

DASS One-Year Graduation Rate

The Dashboard Alternative School Status (DASS) one-year graduation rate is reported for informational purposes and local planning and analyses. It is not used for accountability or state and federal support determinations.

Calculating the DASS One-Year Graduation Rate

The DASS one-year graduation rate is the percentage of students who are enrolled in grade twelve (along with early grade eleven graduates) and meet specific enrollment requirements. Unlike the combined four- and five-year graduation rate—which only counts students who earned a standard high school diploma or an alternative pathway diploma as graduates—students who completed specific certificates, earned the California Proficiency Program, or earned an adult education diploma are counted as graduates in the one-year DASS graduation rate, as referenced in this figure:

Graduates: Total number of students who

- meet the graduation criteria between July 1, 2024 and June 30, 2025;

Plus

- grade eleven and twelve students who graduated during the summer from July 1, 2025 to August 15, 2025.

Divided by

Equals

DASS one-year
graduation rate

Total number of

- graduates;

Plus

- grade twelve non-graduates who were enrolled for at least 90 cumulative calendar days from July 1, 2024 through June 30, 2025 with a primary enrollment (code 10) or short-term enrollment (code 30) in California Longitudinal Pupil Achievement Data System.

Additional information on the DASS one-year graduation rate can be found in the [California Department of Education \(CDE\) Dashboard Technical Guide web page](#).
