RECEIVED

March 15, 2010

MAR 18 2010

CHARTER SCHOOLS  
DIVISION

State Board of Education:

Attached you will find a petition that was signed by 224 Fillmore Unified School District employees who are not in favor of Piru School becoming a Charter School. We have listed four main reasons why we oppose the change at this time. Parents of Piru students are against the conversion to a charter, there is an unsound budget in the proposal, the school board is made up of the majority of teachers chosen by them and Parents do not have a choice of another school in the small community of Piru to send their children to.

Please look at the more detailed reasons why over half of our school district employees sign this petition. This petition was signed by classified employees, certificated employees, management and confidential employees along with administrators. Fillmore-Piru is a closely knitted community that wants the best for our children and students and we do not feel that this is the best or will be the best.

Thank you for your consideration.

Sincerely,

Janice Schieferle, LVN  
(805) 320 -0851

(805) 521-1709

March 1, 2010

TO: State Board of Education

The undersigned Fillmore Unified School District employees are not in favor of Piru School becoming a Charter School for the following reasons:

1. **PARENTS ARE AGAINST THE CONVERSION TO A CHARTER** - The parent community of Piru was, by in large, left out of the process of deciding whether or not Piru should become a charter school. The majority of Piru parents are **NOT IN FAVOR** of Piru becoming a charter school as was clearly evidenced at the public hearing and again at the County hearing.
2. **UN SOUND BUDGET** - The petitioners **overestimated the enrollment** of students which will result in an underestimation of funds available to run the school and also state that they plan to **apply for an unsecured private loan** of \$350,000.00 in order to meet the budget requirements
3. **GOVERNANCE** - The Charter petition is in **violation of Government Code Section 1090** requiring compliance with appropriate conflict of interest laws that are fundamental to the protection of the public's interest when dealing with public funds.
4. **REMOVES PARENT CHOICE** - Piru School currently serves a small rural community which is located 7 miles from all other schools within the Fillmore Unified School District. If Piru School is authorized to become a Charter school, parents who oppose the charter would have no choice of schools within the community in which they live. Parents would be forced to have their students bussed 7 miles outside their community to schools in another town but still within the Fillmore Unified School District.

TO: State Board of Education

The undersigned Fillmore Unified School District employees are not in favor of Piru School becoming a Charter School for the following reasons:

1. **PARENTS ARE AGAINST THE CONVERSION TO A CHARTER** - The parent community of Piru was, by in large, left out of the process of deciding whether or not Piru should become a charter school. The majority of Piru parents are **NOT IN FAVOR** of Piru becoming a charter school as was clearly evidenced at the public hearing and again at the County hearing.
2. **UNSOUND BUDGET** - The petitioners **overestimated the enrollment** of students which will result in an underestimation of funds available to run the school and also state that they plan to **apply for an unsecured private loan** of \$350,000.00 in order to meet the budget requirements
3. **GOVERNANCE** - The Charter petition is in **violation of Government Code Section 1090** requiring compliance with appropriate conflict of interest laws that are fundamental to the protection of the public's interest when dealing with public funds.
4. **REMOVES PARENT CHOICE** - Piru School currently serves a small rural community which is located 7 miles from all other schools within the Fillmore Unified School District. If Piru School is authorized to become a Charter school, parents who oppose the charter would have no choice of schools within the community in which they live. Parents would be forced to have their students bussed 7 miles outside their community to schools in another town but still within the Fillmore Unified School District.
