

Below are the results of two similar surveys designed to identify factors related to how much time students have to eat during the lunch period. The anonymous responses were collated and not tied to a single respondent. The first survey was sent to 5,668 elementary school principals; 699 completed the survey, resulting in a 12.3 percent response rate. The second survey was sent to 3,131 middle and high school principals; 317 completed the survey, resulting in a 10.1 percent response rate.

Submitted Best Practices for Lunch (optional)

Points of Service

Upgrading or adding points of service to speed up or shorten the lunch line (10)
Rearrange or spread points of service out for better access (3)
Speeding up service with barcode scanners, photo IDs, lanyards with lunch cards, etc.
Students line up alphabetically

Lunch Periods

Add a lunch period or institute staggered, overlapping lunches (22)
Lengthen lunch by adding time at the end of the school day (2)
Discontinue morning recess and add that time to the lunch period

Supervision at Lunch

Adding additional staff to supervise in the cafeteria or on the lunch line (3)
Parents on campus help provide lunchtime supervision
Principal does daily lunch duty to promote good behavior and improve morale
Assigned tables

Recess or Free Time

Recess before lunch (37)
Alternate lunch and recess; some students are out playing while others eat (6)
Students have a 15 minute recess, eat lunch, and then have another 15 minute recess
Free time 5 minutes before lunch to allow older students to expend some energy before eating

Cafeteria Exit Policy

Students must be dismissed instead of just getting up to leave when finished (15)
Require a specific amount of time for sitting and eating before going out to play (14)
A few minutes of quiet at the end of the lunch period to encourage children to finish eating (4)
Timers in the cafeteria start when the last student in line sits down

Miscellaneous

Teamwork between school administration and nutrition staff at the school and district level (6)
Front of the lunch line passes for students at the end of the line or as an incentive (2)
Extra time added onto a lunch period for a reward (2)
Improved food quality, variety, and attention paid to student preference (2)
Fruit should be cut when served; packaged or whole fruit takes too long to consume
Local school wellness policy supports time to eat and nutritional quality
