

Appendix F

The California Poison Control System

The California Poison Control System (CPCS) provides immediate, free, and expert treatment advice and referral concerning exposure to poisonous or toxic substances. The system can be accessed anytime—24 hours a day, seven days a week, 365 days a year—by dialing **1-800-222-1222** from anywhere in California. Even if a poisoning is merely suspected, it is better to call the CPCS and be sure.

The CPCS is managed by the University of California, San Francisco School of Pharmacy, Department of Clinical Pharmacy at <https://www.ucsf.edu/>, and consists of four answering sites: Valley Children's Hospital (Fresno/Madera Division), UC Davis Medical Center (Sacramento Division), UC San Diego Medical Center (San Diego Division), and Zuckerberg San Francisco General Hospital and Trauma Center (San Francisco Division).

Contact information for the central office and the four answering sites is given below.

Central Office
