- *Small Schools:* Students are more likely to succeed in small schools, where teachers and the principal know each family well. Students and their needs are not lost in the crowd. Target enrollment for elementary schools (K-5) is between 320 and 400 students. Target enrollment for our secondary schools (6-12) is between 420 and 600 students.

- *Small Class Sizes:* In smaller classes, teachers can give each individual student the time and individual attention necessary to realize his or her personal academic goals. Aspire strives to maintain a 20:1 student-teacher ratio in kindergarten through third grade and a 29:1 ratio in grades four through twelve. Also, students in the 6th through 12th grade spend part of each day in seminars with a student-teacher ratio of approximately 17:1.
- *Looped Grouping:* In grade K-5, teachers typically teach the same group of students for two years. This longer time with one teacher, allows students to develop a deep relationship with one individual. The teacher saves instructional time during the second year of instruction as she/he knows the individual student's strengths and weaknesses on the first day of school. Instruction can begin as soon as the school year does. Students remain with the same teacher for kindergarten and first grade; second grade and third grade; and fourth and fifth grade.
- *Advisory Groups:* Beginning in the 6th grade, each student is assigned to an advisory group of approximately 17 students that meets on a regular basis with an adult advisor. The advisor acts as a bridge between the school and the students' other communities (e.g. family, work, clubs, social service agencies). The same group stays together through graduation, and provides a support structure for students.

Learning Time

Aspire provides 15% more learning time for students, and uses time more effectively during the year and day to maximize in-depth learning.

- *Longer School Day:* Students learn more when they are given more time to learn each day. With more time, teachers can create more effective projects to build higher order thinking skills. Aspire schools have, on average, a 7.5 hour school day for grades 1-12, and at least a 5-hour school day for kindergarten. In other words, Aspire students receive about one hour more instruction each day than students in traditional public schools.
- *Longer School Year:* Aspire schools provide approximately 187 to 190 days of instruction, which is 17 more days than traditional public schools. Some of these additional days are on Saturday, when parents can attend class with their children.
- *Modified Traditional Calendar:* After its first year of operation, the school uses a modified traditional calendar (shorter summer recess) to decrease the loss of learning during extended recesses.
- *Block Scheduling:* The daily schedule at grade 6th through 12th is typically organized around blocks of 90-120 minutes. Students can delve more deeply into subjects with these extended periods of time, and teachers work together to integrate the curriculum more seamlessly.

Teaching Methods

All educators at Aspire Public Schools use a variety of pedagogical strategies to ensure all students learn and grow continuously. Strategies are selected based on the teacher's knowledge of how students best learn different topics, and are usually used in combination. Aspire has created Instructional Guidelines in math, language arts, science and humanities, that spell out the frequency and purpose for each type of instruction. These guidelines, as well as the purchased curriculum materials, provide the structure for a standards-based curriculum. Aspire educators are also trained to adapt these methods in ways that maximize personalized experiences each child receives. The major strategies used include:

- *Explicit Instruction:* in this traditional form of teaching, the teacher presents the lesson, which includes: a purpose; specific instructions; modeling; guided practice; and checking for understanding. At the conclusion, students individually demonstrate their new skills or knowledge.
- *Massed and Distributed Practice:* this retention strategy provides students with many opportunities to practice new skills upon initial learning. Practice is then distributed over the course of many months to increase the retention of previously learned skills and knowledge.
- *Problem Solving:* this method provides students with a step-by-step process for determining the solution.
- *Inquiry:* in this process, students are presented with a problem or question, and formulate and test theories to work towards a solution.
- *Project-based Instruction:* In this approach, students apply learning to complex problems, and are required to conduct extended research, analyze and synthesize information across subject areas, and develop written and oral end products. Projects are also ideal for developing the "habits of mind" necessary for success in college and the world beyond, such as perseverance, responsibility, and time management. Projects are linked with students' real world experiences, making learning relevant. Many projects are community service oriented.
- *Apprenticeship:* Students may spend part of their time in the community and local businesses, applying their learning by doing real work alongside professionals in the field. These may take place in the summer, after school or during the day. In the past, Aspire students have held internships at non-profits, schools and community agencies.
- *Distance Learning:* In grades 11 and 12, students may elect to take some specialized coursework on-line, through colleges and universities.

Curriculum

Aspire uses a combination of adopted programs and curriculum developed in-house to meet Aspire standards and build basic skills, higher-order thinking skills, and life-skills. The curriculum is clearly articulated as a K-12 system and based on the California state standards. All elements of the curriculum are research-based and have been proven effective in schools.

- *Language Arts:* Students communicate ideas clearly and effectively in various modes of expression appropriate to audience and purpose. This may be through oral reports and debates, written letters and essays. Through the examination of various texts, students demonstrate critical reading and active listening skills in order to comprehend interpret and evaluate ideas. Students write extensively in both expository and creative forms.

When students are learning to read, instruction will focus on phonemic awareness, phonics instruction, fluency, and text comprehension. Writing is integrated into the learning process.

One of the main resources in K-6 literacy instruction may be the Open Court Reading materials. Writing is be supplemented with vocabulary and instruction based on the Six Traits of Writing. Grades 9 -12 use California's Recommended Literature list for the core of its English Language Arts program. This may be supplemented with real life readings such as editorials, non-fiction texts and additional resources such as Write Source.

- *Social Science:* Aspire's history and social studies curriculum ensures that students are historically literate (including culture, geography, politics, economics, and ethics) and become active, informed citizens (including U.S. policy and effective research techniques). Students apply historical, political, philosophical, geographical, economic and sociological knowledge to local and global situations in order to comprehend contexts and events, predict and evaluate the outcomes of human actions, and act responsibly as world citizens. Students learn to apply chronological, thematic and integrative thinking, develop and test hypotheses about cause and effect, gather evidence to support conclusions, use methods of historiography, conduct in-depth and relevant research, critically examine sources, and synthesize ideas. Materials at both the elementary and secondary level include primary sources, historical literature, History Alive! Interact and a variety of non-fiction texts.

Throughout the K-12 instructional program, social science and language arts are interwoven. The stories and facts in history are the vehicles for instructing students to read and write.

- *Mathematics:* Students apply mathematical concepts and processes, including number systems, operations, graphics and logic, in order to problem-solve within and outside of mathematics. Students demonstrate facility with the language of mathematics and express generalizations discovered through investigation. Students are expected to be competent in symbolic reasoning and in constructing logical arguments.

A balanced approach provides both the conceptual understanding of math and the skills to solve problems. By providing extensive math time in elementary classrooms and a double block of math in secondary schools, our state adopted math materials, Harcourt

Brace, Prentice Hall and California Preparatory Mathematics can be interwoven with other real-life problems.

A key tool in mathematics instruction is the standards-based software program Edusoft. Edusoft creates, scores and reports standards-based assessments. Aspire uses these assessments as both benchmark exams and formative assessments. The Edusoft reports in all subjects inform the teacher on whether the students have mastered a standard or need further instruction.

For example, the results of a standards-based assessment given in 5th grade might show that 90% of the students mastered Math Standard Number Sense 1.2, but only 15% mastered Number Sense 2.3. The teacher would provide remediation for students who did not understand one standard and reteach the whole class the other standard. Teachers use this data on a daily cycle. Grade level teams, principals and subject level teams look at this assessment data every two weeks.

- *Science*: Students demonstrate understanding of scientific concepts and ideas through real-world applications. Students utilize scientific research and inquiry methods to conduct investigations and problem-solve. They apply conceptual knowledge and processes from the major branches of science (biology, chemistry, the earth sciences and physics) in order to further the study of science and relate the study of science to other disciplines. Aspire uses a variety of curriculum materials and the state adopted textbooks may be supplemented with AIMS, FOSS, and local scientific resources such as guest speakers, field trips, and presentations.
- *Spanish/Second Language*: Students work with the fundamentals of language structure, pronunciations, grammar, vocabulary, idioms and phrases in Spanish to develop competency in oral and written Spanish. Students work with Spanish texts to develop an understanding and appreciation of the various Spanish-speaking cultures. Although Aspire primarily offers Spanish as a foreign language, our schools encourage 9th through 12th grade students to take advantage of courses on-line or at local colleges to receive instruction in other languages.

Other subjects essential to a healthy and balanced life are also covered in a variety of ways:

- *Visual and Performing Arts*: Appreciation and participation in the arts are essential to each student's development. At the elementary level, arts are integrated into thematic units to inspire students, help ideas come to life by using multiple intelligences, and ensure cultural literacy. Visiting artists and parent docents also provide special programs in the arts. Aspire secondary schools offer some on-campus electives in visual and performing arts and establish partnerships with local arts organizations and colleges to provide additional programs for students.
- *Health*: Students develop an understanding of the importance of health and nutrition through classroom instruction, selected special programs, collaborations with local health agencies, and thematic units. Health instruction follows the California Health

Framework. Data from the California Healthy Kids survey or our own internal surveys will inform additional needed interventions.

- *Physical Education:* Students receive regular physical education instruction. Emphasis is placed on activities that students are likely to engage in throughout their lives (e.g. running, dancing).

Early College Model

All Aspire secondary schools follow the Early College High School model, which is recognized by the California Department of Education as an important option for removing major barriers for “young people who are underrepresented in postsecondary education.” The California Department of Education partners with the Chancellor's Office for the California Community Colleges to support the Early College High School (ECHS) Initiative of the Foundation for California Community Colleges.

As an Early College High School, Aspire aims to blend high school and college into a coherent educational program, making it possible for all students to earn two years of college credit at the same time they are earning a high school diploma (within four to five years of entering ninth grade). (AB 967 and California Education Code 48800 – 48802 provides for high school students to concurrently enroll in high school and college courses.) College classes may be provided online, on the School’s campus, or on a local college campus. The courses may be taught by a college instructor or an employee of the School who has been qualified by a local college.

Alignment with California state standards and UC A-G requirements

All secondary courses that are tested through California’s Standardized Testing and Reporting (“STAR”) program are offered as high school courses, ensuring that all students master the California standards. For non-tested courses, Aspire will work closely with the local institutions of higher education to design and provide courses that both meet the college’s requirements and work within the California Frameworks.

Sample Scope and Sequence

A – G Reqm’t	9 th Grade		10th Grade		11th Grade		12th Grade	
	S1	S2	S1	S2	S1	S2	S1	S2
A: Social Science			World History	World History	US History	US History	Econ	<i>PoliSci</i>
B: English	English 1	English 1	English 2	English 2	English 3	English 3	Expos. Read/Wri t	<i>English 1A</i>
C: Math*	Geometry	Geometry	Alg 2	Alg 2	Trig	Trig	<i>Statistics</i>	<i>Pre-Calc</i>
D: Lab Science	Physics	Physics	Biology	Biology	Chemistry	Chemistry		<i>Biology</i>
E: Foreign Language			<i>Spanish or ASL</i>	<i>Spanish or ASL</i>				
F: Art					Art 1	Art 2	<i>Drama</i>	

G: Electives						<i>Psych</i>	<i>Anthro</i>	<i>AA Lit</i>
Aspire Add'l	<i>Tech</i>	<i>Tech</i>					Internship	Internship
	AVID	AVID	Advisory	Advisory	Advisory	Advisory	Advisory	Advisory
	English Comp	English Comp						

* Students are expected to pass Algebra in the 8th grade

** Courses in *italics* and highlighted will be community college or university classes.

Assessment

At Aspire Public Schools, assessment is a critical tool for observing individual student progress, determining the efficacy of individual teachers, and evaluating the success of the program as a whole. Multiple assessments are used because no single assessment provides sufficient information on students' learning regarding all three outcomes. Aspire students are assessed through:

- All standardized tests required for traditional public schools that are mandated in the California Education Code (including, but not limited to, CST, CELDT and Physical Fitness Test)²;
- Other nationally recognized norm-referenced and/or developmentally based tests (e.g. Developmental Reading Assessment, SRI Reading Assessment, SAT and ACT)
- Specialized assessments developed by Aspire Public Schools for all areas of the academic core (e.g. project rubrics);
- Day-to-day assessments related to specific content or skills (running record for language arts; Open Court phonics, Edusoft assessments; math computation quizzes, unit tests);
- Qualitative observations of the process of learning (teachers' anecdotal notes, a child's reflection log, internship mentor reports); and
- Examination of final products (a final draft of a paper, an interdisciplinary final project, 5th and 8th grade Rites of Passage (ROPES) project) based on criteria and standards clearly communicated at the beginning of the project.

Technology as a Tool

At Aspire, technology is used as a tool for research, communication, and production—just as it is in everyday life. Each school has 3 to 5 computers in a classroom with Internet

² The growing emphasis on norm-reference tests is much debated. Educationally, standardized tests are only a single indicator of mastery in basic skills; however, they are regarded by employers and policymakers as broadly meaningful. Aspire Public Schools believes that students should be prepared to be successful on the tests that they are held accountable for; these tests are often the key to future opportunity.

access, a computer lab or access to banks of laptop computers. Students exercise their higher-order thinking skills through simulations and presentations, their communication and production skills through electronic mail and publishing, and their research skills through use of electronic references, including the Internet.

THE EDUCATED PERSON IN THE 21ST CENTURY

Aspire recognizes that to be an Educated Person in the 21st century, our students need have a foundation of knowledge and skills to access this world of ideas, as well as the ability to analyze information, ask good questions and innovate new ideas, and express themselves thoughtfully. They must also have habits of mind that include self-motivation, intellectual curiosity, analytic ability, creative thinking, moral reasoning, self-confidence, and empathic action. Thus equipped, students will excel in college and become engaged and empowered citizens in their community and beyond.

Support for English Learners

Aspire is committed to the success of its English Learner population, and supports will be offered both within academic classes and in supplemental settings for students who need additional support for English learning. The Charter School will meet all applicable legal requirements for English Learners (“EL”) as it pertains to annual notification to parents, student identification, placement, program options, EL and core content instruction, teacher qualifications and training, re-classification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirement. The Charter School will implement policies to assure proper placement, evaluation, and communication regarding ELs and the rights of students and parents. The Charter School’s program for English Learners is research-based, supported by budget resources and professional development and evaluated regularly for efficiency and needed improvements.

- Home Language Survey

The School will administer the home language survey upon a student’s initial enrollment into the Charter School (on enrollment forms). Spanish-speaking students in the country less than twelve months will be given the state’s Designated Primary Language Test (currently the Aprenda and Standards-Based Tests in Spanish) to determine the student’s academic proficiency when tested in his/her home language of Spanish.

- CELDT Testing

All students who indicate that their home language is other than English will be California English Language Development Test (“CELDT”) tested within thirty days of initial enrollment³ and at least annually thereafter between July 1 and October 31st until

³ The thirty-day requirement applies to students who are entering a California public school for the first time or for students who have not yet been CELDT tested. All other students who have indicated a home language other than English will continue with annual CELDT testing based upon the date last tested at the prior school of enrollment.

re-designated as fluent English proficient.

The Charter School will notify all parents of its responsibility for CELDT testing and of CELDT results within thirty days of receiving results from publisher. The CELDT shall be used to fulfill the requirements under the No Child Left Behind Act for annual English proficiency testing.

Reclassification Procedures

Reclassification procedures utilize multiple criteria in determining whether to classify a pupil as proficient in English including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument including, but not limited to, the CELDT.
- Participation of the pupil's classroom teachers and any other certificated staff with direct responsibility for teaching or placement decisions of the pupil to evaluate the pupil's curriculum mastery.
- Parental opinion and consultation, achieved through notice to parents or guardians of the language reclassification and placement including a description of the reclassification process and the parents opportunity to participate, and encouragement of the participation of parents or guardians in the reclassification procedure including seeking their opinion and consultation during the reclassification process.
- Comparison of the pupil's performance in basic skills against an empirically established range of performance and basic skills based upon the performance of English proficient pupils of the same age that demonstrate to others that the pupil is sufficiently proficient in English to participate effectively in a curriculum designed for pupils of the same age whose native language is English.
- The Student Oral Language Observation Matrix will be used by teachers to measure progress regarding comprehension, fluency, vocabulary, pronunciation, and grammar usage.

Strategies for English Learner Instruction and Intervention

To meet the needs of English learners, Aspire has added a number of bilingual teaching strategies to its core program, including Specially Designed Academic Instruction in English (SDAIE). Specifically, those strategies include:

- realia (real objects and materials)
- manipulatives (drawings, posters, brainstorming-clusters, graphs, tables, maps, props, multimedia presentations, storyboards, storymaps)

- visuals (study-prints, text book illustrations, overheads-projected prints, reproductions of paintings and documents, and documents)
- graphic organizers (matrices, Venn diagrams and webs)
- planned opportunities for interaction between all individuals in the classrooms (creating a skit and acting it out, cooperative learning, collaborative groups and student-generated writing based on personal experience)

All teachers will be given professional development in teaching English Learners in their appropriate content areas, including having the opportunity to participate in Guided Language Acquisition Development (GLAD) training. The English Language Development Standards have been mapped to Aspire's Instructional Guidelines.

Ongoing Assessment of EL Students

The School's use of achievement data will also drive the instruction and professional development as it relates to English Learners. The School will analyze the achievement data by this subgroup, and continue to assess the students through teacher-designed assessments and Aspire's benchmark assessments.

Monitoring and Evaluation of Program Effectiveness

The evaluation for the program effectiveness for ELs in the Charter School will include:

- Adhere to School-adopted academic benchmarks by language proficiency level and years in program to determine adequate yearly progress.
- Monitoring of teacher qualifications and the use of appropriate instructional strategies based on program design.
- Monitoring of student identification and placement.
- Monitoring of parental program choice options.
- Monitoring of availability of adequate resources.

SUPPORT FOR STUDENTS

Highly Qualified Teachers

At the center of the educational program are the teachers. The faculty will consist of well-prepared and certified teachers. All core teachers and paraprofessionals will meet the requirements of the No Child Left Behind Act. Teachers are typically encouraged to pursue National Board Certification within their first five years at Aspire. Professional development and teacher collaboration will be scheduled on a regular and on-going basis to support teachers throughout their career. In establishing a professional teaching environment, Aspire will ensure collaborative planning time for teachers to design student focused curriculum, pedagogy and assessment through which students can make connections, deepen their understanding of concepts and achieve at high levels.

Personalized Learning Plans

The School will create and maintain a Personalized Learning Plan (PLP) for each student. The PLP will provide the teacher, parents and student with a common understanding of the student's learning style and objectives; all parties may then act based on that understanding. Once each trimester during Student-Led Conferences, the teacher, parent and student will discuss the student's learning strengths and weaknesses, and set goals for the next semester. By working closely with each student and family to develop an appropriate PLP, the School will be able to respond to the needs of every individual student, including those who are achieving above or below expected levels. This allows all students to receive the appropriate interventions, if needed, provided by the school (e.g. in- school, after-school or specialized classroom instruction). The high standards, deep interventions, and rigorous caring provided to all students can be personalized in the PLP. Indeed, the PLP will allow the School to help meet the general education needs of students with disabilities (who may also have Individualized Education Programs ("IEPs") or 504 plans as required by law), English learners, students achieving substantially above or below grade level expectation, and other special student populations.

Support for Students Achieving Below Grade Level

Aspire sets high expectations for *all* students and is committed to working with students who are not meeting outcomes to help them achieve at expected levels. Students who perform below the acceptable level may receive a mix of intervention services, including: in-class individual tutoring by classroom teachers; in-class small-group tutoring by classroom teachers; before- or after-school tutoring by non-classroom educators in a one-on-one or in small groups; participation in a specialized support class taught by a literacy specialist or other educator. Materials for intervention services may be designed by the educator or based on an off-the-shelf package such as READ 180.

Students targeted for additional intervention will include, but are not limited to, students who meet the following criteria:

Assessment	Criteria For Additional Intervention
CST – ELA or Math	Far Below Basic, Below Basic, Basic
DRA	Not at grade level
Parent Recommendation	Any
Teacher Recommendation	Any

Aspire uses the Response to Intervention framework (Rtl) to support all students below grade level. Rtl is a process by which schools are proactive and universal in assessing students' academic, behavioral and socio-emotional development needs and providing students with timely, targeted and effective research-based interventions. The interventions involve classroom differentiation, specific interventions and additional services, including special education services.

Aspire's Rtl framework strives to offer a comprehensive approach to assessing, supporting and monitoring the progress of all students. Rtl's framework encompasses and extends Aspire's data driven, student-focused approach to instruction and student support, and encourages us to deepen coordination across our core classroom, intervention, special education and non-academic services.

Support for Students Achieving Above Grade Level

Because Aspire's Instructional Guidelines are designed to differentiate and individualize instruction for students at different levels, students achieving above grade level can be effectively served at the School.⁴ For instance, the instruction during language arts allows students to be reading at their own instructional level. One student reading at grade level can sit next to another student doing the same activity at three grade levels higher. Small class sizes and looping also aid in differentiation of instruction because classroom teachers understand each individual student's needs. The variety of instructional techniques and materials provided in Aspire's program are cited as important features by the National Association for Gifted Children in the Gifted Educational Program Standards. Finally, any student achieving above grade level can be accelerated to a higher grade level at the discretion of the parent and principal.

Students in grades 9-12 achieving above grade level may also have the opportunity to take additional college courses and access internship opportunities commensurate with their skills and abilities.

Support for Special Education Students

In accordance with state and federal law, each student eligible under IDEA (Individuals with Disabilities Education Act) will be provided a free appropriate education in the least restrictive environment. The decisions regarding the specific services each student will receive

⁴ Gifted Education Program Standards, National Association for Gifted Children.
Aspire Public Schools: Statewide Benefit Charter (2012-2017)

are the responsibility of the Individualized Education Team. The Team includes the involvement of parents and the decisions are formulated in a written plan (referred to as an IEP).

The identification process for students who would be eligible for special education services begins when students have been accepted and enrolled in any Aspire Public School. All incoming students participate in a series of diagnostic assessments in Language Arts and mathematics. In addition students are also eligible through the “child find” process which is an ongoing aspect of the instructional program at all schools. Through an extensive use of the Student Study Team process and comprehensive professional development about the characteristics of special education handicapping conditions and the referral process, parents and students have extensive opportunities to be served.

Aspire Public Schools is a LEA Member in the EDCOE Charter SELPA

Schools founded under the Aspire Public Schools Statewide Benefit Charter shall participate as LEA members of the El Dorado County Office of Education Charter SELPA for the purposes of special education. All Aspire Public Schools, which are LEA members of EDCOE Charter SELPA, make the following assurances:

- Free Appropriate Public Education - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that a free appropriate public education shall be provided to all enrolled students including children with disabilities who have been suspended or expelled from school.
- Child Find - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that all students with disabilities are identified.
- Full Educational Opportunity - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that all students with disabilities have access to the full range of programs available to non-disabled students.
- Least Restrictive Environment - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that students with disabilities are educated with students who are not disabled to the maximum extent appropriate. This will be addressed through the use of supplementary aids and services in the general education environment.
- Individualized Education Program - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that an Individualized Education Plan is developed, reviewed and revised for each child who is eligible.
- Assessments - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that an IEP review shall be conducted on an annual basis at a minimum. In addition a reassessment shall be conducted at least once every three years, and more often if conditions warrant or requested by the student’s parents or teacher.

- Confidentiality and Procedural Safeguards - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that the confidentiality of identifiable data shall be protected at collection, storage, disclosure and destruction. In addition, students and their parents shall be provided with safeguards through the identification evaluation and placement process and provisions for a free appropriate public education.
- Personnel Standards - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that good faith efforts will be made to attract, recruit and hire appropriately trained and credentialed personnel to provide special education services to children with disabilities.
- State Assessments - Schools founded under the Aspire Public Schools Statewide Benefit Charter will assure that students with disabilities are included in State assessment programs with appropriate accommodations and modifications when necessary and appropriate.

In addition, each school chartered under the statewide benefit charter shall comply with the EDCOE Local Area Master Plan and perform all corrective actions deemed necessary by Aspire Public Schools and/or the EDCOE SELPA. The Director of Special Education at Aspire Public Schools will work with each school to develop an annual budget, hire necessary staff, contract for appropriate services and document the qualifications and competency of school leadership to meet the special education compliance and quality requirements.

The Director of Special Education, the Program Specialist and other team members will work with the EDCOE leadership to provide monthly professional development that builds the capacity of the special education staff in the areas of research-based best instructional practices, compliance with state and federal statutes, reporting requirements and use of instructional data. In addition, all staff members will be provided annual professional development about practices that support the needs of special education students in the least restrictive environment. To assist the professional development of the professional team at Aspire Public Schools a comprehensive plan for professional development as well as Induction for the Education Specialist Credential are provided.

Informing Parents about the Transferability of Courses to Other Public High Schools and the Eligibility of Courses to Meet College Entrance Requirements

Parents will receive a letter at the beginning of each school year that describes the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Aspire's current plans and expectations regarding course transferability and eligibility for college entrance requirements are described below.

Each school established under the Aspire Public Schools Statewide Benefit Charter will seek to earn accreditation by the Western Association of Schools and Colleges (WASC) and to ensure that every student has the opportunity to graduate with University of California/California State University (UC/CSU) approved coursework. With WASC accreditation

and UC/CSU course approval, students' coursework is recognized by other schools and out of state universities and colleges and by the admissions committees of the UC/CSU system.

To earn WASC accreditation, each School will apply for accreditation by WASC in the fall of the School's second year. This is the earliest date that WASC recommends new schools to apply. To apply for WASC accreditation, the School will fill out the "Request for WASC Affiliation" form – a form requiring only basic information (e.g., name, address, etc.). Once the "Request for WASC Affiliation" form is received by WASC, they will then send the School an "Initial Visit Application." The School will then fill out this "Initial Visit Application" form. It is a form that requires the school to report on largely the same things that this charter details (e.g., purpose of school, population and goals of school, governance and funding structures, etc.).

By the late winter of the school's second year, WASC will send a team to do a one day visit at the School. After their visit (and typically within two months) WASC will notify the School of its status. Each school anticipates receiving the highest approval rating for two reasons. First, much of the criteria that WASC seeks are criteria the School must meet in order to be granted a charter. Second, statistically, over one third of the schools that apply earn Interim Accreditation (the school has met all criteria and will conduct a self study the following year to gain full accreditation) and well over half earn Candidacy Status (the school is progressing and promises to meet all criteria and will conduct a self study in two years).

On such a timeline, each school is likely to earn WASC accreditation with Interim Accreditation by the end of its third year and WASC Accreditation with Candidacy Status by the end of its fourth year.

The secondary portion of the curriculum will develop both a foundation of basic skills and cultivate higher-order thinking skills; it will be simultaneously rigorous and relevant to students. The educational program emphasizes interdisciplinary thinking among subject areas. Upon completion of the graduation requirements, students will have met the University of California system A-G subject requirements.

Graduation and Course Requirements: Aspire Statewide Benefit Charter Schools

- Complete course requirements (See below).
- Pass portfolio and exhibition reviews (See below).
- Passing of the California High School Exit Exam
- College readiness and acceptance at a four-year college or university (See below).

Course Requirements

Students may fulfill course requirements through coursework at the School or through approved on-line coursework or approved coursework at a local college or community college. Students will complete course work within a course of study in alignment with the University of California and California State University (UC/CSU) system A-G requirements and earn a designated number of credits:

Subject	Credits Required	Comments
History/ Social Sciences	30	1 year of World History, 1 year of US History, 1 semester each of US Government & Economics
English	40	Emphasis in Literature and Composition
Mathematics	30	Courses must be Algebra 1 or higher
Laboratory Science	20	In at least two areas: biological and physical lab science
World Languages	20	Twenty credits must be earned in the same language
Visual & Performing Art	10	The 10 credits must be in the same form of art
Electives	50	Courses can be additional years in any of the above subject areas
Advisory/ AVID	40	
Technology	10	May waive by exam or juried assessment; if waived, credits substituted by another college preparatory elective
Total	250	All students must earn a C- or better for credit

In addition, students must earn the equivalent of 15 college credits.

Portfolio and Exhibition Requirements

In grades 9-12, students will be expected to demonstrate mastery through portfolios (a collection of student work) in the four core subject areas and in selected elective courses. These portfolios will include research papers, scientific experiments, essays and other products of students' inquiries. They may also include tests, teacher or employer/internship evaluations, or other assessments of student work. Students will also be expected to present and defend a number of their portfolios before a panel of judges including teachers and outside assessors. Students must complete an exhibition in each grade level: 9, 10, 11 and 12.

College Readiness and Acceptance to a Four-Year University

Throughout a student's educational experience at Aspire, they will receive support and counseling about getting accepted into four year universities. One-on-one counseling, parent workshops and a culture of college aspirations will allow every student to leave Aspire and attend a four year university. These services begin in sixth grade. College readiness and acceptance at one of these institutes of higher education are also graduation requirements.

Specifically, in order to graduate, each student is expected to fulfill the following requirements:

- Students must apply for and take the prescribed college board entrance examinations
- Students must apply to at least three (3) 4-year colleges or universities (in addition to or instead of community colleges)
- Students must apply to at least one (1) scholarship
- Students must be accepted to a 4 year university

By creating a College for Certain® culture, providing the necessary skills and coursework and supporting students through the process, Aspire is preparing the students for a successful postsecondary experience.

Element B: Measurable Pupil Outcomes

The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school's educational program.

- *California Education Code Section 47605(b) (5) (B)*

An Aspire education provides students with access to opportunities for success in future endeavors – in higher education, work, and citizenship. Through personalized learning experiences, students master *basic skills*, acquire the *thinking skills* needed for the rigorous work of the real world, and develop productive *life skills*. Aspire's educational program is designed to help all of its students to develop the following measurable pupil outcomes:

To establish a foundation for success, Aspire ensures students will:

- *Basic Skills*: Master at least grade level competency in the four core subjects: mathematics, science, social studies, and language arts (including reading, writing, listening and speaking);
- *Thinking Skills*: Be able to apply classroom learning to their real world experiences in a relevant and valuable way, using higher-order thinking skills (including critical thinking, creativity, decision-making, problem solving, reasoning, knowing how to learn); and
- *Life Skills*: Have developed personal qualities of individual responsibility, intellectual curiosity, sociability, self-management, confidence, and integrity.⁵

Aspire sets high standards for all students, based on California State Content Standards, Newmann's Standards for Authentic Instruction and Assessment, and the Secretary's Commission on Achieving Necessary Skills (SCANS). In addition, each student has a Personal Learning Plan (PLP), developed in collaboration with his/her teacher and parent(s) that outlines the student's specific learning goals each semester. Students will participate in the legally required statewide assessments pursuant to Education Code Section 47605(c). Through these assessments, Aspire shall demonstrate student mastery of state standards.

Please see specific measurable pupil outcomes below in Element C.

⁵ Based on important workplace skills as determined by the U.S. Department of Labor Secretary's Commission on Achieving Necessary Skills (SCANS), *Learning a Living: A Blueprint for High Performance*. April, 1992.

Element C: Methods by Which Pupil Progress Toward Meeting Outcomes is Measured

The method by which pupil progress in meeting those pupil outcomes is to be measured.

- California Education Code Section 47605(b) (5) (C)

Aspire’s academic program is standards-based and data driven. The California state content and performance standards and multiple sources of data form the basis of the School’s teachings. Performance assessments will be evaluated with the use of common benchmarks and rubrics and will be analyzed on a regular basis to help drive the School’s educational program. The rubrics will be used to inform students and parents about the standards for student work. Both teachers and students will use the rubric to score the work and make improvements. Rubrics used throughout the year will show growth over time.

In the 2007-2012 charter term, the Aspire Statewide Benefit Charter committed to pursuing the following pupil outcomes:

MEASURABLE PUPIL OUTCOMES 2007-2012

Desired Outcomes	Metrics	Frequency of Assessment
<i>Basic Skills:</i> In order to demonstrate basic skills, students will be assessed in each of the core subjects by classroom assessments and the tests utilized in California’s Standardized Testing and Reporting (STAR) Program.	100% students passing core academic classes	At end of each term
	Increase of 10% each year of students scoring proficient or advanced proficient based on STAR	Annually
<i>Thinking Skills:</i> Students will demonstrate thinking skills in the four core subject areas and in selected elective courses through interdisciplinary projects.	100% of students meeting interdisciplinary project requirements. Rubrics based on Newmann’s standards for rigor will be used to assess the final projects	Annually
	100% of students passing ROPE(s)/ exhibitions	Annually
<i>Life Skills:</i> Students will demonstrate life skills through regular attendance at School, participating in co-/extra-curricular activities, and continuing/graduating from the School.	95% or higher attendance rate	3 times a year
	90% of students participating in co-/extracurricular activities	Annually
	100% of students are promoted.	Annually

A detailed set of tables demonstrating the progress made by each school under the Aspire Statewide Benefit Charter 2007-2012 pupil outcomes is attached hereto and is incorporated herein by reference.

MEASUREABLE SCHOOL OUTCOMES 2007-2012

Desired Outcomes	Metrics	Frequency of Assessment
School meets or exceeds school wide Annual Academic Performance Index (“API”) growth target	CST	Annually
School’s numerically significant subgroups demonstrate comparable improvement in meeting or exceeding their annual API growth targets	CST	Annually

Aspire schools have demonstrated significant academic achievement and student growth, as measured by exceeding the state’s API growth targets, and/or achieving an 8 or above on the state’s similar school ranking after the 2nd year of operation. For 2010-11, all Aspire Statewide Benefit Charter schools with two or more years of API scores have achieved 800 or higher. Detailed charts setting forth Aspire’s growth and performance over the course of a school’s lifetime is attached. (A copy is attached hereto and is incorporated herein by reference.)

For the 2012-2017 charter term, the Aspire Statewide Benefit Charter commits to pursuing the following pupil outcomes:

MEASURABLE PUPIL OUTCOMES 2012-17

Desired Outcomes	Metrics	Frequency of Assessment
<i>Basic Skills:</i> In order to demonstrate basic skills, students will be assessed in each of the core subjects by classroom assessments and the tests utilized in California’s Standardized Testing and Reporting (STAR) Program.	Year 1: Baseline year Year 2: All subgroups meet or exceed double the State Growth Target Year 3: All subgroups meet or exceed double the State Growth Target Year 4: School meets or exceeds Academic Performance Index (“API”) of 800	Annually
<i>Thinking Skills:</i> Students will demonstrate thinking skills in the four core subject areas and in selected elective courses through interdisciplinary projects, demonstrated by participating in writing and open-ended math	100% of students participate in 2 Aspire-wide Writing assessments and 2 open-ended Math assessments, which are aligned with Common Core.	Annually

assessments		
<i>Life Skills:</i> Students will demonstrate life skills through regular attendance at School.	Attendance rate of 95% or higher	Annually

Collecting, Analyzing, and Reporting Data

Aspire will collect and analyze data on student achievement on a regular basis and will provide student achievement data to staff, parents and guardians, and the State Board of Education:

- Staff will receive data on student achievement during staff meetings using the Data Portal and will use this data to help monitor and improve Aspire’s education program;
- Parents and guardians will receive data on student achievement when they meet with their child’s teacher to develop, modify, or review their child’s PLP; and
- The State Board of Education will receive data on student achievement through School reports and/or presentations.

Aspire uses the State Testing and Assessment Reports to assist in identifying strengths and weaknesses at a student, classroom, grade level, school and organization. Additionally, the SABE/2 and the California Physical Fitness test will be administered and used to inform the school program. Every summer each school will have a staff retreat where the data will be analyzed. School wide plans for professional development will be based on these plans.

Aspire uses many in-house assessments which inform daily instruction. Three Aspire assessments provide the best benchmarks of a student’s progress towards reaching the state standards.

Reading Assessment

In grades K-8, the Developmental Reading Assessment (DRA) is used to benchmark students reading achievement at least three times a year. This assessment tool measures students’ independent reading level and instructional path to help teachers guide students to the next reading level. It not only allows a teacher to listen for decoding, fluency and strategies, it also allows a teacher to measure comprehension. The DRA levels span from 1 to 70 to show incremental reading growth. Aspire has set benchmarks for every grade level. Each teacher has similar weekly assessments that she/he uses in the classroom for instruction.

If students are not proficient readers when they reach the 9th grade level, teachers will switch the assessment to the Stanford Reading Inventory. This tool allows a broader diagnosis

of students reading at grade levels 1st through 12th. The scores are collected and analyzed on a regular basis.

Aspire Writing Assessment

Two times a year every student in the school takes a writing assessment. The prompts change and are aligned with the genres specific to the grade level standards. The papers are scored with other Aspire staff including teachers and instructional coaches to ensure validity of scores. The rubric for scoring is aligned with the writing rubric used by the state. Benchmarks are set for every grade level. These scores are analyzed two times a year.

Aspire Math Assessment

Every student takes an Aspire math assessment based on the specific grade level standards. The papers include both computation and a problem solving section. The computation is scored with Edusoft software. The problem solving is scored with Aspire teachers. A task analysis is done of every paper, so that teachers can identify standards that need to be re-taught. After every administration of the benchmark exams, the student data is analyzed at several levels – classroom, grade level, school and Aspirewide.

If any student is not making sufficient progress to meet the benchmarks created by Aspire, teachers, parents or administrators begin a Student Success Team. From this meeting an action plan is created to support the student.

Annually, the status of the school will be reported using a School Health Dashboard. This tool allows Aspire's Management Team to evaluate a school on more than one facet. At the beginning of the year, the dashboard will help Management Team identify schools that require more focused attention and support. On an on-going basis, this dashboard will also be used to monitor progress of schools on a monthly basis. Specifically, the dashboard reports on:

- Student achievement: Academic Performance Index, course grades, behavior, and internal benchmark scores;
- Affiliation: results on the staff, parent, and student surveys, teacher retention; and
- Financial: actual versus budget and forecast; average daily attendance.

Element D: Governance Structure of School

The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement.

- California Education Code Section 47605(b) (5) (D)

ASPIRE PUBLIC SCHOOLS BOARD OF DIRECTORS

Each school under the Aspire Statewide Benefit Charter will be an independent charter school governed by the Aspire Board of Directors. Aspire is a California, nonprofit, public benefit corporation. The current members of the Aspire Board of Directors are:

- Bill Hughson
San Rafael, CA 94901
- Melvin Kaplan, CEO
Wellington Financial Group
- Steven Merrill
Grass Valley, California
- Louise Muhlfield Patterson
San Francisco, California
- Don Shalvey, Ed.D., Founder
The Bill and Melinda Gates Foundation
- Richard (Dick) Spalding
Thomas Weisel Healthcare Venture Partners
- Jonathan Garfinkel
TPG Capital

Aspire is governed by the Aspire Public Schools Board of Directors in accordance with California's Charter Schools Act and the Nonprofit Public Benefit Corporation Law. The School will be governed pursuant to the bylaws adopted by the incorporators, as subsequently amended pursuant to the amendment process specified in the bylaws. Copies of the current Aspire Board's articles of incorporation, by-laws, and a conflicts code are attached but not incorporated herein by reference.

Aspire is non-sectarian in its programs, admissions policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any student or employee on the basis of race, ethnicity, national origin, gender, sexual orientation or disability or any other characteristic described in Education Code Section 220. Aspire complies with all

applicable federal, state and local laws applicable to its operation. It will retain its own legal counsel when necessary. It will purchase and maintain as necessary general liability, property, workers' compensation and unemployment insurance policies.

The Aspire Board of Directors currently consists of a maximum of 11 regular members plus one seat for every previously-identified sponsoring authority. At its option, the SBE may therefore designate a board designee to sit on the Aspire Board of Directors. The Board of Directors is responsible for establishing broad policies that affect all Aspire schools. For example, the Board of Directors and its Executive Committee may set policies related to staff hiring, benefits and compensation, conditions for student suspension or expulsion, controversial issues that affect more than one school site and teacher, and principal and staff compensation criteria. Members of the Board may also participate in raising funds and increasing public awareness of Aspire's work.

PARENT AND COMMUNITY INVOLVEMENT

Aspire encourages all groups to participate in and share responsibility for the educational process and educational results. In order to achieve this important end, the School plans to share local control with an Advisory School Council ("ASC"), consisting of parent and school representatives. Each school's ASC may participate in developing school policies and share in efforts to engage the support of the community. The ASC may make recommendations about issues related to the school and participate in reviewing parental and community concerns. The ASC will consist of representatives of the following parties: the principal, teachers, and parents. The principal is responsible for communicating all ASC policy recommendations to the Aspire Board of Directors. In short, Aspire's Board of Directors oversees issues related to Aspire schools in general, while the ASC's focus on the day-to-day concerns of each respective Aspire school.

ADDITIONAL OPPORTUNITIES FOR PARENT INVOLVEMENT

- Parents, students and teachers meet at least twice a year to plan and assess the students' learning progress and determine goal
- Exhibition panels – parents may sit on panels to judge student work
- School and staff evaluations – parents fill out a survey each year evaluating the strengths and weaknesses they identify with the program at the School
- Student-led conferences – students will lead conferences on their work during the year to keep parents informed
- Volunteer Opportunities – various opportunities will arise for parents to volunteer, such as helping in classrooms, leading extra-curricular activities, assisting in event planning, attending study trips, and serving on parent committees

- Fundraising – parents and community members may work with the school to raise additional resources to support students and the school program
- Advocacy – parents and community members communicate the school design and outcomes to the public, educators and policy makers and advocate for necessary policies and resources
- Aspire Board of Directors meetings – parents and community members are welcome to the Board meeting. In compliance with the Brown Act, Aspire posts the agenda for Aspire Board of Directors meetings at least 72 hours prior to the meeting.

ADDRESSING PARENT CONCERNS AND COMPLAINTS

Aspire is committed to working with parents to address parental concerns and complaints. Parents will be encouraged to share their ideas and concerns with the School and Aspire throughout the school year. In addition, an Ombudsman will serve as an objective, third party resource for parents or community members who wish to express a grievance to Aspire about the School. The Ombudsman, a respected community leader from the School's local community, will use his/her discretion to ameliorate specific parental concerns and may choose to discuss the problem with Aspire's Board of Directors in serious cases. Also, Aspire has established a formal complaint process to address any parent complaints about the employees or employment practices of the organization and has issued Community Complaint Procedures and a Community Complaint Form. Finally, Aspire is committed to providing a safe, discrimination-free and harassment-free education to its students. To help achieve this important end, Aspire has established a formal Discrimination/Harassment Policy and Complaint Procedure.

Element E: Employee Qualifications

The qualifications to be met by individuals to be employed by the school.

- California Education Code Section 47605(b) (5) (E)

Aspire will recruit professional, effective, and qualified personnel to serve in administrative, instructional, instructional support, and non-instructional support capacities. Aspire believes that all of its employees play a key role in creating a successful learning environment and will recruit qualified employees throughout the organization. Aspire recognizes that employment is voluntary, and the Aspire Board of Directors shall not require any employee to be employed at an Aspire school. The School will conduct background checks on employee candidates to provide for the health and safety of the School's faculty, staff, and pupils and the academic success of the pupils. Aspire's Human Resources department, along with the Chief Academic Officer, shall monitor compliance with this policy. Employees will meet specific qualifications for employment as outlined in their job descriptions. Teachers at each school will meet all requirements for employment set forth in applicable provisions of law, including credential requirements outlined in Section 47605(l) of Charter Schools Act.

PRINCIPAL QUALIFICATIONS

Principals are the instructional leaders at each Aspire Statewide Benefit Charter school and will be responsible for helping the Schools and students achieve the outcomes outlined in this charter petition. The Principal will have the following qualifications:

Required knowledge, skills, and abilities:

- Superb communication and community-building skills
- Deep knowledge of curriculum development and program design
- A record of success in developing teachers
- Entrepreneurial passion

Required educational level:

- Bachelors degree
- Graduate coursework in educational administration

Required experience:

- 5 plus years teaching and administrative experience
- Experience in performance assessment

OFFICE MANAGER QUALIFICATIONS

The Office Managers are responsible for overall front office activities, will report to the Principal, and will work with students, parents, and outside parties. The Office Manager will have the following qualifications:

Required knowledge, skills, and abilities:

- Strong organizational, time management, and multi-tasking skills
- Strong interpersonal and communication skills
- Expedience in office management capacity
- Ability to work independently as well as with a team

Required educational level:

- A.A. degree or equivalent work experience

Required experience:

- 3 plus years in fast-paced administrative support position
- Experience in school front office preferable
- Proficiency with Microsoft Office

TEACHER QUALIFICATIONS

Criteria for the selection of teachers are adapted from the five standards used for certification from the National Board for Professional Teaching Standards. During the hiring process, candidates are evaluated using these standards:

1. Committed to students and learning
2. Knowledgeable about their subject matter
3. Skilled in management of learning
4. Reflective in their practice
5. Community-oriented

In addition, teachers of core, college preparatory courses at each Aspire school will be required to hold a CCTC certificate, permit, or other document equivalent to that which a teacher in other public schools would be required to hold. Teachers who are hired to teach a specific subject (e.g. math) will be required to hold a subject-specific credential or permit from the CCTC. In accordance with Education Code Section 47605(l), flexibility shall be given with regard to noncore, noncollege preparatory courses.

Additionally, teachers shall meet all applicable highly qualified requirements under the No Child Left Behind Act.

TEACHER HIRING

As a public charter school organization with a clearly defined focus, Aspire tends to attract educators interested in working in more accountable, innovative, collaborative environments—teachers and principals who are themselves educational entrepreneurs. A rigorous and sound process for selecting from the pool of teacher candidates is essential.

Aspire's multiple-stage approach includes: a resume screen; interview with a site hiring committee (discussed below); demonstration lesson with students; and reference checks.

The principal will be in charge of School hiring decisions and may have the opportunity to work with other staff and community members in making these decisions. The School may utilize a hiring team that includes some or all of the following individuals:

- *Principal:* Chairs the hiring committee and makes all final decisions on hiring for the School.
- *Office Manager:* Helps organize the process and paper trail, including: scheduling candidates for interviews and demonstration lessons; collecting score sheets; coordinating with current staff or participating students for demonstration lessons; and sending declined candidates' paperwork to Aspire's Home Office.
- *Teachers:* Actively participate in evaluating candidates through interview and demonstration lesson observation.
- *Parents:* Actively participate in evaluating candidates through the interview process, observe demonstration lessons and provide input.

PROFESSIONAL DEVELOPMENT

Once teachers are hired, Aspire invests in their continued professional development. Teachers new to Aspire participate in 2 weeks of training to become fluent in the Aspire education program; Aspire culture, literacy instruction, math instruction, rigorous interdisciplinary instruction, parent engagement and time with other team members examining student data. Each subject training includes professional development about assessing student achievement, classroom management and differentiating instruction.

In addition, Aspire conducts several school-year workshops in specific areas. The School Principal, in his/her capacity as instructional leader, provides on-site coaching. Teachers are organized into teams, led by an experienced "lead teacher" who has the skills to mentor others. Teachers are then able to collaborate and support each other to reach the Schools' and individual students' learning goals. Aspire also has instructional coaches who provide additional support, provide one-on-one consultation, conduct experience-based group sessions (e.g. New Teacher Support Program), and guide educators in their application for certification from the National Board for Professional Teaching Standards. Teachers are evaluated by their School Principal at least twice a year according to research-based criteria.

Element F: Health and Safety Procedures

The procedures that the school will follow to ensure the health and safety of pupils and staff. These procedures shall include the requirement that each employee of the school furnish the school with a criminal record summary as described in Section 44237.

- California Education Code Section 47605(b) (5) (F)

In order to provide safety for all students and staff, Aspire has adopted and implemented full health and safety procedures and risk management policies at each school site in consultation with its insurance carriers and risk management experts. A sample school site health and safety plan is attached and incorporated herein by reference.

PROCEDURES FOR BACKGROUND CHECKS

Employees and contractors of Aspire Public Schools will be required to submit to a criminal background check and to furnish a criminal record summary as required by Education Code Sections 44237 and 45125.1. New employees not possessing a valid California Teaching Credential must submit two sets of fingerprints to the California Department of Justice for the purpose of obtaining a criminal record summary. Aspire's Human Resources department, along with the Chief Academic Officer, shall monitor compliance with this policy. Volunteers who will volunteer outside of the direct supervision of a credentialed employee shall be fingerprinted and receive background clearance prior to volunteering without the direct supervision of a credentialed employee.

ROLE OF STAFF AS MANDATED CHILD ABUSE REPORTERS

All non-certificated and certificated staff will be mandated child abuse reporters and will follow all applicable reporting laws.

TUBERCULOSIS TESTING

Faculty and staff will be tested for tuberculosis prior to commencing employment and working with students as required by Education Code Section 49406.

IMMUNIZATIONS

All students enrolled and staff will be required to provide records documenting immunizations as is required at public schools pursuant to Health and Safety Code Sections 120325-120375, and Title 17, California Code of Regulations Sections 6000-6075. Beginning July 1, 2011, all rising and enrolled students in grades 7-12 must be immunized with a pertussis

(whooping cough) vaccine booster. Beginning July 1, 2012, this requirement applies only to rising 7th graders.

MEDICATION IN SCHOOL

Each Aspire school will adhere to Education Code Section 49423 regarding administration of medication in school.

VISION, HEARING, AND SCOLIOSIS

Students will be screened for vision, hearing and scoliosis. Aspire will adhere to Education Code Section 49450, *et seq.*, as applicable to the grade levels served by the Charter School.

DIABETES

Aspire will provide an information sheet regarding type 2 diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of type 2 diabetes.
2. A description of the risk factors and warning signs associated with type 2 diabetes.
3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes should be screened for type 2 diabetes.
4. A description of treatments and prevention of methods of type 2 diabetes.
5. A description of the different types of diabetes screening tests available.

EMERGENCY PREPAREDNESS

Each Aspire school shall adhere to an Emergency Preparedness Handbook drafted specifically to the needs of the school site in conjunction with law enforcement and the Fire Marshall. This handbook shall include, but not be limited to the following responses: fire, flood, earthquake, terrorist threats, and hostage situations. If assuming a facility that was previously used as a School site, any existing emergency preparedness plan for the school site shall be used as a starting basis for updating the handbook for the School.

BLOOD BORNE PATHOGENS

Aspire schools shall meet state and federal standards for dealing with blood borne pathogens and other potentially infectious materials in the work place. Whenever exposed to blood or other bodily fluids through injury or accident, staff and students shall follow the latest medical protocol for disinfecting procedures.

DRUG FREE/ALCOHOL FREE/SMOKE FREE ENVIRONMENT

Aspire schools shall function as a drug, alcohol and tobacco free workplace.

FACILITY SAFETY

Each Aspire school shall comply with Education Code Section 47610 by either utilizing facilities that are compliant with the Field Act or facilities that are compliant with the California Building Standards Code. Aspire schools agree to test sprinkler systems, fire extinguishers, and fire alarms annually at its facilities to ensure that they are maintained in an operable condition at all times. The schools shall conduct fire drills as required under Education Code Section 32001.

COMPREHENSIVE SEXUAL HARASSMENT POLICIES AND PROCEDURES

Aspire is committed to providing a school that is free from sexual harassment, as well as any harassment based upon such factors as race, religion, creed, color, national origin, ancestry, age, medical condition, marital status, sexual orientation, or disability. Aspire has developed a comprehensive policy to prevent and immediately remediate any concerns about sexual discrimination or harassment at the school (including employee to employee, employee to student, and student to employee misconduct).

Element G: Means to Achieve Racial/Ethnic Balance

The means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the general population...

- California Education Code Section 47605(b) (5) (G)

Aspire will strive to ensure that the student population at each Aspire school will be reflective of the general population residing within the territorial jurisdiction of the school district in which each Aspire school is located. Aspire will monitor the racial and ethnic balance among its students on an annual basis and will engage in a variety of means and strategies, including monitoring and revising its student outreach plan on an annual basis, to try to achieve a racially and ethnically diverse student population. A copy of Aspire recruitment strategies is attached and incorporated herein by reference. These strategies will include:

- Developing an enrollment timeline and process that allows for a broad-based recruiting and application process,
- Engaging in outreach efforts and making presentations via neighborhood groups, community organizations, churches, and other leadership organizations, and local preschools
- Advertising openings through marketing brochures, posting flyers in neighborhoods, distributing flyers at local grocery stores, and/or TV/radio public service announcements targeted towards diverse populations, and when needed, in various languages.

Aspire shall not discriminate on the basis of the characteristics listed in Section 220 (actual or perceived disability, gender, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code or association with an individual who has any of the aforementioned characteristics).

Element H: Admission Requirements

Admission requirements, if applicable.

- California Education Code Section 47605(b) (5) (H)

Aspire will be nonsectarian in its programs, admission policies, and all other operations, and will not charge tuition nor discriminate against any student based upon any of the characteristics listed in Education Code Section 220.

Aspire shall admit all pupils who wish to attend the Charter School. No test or assessment shall be administered to students prior to acceptance and enrollment into the school. Aspire will comply with all laws establishing minimum and maximum age for public school attendance in charter schools.

The Aspire application process is comprised of the following:

- Completion of a Student Interest Form for each child who is interested in attending the school

Applications will be accepted during a publicly advertised open application period each year for enrollment in the following school year. Following the open enrollment period each year, applications shall be counted to determine whether any grade level has received more applications than availability. In the event that this happens, the Charter School will hold a public random drawing to determine enrollment for the impacted grade level, with the exception of existing students who are guaranteed enrollment in the following school year. Enrollment preferences in the case of a public random drawing shall be as follows:

- All students currently enrolled
- All students who seek to continue their preparation and readiness for college from other Aspire schools, including those matriculating from an Aspire elementary school to an Aspire secondary school
- Children of Aspire Regular, Full-time employees
- Siblings of students already admitted to the Charter School
- Children of founding families of the Charter School, as defined by Aspire Board policy
- All other students in the state of California

At the conclusion of the public random drawing, all students who were not granted admission due to capacity shall be given the option to put their name on a wait list according to their draw in the lottery. This wait list will allow students the option of enrollment in the case of an opening during the current school year.

In no circumstance will a waitlist carry over to the following school year.

Upon confirmation that a student has secured a spot at the school, parents must submit a completed Registration Form.

PLANNED APPLICATION, PUBLIC RANDOM DRAWING, AND ADMISSION SCHEDULE

Aspire typically utilizes the following application, public random drawing, and admission schedule. The schedule below may be abbreviated to ensure all steps are followed within a shorter timeframe if required by the opening date of a particular Aspire school.

December – January	Recruit students (via referrals, networking, and holding enrollment and option fairs). Collect Student Interest Forms.
January - March	Send re-enrollment forms to existing students to identify open seats. Public random drawing conducted (if necessary).
March - May	Waitlist letters distributed to applicants not selected in the public random drawing. Acceptance letters and registration packets distributed to parent and children who have been drawn in the public random drawing.

Element I: Financial Audit

The manner in which annual, independent, financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.

- California Education Code Section 47605(b) (5) (I)

An annual fiscal audit, required under the Charter Schools Act, will be conducted by an auditor with experience in education finance and will use generally accepted accounting principles. That audit will cover each of Aspire's schools including those under the statewide charter umbrella. Because Aspire has only one legal entity, only one set of audited financial statements will be produced for Aspire, but those financial statements will include supplementary information showing site-by-site results.

Aspire's Audit Committee, in conjunction with Aspire's Chief Financial Officer, is responsible for contracting with the independent auditor, who shall be selected from the Certified Public Accountant's Directory published by the State Controller's Office. The audit shall be conducted in accordance with Education Code Section 47605(m) and the applicable portions of Standards and Procedures for Audits of California K-12 LEAs as published in the *California Code of Regulations*. Aspire's Chief Financial Officer is responsible for overseeing the independent audit. Aspire shall transmit a copy of its annual independent financial audit report for the preceding fiscal year to the State Board of Education or designated staff and any other entities (including the California Department of Education, the California Department of Education Charter Schools Division, the California Department of Education Audit Resolution Office, the State Controller's Office, the County Office of Education, in which each Aspire school is located, and any other agency as the State Board of Education may direct) as required by law and by December 15 of each year. The Executive Committee of the Aspire Board of Directors will resolve audit exceptions and deficiencies in a timely fashion, and will report to the State Board of Education regarding how the exceptions and deficiencies have been or will be resolved to the satisfaction of the State Board of Education. Any disputes regarding the resolution of audit exceptions and deficiencies will be referred to the dispute resolution process contained in this charter, or if applicable, referred to the Education Audit Appeal Panel (EAAP) appeal process as required by Education Code Section 41344.

Aspire will comply with the Public Records Act (Government Code Section 6250) and the Brown Act (Government Code Section 54950).

Aspire shall promptly respond to all reasonable inquiries pursuant to the requirements of California Education Code Section 47604.3.

Element J: Pupil Suspension and Expulsion Procedures

The procedures by which pupils can be suspended or expelled.

- California Education Code Section 47605(b) (5) (J)

This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well-being of all students at Aspire Public Schools. In creating this policy, Aspire has reviewed Education Code Section 48900 *et seq.* which describes the noncharter schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 *et seq.* Aspire is committed to annual review of policies and procedures surrounding suspensions and expulsions, and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion to comply with applicable law.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as Aspire's policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements. Aspire staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations. Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

Aspire administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that this Policy and Procedures are available on request at the School Administrator's office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom Aspire has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 ("IDEIA") or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 ("Section 504") is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. Aspire will follow all applicable federal and state laws including but not limited to the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom Aspire has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

GROUNDS FOR SUSPENSION AND EXPULSION OF STUDENTS

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at any time including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

ENUMERATED OFFENSES

1. Discretionary Suspension Offenses. Students may be suspended for any of the following acts when it is determined the pupil:

- a) Caused, attempted to cause, or threatened to cause physical injury to another person.
- b) Willfully used force of violence upon the person of another, except self-defense.
- c) Unlawfully possessed, used, sold or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind.
- d) Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.
- e) Committed or attempted to commit robbery or extortion.
- f) Caused or attempted to cause damage to school property or private property.
- g) Stole or attempted to steal school property or private property.
- h) Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a pupil.
- i) Committed an obscene act or engaged in habitual profanity or vulgarity.
- j) Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.

- k) Disrupted school activities or otherwise willfully defied the valid authority of supervisors, teachers, administrators, other school officials, or other school personnel engaged in the performance of their duties.
- l) Knowingly received stolen school property or private property.
- m) Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
- n) Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 288, 288a or 289, or committed a sexual battery as defined in Penal Code Section 243.4.
- o) Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
- p) Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
- q) Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, "hazing" means a method of initiation or pre-initiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this section, "hazing" does not include athletic events or school-sanctioned events.
- r) Made terrorist threats against school officials and/or school property. For purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars (\$1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family's safety, or for the protection of school property, or the personal property of the person threatened or his or her immediate family.
- s) Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be

sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

- t) Caused, attempted to cause, threaten to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to pupils in any of grades 4 to 12, inclusive.
- u) Intentionally harassed, threatened or intimidated a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading student rights by creating an intimidating or hostile educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.
- v) Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act, as defined in subdivisions (f) and (g) of Section 32261 of the Education Code, directed specifically toward a pupil or school personnel.
- w) A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (1).
- x) Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the School Administrator or designee's concurrence.

2. Non- Discretionary Suspension Offenses: Students must be suspended and recommended for expulsion for any of the following acts when it is determined the pupil:

- a) Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the students had obtained written permission to possess the item from a certificated school employee, with the School Administrator or designee's concurrence.

3. Discretionary Expellable Offenses: Students may be expelled for any of the following acts when it is determined the pupil:

- a) Caused, attempted to cause, or threatened to cause physical injury to another person.
- b) Willfully used force of violence upon the person of another, except self-defense.

- c) Unlawfully possessed, used, sold or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage, or intoxicant of any kind.
- d) Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.
- e) Committed or attempted to commit robbery or extortion.
- f) Caused or attempted to cause damage to school property or private property.
- g) Stole or attempted to steal school property or private property.
- h) Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a pupil.
- i) Committed an obscene act or engaged in habitual profanity or vulgarity.
- j) Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.
- k) Disrupted school activities or otherwise willfully defied the valid authority of supervisors, teachers, administrators, other school officials, or other school personnel engaged in the performance of their duties.
- l) Knowingly received stolen school property or private property.
- m) Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
- n) Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 288, 288a or 289, or committed a sexual battery as defined in Penal Code Section 243.4.
- o) Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.

- p) Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
- q) Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, “hazing” means a method of initiation or pre-initiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this section, “hazing” does not include athletic events or school-sanctioned events.
- r) Made terrorist threats against school officials and/or school property. For purposes of this section, “terroristic threat” shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars (\$1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family’s safety, or for the protection of school property, or the personal property of the person threatened or his or her immediate family.
- s) Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual’s academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.
- t) Caused, attempted to cause, threaten to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code. This section shall apply to pupils in any of grades 4 to 12, inclusive.
- u) Intentionally harassed, threatened or intimidated a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading student rights by creating an intimidating or hostile educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.
- v) Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act, as defined in subdivisions (f) and (g) of Section 32261 of the Education Code, directed specifically toward a pupil or school personnel.

- w) A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (1).
 - x) Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Executive Director or designee's concurrence.
4. Non -Discretionary Expellable Offenses: Students must be expelled for any of the following acts when it is determined pursuant to the procedures below that the pupil:

- a) Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the students had obtained written permission to possess the item from a certificated school employee, with the School Administrator or designee's concurrence.

If it is determined by the Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994.

The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.

The term "destructive device" means (A) any explosive, incendiary, or poison gas, including but not limited to: (i) bomb, (ii) grenade, (iii) rocket having a propellant charge of more than four ounces, (iv) missile having an explosive or incendiary charge of more than one-quarter ounce, (v) mine, or (vi) device similar to any of the devices described in the preceding clauses.

SUSPENSION PROCEDURE

Suspensions shall be initiated according to the following procedures:

1. Conference

Suspension shall be preceded, if possible, by a conference conducted by the School Administrator or designee with the student and his or her parent and, whenever practical, the teacher, supervisor or Aspire employee who referred the student to the School Administrator.

The conference may be omitted if the School Administrator or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or Aspire personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense. This conference shall be held within two school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a pupil for failure of the pupil’s parent or guardian to attend a conference with Aspire officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil’s parent or guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If Aspire officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of Expulsion by the School Administrator, the pupil and the pupil’s guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. This determination will be made by the School Administrator or designee upon either of the following: 1) the pupil’s presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil’s suspension will be extended pending the results of an expulsion hearing.

AUTHORITY TO EXPEL

A student may be expelled either by the Aspire Board following a hearing before it or by the Aspire Board upon the recommendation of an Administrative Panel to be assigned by the Board as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the pupil or a Board member of the Aspire’s governing board. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense.

EXPULSION PROCEDURES

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the School Administrator or designee determines that the Pupil has committed an expellable offense.

In the event an administrative panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the Pupil makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
3. A copy of Aspire's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at Aspire to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. The right to inspect and obtain copies of all documents to be used at the hearing;
7. The opportunity to confront and question all witnesses who testify at the hearing;
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

SPECIAL PROCEDURES FOR EXPULSION HEARINGS INVOLVING SEXUAL ASSAULT OR BATTERY OFFENSES

Aspire may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by Aspire or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2. Aspire must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the person or panel conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The person conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The person conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, Aspire must present evidence that the witness' presence is both desired by the witness and will be helpful to Aspire. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person

conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

RECORD OF HEARING

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

PRESENTATION OF EVIDENCE

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board, Panel or designee determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The Decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

WRITTEN NOTICE TO EXPEL

The School Administrator or designee following a decision of the Board to expel shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following: Notice of the specific offense committed by the student; and Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status

with Aspire.

The School Administrator or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: a) The student's name b) The specific expellable offense committed by the student.

DISCIPLINARY RECORDS

Aspire shall maintain records of all student suspensions and expulsions at Aspire. Such records shall be made available to the authorizer upon request.

NO RIGHT TO APPEAL

The pupil shall have no right of appeal from expulsion from Aspire as Aspire Board's decision to expel shall be final.

EXPELLED PUPILS/ALTERNATIVE EDUCATION

Pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. Aspire shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

REHABILITATION PLANS

Students who are expelled from Aspire shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to Aspire for readmission.

READAMMISSION

The decision to readmit a pupil or to admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Board following a meeting with the Director of Student Services or designee and the pupil and guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. The Director of Student Services or designee shall make a recommendation to the Board following the meeting regarding his or her determination. The pupil's readmission is also contingent upon Aspire's capacity at the time the student seeks readmission.

SPECIAL PROCEDURES FOR THE CONSIDERATION OF SUSPENSION AND EXPULSION OF STUDENTS WITH DISABILITIES

1. Notification of SELPA

Aspire shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student who the Aspire or SELPA would be deemed to have knowledge that the student had a disability

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment or functional analysis, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the Aspire, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If Aspire, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If Aspire, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a. Conduct a functional behavioral assessment or a functional analysis assessment, and implement a behavioral intervention plan for such child, provided that the Aspire had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent and the Aspire agree to a change of placement as part of the modification of the behavioral intervention plan.

If Aspire, the parent, and relevant members of the IEP/504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the IEP/504 Plan, then Aspire may apply the relevant disciplinary procedures to children with disabilities in the same manner

and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or Aspire believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or Aspire, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, whichever occurs first, unless the parent and Aspire agree otherwise.

5. Special Circumstances

Aspire personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The School Administrator or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 team.

7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEIA and who has violated Aspire's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if Aspire had knowledge that the student was disabled before the behavior occurred.

Aspire shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Aspire supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent has requested an evaluation of the child.
- c. The child's teacher, or other Aspire personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Aspire supervisory personnel.

If Aspire knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEIA-eligible children with disabilities, including the right to stay-put.

If Aspire had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. Aspire shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by the Aspire pending the results of the evaluation.

Aspire shall not be deemed to have knowledge of that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

Element K: Employee Retirement System

The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.

- California Education Code Section 47605(b) (5) (K)

All employees of Aspire who qualify for membership in STRS or PERS shall be covered under the appropriate system. Employees will contribute at the rate established by STRS or PERS. The Payroll/Benefits Manager of Aspire will ensure that appropriate arrangements for the coverage have been made. Aspire will make all employer contributions as required. Aspire will also make contributions for workers' compensation insurance, unemployment insurance and any other payroll obligations of an employer.

Element L: Pupil School Attendance Alternatives

The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools...

- California Education Code Section 47605(b) (5) (L)

Aspire recognizes that pupil attendance is voluntary and the Aspire Board of Directors shall not require any pupil to attend an Aspire school. Students who opt not to attend the School may attend other public schools in accordance with existing enrollment and transfer policies of their county of residence. The parent or guardian of each student enrolled in the charter school will be notified that their student shall have no right to admission in a particular school of any local educational agency (or program of any local educational agency) as a consequence of enrollment in the School, except to the extent that such a right is extended by the local educational agency.

Element M: Description of Employee Rights

A description of the rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district... after employment at a charter school.

- California Education Code Section 47605(b) (5) (M)

The rights of any employees to take employment at the School, as well as the right to return, shall include: Any rights upon leaving the employment of a local education agency to work in the School that the local education agency may specify; any rights of return to employment in a local education agency after employment in the School as the local education agency may specify; and, any other rights upon leaving employment to work in the School and any rights to return to a previous employer after working in the School that the State Board of Education determines to be reasonable and not in conflict with any provisions of law that apply to the School or to the employer from which the employee comes to the School or to which the employee returns from the School.

Element N: Dispute Resolution Procedures

The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.

- California Education Code Section 47605(b) (5) (N)

Aspire agrees to any specific provisions relating to dispute resolution that the State Board of Education determines necessary and appropriate in recognition of the fact that the State Board of Education is not a local educational agency. In further recognition of the fact that the State Board of Education is not a local educational agency, Aspire acknowledges that the State Board of Education may choose to resolve a dispute directly instead of pursuing any given dispute resolution process, provided that if the State Board of Education intends to resolve a dispute directly instead of pursuing any given dispute resolution process, it must first hold a public hearing to consider arguments for and against the direct resolution of the dispute instead of pursuing any given dispute resolution process. Aspire further recognizes that if the substance of a dispute is a matter that could result in the taking of appropriate action, including but not limited to, revocation of the charter in accordance with Education Code section 47604.5, the matter will be addressed at the State Board of Education's discretion in accordance with that provision of law and any regulations pertaining thereto. Finally, Aspire represents that it is committed to working with the State Board of Education in a spirit of cooperation, and Aspire will agree to have matters unable to be resolved may be referred to a mutually agreed upon legally licensed mediator at standard cost and that any costs and fees other than attorney's fees associated with the mediation shall be shared equally by the parties.

Element O: Exclusive Public School Employer Declaration

A declaration whether or not the charter school shall be deemed the exclusive public school employer of the employees of the charter school for the purposes of the Educational Employment Relations Act (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 4 of Title 1 of the Government Code).

- California Education Code Section 47605(b) (5) (O)

For the purposes of the Educational Employment Relations Act, Aspire is deemed the exclusive public school employer of the employees of the School.

Element P: Process for Charter School Closure

A description of the procedures to be used if the charter school closes. The procedures shall ensure a final audit of the school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.

- California Education Code Section 47604(b) (5) (P)

In the event that the statewide charter closes and does not continue operating under this charter or a different charter, the following procedures, which are adapted from the procedures recommended by the California Department of Education (“CDE”), shall be utilized to ensure a final audit of the School to determine the disposition of all assets and liabilities of the School, including plans for disposing any net assets and for the maintenance and transfer of pupil records.

DOCUMENTATION OF CLOSURE ACTION

The decision to close the statewide charter for any reason will be documented by an official action of the Aspire Board of Directors. The action will identify the reason for the statewide charter’s closure (i.e. whether the charter was revoked, not renewed or closed voluntarily) and the effective date of the closure, and an entity and person or persons responsible for closure-related activities.

NOTIFICATION TO THE CALIFORNIA DEPARTMENT OF EDUCATION

Notification will be given to the Charter Schools Unit at the CDE. The notification will include the following information:

- a. Statewide charter name, charter number, and CDS code;
- b. Date of closure action;
- c. Effective date of the closure, if different; and
- d. Reason for the closure. (Note: If the charter is revoked pursuant to Education Code Section 47604.5 or revoked or not renewed pursuant to Education Code Section 47607, the notice should clearly state that the charter has been revoked or not renewed, as appropriate. If it is being closed for other reasons, the notice should specify the reason(s) and clarify that the charter school is being closed, but not revoked).

NOTIFICATION TO PARENTS AND STUDENTS

The Aspire Board of Directors will promptly notify parents and students of the statewide charter schools, the State Board of Education, the County Office of Education in which the schools are located, the Charter School’s SELPA, the retirement systems in which the School’s employees participate (e.g., Public Employees’ Retirement System, State Teachers’ Retirement System, and federal social security), and the California Department of Education of the closure

as well as the effective date of the closure. This notice will also include the name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure; the pupils' school districts of residence; and the manner in which parents/guardians may obtain copies of pupil records, including specific information on completed courses and credits that meet graduation requirements.

The Board will ensure that the notification to the parents and students of the schools of the closure provides information to assist parents and students in locating suitable alternative programs. This notice will be provided promptly following the Board's decision to close the statewide charter.

The Board will also develop a list of pupils in each grade level and the classes they have completed, together with information on the pupils' districts of residence, which they will provide to the entity responsible for closure-related activities.

STUDENT AND SCHOOL RECORDS RETENTION AND TRANSFER

As applicable, Aspire will provide parents and students and with copies of all appropriate student records and will otherwise assist students in transferring to their next school. All transfers of student records will be made in compliance with the Family Educational Rights and Privacy Act ("FERPA") 20 U.S.C. § 1232g. In the event that Aspire is unable to transfer student records for any reason, the School will maintain them in a safe and secure location and will provide authorized employees with access to these records. Aspire will maintain all school records, including financial and attendance records, for a reasonable period after the statewide charter closure.

All state assessment results, special education records, and personnel records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law.

FINANCIAL CLOSE-OUT

As soon as reasonably practical, Aspire will prepare final financial records. Aspire will also have an independent audit completed within six months after closure. Aspire will pay for the final audit. The audit will be prepared by a qualified Certified Public Accountant selected by Aspire and will be provided to the State Board of Education promptly upon its completion. The final audit will include an accounting of all financial assets, including cash and accounts receivable and an inventory of property, equipment, and other items of material value, an accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation, and an assessment of the disposition of any restricted funds received by or due to Aspire for the operation of the statewide charter.

Aspire will complete and file any annual reports required pursuant to Education Code section 47604.33

DISSOLUTION OF ASSETS

On closure of the statewide charter, all assets of the statewide charter, including but not limited to all leaseholds, personal property, intellectual property and all ADA apportionments and other revenues generated by students attending the statewide charter schools, remain the sole property of Aspire and upon the dissolution of the non-profit public benefit corporation shall be distributed in accordance with the Articles of Incorporation. The distribution shall include return of any grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law, as appropriate, which may include submission of final expenditure reports for entitlement grants and the filing of any required Final Expenditure Reports and Final Performance Reports, as well as the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted.

On closure, Aspire shall remain solely responsible for all liabilities arising from the operation of the School.

As the statewide charter is operated by a non-profit public benefit corporation, should the corporation dissolve, the Board will follow the procedures set forth in the California Corporations Code for the dissolution of a non-profit public benefit corporation and file all necessary filings with the appropriate state and federal agencies.

Aspire will utilize the statewide charter reserve fund to undertake any expenses associated with the closure procedures identified above.

Impact on the Charter Authorizer

Potential civil liability effects, if any, upon the school and upon the District.

- California Education Code Section 47605(g)

Charter schools established under the Aspire Statewide Benefit Charter shall be operated by Aspire Public Schools, a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701d.

Pursuant to Education Code Section 47604(c), an entity that grants a charter to a charter school operated by or as a non-profit public benefit corporation shall not be liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors or omissions by Aspire if the authority has complied with all oversight responsibilities required by law. Aspire shall work diligently to assist the California Department of Education and State Board of Education (CDE/SBE) in meeting any and all oversight obligations under the law, including monthly meetings, reporting, or other authorizer-requested protocol to ensure the CDE/SBE shall not be liable for the operation of Aspire's statewide charter schools.

Further, Aspire and CDE/SBE shall enter into a MOU, wherein Aspire shall indemnify the CDE/SBE for the actions of Aspire under this charter.

The corporate bylaws of Aspire shall provide for indemnification of the Aspire's Board, officers, agents, and employees, and Aspire will purchase general liability insurance, Board Members and Officer's insurance, and fidelity bonding to secure against financial risks.

As stated above, insurance amounts will be determined by recommendation of the CDE/SBE and Aspire's insurance company for schools of similar size, location, and student population. The CDE/SBE shall be named an additional insured on the general liability insurance of Aspire.

The Aspire Board will institute appropriate risk management practices as discussed herein, including screening of employees, establishing codes of conduct for students, and dispute resolution.

Aspire Statewide Benefit Charter Schools: Financial Planning, Reporting, and Accountability

BUDGETS AND FINANCIAL REPORTING

The statewide charter shall also be required to provide financial statements that include a proposed first year operational budget, including startup costs, and cash flow and financial projections for the first three years of operation.

- California Education Code Section 47605(g)

Attached, as an Appendix, please find the following documents for each existing Aspire statewide benefit charter school:

- Budget assumptions
- 3-year budget and cash flow
- 3-year budgeted Profit & Loss Statement

Aspire shall provide reports to the California Department of Education as follows, and may provide additional fiscal reports as requested:

1. By July 1, a preliminary budget for the current fiscal year.
2. By December 15, an interim financial report for the current fiscal year reflecting changes through October 31. Additionally, on December 15, a copy of the Charter School's annual, independent financial audit report for the preceding fiscal year shall be delivered to the CDE/SBE, State Controller, and the County Superintendent of Schools where each school is located.
3. By March 15, a second interim financial report for the current fiscal year reflecting changes through January 31.
4. By September 15, a final unaudited report for the full prior year. The report submitted to the CDE shall include an annual statement of all the Charter School's receipts and expenditures for the preceding fiscal year.

INSURANCE

Aspire shall acquire and finance general liability, workers compensation, and other necessary insurance of the types and in the amounts required for an enterprise of similar purpose and circumstance. Coverage amounts will be based on recommendations provided by the CDE/SBE and the Charter School's insurer. The State Board of Education shall be named as an additional insured on all policies of the Charter School. Prior to opening, the Charter School will provide evidence of the above insurance coverage to the CDE/SBE.

ADMINISTRATIVE SERVICES

The manner in which administrative services of the school are to be provided.

- California Education Code Section 47605(g)

The Aspire Statewide Benefit Charter Schools have designated the San Joaquin County Office of Education as the responsible entity for funding and STRS/PERS payments in accordance with Section 11967.8 of Title 5 of the California Code of Regulations.

Aspire has an experienced administrative staff that handles a variety of “back office” services like payroll, accounting, and purchasing. Aspire will be responsible for all of its own personnel salary and benefit plans, provisions and costs.

FACILITIES

Governing Law: The facilities to be utilized by the school. The description of the facilities to be used by the charter school shall specify where the school intends to locate.”

- California Education Code Section 47605(g).

Aspire seeks to obtain and retain facilities via numerous mechanisms, including but not limited to, leases, bond measures, and local facilities. All facilities have the “look and feel” of an Aspire Public School. This includes using school colors and the naming of classrooms after local and national universities.

TRANSPORTATION

Aspire will not provide transportation to and from school, except as required by law for students with disabilities in accordance with a student’s IEP.

Aspire Statewide Benefit Charter Plan for Operations/ Description of Distinction Between Centralized and Individual School Level Responsibilities

A petition to establish a statewide benefit charter school pursuant to Education Code section 47605.8 shall ... contain a plan for operations of the statewide benefit charter school that describes the distinction between centralized and individual school responsibilities and includes a staffing plan to implement the activities at the designated level. This plan shall be a part of the petition as initially approved by the SBE. If amendments to the plan are proposed, these amendments must be submitted to the SBE for approval. The plan shall address statewide benefit charter school operations including, but not limited to:

- (A) Academic program,*
- (B) Facilities and school operations,*
- (C) Legal and programmatic compliance,*
- (D) Financial administration,*
- (E) Governance, and*
- (F) Decision-making authority.*

- California Code of Regulations, Title 5, Section 11967.6(a)(12)

Aspire is governed by a Board of Directors, who is responsible for establishing broad policies that effect all Aspire schools. For example, the Board of Directors and its Executive Committee may set policies related to staff hiring, benefits and compensation, conditions for student suspension and expulsion, and controversial issues that impact more than one school site.

The Home Office sets strategy and designs core systems and processes, as well as provides support services that are best managed centrally, such as Human Resources, Information Technology, and Accounting/Finance support. The Home Office has primary responsibility for defining overall academic program, securing facilities, and oversight of legal and programmatic compliance.

Each individual Aspire school is responsible for implementing the academic program in a manner that best supports its students, selecting instructional materials and resources that help their students achieve, handling day-to-day operations of the school site, and managing its own budget. Each individual Aspire principal is concerned with day-to-day hiring and staffing. Reflecting the values of charter legislation at the State level, each individual Aspire school is granted this power and autonomy in exchange for accountability and results.

Aspire Statewide Benefit Charter – List of Potential Sites of Operation

A petition to establish a statewide benefit charter school pursuant to Education Code section 47605.8 shall ... provide a list that includes each school the statewide benefit charter school proposes to operate. This shall be a part of the petition as initially approved by the SBE. This list shall include:

(A) A timeline for the commencement of instruction at each charter school. Commencement of instruction must begin during the term of the charter.

(B) The general location of each school and the school district and county in which each school is to be located.

(C) A description of the potential facilities to be used at each school.

(D) The approximate number of pupils that can safely be accommodated by each school facility.

- California Code of Regulations, Title 5, Section 11967.6(a)(13)

A list of potential sites of operation for charter schools under the Aspire Statewide Benefit Charter and other required information was approved by the State Board of Education in January 2010. Amendments to this list are included with this charter renewal petition. Please see Appendix 3.

Aspire Statewide Benefit Charter – Assurances Regarding Notification to Counties and School Districts

In January 2010, the State Board of Education approved a material revision to Aspire's statewide benefit charter, which included a list of sites to be operated under that charter. With this petition for charter renewal, Aspire has proposed amendments to its list of potential sites of operation under its Statewide Benefit Charter (see Appendix 3). Aspire makes the following assurances to the State Board of Education:

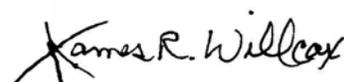

- Aspire has submitted all required notifications to the county superintendents of schools and the governing boards of each school district where Aspire proposes to locate a school site as specified in Appendix 3 pursuant to the requirements of Education Code Section 47605.8(a) and Section 11967.6.1 of Title 5 of the California Code of Regulations.
- When the meeting date for the State Board of Education's consideration of the Aspire Statewide Benefit Charter petition for renewal, including consideration of Aspire's proposed amendments to its list of potential sites of operation under its Statewide Benefit Charter, becomes publicly available, Aspire shall submit a written notice of the meeting date to the county superintendents of schools and the governing boards of each school district where Aspire proposes to locate a school site pursuant to the requirements of Section 11967.6.1(d) of Title 5 of the California Code of Regulations.
- Should Aspire seek to amend its list of potential sites of operation for charter schools under the Aspire Statewide Benefit Charter pursuant to Section 11967.6(a)(13) of Title 5 of the California Code of Regulations, Aspire shall comply with all notification requirements to county superintendent(s) of schools and governing board(s) of school districts contained in Education Code Section 47605.8(a) and Section 11967.6.1 of Title 5 of the California Code of Regulations.

Aspire Statewide Benefit Charter: Assurances

I hereby certify that the information submitted in this petition for a Statewide Benefit Charter School for Aspire Public Schools is true to the best of my knowledge and belief, that this petition does not constitute the conversion of a private school to the status of a public charter school, and that if awarded a charter, each of the sites of the Aspire Statewide Charter School:

1. Shall meet all statewide standards and conduct the student assessments required, pursuant to Education Code Section 60605, and any other statewide standards authorized in statute, or student assessments applicable to students in non-charter public schools;
2. Shall be deemed the exclusive public school employer of the employees of the charter school for the purposes of the Educational Employment Act;
3. Shall be nonsectarian in its programs, admissions, policies, employment practices, and all other operations;
4. Shall not charge tuition;
5. Shall admit all students who wish to attend the school, and who submit a timely application, unless the school receives a greater number of applications than there are spaces for students, in which case, subject to legal priority, each applicant will be given equal chance of admission through a random lottery process;
6. Shall not discriminate against any student on the basis of ethnic background, national origin, gender or disability, or any other characteristic listed in Section 220 (actual or perceived disability, gender, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code or association with an individual who has any of the aforementioned characteristics);
7. Shall adhere to all provisions of federal law relating to students with disabilities, including the IDEA, Section 504 of the Rehabilitation Act of 1974, and Title II of the Americans with Disabilities Act of 1990, that are applicable to it;
8. Shall meet all requirements for employment set forth in applicable provisions of law, including but not limited to credentials, as necessary;
9. Shall ensure that teachers in the school hold a CCTC certificate, permit, or other document equivalent to that which teachers in other public schools are required to hold, and flexibility will be given to non-core, non-college preparatory teachers;
10. Shall at all times maintain all necessary and appropriate insurance coverage;
11. Shall, for each fiscal year, offer at a minimum, the number of minutes of instruction per grade level as required by Education Code Section 47612.5(a)(1)(A)-(D).

12. If a pupil is expelled or leaves the Charter School without graduating or completing the school year for any reason, the Charter School shall notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card and health information. [Ref. California Education Code Section 47605(d)(3)]
13. Shall maintain accurate and contemporaneous written records that document all pupil attendance and make these records available for audit and inspection. [Ref. California Education Code Section 47612.5(a)]
14. Shall on a regular basis consult with its parents and teachers regarding the Charter School's education programs. [Ref. California Education Code Section 47605(c)]
15. Shall comply with all laws establishing the minimum and maximum age for public school enrollment. [[Ref. California Education Code Section 47612(b), 47610]
16. Shall comply with all applicable portions of the No Child Left Behind Act.
17. Shall comply with the Public Records Act.
18. Shall comply with the Family Educational Rights and Privacy Act.
19. Shall comply with the Ralph M. Brown Act.
20. Shall meet or exceed the legally required minimum of school days.[Ref. Title 5 California Code of Regulations Section 11960]
21. Shall follow any and all other federal, state, and local laws and regulations that pertain to the applicant or the operation of the school;
22. Shall provide an annual report to the SBE reflecting student achievement data, performance benchmarks, and other pertinent data supporting state charter goals;
23. Shall comply with all notification requirements to counties and school districts contained in Education Code Section 47605.8(a) and Section 11967.6.1 of Title 5 of the California Code of Regulations; and
24. Shall assure that the instructional services for similar student populations described in this charter will be essentially similar at each school and, thus, that each pupil's educational experience will be reasonably the same with regard to instructional methods, instructional materials, staffing configuration, personnel requirements course offerings, and class schedules.

Appendix 2: Conditions for Opening New Schools

1. Aspire will provide the CDE information regarding its statewide benefit charter schools sufficient to update the SBE periodically (and prior to the opening of any schools under the charter) on the organization's progress in implementing the charter and the MOU. It is the intent of the CDE, unless circumstances otherwise dictate, to include this information in the standing item for updates on SBE-chartered schools.

2. Before opening additional statewide benefit schools, Aspire will provide evidence that:
 - Each existing statewide benefit school has met the stated Measurable Pupil Outcomes appropriate to the age of the school.

 - Aspire shall present a list of potential geographic areas in which it may open new schools. The list shall be considered to be part of the statewide benefit charter, and any material revision of it shall require the SBE's approval. Locations in which Aspire chooses to locate will meet one or more of the following criteria:
 - At least 50% of the district-operated Title I schools are in Program Improvement; or
 - At least 50% or more of district-operated Title I schools within a 2-mile radius of the proposed location are in Program Improvement; or
 - 60% or less of high school graduates within the district are UC/CSU eligible; or
 - 60% or less of high school graduates within a 2-mile radius of the proposed location are UC/CSU eligible

 - Each additional site will be financially viable, as supported by the following documents:
 - Budget Assumptions
 - 3-year budget at cash Flow
 - 3-year budgeted Profit & Loss Statement

 - Each additional site shall initially open between July 1 and September 30.

 - The specific location of each site (within the districts indicated in the charter) shall be identified to the CDE, which shall notify the SBE, in the January immediately preceding its opening.

3. Aspire will provide an annual report on all statewide benefit charter schools to the SBE via the CDE, with detailed information regarding student achievement at each school site, with particular emphasis on core subjects, as may be specified by the CDE and SBE staff.

4. The SBE may assign an SBE member or designee to the statewide benefit charter school's governing board.

Appendix 3: List of Existing and Potential Sites to be Operated under the Aspire Public Schools Statewide Charter

Approved as a Material Revision to the Aspire Public Schools
Statewide Charter by the State Board of Education January 2010
(Updated August 2011 to Reflect Newly Operational Schools & Revised School Names)

* Already operational school under statewide benefit charter.

- i. Aspire reserves the right to adjust the name of schools based on community input.
- ii. Aspire plans to open schools within the identified areas, but reserves the right to open sites in districts or counties adjacent to those identified if conditions require or permit.

iii. Each school will be no larger than Aspire’s model # of students per school, and the facility will hold no more students than can safely be accommodated by the facility.

ASPIRE SACRAMENTO

Location

Within Sacramento County or county adjacent to Sacramento County. Potential districts include: Sacramento City USD, Elk Grove USD, Folsom-Cordova USD, Natomas USD, Robla Elementary SD, San Juan USD, and Twin Rivers USD.

Timeline

Ultimately, the families of schools in Sacramento County may consist of the following four sites:

- Aspire Alexander Twilight College Preparatory Academy*
- Aspire Alexander Twilight Secondary Academy*
- Aspire College Elementary Academy Capital City
- Aspire College Preparatory Academy Capital City

Aspire may initiate replication of its Sacramento families of schools as early as 2012. Aspire reserves the right to adjust the timing for site openings as local conditions require.

School Background

Aspire currently operates a complete K-12 through two statewide benefit charter schools in Sacramento, as well as a locally-chartered K-5 school, Capitol Heights Academy (CHA). CHA is a high performing school with a similar school rank of 10 and an API over 800.

Plan for Community Input and Notification

Aspire will engage in extensive community engagement in Sacramento County regarding the development of Aspire Sacramento. Events will include hosting events at our existing schools, local homeowners associations, community centers and other establishments which serve the local community. The school will begin with a group of Founding Families who will help develop the school.

Per state guidelines, Aspire will:

- Hold a minimum of one publicly noticed meeting for this school with a summary of the input received at the meeting posted on the school's website; and
- Inform the local school district and county superintendents of the location of the proposed school at least 120 days prior to the commencement of instruction.

Aspire will also gather and submit to the SBE the necessary signatures of parents/guardians and/or prospective teachers for the site.

Potential Facilities

Aspire will work with work with facilities partners, and with local districts as able, to identify facilities in the area.

Estimated Enrollment

Target enrollment for elementary schools (K-5) is between 320 and 400 students. Target enrollment for our secondary schools (6-12) is between 420 and 600 students.

ASPIRE LOS ANGELES

Location

Within Los Angeles County or county adjacent to Los Angeles County. Potential districts include: LAUSD, Baldwin Park USD, El Monte City Elementary SD, El Monte Union High SD, Garvey Elementary SD, Hacienda al Puente USD, Montebello USD, Mountain View Elementary SD, Norwalk-La Mirada USD, Rowland USD, South Whittier Elementary SD, and Whittier City Elementary SD.

Timeline

Ultimately, the families of schools in Los Angeles County may consist of the following four sites:

- Aspire College Elementary Academy Los Angeles
- Aspire College Preparatory Academy Los Angeles
- Aspire College Elementary Academy South LA
- Aspire College Preparatory Academy South LA

Aspire may initiate development of the Los Angeles families of schools as early as 2012. Aspire reserves the right to adjust the timing for site openings as local conditions require.

School Background

The overcrowding in Los Angeles, as well as the intense need of students, makes Los Angeles an ideal place for an Aspire statewide benefit school. Several community organizations and individuals have approached Aspire to open a school in the greater Los Angeles area.

The schools would be developed in the same manner as our current Aspire schools were created. Aspire's experience with opening thirty-four schools makes the creation of a strong school seamless. The processes, procedures and systems have been developed and well-tested.

Plan for Community Input and Notification

Aspire will engage in extensive community engagement in Los Angeles County regarding the development of Aspire Los Angeles. Events will include hosting events at potential facilities, homeowners associations, community centers and other establishments which serve the local community. The school will begin with a group of Founding Families who will help develop the school.

Per state guidelines, Aspire will:

- Hold a minimum of one publicly noticed meeting for this school with a summary of the input received at the meeting posted on the school's website; and
- Inform the local school district and county superintendents of the location of the proposed school at least 120 days prior to the commencement of instruction.

Aspire will also gather and submit to the SBE the necessary signatures of parents/guardians and/or prospective teachers for the site.

Potential Facilities

Aspire will work with work with facilities partners, and with local districts as able, to identify facilities in the area.

Estimated Enrollment

Target enrollment for elementary schools (K-5) is between 320 and 400 students. Target enrollment for our secondary schools (6-12) is between 420 and 600 students.

ASPIRE SOUTH CITIES

Location

Within Los Angeles County or county adjacent to Los Angeles County. This cluster would focus on the cities in the south part of the county. Potential districts include: Los Angeles Unified School District (LAUSD), Compton USD, Downey USD, Inglewood USD, Lennox USD, Long Beach USD, and Lynnwood USD.

Timeline

Ultimately, the families of schools in the South Cities may consist of the following four sites:

- Aspire Junior Collegiate Academy*
- Aspire College Preparatory Academy Huntington Park
- Aspire Titan Academy*
- Aspire College Preparatory Academy South Cities

Aspire may continue the development of the South Cities families of schools with additional grades as early as 2012. The school(s) would reside in LAUSD, or in districts adjacent to LAUSD within the southern part of Los Angeles County. Aspire reserves the right to adjust the timing for site openings as local conditions require.

School Background

Aspire currently serves over 2,500 students in Huntington Park and South Gate. Two of the schools in this cluster are Aspire statewide benefit schools. The mayors of several other cities in the area, several community organizations, and parents have approached Aspire to open schools in the South Cities area.

The schools would be developed in the same manner as our current Aspire schools were created. Aspire's experience with opening thirty-four schools makes the creation of a strong school seamless. The processes, procedures and systems have been developed and well-tested.

Plan for Community Input and Notification

Aspire will engage in extensive community engagement in the South Cities regarding the development of Aspire South Cities. Events will include hosting events at existing schools, potential facilities, homeowners associations, community centers and other establishments which serve the local community. The school will begin with a group of Founding Families who will help develop the school.

Per state guidelines, Aspire will:

- Hold a minimum of one publicly noticed meeting for this school with a summary of the input received at the meeting posted on the school's website; and
- Inform the local school district and county superintendents of the location of the proposed school at least 120 days prior to the commencement of instruction.

Aspire will also gather and submit to the SBE the necessary signatures of parents/guardians and/or prospective teachers for the site.

Potential Facilities

Aspire will work with work with facilities partners, and with local districts as able, to identify facilities in the area.

Estimated Enrollment

Target enrollment for elementary schools (K-5) is between 320 and 400 students. Target enrollment for our secondary schools (6-12) is between 420 and 600 students.

ASPIRE BAY AREA

Location

Within the Alameda County or adjacent to Alameda County. Potential districts include: Oakland USD, Berkeley USD, Hayward USD, San Leandro USD, San Lorenzo USD, Antioch USD, Mt. Diablo USD, Pittsburg USD, and West Contra Costa USD.

Timeline

Ultimately, the families of schools in the Bay Area may consist of the following four sites:

- Aspire College Elementary Academy Bay Area
- Aspire College Preparatory Academy Bay Area
- Aspire College Elementary Academy Richmond
- Aspire College Preparatory Academy Richmond

Aspire may initiate development of the Bay Area families of schools as early as 2012. The first school would likely reside in the Oakland Unified School District. Aspire reserves the right to adjust the timing for site openings as local conditions require.

School Background

Aspire currently serves over 2,800 students in the Bay Area in grades K-12. These schools are located in high poverty areas of Oakland. The waitlist at these schools exceeds 800. The community demand is high.

The schools would be developed in the same manner as our current Aspire schools were created. Aspire's experience with opening thirty-four schools makes the creation of a strong school seamless. The processes, procedures and systems have been developed and well-tested.

Plan for Community Input and Notification

Aspire will engage in extensive community engagement in the Bay Area regarding the development of Aspire East Bay. Events will include hosting events at existing schools, potential facilities, homeowners associations, community centers and other establishments which serve the local community. The school will begin with a group of Founding Families who will help develop the school.

Per state guidelines, Aspire will:

- Hold a minimum of one publicly noticed meeting for this school with a summary of the input received at the meeting posted on the school's website; and
- Inform the local school district and county superintendents of the location of the proposed school at least 120 days prior to the commencement of instruction.

Aspire will also gather and submit to the SBE the necessary signatures of parents/guardians and/or prospective teachers for the site.

Potential Facilities

Aspire will work with work with facilities partners, and with local districts as able, to identify facilities in the area. Aspire also rents a closed school from Oakland Unified School District. If OUSD were to close more schools, we would work with them to rent a facility.

Estimated Enrollment

Target enrollment for elementary schools (K-5) is between 320 and 400 students. Target enrollment for our secondary schools (6-12) is between 420 and 600 students.

ASPIRE SOUTH BAY

Location

Within Santa Clara County or county adjacent to Santa Clara County. Potential districts include: San Jose USD, Alum Rock Union Elementary SD, East Side Union High SD, Franklin-McKinley Elementary SD, Gilroy USD, Oak Grove Elementary SD, Sunnyvale SD, Jefferson Elementary SD, Ravenswood City Elementary SD, Redwood City Elementary SD, San Mateo-Foster City USD, Sequoia Union High SD, and Sunnyvale USD

Timeline

Ultimately, the families of schools in the South Bay may consist of the following four sites:

- Aspire College Elementary Academy South Bay
- Aspire College Preparatory Academy South Bay
- Aspire College Elementary Academy San Jose
- Aspire College Preparatory Academy San Jose

Aspire may initiate the development of the South Bay families of schools as early as 2012. Aspire reserves the right to adjust the timing for site openings as local conditions require.

School Background

Aspire has received numerous invitations to open schools in the Santa Clara County, particularly in San Jose. Community groups, elected officials and parents have reached out to Aspire and encouraged the organization to open schools in the South Bay. In order to serve more students and extend the statewide benefits, Aspire would open schools in the South Bay.

The schools would be developed in the same manner as our current Aspire schools were created. Aspire's experience with opening thirty-four schools makes the creation of a strong school seamless. The processes, procedures and systems have been developed and well-tested.

Plan for Community Input and Notification

Aspire will engage in extensive community engagement in the South Bay regarding the development of Aspire South Bay. Events will include hosting events at potential facilities, homeowners associations, community centers and other establishments which serve the local community. The school will begin with a group of Founding Families who will help develop the school.

Per state guidelines, Aspire will:

- Hold a minimum of one publicly noticed meeting for this school with a summary of the input received at the meeting posted on the school's website; and
- Inform the local school district and county superintendents of the location of the proposed school at least 120 days prior to the commencement of instruction.

Aspire will also gather and submit to the SBE the necessary signatures of parents/guardians and/or prospective teachers for the site.

Potential Facilities

Aspire will work with work with facilities partners, and with local districts as able, to identify facilities in the area.

Estimated Enrollment

Target enrollment for elementary schools (K-5) is between 320 and 400 students. Target enrollment for our secondary schools (6-12) is between 420 and 600 students.

ASPIRE CENTRAL VALLEY

Location

Within San Joaquin County or county adjacent to San Joaquin County. Potential districts include: Stockton USD, Lodi USD, Tracy Joint USD, Ceres USD, Modesto City Elementary SD, Patterson Joint USD, Turlock USD, Merced City Elementary SD, and Merced Union High SD.

Timeline

Ultimately, the families of schools in the Central Valley may consist of the following four sites:

- Aspire Port City Academy*

- Aspire College Preparatory Academy Central Valley
- Aspire APEX Academy*
- Aspire College Preparatory Academy Merced

Aspire may continue the development of the Central Valley families of schools with additional grades as early as 2012. Aspire reserves the right to adjust the timing for site openings as local conditions require.

School Background

The need in San Joaquin County, especially Stockton, for strong schools is high. The local economy is struggling particularly from the real estate downturn. Even with six Aspire schools currently running in Stockton, the demand continues. This is particularly felt in the secondary grades.

The schools would be developed in the same manner as our current Aspire schools were created. Aspire's experience with opening thirty-four schools makes the creation of a strong school seamless. The processes, procedures and systems have been developed and well-tested.

Plan for Community Input and Notification

Aspire will engage in extensive community engagement in the Central Valley regarding the development of Aspire Central Valley. Events will include hosting events at existing schools, potential facilities, homeowners associations, community centers and other establishments which serve the local community. The school will begin with a group of Founding Families who will help develop the school.

Per state guidelines, Aspire will:

- Hold a minimum of one publicly noticed meeting for this school with a summary of the input received at the meeting posted on the school's website; and
- Inform the local school district and county superintendents of the location of the proposed school at least 120 days prior to the commencement of instruction.

Aspire will also gather and submit to the SBE the necessary signatures of parents/guardians and/or prospective teachers for the site.

Potential Facilities

Aspire will work with work with facilities partners, and with local districts as able, to identify facilities in the area.

Estimated Enrollment

Target enrollment for elementary schools (K-5) is between 320 and 400 students. Target enrollment for our secondary schools (6-12) is between 420 and 600 students.

ASPIRE FRESNO

Location

Within Fresno County or county adjacent to Fresno County. Potential districts include: Fresno USD, Central USD, and Clovis USD.

Timeline

Ultimately, the families of schools in the Fresno may consist of the following four sites:

- Aspire College Elementary Academy South Fresno
- Aspire College Preparatory Academy South Fresno
- Aspire College Elementary Academy Fresno
- Aspire College Preparatory Academy Fresno

Aspire may initiate the development of the Fresno families of schools with additional grades as early as 2012. Aspire reserves the right to adjust the timing for site openings as local conditions require.

School Background

According to the 2000 Census, Fresno has the deepest neighborhood poverty in the country. In order to help break the cycle of poverty, Aspire would open schools that would provide the necessary skills, habits and knowledge for students to attend and graduate from college.

The schools would be developed in the same manner as our current Aspire schools were created. Aspire's experience with opening thirty-four schools makes the creation of a strong school seamless. The processes, procedures and systems have been developed and well-tested.

Plan for Community Input and Notification

Aspire will engage in extensive community engagement in the Fresno area regarding the development of Aspire Fresno. Events will include hosting events at existing schools, potential facilities, homeowners associations, community centers and other establishments which serve the local community. The school will begin with a group of Founding Families who will help develop the school.

Per state guidelines, Aspire will:

- Hold a minimum of one publicly noticed meeting for this school with a summary of the input received at the meeting posted on the school's website; and
- Inform the local school district and county superintendents of the location of the proposed school at least 120 days prior to the commencement of instruction.

Aspire will also gather and submit to the SBE the necessary signatures of parents/guardians and/or prospective teachers for the site.

Potential Facilities

Aspire will work with work with facilities partners, and with local districts as able, to identify facilities in the area.

Estimated Enrollment

Target enrollment for elementary schools (K-5) is between 320 and 400 students. Target enrollment for our secondary schools (6-12) is between 420 and 600 students.

Appendix 5: Chart of Aspire's Performance Over Time

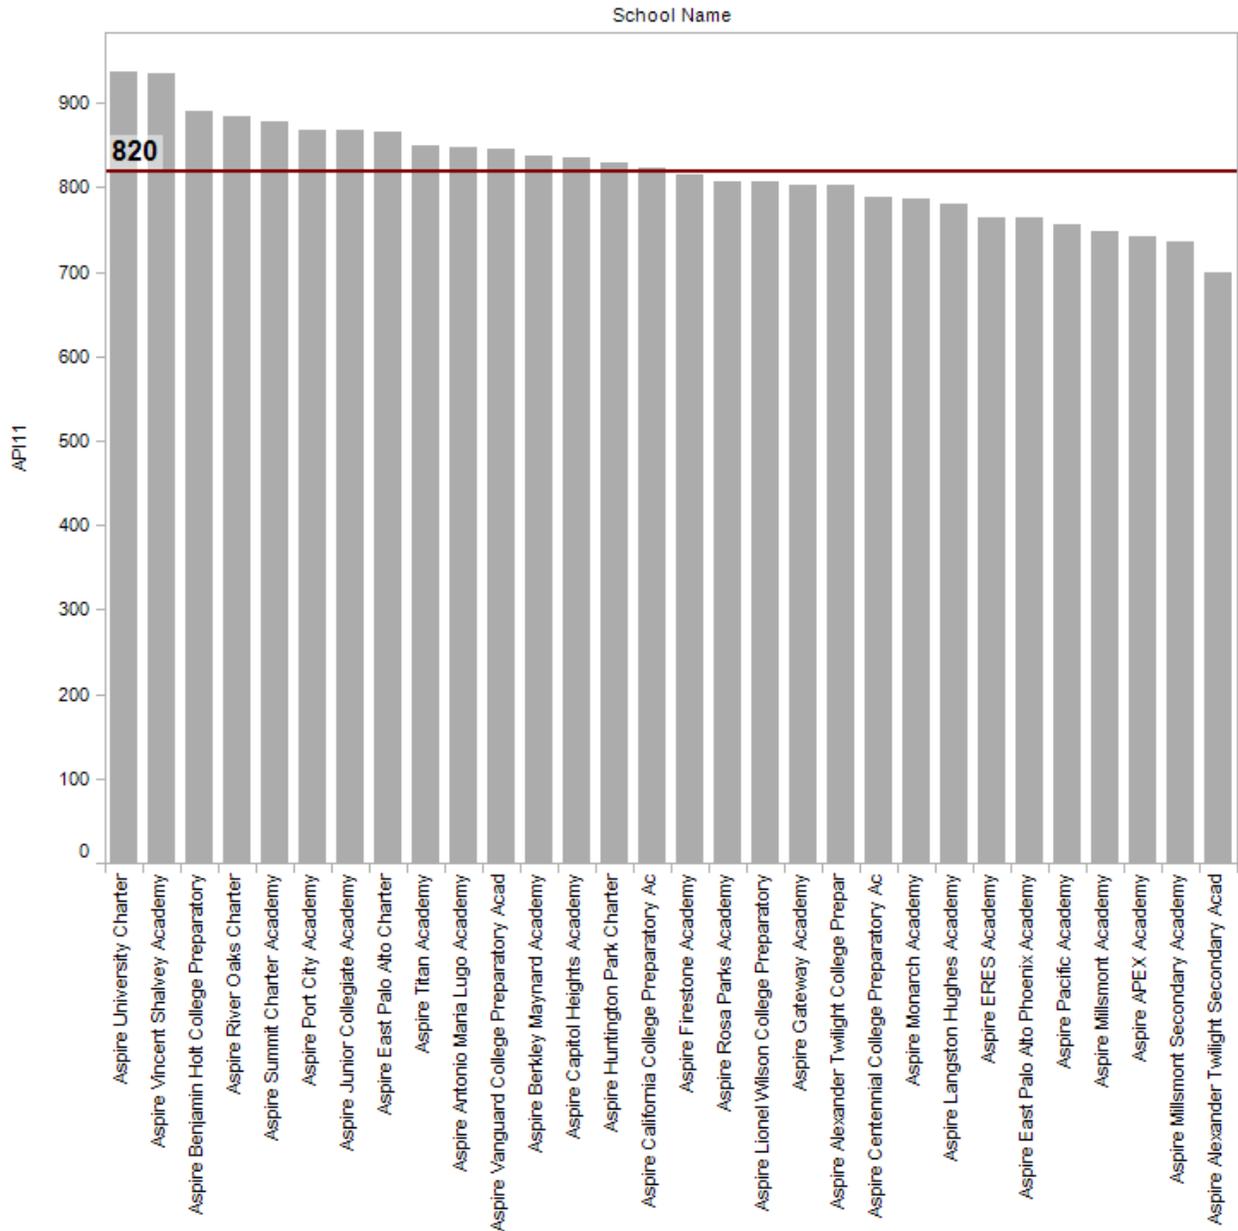

Most of Aspire's SBC schools opened with higher APIs than two-thirds of Aspire schools that have been open at least one year.

Aspire schools have a track record of increasing API over time.

Aspire schools 2010-11 API Scores and Aspire-wide Average

Appendix 6: Financials

See attachments.

Each existing school has three documents:

1. Assumptions
2. 3-year Cash Flow
3. 3-year Budgeted Profit & Loss Statement

As of June 30, 2011, the unaudited financials show all Aspire statewide benefit schools to have positive fund balances, except Alexander Twilight College Preparatory Academy. In 2009-10, its first year of operation, ATCPA had anticipated Class Size Reduction funds and had allocated those funds for school resources. Aspire later learned after committing these funds that new schools were not eligible for Class Size Reduction. In addition, the school was not at its full enrollment.

Based on the unaudited actuals for 2010-11, ATCPA is projecting a net income of \$300,000 which will significantly offset the negative balance it had from its first year of operations. By the end of next fiscal year, the school will have a positive fund balance through strategic cost savings efforts. Aspire Public Schools has sufficient cash to cover the school's obligations while it builds up its fund balance back to a healthy reserve. Attached is a copy of the unaudited financials for fiscal year 2010-11.

INTRODUCTION

Aspire Public Schools is committed to maintaining safe and secure campuses for all of its pupils and staff. To that end, this Comprehensive School Safety Plan covers Aspire's policies and expectations regarding the practices of each school in maintaining the security of the physical campus, responding appropriately to emergencies, increasing the safety and protection of students and staff, and creating a safe and orderly environment that is conducive to learning.

All school employees should receive training in the Comprehensive School Safety Plan upon joining the school, and should review any changes to the Plan annually.

CAMPUS SAFETY AND SECURITY

Each school and its staff members will maintain policies, practices and procedures so that the campus is physically secure and safe.

Entrances and Exits

The school principal and office manager should develop procedures so that students, staff, parents and community members can enter and exit the building in a safe and orderly way, and that the building is secure from unauthorized entry during non-school hours, as follows:

- Designating individuals to lock the school building and/or grounds when not in use
- Training school staff members to maintain the security of the building when working during non-regular working hours (e.g. not propping doors open, re-securing the building after leaving)
- Maintaining a practice of locking doors that are not being regularly used, even during school hours

- Posting signs requesting that visitors sign in at the main office
- Establishing a culture in which any adults without a visitor or staff badge and any children not enrolled at the school are escorted immediately to the main office

- Periodically testing the security system according the manufacturer or vendor instructions, to ensure it is functioning
- Creating a dismissal plan and student pick-up traffic plan to avoid congestion of the parking lot and local streets, and to prevent students from crossing traffic unnecessarily

Releasing Students

Aspire employees are responsible for releasing students to parents, legal guardians or other persons designated by parents or legal guardians, unless formally modified by a court order served to the school.

In the event that employees are uncertain of the propriety of releasing a student, they should locate or contact the school principal, principal's designee or Aspire counsel before releasing the student.

Visitors Policy

Aspire encourages interested members of the community to visit our schools. To avoid potential disruptions to learning, to provide visitors with the information they need, and for the safety of students and staff, ALL visitors should register immediately upon entering any school building or grounds. Visitors shall sign in at the beginning of their visit, receive a visitor badge, and sign out at the end of their visit. Students from other schools as well as students who have ended their school day are not to be on campus unless accompanied by parents/guardians or with the permission of the site administrator.

In registering as a visitor, the sign-in form should include spaces for the following information

- Name;
- His/her purpose for entering school grounds;
- Destination within the school
- Time in and out

At his/her discretion, the principal, office manager or designee may also request

- proof of identity
- address
- occupation and company affiliation
- age (if less than 21); and any other information consistent with law.

Parents and guardians visiting during the school day for any purpose other than picking up at or dropping off a child at the beginning or end of the school day as part of the normal school day schedule should also be requested to sign into the visitor log or a special log for parents. This applies to parents and guardians who are picking up a student early (e.g. for a medical reason) or dropping off a student late (e.g. tardy), as well as parents and guardians who are on campus to volunteer in their child's classroom.

Aspire employees from school campuses and the Home Office are strongly encouraged to notify the office manager and principal upon arrival and should wear badges signifying that they are Aspire employees. However, formal visitor registration is at the discretion of the school principal or designee.

VIP Visitors accompanied by any Aspire management team member (Vice-President level and above only) may be requested to register as a visitor at the discretion of the accompanying Aspire management team member.

Students not enrolled at the school who wish to use the school grounds for recreation during the school day are, at the discretion of the principal, also subject to Aspire's visitor policy.

The principal or designee may refuse to register any visitor if he or she reasonably concludes that the visitor's/outsider's presence would disrupt the school, students or employees, would result in damage to property, or would result in the distribution or use of a controlled substance. (Penal Code 627.4).

The principal or designee may request that a visitor/outsider who has failed to register, or whose registration privileges have been denied or revoked, to promptly leave school grounds.

If necessary, the principal or designee may call the local police to enforce the departure of the visitor/outsider. When a visitor/outsider is directed to leave, the principal or designee shall inform the visitor/outsider that if he or she reenters the school within seven (7) days, he or she will be guilty of a misdemeanor and subject to a fine and/or imprisonment. (Penal Code 627.7).

All schools shall inform parents annually about the school's policies regarding visitors/outsiders, and remind parents that to maximize safety and security they should also register when visiting the school.

This visitor/outsider policy is subject to the further terms and conditions contained in Aspire's Registered Sex Offender Policy, set forth below.

Fingerprinting Policy

For the protection of students, California State law requires criminal background checks for all public school employees, as well as any individual working alone with minors in a school setting. In most cases, fingerprinting is completed with a "Live Scan" machine which takes an electronic picture of the fingerprints (rather than using an ink pad). The fingerprints are then compared to the Federal Bureau of Investigations (FBI) and/or Department of Justice (DOJ) databases.

WHO SHOULD BE FINGERPRINTED

All new school site employees must be fingerprinted and cleared before they begin work. Individuals who were previously fingerprinted when they worked in another school district must be fingerprinted again to ensure that Aspire is notified if the person subsequently commits a felony or misdemeanor.

In addition, any volunteers who have the occasion to be alone with an Aspire pupil while not in the presence of a credentialed Aspire employee must receive fingerprint clearance prior to volunteering on campus. Volunteers do not have to be fingerprinted only if they are working under the direct and continual supervision of a credentialed school employee in the same room, and will have no occasion to be alone with an Aspire pupil. This policy also applies to parents/guardians of Aspire students who volunteer at the school and may have the occasion to be alone with an Aspire pupil other than their own child.

The actual background check depends on the individual's residency history. If the individual has resided in the state of California for more than 5 years, only DOJ check is required. If the individual has resided in the state of California for less than 5 years, DOJ and FBI checks are both required.

Note that most DOJ background checks take less than seven days, sometimes more. FBI background checks take considerably longer. Individuals who wish to work or volunteer at Aspire schools should plan to get fingerprinted as quickly as possible to avoid delays in commencing work or volunteer activities.

WHO PAYS FOR FINGERPRINTING

Aspire pays for Live Scan (fingerprinting) services for employees, using school general funds. Volunteers are requested to cover the cost of their own fingerprinting. If a potential volunteer

is not able to pay for such fingerprinting, then the cost of the fingerprinting may be paid by the school's booster club. If that entity does not have funds available, the cost will be paid by Aspire Home Office.

Please see complete Fingerprinting Policy & Procedure for specific details about how to get fingerprinted.

Registered Sex Offender Policy

For the protection of pupils while they are traveling to and from school, attending school, or at a school-related activity, principals and their designees should respond appropriately when apprised of information that a registered sex offender resides or works within two (2) miles of an Aspire school, or otherwise may be likely to attempt to visit an Aspire school for any reason whatsoever.

In accordance with "Megan's Law", the principal or designee shall notify parents/guardians annually of the availability of the CD-ROM from local law enforcement regarding registered sex offenders, and recommend that they utilize the information contained on the disk, and that information about registered sex offenders may be obtained from the California Attorney General's Megan's Law website, found at <http://meganslaw.ca.gov>, (Penal Code 290.4 and Parra Act), subject to the disclaimer found on said website.

Aspire and its employees shall be immune from liability for the good faith dissemination of sex offender information so long as the dissemination is in the manner and to the extent authorized by law. (Penal Code 290).

When a school has received information about a registered sex offender from any source, the principal or designee may, on a case-by-case basis, notify staff, including but not limited to, campus supervisors, bus drivers, staff who may be involved in visitor/outside registration, and teachers. If the principal or designee informs any staff member of the information about a registered sex offender, the principal or designee shall also inform the staff member of the following:

- a) Aspire schools will share public registered sex offender information with staff members of a particular school to assist in identifying a danger;
- b) Any person who uses registered sex offender information to commit a felony will be subject to criminal penalties; and
- c) Staff is not permitted to notify any parents or any other members of the community of any information received pursuant to this policy without the written permission of the principal or designee.

If a suspected registered sex offender is seen on or nearby school grounds, and is not a parent or guardian of a pupil at the school, staff members shall immediately inform the principal or designee. When the principal or designee receives information that a suspected registered sex offender may be on or nearby school grounds or around any pupil, he or she will determine whether the suspected registered sex offender has received written permission for the entry onto school grounds, is a parent or guardian of a pupil at the school, and if possible, is actually a registered sex offender. Any such registered sex offender who does not have written permission for the entry onto school grounds or is not a parent or guardian of a pupil attending

the school will be promptly directed to leave by the principal, who will notify law enforcement immediately. Law enforcement will determine if the registered sex offender is in violation of parole or probation conditions.

If a school learns or is notified that a registered sex offender is a parent/guardian of one or more pupils who attend the school, the principal or designee should attempt to schedule a meeting with the parent/guardian for the following purposes:

- a) To establish a positive, cooperative working relationship to the extent possible;
- b) To discuss the incident(s) leading to the registration requirement, (Aspire recognizes that the parent/guardian is not required to discuss any criminal or personal history with representatives of Aspire);
- c) To explain the limitations placed upon the parent's/guardian's participation in school programs, activities or visits, as specified in this policy;
- d) To advise the parent/guardian that the regulations limiting his/her access to children at school will be strictly enforced with the assistance of law enforcement personnel, if required;
- e) To develop joint strategies with the parent/guardian for "normalizing" the educational experience of his/her children to the fullest extent possible; and
- f) To be advised of any judicial restraining orders or conditions of probation or parole that may limit the parent's/guardian's ability to participate in school activities.

This meeting shall be held on school grounds unless there is a concern for the safety or welfare of pupils or staff, and in that event, it may be held at a location within the principal's or designee's discretion. If this meeting with the parent is not held, the principal or designee shall notify the parent/guardian in writing of the information contained in this policy. Aspire recognizes the following rights of the parent/guardian to participate in his/her child's education:

- a) To transport his/her child to and from school;
- b) To attend regularly scheduled parent conferences with the teacher, principal or other school official; and
- c) To attend a regularly scheduled school program or activity in which their child is a participant.

The parent/guardian may not extend their presence at school beyond what is reasonable to exercise the aforesaid parental rights, and to that end, a registered sex offender shall not:

- a) Serve as a school or class volunteer;
- b) Act as a chaperone on a school field trip;
- c) Be in the presence of children for any reason other than for the parent rights stated herein; and
- d) Make individual contact with any student other than his/her own while at school or during a school activity.

Staff shall provide observation and/or supervision of a parent/guardian registered sex offender who is visiting a school or participating in a school activity defined herein.

When a parent/guardian is a registered sex offender, the school will make an effort to preserve the confidentiality of information obtained pursuant to the Megan's Law notification process to the fullest degree possible. School officials may share relevant information with employees as needed but will not share the information with unauthorized employees, other parents or with the community at large. In order to avoid a breach of confidentiality, copies of forms, materials or information distributed or used in connection with the implementation of this policy should be collected and/or destroyed. Under no circumstances is it appropriate to post notices, photographs, or the identity of a parent/guardian registered sex offender on school bulletin boards.

All schools shall inform parents annually about the existence of this policy regarding registered sex offenders. All schools shall cooperate to the fullest extent possible with local law enforcement for receiving, communicating and disseminating information concerning registered sex offenders.

NOTE: Pursuant to Penal Code 290(q), any person who uses registered sex offender information to commit a felony will receive a five-year state prison term; any person who uses registered sex offender information to commit a misdemeanor will be fined at least \$500 and not more than \$1000.

EMERGENCY PREPAREDNESS

Every school should have emergency preparedness procedures readily on hand, including a list of up to date emergency contact numbers. This information should be discussed and disseminated before school starts, ideally at an all school staff meeting just when the teachers return to duty.

Drills

It is the principal's responsibility to schedule emergency drills throughout the year, and record the date and time of each drill. The Office Manager may be asked to help out. Those drills are:

- **Fire Drill:** At least once per quarter, a fire drill should be conducted in which all pupils, teachers, and other employees are required to vacate the building.
- **Civil Defense Drill:** A Civil Defense Drill should be conducted at least twice each school year following the (school's or Aspire's) Civil Defense Procedure.
- **Earthquake Duck & Cover Drill:** This drill should be performed twice per school year.
- **Major Disaster Drill:** This drill should be performed twice per school year so personnel are oriented to the (School or Aspire) Major Disaster Plan.

Civil Defense Procedures

Civil defense procedures are established to promote the safety of children and adults during a period of civil emergency. The local Civil Defense and Disaster Council is responsible for coordinating disaster planning among the cities in your area. It is through this coordination that information and warning notifications are communicated. An Emergency Warning System, which includes sirens strategically positioned throughout the school's county, becomes the major Civil Defense alarm.

In addition, schools will receive warning through telephone communications from the local county office.

Alert Signals

The ability to respond quickly and efficiently when a major disaster strikes is important so that we are to provide protection for students and school staff. In order to be better prepared, the staff, students and parents should be informed of their responsibilities following a major disaster.

At the sound of the “Alert” signal:

- All students in transit between classrooms, in restrooms, etc., will walk to their assigned classrooms.
- Children on the playground or library will return to their assigned classrooms.
- Each teacher will stay in the classroom with his/her students.
- Each custodian will report to the school office for instructions.

At the sound of the “Take Cover” signal:

- Students will position themselves under desks or tables.
- Students on the playground or out of doors will drop, face down on the ground.
- Open all doors; leave windows as they are.
- The teacher should be ready with stories, songs, guessing games, etc., in case of an extended waiting period.

At the “All Clear” signal:

- Children will resume their regular class activities.
- When a building is unsafe to resume classroom instruction or if the situation has made the streets and sidewalks hazardous, the superintendent (or designee) will declare the premises unsafe.
- If an evacuation is found necessary, the principal will post on a conspicuous place, the new location of the students. A notice or letter to parents designating a site as well as procedures should be included in the first day packet going home with students.

Staff Responsibilities

In the event of a disaster or civil defense alert, individuals on the school site have the following responsibilities:

PRINCIPAL

- Sound appropriate alarm to evacuate building (fire drill) or take cover within the building (civil defense).
- Following fire drill procedures, check the building to ensure that all students, personnel and visitors have evacuated the building.
- Provide for administration of first aid and request other emergency assistance as needed.
- Keep the Home Office and your local county office informed and, if necessary, set up a telephone communications at a nearby residence or business.
- Give directions to police in search clearing procedures and take full responsibility for search.

- Coordinate supervision of students and all clean-up or security efforts.

TEACHERS

- Carry out appropriate emergency procedures to ensure the safety and welfare of students.
- Supervise children and maintain calm and order.
- Make sure you have access to the classroom copy of the students' emergency cards.

OFFICE MANAGER

- Assist and take direction from the principal.
- Make sure first aid supplies are handy in case they are needed.
- Carry out other duties as assigned.

CUSTODIAL ENGINEERS

Shut off the valves for gas, water, electricity and air conditioning (if necessary).
Open all gates and doors to assembly and exit areas.

AIDES, VOLUNTEERS AND OTHER ADULTS

Should assist teachers working with students to keep them safe, orderly and comfortable.
Be on call for Administrators' requests.

COMMUNITY COUNCIL

In advance of emergencies, the Community Council should ensure the following emergency supplies are stored:

Student Emergency Packets (1 per student)

2 quarts of water
Solar blanket
Food for two days
Note from parents with emergency instructions

School Emergency Supplies:

First aid kits
Flashlights
Batteries
Radios
Megaphone
Walkie-talkies

Emergency Procedures

All classrooms should have emergency exit charts posted near the door(s). In the case of an emergency, every adult should be aware of his/her role and responsibilities and follow these procedures:

1. Principal assesses the situation.
2. Principal notifies all staff members of the emergency via PA, fire alarm, and/or megaphone.
3. Assigned person calls 911.
4. Assigned person notifies APS headquarters.
5. Principal or assigned person meets with emergency crews.
6. Assigned person(s) ensures all classrooms, hallways and restrooms on first floor are empty after escorting students their students to assigned location.
7. Assigned person(s) ensures all classrooms, hallways and restrooms on second floor are empty after escorting students their students to assigned location
8. Assigned person(s) ensures the cafeteria and gym are empty.
9. Assigned person(s) greet, organize and comfort students outside the building.
10. Each teacher takes role and Lead Teachers pick up the names of any missing students and report these names to the emergency crew chief and the Principal.
11. Assigned person(s) will direct students who need first aid to an assigned location.
12. Principal determines, in consultation with the emergency crews, whether to release students to their homes or to return students to classes and makes announcement via megaphone.
13. If students and staff are dismissed for the day, an assigned person(s) will be responsible for securing the building against vandalism and theft.
14. All classroom teachers will ensure that students are released to guardians' care.
15. In the case that counseling services are subsequently needed by any students, the Principal and an assigned person will coordinate that effort.
16. In the case that media coverage is an issue, Principal and an assigned person will control and organize press releases and media requests.

First Aid

The First Aid area should be located at an assigned place and properly stocked at all times. The First Aid team will consist of individuals assigned by the principal or designee.

DISASTER PLANS

Whenever there is any type of disaster, the primary concern is the safety of the students. The following general guidelines will offer assistance in a variety of disaster situations. Each teacher should also display Disaster Plan guidelines prominently in each classroom.

Fire

1. Principal, custodians and/or office manager will determine the location of the fire.
2. Office manager will phone 911, picks up emergency card binder and student medication and leaves the building prepared to phone parents of any injured child.
3. Custodian or principal will sound the fire alarms.
4. Staff will follow emergency procedures previously described.
5. Students should leave the room in a single file, walk briskly but carefully, and stay in their class group when they reach their designated spot.

Earthquake

If indoors:

1. All drop down to the floor and duck and cover.
2. Turn away from windows.
3. Take cover under a desk or table or against an interior wall.
4. Cover head with arms or hold to the cover and be prepared to move with it.
5. Hold the position until the ground stops shaking.
6. When initial shaking stops, principal or office manager sounds alarms to evacuate the building.
7. Staff to follow emergency procedures previously described.

If outdoors:

1. Move away from buildings, poles and overhead wires.
2. Lie down or crouch low to the ground.
3. Look out for dangers that demand movement.
4. Be prepared to duck and cover again due to after shocks.
5. Staff to follow emergency procedures previously described.

Flood/ Severe Weather

Warnings of severe weather are usually received via public radio or the State Warning Center. If time and conditions permit, students may be sent home. However, if the weather conditions develop during school hours, without sufficient warning, students should be held at school.

The principal will assess the situation and make an announcement over the PA or megaphone to A) evacuate, B) stay in classes or C) release students to go home.

See emergency procedures previously described for evacuation directions.

Electrical Failure

1. Principal and/or custodian notify the electrical company (PG&E) at 800-743-5000.
2. Office staff and classroom teachers turn off computers and other equipment that might be damaged by a power surge when the service is restored.

Gas Line Break

1. Principal and/or custodian notify PG&E.
2. Principal and/or custodian notify the Fire Department.
3. Staff to follow the emergency procedures previously described.

Water Main Break

1. Principal and/or custodian notifies the water department.
2. Custodian shuts off water.

3. Principal or notifies the police.
4. Principal determines if it is necessary to follow the emergency procedures on page 6 to evacuate students and staff.

Water Contamination

1. Instruct teachers to move students away from drinking fountains and sinks.
2. Notify school office and APS headquarters.
3. Have custodian turn off pressure to drinking fountains and sinks.

Chemical Spill/ Incident

If Indoors:

1. Block or rope off area – DO NOT TOUCH ANYTHING.
2. Evacuate room and TURN OFF air conditioning system.
3. Notify school office and Head Custodian of the incident - contact 911 if necessary.
4. Head Custodian should check for chemical safety data to determine clean up procedure.

If Outdoors:

1. Upon hearing of a chemical leak (usually from the fire department or other city office) the principal will determine if students should be evacuated.
2. Move away from buildings, poles and overhead wires.
3. Close doors and windows and TURN OFF air conditioning system.
4. If it is necessary to leave the site, move crosswind, never more directly with or against the wind which may carry fumes.
5. Give first aid.
6. Staff to follow the emergency procedures previously described.

Lockdown/Shooting Incident

If a shooting takes place the first priority is to shelter students and staff. On hearing shots or an announcement from Principal:

1. Teachers close and lock all classroom doors and windows immediately.
2. Teachers take roll.
3. Teachers calmly direct students to duck under their desks.
4. Principal calls 911.
5. Principal assigned person ensure students are not in the hallways or bathrooms. Students found in these areas are immediately escorted to a secure classroom or office.
6. Office personnel close and lock all office doors and windows immediately.
7. Nobody leaves their secure sites until emergency crew members escort them to safety.
8. Assigned person(s) will control and organize media.
9. Assigned person(s) will ensure that counseling services are available as soon as possible.

Bomb Threat

There are two primary ways a bomb threat may arise. One is through a phone call or written letter in which a bomb is discussed. The other is through a citing of a suspicious object. Threats should be handled quickly and efficiently as if they were real and life threatening.

If there is a phone call or written threat of a bomb on campus, the person who took the call or read the note will:

1. Notify Principal immediately.
2. Try to obtain information from the caller such as where the bomb is, where it is set to explode, what it looks like, what kind of bomb it is, why it is there and who the caller is. Note any identifying features about the caller (i.e. gender, speech patterns).

If there is a citing of a suspicious object, the person would:

1. Notify Principal immediately.
2. Do not touch the object but note any identifying features to describe it to the Principal and emergency crews.

In all cases:

1. If Principal determines to evacuate, staff follows emergency procedures previously described.
2. Before emergency crews are on campus, do not search for any bomb, or explosive. Search only for people who should be evacuated.
3. If you see any suspicious object, steer clear of it and report it to the Principal and the emergency crew chief. Follow all emergency crew and bomb squad directives.
4. Use radios, walkie-talkies and phones only if absolutely necessary as the frequencies may set off the bomb(s).

Explosion

If indoors:

1. All drop down to the floor and duck and cover.
2. Turn away from the windows.
3. Take cover under a desk or table or against an interior wall.
4. Cover head with arms or hold to the cover.
5. Hold the position until directed to the building.
6. Staff to follow the emergency procedures previously described.

If outdoors:

1. Move away from buildings, poles and overhead wires.
2. Lie down or crouch low to the ground.
3. Look out for dangers that demand movement.
4. Staff to follow emergency procedures previously described.

Death/Suicide

1. Principal will be notified in the event of a death or suicide on campus.
2. Assigned person(s) will phone 911.
3. Assigned person(s) will phone APS headquarters.
4. Principal will notify teachers to keep students in their classrooms until informed otherwise.
5. Assigned person(s) will control and organize media.

6. Assigned person(s) will notify relatives where the victim(s) have been taken and not divulge unnecessary details.
7. Assigned person(s) will ensure that counseling services are available as soon as possible.

Intruders/ Vicious Animals

1. Call the school main office and office staff will check out the situation and take appropriate action (i.e., contact Police or animal control agency).
2. Administration should initiate a code to alert staff of a potential suspicious intruder.
3. Keep the students in the classroom until the threat is cleared.
4. Implement shelter in place if necessary; lock classroom doors and windows, move away from windows, draw curtains, remain silent.
5. Notify office of who is with you, if possible.
6. All students outside of the building are to be quietly and cautiously led into the building.
7. Wait for further instructions from administration and/or police/animal agency.

SCHOOL UNIFORMS

Aspire policy requires all students at Aspire schools to wear uniforms, beginning in the 2005-06 school year. Aspire Public Schools is committed to create a culture of academic rigor in our schools. A uniform dress code encourages this atmosphere. Implementation of this policy will reduce distractions and disruptions caused by clothing, make economic disparities between students less obvious, minimize the use of clothing to signal gang affiliation and other risks to student safety, and promote student achievement and create an orderly learning environment.

- *Uniform selection:* The specific uniform (i.e. colors and other specifications) will be determined by the school site with consideration for feeder schools.
- *Support for needy families:* Each school will designate philanthropy or general funds to support families who may need assistance in meeting the uniform requirements.
- *Exceptions:* Because Aspire schools are schools of choice, there will be NO exemptions for students.

STUDENT DISCIPLINE

Aspire believes that one of the major functions of education is the preparation of youth for responsible citizenship. Aspire shall foster a learning environment that reinforces self-discipline and the acceptance of personal responsibility. In addition, Aspire shall work with students and families to provide a safe school environment that provides students with the opportunity to have a quality education.

The following policies and procedures are designed to guide Aspire schools and personnel in dealing with student discipline issues, while providing students and parents with a clear set of expectations regarding student behavior and an understanding of the consequences of misconduct.

As provided in Aspire charter petitions, the policies and procedures for suspension and expulsion of Aspire students set forth in this document comply with the policies and procedures identified in the California Education Code. These policies and procedures will be periodically reviewed and the lists of offenses for which students are subject to suspension or expulsion will be modified as necessary.

These policies and procedures will be enforced fairly, uniformly, and consistently without regard to sex, ethnic group, religion, sexual orientation, color, race, national origin and physical or mental disability

Discipline in General

Each school should develop a process for handling, and if necessary escalating, individual cases of student misbehavior. Strategies may include but are not limited to:

- Relocating the student's desk to a different part of the classroom;
- Assigning different or additional work appropriate to the infraction;
- Utilizing a peer mediation or student conflict resolution program;
- Individual conversation with the classroom teacher about behavior and consequences;
- Utilizing a written referral framework;
- Designating selected classrooms and teachers (typically, lead teachers or advisors) as places for "time out";
- Referring students to the principal or a designee;
- Contacting parents/guardians; and/or
- Requiring the student to attend before/after school detention or Saturday detention;

All Aspire employees will report unmanageable or unusual behavior of students to the school principal or designee as soon as possible. The school principal or designee shall investigate the report and exercise his or her discretion for purposes of notification of parents, legal guardians, law enforcement, or local child protection services.

Suspension

Suspension is the temporary removal of a student from class instruction for adjustment or disciplinary reasons. A suspension does not mean any of the following:

1. Reassignment to another class at the same school where the student will receive continuing instruction for the school day.
2. Referral to an advisor assigned that role by the Principal.

While on suspension from school, the student is not to loiter on or about any school grounds at any time, nor to attend any Aspire activity at any time, no matter where such activity may be taking place. Violation may result in further disciplinary action.

Except in cases where suspension for a first offense is warranted in accordance with law, each school site shall consider suspension from school only when other means have not been successful or where the student's presence would constitute a danger to persons or property or seriously disrupt the educational process.

AUTHORITY TO SUSPEND:

1. A teacher may suspend a student only from his/her classroom for the day of the suspension plus the following school day.
2. The Principal or his/her designee may suspend a student from class, classes or the school campus for a period not to exceed five school days.
3. The Superintendent or his/her designee may extend a student's suspension pending final decision by the Aspire Board of Directors – Executive Committee ("Aspire Executive Committee") on a recommendation for expulsion.
4. A Special Education student being considered for expulsion may be suspended for ten (10) consecutive days pending assessment and an IEP Team meeting. The suspension may also be extended pending final decision by the Aspire Executive Committee on a recommendation for expulsion.

A pupil may not be suspended or expelled for any of the acts enumerated unless the act is related to school activity or school attendance occurring within a school under the jurisdiction of the Chief Executive Officer or principal or occurring within any other school district. A pupil may be suspended or expelled for acts that are enumerated in the section and related to school activity or attendance that occur at any time, including, but not limited to any of the following:

- While on school grounds.
- While going to or coming from school.
- During the lunch period whether on or off the campus.
- During, or while going to or coming from, a school sponsored activity.

GROUNDS FOR SUSPENSION AND EXPULSION

The following information is provided in order to provide uniformity within Aspire in matters of student misconduct requiring disciplinary action. The following offenses constitute grounds for suspension and expulsion and require police notification for the grade levels indicated:

- **Physical Injury:** Caused, attempted to cause, or threatened to cause physical injury to another person (Ed. Code 48900(a)(1)) or willfully used force or violence upon the person of another, except in self-defense. (Ed. Code 48900(a)(2)) Notification to police required for students in grades K-12.
- **Weapons, Explosives, Dangerous Objects:** Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the pupil had obtained written permission to possess the item from a certificated school employee, which is concurred in by the principal or the designee of the principal. (Ed.Code 48900(b)) Notification to police required for students in grades K-12.
- **Controlled Substances/Alcohol:** Unlawfully possessed, used, sold, or otherwise furnished, or been under the influence of, any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind. (Ed.Code 48900(c)) Notification to police required for students in grades K-12.
- **Substances in Lieu of Controlled Substances:** Unlawfully offered, arranged, or negotiated to sell any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind, and then either sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented the liquid, substance, or material as a controlled

substance, alcoholic beverage, or intoxicant. (Ed.Code 48900(d)) Notification to police required for students in grades K-12.

- **Robbery or Extortion:** Committed or attempted to commit robbery or extortion. (Ed.Code 48900(e)) Notification to police required for students in grades K-12.
- **Damage to Property:** Caused or attempted to cause damage to school property or private property. (Ed. Code 48900(f)) Notification to police required for students in grades K-12.
- **Theft of Property:** Stole or attempted to steal school property or private property. (Ed. Code 48900(g)) Notification to police required for students in grades 4-12.
- **Tobacco:** Possessed or used tobacco, or any product containing tobacco or nicotine products, including, but not limited to, cigarettes, cigars, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel. However, this section does not prohibit use or possession by a pupil of his or her own prescription products. (Ed.Code 48900(h))
- **Obscenity/Profanity:** Committed an obscene act or engaged in habitual profanity or vulgarity. (Ed.Code 48900(i))
- **Drug Paraphernalia:** Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Section 11014.5 of the Health and Safety Code. (Ed.Code 48900(j)) Notification to police required for students in grades K-12.
- **Disruption/Defiance:** Disrupted school activities or otherwise willfully defied the valid authority of supervisors, teachers, administrators, or other school personnel engaged in the performance of their duties. (Ed.Code 48900(k)) Notification to police required for students in grades K-12.
- **Received Stolen Property:** Knowingly received stolen school property or private property. (Ed.Code 48900(l)) Notification to police required for students in grades 4-12.
- **Imitation Firearm:** Possessed an imitation firearm. (Ed. Code 48900(m)) Notification to police required for students in grades 4-12.
- *Definition of Imitation Firearm:* a replica of a firearm that is so substantially similar in physical properties to an existing firearm to lead a reasonable person to conclude that the replica is a firearm. (Ed.Code 48900(m))
- **Sexual Assault/Sexual Battery:** Committed or attempted to commit a sexual assault as defined in Section 261, 266c, 286, 288, 288a, or 289 of the Penal Code or committed a sexual battery as defined in Section 243.4 of the Penal Code. (Ed.Code 48900(n)) Notification to police required for students in grades 4-12.
- *Definition of Sexual Assault:* includes rape, various types of sexual abuse, and lewd and lascivious conduct. (Penal Code 261, 266c, 286, 288, 288a, 289.)
- *Definition of Sexual Battery:* the touching of an intimate part of another person, if the touching is against the will of the person touched, and is for the specific purpose of sexual arousal, sexual gratification, or sexual abuse. (Penal Code 243.4.)
- **Harassment of Witness:** Harassed, threatened, or intimidated a pupil who is a complaining witness or witness in a school disciplinary proceeding for the purpose of either preventing that pupil from being a witness or retaliating against that pupil for being a witness, or both. (Ed.Code 48900(o))
- **Sexual Harassment:** Committed sexual harassment. (Ed.Code 48900.2)
- *Definition of Sexual Harassment:* an act which, upon review of a reasonable person of the same gender as the victim, is determined to be sufficiently severe or pervasive so as to cause negative impact on one's academic performance or to create an intimidating, hostile

or offensive educational environment. Notification to police required for students in grades 4-12.

- **Limitation:** Sexual harassment must be unwelcomed by the recipient in order to constitute a violation of Education Code 48900.2.
- **Limitation:** Only students in grades 4-12 are subject to suspension for sexual harassment.
- **Hate Violence:** Caused, attempted to cause, threatened to cause, or participated in an act of hate violence. (Ed.Code 48900.3) Notification to police required for students in grades K-12.
- **Definition of Hate Violence:** the use of force or threat of force to intimidate a person in the exercise of a constitutional or statutory right, or damage or destruction of property for the purpose of intimidating or interfering with a person because of that individual's "race, color, religion, ancestry, national origin, disability, gender, or sexual orientation."
- **Intentional Harassment:** Created a hostile educational environment (Ed.Code 48900.4)
- **Definition of Intentional Harassment:** engaging in harassment, threats or intimidation, directed against a student or group of students, that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting a classroom, creating substantial disorder, and invading the rights of the students or group of students by creating an intimidating or hostile educational environment.
- **Terrorist Threats Against School Officials and/or Property:** Committed a terroristic threat against school officials, school property or both (Ed.Code 48900.7)
 - **Definition of Terrorist Threat:** includes any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in:
 - death
 - great bodily injury to another person, or
 - property damage in excess of one thousand dollars (\$1,000.00),
 - with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for:
 - his or her own safety,
 - his or her immediate family's safety,
 - the protection of school property, and/or
 - the personal property of the person threatened or of his or her immediate family.
- **Electronic Signaling Device:** Possessed electronic signaling device, including cell phones and pagers while on school grounds while attending school sponsored activities or while under the supervision and control of school employees (Ed. Code 48901.5)
- **Hazing:** Engaged in hazing activities or any act that causes or is likely to cause personal humiliation or disgrace (Ed.Code 32050-32052)
- **Vandalism/Malicious Mischief:** Defaced, damaged or destroyed any school property including, books, supplies of all kinds, equipment, buildings and grounds.
- **Note:** Parents can be held financially liable for damages up to \$10,000 and shall also be liable for the amount of any reward not exceeding \$10,000 pursuant to Section 53069.5 of the Government Code (Ed.Code 48904).

See complete Suspension/Expulsion Policy and Procedures for steps taken in cases requiring suspension and appeals process.

Expulsion

Expulsion is the involuntary removal of a student from all schools and programs of Aspire for an extended period of time for acts of specified misconduct. Except for single acts of a grave nature, expulsion is used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. Final action is only taken by vote of the Aspire Board of Directors – Executive Committee (“Aspire Executive Committee”).

In the event that a student is recommended for expulsion from Aspire, he or she is entitled to a hearing and, among other things, advance written notice of the rights and responsibilities enumerated in Education Code section 48918. Written notice of these due process rights shall be provided at least 10 days in advance of the date set for the hearing. (Ed. Code 48918)

Expulsion proceedings for a currently identified Special Education student require additional due process procedures. Aspire will follow all due process procedures for Special Education students included in this document and in the Education Code.

While under expulsion, a student cannot enroll in another California school district without approval of that district's Board of Education. Certain expelled students may enroll only in Juvenile Court Schools, County Community Schools, or District operated Community Day Schools (AB922) during the duration of the expulsion.

The Aspire Executive Committee, upon voting to expel a pupil, may suspend the enforcement of the expulsion order for a period of not more than one calendar year and may, as a condition of the suspension of enforcement, assign the pupil to a school, class, or program that is deemed appropriate for the rehabilitation of the pupil. The rehabilitation program to which the pupil is assigned may provide for the involvement of the pupil's parent or guardian in his or her child's education in ways that are specified in the rehabilitation program. A parent or guardian's refusal to participate in the rehabilitation program shall not be considered in the Aspire Executive Committee's determination as to whether the pupil has satisfactorily completed the rehabilitation program. (Ed. Code 48917)

EXPELLABLE OFFENSES:

Category I – Mandatory Expulsion

Under the mandatory provisions of Education Code 48915(c), a student who has committed one or more of the following acts **must be recommended for expulsion** and the Aspire Executive Committee **must expel** the student.

- Possessing, selling or otherwise furnishing a firearm when an Aspire employee verified firearm possession,
- Brandishing a knife at another person,
- Unlawfully selling a controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, or

- Committing or attempting to commit a sexual assault or committing sexual battery

Category II – Mandatory Recommendation for Expulsion

Under the mandatory provision of Education Code 48915(a), a student who has committed one of the following acts of misconduct must be **recommended for expulsion** unless particular circumstances render it inappropriate.

- Causing serious physical injury to another person, except in self-defense;
- Possession of any knife, explosive, or other dangerous object of no reasonable use to the student;
- Unlawful possession of any controlled substance listed in Chapter 2 (Commencing with Section 11053) of Division 10 of the Health and Safety Code, except for the first offense for the possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis;
- Robbery or extortion;
- Assault or battery upon a school employee.

Category III – Expulsion May Be Recommended

In accordance with Education Code 48915 and by direction of the California Board of Education, a student may be considered for expulsion for committing any act not listed in Category I or II and enumerated in Education Code sections 48900, 48900.2, 48900.3, 48900.4, or 48900.7.

Note: The Aspire Executive Committee’s decision to expel a student for violations included in Categories II and III must be based on a finding of one or both of the following:

1. Other means of correction are not feasible or have repeatedly failed to bring about the proper conduct.
2. Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others. (Ed. Code 48915(b) and 48915(e).)

Note: If the Discipline Review Board chooses not to recommend the expulsion of the student, Aspire may, at its discretion, impose a lesser form of disciplinary action which may include assigning the student to another school or program. Such transferred students will not be permitted to re-enroll in their former school of assignment. (Ed. Code 48918(e).)

SEE COMPLETE SUSPENSION/EXPULSION POLICY AND PROCEDURES FOR PROCEDURES IN CASES INVOLVING EXPULSION, REQUIRING THE EXTENSION OF SUSPENSION AND/OR EXPULSION, AND THE APPEALS PROCESS.

ANTI-DISCRIMINATION AND ANTI-HARASSMENT POLICY

Aspire Public Schools (“Aspire”) is committed to providing a cooperative and comfortable work and education environment free of discrimination and harassment of any kind. Accordingly, Aspire forbids discrimination against any employee, applicant for employment, or student, on the basis of sex, ethnic group, religion, sexual orientation, color, race, national origin and physical or mental disability. Aspire will not tolerate discrimination or harassment activity by

any of its employees, non-employee volunteers, or any other person subject to the control of school authorities. Furthermore, all programs and activities at Aspire shall be free from discrimination and harassment with respect to sex, ethnic group, religion, sexual orientation, color, race, national origin and physical or mental disability.

This policy is intended to be consistent with, and intended to be, enforced in conformity with the California Fair Employment and Housing Act and Title VII of the Civil Rights Act of 1964, which prohibits harassment in the workplace, as well as multiple sections of the Education Code.

Students

All students shall have equal opportunities in admission and access to the educational program, guidance and counseling programs, athletic programs, testing procedures, and other activities. Eligibility for choral and cheerleading groups shall be determined solely on the basis of objective competencies. School staff and volunteers shall carefully guard against segregation, bias and stereotyping in instruction, guidance and supervision.

Aspire schools may provide girls and boys with separate shower rooms and sex education classes in order to protect student modesty. In physical education, when objective standards have an adverse effect on students because of their gender, race, ethnic group or disability, other standards should be used to measure achievement and create comparable educational opportunities.

The Board prohibits intimidation or harassment of any student by any employee, student or other person in Aspire. Staff shall be alert and immediately responsive to student conduct that may interfere with another student's ability to participate in or benefit from school services, activities or privileges.

Students who harass or discriminate against other students shall be subject to appropriate counseling and discipline, up to and including expulsion. An employee who permits or engages in discrimination or harassment may be subject to disciplinary action, up to and including dismissal.

Any student who feels that he/she is being harassed or discriminated against should immediately contact the principal or designee. The student and/or parent may file a complaint verbally or in writing under Aspire's "Discrimination/Harassment Student/Parent Complaint Procedure." Upon receipt of a harassment complaint the Chief Executive Officer or designee will be notified. Complaints of harassment will be investigated immediately according to the procedures set forth in Aspire's "Discrimination/Harassment Student/Parent Complaint Procedure."

Aspire's "Anti-Discrimination and Anti-Harassment Policy" and the "Discrimination/Harassment Student/Parent Complaint Procedure" will be reviewed with students at the beginning of each school year, either in the classroom or in student assemblies.

At the start of each school year, this policy will be mailed to parents/guardians.

Employees – Sexual Harassment

Aspire forbids discrimination against any employee, applicant for employment, or student, on the basis of sex. Aspire will not tolerate sexual harassment activity by any of its employees. This policy similarly applies to non-employee volunteers or any other person subject to the control of school authorities.

A. DEFINITIONS

- (1) Conduct of a Sexual Nature - Conduct of a sexual nature may include, but is not limited to, verbal, visual or physical sexual advances, including subtle pressure for sexual activity; touching, staring, looking up and down, pinching, patting, or brushing against; comments regarding physical or personality characteristics of a sexual nature; sexually-oriented "kidding," "teasing," double-entendres, explicit or suggestive messages, cartoons, pictures and jokes, and any harassing conduct to which an employee would not be subjected but for such employee's sex.
- (2) Unwelcome Conduct of a Sexual Nature.
 - (a) Verbal, visual or physical conduct of a sexual nature may constitute sexual harassment when the allegedly harassed employee has indicated, by his or her conduct, that it is unwelcome.
 - (b) An employee who has initially welcomed such conduct by active participation must give specific notice to the alleged harasser that such conduct is no longer welcome in order for any such subsequent conduct to be deemed unwelcome.
 - (c) Aspire prohibits any conduct of a sexual nature directed toward students by teachers or others to whom this policy applies, and shall presume that any such conduct is unwelcome.

B. SEXUAL HARASSMENT PROHIBITED

- (1) For the purposes of this policy, unwelcome sexual advances or requests for sexual favors, and other unwelcome conduct of a sexual nature, constitute prohibited sexual harassment if:
 - (a) Submission to the conduct is made either an explicit or implicit condition of employment (as an illustration, and not as a limitation, where a person's continued employment is conditioned upon or impacted by prohibited sexual-based factors);
 - (b) Submission to or rejection of the conduct is used as a basis for an employment decision affecting the harassed employee; and
 - (c) The conduct substantially interferes with an employee's or student's performance, or creates an intimidating, hostile, or offensive work or school environment, regardless of whether the employee's continued employment or compensation is affected.
- (2) Specific Prohibitions--Administrators and Supervisors.
 - (a) It is sexual harassment for a manager or supervisor to use his or her authority to solicit sexual favors or attention from subordinates when the subordinate's failure to submit will result in adverse treatment, or when the subordinate's acquiescence will result in preferential treatment.

- (b) Administrators and supervisors who either engage in sexual harassment or tolerate such conduct by other employees shall be subject to sanctions, as described below.
- (3) Specific Prohibitions--Non-managerial and Non-supervisory Employees: It is sexual harassment for a non-administrative and non-supervisory employee to subject another such employee to any unwelcome conduct of a sexual nature. Employees who engage in such conduct shall be subject to sanctions as described below.
- (4) Specific Prohibitions--Employees and Students: It is sexual harassment for an employee to subject a student to any conduct of a sexual nature. Employees who engage in such conduct shall be subject to sanctions.

C. REPORTING, INVESTIGATION, AND SANCTIONS

- (1) It is the express policy of Aspire to encourage victims of sexual harassment to report such claims. Aspire understands that victims of harassment are often embarrassed and reluctant to report acts of harassment for fear of being blamed, concern about being retaliated against, or because it is difficult to discuss sexual matters openly with others. However, no employee of Aspire should have to endure harassing conduct, and therefore the School encourages everyone to promptly report any incidents of harassment so that corrective action can be taken.
 - (a) Employees who feel that their superiors are conditioning promotions, increases in wages, continuation of employment, or other terms or conditions of employment upon agreement to unwelcome conduct of a sexual nature, are encouraged to report these conditions to the appropriate administrator. If the employee's direct administrator or supervisor is the offending person, the report shall be made to the next higher level of authority.
 - (b) Employees are also urged to report any unwelcome conduct of a sexual nature by superiors or fellow employees if such conduct interferes with the individual's work performance, or creates a hostile or offensive working environment.
 - (c) Students are urged to report any conduct of a sexual nature by school employees or others to whom this policy applies to a school counselor or administrator.
- (2) Every reported complaint of harassment will be investigated promptly and thoroughly by Aspire. Typically the investigation will include interviewing the complainant, anyone who may have knowledge of the alleged harassment, and the alleged harasser. Once the investigation is completed, Aspire will notify the complainant of the results of the investigation. Aspire will make every effort to handle the investigation in as confidential a manner as possible consistent with a thorough, fair and proper investigation. Aspire will not tolerate reprisals or retaliation against anyone as a result of the good-faith reporting of charges of sexual harassment.
- (3) In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred have to be investigated.
- (4) Any employee found to have engaged in sexual harassment shall be subject to sanctions, including, but not limited to, warning or reprimand, suspension, or termination. Conduct of a sexual nature directed toward students shall be reported as child abuse for investigation by appropriate law enforcement and/or other authorities.

D. FILING COMPLAINTS WITH STATE AND FEDERAL AGENCIES

In addition to notifying Aspire of harassment or retaliation, aggrieved parties may wish to file complaints with other appropriate state and federal agencies, including the United States Equal Employment Opportunity Commission (EEOC) and/or the California Department of Fair Employment and Housing (DFEH), which have authority to conduct investigations of facts. Aggrieved parties are advised that statutory deadlines apply for the tender of complaint to either the EEOC and/or the DFEH and that if complaints are not timely filed they may be barred by law. If the EEOC and/or the DFEH believe that a complaint is valid and settlement efforts fail, aggrieved parties may seek an administrative hearing. Aggrieved parties may also be entitled to file a lawsuit in Federal or state court. Administrative agencies and the courts have the authority to award monetary and non-monetary relief in meritorious cases. Employees can contact the nearest EEOC or DFEH office at the locations listed on Aspire's employment law poster or by checking the state government listings in the local telephone directory.

Employees – All Other Kinds of Discrimination or Harassment

Prohibited harassment on the basis of race, ethnic group, color, national origin, ancestry, religion, physical or mental disability, marital status, medical condition, sexual orientation, veteran status, age, or any other protected basis, includes behavior similar to sexual harassment, such as:

- Verbal conduct such as threats, epithets, derogatory comments, or slurs;
- Visual conduct such as derogatory posters, photographs, cartoons, drawings, or gestures;
- Physical conduct such as assault, unwanted touching, or blocking normal movement; and
- Retaliation for reporting harassment or threatening to report harassment.

COMPLAINT PROCEDURE

Aspire's complaint procedure provides for an immediate, thorough, and objective investigation of any claim of unlawful or prohibited harassment, appropriate disciplinary action against one found to have engaged in prohibited harassment, and appropriate remedies for any victim of harassment. A claim of harassment may exist even if the employee has not lost a job or some economic benefit.

Employees who believe they have been harassed on the job, or who become aware of the harassment of others are encouraged to inform the offender that this behavior is unwelcome. They should also immediately provide a written or verbal complaint to your supervisor, manager, Human Resources, or any other member of management as soon as possible. The complaint should be as detailed as possible, including the names of individuals involved, the names of any witnesses, direct quotations when language is relevant, and any documentary evidence (notes, pictures, cartoons, etc.).

All incidents of prohibited harassment that are reported will be investigated. Aspire will immediately undertake or direct an effective, thorough, and objective investigation of the harassment allegations. The investigation will be completed and a determination regarding the reported harassment will be made and communicated to the employee who complained and to the accused harasser(s).

If Aspire determines that prohibited harassment or other conduct that violates an Aspire policy has occurred, the organization will take effective remedial action commensurate with the circumstances. Appropriate action will also be taken to deter any future harassment. If a complaint of prohibited conduct is substantiated, appropriate disciplinary action, up to and including immediate termination, will be taken. Whatever action is taken against the wrongdoer will be communicated to the employee who complained. Applicable law prohibits retaliation against any employee who complains of prohibited harassment or who participates in an investigation.

LIABILITY FOR HARASSMENT

Any employee of Aspire, whether an employee, supervisor, or manager who is found to have engaged in prohibited harassment is subject to disciplinary action, up to and including immediate discharge from employment. Any employee who engages in prohibited harassment, including any supervisor or manager who knew about the harassment but took no action to stop it, may be held personally liable for monetary damages. Aspire does not consider conduct in violation of this policy to be within the course and scope of employment or the direct consequence of the discharge of one's duties. Accordingly, to the extent permitted by law, Aspire reserves the right not to provide a defense or pay damages assessed against employees for conduct in violation of this policy.

PREVENTION OF CHILD ABUSE POLICY

Aspire is committed to maintaining safe and secure campuses for students, and for following its legal responsibilities in reporting suspected child abuse/neglect to the proper authorities.

Reporting Suspected Abuse/Neglect

While the responsibility of enforcing legal prohibitions against child abuse and neglect lies with the protective agencies such as the local police department and Children's Protective Services, Aspire's child care custodians (including teachers, administrative officers, certificated personnel, etc.) are mandated reporters of known or suspected child abuse/neglect and are required to fulfill this legal responsibility. Every child care custodian of Aspire must sign a "Child Abuse Reporting" form indicating they understand their responsibilities to report known or suspected child abuse/neglect.

See complete Prevention of Child Abuse Policy and Procedure for specific steps regarding the reporting of suspected abuse and neglect.

Reporting Problems at the School Site

Aspire maintains zero tolerance for abuse. Every member of any Aspire community must participate actively in the protection of its students.

All Aspire schools will monitor the school buildings and grounds:

- All unused rooms, storage areas, and closet doors should be kept locked at all times;
- all unused buildings and areas must be designated, posted and enforced as off-limits to children;
- all students are required to remain in areas that are easily viewed by employees;

- Interior doors should be left open and unlocked when rooms are in use
- Blinds should be left open to allow informal monitoring by a passerby.

In the event that any current or future Aspire employee observes any suspicious or inappropriate behaviors on the part of any third party or other employee while on any Aspire premises, he or she is required to immediately report their observations to the principal or designee. Examples of suspicious or inappropriate behaviors include, but are not limited to:

- policy violations,
- neglectful supervision,
- “private time” with students,
- taking students off premises without adhering to procedures,
- buying unusual gifts for children and youth,
- swearing or making suggestive comments to students,
- or any other conduct as identified in this policy, or which is inappropriate or illegal in the eyes of the observer.

All reports of suspicious or inappropriate behavior with students will be taken seriously. The principal or designee will conduct an immediate investigation concerning the alleged act or omission. If at any point in gathering information about the allegedly suspicious, inappropriate or illegal behavior, a concern arises that there is a possibility of abuse of any kind, appropriate law enforcement and/or local child protection services will be contacted immediately and a report will be filed. If at any point any policy violations with students are confirmed, employees will be subject to disciplinary action, including but not limited to, administrative leave, termination and/or criminal prosecution.

Aspire will cooperate with any and all law enforcement and/or governmental entities in the implementation and enforcement of this policy.

Employee Conduct With Students

All Aspire employees are responsible for conducting themselves in ways that preserves the safety of students and that prevents either the reality of or perception of inappropriate interaction with students.

In general, all Aspire employees will treat all children with respect and consideration equally, regardless of sex, race, religion, culture or socio-economic status. Employees will portray a positive role model for youth by maintaining an attitude of respect, patience and maturity.

Alcohol, Tobacco, and Controlled Substances

All Aspire employees are prohibited from the use, possession, or distribution of alcohol, tobacco products, or any illegal controlled substances while in the presence of students or at any time on school grounds. They are also prohibited from being under the influence of alcohol or any illegal controlled substances while in the presence of students or at any time on school grounds.

Transportation of Students

Aspire employees may occasionally be in a position to provide transportation for students. The following guidelines should be observed in such circumstances:

- a) With the exception of emergency situations related to medical necessity, employees should avoid transporting students without the written permission of his or her parent or guardian;
- b) If written permission is not possible, the employee should make a written record of any verbal permission granted by the parent or guardian;
- c) Students should be transported directly to their destination and no unauthorized or unnecessary stops should be made;
- d) Employees will avoid unnecessary and/or inappropriate physical contact with students while in vehicles;
- e) Drivers who are assigned to transport students must be at least 21 years old and must abide by standards related to insurance and other legal requirements;
- f) The employee should make a written record of the trip, including departure and arrival times and locations and students involved; and
- g) Whenever possible, two Aspire employees should collectively engage in the transportation activity.

Language

Employees will not speak to students in a way that is or could be construed by any observer as harsh, coercive, threatening, intimidating, shaming, derogatory, demeaning, or humiliating. Employees are to refrain from swearing in the presence of students. Employees are cautioned against initiating sexually oriented conversations with students, except in the context of Aspire's health education or advisory curriculum. Employees are not permitted to discuss their own sexual activities with students.

Gifts

Money will not be given to students. Gifts will not be given to individual students, except as an award related to a previously announced academic competition; or as a group award given to all participants in celebration of classroom or school accomplishment or special event.

Attire

Employees must be appropriately and professionally dressed in presence of students. Each school may adopt its own dress code for employees and employees will be expected to follow that code.

Behavior

One-to-one counseling with students will be done in a public place insofar as possible, where private conversations are possible but occur in full view of others.

Employees will refrain from intimate displays of affection towards others in the presence of students, parents, and other personnel.

Employees are prohibited from possessing any sexually oriented materials (magazines, cards, videos, films, clothing, etc) on school grounds or in the presence of students.

Physical contact with students

Some forms of physical contact between adults and children are appropriate and that other forms are inappropriate, illegal, or have been used by adults to initiate inappropriate or illegal contact with children.

Appropriate physical contact between employees and students include, but are not limited to:

- Handshakes;
- “High Fives” or hand slapping;
- briefly touching tops of heads, shoulders or upper back in acknowledgement, congratulation or consolation;
- brief sideways hugs; and
- holding hands while walking with small children.

Inappropriate physical contact between employees and students include, but are not limited to:

- full body hugs or lengthy embraces;
- kisses;
- holding small children on the lap;
- touching bottoms, chests, knees, legs, , and/or genital areas;
- showing affection in isolated or private areas;
- sleeping with a student;
- wrestling with students;
- tickling students;
- piggyback rides;
- any type of massage;
- any form of unwanted affection; and/or
- any compliments that relate to physique or body development.

All Aspire employees are prohibited from using physical punishment in any way for behavior management of students. No form of physical discipline is acceptable. This prohibition includes spanking, slapping, pinching, hitting or any other physical force as retaliation or correction for inappropriate behaviors by students. Other prohibitions include, but are not limited to,

- isolation except as needed for the child to gain self-control (and then only under the supervision of an adult, and no longer than 15 minutes),
- withholding food or water,
- degrading punishment,
- work assignments unrelated to a natural or logical consequence,
- excessive exercise,
- withholding access to contact with parents or guardians,
- withholding or using medications for punishment,
- mechanical restraint such as rope or tape to restrict movement, or
- any type of physical restraint.

Appendix 9: Aspire Student Outreach Strategies

Strategies for Student Recruitment

In the student recruiting process, site principals do the following:

1. Raise awareness of Aspire as a choice among targeted (i.e. low income) population
2. Persuade families to visit an Aspire school or come to a presentation
3. Manage parent expectations about the school, to ensure a good fit

Raising Awareness

In the first stage, a variety of methods can be used to make families aware that Aspire is an alternative for their children. Aspire’s core target market of low-income families tends to have limited access to information about public school choices, so it’s important to get information out in a targeted way.

Approach	Cost	Time	Ability to target	Comments
Presentations at community centers & churches	Low	High	High	Community groups, including churches, are an important and respected source of information for families.
Presentations at feeder schools	Low	High	High	Pre-school programs, especially Head Start, provide the best access to low-income families of would-be kindergarteners. Local parochial schools and even other neighborhood schools are also possibilities, if the relationship is friendly.
Word-of-mouth	Low	Low	Moderate	Effectiveness depends on current constituency and reputation
Flyers	Low	Moderate	Moderate	The process of posting flyers (i.e. in-person conversations with local small business owners) is a good way to make community connections and get a better feel for the neighborhood dynamics
Direct mail	High	High	Moderate	Ability to target depends on the source of the mailing list (district, community group)
Banner	Low	Low	Low	A very passive but easy way to let people at large know about the school
Billboard	High	Low	Low	Passive, not very targeted, and can be expensive unless there are some discounts for “public service announcements”
Newspaper	High	Low	Low	Not recommended—very expensive

advertisements				and not very targeted
----------------	--	--	--	-----------------------

In general, mass media (newspapers, TV, radio) should be used only if its core constituency is Aspire’s target population (e.g. a local Spanish-language newspaper). All recruiting materials should be translated into other languages as appropriate for the community.

Information Sessions

We strongly encourage families to sign up after they have received full information about Aspire. The information sessions are the best way to generate excitement about the school, but also help ensure that the parents know what they really can expect from the school.

Information sessions for new schools can be held at local community centers, churches or neighborhood schools. If another Aspire school already exists in the area, a tour should be added. The session usually includes a presentation by the principal and/or teacher, a testimonial by an existing Aspire parent, and a question/answer session. Aspire has a sample PowerPoint presentation that can be refined to address the specific needs of the neighborhood. Sign-in sheets that ask for full contact info should be provided, and informational brochures and enrollment packets should be readily available. Childcare and translation services should be offered to ensure maximum turnout.

TWO: This corporation is a nonprofit public benefit corporation and is not organized for the private gain of any person. It is organized under the Nonprofit Public Benefit Corporation Law for charitable purposes. The specific purpose for which this corporation is organized is to manage, guide, direct and promote University Public Schools, charter public schools that provide quality education to California youth in pre-K, primary, and secondary grades.

THREE: The name and address in the State of California of this corporation's initial agent for service of process is:

Don Shalvey
1564 Laurel Street
San Carlos, CA 94070

FOUR: (a) This corporation is organized and operated exclusively for educational purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code.

(b) Notwithstanding any other provision of these Articles, the corporation shall not carry on any other activities not permitted to be carried on (1) by a corporation exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code or (2) by a corporation contributions to which are deductible under Section 170(c)(2) of the Internal Revenue Code.

(c) No substantial part of the activities of this corporation shall consist of carrying on propaganda, or otherwise attempting to influence legislation, and the corporation shall not participate or intervene in any political campaign (including the publishing or distribution of statements) on behalf of, or in opposition to, any candidate for public office.

FIVE: The names and addresses of the persons appointed to act as the initial Directors of this corporation are:

Name	Address
Don Shalvey	131 Kelton Avenue, San Carlos, CA 94070
Reed Hastings	604 Lighthouse Avenue Santa Cruz, CA 95060
Bill Jackson	965 Mission Street, Suite 650 San Francisco, CA 94103

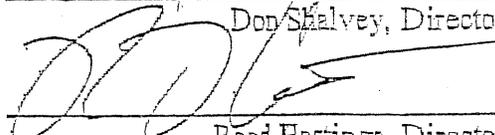

SIX: The property of this corporation is irrevocably dedicated to educational purposes meeting the requirements of Section 214 of the California Revenue and Taxation Code and no part of the net income or assets of the organization shall ever inure to the benefit of any director, officer or member thereof or to the benefit of any private person.

On the dissolution or winding up of the corporation, its assets remaining after payment of, or provision for payment of, all debts and liabilities of this corporation, shall be distributed to a nonprofit fund, foundation, or corporation which is organized and operated exclusively for educational purposes and which has established its tax-exempt status under Section 501(c)(3) of the Internal Revenue Code.

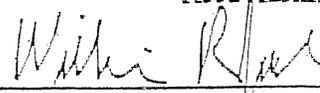

Date: 12/21/98

Don Shalvey, Director

Reed Hastings, Director

Bill Jackson, Director

We, the above-mentioned initial directors of this corporation, hereby declare that we are the persons who executed the foregoing Articles of Incorporation, which execution is our act and deed.

CERTIFICATE OF AMENDMENT TO
ARTICLES OF INCORPORATION OF
ASPIRE PUBLIC SCHOOLS
A CALIFORNIA PUBLIC BENEFIT CORPORATION

NOV 03 2003
KEVIN SHELLEY
Secretary of State

The undersigned certify that:

1. They are the Chief Executive Officer and Secretary, respectively, of Aspire Public Schools, a California Public Benefit Corporation.
2. Article Six of the Articles of Incorporation of this Corporation is amended to read as follows:

“The property of this corporation is irrevocably dedicated to charitable and educational purposes meeting the requirements for exemption provided by section 214 of the Revenue and Taxation Code and no part of the net income or assets of this organization shall inure to the benefit of any private person. Upon the dissolution of the corporation, its assets remaining after payment, or provisions for payment, of all debts and liabilities of this corporation, shall be distributed to a non-profit fund, foundation, or corporation which is organized and operated exclusively for charitable and educational purposes meeting the requirements for exemption provided by section 214 of the Revenue and Taxation Code and which has established its tax exempt status under section 501(c)(3) of the Internal Revenue Code.

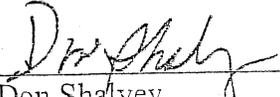

“If this corporation holds any assets in trust, or the corporation is formed for charitable purposes, such assets shall be disposed of in such manner as may be directed by decree of the superior court of the county in which the corporation has its principal office, upon petition therefor by the Attorney General or by any person concerned in the liquidation, in a proceeding to which the Attorney General is a party.”

3. The foregoing amendment to the Articles of Incorporation has been duly approved by the Board of Directors of this Corporation.
4. The Corporation has no members.

AMENDED AND RESTATED BYLAWS OF ASPIRE PUBLIC SCHOOLS,
a California Nonprofit Public Benefit Corporation

ARTICLE 1: OFFICES

Section 1.1 Principal Office

The principal office for the transaction of the business of the Corporation shall be located at 1001 – 22nd Avenue, Oakland, California, in Alameda County, California. The Board of Directors may change the principal office from one location to another, and this section shall be amended accordingly.

Section 1.2 Other Offices

The Board of Directors may at any time establish branch offices, either within or outside the State of California, in order to advance the proper purposes of the Corporation.

ARTICLE 2: OBJECTIVES AND PURPOSES

This Corporation has been formed under the California Nonprofit Public Benefit Corporation Law for the purposes stated in the Articles of Incorporation, including any amendments thereto. The Corporation shall not carry on any other activities not permitted to be carried on by: (a) a corporation exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code; or (b) a corporation, contributions to which are deductible under section 170(c)(2) of the Internal Revenue Code, or the corresponding section of any future federal tax code. No substantial part of the activities of the Corporation shall consist of the carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distributing of statements) any political campaign of or in opposition to any candidate for public office.

ARTICLE 3: DEDICATION OF ASSETS

The properties and assets of this Corporation are irrevocably dedicated to public benefit and/or charitable purposes. No part of the net earnings, properties, or assets of this Corporation, on dissolution or otherwise, shall inure to the benefit of any private person or individual, or any Director or Officer of this Corporation. On liquidation or dissolution, all properties and assets remaining after payment, or provision for payment, of all debts and liabilities of this Corporation shall be distributed to a nonprofit fund, foundation, or corporation which is organized and operated exclusively for charitable purposes and which has established its exempt status under Internal Revenue Code §501(c)(3).

ARTICLE 4: NO MEMBERS

This Corporation shall have no members within the meaning of the California Nonprofit Public Benefit Corporation Law. All rights which would otherwise by law vest in the members shall vest in the Board.

ARTICLE 5: DIRECTORS

Section 5.1 Powers

(a) General Corporate Powers. The business and affairs of the Corporation shall be managed, and all corporate powers shall be exercised, by or under the direction of the Board of Directors.

(b) Specific Powers. Without prejudice to their general powers, the Directors shall have the power to:

(i) Select and remove the Officers of the Corporation; prescribe any powers and duties for them that are consistent with the law, with the Articles of Incorporation, and with these Bylaws; and fix their compensation, if any.

(ii) Change the principal executive office or the principal business office in the State of California from one location to another; cause the Corporation to be qualified to do business in any other state, territory, dependency, or country, and conduct business within or outside the State of California; and designate any place within the State of California for the holding of any meeting.

(iii) Borrow money and incur indebtedness on behalf of the Corporation and cause to be executed and delivered for the Corporation's purposes, in the Corporate name, promissory notes, bonds, debentures, deeds of trust, mortgages, pledges, hypothecations, and other evidences of debt.

(iv) Adopt, make, and use a corporate seal and alter the form of the seal.

Section 5.2 Number of Directors

The number of Directors shall be not less than three (3) nor more than eleven (11), with the exact authorized number of Directors to be determined by the Board from time to time.

Section 5.3 Board of Directors; Term of Office.

(a) The members of the Board of Directors are those persons whose names are attached to these Bylaws as Exhibit A. The Directors shall each serve until the later of the date of Annual Meeting designated beside his or her name in Exhibit A, or the date his or her successor is elected. Subsequent Directors shall be elected by a majority vote of the Directors at each Annual Meeting, including the vote(s) of any Director whose term of office expires with that meeting. A term may not exceed six (6) years.

(b) The Chairperson of the Board shall be selected by a majority vote of the Directors following the appointment or election of Directors at each Annual Meeting.

(c) A vacancy on the Board shall occur in the event of (i) the death, resignation or removal of any Director; (ii) the declaration by resolution of the Board of Directors of a vacancy in the office of a director who has been convicted of a felony, declared of unsound mind by a court order, or found by final order or judgment of any court of competent jurisdiction to have breached a duty under the California Nonprofit Public Benefit Corporation Law; (iii) the failure of the Board of Directors, at any meeting at which any Director is to be elected, to elect the number of Directors required to be elected at such meeting; or (iv) the increase in the number of Directors. Vacancies on the Board of Directors may be filled by approval of the Board of Directors or, if the number of Directors is less than a quorum, by (i) the unanimous consent of the Directors then in office, (b) the affirmative vote of the majority of Directors then in office at a meeting held according to notice in compliance with the provisions of the Ralph M. Brown Act, or (c) a sole remaining Director.

(d) Except as designated below, any Director may resign by giving written notice to the Chairperson of the Board, to the Secretary, or to the Board of Directors. The resignation shall be effective when notice is given unless the notice specifies a later time for the resignation to become effective. Except on notice to the California Attorney General, no Director may resign if the Corporation would be left without a duly elected Director.

(e) Any Director may be removed, with or without cause, by a vote of the majority of the entire Board of Directors at a special meeting called for that purpose, or at a regular meeting, provided that notice of the meeting and of the removal questions are given in compliance with the provisions of the Ralph M. Brown Act.

Section 5.4 Place of Meetings

Meetings shall be conducted at the principal office of the Corporation. The Board of Directors may also designate that a meeting be held at any place within California that has been identified notice in compliance with the provisions of the Ralph M. Brown Act.

Section 5.5 Meetings; Annual Meeting

All meetings of the Board of Directors, including the Annual Meeting, shall be called, noticed and held in compliance with the provisions of the Ralph M. Brown Act. The Board of Directors shall meet annually for the purpose of organization, appointment of officers, and the transaction of such other business as may properly be brought before the meeting. The Annual Meeting shall be held at a time, date and place as may be specified and noticed by the Board of Directors.

Section 5.6 Regular Meetings

Regular meetings of the Board of Directors, including the Annual Meeting, shall be held at such times and places as may from time to time be fixed by the Board of Directors. At least seventy-two (72) hours before a regular meeting, the Board of Directors, or its designee, shall post an agenda containing a brief description of each item of business to be transacted or discussed at the meeting.

Section 5.7 Special Meetings

(a) Special meetings of the Board of Directors for any purpose may be called at any time by the Chairperson of the Board, the President, or any two (2) Directors. The party calling a special meeting shall determine the place, date and time. In accordance with the Ralph M. Brown Act, special meetings may be held only after twenty-four (24) hours notice is given to each Director and to the public through the posting of an agenda containing a description of the general nature of the business proposed. Pursuant to the Ralph M. Brown Act, the Board of Directors shall adhere to the following notice requirements for special meetings:

(b) Any such notice shall be addressed or delivered to each Director at the Director's address as it is shown on the records of the Corporation, or as may have been given to the Corporation by the Director for purposes of notice, or, if an address is not shown on the Corporation's records or is not readily ascertainable, at the place at which the meetings of the Directors is regularly held.

(c) Notice by mail or email shall be deemed received at the time a properly addressed written notice is deposited in the United States mail, postage prepaid. Any other written notice shall be deemed received at the time it is personally delivered to the recipient or is delivered to a common carrier for transmission, or is actually transmitted by the person giving the notice by electronic means to the recipient. Oral notice shall be deemed received at the time it is communicated, in person or by telephone or wireless, to the recipient whom the person giving the notice has reason to believe will promptly communicate it to the receiver.

(d) The notice of special meeting shall state the time of the meeting, and the place if the place is other than the principal office of the Corporation, and the general

nature of the business proposed to be transacted at the meeting. No business, other than the business the general nature of which was set forth in the notice, may be transacted at a special meeting.

Section 5.8 Quorum

During open session, a majority of the directors then in office shall constitute a quorum. For purposes of closed session, a majority of the directors then in office and eligible to vote on the closed session item shall constitute a quorum. All acts or decisions of the Board of Directors shall be by majority vote based upon the presence of a quorum. Should there be fewer than a majority of Directors present at any meeting, the meeting shall be adjourned. Directors may not vote by proxy.

Section 5.9 Telephone Conference Meetings

Members of the Board of Directors may participate in teleconference meetings so long as all of the following requirements in the Ralph M. Brown Act are followed:

(a) At a minimum, a quorum of the members of the Board of Directors shall participate in the teleconference meeting from locations within the boundaries of the school districts in which the Corporation's schools operate;

(b) All votes taken during a teleconference meeting shall be by roll call;

(c) If the Board of Directors elects to use teleconferencing, it shall post agendas at all teleconference locations with each teleconference location being identified in the notice and agenda of the meeting;

(d) All locations where a member of the Board of Directors participates in a meeting via teleconference must be fully accessible to members of the public and shall be listed on the agenda;

(e) Members of the public must be able to hear what is said during the meeting and shall be provided with an opportunity to address the Board of Directors directly at each teleconference locations; and

(f) The agenda shall indicate that members of the public attending a meeting conducted via teleconference need not give their name when entering the conference call.

Section 5.10 Adjournment

A majority of the Directors present, whether or not constituting a quorum, may adjourn any meeting to another time and place. Notice of the time and place of holding

an adjourned meeting need not be given, unless the meeting is adjourned for more than twenty-four (24) hours, in which case notice of such adjournment to another time or place shall be given, prior to the time schedule for the continuation of the meeting, to the Directors who were not present at the time of the adjournment, and to the public in the manner prescribed by the provisions of the Ralph M. Brown Act.

Section 5.11 Compensation of Directors

Directors shall serve without compensation except that they shall be allowed reasonable advancement or reimbursement of actual reasonable expenses incurred in carrying out his or her duties. Directors shall not otherwise be compensated.

Section 5.12 Restriction on Interested Directors

Not more than forty-nine (49) percent of the persons serving on the Board of Directors at any time may be interested persons. An interested person is (a) any person compensated by the Corporation for services rendered to it within the previous 12 months, whether as a full-time or part-time employee, independent contractor, or otherwise; and (b) any brother, sister, ancestor, descendant, spouse, brother-in-law, sister-in-law, mother-in-law, or father-in-law of any such person. The Board of Directors may adopt other policies circumscribing potential conflicts of interest.

Section 5.13 Non-Liability of Directors

No Director shall be personally liable for the debts, liabilities or other obligations of this Corporation.

Section 5.14 Contracts with Non-Director Designated Employees

This Corporation shall not enter into a contract or transaction in which a non-Director designated employee directly or indirectly has a material financial interest unless all of the requirements of the Corporation's Conflict of Interest Policy have been fulfilled.

Section 5.15 Compliance with Laws Governing Student Records

This Corporation and the Board of Directors shall comply with all applicable provisions of the Family Education Rights Privacy Act ("FERPA").

Section 5.16 Non-Discrimination

This Corporation shall not discriminate on the basis of race, religion, national origin, gender, age or sexual orientation in hiring, firing or admissions.

ARTICLE 6: COMMITTEES

Section 6.1 Committees of Directors

The Board of Directors may, by resolution adopted by a majority of the Directors then in office, designate one or more committees consisting of two (2) or more Directors, and only of directors, to serve at the pleasure of the Board. Meetings of committees shall comply with the provisions of the Ralph M. Brown Act, if applicable. Minutes of each such meeting shall be kept and filed with the corporate records. Any committee, to the extent provided in the resolution of the Board, shall have all or a portion of the authority of the Board, except that no committee, regardless of the Board resolution, may:

(a) Take any final action on any matter that under the California Nonprofit Public Benefit Law also requires approval of the members or approval by a majority of the members;

(b) Fill vacancies on the Board of Directors or on any committee;

(c) Amend or repeal the Articles of Incorporation or Bylaws or adopt new Bylaws;

(d) Amend or repeal any resolution of the Board that by its express terms is not so amendable or subject to repeal;

(e) Designate any other committee of the Board or appoint the members of any committee;

(f) Approve any transaction (i) to which the Corporation is a party and as to which one or more Directors has a material financial interest, or (ii) between the Corporation and one or more of its Directors or between the Corporation and any corporation or firm in which one or more of its Directors has a material financial interest.

Section 6.2 Executive Committee

The Board may appoint two (2) or more Directors and the Chairperson to serve as the Executive Committee of the Board. The Chairperson shall serve as chairperson of the Executive Committee. The Executive Committee, unless limited by a resolution of the Board, shall have and may exercise all the authority of the Board in the management of the business and affairs of the Corporation between meetings of the Board.

Section 6.3 Compensation Committee and Compensation Review

At any time this Corporation compensates its CEO or CFO, the Corporation shall have a Compensation Committee consisting of at least three (3) Directors and exclusively of Directors. Directors who are also employees of the Corporation may not serve on the Compensation Committee. The Compensation Committee shall review the compensation of the CEO and CFO, as well as of such other Officers of the Corporation as the Compensation Committee determines appropriate. This review shall occur when such officer is hired, when the term of employment of such officer is renewed or extended, and when the compensation of such officer is modified, unless the modification applies to substantially all of the employees of this corporation. Based on its review, the Compensation Committee shall recommend just and reasonable compensation amounts to the Board. At the request of the CEO or the Board, the Compensation Committee shall review any issue involving staff compensation and benefits, including but not limited to housing, health, and retirement plans.

Section 6.4 Audit Committee

At all times that this Corporation is required by applicable law to have an independent audit, or at any time the Corporation voluntarily chooses to do so, the Corporation shall have an Audit Committee consisting of at least two (3) Directors. Directors who are employees of the Corporation or who receive, directly or indirectly, any consulting, advisory, or other compensatory fees from the Corporation (other than for service as Director) may not serve on the Audit Committee. The Audit Committee shall perform the duties and adhere to the guidelines set forth from time to time by the Board. These duties include, but are not limited to: (i) assisting the Board in choosing an independent auditor and recommending termination of the auditor, if necessary, (ii) negotiating the auditor's compensation, (iii) conferring with the auditor regarding the Corporation's financial affairs, and (iv) reviewing and accepting or rejecting the audit. Members of the Audit Committee shall not receive compensation for their service on the Audit Committee. If the Corporation has a Finance Committee, a majority of the members of the Audit Committee may not concurrently serve as members of the Finance Committee, and the Chair of the Audit Committee may not serve on the Finance Committee.

Section 6.5 Advisory Committees

The Board may establish one or more Advisory Committees to the Board. The members of any Advisory Committee may consist of Directors or nondirectors. Advisory committees may not exercise the authority of the Board to make decisions on behalf of the corporation, but shall be limited to making recommendations to the Board or the Board's authorized representatives and to implementing Board decisions and policies. Advisory Committees shall be subject to the supervision and control of the Board.

Section 6.6 Meeting and Action of Committees

The Board of Directors may adopt rules for any committee not inconsistent with the provisions of these Bylaws.

ARTICLE 7: OFFICERS

Section 7.1 Officers

The Corporation shall have the following Officers: Chief Executive Officer (CEO), Secretary, Chief Financial Officer (CFO), and any Officers as the Board may designate. Officers need not be Directors. One person may hold two or more offices, except those of CEO and Secretary, and CEO and CFO.

Section 7.2 Election of Officers

The officers of the corporation shall be chosen by the Board of Directors, and each shall serve at the pleasure of the Board.

Section 7.3 Removal of Officers

The Board of Directors may remove any officer with or without cause. An officer who was not chose by the Board of Directors may be removed by any other officer on whom the Board of Directors confers the powers of removal.

Section 7.4 Resignation of Officers

Any Officer may resign at any time by giving written notice to the Board of Directors, the CEO, or the Secretary of the Corporation. Any resignation shall take effect at the date of receipt of that notice or at any later time specified in that notice. Unless otherwise specified in that notice, the acceptance of the resignation shall not be necessary to make it effective. Any resignation shall be without prejudice to the rights, if any, of the Corporation under any contract to which the Officer is a party.

Section 7.5 Vacancies in Office

A vacancy in any Office because of death, resignation, removal, disqualification, or any other cause shall be filled only in the manner prescribed in these Bylaws for regular appointments to that Office.

Section 7.6 Responsibilities of Officers

(a) Chief Executive Officer (CEO). The CEO shall be the general manager of the Corporation and shall supervise, direct and control the Corporation's activities, affairs, and officers. The CEO shall be responsible to the Board of Directors, shall see that the Board is advised on all significant matters of the Corporation's business, and shall see that all orders and resolutions of the Board are carried into effect. The President shall be empowered to act, speak for, or otherwise represent the Corporation between meetings of the Board. The CEO shall perform other duties as may be prescribed by the Board of Directors or the Bylaws.

(b) Secretary. The Secretary shall keep or cause to be kept, at the Corporation's principal office or such other place as the Board of Directors may direct, a book of minutes of all meetings, proceedings and actions of Directors and committees of Directors. The minutes of meetings shall include the time and place that the meeting was held; whether the meeting was annual, regular, or special, and if special, how authorized; the notice given; and the names of those Directors present at such meetings. The Secretary shall keep or cause to be kept a copy of the Articles of Incorporation and Bylaws, as amended to date. The Secretary shall give, or cause to be given, notice of all meetings of the Board of Directors required by the Bylaws to be given. The Secretary shall have such other powers and perform such other duties as may be prescribed by the Board of Directors or the Bylaws.

(c) Chief Financial Officer (CFO). The CFO shall keep and maintain, or cause to be kept and maintained, adequate and correct books and records of accounts of the properties and business transactions of the Corporation. The books of account shall be open to inspection by any Director at all reasonable times. The CFO shall deposit all money and other valuables in the name and to the credit of the Corporation with such depositories as may be designated by the Board of Directors; shall disburse funds of the Corporation as may be ordered by the Board of Directors; shall render to the CEO and Directors, whenever they request it, an account of all financial transactions and of the financial condition of the Corporation; and shall have other powers and perform such other duties as may be prescribed by the Board of Directors or the Bylaws. If required by the Board of Directors, the CFO shall give the Corporation a bond in the amount and with the surety specified by the Board for the faithful performance of the duties of his or her office and for restoration to the Corporation of all its books, papers, vouchers, money, and other property of every kind in his or her possession or under his or her control on his or her death, resignation, retirement, or removal from office.

ARTICLE 8: RECORDS AND REPORTS

Section 8.1 Maintenance of Articles and Bylaws

The Corporation shall keep at its principal executive office the original or a copy of its Articles and Bylaws as amended to date.

Section 8.2 Maintenance of Other Corporate Records

The accounting books, records, and minutes of the proceedings of the Board of Directors and any committee(s) of the Board of Directors shall be kept at such place or places designated by the Board of Directors, or, in the absence of such designation, at the principal executive office of the Corporation. The minutes shall be kept in written or typed form, and the accounting books and records shall be kept in either written or typed form or in any other form capable of being converted into written, typed, or printed form.

Section 8.3 Inspection by Directors

Every Director shall have the absolute right at any reasonable time to inspect all books, records, and documents of every kind and the physical properties of the Corporation and each of its subsidiary corporations. This inspection by a Director may be made in person or by an agent or attorney, and the right of inspection includes the right to copy and make extracts of documents. This right of inspection may be limited by FERPA or other such similar laws.

Section 8.4 Annual Report

Within 120 days after the end of the Corporation's fiscal year, the CEO shall furnish or cause to be furnished a written report to all Directors containing the following information:

- (a) The assets and liabilities, including the trust funds, of the Corporation as of the end of the fiscal year;
- (b) The principal changes in assets and liabilities, including trust funds, during the fiscal year;
- (c) The revenue or receipts of the Corporation, both unrestricted and restricted for particular purposes, for the fiscal year;
- (d) The expenses or disbursements of the Corporation, for both general and restricted purposes, during the fiscal year;
- (e) Any transaction during the previous fiscal year involving more than \$50,000 in which the Corporation (or its parent or subsidiaries, if any) was a party and in which any Director or Officer of the Corporation has a direct or indirect financial interest, or any of a number of such transactions in which the same person had a direct or indirect financial interest and which transactions in the aggregate involved more than \$50,000; and

(f) Any other information required under these Bylaws.

The report shall be accompanied by any report of independent accountants or, if there is no such report, by the certificate of an authorized officer of this Corporation that such statements were prepared without an audit from the books and records of this Corporation.

Section 8.5 Financial Audit

The Corporation shall obtain a financial audit for any tax year in which it receives or accrues gross revenue of \$2 million or more, excluding grant or contract income from any governmental entity for which the governmental entity requires an accounting. Any audited financial statements obtained by the Corporation, whether or not required by law, shall be made available for inspection by the Attorney General and by the general public within 9 months after the close of the fiscal year to which the statements relate. For 3 years, such statements (a) shall be available at the Corporation's principal, regional, and district offices during regular business hours and (b) shall be made available either by mailing a copy to any person who so requests in person or in writing, or by posting them on the Corporation's website.

ARTICLE 9: INDEMNIFICATION OF DIRECTORS AND OFFICERS

Section 9.1 Right to Indemnification

To the fullest extent permitted by law, this Corporation shall indemnify any person who was or is a party, or is threatened to be made a party, to any action or proceeding by reason of the fact that such person is or was an Officer, Director, or agent of this Corporation, or is or was serving at the request of this Corporation as a Director, Officer, employee, or agent of another foreign or domestic corporation, partnership, joint venture, or other enterprise, against expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred in connection with such proceeding, to the fullest extent permitted under the California Nonprofit Corporation Law.

In determining whether indemnification is available to the Director, Officer, or agent of this Corporation under California law, the determination as to whether the applicable standard of conduct set forth in Corporations Code §5238 has been met shall be made by a majority vote of a quorum of Directors who are not parties to the proceeding. If the number of Directors who are not parties to the proceeding is less than two-thirds of the total number of Directors seated at the time the determination is to be made, the determination as to whether the applicable standard of conduct has been met shall be made by the court in which the proceeding is or was pending.

The indemnification provided herein shall not be deemed exclusive of any other rights to which those indemnified may be entitled, and shall continue as to a person who has ceased to be an agent and shall inure to the benefit of the heirs, executors, and administrators of such a person.

Section 9.2 Insurance

This Corporation shall have the power and shall use its best efforts to purchase and maintain insurance on behalf of any Director, Officer, or agent of the Corporation, against any liability asserted against or incurred by the Director, Officer, or agent in any such capacity or arising out of the Director's, Officer's, or agent's status as such.

ARTICLE 10: CONTRACTS AND LOANS WITH DIRECTORS AND OFFICERS

Section 10.1 Contracts with Directors and Officers

(a) No Director or Officer of this Corporation, nor any other corporation, firm, association, or other entity in which one or more of this Corporation's Directors or Officers are directors or have a material financial interest, shall be interested, directly or indirectly, in any contract or other transaction with this Corporation, unless (i) the material facts regarding such Director's or Officer's financial interest in such contract or transaction and/or regarding such common directorship, officership, or financial interest are fully disclosed in good faith and are noted in the minutes, or are known to all members of the Board prior to consideration by the Board of such contract or transaction; (ii) such contract or transaction is authorized in good faith by a majority of the Board by a vote sufficient for that purpose without counting the vote or votes of such interested Director(s); (iii) prior to authorizing or approving the transaction, the Board considers and in good faith determines after reasonable investigation under the circumstances that the Corporation could not obtain a more advantageous arrangement with reasonable effort under the circumstances; and (iv) this Corporation enters into the transaction for its own benefit, and the transaction is fair and reasonable to this Corporation at the time the transaction is entered into.

(b) The provisions of this Section do not apply to a transaction which is part of an educational or charitable program of the Corporation if it: (i) is approved or authorized by the Corporation in good faith and without unjustified favoritism; and (ii) results in a benefit to one or more Directors or Officers or their families because they are in the class of persons intended to be benefited by the educational or charitable program of this Corporation.

Section 10.2 Loans to Directors and Officers

The Corporation shall not make any loan of money or property to or guarantee the obligation of any Director or Officer, unless approved by the Attorney General of the State of California; provided, however, that the Corporation may advance money to a Director or Officer of the Corporation for expenses reasonably anticipated to be incurred in the performance of the duties of such Director or Officer, provided that in the absence of such advance such Director or Officer would be entitled to be reimbursed for such expenses by the Corporation.

ARTICLE 11: FISCAL YEAR

The fiscal year of the Corporation shall end on June 30.

ARTICLE 12: AMENDMENTS

These Bylaws may be adopted, amended, or repealed by a majority vote of the entire Board of Directors.

ARTICLE 13: CONSTRUCTION AND DEFINITIONS

Section 13.1 Construction and Definitions

Unless the context requires otherwise, the general provisions, rules of construction, and definitions in the California Nonprofit Corporation Law shall govern the construction of these Bylaws. Without limiting the generality of the above, the masculine gender includes the feminine and neuter, the singular number includes the plural, and the plural number includes the singular.

Section 13.2 Electronic Transmission

Subject to any guidelines and procedures that the Board of Directors may adopt from time to time, the terms "written", and "in writing" as used in these Bylaws include any form of recorded message in the English language capable of comprehension by ordinary visual means and may include electronic transmissions, such as facsimile or email, provided (i) for electronic transmissions from the Corporation, the Corporation has obtained an unrevoked written consent from the recipient to the use of such means of communication; (ii) for electronic transmissions to the Corporation, the Corporation has in effect reasonable measures to verify that the sender is the individual purporting to have sent such transmission; and (iii) the transmission creates a record that can be retained, retrieved, reviewed, and rendered into clearly legible tangible form.

CERTIFICATE OF SECRETARY

I, the undersigned, the duly elected Secretary of Aspire Public Schools, a California nonprofit public benefit corporation, do hereby certify:

That the foregoing Bylaws consisting of fourteen (14) pages were adopted as the Bylaws of the Corporation by the Directors of the Corporation on _____, 2010, and the same do now constitute the Bylaws of said Corporation.

IN WITNESS WHEREOF, I have hereunto subscribed my name this on _____, 2010.

By:
Its: Secretary

CONFLICT-OF-INTEREST CODE FOR THE
ASPIRE PUBLIC SCHOOLS

The Political Reform Act (Government Code Section 81000, et seq.) requires state and local government agencies to adopt and promulgate conflict-of-interest codes. The Fair Political Practices Commission has adopted a regulation (2 Cal. Code of Regs. Sec. 18730) that contains the terms of a standard conflict-of-interest code, which can be incorporated by reference in an agency's code. After public notice and hearing, the standard code may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. This regulation and the attached appendices, designating positions and establishing disclosure categories, shall constitute the conflict-of-interest code of the **Aspire Public Schools ("Aspire")**

Individuals holding designated positions shall file their statements of economic interests with **Aspire**, which will make the statements available for public inspection and reproduction. (Gov. Code Sec. 81008.) Upon receipt of the statements for the Members of the Board, and the Chief Executive Officer/President, **Aspire** shall make and retain copies and forward the originals to the Fair Political Practices Commission. All other statements will be retained by **Aspire**.

APPENDIX A
DESIGNATED POSITIONS

<u>Designated Position</u>	<u>Assigned Disclosure Category</u>
Members of the Governing Board	I, II, III
CEO/President	I, II, III
Chief Academic Officer	I, II, III
Chief Financial Officer	I, II, III
Chief Operating Officer	I, II, III
Director of Expanded Learning Systems	II, III
Director of Finance	II, III
Director of Human Resources	II, III
Director of Information Technology	II, III
Director of Operations	I, II, III
Vice President of Education	II, III
Director of Strategy and Growth	I, II, III
Director of Secondary Program	II, III
Director of Special Projects	II, III
Director of Special Education	II, III
Director of Student Services	II, III
Director of Early College High School	II, III
Director of School Support Improvement & Sustainability	II, III
Director of Talent Strategy	II, III
Chief of Staff to the Chief Executive Officer	II, III
Director of Development	II, III
Financial Analyst	II, III
Principals	II, III
Area Superintendents	I, II, III
Consultants	*

*Consultants are included in the list of designated positions and shall disclose pursuant categories I, II, and III, subject to the following limitation:

The CEO/President may determine in writing that a particular consultant, although a “designated position,” is hired to perform a range of duties that are limited in scope and thus not required to fully comply with the disclosure requirements described in this section. Such written determination shall include a description of the consultant’s duties and, based upon that description, a statement of the extent of disclosure requirements. This determination is a public record and shall be retained for public inspection in the same manner and location as this conflict-of-interest code.

APPENDIX B DISCLOSURE CATEGORIES

Category I:

- (a) Interest in real property which is located in whole or in part either (1) within the boundaries of any county in which Aspire Public Schools operates, or (2) within two miles of the boundaries of any county in which Aspire Public Schools operates, including any leasehold, beneficial or ownership interest or option to acquire such interest in real property.
- (b) Investments in and income (including gifts, loans, and travel payments) from sources which are or have been within the previous two-year period engaged in the performance of building construction or design within the counties in which Aspire Public Schools operates.
- (c) Investments, business positions in and income (including gifts, loans and travel payments) from sources engaged in the acquisition or disposal of real property within the jurisdiction.

Category II: Investments, business positions in, and income (including gifts, loans, and travel payments) from sources which manufacture or sell supplies, books, machinery, or equipment of the type to be utilized by the employee's department.

Category III: Investments, business positions in, and income (including gifts, loans, and travel payments) from sources which are engaged in the performance of work or services of the type to be utilized by the employee's department.

For purposes of this conflict-of-interest code:

The term department refers to the agency, Aspire Public Schools, and includes all school locations for the following positions: Members of the Governing Board, CEO/President, Chief Academic Officer, Chief Financial Officer, Chief Operating Officer, Director of Finance, Director of Operations, Director of Growth and Strategy, and Regional Vice Presidents.

The term department refers to the specific area of responsibility/section for the following positions: Director of Human Resources, Director Information Technology, Director of Professional Development, Director of Secondary Program, Director of Special Projects, Director of Special Education, Director of Student Services and Financial Analyst.

The term department refers to a specific school for all principal positions.

Re: Aspire Public Schools' Petition for Renewal of Statewide Benefit Charter

Dear President Kirst and Members of the California State Board of Education:

Aspire Public Schools (Aspire) thanks the State Board of Education (SBE) staff for offering Aspire the opportunity to submit this letter to reaffirm that the evidence and analysis relied upon by the SBE in May 2011 to support the legal standard for approving a statewide benefit charter school under Ed. Code section 47605.8 has not changed. Pursuant to Judy Cias's email dated November 18, 2011 to our legal team, we have worked to prepare the following materials 2012 to summarize Aspire's statewide benefits and clarify any questions about our statewide benefit charter (SBC) renewal, slated for January 2012.

Background

The SBE originally approved the Aspire statewide benefit charter in January 2007 for a five-year term from July 1, 2007, through June 30, 2012, to serve students in kindergarten through grade eight. In January 2010, the SBE approved two material revisions to the Aspire statewide benefit charter: (1) to expand the grades served to kindergarten through grade twelve, and (2) include a plan for potential sites of operation.

Just this past May, the SBE approved a material revision to follow the Court's guidance regarding the 2-pronged test for the statewide benefit. The SBE reaffirmed that Aspire provided two separate statewide benefits to California and affirmed that each of those same statewide benefits could not be provided through a series of locally approved charters. The SBE considered and accepted motions which in summary concluded that:

- Across the state, Aspire is accelerating academic growth among students traditionally under-prepared for high school success, and underrepresented among high school graduates, college goers and college graduates. This constitutes a statewide benefit to California. With locally approved charters, Aspire's ability to offer the full and complete academic program to its students (and therefore the statewide benefit) is substantially

Re: *Aspire Public Schools: Petition for Renewal of Statewide Benefit Charter*
November 30, 2011
Page 2 of 5

limited due to inadequate facilities. With a statewide benefit charter, Aspire is able to access affordable forms of financing -- and through it, develop and access adequate facilities for its students. Consequently, Aspire's access to an affordable statewide bond issuance to construct high quality facilities enabling high college-going rates, would not have been possible with a series of locally approved charters.

- Aspire is providing alternative credentialing pathways that focus on the skills and knowledge necessary to work effectively with diverse students, and this represents a statewide benefit. The same statewide benefit is not possible with a series of locally approved charters because the size of the Aspire Teacher Residency program would be limited by a series of local charters.

Aspire currently serves 1,800 students in its six statewide benefit charter schools. Eighty percent of the students are students of color and the same percent qualify for free or reduced price meals. Aspire's schools are the highest performing local schools serving similar students, earning an average API of 805 across the six schools in 2011. The average API was even higher – 847 – for the four statewide benefit charter schools open more than one year.

Standard for Renewal

Aspire's renewal petition demonstrates that Aspire meets the legal standards applicable to the renewal of its charter. Education Code section 47607(a)(2) sets forth the standard of review for all charter renewals, including statewide benefit charters:

“Renewals and material revisions of charter are governed by the standards and criteria in Section 47605, and shall include, but not be limited to, a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed.”

Education Code section 47607(a)(2) requires evaluation of the Aspire statewide benefit charter renewal petition under a two-part analysis:

1. Whether the charter school meets at least one of the charter renewal criteria in Education Code section 47607(b)(1)-(5), and
2. Whether the charter renewal petition meets the standards and criteria for the establishment of a charter school as required under Education Code section 47605 (e.g., the 16 charter elements in Education Code Section 47605(b)(5)(A)-(P)), including a reasonably comprehensive description of any new requirement of charter schools enacted into law after the statewide benefit charter was originally granted.

First, Education Code section 47607(b)(1)-(5) provides that prior to renewing a charter school, a charter school shall meet at least one of the following criteria:

1. Attained its Academic Performance Index (“API”) growth target in the prior year or in two of the last three years, or in the aggregate for the prior three years.

2. Ranked in deciles 4 to 10, inclusive, on the API in the prior year or in two of the last three years.
3. Ranked in deciles 4 to 10, inclusive, on the API for a demographically comparable school in the prior year or in two of the last three years.
4. The entity that granted the charter determines that the academic performance of the charter school is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school.
5. Has qualified for an alternative accountability system pursuant to Education Code section 52052(h).

The schools operating under Aspire’s statewide benefit charter meet **each of criteria 1-4 above** for renewal as evidenced in the renewal petition. Aspire’s API data, specifically, is included in Table 1, below.

Table 1: 2010-11 API Scores and Growth

School	Years Since Founding Year	2011 API	2010 API	2010-2011 Growth	Cumulative Growth Since Opening	Cumulative State Targets	Multiple of State targets
APEX	1	742	N/A	N/A			
Alexander Twilight Secondary	1	699	N/A	N/A			
Alexander Twilight College Preparatory	2	802	766	36	36	5	7.2
Titan	2	849	824	25	25	0	25.0
Junior Collegiate	4	868	844	24	100	10	10.0
Port City	4	868	870	-2	89	5	17.8

Second, as demonstrated in the petition for renewal, Aspire’s statewide benefit charter meets the standards and criteria for the establishment of a charter school, including reasonably comprehensive descriptions of the 16 charter elements and any new requirement of charter schools enacted into law after the charter was originally granted.

Page 4 of 5

Aspire's Affirmed Statewide Benefits

The facts and evidence that support the SBE's May 2011 findings regarding Aspire's statewide benefits have not changed since the SBE May 2011 action. Enclosed as an appendix is the language submitted to the CDE in December 2010, which was considered by the SBE in its May 2011 action. The SBE affirmed Aspire's statewide benefits number 2 and 3, which we have summarized below and offered additional information about those benefits from the past year.

Statewide Benefit #2: Accelerate academic growth among students traditionally under-prepared for high school success, and underrepresented among high school graduates, college goers and college graduates.

In order to provide a rigorous college preparatory program, Aspire requires appropriate facilities. Access to such facilities has historically been limited without low cost facilities financing. In 2010, Aspire was able to issue a bond to finance the construction and purchase of facilities – thereby enabling Aspire to better educate more underserved students. In evaluating the risk of this bond, the rating agency recognized the decreased risk associated with the statewide benefit charter, due to the inherent conflicts of interest of local authorizers in approving charter schools to compete with their local schools. The statewide charter, therefore, reduced the risk of the bond investors, thus lowering the cost of the financing for those facilities.

Thanks to this bond, five Aspire secondary schools are now operating in properly equipped school facilities that will afford students in Oakland, East Palo Alto, Stockton, Sacramento, and Los Angeles an increased opportunity for college success. Two thousand additional students are being served by Aspire within these well-outfitted school facilities, increasing the numbers of UC/CSU-ready students. The ability to provide this same benefit would not be possible through a series of locally approved charters.

Statewide Benefit #3: Create alternative credentialing pathways and professional development activities that focus on the skills and knowledge necessary to work effectively with diverse students.

The Aspire Teacher Residency is currently in its second year of operation. During the 2010-11 school year, 20 residents served in each of our six major metropolitan areas throughout the state. Eighteen of those residents are current first-year Aspire teachers and are among the most well-prepared first-year teachers Aspire has ever seen. Early indications are that the Aspire Teacher Residency will be a success in this effort to create alternative credentialing pathways. Profiles of our 19 Teacher Residents can be found on our website (<http://aspirepublicschools.org/?q=SY12TeacherResidents.html>).

However, we still face significant constraints to the size of the program. For the 2011-12 school year, we have 19 residents becoming effective teachers and earning their Master's degree and credential through the program. There is clearly a high demand for the type of preparation offered through the program, and our acceptance rate last year was just 13%. With the excessive overhead of managing multiple charter authorizers in a series of locally approved charters, we

*Re: Aspire Public Schools: Petition for Renewal of Statewide Benefit Charter
November 30, 2011
Page 5 of 5*

would be forced to realign our energies and remove resources from elements of our program such as the Aspire Teacher Residency, even further limiting the size of the program and the benefit to the neediest students across the state. Therefore, this same benefit cannot be provided through a series of locally approved charters.

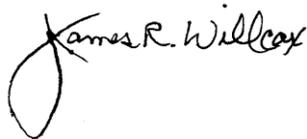

Summary

The SBC granted to Aspire by SBE has brought great benefits to California, its constituents and students. We look forward to the opportunity to continue our work together. We respectfully reserve the right to supplement the record and provide additional arguments and evidence to support renewal if the SBE has any concerns regarding this evidence.

We look forward to the renewal hearing in January. In the meantime, please do not hesitate to contact me with any further questions or concerns you may have about our submissions, our statewide benefit charter schools, or Aspire in general.

I appreciate your time and consideration of these materials.

Sincerely,

James Willcox
Chief Executive Officer
Aspire Public Schools

Aspire Public Schools: Material revision to Statewide Benefit Charter Petition
December 21, 2010

APPENDIX: ASPIRE SUBMISSION TO CDE IN DECEMBER 2010

Aspire Public Schools (“Aspire”) requests to materially revise the statewide benefit charter to include this additional language and explanation of the statewide benefits outlined in the charter, and specifically why these same benefits cannot be achieved through locally approved charter schools. Aspire supports these conclusions with its charter, the academic outcomes of its charter, the CDE MOU/SBE conditions of approval, the Charter Schools Act and the Educ. Code, the financial statements of Aspire, and other documents and evidence that Aspire will submit to CDE/SBE.

The following text is proposed to be added into the charter starting on page 16 – inserted immediately above the PETITION ELEMENTS section of the charter.

Statewide Benefit 1: Systematic and rigorous pursuit of the vision and specific provisions of the federal No Child Left Behind Act of 2001 (locating Aspire schools where parents most need a high quality option, and to support parental choices allowed under NCLB).

- ***Why can't this be accomplished with locally approved charters?***

With locally approved charters, the state has no ability to control or direct Aspire to open schools where quality schools are most needed. The state does not have the ability to direct Aspire to open its quality schools in the communities where parents have rights to school choice under NCLB. With discretionary power to deny local charter applications, local school districts could reject Aspire charter schools where they are needed most thereby denying parents with the choice that is intended by state and federal law. With the statewide benefit charter, however, the State gains the unique statewide benefit of strategically locating Aspire's high quality and proven program where these schools are most needed. This unique ability to strategically locate high quality schools is lost under locally approved charters. Consequently, Aspire will be a primary catalyst for competition and change in those areas of the state where socioeconomically disadvantaged students are being failed by the regular public school system, supporting

Aspire Public Schools: Material revision to Statewide Benefit Charter Petition
December 21, 2010

the State in meeting the requirements and goals of NCLB (e.g., stronger accountability for results and expanded options for parents).

As per the CDE/SBE conditions of approval adopted at the time of charter approval (as well as section 4.1 of the MOU between CDE and Aspire) all future growth of Aspire locations must be approved by SBE and must only be located in areas with neighboring public schools serving the same grade levels are in Program Improvement. Moreover, because of the ultimate discretionary nature of the SBE approval of a statewide benefit charter the SBE is able to dictate much higher levels of academic accountability -- as compared to locally approved charter schools -- for each statewide benefit charter school location. For example, the conditions of Aspire's statewide benefit charter school approval require Aspire to maintain high levels of academic achievement at all open school sites (for example, the statewide APA ranking of 7 or better a similar schools ranking of 6 or better). And further, SBE retains the ultimate discretion to deny any further growth or to close particular locations (without revoking the entire charter) if academic performance does not meet SBE's expectations. Local authorizers are required to approve charter petitions and material amendments for expansion and may only deny these charters and expansion requests on very limited statutory grounds. Consequently, SBE, on behalf of the state, is better able to control and direct academic improvement consistent with the goals of the federal and state governments through the statewide charter mechanism as opposed to local authorizing.

Statewide Benefit 2: Accelerate academic growth among students traditionally under-prepared for high school success, and underrepresented among high school graduates, college goers and college graduates.

- *Why can't this be accomplished through a series of locally approved charters?*

With locally approved charters, Aspire's ability to offer the full and complete academic program to our students as outlined in the attached charter (and therefore our statewide benefit) is **substantially limited** due to *inadequate facilities and a failure of school districts universally to comply with Proposition 39*. With a statewide benefit charter, Aspire is able to access affordable forms of financing -- and through it, develop

Aspire Public Schools: Material revision to Statewide Benefit Charter Petition
December 21, 2010

and access adequate facilities for our students. An adequate fully furnished and equipped facility enables Aspire to offer its full academic program.

For example, this past year, Aspire passed a \$93 million dollar bond and was able to offer complete and full facilities to several Aspire schools -- including four statewide benefit charter schools. Both the rating agency report from Fitch and bond offering materials cited the statewide benefit charter as a contributing factor towards supporting the bond issuance. In the rating agency report in the section describing risks facing investors, the agency states:

“Charter Renewal

...In January 2007, the State Board of Education awarded Aspire a statewide benefit charter (SBC) making Aspire one of only of two charter management organizations to receive an SBC. Under the SBC, Aspire may open up to 20 additional schools serving grades K-12 anywhere in the state.”

In conversations during rating diligence visits, it became clear to the Aspire management team that investors, and the rating agency, valued the reduction in risk for charter renewal that results when the charter authorizer does not have a financial interest in the decision to renew a charter petition (i.e. local district authorizers have an inherent conflict of interest in approving charters [and in overseeing and revoking charters] in that the local school districts and charter schools are competing for the same students and therefore state funding). Local charter authorizers also have an inherent conflict of interest in reviewing charter petitions [and in overseeing and revoking charters] because of the financial exposure to special education risk in Ed. Code 47646 and based upon the risk and expense of allocating school facilities to charter schools under Proposition 39 (Ed. Code 47614). For these reasons local authorizers are more likely to deny a valid charter petition or revoke a legally compliant charter operator.

Reduced risks result in a better investment rating, which lowers interest rates on the funds borrowed, therefore freeing up additional funds to be used to operate the schools. Aspire gained access to affordable financing as a result of its statewide benefit charter and was therefore able to provide a full and complete program through appropriate and complete facilities. The bond financed schools in five cities across California. Other statewide benefits that resulted from this bond:

Aspire Public Schools: Material revision to Statewide Benefit Charter Petition
December 21, 2010

- Cumulative facilities savings of \$1.67M over the next 10 years as compared to the next best alternative (leasing or other financing terms) which will now support Aspire's educational program rather than facilities expense
- Lower interest rate of 2010 bond issue (6.23%) vs. 2001 Aspire bond issue (7.25%); more expensive bond was refinanced by the 2010 bond that benefited from the statewide benefit charter
- Increased capacity within Aspire schools for 2,000 additional students, and therefore increased statewide benefit due to the increased number of students able to access Aspire's high quality program across the state due to the facilities that were built and made possible by the bond.
- A full program is now possible for five Aspire secondary schools and one elementary school. Four of the schools operated under the statewide benefit charter were part of the bond issuance.

Statewide Benefit 3: Create alternative credentialing pathways and professional development activities that focus on the skills and knowledge necessary to work effectively with diverse students.

- **Why can't this be achieved with a series of locally approved charters?**

The statewide benefit of an alternative credentialing program as described in the charter will not materialize as proposed if this work is pursued using a series of locally approved charters. Today Aspire is limited to 20 Residents in the Aspire Teacher Residency due to constrained financial resources. Aspire's resources are constrained for many reasons, not the least of which is low per pupil funding. If Aspire is forced to grow through a series of locally approved charters as opposed to a statewide charter it will force Aspire to invest scarce funds into managing multiple authorizer relationships to achieve the statewide benefit and effectively prevent the development of the alternative credentialing pathways and professional development activities. The cost of duplicative oversight, redundant reporting, and monitoring unique local demands for operating

Aspire Public Schools: Material revision to Statewide Benefit Charter Petition
December 21, 2010

multiple district-approved charters requires a substantial investment of financial resources. There is a very real, substantial, and significant administrative expense associated with overseeing an operating multiple locally approved charter schools as opposed to a single multi-sited statewide benefit charter. If Aspire is forced to grow its program with locally approved charter schools it will have:

1. 50 separate charters to review, manage, and monitor¹;
2. 50 separate renewal applications two separate and distinct local authorizers that have varying policies practices and procedures on charter school approval or renewal;
3. 50 separate CDS codes and 50 separate funding streams with 50 separate oversight fees to pay the local authorizers;
4. 50 separate annual audits;
5. 50 different sets of annual reporting requirements to local authorizers;
6. 50 separate authorizers upon which to respond to information requests;
7. 50 separate authorizers upon which to seek a material revision first single change in the charter;
8. 50 separate attendance areas in which to prefer for enrollment purposes;
9. 50 separate special education agreements with local authorizers;
10. 50 separate memorandums of understanding with local authorizers;
11. 50 separate API, AYP scores to review and analyze.

Under a statewide benefit charter, and the benefits of a single charter authorizer for all statewide benefit schools, Aspire can redirect the resources saved by not having to

¹ Certain charter authorizers like Los Angeles Unified School District have substantially different policies and practices for the review and approval of charter schools that lead to substantially different charter language; indeed, LAUSD has over 40 pages of boilerplate language they require charter schools to include in their petitions. Some of this boilerplate language incorporates by reference many of the District policies (including, conflicts of interest, ethics, facilities issues etc.)

Aspire Public Schools: Material revision to Statewide Benefit Charter Petition
December 21, 2010

administer to 50 separate schools into, among other things, expanding the size of the Aspire Teacher Residency program—a source of the statewide benefit that Aspire creates for California. Aspire estimates the cost savings of statewide chartering versus local charter approval to be 25 full time positions (approximately .50 FTE for each school) and an annual cost of approximately \$2,000,000 across 50 schools. With a statewide benefit charter, Aspire is able to maximize its benefit to California statewide by reallocating significant resources into professional development to ensure the maximum number of highly effective teachers are appropriately trained each year and available to serve the state's most needy student population. The cost to support a teacher resident through the Aspire Teacher Residency is approximately \$24,000. Through the savings from charter compliance activities and management alone for 50 schools more than 80 new teacher residents could be supported, bringing the size of the residency to 100 residents per year. At our current size were the six existing statewide benefit schools to be transitioned to local authorizers, in addition to the extraordinary cost and instability in our communities due to this transition the ongoing cost to manage those relationships and compliance would be approximately \$240,000. That is equivalent to 10 teacher residents who we would not be able to train, therefore reducing the statewide benefit.

Statewide Benefit 4: Effective integration of data collection, organization, review and analysis in all phases of instruction.

- **Why can't this be achieved with a series of locally approved charters?**

Under locally approved charters, the State via the State Board gains the opportunity to learn *directly* from an alternative, public school model as that school's authorizer for a system of schools. The State gains the ability to learn directly from Aspire's intensive use of data collection and integration to inform all phases of instruction and preparation of Aspire students for college success.

Aspire's statewide benefit charter operates essentially as a unified school district (kindergarten through 12th grade) —but one that is operating across the state, in multiple locations. Indeed, unlike a CMO operator of multiple approved charter schools at the

Aspire Public Schools: Material revision to Statewide Benefit Charter Petition
December 21, 2010

local level Aspire’s statewide benefit charter is given a single API score like a school district -- thus allowing the SBE to compare Aspire’s overall performance against other school districts in the state. The state gains the opportunity for direct learning from interaction with and knowledge gained by oversight activities of a single entity. This direct interaction has the opportunity to inform State Board policy and work that is particularly valuable. Aspire’s intense use of data collection, organization, integration and analysis of student and teacher information is a unique opportunity for statewide benefit because of the direct interaction and close relationship Aspire has with the State Board—a relationship that would be diffused and lost through a series of locally approved charters.

This relationship with Aspire offers a unique opportunity because Aspire represents a different governance structure (no elected school board), offers the opportunity for learning across multiple geographies within the same school “system” (not limited to one city or county), different communities, and different challenges. This is very similar to the work the State Board takes on routinely to improve public education across California. This is a unique opportunity to compare and contrast performance, programs, and for Aspire to serve as a R&D school system directly for the State Board. With locally approved charters, the State Board’s direct opportunity for learning and collaboration with Aspire is lost.

ADDITIONAL STATEWIDE BENEFITS AND ARGUMENTS

The CDE, in its staff recommendation dated January 2007, noted the following additional components of the statewide benefit of Aspire’s charter:

- ◆ **Open Court Implementation:** Aspire has completed implementation of the SRA/Open Court Reading in kindergarten through grade 6.
- ◆ **Teacher Induction Authorization:** Beginning in the 2006-07 school year, Aspire has been authorized to grant clear credentials through its own teacher induction programs approved by the California Commission on Teacher Credentialing and the CDE. Aspire is the first charter school to have been so authorized.

Aspire Public Schools: Material revision to Statewide Benefit Charter Petition
December 21, 2010

- ◆ **Delivery of Special Education as an LEA:** Aspire has become a local educational agency (LEA) member of the El Dorado County Office of Education Special Education Local Plan Area (SELPA).

Open Enrollment: As a statewide benefit charter school, Aspire is able to target student populations that are being failed by the traditional public school system regardless of arbitrary geographic boundaries such as school district boundaries, city limits, etc. Ultimately, and unlike a locally approved charter school, admission to the Aspire statewide benefit school is not determined according to the student's place of residence, or that of his or her parent or guardian, within the State of California. Locally approved charter schools must maintain an admissions preference for children that reside within the granting agency's school attendance boundaries. (Ed. Code 47605(d)(2)(B).) No such attendance limitation exists for a statewide benefit charter. Consequently, in those communities and areas of the state where children are served by one or more school districts Aspire is not artificially limited by geographic boundaries in its ability to actively recruit and enroll students across the entire community.

CONDITIONS OF APPROVAL AND MOU COMPLIANCE

As part of the original approval of the statewide benefit charter the SBE approved CDE recommended "Proposed Conditions Prior to Opening and Operation." These conditions were outlined in an attachment to the staff recommendation and were intended to be incorporated by reference in the Memorandum of Understanding (MOU) between CDE and Aspire. Certain conditions had timelines that needed to be met prior to beginning instruction and one of the conditions stated that "if any deadline specified in these conditions is not met, approval of the statewide benefit charter is terminated, unless the SBE deletes or extends the deadline not met." By approval of this material amendment to the Aspire statewide benefit charter the SBE herein recognizes full compliance by Aspire with any and all conditions of approval that were established by SBE or CDE and hereby deletes any deadline that had not been met in a timely fashion.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 4

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Elementary and Secondary Education Act: Discussion Regarding the Waiver of Selected Provisions of the No Child Left Behind Act of 2001 to Implement a Specific Statewide Accountability System for All California Local Educational Agencies in Advance of Elementary and Secondary Education Act Reauthorization.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

This item provides a timeline to prepare a prospective federal waiver application of selected provisions of the No Child Left Behind (NCLB) authorization of the Elementary and Secondary Education (ESEA) Act of 1965. The State Board of Education (SBE) President sent a letter to U.S. Department of Education Secretary, Arne Duncan, on December 15, 2011, inviting him or a representative to address the SBE regarding the options available under the federal waiver application at the January 2012 SBE meeting. A copy of the letter is provided as Attachment 1. Michael Yudin, Acting Assistant Secretary for Elementary and Secondary Education confirmed his ability to come and discuss the ESEA Flexibility Waiver at the January 2012 SBE meeting. For additional information and resources about the ESEA Flexibility Waiver, please visit the U.S. Department of Education's Web site at <http://www.ed.gov/esea/flexibility>.

RECOMMENDATION

The California Department of Education (CDE) recommends that SBE engage in a discussion of waiver requirements and possible next steps.

BRIEF HISTORY OF KEY ISSUES

On August 23, 2011, State Superintendent of Public Instruction (SSPI) Tom Torlakson sent a letter to U.S. Department of Education (ED) Secretary of Education Arne Duncan, expressing his concerns about the current shortcomings of the NCLB accountability system, the need for relief for California's local educational agencies (LEAs) from escalating sanctions, and the importance of transparent public discussion of the issues in the reauthorization of the ESEA.

On September 23, 2011, September 28, 2011, and October 3, 2011, the ED issued guidance for state educational agencies (SEAs) to apply for the ESEA waiver. The 10

BRIEF HISTORY OF KEY ISSUES (Cont.)

provisions of the ESEA for which waiver applications will be accepted include the following:

1. 2013–14 Timeline for Determining Adequate Yearly Progress
2. Implementation of School Improvement Requirements
3. Implementation of LEA Improvement Requirements
4. Rural LEA Funding Flexibility
5. School-wide Programs
6. Support for School Improvement
7. Reward Schools
8. Highly-Qualified Teacher (HQT) Improvement Plans
9. Transfer of Certain Funds
10. Use of School Improvement Grant (SIG) Funds to Support Priority Schools

A full description of the 10 ESEA provisions eligible for waiver, including timelines, is included in the document entitled, *ESEA Flexibility Request*, issued on September 23, 2011, revised on September 28, 2011, and provided in Attachment 2.

To be granted a waiver of the provisions listed above, an SEA must submit a request that addresses each of the following four principles and associated requirements:

1. College- and Career-Ready Expectations for All Students
2. State-Developed Differentiated Recognition, Accountability, and Support
3. Supporting Effective Instruction and Leadership
4. Reducing Duplication and Unnecessary Burden

A full description of the Principles for Improving Student Academic Achievement and Increasing the Quality of Instruction is also provided in Attachment 2.

Embedded within the four principles that are conditions of the waiver are at least 11 requirements that states must address in the waiver request. The conditions include how an SEA will establish a new system of standards, assessments, professional development, and differentiated accountability for schools and educators. A summary of the costs of implementing the potential waiver was included in Item 5, Attachment 7, discussed by the SBE at its November 2011 meeting. See the SBE Web document located at <http://www.cde.ca.gov/be/ag/ag/yr11/documents/nov11item05.doc>.

Alternative dates for submission of a request include mid-February 2012 and an additional opportunity following the conclusion of the 2011–12 school year. The duration of an approved waiver is from the date of approval through the 2013–14 school year, with an opportunity to apply to request an extension of the initial period of this flexibility prior to the start of the 2014–15 school year unless it is superseded by reauthorization of the ESEA.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

On November 9, 2011, the SBE discussed the requirements and conditions to apply for a waiver of 10 provisions of NCLB. The SBE heard from the SSPI, CDE, LEA superintendents, the California Teachers' Association, California Federation of Teachers, Association of California School Administrators, California Office to Reform Education, other educational advocacy groups, and members of the public. While the SBE recognized that the state will incur substantial costs in implementing an ESEA waiver, it heard the concerns of LEAs about the onerous effects of current NCLB requirements and directed CDE staff to prepare a timeline for preparing a potential waiver application to be discussed at its January 2012 meeting.

A Proposed Timeline for Preparation of a Waiver of Select Elementary and Secondary Education Provisions in Exchange for Implementation of an Alternative Accountability System is provided as Attachment 3.

The timeline proposes to accelerate the design and adoption of a differentiated recognition, accountability and support system. It does not accelerate the timeline for implementation of college-and career-ready (CCR) expectations as outlined in the description of waiver requirements. Instead, it reflects the California commitment to Common Core State Standards (CCSS) and aligned instructional materials, recognizing that the cost of an accelerated transition would be great, and there is no identified source of funding to support a compressed timeline. It maintains the current transition to CCR standards and CCSS aligned instructional materials and includes implementation of supplemental instructional materials designed to bridge the gap which exists between academic content standards coverage in the previously adopted instructional materials and the new CCSS.

The proposed timeline includes the state's current timeline for implementation of the SMARTER Balanced Assessments; given the cost and need for psychometric testing, it is not likely that either the English Learner Proficiency Assessments or the Assessments for Students with Significant Cognitive Disabilities will be ready by the 2014–15 school year. The proposed timeline includes SBE adoption of guidelines to support effective instruction and leadership but does not address differentiation of educator performance levels as discussed in the ESEA Review Guidance.

FISCAL ANALYSIS

As of December 15, 2011, 443 of the state's 931 LEAs receiving Title I funds are in Program Improvement (PI). Absent a federally approved waiver of ESEA requirements, this figure may rise to 558 LEAs in September 2012 and 931 LEAs in September 2013, when the AYP targets approach 100 percent proficiency, and all LEAs receiving Title I are in PI.

Should California not apply, or not be granted an ESEA waiver, the consequence for all of these LEAs and schools is the label of PI and the ongoing requirement to implement interventions and set aside up to 20 percent of their Title I apportionment for

FISCAL ANALYSIS (Cont.)

supplemental educational services (SES) and school choice transportation. This amount was \$207.9 million in 2010–11.

If California successfully receives an ESEA waiver, these LEAs would potentially be able to redirect these set-aside funds to other Title I uses. Schools and LEAs will not be identified for PI and may not be required to implement any of the current PI requirements, depending upon policy decisions by the Legislature or SBE. However, as outlined in the November SBE Item 5, approval of an ESEA waiver commits LEAs, both Title I recipients and non-Title I LEAs, and the state to implement all of the waiver requirements. These potentially include accelerating the implementation of CCSS, designing and implementing a differentiated accountability system (including interventions for 15 percent of the lowest performing schools), and negotiating and implementing a new teacher and principal evaluation and support system. The costs of doing so, estimated at between \$2.4 billion and \$3.1 billion, will likely exceed net savings from waived SES and choice requirements. A more detailed analysis of benefits and costs is available in the November SBE Item 5, which is available on the SBE Meeting for November 2011 Web page. The Web document is located at <http://www.cde.ca.gov/be/ag/ag/yr11/documents/nov11item05.doc>.

In addition, there are significant unfunded state operations expenses associated with preparing the waiver. These include fixed costs for staffing and variable costs for committee expenses, including meeting room costs and travel and per diem expenses. In order to complete the developmental work to design a new accountability system with new Annual Measurable Objectives and their use in differentiated settings, the CDE will need at least one limited term and two full-time ongoing consultants at \$125,000 each (\$375,000), an analyst at \$85,000, plus operating expenses for collective work to staff committees, develop weightings, conduct data simulations, complete data analyses for validity, reliability, and completeness, and oversee data processing and related tasks.

In addition, there are costs associated with the necessary consultation with technical experts and stakeholders on the re-design of the accountability system. To define the differentiated accountability system will require meetings with the Public Schools Accountability Act Advisory Committee and the Technical Design Group, at an estimated cost of \$75,000.

Additional meetings with the Committee of Practitioners, LEA superintendents and stakeholder organizations representing English learners, students with disabilities, and advocates for underperforming student groups are estimated to more than double this amount to \$150,000 to \$204,000, based upon the number of meetings to be held. Costs include expenses for meeting space, travel, per diem, and the potential costs for Web-casting. No state operations budget has been identified to support these costs.

STATE OF CALIFORNIA

EDMUND G. BROWN JR., *Governor*

CALIFORNIA STATE BOARD OF EDUCATION

1430 N Street, Suite 5111
Sacramento, CA 95814
Phone: (916) 319-0827
Fax: (916) 319-0175

December 15, 2011

Arne Duncan, Secretary of Education
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

Dear Secretary Duncan:

We in California appreciate President Obama's recognition that the reauthorization of the Elementary and Secondary Education Act (ESEA) is overdue and that the current law is not working as intended. We are eager to work with the Administration on a plan that would provide more flexibility in implementing the provisions of No Child Left Behind, but we are also wary of trading one set of mandates for another—particularly if the required policies and strategies must be completed on a compressed timeline that we cannot afford.

As I am sure you are aware, our districts are acutely interested in the waiver and are seeking as much information about it as possible. I understand that earlier this month Michael Yudin from your staff travelled to California and made a presentation to a gathering of district administrators and other stakeholders about the ESEA waiver opportunity announced by your office earlier this year. Some of the information shared by Mr. Yudin at that meeting has reached us second-hand and appears to differ from the formal guidance and application documents from your office. We think it is very important that all stakeholders—including the State Board of Education as the body responsible for the waiver decision—have the same information so that we can engage in a productive and transparent discussion about it as a state.

To this end, I am inviting you, Mr. Yudin, or another member of your staff to attend the next California State Board of Education meeting on January 11, 2012 to make a presentation about the ESEA waiver. The Board already discussed the waiver at its November 2011 meeting and heard a summary and fiscal analysis from the California Department of Education. We will be discussing the issue again in January and would benefit greatly, I am sure, from an opportunity to hear from you or your designee. I would additionally welcome the opportunity to talk with you privately about the ESEA waiver so that we can be sure to devote adequate time to the matter. Please contact Sue Burr, Executive Director of the California State Board of Education, at (916) 319-0705 regarding this invitation.

I take my responsibility in this decision very seriously and I am certain my fellow Board members feel the same way. Before making a decision, we want to ensure that we have a full understanding of what this waiver opportunity will mean for our districts and for our state. I hope you will be able to join us personally in January, and I look forward to further discussion at that time.

Sincerely,

A handwritten signature in cursive script that reads "Michael W. Kirst".

Michael W. Kirst
President,
California State Board of Education

Executive Director,
California State Board of Education

Tom Torlakson
State Superintendent of Public Instruction and Director of Education,
California Department of Education

Proposed Timeline for Preparation of a Waiver of Select Elementary and Secondary Education Provisions in Exchange for Implementation of an Alternative Accountability System

The following table details activities that would need to be completed to submit a prospective waiver of selected Elementary and Secondary Education (ESEA) Act provisions.

**Items marked with asterisks are anticipated to occur independent of any waiver application, i.e., implementation of Common Core State Standards. However, implementing the waiver consistent with federal requirements would require an acceleration of current timelines.

Date	Anticipated Actions
January 2012	**The California Department of Education (CDE) notices local educational agencies (LEAs) at risk of Program Improvement (PI) in 2012–13.
January 2012	The State Board of Education (SBE) reviews, modifies, and potentially adopts a timeline of actions needed in order to prepare a waiver proposal of select Elementary and Secondary Education Act (ESEA) provisions in exchange for an alternative accountability system. Decisions to be included in a draft version of a new accountability system required as a condition of the waiver will require significant consultation and SBE discussion, including an assessment of how feasible the federal requirements are relative to California’s current fiscal and political context, in order to be ready for a June 2012 waiver submission.
January 2012	<p>Principle 1: College- and Career-Ready Expectations for all Students:</p> <p>**The SBE reviews and adopts a timeline for implementation of Common Core State Standards (CCSS) which includes a transition plan for implementing college-and career-ready standards in at least reading/language arts and mathematics, and how this plan will ensure that all students, including English learners, students with disabilities, and low-achieving students, gain access to and learn content aligned with such standards. The SBE reviews proposed evaluation criteria for the Title I supplemental materials to be submitted by publishers.</p>
January/ February 2012	<p>Principle 2: State-developed differentiated Recognition, Accountability and Support</p> <p>The CDE prepares draft work-plan to develop and implement a state-based system of differentiated recognition, accountability and support for SBE discussion in March 2012, including proposals for how California will modify and transition from the current state accountability system, Title I Improvement, professional development, school choice and supplemental educational service requirements to a new system.</p>

Date	Anticipated Actions
	<p>The CDE prepares options for SBE review in May 2012 to set ambitious but achievable annual measurable objectives (AMOs). Some of the issues to be addressed in federal options are listed below.</p> <p>Option A: Under this option, the SBE would be required to reset current AMO targets. To do so will require meetings with the Technical Design Group (TDG), Regional Assessment Network (RAN), Committee of Practitioners (COP), and key legislative staff and stakeholder groups to discuss options and what type of growth would be required of LEAs, schools, and student groups.</p> <p>Option B: Under this option, the SBE would move the required 100 percent proficient achievement target on our current federal adequate yearly progress (AYP) system forward to 2019–20 school year. At this time, we do not anticipate that this is a preferred option.</p> <p>Option C: Under this option, the state would create a single federal and state accountability system with ambitious, but achievable, AMOs for all LEAs, schools, and subgroups. This option will require significant time, including meetings with the Public Schools Accountability Act (PSAA) Advisory Committee, as well as the groups identified above to discuss the design of the accountability system, any necessary legislation and a plan for how the state would transition from the current accountability system to a new system.</p> <p>As part of its new differentiated recognition, accountability and support system, the CDE will propose for SBE review in May 2012:</p> <ul style="list-style-type: none"> • A methodology for recommending criteria for the identification of “priority” schools. Staff work in the interim will consider the relative inclusion of absolute academic student performance data, academic growth, graduation rates and how schools should potentially be sorted or indexed on SBE- approved variables. Recommended criteria for support, intervention, and exit of these schools will also be prepared. • A methodology for recommending criteria for the identification of “focus” schools, including criteria for identification, entry, support, intervention, and exit of the lowest performing 10 percent of California public schools that are not in the priority category and have the widest disparity of student achievement scores among student groups (achievement gap). • A plan for how the state will provide incentives and supports for other Title I schools to ensure continuous improvement, based on the proposed new AMOs and other measures and how these incentives and supports are likely to improve student achievement, close the achievement gap and increase the quality of instruction for students. • A methodology for the identification of “reward” schools based upon the new accountability system.

Date	Anticipated Actions
January– March 2012	The CDE conducts stakeholder meetings, including meetings with the TDG, RAN, PSAA Advisory Committee, the COP, Education Coalition, and key legislative staff and stakeholder groups to discuss potential ESEA waiver issues.
February 2012	SBE and CDE staff work with legislative staff to identify possible legislation needed to revise the California Accountability System based upon tenets of the federal waiver and preliminary Congressional direction on ESEA reauthorization.
February 2012	The CDE conducts statewide system of school support discussions with district and county superintendents of schools, members of the Education Coalition, and others to discuss the proposed new accountability system and how the California statewide system of schools support will address Principle 2.g., to Build State Educational Agency (SEA), LEA, and School Capacity to Improve Student Learning.
March 2012	The SBE reviews preliminary proposals for a prospective waiver of selected ESEA provisions and components of an alternative accountability system, including budgetary expectations.
March 2012	**The CDE initiates development and roll-out of CCSS implementation modules in Title I schools and districts (12 modules to be ultimately produced over three years), as outlined in CCSS Transition Plan.
April 2012	<p>Principle 3: Supporting Effective Instruction and Leadership</p> <p>The CDE initiates discussion with teachers, teacher organizations, administrators, and administrator organizations about implementing an amended Principle 3 ESEA Waiver Option A, the development and adoption of guidelines for local teacher and principal evaluation and support systems by the end of the 2012–13 school year.</p>
April 2012	The SBE conducts special meeting to re-examine costs of implementation of proposed ESEA waiver and review draft of Proposed Revisions to the California Accountability Workbook.

June 2012	The SBE submits proposal for waiver of ESEA requirements to the ED.
August 2012	The SBE reviews the SSPI recommended new ELD/ELP standards.
September 2012	The SBE adopts, rejects, or revises proposed ELD/ELP standards.
November 2012	The SSPI reports on recommendations for reauthorization of the statewide pupil assessment program, including a plan to transition to the SMARTER Balanced assessment system.
May 2013	**The SBE adopts new Mathematics Framework.
May 2014	**The SBE adopts new English-Language Arts Framework.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 5

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Update on Issues Related to California's Implementation of the Elementary and Secondary Education Act and Other Federal Programs Including, but not Limited to, the School Improvement Grant Approval of Funding of Local Educational Agencies and Schools for the 2012–13 School Improvement Grant Sub-Grants Under Section 1003(g) and Authorization to Approve California's FY 2011 Continuation Awards Only School Improvement Grant Application.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

On September 20, 2011, the U.S. Department of Education (ED) approved California's waiver request to carry over 100 percent of fiscal year (FY) 2010 School Improvement Grant (SIG) funds of the Elementary and Secondary Education Act (ESEA) Section 1003(g). These funds are to be awarded beginning in the 2012–13 school year (SY) under the condition that the California Department of Education (CDE) award local educational agencies (LEAs) and their respective schools sub-grants no later than February 2012.

RECOMMENDATION

The CDE recommends that the State Board of Education (SBE):

- Approve funding for the recommended list of LEAs and schools that have applied for SIG sub-grants provided under Section 1003(g) of the ESEA for the 2012–13 SY based upon submitting an approvable application
- Authorize the SBE President or designated liaison, along with the State Superintendent of Public Instruction, to approve California's FY 2011 Continuation Awards Only SIG application to the ED.

The list of LEAs and their respective schools recommended for funding using FY 2010 SIG funds will be provided as Attachment 1 in an Item Addendum.

BRIEF HISTORY OF KEY ISSUES

The September 2011 approved waiver allowed the CDE additional time to provide the assistance necessary for LEAs to create viable proposals for implementation in the 2012–13 SY. The CDE has provided technical assistance and support through:

BRIEF HISTORY OF KEY ISSUES (Cont.)

(1) posted SIG information on the CDE SIG Web page at <http://www.cde.ca.gov/sp/sw/t1/sig09.asp>; (2) Webinar on SIG application forms and process; and (3) individual consultations with eligible SIG applicants. These actions resulted in refined support for Cohort II and increased all LEAs' ability to successfully compete for SIG funds and fully implement the selected intervention model. In addition, this timeline allows LEAs sufficient time to implement the optional pre-implementation component that was introduced for FY 2010.

LEA applications were due to the CDE by November 18, 2011. The CDE conducted a readers' conference on December 5–7, 2011, to review and rate the applications.

California was allocated \$66 million dollars to fund the Cohort 2 SIG, an amount which was adequate to fund all of the LEAs and schools whose applications met the eligibility requirements.

On December 2, 2011, the ED released its FY 2011 SIG application for state education agencies (SEA). In order to reduce the burden on SEAs that used FY 2010 funds to pay for the first year of three-year SIG awards, the ED is not requiring an SEA that will use FY 2011 funds solely for continuation awards to submit a new SIG application. Such an SEA is only required to submit a document titled "Continuation Awards Only Application for FY 2011 SIG Program," containing assurances that it will use its renewal process and not make new awards. California is planning to make continuation awards only for Cohort 2. The SEA application document is provided as Attachment 2.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At its July 2011 meeting, the SBE took action to approve a waiver request to carry over 100 percent of the FY 2010 SIG funds. The waiver allowed the CDE additional time to provide the assistance necessary for LEAs to create viable proposals for implementation in the 2012–13 SY.

FISCAL ANALYSIS (AS APPROPRIATE)

The SIG funds are anticipated to provide LEAs with grants ranging from \$50,000 to \$2 million per SY. A maximum of \$66 million is available under Section 1003(g) for FY 2010.

ATTACHMENT(S)

Attachment 1: The List of Local Educational Agencies and Their Respective Schools Recommended for Funding Using School Improvement Grant Funds will be provided in an Item Addendum.

ATTACHMENT(S) (Cont.)

Attachment 2: Continuation Awards Only Application for FY 2011 School Improvement Grants (SIG) Program (1 Page)

Continuation Awards Only Application for FY 2011 School Improvement Grants (SIG) Program

California assures that it will use FY 2011 SIG funds solely to make continuation awards and will not make any new awards¹ to its LEAs.

California assures that it will use the renewal process identified in California’s approved FY 2010 application to determine whether to renew an LEA’s School Improvement Grant.

In the table below, list any LEAs with one or more schools for which funding under previously awarded SIG grants will not be renewed. For each such school, note the amount of unused remaining funds and explain how the SEA or LEA plans to use those funds (e.g., reallocate to other schools with SIG grants or retain for a future SIG competition).

LEA NAME	SCHOOL NAME	DESCRIPTION OF HOW REMAINING FUNDS WERE OR WILL BE USED	AMOUNT OF REMAINING FUNDS
		Not Applicable - California’s Cohort 2 will commence implementation in 2012	
TOTAL AMOUNT OF REMAINING FUNDS:			

By submitting the assurances and information above, California agrees to carry out its FY 2010 SIG application and does not need to submit a new FY 2011 SIG application.

X _____

¹ A “new award” is defined as an award of SIG funds to an LEA for a school that the LEA was not previously approved to serve with SIG funds in the school year for which funds are being awarded—in this case, the 2012–2013 school year. New awards may be made with the FY 2011 funds or any remaining FY 2009 or FY 2010 funds not already committed to grants made in earlier competitions.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 6

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT Elementary and Secondary Education Act: Supplemental Educational Services Providers: Approval of Additional Providers to the 2011–13 State Board of Education-Approved Supplemental Educational Services Provider List Based on Appeal and Removal of Providers From the 2009–11, 2010–12, and 2011–13 Approval Lists for Failure to Submit the 2010–11 Supplemental Educational Services Accountability Report.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing
--	--

SUMMARY OF THE ISSUE(S)

The Elementary and Secondary Education Act (ESEA) Section 1116(e)(4)(C) requires the state educational agency (SEA) to develop and maintain a list of approved Supplemental Educational Services (SES) providers to provide services to eligible students. ESEA Section 1116(e)(4)(C) is provided as Attachment 1.

RECOMMENDATION

Supplemental Educational Services Providers Approval

Recommendation 1:

The California Department of Education (CDE) recommends that the State Board of Education (SBE) approve additional SES providers for a two-year period beginning July 1, 2011, through June 30, 2013. The additional applicants were not recommended for approval originally, but have since appealed that decision. The list of the additional approved providers is provided as Attachment 2.

Supplemental Educational Services Provider Removal for Failure to Submit 2010–11 Accountability Report

Recommendation 2:

The CDE also recommends that the SBE remove SES providers from the approved 2009–11, 2010–12, and/or the 2011–13 lists who failed to submit the required 2010–11 SES Accountability Report, pursuant to the *California Code of Regulations*, Title 5 (5 CCR) Section 13075.4(a). 5 CCR Sections 13075.4(a) and 13075.5(d)(1), (2) and (3)(H) are provided as Attachment 3. The list of providers recommended for removal is provided as Attachment 4.

BRIEF HISTORY OF KEY ISSUES

Supplemental Educational Services Providers Approval

Title I, Part A Section 1116(e)(1) and (4) of the ESEA requires that an SES provider be approved by the SBE before it can offer tutoring services to low-income students in schools advancing to Program Improvement Year 2 and beyond. The CDE has been responsible for annually establishing and maintaining a list of SBE-approved SES providers, as described in Section 1116(e)(4) of the ESEA, beginning with the SBE approval of the first cohort at the June 2003 SBE meeting.

Supplemental Educational Services Provider Removal for Failure to Submit 2010–11 Accountability Report

Federal law for SES requires a SEA to monitor and evaluate approved SES providers in accordance with the ESEA, Title I, Part A Section 1116, (e)(4)(B). The 5 *CCR* Section 13075.4(a) requires approved SES providers submit an annual SES Accountability Report to the CDE by the submission deadline. The 5 *CCR* Section 13075.5(d)(3)(H) allows the SBE to terminate an approved provider for failing to provide monitoring and program evaluation information requested by the SBE.

This is the fifth time that the CDE has recommended removing SES providers who failed to complete the required annual SES Accountability Report.

On December 23, 2011, SES providers recommended for removal from the state approved provider list will be notified that action will be taken by the SBE on that recommendation at its January 2012 meeting. The recommendation is based on 5 *CCR*, Section 13075.5(d)(2). The list of providers recommend for removal is provided as Attachment 4.

Pursuant to 5 *CCR*, Section 13075.5(d)(1), the SES providers who did not submit or submitted incomplete Accountability Reports by the deadline were given 30 calendars days to submit or correct their report. These providers received additional technical assistance from the CDE, and the SES Accountability Report Web page was reopened to allow the submission of the corrected reports by the resubmission deadline of November 29, 2011.

At its July 2011 meeting, the SBE approved 75 of 139 applicants to serve as providers from July 1, 2011, through June 30, 2013.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At its May 2011 meeting, the SBE approved 161 providers out of 209 applicants to serve as SES providers from July 1, 2011, through June 30, 2013.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION (Cont.)

The combined total of SBE-approved providers authorized to provide SES for either the 2009–11 or 2010–12 cycle is currently 253.

At its November 2010 meeting, the SBE removed a total of 39 providers from the 2008–10 or 2009–11 approved provider list for failure to submit their 2009–10 Accountability Report.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no fiscal impact to the state. A local educational agency (LEA) contracts with SBE-approved SES providers to provide free tutoring to students enrolled in schools in Program Improvement Years 2 through 5 and beyond. An LEA must spend an amount equal to a minimum of 5 percent each to a maximum of 20 percent total for school-choice transportation and SES services.

ELEMENTARY AND SECONDARY EDUCATION ACT

SEC. 1116. ACADEMIC ASSESSMENT AND LOCAL EDUCATIONAL AGENCY AND SCHOOL IMPROVEMENT.

(e) SUPPLEMENTAL EDUCATIONAL SERVICES-

- (1) **SUPPLEMENTAL EDUCATIONAL SERVICES**– In the case of any school described in paragraph (5), (7), or (8) of subsection (b), the local educational agency serving such school shall, subject to this subsection, arrange for the provision of supplemental educational services to eligible children in the school from a provider with a demonstrated record of effectiveness, that is selected by the parents and approved for that purpose by the State educational agency in accordance with reasonable criteria, consistent with paragraph (5), that the State educational agency shall adopt.
- (4) **STATE EDUCATIONAL AGENCY RESPONSIBILITIES**– A State educational agency shall--

 - (A) in consultation with local educational agencies, parents, teachers, and other interested members of the public, promote maximum participation by providers to ensure, to the extent practicable, that parents have as many choices as possible;
 - (B) develop and apply objective criteria, consistent with paragraph (5), to potential providers that are based on a demonstrated record of effectiveness in increasing the academic proficiency of students in subjects relevant to meeting the State academic content and student achievement standards adopted under section 1111(b)(1);
 - (C) maintain an updated list of approved providers across the State, by school district, from which parents may select;
 - (D) develop, implement, and publicly report on standards and techniques for monitoring the quality and effectiveness of the services offered by approved providers under this subsection, and for withdrawing approval from providers that fail, for 2 consecutive years, to contribute to increasing the academic proficiency of students served under this subsection as described in subparagraph (B); and
 - (E) provide annual notice to potential providers of supplemental educational services of the opportunity to provide services under this subsection and of the applicable procedures for obtaining approval from the State educational agency to be an approved provider of those services.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 7

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Approve the Annual State Performance Plan and Performance Report for Part B of the Individuals with Disabilities Education Act Covering Program Year 2010–11.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

The State Board of Education (SBE), as the state educational agency, reports annually to the public and the United States Department of Education (ED) on the performance of California's local educational agencies (LEAs) with regard to the Individuals with Disabilities Education Act (IDEA). The State Performance Report (SPP) contains performance targets and the Annual Performance Report (APR) contains data collected by the California Department of Education (CDE) for program year 2010–11 regarding achievement towards those targets. The final SPP and APR are due to the ED February 1, 2012. Both documents can be found at the following Web links:
<ftp://ftp.cde.ca.gov/casemis/SPPFFY10draft.doc> (SPP) and
<ftp://ftp.cde.ca.gov/casemis/APRFFY2010draft.pdf> (APR).

RECOMMENDATION

The CDE recommends that the SBE approve the Annual State Performance Plan and Performance Report for Part B of the Individuals with Disabilities Education Act Covering Program Year 2010–11.

BRIEF HISTORY OF KEY ISSUES

California is required to have in place a performance plan to guide the state's implementation of Part B of the IDEA and to describe how the state will improve such implementation. This plan is called the Part B State Performance Plan (SPP). California's initial plan was submitted to the Office of Special Education Programs (OSEP) of the ED, on December 2, 2005, as approved by the SBE and the State Superintendent of Public Instruction. The SPP, including any changes, must be submitted to the OSEP by February 1, 2012.

BRIEF HISTORY OF KEY ISSUES (Cont.)

In addition, California must report annually to the public on the performance of its LEAs. This report is called the Part B APR. The APR documents the LEAs' progress toward meeting the benchmarks identified in the SPP and summarizes the statewide activities associated with each of the SPP's indicator targets. The APR is presented to the SBE annually for approval.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Last year, amendments to the initial SPP were necessary to address changes in federal requirements. In accordance with these requirements, the CDE prepared the SPP and included updates to reflect benchmarks for dropout rates consistent with the state's Adequate Yearly Progress Information Guide. The amended SPP was approved by the SBE at its January 2011 meeting.

At its January 2011 meeting, the SBE also approved the 2009–10 APR. In addition to reporting on progress, the 2009–10 APR addressed new federal requirements such as descriptions for monitoring, general supervision processes, and new descriptions and calculations for disproportionality.

On February 1, 2011, the SPP and APR, as described above and approved by the SBE were submitted to the OSEP.

At its November 2011 meeting, the SBE reviewed the executive summary of the 2012 APR, anticipating updated performance data and any necessary changes to the SPP.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no fiscal impact.

January 2012

Revisions to the California State Performance Plan January 2012

On February 1, 2012, the California Department of Education (CDE) is required to submit the State Performance Plan (SPP) for the Individuals with Disabilities Education Act of 2004 (IDEA). This is a five-year plan originally submitted in federal fiscal year (FFY) 2005. However, due to the delay in the reauthorization of the IDEA, the Office of Special Education Programs (OSEP) required states to extend their plans by two additional years. California's SPP was amended and approved by the OSEP in FFY 2009 to include an additional two years. The current SPP is valid through FFY 2012 (2012–13).

Each year the plan is reviewed and revised to address any changes in data collection, policies, or legislation. The table below identifies the significant revisions to the document for the FFY 2010 submission, followed by a brief overview of the revisions. The complete FFY 2010 SPP draft document can be found at:
<ftp://ftp.cde.ca.gov/casemis/SPPFFY10draft.doc>.

<u>Page</u>	<u>Revisions</u>
4	Updated data sources: Data sources were revised to reflect the data sources used for the FFY 2010 APR indicators.
6	Deleted: Narrative and references to Superintendent O'Connell, <i>Closing the Achievement Gap</i> , and California P-16 Council documents.
6–8	Inserted: Description of <i>A Blueprint for Great Schools</i> to reflect Superintendent Torlakson's priorities.
26-27	Revised calculation methodology for Indicator 4: Suspension and Expulsion Rates.
56-57	Revised calculation methodology for Indicator 9: Disproportionality Overall (e-formula and Alternate Risk Ratio).
60-61	Revised calculation methodology for Indicator 10: Disproportionality by Disability (e-formula and Alternate Risk Ratio).

A Blueprint for Great Schools (A summary of pages 6 – 8)

In January 2011, a new State Superintendent of Public Instruction, Tom Torlakson took office in California. Superintendent Torlakson, recognizing the need for broad and deep stakeholder involvement in the issues facing California public education, convened a 59-member Transition Advisory Team, including parents, teachers, classified staff, administrators, superintendents, school board members, business and union leaders, higher education and nonprofit representatives. The team was designed to create a model for the kinds of coalitions necessary to prepare all of California's students to be healthy, productive citizens, and lifelong learners.

Superintendent Torlakson charged the team with providing him advice on the development of a new mission and planning framework for the CDE. He asked for innovative and strategic advice to ensure that the state provides a world-class education to all students, preparing them to live, work, and thrive in a highly connected world.

Based on the team's recommendations, the CDE adopted the following new mission statement:

California will provide a world-class education for all students, from early childhood to adulthood. The department of education serves our state by innovating and collaborating with educators, schools, parents, and community partners. Together, as a team, we prepare students to live, work, and thrive in a highly connected world.

Among the critical priorities of the recommendations were:

Educator Quality: Recognizing that expert teachers and school leaders are perhaps the most important resource for improving student learning, support the development of more effective educator recruitment, preparation, professional support, and evaluation systems. Use professional teacher and leader standards to guide and assess practice in a way that reflects best practices and incorporates appropriate evidence of student learning. Create a major commission to outline how these educator quality systems should best be designed, supported, and implemented. Launch an ongoing initiative to support union-management collaboration toward high-leverage reforms.

Curriculum and Assessment: In close collaboration with the State Board of Education, revise State curriculum standards, frameworks, and assessments to better reflect the demands of a knowledge-based society and economy, incorporate new Common Core Standards, and build on the strengths and needs of diverse learners. Incorporate technology as a key component of teaching, learning, and assessment, and support high levels of literacy and bi-literacy to prepare students for the globalized society they are entering.

Higher Education and Secondary Alignment: Work with higher education partners to establish college and career readiness standards and align assessments for K-12 learning, college admissions, and college placement. Improve graduation rates and student preparation for college and careers by redesigning secondary school program models and curriculum, investing in Linked Learning approaches, and updating A-G requirements.

Accountability and School Improvement: Develop a robust system of indicators to give students, teachers and parents a more complete picture of school performance, including broader measures of growth and learning that better assess 21st century skills; measures of school capacity and student opportunities to learn; and measures of resources connected to opportunity-to-learn standards.

Early Childhood Education: Develop an infrastructure for a birth-to-3rd-grade system that serves our youngest learners and includes expanded access to programs designed to meet quality standards, supported by well-prepared and supported educators, guided by aligned standards and curriculum, and informed by readiness data.

Education Supports: Support the provision of wraparound services to enhance student access to healthcare, social services, before and after school programs, and other supports needed for success. Encourage the development of community school approaches and provide technical assistance through existing CDE staff and structures.

Health and Fitness: Improve children's health, nutrition, and fitness by facilitating access to health insurance for all eligible children, supporting school-based health care, and encouraging better nutrition and increased physical activity within both school and home environments.

School Finance: Identify new or expanded sources of revenue to stabilize and increase financial support for schools. Foster and promote fiscal and

administrative efficiencies. Create a weighted student formula approach to tie funding to pupil needs.

Facilities Construction and Reform: Enable districts to engage in more effective and efficient facilities construction and re-design, including movement toward energy self-sufficiency.

Additional information on Superintendent Torlakson's *A Blueprint for Great Schools* can be found at: <http://www.cde.ca.gov/eo/in/bp/>.

Indicator 4: Suspension/Expulsion (A summary of pages 26 – 27)

The CDE has proposed to the OSEP the following methodology for identifying significant discrepancy:

- Calculate one state-level suspension/expulsion rate to set the State Bar (i.e., State suspension/expulsion average (0.64) + 2% = 2.64, the State Bar)
- Calculate district-rate for each racial/ethnic group
- Compare each district-rate for each racial/ethnic group to the State Bar
- If one or more racial/ethnic group(s) are suspended/expelled at a rate greater than the State Bar, the district is identified with a significant discrepancy

Indicator 9: Disproportionality Overall, and Indicator 10: Disproportionality by Disability (A summary of pages 56 – 57 and 60 – 61)

The CDE has proposed to the OSEP the use of the e-formula and Alternate Risk Ratio to identify disproportionate representation. A study of disproportionality measurements indicates it is advantageous to use two types of measures over using a single measure because: (1) It incorporates the best elements of both measures; (2) the measures represent two broad categories of disproportionality; (3) if a district is disproportionate in both measures - not just in one - then the district more likely has true disproportionality; and (4) two measures allow the user to examine disproportionality of districts at reasonable threshold levels in both measures.

The e-formula, which falls under the broad category of measures known as **Composition**, has, among others, the following unique properties: (1) It is based on statistical principles of sampling theory; (2) it is sensitive to the size of districts; (3) it allows proportionately more tolerance for disproportionality for smaller districts than larger districts; (4) it has the lowest number of exclusions of cells from disproportionality

calculations; (5) the results are not affected by external factors, such as state demographics; (6) it is least affected by small enrollment fluctuations; and (7) it is applicable to racially homogeneous as well as heterogeneous districts.

The Alternate Risk Ratio, which falls under the broad category of measures known as **Risk**, has the following properties: (1) The results are comparable across the districts in a state; and (2) it is sensitive to very high or very low district rate of disability, compared to the state rate.

Special Education in California

The California Department of Education (CDE) provides state leadership and policy direction for school district special education programs and services for students who have disabilities, newborn to twenty-two years of age. Special Education is defined as specially designed instruction and services, at no cost to parents, to meet the unique needs of children with disabilities. Special education services are available in a variety of settings, including day-care settings, preschool, regular classrooms, classrooms that emphasize specially designed instruction, the community, and the work environment.

This leadership includes providing families with information on the education of children with disabilities. The CDE works cooperatively with other state agencies to provide everything from family-centered services for infants and preschool children with disabilities to planned steps for transition from high school to employment and quality adult life. The CDE responds to consumer complaints and administers the federal Individuals with Disabilities Education Act (IDEA) and the Elementary and Secondary Education Act (ESEA) for students with disabilities in California.

Accountability and Data Collection

In accordance with the IDEA, California is required to report annually to the secretary of the U.S. Department of Education (ED) on the performance and progress under the State Performance Plan (SPP) in its Annual Performance Report (APR). The APR requires the CDE to report on 20 indicators (Table 1) that examine a comprehensive array of compliance and performance requirements relating to the provision of special education and related services. The California Special Education Management Information System (CASEMIS) is the data reporting and retrieval system used at the CDE. The CASEMIS provides the local educational agencies (LEAs) with a statewide standard for maintaining a common core of special education data at the local level that is used for accountability reporting and to meet statutory and programmatic needs in special education.

The CDE is required to publish the APR for public review. The current APR reflects data collected during Federal Fiscal Year (FFY) 2010, which is equivalent to California's school year 2010–11. Please note that there are several indicators that are reported in lag years using data from school year 2009–10. There are 11 performance indicators and 9 compliance indicators. All compliance indicators are set by the ED at either 0 percent or 100 percent. Performance indicator targets were established based on the recommendations of the broad-based stakeholder group, Improving Special Education Services (ISES), and the approval of the State Board of Education (SBE) (Table 5).

Table 1: California State Indicators

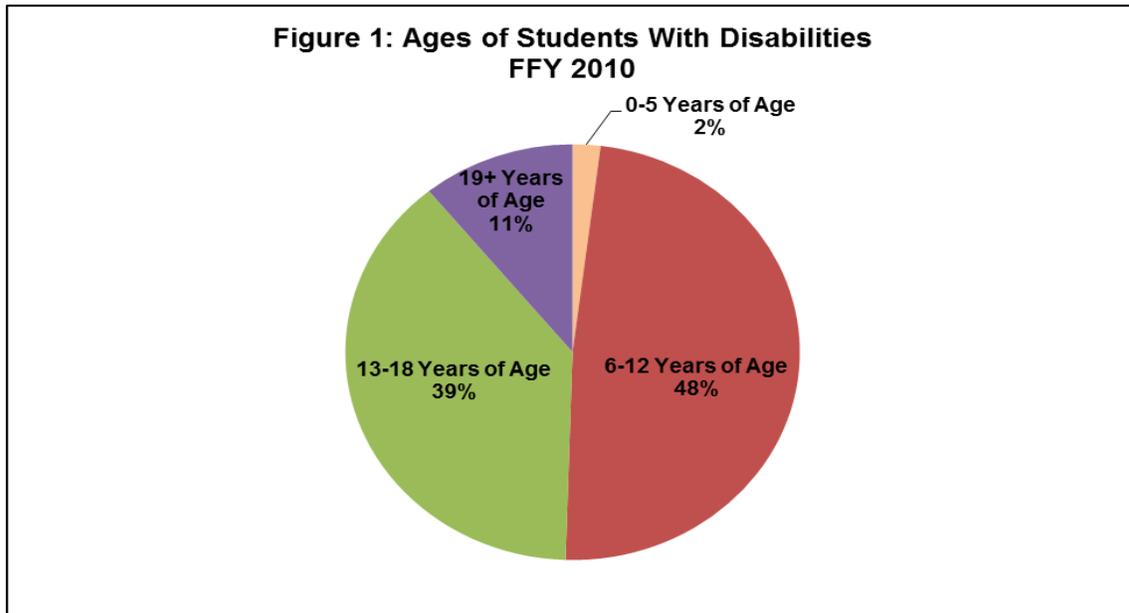

Type		Indicators
Performance	1	Graduation Rates
Performance	2	Dropout Rates
Performance	3 A	Statewide Assessment
Performance	3B	Statewide Assessment-participation Rates
Performance	3C	Statewide Assessment-proficiency Rates
Performance	4A	Rates of Suspension and Expulsion
Performance	4B.	Rates of Suspension and Expulsion by Race or Ethnicity
Performance	5A	Least Restrictive Environment (Removed >21% of day)
Performance	5B	Least Restrictive Environment (Removed >60% of day)
Performance	5C	Least Restrictive Environment (Served in separate school or other placement)
Performance	6	Preschool Least Restrictive Environment (Not reported in FFY 2010)
Performance	7A	Preschool Assessment: Social-emotional skills
Performance	7B	Preschool Assessment: Acquisition/Use of knowledge
Performance	7C	Preschool Assessment: Use of Appropriate Behaviors
Performance	8	Parent Involvement
Compliance	9	Disproportionality Overall
Compliance	10	Disproportionality by Disability
Compliance	11	Eligibility Evaluation

Compliance	20	State-reported Data

CASEMIS Dec.2010

Overview of Population and Services

During fiscal year (FY) 2010–11, 680,164 students were enrolled in special education. Compared to the total student enrollment in California, special education students make up about 10 percent of total students. The average age of a special education student in California is approximately eleven years. The median grade level is sixth grade.

As shown in Figure 1, the majority of students with disabilities in California are between six and twelve years of age. The majority of special education students (68 percent) are male. Twenty-nine percent of special education students are English-language learners.

CASEMIS Dec.2010

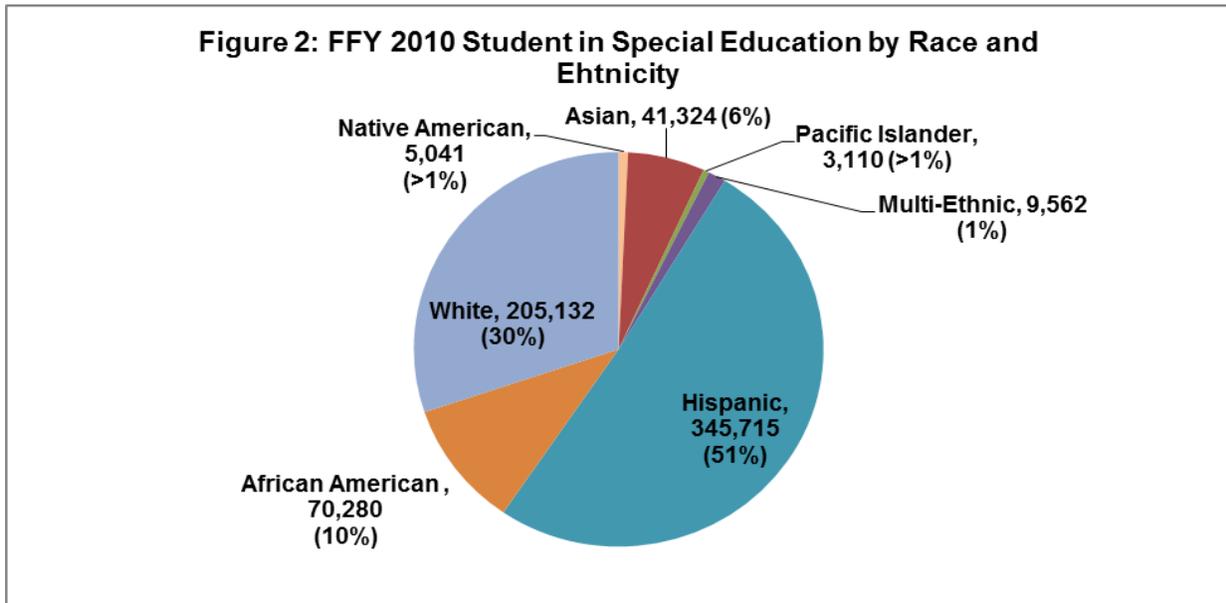

California students diagnosed with at least one disability are eligible for services to meet those needs. There are 13 disability categories as identified in Table 2. The majority (42 percent) of students are identified as having a “Specific Learning Disability” as their primary disability category. The second most common primary disability designation for students (24.7 percent) is a “Speech/Language Impairment.”

Table 2: Enrollment of Special Education Students by Disability Type

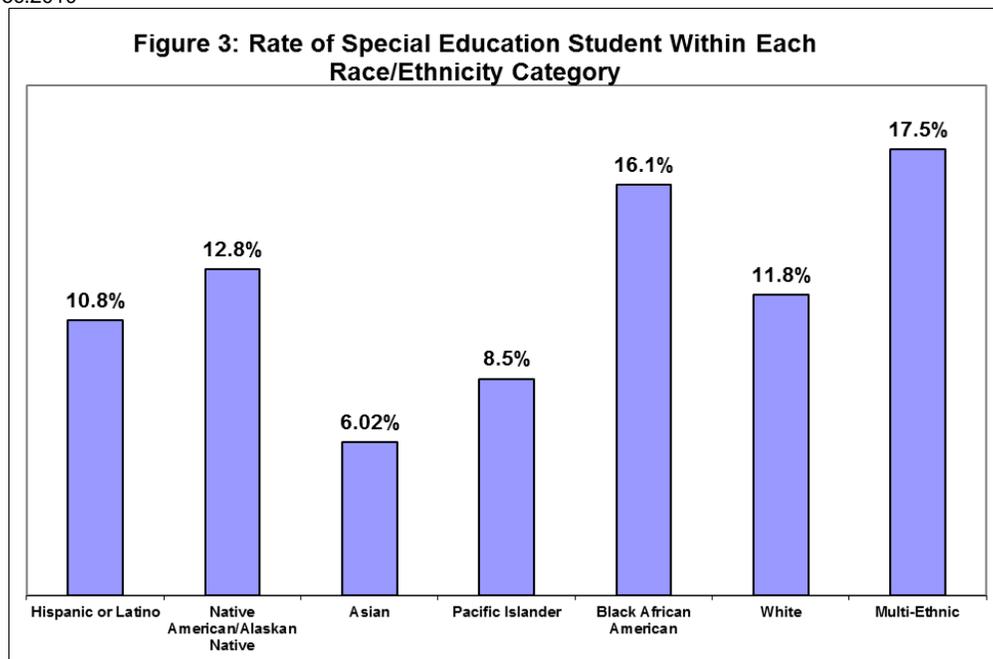

Intellectual Disability	42,897	6.3%	Orthopedic Impairment	15,394	2.3%
Hard of Hearing	9,301	1.4%	Other Health Impairment	53,936	7.9%
Deaf	4,154	0.6%	Specific Learning Disability	287,773	42.3%
Speech and Language	168,046	24.7%	Deaf-Blindness	162	0%
Visual Impairment	4,456	0.7%	Multiple Disability	5,201	0.8%
Emotional Disturbance	27,314	4.0%	Autism	59,690	8.8%
Traumatic Brain Injury	1,831	0.3%			

CASEMIS Dec.2010

Of all special education students in California, Hispanic youth represent the greatest number of students in need of services (See Figure 2). However, when compared to total enrollment rates, African American students are the most highly represented single ethnicity in special education (See Figure 3).

CASEMIS Dec.2010

CASEMIS Dec.2010

The CDE also tracks the type of school or program in which special education students receive the majority of their instructional services. These include public schools, private schools, independent study, charter schools, community schools, correctional programs, higher education, and transition programs. Table 3 shows that the majority (88 percent) of special education students are enrolled in a public day school.

Table 3: Enrollment of Special Education by Type of School

No School (0–5 years)	3,872	0.6%	Adult Education Program	1,602	0.2%
Public Day School	597,559	87.9%	Charter School	16,032	2.4%
Public Residential School	761	0.1%	Charter School District	4,124	0.6%
SpEd Center or Facility	11,180	1.6%	Head Start	1,861	0.3%
Other Public School	5,606	0.8%	Child Development/Care	2,509	0.4%
Continuation School	5,312	0.8%	State Preschool Program	875	0.1%
Alternative Work Education Center/Facility	349	0.1%	Non Public Residential School	1,658	0.2%
Independent Study	1,372	0.2%	Extended Day Care	250	0.0%
Juvenile Court School	2,347	0.3%	Non Public Day School	12,299	1.8%
Community School	3,619	0.5%	Private Preschool	830	0.1%
Correctional Institution	351	0.1%	Private Day School	1,681	0.2%
Home Instruction	2,417	0.4%	Private Residential School	41	0.0%
Hospital Facility	116	0.0%	Non Public Agency	253	0.0%
Community College	263	0.0%	Parochial School	1,025	0.2%

CASEMIS Dec.2010

Special education students in California receive a variety of services to address their unique needs. During 2010–11, there were 1,606,945 services provided to California special education students. Table 4 describes the type of services provided to students. The most common service provided was Specialized Academic Instruction, followed by Language and Speech Services.

Table 4: Services Provided To Special Education Students

Specialized Services for Ages 0-2 years	17,815	1.1%	Specialized Services/Low Incidence Disabilities	7,426	0.5%
Specialized Academic Instruction	652,440	40.6%	Services for Deaf Students	20,974	1.3%
Intensive Individual Services	12,219	0.8%	Services for Visually Impaired Students	11,583	0.7%
Individual/Small Group Instruction	14,786	0.9%	Specialized Orthopedic Services	3,970	0.2%
Language/Speech	377,784	23.5%	Recreation Services	566	0.0%
Adapted Physical Education	49,085	3.1%	Reader and Note Taking Services	734	0.0%
Health and Nursing	16,362	1.0%	College Preparation	51,499	3.2%
Assistive Technology	8,829	0.5%	Vocational/Career	103,963	6.5%
Occupational Therapy	63,675	4.0%	Agency Linkages	9,634	0.6%
Physical Therapy	11,246	0.7%	Travel Training	1,160	0.1%
Mental Health Services	132,174	8.2%	Other Transition Services	21,590	1.3%
Day Treatment	1,477	0.1%	Other Special Education Services	16,053	1.0%
Residential Treatment	1,116	0.1%			

CASEMIS Dec.2010

2010–11 Annual Performance Report Indicators

During FFY 2010, California met XX (or XX percent) of the 19 target indicators (Indicator 6 was not reported for FFY 2010). Table 5 identifies each indicator, its target, the FFY 2010 state results, and whether the target was met. The pages following Table 5 provide one-page overviews of each individual indicator, including a description of the indicator, the target, the data measurement, the results, whether the target was met, and a summary of improvement activities.

Table 5: FFY 2010 Indicators, Targets, and Results

Indicators	Target	*Results	Met Target
1-Graduation Rate	Greater than 66.9%	74%	Yes
2-Dropout Rate	No More Than 22.6%	15.4%	Yes
3-Statewide Assessment	Multiple Targets	--	No
4- Suspension and Expulsion Rate by Ethnicity	No More Than 10%	Pending	Pending
4b-Suspension and Expulsion Rate by Disability	No More than 0%	Pending	Pending
5-Least Restrictive Environment			
5a. Percent Removed from Regular Class Less Than 21% of the Day	76% or More	52.5%	No
5b. Percent Removed from Regular Class More Than 60% of the Day	No More than 9%	22.4%	No
5c. Percent served in separate schools	No More than 3.8%	3.7%	Yes
6-Preschool Least Restrictive Environment	Not Required	--	--
7-Preschool Assessment	Multiple Targets		No
8-Percent of Parent Reporting the Schools Facilitated Parental Involvement	90% or More	81.1%	No
9-Overall Disproportional Racial or Ethnic Groups in Special Education	No More Than 0%	Pending	Pending
10-Disproportional Racial or Ethnic Groups in Disability Categories	No More than 0%	Pending	Pending
11-Eligibility Evaluation Completed within 60 Days of Parental Consent	No Less than 100%	95.8%	No
12-Part C to Part B Transition by Third Birthday	No Less than 100%	95.3%	No
13-Secondary Transition Goals and Services	No Less than 100%	27.2%	No
14-Post-School Employment or Enrollment in Post-Secondary Education	No Less than 69%	74.4%	Yes
15-General Supervision System Corrects Noncompliance Within in One Year	No Less than 100%	99.9%	No
16-General Supervision: Written Complaints Resolved in 60 Days	No Less than 100%	100%	Yes
17-General Supervision: Due Process Hearings	No Less than 100%	100%	Yes
18-General Supervision	No Less than 67%	27.3%	No
19-General Supervision: Number of Mediation Agreements	No Less than 80%	67.2%	No
20-General Supervision: Timely and Accurate Reports	No Less than 100%	97.8	No

INDICATOR 1: GRADUATION

Description

This is a performance indicator. It measures the percent of youth with Individual Education Programs (IEPs) graduating from high school with a regular diploma (20 U.S.C 1416 [a][3][A]). The calculation methods for this indicator were revised in 2008–09 and again in 2009–10 to align with reporting criteria under Title I of the Elementary and Secondary Education Act (ESEA). A new reporting methodology was implemented for the FFY 2010 APR. No baselines have been established. All California students are required to pass the California High School Exit Exam (CAHSEE) to earn a public high school diploma. State law provides an exemption from this testing requirement for students who otherwise meet the district requirement for graduation.

Target for 2010–11

- Have a 2010 graduation rate of at least 90 percent **or**
- Meet the 2010 fixed growth rate of 67.06 percent **or**
- Meet the 2010 variable growth rate of 66.98 percent

Measurement

The data are reported in lag years using the California Longitudinal Pupil Achievement Data System (CALPADS) data from the FFY 2009 (2009–10). The calculation is based on data from the California's ESEA reporting.

Results for 2010–11

For FFY 2010, Indicator 1 (Graduation Rates) shows that 74.4 percent of students with disabilities graduated with a high school diploma.

Target Met: Yes

Summary of Improvement Activities

- Provide technical assistance regarding graduation standards, student participation in graduation activities, promotion/retention guidelines, and preparation for the CAHSEE.
- Disseminate and promote the *English Learners with Disabilities Handbook* which provides guidance on ways to support twelfth graders in meeting goals for graduation.
- Develop and disseminate training modules on standards-based IEPs that promote and sustain activities that foster special education and general education working together to meet the needs of all learners. Modules will target delivery of services, curriculum and instruction, and differentiated instruction.

INDICATOR 2: DROPOUTS

Description

This is a performance indicator. It measures the percent of youth with IEPs dropping out of high school (20 U.S.C 1416 [a][3][A]). The calculation methods for this indicator were revised in 2009–10 to create a more rigorous target and were approved by the Office of Special Education Programs (OSEP) in April 2010. Dropout rates are calculated from data reported for grades nine through twelve. The CDE uses the annual (one-year) dropout rate and the four-year derived dropout rate. The four-year derived dropout rate is an estimate of the percent of students who would dropout in a four-year period based on data collected for a single year. California does not currently have benchmarks for dropout rates for the ESEA. Annual benchmarks are not required by the ESEA.

Target for 2010–11

Less than 22.6 percent of students with disabilities will drop out of high school.

Measurement

The data are reported in lag years using the CALPADS data from the FFY 2009 (2009–10). The calculation is based on data from the ESEA reporting.

Results for 2010–11

For the FFY 2010, Indicator 2 (Dropout Rates) reports in lag years using data from 2008–09. The four-year derived dropout rate was 15.4 percent.

Target Met: Yes

Summary of Improvement Activities

- Continue the Building Effective Schools Together (BEST) program which provides training and technical assistance on positive behavioral supports.
- Disseminate and provide training based on *Transition to Adult Living: A Guide for Secondary Education*, a comprehensive handbook written for students' parents and teachers, to support the transition of students with disabilities to adulthood and/or independent living.
- The CDE will continue to contract with the California Juvenile Court Schools to facilitate electronic transmission of records across public agencies, implement Response to Instruction and Intervention (RTI²), and improve academic achievement.

INDICATOR 3: STATEWIDE ASSESSMENTS

Description

This is a performance indicator. It measures the percent of districts with a disability subgroup that meet the state's minimum "n" size (less than 20 students) and meet: (a) the state's Adequate Yearly Progress (AYP), English-language Arts (ELA), and mathematics targets for the disability subgroup; (b) the participation rate for children with IEPs; and (c) the proficiency rate for children with IEPs against grade-level, modified, and alternate academic achievement standards (20 U.S.C. 1416 [a][3][A]).

Target for 2010–11

- 3A. The annual benchmarks and six-year target for the percent of districts meeting the state's AYP objectives for progress for the disability subgroup (58 percent).
- 3B. The annual benchmark and target for participation on statewide assessments in ELA and math, 95 percent (rounded to nearest whole number), is established under the ESEA.
- 3C. Consistent with the ESEA accountability framework, the 2010–11 annual measurable outcomes (benchmarks) for the percent proficient on statewide assessments are broken down by school subgroup:

School Subgroup	ELA Percent	Math Percent
Elementary Schools, Middle Schools, Elementary School Districts	67.6	68.5
High Schools, High School Districts	66.7	66.1
Unified School Districts, High School Districts, County Offices of Education	67.0	67.3

Measurement

The AYP percent equals the number of districts with a disability subgroup that meets the state's minimum "n" size and meets the state's AYP targets for the disability subgroup divided by the total number of districts that have a disability subgroup that meets the state's minimum "n" size.

The participation rate percent equals the number of children with IEPs participating in the assessment (California Standards Test, California Alternate Performance Assessment, California Modified Assessment, and CAHSEE) divided by the total number of children with IEPs enrolled on the first day of testing, calculated separately for reading and math.

The proficiency rate percent equals the number of children with IEPs enrolled for a full academic year scoring at or above proficient divided by the total number of children with IEPs enrolled for a full academic year, calculated separately for reading and math.

Results for 2010–11

A. In FFY 2010 for Target A the results are as follows:

Percent of Districts Meeting AYP for Disability Subgroup (3A)

Targets for FFY 2010 (2010–11)	Actual Data for FFY 2010 (2010–11)	Target Met
58	14.7	No

B. In FFY 2010 for Target B the results are as follows:

Percent of Participation for Students with IEPs (3B)

	Targets for FFY 2010 (2010–11)	Actual Data for FFY 2010 (2010–11)	Target Met
ELA	95	97.4	Yes
Math	95	94.9	No

C. In FFY 2010 for Target C the results are as follows:

Proficiency Targets and Actual Data in ELA and Math by Type of LEA (3C)

Type of LEAs	ELA Target Percent Proficient	ELA Actual Percent Proficient	Target Met	Math Target Percent Proficient	Math Actual Percent Proficient	Target Met
Elementary School Districts	67.6	39.8	No	68.5	35.7	No
High school Districts (grades 9-12 only)	66.7	15.5	No	66.1	15.0	No
Unified School Districts, High School Districts, County Offices of Education (grades 2–8 and 9–12)	67.0	22.9	No	67.3	17.3	No

Summary of Improvement Activities

- Provide technical assistance to schools focused on the implementation of programs to reform high poverty schools. Provide focused monitoring and technical assistance at facilitated school sites to address participation and performance on statewide assessments.
- Develop and maintain the IDEA 2004 information Web page with links to important references and resources on the reauthorization of the IDEA, including statewide assessments.
- Collaborate with the CDE Program Improvement and Interventions Office to infuse special education indicators into the Academic Performance Survey and District Assistance Survey.

INDICATOR 4A: SUSPENSION AND EXPULSION BY ETHNICITY

Description

This is a performance indicator. It measures the percent of districts that have a significant discrepancy in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs (20 U.S.C. 1416[a][3][A]; 1412[a][22]). A district is considered to have a significant discrepancy if the districtwide rate for suspension and expulsion exceeds the statewide rate for suspension and expulsion. Districts identified as having a significant discrepancy are required to review policies, procedures, and practices related to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards. The data reported here are from 2009–10.

Target for 2010–11

No more than 10 percent of districts will have rates of suspensions and expulsions of children with disabilities for greater than 10 days in a school year.

Measurement

The data are reported in lag years using the CALPADS data from the FFY 2010 (2009–10). The percent is calculated by the number of districts that have a significant discrepancy in the rates of suspensions and expulsions of children with IEPs for greater than 10 days in a school year divided by the number of districts in the state multiplied by 100.

Results for 2010–11

The CDE has not been able to complete calculations and notify districts on disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification. Calculation methodology for Indicator 4 (Rates of Suspension and Expulsion by Race or Ethnicity) was submitted for approval to the Office of Special Education Programs (OSEP) in September 2011. On October 3, 2011, an e-mail was sent to the CDE with the following direction for these indicators:

“If the state has not completed its policies, procedures, or practices review because additional districts were identified when the state applied its revised calculation methodology, the state has the option of submitting these data by the clarification period.”

This e-mail was followed by two conference calls (October 11, 2011, and October 28, 2011) where the calculation methodology was discussed.

Because the calculation methodology for Indicator 4 (Rates of Suspension and Expulsion by Race or Ethnicity) has not been approved, the CDE has not been able to complete calculations, nor has it been able to notify districts for a special self-review of policies, procedures, and practices. Upon the approval of the calculation methodologies, the CDE will identify districts with possible disproportionate rates of suspension and expulsion and advise them to complete a self-review of policies, procedures, and practices and submit the data to the CDE.

If approved, the methodology for 4A would be the number of districts with suspension/expulsion rates greater than the statewide rate, divided by the number of districts meeting the minimum n-size.

Target Met: N/A

Summary of Improvement Activities

- In collaboration with other divisions of the CDE, provide technical assistance to LEAs and schools on reinventing high schools to address suspension and expulsion.
- Provide technical assistance to schools focused on the implementation of reform programs that have been successful in high poverty schools.
- Work with special education local plan areas (SELPAs), LEAs, and the County Offices of Education (COE) to clarify responsibilities and improve behavior emergency and incident reporting.
- Promote the Internet Resource Instructional System (IRIS) modules in behavior, diversity, and other content. This is a special project that includes training and technical assistance work.
- Promote the Culturally Responsive Teaching in California online training modules for the school site general and special educators dealing with utilizing positive behavior supports.

INDICATOR 4B: SUSPENSION AND EXPULSION BY DISABILITY

Description

This is a compliance indicator. It measures the percent of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures, or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards (20 U.S.C. 1416[a][3][A]; 1412[a][22]).

Target for 2010–11

Zero percent of districts will have a significant discrepancy in the rates of suspensions and expulsions for greater than 10 days in a school year of children with disabilities by race/ethnicity.

Measurement

The data are reported in lag years using the CALPADS data from the FFY 2009 (2009–10). This percent is calculated by the number of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rates of suspensions and expulsions of greater than 10 days in a school year of children with IEPs; and (b) policies, procedures, or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards divided by the number of districts in the state multiplied by 100.

Results for 2010–11

The CDE has not been able to complete calculations and notify districts of disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification. Calculation methodology for Indicator 4 (Rates of Suspension and Expulsion by Race or Ethnicity) was submitted for approval to the OSEP in September 2011. On October 3, 2011, an e-mail was sent to the CDE with the following direction for these indicators:

“If the state has not completed its policies, procedures or practices review because additional districts were identified when the state applied its revised calculation methodology, the state has the option of submitting these data by the clarification period.”

This e-mail was followed by two conference calls (October 11, 2011, and October 28, 2011) where the calculation methodology was discussed.

Because the calculation methodology for Indicator 4 (Rates of Suspension and Expulsion by Race or Ethnicity) has not been approved, the CDE has not been able to complete calculations, nor has it been able to notify districts for a special self-review of policies, procedures, and practices. Upon the approval of the calculation methodologies, the CDE will identify districts with possible disproportionate rates of suspension and expulsion and advise them to complete a self-review of policies, procedures, and practices and submit the data to the CDE.

If approved, the methodology for 4b would be the number of districts with significant discrepancy, defined as a district with one or more race categories greater than the statewide rate, divided by the number of districts meeting the minimum n-size.

Target Met: N/A

Summary of Improvement Activities

- Provide technical assistance to schools focused on the implementation of reform programs that have been successful in high poverty schools.
- Work with SELPAs, LEAs, and COEs to clarify responsibilities and improve behavior emergency and incident reporting.
- Work with SELPAs, LEAs, and the COEs to update and improve monitoring items and instruments for reviewing policies, practices, and procedures related to this indicator.
- Provide Building Effective Schools Together (BEST) training and technical assistance on positive behavioral supports. Promote and distribute the IRIS modules in behavior, diversity, and other content. This is a special project that includes training and technical assistance work.

INDICATOR 5: LEAST RESTRICTIVE ENVIRONMENT

Description

This is a performance indicator. It measures the percent of children with IEP's, aged six through twenty-one, served inside the regular class 80 percent or more of the day; inside the regular class less than 40 percent of the day; and in separate schools, residential facilities, or homebound/hospital placement.

Target for 2010–11

- 5A. Seventy-six percent or more of students will be removed from regular class less than twenty-one percent of the day;
- 5B. No more than 9 percent of students will be removed from regular class more than 60 percent of the day; **and**
- 5C. No more than 3.8 percent of students are served in public or private separate schools, residential placements, or homebound/ hospital placements.

Measurement

- A. The number of children with IEPs served inside the regular class 80 percent or more of the day divided by the total number of students aged six through twenty-one with IEPs.
- B. The number of children with IEPs served inside the regular class less than 40 percent of the day divided by the total number of students aged six through twenty-one with IEPs.
- C. The number of children with IEPs served in separate schools, residential facilities, or homebound/hospital placements divided by the total number of students aged six through twenty-one with IEPs.

Results for 2010–11

California did not meet the targets for 5A (only 52.5 percent of students were removed from regular class less than 21 percent of the day) and for 5B (22.4 percent of students were removal greater than 60 percent of the day). However, the target was met for 5C, (3.7 percent of students were served in separate schools and facilities).

Target Met: 5A and 5B: No, 5C: Yes

Summary of Improvement Activities

- Continue implementing the Facilitated Focused Monitoring Project including the “scaling up” of focused monitoring activities that contain targeted technical assistance to LEAs related to Least Restrictive Environment (LRE) and improved academic outcomes.
- Conduct activities related to parent involvement, LRE, Rtl², and secondary transition. The CDE promotes parental involvement by inviting participation in ISES and in the CDE trainings. The CDE supported trainings are posted on the Internet to increase parental access.
- In collaboration with the California Comprehensive Center, the CDE’s Special Education Division (SED) will develop and disseminate training modules on standards-based IEPs to promote and sustain activities that foster special education and general education collaboration.

INDICATOR 7A: PRESCHOOL ASSESSMENT

Description

This is a performance indicator. It measures the percent of preschool children with IEPs demonstrating improvement in Outcome A: Positive social-emotional skills (including social relationships).

Target for 2010–11

1. Of those children who entered the program below age expectations in Outcome A, 72.7 percent substantially increased their rate of growth by the time they turned six years of age or exited the program; and
2. Of children who were functioning within age expectations in Outcome A, 82.1 percent were functioning within age expectations by the time they turned six years of age or exited the program.

Measurement

Outcome A: Positive social-emotional skills (including social relationships):

- A. Number of preschool children who did not improve functioning divided by the number of preschool children with IEPs assessed multiplied by 100.
- B. Number of preschool children who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied by 100.
- C. Number of preschool children who improved functioning to a level nearer to same-aged peers but did not reach it divided by the number of preschool children with IEPs assessed multiplied by 100.
- D. Number of preschool children who improved functioning to reach a level comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied by 100.
- E. Number of preschool children who maintained functioning at a level comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied by 100.

Results for 2010–11

For FFY 2010, for Outcome A, 67.2 percent of students substantially increased their rate of growth by the time they turned six years of age or exited the program, and 77.9 percent of students were functioning within age expectations by the time they turned six years of age or exited the program.

Target Met: No

Summary of Improvement Activities

- Provide ongoing statewide technical assistance and training on Early Child Special Education (ECSE) and assist the CDE in monitoring and activities assessment.
- Continue the Train-the-Trainer training for SELPA teams to build local capacity for support, technical assistance, and mentoring for teachers.
- Develop Web-based modules for training and instruction related to the Desired Results Development Profile (DRDP) instruments and data reporting system to build local capacity for support, technical assistance, and mentoring.

INDICATOR 7B: PRESCHOOL ASSESSMENT

Description

This performance indicator measures the percent of preschool children with IEPs who demonstrate improvement in Outcome B: Acquisition and use of knowledge and skills (including early language/communication and early literacy).

Target for 2010–11

1. Of those children who entered the program below age expectations in Outcome B, 70 percent substantially increased their rate of growth by the time they turned six years of age or exited the program; and
2. Of children who were functioning within age expectations in Outcome B, 82.5 percent were functioning within age expectations by the time they turned six years of age or exited the program.

Measurement

Outcome B: Acquisition and use of knowledge and skills (including early language/communication and early literacy):

- A. Number of preschool children who did not improve functioning divided by the number of preschool children with IEPs assessed multiplied by 100.
- B. Number of preschool children who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied by 100.
- C. Number of preschool children who improved functioning to a level nearer to same-aged peers but did not reach it divided by the of preschool children with IEPs assessed multiplied by 100.
- D. Number of preschool children who improved functioning to reach a level comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied by 100.
- E. Number of preschool children who maintained functioning at a level comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied by 100.

Results for 2010–11

In FFY 2010, for Outcome B, 66.4 percent of students substantially increased their rate of growth by the time they turned six years of age or exited the program; and 76.3 percent of students were functioning within age expectations by the time they turned six years of age or exited the program.

Target Met: No

Summary of Improvement Activities

- Provide ongoing statewide technical assistance and training on ECSE and assist the CDE in monitoring and activities assessment.
- Continue the Train-the-Trainer training for SELPA teams to build local capacity for support, technical assistance, and mentoring for teachers.
- Develop Web-based modules for training and instruction related to the DRDP instruments and data reporting system to build local capacity for support, technical assistance, and mentoring.

INDICATOR 7C: PRESCHOOL ASSESSMENT

Description

This performance indicator measures the percent of preschool children with IEPs who demonstrate improvement in Outcome C: Use of appropriate behaviors to meet their needs (20 U.S.C. 1416[a][3][A]).

Target for 2010–11

1. Of those children who entered the program below age expectations in Outcome C, 75 percent substantially increased their rate of growth by the time they turned six years of age or exited the program; and
2. Of children who were functioning within age expectations in Outcome C, 79 percent were functioning within age expectations by the time they turned six years of age or exited the program.

Measurement

Outcome C: Use of appropriate behaviors to meet their needs:

- A. Number of preschool children who did not improve functioning divided by the number of preschool children with IEPs assessed multiplied by 100.
- B. Number of preschool children who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied by 100.
- C. Number of preschool children who improved functioning to a level nearer to same-aged peers but did not reach it divided by the number of preschool children with IEPs assessed multiplied by 100.
- D. Number of preschool children who improved functioning to reach a level comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied by 100.
- E. Number of preschool children who maintained functioning at a level comparable to same-aged peers divided by the number of preschool children with IEPs assessed multiplied 100.

Results for 2010–11

In FFY 2010, for Outcome C, 69.4 percent of students substantially increased their rate of growth by the time they turned six years of age or exited the program; and 78.4 percent of students were functioning within age expectations by the time they turned six years of age or exited the program.

Target Met: No

Summary of Improvement Activities

- Provide ongoing statewide technical assistance and training on ECSE and assist the CDE in monitoring and activities assessment.
- Continue the Train-the-Trainer training for SELPA teams to build local capacity for support, technical assistance, and mentoring for teachers.
- Develop Web-based modules for training and instruction related to the DRDP instruments and data reporting system to build local capacity for support, technical assistance, and mentoring.

INDICATOR 8: PARENT INVOLVEMENT

Description

This is a performance indicator. It measures the percent of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities (20 U.S.C. 1416[a][3][A]). This data is one question in a survey distributed, collected, and reported by the SELPAs. The measure is the percentage of parents responding “yes” to the question: “Did the school district facilitate parent involvement as a means of improving services and results for your child?”

Target for 2010–11

Ninety percent of parents will report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

Measurement

The number of respondent parents who report schools facilitated parent involvement as a means of improving services and results for children with disabilities divided by the total number of respondent parents of children with disabilities.

Results for 2010–11

The result for Indicator 8 in FFY 2010 was 81.1 percent of parents with a child receiving special education services report that schools facilitated parental involvement.

Target Met: No

Summary of Improvement Activities

- Explore Web-based applications for all components of the monitoring system including parent involvement.
- Data collection will be conducted, independent of the monitoring processes, by parent centers and the CDE staff.
- Develop a Web-based survey process and a statewide data collection through the CASEMIS to capture a universal sample of families to address the Parent Involvement Indicator.

- The SED partners with Parent Training and Information centers, Family Resource Centers, and Family Empowerment Centers to provide statewide training and technical assistance to parents. The SED will maintain a parent “hot line” to provide parents with information and assistance.

INDICATOR 9: DISPROPORTIONALITY OVERALL

Description

This is a compliance indicator. It measures the percent of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification (20 U.S.C. 1416[a][3][C]). Currently, California combines the Alternate Risk Ratio and the e-formula in a race-neutral approach to identify which districts are disproportionate. The first test is to identify those districts that have a disparity that is higher than the annual benchmark. The second test, based on the e-formula, looks at the over- and under-representation of each ethnic group compared to the distribution of those ethnic groups in the general education population.

Target for 2010–11

Zero percent of districts will have disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification.

Measurement

Using the e-formula and the Alternate Risk Ratio, the number of districts with disproportionate representation of racial and ethnic groups in special education and related services were identified as a result of inappropriate identification divided by the number of districts in the state.

Results for 2010–11

The CDE has not been able to complete calculations and notify districts on disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification. Calculation methodology for Indicator 9 (Disproportionate Representation of Racial and Ethnic Groups) was submitted for approval to the Office of Special Education Programs (OSEP) in September 2011. On October 3, 2011, an e-mail was sent to the CDE with the following direction for these indicators:

“If the state has not completed its policies, procedures, or practices review because additional districts were identified when the state applied its revised calculation methodology, the state has the option of submitting these data by the clarification period.”

This e-mail was followed by two conference calls (October 11, 2011, and October 28, 2011) where the calculation methodology was discussed.

Because the calculation methodology for Indicator 9 (Disproportionate Representation of Racial and Ethnic Groups) has not been approved, the CDE has not been able to complete calculations, nor has it been able to notify districts for a special self-review of policies, procedures, and practices. Upon the approval of the calculation methodologies, the CDE will identify districts with possible disproportionate rates and advise them to complete a self-review of policies, procedures, and practices and submit the data to the CDE.

If approved, the methodology for Indicator 9 would use the e-formula and the alternate risk ratio. The e-formula, which falls under the broad category of measures known as **Composition**, has, among others, the following unique properties: (1) It is based on statistical principles of sampling theory; (2) it is sensitive to the size of districts; (3) it allows proportionately more tolerance for disproportionality for smaller districts than larger districts; (4) it has the lowest number of exclusions of cells from disproportionality calculations; (5) the results are not affected by external factors, such as state demographics; (6) it is least affected by small fluctuations of enrollments; and (7) it is applicable to racially homogeneous as well as heterogeneous districts.

The Alternate Risk Ratio, which falls under the broad category of measures known as **Risk**, has the following properties: (1) The results are comparable across the districts in a state; (2) it is sensitive to very high or very low district rate of disability, compared to the state rate.

The final calculation would be the number of districts identified as having disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification, defined using the e-formula and the alternate risk ratio, divided by the number of districts meeting the minimum n-size.

Target Met: N/A

Summary of Improvement Activities

- Work with the Western Regional Resource Center (WRRC) and other federal contractors to identify and disseminate research-based practices related to preventing disproportionate representation and to address the relationship between eligibility and disproportionality of racial and ethnic groups.
- Refine policies, procedures, and practice instruments to assist the LEAs in reviewing policies, procedures, and practices in relation to disproportionality of racial and ethnic groups.

INDICATOR 10: DISPROPORTIONALITY BY DISABILITY

Description

This is a compliance indicator. It measures the percent of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification (20 U.S.C. 1416[a][3][C]). Currently, California combines the Alternate Risk Ratio and the e-formula in a race-neutral approach to identify which districts are disproportionate.

Target for 2010–11

Zero percent of districts will have disproportionate representation of racial and ethnic groups in specific disability categories that are the result of inappropriate identification.

Measurement

Using the e-formula and the Alternate Risk Ratio, the number of districts with disproportionate representation of racial and ethnic groups in specific disability categories was identified as a result of inappropriate identification divided by the number of districts in the State.

Results for 2010–11

The CDE has not been able to complete calculations and notify districts of disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification. Calculation methodology for Indicator 10 (Disproportionate Representation by Disability) was submitted for approval to the Office of Special Education Programs (OSEP) in September 2011. On October 3, 2011, an e-mail was sent to the CDE with the following direction for these indicators:

“If the state has not completed its policies, procedures or practices review because additional districts were identified when the state applied its revised calculation methodology, the state has the option of submitting these data by the clarification period.”

This e-mail was followed by two conference calls (October 11, 2011, and October 28, 2011) where the calculation methodology was discussed.

Because the calculation methodology for Indicator 10 (Disproportionate Representation by Disability) has not been approved, the CDE has not been able to complete

calculations, nor has it been able to notify districts for a special self-review of policies, procedures, and practices. Upon the approval of the calculation methodologies, the

CDE will identify districts with possible disproportionate rates and advise them to complete a self-review of policies, procedures, and practices and submit the data to the CDE.

If approved, the methodology for Indicator 10 would use the e-formula and the alternate risk ratio. The e-formula, which falls under the broad category of measures known as **Composition**, has, among others, the following unique properties: (1) It is based on statistical principles of sampling theory; (2) it is sensitive to the size of districts; (3) it allows proportionately more tolerance for disproportionality for smaller districts than larger districts; (4) it has the lowest number of exclusions of cells from disproportionality calculations; (5) the results are not affected by external factors, such as state demographics; (6) it is least affected by small fluctuations of enrollments; and (7) it is applicable to racially homogeneous as well as heterogeneous districts.

The Alternate Risk Ratio, which falls under the broad category of measures known as **Risk**, has the following properties: (1) The results are comparable across the districts in a state; (2) it is sensitive to very high or very low district rate of disability, compared to the state rate.

The final calculation would be the number of districts disproportionate representation of racial and ethnic groups in specific disability categories that are the result of inappropriate identification, defined using the e-formula and the alternate risk ratio, divided by the number of districts meeting the minimum n-size.

Target Met: N/A

Summary of Improvement Activities

- Refine policies, procedures, and practices guidance to assist the LEAs in reviewing policies, procedures, and practices in relation to disproportionality by disability groups.
- Use refined procedures to identify districts with significant disproportionality and establish plans for supervision and technical assistance.
- Incorporate preliminary self-review and improvement planning modules, based on the National Center for Culturally Responsive Educational Systems, into monitoring software.
- Annually identify districts that are significantly disproportionate using existing instruments and procedures related to disability.

INDICATOR 11: ELIGIBILITY EVALUATION

Description

This is a compliance indicator. It measures the percent of children who were evaluated within 60 days of receiving parental consent for initial evaluation or, if the state establishes a timeframe within which the evaluation must be conducted, within the established timeframe (20 U.S.C. 1416[a][3][B]). These data were calculated using CASEMIS data fields related to parental consent date and initial evaluation date. Determination of eligibility was made using the Plan Type field which includes the type of plan a student has (IEP, Individualized Family Service Plan, Individual Service Plan) if the student is eligible, or “no plan” if the student is determined ineligible. If the parent of a child repeatedly failed or refused to bring the child for the evaluation, or a child enrolled in a school or another public agency after the timeframe for initial evaluations had begun, and prior to a determination by the child’s previous public agency as to whether the child is a child with a disability, then the child was eliminated from both the numerator and the denominator.

Target for 2010–11

Eligibility determinations will be completed within 60 days for 100 percent of children for whom parental consent to evaluate was received.

Measurement

- A. The number of children for whom parental consent to evaluate was received.
- B. The number of children whose evaluations were completed within 60 days (or a state-established time line).

Results for 2010–11

For FFY 2010, 95.8 percent of eligibility determinations were completed within 60 days for children whom parental consent to evaluate was received.

Target Met: No

Summary of Improvement Activities

- Explore Web-based applications for all components of the monitoring system including 60-day evaluation time line.

- Analyze data from compliance complaints and all monitoring activities to determine areas of need for technical assistance, in addition to correction of noncompliance.
- Prepare and install initial evaluation compliance reports into the CASEMIS software to enable districts and SELPAs to self-monitor.
- Prepare and send noncompliance-finding letters based on the CASEMIS data to LEAs to reinforce the importance of correcting all noncompliant findings resulting from verification and self-review monitoring.

INDICATOR 12: PART C TO PART B TRANSITION

Description

This is a compliance indicator. It measures the percent of children referred by Part C prior to age three, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays (20 U.S.C. 1416[a][3][B]). These data were collected through the CASEMIS and data from the Department of Developmental Services (DDS).

Target for 2010–11

One hundred percent of children referred by Part C of IDEA prior to age three and who are found eligible for Part B of IDEA will have an IEP developed and implemented by their third birthday.

Measurement

- A. Number of children who have been served in Part C and referred to Part B (LEA notified pursuant to IDEA section 637[a][9][A]) for Part B eligibility determination).
- B. Number of those referred determined to be **not** eligible and whose eligibilities were determined prior to their third birthdays.
- C. Number of those found eligible who have an IEP developed and implemented by their third birthdays.
- D. Number of children for where parent refusal to provide consent caused delays in evaluation or initial services.

Results for 2010-11

For FFY 2010, 95.3 percent of children referred by Part C of IDEA prior to age three and who were found eligible for Part B of IDEA had an IEP developed and implemented by their third birthday.

Target Met: No

Summary of Improvement Activities

- Meet annually with SELPAs, LEAs, and Regional Centers to review data and plan for corrective action plans and technical assistance activities related to transition from Part C to Part B, based on APR data.

- Convene ISES stakeholder group to obtain input on aspects of Part C to Part B transition (e.g., moving from family focus to child focus).
- Revise the CASEMIS to include separate referral and evaluation dates for Part B and Part C in accordance to the IDEA.
- Participate in the OSEP National Early Childhood Conference to stay abreast of national trends, research on transition from Part C to Part B, and new OSEP requirements.
- Participate in a joint transition project with the DDS (Part C lead agency), with the assistance of the WRRC.

INDICATOR 13: SECONDARY TRANSITION GOALS AND SERVICES

Description

This is a compliance indicator. It measures the percent of youth aged sixteen and above with IEPs that include appropriate measurable postsecondary goals that are annually updated. It is based upon an age appropriate transition assessment and transition services, including courses of study, which will reasonably enable the student to meet those postsecondary and annual IEP goals. . There also must be evidence that the student was invited to the IEP team meeting where transition services are to be discussed and evidence that, if appropriate, a representative of any participating agency was invited to the IEP team meeting with the prior consent of the parent or student who has reached the age of majority (20 U.S.C. 1416[a][3][B]).

Target for 2010–11

One hundred percent of youth aged sixteen and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment and transition services.

Measurement

Number of youth with IEPs aged sixteen and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment and transition services divided by the number of youth with an IEP age sixteen and above.

Results for 2010–11

In FFY 2010, 27.2 percent of youth aged sixteen and above had an IEP that included appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment and transition services.

Target Met: No

Summary of Improvement Activities

- Use transition data collected through state-funded WorkAbility I grant procedures to ensure programs include the provision of transition services.
- Provide CASEMIS training and ongoing technical assistance to ensure reliable and accurate submission of data related to this indicator.

- Disseminate and provide training based upon *Transition to Adult Living: A guide for Secondary Education*, a comprehensive handbook written for students, parents, and teachers offering practical guidance and resources to support the transition efforts for students with disabilities as they move into the world of adulthood and/or independent living.
- Provide regionalized training and technical assistance regarding elements of transition services, goals, and objectives.

INDICATOR 14: POST-SCHOOL MEASUREMENT

Description

This is a performance indicator. It measures the percent of youth who are no longer in secondary school that had IEPs in effect at the time they left school, and were:

- A. Enrolled in higher education within one year of leaving high school;
- B. Enrolled in higher education or competitively employed within one year of leaving high school; or
- C. Enrolled in higher education or in some other postsecondary education or training program, or competitively employed or in some other employment within one year of leaving high school (20 U.S.C. 1416[a][3][B]). Data are collected and reported by SELPAs using the June 2010 CASEMIS submission.

Target for 2010–11

Sixty-nine percent of youth who had IEPs who are no longer in secondary school will be reported to have been competitively employed, enrolled in some type of postsecondary school, or both, within one year of leaving high school.

Measurement

- A. The number of youth who are no longer in secondary school, had IEPs in effect when they left school and were enrolled in higher education within one year of leaving high school divided by the number of respondent youth who are no longer in secondary school.
- B. The number of youth who are no longer in secondary school, had IEPs in effect when they left school, and were enrolled in higher education or competitively employed within one year of leaving high school divided by the number of respondent youth who are no longer in secondary school.
- C. The number of youth who are no longer in secondary school, had IEPs in effect when they left school, and were enrolled in higher education or in some other postsecondary education or training program, or competitively employed or in some other employment divided by the number of respondent youth who are no longer in secondary school.

Results for 2010–11

The number of students with an IEP who are no longer in secondary school and who have been competitively employed, enrolled in some type of postsecondary school, or both, within one year of leaving high school for 2010–11 was 74.4 percent.

Target Met: Yes.

Summary of Improvement Activities

- Provide CASEMIS training for SELPAs and ongoing technical assistance to ensure reliable and accurate submission of data.
- Work with national and state experts on research and data approaches to address post-school outcome data collection.
- Work with universities, colleges, and junior colleges to explain the importance of post -secondary education.
- Work with WorkAbility and other agencies and programs on the importance of employing people with disabilities at minimum wage or more.
- Use transition data in the state-funded WorkAbility I grant procedures to ensure programs include the provision of transition services.

INDICATOR 15: GENERAL SUPERVISION

Description

This is a compliance indicator. The general supervision system (including monitoring, complaints, hearings, etc.) identifies and corrects noncompliance as soon as possible, but in no case later than one year from identification (20 U.S.C. 1416 [a][3][B]). The State also verified that each LEA with noncompliance corrected in FFY 2008 and 2009 had: (a) corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the LEA, consistent with OSEP Memorandum 09-02, dated October 17, 2008 (OSEP Memo 09-02); and (b) ensured that a more stringent level of follow-up review and reporting is required of districts that have previously corrected noncompliance related to this indicator. This is to ensure that LEAs are correctly implementing the specific regulatory requirements at the 100 percent level.

Target for 2010–11

One hundred percent of noncompliance will be corrected within one year of identification.

Measurement

- A. Percent of noncompliance corrected within one year of identification
- B. Number of findings of noncompliance
- C. Number of corrections completed as soon as possible but in no case later than one year from identification
- D. Percent equals (B) divided by (A) multiplied by 100

Results for 2010–11

In FFY 2010, 99.9 percent of noncompliance was corrected within one year of identification.

Target Met: No

Summary of Improvement Activities

- Develop and maintain the IDEA 2004 information Web page with links to important references and resources on the reauthorization of the IDEA. This activity constitutes public reporting, data awareness, and data utilized to reflect

upon practice efforts as part of general supervision obligations under of the IDEA 2004. Provide staff training for corrective actions, time lines, and sanctions. Incorporate notice of potential sanctions in monitoring correspondence.

- Recruit candidates and hold civil service examinations to fill vacancies with new staff, retired annuitants, or visiting educators. This activity is intended to ensure that the CDE maintains an adequate number of qualified staff to support the work and activities (monitoring and enforcement as part of general supervision) of the SED.

INDICATOR 16: WRITTEN COMPLAINTS RESOLVED WITHIN 60 DAYS

Description

This is a compliance indicator. It measures the percent of signed written complaints with reports issued that were resolved within a 60-day time line or a time line extended for exceptional circumstances with respect to a particular complaint, or because the parent (or individual or organization) and the public agency agreed to extend the time to engage in mediation or other alternative means of dispute resolution(20 U.S.C. 1416[a][3][B]).

Target for 2010–11

One hundred percent of written complaints resolved within 60-day time line, or a time line extended for exceptional circumstances with respect to a particular complaint.

Measurement

Percent equals $[(1.1(b) + 1.1(c)) \text{ divided by } 1.1]$ multiplied by 100

- (1) Signed, written complaints total
 - (1.1) Complaints with reports issued
 - (a) Reports with findings
 - (b) Reports within time line
 - (c) Reports within extended time line
 - (1.2) Complaints withdrawn or dismissed
 - (1.3) Complaints pending
 - (a) Complaint pending a due process hearing

Results for 2010–11

For FFY 2010, 100 percent of signed written complaints were resolved within a 60-day time line or a time line extended for exceptional circumstances.

Target Met: Yes

Summary of Improvement Activities

- Develop an integrated database to proactively identify upcoming corrective actions across all components of the monitoring system. This activity supports the continued effort to calculate and provide valid and reliable data for monitoring and enforcement as part of general supervision.

- Continue to cross-train for complaint investigations and other monitoring activities to focus on interrater reliability and consistency. This activity continues to improve the expertise of the CDE staff in monitoring and enforcement as part of general supervision.
- Participate in legal rounds with the Legal Audits and Compliance Division on legal issues related to special education, complaints, and noncompliance.

INDICATOR 17: DUE PROCESS HEARINGS

Description

This is a compliance indicator. It measures the percent of due process hearing requests that were adjudicated within the 45-day time line or a time line that is properly extended by the hearing officer at the request of either party or, in the case of an expedited hearing, within the required time lines (20 U.S.C. 1416[a][3][B]).

Target for 2010–11

One hundred percent of due process hearing requests will be fully adjudicated within the 45-day time line or a time line that is properly extended by the hearing officer at the request of either party.

Measurement

Percent equals [(3.2(a) divided by 3.2(b)) divided by 3.2] multiplied by 100

- (3) Total number of due process complaints filed
 - (3.1) Resolution meetings
 - (a) Written settlement agreements
 - (3.2) Hearings fully adjudicated
 - (a) Decisions with time line (including expedited)
 - (b) Decisions within extended time line
 - (3.3) Due process complaints pending
 - (3.4) Due process complaints withdrawn or dismissed (including those resolved without hearing)

Results for 2010–11

For FFY 2010, 100 percent of due process hearing requests were fully adjudicated within the 45-day time line or a time line that was properly extended by the hearing officer at the request of either party.

Target Met: Yes.

Summary of Improvement Activities

- Obtain and maintain data records on resolution sessions and settlement agreements.
- Obtain data from school districts with due process filings during 2009–10.
- The Office of Administrative Hearings (OAH) will continue to consult with its advisory group in areas such as revisions to the OAH Web site, forms, documents, scheduling procedures, staff training, training materials, parent procedure manual, consumer brochure, outreach to families and students, and proposed revisions to laws and rules.
- Conduct records review at the OAH as part of the CDE's efforts to implement the recommendations of the Bureau of State Audits (BSA) report of 2008–09 to determine how it is handling oversight of the special education hearings and mediation process. This review is part of ongoing monitoring activity, as a result of the BSA report, and it constitutes the final review.

INDICATOR 18: HEARING REQUESTS RESOLVED THROUGH SETTLEMENT

Description

This is a performance indicator. It measures the percent of hearing requests that went to resolution sessions that were resolved through resolution session settlement agreements (20 U.S.C. 1416[a][3][B]).

Target for 2010–11

Sixty-seven percent of hearing requests that went to resolution sessions were resolved through resolution session settlement agreements.

Measurement

Percent equals (3.1(a) divided by 3.1) multiplied by 100

- (3.1) Resolution meetings
 - (a) Written settlement agreements
- (3.2) Hearings fully adjudicated
 - (a) Decisions with time line (including expedited)
 - (b) Decisions within extended time line
- (3.3) Due process complaints pending
- (3.4) Due process complaints withdrawn or dismissed (including resolved without hearing)

Results for 2010–11

Twenty-seven percent of hearing requests that went to resolution meetings were resolved through resolution sessions settlement agreements.

Target Met: No

Summary of Improvement Activities

- Obtain data on resolution sessions and settlement agreements deriving solely from those sessions directly from school districts with due process filings during 2008–09.

- The OAH will continue to consult with its advisory group in areas such as revisions to the OAH Web site, forms, documents, scheduling procedures, staff training, training materials, parent procedure manual, consumer brochure, outreach to families and students, and proposed revisions to laws and rules.
- Conduct records review at the OAH, as part of the CDE's efforts to implement recommendations of the BSA report of 2008–09, on how it is handling oversight of the special education hearings and mediation process. This review is part of ongoing monitoring activity, as a result of the BSA report, and constitutes the final review.

INDICATOR 19: MEDITATION

Description

This is a performance indicator. It measures the percent of mediations held that resulted in mediation agreements (20 U.S.C. 1416[a][3][B]).

Target for 2010–11

At least 80 percent of mediation conferences will result in mediation agreements.

Measurement

Percent equals [(2.1(a)(i) + 2.1(b)(i)) divided by 2.1] multiplied by 100

- (2) Total number of mediation request received through all dispute resolution processes
 - (2.1) Mediations held
 - (a) Mediations held related to due process complaints
 - (i) Mediation agreements related to due process complaints
 - (b) Mediations held not related to due process complaints
 - (i) Mediation agreements not related to due process complaints
 - (2.2) Mediations pending
 - (2.3) Mediations withdrawn or not held

Results for 2010-11

For FFY 2010, 67.2 percent of mediation conferences resulted in mediation agreements.

Target Met: No

Summary of Improvement Activities

- Implement standards for the qualifications of the OAH/contractor staff functioning as mediators.
- Implement standards for the supervision of the OAH/contractor staff functioning as mediators.

- The OAH will continue to consult with its advisory group in areas such as revisions to the OAH Web site, forms, documents, scheduling procedures, staff training, training materials, parent procedure manual, consumer brochure, outreach to families and students, and proposed revisions to laws and rules.
- Conduct training sessions for staff and LEAs on dispute resolution and mediations on an ongoing basis.
- Utilization of a monitoring system and letters to districts, as part of the ongoing required training agenda for staff involved in due process efforts at the OAH.

INDICATOR 20: TIMELY AND ACCURATE REPORTS

Description

This is a compliance indicator. It measures the percent of state-reported data (618 data, SPP, and APR) submitted to the U.S. Department of Education, which are timely and accurate (20 U.S.C. 1416[a][3][B]).

Target for 2010–11

- 20A. One hundred percent of state-reported data, including 618 data and APRs, are submitted on time and are accurate.
- 20B. One hundred percent of SELPAs will submit accurate data to the CDE in a timely manner.

Measurement

State-reported data, including 618 data, SPR, and APR, which are:

- Submitted on or before due dates (February 1 for child count, including race and ethnicity, and placement; November 2 for exiting, discipline, personnel, and dispute resolution; and February 1 for APR and assessment); and
- Accurate, including covering the correct year and following the correct measurement.

Results for 2010–11

The overall percentage for Indicator 20A is 97.83 percent of state-reported data, including 618 data and APRs, were submitted on time and were accurate.

The percentage for Indicator 20B is 98.4 percent of SELPAs submitted and certified accurate data in a timely manner.

Target Met: No

Summary of Improvement Activities

Modify validation codes and develop prototype reports. This activity supports general IDEA 2004 requirements.

- Provide statewide CASEMIS training. This activity supports data collection through the CASEMIS and provides training and technical assistance.
- Provide ongoing technical assistance to ensure reliable and accurate submission of data. This activity supports data collection through the CASEMIS and provides training and technical assistance.
- Improve and expand anomaly analysis and reporting.
- Participation, development, implementation, and monitoring of highly qualified teachers, under the ESEA and IDEA 2004, to reflect practice and compliance.

RECOMMENDATION

Approval Approval with conditions Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Section 131(c)(1) of the Carl D. Perkins Career and Technical Education Improvement Act of 2006 (Public Law 109-270) (Perkins Act) requires local educational agencies (LEAs) whose allocations are less than \$15,000 to enter into a consortium with other LEAs for the purpose of meeting the \$15,000 minimum grant requirement. Section 131(c)(2) of the Perkins Act permits states to waive the consortium agreement if the LEA is in a rural, sparsely populated area and is unable to join a consortium.

The State Board of Education (SBE) Waiver Policy #01-01: Carl D. Perkins Career and Technology Education Improvement Act: Consortium Requirement for Minimum Allocation, available at <http://www.cde.ca.gov/re/lr/wr/documents/perkinspolicyr.doc>, has criteria defining rural that are specifically tied to the National Center for Education Statistics (NCES) Locale Codes, numbers 23, 31, 32, 33, 41, 42, or 43.

The SBE has approved all waivers of this statute that have been presented to it to date.

SUMMARY OF KEY ISSUES

The criterion for qualifying for this waiver is demonstration that the LEAs cannot form or join a consortium that handles the Perkins funds. There are no other districts in these local areas of these districts willing to join in a consortium. Districts are located in various rural counties, and have student populations ranging from 584 to 1,100. Districts are seeking waivers to function independently in order to meet the needs of the students in the district. The Department recommends approval of these waivers.

Authority for Waiver: Federal Waiver Authority (Public Law 109-270) Section 131(c)(2)

Period of request: July 1, 2011, to June 30, 2015

Local board approval date(s): Various

FISCAL ANALYSIS (AS APPROPRIATE)

Approval will enable these districts to receive an annual Perkins Act allocation that is listed on Attachment 1. The waivers have no significant effect on the distribution of Perkins Act funds statewide.

Carl D. Perkins Career and Technology Education Improvement Act: Consortium Requirement for Minimum Allocation

REFERENCES

U.S. Code, Section 2351(c)(1), or [P.L.109-270 Section 131(c)(1)] Federal Carl D. Perkins Act; and
 U.S. Code, Section 2351(c)(2), or [P.L. 109-270 Section 131(c)(2)] Federal Carl D. Perkins Act.

HISTORICAL NOTES

Created January 2001, revised November, 2006 and March, 2009

U.S. Code, Section 2351(c)(1) and (2) or [P.L. 109-270 Section 131(c)(1) and (2)]

(c) Minimum Allocation

(1) In general

Except as provided in Paragraph (2), a local educational agency shall not receive an allocation under subsection (a) unless the amount allocated to such agency under subsection (a) is greater than \$15,000. A local educational agency may enter into a consortium with other local educational agencies for the purposes of meeting the minimum allocation requirement of this paragraph.

(2) Waiver

The eligible agency shall waive the application of paragraph (1) in any case in which the local educational agency --

- (A)(i) is located in a rural, sparsely populated area, or
- (ii) is a public charter school operating a secondary school career and technical educational program; and
- (B) demonstrates that the local educational agency is unable to enter into a consortium for purposes of providing activities under this part (20 U.S.C.A. § 2351 et seq.)

Background

Participating local education agencies (LEAs) may enter into a consortium with other agencies for the purposes of meeting the minimum allocation requirement in the above paragraph. However, in some remote or sparsely populated areas of the state, the consortium plan is not possible or reasonable. In these cases, the State Board approves multi-year waivers of the consortium requirement in keeping with (and subject to the conditions set forth in) the evaluation guidelines below.

The California Department of Education (CDE) Waiver Office has processed many waivers in the past, all of which were approved by the State Board of Education. CDE staff ensures that only waiver requests consistent with the evaluation guidelines are placed on the State Board's consent calendar for waivers.

California State Board of Education

 Sacramento, California 95814
 (916) 319-0827
 (916) 319-0176 (fax)

Evaluation Guidelines

The LEA is:

- A district or agency will be considered a rural, sparsely populated area if all high schools in the LEA are located in one of the following locale codes (as defined by National Center for Education Statistics (NCES) Locale Codes 31, 32, 33, 41, 42, and 43,
- A district or agency in a rural code 23 may be considered rural if the LEA meets the following criteria
 - located more than five miles from a city with a population of 85,000 or less, and
 - located in a suburb with a population of 7,000 or less, and
 - LEA has a total enrollment of less than 1,000 students district wide, OR
- A public charter school operating secondary vocational and technical education programs (as evidenced by a State Board of Education issued charter number), AND

The LEA:

- Demonstrates that it is unable to enter into a consortium for purposes of providing activities under this section (as evidenced by a description from the LEA or CDE of efforts to enter into a consortium).

These specific waivers shall be granted for no more than four consecutive years as a district's annual Perkins allocation is expected to be less than the \$15,000 minimum grant amount during each year of the approved waiver. A district's eligibility under the above criteria for the consortium waiver is also expected to remain unchanged for this same time period.

For Information Only

Under SPECIAL RULE, each eligible agency distributing funds under this section shall treat a secondary school funded by the Bureau of Indian Affairs within the State as if such school were a local educational agency within the State for the purpose of receiving a distribution under this section.

RECOMMENDATION

Approval Approval with conditions Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved all waiver requests since the deadline for submission of the State Testing Apportionment Information Reports was added to the *California Code of Regulations (CCR)*, and the SBE Waiver Policy 08-#: State Testing Apportionment Informational Report Deadline (available at <http://www.cde.ca.gov/re/lr/wr/documents/statetesting.doc>).

Both of the local educational agencies (LEAs) meet the criteria for the SBE Streamlined Waiver Policy (available at <http://www.cde.ca.gov/re/lr/wr/documents/sbestreamlined.doc>), achieving a Growth Academic Performance Index (API) score of 800 or higher in the current cycle. See the last column on Attachment 1.

SUMMARY OF KEY ISSUES

The regulations for the State Testing Apportionment Information Report were amended in 2005 to include an annual deadline of December 31 for the return of the Apportionment Information Report for prior year testing for the California English Language Development Test (CELDT). The California Department of Education (CDE) sent letters in September 2005, announcing the new deadline in regulations to every LEA. This deadline was enacted to speed the process of final reimbursement of testing costs to the LEAs.

The LEAs filing for this waiver request missed the 2009–10 fiscal year deadline for requesting reimbursement. One LEA reported that due to workforce reductions, mail had been misrouted and the return form was not noted. The second LEA reported that the deadline was missed due to lack of oversight. CDE verified that these LEAs needed the

SUMMARY OF KEY ISSUES

waiver and each LEA had submitted its report after the deadline.

These LEAs are now all aware of this important change in the timeline and understand that they must submit their reports to the Assessment Development and Administration Division for reimbursement. Therefore, the CDE recommends the approval of these waiver requests as required by regulation prior to final reimbursement.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

WAIVER GUIDELINES

DATE

State Testing Apportionment Informational Report Deadline

November 2008

REFERENCES

Authority: *Education Code (EC)* Section 33050, 862 (c)(2)(A)

Purpose: To waive portions of *California Code of Regulations*, Title 5 sections 862(c)(2)(A), 1225(b)(3)(A) and 11517.5(b)(1)(A).

HISTORICAL NOTES

None.

Background

The assessment apportionment funds for the Standardized Testing and Reporting (STAR) Program, California High School Exit Examination (CAHSEE), and California English Language Development Test (CELDT) are unrestricted funds which are used, among other things, to reimburse local educational agencies (LEAs) for local costs associated with the assessments. In order to be reimbursed for these expenses, the LEA must file a report with the California Department of Education (CDE).

All three regulations for the State Testing Apportionment Information Report were amended in 2005 to include an annual deadline of December 31 of each year (highlighted below) for the return of the Apportionment Information Report for prior year testing for STAR, CAHSEE, and CELDT to receive reimbursement.

If an LEA misses this deadline, they need to complete the entire local process to request a waiver of this deadline, and the State Board of Education must approve the waiver before the LEA can be reimbursed for the local costs associated with the assessments.

Statutory Provisions:

STAR program regulation CCR, Title 5 (5 CCR), Section 862 (c)(2)(A) requires that districts must send reports of the number of tests given to CDE by December 31; however in those same regulations, 5 CCR 862(c)(b)(2) allows a waiver of that deadline.

California State Board of Education

1430 N Street, Room 5111
Sacramento, California 95814
(916) 319-0827
(916) 319-0176 (fax)

CAHSEE program regulation, 5 CCR 1225(b)(2)(A) requires that districts must send reports of the number of tests given to CDE by December 31; however, in those same regulations, 5CCR 862(c)(b)(2) allows a waiver of that deadline.

CELDT program regulation 5 CCR Section 11517.5(b)(1)(A) requires that districts must send reports of the number of tests given to CDE by December 31; however in those same regulations, 5 CCR 862(c)(b)(2) allows a waiver of that deadline.

The CDE Waiver Office has processed many waivers in the past, all of which were approved by the State Board of Education. CDE staff ensures that only waiver requests consistent with the evaluation guidelines are placed on the State Board's consent calendar for waivers.

Evaluation Guidelines

The LEA:

- Will describe the circumstances that caused them to miss the apportionment deadline(s).
- Indicate that they are now all aware of this important change in the timeline and must submit their reports to the Standard and Assessment Division Office for reimbursement.
- Will put into place guidelines for all currently employed staff and new staff to follow so that this deadline will not be missed in the future.

Title 5, Section 11517.5 of the California Code of Regulations specifies that each local educational agency (LEA) shall receive an Apportionment Information Report that shall include the number of pupils assessed with the CELDT as indicated by the number of answer documents submitted to and scored by the test contractor for each administration (July 1 through June 30). The superintendent of each school district must certify the accuracy of the apportionment information and submit the certified report to the California Department of Education, postmarked by December 31. If postmarked after December 31, the Apportionment Information Report must be accompanied by the State Testing Apportionment Information Report Waiver request as provided by California Education Code (EC) Section 33050. The amount of funding to be apportioned to the school district for the tests shall be calculated by multiplying the amount per administration established by the State Board of Education (SBE) to enable school districts to meet the requirement of EC Section 60851 by the number of pupils in the school district assessed with the CELDT during the previous fiscal year. Apportionment payments will be processed upon receipt of certified reports. Return the form by U.S. mail to the address above. Faxed reports will not be processed for payment. Keep a copy for your records.

	<i>Annual Assessment July 1 - October 31, 2009</i>	<i>Initial Assessment Within 30 Days of Enrollment</i>	Total Tested	Apportionment Amount
Number of Pupils Tested July 1, 2009 – June 30, 2010		74	264	\$1,320.00

Local educational agency: Ocean View School District		Contact name and recipient of approval/denial notice: Claudine Dumais, Ed.D.	Contact person's e-mail address: cdumais@ovsd.org
Address: 17200 Pinehurst Lane	(City) Huntington Beach, CA	(ZIP) 92647	Phone (and extension, if necessary): (714) 847-2551 Ext. 1307 Fax number: (714) 848-3641
Period of request: From 12/31/10 to 8/31/11 1/12/2012	Local board approval date: (Required) August 16, 2011	Date of public hearing: (Required) August 16, 2011	

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the *California Code of Regulations (CCR)* section(s) to be waived (check one):
 STAR – CCR, Title 5, Section 862(c)(2)(A) ...postmarked by December 31...
 CAHSEE – CCR, Title 5, Section 1225(b)(2)(A) ...postmarked by December 31...
 CELDT – CCR, Title 5, Section 11517.5(b)(1)(A) ...postmarked by December 31...

2. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below. This requirement can be achieved with a telephone call. It is vital to complete this section as not consulting the bargaining units is a reason for denial of a general waiver request.

 Bargaining unit(s) consulted on date(s): July 29, 2011
 Name of bargaining unit and representative(s) consulted: Marcy Drum, Ocean View Teachers Association jb 9/16/11
 The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)

3. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

 How was the required public hearing advertised?
 Notice in a newspaper Notice posted at each school Other: (*Please specify*) District website/District Office

4. Describe briefly the circumstances that caused you to miss the apportionment deadline(s). (If more space is needed, please attach additional pages.) The deadline was missed due to an oversight in submitting the report in December 2010.

5. Describe guidelines that have been put into place for staff so that this deadline will not be missed in the future. The report deadline has now been included in the master calendar of important due dates.

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education recommends approval that the grade span waiver for the Tehama County Department of Education be limited to grades five through eight and the co-location waiver for the Sacramento City Unified School District Success Academy community day school (CDS) to only apply to the same site as the Accelerated Academy, a specialized satellite campus of Hiram Johnson High School.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved previous waiver requests to allow a county office of education to operate a CDS to serve students in middle grades even though it does not operate a traditional middle school. The SBE has also approved several similar requests in the past to allow the co-location of a CDS with another school when the CDS could not be located separately and the district has been able to provide for the separation of students from the other schools.

SUMMARY OF KEY ISSUES

The California *Education Code (EC)* sections 48660 and 48916.1(d) provide, respectively, for the allowable grade spans of CDSs and educational services for expelled students. The *EC* Section 48916.1(a) requires school districts to ensure that each of their expelled students be provided an educational program during the period of expulsion. The *EC* Section 48661(a) states that a CDS shall not be situated on the same site as a comprehensive elementary, middle or high school, continuation high

SUMMARY OF KEY ISSUES (Cont.)

school, or an opportunity school.

The law providing for the allowable grade spans for CDSs *EC* Section 48660 allows for the operation of a CDS serving the same or lesser grade span as any middle school operated by the district. County offices of education do not operate traditional middle schools. However, the school districts served by the county office do. The Tehama County Department of Education is asking to be allowed to operate a CDS with the same middle grades configuration (grades five through eight) as used by its feeder school districts.

Current financial difficulties may preclude a district from locating its CDS at a fully separate site. When co-location with another school is deemed necessary, sites are selected as providing the greatest possible separation from traditional school classrooms and students. The *EC* Section 48661(a)(1) authorizes a small school district with 2,500 or fewer students to waive the separation requirement based on an annual certification by at least two-thirds of the local board that separate alternative facilities are not available.

This waiver, if approved, would allow the Sacramento City Unified School District the same local determination option as a smaller district. Separation of the students on this shared campus is then achieved through combinations of physical barriers, scheduling of arrival, departure, and break times, and use of campus monitors.

The Success Academy CDS and the Accelerated Academy, a specialized satellite campus of Hiram Johnson High School, have been operating on the same campus with no negative interactions between students of the same school. This successful separation has been achieved through different start, end, lunch, and recess schedules, different access points for the campus, a large space between the schools, separate restrooms, and supervision by three hall monitors and a school resource officer in addition to school support staff and administrators.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of Waiver approval.

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Date the committee/council reviewed the waiver request: School Advisory Committee Reviewed and Unanimously Approved: 8/31/11 Committee members : Dennis Lomack, Lisa King, Darryl Jenkins, Terri Guerin, Tom Ryan,

Were there any objection(s)? No x Yes (If there were objections please specify)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

48661 (a) A community day school shall not be situated on the same site as an elementary, middle, junior high, comprehensive senior high, opportunity, or continuation school, except as follows:

(1) When the governing board of a school district with ~~2,500 or fewer units of average daily attendance reported for the most recent second principal apportionment~~ certifies by a two-thirds vote of its membership that satisfactory alternative facilities are not available for a community day school.

(b) A certification made pursuant to this section is valid for not more than one school year and may be renewed by a subsequent two-thirds vote of the governing board.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Due to budget constraints and lack of school sites within SCUSD to provide Success Academy and Sacramento Accelerated Academy separate campuses. The shared site proposal continues to be economically feasible and the two programs successfully share the common site without interacting with each other. The students from both programs have access to district support services located on the campus as well as services located at the district office.

There is adequate space to house both schools on said facility. The two schools will be divided into two separate and distinct locations on the campus separated by a large walkway and common areas. The two schools have different start and end times as well as separate lunch and recess schedules. Student entrances and exits are on opposite sides of the campus and are closely monitored by staff.

8. Demographic Information:
The Sacramento City Unified School District has a student population of 43,000 students and is located in an urban area in Sacramento County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

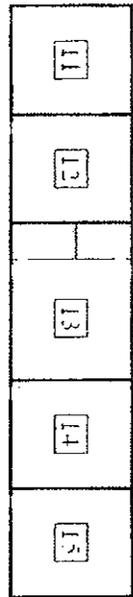

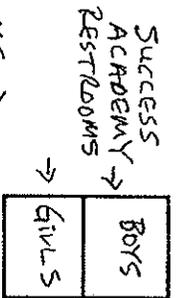

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).
48660. The governing board of a school district may establish one or more community day schools for pupils who meet one or more of the conditions described in subdivision (b) of Section 48662. A community day school may serve pupils in any of kindergarten and grades 1 to 6, inclusive, or any of grades 7 to 12, inclusive, or the same or lesser included range of grades as may be found in any individual middle or junior high school operated by the district. If a school district is organized as a district that serves kindergarten and grades 1 to 8, inclusive, but no higher grades, the governing board of the school district may establish a community day school for any (of) kindergarten and grades 1 to 8, inclusive, upon a two-thirds vote of the board. It is the intent of the Legislature, that to the extent possible, the governing board of a school district operating a community day school for any of kindergarten and grades 1 to 8, inclusive, separate younger pupils from older pupils within that community day school. Except as provided in Section 47634, a charter school may not receive funding as a community day school unless it meets all the conditions of apportionment set forth in this article.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

We do not expect to have more than six students in the community day school at one time. In that number of students, we may only have elementary or may only have secondary, or may have both. In these fiscal times it does not make sense to have two schools when one might not be needed. At any time a teacher feels stretched by the grade span, age appropriateness, or grade level appropriateness, a subject area teaching mentor will be assigned to support the community day school teacher.

8. Demographic Information:
 The Tehama County Department of Education has a student population of 584 and is located in a rural area in Tehama County

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
 (If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
 (If yes, please attach explanation or copy of CPM finding)

RECOMMENDATION

Approval Approval with conditions Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The California State Board of Education (SBE) has approved numerous similar waiver requests during the past three years—the most recent for the Lemoore Union High School District, in Kings County, at the July 14, 2011, SBE meeting.

SUMMARY OF KEY ISSUES

Approval of this waiver request would eliminate the election requirement for approval of trustee areas and a by-trustee-area method of election for future governing board elections in the fourteen listed school districts. Voters in the districts will continue to elect all board members—however, should the waiver be approved, all board members will be elected by trustee areas, beginning with the next regular board elections.

The county committee on school district organization (county committee) has the authority to approve or disapprove the adoption of trustee areas and methods of

SUMMARY OF KEY ISSUES (cont.)

election for school district governing board elections. Pursuant to California *Education Code (EC)* Section 5020, county committee approval of trustee areas and methods of elections constitutes an order of election; thus, voters in the district have final approval over these changes.

A number of districts in California are facing existing or potential litigation under the California Voting Rights Act of 2001 over their at-large election methods. To help protect themselves from potential litigation, the fourteen school districts are taking action to establish new trustee areas and adopt by-trustee-area methods of election for the governing boards. In order to establish these trustee areas and the methods of election as expeditiously as possible, the districts are requesting that the SBE waive the requirement that the trustee areas and the election methods be approved at district-wide elections.

These waiver requests have been reviewed by California Department of Education (CDE) staff and a determination has been made that: (1) the waivers were initiated by resolutions of the governing boards; and, (2) there was no significant public opposition to the waivers at the public hearings held by the governing boards.

Only the election to establish trustee areas and election method will be eliminated by approval of the waiver request—voters in the school districts will continue to elect all governing board members. Moreover, approval of the waivers will not eliminate any existing legal rights of currently seated board members.

The CDE finds that none of the grounds specified in *EC* Section 33051, which authorize denial of a waiver, exist. The CDE recommends that the SBE approve the requests by the 14 school districts to waive *EC* Section 5020 in its entirety and portions of *EC* sections 5019, 5021, and 5030.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in *EC* 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Authority of Waiver: *EC* Section 33050-33053

FISCAL ANALYSIS (AS APPROPRIATE)

Approval of the waiver requests will not have negative fiscal effects on any local or state agency.

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST

GW-1 (Rev. 10-2-09) <http://www.cde.ca.gov/re/lr/wr/>

First Time Waiver: X

Renewal Waiver:

Send Original plus one copy to:
Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send Electronic copy in **Word** and
back-up material to: waiver@cde.ca.gov

CD CODE						
5	4	7	1	8	3	7

Local educational agency: BURTON (ELEMENTARY) SCHOOL DISTRICT			Contact name and Title: GARY MEKEEL, SUPERINTENDENT			Contact person's e-mail address: GMEKEEL@BURTONS CHOOLS.ORG		
Address:		(City)	(State)	(ZIP)	Phone (and extension, if necessary): 559/781-8020			
264 N. WESTWOOD ST.		PORTERVILLE	CA	93257	Fax Number: 559/781-1403			
Period of request: (month/day/year)		Local board approval date: (Required)			Date of public hearing: (Required)			
From: 10/1/2011 To: 9/31/2013		JUNE 7, 2010 AND AUGUST 15, 2011			JUNE 7, 2010; AUGUST 1, 2011 & AUGUST 15, 2011			

Jb 10/17/11 LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): _____ Circle One: EC or *CCR*
5020, portions of 5019, 5021, and 5030 bj 10/17/11
Topic of the waiver: **WAIVER OF ELECTORAL REQUIREMENTS OF EDUCATION CODE §§ 5019, 5020 AND 5030 TO ESTABLISH TRUSTEE AREAS AND ADOPT A BY-TRUSTEE AREA ELECTORAL PROCESS**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: **N/A** and date of SBE Approval **N/A**
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? X No **X Yes** If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): **CALIFORNIA TEACHERS ASSOCIATION 4/30/10
CALIFORNIA SCHOOL EMPLOYEES ASSOCIATION 4/30/10**
Name of bargaining unit and representative(s) consulted: **FIDEL BANUELOS, CTA PRESIDENT
DARREL WEBB, CSEA PRESIDENT**
The position(s) of the bargaining unit(s): X Neutral Support Oppose (*Please specify why*)
BOTH

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

 X Notice in a newspaper X Notice posted at each school Other: (*Please specify*)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
SEE ATTACHMENT A HERETO

Date the committee/council reviewed the waiver request: **SEE ATTACHMENT A HERETO**

Were there any objection(s)? **No** X Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

SEE ATTACHMENT B HERETO

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Pursuant to EC § 5019(a), the Tulare County Committee on School District Organization (“TCCSDO”) has the authority to approve or disapprove Burton School District’s adoption of by-trustee area elections. Burton School District adopted a resolution applying to the County Committee to authorize a change of election for the November 2012 election. The TCCSDO has tentatively approved the change, subject to submission and approval of a specific trustee area plan. This waiver is sought contingent on TCCSDO’s approval of the change to the District’s electoral system. The approval of by-trustee area elections by the TCCSDO would normally constitute an order of election (EC § 5020); however, a waiver of the election requirement by SBE would allow for the adoption and subsequent implementation of by-trustee area elections without a local election. Also, the subsequent approval of a specific trustee area plan would normally be subject to a referendum period, but if qualified such a referendum would preclude by-trustee area elections in 2012. [See Attachment C and Burton School District Resolutions 10-23 and 12-02, attached hereto.]

8. Demographic Information:

Burton School District has a student population of **4,100** and is located in a **small city** in **TULARE** County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes

(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes

(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Attachment B

6. Education Code or California Code of Regulations section to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

§ 5020. Presentation of proposal to electors

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) If a proposal for the establishment of trustee areas formulated under Sections 5019 and ~~5020~~ is approved by ~~a majority of the voters voting at the election~~, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established ~~at such election~~ which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by ~~a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required~~, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved by ~~a majority of the voters voting at the election~~, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 and ~~5020~~, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.~~

Attachment C

7. Desired Outcome/Rationale

The waiver of the election requirements in 5019(d) and 5020 will enable the Burton (Elementary) School District (“BSD” or “District”) to implement a new “by-trustee area” electoral system for its November 2012 elections, will ensure that the District proceeds in the most efficient and cost-effective manner, and will help protect the District from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the District. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

Tulare County has recently become an epicenter of potential litigation under the California Voting Rights Act of 2002, codified at sections 14025–14032 of the California Elections Code (“CVRA”). The CVRA enables voters to challenge “at-large” electoral systems in which elections are characterized by “racially-polarized voting.” As importantly, it authorizes mandatory attorneys’ fee and expert fee awards to successful plaintiffs.

Recent litigation under the Act has resulted in fee awards as high as 7 figures: The City of Modesto defended against a suit under the CVRA and ended up paying \$3 million to plaintiffs’ attorneys, in addition to \$1.7 million to its own attorneys. While that case involved an appeal and (unsuccessful) petitions for review and certiorari to the California and U.S. Supreme Courts, the \$4.7 million did not include any costs for an actual trial, as the case never reached that state, settling before that time. And then in 2008, Madera Unified was sued under the CVRA, and after six weeks of uncontested litigation was served with a fee demand of \$1.2 million (a number that continues to go up as fee proceedings continue).

In recent years, two nearby jurisdictions have been sued under the CVRA—the Tulare Local Healthcare District settled a suit for \$500,000 in 2010, and agreed to put the question of changing its electoral system to the voters; the City of Tulare likewise settled a suit, agreeing to put a similar question to its voters, and to pay plaintiffs’ attorneys’ fees (rumored to be in the range of \$250,000). Faced with this spate of litigation, several of BSD’s neighboring districts have adopted by-trustee elections under Education Code § 5030(b). In a by-trustee area system of election, candidates for a district’s governing board must reside within a specific geographic subarea of the district called a “trustee area” and candidates are elected only by the voters of that trustee area. They have done so under threat of litigation under the CVRA. We also understand that the same organization that brought the Modesto and Madera suits has made further inquiries regarding other Tulare area districts.

The District currently elects its five-member board in “at-large” elections (*i.e.*, elections in which each candidate for the Board is elected by all voters in the District) pursuant to Education Code § 5030(a), and is therefore potentially vulnerable to suit under the CVRA.¹

¹ This does not represent a concession by the District that such a suit would be meritorious. There is presently not any formal allegation of racially-polarized voting in District elections. But no case

On June 22, 2009, the Board adopted Resolution No. 09-35, initiating an application to the County Committee to change the District's method of election to "by-trustee area" elections, *i.e.*, elections in which "one or more members residing in each trustee area [is] elected by the registered voters of that particular trustee area[.]" Cal. Elec. Code § 5030(b).

On April 27, 2010, the County Committee held a duly-noticed public hearing on the Board's proposal to change the District's method of election. Following that public hearing the County Committee tentatively approved the change of electoral system to "by-trustee area" elections, subject to the subsequent approval by the County Committee of a specific trustee area plan for use in 2012 and future District elections.

On August 15, 2011, following the release of the 2010 Census, the BSD Board adopted a trustee area plan for submission to, and approval by, the TCCSDO. The TCCSDO approved the District's proposed trustee area plan following a duly-noticed public hearing on October 6, 2011.

In the normal course, the TCCSDO's approval of a change to the District's electoral system would act as an order of election, submitting the change to the District's voters at the November 2012 election. That, however, will preclude the District from implementing the new system in time for that election. Accordingly, the Board consulted with its advisory committees, school site councils and bargaining units, and held a duly-noticed public hearing, and on June 7, 2010, approved submission of a waiver of the electoral requirement.

The submission was delayed while a trustee area plan was approved and submitted to the TCCSDO. Accordingly, the Board held two supplemental hearings on the waiver application, on August 1, 2011 and August 15, 2011, and re-affirmed its decision to submit this application. If the waiver is approved, a local election would not be held: the system for electing trustees would change pursuant to the Resolution adopted by the BSD Board in 2009, and the approval of the TCCSDO.

The District is also proposing a trustee area boundary plan for the TCCSDO's consideration and approval, following an extensive public process. Though that plan will not be subject to an automatic vote of the people, it is subject to the possibility of a referendum under § 5019(d). Such a referendum, if qualified, would defeat the District's ability to implement by-trustee area elections in 2012.

There has been no public opposition to the waiver application. The BSD Board has therefore determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if a measure to institute by-

has yet definitively construed the Act's many ambiguous provisions, and there are outstanding questions about what a plaintiff must prove to prevail under the Act. That uncertainty, coupled with the potential for massive fee awards, creates a significant disincentive to contest such a suit.

trustee area elections is defeated, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections. Though the District does not concede that the current system would violate the CVRA, and has not itself been directly threatened with litigation, it has no desire to risk costly litigation under the Act.

2. The request for waiver is contingent upon the TCCSDO's approval of by-trustee area elections. The SBE can therefore grant this waiver with the assurance that the District's proposal will nevertheless be subjected to independent review by the TCCSDO, composed of disinterested officials familiar with local circumstances.
3. No member of the public spoke against the waiver at the duly-noticed public hearings.
4. There has been minimal opposition to the plan.

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST

GW-1 (Rev. 10-2-09) <http://www.cde.ca.gov/re/lr/wr/>

First Time Waiver:
Renewal Waiver:

Send Original plus one copy to:
Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send Electronic copy in **Word** and
back-up material to: waiver@cde.ca.gov

1	0	6	2	1	0	9

Local educational agency: Clay Joint Elementary School District			Contact name and Title: Bill Mannlein, Superintendent			Contact person's e-mail address: bmannlein@fcoe.net		
Address: 12449 S. Smith		(City) Kingsburg	(State) CA	(ZIP) 93631	Phone (and extension, if necessary): (559) 897-4185 Fax Number: (559) 897-2280			
Period of request: (month/day/year) From: January 1, 2012 LS 10/31/11 To: December 31, 2012 December 30, 2013			Local board approval date: (Required) September 13, 2011			Date of public hearing: (Required) September 13, 2011		

LEGAL CRITERIA

- Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): Education Code § 5020 and portions of § 5019, 5021 and 5030
Topic of the waiver: Waiver of elections requirement for change to by-trustee area elections.
- If this is a renewal of a previously approved waiver, please list Waiver Number: N/A and date of SBE Approval: N/A
Renewals of waivers must be submitted two months before the active waiver expires.
- Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s):

Name of bargaining unit and representative(s) consulted:

The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)

Comments (if appropriate): Staff has been overwhelmingly supportive.
- Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?
 Notice in a newspaper Notice posted at each school Other: (*Please specify*) Notice posted at three public places in the school district.
- Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
Date the committee/council reviewed the waiver request: Clay School Site Council jb 10/27/11
School Site Council reviewed on May 21, 2009; November 19, 2009; February 18, 2010; January 25, 2011.

Were there any objection(s)? No Yes (*If there were objections please specify*)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

Please see Attachment A.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Please see Attachment B.

8. Demographic Information:
District has a student population of 261 and is located in a rural city in Fresno and Tulare Counties.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

**CLAY JOINT ELEMENTARY SCHOOL DISTRICT
WAIVER APPLICATION
ATTACHMENT A**

6. Education Code sections to be waived.

The Clay Joint Elementary School District desires to waive the sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven—Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven—No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five—Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five—No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District—Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District—No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area—Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area—No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District—Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District—No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District—Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District—No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing

board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by ~~a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required,~~ and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved by ~~a majority of the voters voting at the election,~~ the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 ~~and 5020~~, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~In counties with a population of less than 25,000,~~ the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

**CLAY JOINT ELEMENTARY SCHOOL DISTRICT
WAIVER APPLICATION
ATTACHMENT B**

7. Desired Outcome/Rationale

Currently, each of the Clay Joint Elementary School District's ("District") three (3) school board members is elected "at large."

On September 13, 2011, the Board voted to change from at-large elections to by-trustee area elections for the 2012 elections in an effort to ensure compliance with the Voting Rights Act and to help prevent the District from being entangled in costly lawsuits that other cities and districts have faced. This change would require trustees to live in designated trustee areas and trustees would be elected only by voters residing in their trustee area, not by all voters voting at-large.

During the past school year, the Board conducted monthly public hearings on these issues during regular meetings of the Governing Board and presented the issues for discussion and input at Site Council and Parents' Club meetings. The Board approved a final trustee area map in September 2011 which was presented to and approved by the Fresno County Committee on School District Organization on September 14, 2011.

The District requests that the State Board of Education grant a waiver of the requirement for a local election to approve the change in the manner of electing school board members (e.g. from at-large elections to by-trustee area elections). This requirement is contained primarily in Education Code section 5020 (see Attachment A).

If the waiver is approved by the State Board of Education, a local election would not be held: the system for electing trustees would change pursuant to the District's Resolution adopted on September 13, 2011, to change to by-trustee area elections for implementation during the November 2012 elections.

If the waiver is approved by the State Board, the change in voting procedures and the final trustee area maps will be forwarded to the Fresno County Elections Office in time for implementation in the November 2012 elections.

There was no opposition to the District's plan at the numerous public hearings and meetings held during 2010-2011. There was no opposition expressed at the Governing Board meeting held September 13, 2011, regarding the change to by-trustee area elections, the proposed area plan, or the District's intent to request SBE's waiver of the election requirement. No community members, school district employees, or other interested persons have opposed the waiver or the change to by-trustee area elections. In fact, representatives from the faculty, the community and parent groups appeared at the County Committee meeting to express their support of the change of election method, the proposed trustee area plan, and the waiver.

The Governing Board of Clay Joint Elementary School District has determined that the public interest would be better served if trustees were elected by by-trustee areas and makes the following points in support of the waiver:

1. Selecting trustees in by-trustee area elections enhances the opportunity for representation on the Board of all communities within the District.
2. Selecting trustees in by-trustee area election will enhance the ability for a greater number of candidates to run for seats on the school board by reducing the costs associated with running for election district wide.
3. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if the Governing Board's measure to move to by-trustee area elections is defeated at an election, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections.
4. The Fresno County Committee on School District Organization has approved the change of election method and trustee area plan. The SBE is in a position to support local decision-making, while providing the District a limited range of discretion that insures it meets the legal requirements for such change, and reflects the SBE's policy of support of local community plans to broaden community involvement in school district governance.
5. The decision to change to by-trustee area elections and to request this waiver was supported unanimously by the Governing Board.
6. There has been no opposition to the plan.
7. The Governing Board of the Clay Joint Elementary School District represents the electorate, and has unanimously resolved to adopt by-trustee area elections and to request this waiver.
8. A copy of the District's resolution dated September 13, 2011, is attached.

The conditional waiver of the election requirement will ensure that the District proceeds in the most efficient and cost-effective manner, and is protected from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the district. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

SEE ATTACHMENT B HERETO

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Pursuant to EC § 5019(a), the Fresno County Committee on School District Organization (“FCCSDO”) has the authority to approve or disapprove Firebaugh-Las Deltas Joint Unified School District’s adoption of by-trustee area elections. FLDUSD adopted a resolution applying to the County Committee to authorize a change of election for the November 2012 election, and has submitted a proposed trustee area plan for the FCCSDO’s consideration. This waiver is sought contingent on FCCSDO’s approval of the change to the District’s electoral system. The approval of by-trustee area elections by the FCCSDO would normally constitute an order of election (EC § 5020); however, a waiver of the election requirement by SBE would allow for the adoption and subsequent implementation of by-trustee area elections without a local election. Also, the approval of a specific trustee area plan would normally be subject to a referendum period, but if qualified such a referendum would preclude by-trustee area elections in 2012. [See Attachment C and Firebaugh-Las Deltas Joint Unified School District Resolution, 10/11-22, attached hereto.]

8. Demographic Information:
(District/school/program)___ has a student population of **2,219** and is located in a ___(urban, rural, or small city etc.)___ in **FRESNO and MADERA** County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

6. Education Code or California Code of Regulations section to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District --Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) ~~If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.~~

(b) ~~If a proposal for rearrangement of boundaries is approved by a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.~~

(c) ~~If a proposal for abolishing trustee areas is approved by a majority of the voters voting at the election, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.~~

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 and 5020, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~—In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.~~

Attachment C

7. Desired Outcome/Rationale

The waiver of the election requirements in 5019(d) and 5020 will enable the Firebaugh-Las Deltas Unified School District (“FLDUSD” or “District”) to implement a new “by-trustee area” electoral system for its November 2012 elections, will ensure that the District proceeds in the most efficient and cost-effective manner, and will help protect the District from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the District. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

The Central Valley, including Fresno County, has recently become an epicenter of potential litigation under the California Voting Rights Act of 2002, codified at sections 14025–14032 of the California Elections Code (“CVRA”). The CVRA enables voters to challenge “at-large” electoral systems in which elections are characterized by “racially-polarized voting.” As importantly, it authorizes mandatory attorneys’ fee and expert fee awards to successful plaintiffs.

Recent litigation under the Act has resulted in fee awards as high as 7 figures: The City of Modesto defended against a suit under the CVRA and ended up paying \$3 million to plaintiffs’ attorneys, in addition to \$1.7 million to its own attorneys. While that case involved an appeal and (unsuccessful) petitions for review and certiorari to the California and U.S. Supreme Courts, the \$4.7 million did not include any costs for an actual trial, as the case never reached that state, settling before that time. And then in 2008, Madera Unified was sued under the CVRA, and after six weeks of uncontested litigation was served with a fee demand of \$1.2 million (a number that continues to go up as fee proceedings continue).

In recent years, other Central Valley jurisdictions have been sued under the CVRA—the Tulare Local Healthcare District settled a suit for \$500,000 in 2010, and agreed to put the question of changing its electoral system to the voters; the City of Tulare likewise settled a suit, agreeing to put a similar question to its voters, and to pay plaintiffs’ attorneys’ fees (rumored to be in the range of \$250,000). Faced with this spate of litigation, several of FLDUSD’s neighboring districts have adopted by-trustee elections under Education Code § 5030(b). In a by-trustee area system of election, candidates for a district’s governing board must reside within a specific geographic subarea of the district called a “trustee area” and candidates are elected only by the voters of that trustee area. They have done so under threat of litigation under the CVRA. We also understand that the same organization that brought the Modesto and Madera suits has made further inquiries regarding other Fresno area districts.

FLDUSD currently elects its five-member board in “at-large” elections (*i.e.*, elections in which each candidate for the Board is elected by all voters in the District) pursuant to

Education Code § 5030(a), and is therefore potentially vulnerable to suit under the CVRA.¹

On February 10, 2011, the Board adopted Resolution No. 10/11-22, initiating an application to the County Committee to change the District's method of election to "by-trustee area" elections, *i.e.*, elections in which "one or more members residing in each trustee area [is] elected by the registered voters of that particular trustee area[.]" Cal. Elec. Code § 5030(b).²

On September 8, 2011, following the release of the 2010 Census, the FLDUSD Board adopted a trustee area plan for submission to, and approval by, the FCCSDO, for use in 2012 and future District elections. A hearing on that proposal is scheduled before the FCCSDO on October 12, 2011.

In the normal course, the FCCSDO's approval of a change to the District's electoral system would act as an order of election, submitting the change to the District's voters at the November 2012 election. That, however, will preclude the District from implementing the new system in time for that election. Accordingly, the Board consulted with its advisory committees, school site councils and bargaining units, and held a duly-noticed public hearing, and on February 10, 2011, approved submission of a waiver of the electoral requirement.

If the waiver is approved, a local election would not be held: the system for electing trustees would change pursuant to the Resolution adopted by the FLDUSD Board in February 2011, and the approval of the FCCSDO. This waiver application is submitted contingent upon approval of the application by the FCCSDO.

The District is also proposing a trustee area boundary plan for the FCCSDO's consideration and approval, following an extensive public process. Though that plan will not be subject to an automatic vote of the people, it is subject to the possibility of a referendum under § 5019(d). Such a referendum, if qualified, would defeat the District's ability to implement by-trustee area elections in 2012.

There has been no public opposition to the waiver application. The FLDUSD Board has therefore determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if a measure to institute by-trustee area elections is defeated, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections. Though the District does not concede that the current system would violate the CVRA, and has not itself been directly threatened with litigation, it has no desire to risk

¹ This does not represent a concession by the District that such a suit would be meritorious. There is presently not any formal allegation of racially-polarized voting in District elections. But no case has yet definitively construed the Act's many ambiguous provisions, and there are outstanding questions about what a plaintiff must prove to prevail under the Act. That uncertainty, coupled with the potential for massive fee awards, creates a significant disincentive to contest such a suit.

² The Board adopted a resolution on March 10, 2011, which amended Resolution No. 10/11-22, insofar as the original resolution adopted criteria to guide the establishment of trustee areas. The amendment did not affect the waiver application in any way.

costly litigation under the Act.

2. The request for waiver is contingent upon the FCCSDO's approval of by-trustee area elections. The SBE can therefore grant this waiver with the assurance that the District's proposal will nevertheless be subjected to independent review by the FCCSDO, composed of disinterested officials familiar with local circumstances.
3. No member of the public spoke against the waiver at the duly-noticed public hearing.
4. There has been minimal opposition to the plan.

Date the committee/council reviewed the waiver request: **SEE ATTACHMENT A HERETO**
Were there any objection(s)? **No X** Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

SEE ATTACHMENT B HERETO

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Pursuant to EC § 5019(a), the Tulare County Committee on School District Organization (“TCCSDO”) has the authority to approve or disapprove Kings River Elementary School District’s adoption of by-trustee area elections. Kings River Elementary School District adopted a resolution applying to the County Committee to authorize a change of election for the November 2012 election. The TCCSDO has tentatively approved the change, subject to submission and approval of a specific trustee area plan. This waiver is sought contingent on TCCSDO’s approval of the change to the District’s electoral system. The approval of by-trustee area elections by the TCCSDO would normally constitute an order of election (EC § 5020); however, a waiver of the election requirement by SBE would allow for the adoption and subsequent implementation of by-trustee area elections without a local election. Also, the subsequent approval of a specific trustee area plan would normally be subject to a referendum period, but if qualified such a referendum would preclude by-trustee area elections in 2012. [See Attachment C and Kings River Elementary School District Resolution 2012-8, attached hereto.]

8. Demographic Information:
Kings River Elementary School District has a student population of **475** and is located in a **small city** in **TULARE** County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

6. Education Code or California Code of Regulations section to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on

the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District --Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) ~~If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.~~

(b) ~~If a proposal for rearrangement of boundaries is approved by a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.~~

(c) ~~If a proposal for abolishing trustee areas is approved by a majority of the voters voting at the election, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.~~

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 and 5020, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~—In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.~~

Attachment C

7. Desired Outcome/Rationale

The waiver of the election requirements in 5019(d) and 5020 will enable the Kings River Elementary School District (“KRESD” or “District”) to implement a new “by-trustee area” electoral system for its November 2012 elections, will ensure that the District proceeds in the most efficient and cost-effective manner, and will help protect the District from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the District. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

Tulare County has recently become an epicenter of potential litigation under the California Voting Rights Act of 2002, codified at sections 14025–14032 of the California Elections Code (“CVRA”). The CVRA enables voters to challenge “at-large” electoral systems in which elections are characterized by “racially-polarized voting.” As importantly, it authorizes mandatory attorneys’ fee and expert fee awards to successful plaintiffs.

Recent litigation under the Act has resulted in fee awards as high as 7 figures: The City of Modesto defended against a suit under the CVRA and ended up paying \$3 million to plaintiffs’ attorneys, in addition to \$1.7 million to its own attorneys. While that case involved an appeal and (unsuccessful) petitions for review and certiorari to the California and U.S. Supreme Courts, the \$4.7 million did not include any costs for an actual trial, as the case never reached that state, settling before that time. And then in 2008, Madera Unified was sued under the CVRA, and after six weeks of uncontested litigation was served with a fee demand of \$1.2 million (a number that continues to go up as fee proceedings continue).

In recent years, two nearby jurisdictions have been sued under the CVRA—the Tulare Local Healthcare District settled a suit for \$500,000 in 2010, and agreed to put the question of changing its electoral system to the voters; the City of Tulare likewise settled a suit, agreeing to put a similar question to its voters, and to pay plaintiffs’ attorneys’ fees (rumored to be in the range of \$250,000). Faced with this spate of litigation, several of KRESD’s neighboring districts have adopted by-trustee elections under Education Code § 5030(b). In a by-trustee area system of election, candidates for a district’s governing board must reside within a specific geographic subarea of the district called a “trustee area” and candidates are elected only by the voters of that trustee area. They have done so under threat of litigation under the CVRA. We also understand that the same organization that brought the Modesto and Madera suits has made further inquiries regarding other Tulare area districts.

KRESD currently elects its five-member board in “at-large” elections (*i.e.*, elections in which each candidate for the Board is elected by all voters in the District) pursuant to

Education Code § 5030(a), and is therefore potentially vulnerable to suit under the CVRA.¹

On June 8, 2009, the Board adopted Resolution No. 2009-18, initiating an application to the County Committee to change the District's method of election to "by-trustee area" elections, *i.e.*, elections in which "one or more members residing in each trustee area [is] elected by the registered voters of that particular trustee area[.]" Cal. Elec. Code § 5030(b).

On March 25, 2010, the County Committee held a duly-noticed public hearing on the Board's proposal to change the District's method of election. Following that public hearing the County Committee tentatively approved the change of electoral system to "by-trustee area" elections, subject to the subsequent approval by the County Committee of a specific trustee area plan for use in 2012 and future District elections.

On October 10, 2011, following the release of the 2010 Census, the KRESB Board adopted a trustee area plan for submission to, and approval by, the TCCSDO. Action is expected on that proposal in the next few months.

In the normal course, the TCCSDO's approval of a change to the District's electoral system would act as an order of election, submitting the change to the District's voters at the November 2012 election. That, however, will preclude the District from implementing the new system in time for that election. Accordingly, the Board consulted with its advisory committees, school site councils and bargaining units, and held a duly-noticed public hearing, and on October 10, 2011, approved submission of a waiver of the electoral requirement.

If the waiver is approved, a local election would not be held: the system for electing trustees would change pursuant to the Resolution adopted by the KRESB Board in 2009, and the approval of the TCCSDO. This waiver application is submitted contingent upon approval of the application by the TCCSDO.

The District is also proposing a trustee area boundary plan for the TCCSDO's consideration and approval, following an extensive public process. Though that plan will not be subject to an automatic vote of the people, it is subject to the possibility of a referendum under § 5019(d). Such a referendum, if qualified, would defeat the District's ability to implement by-trustee area elections in 2012.

¹ This does not represent a concession by the District that such a suit would be meritorious. There is presently not any formal allegation of racially-polarized voting in District elections. But no case has yet definitively construed the Act's many ambiguous provisions, and there are outstanding questions about what a plaintiff must prove to prevail under the Act. That uncertainty, coupled with the potential for massive fee awards, creates a significant disincentive to contest such a suit.

There has been no public opposition to the waiver application. The KRESD Board has therefore determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if a measure to institute by-trustee area elections is defeated, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections. Though the District does not concede that the current system would violate the CVRA, and has not itself been directly threatened with litigation, it has no desire to risk costly litigation under the Act.
2. The request for waiver is contingent upon the TCCSDO's approval of by-trustee area elections. The SBE can therefore grant this waiver with the assurance that the District's proposal will nevertheless be subjected to independent review by the TCCSDO, composed of disinterested officials familiar with local circumstances.
3. No member of the public spoke against the waiver at the duly-noticed public hearings.
4. There has been minimal opposition to the plan.

Period of request: (month/day/year) From: 1/11/12 To: 1/9/2014		Local board approval date: (Required) 10/17/11		Date of public hearing: (Required) 7/18/11 and 8/22/11

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): **EC 5020 & portions of 5019, 5021, and 5030** Circle One: EC or *CCR*
Topic of the waiver: **waiver of elections requirement for change to by-trustee area elections.**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: N/A and date of SBE Approval N/A
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): 9/8/11

Name of bargaining unit and representative(s) consulted: CSEA, California School Employees Association
Danny Pumarejo, President

The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)

ib 10/27/11

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

Notice in a newspaper Notice posted at each school Other: (*Please specify*) website; telephone notification system

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
Washington Elementary, Roosevelt Elementary, Lincoln Elementary, Reagan Elementary, Rater Johnson Junior High
Date the committee/council reviewed the waiver request: 10/20/11 School Site Councils

Were there any objection(s)? No Yes (*If there were objections please specify*)

KINGSBURG ELEMENTARY CHARTER SCHOOL DISTRICT WAIVER APPLICATION

Attachment A

6. The Kingsburg Elementary Charter School District desires to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

(d) If the county committee on school district organization approves pursuant to subdivision (a) ~~the rearrangement of the~~ boundaries of trustee areas for a particular district, then the ~~rearrangement of the~~ trustee areas shall be effectuated for the next district election occurring at

~~least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District Yes" and "For the~~

~~establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by ~~a majority of the voters voting on the measure, or by~~ the county committee on school district organization ~~when no election is required~~, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved ~~by a majority of the voters voting at the election~~, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 ~~and 5020~~, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~In counties with a population of less than 25,000~~, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

Attachment B

7. **Desired Outcome/Rationale**

Currently, each of the Kingsburg Elementary Charter School District's ("District") five (5) school board members are elected at large.

On July 19, 2010, the Board voted to change from at-large elections to by-trustee area elections beginning with the 2012 election. This change would require trustees to live in designated trustee areas and be elected only by voters residing in their trustee area, not by all voters voting at-large. This decision was made based on an effort to ensure compliance with the California Voting Rights Act and to help prevent the District from being entangled in costly lawsuits that other cities and districts have faced.

The District requests that the State Board of Education grant a waiver of the requirement for a local election to approve the change in the manner of electing school board members (e.g. from at-large elections to by-trustee area elections). This requirement is contained primarily in Education Code section 5020. (See attachment A).

If the waiver is approved by the State Board of Education and the change to by-trustee area elections is approved by the Fresno County Committee on School District Reorganization, a local election would not be held: the system for electing trustees would change pursuant to the District's Resolution adopted on July 19, 2010 to change to by-trustee area elections for implementation during the November 2012 elections.

The board conducted public hearings on these issues on July 18, 2011 and August 22, 2011. The Board approved final trustee area maps by Resolution dated October 17, 2011, for presentation to the Fresno County Committee on School District Reorganization in late 2011.

If approved by the County Committee, the change in voting procedures and the final trustee area maps will be forwarded to the Fresno County Elections Office in time for implementation during the November 2012 elections.

There was no opposition to the District's plan at the public hearings held by the Governing Board on July 18, 2011 and August 22, 2011, regarding the change to by-trustee area elections and the request for SBE's waiver of the election requirement. No community members, bargaining unit representatives, or other interested persons have opposed the waiver or the change to by-trustee area elections. The Governing Board of Kingsburg Elementary Charter

School District has determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Selecting trustees in by-trustee area elections enhances the opportunity for representation on the Board of all communities within the District.
2. Selecting trustees in by-trustee area election will enhance the ability for a greater number of candidates to run for seats on the school board by reducing the costs associated with running for election district wide.
3. The current electoral system leaves the District vulnerable to attack under the California Voting Rights Act. If not waived and if the Governing Board's measure to move to by-trustee area elections is defeated at an election, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections.
4. The request for a waiver is conditioned on the Fresno County Committee on School District Reorganization's approval. The SBE is in a position to support local decision-making, while providing the District a limited range of discretion that insures it meets the legal requirements for such change, and reflects the SBE's policy of support of local community plans to broaden community involvement in school district governance.
5. The decision to change to by-trustee area elections and to request this waiver was supported unanimously by the Governing Board.
6. There has been no opposition to the plan. The District encouraged the community to be involved in drafting the trustee area maps.
7. The Governing Board of the Kingsburg Elementary Charter School District represents the electorate, and has unanimously resolved to adopt by-trustee area elections and to request this waiver.
8. A copy of the District's resolution dated October 17, 2011 is attached.

The conditional waiver of the election requirement will ensure that the District proceeds in the most efficient and cost-effective manner, and is protected from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the district. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST

**KINGSBURG JOINT UNION HIGH SCHOOL DISTRICT
WAIVER APPLICATION**

Attachment A

6. The Kingsburg Joint Union High School District desires to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

(d) If the county committee on school district organization approves pursuant to subdivision (a) ~~the rearrangement of the~~ boundaries of trustee areas for a particular district, then the ~~rearrangement of the~~ trustee areas shall be effectuated for the next district election occurring at

~~least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District Yes" and "For the~~

~~establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by ~~a majority of the voters voting on the measure, or by~~ the county committee on school district organization ~~when no election is required~~, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved ~~by a majority of the voters voting at the election~~, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 ~~and 5020~~, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~In counties with a population of less than 25,000~~, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

Attachment B

7. Desired Outcome/Rationale

Currently, each of the Kingsburg Joint Union High School District's ("District") five (5) school board members are elected at large.

On March 11, 2010, the Board voted to change from at-large elections to by-trustee area elections beginning with the 2012 election. This change would require trustees to live in designated trustee areas and be elected only by voters residing in their trustee area, not by all voters voting at-large. This decision was made based on an effort to ensure compliance with the California Voting Rights Act and to help prevent the District from being entangled in costly lawsuits that other cities and districts have faced.

The District requests that the State Board of Education grant a waiver of the requirement for a local election to approve the change in the manner of electing school board members (e.g. from at-large elections to by-trustee area elections). This requirement is contained primarily in Education Code section 5020. (See attachment A).

If the waiver is approved by the State Board of Education and the change to by-trustee area elections is approved by the Fresno County Committee on School District Reorganization, a local election would not be held: the system for electing trustees would change pursuant to the District's Resolution adopted on March 11, 2010 to change to by-trustee area elections for implementation during the November 2012 elections.

The board conducted public hearings on these issues on September 12, 2011 and October 17, 2011. The Board approved final trustee area maps by Resolution dated October 17, 2011, for presentation to the Fresno County Committee on School District Reorganization in late 2011.

If approved by the County Committee, the change in voting procedures and the final trustee area maps will be forwarded to the Fresno County Elections Office in time for implementation during the November 2012 elections.

There was no opposition to the District's plan at the public hearings held by the Governing Board on September 12, 2011 and October 17, 2011, regarding the change to by-trustee area elections and the request for SBE's waiver of the election requirement. No community members, bargaining unit representatives, or other interested persons have opposed the waiver or the change to by-trustee area elections. The Governing Board of Kingsburg Joint Union High School District has determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Selecting trustees in by-trustee area elections enhances the opportunity for representation on the Board of all communities within the District.
2. Selecting trustees in by-trustee area election will enhance the ability for a greater number of candidates to run for seats on the school board by reducing the costs associated with running for election district wide.
3. The current electoral system leaves the District vulnerable to attack under the California Voting Rights Act. If not waived and if the Governing Board's measure to move to by-

trustee area elections is defeated at an election, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections.

4. The request for a waiver is conditioned on the Fresno County Committee on School District Reorganization's approval. The SBE is in a position to support local decision-making, while providing the District a limited range of discretion that insures it meets the legal requirements for such change, and reflects the SBE's policy of support of local community plans to broaden community involvement in school district governance.
5. There has been no opposition to the plan. The District encouraged the community to be involved in drafting the trustee area maps.
6. The Governing Board of the Kingsburg Joint Union High School District represents the electorate, and has unanimously resolved to adopt by-trustee area elections and to request this waiver.
7. A copy of the District's resolution dated October 17, 2011 is attached.

The conditional waiver of the election requirement will ensure that the District proceeds in the most efficient and cost-effective manner, and is protected from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the district. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

Attachment A

6. The Kingsburg Joint Union High School District desires to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

§ 5020. Presentation of proposal to electors

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District Yes" and "For the~~

~~establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved ~~by a majority of the voters voting at the election~~, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established ~~at such election~~ which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by ~~a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required~~, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved ~~by a majority of the voters voting at the election~~, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 and 5020, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this~~

section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST

GW-1 (Rev. 10-2-09) <http://www.cde.ca.gov/re/lr/wr/>

First Time Waiver: x
Renewal Waiver:

Send Original plus one copy to:
Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send Electronic copy in **Word** and
back-up material to: waiver@cde.ca.gov

CD CODE						
1	6	6	3	9	6	6

Local educational agency: Lakeside Union Elementary School District			Contact name and Title: Dale Ellis, Superintendent/Principal			Contact person's e-mail address: dellis@kings.k12.ca.us		
Address: (City)		(State)		(ZIP)		Phone (and extension, if necessary): (559) 582-2868 Ext. 101		
9100 Jersey Avenue		Hanford		California		93230		Fax Number: (559) 582-7638
Period of request: (month/day/year)			Local board approval date: (Required)			Date of public hearing: (Required)		
From: 01-01-2012 To: 12-30-2013			November 10, 2011			November 10, 2011		

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): 5020, portions of 5019,5021,5030 Circle One: **EC** or *CCR*

Topic of the waiver: **WAIVER OF ELECTIONS REQUIREMENT(S) FOR CHANGE TO TRUSTEE AREA ELECTIONS**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval _____
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No x Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): October 17, 2011

Name of bargaining unit and representative(s) consulted: **Lakeside Teachers Association, Cynthia Marshall, President**

The position(s) of the bargaining unit(s): Neutral x Support Oppose (*Please specify why*)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

 x Notice in a newspaper x Notice posted at each school x Other: (*Please specify*) Mailed Notice to all residents of the district. Also posted at Kings County Office of Education – 3 sites.

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Lakeside Union Elementary SD- School Site Council

Date the committee/council reviewed the waiver request: 10-27-2011

English Language Advisory Committee

Were there any objection(s)? No x Yes (*If there were objections please specify*) jb 10/27/10

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

See Attachment:

6. Education Code or California Code of Regulations section to be waived

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

THIS WAIVER IS REQUESTED TO EXPEDITE EFFORTS OF THE LAKESIDE UNION ELEMENTARY SCHOOL DISTRICT TO COME INTO COMPLIANCE WITH THE CALIFORNIA VOTERS RIGHTS ACT OF 2001.

8. Demographic Information:
(District/school/program)___ has a student population of ___324_____ and is located in a RURAL___(urban, rural, or small city etc.)___ in ___KINGS_____ County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

6. Education Code or California Code of Regulations section to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

§ 5020. Presentation of proposal to electors

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven—Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven—No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five—Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five—No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District—Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District—No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area—Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area—No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District—Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District—No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District—Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District—No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) If a proposal for the establishment of trustee areas formulated under Sections 5019 ~~and 5020~~ is approved ~~by a majority of the voters voting at the election~~, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established ~~at such election~~ which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by ~~a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required~~, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved ~~by a majority of the voters voting at the election~~, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization ~~and the registered voters of a district~~, pursuant to Sections 5019 ~~and 5020~~, ~~respectively~~, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~—In counties with a population of less than 25,000,~~ the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any

school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

GENERAL WAIVER REQUEST

GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

SEE ATTACHMENT B HERETO

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Pursuant to EC § 5019(a), the Tulare County Committee on School District Organization (“TCCSDO”) has the authority to approve or disapprove Lindsay Unified School District’s adoption of by-trustee area elections. Lindsay Unified’s Board adopted a resolution applying to the County Committee to authorize a change of election for the November 2012 election. The TCCSDO has tentatively approved the change, subject to submission and approval of a specific trustee area plan. This waiver is sought contingent on TCCSDO’s approval of the change to the District’s electoral system. The approval of by-trustee area elections by the TCCSDO would normally constitute an order of election (EC § 5020); however, a waiver of the election requirement by SBE would allow for the adoption and subsequent implementation of by-trustee area elections without a local election. Also, the subsequent approval of a specific trustee area plan would normally be subject to a referendum period, but if qualified such a referendum would preclude by-trustee area elections in 2012. [See Attachment C and Lindsay Unified School District Resolutions, 10-31 and 12-15, attached hereto.]

8. Demographic Information:

LINDSAY UNIFIED SCHOOL DISTRICT has a student population of **4,159** and is located in a **small city** in **TULARE** County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Attachment B

6. Education Code or California Code of Regulations section to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) ~~If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.~~

(b) ~~If a proposal for rearrangement of boundaries is approved by a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.~~

(c) ~~If a proposal for abolishing trustee areas is approved by a majority of the voters voting at the election, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.~~

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 and 5020, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~—In counties with a population of less than 25,000,~~ the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, ~~other than a community college district,~~ amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

Attachment C

7. Desired Outcome/Rationale

The waiver of the election requirements in 5019(d) and 5020 will enable the Lindsay Unified School District (“LUSD” or “District”) to implement a new “by-trustee area” electoral system for its November 2012 elections, will ensure that the District proceeds in the most efficient and cost-effective manner, and will help protect the District from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the District. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

Tulare County has recently become an epicenter of potential litigation under the California Voting Rights Act of 2002, codified at sections 14025–14032 of the California Elections Code (“CVRA”). The CVRA enables voters to challenge “at-large” electoral systems in which elections are characterized by “racially-polarized voting.” As importantly, it authorizes mandatory attorneys’ fee and expert fee awards to successful plaintiffs.

Recent litigation under the Act has resulted in fee awards as high as 7 figures: The City of Modesto defended against a suit under the CVRA and ended up paying \$3 million to plaintiffs’ attorneys, in addition to \$1.7 million to its own attorneys. While that case involved an appeal and (unsuccessful) petitions for review and certiorari to the California and U.S. Supreme Courts, the \$4.7 million did not include any costs for an actual trial, as the case never reached that state, settling before that time. And then in 2008, Madera Unified was sued under the CVRA, and after six weeks of uncontested litigation was served with a fee demand of \$1.2 million (a number that continues to go up as fee proceedings continue).

In recent years, two nearby jurisdictions have been sued under the CVRA—the Tulare Local Healthcare District settled a suit for \$500,000 in 2010, and agreed to put the question of changing its electoral system to the voters; the City of Tulare likewise settled a suit, agreeing to put a similar question to its voters, and to pay plaintiffs’ attorneys’ fees (rumored to be in the range of \$250,000). Faced with this spate of litigation, several of Lindsay Unified’s neighboring districts have adopted by-trustee elections under Education Code § 5030(b). In a by-trustee area system of election, candidates for a district’s governing board must reside within a specific geographic subarea of the district called a “trustee area” and candidates are elected only by the voters of that trustee area. They have done so under threat of litigation under the CVRA. We also understand that the same organization that brought the Modesto and Madera suits has made further inquiries regarding other Tulare area districts.

Lindsay Unified currently elects its five-member board in “at-large” elections (*i.e.*, elections in which each candidate for the Board is elected by all voters in the District) pursuant to Education Code § 5030(a), and is therefore potentially vulnerable to suit under the CVRA.¹

¹ This does not represent a concession by the District that such a suit would be meritorious. There is presently not any formal allegation of racially-polarized voting in District elections. But no case

On August 24, 2009, the Board adopted Resolution No. 10-07, initiating an application to the County Committee to change the District's method of election to "by-trustee area" elections, *i.e.*, elections in which "one or more members residing in each trustee area [is] elected by the registered voters of that particular trustee area[.]" Cal. Elec. Code § 5030(b).

On April 27, 2010, the County Committee held a duly-noticed public hearing on the Board's proposal to change the District's method of election. Following that public hearing the County Committee tentatively approved the change of electoral system to "by-trustee area" elections, subject to the subsequent approval by the County Committee of a specific trustee area plan for use in 2012 and future District elections.

On October 10, 2011, following the release of the 2010 Census, the LUSD Board adopted a trustee area plan for submission to, and approval by, the TCCSDO. Action is expected on that proposal in the next few months.

In the normal course, the TCCSDO's approval of a change to the District's electoral system would act as an order of election, submitting the change to the District's voters at the November 2012 election. That, however, will preclude the District from implementing the new system in time for that election. Accordingly, the Board consulted with its advisory committees, school site councils and bargaining units, and held a duly-noticed public hearing, and on May 24, 2010, approved submission of a waiver of the electoral requirement.

The submission was delayed while a trustee area plan was approved and submitted to the TCCSDO. Accordingly, the Board held a supplemental hearing on the waiver application, on October 10, 2011, and re-affirmed its decision to submit this application. If the waiver is approved, a local election would not be held: the system for electing trustees would change pursuant to the Resolution adopted by the LUSD Board in 2009, and the approval of the TCCSDO. This waiver application is submitted contingent upon approval of the application by the TCCSDO.

The District is also proposing a trustee area boundary plan for the TCCSDO's consideration and approval, following an extensive public process. Though that plan will not be subject to an automatic vote of the people, it is subject to the possibility of a referendum under § 5019(d). Such a referendum, if qualified, would defeat the District's ability to implement by-trustee area elections in 2012.

There has been no public opposition to the waiver application. The LUSD Board has therefore determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if a measure to institute by-trustee area elections is defeated, the District would continue to be vulnerable to

has yet definitively construed the Act's many ambiguous provisions, and there are outstanding questions about what a plaintiff must prove to prevail under the Act. That uncertainty, coupled with the potential for massive fee awards, creates a significant disincentive to contest such a suit.

a legal challenge regarding the establishing of by-trustee area elections. Though the District does not concede that the current system would violate the CVRA, and has not itself been directly threatened with litigation, it has no desire to risk costly litigation under the Act.

2. The request for waiver is contingent upon the TCCSDO's approval of by-trustee area elections. The SBE can therefore grant this waiver with the assurance that the District's proposal will nevertheless be subjected to independent review by the TCCSDO, composed of disinterested officials familiar with local circumstances.
3. No member of the public spoke against the waiver at the duly-noticed public hearings.
4. There has been minimal opposition to the plan.

Period of request: (month/day/year)		Local board approval date: (Required)			Date of public hearing: (Required)			
From: 10/1/2011 To: 9/29/2013 9/31/2013		OCT. 13, 2011			SEPTEMBER 8, 2011			

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): Circle One: **EC** or *CCR* jb 10/27/11
-5021
Topic of the waiver: **WAIVER OF ELECTORAL REQUIREMENTS OF EDUCATION CODE §§ 5019, 5020 AND 5030 TO ESTABLISH TRUSTEE AREAS AND ADOPT A BY-TRUSTEE AREA ELECTORAL PROCESS**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: **N/A** and date of SBE Approval **N/A**
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): **CALIFORNIA SCHOOL EMPLOYEES ASSN, CHAPTER 32 (10/13/11)
PORTERVILLE EDUCATORS' ASSOCIATION (10/13/2011, 10/18/2011)**
Name of bargaining unit and representative(s) consulted: **CSEA, RAUL MAGANA, PRESIDENT
PEA, STAN ENNIS, PRESIDENT**
The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)
BOTH
Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

Notice in a newspaper Notice posted at each school Other: (*Please specify*) **Posted at District Office**

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
DISTRICT ADVISORY COMMITTEE (DAC), DISTRICT LANGUAGE ADVISORY COMMITTEE (DLAC), TITLE VII NATIVE AMERICAN COMMITTEE (NAC)

Date the committee/council reviewed the waiver request: **SEPT 29, 2011 (DAC AND DLAC), OCT 13, 2011 (NAC)**

Were there any objection(s)? **No** Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

SEE ATTACHMENT A HERETO

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Pursuant to EC § 5019(a), the Tulare County Committee on School District Organization (“TCCSDO”) has the authority to approve or disapprove Porterville Unified School District’s adoption of by-trustee area elections. Porterville Unified School District adopted a resolution applying to the County Committee to authorize a change of election for the November 2012 election. The TCCSDO has tentatively approved the change, subject to submission and approval of a specific trustee area plan. This waiver is sought contingent on TCCSDO’s approval of the change to the District’s electoral system. The approval of by-trustee area elections by the TCCSDO would normally constitute an order of election (EC § 5020); however, a waiver of the election requirement by SBE would allow for the adoption and subsequent implementation of by-trustee area elections without a local election. Also, the subsequent approval of a specific trustee area plan would normally be subject to a referendum period, but if qualified such a referendum would preclude by-trustee area elections in 2012. [See Attachment B and Porterville Unified School District Resolution No. 7 (Oct. 13, 2011), attached hereto.]

8. Demographic Information:

Porterville Unified School District has a student population of **13,666** and is located in a **small city** in **TULARE** County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes

(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes

(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Attachment A**6. Education Code or California Code of Regulations section to be waived**

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on

the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District --Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--Yes" and "For the~~

~~establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) ~~If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election,~~ any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established ~~at such election~~ which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) ~~If a proposal for rearrangement of boundaries is approved by a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required,~~ and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) ~~If a proposal for abolishing trustee areas is approved by a majority of the voters voting at the election,~~ the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 ~~and 5020~~, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.~~

Attachment B

7. Desired Outcome/Rationale

The waiver of the election requirements in 5019(d) and 5020 will enable the Porterville Unified School District (“PUSD” or “District”) to implement a new “by-trustee area” electoral system for its November 2012 elections, will ensure that the District proceeds in the most efficient and cost-effective manner, and will help protect the District from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the District. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

Tulare County has recently become an epicenter of potential litigation under the California Voting Rights Act of 2002, codified at sections 14025–14032 of the California Elections Code (“CVRA”). The CVRA enables voters to challenge “at-large” electoral systems in which elections are characterized by “racially-polarized voting.” As importantly, it authorizes mandatory attorneys’ fee and expert fee awards to successful plaintiffs.

Recent litigation under the Act has resulted in fee awards as high as 7 figures: The City of Modesto defended against a suit under the CVRA and ended up paying \$3 million to plaintiffs’ attorneys, in addition to \$1.7 million to its own attorneys. While that case involved an appeal and (unsuccessful) petitions for review and certiorari to the California and U.S. Supreme Courts, the \$4.7 million did not include any costs for an actual trial, as the case never reached that state, settling before that time. And then in 2008, Madera Unified was sued under the CVRA, and after six weeks of uncontested litigation was served with a fee demand of \$1.2 million (a number that continues to go up as fee proceedings continue).

In recent years, two nearby jurisdictions have been sued under the CVRA—the Tulare Local Healthcare District settled a suit for \$500,000 in 2010, and agreed to put the question of changing its electoral system to the voters; the City of Tulare likewise settled a suit, agreeing to put a similar question to its voters, and to pay plaintiffs’ attorneys’ fees (rumored to be in the range of \$250,000). Faced with this spate of litigation, several of PUSD’s neighboring districts have adopted by-trustee elections under Education Code § 5030(b). In a by-trustee area system of election, candidates for a district’s governing board must reside within a specific geographic subarea of the district called a “trustee area” and candidates are elected only by the voters of that trustee area. They have done so under threat of litigation under the CVRA. We also understand that the same organization that brought the Modesto and Madera suits has made further inquiries regarding other Tulare area districts.

PUSD currently elects its five-member board in “at-large” elections (*i.e.*, elections in which each candidate for the Board is elected by all voters in the District) pursuant to

Education Code § 5030(a), and is therefore potentially vulnerable to suit under the CVRA.¹

On October 14, 2010, the Board adopted Resolution No. 7, initiating an application to the County Committee to change the District's method of election to "by-trustee area" elections, *i.e.*, elections in which "one or more members residing in each trustee area [is] elected by the registered voters of that particular trustee area[.]" Cal. Elec. Code § 5030(b).

On April 26, 2011, the County Committee held a duly-noticed public hearing on the Board's proposal to change the District's method of election. Following that public hearing the County Committee tentatively approved the change of electoral system to "by-trustee area" elections, subject to the subsequent approval by the County Committee of a specific trustee area plan for use in 2012 and future District elections.

On September 22, 2011, following the release of the 2010 Census, the PUSD Board adopted a trustee area plan for submission to, and approval by, the TCCSDO. Action is expected on that proposal in the next few months.

In the normal course, the TCCSDO's approval of a change to the District's electoral system would act as an order of election, submitting the change to the District's voters at the November 2012 election. That, however, will preclude the District from implementing the new system in time for that election. Accordingly, the Board consulted with its advisory committees and bargaining units, and held a duly-noticed public hearing, and on October 13, 2011, approved submission of a waiver of the electoral requirement.

If the waiver is approved, a local election would not be held: the system for electing trustees would change pursuant to the Resolution adopted by the PUSD Board in 2010, and the approval of the TCCSDO. This waiver application is submitted contingent upon approval of the application by the TCCSDO.

The District is also proposing a trustee area boundary plan for the TCCSDO's consideration and approval, following an extensive public process. Though that plan will not be subject to an automatic vote of the people, it is subject to the possibility of a referendum under § 5019(d). Such a referendum, if qualified, would defeat the District's ability to implement by-trustee area elections in 2012.

¹ This does not represent a concession by the District that such a suit would be meritorious. There is presently not any formal allegation of racially-polarized voting in District elections. But no case has yet definitively construed the Act's many ambiguous provisions, and there are outstanding questions about what a plaintiff must prove to prevail under the Act. That uncertainty, coupled with the potential for massive fee awards, creates a significant disincentive to contest such a suit.

There has been no public opposition to the waiver application. The PUSD Board has therefore determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if a measure to institute by-trustee area elections is defeated, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections. Though the District does not concede that the current system would violate the CVRA, and has not itself been directly threatened with litigation, it has no desire to risk costly litigation under the Act.
2. The request for waiver is contingent upon the TCCSDO's approval of by-trustee area elections. The SBE can therefore grant this waiver with the assurance that the District's proposal will nevertheless be subjected to independent review by the TCCSDO, composed of disinterested officials familiar with local circumstances.
3. No member of the public spoke against the waiver at the duly-noticed public hearings.
4. There has been minimal opposition to the plan.

Date the committee/council reviewed the waiver request: **SEE ATTACHMENT A HERETO**
Were there any objection(s)? **No Yes** (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

SEE ATTACHMENT B HERETO

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Pursuant to EC § 5019(a), the Tulare County Committee on School District Organization (“TCCSDO”) has the authority to approve or disapprove Strathmore Union Elementary School District’s adoption of by-trustee area elections. Strathmore Union Elementary School District adopted a resolution applying to the County Committee to authorize a change of election for the November 2012 election. The TCCSDO has tentatively approved the change, subject to submission and approval of a specific trustee area plan. This waiver is sought contingent on TCCSDO’s approval of the change to the District’s electoral system. The approval of by-trustee area elections by the TCCSDO would normally constitute an order of election (EC § 5020); however, a waiver of the election requirement by SBE would allow for the adoption and subsequent implementation of by-trustee area elections without a local election. Also, the subsequent approval of a specific trustee area plan would normally be subject to a referendum period, but if qualified such a referendum would preclude by-trustee area elections in 2012. [See Attachment C and Strathmore Union Elementary School District Resolution 1112-7, attached hereto.]

8. Demographic Information:

Strathmore Union Elementary School District has a student population of **838** and is located in a **rural area** in **TULARE** County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

6. Education Code or California Code of Regulations section to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District --Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) ~~If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.~~

(b) ~~If a proposal for rearrangement of boundaries is approved by a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.~~

(c) ~~If a proposal for abolishing trustee areas is approved by a majority of the voters voting at the election, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.~~

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 and 5020, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~—In counties with a population of less than 25,000,~~ the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, ~~other than a community college district,~~ amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

Attachment C

7. Desired Outcome/Rationale

The waiver of the election requirements in 5019(d) and 5020 will enable the Strathmore Union Elementary School District (“SUESD” or “District”) to implement a new “by-trustee area” electoral system for its November 2012 elections, will ensure that the District proceeds in the most efficient and cost-effective manner, and will help protect the District from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the District. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

Tulare County has recently become an epicenter of potential litigation under the California Voting Rights Act of 2002, codified at sections 14025–14032 of the California Elections Code (“CVRA”). The CVRA enables voters to challenge “at-large” electoral systems in which elections are characterized by “racially-polarized voting.” As importantly, it authorizes mandatory attorneys’ fee and expert fee awards to successful plaintiffs.

Recent litigation under the Act has resulted in fee awards as high as 7 figures: The City of Modesto defended against a suit under the CVRA and ended up paying \$3 million to plaintiffs’ attorneys, in addition to \$1.7 million to its own attorneys. While that case involved an appeal and (unsuccessful) petitions for review and certiorari to the California and U.S. Supreme Courts, the \$4.7 million did not include any costs for an actual trial, as the case never reached that state, settling before that time. And then in 2008, Madera Unified was sued under the CVRA, and after six weeks of uncontested litigation was served with a fee demand of \$1.2 million (a number that continues to go up as fee proceedings continue).

In recent years, two nearby jurisdictions have been sued under the CVRA—the Tulare Local Healthcare District settled a suit for \$500,000 in 2010, and agreed to put the question of changing its electoral system to the voters; the City of Tulare likewise settled a suit, agreeing to put a similar question to its voters, and to pay plaintiffs’ attorneys’ fees (rumored to be in the range of \$250,000). Faced with this spate of litigation, several of SUESD’s neighboring districts have adopted by-trustee elections under Education Code § 5030(b). In a by-trustee area system of election, candidates for a district’s governing board must reside within a specific geographic subarea of the district called a “trustee area” and candidates are elected only by the voters of that trustee area. They have done so under threat of litigation under the CVRA. We also understand that the same organization that brought the Modesto and Madera suits has made further inquiries regarding other Tulare area districts.

SUESD currently elects its five-member board in “at-large” elections (*i.e.*, elections in which each candidate for the Board is elected by all voters in the District) pursuant to Education Code § 5030(a), and is therefore potentially vulnerable to suit under the CVRA.¹

¹ This does not represent a concession by the District that such a suit would be meritorious. There is presently not any formal allegation of racially-polarized voting in District elections. But no case

On August 10, 2009, the Board adopted Resolution No. 0910-2, initiating an application to the County Committee to change the District's method of election to "by-trustee area" elections, *i.e.*, elections in which "one or more members residing in each trustee area [is] elected by the registered voters of that particular trustee area[.]" Cal. Elec. Code § 5030(b).

On June 15, 2010, the County Committee held a duly-noticed public hearing on the Board's proposal to change the District's method of election. Following that public hearing the County Committee tentatively approved the change of electoral system to "by-trustee area" elections, subject to the subsequent approval by the County Committee of a specific trustee area plan for use in 2012 and future District elections.

On October 10, 2011, following the release of the 2010 Census, the SUESD Board adopted a trustee area plan for submission to, and approval by, the TCCSDO. Action is expected on that proposal in the next few months.

In the normal course, the TCCSDO's approval of a change to the District's electoral system would act as an order of election, submitting the change to the District's voters at the November 2012 election. That, however, will preclude the District from implementing the new system in time for that election. Accordingly, the Board consulted with its advisory committees, school site councils and bargaining units, and held a duly-noticed public hearing, and on October 10, 2011, approved submission of a waiver of the electoral requirement.

If the waiver is approved, a local election would not be held: the system for electing trustees would change pursuant to the Resolution adopted by the SUESD Board in 2009, and the approval of the TCCSDO. This waiver application is submitted contingent upon approval of the application by the TCCSDO.

The District is also proposing a trustee area boundary plan for the TCCSDO's consideration and approval, following an extensive public process. Though that plan will not be subject to an automatic vote of the people, it is subject to the possibility of a referendum under § 5019(d). Such a referendum, if qualified, would defeat the District's ability to implement by-trustee area elections in 2012.

There has been no public opposition to the waiver application. The SUESD Board has therefore determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if a measure to institute by-trustee area elections is defeated, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections. Though the District does not concede that the current system would violate the CVRA, and has not itself been directly threatened with litigation, it has no desire to risk

has yet definitively construed the Act's many ambiguous provisions, and there are outstanding questions about what a plaintiff must prove to prevail under the Act. That uncertainty, coupled with the potential for massive fee awards, creates a significant disincentive to contest such a suit.

costly litigation under the Act.

2. The request for waiver is contingent upon the TCCSDO's approval of by-trustee area elections. The SBE can therefore grant this waiver with the assurance that the District's proposal will nevertheless be subjected to independent review by the TCCSDO, composed of disinterested officials familiar with local circumstances.
3. No member of the public spoke against the waiver at the duly-noticed public hearings.
4. There has been minimal opposition to the plan.

SEE ATTACHMENT A HERETO

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.
Pursuant to EC § 5019(a), the Tulare County Committee on School District Organization (“TCCSDO”) has the authority to approve or disapprove Tulare City School District’s adoption of by-trustee area elections. TCSD adopted a resolution applying to the County Committee to authorize a change of election for the November 2012 election. The TCCSDO has tentatively approved the change, subject to submission and approval of a specific trustee area plan. This waiver is sought contingent on TCCSDO’s approval of the change to the District’s electoral system. The approval of by-trustee area elections by the TCCSDO would normally constitute an order of election (EC § 5020); however, a waiver of the election requirement by SBE would allow for the adoption and subsequent implementation of by-trustee area elections without a local election. Also, the subsequent approval of a specific trustee area plan would normally be subject to a referendum period, but if qualified such a referendum would preclude by-trustee area elections in 2012. 6. Education Code or California Code of Regulations section to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District --Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) ~~If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.~~

(b) ~~If a proposal for rearrangement of boundaries is approved by a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.~~

(c) ~~If a proposal for abolishing trustee areas is approved by a majority of the voters voting at the election, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.~~

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 and 5020, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.~~

Attachment B

7. Desired Outcome/Rationale

The waiver of the election requirements in 5019(d) and 5020 will enable the Tulare City School District (“TCSD” or “District”) to implement a new “by-trustee area” electoral system for its November 2012 elections, will ensure that the District proceeds in the most efficient and cost-effective manner, and will help protect the District from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the District. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

Tulare County has recently become an epicenter of potential litigation under the California Voting Rights Act of 2002, codified at sections 14025–14032 of the California Elections Code (“CVRA”). The CVRA enables voters to challenge “at-large” electoral systems in which elections are characterized by “racially-polarized voting.” As importantly, it authorizes mandatory attorneys’ fee and expert fee awards to successful plaintiffs.

Recent litigation under the Act has resulted in fee awards as high as 7 figures: The City of Modesto defended against a suit under the CVRA and ended up paying \$3 million to plaintiffs’ attorneys, in addition to \$1.7 million to its own attorneys. While that case involved an appeal and (unsuccessful) petitions for review and certiorari to the California and U.S. Supreme Courts, the \$4.7 million did not include any costs for an actual trial, as the case never reached that state, settling before that time. And then in 2008, Madera Unified was sued under the CVRA, and after six weeks of uncontested litigation was served with a fee demand of \$1.2 million (a number that continues to go up as fee proceedings continue).

In recent years, two jurisdictions overlapping the District have been sued under the CVRA—the Tulare Local Healthcare District settled a suit for \$500,000 in 2010, and agreed to put the question of changing its electoral system to the voters; the City of Tulare likewise settled a suit, agreeing to put a similar question to its voters, and to pay plaintiffs’ attorneys’ fees (rumored to be in the range of \$250,000). Faced with this spate of litigation, several of TCSD’s neighboring districts have adopted by-trustee elections under Education Code § 5030(b). In a by-trustee area system of election, candidates for a district’s governing board must reside within a specific geographic subarea of the district called a “trustee area” and candidates are elected only by the voters of that trustee area. They have done so under threat of litigation under the CVRA. We also understand that the same organization that brought the Modesto and Madera suits has made further inquiries regarding other Tulare area districts.

TCSD currently elects its five-member board in “at-large” elections (*i.e.*, elections in which each candidate for the Board is elected by all voters in the District) pursuant to

Education Code § 5030(a), and is therefore potentially vulnerable to suit under the CVRA.¹

On March 9, 2010, the Board adopted Resolution No. 2009/2010-32, initiating an application to the County Committee to change the District's method of election to "by-trustee area" elections, *i.e.*, elections in which "one or more members residing in each trustee area [is] elected by the registered voters of that particular trustee area[.]" Cal. Elec. Code § 5030(b).

On April 22, 2010, the County Committee held a duly-noticed public hearing on the Board's proposal to change the District's method of election. Following that public hearing the County Committee tentatively approved the change of electoral system to "by-trustee area" elections, subject to the subsequent approval by the County Committee of a specific trustee area plan for use in 2012 and future District elections.

On September 13, 2011, following the release of the 2010 Census, the TCSD Board adopted a trustee area plan for submission to, and approval by, the TCCSDO. Action is expected on that proposal in the next few months.

In the normal course, the TCCSDO's approval of a change to the District's electoral system would act as an order of election, submitting the change to the District's voters at the November 2012 election. That, however, will preclude the District from implementing the new system in time for that election. Accordingly, the Board consulted with its advisory committees, school site councils and bargaining units, and held a duly-noticed public hearing, and on June 8, 2010, approved submission of a waiver of the electoral requirement.

The submission was delayed while a trustee area plan was approved and submitted to the TCCSDO. Accordingly, the Board held a supplemental hearing on the waiver application, on September 13, 2011, and re-affirmed its decision to submit this application. If the waiver is approved, a local election would not be held: the system for electing trustees would change pursuant to the Resolution adopted by the TCSD Board in 2009, and the approval of the TCCSDO. This waiver application is submitted contingent upon approval of the application by the TCCSDO.

The District is also proposing a trustee area boundary plan for the TCCSDO's consideration and approval, following an extensive public process. Though that plan will not be subject to an automatic vote of the people, it is subject to the possibility of a referendum under § 5019(d). Such a referendum, if qualified, would defeat the District's ability to implement by-trustee area elections in 2012.

¹ This does not represent a concession by the District that such a suit would be meritorious. There is presently not any formal allegation of racially-polarized voting in District elections. But no case has yet definitively construed the Act's many ambiguous provisions, and there are outstanding questions about what a plaintiff must prove to prevail under the Act. That uncertainty, coupled with the potential for massive fee awards, creates a significant disincentive to contest such a suit.

There has been no public opposition to the waiver application. The TCSD Board has therefore determined that the public interest would be better served if trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if a measure to institute by-trustee area elections is defeated, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections. Though the District does not concede that the current system would violate the CVRA, and has not itself been directly threatened with litigation, it has no desire to risk costly litigation under the Act.
2. The request for waiver is contingent upon the TCCSDO's approval of by-trustee area elections. The SBE can therefore grant this waiver with the assurance that the District's proposal will nevertheless be subjected to independent review by the TCCSDO, composed of disinterested officials familiar with local circumstances.
3. No member of the public spoke against the waiver at the duly-noticed public hearings.
4. There has been minimal opposition to the plan.

LEGAL CRITERIA

- Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): Circle One: **EC** or *CCR*
5020, portions of 5019, 5021, and 5030 jb 10/13/11
Topic of the waiver: **WAIVER OF ELECTORAL REQUIREMENTS OF EDUCATION CODE §§ 5019, 5020 AND 5030 TO ESTABLISH TRUSTEE AREAS AND ADOPT A BY-TRUSTEE AREA ELECTORAL PROCESS**
- If this is a renewal of a previously approved waiver, please list Waiver Number: **N/A** and date of SBE Approval **N/A**
Renewals of waivers must be submitted two months before the active waiver expires.
- Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): **TULARE JOINT UNION HIGH SCHOOL TEACHERS' ASSN/CTA (TJUHSTA) 8/25/11**
CALIFORNIA SCHOOL EMPLOYEES' ASSN (CSEA) 8/25/11
Name of bargaining unit and representative(s) consulted: **JASON EDWARDS, TJUHSTA PRESIDENT**
BEVERLY NAGEL, CSEA PRESIDENT
The position(s) of the bargaining unit(s): **Neutral** Support Oppose (*Please specify why*)
BOTH
Comments (if appropriate):
- Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

 Notice in a newspaper Notice posted at each school Other: (*Please specify*) **Notice of Public Hearing mailed to Parent Teacher Organization Presidents and School Site Council Presidents**
- Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

SEE ATTACHMENT B HERETO

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Pursuant to EC § 5019(a), the Tulare County Committee on School District Organization (“TCCSDO”) has the authority to approve or disapprove Tulare Joint Union High School District’s adoption of by-trustee area elections. TJUHSD adopted a resolution applying to the County Committee to authorize a change of election for the November 2012 election. The TCCSDO has tentatively approved the change, subject to submission and approval of a specific trustee area plan. This waiver is sought contingent on TCCSDO’s approval of the change to the District’s electoral system. The approval of by-trustee area elections by the TCCSDO would normally constitute an order of election (EC § 5020); however, a waiver of the election requirement by SBE would allow for the adoption and subsequent implementation of by-trustee area elections without a local election. Also, the subsequent approval of a specific trustee area plan would normally be subject to a referendum period, but if qualified such a referendum would preclude by-trustee area elections in 2012. [See Attachment C and Tulare Joint Union High School District Resolution, 2011-26, attached hereto.]

8. Demographic Information:
(*District/school/program*)__ has a student population of **5,278** and is located in a __(*urban, rural, or small city etc.*)__ in **TULARE** County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

6. Education Code or California Code of Regulations section to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

~~§ 5020. Presentation of proposal to electors~~

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District --Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District--No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven--No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five--No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area--No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District--No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District--No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) ~~If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election,~~ any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established ~~at such election~~ which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) ~~If a proposal for rearrangement of boundaries is approved by a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required,~~ and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) ~~If a proposal for abolishing trustee areas is approved by a majority of the voters voting at the election,~~ the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization and the registered voters of a district, pursuant to Sections 5019 ~~and 5020~~, respectively, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.~~

Attachment C

7. Desired Outcome/Rationale

The waiver of the election requirements in 5019(d) and 5020 will enable the Tulare Joint Union High School District (“TJUHSD” or “District”) to implement a new “by-trustee area” electoral system for its November 2012 elections, will ensure that the District proceeds in the most efficient and cost-effective manner, and will help protect the District from legal challenges. Approval of the waiver request will not remove the requirement that any future District governing board member be elected by voters in the District. The waiver only eliminates the requirement that an election be held to determine the method by which future board members will be elected.

Tulare County has recently become an epicenter of potential litigation under the California Voting Rights Act of 2002, codified at sections 14025–14032 of the California Elections Code (“CVRA”). The CVRA enables voters to challenge “at-large” electoral systems in which elections are characterized by “racially-polarized voting.” As importantly, it authorizes mandatory attorneys’ fee and expert fee awards to successful plaintiffs.

Recent litigation under the Act has resulted in fee awards as high as 7 figures: The City of Modesto defended against a suit under the CVRA and ended up paying \$3 million to plaintiffs’ attorneys, in addition to \$1.7 million to its own attorneys. While that case involved an appeal and (unsuccessful) petitions for review and certiorari to the California and U.S. Supreme Courts, the \$4.7 million did not include any costs for an actual trial, as the case never reached that state, settling before that time. And then in 2008, Madera Unified was sued under the CVRA, and after six weeks of uncontested litigation was served with a fee demand of \$1.2 million (a number that continues to go up as fee proceedings continue).

In recent years, two jurisdictions overlapping the District have been sued under the CVRA—the Tulare Local Healthcare District settled a suit for \$500,000 in 2010, and agreed to put the question of changing its electoral system to the voters; the City of Tulare likewise settled a suit, agreeing to put a similar question to its voters, and to pay plaintiffs’ attorneys’ fees (rumored to be in the range of \$250,000). Faced with this spate of litigation, several of TJUHSD’s neighboring districts have adopted by-trustee elections under Education Code § 5030(b). In a by-trustee area system of election, candidates for a district’s governing board must reside within a specific geographic subarea of the district called a “trustee area” and candidates are elected only by the voters of that trustee area. They have done so under threat of litigation under the CVRA. We also understand that the same organization that brought the Modesto and Madera suits has made further inquiries regarding other Tulare area districts.

TJUHSD currently elects its five-member board in “at-large” elections (*i.e.*, elections in which each candidate for the Board is elected by all voters in the District) pursuant to

Education Code § 5030(a), and is therefore potentially vulnerable to suit under the CVRA.¹

On April 15, 2010, the Board adopted Resolution No. 2010-06, initiating an application to the County Committee to change the District's method of election to "by-trustee area" elections, *i.e.*, elections in which "one or more members residing in each trustee area [is] elected by the registered voters of that particular trustee area[.]" Cal. Elec. Code § 5030(b).

On June 29, 2010, the County Committee held a duly-noticed public hearing on the Board's proposal to change the District's method of election. Following that public hearing the County Committee tentatively approved the change of electoral system to "by-trustee area" elections, subject to the subsequent approval by the County Committee of a specific trustee area plan for use in 2012 and future District elections.

On October 6, 2011, following the release of the 2010 Census, the TJUHSD Board adopted a trustee area plan for submission to, and approval by, the TCCSDO. Action is expected on that proposal in the next few months.

In the normal course, the TCCSDO's approval of a change to the District's electoral system would act as an order of election, submitting the change to the District's voters at the November 2012 election. That, however, will preclude the District from implementing the new system in time for that election. Accordingly, the Board consulted with its advisory committees, school site councils and bargaining units, and held a duly-noticed public hearing, and on September 15, 2011, approved submission of a waiver of the electoral requirement.

If the waiver is approved, a local election would not be held: the system for electing trustees would change pursuant to the Resolution adopted by the TJUHSD Board in 2010, and the approval of the TCCSDO. This waiver application is submitted contingent upon approval of the application by the TCCSDO.

The District is also proposing a trustee area boundary plan for the TCCSDO's consideration and approval, following an extensive public process. Though that plan will not be subject to an automatic vote of the people, it is subject to the possibility of a referendum under § 5019(d). Such a referendum, if qualified, would defeat the District's ability to implement by-trustee area elections in 2012.

There has been minimal public opposition to the waiver application.² The TJUHSD Board has therefore determined that the public interest would be better served if

¹ This does not represent a concession by the District that such a suit would be meritorious. There is presently not any formal allegation of racially-polarized voting in District elections. But no case has yet definitively construed the Act's many ambiguous provisions, and there are outstanding questions about what a plaintiff must prove to prevail under the Act. That uncertainty, coupled with the potential for massive fee awards, creates a significant disincentive to contest such a suit.

² At the public hearing on September 15, one individual—Robert Quiroz—did not oppose a waiver in principle, but asked that *if the Board were to adopt either Plan #1 or Plan #2*, proposed by the District's demographer, National Demographics Corporation, and opposed by Mr. Quiroz, that the choice be

trustees were elected by-trustee areas and makes the following points in support of the waiver:

1. Questions have been raised about the current electoral system's legality under the California Voting Rights Act. If not waived and if a measure to institute by-trustee area elections is defeated, the District would continue to be vulnerable to a legal challenge regarding the establishing of by-trustee area elections. Though the District does not concede that the current system would violate the CVRA, and has not itself been directly threatened with litigation, it has no desire to risk costly litigation under the Act.
2. The request for waiver is contingent upon the TCCSDO's approval of by-trustee area elections. The SBE can therefore grant this waiver with the assurance that the District's proposal will nevertheless be subjected to independent review by the TCCSDO, composed of disinterested officials familiar with local circumstances.
3. No member of the public spoke against the waiver at the duly-noticed public hearing,³ and there has been minimal opposition to the plan.

submitted to the voters. On October 6 the Board adopted NDC Plan #3 instead. Mr. Quiroz has endorsed Plan #3.

³ See note 2, *supra*.

Local educational agency: Vista Unified School District		Contact name and Title: Donna Caperton, Assistant Superintendent		Contact person's e-mail address: DCaperton@ vusd.k12.ca.us	
Address: 1234 Arcadia Avenue		(City) Vista	(State) CA	(ZIP) 92084-3404	Phone (and extension, if necessary): 760-726-2170 X 2222
LS 10/31/11					Fax Number: 760-631-7029
Period of request: (month/day/year) Nov. 13, 2013 From: Nov. 15, 2011 To: Nov. 14, 2013		Local board approval date: (Required) October 6, 2011		Date of public hearing: (Required) October 6, 2011	

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): **5020; portions of 5019, 5021, and 5030** Circle One: **EC** or **CCR**

Topic of the waiver: **WAIVER OF ELECTIONS REQUIREMENT(S) FOR CHANGE TO TRUSTEE AREA ELECTIONS**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: **N/A** and date of SBE Approval **N/A**
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): **July 23, 2011; August 23, 2011**

Name of bargaining unit and representative(s) consulted: **Vista Teachers Association, Barbara Franklin, President
California School Employees Association (Chapter 389), Wendy Lamb, President**
LS 10/31/11

The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)

Comments (if appropriate): **Bargaining units acknowledge need for transition to reduce any potential risk of costly litigation under California Voting Rights Act.**

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

Notice in a newspaper Notice posted at each school Other: (*Please specify*) **Notice placed in North County Times (9/26; 10/4); Notice posted in 3 public places in the District (9/26); Notice posted on District website (9/26)**

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver: **District Parent Advisory Committee (DPAC); Del Norte PTA (represents all PTA's for all school sites); City of Vista**

Date the committee/council reviewed the waiver request: **DPAC (5/11/11, 10/12/11); Del Norte PTA (9/6/11); City of Vista (9/30/11)**

Were there any objection(s)? No Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

Please see Attachment A, attached hereto and incorporated herein.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

This waiver is requested to expedite efforts by the Vista Unified School District (“District”) to ensure compliance with the California Voting Rights Act (Elections Code §§ 14025 et seq.) (“CVRA”). By granting this waiver, the District will be able to implement its new “by-trustee area” election system for its November 2012 elections to reduce any potential liability under the CVRA. Due to the fact the CVRA grants a prevailing plaintiff the right to reasonable attorneys’ fees and expert witness fees, the District seeks to reduce the risk of costly litigation under the CVRA. By reducing the risk of such costly litigation in an expeditious and cost-efficient manner, the District will be able to ensure cuts to necessary and valuable District student programs are not needed because of claims being brought under the CVRA.

8. Demographic Information:
Vista Unified School District has a student population of approximately 26,000 and is located in a urban city in San Diego County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

6. Education Code sections to be waived

Request to waive the following sections and portions of the Education Code lined out below:

§ 5019. Trustee areas and size of school district governing boards; powers of county committee; proposal and hearing

(a) Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district, the county committee on school district organization may establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or adopt one of the alternative methods of electing governing board members specified in Section 5030.

(b) The county committee on school district organization may establish or abolish a common governing board for a high school district and an elementary school district within the boundaries of the high school district. The resolution of the county committee on school district organization approving the establishment or abolition of a common governing board shall be presented to the electors of the school districts as specified in Section 5020.

(c) (1) A proposal to make the changes described in subdivision (a) or (b) may be initiated by the county committee on school district organization or made to the county committee on school district organization either by a petition signed by 5 percent or 50, whichever is less, of the qualified registered voters residing in a district in which there are 2,500 or fewer qualified registered voters, by 3 percent or 100, whichever is less, of the qualified registered voters residing in a district in which there are 2,501 to 10,000 qualified registered voters, by 1 percent or 250, whichever is less, of the qualified registered voters residing in a district in which there are 10,001 to 50,000 qualified registered voters, by 500 or more of the qualified registered voters residing in a district in which there are 50,001 to 100,000 qualified registered voters, by 750 or more of the qualified registered voters residing in a district in which there are 100,001 to 250,000 qualified registered voters, or by 1,000 or more of the qualified registered voters residing in a district in which there are 250,001 or more qualified registered voters or by resolution of the governing board of the district. For this purpose, the necessary signatures for a petition shall be obtained within a period of 180 days before the submission of the petition to the county committee on school district organization and the number of qualified registered voters in the district shall be determined pursuant to the most recent report submitted by the county elections official to the Secretary of State under Section 2187 of the Elections Code.

(2) When a proposal is made pursuant to paragraph (1), the county committee on school district organization shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee on school district organization shall approve or disapprove the proposal.

~~(d) If the county committee on school district organization approves pursuant to subdivision (a) the rearrangement of the boundaries of trustee areas for a particular district, then the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. The petition for an election shall be submitted to the county elections official within 60 days of the proposal's adoption by the county committee on school district organization. If the qualified registered voters approve pursuant to subdivision (b) or (c) the rearrangement of the boundaries to the trustee areas for a particular district, the rearrangement of the trustee areas shall be effective for the next district election occurring at least 120 days after its approval by the voters.~~

§ 5020. Presentation of proposal to electors

~~(a) The resolution of the county committee approving a proposal to establish or abolish trustee areas, to adopt one of the alternative methods of electing governing board members specified in Section 5030, or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board.~~

~~(b) If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(c) If a petition requesting an election on a proposal to establish or abolish trustee areas, to increase or decrease the number of members of the board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030 is filed, containing at least 10 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, at the next succeeding election for the members of the governing board, at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot. Before the proposal is presented to the electors, the county committee on school district organization may call and conduct one or more public hearings on the proposal.~~

~~(d) The resolution of the county committee approving a proposal to establish or abolish a common governing board for a high school and an elementary school district within the boundaries of the high school district shall constitute an order of election. The proposal shall be presented to the electors of the district at the next succeeding statewide primary or general election, or at the next succeeding regularly scheduled election at which the electors of the~~

~~district are otherwise entitled to vote, provided that there is sufficient time to place the issue on the ballot.~~

~~(e) For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:~~

~~"For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—Yes" and "For the establishment (or abolition or rearrangement) of trustee areas in _____ (insert name) School District—No."~~

~~"For increasing the number of members of the governing board of _____ (insert name) School District from five to seven—Yes" and "For increasing the number of members of the governing board of _____ (insert name) School District from five to seven—No."~~

~~"For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five—Yes" and "For decreasing the number of members of the governing board of _____ (insert name) School District from seven to five—No."~~

~~"For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District—Yes" and "For the election of each member of the governing board of the _____ (insert name) School District by the registered voters of the entire _____ (insert name) School District—No."~~

~~"For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area—Yes" and "For the election of one member of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters in that trustee area—No."~~

~~"For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District—Yes" and "For the election of one member, or more than one member for one or more trustee areas, of the governing board of the _____ (insert name) School District residing in each trustee area elected by the registered voters of the entire _____ (insert name) School District—No."~~

~~"For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District—Yes" and "For the establishment (or abolition) of a common governing board in the _____ (insert name) School District and the _____ (insert name) School District—No."~~

~~—If more than one proposal appears on the ballot, all must carry in order for any to become effective, except that a proposal to adopt one of the methods of election of board members specified in Section 5030 which is approved by the voters shall become effective unless a proposal which is inconsistent with that proposal has been approved by a greater number of voters. An inconsistent proposal approved by a lesser number of voters than the number which have approved a proposal to adopt one of the methods of election of board members specified in Section 5030 shall not be effective.~~

§ 5021. Incumbents to serve out terms despite approval of change

(a) If a proposal for the establishment of trustee areas formulated under Sections 5019 ~~and 5020~~ is approved ~~by a majority of the voters voting at the election~~, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established ~~at such election~~ which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by ~~a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required~~, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved ~~by a majority of the voters voting at the election~~, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

§ 5030. Alternate method of election

Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization ~~and the registered voters of a district~~, pursuant to Sections 5019 ~~and 5020, respectively~~, may at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That one or more members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he or she represents.

The recommendation shall provide that any affected incumbent member shall serve out his or her term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever trustee areas are established in a district, provision shall be made for one of the alternative methods of electing governing board members.

~~—In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district, other than a community college district, amend the provision required by this~~

section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM W-5

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

Specific Waiver

<p>SUBJECT</p> <p>Request by two districts, under the authority of California <i>Education Code</i> Section 41382, to waive portions of <i>Education Code</i> sections 41376 (a), (c), and (d) and/or 41378 (a) through (e), relating to class size penalties for kindergarten through grade three. For kindergarten, the overall class size average is 31 to one with no class larger than 33. For grades one through three, the overall class size average is 30 to one with no class larger than 32.</p> <p>Waiver Numbers: Los Banos Unified 21-10-2011 Wasco Union Elementary 10-10-2011</p>	<p><input checked="" type="checkbox"/> Action</p> <p><input checked="" type="checkbox"/> Consent</p>
--	--

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE), based on the finding below, recommends that the class size penalties for kindergarten through grade three will be waived provided that the overall average and individual class size average is not greater than the CDE recommended class size on Attachment 1. The waivers do not exceed two years less one day.

Finding: Given the extremely challenging fiscal environment for California schools and the specific financial circumstances described by each district in its waiver application, the State Board of Education (SBE) finds that the districts' continued ability to maintain the delivery of instruction and required program offerings in all core subjects, including reading and mathematics, will be seriously compromised by the financial penalties the districts would otherwise incur without approval of the requested waiver. In these circumstances, the SBE finds specifically that the class size penalty provisions of *Education Code (EC)* sections 41376 and/or 41378 will, if not waived, prevent the districts from developing more effective educational programs to improve instruction in reading and mathematics in the classes specified in the districts' applications.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Since September 2009, the SBE has approved all kindergarten through grade three class size penalty waiver requests as proposed by CDE. Before the September 2009 board meeting, no waivers had been submitted since 1999.

SUMMARY OF KEY ISSUES

Education Code Section 41382 allows the SBE to approve an exemption to the class size penalties assessed for kindergarten through grade three if the associated statutory class size requirements prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics. Under this authority, these districts are requesting a waiver of subdivisions (a) through (e) of *EC* Section 41378, which provide for a penalty if the average class size on a district-wide basis for kindergarten exceeds 31 students or individual class levels exceed 33, and/or subdivisions (a), (c), and (d) of *EC* Section 41376, which provide for a penalty if the average class size on a district-wide basis for grades one through three exceeds 30 students, or individual class levels exceed 32. Since this particular statute regarding class size limits was written in 1964, given the current fiscal environment in school districts statewide, consideration of this and similar waivers is warranted.

The districts listed on Attachment 1 request flexibility to temporarily increase class sizes in kindergarten through grade three, or grades one through three, to reduce expenditures in light of the statewide budget crisis and the associated reductions in revenue limit funds provided by the state. Since fiscal year 2008-09, most districts have experienced at least a 10 percent reduction in revenue limit funding in addition to the elimination of statutory cost of living adjustments. Furthermore, payments for over one-quarter of what they are due have been deferred until the next fiscal year.

A positive certification is assigned to a school district that will meet its financial obligations in the current and two subsequent fiscal years. A qualified certification is assigned when a district may not meet its financial obligations for the current or two subsequent fiscal years. A negative certification is assigned when a district will be unable to meet its financial obligations for the remainder of the current year or for the subsequent fiscal year. Each district's most recent status is identified on Attachment 1.

To address funding reductions, districts are using various options in addition to increasing class size, including categorical program spending flexibility, reducing the number of days in the school year, employee furloughs, salary reductions, layoffs, or school closures.

Each district states that without the waiver, the core reading and math programs will be compromised by the fiscal penalties incurred. The estimated annual penalty should the district increase the class size average without a waiver is provided on Attachment 1.

The Department recommends, based on the finding above, that the class size penalties for kindergarten through grade three be waived provided the overall average and the individual class size average is not greater than the CDE recommended level shown on Attachment 1. Should any district exceed this new limit, the class size penalty would be applied per statute.

FISCAL ANALYSIS (AS APPROPRIATE)

See Attachment 1 for estimated penalty amounts for each district without the waiver approval.

Period of request: (month/day/year) From: July 1, 2012 To: June 30, 2014				Local board approval date: (Required) October 13, 2011				

LEGAL CRITERIA

1. Authority for the waiver: EC 41382 Specific code section: 41382 Exemption from penalty provisions: application to State Board of Education
The principal of any elementary school maintaining kindergarten classes or regular day classes in grades 1 to 3, inclusive, may recommend to the governing board of the school district to adopt a resolution determining that an exemption should be granted from any of the provisions of Section 41376 and Section 41378.

2. *Education Code or California Code of Regulations or portion to be waived.*
Section to be waived: EC 41376a c and d Circle One: **EC** or CCR
EC 41376a For grades 1 to 3 inclusive, she shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class and the total of the numbers of pupils which are in excess of thirty(30) in each class. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size of all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.
The Education code sets the district average number of students for grades 1-3 as no more than 30. Class sizes over 30 in these grades will be assessed a penalty. This waiver requests the class size average be set at 31 without penalty.

3. If this is a renewal of a previously approved waiver, please list Waiver No: 27-6-2010-W-3 and date of SBE approval September 16, 2010
Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.

4. Collective bargaining unit information. (Not necessary for EC 56101 waivers)
Does the district have any employee bargaining units? ___ No ___x Yes If yes, please complete required information below:
Bargaining unit(s) consulted on date(s): August 25, 2011 Los Banos Teachers Association
Name of bargaining units and representative(s) consulted: Los Banos Teachers Association, Anthony Parreira, Pres.
The position(s) of the bargaining unit(s): ___ Neutral ___x Support ___ Oppose (*Please specify why*)
Comments (if appropriate): Los Banos Teachers Association Collective Bargaining Contract Article XI provides classes in grade K-3 not exceed 31.

5. Advisory committee or school site council that reviewed the waiver. Name: Los Banos Elementary, September 12, 2011, Lorena Falasco Elementary, September 1, 2011, Henry Miller Elementary, August 30, 2011, Westside Elementary, September 13, 2011.

Per EC 33051(a) if the waiver affects a program that requires a school site council that council must **approve** the request.
Date advisory committee/council reviewed request:

Approve Neutral Oppose

CALIFORNIA DEPARTMENT OF EDUCATION
SPECIFIC WAIVER REQUEST
SW-1 (Rev. 10-2-09)

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a **strike out key** if only portions of sections are to be waived). (Attach additional pages if necessary.)

EC 413776 a For grades 1 to 3, inclusive, she shall determine the number of classes, the number pupils enrolled in each class, the total enrollment in all such classes, ~~the average number of pupils enrolled per class and the total of the numbers of pupils which are in excess of thirty(30) in each class. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size of all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.~~ **See attached correction**

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

The District is requesting the class size limit be waive and allow the class size to increase to 31 in grades 1-3 without penalty. Los Banos Teachers Association Collective Bargaining Contract Article XI Sections 1-4 states class sizes in grade 1-3 to not exceed 31. Due to the current State budget crisis, the District lost revenue and/or had projected revenue deferred. Raising class size to the limits agreed in the contract with Los Banos Teacher's Association will result in the District being better able to meet the needs of the District in the present crisis.

8. Demographic Information:
Los Banos Unified School Distric has a student population of 9,511 and is located in a rural area_ in Merced County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

Correction to Waiver Renewal application for Los Banos Unified School District CD code 2465755

Previous approved waiver # 27-6-2010-W-3 September 16, 2010

1. Education Code 41376 (a)(c) and (d) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: *EC* 41376 (a)(c) and (d) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) ~~For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.~~ (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. ~~(c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.~~ (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the

~~provisions of Section 41601 by the product determined under subdivision (c) of this section~~

2. If the waiver is not approved and we are not able to increase class size, our limited district resources will be needed to hire additional teachers and obtain facilities to house the additional classrooms. This additional expense would mean support personnel who assist students in reading and mathematics would be cut, materials for these subject areas would be reduced, intervention programs and personnel in reading and mathematics would be cut. Money supporting these programs would need to be utilized to provide additional teaching staff and classroom facilities. If the waiver is not approved costs of running the elementary programs would dictate the loss of class size controls at the secondary level and that many secondary programs would be impacted, including A-G courses being eliminated.
3. The estimated penalty cost if the waiver is not approved at the requested level for the two years would be \$1.16 million.

5. Advisory committee or school site council that reviewed the waiver. Name: District Advisory Committee/District English Learner Advisory Committee on 10/4/11 ecc 10-31-11

Per EC 33051(a) if the waiver affects a program that requires a school site council that council must **approve** the request. Date advisory committee/council reviewed request:

XX Approve ___ Neutral ___ Oppose
Were there any objection? Yes ___ No XX (If there were objections please specify)

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a **strike out key** if only portions of sections are to be waived). (Attach additional pages if necessary.)

~~EC 41378. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes. (a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils enrolled per class. (b) The total number of pupils which are in excess of thirty-three (33) in each class having an enrollment of more than thirty-three (33). (c) The total number of pupils by which the average class size in the district exceeds 31. (d) The greater number of pupils as determined in (b) or (c) above. (e) He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (d) of this section by ninety-seven hundredths (0.97). He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.~~

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

The District requests a waiver to increase the district-wide average number of pupils per teacher in Kindergarten (per Ed. Code 41378) from the current 31 students to 33.

The District operates four K-6 neighborhood schools. At this time two have Kindergarten class loads at 33, one at 31, and one at 25. Our District average is approaching 31.

In light of the current statewide budget crisis and the reduced revenue to our school district, the potential to increase class size allows us to lower expenditures by not hiring additional staff. By allowing the District to increase average class size to 33 in Kindergarten, we anticipate a potential expenditure reduction which would directly influence District's operations and ability to maintain the delivery of instruction and required program offerings in all core subjects, including reading and mathematics. The District's ability would be seriously compromised by the financial penalties the district would otherwise incur without the requested waiver.

8. Demographic Information:
The Wasco Union Elementary School District has a student population of 3,318 and is located in a small rural community in Kern County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) XX No ___ Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? XX No ___ Yes
(If yes, please attach explanation or copy of CPM finding)

RE: Consider Approval of Specific Waiver Request: to increase Kindergarten classroom average enrollment from 31 students to 33 students

Background Information:

Due to the recent decrease in funding to school districts in California, several districts have found it necessary to submit waivers to State Board of Education to prevent class size penalties related to their efforts to balance their budgets. Our current class size average in Kindergarten is 30.6 students. We are required to remain an average below 31 students district-wide or pay penalties related to exceeding this limitation that was imposed during legislation that occurred in 1964.

Analysis

Given the extremely challenging fiscal environment presently facing all California schools and the specific financial circumstances described by the district in its waiver application, the Board finds that the district's continued ability to maintain the delivery of instruction and required program offerings in all core subjects, including reading and mathematics, will be seriously compromised by financial penalties the district could otherwise incur without the requested waiver. In these circumstances, the Board finds specifically that the class size penalty provisions of Education Code section 41378 will, if not waived, prevent the district from developing more effective educational programs to improve instruction in reading and mathematics in the classes specified in the district's application.

Student Achievement Impact

In many studies class size does not impact Student Achievement simplicity. We will continue to provide support to ensure the impact is minimal.

Fiscal Impact and Funding Source

If the waiver is not approved the Wasco Union School District would have to return General Fund State Aid in the form of penalties of \$6,272.55 for each student over the average limit.

Administrative Recommendation

I recommend approval of the Specific Waiver Request: to increase Kindergarten classroom average enrollment from 31 students to 33 students

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

<p>SUBJECT</p> <p>Request by two districts to waive portions of California <i>Education Code</i> Section 41376 (b) and (e), relating to class size penalties for grades four through eight. A district's current class size maximum is the greater of the 1964 statewide average of 29.9 to one or the district's 1964 average.</p> <p>Waiver Numbers: Los Banos Unified District 20-10-2011 Tulare City School District 23-10-2011</p>	<p><input checked="" type="checkbox"/> Action</p> <p><input checked="" type="checkbox"/> Consent</p>
--	--

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education recommends that the class size penalty in grades four through eight be renewed provided the class size average is not greater than the recommended new maximum average shown on Attachment 1 for each district. These waivers do not exceed two years less one day, therefore, *Education Code (EC)* Section 33051(b) will not apply, and the districts must reapply to continue the waiver.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Since September 2009, the State Board of Education (SBE) has approved all grades four through eight class size penalty waiver requests. Before the September 2009 board meeting, no waivers had been submitted since 1999.

SUMMARY OF KEY ISSUES

The various districts listed on Attachment 1 request a waiver of subdivisions (b) and (e) of *EC* Section 41376, which relates to class size penalties for grades four through eight that reduce a district's revenue limit funding. A class size penalty is assessed for grades four through eight if a district exceeds the greater of the district's class size average in 1964 or the statewide average set in 1964. Statewide, 292 districts out of 883 or 33 percent of districts in California can have a class size average greater than 29.9.

The districts listed on Attachment 1 request to temporarily increase class sizes in grades four through eight to reduce expenditures in light of the statewide budget crisis and reductions in revenue limit funding. Since fiscal year 2008-09 most districts have experienced at least a 10 percent reduction in revenue limit funding in addition to the elimination of statutory cost of living adjustments. Furthermore, payments for over

SUMMARY OF KEY ISSUES (Cont.)

one-quarter of what they are due have been deferred until the next fiscal year.

A positive certification is assigned to a school district that will meet its financial obligations in the current and two subsequent fiscal years. A qualified certification is assigned when a district may not meet its financial obligations for the current or two subsequent fiscal years. A negative certification is assigned when a district will be unable to meet its financial obligations for the remainder of the current year or for the subsequent fiscal year. Each district's most recent status is identified on Attachment 1.

To address funding reductions, districts are using various options in addition to increasing class size, including categorical program spending flexibility, reducing the number of days in the school year, employee furloughs, salary reductions, layoffs, or school closures. The statutes being waived do not preclude a district from increasing class sizes above certain maximums. **Therefore, by denying the waiver, the SBE does not ensure that the districts will not raise their class size averages.** Rather, the SBE would ensure that the districts will have to absorb additional funding cuts if the districts choose to do so.

The Department recommends the class size penalty in grades four through eight be waived for each district provided the class size average is not greater than the recommended new maximum shown on Attachment 1. Should the district exceed this limit, the class size penalty would be calculated as required by statute. The estimated annual penalty should the district increase the class size average without a waiver is provided on Attachment 1.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

See Attachment 1 for estimated penalty amounts for each district without the waiver approval.

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): EC 41376
Circle One: EC or CCR

Topic of the waiver: Grades 4-6 class size

2. If this is a renewal of a previously approved waiver, please list Waiver Number: 32-6-2010-W-9 and date of SBE Approval September 16, 2010
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): August 25, 2011

Name of bargaining unit and representative(s) consulted: Los Banos Teachers Association, Anthony Parreira, Pres.

The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)

Comments (if appropriate): Los Banos Teachers Association Collective Bargaining Contract Article XI Sections 1-4 provides classes in grade 4-6 not exceed 33.

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

Notice in a newspaper Notice posted at each school Other: (*Please specify*)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Date the committee/council reviewed the waiver request: Los Banos Elementary, September 12, 2011, Lorena Falasco Elementary, September 1, 2011, Henry Miller Elementary, August 30, 2011, Westside Elementary, September 13, 2011.

Were there any objection(s)? No x Yes ____ (If there were objections please specify)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

EC 41376

B For grade 4 to 8 (1) ~~Determine the number of pupils by which the average number of pupils per each full time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of public instruction, for October 30, 1964 or the average number of pupils per each full time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 196 as selected by the governing board.~~

See attached ECC 10-27-11

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The District desires a class size waiver to allow the average class size in grades 4-6 to not exceed 33.

Due to the current State budget crisis, district revenue has decreased and/or been deferred. Raising the class size to the limits agreed in the contract with Los Banos Teacher's Association will result in the District being better able meet the needs of the students in the District in the present crisis.

8. Demographic Information:

Los Banos Unified School District has a student population of 9,511 and is located in a rural area in Merced County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Los Banos Unified School District

Item 6 "EC to be waived":

41376(b) and (e) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30. ~~(b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section. (e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation: He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.~~

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST

GW-1 (Rev. 10-2-09) <http://www.cde.ca.gov/re/lr/wr/>

First Time Waiver:
Renewal Waiver: X

Send Original plus one copy to:
Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send Electronic copy in **Word** and
back-up material to: waiver@cde.ca.gov

CD CODE						
5	4	7	2	2	3	1

Local educational agency: Tulare City School District			Contact name and Title: Clare Gist			Contact person's e-mail address: cgist@tcsd.k12.ca.us		
Address: (City)		(State)		(ZIP)		Phone (and extension, if necessary): 559-685-7206		
600 North Cherry		Tulare		CA		93274		Fax Number: 559-685-7248
Period of request: (month/day/year)			Local board approval date: (Required)			Date of public hearing: (Required)		
From: 8/10/2012 To: 6/14/2014			October 11, 2011			October 11, 2011		

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): **EC 41376 (b) and (e)** Circle One: **EC** or CCR

Topic of the waiver: **To Waive the Class Size Penalty (Grades 4-8)**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: 13-10-2110-W-3 and date of SBE Approval 2/14/11
Renewals of waivers must be submitted two months before the active waiver expires. **N/A**

3. Collective bargaining unit information. Does the district have any employee bargaining units? No X Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): **TCTA on 8/29/11 CSEA on 8/23/11**

Name of bargaining unit and representative(s) consulted: **Tulare City Teachers Association-President Amy Grimmer (Teacher) and California Schools Employee Association-President Sandy Curry (School Secretary)**

The position(s) of the bargaining unit(s): Neutral X Support Oppose (*Please specify why*)

Comments (if appropriate): **None**

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

 X Notice in a newspaper X Notice posted at each school X Other: (*Please specify*) **Posted District Central Office**

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

District Advisory Committee (DAC)

Date the committee/council reviewed the waiver request: **October 13, 2011**

Were there any objection(s)? No X Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

41376(b) and (e) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30. ~~(b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section. (e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation: He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.~~

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The desired outcome is for the California State Board of Education to waive the requested section of the California Education Code to allow the district the ability to increase class size from the current law which requires districts not to exceed the 29.9 student to teacher ratio that existed in 1964 to a ratio of 33:1 in grades four (4) – eight (8).

The current master contract between Tulare City School District and Tulare City Teachers' Association states that in grades four (4) through eight (8) students assigned to any teacher in the district at any one time shall not normally exceed thirty-three (33). Due to the current fiscal crisis which has resulted in a unprecedented reductions in our district's revenue limit it is vital that we be granted the ability to exceed the current law restricting class size in grades four (4) – eight (8) in order to reduce ongoing expenditures.

The savings of moving to this marginally larger class size is currently estimated at \$350,000. To make reductions of this amount programs that support for all students (counselors, professional development coaches, ESL support and intervention aides), especially those at greatest risk and our elective programs, such as music and the arts would have a much more devastating impact on our student population than the marginal impact of increasing class size.

Both the Tulare City Teachers Association and California School Employees Association are in support of increasing class size in order to prevent cuts to other student programs. The limited term of the waiver ensures that the district will review this increase as school financing improves.

8. Demographic Information:
Tulare City School District has a student population of 9299 (CBEDS) and is located in a rural area of Tulare County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

ITEM W-7

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

Specific Waiver

SUBJECT Request by Calexico Unified School District under the authority of the California <i>Education Code</i> Section 46206(a) to waive <i>Education Code</i> Section 46200(c) audit penalty for offering fewer instructional days in the 2009-10 fiscal year and <i>Education Code</i> Section 46201(d) for offering fewer instructional minutes. Waiver Number: 20-6-2011	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Consent
---	---

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE) recommends that the State Board of Education (SBE) approve the waiver request on the following conditions:

That beginning in 2010-11 and continuing through 2011-12, Calexico Unified School District (USD) maintains increased instructional minutes and days and reports the increase in its yearly audits. The specific increases by school site are as follows:

Elementary Schools

All seven elementary schools (*Blanche Charles Elementary, Cesar Chavez Elementary, Dool Elementary, Jefferson Elementary, Kennedy Gardens Elementary, Mains Elementary, and Rockwood Elementary*) must maintain instructional minutes at a minimum of 49,333 in grades one through three and a minimum of 53,253 in grades four through six. In addition each elementary school must maintain increased instructional days to 180 in kindergarten and grades one through six.

Middle Schools

Enrique Camarena Junior High School serves grades seven and eight. Grades seven and eight are not in need of increased instructional minutes, but must maintain increased instructional days to 177.

William Moreno Junior High School serves grades seven and eight. Grades seven and eight are not in need of increased instructional minutes, but must maintain increased instructional days to 177.

De Anza 9th Grade Academy primarily serves pupils in the ninth grade, but served 120 pupils in the seventh and eighth grades in 2010-11. Calexico was not deficient in instructional minutes in the seventh and eighth grade. In 2011-12 De Anza only serves pupils in the ninth grade. De Anza 9th Grade Academy must maintain instructional

RECOMMENDATION (cont.)

minutes at a minimum of 64,607 in grade nine and increased instructional days to 177 in grade nine in 2010-11 and 2011-12.

High Schools

Aurora High School (continuation high school) is not in need of increased instructional minutes, but must maintain increased instructional days to 180 in grades nine through twelve.

Calexico High School must maintain instructional minutes at a minimum of 64,458 in grades 10 through 12 and must maintain increased instructional days to 180 in grades 10 through 12.

Additionally, CDE recommends that to the extent any 2011-12 legislation allow LEAS to reduce the currently required instructional days and minutes during the 2011-12 school year, that Calexico USD be permitted to amend its instructional day and minute offering to be at least the required makeup days and minutes (the number of days and minutes short in the 2009-10 fiscal year) plus the new minimum required instructional days and minutes commensurate with the provisions of that legislation.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The SBE has approved similar requests with conditions. *Education Code (EC)* Section 46206 authorizes waivers to be granted for fiscal penalties because of a shortfall in instructional days and minutes. A waiver may be granted upon the condition that the school or schools in which the minutes, days, or both were lost, maintain minutes and days of instruction equal to those lost, in addition to the minimum amount, for twice the number of years that it failed to maintain the required minimum length of time.

This waiver is eligible for the consent calendar because it meets statutory waiver conditions. This waiver meets the statutory criteria in *EC* Section 46206(b).

SUMMARY OF KEY ISSUES

As a result of the impact of an earthquake on April 4, 2010 measuring a magnitude of 7.2 near Mexicali, B.C., Mexico, the Calexico USD closed its schools for a period of 17-22 days. On May 14, 2010, the district submitted a Request for Allowance of Attendance Because of Emergency Conditions (J-13A) to the Imperial County Office of Education (ICOE) in which it asked for an attendance allowance for the entire period of school closure. The ICOE supported 10 days of attendance allowance, leaving Calexico with additional days and minutes short of statutorily required instructional days and minutes. Based on 2009-10 audit findings, Calexico is short in instructional minutes in grades one through six and grades nine through twelve. Calexico is also short 2-7 instructional days in each grade span.

SUMMARY OF KEY ISSUES (cont.)

Calexico USD is using school years 2010-11 and 2011-12 to make up the missed minutes and days and has already included additional days in its 2010-11 calendar.

Due to the flexibility offered by *EC* Section 46201.2, the minimum number of required school days is 175 days per year and the required number of minutes is proportionately reduced for 2009-10 through 2014-15. Therefore, the district must maintain at least 49,333 (49,000, required minutes + 333, minutes short) instructional minutes in grades one through three, 53,253 (52,500 required minutes + 753 minutes short) instructional minutes in grades four through six, 64,607 (63,000 required minutes + 1,607 minutes short) instructional minutes in grade nine, and 64,458 (63,000 required minutes + 1,458 minutes short) instructional minutes in grades 10 through 12 beginning in school year 2010-11 and continuing through school year 2011-12. Calexico USD must also report the increase in its yearly audits. In addition, Calexico USD must maintain increased instructional days to a minimum of 180 in kindergarten and grades one through six, a minimum of 177 in grades seven through nine, and a minimum of 180 in grades 10 through 12 beginning in school year 2010-11 and continuing through school year 2011-12 and report the increase in its yearly audits.

The Department recommends approval of this waiver provided that beginning in 2010-11 and continuing through 2011-12, Calexico USD, maintains increased instructional minutes and days and reports the increase in its yearly audits. The specific increases by school site are as described in the Recommendation section above.

Demographic Information: Calexico USD has a student population of 9,269 enrolled pupils and is located in the urban fringe of a mid-size city in Imperial County.

Authority for Waiver: *EC* Section 42606

Date(s) consulted: Blanche Charles Elementary School Site Council—September 16, 2011, Cesar Chavez Elementary School Site Council—September 19, 2011, Dool Elementary School Site Council—September 2011, Jefferson Elementary School Site Council—September 18, 2011, Kennedy Gardens Elementary School Site Council—September 2011, Mains Elementary School Site Council—September 19, 2011, Rockwood Elementary School Site Council—September 20, 2011, Enrique Camarena Jr. High School Site Council—September 8, 2011, William Moreno Jr. High School Site Council—September 19, 2011, De Anza 9th Grade Academy School Site Council—September 2011, Aurora High School Site Council—September 19, 2011, Calexico High School Site Council—September 19, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

The 2009-10 total waivable penalty amount of \$1,617,311 (\$547,364 for instructional minutes and \$1,069,947 for instructional days) is calculated as follows:

Instructional Minutes Penalty

Grade Level	Apportionment Amount	% of Minutes Not Offering	Number of Minutes Short	Penalty
1-3	\$ 9,790,693	.68	333	\$ 66,577
4-6	\$10,339,781	1.43	753	\$147,859
9	\$ 3,675,584	2.55	1,607	\$ 93,727
10-12	\$10,355,061	2.31	1,458	\$239,201
Total Instructional Minutes Penalty				\$547,364

\$9,790,693 multiplied by .0068 is equal to \$66,577.
 \$10,339,781 multiplied by .0143 is equal to \$147,859.
 \$3,675,584 multiplied by .0255 is equal to \$93,727.
 \$10,355,061 multiplied by .0231 is equal to \$239,201.

FISCAL ANALYSIS (AS APPROPRIATE) (cont.)

Instructional Days Penalty

Grade Level	Apportionment	Penalty Factor	Number of Days	Penalty
K-6	\$22,951,215	.0056	5	\$ 642,634
7-9	\$12,260,465	.0056	2	\$ 137,317
10-12	\$10,356,990	.0056	5	\$ 289,996
Total Instructional Days Penalty				\$1,069,947

\$22,951,215 multiplied by .0056 multiplied by 5 days is equal to \$642,634.

\$12,260,465 multiplied by .0056 multiplied by 2 days is equal to \$137,317.

\$10,356,990 multiplied by .0056 multiplied by 5 days is equal to \$289,996.

In addition, Calexico USD incurred penalties under *EC* Section 41420(b) in the amount of \$1,041,700 as a result of Jefferson Elementary being closed for an additional 2 days beyond that allowed as a minimum. Pursuant to *EC* Section 33501, *EC* Section 41420 is not waivable.

LEGAL CRITERIA

1. Authority for the waiver: **Specific code section:**

EC 46206(a) The State Board of Education may waive the fiscal penalties set forth... for a school district or county office of education that fails to maintain the prescribed minimum length of time for the instructional school year, minimum number of instructional days for the school year, or both.
(b) For fiscal penalties incurred ...a waiver may only be granted ... upon the condition that the school or schools in which the minutes, days, or both, were lost, maintain minutes and days of instruction equal to those lost and in addition to the amount otherwise prescribed in this article for twice the number of years that it failed to maintain the minimum number of instructional days and continuing for each succeeding school year until the condition is satisfied.

2. *Education Code or California Code of Regulations* or portion to be waived (check as appropriate)*

For Districts:

EC 46200(c) Penalty - required number of days
 EC 46201(d) Penalty - required number of minutes
 EC 46202(b) Penalty – less than 1982-83 minutes

For County Offices of Education:

EC 46200.5(c) Penalty - required number of days
 EC 46201.5(c) Penalty - required number of minutes
 EC 46202.(b) Penalty – less than 1982-83 minutes

* Understanding that the SBE may not waive a violation of Education Code Section 41420(b), the District hereby requests a waiver of the related penalties described in the relevant portion of Audit Finding 2010-18 (Attachment 1 hereto).

3. Collective bargaining unit information.

Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): Calexico Teachers' Association (CTA), consulted on February 9, 2011; Calexico School Employees' Association (CSEA), consulted on February 9, 2011.

Name of bargaining units and representative(s) consulted: CTA President: Enrique Cervantes; CSEA President: Maria Bravo

The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)

Comments (if appropriate):

4. Reason for Waiver Request:

- Describe the **circumstances that brought about the shortage** of time (days and/or minutes) for each finding.
- Tell what you did the following year, or preferably that same year to try to **minimize or correct** the error.
- State how you plan to do the makeup (add to the regular day, cancel minimum days, add a day to the year, etc.) and in what years – for **both affected students and affected grade levels**.

CIRCUMSTANCES LEADING TO SHORTAGE

On April 4, 2010, an earthquake of magnitude 7.2 struck near the City of Mexicali, B.C., Mexico, and impacted the City of Calexico and to a lesser degree a large portion of Imperial County. The earthquake severely damaged several Calexico Unified School District ("District") schools and facilities. The earthquake was followed by hundreds of aftershocks during the subsequent weeks, including at least 6 aftershocks of magnitudes over 4.0. Both the State of California and the federal government declared states of emergency and sent representatives (CalEMA and FEMA) to the District to inspect facilities and assess required relief. As permitted by California law, the Governing Board of the District delegated authority pursuant to Emergency Resolution No. 25-04-10 to Dr. Christina Luna, the then Superintendent of the District, to take all actions necessary to repair and reopen the schools and ensure the safety of its students.

Although much has been made of the fact that the District schools remained closed for 17-22 days, little has been said of the fact that the District staff made every effort to ensure the schools were safe before students were allowed to return. Also, the District's staff has received little credit for the fact that, despite being pulled in many different directions by well meaning emergency, state and local agencies, and despite not having the benefit of a director of facilities, the District's maintenance staff was able to, within a few days of the earthquake, clean a significant amount of debris from nearly every one of the District's 12 school sites, reattach hundreds of bookshelves and other furniture that had become undone and inspect and secure thousands of ceiling panels. Despite these efforts, significant repairs remained to be completed during Phase I, before the schools reopened. Additional repairs were also performed during Phase II, but repair work was suspended when the DSA Architect informed the District that certain major work related to fallen or damaged soffits would need to go through DSA review process.

District staff and the Department of State Architects ("DSA") Region Manager, Craig Rush, indicate that to secure indispensable funding for the repairs (then estimated to cost over \$4,000,000) the then Superintendent of the District made a decision to ensure full compliance with FEMA and CalEMA requirements. Unfortunately, compliance with said requirements caused delays of approximately 14 calendar days due to FEMA and CalEMA requirements that the District and its Architects complete RFPs, receive Proposals, perform walk-through inspections of all the schools identifying damages and preparing repair forms acceptable to FEMA and CalEMA. Furthermore, the schools were not reopened until after the DSA inspector retained by the District certified them as safe.

ACTIONS TAKEN TO MINIMIZE DAYS AND MINUTES OF SHORTAGE

The District submitted a Request for Allowance of Attendance Because of Emergency Conditions (the "Attendance Allowance") through the Imperial County Office of Education ("ICOE") on May 14, 2010, after all the schools had reopened. The District hoped that all days of school closure would be covered by the Attendance Allowance. However, the ICOE supported and the CDE granted only 10-days of Attendance Allowance, leaving the District with 2-7 days of shortage in instructional days but, according to the Audit Findings, only 1-4 days shortage in actual instructional minutes.

The District staff indicates that the District's former Superintendent examined several avenues to make-up some of the instructional time being lost, including (i) the possibility of setting-up tents at one or more parks, which idea was rejected due to safety concerns arising from the weather conditions (very hot and windy during that time of the year), accessibility, lack of toilets and inability to ensure the safety of the students; (ii) the possibility of temporarily using facilities at the SDSU IV campus, which idea was rejected by the DSA Region Manager who informed the District that such facilities were not under the supervision of DSA and thus were not suitable for K-12 instruction; (iii) the possibility of using portables at all or some of the sites, which was rejected by the District apparently due to (a) the unavailability of sufficient units since most units within the District were either in disrepair or being used for storage while the buildings at all District schools were inspected and repaired, (b) most units did not have operational fire alarms and did not pass inspection, and (c) the long lead time, up to 4 months, and expense involved in obtaining additional units; (iv) the possibility of bussing students to other sites was rejected due to the unavailability of sufficient school buses and the sheer impossibility of transporting 9,500 students to different sites around the County; (v) the possibility of extending the 2009-10 school year, which was rejected due to the excessive cost and because the District did not have the cash reserve on hand to meet additional payroll and maintenance costs; and (vi) the possibility of offering double sessions through the end of school year 2009-10, which was rejected due to objections from union representatives.

The District staff indicates that several successful efforts were undertaken to make up instructional time, including (i) web-based instruction through activities such as Cyber High (grades 10-12) and Educational Website (grades 2-6); (ii) providing and collecting completed educational packets on standards and skills (grades K-12) and educational CD assignments (grades

[Continued on next page...]

K-12); (iii) completing Study Island and Success Maker assignments for grades K-6; (iv) offering tutoring sessions for students in grades 4-12; (v) providing AP testing and tutoring for grades 10-12; and (vi) operating a parent "Drop-in-Center" to advise parents of educational activities available for all grade levels.

PLAN TO MAKE-UP TIME FOR AFFECTED STUDENTS AND AFFECTED GRADE LEVELS

The Audit Findings reflect 1-4 days of **instructional minutes** shortage (Audit Finding 17), but a shortage of 2-7 days of operation of the schools (Audit Finding 18). The minutes and days for which the Waiver is being sought, are as follows:

Affected Grade Level	EC Section 46201.2 Instructional Minutes(Days) of Requested Waiver	EC Section 46200(c) Number of Days of Requested Waiver	EC Section 41420(b)* Days for which Only a Penalty Waiver is Requested
Kinder	0	5	2
1-6	333min (1.1 day)	5	2
7-8	753min (2.3 days)	2	
9	1,607min (4.5 days)	2	
10-12	1,458min (4.1 days)	5	

* The District understands that the SBE may not waive the violation of this Section of the Education Code and is requesting a waiver of the penalties only.

To make-up the minutes and days of instruction that were not provided during 2009-10 due to the earthquake closures, the District determined to continue to offer 180 days of instruction during 2010-11 instead of reducing the calendar year to 175 days of instruction pursuant to EC Section 46201.2. The District also plans to offer 180 days of instruction in its 2011-12 school calendar for all grade levels K-12. Assuming a baseline of 175 days of instruction pursuant to Section 46201.2, the proposed make-up calendar is as follows, in compliance with Education Code Section 46206(b), taking into consideration the 5 days already added to this school year:

Affected Grade Level	2010-11 Additional Days Per 46206(b)	2011-12 Additional Days Per 46206(b)
K-12	5	5

In connection with the waiver of the portion of Finding 2010-18 relating to the violation of Education Code Section 41420(b), the District would also continue to offer 180 days of instruction and not reduce the equivalent of up to five days of instruction or the equivalent number of instructional minutes during school calendar in year 2012-13.

5. Required Attachments: **Please Refer to Attachments I to III.**

- Copy of the audit finding and local educational agency response.
- At least two years worth of proposed bell schedule(s) and school calendar(s) for the required make-up of time, showing all full and partial instructional days, student free days, etc.
- Summary of instructional minute totals, daily and annually, including the state minimum by grade(s) and the 1982-83 requirements for the district/school for the two years of waiver make-up.

CALEXICO UNIFIED SCHOOL DISTRICT
SCHEDULE OF AUDIT FINDINGS AND QUESTIONED COSTS
 June 30, 2010

Section IV – Schedule of State Award Findings and Questioned Costs (Continued)

FINDING 2010-17
INSTRUCTIONAL MINUTES
40000

Criteria:

For any school district that received longer day incentive funding and reduces the amount of instructional minutes below the required minutes specified in Education Code 46201(a)(3), or below the amount of minutes that were offered in the 1982-83 base year, whichever is greater, then the State Superintendent of Public Instruction (SSPI) shall withhold from the District's revenue limit apportionment for the average daily attendance (ADA) for the affected grade level ADA, the sum of the apportionment multiplied by the percentage of the minimum offered minutes at each grade level that the District failed to offer.

For fiscal years 2009-10 through 2012-13, EC 46201.2 allows LEAs to reduce the number of days offered by 5, and reduce the annual minutes offered by the equivalent of 5 days. To determine the minimum number of required minutes, multiply the number of minutes required in 2008-09 by 175/180.

Condition:

During our review of the instructional minutes and days, we noted that the District was not offering the required minutes and days during fiscal year 2010.

Effect:

The District is not in compliance with Education Code Section 46201.2.

Cause:

Due to the earthquake on April 4, 2010 and numerous aftershocks, the District was forced to close most of the schools for 17 days, one elementary closed 22 days, and Calexico high school closed 20 days for repair work done and safety of the students. The District was allowed a 10 day waiver from the Imperial County Office of Education and was therefore not in compliance with the instructional minutes and days requirement.

Questioned Costs:

Affected Grade Level (a)	Minutes Short (b)	ADA Per Grade Level (c)	Required Minutes (d)	% of Minutes Not Offering (e) (b)/(d)	Base Revenue Limit w / Deficit (f)	Apportionment Per Grade Level (g) (c)*(f)	Penalty (h) (g)*(e)

Recommendation:

The District should apply for state board of education waiver or file an appeal with Education Audit Appeals Panel or pay the penalty to the State.

LEA's Corrective Action Plan:

The District is in the process of applying for a State Board of Education Waiver and/or filing an appeal with the State.

FINDING 2010-18
INSTRUCTIONAL MINUTES
40000

Criteria:

According to Education Code Section 146200(c), "*For any school district that received longer year incentive funding in 1984-85 and that offers less than 180 days of instruction, or 163 days in multi-track year-round schools, then the SSPI shall withhold from the district's revenue limit apportionment for the average daily attendance for each affected grade level, the sum of 0.0056 multiplied by the apportionment, for each day less than 180 for traditional schools, or, 163 in multi-track year-round schools.*"

For fiscal years 2009-10 through 2012-13, EC 46201.2 allows LEAs to reduce the number of days offered by 5, and reduce the annual minutes offered by the equivalent of 5 days.

According to Education Code Section 41420(a), "*No school district, other than one newly formed, shall, except as otherwise provided in this article, receive any apportionment based upon average daily attendance from the State School Fund unless it has maintained the regular day schools of the district for at least 175 days during the next preceding fiscal year.*"

According to Education Code Section 41420(b), "*If any school district fails to maintain its school for the required 175 days, the Superintendent of Public Instruction shall withhold from the district's apportionment based upon average daily attendance a product of 0.01143 times the district's apportionment for each additional day the school would have had to maintain operations to meet the 175 day requirement. For the purpose of this subdivision, except as otherwise provided, the State Board of Education shall establish the standards and criteria for defining a day qualifying for the 175-day minimum requirement.*"

Condition:

During our review of the instructional minutes and days, we noted that the District was not offering the required minutes and days during fiscal year 2010.

Effect:

The District is not in compliance with Education Code Section 46201.2 and 41420(a)

Cause:

Due to the earthquake on April 4, 2010 and numerous aftershocks, the District was forced to close most of the schools for 17 days, one elementary closed 22 days, and Calexico high school closed 20 days for repair work done and safety of the students. The District was allowed a 10 day waiver from the Imperial County Office of Education and was therefore not in compliance with the instructional minutes and days requirement.

ANNE J. MALLORY
SUPERINTENDENT

November 18, 2011

Ms. Sue Burr, Executive Director
California State Board of Education
1430 N Street, Suite 5111
Sacramento, California 95814

RE: Support of Recommendation by California Department of Education of the Calexico Unified School District's Specific Waiver Request, Form ITAP-1 (Education Code 46206)

Dear Ms. Burr:

I write in support of the CDE recommendation to the State Board of Education that it approve the specific waiver request from Calexico Unified School District (CUSD) in accordance with Education Code 46206, Form ITAP-1.

It is my understanding from Mr. Scott Hannan that the CDE has closely reviewed documentation submitted by the CUSD related to instructional days and minutes requirements. The CDE has determined after a careful and detailed analysis that the CUSD has/is making up the lost instructional minutes and days from the 2009-2010 academic year to a level that meets the threshold of State Board of Education approval.

I understand that I have no approval or disapproval authority on this matter; however I want to go on the record to support the CDE recommendation. Calexico Unified School District serves some of the most impoverished children in our state; they need and deserve the required instructional time afforded to all children in California. I support the recommendation from the California Department of Education with the understanding that the Calexico Unified School District has/is making up the lost instructional time.

Respectfully,

A handwritten signature in black ink, appearing to read "Anne J. Mallory", is written over a light gray background.

Meeting Agenda Items for January 11-12, 2012

ITEM W-8

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

General Waiver

SUBJECT Request by New Jerusalem Elementary School District for Delta Charter School to waive <i>California Code of Regulations</i> , Title 5, Section 11960(a), to allow the charter school attendance to be calculated as if it were a regular multi-track school. Waiver Number: New Jerusalem Elementary 19-9-2011	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Consent
--	---

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE) recommends approval of this waiver for New Jerusalem Elementary (19-9-2011) with the following conditions:

1. The charter school will operate four tracks; each will offer a minimum of 175 days and required number of minutes.
2. For each track, each charter school will offer the minimum annual instructional minutes as specified by *EC* Section 47612.5.
3. No track will have fewer than 55 percent of its school days completed prior to April 15.
4. ADA will be calculated separately for each track by the method set forth in 5 *CCR*, Section 11960, and then the resulting attendance figures will be totaled.
5. For each pupil attending more than one track over the course of the fiscal year, including intersessions, attendance must be calculated individually by pupil. In that event, the charter school is directed to work with the CDE to determine the appropriate method for configuring individual student's average daily attendance (ADA) to ensure that each student does not generate more than one ADA.
6. The waiver is approved for the 2011-12 fiscal year.
7. The charter school has a waiver to offer two tracks (1-8-2009), which was approved as a permanent waiver as long as the information in the waiver request remained current. Because the number of tracks and other relevant information have changed at the school, the permanent waiver is hereby rescinded.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At its July 2000 meeting, the State Board of Education (SBE) approved SBE's Policy #00-05 Charter School ADA: Alternative Calculation Method, available at <http://www.cde.ca.gov/re/lr/wr/documents/charterschoolada.doc>, which applies to this waiver request. Many multi-track calendar waivers for charter schools have been approved by the SBE in the past eleven years.

SUMMARY OF KEY ISSUES

Section 11960(a) of 5 CCR defines regular ADA in a charter school and establishes the calculation for determining ADA. The calculation divides the total number of pupil-days attended by the total number of days school was actually taught. This section also requires a proportional reduction in a charter school's funding for each day less than 175 days if the school operates fewer than 175 days in any fiscal year.

As referenced in the SBE Policy #00-05:

"Attendance" means the attendance of charter school pupils while engaged in educational activities required of them by their charter schools, on days when school is actually taught in their charter schools. "Regular average daily attendance" shall be computed by dividing a charter school's total number of pupil-days of attendance by the number of calendar days on which school was actually taught in the charter school. For purposes of determining a charter school's total number of pupil-days of attendance, no pupil may generate more than one day of attendance in a calendar day.

A multi-track calendar waiver is typically requested by charter schools that operate on a multi-track, year-round education calendar in order to claim the full ADA. In a multi-track calendar, the total number of days that school is taught may exceed 200 days. However, each track of students is only provided instruction for the number of days in a given track, typically 175 or 180 days. Therefore, a waiver is necessary for a multi-track charter school to separately calculate ADA in each track, rather than for the school as a whole.

New Jerusalem Elementary is requesting this waiver to accommodate additional student growth. The Delta Charter School will be operating on four different tracks ranging from 178 to 182 days. The school has an online program that is a self paced program, which allows students a variety of options to complete their course work. Classes in science, math and language are taught on site.

Waivers of this section of regulations will allow the schools to operate multiple tracks with the required minimum days of instruction and separately calculate the ADA for each track, rather than for ADA in the aggregate. This is consistent with how ADA is calculated for a regular school with multiple tracks. No track has fewer than 55 percent of its school days occurring prior to April 15, one criterion of the SBE waiver policy.

SUMMARY OF KEY ISSUES (Cont.)

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Delta Charter School has a student population of 750 and is located in rural southeast Tracy, in San Joaquin County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2011 to June 30, 2012

Charter School Average Daily Attendance: Alternative Calculation Method

July 2000

REFERENCES

Education Code (EC) Sections 33050 et seq. (General Waiver Authority), 41420 (Minimum Instructional Days, Attendance Reporting), 46301 (Independent Study Apportionments), and 47612 (Minimum Instructional Minutes).

HISTORICAL NOTES

None.

Title 5, California Code of Regulations (5 CCR), Section 11960:
Regular Average Daily Attendance for Charter Schools.

5 CCR 11960 defines regular average daily attendance (ADA) in a charter school, and established the calculation for determining ADA. The calculation divides the total number of pupil-days attended by the total number of days school was actually taught. This section also requires a proportional reduction in a charter school's funding for each day less than 175 if the school operates fewer than 175 days in any fiscal year. Specifically, the section states:

(a) As used in *EC* Section 47612, "attendance" means the attendance of charter school pupils while engaged in educational activities required of them by their charter schools, on days when school is actually taught in their charter schools. "Regular average daily attendance" shall be computed by dividing a charter school's total number of pupil-days of attendance by the number of calendar days on which school was actually taught in the charter school. For purposes of determining a charter school's total number of pupil-days of attendance, no pupil may generate more than one day of attendance in a calendar day.

(b) The State Superintendent of Public Instruction shall proportionately reduce the amount of funding that would otherwise have been apportioned to a charter school on the basis of average daily attendance for a fiscal year, if school was actually taught in the charter school on fewer than 175 calendar days during that fiscal year.

Background

This waiver is typically requested by charter schools that operate on a multi-track year-round education calendar. In a multi-track calendar, the *total* number of days that school is taught may actually exceed 200 days. However, each track of students is only provided instruction for the number of days in a given track, typically 175 days. Therefore, a waiver would be necessary for a multi-track charter school to separately calculate ADA in each track, rather than for the school as a whole.

Evaluation Guidelines

A waiver of this regulation is necessary for a charter school that operates on a multi-track calendar to separately calculate ADA in each track, rather than using the total number of days school is actually taught as the basis for a single, overall ADA calculation. In order to evaluate any such waiver request, the State Board of Education (SBE) asks that those districts applying for such a waiver provide documentation which the California Department of Education (CDE) professional staff are then asked to use in reviewing and making recommendations about the request. The waiver request should include the following:

1. Identification of the charter school for which the district is requesting the waiver;
2. A copy of the charter school's calendar for the year(s) for which the waiver is requested;
3. The number of tracks that the school operates;
4. The total number of days school is taught in the charter school;
5. The total number of days school is taught in each track; and,
6. The reason why the school is operating on multi-track.

Possible reasons for operating a multi-track calendar might include:

- The charter school is a conversion of an existing school which operated on a multi-track calendar prior to conversion.
- The school has limited facilities which require multi-track operation to adequately house the pupil population.
- The educational program, or target population of the school is best served by offering multiple tracks, for reasons explained in the waiver application.

In addition to a description of the school's program as set forth above, the waiver request must provide assurances that the charter school will meet the following terms as a condition of approval of the waiver:

1. If the charter school is a start-up school, it will operate not more than five tracks; if it is a conversion school, it will operate no more than the number of tracks it operated prior to conversion;
2. If the charter school is a start-up school, each track will operate a minimum of 175 days; if the charter school is a conversion school, the school may continue its

previous schedule as long as it provides no less than 163 days of instruction in each track;

3. For each track, the charter school will provide the total number of instructional minutes contained in Education Code Section 46201.5(a)(2);
4. No track will have fewer than 55 percent of its school days prior to April 15; and
5. ADA will be calculated separately for each track by the method set forth in 5 CCR 11960, and then the resulting figures will be totaled.

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised? Public Hearing Flyers were posted at Delta Charter School Offices, New Jerusalem Elementary School District Office, Tracy Fire Department, River Club Main Building

Notice in a newspaper ___ Notice posted at each school Other: (*Please specify*)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Date the committee/council reviewed the waiver request: August 19, 2011

Were there any objection(s)? No Yes ___ (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).
41420 Waiver to operate a multi track calendar for Delta Charter School.
Track 1 August 22, 2011 thru June 1, 2012 178 days
Track 2 August 15, 2011 thru June 1, 2012 178 days
Track 3 September 26, 2011 thru June 30, 2011 182 days
Track 4 August 15, 2011 thru June 18, 2011 179 days

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The rationale for the multi track calendar for Delta Charter School is to accommodate additional student growth. The Delta Charter School will be operating on four different tracks ranging from 178 days to 182 days. The online program is a self paced program which allows students a variety of options to completing their course work. The on site calendar accommodates for on-site classes in Science, Math, and Language.

8. Demographic Information:
Delta Charter School has a student population of 750 and is located in a rural south east Tracy, CA. a part of San Joaquin County

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education recommends approval with the following conditions: See Attachment 1.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Specific authority is provided in California *Education Code (EC)* Section 52863 to allow the State Board of Education (SBE) to waive the Schoolsite Council (SSC) requirements of the School-Based Coordination Program (SBCP) Act that would hinder the success of school-based programs. These waivers must be renewed every two years.

SUMMARY OF KEY ISSUES

Banning Unified School District is requesting a shared SSC and composition changes for New Horizons Continuation High School (fewer than 120 students in grades ten to twelve) and Banning Independent Study School (fewer than 120 students in kindergarten and grades one to twelve). Both schools are located in a small city.

SUMMARY OF KEY ISSUES (Cont.)

Glendale Unified School District is requesting a shared SSC for Jewel City Community Day School (2 teachers serving 1 to 15 students in grades seven to ten) and Daily Continuation High School (21 teachers serving approximately 300 students in grades nine to twelve). Both schools are located in an urban area.

Golden Valley Unified School District is requesting a shared SSC changes for Independence Continuation (2 teachers serving 16 students in grades seven to twelve), Centennial Independent Study (1 teacher serving 29 students in grades seven to twelve), Lincoln Community Day (1 teacher serving 7 students in grades seven to twelve), Valley Teen Ranch (2 teachers serving 21 students in grades seven to twelve), and Children's Hospital (1 teacher serving 17 students in grades seven to twelve). All five schools are located in a rural area.

Gustine Unified School District is requesting a shared SSC for Pioneer Continuation High School (7 to 20 students in grades seven to twelve) and Gustine High School (505 students in grades eleven to twelve). Twenty-six teachers share duties across the schools. Both schools are located in a rural area.

Igo-Ono-Platina Union Elementary School District is requesting a shared SSC and composition changes for Igo-Ono Elementary School (4 teachers serving 65 students in kindergarten and grades one to six) and Platina Elementary School (1 teacher serving 7 students in kindergarten and grades one to six). Both schools are located in a rural area.

Kernville Union Elementary School District is requesting a shared SSC for Kernville Elementary School (4 teachers serving 91 students in kindergarten and grades one to three) and Woodrow Wallace Elementary School (12 teachers serving 338 students kindergarten and grades one to four). Both schools are located in a rural area.

Lewiston Elementary School District is requesting SSC composition changes for Lewiston Elementary School (3 teachers serving 55 students in kindergarten and grades one to eight). The school is located in a rural area.

River Delta Joint Unified School District is requesting a shared SSC for Delta High School (10 teachers serving 184 students in grades seven to eight) and Clarksburg Middle School (10 teachers serving 257 students in kindergarten and grades one to six). Both schools are located in a rural area.

Silver Valley Unified School District is requesting SSC composition changes for Silver Valley Unified School District Alternative Education Center (8 teachers serving 40 to 60 students in grades seven to twelve). The school is located in a rural area.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

Period of request: (month/day/year) From: 8/26/2011 To: 8/26/2013	Local board approval date: (Required) October 27, 2011	

LEGAL CRITERIA

1. Authority for the waiver: Write the Education Code (EC) Section citation, which authorizes the waiver of the specific EC Section you want to waive: X Specific code section: **52863**

EC 52863 Any governing board, on behalf of a school site council, may request the State Board of Education to grant a waiver of any provision of this article. The State Board of Education may grant a request when it finds that the failure to do so would hinder the implementation or maintenance of a successful school-based coordinated program. (Effective for 2 years only, may be renewed)

2. California Education Code or California Code of Regulations or portion to be waived.
Section to be waived: (number) **EC 52852**

Requesting **reduced composition** in members for a small school. (Statute requires 12 members for a high schoolsite council and 10 members for elementary schoolsite council).

3. If this is a renewal of a previously approved waiver, please list Waiver No:**70-2-2010-W-26** and date of SBE approval:
Renewals of waivers must be submitted two month before the active waiver expires. **5/6/2010**

4. Collective bargaining unit information.

Does the district have any employee bargaining units? ___ No **X Yes** If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): September 15, 2011

Name of bargaining units and representative(s) consulted: Alan Van Tassel...Banning Teacher Association Representative

The position(s) of the bargaining unit(s): ___ Neutral **XX** Support ___ Oppose (Please specify why)

Comments (if appropriate): No objection(s) offered.

5. Advisory committee or school site council that reviewed the waiver (All involved are REQUIRED). Name:
Banning Alternative Schools Site Council

Date advisory committee/council reviewed request: **September 15, 2011**

X Approve ___ Neutral ___ Oppose

Were there any objections? Yes ___ **No X** (If there were objections please specify)

CALIFORNIA DEPARTMENT OF EDUCATION
SPECIFIC WAIVER REQUEST
SW-1 (Rev. 10-2-2009)

6. Education Code or California Code of Regulations section to be waived. Use a strike-out key if only portions of sections are to be waived).

EC 52852 A schoolsite council shall be established at each school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

Please attach a brief description of the situation in this school: The number of administrative staff, teachers and students at the schools. Indicate why a composition waiver is needed rather than this school sharing a SSC with another school per the SBE Waiver Policy for Shared SSC's available at:
<http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicyr.doc>

8. Demographic Information:
(District/school/program) **BANNING USD Alternative Education Schools** has a student population of 190 and is located in a small city (urban, rural, or small city etc.) **BANNING** in **RIVERSIDE** County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Coordinated Compliance Review finding on this issue? No Yes
(If yes, please attach explanation or copy of CCR finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Rationale #7

SUBJECT: SPECIFIC WAIVER REQUEST

Purpose: According to **EC 52863 “Waiver Evaluation Guidelines”**, the Banning USD Alternative Schools, specifically New Horizons High School (10th -12th grades) and Banning Independent Study School (K-12th Grades) are seeking board review and approval to authorize the waiver of EC Section 52852 to allow for a combined school site council (SSC) in a small school district that meets the following guidelines:

The schools affected are small: less than 120 pupils each
and

The schools have a common site administration, or other shared services
and

The schools have geographical proximity / similar student populations (i.e.: alternative schools). In the case of NHHS and BISS, the SBE authorizes such a waiver under the pre-existing Waiver Policy. All these waivers must be renewed every two years to ensure that the situation remains the same (per EC 52863.) As a condition of this waiver approval, the joint school site council will be required to elect its parent-community, student and staff members from both of the schools and will maintain the parity requirements as specified in EC 56852. This has been done: 2-Parents; 2-students; 1 administrator, 1 other administrative school personnel; and 2 teachers; 2 alternates have been provided also. The past two school years operated under an existing Waiver Policy.

Attachment 1

This waiver request seeks to combine the School Site Council at Jewel City Community Day School with the School Site Council at Daily High School. Jewel City is the Glendale Unified School District's Community Day School, and accommodates between 1 to 15 district students in grades 7th-10th who are on suspended expulsion. Between 15 and 25 students are referred to Jewel City throughout the school year. However, approximately 6 to 8 students, on average, are enrolled at the school at any given time during the school year; some students complete the program, some move out of the area, and others have their expulsions enforced for violating certain conditions. This high mobility rate among students makes it difficult to establish an active and consistent group of parents to participate in the governance of the school. The school is staffed with two teachers and one instructional assistant. The school receives a relatively small amount of categorical funding.

Daily High School is the district continuation high school and serves as the headquarters for Alternative Education, with approximately 300 students and 31 staff members (21 certificated and 10 classified). Jewel City and Daily share common resources and are under the supervision of the Alternate Education principal, counselor, teacher specialist, support staff, and campus security. Although the two schools are under the same operational umbrella and serve similar at-risk student populations, the schools are located on two separate campuses. Because of the high mobility rate among students at Jewel City, the school's distance from the administrative effective governance are relatively challenging. It is thus more prudent to extend common oversight of the two schools to include a unified School Site Council, under the authority of the School Site Council at Daily High School. In doing so, Jewel City, and the students it serves, will benefit from having an established and consistent council to oversee its categorically funded programs/activities.

CALIFORNIA DEPARTMENT OF EDUCATION
SPECIFIC WAIVER REQUEST
SW-1 (Rev. 10-2-2009)

6. California Education Code or California Code of Regulations section to be waived. Use a strike-out key if only portions of sections are to be waived).

EC 52852 A schoolsite council shall be established at ~~each~~ school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

Please attach a brief description of the situation in your area: 1. The number of principals, students and teachers at each school 2. Do the schools have a common administration, curriculum, or other shared services? Explain. 3. Do the schools have a geographic proximity or similar student population? What is the distance?

8. Demographic Information: Igo-Ono-Platina Union School District/Platina School
(District/school/program) _____ has a student population of 7 and is located in a (urban, rural, or small city etc.) in Shasta County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Coordinated Compliance Review finding on this issue? No Yes
(If yes, please attach explanation or copy of CCR finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Attachment (see 7. On previous page)

7. In the Igo-Ono-Platina Union School District, there shall be one site council for grades K-8. The council shall represent both school sites in the district: Igo-Ono and Platina School. The site council shall be composed of one administrator, teachers elected by teachers, other school personnel selected by other school personnel, and parents and other community members selected by parents. There will be two staff representatives from each school, plus one administrator who will represent both schools. Parent/community members shall represent, as equally as possible, both schools.

One K-8 school site council facilitates better parent participation and eliminates many duplicate efforts in a small district, which draws from a common attendance area.

1. Igo-Ono and Platina Elementary Schools share one principal. There are 65 students at Igo-Ono Elementary School and 7 students at Platina Elementary School. We currently have four teachers at Igo-Ono Elementary School and one teacher at Platina Elementary School.
2. Besides sharing the principal, the two schools share the same office manager, librarian and technology person, RSP teacher, kitchen services, and the school psychologist. Both schools have adopted the same Core Curriculum. We also coordinate a lot of our school functions together, i.e. jog-a-thon, assemblies, 8th grade trip, and testing.
3. Both of the schools are in very rural areas and have similar student demographics. The schools are 26 miles apart from each other.

Attachment to the SPECIFIC WAIVER: SCHOOL SITE COUNCIL- COMPOSITION OF MEMBERS for Lewiston School 8/10/11

Description for item 7:

Lewiston School has an enrollment of 55 and finds it difficult to meet SSC membership requirements. There are no other schools in the district, which is why the school is not applying for a shared SSC waiver.

The minimum number of SSC members required for an elementary school is ten. With only three teachers, all three would have to serve every year under Ed Code regulations. We also have difficulty finding enough parents to meet the minimum of five parent/community members.

This waiver will: 1) Allow a reduction in the number of teachers and parents that will be required to serve on the School Site Council; and, 2) Eliminate the requirement to have "other staff" as a member. The functioning School Site council will retain equity between staff and parents, thus providing appropriate oversight of the school's programs and budget.

Proposed number and composition of the School Site Council:

- 1 Principal
- 1 Teacher
- 2 Parent/Community Members

<http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicyr.doc> Waivers meeting these conditions go to SBE Consent Calendar.
- If this is a renewal of a previously approved waiver, please list Waiver No: ~~6-7-2007~~ **25-9-2009** and original date of SBE approval: ~~September 2007~~ **January 7, 2010. jb 9/26/11** *Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.* We were unable to do so as the old principal/VP/counselor unexpectedly left for varying reasons and it took time to hire longer to hire replacement staff and another piece of time to see that this step had not been taken.
- Collective bargaining unit information.
Does the district have any employee bargaining units? No X Yes If yes, please complete required information below:
Bargaining unit(s) and names of representatives consulted and the date(s): (August 12, 2011: President Steve George of CA School Employee Assoc. Delta Chapter 13, and Janet Allen, President of River Delta Unified Teachers' Assoc. give their support of a single site council for both Clarksburg Middle School and Delta High School.

The position(s) of the bargaining unit(s): Neutral X Support Oppose (Please specify why)

Comments (if appropriate): Janet Allen of River Delta Unified Teachers' Assoc. has given her unit's support of a single site council for both Clarksburg Middle and Delta High schools via a personal meeting at Delta High School with principal Britt Hammon. Contact with Steve George President of CSEA was made by phone and he supported the single site council.
- Advisory committee or school site council that reviewed the waiver. Name: **Clarksburg Middle and Delta High School Site Council**
Per EC 33051(a) if the waiver affects a program that requires a school site council that council must **approve** the request.
Date advisory committee/council reviewed request: August 10, 2011
Advisory committee/council decision was: X To Approve Neutral Oppose
Were there any objection? Yes No X (If there were objections please specify)

CALIFORNIA DEPARTMENT OF EDUCATION
SPECIFIC WAIVER REQUEST
SW-1 (Rev. 10-2-09)

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a **strike out key** if only portions of sections are to be waived). (Attach additional pages if necessary.)

EC 52852 A schoolsite council shall be established at ~~each~~ school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. Delta High School and Clarksburg Middle School reside on the same campus in the small rural community of Clarksburg, CA. DHE has approximately 205 students in grades 10-12 and Clarksburg Middle has approximately 215 students in grades 7-9; both of which serve similar students, parent populations, and families from over 250 square miles. The schools share common facilities such as the cafeteria, gyms, music classroom, playground, sports fields, and the auditorium. In addition, many CMS students have elective classes located at DHS. The schools have functioned under one principal, one booster club, and one English Learner Advisory Committee, all with common educational goals. Approximately 20 staff members teach classes at both sites, meet together for staff meetings, professional development, and vertical team meetings. Both schools share teaching staff, function as one CIF athletic team, and one FFA organization. The schools function under a 7-12 model, and all planning is done together as one school site team. This waiver will allow the schools to streamline meetings, avoid duplication of effort, and provide parents, students, and community members with one leadership group to address their needs.

8. Demographic Information:
Delta High School and Clarksburg Middles Schools have a **combined** student population of **442** and is located in Clarksburg, a rural community in Yolo County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

RE: School Site Council Wavier

7. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved desired outcome/rationale. State what you hope to accomplish student performance and/or streamline or facilitate local agency operations.

Please attach a brief description of the situation in this school: The number of administrative staff, teachers and students at the schools. Indicate why a composition waiver is needed rather than this school sharing a SSC with another school per the SBE Waiver Policy for Shared SSC's:

The Silver Valley School District covers an area of 3,200 square miles in the high desert of Southern California. The district is comprised of seven school including elementary, middle, high school, and an Alternative Education Center.

This request for wavier is to support the Alternative Education Center which in its self-consist of four schools and nine programs. Although it may appear large, the student population fluctuates from 45 to 75 annually and is staffed with one administrator, 8 certified, and 6 classified employees.

With a “swinging door” of students and families, it remains challenging to full-fill the Alternative Education Centers School Site Council membership, even at its smallest composition of 12 for High School councils, per Ed Code.

Ideally, an advisory board that might consist of site and district staff through the guidance of the school board will ensure that all students who attend the Alternative Education Center receive the best education possible and would ensure a more stable cohort.

<p>SUBJECT</p> <p>Request by two local educational agencies to waive California <i>Education Code</i> Section 51224.5(b), the requirement that all students graduating in the 2010–11 school year be required to complete a course in Algebra I (or equivalent) to be given a diploma of graduation, for two special education students based on <i>Education Code</i> Section 56101, the special education waiver authority.</p> <p>Waiver Numbers: El Dorado Union High School District 5-10-2011 Natomas Unified School District 40-10-2011</p>	<p><input checked="" type="checkbox"/> Action</p> <p><input checked="" type="checkbox"/> Consent</p>
--	--

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE) recommends that the State Board of Education (SBE) approve the request to waive only the requirement that two students successfully complete a course in Algebra I (or its equivalent) for the 2010–11 graduating year. The students have met other course requirements stipulated by the governing board of the school district and California *Education Code (EC)* Section 51225.3 in order to receive a high school diploma. If the students do not graduate in 2010–11, this waiver does not relieve the students of the responsibility to continue to attempt to successfully complete a course in Algebra I (or its equivalent) in 2011–12 as required by *EC* Section 51224.5.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In 2000, *EC* Section 51224.5 was enacted to require students to complete a course in Algebra I, as a condition of receiving a high school diploma. The Algebra I requirement applied to students who were scheduled for graduation in 2003–04. All waiver requests of this type have been granted by the SBE for students with special needs.

SUMMARY OF KEY ISSUES

For the review of this waiver request, the districts provided the following documentation:

- A valid, current copy of the students' individualized education programs (IEPs) were provided highlighting the areas of mathematic deficiencies and how the students' needs in mathematics were addressed.

SUMMARY OF KEY ISSUES (Cont.)

- Selected pages from the students' IEPs from three previous years show that the students were consistently on a diploma-track, and that the IEPs were written to support the students' participation in diploma-track math courses, particularly Algebra.
- The specific assistance the district provided to these students included supplementary aids, services, accommodations, test modifications, and supports to attain the diploma-track goal, specifically, for the Algebra requirement.
- A copy of the transcript for these students highlights attempts to pass Algebra and pre-algebra classes.
- An assessment summary reports that these students participated in the Standardized Testing and Reporting program and failed multiple attempts to meet graduation requirements related to the Algebra requirement.

The above documentation was confidentially reviewed by a special education consultant. The local educational agencies' documentation provided facts indicating that failure to approve the request would result in these students not meeting graduation requirements.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM W-11

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

General Waiver

<p>SUBJECT</p> <p>Request by two local educational agencies to waive <i>California Code of Regulations</i>, Title 5, Section 3051.16(b)(3), the requirement that educational interpreters for deaf and hard of hearing pupils meet minimum qualifications as of July 1, 2009, to allow two educational interpreters to continue to provide services to students until June 30, 2012, under a remediation plan to complete those minimum qualifications.</p> <p>Waiver Numbers: San Joaquin County Office of Education 4-10-2011 Imperial County Office of Education 33-10-2011</p>	<p><input checked="" type="checkbox"/> Action</p> <p><input checked="" type="checkbox"/> Consent</p>
---	--

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE) recommends approval of the waiver requests for these two interpreters, with the individual conditions noted in the attached spreadsheet.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In 2002, the State Board of Education (SBE) approved regulations that required educational interpreters to be certified by the national Registry of Interpreters for the Deaf (RID), or equivalent, by January 1, 2007. As of July 1, 2009, they have been required to be certified by the national RID, or equivalent, or to have achieved a score of 4.0 on specified assessments.

Since 2007, 181 of these types of waiver have been approved by the SBE, and 25 have been denied.

SUMMARY OF KEY ISSUES

The Individuals with Disabilities Education Improvement Act of 2004 (IDEIA 2004) requires that interpreters for pupils who are deaf or hard of hearing meet state-approved or state-recognized certification, licensing, registration, or other comparable requirements, as defined in Title 34 of the *Code of Federal Regulations*, Section 300.156(b)(1).

SUMMARY OF KEY ISSUES (Cont.)

To meet this federal requirement, the *California Code of Regulations*, Title 5 (5 CCR), Section 3051.16(b)(3) require the following:

By **July 1, 2009**, and thereafter, an educational interpreter shall be certified by the national Registry of Interpreters for the Deaf (RID), or equivalent; in lieu of RID certification or equivalent, an educational interpreter must have achieved a score of **4.0** or above on the Educational Interpreter Performance Assessment (EIPA), the Educational Sign Skills Evaluation-Interpreter/Receptive (ESSE-I/R), or the National Association of the Deaf/American Consortium of Certified Interpreters (NAD/ACCI) assessment. If providing Cued Language transliteration, a transliterator shall possess Testing/Evaluation and Certification Unit (TECUnit) certification, or have achieved a score of **4.0** or above on the EIPA – Cued Speech.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in the California *Education Code (EC) 33051(a)*. The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

In November 2009, the SBE approved a policy regarding educational interpreter waiver requests. That policy is on the CDE website at <http://www.cde.ca.gov/re/lr/wr/hottopics.asp#Educational> .

Demographic Information: See each individual waiver.

Authority for Waiver: *EC 33050*

Period of request: See Attachment 1 for period of request .

Local board approval date(s): See each individual waiver.

Public hearing held on date(s): See each individual waiver.

Position of bargaining unit(s): See each individual waiver.

Bargaining unit(s) consulted on date(s), name of unit: See each individual waiver.

SUMMARY OF KEY ISSUES (Cont.)

Advisory committee(s) consulted, Dates and objections: See each individual waiver.

Public hearing advertised by (choose one or more): See each individual waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

2009

REFERENCES

To use the General Waiver Authority, *Education Code (EC)* Section 33050 et seq. to waive Title 5, California Code of Regulations, Section 3051.16 (b)(3).

HISTORICAL NOTES

Regulatory Provisions:

California Code of Regulations, Title 5 (5 CCR) Section 3051.16(b)(3), requires the following:

- By **July 1, 2009**, and thereafter, an educational interpreter shall be certified by the national Registry of Interpreters for the Deaf (RID), or equivalent; in lieu of RID certification or equivalent, an educational interpreter must have achieved a score of **4.0** or above on the Educational Interpreter Performance Assessment (EIPA), the Educational Sign Skills Evaluation-Interpreter/Receptive (ESSE-I/R), or the National Association of the Deaf/American Consortium of Certified Interpreters (NAD/ACCI) assessment. If providing Cued Language transliteration, a transliterator shall possess Testing/Evaluation and Certification Unit (TEC Unit) certification, or have achieved a score of **4.0** or above on the EIPA - Cued Speech.

Background:

The Individuals with Disabilities Education Improvement Act of 2004 (IDEIA 2004) requires that interpreters for pupils who are deaf or hard of hearing meet state-approved or state-recognized certification, licensing, registration, or other comparable requirements, as defined in Title 34 of the *Code of Federal Regulations*, Section 300.156(b)(1).

In 2002, the State Board of Education (SBE) approved regulations that required educational interpreters to be certified by the national Registry of Interpreters for the Deaf (RID), or equivalent, by January 1, 2007. The purpose of establishing an implementation date of 2007 for the regulatory requirement was to provide local educational agencies and individual educational interpreters with five years in order to prepare for and meet the standard. In 2008, the SBE adopted revised regulations that allowed interpreters until July 1, 2008, to achieve a score of 3.0 on named assessments. As of July 1, 2009, regulations require them to achieve a score of 4.0

California State Board of Education

1430 N Street, Room 5111
Sacramento, California 95814
(916) 319-0827
(916) 319-0176 (fax)

on those same assessments. Since 2007, the SBE has heard and approved all waivers for interpreters who did not meet the regulatory criteria for working in California schools.

However, now that the July 1, 2009, deadline has passed, the California Department of Education (CDE) staff feels that in most cases local educational agencies have had enough time to try to bring their interpreters up to standards, and that interpreters who have never taken an assessment of their skills, or who have very low scores, should not continue to work with our deaf and hard of hearing students.

Waiver Criteria:

Basic Review Criteria for Educational Interpreter waivers:

1. Local educational agencies (LEAs) must provide, for each educational interpreter, current assessment scores on the Education Sign Skills Evaluation-Interpreter Performance Assessment (EIPA), the Educational Sign Skills Evaluation-Interpreter and Receptive (ESSE-I/R), or the National Association of the Deaf/American Consortium of Certified Interpreters (NAD/ACCI). Current means that the assessment must have been administered within the past school year. If current assessment scores are unavailable, LEAs must provide results from the pre-hire screening offered by Boys Town National Research Hospital.
2. All other documents for each interpreter:
 - Name, date and score of most recent interpreter assessment
 - Name, dates and scores of previous assessments
 - Date of hire
 - Efforts made by the LEA on behalf of the employee, to achieve this certification since August 28, 2002
 - Record of previous training/mentoring
 - Remediation plan, including training/mentoring by RID certified interpreter signed by the interpreter and the union representative
3. Waivers not meeting the above criteria will be held (not forwarded to SBE) until the information is provided, making the waiver “complete and documented.”

Page 3 of 3	
POLICY #	09-03
DATE	November 2009

Consent Calendar Criteria:

1. Each LEA (district or county office of education) must include a copy of district's current educational interpreter job description, which reflects the qualification standards of 5 CCR 3051.16, and show proof that they have recruitment and hiring policies that support these standards.
2. This must be the first year that an interpreter has requested a waiver, and the first year that the interpreter has been employed by that LEA. All repeat waivers will go on the SBE Action Calendar for discussion.
3. Each interpreter shall have achieved a composite score of 3.0 (intermediate) or above on the EIPA or the NAD/ACCI assessment, or a score of 3.0 (intermediate) or above on both the expressive and the receptive portions of the ESSE.

Level 3: Intermediate

Demonstrates knowledge of basic vocabulary, but will lack vocabulary for more technical, complex, or academic topics. Individual is able to sign in a fairly fluent manner using some consistent prosody, but pacing is still slow with infrequent pauses for vocabulary or complex structures. Sign production may show some errors but generally will not interfere with communication. Grammatical production may still be incorrect, especially for complex structures, but is in general intact for routine and simple language. Comprehends signed messages but may need repetition and assistance. Voiced translation often lacks depth and subtleties of the original message. An individual at this level would be able to communicate very basic classroom content, but may incorrectly interpret complex information resulting in a message that is not always clear.

An interpreter at this level needs continued supervision and should be required to participate in continuing education in interpreting.

Educational Interpreter Waiver Requests

An explanation of the scoring on each of the above named assessments is as follows:

- The EIPA is administered by Boys Town National Research Hospital in Omaha, Nebraska. An interpreter who takes the EIPA receives a single composite score from 1-5.
- The ESSE is administered by the Signing Exact English (SEE) Center in Los Alamitos, California. An interpreter who takes the ESSE receives a score from 1-5 in expressive interpreting skills and a separate score from 1-5 in receptive skills. Expressive interpreting refers to the ability to listen to a spoken English message and interpret it in signed language. Receptive skill refers to the ability to understand a signed message, and translate it to spoken or written English. An interpreter who takes the ESSE must receive a score of 4 or above on both portions of the evaluation.
- The NAD/ACCI assessment was administered by the California Coalition of Agencies Serving the Deaf and Hard of Hearing. An interpreter who took the NAD/ACCI assessment received a single composite score from 1-5. Administration of the NAD/ACCI assessment was discontinued in 2004.

Following are descriptions of the levels of educational interpreting provided by Boys Town National Research Hospital, which administers the EIPA:

Level 1: Beginner

Demonstrates very limited sign vocabulary with frequent errors in production. At times, production may be incomprehensible. Grammatical structure tends to be nonexistent. Individual is only able to communicate very simple ideas and demonstrates great difficulty comprehending signed communication. Sign production lacks prosody and use of space for the vast majority of the interpreted message.

An individual at this level is not recommended for classroom interpreting

Level 2: Advanced Beginner

Demonstrates only basic sign vocabulary and these limitations interfere with communication. Lack of fluency and sign production errors are typical and often interfere with communication. The interpreter often hesitates in signing, as if searching for vocabulary. Frequent errors in grammar are apparent, although basic signed sentences appear intact. More complex grammatical structures are typically difficult. Individual is able to read signs at the word level and simple sentence level but complete

or complex sentences often require repetitions and repairs. Some use of prosody and space, but use is inconsistent and often incorrect.

An individual at this level is not recommended for classroom interpreting.

Level 3: Intermediate

Demonstrates knowledge of basic vocabulary, but will lack vocabulary for more technical, complex, or academic topics. Individual is able to sign in a fairly fluent manner using some consistent prosody, but pacing is still slow with infrequent pauses for vocabulary or complex structures. Sign production may show some errors but generally will not interfere with communication. Grammatical production may still be incorrect, especially for complex structures, but is in general intact for routine and simple language. Comprehends signed messages but may need repetition and assistance. Voiced translation often lacks depth and subtleties of the original message. An individual at this level would be able to communicate very basic classroom content, but may incorrectly interpret complex information resulting in a message that is not always clear.

An interpreter at this level needs continued supervision and should be required to participate in continuing education in interpreting.

Level 4: Advanced Intermediate

Demonstrates broad use of vocabulary with sign production that is generally correct. Demonstrates good strategies for conveying information when a specific sign is not in her/his vocabulary. Grammatical constructions are generally clear and consistent, but

complex information may still pose occasional problems. Prosody is good, with appropriate facial expression most of the time. May still have difficulty with the use of facial expression in complex sentences and adverbial non-manual markers. Fluency may deteriorate when rate or complexity of communication increases. Uses space consistently most of the time, but complex constructions or extended use of discourse cohesion may still pose problems. Comprehension of most signed messages at a normal rate is good but translation may lack some complexity of the original message.

An individual at this level would be able to convey much of the classroom content but may have difficulty with complex topics or rapid turn taking.

Level 5: Advanced

Demonstrates broad and fluent use of vocabulary, with a broad range of strategies for communicating new words and concepts. Sign production errors are minimal and never interfere with comprehension. Prosody is correct for grammatical, non-manual markers, and affective purposes. Complex grammatical constructions are typically not a problem. Comprehension of sign messages is very good, communicating all details of the original

message.

An individual at this level is capable of clearly and accurately conveying the majority of interactions within the classroom.

Another way of clarifying the meaning of the scores is as follows:

Score	Rate of accuracy of interpretation
0	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Remediation Plan for Brittany Pitsch

The San Joaquin County Office of Education is committed to developing a plan for Brittany Pitsch to achieve the required score of 4.0 for certification for the Education Sign Language Interpreter. It is our goal to help Brittany achieve this rating by providing her a mentor interpreter certified by the Registry of the Interpreters for the Deaf (RID).

The results of her 5/14/11 exam do not meet the 4.0 requirement therefore a waiver has been requested and a remediation plan has been created. Brittany will continue to meet with her mentor using the results of her latest exam to address the areas she needs to work on. We will continue to provide the mentoring services for Brittany with the goal of reaching the required score of 4.0. The information received from the EIPA with her assessment scores recommended that the candidate work with a language or interpreter mentor and allow at least one year for skill development before retesting.

Brittany and a representative of CSEA have been made aware of the remediation plan and are both in agreement.

San Joaquin County Office of Education

Remediation Plan for Brittany Pitsch

The San Joaquin County Office of Education is committed to developing a plan for Brittany Pitsch to achieve the required score of 4.0 for certification for the Education Sign Language Interpreter. It is our goal to help Brittany achieve this rating by providing her a mentor interpreter certified by the Registry of the Interpreters for the Deaf (RID).

Brittany is scheduled to retake the test on November 8, 2010. We will begin the mentoring services immediately, although we will not know the results of the exam taken on Monday, November 8, 2010. We do not expect to receive the scores from the testing agency until approximately March of 2011; this estimate is based on the previous examination dates and when the examination results were received. We will continue to provide the mentoring services until Brittany reaches the required score of 4.0.

Brittany and a representative of CSEA have been made aware of this remediation plan and are both in agreement.

TO: Deneen Hitch, candidate for Educational Sign Language Interpreter position
FROM: Deborah E. Montoya, Senior Director, Special Education

RE: Educational Sign Language Interpreter Remediation Plan through June 30, 2012.

Dear Mrs. Hitch,

In accordance with: Title 5. EDUCATION regulation section 3051.16 (b)(3), "By July 1, 2009, and thereafter, an educational interpreter shall be certified by the national RID, or equivalent; in lieu of RID certification or equivalent, an educational interpreter must have achieved a score of 4.0 or above on the EIPA, the ESSE-I/R, or the NAD/ACCI assessment...". Therefore, this letter is to inform you that the ICOE will be submitting a waiver request in relation to this aforementioned Title 5 Education Code on your behalf. A state requirement of the waiver request is that a Remediation Plan be developed and included with the waiver request. A waiver, if granted, would allow you to work as an Educational Sign Language Interpreter for the 2011-2012 school year. You are eligible to be hired by ICOE due to your Pre-hire Screening results ("hire with caution/ ok to hire"). A 4.0 score on an acceptable sign language assessment is the state requirement, as stated above in the Title 5 Education Code, thus all Educational Sign Language Interpreters employed in the K-12 public school system must meet this requirement.

You have not provided ICOE with scores on any of the aforementioned assessments at this time. Therefore the Remediation Plan below will be followed by you to assist you in meeting qualification requirements of an Educational Sign Language Interpreter.

Remediation Plan:

- As soon as possible, the Imperial County Office of Education (ICOE) must provide CDE with your assessment scores (ESSE or EIPA); therefore, you are required to take the ESSE or EIPA exam before the end of the 2011-2012 school year. The ESSE exam is scheduled on September 24, 2011 in Santa Ana, CA, and you are required to attend and take the exam on the scheduled date. The Special Education Department will assist you with making the arrangements.
- You are required to take advantage of the opportunities and resources available from ICOE to maximize your assessment score. Proof of participation in these opportunities will strengthen the waiver application request when CDE determines whether to grant or deny your waiver. Opportunities are listed below.

The ICOE is offering opportunities to support you in the above remediation plan and to help you meet your goal of 4.0 test score on the ESSE or EIPA. ICOE is offering the following opportunities for professional growth:

- EIPA Workshops (Fall 2011)
- Reimbursement for unit cost of Cypress College coursework (provided through video conferencing)
- Access to DVD library
- Reimbursement for one EIPA or ESSE assessment during 2011-2012 school year

- Access to newly purchased sign language vocabulary books with previously non-accessible vocabulary
- Encouragement of all interpreters to meet regularly with colleagues to work on developing their Sign language skills; ICOE to provide location

The ICOE expects your full cooperation in this remediation plan. A Waiver Request for the 2011-2012 school year will be submitted for the California State Board of Education's review during the January 12 and 13 CDE Board of Education meeting. Your continued employment for the 2011-2012 school year will be contingent upon CDE Board of Education approval. There is no guarantee that the CDE will grant a waiver when requested.

Should you have any questions and/or concerns please contact Deborah Montoya at (760) 312-6428. Thank you in advance for your attention and cooperation in this matter. We look forward to your successful obtainment of a passing score on the ESSE or EIPA in the near future.

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education recommends that the State Board of Education (SBE) approve the request from one local educational agency (LEA) to provide extended school year (ESY) services for fewer than 20 days, with the condition that 80 hours or more of instruction be provided and that special education and related services offered during the extended year period are comparable in standards, scope, and quality to the special education program offered during the regular academic year as required by *California Code of Regulations*, Title 5, (5 CCR), Section 3043(d).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In the past, the SBE approved waivers to allow school districts to provide the required minimum amount of instruction in fewer days during the ESY for special education students.

Extended school year is the term for the education of special education students "between the close of one academic year and the beginning of the next," similar to a summer school. It must be provided for each individual with exceptional needs whose individualized education program (IEP) requires it. Local educational agencies may request a waiver to provide an ESY program for fewer days than the traditional model.

SUMMARY OF KEY ISSUES

Fairfax Elementary School District (FESD) proposes to provide ESY services utilizing a 15-day model over a four week period and instructional time of five and one-half hours per day, rather than the traditional 20-day model. The longer school day for the ESY calendar aligns better with the regular school year providing more consistency for students served. The District contends student learning and instruction will be maximized by modifying the ESY schedule as proposed.

SUMMARY OF KEY ISSUES (Cont.)

For the purposes of reimbursement for average daily attendance, an ESY program:

- Must provide instruction of at least as many minutes over the shorter period as would have been provided during a typical 20-day program;
- Must be the same length of time as the school day for pupils of the same age level attending summer school in the district in which the extended year program is provided, but not less than the minimum school day for that age unless otherwise specified in the IEP to meet a pupil's unique needs; and
- Must offer special education and related services during the extended year period that are comparable in standards, scope, and quality to the special education program offered during the regular academic year.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, of any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

Shirley Lane Elementary School Site Council; Lola Behling (President)

Date the committee/council reviewed the waiver request: August 2, 2011

Were there any objection(s)? No Yes ___ (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).
CCR 3043(d) An Extended School Year program shall be provided for a minimum of 20 instructional days including holidays.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.
Due to the fiscal crisis in California, the Fairfax School District proposes to provide Extended School Year (ESY) services to identified special education students utilizing a fifteen (15) day, five and one half (5 ½) hours of instructional model rather than the traditional model of twenty (20) days with four (4) hours of instruction. Students would receive the same number of instructional minutes. The overall instructional time will remain the same; however, there will be a reduction in days of attendance to 15 days over a four (4) week period. The longer school day for ESY will align better with the regular school year providing more consistency for the students served. Fewer ESY days will result in substantial savings in transportation, utilities, janitorial, food services, administration and clerical costs. The entire district will be operating on a four (4) day week. Additionally, the district has found that there is a drop in attendance on Mondays and Fridays, as well as a reduction during the final week of the ESY program. This was particularly evident when the District offered a five (5) day program over four (4) weeks. The District believes it will be able to maximize student learning and instruction by modifying the ESY schedule to four (4) days per week with extended daily time.

8. Demographic Information:
*(District/school/program)*The Fairfax School District has a student population of 2,224 and is located in a rural, East Bakersfield in Kern County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

--	---

RECOMMENDATION

Approval Approval with conditions Denial

The waiver requests submitted by the Napa and Solano County Offices of Education (COEs) are addressed on the California Department of Education's (CDE) Web page at <http://www.cde.ca.gov/sp/se/ac/rescare.asp>, which expressly authorizes local educational agencies to enter into the necessary contractual relationships to maintain residential treatment placements. Accordingly, there is no need for a waiver and waiver denial is recommended.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

On June 30, 2011, Assembly Bill 114, Chapter 43, Statutes of 2011 (AB 114) was signed into law. Under AB 114, several sections of Chapter 26.5 of the California *Government Code (GC)* were amended or rendered inoperative, thereby ending the state mandate on county mental health agencies to provide mental health services to students with disabilities. With the passage of AB 114, it is clear that local educational agencies (LEAs) are now solely responsible for ensuring that students with disabilities receive special education and related services, including some services previously arranged for or provided by county mental health agencies.

In September 2011, the CDE issued seven guidance documents to assist in the transition of responsibilities from mental health agencies to LEAs and to guide LEAs in securing required services for students with disabilities. Further, clarification was provided concerning the circumstances under which related service providers must obtain certification as Nonpublic Agencies (NPAs) or Nonpublic Schools (NPSs).

SUMMARY OF KEY ISSUES

The Napa and Solano COEs waiver requests explain that the desired outcome is to continue the student placements at nine residential treatment facilities pursuant to current individualized education plans (IEPs) and to utilize special education funds to pay for the placements.

The CDE, Special Education Division analyzed the waiver requests and believes that:

- The need for the waiver requests is obviated pursuant to the guidance documents issued by the CDE, which can be viewed on the CDE AB 114 Special Education Transition Web page at <http://www.cde.ca.gov/sp/se/ac/ab114twg.asp>;
- All nine residential treatment facilities have the option to apply for and receive certification as a nonpublic, nonsectarian school or agency;
- A further option is for relevant districts within the Napa and Solano COEs to convene a meeting of the IEP team members, for each student with a disability being cared for at the nine residential treatment facilities that are the subject of this waiver, to discuss an alternate placement.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver denial. Denial of this waiver means that these two COEs will be required to operate within the guidance provided to the field in September 2011 or to exercise one of the other options outlined.

Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send electronic copy in **Word** and
back-up material to: waiver@cde.ca.gov

CD CODE						
2	8	1	0	2	8	0

Local educational agency: Napa County SELPA			Contact name and Title: Shelton B. Yip, Director			Contact person's e-mail address: syip@ncoe.k12.ca.us		
Address:		(City)	(State)	(ZIP)	Phone (and extension, if necessary): 707-253-6807			
2121 Imola Ave.		Napa	CA	94559	Fax number: 707-253-6989			
Period of request: (month/day/year) From: 07/01/11 To: 06/30/12			Local board approval date or SELPA signature required 8/31/2011					
			jb 9/28/11					

LEGAL CRITERIA

- Authority for the waiver:**
56101. (a) Any district, special education local plan area, county office, or public education agency, as defined in Section 56500, may request the board to grant a waiver of any provision of this code or regulations adopted pursuant to that provision if the waiver is necessary or beneficial to the content and implementation of the pupil's individualized education program and does not abrogate any right provided individuals with exceptional needs and their parents or guardians under the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), or to the compliance of a district, special education local plan area, or county office with the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), Section 504 of, the Rehabilitation Act of 1973 (29 U.S.C. Sec. 794), and federal regulations relating thereto. (b) The board may grant, in whole or in part, any request pursuant to subdivision (a) when the facts indicate that failure to do so would hinder implementation of the pupil's individualized education program or compliance by a district, special education local plan area, or county office with federal mandates for a free, appropriate education for children or youth with disabilities.
- Brief Description of the topic of the waiver:**
56366.1(a) Waiver of the required certification for a non public school or agency. The purpose of this waiver is to be able to serve students in a nonpublic school or agency using California special education funds.
- Education Code section to be waived:**
56366.1(a) A nonpublic, nonsectarian school or agency that seeks certification shall file an application with the Superintendent on forms provided by the department and include the following information on the application: (1) A description of the special education and designated instruction and services provided to individuals with exceptional needs if the application is for nonpublic, nonsectarian school certification.

CALIFORNIA DEPARTMENT OF EDUCATION
SPECIFIC WAIVER REQUEST
SW-1 (Rev 10-2-2009)

4. Desired outcome/rationale. Briefly state the reason the student(s) needs to attend a non-certified non-public school. Be sure to also complete and attach the supplemental information form. Not all of the additional forms may be necessary (call Waiver Office 916-319-0824)

Prior to the appeal of GC 26.5 (AB 3632) Napa County Mental Health recommended the placement of one or more students at Journey High School/TLC Child and Family Services, a residential NPS. It is the intent of the Napa County SELPA to continue this placement pursuant to the current IEP and utilize Special Education funds to pay for this placement. In order to expend special education funds on board and care as a related service, we respectfully request waiver to EC 56366.2. Without such a waiver, member school districts would be obligated to use general fund dollars to pay for these significant expenses, potentially creating financial hardships until clean-up legislation is enacted.

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

Address: 5100 Business Center Drive	(City) Fairfield	(State) CA.	(ZIP) 94534	Phone (and extension, if necessary): 707-399-4460 Fax number: 707-863.4176	
Period of request: (month/day/year) From: 7/1/11 To: 6/30/12		Local board approval date or SELPA signature required 8/30/11 - SELPA Approved			

LEGAL CRITERIA

1. **Authority for the waiver:**
56101. (a) Any district, special education local plan area, county office, or public education agency, as defined in Section 56500, may request the board to grant a waiver of any provision of this code or regulations adopted pursuant to that provision if the waiver is necessary or beneficial to the content and implementation of the pupil's individualized education program and does not abrogate any right provided individuals with exceptional needs and their parents or guardians under the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), or to the compliance of a district, special education local plan area, or county office with the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), Section 504 of, the Rehabilitation Act of 1973 (29 U.S.C. Sec. 794), and federal regulations relating thereto. (b) The board may grant, in whole or in part, any request pursuant to subdivision (a) when the facts indicate that failure to do so would hinder implementation of the pupil's individualized education program or compliance by a district, special education local plan area, or county office with federal mandates for a free, appropriate education for children or youth with disabilities.

2. **Brief Description of the topic of the waiver:**
56366.1(a) Waiver of the required certification for a non public school or agency. The purpose of this waiver is to be able to serve students in a nonpublic school or agency using California special education funds.

3. **Education Code section to be waived:**
56366.1(a) A nonpublic, nonsectarian school or agency that seeks certification shall file an application with the Superintendent on forms provided by the department and include the following information on the application: (1) A description of the special education and designated instruction and services provided to individuals with exceptional needs if the application is for nonpublic, nonsectarian school certification.

CALIFORNIA DEPARTMENT OF EDUCATION
SPECIFIC WAIVER REQUEST
SW-1 (Rev 10-2-2009)

4. Desired outcome/rationale. Briefly state the reason the student(s) needs to attend a non-certified non-public school. Be sure to also complete and attach the supplemental information form. Not all of the additional forms may be necessary (call Waiver Office 916-319-0824)

Prior to the appeal of GC 26.5 (AB 3632) Solano County Mental Health recommended the placement of one or more students at Human Services Projects Inc., a residential Agency. It is the Solano County SELPA's intent to continue this placement pursuant to the current IEP and utilize Special Education funds to pay for this placement. In order to expend special education funds on board and care as a related service, we respectfully request waiver to EC 53366.2, without such a waiver, member school districts would be obliged to use general fund dollars to pay for these significant expenses, potentially creating financial hardships until clean up legislation is enacted.

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM W-14

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

Specific Waiver

SUBJECT	
<p>Request by two districts, under the authority of California <i>Education Code</i> Section 56101 and <i>California Code of Regulations</i>, Title 5, Section 3100 to waive <i>Education Code</i> Section 56362(c). Approval of this waiver will allow the district's resource specialist to exceed the maximum caseload of 28 students by no more than four students (32 maximum).</p> <p>Waiver Numbers: Salida Union Elementary 16-7-2011 Pioneer Union Elementary 24-9-2011</p>	<p><input checked="" type="checkbox"/> Action</p> <p><input checked="" type="checkbox"/> Consent</p>

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE) recommends approval with the following conditions: the districts must provide instructional aide time of at least five hours daily whenever the resource specialist's caseload exceeds the statutory maximum caseload of 28 students by no more than four students (32 maximum), during the waiver's effective period, per *California Code of Regulations*, Title 5 (5 CCR), Section 3100(d)(2).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

California *Education Code* (EC) Section 56101 allows the State Board of Education (SBE) to waive any provision of EC or regulation if the waiver is necessary or beneficial when implementing a student individualized education program (IEP). *California Code of Regulations*, Title 5, specifically allows the SBE to approve waivers for resource specialists providing special education services to allow them to exceed the maximum caseload of 28 students by no more than four students. However, there are specific requirements in these regulations which must be met for approval, and if these requirements are not met, the waiver must be denied:

- (1) The requesting agency demonstrates to the satisfaction of the SBE: (A) that the excess resource specialist caseload results from extraordinary fiscal and/or programmatic conditions; and (B) that the extraordinary conditions have been resolved or will be resolved by the time the waiver expires.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION (Cont.)

- (2) The waiver stipulates that an affected resource specialist will have the assistance of an instructional aide at least five hours daily whenever that resource specialist's caseload exceeds the statutory maximum during the waiver's effective period.
- (3) The waiver confirms that the students served by an affected resource specialist will receive all of the services called for in their individualized education programs.
- (4) The waiver was agreed to by any affected resource specialist, and the bargaining unit, if any, to which the resource specialist belongs participated in the waiver's development.
- (5) The waiver demonstrates to the satisfaction of the SBE that the excess caseload can be reasonably managed by an affected resource specialist in particular relation to: (A) the resource specialist's pupil contact time and other assigned duties; and (B) the programmatic conditions faced by the resource specialist, including, but not limited to, student age level, age span, and the behavioral characteristics; number of curriculum levels taught at any one time or any given session; and intensity of student instructional needs.

The SBE receives about a dozen waivers of this type each year, and approximately 90 percent are approved. Due to the nature of this type of waiver, they are almost always retroactive.

SUMMARY OF KEY ISSUES

A resource specialist is a credentialed teacher who provides instruction and services to children with IEPs that are with regular education teachers for the majority of the school day. Resource specialists coordinate special education services with general education programs for his or her students.

Before recommending approval, the existing complaint/compliance database for each district requesting a caseload waiver is examined. If it appears that a particular local educational agency is requesting large numbers of waivers, or upon complaint from an individual resource specialist alleging that waiver conditions are not being followed, referrals are made to the CDE Special Education Division for follow-up.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver(s) approval.

LEGAL CRITERIA

1. Authority for the waiver:
Education Code (EC) Section 56101, and California Code of Regulations (CCR), Title 5, Section 3100, resource specialist caseload waiver: "A school district, special education local plan area, county office of education or any other public agency providing special education or related services may request the State Board of Education to grant a waiver of the maximum resource specialist caseload, as set forth in EC Section 56362(c), only if the waiver is necessary or beneficial to either; (1) to the content and implementation of a pupil's individualized educational plan (IEP) and does not abrogate any right provided individuals with exceptional needs by specified federal law or; (2) to the agency's compliance with specified federal law."

2. *Education Code* Section to be waived: EC 56362 (c): No resource specialist shall have a caseload that exceeds 28 students.

Note: the waiver request may be up to but no more than 4 students above the statutory caseload (32 students maximum).

3. Requesting a caseload waiver for: 1 (number) of resource specialists.

Please use separate SW-RSC form for Resource Specialist (RS) teachers who agree with the waiver request, and those who disagree with the waiver request.

Resource specialist(s) name:	Assigned school and mailing address:
1. Deborah Hargreaves _____; at	Dena Boer School, 4801 Gold Valley, Salida, Ca 95368
2. _____; at	
3. _____; at	
4. _____; at	

Please add list of additional teacher names and schools/district as needed.

SPECIFIC WAIVER REQUEST FOR RESOURCE SPECIALIST CASELOAD

SW-RSC (Rev. 6-23-2010)

Per CCR, Title 5, Section 3100(d)(4) participation of the resource specialist teacher's bargaining unit is required in the waiver development.

Does (do) the resource specialist(s) belong to an employee bargaining unit(s)? ___ No _X Yes

If yes, please complete required information below:

Date(s) the bargaining unit(s) participated in the waiver development: March 24, 2011

Name of bargaining unit and/name of representative(s) consulted: Salida Union Teachers Association, Co-Presidents- Tom Wright and Stacy Wright

Telephone contact for bargaining representative: 209-204-0317 or 209-204-0279

The position(s) of the bargaining unit(s): ___ Neutral X Support ___ Oppose (*Please provide comments*)

Comments (if appropriate):

Bargaining unit support this waiver knowing that there will be a credentialed RSP Teacher rotating through to help provide service for any RSP teacher that is over their caseload requirement.

Note: For each resource specialist attached page 3 of 4 SW-RSC waiver request to be completed by the Administrator and page 4 of 4 SW-RSC waiver request to be completed by the Resource Specialist.

Certification- I hereby certify that the information provided on this application is correct and complete. I also certify this waiver request will never result in the same resource specialist having a caseload in excess of the statutory maximum for more than two years and that this waiver request will result in the resource specialist(s) above having the assistance of an instructional aide at least 5 hours daily.

Signature of Superintendent or Designee: OR	Title:	Date:

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM W-15

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

General Waiver

SUBJECT Request by Butte Valley Unified School District to waive a portion of California <i>Education Code</i> Section 35330(b)(3) to authorize expenditures of school district funds for students to travel to Oregon to attend curricular and extra curricular trips/events and competitions. Waiver Number: 3-10-2011	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Consent
--	---

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE) recommends approval to waive a portion of California *Education Code (EC)* Section 35330(b)(3) to authorize expenditures of school district funds for students to travel to Oregon to attend curricular and extracurricular trips/events and competitions for Butte Valley Unified School District (USD). *Education Code* Section 33051(b) will apply, and the district will not be required to reapply annually if information contained on the request remains current.

The CDE recommends the request to attend the National Future Farmers of America (FFA) convention in Indiana and Kentucky, not be included in this waiver approval.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved all similar waivers in the past.

SUMMARY OF KEY ISSUES

EC Section 35330(b)(3) states, "...no expenses of pupils participating in a field trip or excursion to any other state, the District of Columbia, or a foreign country authorized by this section shall be paid with school district funds."

Butte Valley USD requests a waiver of *EC* Section 35330(b)(3). Butte Valley USD is located in the very northern part of California, approximately three miles from the California/Oregon State line.

The closest urban city is in Oregon and the district conducts business in Oregon as well

SUMMARY OF KEY ISSUES (Cont.)

as takes students into Oregon for educational field trips, athletic events, etc. The closest urban areas in California are at least two hours away, which would limit the opportunities for educational and cultural experiences.

Butte Valley USD also requested a waiver of *EC* Section 35330(b)(3) to attend the National Future Farmers of America (FFA) convention in Indiana and Kentucky; however, based on subsequent conversations with the district, the waivers for Indiana and Kentucky are not necessary because district funds are not used for the FAA trips.

Based on the reasons provided by the district for traveling to Oregon, CDE recommends approval of this waiver request to attend curricular and extracurricular trips/events and competition in Oregon. This recommendation for approval does not include the requested trips to Indiana or Kentucky.

EC Section 33051(b) will apply as long as the conditions of the waiver remain the same.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in *EC* Section 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a school site council and the school site council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Butte Valley USD has a student population of 84 and is located in a rural area in Siskiyou County.

Authority for Waiver: *EC* Section 33050

Period of request: September 1, 2011, to September 1, 2013

Local board approval date(s): September 21, 2011

Public hearing held on date(s): September 21, 2011

Bargaining unit(s) consulted on date(s): August 30, 2011

See Attachments 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, and 33 for details.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

As of November 2011, the California Department of Education (CDE) Waiver Office has presented 36 waivers regarding class size reduction requirements (CSR) under the Quality Education Investment Act (QEIA) to the State Board of Education (SBE). Of that number 25 were approved with conditions, 5 were denied, and 6 were withdrawn.

SUMMARY OF KEY ISSUES

Class Size Reduction

Schools participating in the QEIA were monitored by their county offices of education for compliance with program requirements, including CSR, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year. QEIA schools were required to demonstrate full compliance with all program requirements at the end of the 2010–11 school year.

Quality Education Investment Act schools are required to reduce class sizes by five students compared to class sizes in the base year (either 2005–06 or 2006–07), or to an average of 25 students per classroom, whichever is lower, with no more than 27 students per classroom regardless of the average classroom size. The calculation is done by grade level, as each grade level has a target average class size based on QEIA CSR rules. For small schools with a single classroom at each grade level, some grade level targets may be very low. If, for example, a school had a single grade four classroom of 15 students in 2005–06, the school's target QEIA class size for grade four is ten students. Absent a waiver, an unusually low grade level target may result in a greater number of combination classes at the school, or very small classes at the grade level, which is prohibitively costly and may result in withdrawal or termination from the program.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; and (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the CSR targets based on statute requirements to stay in the program. Any school in the program not meeting those targets will risk the loss of future funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded).

Waiver Number: 25-10-2011

Period of Request: July 1, 2010, to June 30, 2011

Carver Elementary School
Compton Unified School District

Period Recommended: July 1, 2010, to June 30, 2011

CDS Code: 19 73437 6023758

LEA Request:

Compton Unified School District (USD) is an urban school district located in Los Angeles County and has a student population of approximately 26,000 students. Carver Elementary School (ES) serves 359 students in kindergarten through grade five. Monitoring performed by the Los Angeles County Office of Education indicates that the Class Size Reduction (CSR) requirements of the Quality Education Investment Act (QEIA) were not fully met by Carver ES in two first grade classes for the 2010–11 school year.

Compton USD states that the QEIA CSR target was missed because the attendance clerk and principal were new to the school. The district states that the administration was heavily impacted by the “Parent Trigger” petition at a district school and these disruptions by internal and external factors resulted in Carver ES not meeting its CSR target for the 2010–11 school year. Projections provided by the district show that Carver ES is in full compliance with QEIA CSR requirements for 2011–12.

Compton USD is requesting a waiver for exceeding its CSR target in two first grade classes at Carver ES by .56 and .10, respectively.

CDE Recommendation and Conditions:

The California Department of Education (CDE) supports Compton USD’s request that CSR requirements for two first grade classes at Carver ES be waived for school year 2010–11.

The CDE recommends approval with the following conditions: (1) Applies only to grade one classes at Carver ES for school year 2010–11; (2) Carver ES meet the CSR requirements in 2011–12 and all subsequent years the district receives QEIA funds; and (3) Within 30 days of approval of this waiver, Compton USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

Period of Request: July 1, 2010, to June 30, 2011

McKinley Elementary School
Compton Unified School District

Period Recommended: July 1, 2010, to June 30, 2011

CDS Code: 19 73437 6013478

LEA Request:

Compton Unified School District (USD) is an urban school district located in Los Angeles County and has a student population of approximately 26,000 students. McKinley Elementary School (ES) serves 371 students in kindergarten through grade five. Monitoring performed by the Los Angeles County Office of Education indicates that the Class Size Reduction (CSR) requirements of the Quality Education Investment Act (QEIA) were not fully met by McKinley ES in one kindergarten class for the 2010–11 school year.

Compton USD states that the QEIA CSR target was missed because of disruptions by internal and external groups at McKinley ES relating to the “Parent Trigger” petition. The district states that the media’s frequent presence resulted in ongoing issues that redirected and consumed many school and district staff. The result was that one kindergarten classroom at McKinley ES did not meet its CSR target for the 2010–11 school year. Projections provided by the district show that McKinley ES is in full compliance with QEIA CSR requirements for 2011–12.

Compton USD is requesting a waiver for exceeding its CSR target in one kindergarten class at McKinley ES by .86.

California Department of Education (CDE) Recommendation and Conditions:

The California Department of Education (CDE) supports Compton USD’s request that CSR requirements for one kindergarten class at McKinley ES be waived for school year 2010–11.

The CDE recommends approval with the following conditions: (1) Applies only to kindergarten classes at McKinley ES for school year 2010–11; (2) McKinley ES meet the CSR requirements in 2011–12 and all subsequent years the district receives QEIA funds; and (3) Within 30 days of approval of this waiver, Compton USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

Reviewed by McKinley Elementary Schoolsite Council on October 10, 2011.

If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**). 52055.740. (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

(1) Meet all of the following class size requirements:

(A) For kindergarten and grades 1 to 3, inclusive, no more that 20 pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).

(B) For self-contained classrooms in grades 4 to 8, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

(i) ~~At least five pupils fewer per classroom that was the average in 2006-07.~~

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

McKinley Elementary School was the first school identified as a **“Parent Trigger”** in the state of California. As a result, the school was faced with constant disruptions by internal and external groups. The media’s frequent presence resulted in ongoing issues that redirected and consumed many school and district staff. As a result, one classroom at kindergarten did not meet the CSR target of 20.44. This classroom reported an average of 21.3. There were a total of fifteen K-3 classes and due to one classroom reported as over the target, the school has not met the QEIA class size requirements.

8. Demographic Information:
McKinley Elementary has a K-5 student population of 371 and is located in Los Angeles County. Compton Unified has 40 schools which include three (3) Comprehensive High Schools eight (8) middle schools five (5) alternative/continuation schools and twenty-two elementary schools. The Compton Unified School District provides instructional services to approximately 26,000 students. The ethnic composition of the Compton Unified School District is 69% Latino and 31% African American.

Waiver Number: 32-10-2011
Columbia Elementary School
El Monte City Elementary School

Period of Request: July 1, 2010, to June 30, 2011
Period Recommended: July 1, 2010, to June 30, 2011
CDS Code: 19 64501 6013155

LEA Request:

El Monte City Elementary School District (ESD) is an urban school district located in Los Angeles County and has a student population of approximately 9,534 students. Columbia Elementary School (ES) serves 837 students in kindergarten through grade eight. Monitoring performed by the Los Angeles County Office of Education indicates that the Class Size Reduction (CSR) requirements of the Quality Education Investment Act (QEIA) were not fully met by Columbia ES in grades four and five for the 2010–11 school year. The district provided class size information from 2006–07, the base year upon which QEIA CSR targets are calculated, showing that the average size of core classes of English, mathematics, history-social science, and science in grades four and five were 25.7 and 26.3. The QEIA CSR targets for grades four and five are 20.7 and 21.3.

El Monte City ESD states that class sizes in grades four and five exceeded the QEIA class size targets due to the district's misinterpretation the required class size targets for 2010–11. Class sizes for grades four and five in 2010–11 were 24.0 and 23.3. The district states that lower class size has always been important and despite declining enrollment has maintained its commitment to ensuring lower class sizes. El Monte City ESD states that to adhere to the QEIA CSR targets in 2011–12, an additional teacher was added to reduce class sizes in grades five and six and students were transferred to other schools within the district.

El Monte City ESD requests a waiver of the QEIA CSR targets for grades four and five at Columbia ES for the 2010–11 school year and establishment of an alternative CSR target of 24.0 on average in core classes for grades four and five.

California Department of Education (CDE) Recommendation and Conditions:

The California Department of Education (CDE) supports El Monte City ESD's request to increase its CSR target for grades four and five. This alternative target would be consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grades four and five at Columbia ES for school year 2010–11; (2) Columbia ES increase the average class size in core classes at the school level to 24.0 students per classroom in grades four and five in the 2010–11 school year; and (3) Within 30 days of approval of this waiver, El Monte City ESD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

(ii) An average of 25 pupils per classroom.

(iii) For purposes of this subparagraph, average classroom size shall be calculated at the grade level based on the number of Subject-specific classrooms in that grade at the school site. If the subject-specific classrooms at the school averaged fewer than 25 pupils per classroom during the 2005-06 school year, that lower average shall be used as the "average in 2006-07" for purposes of this subparagraph. A school that receives funding under this article shall not have a class in English language arts, reading, mathematics, science, or history and social science in grades 4 to 12, inclusive, with more than 27 pupils regardless of its average classroom size.

7. *Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.*

The El Monte City School District requests that a portion of Education Code (EC) Section 52055.740(a) regarding the class size reduction requirements under the Quality Education Investment Act (QEIA) be waived for Columbia School grades 4 and 5 for the 2010-2011 academic year. Columbia is a K-8 school. For the 2010-2011 academic year, Grade Four averaged a total of 24.0, instead of the required target of 20.7; while Grade Five averaged a total of 23.3 instead of the required target of 21.3. In total we had 10 additional students in Grade 4 and 6 additional students in Grade Five. The class sizes at Grades 4 and 5 exceeded the QEIA class size targets due to the district's misinterpretation of the required QEIA class size targets for 2010-2011. In 2008-2009 and in 2009-2010 Columbia School was found to have met all interim requirements for QEIA funding at one hundred percent for each of these two years by the Los Angeles County Office of Education.

The positive nature of these two annual monitoring reports had us believing that our implementation of QEIA requirements was on target. The El Monte City School District has always considered lower class size to be important. An analysis of class size averages for grades four and five for five neighboring school district during our base year of 2006-2007, reveals that District A had class sizes of 30.4 and 30.7 in grades four and five respectively; District B had class sizes of 28.0 and 29.7; District C, 32.6 and 31.4; District D, 29.8 and 29.8; District D, 28.3 and 30.6. Conversely, our district averaged 27.1 and 28.1 while Columbia School had class sizes of 25.7 and 26.3 in grades four and five. Despite declining enrollment (see attached table), our district maintained its commitment to ensuring lower class sizes. It should also be pointed out that we met QEIA class size targets for all individual classes at grades K-3, as well as grades 6-8 during the 2010-2011 academic year. Additionally, Columbia met all other requirements of QEIA legislation during 2010-2011: Teacher Experience Index, Highly Qualified Teachers, Professional Development, Williams Regulations, and the Academic Performance Index growth targets.

Columbia School Demographics and Academic Performance

Despite the increased class sizes at Grades Four and Grade Five, Columbia School students continued to experience remarkable academic success during the 2010-2011 academic year. The school's demographics (93% of the students participate in the National School Lunch Program and 52% of the students are identified as English Learners) have made academic progress a challenge, but it is a challenge that Columbia administrators, teachers, staff, parents, and students have accepted and met. During the three academic years for which API growth was monitored, Columbia was expected to grow a total of 16 points on the Academic Program Index, it grew a total of 107 points. Columbia's expected annual growth was 5.0 points during the aforementioned years, but the school grew at an average of 35.7 points annually. For the 2010-2011 academic year when Columbia's class size at grades Four and Five exceeded the required class size targets, Columbia grew a total of 30 points on the API and it now holds a score of 810. According to a report compiled by the QEIA Southern Technical Assistance Center for 2011(dated August 31, 2011) Columbia School is one of only 35 QEIA schools with an API score of over 800, additionally Columbia School is one of only 53 QEIA Program Improvement schools that have met the 2011 AYP targets for one year and is now in frozen status. Below is a summary of the API growth for Columbia School from 2005-2011:

Columbia School Academic Performance Index

2005-2006	2006-2007	2007-2008	2008-2009	2009-2010	2010-2011
674	681	704	755	780	810

Source: Academic Index Reports

In order to adhere to the QEIA required class size targets, the El Monte City School district added an additional teacher to reduce class sizes at grades Five and Six at Columbia School for the 2011-2012 academic school year. The district further took the necessary steps to transfer to other schools within the district, students at grade levels that may have exceeded QEIA class size targets. We believe that it is essential to meet all QEIA requirements in order for Columbia School to continue to provide adequate support to all Columbia School students, so they will maintain the academic gains they have made over the last four years. Approval of this waiver will ensure that Columbia School will continue to meet the intent of QEIA legislation for the remainder of the grant period. Maintaining QEIA funding is of tremendous importance if we are to maintain lower class sizes at Columbia School. We feel that the significant academic gains Columbia School has made warrant the opportunity

7. *Demographic Information:*

Columbia School has a student population of 873 students and is located in an urban setting in Los Angeles County.

LEA Request:

Lennox School District (SD) is an urban school district located in Los Angeles County and has a student population of approximately 6,102 students. Lennox Middle School (MS) serves 1,768 students in grades six through eight. Monitoring performed by the Los Angeles County Office of Education indicates that the Class Size Reduction (CSR) requirements of the Quality Education Investment Act (QEIA) were not fully met by Lennox MS in grade eight for the 2010–11 school year. The district provided class size information from 2006–07, the base year upon which QEIA CSR targets are calculated, showing that the average size of core classes of English, mathematics, history-social science, and science in grades six, seven, and eight were 27.0, 27.5, and 27.4. The QEIA CSR targets in grades six, seven, and eight are 22.0, 22.5, and 22.4.

Lennox SD states that Lennox MS is the only middle school in the district and there is no other school to provide a transfer option to avoid class size averages rising when enrollment is higher than predicted. Grade eight core classroom averages for 2010–11 at Lennox MS was 22.6 and there was not the normal loss of enrollment that the district states it typically experiences as the year continues. The district states that it has every intention of closely monitoring the grade level averages throughout all remaining QEIA years to ensure compliance with QEIA CSR target requirements. The district states that it is committed to participating in QEIA and is proud of the academic achievement of its QEIA schools.

Lennox SD is requesting a waiver for exceeding its QEIA CSR target in grade eight at Lennox MS for the 2010–11 school year by .31 of a student. The district is not asking for a revised QEIA CSR target.

California Department of Education (CDE) Recommendation and Conditions:

The California Department of Education (CDE) supports Lennox SD's request that the QEIA CSR requirement for grade eight at Lennox MS be waived for the 2010–11 school year.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grade eight at Lennox MS for school year 2010–11; (2) Lennox MS reduce the average class size in core classes at the school level to the established QEIA CSR target in grade eight in 2011–12 and all subsequent years the district received QEIA funds; and (3) Within 30 days of approval of this waiver, Lennox SD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

6. Education Code Section

52055.740. (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

(b) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following interim requirements:

(1) Be at least one-third of the way toward meeting each of the program requirements specified in paragraphs (1) to (5), inclusive, of subdivision (a) by the end of the first full year of funding.

(2) Be at least two-thirds of the way toward meeting each of the program requirements specified in paragraphs (1) to (5), inclusive, of subdivision (a) by the end of the second full year of funding, and achieve full implementation by the end of the third full year and for each year thereafter.

(3) Have provided professional development to at least one-third of teachers and instructional paraprofessionals in the school annually.

(4) Meet all of the requirements of the settlement agreement in Williams v. State of California (Case Number CGC-00-312236 of the Superior Court for the County of San Francisco), including, among other things, the requirements regarding teachers, instructional materials, and school facilities, by the end of the first full year of funding, and in each year of funding thereafter.

(c) (1) If a county superintendent of schools determines that a funded school has not substantially met the requirements of subdivision (b) after the first or second full year of funding, or any alternative program requirements approved under Section 52055.760, he or she shall notify the Superintendent. ~~If all of the interim and final requirements are not met by the end of any subsequent school year, the Superintendent shall terminate funding for that school.~~

7. Desired Outcome/ Rationale

Desired Outcome

Lennox Elementary School District is requesting that funding not be terminated due to exceeding QEIA class size requirement in grade 8 at Lennox Middle School during the 2010-11 school year.

Rationale

Lennox Elementary School District has had contractual agreements to maintain reduced class sizes at all grade levels. QEIA required the use of 2006-07 school year as the baseline year to set class size reduction targets throughout QEIA funded years. Based on the QEIA statute, Lennox Middle School is required to reduce class size by five students or to 25 students, whichever was lower. During the 2006-07 school year class sizes were below the ratios of 29:1 required in the Lennox School District Collective Bargaining Agreement. As a result, QEIA targets were set at:

	Base Year (06-07)	QEIA Targets
Grade 6	27.0	22.0
Grade 7	27.5	22.5
Grade 8	27.4	22.4

In the base year, the district more than met the contractual agreements at all grades which has resulted in very low QEIA targets. This is evidence that the district has always valued a low student-teacher ratio.

Lennox Middle School is the only middle school in the Lennox School District. Therefore, there is no other middle school to provide an option to avoid class size averages rising when enrollment comes in higher than predicted. At the end of the 2010-11 school year, Lennox Middle School met the target for 6th and 7th grades. However, Lennox Middle School missed the target at 8th grade by .31 of a student; it was 22.71. This unanticipated small rise in student enrollment resulted in the eight grade not meeting the QEIA target. Specifically, eight grade core classroom averages at Lennox Middle School peaked at 23.64 at the end of November, but, unusually, there was not the normal loss of enrollment that we typically experience as the year continues. Lennox School District has every intention of closely monitoring 6-8th grade level averages throughout all remaining QEIA years to ensure compliance with the QEIA CSR target requirements.

In addition, in June 2010, for the 2010-11 fiscal year, the district declared a Qualified Certification. In September-October, 2010, as part of the process of resolving this issue, the district met with a Budget Review Committee appointed by the Los Angeles County Office of Education. By working closely with LACOE the district was able to declare a Positive Certification at First Interim in December 2010. Given this fiscal background, when staffing our schools it was imperative to be fiscally responsible and not "over staff."

D.) API Growth with QEIA Support

The Lennox School District has 3 elementary schools and its only middle school in the QEIA program. During that time, and we believe due in a large part to the lowering of class size thanks to the QEIA funding, those four schools have grown in API as follows:

Felton	Jefferson	Moffett	Lennox MS	
2007-08	717	715	678	689
QEIA Funded Years:				
2008-09	771 (+54)	760 (+45)	738 (+60)	714 (+25)
2009-10	797 (+26)	795 (+35)	756 (+18)	719 (+5)
2010-11	839 (+42)	807 (+12)	781 (+25)	734 (+16)

Summary

The Lennox School District is committed to participating in the Quality Education Investment Act. We are proud of the academic achievements of our QEIA funded schools, and believe strongly that with the continued support of QEIA, we will continue to show the type of long term growth that is the goal of the QEIA program. We are committed to reduced class sizes and will monitor our enrollment figures at all of our QEIA schools to ensure we meet this requirement throughout all QEIA funded years.

Waiver Number: 16-9-2011

Jefferson Elementary School
Lennox School District

Period of Request: July 1, 2010, to June 30, 2011

Period Recommended: July 1, 2010, to June 30, 2011

CDS Code: 19 64709 6014963

LEA Request:

Lennox School District (SD) is an urban school district located in Los Angeles County and has a student population of approximately 6,102 students. Jefferson Elementary School (ES) serves 795 students in kindergarten through grade five. Monitoring performed by the Los Angeles County Office of Education indicates that the Class Size Reduction (CSR) requirements of the Quality Education Investment Act (QEIA) were not fully met by Jefferson ES in five grade three classes for the 2010–11 school year.

Lennox SD states that in December 2010 it was finally able to declare a positive certification, and when staffing schools it was imperative to be fiscally responsible and not overstaff. The district states that it was that need for fiscal responsibility that resulted in the grade three classes at Jefferson ES to be slightly above the CSR target of 20.44. The district states that it is committed to reducing class sizes and has had contractual agreements to maintain reduced class sizes at all grade levels. Because of high enrollments in October 2010, the school was not accepting any new students in grades three, four, and five. The district states that QEIA funding helped Jefferson ES exit program improvement at the end of the 2009–10 school year.

The district states that it has every intention of closely monitoring the grade level averages throughout all remaining QEIA years to ensure compliance with QEIA CSR target requirements. The district states that it is committed to participating in QEIA and is proud of the academic achievement of its QEIA schools.

Lennox SD is requesting a waiver for exceeding its QEIA CSR target in five grade three classes at Jefferson ES for the 2010–11 school year by .52, .50, .88, 1.23, and 1.55 students. The district is not asking for a revised QEIA CSR target for the 2011–12 school year.

California Department of Education (CDE) Recommendation and Conditions:

The California Department of Education (CDE) supports Lennox SD's request that the QEIA CSR requirements for five grade three classes at Jefferson ES be waived for the 2010–11 school year.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grade three at Jefferson ES for school year 2010–11; (2) Jefferson ES meet the class size requirements in 2011–12 and all subsequent years the district received QEIA funds; and (3) Within 30 days of approval of this waiver, Lennox SD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

(2) Be at least two-thirds of the way toward meeting each of the program requirements specified in paragraphs (1) to (5), inclusive, of subdivision (a) by the end of the second full year of funding, and achieve full implementation by the end of the third full year and for each year thereafter.

(3) Have provided professional development to at least one-third of teachers and instructional paraprofessionals in the school annually.

(4) Meet all of the requirements of the settlement agreement in Williams v. State of California (Case Number CGC-00-312236 of the Superior Court for the County of San Francisco), including, among other things, the requirements regarding teachers, instructional materials, and school facilities, by the end of the first full year of funding, and in each year of funding thereafter.

(c) (1) If a county superintendent of schools determines that a funded school has not substantially met the requirements of subdivision (b) after the first or second full year of funding, or any alternative program requirements approved under Section 52055.760, he or she shall notify the Superintendent. ~~If all of the interim and final requirements are not met by the end of any subsequent school year, the Superintendent shall terminate funding for that school.~~

7. Desired Outcome/ Rationale

Desired Outcome

Lennox Elementary School District is requesting that funding not be terminated due to exceeding class size requirement in grade 3 at Jefferson Elementary School during the 2010-11 school year.

Rationale

In June, 2010, for the 2010-11 fiscal year, the district declared a Qualified Certification. In September-October, 2010, as part of the process of resolving this issue, the district met with a Budget Review Committee appointed by the Los Angeles County Office of Education. By working closely with LACOE the district was able to declare a Positive Certification at First Interim in December 2010. Given this fiscal background, when staffing our schools it was imperative to be fiscally responsible and not "over staff." It was in that need for fiscal responsibility in mind that classes in one grade level at one QEIA school went slightly above 20.44.

Lennox Elementary School District is committed to reducing class sizes and has had contractual agreements to maintain reduced class sizes at all grade levels. Based on the QEIA statute, Jefferson Elementary School was required to adhere to the K-3 Class Size Reduction Program requirements. At K-2, every class met the required 20.44 ratio. At grade three, due to high enrollment numbers in October, the school was not open accepting any new students at this grade level and also at grades 4, and 5.

Despite taking this action, and despite the fact that Lennox Schools typically decline in enrollment as the school year progresses, one grade level (3rd), at one QEIA school (Jefferson Elementary) in the Lennox School District exceeded the CSR 20.4 limit in 5 of the 6 classes as follows:

At third grade, we were able to attain the following targets that were very close to the 20.44 teacher-student ratio:

Class A	Class B	Class C	Class D	Class E	Class F
20.96	20.94	21.32	21.67	19.33 (met)	21.99

This was a unique situation and the Lennox School district has every intention of fully meeting QEIA K-3 CSR requirements in future years.

D.) API Growth with QEIA Support

The Lennox School District has 3 elementary schools and its only middle school in the QEIA program. During that time, we believe due in a large part to the lowering of class size thanks to the QEIA funding, those four schools have grown in API as follows:

	Felton	Jefferson	Moffett	Lennox MS
2007-08	717	715	678	689
QEIA Funded Years:				
2008-09	771 (+54)	760 (+45)	738 (+60)	714 (+25)
2009-10	797 (+26)	795 (+35)	756 (+18)	719 (+5)
2010-11	839 (+42)	807 (+12)	781 (+25)	734 (+16)

Thanks in a large part to QEIA funding Jefferson School was the first Lennox School to exit Program Improvement at the end of the 2009-10 school year. We believe the loss of this support at this time would cause a critical harm to a school that is seen as a model for QEIA schools statewide.

Summary

Lennox School District is committed to participating in the Quality Education Investment Act and class size reduction. We are proud of the academic achievements of our QEIA funded schools, and believe strongly that with the continued support of QEIA funding, we will continue to improve the quality of academic instruction and the level of pupil achievement. We are committed to reduced class sizes and will monitor our enrollment figures at all of our QEIA schools to ensure we meet this requirement throughout all QEIA funded years.

Waiver Number: 4-12-2010
Clover Flat Elementary School
Mountain Empire Unified School District

Period of Request: July 1, 2010, to June 30, 2012
Period Recommended: July 1, 2010 to June 29, 2012
CDS Code: 37 68213 6085054

LEA Request:

Mountain Empire Unified School District (USD) is a rural school district located in San Diego County and has a student population of approximately 2,400 students. Clover Flat Elementary School (ES) serves 158 students in grades two through eight and is the only school in the district with this grade configuration. The district provided class size information from 2006–07, the base year upon which QEIA CSR targets are calculated, showing that the average size of core classes of English, mathematics, history-social science, and science in ranged from 23.5 in grade four to 28 in grade five. The QEIA CSR targets for Clover Flat ES range from 18.5 in grade four to 23.0 in grade five.

Mountain Empire USD states that in the 2006–07 school year class sizes in grades four and six had very small numbers. The district states that Clover Flat ES originally served grades two through six, with grade seven added in 2009–10 and grade eight added in 2010–11. The district states the QEIA CSR targets are very difficult to meet as the population changes every year and it has added combination classes to meet CSR targets and remain in compliance with program requirements.

Mountain Empire USD requests that Clover Flat ES be allowed to average class sizes at 22.0 for all grades four through eight as opposed to meeting individual grade level class size targets.

California Department of Education Recommendation and Conditions:

The CDE does not support the LEAs request for a two year waiver. The CDE recommends a two year minus one day waiver for Mountain Empire USD's request to average class sizes at 22.0 for grades four through eight to meets its QEIA CSR target. This alternative method would be consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grades four through eight at Clover Flat ES for school year 2010–11 and 2011–12; and (2) Within 30 days of approval of this waiver, Mountain Empire USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**). following program requirements by the school by the end of the third full year of funding:

52055.740. (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the

(1) Meet all of the following class size requirements:

(A) For kindergarten and grades 1 to 3, inclusive, no more than 20 pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).

(B) For self-contained classrooms in grades 4 to 8, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

~~(i) At least five pupils fewer per classroom than was the average in 2006-07.~~

(ii) An average of 25 pupils per classroom.

(iii) For purposes of this subparagraph, average classroom size shall be calculated at the grade level based on the number of self-contained classrooms in that grade at the schoolsite. ~~If the self-contained classrooms at the school averaged fewer than 25 pupils per classroom during the 2005-06 school year, that lower average shall be used as the "average in 2006-07" for purposes of this subparagraph.~~ A school that receives funding under this article shall not have a self-contained classroom in grades 4 to 8, inclusive, with more than 27 pupils regardless of its average classroom size.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Clover Flat School is a small, rural school. The population is only 158 students. The 2006-2007 school year, on which the class size reduction target was calculated, grades four and six had only one class with very small numbers (see attached chart).

The school originally served only through 6th grade however starting in 2009-10 a 7th grade was added, and 8th grade was added in 2010-11. The 7th and 8th grade targets (below *) were derived from the only middle school in the district, Mountain Empire Middle School which also had only about 230 pupils.

These targets are very difficult for us to hold to as the population changes year to year based on the number of students in the previous grade, which has higher targets. The reason for the difficulty is the way the student numbers play out in such a small school. For example, this year we have exactly 23 seventh grade students. To stay with 20.0 class size, we made a seventh/eighth grade combination class, placing about 3 seventh grade students in the 7/8th grade combination class.

The purpose of this legislation was not to burden the school unnecessarily, but to help them improve their achievement through highly qualified teachers and small class sizes. The recommended smaller class size is 25 students, and we are well below this target. It is extremely difficult for a small rural school to remain within the calculated targets based on only one school year.

Clover Flat School requests a waiver to be able to have a average class size ratio of 20-1 across all grades 4th through 8th, with a maximum in any class of 25- 1.

8. Demographic Information:

(District/school/program) Clover Flat School has a student population of 158 and is located in a rural area in San Diego County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

Waiver Request:

Clover Flat Elementary School request a waiver to be able to have a average class size ratio of 20-1 across all grades 4th through 8th, with a maximum in any one class of 25- 1.

Waiver Number: 15-10-2011 **Period of Request:** July 1, 2011, to June 30, 2014
Walnut Grove Elementary School **Period of Recommended:** July 1, 2011, to June 29, 2013
River Delta Unified School District **CDS Code:** 34 67413

LEA Request:

River Delta Unified School District (USD) is located in a rural community in Sacramento County and has a student population of approximately 1,593 students. Walnut Grove Elementary School (ES) serves 158 students in kindergarten through grade six. The district met the Class Size Reduction (CSR) requirements of the Quality Education Investment Act (QEIA) in school year 2010–11 and is asking for an alternative QEIA CSR target in years 2011–12 through 2013–14 at Walnut Grove ES. The district's current QEIA CSR targets for the average size of core classes of English, mathematics, history-social science, and science in kindergarten through grade six were 20.44 (K–3), 19.0, 20.0, and 25.0, respectively.

River Delta USD states that lower class sizes have always been important to them. Walnut Grove ES had a mass exodus of students prior to QEIA and now it is experiencing an influx of students returning to the community. The district anticipates the need to increase class size targets as they were set during the year in which many families removed their children from the school. The district's goal is to allow all students to return to their community school, and increasing the CSR will allow the district to accomplish this goal. It states that it is important to note that it is an isolated rural community and small school. Because of the different CSR requirements per grade level, it is often faced with the decision of splitting siblings, which is not beneficial or conducive for families.

River Delta USD requests a waiver of the QEIA CSR targets for kindergarten through grade five at Walnut Grove ES for school years 2011–12 through 2013–14 and establishment of alternative CSR targets of 22.0 per class in kindergarten through grade two, 24.0 per class in grade three, and 24.0 on average in core classes for grades four and five.

California Department of Education (CDE) Recommendation and Conditions:

The CDE does not support the LEAs request for a four year waiver. The CDE recommends a two year minus one day waiver for River Delta USD's request to increase its CSR targets for kindergarten through grade five. The alternative targets are consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in kindergarten through grade five at Walnut Grove ES for school year 2011–12 and 2012–13; (2) Walnut Grove increase to 22.0 the class size in kindergarten through grade two, 24.0 per class in grade three, and an average class size in core classes at the school level to 24.0 students per classroom in grades four and five in the 2011–12 and 2012–13 school years; and (3) Within 30 days of approval of this waiver, River Delta ES must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

Circle One: EC or CCR
520550.740(a)

Topic of the waiver: **QEIA Class Size Reduction Targets**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval _____
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? X Yes No If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): September 12, 2011 4:00pm

Name of bargaining unit and representative(s) consulted: River Delta Unified Teacher's Association Janet Allen, President

The position(s) of the bargaining unit(s): Neutral X Support Oppose (*Please specify why*)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

 Notice in a newspaper X Notice posted at each school X Other: (*Please specify*)
District Office, District Web Site

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Date the committee/council reviewed the waiver request: September 21, 2011/Walnut Grove Elementary Site Council
Were there any objection(s)? No X Yes (*If there were objections please specify*)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

River Delta Unified School District requests that a portion of *Education Code (EC)* Section 52055.740 (a) be waived regarding the class size reduction requirements under the Quality Education Investment Act for Walnut Grove Elementary School. The River Delta Unified School District is requesting to waive Education Code section 52055.740 (C)(i), labeled below with the strike-out key.

52055.740. (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

(1) Meet all of the following class size requirements:

(A) For kindergarten and grades 1 to 3, inclusive, no more than ~~20~~ pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).

(B) For self-contained classrooms in grades 4 to 8, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

(i) At least five pupils fewer per classroom than was the average in 2006-07.

(ii) An average of 25 pupils per classroom.

(iii) For purposes of this subparagraph, average classroom size shall be calculated at the grade level based on the number of self-contained classrooms in that grade at the school site. If the self-contained classrooms at the school averaged fewer than 25 pupils per classroom during the 2005-06 school year, that lower average shall be used as the "average in 2006-07" for purposes of this subparagraph. A school that receives funding under this article shall not have a self-contained classroom in grades 4 to 8, inclusive, with more than 27 pupils regardless of its average classroom size.

(C) For classes in English language arts, reading, mathematics, science, or history and social science courses in grades 4 to 12, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

(i) At least five pupils fewer per classroom than was the average in 2006-07.

(ii) An average of 25 pupils per classroom.

(iii) For purposes of this subparagraph, average classroom size shall be calculated at the grade level based on the number of subject-specific classrooms in that grade at the school-site. If the subject-specific classrooms at the school averaged fewer than 25 pupils per classroom during the 2005-06 school year, that lower average shall be used as the "average in 2006-07" for purposes of this subparagraph. A school that receives funding under this article shall not have a class in English language arts, reading, mathematics, science, or history and social science in grades 4 to 12, inclusive, with more than 27 pupils regardless of its average classroom size.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Class Size Reduction (CSR)

River Delta Unified School District requests that a portion of *Education Code (EC)* Section 52055.740 (a) regarding the class size reduction requirements under the Quality Education Investment Act (QEIA) be waived for Walnut Grove Elementary. The 2005-2006 school year was selected as our baseline year, and thus we were required to reduce class size to 20.4 in K-3, 19 in grade 4, 20 in grade 5 and 25 in grade 6. Lower class sizes have always been important to our District. Walnut Grove Elementary had a mass exodus to the school prior to QEIA. Due to administrative changes and QEIA supports among others, we are seeing an influx of students returning to their community school. We anticipate the need to increase class size as the targets were set during the year in which many families removed their children from the school. Our goal is to allow all students to return to their community school and increasing the CSR to 22 in grades K-2, 24 in grades 3-5 and remain at 25 in grade 6 will allow us to do so.

It is important to note that we are an isolated rural community and small school. Overflowing students displaces them from their own community and forces them to attend school in a neighboring town. This uproots them from their cultural and social community and provides hardship for families to travel to a neighboring town to attend their children's activities and meetings. Because of the different CSR requirements per grade level, we are often faced with the decision of splitting siblings as well which is not beneficial or conducive for our families.

Student Demographics and Performance

Walnut Grove Elementary is providing extensive support to all students by providing intervention in English and Math. Walnut Grove Elementary has a high percentage of English Learners (60%) and a high percentage of low socio economic status students (90%). The schools provide Tier 3 Language Arts courses to many students and Tier 3 Math courses to many of the students. This increases the number of staff needed at the school and thus significantly increases the number of teachers required to meet the needs of students.

The Academic Performance Index (API) increased from 667 in 2006-2007 to 763 in the 2010-2011 school year Walnut Grove School.

API Growth from 2006 to 2010

	2006	2007	2008	2009	2010	2011
Walnut Grove Elementary	667	714	655	672	715	763

Attached is the CST Summary report for Walnut Grove Elementary school. The report includes data for the past three years, 2008-09, 2009-10 and 2010-11. Data indicates that the number of students scoring at the Proficient and Advanced levels has started to increase. The number of students at the Far Below Basic and Below Basic levels has significantly reduced.

Fiscal Impact

Based on current projections, Walnut Grove Elementary school will not have sufficient cash flow to hire the number of teachers required to meet the CSR targets throughout all QEIA funded years. Without adding increasing class size, Walnut Grove Elementary school will continue to have to overflow students who desire to attend their community school to schools throughout the district which due to geography and long distances on busses for students, parents are opting to take their children to other districts which impacts the ADA revenue, in turn impacting the general fund.

Approval of this waiver for Walnut Grove Elementary will result in the school meeting the intent of the QEIA program while continuing to make strong academic gains. It will allow them to maintain reasonable target class sizes in all grades but will allow families to return to their community school as well as allow for the much needed enrollment increase at Walnut Grove Elementary. This will still allow for the very necessary support and intervention programs that have significantly contributed to the increased achievement and academic performance of all students. During this time of economic uncertainty, this program would appear to be our only hope of maintaining low class size.

8. Demographic Information:
River Delta Unified School District has a student population of 1,593 and is located in a rural area along the Sacramento Delta extended 60 miles along the river.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

Waiver Number: 16-11-2011 **Period of Request:** July 1, 2010, to June 30, 2014
Wallace Davis Elementary School **Period Recommended:** July 1, 2010 to July 29, 2012
Santa Ana Unified School District **CDS Code:** 30 66670 6114631

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. Wallace Davis Elementary School (ES) serves 764 students in kindergarten through grade five. Wallace Davis ES's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) targets for kindergarten through grade three are 20.44, grade four 25.0, and grade five 23.7.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that the CSR program has been changed to allow classes in grades one through three to exceed the 20.44 cap to as many as 30.0 and continue to retain a majority of CSR funding. Santa Ana USD states that Wallace Davis ES met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point where an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets and the establishment of alternative CSR targets at Wallace Davis ES for grades one through three of 25.0 per class and 25.0 on average in core classes for grades four and five.

California Department of Education (CDE) Recommendation and Conditions:

The CDE does not support the LEAs request for a four year waiver. The CDE recommends a two year minus one day waiver for Santa Ana USD's request to increase its CSR targets for grades one through five at Wallace Davis ES. The alternative targets are consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grades one through five at Wallace Davis ES for school years 2010–11 and 2011–12; (2) Wallace Davis ES increase to 25.0 the class size in grades one through three, and an average class size in core classes at the school level to 25.0 students in grades four and five in the 2010–11 and 2011–12 school years; and (3) Within 30 days of approval of this waiver, Santa Ana USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

Santa Ana Unified School District
1601 E. Chestnut Ave.
Santa Ana, CA 92701

October 2011

Desired Outcome/Rationale

Santa Ana Unified School District requests on behalf of **Davis Elementary School** a permanent single QEIA baseline target of 25:1 for grades 1 through 5 to fiscally support and meet all of the QEIA component mandates for the time periods of July 1, 2010-June 30, 2014.

Davis Elementary School is a Title 1 school with approximately **99.74%** of its students receiving free or reduced lunch. Approximately **83.2%** of the school's student population is English Language Learners. State level cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio.

Due to fiscal constraints, class sizes were recalculated and have increased in subsequent years after QEIA was enacted. Changes to the Class Size Reduction program have also been changed to allow classes in grades 1 through 3 to exceed the 20.44 cap to as many as 30 and continue to retain a majority of CSR funding. Approval of this waiver to exceed the 20.44 cap will permit Davis Elementary School to maintain and to continue to receive QEIA funding for 2012-13. In addition, approval of the waiver to exceed the 25:1 cap in grades 4-5 will also permit Davis to maintain and continue to receive a majority of CSR funding.

Davis Elementary School met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The school has exceeded its three year average for API, with an average gain of **32.3 points**. Davis has an API score of 775.

By creatively exhausting all flexible funding sources, SAUSD has managed to successfully staff our CSR targets for the past three years. We have now reached a point at which an increase of our baseline targets is necessary to maintain the momentum that will help move our schools out of Program Improvement.

SAUSD has 106 teachers who are staffed by QEIA funding of \$11 million for the 2011-2012 school year. Approval of this waiver would allow SAUSD to maintain its staffing and funding while continuing to make academic gains.

Waiver Number: 17-11-2011
Diamond Elementary School
Santa Ana Unified School District

Period of Request: July 1, 2010, to June 30, 2014
Period Recommended: July 1, 2010 to July 29, 2012
CDS Code: 30 66670 6030233

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. Diamond Elementary School (ES) serves 598 students in kindergarten through grade five. Diamond ES's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) targets for kindergarten through grade three are 20.44, and 25.0 for grade four and five.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that the CSR program has been changed to allow classes in grades one through three to exceed the 20.44 cap to as many as 30.0 and continue to retain a majority of CSR funding. Santa Ana USD states that Diamond ES met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point where an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets and the establishment of alternative CSR targets at Diamond ES for grades one through three of 25.0 per class and 25.0 on average in core classes for grades four and five.

California Department of Education (CDE) Recommendation and Conditions:

The CDE does not support the LEAs request for a four year waiver. The CDE recommends a two year minus one day waiver for Santa Ana USD's request to increase its CSR targets for grades one through five at Diamond ES. The alternative targets are consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grades one through five at Diamond ES for school years 2010–11 and 2011–12; (2) Diamond ES increase to 25.0 the class size in grades one through three, and an average class size in core classes at the school level to 25.0 students in grades four and five in the 2010–11 and 2011–12 school years; and (3) Within 30 days of approval of this waiver, Santa Ana USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

- a. For each funded school, the county superintendent of schools for the country in which the school is located, shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

(1) Meet all of the following class size requirements:

- i. For kindergarten and grades 1 to 3, inclusive, no more than 20 pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).

(2) Meet all of the following class size requirements:

- (B) For self-contained classrooms in grades 4-8, inclusive, an average classroom size that is the less of clause (i) or (ii), as follows: (i) At least five pupils fewer per classroom than was the average in ~~2006-2007~~; (ii) an average of 25 pupils per classroom.
- (C) For classes in English language arts, reading, mathematics, science, or history and social science courses in grades 4-12, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

At least five pupils fewer per classroom than was the average in ~~2006-2007~~; (ii) an average³ of 25 pupils per classroom.

Santa Ana Unified School District
1601 E. Chestnut Ave.
Santa Ana, CA 92701

October 2011

Desired Outcome/Rationale

Santa Ana Unified School District requests on behalf of **Diamond Elementary School** a permanent single QEIA baseline target of 25:1 for grades 1 through 5 to fiscally support and meet all of the QEIA component mandates for the time periods of July 1, 2010-June 30, 2014. Diamond Elementary School is a Title 1 school with approximately **100%** of its students receiving free or reduced lunch. Approximately **87.1%** of the school's student population is English Language Learners. State level cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio.

Due to fiscal constraints, class sizes were recalculated and have increased in subsequent years after QEIA was enacted. Changes to the Class Size Reduction program have also been changed to allow classes in grades 1 through 3 to exceed the 20.44 cap to as many as 30 and continue to retain a majority of CSR funding. Approval of this waiver to exceed the 20.44 cap will permit Diamond Elementary School to maintain and to continue to receive QEIA funding for 2012-13. In addition, approval of the waiver to exceed the 25:1 cap in grades 4-5 will also permit Diamond to maintain and continue to receive a majority of CSR funding.

Diamond Elementary School met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The school has exceeded its three year average for API, with an average gain of **20.7 points**. Diamond has an API score of 795.

By creatively exhausting all flexible funding sources, SAUSD has managed to successfully staff our CSR targets for the past three years. We have now reached a point at which an increase of our baseline targets is necessary to maintain the momentum that will help move our schools out of Program Improvement.

SAUSD has 106 teachers who are staffed by QEIA funding of \$11 million for the 2011-2012 school year. Approval of this waiver would allow SAUSD to maintain its staffing and funding while continuing to make academic gains.

Waiver Number: 18-11-2011 **Period of Request:** July 1, 2010, to June 30, 2014
Thomas Edison Elementary School **Period Recommendation:** July 1, 2010, to June 29, 2012
Santa Ana Unified School District **CDS Code:** 30 66670 6030241

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. Thomas Edison Elementary School (ES) serves 679 students in kindergarten through grade five. Thomas Edison ES's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) targets for kindergarten through grade three are 20.44, 22.6 for grade four, and 19.2 for grade five.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that the CSR program has been changed to allow classes in grades one through three to exceed the 20.44 cap to as many as 30.0 and continue to retain a majority of CSR funding. Santa Ana USD states that Thomas Edison ES met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point where an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets and the establishment of alternative CSR targets at Thomas Edison ES for grades one through three of 25.0 per class and 25.0 on average in core classes for grades four and five.

California Department of Education (CDE) Recommendation and Conditions:

The CDE does not support the LEAs request for a four year waiver. The CDE recommends a two year minus one day waiver for grades one through five at Thomas Edison ES. The alternative targets are consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grades one through five at Thomas Edison ES for school years 2010–11 and 2011–12; (2) Thomas Edison ES increase to 25.0 the class size in grades one through three, and an average class size in core classes at the school level to 25.0 students in grades four and five in the 2010–11 and 2011–12 school years; and (3) Within 30 days of approval of this waiver, Santa Ana USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

State level cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio.

Due to fiscal constraints, class sizes were recalculated and have increased in subsequent years after QEIA was enacted. Changes to the Class Size Reduction program have also been changed to allow classes in grades 1 through 3 to exceed the 20.44 cap to as many as 30 and continue to retain a majority of CSR funding. Approval of this waiver to exceed the 20.44 cap will permit Garfield Elementary School to maintain and to continue to receive QEIA funding for 2012-13. In addition, approval of the waiver to exceed the 25:1 cap in grades 4-5 will also permit Garfield to maintain and continue to receive a majority of CSR funding.

Garfield Elementary School met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The school has exceeded its three year average for API, with an average gain of **30 points**. Garfield has an API score of 747.

By creatively exhausting all flexible funding sources, SAUSD has managed to successfully staff our CSR targets for the past three years. We have now reached a point at which an increase of our baseline targets is necessary to maintain the momentum that will help move our schools out of Program Improvement.

SAUSD has 106 teachers who are staffed by QEIA funding of \$11 million for the 2011-2012 school year. Approval of this waiver would allow SAUSD to maintain its staffing and funding while continuing to make academic gains.

Waiver Number: 20-11-2011
John F. Kennedy Elementary School
Santa Ana Unified School District

Period of Request: July 1, 2010, to June 30, 2014
Period Recommended: July 1, 2010 to June 29, 2012
CDS Code: 30 66670 6107692

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. John F. Kennedy Elementary School (ES) serves 696 students in kindergarten through grade five. John F. Kennedy ES's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) targets for kindergarten through grade three are 20.44, 25.0 for grade four, and 23.0 for grade five.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that the CSR program has been changed to allow classes in grades one through three to exceed the 20.44 cap to as many as 30.0 and continue to retain a majority of CSR funding. Santa Ana USD states that Garfield ES met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point a which an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets and the establishment of alternative CSR targets at John F. Kennedy ES for grades one through three of 25.0 per class and 25.0 on average in core classes for grades four and five.

California Department of Education (CDE) Recommendation and Conditions:

The CDE does not support the LEAs request for a four year waiver. The CDE recommends a two year minus one day waiver for grades one through five at John F. Kennedy ES. The alternative targets are consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grades one through five at John F. Kennedy ES for school years 2010–11 and 2011–12; (2) John F. Kennedy ES increase to 25.0 the class size in grades one through three, and an average class size in core classes at the school level to 25.0 students in grades four and five in the 2010–11 and 2011–12 school years; and (3) Within 30 days of approval of this waiver, Santa Ana USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

Reviewed by Garfield Elementary Schoolsite Council on October 3, 2011.

Santa Ana Unified School District
1601 E. Chestnut Ave.
Santa Ana, CA 92701

October 2011

Desired Outcome/Rationale

Santa Ana Unified School District requests on behalf of **Kennedy Elementary School** a permanent single QEIA baseline target of 25:1 for grades 1 through 5 to fiscally support and meet all of the QEIA component mandates for the time periods of July 1, 2010-June 30, 2014. Kennedy Elementary School is a Title 1 school with approximately **100%** of its students receiving free or reduced lunch. Approximately **93.4%** of the school's student population is English Language Learners. State level cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio.

Due to fiscal constraints, class sizes were recalculated and have increased in subsequent years after QEIA was enacted. Changes to the Class Size Reduction program have also been changed to allow classes in grades 1 through 3 to exceed the 20.44 cap to as many as 30 and continue to retain a majority of CSR funding. Approval of this waiver to exceed the 20.44 cap will permit Kennedy Elementary School to maintain and to continue to receive QEIA funding for 2012-13. In addition, approval of the waiver to exceed the 25:1 cap in grades 4-5 will also permit Kennedy to maintain and continue to receive a majority of CSR funding.

Kennedy Elementary School met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The school has exceeded its three year average for API, with an average gain of **21.7 points**. Kennedy has an API score of 714.

By creatively exhausting all flexible funding sources, SAUSD has managed to successfully staff our CSR targets for the past three years. We have now reached a point at which an increase of our baseline targets is necessary to maintain the momentum that will help move our schools out of Program Improvement.

SAUSD has 106 teachers who are staffed by QEIA funding of \$11 million for the 2011-2012 school year. Approval of this waiver would allow SAUSD to maintain its staffing and funding while continuing to make academic gains.

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use strike out key).

- a. For each funded school, the county superintendent of schools for the country in which the school is located, shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:
- (1) Meet all of the following class size requirements:
 - i. For kindergarten and grades 1 to 3, inclusive, no more than 20 pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).
 - (2) Meet all of the following class size requirements:
 - (B) For self-contained classrooms in grades 4-8, inclusive, an average classroom size that is the less of clause (i) or (ii), as follows: (i) At least five pupils fewer per classroom than was the average in ~~2006-2007~~; (ii) an average of 25 pupils per classroom.
 - (C) For classes in English language arts, reading, mathematics, science, or history and social science courses in grades 4-12, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:
At least five pupils fewer per classroom than was the average in ~~2006-2007~~; (ii) an average³ of 25 pupils per classroom.

Santa Ana Unified School District
1601 E. Chestnut Ave.
Santa Ana, CA 92701

October 2011

Desired Outcome/Rationale

Santa Ana Unified School District requests on behalf of **Martin Elementary School** a permanent single QEIA baseline target of 25:1 for grades 1 through 5 to fiscally support and meet all of the QEIA component mandates for the time periods of July 1, 2010-June 30, 2014.

Martin Elementary School is a Title 1 school with approximately **96.18%** of its students receiving free or reduced lunch. Approximately **74.5%** of the school's student population is English Language Learners. State level cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio.

Due to fiscal constraints, class sizes were recalculated and have increased in subsequent years after QEIA was enacted. Changes to the Class Size Reduction program have also been changed to allow classes in grades 1 through 3 to exceed the 20.44 cap to as many as 30 and continue to retain a majority of CSR funding. Approval of this waiver to exceed the 20.44 cap will permit Martin Elementary School to maintain and to continue to receive QEIA funding for 2012-13. In addition, approval of the waiver to exceed the 25:1 cap in grades 4-5 will also permit Martin to maintain and continue to receive a majority of CSR funding.

Martin Elementary School met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The school has exceeded its three year average for API, with an average gain of **31.3 points**. Martin has an API score of 789.

By creatively exhausting all flexible funding sources, SAUSD has managed to successfully staff our CSR targets for the past three years. We have now reached a point at which an increase of our baseline targets is necessary to maintain the momentum that will help move our schools out of Program Improvement.

SAUSD has 106 teachers who are staffed by QEIA funding of \$11 million for the 2011-2012 school year. Approval of this waiver would allow SAUSD to maintain its staffing and funding while continuing to make academic gains.

Waiver Number: 23-11-2011 **Period of Request:** July 1, 2010, to June 30, 2014
Monte Vista Elementary School **Period of Request:** July 1, 2010, to June 29, 2012
Santa Ana Unified School District **CDS Code:** 30 66670 6030365

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. Monte Vista Elementary School (ES) serves 666 students in kindergarten through grade five. Monte Vista ES's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) targets for kindergarten through grade three are 20.44, 24.8 for grade four, and 23.0 for grade five.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that the CSR program has been changed to allow classes in grades one through three to exceed the 20.44 cap to as many as 30.0 and continue to retain a majority of CSR funding. Santa Ana USD states that Monte Vista ES met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point where an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets and the establishment of alternative CSR targets at Monte Vista ES for grades one through three of 25.0 per class and 25.0 on average in core classes for grades four and five.

California Department of Education (CDE) Recommendation and Conditions:

The CDE does not support the LEAs request for a four year waiver. The CDE recommends a two year minus one day waiver for grades one through five at Monte Vista ES. The alternative targets are consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in grades one through five at Monte Vista ES for school years 2010–11 and 2011–12; (2) Monte Vista ES increase to 25.0 the class size in grades one through three, and an average class size in core classes at the school level to 25.0 students in grades four and five in the 2010–11 and 2011–12 school years; and (3) Within 30 days of approval of this waiver, Santa Ana USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

Waiver Number: 24-10-2011 **Period of Request:** July 1, 2011, to June 30, 2012
Period Recommended: July 1, 2011, to June 30, 2012

Barbara Webster Elementary School	CDS Code: 56 72587 6055545
Glen City Elementary School	CDS Code: 56 72587 6055578
Grace S. Thille Elementary School	CDS Code: 56 72587 6055586
Santa Paula Elementary School District	

LEA Request:

Santa Paula Elementary School District (ESD) is located in a small city in Ventura County and has a student population of approximately 3,760 students. Barbara Webster Elementary School (ES), Glen City Elementary School (ES), and Grace S. Thille Elementary School (ES) serve 404, 592, and 369 students, respectively, in kindergarten through grade five. The district met the Class Size Reduction (CSR) requirements of the Quality Education Investment Act (QEIA) in school year 2010–11 and is asking for an alternative QEIA CSR target in grades kindergarten through grade three for the above schools in the 2011–12 school year. The district’s current QEIA CSR target for kindergarten through grade three is 20.44 per class.

Santa Paula ESD states that revenue limit funding cuts have resulted in teacher reductions, causing an increase in the student-to-teacher ratio in all schools in the district. The district states that all QEIA first grade classes have twenty students and non-QEIA schools have twenty-six students, which is the maximum capacity allowed based on the bargaining unit agreement. As new students attempt to enroll at the QEIA schools, combination classes will be created. The district states that kindergarten and grade two classes are at capacity at two of the three QEIA schools and results in students being transported across the district where space may exist.

Santa Paula ESD requests a waiver of the QEIA CSR targets for kindergarten through grade three at Barbara Webster ES, Glen City ES, and Grace S. Thille ES for school year 2011–12 and the establishment of alternative CSR targets of 22.0 per class in kindergarten through grade three.

The California Department of Education (CDE) Recommendation and Conditions:

The California Department of Education (CDE) supports Santa Paula ESD’s request to increase its CSR targets for kindergarten through grade three. The alternative target is consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

The CDE recommends approval with the following conditions: (1) Applies only to classes in kindergarten through grade three at Barbara Webster ES, Glen City ES, and Grace S. Thille ES for school year 2011–12; (2) Barbara Webster ES, Glen City ES, and Grace S. Thille ES increase enrollment to 22.0 per class in kindergarten through grade three for the 2011–12 school year; and (3) Within 30 days of approval of this waiver, Santa Paula ES must provide to the CDE a description, including costs covered by QEIA funds, of

professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the CSR requirement.

Reviewed by Barbara Webster, Glen City, and Grace S. Thille Elementary Schoolsite Councils on October 4, October 11, and September 21, 2011.

Supported by Santa Paula Federal Teacher's Union, October 11, 2011.

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number):
Circle One: *EC* or *CCR*
52055.740(a)

Topic of the waiver: **QEIA Class Size Reduction**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval: _____
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:
Bargaining unit(s) consulted on date(s): **October 11, 2011**
Name of bargaining unit and representative(s) consulted: **Santa Paula Federal Teacher's Union, Carolyn Ishida, President**
The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)
Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.
How was the required public hearing advertised?
 Notice in a newspaper Notice posted at each school Other: (*Please specify*)
Santa Paula High School, City of Santa Paula, Blanchard Library

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
School Site Councils
Date the committee/council reviewed the waiver request: **Grace Thille, September 29, 2011
Barbara Webster, October 4, 2011
Glen City, October 11, 2011**
Were there any objection(s)? No Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

52055.740 (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:
(1) Meet all of the following class size requirements:
~~(A) For kindergarten and grades 1 to 3, inclusive, no more than 20 pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).~~

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The district is requesting a permanent single QEIA class size average of 22 pupils per classroom in grades kindergarten through third for the time periods from July 1, 2011 through June 30, 2012.

State level cuts to revenue limit funding have resulted in teacher reductions, causing an increase of the student-to-teacher ratio in all schools in the district. Currently, all first grade classrooms are at capacity: QEIA schools have 20 students in all first grade classes; non-QEIA schools have 26 students, which is the maximum capacity based on the bargaining unit agreement with the teachers' union. As new students attempt to enroll at the QEIA schools, K-1 combination classes or 1-2 combination classes will have to be created, with only one student in the first grade group. Additionally kindergarten and grade two classes are at capacity at two of the three QEIA schools, which will result in students being transported across the district where a space may exist.

A waiver would allow the district to keep students in their home school, and in a class with their grade level peers. Student achievement on CST has improved at all three QEIA schools due in part to limiting combination classes. Each of these QEIA schools are schoolwide Title I schools; they qualify for Provision 2 free and reduced lunch; and they have a significant number of English learners. Consistent enrollment in the neighborhood school with teachers focused on one grade level curricula is in the best interest of these students.

8. Demographic Information:
Santa Paula Elementary School District has a student population of **3,760** and is located in a **small city in Ventura County**.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
 (If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
 (If yes, please attach explanation or copy of CPM finding)

RECOMMENDATION

Approval Approval with conditions Denial

See Attachments 1 and 3 for details.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At the November 2011 State Board of Education (SBE) Meeting, the California Department of Education (CDE) Waiver Office presented 7 Teacher Experience Index (TEI) waivers related to the Quality Education Investment Act (QEIA) to the SBE. All TEI waivers were approved by the SBE.

SUMMARY OF KEY ISSUES

Teacher Experience Index

Schools participating in the QEIA Program were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. At that time, local educational agencies (LEAs) were required to demonstrate one-third progress toward full implementation of program requirements. At the end of the 2009–10 school year, QEIA LEAs were required to demonstrate two-thirds progress toward full program implementation.

QEIA schools are required to include an index based on the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. Approved by the district superintendent, the index is an aggregate indicator of the teaching experience on a scale of one to ten. QEIA schools are required to have a TEI equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of

SUMMARY OF KEY ISSUES (Cont.)

funding.

If an LEA requests a waiver of the TEI, the CDE reviews a range of information regarding the unique circumstances of the school and the LEA when formulating a recommendation to the SBE.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; and (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the TEI targets based on statute requirements to stay in the program. Any school in the program not meeting those targets will risk the loss of future funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded).

Attachment 3: Taft City School District Request for a Quality Education Investment Act Teacher Experience Index Waiver 27-8-2011 (2 pages)

Attachment 4: Taft City School District General Waiver Request 27-8-2011 (2 pages) (Original waiver request is signed and on file in the Waiver Office.)

Waiver Number: 27-10-2011 **Period of Request:** August 15, 2010, to June 24, 2011
Period Recommended: July 1, 2010 to June 30, 2011
 Bayside Elementary School CDS Code: 37 68395 6040463
 South Bay Union Elementary School District

LEA Request:

South Bay Union Elementary School District (ESD) is an urban school district located in San Diego County and has a student population of approximately 7,708 students. Bayside Elementary School (ES) serves students in kindergarten through grade six. South Bay Union ESD provided teacher experience information from 2005–06, the base year upon which Quality Education Investment Act (QEIA) Teacher Experience Index (TEI) targets are calculated, showing that the average South Bay Union ESD TEI is 8.1. South Bay Union ESD’s average TEI for 2010–11 for this type of school is 8.68.

South Bay Union ESD states that staff projections for the 2010–11 school year indicate a TEI of 8.5. However, when the TEI report was prepared, the index was only 7.7. The district states this was an unintended consequence of reducing its operating budget that triggered a lay-off of 36 teachers district wide. When the 2010–11 school year began, the student population of Bayside ES grew beyond the projected enrollment and 4 additional teachers were needed. In the placement of re-hired teachers from the district’s layoff list and the hiring of new teachers; teachers with fewer years experience were hired and the TEI was not maintained; and the district takes full responsibility for this lapse.

South Bay Union ESD requests a waiver of the QEIA TEI target for Bayside ES and establishment of an alternative TEI target of 7.7 for the 2010–11 school year. Bayside ES further states that the 2011–12 TEI calculation is 8.1 and it will ensure the index will remain above 8.1 for the remainder of the grant.

Additional LEA and School Information for Consideration:

School Locale Code	21*
LEA Average Daily Attendance (ADA)	7,708
School ADA	519
Grade Span	K–6
Total Number Of Schools With Similar Grade Span	10
2005–06 TEI	8.1
2010–11 QEIA School TEI	7.7
2011–12 QEIA School TEI	8.1
2010–11 Similar Type School TEI	8.68
2011–12 Similar Type School TEI	8.65
Percent Of Similar Type School (2010–11 Data)	95.1
Made API Growth?	Yes
Made AYP?	No

*Suburb Large: Territory outside a principal city and inside an urbanized area with population of 250,000 or more.

California Department of Education (CDE) Recommendation and Conditions:

The CDE supports South Bay Union ESD's request to reduce its TEI target for Bayside ES for 2010–11.

The CDE recommends approval with the following conditions: (1) Applies only to teachers at Bayside ES; (2) For 2010–11, the alternate TEI index of 7.7 shall be established at Bayside ES; (3) For 2011–12 and subsequent years, Bayside ES must meet or exceed the TEI of 8.1; and (4) Within 30 days of approval of this waiver, South Bay USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the TEI requirement.

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

EC 52055.740 (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

~~(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.~~

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Bayside School currently has a teacher experience index target of 8.1.

In 2009-2010, Bayside met their teacher experience index target of 8.1.

In May 2010, staff projections for the 2010-11 school year indicated a teacher index target of 8.5. The school index target when the report ran was 7.7. This was an unintended consequence of our district reducing their operating budget triggering a lay off of 36 teachers district wide. Additionally, when the 2010-11 school year began, the student population of Bayside school grew beyond their projected enrollment and 4 additional teachers were needed. At that time we opened a voluntary transfer process where no teachers showed interest. In the placement of re-hiring teachers from our layoff list and hiring new teachers in late August – this increased the number of newer to the profession teachers to Bayside and the projected calculation of the index of 8.5 was not maintained. We take full responsibility for that.

Please consider: The Bayside Staff index for the 2010-2011 school year, if calculating exact years of teaching experience for staff, would give the teacher index rating of 13.34 not 7.7 as calculated by capping more experienced teachers at 10 years. Furthermore, we have calculated the current Bayside School staffing and for the 2011-2012 school year at 8.2. We ask that you accept our petition to keep funding and we will ensure that the teacher experience index will remain above the 8.1 target for the remainder of the grant.

Also consider that Bayside School did show academic growth in the 2010-2011 school year as follows: (see attached)

8. Demographic Information:

(District/school/program) Bayside_has a student population of 519 and is located in a small beach community (urban, rural, or small city etc. in San Diego County.

Period of Request: August 1, 2011, to June 30, 2014

Lincoln Junior High School
Taft City School District

Period Recommended: July 1, 2011, to June 29, 2012

CDS Code: 15 63800 6010136

LEA Request:

Taft City School District (SD) is a rural school district located in Kern County and has a student population of approximately 2,108 students. Lincoln Junior High School (JHS) serves students in grades six through eight. Taft City SD provided teacher experience information from 2005–06, the base year upon which Quality Education Investment Act (QEIA) Teacher Experience Index (TEI) targets are calculated, showing that the average Taft City SD TEI is 6.7. Lincoln JHS is the only school in Taft City SD with a grade configuration of six through eight, so no comparative TEI data are available for 2010–11.

Taft City SD states that the TEI target for Lincoln JHS is 6.7 years, and at the present date, the actual TEI is 6.3. The district would need to accumulate 16 more years of experience on the campus to meet the 6.7 target and thus this is currently unattainable. Lincoln JHS has had numerous retirements in the last year and it is anticipated that the school will have 4 or 5 more retirements at the conclusion of the 2011–12 school year. Hiring highly qualified teachers in the Junior High setting is very difficult and very few, if any, come with prior teaching experience.

Taft City SD requests a waiver of the QEIA TEI target for Lincoln JHS and establishment of an alternative TEI target of 5.0 for the 2011–12 school year.

Additional LEA and School Information for Consideration:

School Locale Code	32*
LEA Average Daily Attendance (ADA)	2,108
School ADA	710
Grade Span	6–8
Total Number Of Schools With Similar Grade Span	Only JHS
2005–06 TEI	6.7
2010–11 QEIA School TEI	6.7
2010–11 Similar Type School TEI	Only JHS
Percent Of Similar Type School	Only JHS
Made API Growth?	Yes
Made AYP?	No

*Town Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area.

California Department of Education (CDE) Recommendation and Conditions:

The CDE supports Taft City SD's request to reduce its TEI target for Lincoln JHS. Taft City SD is located in rural Kern County and has no other school with a similar grade span, and the school has an average daily attendance less than 800 students and has met the QEIA Academic Performance Index growth requirement.

The CDE recommends approval with the following conditions: (1) Applies only to teachers at Lincoln JHS; (2) For 2011–12 and subsequent years, Lincoln JHS must meet or exceed the alternative TEI of 5.0; and (3) Within 30 days of approval of this waiver, Taft City SD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the TEI requirement.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

This is the second State Board of Education (SBE) Meeting that waivers related to revising Highly Qualified Teachers (HQT) and the *Williams* case settlement requirements under the Quality Education Investment Act (QEIA) have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Quality Education Investment Act

Per California *Education Code* (EC) Section 52055.710(c) and (d) it is the intent of the Legislature that QEIA funding accomplish the following:

(c) Improve the quality of academic instruction and the level of pupil achievement in schools in which pupils have high levels of poverty and complex educational needs.

(d) Develop exemplary school district and school practices that will create the working conditions and classroom learning environments that will attract and retain well qualified teachers, administrators, and other staff.

SUMMARY OF KEY ISSUES (Cont.)

To assist local educational agencies (LEAs) in properly implementing requirements to meet statutory timelines, schools participating in the QEIA Program were monitored by their county offices of education for compliance with program requirements for the first time at the end of the 2008–09 school year. At that time, QEIA schools were required to demonstrate one-third progress toward full implementation of program requirements. At the end of the 2009–10 school year, QEIA schools were required to demonstrate two-thirds progress toward full program implementation. QEIA schools were required to demonstrate full compliance with all program requirements at the end of the 2010–11 school year.

Highly Qualified Teachers

California *EC* Section 52055.740(a)(3) requires in QEIA funded schools by the end of the 2010–11 school year and each year after, each teacher, including intern teachers, be highly qualified in accordance with the federal No Child Left Behind Act (NCLB) of 2001.

The federal NCLB statutes require that all elementary, middle and high school teachers assigned to teach core academic subjects are highly qualified. In California, the NCLB Core Academic Subjects are defined as:

- English/language arts/reading [including reading intervention and California High School Exit Exam (CAHSEE) English classes]
- Mathematics (including math intervention and CAHSEE-math classes)
- Biological sciences; chemistry; geosciences; physics
- Social science (history, government, economics, geography)
- Foreign languages (specific)
- Drama/theater; visual arts (including dance); and music

Meeting the federal requirement for HQT is based on the number of classes in core academic subjects taught by highly qualified teachers as reported in the California Longitudinal Pupil Achievement Data System (CALPADS).

Williams Case Settlement Requirements

California *EC* Section 52055.740(b)(4) requires QEIA funded schools by the end of the 2008–09 school year, and each year thereafter, to meet all of the requirements of the settlement agreement in *Eliezer Williams, et al., vs. State of California, et al.*

SUMMARY OF KEY ISSUES (Cont.)

These requirements include:

- Ensuring students have sufficient instructional materials.
- Ensuring school facilities pose no emergency or urgent threat to health and safety.
- Ensuring there are no teacher vacancies or misassignments.

If an LEA requests a waiver of the HQT or *Williams* case settlement requirements, the CDE reviews a range of information regarding the unique circumstances of the school and the district to formulate a recommendation to the SBE.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; and (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the HQT targets based on statute requirements to stay in the program. Any school in the program not meeting those targets will risk the loss of future funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded).

Washington Intermediate School **Period Recommended:** July 1, 2010 to June 29, 2012
Dinuba Unified School District
CDS Code: 75531 6053995

LEA Request:

Dinuba Unified School District (USD) is an urban fringe school district located in Tulare County and has a student population of approximately 5,984 students. Washington Intermediate School (IS) serves 896 students in grades seven and eight. Monitoring performed by the Tulare County Office of Education indicates that the Highly Qualified Teacher (HQT) requirements of the Quality Education Investment Act (QEIA) were not fully met by Washington IS for the 2010–11 school year.

Dinuba USD states that it and Washington IS have met a number of challenges in meeting the HQT requirements of QEIA. The district states that while implementing the QEIA class size requirements, it was necessary to increase the number of math teachers from a diminishing pool of highly qualified teachers, and these shortages are especially evident in the rural San Joaquin Valley in the subject areas of mathematics and science. In 2010–11 the district had two mathematics teachers with multiple subject credentials that failed to meet the HQT criteria. The teachers had a professional development plan to become HQT and took course work, participated in professional development classes and participated in California Subject Examination for Teachers (CSET) subject matter preparation classes. The district states that the teachers took the CSET subject matter test in March 2011, but they failed to meet the passing score for subject matter.

The Dinuba USD is requesting that the HQT requirement for teachers at Washington IS be waived for school years 2010–11 and 2011–12.

CDE Recommendation and Conditions:

The California Department of Education (CDE) supports Dinuba USD's request that HQT requirements for teachers at Washington IS be waived for school years 2010–11 and 2011–12.

The CDE recommends approval with the following conditions: (1) Applies only to teachers at Washington IS for school year 2010–11 and 2011–12; (2) Washington IS meet the HQT requirements in years 2012–13 and all subsequent years the district receives QEIA funds; and (3) Within 30 days of approval of this waiver, Dinuba USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the HQT requirement.

Topic of the waiver: Highly Qualified Teachers (HQT) Quality Education Investment Act (QEIA)

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval _____
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): Dinuba Teachers Association DTA/CTA
Classified School Employees Association
Name of bargaining unit and representative(s) consulted: Rich White, President, Dinuba Teachers Association
Sage Clark, President Dinuba Chapter # 152 CSEA
The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

Notice in a newspaper Notice posted at each school Other: (*Please specify*)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
Washington Intermediate School Site Council

Date the committee/council reviewed the waiver request: August 23, 2011

Were there any objection(s)? No Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

EC 52055.740 (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

~~(3) Ensure that each teacher in the school, including intern teachers, shall be highly qualified in accordance with the federal No Child Left Behind Act of 2001 (20 U.S.C. SEC. 6301 et seq.).~~

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

By 2010-2011, and each year after, QEIA funded schools must ensure that each teacher be highly qualified in accordance with the federal No Child Left Behind Act of 2001 (NCLB). The federal NCLB statutes require that all elementary, middle and high school teachers assigned to teach core academic subjects are highly qualified. Meeting the federal requirement for highly qualified teachers is based on the number of classes taught by highly qualified teachers as reported on the ESEA (NCLB) Teacher Requirements of the school's Consolidated application (Part 1).

Washington Intermediate School is seeking a waiver of this requirement from 2010-2011 to the 2011-2012 school year. [See attached]

8. Demographic Information: Washington Intermediate School is a middle school serving grade 7 and 8 students. It has a student population of 896 students: 91% Hispanic, 6% White. All students qualify for Free or Reduced Lunch under Provision II. English Learners represent 28% of the student population. The school is located in the urban fringe of a mid-size city in northern Tulare County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

CALIFORNIA DEPARTMENT OF EDUCATION

GENERAL WAIVER REQUEST

7. Desired outcome/rationale

Dinuba Unified School District and Washington Intermediate School have met a number of challenges in meeting the Highly Qualified Teacher Requirement. Several factors have impacted the school's ability to meet the HQT:

- In research conducted by SRI International and Reported by the Center for the Future of Teaching and Learning, it was found that the pool of prospective teachers in California has declined dramatically. The number of enrollee in teacher preparation programs in California has dropped by nearly half in the last seven years from more than 75,000 to 44, 558 in 2007-2008. The number of new teaching credentials issued by the state is similarly down. Source: California Commission on Teacher Credentialing
- While student enrollment is expected to turn upwards soon, the teaching force is declining from 310,000 teachers two years ago to slightly more than 300,000 in 2009-10. The drop in novice teacher over the same time was from 29,961 to 18,164. Source: California Department of Education.
- California continues to experience severe shortages of qualified teachers for specific teaching assignments. Mathematics and science, long identified as shortage areas, continue to be problematic with between 10 percent and 13 percent underprepared teachers (teachers who do not hold a full credential). Source: C. E. Esch and others, *The Status of the Teaching Profession, 2005*. Center for the Future of Teaching and Learning, 2005
- Implementing the QEIA CSR made it necessary to increase math teachers from a diminishing pool of Highly Qualified Teachers. These shortages are especially evident in the rural San Joaquin Valley where it is difficult to recruit Highly Qualified Teachers in the subject areas of mathematics and science.
- One mathematics teacher failed to meet the HQT criteria. The teacher has a multiple subject credential.
- The teacher was on a professional development plan to become HQT. The teacher took course work, participated in Holt SB 472 Professional Development, and participated in CSET subject matter. The teacher took the CSET subject matter test in March with the results in April indicated she had failed to meet the passing score for subject matter.

The QEIA grant has provided the resources that have reduced class sizes, provided professional development to improve instruction, repaired facilities and increased student learning.

Washington Intermediate School has met the following requirements at the previous benchmark years:

- Met the class size reduction requirements for full implementation 2010-2011.
- Teachers that are highly qualified as defined by federal requirements teach all classes. (100%)
- Forty hours of professional development provided to teachers. (100%)
- Professional development provided to paraprofessionals.
- Met all the requirements for the Williams settlement.
- Exceeded the API growth targets for the school averaged over the past three years.

The combination of new hires for CSR, a diminished pool of Highly Qualified Teachers and documented shortages in mathematics teachers, has made it a challenge for Washington Intermediate School to meet the HQT requirement in mathematics. One teacher failed to meet the requirement. The district is requesting that the HQT requirement be waived for the school year 2010-2011 with the stipulation that all teachers will meet the requirement in 2011-2012.

Waiver Number: 8-10-2011

Period of Request: July 1, 2010, to June 30, 2011

Period Recommended: July 1, 2010, to June 30, 2011

Delta Sierra Middle School
Lodi Unified School District

CDS Code: 39 68585 6107114

LEA Request:

Lodi Unified School District (USD) is an urban school district located in San Joaquin County and has a student population of approximately 30,528 students. Delta Sierra Middle School (MS) serves 423 students in grades seven and eight. Monitoring performed by the County Office of Education indicates that the Highly Qualified Teacher (HQT) and *Williams* case settlement requirements of the Quality Education Investment Act (QEIA) were not fully met by Delta Sierra MS for the 2010–11 school year.

Lodi USD states that in June 2011 it was determined that one of Delta Sierra MS's teachers failed to obtain his CLAD certificate by the end of the 2010–11 school year. The district states that the teacher did complete the CLAD certification requirements by passing the exam in 1997, but there have been some paperwork problems that ultimately have resulted in the Delta Sierra MS not meeting the HQT and *Williams* case settlement requirements. The district states that the teacher has re-enrolled in a course and will be certified by the end of the 2011–12 school year.

The district states that Delta Sierra MS would benefit from the continuation of the QEIA grant and students have improved academically and continue to grow.

The Lodi USD is requesting that the HQT and *Williams* case settlement requirements for teachers at Delta Sierra MS be waived for school year 2010–11.

CDE Recommendation and Conditions:

The California Department of Education (CDE) supports Lodi USD's request that HQT and *Williams* case settlement requirements for teachers at Delta Sierra MS be waived for school year 2010–11.

The CDE recommends approval with the following conditions: (1) Applies only to teachers at Delta Sierra MS for school year 2010–11; (2) Delta Sierra MS meet the HQT and *Williams* case settlement requirements in 2011–12; and; (3) Within 30 days of approval of this waiver, Lodi USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the HQT and *Williams* case settlement requirements.

Regarding # 7 Above:

Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

During a routine QEIA (Quality Education Investment Act) grant review (June 2011), it was determined that one of Delta Sierra Middle School's teachers failed to obtain his CLAD (Cross-cultural, Language Academic Development) certificate by the end of the 2010-2011 school year. This then triggered Delta Sierra Middle School's "NOT MET" for Highly Qualified Teacher and Williams Settlement.

As illustrated in supporting materials, the teacher did complete the CLAD certification requirements by passing the exam on 2/22/1997. He was under the impression that he also had to complete a minimum number of units in a foreign language to obtain his bilingual – CLAD certification as well. He began taking classes to obtain the necessary foreign language credits. When he was informed that this option was no longer needed to obtain the CLAD in December of 2003, he submitted his test results to the CDE (California Department of Education) to obtain his CLAD certificate. He was notified, however, that since he missed the five-year deadline his scores did not count. This information is inaccurate because he was completing the BCLAD certificate and did make the deadline of 7 years that is described on his examination Bilingual (CLAD) examination passing report.

Subsequently, he has re-enrolled in a course offered by Stanford CTEL and will be certified by the end of the 2011-2012 school year.

Delta Sierra Middle School would benefit from the continuation of the QEIA grant. Since the implementation of the QEIA grant, Delta Sierra Middle School students have improved academically and continue to do so; the school has had an overall 78 point gain in its API (Academic Performance Index). The school continues to meet the QEIA growth targets as outlined in the grant. The QEIA grant also affords the opportunity to provide needed professional development for teachers, administrators, and paraprofessionals.

Taken as a whole, the small class sizes, professional development, and the school-wide vision/goals set forth by Administration have all worked together to improve student achievement at Delta Sierra Middle School. The Lodi Unified School District therefore recognizes the need to continue Delta Sierra Middle School's participation in QEIA and request that this waiver be granted.

Waiver Number: 42-10-2011

Period of Request: July 1, 2010, to June 30, 2011

Period Recommended: July 1, 2010 to June 30, 2011

Jefferson Leadership Academies
Long Beach Unified School District

CDS Code: 19 64725 6057806

LEA Request:

Long Beach Unified School District (USD) is an urban school district located in Los Angeles County and has a student population of approximately 84,816 students. Jefferson Leadership Academies (LA) serves 892 students in grades six, seven, and eight. Monitoring performed by the Los Angeles County Office of Education indicates that the Highly Qualified Teacher (HQT) requirements of the Quality Education Investment Act (QEIA) were not fully met by Jefferson LA for the 2010–11 school year.

Long Beach USD states that Jefferson LA substantially met all of its 2010–11 QEIA requirements except the HQT requirement. The district states that there were eight core classes out of 140 that were taught by two teachers who were not HQT. Three teachers were strongly encouraged and supported to become highly qualified via taking and passing the CSET in their subject matter. Long Beach USD states that one of the teachers was successful and two were unable to meet the requirements needed to be highly qualified. One teacher was subsequently removed from the school and the other was reassigned. The Jefferson LA is currently HQT compliant for the 2011–12 school year.

The Long Beach USD is requesting that the HQT requirement for teachers at Jefferson LA be waived for school year 2010–11.

CDE Recommendation and Conditions:

The California Department of Education (CDE) supports Long Beach USD's request that HQT requirements for teachers at Jefferson LA be waived for school year 2010–11.

The CDE recommends approval with the following conditions: (1) Applies only to teachers at Jefferson LA for school year 2010–11; (2) Jefferson LA meet the HQT requirements in years 2011–12 and all subsequent years the district receives QEIA funds; and (3) Within 30 days of approval of this waiver, Long Beach USD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the HQT requirement.

From: 9/8/10		To: 6/16/11		October 18, 2011		October 18, 2011		

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): **52055.740 section (c)** Circle One: EC or CCR
Topic of the waiver: Quality Education Investment Act of 2006 termination of funding if requirements are not met

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval _____
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:
Bargaining unit(s) consulted on date(s): **October 6, 2011**
Name of bargaining unit and representative(s) consulted: **Joe Boyd, Executive Director of Teachers Association of Long Beach**
The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)
Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised? **Notice posted at Jefferson Leadership Academies and at the Long Beach Unified School District's central office building. The notice was also placed into the Long Beach Press Telegram newspaper.**

Notice in a newspaper Notice posted at school Other: **Notice posted at District Office**

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
Date the committee/council reviewed the waiver request: **October 13, 2011**
Were there any objection(s)? No Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

52055.740. SECTION (c) (1) If a county superintendent of schools determines that a funded school has not substantially met the requirements of subdivision (b) after the first or second full year of funding, or any alternative program requirements approved under Section 52055.760, he or she shall notify the Superintendent. ~~If all of the interim and final requirements are not met by the end of any subsequent school year, the Superintendent shall terminate funding for that school.~~

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Jefferson Leadership Academies (a middle school) in Long Beach Unified substantially met all of its 2010-11 QEIA requirements except for the 100% Highly Qualified Teachers requirement. There were eight core classes out of 140 that were taught by two teachers who were not Highly Qualified. Three teachers were strongly encouraged and supported in their endeavor to become highly qualified via taking and passing the California Subject Examination for Teachers (CSET) in their subject matter. While one of these three teachers was successful, two were unable to meet the requirements needed to be highly qualified in compliance with NCLB. One teacher was subsequently removed from the school while the other teacher was reassigned and now the school meets the 100% Highly Qualified Teachers requirement. Given that the school has addressed its HQT issue and met all of it's other 2010-11 QEIA requirements including significantly exceeding it's 3-year API average growth target (*17.3 growth vs. 7.3 target*), a waiver for funding termination is being requested so that the school can continue to receive QEIA funding through 2014-2015. The funding is needed to ensure that student achievement and student outcomes continue to improve.

8. Demographic Information:
(District/school/program) Jefferson Leadership Academies has a student population of 892 students and is located in an urban area in Long Beach which is part of Los Angeles County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

Period Recommended: July 1, 2010 to June 30, 2011

Lincoln Junior High School
Taft City School District

CDS Code: 15 63800 6010136

LEA Request:

Taft City School District (SD) is a rural school district located in Kern County and has a student population of approximately 2,108 students. Lincoln Junior High School (JHS) serves 710 students in grades six, seven and eight. Monitoring performed by the Kern County Office of Education indicates that the Highly Qualified Teacher (HQT) requirements of the Quality Education Investment Act (QEIA) were not fully met by Lincoln JHS for the 2010–11 school year.

Taft City SD states that Lincoln JHS is the only school in the district that serves students in grades six, seven, and eight. During an October 2011 monitoring visit, the district was informed that it was not HQT compliant for school year 2010–11 because of one teacher. The district states that the teacher had ample support to take the CSET, but unfortunately was unable to pass the exam and employment was ultimately terminated. Taft City SD states that a new HQT science teacher was hired for the 2011–12 school year and Lincoln JHS is now fully HQT compliant.

The Taft City SD is requesting that the HQT requirement for teachers at Lincoln JHS be waived for school year 2010–11.

CDE Recommendation and Conditions:

The California Department of Education (CDE) supports Taft City SD's request that HQT requirements for teachers at Lincoln JHS be waived for school year 2010–11.

The CDE recommends approval with the following conditions: (1) Applies only to teachers at Lincoln JHS for school year 2010–11; (2) Lincoln JHS meet the HQT requirements in years 2011–12 and all subsequent years the district receives QEIA funds; and (3) Within 30 days of approval of this waiver, Taft City SD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the HQT requirement.

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

Request by **Taft City School District** to waive portions of California Education Code Section 52055.740 (a), regarding Highly Qualified Teacher requirements under the Quality Education Investment Act, that this funded school have a 100% of their Teachers by the end of the 2010-2011 school year.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Taft City School District is a rural school district in Kern County. Lincoln Junior High is the only school in the district that serves students in sixth, seventh and eighth grade. In 2010-2011, Lincoln Junior High served a total of 710 students. Taft City School District has a total population of 2,108 students.

On October 11, 2011 during a monitoring visit, the district was informed that we had to be 100% HQT by the last day of school in 2010-2011. The district has been strategic in hiring all teachers who meet HQT status. Lincoln had one Science teacher who was not HQT in 2010-2011. That teacher had ample amounts of support that included paying her to take the CSET four times, as well as, providing a personal tutor to help with the Science content. After all options were exhausted, the board voted to lay the teacher off at the March 2011 meeting. A new (HQT) Science Teacher was hired in March of 2011 for the 2011-2012 school year. As of the first day of school in 2011-2012 Lincoln is 100% compliant.

Over the past three years, Lincoln has undergone significant positive changes. The Lincoln staff has been able to participate in Explicit Direct Instruction (EDI) training which has changed the look of our classrooms. Our students are overall API has increased by 48 points over the last three years. Our AYP percentages have increased 6.8% in ELA and 9.2% in Math. We have also been able to increase our academic rigor across all content areas by incorporating AVID strategies in grades 6-8 as well as early intervention for students who have failing grades at progress reports. These students are able to attend a homework club where certificated teachers are present and able to assist them with any academic issues that they are having. While this is a new program, we anticipate an overall increase in student performance at the quarter.

Hiring highly qualified teachers in the Junior High setting is very difficult for any rural district. Taft City School District has worked diligently on meeting all requirements of QEIA. QEIA provides 7.33 FTE's of certificated staff and numerous other program support mechanisms. Loss of QEIA funding will have a devastating effect on the academic program and the students of Lincoln Jr. High School

8. Demographic Information:

Taft City School District has a student population of 2,108 students and Lincoln JH has a student population of 710 (at CBEDS). Taft City School District is located in a rural city in Kern County.

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE) recommends denial of these waivers request because its approval would not adequately address the educational need of pupils within the meaning of Education Code Section 33051(a)(1).

See Attachments 1, 3, 5, 7, 9, and 11 for details and rationale of the recommendation.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

This is the first State Board of Education (SBE) meeting that waivers related to revising the Academic Performance Index (API) under the Quality Education Investment Act (QEIA) have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Academic Performance Index

Schools participating in the QEIA Program were monitored by their county offices of education for compliance with program requirements for the first time at the end of the 2008–09 school year. At that time, local educational agencies (LEAs) were required to demonstrate one-third progress toward full implementation of program requirements. At the end of the 2009–10 school year, QEIA LEAs were required to demonstrate two-thirds progress toward full program implementation. QEIA schools were required to demonstrate full compliance with all program requirements at the end of the 2010–11 school year.

SUMMARY OF KEY ISSUES (Cont.)

Quality Education Investment Act schools are required to exceed their API growth target for the school by 2010–11 averaged over the first three full years of funding. Beginning in 2011–12, regular QEIA schools must meet their annual API growth targets, and alternative application schools must exceed their annual API growth targets.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; and (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must meet the API targets based on statute requirements to stay in the program. Any school in the program not meeting those targets will risk the loss of future funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded).

Period Recommended: July 1, 2010, to June 30, 2011

Freedom Elementary School

CDS Code: 54 75325 0106021

Farmersville Unified School District

LEA Request:

Farmersville Unified School District (USD) is a rural school district located in Tulare County and has a student population of approximately 2,626 students. Freedom Elementary School (ES) serves 418 students in grades four and five. Academic Performance Index (API) data for Freedom ES shows that the school did not exceed the three-year average growth requirement of the Quality Education Investment Act (QEIA). API data shows that Freedom ES's three-year growth average target is 5.0, but its three-year growth average is only 3.3. Farmersville USD was granted a class size reduction QEIA waiver for this school in July 2011 to raise class sizes to 25.0 on average.

Farmersville USD states that it recognized it was not sufficiently meeting the needs of all students. In addition to adding intensive intervention curriculum to its programs, the district contracted with the Tulare County Office of Education for an English Language Arts and a Mathematics consultant. The district states that another change that has been made is how data are used more purposefully. Students are being targeted with the specific instruction they need to fill the gaps in learning. The district states that a final change that has been made is a stronger partnership with the after school program. Tutoring has been added to the after school program which is designed to enhance what has been going on in the regular school day.

Farmersville USD requests a waiver of the QEIA API three-year average growth requirement for Freedom ES for the 2010–11 school year.

Additional LEA and School Information for Consideration:

School Locale Code	22*
LEA Average Daily Attendance (ADA)	2,626
School ADA	418
Grade Span	4–5
2008–09 API	740
2009–10 API	746
2010–11 API	746
3 Year API Target Average	5.0
3 Year API Growth Average	3.3
Made API Growth?	No
Made AYP?	No

*Suburb Midsize: Territory outside a principal city and inside an urbanized area with population less than 250,000 and greater than or equal to 100,000.

California Department of Education (CDE) Recommendation and Conditions:

The California Department of Education (CDE) recommends denial of this waiver request because its approval would not adequately address the educational need of pupils within the meaning of Education Code Section 33051(a)(1). Specifically, (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; and (2) QEIA funding is expected to result in increased academic achievement over time and Freedom ES showed no growth in 2010–11.

Reviewed by Farmersville USD Superintendent's Cabinet and Freedom Elementary Schoolsite Council on October 6, 2011.

Supported by Farmersville Teachers Association, October 6, 2011.

Local Board Approval: October 11, 2011.

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

Education Code 52055.740 (a), For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

- (5) ~~Exceed the API growth target for the school averaged over the first three full years of funding.~~
Beginning in the fifth year of participation, funded schools shall meet their annual API growth targets. If the school fails to meet its annual growth target, the school shall continue to receive funding pursuant to this article, but shall be subject to state review, assistance, and timeline requirements pursuant to the HPSGP under Section 52055.650. The schoolsite administrator shall not automatically be reassigned based solely on that failure.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Since 2006, Freedom Elementary School's API has increased. The 2010-2011 school year is the first year Freedom did not make any growth. As a school, we recognized we were not sufficiently meeting the needs of all the students. While Math scores are steadily increasing, ELA scores in the 5th grade have been a struggle which has caused us to rethink the way we deliver instruction. At the end of the year, the staff met to discuss what changes we could make to ensure that our students receive rigorous instruction at their levels. We adopted Hampton Brown's Inside curriculum for our students that are two or more years below grade level. We identified our strongest teachers and those are the teachers delivering instruction to our neediest students. We deploy our students out for English Language Arts so that each student is receiving instruction on their level. This time has been made common in that each grade level is teaching English Language Arts at the same time without interruption. We are monitoring the effectiveness of our instruction by assessing often to see if the concept being taught is being retained. Student scores and progress are analyzed often so that students who are making adequate gains can move back into the regular curriculum in a timely fashion.

In addition to adding the intensive intervention curriculum, we contracted with an English Language Arts Consultant and Mathematics Consultant from the Tulare County Office of Education. We began revising our benchmark tests last year and are continuing to revise them in the current year. There are also days built into the contract that the consultants come and monitor the instructional practices of teachers. Following the observations, the consultant meets with the teaching staff and principal to debrief what was seen. Discussions take place on how to deliver instruction more effectively.

Another change that was made to ensure our students will achieve at higher levels is how we use data. Teachers had always used data in the past, but this year it is used more purposefully. From CST, CELDT, Benchmark, and informal classroom data, students are being targeted with the specific instruction they need to fill the gaps in their learning. This data is dissected in grade level meetings held weekly. Teachers are responsible to fill out a data analysis sheet for their classroom and for the grade level. Teachers discuss teaching and reteaching strategies as well as set goal setting for their classroom and the grade level.

A final change that has been made is a stronger partnership with our after school program. The principal has met with the Boys and Girls Club site coordinator to build a bridge between the in-school and after school program. Tutoring has been added to the after school program which is designed to enhance what has been going on in the regular school day. Data is shared with the after school program staff so that they know the skills the students are lacking. It is of great benefit to the students when all the stakeholders have all information necessary to provide skill specific interventions with each pupil.

If Freedom is not able to receive the funding, we could quite possibly encounter a huge setback. This would mean we would have to lay off staff and class sizes would increase. The progress my staff and students are making right now will propel our scores. It would be devastating to lose momentum by losing the funding which has allowed us to make the necessary changes to ensure student success. At this current moment, our first set of benchmarks were given in Language Arts and Mathematics. After careful analysis, we have more students scoring in the Advanced and Proficient range than in the previous year. This is a sign to myself and my staff that what we are doing *is* working.

8. Demographic Information:
Freedom Elementary School has a student population of 418 and is located in a rural area in Tulare County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes

Needles High School
Needles Unified School District

Period Recommended: July 1, 2010, to June 30, 2011

CDS Code: 36 67801 3634169

LEA Request:

Needles Unified School District (USD) is a rural school district located in San Bernardino County and has a student population of approximately 1,026 students. Needles High School (HS) serves 271 students in grades nine through twelve. Academic Performance Index (API) data for Needles HS show that the school did not exceed the three-year average growth requirement of the Quality Education Investment Act (QEIA). API data show that Needles HS's three-year growth average target is 5.7, but its three-year growth average is only 1.0. Needles USD was granted a class size reduction (CSR) QEIA waiver for this school in March 2011 to establish an alternative CSR target of 18.9 students on average per class in grades nine through twelve.

Needles USD states that it had no knowledge of the immensity of QEIA and has made great strides at the school site. All QEIA requirements have been met except the API three-year growth average. The district states that interventions are in place for students and training in effective instructional strategies for teachers is on-going for staff. Support classes in math and English are in place, AVID for grades nine through eleven is part of the school schedule, and targeted tutoring based on CST analysis is ongoing. Teachers can also take advantage of an instructional coach to help improve strategies and improve curriculum because of the QEIA funds. The district states that since receiving QEIA funding, Needles HS has undergone three changes in administration at the principal level and a change in superintendent. Along with the change in administrators, the district states that it has other challenges with the grant because of its rural location and size. With one high school and two math and English teachers, the district does not have the luxury of transferring students to other classes and has the disadvantage of not being able to attract teachers to a small, rural and isolated location.

Needles USD requests a waiver of the QEIA API three-year average growth requirement for Freedom ES for the 2010–11 school year.

Made AYP?	No

*Rural Fringe: Census-defined territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster.

California Department of Education (CDE) Recommendation and Conditions:

The CDE recommends denial of this waiver request because its approval would not adequately address the educational need of pupils within the meaning of Education Code Section 33051(a)(1). Specifically, (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; and (2) QEIA funding is expected to result in increased academic achievement over time and Needles HS showed a negative twenty-five point growth in 2010–11.

Reviewed by Needles High Schoolsite Council on September 13, 2011.

The teachers, parents and students of Needles High School would like to express our gratitude for the improvements we have implemented due to the QEIA grant. Since being awarded the grant, we have made great strides at our school site and we have also struggled to grasp the intricacies of the grant. To be honest, the first year of implementation the staff had little or no knowledge of the immensity of QEIA. We have met all the requirements of the QEIA grant except one: our API scores. The purpose of this request is an urgent one: we are requesting to stay in the program despite the drop in our API. If we have to exit QEIA, the problems we experience will not exit with it; the problems will remain and we will be less capable of remediating those problems.

Needles High School has come so far since receiving the QEIA grant. Interventions are in place for our students and training in effective instructional strategies for teachers are on-going for our staff. Support classes in math and English are in place, AVID for grades 9-11 is part of our schedule, and targeting tutoring based on CST analysis is happening at NHS. Needles High School took advantage of the grant to make staff changes to place teachers in the best position for their students' success. These improvements were a direct result of QEIA with the single focus on improving student achievement.

Early Release Days for teacher-training have also been a priority due to QEIA. QEIA has given our school site the opportunity to utilize ERD's specifically for teacher training, like math institute, and PLC training with Austin Buffum. Teachers can also take advantage of an instructional coach to help improve strategies and improve curriculum because of QEIA. An anti-bullying program was introduced at our site to ensure a safe environment for our students

and staff; this type of intervention is not directly funded by QEIA, however because QEIA monies fund other intervention, NHS is able to provide the anti-bullying program

We started a targeted tutoring program after school based on gap analysis of the CST, we want to continue our involvement in the Math and Algebra Institute, and we are targeting students who have scored BASIC or below and move them to PROFICIENT and ADVANCED and remediate those students during the regular school day. Without the benefit of the QEIA grant, we will not be able to provide this remediation and teacher training; this would be a detriment to the students already struggling to improve.

As a staff, we have worked hard to understand the QEIA grant and our responsibilities regarding its implementation and success, but understanding the intricacies of QEIA is a process and a process that we did not start the first year of implementation. Since receiving QEIA, NHS has undergone 3 changes in administration at the principal level and a change at the superintendent level. With each change, the new administrator had to “catch up” to the grant and its requirements. Along with the change in administrators, our district has had other challenges regarding the grant. Needles High School is very unique; our location and our size are both what make us special and what makes it difficult to make changes that may be beneficial. Because we are so small, we cannot transfer teachers to other sites or other positions that may better utilize their skills; we have one high school with basically two math teachers and two English teachers. We do not have the luxury of transferring students out of one Algebra class into another Algebra class for a better fit, for example. Our district also has the disadvantage of not being able to attract teachers to the area; we are small, rural and isolated.

This request is not about what Needles High School lacks. We have put the full force of our talented students and staff behind the goal of becoming high achievers. We have ownership, as a student body and as a faculty, of this goal. The strides we have made in data analysis, gap analysis, PLC training, and basic awareness of targets are proof that the QEIA grant is at work at our school site. This request is about continuing extremely valuable work that we have started here at Needles High School. We need time; time to see the fruits of these improvements and many other improvements for our students. We are a proactive community of educators dedicated to using this resource to improve our school and our test scores. We have many more remediation programs we are working on at this moment. These plans cannot be implemented without staying in the program.

If Needles High School exits QEIA, students will lose valuable staff who are providing excellent instruction and who are familiar with gaps in student achievement. If Needles High School exits QEIA, we could lose the ground we have gained and be pushed back even farther. With the grant, students can continue reaping the rewards of the outstanding improvements and we can continue to assist them in overcoming the drop in API. Needles High School stands to lose AP Physics, AP Calculus, and A-G Requirement.

We have had such positive change and we are marching forward with improvements and support of our students' success. Losing that momentum would devastate our students and impede the progress already made. Institutional change takes 3-5 years to implement and see the effectiveness of that change. We are asking for more time to evaluate the effectiveness of these changes on test scores. Although we did not meet API this year, our 3 year average is up; so with sustained change we are confident we can make a difference with the continued help of the

QEIA grant. We do not have our heads in the sand regarding the drop in the API score. We diagnosed the problems and know how to treat them. Staff has been adjusted and instructional strategies are in place to improve those specific scores. For example, a math teacher was replaced and new math teacher hired to help our students succeed in math and intervention classes are in place for English. Academic coaches and administrators do regular walk-throughs to ensure the best instructional practices are in place in every classroom.

Please consider keeping Needles High School in the QEIA program so we may continue to improve our educational community and continue our momentum in the right direction to help our students.

Spurgeon Intermediate School

CDS Code: 30 66670 6094684

Santa Ana Unified School District

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. Spurgeon Intermediate School (IS) serves 1,212 students in grades five through eight. Academic Performance Index (API) data for Spurgeon IS show that the school did not exceed the three-year average growth requirement of the Quality Education Investment Act (QEIA). API data show that Spurgeon IS's three-year growth average target is 8.3, but its three-year growth average is only 7.0.

Santa Ana USD states that Spurgeon IS has met the spirit of the law and has improved the quality of academic instruction and the level of student achievement. The district states that Spurgeon IS has made great progress towards its academic growth over the past two years. Under new leadership, the district states the school developed a school-wide systemic initiative to implement instructional practices that foster proficiency. Santa Ana USD states that the professional learning community is based around shared curriculum/grade level content and the school has provided professional development in strategies that will assist English learners to better access a rigorous curriculum. The district believes Spurgeon IS has demonstrated consistent success in raising its student achievement through comprehensive initiative touching on all aspects of the educational program.

Santa Ana USD requests a waiver of the QEIA API three-year average growth requirement for Spurgeon IS for the 2010–11 school year.

Desired Outcome/Rationale

Santa Ana Unified School District requests on behalf of **Spurgeon Intermediate School** a waiver to accept the progress towards the API growth target over the past three years.

Spurgeon Intermediate is a Title 1 school with approximately 91.17% of its students receiving free or reduced lunch. Approximately 60% of its student population is English Language Learners.

Spurgeon Intermediate has met the spirit of the law and has improved the quality of academic instruction and the level of student achievement. Spurgeon has an API of 656.

After year one, a new principal was put in place. With the new administrative leadership at Spurgeon Intermediate, the school has made great progress towards its academic growth over the past two years. Under this new leadership, the school developed a school-wide, systemic initiative to implement instructional practices that foster proficiency. The Professional Learning Community is based around shared curriculum/grade level content. The school has provided Professional Development in strategies that will assist English Learners to better access a rigorous curriculum. Spurgeon Intermediate has demonstrated consistent success in raising its student achievement through comprehensive initiative touching on all aspects of the educational program.

Vallejo High School

CDS Code: 48 70581 4838504

Vallejo City Unified School District

LEA Request:

Vallejo City Unified School District (USD) is an urban school district located in Solano County and has a student population of approximately 15,600 students. Vallejo High School (HS) serves 1,781 students in grades nine through twelve. Academic Performance Index (API) data for Vallejo HS show that the school did not exceed the three-year average growth requirement of the Quality Education Investment Act (QEIA). API data show that Vallejo HS's three-year growth average target is 7.7, but its three-year growth average is only 4.0.

Vallejo City USD states that both the district and Vallejo HS have undergone transformation in leadership over the first three years of QEIA implementation, operating under four superintendents from 2009–11. These transitions in leadership and other changes have resulted in both challenges and improvements. As a district under State Administration since 2004, Vallejo City USD states that they had to overcome and continue to work on fiscal and systemic challenges in addition to maintaining day to day operations and striving to improve conditions and learning opportunities for all students. Vallejo City USD states that they have a redesigned administrative team at Vallejo HS for the 2011–12 school year and leadership is aligned, committed and prepared to do what is needed to increase student achievement. The district states that Vallejo HS has taken many measures to build capacity of its system and team.

Vallejo City USD requests a waiver of the QEIA API three-year average growth requirement for Vallejo HS for the 2010–11 school year and to have its API growth target averaged over four full years of funding.

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

52055.740(5) Exceed the API growth target for the school averaged over the first ~~three~~ **four** full years of funding. Beginning in the fifth year of participation, funded schools shall meet their annual API growth targets. If the school fails to meet its annual growth target, the school shall continue to receive funding pursuant to this article, but shall be subject to state review, assistance, and timeline requirements pursuant to the HPSGP under Section 52055.650. The schoolsite administrator shall not automatically be reassigned based solely on that failure.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations.

Vallejo City Unified School District (VCUSD) requests consideration to maintain QEIA funding by increasing the length of time to measure the average of API growth for Vallejo High School from three years to four years in order to demonstrate the positive impact QEIA funding has had on student achievement.

As a District under State Administration since 2004, Vallejo City Unified has had to overcome and continues to work with a number of fiscal and systematic challenges in addition to maintaining day to day operations while striving to improve conditions and learning opportunities for all students. Nonetheless, VCUSD recognizes that the QEIA grant comes with strict assurances and has invested resources to ensure that these expectations are met.

Both VCUSD and Vallejo High have undergone transformation in leadership over the first three years of QEIA implementation. From 2009 to 2011, the District has operated under four superintendents. Vallejo High has also had several changes in lead administration. These transitions in addition to other changes have resulted in both challenges and improvements to the site. Despite this period of transition, Vallejo High was able to meet or exceed the QEIA monitoring expectations for each school year. Furthermore, student performance on the California Standards Tests from 2009-2011 demonstrates that instructional choices made have had a positive impact on student achievement.

	Annual API Growth Target	School's Annual API Growth
1 st year: 2008-2009	8	-12
2 nd year: 2009-2010	8	16
3 rd year: 2010-2011	7	8

With the hiring of a determined Superintendent at the District level and a redesigned administrative team at Vallejo High for the 2011-2012 school year, leadership at both levels is aligned, committed and prepared to do what is needed to increase student achievement. Furthermore, the VCUSD Governing Board and Superintendent have set district- wide goals with support and monitoring to be an additional on-going support for Vallejo High to exceed the expectations of assurances set by the QEIA grant.

Vallejo High School has taken many measures to build capacity of its system and team. Continuation of QEIA funds will increase opportunities for site stakeholders to aggressively address student achievement, enhance learning opportunities, and raise the graduation rate.

<p>8. Demographic Information: Vallejo High School has a student population of 1781 students and is located in an urban setting in Solano County.</p>

Waiver Number: 48-10-2011

Period of Request: July 1, 2012, to June 30, 2013

Period Recommended: July 1, 2012, to June 30, 2013

Johnston Cooper Elementary

CDS Code: 48 70581 6051395

Vallejo City Unified School District

LEA Request:

Vallejo City Unified School District (USD) is an urban school district located in Solano County and has a student population of approximately 15,600 students. Johnston Cooper Elementary School (ES) serves 509 students in kindergarten through grade five. Academic Performance Index (API) data for Johnston Cooper ES show that the school did not exceed the three-year average growth requirement of the Quality Education Investment Act (QEIA). API data show that Johnston Cooper ES's three-year growth average target is 5.0, but its three-year growth average is only 2.0.

Vallejo City USD states that State funding cuts to revenue limit funding have had an impact on the QEIA program at Johnston Cooper ES. The district states that in 2009 the teachers and administration had to refocus their efforts to build common understanding of the site vision and goals, and this had a negative effect on accelerating student achievement. With the hiring of a superintendent and a redesigned administrative team for 2011–12, leadership is aligned, committed and prepared to do what is needed to increase student achievement at Johnston Cooper ES. As a district under State Administration since 2004, Vallejo City USD states that it had to overcome and continue to work on fiscal and systemic challenges in addition to maintaining day to day operations and striving to improve conditions and learning opportunities for all students.

Vallejo City USD requests a waiver of the QEIA API three-year average growth requirement for Johnston Cooper ES for the 2010–11 school year and to have its API growth target averaged over four full years of funding.

Additional LEA and School Information for Consideration:

School Locale Code	12*
LEA Average Daily Attendance (ADA)	15,600
School ADA	509
Grade Span	K–5
2008–09 API	773
2009–10 API	758
2010–11 API	755
3 Year API Target Average	5.0
3 Year API Growth Average	2.0
Made API Growth?	No
Made AYP?	No

*City Midsize: Territory inside an urbanized area and inside a principal city with population less than 250,000 and greater than or equal to 100,000.

California Department of Education (CDE) Recommendation and Conditions:

The California Department of Education (CDE) recommends denial of this waiver request because its approval would not adequately address the educational need of pupils within the meaning of Education Code Section 33051(a)(1). Specifically, (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; and (2) QEIA funding is expected to result in increased academic achievement over time and Johnston Cooper ES showed a negative seven point growth in 2010–11.

Reviewed by Johnston Cooper Elementary Schoolsite Council on October 18, 2011.

Supported by Vallejo Education Association, October 10, 2011.

Local Board Approval: October 19, 2011.

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): **52055.740(5)** Circle One: **EC** or *CCR*
Topic of the waiver: **QEIA API Assurance**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval _____
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): **October 10, 2011**

Name of bargaining unit and representative(s) consulted: **Vallejo Education Association (VEA)**
Christal Watts, President
Sheila Gradwohl, Bargaining Chair
The position(s) of the bargaining unit(s): Neutral Support Oppose (*Please specify why*)
Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?
 Notice in a newspaper Notice posted at each school Other: (*Please specify*)
Notice posted on website, District Office

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
Cooper Elementary School Site Council **jb 11/1/11 per Kathy Gossett**

Date the committee/council reviewed the waiver request: **October 18, 2011**

Were there any objection(s)? No Yes _____ (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

52055.740(5) Exceed the API growth target for the school averaged over the first ~~three~~ **four** full years of funding. Beginning in the fifth year of participation, funded schools shall meet their annual API growth targets. If the school fails to meet its annual growth target, the school shall continue to receive funding pursuant to this article, but shall be subject to state review, assistance, and timeline requirements pursuant to the HPSGP under Section 52055.650. The school site administrator shall not automatically be reassigned based solely on that failure.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations.
Vallejo City Unified School District (VCUSD) requests consideration to maintain QEIA funding by increasing the length of time to measure the average of API growth for Johnston Cooper Elementary from three years to four years in order to demonstrate the positive impact QEIA funding has had on student achievement as well as on sustainable system and cultural change.

As a District under State Administration since 2004, Vallejo City Unified has had to overcome and continues to work with fiscal and systematic challenges in addition to maintaining day to day operations while striving to improve conditions and learning opportunities for all students.

VCUSD recognizes the QEIA grant comes with strict assurances and has invested resources to ensure that these expectations are met. Beginning in 2009-2010, VCUSD has made general fund contributions to maintain the class size reduction (CSR) targets for QEIA funded elementary schools while class sizes increased for kindergarten through third grade at all other sites. Per QEIA assurances, choices made in 2009-2010 provided full implementation of CSR, raised the sites' Teacher Experience Index (TEI) and ensured a 100% rate of Highly Qualified Teaching staff for the school.

State level cuts to revenue limit funding resulted in choices that have had an impact on the QEIA program at Cooper Elementary. Due to unprecedented teacher layoffs in Spring 2009, decisions were made on behalf of all schools to follow negotiated protocol for rescinding layoff notices and staffing elementary sites. Many of the newly hired teachers at Cooper were laid off and low seniority precluded their return to regular classroom assignments anywhere within the District.

With the transition of both teachers and administration in 2009, the staff had to refocus their efforts to build common understanding of the site vision and goals. This change had a negative effect on accelerating student achievement. However, time invested to address school climate in the critical second and third year of QEIA implementation has resulted in a significant decrease in referrals and suspensions. Given the transition, improvements made to address student engagement and on-going commitment to student achievement, Johnston Cooper Elementary is primed to make significant gains in the 2011-2012 school year.

With the hiring of a determined Superintendent at the District level and a redesigned administrative team at Cooper Elementary for the 2011-2012 school year, leadership at both levels is aligned, committed and prepared to do what is needed to increase student achievement. Furthermore, the VCUSD Governing Board and Superintendent have set District-wide goals with support and monitoring to be an additional on-going support for Vallejo High to exceed the expectations of assurances set by the QEIA grant.

To date, Cooper Elementary has met or exceeded all of the expectations of the QEIA assurances. It is a site that has taken the goals and intent of the QEIA grant and enthusiastically assumed them as a part of the culture and identity. With the approval of this waiver, Cooper will have the opportunity to demonstrate that it is a model example of this QEIA intent where stakeholders are empowered to work together to transform a school and sustain positive change.

Period Recommended: July 1, 2011, to June 29, 2013

Thomas Jefferson Middle School CDS Code: 15 63842 6010268
Wasco Union Elementary School District

LEA Request:

Wasco Union Elementary School District (UESD) is an urban school district located in Kern County and has a student population of approximately 3,299 students. Thomas Jefferson Middle School (MS) serves 667 students in grades seven and eight. Academic Performance Index (API) data for Thomas Jefferson MS are not available for years 2009–10 and 2010–11 due to the district’s self monitoring and testing irregularities. Thus, the district did not exceed the three-year average growth requirement of the Quality Education Investment Act (QEIA).

The Wasco UESD is requesting that the Thomas Jefferson MS use the API scores from the 2010–11, 2011–12, and 2012–13 testing for the determination of the average as stated in the guidelines for the program. Alternatively, the Wasco UESD requests that it be evaluated on a single year format such as is done subsequent to the three-year growth model.

Additional LEA and School Information for Consideration:

School Locale Code	32*
LEA Average Daily Attendance (ADA)	3,299
School ADA	667

6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

52055.740 (5) ~~Exceed the API growth target for the school averaged over the first three full years of funding. Beginning in the fifth year of participation, funded schools shall meet their annual API growth targets.~~ If the school fails to meet its annual growth target, the school shall continue to receive funding pursuant to this article, but shall be subject to state review, assistance, and timeline requirements pursuant to the HPSGP under Section 52055.650.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

In 2007-2008 the API score at Thomas Jefferson was 666. The target for 2008 was 673. In 2008 the base was 692 and the target for 2009 was 697. Due to self monitoring, the district determined that testing irregularities existed for the 2009 test and reported this to the state. Due to this there were no valid API scores reported for 2009. In 2010 the district again self monitored and reported testing irregularities, reported to the state and there were no valid API scores for 2010. In 2011 preliminary reports indicate that the API will be in the area of 694. However, this does not give an adequate portrait of the school according to Ed. Code 52055.740.

We are requesting that the school use the scores from the 2010-2011, 2011-2012 and 2012-2013 testing for the determination of the average as stated in the guidelines for the program: "A school's growth targets in 2008-09, 2009-10 and 2010-11 are summed and divided by three, then compared to the growth scores also summed over the same time frame and divided by three. If the averaged growth score is greater than the averaged growth target, it has met the requirement for the first three years of full funding."

Alternatively we request that we be evaluated on a single year format such as is done subsequent to the three year growth model. Therefore a base needs to be established from which we can be expected to achieve growth. The suggested base is whatever this year base is determined to be.

8. Demographic Information:
Thomas Jefferson Middle School has a student population of 667 and is located in the Wasco Union Elementary School District. Wasco Union Elementary School District has a student population of 3299 and is located in a small city (Wasco) in Kern County. Thomas Jefferson is the only middle grades school in Wasco.

RECOMMENDATION

Approval Approval with conditions Denial

The California Department of Education (CDE) recommends denial of these waiver requests because their approval would not adequately address the educational need of pupils within the meaning of Education Code Section 33051(a)(1). See Attachments 1, 3, 5, 7, and 9 for details and rationale of the recommendation.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

As of November 2011, the California Department of Education (CDE) Waiver Office has presented 36 waivers regarding class size reduction requirements (CSR) under the Quality Education Investment Act (QEIA) to the State Board of Education (SBE). Of that number 25 were approved with conditions, 5 were denied, and 6 were withdrawn.

SUMMARY OF KEY ISSUES

Class Size Reduction

Schools participating in the QEIA were monitored by their county offices of education for compliance with program requirements, including CSR, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year. QEIA schools were required to demonstrate full compliance with all program requirements at the end of the 2010–11 school year.

SUMMARY OF KEY ISSUES (Cont.)

Quality Education Investment Act schools are required to reduce class sizes by five students compared to class sizes in the base year (either 2005–06 or 2006–07), or to an average of 25 students per classroom, whichever is lower, with no more than 27 students per classroom regardless of the average classroom size. The calculation is done by grade level, as each grade level has a target average class size based on QEIA CSR rules. For small schools with a single classroom at each grade level, some grade level targets may be very low. If, for example, a school had a single grade four classroom of 15 students in 2005–06, the school's target QEIA class size for grade four is ten students. Absent a waiver, an unusually low grade level target may result in a greater number of combination classes at the school, or very small classes at the grade level, which is prohibitively costly and may result in withdrawal or termination from the program.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; and (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the CSR targets based on statute requirements to stay in the program. Any school in the program not meeting those targets will risk the loss of future funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded).

Period Recommended: July 1, 2010, to June 29, 2012

Spurgeon Intermediate School
Santa Ana Unified School District

CDS Code: 30 66670 6094684

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. Spurgeon Intermediate School (IS) serves 1,212 students in grade six through eight. Spurgeon IS's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) target for grade six through eight is 25.0.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio. Santa Ana USD states that Spurgeon IS met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point where an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets at Spurgeon IS and the establishment of an alternative CSR target of 27.0 on average in core classes for grade six through eight.

CDE Recommendation and Conditions:

The California Department of Education recommends denial of this request based on four factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to be used to hire teachers resulting in significantly reduced class sizes for students at QEIA schools; (3) QEIA legislation requires an average classroom size of 25 students or lower for core subjects, with no more than 27 students per classroom regardless of the average classroom size; and (4) class size data provided by Santa Ana USD indicates that Spurgeon IS met the QEIA CSR requirements for school year 2010–11 and, based on projections, is on target to meet the requirements in 2011–12.

Reviewed by Spurgeon Intermediate Schoolsite Council on October 3, 2011.

Supported by Santa Ana Educators Association, August 31, September 13, 15, and 29, 2011.

Local Board Approval: October 11, 2011.

Address: (City)		(State)		(ZIP)		Phone (and extension, if necessary): (714) 558-5523		
1601. E. Chestnut Ave.		Santa Ana		California		92701		Fax Number: (714) 480-5321
Period of request: (month/day/year) From: 07/01/2010 To: 06/30/2014			Local board approval date: (Required) October 11, 2011			Date of public hearing: (Required) October 11, 2011		

LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number):
 Circle One: **EC** or *CCR*

Topic of the waiver: **QEIA CLASS SIZE Grades 6-8**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: **NOT APPLICABLE**
 Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No **Yes** If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): **08/31/11, 09/13/11, 09/15/11, 09/29/11**

Name of bargaining unit and representative(s) consulted: **Santa Ana Educators Association; Susan Mercer (President) and Norma Ortiz, CTA Representative**

The position(s) of the bargaining unit(s): Neutral **Support** Oppose (*Please specify why*)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

Notice in a newspaper Notice posted at each school Other: **Notice posted at District Office on September 27, 2011**

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Date the committee/council reviewed the waiver request: **October 3, 2011: School Site Council at Spurgeon Intermediate School**

Were there any objection(s)? **No** **X** Yes (*If there were objections please specify*)

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

(a) For each funded school, the county superintendent of schools for the country in which the school is located, shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

(1) Meet all of the following class size requirements:

(B) For self-contained classrooms in grades 4-8, inclusive, an average classroom size that is the less of clause (i) or (ii), as follows:

(i) At least five pupils fewer per classroom than was the average in ~~2006-2007~~; (ii) an average of 25 pupils per classroom.

(B) For classes in English language arts, reading, mathematics, science, or history and social science courses in grades 4-12, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

(i) At least five pupils fewer per classroom than was the average in ~~2006-2007~~; (ii) an average³ of 25 pupils per classroom.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

PLEASE SEE ATTACHED

8. Demographic Information:
SANTA ANA UNIFIED SCHOOL DISTRICT has a student population of 52,534 and is located in an *urban area* in Orange County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Santa Ana Unified School District
1601 E. Chestnut Ave.
Santa Ana, CA 92701

October 2011

Desired Outcome/Rationale

Santa Ana Unified School District requests on behalf of **Spurgeon Intermediate School** a permanent single QEIA baseline target of 27:1 for grades 6-8 to fiscally support and meet all of the QEIA component mandates for the time periods of July 1, 2010-June 30, 2014.

Spurgeon Intermediate School is a Title 1 school with approximately **91.17%** of its students receiving free or reduced lunch. Approximately **54.1%** of these schools student populations are English Language Learners. State level cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio.

Due to fiscal constraints, class sizes were recalculated and have increased in subsequent years after QEIA was enacted. Approval of this waiver to exceed the 25:1 cap will permit Spurgeon Intermediate School to maintain and continue to receive QEIA funding for 2012-13. Spurgeon met the spirit of the law and has improved the quality of academic instruction and the level of student achievement. Spurgeon did not exceed its three year average for API; however, it did make a **15 point** growth for the 2010-2011 school year. Spurgeon has an API score of 656.

By creatively exhausting all flexible funding sources, SAUSD has managed to successfully staff our CSR targets for the past three years. We have now reached a point at which an increase of our baseline targets is necessary to maintain the momentum that will help move our schools out of Program Improvement.

SAUSD has 106 teachers who are staffed by QEIA funding of \$11 million for the 2011-2012 school year. Approval of this waiver would allow SAUSD to maintain its staffing and funding while continuing to make academic gains.

Waiver Number: 27-11-2011

Period of Request: July 1, 2010, to June 30, 2014

Period Recommended: July 1, 2010 to June 29, 2012

Willard Intermediate School
Santa Ana Unified School District

CDS Code: 30 66670 6061758

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. Willard Intermediate School (IS) serves 969 students in grade six through eight. Willard IS's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) target for grade six is 24.7 and 25.0 for grades seven and eight.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio. Santa Ana USD states that Willard IS met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point where an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets at Willard IS and the establishment of an alternative CSR target of 27.0 on average in core classes for grade six through eight.

CDE Recommendation and Conditions:

The California Department of Education recommends denial of this request based on three factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to be used to hire teachers resulting in significantly reduced class sizes for students at QEIA schools; and (3) QEIA legislation requires an average classroom size of 25 students or lower for core subjects, with no more than 27 students per classroom regardless of the average classroom size.

Lathrop Intermediate School (IS) serves 1,298 students in grade six through eight. Julia C. Lathrop IS's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) target for grade six through eight is 25.0.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio. Santa Ana USD states that Julia C. Lathrop IS met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point where an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets at Julia C. Lathrop IS and the establishment of an alternative CSR target of 27.0 on average in core classes for grade six through eight.

CDE Recommendation and Conditions:

The California Department of Education recommends denial of this request based on four factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to be used to hire teachers resulting in significantly reduced class sizes for students at QEIA schools; (3) QEIA legislation requires an average classroom size of 25 students or lower for core subjects, with no more than 27 students per classroom regardless of the average classroom size; and (4) class size data provided by Santa Ana USD indicates that Julia C. Lathrop IS met the QEIA CSR requirements for school year 2010–11 and, based on projections, is on target to meet the requirements in 2011–12.

Santa Ana, CA 92701

October 2011

Desired Outcome/Rationale

Santa Ana Unified School District requests on behalf of **Lathrop Intermediate School** a permanent single QEIA baseline target of 27:1 for grades 6-8 to fiscally support and meet all of the QEIA component mandates for the time periods of July 1, 2010-June 30, 2014.

Lathrop Intermediate School is a Title 1 school with approximately **90.46%** of its students receiving free or reduced lunch. Approximately **59.7%** of these schools student populations are English Language Learners. State level cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio.

Due to fiscal constraints, class sizes were recalculated and have increased in subsequent years after QEIA was enacted. Approval of this waiver to exceed the 25:1 cap will permit Lathrop Intermediate School to maintain and continue to receive QEIA funding for 2012-13. Lathrop met the spirit of the law and has improved the quality of academic instruction and the level of student achievement. Lathrop has exceeded its three year average for API, with an average gain of **9.3 points**. Lathrop has an API score of 648.

By creatively exhausting all flexible funding sources, SAUSD has managed to successfully staff our CSR targets for the past three years. We have now reached a point at which an increase of our baseline targets is necessary to maintain the momentum that will help move our schools out of Program Improvement.

SAUSD has 106 teachers who are staffed by QEIA funding of \$11 million for the 2011-2012 school year. Approval of this waiver would allow SAUSD to maintain its staffing and funding while continuing to make academic gains.

Waiver Number: 30-11-2011

Century High School
Santa Ana Unified School District

Period Recommended: July 1, 2010, to June 29, 2012

CDS Code: 30 66670 3030491

LEA Request:

Santa Ana Unified School District (USD) is an urban school district located in Orange County and has a student population of approximately 52,534 students. Century High School (HS) serves 2,163 students in grade nine through twelve. Century HS's Quality Education Investment Act (QEIA) Class Size Reduction (CSR) target for grade nine is 16.4 and 25.0 for grade ten through twelve.

Santa Ana USD states that, due to fiscal constraints, class sizes were recalculated and have increased in subsequent years. The district states that cuts to revenue limit funding have resulted in teacher reductions causing an increase of the student-to-teacher ratio. Santa Ana USD states that Century HS met the spirit of law and has improved the quality of academic instruction and the level of student achievement. The district states that it has managed to successfully staff to meet QEIA CSR targets for the past three years but has now reached a point where an increase of CSR targets is necessary to maintain the momentum that will help move its schools out of program improvement.

Santa Ana USD requests a waiver of the QEIA CSR targets at Century HS and the establishment of an alternative CSR target of 27.0 on average in core classes for grade six through eight.

CDE Recommendation and Conditions:

The California Department of Education recommends denial of this request based on three factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to be used to hire teachers resulting in significantly reduced class sizes for students at QEIA schools; and (3) QEIA legislation requires an average classroom size of 25 students or lower for core subjects, with no more than 27 students per classroom regardless of the average classroom size.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM W-21

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

General Waiver

SUBJECT Request by Chula Vista Elementary School District local educational agency to waive portions of California <i>Education Code</i> Section 52055.740(a), regarding Teacher Experience Index under the Quality Education Investment Act. Waiver Number: Chula Vista Elementary 22-4-2011	<input checked="" type="checkbox"/> Action <input type="checkbox"/> Consent
---	--

RECOMMENDATION

Approval Approval with conditions Denial

See Attachment 1 for details and rationale of the recommendation.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

As of November 2011, the California Department of Education (CDE) Waiver Office has presented 11 waivers regarding Teacher Experience Index under the Quality Education Investment Act (QEIA) to the State Board of Education (SBE). Of that number, 5 were approved with conditions, 3 were denied, and 3 were withdrawn. Chula Vista Elementary School District had a TEI QEIA waiver on the November 2011 SBE agenda, however, it was withdrawn by the district.

SUMMARY OF KEY ISSUES

Teacher Experience Index

Schools participating in the QEIA Program were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. At that time, local educational agencies (LEAs) were required to demonstrate one-third progress toward full implementation of program requirements. At the end of the 2009–10 school year, QEIA LEAs were required to demonstrate two-thirds progress toward full program implementation.

QEIA schools are required to include an index based on the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. Approved by the district superintendent, the index is an aggregate indicator of the teaching experience on a scale of one to ten. QEIA schools are required to have a TEI equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of

SUMMARY OF KEY ISSUES (Cont.)

funding.

If an LEA requests a waiver of the TEI, the CDE reviews a range of information regarding the unique circumstances of the school and the district when formulating a recommendation to the SBE.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; and (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the CSR/TEI targets based on statute requirements to stay in the program. Any school in the program not meeting those targets will risk the loss of future funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded).

Attachment 2: Chula Vista Elementary District General Waiver Request 22-4-2011 (2 pages) (Original waiver request is signed and on file in the Waiver Office.)

Waiver Number: 22-4-2011

Period of Request: July 1, 2010, to June 30, 2011

Period Recommended: July 1, 2010, to June 30, 2011

Silver Wing Elementary School
Chula Vista Elementary School District

CDS: 37 68023 6038004

LEA Request:

Chula Vista Elementary School District (ESD) is an urban school district located in San Diego County. Silver Wing Elementary School (ES) serves students in kindergarten through grade six. Chula Vista ESD has a student population of approximately 27,400 students. Chula Vista ESD provided teacher experience information from 2005–06, the base year upon which Quality Education Investment Act (QEIA) Teacher Experience Index (TEI) targets are calculated, showing that the average Chula Vista ESD TEI is 6.5. Chula Vista ESD’s average TEI for 2010–11 for this type of school is 8.05.

Chula Vista ESD states that its TEI was calculated using erroneous information that had been entered on the school’s CBEDS report. A recalculation of the TEI was performed with the help of the San Diego County Office of Education and discrepancies were corrected during that process. Chula Vista ESD and the Chula Vista Educators are currently negotiating a Memorandum of Understanding to implement a transfer policy and procedures to address TEI issues. Chula Vista ESD requests a waiver of the QEIA TEI target for Silver Wing ES and establishment of an alternative TEI target of 5.2 which is based on 2010–11 TEI levels. The 2011–12 TEI calculation is 6.95 for Silver Wing ES and is above the Chula Vista ESD’s TEI target.

Additional LEA and School Information for Consideration:

School Locale Code	11*
LEA Average Daily Attendance (ADA)	27,400
School ADA	418
Grade Span	K–6
Total Number Of Schools With Similar Grade Span	38 elementary
2005–06 TEI	6.5
2010–11 QEIA School TEI	5.2
2011–12 QEIA School TEI	6.95
2010–11 Similar Type School TEI	8.05
Percent Of Similar Type School	64.6
Made API Growth?	Yes
Made AYP?	No

*City Large: Territory inside an urbanized area and inside a principal city with population of 250,000 or more.

CDE Recommendation and Conditions:

The California Department of Education (CDE) supports Chula Vista ESD's request to reduce its TEI target for Silver Wing ES for 2010–11.

The CDE recommends approval with the following conditions: (1) Applies only to teachers at Silver Wing ES; (2) For 2010–11, the alternate TEI index of 5.2 shall be established at Silver Wing ES; (3) For 2011–12 and subsequent years, Silver Wing ES must meet or exceed the TEI of 6.5; and (4) Within 30 days of approval of this waiver, Chula Vista ESD must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the TEI requirement.

Reviewed by Silver Wing Elementary Schoolsite Council on March 28, 2011.

Supported by Chula Vista Educators on March 9, 2011.

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

52055.740(a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Chula Vista Elementary School District requests a waiver of the timeline in Ed Code Section 52055.740 solely as it pertains to the Teacher Experience Index (TEI) as referenced in 52055.740(a) for Silver Wing Elementary School. The QEIA Teacher Experience Index (TEI) was calculated using erroneous information that had been entered on the school's CBEDS report. A recalculation of the TEI was done with the help of the San Diego County Office of Education and discrepancies during the recalculation. Chula were corrected Vista Elementary School District and Chula Vista Educators are currently negotiating a Memorandum of Understanding policy and procedures school year to implement transfer to remedy the TEI for the 2011-12 and sustain it through the remainder of the QEIA settlement agreement. The school's current teacher experience average is 5.2 years and the target is 6.5 years. The TEI target of 6.5 years will be met through these efforts effective with the 2011-12 school year; the timeline change requested through this waiver application is approximately six (6) weeks.

8. Demographic Information:
Chula Vista Elementary School District has a student population of 27,400 and is located in an urban area in San Diego County.

Silver Wing 418, K-6

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 8

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT STATE BOARD PROJECTS AND PRIORITIES. Including, but not limited to, future meeting plans; agenda items; and officer nominations and/or elections; State Board office budget, staffing, appointments, and direction to staff; declaratory and commendatory resolutions; bylaw review and revision; Board policy; approval of minutes; Board liaison reports; training of Board members; and other matters of interest.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing
--	---

SUMMARY OF THE ISSUE(S)

1. State Board of Education (SBE) Draft Preliminary Report of Actions/Minutes for the November 2011 Meeting
2. SBE Screening Committee's recommendations for appointments to the Child Nutrition Advisory Council
3. Board member liaison reports

RECOMMENDATION

The SBE staff recommends that the SBE approve:

- The Preliminary Report of Actions/Minutes for the November 2011 Meeting (Attachment 3), and
- The SBE Screening Committee's recommendations for appointments to the Child Nutrition Advisory Council, which will be provided as an Item Addendum.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At each regular meeting, the State Board has traditionally had an agenda item under which to address "housekeeping" matters, such as agenda planning, non-closed session litigation updates, non-controversial proclamations and resolutions, bylaw review and revision, Board policy; Board minutes; Board liaison reports; and other matters of interest. The State Board has asked that this item be placed appropriately on each agenda.

FISCAL ANALYSIS (AS APPROPRIATE)

Not applicable.

Mary Prather, Education Administrator I, CDE

Public Session

November 9, 2011

President Kirst called the meeting to order at 9:00 a.m.

AGENDA ITEMS

Item 1

Subject: 2012-2013 State Board of Education Student Member: Recommendation of Three Finalists for Submission to the Governor.

Action: Member Straus moved to adopt the recommendation of the State Board of Education's (SBE) Screening Committee and approve the following three students as finalists for the position of 2012-2013 SBE Student member: Eden Concoff of Malibu High School, Santa Monica-Malibu Unified School District; Hector Delgado of Wasco Union High School, Wasco Unified School District; and Josephine Kao of Mira Loma High School, San Juan Unified School District. The approved finalists will be forwarded to the Governor for his consideration, and one will be selected to serve as the 2012-13 SBE Student Member.

Member Molina seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

Item 2

Subject: Reports from the 2011-2012 Student Advisory Board on Education (SABE).

Action: No action taken.

Item 3

Subject: Update on the Activities of the California Department of Education and State Board of Education Regarding Implementation of Common Core State Standards Systems.

Action: No action taken.

Item 4

Subject: Update on the Next Generation of Science Standards.

Action: No action taken.

Item 5

Subject: Elementary and Secondary Education Act: Principles and Requirements for a Waiver of Selected Provisions of the No Child Left Behind Act of 2001 to Implement a Specific Statewide Accountability System for All California Local Educational Agencies in Advance of Elementary and Secondary Education Act Reauthorization.

Action: No action taken.

Item 6

Subject: Update on Issues Related to California's Implementation of the Elementary and Secondary Education Act and Other Federal Programs Including, but Not Limited to, the School Improvement Grant and California's Striving Readers Comprehensive Literacy Plan.

Action: No action taken.

Item 7

Subject: Elementary and Secondary Education Act: Assignment of Corrective Action and Associated Technical Assistance for each of the 55 Local Educational Agencies in Cohort 5 of Program Improvement Year 3.

Action:

Member Molina moved to not go forward in assigning corrective action to the identified LEAs at this time and to direct CDE to go back to the LEA self-assessment tools and rethink the definition of corrective action.

Member Straus seconded the motion.

Following discussion, Member Straus rescinded the motion.

Member Chan moved to approve CDE's three recommendations with conditions as follows:

- Assign Corrective Action 6 and technical assistance resources to each of the 55 LEAs in Cohort 5 of PI Year 3 as indicated in Attachments 3 and 4 to this item, consistent with federal requirements to provide technical assistance to support implementation of any corrective action, and direct those LEAs to proceed with the steps outlined in California *EC* sections 52055.57 and 52059.
- End the requirement for LEAs in Cohorts 1, 2, and 3 that were subject to report quarterly on the implementation of their LEA Plan.
- Require each LEA in Cohorts 1–5 of PI Year 3 to demonstrate progress of LEA Plan implementation and monitoring through annual electronic submission of local evidence to the CDE.

In addition, Member Chan directed CDE to align the technical assistance tools for districts in corrective action to focus on the most needy local education agencies and student subgroups to ensure that technical assistance focused on the unique needs of those subgroups.

Member Molina seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

*****REGULAR CONSENT ITEMS*****

ACTION: Member Straus moved to approve CDE's recommendations on Items 16 through 22.

Member Aschwanden seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

Item 16

Subject: Appoint Jason Spencer to a staff position to the Superintendent of Public Instruction in Accordance with Article IX, Section 2.1, of the Constitution of the State of California.

CDE Recommendation: Confirm appointment.

Item 17

Subject: Revision to the 2008–12 California State Plan for Career Technical Education to allow for the establishment of a Reserve Fund for use by the Community College.

CDE Recommendation: Adopt a modification to the 2008–12 California State Plan for Career Technical Education to permit the California Community College Chancellor’s Office to utilize the 10 percent reserve option for funds allocated for local assistance to the community colleges as allowed by the Perkins Act.

Item 18

Subject: The Administrator Training Program, formerly Assembly Bill 430 (Chapter 364, Statutes of 2005): Approval of Applications for Funding from Local Educational Agencies.

CDE Recommendation: Approve funding for Local Education Agencies listed in Attachment 1 to this agenda item that have submitted applications under the Administrator Training Program.

Item 19

Subject: Approval of 2011–12 Consolidated Applications.

CDE Recommendation: Approve the 2011–12 Consolidated Applications (ConApps) submitted by LEAs in Attachments 1 and 2 to this agenda item.

Item 20

Subject: Standardized Testing and Reporting Program: Release of 10 Percent Withheld for 2010–11 Educational Testing Service Contract.

CDE Recommendations:

1. Release progress payment withholdings (10 percent) for all contract component tasks for the California Alternate Performance Assessment (CAPA) and the Standards-based Tests in Spanish (STS) and the release of progress payment withholdings (10 percent) for contract Component Tasks 1 through 9, 11, 12, 13, and 14 for the California Standards Tests (CSTs) and the California Modified Assessment (CMA) as part of the 2010–11 STAR Program contract with ETS pending completion of all contract component tasks for the 2011 STAR Program test administration through December 2011.

2. Find that ETS failed to successfully complete contract Component Task 10 for the CST and CMA writing portion of the English–language arts tests as part of

the 2011 STAR Program test administration and that the SBE not approve the release of a portion of ETS' progress payment withholdings (10 percent) for grade seven writing for that task for the 2010–11 STAR Program contract. (Note: ETS performed all tasks related to grade four writing at no cost to the state.)

3. Release a total of \$5,414,712.40 from funds withheld during the 2011 test administration. The CDE further recommends not releasing \$7,233.70 to the contractor from Component Task 10 for the grade seven CST and CMA writing tests. The amounts per task are listed in Attachment 3 to this agenda item.

Item 21

Subject: Elementary and Secondary Education Act: Approval of Local Educational Agency Plans, Title I, Section 1112.

CDE Recommendation: Approve the eight direct-funded charter school Local Education Agency Plans listed in Attachment 1 to this agenda item.

Item 22

Subject: Assignment of Numbers for Charter School Petitions.

CDE Recommendation: Assign charter numbers to the charter schools identified in Attachment 1 to this agenda item.

*****END REGULAR CONSENT ITEMS*****

*****WAIVERS ON CONSENT*****

ACTION: Member Cohn moved to approve CDE's recommendations, with conditions as applicable, on Waiver Items W-4, W-9, and W-10
Member Aschwanden seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

STATE TESTING APPORTIONMENT REPORT

Item W-4

Subject: Request by five local educational agencies to waive the State Testing Apportionment Information Report deadline of December 31 in the *California Code of Regulations*, Title 5, Section 11517.5(b)(1)(A) regarding the California English Language Development Test; or Title 5, Section 1225(b)(2)(A) regarding

the California High School Exit Examination; or Title 5, Section 862(c)(2)(A) regarding the Standardized Testing and Reporting Program.

Waiver Numbers: Fountain Valley Elementary 2-8-2011
Orange Unified 7-8-2011
Soledad Unified 12-8-2011
East Whittier City 14-8-2011
Cupertino Union 15-8-2011

(Recommended for APPROVAL)

(Meets Waiver Policy: [State Testing Apportionment Informational Report Deadline](#))

COMMUNITY DAY SCHOOLS (CDS) (Colocate Facilities and Commingle Grade Levels)

Item W-9

Subject: Request by five districts, under the authority of California *Education Code* Section 33050, to waive portions of *Education Code* sections 48660 and 48916.1(d) relating to the allowable grade spans for community day schools and/or *Education Code* Section 48661 relating to the colocation of a community day school with other types of schools.

Waiver Number: Big Valley Joint Unified 11-7-2011

(Recommended for APPROVAL)

Waiver Numbers: Chaffey Joint Union 13-8-2011
Chawanakee Unified 20-9-2011
Corcoran Joint Unified 14-7-2011
Lakeport Unified 13-7-2011
Lucerne Valley Unified 4-8-2011

(Recommended for APPROVAL WITH CONDITIONS)

SALE OR LEASE OF SURPLUS PROPERTY (Lease of Surplus Property)

Item W-10

Subject: Request by two districts, under the authority of California *Education Code* Section 33050, to waive all portions of California *Education Code* sections 17473 and 17474 and portions of 17455, 17466, 17472, and 17475 relating to the sale and lease of surplus property. Approval of these waivers will allow the districts to lease or sell property using a "request for proposal process," thereby maximizing the proceeds from the sale or lease of the properties.

Waiver Numbers: Huntington Beach Elementary 16-8-2011

Orange Unified 19-8-2011
Orange Unified 20-8-2011
Orange Unified 21-8-2011

(Recommended for APPROVAL WITH CONDITIONS)

***** END OF WAIVERS ON CONSENT *****

***** WAIVERS NOT ON CONSENT *****

Please note that several waiver items were taken out of order to accommodate out-of-town speakers. The order below reflects the order in which the Board heard the items. The Board acted on waiver items W-1, W-5, W-7, W-16, and W-17 on November 10th.

Member Rucker recused herself from discussion of this item.

CLASS SIZE PENALTIES (Over Limit on Grades 1-3)

Item W-6

Subject: Request by Montebello Unified School District, under the authority of California *Education Code* Section 41382, to waive portions of *Education Code* sections 41376 (a), (c), and (d) and 41378 (a) through (e), relating to class size penalties for kindergarten through grade three. For kindergarten, the overall class size average is 31 to one with no class larger than 33. For grades one through three, the overall class size average is 30 to one with no class larger than 32
Waiver Numbers: 6-8-2011
(Recommended for APPROVAL WITH CONDITIONS)

Member Aschwanden moved to approve CDE's recommendation for the waiver with conditions, as specified in the agenda item.

Member Chan seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: None.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

Member Rucker recused herself from discussion of this item.

CLASS SIZE PENALTIES (Over Limit on Grades 4-8)

Item W-8

Subject: Request by three districts to waive portions of California *Education Code* Section 41376 (b) and (e), relating to class size penalties for grades four through eight. A district's current class size maximum is the greater of the 1964 statewide average of 29.9 to one or the district's 1964 average.
Waiver Numbers: Banning Unified 2-6-2011

Center Joint Unified 46-6-2011
Inglewood Unified 45-6-2011
(Recommended for APPROVAL WITH CONDITIONS)

Action: Member Straus moved to approve CDE's recommendation for the waiver for Center Joint Unified School District (46-6-2011) with the revised condition that the average class size not exceed 32.

Member Molina seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: None.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

ACTION: Member Aschwanden moved to approve CDE's recommendation for the waiver for Banning Unified School District (2-6-2011) with the CDE's recommended condition that the average class size not exceed 34.

Member Williams seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: None.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

ACTION: Member Chan moved to deny the waiver for Inglewood Unified School District (45-6-2011) on the grounds that the educational needs of the pupils would not be adequately addressed.

Member Cohn seconded the motion.

Yes votes: Members Snell, Chan, Cohn, and Molina.

No votes: Members Williams, Straus, Kirst, and Aschwanden.

Recused: Member Rucker.

Absent: Member Ramos.

With only four yes votes, the motion did not pass.

ACTION: Member Aschwanden then moved to approve CDE's recommendation for the waiver with CDE's recommended condition that the average class size not exceed 36.

Member Williams seconded the motion.

Yes votes: Members Molina, Straus, Williams, Kirst, Aschwanden, and Snell.

No votes: Members Cohn and Chan.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with six votes.

Member Rucker recused herself from discussion of this item.

QUALITY EDUCATION INVESTMENT ACT (Teacher Experience Index)

Item W-13

Subject: Request by four local educational agencies to waive portions of California *Education Code* Section 52055.740(a), regarding the Teacher Experience Index under the Quality Education Investment Act.

Waiver Numbers: Cutler-Orosi Joint Unified 126-2-2011

Dinuba Unified 53-3-2011

Dinuba Unified 54-3-2011

Mountain Empire Unified 37-3-2011

Planada Elementary 61-2-2011

(Recommended for APPROVAL WITH CONDITIONS)

ACTION: Member Chan moved to approve CDE's recommendation for the two waivers for Dinuba Unified School District (53-3-2011 and 54-3-2011) with the conditions specified in the agenda item.

Member Straus seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: None.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

ACTION: Member Aschwanden moved to approve CDE's recommendation for the waivers for Cutler-Orosi Joint Unified School District (126-2-2011), Mountain Empire Unified School District (37-3-2011) and Planada Elementary School District (61-2-2011) with the conditions specified in the agenda item.

Member Molina seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: None.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

Member Rucker recused herself from discussion of this item.

QUALITY EDUCATION INVESTMENT ACT (Class Size Reduction)

Item W-14

Subject: Request by Chualar Union School District local educational agency to waive California *Education Code* Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act.

Waiver Number: 2-4-2011

(Recommended for APPROVAL WITH CONDITIONS)

Member Aschwanden moved to approve CDE's recommendation for the waiver with conditions as specified in the agenda item.

Member Williams seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: None.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

Member Rucker recused herself from discussion of this item.

QUALITY EDUCATION INVESTMENT ACT (Money to Follow Identified Students)

Item W-15

Subject: Request by Los Angeles Unified School District to waive California *Education Code* Section 52055.750(a)(9) regarding funds expenditure requirements under the Quality Education Investment Act in order to allow funds from San Fernando Middle School and Lincoln High School to follow identified students who will be transferring to San Fernando Institute of Applied Learning and Leadership in Entertainment and Media Arts to ensure that they will not lose the benefits of the Quality Education Investment Act.

Waiver Number: 71-10-2010

(Recommended for DENIAL)

Member Aschwanden moved to approve CDE's recommendation to deny the waiver.

Member Williams seconded the motion.

Yes votes: Members Aschwanden, Snell, Kirst, and Williams.

No votes: Members Chan, Cohn, and Straus.

Abstained: Member Molina.

Recused: Member Rucker.

Absent: Member Ramos.

With only four votes, the motion did not pass. Because this was the second regular meeting that the waiver appeared before the Board, the waiver was deemed approved for one year with no conditions.

President Kirst adjourned the day's meeting at 5:45 p.m.

***** ADJOURNMENT OF DAY'S SESSION *****

**Public Session
November 10, 2011**

President Kirst called the meeting to order at 8:38 a.m.

CLOSED SESSION

State Board President Kirst made the following report regarding the Board's Closed Session:

The Board took action to grant counsel the authority to negotiate and pay legal fees in the matter of *Emma C. et al. v. Delaine Eastin et al.*

In addition, the board took action to grant litigation counsel the authority to pay attorney's fees and costs in the matter of *California School Boards Association and its Education Legal Alliance, et al. v. The California State Board of Education*, the Algebra I litigation.

*****CONTINUATION OF WAIVERS NOT ON CONSENT*****

Please note that several waiver items were taken out of order to accommodate out-of-town speakers. The order below reflects the order in which the Board heard the items.

Member Rucker recused herself from discussion of this item.

**QUALITY EDUCATION INVESTMENT ACT (Teacher Experience Index)
Item W-16**

Subject: Request by Los Angeles Unified School District to waive portions of California *Education Code* Section 52055.740(a), regarding the Teacher Experience Index, Highly Qualified Teacher requirements, and Williams' settlement agreement requirements under the Quality Education Investment Act, so that the full implementation of these programmatic requirements is not required until 2012–13 at Alain LeRoy Locke Charter High School, Animo Locke #1, Animo Locke #2, Animo Locke #3, and Animo Locke ACE Academy.
Waiver Number: 8-5-2011

(Recommended for DENIAL)

ACTION: Member Aschwanden moved to approve CDE's recommendation to deny the waiver.

There was no second to the motion.

Member Cohn moved to approve the waiver.

Member Chan seconded the motion.

Yes votes: Members Snell, Chan, Cohn, Williams, Straus, and Molina.

No votes: Members Kirst and Aschwanden.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with six votes.

Member Rucker recused herself from discussion of this item.

QUALITY EDUCATION INVESTMENT ACT (Teacher Experience Index)

Item W-17

Subject: Request by four local educational agencies to waive California *Education Code* Section 52055.740(a), regarding Teacher Experience Index under the Quality Education Investment Act.

Waiver Numbers: Bakersfield City School 83-2-2011

San Diego Unified 13-5-2011

(Recommended for DENIAL)

The waiver requests for Chula Vista Elementary (22-4-2011) and Petaluma City Schools (4-4-2011) were withdrawn from the November 2011 agenda at the request of the applicable district. Staff reported that the waiver request for Chula Vista Elementary is expected to come back to the January 2012 SBE meeting.

ACTION: Member Chan moved to approve the waiver request for San Diego Unified School District (13-5-2011).

Member Cohn seconded the motion.

Yes votes: Members Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: Member Aschwanden.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with seven votes.

Member Molina then recused herself from the discussion of Bakersfield City School District's waiver request.

ACTION: Member Cohn moved to approve the waiver request for Bakersfield City School District (83-2-2011) from July 1, 2010 through November 4, 2011, subject to CDE's verification of the district's statement that the district is in compliance with QEIA requirements now and moving forward.

Member Straus seconded the motion.

Yes votes: Members Snell, Chan, Cohn, Kirst, Williams, and Straus.

No votes: None.

Recused: Members Molina and Rucker.

Absent: Member Ramos.

The motion passed with six votes.

Member Rucker recused herself from discussion of this item.

CLASS SIZE PENALTIES (Over Limit on Grades K-3)

Item W-5

Subject: Request by five districts, under the authority of California *Education Code* Section 41382, to waive portions of *Education Code* sections 41376 (a), (c), and (d) and/or 41378 (a) through (e), relating to class size penalties for kindergarten through grade three. For kindergarten, the overall class size average is 31 to one with no class larger than 33. For grades one through three, the overall class size average is 30 to one with no class larger than 32.

Waiver Numbers: Coachella Valley Unified 8-8-2011

Lemon Grove 12-7-2011

Manteca Unified 1-8-2011

San Marcos Unified 29-6-2011

South Whittier Elementary 17-8-2011

(Recommended for APPROVAL WITH CONDITIONS)

Member Chan moved to approve CDE's recommendation for the waivers with the conditions specified in the agenda item.

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: None.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

Member Rucker recused herself from discussion of this item.

CLASS SIZE PENALTIES (Over Limit on Grades 4-8)

Item W-7

Subject: Request by two districts to waive portions of California *Education Code* Section 41376 (b) and (e), relating to class size penalties for grades four through eight. A district's current class size maximum is the greater of the 1964 statewide average of 29.9 to one or the district's 1964 average.

Waiver Numbers: Lemon Grove 10-7-2011

South Whittier Elementary 18-8-2011

(Recommended for APPROVAL WITH CONDITIONS)

Member Chan moved to approve CDE's recommendation for the waivers with the conditions specified in the agenda item.

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: None.

Recused: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

CHARTER SCHOOL PROGRAM (Attendance Accounting for Multi-Track)

Item W-1

Subject: Request by two county offices of education and two school districts to waive portions of *California Code of Regulations*, Title 5, Section 11960(a), to allow charter school attendance to be calculated as if it were a regular multi-track school.

Waiver Numbers: Raisin City Elementary 31-8-2011
Adelanto Elementary 32-8-2011
Alameda County Office of Education 23-8-2011

(Recommended for APPROVAL WITH CONDITIONS)

(Meets Waiver Policy: [Charter School ADA: Alternative Calculation Method](#))

ACTION: President Kirst moved to approve CDE's recommendations for the waiver requests with the conditions specified in the agenda item, except for condition #6 for Raisin City Elementary and Adelanto Elementary (as a result, those two waivers were made permanent).

Member Chan seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

CHARTER SCHOOL PROGRAM (Pupil Teacher Ratio)

Item W-2

Subject: Request by Alpaugh Unified School District for a renewal to waive portions of *California Education Code* Section 51745.6, and *California Code of Regulations*, Title 5, Section 11704, and portions of Section 11963.4(a)(3), related to charter school independent study pupil-to-teacher ratios to allow an increase from 25:1 to a 27.5:1 pupil-to-teacher ratio at Central California Connections Academy Charter School.

Waiver Number: 19-6-2011

(Recommended for APPROVAL)

(Meets Waiver Policy: [Independent Study Average Daily Attendance \(ADA\)-to-Teacher Ratio](#))

ACTION: Member Chan moved to approve CDE's recommendation for the waiver for Alpaugh Unified School District (19-6-2011).

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

SPECIAL EDUCATION PROGRAM (Educational Interpreter for Deaf and Hard of Hearing)

Item W-3

Subject: Request by five local educational agencies to waive *California Code of Regulations*, Title 5, Section 3051.16(b)(3), the requirement that educational interpreters for deaf and hard of hearing pupils meet minimum qualifications as of July 1, 2009, to allow nine educational interpreters to continue to provide services to students until June 30, 2012, under a remediation plan to complete those minimum qualifications.

Waiver Numbers: Lemoore for Gail Tackett 9-8-2011

Lindsay for Brianna Terrill 18-7-2011

Lindsay for Sara Palmitessa 23-7-2011

El Dorado for Mary Coburn 24-8-2011

El Dorado for Susie Paker 25-8-2011

El Dorado for Michaela Radney 26-8-2011

Dinuba for Rosa Velasco 10-8-2011

Dinuba for Eva Martinez 11-8-2011

Clovis for Roland Hendrix 15-7-2011

(Recommended for APPROVAL WITH CONDITIONS)

(Meets Waiver Policy: [Educational Interpreters Not Meeting Regulatory Standards](#))

ACTION: Member Chan moved to approve CDE's recommendation for the waiver requests for Gail Tackett (9-9-2011), Brianna Terrill (18-7-2011), Sara Palmitessa (23-7-2011), Mary Coburn (24-8-2011), Susie Paker (25-8-2011), Michaela Radney (26-8-2011), Rosa Velasco (10-8-2011), Eva Martinez (11-8-2011), and Roland Hendrix (15-7-2011) with the individual conditions specified in Attachment 3 to this agenda item.

Member Straus seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

SPECIAL EDUCATION PROGRAM (Educational Interpreter for Deaf and Hard of Hearing)

Item W-12

Subject: Request by Lindsay Unified School District to waive the *California Code of Regulations*, Title 5, Section 3051.16(b)(3), the requirement that educational interpreters for deaf and hard of hearing pupils meet minimum qualifications as of July 1, 2009. To allow David Mashtal, Nicholas Cervantes, Kurt Graves, and Alex Cervantes to continue to provide services to students until June 30, 2012, under a remediation plan to complete those minimum requirements.

Waiver Numbers: David Mashtal 19-7-2011

Nicholas Cervantes 20-7-2011

Kurt Graves 21-7-2011

Alex Cervantes 22-7-2011

(Recommended for DENIAL)

Member Chan moved to approve the CDE's recommendation to deny the waiver requests for David Mashtal (19-7-2011), Nicholas Cervantes (20-7-2011), Kurt Graves (21-7-2011), and Alex Cervantes (22-7-2011).

Member Rucker seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

SCHOOL CONSTRUCTION BONDS (Bond Indebtedness Limit - Unified after 2000)

Item W-11

Subject: Request by Twin Rivers Unified School District to waive California *Education Code* sections 15102, 15106, 15268, 15270(a), to allow the district to exceed its bonding indebtedness limit of 1.25 percent of the taxable assessed value of property and \$30 per \$100,000 assessed value (requesting 2.50 percent and \$60 per \$100,000, respectively).

Waiver Number: 14-5-2011
(Recommended for APPROVAL WITH CONDITIONS)

Member Rucker moved to approve CDE's recommendation for the waiver with conditions, as specified in the agenda item.

Member Molina seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

***** END OF WAIVERS NOT ON CONSENT *****

*****CONTINUATION OF REGULAR AGENDA ITEMS*****

Please note that several agenda items were taken out of order to ensure that action items were heard when a quorum was present. The order below reflects the order in which the Board heard the items.

Item 10

Subject: Request for Approval of Sonoma County Office of Education Charter Special Education Local Plan Area.

Action: Member Strauss moved to adopt the CDE's recommendations to:

1. Approve the Sonoma COE SELPA local plan (Attachment 1 to the agenda item) for a membership-only charter schools LEA, subject to the following conditions:
 - The Sonoma COE must submit a revised local plan to identify charter school LEA members pursuant to California *Education Code (EC)* Section 56195.
 - The Sonoma COE local plan must meet all statutorily required elements.
 - The Sonoma COE SELPA local plan must assure students with disabilities receive a free appropriate public education (FAPE).

2. Delegate final approval of the Sonoma COE SELPA local plan to the SSPI upon receipt of documents fulfilling the conditions of approval.

Member Rucker seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

Item 11

Subject: Appeal of a decision by the San Mateo County Committee on School District Organization to Disapprove a Petition to Transfer Territory from the Redwood City School District to the Las Lomas School District in San Mateo.

Action: Member Aschwanden moved to approve the CDE's recommendation to deny the appeal and uphold the decision of the San Mateo County Committee on School District Organization.

Member Rucker seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Member Ramos.

The motion passed with nine votes.

***** PUBLIC HEARING *****

President Kirst opened the public hearing at 1:25 p.m. and closed the hearing at 1:39 p.m.

Item 12

Subject: Petition for Establishment of a Charter School Under the Oversight of the State Board of Education: Consideration of the Synergy Charter School

Petition, Which Was Denied by the Pittsburg Unified School District and the Contra Costa County Board of Education.

Action: Member Aschwanden moved to adopt the Advisory Commission on Charter Schools (ACCS)'s recommendation to approve the petition to establish the Synergy Charter School under the oversight of the SBE, subject to the following provisions:

- The SBE Conditions on Opening and Operation as set forth in Attachment 1 to the agenda item.
- Modifications to the charter in accordance with the CDE report as set forth in detail in Attachment 2 to the agenda item.

In addition, Member Aschwanden moved to adopt CDE's recommendation to include the following provisions that are standard to SBE authorization of charter schools:

- Specification of a five-year term beginning July 1, 2012, and ending June 30, 2017.
- Termination of the charter if the school does not begin operations between July 1 and September 30, 2012.

In addition, Member Aschwanden directed the school to share the following data with CDE's Charter School Division and SBE staff as soon as available: CBEDs data in October, the fiscal report in November, and the P1 report in December.

Member Straus seconded the motion.

Yes votes: Members Aschwanden, Snell, Chan, Cohn, Kirst, Williams, Straus, and Molina.

No votes: Member Rucker.

Absent: Member Ramos.

The motion passed with eight votes.

***** END OF PUBLIC HEARING *****

***** PUBLIC HEARING *****

President Kirst opened the public hearing at 2:42 p.m. and closed it at 3:56 p.m.

Item 13

Subject: Standardized Testing and Reporting Program: Adoption of California Modified Assessment Performance Standards for English–Language Arts in Grades Ten and Eleven, and Geometry.

Action: Member Chan moved to approve CDE’s recommendation to adopt the proposed performance standards (levels) for the CMA for English–language arts in grades ten and eleven and geometry.

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, and Rucker.

No votes: Member Molina.

Absent: Members Ramos and Snell.

The motion passed with seven votes.

***** END OF PUBLIC HEARING *****

Item 14

Subject: Elementary and Secondary Education Act: Recommendation for Adoption of the Exit Plan Regarding the State Trustee in Alisal Union Elementary School District.

Action: Member Aschwanden moved to approve the State Trustee's recommendation to move toward full local governing authority for Alisal Union Elementary School District on or before June 30, 2012, and to authorize both the SBE President and Executive Director to work with SBE staff, CDE staff, and the State Trustee to move toward the Exit Plan outlined in the Attachment to the agenda item.

Member Rucker seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Members Ramos and Snell.

The motion passed with eight votes.

Item 9

Subject: Annual Performance Report for Part B of the Individuals with Disabilities Education Act Covering Program Year 2010-11.

Action: No action taken.

Item 15

Subject: PUBLIC COMMENT.

Public Comment is invited on any matter **not** included on the printed agenda.

Action: No action taken.

Item 8

Subject: STATE BOARD PROJECTS AND PRIORITIES.

Including, but not limited to, future meeting plans; agenda items; and officer nominations and/or elections; State Board office budget, staffing, appointments, and direction to staff; declaratory and commendatory resolutions; bylaw review and revision; Board policy; approval of minutes; Board liaison reports; training of Board members; and other matters of interest.

Action: Member Aschwanden moved to approve the September 2011 SBE Minutes.

Member Rucker seconded the motion

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, and Rucker.

No votes: None.

Absent: Members Snell and Ramos.

The motion passed with eight votes.

President Kirst adjourned the meeting at 5:25 p.m.

***** ADJOURNMENT OF MEETING *****

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 9

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Update on the Activities of the California Department of Education and State Board of Education Regarding Implementation of Common Core State Standards Systems.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

California *Education Code* Section 60605.8 (h) requires the State Superintendent of Public Instruction (SSPI) and the State Board of Education (SBE) to present a schedule and an implementation plan to the governor and the appropriate policy and fiscal committees of the California State Legislature for integrating the Common Core State Standards (CCSS) into the state educational system. This agenda item is the fourth in a series of regular updates.

RECOMMENDATION

The California Department of Education (CDE) recommends that the SBE take action as deemed necessary and appropriate but recommends no specific action at this time.

BRIEF HISTORY OF KEY ISSUES

When the SBE adopted the CCSS with additions in August of 2010, these standards became the current subject-matter standards in English language arts and mathematics. The full implementation of these standards will occur over several years as a new system of CCSS-aligned curriculum, instruction, and assessment is developed. New tools to support the system are important; professional learning support modules, curriculum frameworks, instructional materials, and assessment tools are all key components. However, in addition to the tools, successful implementation requires that California's diverse educational stakeholders work in concert to achieve the shared objective of preparing every student for success in college and career.

The CDE has developed a comprehensive statewide plan for implementing a system designed to support student attainment of the CCSS. California's CCSS Systems Implementation Plan is provided as Attachment 1.

The CDE continues to be engaged in many implementation activities, as described in Attachment 2.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

November 2011: The CDE presented to the SBE the third in a series of updates on the implementation of the CCSS.

September 2011: The CDE presented to the SBE the second in a series of updates on the implementation of the CCSS.

July 2011: The CDE presented to the SBE the first in a series of updates on the implementation of the CCSS.

June 2011: Governor Edmund G. Brown, Jr., SSPI Tom Torlakson, and SBE President Michael Kirst signed the memorandum of understanding for California's participation as a governing state in the SMARTER Balanced Assessment Consortium (SBAC). California was previously a participating state in the Partnership for the Assessment of Readiness for College and Careers (PARCC).

November 2010: The CDE presented to the SBE an update on the implementation of the CCSS. This update was provided at the joint meeting between the SBE and the Commission on Teacher Credentialing (See agenda at <http://www.cde.ca.gov/be/pn/pn/ctcsbeagenda08nov2010.asp>).

August 2010: Pursuant to Senate Bill X5 1, the SBE adopted the academic content standards in English language arts and mathematics as proposed by the California Academic Content Standards Commission (ACSC); the standards include the CCSS and specific additional standards that the ACSC had deemed necessary to maintain the integrity and rigor of California's already high standards.

May 2009: The SSPI, the Governor of California, and the SBE President agreed to participate in the Council of Chief State School Officers and the National Governors Association Center for Best Practices initiative to develop the CCSS as part of California's application to the federal Race to the Top grant.

FISCAL ANALYSIS (AS APPROPRIATE)

The cost of implementing the CCSS is significant, but will be offset by the improved efficiencies, benefits of shared costs with other states, and the shifting of current costs to CCSS activities. Currently, the CDE is providing professional learning support via webinars and presentations and is providing ongoing guidance to the field for transitioning to the CCSS. In addition, current efforts will be redirected to support the implementation of the CCSS, especially in the area of professional learning support. In terms of instructional materials, costs will span multiple years but will be offset by access to a national market of materials and greater price competition. Nonetheless, the implementation of new standards assessments, the development and implementation of new accountability measures, local and statewide professional learning support, the development of new curriculum frameworks, and the review and acquisition of new

FISCAL ANALYSIS (AS APPROPRIATE) (Cont.)

instructional materials will require a refocusing of efforts, shifting and infusion of new resources.

ATTACHMENT(S)

Attachment 1: Common Core State Standards Systems Implementation Plan for California (38 Pages) (PDF Document)

Attachment 2: Programmatic Highlights (1 Page)

Programmatic Highlights

The following list references additional State Board of Education January 2012 meeting agenda items regarding Common Core State Standards systems implementation:

- *Mathematics Framework for California Public Schools: Kindergarten Through Grade Twelve*, 2013 Revision: Approval of the Timeline and Curriculum Framework and Evaluation Criteria Committee Application Form. (SBE Item 11)
- Supplemental Instructional Materials Review Aligned to the Common Core State Standards: Evaluation Criteria. (SBE Item 10)
- Reauthorization of Statewide Pupil Assessment System: Development of Superintendent Recommendations. (SBE Item 12)

Common Core State Standards Systems Implementation Plan for California

January 2012

Introduction

Mission Statement

California will provide a world-class education for all students, from early childhood to adulthood. The California Department of Education serves our state by innovating and collaborating with educators, schools, parents, and community partners. Together, as a team, we prepare students to live, work, and thrive in a highly connected world.

The California Department of Education (CDE) oversees the state's diverse and dynamic public school system, which is responsible for the education of more than seven million children and young adults in more than 9,000 schools. The CDE and the State Superintendent of Public Instruction are responsible for enforcing education law and regulations; and for continuing to reform and improve public elementary school programs, secondary school programs, adult education, some preschool and child care programs.

Our purpose is to provide for and support an effective educational system that affords every child the ability to attain their highest degree of education and to support the local educational agencies (LEAs) in this endeavor.

Acknowledgements

This Common Core State Standards (CCSS) Systems Implementation Plan has been developed by the CDE under the leadership of State Superintendent of Public Instruction, Tom Torlakson and the California State Board of Education (SBE), and is presented to the California State Legislature, Governor Jerry Brown, and the people of the State of California.

The Purpose of This Document

The CCSS Systems Implementation Plan identifies major phases and activities in the implementation of the CCSS throughout California's educational system. The plan describes the philosophy of and strategies for the successful integration of new kindergarten through grade twelve academic content standards that permeate both well before and far beyond these grade levels.

While it provides a pathway for activities related to implementation, this document is not designed to be an exhaustive task list. Nor is its purpose to identify or discuss the specifics of the standards themselves—many other resources produced by the CDE and its collaborative partners provide reviews and analyses of the CCSS.

LEAs should use this plan to develop their own specific CCSS implementation plans in order to meet their own local needs. This plan provides LEAs with information on the CCSS alignment work of statewide programs that involve most, if not all, LEAs. It also includes information on many specific resources they may wish to utilize and implementation activities in which they may choose to participate.

California's Standards-Based Educational System

Academic content standards encourage the highest achievement of every student by defining the knowledge, concepts, and skills that students should acquire at each grade level. A standards-based system of education is an integrated system in which each element is an essential part of the whole. No single element ensures student achievement, and ineffective implementation of any aspect risks the success of the entire system. Each element informs the others to

create a single plan for student mastery of the standards.

This system of clear expectations for student achievement promotes educational equity. This equity—ensured through universal access for all students—is the cornerstone to our educational philosophy. It’s from the results of our continuing research for and development of improved programs and instructional techniques that students will actually achieve their true potential for academic success. When this success is attained—when there is no measureable gap between the academic performance levels of student subgroups—will we have achieved true educational equality.

The SBE first adopted statewide academic content standards for English-language arts and mathematics in 1997. Since that time, California has been building an educational system based upon some of the most rigorous and well respected academic content standards in the nation. California’s standards-based educational system is one in which standards, curriculum, assessment, and accountability are aligned to support student attainment of the standards. Teachers and local school officials, in collaboration with families and community partners, use standards to help students achieve academic success.

The Common Core State Standards

In 2009, the Council of Chief State School Officers (CCSSO) and the National Governors Association Center for Best Practices (NGA) committed to developing a set of standards that would help prepare students for success in career and college. The CCSS Initiative is a voluntary, state-led effort coordinated by the CCSSO and NGA to establish clear and consistent education standards.

The CCSS exist for English-language arts and mathematics, kindergarten through grade twelve. They are founded upon the best state standards; the experiences of teachers, content experts, and

leading thinkers; and feedback from the general public. In addition, the standards are internationally benchmarked to the top performing nations to ensure that our students are globally competitive. Parents, educators, content experts, researchers, national organizations, and community groups from forty-eight states, two territories, and the District of Columbia all participated in the development of the standards. The CCSS are rigorous, research-based, and relevant to the real world. On August 2, 2010, the SBE voted unanimously to adopt the CCSS. More information about the standards may be found on the CDE’s CCSS Resources Web page at <http://www.cde.ca.gov/ci/cc>.

Common Core State Standards Systems Implementation Plan

California’s adoption of the CCSS demonstrates its commitment to providing a world-class education to all of its students. California’s implementation of the CCSS renews its vision *that all students graduating from our public school system be life long learners and have the skills and knowledge necessary to be ready to assume their position in the 21st century global economy.*

California is not only fully committed to the complete and successful implementation of the CCSS, it is now fully engaged in that process. Across all branches of the CDE, within county offices of education, at every level of LEA administrations, and in classrooms across the state, stakeholders are examining their education programs and preparing for full implementation of the CCSS.

There is much work to be done. Although California's 1997 academic content standards and the CCSS for English-language arts and mathematics share many similarities in content and design, there are a number of notable differences between the two sets of standards. For example, since students are often required to write, research, and analyze non-literary texts in college and the

workplace, the CCSS place an emphasis on developing literacy in history, science, and technical subjects. The CCSS also focus on applying mathematical ways of thinking to real world challenges, helping students develop a depth of understanding and ability to apply mathematics to novel situations.

In addition, the new CCSS require significant student collaboration, fluency with multimedia and technology, and the development of strong complex reasoning, problem solving, and communication skills. Elements such as these transcend subject matter and demand a re-examination of our existing system of professional learning, curricula development, assessments, and accountability. Further, California's active participation in new CCSS system-related multi-state collaborations present the state with additional opportunities to expand and improve upon previous standards implementation efforts.

California's Diverse Stakeholders

A systems approach to implementing the CCSS provides coherence and necessitates extensive communication and collaboration among all of California's educational stakeholders. The CDE is working diligently to ensure clear communications and expectations, and this document is an important component of this goal. Yet, without the engagement and assistance of all educational stakeholders, the CDE cannot successfully oversee the implementation of the CCSS. The role of each stakeholder group in contributing to the implementation is vitally important to the success of the plan.

The CCSS were created by representative groups of teachers, administrators, parents, content experts, and education professionals, each bringing a unique educational perspective into the development. For the implementation of the CCSS to be successful, it will take a vast majority of all members of these groups working to achieve the common goals.

Of all stakeholders, students are perhaps the most ready to implement the new standards. Offered engaging content by well-prepared teachers using effective strategies, students will respond with determined interest and perform to their best ability. The role of every other stakeholder group is to ensure that the students—all students—gain meaningful access to the content and that all necessary support systems are in place.

In reviewing this document, stakeholders should note instances for potential involvement. For various groups, these opportunities may be different. Teachers and administrators may wish to participate in professional learning opportunities. Families may wish to view CDE-sponsored Webinars or review publications such as *A Look at Kindergarten through Grade Six in California Public Schools*. In many cases, the opportunity for stakeholder input will be more open-ended. For example, the SBE invites public comment on meeting agenda items. In other instances, the CDE will seek stakeholder feedback on particular issues. Involvement may be as easy as subscribing to a listserv for information on a particular topic. Opportunities abound, and the CDE and SBE welcome and encourage participation.

Phases of Implementation

Full implementation of CCSS systems will occur over several years and in the context of a continuous learning process. Accordingly, the plan exists within a framework of phases of the change process. The phases are straightforward yet lightly defined because for each program and project there exists an ongoing development and progression that must evolve both at the individual elemental level and the integrated systems level.

- ❖ *The Awareness Phase* represents an introduction to the CCSS, the initial planning of systems implementation, and establishment of collaborations.

- ❖ *The Transition Phase* is the concentration on building foundational resources, implementing needs assessments, establishing new professional learning opportunities, and expanding collaborations between all stakeholders.
- ❖ *The Implementation Phase* expands the new professional learning support, fully aligns curriculum, instruction, and assessments, and effectively integrates these elements across the field.

Guiding Strategies

As a structural framework for activities, and the phases into which they fall, the plan is grounded in seven guiding strategies for implementation. These strategies encompass all areas of our educational system, and while they provide focus to the work, they also reveal its highly integrated nature. The seven guiding strategies for CCSS systems implementation are:

1. Facilitate high quality professional learning opportunities for educators to ensure that every student has access to teachers who are prepared to teach to the levels of rigor and depth required by the CCSS.
2. Provide CCSS-aligned instructional resources designed to meet the diverse needs of all students.
3. Develop and transition to CCSS-aligned assessment systems to inform instruction, establish priorities for professional learning, and provide tools for accountability.
4. Collaborate with parents, guardians, and the early childhood and extended learning communities to integrate the CCSS into programs and activities beyond the K–12 school setting.

5. Collaborate with the postsecondary and business communities and additional stakeholders to ensure that all students are prepared for success in career and college.
6. Seek, create, and disseminate resources to support stakeholders as CCSS systems implementation moves forward.
7. Design and establish systems of effective communication among stakeholders to continuously identify areas of need and disseminate information.

Transformation

Within each of these seven strategies exists the basis for the work to be done, the major work projects, and what that work will ultimately establish in terms of full transformation to the CCSS systems. While a plan usually starts at the beginning, this plan first establishes what transformation to the CCSS systems will look like. Each strategy begins with what we know we want—and what we know we need to achieve—in transforming to an integrated system of CCSS education. For many of the strategies, the list of indicators of transformation is quite detailed. However, the indicators of transformation for the CCSS system as a whole are relatively simple. In essence, we will know that our educational system has been transformed when teachers across the state, informed by student assessment data gleaned from CCSS-aligned tools, employ differentiated instructional strategies to support the success of every student in attaining the standards. Quite simply, more of California’s students, supported by a network of engaged and informed stakeholders, will graduate from high school prepared to transition to career and college successfully.

1. Facilitate high quality professional learning opportunities for educators to ensure that every student has access to teachers who are prepared to teach to the levels of rigor and depth required by the CCSS.

Successful implementation of the CCSS requires strong instructional leadership in every school and well-prepared teachers in every classroom. In order for any standards-based system to be successful, educators must possess a thorough understanding of what students are expected to know and be able to do, as well as an array of instructional strategies designed to support every student in meeting those expectations. There are a number of differences between the California content standards adopted in 1997 and the CCSS. It is critical to the success of the CCSS system that educators have access to high quality professional learning opportunities that develop facility with the new standards and a variety of instructional strategies that will support student attainment of them.

The CDE will work with the Commission on Teacher Credentialing (CTC) to ensure that pre-service teachers and administrators have access to programs that provide the pedagogical and content knowledge needed to successfully support student attainment of the CCSS. Similarly, induction programs will reflect and support effective teaching of the CCSS-aligned material. Collaborations with higher education and the coordination of programs will guide revisions to teacher competencies, credentialing, and course work for students in all teacher preparation and credentialing programs.

The CDE will also collaborate with various educational entities to ensure that existing and newly developed CCSS-aligned resources

are efficiently and adequately distributed to educators throughout California and will maintain ongoing communication with the higher education community in the development of professional learning resources for educators. The CDE will compile a list of professional learning activities and resources that are currently available and conduct needs surveys to determine what professional learning activities and resources are most needed by LEAs. The CDE will then form a design team to develop criteria for new professional learning modules designed to meet the identified needs of educators. Modules will be available for both individual study and group activity, web-based and school-based delivery, and will assist in the implementation of the CCSS and increase the effectiveness of teachers based on the *California Standards for the Teaching Profession* and the *Learning Forward Standards for Professional Learning*. Topics will include instructional strategies to support all learners including English learners, pupils with disabilities, and underperforming students; instructional strategies that promote creativity, innovation, critical thinking, problem solving, collaboration and communication skills; the integration of subject area content knowledge; and instructional leadership and coaching. The CDE will refine its existing Professional Development Opportunities Web site to identify activities aimed at transitioning to the CCSS.

Traditionally, once the SBE adopts standards, the CDE develops new curriculum frameworks that provide guidance regarding instructional strategies to support student achievement of the standards. In 2009, California enacted a series of laws that suspended the framework development process. This process will resume in January 2012. To support transition to the CCSS until the curriculum frameworks are revised, the CDE has developed and published a grade-level curriculum document, *A Look at Kindergarten Through Grade Six in California Public Schools*, that

includes substantial material to support the transition to the CCSS. The CDE will continue to develop materials that promote familiarity with the CCSS and implementation of the CCSS system, and collaborate with professional organizations to conduct presentations and workshops at regional and statewide conferences.

Historically, socio-economically disadvantaged and linguistic minority student subgroups have experienced a gap in student achievement as compared to their non-disadvantaged and native English-speaking counterparts. The CDE will continue to use Title I resources for schools and LEAs to strengthen the academic achievement of students not meeting state standards and will create and promote professional learning opportunities and resources to support teachers in addressing the diverse needs of all students.

The CDE will partner with LEAs regarding potential programmatic refinements designed to align with various assessments and will promote familiarity with SMARTER Balanced Assessment Consortium (SBAC) assessments and how they may be used to inform instruction.

Indicators of Transformation

Educators will have access to professional learning opportunities that promote best practices for teaching all students, including our youngest students, gifted students, students with disabilities, English learners, and underperforming students. Educators will know how to use student data provided by SBAC assessments to inform their practice and will be prepared to differentiate instruction to meet the needs of all students.

Teacher and administrator credentialing and induction programs will align to the CCSS. Pre-service educators will be familiar with the standards and possess a range of instructional strategies that support student attainment of them. A multitude of professional learning resources that support best practices as related to CCSS-aligned instruction will be available. Various providers of professional learning opportunities will continue to work in collaboration with the CDE to create methods of delivery that include online portals and discussion boards, resource Web pages, Webcasts, workshops, seminars, and publications. CDE staff will regularly survey school, district, and county office personnel to assess needs and continue to provide technical assistance and develop new resources in response to stakeholder feedback. The revised curriculum frameworks will provide instructional guidance to classroom teachers and serve as the basis for professional development on the CCSS and their implementation for teachers and administrators.

2. Provide CCSS-aligned instructional resources designed to meet the diverse needs of all students.

The traditional implementation of new academic content standards in California has been the progressive pathway of the development, review, and adoption of standards, curriculum frameworks, instructional materials, and assessments. Due to fiscal crisis, the state enacted a series of laws beginning in 2009 designed to create flexibility for LEAs. These laws suspended the authority of the CDE to initiate curriculum frameworks development and the authority of the SBE to adopt any new materials until July 2015. However, due to the passage of Assembly Bill 250 (Statutes of 2011), the CDE is now revising the curriculum frameworks for mathematics and English language arts. These new curriculum frameworks will provide instructional guidance aligned to the CCSS and will provide publishers with criteria for the development of new instructional materials.

While instructional materials adoptions remain suspended, the CDE is conducting a review of supplemental instructional materials that will bridge the gap between SBE-adopted programs currently being used by LEAs and the new CCSS. Once the review is complete, the CDE will list on its Web site these CCSS-aligned materials designed to help LEAs transition to the new standards.

Fundamental to California’s concept of successful instruction is the assurance of universal access for all students—which means that all students must have meaningful access to the content in order to achieve their own highest potential. The CDE continues to strive to ensure that instructional resources, including those that are developed to support student

attainment of the CCSS, are designed to meet the many different needs of California’s diverse student population, including gifted students, adult students, English learners, migrant students, students with disabilities, as well as students with disabilities who are English learners.

A revision of the English Language Development (ELD) standards is crucial to successful implementation of the new CCSS. Nearly 25 percent of California’s students are English learners, and the ELD standards establish what students must know and be able to do as they move toward full fluency in English. With the passage of AB 124 (Statutes of 2011), California is embarking upon a revision of the ELD standards to bring them into full alignment with the CCSS and will include the revised standards in the new curriculum framework for English language arts.

Additionally, as technology-based materials become more common, the CDE will continue to promote the use of platform-neutral software and adaptive technology—both in curriculum and assessments.

Indicators of Transformation

Revised curriculum frameworks will provide instructional guidance on the CCSS and provide the criteria for development of new instructional materials. The frameworks will provide information regarding strategies for universal access, use of assessments to inform instruction, and tiered interventions for any students not meeting the CCSS; and stakeholders will utilize them to improve the achievement of all students. Students will have the opportunity to access CCSS-aligned curriculum via a variety of formats, including digital technology that will also be capable of supporting assessment administration.

California Department of Education Implementation Activities

3. Develop and transition to CCSS-aligned assessment systems to inform instruction, establish priorities for professional learning, and provide tools for accountability.

Standards-aligned assessments assist in providing information about student progress towards full attainment of the standards. In a standards-based system, student assessment data is used to inform instructional practice and professional learning activities at the district, school, and classroom level.

On June 9, 2011, California joined the SMARTER Balanced Assessment Consortium (SBAC) as a governing state. The SBAC is a national consortium of 29 states that have been working collaboratively to develop a student assessment system aligned to the CCSS. Of those, California is one of 19 governing states, which allows decision-making participation.

The SBAC is developing a system of online, computer adaptive summative assessments, optional interim assessments, formative resources and tools, professional development resources, and an online reporting system that will allow educators to readily access information regarding student progress toward the standards. California's educators, along with educators from the other 28 SBAC states, will have the opportunity to provide feedback on draft content specifications, test item development, test scoring, formative tool development, range-finding and score validation, and designing score reports and Web tools.

The SBAC is developing assessments for mathematics and ELA for students in grades 3 through 8 and grade 11. SBAC assessments will not assess students with significant

disabilities as they will still take the California Alternate Performance Assessment.

California will continue to address questions regarding the assessment of students in grades 2, 9, and 10 and subjects beyond mathematics and English language arts as it transitions to the next generation of assessments. Pursuant to Assembly Bill 250 (Statutes of 2011), the CDE will work with stakeholders to develop an assessment transition plan that reflects input from the educational field about assessments that are not provided by SBAC. The CDE will present a report regarding the assessment transition to the California State Legislature by November 1, 2012.

To support the transition to the new assessments, the CDE and SBAC will develop Webinars and digital presentations for administrators, teachers, parents, and students to introduce adaptive computer testing and to also help teachers, counselors, and other school service personnel explain individual assessment results to students, parents, and community members.

In addition, the transition to the CCSS, along with the eventual reauthorization of ESEA, will require a redefinition of the school and LEA accountability structure in California. This process will include review and revision of tools created to assist schools and LEAs that fall below established performance targets. The CDE developed the current tools in conjunction with stakeholder groups; these groups, along with representatives from LEAs, will assist in the process of revising them to align with the CCSS and related assessments.

Indicators of Transformation

As the system is transformed, teachers will have access to SBAC formative assessment strategies and tools to use in their classrooms. The formative tools and resources will assist teachers in adjusting instructional strategies as needed.

Assessment interpretation resources will help teachers and administrators interpret student results and use the results to inform students and parents about student progress and also to target classroom instruction. Special education staff will be trained on the participation of students with disabilities in the SBAC system and alternate assessments for students with disabilities. Online Web pages will provide pathway access to multiple resources within and outside of the CDE. Professional learning opportunities provided through Webcasts, workshops, and seminars will include assessment and accountability information.

California Department of Education Implementation Activities

	Awareness	Transition	Implementation
SMARTER Balanced Assessment Consortium	<ul style="list-style-type: none"> Establish 10 work groups comprised of CDE staff to review and inform SBAC processes (summer 2011) Complete item writing and review activities (summative and interim assessments) (ongoing until 2013–14) Communicate with test vendors regarding revisions of deliverables affected by the changes 	<ul style="list-style-type: none"> Maintain involvement with SBAC work groups, guidance, and the field to keep abreast of outreach to the diverse needs of all students Pilot testing of summative and interim assessments conducted (spring 2013) Begin field testing of summative and interim assessments (spring 2014) 	<ul style="list-style-type: none"> Summative and interim assessments aligned to the CCSS available (2014–15) Formative resources and tools available on-line (2014–15) Administer operational summative assessment (spring 2015)
Transition to New Assessment System	<ul style="list-style-type: none"> Collaborate with stakeholders to develop assessment transition plan (2011–12) Assess stakeholder need for professional learning opportunities regarding new assessment system Establish SBAC page on the CDE Web site (summer 2011) Utilize online technology readiness tool (being developed on behalf of the national assessment consortia) to evaluate current technology and infrastructure of LEAs (spring 2012) 	<ul style="list-style-type: none"> Present assessment transition plan to Legislature (fall 2012) Plan and deliver professional learning opportunities for all components of the assessment system Maintain and regularly update the SBAC Web page to provide current information regarding the new assessment system Use information from technology readiness tool and input from LEAs to identify technology gaps and develop a plan that identifies strategies to be technologically ready to implement the SBAC assessment system 	<ul style="list-style-type: none"> Collaborate with Legislature to transition to next generation of assessments Develop additional resources to assist stakeholders in the transition to the new assessment system as needs and opportunities develop Promote CDE’s SBAC Web page listserv as means of accessing current information and opportunities for stakeholder involvement Implement LEA technology update plan

4. Collaborate with parents, guardians and the early childhood and extended learning communities to integrate the CCSS into programs and activities beyond the K–12 school setting.

The path to academic and personal success begins well before students enter kindergarten, and programs beyond the regular school day can have significant positive effects on student achievement. To support student attainment of the CCSS, the CDE will work closely with parents, guardians, and parent organizations to develop and disseminate tools that provide families with information about the new standards and explain how they are designed to prepare children not for success in career and college, but throughout their K–12 education. The CDE will also work with parents, guardians, teachers, and the early childhood community to ensure that preschool programs and experiences and transitional kindergarten (TK) curricula provide students with a strong foundation for success with the CCSS when they enter kindergarten. Additionally, the CDE will conduct outreach and professional development activities to enable district administrators, school principals, and after school/extended day program directors to effectively work together to enrich and augment regular day learning experiences related to the CCSS.

The CDE has posted its *California Infant/Toddler Learning and Development Foundations* and the *California Preschool Learning Foundations* (early learning foundations) on the CDE web site for easy accessibility and makes presentations at early childhood conferences on both. These early learning foundations are aligned to the CCSS and include ELD foundations for preschool-aged children. The CDE will continue to collaborate with the early childhood community to promote the use of these documents as precursors of the CCSS.

Work is underway to align the preschool foundations to the kindergarten CCSS for the early childhood field. The resulting alignment

document will inform the development of TK curricula and best practices.

The CDE will continue to provide technical assistance to inform parents and guardians about how they can be involved in the education of their children and be active participants in assisting their children to meet the CCSS. The CDE will also provide technical to homeless educational programs and private school educators to assist outreach to parents and support to students in school and other settings.

The CDE will support the development of documents and professional development focused on parents, guardians, and the early childhood, after school, adult education, and extended learning communities to integrate the CCSS into programs and activities beyond the K–12 school setting, including technical assistance and translation support.

Indicators of Transformation

California’s early childhood programs will use the early learning foundations, their companion curriculum frameworks, and Desired Results child assessment results to inform curriculum planning and practices leading to more positive child outcomes. Professional learning opportunities will teach early childhood professionals to utilize the early learning foundations and their companion curriculum frameworks, and the use of the documents will be incorporated into early childhood education (ECE) coursework at all California colleges and universities that conduct ECE programs. The early learning foundations-CCSS alignment document will inform TK curricula and best practices. Educational programs that extend beyond the K–12 school day will infuse the CCSS to support student attainment of the standards. Parents, guardians, and the after school/extended learning communities of all students will understand how CCSS will successfully support their students’ education and how they can participate in shaping local implementation.

California Department of Education Implementation Activities

	Awareness	Transition	Implementation
Early Childhood Education	<ul style="list-style-type: none"> ◆ Collaborate with partners to offer training on California’s early learning foundations to ECE ◆ Post California’s early learning foundations on the CDE Web site ◆ Develop and Web-post a document that demonstrates alignment between the early learning foundations and the CCSS (fall 2011) ◆ Use the early learning foundations to inform development, revision, and updating of resources; reflecting the diversity of California’s youngest children. ◆ Facilitate access to professional learning opportunities on the early learning foundations 	<ul style="list-style-type: none"> ◆ Develop a method to ensure that all professional development providers of CDE-sponsored training have deep knowledge of the early learning foundations and how they correspond with their given training content ◆ Release the <i>Infant/Toddler Curriculum Framework</i> (spring 2012) ◆ Release the final volume of the <i>Preschool Learning Foundations</i> and its companion <i>Curriculum Framework</i> (fall 2012) ◆ Provide training to explain the alignment of the early learning foundations to the CCSS to local child care resource and referral agencies local child care planning councils, professional development providers, and institutions of higher education 	<ul style="list-style-type: none"> ◆ Provide professional learning opportunities in local early learning communities so that all early childhood professionals will utilize the early learning foundations and their companion curriculum frameworks ◆ Develop a certificate system to acknowledge early childhood educators who have completed training or coursework on the full set of early learning foundations; use this system to track the level of implementation
Transitional Kindergarten	<ul style="list-style-type: none"> ◆ Develop and Web-post an alignment document that clearly explains how the early learning foundations align with the CCSS and can be used to inform development of TK curricula (winter 2012) ◆ Work with contractors to align the kindergarten CCSS to the <i>Preschool Learning Foundations</i> 	<ul style="list-style-type: none"> ◆ Promote the use of the alignment document as a tool to develop TK curricula that supports the CCSS and incorporates developmentally appropriate best practices 	<ul style="list-style-type: none"> ◆ Provide training regarding the implementation of the CCSS for TK with all stakeholders

California Department of Education Implementation Activities

	Awareness	Transition	Implementation
Parent/Guardian Engagement	<ul style="list-style-type: none"> ◆ Collaborate with stakeholders to develop materials for families of diverse students to promote awareness of the CCSS and resources and strategies that will support student attainment of the standards ◆ Incorporate family and community engagement into the professional learning modules, curriculum frameworks, and online resources for educators 	<ul style="list-style-type: none"> ◆ Prepare CCSS systems-related training materials for stakeholders to present to parent groups that include research-based strategies to improve achievement of all students 	<ul style="list-style-type: none"> ◆ Provide parents and guardians with information and resources about CCSS through CDE Web pages ◆ Communicate with LEAs regarding the availability of professional learning resources that include updated information on family and community engagement as well as instructional strategies to help all students learn, including ELs and students with disabilities.
After School and Extended Learning	<ul style="list-style-type: none"> ◆ Develop materials to deliver to district administrators, school principals, and after school/extended day program administrators describing opportunities for enriching regular day learning through activities delivered outside the regular school day. 	<ul style="list-style-type: none"> ◆ Develop training and professional development materials on establishing effective working relationships between regular day and after school/extended day programs. 	<ul style="list-style-type: none"> ◆ Provide professional development to district administrators, school principals, and after school program directors on how to collaborate to incorporate, into after school/extended day programs, activities that enrich and extend the CCSS-related learning initiated during the regular day.

5. Collaborate with the postsecondary and business communities to ensure that all students are prepared for success in career and college.

The CCSS were designed to ensure that every student would be prepared to succeed in career and college. While the standards do not attempt to outline and define everything that makes a student career and college ready, they do define the mathematics and ELA content and skills most students require to be successful in entry-level, credit-bearing academic college courses and in workforce training programs. More students will be better prepared to transition from high school to success in postsecondary education and engagement in a career with full implementation of the CCSS.

To this end, the CDE will work with identified partners to ensure that the K–12, post-secondary, and business communities have a common agreement upon the definition of career and college readiness that includes the CCSS for mathematics and English language arts and will review and revise programs and materials to reflect this definition.

The majority of students will, at some point, participate in the paid workforce, and the purpose of high school is to provide students with the skills to make informed choices about the next steps in their lives once they have earned a high school diploma. In this context, college is defined in the broadest sense to include two- and three-year certification programs, four-year degrees, and graduate degrees.

Many high school Career Technical Education (CTE) programs, in alignment with industry requirements, offer certifications in specific industry sectors. This allows high school graduates to become employed within a specific industry sector immediately upon high school graduation. The CDE will revise the *California*

Career Technical Education Model Curriculum Standards to include CCSS alignment identification, reinforcement, and enhancement. The CDE will facilitate the integration of the CCSS into CTE programs and continue to consult with industry leaders to ensure that the CTE curriculum frameworks reflect an alignment to industry needs as well as an alignment to the CCSS.

The CDE will strengthen connections between K–12 faculty and higher education faculty by ensuring that the higher education community has an advisory role in the SBAC and by determining the role of the CCSS assessment results in college admissions and in determining student readiness for credit bearing courses in the freshman year of college. The CDE will work with postsecondary and career experts to ensure that the SBAC assessments show depth of knowledge and critical thinking skills, use items/questions that mirror real life, and reflect the thinking required in career and college. Additionally, the CDE will collaborate with the University of California, Office of the President, and the Western Association of Schools and Colleges (WASC) to facilitate the alignment of accreditations and A–G course requirements to the CCSS.

The CDE will also provide resources regarding the transition to career and college into professional learning modules and curriculum frameworks designed to support the success of all students. The CDE will facilitate communication with and participation of the higher education community, including leading scholars and researchers, in the development of these resources.

Indicators of Transformation

Stakeholders will have an agreed upon and clear understanding of the purpose of high school and the definition of career and college readiness. Fewer students will need remediation upon entering post-secondary programs, and industries will be able to fill their

positions with a high-quality skilled labor force. CTE students entering postsecondary programs will have mastered the CCSS within an industry sector context and be prepared to successfully continue their studies without need for remediation.

High school teachers will be fluent in the CCSS and their alignment to A–G courses as well as CTE courses. The CDE will take the lead in professional learning opportunities to stay abreast of and maintain growth in the CCSS and related assessments. WASC accreditation will reflect the implementation of the CCSS.

The CCSS as included in the *CTE Model Curriculum Standards* will promote advisory committee collaboration and serve as a central component of programs of study. This document will influence new courses and lesson plans. Program-related, work-based learning experiences will include the demonstration and application of standards. The 15 CTE Industry Sector Leads will include the revised *CTE Model Curriculum Standards* in their individual curriculum development projects that serve teachers throughout the state. Conferences, workshops, and other meetings for CTE faculty and other stakeholders will include frequent updates on implementation strategies and resources. CTE stakeholders across the state will participate in regularly scheduled video conferences and Webinars to share implementation strategies and challenges faced by LEAs to inform continuous improvement.

California Department of Education Implementation Activities

	Awareness	Transition	Implementation
Define Career and College Readiness	<ul style="list-style-type: none"> ◆ Provide briefings on the CCSS and the SBAC to California’s education segment leaders and senior leaders of institutions of higher education utilizing the California Education Round Table (CERT) Intersegmental Coordinating Committee (ICC) ◆ Consult and collaborate with business and industry stakeholders, such as the California Business Roundtable, to identify the specific 21st century skills related to the CCSS. 	<ul style="list-style-type: none"> ◆ Participate in a multi-state panel including representatives from the business, K–12, and higher education communities to reach common agreement upon the definition of career and college readiness that includes the CCSS (winter 2012) 	<ul style="list-style-type: none"> ◆ Revise programs and materials to reflect agreed upon definition of career and college readiness that includes the CCSS (2012) ◆ Produce and disseminate Web-based information for and directly relevant to the business community
Integrate CCSS and CTE	<ul style="list-style-type: none"> ◆ Share information regarding the <i>CTE Model Curriculum Standards</i> revision that includes the CCSS with the advisory committees (comprised of business and industry representatives, postsecondary and secondary faculty) for each of the 15 industry sectors (2011–12) 	<ul style="list-style-type: none"> ◆ Revise the <i>CTE Model Curriculum Standards</i> to include CCSS alignment identification, reinforcement, and enhancement (2012) ◆ Add application and demonstration to the CTE TEACH program to ensure that CTE teacher candidates and teaching staff across the state have information and strategies necessary to include the CCSS in their programs of study ◆ Develop the programs, notifications, and dissemination methods to unveil the <i>CTE Model Curriculum Standards</i> 	<ul style="list-style-type: none"> ◆ Introduce the revised <i>CTE Model Curriculum Standards</i> at regional professional development events (2012–13) ◆ Train individual leads from each region to assist the industry sector leads with sustained professional learning opportunities, answer questions and assist with new program startups utilizing the documents

6. Seek, create, and disseminate resources to support stakeholders as CCSS systems implementation moves forward.

California must foster a well-educated population in order to compete in the global economy. Proper and appropriate funding for education is an investment where the returns are exponential. Students and educators must have access to the tools and resources necessary for students to achieve the CCSS.

The CDE will be responsible for working with the United States Department of Education, California State Legislature, and Governor to align state and federal fiscal resources to support implementation activities. These efforts will focus on the fact that these resources must be both adequate and sustained in order to realize State and LEA CCSS systems implementation efforts. Additionally, the CDE will promote both state and federal legislative support to provide LEAs with the flexibility they need to engineer successful local educational programs.

The CDE will secure and disseminate local assistance and state operational resources and leverage partnerships with California-based and multi-state organizations to develop new tools and resources to support stakeholders in the implementation of the CCSS. The CDE will seek out and coordinate technology support and partnerships that will assist LEAs as they implement new technologies into instruction. While providing leadership and coordinating efforts, the CDE will encourage and actively pursue regular participation and contribution by stakeholders at statewide, regional, and local levels.

The CDE will offer extensive resources to train LEAs in understanding federal and state legal requirements, use of data, implementation of aligned instructional programs for all students,

and application of these resources in Web-enabled environments. Examples include: maintenance of the Compensatory Education instrument used in Federal Program Monitoring; technical assistance to LEAs in the design, implementation, and evaluation of Title I services; use of the Consolidated Application; and preparation, revision, and implementation of the LEA Plan and corollary activities for the Single Plan for Student Achievement (SPSA).

Indicators of Transformation

Proper and adequate funding will support implementation activities. Technology will be readily available for LEAs to employ at any level as a resource for instruction and assessment. Updated monitoring tools and associated resources will be available. State and federal legislation will anticipate LEA and student needs and provide all necessary guidance and support but with a focus on local flexibility.

California Department of Education Implementation Activities

		Awareness	Transition	Implementation
Tools	<ul style="list-style-type: none"> ◆ Review and revise existing CDE policies, documents, and Web pages to align to the CCSS ◆ Review and revise documents/policies related to access of the core curriculum ◆ Initiate review and revision of all tools for compliance monitoring 	<ul style="list-style-type: none"> ◆ Promote external reviews of existing policies, documents, and Web pages to align to the CCSS ◆ Develop and revise online LEA plan and SPSA templates, Academic Program Surveys, District Assistance Surveys, Compensatory education instruments, English Learner Subgroup Self Assessment, Inventory of Services and Support, and K–12 Improvement Web-portals to support implementation of CCSS and any new ESEA legislated priorities ◆ Collaborate with stakeholders to research and develop resources to support educational staff, teachers, and administrators on how to provide educational settings to promote CCSS, including resources relating to professional learning, LEA Plan development, SPSA development, and other similar activities related to Title I schools and districts 	<ul style="list-style-type: none"> ◆ Ensure that all contractors have updated Web sites to reflect CCSS systems implementation ◆ Communicate development and implementation of intervention for the Early Warning and Intervention System ◆ Ensure that all monitoring tools have been revised to fully integrate CCSS systems ◆ Ensure that appropriate resources have been disseminated to educational services contractors 	

7. Design and establish systems of effective communication among stakeholders to continuously identify areas of need and disseminate information.

California’s public schools serve more than 6.2 million ethnically, culturally, and linguistically diverse students along with their families and communities. Fortunately, there are a number of well-established alliances and infrastructures that allow effective communication and collaboration with our various education stakeholders. The CDE will utilize these structures to facilitate communication, collaboration, and feedback during the implementation of the CCSS system.

California constructed its CCSS Systems Implementation Plan using information collected from internal and external stakeholders during CCSS-related meetings, conferences, and webinars. The CDE will continue to collect feedback to inform the ongoing expansion of the plan using these venues but is also committed to improving current methods of reciprocal communication through the development of a comprehensive communications outreach plan. The plan will incorporate a variety of strategies to identify and meet the information needs of all stakeholders and will include various forums and technologies for ongoing needs identification and open dialogue.

In the meantime, the CDE will continue to collaborate with stakeholders to collect and disseminate information about the CCSS and aligned assessments. The CDE will continually update the CCSS Resources Web page and provide current information about the CCSS and related high quality resources. Similarly, the CDE has established an SBAC Web page to provide current information about the development of SBAC assessments. A listserv is available for each of these pages. The Professional Development Opportunities Web page will provide information regarding CCSS-

related professional learning activities. The CDE will also utilize Taking Center Stage and other additional web-based venues for information dissemination and public participation. The CDE will update the pages regularly as new information and resources emerge. As implementation activities progress, the CDE will utilize State Superintendent of Public Instruction news releases, media advisories, speeches, and events to apprise stakeholders of California’s CCSS implementation activities.

Indicators of Transformation

Stakeholders may access CCSS systems implementation information and resources via a variety of communication venues and provide feedback and participate at every stage of the implementation process. The CDE Web pages regarding CCSS systems activities will include expanding collections of resources. The CCSS Systems Implementation Plan will serve as a guide for implementation activities and as the guiding document for LEAs in the development of their own local plans. Comprehensive, user-friendly systems will be in place to continuously elicit feedback and identify needs and ensure the delivery of timely and useful information to the field.

CDE Web Pages	<ul style="list-style-type: none"> ◆ Collaborate with stakeholders to develop CCSS Resources Web page to provide the latest information and high-quality resources (summer 2010) ◆ Plan and develop SBAC Web page to provide detailed and comprehensive information about the SBAC (summer 2011) ◆ Repurpose the Professional Development Opportunities Web page to support CCSS systems implementation (winter 2012) ◆ Identify additional existing pages that may be utilized to disseminate information ◆ Establish listservs to disseminate timely information regarding CCSS implementation activities 	<ul style="list-style-type: none"> ◆ Review and update identified Web pages as implementation activities progress ◆ Expand internal and external collaborations through the development and sharing of effective resources and tools ◆ Add stakeholders to listservs as needed 	<ul style="list-style-type: none"> ◆ Disseminate resources for stakeholders on a regular basis to communicate the newest information on expanding professional learning support, aligning curriculum and instruction, and developing assessments ◆ Maintain Web pages and promote and expand listservs ◆ Consider additional web-based venues for information dissemination and public participation

Suggestions and Opportunities for LEAs

Guiding Strategy One: Facilitate high quality professional learning opportunities for educators to ensure that every student has access to teachers who are prepared to teach to the levels of rigor and depth required by the CCSS.

2011–12	2012–13	2013–14	2014–15
<ul style="list-style-type: none"> ◆ Support professional learning to promote awareness of and familiarity with the CCSS ◆ <i>Area of focus:</i> Compare and contrast the CCSS with the 1997 content standards ◆ Conduct local needs assessment to identify needs and set priorities for professional learning and develop local professional learning plan based on identified needs and full implementation in 2014-15 	<ul style="list-style-type: none"> ◆ Support ongoing professional learning to promote transition to the CCSS based upon priorities established in local plan ◆ <i>Areas of focus</i> may include: <ul style="list-style-type: none"> ◆ Mathematics: the standards for mathematical practice, modeling, and content shifts in mathematics for grades K-8 ◆ English language arts: text complexity, text-based questions and tasks, developing literacy across the content areas, writing informational text collaborative conversations, the new English Language Development (ELD) standards ◆ New Challenges: transitioning to the SBAC assessment system, effective utilization of technology and media, 21st century skills, career and college readiness 		<ul style="list-style-type: none"> ◆ Provide professional learning to support full implementation of the CCSS ◆ <i>Areas of focus:</i> content shifts in mathematics, transition to SBAC assessments
<ul style="list-style-type: none"> ◆ Utilize new resource from the CDE: <i>A Look at Kindergarten Through Grade Six in California Public Schools</i> and companion Webinars 	<ul style="list-style-type: none"> ◆ Utilize new resources from the CDE: New professional learning modules (available summer 2012) 	<ul style="list-style-type: none"> ◆ Utilize new resources from the CDE: New professional learning modules (summer 2013) and curriculum frameworks (math available fall 2013, ELA available spring 2014) 	
<ul style="list-style-type: none"> ◆ Subscribe to the CDE’s CCSS Resources and SBAC Web pages listservs to remain apprised of the latest developments and resources related to CCSS systems implementation and utilize resources as appropriate ◆ Regularly review the CDE’s Professional Development Opportunities Web page and utilize resources as appropriate ◆ Review and utilize professional learning resources available on CDE-hosted or sponsored web portals including archived webinars and presentations on CDE on iTunes U ◆ Utilize CCSS professional learning resources offered by professional organizations and your county office of education ◆ Participate in California Subject Matter Projects offerings for research-based instructional strategies and assessment tools 			

Guiding Strategy Two: Provide CCSS-aligned instructional resources designed to meet the diverse needs of all students.

2011–12	2012–13	2013–14	2014–15
<ul style="list-style-type: none"> ◆ Review current instructional materials and identify material which aligns to CCSS ◆ Identify CCSS that current materials do not support (use supplemental instructional materials review evaluation criteria for grades K-8) and develop lessons using resources from the library, internet, and primary source documents 	<ul style="list-style-type: none"> ◆ Continue to assess existing instructional materials and supplement them with resources from the library, internet, primary source documents, and materials on the CDE’s supplemental instructional materials list (available fall 2012) to develop CCSS-aligned lessons 		
<ul style="list-style-type: none"> ◆ Subscribe to the CDE’s Common Core State Standards Resources Web page listserv to remain apprised of the latest developments in CCSS systems implementation, curriculum frameworks development, and the supplemental instructional materials review process. Apply to serve as a member of the Instructional Quality Commission, participate in regional focus groups, or serve as a reviewer of supplemental materials. 	<ul style="list-style-type: none"> ◆ Participate in public comment meetings for supplemental instructional materials (fall 2012) ◆ Submit public comment on the curriculum frameworks (math: 2012, ELA: 2013) 	<ul style="list-style-type: none"> ◆ Review curriculum frameworks (math: fall 2013, ELA: spring 2014) 	
<ul style="list-style-type: none"> ◆ Participate in public hearings for the revised ELD standards (spring 2012) 	<ul style="list-style-type: none"> ◆ Review SBE-adopted new ELD standards 		

Guiding Strategy Three: Develop and transition to the CCSS-aligned assessment systems to inform instruction, establish priorities for professional learning, and provide tools for accountability.

2011–12	2012–13	2013–14	2014–15
<ul style="list-style-type: none"> ◆ Subscribe to CDE’s SBAC Web page listserv to remain apprised of the latest developments and resources for professional learning regarding the new assessment system. 	<ul style="list-style-type: none"> ◆ Monitor CDE’s SBAC Web page for opportunities to participate in pilot testing 	<ul style="list-style-type: none"> ◆ Monitor CDE’s SBAC Web page for opportunities to participate in field testing 	<ul style="list-style-type: none"> ◆ Administer operational summative assessment
<ul style="list-style-type: none"> ◆ Compare/contrast CCSS with current content standards and begin to incorporate new skills in the CCSS into instructional planning 	<ul style="list-style-type: none"> ◆ Revise existing quizzes, unit exams, and end-of-course exams to assess higher-level thinking, constructed responses, synthesis, and collaboration as indicated in the CCSS 		
<ul style="list-style-type: none"> ◆ Visit CAHSEE and STAR’s Web sites for released test questions and constructed responses. Mirror the format into quiz/test questions and weekly writing prompts 	<ul style="list-style-type: none"> ◆ Revisit end-of-chapter/unit questions and quizzes in existing materials and elevate them to higher level thinking. For example, a question may ask, “What tone does the author use in the article?” Elevate the question to, “Which words or phrases set the tone of this article?” Or, “Replace words or phrases to change the tone of this article from impersonal to friendly.” For mathematics, utilize word problems to provide students with opportunities to apply mathematical thinking to real-world challenges. 		
<ul style="list-style-type: none"> ◆ Participate in public meetings regarding development of assessment transition plan 	<ul style="list-style-type: none"> ◆ Monitor CDE’s SBAC Web page for information regarding the assessment transition plan 	<ul style="list-style-type: none"> ◆ Promote local awareness of the assessment transition plan, SBAC assessments, and purposes of assessment 	
<ul style="list-style-type: none"> ◆ Utilize online technology readiness tool to evaluate current technology and infrastructure 	<ul style="list-style-type: none"> ◆ Use information from tool to identify technology gaps and develop a plan that identifies strategies to update technology 	<ul style="list-style-type: none"> ◆ Implement technology plan 	<ul style="list-style-type: none"> ◆ SBAC assessments and resources available online
<ul style="list-style-type: none"> ◆ Provide opportunities for professional learning to develop understanding of difference between formative assessments and formative practices 	<ul style="list-style-type: none"> ◆ Generate and implement a “Formative Assessment Plan” which includes Learning Targets, Criteria for Success, Collecting Evidence, and Documenting Evidence 	<ul style="list-style-type: none"> ◆ Visit SBAC Web site for ideas (formatting, scope) on formative assessments and professional development 	<ul style="list-style-type: none"> ◆ SBAC formative resources and tools available online

Guiding Strategy Four: Collaborate with parents, guardians and the early childhood and extended learning communities to integrate the CCSS into programs and activities beyond the K–12 school setting.

2011–12	2012–13	2013–14	2014–15
<ul style="list-style-type: none"> ◆ Utilize parent communication structures to share resources on the CDE’s Web site with parents, families, and the local educational community to promote awareness and understanding of the CCSS and new developments regarding CCSS systems implementation Structures may include: <ul style="list-style-type: none"> ◆ School Site Council meetings ◆ PTA/PTSO meetings ◆ Back to School Nights ◆ Parent newsletters ◆ Local school board meetings ◆ News releases and letters to the editor of the local newspaper 			
<ul style="list-style-type: none"> ◆ Review and utilize the <i>California Infant/Toddler Learning and Development Foundations</i>, the <i>California Preschool Learning Foundations</i> and their accompanying curriculum frameworks to inform development and continuous improvement of curriculum and developmentally appropriate CCSS-aligned practices for ECE programs ◆ Participate in professional learning opportunities related to the <i>California Infant/Toddler Learning and Development Foundations</i>, the <i>California Preschool Learning Foundations</i> and their accompanying curriculum frameworks 			
<ul style="list-style-type: none"> ◆ Review the alignment document that explains how the early learning foundations align with the CCSS and relate to TK (available winter 2012) ◆ Use the alignment document to support development of developmentally appropriate, CCSS-aligned TK curricula ◆ Participate in professional learning opportunities regarding the implementation of the CCSS for TK and meeting the diverse needs of all children 			
<ul style="list-style-type: none"> ◆ Integrate the CCSS into after school programs and extended learning opportunities through alignment with the regular school day to provide academic enrichment and safe constructive alternatives for students ◆ Build partnerships with external stakeholders to provide additional resources to support extended learning opportunities 			

Guiding Strategy Five: Collaborate with the postsecondary and business communities to ensure that all students are prepared for success in career and college.

2011–12	2012–13	2013–14	2014–15
<ul style="list-style-type: none"> ◆ Conduct professional learning activities that promote awareness of the new definition of career and college readiness 	<ul style="list-style-type: none"> ◆ Revise programs and materials to reflect new definition of career and college readiness that includes the CCSS and promote awareness of the new definition 		
<ul style="list-style-type: none"> ◆ Monitor/participate in revision of the <i>CTE Model Curriculum Standards</i> to include CCSS alignment 	<ul style="list-style-type: none"> ◆ Participate in professional learning events introducing the revised <i>CTE Model Curriculum Standards</i> 	<ul style="list-style-type: none"> ◆ Develop new courses, lesson plans, and work-based experiences that include the demonstration and application of the revised <i>CTE Model Curriculum Standards</i> 	
<ul style="list-style-type: none"> ◆ Monitor/participate in California Business Roundtable, to identify the specific 21st century skills related to the CCSS 	<ul style="list-style-type: none"> ◆ Identify, through CDE resources, the availability of business and industry resources for targeted 21st century skills as they relate to the CCSS 		
<ul style="list-style-type: none"> ◆ Participate in professional learning opportunities regarding secondary transition and the CCSS to prepare all students, including students with disabilities, English learners, and underperforming students, for career and college ◆ Seek opportunities for students to engage in events at local community colleges ◆ Provide and promote participation in Advancement Via Individual Determination classes ◆ Encourage students to participate in the Early Assessment Program ◆ Invite business leaders to speak to students in grades 6-12, elaborating on 2-3 specific standards and their role in possible careers ◆ Include counselors in discussions regarding career and college readiness to ensure comprehensive school implementation of the CCSS 			

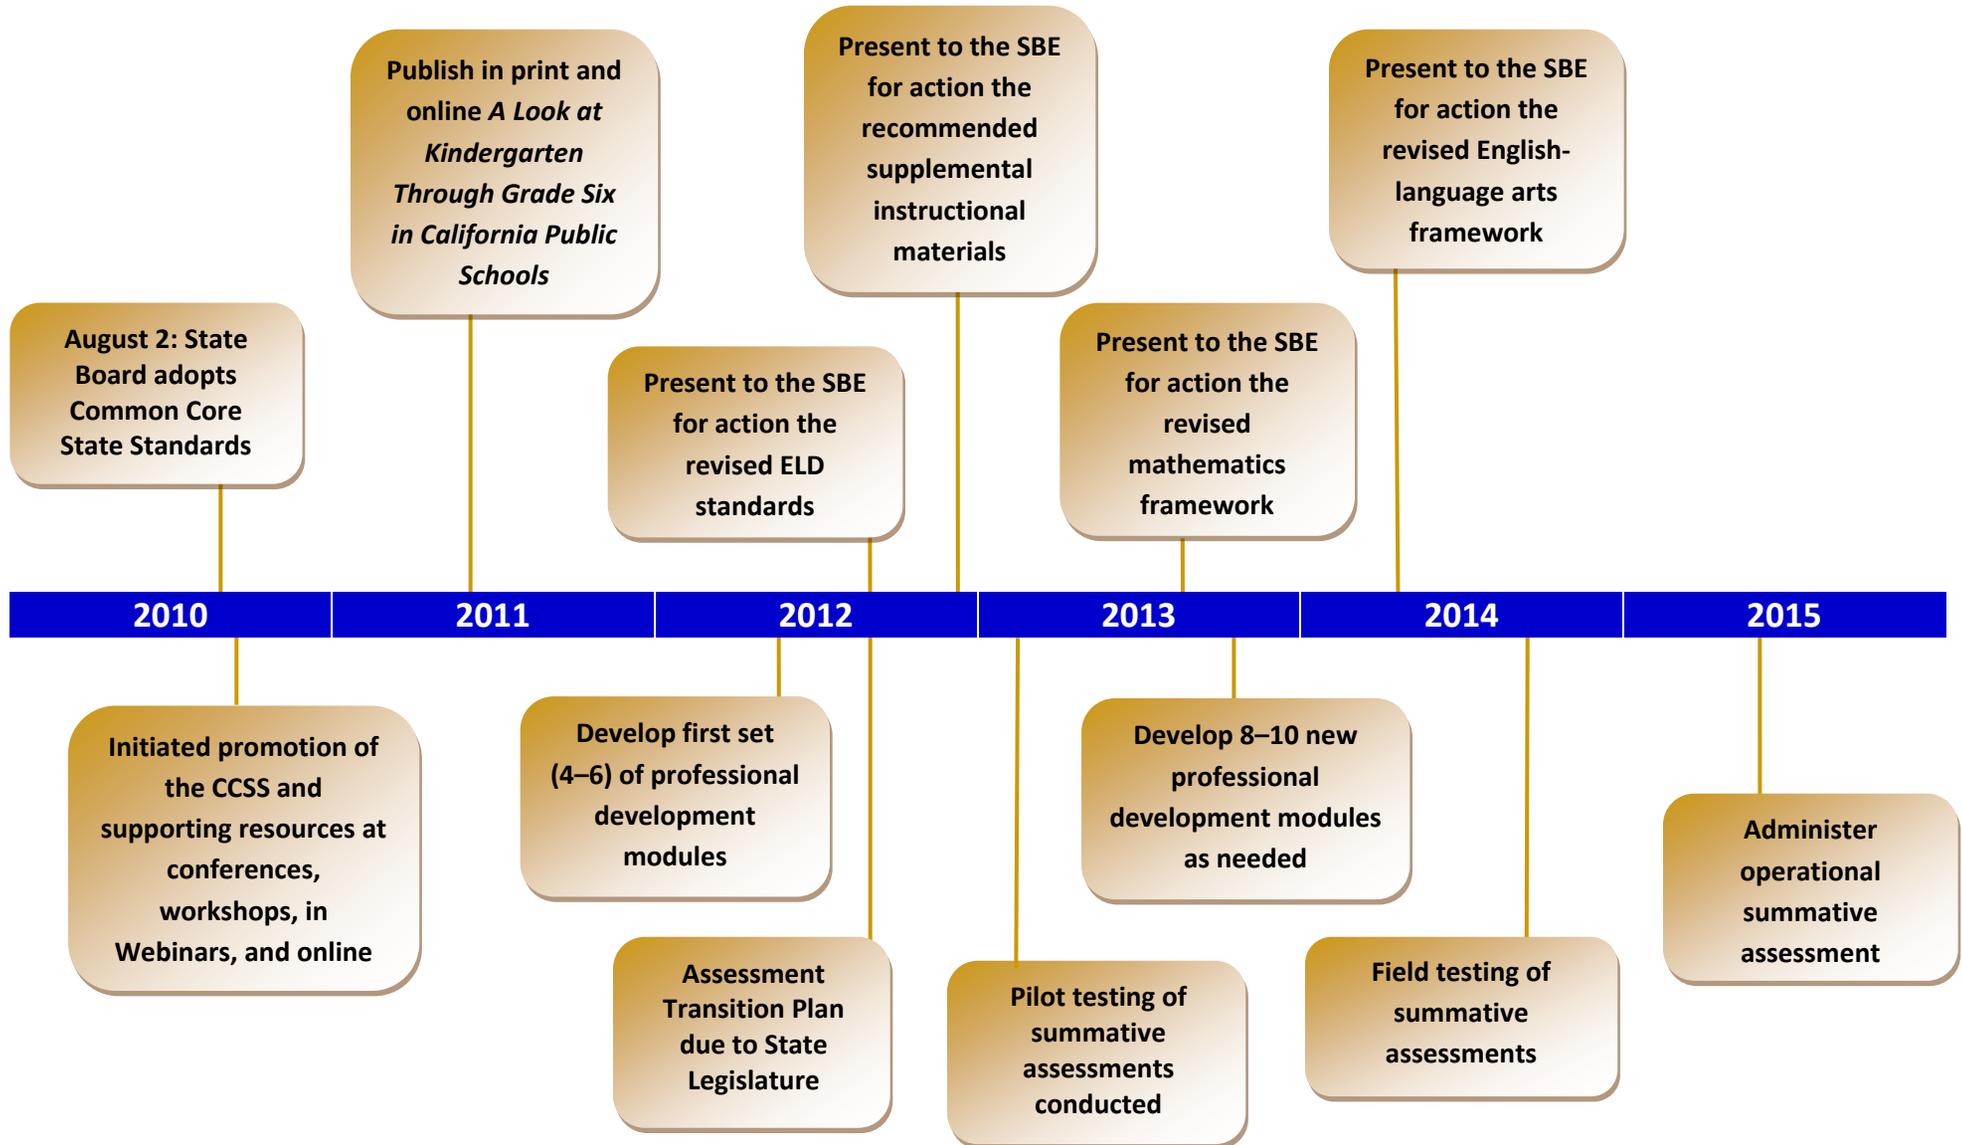

Guiding Strategy Six: Seek, create, and disseminate resources to support stakeholders as CCSS systems implementation moves forward.

2011–12	2012–13	2013–14	2014–15
<ul style="list-style-type: none"> ◆ Identify potential state and federal funds currently available for use in CCSS systems implementation ◆ Monitor/seek funding opportunities from state government to support implementation efforts ◆ Seek funding from private foundations for targeted pilot implementation projects ◆ Establish fiscal boundaries and timelines for the development and/or acquisition of specific programmatic resources ◆ Inform program staff of appropriate use of federal supplemental funds (i.e., Title I, Title III, special education) in purchasing CCSS-aligned supplemental instructional materials and for other implementation activities 			
<ul style="list-style-type: none"> ◆ Review and revise existing LEA policies, documents, and Web pages to align to the CCSS and accessing the core curriculum ◆ Research and develop resources to support educational staff, teachers, and administrators on how to provide educational settings to promote CCSS, including resources relating to: <ul style="list-style-type: none"> ◆ professional learning ◆ LEA Plan development ◆ SPSA development ◆ additional activities related to Title I schools and districts ◆ Participate in state level workshops for the Compensatory Education Instrument requirements for Title I, Part A, and the use of data to prepare for FPM 			

Guiding Strategy Seven: Design and establish systems of effective communication among stakeholders to continuously identify areas of need and disseminate information.

2011–12	2012–13	2013–14	2014–15
<ul style="list-style-type: none"> ◆ Subscribe to the CDE’s CCSS Resources Web page listserv to remain apprised of the latest developments in CCSS systems implementation ◆ Subscribe to the CDE’s SBAC Web page listserv to remain apprised of the latest developments in the SBAC assessment system ◆ Identify existing stakeholder communication structures ◆ Identify local stakeholders who will receive communications regarding implementation of CCSS systems 	<ul style="list-style-type: none"> ◆ Monitor the CDE’s CCSS Resources and SBAC Web pages regularly and share new information with members of the local educational community as appropriate ◆ Utilize existing communication structures to disseminate information regarding CCSS systems implementation activities <ul style="list-style-type: none"> ◆ Meetings ◆ Newsletters ◆ Webinars ◆ Local school board meetings ◆ Letters to the editor ◆ News releases ◆ Support intradepartmental communication during implementation activities 		
<ul style="list-style-type: none"> ◆ Use input from local stakeholders and the CCSS Systems Implementation Plan for California to create a comprehensive LEA-wide plan for CCSS systems implementation 	<ul style="list-style-type: none"> ◆ Post local implementation plan on the LEA Web site ◆ Link to the statewide implementation plan ◆ Design and establish communications systems to identify emerging needs and opportunities and support effective implementation of the local CCSS implementation plan 	<ul style="list-style-type: none"> ◆ Continuously collaborate with and elicit feedback from stakeholders ◆ Refine local implementation strategies

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 10

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Supplemental Instructional Materials Review Aligned to the Common Core State Standards: Evaluation Criteria.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

Education Code Section 60605.86, created by Senate Bill 140 (Chapter 623 of the Statutes of 2011), requires the California Department of Education (CDE) to develop, and the State Board of Education (SBE) to approve, a list of supplemental instructional materials that are aligned with California's common core academic content standards in mathematics and English-language arts. This new law requires that the SBE approve the evaluation criteria that will be used for the review of those supplemental materials.

RECOMMENDATION

The CDE recommends that the SBE approve the criteria for the evaluation of supplemental instructional materials.

BRIEF HISTORY OF KEY ISSUES

In 2010, the Council of Chief State School Officers and the National Governors Association Center for Best Practices released Common Core State Standards (CCSS) in mathematics and English-language arts. The SBE adopted the CCSS with California additions on August 2, 2010. California has committed to implementing the CCSS and is currently part of a multistate assessment consortium that plans on having CCSS-based assessments in place by the 2014–15 school year.

It will take a number of years to develop new curriculum frameworks and instructional materials aligned to the CCSS. Earlier this year, the State Superintendent of Public Instruction (SSPI) initiated a process for the review of supplemental materials aligned to the CCSS. SB 140, signed by the Governor on October 8, 2011, calls for the expansion of that process. Pursuant to that law, the SSPI is inviting publishers and producers of instructional materials in mathematics and language arts to submit supplemental instructional materials that bridge the gap between programs currently being used by local educational agencies (LEAs) and the CCSS.

BRIEF HISTORY OF KEY ISSUES (Cont.)

The law requires that the SBE approve the evaluation criteria that will be used for the review. The review will be conducted by CDE staff and selected instructional material reviewers and content experts approved by the SBE. The review is not a state adoption, and recommended supplemental instructional materials will not be added to any existing state adoption lists.

This review is entirely optional for publishers and producers, and the results will be strictly advisory for LEAs. LEAs will not be compelled in any way to purchase the supplemental materials that are recommended as a result of this review. LEAs may use unrestricted general funds, federal funds, Proposition 20 lottery funds for instructional materials, or other funds to purchase them.

The review process is being conducted by the CDE with the help of San Joaquin County Office of Education (SJCOE) for language arts and the Orange County Department of Education (OCDE) for mathematics. The CDE is currently recruiting reviewers, primarily teachers and educators, throughout the state and the SBE will act on the nominees in March 2012. Publishers and producers of instructional materials will have to submit their materials in May 2012 and distribute them to the reviewers later in the year. The reviewers will be trained in the use of the evaluation criteria in June and each reviewer will independently examine the materials. In September, the reviewers will be convened to discuss the results of their review and come to a consensus about whether the materials meet the criteria. In cases of where a program is not recommended, an appeal panel will be created and its findings will be included with the original recommendation. The SBE will act on the recommendations in either November 2012 or January 2013.

The draft evaluation criteria are included as Attachment 1 to this item. A schedule of significant events in the review process is included as Attachment 2.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

November 2011: The CDE presented to the SBE the third in a series of updates on the implementation of the CCSS.

September 2011: The CDE presented to the SBE the second in a series of updates on the implementation of the CCSS.

July 2011: The CDE presented to the SBE the first in a series of updates on the implementation of the CCSS.

June 2011: Governor Edmund G. Brown, Jr., SSPI Tom Torlakson, and SBE President Michael Kirst signed the memorandum of understanding for California's participation as a governing state in the SMARTER Balanced Assessment Consortium (SBAC). California was previously a participating state in the Partnership for the Assessment of Readiness for College and Careers (PARCC).

SUMMARY OF PREVIOUS (Cont.)

November 2010: The CDE presented to the SBE an update on the implementation of the CCSS. This update was provided at the joint meeting between the SBE and the Commission on Teacher Credentialing (See agenda at <http://www.cde.ca.gov/be/pn/pn/ctcsbeagenda08nov2010.asp>).

August 2010: Pursuant to SB X5 1, the SBE adopted the academic content standards in English-language arts and mathematics as proposed by the California Academic Content Standards Commission (ACSC); the standards include the CCSS and specific additional standards that the ACSC had deemed necessary to maintain the integrity and rigor of California's already high standards.

May 2009: The SSPI, the Governor of California, and the SBE President agreed to participate in the Council of Chief State School Officers and the National Governors Association Center for Best Practices initiative to develop the CCSS as part of California's application to the federal Race to the Top grant.

FISCAL ANALYSIS (AS APPROPRIATE)

SB 140 directs the CDE to "use federal carryover funds received pursuant to Title I of the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.)" to carry out the supplemental instructional materials review. The CDE has budgeted \$250,000 from those funds to complete the project. The CDE has contracted with the SJCOE and the OCDE to host the training of reviewers and their subsequent deliberations.

ATTACHMENT(S)

Attachment 1: Criteria for the Evaluation of Supplemental Instructional Materials
(3 Pages)

Attachment 2: Schedule of Significant Events (1 Page)

Criteria for the Evaluation of Supplemental Instructional Materials

In 2010, the Council of Chief State School Officers and the National Governors Association Center for Best Practices released Common Core State Standards (CCSS) in mathematics and language arts. The California State Board of Education (SBE) adopted the CCSS on August 2, 2010. California has committed to implementing the CCSS, and is currently part of a multistate assessment consortium that plans on having CCSS-based assessments in place by the 2014–15 school year.

It will take a number of years to develop new curriculum frameworks and instructional materials aligned to the CCSS. In the interim, the State Superintendent of Public Instruction (SSPI) has invited publishers and producers of mathematics and English-language arts materials to submit supplemental instructional materials that bridge the gap between existing programs currently being used by districts and the CCSS. These evaluation criteria outline the requirements for such materials. Supplemental materials will be reviewed according to the criteria by teachers and content experts recruited by the SSPI and SBE. The results of the review will be listed on the California Department of Education Web site to help districts in their transition to the CCSS. The SSPI recommendation as approved by the SBE will be advisory only. The review is in no way mandatory for publishers and school districts will not be required to purchase these materials.

The intention of this process is that supplemental materials include the minimum amount of content needed to fully address the CCSS and that costs for districts to purchase and implement the supplements be kept low. Publishers are encouraged to submit their instructional materials in digital format.

This review is open to all publishers and producers of supplemental instructional materials who wish to participate. There will be two types of supplemental materials programs that may be submitted. To be eligible for recommendation by the SSPI for approval by the SBE, submitted materials must meet all of the criteria listed by category type outlined below.

Category 1: Supplements to Specific State-Adopted Programs

Supplemental materials may be submitted for specific kindergarten through grade seven mathematics programs that were adopted by the SBE on November 8, 2007, or for kindergarten through grade eight Reading/Language Arts/English Language Development programs that were adopted by the State Board on November 5, 2008. Because the 1997 California standards and the CCSS for mathematics do not match at grade eight, supplements for grade eight adopted mathematics programs will not be a part of this review. These submissions, in conjunction with the adopted program they are designed to supplement, will be evaluated according to whether they address all of the CCSS for a given grade level.

1. The materials must align to the California CCSS, as adopted by the SBE on August 2, 2010. The California CCSS are available at

<http://www.scoe.net/castandards/>. The supplemental materials submitted, in conjunction with the existing adopted grade-level materials, must cover all of the California CCSS for a given grade level. In mathematics, “all of the California CCSS” includes the Mathematical Practices standards. The Mathematical Practices standards must be taught in the context of the other content standards at each grade level. In English-language arts, the standards for Literacy in History–Social Studies, Science, and Technical Subjects will **not** be part of the review in grades six through eight.

Publishers can only cite content from the same grade level as evidence that a certain grade-level Common Core standard is covered in their program. For example, if a publisher has a kindergarten through grade six program, it could not cite its grade six textbook as evidence that a grade five Common Core standard was covered. The reason for this is that not every district may have purchased all grade levels of a particular program; a district may have only purchased kindergarten through grade five of that program, and may not have access to the grade six materials. Even if they did have the grade six materials, it would be unreasonable to expect districts to provide students with copies of multiple grade level textbooks to ensure full coverage of the CCSS. However, the publisher could include that grade six content in their grade five supplement.

Category 2: General Supplements to Any Program

In addition to specific state-adopted programs, any publisher or producer may submit a general supplement that can be used with any existing instructional materials program. These materials will be evaluated for alignment to a specific subset of the CCSS.

2. The general supplemental materials are intended to align instructional materials currently being used in school to the California CCSS, as adopted by the SBE on August 2, 2010. The California CCSS are available at <http://www.scoe.net/castandards/>. The general supplements submitted must cover the subset of the California CCSS for a given subject area and grade level as detailed at <http://www.cde.ca.gov/ci/cr/cf/suptsupmatreview.asp>. Supplemental materials for mathematics include both a subset of California CCSS for the grade level and all of the Mathematical Practices standards. The Mathematical Practices standards must be taught in the context of instruction in the other content standards at each grade level. General supplements may be submitted for any grade levels from kindergarten through grade seven for mathematics, and kindergarten through grade eight for English language arts.

General Criteria for All Programs

3. The materials must conform to the *Standards for Evaluating Instructional Materials for Social Content, 2000 Edition*, as adopted by the SBE.
4. The materials must be accurate, use proper grammar and spelling, and be free of all errors before they are sold to school districts.

5. Where assessments are present in the supplemental materials, they must provide sufficient evidence for teachers to evaluate student progress toward proficiency in the content outlined in the CCSS.
6. Where appropriate, the supplemental instructional materials must present comprehensive guidance for teachers in providing effective, efficient instruction for all students. Instructional materials should provide access to the standards-based curriculum for all students, including English-learners, advanced-learners, students below grade level in reading and writing skills, and students with disabilities.
7. Clear instructions must be provided for teachers on how to use and integrate the supplemental instructional materials.

Schedule of Significant Events

Supplemental Instructional Materials Review

Event	Date(s)
State Superintendent of Public Instruction (SSPI) invites publishers to participate in the supplemental curriculum review	June 2011
CDE Internal Review of Publisher Standards Maps	October – November 2011
SSPI and State Board of Education (SBE) Recruit Reviewers	November 2011 – January 2012
SBE Approves Reviewers	March 2012
Supplemental Instructional Materials Due from Participating Publishers	May 2012
Training of Reviewers Language Arts: San Joaquin Office of Education Mathematics: Orange County Department of Education	June 21–22, 2012 June 28–29, 2012
Independent Review of Submitted Materials	June – September 2012

ITEM 11

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
<p><i>Mathematics Framework for California Public Schools: Kindergarten Through Grade Twelve, 2013 Revision: Approval of the Timeline and Curriculum Framework and Evaluation Criteria Committee Application Form. The future activities of Instructional Quality Commission will also be discussed.</i></p>	<p><input checked="" type="checkbox"/> Action</p> <p><input checked="" type="checkbox"/> Information</p> <p><input type="checkbox"/> Public Hearing</p>

SUMMARY OF THE ISSUE(S)

California *Education Code (EC)* Section 60207 requires the State Board of Education (SBE) to adopt a revised mathematics curriculum framework and evaluation criteria for the adoption of mathematics instructional materials aligned to the Common Core State Standards (CCSS). *California Code of Regulations, Title 5 (5 CCR)*, Section 9511, allows the SBE to establish a Curriculum Framework and Evaluation Criteria Committee (CFCC) to assist in the development of curriculum frameworks and evaluation criteria and lists the requirements regarding the recruitment process and qualifications for members of the CFCC. This item is the first in what will be a series of items regarding the 2013 revision of the *Mathematics Framework for California Public Schools: Kindergarten Through Grade Twelve (Mathematics Framework)*.

At the upcoming March meeting, the SBE will appoint 12 members to the Instructional Quality Commission (IQC), formerly known as the Curriculum Development and Supplemental Materials Commission or "Curriculum Commission." This 18 member commission advises the SBE on curriculum frameworks and instructional materials. In addition, recent legislation, Assembly Bill 250, expanded the Commission's duties to recommend policies and activities that "are needed to implement the state's academic content standards, and bring the state's curriculum frameworks, instructional materials, professional development programs, pupil assessments, and academic accountability systems into alignment with those standards." The SBE's application for the Commission is available at <http://www.cde.ca.gov/be/cc/ab/>.

RECOMMENDATION

The California Department of Education (CDE) recommends that the SBE approve the timeline and CFCC application form for the 2013 revision of the *Mathematics Framework*.

BRIEF HISTORY OF KEY ISSUES

When the SBE adopted the CCSS with California additions in August 2010, these standards became the current subject-matter standards in mathematics. The full implementation of these standards will occur over several years as new CCSS-aligned curriculum frameworks and instructional materials are adopted. Revising the *Mathematics Framework* to align with the CCSS with California additions is an important component in the implementation of the standards.

The revision of the *Mathematics Framework* is a multi-step process. It involves educators, content experts, and other stakeholders who serve as members of the four focus groups, which are convened by the CDE, IQC, and the CFCC, appointed by the SBE. Throughout the revision process, there are opportunities for public input at focus group, CFCC, IQC, and SBE meetings and during two 60-day public review periods. Attachment 1 outlines the major steps in the framework revision process. The IQC's role is to make recommendations to the SBE on CFCC appointments, approve a draft document for field review, revise the document based upon field review comments, and recommend the draft framework to the SBE. Attachment 2 provides additional details on the framework revision process.

The framework revision process requires action by the SBE at key points, including the approval of a timeline (Attachment 3) and CFCC application form (Attachment 4) as first steps in the process. The timeline assumes the IQC is fully appointed in March 2012, and has its first working meeting in May 2012. Additional SBE actions in 2012 include the appointment of CFCC members and approval of guidance to direct the CFCC's work. In 2013, the SBE will take action on the IQC's recommendation regarding adoption of the revised framework for mathematics.

In addition to making recommendations on the appointment of CFCC members and the adoption of the revised framework, the IQC and its Mathematics Subject Matter Committee (MSMC) assist the SBE by ensuring that the CFCC follows the guidance approved by the SBE.

The Curriculum Frameworks and Instructional Resources Division, the California Comprehensive Center at WestEd, and Christopher Yakes, Mathematics Professor at California State University, Chico, will be supporting the framework revision.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

August 2010: Pursuant to Senate Bill X5 1, the SBE adopted the academic content standards in mathematics as proposed by the California Academic Content Standards Commission (ACSC); the standards include the CCSS and specific additional standards that the ACSC had deemed necessary to maintain the integrity and rigor of California's already high standards.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION (Cont.)

January 2008: The SBE adopted new *California Code of Regulations*, Title 5 (5 CCR), governing the curriculum framework and instructional materials adoption process.

November 2007: The SBE adopted instructional materials in mathematics for kindergarten through grade eight.

March 2005: The SBE adopted the *Mathematics Framework* that includes the *Mathematics Content Standards for California Public Schools: Kindergarten Through Grade Twelve (Mathematics Content Standards)* and the criteria for evaluating instructional materials submitted for the 2007 Mathematics Primary Adoption.

FISCAL ANALYSIS

The cost to revise the *Mathematics Framework* is anticipated to be a total of \$135,000 over three budget years, 2011–2012, 2012–2013, and 2013–2014. This cost includes the expenses of the focus groups the CFCC, and the meetings of the IQC and MSMC.

The expenses are also comprised of the costs of a contracted mathematics writer and other costs associated with the procedures mandated in 5 CCR regulations for the adoption of curriculum frameworks. In addition, the CDE budget will cover the anticipated \$1.54 million in CDE staff costs. Costs to revise the *Mathematics Framework* will be paid by State General Fund dollars.

CALIFORNIA DEPARTMENT OF EDUCATION

Mathematics Curriculum Framework Development Process

This chart shows the major steps of the curriculum framework development process.

All meetings are open to the public.

Plan for the 2013 Revision of the *Mathematics Framework for California Public Schools* *Kindergarten Through Grade Twelve*

The 2013 revision of the *Mathematics Framework for California Public Schools: Kindergarten Through Grade Twelve (Mathematics Framework)* will involve the following major components:

1. Focus Groups

The *California Code of Regulations*, Title 5, Education, (5 CCR), Section 9511(c) states that the California Department of Education (CDE) shall convene four public focus groups of educators to provide comment to the Instructional Quality Commission (IQC)¹, the Curriculum Framework and Evaluation Criteria Committee (CFCC), and the State Board of Education (SBE).

These meetings will be held in February and March 2012 in four different regions of California. The focus groups will allow educators, including current classroom teachers, and members of the public to submit comments before the actual work of the CFCC begins. Input from the focus group meetings will be considered by the IQC and SBE as they develop guidelines for the CFCC's work. A report on the focus groups' discussions will be provided at the May 2012 meeting of the IQC.

2. Guidance for Alignment to the Common Core State Standards for Mathematics

The primary focus of the 2013 revision of the *Mathematics Framework* will be to incorporate the Common Core State Standards (CCSS) for Mathematics adopted by the SBE in August 2010 and to provide support for standards-based mathematics instruction aligned with the CCSS. Also, discussion at focus groups and IQC meetings will help identify specific content to include in each of the chapters of the current framework and how to organize the revised framework to support effective instruction.

Issues that the focus groups will be asked to address include:

- The Common Core State Standards for Mathematics
- Instructional Strategies, including strategies that promote critical thinking, collaboration, communication, and exploration
- Assessment that provides pupils with multiple modes for demonstrating learning
- Universal Access, including strategies to address the needs of English learners and students with disabilities

¹ This commission was formerly the Curriculum Development and Supplemental Materials Commission.

- Responsibilities of Teachers, Students, Parents, and Administrators, including creating and supporting high quality instruction and learning
- Professional Development, including strategies for integration of content from one subject to another and fostering students' problem solving skills
- Technology, with a focus on the use of technology to support 21st century skills and prepare students for college and careers
- Criteria for Evaluating Mathematics Instructional Materials: Kindergarten through Grade Eight
- Appendices

In addition, sections of the current framework may be expanded, eliminated, or revised based on input from the focus groups, the CFCC, the IQC, public comments, and the SBE. The SBE will be acting on guidance for the CFCC in July 2012.

3. Statutory Requirements

The framework revision must also reflect changes in statute affecting mathematics curriculum that have been enacted since the last update of the *Mathematics Framework*. Of particular significance will be the statutory requirements set forth in Assembly Bill 250, including specific requirements for the criteria for evaluating instructional materials.

4. Curriculum Framework and Evaluation Criteria Committee

The CFCC application and timeline will be brought to the SBE at its January 2012 meeting. Recruitment for members of the CFCC will take place over several months, January through April 2012. Per 5 CCR, Section 9513(a), the CFCC application must be distributed at least 90 days before the date the SBE appoints the CFCC members. The CFCC applications will be brought to the IQC in May 2012 for action on appointment recommendations. The SBE will appoint the CFCC members at its July 2012 meeting.

Pursuant to the 5 CCR, Section 9511, a majority of CFCC members must be kindergarten through grade twelve teachers at the time of appointment. At least one teacher shall have experience in providing instruction to English learners, and at least one teacher shall have experience in providing instruction to students with disabilities. Also under 5 CCR Section 9511(f), teachers must meet the definition of "highly qualified" as defined by federal law (20 *United States Code* 7801[23]). The SBE will provide direction to the CFCC on the scope of the framework revision and may also provide instructions on topics to be included. Members of the IQC, in particular the Mathematics Subject Matter Committee, will attend some or all of the CFCC's meetings.

It is anticipated that the CFCC will meet for five or six two-day meetings from September 2012 through February 2013. The CDE-contracted mathematical expert and Curriculum Frameworks Unit staff will ensure that the CFCC's comments and suggestions are integrated into the draft document that is submitted to the IQC.

5. Field Review, IQC Action, 60-day Public Review, and State Board Approval

Following receipt of the CFCC's initial draft framework (March 2013), the IQC will review the document and approve it for a 60-day field review. The field review, including an online survey, will take place during April and May 2013. In June 2013, the IQC will take action on an updated draft framework that incorporates comments submitted during the field review. The version of the draft framework approved by the IQC at the June 2013 meeting must be posted for at least 60 days before action by the SBE, pursuant to 5 *CCR* Section 9515(c). The SBE is scheduled to adopt the new framework and the criteria for evaluating instructional materials in November 2013. Finally, the adoption for new mathematics instructional materials, aligned to the revised framework and the CCSS, will have to be determined.

DRAFT
Timeline for the 2013 Revision of the
Mathematics Framework for California Public Schools:
Kindergarten Through Grade Twelve

Event	Schedule
Focus Group recruitment letter and application distributed to LEAs, mathematics and stakeholder organizations, and institutes of higher education	Mid November 2011
Recruitment of Focus Group members , pursuant 5 CCR, §9511(c) and <i>Ed Code</i> Section 44013(a)	Mid November 2011 to Early January 2012
State Board of Education (SBE) action on a timeline and Curriculum Framework and Criteria Committee (CFCC) application form	January 11-12, 2012
Superintendent appoints Focus Group members	Mid January 2012
CFCC recruitment letter and application distributed to LEAs, mathematics and stakeholder organizations, and institutes of higher education	Mid January 2012
Recruitment of CFCC members (at least 90 days pursuant to 5 CCR, §9513).	January to April 2012
Focus Group meetings in four locations, pursuant to 5 CCR, §9511(c), <ul style="list-style-type: none"> • San Bernardino County Office of Education, February 23 • California Department of Education, Sacramento, February 28 • San Diego County Office of Education, March 1 • San Mateo County Office of Education, March 6 	Late February and early March 2012
Instructional Quality Commission² (IQC) meets , establishes Mathematics Subject Matter Committee (Math SMC), reviews Focus Group Report, and recommends CFCC members and guidance for revision of the framework to the SBE	May 2012
SBE appoints CFCC members, receives Focus Group Report, and approves guidance for revision of the framework	July 18-19, 2012
CFCC meets , five or six 2-day meetings in Sacramento, to develop draft <i>Mathematics Framework</i> The CFCC meetings are tentatively scheduled for the following dates: September 6–7, 2012 October 4–5, 2012 November 1–2, 2012 December 6–7, 2012 January 16–17, 2013 February 13–14, 2013	September 2012 to February 2013

² This timeline assumes that the SBE appoints members of the IQC in March 2012 and the IQC holds its first meeting in May 2012.

Event	Schedule
Math SMC reviews draft <i>Mathematics Framework</i> in preparation for full IQC review	March 2013
IQC approves draft <i>Mathematics Framework</i> for initial 60-day public review period	March 2013
60-day public review period prior to IQC recommendation to SBE, pursuant to 5 CCR, §9515(a)(3)	April to May 2013
Math SMC reviews public review results and staff recommendations for edits to draft <i>Mathematics Framework</i>	Late May 2013
IQC analyzes public review results and revises draft <i>Mathematics Framework</i> , approves draft <i>Mathematics Framework</i> for second 60-day public review period	June 2013
Staff incorporates IQC changes to draft <i>Mathematics Framework</i> per IQC action	June 2013
Required 60-day public review and comment on IQC's recommended <i>Mathematics Framework</i> Section §95159(c)	July to August 2013
SBE action on IQC's recommended <i>Mathematics Framework</i> includes public hearing.	November 2013
LEA implementation of <i>Mathematics Framework</i>	2013–14
Smarter Balanced Assessments	2014–15
Instructional Materials Adoption	November 2016

DRAFT

Application for Appointment to the Mathematics Curriculum Framework and Evaluation Criteria Committee

Applications must be received by 3 p.m. Wednesday, April 18, 2012.

The State Board of Education (SBE) is recruiting members of the Mathematics Curriculum Framework and Evaluation Criteria Committee (CFCC). The CFCC will play a significant role in the revision of the *Mathematics Framework for California Public Schools, Kindergarten Through Grade Twelve (Mathematics Framework)*. The *Mathematics Framework* will be revised to incorporate and support the Common Core State Standards for Mathematics, adopted by the California State Board of Education in August 2010, and to reflect current research in mathematics instruction. The CFCC provides input into the initial draft of the revised framework in accordance with guidelines approved by the SBE.

CFCC members include single-subject and multi-subject credentialed teachers; college and university personnel representing academic departments and schools of education; and representatives of citizen groups, educational organizations, industry, or other agencies. The Instructional Quality Commission (IQC), which serves as an advisory body to the SBE, recommends applicants for the CFCC to the SBE.

Serving on the CFCC represents a significant commitment of time and personal energy. Between September 2012 and March 2013, CFCC members will participate in up to six meetings (two days each) in Sacramento and spend a considerable amount of time between meetings reviewing or researching portions of framework drafts. Travel and per diem costs are reimbursed at standard state rates; however, no stipend or substitute pay is provided.

Instructions:

- Answer all the questions. An asterisk (*) denotes a required field.
- After answering all the questions on a page, select the “Next” button
- You must submit a résumé with your application.
- On the last page of the Application, select the “Preview” button.
- **On the next screen, review all the responses, and then select the “Submit” button on the bottom of the screen.**
- After you have submitted the Application, save your Confirmation ID given on the next page. Select the “Print” button to obtain a hard copy. Select the “Download Application in pdf” button to download a pdf version of your application.

Areas of Expertise:

Check all that apply.

- Administrator
- Teacher providing instruction to students in kindergarten or grades one to twelve. Note that teachers must meet the requirements for a highly qualified teacher under the No Child Left Behind Act of 2001.
- Teacher not providing instruction to students in kindergarten or grades one to twelve (e.g., mentor teacher or certificated teacher employed by school districts or county offices of education who is not in a position that requires a service credential with a specialization in administrative services)
- Parent
- Community Member
- School Board Member
- Other Areas of Expertise

Grade Levels of Expertise:

Check all that apply.

- K-2
- 3-5
- 6-8
- 9-12
- Other Grade Levels (e.g. university, college):

Years Teaching:

Experience Teaching English Learner:

Have you provided instruction to English learners? No Yes

If yes, at what grade levels and for how many years? List any specialized credential, certificate, or training in this area.

Experience Teaching Students with Disabilities:

Have you provided instruction to students with disabilities? No Yes

If yes, at what grade levels and for how many years? List any specialized credential, certificate, or training in this area.

Knowledge of Common Core State Standards:

Describe how the Common Core State Standards for Mathematics (CCSS), adopted in August 2010, might affect instruction and student learning. Use 2,000 characters or less.

Standards-Based Instruction Experience:

Describe a standards-based activity, lesson, or instructional unit that you have used or could be used with a diverse student population, including students with special needs, students who read below grade level, students who are English Learners, and students who are advanced learners. Explain how you would assess the effectiveness of the instruction. Use 2,000 characters or less.

Areas of Expertise and Leadership:

Describe how your education and experience prepare you to participate in the CFCC to revise the *Mathematics Framework*. As part of your response, please describe your knowledge and use of the CCSS and your experience providing effective instruction to a diverse student population (including students with special needs, those who read below grade level, those who are English learners, and advanced learners), developing curriculum or assessments, and serving as an instructional leader. Use 2,000 characters or less.

Previous Committee Experience: Have you ever served on a committee that was engaged in standards or curriculum development, or the review of instructional materials? If yes, briefly detail your experience. Use 1,000 characters or less.

Relationship with Publishers: Conflict of Interest Disclosure Statement

Your answers below will serve as the disclosure of certain information as required by the “Statement of Activities that are Inconsistent, Incompatible, or in Conflict with Duties of a Member of an Educational Policy Advisory Commission or a Committee or Panel Thereof,” as amended January 1978, and *California Code of Regulations*, Title 5, Education, Section 18600. Your answers will be the basis for an eligibility ruling in the event some activity appears to be inconsistent, incompatible, or in conflict with the duties assigned to the advisory framework committee.

For the questions below, “immediate family” is defined as your spouse and dependent children (*California Government Code* Section 82029).

Question 1:

Do you or a member of your immediate family have, or have you had, a business relationship at any time over the last twelve months with a publisher that produces instructional materials for California? If YES, list the company(-ies) that you have dealt with, and the amount (if any) of remuneration received. Use 1,000 characters or less.

Question 2:

Are you currently employed by or under contract to any person, firm, or organization which will do business with or submit instructional material to the California Department of Education (CDE)? If YES or UNCERTAIN, please explain and provide as much detail as possible, including name of firm, nature of contract, dates of contract, and compensation. Use 1,000 characters or less.

Question 3:

Have you ever been employed by or had any other kind of contractual relationship with any person, firm, or organization doing business with, or submitting instructional materials to, the CDE? If YES or UNCERTAIN, please explain and provide as much detail as possible, including name of firm, nature of contract, dates of contract, and compensation. Use 1,000 characters or less.

Question 4:

Do you expect to receive any royalty payments during your period of service on the Mathematics CFCC? If YES or UNCERTAIN, please explain and provide as much detail as possible, including name of firm, nature of contract, dates of contract, and compensation. Use 1,000 characters or less.

Question 5:

Were you or any member of your immediate family an author, contributor, or editor of (or consultant on) any textbook, other curriculum material, or project proposal that is likely to be submitted to the CDE? If YES or UNCERTAIN, please explain and provide

as much detail as possible, including name of firm, nature of contract, dates of contract, and compensation. Use 1,000 characters or less.

Question 6:

Have you received compensation, do you expect to receive compensation, or do you have any other kind of contractual relationship with any organization that is either a subsidiary, parent organization, or “sister organization” of any entity which will do business with your advisory body or will submit materials to your advisory body? If YES or UNCERTAIN, please explain and provide as much detail as possible, including name of firm, nature of contract, dates of contract, and compensation. Use 1,000 characters or less.

Language 1:

Skill for Language 1:

- Speak
- Read
- Write

Language 2:

Skill for Language 2:

- Read
- Write

Gender:

- Male
- Female

Ethnicity (optional):

Please select all that apply from below:

- Hispanic/Latino
- American Indian or Alaska Native
- Asian
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White
- Decline to state
- Other _____

Applicant Acknowledgement/Certification

- I understand that this application becomes public information when submitted. The answers to the questions under Relationship to Publisher: Conflict of Interest Disclosure Statement are true and correct to the best of my knowledge and belief. I also understand that serving as a member of the CFCC will be demanding in terms of time and personal energy. I recognize that if appointed to this committee, I will be expected to attend up to six meetings (two days each) between September 2012 and March 2013 in Sacramento and spend a considerable amount of time between meetings reviewing or researching portions

of framework drafts. I and my supervisor are aware that while travel and per diem costs are reimbursed at standard state rates, no stipend or substitute pay is provided. I have discussed this application with my supervisor and have received approval for release time to participate in all related activities.

Upload a Résumé

Note: Please attach a current résumé as it relates to your educational background and experience in mathematics in K–12 and/or higher education. If you are a classroom teacher, list the classes you are currently teaching, the grade level(s), and the language of instruction if other than English. Also, please indicate any specialized training you have had in mathematics in the past five years. Please limit your résumé to two or three pages and include your name on each page.

Please limit the size of the file to under 5 MB. This will replace any previously uploaded résumé.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 12

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Reauthorization of the Statewide Pupil Assessment System: Development of the State Superintendent of Public Instruction Recommendations.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

Assembly Bill (AB) 250 (Brownley, 2011) requires the State Superintendent of Public Instruction (SSPI) to develop recommendations for the reauthorization of the statewide pupil assessment system. The legislation requires that the SSPI consult with the State Board of Education (SBE) as well as specific stakeholders, in developing the SSPI recommendations consider sixteen specific areas outlined in statute. This agenda item is the first in a series of regular updates to the SBE to gather feedback from SBE members as well as the public.

RECOMMENDATION

The California Department of Education (CDE) recommends that the SBE engage in discussion and activities regarding the reauthorization of the statewide pupil assessment system.

BRIEF HISTORY OF KEY ISSUES

AB 250 (Chapter 608, Statutes of 2011) modified California *Education Code (EC)* Section 60604.5 to clarify the legislative intent that the reauthorization of the statewide pupil assessment system conform to assessment requirements of any reauthorization of the Elementary and Secondary Education Act (ESEA) or any other federal law that effectively replaces ESEA and be aligned with the common core state standards (CCSS), with at least 85 percent of items to address the CCSS.

The law requires the SSPI to develop recommendations for the reauthorization of the statewide pupil assessment program, which includes a plan for transitioning to a system of high-quality assessments as defined in *EC* Section 60603. While the law specifically addresses the current Standardized Testing and Reporting (STAR) Program; the CDE believes it is appropriate to consider other current California statewide assessments, including, but not limited to, the Early Assessment Program

BRIEF HISTORY OF KEY ISSUES (CONT.)

that utilizes specific STAR assessments, the California English Language Development Test (CELDT) and the California High School Exit Examination (CAHSEE). AB 250 also requires that the SSPI's recommendations be presented to the fiscal and appropriate policy committees of the Legislature by November 1, 2012. Attachment 1 provides information regarding the required AB 250 activities.

To facilitate the development of a conceptual model that addresses each of the sixteen areas outlined in statute and help coordinate the transition to the new pupil assessment system, the CDE, with ongoing engagement with the SBE, will select an advisory committee comprised of, but not limited to, those stakeholders identified in statute (See Attachment 1, page 2). The advisory committee will take into consideration the goals set forth in the Superintendent's *A Blueprint for Great Schools*; information and data regarding the current state assessments; input from stakeholder groups identified in statute, activities related to the development of curriculum frameworks, instructional materials, and professional development modules necessary to address adopted CCSS; as well as the activities related to the development of CCSS-aligned formative and summative assessments through the SMARTER Balanced Assessment Consortium (SBAC). A "Proposed Timeline and Activities for the Development of the Superintendent's Recommendations" is provided in Attachment 2.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

June 2011: Governor Edmund G. Brown, Jr., SSPI Tom Torlakson, and SBE President Michael Kirst signed the memorandum of understanding for California's participation as a governing state in the SBAC. California was previously a participating state in the Partnership for the Assessment of Readiness for College and Careers.

August 2010: Pursuant to Senate Bill X5 1, the SBE adopted the academic content standards in English language arts and mathematics as proposed by the California Academic Content Standards Commission (ACSC); the standards include the CCSS and specific additional standards that the ACSC had deemed necessary to maintain the integrity and rigor of California's already high standards.

FISCAL ANALYSIS (AS APPROPRIATE)

AB 250 requires the CDE to use federal carryover funds received pursuant to Title I of the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), and any other available state and federal funds, to implement the act.

ATTACHMENT(S)

Attachment 1: Reauthorization of Statewide Pupil Assessment System, Requirements included in AB 250 (Brownley) (4 Pages)

Attachment 2: Proposed Timeline and Activities for the Development of the Superintendent's Recommendations (2 Pages)

Attachment 3: Statewide Assessments by Grade and Content Area (4 Pages)

Reauthorization of Statewide Pupil Assessment System Requirements Included in AB 250 (Brownley)

In 2010, California *Education Code (EC)* Section 60604.5 was added to state law addressing the intent of the Legislature regarding the reauthorization of the statewide pupil assessment system. In 2011, Assembly Bill (AB) 250 (Brownley) amended *EC* Section 60604.5 to:

- Require that future assessments conform to assessment requirements of any reauthorization of the federal Elementary and Secondary Education Act (ESEA) or any other federal law that effectively replaces ESEA and be aligned with common core state standards (CCSS), with at least 85 percent of items to address the CCSS
- Require the State Superintendent of Public Instruction (SSPI) to develop recommendations, in consultation with specific stakeholder groups, for the reauthorization of the statewide pupil assessment program to be reported to the fiscal and appropriate policy committees of both houses of the Legislature on or before November 1, 2012
- Require the SSPI recommendations to consider 16 specific areas and include a plan for transitioning to a system of high-quality assessments as defined in *EC* Section 60603

AB 250 amended *EC* Section 60603 to define "high-quality assessment" as follows:

(j) "High-quality assessment" means an assessment designed to measure a pupil's knowledge of, understanding of, and ability to apply critical concepts through the use of a variety of item types and formats, including, but not limited to, items that allow for open-ended responses and items that require the completion of performance-based tasks.

A high-quality assessment should have the following characteristics:

- (1) Enable measurement of pupil achievement and pupil growth.
- (2) Be of high technical quality by being valid, reliable, fair, and aligned to standards.
- (3) Incorporate technology where appropriate.
- (4) Include the assessment of pupils with disabilities and English learners.

- (5) Use, to the extent feasible, universal design principles, as defined in Section 3 of the federal Assistive Technology Act of 1998 (29 U.S.C. Sec. 3002) in its development and administration.

EC Section 60603(n) defines “statewide pupil assessment system” as follows:

(n) “Statewide pupil assessment program” means the systematic achievement testing of pupils in grades 2 to 11, inclusive, pursuant to the standardized testing and reporting program under Article 4 (commencing with Section 60640) and the assessment of basic academic skills and applied academic skills, administered to pupils in grade levels specified in subdivision (c) of Section 60605, required by this chapter in all schools within each school district by means of tests designated by the state board.

AB 250 amended *EC* Section 60604.5 to require that, in developing the recommendations, the SSPI shall consult with all of the following:

- (1) The State Board of Education
- (2) The committee advising the Superintendent on the Academic Performance Index pursuant to subdivision (a) of Section 52052.5 (Public Schools Accountability Act Advisory Committee)
- (3) Measurement experts from California’s public and private universities
- (4) Individuals with expertise in assessing pupils with disabilities and English learners
- (5) Teachers, administrators, and governing board members, from California’s local educational agencies
- (6) Parents

The recommendations shall include, but not be limited to, a plan for transitioning to a system of high-quality assessments. The recommendations shall consider including all of the following in the reauthorized assessment system:

- (1) Aligning the assessments to the standards adopted or revised pursuant to *EC* Section 60605.8.
- (2) Implementing and incorporating any common assessments aligned with the common set of standards developed by the CCSS Initiative consortium or other interstate collaboration in which the state participates.

- (3) Conforming to the assessment requirements of any reauthorization of the federal ESEA (20 U.S.C. Sec. 6301 et seq.) or any other federal law that effectively replaces that act.
- (4) Enabling the valid, reliable, and fair measurement of achievement at a point in time and over time for groups and subgroups of pupils, and for individual pupils.
- (5) Allowing the comparison from one year to the next of an individual pupil's scale scores in each content area tested, so as to reflect the growth in that pupil's actual scores over time.
- (6) Enabling and including the valid, reliable, and fair measurement of achievement of all pupils, including pupils with disabilities and English learners.
- (7) Providing for the assessment of English learners using primary language assessments.
- (8) Ensuring that no aspect of the system creates any bias with respect to race, ethnicity, culture, religion, gender, or sexual orientation.
- (9) Incorporating a variety of item types and formats, including, but not limited to, open-ended responses and performance-based tasks.
- (10) Generating multiple measures of pupil achievement, which, when combined with other measures, can be used to determine the effectiveness of instruction and the extent of learning.
- (11) Including the assessment of science and history-social science in all grade levels at or above grade four.
- (12) Assessing a pupil's understanding of and ability to use the technology necessary for success in the 21st century classroom and workplace.
- (13) Providing for both formative and interim assessments, as those terms are defined in this chapter, in order to provide timely feedback for purposes of continually adjusting instruction to improve learning.
- (14) Making use of test administration and scoring technologies that will allow the return of test results to parents and teachers as soon as is possible in order to support instructional improvement.
- (15) Minimizing testing time while not jeopardizing the validity, reliability, fairness, or instructional usefulness of the assessment results.
- (16) Including options for diagnostic assessments for pupils in grade two.

AB 250 amended *EC* Section 60601 to extend the Standardized Testing and Reporting Program by one year to become inoperative on July 1, 2014, and would repeal the act as of January 1, 2015.

Proposed Timeline and Activities for the Development of the Superintendent's Recommendations

The goal is to develop a conceptual model that will guide the transition to a new statewide pupil assessment system that is right for California. The table below includes a timeline and responsibilities, which are subject to change depending on the advisory committee's work.

Timeline	Advisory Committee	CDE
January 2012	—	<ul style="list-style-type: none"> • Draft plan to communicate activities to local educational agencies and the public • Draft plan for collecting input from specific stakeholders • Present an overview of the CDE's plan to the SBE • Select the advisory committee and establish committee meeting dates
February-April 2012	2-3 advisory committee meetings: <ul style="list-style-type: none"> • Establish governing principles for advisory committee's work • Develop a conceptual model that addresses each of the sixteen areas outlined in statute • Examine ESEA requirements • Consult with SBAC staff and activities • Identify technical and/or policy issues and needs • Determine what work the Technical Advisory Group (TAG) may do to assist the advisory committee • Determine and address the needs of students with disabilities and English learners • Examine various types of assessment formats 	<ul style="list-style-type: none"> • Identify existing resources and research appropriate state and federal documents and other state's transition plans • Provide resources, staff that will help coordinate advisory activities with SBAC activities • Draft survey questions for stakeholder focus groups • Schedule and conduct focus group meetings for specific stakeholder groups • Schedule and plan meetings, e.g., technical and accountability advisory groups • Plan and staff advisory committee meetings • Present update to SBE at the March 7-8 meeting

Statewide Assessments by Grade and Content Area

California public school students, grades K-12, may participate in the following assessments.

- Standardized Testing and Reporting (STAR) Program:
 - California Standards Test (CST)
 - California Modified Assessment (CMA)
 - California Alternate Performance Assessment (CAPA)
 - Standards-based Tests in Spanish (STS)
 - Early Assessment Program (EAP) (in collaboration with California State University and accepted by California Community Colleges)
- California High School Exit Examination (CAHSEE)
- California English Language Development Test (CELDT)
- Physical Fitness Test (PFT)

The table below shows the tests taken by grade, the estimated average minutes needed to test, and whether or not the assessment is required by the Elementary and Secondary Education Act (ESEA).

Grade	Test	Estimated Average Minutes Tested	Required by ESEA (Title I)
2	CST ELA	150	No
	CST Mathematics	150	No
		Maximum: 300	
3	CST ELA	150	Yes

EAP CST Algebra II and High School Summative Augmented items (Voluntary)		No	

¹ Students in grades 7–11 take mathematics tests based on course enrollment.

CST end-of-course mathematics tests: Algebra I, General Mathematics, Geometry, Algebra II, Summative High School Mathematics, Integrated Mathematics 1, 2, and 3.

² Students in grades 9–11 take science tests based on course enrollment.

CST end-of-course sciences tests: Biology, Chemistry, Earth Science, Physics, Integrated/Coordinated Science 1, 2, 3, and 4.

³ Students in grades 9–11 take the CST end-of-course World History test during the grade in which they are enrolled in a World History course.

⁴ Students who do not meet the CAHSEE requirement in grade ten may take the portions not passed up to two times in grade eleven and up to five times in grade twelve.

⁵ The EAP multiple choice questions are included in the estimated time.

⁶ The PFT is a battery of tests assessing six fitness areas. Some fitness areas have multiple tests; the testing time will vary depending upon the tests administered to each student. For example, for fitness area aerobic capacity, a student could take the walk test, the one-mile run, or the Progressive Aerobic Cardiovascular Endurance Run (PACER).

Students whose primary language is not English and students previously identified as English learners (ELs) who have not been reclassified as fluent English proficient (RFEP) take the CELDT in addition to other tests.

Grade	Test	Estimated Average Minutes Tested (per grade)	Required by ESEA (Title III)
K-1	CELDT	180	Yes
2-12	CELDT	145	Yes

Spanish-speaking English language learners receiving instruction in their primary language or enrolled less than 12 months in a U.S. school take the STS in addition to the CST or CMA.

Grade	Tests	Estimated Average Minutes Tested	Required by ESEA
2-3	STS ELA STS Mathematics	150	No
		150	No

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 13

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Elementary and Secondary Education Act: Proposed Amendments to the Accountability Workbook for 2012.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

Since 2004, the State Board of Education (SBE) has annually approved proposed amendments to California's Consolidated State Application Accountability Workbook (hereafter referred to as the Accountability Workbook) and submitted them to the U.S. Department of Education (ED). A copy of the 2011 Accountability Workbook is on the California Department of Education (CDE) Accountability Workbook Web page at <http://www.cde.ca.gov/ta/ac/ay/documents/workbook030711.doc>.

RECOMMENDATION

The CDE recommends that the SBE approve three amendments to California's Accountability Workbook. These amendments would impact the 2012 Adequate Yearly Progress (AYP) determinations.

BRIEF HISTORY OF KEY ISSUES

The CDE is proposing three amendments to the Accountability Workbook that would impact the 2012 AYP determinations. The first two amendments are technical and will align the Accountability Workbook with current CDE policy. The third amendment adds a five-year graduation rate to the AYP determination for local educational agencies (LEAs), schools, and numerically significant student groups, an option that is provided by the ED. Approval of the five-year graduation rate would establish a baseline rate in the 2012 AYP reports, which would be used to establish graduation rate targets for the 2013 AYP determinations.

Proposed Amendments to the Accountability Workbook

The proposed amendments to the current Accountability Workbook are listed in order of the critical element. The page reference is also included.

BRIEF HISTORY OF KEY ISSUES (Cont.)

1. LEA Accountability Report Cards (Critical Element 1.5, page 17)

The CDE will produce and post all LEA accountability report cards on the CDE Web site. In November 2010, the SBE approved a template for a stand-alone LEA accountability report card in response to previous Title I Monitoring Visit findings by the ED. Each LEA accountability report card contains all federally required data elements. The current Accountability Workbook indicates that the LEA accountability report card requirements are included in the School Accountability Report Cards (SARCs).

2. Definition of the socioeconomically disadvantaged (SED) student group (Critical Element 5.1, page 36)

A student will be included in the SED student group if the student is *eligible* for free and reduced-price meals. This represents a change from the current Accountability Workbook which indicates that a student is included in the SED student group if the student participates in free and reduced-price meals.

3. Extended-year cohort graduation rate (Critical Element 7.1, page 50)

An extended-year cohort graduation rate (i.e., five-year cohort rate) will be used as an alternative method to meeting the graduation rate criteria for LEAs, schools, and student groups. This alternative method will only be applied for LEAs, schools, or student groups that did not make the state goal or the annual growth target for the four-year graduation rate. Meeting the state goal or the annual growth target for either the four-year or the five-year graduation rate would qualify the LEA, school, or student group to meet the graduation rate criteria for AYP. Background information about the graduation rate criteria and information about the five-year graduation rate calculation methodology and growth targets can be found in Attachment 1.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The SBE has submitted amendments to California's Accountability Workbook each year since the initial submission in January 2003. Most amendments have been in response to changes in California's assessment system or to changes in federal requirements. The most recent changes to the Accountability Workbook are below:

- For the 2011 AYP determination, the SBE and CDE submitted a technical amendment regarding under what conditions students count in the English learner group for accountability purposes.
- For the 2010 AYP determination, the SBE and the CDE submitted the new graduation rate goal of 90 percent with the requirement that all LEAs, schools and student groups meet the new goal by the 2019 AYP determination.

FISCAL ANALYSIS (AS APPROPRIATE)

Fiscal impact will be minimal, as the AYP reports are generated by CDE staff and posted on the CDE AYP Web page. All expenses are included in the Analysis, Measurement, and Accountability Reporting Division budget.

Attachment 1: Five-Year Cohort Graduation Rate Background and Methodology
(2 pages)

Five-Year Cohort Graduation Rate Background and Methodology

Background

On October 28, 2008, the U.S. Department of Education (ED) published its final guidance to states regarding the requirement for states to use a four-year cohort graduation rate beginning with the 2012 Adequate Yearly Progress (AYP) determinations. In addition to the requirement that local educational agencies (LEAs) and schools meet the graduation rate criteria, all numerically significant student groups must also meet the graduation rate criteria beginning with the 2012 AYP determinations. The regulations also provide states with the option of using an extended-year adjusted cohort rate as long as the goal is the same for both the four-year and extended-year cohort rates. This allows states to give LEAs and schools credit for successfully graduating students who take longer than four years to graduate from high school with a regular diploma.

Methodology

Five-Year Cohort Graduation Rate

The CDE will use the ED's required formula to calculate the five-year cohort rate:

Numerator in the four-year adjusted cohort graduation rate plus the number of students from the cohort who earned a regular high school diploma by the end of the fifth school year

divided by

Denominator in the four-year adjusted cohort graduation rate plus students who transfer in, minus students who transfer out, emigrate, or die during the year five school year

The required formula will be used in conjunction with the following qualifying eligibility criteria:

Five-year graduation rates will only be used to meet the AYP graduation rate criteria if the cohort numerator (number of graduates) is equal to or greater than, the reduction in the cohort denominator (the removal of students from the cohort due to transfers, etc.).

The qualifying eligibility criteria eliminate the possibility of having artificially inflated five-year graduation rates. For example, if a school has 100 students in its 2009–10 four-year graduation cohort, and 79 students graduate, the school's graduation rate would be 79 percent. In the following year, five students transfer from the school to an adult education school and the remaining students (16) drop out. The school's five-year cohort graduation increases by 9.7 percent to 88.7 percent (79 graduates divided by the 95 students remaining in the cohort), based solely on five students

transferring to another school. However, the five-year graduation rate would not be used for the AYP determination because the qualifying eligibility criteria require that the school graduated at least the same number of students that are removed from the cohort.

Graduation Rate Growth Targets Background

In January 2010, the SBE set a graduation rate goal of 90 percent for all LEAs, schools, and student groups to meet by the 2019 AYP determinations. The SBE members instructed CDE staff to develop a growth target structure. CDE staff developed a system that provides each LEA, school, and student group with two different growth target graduation rates: (1) a fixed target, and (2) a variable target. The lower of the two targets is used to determine if the growth graduation rate criteria are met; however, both target structures are based on the requirement that the 90 percent graduation goal be reached by 2019. A brief description of the fixed and variable growth graduation rate targets are provided below:

The **fixed growth** graduation rate schedule was initially established in 2010 using the difference between the school's or LEA's baseline National Center for Educational Statistics (NCES) graduation rate (i.e., 2009 AYP graduation rate) and the 90 percent goal divided by the number of years remaining before the 2019 AYP (i.e., ten years). This difference was used to establish a schedule of two equal graduation rate targets for the 2010 and 2011 AYP determinations.

Because a four-year cohort rate is required beginning with the 2012 AYP, a new fixed growth schedule has been developed based on the difference between the LEA's, school's, and student groups' 2009–10 four-year cohort graduation rate and the 90 percent goal divided by the number of years remaining before the 2019 AYP (i.e., eight years). The difference was used to establish eight equal graduation rate targets which will remain in place until 2019.

The **variable growth** graduation rate is established based on the difference between the LEA's, school's, and student groups' current graduation rate and the 90 percent goal divided by the number of years remaining before the 2019 AYP. The variable graduation rate target is calculated annually for each LEA, school, and student group much like a school or student group's API growth target. The variable growth target rate changes each year according to the school's current graduation rate.

Meeting the Five-Year Graduation Rate Criteria

The five-year graduation rate will be applied to LEAs, schools, and student groups in the same way as the four-year graduation rate is applied. LEAs, schools, and student groups will have three ways to meet the five-year graduation rate target: (1) meet or exceeded the goal of 90 percent, (2) meet the fixed graduation rate target, or (3) meet the variable graduation rate target.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 14

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Inclusion of Alternative Education Program Accountability Results in the Academic Performance Index – Approve Commencement of a 15-day Public Comment Period for Proposed Amendments to the <i>California Code of Regulations</i> , Title 5, Sections 1039.2 and 1039.3.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

California *Education Code (EC)* Section 52052.1 (Added by Senate Bill [SB] 219, Stats. of 2007, c. 731) requires that test scores and other accountability data of enrolled pupils who were referred by the school and/or school district of residence to an alternative education program (AEP) be included in the Academic Performance Index (API) of the school and school district of residence to ensure that placement decisions are in the best interests of the affected pupils. The intent of these proposed regulations is to define the terms and criteria for the procedures of assigning accountability results to the API of a school or school district of residence when the pupil was referred by the school and/or school district of residence to an AEP during the academic year. On October 25, 2011, the rulemaking file was withdrawn from the Office of Administrative Law (OAL) with the sole purpose of amending the revision date of the Alternative Schools Accountability Model (ASAM) Alternative School of Choice and Charter School Application that is incorporated by reference in these regulations.

RECOMMENDATION

The California Department of Education (CDE) recommends that the State Board of Education (SBE):

- Approve the proposed changes to the proposed regulations;
- Direct that the proposed changes be circulated for a 15-day public comment period in accordance with the Administrative Procedure Act;
- If no relevant comments to the proposed changes are received during the 15-day public comment period, the proposed regulations with changes are deemed adopted, and the CDE is directed to complete the rulemaking package and resubmit it to the OAL for approval;

RECOMMENDATION (Cont.)

- If any relevant comments to the proposed changes are received during the 15-day public comment period, the CDE is directed to place the proposed regulations on the SBE's March 2012 agenda for action; and
- Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

BRIEF HISTORY OF KEY ISSUES

California *Education Code (EC)* Section 52052.1 (Added by Senate Bill [SB] 219, Stats. of 2007, c. 731) requires that test scores and other accountability data of enrolled pupils who were referred by the school and/or school district of residence to an AEP be included in the API of the school and school district of residence to ensure that placement decisions are in the best interests of the affected pupils. The intent of these proposed regulations is to define the terms and criteria for the procedures of assigning accountability results to the API of a school or school district of residence when the pupil was referred by the school and/or school district of residence to an AEP during the academic year. The Public Schools Accountability Act Advisory Committee and the Technical Design Group support the proposed regulations presented in this agenda item for the inclusion of accountability results in the API.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In May 2011, the SBE took action to begin the rulemaking process for the adoption of regulations pursuant to California *Education Code (EC)* Section 52052.1 that would allow test scores and other accountability data of enrolled pupils who were referred by the school and/or school district of residence to an AEP be included in the API of the school and school district of residence. The 45-day public comment period for the proposed regulations closed on July 11, 2011. In September 2011, the SBE approved the regulations and they were submitted to the OAL for approval. On October 25, 2011, the rulemaking file was withdrawn from the OAL with the sole purpose of amending the revision date of the Alternative Schools Accountability Model (ASAM) Alternative School of Choice and Charter School Application that is incorporated by reference in these regulations.

FISCAL ANALYSIS (AS APPROPRIATE)

The Economic and Fiscal Impact Statement was previously submitted in the May 2011 Agenda and no fiscal impact was indicated.

ATTACHMENT(S)

Attachment 1: Addendum to Final Statement of Reasons (1 Page)

Attachment 2: Proposed Regulations (4 Pages)

Attachment 3: Notice of Withdrawal – Office of Administrative Law (1 Page)

ADDENDUM TO FINAL STATEMENT OF REASONS
INCLUSION OF ALTERNATIVE EDUCATION PROGRAM ACCOUNTABILITY
RESULTS IN THE ACADEMIC PERFORMANCE INDEX

UPDATE OF THE INITIAL STATEMENT OF REASONS

The Alternative Schools Accountability Model (ASAM) application called the ASAM Alternative School of Choice and Charter School Application was incorporated by reference with a revision date of 11/2010. The revision date in the regulations is corrected to the most current version of the form of April 2011 that is posted on the California Department of Education ASAM Forms Web page at <http://www.cde.ca.gov/ta/ac/am/documents/altapplication.doc>. The application was revised to better identify the student populations served by various ASAM schools and to better determine whether the schools were eligible to be an ASAM school.

The ASAM application is being submitted for a 15-day comment period that will begin on January 14, 2012, and end on January 30, 2012, inclusive.

- 1 • The State Board of Education has illustrated changes to the original text in the
2 following manner: text originally proposed to be added is underlined; text proposed to
3 be deleted is displayed in ~~strikeout~~.
4 • The 15-day text proposed to be added is in "**bold underline**", deleted text is
5 displayed in "**~~bold strikeout~~**".

8 Title 5. EDUCATION

9 Division 1. California Department of Education

10 Chapter 2. Pupils

11 Subchapter 4. Statewide Testing of Pupils and Evaluation Procedures

12 Article 1.8. Inclusion of Alternative Education Program Accountability Results 13 and Middle School Dropouts in the Academic Performance Index (API) 14

15 **§ 1039.2. Definitions.**

16 For purposes of this Article, the following terms shall have the following meanings
17 unless the context indicates otherwise:

18 (a) "Alternative education program (AEP)" means a school that is eligible for the
19 Alternative Schools Accountability Model (ASAM) and/or an independent study program
20 within a local educational agency (LEA).

21 (1) Schools eligible for the ASAM include continuation, district and county community
22 day, opportunity, county community, juvenile court, and California Education Authority,
23 Division of Juvenile Justice schools, and others as identified in the ASAM Alternative
24 School of Choice and Charter School Application (**Revised April 2011**). This document,
25 located at <http://www.cde.ca.gov/ta/ac/am/documents/altapplication.doc>, is hereby
26 incorporated by reference.

27 (b) "Continuously enrolled" for the purposes of Education Code section
28 52052(a)(4)(C) and this Article means a pupil who was enrolled in the same school,
29 school district, or county office of education with no gap in enrollment of more than 30
30 consecutive calendar days.

31 (1) Test scores shall be assigned to the API of a school or LEA if the pupil is
32 continuously enrolled at that school or LEA between the first Wednesday in October
33 through the first day of testing of the academic year.

34 (2) For purposes of determining if a fall (August through December) test taker on the
35 California High School Exit Examination (CAHSEE) is continuously enrolled, enrollment

1 between the first Wednesday in October of the prior school year and date of the
2 CAHSEE examination shall be used.

3 (c) "Correctional or judicial officials" includes probation officers.

4 (d) "Local educational agency (LEA)" means a school district or county office of
5 education.

6 (e) "Other accountability data" means the dropout rate that is added to the API
7 pursuant to Education Code section 52052.1(a)(3).

8 (f) "Referred by the school or school district of residence" includes, but is not limited
9 to the voluntary transfer of a pupil to an independent study program or to an AEP
10 charter school.

11 (g) "School district of residence" means the LEA of the last non-AEP school in which
12 the pupil was enrolled.

13 (h) "School of residence" means the last non-AEP school the pupil attended.

14 (i) "Test scores" means results of standardized state-wide tests included in the API.

15 NOTE: Authority cited: Sections 33031 and 52052, Education Code. Reference:
16 Sections 51745, 52052, 52052.1 and 60851, Education Code.

17
18 **§ 1039.3. Criteria for Assigning Pupil Accountability Results to the School and**
19 **School District of Residence API.**

20 (a) Test scores and other accountability data shall be assigned to the school and/or
21 school district of residence for each fiscal year in accordance with annual API
22 calculations.

23 (b)(1) If a pupil was continuously enrolled pursuant to this Article in the AEP, the
24 pupil's test scores shall be assigned to the AEP's API for that year.

25 (2) If the pupil was continuously enrolled pursuant to this Article in the LEA of the
26 AEP in the current year, the pupil's test scores shall be assigned to the LEA API for that
27 year.

28 (c) If a pupil was referred by the school or school district of residence to an AEP
29 school and the pupil was not continuously enrolled pursuant to this Article in the AEP in
30 the current year, the pupil's test scores shall be assigned to the API of the pupil's school
31 of residence for that year under either of the following circumstances:

1 (1) The pupil was enrolled in the school of residence at the start of the current year;
2 subsequently enrolled in an AEP; and either stayed at the AEP, returned to the school
3 of residence, enrolled in another AEP school, or dropped out without being continuously
4 enrolled pursuant this Article in any school.

5 (2) The pupil was enrolled in an AEP school at the start of the current year;
6 subsequently enrolled in the school of residence for over 30 consecutive calendar days;
7 and either stayed at the school of residence, returned to the AEP, enrolled in another
8 AEP school, or dropped out without being continuously enrolled pursuant to this Article
9 in any school.

10 (d) If a pupil was referred by the school or school district of residence to an AEP
11 school and the pupil was not continuously enrolled pursuant to this Article in the LEA of
12 the AEP or in any LEA in the current year, the pupil's test scores shall be assigned to
13 the API of the pupil's school district of residence for that year under either of the
14 following circumstances:

15 (1) The pupil was enrolled in the school district of residence at the start of the current
16 year; subsequently enrolled in the LEA of the AEP; and either stayed at the LEA of the
17 AEP, returned to the school district of residence, enrolled in another LEA of an AEP
18 school, or dropped out without being continuously enrolled pursuant to this Article in any
19 LEA.

20 (2) The pupil was enrolled in the LEA of the AEP at the start of the current year;
21 subsequently enrolled in the school district of residence for over 30 consecutive
22 calendar days; and either stayed at the school district of residence, returned to the LEA
23 of the AEP, enrolled in another LEA of an AEP school, or dropped out without being
24 continuously enrolled pursuant to this Article in any LEA.

25 (e) Other accountability data shall be assigned to the API of the pupil's school or
26 school district of residence in accordance with subdivisions (b), (c), and (d) if the pupil
27 was referred to an AEP by the pupil's school or school district of residence and was
28 enrolled in the AEP for fewer than 125 consecutive calendar days.

29 (f) Other accountability data shall be assigned to the API of an AEP school and its
30 LEA if the pupil was referred to the AEP by the pupil's school or school district of
31 residence and was enrolled in the AEP for 125 consecutive calendar days or more.

1 (g) If a pupil was referred to an AEP school by a juvenile court judge or other
2 correctional or judicial official or expelled pursuant to section 52052.1(a)(1), was
3 enrolled in that AEP school and its LEA, and was not continuously enrolled pursuant to
4 this Article in any school or LEA, the pupil's test scores and other accountability data
5 shall be assigned as follows:

6 (1) Test scores shall not be assigned to the API of any school or LEA.

7 (2) Other accountability data shall be assigned to the API of the school or school
8 district of residence if the pupil was enrolled in the AEP school or LEA for fewer than
9 125 consecutive calendar days.

10 (3) Other accountability data shall be assigned to the API of the AEP school or its
11 LEA if the pupil was enrolled in the AEP school or LEA for 125 consecutive calendar
12 days or more.

Meeting Agenda Items for January 11-12, 2012

ITEM 15

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
2012 United States Senate Youth Program Presentation.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

The State Superintendent of Public Instruction (SSPI) has selected two delegates and two alternates for the 2012 United States Senate Youth Program (USSYP). The student delegates will take in a week of intensive study of the federal government as guests of the United States Senate and represent California at the 50th annual USSYP held in Washington, D.C., from March 3–10, 2012.

RECOMMENDATION

The California Department of Education (CDE) recommends that the State Board of Education (SBE) President and the SSPI present the 2012 USSYP awards to the 2012 delegates and alternates.

BRIEF HISTORY OF KEY ISSUES

Sponsored by the William Randolph Hearst Foundation, the USSYP was established in 1962 by Senate Resolution 324, and has continued each year by action of the United States Senate. Each state, the District of Columbia, and the Department of Defense Education Activity select two high school juniors or seniors to participate in the program every year. The Hearst Foundation pays all expenses for the delegates, including transportation, hotel, and meals. In addition, each of the delegates will receive a \$5,000 college scholarship from the Hearst Foundation. California's two delegates and two alternate delegates were selected from a pool of 130 applicants nominated by their high school principals.

A selection committee from the CDE reviewed eligible nominees who submitted the required paperwork. After a rigorous review process, the SSPI selected the awardees based on the following criteria: the quality of the application, high-academic achievement, excellent interpersonal and communication skills, knowledge of American government and U.S. history, involvement in school and community activities,

BRIEF HISTORY OF KEY ISSUES (Cont.)

demonstrated qualities of leadership, extra-curricular activities, and service to the community.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

This is an annual event at the January SBE Meeting.

FISCAL ANALYSIS (AS APPROPRIATE)

The William Randolph Hearst Foundation provides funding to the CDE to assist with the costs associated with administering the USSYP.

ATTACHMENT(S)

Attachment 1: Selected Finalists for the 2012 USSYP (4 pages)

Delegate
Nina Arati Kamath

Nina is a senior at Lynbrook High School in the Fremont Union High School District in San Jose, California where she serves as a representative on the Lynbrook High School Legislative Council and an Executive Board Member for the San Jose Youth Advisory Council of District 1. Nina also serves as the Chapter Project Chair for the Lynbrook Future Business Leaders of America; Parliamentarian for the National Association of Parliamentarians; and Editor-in-Chief of 1 Voice, the San Jose Youth Advisory Council of District 1's quarterly publication. Nina serves as the Publicity Chair for the 15th Congressional District Student Advisory Council for U.S. Congressman Mike Honda; Community Engagement Project Lead for Vision New America; Global Entrepreneurship Research Intern at West Valley College; and is an advanced dancer for the Lasya Dance Company.

Over the course of four years, Nina has volunteered for the Good Samaritan Hospital and the Rotary International and Interact. Nina has also served as a Silicon Valley Leadership Group, Education, and Health Policy Coordinator; an Asian Americans for Community Involvement Community Programs Intern; and a Givology Development Intern. Nina also volunteered for the Jerry Brown for Governor 2010 Campaign and currently serves as a volunteer for the Evan Low for California State Assembly 2012 Campaign and President Barak Obama's 2012 Reelection Campaign.

Nina maintains a high, weighted grade point average of 4.58. She has achieved a score of 5 on the following Advanced Placement (AP) examinations: Calculus BC, Computer Science, and English Language and Composition, which has qualified her as a College Board AP Scholar and National Merit Commended Scholar. Nina has published articles on environmental activism and meeting procedures in Tomorrow's Business Leader and also published an Op-ed on nuclear diplomacy in the Cupertino Courier. Nina's awards include the Future Business Leader Competition—First Place; Council Member Pete Constant award for First Place—Most Volunteer Hours; Rotary International Entrepreneurship Leadership Conference Business Model Competition—Second Place; and the Red, White, and Blue School Department Award for AP Computer Science. Nina also spearheaded a school environmental campaign, Operation Green, which Lynbrook High School received the Go Green Eco Chapter Project award for First Place in the Western Region as the most environmental school among 3,000 schools nationwide.

Nina's dream is to attend a university such as Harvard University, University of Pennsylvania, Stanford University, or Princeton University to pursue the interdisciplinary subjects of economics, political science, and government. Post-baccalaureate, Nina wishes to pursue a Master of Business Administration and Juris Doctorate degrees. Nina's career goals include starting an education consulting service as well as serving as a United States representative for the International Monetary Fund to influence foreign policy and tackle global economic issues.

Delegate
Morgen Diane Harvey

Morgen is a senior at Nevada Union High School in the Nevada Joint Union High School District in Grass Valley, California where she serves as the Senior Class President of Nevada Union High School's Associated Student Body and Executive Council. Morgen also serves as a member of the following school clubs: California Scholarship Federation; Health Careers Club; and the Key Club. Morgen also served as a Link Leader; an "A" Team Link Crew member; Free Tibet Club Secretary; and a Free the Children Club member.

Over the past four years, Morgen has served as a volunteer for the Sierra Nevada Memorial Hospital and a local Pediatrics Office. Morgen also participates as a Music for Medicine volunteer, which she plays piano for the terminally ill and homebound on a regular basis. Morgen also serves as an annual organizer for the Christmas Caroling to the Homebound each December.

Morgen maintains a high, weighted grade point average of 4.33. She has received recognition from the National Society of High School Scholars as an outstanding student for the last three years. In addition to her exemplary academic record, Morgen has participated in the Outstanding Academic Achievement People to People Leadership Program in Washington, D.C. Morgen was selected as a California State University, Fresno: President's Scholar Nominee to compete for a full university scholarship. She was also selected to participate in the Rotary Youth Leadership Award Camp and the National Youth Leadership Forum on Medicine. Morgen is also an accomplished piano player and has received numerous awards for her musical talent, including: Grass Valley Rotary Music Competition – First Place; Tri-Counties Music Competition Piano – First, Second, and Third Place; Area Rotary Music Competition – Third Place; and "Music in the Mountains" Piano Competition – Second Place. Morgen has also attended the University of California, Los Angeles World Summer Music Institute and is a graduate of the California State Summer School of the Arts.

Morgen hopes to attend Princeton University to pursue studies in subjects such as music, medicine, philosophy, psychology, or science. Morgen also has a passion for the environment. She believes it is important to advocate for environmental issues and aspires to make a contribution to her community by exploring ways to make improvements in the area of sustainable development.

First Alternate
Steven Uhlener Brownstone

Steven is a senior at University High School in the Irvine Unified School District in Irvine, California where he serves as the Associated Student Body representative to the Irvine Unified School District Board of Education. Steven also serves as the Vice President of Delegate Training for Model United Nations, Pre-Trial Attorney/Vice President of Bonding for Mock Trial, Founder of the Jewish Student Union, Political Columnist in the Journalism Club, Vice President of the Band Executive Council for University High School's marching band, and also plays in the school's jazz band.

Over the course of four years, Steven has participated in and volunteered for the Bureau of Jewish Education Young Philanthropists program, Turtle Rock Community Park Tennis, Shade Tree Associations, and fundraisers for University High School's student council, band, and the Jewish Student Union.

Steven maintains a high, weighted grade point average of 4.32. He has achieved a score of five on the following Advanced Placement (AP) examinations: Art History, English Language and Composition, and United States History, which has qualified him as a College Board AP Scholar and National Merit Commended Scholar. Steven spent the previous summer in China and has achieved Chinese language proficiency. Steven was selected to participate in the Pepperdine Youth Citizenship Seminar and Vernon Smith Experimental Economics Program at Chapman University. Steven's awards include the University of California (UC), Irvine Model United Nations (MUN) – Best Delegate and Research; UC Berkeley MUN – Outstanding Delegate, Rapporteur, and Research, and recognition as a state finalist for National History Day.

Steven hopes to attend a university such as UC Berkeley, Tufts University, Yale University, or the University of Chicago to study in a field that would give him a strong quantitative and qualitative background to launch his career. His ultimate career goal is to serve in the United States Foreign Service and eventually run for political office.

Second Alternate
Karina Clair Jougla

Karina is a senior at Carpinteria High School in the Carpinteria Unified School District in Carpinteria, California where she serves as the Southern California Speaker of the Assembly for the Junior State of America organization. She also serves as the Board Chair for the Youth Advisory Board for Congresswoman Lois Capps; National Teen Advisor Co-Chair for the United Nations Foundation Girl Up Campaign; Lifetime Seal bearer for the California Scholarship Federation; and is active in the school's marching and concert bands, as a flute player and drum major.

Over the course of four years, Karina has volunteered at Kinderkirk Preschool and the Carpinteria Public Library. Karina has also served as a Girls Inc. Drama Camp Director and Coach and Carpinteria Seal Watch Monitor. She has also participated in the JASON Project teacher training program and has also served as a National Geographic JASON Project International Student "Argonaut" Intern.

Karina maintains a high, weighted grade point average of 4.35. She has achieved a score of 5 on the following Advanced Placement (AP) examinations: English Language and Composition and U.S. History. Karina is a recipient of the Girls Inc. Lucille Miller Wright Merit Scholarship and was also a National Merit Scholarship Competition Semi-Finalist. Karina's awards also include the Carpinteria Women's Club 2008 Outstanding Young Woman Award; Kiwanis Club Youth of the Month Awards: October 2008 and December 2010; Band Member of Distinction Award; Masonic Lodge 444 Student of the Month in Science Award; Carpinteria High School Athletic Department Tennis Awards: Most Reliable Player and Most Consistent Player; and the President's Education Award for Outstanding Academic Excellence.

Karina's dream is to attend a university such as Columbia University, Stanford University, or University of California, Berkeley to pursue studies in the field of law, with a particular interest in politics, international relations, and government. Karina is also interested in pursuing studies in the field of science, with a specific interest in the study of biology, with an emphasis in genetics. As an American-French dual citizen, Karina would also like to continue her studies in French, perhaps as a minor. Karina's work with the United Nations Foundation has inspired her to pursue a career in a non-profit organization with an international focus.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 16

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Elementary and Secondary Education Act: Approval of Local Educational Agency Plans, Title I, Section 1112.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

The Elementary and Secondary Education Act (ESEA) provides federal funding that may be available to local educational agencies (LEAs) [defined as districts, county offices of education, and direct-funded charter schools] for a variety of programs. Currently, only new direct-funded charter schools submit an LEA Plan as part of the application for ESEA funding. California Department of Education (CDE) program staff review LEA Plans for compliance with the requirements of ESEA before recommending approval to the State Board of Education (SBE).

RECOMMENDATION

The CDE recommends that the SBE approve nine direct-funded charter school LEA Plans listed in Attachment 1.

BRIEF HISTORY OF KEY ISSUES

The federal ESEA Section 1112(e)(2) states that the state educational agency (SEA) shall approve an LEA's Plan if the SEA determines that the LEA's Plan is designed to enable its schools to substantially help children meet the academic standards expected for all children. The approval of an LEA Plan by the local school board and by the SBE is a requirement for receiving federal funding sub-grants for ESEA programs. The LEA Plan includes specific descriptions and assurances as outlined in the provisions included in ESEA.

The purpose of the LEA Plan is to develop an integrated, coordinated set of actions that LEAs will take to ensure that they meet certain programmatic requirements, including student academic services designed to increase student achievement and performance, coordination of services, needs assessments, consultations, school choice, supplemental services, services to homeless students, and others as required.

BRIEF HISTORY OF KEY ISSUES (Cont.)

CDE program staff review LEA Plans for compliance with the requirements of the ESEA including evaluation of goals and activities designed to improve student performance in reading and mathematics; improve programs for English learner students; improve professional development and ensure the provision of highly qualified teachers; ensure that school environments are safe, drug-free, and conducive to learning; and promote efforts regarding graduation rates, dropout prevention, and advanced placement. If an LEA Plan lacks the required information, CDE program staff works with the LEA to ensure the necessary information is included in the LEA Plan before recommending approval.

Following initial CDE review and SBE approval, all LEAs are expected to annually review their Plans and update them as necessary. Any changes to the LEA Plan must be approved by an LEA's local governing board.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Since the current LEA Plan process was developed in July 2003 as a requirement of the ESEA, the SBE has approved 1,594 LEA Plans.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no fiscal impact to state operations.

ATTACHMENT(S)

-- Indicates no data are available.

** Indicates AYP criteria are not applied because there are too few students in this subgroup to be numerically significant.

***Growth targets are 5 percent difference between the Base API and statewide target of 800. The 2010 API criteria for meeting federal AYP: a minimum “2011 Growth API” score of 710 OR “2010–11 Growth” of at least one point.

****2011 Growth API is not reported for this school because there was a decrease of ore than 20 percent of students continuously enrolled from the 2010 Base API to the 2011 Growth API or the LEA reported a potential data error in this area. CDE will publish the API for this school in February 2012, to reflect demographic data corrections made in September and October 2011.

California State Board of Education

Meeting Agenda Items for January 11-12, 2012

ITEM 17

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT Approval of 2011–12 Consolidated Applications.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing
--	--

SUMMARY OF THE ISSUE(S)

Each local educational agency (LEA) must submit a complete and accurate Consolidated Application (ConApp) each fiscal year in order for the California Department of Education (CDE) to send funding to LEAs for any or all of the categorical funds contained in the ConApp for which they are eligible. The ConApp is the annual fiscal companion to the LEA Plan. The State Board of Education (SBE) is asked to annually approve the ConApps for more than 1,535 school districts, county offices of education, and direct-funded charter schools.

RECOMMENDATION

The CDE recommends that the SBE approve the 2011–12 ConApps submitted by LEAs in Attachment 1.

BRIEF HISTORY OF KEY ISSUES

Each year, the CDE, in compliance with *California Code of Regulations, Title 5, Section 3920*, recommends that the SBE approve applications for funding Consolidated Categorical Aid Programs submitted by LEAs. Prior to receiving funding, the LEA must also have a SBE-approved LEA Plan that satisfies the SBE's and CDE's criteria for utilizing federal and state categorical funds.

Approximately \$2.9 billion of state and federal funding is distributed annually through the ConApp process. The 2011–12 ConApp consists of six federal programs and only one state-funded program. The state funding source is Economic Impact Aid (which is used for State Compensatory Education and/or English learners). The federal funding sources include:

BRIEF HISTORY OF KEY ISSUES (Cont.)

- Title I, Part A Basic Grant (Low Income);
- Title I, Part D (Delinquent);
- Title II, Part A (Teacher Quality);
- Title III, Part A (Immigrant);
- Title III, Part A (Limited English Proficient Students); and
- Title VI, Part B (Rural, Low-Income).

The CDE provides the SBE with two levels of approval recommendations. Regular approval is recommended when an LEA has submitted a correct and complete ConApp, Part I, and has no compliance issues or is making satisfactory progress toward resolving one or two noncompliant issues that are less than 365 days. Conditional approval is recommended when an LEA has submitted a correct and complete ConApp, Part I, but has one or more noncompliant issues that is/are unresolved for over 365 days. Conditional approval by the SBE provides authority to the LEA to spend its categorical funds under the condition that it will resolve or make significant progress toward resolving noncompliant issues. In extreme cases, conditional approval may include the withholding of funds.

Attachment 1 identifies the LEAs that have no outstanding noncompliant issues or are making satisfactory progress toward resolving one or two noncompliant issues that is/are unresolved for less than 365 days. The CDE recommends regular approval of the 2011–12 ConApp for these 13 LEAs. Attachment 1 also includes ConApp entitlement figures from school year 2010–11 because the figures for 2011–12 have not yet been determined. Fiscal data are absent if an LEA is new or is applying for direct funding for the first time.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

To date, the SBE has approved 2011–2012 ConApps for 1,567 LEAs. Attachment 1 represents the third set of 2011–12 ConApps presented to the SBE for approval.

FISCAL ANALYSIS (AS APPROPRIATE)

The CDE provides resources to track the SBE approval status of the ConApps for more than 1,535 LEAs. The cost to track the noncompliant status of LEAs related to programs within the ConApp is covered through a cost pool of federal funds and Economic Impact Aid funds. CDE staff communicates with LEA staff on an ongoing basis to determine the evidence needed to resolve issues, reviews the evidence provided by LEA staff, and maintains a tracking system to document the resolution process.

ATTACHMENT(S)

Attachment 1: Consolidated Applications (ConApp) List (2011–12) - Regular Approvals (1 Page)

Consolidated Applications (ConApp) List (2011–12) – Regular Approvals

The following local educational agencies (LEAs) have submitted a correct and complete ConApp, Part I, and have no compliance issues or are making satisfactory progress toward resolving one or two noncompliant issues that are less than 365 days. The California Department of Education recommends regular approval of these applications.

ITEM 18

CALIFORNIA STATE BOARD OF EDUCATION

JANUARY 2012 AGENDA

SUBJECT	
Assignment of Numbers for Charter School Petitions.	<input checked="" type="checkbox"/> Action <input checked="" type="checkbox"/> Information <input type="checkbox"/> Public Hearing

SUMMARY OF THE ISSUE(S)

The State Board of Education (SBE) is responsible for assigning a number to each approved charter petition. The California Department of Education (CDE) staff presents this routine request for assignment of charter numbers as a standard action item.

RECOMMENDATION

The CDE recommends that the SBE assign charter numbers to the charter schools identified on the attached list.

BRIEF HISTORY OF KEY ISSUES

Since the charter school law was enacted in 1992, the SBE has assigned numbers to 1,372 charter schools, including some approved by the SBE after denial by local educational agencies. Separate from that numbering system, 8 all-charter districts which currently serve a total of 18 school sites, have been jointly approved by the State Superintendent of Public Instruction and the SBE.

California *Education Code (EC)* Section 47602 requires the SBE to assign a number to each charter school that has been approved by a local entity in the chronological order in which it was received. This numbering ensures that the state stays within a statutory cap on the total number of charter schools authorized to operate. The statutory cap for fiscal year 2011–12 is 1,550. The statutory cap is not subject to waiver.

The charter schools listed in Attachment 1 were recently approved by local boards of education as noted. Copies of the charter petitions are on file in the Charter Schools Division.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The SBE is responsible for assigning a number to each approved charter petition. CDE staff presents this routine request for assignment of charter numbers as a standard action item.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no fiscal impact to the state resulting from the assignment of numbers to recently authorized charter schools.

California *Education Code* Section 47602

47602. (a) (1) In the 1998-99 school year, the maximum total number of charter schools authorized to operate in this state shall be 250. In the 1999-2000 school year, and in each successive school year thereafter, an additional 100 charter schools are authorized to operate in this state each successive school year. For the purposes of implementing this section, the State Board of Education shall assign a number to each charter petition that it grants pursuant to subdivision (j) of Section 47605 or Section 47605.8 and to each charter notice it receives pursuant to this part, based on the chronological order in which the notice is received. Each number assigned by the state board on or after January 1, 2003, shall correspond to a single petition that identifies a charter school that will operate within the geographic and site limitations of this part. The State Board of Education shall develop a numbering system for charter schools that identifies each school associated with a charter and that operates within the existing limit on the number of charter schools that can be approved each year. For purposes of this section, sites that share educational programs and serve similar pupil populations may not be counted as separate schools. Sites that do not share a common educational program shall be considered separate schools for purposes of this section. The limits contained in this paragraph may not be waived by the State Board of Education pursuant to Section 33050 or any other provision of law.

(2) By July 1, 2003, the Legislative Analyst shall, pursuant to the criteria in Section 47616.5, report to the Legislature on the effectiveness of the charter school approach authorized under this part and recommend whether to expand or reduce the annual rate of growth of charter schools authorized pursuant to this section.

(b) No charter shall be granted under this part that authorizes the conversion of any private school to a charter school. No charter school shall receive any public funds for a pupil if the pupil also attends a private school that charges the pupil's family for tuition. The State Board of Education shall adopt regulations to implement this section.
