Appendix 6.B: Response Time Analysis for Summative ELPAC Forms

Notes:

- Raw scores for machine-scorable items were used to classify students into quartiles.
- All students who completed the test and have unrounded test time greater than zero (0) are included.
- Grade levels reflect students’ enrolled grade levels during the 2019–2020 school year.
- “N/A” indicates that there was only one student in the quartile, and standard deviation was not available.
