## World Language Content Standards for California Public Schools Kindergarten Through Grade Twelve

Today's global economy demands proficiency in world languages and knowledge of other cultures. The standards are based on the stages of the Language Learning Continuum, which provides clear benchmarks for measuring students' ability to perform in the target language in culturally appropriate ways. In turn, the standards clearly define what students should know and be able to do at each stage of the Continuum. The standards are not tied to specific grade levels, because there are various levels of student proficiency and multiple points of entry and exit from language programs. The standards are designed to accommodate all languages as learners progress along the Continuum in acquiring proficiency in languages other than English.

2010, 24 pp.
