Introduction - Grade 2 English–Language Arts

The following released test questions are taken from the Grade 2 English–Language Arts Standards Test. This test is one of the California Standards Tests administered as part of the Standardized Testing and Reporting (STAR) Program under policies set by the State Board of Education.

All questions on the California Standards Tests are evaluated by committees of content experts, including teachers and administrators, to ensure their appropriateness for measuring the California academic content standards in Grade 2 English–Language Arts. In addition to content, all items are reviewed and approved to ensure their adherence to the principles of fairness and to ensure no bias exists with respect to characteristics such as gender, ethnicity, and language.

This document contains released test questions from the California Standards Test forms in 2003, 2004, 2005, 2006, and 2007. First on the pages that follow are lists of the standards assessed on the Grade 2 English–Language Arts Test. Next are released passages and test questions. Following the questions is a table that gives the correct answer for each question, the content standard that each question is measuring, and the year each question last appeared on the test.

The following table lists each strand/reporting cluster, the number of items that appear on the exam, and the number of released test questions that appear in this document.

In selecting test questions for release, three criteria are used: (1) the questions adequately cover a selection of the academic content standards assessed on the Grade 2 English–Language Arts Test; (2) the questions demonstrate a range of difficulty; and (3) the questions present a variety of ways standards can be assessed. These released test questions do not reflect all of the ways the standards may be assessed. Released test questions will not appear on future tests.

The Reading Comprehension Strand/Cluster

The following seven California English–Language Arts content standards are included in the Reading Comprehension strand/cluster and are represented in this booklet by 23 test questions for grade 2. These questions represent only some ways in which these standards may be assessed on the Grade 2 California English–Language Arts Standards Test.

2RC2.0 READING COMPREHENSION: Students read and understand grade-level-appropriate material. They draw upon a variety of comprehension strategies as needed (e.g., generating and responding to essential questions, making predictions, comparing information from several sources). The selections in Recommended Readings in Literature, Kindergarten Through Grade Eight illustrate the quality and complexity of the materials to be read by students. In addition to their regular school reading, by grade four, students read one-half million words annually, including a good representation of grade-level-appropriate narrative and expository text (e.g., classic and contemporary literature, magazines, newspapers, online information). In grade two, students continue to make progress toward this goal.

2RC2.1 Structural Features of Informational Materials: Use titles, tables of contents, and chapter headings to locate information in expository text.

2RC2.3 Comprehension and Analysis of Grade-Level-Appropriate Text: Use knowledge of the author’s purpose(s) to comprehend informational text.

2RC2.4 Comprehension and Analysis of Grade-Level-Appropriate Text: Ask clarifying questions about essential textual elements of exposition (e.g., why, what if, how).

2RC2.5 Comprehension and Analysis of Grade-Level-Appropriate Text: Restate facts and details in the text to clarify and organize ideas.

2RC2.6 Comprehension and Analysis of Grade-Level-Appropriate Text: Recognize cause-and-effect relationships in a text.

2RC2.7 Comprehension and Analysis of Grade-Level-Appropriate Text: Interpret information from diagrams, charts, and graphs.

2RC2.8 Comprehension and Analysis of Grade-Level-Appropriate Text: Follow two-step written instructions.
The Literary Response and Analysis Strand/Cluster

The following four California English–Language Arts content standards are included in the Literary Response and Analysis strand/cluster and are represented in this booklet by seven test questions for grade 2. These questions represent only some ways in which these standards may be assessed on the Grade 2 California English–Language Arts Standards Test.

2RL3.0 LITERARY RESPONSE AND ANALYSIS: Students read and respond to a wide variety of significant works of children’s literature. They distinguish between the structural features of the text and the literary terms or elements (e.g., theme, plot, setting, characters). The selections in Recommended Readings in Literature, Kindergarten Through Grade Eight illustrate the quality and complexity of the materials to be read by students.

2RL3.1 Narrative Analysis of Grade-Level-Appropriate Text: Compare and contrast plots, settings, and characters presented by different authors.

2RL3.2 Narrative Analysis of Grade-Level-Appropriate Text: Generate alternative endings to plots and identify the reason or reasons for, and the impact of, the alternatives.

2RL3.3 Narrative Analysis of Grade-Level-Appropriate Text: Compare and contrast different versions of the same stories that reflect different cultures.

2RL3.4 Narrative Analysis of Grade-Level-Appropriate Text: Identify the use of rhythm, rhyme, and alliteration in poetry.

Fall Flowers

As summer ends and fall begins, you can still enjoy spring flowers—inside! It’s an easy way to make your home look pretty.

Some flowers grow from seeds. Other flowers, such as tulips, grow from bulbs. A flower bulb looks like an onion. Some bulbs are as big as eggs. Flowers grown from bulbs come in many different colors.

Some bulb flowers are easier than others to grow inside. A good one to try first is called a paperwhite. As many as twelve sweet-smelling flowers can grow from one paperwhite bulb.

**FOLLOW THESE SIMPLE STEPS:**

1. Find a large glass jar that is clear enough to see through. Fill the jar almost to the top with marbles, stones, or shells. This will give the bulb’s roots something to hold onto as they grow. It will also give you a place to set the bulb.

2. Place the bulb on top of the marbles. The bottom of the bulb is the part that is pointed, like the bottom of a heart shape. Push the bulb into the marbles just far enough to make it stay.

3. Fill the jar with water. Use just enough water to cover just the bottom part of the bulb.

4. Put the jar in a place where the bulb will get plenty of light. Check every day to make sure there is still the right amount of water in the jar. Add water when it is needed. Soon the roots will start to grow. In a few weeks, you can enjoy watching the flowers bloom.

There are a few different kinds of paperwhites, and not all of them are all white. Some are white and yellow, and others are yellow and orange. See what you can find at the garden store. You might want to grow more than one next time!
9 Why should the jar be made of glass?

A You can use a glass jar again later.
B Glass is heavy, so the jar will not tip over.
C The glass will keep the roots warm.
D Glass is clear, so you can see the roots through it.

10 Which step tells why you should use marbles, stones, or shells?

A Step 1
B Step 2
C Step 3
D Step 4

11 When should you first put water in the jar?

A after the flowers bloom
B after the roots start to show
C after the plant is an inch tall
D after the bulb is placed on the marbles

12 The author uses the LAST paragraph mostly to help the reader

A feel excited about growing paperwhites.
B want to read more stories about flowers.
C think that growing flowers is easier than it really is.
D want to grow flowers that are not paperwhites.
Read the next two stories. Think about how these stories are the same and how they are different.

Story 1: The Drum — A Tale from India

1 Long ago in India, a boy named Sonu and his mother were walking home from the market. Along the way, Mother stopped and picked up a stick. “Here is a fine stick, Sonu,” she said. “I’m sorry it is not a drum. I know that you have been wishing for one.”

2 “Thank you, Mother,” said Sonu, taking the long piece of wood. He knew that she would buy him a drum if she had the money.

3 Soon they met a woman who was trying to start a fire. Her fire would not light. “Here,” said Sonu, handing her his stick. The woman used the stick to start the fire. Then she gave Sonu a chapati, a round, flat bread.

4 Next Sonu and his mother met a man and a little girl. The girl was hungry, so Sonu gave her his bread. “Here, take this drum,” said the man. “Someone gave it to my daughter, but she doesn’t need it.”

Story 2: The Blue Feather — A Tale from Brazil

1 Mia lived by the great Amazon River. One day her mother gave her a pretty blue feather.

2 Mia wanted to show the feather to her friend Nali. She put the feather in her basket and told her mother where she was going. Nali lived nearby in a hut by the river.

3 Walking on the path along the river, Mia saw a red flower. As she bent to pick up the flower, the wind blew the blue feather up into the air! Mia could not catch the feather. She sighed and put the red flower in her basket.

4 Then a yellow butterfly flew in front of Mia. Running to catch the butterfly, Mia dropped her basket. The red flower fell out, and the wind carried it out onto the river.

5 Mia sighed and picked up her basket. Looking up, Mia saw the yellow butterfly land on a branch where there was a bluebird. The bluebird flew away, dropping one of its beautiful blue feathers near Mia’s feet!

6 Happily, Mia picked up the feather and hurried to her friend’s house.
13 These stories happen
   A on hot days.
   B in different countries.
   C beside big rivers.
   D in dark forests.

14 If Sonu’s mother had not given him the stick, how would the END of Story 1 be different?
   A Sonu would not be so hungry.
   B Sonu would not be given a drum.
   C Sonu would not meet a little girl.
   D Sonu would not wish for a drum.

15 In BOTH stories, a child is
   A lonely.
   B playful.
   C lucky.
   D funny.

16 At the END of the stories, both Sonu and Mia
   A lose something.
   B are inside houses.
   C have things they like.
   D play with friends.
Big Bubbles

We all love bubbles. They float through the air like little glass balls. Bubbles shine and sparkle with colors and light. A bubble is just a puff of air with water around it. Soap makes the water stick together in a round shape.

You can make bubbles with dishwashing soap and a paper cup. You won’t make little bubbles as you do with most bubble-blowing wands. The bubbles you can blow with your paper cup bubble-blower will be really big!

Here’s what you will need:

- A large bowl
- A spoon
- 4 cups of water
- 5 tablespoons of dishwashing soap
- A pair of scissors
- A paper cup

Follow these steps to make and use your bubble-blower:

1. Fill the bowl with the water.

2. Add the dishwashing soap. Stir the water slowly as you pour the soap into the water. You don’t want to make bubbles in the bowl, so be sure to stir gently.

3. Cut a small hole in the bottom of the paper cup. This is the hole that you will blow through. It should be about 1/2-inch across.

4. Dip the top rim of the cup into the soapy water. (This is the edge of the cup from where you usually drink.) Slowly lift the cup out of the bowl. There should be a thin “window” of soapy water filling the open space of the cup.

5. Slowly put your mouth up to the hole in the bottom of the cup. Gently blow air through the hole. A big bubble will rise into the air!

For a party, you can make a paper cup bubble-blower for each friend. Just think of how many bubbles you can make together!
17. What does the author mostly want you to know about bubbles?
   A. It is easy to blow big bubbles at home.
   B. Some people do not like to blow bubbles.
   C. Bubbles can be caught in a spoon.
   D. Scissors will pop a bubble.

18. Which step tells you what you should pour into the water?
   A. Step 1
   B. Step 2
   C. Step 3
   D. Step 4

19. Which of these is NOT used to make bubbles?
   A. a pair of scissors
   B. a paper cup
   C. a little glass ball
   D. a large bowl

20. To blow more bubbles, which two steps should you do again?
   A. 1 and 2
   B. 2 and 3
   C. 3 and 4
   D. 4 and 5

Dolores Huerta

Dolores Huerta has worked hard most of her life to help other people. She has helped change things so that farm workers can have a better life.

Dolores grew up in California. She was a good student and liked school. After she finished high school, she went to college and studied to be a teacher. After she became a teacher, Dolores noticed that many of her students were not getting enough food to eat. Some of them wore very old clothes. Dolores wondered how she could help them.

Dolores decided to stop teaching so that she could spend more time helping the farm workers and their families. Dolores did not want to quit her job. She liked teaching, but she thought she could help the children more by helping their families. One thing she wanted to do was to get more pay for farm workers so they could buy their children the things they needed.
