ESSA State Plan Guiding Principles

- Goal: Create a single, coherent system that avoids the complexities of having separate state and federal accountability structures.
- Ensure that state priorities and direction lead the plan with opportunities in the ESSA leveraged to assist in accomplishing goals and objectives.
- Refresh applications, plans, and commitments to ensure that local educational agencies are evidencing alignment of federal funds to state and local priorities.
- Use the ESSA State Plan to draw further focus to California's commitment to the implementation of rigorous state standards, equity, local control, performance, and continuous improvement.
- Leverage state administrative funds to realign California Department of Education (CDE) operations to state priorities.
- Strategically approach state-allowed reservations from Title programs to further state priorities.
