impact on the current year financial statements.

Note 1 - Purpose of Supplementary Schedules

Schedule of Expenditures of Federal Awards

Basis of Presentation
The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of the Organization under programs of the federal government for the year ended June 30, 2024. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements*, *Cost Principles*, *and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Organization, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the Organization.

Summary of Significant Accounting Policies
Expenditures reported in the schedule are reported on the accrual basis of accounting. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

Indirect Cost Rate
The Organization has not elected to use the ten percent de minimis cost rate.

Schedule of Average Daily Attendance

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the Organization. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to local education agencies. This schedule provides information regarding the attendance of students at the Organization.

Schedule of Instructional Time

This schedule presents information on the amount of instructional time offered by the Organization and whether the Organization complied with the provisions of *Education Code* Sections 47612 and 47612.5, if applicable.

The Organization must maintain their instructional minutes at the 1986-87 requirements, as required by *California Education Code* Section 47612.5.

Reconciliation of Annual Financial Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the net assets reported on the unaudited actual financial report to the audited financial statements.

DRAFT 5-9-2025

Combining Statement of Financial Position and Combining Statement of Activities

The combining statement of financial position and combining statement of activities report the activities of the Organization and related entities and are presented on the accrual basis of accounting. Eliminating entries in the combining statement of financial position and combining statement of activities are for activities between the Organization and related entities.

ORGANIZATION

The Organization operates two schools in California. Each school is operated on the same tax identification number as the Organization. Charters were granted for each school for up to five years, with an opportunity for renewal. Charters may be revoked by the charter authorizer for material violations of the charter, failure to meet or make progress toward student outcomes identified in the charter, failure to meet generally accepted standards of fiscal management, or violation of any provision of the law. As of June 30, 2024, the schools operated by the Organization were as follows:

Charter School Name	Charter Number	Sponsoring District	Charter Expiration	Grades Served	Students Served
Highlands Community Charter School	1674	Twin Rivers Unified School District	June 30, 2027	9-12	9,069
California Innovative Career Academy	2072	Twin Rivers Unified School District	June 30, 2027	9-12	3,180

DRAFT 5-9-2025

Independent Auditor's Reports
June 30, 2024

Highlands Community Charter and Technical Schools

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Governing Board
Highlands Community Charter and Technical Schools
Sacramento, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards)*, the financial statements of Highlands Community Charter and Technical Schools (the Organization), which comprise the statement of financial position as of June 30, 2024, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated _____, 2025.

Correction of an Error

As discussed in Note 8 to the financial statements, the Organization restated the beginning net assets balance to reflect an understatement of accounts payable from the previous period. Our opinion is not modified with respect to this matter.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as item 2024-001 that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Findings and Questioned Costs as item 2024-001.

The Organization's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Organization's response to the finding identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The Organization's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

_____, 2025

Independent Auditor's Report on Compliance for the Major Federal Program; Report on Internal Control over Compliance Required by the Uniform Guidance

Governing Board
Highlands Community Charter and Technical Schools
Sacramento, California

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited Highlands Community Charter and Technical Schools' (the Organization) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on the Organization's major federal program for the year ended June 30, 2024. The Organization's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the Organization complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Organization's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Organization's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Organization's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Organization's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Organization's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Organization's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

DRAFT 5-9-2025

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Rancho Cucamonga, California
_____, 2025

Independent Auditor's Report on State Compliance and on Internal Control Over Compliance

Governing Board
Highlands Community Charter and Technical Schools
Sacramento, California

Report on Compliance

Qualified and Unmodified Opinions on State Compliance

We have audited Highlands Community Charter and Technical Schools' (the Organization) compliance with the requirements specified in the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, applicable to the Organization's state program requirements identified below for the year ended June 30, 2024.

Qualified Opinion on Unduplicated Local Control Funding Formula Pupil Counts

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the Organization complied, in all material respects, with the compliance requirements referred to above that are applicable to the laws and regulations of the state programs noted in the table below for the year ended June 30, 2024.

Unmodified Opinion on Each of the Other Programs

In our opinion, the Organization complied, in all material respects, with the compliance requirements referred to above that are applicable to the laws and regulations of the state programs noted in the table below for the year ended June 30, 2024, except as described in the accompanying Schedule of Findings and Questioned Costs.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards)*, and the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the Organization's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on Unduplicated Local Control Funding Formula Pupil Counts

As described in the accompanying schedule of findings and questioned costs, the District did not comply with requirements regarding Unduplicated Local Control Funding Formula Pupil Counts described in the accompanying Schedule of Findings and Questioned Costs as item 2024-002.

Compliance with such requirements is necessary, in our opinion, for the Organization to comply with the requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Organization's state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Organization's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Organization's compliance with the requirements of the state programs as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Organization's compliance with the compliance requirements referred to above and performing such other procedures as we consider necessary in the circumstances.
- Obtain an understanding of the Organization's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal controls over compliance. Accordingly, we express no such opinion; and

- Select and test transactions and records to determine the Organization's compliance with the state laws and regulations applicable to the following items:

2023-2024 K-12 Audit Guide Procedures	Procedures Performed
Local Education Agencies Other Than Charter Schools	
Attendance	Not Applicable
Teacher Certification and Misassignments	Not Applicable
Kindergarten Continuance	Not Applicable
Independent Study	Not Applicable

School Districts, County Offices of Education, and Charter Schools	
Proposition 28 Arts and Music in Schools	Yes
After/Before School Education and Safety Program	Not Applicable
Proper Expenditure of Education Protection Account Funds	Yes
Unduplicated Local Control Funding Formula Pupil Counts	Yes
Local Control and Accountability Plan	Yes
Independent Study-Course Based	Not Applicable
Immunizations	Yes
Educator Effectiveness	Yes
Expanded Learning Opportunities Grant (ELO-G)	Not Applicable
Career Technical Education Incentive Grant	Yes
Expanded Learning Opportunities Program	Yes
Transitional Kindergarten	Not Applicable

2023-2024 K-12 Audit Guide Procedures	Procedures Performed
Charter Schools	
Attendance	Yes
Mode of Instruction	Yes
Nonclassroom-Based Instruction/Independent Study	Yes
Determination of Funding for Nonclassroom-Based Instruction	Yes
Annual Instructional Minutes – Classroom Based	Yes
Charter School Facility Grant Program	Yes

The term "Not Applicable" is used above to mean either the Organization did not offer the program during the current fiscal year, the Organization did not participate in the program during the current fiscal year, the program did not exceed the threshold for testing, or the program applies to a different type of local education agency.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are described in the accompanying Schedule of Findings and Questioned Costs as items 2024-002.

Government Auditing Standards requires the auditor to perform limited procedures on the Organization's response to the noncompliance findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The organization's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention from those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2024-002 to be material weaknesses.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

* Unmodified for all programs except for the following program which was qualified:

Name of Program
Unduplicated Local Control Funding Formula Pupil Counts

The following finding represents a material weakness related to the financial statements that are required to be reported in accordance with *Government Auditing Standards*. The finding has been coded as follows:

Five Digit Code	AB 3627 Finding Type
30000	Internal Control

2024-001 30000 –Financial Statement Preparation and Restatement (Material Weakness)

Criteria or Specific Requirements

Management is responsible for the design, implementation, and maintenance of internal controls to ensure that the financial statements are free from material misstatements, whether due to error or fraud. This includes the posting of all material adjustments necessary to close the year and accurately reflect the activity of the Organization.

Condition

Communicating Internal Control Related Matters Identified in an Audit defines a material weakness and significant deficiency. According to these definitions, an internal control system design must include elements to accurately prepare financial statements without adjustments by the auditor.

Questioned Costs

There were no direct questioned costs associated with the condition identified.

Context

The condition was identified through inquiry with the Organization's personnel and also through the review of available Organization records related to accounts payable.

Cause

The restatement of accounts payable and adjustments of accounts payable were due to error in recording.

Effect

During the course of our engagement, we identified material audit adjustments to the recorded account balances in the financial statements which, if not recorded, would have resulted in a material misstatement of the financial statements.

Repeat Finding

Yes, see prior year finding 2023-001.

Recommendation

We recommend management, and those charged with governance, evaluate the internal control structure and consider changes as necessary that will ensure that the financial statements are free from potential material misstatements and allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis.

Corrective Action Plan and Views of Responsible Officials

The Organization agrees that having an internal control system over monitoring accounts payable is an important part of the Organization's overall internal control process. The Organization has created processes to monitor and implement these controls.

None reported.

The following finding represents a significant material weakness and material instance of noncompliance including questioned costs that are required to be reported by the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. The finding has been coded as follows:

Five Digit Code	AB 3627 Finding Type
40000	State Compliance

2024-002 40000 – Unduplicated Local Control Funding Formula Pupil Count (Material Noncompliance)

Criteria or Specific Requirements

California Education Code Section 42238.02(b)(4) states that the charter should revise their submitted data on English learner, foster youth, and free or reduced-price meal eligible pupil counts to ensure the accuracy of data reflected in the California Longitudinal Pupil Achievement Data System (CALPADS).

Condition

The Unduplicated Local Control Funding Formula Pupil Counts submitted to the California Department of Education (CDE) was inaccurate. The charter inaccurately reported eligibility status for two students selected for testing on English Learner designation on CALPADS Form 1.18 – FRPM/English Learner/Foster Youth – Student List.

Context

The condition was identified through a selection of California Innovative Career Academy students from Form 1.18, based on the criteria as stated on the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, we selected a representative sample, to achieve a high level of assurance, from the students indicated as only English Learner (ADEL) identified under the ELAS Designation column and verify there is supporting documentation that indicates the student was eligible for the designation.

Cause

It appears that the condition identified has materialized as a result of the CALPADS system not being updated properly to reflect the change in designation for English learner.

Effect

As a result of our testing, it appears that the Charter did not accurately complete the "1.18 – FPRM/English Learner/Foster Youth – Student List" CALPADS report. The results of our testing have been documented as follows:

California Innovative Career Academy

Enrollment Count	Certified Total Unduplicated Count	Adjustment to Total Enrollment Count	Adjustment to EL	Adjusted Total Enrollment	Adjusted Total Unduplicated Pupil Count
6,162	5,866	0	(5)	6,162	5,861

Questioned Costs

The Charter opted to extrapolate the error, resulting in a total of 5 unduplicated pupil counts to be adjusted. The adjustment resulted in a decrease of $8,045 in local control funding formula funding. The estimated penalty was calculated using the CDE's audit penalty calculator.

Repeat Finding

Yes, see prior year finding 2023-001.

Recommendation

The Charter should ensure that students classified as English Learner proper reflect their designation in CALPADS by updating the students who have changed designations throughout the year.

Corrective Action Plan and Views of Responsible Officials

The Charter will update CALPADS throughout the year to ensure that the students' designations are accurately reflected in the system and matches English Learner status.

Highlands Community Charter and Technical Schools
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

Except as specified in previous sections of this report, summarized below is the current status of all audit findings reported in the prior year's Schedule of Findings and Questioned Costs.

Financial Statement Findings

2023-001 30000 –Financial Statement Preparation and Restatement (Material Weakness)

Criteria or Specific Requirements

Management is responsible for the design, implementation, and maintenance of internal controls to ensure that the financial statements are free from material misstatements, whether due to error or fraud. This includes the posting of all material adjustments necessary to close the year and accurately reflect the activity of the Organization.

Condition

Communicating Internal Control Related Matters Identified in an Audit defines a material weakness and significant deficiency. According to these definitions, an internal control system design must include elements to accurately prepare financial statements without adjustments by the auditor.

Questioned Costs

There were no direct questioned costs associated with the condition identified.

Context

The condition was identified through inquiry with the Organization's personnel and also through the review of available Organization records related to receivables, right-of-use lease assets, and lease liabilities.

Cause

The restatement of receivables and the adjustments of right-of-use lease assets and lease liabilities were due to error in recording.

Effect

During the course of our engagement, we identified material audit adjustments to the recorded account balances in the financial statements which, if not recorded, would have resulted in a material misstatement of the financial statements.

Recommendation

We recommend management, and those charged with governance, evaluate the internal control structure and consider changes as necessary that will ensure that the financial statements are free from potential material misstatements and allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis.

Current Status

Not implemented, see current year finding 2024-001.

Federal Awards Findings

None reported.

State Awards Findings

2023-002 40000 – Unduplicated Local Control Funding Formula Pupil Count (Material Noncompliance)

Criteria or Specific Requirements

In accordance with *Education Code* Sections 2574(b)(3)(c), 42238.02(b)(3)(B), and 41020, the Organization is required to maintain supporting documentation of students who had a designation of "Free" or "Reduced" on the "1.18 – FRPM/English Learner/Foster Youth - Student List" CALPADS report that indicates the student was eligible for the designation reported on the California Longitudinal Pupil Achievement Data System (CALPADS).

Condition

The Unduplicated Local Control Funding Formula Pupil Counts submitted to the California Department of Education was inaccurate. It appears that the Highlands Community Charter School inaccurately reported eligibility for a total of 20 students for Free and Reduce students.

The Unduplicated Local Control Funding Formula Pupil Counts submitted to the California Department of Education was inaccurate. It appears that the California Innovative Career Academy inaccurately reported eligibility for a total of 1 students for Free and Reduce students.

Questioned Costs

The Organization over claimed the total eligible pupils by 20 for Highlands Community Charter School, resulting in a decrease of approximately $15,226 in LCFF funding.

The Organization over claimed the total eligible pupils by 1 for California Innovative Career Academy, resulting in a decrease of approximately $1,871 in LCFF funding.

Context

The condition was identified through a selection of students from Form 1.18, based on the criteria as stated on the *2022-23 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, we selected a representative sample, to achieve a high level of assurance, from the students indicated as only free or reduced priced meal eligible (FRPM) identified under the "NSLP Program" column and verify there is supporting documentation that indicates the student was eligible for the designation.

Cause

It appears that the condition identified has materialized as a result of the CALPADS system not being updated properly to reflect the change in designation of Free and Reduced students.

Effect

As a result of testing, it appears that the Organization did not update the "1.18 – FRPM/English Learner/Foster Youth – Student List" CALPADS report due to the following events occurring: CALPADS was not being updated due to students not turning in their lunch applications by October 3 resulting in the Organization using the prior year designation, the Organization has a policy that allows a ten day grace period before the student's new status is put in effect, and when the "1.18 – FRPM/English Learner/Foster Youth – Student List" was amended the Organization only updated pupils who changed to free and reduced, which did not take into consideration the pupils who changed their status to paid.

Highlands Community Charter School

Enrollment Count	Certified Total Unduplicated Count	Adjustment to Total Enrollment Count	Adjustment Based on Eligibility for RFPM	Adjusted Total Enrollment	Adjusted Total Unduplicated Pupil Count
13,725	13,560	0	(20)	13,725	13,540

California Innovative Career Academy

Enrollment Count	Certified Total Unduplicated Count	Adjustment to Total Enrollment Count	Adjustment Based on Eligibility for RFPM	Adjusted Total Enrollment	Adjusted Total Unduplicated Pupil Count
3,345	3,175	0	(1)	3,345	3,174

DRAFT 5-9-2025

Recommendation

The Organization should ensure that students classified as Free and Reduced properly reflect their designation in CALPADS by updating the students who have changed designations throughout the year.

Current Status

Not implemented, see current year finding at 2024-002.

RE: Demand for Delivery of 2023-2024 Audit on Highlands Community Charter and Technical Schools

This letter shall serve as a formal demand, on behalf of Highlands Community Charter and Technical Schools ("Highlands" or the "School"), that Eide Bailly deliver its long overdue audit on the School, which has been outstanding since December 10, 2024. The audit covers the 2023-24 fiscal year. We are fast approaching eight (8) months past the deadline and Eide Bailly has yet to produce an audit report. Although a draft report was previously sent to the School, a final report was not issued. Your firm has told my client a number of different dates for when the audit report would be produced, but all of those dates have come and gone. **Your latest communication to the School indicates that you will produce a final audit on September 1, 2025, but this is unacceptable for the reasons explained below.**

Eide Bailly's continued failure to deliver an audit report has become an existential threat to Highlands that could cost Highlands hundreds of millions of dollars. This risk is not an exaggeration. Specifically, the Twin Rivers Unified School District (the "District") has served Highlands with a Notice of Violation for failing to produce a timely audit report. **Without Eide Bailly's prompt delivery of its audit report, Highlands cannot cure the District's Notice of Violation.** Should the School be unable to cure the Notice of Violation, the Governing Board of Twin Rivers Unified School District could revoke the charters of both schools operated by our nonprofit. We want to make clear to you that such an outcome would lead to catastrophic financial damages to Highlands and, in turn, damages for Eide Bailly if deemed the cause. A revocation would cause thousands of students to be tossed onto the street in the middle of the school year. This would not only be tragic for the students but would create a major public relations nightmare for your firm. Even the consideration of revocation would cause a very public airing of the failure by your firm to deliver a report at an open meeting of the District school board in front of the media. Every major media outlet in Sacramento is already covering this story.

In addition to the potential revocation and the total loss of state funding that would result from revocation, Highlands has received notice from the California School Finance Authority ("CSFA") that it stands to lose millions of additional dollars in funding. These funds are allocated to the School under the Charter School Facility Grant (SB 740) that reimburses Highlands for facilities leases.

The reason for this potential loss in funding is because the School is not in "good standing" while it has an unresolved Notice of Violation. The Notice of Violation pertains to your firm's failure to deliver an audit report for 2023-24. The inability to resolve the Notice of Violation is a direct consequence of Eide Bailly's failure to produce an audit for 2023-24 as required under our client's contract with you.

Time is of the essence for Eide Bailly to produce its long overdue report. Accordingly, to prevent any further financial loss to the School, Highlands respectfully demands that Eide Bailly deliver its audit report no later than August 15, 2025. We understand that you wanted an opportunity to have further review of your draft audit in light of the State Auditor's report, but you have had more than enough time to complete your due diligence, and our client has responded to all of your records requests. There simply is no excuse for these continued delays that are harming not only Highlands, but the general public that we serve.

For the avoidance of any doubt, this demand is not intended to influence Eide Bailly's potential findings, whatever they may be. The School is merely seeking the publication of Eide Bailly's audit report for 2023-24, with whatever findings you deem professionally appropriate, in an effort to prevent a further significant financial loss for the School through revocation or loss of SB 740 facilities reimbursement funding.

Failure to comply with this demand will force Highlands to pursue any and all legal remedies available, including but not limited to filing a complaint with the California Board of Accountancy for Eide Bailly's breach of professional responsibilities. A failure to provide the report will leave the School with no alternative because the School must demonstrate to its authorizing school district that it is taking all reasonable steps to ensure production of an audit report.

Regardless of any other issues between our client and Eide Bailly relating to prior audit periods, we urge you not to expand the issues of potential liability for your firm by continuing to fail to produce the audit report for 2023-2024.

Should you have any questions or concerns, please do not hesitate to contact me directly at (916) 646 –1400. Thank you for your prompt attention to this matter.

Sincerely,

LAW OFFICES OF YOUNG, MINNEY & CORR, LLP

HIGHLANDS
COMMUNITY CHARTER AND TECHNICAL SCHOOLS

September 3, 2025

Ryan DiGuilo
Chief Business Official
Twin Rivers Unified School District
5115 Dudley Blvd
McClellan Park, CA 95652

Subject: Notice of Concern/ Request for Information JLAC Audit Findings

Dear Mr. DiGuilo,

On August 15, 2025 TRUSD sent HCCTS a notice of concern/ request for information regarding the JLAC audit findings. HCCTS has drafted the following response.

If you have any additional questions or concerns, please do not hesitate to contact me at 1-(617)-823-9341 or via email at jonathan.raymond@hccts.org

Thank you,

Jonathan Raymond
Executive Director
Highlands Community Charter and Technical Schools

1. **HCCTS "Received More than $180M in K-12 Funds for Which It Was Not Eligible"**

Highlands has appealed this finding and is actively working with the state to address discrepancies.

The state auditor's determination regarding HCCTS's eligibility to receive K–12 funding is based on the finding that HCCTS did not show sufficient evidence of enforcing the 80% attendance requirement. We acknowledge that while Highlands consistently offered a full instructional program and while we maintained primary attendance documentation in PowerSchool in accordance with CDE requirements, our ability to compel adult learners to meet the 80% threshold was a persistent challenge. In the 2025-2026 school year, HCCTS has adopted stricter attendance policies and we are confident these reforms will allow Highlands to fully meet and document evidence of the 80% requirement moving forward.

2. **HCCTS Had "Engaged in Wasteful Spending and Inappropriate Hiring Practices"**

We do not dispute this finding and are taking every available recourse to hold these parties responsible, with sweeping new policies and procedures in place to prevent future abuses. The California State Audit report on HCCTS was released on June 25, 2025 and identified 30 expenditures in question. Of them, the following did not have an educational purpose:

Item #	Concern	Expenditure Amount	Description	Corrective Action
1	Conflict of Interest	$1500 per month for two months	A director level employee initiated a contract with his wife for mentor services	HCCTS is seeking reimbursement
2	Gift of Public Funds	$8,750	Holiday blankets for students that HCCTS purchased from a	HCCTS has been reimbursed for this expenditure by the Never Too

			vendor whose spouse is a director level employee at HCCTS	Late Foundation
3	Gift of Public Funds	$137,900	Purchased 6,000 beanies, scarves, and gloves as holiday gifts for students	HCCTS has been reimbursed for this expenditure from The Never Too Late Foundation
4	Wasteful Spending-Learning Recovery Emergency Block Grant	$1.96 Million	Total cost, including lodging, travel, and food to provide professional development to HCCTS employees in San Diego in August 2023	HCCTS has eliminated non-instructional or non-compliance related travel and will hold all professional development activities locally
5	Wasteful Spending-Travel Expense	$2,600	Flight to Paris to attend a technology conference for an employee whose mother was a board member	HCCTS is seeking reimbursement
