California Common Core State Standards
English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects

The California Standards include the standards developed by the Common Core State Standards Initiative with specific additions to maintain and build on the rigor of California's previous English language arts standards. For grades 6–12, they also include literacy standards to supplement content standards in history/social studies, science, and technical subjects. The standards prepare students to be college- and career-ready by the end of high school.

2013, 94 pp.

California Common Core State Standards
Mathematics

The California Common Core State Standards for Mathematics include the standards developed by the Common Core State Standards Initiative. California's additions to the CCSS are designated to show that the rigor of California's previous mathematics standards was retained. Grade-level standards for kindergarten through grade eight are clearly defined. The standards for higher mathematics are organized into courses in two pathways: traditional and integrated. The standards are also organized by conceptual categories. A glossary is included.

California English Language Development Standards
Kindergarten Through Grade 12

The California English Language Development Standards describe the reading, writing, speaking, and listening skills that English learners need in order to access, engage with, and achieve in grade-level academic content for kindergarten through grade 12. The standards are aligned with the California Common Core State Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects. Three chapters are devoted to professional development so that educators understand the pedagogical shifts and how the standards should be used for instruction. A glossary of key terms is included.

California Public School Directory CD-ROM Products

Each year, organizations and businesses know they can rely on the California Public School Directory to reach their target audience. CD-ROM products allow them to easily create custom mailings and reach a particular education community. The Electronic Public School Directory (ePSD) is updated regularly to ensure the most current school-contact information is available. The California Department of Education offers two valuable CD-ROM products: ePSD Standard and ePSD Complete.

ePSD Standard
Includes basic mailing addresses, including a primary contact, for schools, district offices, and county offices of education.

Item 009770—$110.00

ePSD Complete
Includes all the information in the ePSD Standard plus telephone and fax numbers, physical addresses, grade spans, enrollment figures, and year-round and charter status.

Item 009746—$395.00
A Look at Kindergarten Through Grade Six in California Public Schools
Transitioning to the Common Core State Standards in English Language Arts and Mathematics

The integration of the new Common Core State Standards (CCSS) into instructional practice, standards-based materials, and assessments has begun. To provide assistance during this transition to the CCSS, the California Department of Education has developed this publication. It can be used by teachers and grade-level teams, by administrators for professional development and schoolwide curriculum planning, and by parents to learn more about the new standards and how the standards are likely to impact their children’s education.

An online resource provides information regarding all curricular content areas in the course of study: history–social science, science, physical education, health, visual and performing arts, world languages, and school library, in addition to the English language arts and mathematics sections. The entire printed resource includes a CD-ROM.

California Infant/Toddler Curriculum Framework

The California Infant/Toddler Curriculum Framework provides early childhood professionals with a structure for making informed decisions about curriculum practices. Based on current research on how infants and toddlers develop in four domains (social-emotional development, language development, cognitive development, and perceptual and motor development), the book discusses principles for supporting early learning, a planning process, and strategies to help infant/toddler care teachers in their efforts to support children’s learning from birth to age three.

Item: 001723—$20.85

California Infant/Toddler Learning & Development Foundations

Twenty-eight foundations in four domains describe the competencies that infants and toddlers typically attain in the first three years of life. The descriptions of competencies are accompanied by examples of typical behaviors leading up to attainment of those competencies, at each age level, in each of the four domains. This publication is a counterpart to the California Preschool Learning Foundations and is a companion to the Infant/Toddler Learning & Development Program Guidelines.

California Preschool Learning Foundations

Children who attend high-quality preschools are better prepared for kindergarten, both emotionally and academically. This book helps teachers and administrators plan and recognize effective strategies for preschoolers. Developed to ensure school readiness for all children, including children with disabilities and children from diverse cultural and linguistic backgrounds, the foundations encompass nine domains in three volumes. Each volume includes a glossary, extensive references, and a summary list of the foundations.

Inclusion Works!
Creating Child Care Programs That Promote Belonging for Children with Special Needs

This handbook for providers of child care programs gives guidance and resources on specific ways to include young children who have disabilities or special needs. Suggestions for ways to adapt the environment are provided, along with examples of inclusive strategies. A glossary and appendices make this handbook a practical tool for care providers.

Item 001689—$21.95

Second Edition

Six experts on early development provide guidance on supporting cognitive development and learning in early care and education programs for infants and toddlers. There are practical ideas on how to create relationships with children that encourage exploration and discovery and help them to become confident learners. Chapters on the positive effects of caregiver responsiveness on cognitive development and the formative role of the family’s culture reflect the latest research findings. The guide includes an appendix that presents California’s early learning and development foundations for the domain of cognitive development.

Infant/Toddler Caregiving: A Guide to Creating Partnerships with Families

Second Edition

The second edition offers program directors, teachers, and providers of child care programs expanded information on working with families of infant/toddlers from diverse backgrounds and cultures. It provides strategies to ease family concerns about using out-of-home care and to address their feelings about leaving their young children with others. Five appendixes, including sample forms, help to make this guide useful for addressing the many elements of engaging families in high-quality child care programs.

Item: 001705—$19.80
2010, 128 pp.

Second Edition

Child care programs often have children of diverse races and cultures. This second edition covers the latest research on the role of family culture in a child’s development of communication. A new chapter discusses ways in which parents and teachers can build a foundation for literacy in infants and toddlers. The publication also includes new appendixes, one of which contains the language development foundations for infants and toddlers.

Item: 001712—$19.80
Infant/Toddler Caregiving: A Guide to Setting Up Environments
Second Edition

This guide offers tested ideas for setting up a child care environment that fosters early learning and is safe and healthful. The second edition includes updated resources, sample layouts of exemplary child care settings, and a new section on ways to accommodate children with disabilities or special needs. It contains practical ideas for designing an environment suited to both mobile infants and active toddlers. The needs of caregivers are also considered in the environmental design.

Item: 001701—$19.80

Second Edition

The second edition of this caregiving guide features updated approaches to nurturing the social and emotional growth of infants and toddlers. Current research on brain development and its relationship to children’s emotional growth and socialization is also discussed. An appendix of the social-emotional development foundations is included.
