

# College/Career Indicator

On the California School Dashboard (Dashboard), local educational agencies (LEAs) and schools that serve students in grade twelve receive the College/Career Indicator (CCI). This indicator looks at how well LEAs and schools are preparing graduates for college and/or career. Graduates who meet specific CCI “Prepared” criteria are included in the calculations of the CCI.

To access the preparedness criteria, refer to the CCI: Measures of Readiness flyer on the [California Department of Education \(CDE\) College/Career Indicator web page](#).

## Calculating Current Year Data (Status)

\*Percent Prepared is used to determine the Status level (Very High to Very Low) for this indicator.

*Note: Only students who receive a regular high school diploma are counted as graduates. Students who earn a Special Education Certificate of Completion, a California High School Equivalency Certificate, an adult education diploma, or pass the California Proficiency Program are not included as graduates.*

## Comparing Current and Prior Year Data (Change)

Current and prior year data are compared to determine how an LEA or school’s CCI changed.

The current year data are compared with prior year data to determine a Performance Level, or color. Access the flyer about How Dashboard Colors are Determined on the [CDE Dashboard Communications Toolkit web page](#).

For more information, visit the [CDE California School Dashboard and System of Support web page](#).
