Questions: State Board of Education | 916-319-0827

Last Modified: Monday, August 29, 2011
Vision, Mission, and Goals
California State Board of Education.

VISION
All California students of the 21st century will attain the highest level of academic knowledge, applied learning and performance skills to ensure fulfilling personal lives and careers and contribute to civic and economic progress in our diverse and changing democratic society.

MISSION
Create strong, effective schools that provide a wholesome learning environment through incentives that cause a high standard of student accomplishment as measured by a valid, reliable accountability system.

GOALS
1. Standards. Adopt and support rigorous academic content and performance standards in the four core subjects for kindergarten and grades 1 through 12.
2. Achievement. Ensure that all students are performing at grade level or higher, particularly in reading and math, at the end of each school year, recognizing that a small number of exceptional needs students must be expected, challenged, and assisted to achieve at an individually determined and appropriately high level. Advocate for mandatory intervention for every child not at grade level. Do everything possible to ensure that "the job is done right in the first place".
3. Assessment. Maintain policies assuring that all students receive the same nationally normed and standards-based assessments, grades 2 through 11, again recognizing that a small number of exceptional needs students must be separately and individually assessed using appropriate alternative means to determine achievement and progress.

Questions: State Board of Education | 916-319-0827
Last Reviewed: Friday, August 26, 2011
Bylaws
For the California State Board of Education, Amended July 9, 2003.

ARTICLE I
Authority

The California State Board of Education is established in the Constitution of the State of California and empowered by the Legislature through the California Education Code.

ARTICLE II
Powers and Duties

The Board establishes policy for the governance of the state’s kindergarten through grade twelve public school system as prescribed in the Education Code, and performs other duties consistent with statute.

ARTICLE III
Members

APPOINTMENT

Section 1.

The State Board of Education consists of 11 members who are appointed by the Governor with the advice and consent of two-thirds of the Senate.

CC, Art. IX, Sec. 7
EC 33000 and 33000.5

TERM OF OFFICE

Section 2.

(a) The term of office of the members of the Board is four years, except for the student member whose term is one year.

(b) Except for the student member, who serves a one-year term, terms expire on January 15 of the fourth year following their commencement. Members, other than the student member, continue to serve until the appointment and qualification of their successors to a maximum of 60 days after the expiration of their terms. If the member is not reappointed and no successor is appointed within that 60-day period, the member may no longer serve and the position is deemed vacant. The term of the student member begins on August 1 and ends on July 31 of the following year.

(c) If the Senate refuses to confirm, the person may continue to serve until 60 days have elapsed since the refusal to confirm or until 365 days have elapsed since the person first began performing the duties of the office, whichever occurs first.

(d) If the Senate fails to confirm within 365 days after the day the person first began performing the duties of the office, the person may not continue to serve in that office following the end of the 365-day period.

EC 33001; 33000.5
GC 1774

VACANCIES

Section 3.
Any vacancy shall be filled by appointment by the Governor, subject to confirmation by two-thirds of the Senate. The person appointed to fill a vacancy shall hold office only for the balance of the unexpired term.

EC 33002

STUDENT MEMBER

Section 4.

Finalists for the student member position shall be selected and recommended to the Governor as prescribed by law.

EC 33000.5

COMPENSATION AND EXPENSES

Section 5.

Members of the Board shall receive their actual and necessary travel expenses while on official business. Each member shall also receive one hundred dollars ($100) for each day he or she is acting in an official capacity.

EC 33006
GC 11564.5

CONFLICT OF INTEREST CODE

Section 6.

Board members shall file statements of economic interest as required by the Fair Political Practices Commission. The terms of a standard Conflict of Interest Code, adopted by the Commission and as may be amended, are incorporated by reference and constitute the Conflict of Interest Code of the Board.

2 CCR 18730
5 CCR 18600

ARTICLE IV

Officers and Duties

PRESIDENT, VICE PRESIDENT

Section 1.

Officers of the Board shall be a president and a vice president. No member may serve as both president and vice president at the same time.

Section 2.

(a) The president and vice president shall be elected annually in accordance with the procedures set forth in this section.

(b) Prior to the December regular meeting, letters of nomination for the offices of president and vice president for the forthcoming calendar year shall be submitted to the executive director. When a member submits a letter nominating another member for either office, it shall be understood that the member being nominated has been consulted and has agreed to serve if elected. Members interested in serving in either office may nominate themselves.

(c) At a time to be set aside for the purpose by the president at the December meeting, the executive director shall indicate the names placed in nomination in accordance with paragraph (b). The president shall then call for other nominations from the floor, including self-nominations, which shall then be in order and shall not require a second.

(d) From the names placed in nomination at the December meeting, along with any additional nominations from the floor subject to the conditions set forth in this paragraph, a president and a vice president shall be elected at the beginning of the January regular meeting each year, with the newly elected officers assuming office immediately following the election. No member may nominate
himself or herself for the office of president or vice president at the January meeting, and any nomination for such office must be
seconded if made at the January meeting.

(e) Six votes are necessary to elect an officer, and each officer elected shall serve for one year or until his or her successor is
elected.

(f) If, in the Board's judgment, no nominee for the office of president or vice president can garner sufficient votes for election to that
office at the January meeting, a motion to put the election over to a subsequent meeting is in order.

(g) If the Board, in its discretion, determines that no nominee for the office of president or vice president can garner sufficient votes for
election to that office at the January meeting, any motion to put the election over to a subsequent meeting is in order.

(h) If, in the Board's judgment, no nominee for the office of president or vice president can garner sufficient votes for election to that
office at the January meeting, a motion to put the election over to a subsequent meeting is in order.

EXECUTIVE OFFICER

Section 3.

The State Superintendent of Public Instruction shall be secretary and shall act as executive officer of the Board.

EC 33004

DUTIES OF THE PRESIDENT

Section 4.

The president shall:

- serve as spokesperson for the Board;
- represent the position of the Board to the State Superintendent of Public Instruction;
- appoint members to serve on committees and as liaisons, as prescribed in these Bylaws, and as may be needed in his or
  her judgment properly to fulfill the Board's responsibilities;
- serve as ex officio voting member of the Screening Committee and any ad hoc committees, either substituting for an
  appointed member who is not present with no change in an affected committee's quorum requirement, or serving as an
  additional member with the affected committee's quorum requirement being increased if necessary, provided that in no case
  shall the service of the president as ex officio voting member increase the total voting membership of a committee to more
  than five;
- preside at all meetings of the Board and follow-up with the assistance of the executive director to see that agreed upon
  action is implemented;
- serve, as necessary, as the Board's liaison to the National Association of State Boards of Education, or designate a member
  to serve in his or her place;
- serve, or appoint a designee to serve, on committees or councils that may be created by statute or official order where
  required or where, in his or her judgment, proper carrying out of the Board's responsibility demands such service;
- determine priorities for expenditure of Board travel funds;
- provide direction for the executive director;
- direct staff in preparing agendas for Board meetings in consultation with the other members as permitted by law;
- keep abreast of local, state, and national issues through direct involvement in various conferences and programs dealing
  with such issues, and inform Board members of local, state, and national issues;
- and participate in selected local, state, and national organizations, which have an impact on public education, and provide to
  other members, the State Superintendent, and the staff of the Department of Education the information gathered and the
  opinion and perspective developed as the result of such active personal participation.

DUTIES OF THE VICE PRESIDENT

Section 5.

The vice president shall:

- preside at Board meetings in the absence of the president;
- represent the Board at functions as designated by the president;
• and fulfill all duties of the president when he or she is unable to serve.

**DUTIES OF COMMITTEE CHAIR**

Section 6.

The chair of the Screening Committee or any ad hoc committee shall:

• preside at meetings of the committee he or she chairs, except that he or she shall yield the chair to another committee member in the event he or she will be absent or confronts a conflict regarding any matter coming before the committee, and may yield the chair to another committee member for personal reasons; and

• in consultation with the president, other committee members, and appropriate staff, assist in the preparation of committee agendas and coordinate and facilitate the work of the committee in furtherance of the Board's goals and objectives.

**DUTIES LIAISON OR REPRESENTATIVE**

Section 7.

A Board member appointed as a liaison or representative shall:

• serve as an informal (non-voting) link between the Board and the advisory body or agency (or function) to which he or she is appointed as liaison or representative; and

• reflect the position of the Board, if a position is known to him or her, on issues before the advisory body or agency (or within the function) to which he or she is appointed as liaison or representative and keep the Board appropriately informed.

**DUTIES OF A BOARD MEMBER APPOINTED TO ANOTHER AGENCY**

Section 8.

The member shall:

• to every extent possible, attend the meetings of the agency and meet all responsibilities of membership; and

• reflect through his or her participation and vote the position of the Board, if a position is known to him or her, and keep the Board informed of the agency's activities and the issues with which it is dealing.

**ARTICLE V**

**Meetings**

**REGULAR MEETINGS**

Section 1.

Generally, regular meetings of the Board shall be held on the Wednesday and Thursday preceding the second Friday of each of the following months: July, September, November, January, March, and May. However, in adopting a specific meeting schedule, the Board may deviate from this pattern to accommodate state holidays and special events. Other regularly noticed meetings may be called by the president for any stated purpose.

EC 33007

**SPECIAL MEETINGS**

Section 2.

Special meetings may be called to consider those purposes specified in law if compliance with the 10-day notice would impose a substantial hardship on the board or if immediate action is required to protect the public interest.

**OPEN MEETINGS**

Section 3.
(a) All meetings of the Board, except the closed sessions permitted by law, and all meetings of Board committees, to the extent required by law, shall be open and public.

(b) All meetings shall conform to the Bagley-Keene Open Meeting Act, including requirements for notices of meetings, preparation and distribution of agendas and written materials, inspection of public records, closed sessions and emergency meetings, maintenance of records, and disruption of a public meeting. Those provisions of law which govern the conduct of meetings of the Board are hereby incorporated by reference into these Bylaws.

(c) Unless otherwise provided by law, meetings of any advisory body, committee or subcommittee thereof, created by statute or by formal action of the Board, which is required to advise or report or recommend to the Board, shall be open to the public.

GC 11120 et seq.

NOTICE OF MEETINGS

Section 4.

(a) Notice of each regular meeting shall be posted at least 10 days prior to the time of the meeting and shall include the time, date, and place of the meeting and a copy of the meeting agenda.

(b) Notice of any meeting of the Board shall be given to any person so requesting. Upon written request, individuals and organizations wishing to receive notice of meetings of the Board will be included on the mailing list for notice of regular meetings.

SPECIAL MEETINGS

Section 5.

(a) Special meetings may be called by the president or by the secretary upon the request of any four members of the board for the purposes specified in law if compliance with the 10-day notice requirements would impose a substantial hardship on the board or if immediate action is required to protect the public interest.

(b) Notice of special meetings shall be delivered in a manner that allows it to be received by the members and by newspapers of general circulation and radio or television stations at least 48 hours before the time of the special meeting. Notice shall also be provided to all national press wire services. Notice to the general public shall be made by placing it on appropriate electronic bulletin boards if possible.

(c) Upon commencement of a special meeting, the board shall make a finding in open session that giving a 10-day notice prior to the meeting would cause a substantial hardship on the board or that immediate action is required to protect the public interest. The finding shall be adopted by a two-thirds vote of the board or a unanimous vote of those members present if less than two-thirds of the members are present at the meeting.

EC 33008
GC 11125

EMERGENCY MEETINGS

Section 5.

(a) An emergency meeting may be called by the president or by the secretary upon the request of any four members without providing the notice otherwise required in the case of a situation involving matters upon which prompt action is necessary due to the disruption or threatened disruption of public facilities and which is properly a subject of an emergency meeting in accordance with law.

(b) The existence of an emergency situation shall be determined by concurrence of six of the members during a meeting prior to an emergency meeting, or at the beginning of an emergency meeting, in accordance with law.

(c) Notice of an emergency meeting shall be provided in accordance with law.

GC 11125.5
EC 33008
EC 33010
CLOSED SESSIONS

Section 6.

Closed sessions shall be held only in accordance with law.

GC 11126

QUORUM

Section 7.

(a) The concurrence of six members of the Board shall be necessary to the validity of any of its acts.

EC 33010

(b) A quorum of any Board committee shall be a majority of its members, and a committee may recommend actions to the Board with the concurrence of a majority of a quorum.

ORDER OF BUSINESS

Section 8.

The order of business for all regular meetings of the Board shall generally be:

- Call to Order
- Salute to the Flag
- Reorganization of the Board (if necessary)
- Approval of Minutes
- Communications
- Announcements
- Report of the Superintendent
- Reports of Board Ad Hoc Committee and Liaisons (as necessary)
- Ordering of the Agenda
- Consent Calendar
- Full Board Items
- Reports of Board Standing Committees
- President's Report
- Member Reports
- Adjournment

CONSENT CALENDAR

Section 9.

(a) Non-controversial matters and waiver requests meeting established guidelines may be presented to the Board on a consent calendar.

(b) Items may be removed from the consent calendar upon the request of an individual Board member or upon the request of Department staff authorized by the State Superintendent of Public Instruction to submit items for consideration by the Board.

(c) Items removed from the consent calendar shall be referred to a standing committee or shall be considered by the full Board at the direction of the president.

ARTICLE VI

Committees and Representatives

SCREENING COMMITTEES

Section 1.
A Screening Committee composed of no fewer than three and no more than five members shall be appointed by the president to screen applicants for appointment to Board advisory bodies and other positions as necessary; participate, as directed by the president, in the selection of candidates for the position of student Board member in accordance with law; and recommend appropriate action to the Board.

AD HOC COMMITTEES

Section 2.

From time to time, the president may appoint ad hoc committees for such purposes as he or she deems necessary. Ad hoc committees shall remain in existence until abolished by the president.

REPRESENTATIVES

Section 3.

From time to time, the president may assign Board members the responsibility of representing the State Board in discussions with staff (as well as with other individuals and agencies) in relation to such topics as assessment and accountability, legislation, and implementation of federal and state programs. The president may also assign Board members the responsibility of representing the Board in ceremonial activities.

ARTICLE VII

Public Hearings: General

SUBJECT OF A PUBLIC HEARING

Section 1.

(a) The Board may hold a public hearing regarding any matter pending before it after giving the notice required by law.

(b) The Board may direct that a public hearing be held before staff of the Department of Education, an advisory commission to the Board, or a standing or ad hoc committee of the Board regarding any matter which is or is likely to be pending before the Board. If the Board directs that a public hearing be held before staff, then an audiotape of the public hearing and a staff-prepared summary of comments received at the public hearing shall be made available to the Board members in advance of the meeting at which action on the pending matter is scheduled.

5 CCR 18460
EC 33031
GC 11125

COPIES OF STATEMENTS

Section 2.

A written copy of the testimony a person wishes to present at a public hearing is requested, but not required. The written copy may be given to appropriate staff in advance of or at the public hearing.

TIME LIMITS FOR THE PRESENTATION OF PUBLIC TESTIMONY

Section 3.

At or before a public hearing, the presiding individual shall (in keeping with any legal limitation or condition that may pertain) determine the total amount of time that will be devoted to hearing oral comments, and may determine the time to be allotted to each person or to each side of an issue.

5 CCR 18463
EC 33031
WAIVER BY PRESIDING INDIVIDUAL

Section 4.

At any time, upon a showing of good cause, the presiding individual may waive any time limitation established under Section 3 of this article.

5 CCR 18464
EC 33031

ARTICLE VIII

Public Hearings: School District Reorganization

SUBMISSION OF PROPOSALS AND PETITIONS

Section 1.

A proposal by a county committee on school district organization or other public agency, or a petition for the formation of a new district or the transfer of territory of one district to another shall be submitted to the executive officer of the Board. The executive officer of the Board shall cause the proposal or petition to be:

- reviewed and analyzed by the California Department of Education;
- set for hearing before the Board (or before staff if so directed by the Board) at the earliest practicable date; and
- transmitted together with the report and recommendation of the Department of Education to the Board (or to the staff who may be directed by the Board to conduct the hearing) and to such other persons as is required by law not later than ten days before the date of the hearing.

CCR 18570

ARGUMENTS BEFORE THE BOARD: ORIGINAL SUBMISSION

Section 2.

At the time and place of hearing, the Board (or staff if so directed by the Board) will receive oral or written arguments on the proposal or petition. The presiding individual may limit the number of speakers on each side of the issue, limit the time permitted for the presentation of a particular view, and limit the time of the individual speakers. The presiding individual may ask that speakers not repeat arguments previously presented.

CCR 18571

RESUBMISSION OF THE SAME OR AN ESSENTIALLY IDENTICAL PROPOSAL OR PETITION

Section 3.

If the same or an essentially identical proposal or petition has been previously considered by the Board, the documents constituting such a resubmission shall be accompanied by a written summary of any new factual situations or facts not previously presented. In this case, any hearing shall focus on arguments not theretofore presented and hear expositions of new factual situations and of facts not previously entered into the public record.

CCR 18572

STATEMENTS

Section 4.

All statements are requested to be submitted to the Board (or to staff if so directed by the Board) in advance of the presentation. Statements are requested to be in writing and should only be summarized in oral testimony.
Public Records

Public records of the Board shall be available for inspection and duplication in accordance with law, including the collection of any permissible fees for research and duplication.

GC 6250 et seq

ARTICLE X

Parliamentary Authority

RULES OF ORDER

Section 1.

Debate and proceedings shall be conducted in accordance with Robert's Rules of Order (Newly Revised) when not in conflict with rules of the Board and other statutory requirements.

Section 2.

Members of the public or California Department of Education staff may be recognized by the president of the Board or other presiding individual, as appropriate, to speak at any meeting. Those comments shall be limited to the time determined by the president or other presiding individual. All remarks made shall be addressed to the president or other presiding individual. In order to maintain appropriate control of the meeting, the president or other presiding individual shall determine the person having the floor at any given time and, if discussion is in progress or to commence, who may participate in the discussion.

Section 3.

All speakers shall confine their remarks to the pending matter as recognized by the president or other presiding individual.

Section 4.

Public speakers shall not directly question members of the Board, the State Superintendent, or staff without express permission of the president or other presiding individual, nor shall Board members, the State Superintendent, or staff address questions directly to speakers without permission of the president or other presiding individual.

Section 5.

The Chief Counsel to the Board or the General Counsel of the California Department of Education, or a member of the Department's legal staff in the absence of the Board’s Chief Counsel, will serve as parliamentarian. In the absence of legal staff, the president or other presiding individual will name a temporary replacement if necessary.

ARTICLE XI

Board Appointments

ADVISORY BODIES

Section 1.

Upon recommendation of the Screening Committee as may be necessary, the Board appoints members to the following advisory bodies for the terms indicated:

(a) Advisory Commission on Special Education. The Board appoints five of 17 members to serve four-year terms.

EC 33590

(b) Curriculum Development and Supplemental Materials Commission. The Board appoints 13 of 18 members to serve four-year
terms.

EC 33530

(c) Child Nutrition Advisory Council. The Board appoints 13 members, 12 to three-year terms and one student representative to a one-year term. By its own action, the Council may provide for the participation in its meetings of non-voting representatives of interest groups not otherwise represented among its members, such as school business officials and experts in the area of physical education and activity.

EC 49533

(d) Advisory Commission on Charter Schools. The Board appoints eight members to two-year terms.

EC 47634.2(b)(1)
State Board of Education Policy 01-04

OTHER APPOINTMENTS

Section 2.

On the Board's behalf, the president makes the following appointments:

(a) WestEd (Far West Laboratory for Educational Research and Development). Five individuals to serve three-year terms on the Board of Directors as follows:

- one representing the California Department of Education;
- two representing school districts in California; and
- two representing county offices of education in California.

(b) Trustees of the California State Summer School for the Arts. Two members, one of whom shall be a current member of the Board, for terms of three years.

EC 8952.5

(c) No Child Left Behind Liaison Team. Two members for terms not to exceed two years.

EC 52058.1

SCREENING AND APPOINTMENT

Section 3.

Opportunities for appointment shall be announced and advertised as appropriate, and application materials shall be made available to those requesting them. The Screening Committee shall paper-screen all applicants, interview candidates as the Committee determines necessary, and recommend appropriate action to the Board.

ARTICLE XII

Presidential Appointments

LIAISONS

Section 1.

The president shall appoint one Board member, or more where needed, to serve as liaison(s) to:

(a) The Advisory Commission on Special Education;

(b) The Curriculum Development and Supplemental Materials Commission;

(c) The National Association of State Boards of Education, if the Board participates in that organization.
(d) The Commission on Teacher Credentialing.

(e) The California Postsecondary Education Commission: one member to serve as the president's designee if the president so chooses, recognizing that no person employed full-time by any institution of public or private postsecondary education may serve on the commission.

EC 66901(d) and (h)

OTHER

Section 2.

The president shall make all other appointments that may be required of the Board or that require Board representation.

ARTICLE XIII

Amendment to the Bylaws

These Bylaws may be amended at any regular meeting of the Board, provided that the amendment has been submitted in writing at the previous regular meeting.

The Closed Session (1) may commence earlier than 9:00 a.m.; (2) may begin at or before 9:00 a.m., be recessed, and then be reconvened later in the day; or (3) may commence later than 9:00 a.m.

CLOSED SESSION AGENDA

Conference with Legal Counsel – Existing Litigation: Under Government Code sections 11126(e)(1) and (e)(2)(A), the State Board of Education hereby provides public notice that some or all of the pending litigation which follows will be considered and acted upon in closed session:

- California School Boards Association, et al. v. California State Board of Education and Aspire Public Schools, Inc. Alameda Superior Court, Case No. 07353566
- California School Boards Association and its Education Legal Alliance, et al., v. The California State Board of Education, et al., Sacramento County Superior Court, Case No. 34-200800021188-CU-MC-GDS
- EMS-BP, LLC, Options for Youth Burbank, Inc. et al. v. California Department of Education, et al., Sacramento County Superior Court, Case No. 03CS01078 / 03CS01079 and related appeal
- Opportunity for Learning – PB, LLC; Opportunities for Learning – C, LLC, and Opportunities for Learning WSH, LLC Notice of Appeal Before the Education Audit Appeals Panel
Conference with Legal Counsel – Anticipated Litigation: Under Government Code sections 11126(e)(1) and (e)(2)(B), the State Board of Education hereby provides public notice that it may meet in closed session to decide whether there is a significant exposure to litigation, and to consider and act in connection with matters for which there is a significant exposure to litigation. Under Government Code sections 11126(e)(1) and (e)(2)(C), the State Board of Education hereby provides public notice that it may meet in closed session to decide to initiate litigation and to consider and act in connection with litigation it has decided to initiate.

Under Government Code section 11126(c)(14), the State Board of Education hereby provides public notice that it may meet in closed session to review and discuss the actual content of pupil achievement tests (including, but not limited to, the High School Exit Exam) that have been submitted for State Board approval and/or approved by the State Board.

Under Government Code section 11126(a), the State Board of Education hereby provides public notice that it may meet in closed session regarding the appointment, employment, evaluation of performance, or dismissal, discipline, or release of public employees, or a complaint or charge against public employees. Public employees include persons exempt from civil service under Article VII, Section 4(e) of the California Constitution.

ALL TIMES ARE APPROXIMATE AND ARE PROVIDED FOR CONVENIENCE ONLY
ALL ITEMS MAY BE RE-ORDERED TO BE HEARD ON ANY DAY OF THE NOTICED MEETING
THE ORDER OF BUSINESS MAY BE CHANGED WITHOUT NOTICE

Persons wishing to address the State Board of Education on a subject to be considered at this meeting, including any matter that may be designated for public hearing, are asked, but not required, to notify the State Board of Education Office (see telephone/fax numbers below) by noon of the third working day before the scheduled meeting/hearing, stating the subject they wish to address, the organization they represent (if any), and the nature of their testimony. Time is set aside for individuals so desiring to speak on any topic not otherwise on the agenda (please see the detailed agenda for the Public Session). In all cases, the presiding officer reserves the right to impose time limits on presentations as may be necessary to ensure that the agenda is completed.

REASONABLE ACCOMMODATION FOR ANY INDIVIDUAL WITH A DISABILITY

Pursuant to the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, any individual with a disability who requires reasonable accommodation to attend or participate in a meeting or function of the California State Board of Education (SBE), may request assistance by contacting the SBE Office, 1430 N Street, Room 5111, Sacramento, CA, 95814; telephone, 916-319-0827; fax, 916-319-0175.

ITEM 1
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

SUBJECT

☐ Action
☐ Information
☐ Public Hearing

RECOMMENDATION

It is recommended that the State Board of Education (SBE) take the following action:

• Approve Final Statement of Reasons;

• Formally adopt the proposed regulations approved by the SBE at the July 2011 meeting. No amendments or edits have been made to the proposed regulations;

• Direct the California Department of Education (CDE) to complete the rulemaking package and submit it to the Office of Administrative Law (OAL) for approval; and

• Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At its July 2011 SBE meeting, the SBE:

• Voted to approve putting forth proposed regulations for a third 15-day public comment period from July 22, 2011, to August 8, 2011, inclusive, in accordance with the Administrative Procedure Act. The current rulemaking file submitted to the OAL will expire on October 1, 2011.

At its April 2011 SBE meeting, the SBE:

• Voted to approve putting forth proposed regulations for a second 15-day public comment period from May 25, 2011, to June 9, 2011, inclusive, in accordance with the Administrative Procedure Act.
SUMMARY OF PREVIOUS (Cont.)

At its February 2011 SBE meeting, the SBE:

• Directed the CDE to convene a group of interested stakeholders to discuss emerging issues and topics resulting from submission of the first petition to a local educational agency (LEA) under the statute.

At its December 2010 SBE meeting, the SBE:

• Approved the proposed changes to the proposed regulations and directed that the proposed changes be circulated for a 15-day public comment period in accordance with the Administrative Procedure Act.

At its September 2010 SBE meeting, the SBE:

• Approved the commencement of the rulemaking process seeking to amend the California Code of Regulations, Title 5 (5 CCR), sections 4800–4808 (inclusive);

• Approved the Notice of Proposed Rulemaking;

• Approved the Initial Statement of Reasons;

• Approved the proposed regulations; and

• Directed the CDE to commence the rulemaking process.

In addition, the SBE added a new section to the beginning of the regulations to read as follows, “It was the intent of the Legislature and remains the intent of the State Board of Education for Parent Empowerment to remain valid in the event of changes to federal law referenced within the legislative language of the Senate Bill X5 4 to the extent allowable under the law.”

SUMMARY OF KEY ISSUES

Parent Empowerment, as set forth in California Education Code (EC) sections 53300–53303, inclusive (SBX5 4 [Romero]), was signed into law on January 7, 2010, and became effective on April 12, 2010. (See Attachment 1.) These provisions provide parents of pupils who are or will be enrolled in a school that is not identified as a “persistently lowest-achieving school” pursuant to EC Section 53201, but is subject to corrective action pursuant to paragraph (7) of Section 1116(b) of the federal Elementary and Secondary Education Act (ESEA [20 U.S.C Section 6301 et seq.]), has failed to make adequate yearly progress (AYP), and has an Academic Performance Index (API) score of less than 800, the option to petition the LEA to implement reform in the school.
SUMMARY OF KEY ISSUES (Cont.)

The options for reform include, and are limited to, the four interventions identified in paragraphs (1) to (4), inclusive, of EC Section 53202(a) and the federally mandated alternative governance arrangement pursuant to section 1116(b)(8)(B)(v) of the federal ESEA (20 U.S.C Section 6301 et seq.).

CDE staff, on behalf of the SBE, held a public hearing on November 17, 2010, from 1:30 to 2:19 p.m. At the public hearing, four participants provided written and oral statements on the proposed regulations. At the close of the public comment period on November 17, 2010, at 5 p.m., a total of 16 public comment submissions were received, with a total of 145 comments.

Upon approval at the December 2010 SBE meeting, CDE staff was directed to circulate the proposed regulations for a 15-day comment period which commenced on December 23, 2010, and ended on January 6, 2011, at 5 p.m. Eleven individuals submitted comments.

Consistent with the SBE’s direction, CDE staff convened a group of interested stakeholders on February 22, 2011. The group discussed emerging issues and topics resulting from submission of the first petition to an LEA under the statute, identified topics in the statute that may benefit from regulatory clarification, and sought to gain an understanding of conflicting points of view regarding the operationalization of the statute. A second meeting of the group was held on March 30, 2011. On that day, the group of interested stakeholders, along with members of the public, discussed the proposed regulations approved by the SBE at its December meeting and rendered suggestions on the substance and format of those regulations.

At its April 2011 SBE meeting, the SBE voted to approve putting forth for public comment the changes proposed by CDE staff, and suggested optional amendments proposed by an SBE Board member and stakeholder groups. CDE staff was directed to circulate proposed regulations for a second 15-day comment period which commenced on May 25, 2011, and ended on June 9, 2011. Nine individuals submitted comments.

At the July 2011 SBE meeting, CDE staff submitted comments and recommendations pertaining to suggested regulatory changes received during the second 15-day public comment period. SBE staff submitted a version of the regulations that included its proposed edits to the regulations which were approved by the SBE. CDE staff was directed to circulate proposed regulations for a third 15-day comment period which commenced on July 22, 2011, and ended on August 8, 2011.

The Parent Empowerment statute is provided as Attachment 1.

The Final Statement of Reasons is provided as Attachment 2 and provides staff responses to all written comments submitted and public hearing statements received, including those received prior to 5 p.m. during the third public comment period, July 22, 2011, to August 8, 2011, inclusive.
SUMMARY OF KEY ISSUES (Cont.)

The proposed revisions to the CCR Title 5, Sections 4800–4808 for Parent Empowerment and resulting from public comment is provided as Attachment 3 These are the same regulations approved by the Board at the July 2011 meeting and put forth for a third 15-day comment period.

The Economic and Fiscal Impact Statement is provided as Attachment 4.

FISCAL ANALYSIS (AS APPROPRIATE)

The Economic and Fiscal Impact Statement is provided as Attachment 4.

California Education Code Sections 53300–53303

53300. For any school not identified as a persistently lowest-achieving school under Section 53201 which, after one full school year, is subject to corrective action pursuant to paragraph(7) of Section 1116(b) of the federal Elementary and Secondary Education Act (20 U.S.C. Sec. 6301 et seq.) and continues to fail to make adequate yearly progress, and has an Academic Performance Index score of less than 800, and where at least one-half of the parents or legal guardians of pupils attending the school, or a combination of at least one-half of the parents or legal guardians of pupils attending the school and the elementary or middle schools that normally matriculate into a middle or high school, as applicable, sign a petition requesting the local educational agency to implement one or more of the four interventions identified pursuant to paragraphs (1) to (4), inclusive of subdivision (a) of Section 53202 or the federally mandated alternative governance arrangement pursuant to Section 1116(b)(8)(B)(v) of the federal Elementary and Secondary Education Act (20 U.S.C. Sec. 6301 et seq.), the local educational agency shall implement the option requested by the parents unless, in a regularly scheduled public hearing, the local educational agency makes a finding in writing stating the reason it cannot implement the specific recommended option and instead designates in writing which of the other options described in this section it will implement in the subsequent school year consistent with requirements specified in federal regulations and guidelines for schools subject to restructuring under Section 1116(b)(8) of the federal Elementary and Secondary Education Act (20 U.S.C. Sec. 6301 et seq.) and regulations and guidelines for the four interventions.

53301. (a) The local educational agency shall notify the Superintendent and the state board upon receipt of a petition under Section 53300 and upon its final disposition of that petition.

(b) If the local educational agency indicates in writing that it will implement in the upcoming school year a different alternative governance arrangement than requested by the parents, the local educational agency shall notify the Superintendent and the state board that the alternative governance option selected has substantial promise of enabling the school to make adequate yearly progress as defined in the federally mandated state plan under Section 1111(b)(2) of the federal Elementary and Secondary Education Act (20 U.S.C. Sec. 6301 et seq.).

53302. No more than 75 schools shall be subject to a petition authorized by this article.

(b) A petition shall be counted toward this limit upon the Superintendent and state board receiving notice from the local educational agency of its final disposition of the petition.

53303. A local educational agency shall not be required to implement the option requested by the parent petition if the request is for reasons other than improving academic achievement or pupil safety.
FINAL STATEMENT OF REASONS
Parent Empowerment

UPDATE OF INITIAL STATEMENT OF REASONS

The originally proposed text was made available for public comment for at least 45 days from October 2, 2010, through November 17, 2010. A public hearing was held on November 17, 2010 at the California Department of Education. The comment period ended at 5:00 p.m. on November 17. A total of sixteen letters, consisting of approximately 145 comments on various issues, were received during the 45 day comment period and at the public hearing. Pursuant to Government Code sections 11346.9(a)(3) and (a)(5), California Department of Education (CDE) staff, on behalf of the SBE, has summarized and responded to those comments as follows:

SUMMARY AND RESPONSE TO COMMENTS RECEIVED DURING THE INITIAL NOTICE PERIOD OF OCTOBER 2, 2010, THROUGH NOVEMBER 17, 2010, INCLUSIVE

COLIN MILLER, California Charter Schools Association

Comment: We suggest adding language that if a charter petition submitted under this section is denied by the district, the petitioners retain their appeal rights under the charter schools act.

Reject: While the Parent Empowerment statutes specifically contemplate that petitioners may request and LEAs may implement the restart model, nothing in these statutes suggests there is an appeal process if a restart model is not implemented. These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

Comment: To avoid confusion and conflict, we suggest revising the timelines in the regulations for a public hearing and board action on a parent empowerment petition so that they are fully aligned with the timelines in EC 47605 related to charter petition approval.

Accept: Section 4802.2(c) is amended to read:

(c) The governing board of the school district shall hold the public hearing to approve or deny the charter pursuant to Education Code section 47605(b) concurrently with the public hearing required pursuant to Education Code section 53300. Upon the receipt of a petition that requests a restart model as an intervention, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option presented in the petition or implement one of the other intervention options as set forth in Education Code section 53300. If a petition requests that the subject school be operated under a specific charter school operator, charter
management organization or education management organization, and the LEA does not reject the petition pursuant to Section 4802.1(g), then the LEA must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and timelines set forth in Education Code sections 47605(b) through (h), (j)(1) and (l).

Comment: Finally, we suggest that the regulations clarify that after approval, charter schools established through Parent Empowerment should be treated the same as all other charters approved under EC 47605 in regards to facilities, funding, and all other issues.

Accept: Section 4802.2(e) is amended to read:

(e)(d) A charter school established by a parent empowerment petition, once approved, shall be subject to all of the provisions of law that apply to other conversion charter schools comply with the admission requirements for an existing public school converting partially or entirely to a charter school specified in Education Code section 47605(d)(1) and shall admit all pupils who reside within the former attendance area of the subject public school.

KEN BURT, California Teachers Association

Comment: Proposed Regulation Section 4800 is to arguably announce the legislative intent. This is not clear on the statute. This is over reaching, since it is for the legislature to announce its intent, not an administrative body, in the alternative, the intent is in the statute, and there is no necessity for this proposed regulation.

Accept: Section 4800 is amended to read:

It was the intent of the Legislature and remains the intent of the State Board of Education (SBE) for The Parent Empowerment provisions shall to remain valid in the event of changes to federal law referenced within the legislative language of Chapters 2 and 3 of the 5th Extraordinary Session Statutes of 2010, Senate Bill X5-4 to the extent allowable under the law.

Comment: Proposed Regulation Section 4889.1(a) defines an eligible signature. This appears contrary to California Law. California law in the case of dissolutions (divorce was the less politically correct term) also known as family law appears to be ignored if not violated has a tremendous impact. While there is some variation, a low estimate for the California Divorce rate appears to be between 50 to 52%. Also, some say as high as one third of the children are born to parents who are not married. The point being, this regulation attempts to run roughshod over parental rights. Except in cases of where the court has awarded exclusive legal custody to one parent over the other, both parents have legal custody. This includes the right to decide where the child goes to school. Therefore, where both parents have legal custody, both have the right to make the decision. Clearly if one would want to sign the petition, and the other objected it would hardly be right to count a signature which in this case does not legally represent the right(s) of both parents.

Reject: The section quoted by Mr. Burt, section 4899.1(a), does not coincide with the definition of signature in section 4800.1 Definitions (b). It does appear, however, that
he is referring to section 4801(c) Petition Signatures where it is stated that "only one parent or legal guardian per pupil may sign a petition." The argument does not provide a recommendation for different regulatory language and the definition in the regulation interprets the statute in a manner that fairly and efficiently implements the statute.

**Comment:** Proposed Regulation Section 4801(e) over reaches in a rule that the persons signing do not need to sign with the address, city and zip code. The district has an obligation to check out these petitions to prevent fraud, and other improper conduct. A clear statement that this information will not be used for any other purpose to verify the petition should take care of any concern, even though it is beyond the scope of the authority to make this regulation.

**Reject:** Information requested in section 4801(d) sufficiently enables verification of petitioners against fraud.

**Comment:** Proposed Regulation Section 4801(h) is over reaching. This is a case where too much regulation, is too much regulation. If petition gatherers are to be regulated then they should not be allowed to puff, or make promises, or false representations to induce signatures. The general clause to protect the petition gatherers is beyond the scope, and not necessary. Even an unnecessary regulation should be fair. That is everyone should be free from threats and intimidation, including persons who wish to assemble by persons circulation petitions to exercise their free speech rights, to urge other parents not to sign the petitions, including parents, teachers, administrators, school board members, and even politicians.

**Reject:** Section 4801(h) is necessary to prevent undue influence, or the appearance thereof, on parents, guardians and petition gatherers. Extending protection from threats and intimidation to other groups of persons may not be necessary.

**Comment:** Proposed Regulation section 4802(b) should add the requirement here and elsewhere that all parents sign under the penalty of perjury to prevent fraud and or abuse-"I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that my signature on the petition was executed on date-(Month, day and year) at location __________, California.

**Reject:** This section refers to the content of the petition and to establish whether signatures shall be counted from parents or legal guardians of pupils attending the subject school or the signatures of parents or legal guardians of pupils attending the subject school and attending elementary or middle schools who would normally matriculate into the subject school and not the action of the petition signers. In any event, such a requirement would not serve to effectuate the intent of the statutes.

**Comment:** Proposed Regulation Section 4801(1) has been deleted without explanation… that has been selected by a rigorous review process. Clearly there needs to be some kind of reasonable quality control, or oversight of substandard snake oil salesman. It appears that this section should at least return the deleted section.

**Reject:** It appears that the section this comment refers to is section 4802(i) which is "Content of the Petition" and does not refer to the charter review process.
Commenter's suggestion is unnecessary as language requiring a rigorous review process remains in sections 4802.2 and 4804.

**Comment:** Proposed Regulation Section 4802.1(e) is too restrictive on Districts. Districts have an obligation to properly investigate whether parents are eligible to sign the petitions, including but not limited to verification of signatures.

**Accept:** Section 4802.1(e) is now section 4802.1(f) and is amended to read:

(f)(e) *In connection with the petition, the LEA may only contact parents or legal guardians to verify eligible signatures on the petition.*

**Comment:** Section 4902.1(f) - the time line is too short, and attempts to create a default.

**Accept:** Section 4802.1(f) is now 4802.1(g) and is amended to read:

(g)(f) *Upon receipt, the LEA may, within 20 25 business days, return the petition to the person designated as the contact person as specified in section 4802(c), if the LEA determines any of the following:*

**Comment:** Section 4802.1(f)(3) attempts to shift and change the standard to the standard granting the petition of meeting the requirements to substantially meeting the requirements, whatever that means, which is undefined.

**Reject:** The language in Section 4802.1(f)(3) is necessary to prevent petitions from unfairly being rejected based upon minor technicalities and frustrating the intent of the Parent Empowerment statutes.

**Comment:** Section 4802.1(g) the timeline is too short and not reasonable based upon facts and circumstances. This is another attempt to over reach, and work a default on school districts. This is neither intended nor set forth in the law.

**Accept:** Section 4802.1(i) (formerly section 4802.1(g)) is amended to read:

(i)(g) *If the LEA does not return the petition pursuant to subdivision (g)(f), the LEA shall have 45 business days from the date the petition is received to reach a final disposition. The date may be extended by an additional 20 business days if the LEA and the person listed in section 4802(c) agree to the extension in writing.*

**Comment:** Section 4802.1(h) the time lines are too short, and attempt to shift the burden of proof, and standard for responding to the petition. This is a clear example to over reaching, similar to an earlier concern raised by Senator Joe Simitian – see letter below: (Note: Letter has been omitted.)

**Reject:** Section 4802(j) [formerly Section 4802(h)] contains timelines that SBE believes are sufficient to provide for notification to the SSPI and the SBE of the receipt and status of a petition.

**Comment:** Section 4802.2 Charter Schools – all sections over-reach, and does not comply with the intent and letter of the Parent Empowerment law.
a. Proposed Regulation Section 48292.2(a) Please note-47605. (a) (1) Except as set forth in paragraph (2), a petition for the establishment of a charter school within a school district may be circulated by one or more persons seeking to establish the charter school. A petition for the establishment of a charter school shall identify a single charter school that will operate within the geographic boundaries of that school district. A charter school may propose to operate at multiple sites within the school district, as long as each location is identified in the charter school petition.

The petition may be submitted to the governing board of the school district for review after either of the following conditions are met:

(A) The petition has been signed by a number of parents or legal guardians of pupils that is equivalent to at least one-half of the number of pupils that the charter school estimates will enroll in the school for its first year of operation.

(B) The petition has been signed by a number of teachers that is equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation.

There is no statutory authorization or authority to side step the other sections of the education code regarding conversation and or start up charters. 

Reject: Section 48292(a) does not exist so SBE is unsure as to the exact nature of this comment. However, assuming the comment is referring to Section 4802.2(a), the comment is rejected. These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

Comment: Section 48292.2(b) There is no authority for setting aside the requirements of education codes.

47605.(a) (1) Except as set forth in paragraph (2), a petition for the establishment of a charter school within a school district may be circulated by one or more persons seeking to establish the charter school. A petition for the establishment of a charter school shall identify a single charter school that will within the geographic boundaries of than school district. A charter school may propose to operate at multiple sites within the school district, as long as each location is identified in the charter school petition. The petition may be submitted to the governing board of the school district for review after either of the following conditions are met:

(A) The petition has been signed by a number of parents or legal guardians of pupils that is equivalent to at least one-half of the number of pupils that the charter school estimates will enroll in the school for its first year of operation."
“47605(B) The petition has been signed by a number of teachers that is equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation.”

(2) A petition that proposes to convert an existing public school to a charter school that would not be eligible for a loan pursuant to subdivision (b) of Section 41365 may be circulated by one or more persons seeking to establish the charter school. The petition may be submitted to the governing board of the school district for review after the petition has been signed by not less than 50 percent of the permanent status teachers currently employed at the public school to be converted.

(3) A petition shall include a prominent statement that a signature on the petition means that the parent or legal guardian is meaningfully interested in having his or her child or ward attend the charter school, or in the case of a teacher’s signature, means that the teacher is meaningfully interested in teaching at the charter school. The proposed charter shall be attached to the petition.

Reject: Section 48292(b) does not exist so SBE is unsure as to the exact nature of this comment. However, assuming the comment is referring to Section 4802.2(b), the comment is rejected. These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

Comment: Section 48292.2(c). There is no authority for requiring the charter petition at the same time as the procedures with the education code section 53300.

Ed code provides “47605(d)(1) In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admissions policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any pupil on the basis of the characteristics listed in Section 220. Except as provided in paragraph (2), admission to a charter school shall not be determined according to the place of residence of the pupil, or of his or her parent or legal guardian, within this state, except that an existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission to pupils who reside within the former attendance area of that public school.”

However there is no link for indicating by filing a parental empowerment petition that a person is otherwise excused from a separate act to follow the above section of the education code. In fact it can be argued with more force that Ed. Code 47605(d) (2) (A) applies.

“(2) (A) A charter school shall admit all pupils who wish to attend the school.

(B) However, if the number of pupils who wish to attend the charter school exceeds the school’s capacity, attendance, except for existing pupils of the charter school,
shall be determined by a public random drawing. Preference shall be extended to pupils currently attending the charter school and pupils who reside in the district except as provided for in Section 47614.5 Other preferences may be permitted by the chartering authority on an individual school basis and only if consistent with the law.”

Reject: Section 48292(c) does not exist so SBE is unsure as to the exact nature of this comment. However, assuming the comment is referring to Section 4802.2(c), the comment is rejected. These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

Comment: Section 4808. The impact and or application of these regulations including the prospective effect of these regulations is a matter of law, and not of a regulation which is without authority and clarity.

Reject: The SBE has adopted rules and regulations that are consistent with the laws of this state pursuant to Education Code section 33031 since the SBE has authority to clarify the prospective effect of these regulations.

KAREN CARDIERO-CAPLAN, Californians Together

Comment: 4800. The parent petition provisions in Ch. 3, Statutes of 2010 (SBX5 4) are linked specifically to the four turnaround strategies currently required under federal law. If those strategies should change in federal law, parents should maintain the power to petition their school boards to use different turnaround strategies. Recommend eliminating this section.

Accept in Part and Reject in Part: Accept in that reference to legislative intent is deleted. Reject in that the entire section is not deleted. Section 4800 is amended to read:

It was the intent of the Legislature and remains the intent of the State Board of Education (SBE) for the Parent Empowerment provisions shall to remain valid in the event of changes to federal law referenced within the legislative language of Chapters 2 and 3 of the 5th Extraordinary Session Statutes of 2010, Senate Bill X5 4 to the extent allowable under the law.

Comment: Section 4800.1. (b)Definitions. (page 1, line 24) Section 53300 of Ch. 3, Statutes of 2010 specifically states “…at least one half of the parents or legal guardians of pupils attending the school, or a combination of at least one half of the parents or legal guardians of pupils attend the school…” shall be able to sign the specified petition. Proposed language should reflect the law.

Recommendation: (page 1, line 24) Language in this section should reflect language in the aforementioned statute regarding who can sign the petition. It should also be clarified that we are talking about only parents or legal guardians of pupils attending
the schools can sign the petition. Therefore, the language "or a combination of at least one half of the parents or legal guardians of pupils attending the school...". **Reject**: Language suggested is otherwise set forth in Section 4801(a).

**Comment: Section 4800.1(l)** - (page 3, lines 7-11) The definition proposed for “Cannot implement the specific recommended option” means an LEA is unable to implement the intervention requested by parents in the petition and “**has a compelling interest to support such a finding**”. We believe this wording goes beyond what is required by statute. **Reject**: The term “compelling interest” is used to refer to its plain meaning and is not meant to refer to the constitutional standard that courts may invoke with respect to a governmental restriction on constitutional rights and, pursuant to Section 33031, the SBE has adopted rules and regulations that are consistent with the laws of this state.

**Comment**: Section 53302(b) of Ch. 3, Statutes of 2010 specifically states that an LEA is not required to implement the option requested by the parent petition if the request is for reasons other than improving academic achievement or pupil safety. However, reference to these reasons are not provided in this section nor in the other proposed provisions of the regulations.

Recommendation: Add language to this section stating that an LEA is not required to implement a parent petition “if the request is for reasons other than improving academic achievement or pupil safety.” **Reject**: Language already exists in Education Code section 53303 that an LEA is not required to implement a parent petition “if the parent petition is for reasons other than improving academic achievement or pupil safety” and therefore it is unnecessary to duplicate it in regulation.

**Comment: Section 4800.5** - (page 3, lines 13-27) This notice is key to a well understood policy and procedures of the parent empowerment provisions. It is critical that this notice and associated procedures is understood by all parents. Notices regarding the parent petition, the public hearing and the opportunity to provide input should be in the language that parents and community members understand so that they can participate effectively in the petition process and in the school turnaround process.

Recommendation: Include (page 3, line 28) specific reference to the language notification requirements in Education Code section 48985. This education code section requires that any written communication to parents be in the primary language spoken at home, where 15% or more of the student population enrolled in a public school speaks a primary language other than English. Additionally, public hearings or meetings held on parent empowerment (policies and procedures) should make translation available for non-English speaking parents of students in schools slated for turnaround.

**Accept**: Section 4800.5 is amended to read:
This notice, and any other written communication from the school or the LEA to parents or legal guardians of pupils, must meet the language requirements of Education Code section 48985.

**Comment:** Section 53202 (b) of Ch. 2, Statutes of 2010 (SBX5 1) requires that prior to the selection of one of the four intervention the governing board of the LEA must hold two hearings, with at least one of hearings to be held at the school site for the express purpose of seeking input from stakeholders (staff, parents and the community) regarding the option or options most suitable for the applicable school or schools in its jurisdiction. The proposed parent notice regulation does not provide for hearings nor input from stakeholders. Again, the most meaningful parent engagement occurs when parents are provided with sufficient information to make informed choices about their children, their education and their schools. The parent empowerment provision would be significantly strengthened if public hearings were held at the affected school site informing parents of the petition option and providing information about the allowable turnaround strategies that can be initiated by a successful petition process.

**Recommendation:** Add another paragraph (or add a new subsection to Section 4802.1) contained in Section 53202 (b) requiring the governing board of an LEA to hold at least 2 public hearings for the purpose of notifying staff, parents and the community of the designation and to seek input from staff, parents, and the community regarding the option or options most suitable for the applicable school or schools in its jurisdiction. At least one of those public hearings should be held at a regularly scheduled meeting on the site of a school deemed persistently lowest-achieving.

**Reject:** Unlike Education Code section 53202 which specifically requires public hearings, Education Code section 53300 provides that an LEA must make a finding in writing at a regularly scheduled meeting only if the LEA cannot implement the specific recommended option and instead designates in writing which of the other options it will implement. Nothing in the Parent Empowerment statutes require that any hearings or meetings be held by the LEA nor precludes the LEA from holding such hearings or meetings or petitioners from holding public information meetings.

**Comment:** Section 4801(h). This subsection allows LEAs /parents to use “signature gatherers” in obtaining parent signatures for the specified petitions. We believe this subsection goes over and beyond what is required in SBX5 4 and SBX5 1. These statutes do not explicitly provide for the use of signature gatherers. Additionally, the purpose of the parent empowerment provisions is to actively engage parents in this petition process. Hiring signature gatherers to obtain parent signatures is counter to the purpose of this entire exercise! It makes no sense.

**Recommendation:** Eliminate subsection (h) of Section 4801.

**Reject:** There is no authority in this statute to prohibit hiring signature gatherers. Moreover, the U.S. Supreme Court has held that wholesale prohibition of paid signature gatherers is an impermissible burden on free speech. Meyers v. Grant.
(1988) 486 U.S. 414. However, the following language has been added to section 4802(j):

(j) The names of any agencies or organizations that the person identified in subdivision (c) is affiliated with that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition.

Comment: Section 4802.1(h) Verification of Petition Signatures & Obligations of the LEA (pg 8, lines 1-9) Ch. 3, Statutes of 2010 (SBX5 4) Sections 53300 and 53303 specify what LEAs need to do regarding signed petitions, the disposition of these petitions and which alternative governance arrangement has been requested and rationale. We believe that the LEA, in addition to informing the SBE and the Superintendent, should also inform the parents in writing, within 10 days of submission of petitions, the reason why their recommended option could not be implemented as well as the rationale to the alternative governance arrangement selected.

Recommendation: Insert language that requires the LEA to provide in writing the reasons for not implementing their recommended option and the reasons for the alternative governance arrangement, to the “contact” person specified in section 4802(a).

Reject: This recommendation goes beyond the scope of the statutes. Education Code section 53300 states only that an LEA must make a finding in writing at a regularly scheduled public hearing if the LEA cannot implement the specific recommended option and instead designates in writing which of the other options it will implement.

Comment: Sections 4802.2(a), (b), (c), and (d) .Charter Requirements for Parent Empowerment Petitions (pg 8, lines 19-31 & page 9, lines 1-13). This section is added to clarify that, when a parent empowerment petition requests that a school be converted to a charter school is circulated for signatures, the proposed charter for the school must accompany it. The language also clarifies that it is not necessary to collect signatures for a charter petition in addition to the signatures for the parent empowerment petition.

Upon further review and discussion with our members late this afternoon, our initial recommendation on this section as presented by our legislative advocate earlier this afternoon has changed. We believe this section exceeds what is required in existing law (SBX5 4 and SBX5 1) and circumvents the legislative process by establishing another option/approach for the establishment of a charter school.

Recommendation: Eliminate this section.

Reject: These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.
Moreover, section 4802.2 has been amended to clarify that an LEA must first act on the requested intervention model, and if the Restart Model is approved, at that point, the LEA must follow provisions in Education Code section 47605(b) through (h) and subdivisions (j)(1) and (l). Section 4802.2(c) is amended to read:

(c) The governing board of the school district shall hold the public hearing to approve or deny the charter pursuant to Education Code section 47605(b) concurrently with the public hearing required pursuant to Education Code section 53300. Upon the receipt of a petition that requests a restart model as intervention, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option presented in the petition or implement one of the other intervention options in Education Code section 53300. If a petition requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to Section 4802.1(g), then the LEA must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and timelines set forth in Education Code section 47605, subdivisions (b) through (h), (j)(1) and (l) with the exception that the timelines set forth in Education Code section 47605(b) do not begin until 25 business days after the petition was received.

JOYCE DILLARD

Comment: Section 4802(i) - How is due process served without a public hearing and selection process?

Accept: Assuming that the commenter is referring to a public hearing and selection process when a petition seeks to implement the restart model and requests that a school be reopened as a charter school, language in Section 4802.2(c) has been added to require that the LEA conduct a rigorous review process as required by Education Code section 53300 and Section 4804.

Comment: Section 4802.1(a) - How are “reasonable efforts” defined. It can be a robo-process like the mortgage industry. Eligible students should be identified as a basis of fact finding.

Accept: For clarification purposes, section 4802.1(b) (formerly subdivision (a)) is amended to read:

(b)(a) Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.
**Comment: Section 4802.1(b)** - The time limit of the submission date should be available for the public and petitioners to verify for the 45-day limit.

**Reject:** Section 4802(b) establishes the continued status of the subject school and not the specific required timelines. However, LEAs must notify the SSPI and SBE with 10 business days of receipt of a petition. This information will be available on the CDE Parent Empowerment Web page.

**Comment: Section 4802.1(f)** - The Parents/Legal Guardians need to know the status of the petition. A notice should be published and the LEA post the notification on the website. The California Department of Education should also supply a website category for these petitions and their status.

**Reject:** Pursuant to Section 4800.5, an LEA may identify and notify parents of a website containing information on parent empowerment petition process but doing so or providing other notifications once a petition is filed is not mandatory as requiring such notification may be beyond the scope of the statute. Also, while the CDE will maintain a Parent Empowerment Web page on its website, this Web page may not be able to track the specific status or timeline of each petition, it will reflect if a petition has been submitted to the CDE and the final disposition of each submitted petition.

**Comment: Sections 4802.1(f) and (g)** - All steps of the process should be easily available to the public.

**Accept in Part and Reject in Part:** Accept in that information will be available on the CDE Parent Empowerment Web page. Section 4800.5 is amended to read:

*... This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition. This notice may also identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes, including enrollment data and attendance boundaries for each school. The web site may also and informing parents and legal guardians of pupils how they may sign a petition requesting the school district to implement one or more interventions to improve the school and how they may contact community-based organizations or work with individual school administrators and parent and community leaders to understand the school intervention options and provide input about the best option for the school...*

Reject for the reasons set forth in the comment above.

**Comment: Section 4803** - The LEA is still in charge, yet there has been some failure in operations. There is no room for Parents/Legal Guardians to have input and voice over management. There is no required review of any management or labor contracts to see any failures in governance that were negotiated by the LEA. That failure can repeat, even in this model.

**Reject:** Models are specified in statute and, pursuant to Education Code section 53300, the LEA is ultimately responsible for choosing and implementing the specific intervention option.
**Comment: Section 4806** - The LEA is still in charge, yet there has been some failure in operations. There is no room for Parents/Legal Guardians to have input and voice over management. There is no required review of any management or labor contracts to see any failures in governance that were negotiated by the LEA. That failure can repeat, even in this model

**Reject:** Models are specified in statute and, pursuant to Education Code section 53300, the LEA is ultimately responsible for choosing and implementing the specific intervention option.

**Comment:** The only Parent Empowerment is their signature on a petition. They are not included in management decisions. If they did not vote for the Board of Education member, then the choice is even more limited. There is no procedure anticipated for continued failure. There is no guidance given on public health and safety issues, which may affect the governance of the schools. There is no process to change any Labor/Management contracts

**Reject:** Management relations and labor contracts are beyond the scope of this statute.

**BILL RING, TransParent®**

**Comment:** Petition gatherers who are paid - or otherwise compensated - should be required to be identified as such - frankly, the notion that individuals or organizations would pay signature gatherers for a parent petition is inconsistent with the spirit of this law, in my opinion.

**Accept:** Section 4802(j) is added to read:

> (j)The names of any agencies or organizations that the person identified in subdivision (c) is affiliated with that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition.

**Comment:** If we are going to give this law better odds of success, then I think that we must lift the cap on the limit of strategies parents may choose. The ones identified in the proposed regulations are consistent with federal law, which may change and may limit parent empowerment in the future if the law is tied too closely to current options in federal law.

**Reject:** Strategies or interventions are identified in the Education Code. It is impossible to anticipate future changes in state or federal statute.

**ZELLA KNIGHT, San Fernando Valley resident, LAUSD**

**Comment:** Proposed section 4800 should be deleted. There is no legislative intent language in the underlying statute cited, Senate Bill x5. We support the empowerment of parents to petition the school boards they elected to change the ways their local schools are run. The parent petition provisions in SBx5 4 are linked specifically to four turnaround strategies currently required under federal law. If those strategies should change in federal law, parents should maintain the power to petition their school boards to use different turnaround strategies.
Accept in Part and Reject in Part: Accept in that section 4800 has been amended to delete the language referring to legislative intent:

It was the intent of the Legislature and remains the intent of the State Board of Education (SBE) for The Parent Empowerment provisions shall to remain valid in the event of changes to federal law referenced within the legislative language of Chapters 2 and 3 of the 5th Extraordinary Session Statutes of 2010, Senate Bill X5-4 to the extent allowable under the law.

Reject in that it is impossible to anticipate changes in state or federal statute.

Comment: Proposed section 1800.5 should be expanded. The proposed regulations reference section 1116(b)(1)(e) of the Elementary and Secondary Education Act (ESEA) as the basis for providing parents with notice of the parent petition process. That section is directed at schools slated for school improvement because they are identified as "persistently lowest-achieving." Accordingly, these regulations should also require the LEA to provide parents and guardians of all students enrolled in a school in restructuring planning or status with notice of their rights under Ed. Code section 53202(b) to public hearings or participation. We propose adding the following:

The notice shall include the requirement that the LEA must hold at least two public hearings to notify staff, parents and the community of the school’s designation and to seek input from staff, parents and the community regarding the option or options most suitable for the school. At least one of those public hearings shall be held on the site of a school deemed persistently lowest-achieving.

Reject: Unlike Education Code section 53202 which specifically requires public hearings, Education Code section 53300 provides that an LEA must make a finding in writing at a regularly scheduled meeting only if the LEA cannot implement the specific recommended option and instead designates in writing which of the other options it will implement. Nothing in the Parent Empowerment statutes require that any hearings or meetings be held by the school or the LEA nor precludes the school or the LEA from holding such hearings or meetings or petitioners from holding public information meetings.

Comment: Add regulations clarifying Education Code section 4800.5 regarding parental notice by LEAs. There should be specific reference to the language notification requirements in Education Code section 48985, which mandate that any written communication to parents be in the primary language spoken at home, where 15% or more of the student population speaks that primary language. Notices regarding the parent petition right and the public hearing and input right should be in the language that parents and community members understand so that they can participate effectively in school turnaround process.

Accept: Section 4800.5 has been amended to read:
This notice, and any other written communication from the school or the LEA to parents or legal guardians of pupils, must meet the language requirements of Education Code section 48985.

**Comment:** Further, public hearings or meetings should make available translation for non-English speaking parents of students in schools slated for turnaround.

**Reject:** As set forth above, nothing in the Parent Empowerment statutes requires that public hearings or meetings be held and Ed. Code section 48985 only applies to notices and other written communication from the school or the LEA.

**Comment:** Add regulations regarding Parental Notice in section 4800.5 to allow LEAs to identify community based organizations that are engaging parents about school turnaround participation. The proposed regulations allow LEAs to inform parents about the petition option for school turnaround and to “also identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes and informing parents how they may sign a petition requesting the school district to implement one or more interventions to improve the school.” Similarly, LEAs should also be allowed to inform parents about working with community based organizations on school turnaround. This authority should be specifically stated, similar to the regulation language currently proposed: “informing parents how they may contact community based organizations or work with individual school administrators and parent and community leaders to understand the school turnaround options and provide input about the best option for the school, including a meeting at the school site.”

**Accept:** Section 4800.5 is amended to read:

“. . . the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes, including enrollment data and attendance boundaries for each school. The web site may also and informing parents and legal guardians of pupils how they may sign a petition requesting the school district to implement one or more interventions to improve the school and how they may contact community-based organizations or work with individual school administrators and parent and community leaders to understand the school intervention options and provide input about the best option for the school. . .”

**Comment:** Amend regulations regarding charter requirements for parent petitions. The petition should specifically state: This petition is to convert _____ school to a charter school and your signature will be used as support for establishing _____ school as a charter school. Because charter schools have long been available in California since _____, parents may not understand that it is one of the four turnaround options in federal law called “restart.”

**Accept in Part and Reject in Part:** Accept in that section 4802(i) has been amended to reflect the request that a petition for a restart intervention model that makes a specific request for a school operator or organization explicitly state so in the petition. Request in that the exact language suggested is not adopted. Section 4802(i) (formerly subdivision (h)) has been amended to read:
A request to an LEA to implement the restart model intervention identified pursuant to paragraph (2) of subdivision (a) of Education Code section 53202 may also request that the subject school be reopened under a specific charter school operator, charter management organization or education management organization and, if so, that information must be clearly stated on the front page of the petition that has been selected by a rigorous review process.

MARGARITE NOTEWARE, California School Boards Association

Comment: Section 4800.1. The California School Boards Association continues to support an expansion of the definition of “parents or legal guardians of pupils” to include foster parents, but also those persons holding the right to make educational decisions for pupils as delineated in Education Code section 56028. Many foster parents do not have the authority to make educational decisions for the children in their care. If the Board feels expanding the definition is beyond their authority, we ask that a legislative remedy be sought as soon as possible.

Accept: Section 4800.1(h) has been amended to read:

(h)(e) “Parents or legal guardians of pupils” means the natural or adoptive parents, legal guardians, or other persons holding the right to make educational decisions for the pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education Code sections 56028 or 56055, including foster parents who hold rights to make educational decisions.

Comment: Section 4801. Education Code Section 53300 reads, “…where at least one-half of the parents or legal guardians of pupils attending the school, or a combination of at least one-half of the parents or legal guardians of pupils attending the school and the elementary or middle school that normally matriculate into a middle or high school, as applicable, sign a petition requesting the local education agency to implement one of the four interventions identified pursuant to…” However, section 4801(a) reads “…A petition may not consist solely of signatures of parents or legal of pupils attending only the elementary or middle schools that normally matriculate into a subject middle or high school.” The statute and regulation are inconsistent and unclear. The regulations do not help clarify the statute by define “one-half” of the parents or guardians and omits the language entirely.

Reject in part and Accept in part: Reject in that section 4801(a) does not conflict with the statute as the petition must either contain signatures of parents of pupils from the subject school or a combination of parents of pupils attending the subject school and matriculating school, so that it may not solely contain signatures of parents of pupils from the matriculating schools. Accept in that section 4802.1(e) (formerly subdivision (d)) has been amended to further clarify the one-half requirement:

(e)(d) If a petition has sought signatures of parents or legal guardians of pupils attending the subject school and the elementary or middle schools that normally matriculate into the subject school, then for purposes of calculating whether at least one-half of the parents or legal guardians of pupils attending the subject school and the elementary or middle schools that normally matriculate into the subject school on the date the petition has been submitted
have signed the petition, only those signatures of parents or legal guardians of pupils attending the subject school and the parents or legal guardians of pupils attending the elementary or middle schools who would normally matriculate into the subject school at the time the petition is submitted to the LEA shall be counted. Where pupils attend elementary or middle schools that normally matriculate into more than one subject school, only those pupils attending the subject school and those pupils that normally matriculate, as defined in section 4800.1(g), into the subject school, shall be counted in calculating whether at least one-half of the parents or legal guardians of pupils have signed the petition. There is no specified ratio required of signatures gathered at each school, rather the total ratio of signatures gathered must meet the one-half requirement.

Comment: The proposed regulations delineate that petition signers may optionally share their address. With such limited information on the petition, it will be challenging for school districts to validate school enrollment for the purposes of signature verification, particularly for those students who attend a matriculating school in a different district.

Reject: Information requested in section 4801(d) sufficiently enables verification of petitioners against fraud.

Comment: The California School Boards Association is very concerned that the proposed regulations do not include provisions prohibiting the payment or compensation of signature gatherers.

Reject: There is no authority in this statute to prohibit hiring signature gatherers. Moreover, the U.S. Supreme Court has held that wholesale prohibition of paid signature gatherers is an impermissible burden on free speech. Meyers v. Grant (1988) 486 U.S. 414. However, section 4802(j) has been amended to read:

(j) The names of any agencies or organizations that the person identified in subdivision (c) is affiliated with that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition.

Comment: While we strongly support the proposed language in section 4801(h), it is troubling that these expectations are not reciprocal. Without these safeguards in place, the Associations is worried that special interest groups may try to unfairly influence parents through the petition preparation and signature gathering process.

Reject: Language in section 4801(h) provides safeguards for all interested parties.

Comment: Section 4802. This section of proposed regulations contradicts itself with the earlier section 4800.1(h) and the definition of “parents or legal guardians of pupils.” As written in 4800.1(h), this definition does not include education rights holders. However, for the purposes of the petition’s heading, the definition is inexplicably broadened to include these individuals. In order to avoid confusion in the field and to help facilitate the best educational outcomes for children in foster care, we
recommend that the definition in 4800.1(h) be expanded to include the provisions delineated in Education Code 56028.

Accept: Sections 4800.1(h) (formerly subdivision (e)) and 4802(a) have been amended to read:

**4800.1. (h)** “Parents or legal guardians of pupils” means the natural or adoptive parents, legal guardians, or other persons holding the right to make educational decisions for the pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education Code sections **56028 or 56055**, including foster parents who hold rights to make educational decisions.

4802. (a) A heading which states that it is a Petition of Parents, Legal Guardians, and Persons Holding the Right to Make Educational Decisions for Pupils, Including Foster Parents who hold rights to make educational decisions to request implement an Intervention be implemented at the specified subject school and to be submitted to a specified LEA;

Comment: Given the State Board of Education’s preference for including the four intervention models from the federal Race to the Top program verbatim in the implementation of this Act, it is unclear why the Restart Model is altered by these proposed regulations. It is particularly unclear why a petition for this intervention model may include a request the subject school be reopened under a specific charter school operator, charter management organization or educational management organization. The California School Boards association recommends that the regulations do not deviate from the federal definitions.

Reject: Language in the regulations does not change the content of the restart model.

Comment: In section 4802.1(a) the California School Boards Association requests that the term “reasonable efforts” be defined in section 4800.1 so that both petitions signers and school districts may have a shared understanding of the scope of effort school districts must make to verify signatures.

Accept: Clarifying language is added to section 4802.1(b) (formerly section (a)) to read:

**(b)(a)** Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.

Comment: The intent of this Act was to empower parents to request change in their students’ school if that school had chronically underserved its students. However, if a
school has made academic gains significant enough to remove its eligibility as a subject school for the purposes of this Act, it is unreasonable to continue this classification solely because the petition process had begun. Continuing to label a school as failing when it has improved school-wide student achievement is gratuitous and unfair to the students, families, teachers and school staff that have work to change the trajectory of achievement at that school. We request that 4802.1(b) be removed from the final regulations.

Reject: Schools who make AYP subsequent to the submission of a petition are still considered a school in Program Improvement and are subject to the provisions of federal statute related to the specific year of program improvement.

Comment: If LEAs may only contact parents to verify signatures, how can LEAs verify where the students attend school as stated in (e)? This will be of particular importance for the students matriculating into the subject school from within or outside the district. LEAs must be granted the authority to check with parents where students are enrolled. In addition, if it is the intent of the SBE that LEAs shall confirm enrollment with district schools and adjacent school districts this must be explicitly stated in the final regulations.

Accept: Section 4802.1(b) (formerly subdivision (a)) has been amended to read:

(b)(a) Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.

Comment: While the California School Boards Association agrees that providing a timeline for the petition process is helpful for both parties, we request that section (f) be extended to 45 business days. Although districts have a total of 45 days to reach a final disposition, this section suggests that districts may have to complete all of the signature validation within a much shorter window of time. Validating petition signatures will be a laborious process for school districts, for which neither additional monetary or staffing resources are expected to be provided by the state. For sites with large student populations, districts will need sufficient time to carefully validate the enrollment of pupils listed on the petition, parent/guardian relationship with the student and duplicative signatures. If the signatures are not valid, then the parents who actually attend or intend to attend the school will be having their own rights violated by individuals or organizations with ulterior motives. This would be complete violation of the sentiment of “parent empowerment.”

Reject: Timelines deemed to be sufficient for any verification process, although the timeline has been extended from 20 to 25 business days. Section 4802.1(g) (formerly subdivision (g)) has been amended to read:
(g) Upon receipt, the LEA may, within 20-25 business days, return the petition to the person designated as the contact person as specified in section 4802(c), if the LEA determines any of the following:

1. One half of the parents or legal guardians of pupils meeting the requirements of section 4801(a) have not signed the petition;
2. The school named in the petition is not a subject school; or
3. The petition does not substantially meet the requirements specified in section 4802. In such a case the LEA shall immediately provide the contact person written notice of its reasons for returning the petition and its supporting findings.

Comment: Therefore, districts need to be provided with sufficient time to verify the signatures to protect the rights of those who were intended to be empowered by the statute.

Reject: LEAs may contact parents only to verify signatures, however, section 4802.1(b) (formerly subdivision (a)) has been amended to help LEAs verify enrollment of pupils.

(b) Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.

Comment: Section 4802.2. For petitions that concurrently include a charter school petition, we strongly believe the requirement to meet sections of Education Code should be expanded from 47605(b) to include 47605(b-g). Those sections of Education Code absent from the proposed regulations include noteworthy components of the petition such as: the charter school shall meet all statewide standards and conduct required pupil assessments: shall consult with parents and teachers regarding the school’s educational programs on a regular basis; shall provide information regarding proposed operation and potential effects of the school; and delineate admissions policies. Education Code section 47605(b-g) includes critical safeguards for students, parents and school district alike: and we can find no justification for leaving these important requirements out of the charter petition process. It would be irresponsible of the SBE to allow incomplete charter petitions, pursuant to this Act to move forward in the approval process.

Accept: Section 4802.2(c) has been amended to read:

(c) The governing board of the school district shall hold the public hearing to approve or deny the charter pursuant to Education Code section 47605(b) concurrently with the public hearing required pursuant to Education Code section 53300. Upon the receipt of a petition that requests a restart model as
intervention, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option presented in the petition or implement one of the other intervention options in Education Code section 53300. If a petition requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to Section 4802.1(g), then the LEA must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and timelines set forth in Education Code section 47605, subdivisions (b) through (h), (j)(1) and (l) with the exception that the timelines set forth in Education Code section 47605(b) do not begin until 25 business days after the petition was received.

**Comment:** As implied in section 4802.2(d) of the proposed regulations, subject school that implement the restart model will become conversion charters. A petition requirement of a conversion charter school is that fifty percent of teachers sign the petition – a requirement we believe must also be included in the final regulations for the implementation of this Act.

**Reject:** These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

**Comment: Section 4804.** Proposed section 4804 exceeds the scope of the Board’s authority and imposes a reimbursable mandate on local agencies. Section 4804, as specified in the Federal Register (74 PR 65618.65619), allows an LRA to convert a school or close and reopen a school under a charter school operator, a charter management organization, or an education management company. The regulations do not define the term “rigorous review process” but if it is a process that is to be performed by the LEA, then such a process is a reimbursable state mandate since that requirement is not in the implementing statute or federal requirements.

**Reject:** Section 53300 provides that one of the intervention models that may be requested and implemented is the restart model, as referenced in Ed. Code section 53202, and further described in the Federal Register. Section 4804 implements the definition found in the Federal Register. Section 4802.2(c) has been amended to include a reference to section 4804 and the rigorous review process described in the federal register.

4802.2(c) . . .[the LEA] must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and timelines set forth in Education Code section 47605 subdivisions (b) through (h), (j)(1) and (l)...

*LIZ GUILLEN, Public Advocates, Inc.*
**Comment:** Section 4800. “Although there is no explicit legislative intent language in the underlying statute cited . . . we support this proposed regulation.”

**No Response Necessary**

**Comment:** Regulations should not limit parents’ rights to the four turnaround strategies currently required under federal law. If those strategies should change in federal law, parents should maintain the power to petition their school boards to use different turnaround strategies.

**Reject:** The four intervention models are specified in Education Code section 53300. There is no way to anticipate changes in state or federal statute.

**Comment:** Proposed section 4800.5 (regarding Parental Notice) should be complete. The proposed regulations reference Public School Choice section 1116(b)(1)(E) of the Elementary and Secondary Education Act (ESEA, 20 U.S.C. Sec. 6301) as the basis for providing parents with notice about the parent petition process requesting one of four turnaround strategies. Because this section of the ESEA is directed at schools slated for school improvement, these Parent Empowerment regulations should also require the LEA to provide parents and guardians of all students enrolled in a school in restructuring planning or status with notice of their rights under California Education Code section 53202 (b) to public hearings and participation. Section 53202(b) was enacted as part of California’s Race to the Top legislation, SBx5 1. It requires school boards to hold at least two public hearings to notify staff, parents and the community of the school’s designation and to seek input from staff, parents and the community regarding the option or options most suitable for the school. It also requires at least one of those public hearings to be held at a regularly scheduled meeting and at least one of the public hearings shall be held on the site of the school. This language should be included in the regulations for Parent Empowerment so that the rules for parent engagement in all school turnaround processes and decisions are in one place. We propose the following amendment between lines 21 and 22, page 3:

... specific intervention pursuant to Education Code section 53300. The notice shall include the requirement that the LEA must hold at least two public hearings to notify staff, parents and the community of the school’s designation and to seek input from staff, parents and the community regarding the option or options most suitable for the school. At least one of those public hearings shall be held at a regularly scheduled meeting, if applicable, and at least one of the public hearings shall be held on the site of a school deemed persistently lowest-achieving. This notice may also identify...

**Reject:** Education Code sections 53300 through 53303 do not mandate a public hearing unless an LEA makes a finding in writing stating the reason it cannot implement the specific recommended option. This written finding must take place during a regularly scheduled public hearing.

**Comment:** Add regulations clarifying Education Code section 4800.5 (regarding parental notice by LEAs). There should be specific reference to the language notification requirements in Education Code section 48985, which mandate that any
written communication to parents be in the primary language spoken at home, where
15% or more of the student population speaks that primary language. Notices
regarding the parent petition right and the public hearing and input right should be in a
language that parents and community members understand so that they can
participate effectively in the school turnaround process. Further, public hearings or
meetings should make available translation for non-English speaking parents of
students in schools slated for turnaround.

Accept in Part and Reject in part: Accept in that section 4800.5 has been amended
to read:

. . . This notice, and any other written communication from the school or the
LEA to parents or legal guardians of pupils, must meet the language
requirements of Education Code section 48985.

Reject in that nothing in the Parent Empowerment statutes requires that public
hearings or meetings be held and Ed. Code section 48985 only applies to notices and
other written communication from the school or the LEA.

Comment: Add regulations (regarding Parental Notice in section 4800.5). The
proposed regulations allow LEAs to inform parents about the petition option for school
turnaround and to “also identify a web site at which the LEA may list the schools in
the district subject to the provisions of the Parent Empowerment statutes and
informing parents how they may sign a petition requesting the school district to
implement one or more interventions to improve the school.” Similarly, LEAs should
be allowed to inform parents about working with community based organizations on
school turnaround. This authority should be specifically stated at line 25:

“and informing parents how they may contact community based organizations
or work with individual school administrators and parent and community
leaders to understand the school turnaround options and provide input about
the best option for the school, including a meeting at the school site.”

Accept: Section 4800.5 has been amended to read:

. . . This notice may also identify a web site at which the LEA may list the
schools in the district subject to the provisions of the Parent Empowerment
statutes, including enrollment data and attendance boundaries for each school.
The web site may also inform parents and legal guardians of pupils how
they may sign a petition requesting the school district to implement one or
more interventions to improve the school and how they may contact
community-based organizations or work with individual school administrators
and parent and community leaders to understand the school intervention
options and provide input about the best option for the school. . .

Comment: Add language to section 4801(e) regarding petition signature forms. This
regulation should require petition signature forms to include language under the
space for the signer’s address, city or unincorporated community name, and zip code,
which states: “This information is voluntary. You may sign the petition without providing this information.”

**Accept:** Section 4801(e) has been amended to read:

(e) The petition boxes referenced in subdivision (d) must be consecutively numbered commencing with the number 1 for each petition section. The boxes described in subdivision (d) may also have space for the signer’s address, city or unincorporated community name, and zip code, or request other information and if so, the petition shall make clear that providing such information is voluntary, and cannot be made a condition of signing the petition.

**Comment:** Add regulations to section 4801 that require the petition to be made available in the primary languages of parents as pursuant to Education Code section 48985, which requires that any written communication to parents be in the primary language spoken at home, where 15% or more of the student population speaks that primary language.

**Reject:** The petition is generated by parents or legal guardians of pupils attending the school(s) and not an LEA or school. As such, it is not subject to Education Code section 48985.

**Comment:** Amend section 4801(h) to require a disclosure of whether signature gatherers are paid. The practices identified in proposed subsection (h) should include whether signature gatherers are paid by the organizations sponsoring the petition or on the basis of the signatures they acquire. Whether a signature gatherer is paid for gathering signatures on a school turnaround petition is a legitimate consideration for a potential signer.

**Accept:** Section 4802(j) has been amended to read:

(j) The names of any agencies or organizations that the person identified in subdivision (c) is affiliated with that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition.

**Comment:** Amend section 4801(h) to prohibit individuals or organizations from paying signature gatherers for a parent petition. Public Advocates opposes this practice. The school turnaround process must be parent- and community-driven. This practice conflicts with the democratic governance of our public schools.

**Reject:** There is no authority in this statute to prohibit hiring signature gatherers. Moreover, the U.S. Supreme Court has held that wholesale prohibition of paid signature gatherers is an impermissible burden on free speech. Meyers v. Grant (1988) 486 U.S. 414. In addition, section 4802(j) has been added to read:

(j) The names of any agencies or organizations that the person identified in subdivision (c) is affiliated with that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition.
**Comment:** Amend section 4802.2 (regarding charter requirements for parent empowerment petitions) to specifically state:

“This petition is to convert _____ school to a charter school and your signature will be used as support for establishing _____ school as a charter school.”

Because charter schools have long been available in California, parents may not understand that it is one of the four turnaround options in federal law called “restart.” Charter schools have certain flexibility under the California Education Code and parents should understand that they may be giving up certain rights because of that flexibility.

**Accept In Part and Reject in part:** Accept in that section 4802(i) has been amended to reflect the substance of the comment. Reject in that different language is used than that suggested. Section 4802(i) has been amended to read:

(i)(h) A request to an LEA to implement the restart model intervention identified pursuant to paragraph (2) of subdivision (a) of Education Code section 53202 may also request that the subject school be reopened under a specific charter school operator, charter management organization or education management organization and, if so, that information must be clearly stated on the front page of the petition that has been selected by a rigorous review process.

**ED AVILA, ALLIANCE FOR A BETTER COMMUNITY**

**Comment:** “ABC urges you to make certain parents have access to accurate enrollment numbers and attendance boundaries of their children’s schools. . .”

**Accept:** Section 4802.1(a) has been added to read:

(a) An LEA must provide, in writing, to any persons who request it, information as to how the LEA intends to implement section 4800.1(g) as to any subject school and any normally matriculating elementary or middle schools, including providing enrollment data and the number of signatures that would be required pursuant to section 4802.1(e).

**Comment:** “. . . ABC urges you to inform parents at eligible schools of their rights under the Parent Empowerment law.”

**Accept:** Section 4800.5 has been amended to read:

. . .Program Improvement Year 4 or later, is given pursuant to federal law the LEA shall provide the parents and guardians of all pupils enrolled in a school in restructuring planning or restructuring status with notice that the school may be eligible for a parent empowerment petition to request a specific intervention pursuant to Education Code section 53300. This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition. This notice may also identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes, including enrollment data and attendance boundaries for each school. . .
Comment: ABC urges you to continue to strengthen provisions of the regulations that ensure each parent vote is counted.
Accept: Section 4802.1(b) (formerly subdivision (a)) has been amended to read:

(b)(a) An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.

ERIC LEE, SOUTHERN CHRISTIAN LEADERSHIP CONFERENCE
Comment: Although there is already good language ensuring that foster children still have representation, we urge the Board to take a closer look at the issue and consider further language that will ensure full and fair representation of foster children in the Parent Trigger process, especially those in group homes or other challenging situations.
Accept: Section 4800.1(h) (formerly subdivision (e)) has been amended to read:

(h)(e) "Parents or legal guardians of pupils" means the natural or adoptive parents, legal guardians, or other persons holding the right to make educational decisions for the pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education Code sections 56028 or 56055, including foster parents who hold rights to make educational decisions.

Comment: The regulations should explicitly allow parents to continue turning in Parent Trigger signatures even after the formal petition has been turned in, up until the point that the district acts on the petition.
Accept in Part and Reject in Part: Accept in that the proposed regulations permit the petition to be resubmitted with additional signatures if rejected for particular reasons but reject in that signatures cannot be submitted separately from the petition. Section 4802.1(h) has been added to read:

(h)(g) If the petition is returned pursuant to section 4802.1(g), the same petition may be resubmitted to the LEA with additional signatures as long as no substantive changes are made to the petition. If substantive changes are made to the petition, it must be recirculated for signatures before it may be resubmitted to the LEA.

Comment: Although these regulations already make it clear that any charter conversion through the Parent Trigger must continue to accept all the same students at the school, the next draft should clarify that any school model that is implemented must continue to accept every single student that previously attended the school. Parents, LEAs, and other stakeholders should firmly understand that the Parent Trigger can never be used to “push out” any group of students, and that any Parent Trigger-led transformation will benefit all students currently at the school
Accept: Section 4800.3 has been added to read:

§ 4800.3. Requirement to Serve All Pupils.
Every pupil that attended a subject school prior to the implementation of an intervention shall continue to be enrolled in the school during and after an intervention is implemented pursuant to Education Code section 53300, unless the parent or legal guardian of the pupil chooses to enroll the pupil in another school or the school is closed. In addition, any pupil who resides in the attendance area of the subject school during or after the implementation of an intervention has a right to attend the school, subject to any laws or rules pertaining to enrollment.

**Comment:** These regulations must make it absolutely clear that no signatures or approvals from any other party is required for parents to exercise any one of the Parent Trigger options, including charter conversion, beyond what is already required in the law.

**Accept:** Section 4802.2(b) has been amended to read:

(b) The signatures to establish a charter school pursuant to Education Code sections 47605(a)(1) through (3) and 47605(b)(3) will not be required if the petition that requests that the subject school be reopened under a specific charter school operator, charter management organization or education management organization otherwise meets all of the requirements of Education Code section 53300.

**SHERRY SKELLY GRIFFITH, ASSOC. OF CALIF. SCHOOL ADMINISTRATORS**

**Comment:** Section 4800. We question the legal grounds to proclaim intent to retain these regulations as it relates to interventions stemming primarily from a federal voluntary grant program which California is not a participant. Further there is no guarantee ESEA will have the same accountability requirements or interventions in the future. The Parent Empowerment Act “trigger” is predicated on those schools that receive Title I and they are always required to follow federal law when receiving those funds. These regulations should not be predicated on a voluntary grant program but only upon federal and state statute.

**Accept in Part and Reject in Part:** Reject in that the Parent Empowerment provisions operate under current statutes Education Code sections 53300 through 53303. There is no ability to foresee potential changes in future state or federal statutes. Accept in that section 4800 has been amended to delete the reference to legislative intent and reads:

It was the intent of the Legislature and remains the intent of the State Board of Education (SBE) for The Parent Empowerment provisions shall to remain valid in the event of changes to federal law referenced within the legislative language of Chapters 2 and 3 of the 5th Extraordinary Session Statutes of 2010, Senate Bill X5 4 to the extent allowable under the law.

**Comment:** 4800.1 (d) The definition of high school should not include junior high schools. Junior high schools are typically grades 7-9. You address matriculation under middle schools.

**Accept:** Section 4800.1(d) (formerly subdivision (b)) has been amended to read:
(d)(b) “High school” means four-year high schools, junior high schools, senior high schools, continuation high schools, and evening schools.

**Comment: 4800.1 (e)** This section cites again a voluntary federal grant program which California did not win. Predicating state and local mandates on a voluntary grant program with specific requirements is unsound policy and lacks substance if any petition is challenged. State statute should clearly stipulate the actual interventions. The statute does not. This section of law is flawed and should be returned to the Legislature for revision.

**Reject:** Education Code section 53300 specifies the intervention models. The SBE has adopted rules and regulations consistent with the laws of the state pursuant to Education Code section 33031.

**Comment: 4800.1 (g)** – This section does not address matriculation from a K-6 or K-8 elementary to a high school district which is not tied to or required to accept students from a particular K-6 or K-8 elementary district. In other words this section addresses unified districts but is not workable for separate elementary and secondary districts that do not have transfer or boundary obligations.

**Accept:** Subdivision (g) has been amended to read:

(g) “Normally matriculate” means the typical pattern of attendance progression from an elementary school to a subject elementary school, from an elementary school to a subject middle school or from a middle school to a subject high school, as determined by the LEA(s) pursuant to established attendance boundaries, policies or practices.

In addition, section 4802.1(b) (formerly subdivision (a)) has been amended to read:

(b)(a) Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.

**Comment: Section 4800.1 (k)(1) -** What about future “persistently lowest-achieving” school lists beyond the March 11, 2010 list? How is that addressed?

**Reject:** There is no current plan to identify future 5% lowest achieving schools.

**Comment: Sections 4800.1(k)(2) & (3) -** If ESEA reauthorization changes or eliminate the corrective action process how do these regulations address that? How will LEAs be held accountable to a law that changes to meet fiscal requirements and the agreements forged under a petition?
Reject: Regulations pertain to current California statutes. There is no way to address future changes in state and federal statute.

Comment: Regarding AYP is it in one subgroup, all subgroups, school wide, participation rate, the API growth percentage, graduation rates? This will become a living nightmare without clarity. We recommend school wide only.

Reject: AYP is considered in its entirety.

Comment: What if AYP is eliminated within the next two years during ESEA reauthorization?

Reject: Regulations pertain to current California statutes. There is no way to address future changes in state and federal statute.

Comment: Section 4800.1(k)(4) The Public School Accountability Act will sunset in 2013. This means the API may no longer exist. How will this be addressed in regulations? Is the intent cited in 4800 supposed to hold LEAs accountable to a system that no longer exists as well as to voluntary grant program interventions that may not exist? What if the API score goes over 800 in the next year and that is the only criteria used to trigger the right to a petition?

Reject: Regulations pertain to current California statutes. There is no way to address future changes in state and federal statute.

Comment: Section 4800.1 (l). Using the term “compelling interest” is a legal standard that exceeds the authority provided in this statute. Education Code section 53300 requires only the making of “…a finding in writing stating the reason it cannot implement the specific recommendation option…” We oppose use of this term and request it be stricken.

Reject: The term “compelling interest” is intended to refer to its plain meaning and is not meant to refer to the constitutional standard that the courts may invoke with respect to a governmental restriction on constitutional rights.

Comment: Section 4800.5 - Parental Notice. Lines 14-23 are appropriate however lines 24-25 exceed statute and therefore exceed the authority of the state to promulgate regulations. LEAs are not required to go beyond informing parents of 1) identification of the school as a Parent Empowerment school and, 2) informing parents of their statutory right to circulate and sign a petition. Lines 24-25 are unnecessary. Once you inform parents the LEA should not participate in how to sign a petition beyond the legal information provided by statute and regulations.

Reject: Lines 24-25, “… and informing parents how they may sign a petition requesting the school district to implement one or more interventions to improve the school. . . .” pertain to permissive action that may be taken by the LEA, but is not required.

Comment: Section 4801. What constitutes an appropriate “combination of signatures of parents?” Could it be 99% (of the 50%) from a matriculating school and just 1 percent (of the 50%) from the school of residence parents? How are the rights of
parents in the residence school protected if most, if not all, of the signatures come from a matriculating school? Who protects those rights?

Reject: Section 4802.1 has been amended to provide clarifying language regarding one half of required signatures.

(e)(d) . . . There is no specified ratio required of signatures gathered at each school, rather the total ratio of signatures gathered must meet the one-half requirement.

Comment: Section 4801(c). We continue to oppose vesting signature rights with only one parent. This denies all legal guardians of their rights under this Act. It will likely invite legal challenges and should be eliminated without merit or direct nexus to the Parent Empowerment statutes.

Reject: Petition signatures are to represent the pupil, not parents or legal guardians of the pupils. This is intended to implement the statute fairly and effectively. The SBE has adopted rules and regulations that are consistent with the laws of this state pursuant to Education Code section 33031.

Comment: Section 4802. Content of the petition. (a) We support adding foster parents however it should read “foster parents who hold education rights” for the student. In some cases child welfare will hold those rights and in other cases it may a group home provider or foster family parent.

Accept: Section 4800.1(h) (formerly subdivision (e)) has been amended to read:

(h)(e) "Parents or legal guardians of pupils" means the natural or adoptive parents, legal guardians, or other persons holding the right to make educational decisions for the pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education Code sections 56028 or 56055, including foster parents who hold rights to make educational decisions.

In addition, section 4802(a) has been amended to read:

(a) A heading which states that it is a Petition of Parents, Legal Guardians, and Persons Holding the Right to Make Educational Decisions for Pupils, Including Foster Parents who hold rights to make educational decisions to request Implement an Intervention be implemented at the specified subject school and to be submitted to a specified LEA;

Comment: Section 4802(c) - To ensure transparency regarding the signature gathering lead person(s) we recommend the following amendments:

(c) The name, and public contact information of the person, whether they are a parent at the school or schools or if they are affiliated with the school or local education agency including their title or occupation if any. If they are with an outside agency or organization that shall also be listed as part of the contact information. This will allow interested persons or the LEA to contact the petitioner(s).

Accept in Part and Reject in Part: Accept in that the proposed regulations have been amended to require disclosure of the affiliation of any person or organization supporting the circulation of a petition but reject in that they have not been amended
in the exact manner suggested by the commenter. Section 4802(j) has been added to read:

(j) The names of any agencies or organizations that the person identified in subdivision (c) is affiliated with that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition.

Comment: Section 4802(d). Content of the Petition. We recommend the following amendment:

(d) A description of the requested intervention using all of the language set forth in either sections 4803, 4804, 4805 or 4807. No language shall be omitted to ensure full disclosure of the impact of the intervention.

Accept: Section 4802(e) (formerly subdivision (d)) has been amended to read:

(e)(d) A description of the requested intervention using the language set forth in either sections 4803, 4804, 4805, 4806, or 4807, without omission to ensure full disclosure of the impact of the intervention;

Comment: (i) Why is the language regarding a “rigorous review process” deleted? This is required by statute. We recommend the following amendment:

(i) A request to the LEA to implement the restart model intervention identified pursuant to paragraph (2) of subdivision (a) Education Code section 53202 may also request that the subject school be reopened under a specific charter school operator, charter management organization or education management organization. The petitioner shall describe the rigorous review process used to select the operator or organization and affirm they will meet all application charter school laws of the State of California.

Accept in Part and Reject in Part: Accept in that the proposed regulations are amended to refer to the rigorous review process required if a restart model is requested but rejected in that the language proposed by the commenter has not been incorporated. Section 4802.2(c) has been amended to read:

(c) The governing board of the school district shall hold the public hearing to approve or deny the charter pursuant to Education Code section 47605(b) concurrently with the public hearing required pursuant to Education Code section 53300. Upon the receipt of a petition, that requests a restart model as intervention, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option presented in the petition or implement one of the other intervention options as set forth in Education Code section 53300. If a petition requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization and the LEA does not reject the petition pursuant to Section 4802.1(g), then the LEA must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and
timelines set forth in Education Code section 47605, subdivisions (b) through (h), (j)(1) and (l) with the exception that the timelines set forth in Education Code section 47605(b) do not begin until 25 business days after the petition was received.

Comment: Section 4802.1(a). What determines “reasonable efforts” to verify signatures? This should be described.
Accept: Section 4802.1(b) (formerly subdivision (a)) has been amended to read:

(b)(a) Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.

Comment: 4802.1(b) We strongly oppose holding a school that has exited Program Improvement to interventions just because the petition process has not been completed. No school exiting Program Improvement should be subject to mandates or changes once they have proven academic growth under the current state and federal requirements. This is legally a highly questionable amendment to the regulations.
Reject: A school must meet AYP goals two in succession to exit Program Improvement. If a school meets AYP for one year, it is still subject to Program Improvement mandates pursuant to 20 U.S.C. Section 6316(b).

Comment: 4802.1(h) “Compelling interest” is a legal standard and is not required under this statute. We recommend striking this and sticking with what is allowed in statute which is to state the reason in writing and designating other options. This insertion exceeds the state’s statutory authority.
Reject: The term “compelling interest” is intended to refer to its plain meaning and is not meant to refer to the constitutional standard that the courts may invoke with respect to a governmental restriction on constitutional rights.

Comment: Section 4802.2 Charter Requirements. (b) We question the authority to waive EC Section 47605 (a) (1) and 47605(b)(3) of the charter school statutes.
Reject: Pursuant to Education Code section 53300, the school shall implement the option requested, and the signatures of parents or legal guardians of pupils attending the school(s) shall be sufficient to implement a requested model if they meet the specified one-half threshold. Moreover, these regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative
intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

ROBERTA FURGER, PEOPLE IMPROVING COMMUNITIES THROUGH ORGANIZING

Comment: We support the intent to maintain the Parent Empowerment provisions regardless of changes to federal law. However, we believe that if the allowable turnaround options are modified under the federal School Improvement Grant guidelines, then parents should have the right under these provisions to petition for use of the new turnaround strategies, as well.

Reject: The Parent Empowerment provision operates under current statute Education Code sections 53300 through 53303. There is no ability to foresee potential changes in future state or federal statutes.

Comment: For this new option to be meaningfully and consistently exercised, parents and guardians must have access to detailed information about all aspects of the petitioning process, written in nonregulatory language and available in the primary language spoken and read in the home. We therefore recommend the following changes and additions related to parental notification and availability of information be made to the regulations:

The California Department of Education will be responsible for creating and making available on its web site a list of all schools eligible for the Parent Empowerment provision. The Web site will also include detailed information, written in non-regulatory language, (such as a frequently asked questions section) on the Parent Empowerment provisions, including, but not limited to, the allowable turnaround options, the process for circulating a petition, and the process and timeline for review. The Web site will also include the name and contact information of the CDE staff person responsible for oversight of the Parent Empowerment regulations.

Accept in Part and Reject in Part: Accept in that the proposed regulations have been amended to require LEAs to notify parents of CDE’s web site for obtaining information pertaining to circulating a parent empowerment petition. Reject in that the proposed regulations do not mandate what information will be provided on the website. Section 4800.5 has been amended to read:

…This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition. This notice may also identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes, including enrollment data and attendance boundaries for each school. The web site may also and informing parents and legal guardians of pupils how they may sign a petition requesting the school district to implement one or more interventions to improve the school and how they may contact community-based organizations or work with individual school administrators and parent and community leaders to understand the school intervention options and provide input about the best option for the school. This notice, and
any other written communication from the school or the LEA to parents or legal guardians of pupils, must meet the language requirements of Education Code section 48985.

**Comment:** We recommend the CDE web address, along with the name and contact information of the CDE staff person responsible for oversight, must be included in the letter to parents/guardians.

**Accept in Part and Reject in Part:** Accept in that the web site address will be listed and people can refer to that web site for further information. Reject in that there is no need to mandate a particular contact name. Section 4800.5 has been amended to read:

...This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition...

**Comment:** We recommend each district with schools eligible for the Parent Empowerment provision will be responsible for posting a list of eligible schools on its Web site. Districts will also be required to identify a staff person responsible for oversight of the Parent Empowerment provision. Letters to parents/guardians shall include the district Web address, as well as the name and contact information for the local district employee responsible for oversight.

**Reject:** The language regarding an LEA Web site is permissive; however the notice to parents must include information on CDE’s web site address for parents to obtain further information on parent petitions. Section 4800.5 has been amended to read:

...the LEA shall provide the parents and guardians of all pupils enrolled in a school in restructuring planning or restructuring status with notice that the school may be eligible for a parent empowerment petition to request a specific intervention pursuant to Education Code section 53300. This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition. This notice may also identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes, including enrollment data and attendance boundaries for each school. The web site may also inform parents and legal guardians of pupils and how they may sign a petition requesting the school district to implement one or more interventions to improve the school and how they may contact community-based organizations or work with individual school administrators and parent and community leaders to understand the school intervention options and provide input about the best option for the school, including a public meeting at the school site. This notice, and any other written communication from the school or the LEA to parents or legal guardians of pupils, must meet the language requirements of Education Code section 48985.

**Comment:** The Parent Empowerment regulations should include a reference to the language notification requirements in Education Code section 48985, which mandate
that any written communication to parents be in the primary language spoken at home, where 15% or more of the student population speaks that primary language.

**Accept:** Section 4800.5 has been amended to read:

...This notice, and any other written communication from the school or the LEA to parents or legal guardians of pupils, must meet the language requirements of Education Code section 48985.

**Comment:** As part of the process for turning around the state’s lowest performing schools, districts are now required to hold two public hearings, including one at the school site that has been identified for “turn around.” We believe this same model should be followed for the Parent Empowerment provision in order to ensure that all parents and guardians have the opportunity to learn about the provision and its implications for their students and school. This information is invaluable -- both for parents/guardians who may be interested in exercising this right, as well as for those who may be asked to sign a petition. We therefore recommend the regulations be amended to require informational meetings and to require that the district letter to parents/guardians include the date, time, and location of the relevant public meetings.

**Reject:** Pursuant to Education Code section 53300, the only public hearing required under this statute is when the LEA cannot implement the specific recommended option and designates in writing which of the other options it will implement. Requiring the LEA’s to provide informational meetings and letters to parents/guardians that include the date, time, and location of the relevant public meeting is outside the scope of the statute.

**GABE ROSE, PARENT REVOLUTION**

**Comment:** In California, there are a fair number of K-2 elementary schools which serve as feeder schools for K-5 or 3-5 elementary schools. If taken literally, however, the current draft of regulations seems to preclude parents at such a K-2 school from participating as feeder school parents in the transformation of their future K-5 or 3-5 school. Specifically, it defines an elementary school as any school that matriculates into a middle or high school, and defines “normally matriculate” as “the typical pattern of attendance progression from an elementary school to a subject middle school” (Sections §4801.1 (a) and (g)). Because the clear intent of the law was to allow feeder school parents to participate in the transformation of child’s current or future school, these regulations should be amended to explicitly acknowledge the possibility of elementary schools serving as feeders into other elementary schools.

**Accept:** Sections 4800.1(a) and (g) have been amended to read:

(a) “Elementary school” means a school, regardless of the number of grade levels, whose graduates matriculate into either a subject elementary, middle or high school.

(g) “Normally matriculate” means the typical pattern of attendance progression from an elementary school to a subject elementary school, from an elementary school to a subject middle school or from a middle school to a subject high school, as determined by the LEA(s) pursuant to established
attendance boundaries, policies or practices.

Comment: In section 4800.1(h), the regulations define what “parent or legal guardians of pupils” means. Throughout the remainder of the regulations, however, just the phrase “parents or legal guardians” in its place. To avoid losing any meaning, we recommend using the full phrase throughout the regulations.

Accept: The language throughout the regulations has been amended to reflect the requested consistency.

Comment: It is impossible for parents to organize and get signatures representing half the students if they don’t actually know the exact denominator, aka the current student enrollment at any given time. The current draft of regulations wisely clarified that students enrollment in a school is the denominator, and signatures must represent no less than half the students. LEAs should be required to publish current enrollment figures for every Parent Trigger eligible school on their website, and required to accurately answer parents who inquire about current enrollment numbers. Additionally, they should be required to publish attendance boundary maps for every school on their website and provide it to any parent who requests it. Many schools throughout California have either very large and/or non-contiguous attendance boundaries, and parents cannot organize themselves without knowing where all students at a school are actually coming from. For this law to be meaningful and empowering, parents must have access to this sort of basic information.

Accept: Sections 4802.1(a) and 4800.5 have been amended to read:

(a) An LEA must provide, in writing, to any persons who request it, information as to how the LEA intends to implement section 4800.1(g) as to any subject school and any normally matriculating elementary or middle schools, including providing enrollment data and the number of signatures that would be required pursuant to section 4802.1(e).

4800.5.

. . . This notice may also identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes, including enrollment data and attendance boundaries for each school. The web site may also and informing parents and legal guardians of pupils how they may sign a petition requesting the school district to implement one or more interventions to improve the school and how they may contact community-based organizations or work with individual school administrators and parent and community leaders to understand the school intervention options and provide input about the best option for the school. This notice, and any other written communication from the school or the LEA to parents or legal guardians of pupils, must meet the language requirements of Education Code section 48985.

Comment: To further empower parents, schools should be required to provide space for parents interested in using the Parent Trigger to use school facilities to meet and discuss their efforts. Parents should be provided space, at no cost, that leaves them
free from any intimidation and allows them to work together and collaborate on their efforts.

Reject: Requiring the LEAs to provide school facilities, at no cost, is outside the scope of the statute.

Comment: However, the specific timelines and rules should be tailored so that they fit into and do not conflict with existing charter law and LEAs obligations under it. Accordingly, we would recommend changing the time allowed to respond to the Parent Trigger and charter petitions to 60 calendar days to match the requirements in charter law (regs currently give 45 business days as window), so that an LEA absolutely must act on the two petitions simultaneously.

Reject: The Parent Empowerment statutes provide that an LEA is presented with a petition requesting one of the intervention options and must implement one of the options unless it cannot do so and, if so, must set forth its reasons in writing as to why it cannot do so. If the petition seeks restart as an intervention option and further requests that the school be converted to a specific charter operator, charter management organization or educational management organization, then many of the provisions of Education Code section 47605 are incorporated but the LEA must determine the intervention model first and, if the intervention model is a restart, then it must act to approve or deny the particular charter requested. Nevertheless, section 4802.2(c) has been amended to provide that the timelines set forth in Education Code section 47605 to conduct the rigorous review process do not begin until either 25 business days after the petition containing a charter proposal has been received or, when a proposal is not attached to a petition and the LEA seeks proposals, until a charter proposal has been received.

Comment: Logistics regarding submission of petitions: Parents should be explicitly allowed to continue submitting signatures from additional parents pertaining to a given petition which has already been submitted up the LEA formally verifies the existence of sufficient signatures or lack thereof within the 20 day window described in the current draft of regulations. Any petition that is rejected for insufficient number of signatures can be re-submitted at any time with additional signatures or other material changes that make it more likely to successfully the reach the needed threshold.

Reject: Section 4802.1(h) (formerly subdivision (g)) has been amended to read:

> (h)(g) If the petition is returned pursuant to section 4802.1(g), the same petition may be resubmitted to the LEA with additional signatures as long as no substantive changes are made to the petition. If substantive changes are made to the petition, it must be recirculated for signatures before it may be resubmitted to the LEA.

Comment: Section 4802.1(b) should be amended to strike “by the LEA,” instead reading “If, on the date the petition is submitted, a school is identified pursuant to section 4800(k), it shall remain a subject school until final disposition of the petition” to allow for the possibility of litigation, appeals, or other factors that could take decision making power out of the hands of an LEA.

Reject: Final disposition is defined by the actions taken by the LEA.
Comment: For reasons of precision and clarity, it seems though Section 4802.1(f)(1) should be amended to read “One half of parents or legal guardians of pupils meeting the requirements of Section 4801(a).

Accept: Section 4802.1(g)(1) (formerly subdivision (f)(1)) has been amended to read:

(g)(f) Upon receipt, the LEA may, within 20 25 business days, return the petition to the person designated as the contact person as specified in section 4802(c), if the LEA determines any of the following:
(1) One half of the parents or legal guardians of pupils meeting the requirements of section 4801(a) have not signed the petition;

Comment: In order to empower parents and their efforts, LEAs should be required to conduct their signature verification processes based on parental intent, and not disqualify signatures from parents based on technicalities (simple spelling mistakes, reversing first and last names, etc.)

Accept: Section 4802.1(b) (formerly subdivision (a)) has been amended to read:

(b)(a) Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.

Comment: The current draft of regulations have important language clarifying that any school transformation involving a charter school continue to accept all students within the attendance boundary. (Section 4802.2(d)) Although it is strongly implied by the nature of the law, this stipulation should be explicitly expanded to apply to any transformation model chosen by parents. Parents, LEAs, and other stakeholders should be extremely clear that the Parent Trigger can never be used to “push out” any group of students, and that any Parent Trigger-led transformation will benefit all students currently at the school.

Accept: Section 4800.3 has been added to read:

4800.3. Requirement to Serve All Pupils.
Every pupil that attended a subject school prior to the implementation of an intervention shall continue to be enrolled in the school during and after an intervention is implemented pursuant to Education Code section 53300, unless the parent or legal guardian of the pupil chooses to enroll the pupil in another school or the school is closed. In addition, any pupil who resides in the attendance area of the subject school during or after the implementation of an intervention has a right to attend the school, subject to any laws or rules pertaining to enrollment.
**Comment:** In order to more accurately reflect the language and intent of the Parent Empowerment law, Section 4802.2. (b) should be amended to read “The signatures to establish a charter school pursuant to Education Code sections 47605(a) and 47605(b)(3) will not be required if the petition that requests that the subject school be reopened under a specific charter school operator, charter management organization or education management organization meets all of the requirements of Education Code section 53300.” As this section already acknowledges, the Parent Empowerment provision explicitly gives parents a new power to transform their school into a charter school, and this section should accurately characterize their legal power to do so.

**Accept:** Section 4802.2(b) has been amended to read:

(b) The signatures to establish a charter school pursuant to Education Code sections 47605(a)(4) and 47605(b)(3) will not be required if the petition that requests that the subject school be reopened under a specific charter school operator, charter management organization or education management organization otherwise meets all of the requirements of Education Code section 53300.

**Comment:** Additionally, these regulations should clarify that after approval, a Parent Trigger created charter should be treated the same way as any other conversion charter in regards to facilities, funding, and all other issues. The current draft of regulations explicitly state that they are required to serve the entire attendance boundary rather than admit by application and lottery, and the next draft should explicitly extend all rights and responsibilities of a typical conversion charter to Parent Trigger-led conversions.

**Accept:** Section 4802.2(e) (formally subdivision (d)) has been amended to read:

(e)(d) A charter school established by a parent empowerment petition, once approved, shall be subject to all of the provisions of law that apply to other conversion charter schools comply with the admission requirements for an existing public school converting partially or entirely to a charter school specified in Education Code section 47605(d)(1) and shall admit all pupils who reside within the former attendance area of the subject public school.

**Comment:** In section 4802.2(b), in order to be more precise, it seems as though the language should read “…will not be required if the petition that requests that the subject school be reopened under a specific charter school operator, charter management organization or education management organization otherwise meets all of the requirements of Education Code section 53300.”

**Accept:** Section 4802.2(b) has been amended to include the word “otherwise.”

**Comment:** The current draft contains very important language that prohibits LEAs from overruling the choice of parents unless they literally cannot implement it. LEAs do, however, currently have latitude to reject charter petitions for a much broader set of reasons left entirely up their discretion. This inadvertently leave open the possibility for a circular argument where an LEA who simply does not want to accept the
parents’ choice of the restart model could reject the attached charter petition, and then reject the Parent Empowerment petition on the basis of their own rejection of the charter petition. The simple solution – which reconciles an LEA’s authority to make decisions on charter petitions with the language and intent of the Parent Empowerment provision – is to stipulate that a charter petition must have the opportunity to go through all levels of appeals (aka the appropriate county boards of education and the State Board of Education) before a Parent Empowerment petition can be rejected on the basis of charter petition rejection. 

**Reject:** The Parent Empowerment statutes provide that an LEA is presented with a petition requesting one of the intervention options and must implement one of the options unless it cannot do so and, if so, must set forth its reasons in writing as to why it cannot do so. It is clear from the statute that no “appeal” lies from an LEA’s decision to implement a different intervention option.

**Comment:** LEAs should therefore be required to act both in good faith and in compliance with the timelines set forth in these regulations in order to facilitate that goal. LEAs should be prohibited from deliberately skirting timelines and using stall tactics to disempower parents and keep them from receiving the change they petitioned for in the subsequent school year, as required by this law. 

**Reject.** Timelines are provided in regulatory language and LEA’s are required to follow them.

**JO A. S. LOSS, CALIFORNIA PTA**

**Comment:** California State PTA believes that the intervention models described in those sections are written in language that is neither meaningful nor accessible to most parents. Parents need access to clear, concise information that is straightforward, unbiased and not couched in education terms with opportunities for more detail as requested.

**Accept In Part and Reject in Part:** Accept in that language has been added to Section 4800.5 requiring the notice to parents to provide a web site address for CDE to obtain more information on circulating a parent empowerment petition and further provides that the LEA may provide information on their website concerning how parents may contact community-based organizations or work with individual school administrators and parent and community leaders to understand the different models and provide input about the best option for the school. In addition, this Section is amended to require that the notice and any other written communication from the school or LEA meet the language requirements of Section 48985. Reject in that the models described in sections 4803 through 4807 reflect the federal description of models. Education Code section 53300 sites the intervention models from that language.

**Comment:** California State PTA believes that to ensure the transparency of the process, the implications of the adoption of a specific model should also be disclosed, as well as who will be responsible for implementation.

**Reject:** The implications of the adoption of a specific model and the levels of success are likely to be subject to unforeseen and idiosyncratic variables; however, the LEA is responsible for implementation pursuant to Education Code section 53300.
Comment: As part of the process for intervening in the Persistently Lowest-Achieving Schools, the statute requires that prior to the selection of one of the four interventions the governing board must hold two meetings, with at least one at the school site. California State PTA believes that requiring the same type of meetings when Parent Empowerment is invoked is critical. California State PTA believes that the most meaningful parent engagement occurs when parents are provided with sufficient information to make informed choices about their children and their schools. To that end, we reiterate our belief that the parent empowerment provision would be significantly strengthened if in eligible school communities expressing interest in exploring this option, public meetings were held at the affected school site informing parents of the petition option and providing information about the allowable turnaround strategies that can be initiated by a successful petition campaign.

Reject: Unlike Education Code section 53202 which specifically requires public hearings, Education Code section 53300 provides that an LEA must make a finding in writing at a regularly scheduled meeting only if the LEA cannot implement the specific recommended option and instead designates in writing which of the other options it will implement. Nothing in the Parent Empowerment statute requires that any hearings or meetings be held by the LEA nor precludes the LEA from holding such hearings or meetings or petitioners from holding public information meetings.

Comment: California State PTA believes that there should be specific reference to the language notification requirements in Education Code section 48985, which mandate that any written communication to parents be in the primary language spoken at home.

Accept: Section 4800.5 has been amended to read:

This notice, and any other written communication from the school or the LEA to parents or legal guardians of pupils, must meet the language requirements of Education Code section 48985.

Comment: Additionally, there should be specific language requiring that materials presented to parents be straightforward, unbiased and not couched in education terms, with opportunities for more detail as requested, so they can make informed decisions and be effective partners in their children’s education.

Reject: Section 4800.5 is amended to allow for, but does not require, LEAs to identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes and to inform parents how they may sign a petition requesting the school district to implement one or more interventions to improve the school and how they may contact community-based organizations and community leaders to understand the intervention options.

Comment: 4802 Content of the Petition. Lines 2-3 “(c)(b) The name and public contact information of the person to be contacted by either persons interested in the petition or by the LEA;”
We believe to ensure transparency any affiliations must be disclosed, including whether the petitioners are associated with a parent group, union, district, or specific charter school operator, charter management organization or education management organization.

Accept: Section 4802(j) has been added to read:

(j) The names of any agencies or organizations that the person identified in subdivision (c) is affiliated with that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition.

Comment: California State PTA remains opposed to the use of paid signature gatherers in the petition process.

Reject: There is no authority in the statute to disallow the use of paid signature gatherers. Moreover, the U.S. Supreme Court has held that wholesale prohibition of paid signature gatherers is an impermissible burden on free speech. Meyers v. Grant (1988) 486 U.S. 414.

Comment: “(d)(e) Identification of the requested intervention; (c)(d) A description of the requested intervention using the language set forth in either sections 4803, 4804, 4805, 4806, or 4807;”

Again, California State PTA believes that the intervention models described in those sections are written in language that is neither meaningful nor accessible to most parents. Parents need access to clear information that is straightforward, unbiased and not couched in education terms.

Reject: The models described in sections 4803 through 4807 reflect the federal description of models. Education Code section 53300 sites the intervention models from that language.

Comment: We believe that petition should also inform parents where to go for more information.

Accept: Section 4802(c) provides this information. In addition, section 4800.5 has been amended to read:

... [T]he LEA shall provide the parents and guardians of all pupils enrolled in a school in restructuring planning or restructuring status with notice that the school may be eligible for a parent empowerment petition to request a specific intervention pursuant to Education Code section 53300. This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition. This notice may also identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes, including enrollment data and attendance boundaries for each school. The web site may also and informing parents and legal guardians of pupils how they may sign a petition requesting the school district to implement one or more interventions to improve the school and how they may contact community-based organizations or work with individual school administrators and parent
and community leaders to understand the school intervention options and provide input about the best option for the school. . .

**Comment:** Section 4802.2. This petition option is the only one that serves dual purposes – meets the requirements of the Parent Empowerment regulations and fulfills the requirements for conversion to a charter school. California PTA continues to believe that there should be a separate petition process for conversion to a charter school.

**Reject in Part and Accept in Part:** Reject in that there is no separate petition process. Accept in that section 4802.2(c) has been amended to clarify the process to implement the restart model and reads as follows:

. . . Upon the receipt of a petition that requests a restart model as intervention, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option presented in the petition or implement one of the other intervention options as set forth in Education Code section 53300. If a petition requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to section 4802.1(q), then the LEA must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and timelines set forth in Education Code section 47605, subdivisions (b) through (h), (i)(1) and (l) except that the timelines set forth in Education Code section 47605(b) do not begin until 25 business days after the petition was received.

**VIRGINIA STROM-MARTIN, LAUSD**

**Comment:** In Section 4800(g) what is the definition of “typical”? This does not take into consideration any changes in attendance boundaries. Since 2001 LAUSD has opened 101 schools. Twenty-seven more will be built before 2012. Obviously our building program has a direct impact on attendance boundaries.

**Reject:** Typical may refer to a historical attendance pattern that is established and defined by the LEA. As set forth in section 4800.1(g):

(g) “Normally matriculate” means the typical pattern of attendance progression from an elementary school to a subject elementary school, from an elementary school to a subject middle school or from a middle school to a subject high school, as determined by the LEA(s) pursuant to established attendance boundaries, policies or practices.

**Comment:** In Section 4800 (k) since Adequate Yearly Progress (AYP) reports are not released until September, when should parental notifications be issued

**Response:** Notice that a school may be eligible for a Parent Empowerment petition will be issued on the same date that notice is issued advising that the school is in Program Improvement Year 4 (or later).

**Comment:** Do the regulations intend for that year to be a planning year for petitioning?
Response: Pursuant to Education Code section 53300 the intervention model adopted by the LEA must be implemented in the subsequent school year consistent with requirements specified in federal regulations and guidelines for schools subject to schools restructuring under section 1116(b)(8) of the Federal Elementary and Secondary Education Act (20 U.S.C. Section 6301 et seq.) and regulations and guidelines for the four interventions.

Comment: In Section 4800 (k)(3) clarification is needed to indicate whether the schools need to meet all four requirements under Adequate Yearly Progress (AYP): 1. Participation rate. 2. Percent proficient. 3. Using Academic Performance Index as an additional indicator. 4. Graduation rates. What is meant by not making AYP? This needs to be spelled out.
Response: AYP is taken in total.

Comment: In Section 4800(l) the use of the term “compelling interest” is a legal constitutional standard. We recommend amending this language because it creates the notion of a higher standard. Moreover, this clearly oversteps the statute which only requires the LEA to “make a finding in writing stating the reason it cannot implement the specific recommended option…” (Ed. Code section 53300).
Reject: The term compelling interest is used to refer its plain meaning and is not meant to refer to the constitutional standard that courts may invoke with respect to a governmental restriction on constitutional rights.

Comment: In Section 4800.1 (Parental Notice) is this stating that only Program Improvement, year four schools are eligible for petitioning under the Act?
Reject: As set forth in Section 4800.1(k):

(k)(h) “Subject school” means a school not identified by the Superintendent of Public Instruction following the release of the annual adequate yearly progress report, as a persistently lowest-achieving school that: under Education Code section 53201 which, after one full school year, is subject to corrective action pursuant to 20 U.S.C. Section 6316(b)(7) and continues to fail to make adequate yearly progress, and has an Academic Performance Index (API) score of less than 800.

1. Is not one of the persistently lowest-achieving schools identified by the SBE on March 11, 2010;
2. Has been in corrective action pursuant to paragraph (7) of Section 1116(b) of the federal Elementary and Secondary Education Act for at least one full academic year;
3. Has failed to make adequate yearly progress (AYP); and
4. Has an Academic Performance Index (API) score of less than 800.

Comment: In section 4801 (Petition Signatures) clarification is needed as to what would constitute an appropriate “combination of signatures of parents.” For instance, is it sufficient to have 80% (of a total 50%) of parent signatures come from the feeder schools to the subject school?
Accept: Section 4802.1(e) has been clarified and amended to read:
There is no specified ratio required of signatures gathered at each school, rather the total ratio of signatures gathered must meet the one-half requirement.

Comment: In Section 4801(h), the District believes that the petition circulation should comply with already existing district policies and procedures.
Reject: Section 4801(h) does not relieve any persons from the responsibilities to observe any existing district policies and procedures.

Comment: In Section 4802(a) clarification is needed to address the fact that not all foster parents hold educational rights. Would this include homeless unaccompanied youth who has the right to be enrolled in a school without a parent under the McKinney Vento Act? LAUSD has a substantial population of these students. Language should clarify to mean foster parents that are “education rights holder” or “responsible adults.”
Accept: Section 4800.1(h) (formerly subdivision (e)) has been amended to read:

(h)(e) “Parents or legal guardians of pupils” means the natural or adoptive parents, legal guardians, or other persons holding the right to make educational decisions for the pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education Code sections 56028 or 56055, including foster parents who hold rights to make educational decisions.

This section applies to any persons who hold rights to make educational decisions for pupils, including persons who hold rights to make educational decisions for homeless youth.

Comment: In Section 4802.1(a) if the LEA “may only contact parents or legal guardians to verify signatures on the petition.” If that is the case, which entity would be responsible for policing this subdivision and ensure that there have been no violations? What are the LEAs duties to ensure a fair and appropriate petition process? (In CDE’s Initial Statement of Reason it states that the LEA “has discretion to verify signatures but is not required to do so.”)
Reject: No suggestion made in this comment. The verification of signatures is permissive but not required by the LEA. Clarification language has been added to section 4802.1(f) that the LEA may contact parents and guardians to verify “eligible” signatures.

Comment: “…normally matriculate into more than one subject school” in Section 4801(d) is vague and does not clarify how it should be calculated if there is more than one feeder school for the subject school.
Reject: “Normally matriculate” is defined in Section 4800.1(g).

Comment: In section 4802.1(e) states that: “In connection with the petition, the LEA may only contact parents or legal guardians to verify signatures on the petition.” LAUSD believes principals or schools officials should not be limited from discussing educational choices, curriculum, or other related issues with parents.
Reject: The purpose of this section is to regulate the verification process to prevent undue influence. In addition, however, clarification language has been added to section 4802.1(f) (formerly subdivision (e)) to read:

(f)(e) In connection with the petition, the LEA may only contact parents or legal guardians to verify eligible signatures on the petition.

Comment: In Section 4802.1(g) does the 45 days include the 30 day and 60 day timelines for charter petition review under Ed. Code 47605 (b) if petitioners identify the restart model?

Accept: Section 4802.2(c) has been amended to clarify the timelines and reads:

(c) Upon the receipt of a petition that requests a restart model as intervention, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option presented in the petition or implement one of the other intervention options in Education Code section 53300. If a petition requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to Section 4802.1(g), then the LEA must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and timelines set forth in Education Code section 47605, subdivisions (b) through (h), (j)(1) and (l) with the exception that the timelines set forth in Education Code section 47605(b) do not begin until 25 business days after the petition was received.

Comment: In Section 4802.1(h) use of the term “compelling interest” goes beyond the statutory language that give LEAs decision-making authority to deny a suggested reform measure as long as it makes written findings.

Reject: The term compelling interest is used to refer its plain meaning and is not meant to refer to the constitutional standard that courts may invoke with respect to a governmental restriction on constitutional rights.

Comment: In Section 4802.1(i) clarification is needed to determine which entity will choose which petition and procedure for “random selection.”

Reject: The procedure to be used to randomly select which school’s final disposition will be implemented where the ceiling of 75 is about to be reached and more than one final disposition is received on the same day, will be standard procedures as determined by the SSPI and the SBE as set forth in section 4802.1.

Comment: In Section 4802.2 (c) clarification is needed to describe timelines vis-à-vis section 4802.1(g) above stating that the LEA should have final disposition within 45 business days. The Ed. Code 47605 (b) timelines may not necessarily coincide with the 45 business days. Moreover, the basis for denial of a charter school petition under Ed. Code 47605 (b)-(5) does not require a “compelling interest” standard as articulated in other sections in these proposed regulations.
Accept If Petitioners identify a restart model and request a specific charter operator, the timelines are clarified as follows:

(c) Upon the receipt of a petition that requests a restart model as intervention, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option presented in the petition or implement one of the other intervention options in Education Code section 53300. If a petition requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to Section 4802.1(g), then the LEA must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and timelines set forth in Education Code section 47605, subdivisions (b) through (h), (i)(1) and (l) with the exception that the timelines set forth in Education Code section 47605(b) do not begin until 25 business days after the petition was received. . . .

Comment: In section 4802.2(d) LAUSD would recommend adding that in accordance with Education Code section 47605(f), parents of pupils can opt out of attendance at a charter school.

Accept: Section 4800.3 has been amended to read:

Every pupil that attended a subject school prior to the implementation of an intervention shall continue to be enrolled in the school during and after an intervention is implemented pursuant to Education Code section 53300, unless the parent or legal guardian of the pupil chooses to enroll the pupil in another school or the school is closed. . . .

Comment: Section 4803- the LEAs should have discretion and flexibility in regards to implementation of this model. This would have both budgetary and operational consequences for the district.

Reject: The models are defined by federal guidelines and incorporated into Education Code section 53300. Turnaround model does offer flexibility to the LEA in implementation.

GLORIA ROMERO, CALIFORNIA STATE SENATOR

Comment: The legislative language states that an LEA must implement the specific option requested by parents unless they “cannot” do so. The word “cannot” was specifically chosen to ensure that LEAs respond to the will of the parents while also ensuring that the voices of parents were not limited. This is a very important point, and it is extremely important that these regulations further clarify this intent to the greatest extent possible.

Accept: Section 4800.1(l) clarifies the intent of the legislative language.

Comment: . . . [T]he “Parent Trigger” sought to ensure that a parent could request any of the four interventions, including charter conversion without permission from any other party. The current draft of these regulations contains some language
intended to address this issue, but it is necessary for the State Board to explore revisions to clarify our intent to the greatest extent possible.

**Accept:** Section 4802.2(b) clarifies the intent of the legislative language.

**Comment:** . . . [I]t is important to remember that the entire purpose of this law was to actually empower parents to transform their child’s failing schools through community organizing. As the author of this law, I would urge that the Board recognize our legislative intent when making decisions around these regulations. Additionally, while considering and crafting all future amendments and revisions, I would urge you to constantly consider whether they are consistent with the primary aspect of our legislative intent, which is to empower parents to create change through organizing to improve our students’ schools.

**Accept:** Regulations reflect language in the statute and are consistent with the laws of this state as set forth in Education Code section 33031.

**AFTER THE 45-DAY COMMENT PERIOD, THE FOLLOWING CHANGES WERE MADE TO THE PROPOSED TEXT OF THE REGULATIONS AND SENT OUT FOR A 15-DAY PUBLIC COMMENT PERIOD BETWEEN DECEMBER 23, 2010 AND JANUARY 6, 2011:**

Renumbering and/or relettering changes were made throughout the regulations to accommodate amendments and deletions. In addition, various grammatical changes were made throughout these sections.

**SECTION 4800** is amended in response to public comment that the Board should not assume legislative intent and the fact that the Board’s intent is clear from the regulation itself.

**SECTION 4800.1(a)** is amended to add “either” and “elementary.” These additions are necessary to allow for the possibility of an elementary school being a subject school with lower grade span elementary schools that normally matriculates into a subject elementary school.

**SECTION 4800.1(d) (formerly subdivision (b))** is amended to delete “junior high schools.” This deletion is necessary because this language is redundant and junior high school is defined in 4800.1(f) “Middle school”.

**SECTION 4800.1(g)** is amended to clarify and allow for the possibility of an elementary school being a “subject school” and having a lower grade span elementary school(s) that normally matriculates into a subject elementary school.

**SECTION 4800.1(h) (formerly subdivision (e))** is amended to add foster parents “who hold rights to make educational decisions” and to cite to an additional statutory reference. This addition is necessary to clarify that only those foster parents who hold rights to make educational decisions may sign a petition.

**SECTION 4800.3** is added to clarify the enrollment rights of pupils during and after the petition process. This is necessary to ensure that pupils at a school where an
intervention is implemented may continue to attend that school.

SECTION 4800.5 is amended to add “This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition.” This addition is in response to public comment and designates the CDE Web site which will provide specific information to parents regarding the petition process and access to the descriptions of the intervention models set forth in sections 4803, 4804, 4805, 4806, and 4807.

SECTION 4800.5 is also amended to specify that among the information that may be provided on an LEA’s web site is enrollment data and attendance boundary information, as well as information on who parents and legal guardians may contact to understand the intervention options, and which options may work best for a school. This section is also amended to add the language “This notice, and any other written communication from the school or the LEA to parents or legal guardians of pupils, must meet the language requirements of Education Code section 48985.” This is necessary to ensure that the LEA complies with stated language requirements.

SECTION 4801(a) is amended to add “all.” This is necessary to clarify the requirement that if a petition seeks signatures of parents from the subject school, and schools that normally matriculate into the subject school, that all schools that normally matriculate into the subject school shall be included in the signature gathering process. It is also amended to delete the word “only” as it is superfluous.

SECTION 4801(b) is amended to read: “A petition must contain signatures of parents and or legal guardians of pupils attending the subject school and may contain signatures of parents or legal guardians of pupils attending only the elementary or middle schools that normally matriculate into a the subject middle or high school.” These amendments are necessary to clarify that the petition process must at least contain the signatures of parents or legal guardians of pupils attending the subject school. The collection of signatures of parents or legal guardians of pupils attending schools that normally matriculate into a subject school is optional.

SECTION 4801(e) is amended to add “or request other information”. This amendment is necessary to allow signature gatherers the possibility to collect additional voluntary information.

SECTION 4802(a) is amended to notify potential signers that foster parents can sign the petition if they hold rights to make educational decisions for a pupil.

SECTION 4802(b) is amended to clarify that the petition seeks the signatures of parents OR legal guardians and provides consistent language throughout the regulations.

SECTION 4802(e) (formerly subdivision (d)) is amended to add “without omission to ensure full disclosure of the impact of the intervention” to ensure that petition signers have immediate access to the language of the intervention model specified in the petition.
SECTION 4802(i) (formerly subdivision (h)) is amended to add “and, if so, that information must be clearly stated on the front page of the petition.” This amendment is necessary to avoid confusion or mistake as to the content and intent of the petition.

SECTION 4802(j) is added to ensure full disclosure of the status and affiliations of the petition organizers and financial supporters.

SECTION 4802.1(a) is added to ensure the petitioners have access to accurate data to ascertain the number of signatures required to sufficiently meet the “at least one-half” requirement of parents or legal guardian signatures.

SECTION 4802.1(b) (formerly subdivision (a)) is amended to allow an LEA to verify signatures from matriculating schools that are outside of the subject school’s LEA. This is necessary to ensure that LEAs cooperate with one another if they choose to verify signatures. This language also clarifies that an LEA may not invalidate a signature based on a technicality when it is clear that the parents or legal guardian’s intention was to support the petition. This is necessary to effectuate the intent of the Parent Empowerment statutes.

SECTION 4802.1(d)(formerly subdivision (c)) is amended to change “students” to “pupils” for consistency.

SECTION 4802.1(d)(formerly subdivision (c) and (e)(formerly subdivision (d)) are amended to add “or legal guardians” for consistency.

SECTION 4802.1(e) (formerly subdivision (d)) is also amended to add “There is no specified ratio required of signatures gathered at each school; rather the total ratio of signatures gathered must meet the one-half requirement.” This amendment is necessary to clarify that, where signatures are gathered at more than one school, only the total number of signatures gathered must meet the one-half requirement and that the one-half mark need not be reached at each school.

SECTION 4802.1(f)(formerly subdivision (e)) is amended to provide that LEA may only contact parents or legal guardians to verify “eligible” signatures. This is necessary for clarity.

SECTION 4802.1(g) (formerly subdivision (f)) is amended to lengthen the number of business days from 20 to 25 that an LEA has to return the petition to the person designated as the contact person. This amendment is necessary to allow sufficient time for verification of signatures.

SECTION 4802.1(g)(1) (formerly subdivision (f)(1)) is amended to clarify that the petition can only be returned for insufficient signatures if one-half of the parents or legal guardians fail to meet the signature requirements set forth at Section 4801(a).
SECTION 4802.1(h) is added to allow petitioners to resubmit a petition to include additional signatures if and only if the original petition lacked a sufficient number of signatures and no substantive changes are made to the resubmitted petition.

SECTION 4802.1(i) (formerly subdivision (g)) is amended to add that the date the LEA is required to have reached a final disposition may be extended by an additional 20 business days if the LEA and the person listed in section 4802(c) agree to the extension in writing. This is added to allow for additional flexibility.

SECTION 4802.2(a) is amended to delete “that meets all of the requirements of Education Code section 47605(b).” This deletion is necessary as it cannot be determined whether a particular charter petition meets the requirements of section 47605(b) before it has undergone a rigorous review process.

SECTION 4802.2(b) is amended to reference additional subdivisions of the EC to clarify that no additional signatures of any kind will be required beyond those required by the parent empowerment statutes. This subdivision also adds the word “otherwise” for clarification purposes.

SECTION 4802.2(c) is amended to establish procedures and timelines in the event a restart model is the model selected on the petition submitted as well as to establish procedures and timelines in the event that a restart petition requests that the school be reopened under a specific charter school operator, charter management organization or education management organization.

SECTION 4802.2(d) adds language to clarify that an LEA must first reach a final disposition on a specific model identified in the petition before it can act on a specific charter proposal. This is necessary to comply with the Education Code section 53300 which provides that the LEA shall implement the intervention requested or designate in writing which of the other intervention options it will implement in the subsequent school year.

SECTION 4802.2(e) is amended to clarify that once a school is converted to a charter school through the petition process, it is subject to all the same provisions that conversion charter schools are subject to.

COMMENTS RECEIVED DURING THE PERIOD THE 15-DAY NOTICE AND PROPOSED REGULATION TEXT WAS AVAILABLE TO THE PUBLIC

The modified text was made available to the public from December 23, 2010, through January 6, 2011, inclusive. Eleven written submissions representing 95 comments were received during the 15-day comment period. Pursuant to Government Code sections 11346.9(a)(3) and (a)(5), California Department of Education (CDE) staff, on behalf of the SBE, has summarized and responded to those comment as follows:

BARRETT GREEN, LAW FIRM OF LITTLER MENDELSON
Comment: Sections 4802(i) and 4802.2. The proposed regulations seek to authorize petitioners to select a specific charter school operator, charter management organization, or education management organization when requesting the so-called "restart model" intervention under Education Code sections 53300 and 53202(a).

This approach is ultra vires and, if approved, would dramatically alter the existing statutory framework.

There is nothing in Education Code section 53300, 53202, or the federal Appendix that suggests in any way that a petitioning group would be able to select a specific charter school operator, charter management organization (CMO), or education management organization (EMO) within an intervention model after having selected the so-called "restart model" under Education Code section 53300 and 53202(a).

Rather, it clear that it is the "LEA" (the local educational agency) that converts or closes and reopens the school under a charter school operator, a CMO, or an EMO, and only after the charter, CMO, or EMO has "been selected through a rigorous review process."

Had the Legislature intended to allow a petitioning group to divest the locally elected public officials of their oversight authority in implementing the restart model, the Legislature could and would have said so.

If the regulations are enacted as proposed, well-funded charter schools will have a financial motive to persuade parents to support a charter's takeover of an existing school district facility, knowing that the result will be a stream of public revenue directly to the charter. Absent the regulation, parents can still impose the restart model on a school district, but the school district remains accountable to all of the residents of the community and the electorate in vetting proposed charters, CMOs, and EMOs, and implementing the "rigorous review process" required under Education Code section 53202(a) and the federal Appendix, before a charter, CMO, or EMO is selected.

Other provisions of the Charter Schools Act (Education Code section 47600 et seq.) support the latter construction. Under Education Code section 47605(a)(1), a so-called "startup charter" may be initiated by a petition signed by parents of one-half of the number of pupils that the charter school estimates will enroll in the school for its first year of operation, or one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation. In contrast, under Education Code section 47605(a)(2), when a petition proposes to convert an existing public school to a charter school, the petition must be signed by not less than 50 percent of the permanent status teachers currently employed at the public school to be converted. This reflects the substantial local support required in the context of a takeover of a specific school by a specific charter organization.

Further, the construction is supported by principles of equal protection under the state and federal constitutions. If the proposed regulation were authorized, a small number
of parents who might possess educational rights over their children, but might not reside in the community, might not have voted in recent local elections, or might not even be eligible to vote would be authorized to dispossess locally elected officials of governance responsibilities, and effectuate a transfer of public funds and facilities through the disenfranchisement of residents and registered voters.

The proposed regulations constitute an impermissible transfer of legislative oversight from a locally elected body to special interest groups. It is respectfully submitted that the regulations are *ultra vires* and should not be approved.

**Reject:** Although the LEA may operationalize the conversion of a school under a charter school petition, there is nothing in section 4804 “Description of Intervention – Restart Model” that precludes parental selection, suggestion, or request of a charter school operator (CSO), charter management organization (CMO), or education management organization (EMO). Moreover, the regulations still provide the LEA with the final authority over whether to adopt a particular CSO, CMO or EMO. Pursuant to Education Code section 33031, the SBE has adopted rules and regulations that are consistent with the laws of this state.

**Comment:** In various places in Proposed Regulation 4802.1, the term "at least one-half of" is included before the term, "the parents or legal guardians of all pupils..." (See, e.g., sections 4802.1(d), (e), (g)(l).) : In each of these instances, the sentence would be clearer if the term were moved so that the sentence read, "the parents or legal guardians of at least one-half of..." since the one-half that is required is one half of the pupils.

**Reject:** Current language reflects Education Code section 53300.

**Comment:** Need For Regulation Regarding Stale, Lapsed, Or Withdrawn Support. There appears to be no regulation addressing any time-period after which a signature in support of a petition becomes stale or lapses, or any mechanism for a proponent of a petition to change his/her mind.

Absent rulemaking in this area, a parent could sign a petition and six months, a year, two years or more could pass and the signature could still be used in support of a petition, even though circumstances likely have changed. It is respectfully recommended that this issue could be addressed through either a requirement that signatures in support of a petition remain valid for a specified number of days and/or that a mechanism be implemented to allow signatories to withdraw support.

**Reject:** Timeline inherent in the petition process as it relates to the identification of a subject school precludes the scenarios reflected in the comment.

**Comment:** Under proposed section 4802.1(g), an LEA has 25 business days in which to return the petition to the person designated as the contact person specified in section 4802(c), if the LEA determines there are insufficient signatures, or the petition is otherwise defective in specified respects.

It is respectfully submitted that the proposed 25 business days is not sufficient time for an LEA to determine whether a petition has met all of the requirements of the
petition set forth in proposed regulation Section 4802, and whether there are sufficient signatures from parents/guardians of one-half of the pupils of the affected school.

For example, if the affected school is a high school, an LEA may be required to verify over 1,500 signatories within 25 days. Moreover, the 25 days could run during a time period when students are not in school (i.e., summer recess), which would make it extremely difficult for an LEA to verify signatures. Further, an LEA may be presented with multiple petitions at the same time or within a short time frame, making it very challenging for the LEA to undertake the required review in a timely manner.

It is respectfully proposed that the regulation be amended, as follows:

a. Business days should be defined so as to exclude days when students are not in school.

b. The 25 business day timeline should apply to petitions of less than 200 signatures; petitions of 200-500 signatures should have a 40 business day turnaround time; and petitions in excess of 500 signatures should have a 60 business day turnaround time.

Response: Timelines and language as proposed are sufficient, even where petitions contain a large number of signatures. If an LEA wishes to verify signatures, it need only match the information on the petition with existing enrollment records at the schools which should not take more than 25 business days, particularly since business days only includes days that the LEA is open and operating. However, the comment is neither accepted nor rejected at this time as, the Board has put forth for public comment Optional Section 4802.1, which provides 40 calendar days for LEAs to verify signatures.

Comment: Proposed section 4802.1(h) provides that, if the petition is returned pursuant to section 4802.1(g), the same petition may be resubmitted to the LEA with additional signatures as long as no substantive changes are made to the petition. If substantive changes are made to the petition, it must be recirculated for signatures before it may be resubmitted to the LEA.

When a petition is submitted, the petition reflects the views of the signatories at a "snapshot" in time - the moment of submission of the proposal. These views may change at some point thereafter. Allowing a defective petition to be revived would seem to endorse an assumption that a petitioner, who at one period in time supported the petition, still supports the petition at some later point.

It is reasonable to require that proponents only submit petitions after undertaking reasonable due diligence to ensure they have obtained the requisite number of signatures.

In addition, the term "substantive changes" is not defined in Proposed Regulation 4800.1 or in the Education Code. Absent some definition, disputes will likely arise regarding whether a change to the petition is "unsubstantial," without providing an
opportunity for the signatories to review the changes to the petition and determine whether they still support it.

It is respectfully submitted that regulation 4802.1(h) should be withdrawn. **Accept in part and Reject in part:** Accept the comment that “substantive changes” is difficult to define so Section 4802.1(h) has been amended to delete the word “substantive” from the regulation text. The comment is rejected insofar as petition gatherers are allowed to resubmit a petition that has been returned solely for deficiencies in the number of signatures required. In addition, it should be noted that Optional Section 4802.1, put forth for public comment, similarly allows petitions that are found by an LEA to be deficient in signatures to resubmit the petition to an LEA within a specific period of time.

**Comment:** Under proposed section 4802.2(c) (last sentence), the timelines contained in Education Code section 47605(b) begin 25 days after receipt of the petition if the petition is not returned pursuant to proposed regulation section 4802.1(g).

This provision, however, conflicts with the first sentence of Regulation 4802.2(c), which requires that the LEA first determine whether it will implement the restart model (applying Proposed Regulation 4802.1’s 45 business day review timeline) before then conducting the "rigorous review" under regulation 4802.2.(c).

It also conflicts with Proposed Regulation 4802.2(d), which provides that the LEA shall act to approve or deny a specific charter proposal if and only if the LEA has adopted the restart model as its final disposition.

Assuming the State Board persists in maintaining *ultra vires* regulations 4802(i) and 4802.2, the conflict in Regulation 4802.2(c) can be remedied by allowing the 25 business days to commence after the determination is made pursuant to Regulation 4802.1. **Accept:** Sections 4802.2(c), (d) and (e), have been amended to remedy any potential conflicts in timelines. Optional subdivisions (d) and (e) also contain the same changes in the timeline, although the process is slightly different. Optional Section 4802.2 proposes different timelines and processes.

**Comment:** Recusal Of Affected State Board Of Education Members In Light Of The Political Reform Act Of 1974 (Government Code Section 81000 Et Seq.) And Applicable Ethics Rules

It is our understanding that, at the December 15, 2010 meeting of the State Board of Education ("SBE"), State Board member Benjamin Austin stated that he is abstaining from consideration or vote with respect to the proposed regulations due to his direct and significant involvement in a pending "parent-trigger" petition as Executive Director of Parent Revolution. Parent Revolution is the organization that initiated the December 7, 2010 petition filed with CUSD regarding CUSD's McKinley Elementary School.
CUSD respectfully requests that State Board President Theodore R. Mitchell and State Board Members Yvonne Chan and Johnathan Xavier Williams also abstain from consideration of and voting on the regulations because these State Board Members are also board members of various charter schools in California, including Green Dot Public Schools, Friendship Public Charter School, Accelerated Charter Elementary School, The Accelerated School, and Vaughn Next Century Learning Center.

As more fully addressed above in CUSD's comments regarding the proposed regulations, proposed regulations 4802(i) and 4802.2 would authorize a petitioning group to identify a specific charter operator when seeking to implement the so-called "restart model" intervention under the parent empowerment statute. This procedure is not referenced anywhere in the parent empowerment statute or related federal law.

We have submitted a California Public Records Act request to the State Board of Education/California Department of Education to evaluate which, if any, SBE Members and/or California Department of Education ("CDE") officials collaborated with charter special interest groups in connection with the creation of proposed regulations 4802(i) and 4802.2 and related matters. However, SBE staff have extended to January 11, 2011, the date by which they will respond to the records request.

Regardless of whether any State Board members collaborated with charter special interests in crafting this special rule, all State Board officials who have a fiduciary or financial connection with charter schools have a conflict of interest regarding the enactment of the Parent Empowerment regulations because the regulations provide a new and direct avenue for their affiliated charter schools to quickly expand and operate in various public school districts.

For these reasons, it is respectfully requested that the affected State Board of Education Members recuse themselves from consideration or voting in connection with the proposed regulations.

Reject: The issue of conflict of interest is not germane to the substance of the regulations.

**PRISCILLA WINSLOW, CALIFORNIA TEACHERS ASSOCIATION**  
**Comment: Section 4800.1(I).** In this section which defines "cannot implement the specific recommended option," the proposed regulation requires that a school district must have a compelling interest to support a finding that it cannot implement an option. The authorizing statute, Ed. Code §53300, simply requires the local educational agency to make a "finding in writing stating the reason it cannot implement the specific recommended option and instead designates in writing which of the other options described in this section it will implement. ... ". Inserting a requirement of "compelling interest" exceeds the parameters established by the statute, and therefore exceeds the authority of the SBE to promulgate such a regulation.
If the Legislature had intended to create a burden of "compelling interest" it would have said so. The absence of such a standard in the legislation reflects the Legislature's determination that the only burden an LEA bears is to articulate the reasons for its rejection of one option in favor of another. Regulations cannot overturn that legislative choice.

For these reasons we propose omitting the clause, ".and has a compelling interest to support such a finding."

**Accept:** Section 4800.1(l) has been revised to omit the reference to compelling interest.

**Comment: Section 4800.3.** This new regulation provides that every pupil attending a subject school prior to the implementation of an intervention shall continue to be enrolled in that school during and after an intervention, unless the pupil enrolls in another school or the school is closed.

The Charter Schools Act, Ed. Code §47600, et seq. guarantees that no child may be compelled to attend a charter school, and any charter petition must describe public school alternatives for pupils who choose not to attend the charter school. Ed. Code §47605(b)(5)(L). This regulation should be amended to require that any "parent empowerment petition" that seeks a charter school must notify parents of their right to enroll their children in another non-charter school in the district.

**Reject:** The suggestion is unnecessary. Sections 4800.3 and 4802.2(f) provide for pupil enrollment and do not require that parents enroll their child in any particular school. Nothing in the regulations precludes a parent from choosing to enroll their child in another school subsequent to a parent empowerment petition, subject to any laws or rules pertaining to enrollment. Moreover, any proposed charter school proposal attached to a parent empowerment petition will have to undergo a rigorous review process which includes a determination of whether the proposal complies with the provisions of Section 47605(b).

**Comment: Section 4801(d).** This proposed regulation persists in omitting any requirement that the petitions contain the addresses of parent or guardians signing the petitions, yet it now requires the pupil's name and date of birth. Obviously, privacy is not a concern that motivates the omission of an address requirement.

Requiring addresses is necessary to enable the LEA to verify the signatures quickly without a cumbersome cross-checking process. It will also assist in preventing fraud and assure that those signing actually live in the district or are otherwise qualified to sign the petition. We request that the address requirement be reinstated.

**Reject:** Adequate procedures are in place to allow LEAs to readily verify signatures without an address on the petition.

**Comment: Section 4801(h).** This regulation should be amended to prohibit signature gatherers from making false statements concerning the educational improvements hoped to be realized by the requested intervention or any other false or misleading statements about the consequences of signing or not signing the petition. It should
also prohibit signature gatherers from making any threats or other coercive statements in an attempt to obtain signatures. Preliminary reports from Compton Unified School District indicate that parents were told that they needed to sign the petition to implement parent empowerment in order to get more money for McKinley School, or so that it would not close. Others were reportedly threatened with deportation if they did not sign. In short, misconduct by some signature-gatherers is a reality and these regulations should prohibit such misrepresentations or threats.

We ask that this regulation be amended to read as follows:

(h) Signature gathers may not offer gifts, rewards, or tangible incentives, or make threats of coercive action, false statements, or false promises of benefits to parents or legal guardians in order to persuade them to sign a petition ... [as in proposed regulations.]

Response: The comment is accepted in that section 4801(h) has been amended to include a prohibition against “harassment” and already prohibits threats and intimidation but neither accepted nor rejected as to the inclusion of a prohibition regarding false statements or false promises of benefits, as that language has been included as an option put out for public comment by the Board pursuant to Optional Subsection 4801(g), for the purpose of determining whether to include such language in the future.

Comment: Section 4802. This section generally addresses what is to be required on the petitions. In addition to what has been proposed, there should be a provision on the petition informing parents and guardians that they have a right to revoke their signatures.

The need for such a regulation has become very apparent in light of the events in Compton and this Board's call for an investigation by the Attorney General into alleged threats and misrepresentation by the signature gatherers acting on behalf of Parent Revolution. If a parent signed a petition based on the representation that his signature will get more money for the school, or that his signature was needed to prevent the school from closing when those facts are not true, the parent should have the opportunity to rescind his signature.

If this statute is truly about parent empowerment, the SBE will include provisions for revocation of signatures. What could be more disempowering than to hold a person to a signature gained by false pretenses?

Reject: Section 4801(g) provides sufficient protection regarding the misrepresentation of a petition during the signature gathering process.

Comment: Section 4802(i). This subsection permits a petition for the "restart" model to combine that petition with a request that the school be reopened "under a specific charter school operator, charter management organization or education management organization, ... " To the extent that this proposed regulation permits a charter school to be established at the same time or by the same "parent empowerment" petition, it is on a collision course with the Charter Schools Act. This regulation dispenses with
the requirement in Ed. Code 47605(b) that a charter petition include a description of its proposed educational program, the qualifications of those to be employed in the charter school, and other representations the Legislature saw fit to include to assure some measure of charter school quality.

This regulation, combined with others in these proposed regulations, removes the LEA from any review of a petition that would create a charter school, authority which is specifically vested in school districts by Ed. Code §47605(b). Obviously, the SBE is not empowered to overturn legislation (the Charter Schools Act) through these regulations.

Permitting charter schools created pursuant to Ed. Code §53300 to be virtually unreviewed by any part of the public school system, whether it be an LEA or the State Board, creates a two-tier system and will call into question whether these charters are actually part of the public school system from a constitutional standpoint. See Wilson v. SBE (1999) 75 Cal. App. 4th 1125. If no public entity reviews the bona fides of a proposed charter school, it loses the public oversight assumed by the Supreme Court in Wilson and specifically provided for by statute. The Charter Schools Act reflects the Legislature's intention that petitions for charter schools must be reviewed for their fiscal and educational integrity. Allowing "parent trigger" charter schools to be formed without review undermines one of the safeguards of the Charter Schools Act. There is simply no rational basis for removing the requirement of a "rigorous review process" from the selection process for CMO, EMO, or charter operators that was initially contemplated in an earlier draft of this regulation.

In order to harmonize this proposed regulation with existing statutes the regulation should be changed to make clear that charter school formation under Ed. Code 53300 shall be accomplished only by the procedures already established in the Charter Schools Act. In addition, the regulation should identify which educational agency is to perform the "rigorous review." We presume it should be the LEA, as it is in the best position to know the educational needs of the pupils it serves.

Accept in part and reject in part: Accept in that the amendment to sections 4802.2(a), (b), and (c) and additions to sections 4802.2(e) and (f) align the proposed regulations to incorporate some of the requirements of the Charter Schools Act and allow the LEA to conduct the rigorous review process only after a restart intervention is chosen, but rejected in that the formation of the charter school is not accomplished solely by the procedures of the Charter School Act. While the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

Comments: Section 4802.1(b). This regulation permits, but does not require, the LEA to make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. That means the LEA should be able to determine that the signatories are parents or guardians of pupils in the subject school
or in "feeder schools." How can this verification be done if the parents are not required to provide their addresses? Indeed, without addresses, no one can verify that the signatories are bona fide parents or guardians.

For all practical purposes, dropping the address requirement precludes the LEA from checking for fraudulent signatories, or makes it extremely cumbersome for the LEA to do so.

In order to protect the public interest in having the parent "trigger" be pulled by actual parents of pupils in subject schools, the LEA should be required to do a sample test of the signatures on a petition to assure that they are not fraudulent. To accomplish this we ask that the address requirement be placed back in these proposed regulations and that the following be inserted in §4802.1(b):

Upon receipt of the petition, the LEA shall make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations as in proposed regulation.

Reject: Addresses are not necessary for verification purposes and mandating signature verification may be beyond the scope of the statute.

Comment: Section 4802.1(c). As written, this regulation is ambiguous. What does it mean to "remain a subject school until final disposition of the petition by the LEA"? "Final disposition" means "the action taken by the [LEA] to implement the requested intervention option presented by a petition ... “ [Proposed Reg. 4800.1(c).] If a school no longer qualifies as a target school between the time a petition is filed and the time the LEA acts on the petition, is it the intent of these regulations to allow the intervention anyway? If so, are schools who qualify as a subject school under Ed. Code 53300 to remain subject to the intervention for the rest of time? What are the provisions for exiting?

To the extent this proposed regulation intends to include schools that are "on the cusp," i.e. they fit the definition of a subject school when the petition was filed, but then exited the category because they exceeded 800 on the API, or exited program improvement, or made adequate yearly progress, the regulation allows this statute to be directed not at the lowest performing schools, but at schools that are actually making improvement and are in least need the remedy provided for by the statute. This regulation simply is not tailored to effectuate the purposes of the act. Only 75 schools are subject to Ed. Code §53300. This regulation will permit the "trigger" to be spent not schools that allegedly could really benefit from it, but on schools that are already on their way to improved status. We ask that this section be deleted from the proposed regulations. It is confusing, and contrary to the purposes of the Education Code.

Response: The LEA maintains the ability to implement the requested model or an alternative model. Academic progress may be a point of consideration in determining which model to implement. Nevertheless, the comment is neither accepted nor rejected at this point as the SBE has put forth for public comment two optional provisions. Section 4800.1, optional new subsection(k)(5) would provide that a school
that exits Program Improvement shall not be subject to continued identification on the Parent Empowerment list. Optional Section 4802.1(c) would provide that a subject school shall cease to be a subject school if it has exited federal Program Improvement and is at or over 800 on the Academic Performance Index.

Comment: On the contrary, we believe that a regulation should provide that LEAs may reject parent petitions for schools that have made academic progress in the past school year, even if the school's API is below 800. McKinley Elementary is a case in point. It has been receiving Quality Education Investment Act (QEIA) funds for the past three years, and has implemented reforms mandated by the Quality Education Investment Act (Ed. Code §52055.700, et seq.), including reforms that are unique to that school and that have been formulated by the community of teachers, administrators and parents. The test scores at this school have been improving since it has been in the QEIA program. Bringing in a new governance structure or new educational program has the potential to erase the gains the school has made. It undermines the intent of QEIA, which was envisioned to span at least seven years.

Insulating QEIA schools or any others that have been making progress after having undergone changes in their educational program or alterations in school governance would also better harmonize this statute with the federal No Child Left Behind Act, and with these proposed regulations which define "intervention" to include the alternative governance arrangement pursuant to Title 20 U.S.C. Section 6316(b)(8)(B)(v). This federal statute provides in pertinent part:

"Any other major restructuring of the school's governance arrangement that makes fundamental reforms, such as significant changes on the school's staffing and governance, to improve student academic achievement...and that has substantial promise of enabling the school to make adequate yearly progress ..."

As a general matter, QEIA schools have already implemented this "fifth" option as a condition of receiving the QEIA grant. The reforms implemented in those schools should not be disrupted by a parent petition before they have had a chance to run their full seven-year course.

Reject: The suggestions offered are outside of the scope of the statute as the statute does not make an exemption for QEIA schools. In addition, the LEA maintains the ability to implement the requested model or an alternative model. Academic progress may be a point of consideration in determining which model to implement.

Comment: Section 4802.1(f). This regulation purports to limit LEAs contact with parent signatories only to determine if those parents or guardians are eligible to sign a petition. The public authority should not be so limited. School districts should not be prohibited from determining whether the signatories on a petition were coerced into signing by fraud, duress, or other unethical or illegal means. As a public entity, the LEA has a duty to assure that it is not being defrauded by an alleged parent petition that has been procured by intimidation. We suggest the following amendments:
(f) In connection with the petition, the LEA may contact parents or legal guardians to verify eligible signatures on the petition and to determine if the signatures were obtained by fraud, duress or intimidation.

Reject: The preferred language is unnecessary as current regulations allow LEAs to contact parents or legal guardians when necessary for verification purposes and nothing in the regulations prohibits a parent or guardian from reporting instances of fraud, duress or intimidation.

Comment: Section 4802.1(j). This regulation imposes a duty on the LEA to state a "compelling interest that supports" a finding that a particular requested intervention cannot be implemented. For the reasons discussed under Proposed Regulation 4800.1(l) above, we request this requirement be deleted. Imposing this greater standard of proof on the LEA exceeds the plain language of the statute and is therefore beyond the authority of the SBE to implement by regulation.

Requiring a "compelling interest" standard also potentially conflicts with federal law, 20 U.S.C. 63 l 6(b)(8)(B)(v), which imposes no requirement that an LEA demonstrate by "compelling interest" which intervention it chooses to implement for schools in Program Improvement. Exceeding the federal requirements in this context violates the Supremacy Clause of the United States Constitution.

Accept: Section 4800.1(l) has been amended to delete the "compelling interest standard."

Comment: Sections 4802.2(a) and (b). These two subparagraphs permit a parent empowerment petition that calls for the establishment of a charter school operator, a charter management organization or education management organization to "stand in" for the charter petitions required by Ed. Code §47605(b), the Charter Schools Act. “A separate petition for the establishment of a charter school will not need to be signed."

These proposed regulations exceed the authority of the State Board of Education because they completely supersede the Charter Schools Act. As is well known, petitions to create charter schools must be accompanied by some group of signatures, either parents who are meaningfully interested in sending their children to a start-up charter, or permanent teachers who work at a proposed conversion charter. This regulation proposes to do away with any signature requirement on the charter petition itself, instead substituting the signatures on the parent empowerment petition under Ed. Coded 53300 for the review of the charter petition that the CSA presumes parents will make before they sign such a document. The one cannot be substituted for another for legal and policy reasons.

Skipping parent signatures on a charter petition is actually parent disempowerment. It removes their ability to review the proposed educational program proposed by the charter school. This contradicts the spirit of Ed. Code 53300 and the letter of the CSA.

Reject: Education Code section 53300 provides that parent signatures are sufficient alone to prompt the adoption of an intervention model, such as the Restart model.
Education Code section 53300, via reference to Education Code section 53200, incorporates the federal definition of the Restart model which provides for conversion of, or closing and reopening of, a school under a charter school operator, a charter management organization, or education management organization. Requiring compliance with the signatory requirements of the Charter School Act would frustrate the intent of the parent empowerment statutes. In addition, these regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

**Comment:** Subparagraph (b) actually amends the CSA [Ed. Code 47605(a)(1) and 47605(b)(3)] by doing away with the signature requirement altogether if a subject school is to be closed and reopened under a specific charter school operator. The State Board does not have the authority to amend statutes. This is also extremely bad policy.

**Reject:** The parent empowerment regulations do not alter the CSA statutes.

**Comment:** Under these regulations that purport to remove from any LEA the right and duty to oversee the quality of schools in the district, the right to determine if parent signatures were fraudulent or obtained by duress and which significantly undermine the LEA's authority to reject a parent empowerment petition, California could easily end up charter schools that are completely inappropriate or illegal.

**Reject:** The regulations implement the requirements of the parent empowerment statutes. Moreover, the LEA is still responsible for conducting a rigorous review of any proposed charter school and is still the body responsible for approving any charter.

**Comment:** This proposed regulation further conflicts with the CSA because it purports to eliminate the requirement that "conversion" charter schools need not be accompanied by the signature of at least 50% of the permanent teachers at that school. Ed. Code §47605(a)(2). This requirement was placed in the CSA by the Legislature for a reason-to assure that public schools were not being converted to charter schools (an action that could have significant employment consequences for the staff in the converted school) without the assent of at least 50% of the permanent teachers.

There is no authority in Ed. Code §53300 for eliminating that protection, or any other provision contained in the Charter Schools Act. The SBE simply does not have the authority to enact this regulation. Charter schools may not be created by any method other than what is outlined in the Charter School Act. We request that Proposed Regulation §4802.2 be amended to reflect this.

**Reject:** These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act. Requiring compliance with the signatory
requirements of the Charter School Act would frustrate the intent of the parent empowerment statutes.

**Comment:** Addenda to section 4802.2(c). This proposal, submitted during the December 15 SBE meeting without benefit of any previous notice and comment period, would require an LEA to solicit charter proposals if a parent empowerment petition does not request a subject school be operated under a specific charter school operator, CMO or EMO and to conduct a "rigorous review process," including compliance with Ed. Code §47605(b) through (h) and (l).

This proposal continues to ignore subsection (a)(2) of Ed. Code §47605, the requirement for 50% of the permanent teachers to sign petitions to convert existing public schools to charter schools. For reasons described above, this regulation is illegal because it conflicts with the CSA and there is no legislative authority for the SBE to promulgate regulations that conflict with an existing statute.

**Reject:** These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act. Requiring compliance with the signatory requirements of the Charter School Act would frustrate the intent of the parent empowerment statutes.

**Comment:** This proposed regulation also creates an unnecessary burden on school districts to go out and seek potential charter school operators. Such a requirement is hardly necessary since charter schools are easily responding to a perceived market in California. We request that this regulation be deleted.

**Reject:** The obligation to solicit proposals for a charter school operator, charter management organization or education management organization pursuant to section 4802.2 only arises if a school chooses to implement a restart intervention and no specific operator or organization was requested in the petition and is not an unduly burdensome requirement.

**Comment: Section 4802.2(e).** This proposed regulation confusingly provides that a charter school established by a parent empowerment petition shall be subject to all of the provisions of the law that apply to other conversion charter schools, This is inconsistent with the Charter Schools Act, which requires permanent teachers' signatures on a charter conversion petition, not parent signatures. Read in conjunction with Proposed Regulation 4802.2(a), which says that parents need only sign the empowerment petition, subsection (e) is meaningless.

**Reject:** Section 4802.2(e) (now (f)) only applies once a charter school has been established through a parent empowerment petition.

**Comment: Section 4807.** This regulation describes "alternative governance arrangement." For reasons discussed above, we urge the SBE to add to this regulation a provision that would permit an LEA to reject a parent empowerment
petition if a school is already operating under an alternative governance arrangement and making improvements on its API score. Such a clarification would reserve the remedy of Ed. Code 53300 for those schools that are not making improvement and could perhaps make better use of the remedy.

Response: The LEA maintains the ability to implement the requested model or to implement an alternative model. Academic progress may be a point of consideration in determining which model to implement. This comment is neither accepted nor rejected at this time, rather, the Board is putting forth for public comment Section 4802.1, Optional new subsection (k)(5) which provides that a school that exits Program Improvement shall not be subject to continued identification on the Parent Empowerment List and Optional Section 4802.1(c) which provides that a subject school will not remain a subject school until final disposition if it exits program improvement and is at or over 800 on the Academic Performance Index.

KAREN CARDIERO-CAPLAN, CALIFORNIANS TOGETHER

Comment: Section 4800.1(l). (page 3, lines 12-14). The proposed “Cannot implement the specific recommended option” is defined as an LEA unable to implement the intervention requested by parents in the petition and “has a compelling interest to support such a finding”. We believe this wording goes beyond what is required by statute.

Section 53302(b) of Ch. 3, Statutes of 2010 specifically states that an LEA is not required to implement the option requested by the parent petition if the request is for reasons other than improving academic achievement or pupil safety. However reference to these reasons are not specifically cited in this section nor in the other proposed provisions of the regulations.

Recommendation: Add language to this section stating that an LEA is not required to implement a parent petition “if the request is for reasons other than improving academic achievement or pupil safety” and eliminate reference to “a compelling interest”.

Accept in part and Reject in part: Accept in that section 4800.1(l) has been amended to delete the “compelling interest” standard but reject the addition of language which states that an LEA is not required to implement a petition for reasons other than academic achievement or pupil safety as there is no reason to include language in regulations which is clearly set forth in statute.

Comment: Section 4800.3 (page 3, lines 19-29). We support adding this new section.

Response: No response required.

Comment: Section 4800.5 (page 3, lines 31&32, page 4, lines 1-22). This notice is key to a well understood policy and procedures of the parent empowerment provisions by all parents. Notices regarding the parent petition, the public hearing and the opportunity to provide input should be in the language that parents and community members understand so that they can participate effectively in the petition.
process and in the school turnaround process. This is critical for those parents who are not native English speakers and who are not proficient in English.

Recommendation: We support the proposed change to this section specifying that the notice and any other written communication from the school or the LEA to parents or legal guardians of pupils must meet the language requirements as required in Education Code section 48985. We thank the Board for this additional language. We respectfully request however that you further consider adding language that would require the information posted on the CDE’s website also be made available in languages other than English. Additionally, we believe public hearings or meetings held by LEAs on parent empowerment (policies and procedures) should make translation available for non-English speaking parents of students in schools slated for turnaround.

Response: All CDE web pages already adhere to accessibility and language requirements in statute. Additionally, statutes are in place that require LEAs to provide translation services for threshold languages under specified conditions and there is no need for any additional requirements. The comment is neither accepted nor rejected at this time as the SBE puts forth for public comment several optional provisions that would require, both on CDE’s website and the petition itself, translations to be made available for non-English speakers. These optional provisions can be seen in Option 2 of Section 4800.5, Optional subsection (j) of Section 4801 and Optional subsection (l) of Section 4802.

Comment: As you are aware, Section 53202 (b) of Ch. 2, Statutes of 2010 (SBX5 1) requires that prior to the selection of one of the four intervention the governing board of the LEA must hold two hearings, with at least one hearing to be held at the school site for the express purpose of seeking input from stakeholders (staff, parents and the community) regarding the option or options most suitable for the applicable school or schools in its jurisdiction. The proposed parent notice regulation does not provide for hearings nor input from stakeholders. Again, the most meaningful parent engagement occurs when parents are provided with understandable information to make informed choices about their children, their education and their schools.

Recommendation: (page 4, line 8) Add language to this section reflecting Education Code Section 53202 (b). The following amendment is proposed:

“…specific intervention pursuant to Education Code Section 53300. The notice shall include the requirement that the LEA must hold at least two public hearings to notify staff, parents and the community of the school’s designation and to seek input from staff, parents and the community regarding the option or options most suitable for the school. At least one of those public hearings shall be held at a regularly scheduled meeting, if applicable, and at least one of the public hearings shall be held on the site of a school deemed persistently lowest achieving. This notice shall provide…”

Response: This comment is neither accepted nor rejected at this time as such language has been included as an option that the public may comment on, as set forth in Option 1 of Section 4800.5.
Comment: Section 4801(b). (page 5, lines 13). This section specifies what constitutes a petition and a petition signature. Since many parents of children attending these schools will be parents with limited English proficiency, the petition should also meet the language requirement as specified in Education Code Section 48985.

Recommendation: (page 5, line 9) Add the following language:

“A petition shall meet the language requirements pursuant to Education Code Section 48985 and must contain…”

Response: Petitions are not generated by LEAs or schools, thus it may be beyond the scope of the CDE’s authority to mandate language requirements for parent petitions. The comment is neither accepted nor rejected though at this time as this language has been included as an option that the public may comment on, as set forth in Optional new subsection (j) of Section 4801.

Comment: Section 4802. (page 6, lines 19-32; page 7, lines 1-22). This section specifies the information that must be contained in a “petition” given to parents for their signatures such as a description of the requested intervention. Charter schools are not required to inform parents of their right to seek an alternative program for their children and of their right to file a waiver in order to make that happen pursuant to Education Code Sections 310 & 311 while public schools are required to inform parents of the waiver process. As a result many parents would not be informed of this right if they choose charter schools as their intervention model. We believe parents should be informed as to this fact.

Recommendation: (page 7, line 6) Add a new subsection (f) to read as follows:

“Alternative programs (bilingual programs) will not be available to students and waivers will not be available to parents wishing to place their children in bilingual classrooms as required pursuant to Education Code sections 310 & 311 upon choosing a charter school intervention.”

Response: The comment is neither accepted nor rejected at this time as similar language has been included as an option that the public may comment on, as set forth in Optional new subsection (k) of Section 4802 and Optional new subsection (g) of Section 4802.2.

Comment: Section 4802.1. (page 9, lines 18-22). This subsection allows the resubmission of a petition as specified and allows for the inclusion of additional signatures. There is no time frame for how long additional signatures can be collected. If it goes for a significant time then all signatures should be verified against the enrollment in order to verify that all of the original signatures are of students currently enrolled. The lack of a time frame could change the way 51% of signatures can be calculated especially for those schools with high transiency rates.
Recommendation: (page 9, line 22). Add the following language: “…be resubmitted to the LEA. **The additional signatures should be gathered within 25 business days.**”

**Response:** This comment is neither accepted nor rejected at this time as a time limitation of 60 calendar days for resubmission of a petition has been included as an option offered for public comment, as set forth in Optional Section 4802.1(j).

**JOYCE DILLARD**

**Comment:** Since Section 4800 has made it the intent of this regulation to align with federal statute, then Executive Order 13132 Federalism should be applied and any unfunded mandates should be considered. What is the record retention model and under what jurisdiction (sic).

**Reject:** Section 4800 addresses only the Parent Empowerment provisions.

**MARGUERITE NOTEWARE, CALIFORNIA SCHOOL BOARDS ASSOCIATION**

**Comment:** Section 4800. The California School Boards Association believes the proposed regulation language is contrary to statute. Education Code 53300 specifically references the four intervention models from the federal Race to the Top and School Intervention Program grant opportunities. Should the federal government change those four models or develop additional models, then California Education Code will need to be changed accordingly.

**Reject:** Education Code section 53300 is state law and reflects an intent to adopt provisions that are currently referenced in Federal law and there is no indication that the Legislature intended the parent empowerment intervention models to change if federal models are changed in the future.

**Comment:** Section 4800.1. In section (l) “Cannot implement the specific recommended option,” the proposed language uses the term “compelling interest.” We concur with several of the commenters from the 45-day notice draft regulations that the use of this terminology sets a high standard because it has a strict legal definition. The use of “compelling interest” goes far beyond the scope of the statute and we strongly object to it remaining in the final regulations. In the 45-day notice Final Statement of Reasons, the CDE states that they did not intend the constitutional definition, but the “plain meaning.” Unfortunately, that is not clear from the proposed regulation language and the State Board of Education does not have the authority adopt regulations that reach beyond statute. Should this section (and later reference in 4802.1(j)) be adopted with “compelling interest” CSBA believes it will create a reimbursable state mandate for LEAs because it implies a high standard that must be satisfied at the hearing created by Education Code 53300.

**Accept:** Section 4800.1(l) has been amended to delete the reference to a compelling interest.

**Comment:** Section 4801. In our previous letters to the Regulations Coordinator and the SBE, CSBA has expressed our concern that the proposed regulations do not include provisions prohibiting the payment or compensation of signature gatherers. While we continue to support the proposed language in section 4801(h), it is troubling that these expectations are not reciprocal. In the 45-day notice Final Statement of
Reasons, the case cited by the Department references signature gatherers for a statewide ballot initiative. We disagree with the CDE’s analysis that a ruling relating to a statewide ballot initiative may be applied to a local petition to change school governance. If the CDE believes that the petition process for the Parent Empowerment Act is analogous to gathering signatures to qualify an initiative for the statewide ballot, then CSBA suggests that all other laws that pertain to signature gathering for ballot initiatives should apply, such as fraud, disclosure and the like. Most importantly, a person signing a ballot initiative must list their name and address so that the Secretary of State can verify that the person is a registered voter. In this instance, we believe the Department is cherry picking statute by stating that petitions related to this Act are like an initiative, but only for the code sections that suit their needs.

Reject: The SBE believes that prohibiting compensation of signature gathering may impede constitutionally protected rights.

Comment: Section 4802.1. In the final sentence of section 4802.1(b), the proposed regulations state that, “An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.” Parents and legal guardians, by the act of signing the petition, are expressing their support. The LEAs role is to verify the pupil’s residence and enrollment information, and not to be put in the situation to make judgment decisions about their parent and legal guardian’s intentionality. Should an LEA find a technical error on the signature portion of the petition (such as duplication or student residence outside school attendance areas) they should be allowed to invalidate those signatures. Otherwise, why would a validation process be necessary? We find this proposed language erroneous, unnecessary and request that it be removed from the final version.

Response: The comment is neither accepted nor rejected at this time. While the referenced language has been removed from the proposed regulations at Section 4802.1(b), similar language remains in Optional Section 4802.1(b) which has been put forward for public comment.

Comment: We agree with the commenter from the 45-day notice version that stated that the use of “substantially” in section 4802.1(f)(3) again goes beyond the scope of the statue. We request that it be deleted from the final version.

Response: The comment is neither accepted nor rejected at this time. While the word “substantive” has been deleted from section 4802.1(h) it still remains used in Optional Section 4802.1(j).

Comment: Section 4802.2. In the second paragraph of section (c), the California School Boards Association believes it is beyond the authority of the State Board to require LEAs to “solicit charter proposals from charter school operators, charter management organizations and education management organizations” in the event that a restart model petition pursuant to this Act does not request a specific operator. We believe the use of “must” in line 18 on page 11 imposes an unfunded state mandate and urge that it be changed to “may” in order to avoid this consequence.
Response: The comment is neither accepted nor rejected at this time. While the requirement to solicit proposals for a specific charter school operator, charter management organization or education management organization on a petition is only required if an LEA chooses to adopt the restart model, the Board has included options that the public may comment that would not require that the LEA choose the specific operator. Optional Subsection (d) of Section 4802.2 and Optional Section 4802.2(d)(2), provide alternatives for the LEA to allow the parents and legal guardians that submitted the petition an opportunity later to select a specific school operator when a particular proposal was not submitted with the petition.

LIZ GUILLEN, PUBLIC ADVOCATES, INC.  
Comment: Section 4800 limits parents’ rights. The intent of our earlier comments was misinterpreted. Rather than limit Parent Empowerment provisions to the four intervention models in Race to the Top, we sought to allow the Parent Empowerment provision to apply to any additional transformation models that might be allowed by the federal government. This section should be amended to state the following:

The Parent Empowerment provisions shall remain valid in the event of changes to federal law referenced within the legislative language of Chapters 2 and 3 of the 5th Extraordinary Session Statutes of 2010 to the extent allowable under law. If changes to federal law permit the use of additional transformation models, the provisions of these regulations shall apply equally to those models.

Reject: Education Code section 53300 is state law and reflects intent to adopt provisions currently referenced in Federal law and there is no indication that the Legislature intended the parent empowerment intervention models to change if current federal models are changed in the future.

Comment: Section 4800.5. Parental notice should require complete information to parents. CDE and SBE rejected our recommendation to include the information about parents’ rights to two public meetings, including one at the school site. This two-public meeting requirement is included in California’s Race to the Top legislation SBx5 1 (Steinberg) and it applies to the “persistently lowest achieving” schools that have to undergo one of the four federal interventions. Since the proposed regulations piggy-back the parent trigger information onto this notification “consistent with” ESEA, and the intent of the parent trigger is to empower parents, it is reasonable to also require districts to include in that notice the right of parents to two public meetings about the interventions which the parent trigger could request. The intent of these public meetings is to build the knowledge and capacity of parents about the options and impacts of interventions and their roles in improving the school. It is also “consistent with ESEA” since the notice is going to parents of students in “persistently lowest achieving schools.” We request reconsideration of this comment as follows:

…specific intervention pursuant to Education Code section 53300. The notice shall include the requirement that the LEA must hold at least two public hearings to notify staff, parents and the community of the school’s designation and to seek input from staff, parents and the community regarding the option or options most suitable for the
school. At least one of those public hearings shall be held at a regularly scheduled meeting, if applicable, and at least one of the public hearings shall be held on the site of a school deemed persistently lowest-achieving. This notice shall provide…

Response: This comment is neither accepted nor rejected at this time as the SBE has included this language as an option that the public may comment on, as set forth in Option 1 of Section 4800.5.

Comment: Section 4801(h) must be strengthened to protect students. Anecdotal evidence from the petition in Compton makes it clear that the welfare of both the parents and the students should be addressed by these regulations. The threat of a loss to a student’s educational opportunity is as concerning as a threat to a parent’s well-being, and such threats must be forbidden from practice in the execution of parent trigger. We recommend the language be edited as follows:

Signature gatherers may not offer gifts, rewards, or tangible incentives to parents or legal guardians to sign a petition, except that signature gatherers may discuss educational related improvements hoped to be realized by implementing the requested intervention option. Signature gatherers, parents, students and legal guardians shall be free from threats and intimidation related to circulation or signature of a petition.

Accept: Section 4801(g) has been amended to add “students” to those groups that shall be free from threats and intimidation, in addition to school site staff and LEA staff. In addition, Optional subsection (g), offered for public comment, also includes “students” to those groups that shall be free from threats and intimidation.

Comment: Section 4802(j) modifications still do not clearly disclose paid signature gatherers. Modified language only requires disclosure of a “contact” person who may be affiliated with supporters of the petition. Our comments intended to identify for a parent whether the signature gatherer is being paid, information that should be available to parents who are asked to sign a petition. We request clarifying this point as follows:

The names of any agencies or organizations that the person identified in subdivision (c) is affiliated with that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition, including whether signature gatherers are being paid.

Response: While Section 4802(j) has been amended to clarify that the names of any agencies or organizations that are providing financial, in-kind or volunteer support to the petition must be displayed on the petition, the Board has put forth for public comment an option that would go even further and require signature gatherers to disclose if they are being paid as set forth in Option 2 to Section 4801(g).

Comment: Section 4802.1(e) requiring no specific ratio of signatures from feeder schools should not unfairly control the outcome. By not requiring a specific ratio of signatures from matriculating schools, it is possible that only one or two signatures from parents in a single feeder school would enable the petition to reach the 50%
threshold. LEAs should be allowed to consider that in rejecting the petition and to ensure that there is meaningful support for the petition from parents from all feeder schools. We recommend that this section be edited as follows:

There is no specified ratio required of signatures gathered at each school; rather the total ratio of signatures gathered must meet the one-half requirement. The “ratio may be one factor considered by the LEA in approving or disapproving a petition.”

**Reject:** Requested language is beyond the scope of the statute. Section 53300 specifically refers to “a combination of at least one-half of the parents or legal guardians” at the subject school and matriculating schools. The suggested language is rejected as it is up to each using whatever factors are relevant for that determination.

**Comment:** Section 4802.1(j) should provide greater transparency to parents about approved and pending petitions, especially since this process is limited to 75 schools statewide. We recommend the following:

(j) The LEA shall notify the SSPI and the SBE in writing within ten business days of its receipt of a petition and within two business days of the final disposition of the petition. CDE shall post this information on its website. The notice of final disposition shall state that the LEA will implement the recommended option or include the written finding stating the reason it cannot implement the specific recommended option, including the compelling interest that supports such a finding, designating which of the other options it will implement and stating that the alternative option selected has substantial promise of enabling the school to make adequate yearly progress.

**Reject:** Information will be available to parents on the CDE Parent Empowerment Web site pursuant to section 4800.5 and may include such information. These SBE regulations do not need to mandate the reporting of this information for CDE’s website.

**SHERRY SKELLY GRIFFITH, ASSOC. OF CALIF. SCHOOL ADMINISTRATORS**

**Comment:** Section 4800. LEAs must be held accountable to the provisions of ESEA under Title I irrespective of intent stated in this section. If ESEA and Title I provisions change LEAs will need to comply with federal law even if the intent of this section is to supersede federal law.

**Reject:** Education Code section 53300 is state law and reflects intent to adopt provisions currently referenced in Federal law and there is no indication that the Legislature intended the parent empowerment intervention models to change if current federal models are changed in the future.

**Comment:** Section 4800.1. ACSA supports the definition proposed to define “normally matriculate”.

**Response:** No response required.
**Comment:** Persistently lowest-achieving will forever be locked into the list created on March 11, 2010 unless this definition is amended as follows

Is not one of the persistently lowest-achieving schools identified by the SBE on or after, March 11, 2010.

**Reject:** There is no current contemplation for the creation of a new Persistently Lowest Achieving Schools list.

**Comment:** The use of the term “compelling interest” is a legal constitutional standard. The CDE and SBE’s response on December 15 stated, “The term “compelling interest” is used to refer to its plain meaning and is not meant to refer to the constitutional standards that courts may invoke with respect to governmental restriction on constitutional rights and pursuant to Education Code Section 33031, the SBE has adopted rules and regulations that are consistent with the laws of this state.”

If the intent is to imply a “plain” meaning then ACSA recommends that be explicated stated as follows:

(1) Cannot implement the “specific recommended option” means that an LEA is unable to implement the intervention requested in the petition and has a compelling interest to support such a finding. **Compelling interest is defined as a plain meaning and is not meant to refer to a constitutional standard.**

**Accept:** Section 4800.1(l) has been amended to eliminate the reference to a “compelling interest” standard.

**Comment:** Section 4800.3. We support this language.

**Response:** No response required.

**Comment:** Section 4800.5. ACSA is concerned that LEAs will find it very difficult to notify parents the same day they receive notice from the state regarding Program Improvement status. We recommend the language be amended to reflect that the notice is provided at the same time parents receive the Program Improvement notice not the date the state notifies the district. Providing within the local notice, there is a CDE website is reasonable if the CDE elects to provide a website.

**Reject:** The commenter is misreading the regulation. Language currently reflects suggested timelines.

**Comment:** Mandating in regulation what should be in a local website when it’s not required under statute that LEAs have a website pursuant to EC section 53300, exceeds the authority of the SBE. EC section 53330 does not refer to enrollment data, attendance boundaries, how to sign a petition, how to contact community groups or others. These requirements should either be part of legislative amendments or in non-binding policy guidance from the state, not in permanent regulations.

**Reject:** Local website and content is permissive and not mandatory.

**Comment:** Section 4801. ACSA believes that the pupils attending the subject school and their parents should have a higher priority for determining the intervention then
parents and pupils matriculating outside of the school or outside of the LEA’s jurisdiction. Imagine if just 1% percent of parents in the subject school signed a petition and 99% of the signatures came from outside the school. This would allow a small disgruntled minority at the subject school and a large majority who do not attend the school to determine its fate. This is particularly troublesome if outside organizations attempt to manipulate the process. We recommend the following amendment to ensure priority is provided to pupils currently attending the subject school:

Lines 9-13 – “A petition must contain signatures of parents and legal guardians of pupils attending the subject school and may contain signatures of parents or legal guardians of pupils attending the elementary or middle schools that normally matriculate into the subject middle school or high school. At least 51 percent of the total signatures shall be from parents or legal guardians who have pupils currently enrolled in the subject school.

Reject: Section 53300 specifically refers to “a combination of at least one-half of the parents or legal guardians” at the subject school and matriculating schools. Suggested language is beyond the scope of statute.

Comment: We continue to oppose denying all legal parents or guardians the right to sign a petition. The proposed regulations conflict with current statutes which define legal parents and guardians holding the right to “determine the educational decisions” for their pupil. If two parents hold joint custody then they typically hold educational decision making authority. LEAs are required to honor these rights and notify all legal parents and guardians to the laws and regulations. This is explicitly defined pursuant to EC Section 56028. We believe denying one or more parents their right to exercise authority to determine education decisions is “inconsistent” with the laws of the state and therefore places the SBE in violation of EC section 33031 that regulations cannot be “inconsistent” with statute.

Reject: Parent signatures are aligned per pupil, thus, allowing more than one signature per pupil could skew reaching the required “at least one half”.

Comment: Not requiring a signer’s address or other contact information will make it virtually impossible for LEAS to verify signatures or contact a signer to verify a signature. Matriculating schools and LEAS will not release this information because the information is protected. Therefore if signatures are challenged particularly from matriculating schools, the LEAs will be set up to fail. The statute clearly gives LEAS authority to verify signatures which authorizes SBE to create a process to do so. Otherwise delays and legal challenges will result.

Response: Addresses and additional information are not necessary to verify signatures. In addition, language in 4802.1(b), as amended, is sufficient for verification purposes. Nevertheless, the comment is neither accepted nor rejected at this time as the Board has put forth for public comment options that would allow lead petitioners to assist with the verification process as set forth at Optional Section 4802.1.

Comment: This section is missing some key participants regarding intimidation and the protection of school site operations for the safety of students. It is critical that
petition gathering activities do not disrupt daily school operations or create any type of safety hazard for students.

ACSA recommends the following amendments:

Signature gatherers, parents and legal guardians, students, school site staff, school district staff and local neighbors surrounding the subject school shall be free from threats and intimidation related to circulation or signature of a petition. Signature gatherers shall follow all district and school requirements for entry and presence on school grounds and on or near a subject school. Signature gatherers shall not disrupt the operation of the school, its staff or students during regular school operations.

Response: The commented is accepted in that section 4801(h) has been amended to add students, school site staff and LEA staff as groups of persons that should be free from threats and intimidation. Also, the Board has put forth for public comment several options that would address this commenter’s concerns as set forth in Section 4801, Optional Subsections (g) and (h) except that “members of the community” is seen in Optional subsection (g) instead of “local neighbors.”

Comment: Section 4802. This section clearly adds that the petition must contain a heading that it is a Petition of Parents and others holding “the right to make educational decisions for pupils” therefore if two legal parents are presented with the petition they should both have rights to sign. Will the petition state that one or other must choose who has more rights? If divorced, does one of the legal parents have a right to be notified? Who mediates the decision on which legal parent signs?

Reject: Language referred to in section 4802 pertains to informing potential signers that they must hold educational rights on behalf of a pupil before they may sign the petition. The comments address the fact that only one parent/legal guardian may sign the petition on behalf of a pupil. Parent signatures are aligned per pupil, thus, allowing more than one signature per pupil could skew reaching the required “at least one half”.

Comment: Page 7, Lines 5-6 and 15-16. Thank you for adding “without omission” to ensure that parents fully understand the impact of the intervention and that an identified charter be clearly stated on the front page of the petition so parents fully understand the implications of their signature for all intervention models.

Response: No response required.

Comment: Page 7 – lines 18-22. We recommend the following amendment at the end of line 22 because it is imperative that parents fully understand what they are reading and signing. We believe the burden is on the petitioners to ensure no parent is without access that is transparent, in writing and in their primary language.

The petition shall be made available to parents in their primary language spoken at home, where 15% or more of the student population enrolled in a public school speaks a primary language other than English.
Response: The comment is neither accepted nor rejected at this time. The proposed language reflects Education Code section 48985, but is a requirement for translation of documents only if the documents are sent by the school or the LEA. Such proposed language may be beyond the scope of the statute but the Board is putting forth similar language for public comment as set forth in Optional new subsection 4801(j) and similarly in Optional new subsection 4802(l).

Comment: Section 4802.1. Page 8 lines 1-8. In order to improve the feasibility of LEAS to verify signatures we recommend the following amendments:

In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, the LEA may contact the school or the LEA of the school. The school or LEA contacted shall make every effort to contact the parent or legal guardian to assist the subject school or LEA in verifying their signature.

Response: The comment is neither accepted or rejected at this time. Verification is currently permissive and compelling LEA’s or schools contacted to make efforts to verify signatures for another school may be beyond the scope of the statutes. The Board puts forth for public comment a provision at Optional Section 4802.1(b) which would require a matriculating LEA or school to provide information to a subject school or another LEA that is necessary in order to assist with verification.

Comment: An LEA shall not invalidate the signature of a parent or legal guardian of a pupil on a technicality where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition. It shall be the responsibility of the lead on the petition to contact the parent or legal guardian if the subject LEA needs to confirm intent when a grievance has been filed or a signature has been challenged.

Response: The comment is neither accepted nor rejected at this time. Language similar to that suggested by the commenter has been put forth for public comment by the Board in Optional Section 4802.1(b) and (f).

Comment: Page 8 lines 9-12. We oppose this section. It is completely unfair and disingenuous to label a succeeding school as one that should receive intervention. We strongly recommend the following amendment which reflects current federal and state law:

If, on the date the petition is submitted, a school is identified pursuant to section 4800.1(k), it shall remain a subject school only if the school has not exited Program Improvement after two consecutive years and only if the school remains under 800 on the API, until final disposition of the petition by the LEA even if it thereafter ceases to meet the definition of a subject school.

Response: The comment is neither accepted nor rejected at this time as the Board has put forth for public comment two provisions which address the commenter’s concern. One would provide that a subject school remains a subject school unless it exits Program Improvement, as set forth at Section 4800.1, optional new subsection (k)(5) and the other provision would provide that a subject school ceases to be a
subject school when it exists Program Improvement and obtains an 800 or higher API as set forth at Optional Section 4802.1(c).

**Comment:** Page 9, lines 3-5. ACSA opposes this section that places no priority on the rights of parents from the subject school. We believe their signatures should carry greater weight than schools outside the LEA’s jurisdiction. We recommend the following amendments:

There is no specified ratio required of signatures gathered at each school; rather the total ratio of signatures gather must meet the one-half requirement, however 51% of the total signatures gathered should come the parents of the subject school.

**Reject:** Suggested language may be beyond the scope of the statute. Education Code section 53300 specifically refers to “a combination of at least one-half of the parents or legal guardians” at the subject school and matriculating schools and does not specify a required percentage from the subject school.

**Comment:** We recommend the following amendment:

In connection with the petition, the LEA may only contact parents or legal guardians to verify eligible signatures on the petition. Parents that are contacted may request information from the LEA regarding possible changes to the educational program of the subject school.

**Reject:** The suggested language is unnecessary as there is no prohibition on what parents may request in the way of information.

**Comment:** Page 9, lines 18-22. We believe there must be some boundaries concerning the resubmission of the same petition particularly if the LEA must make significant staffing changes to a subject school and meet applicable state statutes regarding March 15 layoff notices and other labor and management requirements. We recommend a timeframe within the same school year as follows:

If the petition is returned pursuant to section 4802.1(g), the same petition may be resubmitted to the LEA with additional signatures within 60 days or by March 1 whichever is later, as long as no substantive changes are made to the petition. If substantive changes are made to the petition, it must be recirculated for signatures before it may be resubmitted to the LEA. If the substantively changed petition is submitted it must be within 60 days or by March 1 of the same year, whichever is later.

**Response:** The comment cannot be accepted or rejected at this time. While section 4802.1(h) has been amended to remove the word “substantive” from the proposed text, a time limitation of one 60-calendar day period on a resubmitted petition has been included as an option offered for public comment, as set forth in Optional Section 4802.1(j), however the resubmission opportunity is only available if no “substantive” changes are made to the petition.

**Comment:** Page 9 – lines 28-32. Two business days to notify the state of the final disposition is too short. We recommend 10 business days.
**Reject:** Timeline is deemed reasonable.

**Comment:** Page 10, lines 1-4. ACSA recommends the response provided by CDE and SBE regarding “compelling interest” being a “plain” definition and not a constitutional standard, be inserted here (see earlier recommended language). **Reject:** Section 4802.1(j) has been amended to delete the reference to a “compelling interest” based on comments received by previous commenters, so the recommended amendment is no longer necessary.

**Comment:** Section 4802.2. This section is unclear whether parents will actually get to read the charter petition. It just states the parent signs the parent empowerment petition. We recommend that the petitioner must ensure each parent reads the charter petition in its entirety so they fully understand the changes the school will be under prior to signing the Parent Empowerment petition. **Reject:** Suggested language would not appear necessary and may be beyond the scope of the statute.

**Comment:** There are numerous challenges with this new section. A traditional conversion charter ensures that both parents and teachers approve of the school yet this option is denied under the proposed regulations and seems to conflict with some charter statutes. This seems in direct violation of SBE’s charge under EC Section 33031 to not promulgate regulations that are “inconsistent” with statutes.

Some key questions on Page 11:

What constitutes “immediate solicitation (sic) of charter proposals? How long must an LEA search for a charter option? Do they have to allow multiple sites? What if the petitioning parents don’t support the charter selected by the LEA? How can the petitioners “cure” through a revision of the charter when the petitioners were actually the Parent Empowerment petitioners and may not control the operation of an identified charter?

In addition to the above comments and recommendations ACSA remains concerned that these regulations ignore or seem to conflict with timelines and procedures LEAs must follow as it relates to collective bargaining. The regulations are silent on the impact on both certificated and classified staff.

Further the regulations ignore the rights of the minority of parents at the subject school and provide for no grievance procedure. This is particularly troubling if a school is closed down in a neighborhood. This has serious implications for families in communities who do not want to leave their neighborhood school. **Accept in part and reject in part:** Accept in that section 4802.2(d) has been added to address the timelines to solicit charter proposals and section 4802.2 has been amended and reordered to clarify procedures and align timelines to parallel the requirements set forth in the Charter School Act at Education Code section 47605. Reject in that these regulations seek to implement the Parent Empowerment statutes, and not the Charter School Act, and thus, while the regulations may reference and
apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter School Act.

GABE ROSE, PARENT REVOLUTION

Comment: Parent Revolution is a non-profit organization whose mission is to transform public education rooted in what is good for children by empowering parents to transform their low-performing schools through community organizing. We have been deeply involved in every aspect of the “Parent Empowerment” or “Parent Trigger” provision, from the negotiations during its drafting and passage to assisting parents on the ground in its implementation. We are extremely knowledgeable about its strengths and challenges, and care deeply about its ultimate successful implementation.

The work on implementing regulations for the Parent Trigger law began all the way back in July 2010, when emergency regulations were first written and published for public comment by the State Board. Shortly thereafter, work began on the permanent implementing regulations for the law. Over the summer, a working group of all interested stakeholders – organizations representing parents, organized labor, the statewide Parent Teacher Association, and others – began collaboratively working on ideas for the regulations, led by then-State Board Executive Director Theresa Garcia. Our organization participated in that working group along with roughly a dozen other organizations, sharing our ideas and thoughts on the regulations as they were being drafted.

On September 15, after several meetings of that working group and what must have been countless hours of work by California Department of Education staff members, the first draft of these permanent regulations were voted on and approved by the State Board. This triggered a 45 public comment period, which ultimately concluded on November 17. Our organization, along with roughly a dozen others, submitted public comments prior to the November 17 deadline. And on December 15, the State Board voted again to approve an updated version of the permanent regulations, the third version of these regulations. This triggered yet another public comment period for which this public comment is being submitted. Furthermore, were these regulations approved as is during the next State Board meeting, they would still have to be approved by the Office of Administrative with California law.

It is also important to note that Ben Austin, the Executive Director of our organization, recused himself from all Parent Law to ensure compliance Trigger votes and processes because of his involvement in advocating for the bill’s passage. We strongly believe that this same standard should apply to any other board member who was personally, deeply involved in advocating against the original bill’s passage.

In summary, these permanent regulations have been through almost four months of public scrutiny and comments. They have already been voted on three times by the State Board, with the next vote being their fourth. Additionally, this law is already being implemented in real time, with parents at one school in Compton having already
submitted sufficient signatures to successfully transform their school, a dozen states throughout the national introducing Parent Trigger legislation based on California’s groundbreaking law, and parents at dozens of other schools throughout our state beginning their own campaigns. The emergency regulations that are currently governing this process provide helpful basics, but are woefully insufficient for the needs of parents who are organizing to transform their schools.

Given the urgency of the current situation, the desperate need for the fair and thorough rules outlined in the latest draft of permanent regulations, and the extremely lengthy process through which these regulations have already gone, we strongly urge the State Board to act with the necessary urgency and approve this latest draft of implementing regulations. Parents throughout our state are attempting to use this historic law to transform the quality of education their children are receiving, and they are looking to the State Board for leadership.

The time for stalling and delay tactics is over; the time for action is now. Parents throughout California only get one chance to give their children the great public education they need for the future they deserve. We urge you to approve these regulations.

Response: No response required.

JO A. S. LOSS, CALIFORNIA PTA

Comment: Section 4800.5. The proposed revisions include notifications by letter including information regarding access to a proposed CDE website. There are no provisions for public meetings or clear, concise information. PTA welcomes the inclusion of language that requires notifications to be in the languages spoken in the home. However, we continue to have the following concerns:

California State PTA believes that the intervention models described in those sections are written in language that is neither meaningful nor accessible to most parents. Parents need access to clear, concise information that is straightforward, unbiased and not couched in education terms with opportunities for more detail as requested. Response: The comment is neither accepted nor rejected at this time. Nothing in statute or regulations preclude parents from accessing information as necessary. However, the Board has put forth for public comment several provisions which would expand the opportunities for information available to parents and legal guardians. Option 1 of Section 4800.5 would provide for at least two public hearings where parents and members of the community could obtain further information concerning the options most suitable for the school. Option 2 of Section 4800.5 would require that information on CDE’s website be available in multiple languages. Optional new subsection (j) of Section 4801 would require that the petition be translated pursuant to Education Code section 48985. Optional Section 4802.05(d) would provide a role of lead petitioners to assist and facilitate communication between the LEA and parents who have signed the petition.
Comment: California State PTA believes that to ensure the transparency of the process, the implications of the adoption of a specific model should also be disclosed, as well as who will be responsible for implementation.

Reject: Implications of the adopted models are likely to be subjective issues subject to unforeseen and idiosyncratic variables. The LEA is responsible for implementation of any specific model pursuant to Education Code section 53300.

Comment: California State PTA believes that the most meaningful parent engagement occurs when parents are provided with sufficient information to make informed choices about their children and their schools. To that end, we reiterate our belief that the parent empowerment provision would be significantly strengthened if in eligible school communities expressing interest in exploring this option, public meetings were held at the affected school site informing parents of the petition option and providing information about the allowable turnaround strategies that can be initiated by a successful petition campaign.

Response: The comment is neither accepted nor rejected at this time. The SBE has put forward for public comment Option 1 of Section 4800.5 which would require that two public hearings be held when a school has been notified that it is subject to a parent empowerment petition.

Comment: California State PTA believes that there should be specific language requiring materials be presented to parents with adequate time and in objective language so they can make informed decisions and be effective partners in their children’s education.

Response: The comment is neither accepted nor rejected at this time. Section 4800.5 has established a process for notifying parents regarding the petition process. The section also provides for additional information to be optionally provided by the LEA on their web site. The SBE has put forward for public comment Option 1 of Section 4800.5 which would require that two public hearings be held when a school has been notified that it is subject to a parent empowerment petition.

Comment: Section 4801. Limiting petition signatures to one parent for each child ignores the reality of today’s families. California State PTA believes that the current regulations unnecessarily, and possibly illegally, deny parents from blended and other nontraditional families their rights to be involved in the education decision making process for their children.

Reject: Parent signatures are aligned per pupil, thus allowing more than one signature per pupil could skew reaching the required “at least one half”.

Comment: Section 4802. Californian State PTA welcomes the addition of the requirement of disclosure of affiliations. We have advocated for this change to help ensure transparency. However, the regulations continue to be silent on paid signature gatherers. California State PTA remains opposed to paid signature gatherers in the petition process. However, at a minimum, if allowed, this must be clearly disclosed as part of content of petition.

Response: The comment is accepted in that language in section 4802(j) was sufficiently amended to clarify that the names of agencies or organizations supporting
the petition either through direct financial assistance or with “in kind” contributions of staff and volunteer support must be displayed on the petition, and that would include money paid to signature gatherers. The remainder of the comment is neither accepted nor rejected in that the Board has put forth for public comment an option that would require signature gatherers to disclose if they are being paid as set forth in Option 2 to Section 4801(g).

**Comment:** Additionally, on page 7, lines 3-6, there is a requirement that the petition include: "A description of the requested intervention using the language set forth in either sections 4803, 4804, 4805, 4806, or 4807, without omission to ensure full disclosure of the impact of the intervention."

While we welcome the requirement for full inclusion of the descriptions of the requested intervention, California State PTA believes that the intervention models described in those sections are written in language that is neither meaningful nor accessible to most parents. Parents need access to clear, concise information that is straightforward, unbiased and not couched in education terms. We believe the petition should also inform parents where to go for more information.

**Reject:** Section 4800.5 provides that additional information may be provided by the LEA on its website. CDE will also have information regarding the parent empowerment process on its website.

**VIRGINIA STROM-MARTIN, LAUSD**

**Comment: Section 4800.1(g).** In Section 4800 (g.) What is the definition of “typical”? This does not take into consideration any changes in attendance boundaries. Since 2001 LAUSD has opened 101 schools. Twenty-seven more will be built before 2012. Obviously our building program has a direct impact on attendance boundaries. Clarification is still needed addressing the district’s attendance boundaries which are subject to revision because of our building program.

**Accept:** Section 4800.1(g) has been amended for further clarity that the policies must be “published policies” and “in place on the date the petition is submitted.”

**Comment: Section 4800(k).** Since Adequate Yearly Progress (AYP) reports are not released until September, when should parental notifications be issued? Do the regulations intend for that year to be a planning year for petitioning? There should be clarification that all four requirements of the AYP be met in Sec. 4800 (k.3).

**Reject:** AYP, by definition, includes all components.

**Comment: Section 4800(l).** The use of the term “compelling interest” is a legal constitutional standard. We recommend amending this language because it creates the notion of a higher standard. Moreover, this clearly oversteps the statute which only requires the LEA to “make a finding in writing stating the reason it cannot implement the specific recommended option…” (Ed. Code Section 53300) .We still take issue with the use of this term. It is confusing and unclear.

**Accept:** Section 4800.1(l) has been amended for clarity to delete the reference to “compelling interest.”
Comment: Section 4800.3. (Requirement to Serve All Pupils) Should add to line 27 after “…school is closed”, “or the parent/student opts out of a charter school if the restart into a charter school is implemented.”
Reject: Suggestion is already provided for in section 4800.3.

Comment: Section 4800.5 still does not clarify whether the year that the petition is submitted/granted can be the planning year or if the plan, if approved, needs to be implemented at the beginning of the next school year.
Reject: Statute states the implemented model shall be implemented in the subsequent year.

Comment: Section 4801. Clarification is needed as to what would constitute an appropriate “combination of signatures of parents.” For instance, is it sufficient to have 80% (of a total 50%) of parent signatures come from the feeder schools to the subject school. We understand that the revised regulations address “the total ratio of signatures gathered must meet the one-half requirement. Should add an affirmation from parent that the parent has reviewed the petition and understands that the requested intervention is “x” (what the petition states). Need to consider requiring a public hearing BEFORE the signature gathering process to ensure transparency and so the whole community is aware of what the proposed petition entails.
Response: The comment is rejected in that section 53300 specifically refers to “a combination of at least one-half of the parents or legal guardians” at the subject school and matriculating schools and section 4802.1(e) clarifies the ratio of signatures necessary when signatures are sought at more than one school. The comment about adding an affirmation is also rejected as the signature on the petition is the indicator that a person has signed a petition and agrees with it. The remainder of the comment regarding a public hearing requirement is neither accepted nor rejected at this time as the Board has put forth for public comment Option 1 of section 4800.5 which would provide for at least two public hearings where parents and members of the community could obtain further information concerning the options most suitable for the school.

Comment: Section 4802(a). Clarification is needed to address the fact that not all foster parents hold educational rights. Would this include homeless unaccompanied youth who have the right to be enrolled in a school without a parent under the McKinney Vento Act? LAUSD has a substantial population of these students. Language should clarify to mean foster parents that are “educational rights holder” or “responsible adults”.
Reject: Clarification regarding foster parents who hold rights to make educational decisions was already provided in the revision of 4800.1(h). 4802 (a) is the heading of the petition that specifies only persons holding rights to make educational decisions may sign the petition. Unaccompanied homeless youth under the McKinney-Vento Act have the ability to self-enroll in a school, but do not hold rights to make educational decisions for themselves but may have an educational representative sign a petition on their behalf.

Comment: Section 4802.1(a). If the LEA “may only contact parents or legal guardians to verify signatures on the petition.” If that is the case, which entity would
be responsible for policing this subdivision and ensure that there have been no violations. What are the LEA’s duties to ensure a fair and appropriate petition process? (In CDE’s Initial Statement of Reasons it states that the LEA “has discretion to verify signatures but is not required to do so. Since it is only discretionary for the LEA to verify signatures, what if an outside entity, parent or interested party demands a signature verification process? What would be the procedure and who would verify signatures?

**Response:** Verification of signatures is discretionary. A prescriptive process may be outside of the scope of the statute. Nevertheless, the comment is neither accepted nor rejected at this time as the SBE has put forward for public comment an optional provision which would require an LEA to ask identified lead petitioners to assist them in contacting parents or legal guardians for purposes of signature verification at Optional Section 4802.1(f).

**Comment:** Section 4802.1(f) states that: “In connection with the petition, the LEA may only contact parents or legal guardians to verify signatures on the petition.” LAUSD believes principals or schools officials should not be limited from discussing educational choices, curriculum, or other related issues with parents. This is too prohibitive. LEA should be able to discuss educational options and not be subject to restrictions. Consider deleting.

**Reject:** Verification of signatures is not the venue for educational options discussions.

**Comment:** Section 4802.1(j). The same comment regarding “compelling interest” language. On line 14 the term”, substantial promise”, seems to be a very loose and vague term in a regulation.

**Accept in part and Reject in part:** Accept in that Section 4802.1(j) has been amended to delete the reference to “compelling interest.” Reject in that, the term “substantial promise” reflects statutory language in Education Code section 53301(b).

**Comment:** Section 4802.2 (a), line 3. If the proposed intervention is for restart into a charter school, should the parent empowerment petition also have the actual charter petition containing the elements pursuant to Ed. Code 47605(b)(5) and other requirements to submit a charter petition?

**Response:** Accept in that Section 4802.2(a) has been amended for clarity to provide that a petition that seeks implementation of a restart model, and more specifically requests the school be reopened as a charter school under a specific operator or organization, must have attached the proposed charter for the school and that charter must contain comprehensive descriptions pursuant to EC section 47605(b)(5)(A) through (P). The remainder of the comment which suggests that every petition that seeks implementation of the restart model must attach a charter proposal is neither accepted nor rejected at this time as, the Board has put forth for public comment Option 1 of Section 4802(i), which would mandate that a petition requesting an LEA to implement a restart model must request that the school be opened under a specific operator or organization and clearly state that information on the front of the petition.

**Comment:** Section 4802(c), line 26. Deadline for final disposition within the 45 business days of submission of the petition does not match with Ed.Code 47605(b).
Under this proposed subdivision, the LEA would only have 20 additional business days to approve a charter petition. This needs additional clarification—also 47605(b) timelines are calendar days. Need to make it consistent so that the regulations are easier to determine.

Reject: Section 4802.2(b) establishes the requirement that an LEA must follow the provisions of section 4802.1 and first determine whether it will implement the requested intervention option or implement one of the other intervention options before considering a specific charter proposal. Similarly, Optional Section 4802.2 similarly requires that an LEA must first follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option. Both dispositions must be reached within 45 business days. Further both Section 4802.2(c) and Optional Section 4802.2(c) clarifies that the timelines set forth in Education Code section 47605(b) only begin after an LEA formally adopts the restart model as an intervention option.

Comment: In addition to the above comments and suggestions by LAUSD staff there continues to be an overriding concern in regard to conflicts with other state statutes and collective bargaining agreements. The intervention models described in the regulations contain many issues that are within the scope of bargaining: evaluations, working conditions, professional development, compensation, transfer and reassignment and seniority. While the district is presently involved in negotiating agreements with its two certificated employee unions, the regulations do not address the classified staff. Are classified employees, who may likely be impacted by these models, addressed in the regulations or even in the original intent of the legislation?

Reject: Section 4800.1(l) defines “cannot implement the specific recommended option” and allows for the LEA to explain the considerations and reasons for not adopting a requested intervention option. The considerations provided in the comment may be part of the deliberative process.

GARY RAVANI, CALIFORNIA FEDERATION OF TEACHERS

Comment: The CA Federation of Teachers recommends that the State Board of Education not adopt the proposed amendments to CA Code of Regulations, Title 5, Sections 4800-4808 (Parent Empowerment).

Reject: No suggestion made. Pursuant to Education Code section 33031, the SBE has authority to adopt rules and regulations that are consistent with the laws of this state.

Comment: The originating legislation for Parent Empowerment was adopted in a rush to comply with federal requirements for application to the Race to the Top competition. It would be appropriate to cease the rush and begin a more thoughtful process. This is particularly true since this state did not qualify for the Race to the Top federal funding provisions.

Collaboration between schools, parents and communities in an open and transparent manner are vital to the success of the schools and the students they teach. As has been demonstrated recently in Compton it is possible for outside forces, with their own agendas, to circumvent open communication and engage in gathering petition...
signatures secretly and from a select group of parents. Public schools are public and
dramatic changes to the composition of schools need to be done in a public fashion.
This did not happen in Compton and there is nothing in the current set of proposed
amendments that would insure that the Parent Empowerment process is conducted in
a fashion that meets the criteria demanded by California's open government
requirements. These regulations are more likely to generate lawsuits than improved
educational prospects for children.

Again, the Early Childhood/K-12 Council recommends that the State Board not adopt
the proposed amendments and, in fact, hold the process of Parent Empowerment
implementation in abeyance until a task force, including all stakeholders, can be
convened and develop a consensus agreement on how Parent Empowerment can be
implemented in a productive, rather than a disruptive, manner.

This process should emphasize collaboration and openness and include all parents,
school staff, community members, and the local board of trustees.

**Response:** In addition to the public input provided by stakeholders throughout the
regulatory process, the State Board of Education, at its February 2011 meeting,
directed the CDE to hold meetings with stakeholders for the purposes of collaboration
and exchange of ideas. As discussed below, meetings with stakeholders were held
on February 22 and March 30, 2011 respectively. These regulations are a reflection
of input received at those meetings, as well as input received pursuant to the
regulatory process.

In addition to holding a 15-day public comment period between December 23, 2010 and
January 6, 2011, CDE, on behalf of the SBE, convened two meetings of interested
stakeholders. The first meeting, held on February 22, 2011, discussed only emerging
issues and topics resulting from submission of the first petition to an LEA under the
statute, identified topics in the statute that might benefit from regulatory clarification and
sought to gain an understanding of conflicting points of view regarding the
operationalization of the statute. The proposed regulations were not discussed at this
meeting nor were comments received relating to the language in the proposed
regulations.

The second meeting of interested stakeholders, held on March 30, 2011, was also
attended by members of the public, and the proposed regulations that had been sent
out for a 15-day public comment period between December 23, 2010 and January 6,
2011 were discussed. The following are comments received from members of the public
in attendance at the meeting, prior to commencement of the meeting, followed by SBE’s
response.

**JUAN GODENIZ, President of the District English Learner’s Advisory Committee
and Parent Collaborative, Los Angeles Unified School District**

**Comment:** Parents are out there that could have helped with this workgroup.

**Reject:** Comment not specific to proposed regulations. The workgroup was
constructed to include representation of stakeholders, which included parents.
Comment: Information by the LEA should not be “may”. If the LEA has the choice of “may”, they aren’t going to do it.
Reject: No specific regulation referred to. Mandating requirements may be beyond the scope of the statute.

Comment: There should be a role for parents after the new group takes over. Parents’ roles should not be just signing the petition.
Reject: Education Code 53300 does not address parental involvement subsequent to the petition signature process. Regulations are developed to operationalize statute.

Comment: In case there are complaints, there should be a streamlined complaint process in case things don’t go as planned.
Reject: Suggestion may go beyond the scope of the statute. Moreover, complaint processes are already established in California law.

Comment: Signatures from the feeder schools shouldn’t count – only signatures from the subject school should count.
Reject: Parent Empowerment statute specifically allows for the option of including signatures of parents and legal guardians of students enrolled in schools that may matriculate into a subject school.

WALTER RICHARDSON, Vice-Chair of the Los Angeles Unified School District Advisory Committee:

Comment: California isn’t entitled to Race To The Top (RTTT) [funds]. I am trying to understand what can be done so California is part of RTTT.
Response: Comment not specific to proposed regulations.

Comment: Some words should be taken out – there are too many “mays” and the districts don’t do much of what “may” says.
Response: Comment not specific to a particular regulation. Regulations may not exceed the scope of the statute.

Comment: There are two constants: The parents and the students and the students are the ones that generate the funds, so don’t tie parents’ hands so that they don’t have meaningful input.
Response: Comments not specific to proposed regulations.

Comment: The districts should be mandated to provide an explanation of empowerment.
Response: Districts may, but do not have to, provide a website which provides information on the parent empowerment statute. Nevertheless, an optional provision has been included in Section 4800.5, Option 1, which would require that the LEA hold public hearings to notify parents and the community of a school’s designation as a parent empowerment school and regarding the option or options most suitable for the school.
At the end of the workgroup on March 30, 2011, there were four speakers who made public comments. The following are the comments made, followed by CDE’s response.

WALTER RICHARDSON, Vice-chair of the Los Angeles Unified School District Advisory Committee

Comment: It’s important that we get things right. We are talking about permanent empowerment regulations. We are talking about children – they are our future
Response: Comment not specific to proposed regulations.

Comment: There were some things about Charter schools that the group didn’t get to. I hope each of you can take some time to send in recommendations that you didn’t get to.
Reject: All public comments that have previously been submitted will be considered but there is no further comment period contemplated for this set of proposed regulations.

JUAN GODENIZ, President of District English Learner’s Advisory Committee at Los Angeles Unified School District

Comment: Parents need access to speak in a public meeting. Sometimes they are not allowed to speak if you are not given a card.
Response: There is no language in the regulations that precludes parental input. Nevertheless, optional language has been included in Option 1 of Section 4800.5 which, if adopted, would require that two public hearings be held to seek input from staff, parents and the community regarding the parent empowerment option or options most suitable for the school.

Comment: By the time this is figured out, they are in the process five or six years and the parents don’t have a chance to petition (sic).
Reject: Regulations provide for a structured timeline for the petition process.

LEE ANGELA REID, Senate Office of Research

Comments were in the form of procedural questions that were requested to be on the record.

- April 21 there will be a board hearing and if they agree on the regulations, they will go out for another 15 day comment period. CDE will put together its best guess of the intent of the workgroup. Given that there is a 10 day notice for the board – when will this be available for the public to view because there are going to be people who want to talk prior to the board hearing. There will be lots of people who will want to comment at the board hearing. There may be comments that haven’t been incorporated and I would ask that this be looked at.
• What if the board doesn’t approve the regulations?

• We have legislation moving through, so there is a reason why we are watching it from across the street.

• We also ask that any other workgroups not be held on Wednesdays as both the assembly and the senate education policy committees meet that day.

• What is the CDE interpretation of the ratio relative to the feeder metric?
  **Response:** No response required.

**MARLENE FONG, California Teachers’ Association**

**Comment:** The element of parent empowerment is the School Site Council (SSC) and I haven’t heard anything about this. These are not SIG schools. They are not funded under the SIG process and if they choose one of the intervention models, there will be no funding for them and in terms of the general fund budgets for our schools, they won’t be able to sustain the recommended changes that come out of one of the intervention models.
  **Reject:** District and schools that accept federal funding maintain accountability through current federal and state laws. The petition process does not invalidate federal funding and federal accountability process.

**Comment:** The fallback is categorical funds that are under the SSC purview. Nowhere in the education code, or in these regulations is it mentioned that the SPSA must be revised to address how they are going to be using these categorical funds as it relates to the intervention model that they choose; so I want this to be on public record that there needs to be role of the SSC addressed in these regulations even though it just addressed the petition process, but what happens after the intervention is chosen?
  **Reject:** District and schools that accept federal funding maintain accountability through current federal and state laws. The petition process does not invalidate federal funding and federal accountability process.

**Comment:** I have a real concern about the due diligence that a school district has to make in the effort to show the accountability and making efforts to provide the public hearing and the stature for this intervention process. It’s really their due diligence regardless of how the public might feel about the role of the school district and whatever perceptions they may have of the school district
  **Reject:** The Parent Empowerment statutes and regulations do not preclude district accountability.

The following comments are from the Parent Empowerment workgroup convened on March 30, 2011. These comments represent the consensus of concerns from workgroup participants in a general discussion of the proposed regulations. The participants involved in the workgroup discussion were Marguerite Noteware, California...
School Boards' Association; Gary Ravani, California Federation of Teachers; Bill Ring, Los Angeles Unified School District Parent Collaborative; Priscilla Winslow, California Teachers' Association; Patty Scripter, California Parent Teachers' Association; Eric Premack, Charter Schools Development Center; Colin Miller, California Charter Schools Association; Katie Valenzuela, Public Advocates; Lucy Okuma, Strategic Counsel representing Compton Unified School District; and Gabe Rose, Parent Revolution

Comment: Clarification is needed regarding what signatures are counted. Enrollment is a better indicator than attendance at school.
Accept: Clarification regarding what signatures are counted has been added; the regulations have been amended to use the term “enrollment” rather than attendance. Section 4802.1 has been amended to read:

(d)(e) If a petition has sought only signatures of parents of pupils attending the subject school, then for purposes of calculating whether at least one-half of the parents or legal guardians of all students pupils attending the subject school on the date the petition has been submitted have signed the petition, only those signatures of parents or legal guardians of pupils attending enrolled in the subject school on the date the petition is submitted to the LEA shall be counted.

Comment: Only an LEA’s published policies and practices concerning matriculation should be relied upon.
Accept: Section 4800.1 has been amended to read:

(g) “Normally matriculate” means the typical pattern of attendance progression from an elementary school to a subject elementary school, from an elementary school to a subject middle or high school or from a middle school to a subject high school, as determined by the LEA(s) pursuant to established attendance boundaries, published policies or practices in place on the date the petition is submitted.

Comment: There should be a “point in time” set for determining whether the one-half threshold has been met.
Reject: There is already a “point in time” set for determining whether the one-half threshold has been reached are the signatures on the petition on date of submission, per section 4800.1(j)(g) “Pupils attending the subject school or elementary or middle schools that normally matriculate into a subject middle or high school” means a pupil attending enrolled in the school on the date the petition is submitted to the LEA.

Comment: CDE should publish a sample petition for parents to be able to use.
Response: The comment is neither accepted nor rejected at this time as the Board has put forward for public comment optional language in Optional new subsection 4802(l) which would require that CDE develop a sample petition that can be used by interested petitioners and make it available on its website and for distribution by LEAs.

Comment: There should be a uniform verification process used by the LEAs.
Reject: Verification by the LEA is permissive. Mandating such a process might be construed as an unfunded state mandate.

Comment: Section 4801(g) should be expanded to include other groups of people and to include harassment as a prohibited activity.
Accept: Section 4801(g) has been amended to read:

**. . . . Signature gatherers, students, school site staff, LEA staff, and parents and legal guardians shall be free from harassment, threats, and intimidation related to circulation or signature of a petition.**

Comment: The LEAs should be required to hold public meetings when a petition is submitted.
Response: The comment is neither accepted nor rejected at this time as the SBE has put forward for public comment optional language in Option 1 of Section 4800.5 which, if adopted, would require that two public hearings be held to seek input from staff, parents and the community regarding the parent empowerment option or options most suitable for the school.

Comment: A statement should be added to the regulations prohibiting the making of false statements of facts to induce signatures.
Response: The comment is neither accepted nor rejected at this time as the Board has sought public comment on optional language in Optional Subsection 4802(g) which would, if adopted, prohibit signature gatherers from making false statements or false promises of benefits to parents or legal guardians in order to persuade them to sign a petition.

The following statements are various concerns voiced in the workgroup; however, consensus was not reached within the group. The statements represent new concerns that have not been addressed in previous written public comment by the participants or the organizations they represent.

Comment: The verification process should include a third party verification procedure.
Reject: LEA signature verification is permissive and to mandate a third party as part of the verification process is beyond the scope of statute.

Comment: The LEAs should be required to maintain a website for parent notification that includes which schools in the district are subject to the provisions of the Parent Empowerment statutes.
Reject: Maintaining an LEA Parent Empowerment website is permissive. Requiring an LEA to maintain a Parent Empowerment website is beyond the scope of the statute and may be an unfunded state mandate.

Comment: Parent Empowerment petitions should have a description of all options on each petition, not just the model for which the petition is being circulated.
Reject: Requiring requested information is extraneous to the petition process.
Comment: The County Office of Education should be the verification agent.

Reject: Verification is permissive and requested language is outside the scope of the statute.

After the 15-day comment period, and following the public meeting of stakeholders on March 30, 2011, changes were made to the proposed text of the regulations by CDE staff and presented to the SBE at its April 21, 2011 meeting. At this meeting, various stakeholder groups presented their own amendments, some of which consisted of additional proposed language and some which included replacements of entire sections or subsections. The SBE voted to approve putting forth for public comment the changes proposed by CDE staff, as well as approve particular portions of the stakeholders’ suggested amendments and suggested amendments by SBE Member James Ramos, as “options” for public comment. All of the changes that have been made to the proposed text of the regulations are denoted by shaded underline and/or shaded strikeout. The changes that are being proposed as options for public comment are shown in brackets [shaded italics underline] and denoted by the word OPTION or OPTIONAL in the text of the proposed regulations. Note that renumbering and/or relettering changes were made throughout the regulations to accommodate amendments, additions and deletions. In addition, minor grammatical changes were made where appropriate.

WHEREFORE, THE SBE SENDS OUT FOR A SECOND 15-DAY COMMENT PERIOD THE CHANGES MADE BY CDE STAFF TO THE PROPOSED TEXT OF THE REGULATIONS, AS WELL AS PROPOSED OPTIONS FOR POTENTIAL INCLUSION IN THE FUTURE.

SECTION 4800.1

SECTION 4800.1(g) is amended to establish the date of the petition’s submission as a point in time to establish the matriculation pattern for the petition process. It also provides that any policies or practices should be published. The amendment further clarifies that, in some cases, an elementary school can matriculate into a subject high school.

SECTION 4800.1(h) is amended to clarify that the determination of whether an individual is to be deemed a parent or legal guardian for purposes of the parent empowerment regulations is determined by whether the individual meets the requirements on the date the petition is submitted to the LEA.

SECTION 4800.1(j) is amended to clarify that a pupil only needs to be enrolled in the school on the date a petition is submitted since a pupil’s attendance on a particular day may be difficult to determine.
OPTIONAL SECTION 4800.1(k)(5) is an optional new subsection proposed by a stakeholder which, if adopted, would require that a subject school that exits Program Improvement no longer be identified as a subject school.

SECTION 4800.1 (l) is amended in response to a public comment received during the 15-day comment period that imposing a “compelling interest” requirement was outside the scope of the parent empowerment statutes. It was also amended to clarify that Education Code section 53300 requires that a written finding be made at a regularly scheduled public meeting if the LEA cannot implement the specific recommended option requested in the petition.

SECTION 4800.1(m) adds a new definition for matriculating schools in order to provide additional clarity throughout the regulations.

SECTION 4800.5

SECTION 4800.5 has not changed except now it includes two optional provisions within it proposed by separate stakeholders, either or both which the Board may choose to adopt in the future.

Option 1, if adopted, would provide that the notice sent from the LEA must include the requirement that two public hearings will be held to discuss the school’s designation as a school subject to restructuring planning or restructuring status at which time input will be sought regarding the options most suitable for the school. It would also provide that at least one of the two meetings shall be held at a regularly-scheduled meeting, if applicable, and at least one of the meetings at the site of the school deemed to be persistently lowest achieving.

Option 2, if adopted, would require that information posted on CDE’s website pertaining to Parent Empowerment be available in multiple languages.

SECTION 4801

SECTION 4801(a) was repetitive of subsection (b) so (a) has been stricken and subsection (b) has become subsection (a) and is amended to clarify who may sign a parent petition and to clarify that a petition may not contain only those signatures of parents and legal guardians of pupils attending matriculating schools.

SECTION 4801(g) is amended to add students, school site staff and LEA staff, to the class of persons to be protected from threats and intimidation, in addition to signature gatherers. It also adds “harassment” as a prohibited activity.

It also includes two optional provisions proposed by stakeholders, either or both of which the Board may adopt. If adopted, the optional provisions would make the following changes.
OPTION 1, if adopted, would add “community members” among the class of persons to be protected.

OPTION 2, if adopted, would also provide that signature gatherers shall disclose if they are being paid and shall not be paid on a per signature basis. These optional provisions are denoted as Options 1 and 2 for reference purposes.

OPTIONAL Section 4801(g) includes many of the same provisions as Section 4801(g) in that it prohibits signature gatherers from offering gifts, rewards or tangible incentives to parents or legal guardians, adds students, school site staff, LEA staff and community members as groups of persons to be free from threats and intimidation, adds harassment as an activity from which these groups should be free and provides that signature gatherers may discuss educational related improvements hoped to be realized by implementing the requested option. Optional Section 4801(g), however, is different in that it would also prohibit signature gatherers from making threats, false statements or false promises in order to prevent parents or legal guardians from being unfairly persuaded to sign a petition. It would clarify that, in addition to signature gatherers, school site staff or other members of the public may discuss education related improvements hoped to be realized by the intervention requested. It would also more specifically set forth that actions “related to circulation of a petition or signature of a petition” includes the discouraging of signing a petition or revoking signatures from a petition.

OPTIONAL SECTION 4801(h) is an optional new subsection proposed by a group of stakeholders that would, if adopted, clarify that all parties involved in the signature process must adhere to the school’s policies and procedures when on the school site.

OPTIONAL SECTION 4801(i) is an optional new subsection proposed by a group of stakeholders which would, if adopted, provide that school or LEA resources shall not be used to influence the signature gathering process.

OPTIONAL SECTION 4801(j) is an optional new subsection proposed by a stakeholder that would, if adopted, require that petitions be translated into other languages pursuant to Education Code section 48985.

SECTION 4802

SECTION 4802(i) offers three separate options within Section 4802(i), any or all of which may be adopted.

OPTION 1 within Section 4802(i), if adopted, would replace “may” with “shall” so that a request to an LEA to implement the restart model shall also request that the school be opened under a specific charter school operator, charter management organization or educational management organization.

OPTION 2, proposed by a group of stakeholders, if adopted, would require that a petition to implement a restart model that requests that the school be opened under a
specific operator or organization include contact information for the operator or organization on the petition.

OPTION 3, proposed by SBE Member Ramos, if adopted, would provide that a petition that requests that the school be opened under a specific charter school operator, charter management organization or educational management organization must disclose that parents have the option of signing a petition that does not designate a specific charter school operator, charter management organization or educational management organization.

SECTION 4802(j) is amended to identify on the petition all agencies or organizations supporting the petition, rather than just the agencies or organizations that are affiliated with the contact person identified in section 4802(c).

OPTIONAL SECTION 4802(k) is an optional new subsection proposed by a stakeholder which, if adopted, would provide that a petition requesting a restart model, and more specifically a charter school, shall state that if the LEA provides for parent advisory committees or alternative programs, those committees and programs will not be available for a charter school nor is a charter school required to comply with the parent waiver requirements of Education Code sections 310 and 311.

OPTIONAL SECTION 4802(l) is an optional new subsection proposed by a group of stakeholders which, if adopted, would provide that the CDE shall develop a sample petition, place the sample petition on its website and make the petition available in other languages pursuant to Education Code section 48985. It would further clarify that that petitioners will not be required to use the sample petition but that any petition used must meet all statutory and regulatory requirements.

OPTIONAL SECTION 4802.05

OPTIONAL Section 4802.05 is an optional new section proposed by a group of stakeholders which, if adopted, would provide for the following:

1) Prohibit petitioners from submitting a petition to an LEA until they have reached the necessary one-half requirement;
2) Clarify that the date of submission of the petition is the start date for implementation of all statutory and regulatory requirements;
3) Provide that, if the LEA returns a petition for deficiencies, the petitioners shall only be allowed one-time to correct the deficiencies;
4) Clarify that the start date for a resubmitted petition is the date the petition is resubmitted to the LEA;
5) Specify that no "rolling" petitions may be accepted;
6) Require a separate document accompany a submitted petition identifying up to five persons to act as lead petitioners and include their contact information; and
7) Clarify that the lead petitioners are to assist and facilitate communication between parents and the LEA and are not to make decisions or negotiate on behalf of the parents.
SECTION 4802.1

SECTION 4802.1(b) is amended to provide more specific direction for a signature verification process in the event the LEA chooses to verify the signatures. It also deletes the provision prohibiting LEAs from invalidating signatures based on a technicality where the intent was to support the petition. This deletion was based upon comments received that this language is vague and would be difficult for LEAs to implement or any court to enforce.

SECTION 4802.1(d) is amended to maintain consistency with amendments made to section 4800.1(j).

SECTION 4802.1(e) is amended to reflect consistency with section 4800.1(j) and the definition of “matriculating school” in section 4800.1(m).

SECTION 4802.1(g)(3) is amended to delete superfluous language.

OPTIONAL SECTION 4802.1(g)(4) is an optional new subsection which, if adopted, would permit an LEA to return a petition on the basis that the petition was not translated into the number of languages required by Education Code section 48985. This amendment would only be necessary to include in the event that the regulations adopted required petitions to be translated into other languages pursuant to Education Code section 48985.

SECTION 4802.1(h) is amended to clarify that if any changes are made to a petition, it must be recirculated for signatures.

SECTION 4802.1(j) is amended in response to public comment to 4800.1(l) received during the 15-day public comment period and amended to conform with the changes made to that section.

SECTION 4802.1(k) is amended for grammatical purposes.

OPTIONAL SECTION 4802.1 if adopted, would amend Section 4802.1 in several ways:

1) It would set forth a particular manner of verification that LEAs can use if they choose to verify signatures;
2) Require matriculating schools and LEAs to cooperate when an LEA of a subject school is attempting to verify signatures and require each of these entities to make efforts to contact parents and guardians when a signature is not clearly identifiable;
3) It would clarify that a subject school ceases to be such when it exits Program Improvement program and obtains an 800 or higher API;
4) Provide that any lead petitioners must assist in several ways with the verification process if an LEA is having difficulty verifying signatures;
5) Set forth limits on how and when a petition may be resubmitted to an LEA after it has been rejected as incomplete and deem any resubmitted petition to be a new petition if it has been substantively changed and

6) Make changes to a number of process timelines and changes the reference from “at least one-half of the parents or legal guardians of all pupils” to “parents and legal guardians of at least one-half of pupils” throughout.

SECTION 4802.2 makes several changes and includes several options, any or all of which may be adopted.

1) It renumbers and restructures the section for clarity purposes.

2) It clarifies that when a petition requests a restart intervention model, whether or not it designates and attaches a particular proposed charter, the LEA must first determine whether it will implement the requested intervention option of restart before it will begin to either conduct a rigorous review process on a proposed charter or seek to obtain a proposal for a specific charter school operator (CSO), Charter Management Organization (CMO) or Educational Management Organization (EMO). The prior version of Section 4802.2 provided that the LEA must first determine whether to adopt a restart model, if requested, before acting to approve or deny a charter but it also provided that the rigorous review process could take place before the LEA had determined whether it could implement the restart model.

3) It modifies the timelines relating to the rigorous review process.

4) PROVIDES OPTIONAL LANGUAGE IN SUBSECTION (c) to clarify that none of the signature requirements set forth in Education Code section 47605 are necessary for a parent empowerment petition which seeks a restart model and specifically a charter school. Due to a typographical error, the citation to section 47605 in subdivision (c) did not mirror prior versions.

5) OPTIONAL SUBSECTION (d) proposed by Member Ramos, would, if adopted, provide that if an LEA has adopted the restart model as its final disposition but petitioners did not request a specific CSO, CMO or EMO, then the LEA shall promptly notify the petitioners and give them the opportunity to solicit proposals from potential operators. If petitioners opt to solicit such proposals, they must submit them to the LEA. If the petitioners decline to do so, then the LEA shall act to solicit proposals within 15 business days.

6) OPTIONAL SUBSECTION (e) also proposed by Member Ramos, would, if adopted, provide that where petitioners opt to solicit a charter proposal pursuant to optional subsection (d), then upon submission of the proposals to the LEA, the LEA shall conduct the rigorous review process set forth in Education Code sections 47605 (b)-(h), (j)(1) and (l), except that the timeline in (b) only begins once the LEA receives the proposal. Where the LEA solicits a charter proposal because petitioners have declined to do so, the LEA shall conduct the same rigorous review process.

7) OPTIONAL SUBSECTION (g) would, if adopted, require that if an LEA is choosing a charter school as the result of a parent empowerment petition, it must inform parents that parent advisory committees or alternative programs provided by the LEA will not be available for a charter school and that the
A charter school is not required to comply with the parent waiver requirements of Education Code sections 310 and 311.

**OPTIONAL Section 4802.2**, as proposed by a group of stakeholders, would, if adopted, make the following changes:

1) While it would similarly require that a petition requesting adoption of the restart model and, more specifically, a particular CSO, CMO or EMO, must conduct a rigorous review process as set forth in Education Code section 47605(b), with the exception of section 47605(b)(3), it eliminates the provision that the timelines of the rigorous review process do not begin until 25 business days after the petition is received by the LEA.

2) While it similarly provides that a petition that requests a restart model but does not request that it be run by a specific CSO, CMO or ESO, requires an LEA to solicit proposals, it would specify that the solicitation period cannot exceed 90 calendar days.

3) It would give an LEA the choice when a restart petition does not designate a specific CSO, CMO or EMO of either soliciting proposals itself or direct the parents to submit proposals within 90 calendar days and clarify that such proposals would then go through the same rigorous review process set forth in section 47605(b), with the exception of (b)(3).

4) It would provide that if the parents request a restart model and designate an EMO to operate the school, the LEA shall work in good faith to contract with a provider selected by the parents. In the absence of parental input, the LEA would have to solicit proposals from EMOs and would choose one using the same rigorous review process, unless it determines it is unable to implement the restart model.

**Section 4808** includes an Option, proposed by a stakeholder group, which, if adopted, would clarify that any actions taken in reasonable reliance upon the emergency regulations are deemed in compliance with these regulations, but only to the extent permitted by law.

**COMMENTS RECEIVED DURING THE PERIOD THE SECOND 15-DAY NOTICE AND PROPOSED REGULATION TEXT WAS AVAILABLE TO THE PUBLIC**

The modified text was made available to the public from May 25, 2011 through June 9, 2011, inclusive. Ten written submissions representing 129 comments were received during the second 15-day comment period. Pursuant to Government Code sections 11346.9(a)(3) and (a)(5), California Department of Education (CDE) staff, on behalf of the SBE, has summarized and responded to those comment as follows:

**LIZ GUILLEN – Public Advocates**

**Comment:** Option 1 of 4800.5 should be adopted to ensure that parents are fully informed of their rights. Since the proposed regulations piggy-back the parent trigger
information onto this notification “consistent with” ESEA, and the intent of the parent trigger is to empower parents, it is reasonable to also require districts to include in that notice the right of parents to two public meetings about the interventions which the parent trigger could request.

Reject: Education Code section 53300 through 53303 do not mandate a public hearing except that an LEA must make a finding in writing at a regularly scheduled meeting stating the reason it cannot implement the specific recommended option if it does not implement the requested intervention option. Section 4800.5(a), however, has been amended to state that the CDE shall provide a Parent Empowerment website for parents and guardians to obtain further information on circulating a parent empowerment petition. There is nothing in this section that precludes parents and interested stakeholders from convening a meeting to discuss the petition process.

Comment: Option 2 of 4800.5 should be adopted to ensure full transparency and that parents are fully informed throughout the process. The Parent Empowerment process, and all public postings made by the CDE on their website, should be subject to the language notification requirements in Education Code section 48985, which requires that any written communication to parents be in the primary language spoken at home, where 15% or more of the student population of the school speaks that primary language. Notices regarding the parent petition right and the public hearing and input right should be in a language that parents and community members understand so that they can participate effectively in the school turnaround process. Further, public hearings or meetings should make available translation for non-English speaking parents of students in schools slated for turnaround.

Reject: Section 4800.5 Option 2 is deleted in its entirety. This deletion is necessary because it would have been logistically and financially difficult to translate “any information on the CDE website”. However, section 4802(k) has been added to provide that CDE shall develop a sample petition that can be used by interested petitioners. The sample petition shall be available on the CDE website for interested petitioners to use. The CDE shall make the sample petition available in other languages pursuant to Education Code section 48985.

Comment: Section 4801 (a) should not be deleted. Enrollment at ALL matriculating schools should be the denominator for the number of signatures required when parents from those schools participate in the Parent Empowerment process. Otherwise parents of only one or two of multiple feeder schools may determine the outcome of a subject school that serves pupils from ALL feeder schools. This section should be amended to state the following:

A petition shall contain signatures of parents and legal guardians of pupils attending the subject school, or may contain a combination of signatures of parents and legal guardians of pupils attending the subject school and signatures of parents or legal guardians of pupils attending the matriculating schools. A petition may not consist solely of signatures of parents or legal guardians of pupils attending the matriculating schools, and the enrollment at all of the matriculating schools shall be counted when determining the 50% threshold for petition signatures.
Reject: Section 4801(a) is amended to clarify who may sign a parent petition and to clarify that a petition may not contain only those signatures of parents and legal guardians of pupils attending matriculating schools. This is done to prevent confusion. Also, the reference to “signatures of parents or legal guardians of pupils attending the matriculating schools” reflects the statutory language. However, definition of matriculating schools at section 4800.1(m) clarifies that it includes all schools that normally matriculate.

Comment: Adopt Optional Subsection (g), to replace 4801 (g). This section is more thorough, and adds false promises of benefit or false statements to the list of prohibited activities during the petition process.

Accept: Optional section 4801(g) has been adopted and has been amended to add that signature gatherers shall disclose if they are being paid, and shall not be paid per signature. Optional section 4801(g) was adopted in response to public comment.

Comment: Adopt Option 2 for 4801 (g) to disclose whether signature gatherers are paid. The practices identified in proposed subsection (g) should include whether signature gatherers are paid by the organizations sponsoring the petition or on the basis of the signatures they acquire.

Accept in part and reject in part: Accept in that Optional section 4801(g) has been adopted and has been amended to add that signature gatherers shall disclose only if they are being paid, but reject in that section 4801(g) does not require that the signature gatherers disclose the organization paying them whether on the basis of acquired signatures. However, Section 4802(j) requires that the names of any agencies or organizations that are supporting the petition, either through direct financial assistance or in-kind contributions of staff and volunteer support, must be prominently displayed on the front page of the petition. Optional section 4801(g) requires that petition gatherers shall not be paid per signature.

Comment: Adopt the Optional Section 4801(h) that requires all parties to abide by school site visitation rules. The petition process should be a minimally disruptive to the day-to-day operations of the school as possible, so students are not overly impacted by the petition process.

Accept: Section 4801(h) is added to incorporate the language proposed in Optional New Subsection 4801(h).

Comment: Adopt Optional Section 4801 (j) regarding language translation requirements. The ability to read and understand the petition is critical for a parent’s ability to make an informed decision about their children’s school. We are concerned that petitionerers could avoid soliciting signatures from non-English speaking parents and still meet the signature threshold requirement. The proposed regulation makes that less likely, though it would still be possible for petitionerers to ignore the interests of non-English speaking parents if they comprise fewer than 50% of the total of parents/legal guardians.

Reject: Optional New Section 4801(j) is deleted in its entirety. This deletion is necessary because the language was unclear as to how it would apply to the signature gathering process and Education Code 48985 applies to notices and
documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition.

**Comment:** Adopt Option 3 for Section 4802 (i) regarding choosing a specific charter when implementing the restart model. Option 3 ensures that all parents, including those who may not sign the petition, would have the opportunity to vet and select a charter operator if the petition selects a restart model, while also giving flexibility to the petitioners to select a specific operator through the petition.

**Reject:** Section 4802(i) Option 3 is deleted. This deletion is necessary based upon the comments received during public comment and the recommendation of a stakeholders group that this language may be confusing to parents.

**Comment:** Adopt Options 1 and 2 to Section 4802 (i) regarding contact information for the charter operator, if selected through the petition. This amendment will help parents understand which charter school, organization or operator being requested. Option 3 conflicts with Options 1 and 2, and should not be adopted.

**Reject in part and accept in part:** Reject in that Option 1 is deleted. This deletion is necessary based upon the comments received during public comment and the recommendation of a stakeholders group. Mandating petitioners to request a specific charter operator, charter management organization or education management organization may be contrary to Education Code 53300. Accept in that the language in Option 2 is added to this subsection. Finally, Option 3 is deleted. This deletion is necessary based upon the comments received during public comment and the recommendation of a stakeholders group that this language may be confusing to parents.

**Comment:** Do not adopt the Optional New Subsection 4802 (k) regarding parent advisory committees and Prop 227 waivers. The proposed language goes beyond the statute and provides an exemption to charter schools that does not exist in law. If parents seek to establish a charter school that provides Prop. 227 waivers and school site council opportunities as required in regular public schools, parents have the right to do that and California’s Race to the Top legislation does not change that. While we support disclosing to parents the potential impacts to their rights and their children’s services, this language is confusing and should not be adopted.

**Accept:** Optional new subsection 4802(k) is deleted in its entirety.

**Comment:** Adopt the Optional New Section 4802 (l) regarding a sample petition. Many of the issues that have arisen throughout the Parent Empowerment debate concern the contents of the petition which could be addressed by a sample petition posted on the CDE’s website.

**Accept:** Accept in that the language in Section 4802(k) is added, incorporating the language in Optional New Subsection (l), thus deleting its designation as Optional New Subsection (l), with the exception that the language that the sample petition be available for “distribution by LEAs” is deleted. Other minor, non-substantive changes have also been made.
Comment: Requiring the CDE to make a sample petition translated into various languages would allow parents to easily abide by the guidelines of Education Code Section 48985.
Accept: Section 4802(k) has been adopted requiring CDE to make sample petitions available in other languages pursuant to Ed. Code section 48985.

VIRGINIA STROM MARTIN, LAUSD

Comment: 48001.1(l): Support deletion of “compelling interest” language which could have been misconstrued as a constitutional standard.
No response necessary.

Comment: 4800.5 – Parental Notice, Option 1: Reject. Notice specifying requirements for two public hearings is not necessarily a bad idea. However, if LAUSD is to embed this process into the PSC Resolution, there may already be hearings as part of that process. Having a statement in the parental notification for two hearings may lead to confusion as to the process.
Accept: Section 4800.5, Option 1 is deleted.

Comment: 4801 (a) – Petition Signatures. This section still does not clarify the outstanding and ongoing concern from all stakeholders regarding “a combination of signatures of parents and legal guardians” from subject school and matriculating schools. Although this section adds that signatures may not consist solely of signatures from matriculating schools, it could lead to a scenario where only 10% of signatures would come from the subject school which does not seem to comport with the intent of the statute.
Reject: Section 53300 specifically refers to a “combination of at least one half of the parents or legal guardians at the subject school and matriculating schools. Nothing in the legislation indicates an intent to require a specific ratio between the schools.

Comment: 4801(g) – Option 2. Support language provided in Optional Subsection (g) substituting language in current version.
Accept: Optional Section 4801(g) is adopted along with Option 2 of Section 4801(g).

Comment: 4801 Optional New Subsection (h)–reject. As worded, it sounds like the proposed provision automatically allows signature gathering on a school site. Any signature gathering should be governed by a LEA’s policies and procedures for petition circulation and signature gathering on campus, if any. If this is the intent more clarification is needed.
Reject: Language incorporates current requirements regarding adherence to LEA policies and is adopted in response to stakeholder comments and concerns.

Reject: Amendments are necessary based on public comments except that “influence” was amended to “impede” because influence was viewed as too vague. “Pursuant to this section” was added for clarity purposes.

Comment: 4802(i): Option 1 – remain as “may”.
Accept: Section 4802(i) Option 1 is deleted.

Comment 4802(i) Option 2 – support inclusion of contact information from charter school operator, charter management organization or education management organization.
Accept: Section 4802(i) Option 2 is adopted.

Comment: 4802(i) Option 3 – should be rejected. A parent/legal guardian has the option not to sign a petition that specifies a charter organization under the restart model. Requiring a disclosure that they have an additional option to sign a petition without a named charter organization confuses the procedure. (e.g., would there be a counter-petition to the petition being circulated? Who would spearhead the “additional option?”)
Accept: Section 4802(i) Option 3 is not adopted.

Comment: 4802(j) – Support addition of other supporting organizations.
Response: This section had no proposed changes in the Notice of second 15-day public comment period.

Comment: Optional New Subsection 4802(k). This is not an accurately stated proposed language. Although charter schools are not required to comply with Education Code sections 310 and 311, some charter schools may opt to provide parent advisory committees or alternative programs.
Accept: Optional New Subsection 4802(k) is deleted in its entirety.

Comment: Optional New Subsection 4802(l). Although stakeholders all seem to support a sample petition generated by the CDE, the proposed language mandates LEAs to distribute the petition. Since CDE would be the organization generating the sample petition, the language should refer petitioners to CDE website and not add an additional requirement to the LEA to distribute the sample petition.
Accept: Language is amended to read:

(Optional New Subsection(l):-(k) The CDE shall develop a sample petition that can be used by interested petitioners. The sample petition shall be available on the CDE website and available for distribution by LEAs to for interested petitioners to use…

Comment: Optional New Section 4802.05 –Submission of Petition. This proposed section seems to overlap with the rest of the proposed subsections which cover the same area.
Reject: This addition is adopted and necessary based upon comments received during public comment and the recommendation of a stakeholders group.)
**Comment:** Section 4802.1(e). Regarding “no specified ratio required of signatures gathered at each school” – standing objection regarding failure to articulate a specified ratio.

**Reject:** Section 53300 specifically refers to a “combination of at least one half of the parents or legal guardians at the subject school and matriculating schools”. There is no indication in the legislation that it intended to require a specific ratio from either the subject or matriculating schools.

**Comment:** Optional New Subsection (g)(4) – the requirement to translate is actually that of the LEA’s under Ed. Code section 48985. If the regulations are to require that petitions be circulated in multiple languages, it should delete reference to section 48985 especially since it may unduly place a burden on a District to translate the petition.

**Accept:** Optional New Subsection 4802.1 (g)(4) is deleted in its entirety.

**Comment:** Optional Section 4802.1. Language in this proposed optional section is too proscriptive. Some LEAs may already have signature verification policies and procedures that may be implemented for Parent Empowerment petitions. Proposed subsection (h) and (i) are particularly problematic in that it proposes additional obligations on an LEA to verify signatures.

**Reject:** Adopting Optional New Section 4802.1 is necessary based upon comments received during public comment and the recommendation of a stakeholders group. Language in this section clarifies timeframe for lead petitioner to assist the LEA to verify signatures, but signature verification by the LEA is optional, per Section 4802.1(b).

**Comment:** Optional Section 4802.1(j). The “window of 60 calendar days” to resubmit a petition under proposed subsection (j) and the additional 25 calendar days for LEA to verify resubmitted signatures also imposes additional obligations on an LEA.

**Reject:** Language in this section clarifies timeframe for lead petitioner to assist the LEA to verify signatures, but signature verification by the LEA is optional, per section 4802.1(b). Optional Section 4802.1 was adopted based upon stakeholder feedback.

**Comment:** Optional Section 4802.1(l). Proposed subsection (l) has the “compelling interest” language which should not be adopted.

**Accept:** Reference to the “compelling interest” standard is deleted.

**Comment:** 4802.2, proposed subsection (c) lines 29-31. Timelines set forth in Education Code section 47605(b) should be amended to add that the timeline begins after the LEA receives the charter petition pursuant to established policies and procedures of the LEA for processing charter petitions.

**Reject:** Optional section 4802.2 is adopted in lieu of section 4802.2 based upon feedback from stakeholders and establishes that the rigorous review process required by Education Code section 53300 and section 4804 shall be the review process and timelines set forth in Education Code section 47605(b), exception 47605(b)(3).
Comment: Regarding required signatures, CDE should address the deletion of references to 47605(a)(1)-(3) and 47605(b)(3) since these were in original versions of the proposed regulations.
Response: Unsure as to recommendation of Commenter. Optional section 4802.2 is adopted and provides at subsection (b) that the signatures to establish a charter school pursuant to Education Code section 47605(a)(1) through (3) and 47605(b)(3) will not be required.

Comment: Optional Section 4802.2(d). Proposed subsection (d) seeks to clarify what would happen if a particular charter organization is not named in the restart model. (However, the process may not necessarily match up with our PSC process if this is embedded).
Reject: The process of establishing a charter school upon adoption of the restart model under the Parent Empowerment law is different than established policies a district may already have for charter schools established through the Charter School Act.

Comment: References to timelines under 47605(b) and “charter proposal” should be changed to “charter petition.”
Reject: Charter proposal is a more appropriate term and more likely to prevent confusion with the parent empowerment petition

Comment: Optional subsection (f) is vague as to “subject to all provisions of law that apply to other conversion charter schools.” The use of the term “conversion charter schools” is a legal term under the Charter Schools Act and triggers different regulations, procedures and policies. What does CDE intend with this addition? Do they merely want to state that a charter school chosen under the restart model must have admission requirements serving the subject and feeder schools? If so, this section should just state that.
Accept: Proposed subsection (f) is deleted in its entirety. This deletion is necessary based upon comments received during public comment and the recommendation of a stakeholders group that the proposed subsection may cause confusion. Similar language has been incorporated into the regulations through the adoption of Optional section 4802.2, subsection (a).

Comment: 4802.2, Optional new subsection(g) – as stated above, this is not necessarily an accurate statement since charters may opt to have parent advisory committees and alternative programs as outlined in their charter.
Accept: Optional New Subsection(g) is deleted in its entirety.

Comment: Agree with Optional Section 4802.2(c).
Accept: Optional Section 4802.2 is adopted.

Comment: However, for optional section 4802.2(d)(1), the timeline for soliciting charter proposals and the rigorous review process for those charter proposals should not be held to the timeline under 47605(b). The timeline for 47605(b) should attach after the rigorous review process (i.e., after selecting the charter proposal).
Reject: The reference to selection of a charter school operator, charter management organization or education management organization is to the approval by the LEA of the operator or organization and occurs as a result of the rigorous review process, which is the process set forth in Education Code section 47605(b). The proposed regulations provide that this process shall begin at the end of a solicitation period not to exceed 90 calendar days.

COLIN MILLER, California Charter Schools Association

Comment: Section 4802(i), Page 8, line 30: We recommend rejecting Option I "shall." Elsewhere in the regulations, it is made clear that a particular restart petition may or may not include the specifics of a particular restart plan such as the actual charter for a proposed charter school. Retaining the "may" here will be consistent with that approach. We believe that the regulations should provide options for parents, rather than be unnecessarily restrictive on this point.

Accept: Option 1 of Section 4802(i) is deleted.

Comment: Section 4802(i), Page 9, line 3 through 7: We recommend rejecting Option 3. This language appears unnecessary and would be confusing to parents. This statement is also inaccurate. Parents would not have the option of signing an alternative petition unless one was circulated.

Accept: Option 3 of section 4802(i) is deleted.

Comment: Section 4802, Optional New Section (k), Page 9, lines 13 through 19: We recommend rejecting Optional Subsection (k). Charter schools, by design and pursuant to the education code, are exempt from most laws governing school districts. We therefore encourage judicious use of any such inclusions in the petition content, and rejection of this option.

Accept: Optional New Subsection 4802(k) is deleted in its entirety.

Comment: Section 4802.2. Two versions of this section have been provided for consideration. We generally support the "Optional" Section 4802.2 that begins on page 20, line 23 and continues to page 22, line 16. This optional version of the section is largely similar to the original version, but appears to be much clearer. It is also easier to follow as it does not have the several inconsistencies and replications that appear in the version with multiple strike through, underlines and shading. The steps in the Optional version are clear and follow what we believe to be a simple approach.

Accept: Optional section 4802.2 is adopted with some additional edits.

Comment: Section 4805. We suggest adding the following language to end of this section: "Nothing in these regulations shall prohibit the consideration and establishment of a new start-up charter school developed in accordance with Education Code section 47605 to occupy the facility vacated by a school closure enacted under this section." The inclusion of this language would be helpful to clarify that once school closure is requested by parents and implemented by the district that the school facility may be used for other purposes, including a start up charter school.
Response: Comment not related to proposed changes set forth in the Notice of second 15-day comment period.

Comment: References to Education Code section 48985. The issue of translation of materials into several languages appears multiple times in the draft regulations. We support the goal of broad access for parents to the parent petition, and there appears to be general consensus that having a parent empowerment petition available in common languages will help achieve this goal. However, we strongly urge the SBE to provide greater clarity on this new requirement and to consider one single place in the regulations to reference to any multiple language requirements related to Parent Empowerment.

Accept in part and reject in part. Reject the suggestion that the regulations should have the translation reference in only one section. The regulations pertain to several processes and it is necessary to incorporate certain provisions throughout the regulations where appropriate. Also, reject in that Section 4801 Optional new subsection (j) is not adopted as the language was unclear and beyond the scope of Education Code 48985. Education Code 48985 applies only to notices and documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition. Similarly reject Section 4802.1 Optional New Subsection (g)(4) in that there is no need to reject the petition for not being translated if there is no requirement to translate the petition. Accept in that the reference to Education Code section 48985 in Section 4802 Optional New Subsection (I) is adopted.

Comment: We note that EC 48985 applies translation requirements on districts. It is unclear in these regulations whether the responsibility to translate materials under parent empowerment would also fall to the district. One way to mitigate the impact of this new and potentially costly requirement would be to specifically narrow the language requirement to only the petition itself, and not all supplementary materials.

Accept in part and reject in part. Accept in that section 4802(k) has been amended to require that CDE shall develop a sample petition and it shall be available on the CDE website in other languages. Reject in part in that section 4801 Optional New Subdivision (j), which would have required that the petition be translated into other languages pursuant to Section 48985, was not adopted as the language was unclear and beyond the scope of Education Code 48985. Education Code 48985 applies only to notices and documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition.

SHELLY SPIEGEL-COLEMAN, Californians Together

Comment: Section 4801 Petition Signatures (pg 7, lines 13-31). We support OPTIONAL NEW SUBSECTIONS (g), (h), (i) The proposed subsections provide much needed clarity and necessary parameters regarding the petition signature process.

Accept: OPTIONAL NEW SUBSECTION (g), has been adopted as Subsection (g) with the clarification that parents and legal guardians of “eligible pupils” shall be free
from harassment, threats and intimidation and with the addition that Signature
gatherers shall disclosed if they are being paid and shall not be paid per signature.
Optional subsections (h) and (i) have also been adopted.

Comment: We strongly support OPTIONAL NEW SUBSECTION (j). We believe the
inclusion of the Optional New Subsection (j) is critical if the parent empowerment
process is to be understood by all parents, regardless of English language ability, in
order for all parents to participate in this process.
Reject: Optional new subsection 4801(j) is deleted in its entirety. This deletion is
necessary because the language was unclear as to how it would apply to signature
gathers. Education Code 48985 applies to notices and documents given to parents by
the school or LEA. Neither the school nor the LEA will be distributing the petition.

Comment: We strongly support adding Section 4802 Optional new section (k).
Reject: Optional new subsection 4802(k) is deleted in its entirety. This deletion is
necessary because this subsection may be inaccurate in that the charter school may
choose to retain various committees and in that it is confusing to single out two
exemptions from the myriad of laws to which a charter school may or may not comply.

Comment: We strongly support Optional new subsection (l).
Accept: Section 4802(k) is added, incorporating the language in Optional New
Subsection (l), with the exception that the language that the sample petition be
available for “distribution by LEAs” is deleted. Section 4802(k), however, also
incorporates language from Optional New Subsection (l) that states the CDE shall
develop a sample petition, available on the CDE website, which may be used by
interested petitioners. Other minor, non-substantive changes have also been made.
This addition is necessary based upon the comments received during public comment
and the recommendation of a stakeholders group.

Comment: We strongly support adding section Optional New Subsection 4802.1(g)(4)
to the proposed regulations. Again it is imperative that if all parents are to understand
and participate in this very significant process, all information regarding this process
should be made available in multiple languages and if this does not happen, should be
not be deemed as substantially meeting the requirements of the law.
Reject: Optional New Subsection 4802.1 (g)(4) is deleted in its entirety. This deletion is
necessary because no requirement to translate the petition has been adopted, thus
there is no basis for rejecting the petition.

Comment: Section 4800.5 Parent Notice. We strongly support (Option 1) the
language requiring the convening of specified hearings and (Option 2) requiring CDE
to provide on its website, any information regarding the parent notice to be in multiple
languages.
Reject: Options 1 and 2 are deleted. Option 1 is deleted as Education Code section
53300 does not require a public hearing except that an LEA must make a finding in
writing at a regularly scheduled meeting stating the reason it cannot implement the
specific recommended option. Option 2 would have created a logistical and financial
difficulty in translating “any information on the CDE website”.
Comment: We strongly support the inclusion of Section 4802.2 Optional new subsection (g) requiring a charter school established as a result of the “restart model” to inform parents that the charter school will not be providing parent advisory committees or alternative programs pursuant to Education Code Sections 310, 311, 53202 & 4802.2.
Reject: Optional New Subsection (g) is deleted in its entirety as this may be inaccurate in that the charter school may choose to retain various committees and in that it is confusing to single out two exemptions from the myriad of laws to which a charter school may or may not comply.

Comment: Section 4800.1 Definition (g) & (h). We support the proposed changes made to these subsections. The changes provide clarity regarding the definition of “normally matriculate”.
Accept: Proposed changes to section 4800.1(g) & (h) are adopted.

Comment: Section 4800.1 Definition (k)(5). We support adding the new subsection (k)(5). We do not believe that a school that exits in Program Improvement should be subject to the parent empowerment provisions established by law or by these proposed regulations. This subsection will clearly state this intent.
Accept: Section 4800.1(k)(5) is adopted.

Comment: Section 4800.1 Definition (l), We support the proposed language to require an LEA to provide in writing, during a regularly scheduled meeting, the reasons for not implementing the intervention requested by a petition submitted by parents.
Accept: Proposed changes in Section 4800.1(l) are adopted.

Comment: We support the proposed Section 4800.1 Definition (m) definition of “matriculating school”.
Accept: Section 4800.1(m) is adopted

BARRETT GREEN, Littler (CUSD)

Comment: Section 4800.1(h). A proposal has been made that, in evaluating whether a parent or legal guardian has the legal right to sign a petition on behalf of a student, the relevant date should not be the date the parent or legal guardian signs the petition, but instead should be the date the petition is submitted, even if the petition is submitted long after the date the petition is signed.

This approach is not workable. A person who lacks educational rights for a student at the time the person signs the petition does not have the legal authority to sign a petition on behalf of that student. No adult has the right to sign documents or make decisions on behalf of a minor based on the possibility of being granted those rights at some future date.
Accordingly, it is respectfully proposed that the regulation should be revised so that the relevant date of educational rights for the signatures is the date the petition is signed, and section § 4800.1(h) should read as follows:

(h) "Parents or legal guardians of pupils" means the natural or adoptive parents, legal guardians, or other persons holding the right to make educational decisions for the pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education Code sections 56028 or 56055, including foster parents who hold rights to make educational decisions, on the date the petition is signed. [Emphasis added.]

Reject: The relevant date for the validity of a signature is the date the petition is submitted to the LEA, when the verification process begins pursuant to section 4802.1. In order to ensure consistency for the signature verification process, all signatures will be verified based on the submission date. It is not workable for the LEA to verify the status of a parent/guardian’s rights based on the date the petition was signed since there may be several hundred different signature dates on a petition.

Comment: Section 4801(g). Proposed Regulation 4801(g) provides that, "Signature gatherers, students, school site staff, LEA staff, and parents and legal guardians shall be free from harassment, threats, and intimidation related to circulation or signature of a petition."

Problems associated with the language of the proposed subsection include the following:

In the context of a debate over whether or not an intervention should be imposed at a school, or whether a petition should or should not be signed, the term "harassment" affords little guidance as to what would constitute legitimate and vigorous debate in a free marketplace of ideas, and what might cross the line into impermissible "harassment."

Because of this uncertainty, there is a substantial likelihood that the proposed language would be void for vagueness and not pass constitutional muster under the First Amendment and the California Constitution. Similar problems would exist with the term "intimidation," and even the term "threat."

Rather than state which persons will be prohibited from "harassing, threatening, and intimidating" the stakeholders, the subsection is written in a manner that guarantees that the stakeholders themselves shall be free from harassment, threats, and intimidation related to circulation or signature of a petition." The subsection does not explain who is responsible for this "guarantee," leaving uncertainty as to who, if anyone, is to be held accountable in the event stakeholders'"rights" are transgressed.

It is recommended that section 4801(g) either be deleted or substantially clarified.

Reject: The proposed language clarifies that all parties shall be free from harassment,
threats, and intimidation and clarifies that all parties are held to the same standard of behavior on all parties and is sufficient to put all groups on notice as to impermissible types of behavior.

Comment: Section 4800.5 requires that specific information be provided to parents regarding which schools qualify for a petition under Education Code section 53300 and how a petition can be circulated.

This information is not required under Education Code section 53300. Nevertheless, should the State Board of Education determine that transparency warrants this information being disseminated, CUSD believes that transparency is a two-way street and that there should likewise be transparency with respect to the circulation of petitions.

To remedy these problems and further the goal of transparency and vigorous open debate, it is proposed that the following language be added as Proposed Regulation 4800.5(b):

(b) At least 35 calendar days prior to collecting signatures in support of a petition submitted pursuant to Education Code section 53300, the circulators of the petition shall submit the petition to the State Department of Education and to the local educational agency. The State Department of Education shall post the petition on its web site within five calendar days of the Department’s receipt of the petition. No petition signature shall be considered valid if the parent or guardian signed the petition prior to the expiration of 35 days following submission by the circulators of the petition to the State Department of Education.

Reject: An LEA has enough information to know it is eligible for action under Education Code section 53300. Moreover imposing such additional measures upon parents and legal guardians who wish to circulate a petition may discourage them from doing so.

Comment: Section 4802.1(b) and (f). Proposed Regulation 4802.1(b) provides that, "Upon receipt of the petition, the LEA may make reasonable efforts to match the information contained on the petition against existing enrollment records for accuracy. If a discrepancy is found, the LEA may contact the parents and legal guardians of pupils for verification purposes."

Proposed Regulation 4802.1(f) provides that, "In connection with the petition, the LEA may only contact parents or legal guardians to verify eligible signatures on the petition."

It is unclear whether Proposed Regulation 4802.1(b) is meant to apply to signature verifications, to review of other student information, or both. This uncertainty is likely to lead to disagreements.
If section 4802.1(b) is intended to apply to signature verification, then a question arises as to how signatures are to be verified if the student's file contains no comparator signature for the parent or legal guardian who signed the petition. It is not uncommon for only one parent to sign enrollment documents on behalf of a student. If a second parent signs a petition, there may be no comparator signature in the student's file. In that instance, there is no "discrepancy" in the records, but rather simply an absence of information. As written, it would be unclear whether, under Section 4802.1(b), a school district could then contact the parents.

**Reject:** Verification process is permissive. Subdivisions (b) and (f) are not in conflict as both allow the LEA to contact the parent or legal guardian when there is insufficient or conflicting information to verify the parent or legal signature or other information pertaining to the petition.

**Comment:** As for Section 4802.1 (f), the language of that section appears to be vague and overbroad and to conflict with section 4802.1(b). First, the introductory clause, "In connection with the petition." is vague and would make it very difficult to determine what communications would be considered, "in connection with the petition." For example, if a school district received a petition and then apprised all parents District-wide in a monthly newsletter that such a petition had been received and were being processed, would that communication contravene section 4802.1(f)?

Also, since other student information might need to be verified in connection with the review of a petition (such as who possesses parental rights for the student), section 4802.1(k) would appear to conflict internally with section 4802.1(f), which authorizes contact with parents when there is a "discrepancy" between "information contained on the petition and "existing enrollment records."

It is respectfully proposed that revisions should be made to Regulations 4802.1(b) and (f) to address these issues.

**Reject:** The title of the section is "Verification of Petition Signatures" and both 4802.1(b) and (f) detail procedures to verify signatures of parents/guardians and to ensure that the signatures can be counted consistent with the regulations.

**Comment: 4802(i) and 4802.2.** The proposed regulations seek to authorize petitioners to select a specific charter school operator, charter management organization, or education management organization when requesting the so-called "restart model" intervention under Education Code section 53300 and 53202(a).

This approach is *ultra vires* and, if approved, would dramatically alter the existing statutory framework.

Education Code section 53300 allows parents or guardians to file a petition under the enumerated circumstances,

Education Code section 53300 further provides that the petition may request the local educational agency "implement one or more of the four "interventions" identified in Education Code section 53202(a)(1) to (4).
There is nothing in Education Code section 53300, 53202, or the federal Appendix that suggests in any way that a petitioning group would be able to select a specific charter school operator, charter management organization (CMO), or education management organization (EMO) within an intervention model after having selected the so-called "restart model" under Education Code section 53300 and 53202(a).

Rather, it is clear under the statute that it is the "LEA" (the local educational agency) that converts or closes and reopens the school under a charter school operator, a CMO, or an EMO, and only after the charter, CMO, or EMO has "been selected through a rigorous review process."

Had the Legislature intended to allow a petitioning group to divest the locally elected public officials of their oversight authority in implementing the restart model, the Legislature could and would have said so.

If the regulations are enacted as proposed, well-funded charter schools will have a financial motive to persuade parents to support a charter's takeover of an existing school district facility, knowing that the result will be a stream of public revenue directly to the charter. Absent the regulation, parents can still impose the restart model on a school district, but the school district remains accountable to all of the residents of the community and the electorate in vetting proposed charters, CMOs, and EMOs, and implementing the "rigorous review process" required under Education Code section 53202(a) and the federal Appendix, before a charter, CMO, or EMO is selected.

Other provisions of the Charter Schools Act (Education Code section 47600 et seq.) support the latter construction. Under Education Code section 47605(a)(I), a so-called "startup charter" may be initiated by a petition signed by parents of one-half of the number of pupils that the charter school estimates will enroll in the school for its first year of operation, or one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation. In contrast, under Education Code section 47605(a)(2), when a petition proposes to convert an existing public school to a charter school, the petition must be signed by not less than 50 percent of the permanent status teachers currently employed at the public school to be converted. This reflects the substantial local support required in the context of a takeover of a specific school by a specific charter organization.

Reject: The regulations still provide the LEA with the authority to choose which intervention model to implement and, if a restart model is chosen, whether to adopt a particular CSO, CMO or EMO.

Comment: If the proposed regulation were authorized, a small number of parents who might possess educational rights over their children, but might not reside in the community, might not have voted in recent local elections, or might not even be eligible to vote would be authorized to dispossess locally elected officials of
governance responsibilities, and effectuate a transfer of public funds and facilities through the disenfranchisement of residents and registered voters.

The proposed regulations constitute an impermissible transfer of legislative oversight from a locally elected body to special interest groups. It is respectfully submitted that the regulations are ultra vires and should not be approved.

**Reject:** The regulations still provide the LEA with the authority to choose which intervention model to implement and, if a restart model is chosen, whether to adopt a particular CSO, CMO or EMO.

**Comment** There appears to be no regulation addressing any time period after which a signature in support of a petition becomes stale or lapses, or any mechanism for a proponent of a petition to change his/her mind.

Absent rulemaking in this area, a parent could sign a petition and six months, a year, two years or more could pass and the signature could still be used in support of a petition, even though circumstances likely have changed. It is respectfully recommended that this issue could be addressed through either a requirement that signatures in support of a petition remain valid for a specified number of days and/or that a mechanism be implemented to allow signatories to withdraw support.

**Reject:** Timeline inherent in the petition process as it relates to the identification of a subject school precludes the scenarios reflected in the comment.

**Comment: 4802.1(g).** Under Proposed Regulation 4802.1(g), an LEA has 25 business days in which to return the petition to the person designated as the contact person specified in section 4802(c), if the LEA determines there are insufficient signatures, or the petition is otherwise defective in specified respects.

It is respectfully submitted that the proposed 25 business days is not sufficient time for an LEA to determine whether a petition has met all of the requirements of the petition set forth in proposed regulation Section 4802, and whether there are sufficient signatures from parents/guardians of one-half of the pupils of the affected school.

It is respectfully proposed that the regulation be amended, as follows:

a. Business days should be defined so as to exclude days when students are not in school.

b. The 25 business day timeline should apply to petitions of less than 200 signatures; petitions of 200-500 signatures should have a 40 business day turnaround time; and petitions in excess of 500 signatures should have a 60 business day turnaround time.

**Accept in part/Reject in part:** Accept in that language in 4802.1(g) has been amended to set the time period as “40 calendar days”. This amendment was necessary in response to public comment and for purposes of clarification. Reject the
suggestion that the timeline should be extended for petitions containing higher numbers of signatures in that 40 calendar days should be sufficient for completion of a verification process, even with several hundred signatures.

**Comment:** Proposed Regulation 4802.1(h) provides that, if the petition is returned pursuant to section 4802.1(g), the same petition may be resubmitted to the LEA with additional signatures as long as no substantive changes are made to the petition. If substantive changes are made to the petition, it must be recirculated for signatures before it may be resubmitted to the LEA.

**Reject:** Section 4802.1(h) specifies that a petition which has been rejected solely because of insufficient signatures pursuant to 4802.1(g)(1) may be resubmitted. Insufficient signatures are not a “substantive” change to the contents of the petition.

**Comment:** When a petition is submitted, the petition reflects the views of the signatories at a "snapshot" in time - the moment of submission of the proposal. These views may change at some point thereafter. Allowing a defective petition to be revived would seem to endorse an assumption that a petitioner who at one period in time supported the petition, still supports the petition at some later point. It is reasonable to require that proponents only submit petitions after undertaking reasonable due diligence to ensure they have obtained the requisite number of signatures. It is respectfully proposed that Regulation 4802.1(h) be withdrawn.

**Reject:** Nothing in these regulations precludes a parent/guardian from withdrawing his/her signature from a petition at any time.

**PRICILLA WINSLOW, California Teachers’ Association**

**Comment:** Section 4800.5 [Option 1]: We believe that once a school is designated as eligible for a parent empowerment petition there should be at least two meetings to inform and seek input from stakeholders regarding available options and that at least one of those meetings occur at the school site.

**Reject:** Unlike Education Code section 53202 which specifically requires public hearings, Education Code section 53300 provides that an LEA must make a finding in writing at a regularly scheduled meeting only if the LEA cannot implement the specific recommended option and instead designates in writing which of the other options it will implement. Nothing in the Parent Empowerment statute requires that any hearings or meetings be held by the school or the LEA nor precludes the school or the LEA from holding such hearings or meetings or petitioners from holding public information meetings.

**Comment:** 4801 Optional New Subsection (i). This proposed regulation would restrict school or district resources from being used "to influence the signature gathering process." We oppose this option because it would create needless confusion and is unnecessary and misguided. Presumably, school staff are included in the term "resources," so their speech is permitted under 4800.5, but banned under subsection (i). If that is not the case, what does constitute a school "resource"? The definition is not spelled out in this proposed regulation and failure to do so invites further confusion and potential litigation.
We do not suggest that this proposed regulation can be cured with a more comprehensive definition of "resources" because the very concept of keeping the school district and its employees out of the debate about the fate of an affected school is anti-democratic and simply bad policy. Teachers, administrators, and other staff are at least as equally well-informed as parents to know what education models could be most effective to assist struggling schools. There is no reason to place a regulatory thumb on the scale in favor of only one voice in this debate. We urge the Board to reject this option.

Reject: Subsection (i) was changed from "influence" to "impede" and is necessary to adopt based upon the comments received during public comment and the recommendation of a stakeholder group.

Comment: Section 4802(i) [Option 3]. We support the required disclosure on a petition for restart to include the contact information for the charter school operator, CMO, or EMO and that the petition also disclose that parents have an option of signing a petition that does not designate a particular charter school operator, CMO, or EMO. However, by this support favoring disclosure, we do not waive our opposition to any regulation that fails to harmonize the Charter Schools Act (CSA) with this statute. We believe the CSA cannot be superseded by regulatory fiat.

Reject: Option 3 was deleted for clarity. Section 4802(i) requires the petition to affirmatively disclose the contact information of a charter school operator, charter management organization or education management organization, if any such organization is so designated. If no organization is designated, then no disclosure is required. Nothing in these regulations precludes or limits a parent/guardian’s right to sign any petition.

Comment: Section 4802 [Optional New Subsection (k)]. Not only should parents be advised that parent advisory committees and "alternative programs" will not be available in the restart model, they should be advised that they will not be able to waive into bilingual education and that the charter school is not required to provide bilingual education. Parents should also be advised by description of, not simply reference to, Education Code sections with which they are probably unfamiliar that if the school participated in the Quality Education Investment Act, it will not be eligible for those additional funds if the school is transformed into a charter school and that the charter school will not be required to comply with any of the QEIA requirements.

Accept: This section has been deleted in its entirety. This deletion is necessary because the subsection may be inaccurate in that the charter school may choose to retain various committees and in that it is confusing to single out two exemptions from the myriad of laws to which a charter school may or may not comply.

Comment: Section 4802.1 [Optional Section] Subsection (b). In order to insure the integrity of the petition process, LEA’s should be required to engage in some type of verification process.

Reject: LEA’s are permitted to verify signatures; however mandating signature verification may be beyond the scope of the statute.
Comment: In the interest of clarity, this regulation should clarify what a "minor technicality" is or is not. For example, a superior court in Los Angeles County has recently ruled that the date of the signature must be included on the petition. We believe that the date is not a "minor technicality" since it is imperative to know the date the petition is signed so the LEA can be sure the student is enrolled on that date. We suggest adding this sentence at line 26, page 13: A "minor technicality" does not include the date of the signature.

Reject: This language was adopted as a result of input from stakeholders that felt the language was necessary to support the intent of the Parent Empowerment statutes. It would be impossible to attempt to identify what may or may not be deemed a minor technicality in a particular case. Such a determination will be up to the LEA to make, subject to any legal challenge.

Comment: Subsection (c). We continue to object to this section as it is ambiguous and seems to extend the Parent Empowerment statute to schools that no longer qualify. This exceeds the authority of this Board, as the interventions described in the statute are clearly only applicable to schools that meet the statutory definition. If a school "ceases to meet the definition of a subject school," the LEA has no authority to impose or permit any of the interventions. This proposed regulation is, therefore, unnecessary and should be deleted. The ambiguity is compounded by the addition of the phrase, "...unless that school has exited federal Program Improvement and is at or over 800 of the Academic Performance Index."

Reject: A school must meet AYP goals for two years in succession to exit Program Improvement. If a school meets AYP for one year, it is still subject to Program Improvement mandates pursuant to 20 U.S.C. Section 6316(b). Only when a subject school exits Program Improvement and is at or over 800 API will the school no longer be subject to a Parent Empowerment petition.

Comment: Subsection (l). The proposed regulation returns to the requirement that an LEA must have a "compelling interest" in support of a finding that it cannot implement the option requested by the petition. The words "including the compelling interest that support such a finding" should be deleted.

Accept: Section 4802.1(l) has been amended to delete the “compelling interest” requirement in response to public comment.

Comment: Section 4802.2 Charter Requirements for Parent Empowerment Petitions. On page 18, line 1, there is an optional proposed regulation: "§47605(a)(l) through (3))." We are strongly opposed to this option because it would remove important protections for teachers that are contained in the Charter Schools Act. Ed. Code §47605(a)(2) requires the signatures of at least 50% of the permanent teachers at any school that is to be converted to a charter school as a prerequisite for the charter to be issued.

The Charter Schools Act is obviously the more specific statute, dealing as it does with the particulars of how charters are established, the requirements of the petitions, the appeal rights of proponents whose charters are denied, the
requirements that charters schools must abide by, etc. The specificity of the CSA stands in stark contrast to the general provisions of §53300, which simply provides that parents may petition school districts to establish one of five interventions if the school meets the definition set forth in that statute. We urge the Board to reject this optional provision that would remove the important safeguards the Legislature included in the CSA with respect to the conversion of an existing public school.

We oppose this option which would permit the parent empowerment petition to stand as a substitute for the charter petition.

**Reject:** These regulations seek to implement the Parent Empowerment statutes and not the Charter Schools Act, and thus, while the regulations may reference and apply particular sections of the Charter School Act in order to effectuate the Parent Empowerment statutes and harmonize the legislative intent of both Acts, the Parent Empowerment regulations need not follow the provisions of the Charter Schools Act.

**Comment:** Section 4807. This description of the intervention-alternative governance arrangement should indicate that a school that participates in the Quality Education Investment Act program will be considered a school that is in this alternative governance intervention. Any one of the first four interventions described in these regulations would substantially disrupt the educational program at a QEIA school. Therefore, we urge the SBE to add the following language to Section 4807: “Participation in the Quality Education Investment Act shall constitute an Alternative Governance Arrangement.”

**Reject:** The suggestion is outside the scope of the statutes. The LEA maintains the ability to implement the requested model or to implement an alternative model. Quality Education Investment Act status may be a point of consideration in determining which model to implement.

**Comment:** Section 4808. This proposed regulation must include the option "to the extent permitted by law" to clarify the rights and duties of parties that have filed petitions under the emergency regulations and establish that the reach of either the emergency regulations or these proposed regulations is limited to the statute.

**Reject:** This statement is unnecessary since the State Board of Education does not have the authority to adopt regulations that are not permitted by law.

**GABE ROSE, Parent Revolution**

**Comment:** Parents must be able to pick any transformation option they choose without seeking a “permission slip” from their teachers. The final draft of regulations must include the “optional language in Section 4802.2(c), found on page 17, line 31 and page 18, lines 1-2 “The signatures required to establish a charter school pursuant to section 47605(a)(1) through (3) and 47605(b)(3) shall not be required.”

**Accept:** Such language has been adopted in Section 4802.2(b).

**Comment:** Parents must have the right to know that their signatures will be counted in a fair and consistent manner. The Board should use the “consensus stakeholder draft”
signature verification process, Optional Section 4802.1 in its entirety, replacing the previous Section 4802.1.

Accept: Optional Section 4802.1 has been adopted with a few minor modifications.

Comment: Parents must be allowed to freely organize without undue influence. Include Optional New Subsection 4801(i) in the final draft, which prohibits school or district resources from being used to influence parents’ organizing efforts.

Accept: Optional New Subsection 4801(i) is adopted except that it was amended to prohibit school or district resources from being used to “impede” rather than “influence” the signature gathering process and the language “pursuant to this section” was added.

Comment: Provide greater clarity to the petition submission process. Include the Optional New Section 4800.05 (sic), created by the ACSA/CSBA/Parent Revolution working group, in its entirety.

Accept: The working group’s section on the petition submission process is Optional New Section 4802.05. Assuming this comment is intended to relate to this section, it was adopted in its entirety.

Comment: Provide greater transparency for parents. Include “Option 1” on Section 4800.5 to require all Parent-Trigger eligible schools to hold two public meetings aimed at informing parents about the Parent Trigger and their rights under it.

Reject: Education Code sections 53300 through 53303 do not require any public hearings except than an LEA must make a finding in writing at a regularly scheduled meeting stating the reason it cannot implement the specific recommended option if it does not implement the requested intervention option. 4800.5(a), however, has been amended to state that the CDE shall provide a Parent Empowerment website for parents and guardians to obtain further information on circulating a parent empowerment petition. Moreover, there is nothing in this section that precludes LEAs, parents and interested stakeholders from convening a meeting to discuss the petition process.

Comment: Provide transparency in the signature gathering process. Support “Option 2” in Section 4801 to prohibit signature gatherers from being paid per signature so long as it can pass legal muster.

Accept: Option 2 of section 4801(g) is adopted to require signature gatherers to disclose if they are being paid and to prohibit signature gatherers from being paid per signature.

Comment: Allow parents to choose whether or not to select a specific partner for the “restart” model. Oppose Option 1 under Section 4802(i) which would limit parents’ options when deciding how to implement the restart model.

Accept: Option 1 under Section 4802(i) is not adopted.

Comment: Preserve greater transparency through a simple, non-cluttered petition for parents. Support Section 4802(j), but oppose Optional Subsection 4202(k) (sic) and Option 3 under Section 4802(i) in an effort to keep petitions clear and transparent.
Neither option is necessarily a bad idea in and of themselves, but combined with other provisions in these regulations.
**Accept:** Optional Subsection 4802(k) and Option 3 under section 4802(i) are not adopted.

**Comment:** Include clear translation requirements. Support “Optional Subsection 4801(j) with additional clarification on exactly what documents must be translated.

**Reject:** This optional subsection is not adopted as it was unclear how Education Code section 48985 was to apply to signature gatherers. Education Code 48985 applies to notices and documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition.

SHERRY SKELLY GRIFFITH, ACSA

**Comment:** Section 4800.1(g),(h),(j) – ACSA supports the amendments as proposed by CDE.

**No Response Necessary**

**Comment:** Section 4800.1 (k) 5 – Exiting Program Improvement - Optional language proposed by stakeholders. – Page 3 – lines 19-21.

We support this amendment because the statute clearly requires that schools in Program Improvement are the schools parents may petition for change. If that school exits PI successfully they should not be subject to interventions that actually could undermine their successfully exiting PI. It is inappropriate to subject a school that has succeeded to interventions which may have the unintended consequence of reversing or slowing down the progress. It also conflicts with statute because the schools identified are to be schools in PI.

**Accept:** Section 4800.1(k)(5) is added to incorporate the language proposed in Optional New Subsection 4801(k)(5).

**Comment:** Section 4800.1 (I) – Page 3 – lines 22-26.
Support CDE’s proposed language to strike “a compelling interest to support.” The use of the term “compelling interest” is a legal constitutional standard. Some argue the intent of this term is used in its “plain meaning” however that is not defined in this section and thus can be interpreted as a legal definition. We support striking the term entirely. We support the amendment to provide the findings in writing during a regularly scheduled public meeting.

**No Response Necessary**

**Comment:** Section 4800.5 – Parental Notice-Option 1, page 4 lines 22-28.
We do not support mandating two public hearings. One regularly scheduled hearing/meeting is already required under this statute. This language would constitute an unfunded mandate.

**Accept:** Section 4800.5 Option 1 is deleted in its entirety.
Comment: We also question whether the LEA should actually present the options “most suitable for the school” as this may be seen as unduly influencing the parents. We could support alternative language that reads as follows:

The parent notice shall include information about how parents can participate at the school and district level in learning more about the Parent Empowerment Act and any meetings or hearings that may be held regarding the status of schools in Program Improvement Year 4 or later.
Accept in part reject in part: Reject in that the LEA may still create a website informing parents and legal guardians how they can contact community-based organizations or work with school and community leaders to understand the intervention options and provide input about “the best options for the school” and the suggested language is not adopted. Accept in that section 4800.5(a) that states the CDE shall create a website for parents and guardians to obtain further information on circulating a parent empowerment petition and subsection (b) provides that an LEA may create a website to inform parents and guardians about the parent empowerment process.

Comment: Option 2 – Page 4, lines 31-32
We support the requirement that any information provided on CDE’s website is available in multiple languages. It’s unclear what languages CDE would identify and suggest that they model EC Section 48985. We suggest the following amendment:

Any information provided on CDE’s website shall also be available in multiple languages as determined by census data and pursuant to the formula identified in EC Section 48985 (a).
Reject: Section 4800.5 Option 2 is deleted in its entirety. This deletion is necessary because it would have been logistically and financially difficult to translate “any information on the CDE website.”

Comment: Petition Signatures. Okay with CDE recommendation to amend Section 4801(a)
No Response Necessary

Comment: 4801(a). Page 5, lines 31-32 & Page 6 lines 1-7. We remain concerned that there is no weight or recognition provided to the parents of the “subject school.” With no ratio, it is entirely possible that less than 1 percent of the subject school parents may sign a petition and 99% of the signature could come from schools outside of the district. We continue to support a majority of 51% or greater number of signatures should come from the “subject school” parents.
Reject: Section 53300 specifically refers to a “combination of at least one half of the parents or legal guardians at the subject school and matriculating schools.” Nothing in the legislation indicates an intent to require a specific ratio between the schools.

Comment: Section 4801(g) Option 2. Page 7, lines 11-12. We support the amendment that signature gatherers shall disclose if they are being paid, and shall not be paid per signature.
Accept: Section 4801(g) Option 2 is adopted as part of section 4801(g).

Comment: Section 4801 Optional Subsection (g) of in place of CDE’s proposed Subsection (g), page 7, lines 13-24. This section is comprehensive and we fully support its inclusion in the final regulations. The language addresses the prohibition of gifts and rewards, ensures all parties are free from harassment and intimidation, allows all parties to discuss the educationally related improvements and prohibits signature gatherers among other things, making threats, false statements or promises in the quest for signatures.
Accept: Optional subsection (g) has been adopted as section 4801(g).

Comment: Optional New Subsection (h), page 7, lines 25-27, School Procedures. Support this amendment. While it may seem obvious that all parties involved in the signature gathering process should adhere to school site hours, safety policies and visitor sign in, it may not be apparent to signature gatherers who are not familiar with school campuses. ACSA believes it’s important that regulations clearly reinforce the authority of local educators to first and foremost maintain campus rules and safety procedures.
Accept: Optional New Subsection (h) is adopted as section 4801(h).

Comment: Optional New Subsection (i), page 7, lines 28-29. We support school and district resources not going towards influencing the signature gathering process but we recommend the following amendment to further clarify there is no prohibition against an LEA providing educationally related information and discussing the facts and features of any school within the district. We therefore recommend the following clarifying amendment:

School or district resources shall not be used to influence the signature gathering process. **This does not prohibit school or district resources being used to describe or discuss education related features and facts about a school or schools within the district.**

Accept in Part and Reject in Part: Accept in that Optional New Subsection (i) is adopted except that the language was changed from “influence” to “impede” and “pursuant to this section” was adding for purposes of clarification. Reject in that commenter’s suggested language may not be necessary in light of the amendment.

Comment: Optional New Subsection (j), page 7, lines 30-31. We support this language to ensure all petitions will be available in languages other than English as appropriate.
Reject: Optional New Subsection 4801(j) is deleted in its entirety. This deletion is necessary because the language was unclear and beyond the scope of Education Code 48985. Education Code 48985 applies only to notices and documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition.
**Comment:** Section 4802, Content of Petition, page 8, lines 30-32 and page 9 lines 1-6. We support Option 1, Option 2 and Option 3 as it pertains to the content of the petition and the restart model.

**Accept in Part and Reject in Part:** Assuming the commenter is referring to section 4802(i), accept in that Option 2 is adopted. Reject in that Option 1 and 3 are not adopted. Option 1 is not adopted based upon the comments received during public comment and the recommendation of a stakeholders group. Mandating petitioners to request a specific charter operator, charter management organization or education management organization may be contrary to Education Code 53300. Option 3 is not adopted based upon the comments received during public comment and the recommendation of a stakeholders group that this language may be confusing to parents.

**Comment:** Section 4802. We support Optional New Subsection (k) to ensure parents are fully informed within the content of the petition that some rights and services currently provided will not be required under the restart charter model including the parent waiver requirements pursuant to EC sections 310 and 311.

**Reject:** Optional New Subsection (k) is deleted as this subsection may be inaccurate in that the charter school may choose to retain various committees and in that it is confusing to single out two exemptions from the myriad of laws to which a charter school may or may not comply.

**Comment:** Section 4802. We support Optional New Subsection (l) which ensures the CDE develops a sample petition that can be used by interested parents and make this sample petition available on the CDE website in multiple languages. We also support ensuring parents are aware they do not have to use the sample petition however alternative petitions must contain all required statutory and regulatory requirements. It’s important given limited resources that parents have access to a model template that is in no way influenced by the LEA and readily accessible. This is similar to the state’s development of the Highly Qualified Teacher verification document that is now available to all districts and is a part of the regulations.

**Accept:** Section 4802 Optional New Subsection (k) is adopted with some minor edits as section 4802(l).

**Comment:** Optional New Section 4802.05, page 9, lines 31-32 and Page 10, lines 1-15. We support this new section to ensure that the 50% threshold has been met prior to petition submission and that the date of submission of the petition shall be the start date for implementation of all statutory and regulatory requirements to ensure there is uniformity statewide. We also support allowing petitioner’s one opportunity to resubmit the petition to allow an opportunity to correct errors or add additional signatures. Once this opportunity is provided then no rolling petitions will be allowed. This provides some level of finality to the process which we believe is critical. We also support naming a small number of lead petitioners so that LEAS have the ability to communicate with some or all leads listed. We also support not authorizing these leads to negotiate on behalf of other parents but serve the role of facilitator and liaison between the LEA and parents.

**Accept:** Optional New Section 4802.05 is adopted.
Comment: 4802.1 Verification of Petition Signatures and Obligations of the LEA, page 11, lines 29-31. We do not support this section in which there is no specified ratio required for signatures gathered at each school. We support providing a 51% majority required to be obtained from the “subject school” as the impact of any of the five interventions has a direct impact upon the lives of the families and students currently enrolled in the “subject” school.

Response: Comment is repetitive of prior comments and does not address changes in text proposed by the Notice of second 15-day public comment.

Comment: 4802.1 Optional New subsection (g)(4), page 12, lines 12-13. We support that the petition is returned if the petition has not been translated into the number of languages pursuant to EC section 48985.

Reject: Optional New Subsection 4802.1 (g)(4) is deleted in its entirety as no regulation has been adopted requiring that the petition be translated into other languages.

Comment: Support striking the compelling interest requirement regarding the final disposition of the petition by the LEA. This is a legal standard and not appropriate under this statute.

Accept: The reference to “compelling interest” requirement is struck from section 4802.1(l).

Comment: Optional Section 4802.1 (in place of 4802.1) We support this entire alternative section (with one exception – see below). This alternative language developed by a number of stakeholders in the spirit of compromise strikes a reasonable balance between allowing for some flexibility in the process and good communication between lead petitioners and the LEA. This section also ensures there are parameters around the petition submission, verification and disposition process to prevent ongoing, never ending changes to petitions.

1. Requires LEAS to use common verification documents
2. Requires matriculating LEAS to participate in the verification of signatures from their schools because without such cooperation there is no way for the subject school and district to ensure validity of the petition and signatures which could risk the viability of the petition.
3. Compels LEAS to make a good faith effort to contact parents.
4. Allow schools who exit PI and are over 800 on the API to be released from any petition.
5. Clarifies what constitutes “one-half” of parents in subject and matriculating schools.
6. Allows the leads identified on the petition to assist in contacting parents to verify signatures and provides the leads an opportunity to assist in verifying signatures for a 60 day period. Allows leads to assist in correcting errors or provide clarification as needed.
7. Aligns all deadlines to calendar vs. business days, similar to charter law.
8. Petitioners are provided one resubmission opportunity and can correct errors and add signatures during this phase; however after one resubmission the petition disposition is final. No rolling petitions allowed.

**Accept:** Optional Section 4802.1 is adopted as section 4802.1 with some additional edits.

**Comment:** Please note on Page 16 lines 11-12 there is an error in which CDE has left in language regarding including “the compelling interest” in the final written findings of the LEA. The draft deletes this reference in an earlier section. We do not support requiring a legal standard of “compelling interest” in the final written statement of findings by the LEA. We recommend striking this language.

**Response:** Duplicative comment- see above

**Comment:** Optional Section 4802.2 We support this alternative proposal because it provides for a rigorous review process if the LEA accepts a restart petition charter model. It also compels the LEA when a petition does not name a particular charter operator to either, 1) solicit charter proposals or, 2) direct the petitioners to submit a charter proposal. This proposal also recognizes that education management organization may be chosen and the LEA is compelled to work in good faith to find a provider.

**Accept:** Optional section 4802.2 is adopted as section 4802.2 with some additional edits and clarifying changes.

**Comment:** Page 20 lines 16-21 – Optional New Subsection (g)
We support adding this new subsection to whatever option is chosen to ensure parents are informed upfront that some services and programs and waiver requirements pursuant to EC Section 310 and 311 may not be available if they chose a charter school intervention.

**Reject:** Section 4802.2, Optional New Subsection (g), is not adopted as this subsection may be inaccurate in that the charter school may choose to retain various committees and in that it is confusing to single out two exemptions from the myriad of laws to which a charter school may or may not comply, as cited earlier.

**JO LOSS, PTA**

**Comment:** 4800.1. Definitions. Optional New Subsection (k)(5): The California State PTA supports this optional subsection. We believe that if a school exits Program Improvement prior to the completion of the petition process, then the school should no longer be identified as a subject school.

**Accept:** Optional New Subsection (k)(5) is adopted as 4800.1(k)(5).

**Comment:** 4800.5. Parental Notice, Option 1. “The notice shall include the requirement that the LEA must hold at least two public hearings. . . " While we support the proposed language requiring parent notification that the school may be eligible for a parent empowerment petition, we do not believe this goes far enough. To that end, we strongly support the requirement in OPTION 1 for public meetings to be held at the
affected school site informing parents of the petition option and providing information about the allowable turnaround strategies that can be initiated by a successful petition campaign.

Reject: Education Code section 53300 through 53303 do not mandate a public hearing unless an LEA makes a finding in writing at a regularly scheduled meeting stating the reason it cannot implement the specific recommended option. 4800.5(a) has been amended to state that the CDE shall provide a Parent Empowerment website for parents and guardians to obtain further information on circulating a parent empowerment petition. There is nothing in this section that precludes parents and interested stakeholders from convening a meeting to discuss the petition process.

Comment: Section 4800.5. This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition . . . California State PTA supports the requirement for the CDE to provide information for parents and community members via a website.

Response: Section 4800.5 already required that CDE maintain a website with information related to the Parent Empowerment process.

Comment: California State PTA believes that to ensure the transparency of the process, the implications of the adoption of a specific model should also be disclosed, as well as who will be responsible for implementation.

Reject: Comment not related to proposed changes to text. Also, the implications of adopting the specific models are likely to be subject to unforeseen and idiosyncratic variables; however, the LEA is responsible for the implementation, pursuant to Education Code 53300.

Comment: California State PTA supports 4800.5, OPTION 2: Any information provided on CDE’s website shall also be available in multiple languages.

Reject: Option 2 is not adopted as it would have required that any information on CDE’s website be available in multiple languages. This deletion is necessary because it would have been logistically and financially difficult to translate “any information on the CDE website.”

Comment: Section 4801, Petition Signatures. California State PTA supports the contents in this section and appreciates the clarifications on who may sign the petition, however, we continue to have concerns about the definition of matriculating, how this affects magnet schools/open boundary schools and the lack of any required ratio of matriculating parents and parents of already enrolled students.

Response: No response necessary as no recommendation made specific to a particular regulation.

Comment: California State PTA supports the provisions in subsection (g) that specifies that signature gatherers may not offer incentives and states that all shall be free from harassment.

Accept: Section 4802.1(g) is adopted to provide that signature gathers may not offer incentives and that all shall be free from harassment.
**Comment:** 4801(g) Option 2: Signature gatherers shall disclose if they are being paid, and shall not be paid per signature. California State PTA supports Option 2 and believes this disclosure is critical to ensure transparency in the petition process.

**Accept:** Option 2 is adopted as part of Section 4801(g).

**Comment:** Optional new subsection 4801(h): All parties involved in the signature gathering process shall adhere to all school site hours of operation, school and LEA safety policies, and visitor sign in and procedures. PTA does not believe that any Parent Empowerment petition process activities should take place on school site except for informational hearings required. No petition signatures should be gathered on school sites. Protection and safety of students and the school site should be a priority.

**Reject:** Optional New Subsection 4801(h) is added and is necessary based upon the comments received during public comment and the recommendation of a stakeholders group.

**Comment:** 4802(e), formerly (d), Content of the Petition. A description of the requested intervention using the language set forth in either sections 4803, 4804, 4805, 4806, or 4807, without omission to ensure full disclosure of the impact of the intervention.

While we support the requirement for a description of the requested intervention using the language set forth in either sections 4803, 4804, 4805, 4806, or 4807, without omission to ensure full disclosure of the impact of the intervention the California State PTA believes that the intervention models described in those sections are written in language that is neither meaningful nor accessible to most parents. Parents need access to clear, concise information that is straightforward, unbiased and not couched in education terms and would like to see that requirement specified.

**Response:** No response necessary. Language in Section 4802(e) is not part of the changes proposed in the Notice of the second 15-day comment period.

**Comment:** 4802(i), formerly (h). California State PTA supports the requirement to disclose that the selected intervention is a charter conversion and that the information must be clearly stated on front page of the petition.

**Response:** No response necessary. Commenter is referring to language which is not part of the changes proposed in the Notice of the second 15-day comment period.

**Comment:** 4802(i), Option 2 and Option 3. We also support Option 2 and Option 3, both of which make clear that parents have multiple options in the petition process. We believe that this access to information empowers parents in the decision making process with the goal that all parents are able to participate in the selection process rather than be presented with a pre-selected choice.

**Accept in Part and reject in Part:** Accept in that the language in Option 2 is added to this subsection, but reject in that Option 3 is deleted based upon comments received during public comment and the recommendation of a stakeholders group that this language may be confusing to parents.
**Comment:** 4802(j). California State PTA supports the requirements in subjections (j)  
**No Response Necessary**

**Comment:** 4802 Optional new subsection (k) and Optional new subsection (l). Parents have the right to understand that they might actually be giving up some rights when selecting the charter process. Inclusion of this information supports past PTA positions that implications of the process should also be disclosed to parents prior to signing. Each of these subsections provides parents with information critical to making informed choices for their students and helps ensure transparency and accountability.  
**Accept in Part and reject in Part:** Reject in that Optional New Subsection 4802(k) is deleted in its entirety. This deletion is necessary because this subsection may be inaccurate in that the charter school may choose to retain various committees and in that it is confusing to single out two exemptions from the myriad of laws to which a charter school may or may not comply. Accept in that section 4802(k) is added, incorporating the language in Optional New Subsection (l), with the exception that the language that the sample petition be available for “distribution by LEAs” is deleted. Other minor, non-substantive changes have also been made.

**Comment:** Section 4802.2(c). The signatures required to establish a charter school pursuant to section 47605(a)(1) [OPTIONAL: 47605(a)(1) through (3)] and 47605(b)(3) shall not be required.

California State PTA supports this clarification that a conversion charter enacted through the Parent Empowerment process should not require teacher signatures in the same manner that a traditional conversion charter would.  
**Accept:** The optional language is adopted.

**Comment:** We also support OPTIONAL SUBSECTION (d) & (e) both of which clearly involve parents in the decision making process which PTA believes is true parent empowerment.  
**Reject:** Optional Subsections (d) and (e) are deleted in their entirety and Optional Section 4802.2 is instead adopted. This is necessary based upon the comments received during public comment and the recommendation of a stakeholders group, to clarify that petitioners retain decision-making authority regarding whether to solicit a specific charter school operator, charter management organization, or education management organization and to make other changes for clarity and consistency with other sections.

**Comment:** 4802.2 California State PTA supports the requirements in [OPTIONAL NEW SUBSECTION (g)]. Parents have the right to understand that they might actually be giving up some rights when selecting the charter process. Inclusion of this information supports past PTA positions that implications of the process should also be disclosed to parents prior to signing. This subsection provides parents with information critical to making informed choices for their students and helps ensure transparency and accountability.  
**Reject:** Optional New Subsection (g) is not adopted as this subsection may be
inaccurate in that the charter school may choose to retain various committees and in that it is confusing to single out two exemptions from the myriad of laws to which a charter school may or may not comply.

**Comment:** Optional new section 4802.05: Submission of Petition. The California State PTA supports the clarification of information provided in this OPTIONAL 4802.05 Submission of the Petition. Parents and districts need to clearly understand the requirements so that there is less confusion over the process. With clearly state regulations and expectations, there is greater likelihood for success on the part of parents who are able to meet the criteria for a successful petition submission.

**Accept:** Optional New Section 4802.05 is adopted.

**MARGUERITE NOTEWARE, California School Board Association**

**Comment:** 4800.1. Definitions. The California School Boards Association continues to support an expansion of the definition of "parents or legal guardians of pupils" to include foster parents, but also those persons holding the right to make educational decisions for pupils as delineated in Education Code section 56028. Many foster parents do not have the authority to make educational decisions for the children in their care. If the Board feels expanding the definition is beyond their authority, we ask that a legislative remedy be sought as soon as possible.

**Accept:** Language has been amended to read that parents or legal guardians of pupils means the natural or adoptive parents, legal guardians, or other persons holding the right to make educational decisions for the pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education Code sections 56028 or 56055, including foster parents who hold the right to make educational decisions on, on the date the petition is submitted.

**Comment:** 4801, Petition Signatures. Education Code Section 53300 reads,”…where at least one-half of the parents or legal guardians of pupils attending the school, or a combination of at least one-half of the parents or legal guardians of pupils attending the school and the elementary or middle school that normally matriculate into a middle or high school, as applicable, sign a petition requesting the local education agency to implement one of the four interventions identified pursuant to…” However, section 4801(a) reads “…A petition may not consist solely of signatures of parents or legal of pupils attending only the elementary or middle schools that normally matriculate into a subject middle or high school.” The statute and regulation are inconsistent and unclear. The regulations do not help clarify the statute by define “one-half” of the parents or guardians and omits the language entirely.

**Reject in part and accept in part:** Education Code section 53300 specifies that the petitioner may gather signatures from parents or legal guardians of pupils attending either the subject school alone or the petitioners may gather a combination of signatures of parents or legal guardians of pupils attending the subject school and pupils attending schools that normally matriculate into the subject school. Section 4801(a) has been amended to read:
A petition shall contain signatures of parents or legal guardians of pupils attending the subject school or may contain a combination of signatures of parents and legal guardians of pupils attending the subject school and signature of parents or legal guardians of pupils attending the matriculating schools.

Further, Section 4802.1(e) has been amended to read:

\[(e)(4) \text{ If a petition has sought signatures of parents or legal guardians of pupils attending the subject school and the elementary or middle schools that normally matriculate into the subject school, then for purposes of calculating whether at least one-half of the parents or legal guardians of at least one-half of pupils attending the subject school and the elementary or middle schools that normally matriculate into the subject school on the date the petition has been submitted have signed the petition, only those signatures of parents or legal guardians of pupils attending the subject school and the parents or legal guardians of pupils attending the elementary or middle schools who would normally matriculate into the subject school at the time the petition is submitted to the LEA shall be counted. Where pupils attend elementary or middle schools that normally matriculate into more than one subject school, only those pupils attending the subject school and those pupils that normally matriculate, as defined in section 4800.1(g), into the subject school, shall be counted in calculating whether at least one-half of pupils attending the subject school and the elementary or middle schools that normally matriculate into the subject school on the date the petition has been submitted have signed the petition. There is no specified ratio required of signatures gathered at each school, rather the total ratio of signatures gathered must meet the one-half requirement.}\]

**Comment:** The proposed regulations delineate that petition signers may optionally share their address. With such limited information on the petition, it will be challenging for school districts to validate school enrollment for the purposes of signature verification, particularly for those students who attend a matriculating school in a different district.

**Reject:** Information requested in section 4801(d) sufficiently enables verification of petitioners against fraud. Further, Section 4802.1(b) is amended to read in relevant part, “The matriculating LEA or school shall be required to provide information necessary to the subject school and LEA in order to assist in verifying signatures.”
Comment: The California School Boards Association is very concerned that the
proposed regulations do not include provisions prohibiting the payment or
compensation of signature gatherers.
Reject: There is no authority in this statute to prohibit hiring signature gatherers.
However, Section 4801(g), in relevant part, has been amended to read, “Signature
gatherers shall disclose if they are being paid, and shall not be paid per signature.”

Comment: While we strongly support the proposed language in section 4801(h), it
is troubling that these expectations are not reciprocal. Without these safeguards in
place, the Association is worried that special interest groups may try to unfairly
influence parents through the petition preparation and signature gathering process.
Reject: Language in Section 4801(g) has been amended to provide safeguards for
all interested parties.

Comment: 4802, Content of the petition. This section of proposed regulations
contradicts itself with the earlier section 4800.1(h) and the definition of “parents or
legal guardians of pupils.” As written in 4800.1(h), this definition does not include
education rights holders. However, for the purpose of the petition’s heading, the
definition is inexplicably broadened to include these individuals. In order to avoid
confusion in the field and to help facilitate the best educational outcomes for children
in foster care, we recommend that the definition in 4800.1(h) be expanded to include
the provisions delineated in Education Code 56028.
Accept: Section 4800.1(h), formerly subsection (e), and 4802 (a) have been
amended to include foster parents who hold rights to make educational decisions.
“Parents or legal guardians of pupils” means the natural or adoptive parents, legal
guardians, or other persons holding the right to make educational decisions for the
pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education
Code sections 56028 or 56055

Comment: Given the State Board of Education’s preference for including the four
intervention models from the federal Race to the Top program verbatim in the
implementation of this Act, it is unclear why the Restart Model is altered by these
proposed regulations. It is particularly unclear why a petition for this intervention
model may include a request that the subject school be reopened under a specific
charter school operator, charter management organization or educational
management organization. The California School Boards Association recommends
that the regulations do not deviate from the federal definitions.
Reject: Language in the regulations does not change the content of the restart
model.

Comment: In section 4802.1(a) the California School Boards Association requests
that the term “reasonable efforts” be defined in section 4800.1 so that both petitions
signers and school districts may have a shared understanding of the scope of effort
school districts must make to verify signatures.
Accept: Clarifying language is added to section 4802(b), formerly section (a), to
read:
Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. The LEA and matriculating LEAs shall use common verification documents that contain parent or guardian signatures to verify petition signatures such as emergency verification cards signed by all parents or guardians. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. The matriculating LEA or school shall be required to provide information necessary to the subject school and LEA in order to assist in verifying signatures.

**Comment:** Section 4802.1. Continuing to label a school as failing when it has improved school-wide student achievement is gratuitous and unfair to the students, families, teachers and school staff that have work to change the trajectory of achievement at that school. We request that 4802.1(b) be removed from the final regulations.

**Reject:** However, language has been added to address this. Section 4800.1(k)(5) has been amended to read, “A school that exits Program Improvement shall not be subject to continued identification on the Parent Empowerment list.” This was necessary in response to public comment and in response to a stakeholders group.

**Comment:** Section 4802.1. If LEAs may only contact parents to verify signatures, how can LEAs verify where the students attend school as stated in (e)? This will be of particular importance for the students matriculating into the subject school from within or outside the district. LEAs must be granted the authority to check with parents where students are enrolled. In addition, if it is the intent of the SBE that LEAs shall confirm enrollment with district schools and adjacent school districts this must be explicitly stated in the final regulations.

**Accept:** Section 4802.1(b) has been amended to read:

Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations. The LEA and matriculating LEAs shall use common verification documents that contain parent or guardian signatures to verify petition signatures such as emergency verification cards signed by all parents or guardians. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. The matriculating LEA or school shall be required to provide information necessary to the subject school and LEA in order to assist in verifying signatures.

This was necessary in response to public comment and in response to a stakeholders group.

**Comment:** While the California School Boards Association agrees that providing a timeline for the petition process is helpful for both parties, we request that section 4802.1(f) be extended to 45 business days.
Reject: Section 4802.1(g), formerly section (f), has been amended from 25 business days to 40 calendar days for the LEA to return the petition to the person designated as the contact person(s). This amendment was in response to public comment and for clarification.

Comment: Section 4802.2. For petitions that concurrently include a charter school petition, we strongly believe the requirement to meet sections of Education Code should be expanded from 47605(b) to include 47605(b-g). As implied in section 4802.2(d) of the proposed regulations, subject school that implement the restart model will become conversion charters. A petition requirement of a conversion charter school is that fifty percent of teachers sign the petition – a requirement we believe must also be included in the final regulations for the implementation of this Act.

Reject: The CSA statutes and regulations that govern how a school is converted to a charter school involves a different process than how a school becomes a charter school under the Parent Empowerment statutes and regulations.

Comment: Proposed section 4804 exceeds the scope of the Board’s authority and imposes a reimbursable mandate on local agencies. Section 4804 as specified in the Federal Register (74 PR 65618.65619), allows an LRA to convert a school or close and reopen a school under a charter school operator, a charter management organization, or an education management company. The regulations do not define the term “rigorous review process” but if it is a process that is to be performed by the LEA, then such a process is a reimbursable state mandate since that requirement is not in the implementing statute or federal requirements.

Reject: Section 4802.2 Section 4802.2 has been amended to read:

If a petition requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to Section 4802.1(g) then the rigorous review process required by Education Code section 53300 and section 4804 shall be the review process and timelines set forth in Education Code section 47605(b), excepting 47605(b)(3).

AFTER THE SECOND 15-DAY COMMENT PERIOD, THE FOLLOWING CHANGES WERE MADE TO THE PROPOSED TEXT OF THE REGULATIONS AND SENT OUT FOR A THIRD 15-DAY COMMENT PERIOD.

SECTION 4800

SECTION 4800 is amended to replace Parent Empowerment “provisions” with Parent Empowerment “law.” This is necessary for the sake of clarity.

SECTION 4800.1

SECTION 4800.1(k)(1) is amended to delete the reference to March 11, 2010. This is necessary so that a list of persistently lowest achieving schools can be updated
annually to reflect schools that have failed to make adequate yearly progress as required by Education Code section 53300.

**SECTION 4800.1(k)(5)** is added to incorporate the language proposed in Optional New Subsection 4801(k)(5), thus deleting its designation as an Optional New Subsection. This addition is necessary based on the responses received during public comment and the recommendation of a stakeholders group to clarify that a school that has met federal AYP goals and has exited Program Improvement is no longer subject to the parent empowerment provisions.

**SECTION 4800.5**

Section 4800.5 has now been divided into section 4800.5(a), (b) and (c).

**SECTION 4800.5(a)** requires the CDE to create a website for parents and guardians to obtain further information on circulating a parent empowerment petition. This subsection incorporates language similar to that being deleted in Subsection 4800.5(c) which required that the notice sent to parents pursuant to Section 4800.5 provide the website address for the CDE to obtain further information on circulating a parent empowerment petition. This addition is necessary for clarity purposes since the previous version was confusing in that the phrase “the web site” referred to both the LEA website and CDE website. Subsections were created to distinguish between the CDE website, LEA website, and the LEA notice.

**SECTION 4800.5(b)(1) and (2)** incorporate language already present within Section 4800.5 concerning how an LEA may create a website and what information that website may include. This amendment was necessary for clarity purposes since the previous version was confusing in that the phrase “the web site” referred to both the LEA website and CDE website. Subsections were created to distinguish between the CDE website, LEA website, and the LEA notice.

**SECTION 4800.5(c)** deletes language which now appears in subsections 4800.5(a) and (b) above. It also deletes language that the notice sent to parents may identify an LEA’s parent empowerment website. In addition, it deletes Options 1 and 2. Option 1 would have required that the notice to parents include the requirement that the LEA must hold at least two public hearings related to parent empowerment, with at least one of those meetings being a regularly scheduled meeting, if applicable and one at the site of the subject school. This deletion is necessary because it appears to go beyond the intent of Education Code section 53300. Option 2 would have required that any information on CDE’s website be available in multiple languages. This deletion is necessary because it would have been logistically and financially difficult to translate “any information on the CDE website.”

**SECTION 4801**

**SECTION 4801(a)** is amended to change “and” to “or” for purposes of clarity and consistency.
SECTION 4801(c) is amended to include “that are” for purposes of clarity.

SECTION 4801(g) is amended to delete subsection (g) in its entirety with the exception of Options 1 and 2 within the subsection) and replace it with the language in Optional Subsection (g), deleting the designation as an Optional Subsection, but incorporating Options 1 and 2. The impact of these changes is that Section 4801(g) now includes language prohibiting signature gatherers from making any threats of coercive action, false statements or false promises of benefits to parents or legal guardians in order to persuade them to sign a petition. This amendment is necessary based upon the comments received during public comment and the recommendation of a stakeholders group that was in favor of this option. The language is necessary to clarify that threats or intimidation may not be used by either the LEA or the signature gatherers. It also incorporates Option 1 [adding "members of the community" instead of “community members"] to include members of the community as persons who shall be free of harassment, threats and intimidation. This amendment is necessary based upon the comments received during public comment and the recommendation of a stakeholders group as well as for clarity purposes. It also provides that only parents and legal guardians “of eligible pupils” are to be free of harassment, threats and intimidation. This amendment is necessary to clarify that the scope of these regulations is threats or intimidation related to parent empowerment. Threats or intimidation of parents not related to parent empowerment are covered by other statutes and regulations. It further provides that, in addition to a right to be free from harassment, threats and intimidation related to circulation or signature of a petition, the named groups of persons should be free of such actions if they are related to the discouragement of signing of a petition or to the revocation of signatures from a petition. This amendment is necessary based upon the comments received during public comment and the recommendation of a stakeholders group to clarify that threats or intimidation are prohibited in all parts of the petition process beyond circulation and signature gathering. Finally, Option 2 has been incorporated to provide that signature gatherers shall disclose if they are being paid, and shall not be paid per signature. This addition is necessary based upon the comments received during public comment and the recommendation of a stakeholders group.

SECTION 4801(h) is added to incorporate the language proposed in Optional New Subsection 4801(h), thus deleting the designation as an Optional New Subsection, except that "and" is deleted for clarity purposes. This addition is necessary based upon the comments received during public comment and the recommendation of a stakeholders group.

SECTION 4801(i) is added to incorporate most of the language proposed in Optional New Subsection 4801(i), with one grammatical change, thus deleting its designation as an Optional New Subsection, except that this subsection is further amended to provide that school or district resources shall not be used to “impede” rather than to “influence” the signature gathering process. It further adds clarifying language that the prohibition against using resources to impede the signature gathering process is “pursuant to this section.” These amendments are necessary based upon the comments received during
public comment and the recommendation of a stakeholders group, except that “influence” was amended to “impede” because influence was viewed as too vague.

“Pursuant to this section” was added for clarity purposes.

**OPTIONAL NEW SUBSECTION 4801(j) is deleted in its entirety. This deletion is necessary because the language was unclear and beyond the scope of Education Code 48985. Education Code 48985 applies only to notices and documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition.**

**SECTION 4802**

**SECTION 4802(i) is amended in several ways. Option 1 is deleted. This deletion is necessary based upon the comments received during public comment and the recommendation of a stakeholders group. Mandating petitioners to request a specific charter operator, charter management organization or education management organization may be contrary to Education Code 53300. The language in Option 2, on the other hand, is added to this subsection. This addition is necessary based upon the comments received during public comment and the recommendation of a stakeholders group. Finally, Option 3 is deleted. This deletion is necessary based upon the comments received during public comment and the recommendation of a stakeholders group that this language may be confusing to parents.**

**OPTIONAL NEW SUBSECTION 4802(k) is deleted in its entirety. This deletion is necessary because this subsection may be inaccurate in that the charter school may choose to retain various committees and in that it is confusing to single out two exemptions from the myriad of laws to which a charter school may or may not comply.**

**SECTION 4802(k) is added, incorporating the language in Optional New Subsection (l), thus deleting its designation as Optional New Subsection (l), with the exception that the language that the sample petition be available for "distribution by LEAs" is deleted. Other minor, non-substantive changes have also been made. This addition is necessary based upon the comments received during public comment and the recommendation of a stakeholders group.**

**SECTION 4802.05**

Section 4802.5 is added to incorporate the language from Optional New Section 4802.05, thus deleting its designation as an Optional New Section. This addition is necessary based upon the comments received during public comment and the recommendation of a stakeholders group.

**SECTION 4802.1**

**SECTION 4802.1 is deleted in its entirety and in its place the language in Optional Section 4802.1 is added, thus deleting its designation as an Optional Section. However, the following amendments are also made:**
SECTION 4802.1(b) is amended to prohibit an LEA from invalidating the signature of a parent or legal guardian of “an eligible” pupil on a minor technicality “assuming the parent or legal guardian is entitled to sign the petition”, when previously the language prohibited an LEA from invalidating the signature of a parent or legal guardian of “a pupil” on a minor technicality “where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition.”

SECTION 4802.1(e) is amended to change the reference from “at least one half of the parents or legal guardians of pupils” to “the parents or legal guardians of at least one-half of pupils.” Subsection (e) is also amended to state that the population to be counted in calculating whether one-half is reached are the parents or legal guardians of one-half of the pupils “attending the subject school and the elementary or middle schools that normally matriculate into the subject school on the date the petition has been submitted…”

SECTION 4802.1(k) is amended to change 20 business days to 25 calendar days.

SECTION 4802.1(l) is amended to require that the LEA shall notify the SSPI and the SBE within 15 calendar days of its receipt of a petition and within five calendar days of the final disposition of the petition, instead of 10 business days and two business days respectively. Subsection (l) also deletes the provision that an LEA include in the written finding “the compelling interest that supports such a finding.” This amendment is necessary in light of feedback from stakeholders that the statute did not justify such a requirement and to conform to prior changes to Section 4800.1(l) where similar language was removed.

Adopting Optional New Section 4802.1, with the above amendments, in place of Section 4802.1, is necessary based upon the comments received during public comment and the recommendation of a stakeholders group.

SECTION 4802.2

SECTION 4802.2, including Optional Subsections (d) and (e) and Optional New Subsection (g), is deleted in its entirety and in its place Optional Section 4802.2 is added, deleting its designation as an Optional Section, with the following amendments:

SECTION 4802.2(b) deletes the reference to a “specific” charter operator, charter management organization or education management organization.

SECTION 4802(d) also deletes the reference to “specific” charter school, operator, charter management organization or education management organization. It also deletes the language that, if a parent empowerment petition does not include a proposed charter and the LEA does not reject the petition pursuant to section 4802.1(g), then the LEA must either immediately solicit charter proposals itself and select one through a rigorous review process to begin at the end of a solicitation period not to exceed 90 calendar days or direct the parent petitioners to submit a charter proposal within 90 calendar days and then conduct the rigorous review process once the
proposal is submitted to the LEA. In its place, language is added that if a petition does not include a proposed charter but requests that the subject school be opened under a charter school operator, charter management organization or education management organization and the LEA does not reject the petition pursuant to 4802.1(g), then the LEA must promptly notify the petitioners it has adopted the restart model and give them a chance to solicit proposals and select a specific charter school operator or decline to do so. It further provides that if the petitioners opt to solicit and choose a specific operator, they must submit the proposal to the LEA within 90 calendar days, whereafter the charter proposal would undergo the rigorous review process by the LEA. If the petitioners inform the LEA that they have declined to solicit proposals and select an operator, the LEA must, within 20 calendar days, solicit its own proposals, select one, and then conduct the rigorous review process, which shall begin at the end of the solicitation period and not exceed 90 calendar days.

Adopting Optional Section 4802.2, with the above amendments, in place of Section 4802.2, is necessary based upon the comments received during public comment and the recommendation of a stakeholders group. Language was also added in (d) to clarify that petitioners retain decision-making authority regarding whether to solicit a specific charter school operator, charter management organization, or education management organization. Other changes were made for clarity and consistency with other sections.

SECTION 4808

The Option in this section is deleted. This is because the language was not necessary.

COMMENTS RECEIVED DURING THE PERIOD THE THIRD 15-DAY NOTICE AND PROPOSED REGULATION TEXT WAS AVAILABLE TO THE PUBLIC

The modified text was made available to the public from July 22, 2011 through August 8, 2011, inclusive. Six written submissions representing 23 comments were received during the third 15-day comment period. Pursuant to Government Code sections 11346.9(a)(3) and (a)(5), California Department of Education (CDE) staff, on behalf of the SBE, has summarized and responded to those comments as follows:

KAREN CADIERO KAPLAN, Californians Together

Comment: Do not delete Optional New Subsection (j) of Section 4801, regarding translation of the petition.
Reject: Optional new subsection (j) is not reinserted as the language was unclear and beyond the scope of Education Code section 48985 which applies only to notices and documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition.

Comment: Do not delete Option 1 of Section 4800.5(c) regarding public meetings.
Reject: As stated previously, Education Code section 53300 provides that an LEA must make a finding in writing at a regularly scheduled meeting only if the LEA cannot
implement the specific recommended option and instead designates in writing which of the other options it will implement. Nothing in the Parent Empowerment statute requires that any hearings or meetings be held by the school or the LEA nor precludes the school or the LEA from holding such hearings or meetings or petitioners from holding public information meetings.

**Comment:** Amend Subsection 4802.1(l) to require the SSPI and SBE to post correspondences from the LEA regarding a submitted petition on the CDE website. Information should include notice of the final disposition of a petition and the rationale of the action taken on a petition.

**Reject:** While the CDE will likely include such information on its website, the SBE does not feel it is necessary that the regulations mandate the reporting of this information.

**ANGELA SOLIS, Alliance for a Better Community**

**Comment:** Commenter discusses history of the Parent Empowerment regulation process and urges adoption of regulations and submission to the Office of the Administrative Law.

**No response necessary.**

**PATTY SCRIPTER, California State Parent Teacher Association**

**Comment:** Believes the language in Section 4800.5, Option 1, should not have been deleted.

**Reject:** As stated previously, Education Code section 53300 provides that an LEA must make a finding in writing at a regularly scheduled meeting only if the LEA cannot implement the specific recommended option and instead designates in writing which of the other options it will implement. Nothing in the Parent Empowerment statute requires that any hearings or meetings be held by the school or the LEA nor precludes the school or the LEA from holding such hearings or meetings or petitioners from holding public information meetings.

**Comment:** Do not delete Optional New Subsection (j) of Section 4801.

**Reject:** This section was not adopted as the language was unclear and beyond the scope of Education Code section 48985 which applies only to notices and documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition.

**Comment:** Amend 4802.1(e) to clarify the denominator for establishing the 50% threshold for matriculating schools. Proposed amendments to this section can be interpreted to mean that parents of only one or two of multiple feeder schools may determine the outcome of a subject school that serves pupils from more feeder schools. Enrollment at all matriculating schools should be the denominator for the number of signatures required when parents from those schools participate in the Parent Empowerment process.
Reject: The amendment is unnecessary. Section 4801(a) provides that a petition shall contain the signatures of parents or legal guardians of pupils attending the subject school or it may contain signatures of parents or legal guardians of pupils attending the subject school and the signatures of parents or legal guardians of pupils attending the matriculating schools. The matriculating schools would be all of the schools that normally matriculate into the subject school as set forth in Section 4800.1(m).

Comment: Amend Subsection 4802.1(l) to require the SSPI and the SBE to post correspondences from the LEA regarding a submitted petition on the CDE website. Specifically, before adopting Subsection (l), we support the following amendment:

(l) The LEA shall notify the SSPI and the SBE in writing within fifteen calendar days of its receipt of a petition and within five calendar days of the final disposition of the petition. CDE shall post this information on its website. The notice of final disposition shall state that the LEA will implement the recommended option or include the written finding stating the reason it cannot implement the specific recommended option, designating which of the other options it will implement and stating that the alternative option selected has substantial promise of enabling the school to make adequate yearly progress.

Reject: While the CDE may choose to include such information on its website, the SBE does not feel it is necessary that the regulations mandate the reporting of this information.

PRISCILLA WINSLOW, California Teachers Association

Comment: Section 4800.5, Option 1 would have required that two public meetings be held to seek input from staff, parents and the community regarding the option or options most suitable for the school. For the reasons set forth in the letter, we urge that this requirement be reinstated to these regulations. 

Reject: As stated previously, Education Code section 53300 provides that an LEA must make a finding in writing at a regularly scheduled meeting only if the LEA cannot implement the specific recommended option and instead designates in writing which of the other options it will implement. Nothing in the Parent Empowerment statute requires that any hearings or meetings be held by the school or the LEA nor precludes the school or the LEA from holding such hearings or meetings or petitioners from holding public information meetings.

Comment: Section 4801(i) was changed from “influence” to “impede.” The previous version of this regulation was vague. The same problem persists with this new wording. In addition, subsection (i) is unnecessary and misguided.

Reject: Subsection (i) of Section 4801 is necessary based upon the comments received during public comment and the recommendation of a stakeholders’ group. The amended language changing “influence” to “impede” and the addition of “pursuant to this section” provides the necessary clarity.

Comment: SBE is without authority to enact Section 4802(i) and it should be deleted as it conflicts with the Charter Schools Act.
Response: Commenter has previously commented that allowing petitioners who request that a restart intervention model be implemented be allowed to further request that the school be reopened under a specific charter school operator, charter management organization or education management organization is a violation of the Charter School Act. Comment does not appear to pertain to specific proposed changes in the Third 15-Day Notice of Modifications to Text of Proposed Regulations.

Comment: Section 4802.2(b) explicitly renders another statute provision null and void with respect to Parent Empowerment petitions. We suggest that the language in Section 4802.2(b), appearing on page 13, lines 9-13 be eliminated from the proposed regulations.
Response: Commenter has previously made this comment. Comment does not pertain to proposed changes in the Third 15-Day Notice of Modifications to Text of Proposed Regulations.

Comment: Section 4802.2(c) implies that a petition for the restart option may be accompanied by the charter petition. We oppose this option which would permit the parent empowerment petition to stand as a substitute for the charter petition. The Board does not have the authority to waive the signature requirements set forth in Education Code section 47605. Therefore, the phrases “excepting 47605(b)(3)” must be deleted.
Response: Commenter has previously made this comment. Comment does not pertain to proposed changes in the Third 15-Day Notice of Modifications to Text of Proposed Regulations.

Comment: Section 4807, pertaining to the description of the Alternative Governance Arrangement should indicate that a school that participates in the Quality Education Investment Act program will be considered a school that is in alternative governance intervention. We urge the SBE to add the following to Section 4807 at line 20, page 29:

Participation in the Quality Education Investment Act shall constitute an Alternative Governance Arrangement.

Response: Commenter has previously made this comment. Comment does not pertain to proposed changes in the Third 15-Day Notice of Modifications to Text of Proposed Regulations.

Comment: Section 4808, this proposed regulation must include the option “to the extent permitted by law.” It should be restored.
Reject: This comment is rejected as the quoted language is deemed to be unnecessary since the State Board of Education does not have the authority to adopt regulations that are not permitted by law.

KATHERINE VALENZUELA and LIZ GUILLEN, Public Advocates  
SERGIO CUELLAR, Californians For Justice  
BILL RING, TransParent®
**Comment:** Do not delete Option 1 of Section 4500.5(c) regarding public meetings. We recommend reinserting Option 1 language.

**Reject:** As stated previously, Education Code section 53300 provides that an LEA must make a finding in writing at a regularly scheduled meeting only if the LEA cannot implement the specific recommended option and instead designates in writing which of the other options it will implement. Nothing in the Parent Empowerment statute requires that any hearings or meetings be held by the school or the LEA nor precludes the school or the LEA from holding such hearings or meetings or petitioners from holding public information meetings.

**Comment:** Do not delete Optional Subsection (j) of Section 4801 regarding translation of the petition.

**Reject:** Optional new subsection (j) is not reinserted as the language was unclear and beyond the scope of Education Code section 48985 which applies only to notices and documents given to parents by the school or LEA. Neither the school nor the LEA will be distributing the petition.

**Comment:** Amend Section 4802.1(e) to clarify the denominator for establishing the 50% threshold for matriculating schools. This section should be further amended to state:

> Where pupils attend elementary or middle schools that normally matriculate into more than one subject school, only those pupils attending the subject school and those pupils that normally matriculate, as defined in Section 4800.1(g), into the subject school, shall be counted in calculating whether the parents or legal guardians of at least one-half of pupils attending the subject schools and **all of** the elementary or middle schools that normally matriculate into the subject school on the date the petition has been submitted have signed the petition.

**Reject:** The amendment is unnecessary. Section 4801(a) provides that a petition shall contain the signatures of parents or legal guardians of pupils attending the subject school or it may contain signatures of parents or legal guardians of pupils attending the subject school and the signatures of parents or legal guardians of pupils attending the matriculating schools. The matriculating schools would be all of the schools that normally matriculate into the subject school as set forth in Section 4800.1(m).

**Comment:** Further amend Optional Subsection 4802.1(e) to allow LEAs to consider the ratio of subject school versus matriculating school parent signatures in their deliberations. We recommend that section 4802.1(e) be amended as follows:

There is no specified ratio required of signatures gathered at each school, rather the total ratio of signatures gathered must meet the one-half requirement. **The ratio of signatures obtained may be a factor considered by the LEA in disapproving a petition.**
Reject: Pursuant to Education Code section 53300, the LEA does not disapprove of petitions. Rather, the LEA decides whether to implement the intervention model requested in the petition or whether it cannot implement the specific intervention model requested and instead designates which of the other options it will implement in the subsequent school year. The suggested language is rejected as it is up to each LEA to determine whether it can or cannot implement the intervention requested, using whatever factors are relevant for that determination.

Comment: Further amend Subsection 4802.1(l) to require the SSPI and the SBE to post correspondence from the LEA regarding a submitted petition on the CDE website.

(l) The LEA shall notify the SSPI and the SBE in writing within fifteen calendar days of its receipt of a petition and within five calendar days of the final disposition of the petition. CDE shall post this information on its website. The notice of final disposition shall state that the LEA will implement the recommended option or include the written finding stating the reason it cannot implement the specific recommended option, designating which of the other options it will implement and stating that the alternative option selected has substantial promise of enabling the school to make adequate yearly progress.

Reject: While the CDE may choose to include such information on its website, the SBE does not feel it is necessary that the regulations mandate the reporting of this information.

BILL RING, TransParent®

Comment: LAUSD has a transient student population. While proponents of the legislation will generally assume that the population of the feeder schools will be roughly equivalent to the population of the subject schools, there are a number of examples of schools in LAUSD where the feeder school population far exceeds the schools into which they feed because children often leave the LAUSD school system. Is this being considered in the regulations? What is the argument in favor of giving parents with no direct stake (those who are leaving and those who are too far in the future) a vote?

Reject: The Board cannot implement regulations that contradict the enabling statutes. The parent empowerment statutes provide that a combination of at least one-half of the parents and legal guardians of pupils attending the school and one-half of the parents and legal guardians of pupils attending the elementary or middle schools that normally matriculate into the school may sign a petition and attempt to implement an intervention. In addition, the comment does not pertain to a specific regulation or to the proposed changes in the Third 15-Day Notice of Modifications to Text of Proposed Regulations.

Comment: I am also concerned about the multiple votes for multiple children provision. Shouldn’t we have “one man (person), one vote”?
Reject: The parent empowerment statutes allow parents or legal guardians of pupils to sign a petition. The SBE cannot adopt regulations prohibiting parents or legal guardians from signing a petition for each of their pupils as it would violate the Parent Empowerment statutes. In addition, the comment does not pertain to proposed changes in the Third 15-day Notice of Modifications to Text of Proposed Regulations.

Comment: An additional concern: in single parent households or in situations where parents are separated and divorced, which parents gets to sign a petition to make it valid?
Response: The comment does not pertain to a specific regulation or to the proposed changes in the Third 15-Day Notice of Modifications to Text of Proposed Regulations.

LOCAL MANDATE DETERMINATION

The proposed regulations do not impose any mandate on local agencies or school districts.

ALTERNATIVES DETERMINATION

The State Board of Education (SBE) has determined that no alternative would be more effective in carrying out the purpose for which the regulation is proposed or would be as effective and less burdensome to affected private persons than the proposed regulation.

• The third 15-day text proposed to be added is in ***bold shaded underline***, deleted text is displayed in ***bold shaded strikeout***. Comments limited to these third 15-day text changes.

Title 5. EDUCATION

Division 1. California Department of Education

Chapter 5.2.5. Parent Empowerment

Subchapter 1. Parent Empowerment

§ 4800. Intent.

It was the intent of the Legislature and remains the intent of the State Board of Education (SBE) for the Parent Empowerment provisions law shall to remain valid in the event of changes to federal law referenced within the legislative language of Chapters 2 and 3 of the 5th Extraordinary Session Statutes of 2010, Senate Bill X5-4 to the extent allowable under the law.

§ 4800.1. Definitions.

(a) “Elementary school” means a school, regardless of the number of grade levels, whose graduates matriculate into either a subject elementary, middle or
(b) “Eligible signature” means a signature of a parent or legal guardian of a pupil that can be counted toward meeting the requirement that at least one-half of the parents or legal guardians of pupils have signed the petition as set forth in Education Code section 53300.

(c) “Final disposition” means the action taken by the local educational agency (LEA) to implement the requested intervention option presented by a petition or implement one of the other intervention options as set forth in Education Code section 53300.

(d) “High school” means four-year high schools, junior high schools, senior high schools, continuation high schools, and evening schools.

(e) “Intervention” or “requested intervention” means:

(1) one of the four interventions (turnaround model, restart model, school closure, and transformation model) identified pursuant to paragraphs (1) to (4), inclusive, of subdivision (a) of Education Code section 53202 and as further described in Appendix C of the Notice of Final Priorities, Requirements, Definitions, Section Criteria for the Race to the Top program published in Volume 74 of Number 221 of the Federal Register on November 18, 2009; or

(2) the alternative governance arrangement pursuant to Title 20 U.S.C. Section 6316(b)(8)(B)(v).

(f) “Middle school” means a school, regardless of the number of grade levels, whose graduates matriculate into a subject high school. Middle school also means a junior high school whose graduates matriculate into a subject senior high school.

(g) “Normally matriculate” means the typical pattern of attendance progression from an elementary school to a subject elementary school, from an elementary school to a subject middle or high school or from a middle school to a subject high school, as determined by the LEA(s) pursuant to established attendance boundaries, published policies or practices in place on the date the petition is submitted.
(h)(e) “Parents or legal guardians of pupils” means the natural or adoptive parents, legal guardians, or other persons holding the right to make educational decisions for the pupil pursuant to Welfare and Institutions Code section 361 or 727 or Education Code sections 56028 or 56055, including foster parents who hold rights to make educational decisions, on the date the petition is submitted.

(i)(f) “Petition” means a petition requesting an local educational agency (LEA) to implement one of the interventions defined in subdivision (e)(d).

(j)(g) “Pupils attending the subject school or elementary or middle schools that normally matriculate into a subject middle or high school” means a pupils attending enrolled in the school on the date the petition is submitted to the LEA.

(k)(h) “Subject school” means a school not identified by the Superintendent of Public Instruction following the release of the annual adequate yearly progress report, as a persistently lowest-achieving school that: under Education Code section 53201 which, after one full school year, is subject to corrective action pursuant to 20 U.S.C. Section 6316(b)(7) and continues to fail to make adequate yearly progress, and has an Academic Performance Index (API) score of less than 800.

(1) Is not one of the persistently lowest-achieving schools identified by the SBE on March 11, 2010;

(2) Has been in corrective action pursuant to paragraph (7) of Section 1116(b) of the federal Elementary and Secondary Education Act for at least one full academic year;

(3) Has failed to make adequate yearly progress (AYP); and

(4) Has an Academic Performance Index (API) score of less than 800.

[OPTIONAL NEW SUBSECTION(k)(5): A school that exits Program Improvement shall not be subject to continued identification on the Parent Empowerment list.]

(l) “Cannot implement the specific recommended option” means that an LEA is unable to implement the intervention requested in the petition and has a compelling interest to support provided in writing, during a regularly
scheduled public meeting, the considerations, and reasons for reaching such a finding.

(m) "Matriculating School" means all elementary or middle schools that normally matriculate into a subject elementary, middle, or high school.

§ 4800.3. Requirement to Serve All Pupils.

Every pupil that attended a subject school prior to the implementation of an intervention shall continue to be enrolled in the school during and after an intervention is implemented pursuant to Education Code section 53300, unless the parent or legal guardian of the pupil chooses to enroll the pupil in another school or the school is closed. In addition, any pupil who resides in the attendance area of the subject school during or after the implementation of an intervention has a right to attend the school, subject to any laws or rules pertaining to enrollment.

§ 4800.5. Parental Notice.

(a) The CDE shall create a website for parents and guardians to obtain further information on circulating a parent empowerment petition.

(b) An LEA may create a website that lists the schools in the LEA subject to the provisions of the Parent Empowerment law, including enrollment data and attendance boundaries for each school. The web site may also inform parents and legal guardians of pupils how they may:

(1) Sign a petition requesting the school district to implement one or more interventions to improve the school, and

(2) Contact community-based organizations or work with individual school administrators and parent and community leaders to understand
the school intervention options and provide input about the best options for the school.

(c) Consistent with the requirements of Section 1116(b)(1)(E) of the federal Elementary and Secondary Education Act of 2001 (20 U.S.C. Section 6301 et seq.), on the date the notice of restructuring planning or restructuring status, Program Improvement Year 4 or later, is given pursuant to federal law, the LEA shall provide the parents and guardians of all pupils enrolled in a school in restructuring planning or restructuring status with notice that the school may be eligible for a parent empowerment petition to request a specific intervention pursuant to Education Code section 53300 and shall list the CDE website address created pursuant to section 4800.5(a). [OPTION 1: The notice shall include the requirement that the LEA must hold at least two public hearings to notify staff, parents and the community of the school’s designation and to seek input from staff, parents and the community regarding the option or options most suitable for the school. At least one of those public hearings shall be held at a regularly scheduled meeting, if applicable, and at least one of the public hearings shall be held on the site of a school deemed persistently lowest achieving.] This notice shall provide the web site address for the California Department of Education to obtain further information on circulating a parent empowerment petition. [OPTION 2: Any information provided on CDE’s website shall also be available in multiple languages.] This notice may also identify a web site at which the LEA may list the schools in the district subject to the provisions of the Parent Empowerment statutes, including enrollment data and attendance boundaries for each school. The web site may also and informing parents and legal guardians of pupils how they may sign a petition requesting the school district to implement one or more interventions to improve the school and how they may contact community-based organizations or work with individual school administrators and parent and community leaders to understand the school intervention options and provide input about the
best option for the school. This notice, and any other written
communication from the school or the LEA to parents or legal guardians of
pupils, must meet the language requirements of Education Code section
48985.
NOTE: Authority cited: Section 33031, Education Code. Reference:
Sections 48985 and 53300, Education Code; and 20 U.S.C. Section 6301.

§ 4801. Petition Signatures.
(a) A petition may only contain signatures of parents or legal guardians of
pupils attending the subject school or a combination of signatures of parents or
legal guardians of pupil(s) attending the subject school and all the elementary or
middle schools that normally matriculate into a subject middle or high school. A
petition may not consist solely of signatures of parents or legal guardians of
pupils attending only the elementary or middle schools that normally matriculate
into a subject middle or high school.
(b) A petition may be signed by a parent or legal guardian once for
each of his or her pupils attending the subject school or, if the petition
contains a combination of signatures of parents or legal guardians of
pupils attending the subject school and the elementary or middle schools
that normally matriculate into a subject middle or high school, it may be
signed by a parent or legal guardian once for each of his or her pupils
attending the subject school or the elementary or middle schools that
normally matriculate into the subject middle or high school. A petition must
shall contain signatures of parents and or legal guardians of pupils
attending the subject school, or and may contain a combination of
signatures of parents and or legal guardians of pupils attending only the
elementary or middle schools that normally matriculate into a subject middle
or-high-school subject school and signatures of parents or legal guardians of
pupils attending the matriculating schools. A petition may not consist solely of
signatures of parents or legal guardians of pupils attending the matriculating
schools.
(b)(c) Only one parent or legal guardian per pupil may sign a petition.

(c)(d) The petition must have boxes with room that are consecutively numbered commencing with number 1, with sufficient space for the signature of each petition signer as well as his or her printed name, address, city or unincorporated community name and zip code, date, pupil’s name, the pupil’s date of birth, the name of the school the pupil is currently attending, and the pupil’s current grade.

(1) The petition shall state that the disclosure of the address, city or unincorporated community name and zip code is voluntary, and cannot be made a condition of signing the petition.

(d)(e) The petition boxes referenced in subdivision (d) must be consecutively numbered commencing with the number 1 for each petition section. The boxes described in subdivision (c)(d) may also have space for the signer’s address, city or unincorporated community name, and zip code, or request other information, and if so, the petition shall make clear that providing such information is voluntary, and cannot be made a condition of signing the petition.

(e)(f) Because a petition may be signed by a parent or a legal guardian once for each of his or her pupils attending the subject school or, if the petition contains a combination of signatures of parents or legal guardians of pupils attending the subject school and the elementary or middle schools that normally matriculate into a subject middle or high school, once for each of his or her pupils attending the subject school and the elementary or middle schools that normally matriculate into the subject middle or high school, separate petition boxes must be completed by the parent or legal guardian for each of his or her pupils.

(f)(g) A petition may be circulated and presented in sections, so long as each section complies with the requirements of set forth in this section and section 4802 regarding the content of the petition.

(g)(h) Signature gatherers may not offer gifts, rewards, or tangible incentives to parents or legal guardians to sign a petition, except that signature gatherers may discuss educational related improvements hoped
to be realized by implementing the requested intervention option. Signature gatherers, students, school site staff, LEA staff, [OPTION 1: community members] and parents and legal guardians shall be free from harassment, threats, and intimidation related to circulation or signature of a petition. [OPTION 2: Signature gatherers shall disclose if they are being paid, and shall not be paid per signature.]

[OPTIONAL SUBSECTION(g) (in place of g above): Signature gatherers may not offer gifts, rewards, or tangible incentives to parents or legal guardians to sign a petition. Nor shall signature gatherers make any threats of coercive action, false statements or false promises of benefits to parents or legal guardians in order to persuade them to sign a petition, except that signature gatherers, school site staff or other members of the public may discuss education related improvements hoped to be realized by implementing any intervention described in these regulations. Signature gatherers, students, school site staff, LEA staff, members of the community and parents and legal guardians of eligible pupils shall be free from harassment, threats, and intimidation related to circulation or signature of a petition, or to the discouraging of signing a petition or to the revocation of signatures from the petition.] Signature gatherers shall disclose if they are being paid, and shall not be paid per signature.

[OPTIONAL NEW SUBSECTION(h): All parties involved in the signature gathering process shall adhere to all school site hours of operation, school and LEA safety policies, and visitor sign in and procedures.]

[OPTIONAL NEW SUBSECTION(i): School or district resources shall not be used to influence-impede the signature gathering process pursuant to this section.]

[OPTIONAL NEW SUBSECTION(j): This petition must meet the legal requirements of Education Code §48985.]

§ 4802. Content of the Petition.
The petition or and each section of the petition shall contain the following elements:

(a) A heading which states that it is a Petition of Parents, Legal Guardians, and Persons Holding the Right to Make Educational Decisions for Pupils, Including Foster Parents who hold rights to make educational decisions to request implement an Intervention be implemented at the specified subject school and to be submitted to a specified LEA;

(b) A statement that the petition seeks the signatures of the parents or legal guardians of the pupils attending the subject school or, in the alternative, the signatures of the parents or legal guardians of the pupils attending the subject school and the signatures of the parents or legal guardians of the pupils attending elementary or middle schools who would normally matriculate into the subject school;

(c) The name and public contact information of the person to be contacted by either persons interested in the petition or by the LEA;

(d) Identification of the requested intervention;

(e) A description of the requested intervention using the language set forth in either sections 4803, 4804, 4805, 4806, or 4807, without omission to ensure full disclosure of the impact of the intervention;

(f) The name of the subject school;

(g) Boxes as designated in section 4801(d) and (e);

(h) An affirmation that the signing parent or legal guardian is requesting the LEA to implement the identified intervention at the subject school; and

(i) A request to an LEA to implement the restart model intervention identified pursuant to paragraph (2) of subdivision (a) of Education Code section 53202 may [OPTION 1: shall] also request that the subject school be reopened under a specific charter school operator, charter management organization or education management organization and, if so, that information must be clearly stated on the front page of the petition [OPTION 2: including contact information of the charter school operator, charter management organization or education management organization.] [OPTION 3: The petition shall also
disclose that parents have the option of signing a petition that does not
designate a specific charter school operator, charter management
organization or education management organization] that has been
selected by a rigorous review process.

(j) The names of any agencies or organizations that the person identified
in subdivision (c) is affiliated with that are supporting the petition, either
through direct financial assistance or in-kind contributions of staff and
volunteer support, must be prominently displayed on the front page of the
petition.

[OPTIONAL NEW SUBSECTION(k): A petition requesting to implement
the restart model intervention as a charter school model pursuant to
paragraph (2) of subdivision (a) of Education Code section 53202 and
4802.2, shall state that parent advisory committees or alternative programs
if provided for in the LEA, will not be available in the restart model-charter
school nor is the charter school required to comply with the parent waiver
requirements of Education Code sections 310 and 311.

[OPTIONAL NEW SUBSECTION(l): (k) The CDE shall develop a sample
petition that can be used by interested petitioners. The sample petition shall be
available on the CDE website and available for distribution by LEAs to for
interested petitioners to use. The CDE shall make the sample petition shall be
available in other languages pursuant to Education Code §48985.
Petitioners shall not be required to use the sample petition however alternate
petitions must contain all required components pursuant to statutory and
regulatory requirements.

NOTE: Authority cited: Section 33031, Education Code. Reference: Sections
48985, 53202 and 53300, Education Code.

[OPTIONAL NEW SECTION §4802.05: Submission of Petition.

(a) Petitioners may not submit a petition until they reach or exceed the 50
percent threshold based on accurate and current enrollment data provided by the
LEA. The date of submission of the petition shall be the start date for
implementation of all statutory and regulatory requirements.

(b) An exception shall be made for a one-time resubmission opportunity to correct a petition based on errors identified by the LEA, verify signatures after a good faith effort is made by the LEA to do so first, or submit additional signatures. The start date for a resubmitted petition shall be the date it is resubmitted. No rolling petitions shall be accepted by the LEA.

(c) At the time of submission the petitioner shall submit a separate document that identifies at least one but no more than five lead petitioners with their contact information.

(d) The role of lead petitioners is to assist and facilitate communication between the parents who have signed the petition and the LEA. The lead petitioner contacts shall not be authorized to make decisions for the petitioners or negotiate on behalf of the parents.

§ 4802.1. Verification of Petition Signatures and Obligations of the LEA.

(a) An LEA must provide, in writing, to any persons who request it, information as to how the LEA intends to implement section 4800.1(g) as to any subject school and any normally matriculating elementary or middle schools, including providing enrollment data and the number of signatures that would be required pursuant to section 4802.1(e).

(b)(a) Upon receipt of the petition, the LEA may make reasonable efforts to verify that the signatures on the petition can be counted consistent with these regulations match the information contained on the petition against existing enrollment records for accuracy. If a discrepancy is found, the LEA may contact the parents and legal guardians of pupils for verification purposes. In order to verify the enrollment of a pupil in a school that normally matriculates into the subject school, but is not within the jurisdiction of the LEA, an LEA may contact the school or the LEA of the school. An LEA shall not invalidate the signature of a parent or legal
guardian of a pupil on a technicality where it is clearly the intent of the
parent or legal guardian to support the petition and the parent or legal
guardian is entitled to sign the petition.

(c)(b) If, on the date the petition is submitted, a school is identified
pursuant to section 4800.1(k), it shall remain a subject school until final
disposition of the petition by the LEA even if it thereafter ceases to meet
the definition of a subject school.

(d)(c) If a petition has sought only signatures of parents of pupils
attending the subject school, then for purposes of calculating whether at
least one-half of the parents or legal guardians of all students pupils
attending the subject school on the date the petition has been submitted
have signed the petition, only those signatures of parents or legal
guardians of pupils attending enrolled in the subject school on the date the
petition is submitted to the LEA shall be counted.

(e)(d) If a petition has sought signatures of parents or legal guardians of
pupils attending the subject school and the matriculating schools
elementary or middle schools that normally matriculate into the subject
school, then for purposes of calculating whether at least one-half of the
parents or legal guardians of pupils attending enrolled in the subject
school and the matriculating schools elementary or middle schools that
normally matriculate into the subject school on the date the petition has
been submitted have signed the petition, only those signatures of parents
or legal guardians of pupils attending enrolled in the subject school and
the parents or legal guardians of pupils attending enrolled in the
elementary or middle schools who would normally matriculate into the
subject school matriculating schools at the time the petition is submitted to
the LEA shall be counted. Where pupils attend elementary or middle
schools that normally matriculate into more than one subject school, only
those pupils attending the subject school and those pupils that normally
matriculate, as defined in section 4800.1(g), into the subject school, shall
be counted in calculating whether at least one-half of the parents or legal
guardians of pupils have signed the petition. There is no specified ratio
required of signatures gathered at each school, rather the total ratio of
signatures gathered must meet the one-half requirement.

(f)(e) In connection with the petition, the LEA may only contact parents
or legal guardians to verify eligible signatures on the petition.

(g)(f) Upon receipt, the LEA may, within 20-25 business days, return the
petition to the person designated as the contact person as specified in
section 4802(c), if the LEA determines any of the following:

1. One half of the parents or legal guardians of pupils meeting the
requirements of section 4801(a) have not signed the petition;

2. The school named in the petition is not a subject school; or

3. The petition does not substantially meet the requirements specified
in section 4802. In such a case, the LEA shall immediately provide the
contact person written notice of its reasons for returning the petition, and
its supporting findings.

[OPTIONAL NEW SUBSECTION(g)(4): That the petition has not been
translated into the number of languages as required by Education Code
§48985.]

(h)(g) If the petition is returned pursuant to section 4802.1(g)(1), the
same petition may be resubmitted to the LEA with additional signatures as
long as no substantive changes are made to the petition. If substantive any
changes are made to the petition, it must be recirculated for signatures
before it may be resubmitted to the LEA.

(i)(g) If the LEA does not return the petition pursuant to subdivision
(g)(f), the LEA shall have 45 business days from the date the petition is
received to reach a final disposition. The date may be extended by an
additional 20 business days if the LEA and the person listed in section
4802(c) agree to the extension in writing.

(j)(h) The LEA shall notify the SSPI and the SBE in writing within ten
business days of its receipt of a petition and within two business days of
the final disposition of the petition. The notice of final disposition shall
state that the LEA will implement the recommended option or include the
written finding stating the reason it cannot implement the specific
recommended option, including the compelling interest that supports such
a finding, designating which of the other options it will implement and
stating that the alternative option selected has substantial promise of
enabling the school to make adequate yearly progress.

(k)(i) If the number of schools identified in a petition and subject to an
intervention by a final disposition will exceed the maximum of 75 schools
pursuant to Education Code section 53302, and the SSPI and the SBE
receive on the same day two or more notifications of final dispositions that
agree to implement an intervention on the same day, the petition will be
chosen by random selection.

[OPTIONAL SECTION §4802.1 (in place of 4802.1 above):
§ 4802.1. Verification of Petition Signatures and Obligations of the LEA.
  (a) An LEA must provide, in writing, to any persons who request it,
information as to how the LEA intends to implement section 4800.1(g) as to any
subject school and any normally matriculating elementary or middle schools,
including providing enrollment data and the number of signatures that would be
required pursuant to section 4802.1(e).
  (b)(e) Upon receipt of the petition, the LEA may make reasonable efforts to
verify that the signatures on the petition can be counted consistent with these
regulations. The LEA and matriculating LEAs shall use common verification
documents that contain parent or guardian signatures to verify petition signatures
such as emergency verification cards signed by all parents or guardians. In order
to verify the enrollment of a pupil in a school that normally matriculates into the
subject school, but is not within the jurisdiction of the LEA, an LEA may contact
the school or the LEA of the school. The matriculating LEA or school shall be
required to provide information necessary to the subject school and LEA in order
to assist in verifying signatures. An LEA shall not invalidate the signature of a
parent or legal guardian of an eligible pupil on a minor technicality assuming
the parent or legal guardian is entitled to sign it where it is clearly the intent of the parent or legal guardian to support the petition and the parent or legal guardian is entitled to sign the petition. The LEA and the matriculating LEA or school shall make a good faith effort to contact parents or guardians when a signature is not clearly identifiable including phone calls to the parent or guardian.

(c)(b) If, on the date the petition is submitted, a school is identified pursuant to section 4800.1(k), it shall remain a subject school until final disposition of the petition by the LEA even if it thereafter ceases to meet the definition of a subject school unless that school has exited federal Program Improvement and is at or over 800 on the Academic Performance Index.

(d)(c) If a petition has sought only signatures of parents of pupils attending the subject school, then for purposes of calculating whether parents or legal guardians of at least one-half of pupils at least one-half of the parents or legal guardians of all students pupils attending the subject school on the date the petition has been submitted have signed the petition, only those signatures of parents or legal guardians of pupils attending the subject school on the date the petition is submitted to the LEA shall be counted.

(e)(d) If a petition has sought signatures of parents or legal guardians of pupils attending the subject school and the elementary or middle schools that normally matriculate into the subject school, then for purposes of calculating whether at least one-half of the parents or legal guardians of at least one-half of pupils attending the subject school and the elementary or middle schools that normally matriculate into the subject school on the date the petition has been submitted have signed the petition, only those signatures of parents or legal guardians of pupils attending the subject school and parents or legal guardians of pupils attending the elementary or middle schools who would normally matriculate into the subject school at the time the petition is submitted to the LEA shall be counted. Where pupils attend elementary or middle schools that normally matriculate into more than one subject school, only those pupils attending the subject school and those pupils that normally matriculate, as
defined in section 4800.1(g), into the subject school, shall be counted in
calculating whether at least one-half of the parents or legal guardians of at
least one-half of pupils attending the subject school and the elementary or
middle schools that normally matriculate into the subject school on the
date the petition has been submitted have signed the petition. There is no
specified ratio required of signatures gathered at each school, rather the total
ratio of signatures gathered must meet the one-half requirement.

(f)(e) In connection with the petition, the LEA may only contact parents or
legal guardians to verify eligible signatures on the petition. The identified lead
petitioners for the petition shall be consulted to assist in contacting parents or
legal guardians when the LEA fails to reach a parent or legal guardian.

(g)(f) Upon receipt, the LEA may, within 20-25 business 40 calendar days,
return the petition to the person designated as the contact person or persons as
specified in section 4802(c), if the LEA determines any of the following:

(1) One half of the parents or legal guardians of pupils meeting the
requirements of section 4801(a) have not signed the petition;

(2) The school named in the petition is not a subject school; or

(3) The petition does not substantially meet the requirements specified in
section 4802. In such a case, the LEA shall immediately provide the contact
person written notice of its reasons for returning the petition and its supporting
findings.

(h) If the LEA finds that sufficient signatures cannot be verified by the LEA
they shall immediately notify the lead petitioner contacts and provide the lead
petitioner the names of those parents and legal guardians they cannot verify. The
lead petitioner contacts shall be provided 60 calendar days to assist the LEA to
verify the signatures. A number of methods may be used including but not limited
to an official notarization process or having the parent or guardian appear at the
school or district office.

(i) If the LEA finds a discrepancy or problem with a submitted petition they
shall notify the lead petition contacts in writing and request assistance and
clarification prior to the final disposition of the petition. The LEA shall identify
which signatures need verification, any errors found in the petition or need for further clarification regarding the petition.

(j)(h)(g) If the petition is returned pursuant to section 4802.1(g)(1), the same petition may be resubmitted to the LEA with additional verified signatures as long as no substantive changes are made to the petition. The petitioners shall be provided one resubmission opportunity which must be completed within a window of 60 calendar days after the return of the petition pursuant to 4802.1. This is the same window for verification of signatures and any corrections or additional signatures submitted. The LEA shall have 25 calendar days to verify the resubmitted signatures, additional signatures or corrections to the petition. The resubmitted petition may not contain substantive changes or amendments. If substantive changes are made to the petition, it must be recirculated for signatures before it may be resubmitted submitted to the LEA and it shall be deemed a new petition.

(k)(i)(g) If the LEA does not return the petition pursuant to subdivision (g)(f), the LEA shall have 45 business calendar days from the date the petition is received to reach a final disposition. The date may be extended by an additional 250 calendar business days if the LEA and the person listed in section 4802(c) agree to the extension in writing.

(l)(j)(h) The LEA shall notify the SSPI and the SBE in writing within ten business fifteen calendar days of its receipt of a petition and within two business five calendar days of the final disposition of the petition. The notice of final disposition shall state that the LEA will implement the recommended option or include the written finding stating the reason it cannot implement the specific recommended option, including the compelling interest that supports such a finding, designating which of the other options it will implement and stating that the alternative option selected has substantial promise of enabling the school to make adequate yearly progress.

(m)(k)(i) If the number of schools identified in a petition and subject to an intervention by a final disposition will exceed the maximum of 75 schools pursuant to Education Code section 53302, and the SSPI and the SBE receive
two or more notifications of final dispositions that agree to implement an
intervention on the same day, the petition will be chosen by random selection.

Sections 53202, 53300, 53301 and 53302, Education Code.

§ 4802.2. Charter Requirements for Parent Empowerment Petitions.

(a) A petition that requests that the LEA adopt the restart model as an
intervention at a subject school, and more specifically requests that the
subject school be reopened as a charter school under a specific charter
school operator, charter management organization or education
management organization, shall attach to the petition the be circulated for
signature with a proposed charter for the school that meets all of the
requirements of Education Code section 47605(b) that contains
comprehensive descriptions pursuant to Education Code section
47605(b)(5)(A) through (P). Parents or legal guardians of pupils will only
need to sign the parent empowerment petition to indicate their support for
and willingness to enroll their children in the requested charter school. A
separate petition for the establishment of a charter school will not need to
be signed.

(b) The signatures to establish a charter school pursuant to Education
Code sections 47605(a)(1) through (3) and 47605(b)(3) will not be required if
Upon the receipt by an LEA of a petition that requests a restart model as
the intervention, whether or not the petition that also requests that the
subject school be reopened as a charter school under a specific charter
school operator, charter management organization or education
management organization, otherwise meets all of the requirements of the
LEA must follow the provisions of section 4802.1 and first determine
whether it will implement the requested intervention option presented in
the petition or implement one of the other intervention options in Education
Code section 53300.
(c) The governing board of the school district shall hold the public hearing to approve or deny the charter pursuant to Education Code section 47605(b) concurrently with the public hearing required pursuant to Education Code section 53300. Upon the receipt of a petition that requests If an LEA adopts a restart model as an intervention, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention option presented in the petition or implement one of the other intervention options in Education Code section 53300. If a and the petition has requesteds that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to Section 4802.1(g), then the LEA must shall then conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and timelines set forth in Education Code section 47605, subdivisions (b) through (h), (j)(1) and (l) with the exception that the timelines set forth in Education Code section 47605(b) only began after an LEA formally adopts the restart model as an intervention option. The signatures required to establish a charter school pursuant to section 47605(a)(1) [OPTIONAL: 47605(a)(1) through (3) and 47605(b)(3)] shall not be required, do not begin until 25 business days after the petition was received. If a petition does not request that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to section 4802.1(g), then the LEA must immediately solicit charter proposals from charter school operators, charter management organizations and education management organizations and, prior to selecting a charter school operator, charter management organization or education management organization, must conduct the rigorous review process required by Education Code section 53300 and section 4804, which includes compliance with the requirements and
timelines set forth in Education Code section 47605, subdivisions (b) through (h), and (l) with the exception that the timelines set forth in Education Code section 47605(b) do not begin until a charter proposal is received. If, after the rigorous review specified in this subdivision, the LEA finds that the charter included with the parent empowerment petition substantially fails to meet the requirements of Education Code section 47605 and the petitioners cannot cure this failure through a revision of the charter, or the petition does not request a specific charter school operator, charter management organization or education management organization and the LEA is unable to identify a charter school operator, charter management organization or education management organization which meets the requirements of Education Code section 47605, the LEA shall find that it is unable to implement the option requested by parents and shall implement one of the other options specified in Education Code section 53300 in the subsequent school year.

(d) The LEA shall only act to approve or deny a specific charter proposal if and only if the LEA has adopted the restart model as its final disposition.

(d) If the LEA has adopted the restart model as its final disposition, and a petition does not request that the subject school be operated under a specific charter school operator, charter management organization or education management organization, then the LEA shall, within 15 business days of the adoption of the restart model as an intervention option, solicit charter proposals from charter school operators, charter management organizations and education management organizations.

[OPTIONAL SUBSECTION(d) (in place of (d) above): If the LEA has adopted the restart model as its final disposition, and a petition does not request that the subject school be operated under a specific charter school operator, charter management organization or education management organization, then the LEA shall promptly notify the petitioners that it has adopted the restart model and give the petitioners the option to solicit]
charter proposals from charter school operators, charter
management organizations and education management organizations and
select a specific charter school operator. If the petitioners opt to solicit
charter proposals and select a specific charter school operator, they must
submit the proposed charter school operator to the LEA. If the
petitioners inform the LEA that they have declined the option to solicit
charter proposals and select a charter school operator, the LEA shall,
within 15 business days, solicit charter proposals from charter school
operators, charter management organizations and education management
organizations.]

(e) Prior to selecting a particular charter school operator, charter
management organization or education management organization, the LEA
shall conduct the rigorous review process required by Education Code
section 53300 and section 4804, which includes compliance with the
requirements and timelines set forth in Education Code section 47605,
subdivisions (b) through (h), (j)(1) and (l), with the exception that the
timelines set forth in section 47605(b) only begin once the LEA has
received a charter proposal.

[OPTIONAL SUBSECTION(e) (in place of (e) above): Where the
petitioners opt to submit a charter proposal for a specific operator to the
LEA pursuant to section 4802.2, optional subsection (d), upon submission
of the charter proposal, the LEA shall then conduct the rigorous
review process regarding the specific charter required by Education code
section 53300 and section 4808, which includes compliance with the
requirements and timelines set forth in Education Code section 47605,
subdivisions (b) through (h), (j)(1) and (l), with the exception that the
timelines set forth in section 47605(b) only begin once the LEA has
received a charter proposal. Where the LEA has solicited charter
proposals because the petitioners have declined to do so, prior to selecting
a particular charter school operator, charter management organization or
education management organization, the LEA shall conduct the rigorous
review process regarding the specific charter required by Education code section 53300 and section 4808, which includes compliance with the requirements and timelines set forth in Education Code section 47605 subdivisions (b) through (h), (j)(1) and (l), with the exception that the timelines set forth in section 47605(b) only begin once the LEA has received a charter proposal.

(f)(d) A charter school established by a parent empowerment petition, once approved, shall be subject to all of the provisions of law that apply to other conversion charter schools comply with the admission requirements for an existing public school converting partially or entirely to a charter school specified in Education Code section 47605(d)(1) and shall admit all pupils who reside within the former attendance area of the subject public school.

[OPTIONAL NEW SUBSECTION(g) The charter school established by a parent empowerment petition, must inform parents of the LEA choosing the charter school model, that parent advisory committees or alternative programs if provided for in the LEA, will not be available in the restart model-charter school nor is the charter school required to comply with the parent waiver requirements of Education Code section 310 and 311.]

[OPTIONAL SECTION §4802.2 (in place of 4802.2 above):
§ 4802.2. Restart Requirements for Parent Empowerment Petitions.
(a) Except where specifically designated in this section, a charter school proposal submitted through a parent empowerment petition, shall be subject to all the provisions of law that apply to other charter schools.
(b) Parents or legal guardians of pupils will only need to sign the parent empowerment petition to indicate their support for and willingness to enroll their children in the requested charter school. A separate petition for the establishment of a charter school will not need to be signed. The signatures to establish a charter school pursuant to Education Code sections 47605(a)(1) through (3) and 47605(b)(3) will not be required if the petition that requests that the subject
school be reopened under a specific charter operator, charter management organization or education management organization otherwise meets all the requirements of Education Code section 53300.

(c) A petition that requests that the subject school be reopened under a specific charter school operator, charter management organization or education management organization may be circulated for signature with the proposed charter for the school. Upon receipt of the petition that requests a restart model as intervention and that includes a charter petition, the LEA must follow the provisions of section 4802.1 and determine whether it will implement the requested intervention options in Education Code section 53300. If a petition requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to Section 4802.1(g) then the rigorous review process required by Education Code section 53300 and section 4804 shall be the review process and timelines set forth in Education Code section 47605(b), excepting 47605(b)(3).

(d) If a parent empowerment petition does not include the proposed charter but requests that the subject school be operated under a specific charter school operator, charter management organization or education management organization, and the LEA does not reject the petition pursuant to section 4802.1(g), then the LEA must either:

(1) immediately solicit charter proposals from charter school operators, charter management organizations and education management organizations and, shall promptly notify the petitioners that it has adopted the restart model and give the petitioners the option to solicit charter proposals from charter school operators, charter management organizations and education management organizations and select a specific charter school operator or decline to do so.

(1) If the petitioners opt to solicit charter proposals and select a specific charter school operator, they must submit the proposed charter school operator to the LEA within 90 calendar days. Upon submittal of the charter
proposal, the LEA shall conduct the rigorous review process required by Education Code section 53300 and section 4804, which shall be the review process and timelines set forth in Education Code section 47605(b) excepting 47605(b)(3).

(2) If the petitioners inform the LEA that they have declined the option to solicit charter proposals and select a charter school operator, the LEA shall, within 20 calendar days, solicit charter proposals from charter school operators, charter management organizations and education management organizations. Thereafter, the LEA shall select a charter school operator, charter management organization or education management organization through the rigorous review process required by Education Code section 53300 and section 4804. The rigorous review process shall be the review process and timelines set forth in Education Code section 47605(b), excepting 47605(b)(3), and shall begin at the end of a solicitation period not to exceed 90 calendar days; or,

(2) Direct the parent petitioner(s) to submit a charter proposal that meets the requirements of EC section 47605(b), excepting 47605(b)(3), within 90 calendar days. Upon submittal of the charter proposal, the LEA shall conduct the rigorous review process required by Education Code section 53300 and section 4804, which shall be the review process and timelines set forth in Education Code section 47605(b) excepting 47605(b)(3).

(e) If the parents petition for a restart option to operate the school under an educational management organization that is not a charter school, the LEA shall work in good faith to implement a contract with a provider selected by the parents. In the absence of parent selection of a specific provider, the LEA shall immediately solicit proposals from educational management organizations, and shall select an education management organization, through the rigorous review process required by Education Code section 53300 and section 4804 unless the LEA is unable to implement the option requested by the parents and shall implement one of the other options specified in Education Code section 53300.

§ 4803. Description of Intervention – Turnaround Model.

(a) A turnaround model is one in which an local educational agency (LEA) must:

(1) Replace the principal and grant the principal sufficient operational flexibility (including in staffing, calendars/time, and budgeting) to implement fully a comprehensive approach in order to substantially improve student achievement outcomes and increase high school graduation rates;

(2) Using locally adopted competencies to measure the effectiveness of staff who can work within the turnaround environment to meet the needs of students;

(A) Screen all existing staff and rehire no more than 50 percent; and

(B) Select new staff;

(3) Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school;

(4) Provide staff with ongoing, high-quality, job-embedded professional development that is aligned with the school’s comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies;

(5) Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new “turnaround office” in the LEA, hire a “turnaround leader” who reports directly to the Superintendent or Chief Academic Officer, or enter into a multi-year contract with the LEA or State Educational Agency (SEA) to obtain added flexibility in exchange for greater accountability;

(6) Use data to identify and implement an instructional program that is research-based and “vertically aligned” from one grade to the next as well as aligned with State academic standards;
(7) Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;

(8) Establish schedules and implement strategies that provide increased learning time (as defined in the United States Department of Education notice published in the Federal Register at 74 Federal Register 59805 (Nov. 18, 2009); and

(9) Provide appropriate social-emotional and community-oriented services and supports for students.

(b) A turnaround model may also implement other strategies such as:

(1) Any of the required and permissible activities under the transformation model; or

(2) A new school model (e.g., themed, dual language academy).

§ 4804. Description of Intervention – Restart Model.

A restart model is one in which an local educational agency (LEA) converts a school or closes and reopens a school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) that has been selected through a rigorous review process. (A CMO is a non-profit organization that operates or manages charter schools by centralizing or sharing certain functions and resources among schools. An EMO is a for-profit or non-profit organization that provides “whole-school operation” services to an LEA.) A restart model must enroll, within the grades it serves, any former student who wishes to attend the school.

§ 4805. Description of Intervention – School Closure.

School closure occurs when an local educational agency (LEA) closes a
school and enrolls the students who attended that school in other schools in the
LEA that are higher achieving. These other schools should be within reasonable
proximity to the closed school and may include, but are not limited to, charter
schools or new schools for which achievement data is not yet available.
NOTE: Authority cited: Section 33031, Education Code. Reference: Sections
53202 and 53300, Education Code; and 20 U.S.C. Section 6301.

§ 4806. Description of Intervention – Transformation Model.
A transformation model is one in which an local educational agency (LEA)
implements each of the following strategies:
(a) Developing and increasing teacher and school leader effectiveness.
   (1) Required activities. The LEA must:
      (A) Replace the principal who led the school prior to commencement of the
transformation model;
      (B) Use rigorous, transparent, and equitable evaluation systems for teachers
and principals that:
         1. Take into account data on student growth (as defined in the United States
Department of Education notice published in the Federal Register at 74 Federal
Register 59806 (Nov. 18, 2009)) as a significant factor as well as other factors
such as multiple observation-based assessments of performance and ongoing
collections of professional practice reflective of student achievement and
increased high-school graduations rates; and
         2. Are designed and developed with teacher and principal involvement.
      (C) Identify and reward school leaders, teachers, and other staff who, in
implementing this model, have increased student achievement and high school
graduation rates and identify and remove those who, after ample opportunities
have been provided for them to improve their professional practice, have not
done so;
      (D) Provide staff with ongoing, high-quality, job-embedded professional
development (e.g., regarding subject-specific pedagogy, instruction that reflects a
deeper understanding of the community served by the school, or differentiated
instruction) that is aligned with the school's comprehensive instructional program
and designed with school staff to ensure they are equipped to facilitate effective
teaching and learning and have the capacity to successfully implement school
reform strategies; and

(E) Implement such strategies as financial incentives, increased opportunities
for promotion and career growth, and more flexible work conditions that are
designed to recruit, place, and retain staff with the skills necessary to meet the
needs of the students in a transformation school.

(2) Permissible activities. An LEA may also implement other strategies to
develop teachers' and school leaders' effectiveness, such as:

(A) Providing additional compensation to attract and retain staff with the skills
necessary to meet the needs of the students in a transformation school;

(B) Instituting a system for measuring changes in instructional practices
resulting from professional development; or

(C) Ensuring that the school is not required to accept a teacher without the
mutual consent of the teacher and principal, regardless of the teacher's seniority.

(b) Comprehensive instructional reform strategies.

(1) Required activities. The LEA must:

(A) Use data to identify and implement an instructional program that is
research-based and “vertically aligned” from one grade to the next as well as
aligned with State academic standards; and

(B) Promote the continuous use of student data (such as from formative,
interim, and summative assessments) to inform and differentiate instruction in
order to meet the academic needs of individual students.

(2) Permissible activities. An LEA may also implement comprehensive
instructional reform strategies, such as:

(A) Conducting periodic reviews to ensure that the curriculum is being
implemented with fidelity, is having the intended impact on student achievement,
and is modified if ineffective;

(B) Implementing a school wide “response-to-intervention” model;

(C) Providing additional supports and professional development to teachers
and principals in order to implement effective strategies to support students with
disabilities in the least restrictive environment and to ensure that limited-English-
proficient students acquire language skills to master academic content;

(D) Using and integrating technology-based supports and interventions as
part of the instructional program; and

(E) In secondary schools:

1. Increasing rigor by offering opportunities for students to enroll in advanced
coursework (such as Advanced Placement or International Baccalaureate; or
science, technology, engineering, and mathematics courses, especially those
that incorporate rigorous and relevant project-, inquiry-, or design-based
contextual learning opportunities), early-college high schools, dual enrollment
programs, or thematic learning academies that prepare students for college and
careers, including by providing appropriate supports designed to ensure that low-
achieving students can take advantage of these programs and coursework;

2. Improving student transition from middle to high school through summer
transition programs or freshman academies;

3. Increasing graduation rates through, for example, credit-recovery
programs, re-engagement strategies, smaller learning communities, competency-
based instruction and performance-based assessments, and acceleration of
basic reading and mathematics skills; or

4. Establishing early-warning systems to identify students who may be at risk
of failing to achieve to high standards or graduate.

(c) Increasing learning time and creating community-oriented schools.

(1) Required activities. The LEA must:

(A) Establish schedules and implement strategies that provide increased
learning time (as defined in 74 Federal Register 59805 (Nov. 18, 2009)); and

(B) Provide ongoing mechanisms for family and community engagement.

(2) Permissible activities. An LEA may also implement other strategies that
extend learning time and create community-oriented schools, such as:

(A) Partnering with parents and parent organizations, faith- and community-
based organizations, health clinics, other State or local agencies, and others to
create safe school environments that meet students' social, emotional, and
health needs;

(B) Extending or restructuring the school day so as to add time for such
strategies as advisory periods that build relationships between students, faculty,
and other school staff;

(C) Implementing approaches to improve school climate and discipline, such
as implementing a system of positive behavioral supports or taking steps to
eliminate bullying and student harassment; or

(D) Expanding the school program to offer full-day kindergarten or pre-
kindergarten.

(d) Providing operational flexibility and sustained support.

(1) Required activities. The LEA must:

(A) Give the school sufficient operational flexibility (such as staffing,
calendars/time, and budgeting) to implement fully a comprehensive approach to
substantially improve student achievement outcomes and increase high school
graduation rates; and

(B) Ensure that the school receives ongoing, intensive technical assistance
and related support from the LEA, the State Educational Agency (SEA), or a
designated external lead partner organization (such as a school turnaround
organization or an EMO).

(2) Permissible activities. The LEA may also implement other strategies for
providing operational flexibility and intensive support, such as:

(A) Allowing the school to be run under a new governance arrangement, such
as a turnaround division within the LEA or SEA; or

(B) Implementing a per-pupil school-based budget formula that is weighted
based on student needs.

NOTE: Authority cited: Section 33031, Education Code. Reference: Sections
53202 and 53300, Education Code; and 20 U.S.C. Section 6301.

§ 4807. Description of Intervention – Alternative Governance Arrangement.

Alternative governance is one in which an LEA institutes any other major
restructuring of the school's governance arrangement that makes fundamental reforms, such as significant changes in the school's staffing and governance, to improve student academic achievement in the school and that has substantial promise of enabling the school to make adequate yearly progress as defined in the State plan under Section 6311(b)(2) of the federal Elementary and Secondary Education Act. In the case of a rural LEA with a total of less than 600 students in average daily attendance at the schools that are served by the agency and all of whose schools have a School Locale Code of 7 or 8, as determined by the Secretary, the Secretary shall, at such agency's request, provide technical assistance to such agency for the purpose of implementing this clause.

§ 4808. Prospective Effect of Regulations.

The regulations in Article 1 are to apply prospectively. Any actions taken in reasonable reliance upon emergency regulations in effect at the time are to be deemed in compliance with these regulations [OPTION: to the extent permitted by law].

7-19-11 [California Department of Education]
### ECONOMIC IMPACT STATEMENT

**A. ESTIMATED PRIVATE SECTOR COST IMPACTS** (Include calculations and assumptions in the rulemaking record.)

1. Check the appropriate box(es) below to indicate whether this regulation:
   - a. Impacts businesses and/or employees
   - b. Impacts small businesses
   - c. Impacts jobs or occupations
   - d. Impacts California competitiveness
   - e. Imposes reporting requirements
   - f. Imposes prescriptive instead of performance
   - g. Impacts individuals
   - h. None of the above (Explain below. Complete the Fiscal Impact Statement as appropriate.)

   (If any box in Items 1 a through g is checked, complete this Economic Impact Statement.)

2. Enter the total number of businesses impacted: __________________________ Describe the types of businesses (Include nonprofits):

   Enter the number or percentage of total businesses impacted that are small businesses:

3. Enter the number of businesses that will be created: ______ eliminated: ______

   Explain:

4. Indicate the geographic extent of impacts: □ Statewide □ Local or regional (List areas):

5. Enter the number of jobs created: ______ or eliminated: ______ Describe the types of jobs or occupations impacted:

6. Will the regulation affect the ability of California businesses to compete with other states by making it more costly to produce goods or services here?

   □ Yes □ No If yes, explain briefly:

**B. ESTIMATED COSTS** (Include calculations and assumptions in the rulemaking record.)

1. What are the total statewide dollar costs that businesses and individuals may incur to comply with this regulation over its lifetime? $

   a. Initial costs for a small business: $__________ Annual ongoing costs: $__________ Years: ______

   b. Initial costs for a typical business: $__________ Annual ongoing costs: $__________ Years: ______

   c. Initial costs for an individual: $__________ Annual ongoing costs: $__________ Years: ______

   d. Describe other economic costs that may occur:
2. If multiple industries are impacted, enter the share of total costs for each industry: ____________________________

3. If the regulation imposes reporting requirements, enter the annual costs a typical business may incur to comply with these requirements. (Include the dollar costs to do programming, record keeping, reporting, and other paperwork, whether or not the paperwork must be submitted): $ ____________________________

4. Will this regulation directly impact housing costs? 
   ☐ Yes ☐ No 
   If yes, enter the annual dollar cost per housing unit: _______ and the number of units: _______

5. Are there comparable Federal regulations? 
   ☐ Yes ☐ No
   Explain the need for State regulation given the existence or absence of Federal regulations: _____________________________________________________________

   Enter any additional costs to businesses and/or individuals that may be due to State - Federal differences: $ ____________________________

C. ESTIMATED BENEFITS (Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.)

1. Briefly summarize the benefits that may result from this regulation and who will benefit: _____________________________________________________________

2. Are the benefits the result of: ☐ specific statutory requirements, or ☐ goals developed by the agency based on broad statutory authority?
   Explain: _____________________________________________________________

3. What are the total statewide benefits from this regulation over its lifetime? $ ____________________________

D. ALTERNATIVES TO THE REGULATION (Include calculations and assumptions in the rulemaking record. Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.)

1. List alternatives considered and describe them below. If no alternatives were considered, explain why not: _____________________________________________________________

2. Summarize the total statewide costs and benefits from this regulation and each alternative considered:

<table>
<thead>
<tr>
<th>Regulation</th>
<th>Benefit ($)</th>
<th>Cost ($)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alternative 1</td>
<td>Benefit ($)</td>
<td>Cost ($)</td>
</tr>
<tr>
<td>Alternative 2</td>
<td>Benefit ($)</td>
<td>Cost ($)</td>
</tr>
</tbody>
</table>

3. Briefly discuss any quantification issues that are relevant to a comparison of estimated costs and benefits for this regulation or alternatives: _____________________________________________________________

4. Rulemaking law requires agencies to consider performance standards as an alternative, if a regulation mandates the use of specific technologies or equipment, or prescribes specific actions or procedures. Were performance standards considered to lower compliance costs? ☐ Yes ☐ No
   Explain: _____________________________________________________________

E. MAJOR REGULATIONS (Include calculations and assumptions in the rulemaking record.) Cal/EPA boards, offices, and departments are subject to the following additional requirements per Health and Safety Code section 57005.
ECONOMIC AND FISCAL IMPACT STATEMENT cont. (STD. 399, Rev. 12/2008)

1. Will the estimated costs of this regulation to California business enterprises exceed $10 million?  
   Yes [ ] No [ ] (If No, skip the rest of this section.)

2. Briefly describe each equally as an effective alternative, or combination of alternatives, for which a cost-effectiveness analysis was performed:
   Alternative 1: ____________________________________________________________
   Alternative 2: ____________________________________________________________

3. For the regulation, and each alternative just described, enter the estimated total cost and overall cost-effectiveness ratio:

<table>
<thead>
<tr>
<th>Regulation</th>
<th>Total Cost</th>
<th>Cost-effectiveness ratio:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$</td>
<td></td>
</tr>
<tr>
<td>Alternative 1</td>
<td>$</td>
<td>Cost-effectiveness ratio:</td>
</tr>
<tr>
<td>Alternative 2</td>
<td>$</td>
<td>Cost-effectiveness ratio:</td>
</tr>
</tbody>
</table>

FISCAL IMPACT STATEMENT

A. FISCAL EFFECT ON LOCAL GOVERNMENT (Indicate appropriate boxes 1 through 6 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

   □ 1. Additional expenditures of approximately $ ____________ in the current State Fiscal Year which are reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Sections 17500 et seq. of the Government Code. Funding for this reimbursement:
      a. is provided in __________________ , Budget Act of ____________ or Chapter ____________, Statutes of ________
      b. will be requested in the ___________, Governor's Budget for appropriation in Budget Act of ____________

   □ 2. Additional expenditures of approximately $ ____________ in the current State Fiscal Year which are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Sections 17500 et seq. of the Government Code because this regulation:
      a. implements the Federal mandate contained in ______________________
      b. implements the court mandate set forth by the ______________________ vs.
      c. implements a mandate of the people of this State expressed in their approval of Proposition No. ____________ at the ____________ election;
      d. is issued only in response to a specific request from the ______________________, which is/are the only local entity(s) affected;
      e. will be fully financed from the ____________, authorized by Section ______________________ of the ______________________ Code;
      f. provides for savings to each affected unit of local government which will, at a minimum, offset any additional costs to each such unit;
      g. creates, eliminates, or changes the penalty for a new crime or infraction contained in ______________________

   □ 3. Savings of approximately $ ____________ annually.

   □ 4. No additional costs or savings because this regulation makes only technical, non-substantive or clarifying changes to current law regulations.
ECONOMIC AND FISCAL IMPACT STATEMENT cont. (STD. 399, Rev. 12/2008)

☐ 5. No fiscal impact exists because this regulation does not affect any local entity or program.

☒ 6. Other. Unknown

B. FISCAL EFFECT ON STATE GOVERNMENT (Indicate appropriate boxes 1 through 4 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

☒ 1. Additional expenditures of approximately $ Unknown in the current State Fiscal Year. It is anticipated that State agencies will:
   a. be able to absorb these additional costs within their existing budgets and resources.
   b. request an increase in the currently authorized budget level for the unknown fiscal year.

☐ 2. Savings of approximately $ ______________ in the current State Fiscal Year.

☐ 3. No fiscal impact exists because this regulation does not affect any local entity or program.

☐ 4. Other.

C. FISCAL EFFECT ON FEDERAL FUNDING OF STATE PROGRAMS (Indicate appropriate boxes 1 through 4 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

☐ 1. Additional expenditures of approximately $ ______________ in the current State Fiscal Year.

☐ 2. Savings of approximately $ ______________ in the current State Fiscal Year.

☒ 3. No fiscal impact exists because this regulation does not affect any federally funded State agency or program.

☐ 4. Other.

FISCAL OFFICER SIGNATURE __________________________ DATE 8/17/11

AGENCY SECRETARY 1 APPROVAL/CONCURRENCE __________________________ DATE 8/17/11

DEPARTMENT OF FINANCE 2 APPROVAL/CONCURRENCE __________________________ DATE 8/19/11

1. The signature attests that the agency has completed the STD.399 according to the instructions in SAM sections 6601-6616, and understands the impacts of the proposed rulemaking. State boards, offices, or department not under an Agency Secretary must have the form signed by the highest ranking official in the organization.

2. Finance approval and signature is required when SAM sections 6601-6616 require completion of Fiscal Impact Statement in the STD.399.

Department of Finance Approval / Concurrence Signature by the Program Budget Manager [unreadable] dated 8/19/2011.
ITEM 2
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

SUBJECT

RECOMMENDATION
The California Department of Education (CDE) recommends that the State Board of Education (SBE) take action as deemed necessary and appropriate. This agenda item is the second in a series of updates; there is no specific action recommended at this time.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

July 2011: The CDE presented to the SBE the first in a series of updates on the implementation of the Common Core State Standards (CCSS).

June 2011: Governor Jerry Brown, State Superintendent of Public Instruction (SSPI) Tom Torlakson, and SBE President Michael Kirst signed the memorandum of understanding for California's participation as a governing state in the SMARTER Balanced Assessment Consortium (SBAC). California was previously a participating state in the Partnership for the Assessment of Readiness for College and Careers (PARCC).

November 2010: The CDE presented to the SBE an update on the implementation of the CCSS. This update was provided at the joint meeting between the SBE and the Commission on Teacher Credentialing (CTC) (See agenda at http://www.cde.ca.gov/be/pn/pn/ctcsbeagenda08nov2010.asp).

August 2010: Pursuant to Senate Bill X5 1, the SBE adopted the academic content standards in English language arts (ELA) and mathematics as proposed by the California Academic Content Standards Commission; the standards include the CCSS and specific additional standards that the Commission had deemed necessary to maintain the integrity and rigor of California’s already high standards.

May 2009: The SSPI, the Governor of California, and the SBE President agreed to participate in the Council of Chief State School Officers (CCSSO) and the National Governors Association (NGA) Center for Best Practices initiative to develop the CCSS as part of California’s application to the federal Race to the Top grant.
SUMMARY OF KEY ISSUES

When the SBE adopted the CCSS with modifications and additions in August 2010, these standards became the current subject matter standards in ELA and mathematics. However, as with most of the other states adopting the CCSS, the full implementation of these standards will occur over several years as new curriculum frameworks, instructional materials, and assessments are implemented.

California Education Code Section 60605.8 (h) requires the SSPI and the SBE to present a schedule and an implementation plan to the Governor and the appropriate policy and fiscal committees of the Legislature for integrating the CCSS into the state educational system. Currently, the CDE is engaged in many activities designed to prepare the state’s educational stakeholders for full implementation of the CCSS and the development of the new assessment system. The July SBE item identified the many CDE activities related to the CCSS. A revised list of the conferences and workshops where CDE staff has presented on the CCSS are found in Attachment 1.

The following list highlights some of the many CDE activities:

- California is participating in the State Collaborative on Assessment and Student Standards—Implementing the Common Core System (SCASS-ICCS). The participants from California include CDE staff (Deputy Superintendent Deb Sigman, Directors Thomas Adams, Patrick Ainsworth, Fred Balcom, Phil Lafontaine, and Rachel Perry), SBE member and staff (Patricia Rucker, member, and Sue Burr, Executive Director), legislative staff (Marisol Avina, Consultant, Assembly Education Committee, and Leonor Ehling, Deputy Director, Senate Office of Research), and CTC staff (Teri Clarke, Administrator). This is the first time that California has created a standards-implementation team that includes representatives from the CDE, SBE, Legislature, and CTC. This collaboration will assist in having a cohesive system of implementation and ensure the sustainability. The California team attended the SCASS-ICCS meeting in Minneapolis, Minnesota, August 4–6, 2011.

- The CDE created an internal working group with participants from across CDE branches to plan for CCSS implementation and to develop new publications and presentations. The work of this group is informing the California team for SCASS-ICCS process.

- On August 23, 2011, a CCSS and Assessment Transition Planning Meeting will be held in Sacramento, California. The purpose of this meeting is to receive feedback and input from stakeholders from across the state on California’s implementation plan. The CCSS and Assessment Transition Planning Meeting will include an update on the CCSS and an overview of SBAC. In addition, the meeting will include opportunities for participants to engage in facilitated discussions on the design of transition plans for the CCSS and the new assessment system. The goal is to take the suggestions generated at this meeting and formulate a transition plan to present at the November 9–10, 2011 SBE meeting. The CDE will provide the SBE with a
SUMMARY OF KEY ISSUES (Cont.)

verbal update on the Assessment Transition Planning Meeting and the
development of a transition plan.

- The CDE is collaborating with the California Teachers Association (CTA) by
  providing three professional learning workshops on the CCSS and the transition to
  the new assessment system. The first workshop occurred in January 21, 2011, in
  San Jose and the second was held March 18, 2011, in Anaheim. A third workshop
  occurred August 2, 2011, in Los Angeles, at the CTA Summer Institute. The
  collaboration with the CTA is an effort to get information directly to the teachers and
  teacher-leaders who will implement the new standards in the classrooms.

- To prepare for the implementation of the CCSS and in anticipation of the passage
  of SB 140, the SSPI has invited publishers of state-adopted programs in
  mathematics and ELA to submit supplemental instructional materials that bridge the
  gap between their SBE-adopted programs and the CCSS including the California
  modifications and additions. The first phase of the process is for the publishers to
  submit standards maps that will be verified by CDE staff. The second phase of the
  process is the submission and review of supplemental materials. The SSPI and the
  SBE will recruit teachers and content experts who will review the supplemental
  materials for alignment to the CCSS. In spring 2012, the reviewers will be trained
  and receive the proposed bridge materials. At the end of June 2012, the reviewers
  will complete their work and the CDE will list the results on the CDE Web site. The
  SBE will receive a report of findings and, if SB 140 is passed into law, the CDE will
  submit the list of supplemental materials in September 2012 to the SBE for
  approval. These bridge materials will serve as resources that can help local
  educational agencies in their transition to the CCSS standards.

- Common Core Modifications and Additions: When the SBE adopted the CCSS, its
  action created two significant challenges for implementation. One was the adoption
  of a dual set of mathematics standards at grade eight and the other was the
  omission of the college and career readiness anchor standards.

  - Grade 8 Mathematics and Algebra 1 at Grade 8: The adoption of a dual set of
    mathematics standards at grade eight, CCSS math and “Algebra 1 at Grade 8”
    raises a number of concerns. The first is the number of standards. The
    “Algebra 1 at Grade 8” has 51 standards while the current Algebra 1 standards
    include 25 standards. Also, California up to this point has consistently defined
    the content of Algebra 1 regardless of what grade it is taught. Second is that
    the Elementary and Secondary Education Act requires that every state adopt a
    single set of content standards and performance standards that apply to all
    schools and children in the state. California meets this requirement for every
    subject at every grade except one, grade eight mathematics, as the state has
    adopted two sets of standards. In addition, the Algebra 1 at Grade 8 standards
    are specific to California, and therefore will not be part of the assessments
    being developed nationally by the two assessment consortia.
SUMMARY OF KEY ISSUES (Cont.)

- College and Career Readiness Anchor Standards for ELA: Although these anchor standards are the foundation of the CCSS, they were not part of the SBE action on August 2, 2010. The anchor standards provide the focus within the four strands of reading, writing, speaking and listening, language, and for grades six through twelve (6–12) literacy in history–social studies, science, and technical subjects. Noteworthy is the fact that the anchor standards in grades K-5 and 6-12 provide the focus and structure within the grade span and this design ensures that skills build up in a “staircase” fashion. The absence of the ELA anchor standards means the California version of the standards is incomplete and may create confusion in shared initiatives with other states.

- The SSPI and the SBE will need statutory authority to allow for changes to the CCSS as adopted on August 2, 2010.

- The California Learning Resources Network, a state-funded effort administered by the Stanislaus County Office of Education, has begun the process of reviewing electronic supplemental instructional materials according to the CCSS. The results can be found at http://www.clrn.org (Outside Source). Attachment 2 provides a detailed description of the work and processes of the California Learning Resources Network.

- During its consideration of Item 14 at its July 14, 2011, meeting (Update and Discussion on the Activities of the California Department of Education and State Board of Education Regarding Implementation of the Common Core State Standards), the SBE discussed the potential of calling on the California Education Round Table (Round Table) and the Intersegmental Coordinating Committee (ICC) to assist in coordinating the participation of California's postsecondary education community in the implementation of the Common Core State Standards and the design of the next-generation of standards-based assessments. At the conclusion of this discussion, the SBE requested that the California Department of Education provide the SBE with background information regarding the role and operation of the Round Table and the ICC. The requested information was provided to the SBE in an August 2011 information memorandum. As part of this agenda item, the SBE may wish to continue its earlier discussion about the postsecondary education community.

- The Carnegie Corporation has awarded Stanford University a $1 million grant for “Building on Common-Core Standards to Improve Learning for English-language Learners”. The project will show how English language proficiency development can be made explicit and supported in the context of content instruction based on the Common Core standards. Dr. Kenji Hakuta is the project director and the CDE has offered to support and collaborate with Dr. Hakuta in his new grant work.

- The Assessment and Accountability Division has staffed 10 Work Groups with leads and an internal team made up of representatives from several CDE branches. Under the SBAC policies, state educational agency staff may make up the 10 Work
Groups due to the confidentiality of work being done in each group. A number of Work Group leads will sit on national SBAC calls representing California. SBAC Work Group leads and team members have begun to meet regularly. The 10 Work Groups include the following:

1. Transition to CCSS
2. Technology Approach
3. Assessment Design: Item Development
4. Assessment Design: Performance Tasks
5. Assessment Design: Test Design
6. Assessment Design: Test Administration
7. Reporting
8. Formative Processes and Tools/Professional Development
9. Accessibility and Accommodations
10. Research and Evaluation

In addition, a new CDE SBAC Web Page is being created to begin to communicate with LEAs about California’s participation in the new assessment system.

- The SSPI is working with the Legislature by sponsoring bills and providing technical assistance to the Budget Act of 2011–12. The SSPI looks forward to collaborating further with the SBE in shaping the currently SSPI-sponsored legislation.
  - Assembly Bill 124 (2011, Fuentes) calls for the Superintendent to consult a group of ELD experts and to update, revise, and align the ELD standards to California’s newly-adopted CCSS ELA standards. This Superintendent would present the recommended new ELD standards on or before August 31, 2012, and the SBE would have until September 30, 2012, to adopt, reject, or revise the proposed ELD standards. This bill complements the English Language Acquisition Assessment System (ELAAS) application that was submitted into the U.S. Department of Education on June 3, 2011, with an expected award date of late summer 2011. The ELAAS consortium is comprised of California, as the lead state, in partnership with the Council of Chief State School Officers (CCSSO), 18 member states, and nationally-recognized experts and organizations from across the nation. The ELAAS consortium states will serve 2.4 million (52.4 percent) of our nation’s approximately 4.5 million LEP students. The ELAAS will be designed to enhance English language proficiency (ELP) assessment practices and use of assessment results to improve teaching and performance of limited English proficient (LEP) students in learning English and, ultimately, in core content areas. The ELAAS will assess kindergarten through grade twelve EL students and will include two major assessments, a Screener/Diagnostic, and a Summative both of which will be aligned with common ELP standards and compatible with the CCSS.
  - The SSPI is also sponsoring AB 250 (2011, Brownley) as a legislative vehicle for implementing the CCSS. AB X4 2, (Statutes of 2009–10) suspended the
SUMMARY OF KEY ISSUES (Cont.)

process and procedures for developing curriculum frameworks and adopting instructional materials until 2013–14. SB 70 (Statutes of 2010–11) extended that suspension until the 2015–16 school year. The SSPI will seek to ensure that the bill contains the shared aims and goals of the SSPI and SBE in implementing the CCSS. The major areas that are addressed in AB 250 include curriculum framework development and professional development. Future legislation will need to address instructional materials, assessment, and accountability.

FISCAL ANALYSIS (AS APPROPRIATE)

The cost of implementing the CCSS is significant, but will be offset by the improved efficiencies, benefits of shared costs with other states, and the shifting of current costs to CCSS activities. Currently, the CDE is providing professional development via webinars and presentations and has already provided guidance for transitioning to the CCSS. Assessment costs will be shifted from the STAR Program to one of the new assessment consortia. In addition, current efforts will be redirected to support the implementation of the CCSS, especially in the area of professional development. In terms of instructional materials, costs will span multiple years, but will be offset by access to a national market of materials and greater price competition. In addition, currently-adopted instructional materials will be studied for alignment to the CCSS including the California modifications and additions. Nonetheless, the implementation of new standards assessments, the development and implementation of new accountability measures, local and statewide professional development, the development of new curriculum frameworks, and the review and acquisition of new instructional materials will require a refocusing of efforts, shifting and infusion of resources.

</table>
California Learning Resource Network

In December of 1999, the California Department of Education awarded a Statewide Education Technology Services (SETS) Learning Resource contract to Stanislaus County Office of Education, with partner county offices of education in Humboldt, Kings, Orange, Sacramento, San Joaquin, Stanislaus, and San Diego. The purpose of the SETS, pursuant to California Education Code Section 51872 (b), are to provide services which “address locally defined needs but that are more efficiently and effectively provided on a statewide basis.” The California Learning Resource Network (CLRN) is one of four SETS approved by the State Board of Education (SBE) in July 1999.

Summary of outcomes and deliverables for the CLRN service:

1. **Establish and maintain an electronic learning resource evaluation** system that rates software, video, CD’s, online resources, and other similar media using criteria approved by the SBE that address both alignment with the SBE content standards and technical quality (i.e., ease of access and use). The results of the evaluation are maintained in a web-accessible database.

2. **Establish and maintain links to online standards-based learning units or lessons** that use the resources identified in number one above as being in alignment with the evaluation criteria.

3. **Establish and maintain a model Web site and Web server(s)** that not only make evaluations and links accessible to a large volume of users in a cost-effective manner, but also serve as a major promotional center for other SETS.

The CLRN provides educators with a "one-stop" resource for critical information needed for the selection of supplemental electronic learning resources aligned to the SBE academic content standards. Supplemental electronic learning resources include software, videos, and Internet resources that can be used to explain further, practice, or assess some standards for the subject at grade-level; they are not complete and comprehensive programs, nor are they intended to be a full course of study.

The CLRN currently reviews electronic learning resources in five content areas: English-language arts, mathematics, history–social science, science, and visual and performing arts. For English language arts and mathematics, the CLRN is now reviewing materials against the Common Core State Standards.

Through an application process, the CLRN selects California educators with specific content experience to act as reviewers once they have completed a rigorous training program. CLRN reviewers are credentialed teachers with content specific teaching training and experience.
The CLRN review of supplemental electronic learning resources includes the following three major components: Social Content review, California Content Standards Match verification, and the CLRN minimum requirements review. Only resources that meet all of the CLRN review criteria are included in the CLRN database and Web page at http://clrn.org (Outside Source). This Web site contains extensive information on the organization, the review process, and review results. Resources are approved for Social Content only; resources are not state-adopted. A complete explanation of the process can be found in the document titled “CLRN Supplemental Electronic Learning Resources Review Criteria and Process” available at http://clrn.org/info/criteria/Criteria_v12.5.pdf (Outside Source). This document was approved by the SBE on October 11, 2000.

The minimum requirements required for resources to pass review include the following:

1. The resource addresses standards as evidenced in the standards match and provides for a systematic approach to the teaching of the standard(s), and contains no material contrary to any of the other California student content standards.

2. Instructional activities (sequences) are linked to the stated objectives for this electronic learning resource.

3. Reading and/or vocabulary levels are commensurate with the skill levels of intended learners. (Note: Reading level has been added to profile to be determined by publishers and verified by CLRN staff.)

4. The electronic learning resource exhibits correct spelling, punctuation, and grammar, unless a primary source document.

5. The content is current, accurate and scholarly, including that taken from other subject areas.

6. The presentation of instructional content must be enhanced and clarified by the use of technology through approaches which may include: access to real-world situations (graphics, video, audio); multi-sensory representations (auditory, graphic, text); independent opportunities for skill mastery; collaborative activities and communication; access to concepts through hypertext, interactivity, or customization features; use of the tools of scholarship (research, experimentation, problem solving); simulated laboratory situations.

7. The resource is user friendly as evidenced by the use of features such as: effective help functions; clear instructions; consistent interface; intuitive navigational links.
8. Documentation and instruction on how to install and operate the electronic learning resource are provided and are clear and easy to use.

9. The model lesson/unit plan demonstrates effective use of the electronic learning resource in an instructional setting.

In addition, electronic learning resources must meet additional minimum requirements:

1. The search function is thorough and accurate.

2. The index provides easy access to the entire resource including text, illustrations, sounds, etc.

3. The content sources are accurately cited.

The CLRN review process has three integral elements: The review criteria, content expertise of reviewers, and ongoing training of reviewers. Together these elements help ensure for quality review results.

The overall objectives of the CLRN are as follows:

- Identify and review supplemental electronic learning resources such as software, video, and Internet resources

- Identify learning units aligned to resources and the state academic content standards

- Maintain an interactive Web site to provide information about electronic learning resources through an online searchable database and links to state education technology projects and resources
Common Core State Standards

Tom Adams, Director
Standards, Curriculum Frameworks & Instructional Resources Division
September 2011

Agenda

• Overview
• Frameworks & Adoptions Timelines
• Legislation
• Superintendent’s Review
• Common Core State Standards
• Questions
California and the Common Core State Standards

Senate Bill 1 from the Fifth Extraordinary Session (SB X5 1):

- established an Academic Content Standards Commission (ACSC) to develop standards in mathematics and English–language arts
- stated that 85 percent of the standards were to consist of the CCSS with up to 15 percent additional material
- directed the State Board of Education (SBE) to adopt or reject recommendations of the ACSC

Materials Implementation Timeline 1

<table>

For the latest information on pending bills: http://www.leginfo.ca.gov/bilinfo.html
Common Core State Standards Implementation

- The SBE adopted the CCSS in 2010
- New assessments scheduled for 2014
- Last SBE mathematics adoption in 2007
- Last SBE English language arts adoption in 2008
- Next likely SBE adoption of materials in 2018
- Question—What materials will teachers have available to help them cover the CCSS?

Superintendent’s Review of Supplemental Materials

- The Superintendent of Public Instruction, Tom Torlakson, is inviting publishers of currently adopted instructional materials in mathematics and English Language Arts to submit supplemental materials for review.
- Materials designed to bridge the gap between the content in the adopted materials and the CCSS
Purpose of the Review

- Whether or not the supplemental materials—in conjunction with the adopted materials—provide full coverage of the CCSS with California additions for the given subject and grade level(s).

**Intent:**
- Supplemental materials include the minimum amount of content needed to fully address the CCSS; and
- Costs for districts to purchase and implement the supplements be kept as low as possible

Project Overview

| Phase I (Fall 2011) | • Review of standards maps for existing adopted programs  
|                     | • by CDE staff  
|                     | • Results sent to publishers |
| Phase II (Spring/Summer 2012) | • Review of supplemental materials  
|                               | • by select reviewers and experts  
|                               | • List of recommended supplemental materials posted on CDE Web site |
This process is…

- Conducted by the CDE
- Voluntary
- Only for publishers of current SBE-adopted basic materials
- A review of supplemental materials not full programs
- Only an advisory for school districts
- Not a state adoption

Programs Eligible for Review

  - Kindergarten through grade seven basic grade level programs
  - No grade eight programs
  - No intervention/algebra readiness programs

- English language arts – SBE-adopted in 2008
  - Kindergarten through grade eight, program types 1-3
  - No intervention programs
Evaluation Criteria

1. Aligned to the CCSS
2. Conform to Standards for Evaluating Instructional Materials for Social Content
3. Must be accurate, use proper grammar and spelling, and be free from all errors
4. Meaningful assessments
5. Comprehensive teacher guidance in efficient instruction for all students
6. Clear instructions for supplemental materials integration

Final Actions

September/October 2012

- Item submitted by the CDE as an advisory to the State Board
- Letter from the Superintendent to Publishers
- Letter/News Release from the Superintendent to Local Educational Agencies
- Posting of Superintendent’s Report/Recommendations on the CDE Web site
Common Core Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects

- The Common Core Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects are organized around the College and Career Readiness (CCR) Standards for Reading, Writing, Speaking and Listening, and Language.

- Each strand is headed by a set of CCR anchor standards that is identical across all grades and content areas.

- The Common Core Standards for English-language arts also set requirements for reading and writing in the social and natural sciences.

Common Core Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects

The Standards comprise three main sections:

- a comprehensive K–5 section
  - includes standards for foundational skills
- two content area-specific sections for grades 6–12
  - one for English-language arts
  - one for literacy in history/social studies, science and technical subjects.
Balanced Representation of Literary and Informational Text

- Kindergarten through grade 5
  - 10 Reading standards for literature
  - 10 Reading standards for informational text
  - Writing standards that explicitly call for opinion pieces, narratives, and informative/explanatory texts

- Grades 6-12
  - 10 Reading standards for literature
  - 10 Reading standards for informational text
  - Writing standards that explicitly call for arguments, narratives, and informative/explanatory texts
  - An additional set of standards for reading and writing in history/social studies, science and technical subjects

Focus on Text Complexity

⭐ By the end of the year, read and comprehend literature, including stories, dramas, and poetry, at the high end of the grades 4–5 text complexity band independently and proficiently. (5.RL.10)

⭐ Initiate and participate effectively in a range of collaborative discussions (one-on one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively. (11-12.SL.1)
Vocabulary Acquisition

★ Participate in collaborative conversations with diverse partners about grade 2 topics and texts with peers and adults in small and larger groups. (2.SL.1)

★ Use precise language and domain-specific vocabulary to inform about or explain the topic. (7.W.2.d)

★ Determine the meaning of word and phrase as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone). (9-10.RL.4)

Critical Analysis and Use of Evidence

★ Distinguish their own point of view from that of the narrator or those of the characters. (3.RL.6)

★ Summarize the points a speaker or a media source makes and explain how each claim is supported by reason and evidence, and identify and analyze any logical fallacies. (5.SL.3)

★ Develop claim(s) and counterclaim(s) fairly and thoroughly, supplying the most relevant evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience’s knowledge level, concerns, values, and possible biases. (11-12.W.1.b)
Mathematical Proficiency
as defined by the California Framework (2006)

Conceptual Understanding

DOING MATH

Problem Solving

Procedural Skills

Common Core Standards for Mathematics

The standards for mathematics:
• aim for clarity and specificity
• stress conceptual understanding of key ideas
• balance mathematical understanding and procedural skill
• are internationally benchmarked
Common Core Standards for Mathematics

Two Types of Standards

• Mathematical Practice (recurring throughout the grades)
• Mathematical Content (different at each grade level)

Standards for Mathematical Practice

1. Make sense of problems and persevere in solving them.
2. Reason abstractly and quantitatively.
3. Construct viable arguments and critique the reasoning of others.
4. Model with mathematics.
5. Use appropriate tools strategically.
6. Attend to precision.
7. Look for and make use of structure.
8. Look for and express regularity in repeated reasoning
Grade Shifts: Examples

<table>
<thead>
<tr>
<th>Concept</th>
<th>1997 Standards</th>
<th>CCSS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Compose simple shapes to form larger shapes (e.g., 2 triangles to form a rectangle)</td>
<td>Grade 2</td>
<td>K</td>
</tr>
<tr>
<td>Introduction to Probability</td>
<td>Grade 3</td>
<td>Grade 7</td>
</tr>
<tr>
<td>Introduction of fractions as numbers</td>
<td>Grade 2</td>
<td>Grade 3</td>
</tr>
<tr>
<td>Add and subtract simple fractions</td>
<td>Grade 3</td>
<td>Grade 4</td>
</tr>
</tbody>
</table>

Grade 8 Mathematics

- The CCSS prepare students for Algebra 1 in grade 8.

- The CCSS also include a set of challenging grade 8 standards to prepare students for success in higher math, including Algebra 1.
High School Mathematics

Courses in higher level mathematics: Precalculus, Calculus*, Advanced Statistics, Discrete Mathematics, Advanced Quantitative Reasoning, or courses designed for career technical programs of study.

Algebra II
Geometry
High School Algebra I

Mathematics III
Mathematics II
Mathematics I

Traditional Pathway
Typical in U.S.

Integrated Pathway
Typical outside of U.S.

California Joins SMARTER Balanced Assessment Consortium

- On June 9, 2011 California joined the SMARTER Balanced Assessment Consortium (SBAC) as a governing state
  - Memorandum of Understanding signed by Superintendent Torlakson, Governor Brown, and State Board of Education President Michael Kirst
  - Governing state role
    - Decision-making capacity
SMARTER Balanced Assessment Consortium

- Consortium of 29 states
  - 19 Governing
  - 10 Participating
- Washington is fiscal agent
- WestEd is Project Manager
- http://www.smarterbalanced.org

SBAC Consortium

[Map showing the states in the SBAC Consortium]
Assessment Consortium: Background

• Common Core State Standards were adopted by the State Board of Education in August 2010

• In September 2010, the U.S. Department of Education awarded funds to two assessment consortium
  – SBAC
  – Partnership for Assessment of Readiness in College and Career (PARCC)

Assessment Consortium: Focus

• Assessments are aligned to college and career readiness standards

• Must assess students annually in grades three through eight in English-language arts and mathematics and once in grades ten through twelve
  – Current federal requirements

• Required technology component
SMARTER Balanced Basics

- Single end-of-year summative assessment; includes performance tasks
  - Computer-adaptive
- Optional interim assessment tools to be used for diagnostic purposes throughout the school year
- Optional formative resources (best practices, instructional resources)

Federal Requirements

- Assess acquisition of and progress toward “college and career readiness”
- Have common, comparable scores across member states
- Provide achievement and growth information for teacher and principal evaluation and professional development
- Assess all students, except those with “significant cognitive disabilities”
- Administer online, with timely results
- Use multiple measures

Source: Federal Register / Vol. 75, No. 68 / Friday, April 9, 2010 pp. 18171-85
Summative Assessments

- Mandatory comprehensive assessment in grades 3–8 and 11 (testing window within the last 12 weeks of the instructional year) that supports accountability and measures growth
- Computer adaptive testing offers efficient and precise measurement and quick results
- Assesses the full range of CCSS in English language arts and mathematics
- Selected response, short constructed response, extended constructed response, technology enhanced, and performance tasks

Summative Assessments (cont.)

- Describes current achievement and growth across time, showing progress toward college and career readiness
- Provides state-to-state comparability, with standards set against research-based benchmarks
- Summative tests can be given twice a year
Interim Assessments

• Optional comprehensive and content-cluster measures that include computer adaptive assessment and performance tasks
• Provides clear examples of expected performance on common standards
• Helps identify specific needs of each student

Interim Assessments (cont.)

• Grounded in cognitive development theory about how learning progresses
• Aligned to and reported on the same scale as the summative assessments
• Selected response, short constructed response, extended constructed response, technology enhanced, and performance tasks
• Involves significant teacher participation in design and scoring
• Fully accessible for instruction and professional development
Formative Processes and Tools

- Instructionally sensitive, on-demand tools and strategies aimed at improving teaching, increasing student learning, and enabling differentiation of instruction
- Processes and tools are research based
- Clearinghouse of professional development materials available to educators includes model units of instruction, publicly released assessment items, formative strategies, and materials for professional development

Formative Processes and Tools (cont.)

- System Portal contains information about Common Core State Standards, Consortium activities, web-based learning communities, and assessment results
- Dashboard gives parents, students, practitioners, and policymakers access to assessment information
- Reporting capabilities include static and dynamic reports, secure and public views
- Item development and scoring application support educator participation in assessment
- Feedback and evaluation mechanism provides surveys, open feedback, and vetting of materials
Key Features: Computer Adaptive Testing

- Comprehensively assesses the breadth of the Common Core State Standards while minimizing test length
- Allows increased measurement precision relative to fixed form assessments; important for providing accurate growth estimates
- Testing experience is tailored to student ability as measured during the test

Key Feature: Tailored Online Reports

- Supports access to information about student progress toward college and career readiness
- Allows for exchange of student performance history across districts and states
- Uses a Consortium-supported backbone, while individual states retain jurisdiction over access and appearance of online reports
- Tied to digital clearinghouse of formative materials
- Graphical display of learning progression status (interim assessment)
English Language Arts and Mathematics, Grades 3–8 and High School

Scope, sequence, number, and timing of interim assessments locally determined

* Time windows may be adjusted based on results from the research agenda and final implementation decisions.

10. Research and Evaluation

Opportunities for Teacher Involvement

- Writing and reviewing of test items and tasks
- Range-finding and score validation
- Scoring of performance tasks
- Collaborate on designing score reports and Web tools
Opportunities for Teacher Involvement (cont.)

• Content specifications
  – Reviews to be facilitated by member states
  – Reviews by professional groups facilitated by SBAC (e.g., NEA, AFT, AASA, NCTE, NCTM)

• Specifications include:
  – Descriptions of outcomes
  – Description of the types of evidence
  – Score reporting categories
  – Item types and examples

SBAC Timeline
Implementation Planning Activities

- State Collaborative on Assessment and Student Standards—Implementing the Common Core System (SCASS-ICCS)

- SBE updated on CCSS and assessment in July 2011 (Item 14)

- SBE update on CCSS and assessment in September (tentative)

- SBE action on implementation plan scheduled for November 2011 (tentative)

Transition Planning Meeting

- Mid-August meeting to discuss implementation activities

- Stakeholders across the state invited
  - Field representation: ACSA, CCSESA, CCSA, CTA, CFT, CSBA, superintendents, teachers
  - Parent organizations: PTA
  - IHE: CCC, CSU, UC
  - Legislative committees/DOF/LAO
  - Business organizations: CA Chamber of Commerce
  - Other stakeholders: Californians Together, PICO, Public Advocates

RECOMMENDATION

The California Department of Education (CDE) recommends that the State Board of Education (SBE) consider that California College, Career, and Technical Education Center (CCCTEC) may have violated provisions of law pursuant to Education Code (EC) Section 47607(c)(4) and failed to engage in sound fiscal management pursuant to EC Section 47607(c)(3) as described in a Notice of Violation issued by the SBE to CCCTEC on July 14, 2011.

After consideration of evidence presented, the CDE and the Advisory Commission on Charter Schools (ACCS) recommend that if the SBE finds that CCCTEC has failed to refute, remedy, or propose to remedy the violations described in the Notice of Violation, that the SBE issue a Notice of Intent to Revoke and Notice of Facts in Support of Revocation pursuant to Education Code (EC) Section 47607(e), included as Attachment 6.

If the SBE issues a Notice of Intent to Revoke and Notice of Facts in Support of Revocation of CCCTEC, the CDE also recommends that the SBE hold a public hearing on September 8, 2011, to consider revocation of the CCCTEC charter.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

On June 27, 2011, the SBE president issued a letter to CCCTEC informing the school that it would be considered by the SBE on July 14, 2011, regarding a proposed Notice of Violation. At the July 14, 2011, meeting, the SBE acted to adopt the June 27, 2011, letter as a Notice of Violation to CCCTEC, included as Attachment 1.

SUMMARY OF KEY ISSUES

CCCTEC began operation in the 2010–11 school year. According to the annual attendance apportionment certification submitted by CCCTEC for the 2010–11 school year, CCCTEC claimed average daily attendance of 61.66 students for apportionment
purposes. To date, the CDE has released approximately $941,762 in state and federal funding to CCCTEC during the 2010–11 fiscal year. This amount does not include revenues paid directly to the school from other sources, such as local in-lieu of property taxed paid by the sponsoring local educational agency (Washington Unified School District) and the federal Carol M. White Physical Education Program Grant paid by the United States Department of Education.

EC Section 47607(c) states that a charter may be revoked by the authority that granted the charter “if the authority finds, through a showing of substantial evidence, that the charter school did any of the following:

1. Committed a material violation of any of the conditions, standards, or procedures set forth in the charter.
2. Failed to meet or pursue any of the pupil outcomes identified in the charter.
3. Failed to meet generally accepted accounting principles, or engaged in fiscal mismanagement.

The CDE has been made aware of a number of issues and allegations that, if true, and if not refuted or resolved immediately by the governing board of CCCTEC, are in violation of subdivisions (3) and (4) of EC Section 47607(c) and may directly impact the ability of CCCTEC to continue operations in 2011–12.

In its analysis of issues, the CDE has reviewed information including, but not limited to the following items:

- Budget and cash flow statements submitted by CCCTEC in its application for a loan from the Charter Schools Revolving Loan program
- Credentials of currently employed CCCTEC teachers
- Agendas and minutes from meetings of the CCCTEC Board of Directors
- Attendance apportionment certifications and supporting documents submitted by CCCTEC
- Correspondence from current and former faculty members, vendors, the Yolo County Office of Education, and parents and guardians of CCCTEC students
- The Carol M. White Physical Education Program (PEP) On-site Monitoring Report
Information gathered at CDE site visits

Pursuant to EC Section 47607(d) that specifies, “prior to revocation, the authority that granted the charter shall notify the charter public school of any violation of this section and give the school a reasonable opportunity to remedy the violation,” on July 14, 2011, the SBE issued a Notice of Violation to CCCTEC and allowed CCCTEC the opportunity to provide evidence that refuted, remedied, or proposed to remedy the alleged violations described in the Notice of Violation by the close of business (5 p.m. Pacific Standard Time) on Friday, July 22, 2011.

CCCTEC submitted written evidence to the SBE office on July 22, 2011. This evidence was considered by the ACCS at its July 28, 2011, meeting, at which time, CCCTEC was given the opportunity to present additional information. After consideration of the evidence, the ACCS recommended that the SBE issue a Notice of Intent to Revoke at its September 7, 2011, meeting and allow CCCTEC additional opportunity to present evidence to the SBE that addressed concerns in the Notice of Violation. The ACCS also directed CCCTEC to provide written notification to current and potential staff and students regarding the Notice of Violation and information regarding any public hearings regarding revocation.

Prior to revoking a charter for failure to remedy a violation pursuant to EC Section 47607(d), and after expiration of the school’s reasonable opportunity to remedy the violation, EC Section 47607(e) states:

... the chartering authority shall provide a written notice of intent to revoke and notice of facts in support of revocation to the charter school. No later than 30 days after providing the notice of intent to revoke a charter, the chartering authority shall hold a public hearing, in the normal course of business, on the issue of whether evidence exists to revoke the charter. No later than 30 days after the public hearing, the chartering authority shall issue a final decision to revoke or decline to revoke the charter, unless the chartering authority and the charter school agree to extend the issuance of the decision by an additional 30 days. The chartering authority shall not revoke a charter, unless it makes written factual findings supported by substantial evidence, specific to the charter school, that support its findings.

The CDE recommends that the SBE consider (1) the written evidence presented by CCCTEC, included as Attachment 2, (2) the CDE analysis of this written evidence as provided in Attachment 5 and in the Notice of Intent to Revoke and Notice of Facts in Support of Revocation, provided as Attachment 6, (3) the declarations of CDE staff regarding CCCTEC’s fiscal situation as presented to the ACCS at its July 28, 2011, meeting and provided as Attachment 3, and (4) any evidence presented by CCCTEC at the September 7, 2011, meeting of the SBE.
SUMMARY OF KEY ISSUES (Cont.)

If the SBE finds that CCCTEC has been unsuccessful in refuting, remedying, or proposing to remedy the allegations in the Notice of Violation issued on July 14, 2011, the CDE recommends that the SBE issue the Notice of Intent to Revoke, included as Attachment 6.

If the SBE issues the Notice of Intent to Revoke to CCCTEC, the CDE also recommends that the SBE hold a public hearing on September 8, 2011, to consider revocation of the CCCTEC charter.

FISCAL ANALYSIS (AS APPROPRIATE)

There would essentially be no state cost related to revocation of the CCCTEC charter. If the SBE were to revoke the charter, some shifting of state expenditures would occur from CCCTEC to other local educational agencies (due to the transfer of students), but state expenditures would essentially be unchanged. There would be a minor loss of revenue to the CDE from the oversight fees collected from CCCTEC. However, the revenue loss would be offset by the reduction in costs for oversight activities.

FISCAL ANALYSIS (Cont.)

If CCCTEC were to close, remaining obligations to the State include, but are not limited to, repayment of 2010–11 overpaid apportionment funds in the amount of $219,068 and repayment of its Charter Schools Revolving Loan in the amount of $100,786. In addition, the CDE is currently working with CCCTEC to validate a number of PCSGP expenditures. CCCTEC would be invoiced for any PCSGP expenditures that cannot be validated or are otherwise disallowed by CDE.

Subject: Notice of Violation Pursuant to Education Code (EC) Section 47607(d)

Dear Mr. Preston and Members of the CCCTEC Board of Directors:

The State Board of Education (SBE) has recently been made aware of a number of issues and allegations that, if not resolved immediately by the governing board, will directly impact the ability of the California College, Career, and Technical Education Center (CCCTEC) to continue operations in 2011–12. Specifically, the items of concern are as follows:

1. CCCTEC appears to have failed to meet generally accepted accounting principles, or engaged in fiscal mismanagement (EC Section 47607(c)(3)):

   - The SBE has been unable to ascertain the fiscal health of the charter, as multiple budgets and cash flow statements have been submitted to the California Department of Education (CDE) Charter Schools Division (CSD) between February and June of 2011 that present different information, making it difficult to accurately analyze the school’s ability to operate or repay its debts.

   - The current attendance accounting system appears to be inadequate, and teachers and staff may not have adequate training to record attendance accurately.

   - Due to last-minute changes to the school calendar and a lack of clarity over appropriate supervision by credentialed teachers, it is unclear whether CCCTEC has offered the minimum number of days and minutes of instruction to receive full apportionment funding.
Messrs. Paul Preston, David Kopperud, Steve McPherson and CCTEC Board of Directors
June 27, 2011
Page 2

- Certificated staff have attested that CCCTEC is anywhere from one to four months behind in issuing paychecks. Teachers have reported walking off the job due to a failure of CCCTEC to issue paychecks or paychecks being returned due to insufficient funds in the CCCTEC account.

- On March 5, 2011, the Yolo County Office of Education (Yolo COE) reported to the CDE that CCCTEC was not current in its California State Teachers Retirement System (CALSTRS) payments to Yolo COE, and that CCCTEC issued a check to Yolo COE that was returned due to insufficient funds. After multiple communications between CDE and CCCTEC and Yolo COE, on March 15, 2011, CCCTEC authorized Yolo COE to redirect a portion of CCCTEC’s in-lieu tax proceeds to cover the CALSTRS payment. As of June 15, 2011, Yolo COE reported that no payroll information had been submitted from CCCTEC since February 2011.

- On March 7, 2011, the CDE was contacted regarding CCCTEC’s participation in the federal Carol M. White Physical Education Program (PEP) grant program as CCCTEC had not been responsive to inquiries from the PEP grant office. The CDE requested that CCCTEC respond to these inquiries. On May 9, 2011, the PEP grant office conducted an on-site monitoring review, which resulted in the release of a monitoring report on May 31, 2011. Findings documented in this report require CCCTEC to appropriately document expenditures of funds from the PEP grant and to return $57,651 to the program by June 10, 2011, with no extensions granted.

- The CDE has been presented with delinquent accounts payable from several vendors who report being paid with checks that were returned for insufficient funds. The CDE has made multiple communications between these vendors and CCCTEC. One vendor reports that as of June 10, 2011, over $5,000 is still owed by CCCTEC.

2. CCCTEC appears to have violated a provision of law (EC Section 47607[c][4]):

- CCCTEC does not appear to be compliant with EC Section 47605(l), which requires teachers of core subjects to possess an appropriate credential or other document authorizing them to teach the subjects to which they are assigned.

In response to communications received by CDE indicating that teachers may not have been paid and that teachers may have been planning to walk off the job, the CDE requested a meeting with Mr. Preston, the CCCTEC board, and a CCCTEC teacher representative on Monday, June 6, 2011. Due to concerns raised at the meeting, on June 9, 2011, the CDE requested that CCCTEC provide evidence regarding communication with teachers about the lack of payment of salaries and documentation regarding the payment of salaries. CCCTEC provided information to the CDE on June 12, 2011; however, the information provided was incomplete. In addition, the CDE conducted a site visit to CCCTEC on June 8, 2011. During the site visit, the CDE was informed of the likelihood of attendance audit findings and that the last day of school was going to be moved up to the following Friday, a week earlier than scheduled.
In addition, SBE Executive Director Sue Burr contacted you on June 27 to provide advance notice that this matter would be publicly noticed on July 1, 2011 and considered by the SBE at the July 13-14 SBE meeting.

Failure to provide substantial evidence that refutes, remedies, or proposes to remedy all of these alleged will provide grounds sufficient to form the basis for an action to revoke the CCCTEC charter pursuant to EC Section 47607(c). On September 7, 2011, the SBE in a public hearing will consider whether there is substantial evidence to refute or remedy each alleged violation, at which time it may issue a Notice of Intent to Revoke, pursuant to EC Section 47607(e). If the SBE issues a Notice of Intent to Revoke, the SBE will hold a public hearing on September 8, 2011, at which time the SBE will determine whether sufficient evidence exists to revoke CCCTEC’s charter. This letter serves as a formal Notice of Violation, pursuant to EC Section 47607(d) and provides CCCTEC a reasonable period in which to address these concerns.

A written response and supporting evidence addressing each of the above-outlined issues must be received by Sue Burr, Executive Director, SBE at 1430 N Street, Ste. 5111, Sacramento, CA, 95814 no later than the close of business (5:00 p.m. Pacific Standard Time) on Friday, July 22, 2011:

1. A budget and cash flow statement that includes all sources of revenue and liabilities, including, but not limited to, the following items:
   
   a. Revenues for the remainder of the current fiscal year and through February 2012, including, but not limited to, the following (do not include grant funds):
      
      i. Revenue from the state
      
      ii. Revenue from other sources, including but not limited to, revenue from subleases
      
      iii. Revenue from the sales of receivables, less any interest or administrative fees
   
   b. Liabilities for the remainder of the current fiscal year and through February 2012, including, but not limited to, the following:
      
      i. Certificated staff salaries, broken down by full-time equivalents
      
      ii. Classified staff salaries, broken down by full-time equivalents
      
      iii. Certificated and classified staff health and retirement benefits, including California State Teachers Retirement System benefits
      
      iv. Repayment of funds to the Carol M. White PEP grant fund as outlined in the site visit report dated May 31, 2011
Messrs. Paul Preston, David Kopperud, Steve McPherson and CCTEC Board of Directors  
June 27, 2011  
Page 4

v. Facilities lease payments and utilities

vi. Liability insurance and worker’s compensation insurance premiums

vii. Repayment of sold receivables

viii. Any apportionment or other funding owed to the state

ix. Any in lieu taxes or other payments due to the local district or county as a result of overpayment

x. Any funds reserved for potential audit exceptions

xi. Any outstanding invoices due to vendors, including, but not limited to, Athletics Unlimited

2. Evidence of highly-qualified status and proper credentialing for all core teachers employed in the 2010–11 and 2011–12 school years and a detailed plan regarding plans to recruit and hire highly-qualified and properly credentialed teachers for the 2011–12 school year, including master schedules that identify teacher assignments for each course

If you have any questions or need any additional information regarding this Notice of Violation, please contact Sue Burr, Executive Director, SBE at 916-319-0827 or via email at SBurr@cde.ca.gov.

Sincerely,

Michael Kirst  
Dr. Michael Kirst, President

Mr. Preston,

I am in receipt of your package dated July 5, 2011, that included materials and clarification requested in regards to your April–June Quarterly Benchmark Report (QBR) under the Public Charter Schools Grant Program (PCSGP).

After reviewing the materials in question, I was unable to approve some of the previously allocated expenses for PCSGP reimbursement. I have enumerated my concerns with questionable expenses in the following sections.

**Personnel Costs**

In previous correspondence, I had requested that you provide duty statements for each employee whose salary was reimbursed using grant funds. I also requested that you generate a percentage of allowable activities based on these duty statements.

In response to the materials you provided in your July package, I now request that you provide a brief explanation about how each percentage was calculated. I also have concerns with the reported dollar amounts for each salary; it appears that they have increased by a factor of 100%, despite a lower percentage of allowable activities. In the matrix on the following page, I provide a comparison of the two sets of allocated values:
July 18, 2011
Page 2

<table>

</tr>
</tbody>
</table>

Based on the information provided, there is no clear explanation as to why the reimbursements have doubled. Please explain this discrepancy, and revise the figures as needed.

**4000 Series**

In prior correspondence, I requested clarification on checks 1187, 1196, 1192, 1209, 1228, 1229, 1230, 1231, 1232, 1221, 1225, 1247; I also requested an explanation of checks 1211 and 1233, payments to Straw Hat Pizza. Checks 1186, 1206, 1208, 1241, and 1224 required no additional clarification.

- You have provided sufficient clarification for checks 1209, 1228, 1232, 1221, and 1225.

- I was unable to find any materials correlating to checks 1187 for $220.64, and 1231 for $383.67. Therefore I request that you reduce the reported reimbursement by $604.31.

- The following checks include purchases that were made prior to January 1, 2011, your grant starting date, and are therefore not fully allowable: 1196 ($582.31 in non-allowable expenses that predate the grant award), 1192 ($332.72), 1229 ($111.71), 1211 ($331.00). Therefore I request that you reduce the reported reimbursement by $1,357.74.
July 18, 2011
Page 3

- Check 1247 includes $620.90 in non-allowable utilities expenses (periodic phone bills). Therefore I request that you reduce the reported reimbursement by $620.90.

- You indicated that check 1233 for $2,000 to Straw Hat Pizza was for day-to-day lunches. I will allow this expense. Please be aware of restrictions on lunch service expenditures for future reporting; guidance may be found in the recently released document entitled “Guidance on Allowable Expenditures.”

- You indicated that check 1230 was removed. Therefore I request that you reduce the reported reimbursement by $10.00.

Total reductions for the 4000 Series equal $2,592.95. The original expense reported was $13,654.55. Therefore I request that you revise the reported total to account for a total expense of $11,061.60. I have provided the following matrix to clarify the status of your reported expenses in the 4000 Series:

### 5000 Series

In prior correspondence, I requested that you screen checks 1240, 1214, 1236, 1230, and the two PG&E print-outs for non-allowable expenses. I also requested that you clarify checks 1188, 1185, 1183, 1184, 1193, 1197, 1194, 1190, 1205, 1226, 1207, 1210, 1218, 1215, 1235, 1246, 1309, 1251, 10031 and 10030. The following checks required no additional clarification: 1195, 1222, 1216, 1217, 1219, 1212, 1234, 1243, 1220, 1223, 1213, and 1245.

- You have provided sufficient clarification for checks 1188, 1185, 1194, 1190, 1205, 1207, 1218, 1215, 1235, and 1309. You have also clarified the eligibility of checks 1240, 1214, and 1236.

- Check 1189 for $1,952.50 was not included in any of the materials previously submitted. However, because the activities listed in back-up documentation are allowable, I have approved this expense.

- Clarification was not provided, or the materials provided were insufficient for the following checks: 1183 ($2,400.00), 1184 ($1,673.00), 1193 ($2,289.20), 1197 ($498.00), 1226 ($700.00), 1246 ($2,860.00), 1251 ($1,676.80), 1230 ($10.00), and both PG&E printouts ($10,200 and $11,000). Therefore I request that you reduce the reported reimbursement by $33,307.00.

- Invoices correlating to check 1210 are dated prior to January 1, 2011, and are therefore not eligible for reimbursement. Therefore I request that you reduce the reported reimbursement by $3,000.00.
July 18, 2011
Page 5

- You indicated that checks 10031 ($119.22) and 10030 ($2,513.81) were removed. Therefore I request that you reduce the reported reimbursement by $2,633.03.

- You indicated that the duplicate check 1235 ($850.00) has been removed. I found another duplicate check, 1222 ($35.00), that was factored into your reimbursement; I have denied this check. I request that you reduce the reported reimbursement by $885.00.

- Your original report did not include information pertaining to check 1306 ($11,039.60) to First National Bank. However, you submitted check 1306 with the package of materials submitted in May 2011. I had not factored this check into your reimbursement when drafting my response dated June 17, 2011. Before this check can be reimbursed using grant funds, I will need additional information that explains what goods or services were purchased. Until this matter has been addressed, the check cannot be reimbursed; I have noted it as “Denied” in the table below. I request that you reduce the reported reimbursement by $11,039.60.

Total reductions for the 5000 Series equal $50,864.63. There were two increases in the reported amount for $1,952.50 and $20.00. The original expense reported was $94,071.54. Therefore I request that you revise the reported total to account for a total expense of $45,179.41. I have provided the following matrix to clarify the status of your reported expenses in the 5000 Series.

### 6000 Series

In previous correspondence, I requested that you clarify the expense’s eligibility for reimbursement. The explanation you provided was sufficient, and the expense is approved.

**Summary of Requested Action and Timeline for Remedy**

I have provided a summary of requested action, below:
July 18, 2011
Page 8

- In regards to Personnel Costs, I request that you provide a brief explanation about how the percentages of grant-related activities were developed. Also, re-evaluate the dollar amounts calculated on your most recent response. If the dollar amounts are accurate, then explain the discrepancy between your originally reported amounts and the newly reported amounts. Otherwise, revise the reimbursement claims for each salary as needed.

- In regards to the 4000 Series costs, I request that you revise the reported amount to reflect a total spending of 11,061.60, as calculated in this letter. If you are able to provide additional supporting materials to substantiate expenses that are still in question or that have been denied for reimbursement, you may do so.

- In regards to the 5000 Series costs, I request that you revise the reported amount to reflect a total spending of $45,179.41, as calculated in this letter. If you are able to provide additional supporting materials to substantiate expenses that are still in question or that have been denied for reimbursement, you may do so.

- In regards to the 6000 Series costs, no additional action is needed.

- Once all of these revisions have been finalized, you must input the revised data into the online Quarterly Benchmark Report template. I will provide you with additional guidance once all items in question have been satisfactorily addressed.

Please submit your response to the items of concern identified in this letter no later than Monday, August 1, 2011. You may submit any materials pertinent to a response through e-mail to ckoehler@cde.ca.gov, through fax care of Casey Koehler at 916-322-1465, or through mail to the following address:

Casey Koehler  
Charter Schools Division, Suite 5401  
California Department of Education  
1430 N Street  
Sacramento, CA 95814

If you fail to remedy concerns described in this letter, expenses that cannot be approved will be deemed ineligible for reimbursement. Your school will be invoiced for grant funds that are not accounted for by the end of your grant project period.

If you have any questions or concerns about the contents of this letter, please contact Casey Koehler by phone at 916-319-0252, or by e-mail at ckoehler@cde.ca.gov.
July 18, 2011
Page 9

Sincerely,
Casey Koehler
August 10, 2011

Paul Preston, Executive Director
California College, Career and Technical Education Center
890 Embarcadero Road
West Sacramento, CA 95691

Via e-mail at paul@ccctec.org

Mr. Preston,

I am in receipt of your letter dated August 2, 2011, which provided clarification on personnel expenses allocated in the Fiscal Year 2010 Quarter 3 Quarterly Benchmark Report (QBR) for California College, Career and Technical Education Center (CCCTEC) under the Public Charter Schools Grant Program (PCSGP).

After reviewing the materials in question, I still have concerns regarding the personnel expenses you have allocated to the grant. Please review the contents of this letter carefully, and respond to required action that is described at the end of this letter.

History of Requested Action

I have drafted the following timeline, and the subsequent data presented in Table 1, to explain my confusion regarding your reported salary expenditures.

- May 2, 2011:
  Mr. Koehler reviewed the CCCTEC FY2010 Quarter 3 QBR and requested that Mr. Preston upload Personnel Activity Reports (PARs) for each salary allocated.

- May 16, 2011:
  Mr. Preston uploaded PAR reports and resubmitted the QBR.

- June 17, 2011:
  Mr. Koehler reviewed the QBR and requested clarification on salary expenses based on inconsistencies in the PAR reports, specifically that each PAR
August 10, 2011
Page 2

demonstrated 100% effort given to PCSGP activities.

- July 1, 2011:
  Mr. Preston re-submitted the QBR with revised figures, and mailed hardcopy documentation to explain the percent of effort to grant objectives for each salary expense.

- July 5, 2011:
  Mr. Koehler received hardcopy materials.

- July 18, 2011:
  Mr. Koehler requested clarification because hardcopy materials indicated that the total salary expenses had increased by 100% despite the total percentage of effort having been reduced to varying degrees for each salary (detailed in Table 1).

- August 2, 2011:
  Mr. Preston responded via e-mail, and explained that the figures should be reduced to their previously reported levels.

I have provided the following table on the next page, which displays how reported data has changed from response to response. Due to multiple fluctuations in the data presented, I am unable to assess the credibility of these reimbursements.

To clarify, the Percent of Effort should indicate the percentage of time on payroll that a staff member has devoted to grant-related activities, such as completion of a Work Plan objective. Therefore, the percentage should also equal the total reimbursed salary divided by the total salary expense overall.

Required Action

Due to fluctuations in the reported salary figures, I cannot accept these materials as credible for PCSGP expense reporting. In order to approve any salary reimbursement, I must see all of the following materials:

1. Payroll records that demonstrate the actual salary expense for all reported employees' salaries.

2. A description of each employee's duties for which they received compensation during the months of January–March, 2011. Descriptions must encompass all duties that the employee is obligated to perform under employment of the organization, and not just grant-related duties.

3. For each salary, the percentage of duties that correlate to a grant objective (such as curriculum development or a Work Plan activity) divided by total time on payroll overall. This percentage must have an apparent correlation to the description of duties in item 2. Where there is no apparent correlation, you must describe in detail how the activity is grant-related.

Please submit this information within one week's time, no later than 11:59 PM on Wednesday, August 17, 2011. This is your final notice. If you fail to submit the required materials, all personnel expenses allocated in your FY2010 Quarter 3 report will be deemed ineligible for reimbursement.

You may submit any materials pertinent to a response through e-mail to ckoehler@cde.ca.gov, through fax care of Casey Koehler at 916-322-1465, or by mail to the following address:

Casey Koehler
Charter Schools Division, Suite 5401
California Department of Education
1430 N Street
Sacramento, CA 95814

If you have any questions or concerns about the contents of this letter, contact Casey Koehler by e-mail at ckoehler@cde.ca.gov. Please ensure that all future communications are made in writing.

Sincerely,
Casey Koehler
California Department of Education (CDE)
Analysis of Evidence Submitted to the State Board of Education by the
California College, Career, and Technical Education Center (CCCTEC) on July 22, 2011,
in Response to a Notice of Violation

Table 1: CCCTEC appears to have failed to meet generally accepted accounting principles, or engaged in fiscal mismanagement (EC Section 47607[c][3])

<tbody>
<tr>
<td>The SBE has been unable to ascertain the fiscal health of the charter, as multiple budgets and cash flow statements have been submitted to the CDE Charter Schools Division between February and June of 2011 that present different information, making it difficult to accurately analyze the school’s ability to operate or repay its debts.</td>
<td>CCCTEC submitted at least 5 different applications for a Revolving Loan. Mr. Preston worked with CDE staff to obtain the most accurate projections possible. CCCTEC submitted a Revolving Loan Fund application on June 3, 2011, and would like to see it fulfilled for the entire amount applied for in May 2010.</td>
<td>CDE records indicate that CCCTEC submitted at least 7 versions of its budget and cash flow as part of the application process for a $150,000 Revolving Loan. Each budget submitted was based average daily attendance that was significantly overstated. Based on data submitted, CDE could not accurately assess the financial position of the school and its ability to make loan repayments in future years.</td>
</tr>
<tr>
<td>The current attendance accounting system appears to be inadequate, and teachers and staff may not have adequate training to record attendance accurately.</td>
<td>CCCTEC expressed concerns regarding its attendance accounting in October 2010. There were problems with the original vendor. A new vendor has been contacted and two onsite training sessions for staff were conducted before June 2011. New staff will be trained prior to opening of school.</td>
<td>The CCCTEC response did not include any details about the vendor it contacted or the training provided for staff. Therefore, the CDE cannot evaluate whether any new systems are adequate.</td>
</tr>

</tr>
<tr>
<td>Due to last-minute changes to the school calendar and a lack of clarity over appropriate supervision by credentialed teachers, it is unclear whether CCCTEC has offered the minimum number of days and minutes of instruction to receive full apportionment funding.</td>
<td>CCCTEC has met all requirements for the minimum number of days and minutes. All students were appropriately supervised with an appropriately credentialed teacher. CCCTEC will work to clarify staff assignments and show matching credentials to CDE staff in the future.</td>
<td>CCCTEC may have offered instruction for the minimum number of days and minutes, but because no information was provided linking credentials to a master schedule, the CDE cannot determine if those instructional minutes were supervised by appropriately credentialed teachers. Similarly, without a master schedule, the CDE cannot analyze the 2011–12 schedule.</td>
</tr>
<tr>
<td>Certificated staff have attested that CCCTEC is anywhere from one to four months behind in issuing paychecks. Teachers have reported walking off the job due to a failure of CCCTEC to issue paychecks or paychecks being returned due to insufficient funds in the CCCTEC account.</td>
<td>CCCTEC was short funds. As funds become available, any past amounts owed to employees will be paid. There were no indications that teachers may have been planning to walk off the job.</td>
<td>The CDE found no evidence that provided a source of funds to make these payments. The CDE received conflicting reports from staff regarding their intentions to leave their posts at CCCTEC.</td>
</tr>
</tbody>
</table>

</thead>
<tbody>
<tr>
<td>On March 5, 2011, the Yolo County Office of Education (Yolo COE) reported to the CDE that CCCTEC was not current in its California State Teachers Retirement System (CALSTRS) payments to Yolo COE, and that CCCTEC issued a check to Yolo COE that was returned due to insufficient funds. After multiple communications between CDE and CCCTEC and Yolo COE, on March 15, 2011, CCCTEC authorized Yolo COE to redirect a portion of CCCTEC's in-lieu tax proceeds to cover the CALSTRS payment. As of June 15, 2011, Yolo COE reported that no payroll information had been submitted from CCCTEC since February 2011.</td>
<td>In February 2011 funds were distributed without CCCTEC authorization and the account did not have sufficient funds to cover checks. As funds are available CCCTEC will pay past CALSTRS amounts due and will work with a back office provider to prevent a repeat of this type of incident.</td>
<td>The CDE did not find any evidence to suggest that CCCTEC has a plan to repay CALSTRS funds, as CCCTEC did not provide evidence of how much is owed or what funds would be used. The CDE also could not find evidence of any agreements with a new back office provider.</td>
</tr>

<tbody>
<tr>
<td>On March 7, 2011, the CDE was contacted regarding CCCTEC's participation in the federal Carol M. White Physical Education Program (PEP) grant program as CCCTEC had not been responsive to inquiries from the PEP grant office. The CDE requested that CCCTEC respond to these inquiries. On May 9, 2011, the PEP grant office conducted an on-site monitoring review, which resulted in the release of a monitoring report on May 31, 2011. Findings documented in this report require CCCTEC to appropriately document expenditures of funds from the PEP grant and to return $57,651 to the program by June 10, 2011, with no extensions granted.</td>
<td>CCCTEC feels that with further review by the PEP program, the expenditures will be substantially reduced. The management of the PEP grant was hindered by several people. CCCTEC will continue to train personnel to properly handle PEP grant requirements.</td>
<td>All communications between PEP grant staff and CDE have indicated that the amounts owed by CCCTEC have not been reduced, and that CCCTEC is further out of compliance with PEP grant requirements since the May 31, 2011 report.</td>
</tr>

</tr>
<tr>
<td>The CDE has been presented with delinquent accounts payable from several vendors who report being paid with checks that were returned for insufficient funds. The CDE has made multiple communications between these vendors and CCCTEC. One vendor reports that as of June 10, 2011, over $5,000 is still owed by CCCTEC.</td>
<td>CCCTEC is aware of all outstanding invoices. CCCTEC has worked with vendors and will continue to do so. CCCTEC will ensure that all purchasing procedures are followed by all staff.</td>
<td>The CDE has copies of unpaid invoices that were not presented in CCCTEC’s evidence, as presented in declarations from CDE staff and made public at the Advisory Commission on Charter Schools meeting on July 28, 2011. The lack of accounting for all unpaid invoices concerns CDE, as it is difficult to ascertain a clear understanding of CCCTEC’s fiscal health. The budget documents submitted by CCCTEC do not account for shortfalls in the 2010–11 school year and propose to remedy issues by selling receivables for funds needed to operate in the 2011–12 school year.</td>
</tr>

<td>Revenue from other sources, including but not limited to, revenue from subleases</td>
<td>Federal revenues include PCSGP funds of $306,000 for one year and PEP grant funds of $338,000 for two years.</td>
<td>increases in ADA; assume receipt of funds from the PCSGP and PEP Grant, the status of these two grants is uncertain at this time; and assume receipt of $150,000 Revolving Loan. The budget identifies state revenues from the following sources: - General Purpose Entitlement - Categorical Block Grant - New School Block Grant - State Lottery - Economic Impact Aid - Revolving Loan. The CDE has significant concerns that the PCSGP and PEP grant funds will not be available. In addition, CCCTEC’s proposed budget includes federal revenue from NCLB, Title I, Part A. CDE finds that CCCTEC is substantially out of compliance with the PCSGP grant requirements and may be invoiced for the return of PCSGP funds from 2010–11. Because CCCTEC is not in good standing with the PCSGP grant, it is unlikely to receive any further funding.</td>

</table>

Any funds reserved for potential audit exceptions: Any funds reserved for potential audit exceptions were not addressed by CCCTEC’s response. The CDE notes that “$5,000” was the response, yet no supporting evidence was provided. The response was unclear.

Any outstanding invoices due to vendors, including, but not limited to, Athletics Unlimited: CCCTEC stated that the school is aware of all outstanding invoices and provided the following invoices: 1. DGS - $4,290.38 2. City of W. Sacramento - $1875 3. City of W. Sacramento - $937.25 4. TES - $7,106.81 5. School Pathways - $4,000 6. Charter School Accounting - $5,000. The CDE is aware of additional invoices from Athletics Unlimited for $5,041.60 and the Health Education Council for $10,000. In addition, CCCTEC will be invoiced $4,045.01 by CDE for a 1 percent oversight fee for 2010–11 per statute. The lack of accounting for these liabilities raises questions about other unknown liabilities.

Dear Mr. Preston and Mr. McPherson:

Subject: State Board of Education’s Consideration of Issuance of Notice of Intent to Revoke and Notice of Facts in Support of Revocation and Public Hearing to Revoke pursuant to Education Code (EC) Section 47607(e)

This letter serves as notification that on September 7, 2011, the State Board of Education (SBE) will consider issuing a Notice of Intent to Revoke and Notice of Facts in Support of Revocation of the California College, Career, and Technical Education Center Charter School (CCCTEC) pursuant to Education Code (EC) 47607(e). If on September 7, 2011, the SBE takes action to issue a Notice of Intent to Revoke and Notice of Facts in Support of Revocation, the SBE will hold a public hearing on September 8, 2011, to consider revocation of the CCCTEC charter.

EC Section 47607(c) provides that a school’s charter may be revoked by the authority that granted the charter if the authority finds, through a showing of substantial evidence, that the charter school did any of the following:
(1) Committed a material violation of any of the conditions, standards, or procedures set forth in the charter.

(2) Failed to meet or pursue any of the pupil outcomes identified in the charter.

(3) Failed to meet generally accepted accounting principles, or engaged in fiscal mismanagement.

(4) Violated any provision of the law.

The SBE issued a Notice of Violation dated July 18, 2011, informing the CCCTEC that it may have violated EC Section 47607(c)(3) and (c)(4), and that these violations could be the basis for an action to revoke the CCCTEC charter. On June 22, 2011, CCCTEC was notified in writing regarding the violations alleged in the Notice.

The Notice provided CCCTEC with an opportunity to submit evidence to the SBE by July 22, 2011, that refuted, remedied, or proposed to remedy the alleged violations. CCCTEC was also given the opportunity to present that evidence to the Advisory Commission on Charter Schools (ACCS) at its July 28, 2011, meeting.

After consideration of the evidence presented by CCCTEC, the ACCS and the California Department of Education (CDE) conclude that CCCTEC has failed to refute, remedy, or propose to remedy the violations included in the Notice of Violation as follows:

Facts relating to EC Section 47607(c)(3) that CCCTEC has failed to meet generally accepted accounting principals or engaged in fiscal mismanagement that may hinder its ability to open and operate in the 2011–12 school year:

CCCTEC has failed to provide a budget and cash flow statement that includes all sources of revenue and liabilities, including, but not limited to, the following items: (a) revenues for the remainder of the current fiscal year and through February 2012; and (b) liabilities for the remainder of the current fiscal year and through February 2012.

- Based on CDE analysis of the materials submitted by CCCTEC on July 22, 2011, CDE is unable to ascertain whether CCCTEC can operate until February 2012. The budget provided by CCCTEC lacked a narrative or sufficient detail to make an accurate analysis, no cash flow statements were provided, and the budget contained information that contradicts information obtained by the CDE.
• CCCTEC presented in its written evidence that it would remedy the cash flow shortage by reapplying for a loan from the Revolving Loan Fund. However, these funds are not guaranteed, and CDE finds no evidence that a new CCCTEC application would provide a sufficient basis to issue a loan.

• CCCTEC also proposed to remedy problems with its attendance accounting and reporting system by contracting with a new vendor and providing training for staff. However, no evidence was included that described the services being contracted or evidence of dates and details of any staff training.

• In response to concerns regarding lack of payment of teachers’ salaries, CCCTEC included in its evidence an assurance that “as funds become available to CCCTEC any past amounts owed to employees will be paid.” However, there is no indication that any funds are available to do so, and no substantiating evidence to indicate how much is actually owed to each teacher.

• Similarly, CCCTEC addresses concerns regarding a lack of payment to Yolo County Office of Education for the California State Teachers Retirement System (CALSTRS) by stating that “as funds become available to CCCTEC any past amounts owed to the State Teachers Retirement System will be paid” and that “CCCTEC has agreed to work with the back office provider to insure [sic] clear communication exists to prevent a repeat of this type of event.” The CDE cannot find any evidence of funds becoming available to enable CCCTEC to make CALSTRS payment. In addition, CDE finds a lack of evidence regarding the relationship between CCCTEC and a back office provider.

• CCCTEC addresses concerns regarding the federal Carol M. White Physical Education Program (PEP) grant findings that require CCCTEC to return PEP grant funds by stating that “CCCTEC feels that with further review of the expenditures the amount identified by the PEP program will again be substantially reduced.” However, all communications as of July 21, 2011, between the CDE and the PEP grant office indicate that there has been no change to the findings. In fact, CCCTEC has become further out of compliance with the requirements of the grant. CCCTEC was not only required to return $57,651 of unallowable expenditures, they were also required to return $269,373 in funding that has not been documented or explained. PEP grant staff also indicated that CCCTEC would not be allowed to draw down year two funds from the PEP grant program. CCCTEC provides no evidence to indicate there has been communication with PEP grant staff or that PEP grant staff have lowered the amounts owed as indicated in their May 31, 2011, monitoring report.
• CCCTEC provides in its evidence that it has receivables available in the amount of $306,000 from the Public Charter Schools Grant Program (PCSGP) that it could sell in order to generate cash flow. However, PCSGP staff issued a letter to CCCTEC dated July 18, 2011, indicating that CCCTEC was out of compliance with the terms of the grant and had until August 1, 2011, to remedy issues raised in the letter. Failure to remedy the issues described would indicate in an invoice being issued to CCCTEC for return of PCSGP funds. In addition, CCCTEC would not be considered in good standing with the PCSGP and would be unlikely to secure an agreement to sell PCSGP receivables.

• CCCTEC submitted documents describing its insurance policies as requested; however no evidence was provided that indicated whether premiums had been paid. An invoice for 2011–12 was provided that showed an amount due of $16,263.88. However, the only indication of any payment is a hand-written note on the invoice that states “PAID $3000.00 7/1/11 owe $13,263.88 for 2011–12.”

• CCCTEC was asked to provide evidence of any outstanding invoices due to vendors. While CCCTEC did provide invoices that had not yet been disclosed to the CDE, CCCTEC did not provide invoices to several vendors that have provided unpaid invoices to the CDE. In addition, CCCTEC provided little to no detail regarding the amounts due to teachers and staff, and no detail regarding a plan to pay past due salary taxes and benefit payments. This lack of evidence increases the CDE’s significant concerns regarding the capacity of CCCTEC to use generally accepted accounting principles to manage its accounts.

**Facts relating to EC Section 47607(c)(4): that CCCTEC may have violated a provision of law, EC Section 47605(l), that requires teachers of core subjects to possess an appropriate credential or other document authorizing them to teach the subjects to which they are assigned:**

CCCTEC has failed to provide evidence of highly-qualified status and proper credentialing for all core teachers employed in the 2010–11 and 2011–12 school years and a detailed plan regarding plans to recruit and hire highly-qualified and properly credentialed teachers for the 2011–12 school year, including master schedules that identify teacher assignments for each course.

• In the evidence submitted by CCCTEC, CCCTEC states that “all students were appropriately supervised with an appropriately credentialed teacher in all core classes” and that “CCCTEC does have 2 teachers who are interns in Fortune School and National University.” As evidence, CCCTEC provides copies of teacher credentials. However, the CDE cannot draw conclusions regarding the appropriateness of the provided credentials, as
no teacher assignments were aligned to them. In addition, no master schedule was provided, so there is no way for CDE to discern how many teachers of core subjects were or will be hired and whether those teachers were properly credentialed.

- CCCTEC also proposes that it will work with the CDE to “clarify staff assignments and show matching credentials with CDE staff in the future including teachers in intern programs.” The CDE finds that this proposal lacks sufficient detail to ensure that credentialing requirements are met. Specifically, the CDE finds that CCCTEC may not understand that enrollment in an intern program does not constitute appropriate credentialing.

Notification of Public Hearing:

Please be advised that should the SBE issue a Notice of Intent to Revoke on September 7, 2011, staff from the CDE will contact you after the Board's action to provide notification of the public hearing on September 8, 2011. You will be notified via e-mail and phone, using the contact information that you have provided the CDE and as specified below;

Paul Preston: paul@ccctec.org; 877-323-8878
Steve McPherson: steve@ccctec.org

You are also encouraged to attend the SBE’s meeting on September 7, 2011, and the possible hearing on September 8, 2011, to present any evidence you deem necessary to assist the SBE in making its decision. You may also watch the SBE’s proceedings online at: http://www.cde.ca.gov/be/ag/ag/sbelivestream.asp.

Please note that materials relative to the Board’s action will be made public in accordance with the Bagley-Keene Open Meetings Act and may be viewed at: http://www.cde.ca.gov/be/ag/ag/index.asp

If you have any questions or need any additional information, please contact me at (916) 319-0699 or via e-mail at sburr@cde.ca.gov.

Sincerely,

Susan K. Burr, Executive Director
California State Board of Education

The California Department of Education (CDE) recommends that the State Board of Education (SBE) approve Local Educational Agency (LEA) Plans listed in Attachment 1.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The 2002 No Child Left Behind (NCLB) provisions of the Elementary and Secondary Education Act (ESEA) of 1965 state in Section 1112(e)(2) that the state educational agency (SEA) shall approve an LEA’s Plan if the SEA determines that the LEA’s Plan is designed to enable its schools to substantially help children meet the academic standards expected for all children. The approval of an LEA Plan by the local school board and by the SBE is a requirement for receiving federal funding sub-grants for ESEA programs.

The California review of initial LEA Plans under the NCLB authorization of ESEA was discussed by the SBE in June and July 2003. In June 2003, the SBE directed CDE staff to assess the relative presence of each of the LEA Plan provisions required by federal law and to avoid adding any additional requirements. Staff from across the CDE was trained to use checklists of the required provisions.

At its July 2003 meeting, the SBE approved the CDE recommendation to approve all 1,040 LEA Plans, 395 of which required additional technical information but which were approved pending submission of additional materials. Since the current LEA Plan process was developed in July 2003, CDE goal reviewers have used the adopted checklists to review initial LEA Plans and the SBE has approved 1,583 LEA Plans.

SUMMARY OF KEY ISSUES

The purpose of the LEA Plan is to develop an integrated, coordinated set of actions that LEAs will take to ensure that they meet certain programmatic requirements, including student academic services designed to increase student achievement and performance,
SUMMARY OF KEY ISSUES (Cont.)

coordination of services, needs assessments, consultations, school choice, supplemental services, services to homeless students, and others as required.

School districts, county offices and direct-funded charter schools submit initial LEA Plans to the CDE as part of the application for ESEA funding. CDE program staff review Plans for compliance with the requirements of the ESEA. Reviews include review of the presence of required goals, planned activities, and proposed timelines to improve student performance in reading and mathematics.

Goals and activities address reading and mathematics, programs for English learner students; professional development and assurance of highly qualified teachers; safe and drug-free school environments conducive to learning; and strategies to improve student graduation rates, prevent dropouts, and promote advanced placement. If an LEA Plan lacks the required information, CDE program staff works with the LEA to ensure the necessary information is included in the Plan before recommending approval to the SBE.

Following initial CDE review and SBE approval of initial LEA Plans, federal law requires all LEAs and direct-funded charter schools to periodically review and update their LEA Plans as necessary. California defines this as an annual review and update. Any changes must be approved by an LEA’s local governing board, but routine LEA Plan updates are not submitted to CDE unless the LEA is in Improvement when requirements vary.

Any LEA receiving ESEA funds that fails to make its Adequate Yearly Progress achievement goals or, in the case of Title II, fails to meet Highly Qualified Teacher requirements, becomes subject to improvement. Planning requirements, technical assistance, Plan review by CDE staff, and accountability requirements for LEA performance escalate as LEAs advance in improvement.

The CDE understands that the SBE is interested in strengthening LEA Plans. The SBE has expressed an interest in increasing the rigor of LEA plans now before ESEA is reauthorized. However, in May 2011 conversations with federal Student Achievement and School Accountability officials, CDE was cautioned about changing the standard for the review of initial LEA Plans, absent changing the standard for all LEA Plans. Further, ESEA Section 1112 (d) (2) states that each LEA Plan shall remain in effect for the duration of the agency’s participation in this section of ESEA.

Thus, CDE is disinclined to recommend changes to the initial review of LEA Plans. A future SBE item will address the natural policy opportunities which are available when LEAs fail to make academic achievement targets and advance into Improvement status. In the interim, the CDE is: reviewing its tools for LEA use while in Improvement, aligning them, as appropriate, to support implementation of the Common Core State Standards; conducting professional development on how to write, support, and monitor an effective LEA Plan; and working across ESEA Titles to create more internal coherence within ESEA-funded programs.
FISCAL ANALYSIS (AS APPROPRIATE)

There is no fiscal impact to state operations.

-- Indicates no data are available.  
** Indicates AYP criteria are not applied because there are too few students in this subgroup to be numerically significant.  
*** Growth targets are 5 percent difference between the Base API and statewide target of 800. The 2010 API criteria for meeting federal AYP: a minimum “2010 Growth API” score of 680 OR “2009-10 Growth” of at least one point.  
CI = Passed using confidence intervals: Small schools and LEAs with fewer than 100 valid scores have adjusted AMOs to account for the small number of test scores. These schools and LEAs met the adjusted percent proficient criteria using a confidence interval methodology. Very small schools and LEAs with fewer than 11 valid scores have adjusted API criteria to account for the very small number of test scores. These schools and LEAs met the adjusted API criteria using confidence interval methodology.
ITEM 5
California State Board of Education

September 2011 Agenda

Subject

Elementary and Secondary Education Act Update: School Improvement Grant: Status of Renewal of Funding for Year 2 of Cohort 1 Fiscal Year 2009 Local Educational Agencies and Schools for the Sub-Grants Under Section 1003(g), and other Elementary and Secondary Education Act Updates as Appropriate.

☐ Action
☐ Information
☐ Public Hearing

Recommendation

The California Department of Education (CDE) recommends that the State Board of Education (SBE) authorize SBE President, Michael Kirst, in conjunction with State Superintendent of Public Instruction, Tom Torlakson, to approve funding for Year 2 of Cohort 1 School Improvement Grant (SIG) contingent on SIG local educational agencies (LEAs) submitting a Corrective Action Plan to address implementation concerns identified during the monitoring and review process.

The CDE also recommends that the SBE approve California’s application for a waiver of the requirement in Section I.A.2(d)(1)(i)(B) of the final requirements for the SIG program, which requires an LEA to develop and implement teacher and principal evaluation systems that meet certain requirements during the first year a school is implementing the transformation model.

Summary of Previous State Board of Education Discussion and Action

At its July 2011 meeting, the SBE took action to conditionally renew funding for Year 2 of SIG Cohort 1. Continuation of funding is contingent on each Cohort 1 SIG LEA submitting a Corrective Action Plan to address identified implementation concerns.

Summary of Key Issues

School Improvement Grant Status of Renewal for Funding, Year 2

In response to the SBE’s July 2011 action, the CDE developed a comprehensive timeline for creating Corrective Action Plan documents and providing feedback and technical assistance regarding SIG fiscal and programmatic findings to SIG Cohort 1 sub-grantees. An initial letter was e-mailed to all Cohort 1 sub-grantees, providing a detailed definition of increased learning time (ILT), the timeline for the Corrective Action Plan, and resources to assist with ILT compliance. A copy of the letter is provided as Attachment 1.
CDE staff contacted each Cohort 1 LEA to discuss implementation concerns and reviewed the Corrective Action Plan procedures. The documentation that will be submitted by LEAs as part of the Corrective Action Plan includes:

- Cover Page containing Summary of Findings and Proposed Resolutions
- Corrected Proposed Budget and Budget Narrative
- Revised Implementation Chart
- Signature Page verifying the LEA’s support and understanding of required SIG elements

The Corrective Action Plans address the summary of findings and proposed resolutions that will be made to ensure compliance with the statutory requirements as defined by the U.S. Department of Education (ED). An updated status report for Cohort 1 LEAs and schools will be provided as Attachment 2 in an Item Addendum.

The CDE will review the Corrective Action Plans and provide ongoing technical assistance to each LEA on programmatic and fiscal resolution. Pursuant to SBE action, Cohort 1 Year 2 Grant Award Notifications and funding may not be released until all findings have been addressed.

Through ongoing guidance from the ED and California Comprehensive Center at WestEd, CDE staff are in the process of providing targeted technical assistance via Webinars, establishing an online school turnaround learning community, and developing California state-specific resources for programmatic and fiscal implementation issues.

**Approval of California’s Request to Waive Certain Statutory and Regulatory Requirements of Supplemental Educational Services Pursuant to Title I, Part A of the Elementary and Secondary Education Act**

California has been granted approval of the following two waivers:

- To allow an LEA in Program Improvement or corrective action to be eligible to apply as Supplemental Educational Services (SES) providers, which is currently prohibited by the *Code of Federal Regulations* sections 200.47(b)(1)(iv)(a), and (b).

- To allow an LEA the flexibility to offer SES to eligible students in Title I schools in Year one of Improvement (a year earlier than the law normally requires) in addition to offering public school choice options to students in those schools and to count the costs of providing SES to those students toward meeting an LEAs 20 percent obligation.
SUMMARY OF KEY ISSUES (Cont.)

The July 25, 2011, letter from Michael Yudin, Deputy Assistant Secretary for Policy and Strategic Initiatives, ED, which grants California’s approval for the two waivers, is provided as Attachment 3.

School Improvement Grant Waiver of Timeline to Implement Teacher and Principal Evaluation Systems

The ED has invited states to apply for a waiver of the requirement in Section I.A.2(d)(1)(i)(B) of the final requirements for the SIG program, which requires an LEA to develop and implement teacher and principal evaluation systems that meet certain requirements during the first year a school is implementing the transformation model. Those systems must be rigorous, transparent, and equitable and take into account data on student academic growth as a significant factor as well as other factors, such as multiple observation-based assessments of performance, ongoing collections of information on professional practice reflective of student achievement, and increased high school graduation rates. The August 12, 2011, letter from Michael Yudin, Deputy Assistant Secretary for Policy and Strategic Initiatives, ED, inviting requests of a waiver of the timeline to implement teacher and principal evaluation systems for SIG is provided in Attachment 4.

This waiver would permit California, in accordance with criteria the CDE develops, to permit an LEA that is implementing the transformation model in one or more schools to take additional time to develop and implement high-quality evaluation systems that meet these requirements. The waiver would apply only to evaluation systems for Cohort 1 and Cohort 2 SIG schools as follows:

- A school that began implementing the transformation model during the 2010–11 school year (Cohort 1) and that was not able to complete the development and implementation of its evaluation systems during that year must develop them during the 2011–12 school year and, at a minimum, pilot them for all teachers and principals no later than the 2012–13 school year. The piloted systems should be capable of being used for decisions regarding, for example, retention, promotion, compensation, and rewards, no later than the 2013–14 school year.

- A school that begins implementing the transformation model in the 2011–12 school year (Cohort 2) must develop its evaluation systems during that year, pilot them for all teachers and principals during the 2012–13 school year, and use the system in the school, including for decisions regarding, for example, retention, promotion, compensation, and rewards, no later than the 2013–14 school year.

California’s application for this waiver will be provided as Attachment 5 in an Item Addendum.
Additional Elementary and Secondary Education Act Updates as Applicable

This item will also be used for the purpose of informing the SBE about new or recent developments relating to the Elementary and Secondary Education Act including any updates on the federal review of SIG and Title 1.

**FISCAL ANALYSIS (AS APPROPRIATE)**

There is no fiscal impact identified at this time.

Deborah V. H. Sigman  
Deputy Superintendent  
California Department of Education  
1430 N Street  
Sacramento, California 95814

Dear Ms. Sigman:

I am writing in response to California’s requests to waive certain statutory and regulatory requirements of Title I, Part A of the Elementary and Secondary Education Act of 1965 (ESEA), as amended. After reviewing California’s requests, I am pleased to grant the following waivers:

- Approving schools and LEAs identified for improvement, corrective action, or restructuring as supplemental educational services (SES) providers. I am granting a one-year waiver of 34 C.F.R. § 200.47(b)(1)(iv)(A) and (B) to permit California to approve a school or LEA identified for improvement, corrective action, or restructuring to serve as an SES provider in the 2011–2012 school year.

- Offering SES in addition to public school choice in the first year of improvement and counting the costs of both toward an LEA’s 20 percent obligation. I am granting a one-year waiver of ESEA section 1116(b)(10) and 34 C.F.R. § 200.48 to permit an LEA in California to offer SES in addition to public school choice to eligible students in Title I schools in the first year of school improvement and to count the costs of providing SES to these students toward the LEA’s 20 percent obligation under 34 C.F.R. § 200.48.

These waivers are granted on the condition that California will satisfy the conditions detailed in the enclosure to this letter, including the requirement to report certain information about the use of each of the waivers to the Department by September 30, 2012. Please be sure to review the enclosure carefully.

I appreciate the work you are doing to improve your schools and provide a high-quality education for your students. If you have any questions, please contact Sharon Hall of my staff at sharon.hall@ed.gov or (202) 260-0998.

Sincerely,

Michael Yudin  
Deputy Assistant Secretary for Policy and Strategic Initiatives

400 MARYLAND AVE, S.W. CALIFORNIA, D.C. 20202  
www.ed.gov

Our mission is to ensure equal access to education and to promote educational excellence throughout the Nation.
CONDITIONS ON TITLE I, PART A WAIVERS

Approving schools and LEAs identified for improvement, corrective action, or restructuring as supplemental educational services (SES) providers (34 C.F.R. § 200.47(b)(1)(iv)(A) and (B))

This waiver is granted on the condition that California will submit to the Department, by September 30, 2012, a report that includes:

- The total number of LEAs identified for improvement or corrective action that were approved to be an SES provider for the 2011–2012 school year; and
- The total number of schools identified for improvement, corrective action, or restructuring that were approved to be an SES provider for the 2011–2012 school year.

Offering SES in addition to public school choice in the first year of improvement and counting the costs of both toward the 20 percent obligation (ESEA section 1116(b)(10); 34 C.F.R. § 200.48)

This waiver is granted on the condition that California will:

- Ensure that each LEA taking advantage of the waiver complies with all other statutory and regulatory requirements related to SES for the 2011–2012 school year; and
- Submit to the Department, by September 30, 2012, a report that provides the name and NCES District Identification Number for each LEA taking advantage of the waiver.
Dear Chief State School Officer:

I am writing to address an issue regarding the full and effective implementation of the transformation model in your State’s persistently lowest-achieving schools under the School Improvement Grants (SIG) program. Several States have reported, and U.S. Department of Education (Department) monitoring visits have confirmed, that it has been difficult for many transformation schools to implement high-quality teacher and principal evaluation systems as quickly as required in the SIG final requirements and that there is a need for extra time for implementation in some situations.

As you know, one of the most critical components of the transformation model is rigorous, transparent, and equitable evaluation systems for teachers and principals. These systems must take into account data on student academic growth as a significant factor, as well as other factors, such as multiple observation-based assessments of performance, ongoing collections of information on professional practice reflective of student achievement, and increased high school graduation rates. Under the SIG final requirements, districts must develop these evaluation systems during the first year of implementing the transformation model.

I cannot emphasize enough the key role of high-quality teacher and principal evaluation systems in supporting improved teaching and learning in all schools, and particularly in persistently lowest-achieving schools. At the same time, I recognize that many districts are approaching this work for the first time. Without previous groundwork and investment, developing high-quality, comprehensive evaluation systems may take more time than initially contemplated under the SIG final requirements. For this reason, an extended timeline for developing and implementing such systems may be appropriate for some schools in the first two SIG cohorts (those that began full implementation of the transformation model in the 2010–2011 school year and those that will begin full implementation in the 2011–2012 school year).

For these reasons, I am inviting States to apply for a waiver to permit them to allow, in accordance with criteria they develop, a local educational agency (LEA) that is implementing a transformation model with SIG funds to take additional time to meet the requirement in Section I.A.2(d)(1)(i)(B) of the SIG final requirements. The waiver would apply only to evaluation systems for cohort 1 and cohort 2 schools as follows:

- A school that began implementing the transformation model during the 2010–2011 school year (cohort 1) and that was not able to complete the development and implementation of its evaluation systems during that year must develop them during the 2011–2012 school year and, at a minimum, pilot them for all teachers and principals no later than the 2012–2013 school year. The piloted systems should be capable of being
used for decisions regarding, for example, retention, promotion, compensation, and rewards, no later than the 2013–2014 school year.

- A school that begins implementing the transformation model in the 2011–2012 school year (cohort 2) must develop its evaluation systems during that year, pilot them for all teachers and principals during the 2012–2013 school year, and use the system in the school, including for decisions regarding, for example, retention, promotion, compensation, and rewards, no later than the 2013–2014 school year.

To receive this waiver, a State must submit a request to the Department that addresses the requirements in section 9401 of the Elementary and Secondary Education Act of 1965 (ESEA), as amended. We are enclosing a template to assist States in submitting their request. The template includes the assurances that each State requesting the waiver must provide. For example, to receive the waiver, the State must assure that it will develop criteria to evaluate whether an LEA has demonstrated a sufficient level of commitment to, and progress in, implementing principal and teacher evaluation systems for its cohort 1 or cohort 2 schools to justify the receipt of a timeline waiver and to evaluate whether, if an extension is granted, the LEA’s affected schools will be able to meet the timelines described above for developing and implementing the evaluation systems. To assist States in developing their criteria, we are enclosing suggested guiding questions that can help differentiate among LEAs that have met the requirement, those that are making sufficient progress, and those that have not made a good-faith effort and, therefore, do not merit additional time to meet the teacher and principal evaluation system requirements of the SIG transformation model.

Within 30 days of receiving the waiver from the Department, the State must post its process, criteria, and timeline for approval of LEA requests to implement the waiver on its public Web site. The State must also (a) develop a technical assistance and support plan that outlines how the State will differentiate support to its LEAs based on their current level of implementation and (b) provide LEAs with the assistance they need in meeting the evaluation system requirements. Similarly, the State must develop a plan for the 2011–2012 school year, or update its existing plan, to monitor those LEAs that are approved to implement the waiver in order to ensure that they are on track to full implementation of teacher and principal evaluation systems as outlined above. In addition, within 30 days of approving an LEA’s extension request, the State must post on its Web site and submit to the Department a list that includes (1) the LEAs (including their NCES district identification number) that it has approved to implement the waiver, (2) the schools (including their NCES school identification number) within those LEAs that are implementing the transformation model, and (3) an identification of the cohort within which each school falls.

To assist States in helping LEAs develop and implement strong teacher and principal evaluation systems, the Department plans to provide technical assistance over the next few months. The Department recently launched the School Turnaround Learning Community (STLC), which will be a platform for resource-sharing and ongoing support for States, LEAs, and schools (www.schoolturnaroundsupport.org). On July 29, the Department launched a four-part webinar series, via the STLC, on teacher evaluation system implementation. The next webinar, which is
targeted to both SEAs and LEAs, will be held on August 12 and will focus on Selecting Evaluation Measures. In addition, the Department’s National Comprehensive Center for Teacher Quality has just released *A Practical Guide to Designing Comprehensive Teacher Evaluation Systems* (http://www.tgsource.org/practicalGuide/) and the Reform Support Network recently released *Great Teachers and Leaders: State Considerations on Building Systems of Educator Effectiveness* (http://www2.ed.gov/programs/racetothetop/great-teachers.doc). The Department will continue to provide support on this topic via the STLC and through its comprehensive centers. Let us know if there are additional ways the Department can be helpful on this and other topics of interest.

For additional information about the general requirements for waiver requests under section 9401 of the ESEA, please consult Section A of the Department’s Non-Regulatory Guidance on Title I, Part A Waivers (July 2009) (available at: http://www2.ed.gov/policy/gen/leg/recovery/programs.html).

I encourage you to submit your waiver request by August 26, 2011, in order for the Department to respond in time for your affected LEAs to develop their systems with a clear understanding of what is required of them during the 2011–2012 school year. If you have any questions or need additional information as you prepare your waiver request, please contact Carlas McCauley at carlas.mccauley@ed.gov or (202) 260-0824.

Sincerely,

Michael Yudin  
Acting Assistant Secretary

Enclosures
ITEM 6
SUMMARY OF THE ISSUES
On August 18, 2011, the California Department of Education (CDE) was awarded approximately $290 million to administer the federal Public Charter Schools Grant Program (PCSGP) for the 2010–15 grant cycle. This item presents two separate and urgent issues related to the administration of the PCSGP as follows:

1. Compliance with PCSGP Application Assurances
On August 11, 2011, the federal Department of Education (DOE) notified the CDE that it is partially out of compliance with Assurance 3A and completely out of compliance with Assurance 3B in the PCSGP grant application because increases in pupil academic achievement in all groups of pupils as described in Section 1111(b)(2)(C)(v) of the Elementary and Secondary Education Act (ESEA) is not the “primary consideration” in the approval, renewal, and revocation of California charter schools.

2. PCSGP Grant Awards
On August 23, 2011, the CDE was provided new information, regarding the August 11, 2011 PCSGP revised grant award notification and reductions in PCSGP awards to California for fiscal years (FYs) 2010–11 and 2011–12.

RECOMMENDATION
1. Compliance with PCSGP Application Assurances
The CDE recommends that the State Board of Education (SBE) take action as deemed necessary and appropriate, including, but not limited to, the following:

   a) Supporting legislation and any necessary regulatory action to bring California into compliance with Assurances 3A and 3B; and

   b) Directing the CDE to bring proposed revisions to the California Code of Regulations, Title 5 (5 CCR) Section 11968.5 relating to the revocation of charter schools to the SBE for consideration at its November 2011 meeting.
2. PCSGP Grant Awards
The CDE recommends that the SBE take action as deemed necessary and appropriate, including, but not limited to, directing the CDE to request further information and details from the DOE regarding the funding formulas used to determine PCSGP grant awards.

BRIEF HISTORY OF KEY ISSUES

1. Compliance with PCSGP Application Assurances
In October of 2010, the CDE was notified by the DOE that it was not compliant with the following element of Assurance 3A and not compliant with the entirety of Assurance 3B of the PCSGP application that require that —

3A) Each authorized charter school in the State operate under a legally binding charter or performance contract between itself and the school’s authorized public chartering agency that … demonstrates improved student academic achievement; and

3B) Authorized public chartering agencies use increases in student academic achievement for all groups of students described in section 1111(b)(2)(C)(v) of the ESEA, including economically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and students with limited English proficiency, as the most important factor when determining to renew or revoke a school’s charter.

Details regarding the DOE’s concerns are provided as Attachment 1. The CDE Charter Schools Division provided a formal written response regarding Assurances 3A and 3B to the DOE in a letter dated November 1, 2010. On March 31, 2011, the CDE received an e-mail from the DOE indicating that California was not fully compliant with Assurances 3A and 3B and had not submitted a plan and timeline describing the state’s progress in addressing the assurances. On May 23, 2011, the CDE Charter Schools Division (CSD) responded with a follow-up e-mail addressing the assurances. However, the CDE received an e-mail from the DOE on May 24, 2011, indicating that these responses were considered insufficient in addressing the lack of state law, regulation, or policy relative to Assurances 3A and 3B.

Since that time, the CSD has participated in a number of calls with DOE staff regarding the assurances and CDE’s work with California legislative staff to revise state law regarding charter authorization, renewal, and revocation.

On August 11, 2011, the CDE received formal notice from the DOE that the CDE must either provide evidence of state law, regulation, or other policy that addresses compliance with Assurances 3A and 3B or provide a written plan of action to the DOE that addresses compliance by September 1, 2011. If a plan is submitted, it must be approved by the DOE and enacted by January 31, 2012. Failure to comply with these requirements will result in the DOE taking action, which may include withholding of grant funds, placing the grant on a cost reimbursement system of payment, terminating the grant, or initiating a recovery of funds proceeding.
The CDE recommends that the SBE support the development of legislation, regulation, or policy to address the DOE’s findings and to ensure full funding of the PCSGP grant award. Proposed legislation would need to revise Education Code (EC) sections 47605, 47605.6, and 47607 to make increases in academic achievement for pupils in all numerically significant groups the most important factor when considering approval, renewal, or revocation of a charter petition.

As an additional remedy to California’s lack of full compliance with Assurances 3A and 3B, the CDE recommends that the SBE direct the CDE to start the rulemaking process to revise 5 CCR Section 11968.5. This section of regulation provides that the State Superintendent of Public Instruction shall identify and notify the SBE of each charter school that warrants action to revoke pursuant to EC Section 47604.5(c). Current regulations identify charter schools that have met the following criteria:

1. Been in operation five years or more,
2. Not qualified for the Alternative School Accountability Model; and
3. Received a statewide rank of 1 on Academic Performance Index (API) base data for the previous two years and not made cumulative API growth of at least 50 points over the previous three API cycles.

The DOE found that the current regulations apply only to charter schools in the lowest decile ranking and do not ensure that increases in pupil academic achievement in all groups are the most important factor in revocation decisions for all charter schools.

Therefore, the CDE recommends that these regulations be revised to ensure that all charter schools are accountable for the increased academic achievement of all pupils served and that California continue to receive PCSGP funds to support high quality charter schools.

2. PCSGP Grant Awards

On August 18, 2010, the CDE received a grant award notification that awarded $42.5 million in FY 2010–11 and an additional $9.2 million that was described as a deferral of funds from FY 2010–11 to FY 2011–12. The CDE was directed to spend the $9.2 million in 2011–12 and to track it separately from other 2011–12 funds.

On August 11, 2011, the CDE received a revised PCSGP grant award notification letter from the DOE that included reductions in funding for FYs 2010–11 and 2011–12 (Table 1).

On August 23, 2011, via phone conference, the CDE received further information and clarification from the DOE regarding the reductions in the PCSGP awards. This information included that $9.2 million previously described to the CDE as a deferral from FY 2010–11 to FY 2011–12 was actually a reduction to the 2010–11 grant award. The DOE stated that this reduction was due to the DOE lowering the estimate for the number of schools funded in FY 2010–11 from the number in the original CDE application.
During the same phone conference, the DOE stated that the $9.2 million that was awarded to the CDE during FY 2010–11 was considered by the DOE to be forward funding for FY 2011–12. Prior to this phone conference, the CDE had understood that this amount had been a deferral of funds, rather than a reduction of funds, from FY 2010–11.

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

#### Revocation Regulations

The SBE approved the rulemaking package to adopt 5 CCR Section 11968.5 at its November 2010 meeting. These regulations were filed by the Office of Administrative Law on January 14, 2011, and became operative on February 13, 2011. This section of regulation, along with relevant law, is provided as Attachment 3.

#### FISCAL ANALYSIS (AS APPROPRIATE)

1. Compliance with PCSGP Application Assurances

   The CDE was awarded approximately $290 million for the 2010–15 PCSGP grant cycle. If no action is taken, the CDE is at risk of permanently losing some or all of this grant award.

2. PCSGP Grant Awards

   The reduction of PCSGP grant awards reduces the number of grants that the CDE can award to eligible charter schools by 22 schools in the 2011 – 12 school year. In addition, ESEA Section 5204(f)(4) authorizes a state educational agency to reserve not more than 5 percent of the grant funds for administrative expenses. The reduction to CDE's State Operations Budget as a result of the $11.4 million reduction is $570,879.

<tr>
<td>August 18, 2010</td>
<td>The California Department of Education (CDE) received federal Public Charter Schools Grant Program (PCSGP) grant award notification.</td>
</tr>
<tr>
<td>October 2010</td>
<td>The CDE was informed that California’s authorization, renewal, and revocation laws were inadequate relative to Assurances 3A and 3B of the PCSGP application.</td>
</tr>
<tr>
<td>November 1, 2010</td>
<td>The CDE Charter Schools Division (CSD) sent a response letter regarding Assurances 3A and 3B to the Department of Education (DOE). This letter described current law and regulation regarding charter authorization, renewal, and revocation as it pertained to the assurances.</td>
</tr>
<tr>
<td>December 2010</td>
<td>Beth Hunkapiller, Director of the CDE CSD, attended a meeting for PCSGP state educational agency directors at the DOE and discussed Assurances 3A and 3B with DOE staff.</td>
</tr>
<tr>
<td>March 31, 2011</td>
<td>The DOE replied via e-mail that the CSD’s November 1, 2010, response to concerns with Assurances 3A and 3B was insufficient.</td>
</tr>
<tr>
<td>May 23, 2011</td>
<td>The CSD sent an e-mail to the DOE responding Assurances 3A and 3B. This response provided further clarification regarding the State’s accountability system and charter renewal and revocation law; newly enacted regulations regarding charter revocation; and pending renewal legislation that CDE was attempting to influence to reflect the assurances.</td>
</tr>
<tr>
<td>May 24, 2011</td>
<td>The DOE responded via e-mail that the CSD May 23, 2011, response was partially compliant with Assurance 3A and noncompliant with Assurance 3B.</td>
</tr>
</tbody>
</table>
• June 14 and July 2011  Ms. Hunkapiller and DOE staff exchanged phone calls regarding CDE’s efforts to influence charter renewal legislation to reflect Assurance 3B.

• August 11, 2011  The CDE received a new PCSGP Grant Award Notification that included formal notice regarding lack of compliance with Assurances 3A and 3B. This award notification included special terms and conditions that required the CDE to respond by September 1, 2011, with either evidence of compliance or a written plan to comply by September 1, 2011. In addition the terms specify that failure to comply or have a plan approved by the DOE by January 30, 2012, will result in action, which may include but not necessarily be limited to, withholding of grant funds, placing the grant on a cost reimbursement system of payment, terminating the grant, or initiating a recovery of funds proceeding.

• August 17, 2011  CDE staff, including Ms. Hunkapiller and Ms. Alcalá, participated in a conference call with DOE staff to request clarification about the August 11, 2011, grant award relative to Assurances 3A and 3B.

• August 23, 2011  The CDE and State Board of Education staff had a phone conference with DOE staff to clarify requirements of Assurances 3A and 3B. The CDE requested examples of law, regulation, or policy enacted by other states that were compliant with the assurances.
Chronology of California Department of Education Responses Regarding the Public Charter Schools Grant Program Award Funding

- **August 18, 2010**
  The California Department of Education (CDE) received federal Public Charter Schools Grant Program (PCSGP) grant award notification that specified funding for fiscal year (FY) 2010–11 of $51,769,620; FY 2011–12 of $51,596,028; and FY 2012–13 of $60,866,275. On the “Special Terms and Conditions” page, the award states: “The FY 2010 grant award includes funding in the amount of $42,525,000 for FY 2010 and $9,244,620 for FY 2011. The grantee must track these funds separately for each of the two years. An additional $51,596,028 will be awarded for FY 2011.”

- **September 24, 2010**
  The CDE received a revised grant award notification that specified amounts for FYs 2010–11, 2011–12, and 2012–13 that matched the August 18, 2010 grant award notification. The September 24, 2010, grant award also included specifications for FY 2013–14 funding of $63,252,158 and FY 2014–15 funding of $63,271,073. There were no special terms or conditions provided.

- **May 23 – June 14, 2011**
  Lupita Cortez Alcala, CDE Deputy Superintendent, and DOE staff exchanged e-mails regarding clarification of the 2010–11 funding awards.

- **June 14, 2011**
  An e-mail from DOE staff referenced a revised grant award notification from November 1, 2010. CDE staff replied on the same day indicating that CDE had never received a November revision. DOE staff replied that CDE would be sent a copy of that revision. (The CDE did not receive a revised grant award notification until August 11, 2011.)

- **August 11, 2011**
  The CDE received a revised PCSGP Grant Award Notification that included reduced award amounts for FYs 2010–11 and 2011–12 and formal notice regarding lack of compliance with Assurances 3A and 3B. The award notification contained a notification signed by the DOE on July 29, 2011,
that reduced the FY 2011–12 amount from $51,596,028 to $40,178,454 and a notification signed by the DOE on August 4, 2011, that showed reduced the FY 2012–13 amount from $60,866,275 to $30,014,848.

• August 23, 2011

The CDE and State Board of Education staff had a phone conference with DOE staff to clarify reductions to the PCSGP grant award. During this phone call, the CDE was informed that the compliance issues were unrelated to the funding reductions. Rather, the CDE was informed that the cuts were due to the fact that the DOE found CDE’s estimates of the number of charter schools to be served in the first two years of the grant award to be high and that the DOE made an adjustment to what they considered a “reasonable” estimate. The DOE also stated that the $9.2 million from FY 2010–11 that was to be tracked separately and spent in FY 2011–12 represented forward funding for 2011–12, not a deferral. In addition, the DOE clarified that the reduction for FY 2012–13 represented an error, and that the FY 2012–13 award had not been reduced.
Relevant Charter Law and Regulation:

*Education Code Section 47604.5 and California Code of Regulations, Title 5, Section 11968.5*

**Education Code Section 47604.5**
The State Board of Education, whether or not it is the authority that granted the charter, may, based upon the recommendation of the Superintendent of Public Instruction, take appropriate action, including, but not limited to, revocation of the school's charter, when the State Board of Education finds any of the following:

(a) Gross financial mismanagement that jeopardizes the financial stability of the charter school.

(b) Illegal or substantially improper use of charter school funds for the personal benefit of any officer, director, or fiduciary of the charter school.

(c) Substantial and sustained departure from measurably successful practices such that continued departure would jeopardize the educational development of the school's pupils.

**California Code of Regulations, Title 5, Section 11968.5**

Revocation of, or Other Action Related to, a Charter by the State Board of Education upon Recommendation by the State Superintendent of Public Instruction (SSPI) Pursuant to Education Code Section 47604.5(c).

(a) The California Department of Education (CDE) on or before November 1 of each year shall identify and notify the State Board of Education (SBE) of each charter school that meets the conditions specified in subdivision (e) and any other charter school that the SSPI determines warrants action pursuant to Education Code section 47604.5(c).

(b) On or before November 1 of each year, the CDE shall notify the charter schools identified pursuant to subdivision (e) of these regulations and each school's authorizer in writing that:

(1) the SSPI may recommend, among other actions, revocation of the school's charter; and

(2) the SBE will consider the SSPI's recommendation and take appropriate action, including, but not limited to, revocation of the school's charter.

(c) The notice provided pursuant to subdivision (b) of these regulations shall provide that the charter school and the authorizer shall be given an opportunity to
provide information in writing to the SSPI and the SBE as to why the school's charter should not be revoked. Such information may include, but is not limited to, action by the school or the local authorizer to address the departures such as the initiation of a plan of corrective action or other local authorizer board action.

(d) Any action to revoke a charter school shall be effective at the end of the fiscal year in which the action is taken, to allow sufficient time for transition in accordance with school closure regulations in section 11962 of these regulations, unless the SBE identifies cause for immediate revocation and closure and makes a public finding that the departures at the school are so significant as to require the immediate revocation and closure of the charter school. At the beginning of the revocation review, the CDE shall require any school being reviewed to immediately provide, at their own expense, written notification to every parent, guardian, or caregiver that fully describes the revocation process, all options including specific schools available to students to transfer if it is needed or desired, and any administrative assistance required for a timely transfer.

(e) Substantial and sustained departure from measurably successful practices that jeopardize the educational development of a school's pupils within the meaning of subdivision (c) of Education Code section 47604.5 occurs when a charter school:

(1) is in operation five years or more, and

(2) the charter school has not qualified for the Alternative School Accountability Model pursuant to subdivision (h) of Education Code section 52052, and

(3) The charter school has met each of the following:

(A) a statewide rank of 1 on API base data for the last two years, and

(B) did not achieve a cumulative API growth of at least 50 points over the last three API cycles (i.e., an API cycle represents the difference between a current year growth API and the prior year's base API).

(4) These criteria do not limit the discretion of the SSPI and SBE to recommend or take action relating to a charter school that does not meet these criteria, but which otherwise demonstrates a substantial and sustained departure from measurably successful practices that jeopardize the educational development of a school's pupils within the meaning of subdivision (c) of Education Code section 47604.5.

(f) Nothing in this section shall be interpreted to relieve the chartering authority of its duties as a charter authorizer.
(g) After the CDE determines the conditions in subdivision (e) exist for any charter school, and makes notifications in accordance with subdivisions (b) and (c), the following shall occur:

(1) If the charter school or the authorizer choose to submit any supporting materials, the materials shall be received by the CDE by 5:00 p.m. on December 1.

(2) The SSPI shall deliver his/her recommendation to the executive director of the SBE no later than January 15.

(3) No later than February 1, the CDE shall send notification to the charter school and its authorizer of the SSPI's recommendation and the date of the SBE meeting when the recommendation is scheduled to be heard.

(4) The SBE shall hold a public hearing and consider action in accordance with Education Code section 47604.5 no later than March 31.

(h) The authority of the SBE pursuant to Education Code section 47604.5 is not limited to revocation. Based on additional information provided by the charter school, the school's authorizer, or teachers and parents of pupils at the school, which may include data on more recent academic gains, similar schools rankings and other analysis of similar student populations, and school safety, the SBE may offer the charter school an opportunity to take specific corrective actions in lieu of revocation for the remaining term of the charter. The specific corrective actions shall address the sustained low academic achievement and may include, but is not limited to, a plan to address any subgroups failing to make academic progress. Corrective actions may include, but are not limited to, restructuring of the school's staffing or governance to ensure that the school and all numerically significant subgroups have substantial promise of increasing academic performance in subsequent years.

Q: Where did these Assurances come from?
A: 2010 Appropriations Language:

Consolidated Appropriations Act 2010,
Division D, Title III
Public Law 111-117
Provided further, That each application submitted pursuant to section 5203(a) shall contain assurances that State law, regulations, or other policies require that: (1) each authorized charter school in the State operate under a **legally binding charter or performance contract** between itself and the school’s authorized public chartering agency that describes the obligations and responsibilities of the school and the public chartering agency; conduct annual, timely, and **independent audits** of the school’s financial statements that are filed with the school’s authorized public chartering agency; and **demonstrate improved student academic achievement**; and (2) authorized public chartering agencies use **increases in student academic achievement for all groups of students** described in section 1111(b)(2)(C)(v) of the ESEA as the most important factor when determining to **renew or revoke a school’s charter**.
New SEA Assurances

- For the FY 2010 CSP SEA Grant Competition, ED added this requirement to the required Assurances, as Assurances 3A and 3B.
- The CSP Team contacted SEAs during Fall 2010 to request evidence.
- The Assurances were also included in the FY 2011 CSP Grant Application requirements.
3. State law, regulations, or other policies in the State where the applicant is located require that –

A. Each authorized charter school in the State operate under a legally binding charter or performance contract between itself and the school’s authorized public chartering agency that describes the obligations and responsibilities of the school and the public chartering agency; conduct annual, timely, and independent audits of the school’s financial statements that are filed with the school’s authorized public chartering agency; and demonstrate improved student academic achievement; and

B. Authorized public chartering agencies use increases in student academic achievement for all groups of students described in section 1111(b)(2)(C)(v) of the ESEA as the most important factor when determining to renew or revoke a school’s charter.

Compliance Options

• Legislation

• Regulation

• Policy
Compliance Elements

- Charter or Performance Contract
- Independent Audit
- Improved Student Academic Achievement
- Renew/Revocation Decisions – Increases in Student Academic Achievement as Most Important Factor
What are we looking for under each element?

Charter or Performance Contract:
Must submit evidence demonstrating that charter schools in the state operate under a legally binding contract with the authorizer that describes the responsibilities and obligations of the school and authorizer.
Results

- Of 12 States, 9 were Compliant, 3 were Non-Compliant.

- All of the Compliant states provided excerpts from their state code which defined the performance contract between charter schools and their authorizer and outlined the required provisions for the agreement.

- The 3 Non-Compliant States generally did not provide adequate documentation for ED to reach a conclusion regarding compliance.
What are we looking for under each element?

Independent Audit:

- Must demonstrate that charter schools are required to conduct annual, timely, and independent audits of their financial statements which are filed with their public chartering agency.

- Independent means an external auditor, conducting a financial audit.
Results

- 7 SEAs were deemed Compliant, 5 Non-Compliant
- Of the 7 Compliant SEAs, 6 provided evidence from their charter law/state code
- 1 Compliant SEA could not demonstrate initially that all charter schools had to undergo independent audits, but they cured this through a letter to all authorizers and charter schools clarifying that all charters must undergo an audit, and this requirement will be included in their state’s updated resource guide for financial accountability.
- Of the 5 Non-Compliant states, 2 did not provide adequate evidence to evaluate compliance, and 3 could not demonstrate that the audit was independent (as well as annual, in one case).
What are we looking for under each element?

Charter Schools Demonstrate Improved Academic Achievement for all Students:

- Must provide evidence that authorizers require charter schools to demonstrate improved academic achievement for all students.

- Adequate evidence included written documentation of a state requirement that the goals in a school’s charter include improved academic achievement.
Results

- 5 SEAs were deemed Compliant, 2 have legislation pending, and 5 were deemed Non-Compliant.

- All of the Compliant states provided evidence from their charter law/state code, and 1 also provided evidence of state policy.
What are we looking for under each element?

Increases in student academic achievement for all groups of students described in section 1111(b)(2)(C)(v) of the ESEA as the most important factor when determining to renew or revoke a school’s charter:

- For all groups: economically disadvantaged students; students from major racial and ethnic groups; students with disabilities; and students with limited English proficiency.

- We interpret “Most Important” to mean an absolute requirement for all charter schools, although there may be other factors considered.

- This does prevent State Law from permitting authorizers to decline a renewal or to revoke a charter for other reasons, including, but not limited to material violation of law, violating other terms of a charter, financial insolvency, student safety, etc.
Results

- 4 SEAs were deemed Compliant, 3 have legislation pending, and 5 were deemed Non-Compliant.

- All 4 Compliant SEAs provided evidence from their charter law/state code, and 1 also provided evidence of authorizer policy.

- In the case of one state, state law requires improved academic achievement, but it does address how that is considered in renewal and revocation decisions. That state is issuing new termination process guidance to clarify that this is the most important factor.
Special Terms and Conditions

The U.S. Department of Education (ED) has determined that, as of August 1, 2011, ____________________________ (insert grantee) (PR/Award number UI282A1000__) is not in compliance with the following requirements of the Charter Schools Program (CSP):

State law, regulations, or other policies in the State where the applicant is located require that –

A) Each authorized charter school in the State operate under a legally binding charter or performance contract between itself and the school’s authorized public chartering agency that describes the obligations and responsibilities of the school and the public chartering agency; conduct annual, timely, and independent audits of the school’s financial statements that are filed with the school’s authorized public chartering agency; and demonstrate improved student academic achievement; and

B) Authorized public chartering agencies use increases in student academic achievement for all groups of students described in section 1111(b)(2)(C)(v) of the ESEA as the most important factor when determining to renew or revoke a school’s charter.

[Consolidated Appropriations Act, 2010 (P.L. 111-117), 2010 CSP State educational agencies (SEA) assurances]

On or before September 1, 2011, ____________________________ (insert grantee) must submit to ED a written plan of action for meeting the requirements described above on or before January 31, 2012. The SEA’s plan is subject to ED approval. Failure to submit a plan by September 1, 2011, to have the plan approved by ED by October 1, 2011, or to comply with the requirements described above by January 31, 2012, will result in the Department initiating appropriate enforcement action, which may include, but will not necessarily be limited to, withholding grant funds, placing the grant on a cost reimbursement system of payment, termination of the grant, or recovery of funds.
Compliance Timeline
For 2010 Grantees

ITEM 7
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

SUBJECT

New West Charter Middle School: Consideration of Petition to Renew Charter Currently Authorized by the State Board of Education.

RECOMMENDATION

The California Department of Education (CDE) and The Advisory Commission on Charter Schools (ACCS) recommends the State Board of Education (SBE) hold a public hearing regarding the charter renewal petition for New West Charter Middle School (NWCMS) and renew NWCMS charter for a five-year term beginning July 1, 2012, and ending June 30, 2017.

If approved, the CDE recommends the SBE incorporate the following provisions in its approval action:

- The SBE Conditions on Opening and Operation, as set forth in Attachment 1.
- Modifications to the charter in accordance with the CDE report, as set forth in detail in Attachment 2, and as follows:
  - Description of Educational Program, Education Code (EC) Section 47605(b)(5)(A) and 5 CCR 11967.5.1(f)(1)(F): The CDE recommends a technical amendment to the NWCMS charter petition to include an educational program that commits to narrowing the achievement gap between socioeconomically disadvantaged and non-socioeconomically disadvantaged pupils.
  - Racial and Ethnic Balance, EC Section 47605(b)(5)(G) and California Code of Regulations, Title 5 (5 CCR) Section 11967.5.1(f)(7): The CDE recommends a technical amendment to the NWCMS charter petition to require submission of an annual report to the CDE addressing the outreach plan to ensure racial and ethnic balance reflective of Los Angeles Unified School District (Los Angeles USD) District 3 schools. This report should be submitted by October 31 of each year and contain demographic information about pupils who applied, pupils who were
selected in the lottery process, and pupils who enrolled in the school. If in any year progress is not made toward achieving racial and ethnic balance, this report should also include specific, measurable goals and activities that the school will implement before the next application period and lottery determination.

- Admission Requirements, EC Section 47605(d)(2): The CDE recommends a technical amendment to the NWCMS charter to ensure that the admission requirements comply with applicable federal and state laws, specifically EC Section 47605(d)(2), which requires admission preference be given to returning students and pupils of the local school district as well as pupils who qualified for free and reduced lunch in their prior school. The CDE also recommends and NWCMS has agreed to a technical amendment to revise the admission packet to include only necessary information for the student to be in the lottery for admission (i.e. name, address, current school, and parent information). All other information including student test scores, report cards, student work will be gathered once a student is admitted to NWCMS. (See Attachment 6.)

- Suspension and Expulsion Procedures, 5 CCR 11967.5.1(f)(10): The CDE recommends technical amendments to the petition to meet the requirements of 5 CCR 11967.5.1(f)(10)(D), ensuring that NWCMS review non-charter school lists of offenses and procedures in preparing their list. Additionally, NWCMS needs to provide an assurance that the policies and procedures surrounding suspension and/or expulsion will be amended periodically in accordance with 5 CCR 11967.5.1(f)(10)(E)(2).

- Public School Attendance Alternatives, EC Section 47605(b)(5)(L): The CDE recommends a technical amendment to the NWCMS petition to ensure that the parents of NWCMS students are informed that a pupil has no right to admission in a particular school of any local education agency (LEA) as a consequence of enrollment in NWCMS, except to the extent that such a right is extended by the LEA.

- Dispute Resolution Procedures, EC Section 47605(b)(5)(N): The CDE recommends a technical amendment in the NWCMS petition to reflect that the SBE is not an LEA and therefore may choose to resolve a dispute directly instead of pursuing the dispute resolution process proposed in NWCMS’s petition. Additionally, the petition must describe how the costs of the dispute resolution process, if needed, would be funded.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Since the institution in 1992 of Education Code (EC) Section 47605, which provided for the establishment of charter schools and a process that allowed charter schools that were denied by their local governing authorities to appeal to the SBE for authorization, 78 charter petitions have been submitted to the CDE for consideration on appeal after local denial. Of these 78 petitions, 30 were withdrawn before being scheduled for SBE consideration. Of the remaining 48 appeal petitions, the SBE took the following actions:

- 29 charter schools were authorized by the SBE
- 9 petitions were denied by the SBE
- 1 petition was considered without formal action of the SBE
- 5 petitions were withdrawn by the petitioners prior to SBE action
- 4 petitions are under CDE review for future SBE consideration

Of the 29 charter schools that have been authorized on appeal by the SBE since 1992, 19 SBE-authorized charter schools are currently operating. Ten SBE-authorized charter schools are no longer under SBE oversight due to the following reasons:

- 5 charter schools were renewed by their local districts
- 4 charter schools were abandoned
- 1 charter school was revoked by the SBE

The SBE has considered and approved 8 renewal petitions from SBE-authorized charter schools and is considering one renewal at its September 2011 meeting.

Since January 2011, the SBE has considered and renewed one SBE-authorized charter school and has not considered any new charter appeals. The terms of 2 SBE-authorized charter schools will expire on June 30, 2012. If either of these charter schools is denied renewal by its local district, the school will have the opportunity to appeal the nonrenewal to the SBE during the 2011–12 school year.

Since the institution in 2002 of EC Section 47605.8, which provided for the establishment of statewide benefit charter schools, 4 petitioners have submitted statewide benefit charter petitions to the CDE for consideration. Of these 4 petitions, the SBE took the following actions:

- 3 statewide benefit charter petitions were authorized by the SBE
- 1 statewide benefit charter petition was considered and action was postponed; the petitioner did not resubmit the charter petition

The 3 statewide benefit charter petitions currently authorized by the SBE operate a total of 13 schools. To date, none of the statewide benefit charter petitions has been considered for renewal.
Since January 2011, the SBE has considered and approved one material amendment of a statewide benefit charter. The SBE is due to consider the renewal of 2 of these petitions during the 2011–12 school year.

Since the institution in 1992 of EC Section 47606, which provided for the establishment of districtwide charters, 12 districtwide petitions have been submitted to the CDE for consideration. Pursuant to EC Section 47606, these petitions must be approved by joint action of the State Superintendent of Public Schools (SSPI) and the SBE. Of the 12 petitions submitted, 1 was withdrawn by the district before consideration by the SBE and the SSPI. Of the remaining 11 petitions, the SBE and the SSPI took the following actions:

- 9 districtwide charters were authorized by the SBE and the SSPI
- 2 districtwide charters were denied by the SBE and the SSPI

One districtwide charter was non-renewed by the SBE and the SSPI. The 8 remaining districtwide charter petitions currently operate a total of 18 schools. The SBE and the SSPI have considered 18 and approved 17 renewal petitions from districtwide charters.

Since January 2011, the SBE and the SSPI have considered and approved one districtwide charter petition. No districtwide petitions are due for renewal in the 2011–12 school year.

SUMMARY OF KEY ISSUES

Pursuant to EC Section 47605(j), petitioners for a charter school that have been denied at the local level may petition the SBE for approval of the charter, subject to certain conditions. In 2001, the SBE approved NWCMS to operate under the oversight of the SBE for a five-year charter term, which began in fall 2002. In 2007, the SBE approved the renewal of NWCMS charter for a five-year term, from July 1, 2007, through June 30, 2012.

Under EC Section 47605(k)(3), a charter school that has been granted its charter through an appeal to the SBE and elects to seek renewal of its charter shall, prior to the expiration of its charter, submit its petition for renewal to the governing board of the school district that initially denied the charter. If the governing board of the school district denies the school's petition for renewal, the school may petition the SBE for renewal of its charter.

The NWCMS charter renewal petition was denied by the Los Angeles USD governing board on February 1, 2011. Pursuant to EC Section 47605(k)(3), NWCMS submitted its petition for renewal to the SBE on February 18, 2011. The Los Angeles USD reasons for denial are summarized in the CDE report (see Attachment 2) and are included in full as Attachment 4 of this item.
In its findings, the Los Angeles USD describes three general reasons for denial. First, the Los Angeles USD recommended denial on the basis that the petitioners were demonstrably unlikely to successfully implement the program set forth in the petition.

Second, the petition did not include the required affirmations EC Section 47605(b)(4). The third reason for denial was due to the petition’s failure to contain reasonably comprehensive descriptions of the items required by EC Section 47605(b)(5).

On a recent visit the CDE observed the educational program of NWCMS and found it to mirror the school’s mission to provide a standards-based, college-preparatory curriculum closely following the current California State Standards. The CDE finds that NWCMS does meet the required affirmations pursuant to EC Section 47605(b)(4). The CDE recommends technical amendments to the petition none of which is considered substantive.

NWCMS currently serves approximately 332 pupils in grades six through eight in Los Angeles, California. NWCMS earned a 2010 Growth Academic Performance Index (API) of 913. Based on California Longitudinal Pupil Achievement Data System data from the 2009–10 school year, 26.5 percent of pupils at NWCMS come from socio-economically disadvantaged families; 0.6 percent of the pupils are English Learners (EL); 13 percent of pupils are African American; and 27 percent of pupils are Hispanic or Latino.

In considering the NWCMS charter renewal petition, the CDE reviewed:

- The NWCMS renewal petition
- NWCMS budget information
- NWCMS statewide assessment results
- The reasons for denial by the Los Angeles USD
- NWCMS’s response to the reasons for denial by the Los Angeles USD

When considering a renewal charter petition, the SBE reviews the petition under the requirements for renewal as specified in EC Section 47607(a)(2), which states, “Renewals and material revisions of charters are governed by the standards and criteria in Section 47605, and shall include, but not be limited to, a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed.” EC Section 47605 sets out the criteria for review and approval of a charter petition, including the 16 required elements of a charter petition (see Attachment 2).

Further, EC Section 47607(b) specifies that a charter school shall meet at least one of the following five criteria prior to receiving a charter renewal:
Thus, charter renewal law requires the SBE to evaluate charter renewal petitions under a two-prong analysis: (1) whether the charter school meets at least one of the charter renewal criteria under EC Section 47607(b), and (2) whether the charter petition meets the standards for the establishment of a charter school as required under EC Section 47605.

The CDE finds that NWCMS has met four of the elements required under EC Section 47607(b) for the renewal of a charter term as follows:

1. The CDE finds that NWCMS has attained its API growth target in the prior year and in two of the last three years pursuant to EC Section 47607(b)(1). Since the 2006–07 school year, NWCMS has scored at or above the statewide performance target of 800. During this same time period, NWCMS has continued to demonstrate steady growth on the API scale. The school’s 2010 Growth API was 913. The school’s 2009 Growth API was 886. The 2008 Growth API was 867. The school’s net API growth between 2006 and 2009 was 116 points.

2. NWCMS had statewide ranks of 10, 10, and 9 respectively for the past three years.

3. NWCMS had similar school ranks of 9, 9, and 10 respectively for the past three years.

4. NWCMS’s 2009–10 API growth exceeded four of the middle schools located in district three of the Los Angeles USD where the students would likely attend. Three of the four middle schools where the students would likely attend are in year five of program improvement. NWCMS is not in program improvement.
Therefore, NWCMS has academic performance greater than most of the middle schools the students would otherwise attend.

The CDE also finds that the NWCMS charter renewal petition meets all of the elements required for the establishment of a charter school pursuant to EC Section 47605(b). The NWCMS charter renewal petition describes an educational program grounded in project-based learning principles likely to meet the needs of pupils within the community where the school is located; petitioners are demonstrably likely to implement the program set forth in the petition; and the petition contains reasonably comprehensive descriptions of the 16 charter elements pursuant to EC Section 47605(b)(5). In addition, the CDE finds that NWCMS has experience in starting and operating charter schools under the authorization of the SBE and has been responsive and compliant to deadlines and requests from the CDE.

Accordingly, the CDE recommends the SBE renew the NWCMS charter because the NWCMS has met the requirements for charter renewal under EC sections 47607(b) and 47605(b). The NWCMS renewal is recommended for a five-year charter term pursuant to the requirements of EC Section 47607(a)(1), which states, “Each renewal shall be for a period of five years.”

Technical amendments are needed for clarification and to reflect SBE re-authorization; however, the CDE concludes that none of these amendments is substantive. NWCMS petitioners have agreed to incorporate all of the amendments identified in the CDE report into the final charter, which is one of the requirements under the SBE’s Conditions on Opening and Operation (see Attachment 1).

The NWCMS petition was considered by the ACCS on July 28, 2011. By a vote of 6 to 0 with 1 abstention, the ACCS recommended that the SBE approve the renewal of NWCMS subject to (1) incorporation of all amendments identified in the CDE report; and (2) meeting the SBE’s Conditions on Opening and Operation.

FISCAL ANALYSIS (AS APPROPRIATE)

If approved, this school would receive apportionment funding under the charter school block grant funding model. Funding is based on the statewide average funding levels for each grade span (kindergarten through grade three, grades four through six, grades seven through eight, and grades nine through twelve). Calculations use revenue limits for unified, elementary, and high school districts.

STATE BOARD OF EDUCATION
CONDITIONS ON OPENING AND OPERATION

• **Insurance Coverage.** Not later than **July 1, 2012**, (or such earlier time as school may employ individuals or acquire or lease property or facilities for which insurance would be customary), submit documentation of adequate insurance coverage, including liability insurance, which shall be based on the type and amount of insurance coverage maintained in similar settings.

• **Memorandum of Understanding (MOU)/Oversight Agreement.** Not later than **July 1, 2012**, either (a) accept an agreement with the State Board of Education (SBE), administered through the California Department of Education (CDE), to be the direct oversight entity for the school, specifying the scope of oversight and reporting activities, including, but not limited to, adequacy and safety of facilities; or (b) enter into an appropriate agreement between the charter school, the SBE (as represented by the Executive Director of the SBE), and an oversight entity, pursuant to the California Education Code (EC) Section 47605(k)(1), regarding the scope of oversight and reporting activities, including, but not limited to, adequacy and safety of facilities.

• **Special Education Local Plan Area Membership.** Not later than TBD, submit written verification of having applied to a Special Education Local Plan Area (SELPA) for membership as a local educational agency and, not later than **July 1, 2012**, submit either written verification that the school is (or will be at the time pupils are being served) participating in the SELPA, or an agreement between a SELPA, a school district that is a member of the SELPA, and the school that describes the roles and responsibilities of each party and that explicitly states that the SELPA and the district consider the school’s pupils to be pupils of the school district in which the school is physically located for purposes of special education programs and services (which is the equivalent of participation in the SELPA). Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of CDE staff following a review of either (1) the school’s written plan for membership in the SELPA, including any proposed contracts with service providers or (2) the agreement between a SELPA, a school district, and the school, including any proposed contracts with service providers.

• **Educational Program.** Not later than **July 1, 2012**, submit a description of the curriculum development process the school will use and the scope and sequence for the grades envisioned by the school; and, not later than TBD, submit the complete educational program for pupils to be served in the first year including, but not limited to, a description of the curriculum and identification of the basic instructional materials to be used; plans for professional development of instructional personnel to deliver the curriculum and use the instructional materials; identification of specific assessments that will be used in addition to the results of the Standardized Testing and Reporting (STAR) program in evaluating student progress. Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of CDE staff.
• **Student Attendance Accounting.** Not later than **July 1, 2012**, submit for approval the specific means to be used for student attendance accounting and reporting that will be satisfactory to support state average daily attendance claims and satisfy any audits related to attendance that may be conducted. Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of the Director of the School Fiscal Services Division.

• **Facilities Agreements.** Not later than **July 1, 2012**, present written agreements (e.g., a lease or similar document) indicating the school’s right to use the principal school sites and any ancillary facilities identified by the petitioners for at least the first year of each school’s operation and evidence that the facilities will be adequate for the school’s needs. Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of the Director of the School Facilities Planning Division.

• **Zoning and Occupancy.** Not less than 30 days prior to the school’s opening, present evidence that each school’s facility is located in an area properly zoned for operation of a school and has been cleared for student occupancy by all appropriate local authorities. For good cause, the Executive Director of the SBE may reduce this requirement to fewer than 30 days, but may not reduce the requirement to fewer than 10 days. Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of the Director of the School Facilities Planning Division.

• **Final Charter.** Not later than **July 1, 2012**, present a final charter that includes all provisions and/or modifications of provisions that reflect appropriately the SBE as the chartering authority and otherwise address all concerns identified by CDE and/or SBE staff, and that includes a specification that the school will not operate satellite schools, campuses, sites, resource centers or meeting spaces not identified in the charter without the prior written approval of the Executive Director of the SBE based primarily on the advice of the Charter Schools Division staff. Satisfaction of this condition is determined by the Executive Director of the SBE based primarily on the advice of the Director of the Charter Schools Division.

• **Processing of Employment Contributions.** Prior to the employment of any individuals by the school, present evidence that the school has made appropriate arrangements for the processing of the employees’ retirement contributions to the Public Employees’ Retirement System (PERS) and the State Teachers’ Retirement System (STRS).

• **Operational Date.** If any deadline specified in these conditions is not met, approval of the charter is terminated, unless the SBE deletes or extends the deadline not met. If the school is not in operation by **September 30, 2012**, approval of the charter is terminated.

*Signature requirements pursuant to EC Section 47605(b)(3) are not required for charter renewal petitions.

**Yes means that the school does not provide an unsound educational program and is not demonstrably unlikely to implement the program.
Overall California Department of Education Evaluation

NWCMS currently serves approximately 332 pupils in grades six through eight in Los Angeles, California. NWCMS earned a 2010 growth Academic Performance Index (API) of 913. Based on CalPads data from the 2009–10 school year, 26.5 percent of pupils at NWCMS come from socio-economically disadvantaged families; 13 percent of pupils are African American; and 27 percent of pupils are Hispanic or Latino.

In considering the NWCMS charter renewal petition, the CDE reviewed:

- The NWCMS renewal petition
- NWCMS budget information
- NWCMS statewide assessment results
- The reasons for denial by the Los Angeles USD
- NWCMS’s response to the reasons for denial by the Los Angeles USD

The CDE finds that NWCMS has met four of the elements required under EC Section 47607(b) for the renewal of a charter term.

1. The CDE finds that NWCMS has attained its API growth target in the prior year and in two of the last three years pursuant to EC Section 47607(b)(1). Since the 2006–07 school year, NWCMS has scored at or above the statewide performance target of 800. During this same time period, NWCMS has continued to demonstrate steady growth on the API scale. The school's 2010 Growth API was 913. The school's 2009 Growth API was 886. The 2008 Growth API was 867. The school's net API growth between 2006 and 2009 was 116 points.

2. NWCMS had statewide ranks of 10, 10, and 9 respectively for the past three years.

3. NWCMS had similar school ranks of 9, 9, and 10 respectively for the past three years.

4. NWCMS’s 2009–10 API growth exceeded four of the middle schools located in district three of the Los Angeles USD of where the students would likely attend. Three of the four middle schools where the students would likely attend are in year five of program improvement. NWCMS is not in program improvement. Therefore, NWCMS has academic performance greater than most of the middle schools the students would otherwise attend.

The CDE also finds that the NWCMS charter renewal petition meets all of the elements required for the establishment of a charter school pursuant to EC Section 47605(b). The NWCMS charter renewal petition describes an educational program grounded in project-based learning principles likely to meet the needs of pupils within the community where the school is located; petitioners are demonstrably likely to implement the program set forth in the petition; and the petition contains reasonably comprehensive descriptions of the 16 charter elements pursuant to EC Section 47605(b)(5). In addition, the CDE finds that NWCMS has experience in starting and operating charter schools.
under the authorization of the SBE and has been responsive and compliant to deadlines and requests from the CDE.

A number of technical amendments are needed for clarification and to reflect SBE re-authorization; however, none of these amendments is deemed substantive. NWCMS petitioners have agreed to incorporate all of the amendments identified in this report into the final NWCMS charter as a requirement under the SBE Conditions of Opening and Operation, as follows:

- Modifications to the charter in accordance with the CDE report as set forth in detail in this attachment, and as follows:
  - Description of Educational Program, *Education Code (EC)* Section 47605(b)(5)(A) and 5 CCR 11967.5.1(f)(1)(F): The CDE recommends a technical amendment to the NWCMS charter petition to include an educational program that commits to narrowing the achievement gap between socioeconomically disadvantaged and non-socioeconomically disadvantaged pupils.
  - Racial and Ethnic Balance, *EC* Section 47605(b)(5)(G) and *California Code of Regulations*, Title 5 (5 CCR) Section 11967.5.1(f)(7): The CDE recommends a technical amendment to the NWCMS charter petition to require submission of an annual report to the CDE addressing the outreach plan to ensure racial and ethnic balance reflective of Los Angeles USD District 3 schools. This report should be submitted by October 31 of each year and contain demographic information about pupils who applied to the school, pupils who were selected in the lottery process, and pupils who enrolled in the school. If in any year progress is not made toward achieving racial and ethnic balance, this report should also include specific, measurable goals and activities that the school will implement before the next application period and lottery determination.
  - Admission Requirements, *EC* Section 47605(d)(2): The CDE recommends a technical amendment to the NWCMS charter to ensure that the admission requirements comply with applicable federal and state laws, specifically *EC* Section 47605(d)(2), which requires admission preference be given to returning students and pupils of the local school district as well as pupils who qualified for free and reduced lunch in their prior school. The CDE also recommends and NWCMS has agreed to a technical amendment to revise the admission packet to include only necessary information for the student to be in the lottery for admission (i.e. name, address, current school, and parent information). All other information including student test scores, report cards, student work will be gathered once a student is admitted to NWCMS. (See attachment 6)
  - Suspension and Expulsion Procedures, 5 CCR 11967.5.1(f)(10): The CDE recommends technical amendments to the petition to meet the requirements of 5 CCR 11967.5.1(f)(10)(D), ensuring that NWCMS review
non-charter school lists of offenses and procedures in preparing their list. Additionally, NWCMS needs to provide an assurance that the policies and procedures surrounding suspension and/or expulsion will be amended periodically in accordance with 5 CCR 11967.5.1(f)(10)(E)(2).

- Public School Attendance Alternatives, EC Section 47605(b)(5)(L): The CDE recommends a technical amendment to the NWCMS petition to ensure that the parents of NWCMS students are informed that a pupil has no right to admission in a particular school of any local education agency (LEA) as a consequence of enrollment in NWCMS, except to the extent that such a right is extended by the LEA.

- Dispute Resolution Procedures, EC Section 47605(b)(5)(N): The CDE recommends a technical amendment in the NWCMS petition to reflect that the SBE is not an LEA and therefore may choose to resolve a dispute directly instead of pursuing the dispute resolution process proposed in NWCMS’s petition. Additionally, the petition must describe how the costs of the dispute resolution process, if needed, would be funded.

The CDE recommends that the NWCMS charter be approved, subject to incorporation of all changes identified, up to and including action taken by the SBE. In addition, the CDE recommends the inclusion of the applicable SBE’s Conditions on Opening and Operation, which may include:

- Insurance Coverage—Not later than July 1, 2012 (or such earlier time as school may employ individuals or acquire or lease property or facilities for which insurance would be customary), submit documentation of adequate insurance coverage, including liability insurance, which shall be based on the type and amount of insurance coverage maintained in similar settings.

- Memorandum of Understanding (MOU)/Oversight Agreement—Not later than July 1, 2012, either: (a) accept an agreement with the SBE, administered through the CDE, to be the direct oversight entity for the school, specifying the scope of oversight and reporting activities, including, but not limited to, adequacy and safety of facilities; or (b) enter into an appropriate agreement between the charter school, the SBE (as represented by the Executive Director of the SBE), and an oversight entity, pursuant to EC Section 47605(k)(1), regarding the scope of oversight and reporting activities, including, but not limited to, adequacy and safety of facilities.

- Special Education Local Plan Area (SELPA) Membership—Not later than July 1, 2012, submit written verification of having applied to a SELPA for membership as an LEA and, not later than TBD, submit either written verification that the school is (or will be at the time students are being served) participating in the SELPA, or an agreement between a SELPA, a school district that is a member of the
SELPA, and the school that describes the roles and responsibilities of each party and that explicitly states that the SELPA and the district consider the school’s students to be students of the school district in which the school is physically located for purposes of special education programs and services (which is the equivalent of participation in the SELPA). Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of CDE staff following a review of either: (1) the school’s written plan for membership in the SELPA, including any proposed contracts with service providers; or (2) the agreement between a SELPA, a school district, and the school, including any proposed contracts with service providers.

- Educational Program—Not later than July 1, 2012, submit a description of the curriculum development process the school will use and the scope and sequence for the grades envisioned by the school; and, not later than TBD, submit the complete educational program for students to be served in the first year including, but not limited to: (1) a description of the curriculum and identification of the basic instructional materials to be used; (2) plans for professional development of instructional personnel to deliver the curriculum and use the instructional materials; and (3) identification of specific assessments that will be used in addition to the results of the Standardized Testing and Reporting (STAR) Program in evaluating student progress. Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of CDE staff.

- Student Attendance Accounting—Not later than July 1, 2012, submit for approval the specific means to be used for student attendance accounting and reporting that will be satisfactory to support state average daily attendance claims and satisfy any audits related to attendance that may be conducted. Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of the Director of the School Fiscal Services Division.

- Facilities Agreements—Not later than July 1, 2012, present written agreements (e.g., a lease or similar document) indicating the school’s right to use the principal school site and any ancillary facilities identified by the petitioners for at least the first year of the school’s operation (as an SBE-chartered school) and evidence that the facilities will be adequate for the school’s needs. Satisfaction of this condition should be determined by the Executive Director of the SBE based primarily on the advice of the Director of the School Facilities Planning Division.

- Zoning and Occupancy—Not less than 30 days prior to the school’s opening, present evidence that the school’s facility is located in an area properly zoned for operation of a school and has been cleared for student occupancy by all appropriate local authorities. For good cause, the Executive Director of the SBE may reduce this requirement to fewer than 30 days, but may not reduce the requirement to fewer than 10 days. Satisfaction of this condition should be determined by the Executive Director of the SBE, based primarily on the advice of the Director of the School Facilities Planning Division.
• Final Charter—Not later than July 1, 2012, present a final charter that includes all provisions and/or modifications of provisions that reflect appropriately the SBE as the chartering authority and otherwise address all concerns identified by CDE and/or SBE staff, and that includes a specification that the school will not operate satellite schools, campuses, sites, resource centers, or meeting spaces not identified in the charter without the prior written approval of the Executive Director of the SBE, based primarily on the advice of the Charter Schools Division staff.

• Processing of Employment Contributions—Present evidence that the school has made appropriate arrangements for the processing of the employees’ retirement contributions to the California Public Employees’ Retirement System (CalPERS) and the California State Teachers’ Retirement System (CalSTRS).

• Operational Date—If any deadline specified in these conditions is not met, approval of the charter is terminated, unless the SBE deletes or extends the deadline not met. If the school is not in operation within one year of the charter petition’s approval by the SBE, approval of the charter is terminated.

<th>Sound Educational Practice</th>
<th>California Education Code (EC) Section 47605(b) California Code of Regulations, Title 5 (5 CCR) Section 11967.5.1(a)</th>
</tr>
</thead>
</table>

Evaluation Criteria

For purposes of EC Section 47605(b), a charter petition shall be “consistent with sound educational practice” if, in the SBE’s judgment, it is likely to be of educational benefit to pupils who attend. A charter school need not be designed or intended to meet the educational needs of every student who might possibly seek to enroll in order for the charter to be granted by the SBE.

Is the charter petition “consistent with sound educational practice?” Yes

Comments:

The NWCMS charter renewal petition proposes an educational program that is likely to be of educational benefit to the pupils who attend the school as evidenced by API growth, annually meeting required Annual Yearly Progress (AYP) targets and state and similar school ranks. NWCMS has adopted a standards-based, college-preparatory curriculum closely following the current California state standards. Standards taught in each grade level and subject areas are outlined and aligned in a scope and sequence format. NWCMS incorporates community service as an integrated component of its educational program.
The NWCMS charter renewal petition proposes to serve students in Los Angeles, California. The targeted population reflects the ethnic, cultural, and economic diversity of the area where the school is located.

| Table 1. Net API Growth for New West Charter Middle School and Surrounding Schools |
|-----------------------------------------------|----------------------------------|---------------------------------|-------------------------------|-------------------------------|
| API Growth         | NWCMS | Emerson | Marina Del Rey | Revere | Webster |

<tr>
<td>(1) A program that involves activities that the SBE determines would present the likelihood of physical, educational, or psychological harm to the affected pupils.</td>
<td></td>
</tr>
<tr>
<td>(2) A program that the SBE determines not likely to be of educational benefit to the pupils who attend.</td>
<td></td>
</tr>
<tr>
<td>Does the charter petition present “an unsound educational program?”</td>
<td>No</td>
</tr>
</tbody>
</table>

Comments:

The NWCMS charter renewal petition contains no indicators that its educational program meets either of the definitions of an unsound educational program as set forth in regulation.
### Evaluation Criteria

For purposes of EC Section 47605(b)(2), the SBE shall take the following factors into consideration in determining whether charter petitioners are "demonstrably unlikely to successfully implement the program."

1. If the petitioners have a past history of involvement in charter schools or other education agencies (public or private), the history is one that the SBE regards as unsuccessful, e.g., the petitioners have been associated with a charter school of which the charter has been revoked or a private school that has ceased operation for reasons within the petitioners' control.

2. The petitioners are unfamiliar in the SBE's judgment with the content of the petition or the requirements of law that would apply to the proposed charter school.

3. The petitioners have presented an unrealistic financial and operational plan for the proposed charter school (as specified).

4. The petitioners personally lack the necessary background in the following areas critical to the charter school’s success, and the petitioners do not have plan to secure the services of individuals who have the necessary background in curriculum, instruction, assessment, and finance and business management.

| Are the petitioners "demonstrably unlikely to successfully implement the program?" | No |

### Comments:

The NWCMS charter renewal petition demonstrates that the petitioners are likely to implement the program as set forth in the charter petition. The petitioners have a reasonable comprehension of the requirements of law and a solid background in the educational, financial, organizational, and legal aspects of operating a charter school. The petitioners have demonstrated willingness to work with the CDE and have been responsive and compliant to requests for information, submission of reports and necessary documents.

NWCMS was renewed by the SBE for a five-year term beginning July 1, 2007. Since 2007–08, NWCMS has demonstrated a pattern of timely and accurate financial reporting. The school’s audited ending fund balance has been strong and has increased
during the past four years, from approximately $607,000 in 2006–07 to approximately $1.2 million in 2009–10.

NWCMS’s audits since 2006–07 are unqualified. One audit finding was noted in 2006–07, and corrective action was implemented during the 2007–08 fiscal year. The 2007–08, 2008–09, and 2009–10 audits are free of findings.

ExEd, the NWCMS business services provider was the primary point of contact regarding fiscal manners. NWCMS responded to any questions and requests for information in a timely manner.

While specific budget assumptions were not located within the renewal petition, analysis of the budget submitted reflects revenues and expenditures that are generally conservative and consistent with historical patterns. Future cash flow projections may require adjustment based on the state apportionment deferral schedule.

shall not charge tuition, and shall not discriminate against any pupil on the basis of disability, gender, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the California Penal Code. Except as provided in paragraph (2), admission to a charter school shall not be determined according to the place of residence of the pupil, or of his or her parent or guardian, within this state, except that any existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that public school.

(2)(A) A charter school shall admit all pupils who wish to attend the school.

(B) However, if the number of pupils who wish to attend the charter school exceeds the school's capacity, attendance, except for existing pupils of the charter school, shall be determined by a public random drawing. Preference shall be extended to pupils currently attending the charter school and pupils who reside in the district except as provided for in EC Section 47614.5. Other preferences may be permitted by the chartering authority on an individual school basis and only if consistent with the law.

(C) In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the charter school and, in no event, shall take any action to impede the charter school from expanding enrollment to meet pupil demand.

(3) If a pupil is expelled or leaves the charter school without graduating or completing the school year for any reason, the charter school shall notify the superintendent of the school district of the pupil’s last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card, and health information. This paragraph applies only to pupils subject to compulsory full-time education pursuant to [EC] Section 48200.

| Does the charter petition contain the required affirmations? | Yes |

Comments:
The NWCMS charter renewal petition contains all of the required affirmations.

If serving high school students, describes how district/charter school informs parents about:

- transferability of courses to other public high schools; and
- eligibility of courses to meet college entrance requirements

(Courses that are accredited by the Western Association of Schools and Colleges (WASC) may be considered transferable, and courses meeting the University of California/California State University (UC/CSU) "a-g" admissions criteria may be considered to meet college entrance requirements.)

| Does the petition overall present a reasonably comprehensive description of the educational program? | Yes; Technical Amendments Required |

Comments:

NWCMS, a California Distinguished School, proposes to continue offering a site-based program with standards-based curriculum for students in sixth through eighth grades. The mission and vision of the NWCMS are to allow students to discover and maximize their full potential through academic rigor, strong character, self-reliance, and become lifelong learners.

Within the four core academic subjects learning experiences are integrated where possible, limited only by the nature of some standards within the subject areas that preclude integration. Listening, speaking, reading and writing application experiences, wherever applicable, are tied to the concepts and knowledge to be mastered in the core curriculum. The NWCMS petition states that middle school must be student-based, not subject-based, and must create a strong sense of ownership and community for the students if school is to hold the adolescent students during these difficult, emotional, and at-risk years. NWCMS provides a supportive place where it is safe, regardless of race, religion, ethnicity, culture, sexual orientation and/or ability/disability. On a recent visit by the CDE, the students were quick to state that bullying is not acceptable at their school and that the students felt safe and free from a bullying environment.
The NWCMS charter renewal petition describes a plan encompassing the identification of and meeting the needs of students with disabilities, EL students, low-achieving students, and high-achieving students. Students are grouped heterogeneously and classes are inclusive and challenge each student according to his or her abilities.

NWCMS works towards creating an individualized learning approach for each student. Students are evaluated extensively to adequately address individual education needs. Early in the school year, a personalized approach is adopted towards supporting each student. While incorporating data from testing and assessments, each student works collaboratively with a teacher in an effort to specify goals for meeting or moving beyond the standards. This personalized approach identifies elements of asset development, study skills and team-skills on which the student can focus.

NWCMS offers study skills education. Study skills education is reinforced in the homeroom, in enrichment classes, and in an after-school program. The NWCMS petition identifies the need for middle school students to learn time management, research skills, and a personal understanding of doing one’s best work.

Plan for Low-Achieving Students

For those students who are academically low performing, a range of strategies are employed. Modifications will be made, such as books on tape, so that students will still receive exposure to sophisticated literature while working on underlying building blocks of comprehension/decoding. Students receive additional intensive help after school as well as in smaller tutorial settings. Teachers differentiate curriculum so that all students can receive standards-based instruction appropriate to their level. Parents will be involved in this process and will help to provide a home environment that will reinforce this plan.

The NWCMS petition states a specific concerned for those students who are also identified at-risk because of life circumstances. The smaller size of the school and the advisor-advisee program is especially helpful to these students. The formalized advisor-advisee program has the students meet daily throughout the year with the same teacher. The program has a strong team-building and service-learning component.

Plan for High-Achieving Students

Highly capable and gifted students will be provided differentiated learning opportunities throughout the school day as well as in the after school program. The inclusion of Gifted and Talented Education (GATE) students in heterogeneous, standards-based classrooms create stimulating classroom environments. In special cases, particularly in math, students are invited to participate in classes one grade level above their homeroom class.

Academic differences are addressed through multiple strategies including compacting of the curriculum, multi-option assignments, project-based learning and, where
appropriate, independent projects. Frequent assessment, both in the form of pre-tests and post-tests, allow the teacher to assess needs and chart growth. True differentiation implies that different learning styles as well as different intelligences are addressed. Compacting instruction, then differentiating instruction through depth, complexity and/or novelty, is employed to address gifted students. The exception is mathematics, where students have the opportunity to be grouped in classes to enable them to accelerate beyond grade level.

**Plan for English Learners**

The NWCMS petition states that the school will meet all applicable legal requirements for EL students as they pertain to annual notification to parents, student identification, placement, program options, EL and core content instruction, teacher qualifications and training, re-classification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. NWCMS will implement policies to assure proper placement, evaluation, and communication regarding EL students and the rights of students and parents.

EL students are provided equal access to the core curriculum through special services prior to entering the mainstream program. English Language Development (ELD) and primary language support are provided as needed by a qualified teacher or instructional assistant. Teachers understand the strategies to support the EL student. Instructional assistants aid the classroom teacher where necessary. EL students may also participate in afterschool remedial instruction.

**Plan for Special Education Students**

NWCMS complies with all applicable state and federal laws in serving students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act ("Section 504"), the Americans with Disabilities Act (ADA) and the Individuals with Disabilities in Education Improvement Act (IDEIA). NWCMS does not discriminate against any student with a disability.

NWCMS has based its special education program on research and best practice, and has a special education coordinator to monitor and revise the school’s policy and programs accordingly.

NWCMS is an LEA member of the Southwest SELPA in accordance with EC Section 47641(a) and thus shall be solely responsible for its compliance with all state and federal laws related to the provision of special education instruction and related services and all SELPA policies and procedures; and shall utilize appropriate SELPA forms. NWCMS shall also be solely responsible for its compliance with Section 504 and the ADA. The facilities to be utilized by the charter school shall be accessible for all students with disabilities.
Generally, individualize education plans (IEPs) are implemented and goals are met in an inclusive setting within the general education classrooms with pull-out support for specialized academic instruction or other related services based on individual needs of strengths as required by each student’s IEP. NWCMS ensures that the teachers and other persons who provide services to a student with disabilities are knowledgeable of the content of the student’s IEP, including substitute teachers as necessary.

Highly qualified personnel capable of meeting their needs teach students with disabilities. Regular classroom teachers include special education issues as a regular part of their professional development efforts in order to better identify, assess, understand, and serve students with disabilities. Teachers receive education in recognizing and working with students that qualify for special education services under each of the categories of disabilities. Additional training is provided for working specifically with students that have Autism, Asperger’s Syndrome, Attention Deficit/Hyperactivity Disorder and other disorders with social and behavioral components as well as physical disabilities and mental challenges.

Plan for Professional Development

The NWCMS calendar includes 10 pupil-free days scattered throughout the year and 36 pupil-free afternoons on Wednesdays when students are dismissed early. NWCMS’s instructional staff uses this pupil-free time for classroom preparation, curriculum development, professional development, staff meetings, and other activities relevant to the charter school’s educational program.

The CDE recommends a technical amendment to the NWCMS charter petition to include an educational program that commits to narrowing the achievement gap between socioeconomically disadvantaged and non-socioeconomically disadvantaged pupils.

<tr>
<th>2. Measureable Pupil Outcomes</th>
<th>EC Section 47605(b)(5)(B)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Evaluation Criteria</td>
<td>5 CCR Section 11967.5.1(f)(2)</td>
</tr>
</tbody>
</table>

Measurable pupil outcomes, as required by EC Section 47605(b)(5)(B), at a minimum:
## 2. Measureable Pupil Outcomes

| (A) Specify skills, knowledge, and attitudes that reflect the school’s educational objectives and can be assessed, at a minimum, by objective means that are frequent and sufficiently detailed enough to determine whether pupils are making satisfactory progress. It is intended that the frequency of objective means of measuring pupil outcomes vary according to such factors as grade level, subject matter, the outcome of previous objective measurements, and information that may be collected from anecdotal sources. To be sufficiently detailed, objective means of measuring pupil outcomes must be capable of being used readily to evaluate the effectiveness of and to modify instruction for individual students and for groups of students. | Yes |
| (B) Include the school’s API growth target, if applicable. | Yes |

### Does the petition present a reasonably comprehensive description of measurable pupil outcomes?  
Yes

**Comments:**

NWCMS committed to five broad areas of measurable pupil outcomes in its 2007–12 charter renewal term. In most cases NWCMS has met or exceeded the pupil outcomes and has made significant progress on all others. Following is a list of the five measurable pupil outcomes with an analysis provided by NWCMS of the progress made towards the pursuit of each outcome:

**Academic Excellence**

1. **Critical Thinking:** 2007–11: Students in sixth through eighth grade have shown 80 percent proficiency levels in critical thinking as evidenced in class projects, homework assignments, lab presentations in all core subjects and through extensive cross curricular projects.

2. **Core Academics:** 2007–11: Students in sixth through eighth grade have shown 85 percent proficiency levels in core academics as evidenced in California Standards Test (CST) results, class projects, teacher designed assessments, homework assignments and core subject lab presentations.

   - **World Languages:** Students communicate and interact effectively in at least one language in addition to their native language and they will understand key aspects of the culture of the second language. 2007–11: Students sixth through eighth grade have shown 80 percent proficiency levels in world language as evidenced in class projects, observations and evaluations, class tests and quizzes, self evaluation, oral exams and call and response activities.
Visual and Performing Arts: Students develop an appreciation for the arts, and self and group expression in the various visual and performing arts. 2007–11: Students sixth through eighth grade have shown 80 percent proficiency levels in visual and performing arts as evidenced in observations and evaluations, individual projects, participation, group projects, art shows and dance performances.

3. Character Development: 2007–11: Students sixth through eighth grade have shown 95 percent proficiency levels in character development as evidenced in observations and evaluations, self-evaluation, student, teacher, parent surveys, community service, student-led portfolios and annual student led portfolio conferences.

4. Lifelong Learning: 2007–11: Students sixth through eighth grade have shown 85 percent proficiency levels in interpersonal skills as evidenced in observations, individual projects, group participation and project based learning activities in all core and elective classes.

5. Life Skills: 2007–11: Students sixth through eighth grade have shown 75 percent proficiency levels in life skills as evidenced by observations within technology, and fitness electives and activities in study skills classes.

Specific benchmarked school-wide outcomes to be achieved over a five year period (2012–17) include:

1. 90 percent or above of students scoring “proficient” on the California ELA standards test. Assessed annually by CST scores.

2. 90 percent or above of students scoring “proficient” on the California standards writing test. Assessed annually by CST scores.

3. 80 percent or above of students scoring “proficient” on the California mathematics standards test. Assessed annually by CST scores.

4. 80 percent or above of students scoring “proficient” on the California science standards test. Assessed annually by CST scores.

5. 80 percent or above of students scoring “proficient” on the California history standards test. Assessed annually by CST scores.

6. 90 percent or above of students meeting learning outcomes for each core subject at each grade level.

7. In 2009–10, NWCMS’s Growth API was 913. The API goal for NWCMS over a five-year period 2012–17 is 950. Assessed annually by API issued by state.
8. NWCMS will meet adequate yearly progress as defined by the No Child Left Behind Act (NCLB). Assessed annually by Academic Performance Report (APR) issued by the CDE.

</tbody>
</table>

Does the petition present a reasonably comprehensive description of the method for measuring pupil progress?  Yes

Comments:

The NWCMS charter renewal petition presents a reasonably comprehensive description of the methods to be used for measuring student progress. Key methods of measuring student progress include:

- STAR program
- California English Language Development Test (CELDT)
- Benchmark assessments
- Student portfolios
- Curriculum imbedded assessments including rubrics and multiple measures
- Physical Fitness

Results of these assessments are shared regularly with parents through the following means:

- Individual student led conferences with parents
- Portfolio Assessments
School Accountability Report Card

4. Governance Structure

<table>

<td></td>
</tr>
<tr>
<td>3. The educational program will be successful.</td>
<td></td>
</tr>
<tr>
<td>Does the petition present a reasonably comprehensive description of the school’s governance structure?</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Comments:

The NWCMS charter renewal petition presents a reasonably comprehensive description of the NWCMS governance structure. The school operates as a California nonprofit public benefit corporation. The school’s Board of Directors is responsible for the fiscal affairs of the school. The executive director oversees day-to-day school operations. NWCMS is a parent-driven charter school model, with strong parental representation on the governing board, a strong home-school contract, and a desire to address the needs of parents as well as students.

The Board is comprised of between 9 and 11 voting members representing the charter school’s various constituencies as follows:

- Three parent representatives are elected from and by parents whose children attend NWCMS. Parent representatives serve two year terms.
- Three teacher representatives are elected from and by NWCMS’s full-time credentialed teachers. Teacher representatives serve two year terms.
• One staff employee representative is elected by NWCMS’s full-time non-instructional employees. The staff employee representative serves a two year term.

• Two to four community representatives are appointed by majority vote of the Board of Directors from volunteers who express an interest in NWCMS, with a preference given to a Founder of NWCMS, as defined by the originally approved charter. These representatives cannot be parents of children attending NWCMS, or employees of the charter school.

Parents are involved in all levels of decision-making at NWCMS through their elected representatives and committee work, their primary role in operating the school is to assist, enhance, facilitate, and extend the ability of the educational staff to conduct the NWCMS’s educational activities.

<table>

</tr>
</tbody>
</table>

**The qualifications (of the school’s employees), as required by EC Section 47605(b)(5)(E), at a minimum:**

(A) Identify general qualifications for the various categories of employees the school anticipates (e.g., administrative, instructional, instructional support, non-instructional support). The qualifications shall be sufficient to ensure the health, and safety of the school’s faculty, staff, and pupils.

(B) Identify those positions that the charter school regards as key in each category and specify the additional qualifications expected of individuals assigned to those positions.

(C) Specify that all requirements for employment set forth in applicable provisions of law will be met, including, but not limited to credentials as necessary.

| Does the petition present a reasonably comprehensive description of employee qualifications? | Yes |

**Comments:**

NWCMS charter renewal petition presents a reasonably comprehensive description of NWCMS employee qualifications. All of NWCMS teachers are deemed highly qualified under the NCLB Act.
6. Health and Safety Procedures

<table>
<thead>
<tr>
<th>Evaluation Criteria</th>

<tbody>
<tr>
<td>The procedures...to ensure the health and safety of pupils and staff, as required by EC Section 47605(b)(5)(F), at a minimum:</td>
</tr>
<tr>
<td>(A) Require that each employee of the school furnish the school with a criminal record summary as described in EC Section 44237.</td>
</tr>
<tr>
<td>(B) Include the examination of faculty and staff for tuberculosis as described in EC Section 49406.</td>
</tr>
<tr>
<td>(C) Require immunization of pupils as a condition of school attendance to the same extent as would apply if the pupils attended a non-charter public school.</td>
</tr>
<tr>
<td>(D) Provide for the screening of pupils' vision and hearing and the screening of pupils for scoliosis to the same extent as would be required if the pupils attended a non-charter public school.</td>
</tr>
</tbody>
</table>

Does the petition present a reasonably comprehensive description of health and safety procedures? Yes

Comments:

NWCMS charter renewal petition presents a reasonably comprehensive description of health and safety procedures to be used at the school. NWCMS adopted and implemented a comprehensive set of policies and procedures that ensure the health and safety of staff and students including the following:

- NWCMS employees, contractors, and volunteers are required to submit to fingerprinting and background clearance prior to employment, contract of service, volunteering, or any unsupervised contact with pupils of NWCMS. The executive director monitors compliance of this policy.

- NWCMS requires tuberculosis testing of all employees.

- NWCMS adheres to all laws requiring immunizations for entering pupils to the same extent required for enrollment in noncharter public schools.

NWCMS adheres to vision, hearing, and scoliosis screening as required by EC Section 49450.
The NWCMS charter renewal petition presents a reasonably comprehensive description of the means for achieving a racial and ethnic balance at the school. NWCMS serves students in Los Angeles, California. All of these methods are used to strive for racial and ethnic balance and to be reflective of the Los Angeles USD schools in the vicinity as reflected in Table 3 below. Table 4 reflects United States (US) Census demographic data by zip code for the zip codes within the proximity of NWCMS and for the largest NWCMS enrollment. This table depicts the diversity of NWCMS as compared to the total population of the community. NWCMS commits to do the following related to achieving racial and ethnic balance:

- Maintain a racial and ethnic diversity committee of parents, educators, and community members to oversee NWCMS efforts in recruiting a wide diversity of students and ensuring a supportive environment for students of all backgrounds while attending NWCMS.

- Distribute informational materials about NWCMS to a broad variety of community groups and agencies that serve the various racial and ethnic groups represented in the anticipated attendance area of NWCMS.

- Conduct an outreach program of informational meetings, coordinated with NWCMS open houses at the school and at public elementary schools to inform parents of the educational opportunities available at NWCMS. Recruitment efforts include specific targeted populations in underrepresented geographical communities. Such efforts shall include advertising directly in elementary schools, attending elementary – middle school events and school visits by NWCMS staff.

### 7. Racial and Ethnic Balance

<table>
<thead>
<tr>
<th>Evaluation Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recognizing the limitations on admissions to charter schools imposed by EC Section 47605(d), the means by which the school(s) will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district…, as required by EC Section 47605(b)(5)(G), shall be presumed to have been met, absent specific information to the contrary.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Does the petition present a reasonably comprehensive description of means for achieving racial and ethnic balance?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes; Technical Amendments Needed</td>
</tr>
</tbody>
</table>
- Provide informational materials, recruitment brochures, and applications in English and Spanish, and arrange for Spanish speaking translators to be present at school meetings.

The CDE requires a technical amendment to the NWCMS charter to clarify that the outreach plan will be annually reviewed and revised as necessary to ensure racial and ethnic balance reflective of Los Angeles USD District 3 schools. NWCMS will annually submit to the CDE a written report to include information on specific outreach activities, student application demographics, lottery results, and student enrollment.

</table>

**Evaluation Criteria**

To the extent admission requirements are included in keeping with EC Section 47605(b)(5)(H), the requirements shall be in compliance with the requirements of EC Section 47605(d) and any other applicable provision of law.

| Does the petition present a reasonably comprehensive description of admission requirements? | Yes; Technical Amendments Necessary |

9/1/2011
Comments:

The NWCMS charter renewal petition describes admission requirements to be used at the school. NWCMS commits to conducting a public random drawing if more applications are received than there is capacity.

The CDE recommends a technical amendment to NWCMS charter to ensure that the admission requirements comply with applicable federal and state laws, specifically EC Section 47605(d)(2) requiring admission preference be given to returning students and pupils of the local school district.

The CDE also recommends and NWCMS has agreed to a technical amendment to revise the admission packet to include only necessary information for the student to be in the lottery for admission (i.e. name, address, current school, and parent information). All other information including student test scores, report cards, student work will be gathered once a student is admitted to NWCMS.

<table>
<thead>
<tr>
<th>9. Annual Independent Financial Audits</th>
<th>EC Section 47605(b)(5)(I)</th>
<th>5 CCR Section 11967.5.1(f)(9)</th>
</tr>
</thead>
</table>

**Evaluation Criteria**

The manner in which annual independent financial audits shall be conducted using generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the SBE’s satisfaction, as required by EC Section 47605(b)(5)(I), at a minimum:

- **(A)** Specify who is responsible for contracting and overseeing the independent audit. **Yes**
- **(B)** Specify that the auditor will have experience in education finance. **Yes**
- **(C)** Outline the process of providing audit reports to the SBE, CDE, or other agency as the SBE may direct, and specifying the timeline in which audit exceptions will typically be addressed. **Yes**
- **(D)** Indicate the process that the charter school(s) will follow to address any audit findings and/or resolve any audit exceptions. **Yes**

**Does the petition present a reasonably comprehensive description of annual independent financial audits?** **Yes**

Comments:

The NWCMS charter renewal petition presents a reasonably comprehensive description of the manner in which annual independent financial audits will be conducted.
## 10. Suspension and Expulsion Procedures

<table>
<thead>
<tr>
<th>Evaluation Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>The procedures by which pupils can be suspended or expelled, as required by EC Section 47605(b)(5)(J), at a minimum:</td>
</tr>
</tbody>
</table>

(A) Identify a preliminary list, subject to later revision pursuant to subparagraph (E), of the offenses for which students in the charter school must (where non-discretionary) and may (where discretionary) be suspended and, separately, the offenses for which students in the charter school must (where non-discretionary) or may (where discretionary) be expelled, providing evidence that the petitioners’ reviewed the offenses for which students must or may be suspended or expelled in non-charter public schools.  

|  | Yes; Technical Amendments Necessary |

(B) Identify the procedures by which pupils can be suspended or expelled.  

|  | Yes |

(C) Identify the procedures by which parents, guardians, and pupils will be informed about reasons for suspension or expulsion and of their due process rights in regard to suspension or expulsion.  

|  | Yes |

(D) Provide evidence that in preparing the lists of offenses specified in subparagraph (A) and the procedures specified in subparagraphs (B) and (C), the petitioners reviewed the lists of offenses and procedures that apply to students attending non-charter public schools, and provide evidence that the charter petitioners believe their proposed lists of offenses and procedures provide adequate safety for students, staff, and visitors to the school and serve the best interests the school’s pupils and their parents (guardians).  

|  | Yes; Technical Amendments Necessary |

(E) If not otherwise covered under subparagraphs (A), (B), (C), and (D):  

1. Provide for due process for all pupils and demonstrate an understanding of the rights of pupils with disabilities in…regard to suspension and expulsion.  

|  | Yes; Technical Amendments Necessary |

2. Outline how detailed policies and procedures regarding suspension and expulsion will be developed and periodically reviewed, including, but not limited to, periodic review and (as necessary) modification of the lists of offenses for which students are subject to suspension or expulsion.
10. Suspension and Expulsion Procedures

<table>
<thead>
<tr>
<th>Section 47605(b)(5)(J)</th>
<th>5 CCR Section 11967.5.1(f)(10)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes; Technical Amendments Necessary</td>
<td></td>
</tr>
</tbody>
</table>

**Does the petition present a reasonably comprehensive description of suspension and expulsion procedures?**

**Comments:**

The NWCMS petition presents a reasonably comprehensive description of suspension and expulsion procedures to be used by the school. NWCMS commits to comprehensive due process procedures for all pupils by utilizing a suspension and expulsion policy based upon EC Section 48900.

Technical amendments are needed to the petition to meet the requirements of 5 CCR 11967.5.1(f)(10)(D) ensuring that NWCMS review non-charter school lists of offenses and procedures in preparing their list. Additionally, NWCMS needs to provide an assurance that the policies and procedures surrounding suspension and/or expulsion will be amended periodically in accordance with 5 CCR 11967.5.1(f)(10)(E)(2).

11. CalSTRS, CalPERS, and Social Security Coverage

<table>
<thead>
<tr>
<th>Section 47605(b)(5)(K)</th>
<th>5 CCR Section 11967.5.1(f)(11)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
<td></td>
</tr>
</tbody>
</table>

**Evaluation Criteria**

The manner by which staff members of the charter schools will be covered by the CalSTRS, the CalPERS, or federal social security, as required by EC Section 47605(b)(5)(K), at a minimum, specifies the positions to be covered under each system and the staff who will be responsible for ensuring that appropriate arrangements for that coverage have been made.

**Does the petition present a reasonably comprehensive description of CalSTRS, CalPERS, and social security coverage?**

**Yes**

**Comments:**

The NWCMS charter renewal petition presents a reasonably comprehensive description of the retirement programs offered by the school and the designated staff responsible for the arrangements of coverage.
12. Public School Attendance Alternatives

<table>
<thead>
<tr>
<th>Evaluation Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools, as required by EC Section 47605(b)(5)(L), at a minimum, specify that the parent or guardian of each pupil enrolled in the charter school shall be informed that the pupil has no right to admission in a particular school of any LEA (or program of any LEA) as a consequence of enrollment in the charter school, except to the extent that such a right is extended by the LEA.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Does the petition present a reasonably comprehensive description of public school attendance alternatives?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes; Technical Amendments Needed</td>
</tr>
</tbody>
</table>

Comments:

The NWCMS charter renewal petition presents a reasonably comprehensive description of the public school alternatives available to NWCMS students. However, NWCMS needs to be amended to ensure that the parents of NWCMS parents are informed that a pupil has no right to admission in a particular school of any LEA as a consequence of enrollment in NWCMS, except to the extent that such a right is extended by the LEA.

13. Post-employment Rights of Employees

<table>
<thead>
<tr>
<th>Evaluation Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>The description of the rights of any employees of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school, as required by EC Section 47605(b)(5)(M), at a minimum, specifies that an employee of the charter school shall have the following rights:</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>(A) Any rights upon leaving the employment of an LEA to work in the charter school that the LEA may specify.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>(B) Any rights of return to employment in an LEA after employment in the charter school as the LEA may specify.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>(C) Any other rights upon leaving employment to work in the charter school and any rights to return to a previous employer after working in the charter school that the SBE determines to be reasonable and not in conflict with any provisions of law that apply to the charter school or to the employer from which the employee comes to the charter school or to which the employee returns from the charter school.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>
13. Post-employment Rights of Employees

| EC Section 47605(b)(5)(M) |
| 5 CCR Section 11967.5.1(f)(13) |

| Does the petition present a reasonably comprehensive description of post-employment rights of employees? | Yes |

Comments:

The NWCMS charter renewal petition presents a reasonably comprehensive description of the post-employment rights of NWCMS employees.

14. Dispute Resolution Procedures

| EC Section 47605(b)(5)(N) |
| 5 CCR Section 11967.5.1(f)(14) |

Evaluation Criteria

The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to the provisions of the charter, as required by EC Section 47605(b)(5)(N), at a minimum:

(A) Include any specific provisions relating to dispute resolution that the SBE determines necessary and appropriate in recognition of the fact that the SBE is not a LEA.

(B) Describe how the costs of the dispute resolution process, if needed, would be funded.

(C) Recognize that, because it is not a LEA, the SBE may choose resolve a dispute directly instead of pursuing the dispute resolution process specified in the charter, provided that if the State Board of Education intends to resolve a dispute directly instead of pursuing the dispute resolution process specified in the charter, it must first hold a public hearing to consider arguments for and against the direct resolution of the dispute instead of pursuing the dispute resolution process specified in the charter.

Yes; Technical Amendments Needed
### 14. Dispute Resolution Procedures

| (D) Recognize that if the substance of a dispute is a matter that could result in the taking of appropriate action, including, but not limited to, revocation of the charter in accordance with EC Section 47604.5, the matter will be addressed at the SBE’s discretion in accordance with that provision of law and any regulations pertaining thereto. | Yes |

**EC Section 47605(b)(5)(N)**

**5 CCR Section 11967.5.1(f)(14)**

**Does the petition present a reasonably comprehensive description of dispute resolution procedures?**  
Yes; Technical Amendments Needed

**Comments:**

The NWCMS charter renewal petition requires a technical amendment to reflect that the SBE is not an LEA and therefore may choose to resolve a dispute directly instead of pursuing the dispute resolution process proposed in NWCMS’s petition. Additionally, the petition must describe how the costs of the dispute resolution process, if needed would be funded.

### 15. Exclusive Public School Employer

| Evaluation Criteria | Yes |

**EC Section 47605(b)(5)(O)**

**5 CCR Section 11967.5.1(f)(15)**

**Does the petition include the necessary declaration?**

The declaration of whether or not the district shall be deemed the exclusive public school employer of the employees of the charter school for the purposes of the Educational Employment Relations Act (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code), as required by EC Section 47605(b)(5)(O), recognizes that the SBE is not an exclusive public school employer and that, therefore, the charter school must be the exclusive public school employer of the employees of the charter school for the purposes of the Educational Employment Relations Act (EERA).
Comments:

The charter renewal petition makes clear that NWCMS shall be deemed the exclusive public school employer of charter school employees for the purposes of the EERA.

<table>
<thead>
<tr>
<th>16. Closure Procedures</th>
<th>EC Section 47605(b)(5)(P)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>5 CCR Section 11967.5.1(f)(15)(g)</td>
</tr>
</tbody>
</table>

Evaluation Criteria

A description of the procedures to be used if the charter school closes, in keeping with EC Section 47605(b)(5)(P). The procedures shall ensure a final audit of the school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.

Does the petition include a reasonably comprehensive description of closure procedures? | Yes

Comments:

The NWCMS charter renewal petition includes a reasonably comprehensive description of closure procedures pursuant to EC Section 47605(b)(5)(P) and 5 CCR sections 11962 and 11962.1.
ADDITIONAL REQUIREMENTS UNDER EC SECTION 47605

<table>
<thead>
<tr>
<th>Standards, Assessments, and Parent Consultation</th>
<th>EC Section 47605(c) 5 CCR Section 11967.5.1(f)(3)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Evaluation Criteria</strong></td>
<td></td>
</tr>
<tr>
<td>Evidence is provided that:</td>
<td></td>
</tr>
<tr>
<td>(1) The school shall meet all statewide standards and conduct the pupil assessments required pursuant to EC sections 60605 and 60851 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in non-charter public schools.</td>
<td>Yes</td>
</tr>
<tr>
<td>(2) The school shall, on a regular basis, consult with their parents and teachers regarding the school's educational programs.</td>
<td>Yes</td>
</tr>
<tr>
<td><strong>Does the petition provide evidence addressing the requirements regarding standards, assessments, and parent consultation?</strong></td>
<td>Yes</td>
</tr>
</tbody>
</table>

**Comments:**

The charter renewal petition states that NWCMS will meet all statewide standards and conduct all required state-mandated pupil assessments. The petition also includes a commitment by NWCMS to consult regularly with parents and teachers regarding the school's educational programs.

NWCMS developed an educational program that is fully aligned with the State of California’s Department of Education standards. NWCMS delivers this curriculum to over 300 sixth through eighth grade students through 12 full-time credentialed teachers, at least one full-time special education teacher, and a support staff.

<table>
<thead>
<tr>
<th>Employment is Voluntary</th>
<th>EC Section 47605(e) 5 CCR Section 11967.5.1(f)(13)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Evaluation Criteria</strong></td>
<td></td>
</tr>
<tr>
<td>The governing board…shall not require any employee…to be employed in a charter school.</td>
<td></td>
</tr>
<tr>
<td><strong>Does the petition meet this criterion?</strong></td>
<td>Yes</td>
</tr>
</tbody>
</table>
**Comments:**

The petition states that no public school district employee shall be required to work at the charter school.

| Pupil Attendance is Voluntary | EC Section 47605(f)  
| 5 CCR Section 11967.5.1(f)(12) |
|-----------------------------|-----------------------------------------------|
| Evaluation Criteria         | The governing board…shall not require any pupil…to attend a charter school. |
| Does the petition meet this criterion? | Yes |

**Comments:**

The petition states that enrollment at NWCMS is entirely voluntary on the part of the pupils.

| Effect on Authorizer and Financial Projections | EC Section 47605(g)  
| 5 CCR Section 11967.5.1(c)(3)(A–C) |
|-----------------------------|-----------------------------------------------|
| Evaluation Criteria         | …[T]he petitioners [shall] provide information regarding the proposed operation and potential effects of the school, including, but not limited to: |
| - The facilities to be utilized by the school. The description of the facilities to be used by the charter school shall specify where the school intends to locate. | Yes |
| - The manner in which administrative services of the school are to be provided. | Yes |
| - Potential civil liability effects, if any upon the school and the SBE. | Yes |
| The petitioners shall also provide financial statements that include a proposed first-year operational budget, including startup costs, and cash-flow and financial projections for the first three years of operation. | Yes |
| Does the petition provide the required information and financial projections? | Yes |
Comments:

The NWCMS charter renewal petition demonstrates that the petitioners are likely to continue implementing the program as set forth in the charter petition. The NWCMS petition contains a realistic budget, consistent with previously submitted budgets, with most revenues conservatively projected and reasonable expenditures that are consistent with historic averages. NWCMS administrative services are administered by ExEd.

<table>
<thead>
<tr>
<th>Academically Low Achieving Pupils</th>
<th>EC Section 47605(h)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>5 CCR Section 11967.5.1(f)(1)(F–G)</td>
</tr>
</tbody>
</table>

Evaluation Criteria

In reviewing petitions, the charter authorizer shall give preference to petitions that demonstrate the capability to provide comprehensive learning experiences to pupils identified by the petitioners as academically low achieving pursuant to the standards established by the State Department of Education under Section 54032 as it read prior to July 19, 2006.

Does the petition merit preference by the SBE under this criterion? Yes

Comments:

NWCMS offers a variety of activities for academically low-achieving pupils along with multiple professional development activities for its faculty and staff designed to address the needs of academically low-achieving pupils. Students who are academically low performing will have modifications made in the classroom, such as books on tape, so that students will still receive exposure to sophisticated literature while working on underlying building blocks of comprehension/decoding. Teachers will also differentiate curriculum so that all students can receive standards-based instruction appropriate to their level. Students receive additional intensive help after school as well as in smaller tutorial settings. Parents will be involved in this process and will help to provide a home environment that will reinforce this plan.
**Teacher Credentialing**  
| EC Section 47605(l) | 5 CCR Section 11967.5.1(f)(5) |

**Evaluation Criteria**

Teachers in charter schools shall be required to hold a California Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in other public schools would be required to hold...It is the intent of the Legislature that charter schools be given flexibility with regard to noncore, noncollege preparatory courses.

**Does the petition meet this requirement?**  Yes

**Comments:**

The petition is clear that teachers at NWCMS will continue to be credentialed as required by law. During the 2010–11 academic year, 100 percent of NWCMS faculty teaching core courses were highly qualified under the NCLB.

**Transmission of Audit Report**  
| EC Section 47605(m) | 5 CCR Section 11967.5.1(f)(9) |

**Evaluation Criteria**

A charter school shall transmit a copy of its annual independent financial audit report for the preceding fiscal year...to the chartering entity, the Controller, the county superintendent of schools of the county in which the charter is sited..., and the CDE by December 15 of each year.

**Does the petition address this requirement?**  Yes

**Comments:**

The NWCMS charter renewal petition reasonably describes the transmission of the annual audit report. NWCMS has a history of timely and accurate transmissions of its annual audit reports.
Addendum 1: Los Angeles Unified School District Reasons for Denial

On February 1, 2011, the governing board of the Los Angeles USD, by a seven to zero vote, denied NWCMS’s charter renewal petition. That decision was based upon the resolution “To Grant or Deny Charter School Petition for New West Charter Middle School.”

The governing board of the Los Angeles USD made specific factual findings to support the findings listed below. A summary of the factual findings along with responses from NWCMS and the CDE are as follows:

Los Angeles USD General Finding Area: Demonstrably Unlikely to Succeed (47605(b)(2))

Los Angeles USD Finding #1:

Petitioner did not submit board member questionnaires and declined to complete documents necessary for the Office of the Inspector General to perform due diligence background checks to determine whether any concerns exist with regards to the petitioners’ operations of a publically-funded charter school.

NWCMS Response:

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language nor follow processes of the Los Angeles USD that are outside of legal requirements. The only mandatory process for renewal is set forth in EC sections 47607 and 47605, which describe the standards and criteria for renewal, including the requirements for the content of the charter which are present in the NWCMS charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

CDE Response:

A board questionnaire is not a requirement of EC Section 47605(b)(2).

Los Angeles USD Finding #2:

In order to evaluate NWCMS’s ability to fiscally implement their educational program and the school’s financial stability, Los Angeles USD requested the petitioner to submit copies of the school’s 2009–10 audit, 2010–11 projections, 2011–12 projections, and the current financials for the school. NWCMS only submitted budgets and cash flows for the 2012–13 school year and represent projections. The petitioner declined the request to submit the other projections and fiscal audits which NWCMS would have been required to produce to the SBE pursuant to EC Section 47605(m).
**NWCMS Response:**

As required by law, NWCMS submitted budget information, including cash flow projections and assumptions, along with three-year projections. NWCMS submits its annual audit to the CDE each year, and a copy is on file at the Charter School. NWCMS complied with legal requirements regarding the submission of budgetary documents in accordance with *EC* Section 47605(g), and therefore this finding is an impermissible basis for denial.

**The CDE Response:**

The CDE annually receives the NWCMS audit reports. NWCMS has submitted budget information as required by *EC* Section 47605(g).

**Los Angeles USD Finding #3:**

The petition fails to state an enrollment capacity for the school and instead only vaguely states that there is a demand for their school and an anticipated enrollment of over 600 students for the 2011–12 school year. Without a specific stated enrollment capacity, NWCMS's petition fails to support a finding that the school is demonstrably likely to implement the program since Los Angeles USD is unable to meaningfully evaluate essential matters such as the budgetary and fiscal viability of the school to operate at the size and scope of the educational program proposed in the charter. NWCMS has annually submitted facilities requests pursuant to *EC* Section 47614 (Proposition 39), and a failure to have a clearly defined enrollment capacity renders it impossible for Los Angeles USD to meaningfully analyze New West's enrollment projections in future.

**NWCMS Response:**

No law requires that a charter petition state with specificity its enrollment capacity; particularly as capacity is largely dependent upon facilities; and facilities are ultimately dependent upon the projection of students who wish to attend. Indeed, *EC* Section 47605(d) recognizes that enrollment capacity is not necessarily a static number. The charter renewal petition clearly states that the NWCMS Board of Directors will determine capacity.

**The CDE Response:**

The NWCMS petition states on page 4 of section B “Supplement to Element 1”, that the school currently operates with 340 students and can grow to more than 600 middle school students in grades six through eight.
Los Angeles USD General Finding Area: The Petition Does Not Contain the Required Affirmations (EC Section 47605(b)(4))

Los Angeles USD Finding #4:

Although the petition contains an assurance that a charter school shall admit all pupils who wish to attend the school pursuant to Education Code section 47605(d)(2)(A), Element H of the petition regarding Admission Requirements and the NWCMS Application Packet contain statements that contradict this assurance. Specifically, the Application Packet contains several pre-admission and other mandated requirements that may be a deterrent to admission which contravene the Charter Schools Act provision that a charter school shall admit all pupils who wish to attend the school.

NWCMS Response:

As stated by the Los Angeles USD, the NWCMS charter renewal petition does contain the required affirmations as specified in EC Section 47605(d)(2)(A), and, most importantly, NWCMS does not, in practice, have any admission requirements.

As indicated in the charter, NWCMS admits students from all over the greater Los Angeles region – covering over 50 unique zip codes. NWCMS has a very difficult time obtaining cumulative files for its students from the sending school districts; to date, NWCMS has not been able to obtain cumulative files for some of its students this year, five months into the school year. Los Angeles USD in particular has repeatedly denied parents a copy of their student’s STAR report. NWCMS receives several complaints from parents every year that Los Angeles USD schools are refusing to provide them with STAR testing information despite their understanding that this is their right. NWCMS absolutely does not utilize or review STAR reports prior to the public random drawing as a basis for making enrollment decisions, but only utilizes them once students have been enrolled.

The CDE Response:

The CDE recommends a technical amendment to NWCMS charter to ensure that the admission requirements comply with applicable federal and state laws pursuant to EC Section 47605(d)(2) including the requirement to give admission preference to returning students and pupils of the district. Additionally, NWCMS has agreed to amend the application packet by moving the requirement for student test scores and questionnaires to the enrollment packet given to families after the lottery has been held.

Los Angeles USD General Finding Area: Lacks a Reasonably Comprehensive Description of Required Elements (EC Section 47605(b)(5))

Los Angeles USD Finding #5:

Although the petition states that NWCMS adheres to all applicable State and Federal law and Southwest SELPA policies and procedures regarding special education, the
special education program as described in the renewal petition does not adequately describe what supports will be given to students with moderate to severe disabilities in order for these students to be successful with the college preparatory curriculum of the school.

**NWCMS Response:**

This finding exceeds the requirements of law for a reasonably comprehensive description. NWCMS is a member in good standing of the Southwest SELPA. The charter language does not single out how students with any particular disability are served, but rather affirms that highly qualified personnel capability of meeting students' needs teach students with disabilities.

**The CDE Response:**

The specificity requested by Los Angeles USD is not a requirement of EC Section 47605(b)(5)(A).

**Los Angeles USD Finding #6:**

There is no assurance in the petition that NWCMS would be subject to the full terms and requirements of the *Chanda Smith* Modified Consent Decree if it were to be authorized by Los Angeles USD.

**NWCMS Response:**

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. There is no legal requirement that NWCMS include boilerplate language demanded by Los Angeles USD.

**The CDE Response:**

As NWCMS is not a school of the Los Angeles USD it is not subject to the *Chanda Smith* Modified Consent Decree.

**Los Angeles USD Finding #7:**

Although the petition contains a statement that NWCMS will comply with the Brown Act, it does not include specifics to indicate how NWCMS will comply with the requirements of the law (notice of meetings, recording of meetings, making minutes available, teleconferencing procedures, etc., to assure participation by the public).

**NWCMS Response:**

NWCMS's Bylaws, attached to the renewal charter as Appendix M, set forth all of the information contained in this finding. The Bylaws also state that Board of Director meetings shall be held at the principal office of the corporation (which is the school site).
Accordingly, this finding is an impermissible basis for denial of the charter renewal petition. However, should the SBE request an amendment to the Bylaws to limit jurisdiction for purpose of Board meetings, NWCMS would comply with this request.

**The CDE Response:**

The NWCMS petition contains information related to compliance with the Brown Act.

**Los Angeles USD Finding #8:**

While the charter states that the school intends to set up advisory committees, the document fails to identify the composition of each committee, delineate the responsibilities of each committee, and provide assurance that committee meetings will be held and noticed pursuant to the Brown Act.

**NWCMS Response:**

There is no legal requirement that a charter identify the composition, etc. of such advisory committees; accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

**The CDE Response:**

The advisory committee structure is not a requirement of EC Section 47605(b)(5)(A).

**Los Angeles USD Finding #9:**

Home-School Contract: NWCMS’s petition states that “agreement to the contract by parents is one of the terms of admission and enrollment each year for students who want to attend New West.” Requiring parents to agree and sign the Home-School Contract contravenes EC Section 47605(d)(2)(A) which requires a charter school to admit all pupils who wish to attend the school. Admission to NWCMS cannot be contingent upon a parent signing the Home-School Contract.

**NWCMS Response:**

Pursuant to a legal opinion issued by the CDE, charter schools may require parents to complete volunteer hour requirements. At NWCMS, the Home-School Contract is a cornerstone of the educational program, and a key factor contributing to NWCMS’s laudable academic success. In its eight years of operation, NWCMS has never encountered any difficulty with a parent of an admitted student not wishing to sign the Home-School Contract. No student has ever been penalized in any way or denied admission due to his or her parent not completing the volunteer hour requirement, and no student will ever be so penalized or denied admission. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.
The CDE Response:

The CDE finds that based upon legal opinion, charter schools may require parents to complete volunteer hours.

Los Angeles USD Finding #10:

Parent Volunteer Requirements: Petition does not address whether the parent volunteering requirement is a condition of enrollment/continued enrollment. The petition fails to describe whether there are alternative means by which parents can satisfy their volunteer commitment or otherwise opt out of or reduce the commitment due to hardship. The petition contains statement that “New West pays special attention to ensuring that this volunteer requirement does not result in a loss of a diversity of students (i.e. race, ethnicity, or socio-economic),” yet does not explain how this is achieved. In light of the school’s declining ethnic diversity particularly in African American enrollment, this point is especially relevant.

NWCMS Response:

Please see response to Finding #9 immediately above.

The District here points out NWCMS’s “declining ethnic diversity … in African American enrollment,” but fails to mention that it is also experiencing a decline in African American enrollment in its schools. In fact, for its 2010 API growth report, Los Angeles USD’s student population was only 10 percent African American. NWCMS enrolls a higher percentage of African American students than Los Angeles USD. Furthermore, due to the public random drawing that it must conduct and substantial interest in admission, NWCMS is very likely losing some of its diversity because of the public random drawing, which could disproportionately impact population subgroups by random chance.

The CDE Response:

The CDE finds that based upon legal opinion, charter schools may require parents to complete volunteer hours.

Los Angeles USD Finding #11:

Conflict of Interest Policy. The petition (pg. 46) and Bylaws (pg. 4) provide for “Interested Persons” to sit on the Board. The Bylaws “Article IX – Contracts with Directors” also allows NWCMS to enter into a contract with a director. These provisions conflict with California Government Code Section 1090, which prohibits governing board members from being financially interested in any contract made by them in their official capacity, or by the board of which they are members.

NWCMS Response:

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language.
It is the legal opinion of our counsel that Government Code Section 1090 does not apply to charter schools. We believe that Los Angeles USD staff has reached this conclusion based upon an erroneous interpretation of the relevant law.

Pursuant to EC Section 47610, charter schools are exempt from “the laws governing school districts,” with only a few minor exceptions, not applicable here. This section is known as the “mega-waiver.” School districts themselves are not directly governed by Government Code Section 1090. Absent Education Code Section 35233, which directs school district governing boards to comply with Government Code Section 1090, the provisions of Section 1090 would not apply to school districts.

The CDE Response:

The CDE finds that NWCMS does not need to comply with Government Code Section 1090.

Los Angeles USD Finding #12:

Governance is further complicated by an examination of the 2009 IRS Form 990 for the organization. Principal/Executive Director, Sharon Weir signs the form as an officer but does not appear on the list of board members, officers and employees earning more than $50,000.

NWCMS Response:

NWCMS’s fiscal and financial reporting processes are guided by the advice of two external auditors. In eight years of operation, NWCMS has always achieved a clean financial audit. The Executive Director/Principal is the de facto Chief Executive Officer of the Corporation, and, as such, is an officer. NWCMS will review its processes with its auditors to ensure compliance with IRS regulations.

The CDE Response:

The CDE does not find that this is an education code requirement.

Los Angeles USD Finding #13:

Petition does not contain a statement that the members of NWCMS’s executive board, any administrators, managers or employees, and any other committees of the School shall comply with federal and state laws, nonprofit integrity standards and Los Angeles USD’s Charter School policies and regulations regarding ethics and conflicts of interest.

NWCMS Response:

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. The only mandatory language within a charter petition is that set forth in EC Section 47605(b), and all of those
requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that this is not a requirement of 47605(b).

Los Angeles USD Finding #14:

The petition does not contain a grievance procedure for parents for the prompt and equitable resolution of complaints.

NWCMS Response:

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. The only mandatory language within a charter petition is that set forth in EC Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that the NWCMS petition contains the required language.

Los Angeles USD Finding #15:

While the petition describes qualifications for teachers, the Executive Director/Principal and Assistant Principals of the charter school, the petition fails to identify the general qualifications for other categories of employees the school anticipates to be employed by the charter school.

NWCMS Response:

A charter petition must contain employment qualifications for key charter school employees pursuant to 5 CCR 11967.5.1. The NWCMS charter meets this requirement. NWCMS’s employee handbook, which is on file at the school site and available for inspection, contains qualifications for all employees. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that this is not a requirement of 5 CCR 11967.5.1.

Los Angeles USD Finding #16:

The petition fails to sufficiently acknowledge that the charter school will not discriminate against qualified applicants or employees on the basis of race, color, religion, sex, gender identity, sexual orientation, pregnancy, national origin, ancestry, citizenship,
age, marital status, physical disability, mental disability, medical condition, or any other characteristic protected by California or federal law and that equal employment opportunity shall be extended to all aspects of the employer-employee relationship, including recruitment, hiring, upgrading, training, promotion, transfer, discipline, layoff, recall, and dismissal from employment.

- The petition fails to clearly identify staff selection, hiring, and evaluation processes.
- The petition fails to describe grievance procedures/or rights for employees.

**NWCMS Response:**

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. There is no legal requirement that NWCMS include boilerplate language demanded by the Los Angeles USD. The only mandatory language within a charter petition is that set forth in EC Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

**The CDE Response:**

The CDE finds that the NWCMS petition meets the requirements of EC Section 47605(b).

**Los Angeles USD Finding #17:**

Although the petition contains a statement that NWCMS will follow the same procedures used by the Los Angeles USD, it does not include an explanation of Los Angeles USD’s health and safety procedures to indicate an understanding of how NWCMS will provide a safe environment for its students and staff.

**NWCMS Response:**

The charter renewal petition only states that NWCMS will follow the same procedures used by the Los Angeles USD with regard to child abuse reporting. The statement in no way applies to any other facet of health and safety policies and procedures. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

**The CDE Response:**

The CDE finds that NWCMS petition meets the requirement of 47605(b)(5)(F).
Los Angeles USD Finding #18:
The petition fails to assure that the school’s staff will be trained annually on safety procedures outlined in its policies.

NWCMS Response:
An assurance that the staff of a charter school will be trained annually on safety procedures is not a required element of a charter petition. Nevertheless, NWCMS does conduct annual training for its staff. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:
The CDE finds that this is not a requirement of 47605(b).

Los Angeles USD Finding #19:
The petition does not include Los Angeles USD’s provisions regarding Insurance and Indemnification to protect the charter school and the Los Angeles USD from claims which may arise from its operations.

NWCMS Response:
This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. The only mandatory language within a charter petition is that set forth in EC Section 47605(b), and all of those requirements are present in the charter renewal petition.

The CDE Response:
The CDE finds that NWCMS petition meets the requirements of EC Section 47605(b)

Los Angeles USD Finding #20:
Facilities: The petition does not completely state health and safety assurances:

- The petition fails to state that NWCMS shall comply with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which the charter school is to be located, and the Americans with Disabilities Act (ADA). Applicable codes and ADA requirements shall also apply to the construction, reconstruction, alteration of or addition to the proposed charter school facility.

- The petition does not state that it will comply with the Healthy Schools Act, EC Section 17608, which details pest management requirements for schools.
• The petition fails to state that the charter school will comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40CFR part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.

**NWCMS Response:**

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. There is no legal requirement that NWCMS include boilerplate language demanded by the Los Angeles USD. The only mandatory language within a charter petition is that set forth in EC Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

**The CDE Response:**

The CDE finds that the NWCMS petition meets the requirements of EC Section 47605(b).

**Los Angeles USD Finding #21:**

The petition fails to assure that the charter school shall comply with all requirements of the Crawford v. Board of Education, City of Los Angeles court order and the LAUSD Integration Policy adopted and maintained pursuant to the Crawford court order, and fails to describe the charter school’s written plan outlining how it would achieve and maintain the Los Angeles USD’s ethnic goal of 70:30 or 30:70 ratio.

**NWCMS Response:**

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. There is no legal requirement that NWCMS include boilerplate language demanded by the Los Angeles USD. The only mandatory language within a charter petition is that set forth in EC Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

**The CDE Response:**

As NWCMS is not a school of the Los Angeles USD it is not subject to the requirements of the Crawford v. Board of Education, City of Los Angeles court order and the Los Angeles USD Integration Policy.
Los Angeles USD Finding #22:

The petition fails to describe how its outreach efforts will attain a racial and ethnic balance at the charter school that is reflective of Los Angeles USD. The petition makes reference to partnering with community groups/agencies on past recruitment efforts but does not provide examples.

NWCMS Response:

The contents of Element 7 of the charter renewal petition are reasonably comprehensive and thus meet legal requirements. NWCMS does make a concerted effort every year to reach out to underserved communities; indeed, documentation of these efforts are on file at the school site.

The CDE Response:

The CDE finds that the NWCMS petition clearly explains how it will work to attain racial and ethnic balance.

Los Angeles USD Finding #23:

The petition fails to provide specifics of how the charter school provides recruitment brochures in multiple languages to ensure outreach to non-English speaking community members.

NWCMS Response:

This finding exceeds the requirements of law, and is therefore an impermissible basis for denial of the charter renewal petition. NWCMS does have Spanish language interpreters on staff who provide assistance for families as needed.

The CDE Response:

The CDE finds that the NWCMS petition states that information, both written and verbal will be provided in Spanish as needed to interested families.

Los Angeles USD Finding #24:

The petition does not contain a statement that NWCMS would accommodate public school choice traveling students under NCLB.

NWCMS Response:

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. There is no legal requirement that NWCMS include boilerplate language demanded by Los Angeles USD. The only mandatory language within a charter petition is that set forth in EC Section 47605(b),
and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that NWCMS does not need to meet this requirement as it is not a school of the Los Angeles USD.

Los Angeles USD Finding #25:

The lack of specificity and assurance in the petition for achieving racial and ethnic balance is critical given NWCMS’s decline in ethnic diversity particularly in African American enrollment as documented in the CDE’s Dataquest website.

NWCMS Response:

Please see response to “Parent Volunteer Requirements” above. The NWCMS charter renewal petition meets the requirements of law in this, and all other areas.

The CDE Response:

The CDE finds that this is not a requirement of EC Section 47605(b).

Los Angeles USD Finding #26:

The petition fails to include a reasonably comprehensive description of the manner in which NWCMS will implement a public random drawing in the event that applications for enrollment exceed school capacity. Specifically, the petition fails to address the method the school will use to verify that lottery procedures are fairly executed, the timelines under which the open enrollment period and lottery will occur, the day of the week, date and time lotteries will occur so most interested parties will be able to attend, and the records the school will keep on file to document the fair execution of lottery procedures.

NWCMS Response:

This finding exceeds the requirements of law for a reasonably comprehensive description. The Application Packet, attached as Appendix N, details the process for the public random drawing. The Application Packet is available at the school site for any interested families, and it is distributed at all enrollment events. Additionally, NWCMS produces a podcast, posted on its website, to describe the admissions and enrollment process. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that the NWCMS petition meets the requirement of a public random drawing pursuant to EC Section 47605(d)(2).
Los Angeles USD Finding #27:

Lottery exemptions and preferences fail to adhere to EC Section 47605(d)(2)(B):

- The petition lists the category of continuing students as a preference even though continuing students are exempted from the lottery pursuant to EC Section 47605(d)(2)(B). The petition also imposes requirements in order to "maintain eligibility for this preference" and be deemed an "existing pupil."
- The petition fails to affirm that in the event a public random drawing is implemented, admission priority preference shall be extended to students who reside within Los Angeles USD. Preference for residents of Los Angeles USD is second to the last in order of admission preferences which violates EC Section 47605(d)(2)(B).
- Sibling preferences and Children of Employees are listed as having more priority than Los Angeles USD students in violation of EC Section 47605(d)(2)(B).
- The petition states that preference for enrollment will be available to applicants who attend or live in the attendance area of Brockton Elementary School and that NWCMS may be available to receive funds through SB 740 Charter School Facility Grant Program if students attend this particular school. Since NWCMS has not produced any documentation that it is eligible to receive these funds including showing that it gives enrollment preference to an elementary attendance area in which less than 50 percent of pupil enrollment is eligible for free or reduced price meals, this preference is inappropriate.

NWCMS Response:

This finding misinterprets applicable law. While EC Section 47605(d)(2)(B) does require an admissions preference in the event of the lottery for residents of Los Angeles USD, it does not specify that such preference must exceed all other admissions preferences. NWCMS does give, and has given, an admissions preference for the purposes of SB 740. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE recommends a technical amendment to NWCMS charter to ensure that the admission requirements comply with applicable federal and state laws pursuant to EC Section 47605(d)(2) including the requirement to give admission preference to returning students and pupils of the district.

Los Angeles USD Finding #28:

The Application Packet contains several pre-admission and other mandated requirements that may be a deterrent to admission which contravene the Charter Schools Act provision that a charter school shall admit all pupils who wish to attend the school.
NWCMS Response:

Please see response to Finding #3 above.

The CDE Response:

The CDE recommends and the petitioner has agreed to NWCMS has agreed to a technical amendment the application packet by moving the requirement for student test scores and questionnaires to the enrollment packet given to families after the lottery has been held.

Los Angeles USD Finding #29:

The petition fails to state that the charter school will at all times maintain a funds balance (reserve) of its expenditures as required by 5 CCR 15450.

NWCMS Response:

NWCMS maintains a more than adequate budgetary reserve, as identified in its budget. No law requires that a charter petition must state that a charter school will at all times maintain a funds balance. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that a specific fund balance is not a requirement of EC Section 47605(b).

Los Angeles USD Finding #30:

The petition fails to acknowledge the right of Los Angeles USD to audit the charter school’s books, records, data, processes and procedures through the LAUSD Office of the Inspector General or other means pursuant to Los Angeles USD’s oversight responsibility and fails to assure that the charter school shall cooperate fully with such audits.

NWCMS Response:

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. There is no legal requirement that NWCMS include boilerplate language demanded by Los Angeles USD. The only mandatory language within a charter petition is that set forth in EC Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that this is not a requirement of EC Section 47605(b).
Los Angeles USD Finding #31:

The petition fails to provide a reasonably comprehensive description of the charter school’s student discipline procedures necessary to afford the charter school’s students adequate due process. Cleary described/outlined procedures are necessary to avoid inconsistent, capricious, and unfair student disciplinary practices and necessary to afford students adequate due process. For instance, the petition fails to identify offenses for which students must be suspended/recommended for expulsion, fails to identify student expulsion procedures, and fails to sufficiently address student suspension and expulsion appeal rights.

NWCMS Response:

Los Angeles USD makes a number of findings regarding NWCMS’s suspension and expulsion policy and procedures. This response addresses all such findings. Charter schools are not required to comply with EC Section 48900, which address pupil suspension and expulsion from traditional public schools, but charter schools must provide due process to students facing discipline. NWCMS has duly adopted a suspension and expulsion policy which legally comports with due process requirements. In addition, NWCMS has implemented a multi-step process for student discipline which is spelled out and memorialized in a series of forms which are given to parents at each stage in the process. This procedure also meets legal requirements for due process and all requirements of 5 CCR 11967.5.1. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that the NWCMS petition needs technical amendments to meet the requirements of 5 CCR 11967.5.1(F)(10)(D) to include evidence that the non-charter school lists of offenses and procedures were reviewed to prepare their list. The NWCMS petition needs to include an assurance that the policies and procedures surrounding suspension and/or expulsion will be amended periodically pursuant to 5 CCR 11967.5.1(f)(10)(E)(2).

Los Angeles USD Finding #32:

The petition contains vague statements as to the return rights of a Los Angeles USD employee who chooses to work at NWCMS. The following statement renders an unclear statement to prospective employees:

“Charter School employees shall have any right upon leaving the District to work in the Charter School that the District may specify, any rights of return to employment in a school district after employment in the school that the District may specify, and any other rights upon leaving employment to work in the Charter School that the District determines to be reasonable and not in conflict with any law.”
NWCMS Response:

The quoted language above has been approved by school districts and county offices of education all around the state, as well as by the SBE, as legally sufficient. Despite Los Angeles USD’s assertion to the contrary, the charter language is understandable and reasonably comprehensive. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that the NWCMS petition meets the requirements of EC Section 47605(b)(5)(M).

Los Angeles USD Finding #33:

The dispute resolution procedures described in the petition fail to conform to procedures Los Angeles USD deems necessary for the reasonable resolution of any disputes arising from provisions of the charter, including, but not limited to, written notification of a dispute, scheduling of issue conferences, and mediation and arbitration procedures.

NWCMS Response:

The charter language in this element has been approved by school districts and county offices of education all around the state, as well as by the SBE, as legally sufficient. Despite Los Angeles USD’s assertion to the contrary, the charter petition explicitly addresses written notification of a dispute, conferences, and mediation. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that the language in the NWCMS petition requires a technical amendment to reflect that the SBE is not an LEA and therefore may choose to resolve a dispute directly instead of pursuing the dispute resolution process proposed and the petition must describe how the costs of the dispute resolution process, if needed, would be funded pursuant to 5 CCR 11967.5.1(f)(14).

Los Angeles USD Finding #34:

The petition does not contain or describe applicable procedures regarding charter school revocation.

NWCMS Response:

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. There is no legal requirement that NWCMS include boilerplate language demanded by Los Angeles USD. The only mandatory language within a charter petition is that set forth in EC Section 47605(b),
and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that the language in the NWCMS petition meets the requirements set forth in EC Section 47605(b).

Los Angeles USD Finding #35:

The closure procedure in the charter does not sufficiently include procedures for the transfer and maintenance of school and student records, including personnel records.

NWCMS Response:

This finding is exclusively based on the fact that the NWCMS charter renewal petition did not contain Los Angeles USD boilerplate language. There is no legal requirement that NWCMS include boilerplate language demanded by the Los Angeles USD. The only mandatory language within a charter petition is that set forth in EC Section 47605(b) and with regard to closure as required in the California Code of Regulations, and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

The CDE Response:

The CDE finds that the language in the NWCMS petition meets the requirements set forth in EC Section 47605(b)(5)(P).
Report Number: 185-10/11
Date: February 1, 2011
Subject: Denial of the Renewal Petition of New West Charter Middle School
Responsible Staff:
- Name: José J. Cole-Gutiérrez, Director, Charter Schools
- Office/Division: Innovation and Charter Schools Division
- Telephone No.: (213) 241-2487

BOARD REPORT

Action Proposed: Staff recommends the following action:
Denial of the Renewal Petition of New West Charter Middle School.

Background: Staff recommends that the Los Angeles Unified School District Board of Education (“Board of Education”) deny the renewal charter petition for New West Charter Middle School. Staff also recommends that the Board of Education adopt the Findings of Fact supporting the denial recommendation on file in the Innovation and Charter Schools Division (“ICSD”) and attached to this board report.

New West Charter Middle School (“New West”) serves students in grades 6-8 and is located in Board District 7, Local District 3, at 11625 Pico Boulevard, Los Angeles, 90064. New West Charter Middle School serves approximately 340 students.

New West was granted its initial charter by the State Board of Education in December 2001, after its petition was denied by the LAUSD Board of Education. The LAUSD Board of Education denied the school’s first charter renewal request on May 22, 2007. On appeal, the State Board of Education granted New West Charter Middle School a five-year renewal term ending June 30, 2012.

New West is authorized and overseen by the State Board of Education. Pursuant to Education Code section 47605(k)(3), a charter school that has been granted its charter through an appeal to the state board shall submit its petition for renewal to the governing board of the school district that initially denied the charter petition.
Accordingly, on December 16, 2010, New West submitted its renewal petition to the LAUSD Board of Education. On January 4, 2011, a public hearing was held before the LAUSD Board of Education where the board considered the level of support for New West’s renewal petition. If the LAUSD Board of Education denies the petition for renewal, New West may appeal the denial to the State Board of Education.

Although the school is currently only in the fourth year of its charter term, New West submitted its renewal petition for charter term beginning July 1, 2012. ICSD requested the Charter School Division of the California Department of Education to forward any oversight visit reports generated during the charter school’s current charter term. ICSD staff was informed that no oversight visit has been conducted since 2007.

In accordance with Education Code sections 47605 and 47607, the ICSD considers the following criteria when reviewing renewal petitions submitted by a charter school:

- Confirmation that the charter school’s performance has met the standard criteria under Education Code section 47607(b), also referred to as AB 1137;
- Review of the charter petition to assess the soundness of the educational program; ensure it contains the required affirmations and number of signatures; ensure it contains reasonably comprehensive descriptions of the 16 elements;
- Assessment that the petitioners are demonstrably likely to successfully implement the program;
- Confirmation of the academic, operational, and fiscal soundness of the charter school based on the Charter Schools Division oversight.

While New West has demonstrated strong school-wide API results throughout their current charter term (see below “Summary of School Performance”), New West’s renewal petition did not meet the standards and criteria set forth in Education Code section 47605 because their renewal petition (1) did not support a finding that it is demonstrably likely to successfully implement the program; (2) did not support the required affirmations as required by the Charter Schools Act; and (3) did not contain reasonably comprehensive descriptions of specific elements required under Education Code section 47605(b)(5). The Findings of Fact delineates the specific facts to support the denial findings pursuant to Education Code section 47605(b).
For example, petitioners of the charter school declined to complete questionnaires regarding conflicts of interest. Petitioners also declined to complete documents necessary for the Office of the Inspector General to perform a due diligence review—a standard procedure for all lead petitioners as part of the District’s review process.

Therefore, the Innovation and Charter Schools Division staff recommends denial of the renewal petition and adoption of the attached Findings of Fact. It should be noted that ICSD staff provided the petitioners with feedback from its review and a request to extend the review period 30 days to allow the petitioners the opportunity to present additional information to respond to the District’s questions and concerns. This request was declined by the petitioners.

The renewal petition is available for perusal in the Innovation and Charter Schools Division.

**Expected Outcomes:** New West Charter Middle School is expected to operate its charter school in a manner consistent with local, state, and federal ordinances, laws and regulations and the terms and conditions set forth in its petition. However, as noted in the Findings of Fact, the renewal petition revealed that the petition 1) does not support a finding that it is demonstrably likely to successfully implement the program; (2) does not support the required affirmations as required by the Charter Schools Act; and (3) does not contain reasonably comprehensive descriptions of specific elements required under Education Code section 47605(b)(5).

**Board Options and Consequences:**

“Yes” – The approval of the denial of the renewal petition would terminate the right of New West Charter Middle School to operate as a charter school beginning July 1, 2012. New West Charter Middle School may directly appeal the denial to the California State Board of Education.

“No” – A no vote would require the Board of Education to take an additional action to adopt an alternative position which would include approving the renewal of New West Charter Middle School contrary to the attached Findings of Fact.

**Policy Implications:** The Policy for Charter Schools adopted in 2010.

**Budget Impact:** State Revenue Limit income and various other income sources to the District are reduced when current District students enroll at a charter school, and comparable or offsetting expenditure savings may not occur in such cases.
Under Education Code section 47604(c), a school district that grants a charter to or operates a charter school that is formed as a non-profit public benefit corporation is not held liable for the charter school’s debts or obligations as long as the school district complies with all oversight responsibilities. The District will continue to have monitoring and supervisory responsibility for charter school finances, as specified in the Charter Schools Act. Any modifications to the charter school’s petition or operations with significant financial implications would require District approval prior to implementation. Petition approval is also contingent upon adequate liability insurance coverage.

Under the current Special Education MOU, independent charter schools receive their equitable share of the LAUSD SELPA special education revenue and contribute a percentage of this revenue to cover District special education encroachment costs. Should this school join an alternative SELPA, the district will receive neither the special education revenue from the State for this school nor receive the encroachment contribution.

**Issues and Analysis:** Issues are outlined above and in more detail in the attached Findings of Fact for the Denial of New West Charter Middle School’s Renewal Petition pursuant to Education Code sections 47605(b) and 47607.

Respectfully submitted,

RAMON C. CORTINES
Superintendent of Schools

MICHELLE KING
Deputy Superintendent of School Operations

APPROVED & PRESENTED BY:

JOSÉ J. COLE-GUTIÉRREZ
Director, Charter Schools
Innovation and Charter Schools Division

DAVID HOLMQUIST
General Counsel

☐ Approved as to form.

YUMI TAKAHASHI
Budget Director

☐ Approved as to budget impact statement.
The charter review process requires the authorizer to evaluate whether the charter petition meets the criteria for approval.

Education Code Section 47605 (b) states the required petition elements and conditions for denial.

Education Code Section 47605 outlines additional petition criteria.

Education Code Section 47607(a) and (b) outlines criteria for charter renewal.

**Introduction:**
On December 16, 2010, New West Charter Middle School (“New West”) submitted their renewal petition to the Los Angeles Unified School District. On January 4, 2011, a public hearing was held before the LAUSD Board of Education where the board considered the level of support for New West’s renewal petition. On January 11, 2011, after conducting a full review of New West’s renewal petition, the Innovation and Charter Schools Division (“ICSD”) submitted comments for New West to address. On January 13, 2011, New West sent a written reply indicating that it would not make any changes to its renewal petition.

New West is authorized and overseen by the State Board of Education (“SBE”). New West was granted its initial charter on an appeal to the SBE in December 2001. The SBE on appeal also approved the renewal charter petition of New West on June 2007. New West’s current charter expires on June 30, 2012. Pursuant to Education Code section 47605(k)(3), a charter school that has been granted its charter through an appeal to the state board shall submit its petition for renewal to the governing board of the school district that initially denied the charter petition. Accordingly, New West submitted its renewal petition to the LAUSD Board of Education. If the LAUSD Board of Education denies the petition for renewal, New West may petition the SBE for renewal of its charter.

**The Renewal Petition of New West Charter Middle School (“Charter School”) does not meet the criteria under Education Code sections 47605 and 47607.**

Section 47607(a)(2) provides that charter school renewals are governed by the standards and criteria in Section 47605, and shall include, but not be limited to, a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or renewed.

Education Code section 47605(b) outlines the standards and criteria for evaluating a charter petition: A school district governing board shall grant a charter for the operation of a school under this part if it is satisfied that granting the charter is consistent with sound educational practice. Education Code section 47605(b) provides that the governing board shall not deny a petition for the establishment of a charter school unless it makes written factual findings, specific
to the particular petition, setting forth specific facts to support one or more of the following findings:

(1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.

(2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.

(3) The petition does not contain the number of signatures required by subdivision (a) of Education Code 47605.

(4) The petition does not contain an affirmation of each of the conditions described in subdivision (d) of Education Code 47605.

(5) The petition does not contain a reasonably comprehensive description of all required elements.

In addition, a charter school shall meet at least one of the academic performance criteria in section 47607(b) prior to receiving a charter renewal. New West has demonstrated strong school-wide API results as shown below to meet the academic performance criteria:

However, LAUSD’s analysis of the charter petition submitted on December 16, 2010 to LAUSD by New West Charter Middle School warrants denial of the renewal petition based on the following factual findings:

REGARDING #2 ABOVE:
The petitioners are **demonstrably unlikely** to successfully implement the program set forth in the petition:

- Petitioner did not submit board member questionnaires and declined to complete documents necessary for the Office of the Inspector General to perform due diligence background checks to determine whether any concerns exist with regards to the petitioners’ operations of a publically-funded charter school.

- In order to evaluate New West’s ability to fiscally implement their educational program and the school’s financial stability, ICSD requested the petitioner to submit copies of the school’s 2009-2010 audit, 2010-2011 projections, 2011-2012 projections, and the current financials for the school. New West only submitted budgets and cash flows for the 2012-2013 school year and represent projections. The petitioner declined the ICSD’s request to submit the other projections and fiscal audits which New West would have been required to produce to the State Board of Education pursuant to Education Code section 47605(m).

- The petition fails to state an enrollment capacity for the school and instead only vaguely states that there is a demand for their school and an anticipated enrollment of over 600 students for the 2011-2012 school year. Without a specific stated enrollment capacity, New West’s petition fails to support a finding that the school is demonstrably likely to implement the program since ICSD is unable to meaningfully evaluate essential matters such as the budgetary and fiscal viability of the school to operate at the size and scope of the educational program proposed in the charter. Insurance policies, grants/loans, and other related matters that directly and materially affect the charter school's fiscal viability would necessarily need a specific enrollment capacity. In addition, there are other legal and practical considerations related to the charter school that require a clear and specific enrollment capacity. New West has annually submitted facilities requests pursuant to Education Code section 47614 (Proposition 39), and a failure to have a clearly defined enrollment capacity renders it impossible for LAUSD to meaningfully analyze New West's enrollment projections in future facilities requests.

REGARDING #4 ABOVE:
The petition does not contain an affirmation of each of the conditions described in subdivision (d) of Education Code 47605.

- Although the petition contains an assurance that a charter school shall admit all pupils who wish to attend the school pursuant to Education Code section 47605(d)(2)(A), Element H of the petition regarding Admission Requirements and the New West Application Packet contain statements that contradict this assurance. Specifically, the Application Packet contains several pre-admission and other mandated requirements that may be a deterrent to admission which contravene the Charter Schools Act provision that a charter school shall admit all pupils who wish to attend the school. For example, New
West requires a parent to submit their child’s STAR report as part of the application. Requiring a STAR report prior to enrollment is a prerequisite to admission regardless of the school’s intent. While the Application Packet states that test scores will not be used for enrollment purposes, it also states that, “New West recommends that applicants have at least basic grade level skills in reading, writing, and mathematics to be successful with New West’s middle school curriculum.” These statements in New West’s Application Packet indicate that there are prerequisites to admission which are in violation of the assurance that a charter school shall admit all pupils who wish to attend the school.

REGARDING #5 ABOVE:
The petition does not contain a reasonably comprehensive description of all of the elements required in Education Code section 47605 (b) based on the following findings of fact:

**Description of the School’s Educational Program (Element A)**
The petition does not contain a reasonably comprehensive description of the charter school’s educational program.

- Although the petition states that New West adheres to all applicable State and Federal law and Southwest SELPA policies and procedures regarding special education, the Special Education program as described in the renewal petition does not adequately describe what supports will be given to students with moderate to severe disabilities in order for these students to be successful with the college preparatory curriculum of the school.

- There is no assurance in the petition that New West would be subject to the full terms and requirements of the Chanda Smith Modified Consent Decree if it were to be authorized by LAUSD.

**Governance Structure (Element D)**
The petition does not contain a reasonably comprehensive description of the charter school’s governance structure.

- Although the petition contains a statement that New West will comply with the Brown Act, it does not include specifics to indicate how New West will comply with the requirements of the law (notice of meetings, recording of meetings, making minutes available, teleconferencing procedures, etc., to assure participation by the public). For example, New West’s bylaws states that “the Board of Directors may designate that a meeting be held at any place within California that has been designated by resolution of the Board of Directors or in the notice of the meeting.” All meetings of the New West governing board must be conducted within the jurisdictional boundaries of where the school is located to ensure that parents, pupils and the community have access to attend and participate in the meetings.

- While the charter states that the school intends to set up advisory committees, the document fails to identify the composition of each committee, delineate the responsibilities of each committee, and provide assurance that committee meetings will be held and noticed pursuant to the Brown Act.
• Parental Involvement Section:

**Home-School Contract**: New West’s petition states that “agreement to the contract by parents is one of the terms of admission and enrollment each year for students who want to attend New West.” Requiring parents to agree and sign the Home-School Contract contravenes Education Code section 47605(d)(2)(A) which requires a charter school to admit all pupils who wish to attend the school. Admission to New West cannot be contingent upon a parent signing the Home-School Contract.

**Parent Volunteer Requirements**: Petition does not address whether the parent volunteering requirement is a condition of enrollment/continued enrollment. The petition fails to describe whether there are alternative means by which parents can satisfy their volunteer commitment or otherwise opt out of or reduce the commitment due to hardship. The petition contains statement that “New West pays special attention to ensuring that this volunteer requirement does not result in a loss of a diversity of students (i.e. race, ethnicity, or socio-economic),” yet does not explain how this is achieved. In light of the school’s declining ethnic diversity particularly in African American enrollment, this point is especially relevant. New West’s Application Packet requires parents to perform 16 hours of voluntary hours. This could be tantamount to charging tuition. Parents should be encouraged and not mandated to volunteer. Further, the petition should assure that pupils will not be expelled if parents do not fulfill volunteer requirements.

• **Conflict of Interest Policy.** The petition (pg. 46) and Bylaws (pg. 4) provide for “Interested Persons” to sit on the Board. The Bylaws “Article IX – Contracts with Directors” also allows New West to enter into a contract with a director. These provisions conflict with California Government Code Section 1090, which prohibits governing board members from being financially interested in any contract made by them in their official capacity, or by the board of which they are members. A conflict of interest in a contract per Section 1090 results in a void contract and the steps the board may take per the Bylaw Sections will not cure that conflict. An interested board member is conclusively presumed to have “made” the contract for purposes of Section 1090 because he/she is on the board, resulting in a void contract would prohibit any "interested person" from serving on the Board.

• **Governance is further complicated by an examination of the 2009 IRS Form 990 for the organization. Principal/Executive Director Sharon Weir signs the form as an officer but does not appear on the list of board members, officers and employees earning more than $50,000.

*Obtained from the California Department of Education’s Dataquest website.
• Petition does not contain a statement that the members of New West’s executive board, any administrators, managers or employees, and any other committees of the School shall comply with federal and state laws, nonprofit integrity standards and LAUSD’s Charter School policies and regulations regarding ethics and conflicts of interest.

• The petition does not contain a grievance procedure for parents for the prompt and equitable resolution of complaints.

**Employee Qualifications (Element E)**

*The petition does not present a reasonably comprehensive description of employee qualifications.*

While the petition describes qualifications for teachers, the Executive Director/Principal and Assistant Principals of the charter school, the petition fails to identify the general qualifications for other categories of employees the school anticipates to be employed by the charter school. For instance, there is no description of the qualifications of office personnel and other classified staff identified in the petition.

The petition fails to sufficiently acknowledge that the charter school will not discriminate against qualified applicants or employees on the basis of race, color, religion, sex, gender identity, sexual orientation, pregnancy, national origin, ancestry, citizenship, age, marital status, physical disability, mental disability, medical condition, or any other characteristic protected by California or federal law and that equal employment opportunity shall be extended to all aspects of the employer-employee relationship, including recruitment, hiring, upgrading, training, promotion, transfer, discipline, layoff, recall, and dismissal from employment.

• The petition fails to clearly identify staff selection, hiring, and evaluation processes.

• The petition fails to describe grievance procedures/or rights for employees.

**Health and Safety (Element F)**

*The petition does not present a reasonably comprehensive description of the procedures that the school will follow to ensure the health and safety of pupils and staff.*

• Although the petition contains a statement that New West will follow the same procedures used by the District, it does not include an explanation of the District’s health and safety procedures to indicate an understanding of how New West will provide a safe environment for its students and staff.

• The petition fails to assure that the school’s staff will be trained annually on safety procedures outlined in its policies.

• The petition does not include District’s provisions regarding Insurance and Indemnification to protect the charter school and the District from claims which may arise from its operations.

• **Facilities:** The petition does not completely state health and safety assurances:
➢ The petition fails to state that New West shall comply with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which the charter school is to be located, and the Americans with Disabilities Act (ADA). Applicable codes and ADA requirements shall also apply to the construction, reconstruction, alteration of or addition to the proposed charter school facility.

➢ The petition does not state that it will comply with the Healthy Schools Act, California Education Code Section 17608, which details pest management requirements for schools.

➢ The petition fails to state that the charter school will comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40CFR part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.

**Means to Achieve a Reflective Racial and Ethnic Balance (Element G)**

*The petition does not present a reasonably comprehensive description of means for achieving racial and ethnic balance.*

- The petition fails to assure that the charter school shall comply with all requirements of the *Crawford v. Board of Education*, City of Los Angeles court order and the LAUSD Integration Policy adopted and maintained pursuant to the *Crawford* court order, and fails to describe the charter school’s written plan outlining how it would achieve and maintain the LAUSD’s ethnic goal of 70:30 or 30:70 ratio.

- The petition fails to describe how its outreach efforts will attain a racial and ethnic balance at the charter school that is reflective of LAUSD. The petition makes reference to partnering with community groups/agencies on past recruitment efforts but does not provide examples.

- The petition fails to provide specifics of how the charter school provides recruitment brochures in multiple languages to ensure outreach to non-English speaking community members.

- The petition does not contain a statement that New West would accommodate public school choice traveling students under NCLB.

- The lack of specificity and assurance in the petition for achieving racial and ethnic balance is critical given New West’s decline in ethnic diversity particularly in African American enrollment as documented in the California Department of Education’s Dataquest website (see footnote 2 above).

**Admission Requirements (Element H)**

*The petition does not present a reasonably comprehensive description of admission requirements.*
The petition fails to include a reasonably comprehensive description of the manner in which New West will implement a public random drawing in the event that applications for enrollment exceed school capacity. Specifically, the petition fails to address the method the school will use to verify that lottery procedures are fairly executed, the timelines under which the open enrollment period and lottery will occur, the day of the week, date and time lotteries will occur so most interested parties will be able to attend, and the records the school will keep on file to document the fair execution of lottery procedures.

Lottery exemptions and preferences fail to adhere to Education Code section 47605(d)(2)(B):

- The petition lists the category of continuing students as a preference even though continuing students are exempted from the lottery pursuant to Education Code section 47605(d)(2)(B). The petition also imposes requirements in order to “maintain eligibility for this preference” and be deemed an "existing pupil."

- The petition fails to affirm that in the event a public random drawing is implemented, admission priority preference shall be extended to students who reside within LAUSD. Preference for residents of the District is second to the last in order of admission preferences which violates section 47605(d)(2)(B).

- Sibling preferences and Children of Employees are listed as having more priority than LAUSD District students in violation of section 47605(d)(2)(B).

- The petition states that preference for enrollment will be available to applicants who attend or live in the attendance area of Brockton Elementary School and that New West may be available to receive funds through SB 740 Charter School Facility Grant Program if students attend this particular school. Since New West has not produced any documentation that it is eligible to receive these funds including showing that it gives enrollment preference to an elementary attendance area in which less than 50 percent of pupil enrollment is eligible for free or reduced price meals, this preference is inappropriate.

The Application Packet contains several pre-admission and other mandated requirements that may be a deterrent to admission which contravene the Charter Schools Act provision that a charter school shall admit all pupils who wish to attend the school. (See Education Code section 47605(d)(2)(A).) For example, New West requires a parent to submit their child’s STAR report as part of the application. New West must accept all pupils who wish to attend, so requiring a STAR report prior to enrollment is a prerequisite to admission regardless of the school’s intent. While the Application Packet states that test scores will not be used for enrollment purposes, it also states that, “New West recommends that applicants have at least basic grade level skills in reading, writing, and mathematics to be successful with New West’s middle school curriculum.” These statements in New West’s Application Packet indicate that there are prerequisites to admission which are in violation of Education Code section 47605(d)(2)(A).

**Annual Audits and Reports (Element I)**
The petition fails to state that the charter school will at all times maintain a funds balance
(reserve) of its expenditures as required by section 15450, Title 5 of the California Code of Regulations.

The petition fails to acknowledge the right of LAUSD to audit the charter school’s books, records, data, processes and procedures through the LAUSD Office of the Inspector General or other means pursuant to LAUSD’s oversight responsibility and fails to assure that the charter school shall cooperate fully with such audits.

**Suspension and Expulsion Procedures (Element J)**

The petition does not present a reasonably comprehensive description of student suspension and expulsion procedures.

- The petition fails to provide a reasonably comprehensive description of the charter school’s student discipline procedures necessary to afford the charter school’s students adequate due process. Clearly described/outlined procedures are necessary to avoid inconsistent, capricious, and unfair student disciplinary practices and necessary to afford students adequate due process. For instance, the petition fails to identify offenses for which students must be suspended/recommended for expulsion, fails to identify student expulsion procedures, and fails to sufficiently address student suspension and expulsion appeal rights.

The petition fails to state the maximum length of a suspension and the maximum number of days students can be suspended in a given academic year.

The petition refers to “required withdrawal” as a discipline consequence distinct from expulsion, yet does not define the term. Students cannot be required to withdraw unless expelled and “required withdrawal” could represent a method of avoiding student due process.

The petition fails to sufficiently address student suspension and expulsion procedures and does not contain reasonably comprehensive description of procedures for investigating and presenting evidence at expulsion hearings. For example, as written, the petition allows the Director/Principal to deny students the ability to call witnesses on his or her behalf.

The petition fails to describe the governing board’s role in expulsion proceedings.

The petition fails to afford students the right to appeal an expulsion finding.

The petition does not provide that written notice for expulsion will include reinstatement eligibility review date, copy of the rehabilitation plan, the type of educational placement during the period of expulsion, and appeal procedures.

The petition does not identify protocol for providing an interim educational placement and services during suspension and pending expulsion proceedings.

The petition fails to sufficiently address the rehabilitation and readmission rights of New West students following expulsion, including failing to provide description of reinstatement application process, what data and information will be considered, timeline, notification and
reasons for denial, appeal rights if not reinstated. The petition on pages 80 and 81 as written also indicates that New West will not allow re-enrollment of expelled students.

In order to assure due process of students enrolled at New West, the petition does not state that students will not face formal discipline for attendance issues such as truancy, tardiness or absences.

The petition does not state that New West will comply with the Federal Gun Free Schools Act.

**Employee Return Rights (Element M)**
The petition contains vague statements as to the return rights of a District employee who chooses to work at New West. The following statement renders an unclear statement to prospective employees:

> “Charter School employees shall have any right upon leaving the District to work in the Charter School that the District may specify, any rights of return to employment in a school district after employment in the school that the District may specify, and any other rights upon leaving employment to work in the Charter School that the District determines to be reasonable and not in conflict with any law.”

**Dispute Resolution Procedures (Element N)**
The dispute resolution procedures described in the petition fail to conform with procedures the District deems necessary for the reasonable resolution of any disputes arising from provisions of the charter, including, but not limited to, written notification of a dispute, scheduling of issue conferences, and mediation and arbitration procedures.

**Closure Procedures (Element P)**

- The petition does not contain or describe applicable procedures regarding charter school revocation.

- The closure procedure in the charter does not sufficiently include procedures for the transfer and maintenance of school and student records, including personnel records.

Re: New West Charter Middle School Response to District Findings for Denial of Charter Renewal Petition

Dear Ms. Zachry:

Our office represents New West Charter Middle School (“New West” or the “Charter School”) in its charter renewal petition first submitted to the Los Angeles Unified School District (the “District”) and then to the State Board of Education (“SBE”). As you are aware, the District denied New West’s charter renewal petition on February 1, 2011. The purpose of this letter is to respond to the District’s findings for denial of the charter renewal petition so that the California Department of Education (“CDE”) has a complete picture of the charter renewal petition and New West’s attempt at renewal by the District.

The District Board meeting to deny the charter renewal petition was very unorthodox. A representative of the Associated Administrators of Los Angeles (“AALA”), with no connection to the Charter School, stated that New West is not held to the same standards as other charter schools within the District. The representative twice highlighted that New West was not treated the same as other District charter schools and that the District’s practice of approving other charters based upon different standards is unfair. Additionally, one District Board member stated that New West was a private school and that she did not want to have anything to do with the Charter School. This defamatory and inflammatory statement was made in public and with the full knowledge that it was untrue and likely deliberately designed to undermine the success of New West. Another District Board member indicated that the District staff report contained inaccuracies about the Charter School, which staff acknowledged, and yet the District Board elected to approve the contents of the report knowing it contained wrong information. Immediately after the unanimous vote to deny the charter petition, another District Board member requested an update on litigation between the Charter School and the District (which, had the update been given during open session, would have been a violation of the Brown Act as it was not agendized as such). There was seemingly no attempt to provide New West with a fair or impartial vote. All of this is
For ease of reference for the CDE, this letter follows the order of the District’s findings for denial, and uses the same headings as those used by the District. The District’s findings are enclosed within text boxes, with the Charter School’s responses immediately following.

**DEMONSTRABLY UNLIKELY TO SUCCEED**

**Finding #1**

Petitioner did not submit board member questionnaires and declined to complete documents necessary for the Office of the Inspector General to perform due diligence background checks to determine whether any concerns exist with regards to the petitioners’ operations of a publically-funded charter school.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language nor follow processes of the District that are outside of legal requirements. There is no legal requirement that the Charter School submit board member questionnaires or complete other documents beyond the charter as demanded by the District. The only mandatory process for renewal is set forth in Education Code Sections 47607 and 47605, which describe the standards and criteria for renewal, including the requirements for the content of the charter which are present in the New West charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

**Finding #2**

In order to evaluate New West’s ability to fiscally implement their educational program and the school’s financial stability, ICSD requested the petitioner to submit copies of the school’s 2009-2010 audit, 2010-2011 projections, 2011-2012 projections, and the current financials for the school. New West only submitted budgets and cash flows for the 2012-2013 school year and represent projections. The petitioner declined the ICSD’s request to submit the other projections and fiscal audits which New West would have been required to produce to the State Board of Education pursuant to Education Code section 47605(m).

As required by law, New West submitted budget information, including cashflow projections and assumptions, along with three-year projections. New West submits its annual audit to the CDE each year, and a copy is on file at the Charter School. New West complied with legal requirements regarding the submission of budgetary documents in accordance with Education Code Section 47605(g), and therefore this finding is an impermissible basis for denial.
Finding #3

The petition fails to state an enrollment capacity for the school and instead only vaguely states that there is a demand for their school and an anticipated enrollment of over 600 students for the 2011-2012 school year. Without a specific stated enrollment capacity, New West’s petition fails to support a finding that the school is demonstrably likely to implement the program since ICSD is unable to meaningfully evaluate essential matters such as the budgetary and fiscal viability of the school to operate at the size and scope of the educational program proposed in the charter. Insurance policies, grants/loans, and other related matters that directly and materially affect the charter school's fiscal viability would necessarily need a specific enrollment capacity. In addition, there are other legal and practical considerations related to the charter school that require a clear and specific enrollment capacity. New West has annually submitted facilities requests pursuant to Education Code section 47614 (Proposition 39), and a failure to have a clearly defined enrollment capacity renders it impossible for LAUSD to meaningfully analyze New West's enrollment projections in future facilities requests.

No law requires that a charter petition state with specificity its enrollment capacity; particularly as capacity is largely dependent upon facilities; and facilities are ultimately dependent upon the projection of students who wish to attend. Indeed, Education Code Section 47605(d) recognizes that enrollment capacity is not necessarily a static number. The charter renewal petition clearly states that the New West Board of Directors will determine capacity.

New West addresses its enrollment capacity on page 54 of the charter renewal petition. As explained in the charter, New West is looking to expand its facilities in order to accommodate student demand, which could rise to approximately 1500 students over the term of this renewal. Accordingly, because the Charter School cannot predict with certainty what its enrollment capacity will be for the term of the renewal charter, it accurately stated the annual demand from students to attend the Charter School. As of now, halfway through the open enrollment period for the 2011-12 school year, over 1000 students have attended open house events to express an interest in attending the Charter School.

**THE PETITION DOES NOT CONTAIN THE REQUIRED AFFIRMATIONS**
Finding #4

Although the petition contains an assurance that a charter school shall admit all pupils who wish to attend the school pursuant to Education Code section 47605(d)(2)(A), Element H of the petition regarding Admission Requirements and the New West Application Packet contain statements that contradict this assurance. Specifically, the Application Packet contains several pre-admission and other mandated requirements that may be a deterrent to admission which contravene the Charter Schools Act provision that a charter school shall admit all pupils who wish to attend the school. For example, New West requires a parent to submit their child’s STAR report as part of the application. Requiring a STAR report prior to enrollment is a prerequisite to admission regardless of the school’s intent. While the Application Packet states that test scores will not be used for enrollment purposes, it also states that, “New West recommends that applicants have at least basic grade level skills in reading, writing, and mathematics to be successful with New West’s middle school curriculum.” These statements in New West’s Application Packet indicate that there are prerequisites to admission which are in violation of the assurance that a charter school shall admit all pupils who wish to attend the school.

This finding relies exclusively on the content of an appendix to the charter renewal petition, which was intended as an example (see page 50), and not the language of the charter renewal petition itself. Therefore, it is an impermissible basis for denial of the charter renewal petition. As stated by the District, the New West charter renewal petition does contain the required affirmations as specified in Education Code Section 47605(d)(2)(A), and, mostly importantly, New West does not, in practice, have any admission requirements. Furthermore, the District engages in pure speculation and conjecture to make a baseless assumption about how the STAR report is utilized by the Charter School.

The Charter School does request that parents submit a STAR report as part of the application process. The application packet states: “No admission tests are not required. However, you must submit your child’s latest STAR Student Report with the application. … New West is interested in the CSTs because they reflect how well your child has mastered the California state content standards. All information is used post-lottery.” (Emphasis added.)

As indicated in the charter, New West admits students from all over the greater Los Angeles region – covering over 50 unique zip codes. The Charter School has a very difficult time obtaining cumulative files for its students from the sending school districts; to date, New West has not been able to obtain cumulative files for some of its students this year, five months into the school year. The District in particular has repeatedly denied parents a copy of their student’s STAR report. New West receives several complaints from parents every year that District schools are refusing to provide them with STAR testing information despite their understanding that this is their right. The Charter School requests the STAR report as one way to evaluate an admitted student’s academic performance to date, and to help teachers prepare to teach individual students. New West absolutely does not utilize or review STAR reports prior to the public random drawing as a basis for making enrollment decisions, but only utilizes them once students have been enrolled.
LACKS A REASONABLY COMPREHENSIVE DESCRIPTION OF REQUIRED ELEMENTS

Element A

Finding #5

Although the petition states that New West adheres to all applicable State and Federal law and Southwest SELPA policies and procedures regarding special education, the Special Education program as described in the renewal petition does not adequately describe what supports will be given to students with moderate to severe disabilities in order for these students to be successful with the college preparatory curriculum of the school.

This finding exceeds the requirements of law for a reasonably comprehensive description. New West is a member in good standing of the Southwest SELPA, as affirmed by SELPA Director Bob Farran in a letter (Appendix J to the charter). The charter language does not single out how students with any particular disability are served, but rather affirms that highly qualified personnel capability of meeting students’ needs teach students with disabilities. Given the unqualified support from the SELPA and the longstanding, legally-compliant service of students with disabilities at the Charter School, this finding lacks any factual basis and thus is an impermissible basis upon which to deny the charter.

Finding #6

There is no assurance in the petition that New West would be subject to the full terms and requirements of the Chanda Smith Modified Consent Decree if it were to be authorized by LAUSD.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

Element D

Finding #7

Although the petition contains a statement that New West will comply with the Brown Act, it does not include specifics to indicate how New West will comply with the requirements of the law (notice of meetings, recording of meetings, making minutes available, teleconferencing procedures, etc., to assure participation by the public). For example, New West’s bylaws states that “the Board of Directors may designate that a meeting be held at any place within California that has been designated by resolution of the Board of Directors or in the notice of the meeting.” All meetings of the New West governing board must be conducted within the jurisdictional boundaries of where the school is located to ensure that parents, pupils and the community have access to attend and participate in the meetings.
Carolyn Zachry  
*Re: New West Charter Middle School Response to District Findings for Denial of Charter Renewal Petition*  
*July 18, 2011*  
*Page 6 of 17*

The Charter School’s Bylaws, attached to the renewal charter as Appendix M, set forth all of the information contained in this finding. The Bylaws also state (Article VII, Section 15, page 5) that Board of Director meetings shall be held at the principal office of the corporation (which is the school site). The District appears to be concerned that the New West Board may hold a meeting outside of District boundaries. While highly unlikely to occur (indeed, the Charter School has never held a meeting off-site), such would be lawful, because, as it is a charter school, New West does not have jurisdictional boundaries like a school district does. Because charter schools must admit any student who resides in California, its jurisdiction is arguably the entire state.

Accordingly, this finding is an impermissible basis for denial of the charter renewal petition. However, should the SBE request an amendment to the Bylaws to limit jurisdiction for purpose of Board meetings, the Charter School would comply with this request.

**Finding #8**

| While the charter states that the school intends to set up advisory committees, the document fails to identify the composition of each committee, delineate the responsibilities of each committee, and provide assurance that committee meetings will be held and noticed pursuant to the Brown Act. |

As identified in the charter on page 39, the New West committee structure evolves and changes each year, based upon needs identified during the annual strategic plan Board retreat. The advisory committees which result from the strategic plan are oriented toward the Charter School’s goals for a particular year, for example fundraising or charter renewal. The committees are truly advisory in nature: the members collect information and report back to the Board in a duly noticed Board meeting which complies with the Brown Act. There is no legal requirement that a charter identify the composition, etc. of such advisory committees; accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

**Finding #9**

| Home-School Contract: New West’s petition states that “agreement to the contract by parents is one of the terms of admission and enrollment each year for students who want to attend New West.” Requiring parents to agree and sign the Home-School Contract contravenes Education Code section 47605(d)(2)(A) which requires a charter school to admit all pupils who wish to attend the school. Admission to New West cannot be contingent upon a parent signing the Home-School Contract. |

Pursuant to a legal opinion issued by the CDE, charter schools may require parents to complete volunteer hour requirements. At New West, the Home-School Contract is a cornerstone of the educational program, and a key factor contributing to the Charter School’s laudable academic success. In its eight years of operation, the Charter School has never encountered any difficulty with a parent of an admitted student not wishing to sign the Home-School Contract. No student has ever been penalized in any way or denied admission due to his or her parent not completing the volunteer hour requirement, and no student will ever be so penalized or denied admission. New West offers myriad opportunities to complete the volunteer hour requirement, including opportunities offered after school, in the evening, on weekends, and during the work day.
Charter School makes individual modifications were needed or requested. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #10

Parent Volunteer Requirements: Petition does not address whether the parent volunteering requirement is a condition of enrollment/continued enrollment. The petition fails to describe whether there are alternative means by which parents can satisfy their volunteer commitment or otherwise opt out of or reduce the commitment due to hardship. The petition contains statement that “New West pays special attention to ensuring that this volunteer requirement does not result in a loss of a diversity of students (i.e. race, ethnicity, or socio-economic),” yet does not explain how this is achieved. In light of the school’s declining ethnic diversity particularly in African American enrollment, this point is especially relevant. New West’s Application Packet requires parents to perform 16 hours of voluntary hours. This could be tantamount to charging tuition. Parents should be encouraged and not mandated to volunteer. Further, the petition should assure that pupils will not be expelled if parents do not fulfill volunteer requirements.

Please see response to Finding #9 immediately above.

The District here points out the Charter School’s “declining ethnic diversity … in African American enrollment,” but fails to mention that it is also experiencing a decline in African American enrollment in its schools. In fact, for its 2010 API growth report, the District’s student population was only 10% African American. New West enrolls a higher percentage of African American students than the District does. Furthermore, due to the public random drawing that it must conduct due to substantial interest in admission to the Charter School, New West is very likely losing some of its diversity because of the public random drawing, which could disproportionately impact population subgroups by random chance.

Finding #11

Conflict of Interest Policy. The petition (pg. 46) and Bylaws (pg. 4) provide for “Interested Persons” to sit on the Board. The Bylaws “Article IX – Contracts with Directors” also allows New West to enter into a contract with a director. These provisions conflict with California Government Code Section 1090, which prohibits governing board members from being financially interested in any contract made by them in their official capacity, or by the board of which they are members. A conflict of interest in a contract per Section 1090 results in a void contract and the steps the board may take per the Bylaw Sections will not cure that conflict. An interested board member is conclusively presumed to have “made” the contract for purposes of Section 1090 because he/she is on the board, resulting in a void contract would prohibit any "interested person" from serving on the Board.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.
Additionally, it is the legal opinion of our counsel that Government Code Section 1090 does not apply to charter schools. We believe that District staff has reached this conclusion based upon an erroneous interpretation of the relevant law.

Pursuant to Education Code Section 47610, charter schools are exempt from “the laws governing school districts,” with only a few minor exceptions, not applicable here. This Section is known as the “mega-waiver.” School districts themselves are not directly governed by Government Code Section 1090. Absent Education Code Section 35233, which directs school district governing boards to comply with Government Code Section 1090, the provisions of Section 1090 would not apply to school districts.

As it is only through Education Code Section 35233 that Government Code Section 1090 applies to school districts, charter schools are necessarily exempt from Section 1090 by virtue of the “mega-waiver” described above. Since Education Code Section 35233, by its terms, does not apply to charter schools, and no other California statute states that Section 1090 applies to charter schools, there is no statute that applies Government Code Section 1090 to charter schools. The Legislature is presumed to have been aware of Education Code Section 35233 when it enacted the Charter Schools Act. It made no exception in the “mega-waiver” for Section 1090 when it adopted Education Code Section 47610, although it expressly made a number of other exceptions. Thus, Section 1090 is not applicable to charter schools.

Further, the Legislature attempted to make the substantive requirements of Section 1090 applicable to charter schools by voting to approve Assembly Bill (“AB”) 572 in the most recent legislative session. However, on September 23, 2010, Gov. Arnold Schwarzenegger vetoed AB 572, which would have made the Ralph M. Brown Act (or, in some instances, the Bagley-Keene Open Meeting Act), California Public Records Act (“CPRA”), the Political Reform Act of 1974, and California Government Code section 1090 expressly applicable to charter schools. The Governor noted in his veto message, “Repeatedly, charter schools with high proportions of disadvantaged students are among the highest performing public schools in California. Any attempt to regulate charter schools with incoherent and inconsistent cross-references to other statutes is simply misguided. … Legislation expressing findings and intent to provide ‘greater autonomy to charter schools’ may be well intended at first glance. A careful reading of the bill reveals that the proposed changes apply new and contradictory requirements, which would put hundreds of schools immediately out of compliance, making it obvious that it is simply another veiled attempt to discourage competition and stifle efforts to aid the expansion of charter schools.”

Had it been the case that Government Code Section 1090 clearly applied to charter schools, then the Legislature would not have drafted or passed AB 572. We believe it is even clearer now, after the veto of AB 572, that Section 1090 does not apply to charter schools.

Finding #12

Governance is further complicated by an examination of the 2009 IRS Form 990 for the organization. Principal/Executive Director Sharon Weir signs the form as an officer but does not appear on the list of board members, officers and employees earning more than $50,000.
New West’s fiscal and financial reporting processes are guided by the advice of two external auditors. In eight years of operation, the Charter School has always achieved a clean financial audit. The Executive Director/Principal is the *de facto* Chief Executive Officer of the Corporation, and, as such, is an officer. The Charter School will review its processes with its auditors to ensure compliance with IRS regulations.

**Finding #13**

The petition does not contain a statement that the members of New West’s executive board, any administrators, managers, or employees, and any other committees of the School shall comply with federal and state laws, nonprofit integrity standards and LAUSD’s Charter School policies and regulations regarding ethics and conflicts of interest.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

**Finding #14**

The petition does not contain a grievance procedure for parents for the prompt and equitable resolution of complaints.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

**Element E**

**Finding #15**

While the petition describes qualifications for teachers, the Executive Director/Principal and Assistant Principals of the charter school, the petition fails to identify the general qualifications for other categories of employees the school anticipates to be employed by the charter school. For instance, there is no description of the qualifications of office personnel and other classified staff identified in the petition.

A charter petition must contain employment qualifications for *key* charter school employees pursuant to Section 11967.5.1 of Title 5 of the California Code of Regulations. The New West charter meets this requirement. The Charter School’s employee handbook, which is on file at the school site and available for inspection, contains qualifications for all employees. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.
Finding #16

The petition fails to sufficiently acknowledge that the charter school will not discriminate against qualified applicants or employees on the basis of race, color, religion, sex, gender identity, sexual orientation, pregnancy, national origin, ancestry, citizenship, age, marital status, physical disability, mental disability, medical condition, or any other characteristic protected by California or federal law and that equal employment opportunity shall be extended to all aspects of the employer-employee relationship, including recruitment, hiring, upgrading, training, promotion, transfer, discipline, layoff, recall, and dismissal from employment.

- The petition fails to clearly identify staff selection, hiring, and evaluation processes.
- The petition fails to describe grievance procedures/or rights for employees.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

Element F

Finding #17

Although the petition contains a statement that New West will follow the same procedures used by the District, it does not include an explanation of the District’s health and safety procedures to indicate an understanding of how New West will provide a safe environment for its students and staff.

The charter renewal petition only states that New West will follow the same procedures used by the District with regard to child abuse reporting. The statement in no way applies to any other facet of health and safety policies and procedures. A summary of health and safety procedures is provided on pages 45-47 of the charter, and the full policies and procedures are on file at the Charter School site. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #18

The petition fails to assure that the school’s staff will be trained annually on safety procedures outlined in its policies.

An assurance that the staff of a charter school will be trained annually on safety procedures is not a required element of a charter petition. Nevertheless, New West does conduct annual training for its staff. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #19

The petition does not include District’s provisions regarding Insurance and Indemnification to protect the charter school and the District from claims which may arise from its operations.
This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition.

Nevertheless, on page 66 of the renewal charter, New West states that it will enter into an MOU with the authorizer whereby it will indemnify the authorizer for the actions of the Charter School under the charter. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #20

Facilities: The petition does not completely state health and safety assurances:

- The petition fails to state that New West shall comply with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which the charter school is to be located, and the Americans with Disabilities Act (ADA). Applicable codes and ADA requirements shall also apply to the construction, reconstruction, alteration of or addition to the proposed charter school facility.
- The petition does not state that it will comply with the Healthy Schools Act, California Education Code Section 17608, which details pest management requirements for schools.
- The petition fails to state that the charter school will comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40CFR part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

Element G

Finding #21

The petition fails to assure that the charter school shall comply with all requirements of the Crawford v. Board of Education, City of Los Angeles court order and the LAUSD Integration Policy adopted and maintained pursuant to the Crawford court order, and fails to describe the charter school’s written plan outlining how it would achieve and maintain the LAUSD’s ethnic goal of 70:30 or 30:70 ratio.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School
include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #22

The petition fails to describe how its outreach efforts will attain a racial and ethnic balance at the charter school that is reflective of LAUSD. The petition makes reference to partnering with community groups/agencies on past recruitment efforts but does not provide examples.

The contents of Element 7 of the charter renewal petition are reasonably comprehensive and thus meet legal requirements. New West does make a concerted effort every year to reach out to underserved communities; indeed, documentation of these efforts are on file at the school site. It bears mention that the District has apparently instructed its elementary schools to prohibit New West from attending information or recruiting events at their sites. The District bars the Charter School from access to students, which could have an impact on New West’s overall diversity.

Finding #23

The petition fails to provide specifics of how the charter school provides recruitment brochures in multiple languages to ensure outreach to non-English speaking community members.

This finding exceeds the requirements of law, and is therefore an impermissible basis for denial of the charter renewal petition. New West does have Spanish language interpreters on staff who provide assistance for families as needed.

Finding #24

The petition does not contain a statement that New West would accommodate public school choice traveling students under NCLB.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #25

The lack of specificity and assurance in the petition for achieving racial and ethnic balance is critical given New West’s decline in ethnic diversity particularly in African American enrollment as documented in the California Department of Education’s Dataquest website.

Please see response to “Parent Volunteer Requirements” above. The New West charter renewal petition meets the requirements of law in this, and all other areas.
Element H

Finding #26

The petition fails to include a reasonably comprehensive description of the manner in which New West will implement a public random drawing in the event that applications for enrollment exceed school capacity. Specifically, the petition fails to address the method the school will use to verify that lottery procedures are fairly executed, the timelines under which the open enrollment period and lottery will occur, the day of the week, date and time lotteries will occur so most interested parties will be able to attend, and the records the school will keep on file to document the fair execution of lottery procedures.

This finding exceeds the requirements of law for a reasonably comprehensive description. As all of the occurrences in the District’s example are likely to change or evolve on an annual basis, they are items better left to an admissions policy or Application Packet, which is what New West does. The Application Packet, attached as Appendix N, details the process for the public random drawing. The Application Packet is available at the school site for any interested families, and it is distributed at all enrollment events. Additionally, the Charter School produces a podcast, posted on its website, to describe the admissions and enrollment process. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #27

Lottery exemptions and preferences fail to adhere to Education Code section 47605(d)(2)(B):

- The petition lists the category of continuing students as a preference even though continuing students are exempted from the lottery pursuant to Education Code section 47605(d)(2)(B). The petition also imposes requirements in order to “maintain eligibility for this preference” and be deemed an "existing pupil."
- The petition fails to affirm that in the event a public random drawing is implemented, admission priority preference shall be extended to students who reside within LAUSD. Preference for residents of the District is second to the last in order of admission preferences which violates section 47605(d)(2)(B).
- Sibling preferences and Children of Employees are listed as having more priority than LAUSD District students in violation of section 47605(d)(2)(B).
- The petition states that preference for enrollment will be available to applicants who attend or live in the attendance area of Brockton Elementary School and that New West may be available to receive funds through SB 740 Charter School Facility Grant Program if students attend this particular school. Since New West has not produced any documentation that it is eligible to receive these funds including showing that it gives enrollment preference to an elementary attendance area in which less than 50 percent of pupil enrollment is eligible for free or reduced price meals, this preference is inappropriate.

This finding misinterprets applicable law. While Education Code Section 47605(d)(2)(B) does require an admissions preference in the event of the lottery for residents of the District, it does not specify that such preference must exceed all other admissions preferences. Given the extraordinary demand for admission to New West, if the Charter School gave top admission
preference to residents of the District, it is very likely that siblings of enrolled students would not gain admission, thus splitting up families and creating a burden that the law did not intend. All other preferences would get swallowed by the larger District preference. Furthermore, the Charter does give, and has given, an admissions preference for the purposes of SB 740. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #28
The Application Packet contains several pre-admission and other mandated requirements that may be a deterrent to admission which contravene the Charter Schools Act provision that a charter school shall admit all pupils who wish to attend the school. (See Education Code section 47605(d)(2)(A).) For example, New West requires a parent to submit their child’s STAR report as part of the application. New West must accept all pupils who wish to attend, so requiring a STAR report prior to enrollment is a prerequisite to admission regardless of the school’s intent. While the Application Packet states that test scores will not be used for enrollment purposes, it also states that, “New West recommends that applicants have at least basic grade level skills in reading, writing, and mathematics to be successful with New West’s middle school curriculum.” These statements in New West’s Application Packet indicate that there are prerequisites to admission which are in violation of Education Code section 47605(d)(2)(A).

Please see response to Finding #3 above.

Element I

Finding #29
The petition fails to state that the charter school will at all times maintain a funds balance (reserve) of its expenditures as required by section 15450, Title 5 of the California Code of Regulations.

New West maintains a more than adequate budgetary reserve, as identified in its budget, attached to the charter as Appendix P. No law requires that a charter petition must state that a charter school will at all times maintain a funds balance. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #30
The petition fails to acknowledge the right of LAUSD to audit the charter school’s books, records, data, processes and procedures through the LAUSD Office of the Inspector General or other means pursuant to LAUSD’s oversight responsibility and fails to assure that the charter school shall cooperate fully with such audits.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.
Element J

Finding #31

The petition fails to provide a reasonably comprehensive description of the charter school’s student discipline procedures necessary to afford the charter school’s students adequate due process. Clearly described/outlined procedures are necessary to avoid inconsistent, capricious, and unfair student disciplinary practices and necessary to afford students adequate due process. For instance, the petition fails to identify offenses for which students must be suspended/recommended for expulsion, fails to identify student expulsion procedures, and fails to sufficiently address student suspension and expulsion appeal rights.

The District makes a number of findings regarding the Charter School’s suspension and expulsion policy and procedures. This response addresses all such findings. Charter schools are not required to comply with Education Code Section 48900, which address pupil suspension and expulsion from traditional public schools, but charter schools must provide due process to students facing discipline. New West has duly adopted a suspension and expulsion policy which legally comports with due process requirements. In addition, the Charter School has implemented a multi-step process for student discipline which is spelled out and memorialized in a series of forms which are given to parents at each stage in the process. This procedure also meets legal requirements for due process and all requirements of Section 11967.5.1 of Title 5 of the California Code of Regulations. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

Element M

Finding #32

The petition contains vague statements as to the return rights of a District employee who chooses to work at New West. The following statement renders an unclear statement to prospective employees:

“Charter School employees shall have any right upon leaving the District to work in the Charter School that the District may specify, any rights of return to employment in a school district after employment in the school that the District may specify, and any other rights upon leaving employment to work in the Charter School that the District determines to be reasonable and not in conflict with any law.”

The quoted language above has been approved by school districts and county offices of education all around the state, as well as by the State Board of Education, as legally sufficient. Despite the District’s assertion to the contrary, the charter language is understandable and reasonably comprehensive. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.
Element N

Finding #33

The dispute resolution procedures described in the petition fail to conform with procedures the District deems necessary for the reasonable resolution of any disputes arising from provisions of the charter, including, but not limited to, written notification of a dispute, scheduling of issue conferences, and mediation and arbitration procedures.

The charter language in this element has been approved by school districts and county offices of education all around the state, as well as by the State Board of Education, as legally sufficient. Despite the District’s assertion to the contrary, the charter explicitly addresses written notification of a dispute, conferences, and mediation, all on page 58 of the charter renewal petition. Accordingly, this finding is an impermissible basis for denial of the charter renewal petition.

Element P

Finding #34

The petition does not contain or describe applicable procedures regarding charter school revocation.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b), and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

Finding #35

The closure procedure in the charter does not sufficiently include procedures for the transfer and maintenance of school and student records, including personnel records.

This finding is exclusively based on the fact that the New West charter renewal petition did not contain District boilerplate language. There is no legal requirement that the Charter School include boilerplate language demanded by the District. The only mandatory language within a charter petition is that set forth in Education Code Section 47605(b) and with regard to closure as required in the California Code of Regulations, and all of those requirements are present in the charter renewal petition. Therefore, this finding is an impermissible basis for denial of the charter renewal petition.

* * *
Given the District Board’s treatment of New West as described above, and the myriad legally impermissible findings for denial prepared by District staff, it is clear that the District is vehemently opposed to serving as the authorizer for the Charter School. New West has been a model State Board of Education approved charter school since 2003, with its exceptional academic performance, status as a California Distinguished School, and ongoing cooperative relationship CDE staff, and looks forward to continuing this positive relationship.

ITEM 8
NEW WEST CHARTER MIDDLE SCHOOL: MATERIAL REVISION REQUEST TO EXPAND FROM GRADES SIX THROUGH EIGHT TO GRADES SIX THROUGH TWELVE SCHOOL AND TO CHANGE LOCATION OF THE SCHOOL.

RECOMMENDATION

The California Department of Education (CDE) and The Advisory Commission on Charter Schools (ACCS) recommends the State Board of Education (SBE) hold a public hearing and approve the material revision request for New West Charter Middle School (NWCMS) to add grades nine through twelve and change the location of the school effective July 1, 2012.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

NWCMS was authorized by the SBE after the school was denied by the Los Angeles Unified School District (Los Angeles USD) and the Los Angeles County Office of Education. In its December 2001 meeting, the SBE approved the NWCMS charter for an initial period of three years (2002–03 through 2004–05). However, for a variety of reasons principally related to facilities and special education, the school's opening was delayed to 2003–04. Therefore, in November 2004, the SBE adjusted the initial three-year charter approval period to end June 30, 2006. In March 2006, the SBE approved a material amendment to NWCMS’s charter extending the initial charter approval period to a fourth year (2006–07), thus bringing it to an end on June 30, 2007. In May 2007, another provisionary one–year extension (July 1, 2007 through June 30, 2008) was approved by the SBE if NWCMS was not renewed by the Los Angeles USD by June 30, 2007. NWCMS was denied renewal by Los Angeles USD and in July 2007, the SBE renewed the charter for the period of July 1, 2007 through June 30, 2012. The NWCMS has been an SBE-authorized charter school for eight years and serves students in grades six through eight. At the September 2011 meeting, the SBE will consider a renewal for NWCMS for July 1, 2012, through June 30, 2017.

SUMMARY OF KEY ISSUES

The NWCMS charter petition approved by the SBE in 2001 was for a sixth through eighth grade program. This request for a material revision would amend the charter to expand to a sixth through twelfth grade school and change the name to New West
SUMMARY OF KEY ISSUES (Cont.)

Charter (NWC). NWCMS also requests to relocate the school to a new facility to accommodate the additional grade levels and students that the material revision includes. NWCMS currently has approximately 332 students. The school anticipates full enrollment in 2015–16 as 875. Table 1 describes the estimated enrollment for the next four years.

In addition to expanding the grade levels served, NWCMS is proposing to relocate to a new 50,000 square–foot facility located at 1905–1915 Armacost Avenue, Los Angeles, California 90025. The 2000 United States Census data demonstrates that this location will allow NWCMS to increase in diversity and to serve greater numbers of English learners (EL) and socioeconomically disadvantaged students. Table 2 compares the census zip code data for the current location and the proposed new location.
SUMMARY OF KEY ISSUES (Cont.)

The NWCMS material revision request includes the high school education program details. The high school education program will build on the current middle school program centered on a small learning community with high standards. Instruction will include integration of subject areas through project based learning, differentiated instruction, and real world experiences. Students will complete courses that meet “a-g” standards, and students will exceed the California graduation requirements including four years of English, four years of mathematics, three years of social science, three years of science, two years of a foreign language, two years of a visual or performing art, and two years of college–preparatory electives. In addition, each student will be required to pass the California High School Exit Examination and annually prepare and present a digital portfolio on the student’s pathway to graduation and college. NWCMS will also seek Western Association of Schools and Colleges accreditation.

The NWCMS material revision request to change school locations is expected to increase the number of EL and socioeconomically disadvantaged students attending the school. NWCMS is prepared to meet the needs of these students through differentiated curriculum, tutoring, Specially Designed Academic Instruction in English techniques and/or sheltered English. Teachers are provided professional development on instructional strategies and programs for EL students.

On a 2011 CDE staff visit to the school, parents and the board of NWCMS expressed a high interest in expanding the school to include high school grades. Based on the level of interest exhibited by parents, the information provided by NWCMS, review of the school’s academic performance compared to the performance of local schools (Table 3), a review of the high school education program and high school measurable student outcomes, the CDE recommends that the NWCMS request to expand to include grades six through twelve and relocate as reflected in the revised amendment be approved.

Data from 2010–11 California Longitudinal Pupil Achievement Data System, Retrieved July 13, 2011
SUMMARY OF KEY ISSUES (Cont.)

The NWCMS material revision was considered by the ACCS on July 28, 2011. By a vote of 6 to 0, with 1 abstention the ACCS recommended that the SBE approve the material revision of NWCMS.

FISCAL ANALYSIS (AS APPROPRIATE)

If approved, this school would receive apportionment funding under the charter school block grant funding model. Funding is based on the statewide average funding levels for each grade span (kindergarten through grade three, grades four through six, grades seven through eight, and grades nine through twelve). Calculations use revenue limits for unified, elementary, and high school districts.

The proposed budget submitted for NWCMS’s material revision, enrollment and average daily attendance projections are reasonably projected. Revenues and expenditures are budgeted conservatively and reflect appropriate increases for anticipated growth. The budget supports significant costs associated with the school’s move to its new facility while maintaining the recommended levels of reserve consistent with a district of similar size. CDE has confidence that the school can successfully expand to serve grades nine through twelve and maintain its trend of financial stability.

NEW WEST CHARTER HIGH SCHOOL

DOORS TO OPEN 2012
ELEMENT A: DESCRIPTION OF THE EDUCATIONAL PROGRAM

“New West has been an amazing school. My daughter is graduating this year and I must say that I am going to miss the school, the teachers and the staff. The entire 3 years that my daughter has attended has been academically challenging for her, yet she has excelled in each and every subject. I just wish that she could continue with their rigorous program beyond middle school.”

Parent Review, 2010

New West Charter Vision
New West Charter High School (NWCHS) is a promising vision of a driven, academic family whose central objective is to continue to inspire and prepare all students to continue education after high school at a four-year university. Beginning in 1999, New West Founders worked tirelessly to create a small, high quality, public middle school on the Westside of Los Angeles and having accomplished that small feat, these same individuals now want to give birth to a most desired, much needed public high school cultured on the same foundation and standards. This vision shall be an extension of New West Charter Middle School’s vision, which produced a model middle school that combined proven best practices and cutting-edge innovations to teach children most effectively. This current practice, developed through the efforts of a dedicated and creative family of students, staff, parents and community supporters, will continue to produce a school culture with elevated academic, social and professional expectations and achievement indicators. The goals for a high school, then, are to one, to re-locate operations for both a middle and high school (6-12th grade) to a new 50,000 square feet location at 1905-1915 Armacost Avenue, Los Angeles, CA 90025; and two, to further strengthen the academic standards and opportunities on campus, operate economically and efficiently, be responsive to the needs of our student body and parents, reward excellence in instruction, rise to the technology and the times in which we live, and promote character and personal values in our students.

With all this in mind, NWCHS is a small Learning community with standards for high school graduation higher than State requirements and a system of providing personalized learning experiences for students that supports individual goals and learning styles. It is a multicultural environment pledged to continue its blend of traditional academic subjects with real world, technical applications, critical thinking skills, and nourishing independent scholars at a secondary level. The high school’s Guiding Principles will be the same as New West Charter Middle School’s, which are: 1) The students are the school’s number one priority and guiding principles; 2) Strong character development, honesty, respect and integrity for all members of the NWCHS community; 3) Academic rigor and excellence throughout the four years of academia and beyond; 4) Student, Parent & New West Faculty & staff accountability to NWCHS vision; and 5) A joyous, memorable and yet, scholarly environment students will contribute to, bask in and be
It is the academic family’s intent to support the learning environment we create and emphasize academic progress as well as academic success. We wish to sustain our nurturing school environment that reflects cultural diversity and transformation that responds to special needs, is safe, interactive, and emphasizes service and leadership among students, staff and parents.

The shareholders of NWCHS understand that in this endeavor we will continue to recognize the crucial role of both traditional and leading-edge educational techniques as we seek to meet the needs of the able and the gifted, as well as developing and special needs students. As an independent charter school program, NW has been able to and will continue to make the necessary changes to meet our students’ needs. Through the outstanding leadership of our Executive Director and administration, and the talents of our effective teaching staff, and excellent classified employees, we are progressively building a middle school model that has become a design for others in public education who seek solutions in today’s world and we view this charter high school as an ongoing opportunity to develop new ideas and experiment with educational approaches.

Naturally, it is to be expected, even encouraged, that NWCHS’s education program evolves over time as the Charter School’s educators determine that it would be best to add, delete, or revise various policies, procedures, or practices in the best interests of the Charter School’s students. Accordingly, the role of the Educational Study Panel is now filled by the Charter School’s Executive Director/Principal, Assistant Principal and teaching staff as part of their regular duties and ongoing professional development activities. NWCHS intends to continue learning from other successful charter high schools, such as High Tech High Los Angeles, Granada Hills Charter High School, Animo Venice Charter High School and Summit View High School, as well as from its own experiences in order to maintain and further improve a high level of student learning and to enable pupils to become self-motivated, competent, lifelong learners.

We want to continue to have enough flexibility to make other important modifications in the future. The roadmap of this element will continue to help us reach our vision of preparing all our students for a successful future. We have a long-standing and steadfast commitment to school reform and improvement, and have proven so with the consistent rise of our AYP scores each year at the middle school level. By granting New West a high school charter, we reaffirm our commitment to a rigorous and relevant high school experience for all students. We will foster a high school environment with elevated standards of behavior, dress, and respect for authority. We will have a school curriculum and schedule that supports academic success for all students. We have an educational program that tests and verifies, tutors and reviews, in an effort to “leave no child behind.”

We continue to be accountable and responsible for the way we use time. We have considered different configurations of the school day. We continue to serve our community and provide opportunity enrollment for students who may live outside of our residential area while maintaining our current diverse ethnic balance. We examine our facilities and our school community on an ongoing basis so that our campus is not dangerously overcrowded or under supervised.

**Note:** Students with Disabilities usually meet all requirements. SWD students receive supplemental support in and out of class from the teacher and/or specialists equipped to handle special need cases (i.e., ADD, autistic students or physically disabled) to help them stretch to their highest capability. Students with an IEP who need help in math, ELA and organization are put in Resource Class.
The 21st Century
Society in the 21st century is an informational society requiring high levels of literacy, clarity of thinking skills, and increased abilities to process information. The process of education in this society demands the development of cognitive and proficiency abilities, interpersonal skills, emotional and attitudinal predispositions, fitting character formation and strong work habits. In addition, an educated person in the 21st century is a person who can take knowledge and apply that knowledge to solve problems. Today, rote learning is not an option for an educated person. Knowledge is only the beginning of learning as it is more critical that an educated person be able to apply knowledge to solve the problems facing them. For example, computers and the Internet evolved out of the problem of not being able to attain information quickly and easy enough. While the advent of T1 lines and DSL lines has made access to information easier and quicker, it has caused the new problem of providing access to this wealth of information for low-income earners, a problem known as the “digital divide.” The ensuing problem is a society that is divided by those who have access and those who do not. The rules of existence have changed and the educated person has to deal with a world where technology has been created ahead of need and where passive learning is not an option.

NW recognizes this 21st society and the fact that the domain of education is broader than just formal schooling. Accordingly, NW integrates the formal schooling that takes place within its walls with a broader perspective in order to equip students to live and continue to learn in an increasingly complex and information-rich modern world. Integrating technology into existing curricula at NW means making technological tools, including computers, multimedia, the Internet, and digital input and output devices, integral to learning. Learning how and why to use a word processor to better communicate ideas or to search the Internet for information related to curricular goals and activities enhances the curriculum and teaches literacies that students will need to know and be able to use. Thus, NW’s main objective is to enable students to become self-motivated, technologically competent, life-long learners. The NW educated person needs to step from a foundation of knowledge onto a creative ledge where technology, individual “out-of-the-box” tinkering, and problem solving mentality will be needed. As a model 21st century educational community, we are committed to ensuring that all students, especially under-represented populations from diverse, cultural, socio-economic and linguistic backgrounds, are provided with a meaningful, content-rich, thinking-centered, and standards-based educational experience. We believe that an educated citizen in the 21st century must have the skills and understanding to participate and work productively in a multicultural, globally-oriented environment, use technology to its full potential, will demonstrate proficiency in the standards identified by the State of California and necessary to participate and work productively, and communicate fluently in English and have access to at least one other language.

Students educated by NWCHS
NWCHS provides for the free, nonsectarian, public education of students in grades 9-12 who desire a broad, comprehensive and challenging foundation in reading and language arts, mathematics, science, and history and social science, supplemented by a variety of
enrichment programs in the visual and performing arts, world languages, health and physical education, branches of the main core courses and extracurricular and enrichment activities designed to enhance the core curriculum. The Charter High School, which is open to any student who has entered NWCMS from the sixth grade, enrolls a multi-cultural, multi-ethnic, socioeconomically diverse student body without respect to race, gender, color, ethnicity, national origin, or disability or any other characteristic described in Education Code Section 220.

NWCHS will continue to serve the communities and families identified over the course of the past years with the Middle School and all others who wish to attend the school subject only to capacity. NWCHS seeks to attract families who have a belief in a strong home/school/community partnership and who share in the mission, vision, and guiding principles of the Charter School. NWCHS is located on a site building in Los Angeles with the capacity to house 875 students.

Below is a chart of the perceived and estimated enrollment numbers for New West Charter for the next eight years.

During its five years of operation, NWCHS will matriculate a new grade level each consecutive year, beginning with ninth grade in 2012-2013. The ninth grade class (2012-2013) will consist of 120 students and will be New West Charter Middle School’s current eighth grade class (2011-2012). NWCHS’s tenth grade class in 2013-2014 will also have 125 students and will be New West Charter Middle School’s seventh grade students. The eleventh grade class will be the Middle School’s incoming sixth graders with a student population of 125 students.

In addition, in the first year of operational planning, NWCHS’s future twelfth grade population will enter New West Charter Middle School with an increased number of 200 students. These students will be a mixture from the neighboring elementary schools of Brockton Elementary and Nora Sterry Elementary. Both elementary schools will have increased opportunities to feed into New West Charter Middle School through additional
admissions preferences in the public lottery. The students’ entry into New West Charter Middle School will guarantee them attendance into NWCHS.

Below is a breakdown of the student population from both Brockton Elementary and Nora Sterry Elementary.

One of the strengths of NW is the school’s diversity and it is our intention to continue the efforts of NW to maintain the current diverse ethnic make-up of our student body. Enrollment from the two local elementary schools and any traveling students from LAUSD will make education accessible to all students, including mid-range students, students achieving at a level significantly below their peers, gifted and talented students, students receiving special education services, limited-English proficient students, and students who are members of ethnic groups underrepresented in colleges and universities.

**Recruitment, Hiring and Coaching**

NWCHS believes in the recruitment and hiring of staff that reflect the community as well as in the development of the capacity of staff to meet the needs of students. Educators must approach with passion, dedication and enthusiasm, the moral challenge of ensuring the educational success of every child. Today, effective educators must be more than dedicated, talented and committed than ever before.

NWCHS believes in the power of peer coaching to develop effective leaders who have clear vision, courage and skill to take action, and confidence to include diverse perspectives in making decisions.

For NWCHS, effective leaders recruit, hire, support and develop staff that is most qualified to help all students achieve standards.
Leaders assign most qualified staff to serve students most in need. Highly qualified staff includes teachers who are certified to serve English language learners when the student population includes a significant number of English language learners.

Recruitment of staff reflects the community served.

Effective leaders proactively recruit and hire teachers and other staff who evince a strong moral principle of educational equity and excellence and dedication to achieve it.

Leaders develop capacity in themselves and others through cognitive coaching that promotes self-directed learning to enhance staff performance and improve student learning.

For NWCHS, the following chart outlines the recruitment of teachers as the school opens its doors in 2012 and continues forth.

| 9 Certificated teachers                  |                     |
The talented teachers recruited for NWCHS will be carefully screened so as to hire individuals ready to work tirelessly to influence and engage all students entering the high school. Teachers will be interchanged between New West Charter Middle School and New West Charter High School since the structure and policies of the schools will be the same. Moreover, the students will also be able to interact, engage and be instructed by all teachers under the New West Charter umbrella.

**Neighboring High Schools**

New West hopes NWCHS will be able to provide 9-12\textsuperscript{th} grade students an opportunity to continue the same rigor, expectations, engagement and culture of the middle school but at a high school level. We feel that upon leaving NWCMS, our students are at a loss for rigor, for expectations and standards, for engagement with the material they are learning and for a family culture that cares, that encourages and eventually strengthens their own understanding and acceptance of the world around them.

In examining the chart above, the neighboring high schools, we feel, will falter in providing our students with all these elements due to various reasons. Two of those reasons are low API scores and large student populations, which NW knows from experience means students are not held to high expectations and standards because of the enormous amount of students within the schools.

NW wants to provide their NWCMS students with a strong scholastic experience that will continue throughout their high school years and ready them for college and life.

**The New West Culture**

There is no one single way as to how learning best occurs. Students are individuals who learn in different ways. Some are auditory learners. Some are visual learners. Some can work well with a combination of both. Learning best occurs when the teacher understands
the needs of each student and helps each student reach his or her potential in an environment that is accessible to all. A high interest curriculum, positive teacher guided feedback, a non-threatening environment and an atmosphere that promotes peer encouragement are essential to a true learning experience. The New West Culture holds these elements and others as a foundation for NWCHS’s educational foundation and environment.

The pivotal elements driving NWCHS’s educational foundation and environment are

**Integration**
Integration is built into the instructional design through the teaching team or family unit. NWCHS is constructed around family units, with each family comprised of subject teams. Teachers engage in thorough, on-going articulation within subjects and across grades as well. These meetings occur on a regularly scheduled basis.

**Differentiated Instruction**
Differentiated Instruction is key to providing for the needs of children across the educational spectrum. By altering the complexity, depth, or novelty of the subject, the teacher can convey material in a way that is appropriate for the individual child. Each student receives a rigorous, standards-based lesson without an artificial ceiling placed on learning. Teachers are also prepared to present material in a variety of ways to take into account different learning styles. Frequent assessment and review of this assessment is essential for this strategy. NWCHS begins the year with school-wide assessments and works towards a personalized approach to education for each student.

**Scaffolding**
Scaffolding Academic literacy and life-long learning skills are fostered through the use of scaffolding teaching methods. Scaffolding employs, among other tools, modeling and demonstration, bridging from known concepts and experiences to new concepts, contextualizing, and schema building to identify connections among concepts. For example, using charts, diagrams and other tools, students see the connections between topics and ideas.

**Project Based Learning**
Project-Based Learning provides a key opportunity for integration of all subjects. Families develop project themes throughout the year. Students will work in small groups to research, write, find results and identify the medium for presentation. The student team will work with the teacher to develop the different phases of the project.

**Real World Experiences**
Offer real-world experiences for students to learn about higher education and career options through curricular pathways, schools to career opportunities, community college fairs, volunteer fairs, community involvement in senior project assessments, robotics program, culinary arts program, NATEF and AYES automotive certification program and other collaboration with businesses and community.
High Expectations & Standards
Establish high expectations and standards for student achievement by expecting all students to master rigorous academic content, such as the A-G requirements. In addition, teachers maintain high expectations for learning of rigorous content, differentiate instruction for varied learning styles, and give students multiple opportunities to explore a rich variety of topics and interests, using instructional strategies, which actively engage students and foster curiosity and creativity, and to demonstrate their learning through various ways.

Assessment
Regular and accurate assessment of student progress in mastering grade-level standards is essential to the success of any instructional program and ensures quality for all students. Classroom and school assessments are based on content that every student has had the opportunity to learn and master. Decisions about instruction are driven by assessment data. Both qualitative and quantitative data (aggregated and disaggregated) are current, easily retrieved, analyzed, understood, and used to inform instruction and not to punish students or staff.

Community Service
NWCHS incorporates community service as an integrated component of its educational program. In community service, students learn and develop through active participation in thoughtfully organized activities in the community, including but not limited to civic, charitable, social, or environmental involvement. Such participation addresses community needs, strengthens the bonds between student, school, and community, and instills personal and social responsibility. Students are required to complete 6 hours of community service by the end of the school year.

Small Class Size
New West believes that size counts. Teachers can address many different levels of ability and learning styles and give exemplary differentiated instruction in a classroom of 20 or less.

Character Development
It is critical to a positive school environment and to the individual success of each student that students develop strong character and become responsible, ethical members of society. Faculty role-modeling, home school contract, discipline policy, an emphasis on personal responsibility, and the community service component all focus on this practice.

Parental Involvement
Key to the success of New West is strong parental involvement. NWCHS is a parent-driven charter school model, with strong parental representation on the Governing Board, a strong home-school contract, and a desire to address the needs of parents as well as students.

Professional Learning & Development
Professional development is essential for ensuring educational equity and achievement.
While professional development about state-adopted materials is important for staff, professional learning also focuses on materials and strategies designed to close the teaching-learning gaps. For example, current research indicates that much of the improvement in math performance is attributable to professional development grounded in developing deep content knowledge and mastering effective instructional practices. As a result of teacher collaboration in the math department, teachers have come to an agreement about the adoption of a common textbook in Algebra 1, Algebra 2 and Geometry. This type of teacher collaboration will be a part of the NWCHS’s professional learning and development.

**Sustainable Building Principles**
As a charter school, New West distinguishes itself through the development of exemplary environmentally sustainable practices and curriculum. “Sustainability meets the needs of the present without compromising the ability of future generations to meet their needs” - United Nations World Commission on Environment and Development.

NWCHS believes that all the above elements and more contribute to the success of high school students and their school. NWCHS hopes to enable students to become self-motivated, competent, life long learners by establishing an environment where learning is engaging and worthwhile. When students experience learning that is engaging and connects to “real world” applications, they develop a love of learning that continues far beyond high school.

**High School Core Curriculum**
NWCHS has adopted a Standards-based, College Preparatory curriculum closely following the current California State Standards. NWCHS uses the standards as a floor, not a ceiling. The school ensures that students develop critical thinking skills, including but not limited to observation and analytical reasoning as well as decision-making skills to help them access, process, organize, and interpret the information that the standards present. Students are able to communicate the concepts they have learned through connections between subjects and application of the information to the real world and their own experience. Most importantly, NWCHS students draw inspiration from the curriculum to seek further information from other sources.

NWCHS analyzes the standards and has developed clear, useful and assessable guidelines for the Content Standards to be presented to students and their families, so that they may understand the grade-level expectations of NWCHS and the State. There must be no surprises. The school outlines all applicable California state standards taught in each grade level and subject areas by aligning these in a scope and sequence format.

The NWCHS core curriculum is a unique blend of education that includes the following key components:

- Core Curriculum based on the UC/CSU A-G Requirements --Upon graduation, all NWCHS students will have met or exceeded all the A-G requirements for admission to a University of California or California State University.
- Core Curriculum at high school level and college level so as to introduce students
to a higher learning

- Integration of technology into all subjects
- A focus on cross curricular projects that connect to the “real world”

Woven into these four curricular components is NWCHS’s commitment to meeting and exceeding the Content Standards for California Public Schools in all curriculum areas. As stated before, NWCHS’s graduation requirements will meet or exceed the National and State Standards as well as the A-G requirements of admission into the University of California and California State University.

To ensure our program and its integrity, New West will seek and apply for WASC accreditation and will prepare for site visits either in Spring 2013 or in Fall 2013. Acquiring WASC accreditation will certify to our family and the public that New West is a trustworthy institution of learning and that our students are on a direct path to an exemplary university.

The following schema outlines this educational goal:

**NWCHS COURSE OFFERINGS**

**GRADE 9 COURSES**
All ninth grade students will enroll and pass:
- English 9AB
- Freshman Composition
- One of the following: Algebra AB / Geometry AB / Algebra II AB
- Biology AB
- Physical Education
- Foreign Language: Beginning, Intermediate or Advanced

Course Completion: 3 Core Curriculum courses, 1 PE, 1 Foreign Language, & 1 elective course

**GRADE 10 COURSES**
All tenth grade students will enroll and pass:
- One of the following: British Literature I AB/ Honors British Literature I AB
- One of the following: Geometry AB/ Algebra II AB/ Trigonometry/ Pre Calculus AB
- One of the following: Chemistry AB/ AP Chemistry AB
- Physical Education
- Foreign Language: Beginning, Intermediate or Advanced
- World History AB/ AP World History AB

Course Completion: 4 Core Curriculum courses, 1 PE, and 1 Foreign Language

**GRADE 11 COURSES**
All eleventh grade students will enroll and pass:
- One of the following: American Literature AB/ AP American Literature AB
- One of the following: Enriched Composition or Advanced Composition
One of the following: Algebra IIAB/ Trigonometry/Pre Calculus AB / Calculus AB
One of the following: US History AB/ AP US History AB
An elective Science or Fine Arts course
An optional elective course

Course Completion: 3 Core Curriculum courses and 3 elective courses

GRADE 12 COURSES
All twelfth grade students will enroll and pass:
- One of the following: British Literature II AB/ AP British Literature II AB
- One of the following: Trigonometry/Pre Calculus AB / Calculus AB/ AP Calculus AB
- American Government/Economics
- An optional elective course
- An optional elective course
- An optional elective course

Course Completion: 3 Core Curriculum and 3 elective courses (if the student wishes 3 extra electives)

At the completion of 4 years at NWCHS, all students will have tested and strengthened their knowledge and skills within the mandatory 17 Core Curriculum courses and 5 optional elective courses. They will be cognizant, independent, motivated scholars ready to participate in a higher learning environment to surpass all that awaits them.

NWCHS will ensure that curriculum, projects and lessons are standards-based. In addition, NW will endeavor to ensure that all courses at the high school level are transferable for other public high schools and eligible to meet college entrance requirements. Parents are informed about graduation requirements, transferability of courses to other public high schools, and the eligibility of courses to meet college entrance requirements via parent informational meetings, Parent Organization meetings, newsletters, individual meetings with the counselor and college counselor, and college representative visits.

**Instructional Materials**
Core Curriculum textbooks will be selected by the curriculum committee upon review and recommendation of the subject department and/or grade level team. Below are strategies for adopting instructional materials/academic supports for students in need:
1) Assess student test scores, project and homework assignments, individual strengths and weaknesses. (Data on 9th graders is collected from New West Charter Middle School scores).
2) Acquire, assess and introduce State-approved standards-based instructional materials as well as local school district instructional materials to ALL students
3) Collect materials as needed to supplement approved texts for use with ALL students, such as supplemental readers and workbooks, Internet websites, instructional kids (for
solar car and robotics design), and articles about current events, etc.
4) Collect materials appropriate for special subgroups and/or individual students and introduce to the appropriate students.
5) Continuously review the progress of each student and make necessary changes, such as switching their supplemental materials, adding more or less rigorous materials, etc.

**Technology in the Classroom**

NWCHS is committed to appropriately integrating technology into all areas of the curriculum and dedicated to the acquisition and support of effective educational technology that provides teachers and students real-world contexts for learning, connections to larger learning communities, and opportunities to individualize and apply learning. Our vision for instructional technology continues to be the common and equitable use of innovative technologies and communication strategies in the learning environment. Goals include:

- Implement school technology for the benefit of all stakeholders;
- Continue to pursue technology resources and manage the technology budgets effectively;
- Continually upgrade the school infrastructure, hardware, and software;
- Provide high-quality service to users on an ongoing basis;
- Implement technology solutions that will make accountable differences in instruction, assessment, and management of students as well as improve communication and collaboration.

All NWCHS students have access to both laptop and desktop computers through the two computer labs on campus -- a stationary computer lab with 25 Mac desktops and a mobile cart filled with 30 MacBook laptops. Students check computers at the beginning of class, sign on to their account and can move from classroom to classroom but use different computers to access their work due to the common server. The school is supervised one hour before school and two hours after school so that students, especially those without easy access to a computer and/or Internet outside of school, can access the technology. There is clear and successful site integration of technology in all classrooms. Staff set benchmarks in technical knowledge to be mastered in each grade level within the existing curriculum.

Students and interested parents are in-serviced on ethical uses of technology, and filters are installed to block inappropriate Internet content. Each parent/student also signs an Acceptable Use Policy, violation of which results in suspension of computer privileges for a first offence up to expulsion for repeated offenses. Students are trained to gauge quality and reliability of websites, and teachers check student's work for plagiarism continuously. NWCHS staff works as a team to evaluate software and online resources. The Technology coordinator notifies staff if there are issues with an online resource or software.

A new addition to our technological world will be a class set of 30 Ipads for student and teacher use.
All teachers have a laptop computer to use for student information, attendance, recording grades and curricular activities. We have struggled with finding a student data system that provides ease of use for teachers but we are optimistic about our current system – CCSA’s ZOOM! – in which we are one of a handful of charter schools to pilot the data system. Our goal is to provide quick and efficient access to student standardized and school benchmark test scores to assist teachers in differentiating learning and data-driven instruction. We understand that the disaggregation of data and data-tracking systems to monitor student progress are important in gaining a snapshot of student achievement at any particular time.

NWCHS continues to emphasize the application of technology to improve student achievement and access to post-secondary opportunities. We continue to explore partnerships through our resources, which will enable students to have access to the latest and most effective technology.

**New West Graduation Plan (NWGP)**
A New West Graduation Plan (NWGP) is set into motion for each student when he/she enters NWCHS in the 9th grade. The NWGP is a structured plan that outlines the 22-26 courses the student must attend and pass (for High School and A-G completion, the standardized exams the student must register for and pass (CAHSEE, SATs & SAT IIs), and the application the student will complete and submit for post secondary education (if he/she chooses to do so). NWCHS’s college counselor initially meets with the student and his/her parents to present them with a NWGP and to discuss the student’s post secondary goals.

In 10th grade, the Student Success Team (SST), which includes the teacher advisor, other teachers, the college counselor, and parents support the student’s progress from one grade to the next by providing the academic and behavioral interventions to keep them on track with his/her NWGP. The NWGP is an organic document updated every semester as sequenced coursework is completed for graduation and college readiness, CAHSEE readiness is monitored, future plans are solidified, and special needs arise (i.e. CAHSEE tutoring). NWGPs help students become college and workforce ready by focusing their attention and goals.

All Students With Disabilities (SWDs) are mainstreamed into regular classes with their state-required Individual Education Plan (IEP), and receive all allowable accommodations of their plans.

**NWCHS’s Daily Schedules**
NWCHS students will continue following three daily schedules as they did at the middle school level with slight changes. School will begin instruction at 7:30 am and end with the Advisory period at 2:30 pm. A regular 1-6 period day will shift to Mondays instead of Mondays and Tuesdays and there will, at the moment, be no minimum day. Block scheduling will cover 4 days of the week instead of 2 days and each period will be for 100 minutes.
New West Charter High School will follow three daily schedules, outlined below.

**Monday Schedule**
- Homeroom: 7:30 – 7:45
- Period 1: 7:49 – 8:39 (50 minutes)
- Period 2: 8:43 – 9:32 (50 minutes)
- Period 3: 9:51 - 10:41 (50 minutes)
- Period 4: 10:45 – 11:35 (50 minutes)
- Lunch: 11:35 – 12:09
- Period 5: 12:13 - 1:03 (50 minutes)
- Period 6: 1:07 – 1:57 (50 minutes)
- Advisory: 1:57 – 2:30

**Tuesday/Thursday Schedule**
- Homeroom: 7:30 – 7:45
- Period 1: 7:49 – 9:29 (100 minutes)
- Nutrition: 9:29 – 9:44
- Period 3: 9:48 – 11:28 (100 minutes)
- Lunch: 11:28 – 11:57
- Period 5: 12:01 – 1:41 (100 minutes)
- Advisory: 1:45 – 2:30

**Wednesday/ Friday Schedule**
- Homeroom: 7:30 – 7:45
- Period 2: 7:49 – 9:29 (100 minutes)
- Nutrition: 9:29 – 9:44
- Period 4: 9:48 – 11:28 (100 minutes)
- Lunch: 11:28 – 11:57
- Period 6: 12:01 – 1:41 (100 minutes)
- Advisory: 1:45 – 2:30

**NWCHS Advisory Program**
Each student is assigned an Advisor who will stay with the student, if possible, for the entire four-year high school span. Real education is long-term. The Advisory model forces students to focus and with the consistent guidance in the advisory period, gives them the opportunity to stretch and reach, ponder and plan, work and wait for the satisfaction of a long-term goal achieved.

An Advisory objective is for students to research colleges and careers and participate in values clarification activities. Additionally, there will be an articulation between the student and the Advisor regarding issues with academic and social progress.
Educators, too, benefit as advisory guides, who, over the four-year span become intimately involved in the education of a specific student, not a name on the class roster. Educators need to assess their approach to educating students who may not be engaged in learning, have no support outside the walls of the school and/or whose early education cannot be categorized or tracked. As for the educator, this is an opportunity for them to focus on all students individually and to revisit the up-close challenges of high school years. Advisors will meet to discuss appropriate strategies for success on a daily basis.

Below is a graphic organizer illustrating how the Advisory Program will be implemented at the high school level.

The Advisory program, then, will be a crucial focus for both student and educator because it will determine the success of both participants. For the student, the Advisory program will give multiple opportunities and support to research, prepare and apply to universities and colleges so as to secure, for the student, his or her pathway in life. For the educator, the Advisory program will be another way to counsel, inspire and encourage students to find success beyond the high school walls, allowing the educator to gain fulfillment not only as a teacher but as a counselor.

**Meeting Student Needs**
NWCHS strives to meet the needs of all students regardless of ability or background. However, the school does not group by ability or other characteristics. All students are in the same classes regardless of their status as Gifted, Special Ed, socioeconomically disadvantaged, or achieving below grade level.
Serving Academically Low-Achieving Students

The first step toward this goal is early identification of low-achieving or at-risk students through early assessment. For those students who are academically low performing, a range of strategies are employed. Modifications will be made, such as books on tape, so that students will still receive exposure to sophisticated literature while working on underlying building blocks of comprehension/decoding. Students work with teachers who have received training in working with diverse populations and are committed to helping them achieve academic success. Students receive additional intensive help after school as well as in smaller tutorial settings.

In other core academic areas, teachers differentiate curriculum so that all students can receive standards-based instruction appropriate to their level. After school tutorials are available in each of the core subjects to give students additional assistance. All students receive instruction in the area of study skills and time management.

New West is especially concerned about those students who are also identified at-risk because of life circumstances. The smaller size of the Charter School and the advisor-advisee program will be especially helpful to these students. Having time every day when sensitive issues can be raised, and providing a consistent, positive, caring role model, gives these young people a sense of stability, which may be lacking in other parts of their lives.

Serving Academically High-Achieving Students

Highly capable students will be provided differentiated learning opportunities throughout the school day as well as in the after school program. Students who are well served by standards-based education are continually challenged to excel when taught by excellent teachers who have received training in strategies of differentiation. In special cases, particularly in Math, students can be invited to participate in classes, one grade level above their homeroom class.

Serving English Learners

NWCHS will meet all applicable legal requirements for English Learners (“EL”) as they pertain to annual notification to parents, student identification, placement, program options, EL and core content instruction, teacher qualifications (CELDT or other CCTC approved certification) and training, re-classification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. The Charter School will implement policies to assure proper placement, evaluation, and communication regarding ELs and the rights of students and parents.

Home Language Survey

The Charter School will administer the home language survey upon a student’s initial enrollment into the Charter School (on enrollment forms).

CELDT Testing

All students who indicate that their home language is other than English will be CELDT tested.
within thirty days of initial enrollment and at least annually thereafter between July 1 and October 31st until re-designated as fluent English proficient. The Charter School will notify all parents of its responsibility for CELDT testing and of CELDT results within thirty days of receiving results from publisher. The CELDT shall be used to fulfill the requirements under the No Child Left Behind Act for annual English proficiency testing.

**Strategies for English Language Learner Instruction and Intervention**

Teachers who serve EL students will be trained to use a variety to programs, such as Specially Designed Academic Instruction in English (SDAIE) techniques and/or Sheltered English to meet the needs of English language learners. The instructional design model to be used by NWCHS places a heavy emphasis on differentiating instruction to meet the needs of English Language Learners based on their academic and language readiness. Professional development will be developed to train teachers on the variety of instructional strategies and programs to be used with all students and specifically with English Language Learners. Some of these instructional strategies include the following:

- Vocabulary and Language Development
- Guided Instruction
- Metacognition and Authentic Assessment
- Explicit Instruction
- Meaning Based Context and Universal Themes
- Modeling, Graphic Organizers and Visuals

A program for professional development is Sheltered English. Sheltered English, for example, makes academic instruction in English understandable to ELL students. In the sheltered classroom, teachers use physical activities, visual aids and the environment to teach vocabulary for concept development in mathematics, science, social studies and other subjects. Sheltered Instruction Observation Protocol (SIOP) is a popular, research-based and validated model of sheltered instruction that is widely used and will be reviewed for NWCHS as well.

**Special Education**

NWCHS recognizes the importance of providing educational opportunities to all students regardless of physical or special needs. To that end, NWCHS will serve students with special needs in accordance with applicable federal and state law. NWCHS will comply with all applicable federal and state Special Education laws, including the discipline of such students.

The Charter School shall comply with all applicable state and federal laws in serving students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act (“Section 504”), the Americans with Disabilities Act (“ADA”) and the Individuals with Disabilities in Education Improvement Act (“IDEIA”). New West shall not discriminate against any student with a disability.
The Charter School is an LEA member of the Southwest SELPA in accordance with Education Code Section 47641(a) and thus shall be solely responsible for its compliance with all state and federal laws related to the provision of special education instruction and related services and all SELPA policies and procedures; and shall utilize appropriate SELPA forms.

The Charter School shall also be solely responsible for its compliance with Section 504 and the ADA. The facilities to be utilized by the Charter School shall be accessible for all students with disabilities.

Services for Students under the “IDEIA”
NWCHS adheres to the provisions of the IDEIA and state special education laws and regulations to assure that all its students with disabilities are offered a free, appropriate public education (“FAPE”).

NWCHS adheres to all applicable State and Federal law and Southwest SELPA policies and procedures regarding special education, including submission of documents and information, participation in reviews, and attendance at informational sessions and meetings. NWCHS uses Southwest SELPA forms to develop, maintain, and review assessments and IEPs in the format required by the Southwest SELPA, including assessment and inputting IEP data into the Southwest SELPA data system in accordance with Southwest SELPA policies and procedures. NWCHS maintains copies of assessments and IEP materials for review by the Southwest SELPA. NWCHS submits to the Southwest SELPA and the Authorizer all required reports, in a timely manner as necessary to comply with state and federal laws.

NWCHS develops Individual Transition Plans to help a student with disabilities, age 14 and older, in transitioning to adult living. NWCHS in conjunction with the Southwest SELPA, is responsible for the management of its special education budgets, personnel, programs, and services. NWCHS ensures that its special education personnel are appropriately credentialed or licensed as consistent with California and Federal laws and regulations.

As with all populations of students at NW, the unique instructional needs of special education students are identified early and accurately, ensuring that NWCHS complies with all child-find requirements under applicable state and federal law and SELPA policy. The referral process includes Student Success Team meetings to review prior interventions, accommodations, and modifications, and to recommend further interventions as appropriate. NW identifies and refers students who demonstrate early signs of academic, social, or behavioral difficulty that may require assessment for special education eligibility and placement in a special education program.

For students transferring to the Charter School from District schools or District affiliated charter schools, the Charter School will provide those related services required by the students’ IEPs upon the students’ enrollment. However, to allow for a smooth transition to independent charter schools, the District shall continue to fund services for those special education students enrolling in independent charter schools who have been
receiving non-public agency (NPA) services from the District for thirty (30) days after enrollment. This will allow the Charter School time to conduct an IEP team meeting and to execute contracts as necessary to facilitate the students’ transition to the Charter School. When requested by the Charter School, a representative from the Local District Special Education Office may attend a student’s first IEP meeting at the independent charter school to assist with transition issues.

The Charter School will be responsible for the development of assessment plans for students with suspected disabilities or, in the alternative, providing appropriate written notices to parents when a request for assessment is denied. The Charter School will make decisions regarding eligibility, goals, program, placement, and exit from special education by consensus of the student’s IEP team.

The Charter School will ensure that the teachers and other persons who provide services to a student with disabilities are knowledgeable of the content of the student’s IEP. The Charter School will ensure that student discipline and procedures for suspension and expulsion of students with disabilities are in compliance with state and federal law. Discipline procedures will include positive behavioral interventions. In accordance with the Modified Consent Decree, the Charter School will collect data pertaining to the number of special education students suspended or expelled.

Procedural Safeguards/Due Process Hearings
The SELPA may invoke dispute resolution provisions set out in a charter, initiate due process hearings, and/or utilize other procedures applicable to the Charter School if the SELPA determines that such action is legally necessary to ensure compliance with federal and state special education laws and regulations or the Modified Consent Decree. In the event that a parent or guardian of a student attending the Charter School initiates due process proceedings, both the Charter School and the SELPA will be named as respondents.

Whenever possible, the SELPA and the Charter School shall work together in an attempt to resolve the matter at an early stage (informal settlement or mediation). During due process proceedings and any other legal proceedings or actions involving special education, the Charter School will be responsible for its own representation. If the Charter School retains legal representation for a due process proceeding or other legal proceeding or action, the Charter School will be responsible for the cost of such representation.

Because the Charter School will manage, and is fiscally responsible for, its students’ special education instruction and services, the Charter School will be responsible for any prospective special education and related services, compensatory education and/or reimbursement awarded by a due process hearing officer, court or settlement based on an allegation or allegations that the Charter School failed to fulfill its responsibilities under state and federal special education laws and regulations (which include, among other things, identifying students with disabilities, assessing students, conducting IEP team meetings, developing appropriate IEPs, and implementing IEPs).
If parents’ attorneys’ fees and costs are to be paid because parents are the prevailing party as a result of a due process hearing or settlement agreement based on the Charter School’s alleged failure to fulfill its responsibilities under state and federal special education laws and regulations, the Charter School will be responsible for payment of those attorneys’ fees and costs.

The Southwest SELPA will collect an equitable encroachment contribution from independent charter schools for district-wide costs for special education instruction and services. District-wide costs include: 1) maintaining a full continuum of program options; 2) professional development and training; 3) technical support for programs; 4) administration of due process proceedings, excluding any legal representation; 5) investigation of complaints; and 6) implementation of the Modified Consent Decree. The annual encroachment percentage collected may vary from year to year depending on the district-wide encroachment. The calculation of the encroachment contribution shall be based upon a formula designed by the District's Budget Services Office.

Section 504 of the Rehabilitation Act

The Charter School recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of the Charter School. Any student, who has an objectively identified disability which substantially limits a major life activity including but not limited to learning, is eligible for accommodation by the Charter School.

A 504 team will be assembled by the Executive Director/Principal and shall include the parent/guardian, the student (where appropriate) and other qualified persons knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The 504 team will review the student’s existing records; including academic, social and behavioral records, and is responsible for making a determination as to whether an evaluation for 504 services is appropriate. If the student has already been evaluated under the IDEIA but found ineligible for special education instruction or related services under the IDEIA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the 504 team, which will evaluate the nature of the student’s disability and the impact upon the student’s education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel.
- Tests and other evaluation materials including those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligence quotient.
- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student’s aptitude or achievement level, or whatever factor
the test purports to measure, rather than reflecting the student’s impaired sensory, manual or speaking skills.

The final determination of whether the student will or will not be identified as a person with a disability is made by the 504 team in writing and notice is given in writing to the parent or guardian of the student in their primary language along with the procedural safeguards available to them. If during the evaluation, the 504 team obtains information indicating possible eligibility of the student for special education per the IDEIA, the 504 team will make a referral for assessment under the IDEIA.

If the student is found by the 504 team to have a disability under Section 504, the 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives a free and appropriate public education (“FAPE”). In developing the 504 Plan, the 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the Charter School’s professional staff.

The 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All 504 team participants, parents, guardians, teachers and any other participants in the student’s education, including substitutes and tutors, must have a copy of each student’s 504 Plan. The site administrator will ensure that teachers include 504 Plans with lesson plans for short-term substitutes and that he/she review the 504 Plan with a long-term substitute. A copy of the 504 Plan shall be maintained in the student’s file. Each student’s 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

**Enrichment and Extracurricular Programs**

New West provides in-school enrichment programs and after-school extracurricular activities, which are part of the Charter School’s overall educational plan. These programs and activities supplement and complement classroom instruction in the core academic areas, and provide ancillary experiences for students that broaden their skills, knowledge, and attitudes in areas not addressed by New West’s formal curriculum. The nature and schedule of activities varies as parents come and go, as community members volunteer their time, as the educational needs and expertise of classroom teachers evolve, and as the interests and talents of the student body change from year to year.

**School Clubs & Off Campus Sports**

Studies have shown that students who participate in extra-curricular activities learn to budget their time more efficiently, demonstrate greater classroom achievement and learn to work with many different people. To be eligible for participation, students must meet NW academic and attendance requirements as well as student conduct expectations. To maintain eligibility for participation in NW extracurricular activities, students must conduct themselves as good citizens both in and out of school at all times. Students who
represent the school in an activity are expected to serve as good role models to other students and to members of the community.

The school clubs at NWCHS will be founded through student interest, have a NWCMS or NWCHS teacher as advisor and will be considered extra-curricular activities. They will be created as the school progresses and have a brief description of what the group is, what they do, what the requirements for membership are, and the time requirements required for membership. Besides being fun, these activities may help the students get accepted into college, earn college scholarships, allow the students to better their community, give the students an opportunity to help others, and serve as a great place to meet others with similar interests.

Similarly, Athletics will be founded off campus so as to provide students with an opportunity to find talent and strength within various sports teams and competitions. Sports help children develop physical skills, get exercise, make friends, have fun, learn to play as a member of a team, learn to play fair, and improve self-esteem. NWCHS will, of course, require the Pre-Participation Physical Exam (PPE) as an important step toward safe participation in organized sports. It is important to understand that the purpose of the PPE is not to disqualify or exclude an athlete from competition, but to help maintain the health and safety of the athlete in training and competition. NWCHS will hope to offer sports in winter, spring and summer, according to what sports competitions are available for participation.
ELEMENT B: MEASURABLE STUDENT OUTCOMES

My daughter is in 8th grade at New West and her sister graduated from New West last year. We are thrilled to be part of this awesome charter school. For families willing to put in the time and effort in their child’s education, New West offers an individually tailored education that is second to none in Los Angeles. It would be fantastic if they offered the same education at the high school level. Our children’s education would be complete!

Parent review, 2010

Governed Law: The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Education Code Section 47605(b)(5)(B).

Naturally, it is expected that NWCHS’s educational program has and will continue to evolve over time. Our educational plan includes scheduled, systematic evaluations of the educational program’s success in meeting the needs of the student body. The faculty and administration meet semi-annually with the express purpose of reviewing the curriculum’s effectiveness at meeting the goals of NWCHS. This self-assessment process relies on data obtained from multiple sources including educators’ assessments of curricular content, formal self-evaluations of achievement from students, as well as information from standardized tests and other performance assessments of NWCHS students. The Charter School’s Governing Board, composed of educators and parents, use the results of these reviews to identify any needed curricular and program modifications that will advance the best interests of the Charter School’s students. Specific benchmarked school-wide outcomes to be achieved over a five-year period (2012-2017) include:

80 percent or above of students scoring “proficient” on the California English - Language Arts Standards Test (grades 9-11)
  o Assessed annually by CST scores

70 percent or above of students scoring “proficient” on the California Mathematics Standards Test (grades 9-11)
  o Assessed annually by CST scores

75 percent or above of students scoring “proficient” on the California Science Standards Test (grade 10 only)
  o Assessed annually by CST scores

80 percent or above of students scoring “proficient” on the California United States History Standards Test (grade 11 only)
  o Assessed annually by CST scores

90 percent or above of students meeting all A-G course requirements
100 Percent of students passing the CAHSEE by graduation (beginning grade 10)

90 Percent or above of students meeting learning outcomes for each core subject at each grade level

75 Percent or above of students scoring a 3 or higher on College Board Advanced Placements Exams (grades 11 & 12)

Statewide and Similar Schools Academic Performance Index
  o Assessed annually by Academic Performance Report issued by State

NWCHS will meet adequate yearly progress as defined by the No Child Left Behind Act.
  o Assessed annually by Academic Performance Report issued by State

90 percent or above of students applying to 4 year universities to pursue post-secondary education
ELEMENT C: MEASURING STUDENT OUTCOMES

Governing Law: The method by which pupil progress in meeting those pupil outcomes is to be measured. Education Code Section 47605(b)(5)(C).

To ensure that all statewide performance standards are met and to ensure continual evidence of pupil learning, NWCHS shall conduct testing pursuant to Education Code Section 47605(c) as well as its own assessment and evaluation process as they apply to the individual and our own school performance. Grading will be by criteria currently in place with emphasis for developing a common grading policy in each department. Students will be assessed in each of the core academic skill areas by a combination of assessment tools that may include, but are not limited to:

OUTCOMES:

1. Standards-based Skills (California State Content Standards) Assessments:
   - California High School Exit Exam (CAHSEE)
   - California Standards Test (CSTs)
   - Teacher Evaluation and Assessment

2. Additional Performance Indicators
   - A-G completion requirements (UC/CSU)
   - California English Language Development Test (CELDT)
   - College Board Advanced Placement Exams
   - Placement Exams (Subject A, Entry Level Mathematics (ELM) and English Placement Test (EPT) or similar community College data)
   - Preliminary Scholastic Achievement Test (PSAT)
   - SAT I, SAT IIs
   - Woodcock-Johnson

California High School Exit Exam (CAHSEE)

All NWCHS students must pass the CAHSEE to earn a high school diploma. California created the test to improve student achievement in high schools. The test helps to ensure that students graduate from high school with grade level skills in reading, writing, and math.

The first opportunity students have to take the CAHSEE is in the second half of grade ten. Students who do not pass one or both parts of the CAHSEE in grade ten have up to
two opportunities in grade eleven to retake the part or parts of the examination not yet passed; grade twelve students may have at least three and up to five opportunities to retake the part or parts of the exam not yet passed. Adult students may take the CAHSEE up to three times per school year. Only the part or parts the student did not pass may be taken again.

Students who are English language learners (ELs) are required to take the CAHSEE in grade ten with all other grade ten students. During their first 24 months in a California school, ELs are to complete 6 months of instruction in reading, writing, and comprehension in the English language (EC Section 60852). During this time, they are still required to take the CAHSEE. Test variations are available to ELs who regularly use these variations in the classroom. Examples include being tested in a separate room with other ELs; extra time within the testing day; English-to-primary language or primary language-to-English translation glossaries; or allowing students to hear a translated version of the test directions and to ask clarifying questions in their primary language.

**California State Testing**

NWCHS will administer all tests required by state law that are applicable to charter schools. NWCHS will administer, in the same manner as other public high schools, the statewide student assessments that are part of the Standardized Testing and Reporting Program (STAR) pursuant to Education Code Section 60605 [EC 47605(c)(1)]. As a condition of apportionment of state funding [Education 47612.5(a)(3)], New West provides annual certification that its students have participated in all required state testing programs. Currently, the statewide-standardized tests are the California Standards Test (CST).

NWCHS will use the results of the CST as one of the multiple measures for assessing individual student achievement. NWCHS requires that students meet the minimum levels for satisfactory performance established by the State Board of Education for promotion to the next grade level.

CST results are also one factor in determining whether students are eligible for NWCHS’s remedial or accelerated instructional programs. The results of standardized tests are not used as the basis for assigning grades in any content area on a student’s report card.

NWCHS will continue over time to examine and refine its methods for assessing student outcomes to reflect the Charter School's mission and any changes in statewide student assessments authorized in statute that may become applicable to charter schools.

**Curriculum Imbedded Assessments**

*Generic and Subject-Specific Rubrics*

Teachers develop and utilize rubrics or scoring criteria to assess student proficiency on performance tasks as a key component of a performance standards system. The rubrics provide the scoring guidelines that offer a scale and a set of descriptor for each level of student performance. An example is the use of rubrics to assess student proficiency in
writing assignments, such as developing a persuasive essay. Rubrics are provided to students before projects so they can serve as guidelines to learning, thus encouraging growth rather than simply being used as an evaluation tool. Students are included in the design and development of the various rubrics.

*Curriculum Imbedded Assessment*
This form of assessment is the most powerful of all measurement tools utilized at NWCHS because it is imbedded in the instructional process. These tools are intended to be formative, frequent, and on-going. Many of the assessments are diagnostic and will be given before and during the teaching process. Because these assessments are related to the curriculum, they will be unique to the classroom and the teacher. Teachers may select to include results from standardized tests, classroom tests, tasks, and projects, grades and teacher evaluation to provide a complete picture of student progress. These standards-based monitoring assessments will be administered, at a minimum, at the end of each unit, on the average every four to six weeks, or at the end of each chapter within the unit, to inform instruction and identify specific areas for intervention for specific students.

*Multiple Measures*
Students are provided with multiple opportunities to perform in relation to standards. They utilize an open-ended response vs. a closed-ended response. The open-ended task would have no single correct response. This assessment would measure how students use what they know, how they demonstrate a skill, how they communicate what they understand, or how they apply what they know in a new context. The closed-end approach to assessment would have one right or best answer. This approach assesses specific knowledge or information that students have acquired.

This example of utilizing various measures is intended to show the range of assessments that will be used to individualize the learning experiences of NWCHS students. Assessment approaches vary according to format and context to meet student needs.

*Student Involvement in Assessment*

*Student-Led Conferences with Parents*
This assessment strategy of engaging students in the parent/teacher conference puts the student in a position of control over his or her academic growth. It is at this conference that the student, parents and teacher evaluate, assess, plan and then develop the individual learning plan for the next school year by closely examining the student’s NWGP. The student has the opportunity to provide additional insights into his or her progress in what was learned as well as areas of strengths and areas of needed growth.

The NWGP will be in the form of a digital portfolio and will keep all updates as to how the student is completing all graduation and beyond requirements. It is intended that students be actively engaged in the selection of items that will be included in the portfolio. They are also responsible for evaluating the portfolio’s contents. Teachers, parents, and peers might also have input into what is placed in a portfolio as a way of assessing a student’s efforts, progress, or achievements. A few examples of items that may be included in a portfolio are student developed learning plans, journal entries, book
reviews, computer-generated products, or parent comments on work.

**California English Language Development Test**
The CELDT is a test that measures how well a student can listen, speak, read, and write in English. California state law requires that the CELDT be given each year to English Learners (students who do not speak English fluently). The purpose of this test is to monitor student progress in learning English and to help decide when a student is fully proficient in academic English. Any student who lives in a home where a language other than English is spoken must take the test within 30 calendar days after enrolling in a California public school for the first time.

Test results for newly enrolled students are used to help identify English Learners who need to develop their speaking, listening, reading, and writing skills in English.

**NWCHS Promotion Policy**
Mastery of the standards for each course will be the basis for promotion, just as it is at the middle school level. Teachers assess a student’s progress on a quarterly basis in order to gauge whether the student is mastering the objectives and standards throughout the year. Students who are in jeopardy of retention are counseled individually and given extra help in their specific areas of concern.

Students who do not meet the performance standards for advancement to the next grade or course are retained in their current grade in accordance with their applicable promotional academic credits. These students are identified earlier in the academic year and are supported by a Student Success Team. Parents of students who have been retained are contacted by a counselor who requests a meeting to discuss the student’s substandard progress and determine some strategies that may promote greater success for the student. Strategies may include greater monitoring of student effort and could lead to a referral for individual assessment, possibly bringing about designated accommodations.

**School Accountability Report Card**
NWCHS will prepare each year a School Accountability Report Card (SARC) as required by state and federal law. The purpose of the SARC is to inform the parents of enrolled students, parents of prospective students, teachers, staff, and the community at large about conditions and progress at the Charter High School. NWCHS will use the model SARC template developed by the California Department of Education. The SARC template contains the following kinds of information:

- Descriptive information about the Charter School and its curriculum.
- Mission statement.
- Opportunities for parental involvement.
- Demographics of the student body.
- School safety and climate for learning, including suspensions and expulsions.
- California Standards Test (CST) results, including comparisons by subgroups to district and state results.
- Academic Performance Index (API) results and growth targets, including comparisons by subgroups to similar schools, district, state results.
- Summary of participation in federal intervention programs
• Adequate Yearly Progress (AYP) results, including comparisons by subgroups to district and state results.
  • Class size statistics.
• Teacher and staff information, including credentials, education level, teacher evaluations, substitute teachers, counselors, and other support staff.
  • Curriculum and instruction, including leadership, school instruction, professional development, textbooks, instructional minutes, and numbers of minimum days.
• Fiscal and expenditure data, including average salaries, total expenditures per student, and types of services funded.

The Executive Director/Principal serves as or appoints a SARC coordinator to manage the preparation and dissemination of the SARC. NWCHS will make the SARC available on its website as well as distributing it to parents of current and prospective students.
Scope and Sequence
(by department)

Mathematics

Algebra
The Algebra course is composed of four major units of study: Solving equations and inequalities, linear functions, quadratic functions, and rational expressions. In each of the major units of study, concepts will be explored using multiple representations so that students develop essential procedural and conceptual understandings in Algebra. The basic foundations of the algebra curriculum are developed in the first unit of study. The central theme of this unit involves solving multistep equations and inequalities. Students will become adept at identifying and defining the algebraic properties and principles used to simplify and solve multistep equations and inequalities. These skills will then be applied to writing and solving multistep equations and inequalities for word problems. Each of the concepts in the first unit will be continuously revisited and reinforced throughout the remainder of the course.

During the second unit, students use algebra to generalize, interpret, and analyze key patterns observed when working with linear functions. Particular attention is paid to patterns that relate to the concept of slope and how this concept manifests in graphs, tables, and equations. Students will also explore multiple methods of graphing linear functions including: creating a table; finding the x- and y- intercepts; using the slope-intercept form; and point slope form. With a strong linear functions foundation, students will transition into applying procedural graphing knowledge and skills to more conceptual tasks as they solve systems of equations and inequalities both graphically and algebraically. During the quadratic functions unit, students begin to master the basic factoring techniques used extensively in the remainder of the Algebra curriculum. The concept of factoring will then be applied to graphing, analyzing, and interpreting the relationship between quadratic equations and their graphs. Students will also need to master multiple factoring techniques including completing the square and using the quadratic formula. Students will then begin to apply their procedural knowledge to more conceptual tasks as they solve physical problems including motion, force, gravity, and acceleration.

The final unit of study emphasizes computational mastery in a more complex algebraic manner. Students apply basic techniques of adding, subtracting, multiplying, and dividing as they simplify rational expressions. Students also expand their skills and knowledge of operations with fractions as they apply these skills to solving rational equations.

CA State Standards
Symbolic reasoning and calculations with symbols are central in algebra. Through the study of algebra, a student develops an understanding of the symbolic language of mathematics and the sciences. In addition, algebraic skills and concepts are developed and used in a wide variety of problem-solving situations.

1.0 Students identify and use the arithmetic properties of subsets of integers and rational,
irrational, and real numbers, including closure properties for the four basic arithmetic operations where applicable:

1.1 Students use properties of numbers to demonstrate whether assertions are true or false.

2.0 Students understand and use such operations as taking the opposite, finding the reciprocal, taking a root, and raising to a fractional power. They understand and use the rules of exponents.

3.0 Students solve equations and inequalities involving absolute values.

4.0 Students simplify expressions before solving linear equations and inequalities in one variable, such as $3(2x-5) + 4(x-2) = 12$.

5.0 Students solve multistep problems, including word problems, involving linear equations and linear inequalities in one variable and provide justification for each step.

6.0 Students graph a linear equation and compute the $x$- and $y$-intercepts (e.g., graph $2x + 6y = 4$). They are also able to sketch the region defined by linear inequality (e.g., they sketch the region defined by $2x + 6y < 4$).

7.0 Students verify that a point lies on a line, given an equation of the line. Students are able to derive linear equations by using the point-slope formula.

8.0 Students understand the concepts of parallel lines and perpendicular lines and how those slopes are related. Students are able to find the equation of a line perpendicular to a given line that passes through a given point.

9.0 Students solve a system of two linear equations in two variables algebraically and are able to interpret the answer graphically. Students are able to solve a system of two linear inequalities in two variables and to sketch the solution sets.

10.0 Students add, subtract, multiply, and divide monomials and polynomials. Students solve multistep problems, including word problems, by using these techniques.

11.0 Students apply basic factoring techniques to second- and simple third-degree polynomials. These techniques include finding a common factor for all terms in a polynomial, recognizing the difference of two squares, and recognizing perfect squares of binomials.

12.0 Students simplify fractions with polynomials in the numerator and denominator by factoring both and reducing them to the lowest terms.

13.0 Students add, subtract, multiply, and divide rational expressions and functions. Students solve both computationally and conceptually challenging problems by using these techniques.
14.0 Students solve a quadratic equation by factoring or completing the square.

15.0 Students apply algebraic techniques to solve rate problems, work problems, and percent mixture problems.

16.0 Students understand the concepts of a relation and a function, determine whether a given relation defines a function, and give pertinent information about given relations and functions.

17.0 Students determine the domain of independent variables and the range of dependent variables defined by a graph, a set of ordered pairs, or a symbolic expression.

18.0 Students determine whether a relation defined by a graph, a set of ordered pairs, or a symbolic expression is a function and justify the conclusion.

19.0 Students know the quadratic formula and are familiar with its proof by completing the square.

20.0 Students use the quadratic formula to find the roots of a second-degree polynomial and to solve quadratic equations.

21.0 Students graph quadratic functions and know that their roots are the $x$-intercepts.

22.0 Students use the quadratic formula or factoring techniques or both to determine whether the graph of a quadratic function will intersect the $x$-axis in zero, one, or two points.

23.0 Students apply quadratic equations to physical problems, such as the motion of an object under the force of gravity.

24.0 Students use and know simple aspects of a logical argument:
24.1 Students explain the difference between inductive and deductive reasoning and identify and provide examples of each.
24.2 Students identify the hypothesis and conclusion in logical deduction.
24.3 Students use counterexamples to show that an assertion is false and recognize that a single counterexample is sufficient to refute an assertion.

25.0 Students use properties of the number system to judge the validity of results, to justify each step of a procedure, and to prove or disprove statements:
25.1 Students use properties of numbers to construct simple, valid arguments (direct and indirect) for, or formulate counterexamples to, claimed assertions.
25.2 Students judge the validity of an argument according to whether the properties of the real number system and the order of operations have been applied correctly at each step.
25.3 Given a specific algebraic statement involving linear, quadratic, or absolute value expressions or equations or inequalities, students determine whether the statement is true sometimes, always, or never.

**Geometry Course Description**
The course will allow students to strengthen their inductive and deductive reasoning as they examine and develop arguments, contradictions, and proofs. A significant amount of definitions, postulates, and theorems will need to be mastered by students as they perform basic proofs and then apply these proofs to real world problem solving situations. The course includes several major units of study beginning with the basic components of geometry and then proceeding to concepts involving two and three-dimensional geometric figures. The basic components unit includes a review of key notations and visual representations that will be used throughout the course. Central to this unit are the angles relationships and properties that emanate from parallel lines cut by transversals.

Building on the basic components of geometry, the next unit relates to an extensive examination of triangles. Students will work extensively with two column proofs of triangle congruence and similarity. The triangle unit continues with a closer examination of right triangles. Students will know and apply the Pythagorean theorem, Distance Formula, special right triangle relationships, and trigonometric functions to find unknown lengths and angles in right triangles. The focus of the course then transitions to a more general investigation of the properties of two-dimensional figures including the relationships between angles and sides, area, and perimeter. Students then investigate the relationships and properties of three-dimensional figures involving computations and problem solving related to volume and surface area. Finally the course concludes with the circle unit. Students will develop theorems related to chords, secants, tangents, inscribed angles and polygons. These theorems will then be applied to problem solving situations that involve missing angle and arc measures, as well as finding the length of arcs, chords, tangents, and secants.

**CA State Standards**
The geometry skills and concepts developed in this discipline are useful to all students. Aside from learning these skills and concepts, students will develop their ability to construct formal, logical arguments and proofs in geometric settings and problems.

1.0 Students demonstrate understanding by identifying and giving examples of undefined terms, axioms, theorems, and inductive and deductive reasoning.

2.0 Students write geometric proofs, including proofs by contradiction.

3.0 Students construct and judge the validity of a logical argument and give counterexamples to disprove a statement.

4.0 Students prove basic theorems involving congruence and similarity.

5.0 Students prove that triangles are congruent or similar, and they are able to use the concept of corresponding parts of congruent triangles.
6.0 Students know and are able to use the triangle inequality theorem.

7.0 Students prove and use theorems involving the properties of parallel lines cut by a transversal, the properties of quadrilaterals, and the properties of circles.

8.0 Students know, derive, and solve problems involving the perimeter, circumference, area, volume, lateral area, and surface area of common geometric figures.

9.0 Students compute the volumes and surface areas of prisms, pyramids, cylinders, cones, and spheres; and students commit to memory the formulas for prisms, pyramids, and cylinders.

10.0 Students compute areas of polygons, including rectangles, scalene triangles, equilateral triangles, rhombi, parallelograms, and trapezoids.

11.0 Students determine how changes in dimensions affect the perimeter, area, and volume of common geometric figures and solids.

12.0 Students find and use measures of sides and of interior and exterior angles of triangles and polygons to classify figures and solve problems.

13.0 Students prove relationships between angles in polygons by using properties of complementary, supplementary, vertical, and exterior angles.

14.0 Students prove the Pythagorean theorem.

15.0 Students use the Pythagorean theorem to determine distance and find missing lengths of sides of right triangles.

16.0 Students perform basic constructions with a straightedge and compass, such as angle bisectors, perpendicular bisectors, and the line parallel to a given line through a point off the line.

17.0 Students prove theorems by using coordinate geometry, including the midpoint of a line segment, the distance formula, and various forms of equations of lines and circles.

18.0 Students know the definitions of the basic trigonometric functions defined by the angles of a right triangle. They also know and are able to use elementary relationships between them.

For example, \( \tan(x) = \frac{\sin(x)}{\cos(x)} \), \( (\sin(x))^2 + (\cos(x))^2 = 1 \).

19.0 Students use trigonometric functions to solve for an unknown length of a side of a right triangle, given an angle and a length of a side.

20.0 Students know and are able to use angle and side relationships in problems with special right triangles, such as 30°, 60°, and 90° triangles and 45°, 45°, and 90° triangles.
21.0 Students prove and solve problems regarding relationships among chords, secants, tangents, inscribed angles, and inscribed and circumscribed polygons of circles.

22.0 Students know the effect of rigid motions on figures in the coordinate plane and space, including rotations, translations, and reflections.

Algebra II Course Description
Algebra II provides a review and extension of the concepts taught in Algebra I and Geometry. Throughout this course, students will develop learning strategies, critical thinking skills, and problem solving techniques to prepare for future math courses in high school and college. The course begins with an extensive review of Algebra I concepts including equation and inequalities, linear equations and functions, systems of equations, radical expressions, quadratic equations and functions, polynomials, and rational expressions. A few new concepts such as complex and imaginary numbers and solving systems of equations in two and three variables, are introduced in order to build on students basic Algebra knowledge and skills.

The Algebra II course then explores the algebraic and geometric concept of conic sections. This includes the equations and graphing for several functions that define the conic section units including the circle, ellipse, parabola, and hyperbola functions. Students will develop an understanding of inverse functions and relations including an introduction to exponential and logarithmic functions, and in particular, natural logarithms. These functions will also be used in problem solving situations. The emphasis then shifts towards a study of matrices and determinants. Students will be required to master the addition, subtraction, and multiplication of matrices. In addition to using determinants and Cramer’s Rule, students will use inverse matrices to solve systems of two or three equations.

Students will then transition to the study of sequences, series, and mathematical induction unit. Students learn to find a particular term in an arithmetic or geometric sequence. They will also compute sums of finite arithmetic and geometric series as well as of infinite geometric series.

CA State Standards
This discipline complements and expands the mathematical content and concepts of algebra I and geometry. Students who master algebra II will gain experience with algebraic solutions of problems in various content areas, including the solution of systems of quadratic equations, logarithmic and exponential functions, the binomial theorem, and the complex number system.

1.0 Students solve equations and inequalities involving absolute value.

2.0 Students solve systems of linear equations and inequalities (in two or three variables) by substitution, with graphs, or with matrices.

3.0 Students are adept at operations on polynomials, including long division.

4.0 Students factor polynomials representing the difference of squares, perfect square trinomials,
and the sum and difference of two cubes.

5. Students demonstrate knowledge of how real and complex numbers are related both arithmetically and graphically. In particular, they can plot complex numbers as points in the plane.

6. Students add, subtract, multiply, and divide complex numbers.

7. Students add, subtract, multiply, divide, reduce, and evaluate rational expressions with monomial and polynomial denominators and simplify complicated rational expressions, including those with negative exponents in the denominator.

8. Students solve and graph quadratic equations by factoring, completing the square, or using the quadratic formula. Students apply these techniques in solving word problems. They also solve quadratic equations in the complex number system.

9. Students demonstrate and explain the effect that changing a coefficient has on the graph of quadratic functions; that is, students can determine how the graph of a parabola changes as \( a, b, \) and \( c \) vary in the equation \( y = a(x-b)^2 + c \).

10. Students graph quadratic functions and determine the maxima, minima, and zeros of the function.

   11.1 Students understand the inverse relationship between exponents and logarithms and use this relationship to solve problems involving logarithms and exponents.
   11.2 Students judge the validity of an argument according to whether the properties of real numbers, exponents, and logarithms have been applied correctly at each step.

12. Students know the laws of fractional exponents, understand exponential functions, and use these functions in problems involving exponential growth and decay.

13. Students use the definition of logarithms to translate between logarithms in any base.

14. Students understand and use the properties of logarithms to simplify logarithmic numeric expressions and to identify their approximate values.

15. Students determine whether a specific algebraic statement involving rational expressions, radical expressions, or logarithmic or exponential functions is sometimes true, always true, or never true.
16.0 Students demonstrate and explain how the geometry of the graph of a conic section (e.g., asymptotes, foci, eccentricity) depends on the coefficients of the quadratic equation representing it.

17.0 Given a quadratic equation of the form $ax^2 + by^2 + cx + dy + e = 0$, students can use the method for completing the square to put the equation into standard form and can recognize whether the graph of the equation is a circle, ellipse, parabola, or hyperbola. Students can then graph the equation.

18.0 Students use fundamental counting principles to compute combinations and permutations.

19.0 Students use combinations and permutations to compute probabilities.

20.0 Students know the binomial theorem and use it to expand binomial expressions that are raised to positive integer powers.

21.0 Students apply the method of mathematical induction to prove general statements about the positive integers.

22.0 Students find the general term and the sums of arithmetic series and of both finite and infinite geometric series.

23.0 Students derive the summation formulas for arithmetic series and for both finite and infinite geometric series.

24.0 Students solve problems involving functional concepts, such as composition, defining the inverse function and performing arithmetic operations on functions.

25.0 Students use properties from number systems to justify steps in combining and simplifying functions.

Pre-Calculus Course Description
Topics in Mathematical Analysis, Trigonometry, and Linear Algebra are often combined to create a pre-calculus course needed to prepare students for the study of Calculus. The course is designed to strengthen student conceptual understanding and mathematical reasoning of techniques used in trigonometry, geometry, and algebra. Mathematical Analysis standards require students to know and apply to problem solving situations: polar coordinates and vectors; complex numbers; the fundamental theorem of algebra; conic sections; roots and poles of rational functions; functions and equations defined parametrically; and the limit of a sequences and functions. Trigonometry standards build on those concepts previously learner in the Geometry course. Students develop an understanding of angle measurements in degrees and radians and use this concept to graph in a variety of forms the sine, cosine, tangent, cotangent, secant, and cosecant functions. Several more trigonometry identities are introduced. Students will prove
these identities and use them to simplify other similar identities. The trigonometric functions will be revisited and used in problem solving situations and word problems in order to find the missing angle, side, or area of right triangles. Students must be familiar with polar coordinates and complex numbers and be able to multiply complex numbers in their polar form. Finally, students will apply these skills as they work with complex numbers in polar form using the DeMoivre’s theorem. In the Linear Algebra portion of the course the standards indicate an extensive examination and application of the algebraic and geometric interpretations of matrices and vectors. The goal of Linear Algebra is for students to learn the techniques of matrix manipulation so that they can solve systems of linear equations in any number of variables. Students must understand and know how to apply the Gauss-Jordan method and the Cramer’s rule of solving matrices.

CA State Standards

Trigonometry uses the techniques that students have previously learned from the study of algebra and geometry. The trigonometric functions studied are defined geometrically rather than in terms of algebraic equations. Facility with these functions as well as the ability to prove basic identities regarding them is especially important for students intending to study calculus, more advanced mathematics, physics and other sciences, and engineering in college.

1.0 Students understand the notion of angle and how to measure it, in both degrees and radians. They can convert between degrees and radians.

2.0 Students know the definition of sine and cosine as y- and x-coordinates of points on the unit circle and are familiar with the graphs of the sine and cosine functions.

3.0 Students know the identity \( \cos^2(x) + \sin^2(x) = 1 \):

3.1 Students prove that this identity is equivalent to the Pythagorean theorem (i.e., students can prove this identity by using the Pythagorean theorem and, conversely, they can prove the Pythagorean theorem as a consequence of this identity).

3.2 Students prove other trigonometric identities and simplify others by using the identity \( \cos^2(x) + \sin^2(x) = 1 \). For example, students use this identity to prove that \( \sec^2(x) = \tan^2(x) + 1 \).

4.0 Students graph functions of the form \( f(t) = A \sin(Bt + C) \) or \( f(t) = A \cos(Bt + C) \) and interpret \( A, B, \) and \( C \) in terms of amplitude, frequency, period, and phase shift.

5.0 Students know the definitions of the tangent and cotangent functions and can graph them.

6.0 Students know the definitions of the secant and cosecant functions and can graph them.

7.0 Students know that the tangent of the angle that a line makes with the x-axis is equal to the slope of the line.

8.0 Students know the definitions of the inverse trigonometric functions and can graph the
functions.

Mathematical Analysis
This discipline combines many of the trigonometric, geometric, and algebraic techniques needed to prepare students for the study of calculus and strengthens their conceptual understanding of problems and mathematical reasoning in solving problems. These standards take a functional point of view toward those topics. The most significant new concept is that of limits. Mathematical analysis is often combined with a course in trigonometry or perhaps with one in linear algebra to make a yearlong pre-calculus course.

1.0 Students are familiar with, and can apply, polar coordinates and vectors in the plane. In particular, they can translate between polar and rectangular coordinates and can interpret polar coordinates and vectors graphically.

2.0 Students are adept at the arithmetic of complex numbers. They can use the trigonometric form of complex numbers and understand that a function of a complex variable can be viewed as a function of two real variables. They know the proof of DeMoivre’s theorem.

3.0 Students can give proofs of various formulas by using the technique of mathematical induction.

4.0 Students know the statement of, and can apply, the fundamental theorem of algebra.

5.0 Students are familiar with conic sections, both analytically and geometrically:
5.1 Students can take a quadratic equation in two variables; put it in standard form by completing the square and using rotations and translations, if necessary; determine what type of conic section the equation represents; and determine its geometric components (foci, asymptotes, and so forth).
5.2 Students can take a geometric description of a conic section—for example, the locus of points whose sum of its distances from (1, 0) and (-1, 0) is 6—and derive a quadratic equation representing it.

6.0 Students find the roots and poles of a rational function and can graph the function and locate its asymptotes.

7.0 Students demonstrate an understanding of functions and equations defined parametrically and can graph them.

8.0 Students are familiar with the notion of the limit of a sequence and the limit of a function as the independent variable approaches a number or infinity. They determine whether certain sequences converge or diverge.

Linear Algebra
The general goal in this discipline is for students to learn the techniques of matrix manipulation so that they can solve systems of linear equations in any number of variables. Linear algebra is most often combined with another subject, such as trigonometry,
mathematical analysis, or pre-calculus.

1.0 Students solve linear equations in any number of variables by using Gauss-Jordan elimination.

2.0 Students interpret linear systems as coefficient matrices and the Gauss-Jordan method as row operations on the coefficient matrix.

3.0 Students reduce rectangular matrices to row echelon form.

4.0 Students perform addition on matrices and vectors.

5.0 Students perform matrix multiplication and multiply vectors by matrices and by scalars.

6.0 Students demonstrate an understanding that linear systems are inconsistent (have no solutions), have exactly one solution, or have infinitely many solutions.

7.0 Students demonstrate an understanding of the geometric interpretation of vectors and vector addition (by means of parallelograms) in the plane and in three-dimensional space.

8.0 Students interpret geometrically the solution sets of systems of equations. For example, the solution set of a single linear equation in two variables is interpreted as a line in the plane, and the solution set of a two-by-two system is interpreted as the intersection of a pair of lines in the plane.

9.0 Students demonstrate an understanding of the notion of the inverse to a square matrix and apply that concept to solve systems of linear equations.

10.0 Students compute the determinants of $2 \times 2$ and $3 \times 3$ matrices and are familiar with their geometric interpretations as the area and volume of the parallelepipeds spanned by the images under the matrices of the standard basis vectors in two-dimensional and three-dimensional spaces.

11.0 Students know that a square matrix is invertible if, and only if, its determinant is nonzero. They can compute the inverse to $2 \times 2$ and $3 \times 3$ matrices using row reduction methods or Cramer’s rule.

12.0 Students compute the scalar (dot) product of two vectors in $n$-dimensional space and know that perpendicular vectors have zero dot product.
**Calculus Course Description**

The prerequisites to learning and using calculus are the algebra, trigonometry, and analytical geometry skills students have developed in the preceding Algebra II and Pre Calculus classes. In addition to the rigor and depth that will permeate all aspects of this course students will hopefully also develop an appreciation for the versatility and usefulness that the study of Calculus provides to professional fields related to mathematics, science, design, technology, and engineering. The course begins with an examination of limits and continuity. Students will be required to calculate limits of function values and to test functions for continuity. Once students are able to calculate limits, they can then proceed to finding derivatives. The derivatives unit illustrates the role calculus plays in measuring the rates at which things change. Students will explore the circumstances in which derivatives exist, the basic derivative techniques, rates of change, trigonometric derivatives, major rules and laws, common differentiation tasks, and an extensive application of derivatives in real world situations.

The focus of the course then shifts from derivates to finite sums and integrals. Students will examine the close connections between derivatives and integrals though the examination of the contributions of Leibniz and Newton to the study of Calculus. During the integral unit students will be required to work extensively with integration and derivatives as these concepts relate to the graphs of exponential, inverse, logarithmic, inverse trigonometric, and hyperbolic functions. Students will know and apply several major integration rules and theorems including the Fundamental Theorem of Calculus, L’Hopital’s rule, Mean Value theorem, and Rolle’s theorem. In addition, students will apply all the above techniques and theorems of integration to finding the volumes of rotational solids and arc lengths. Calculus students then transition to the study of differential equations, sequences, and series. The section pertaining to differential equations requires students to have knowledge of the separation of variables, the types of solutions, and exponential growth and decay. Students must also be able to visualize differential equations in terms of linear approximations, slope fields, and Euler’s method. The sequence and series section allows students the opportunity to examine basic examples of infinite series such as geometric series, P-series, and the telescoping series. Students will also be able to perform a variety of infinite series convergence test. Finally an exploration of special series such as the power series, the Maclaurin series, and the Taylor series will conclude the unit.

**CA State Standards**

When taught in high school, calculus should be presented with the same level of depth and rigor as are entry-level college and university calculus courses. These standards outline a complete college curriculum in one variable calculus. Many high school programs may have insufficient time to cover all of the following content in a typical academic year. Consideration of the College Board syllabi for the Calculus AB and Calculus BC sections of the Advanced Placement Examination in Mathematics may be helpful in making curricular decisions. Calculus is a widely applied area of mathematics and involves a beautiful intrinsic theory. Students mastering this content will be exposed to both aspects of the subject.

1.0 Students demonstrate knowledge of both the formal definition and the graphical interpretation of limit of values of functions. This knowledge includes one-sided limits, infinite limits, and limits at infinity. Students know the definition of convergence and divergence of a function as the domain variable approaches either a number or infinity:
1.1 Students prove and use theorems evaluating the limits of sums, products, quotients, and composition of functions.
1.2 Students use graphical calculators to verify and estimate limits.
1.3 Students prove and use special limits, such as the limits of \( \frac{\sin(x)}{x} \) and \( \frac{1-\cos(x)}{x} \) as \( x \) tends to 0.

2.0 Students demonstrate knowledge of both the formal definition and the graphical interpretation of continuity of a function.

3.0 Students demonstrate an understanding and the application of the intermediate value theorem and the extreme value theorem.

4.0 Students demonstrate an understanding of the formal definition of the derivative of a function at a point and the notion of differentiability:
   4.1 Students demonstrate an understanding of the derivative of a function as the slope of the tangent line to the graph of the function.

4.2 Students demonstrate an understanding of the interpretation of the derivative as an instantaneous rate of change. Students can use derivatives to solve a variety of problems from physics, chemistry, economics, and so forth that involve the rate of change of a function.
4.3 Students understand the relation between differentiability and continuity.
4.4 Students derive derivative formulas and use them to find the derivatives of algebraic, trigonometric, inverse trigonometric, exponential, and logarithmic functions.

5.0 Students know the chain rule and its proof and applications to the calculation of the derivative of a variety of composite functions.

6.0 Students find the derivatives of parametrically defined functions and use implicit differentiation in a wide variety of problems in physics, chemistry, economics, and so forth.

7.0 Students compute derivatives of higher orders.

8.0 Students know and can apply Rolle’s theorem, the mean value theorem, and L’Hôpital’s rule.

9.0 Students use differentiation to sketch, by hand, graphs of functions. They can identify maxima, minima, inflection points, and intervals in which the function is increasing and decreasing.

10.0 Students know Newton’s method for approximating the zeros of a function.

11.0 Students use differentiation to solve optimization (maximum-minimum problems) in a
variety of pure and applied contexts.

12.0 Students use differentiation to solve related rate problems in a variety of pure and applied contexts.

13.0 Students know the definition of the definite integral by using Riemann sums. They use this definition to approximate integrals.

14.0 Students apply the definition of the integral to model problems in physics, economics, and so forth, obtaining results in terms of integrals.

15.0 Students demonstrate knowledge and proof of the fundamental theorem of calculus and use it to interpret integrals as anti-derivatives.

16.0 Students use definite integrals in problems involving area, velocity, acceleration, volume of a solid, area of a surface of revolution, length of a curve, and work.

17.0 Students compute, by hand, the integrals of a wide variety of functions by using techniques of integration, such as substitution, integration by parts, and trigonometric substitution. They can also combine these techniques when appropriate.

18.0 Students know the definitions and properties of inverse trigonometric functions and the expression of these functions as indefinite integrals.

19.0 Students compute, by hand, the integrals of rational functions by combining the techniques in standard 17.0 with the algebraic techniques of partial fractions and completing the square.

20.0 Students compute the integrals of trigonometric functions by using the techniques noted above.

21.0 Students understand the algorithms involved in Simpson’s rule and Newton’s method. They use calculators or computers or both to approximate integrals numerically.

22.0 Students understand improper integrals as limits of definite integrals.

23.0 Students demonstrate an understanding of the definitions of convergence and divergence of sequences and series of real numbers. By using such tests as the comparison test, ratio test, and alternate series test, they can determine whether a series converges.

24.0 Students understand and can compute the radius (interval) of the convergence of power series.
25.0 Students differentiate and integrate the terms of a power series in order to form new series from known ones.

26.0 Students calculate Taylor polynomials and Taylor series of basic functions, including the remainder term.

27.0 Students know the techniques of solution of selected elementary differential equations and their applications to a wide variety of situations, including growth-and-decay problems.

**Probability and Statistics**

This course covers the study of probability, interpretation of data, and fundamental statistical problem solving. Students must know the definitions of the notions of independent events, conditional probability, mean, median, mode, variance of a discrete random variable, and the mean of a discrete random variable. Each of these definitions will then be used to solve for probabilities and events under a diversity of statistical circumstances. Throughout the course the distributions of data will be described using different methods including frequency tables, histograms, standard line and bar graphs, stem and leaf displays, scatter plots, and box and whisker plots. For the each distribution of data students must be able to identify the standard distribution and compute the variance and standard deviation. In an advanced placement probability and statistics class students must be able to determine P-value for a statistic and be familiar with and understand the uses of a $\chi^2$-square distribution and the $\chi^2$-square test.

**CA State Standards**

This discipline is an introduction to the study of probability, interpretation of data, and fundamental statistical problem solving. Mastery of this academic content will provide students with a solid foundation in probability and facility in processing statistical information.

1.0 Students know the definition of the notion of independent events and can use the rules for addition, multiplication, and complementation to solve for probabilities of particular events in finite sample spaces.

2.0 Students know the definition of conditional probability and use it to solve for probabilities in finite sample spaces.

3.0 Students demonstrate an understanding of the notion of discrete random variables by using them to solve for the probabilities of outcomes, such as the probability of the occurrence of five heads in 14 coin tosses.

4.0 Students are familiar with the standard distributions (normal, binomial, and exponential) and can use them to solve for events in problems in which the distribution belongs to those families.
5.0 Students determine the mean and the standard deviation of a normally distributed random variable.

6.0 Students know the definitions of the mean, median, and mode of a distribution of data and can compute each in particular situations.

7.0 Students compute the variance and the standard deviation of a distribution of data.

8.0 Students organize and describe distributions of data by using a number of different methods, including frequency tables, histograms, standard line and bar graphs, stem-and-leaf displays, scatter plots, and box-and-whisker plots.
Sciences

Biology/Life Sciences
Biology is the study of processes central to the continuation and reproduction of life for all organisms. Concepts covered in this course will include the anatomy and reproduction of plant and animal cells, chemical reactions that are critical to specific organic cycles, and the concepts of genetics that explain reproduction, mutation, and evolution. Students will also learn the role of a variety of living and non-living components in maintaining balance within ecosystems, the factors and evidence of evolution, and the coordinated function and structures of organ systems in maintaining homeostasis within human bodies and other organisms.

Students will learn the concepts of biology through hands-on experimentation, simulation, and active demonstration, as well as discussion, group and individual research, and projects that apply concepts covered in class to the observable world.

CA State Standards

Cell Biology
1. The fundamental life processes of plants and animals depend on a variety of chemical reactions that occur in specialized areas of the organism’s cells. As a basis for understanding this concept:
   a. Students know cells are enclosed within semi-permeable membranes that regulate their interaction with their surroundings.
   b. Students know enzymes are proteins that catalyze biochemical reactions without altering the reaction equilibrium and the activities of enzymes depend on the temperature, ionic conditions, and the pH of the surroundings.
   c. Students know how prokaryotic cells, eukaryotic cells (including those from plants and animals), and viruses differ in complexity and general structure.
   d. Students know the central dogma of molecular biology outlines the flow of information from transcription of ribonucleic acid (RNA) in the nucleus to translation of proteins on ribosomes in the cytoplasm.
   e. Students know the role of the endoplasmic reticulum and Golgi apparatus in the secretion of proteins. f. Students know usable energy is captured from sunlight by chloroplasts and is stored through the synthesis of sugar from carbon dioxide.
   g. Students know the role of the mitochondria in making stored chemical-bond energy available to cells by completing the breakdown of glucose to carbon dioxide.
   h. Students know most macromolecules (polysaccharides, nucleic acids, proteins, lipids) in cells and organisms are synthesized from a small collection of simple precursors.
   i.* Students know how chemiossmotic gradients in the mitochondria and chloroplast store energy for ATP production. j* Students know how eukaryotic cells are given shape and internal organization by a
cytoskeleton or cell wall or both.

Genetics

2. Mutation and sexual reproduction lead to genetic variation in a population. As a basis for understanding this concept:
   a. *Students know* meiosis is an early step in sexual reproduction in which the pairs of chromosomes separate and segregate randomly during cell division to produce gametes containing one chromosome of each type.
   b. *Students know* only certain cells in a multicellular organism undergo meiosis.
   c. *Students know* how random chromosome segregation explains the probability that a particular allele will be in a gamete.
   d. *Students know* new combinations of alleles may be generated in a zygote through the fusion of male and female gametes (fertilization).
   e. *Students know* why approximately half of an individual’s DNA sequence comes from each parent.
   f. *Students know* the role of chromosomes in determining an individual’s sex.
   g. *Students know* how to predict possible combinations of alleles in a zygote from the genetic makeup of the parents.

3. A multi-cellular organism develops from a single zygote, and its phenotype depends on its genotype, which is established at fertilization. As a basis for understanding this concept:
   a. *Students know* how to predict the probable outcome of phenotypes in a genetic cross from the genotypes of the parents and mode of inheritance (autosomal or X-linked, dominant or recessive).
   b. *Students know* the genetic basis for Mendel’s laws of segregation and independent assortment.
   c. *Students know* how to predict the probable mode of inheritance from a pedigree diagram showing phenotypes.
   d. *Students know* how to use data on frequency of recombination at meiosis to estimate genetic distances between loci and to interpret genetic maps of chromosomes

4. Genes are a set of instructions encoded in the DNA sequence of each organism that specify the sequence of amino acids in proteins characteristic of that organism. As a basis for understanding this concept:
   a. *Students know* the general pathway by which ribosomes synthesize proteins, using tRNAs to translate genetic information in mRNA.
b. Students know how to apply the genetic coding rules to predict the sequence of amino acids from a sequence of codons in RNA.

c. Students know how mutations in the DNA sequence of a gene may or may not affect the expression of the gene or the sequence of amino acids in an encoded protein.

d. Students know specialization of cells in multi-cellular organisms is usually due to different patterns of gene expression rather than to differences of the genes themselves.

e. Students know proteins can differ from one another in the number and sequence of amino acids. f.* Students know why proteins having different amino acid sequences typically have different shapes and chemical properties.

5. The genetic composition of cells can be altered by incorporation of exogenous DNA into the cells. As a basis for understanding this concept:

   a. Students know the general structures and functions of DNA, RNA, and protein.

   b. Students know how to apply base-pairing rules to explain precise copying of DNA during semi-conservative replication and transcription of information from DNA into mRNA.

   c. Students know how genetic engineering (biotechnology) is used to produce novel biomedical and agricultural products.

   d.* Students know how basic DNA technology (restriction digestion by endonucleases, gel electrophoresis, ligation, and transformation) is used to construct recombinant DNA molecules.

   e.* Students know how exogenous DNA can be inserted into bacterial cells to alter their genetic makeup and support expression of new protein products.

Ecology

6. Stability in an ecosystem is a balance between competing effects. As a basis for understanding this concept:

   a. Students know biodiversity is the sum total of different kinds of organisms and is affected by alterations of habitats.

   b. Students know how to analyze changes in an ecosystem resulting from changes in climate, human activity, introduction of nonnative species, or changes in population size.

   c. Students know how fluctuations in population size in an ecosystem are determined by the relative rates of birth, immigration, emigration, and death.

   d. Students know how water, carbon, and nitrogen cycle between abiotic resources and
organic matter in the ecosystem and how oxygen cycles through photosynthesis and respiration.

e. Students know a vital part of an ecosystem is the stability of its producers and decomposers.

f. Students know at each link in a food web some energy is stored in newly made structures but much energy is dissipated into the environment as heat. This dissipation may be represented in an energy pyramid.

g.* Students know how to distinguish between the accommodation of an individual organism to its environment and the gradual adaptation of a lineage of organisms through genetic change.

Evolution

7. The frequency of an allele in a gene pool of a population depends on many factors and may be stable or unstable over time. As a basis for understanding this concept:

a. Students know why natural selection acts on the phenotype rather than the genotype of an organism.

b. Students know why alleles that are lethal in a homozygous individual may be carried in a heterozygote and thus maintained in a gene pool.

c. Students know new mutations are constantly being generated in a gene pool.

d. Students know variation within a species increases the likelihood that at least some members of a species will survive under changed environmental conditions

e.* Students know the conditions for Hardy-Weinberg equilibrium in a population and why these conditions are not likely to appear in nature.

f.* Students know how to solve the Hardy-Weinberg equation to predict the frequency of genotypes in a population, given the frequency of phenotypes.

8. Evolution is the result of genetic changes that occur in constantly changing environments. As a basis for understanding this concept:

a. Students know how natural selection determines the differential survival of groups of organisms.

b. Students know a great diversity of species increases the chance that at least some organisms survive major changes in the environment.

c. Students know the effects of genetic drift on the diversity of
organisms in a population.

  d. *Students know* reproductive or geographic isolation affects speciation.
  e. *Students know* how to analyze fossil evidence with regard to biological
diversity, episodic speciation, and mass extinction.
  f.* Students know* how to use comparative embryology, DNA or protein
sequence comparisons, and other independent sources of data to create a branching
diagram (cladogram) that shows probable evolutionary relationships.
  g.* Students know* how several independent molecular clocks, calibrated
against each other and combined with evidence from the fossil record, can help to
estimate how long ago various groups of organisms diverged evolutionarily from
one another.

**Chemistry**

For this science course, the design is to be a first-year high school chemistry course, which will
give students a rigorous foundation in chemistry in order to prepare those students for a college-
level course. The course covers significant figures, units, classification, the mole concept,
stoichiometry, thermochemistry, thermodynamics, kinetics, acids and bases, redox reactions,
solutions, atomic structure, Lewis structures, molecular geometry, the gas laws, and equilibrium.
It will examine the composition of various substances and the changes they can go through. The
periodic table and simple compounds are covered as well as the basics of Chemistry. Students
will be completing laboratory work dealing with practical skills and techniques such as weighing,
using units of metric system, and performing experiments that illustrate and reinforce the
principles taught throughout the course. In addition, the students will be writing lab reports for
every laboratory work completed in the year.

The design of the course will also show students how chemistry touches their lives almost
everywhere and everyday, in medicine, the clothes they wear, the games they play, as well as the
industries that make the things they use. For this course, the learning environment will be student
centered, knowledge centered, assessment centered, and community centered. This course will be
student centered to the extent that the teacher builds on knowledge students bring to the learning
situations. This course will be knowledge centered to the extent that the teacher helps students
develop an organized understanding of important concepts in the physics teaching discipline. This
course will be assessment centered to the extent that the teacher makes students' thinking visible
so that ideas can be presented and verified. This course will be community centered to the extent
that the teacher establishes classroom norms that learning with understanding is valued and
students feel free to explore what they do not understand.

In order to be able to understand the material, assignments and projects, students need to have
successfully completed Algebra I.

**CA State Standards**

**Atomic and Molecular Structure**

1. The periodic table displays the elements in increasing atomic number and show
periodicity of the physical and chemical properties of the elements relates to atomic
structure. As a basis for understanding this concept:

a. *Students know* how to relate the position of an element in the periodic table to its atomic number and atomic mass.

b. *Students know* how to use the periodic table to identify metals, semimetals, nonmetals, and halogens.

c. *Students know* how to use the periodic table to identify alkali metals, alkaline earth metals and transition metals, trends in ionization energy, electronegativity, and the relative sizes of ions and atoms.

d. *Students know* how to use the periodic table to determine the number of electrons available for bonding.

e. *Students know* the nucleus of the atom is much smaller than the atom yet contains most of its mass.

f.* Students know* how to use the periodic table to identify the lanthanide, actinide, and transactinide elements and know that the transuranium elements were synthesized and identified in laboratory experiments through the use of nuclear accelerators.

g.* Students know* how to relate the position of an element in the periodic table to its quantum electron configuration and to its reactivity with other elements in the table.

h.* Students know* the experimental basis for Thomson’s discovery of the electron, Rutherford’s nuclear atom, Millikan’s oil drop experiment, and Einstein’s explanation of the photoelectric effect.

i.* Students know* the experimental basis for the development of the quantum theory of atomic structure and the historical importance of the Bohr model of the atom.

j.* Students know* that spectral lines are the result of transitions of electrons between energy levels and that these lines correspond to photons with a frequency related to the energy spacing between levels using Planck’s relationship.

**Chemical Bonds**

2. Biological, chemical, and physical properties of matter result from the ability of atoms to form bonds from electrostatic forces between electrons and protons and between atoms and molecules. As a basis for understanding this concept:

a. *Students know* atoms combine to form molecules by sharing electrons to form covalent or metallic bonds or by exchanging electrons to form ionic bonds.

b. *Students know* chemical bonds between atoms in molecules such as H₂, CH₄, NH₃, HCCH₂, N₂, Cl₂, and many large biological molecules are covalent.

c. *Students know* salt crystals, such as NaCl, are repeating patterns of positive and negative ions held together by electrostatic attraction.
d. *Students know* the atoms and molecules in liquids move in a random pattern relative to one another because the intermolecular forces are too weak to hold the atoms or molecules in a solid form.

e. *Students know* how to draw Lewis dot structures

f.* *Students know* how to predict the shape of simple molecules and their polarity from Lewis dot structures.

g.* *Students know* how electronegativity and ionization energy relate to bond formation.

h.* *Students know* how to identify solids and liquids held together by van der Waals forces or hydrogen bonding and relate these forces to volatility and boiling/melting point temperatures.

**Conservation of Matter and Stoichiometry**

3. The conservation of atoms in chemical reactions leads to the principle of conservation of matter and the ability to calculate the mass of products and reactants. As a basis for understanding this concept:

a. *Students know* how to describe chemical reactions by writing balanced equations.

b. *Students know* the quantity *one mole* is set by defining one mole of carbon 12 atoms to have a mass of exactly 12 grams.

c. *Students know* one mole equals $6.02 \times 10^{23}$ particles (atoms or molecules).

d. *Students know* how to determine the molar mass of a molecule from its chemical formula and a table of atomic masses and how to convert the mass of a molecular substance to moles, number of particles, or volume of gas at standard temperature and pressure.

e. *Students know* how to calculate the masses of reactants and products in a chemical reaction from the mass of one of the reactants or products and the relevant atomic masses.

f.* *Students know* how to calculate percent yield in a chemical reaction. g.* *Students know* how to identify reactions that involve oxidation and reduction and how to balance oxidation-reduction reactions.

**Gases and Their Properties**

4. The kinetic molecular theory describes the motion of atoms and molecules and explains the properties of gases. As a basis for understanding this concept:

a. *Students know* the random motion of molecules and their collisions with a
surface create the observable pressure on that surface.

b. Students know the random motion of molecules explains the diffusion of gases.

c. Students know how to apply the gas laws to relations between the pressure, temperature, and volume of any amount of an ideal gas or any mixture of ideal gases.

d. Students know the values and meanings of standard temperature and pressure (STP).

e. Students know how to convert between the Celsius and Kelvin temperature scales.

f. Students know there is no temperature lower than 0 Kelvin.

g.* Students know the kinetic theory of gases relates the absolute temperature of a gas to the average kinetic energy of its molecules or atoms.

h.* Students know how to solve problems by using the ideal gas law in the form $PV = nRT$.

i.* Students know how to convert between the Celsius and Kelvin temperature scales.

f.* Students know there is no temperature lower than 0 Kelvin.

Acids and Bases

5. Acids, bases, and salts are three classes of compounds that form ions in water solutions As a basis for understanding this concept:

   a. Students know the observable properties of acids, bases, and salt solutions.

   b. Students know acids are hydrogen-ion-donating and bases are hydrogen-ion-accepting substances.

   c. Students know strong acids and bases fully dissociate and weak acids and bases partially dissociate.

   d. Students know how to use the pH scale to characterize acid and base solutions.

   e.* Students know the Arrhenius, Brønsted-Lowry, and Lewis acid–base definitions.

   f.* Students know how to calculate pH from the hydrogen-ion concentration. g.*

   Students know buffers stabilize pH in acid–base reactions.

Solutions

6. Solutions are homogeneous mixtures of two or more substances. As a basis for understanding this concept:

   a. Students know the definitions of solute and solvent.

   b. Students know how to describe the dissolving process at the molecular level by using
the concept of random molecular motion.

c. Students know temperature, pressure, and surface area affect the dissolving process.

d. Students know how to calculate the concentration of a solute in terms of grams per liter, molarity, parts per million, and percent composition.

e.* Students know the relationship between the molality of a solute in a solution and the solution’s depressed freezing point or elevated boiling point.

f.* Students know how molecules in a solution are separated or purified by the methods of chromatography and distillation.

Chemical Thermodynamics

7. Energy is exchanged or transformed in all chemical reactions and physical change of matter. As a basis for understanding this concept:

a. Students know how to describe temperature and heat flow in terms of the motion of molecules (or atoms).

b. Students know chemical processes can either release (exothermic) or absorb (endothermic) thermal energy.

c. Students know energy is released when a material condenses or freezes and is absorbed when a material evaporates or melts.

d. Students know how to solve problems involving heat flow and temperature changes, using known values of specific heat and latent heat of phase change.

e.* Students know how to apply Hess’s law to calculate enthalpy change in a reaction.

f.* Students know how to use the Gibbs free energy equation to determine whether a reaction would be spontaneous.

Reaction Rates

8. Chemical reaction rates depend on factors that influence the frequency of collision of reactant molecules. As a basis for understanding this concept:

a. Students know the rate of reaction is the decrease in concentration of reactants or the increase in concentration of products with time.

b. Students know how reaction rates depend on such factors as concentration, temperature, and pressure.

c. Students know the role a catalyst plays in increasing the reaction rate.

 d.* Students know the definition and role of activation energy in a chemical reaction.

Chemical Equilibrium

9. Chemical equilibrium is a dynamic process at the molecular level. As a basis for understanding this concept:
a. *Students know* how to use Le Chatelier’s principle to predict the effect of changes in concentration, temperature, and pressure.

b. *Students know* equilibrium is established when forward and reverse reaction rates are equal.

c.* *Students know* how to write and calculate an equilibrium constant expression for a reaction.

**Physics**

The conceptual study of laws of motion, forces, energy and momentum, properties and states of matter, heat and thermodynamics, wave motion, sound, light, electricity and magnetism, and atomic and nuclear physics will be the main units of this course. The course will critically teach students the nature of light reflection, refraction, and polarization while also examining the direct current, heating and the effects of various chemicals. By looking at electrical devices students use everyday, they can begin to apply physics to their daily life.

Each unit in this course discusses a separate topic and through charts, surveys and discussions, ties the various topics together. For this course, the learning environment will be student centered, knowledge centered, assessment centered, and community centered. This course will be student centered to the extent that the teacher builds on knowledge students bring to the learning situations. This course will be knowledge centered to the extent that the teacher helps students develop an organized understanding of important concepts in the physics teaching discipline. This course will be assessment centered to the extent that the teacher makes students' thinking visible so that ideas can be presented and verified. This course will be community centered to the extent that the teacher establishes classroom norms that learning with understanding is valued and students feel free to explore what they do not understand.

**CA State Standards**

**Motion and Forces**

1. Newton’s laws predict the motion of most objects. As a basis for understanding this concept:

   a. *Students know* how to solve problems that involve constant speed and average speed.

   b. *Students know* that when forces are balanced, no acceleration occurs; thus an object continues to move at a constant speed or stays at rest (Newton’s first law).

   c. *Students know* how to apply the law $F = ma$ to solve one-dimensional motion problems that involve constant forces (Newton’s second law).

   d. *Students know* that when one object exerts a force on a second object, the second object always exerts a force of equal magnitude and in the opposite direction (Newton’s third law).

   e. *Students know* the relationship between the universal law of gravitation and the effect of gravity on an object at the surface of Earth.

   f. *Students know* applying a force to an object perpendicular to the direction of its motion causes the object to change direction but not speed (e.g., Earth’s gravitational force
causes a satellite in a circular orbit to change direction but not speed).

g. *Students know* circular motion requires the application of a constant force directed toward the center of the circle.

h.* *Students know* Newton’s laws are not exact but provide very good approximations unless an object is moving close to the speed of light or is small enough that quantum effects are important.

i.* *Students know* how to solve two-dimensional trajectory problems.

j.* *Students know* how to resolve two-dimensional vectors into their components and calculate the magnitude and direction of a vector from its components.

k.* *Students know* how to solve two-dimensional problems involving balanced forces (statics).

l.* *Students know* how to solve problems in circular motion by using the formula for centripetal acceleration in the following form: \( a = \frac{v^2}{r} \).

m.* *Students know* how to solve problems involving the forces between two electric charges at a distance (Coulomb’s law) or the forces between two masses at a distance (universal gravitation).

### Conservation of Energy and Momentum

2. The laws of conservation of energy and momentum provide a way to predict and describe the movement of objects. As a basis for understanding this concept:

a. *Students know* how to calculate kinetic energy by using the formula \( E = \frac{1}{2}mv^2 \).

b. *Students know* how to calculate changes in gravitational potential energy near Earth by using the formula (change in potential energy) = \( mgh \) \( (h \) is the change in the elevation).

c. *Students know* how to solve problems involving conservation of energy in simple systems, such as falling objects.

d. *Students know* how to calculate momentum as the product \( mv \).

e. *Students know* momentum is a separately conserved quantity different from energy.

f. *Students know* an unbalanced force on an object
produces a change in its momentum.

g. Students know how to solve problems involving elastic and inelastic collisions in one dimension by using the principles of conservation of momentum and energy.

h.* Students know how to solve problems involving conservation of energy in simple systems with various sources of potential energy, such as capacitors and springs.

Heat and Thermodynamics

3. Energy cannot be created or destroyed, although in many processes energy is transferred to the environment as heat. As a basis for understanding this concept:

   a. Students know heat flow and work are two forms of energy transfer between systems.

   b. Students know that the work done by a heat engine that is working in a cycle is the difference between the heat flow into the engine at high temperature and the heat flow out at a lower temperature (first law of thermodynamics) and that this is an example of the law of conservation of energy.

   c. Students know the internal energy of an object includes the energy of random motion of the object’s atoms and molecules, often referred to as thermal energy. The greater the temperature of the object, the greater the energy of motion of the atoms and molecules that make up the object.

   d. Students know that most processes tend to decrease the order of a system over time and that energy levels are eventually distributed uniformly.

   e. Students know that entropy is a quantity that measures the order or disorder of a system and that this quantity is larger for a more disordered system.

   f.* Students know the statement “Entropy tends to increase” is a law of statistical probability that governs all closed systems (second law of thermodynamics).

   g.* Students know how to solve problems involving heat flow, work, and efficiency in a heat engine and know that all real engines lose some heat to their surroundings.

Waves

4. Waves have characteristic properties that do not depend on the type of wave. As a basis for understanding this concept:

   a. Students know waves carry energy from one place to another.

   b. Students know how to identify transverse and longitudinal waves in mechanical media, such as springs and ropes, and on the earth (seismic waves).
c. Students know how to solve problems involving wavelength, frequency, and wave speed.

d. Students know sound is a longitudinal wave whose speed depends on the properties of the medium in which it propagates.

e. Students know radio waves, light, and X-rays are different wavelength bands in the spectrum of electromagnetic waves whose speed in a vacuum is approximately $3 \times 10^8$ m/s (186,000 miles/second).

f. Students know how to identify the characteristic properties of waves: interference (beats), diffraction, refraction, Doppler effect, and polarization.

**Electric and Magnetic Phenomena**

5. Electric and magnetic phenomena are related and have many practical applications. As a basis for understanding this concept:

a. Students know how to predict the voltage or current in simple direct current (DC) electric circuits constructed from batteries, wires, resistors, and capacitors.

b. Students know how to solve problems involving Ohm’s law.

c. Students know any resistive element in a DC circuit dissipates energy, which heats the resistor. Students can calculate the power (rate of energy dissipation) in any resistive circuit element by using the formula Power = $I_R$ (potential difference) $\times I$ (current) = $I^2 R$.

d. Students know the properties of transistors and the role of transistors in electric circuits.

e. Students know charged particles are sources of electric fields and are subject to the forces of the electric fields from other charges.

f. Students know magnetic materials and electric currents (moving electric charges) are sources of magnetic fields and are subject to forces arising from the magnetic fields of other sources.

g. Students know how to determine the direction of a magnetic field produced by a current flowing in a straight wire or in a coil.

h. Students know changing magnetic fields produce electric fields, thereby inducing currents in nearby conductors.

i. Students know plasmas, the fourth state of matter, contain ions or free electrons or both and conduct electricity.

j.* Students know electric and magnetic fields contain energy and act as vector force fields.
k.* Students know the force on a charged particle in an electric field is $qE$, where $E$ is the electric field at the position of the particle and $q$ is the charge of the particle.

l.* Students know how to calculate the electric field resulting from a point charge.

m.* Students know static electric fields have as their source some arrangement of electric charges.

n.* Students know the magnitude of the force on a moving particle (with charge $q$) in a magnetic field is $qvB \sin(a)$, where $a$ is the angle between $v$ and $B$ ($v$ and $B$ are the magnitudes of vectors $v$ and $B$, respectively), and students use the right-hand rule to find the direction of this force.

o.* Students know how to apply the concepts of electrical and gravitational potential energy to solve problems involving conservation of energy.

Anatomy & Physiology

This course closely examines many of the structures and chemical processes that allow the human body to function as it should and maintain homeostasis. Students will build on their understanding of chemistry and physics as they learn about the role of many important molecules and compounds within the body and the chemical reactions necessary for life, as well as the function and structure of cells, tissues, organs, and organ systems—especially the organ systems that are central to life. Students will also learn about a variety of fields of medicine and research and some of the more prevalent diseases of today.

Students taking this course will conduct laboratory experiments, create diagrams and models, participate in dissections and virtual dissections, discuss and participate in lectures, complete individual and group research, and visit local institutions that will provide unique learning opportunities outside of the classroom.

CA State Standards

Physiology

9. As a result of the coordinated structures and functions of organ systems, the internal environment of the human body remains relatively stable (homeostatic) despite changes in the outside environment. As a basis for understanding this concept:

a. Students know how the complementary activity of major body systems provides cells with oxygen and nutrients and removes toxic waste products such as carbon dioxide.

b. Students know how the nervous system mediates communication between different parts of the body and the body’s interaction with the environment.

c. Students know how feedback loops in the nervous and endocrine systems regulate conditions in the body.

d. Students know the functions of the nervous system and the role of neurons in
transmitting electrochemical impulses.

e. *Students know* the roles of sensory neurons, interneurons, and motor neurons in sensation, thought, and response.

f.* Students know* the individual functions and sites of secretion of digestive enzymes (amylases, proteases, nucleases, lipases), stomach acid, and bile salts.

g.* Students know* the homeostatic role of the kidneys in the removal of nitrogenous wastes and the role of the liver in blood detoxification and glucose balance.

h.* Students know* the cellular and molecular basis of muscle contraction, including the roles of actin, myosin, $\text{Ca}^{2+}$, and ATP.

i.* Students know* how hormones (including digestive, reproductive, osmoregulatory) provide internal feedback mechanisms for homeostasis at the cellular level and in whole organisms.

10. Organisms have a variety of mechanisms to combat disease. As a basis for understanding the human immune response:

a. *Students know* the role of the skin in providing nonspecific defenses against infection.

b. *Students know* the role of antibodies in the body’s response to infection.

c. *Students know* how vaccination protects an individual from infectious diseases. d. *Students know* there are important differences between bacteria and viruses with respect to their requirements for growth and replication, the body’s primary defenses against bacterial and viral infections, and effective treatments of these infections.

e. *Students know* why an individual with a compromised immune system (for example, a person with AIDS) may be unable to fight off and survive infections by microorganisms that are usually benign.

f.* Students know* the roles of phagocytes, B-lymphocytes, and T-lymphocytes in the immune system.
English - Language Arts

English 9
Freshman English is a year long, introductory course to the literary canon. Students study different literary genres, including short stories, novels, poetry, drama, and non-fiction, grammar, and critical thinking skills. Students read five to eight novels and plays from the classical canon, including Charles Dickens and the Victorian Era. In addition, students read major works by Homer, Shakespeare, Harper Lee, and many others. Students are required to read both in class and out of class. In addition, students will complete formal writing assignments reflecting on selected pieces of literature. Significant grammar and composition units are studied; creative writing is developed through modeling themes and techniques from literature. Students develop mastery of thesis, support, and argumentation in composition. In addition, students develop memorization and public speaking skills, and video recording is used for student self-critiquing. Graded writing assignments will include formal essays, timed pieces, and journal writings. Research skills, including internet research, culminate with the writing of a formal research paper. Students’ study of literature continues with an increased emphasis on developing critical thinking skills.

Throughout the semester, the focus will be on developing one skill in particular: asking questions. In this course, an expectation will be for all students to be actively engaged in the reading and writing process by formulating and sharpening key questions about literary texts. Learning how to become a discriminating reader by posing interesting questions will be a central task per semester. Students are to think of each text as an “open” text. An “open” text is one that presents the reader with a multiplicity of contradictory meanings, and the pleasure of reading and rereading such a text is precisely to explore those contradictions. Indeed, as students will discover, each person brings different ideas to a literary text and draws different conclusions from it. While valuing these differences, it will also be their work not to fall into a flattening of meaning: not all interpretations and ideas are equally valid or productive. It will be their work to each have an opinion, an idea that matters, and to figure out where we stand in relation to the thoughts and opinions of others.

World Literature (10th grade)
World Literature is designed to expose students to perspectives that differ from their own, ultimately leading them to a deeper understanding of other cultures and the works that represent them. The course is a study of representative works of world literature from Antiquity, the Middle Ages, and the Renaissance. The course emphasizes the study and consideration of the literary, cultural, and human significance of selected great works of the Western and non-Western literary traditions. An emphasis will be placed on writing, speaking, and research elements corresponding to California Standards. Therefore, students will thematically study, analyze, interpret, & critique various genres of literature and other media based on the historical and cultural context of the author and his/her culture.

An important goal of the class is to promote an understanding of the works in their cultural/historical contexts and of the enduring human values, which unite the different literary traditions. The course's pedagogy gives special attention to critical thinking and writing within a framework of cultural diversity as well as comparative and interdisciplinary analysis.

Throughout the semester, the focus will be on developing one skill in particular: asking questions. In this course, an expectation will be for all students to be actively engaged in the reading and writing process by formulating and sharpening key questions about literary texts. Learning how to become a discriminating reader by posing interesting questions will be a central task per
semester. Students are to think of each text as an “open” text. An “open” text is one that presents the reader with a multiplicity of contradictory meanings, and the pleasure of reading and rereading such a text is precisely to explore those contradictions. Indeed, as students will discover, each person brings different ideas to a literary text and draws different conclusions from it. While valuing these differences, it will also be their work not to fall into a flattening of meaning: not all interpretations and ideas are equally valid or productive. It will be their work to each have an opinion, an idea that matters, and to figure out where we stand in relation to the thoughts and opinions of others.

Such texts that may be read within the course are *Antigone* by Sophocles, *All Quiet on the Western Front* by Erich Marie Remarque, *Don Quixote of La Mancha* by Miguel de Cervantes, *Lord of the Flies* by William Golding and others.

**CA State Standards for ELA 9th & 10th**

**Reading**

1.0 Word Analysis, Fluency, and Systematic Vocabulary Development

1.1 Identify and use the literal and figurative meanings of words and understand word derivations.

1.2 Distinguish between the denotative and connotative meanings of words and interpret the connotative power of words.

1.3 Identify Greek, Roman, and Norse mythology and use the knowledge to understand the origin and meaning of new words (e.g., the word *narcissistic* drawn from the myth of Narcissus and Echo).

2.0 Reading Comprehension (Focus on Informational Materials)

Students read and understand grade-level-appropriate material. They analyze the organizational patterns, arguments, and positions advanced.

*Structural Features of Informational Materials*

2.1 Analyze the structure and format of functional workplace documents, including the graphics and headers, and explain how authors use the features to achieve their purposes.

2.2 Prepare a bibliography of reference materials for a report using a variety of consumer, workplace and public documents.

*Comprehension and Analysis of Grade-Level-Appropriate Text*

2.3 Generate relevant questions about readings on issues that can be researched.

2.4 Synthesize the content from several sources or works by a single author dealing with a single issue; paraphrase the ideas and connect them to other sources and related topics to demonstrate comprehension.

2.5 Extend ideas presented in primary or secondary sources through original analysis, evaluation, and elaboration.

2.6 Demonstrate use of sophisticated learning tools by following technical directions (e.g., those found with graphic calculators and specialized software programs and in access guides to World Wide Web sites on the Internet).
**Expository Critique**

2.7 Critique the logic of functional documents by examining the sequence of information procedures in anticipation of possible reader misunderstandings.

2.8 Evaluate the credibility of an author’s argument or defense of a claim by critiquing the relationship between generalizations and evidence, the comprehensiveness of evidence, and the way in which the author’s intent affects the structure and tone of the text (e.g., in professional journals, editorials, political speeches, primary source material).

3.0 **Literary Response and Analysis** Students read and respond to historically or culturally significant works of literature that reflect and enhance their studies of history and social science.

**Structural Features of Literature**

3.1 Articulate the relationship between the expressed purposes and the characteristics of different forms of dramatic literature (e.g., comedy, tragedy, drama, dramatic monologue).

3.2 Compare and contrast the presentation of a similar theme or topic across genres to explain how the selection of genre shapes the theme or topic.

**Narrative Analysis of Grade-Level-Appropriate Text**

3.3 Analyze interactions between main and subordinate characters in a literary text (e.g., internal and external conflicts, motivations, relationships, influences) and explain the way those interactions affect the plot.

3.4 Determine characters’ traits by what the characters say about themselves in narration, dialogue, dramatic monologue, and soliloquy.

3.5 Compare works that express a universal theme and provide evidence to support the ideas expressed in a work.

3.6 Analyze and trace an author’s development of time and sequence, including the use of complex literary devices (e.g., foreshadowing, flashbacks).

3.7 Recognize and understand the significance of various literary devices, including figurative language, imagery, allegory, and symbolism, and explain their appeal.

3.8 Interpret and evaluate the impact of ambiguities, subtleties, contradictions, ironies, and incongruities in a text.

3.9 Explain how voice, persona, and the choice of a narrator affect characterization and the tone, plot, and credibility of a text.

3.10 Identify and describe the function of dialogue, scene designs, soliloquies, asides, and character foils in dramatic literature. *Literary Criticism*

3.11 Evaluate the aesthetic qualities of style, including the impact of diction and figurative language on tone, mood, and theme, using the terminology of literary criticism. (Aesthetic approach)
3.12 Analyze the way in which a work of literature is related to the themes and issues of its historical period. (Historical approach)

Writing
1.0 Writing Strategies
Students write coherent and focused essays that convey a well-defined perspective and tightly reasoned argument.

Organization and Focus
1.1 Establish a controlling impression or coherent thesis that conveys a clear and distinctive perspective on the subject and maintain a consistent tone and focus throughout the piece of writing.

1.2 Use precise language, action verbs, sensory details, appropriate modifiers, and the active rather than the passive voice.

Research and Technology
1.3 Use clear research questions and suitable research methods (e.g., library, electronic media, personal interview) to elicit and present evidence from primary and secondary sources.

1.4 Develop the main ideas within the body of the composition through supporting evidence (e.g., scenarios, commonly held beliefs, hypotheses, definitions).

1.5 Synthesize information from multiple sources and identify complexities and discrepancies in the information and the different perspectives found in each medium (e.g., almanacs, microfiche, news sources, in-depth field studies, speeches, journals, technical documents).

1.6 Integrate quotations and citations into a written text while maintaining the flow of ideas.

1.7 Use appropriate conventions for documentation in the text, notes, and bibliographies by adhering to those in style manuals (e.g., Modern Language Association Handbook, The Chicago Manual of Style).

1.8 Design and publish documents by using advanced publishing software and graphic programs.

Evaluation and Revision

1.9 Revise writing to improve the logic and coherence of the organization and controlling perspective, the precision of word choice, and the tone by taking into consideration the audience, purpose, and formality of the context.

2.0 Writing Applications (Genres and Their Characteristics) Students combine the rhetorical strategies of narration, exposition, persuasion, and description to produce texts of at least 1,500 words each.

2.1 Write biographical or autobiographical narratives or short stories:
   a. Relate a sequence of events and communicate the significance of the events to the audience. b. Locate scenes and incidents in specific places. c. Describe with concrete sensory details the sights, sounds, and smells of a scene and the specific actions, movements, gestures, and feelings of the characters; use interior monologue to depict the characters’ feelings. d. Pace the presentation of actions to accommodate changes in time and mood. e. Make effective use of
descriptions of appearance, images, shifting perspectives, and sensory details.

2.2 Write responses to literature: a. Demonstrate a comprehensive grasp of the significant ideas of literary works. b. Support important ideas and viewpoints through accurate and detailed references to the text or to other works. c. Demonstrate awareness of the author’s use of stylistic devices and an appreciation of the effects created. d. Identify and assess the impact of perceived ambiguities, nuances, and complexities within the text.

2.3 Write expository compositions, including analytical essays and research reports: a. Marshal evidence in support of a thesis and related claims, including information on all relevant perspectives. b. Convey information and ideas from primary and secondary sources accurately and coherently. c. Make distinctions between the relative value and significance of specific data, facts, and ideas. d. Include visual aids by employing appropriate technology to organize and record information on charts, maps, and graphs. e. Anticipate and address readers’ potential misunderstandings, biases, and expectations. f. Use technical terms and notations accurately.

2.4 Write persuasive compositions: a. Structure ideas and arguments in a sustained and logical fashion. b. Use specific rhetorical devices to support assertions (e.g., appeal to logic through reasoning; appeal to emotion or ethical belief; relate a personal anecdote, case study, or analogy).

Freshman Composition

Freshman Composition is designed to help students develop the rhetorical knowledge and practical habits of successful high school and college writers. In teaching basic writing in Freshman Composition, there are some principles to always keep in mind. Not all students come into class having the same abilities. They can however all profit from the class if it takes the students from the basic level and progresses from there. The basic level assumes that they can write complete sentences. There are three areas of writing that should be emphasized throughout the course. They are Organization, Clarity, and Support. They are all related concepts in that each strengthens the others, but each concept will be focused on. By the end of the course, students prepare a variety of public texts by applying knowledge of composing processes, rhetorical strategies, and textual conventions.

While mastering the three areas of writing, students will also explore the principles of rhetoric and effective expository writing. Students will learn to use the concepts of purpose, audience, and genre as they develop their own documents; to generate claims, ideas, supporting details, and evidence; to use appropriate expository structures; to produce drafts and to revise their work as they develop a final product; to produce a prose style that is readable, effective, and free from error; and to develop critical skills through an analysis of good expository writing. All reading material will be non-fiction.

CA State Standards
Writing
2.0 Writing Strategies
Students write coherent and focused essays that convey a well-defined perspective and tightly reasoned argument.

Organization and Focus
1.1 Establish a controlling impression or coherent thesis that conveys a clear and distinctive perspective on the subject and maintain a consistent tone and focus throughout the piece of writing.
1.2 Use precise language, action verbs, sensory details, appropriate modifiers, and the active rather than the passive voice.

Research and Technology
1.3 Use clear research questions and suitable research methods (e.g., library, electronic media, personal interview) to elicit and present evidence from primary and secondary sources.

1.4 Develop the main ideas within the body of the composition through supporting evidence (e.g., scenarios, commonly held beliefs, hypotheses, definitions).

1.5 Synthesize information from multiple sources and identify complexities and discrepancies in the information and the different perspectives found in each medium (e.g., almanacs, microfiche, news sources, in-depth field studies, speeches, journals, technical documents).

1.6 Integrate quotations and citations into a written text while maintaining the flow of ideas.

1.7 Use appropriate conventions for documentation in the text, notes, and bibliographies by adhering to those in style manuals (e.g., Modern Language Association Handbook, The Chicago Manual of Style).

1.8 Design and publish documents by using advanced publishing software and graphic programs.

Evaluation and Revision
1.9 Revise writing to improve the logic and coherence of the organization and controlling perspective, the precision of word choice, and the tone by taking into consideration the audience, purpose, and formality of the context.

2.0 Writing Applications (Genres and Their Characteristics) Students combine the rhetorical strategies of narration, exposition, persuasion, and description to produce texts of at least 1,500 words each.

2.1 Write biographical or autobiographical narratives or short stories:
   a. Relate a sequence of events and communicate the significance of the events to the audience.
   b. Locate scenes and incidents in specific places.
   c. Describe with concrete sensory details the sights, sounds, and smells of a scene and the specific actions, movements, gestures, and feelings of the characters; use interior monologue to depict the characters’ feelings.
   d. Pace the presentation of actions to accommodate changes in time and mood.
   e. Make effective use of descriptions of appearance, images, shifting perspectives, and sensory details.

2.2 Write responses to literature:
   a. Demonstrate a comprehensive grasp of the significant ideas of literary works.
   b. Support important ideas and viewpoints through accurate and detailed references to the text or to other works.
   c. Demonstrate awareness of the author’s use of stylistic devices and an appreciation of the effects created.
   d. Identify and assess the impact of perceived ambiguities, nuances, and complexities within the text.

2.3 Write expository compositions, including analytical essays and research reports:
   a. Marshal evidence in support of a thesis and related claims, including information on all relevant perspectives.
   b. Convey information and ideas from primary and secondary sources accurately and coherently.
   c. Make distinctions between the relative value and significance of specific data, facts, and ideas.
   d. Include visual aids by employing appropriate technology to organize and
record information on charts, maps, and graphs. e. Anticipate and address readers’ potential misunderstandings, biases, and expectations. f. Use technical terms and notations accurately.

**American Literature (11th grade)**

The core of the curriculum is a chronological or thematic study of American literature, its literary periods and major writers. Outside reading focuses on broader philosophical ideas, encouraging wider reading including classics by American authors. This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Readings will include poems, novels, essays, autobiographies, short stories, social commentaries, political tracts, and philosophy, originating in different regions and social settings across the country. Some works are chosen from their historical importance, others for their thematic insight, others for their aesthetic virtues. Taken together, they form a rich collection of imaginative and critical writing, composed by former slaves and United States Presidents, by immigrants and expatriates, by Harvard professors and unknown spinsters.

To the contrary, the traditional canon is an essential element of this course, and the syllabus includes writers like Mark Twain, William Faulkner, T.S. Eliot, and Ernest Hemingway. The goal is to juxtapose their work with African American writing and actively pursue discussions arising from the similarities, differences, and variations that may present themselves. By placing an added focus on African American writers and issues of race, a specific "lens" is applied to this course. Thus, the parameters for this vision are defined. This can be the most effective way to approach American literature. As a whole, American literature is too massive to magically be "taken in" by a general method of study. The best way to enter into American literature is by applying a series of lenses. Race may be our focus now, but beyond this course, students may approach the works of other ethnic groups.

**British Literature (12th grade)**

Students will read a wide variety of British literature from the Anglo-Saxon invasion through the first half of 20th century. In addition to the assigned text, students will also be responsible for outside independent reading. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Readings in the first semester of the course range from *Beowulf* and *The Canterbury Tales* through works by Sir Thomas Malory, Edmund Spencer, Christopher Marlowe, Sir Walter Scott, John Donne and Andrew Marvell to discuss works from the Anglo-Saxon invasion to the Middle Ages and the 18th Century. Readings in the second semester of the course consist of major works of British Literature from 1789 to the present, including such texts by Blake, Byron, Wordsworth, Keats, Shelly, Tennyson, Browning, Arnold, Carlyle, Hardy, Conrad, Yeats, Woolfe, Joyce and Eliot. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts.

Students will be responsible for learning through tests, quizzes, group and individual presentations, and a variety of writing assignments. The writing will stem directly from the reading and provide students the opportunity to improve expository and persuasive skills. Class writing activities will also include some informal, personal narrative, and creative writing to help clarify ideas and stimulate discussion about the readings. The course focuses on the specific history and development of British literature. Therefore one main objective is for students to learn information about writers, their works, and literary movements.
Throughout the semester, the focus will be on developing one skill in particular: asking questions. In this course, an expectation will be for all students to be actively engaged in the reading and writing process by formulating and sharpening key questions about literary texts. Learning how to become a discriminating reader by posing interesting questions will be a central task per semester. Students are to think of each text as an “open” text. It will be their work to each have an opinion, an idea that matters, and to figure out where we stand in relation to the thoughts and opinions of others.

CA State Standards for 11th & 12th grade

1.0 Word Analysis, Fluency, and Systematic Vocabulary Development

Students apply their knowledge of word origins to determine the meaning of new words encountered in reading materials and use those words accurately.

*Vocabulary and Concept Development*

1.1 Trace the etymology of significant terms used in political science and history.

1.2 Apply knowledge of Greek, Latin, and Anglo-Saxon roots and affixes to draw inferences concerning the meaning of scientific and mathematical terminology.

1.3 Discern the meaning of analogies encountered, analyzing specific comparisons as well as relationships and inferences.

2.0 Reading Comprehension (Focus on Informational Materials)

Students read and understand grade-level-appropriate material. They analyze the organizational patterns, arguments, and positions advanced.

*Structural Features of Informational Materials*

2.1 Analyze both the features and the rhetorical devices of different types of public documents (e.g., policy statements, speeches, debates, platforms) and the way in which authors use those features and devices. *Comprehension and Analysis of Grade-Level-Appropriate Text*

2.2 Analyze the way in which clarity of meaning is affected by the patterns of organization, hierarchical structures, repetition of the main ideas, syntax, and word choice in the text.

2.3 Verify and clarify facts presented in other types of expository texts by using a variety of consumer, workplace, and public documents.

2.4 Make warranted and reasonable assertions about the author’s arguments by using elements of the text to defend and clarify interpretations.

2.5 Analyze an author’s implicit and explicit philosophical assumptions and beliefs about a subject.

*Expository Critique*

2.6 Critique the power, validity, and truthfulness of arguments set forth in public documents; their appeal to both friendly and hostile audiences; and the extent to which the arguments anticipate and address reader concerns and counterclaims (e.g., appeal to reason, to authority, to pathos and emotion).

3.0 Literary Response and Analysis
Students read and respond to historically or culturally significant works of literature that reflect and enhance their studies of history and social science.

**Structural Features of Literature**

3.1 Analyze characteristics of subgenres (e.g., satire, parody, allegory, pastoral) that are used in poetry, prose, plays, novels, short stories, essays, and other basic genres.

**Narrative Analysis of Grade-Level-Appropriate Text**

3.2 Analyze the way in which the theme or meaning of a selection represents a view or comment on life, using textual evidence to support the claim.

3.3 Analyze the ways in which irony, tone, mood, the author’s style, and the “sound” of language achieve specific rhetorical or aesthetic purposes or both.

3.4 Analyze ways in which poets use imagery, personification, figures of speech, and sounds to evoke readers’ emotions.

3.5 Analyze recognized works of American literature representing a variety of genres and traditions: a. Trace the development of American literature from the colonial period forward. b. Contrast the major periods, themes, styles, and trends and describe how works by members of different cultures relate to one another in each period. c. Evaluate the philosophical, political, religious, ethical, and social influences of the historical period that shaped the characters, plots, and settings.

3.6 Analyze the way in which authors through the centuries have used archetypes drawn from myth and tradition in literature, film, political speeches, and religious writings (e.g., how the archetypes of banishment from an ideal world may be used to interpret Shakespeare’s tragedy *Macbeth*).

3.7 Analyze recognized works of world literature from a variety of authors: a. Contrast the major literary forms, techniques, and characteristics of the major literary periods (e.g., Homeric Greece, medieval, romantic, neoclassic, modern). b. Relate literary works and authors to the major themes and issues of their eras. c. Evaluate the philosophical, political, religious, ethical, and social influences of the historical period that shaped the characters, plots, and settings.

**Literary Criticism**

3.8 Analyze the clarity and consistency of political assumptions in a selection of literary works or essays on the topics (e.g. suffrage, women’s role in organized labor).

3.9 Analyze the philosophical arguments presented in literary works to determine whether the authors’ positions have contributed to the quality of each work and the credibility of the characters. (Philosophical approach)

**Advanced Composition**

While continuing to build on the knowledge and skills developed in Freshman Composition and throughout NWCHS’s English courses, Advanced Composition focuses on the relationship between critical reading and writing in an academic context. Students will learn to read sources carefully and critically and to evaluate information and arguments; to represent their reading accurately and fairly through summary, paraphrase, and quotation; and to use sources appropriately in their own writing. They will also learn to use an academic library and
appropriate research tools. These reading, writing, and research skills will be developed in the context of preparing critical analyses and arguments, including a formal research paper.

Students in Advanced Composition complete four to six major assignments including a research paper. Major assignments of the course reflect the following emphasis: Analysis and Response to Argument; Construction and Presentation of Argument; Survey and Annotation of Resources; and Academic Research Essay. The final research paper must reveal genuine research with the assimilation of a number of appropriate sources and meet all standards of writing and research presented in class.

CA State Standards

1.0 Writing Strategies
Students write coherent and focused texts that convey a well-defined perspective and tightly reasoned argument. The writing demonstrates students’ awareness of the audience and purpose and progression through the stages of the writing process.

Organization and Focus
1.1 Demonstrate an understanding of the elements of discourse (e.g., purpose, speaker, audience, form) when completing narrative, expository, persuasive, or descriptive writing assignments.

1.2 Use point of view, characterization, style (e.g., use of irony), and related elements for specific rhetorical and aesthetic purposes.

1.3 Structure ideas and arguments in a sustained, persuasive, and sophisticated way and support them with precise and relevant examples.

1.4 Enhance meaning by employing rhetorical devices, including the extended use of parallelism, repetition, and analogy; the incorporation of visual aids (e.g., graphs, tables, pictures); and the issuance of a call for action.

1.5 Use language in natural, fresh, and vivid ways to establish a specific tone.

Research and Technology
1.6 Develop presentations by using clear research questions and creative and critical research strategies (e.g., field studies, oral histories, interviews, experiments, electronic sources).

1.7 Use systematic strategies to organize and record information (e.g., anecdotal scripting, annotated bibliographies).

1.8 Integrate databases, graphics, and spreadsheets into word-processed documents. Evaluation and Revision

1.9 Revise text to highlight the individual voice, improve sentence variety and style, and enhance subtlety of meaning and tone in ways that are consistent with the purpose, audience, and genre.

2.0 Writing Applications (Genres and Their Characteristics) Students combine the rhetorical strategies of narration, exposition, persuasion, and description to produce texts of at least 1,500 words each.

2.1 Write fictional, autobiographical, or biographical narratives: a. Narrate a sequence of events and communicate their significance to the audience. b. Locate scenes and incidents in specific
places. c. Describe with concrete sensory details the sights, sounds, and smells of a scene and the specific actions, movements, gestures, and feelings of the characters; use interior monologue to depict the characters’ feelings. d. Pace the presentation of actions to accommodate temporal, spatial, and dramatic mood changes. e. Make effective use of descriptions of appearance, images, shifting perspectives, and sensory details.

2.2 Write responses to literature: a. Demonstrate a comprehensive understanding of the significant ideas in works or passages. b. Analyze the use of imagery, language, universal themes, and unique aspects of the text. c. Support important ideas and viewpoints through accurate and detailed references to the text and to other works. d. Demonstrate an understanding of the author’s use of stylistic devices and an appreciation of the effects created. e. Identify and assess the impact of perceived ambiguities, nuances, and complexities within the text.

2.3 Write reflective compositions: a. Explore the significance of personal experiences, events, conditions, or concerns by using rhetorical strategies (e.g., narration, description, exposition, persuasion). b. Draw comparisons between specific incidents and broader themes that illustrate the writer’s important beliefs or generalizations about life. c. Maintain a balance in describing individual incidents and relate those incidents to more general and abstract ideas.

2.4 Write historical investigation reports: a. Use exposition, narration, description, argumentation, or some combination of rhetorical strategies to support the main proposition. b. Analyze several historical records of a single event, examining critical relationships between elements of the research topic. c. Explain the perceived reason or reasons for the similarities and differences in historical records with information derived from primary and secondary sources to support or enhance the presentation. d. Include information from all relevant perspectives and take into consideration the validity and reliability of sources. e. Include a formal bibliography.

2.5 Write job applications and résumés: a. Provide clear and purposeful information and address the intended audience appropriately. b. Use varied levels, patterns, and types of language to achieve intended effects and aid comprehension. c. Modify the tone to fit the purpose and audience. d. Follow the conventional style for that type of document (e.g., résumé, memorandum) and use page formats, fonts, and spacing that contribute to the readability and impact of the document.

2.6 Deliver multimedia presentations: a. Combine text, images, and sound and draw information from many sources (e.g., television broadcasts, videos, films, newspapers, magazines, CD-ROMs, the Internet, electronic media-generated images). b. Select an appropriate medium for each element of the presentation. c. Use the selected media skillfully, editing appropriately and monitoring for quality. d. Test the audience’s response and revise the presentation accordingly.
History - Social Sciences

World History (10th grade)

By the end of the course, students will have a solid foundation of the problems and success of the 20th century and how they affect life today in the 21st century. Throughout the year students will develop critical questioning and thinking skills to objectively study history using a variety of primary and secondary sources. Students will participate and learn through structured class simulations, college level class discussions, multimedia presentations (including the internet, documentary and feature films, broadcast news including television and radio, and a host of others), individual and group projects, formal research essays, and field trips.

In World History students will first review the principles and the ideas of democracy and citizen participation from its early beginnings in Greece (Plato’s Republic and Aristotle’s Politics) and analyze how they influenced revolutions thousands of years later in England (Glorious Revolution), the United States (American Revolution), Latin America (Simon Bolivar’s campaigns) and in France (French Revolution). As these countries came into their own they began stretching their influences into countries around the world.

Students will examine the role the industrial revolution and capitalism played in the era of New Imperialism with European and American expansions in Latin America, Asia (including China, Southeast Asia, and the Philippines), and Africa. Students will begin to connect the successes and failures of these endeavors to future partnerships and conflicts around the globe.

Students will understand the causes and lasting political and social effects of the two World Wars including the beginning of the Cold War and the division of the world into Communist and Capitalist spheres of influences. Students should understand these two divisions and how they led to further problems in the world like the Korean War, Cuban Missile Crisis, and the Vietnam War.

By the end of the year, students will have a solid foundation of the problems and success of the 20th century and how they affect life today in the 21st century. Throughout the year students will have developed critical questioning and thinking skills so they can objectively study history using a variety of primary and secondary sources.

CA State Standards

10.1 Students relate the moral and ethical principles in ancient Greek and Roman philosophy, in Judaism, and in Christianity to the development of Western political thought.

1. Analyze the similarities and differences in Judeo-Christian and Greco-Roman views of law, reason and faith, and duties of the individual.

2. Trace the development of the Western political ideas of the rule of law and illegitimacy of tyranny, using selections from Plato’s Republic and Aristotle’s Politics.

3. Consider the influence of the U.S. Constitution on political systems in the contemporary world.

10.2 Students compare and contrast the Glorious Revolution of England, the American Revolution, and the French Revolution and their enduring effects worldwide on
the political expectations for self-government and individual liberty.

1. Compare the major ideas of philosophers and their effects on the democratic revolutions in England, the United States, France, and Latin America (e.g., John Locke Charles-Louis Montesquieu, Jean-Jacques Rousseau, Simón Bolivar, Thomas Jefferson, James Madison).

2. List the principles of the Magna Carta, the English Bill of Rights (1689), the American Declaration of Independence (1776), the French Declaration of the Rights of Man and the Citizen (1789), and the U.S. Bill of Rights (1791).

3. Understand the unique character of the American Revolution, its spread to other parts of the world, and its continuing significance to other nations.

4. Explain how the ideology of the French Revolution led France to develop from constitutional monarchy to democratic despotism to the Napoleonic empire.

5. Discuss how nationalism spread across Europe with Napoleon but was repressed for a generation under the Congress of Vienna and Concert of Europe until the Revolutions of 1848.

10.3 Students analyze the effects of the Industrial Revolution in England, France, Germany, Japan, and the United States.

1. Analyze why England was the first country to industrialize.

2. Examine how scientific and technological changes and new forms of energy brought about massive social, economic, and cultural change (e.g., the inventions and discoveries of James Watt, Eli Whitney, Henry Bessemer, Louis Pasteur, Thomas Edison).

3. Describe the growth of population, rural to urban migration, and growth of cities associated with the Industrial Revolution.

4. Trace the evolution of work and labor, including the demise of the slave trade and the effects of immigration, mining and manufacturing, division of labor, and the union movement.

5. Understand the connections among natural resources, entrepreneurship, labor, and capital in an industrial economy.

6. Analyze the emergence of capitalism as a dominant economic pattern and the responses to it, including Utopianism, Social Democracy, Socialism, and Communism.

7. Describe the emergence of Romanticism in art and literature (e.g., the poetry of William Blake and William Wordsworth), social criticism (e.g., the novels of Charles Dickens), and the move away from Classicism in Europe.

10.4 Students analyze patterns of global change in the era of New Imperialism in at least two of the following regions or countries: Africa, Southeast Asia, China, India, Latin America, and the Philippines.

1. Describe the rise of industrial economies and their link to imperialism and colonialism (e.g., the role played by national security and strategic advantage; moral issues raised by the search for national hegemony, Social Darwinism, and the missionary impulse; material issues such as land, resources, and technology).

2. Discuss the locations of the colonial rule of such nations as England, France, Germany, Italy, Japan, the Netherlands, Russia, Spain, Portugal, and the United States.

3. Explain imperialism from the perspective of the colonizers and the colonized and the varied immediate and long-term responses by the people under colonial rule.

4. Describe the independence struggles of the colonized regions of the world, including the roles
of leaders, such as Sun Yat-sen in China, and the roles of ideology and religion.

10.5 Students analyze the causes and course of the First World War.

1. Analyze the arguments for entering into war presented by leaders from all sides of the Great War and the role of political and economic rivalries, ethnic and ideological conflicts, domestic discontent and disorder, and propaganda and nationalism in mobilizing the civilian population in support of “total war.”
2. Examine the principal theaters of battle, major turning points, and the importance of geographic factors in military decisions and outcomes (e.g., topography, waterways, distance, climate).
3. Explain how the Russian Revolution and the entry of the United States affected the course and outcome of the war.
4. Understand the nature of the war and its human costs (military and civilian) on all sides of the conflict, including how colonial peoples contributed to the war effort.
5. Discuss human rights violations and genocide, including the Ottoman government’s actions against Armenian citizens.

10.6 Students analyze the effects of the First World War.

1. Analyze the aims and negotiating roles of world leaders, the terms and influence of the Treaty of Versailles and Woodrow Wilson’s Fourteen Points, and the causes and effects of the United States’s rejection of the League of Nations on world politics.
2. Describe the effects of the war and resulting peace treaties on population movement, the international economy, and shifts in the geographic and political borders of Europe and the Middle East.
3. Understand the widespread disillusionment with prewar institutions, authorities, and values that resulted in a void that was later filled by totalitarians.
4. Discuss the influence of World War I on literature, art, and intellectual life in the West (e.g., Pablo Picasso, the “lost generation” of Gertrude Stein, Ernest Hemingway).

10.7 Students analyze the rise of totalitarian governments after World War I.

1. Understand the causes and consequences of the Russian Revolution, including Lenin’s use of totalitarian means to seize and maintain control (e.g., the Gulag).
2. Trace Stalin’s rise to power in the Soviet Union and the connection between economic policies, political policies, the absence of a free press, and systematic violations of human rights (e.g., the Terror Famine in Ukraine).
3. Analyze the rise, aggression, and human costs of totalitarian regimes (Fascist and Communist) in Germany, Italy, and the Soviet Union, noting especially their common and dissimilar traits.

10.8 Students analyze the causes and consequences of World War II.

1. Compare the German, Italian, and Japanese drives for empire in the 1930s, including the 1937 Rape of Nanking, other atrocities in China, and the Stalin-Hitler Pact of 1939.
2. Understand the role of appeasement, nonintervention (isolationism), and the domestic distractions in Europe and the United States prior to the outbreak of World War II.
3. Identify and locate the Allied and Axis powers on a map and discuss the major turning points of the war, the principal theaters of conflict, key strategic decisions, and the resulting war conferences and political resolutions, with emphasis on the importance of geographic factors.
4. Describe the political, diplomatic, and military leaders during the war (e.g., Winston Churchill, Franklin Delano Roosevelt, Emperor Hirohito, Adolf Hitler, Benito Mussolini, Joseph Stalin, Douglas MacArthur, Dwight Eisenhower).

5. Analyze the Nazi policy of pursuing racial purity, especially against the European Jews; its transformation into the Final Solution; and the Holocaust that resulted in the murder of six million Jewish civilians.

6. Discuss the human costs of the war, with particular attention to the civilian and military losses in Russia, Germany, Britain, the United States, China, and Japan.

10.9 Students analyze the international developments in the post-World War II world.

1. Compare the economic and military power shifts caused by the war, including the Yalta Pact, the development of nuclear weapons, Soviet control over Eastern European nations, and the economic recoveries of Germany and Japan.

2. Analyze the causes of the Cold War, with the free world on one side and Soviet client states on the other, including competition for influence in such places as Egypt, the Congo, Vietnam, and Chile.

1. Understand the importance of the Truman Doctrine and the Marshall Plan, which established the pattern for America’s postwar policy of supplying economic and military aid to prevent the spread of Communism and the resulting economic and political competition in arenas such as Southeast Asia (i.e., the Korean War, Vietnam War), Cuba, and Africa.

2. Analyze the Chinese Civil War, the rise of Mao Tse-tung, and the subsequent political and economic upheavals in China (e.g., the Great Leap Forward, the Cultural Revolution, and the Tiananmen Square uprising).

3. Describe the uprisings in Poland (1956), Hungary (1956), and Czechoslovakia (1968) and those countries’ resurgence in the 1970s and 1980s as people in Soviet satellites sought freedom from Soviet control.

4. Understand how the forces of nationalism developed in the Middle East, how the Holocaust affected world opinion regarding the need for a Jewish state, and the significance and effects of the location and establishment of Israel on world affairs.

5. Analyze the reasons for the collapse of the Soviet Union, including the weakness of the command economy, burdens of military commitments, and growing resistance to Soviet rule by dissidents in satellite states and the non-Russian Soviet republics.

10.10 Students analyze instances of nation-building in the contemporary world in at least two of the following regions or countries: the Middle East, Africa, Mexico and other parts of Latin America, and China.

1. Understand the challenges in the regions, including their geopolitical, cultural, military, and economic significance and the international relationships in which they are involved.

2. Describe the recent history of the regions, including political divisions and systems, key leaders, religious issues, natural features, resources, and population patterns.

3. Discuss the important trends in the regions today and whether they appear to serve the cause of individual freedom and democracy.
10.11 Students analyze the integration of countries into the world economy and the information, technological, and communications revolutions (e.g., television, satellites, computers).

**US History (11th grade)**

By the end of US History, students will have a solid foundation of the economic, social, political, and military history of the United States with an emphasis on the huge turning points between the 1920s through the 1980s. Students will build upon their global knowledge learned in 10th grade analyzing where the United States fits in the global picture over this period of time and the steps the country took to become a global super power. Students will participate and learn through structured class simulations, college level class discussions, multimedia presentations (including the internet, documentary and feature films, broadcast news including television and radio, and a host of others), individual and group projects, formal research essays, and field trips.

The class will begin with a comprehensive review of the founding principals and examine how the US succeeded or failed in implementing the ideals found in the countries founding documents (The Declaration of Independence and The Constitution). Time will be taken to examine the effects of the Civil War and the industrial revolution putting the United States on track to become the most dominant country in the world.

Students will study the migration of people from rural to urban cities and the problems associated with workplace safety, issues surrounding immigration and treatment of immigrants in large cities. They will study the lives of those living through the Roaring 20’s focusing on literature and music, major domestic and international developments including Prohibition and the rise of organized crime, and the birth of the movie industry diffusing popular culture to the rest of the world. Unfortunately, students will learn the downside of such explosive growth and lax regulations examining the causes and impacts of the Great Depression. Students will examine the effects and controversies surrounding Roosevelt’s New Deal including the increase of the federal government.

Students will explore the main causes, course, and ultimate lasting effects of World War Two focusing on FDR’s foreign policy, the average American soldier and contributions of different military groups (Navajo Code Talkers, Tuskegee Airmen et al). At the conclusion of the war, students will examine the attempts to rebuild Europe and begin to focus on the conflict between capitalist and communist countries focusing on US foreign policy since WWII and major Cold War events.

Lastly, students will examine the major steps taken to gain equal civil and voting rights in the US from the 1940s through the Civil Rights era in the 1960s but also looking at the feminist movements of the 60’s and 70’s.

**CA State Standards**

11.1 Students analyze the significant events in the founding of the nation and its attempts to realize the philosophy of government described in the Declaration of Independence.

1. Describe the Enlightenment and the rise of democratic ideas as the context in which the nation was founded.

2. Analyze the ideological origins of the American Revolution, the Founding Fathers’ philosophy of divinely bestowed unalienable natural rights, the debates on the drafting and ratification of the Constitution, and the addition of the Bill of Rights.

3. Understand the history of the Constitution after 1787 with emphasis on federal versus state
authority and growing democratization.

4. Examine the effects of the Civil War and Reconstruction and of the industrial revolution, including demographic shifts and the emergence in the late nineteenth century of the United States as a world power.

11.2 Students analyze the relationship among the rise of industrialization, large-scale rural-to-urban migration, and massive immigration from Southern and Eastern Europe.

1. Know the effects of industrialization on living and working conditions, including the portrayal of working conditions and food safety in Upton Sinclair’s *The Jungle*.
2. Describe the changing landscape, including the growth of cities linked by industry and trade, and the development of cities divided according to race, ethnicity, and class.
3. Trace the effect of the Americanization movement.
4. Analyze the effect of urban political machines and responses to them by immigrants and middle-class reformers.
5. Discuss corporate mergers that produced trusts and cartels and the economic and political policies of industrial leaders.
6. Trace the economic development of the United States and its emergence as a major industrial power, including its gains from trade and the advantages of its physical geography.
7. Analyze the similarities and differences between the ideologies of Social Darwinism and Social Gospel (e.g., using biographies of William Graham Sumner, Billy Sunday, Dwight L. Moody).
8. Examine the effect of political programs and activities of Populists.
9. Understand the effect of political programs and activities of the Progressives (e.g., federal regulation of railroad transport, Children’s Bureau, the Sixteenth Amendment, Theodore Roosevelt, Hiram Johnson).

11.3 Students analyze the role religion played in the founding of America, its lasting moral, social, and political impacts, and issues regarding religious liberty.

1. Describe the contributions of various religious groups to American civic principles and social reform movements (e.g., civil and human rights, individual responsibility and the work ethic, antimonarchy and self-rule, worker protection, family-centered communities).
2. Analyze the great religious revivals and the leaders involved in them, including the First Great Awakening, the Second Great Awakening, the Civil War revivals, the Social Gospel Movement, the rise of Christian liberal theology in the nineteenth century, the impact of the Second Vatican Council, and the rise of Christian fundamentalism in current times.
3. Cite incidences of religious intolerance in the United States (e.g., persecution of Mormons, anti-Catholic sentiment, anti-Semitism).
4. Discuss the expanding religious pluralism in the United States and California that resulted from large-scale immigration in the twentieth century.
5. Describe the principles of religious liberty found in the Establishment and Free Exercise clauses of the First Amendment, including the debate on the issue of separation of church and state.
11.4 Students trace the rise of the United States to its role as a world power in the twentieth century.

1. List the purpose and the effects of the Open Door policy.
3. Discuss America’s role in the Panama Revolution and the building of the Panama Canal.
5. Analyze the political, economic, and social ramifications of World War I on the home front.
6. Trace the declining role of Great Britain and the expanding role of the United States in world affairs after World War II.

11.5 Students analyze the major political, social, economic, technological, and

1. Discuss the policies of Presidents Warren Harding, Calvin Coolidge, and Herbert Hoover.
2. Analyze the international and domestic events, interests, and philosophies that prompted attacks on civil liberties, including the Palmer Raids, Marcus Garvey’s “back-to-Africa” movement, the Ku Klux Klan, and immigration quotas and the responses of organizations such as the American Civil Liberties Union, the National Association for the Advancement of Colored People, and the Anti-Defamation League to those attacks.
3. Examine the passage of the Eighteenth Amendment to the Constitution and the Volstead Act (Prohibition).
4. Analyze the passage of the Nineteenth Amendment and the changing role of women in society.
5. Describe the Harlem Renaissance and new trends in literature, music, and art, with special attention to the work of writers (e.g., Zora Neale Hurston, Langston Hughes).
6. Trace the growth and effects of radio and movies and their role in the worldwide diffusion of popular culture.
7.
8. Discuss the rise of mass production techniques, the growth of cities, the impact of new technologies (e.g., the automobile, electricity), and the resulting prosperity and effect on the American landscape.

11.6 Students analyze the different explanations for the Great Depression and how the New Deal fundamentally changed the role of the federal government.

1. Describe the monetary issues of the late nineteenth and early twentieth centuries that gave rise to the establishment of the Federal Reserve and the weaknesses in key sectors of the economy in the late 1920s.
2. Understand the explanations of the principal causes of the Great Depression and the steps taken by the Federal Reserve, Congress, and Presidents Herbert Hoover and Franklin Delano Roosevelt to combat the economic crisis.
3. Discuss the human toll of the Depression, natural disasters, and unwise agricultural practices and their effects on the depopulation of rural regions and on political movements of the left and right, with particular attention to the Dust Bowl refugees and their social and economic impacts in California.
4. Analyze the effects of and the controversies arising from New Deal economic policies and the expanded role of the federal government in society and the economy since the 1930s (e.g., Works Progress Administration, Social Security, National Labor Relations Board, farm
programs, regional development policies, and energy development projects such as the Tennessee Valley Authority, California Central Valley Project, and Bonneville Dam).

5. Trace the advances and retreats of organized labor, from the creation of the American Federation of Labor and the Congress of Industrial Organizations to current issues of a postindustrial, multinational economy, including the United Farm Workers in California.

11.7 Students analyze America’s participation in World War II.

1. Examine the origins of American involvement in the war, with an emphasis on the events that precipitated the attack on Pearl Harbor.
2. Explain U.S. and Allied wartime strategy, including the major battles of Midway, Normandy, Iwo Jima, Okinawa, and the Battle of the Bulge.
3. Identify the roles and sacrifices of individual American soldiers, as well as the unique contributions of the special fighting forces (e.g., the Tuskegee Airmen, the 442nd Regimental Combat team, the Navajo Code Talkers).
4. Analyze Roosevelt’s foreign policy during World War II (e.g., Four Freedoms speech).
5. Discuss the constitutional issues and impact of events on the U.S. home front, including the internment of Japanese Americans (e.g., Fred Korematsu v. United States of America) and the restrictions on German and Italian resident aliens; the response of the administration to Hitler’s atrocities against Jews and other groups; the roles of women in military production; and the roles and growing political demands of African Americans.
6. Describe major developments in aviation, weaponry, communication, and medicine and the war’s impact on the location of American industry and use of resources.
7. Discuss the decision to drop atomic bombs and the consequences of the decision (Hiroshima and Nagasaki).
8. Analyze the effect of massive aid given to Western Europe under the Marshall Plan to rebuild itself after the war and the importance of a rebuilt Europe to the U.S. economy.

11.8 Students analyze the economic boom and social transformation of post World-War II America.

1. Trace the growth of service sector, white collar, and professional sector jobs in business and government.
2. Describe the significance of Mexican immigration and its relationship to the agricultural economy, especially in California.
3. Examine Truman’s labor policy and congressional reaction to it.
4. Analyze new federal government spending on defense, welfare, interest on the national debt, and federal and state spending on education, including the California Master Plan.
5. Describe the increased powers of the presidency in response to the Great Depression, World War II, and the Cold War.
6. Discuss the diverse environmental regions of North America, their relationship to local economies, and the origins and prospects of environmental problems in those regions.
7. Describe the effects on society and the economy of technological developments since 1945, including the computer revolution, changes in communication, advances in medicine, and improvements in agricultural technology.
8. Discuss forms of popular culture, with emphasis on their origins and geographic diffusion (e.g., jazz and other forms of popular music, professional sports, architectural and artistic styles).
11.9 Students analyze U.S. foreign policy since World War II.

1. Discuss the establishment of the United Nations and International Declaration of Human Rights, International Monetary Fund, World Bank, and General Agreement on Tariffs and Trade (GATT) and their importance in shaping modern Europe and maintaining peace and international order.
2. Understand the role of military alliances, including NATO and SEATO, in deterring communist aggression and maintaining security during the Cold War.
3. Trace the origins and geopolitical consequences (foreign and domestic) of the Cold War and containment policy, including the following:
   - The era of McCarthyism, instances of domestic Communism (e.g., Alger Hiss) and blacklisting
   - The Truman Doctrine
   - The Berlin Blockade
   - The Korean War
   - The Bay of Pigs invasion and the Cuban Missile Crisis
   - Atomic testing in the American West, the “mutual assured destruction” doctrine, and disarmament policies
   - The Vietnam War
   - Latin American policy
4. List the effects of foreign policy on domestic policies and vice versa (e.g., protests during the war in Vietnam, the “nuclear freeze” movement).
5. Analyze the role of the Reagan administration and other factors in the victory of the West in the Cold War.
6. Describe U.S. Middle East policy and its strategic, political, and economic interests, including those related to the Gulf War.
7. Examine relations between the United States and Mexico in the twentieth century, including key economic, political, immigration, and environmental issues.

11.10 Students analyze the development of federal civil rights and voting rights.

1. Explain how demands of African Americans helped produce a stimulus for civil rights, including President Roosevelt’s ban on racial discrimination in defense industries in 1941, and how African Americans’ service in World War II produced a stimulus for President Truman’s decision to end segregation in the armed forces in 1948.
3. Describe the collaboration on legal strategy between African American and white women into the labor force and the changing family structure.
4. Explain the constitutional crisis originating from the Watergate scandal.
5. Trace the impact of, need for, and controversies associated with environmental conservation, expansion of the national park system, and the development of environmental protection laws, with particular attention to the interaction between environmental protection advocates and property rights advocates.
6. Analyze the persistence of poverty and how different analyses of this issue influence welfare reform, health insurance reform, and other social policies.
7. Explain how the federal, state, and local governments have responded to demographic and social changes such as population shifts to the suburbs, racial concentrations in the cities, Frostbelt-to-Sunbelt migration, international migration, decline of family farms, increases in out-of-wedlock births, and drug abuse.

**American Government (12th Grade)**

Students in grade twelve pursue a deeper understanding of the institutions of American government. They will participate and learn through structured class simulations, college level class discussions, multimedia presentations (including the internet, documentary and feature films, broadcast news including television and radio, and a host of others), individual and group projects, formal research essays, and field trips to sites that reinforce or connect topics from class to the real world. They will begin the year reviewing the fundamental philosophies and origins of modern American political thought. They will study such great thinkers as Locke, Montesquieu, Machiavelli, and William Blackstone and their contributions to the developments of American government. Students will be able to explain how the US Constitution reflects a balance between protecting individual rights, separating powers in the governments, and granting citizens different ways to participate in political life.

Students will also analyze the roles, responsibilities, and leaders of the three branches of the federal, state, tribal, and local government, how leaders are selected and how they can be removed. Students will also spend time learning about and be able to summarize some landmark Supreme Court cases and how they affected individual rights in the U.S.

Throughout the year students will look at, read, and listen to a variety of media sources to understand the role and responsibility of a free press and their significance in elections, campaigns, and interest groups.

Finally, students will compare the U.S. system of government to different governmental bodies that exist in the world including communism, parliamentary democracy, dictatorships and the problems and successes associated with them.

**Economics (12th grade)**

In addition to studying government in grade twelve, students will also master fundamental economic concepts (supply and demand, incentives, etc.) and terms and understand the concept, benefits and drawbacks of a free market economy. Students will learn how to use the tools (graphs, statistics, equations) from other subject areas to understanding of operations and institutions of economic systems (including real and nominal data) and analyze different economic behaviors and how they interact with the economy.

Student will also study in a historic context are the basic economic principles of micro and macroeconomics, international economics, comparative economic systems, measurement, and methods. They will analyze the U.S. labor market noting the current economy and labor statistics, differences in pay among professions and how the U.S. interacts with economies around the world.

**CA State Standards**

12.1 Students explain the fundamental principles and moral values of American democracy as expressed in the U.S. Constitution and other essential documents of American democracy.
1. Analyze the influence of ancient Greek, Roman, English, and leading European political thinkers such as John Locke, Charles-Louis Montesquieu, Niccolò Machiavelli, and William Blackstone on the development of American government.

2. Discuss the character of American democracy and its promise and perils as articulated by Alexis de Tocqueville.

3. Explain how the U.S. Constitution reflects a balance between the classical republican concern with promotion of the public good and the classical liberal concern with protecting individual rights; and discuss how the basic premises of liberal constitutionalism and democracy are joined in the Declaration of Independence as “self-evident truths.”

4. Explain how the Founding Fathers’ realistic view of human nature led directly to the establishment of a constitutional system that limited the power of the governors and the governed as articulated in the Federalist Papers.

5. Describe the systems of separated and shared powers, the role of organized interests (Federalist Paper Number 10), checks and balances (Federalist Paper Number 51), the importance of an independent judiciary (Federalist Paper Number 78), enumerated powers, rule of law, federalism, and civilian control of the military.

6. Understand that the Bill of Rights limits the powers of the federal government and state governments.

12.2 Students evaluate and take and defend positions on the scope and limits of rights and obligations as democratic citizens, the relationships among them, and how they are secured.

1. Discuss the meaning and importance of each of the rights guaranteed under the Bill of Rights and how each is secured (e.g., freedom of religion, speech, press, assembly, petition, privacy).

2. Explain how economic rights are secured and their importance to the individual and to society (e.g., the right to acquire, use, transfer, and dispose of property; right to choose one’s work; right to join or not join labor unions; copyright and patent).

3. Discuss the individual’s legal obligations to obey the law, serve as a juror, and pay taxes.

4. Understand the obligations of civic-mindedness, including voting, being informed on civic issues, volunteering and performing public service, and serving in the military or alternative service.

5. Describe the reciprocity between rights and obligations; that is, why enjoyment of one’s rights entails respect for the rights of others.

6. Explain how one becomes a citizen of the United States, including the process of naturalization (e.g., literacy, language, and other requirements).

12.3 Students evaluate and take and defend positions on what the fundamental values and principles of civil society are (i.e., the autonomous sphere of voluntary personal, social, and economic relations that are not part of government), their interdependence, and the meaning and importance of those values and principles for a free society.

1. Explain how civil society provides opportunities for individuals to associate for social, cultural, religious, economic, and political purposes.

2. Explain how civil society makes it possible for people, individually or in association with
others, to bring their influence to bear on government in ways other than voting and elections.

3. Discuss the historical role of religion and religious diversity.
4. Compare the relationship of government and civil society in constitutional democracies to the relationship of government and civil society in authoritarian and totalitarian regimes.

12.4 Students analyze the unique roles and responsibilities of the three branches of government as established by the U.S. Constitution.
1. Discuss Article I of the Constitution as it relates to the legislative branch, including eligibility for office and lengths of terms of representatives and senators; election to office; the roles of the House and Senate in impeachment proceedings; the role of the vice president; the enumerated legislative powers; and the process by which a bill becomes a law.
2. Explain the process through which the Constitution can be amended.
3. Identify their current representatives in the legislative branch of the national government.
4. Discuss Article II of the Constitution as it relates to the executive branch, including eligibility for office and length of term, election to and removal from office, the oath of office, and the enumerated executive powers.
5. Discuss Article III of the Constitution as it relates to judicial power, including the length of terms of judges and the jurisdiction of the Supreme Court.
6. Explain the processes of selection and confirmation of Supreme Court justices.

12.5 Students summarize landmark U.S. Supreme Court interpretations of the Constitution and its amendments.
1. Understand the changing interpretations of the Bill of Rights over time, including interpretations of the basic freedoms (religion, speech, press, petition, and assembly) articulated in the First Amendment and the due process and equal-protection-of-the-law clauses of the Fourteenth Amendment.
2. Analyze judicial activism and judicial restraint and the effects of each policy over the decades (e.g., the Warren and Rehnquist courts).
3. Evaluate the effects of the Court’s interpretations of the Constitution in Marbury v. Madison, McCulloch v. Maryland, and United States v. Nixon, with emphasis on the arguments espoused by each side in these cases.

12.6 Students evaluate issues regarding campaigns for national, state, and local elective offices.
1. Analyze the origin, development, and role of political parties, noting those occasional periods in which there was only one major party or were more than two major parties.
2. Discuss the history of the nomination process for presidential candidates and the increasing importance of primaries in general elections.
3. Evaluate the roles of polls, campaign advertising, and the controversies over campaign funding.
4. Describe the means that citizens use to participate in the political process (e.g., voting, campaigning, lobbying, filing a legal challenge, demonstrating, petitioning, picketing, running for political office).

5. Discuss the features of direct democracy in numerous states (e.g., the process of referendums, recall elections).

6. Analyze trends in voter turnout; the causes and effects of reapportionment and redistricting, with special attention to spatial districting and the rights of minorities; and the function of the Electoral College.

12.7 Students analyze and compare the powers and procedures of the national, state, tribal, and local governments.

1. Explain how conflicts between levels of government and branches of government are resolved.
2. Identify the major responsibilities and sources of revenue for state and local governments.
3. Discuss reserved powers and concurrent powers of state governments.
4. Discuss the Ninth and Tenth Amendments and interpretations of the extent of the federal government’s power.
5. Explain how public policy is formed, including the setting of the public agenda and implementation of it through regulations and executive orders.
6. Compare the processes of lawmaking at each of the three levels of government, including the role of lobbying and the media.
7. Identify the organization and jurisdiction of federal, state, and local (e.g., California) courts and the interrelationships among them.
8. Understand the scope of presidential power and decision making through examination of case studies such as the Cuban Missile Crisis, passage of Great Society legislation, War Powers Act, Gulf War, and Bosnia.

12.8 Students evaluate and take and defend positions on the influence of the media on American political life.

1. Discuss the meaning and importance of a free and responsible press.
2. Describe the roles of broadcast, print, and electronic media, including the Internet, as means of communication in American politics.
3. Explain how public officials use the media to communicate with the citizenry and to shape public opinion.

12.9 Students analyze the origins, characteristics, and development of different political systems across time, with emphasis on the quest for political democracy, its advances, and its obstacles.

1. Explain how the different philosophies and structures of feudalism, mercantilism, socialism, fascism, communism, monarchies, parliamentary systems, and constitutional liberal democracies influence economic policies, social welfare policies, and human rights practices.
2. Compare the various ways in which power is distributed, shared, and limited in systems of shared powers and in parliamentary systems, including the influence and role of parliamentary leaders (e.g., William Gladstone, Margaret Thatcher).
3. Discuss the advantages and disadvantages of federal, confederal, and unitary systems of
4. Describe for at least two countries the consequences of conditions that gave rise to tyrannies during certain periods (e.g., Italy, Japan, Haiti, Nigeria, Cambodia).
5. Identify the forms of illegitimate power that twentieth-century African, Asian, and Latin American dictators used to gain and hold office and the conditions and interests that supported them.
6. Identify the ideologies, causes, stages, and outcomes of major Mexican, Central American, and South American revolutions in the nineteenth and twentieth centuries.
7. Describe the ideologies that give rise to Communism, methods of maintaining control, and the movements to overthrow such governments in Czechoslovakia, Hungary, and Poland, including the roles of individuals (e.g., Alexander Solzhenitsyn, Pope John Paul II, Lech Walesa, Vaclav Havel).
8. Identify the successes of relatively new democracies in Africa, Asia, and Latin America and the ideas, leaders, and general societal conditions that have launched and sustained, or failed to sustain, them.

12.10 Students formulate questions about and defend their analyses of tensions within our constitutional democracy and the importance of maintaining a balance between the following concepts: majority rule and individual rights; liberty and equality; state and national authority in a federal system; civil disobedience and the rule of law; freedom of the press and the right to a fair trial; the relationship of religion and government.

Principles of Economics

12.1 Students understand common economic terms and concepts and economic reasoning.
1. Examine the causal relationship between scarcity and the need for choices.
2. Explain opportunity cost and marginal benefit and marginal cost.
3. Identify the difference between monetary and nonmonetary incentives and how changes in incentives cause changes in behavior.
4. Evaluate the role of private property as an incentive in conserving and improving scarce resources, including renewable and nonrenewable natural resources.
5. Analyze the role of a market economy in establishing and preserving political and personal liberty (e.g., through the works of Adam Smith).

12.2 Students analyze the elements of America’s market economy in a global setting.
1. Understand the relationship of the concept of incentives to the law of supply and the relationship of the concept of incentives and substitutes to the law of demand.
2. Discuss the effects of changes in supply and/or demand on the relative scarcity, price, and quantity of particular products.
3. Explain the roles of property rights, competition, and profit in a market economy.
4. Explain how prices reflect the relative scarcity of goods and services and perform the allocative function in a market economy.
5. Understand the process by which competition among buyers and sellers determines a market price.
6. Describe the effect of price controls on buyers and sellers.
7. Analyze how domestic and international competition in a market economy affects goods and
services produced and the quality, quantity, and price of those products.
8. Explain the role of profit as the incentive to entrepreneurs in a market economy.
9. Describe the functions of the financial markets.
10. Discuss the economic principles that guide the location of agricultural production and industry and the spatial distribution of transportation and retail facilities.

12.3 Students analyze the influence of the federal government on the American economy.
1. Understand how the role of government in a market economy often includes providing for national defense, addressing environmental concerns, defining and enforcing property rights, attempting to make markets more competitive, and protecting consumers’ rights.
2. Identify the factors that may cause the costs of government actions to outweigh the benefits.
3. Describe the aims of government fiscal policies (taxation, borrowing, spending) and their influence on production, employment, and price levels.
4. Understand the aims and tools of monetary policy and their influence on economic activity (e.g., the Federal Reserve).

12.4 Students analyze the elements of the U.S. labor market in a global setting.
1. Understand the operations of the labor market, including the circumstances surrounding the establishment of principal American labor unions, procedures that unions use to gain benefits for their members, the effects of unionization, the minimum wage, and unemployment insurance.
2. Describe the current economy and labor market, including the types of goods and services produced, the types of skills workers need, the effects of rapid technological change, and the impact of international competition.
3. Discuss wage differences among jobs and professions, using the laws of demand and supply and the concept of productivity.
4. Explain the effects of international mobility of capital and labor on the U.S. economy.

12.5 Students analyze the aggregate economic behavior of the U.S. economy.
1. Distinguish between nominal and real data.
2. Define, calculate, and explain the significance of an unemployment rate, the number of new jobs created monthly, an inflation or deflation rate, and a rate of economic growth.
3. Distinguish between short-term and long-term interest rates and explain their relative significance.

12.6 Students analyze issues of international trade and explain how the US economy affects and is affected by economic forces beyond the United States’s borders.
1. Identify the gains in consumption and production efficiency from trade, with emphasis on the main products and changing geographic patterns of twentieth-century trade among countries in the Western Hemisphere.
2. Compare the reasons for and the effects of trade restrictions during the Great Depression compared with present-day arguments among labor, business, and political leaders over the effects of free trade on the economic and social interests of various groups of Americans.
3. Understand the changing role of international political borders and territorial sovereignty in a global economy.
4. Explain foreign exchange, the manner in which exchange rates are determined, and the effects
of the dollar’s gaining (or losing) value relative to other currencies.

A taste of Elective courses at New West Charter High School

**Journalism**

Students will generate a monthly newsletter or newspaper available in print and/or online. Journalism students have a responsibility to the school community to act in an ethical manner; this involves following a code of conduct. Journalism students will seek truth and report it, act independently while working cooperatively, and be accountable. The following are the big ideas journalism students will focus on: integrity, ethics, responsibility, value systems, storytelling, and truth. Students will learn and carry out the idea that it is necessary for one to practice ethical behavior. Students will analyze and evaluate the essential features of journalistic writing in a variety of news sources for: brevity and clarity, content, topics or themes appropriate for the audience, credible and multiple information sources, effective use of language, rhetorical strategies (language that focuses a message, such as persuasive words, logical consistency, humor, satire, or other intent signals), and structural elements and organization. Students will discuss ideas for writing with others. They will write coherent and focused stories that demonstrate well-researched information, appropriate journalistic structure and style, and a tightly reasoned flow of ideas. Students will progress through stages of journalistic writing processes. Students will be responsible for writing news stories, feature stories and columns, in-depth issue features, reviews, editorials, or opinions and commentaries effectively and accurately in print and media. Students will demonstrate an understanding of the research, organizational, and drafting strategies in journalistic writing processes. Students’ writing will demonstrate a command of Standard English and the use of media formats that follow specific style guidelines for consistency.

**Psychology**

By the end of this class, students will have a solid foundation on the inner working of the human mind and the human experience. Students will begin to question why they are the way they are looking at specific brain and developmental functions. New West Charter Middle School will abide by and follow as closely as possible the American Psychological Associated National Standards for High Schools. Students will participate and learn through structured class simulations, college level class discussions, multimedia presentations (including the internet, documentary and feature films) professional and medical journals, individual and group projects, and conduct their own formal research and write reports.

Students will examine the Contemporary perspectives used by psychologists to understand behavior and mental processes. They will learn a variety of research strategies used by psychologists to explore behavior and mental processes and will propose their own research learning the purpose and basic concepts of statistics substantiate their claims.

Students will explore the capabilities of the brain focusing on the structure and function of the neuron and the organization and structure of the nervous system and endocrine system. They will analyze how heredity interacts with the environment to influence behavior and how psychological mechanisms are influenced by evolution. Students will begin to understand how they developed looking at different theories of development (nature/nurture, continuity, discontinuity, stability/instability, and critical periods in one’s life).

Students will examine a number of case studies on the nature and characteristics of learning and the different principles of conditioning (classical, operant) and components of cognitive learning (including the roles biology and culture play in determining the learning process). Students will
also spend time exploring characteristics and origins and categories of abnormal behavior and the methods used in exploring abnormal behavior and the impacts mental disorders has on the human and society.

World Religions
Students will participate and learn through structured class simulations, college level class discussions, multimedia presentations (including the internet, documentary and feature films, broadcast and radio news), and individual and group projects. In this class, students will build upon their different historical studies since middle school to study and examine in depth Hinduism, Judaism, Christianity, Islam, and Buddhism focusing on their beliefs, customs, practices, and settlements in the modern era.

Students will begin to explore many of the “hot spots” and problems associated with religion with a focus on the Middle East’s conflict between Arab Muslim and the western world (looking at the current wars and the recent uprising in Muslim countries. Students will also learn about the problems, past failures, and violence used to solve the Palestinian and Jewish state question, the rise of jihadist extremists in the modern world with a focus on modern terrorism in the name of religion and the problems found in different Hindu societies such as the status and treatment of women, child marriages and the dowry system, crushing poverty, and the practice polygamy in the modern world.

AVID (Advancement Via Individual Determination)
AVID is an academic elective class (grades 9-12) that is part of the regular school day. The AVID mission is to close the achievement gap by preparing all students for college readiness and success in a global society. All students are enrolled in rigorous college prep curriculum (A-G courses). A framework of support structures are in place that enables students to become competitive in the college application process. Students participate in classroom tutorials with AVID trained tutors. The AVID course curriculum is based on Writing, Inquiry, Collaboration and Reading (WICR). AVID student selection criteria includes one or more of the following: Students with GPA's between 2.0 and 3.5 the year before they are selected for an AVID program; Students who sustain scores average and above; Students who may be the first in their family to go to college; Students who qualify for free/reduced lunch; Students who are traditionally underserved in four-year colleges.

For one period a day, students learn organizational and study skills, work on critical thinking and asking probing questions, get academic help from peers and college tutors, and participate in enrichment and motivational activities that make college seem attainable. Students’ self-images improve, and they become academically successful leaders and role models for other students.

COURSE OBJECTIVE: The AVID program is aimed at directing students to a college-bound path. This will be done by holding tutorials (weekly tutoring), teaching organizational skills, and developing the learning process with critical thinking skills. Students will be visiting colleges, and doing community service and team building exercises to help students set future goals that they can achieve.

TUTORIALS: Once or twice a week the students will be expected to bring specific questions from their other classes and work together in groups to solve them. Ideally, there will also be two or three tutors in addition to the instructor to guide them through the process. Tutors will not be handing out answers, but helping the students find the answers themselves.
LEARNING LOGS: Weekly learning logs are used for students to write key information learned from each core class, in addition to any clarifying questions they may have.

ORGANIZATIONAL SKILLS: Student will be expected to keep a 3 three-ring binder with all the notes and materials from their other classes. They will be taught how to organize the binder and it will be checked periodically. Within the binder they will also be taking Cornell Style notes, which will organize their review material and their learning.

CRITICAL THINKING SKILLS: Regularly, students will be engaged in activities designed to develop the learning process. These activities include writing assignments, Socratic Seminars, group problem solving and in class projects. Students will also be doing goal setting and a plan of how to achieve their goals which will include preparing for ACT's and college scholarship applications.

SERVICE LEARNING: Each student will be required to complete five hours of community service per quarter. These hours will be logged and signed off by a parent or guardian.

STUDENT CONTRACT: Is it also required that each student and parent sign a contract committing to the AVID program. Students that do not maintain the terms of the contract will be placed on probation in the AVID program and parents will be contacted to schedule a conference.

AVID Performance Standards:
Based on the AVID Performance Standards students will 1) develop strategies to identify and fulfill personal and academic goals. 2) Students will develop strategies to ensure academic success in core studies required for entrance to four-year colleges and universities. 3) Students will develop proficiency in “Writing to Learn” across the curriculum. 4) Students will develop college awareness within a schoolwide college-going culture so they have the opportunity to be ready for the application process for a 4 year college or university. 5) Students will be proficient in using “The Writing Process” in core classes in order to write clear, coherent, and focused essays that exhibit awareness of audience and purpose and contain formal introductions, bodies of supporting evidence and conclusions. 6) Students will develop cross-curricular reading skills through using their knowledge of word origins and word relationships as well as historical and literary context clues to determine the meaning of specialized vocabulary. 7) Students are able to evaluate the content of oral communications and deliver focused, coherent presentations that convey a clear interpretation of ideas and unity in relation to purpose and audience. 8) Students become proficient in the mathematical skills and concepts that prepare them for the rigorous courses required for admission to four-year colleges and universities.

Environmental Science
Environmental Science integrates many fields of social and scientific study. Students will build on their understanding of chemistry, physics, biology, political science, geography, and earth science in order to examine the natural and human-made issues that face citizens of the world today and in the future. Students will learn about historical turning points in environmental policy, actions to be taken to reduce negative human impacts on the environment locally and globally, decisions that await developing nations, and traditional and renewable energy resources and consumption.

Students taking this course will perform a wide variety of field research, design and conduct laboratory experiments, complete individual and group research projects, discuss current, historical and future environmental issues, and communicate their opinions, research and data.
**Health**

It is essential that young people leave high school with a concrete understanding of the health-related choices that await them and the importance of establishing healthy habits early in their adult lives. Students taking this course will learn how to establish good diet and nutrition practices, including moderation, reading food labels, and understanding nutritional contents of various foods. They will examine the benefits to good nutritional practices and the possible consequences of poor eating habits. Students will learn about conception, stages of pregnancy, and responsibilities of raising children, as well as contraceptive methods and use in preventing pregnancy and reducing risks of certain sexually transmitted infections. They will learn about and discuss ways to lead a safe life during high school and minimize injury risk, including analyzing behaviors and influences that may increase risk of injury or illness. Students will understand the impacts, legal issues, and risks of drug and alcohol use and describe how to practice health-enhancing behaviors. Finally, by the end of this course, students will be able to demonstrate proper first aid and CPR procedures.

Throughout this course, factual information will be presented using a variety of methods including instructional videos, discussions, lecture, individual and group research, and possibly guest speakers. A special emphasis will be placed on discussing the positive consequences of healthier choices and the impact and prevalence of more risky behaviors.

**Engineering AB**

This elective course will introduce the engineering profession, professional concepts, ethics, and responsibility. Reviews hand calculators, number systems, and unit conversions. It will also introduce the personal computer and operating systems. Students will learn engineering problem-solving techniques using computer software and for those students who comprehend engineering at a higher level will have the opportunity to utilize computer programming and algorithms in a higher-level computer language.

**Photography AB**

Students will learn about technical skills for film photography, including refinement of exposure, development and printing of black-and-white images. Criteria for selection of appropriate equipment and materials are also covered. An exploration of the fundamental principles, techniques and application of camera-based image making will also be planned for the course as well as exploring the techniques and applications for developing and projection printing of film camera images in a chemical darkroom. The course may move into exploring the techniques and applications of acquiring, manipulating and outputting digitized photographic images utilizing Adobe Photoshop since society has moved into the digital world.

**Creative Writing**

This workshop is designed for those who write - whether it's poetry, fiction, creative non-fiction or memoir and would like a creative jolt - a burst of outside influence that will spark to life - or bring to the surface - what's been lying dormant inside. Using exercises to access participant's life experiences - will concentrate on such areas as point of view, character, tone and irony, strategies of plot and movement. Daily class discussions and in-class writing exercises will stimulate the imagination - helping the student hone and polish his/her descriptive and dialogue writing skills. The student will draw from the beautiful environment he/she is in - examining the cultural, social and gender differences - then compare what he/she sees with his/her own experiences. It is exactly this kind of observation that translates into good descriptions of place and character. The course will also demonstrate examples of techniques used effectively by successful writers, discuss what makes a good story, how to revise and what to do when you get stuck. The focus of
this workshop, however, will be on structure -- how to create a unity from the various elements of fiction and how to utilize effective storytelling techniques. Class time will be spent discussing participant's stories as well as a step by step approach to creating new work.

California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM 9
CALIFORNIA STATE BOARD OF EDUCATION
SEPTEMBER 2011 AGENDA

SUBJECT

RECOMMENDATION

The California Department of Education (CDE) and the Advisory Commission on Charter Schools (ACCS) recommend that the State Board of Education (SBE) approve the funding rates for nonclassroom-based instruction in charter schools as listed in Attachment 2.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Senate Bill 740 (Chapter 892, Statutes of 2001), enacted provisions of law (California Education Code (EC) Section 47612.5) that established the eligibility requirements for apportionment funding for charter schools that offer nonclassroom-based instruction. The statute specifies that a charter school may receive funding for nonclassroom-based instruction only if a determination for funding is made pursuant to EC Section 47634.2 by the SBE. The law provides the SBE with the authority to adjust the apportionment of charter schools that offer nonclassroom-based instruction. The law also states that a funding determination by the SBE for nonclassroom-based instruction shall not be more than 70 percent of the unadjusted amount to which a charter would otherwise be entitled, unless the SBE determines that a greater or lesser amount is appropriate based on specified criteria. The statute also specifies that nonclassroom-based instruction includes, but is not limited to, independent study, home study, work study and distance and computer-based education.

Senate Bill 740 also established the ACCS to develop criteria for the SBE to use in making funding determinations for nonclassroom-based programs on the basis of average daily attendance (ADA). Pursuant to EC Section 47634.2, these regulations would:
SUMMARY OF PREVIOUS...(Cont.)

- Ensure instruction is conducted for the instructional benefit of the pupil and substantially dedicated to that function, and would consider:
  - The amount of the charter school’s total budget expended on certificated employee salaries and benefits, and on school sites
  - The pupil-teacher ratio in the school

Subsequently, regulations were adopted in the *California Code of Regulations*, Title 5 (5 CCR) sections 11963.4 and 11963.6. These regulations specify funding levels for a nonclassroom-based charter school.

Pursuant to 5 CCR Section 11963.4(a), a nonclassroom-based charter school may qualify for 70 percent, 85 percent, or 100 percent funding, or may be denied. To qualify for 100 percent funding, a nonclassroom-based charter school must meet the following criteria:

- At least 40 percent of the school’s public revenues must be spent on employee salaries and benefits for instructional services or support
- At least 80 percent of all revenues must be spent on instruction and related services
- The ratio of ADA for independent study pupils to full-time certificated employees does not exceed 25:1, or the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the largest unified school district in the county or counties in which the charter school operates

SUMMARY OF KEY ISSUES

5 CCR Section 11963.4 specifies the criteria that a nonclassroom-based charter school must meet. The schools listed in Attachment 2 meet the criteria and existing charter schools have submitted the required audit reports that verify their reported expenditures. Additionally, 5 CCR Section 11963.6(c) specifies that a SBE approved funding determination period shall be in increments of a minimum of two years and a maximum of five years. EC 47612.5 requires a five-year determination for a charter school that has achieved a rank of 6 or greater on the Academic Performance Index for the past two fiscal years. For new charter schools in their first year of operation, 5 CCR 11963.6 specifies that they shall receive a funding determination for only two fiscal years.

Table 1 provides three years of Academic Performance Index (API) and Adequate Yearly Progress (AYP) results as background information for those charter schools where such data are available.
FISCAL ANALYSIS (AS APPROPRIATE)

If approved, no additional fiscal impact has been identified because each school is an existing charter school that is already receiving state apportionment funding. If this request is denied there could be savings in state apportionment funding.

California Education Code Section 47612.5
General Requirements
(d)(1) Notwithstanding any other provision of law and except as provided in paragraph (1) of subdivision (e), a charter school that has an approved charter may receive funding for nonclassroom-based instruction only if a determination for funding is made pursuant to Section 47634.2 by the State Board of Education. The determination for funding shall be subject to any conditions or limitations the State Board of Education may prescribe. The State Board of Education shall adopt regulations on or before February 1, 2002, that define and establish general rules governing nonclassroom-based instruction that apply to all charter schools and to the process for determining funding of nonclassroom-based instruction by charter schools offering nonclassroom-based instruction other than the nonclassroom-based instruction allowed by paragraph (1) of subdivision (e). Nonclassroom-based instruction includes, but is not limited to, independent study, home study, work study, and distance and computer-based education. In prescribing any conditions or limitations relating to the qualifications of instructional personnel, the State Board of Education shall be guided by subdivision (l) of Section 47605.

(d)(2) Except as provided in paragraph (2) of subdivision (b) of Section 47634.2, a charter school that receives a determination pursuant to subdivision (b) of Section 47634.2 is not required to reapply annually for a funding determination of its nonclassroom-based instruction program if an update of the information the State Board of Education reviewed when initially determining funding would not require material revision, as that term is defined in regulations adopted by the board. A charter school that has achieved a rank of 6 or greater on the Academic Performance Index for the two years immediately prior to receiving a funding determination pursuant to subdivision (b) of Section 47634.2 shall receive a five-year determination and is not required to annually reapply for a funding determination of its nonclassroom-based instruction program if an update of the information the State Board of Education reviewed when initially determining funding would not require material revision, as that term is defined in regulations adopted by the board. Notwithstanding any provision of law, the State Board of Education may require a charter school to provide updated information at any time it determines that a review of that information is necessary. The State Board of Education may terminate a determination for funding if updated or additional information requested by the board is not made available to the board by the charter school within a reasonable amount of time or if the information otherwise supports termination. A determination for funding pursuant to Section 47634.2 may not exceed five years.

California Education Code Section 47634.2
Nonclassroom-based instruction; funding determinations and allocations
(a)(1) Notwithstanding any other provision of law, the amount of funding to be allocated to a charter school on the basis of average daily attendance that is generated by pupils engaged in nonclassroom-based instruction, as defined by paragraph (2) of subdivision
(d) of Section 47612.5, including funding provided on the basis of average daily attendance pursuant to Sections 47613.1, 47633, 47634, and 47664, shall be adjusted by the State Board of Education. The State Board of Education shall adopt regulations setting forth criteria for the determination of funding for nonclassroom-based instruction, at a minimum the regulation shall specify that the nonclassroom-based instruction is conducted for the instructional benefit of the pupil and substantially dedicated to that function. In developing these criteria and determining the amount of funding to be allocated to a charter school pursuant to this section, the State Board of Education shall consider, among other factors it deems appropriate, the amount of the charter school’s total budget expended on certificated employee salaries and benefits and on schoolsites, as defined in paragraph (3) of subdivision (d) of Section 47612.5, and the teacher-to-pupil ratio in the school.

**California Code of Regulations, Title 5 Section 11963.4**  
Evaluation of Determination of Funding Requests Regarding Nonclassroom-Based Instruction

(a) When a complete determination of funding request is received from a charter school, it shall be reviewed by the California Department of Education and presented to the Advisory Commission on Charter Schools, along with credible information pertaining to the request obtained from any other source. The Advisory Commission shall develop a recommendation pursuant to this section to the State Board of Education regarding the request, and that recommendation shall be presented to the State Board of Education by the California Department of Education. The following criteria shall guide the process of reviewing and developing a recommendation on the request. The California Department of Education shall report any difference of opinion between the California Department of Education and the Advisory Commission as to the recommendation presented to the State Board of Education.

(1) If the percentage calculated pursuant to paragraph (1) of subdivision (c) of section 11963.3 equals at least 35 percent but less than 40 percent, and the percentage calculated pursuant to paragraph (2) of subdivision (c) of section 11963.3 equals at least 60 percent but less than 70 percent, the Advisory Commission on Charter Schools shall recommend to the State Board of Education approval of the request at 70 percent, unless there is a reasonable basis to recommend otherwise. If the recommended percentage is lower than the requested percentage, the recommendation to the State Board shall include the reasons justifying the reduction and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school.

(2) If the percentage calculated pursuant to paragraph (1) of subdivision (c) of section 11963.3 equals or exceeds 40 percent, and the percentage calculated pursuant to paragraph (2) of subdivision (c) of section 11963.3 equals at least 70 percent but less than 80 percent, the Advisory Commission on Charter Schools shall recommend to the State Board of Education approval of the request at 85 percent, unless there is a reasonable basis to recommend otherwise. The recommendation to the State Board shall include the reasons justifying a percentage that is greater than 70 percent and, if the recommended percentage is lower than the requested percentage, the reasons
justifying the reduction and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school.

(3) If the percentage calculated pursuant to paragraph (1) of subdivision (c) of section 11963.3 equals or exceeds 40 percent, the percentage calculated pursuant to paragraph (2) of subdivision (c) of section 11963.3 equals or exceeds 80 percent, and the ratio of average daily attendance for independent study pupils to full-time certificated employees responsible for independent study does not exceed a pupil-teacher ratio of 25:1 or the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the largest unified school district, as measured by average daily attendance, in the county or counties in which the charter school operates, the Advisory Commission on Charter Schools shall recommend to the State Board of Education approval of the request at 100 percent (i.e. full funding), unless there is a reasonable basis to recommend otherwise. If the recommended percentage is lower than the requested percentage, the recommendation to the State Board shall include the reasons justifying the reduction and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school.

(4) If the percentage calculated pursuant to paragraph (1) of subdivision (c) of section 11963.3 is less than 35 percent, or the percentage calculated pursuant to paragraph (2) of subdivision (c) of section 11963.3 is less than 60 percent, then the charter school's nonclassroom-based instruction is not substantially dedicated to the instructional benefit of the students, and the Advisory Commission on Charter Schools shall recommend that the State Board of Education deny the request, unless there is a reasonable basis to recommend otherwise. The recommendation to the State Board shall include the reasons justifying the denial and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school. Denial of a determination of funding request by the State Board of Education shall result in no funding being apportioned for average daily attendance identified by the charter school as being generated through nonclassroom-based instruction pursuant to Education Code section 47634.2(c).

(5) Any request for a funding determination received prior to the effective date of these regulations will be reviewed pursuant to the criteria in effect at the time of submittal.

(b) The Advisory Commission on Charter Schools and/or the California Department of Education may ask the charter school to provide additional information in order to make possible a more detailed review or to develop a reasonable basis for a recommendation other than those prescribed in subdivision (a). With the consent of the Superintendent of Public Instruction, the request for additional information shall be considered a reasonable inquiry to which the charter school must respond pursuant to Education Code section 47604.3.

(c) Any multi-year funding determination approved by the State Board of Education may be modified by the State Board of Education, in terms of both the multi-year approval and the percentage of funding authorized, if any information that may change the conclusion to approve the original multi-year funding determination is found.
(d) Prior to a recommendation by the Advisory Commission on Charter Schools (that a determination of funding request be denied or approved at a percentage lower than that requested) being forwarded to the State Board of Education, the affected charter school shall be given thirty (30) calendar days in which to amend its determination of funding request and/or to provide additional information in support of the request. Based upon consideration of the amended request or any additional information that may be provided, the Advisory Commission may modify its recommendation to the State Board.

(e) A reasonable basis for the Advisory Commission on Charter Schools to make a recommendation other than one that results from the criteria specified in subdivision (a) may include, but not be limited to, the following: the information provided by the charter school pursuant to paragraphs (2) through (8), inclusive, of subdivision (b) of section 11963.3, documented data regarding individual circumstances of the charter school (e.g., one-time or unique or exceptional expenses for facilities, acquisition of a school bus, acquisition and installation of computer hardware not related to the instructional program, special education charges levied on the charter school by a local educational agency, restricted state, federal, or private grants of funds awarded to the charter school that cannot be expended for teacher salaries, or contracted instructional services other than those for special education), the size of the charter school, and how many years the charter school has been in operation. The Advisory Commission on Charter Schools shall give charter schools with less than a total of one hundred (100) units of prior year second period average daily attendance or that are in their first year of operation serious consideration of full funding.

California Code of Regulations, Title 5 Section 11963.6
Submission and Action on Determination of Funding Requests Regarding Nonclassroom-Based Instruction
Section 11963.6(a) An approved determination of funding for a new charter school in its first year of operation shall be submitted by December 1 and shall be for two fiscal years. Within 90 days after the end of its first fiscal year of operation, a charter school shall submit unaudited actual expense reports and a funding determination form based on the school’s actual second-year budget. If the Advisory Commission on Charter Schools determines that the actual expenditures of the charter school or the second year funding determination form do not support the funding determination for the second year, the Advisory Commission on Charter Schools shall recommend that the State Board of Education revise the funding determination.

Section 11963.6(c) Any determination of funding request approved by the State Board of Education for an existing nonclassroom-based charter school from the 2006-07 fiscal year forward shall be prospective (not for the current year), in increments of a minimum of two years and a maximum of five years in length. Beginning with the 2007-08 fiscal year, nonclassroom-based charter schools that had a funding determination in the prior year must submit a funding determination request by February 1 of the fiscal year prior to the year the funding determination will be effective, when a new request is required under these regulations.
ITEM 10
SUBJECT

Consideration of Requests From Nonclassroom-based Charter Schools for “Reasonable Basis”/Mitigating Circumstances Changes in Funding Determinations Based on the California Code of Regulations, Title 5, Section 11963.4(e) for California Virtual Academy San Diego, Crossroads Trade Tech Charter, Northwest Prep Piner Olivet, Options for Youth Hermosa Beach, Options for Youth San Bernardino, Options for Youth Victorville, Opportunities for Learning Baldwin Park, Opportunities for Learning Baldwin Park II, Opportunities for Learning Hermosa Beach and Opportunities for Learning Santa Clarita.

RECOMMENDATION

The California Department of Education (CDE) and the Advisory Commission on Charter Schools (ACCS) recommend that the State Board of Education (SBE) approve the requests to allow the inclusion of mitigating circumstances in the determination of funding rates required by California Education Code (EC) Sections 47612.5 and 47634.2 and implemented through California Code of Regulations, Title 5 (5 CCR) Section 11963.4(e) for California Virtual Academy San Diego, Crossroads Trade Tech Charter and Northwest Prep Piner Olivet. The CDE and the ACCS also recommend that the SBE approve the determination rates contained in Attachment 1 for Options for Youth San Bernardino, Opportunities for Learning Baldwin Park and Opportunities for Learning Baldwin Park II. Additionally, the CDE recommends that the SBE approve the CDE recommendation for determination rates contained in Attachment 1 for Options for Youth Hermosa Beach, Options for Youth Victorville, Opportunities for Learning Hermosa Beach and Opportunities for Learning Santa Clarita.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Senate Bill 740 (Chapter 892, Statutes of 2001), enacted provisions of law (California Education Code (EC) Section 47612.5) that established the eligibility requirements for apportionment funding for charter schools that offer nonclassroom-based instruction. The statute specifies that a charter school may receive funding for nonclassroom-based
SUMMARY OF PREVIOUS... (Cont.)

instruction only if a determination for funding is made pursuant to EC Section 47634.2 by the SBE. The law provides the SBE with the authority to adjust the apportionment of instruction only if a determination for funding is made pursuant to EC Section 47634.2 by the SBE. The law provides the SBE with the authority to adjust the apportionment of charter schools that offer nonclassroom-based instruction. The law also states that a funding determination by the SBE for nonclassroom-based instruction shall not be more than 70 percent of the unadjusted amount to which a charter would otherwise be entitled, unless the SBE determines that a greater or lesser amount is appropriate based on specified criteria. The statute also specifies that nonclassroom-based instruction includes, but is not limited to, independent study, home study, work study and distance and computer-based education.

Senate Bill 740 also established the ACCS to develop criteria for the SBE to use in making funding determinations for nonclassroom-based programs on the basis of average daily attendance (ADA). Pursuant to EC Section 47634.2, these regulations would:

- Ensure instruction is conducted for the instructional benefit of the pupil and substantially dedicated to that function, and would consider:
  - The amount of the charter school’s total budget expended on certificated employee salaries and benefits, and on school sites
  - The pupil-teacher ratio in the school

Subsequently, regulations were adopted in the California Code of Regulations, Title 5 (5 CCR) sections 11963.4 and 11963.6. These regulations specify funding levels for a nonclassroom-based charter school.

Pursuant to 5 CCR Section 11963.4(a), a nonclassroom-based charter school may qualify for 70 percent, 85 percent, or 100 percent funding, or may be denied. To qualify for 100 percent funding, a nonclassroom-based charter school must meet the following criteria:

- At least 40 percent of the school’s public revenues must be spent on employee salaries and benefits for instructional services or support
- At least 80 percent of all revenues must be spent on instruction and related services
- The ratio of ADA for independent study pupils to full-time certificated employees does not exceed 25:1, or the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the largest unified school district in the county or counties in which the charter school operates
SUMMARY OF PREVIOUS… (Cont.)

However, 5 CCR Section 11963.4(e) states that the ACCS may find a “reasonable basis” (also referred to as a mitigating circumstance) by which to make a recommendation other than one that results from the criteria specified in the regulations.

SUMMARY OF KEY ISSUES

Due to funding reductions and cuts in the state’s annual budget and the apportionment deferrals in the current and future years, the charter schools included herein are facing unprecedented financial hardships as a result of the state budget crisis. The schools’ apportionments are being deferred for months in the current fiscal year and even into the next fiscal year. The schools have responded by taking steps to insure their fiscal stability. However, these actions have also prevented the schools from spending for their instructional programs at the levels required to achieve the regulatory requirements of a 100 percent funding rate.

5 CCR Section 11963.4(e) provides specific examples of the types of mitigating circumstances for the ACCS to consider well documented “one-time or unique or exceptional circumstances.” Mitigating circumstances described by a charter school in the funding determination process clarify and provide guidance as to whether or not a specific charter school meets the percentage requirements for a funding determination as expressed in 5 CCR Section 11963.4(a).

Pursuant to 5 CCR Section 11963.4(e):

A reasonable basis for the Advisory Commission on Charter Schools to make a recommendation other than one that results from the criteria specified in subdivision (a) may include, but not be limited to, the following: the information provided by the charter school pursuant to paragraphs (2) through (8), inclusive, of subdivision (b) of section 11963.3, documented data regarding individual circumstances of the charter school (e.g., one-time or unique or exceptional expenses for facilities, acquisition of a school bus, acquisition and installation of computer hardware not related to the instructional program, special education charges levied on the charter school by a local educational agency, restricted state, federal, or private grants of funds awarded to the charter school that cannot be expended for teacher salaries, or contracted instructional services other than those for special education), the size of the charter school, and how many years the charter school has been in operation. The Advisory Commission on Charter Schools shall give charter schools with less than a total of one hundred (100) units of prior year second period average daily attendance or that are in their first year of operation serious consideration of full funding.

Pursuant to 5 CCR Section 11963.4(e), the California Virtual Academy San Diego, Crossroads Trade Tech Charter, Northwest Prep Piner Olivet, Options for Youth Hermosa Beach, Options for Youth San Bernardino, Options for Youth Victorville,
SUMMARY OF KEY ISSUES ...(Cont.)

Opportunities for Learning Baldwin Park, Opportunities for Learning Baldwin Park II, Opportunities for Learning Hermosa Beach and Opportunities for Learning Santa Clarita are requesting consideration under 5 CCR Section 11963.4(e) from the regulatory requirements for a funding determination rate.

The basis of the California Virtual Academy San Diego’s (CAVA–SD’s) request includes:

- Deferred payments of state apportionment funds
- Non-instructional and fixed administrative operating costs that are excluded from the calculations required under SB 740 regulatory guidelines.

Included in the CAVA–SD’s mitigating circumstances request is a request for the following:

- Allocate 35 percent of its expenditures to certificated staffing costs
- Exclusion of one-time funding sources
- Record the receipt of deferred state funds on an accrual basis

CAVA–SD is requesting a 100 percent determination rate and relief from the current 5 CCR regulatory requirements. Although CAVA–SD’s expenditures of 85.35 percent on instruction and related services costs exceed the 80 percent regulatory requirement, the charter school’s expenditures of 35.03 percent on certificated staff costs do not meet the 40 percent regulatory requirement and make the charter school ineligible for a 100 percent determination rate. Based on CAVA–SD’s documentation, the charter school would qualify for a 70 percent determination rate. Instead the charter school is requesting a 100 percent determination rate with the consideration of its mitigating circumstances.

The basis of the Crossroads Trade Tech Charter’s (CTTC’s) request includes:

- Prior year second period average daily attendance of less than 100 units

The CTTC is requesting a 100 percent determination rate and relief from the 5 CCR regulatory requirements. Although CTTC’s expenditures of 54.08 percent on certificated staff costs exceed the 40 percent regulatory requirement, the charter school’s expenditures of 73.91 percent on instruction and related services costs do not meet the 80 percent regulatory requirement and make the charter school ineligible for a 100 percent determination rate. Based on CTTC’s documentation, the charter school would qualify for a 85 percent determination rate. However, based on the charter school’s prior year second period average daily attendance of less than 100 units (53), the charter school is requesting serious consideration for a 100 percent determination rate pursuant to 5 CCR 11963.4(e).
The basis of the Northwest Prep Piner Olivet’s (NPPO’s) request includes:

- Deferred payments of state apportionment funds
- Non-instructional and fixed administrative operating costs that are excluded from the calculations required under SB 740 regulatory guidelines

The NPPO is requesting a 100 percent determination rate and relief from the 5 CCR regulatory requirements. Although NPPO’s expenditures of 52.13 percent on certificated staff costs exceed the 40 percent regulatory requirement, the charter school’s expenditures of 77.18 percent on instruction and related services costs do not meet the 80 percent regulatory requirement and make the charter school ineligible for a 100 percent determination rate. Based on NPPO’s documentation, the charter school would qualify for an 85 percent determination rate, but it is instead requesting a 100 percent determination rate with the consideration of its mitigating circumstances.

Options for Youth’s (OFY’s) three charter schools (Hermosa Beach, San Bernardino, and Victorville) and the Opportunities for Learning’s (OFL’s) four charter schools (Baldwin Park, Baldwin Park II, Hermosa Beach, and Santa Clarita) cite the following as reasonable bases for mitigation:

- The schools have experienced state funding cuts of approximately 14 percent since the 2008–09 fiscal year. In addition, the schools face the uncertainty of further state funding cuts in the 2011–12 fiscal year and deferred payment of state apportionment funds.

- The schools have experienced an increased number of students looking for alternative schooling options, including students working full time to support their families. To accommodate the increasing demand, the schools have expanded their programs, added additional services, increased their hours of operations and acquired new facilities.

- The schools require fiscal stability and the ability to create reserves that allow for continued expansion of learning resource centers to provide instruction to the schools’ at-risk student population.

The OFY and OFL charter schools are requesting approval for an 85 percent determination rate and relief from the current 5 CCR regulatory requirements of expenditures of at least 70 percent but less than 80 percent on instruction and related services costs and expenditures of 40 percent or greater on certificated staff costs. The OFY and OFL charter schools are requesting specific relief from the regulatory requirements of the 85 percent determination rate to include the following mitigation:

- At least 61.25 percent of the schools’ expenditures will be allocated for “instruction and related services costs” rather than the current regulatory
SUMMARY OF KEY ISSUES ... (Cont.)

requirement of 70 percent and an option to average those expenditures over any two consecutive fiscal years.

- At least 35 percent of the schools’ expenditures will be allocated for eligible certificated staff costs rather than the current regulatory requirement of 40 percent and an option to average certificated expenditures over any two consecutive fiscal years.

- Ability to establish and maintain budget reserves for economic uncertainty at a level of 10 percent of the schools’ budgeted expenditures rather than at a 5 percent reserve threshold.

- Ability to book the receipt of deferred state funding on either an accrual or cash basis to allow flexibility to book expenditures related to deferred revenues in the same year the related revenues are booked.

- Option to count up to 60 percent of the schools’ facilities costs as “instruction and related services” costs.

The CDE evaluated the OFY and OFL charter schools’ rationale for preparing their funding determination requests. Of the seven OFY and OFL charter schools, three schools submitted funding determination requests containing prior year actual financial data and four schools’ requests contained financial data based on a two-year averaging method.

These four OFY (Victorville) and OFL (Baldwin Park, Baldwin Park II and Santa Clarita) charter schools used a methodology that included the averaging of revenues and expenditures for two prior fiscal years, 2008–09 and 2009–10. The OFY and OFL charter schools indicated their approach was allowable under their current SBE-approved funding determinations that expired on June 30, 2011, and included mitigating circumstances. The OFY and OFL charter schools requested an 85 percent two-year funding determination for each of the seven charter schools included in this request.

The CDE reviewed the OFY and OFL schools’ submissions including those that averaged two fiscal years of financial data. The CDE determined that the submissions do not conform to the regulatory requirements contained in 5 CCR 11963.3(a)(5). This section requires a charter school that operated in the prior fiscal year to use prior fiscal year financial data to complete a funding determination request. Additionally, since these are prospective requests, effective for the 2011–12 fiscal year, the CDE notes that there is no regulatory authority for the use of previously approved mitigating circumstances to form the basis for a prospective funding determination request. Furthermore, the OFY and OFL charter schools’ approach does not fully consider the individual circumstances of each of the seven charter schools included in this request. Instead, the CDE must consider these funding determination requests in accordance with the current regulatory requirements for reviewing the documented data regarding the individual circumstances of a charter school.
SUMMARY OF KEY ISSUES …(Cont.)

The CDE formed a recommendation for each of the OFY and OFL charter schools. Specifically, the CDE recommendations are:

- **Options for Youth Hermosa Beach (#1131).** The CDE recommends that the SBE approve a 70 percent two-year funding determination for Options for Youth Hermosa Beach. Specifically, this charter school’s total expenditures for instructional costs (60.45%) and certificated staff (38.62%) meet the regulatory requirements (5 CCR 11963.4) for a 70 percent funding determination.

- **Options for Youth San Bernardino (#1132).** The CDE recommends that the SBE approve a 100 percent two-year funding determination for Options for Youth San Bernardino. Specifically, this charter school’s total expenditures for instructional costs (103.31%) and certificated staff (44.84%) meet the regulatory requirements (5 CCR 11963.4) for a 100 percent funding determination.

- **Options for Youth Victorville (#0013).** The CDE recommends that the SBE approve a 70 percent two-year funding determination for Options for Youth Victorville. Specifically, this charter school’s total expenditures for instructional costs (63.03%) and certificated staff (36.67%) meet the regulatory requirements (5 CCR 11963.4) for a 70 percent funding determination.

- **Opportunities for Learning Baldwin Park (#0402).** The CDE recommends that the SBE approve an 85 percent two-year funding determination for Opportunities for Learning Baldwin Park. Specifically, this charter school’s total expenditures for instructional costs (75.54%) and certificated staff (43.60%) meet the regulatory requirements (5 CCR 11963.4) for an 85 percent funding determination.

- **Opportunities for Learning Baldwin Park II (#0874).** The CDE recommends that the SBE approve an 85 percent two-year funding determination for Opportunities for Learning Baldwin Park II. Specifically, this charter school’s total expenditures for instructional costs (71.37%) and certificated staff (41.05%) meet the regulatory requirements (5 CCR 11963.4) for an 85 percent funding determination.

- **Opportunities for Learning Hermosa Beach (#1130).** The CDE recommends that the SBE approve a 70 percent two-year funding determination for Opportunities for Learning Hermosa Beach. Specifically, this charter school’s total expenditures for instructional costs (70.93%) and certificated staff (39.04%) meet the regulatory requirements (5 CCR 11963.4) for a 70 percent funding determination.

- **Opportunities for Learning Santa Clarita (#0214).** The CDE recommends that the SBE approve a 70 percent two-year funding determination for Opportunities for Learning Santa Clarita. Specifically, this charter school’s total expenditures for instructional costs (67.39%) and certificated staff (39.59%) meet the regulatory requirements (5 CCR 11963.4) for a 70 percent funding determination.
SUMMARY OF KEY ISSUES ...(Cont.)

At the July 28, 2011, ACCS meeting, the Commission voted to recommend approval of an 85 percent two-year funding determination for:

- Opportunities for Learning Santa Clarita (#0214)
- Opportunities for Learning Hermosa Beach (#1130)
- Options for Youth Hermosa Beach (#1131)
- Options for Youth Victorville (#0013)

The Commission’s action which included mitigating circumstances, differed from the CDE recommendation of a 70 percent two-year funding determination for the four charter schools. The ACCS’s recommendation included the consideration of mitigating circumstances specifically for increased reserves and expenditure levels for instruction and related services and certificated staff costs. It should be noted that the CDE recommendation did not consider mitigating circumstances for the four charter schools.

Table 1 provides SBE-approved current funding rates for California Virtual Academy San Diego, Crossroads Trade Tech Charter, Northwest Prep Piner Olivet, and the OFY and OFL charter schools.

Table 2 provides API and AYP results for California Virtual Academy San Diego, Crossroads Trade Tech Charter, Northwest Prep Piner Olivet, and the OFY and OFL charter schools as background information.

Table 3 provides information on the charter schools’ mitigating circumstances requests.

FISCAL ANALYSIS (AS APPROPRIATE)

If the charter schools’ requests for mitigating circumstances are approved, the CDE has determined that there would be an addition fiscal impact to the state because some charter schools will continue to get funded at an 85 percent determination rate while other charter schools would be funded at either a 100 or 70 percent determination rate.

If the requests for mitigating circumstances are denied for the charter schools and the schools do not meet the regulatory requirements for a funding determination rate, the apportionment claims to the state would be reduced to a lower determination rate or denied, resulting in savings of state funds.

Excerpts from the California *Education Code* and Implementing Regulations with Regard to SB 740 Funding Determinations

**California Education Code Section 47612.5**

**General Requirements**

(d)(1) Notwithstanding any other provision of law and except as provided in paragraph (1) of subdivision (e), a charter school that has an approved charter may receive funding for nonclassroom-based instruction only if a determination for funding is made pursuant to Section 47634.2 by the State Board of Education. The determination for funding shall be subject to any conditions or limitations the State Board of Education may prescribe. The State Board of Education shall adopt regulations on or before February 1, 2002, that define and establish general rules governing nonclassroom-based instruction that apply to all charter schools and to the process for determining funding of nonclassroom-based instruction by charter schools offering nonclassroom-based instruction other than the nonclassroom-based instruction allowed by paragraph (1) of subdivision (e). Nonclassroom-based instruction includes, but is not limited to, independent study, home study, work study, and distance and computer-based education. In prescribing any conditions or limitations relating to the qualifications of instructional personnel, the State Board of Education shall be guided by subdivision (l) of Section 47605.

(d)(2) Except as provided in paragraph (2) of subdivision (b) of Section 47634.2, a charter school that receives a determination pursuant to subdivision (b) of Section 47634.2 is not required to reapply annually for a funding determination of its nonclassroom-based instruction program if an update of the information the State Board of Education reviewed when initially determining funding would not require material revision, as that term is defined in regulations adopted by the board. A charter school that has achieved a rank of 6 or greater on the Academic Performance Index for the two years immediately prior to receiving a funding determination pursuant to subdivision (b) of Section 47634.2 shall receive a five-year determination and is not required to annually reapply for a funding determination of its nonclassroom-based instruction program if an update of the information the State Board of Education reviewed when initially determining funding would not require material revision, as that term is defined in regulations adopted by the board. Notwithstanding any provision of law, the State Board of Education may require a charter school to provide updated information at any time it determines that a review of that information is necessary. The State Board of Education may terminate a determination for funding if updated or additional information requested by the board is not made available to the board by the charter school within a reasonable amount of time or if the information otherwise supports termination. A determination for funding pursuant to Section 47634.2 may not exceed five years.
California Education Code Section 47634.2

Nonclassroom-based instruction; funding determinations and allocations

(a)(1) Notwithstanding any other provision of law, the amount of funding to be allocated to a charter school on the basis of average daily attendance that is generated by pupils engaged in nonclassroom-based instruction, as defined by paragraph (2) of subdivision (d) of Section 47612.5, including funding provided on the basis of average daily attendance pursuant to Sections 47613.1, 47633, 47634, and 47664, shall be adjusted by the State Board of Education. The State Board of Education shall adopt regulations setting forth criteria for the determination of funding for nonclassroom-based instruction, at a minimum the regulation shall specify that the nonclassroom-based instruction is conducted for the instructional benefit of the pupil and substantially dedicated to that function. In developing these criteria and determining the amount of funding to be allocated to a charter school pursuant to this section, the State Board of Education shall consider, among other factors it deems appropriate, the amount of the charter school’s total budget expended on certificated employee salaries and benefits and on schoolsites, as defined in paragraph (3) of subdivision (d) of Section 47612.5, and the teacher-to-pupil ratio in the school.

California Code of Regulations, Title 5 Section 11963.4
Evaluation of Determination of Funding Requests Regarding Nonclassroom-Based Instruction

(a) When a complete determination of funding request is received from a charter school, it shall be reviewed by the California Department of Education and presented to the Advisory Commission on Charter Schools, along with credible information pertaining to the request obtained from any other source. The Advisory Commission shall develop a recommendation pursuant to this section to the State Board of Education regarding the request, and that recommendation shall be presented to the State Board of Education by the California Department of Education. The following criteria shall guide the process of reviewing and developing a recommendation on the request. The California Department of Education shall report any difference of opinion between the California Department of Education and the Advisory Commission as to the recommendation presented to the State Board of Education.

(1) If the percentage calculated pursuant to paragraph (1) of subdivision © of section 11963.3 equals at least 35 percent but less than 40 percent, and the percentage calculated pursuant to paragraph (2) of subdivision © of section 11963.3 equals at least 60 percent but less than 70 percent, the Advisory Commission on Charter Schools shall recommend to the State Board of Education approval of the request at 70 percent, unless there is a reasonable basis to recommend otherwise. If the recommended percentage is lower than the requested percentage, the recommendation to the State Board shall include the reasons justifying the reduction and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school.

(2) If the percentage calculated pursuant to paragraph (1) of subdivision © of section 11963.3 equals or exceeds 40 percent, and the percentage calculated pursuant to paragraph (2) of subdivision © of section 11963.3 equals at least 70 percent but less
than 80 percent, the Advisory Commission on Charter Schools shall recommend to the State Board of Education approval of the request at 85 percent, unless there is a reasonable basis to recommend otherwise. The recommendation to the State Board shall include the reasons justifying a percentage that is greater than 70 percent and, if the recommended percentage is lower than the requested percentage, the reasons justifying the reduction and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school.

(3) If the percentage calculated pursuant to paragraph (1) of subdivision © of section 11963.3 equals or exceeds 40 percent, the percentage calculated pursuant to paragraph (2) of subdivision © of section 11963.3 equals or exceeds 80 percent, and the ratio of average daily attendance for independent study pupils to full-time certificated employees responsible for independent study does not exceed a pupil-teacher ratio of 25:1 or the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the largest unified school district, as measured by average daily attendance, in the county or counties in which the charter school operates, the Advisory Commission on Charter Schools shall recommend to the State Board of Education approval of the request at 100 percent (i.e. full funding), unless there is a reasonable basis to recommend otherwise. If the recommended percentage is lower than the requested percentage, the recommendation to the State Board shall include the reasons justifying the reduction and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school.

(4) If the percentage calculated pursuant to paragraph (1) of subdivision © of section 11963.3 is less than 35 percent, or the percentage calculated pursuant to paragraph (2) of subdivision © of section 11963.3 is less than 60 percent, then the charter school’s nonclassroom-based instruction is not substantially dedicated to the instructional benefit of the students, and the Advisory Commission on Charter Schools shall recommend that the State Board of Education deny the request, unless there is a reasonable basis to recommend otherwise. The recommendation to the State Board shall include the reasons justifying the denial and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school. Denial of a determination of funding request by the State Board of Education shall result in no funding being apportioned for average daily attendance identified by the charter school as being generated through nonclassroom-based instruction pursuant to Education Code section 47634.2©.

(5) Any request for a funding determination received prior to the effective date of these regulations will be reviewed pursuant to the criteria in effect at the time of submittal.

(b) The Advisory Commission on Charter Schools and/or the California Department of Education may ask the charter school to provide additional information in order to make possible a more detailed review or to develop a reasonable basis for a recommendation other than those prescribed in subdivision (a). With the consent of the Superintendent of Public Instruction, the request for additional information shall be considered a reasonable inquiry to which the charter school must respond pursuant to Education Code section 47604.3.

(c) Any multi-year funding determination approved by the State Board of Education may be modified by the State Board of Education, in terms of both the multi-year approval
and the percentage of funding authorized, if any information that may change the conclusion to approve the original multi-year funding determination is found.

(d) Prior to a recommendation by the Advisory Commission on Charter Schools (that a determination of funding request be denied or approved at a percentage lower than that requested) being forwarded to the State Board of Education, the affected charter school shall be given thirty (30) calendar days in which to amend its determination of funding request and/or to provide additional information in support of the request. Based upon consideration of the amended request or any additional information that may be provided, the Advisory Commission may modify its recommendation to the State Board.

(e) A reasonable basis for the Advisory Commission on Charter Schools to make a recommendation other than one that results from the criteria specified in subdivision (a) may include, but not be limited to, the following: the information provided by the charter school pursuant to paragraphs (2) through (8), inclusive, of subdivision (b) of section 11963.3, documented data regarding individual circumstances of the charter school (e.g., one-time or unique or exceptional expenses for facilities, acquisition of a school bus, acquisition and installation of computer hardware not related to the instructional program, special education charges levied on the charter school by a local educational agency, restricted state, federal, or private grants of funds awarded to the charter school that cannot be expended for teacher salaries, or contracted instructional services other than those for special education), the size of the charter school, and how many years the charter school has been in operation. The Advisory Commission on Charter Schools shall give charter schools with less than a total of one hundred (100) units of prior year second period average daily attendance or that are in their first year of operation serious consideration of full funding.

California Code of Regulations, Title 5 Section 11963.6
Submission and Action on Determination of Funding Requests Regarding Nonclassroom-Based Instruction

Section 11963.6(a) An approved determination of funding for a new charter school in its first year of operation shall be submitted by December 1 and shall be for two fiscal years. Within 90 days after the end of its first fiscal year of operation, a charter school shall submit unaudited actual expense reports and a funding determination form based on the school’s actual second-year budget. If the Advisory Commission on Charter Schools determines that the actual expenditures of the charter school or the second year funding determination form do not support the funding determination for the second year, the Advisory Commission on Charter Schools shall recommend that the State Board of Education revise the funding determination.

Section 11963.6(c) Any determination of funding request approved by the State Board of Education for an existing nonclassroom-based charter school from the 2006-07 fiscal year forward shall be prospective (not for the current year), in increments of a minimum of two years and a maximum of five years in length. Beginning with the 2007-08 fiscal year, nonclassroom-based charter schools that had a funding determination in the prior year must submit a funding determination request by February 1 of the fiscal year prior to the year the funding determination will be effective, when a new request is required under these regulations.

REF: SB 740 Mitigating Circumstances, California Virtual Academy /@ San Diego, #0493

Dear Members of the ACCS,

Please accept this letter as our request for budgetary relief under the SB 740 guidelines for mitigating circumstances of the funding determination for the California Virtual Academy /@ San Diego. The charter began serving students on September 9, 2002.

As was discussed by the ACCS last year, meeting the SB 740 expenditure targets is and has been challenging over the past year due to the state budget crisis. From the recent budgetary news, it appears those challenges will continue in the near future without relief. Many of the costs that do not count toward the current SB 740 targets are "fixed" in nature and in fact have increased this year (district office rent, utilities, maintenance, liability insurance, district oversight and services fees, special education services costs, etc.). The school has relatively little control over them and they are very difficult to reduce or eliminate. Please see Charts A & B below:
Due to the current and forecasted future budget crisis in California we respectfully request the granting of mitigating circumstances in the following areas:

- **“Spending on certificated staff compensation”**—the school will direct at least 35 percent of its expenditures toward eligible certificated staffing costs.

- **One-time funding sources excluded**—when calculating the above spending targets thresholds, the school will exclude “one-time” funding sources (e.g., federal stimulus funding, ed jobs funding, and all funding sources that are categorical in nature or one time allocations, etc.).

- **Coping with cash flow deferrals**—for funding determination purposes, the school will book the receipt of deferred state funding on an accrual basis.

We believe these are reasonable requests and the budget crisis provides a “reasonable basis” for the provision of “Funding Determination” mitigating circumstances during this difficult financial period in California.

The request of California Virtual Academy at San Diego includes the understanding that with meeting the above mitigated criteria for our expenditures in the 2011-12 through 2012-13 fiscal years will allow the school to continue with a 100% funding determination for the period of its current determination or until such time the ACCS determines the budget situation in the state no longer requires the continuance of these measures. This is consistent with the period of flexibility that has been provided to school districts through the 2012-13 fiscal years.
By submission and approval of this request the California Virtual Academy at San Diego provides the assurance that it will maintain the above stated expenditure and student ratio targets for the duration of its most current funding determination.

Respectfully,

Katrina Abston
Head of School
Mitigating Circumstances Request for California Virtual Academy San Diego

Sacramento, CA 95814

REF: SB 740 Mitigating Circumstances, California Virtual Academy @ San Diego, #0493

Dear Members of the ACCS,

Please accept this letter as our request for budgetary relief under the SB 740 guidelines for mitigating circumstances of the funding determination for the California Virtual Academy @ San Diego. The charter began serving students on September 9, 2002.

As was discussed by the ACCS last year, meeting the SB 740 expenditure targets is and has been challenging over the past year due to the state budget crisis. From the recent budgetary news, it appears those challenges will continue in the near future without relief. Many of the costs that do not count toward the current SB 740 targets are “fixed” in nature and in fact have increased this year (district office rent, utilities, maintenance, liability insurance, district oversight and services fees, special education services costs, etc.). The school has relatively little control over them and they are very difficult to reduce or eliminate. Please see Charts A & B below:

- Chart A is the Facilities and Insurance Expenditures bar graph which includes Fiscal Year 2006 to 2010.
- Chart B is the Increase of Facilities and Insurance from Fiscal Year 2006 bar graph.

Due to the current and forecasted future budget crisis in California we respectfully request the granting of mitigating circumstances in the following areas:

- **Spending on certificated staff compensation**—the school will direct at least 35 percent of its expenditures toward eligible certificated staffing costs.
- **One-time funding sources excluded**—when calculating the above spending targets thresholds, the school will exclude “one-time” funding sources (e.g., federal stimulus funding, ed jobs funding, and all funding sources that are categorical in nature or one time allocations, etc.).
- **Coping with cash flow deferrals**—for funding determination purposes, the school will book the receipt of deferred state funding on an accrual basis.

We believe these are reasonable requests and the budget crisis provides a “reasonable basis” for the provision of “Funding Determination” mitigating circumstances during this difficult financial period in California.

The request of California Virtual Academy @ San Diego includes the understanding that with meeting the above mitigated criteria for our expenditures in the 2011-12 through 2012-13 fiscal years will allow the school to continue with a 100% funding determination for the period of its current determination or until such time the ACCS determines the budget situation in the state no longer requires the continuance of these measures. This is consistent with the period of flexibility that has been provided to school districts through the 2012-13 fiscal years.

By submission and approval of this request the California Virtual Academy @ San Diego provides the assurance that it will maintain the above stated expenditure and student ratio targets for the duration of its most current funding determination.

Jay Harris, Consultant
Charter Schools Division

Dear Mr. Harris,

Crossroads Trade Tech Academy would like to site mitigating circumstance as the reasons for not meeting the 80% threshold of instructional supply spending for the 2010-2011 school year. There are two reasons:

One, the prior year second period average daily attendance was less than 100 units (students);

Two, facilities costs make it impossible to meet the 80% threshold.

Steve Bogan
Superintendent
Armona Union Elementary School District

Jay Harris, Education Programs Consultant, Charter Schools Division
Beth Hunkapiller, Division Director, Charter Schools Division
Advisory Commission on Charter Schools (ACCS)

Re: Mitigating Circumstances Request for Nonclassroom-Based Funding Determination
Application - Northwest Prep at Piner-Olivet Charter School

Piner-Olivet Union School District on behalf of Northwest Prep at Piner-Olivet Charter School would like to request that two mitigating circumstances be taken into consideration when making a determination on the Nonclassroom-Based Funding Determination Application.

1) Northwest Prep at Piner-Olivet paid $25,292 in classroom facilities leases in 2009-2010. All of this expense was for classrooms for student instruction. In 2010-2011, Northwest Prep was moved onto one of the District’s school campuses and beginning in 2011-2012, will have no rental expense for classroom space.

2) Northwest Prep at Piner-Olivet has had a budget deficit for several years that was required to be eliminated by the Sonoma County Office of Education. In 2009-2010, Northwest Prep reduced that deficit by $31,104. Those funds were not available to be spent for instructional purposes. Northwest Prep at Piner-Olivet no longer has a budget deficit issue and will have a reasonable reserve in place in 2012-2013.

If you have any questions or need more information, please feel free to call me at 707-522-3008, or e-mail me at bleffew@pousd.kl2.ca.us.

Sincerely,

Becky Leffew,
Director of Business Services
This memo outlines Options For Youth-Hermosa Beach Public Charter Schools’ request for funding and operational flexibility through the “reasonable basis” provisions provided for in the regulations that govern the nonclassroom-based funding determination process.

Options For Youth Public Charter Schools appreciate the opportunity to request these mitigating circumstances that have resulted from the recent budget cuts due to the State’s economic crisis. During the pendency of the budget crisis, Options For Youth-Hermosa Beach Public Charter School would be deemed to have met the requirements for eighty-five percent funding under the funding determination process providing they meet the below criteria in lieu of the ones currently specified by law. The “reasonable basis” would be deemed to exist until such time as funding for the Charter General-Purpose Grant and Categorical Block Grants return to levels specified in statute and confirmed by the ACCS.

Circumstance:

The schools face great uncertainty of further funding cuts for the 2011-12 school year, and it is generally understood and recommended that California’s charter schools anticipate a budget cut of 6.10%. The deferred payments of ADA, Supplemental and P2 adjustments account for 25.00% of the schools’ total revenue which is deferred until the next fiscal year, an increase from the 22.80% deferral in the prior years. Educational support organizations including, the CSDC School Services and the Department of Finance advised charter schools to develop a “two-track” budget proposal for the 2011-12 school year, one based on the Governor’s flat funding proposal and the second track based on an approximate budget cut of 6.10%, creating a total budget cut of approximately 14.00% since 2008. The unpredictable nature of the state’s budget also creates uncertainty of possible
retroactive budget cuts. For example, schools were not informed until July 2009, that the expected 8% cut, would actually be only 2.6%, which created a 5.4% variance in total funding for the 2008-09 school year creating structural uncertainties relative to whether or not certificated and instructional thresholds could be met because of the 5.4% variance in total funding for a school fiscal year which had already closed. These structural uncertainties and deferred payments from the state delays the information required to complete and submit the schools’ audited financials by approximately 6 months after the June close of the fiscal year. This resulted in the schools not knowing if they had met their certificated and instructional “thresholds” until half way through the following year.

The school determined that a 35% expend rate for certificated staff compensation would be the amount of flexibility needed due to the approximate 14.00% funding cuts the school received since 2008. We have reviewed all expenses and recognized certain fixed costs such as rent, maintenance and utilities remained relatively constant. Our relief would need to be from the variable certificated and instructional costs. The Charter School calculated a 12.5% reduction of certificated and instructional expenses would be sufficient. The school is requesting to maintain this relief for the new funding determination request for the fiscal year 2011/2012 for the duration of the funding determination approval.

</tr>
</tbody>
</table>

The school determined that a 61.25% expend rate for instructional compensation would be the amount of flexibility needed due to the approximate 14.00% funding cuts the school received since 2008. We have reviewed all expenses and recognized certain fixed costs such as rent, maintenance and utilities remain relatively constant. Our relief would need to be from the variable certificated and instructional costs. The Charter School calculated a 12.5% reduction of certificated and instructional expenses would be sufficient. The school is requesting to maintain this relief for the new funding determination request for the fiscal year 2011/2012 for the duration of the funding determination approval.

</tr>
<tr>
<td>61.25%</td>
<td>New Instructional Spending Requirement</td>
</tr>
</tbody>
</table>

The Charter School also requested to increase the reserve limit to 10% of the expenses in order for the Charter School to build a prudent reserve while experiencing funding cuts and payment delays. A 10% cash reserve over a 12 month fiscal calendar is a 1.2 month reserve which is necessary because of the significant delay in funding.

Options For Youth-Hermosa Beach opened its first center in September 2009 and is in the process of opening additional locations during the school year 2011-12, and as a non-classroom based program, OFY-Hermosa Beach is ineligible for Proposition 39 funding. Since 2009, Options For Youth-Hermosa Beach has grown by 90 ADA. This increase directly impacts the facilities of the Charter Schools, as they must ensure adequate room is available for the student population growth. Each new center has an initial opening start-up cost of $250K-$300K with additional monthly costs for the first year. The breakeven duration of a center is approximately 2 – 3 years.

Options For Youth-Hermosa Beach success in assisting students in graduation has been remarkable. OFY-Hermosa Beach served 510 students during the 2009-10 school year and graduated 19 students with a 88% socioeconomically disadvantaged student population (see attached). OFY-Hermosa Beach received a 2010 Growth API score of 632 and is ranked well within Jack O’Connell’s selection of Model Continuation High Schools (see attached).
A recent study by Dr. James Catteral, Professor at the Graduate School of Education and Information, University of California at Los Angeles focuses on benefits and costs of recovering school dropouts through societal, individual and various public services. Based on annual numbers of actual graduates, the benefit-cost ratio of dropout recovery through this charter school returns $4,000 for every $1,000 invested.

**Relief**

- **Spending on instructional costs**—Options For Youth-Hermosa Beach Public Charter Schools would be required to direct at least 61.25 percent of their expenditures on “instruction and related services” whereas current law requires spending at a 70 percent level for 85 percent funding. Options For Youth Public Charter Schools would have the option of averaging expenditures over any two consecutive years, that includes the current fiscal year and either the prior or successive fiscal year period to comply with expenditure requirements.

- **Spending on certificated staff compensation**—Options For Youth-Hermosa Beach Public Charter Schools spending on certificated staff compensation would be required to direct at least 35 percent of their expenditures toward eligible certificated staff costs whereas current law requires spending at a 40 percent level for 85 percent funding. To comply with the expenditure requirement, schools would have the option of averaging expenditures over any two consecutive years, that includes the current fiscal year and either the prior or successive fiscal year period to comply with expenditure requirements.

- **Reserves**—Options For Youth-Hermosa Beach Public Charter Schools would be permitted to establish and maintain budget reserves for economic uncertainty at a level of 10 percent of budgeted expenditures whereas current law establishes a 5 percent reserve threshold. This level of reserve would permit a modest degree of additional flexibility to enable the schools to establish more prudent reserves and to more readily “smooth” the impact of budget changes over a multi-year period.

- **One-time funding sources excluded**—when calculating the above spending targets and reserve thresholds, schools would be permitted to exclude “one-time” funding sources (e.g., federal stimulus funding).

- **Coping with cash flow deferrals**—for funding determination purposes, Options For Youth-Hermosa Beach Public Charter Schools would be permitted to book the receipt of deferred state funding on either an accrual or cash basis. Thus, schools would ultimately be required to still meet the expenditure targets specified above, but could defer booking of income into the year when the cash is actually received.

**Circumstance:**

Options For Youth-Hermosa Beach Public Charter Schools, in recent years, have experienced an increased number of students looking for alternative schooling options. In our current economy, there has been an additional influx of students who are working full time to support their families. Due to this increase, Options For Youth-Hermosa Beach Charter Schools have expanded their services, added new programs, expanded their hours of operations to include Saturday and night school and acquired new facilities. However, the funding cuts and deferred payments have placed a huge strain on the schools’ ability to meet the increasing demand of the at-
risk population of dropouts. In addition, the State of California has added a significant burden to charter schools when opening or expanding a location. This requirement, a “Conditional use Permit” is administered by each local municipality and has added additional time of approximately 6 months and increased costs by approximately 30% for each additional location.

Options For Youth – Hermosa Beach has experienced an ADA growth of 26.20% since September 2009. The additional growth has increased the Charter school’s required spending for Certificated Staff and Instructional costs as outlined by SB740. To provide the flexibility that is needed due to the approximate 14.00% funding cut from the State since 2008, and the 3-6 month delay in State funding payments, the Charter School requests the reserve limit to be increased to 10%. This increase will also allow the Charter School to provided relief in the certificated staff and instructional costs for economic uncertainties and future growth due to the increased at-risk student population. The 10% cash reserve over a 12 month fiscal calendar is a 1.2 month reserve which is necessary because of the significant delay in funding.

Relief

- **Allowable facilities expenditures**— Options For Youth Public Charter Schools would be given an additional option to count up to 60 (sixty) percent of their facilities costs as “instruction and related services” costs toward the above-referenced 61.25 percent spending target for instruction and related costs. The simple 60 percent formula proposed here would be an optional, alternative method that could be chosen in lieu of the existing facilities formula (schools would choose one of the two methods but could not combine them).

Given the unprecedented magnitude of the funding cuts and cash deferrals, and given the unstable and unpredictable nature of charter school funding streams, the above request represents a modest and reasonable adjustment to the pre-existing requirements for Options For Youth-Hermosa Beach Public Charter Schools to qualify for 85 percent funding under the funding determination process. We hope, the flexibility proposed here will strike a reasonable balance between the state’s desire to ensure that Options For Youth-Hermosa Beach Public Charter Schools’ funds are directed primarily for the benefit of students while still permitting a reasonable degree of flexibility and stability in an otherwise chaotic budgetary environment.
MEMORANDUM

TO: ADVISORY COMMISSION ON CHARTER SCHOOLS
FROM: JOAN HALL, PRESIDENT—OPTIONS FOR YOUTH-SAN BERNARDINO PUBLIC CHARTER SCHOOLS
SUBJECT: REQUEST FOR MITIGATING CIRCUMSTANCES FOR SB740 FUNDING DETERMINATIONS
DATE: 1/31/2011

This memo outlines Options For Youth-San Bernardino Public Charter Schools’ request for funding and operational flexibility through the “reasonable basis” provisions provided for in the regulations that govern the nonclassroom-based funding determination process.

Options For Youth Public Charter Schools appreciate the opportunity to request these mitigating circumstances that have resulted from the recent budget cuts due to the State’s economic crisis. However, the funding cuts and deferred payments have placed a huge strain on the schools’ ability to meet the increasing demand of the at-risk population of dropouts. In addition, the State of California has added a significant burden to charter schools when opening or
expanding a location. This requirement, a “Conditional use Permit” is administered by each local municipality and has added additional time of approximately 6 months and increased costs by approximately 30% for each additional location.

Options For Youth – Victor Valley has experienced a growth in ADA of 22.8% since July 2008. The additional growth has increased the Charter school’s required spending for Certificated Staff and Instructional costs as outlined by SB740. To provide the flexibility that is needed due to the approximate 14.00% funding cut from the State since 2008, and the 3-6 month delay in State funding payments, the Charter School requests the reserve limit to be increased to 10%. This increase will also allow the Charter School to provided relief in the certificated staff and instructional costs for economic uncertainties and future growth due to the increased at-risk student population. The 10% cash reserve over a 12 month fiscal calendar is a 1.2 month reserve which is necessary because of the significant delay in funding.

Relief

- **Allowable facilities expenditures**— Options For Youth Public Charter Schools would be given an additional option to count up to 60 (sixty) percent of their facilities costs as “instruction and related services” costs toward the above-referenced 61.25 percent spending target for instruction and related costs. The simple 60 percent formula proposed here would be an optional, alternative method that could be chosen in lieu of the existing facilities formula (schools would choose one of the two methods but could not combine them).

Given the unprecedented magnitude of the funding cuts and cash deferrals, and given the unstable and unpredictable nature of charter school funding streams, the above request represents a modest and reasonable adjustment to the pre-existing requirements for Options For Youth-Victor Valley Public Charter Schools to qualify for 85 percent funding under the funding determination process. We hope, the flexibility proposed here will strike a reasonable balance between the state’s desire to ensure that Options For Youth-Victor Valley Public Charter Schools’ funds are directed primarily for the benefit of students while still permitting a reasonable degree of flexibility and stability in an otherwise chaotic budgetary environment.
MEMORANDUM

TO: ADVISORY COMMISSION ON CHARTER SCHOOLS
FROM: JOHN HALL, PRESIDENT—OPPORTUNITIES FOR LEARNING—BALDWIN PARK PUBLIC CHARTER SCHOOLS
SUBJECT: REQUEST FOR MITIGATING CIRCUMSTANCES FOR SB740 FUNDING DETERMINATIONS
DATE: 1/31/2011

This memo outlines Opportunities For Learning-Baldwin Park Public Charter Schools' request for funding and operational flexibility through the “reasonable basis” provisions provided for in the regulations that govern the nonclassroom-based funding determination process.

Opportunities For Learning Public Charter Schools appreciate the opportunity to request these mitigating circumstances that have resulted from the recent budget cuts due to the State’s economic crisis. During the pendency of the budget crisis, Opportunities For Learning-Baldwin Park Public Charter School would be deemed to have met the requirements for eighty-five percent funding under the funding determination process providing they meet the below criteria in lieu of the ones currently specified by law. The “reasonable basis” would be deemed to exist until such time as funding for the Charter General-Purpose Grant and Categorical Block Grants return to levels specified in statute and confirmed by the ACCS.

Circumstance:

The schools face great uncertainty of further funding cuts for the 2011-12 school year, and it is generally understood and recommended that California’s charter schools anticipate a budget cut of 6.10%. The deferred payments of ADA, Supplemental and P2 adjustments account for 25.00% of the schools’ total revenue which is deferred until the next fiscal year, an increase from the 22.80% deferral in the prior years. Educational support organizations including, the CSDC School Services and the Department of Finance advised charter schools to develop a “two-track” budget proposal for the 2011-12 school year, one based on the Governor’s flat funding proposal and the second track based on an approximate budget cut of 6.10%, creating a total budget cut of approximately 14.00% since 2008. The unpredictable nature of the state’s budget also creates uncertainty of possible retroactive budget cuts. For example, schools were not informed until July 2009, that the expected 8% cut, would actually be only 2.6%, which created a 5.4% variance in total funding for the 2008-09
school year creating structural uncertainties relative to whether or not certificated and instructional thresholds could be met because of the 5.4% variance in total funding for a school fiscal year which had already closed. These structural uncertainties and deferred payments from the state delays the information required to complete and submit the schools’ audited financials by approximately 6 months after the June close of the fiscal year. This resulted in the schools not knowing if they had met their certificated and instructional “thresholds” until halfway through the following year.

The school determined that a 35% expend rate for certificated staff compensation would be the amount of flexibility needed due to the approximate 14.00% funding cuts the school received since 2008. We have reviewed all expenses and recognized certain fixed costs such as rent, maintenance and utilities remained relatively constant. Our relief would need to be from the variable certificated and instructional costs. The Charter School calculated a 12.5% reduction of certificated and instructional expenses would be sufficient. The school is requesting to maintain this relief for the new funding determination request for the fiscal year 2011/2012 for the duration of the funding determination approval.

</table>

The school determined that a 61.25% expend rate for instructional compensation would be the amount of flexibility needed due to the approximate 14.00% funding cuts the school received since 2008. We have reviewed all expenses and recognized certain fixed costs such as rent, maintenance and utilities remain relatively constant. Our relief would need to be from the variable certificated and instructional costs. The Charter School calculated a 12.5% reduction of certificated and instructional expenses would be sufficient. The school is requesting to maintain this relief for the new funding determination request for the fiscal year 2011/2012 for the duration of the funding determination approval.

<table>
<thead>
<tr>

<tr>
<td>(8.75%)</td>
<td>Less Reduction request of 12.5% (70% times 12.5%)</td>
</tr>
<tr>
<td>61.25%</td>
<td>New Instructional Spending Requirement</td>
</tr>
</tbody>
</table>

The Charter School also requested to increase the reserve limit to 10% of the expenses in order for the Charter School to build a prudent reserve while experiencing funding cuts and payment delays. A 10% cash reserve over a 12 month fiscal calendar is a 1.2 month reserve which is necessary because of the significant delay in funding.

Opportunities For Learning-Baldwin Park has opened 2 new locations in the past three years, and is in the process of opening an additional 2 locations during the school year 2011-12, and as a non-classroom based program, OFL-Baldwin Park is ineligible for Proposition 39 funding. In addition, the Charter School has also relocated 2 existing centers to accommodate student population growth. Each new center has an initial opening start-up cost of $250K-$300K with additional monthly costs for the first year. The breakeven duration of a center is approximately 2 – 3 years.

Opportunities For Learning-Baldwin Park success in assisting students in graduation has been remarkable. OFL-Baldwin Park graduated 594 students during the 2009-10 school year with a 72% socioeconomically disadvantaged student population (see attached). OFL-Baldwin Park has increased their API score by 82 basis point since 2008 and is ranked well within Jack O’Connell’s selection of Model Continuation High Schools (see attached). OFL-Baldwin Park met 14 out of 18 categories for AYP (Adequate Yearly Progress) in 2009-2010. OFL-Baldwin Park received a Similar Schools ranking of 10 out of a possible 10 by the CDE in 2010.
A recent study by Dr. James Catteral, Professor at the Graduate School of Education and Information, University of California at Los Angeles focuses on benefits and costs of recovering school dropouts through societal, individual and various public services. Based on annual numbers of actual graduates, the benefit-cost ratio of dropout recovery through this charter school returns $4,000 for every $1,000 invested.

**Relief**

- **Spending on instructional costs**—Opportunities For Learning-Baldwin Park Public Charter Schools would be required to direct at least 61.25 percent of their expenditures on "instruction and related services" whereas current law requires spending at a 70 percent level for 85 percent funding. Opportunities For Learning Public Charter Schools would have the option of averaging expenditures over any two consecutive years, that includes the current fiscal year and either the prior or successive fiscal year period to comply with expenditure requirements.

- **Spending on certificated staff compensation**—Opportunities For Learning-Baldwin Park Public Charter Schools spending on certificated staff compensation would be required to direct at least 35 percent of their expenditures toward eligible certificated staff costs whereas current law requires spending at a 40 percent level for 85 percent funding. To comply with the expenditure requirement, schools would have the option of averaging expenditures over any two consecutive years, that includes the current fiscal year and either the prior or successive fiscal year period to comply with expenditure requirements.

- **Reserves**—Opportunities For Learning-Baldwin Park Public Charter Schools would be permitted to establish and maintain budget reserves for economic uncertainty at a level of 10 percent of budgeted expenditures whereas current law establishes a 5 percent reserve threshold. This level of reserve would permit a modest degree of additional flexibility to enable the schools to establish more prudent reserves and to more readily "smooth" the impact of budget changes over a multi-year period.

- **One-time funding sources excluded**—when calculating the above spending targets and reserve thresholds, schools would be permitted to exclude "one-time" funding sources (e.g., federal stimulus funding).

- **Coping with cash flow deferrals**—for funding determination purposes, Opportunities For Learning-Baldwin Park Public Charter Schools would be permitted to book the receipt of deferred state funding on either an accrual or cash basis. Thus, schools would ultimately be required to still meet the expenditure targets specified above, but could defer booking of income into the year when the cash is actually received.

**Circumstance:**

Opportunities For Learning-Baldwin Park Public Charter Schools, in recent years, have experienced an increased number of students looking for alternative schooling options. In our current economy, there has been an additional influx of students who are working full time to support their families. Due to this increase, Opportunities For Learning-Baldwin Park Charter Schools have expanded their services, added new programs, expanded their hours of operations to include Saturday and night school and acquired new facilities. However, the funding cuts and deferred payments have placed a huge strain on the schools' ability to meet the increasing demand of the at-risk population of dropouts. In addition, the State of California has added a significant burden
to charter schools when opening or expanding a location. This requirement, a “Conditional use Permit” is administered by each local municipality and has added additional time of approximately 6 months and increased costs by approximately 30% for each additional location.

Opportunities For Learning – Baldwin Park will experience an ADA growth of 5.15% since July 2009 to the current fiscal year 2010-11. The additional growth has increased the Charter school’s required spending for Certificated Staff and Instructional costs as outlined by SB740. To provide the flexibility that is needed due to the approximate 14.00% funding cut from the State since 2008, and the 3-6 month delay in State funding payments, the Charter School requests the reserve limit to be increased to 10%. This increase will also allow the Charter School to provided relief in the certificated staff and instructional costs for economic uncertainties and future growth due to the increased at-risk student population. The 10% cash reserve over a 12 month fiscal calendar is a 1.2 month reserve which is necessary because of the significant delay in funding.

Relief

• Allowable facilities expenditures— Opportunities For Learning Public Charter Schools would be given an additional option to count up to 60 (sixty) percent of their facilities costs as “instruction and related services” costs toward the above-referenced 61.25 percent spending target for instruction and related costs. The simple 60 percent formula proposed here would be an optional, alternative method that could be chosen in lieu of the existing facilities formula (schools would choose one of the two methods but could not combine them).

Given the unprecedented magnitude of the funding cuts and cash deferrals, and given the unstable and unpredictable nature of charter school funding streams, the above request represents a modest and reasonable adjustment to the pre-existing requirements for Opportunities For Learning-Baldwin Park Public Charter Schools to qualify for 85 percent funding under the funding determination process. We hope, the flexibility proposed here will strike a reasonable balance between the state’s desire to ensure that Opportunities For Learning-Baldwin Park Public Charter Schools’ funds are directed primarily for the benefit of students while still permitting a reasonable degree of flexibility and stability in an otherwise chaotic budgetary environment.

In addition, the State of California has added a significant burden to charter schools when opening or expanding a location. This requirement, a “Conditional use Permit” is administered by each local municipality and has added additional time of approximately 6 months and increased costs by approximately 30% for each additional location.

Opportunities For Learning – Hermosa Beach has experienced an ADA growth of 489% since September 2009. The additional growth has increased the Charter school’s required spending for Certificated Staff and Instructional costs as outlined by SB740. To provide the flexibility that is needed due to the approximate 14.00% funding cut from the State since 2008, and the 3-6 month delay in State funding payments, the Charter School requests the reserve limit to be increased to 10%. This increase will also allow the Charter School to provided relief in the certificated staff and instructional costs for economic uncertainties and future growth due to the increased at-risk student population. The 10% cash reserve over a 12 month fiscal calendar is a 1.2 month reserve which is necessary because of the significant delay in funding.

Relief

- **Allowable facilities expenditures**— Opportunities For Learning Public Charter Schools would be given an additional option to count up to 60 (sixty) percent of their facilities costs as “instruction and related services” costs toward the above-referenced 61.25 percent spending target for instruction and related costs. The simple 60 percent formula proposed here would be an optional, alternative method that could be chosen in lieu of the existing facilities formula (schools would choose one of the two methods but could not combine them).

Given the unprecedented magnitude of the funding cuts and cash deferrals, and given the unstable and unpredictable nature of charter school funding streams, the above request represents a modest and reasonable adjustment to the pre-existing requirements for Opportunities For Learning-Hermosa Beach Public Charter Schools to qualify for 85 percent funding under the funding determination process. We hope, the flexibility proposed here will strike a reasonable balance between the state’s desire to ensure that Opportunities For Learning-Hermosa Beach Public Charter Schools’ funds are directed primarily for the benefit of students while still permitting a reasonable degree of flexibility and stability in an otherwise chaotic budgetary environment.
TO: ADVISORY COMMISSION ON CHARTER SCHOOLS
FROM: JOHN HALL, PRESIDENT—OPPORTUNITIES FOR LEARNING-SANTA CLARITA PUBLIC CHARTER SCHOOLS
SUBJECT: REQUEST FOR MITIGATING CIRCUMSTANCES FOR SB740 FUNDING DETERMINATIONS
DATE: 1/31/2011

This memo outlines Opportunities For Learning-Santa Clarita Public Charter Schools' request for funding and operational flexibility through the “reasonable basis” provisions provided for in the regulations that govern the nonclassroom-based funding determination process.

Opportunities For Learning Public Charter Schools appreciate the opportunity to request these mitigating circumstances that have resulted from the recent budget cuts due to the State’s economic crisis. During the pendency of the budget crisis, Opportunities For Learning-Santa Clarita Public Charter School would be deemed to have met the requirements for eighty-five percent funding under the funding determination process providing they meet the below criteria in lieu of the ones currently specified by law. The “reasonable basis” would be deemed to exist until such time as funding for the Charter General-Purpose Grant and Categorical Block Grants return to levels specified in statute and confirmed by the ACCS.

Circumstance:

The schools face great uncertainty of further funding cuts for the 2011-12 school year, and it is generally understood and recommended that California’s charter schools anticipate a budget cut of 6.10%. The deferred payments of ADA, Supplemental and P2 adjustments account for 25.00% of the schools’ total revenue which is deferred until the next fiscal year, an increase from the 22.80% deferral in the prior years. Educational support organizations including, the CSDC School Services and the Department of Finance advised charter schools to develop a “two-track” budget proposal for the 2011-12 school year, one based on the Governor’s flat funding proposal and the second track based on an approximate budget cut of 6.10%, creating a total budget cut of approximately 14.00% since 2008. The unpredictable nature of the state’s budget also creates uncertainty of possible retroactive budget cuts. For example, schools were not informed until July 2009, that the expected 8% cut, would actually be only 2.6%, which created a 5.4% variance in total funding for the 2008-09
school year creating structural uncertainties relative to whether or not certificated and instructional thresholds could be met because of the 5.4% variance in total funding for a school fiscal year which had already closed. These structural uncertainties and deferred payments from the state delays the information required to complete and submit the schools' audited financials by approximately 6 months after the June close of the fiscal year. This resulted in the schools not knowing if they had met their certificated and instructional "thresholds" until halfway through the following year.

The school determined that a 35% expend rate for certificated staff compensation would be the amount of flexibility needed due to the approximate 14.00% funding cuts the school received since 2008. We have reviewed all expenses and recognized certain fixed costs such as rent, maintenance and utilities remained relatively constant. Our relief would need to be from the variable certificated and instructional costs. The Charter School calculated a 12.5% reduction of certificated and instructional expenses would be sufficient. The school is requesting to maintain this relief for the new funding determination request for the fiscal year 2011/2012 for the duration of the funding determination approval.

<table>

</tbody>
</table>

The school determined that a 61.25% expend rate for instructional compensation would be the amount of flexibility needed due to the approximate 14.00% funding cuts the school received since 2008. We have reviewed all expenses and recognized certain fixed costs such as rent, maintenance and utilities remain relatively constant. Our relief would need to be from the variable certificated and instructional costs. The Charter School calculated a 12.5% reduction of certificated and instructional expenses would be sufficient. The school is requesting to maintain this relief for the new funding determination request for the fiscal year 2011/2012 for the duration of the funding determination approval.

<tr>
<td>(8.75%)</td>
<td>Less Reduction request of 12.5% (70% times 12.5%)</td>
</tr>
<tr>
<td>61.25%</td>
<td>New Instructional Spending Requirement</td>
</tr>
</tbody>
</table>

The Charter School also requested to increase the reserve limit to 10% of the expenses in order for the Charter School to build a prudent reserve while experiencing funding cuts and payment delays. A 10% cash reserve over a 12 month fiscal calendar is a 1.2 month reserve which is necessary because of the significant delay in funding.

Opportunities For Learning-Santa Clarita (William S. Hart) has opened 1 new locations in the past three years, and is in the process of opening an additional 1 location during the school year 2011-12, and as a non-classroom based program, OFL-Santa Clarita (William S. Hart) is ineligible for Proposition 39 funding. In addition, the Charter School has also relocated/expanded 2 existing centers to accommodate student population growth. Since 2008, Opportunities For Learning-Santa Clarita (William S. Hart) has grown by 546 ADA. This increase directly impacts the facilities of the Charter Schools, as they must ensure adequate room is available for the student population growth. Each new center has an initial opening start-up cost of $250K-$300K with additional monthly costs for the first year. The breakeven duration of a center is approximately 2–3 years.

Opportunities For Learning-Santa Clarita (William S. Hart) success in assisting students in graduation has been remarkable. OFL-Santa Clarita (William S. Hart) graduated 462 students during the 2009-10 school year with a 60% socioeconomically disadvantaged student population (see attached). OFL-Santa Clarita (William S. Hart) has increased their API score by 60 basis point since 2008 and is ranked well within Jack O'Connell's selection of Model Continuation High Schools (see attached).
OFL-Santa Clarita (William S. Hart) received a Similar Schools Ranking of 10 out of a possible 10 by the CDE in 2010.

A recent study by Dr. James Catteral, Professor at the Graduate School of Education and Information, University of California at Los Angeles focuses on benefits and costs of recovering school dropouts through societal, individual and various public services. Based on annual numbers of actual graduates, the benefit-cost ratio of dropout recovery through this charter school returns $4,000 for every $1,000 invested.

Relief

- **Spending on instructional costs**—Opportunities For Learning-Santa Clarita Public Charter Schools would be required to direct at least 61.25 percent of their expenditures on “instruction and related services” whereas current law requires spending at a 70 percent level for 85 percent funding. Opportunities For Learning Public Charter Schools would have the option of averaging expenditures over any two consecutive years, that includes the current fiscal year and either the prior or successive fiscal year period to comply with expenditure requirements.

- **Spending on certificated staff compensation**—Opportunities For Learning-Santa Clarita Public Charter Schools spending on certificated staff compensation would be required to direct at least 35 percent of their expenditures toward eligible certificated staff costs whereas current law requires spending at a 40 percent level for 85 percent funding. To comply with the expenditure requirement, schools would have the option of averaging expenditures over any two consecutive years, that includes the current fiscal year and either the prior or successive fiscal year period to comply with expenditure requirements.

- **Reserves**—Opportunities For Learning-Santa Clarita Public Charter Schools would be permitted to establish and maintain budget reserves for economic uncertainty at a level of 10 percent of budgeted expenditures whereas current law establishes a 5 percent reserve threshold. This level of reserve would permit a modest degree of additional flexibility to enable the schools to establish more prudent reserves and to more readily “smooth” the impact of budget changes over a multi-year period.

- **One-time funding sources excluded**—when calculating the above spending targets and reserve thresholds, schools would be permitted to exclude “one-time” funding sources (e.g., federal stimulus funding).

- **Coping with cash flow deferrals**—for funding determination purposes, Opportunities For Learning-Santa Clarita Public Charter Schools would be permitted to book the receipt of deferred state funding on either an accrual or cash basis. Thus, schools would ultimately be required to still meet the expenditure targets specified above, but could defer booking of income into the year when the cash is actually received.

**Circumstance:**

Opportunities For Learning-Santa Clarita Public Charter Schools, in recent years, have experienced an increased number of students looking for alternative schooling options. In our current economy, there has been an additional influx of students who are working full time to support their families. Due to this increase, Opportunities For Learning-Santa Clarita Charter Schools have expanded their services, added new programs, expanded their hours of operations to
include Saturday and night school and acquired new facilities. However, the funding cuts and deferred payments have placed a huge strain on the schools' ability to meet the increasing demand of the at-risk population of dropouts. In addition, the State of California has added a significant burden to charter schools when opening or expanding a location. This requirement, a "Conditional use Permit" is administered by each local municipality and has added additional time of approximately 6 months and increased costs by approximately 30% for each additional location.

Opportunities For Learning – William S. Hart has experienced an ADA growth of 25% since July 2008. The additional growth has increased the Charter school's required spending for Certificated Staff and Instructional costs as outlined by SB740. To provide the flexibility that is needed due to the approximate 14.00% funding cut from the State since 2008, and the 3-6 month delay in State funding payments, the Charter School requests the reserve limit to be increased to 10%. This increase will also allow the Charter School to provided relief in the certificated staff and instructional costs for economic uncertainties and future growth due to the increased at-risk student population. The 10% cash reserve over a 12 month fiscal calendar is a 1.2 month reserve which is necessary because of the significant delay in funding.

Relief

- **Allowable facilities expenditures**— Opportunities For Learning Public Charter Schools would be given an additional option to count up to 60 (sixty) percent of their facilities costs as "instruction and related services" costs toward the above-referenced 61.25 percent spending target for instruction and related costs. The simple 60 percent formula proposed here would be an optional, alternative method that could be chosen in lieu of the existing facilities formula (schools would choose one of the two methods but could not combine them).

Given the unprecedented magnitude of the funding cuts and cash deferrals, and given the unstable and unpredictable nature of charter school funding streams, the above request represents a modest and reasonable adjustment to the pre-existing requirements for Opportunities For Learning-Santa Clarita Public Charter Schools to qualify for 85 percent funding under the funding determination process. We hope, the flexibility proposed here will strike a reasonable balance between the state's desire to ensure that Opportunities For Learning-Santa Clarita Public Charter Schools' funds are directed primarily for the benefit of students while still permitting a reasonable degree of flexibility and stability in an otherwise chaotic budgetary environment.
ITEM 11
## SUBJECT

Charter Revocation and Revocation Appeals - Approve Commencement of a Fourth 15-Day Public Comment Period for Proposed Amendments to *California Code of Regulations*, Title 5 sections 11965, 11968.1, 11968.5.1, 11968.5.2, 11968.5.3, 11968.5.4, 11968.5.5, and 11969.1.

## RECOMMENDATION

The California Department of Education (CDE) recommends that the State Board of Education (SBE) take the following actions:

- Approve the proposed changes to the proposed regulations;
- Direct that the proposed changes be circulated for a fourth 15-day public comment period in accordance with the Administrative Procedure Act;
- If no relevant comments to the proposed changes are received during the fourth 15-day public comment period, the proposed regulations with changes are deemed adopted, and the CDE is directed to complete the rulemaking package and resubmit it to the Office of Administrative Law (OAL) for approval;
- If any relevant comments to the proposed changes are received during the fourth 15-day public comment period, the CDE is directed to place the proposed regulations on the SBE’s November 2011 agenda for action; and
- Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

## SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At its March 2008 meeting, the SBE directed the CDE to develop regulations to clarify and make specific subdivisions (c) through (j) of *California Education Code (EC)* Section 47607 regarding charter revocation and the revocation appeal process. In September 2008, the CDE drafted regulations and held two workgroup meetings in October and November 2008 with stakeholder groups to discuss the draft regulations and to incorporate stakeholder comments.
In December 2008 and April 2009, the Advisory Commission on Charter Schools (ACCS) considered the draft regulations that reflected stakeholder input. At both meetings, the ACCS held a full discussion of the draft regulations and requested additional amendments and clarification.

In July 2009, the CDE made significant revisions to the proposed regulations to streamline and clarify the draft regulations, and received direction from SBE staff to develop additional regulations that address revocation pursuant to EC Section 47604.5, and revocation of statewide benefit charters. The CDE presented an update item to the SBE at its September 2009 meeting to inform the SBE of CDE’s progress on the new proposed charter revocation regulations package.

At its January 2010 meeting, the SBE considered a proposed regulations package concerning charter revocation under EC sections 47607 and 47604.5(a) and (b). The SBE directed the CDE to again consult with stakeholder groups and return to the March 2010 SBE meeting with a revised regulations package that would incorporate additional stakeholder input.

The CDE held meetings with stakeholders on January 15, 2010, January 25, 2010, and February 22, 2010. The CDE incorporated a majority of the consensus views expressed during the meetings with stakeholders, as well as written comments received from stakeholders after those meetings, into the proposed regulations package.

At its May 2010 meeting, the SBE approved the commencement of the rulemaking process for this regulations package. The 45-day public closed on July 6, 2010. The CDE received substantive public comments and proposed changes to the regulations package. The SBE approved the proposed changes at its September 2010 meeting and directed that the package be circulated for a 15-day public comment period in accordance with the Administrative Procedure Act. The 15-day public comment period closed on October 18, 2010. The SBE approved the proposed changes at its November 2010 meeting and directed that the package be circulated for a second 15-day public comment period. The second 15-day public comment period closed on November 29, 2010. As no relevant comments were received during the second 15-day public comment period, the CDE submitted the rulemaking package to OAL for approval. The SBE was notified on March 25, 2011, that OAL had rejected the rulemaking package. Details regarding the OAL decision are included as Attachment 3. At its July 2011 meeting, the SBE approved revisions to the proposed regulations and directed the CDE to circulate the revisions for a third 15-day public comment period that ended August 2, 2011.

It should be noted that the SBE also commenced the rulemaking process for a second set of charter revocation regulations. In December 2009, the SBE took action to begin the rulemaking process for the adoption of regulations pursuant to subdivision (c) of EC Section 47604.5 that would allow for the revocation of academically low-performing charter schools. The 45-day public comment period for this regulations package began
on March 20, 2010, and closed on May 14, 2010. At its July 2010 meeting, the SBE approved the commencement of a 15-day public comment period for these regulations, which began on July 19, 2010, and closed on August 3, 2010. At its September 2010 meeting, the SBE approved the commencement of a second 15-day public comment period, which began on October 2, 2010, and closed on October 18, 2010. After considering comments received during the second 15-day public comment period at its November 2010 meeting, the SBE approved the adoption of the proposed regulations and the Final Statement of Reasons, directed the CDE to submit the rulemaking file to the OAL for approval, and authorized the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file. These regulations were filed by the OAL on January 14, 2011, and became operative on February 13, 2011.

SUMMARY OF KEY ISSUES

*EC* sections 47607(c) through 47607(g) provide the criteria for revocation of a school’s charter by a chartering authority and the process by which a school may appeal a revocation decision to a county board of education and/or the SBE.

Through this rulemaking process, the SBE proposes to amend Article 2 and add Article 2.5 to Subchapter 19 of Chapter 11 of Division 1 of the *California Code of Regulations*, Title 5. The proposed regulations clarify and make specific the provisions of *EC* sections 47604.5 and 47607 regarding the process and timelines for revocation of a school’s charter, and the appeals process up to and including the SBE.

Amendments to Article 2 provide the definitions necessary to carry out the revocation and revocation appeals process proposed in this rulemaking package.

Proposed Article 2.5 contains five new provisions that are intended to:

- Establish the procedures the CDE shall complete prior to when the State Superintendent of Public Instruction (SSPI) makes a recommendation to the SBE to take appropriate action, including, but not limited to, revocation of a school’s charter under subdivisions *EC* Section 47604.5.

- Establish the procedures a chartering authority shall complete for the revocation of a school’s charter pursuant to *EC* Section 47607(c).

- Establish the procedures the chartering authority shall complete for the revocation of a school’s charter when a chartering authority has determined that any violation under *EC* Section 47607(c) constitutes a severe and imminent threat to the health or safety of pupils and establish the procedures for a charter school to appeal a revocation decision to a county board of education or the SBE.
SUMMARY OF KEY ISSUES (Cont.)

- Establish the procedures for a charter school to appeal to a county board of education a district chartering authority’s final decision to revoke the school’s charter.

- Establish the procedures for a charter school or district chartering authority to appeal a revocation decision to the SBE.

On March 25, 2011, the OAL notified the SBE of the disapproval of the regulations package due to the following issues, which are described in detail in the Decision of Disapproval of Regulatory Action (Attachment 4):

- Failure to comply with the “clarity” standard of Government Code section 11349.1;

- Failure to adequately summarize and respond to all the public comments received regarding the proposed action;

- Documents in the rulemaking file which are defective; and

- Failure to comply with all required Administrative Procedure Act procedures.

CDE staff met with staff from the OAL to discuss these deficiencies. Because several of the remedies for these issues required substantive revision of the rulemaking file, a third 15-day public comment period is required. The SBE would have 120 days from the receipt of the Decision of Disapproval of Regulatory Action to approve the third public comment period, subsequently approve a revised Final Statement of Reasons and proposed regulations, and submit the rulemaking file to OAL.

Because the 120-day time period expired on July 23, 2011, the CDE recommended and the SBE approved at its July 14, 2011, meeting, that the CDE request an extension from the OAL. This request was granted by the OAL, which extended the deadline to November 25, 2011.

To address public comment made during the third 15-day public comment period, CDE revised the rulemaking package and recommends that the SBE approve the revisions to the proposed regulations and direct the CDE to circulate the proposed changes for a fourth 15-day public comment period. If no relevant comments to the proposed changes are received during the fourth 15-day comment period, the CDE recommends that the SBE direct the CDE to place the proposed regulations on the SBE’s November 2011 agenda for action.
A Fiscal Impact Statement was provided as an Item Addendum at the May 2010 SBE meeting. The first Fiscal Impact Statement states that the proposed amendments to the regulations in proposed Section 11968.5 would add additional costs upon the state, as the activities identified are new to the CDE. The additional workload would be based upon the number of schools identified as in violation of EC Section 47604.5. It is estimated that it would cost one full-time consultant, or approximately $150,000, for every five schools identified in violation of EC Section 47604.5.

Due to extensive substantive edits, a second Fiscal Impact Statement was provided at the July 14, 2011, SBE meeting. A revised version of that Fiscal Impact Statement is included as Attachment 5.

ADDENDUM TO FINAL STATEMENT OF REASONS
Charter Revocation and Revocation Appeals

UPDATE OF THE INITIAL STATEMENT OF REASONS

Through this rulemaking process, the State Board of Education (SBE) proposes to amend Article 2 and add Article 2.5 to Subchapter 19 of Chapter 11 of Division 1 of the California Code of Regulations, Title 5. The proposed regulations clarify and make specific the provisions of Education Code section 47607, subdivisions (c) through (g), which provide the criteria for revocation of a school’s charter by a chartering authority, the process by which the SBE may revoke a charter based on the recommendation of the State Superintendent of Public Instruction (SSPI) pursuant to Education Code section 47604.5, and the process by which a school may appeal a revocation decision to a county board of education and/or the SBE.

Amendments to Article 2 provide the definitions necessary to carry out the revocation and revocation appeals process proposed in this rulemaking package.

Proposed Article 2.5 contains five new provisions.

Section 11968.5.1 sets forth the procedures the CDE shall complete prior to when the SSPI makes a recommendation to the SBE to take appropriate action, including, but not limited to, revocation of a school’s charter under Education Code section 47604.5.

Section 11969.1 establishes the procedures a chartering authority shall complete for the revocation of a school’s charter pursuant to Education Code section 47607(c).

Section 11969.2 establishes the procedures the chartering authority shall complete for the revocation of a school’s charter when a chartering authority has determined that any violation under Education Code section 47607(c) constitutes a severe and imminent threat to the health or safety of pupils and establishes the procedures for a charter school to appeal a revocation decision to a county board of education or the SBE.

Section 11969.3 establishes the procedures by which a charter school appeals a district chartering authority’s final decision to revoke the school’s charter to a county board of education.

Section 11969.4 establishes the procedures for a charter school or district chartering authority to appeal a revocation decision to the SBE.

After the second 15-day comment period, the following changes were made to the proposed text of the regulations and sent out for a third 15-day comment period:

- Renumbering and/or re-lettering changes were made throughout the regulations to accommodate amendments and deletions;
- “individualized education program” was changed to “IEP”;
• “charter school’s board or the governing entity” to “charter schools’ governing body as described in the school’s charter”;
• charter “authority” was changed to charter “authorizer”;

These changes were made throughout the regulations for clarity and consistency. In addition, various grammatical changes were made throughout these sections.

**Section 11965** is amended to add “Articles 1 and 2” in the introduction. This is necessary as these definitions also apply only to these articles.

**Section 11965(e)(4)** is amended to include the words “severe and imminent” in the phrase “poses a threat.” This revision addresses public comment and aligns more closely with statutory language.

**Section 11968.5.1(a)** is amended to remove “the SBE charter liaison(s)”. This is necessary because this term is not defined in current law or regulation. In addition, the written notice is to be delivered to the SBE Executive Director, who can direct it internally as needed.

**Section 11968.5.2(f)** is amended to remove the statement, “At any hearing concerning the revocation of a charter school, the charter school shall be allowed equal time to present and rebut prior to the close of the hearing.” The removal of this language is necessary to address public comment made during the 15-day comment period and to reconcile the CDE’s opinion with the proposed regulations. After the initial 45-day public comment period, the SBE directed the CDE to add this language. However, after further public comment and discussion with OAL, the CDE recommends its original opinion in this matter, which is that the SBE does not have jurisdiction over how local boards conduct their meetings.

**Section 11968.5.3** is amended to remove “section 11968.5.6” because this section does not exist. In addition, to provide clarity regarding the appeals process when charter schools have been revoked due to a severe and imminent threat to pupil health or safety, and in response to public comment, this section was revised. A process that mirrors the appeal process in section 11968.5.5 and clarifies the differences in the appeal process when a charter has been revoked due to a severe and imminent threat to pupil health or safety was added.

**Section 11968.5.3(d)** is added to clarify that the 90-day review period begins when a Notice of Appeal “that includes the documents listed in subdivision (c) of this section” is received by the county board of education. The language “that includes the documents listed in subdivision (c) of this section” to make clear the required documentation that must accompany an appeal.

**Section 11968.5.4(b)** is amended to remove the word “complete” before “Notice of Appeal” and to clarify that the 90-day review period begins when a Notice of Appeal “that includes the documents listed in subdivision (a) of this section” is received by the
county board of education. The words “to the county board of education” are deleted because this is redundant in its context and by deleting will improve the subsection’s clarity. Finally, the language “that includes the documents listed in subdivision (a) of this section” to make clear the required documentation that must accompany an appeal.

Sections 11968.5.5(b) through (e) are amended to provide clarity and consistency regarding the requirements for submitting documents. 

Section 11968.5.5(b)(1) is amended to remove “The appellant’s Notice of Appeal to the SBE, which shall include” due to redundancy of section 11968.5.5(b).

Section 11968.5.5(b)(6) is amended to replace “should” with “shall.” This is necessary for consistency within this section.

Section 11968.5.5(e)(4) is amended from “appellant” to “respondent” due to a typographical error.

The NOTE in Section 11968.5.5 was amended due to a typographical error.

AMENDMENTS TO RESPONSE TO COMMENTS SUBMITTED DURING PUBLIC COMMENT PERIODS

The following responses to comments have either been amended or the comments were inadvertently not responded to in the Final Statement of Reasons.

* * * * * * * * * *

COLIN A. MILLER, CALIFORNIA CHARTER SCHOOLS ASSOCIATION
Original Response and Comment

Comment B3, Section 11969.2: Mr. Miller states, “An authorizer that finds that a violation constitutes a ‘severe and imminent threat to the health or safety of its pupils’ may only bypass the Notice to Cure provisions in Education Code section 47607(d). The provisions of EC section 47607(e) still apply to any charter school that is being considered for revocation.” All charter schools being considered for revocation should receive a Notice of Intent to Revoke and have a public hearing regarding the allegations prior to the authorizer’s action to revoke.

Reject: The CDE disagrees with Mr. Miller’s interpretation of the statute. As such, the CDE rejects the proposed edits as inconsistent with the revocation procedures set forth in Education Code section 47607.

Amended Response: 

Reject: The CDE disagrees with Mr. Miller’s interpretation of the statute. Education Code section 47607(e) applies to situations when a chartering authority revokes a charter pursuant to subdivision (d) of this section. Education Code section 47607(d) excepts from its provisions violations constituting a severe and imminent threat to the
health and safety of pupils. As such, a Notice of Intent to Revoke and a public hearing may not be required.

* * * * * * * * * * * *
Comment: “Page 2, line 21: Inclusion of ‘severe’ is necessary to more closely align with the statutory language.”
Accept: The CDE has revised this language as to align with the statutory language.

* * * * * * * * * * * *
Comment: “Page 5, line 10: We suggest addition of the ‘charter authority’ to assure all affected parties are notified. Conforming amendments are suggested in other places in the draft.”
Reject: The CDE believes that this exceeds the requirements for revocation set forth in Education Code section 47607.

* * * * * * * * * * * *
Comment: “Page 7, line 8: We suggested deleting the word ‘detailed’ as this is a subjective and unnecessary qualifier with no basis in the law. We are concerned that under this language, a charter authority could simply reject a response as not being ‘detailed’ enough. In addition, the chartering authority isn’t subject to the same ‘detailed’ requirement in its Notice of violation, so the charter could be put in a position of trying to provide a ‘detailed’ response to a very vague Notice. Charter schools should be able to gauge the appropriate level of detail necessary to be compelling to its authorizer. Therefore, ‘detailed’ should be deleted from this phrase.”
Reject: The CDE finds that a common definition of “detailed” (as found in the American Heritage dictionary to be “having many details” or “thorough in the treatment of details”) provides direction regarding the expectations for the charter’s response. In addition, the appeals process provides a recourse for charter schools that have been unreasonably rejected due to lack of detail.

* * * * * * * * * * * *
Comment: “Page 8, line 6-12, page 10, line 26-32: In the pending legal challenge in the ‘Today’s Fresh Start vs. Los Angeles County Board of Education’ the trial court found that the revocation hearing must be impartial by a 3rd party, giving the charter school an opportunity to refute the evidence. This section could be impacted by the outcome of the LACOE v. TFS legal case. We suggest the addition of this language to address some of the issues raised in that case as they relate to sufficient notice and receipt of all evidence against the charter, and the opportunity to respond to the evidence presented to the board. We believe this language also is consistent with the intent of this law and these regulations to ensure fair and transparent due process in this matter.”
Reject: These regulations reflect the CDE’s position on revocation. The CDE does not write regulations based on pending litigation.
Original Comment and Response:

Comment B29, Section 11969.3(a): Mr. Miller suggests adding section (8) to read, “If the school was revoked pursuant to 11969.2, provides all information the chartering authority relied on in making the determination of a ‘Severe and Imminent Threat to the Health and Safety of the pupils’.”

Reject: The CDE believes that the proposed regulations already provide a clear appeal process for charter schools that are revoked pursuant to section 11969.2. It is clear in section 11969.2 that the appeal process shall follow the provisions in proposed sections 11969.3, 11969.4, and 11969.5.

Amended Response:
Partially Accept: The CDE has revised section 11968.5.3 to include a process for charter schools that have been revoked due to severe and imminent threat to the health and safety of pupils. This process mirrors the process set forth in section 11968.5.5, but is adapted to address the difference in the documents that would be available if the charter were revoked due to severe or imminent threat to pupils.

Comment: “Page 11, line 4: We suggest deleting the word ‘complete’ as this is a subjective and unnecessary qualifier with no basis in the law. We are concerned that under this language, a Notice of Appeal could be rejected simply for not being ‘complete’ and not receive the necessary due process considerations. Charter schools should be able to gauge the appropriate level of detail necessary to be compelling to the entity receiving the appeal.”

Accept: The CDE has revised this section to remove the word “complete” and to specify that the Notice of Appeal must include all of the items as required in subdivision (a) of this section.

Original Comment and Response:

Comment B30, Section 11969.3: Mr. Miller suggests adding a new subdivision (c) to read, “The county board shall hold a public hearing to consider the appeal within 60 days of receipt of a Notice of Appeal. No later than 10 days before the public hearing, the county board shall provide the charter school with all documents and materials that will be used to consider the appeal. At the public hearing, the county board shall present the evidence and representatives of the charter school and of the general public shall have an equal opportunity to address the board regarding the allegations and the evidence presented.”
Reject: The suggested new section exceeds the statutory language in Education Code section 47607(f)(3) that provides a county board of education the option to not act on an appeal of a charter revocation.

Amended Response:
Reject: The suggested new section exceeds the statutory language in Education Code section 47607(f)(3) that provides a county board of education the option to not act on an appeal of a charter revocation. Therefore, any language that hinges upon the county board taking action also exceeds the statutory authority. In addition, the CDE has no jurisdiction over how local boards conduct their meetings. California Education Code section 47608 specifies that all meetings of the governing boards of the school district and the county board of education shall comply with the Ralph M. Brown Act (Brown Act). Section 54954.3(b) of the Brown Act authorizes these bodies to adopt regulations to assist in processing comments from the public and specifies that the bodies may establish procedures for public comment as well as specifying reasonable time limitations on particular topics or individual speakers.

* * * * * * * *

Comment: “Page 12, lines 29-31, and page 13, lines 1-29. It is unclear why this additional back and forth is included in the state board appeal, but not at the county level. While we have not suggested specific amendments to this section, in response to our concern noted in item #3 above, we suggest the board seriously consider the value of this additional process against the timeliness of a decision. Because the state board already has the benefit of the county review, it seems it may be able to reach its decision in a timelier manner and the additional timelines and back and forth could be eliminated from the regulations altogether. While we support the opportunity for all parties to provide information to the board, we believe that a much simpler and streamlined approach could achieve that goal and lead to a fair decision sooner.
Reject: The CDE believes that the SBE is the final level of appeal and this timeline allows for a thorough review of all evidence presented.

* * * * * * * *

PAUL C. MINNEY – MIDDLETON, YOUNG & MINNEY, LLP

Original Comment and Response

Comment C6, Section 11965(d)(1) and (f)(2): Mr. Minney suggests adding “and reviewed” after “upon” and inserting “in an open public meeting” after “chartering authority.”
Reject: The CDE believes that the proposed regulations clearly define the Notice of Intent to Revoke as a written notice, which clarifies the statutory language. When a governing board of a school district or a county board of education acts on an item, it must do so in public meeting and properly noticed in accordance with the Brown Act, and as required by Education Code section 47608. The CDE believes that adding Mr.
Minney’s proposed comment would exceed the requirements of the Brown Act and Education Code section 47608.

**Amended Response:**

**Reject:** The CDE believes that the proposed regulations clearly define the Notice of Intent to Revoke and **Notice of Violation** as a written notices, which clarifies the statutory language. When a governing board of a school district or a county board of education acts on an item, it must do so in public meeting and properly noticed in accordance with the Brown Act, and as required by Education Code section 47608. The CDE believes that adding Mr. Minney’s proposed comment would exceed the requirements of the Brown Act and Education Code section 47608.

**STEPHANIE MEDANO FARLAND – CALIFORNIA SCHOOL BOARDS ASSOCIATION**

**Original comment and Response**

**Comment, Section 11968.5.2(f):** Ms Farland writes that proposed section 11968.5.2(f) conflicts with existing Brown Act provisions that authorize the governing board to adopt reasonable regulations regarding the conduct of its meetings. She notes that the proposed section specifies public hearing requirements that go beyond the requirement in the Brown Act. She also notes that the additional requirements would be deemed a reimbursable state mandate.

**Reject:** The proposed section requires a chartering authority to provide the charter school with time equal to that of the chartering authority to present arguments and rebut arguments at any hearing related to charter revocation. This is necessary to ensure that a charter school has a reasonable opportunity to present its case before a chartering authority at the public hearing, and protects the due process interests of a charter school that is facing the possible revocation of its charter.

**Amended Response:**

**Accept:** The CDE revised section 11968.5.2(f) to remove the provision for equal time.

**SUMMARY AND RESPONSE TO COMMENTS RECEIVED DURING THE THIRD 15-DAY COMMENT PERIOD OF JULY 22, 2011, THROUGH AUGUST 2, 2011, INCLUSIVE.**

The amended regulations were made available for public comment for 15 days from July 22, 2011, through August 2, 2011. Three written comment letters were received during that time. Pursuant to California Government Code sections 11346.9(a)(3) and (a)(5), the CDE has summarized and responded to the written comments as follows:
JUDY HIGELIN, CHARTER SCHOOL OFFICE, LOS ANGELES COUNTY OFFICE OF EDUCATION

Comment A1, Section 11969.2: Ms. Higelin provided a link to the court opinion referenced by Mr. Miller in support of the CDE response to his request to consider the pending legal challenge in the ‘Today’s Fresh Start vs. Los Angeles County Board of Education’ case.
Accept/Reject: The CDE appreciates Ms. Higelin’s comment.

SHERRY SKELLY GRIFFITH, ACSA

Comment B1, Section 11965(e)(4): Ms. Skelly Griffith expresses concern regarding the phrase “and where the charter school has made no reasonable attempt to remedy the condition or no remedy exists to cure the condition” in the definition of “a severe and imminent threat to pupil health or safety” as it may be interpreted to mean that a charter authorizer must demonstrate that the charter school has made no attempt to remedy. Ms. Skelly Griffith suggests that critical time may be lost by this definition and recommends striking the phrase out of the definition.
Reject: The CDE disagrees with Ms. Skelly Griffith’s argument as her revision would allow a chartering authority to immediately revoke a charter for threats that may be either ephemeral in nature or beyond the control of a charter school. For example, a natural disaster or accident could cause a temporary threat to the health and safety of pupils; however, if the charter school is making reasonable attempts to remedy the condition and ensure pupil safety, these types of events should not constitute grounds for revocation under this section of statute.

Comment B2, Section 11968.5.2(f): Ms. Skelly Griffith supports the CDE’s decision to delete the provision regarding fair and equal time for charter schools to present at local public hearings.
Accept: The CDE appreciates Ms. Skelly Griffith’s support.

Comment B3, Section 11968.5.3(c)(1): Ms. Skelly Griffith suggests deleting the phrase “except that the charter school shall not be responsible for providing these documents if they chartering authority did not provide them to the charter school as required by this section” from this section as the chartering authority is required to provide a notice; therefore, the charter school should be required to include it with its appeal.
Reject: The CDE rejects this recommendation as a charter school cannot be held responsible if a chartering authority failed to provide a document to the charter school. Without this provision, a district could prevent a charter school from appealing a decision by failing to provide written notice to the charter school.

Comment B4, Section 11968.5.3(f): Ms. Skelly Griffith states that there is no language in the definitions section that defines “procedural deficiency” and as such, the section should be struck or a definition be developed.
Reject: The CDE rejects this recommendation as it finds the definition of “procedural deficiency” to be frequently used and reasonably apparent.

BRIAN RIVAS, CSBA
Comment C1, Section 11968.5.3(c)(6): Mr. Rivas states that the proposed regulations place too much emphasis on review for procedural errors in the appeals process when pupil health and safety may be at risk and requests that subdivision (c)(6) be deleted to maintain the focus of an appellate review on factual findings rather than procedure. **Reject:** The CDE rejects this recommendation as this subdivision relates to the appeal process for charter schools that have been revoked. This provision in the appeal process would not hinder a chartering authority from immediately revoking a charter school due to a severe or imminent threat. If a charter school alleges that a procedural error has taken place, the school should have the right to present that allegation as part of its appeal to a county office. While a county office could consider such alleged procedural allegations, there is no reason to believe it could not focus its consideration on the factual findings if it saw fit to do so.

Comment C2, Section 11968.5.3(e): Mr. Rivas states that a public hearing is not required when a charter school has been revoked due to severe and imminent threat; therefore, “a public hearing” should be deleted from the list of things a county board shall consider in an appeal. **Reject:** The CDE agrees with Mr. Rivas and has amended the regulations accordingly.

Comment C3, Section 11968.5.3(f): Mr. Rivas recommends that subdivision (f) be deleted from the proposed regulations as this subdivision may be interpreted to require a charter authorizer to provide a charter school an opportunity to refute or remedy a condition before revocation and a charter authorizer must be able to act expediently. He adds that the definition of a severe an imminent threat should also be revised to delete the reference that “a charter school has made no reasonable attempt to remedy the condition or no remedy exists to cure the condition” as a charter school in this situation is not allowed an opportunity to refute or remedy. **Reject:** The CDE agrees with Mr. Rivas and has amended the regulations accordingly.

**COLIN MILLER, CALIFORNIA CHARTER SCHOOLS ASSOCIATION**

Comment D1, Section 11968.5.2: There appears to be an error and language was inadvertently left out of the last sentence after “except for charter revocation.” **Accept:** The CDE accepts Mr. Miller’s comment and has corrected the omission by adding “when the violation constitutes a severe and imminent threat to the health or safety of pupils” to the end of that sentence.

Comment D2, Section 11968.5.2(a): “School board” should be changed to “chartering authority” to be consistent with the rest of the regulations. **Accept:** The CDE accepts Mr. Miller’s comment and has made the revision suggested.

**AFTER THE THIRD 15-DAY COMMENT PERIOD, THE FOLLOWING CHANGES WERE MADE TO THE PROPOSED TEXT OF THE REGULATIONS AND SENT OUT FOR A FOURTH 15-DAY COMMENT PERIOD.**

After the third 15-day comment period, the following changes were made to the proposed text of the regulations and sent out for a fourth 15-day comment period:
• Renumbering and/or re-lettering changes were made throughout the regulations to accommodate amendments and deletions;

These changes were made throughout the regulations for clarity and consistency.

SECTION 11968.5.2 is amended to correct an inadvertent error by adding “when the violation constitutes a severe and imminent threat to the health or safety of pupils” to the end of the last sentence. This is necessary to clarify the narrow set of circumstances to which these revocation procedures do not apply.

SECTION 11968.5.2(a) is amended to change “school board” to “chartering authority” to add consistency to the regulations.

SECTIONS 11968.5.3(c)(6) and (f) are deleted to correct its inadvertent insertion into the regulations. This deletion is necessary because there are no procedural difficulties which can impact a charter school’s ability to refute or remedy the alleged violation as the authorizer is permitted to immediately revoke without an opportunity to remedy or refute.

SECTION 11968.5.3(e) is amended to delete references to a public hearing and Final Decision. This is necessary because the requirements of Education Code section 47607(e) are not applicable to a revocation based on a severe and imminent threat as section 47607(e) is contingent upon a failure to remedy which is not afforded to a charter school under these circumstances.

ALTERNATIVES DETERMINATION

The SBE has determined that no alternative would be more effective in carrying out the purpose for which the regulation is proposed or would be as effective and less burdensome to affected private persons than the proposed regulation.

LOCAL MANDATE DETERMINATION

The proposed regulations do not impose any mandate on local agencies or school districts.
• The State Board of Education has illustrated changes to the original text in the following manner: text originally proposed to be added is underlined; text proposed to be deleted is displayed in strikeout.
• The 15-day text proposed to be added is in "**bold underline**", deleted text is displayed in "**bold strikeout**".
• The 2nd 15-day text proposed to be added is in "**bold double underline**"; deleted text is displayed in "**bold double strikethrough**".
• The 3rd 15-day text proposed to be added is in "**underlined and shaded**", deleted text is "**strikeout and shaded**."
• The 4th 15-day text proposed to be added is in "**underlined, shaded and bold**", deleted text is "**strikeout shaded and bold**." 

Title 5. EDUCATION
Division 1. California Department of Education
Chapter 11. Special Programs
Subchapter 19. Charter Schools
Article 2. General Provisions

§11960. Regular Average Daily Attendance for Charter Schools.

... (c)(1) Beginning in 2004-05, a pupil who is over the age of 19 years may generate attendance for apportionment purposes in a charter school on fewer than 175 calendar days during that fiscal year.

(A) The pupil was enrolled in a public school in pursuit of a high school diploma (or, if a student in special education, an individualized education program (IEP) or while 19 years of age and, without a break in public school enrollment since that time, is enrolled in the charter school and is making satisfactory progress towards award of a high school diploma (or, if a student in special education, satisfactory progress in keeping with an individualized education program IEP consistent with the definition of satisfactory progress set forth in subdivision (b)(h) of §11965.

... 

§ 11965. Definitions.
For the purposes of this Articles 1, 2 and Article 2.5, the following definitions shall apply:

(a) "Chartering authority" means the entity that grants a school's charter and
includes the following:

(1) “County chartering authority” means a county board of education that has granted a school’s charter. In making specific the provisions of Education Code section 47607(g)(1), these regulations use the term “county chartering authority” where Education Code section 47607(g)(1) uses the term “county office of education.”

(2) “District chartering authority” means the governing board of a school district that has granted a school’s charter. In making specific the provisions of Education Code section 47607(f)(1), these regulations use the term “district chartering authority” where Education Code section 47607(f)(1) uses the term “school district.”

(3) “State chartering authority” is the State Board of Education (SBE) when the SBE has granted a school’s charter. The SBE acts as a state chartering authority when it approves the operation of a charter school that has been denied by a local educational agency (LEA) and when it approves the operation of a state charter school pursuant to Education Code section 47605.8.

(b) “Final Decision” means the final written decision of the chartering authority to either revoke or decline to revoke a school’s charter.

(c) “Notice of Appeal to the State Board of Education” means a written document notifying the county board of education or the SBE, as appropriate, that the charter school’s governing body as described in the school’s charter, or the district chartering authority entity noticing the SBE is appealing the decision to revoke or reverse the revocation of a school’s charter.

(d) “Notice of Intent to Revoke” means the written notice of a chartering authority’s decision to pursue revocation of a school’s charter due to the charter school’s failure to remedy one or more violations identified in the Notice(s) of Violation. This notice shall identify all of the following:

(1) All evidence relied upon by the chartering authority in determining that the charter school failed to remedy a violation pursuant to this section;

(2) The date and time at which the chartering authority will hold a public hearing concerning revocation, which shall be held no more than 30 calendar days after the chartering authority issues this notice.

(e) “Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil
Health or Safety” means the written notice of a chartering authority’s decision to revoke
a school’s charter due to a severe and imminent threat to the health or safety of the
pupils. This notice shall identify all of the following:

(1) The location of the facility;
(2) The provisions of Education Code section 47607(c) that the charter school has
violated and a description of the emergency or urgent conditions that has have resulted
from this violation;
(3) A description of how the condition(s) identified in subdivision (2) severely and
imminently threatens the health or safety of pupils.
(4) For purposes of this article, “a severe and imminent threat to pupil health or
safety” occurs when a charter school’s structures, systems or practices are in a
condition that poses a severe and imminent threat to the health or safety of pupils while
at school, and where the charter school has made no reasonable attempt to remedy the
condition or no remedy exists to cure the condition.
(5) For purposes of this article, “a severe and imminent threat to pupil health or
safety” does not include any cosmetic or nonessential repairs or severe threats for
which the school has initiated corrective action and has removed the pupils from any
immediate danger.
(f) “Notice of Violation” means the written notice of a chartering authority’s
identification of one or more specific alleged violations by the charter school based on
the grounds for revocation specified in Education Code section 47607(c). This notice
shall identify all of the following:
(1) The charter school’s alleged specific material violation of a condition, standard,
or procedure set out in the school’s charter pursuant to Education Code section
47607(c)(1); the specific pupil outcome(s) identified in the school’s charter that the
charter school allegedly failed to meet or pursue pursuant to Education Code section
47607(c)(2); the charter school’s alleged fiscal mismanagement or specific failure to
follow generally accepted accounting principles pursuant to Education Code section
47607(c)(3); or the specific provision(s) of law that the charter school allegedly failed to
follow pursuant to Education Code section 47607(c)(4), as appropriate.
(2) All evidence relied upon by the chartering authority in determining the charter
school engaged in any of the acts or omissions identified in subdivision(f)(1) including
the date and duration of the alleged violation(s), showing the violation(s) is/are
both material and uncured, and that the alleged violation(s) occurred within a
reasonable period of time before a notice of violation is issued; and

(3) The period of time that the chartering authority has concluded is a reasonable
period of time for the charter school to remedy or refute the identified violation(s). In
identifying the time period that will serve as the charter school’s reasonable opportunity
to remedy the identified violation(s), the chartering authority shall consider the amount
of time reasonably necessary to remedy each identified violation, which may include the
charter school’s estimation as to the anticipated remediation time.

(g)(a) “Private school” as that term is used in Education Code section 47602(b)
means a school that meets the requirement set forth in Education Code sections 48222
and 48223.

(h)(b) For each charter school, “satisfactory progress,” as that term is used in
Education Code section 47612, means uninterrupted progress (1) towards completion,
with passing grades, of the substance of the course of study that is required for
graduation from a non-charter comprehensive high school of the school district that
authorized the charter school’s charter, that the pupil has not yet completed, (2) at a
rate that is at least adequate to allow the pupil to successfully complete, through full-
time attendance, all of that uncompleted coursework within the aggregate amount of
time assigned by the chartering agency for the study of that particular quantity of
coursework within its standard academic schedule. If the chartering agency authority is
not a school district having at least one non-charter comprehensive high school, the
applicable high school graduation requirements and associated time assignments shall
be those for the comprehensive high school(s) of the largest unified school district, as
measured by average daily attendance, in the county or counties in which the charter
school operates.

For individuals with exceptional needs, as defined in Education Code section 56026,
“satisfactory progress,” as that term is used in Education Code section 47612, means
uninterrupted maintenance of progress towards meeting the goals and benchmarks or
short-term objectives specified in his or her individualized education program made
pursuant to U.S. Code, Title 20 U.S.C., Section 1414(d) until high school graduation requirements have been met, or until the pupil reaches an age at which special education services are no longer required by law.

(i) “School’s charter” is the document approved by the chartering authority, including any material revisions that have been approved by the chartering authority.

(j) “Statewide benefit charter” is a charter school authorized by the SBE to operate at multiple sites throughout the state pursuant to Education Code section 47605.8. In making specific the provisions of Education Code section 47605.8, these regulations use the term “statewide benefit charter” where Education Code section 47605.8 uses the term “state charter school.”

NOTE: Authority cited: Sections 33031, 47602(b) and 47612(b), Education Code. Reference: Sections 47602(b), 47604.5, 47605.8, 47607 and 47612(b), Education Code; and 20 U.S.C. Section 1414(d), Title 20, U.S. Code.

Article 2.5. Establishment and Revocation

(a) In accordance with subdivision (a) of section 47602 of the Education Code, the California Department of Education (CDE), on behalf of the State Board of Education (SBE), shall establish and administer a numbering system to track the total number of charter schools authorized to operate in the state, based on the chronological order of the receipt of a complete charter petition and notification of charter approval by a local educational agency (LEA) or, in the case of a charter petition approved by the State Board of Education (SBE), the date and time of the State Board’s SBE’s approval.

(b) When the State Board of Education (SBE) approves a charter petition or receives notice that a charter petition has been approved by a local education agency (LEA), the State Board of Education (SBE) shall assign a number to that charter petition in accordance with section 47602(a)(1) of the Education Code.

§ 11968.5.1. Revocation of, or Other Action Related to, a Charter by the State...
Board of Education Upon Recommendation by the State Superintendent of Public Instruction Pursuant to Education Code sections 47604.5(a) and (b).

(a) Prior to making a recommendation to the SBE under Education Code sections 47604.5(a) and (b), the SSPI shall deliver a written notice to the charter school’s governing body as described in the school’s charter board or governing entity, the SBE charter liaison(s) and the SBE Executive Director, as described in the school’s charter which identifies one or more specific alleged violations by the charter school based on the grounds specified in Education Code sections 47604.5(a) and (b).

This notice shall identify all of the following:

1. The charter school’s alleged gross financial mismanagement that jeopardizes the financial stability of the charter school pursuant to Education Code section 47604.5(a); or the charter school’s alleged illegal or substantially improper use of charter school funds for the personal benefit of any officer, director, or fiduciary of the charter school pursuant to Education Code section 47604.5(b);

2. All evidence relied upon by the SSPI in determining the charter school engaged in any of the acts or omissions identified in subdivision (a)(1); and

3. The period of time that will serve as the opportunity to remedy or refute the identified violation(s) by the charter school’s governing body as board or governing entity described in the school’s charter.

(b) Upon receipt of a written notice, the charter school’s governing body as board or governing entity described in the school’s charter, if it chooses to respond, shall take the following actions:

1. Submit to the SSPI a detailed, written response to each identified violation which shall include the refutation or remedial action taken by the charter school’s governing body as board or governing entity described in the school’s charter, specific to each identified violation. The written response shall be due by the end of the remedy period identified in the written notice.

2. Attach to its written response, supporting evidence of remedial action, if any, including written reports, statements, and other appropriate documentation.

(c) After conclusion of the remedy period, the SSPI shall evaluate the response of the charter school’s board or the governing entity body as described in the school’s
charter, if submitted, and shall take one of the following actions:

1. Make a recommendation to the SBE to take appropriate action, including but not limited to, revocation of the school’s charter, and provide timely written notice of such action within 30 calendar days to the charter school’s governing body as board or governing entity described in the school’s charter; or

2. Discontinue action and provide written notice of such action to the charter school’s governing body as board or the governing entity described in the school’s charter within 10 calendar days.

(d) In making a recommendation to the SBE to take appropriate action, including but not limited to, revocation of the school’s charter, the SSPI shall present written findings to the SBE at the next regularly scheduled board meeting.

§ 11969.1. 11968.5.2. Charter Revocation.

This section sequentially sets forth procedures the chartering authority and the charter school’s governing body as described in the school’s charter shall complete for the revocation of a school’s charter pursuant to Education Code section 47607 except for charter revocation when the violation constitutes a severe and imminent threat to the health or safety of pupils.

(a) At least 72 hours prior to any board meeting in which a school board chartering authority will consider issuing a Notice of Violation, the charter authorizer shall provide the charter school with notice and all relevant documents related to the proposed action.

(b)(a) The chartering authority shall deliver a Notice of Violation to the charter school’s governing body as board or governing entity described in the school’s charter.

(c)(b) Upon receipt of a Notice of Violation, the charter school’s governing body board or governing entity as described in the school’s charter, if it chooses to respond, shall take the following actions:

1. Submit to the chartering authority a detailed, written response addressing each
identified violation which shall include the refutation, or remedial action taken, or
proposed remedial action by the charter school specific to each alleged violation. The
written response shall be due by the end of the remedy period identified in the Notice of
Violation.

(2) Attach to its written response supporting evidence of the refutation, or remedial
action, or proposed remedial action, if any, including written reports, statements, and
other appropriate documentation.

(d)(e) After conclusion of the reasonable opportunity to remedy, the chartering
authority shall evaluate the response of the charter school’s governing body as board
or governing entity described in the school’s charter response to the Notice of
Violation and any supporting evidence, if submitted, and shall take one of the following
actions:

(1) If the chartering authority has substantial evidence that the charter school has
failed to refute to the chartering authority’s satisfaction, or remedy a violation identified
in the Notice of Violation, continue revocation of the school’s charter by issuing a Notice
of Intent to Revoke to the charter school’s governing body as board or governing
entity described in the school’s charter; or

(2) Discontinue revocation of the school’s charter and provide timely written notice of
such action to the charter school’s governing body as board or governing entity
described in the school’s charter.

(e)(d) If the chartering authority does not act, as specified in subdivision (d)(e),
within 60 calendar days of the conclusion of the remedy period specified in the Notice of
Violation, the revocation process is terminated and the Notice of Violation is void.

(f)(e) On the date and time specified in the Notice of Intent to Revoke, the chartering
authority shall hold a public hearing concerning revocation. No more than 30 calendar
days after the public hearing (or 60 calendar days by written mutual agreement with the
charter school) the chartering authority shall issue a Final Decision. At any hearing
concerning the revocation of a charter school, the charter school shall be allowed equal
time to present and rebut prior to the close of the hearing.

(g)(f) The chartering authority shall provide a copy of the Final Decision to the CDE
and its county board of education (unless the county board of education is also the
chartering authority), within 10 calendar days of issuing the Final Decision.

(h)(g) If the chartering authority does not act to issue a Final Decision within the timeframe specified in subdivision (f)(e), the revocation process is terminated and the Notice of Intent to Revoke is void.

§ 11968.5.3 11969.2. Charter Revocation When There is a Severe and Imminent Threat to the Health or Safety of Pupils and Appeal of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety to a County Board of Education and the State Board of Education.

This section sets forth procedures the chartering authority shall complete for the revocation of a school’s charter when the chartering authority has determined that any violation under Education Code section 47607(c) constitutes a severe and imminent threat to the health or safety of pupils and the procedures that a charter school and county office of education and SBE must follow if the charter school elects to appeal a chartering authority’s Final Decision to revoke the school’s charter.

(a) If there is a severe and imminent threat to pupil health or safety, the chartering authority is exempt from the requirements of section 11969.4 11968.5.2 and may immediately revoke the school’s charter by approving and delivering a Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety to the charter school’s governing body as board or governing entity described in the school’s charter, the county board of education (unless the county board of education is also the chartering authority), and the CDE.

(b) Following the approval and delivery of the Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety by the chartering authority LEA local educational agency, the charter school’s governing body as described in the school’s charter may appeal to the county board of education or the SBE, as applicable, pursuant to Education Code sections 47607(f) and (g) and sections 11968.5.4, 11968.5.5 11969.3, 11969.4 and 11968.5.6 11969.5.
(c) In an appeal to a county board of education, within 30 calendar days of receipt of a Final Decision revoking the school’s charter, the charter school’s governing body as described in the school’s charter shall approve and deliver a written Notice of Appeal to the county board of education that:

1. includes a copy of the Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety issued pursuant to this article except that the charter school shall not be responsible for providing these documents if the chartering authority did not provide them to the charter school as required in this section;

2. includes evidence of the final vote of the chartering authority, if available;

3. includes all evidence relied upon by the chartering authority in determining that a violation of section 11965(e) existed;

4. includes minutes of any public meeting at which the chartering authority considers or makes its decision to revoke the school’s charter, if available;

5. includes a written statement explaining why the charter school does not believe the district chartering authority’s factual findings are supported by substantial evidence; and

6. identifies any procedural omissions or errors the charter school alleges to have occurred in the revocation process.

(d) If the county board of education does not issue a written decision that explains whether, in the county board of education’s judgment, the district chartering authority’s factual findings are supported by substantial evidence within 90 calendar days of receiving a Notice of Appeal that includes the documents listed in subdivision (c) of this section, the district chartering authority’s decision is upheld, pending any further appeal.

(e) In determining whether the district chartering authority’s factual findings are supported by substantial evidence, the county board of education shall consider whether the district chartering authority provided the charter school’s governing body as described in the school’s charter a Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety, a public hearing, and Final Decision pursuant to Articles 2 and 2.5 and Education Code sections 47607(c) and (d) through (e), inclusive.

(f) The county board of education shall also consider whether an alleged
procedural deficiency by the chartering authority negatively impacted the charter school’s ability to refute or remedy the alleged violation.

(f)(g) The county board of education shall provide the CDE and the chartering authority a copy of its written decision within 10 calendar days of its action.

(g)(h) If the district chartering authority or the school’s governing body as described in the school’s charter elects to appeal to the SBE, the appellant shall approve and deliver a written Notice of Appeal to the SBE within 30 calendar days following the final decision by the county board of education, or within 30 calendar days upon the expiration of 90 calendar days pursuant to section 11968.5.4(b), or within 30 calendar days of a county chartering authority’s Final Decision.

(h)(i) The appellant shall, at the same time it delivers a Notice of Appeal to the SBE, deliver to the SBE the following documents that shall be individually and sequentially numbered, one number per page, and be delivered to the respondent and the county board of education, if applicable, within five calendar days of delivery to the SBE:

1. copies of the Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety, the Final Decision, and the Notice of Appeal delivered to the county board of education, and the county board of education’s written decision, as applicable;

2. evidence of the final vote of the chartering authority, if available;

3. evidence relied upon by the chartering authority in determining that a violation of section 11965(e) existed; and

4. minutes of any public meeting at which the chartering authority considers or makes its decision to revoke the school’s charter, if available.

(i)(j) At the same time the appellant submits its Notice of Appeal to the SBE, the appellant shall also submit to the SBE a written argument in the form of a brief or letter that shall be individually and sequentially numbered, one number per page; be delivered to the respondent within five calendar days of delivery to the SBE; and contain the following:

1. a summary of the procedural and substantive facts limited to matters in the record;

2. a summary of the arguments in support of the appellant’s position that the
chartering authority and/or the county board of education erred in its decision; and
(3) specific citations to the administrative record in support of each argument presented.

(j)(k) If the respondent chooses to submit a written opposition to the SBE, it must do
so within 30 calendar days of the delivery of the appellant’s written argument to the
SBE. This written argument shall be in the form of a brief or letter that shall be
individually and sequentially numbered, one number per page; be delivered to the
respondent within five calendar days of delivery to the SBE; and contain the following:
(1) a summary of the procedural and substantive facts limited to matters in the
record as submitted to the chartering authority and the county board of education, as
appropriate;
(2) a summary of the arguments in support of the respondent’s position that the
chartering authority and/or the county board of education did not err in its decision; and
(3) specific citations to the administrative record in support of each argument presented.

(k)(l) Within 15 calendar days of the delivery of the respondent’s written argument to
the SBE, the appellant may submit to the SBE a written reply to the respondent’s written
argument in the form of a brief or letter. If submitted, this written argument shall be
individually and sequentially numbered, one number per page; be delivered to the
respondent within five calendar days of delivery to the SBE; and contain the following:
(1) a summary of the arguments refuting the arguments raised in the respondent’s
opposition; and
(2) specific citations to the administrative record in support of each argument presented.

(l)(m) If the SBE does not take action within 120 calendar days of receipt of the
appellant’s written argument, if submitted pursuant to subdivision (j); or within 150 days
of receipt of the respondent’s written opposition, if submitted pursuant to subdivision (k);
or within 165 days of receipt of the appellant’s written reply, if submitted pursuant to
subdivision (l); whichever is later, the appellant is deemed to have exhausted its
administrative remedies.

NOTE: Authority cited: Section 33031, Education Code. Reference: Sections 47604.32
§ 11968.5.4 11969.3. Appeal of a District Charter Revocation to a County Board of Education.

This section establishes the procedures that a charter school and county office of education must follow if the charter school elects to appeal to a county board of education a district chartering authority’s Final Decision to revoke the school’s charter.

(a) Within 30 calendar days of receipt of a Final Decision revoking the school’s charter, the charter school’s governing body as board or governing entity described in the school’s charter, shall approve and deliver a written Notice of Appeal to the county board of education that:

(1) Includes a copy of the Notice of Violation, Notice of Intent to Revoke and the Final Decision issued pursuant to this article except that the charter school shall not be responsible for providing these documents if the chartering authority did not provide them to the charter school as required in section 11969.1.

(2) Includes evidence of the final vote of the chartering authority, if available;

(3) Includes all evidence relied upon by the chartering authority in determining whether substantial evidence existed that the charter school failed to remedy one or more violations identified in the Notice(s) of Violation;

(4) Includes all evidence and correspondence submitted by the charter school’s governing body as board or governing entity described in the school’s charter in response to the chartering authority’s Notice of Violation and Notice of Intent to Revoke;

(5) Includes minutes of any public meeting at which the chartering authority considers or makes its decision to revoke the school’s charter, if available;

(6) Includes a written statement explaining why the charter school does not believe the district chartering authority’s factual findings are supported by substantial evidence; and

(7) Identifies any procedural omissions or errors the charter school alleges to have occurred in the revocation process.

(b) If the county board of education does not issue a written decision that explains whether, in the county board of education’s judgment, the district chartering authority’s
factual findings are supported by substantial evidence within 90 calendar days of receiving a complete Notice of Appeal to the county board of education that includes the documents listed in subdivision(a) of this section, the district chartering authority’s decision is upheld, pending any further appeal.

1. In determining whether the district chartering authority’s factual findings are supported by substantial evidence, the county board of education shall consider whether the district chartering authority provided the charter school’s governing body as board or governing entity described in the school’s charter a Notice of Violation, a reasonable opportunity to remedy the identified violation(s), a Notice of Intent to Revoke, a public hearing, and Final Decision, pursuant to Articles 2 and 2.5 and Education Code sections 47607(c) through (e), inclusive.

2. If the charter school submits a response to the Notice of Violation pursuant to section 11969.4 11968.5.2(b)(c), the county board of education shall, in determining whether the district chartering authority’s factual findings are supported by substantial evidence, consider whether the charter school complied with the procedures set forth in that section.

3. The county board of education shall also consider whether an alleged procedural deficiency negatively impacted the charter school’s ability to refute or remedy the alleged violation or the chartering authority’s ability to comply with its procedural obligations or authorizing duties.

(c) The county board of education shall provide the CDE and the chartering authority a copy of its written decision within 10 calendar days of approving its action.

§ 11968.5.5 11969.4. Appeal of Charter Revocation to the State Board of Education and Submission of the Administrative Record.

(a) If the district chartering authority or the charter school’s governing body as board or governing entity described in the school’s charter elects to appeal to the SBE, the appellant shall approve and deliver a written Notice of Appeal to the State Board of Education to the SBE within 30 calendar days of receiving a written decision
by the county board of education, upon the expiration of 90 calendar days pursuant to section 11969.3 11968.5.4(b), or a county chartering authority's Final Decision.

(b) The appellant shall, at the same time it delivers a Notice of Appeal to the State Board of Education SBE, deliver to the SBE the following information documents that shall be individually and sequentially numbered, one number per page, and be delivered to the respondent and the county board of education, if applicable, within five calendar days of delivery to the SBE:

1. The appellant’s Notice of Appeal to the State Board of Education SBE, which shall include copies of the Notice of Violation, Notice of Intent to Revoke, the Final Decision, the Notice of Appeal, and the county board of education’s written decision, as applicable;
2. Evidence of the final vote of the chartering authority if available;
3. Evidence relied upon by the chartering authority in determining whether substantial evidence existed that the charter school failed to refute to the chartering authority’s satisfaction or remedy one or more violations identified in the Notice(s) of Violation;
4. Evidence and correspondence submitted by the charter school’s governing body as board or governing entity described in the school’s charter in response to the chartering authority’s Notice of Violation and Notice of Intent to Revoke; and
5. Minutes of any public meeting at which the chartering authority considers or makes its decision to revoke the school’s charter if available.
6. These documents should be individually and sequentially numbered, one number per page.
7. Assurance that all of the preceding documentation will be delivered to the respondent and the county board of education, if applicable, within five calendar days of delivery to the SBE.

(c) Within 30 calendar days of submitting At the same time the appellant submits its Notice of Appeal to the State Board of Education SBE, the appellant shall also submit to the SBE a written argument in the form of a brief or letter that shall be individually and sequentially numbered, one number per page; be delivered to the respondent within five calendar days of delivery to the SBE; and contain the following:
This written argument shall:

(1) contain a summary of the procedural and substantive facts limited to matters in the record;

(2) contain a summary of the arguments in support of the appellant’s position that the chartering authority and/or the county board of education erred in its decision; and

(3) contain specific citations to the administrative record in support of each argument presented;

(4) be individually and sequentially numbered, one number per page; and

(5) be delivered to the respondent within five calendar days of delivery to the SBE.

(d) If the respondent chooses to submit a written opposition to the SBE, it must do so within 30 calendar days of the delivery of the appellant’s written argument to the SBE. This written opposition shall be in the form of a brief or letter and that shall be individually and sequentially numbered, one number per page; be delivered to the appellant within five calendar days of delivery to the SBE; and contain the following:

(1) contain a summary of the procedural and substantive facts limited to matters in the record as submitted to the chartering authority and the county board of education, as appropriate;

(2) contain a summary of the arguments in support of the respondent’s position that the chartering authority and/or the county board of education did not err in its decision; and

(3) contain specific citations to the administrative record in support of each argument presented;

(4) be individually and sequentially numbered, one number per page; and

(5) be delivered to the respondent within five calendar days of delivery to the SBE.

(e) Within 15 calendar days of the delivery of the respondent’s written argument to the SBE, the appellant may submit to the SBE a written reply to the respondent’s written argument in the form of a brief or letter. If submitted, this written argument shall be individually and sequentially numbered, one number per page; be delivered to the respondent within five calendar days of delivery to the SBE; and contain the following:

(1) contain a summary of the arguments refuting the arguments raised in respondent’s opposition; and
(2) contain specific citations to the administrative record in support of each argument presented;

(3) be individually and sequentially numbered, one number per page; and

(4) be delivered to the appellant within five calendar days of delivery to the SBE.

(f) If the SBE does not take action within 120 calendar days of following the receipt of the appellant’s written argument, if submitted pursuant to subdivision (c); or within 150 days of following the receipt of the respondent’s written opposition, if submitted pursuant to subdivision (d); or within 165 days of following the receipt of the appellant’s written reply, if submitted pursuant to subdivision (e); whichever is later, the appellant is deemed to have exhausted its administrative remedies.

§ 11969.1 11969.10. Purpose and Stipulation.

(a) This article governs provision of facilities by school districts to charter schools under Education Code section 47614.

(b) If a charter school and a school district mutually agree to an alternative to specific compliance with any of the provisions of this article, nothing in this article shall prohibit implementation of that alternative, including, for example, funding in lieu of facilities in an amount commensurate with local rental or lease costs for facilities reasonably equivalent to facilities of the district.

REGULATORY ACTION

Regulatory Action: Title 5 California Code of Regulations

Adopt sections: 11968.5.1, 11968.5.2, 11968.5.3, 11968.5.4, 11968.5.5

Amend sections: 11965, 11969 (renumbered 11968.1), 11969.1, 11969.2 (renumbered 11969.11), 11969.3 (renumbered 11969.12), 11969.4 (renumbered 11969.13), 11969.5 (renumbered 11969.14), 11969.6 (renumbered 11969.15), 11969.7 (renumbered 11969.16), 11969.8 (renumbered 11969.17), 11969.9 (renumbered 11969.18), 11969.10 (renumbered 11969.19), and 11969.11 (renumbered 11969.20)

Government Code Section 11349.3

OAL File No. 2011-0210-03 S

SUMMARY OF REGULATORY ACTION

In this regulatory action, the State Board of Education (SBE) proposed to adopt and amend regulations pertaining to “Charter Revocation and Revocation Appeals.” The SBE implements provisions of Education Code section 47607 which pertain to the procedures and requirements for the revocation of a charter school’s charter and the appeal rights applicable to charter school revocation actions. Included in this regulatory action are regulations pertaining to (1) the procedures generally applicable when a chartering authority considers the revocation of a charter school’s charter, (2) the procedures applicable when a chartering authority revokes a charter school’s charter upon a determination that a violation under Education Code section 47607(c)
Decision of Disapproval
OAL File No. 2011-0210-03

constitutes a severe and imminent threat to the health or safety of pupils, (3) the procedures for an appeal to a county board of education when a district chartering authority revokes a charter school’s charter, and (4) the procedures for an appeal to the SBE of charter school revocation-related decisions. In addition to these regulations, this regulatory action also proposed to include a regulation implementing Education Code section 47604.5, setting forth procedures applicable when the State Superintendent of Public Instruction considers making a recommendation to the SBE for charter revocation or for other action involving a charter school where there have been one or more alleged violations under Education Code sections 47604.5(a) or 47604.5(b).

DECISION

On March 25, 2011, the Office of Administrative Law (OAL) notified the SBE of the disapproval of this regulatory action. The reasons for the disapproval were the following: (1) failure to comply with the “Clarity” standard of Government Code section 11349.1, (2) failure to adequately summarize and respond to all of the public comments received regarding the proposed action, (3) documents in the rulemaking file which are defective, and (4) failure to comply with all required Administrative Procedure Act procedures.

DISCUSSION

Regulations adopted by the SBE must generally be adopted pursuant to the rulemaking provisions of the California Administrative Procedure Act (APA), Chapter 3.5 of Part 1 of Division 3 of Title 2 of the Government Code (Gov. Code, secs. 11340 through 11365). Any regulatory action a state agency adopts through the exercise of quasi-legislative power delegated to the agency by statute is subject to the requirements of the APA, unless a statute expressly exempts or excludes the regulation from compliance with the APA (Gov. Code, sec. 11346). No exemption or exclusion applies to the regulatory action here under review. Consequently, before these regulations may become effective, the regulations and rulemaking record must be reviewed by OAL for compliance with the substantive standards and procedural requirements of the APA, in accordance with Government Code section 11349.1.

A. CLARITY

OAL must review regulations for compliance with the “Clarity” standard of the APA, as required by Government Code section 11349.1. Government Code section 11349, subdivision (c), defines “Clarity” as meaning “written or displayed so that the meaning of regulations will be easily understood by those persons directly affected by them.”

The “Clarity” standard is further defined in section 16 of title 1 of the California Code of Regulations (CCR), OAL’s regulation on “Clarity,” which provides the following:

In examining a regulation for compliance with the “clarity” requirement of Government Code section 11349.1, OAL shall apply the following standards and presumptions:
(a) A regulation shall be presumed not to comply with the “clarity” standard if any of the following conditions exists:
   (1) the regulation can, on its face, be reasonably and logically interpreted to have more than one meaning; or
   (2) the language of the regulation conflicts with the agency’s description of the effect of the regulation; or
   (3) the regulation uses terms which do not have meanings generally familiar to those “directly affected” by the regulation, and those terms are defined neither in the regulation nor in the governing statute; or
   (4) the regulation uses language incorrectly. This includes, but is not limited to, incorrect spelling, grammar or punctuation; or
   (5) the regulation presents information in a format that is not readily understandable by persons “directly affected;” or
   (6) the regulation does not use citation styles which clearly identify published material cited in the regulation.

(b) Persons shall be presumed to be “directly affected” if they:
   (1) are legally required to comply with the regulation; or
   (2) are legally required to enforce the regulation; or
   (3) derive from the enforcement of the regulation a benefit that is not common to the public in general; or
   (4) incur from the enforcement of the regulation a detriment that is not common to the public in general.

In this charter revocation and revocation appeals rulemaking, a number of provisions of the proposed regulations fail to comply with the “Clarity” standard. Examples of the “Clarity” problems are set forth below. Additional “Clarity” concerns (such as minor wording and grammar problems) have been discussed with SBE staff and will also need to be corrected in any resubmission of this rulemaking.

1. Regulation sections 11968.5.3, 11968.5.4, and 11968.5.5 – As detailed below, the proposed regulations raise significant “Clarity” concerns with regard to appeals of charter revocation actions under section 11968.5.3 and how the appeal procedures set forth in sections 11968.5.4 (appeal to a county board of education) and 11968.5.5 (appeal to the SBE) would be applied in section 11968.5.3 appeals.

Section 11968.5.3, “Charter Revocation When There is a Severe and Imminent Threat to the Health or Safety of Pupils,” provides for an exemption from the generally applicable procedures for charter revocation by a chartering authority (which are in section 11968.5.2) when the chartering authority has determined that any violation under Education Code 47607(c) constitutes a severe and imminent threat to the health or safety of pupils. Under section 11968.5.3, a chartering authority may immediately revoke a charter school’s charter by means of a “Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety.” Section 11968.5.3(b) then sets forth appeal rights as follows: “Following the approval and delivery of the Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety by the [local educational agency], the charter school may appeal to the
county board of education or the SBE, as applicable, pursuant to Education Code sections 47607(f) and (g) and sections 11968.5.4, 11968.5.5, and 11968.5.6.”

The proposed reference in section 11968.5.3(b) to appeal rights in section 11968.5.6 does not make sense (and would be confusing), as there is no section 11968.5.6 in either existing SBE regulations or proposed in this rulemaking.

The proposed references in section 11968.5.3(b) to sections 11968.5.4, “Appeal of District Charter Revocation to a County Board of Education,” and 11968.5.5, “Appeal of a Charter Revocation to the State Board of Education and Submission of the Administrative Record,” also raise “Clarity” concerns. The standards and requirements which would be applicable to a section 11968.5.3 appeal are not clear upon examining the specific provisions in those two appeal regulations. Sections 11968.5.4 and 11968.5.5 may have been written with the assumption of an appeal of a revocation action under Section 11968.5.2, “Charter Revocation,” (essentially the generally applicable procedures for charter revocation), and without much consideration of an appeal of a revocation action under section 11968.5.3.

For example, section 11968.5.4(a)(1) provides that the charter school filing an appeal shall include with its Notice of Appeal “a copy of the Notice of Violation, Notice of Intent to Revoke and the Final Decision issued pursuant to this article except that the charter school shall not be responsible for providing these documents if the chartering authority did not provide [them] to the charter school as required in section 11968.5.2.” Sections 11968.5.4(a)(3) and (a)(4) require the charter school filing an appeal to include “all evidence relied upon by the chartering authority in determining whether substantial evidence existed that the charter school failed to remedy one or more violations identified in the Notice(s) of Violation” and “all evidence and correspondence submitted by the charter school’s governing body as described in the school’s charter in response to the chartering authority’s Notice of Violation and Notice of Intent to Revoke.” Similarly, section 11968.5.5(b)(1) refers to an entity appealing to the SBE providing the Notice of Violation, Notice of Intent to Revoke and Final Decision. Sections 11968.5.5(b)(3) and (b)(4) require the appealing entity to submit “[e]vidence relied upon by the chartering authority in determining whether substantial evidence existed that the charter school failed to refute to the chartering authority’s satisfaction or remedy one or more violations identified in the Notice(s) of Violation” and “[e]vidence and correspondence submitted to the charter school’s governing body as described in the school’s charter in response to the chartering authority’s Notice of Violation and Notice of Intent to Revoke.” The Notice of Violation, Notice of Intent to Revoke, and the Final Decision are documents which are referenced as part of the revocation process in section 11968.5.2 but which are not referenced as part of the revocation process in section 11968.5.3. The document issued under the terms of section 11968.5.3, which is the “Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety,” is not mentioned in either section 11968.5.4 or 11968.5.5 as being part of the required administrative record to be provided by the appealing party.

Other provisions of section 11968.5.4 raise “Clarity” concerns with respect to how they relate or apply to an appeal of a revocation action under section 11968.5.3. For example, section 11968.5.4(b)(1) provides as a standard for county board of education review the following: “In determining whether the district chartering authority’s factual findings are supported by
substantial evidence, the county board of education shall consider whether the district chartering authority provided the charter school’s governing body as described in the school’s charter a Notice of Violation, a reasonable opportunity to remedy the identified violation(s), a Notice of Intent to Revoke, a public hearing, and Final Decision, pursuant to Articles 2 and 2.5 and Education Code sections 47607(c) through (e).” However, this review standard is confusing in relation to an appeal of a revocation action under section 11968.5.3 since section 11968.5.3 does not provide for a Notice of Violation, a Notice of Intent to Revoke, a Final Decision, or a reasonable opportunity to remedy the identified violation(s).

As discussed in greater detail below under “Summary and Response to Public Comments,” a public commenter in this rulemaking (Colin A. Miller, on behalf of the California Charter Schools Association) raised some of these “Clarity” concerns. Mr. Miller’s comments included the following: “We suggest adding language [to sections 11968.5.4 and 11968.5.5] to clarify what happens in the situation in which the charter school was revoked for a ‘severe and imminent threat to the health or safety of its pupils.’ The process for revoking a school under that provision has different standards and steps that apply, so the record will look different for schools that are appealing under this circumstance....”

In summary, if section 11968.5.3(b) is to provide for appeal rights pursuant to sections 11968.5.4 and 11968.5.5, sections 11968.5.4 and 11968.5.5 require greater clarity with respect to the appeal requirements and standards for an appeal of a revocation action under section 11968.5.3.

2. Regulation sections 11965 and 11960 – Section 11965 is an existing “Definitions” regulation within the body of charter school regulations, containing definitions of terms used in the “Subchapter 19. Charter Schools” regulations. In its existing form, the section 11965 definitions appear to have applicability throughout Subchapter 19, as there is no limiting language at the beginning of or within this section, and section 11965 is in Article 2 “General Provisions” within Subchapter 19.

As part of this rulemaking, the SBE is adding to section 11965 many new definitions of terms that are used in the proposed charter revocation and revocation appeals regulations. In amending regulation section 11965, the SBE has added new limiting language at the beginning of this regulation which reads: “For the purposes of this Article and Article 2.5, the following definitions shall apply.” This new language has the effect of limiting the scope of coverage of the definitions to only those regulations within Articles 2 and 2.5 of Subchapter 19.

The addition of this limiting language at the beginning of section 11965 raises a “Clarity” problem. One of the existing definitions within section 11965 is the definition of the term “satisfactory progress.” Besides the use of this “satisfactory progress” definition within Article 2, the definition is also used within existing Article 1 of Subchapter 19 in regulation section 11960. Section 11960(c)(1)(A) contains multiple references to the defined term “satisfactory progress.” Consequently, the addition in section 11965 of the limiting language “For the purposes of this Article [2] and Article 2.5, the following definitions shall apply” has the effect of making a pertinent definition no longer applicable to Article 1, section 11960. The definition of “satisfactory progress” needs to continue to apply to Article 1, section 11960 in order to maintain the clarity of that regulation.
Furthermore, section 11960(c)(1)(A) includes a specific cross-reference to the definition of “satisfactory progress” in section 11965. Section 11960(c)(1)(A) refers to pupils making satisfactory progress “consistent with the definition of satisfactory progress set forth in subdivision (b) of Section 11965.” As part of the proposed amendments to section 11965, the “satisfactory progress” definition is being re-lettered to be subdivision (h) of section 11965. Consequently, the cross-reference in section 11960(c)(1)(A) needs to be updated to reflect the new lettering of the definition of “satisfactory progress.”

3. Regulation sections 11968.5.1(c), 11968.5.2 (first sentence), and 11968.5.2(a) – Throughout the proposed regulations in their final form, the SBE has generally used the phrase “charter school’s governing body as described in the school’s charter” to refer to the governing body of a charter school (changes were specifically made during the first 15-day notice period to utilize this phrase in the body of regulations). However, in section 11968.5.1(c), the regulation text continues to instead refer to “the charter school board or the governing entity described in the school’s charter.” Similarly, section 11968.5.2 (first sentence) instead refers to “the charter school’s governing board.” The use of this alternative language in sections 11968.5.1(c) and 11968.5.2 (first sentence) is confusing because it is internally inconsistent with the terminology used elsewhere in the charter revocation and revocation appeals regulations.

A similar type of problem relates to the use of the term “charter authorizer” in section 11968.5.2(a). Throughout these regulations, the SBE has used the term “chartering authority” to refer to the entity that grants a school’s charter, and, in fact, that term is specifically defined in proposed regulation section 11965(a). However, section 11968.5.2(a), instead of using the defined term “chartering authority,” uses the term “charter authorizer.” The “Clarity” of section 11968.5.2(a) would be improved by utilizing the defined term.

4. Regulation section 11968.5.4(b)(2) – As discussed above, section 11968.5.4 provides for charter school appeals to a county board of education when a charter has been revoked by a district chartering authority. Section 11968.5.4(b)(2) states: “If the charter school submits a response to the Notice of Violation pursuant to section 11968.5.2(b), the county board of education shall, in determining whether the district chartering authority’s factual findings are supported by substantial evidence, consider whether the charter school complied with the procedures set forth in that section.” (Emphasis added.) The referenced “section 11968.5.2(b)” does not make sense because section 11968.5.2(b) does not include any provisions regarding a charter school submitting a response to a Notice of Violation. Section 11968.5.2(c) does contain provisions regarding a charter school submitting a response to a Notice of Violation, and it is likely that the SBE intended to refer to that subsection.

5. Regulation section 11968.5.5(a) – As discussed above, section 11968.5.5 provides for appeals to the SBE. Section 11968.5.5(a) states: “If the district chartering authority or the charter school’s governing body as described in the school’s charter elects to appeal to the SBE, the appellant shall approve and deliver a written Notice of Appeal to the SBE within 30 calendar days of receiving a written decision by the county board of education, upon the expiration of 90 calendar days pursuant to section 11968.5.4(b), or a county chartering authority’s Final Decision.” (Emphasis added).
The language underlined above is subject to multiple interpretations and is not easy to understand. For appeals “upon the expiration of 90 calendar days pursuant to section 11968.5.4(b),” does SBE mean that the Notice of Appeal must be delivered to the SBE at the time of the expiration of 90 calendar days, or does SBE intend to allow for a 30 calendar day period for the Notice of Appeal after the expiration of 90 calendar days and therefore essentially mean “within 30 calendar days after the expiration of the 90 calendar day period referenced in section 11968.5.4(b)”?

For appeals of “a county chartering authority’s Final Decision,” does SBE mean that the Notice of Appeal must be delivered to the SBE “within 30 calendar days of receiving a county chartering authority’s Final Decision” or does SBE have an alternative meaning? It is important that Section 11968.5.5(a) be clear since a failure to meet the required time periods for an appeal to the SBE could have a significant impact on a “directly affected” appealing party.

6. Regulation sections 11968.5.5(b) and (b)(1) – In relation to an appeal to the SBE, the opening language of section 11968.5.5(b) and section 11968.5.5(b)(1) provide the following: “(b) The appellant shall, at the same time it delivers a Notice of Appeal to the SBE, deliver to the SBE the following information: (1) The appellant’s Notice of Appeal to the SBE, which shall include copies of the Notice of Violation, Notice of Intent to Revoke, the Final Decision, the Notice of Appeal, and the county board of education’s written decision, as applicable.” (Emphasis added.)

The several references to “Notice of Appeal” are confusing in this context. SBE appears in this language to be requiring the “Notice of Appeal to the SBE” twice (the written Notice of Appeal to the SBE is already required under section 11968.5.5(a) immediately above these provisions). In addition, the final reference to “the Notice of Appeal” is somewhat confusing given the multiple references to this term. SBE probably intended this final reference to mean “the Notice of Appeal to the county board of education,” but that needs to be clarified.

7. Regulation section 11968.5.5(b)(6) – In relation to an appeal to the SBE, one of the document submission requirements for an appellant is set forth in section 11968.5.5(b)(6) as follows: “These documents should be individually and sequentially numbered, one number per page.” The use of the word “should” in the context of a regulation may in some instances raise “Clarity” concerns with regard to whether a regulatory provision is mandatory requirement or a non-mandatory recommendation. In the case of section 11968.5.5(b)(6), the use of “should” leaves some uncertainty as to whether an appellant would be non-compliant with appeal submission requirements (and therefore subject to having the appeal rejected) if the appellant submitted documents which were not individually and sequentially numbered, one number per page. The use of the word “should” needs to be avoided in this context. Assuming that the intent here is that the requirements of section 11968.5.5(b)(6) be mandatory, the word “shall” would be appropriate instead of the word “should.” We note that similar requirements pertaining to documents being “individually and sequentially numbered, one number per page” appear to be mandatory in sections 11968.5.5(c)(4), 11968.5.5(d)(4), and 11968.5.5(e)(3) which follow.

8. Regulation sections 11968.5.5(e) and (e)(4) – In relation to an appeal to the SBE, the opening language of section 11968.5.5(e) and section 11968.5.5(e)(4) provide the following: “(e) Within 15 calendar days of the delivery of the respondent’s written argument to the SBE, the appellant may submit to the SBE a written reply to the respondent’s written argument in the form of a brief
or letter. If submitted, this written argument shall: . . . (4) be delivered to the appellant within five calendar days of delivery to the SBE.” (Emphasis added.) These provisions are confusing, in that the appellant submitting a written reply to the SBE is required to deliver a copy of the reply to the appellant. It is unlikely that the appellant is required to deliver a copy to itself. Perhaps section 11968.5.5(e)(4) is intended to read: “(4) be delivered to the respondent within five calendar days of delivery to the SBE.”

Conclusion: The “Clarity” problems discussed above and all other “clarity” problems which have been discussed with SBE staff must be resolved before the regulations can be approved by OAL.

B. SUMMARY AND RESPONSE TO PUBLIC COMMENTS

Government Code section 11346.9, subdivision (a), provides that an agency proposing regulations shall prepare and submit to OAL a “final statement of reasons.” One of the required contents of the final statement of reasons is a summary and response to public comments. Specifically, Government Code section 11346.9, subdivision (a)(3), requires that the final statement of reasons include:

A summary of each objection or recommendation made regarding the specific adoption, amendment, or repeal proposed, together with an explanation of how the proposed action has been changed to accommodate each objection or recommendation, or the reasons for making no change. This requirement applies only to objections or recommendations specifically directed at the agency’s proposed action or to the procedures followed by the agency in proposing or adopting the action . . . .

In this charter revocation and revocation appeals rulemaking, the SBE received a total of six public comment letters during the 45-day public comment period and two 15-day public comment periods. Some of those comment letters included a large number of individual public comments. The SBE adequately summarized and responded to many of the public comments which were received. However, a detailed review of the final statement of reasons and of the public comments indicates that (1) a number of public comments did not receive a summary and response, and (2) some public comments were summarized and responded to, but the summary and response contained errors, was incomplete, or was otherwise not fully responsive to the comments received. Examples of the problems with summary and response to public comments are set forth below.

1. Comments of Colin A. Miller -- Colin A. Miller, on behalf of the California Charter Schools Association, submitted extensive comments regarding the proposed charter revocation and revocation appeals regulations in a letter dated July 6, 2010. These comments were submitted in connection with the 45-day public comment period. Summary and response problems include the following:

Mr. Miller commented that with respect to regulatory language explaining “a severe and imminent threat to pupil health or safety” in section 11965(e)(4), “[i]nclusion of ‘severe’ is necessary to more closely align with the statutory language.” See pages 33 and 40 of the
Mr. Miller commented with respect to regulation section 11968.5.1, which pertains to State Superintendent of Public Instruction recommended revocations or other actions under Education Code sections 47604.5(a) and 47604.5(b): “We suggest addition of the ‘chartering authority’ to assure all affected parties are notified.” See page 34 of the rulemaking record. Related to this comment, in the annotated regulation text attached as part of the comments, the commenter shows the addition of “chartering authority” four places within section 11968.5.1, thereby effectively granting the chartering authority notice and response rights in the event of a potential State Superintendent of Public Instruction recommendation to the SBE for revocation or other action under Education Code section 47604.5(a) or section 47604.5(b). See pages 43 and 44 of the rulemaking record. The SBE responds to each of these comments on pages 3 and 4 of the final statement of reasons with the response: “… [T]his exceeds the requirements for revocation set forth in Education Code section 47607.” These responses, relying upon Education Code section 47607, are not meaningful. The State Superintendent of Public Instruction recommendations involved in regulation section 11968.5.1 are governed by Education Code section 47604.5, not Education Code section 47607. Education Code section 47607 would not be determinative as to which parties are entitled to notice and participation in relation to a potential action under Education Code section 47604.5. The SBE needs to provide more accurate and meaningful responses to these comments.

Mr. Miller commented as follows with respect to regulatory language relating to the response of a charter school governing body to a Notice of Violation in section 11969.1(b)(1) [a section which was subsequently renumbered section 11968.5.2(c)(1)]: “We suggest deleting the word ‘detailed’ as this is a subjective and unnecessary qualifier with no basis in the law. We are concerned that under this language, a chartering authority could simply reject a response as not being ‘detailed’ enough. In addition, the chartering authority isn’t subject to the same ‘detailed’ requirement in its Notice of Violation, so the charter could be put in a position of trying to provide a ‘detailed’ response to a very vague Notice. Charter schools should be able to gauge the appropriate level of detail necessary to be compelling to its authorizer. Therefore ‘detailed’ should be deleted from this phrase.” See pages 35 and 45 of the rulemaking record. The final statement of reasons does not include a summary and response to this comment.

Mr. Miller commented regarding the regulations involving appeals to a county board of education and appeals to the SBE, regulation sections 11969.3 and 11969.4 [sections which were subsequently renumbered sections 11968.5.4 and 11968.5.5, respectively]: “We suggest adding language to clarify what happens in the situation in which the charter school was revoked for a ‘severe and imminent threat to the health or safety of its pupils.’ The process for revoking a school under that provision has different standards and steps that apply, so the record will look different for schools that are appealing under this circumstance. This amendment offers some clarity to ensure that the entity considering the appeal receives the necessary information related to that finding.” See page 37 of the rulemaking record. Related to this comment, in the annotated regulation text attached as part of the comments, the commenter shows an addition to section 11969.3 (county board of education appeals) of a provision reading: “If the school was revoked pursuant to 11969.2, provides all information the chartering authority relied on in
making the determination of a ‘Severe and Imminent Threat to the Health and Safety of the Pupils.’” See page 48 of the rulemaking record. Furthermore, in the annotated regulation text the commenter shows an addition to section 11969.4 (SBE appeals) of a provision reading: “All information the chartering authority relied on in making the determination of a ‘Severe and Imminent Threat to the Health and Safety of the Pupils,’ if the school was revoked pursuant to 11969.2.” See page 50 of the rulemaking record. The SBE responds to these comments on pages 7 and 8 of the final statement of reasons with the following: “. . . the proposed regulations already provide a clear appeal process for charter schools that are revoked pursuant to section 11969.2. It is clear in section 11969.2 that the appeal process shall follow the provisions in proposed sections 11969.3, 11969.4 and 11969.5.” This response is not adequate. The commenter is asserting that section 11969.3 (later section 11968.5.4) and section 11969.4 (later section 11968.5.5) need added language to clarify the requirements which would be applicable to an appeal of a “severe and imminent threat to the health or safety of pupils’ revocation at the county board of education and SBE appeal levels. The commenter is pointing out that since a “severe and imminent threat” revocation “has different standards and steps that apply . . . the record will look different for schools that are appealing under this circumstance.” The final statement of reasons does not include a meaningful response to these comments.

Mr. Miller recommended, in the annotated regulation text which he submitted as part of his comments, the following addition to the regulation pertaining to appeals to a county board of education, regulation section 11969.3 [a section which was subsequently renumbered section 11968.5.4]: “The county board shall hold a public hearing to consider the appeal within 60 days of the receipt of a Notice of Appeal. No later than 10 days before the public hearing, the county board shall provide the charter school with all documents and materials that will be used to consider the appeal. At the public hearing, the county board shall present the evidence and representatives of the charter school and of the general public shall have an equal opportunity to address the board regarding the allegations and the evidence presented.” See page 48 of the rulemaking record. The SBE provides a response to this comment on page 7 of the final statement of reasons as follows: “The suggested new section exceeds the statutory language in Education Code section 47607(f)(3) that provides a county board of education the option to not act on an appeal of a charter revocation.” This response is not complete. The commenter is essentially making multiple recommendations in his proposed regulation language. There does appear to be a response to the commenter’s proposed recommended language which would require the county board of education to hold a public hearing to consider the appeal within 60 days of the receipt of a Notice of Appeal. However, there are not adequate responses to the commenter’s other recommendations regarding (1) the county board providing the charter school, no later than 10 days before a public hearing, with all documents and materials that will be used to consider the appeal (in the event a hearing is held), and (2) representatives of the charter school and of the general public having an equal opportunity at a public hearing to address the county board regarding the allegations and evidence presented (in the event a hearing is held).

Mr. Miller commented as follows with respect to regulatory language regarding the effect of a county board of education not issuing a written decision within 90 calendar days in section 11969.3(b) [a section which was subsequently renumbered section 11968.5.4(b)]: “We suggest deleting the word ‘complete’ as this is a subjective and unnecessary qualifier with no basis in the
law. We are concerned that under this language, a Notice of Appeal could be rejected simply for not being ‘complete’ and not receive the necessary due process considerations. Charter schools should be able to gauge the appropriate level of detail necessary to be compelling to the entity receiving the appeal.” See pages 37 and 48 of the rulemaking record. The final statement of reasons does not include a summary and response to this comment.

Mr. Miller commented as follows with respect to the proposed procedures for appeals to the SBE under regulation section 11969.4 (a section which was subsequently renumbered section 11968.5.5): “It is unclear why this additional back and forth is included in the state board appeal, but not at the county level. … We suggest the board seriously consider the value of this additional process against the timeliness of a decision. Because the state board already has the benefit of the county review, it seems it may be able to reach its decision in a timelier manner and the additional timelines and back and forth could be eliminated from the regulations altogether. While we support the opportunity for all parties to provide information to the board, we believe that a much simpler and streamlined approach could achieve that goal and lead to a fair decision sooner. See pages 38 of the rulemaking record. The final statement of reasons does not include a summary and response to this comment.

2. Comments of Gregory V. Moser – Gregory V. Moser submitted comments regarding the proposed charter revocation and revocation appeals regulations in a letter dated July 6, 2010. These comments were submitted in connection with the 45-day public comment period.

One of Mr. Moser’s comments was the following: “Charter Schools are often limited to 3 minutes to respond to revocation charges along with members of the public, while the district staff gets an unlimited time to present its ‘case’ for revocation. The regulations should ensure that the charter school gets equal time to presents its case and an opportunity for rebuttal before the close of the hearing. I have personally experienced (more than once) districts making an extensive presentation, then limiting the respondents to 3 minutes with no opportunity for rebuttal.” The response to this comment on pages 1 and 2 of the final statement of reasons is as follows: “The [California Department of Education] has no jurisdiction over how local boards conduct their meetings. California Education Code … Section 47608 specifies that all meetings of the governing boards of the school district and the county board of education shall comply with the Ralph M. Brown Act (Brown Act). Section 54954.3(b) of the Brown Act authorizes these bodies to adopt regulations to assist in processing comments from the public and specifies that the bodies may establish procedures for public comments as well as specifying reasonable time limitations on particular topics or individual speakers.” The concern with this response is that it does not accurately reflect changes which were ultimately made to the regulations. In fact, during the first 15-day comment period the SBE revised regulation section 11968.5.2, “Charter Revocation,” to include in section 11968.5.2(f) the following language: “At any hearing concerning the revocation of a charter school, the charter school shall be allowed equal time to present and rebut prior to the close of the hearing.”

3. Comments of Paul C. Minney – Paul C. Minney, on behalf of Middleton, Young & Minney LLP, submitted comments regarding the proposed charter revocation and revocation appeals regulations in a letter dated July 6, 2010. These comments were submitted in connection with the 45-day comment period.
One of Mr. Minney's comments recommended the deletion of the words “to the chartering authority's satisfaction” from section 11969.1(c)(1) [a section which was subsequently renumbered 11968.5.2(d)(1)]. See the annotated regulation text submitted by Mr. Minney at page 60 of the rulemaking record. The final statement of reasons does not include a summary and response to this comment.

Conclusion: These examples and all other public objections and recommendations directed at the SBE's proposed action must be substantively summarized and responded to before the regulations can be approved by OAL. Other specific problems relating to summarizing and responding to public comments have been discussed with SBE staff.

C. INCORRECT PROCEDURES AND DEFECTIVE DOCUMENTS

In addition to the problems discussed above, this charter revocation and revocation appeals rulemaking presents several problems relating to compliance with APA procedural requirements, including defective documents required as part of the APA process. Each of these problem areas is discussed below.

1. Final statement of reasons - Government Code section 11346.9, subdivision (a)(1), provides that the final statement of reasons for a regulatory action shall include “an update of the information contained in the initial statement of reasons...”

In this charter revocation and revocation appeals rulemaking, the SBE has in its final statement of reasons partially updated the information contained in the initial statement of reasons by means of explaining the modifications made during the two 15-day notice periods (pages 11-14 and 16-17 of the final statement of reasons). However, a more comprehensive updating of the information set forth in the initial statement of reasons is needed. During the course of this rulemaking, four of the primary regulations being added were renumbered after the time the initial statement of reasons was written. Specifically, in the first 15-day notice, originally proposed sections 11969.1, 11969.2, 11969.3, and 11969.4 were renumbered 11968.5.2, 11968.5.3, 11968.5.4, and 11968.5.5, respectively. The information contained in the initial statement of reasons needs to be fully updated in the final statement of reasons to reflect the new regulation section numbering, as well as the other changes. This updating will provide a more accurate and complete explanation of the regulations as they were finally adopted and submitted for filing with the Secretary of State.

2. Form 400 - Section 6 of title 1 of the CCR requires that rulemaking agencies complete the Form 400 for the submission of regulations to OAL for publication and/or for transmittal to the Secretary of State for filing. Section 6(b) specifies the required contents of the completed Form 400, including a requirement in section 6(b)(2) that the form specify: “the title(s) of the California Code of Regulations affected and a list of all regulation sections being adopted, amended or repealed.” In this charter revocation and revocation appeals rulemaking, the SBE did properly include a Form 400 with the original and copies of the final regulation text. In most respects, the Form 400 is complete and accurate; however, the list of regulation sections being
adopted, amended and repealed as set forth in Section B.2 of the form is inaccurate and incomplete.

3. Underline and strikeout in the final regulation text – Section 8 of title 1 of the CCR sets forth the requirements for the “final text” of regulations submitted to OAL for filing with the Secretary of State. Section 8(b) provides: “The final text of the regulation shall use underline or italic to accurately indicate additions to, and strikeout to accurately indicate deletions from, the California Code of Regulations....” In this charter revocation and revocation appeals rulemaking, generally the SBE accurately and properly showed changes in the final regulation text in underline and strikeout. The exception is on page 12 of the final regulation text where a regulation entitled “Purpose and Stipulation” is shown as being renumbered from “11969.10” (which is in strikeout) to “11969.1” (which is underlined). This “Purpose and Stipulation” regulation is already numbered “11969.1” in the CCR, so the changes in underline and strikeout are not appropriate.

CONCLUSION

For the reasons set forth above, OAL has disapproved this regulatory action. If you have any questions, please contact me at (916) 323-6225.

Re: Request for Extension of Rulemaking
OAL File No. 2011-0210-03S

Dear Ms. Burr:

I have received the Board of Education's request for a "good cause" extension of time pursuant to Government Code section 11349.4(a) in connection with your "Charter Revocation and Revocation Appeals" rulemaking. This request was submitted by the California Department of Education on behalf of the State Board of Education in a memorandum from Cyndi Olsen to the Office of Administrative Law (OAL) dated June 30, 2011.

OAL finds that the basis for your request for an extension of time for the resubmittal of OAL File No. 2011-0210-03S constitutes "good cause" and hereby grants a 120-day extension from the resubmittal due date of July 28, 2011. Accordingly, this file must be resubmitted to this office by the close of business on November 25, 2011. Please note that the resubmission "due date" is November 25, 2011 rather than the November 26, 2011 date mentioned in the June 30, 2011 memorandum.

Please include a copy of this letter in the resubmission of the rulemaking file.

Sincerely yours,

Debra M. Cornez
Assistant Chief Counsel/Acting Director

California Department of Education
A. ESTIMATED PRIVATE SECTOR COST IMPACTS (Include calculations and assumptions in the rulemaking record.)

1. Check the appropriate box(es) below to indicate whether this regulation:
   
   a. Impacts businesses and/or employees
   b. Impacts small businesses
   c. Impacts jobs or occupations
   d. Impacts California competitiveness
   e. Imposes reporting requirements
   f. Imposes prescriptive instead of performance
   g. Impacts individuals
   h. None of the above (Explain below. Complete the Fiscal Impact Statement as appropriate.)

   (If any box in Items 1 a through g is checked, complete this Economic Impact Statement.)

2. Enter the total number of businesses impacted: ___________ Describe the types of businesses (Include nonprofits): ___________.

3. Enter the number of businesses that will be created: ___________ eliminated: ___________.

   Explain: __________________________________________________________________________________________________________

4. Indicate the geographic extent of impacts: 
   a. Statewide
   b. Local or regional (List areas):

   __________________________________________________________________________________________________________

5. Enter the number of jobs created: ___________ or eliminated: ___________. Describe the types of jobs or occupations impacted:

   __________________________________________________________________________________________________________

6. Will the regulation affect the ability of California businesses to compete with other states by making it more costly to produce goods or services here?

   Yes  No  If yes, explain briefly: _________________________________________________________________________________

B. ESTIMATED COSTS (Include calculations and assumptions in the rulemaking record.)

1. What are the total statewide dollar costs that businesses and individuals may incur to comply with this regulation over its lifetime? $ ___________

   a. Initial costs for a small business: $__________  Annual ongoing costs: $__________  Years: ______

   b. Initial costs for a typical business: $__________  Annual ongoing costs: $__________  Years: ______

   c. Initial costs for an individual: $__________  Annual ongoing costs: $__________  Years: ______

   d. Describe other economic costs that may occur: __________________________________________________________________________
ECONOMIC AND FISCAL IMPACT STATEMENT cont. (STD. 399, Rev. 12/2008)

2. If multiple industries are impacted, enter the share of total costs for each industry:

3. If the regulation imposes reporting requirements, enter the annual costs a typical business may incur to comply with these requirements. (Include the dollar costs to do programming, record keeping, reporting, and other paperwork, whether or not the paperwork must be submitted): $__________

4. Will this regulation directly impact housing costs? □ Yes □ No If yes, enter the annual dollar cost per housing unit: _______ and the number of units: _______

5. Are there comparable Federal regulations? □ Yes □ No Explain the need for State regulation given the existence or absence of Federal regulations:

Enter any additional costs to businesses and/or individuals that may be due to State - Federal differences: $__________

C. ESTIMATED BENEFITS (Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.)

1. Briefly summarize the benefits that may result from this regulation and who will benefit:

2. Are the benefits the result of: □ specific statutory requirements, or □ goals developed by the agency based on broad statutory authority?

   Explain:

3. What are the total statewide benefits from this regulation over its lifetime? $__________

D. ALTERNATIVES TO THE REGULATION (Include calculations and assumptions in the rulemaking record. Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.)

1. List alternatives considered and describe them below. If no alternatives were considered, explain why not:

2. Summarize the total statewide costs and benefits from this regulation and each alternative considered:

   Regulation: Benefit: $__________ Cost: $__________

   Alternative 1: Benefit: $__________ Cost: $__________

   Alternative 2: Benefit: $__________ Cost: $__________

3. Briefly discuss any quantification issues that are relevant to a comparison of estimated costs and benefits for this regulation or alternatives:

4. Rulemaking law requires agencies to consider performance standards as an alternative, if a regulation mandates the use of specific technologies or equipment, or prescribes specific actions or procedures. Were performance standards considered to lower compliance costs? □ Yes □ No

   Explain:

E. MAJOR REGULATIONS (Include calculations and assumptions in the rulemaking record.) Cal/EPA boards, offices, and departments are subject to the following additional requirements per Health and Safety Code section 57006.
ECONOMIC AND FISCAL IMPACT STATEMENT cont. (STD. 399, Rev. 12/2008)

1. Will the estimated costs of this regulation to California business enterprises exceed $10 million? □ Yes □ No (If No, skip the rest of this section.)

2. Briefly describe each equally as an effective alternative, or combination of alternatives, for which a cost-effectiveness analysis was performed:
   Alternative 1:
   Alternative 2:

3. For the regulation, and each alternative just described, enter the estimated total cost and overall cost-effectiveness ratio:
   Regulation: $ ________________ Cost-effectiveness ratio: $ ________________
   Alternative 1: $ ________________ Cost-effectiveness ratio: $ ________________
   Alternative 2: $ ________________ Cost-effectiveness ratio: $ ________________

FISCAL IMPACT STATEMENT

A. FISCAL EFFECT ON LOCAL GOVERNMENT (Indicate appropriate boxes 1 through 6 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

  1. Additional expenditures of approximately $ ________________ in the current State Fiscal Year which are reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Sections 17500 et seq. of the Government Code. Funding for this reimbursement:
     a. is provided in ________________, Budget Act of _______ or Chapter _______ Statutes of _______
     b. will be requested in the __________ Governor's Budget for appropriation in Budget Act of _______

  2. Additional expenditures of approximately $ ________________ in the current State Fiscal Year which are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Sections 17500 et seq. of the Government Code because this regulation:
     a. implements the Federal mandate contained in ________________
     b. implements the court mandate set forth by the ________________ court in the case of ________________ vs. ________________
     c. implements a mandate of the people of this State expressed in their approval of Proposition No. _______ at the _______ election;
     d. is issued only in response to a specific request from the ________________ which is/are the only local entity(s) affected;
     e. will be fully financed from the ________________ authorized by Section _______ of the _______ Code;
     f. provides for savings to each affected unit of local government which will, at a minimum, offset any additional costs to each such unit;
     g. creates, eliminates, or changes the penalty for a new crime or infraction contained in ________________

  3. Savings of approximately $ ________________ annually.

  4. No additional costs or savings because this regulation makes only technical, non-substantive or clarifying changes to current law regulations.
5. No fiscal impact exists because this regulation does not affect any local entity or program.

6. Other.

B. FISCAL EFFECT ON STATE GOVERNMENT (Indicate appropriate boxes 1 through 4 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

1. Additional expenditures of approximately $__________ in the current State Fiscal Year. It is anticipated that State agencies will:
   a. be able to absorb these additional costs within their existing budgets and resources.
   b. request an increase in the currently authorized budget level for the fiscal year.

2. Savings of approximately $__________ in the current State Fiscal Year.

3. No fiscal impact exists because this regulation does not affect any State agency or program.

4. Other. The activities in the regulations would impose new workload to CDE. This new workload would require 3 Ed Program Consultants and one-half Staff Consultant III, for a total on-going cost of $380,000

C. FISCAL EFFECT ON FEDERAL FUNDING OF STATE PROGRAMS (Indicate appropriate boxes 1 through 4 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

1. Additional expenditures of approximately $__________ in the current State Fiscal Year.

2. Savings of approximately $__________ in the current State Fiscal Year.

3. No fiscal impact exists because this regulation does not affect any federally funded State agency or program.

4. Other.

FISCAL OFFICER SIGNATURE

Fiscal Impact Statement

Fiscal Effect on Local Government
No fiscal impact exists because this regulation does not affect any local entity or program.

Fiscal Effect on State Government
The activities in the regulation would impose new workload to CDE. The 2011-12 Budget Act provided additional resources for charter-related workload. The Department of Education may submit a BCD should actual costs of implementation exceed resources provided for these activities.

Fiscal Effect on Federal Funding of State Programs
No fiscal impact exists because this regulation does not affect any federally funded State agency or program.

Fiscal Officer Signature
(signed 7/27/2011)
ITEM 12
# SUBJECT

STATE BOARD PROJECTS AND PRIORITIES.
Including, but not limited to, future meeting plans; agenda items; and officer nominations and/or elections; State Board office budget, staffing, appointments, and direction to staff; declaratory and commendatory resolutions; bylaw review and revision; Board policy; approval of minutes; Board liaison reports; training of Board members; and other matters of interest. At this meeting, counsel will present training on the Bagley-Keene Open Meeting Act.

## RECOMMENDATION

Take action (as necessary and appropriate) regarding State Board Projects and Priorities.

## SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At each regular meeting, the State Board has traditionally had an agenda item under which to address “housekeeping” matters, such as agenda planning, non-closed session litigation updates, non-controversial proclamations and resolutions, bylaw review and revision, Board policy; Board minutes; Board liaison reports; and other matters of interest. The State Board has asked that this item be placed appropriately on each agenda.

## SUMMARY OF KEY ISSUES

1. Bagley-Keene Training: Counsel from the Attorney General’s Office will present training on the Bagley-Keene Open Meeting Act.
2. State Board of Education Draft Goals and Priorities
3. State Board of Education Draft July 2011 Minutes
4. Board member liaison reports

## FISCAL ANALYSIS (AS APPROPRIATE)

Not applicable.

This acronyms chart was posted by the State Board of Education on October 29, 2010.
ARTICLE I
Authority
The California State Board of Education is established in the Constitution of the State of California and empowered by the Legislature through the California Education Code.

ARTICLE II
Powers and Duties
The Board establishes policy for the governance of the state's kindergarten through grade twelve public school system as prescribed in the Education Code, and performs other duties consistent with statute.

ARTICLE III
Members
APPOINTMENT Section 1. The State Board of Education consists of 11 members who are appointed by the Governor with the advice and consent of two-thirds of the Senate.

TERM OF OFFICE Section 2. (a) The term of office of the members of the Board is four years, except for the student member whose term is one year.

(b) Except for the student member, who serves a one-year term, terms expire on January 15 of the fourth year following their commencement. Members, other than the student member, continue to serve until the appointment and qualification of their successors to a maximum of 60 days after the expiration of their terms. If the member is not reappointed and no successor is appointed within that 60-day period, the member may no longer serve and the position is deemed vacant. The term of the student member begins on August 1 and ends on July 31 of the following year.

(c) If the Senate refuses to confirm, the person may continue to serve until 60 days have elapsed since the refusal to confirm or until 365 days have elapsed since the person first began performing the duties of the office, whichever occurs first.

(d) If the Senate fails to confirm within 365 days after the day the person first began performing the duties of the office, the person may not continue to serve in that office following the end of the 365-day period.

VACANCIES Section 3. Any vacancy shall be filled by appointment by the Governor, subject to confirmation by two-thirds of the Senate. The person appointed to fill a vacancy shall hold office only for the balance of the unexpired term.

STUDENT MEMBER Section 4. Finalists for the student member position shall be selected and recommended to the Governor as prescribed by law.
COMPENSATION AND EXPENSES

Section 5. Members of the Board shall receive their actual and necessary travel expenses while on official business. Each member shall also receive one hundred dollars ($100) for each day he or she is acting in an official capacity.

EC 33006
GC 11564.5

CONFLICT OF INTEREST CODE

Section 6. Board members shall file statements of economic interest as required by the Fair Political Practices Commission. The terms of a standard Conflict of Interest Code, adopted by the Commission and as may be amended, are incorporated by reference and constitute the Conflict of Interest Code of the Board.

2 CCR 18730
5 CCR 18600

ARTICLE IV
Officers and Duties

PRESIDENT, VICE PRESIDENT

Section 1. Officers of the Board shall be a president and a vice president. No member may serve as both president and vice president at the same time.

Section 2. (a) The president and vice president shall be elected annually in accordance with the procedures set forth in this section.

(b) Prior to the December regular meeting, letters of nomination for the offices of president and vice president for the forthcoming calendar year shall be submitted to the executive director. When a member submits a letter nominating another member for either office, it shall be understood that the member being nominated has been consulted and has agreed to serve if elected. Members interested in serving in either office may nominate themselves.

(c) At a time to be set aside for the purpose by the president at the December meeting, the executive director shall indicate the names placed in nomination in accordance with paragraph (b). The president shall then call for other nominations from the floor, including self-nominations, which shall then be in order and shall not require a second.

(d) From the names placed in nomination at the December meeting, along with any additional nominations from the floor subject to the conditions set forth in this paragraph, a president and a vice president shall be elected at the beginning of the January regular meeting each year, with the newly elected officers assuming office immediately following the election. No member may nominate himself or herself for the office of president or vice president at the January meeting, and any nomination for such office must be seconded if made at the January meeting.

(e) Six votes are necessary to elect an officer, and each officer elected shall serve for one year or until his or her successor is elected.

(f) If, in the Board's judgment, no nominee for the office of president or vice president can garner sufficient votes for election to that office at the January meeting, a motion to put the election over to a subsequent meeting is in order.

(g) In the event a vacancy occurs in the office of president or vice president during a calendar year, an election shall be held at the next meeting. Any member interested in completing the one-year term of an office that has become vacant may nominate himself or herself, but each nomination requires a second.

(h) The State Superintendent of Public Instruction shall preside only during the election proceedings for the office of president and for the conduct of any other business that a majority of the Board members may direct.
EXECUTIVE OFFICER

Section 3. The State Superintendent of Public Instruction shall be secretary and shall act as executive officer of the Board.

DUTIES OF THE PRESIDENT

Section 4. The president shall:
- serve as spokesperson for the Board;
- represent the position of the Board to the State Superintendent of Public Instruction;
- appoint members to serve on committees and as liaisons, as prescribed in these Bylaws, and as may be needed in his or her judgment properly to fulfill the Board's responsibilities;
- serve as ex officio voting member of the Screening Committee and any ad hoc committees, either substituting for an appointed member who is not present with no change in an affected committee's quorum requirement, or serving as an additional member with the affected committee's quorum requirement being increased if necessary, provided that in no case shall the service of the president as ex officio voting member increase the total voting membership of a committee to more than five;
- preside at all meetings of the Board and follow-up with the assistance of the executive director to see that agreed upon action is implemented;
- serve, as necessary, as the Board's liaison to the National Association of State Boards of Education, or designate a member to serve in his or her place;
- serve, or appoint a designee to serve, on committees or councils that may be created by statute or official order where required or where, in his or her judgment, proper carrying out of the Board's responsibility demands such service;
- determine priorities for expenditure of Board travel funds;
- provide direction for the executive director;
- direct staff in preparing agendas for Board meetings in consultation with the other members as permitted by law;
- keep abreast of local, state, and national issues through direct involvement in various conferences and programs dealing with such issues, and inform Board members of local, state, and national issues; and
- participate in selected local, state, and national organizations, which have an impact on public education, and provide to other members, the State Superintendent, and the staff of the Department of Education the information gathered and the opinion and perspective developed as the result of such active personal participation.

DUTIES OF THE VICE PRESIDENT

Section 5. The vice president shall:
- preside at Board meetings in the absence of the president;
- represent the Board at functions as designated by the president; and
- fulfill all duties of the president when he or she is unable to serve.

DUTIES OF COMMITTEE CHAIR

Section 6. The chair of the Screening Committee or any ad hoc committee shall:
- preside at meetings of the committee he or she chairs, except that he or she shall yield the chair to another committee member in the event he or she will be absent or confronts a conflict regarding any matter coming before the committee, and may yield the chair to another committee member for personal reasons; and
• in consultation with the president, other committee members, and appropriate staff, assist in the preparation of committee agendas and coordinate and facilitate the work of the committee in furtherance of the Board's goals and objectives.

DUTIES OF LIAISON OR REPRESENTATIVE

Section 7. A Board member appointed as a liaison or representative shall:

• serve as an informal (non-voting) link between the Board and the advisory body or agency (or function) to which he or she is appointed as liaison or representative; and

• reflect the position of the Board, if a position is known to him or her, on issues before the advisory body or agency (or within the function) to which he or she is appointed as liaison or representative and keep the Board appropriately informed.

DUTIES OF A BOARD MEMBER APPOINTED TO ANOTHER AGENCY

Section 8. The member shall:

• to every extent possible, attend the meetings of the agency and meet all responsibilities of membership; and

• reflect through his or her participation and vote the position of the Board, if a position is known to him or her, and keep the Board informed of the agency's activities and the issues with which it is dealing.

ARTICLE V
Meetings

REGULAR MEETINGS
Section 1. Generally, regular meetings of the Board shall be held on the Wednesday and Thursday preceding the second Friday of each of the following months: July, September, November, January, March, and May. However, in adopting a specific meeting schedule, the Board may deviate from this pattern to accommodate state holidays and special events. Other regularly noticed meetings may be called by the president for any stated purpose.

EC 33007

SPECIAL MEETINGS
Section 2. Special meetings may be called to consider those purposes specified in law if compliance with the 10-day notice would impose a substantial hardship on the board or if immediate action is required to protect the public interest.

OPEN MEETINGS
Section 3. (a) All meetings of the Board, except the closed sessions permitted by law, and all meetings of Board committees, to the extent required by law, shall be open and public.

(b) All meetings shall conform to the Bagley-Keene Open Meeting Act, including requirements for notices of meetings, preparation and distribution of agendas and written materials, inspection of public records, closed sessions and emergency meetings, maintenance of records, and disruption of a public meeting. Those provisions of law which govern the conduct of meetings of the Board are hereby incorporated by reference into these Bylaws.

(c) Unless otherwise provided by law, meetings of any advisory body, committee or subcommittee thereof, created by statute or by formal action of the Board, which is required to advise or report or recommend to the Board, shall be open to the public.

GC 11120 et seq.

NOTICE OF MEETINGS
Section 4. (a) Notice of each regular meeting shall be posted at least 10 days prior to the time of the meeting and shall include the time, date, and place of the meeting and a copy of the meeting agenda.
(b) Notice of any meeting of the Board shall be given to any person so requesting. Upon written request, individuals and organizations wishing to receive notice of meetings of the Board will be included on the mailing list for notice of regular meetings.

SPECIAL MEETINGS

(ADDITIONAL PROVISIONS)

Section 5. (a) Special meetings may be called by the president or by the secretary upon the request of any four members of the board for the purposes specified in law if compliance with the 10-day notice requirements would impose a substantial hardship on the board or if immediate action is required to protect the public interest.

(b) Notice of special meetings shall be delivered in a manner that allows it to be received by the members and by newspapers of general circulation and radio or television stations at least 48 hours before the time of the special meeting. Notice shall also be provided to all national press wire services. Notice to the general public shall be made by placing it on appropriate electronic bulletin boards if possible.

(c) Upon commencement of a special meeting, the board shall make a finding in open session that giving a 10-day notice prior to the meeting would cause a substantial hardship on the board or that immediate action is required to protect the public interest. The finding shall be adopted by a two-thirds vote of the board or a unanimous vote of those members present if less than two-thirds of the members are present at the meeting.

EMERGENCY MEETINGS

Section 5. (a) An emergency meeting may be called by the president or by the secretary upon the request of any four members without providing the notice otherwise required in the case of a situation involving matters upon which prompt action is necessary due to the disruption or threatened disruption of public facilities and which is properly a subject of an emergency meeting in accordance with law.

(b) The existence of an emergency situation shall be determined by concurrence of six of the members during a meeting prior to an emergency meeting, or at the beginning of an emergency meeting, in accordance with law.

(c) Notice of an emergency meeting shall be provided in accordance with law.

CLOSED SESSIONS

Section 6. Closed sessions shall be held only in accordance with law.

QUORUM

Section 7. (a) The concurrence of six members of the Board shall be necessary to the validity of any of its acts.

(b) A quorum of any Board committee shall be a majority of its members, and a committee may recommend actions to the Board with the concurrence of a majority of a quorum.

ORDER OF BUSINESS

Section 8. The order of business for all regular meetings of the Board shall generally be:

- Call to Order
- Salute to the Flag
- Reorganization of the Board (if necessary)
- Approval of Minutes
- Communications
CONSENT CALENDAR

Section 9. (a) Non-controversial matters and waiver requests meeting established guidelines may be presented to the Board on a consent calendar.

(b) Items may be removed from the consent calendar upon the request of an individual Board member or upon the request of Department staff authorized by the State Superintendent of Public Instruction to submit items for consideration by the Board.

(c) Items removed from the consent calendar shall be referred to a standing committee or shall be considered by the full Board at the direction of the president.

ARTICLE VI

Committees and Representatives

SCREENING COMMITTEE

Section 1. A Screening Committee composed of no fewer than three and no more than five members shall be appointed by the president to screen applicants for appointment to Board advisory bodies and other positions as necessary; participate, as directed by the president, in the selection of candidates for the position of student Board member in accordance with law; and recommend appropriate action to the Board.

AD HOC COMMITTEES

Section 2. From time to time, the president may appoint ad hoc committees for such purposes as he or she deems necessary. Ad hoc committees shall remain in existence until abolished by the president.

REPRESENTATIVES

Section 3. From time to time, the president may assign Board members the responsibility of representing the State Board in discussions with staff (as well as with other individuals and agencies) in relation to such topics as assessment and accountability, legislation, and implementation of federal and state programs. The president may also assign Board members the responsibility of representing the Board in ceremonial activities.

ARTICLE VII

Public Hearings: General

SUBJECT OF A PUBLIC HEARING

Section 1. (a) The Board may hold a public hearing regarding any matter pending before it after giving the notice required by law.
(b) The Board may direct that a public hearing be held before staff of the Department of Education, an advisory commission to the Board, or a standing or ad hoc committee of the Board regarding any matter which is or is likely to be pending before the Board. If the Board directs that a public hearing be held before staff, then an audiotape of the public hearing and a staff-prepared summary of comments received at the public hearing shall be made available to the Board members in advance of the meeting at which action on the pending matter is scheduled.

5 CCR 18460
EC 33031
GC 11125

**COPIES OF STATEMENTS**

Section 2. A written copy of the testimony a person wishes to present at a public hearing is requested, but not required. The written copy may be given to appropriate staff in advance of or at the public hearing.

**TIME LIMITS FOR THE PRESENTATION OF PUBLIC TESTIMONY**

Section 3. At or before a public hearing, the presiding individual shall (in keeping with any legal limitation or condition that may pertain) determine the total amount of time that will be devoted to hearing oral comments, and may determine the time to be allotted to each person or to each side of an issue.

5 CCR 18463
EC 33031

**WAIVER BY PRESIDING INDIVIDUAL**

Section 4. At any time, upon a showing of good cause, the presiding individual may waive any time limitation established under Section 3 of this article.

5 CCR 18464
EC 33031

**ARTICLE VIII**

Public Hearings: School District Reorganization

**SUBMISSION OF PROPOSALS AND PETITIONS**

Section 1. A proposal by a county committee on school district organization or other public agency, or a petition for the formation of a new district or the transfer of territory of one district to another shall be submitted to the executive officer of the Board. The executive officer of the Board shall cause the proposal or petition to be:

- reviewed and analyzed by the California Department of Education;
- set for hearing before the Board (or before staff if so directed by the Board) at the earliest practicable date; and
- transmitted together with the report and recommendation of the Department of Education to the Board (or to the staff who may be directed by the Board to conduct the hearing) and to such other persons as is required by law not later than ten days before the date of the hearing.

CCR 18570

**ARGUMENTS PRESENTED AT THE PUBLIC HEARING: ORIGINAL SUBMISSION**

Section 2. At the time and place of hearing, the Board (or staff if so directed by the Board) will receive oral or written arguments on the proposal or petition. The presiding individual may limit the number of speakers on each side of the issue, limit the time permitted for the presentation of a particular view, and limit the time of the individual speakers. The presiding individual may ask that speakers not repeat arguments previously presented.

CCR 18571
Resubmission of the Same or an Essentially Identical Proposal or Petition

Section 3. If the same or an essentially identical proposal or petition has been previously considered by the Board, the documents constituting such a resubmission shall be accompanied by a written summary of any new factual situations or facts not previously presented. In this case, any hearing shall focus on arguments not theretofore presented and hear expositions of new factual situations and of facts not previously entered into the public record.

CCR 18572

Statements

Section 4. All statements are requested to be submitted to the Board (or to staff if so directed by the Board) in advance of the presentation. Statements are requested to be in writing and should only be summarized in oral testimony.

Article IX

Public Records

Public records of the Board shall be available for inspection and duplication in accordance with law, including the collection of any permissible fees for research and duplication.

GC 6250 et seq.

Article X

Parliamentary Authority

Rules of Order

Section 1. Debate and proceedings shall be conducted in accordance with Robert's Rules of Order (Newly Revised) when not in conflict with rules of the Board and other statutory requirements.

Section 2. Members of the public or California Department of Education staff may be recognized by the president of the Board or other presiding individual, as appropriate, to speak at any meeting. Those comments shall be limited to the time determined by the president or other presiding individual. All remarks made shall be addressed to the president or other presiding individual. In order to maintain appropriate control of the meeting, the president or other presiding individual shall determine the person having the floor at any given time and, if discussion is in progress or to commence, who may participate in the discussion.

Section 3. All speakers shall confine their remarks to the pending matter as recognized by the president or other presiding individual.

Section 4. Public speakers shall not directly question members of the Board, the State Superintendent, or staff without express permission of the president or other presiding individual, nor shall Board members, the State Superintendent, or staff address questions directly to speakers without permission of the president or other presiding individual.

Section 5. The Chief Counsel to the Board or the General Counsel of the California Department of Education, or a member of the Department's legal staff in the absence of the Board’s Chief Counsel, will serve as parliamentarian. In the absence of legal staff, the president or other presiding individual will name a temporary replacement if necessary.

Article XI

Board Appointments

Advisory Bodies

Section 1. Upon recommendation of the Screening Committee as may be necessary, the Board appoints members to the following advisory bodies for the terms indicated:
(a) Advisory Commission on Special Education. The Board appoints five of 17 members to serve four-year terms.

(b) Curriculum Development and Supplemental Materials Commission. The Board appoints 13 of 18 members to serve four-year terms.

(c) Child Nutrition Advisory Council. The Board appoints 13 members, 12 to three-year terms and one student representative to a one-year term. By its own action, the Council may provide for the participation in its meetings of non-voting representatives of interest groups not otherwise represented among its members, such as school business officials and experts in the area of physical education and activity.

(d) Advisory Commission on Charter Schools. The Board appoints eight members to two-year terms.

OTHER APPOINTMENTS

Section 2. On the Board’s behalf, the president makes the following appointments:

(a) WestEd (Far West Laboratory for Educational Research and Development). Five individuals to serve three-year terms on the Board of Directors as follows:
- one representing the California Department of Education;
- two representing school districts in California; and
- two representing county offices of education in California.

(b) Trustees of the California State Summer School for the Arts. Two members, one of whom shall be a current member of the Board, for terms of three years.

(c) No Child Left Behind Liaison Team. Two members for terms not to exceed two years.

SCREENING AND APPOINTMENT

Section 3. Opportunities for appointment shall be announced and advertised as appropriate, and application materials shall be made available to those requesting them. The Screening Committee shall paper-screen all applicants, interview candidates as the Committee determines necessary, and recommend appropriate action to the Board.

ARTICLE XII

Presidential Appointments

LIAISONS

Section 1. The president shall appoint one Board member, or more where needed, to serve as liaison(s) to:

(a) The Advisory Commission on Special Education.
(c) The National Association of State Boards of Education, if the Board participates in that organization.
(d) The Commission on Teacher Credentialing.
(e) The California Postsecondary Education Commission: one member to serve as the president's designee if the president so chooses, recognizing that no person employed full-time by any institution of public or private postsecondary education may serve on the commission.

EC 66901(d) and (h)

OTHER

Section 2. The president shall make all other appointments that may be required of the Board or that require Board representation.

ARTICLE XIII
Amendment to the Bylaws

These Bylaws may be amended at any regular meeting of the Board, provided that the amendment has been submitted in writing at the previous regular meeting.

ABBREVIATIONS

Abbreviations used in these Bylaws, citing Board authority, are:

- Amended November 13, 1992
- Amended February 11, 1993
- Amended June 11, 1993
- Amended May 12, 1995
- Amended January 8, 1998
- Amended April 11, 2001
- Amended July 9, 2003
State Board of Education
Goals and Priorities

The State Board of Education (SBE) has a defined set of responsibilities, established in state statute and in the state’s Constitution. These include:

- Adopting rules and regulations for the governance of the state’s public schools;
- Adopting academic content standards, curriculum frameworks, and instructional materials;
- Adopting assessment and accountability policies;
- Considering requests from local education agencies to waive statutory and regulatory requirements;
- Acting on petitions to unify or reorganize school districts;
- Authorizing certain charter schools and handling many appeals related to charter schools; and
- Acting as the designated State Education Agency (SEA) for federally funded education programs, with the responsibility for overseeing compliance with federal law and in some cases, allocating federal funding.

To carry out these duties, the SBE has adopted the following priorities that will guide the current and future work of the SBE:

1) Develop a comprehensive plan for bringing the state’s curriculum frameworks, instructional materials, professional development efforts, assessments, and accountability policies into alignment with the Common Core Standards.

2) Support and strengthen the teacher and school administrator workforce; ensure that professional development efforts are aligned to the Common Core Standards.

3) Grant appropriate flexibility to local schools and districts to help them meet the needs of their particular communities and make most effective use of limited financial resources.

4) Strengthen coordination between K-12 and higher education; make policy decisions that aim to improve students’ readiness for career, college, and civic participation.

5) Support innovation—whether in charter schools or traditional schools—paired with accountability for improved student outcomes.

6) Facilitate and support the best uses of technology, with the goals of improving student outcomes and increasing efficiency.

7) Ensure that California schools are serving all students, including those who are struggling, those achieving at high levels, and those in the middle.

Michelle Zumot, Education Policy Consultant, CDE

Public Session

July 14, 2011

CLOSED SESSION
There was no Closed Session.

**Item 1: Parent Empowerment**  
Approve Commencement of a Third 15-day Public Comment Period for Proposed Additions to the *California Code of Regulations, Title 5*, Sections 4800–4808.

**ACTION:** Member Williams moved to:

- Approve the changes to the proposed regulations as recommended by SBE staff in Attachment 1 of Item Addendum 1;
- Direct that the proposed changes be circulated for a third 15-day public comment period in accordance with the Administrative Procedure Act;
- If no relevant comments to the proposed changes are received during the third 15-day public comment period, the proposed regulations with changes are deemed adopted, and the California Department of Education (CDE) is directed to complete the rulemaking package and submit it to the Office of Administrative Law (OAL) for approval;
- If any relevant comments to the proposed changes are received during the third 15-day public comment period, CDE is directed to place the proposed regulations on the SBE’s September 2011 agenda for action; and
- Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

Member Ramos seconded the motion.

Yes votes: Members Aschwanden, Ramos, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No votes: None.

**Item 2: Update on Issues Related to California’s Implementation of the Elementary and Secondary Education Act and Other Federal Programs.**

*No action was taken on this item.*
Item 3: Elementary and Secondary Education Act: School Improvement Grant: Approval of Renewal of Funding for Year 2 of Cohort 1 Fiscal Year 2009 Local Educational Agencies and Schools for the Sub-Grants Under Section 1003(g).

**ACTION:** Member Aschwanden moved to approve the list of Cohort 1 local educational agencies (LEAs) and schools for renewal of the fiscal year (FY) 2009 School Improvement Grant (SIG) Sub-grants, contingent on schools implementing all required elements of the SIG program on the first day of school year 2011-12.

Member Cohn seconded the motion.

Yes votes:  Members Aschwanden, Ramos, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No votes:  None.

Item 4: Elementary and Secondary Education Act: Request a Waiver Under Title I, Part A Section 9401 to Carry Over 100 Percent of the Fiscal Year 2010 School Improvement Grant Allocation.

**ACTION:** Member Aschwanden moved to request a waiver from the U.S. Department of Education, as recommended by CDE, to carry over 100 percent of the Fiscal Year (FY) 2010–11 School Improvement Grant (SIG) allocation to be awarded along with the FY 2011 allocation for awards beginning in the 2012–13 school year. The FY 2010 and FY 2011 funds will be combined to award sub-grants for the first two years of the three-year grant period (2012–13 and 2013–14 school years); the third year (2014–15) of the grant award period will be funded using FY 2012 allocation.

Member Rucker seconded the motion.

Yes votes:  Members Aschwanden, Ramos, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No votes:  None.

Item 5: Elementary and Secondary Education Act: Supplemental Educational Services Providers: Approval of Additional Providers to the 2011-13 State Board of Education-Approved Supplemental Educational Services Provider List.

**ACTION:** Member Cohn moved to adopt the CDE’s recommendation to approve 75 additional SES providers from the second 2011 RFA process for a two-year period beginning July 1, 2011, through June 30, 2013. This includes conditional approval for 16 LEAs identified for improvement or corrective action pending notification of approval of the waiver from the Department of Education (requested in Item 4).
Member Molina seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No votes: None.

Not present: Member Ramos.

---

**Item 6:** Inclusion of Middle School Dropouts in the Academic Performance Index – Adopt Amendments to *California Code of Regulations*, Title 5, Section 1039.1.

This item was moved to the Consent Calendar and approved as recommended by CDE staff.

---

**Item 7:** California English Language Development Test Program: Approve Commencement of the Rulemaking Process for Amendments to the *California Code of Regulations*, Title 5, Sections 11510 Through 11517.5.

**ACTION:** Member Cohn moved to adopt CDE staff’s recommendation to:

- Approve the Notice of Proposed Rulemaking;
- Approve the Initial Statement of Reasons;
- Approve the proposed regulations; and
- Direct the CDE to commence the rulemaking process.

Member Aschwanden seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Molina, Rucker.

No votes: None.

Not present: Members Ramos, Straus

---

**WAIVER REQUEST CONSENT AND WAIVERS ON PROPOSED CONSENT**

The following agenda items satisfy criteria for approving a waiver of that type based on a previously-adopted State Board of Education waiver policy or have waiver evaluation criteria that are in *the California Education Code EC* or in the *California Code of Regulations*, CCR, Title 5.
The following agenda items were proposed for approval on the waiver consent calendar: WC-1 through WC-8 and WC-10 through WC-17. The following additional waivers were proposed for consent: W-4, W-5, W-7, W-8, W-9, W-10, W-11, W-12, W-13, W-14, W-15, W-16, W-17, W-18, W-19, W-21, W-22, W-23, W-24.

ACTION: Member Aschwanden moved to approve the waiver consent calendar and the waivers on proposed consent, as recommended by CDE. Member Chan seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Molina, Rucker.

No votes: None.

Not present: Members Ramos, Molina.

WAIVER REQUEST CONSENT

Waiver Number: Fed-61-2011
(APPROVAL)
Federal Program Waiver (Carl D. Perkins Voc and Tech Ed Act)

Item WC-4
Subject: Request by Shoreline Unified School District for Tomales High School for a waiver of Section 131(c)(1) of the Carl D. Perkins Career and Technical Education Improvement Act of 2006 (Public Law 109-270).
Waiver Number: Fed-62-2011
(APPROVAL)

Federal Program Waiver (Carl D. Perkins Voc and Tech Ed Act)

Item WC-5
Subject: Request by Sutter Union High School District for Sutter Union High School for a waiver of Section 131(c)(1) of the Carl D. Perkins Career and Technical Education Improvement Act of 2006 (Public Law 109-270).
Waiver Number: Fed-60-2011
(APPROVAL)

Other Waivers

Item WC-6
Subject: Request by Rescue Union Elementary School District to waive a portion of California Education Code Section 37223, which relates to weekend makeup classes.
Waiver Number: 20-3-2011
(APPROVAL WITH CONDITIONS)

Petition

Item WC-7
Subject: Petition request under California Education Code sections 60421(d) and 60200(g) for a renewal petition by Poway Unified School District to purchase specified non-adopted instructional materials for severely disabled children using Instructional Materials Funding Realignment Program monies.
Waiver Number: 58-4-2011
(APPROVAL)

School Construction Bonds (Bond Indebtedness Limit - Non-Unified)

Item WC-8
Subject: Request by Moreland Elementary School District to waive California Education Code sections 15102 and 15268 to allow the district to exceed its bonded indebtedness limit of 1.25 percent of the taxable assessed value of property.
(Requesting 1.57 percent)
Waiver Number: 5-4-2011
(APPROVAL WITH CONDITIONS)
Schoolsite Council Statute (Shared Schoolsite Council)

Item WC-10
Subject: Request by Jamestown Elementary School District under the authority of California Education Code Section 52863 for a waiver of Education Code 52852, allowing one joint schoolsite council to function for two small schools: Chinese Camp Elementary School and Jamestown Elementary School.
Waiver Number: 22-3-2011
(APPROVAL WITH CONDITIONS)

Schoolsite Council Statute (Shared Schoolsite Council)

Item WC-11
Subject: Request by Alview-Dairyland Union Elementary School District under the authority of California Education Code Section 52863 for a renewal waiver of Education Code Section 52852, allowing one joint schoolsite council to function for two small rural schools: Alview Elementary School and Dairyland Elementary School.
Waiver Number: 49-3-2011
(APPROVAL WITH CONDITIONS)

Schoolsite Council Statute (Shared Schoolsite Council)

Item WC-12
Subject: Request by Terra Bella Union Elementary School District under the authority of California Education Code Section 52863 for a renewal waiver of Education Code Section 52852, allowing one schoolsite council to function for two schools: Terra Bella Elementary School and Carl F. Smith Middle School.
Waiver Number: 19-3-2011
(Recommended for APPROVAL WITH CONDITIONS)

Schoolsite Council Statute (Shared Schoolsite Council with Reduced Number and Composition)

Item WC-13
Waiver Number: 32-5-2011
(APPROVAL WITH CONDITIONS)
Special Education Program (Algebra I Requirement for Graduation)

Item WC-14
Subject: Request by Pleasanton Unified School District to waive California Education Code Section 51224.5(b), the requirement that all students graduating in the 2010–11 school year be required to complete a course in Algebra I (or equivalent) to be given a diploma of graduation, for one special education student based on Education Code Section 56101, the special education waiver authority.
Waiver Number: 18-4-2011
(APPROVAL WITH CONDITIONS)

Special Education Program (Non Public Agency (NPA) or School (NPS) Annual Renewal of Certification)

Item WC-15
Subject: Request by West Orange County Special Education Local Plan Area under authority of California Education Code Section 56101 to waive Education Code Section 56366.1(h), the August through October 31 timeline for an annual certification renewal application, for Speech and Language Professional Services, a nonpublic agency.
Waiver Number: 31-5-2011
(APPROVAL)

Special Education Program (Resource Teacher Caseload)

Item WC-16

Subject: Request by Taft Union High School District under the authority of California Education Code Section 52863 for a renewal waiver of Education Code Section 52852, to allow a reduction in the number and composition of members required for a schoolsite council for a small continuation high school, Buena Vista Continuation High School.  
Waiver Number: 64-2-2011  
(APPROVAL WITH CONDITIONS)

Schoolsite Council Statute (Shared Schoolsite Council with Reduced Number and Composition)

Item W-10 Specific  
Subject: Request by Gerber Union Elementary School District under the authority of California Education Code Section 52863 for a waiver of Education Code Section 52852, allowing one joint school site council with a reduced number and composition to function for two small schools: Gerber Union Elementary School and Gerber Community Day School.  
Waiver Number: 46-3-2011  
(APPROVAL WITH CONDITIONS)

Special Education Program (Algebra I Requirement for Graduation)

Item W-11 Specific  
Subject: Request by Hayward Unified School District to waive California Education Code Section 51224.5(b), the requirement that all students graduating in the 2010-11 school year be required to complete a course in Algebra I (or equivalent) to be given a diploma of graduation, for three special education students based on Education Code Section 56101, the special education waiver authority.  
Waiver Number: 11-5-2011  
(APPROVAL WITH CONDITIONS)

Item W-12 Specific  
Subject: Request by Manteca Unified School District to waive California Education Code Section 51224.5(b), the requirement that all students graduating in the 2010-11 school year be required to complete a course in Algebra I (or equivalent) to be given a diploma of graduation, for one special education student based on Education Code Section 56101, the special education waiver authority.  
Waiver Number: 10-4-2011  
(APPROVAL WITH CONDITIONS)

Special Education Program (Educational Interpreter for Deaf and Hard of Hearing)
Item W-13 General
Subject: Request by Imperial County Office of Education to waive California Code of Regulations, Title 5, Section 3051.16(b)(3), the requirement that educational interpreters for deaf and hard of hearing pupils meet minimum qualifications as of July 1, 2009, to allow Alejandra Larios Ramirez to continue to provide services to students until June 30, 2012, under a remediation plan to complete those minimum requirements.
Waiver Number: 56-3-2011
(APPROVAL WITH CONDITIONS)

Special Education Program (Educational Interpreter for Deaf and Hard of Hearing)

Item W-14
Subject: Request by Shasta County Office of Education for a renewal to waive California Code of Regulations, Title 5, Section 3051.16(b)(3), the requirement that educational interpreters for deaf and hard of hearing pupils meet minimum qualifications as of July 1, 2009, to allow Christina Coburn, Diana Davis, Aleah Nishizaki, Barbara Wolf, and Sarah Wood to continue to provide services to students until June 30, 2012, under a remediation plan to complete those minimum qualifications.
Waiver Numbers: 45-4-2011, 46-4-2011, 47-4-2011, 49-4-2011, and 50-4-2011
(APPROVAL WITH CONDITIONS)

Special Education Program (Extended School Year (Summer School))

Item W-15 General
Subject: Request by Mariposa County Office of Education to waive California Code of Regulations, Title 5, Section 3043(d), which requires a minimum of 20 school days of attendance of four hours each for an extended school year (summer school) for special education students.
Waiver Number: 16-4-2011
(APPROVAL WITH CONDITIONS)

Special Education Program (Use of Funds for Low Incidence Disabilities)

Item W-16 Specific
Subject: Request by East Valley, Fontana Unified, and San Bernardino City Unified Special Education Local Plan Areas under authority of California Education Code Section 56101 for a renewal to waive Education Code Section 56836.22(d) to allow ten percent of state low incidence funds to be utilized for the purchase of assistive technology/materials for assessment and trial use prior to purchasing specific items for specific identified students.
Waiver Number: 1-3-2011
(APPROVAL WITH CONDITIONS)
Quality Education Investment Act (Class Size Reduction Requirements)

Item W-17 General
Subject: Request by Coachella Valley Unified School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at Cahuilla Desert Academy and Toro Canyon Middle School (requesting 24.9 student ratio on average in core classes in grades seven and eight at Cahuilla Desert Academy and 24.6 at Toro Canyon Middle School). Waiver Number: 23-5-2011 (APPROVAL WITH CONDITIONS)

Quality Education Investment Act (Class Size Reduction Requirements)

Item W-18 General
Subject: Request by Compton Unified School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at McKinley Elementary School (requesting 25:1 ratio on average in core classes in grade five). Waiver Number: 131-2-2011 (APPROVAL WITH CONDITIONS)

Quality Education Investment Act (Class Size Reduction Requirements)

Item W-19 General
Subject: Request by Farmersville Unified School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at Snowden Elementary School, Freedom Elementary School, and Farmersville Junior High School (requesting 25:1 average in core classes in grades two through eight). Waiver Number: 39-3-2011 (APPROVAL WITH CONDITIONS)

Quality Education Investment Act (Class Size Reduction Requirements)

Item W-21 General
Subject: Request by Taft City School District to waive California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at Lincoln
Junior High School (requesting 23:1 ratio on average in core classes in grades six through eight, and 35:1 on average in non-core classes in grade six through eight).
Waiver Number: 53-4-2011
(APPROVAL WITH CONDITIONS)

Quality Education Investment Act (Class Size Reduction Requirements)

Item W-22 General
Subject: Request by West Contra Costa Unified School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at John F. Kennedy High School (requesting 24.5:1, 24.4:1, 24:1, and 21:1 ratio on average in core classes in grades nine, ten, eleven, and twelve).
Waiver Number: 121-2-2011
(APPROVAL WITH CONDITIONS)

Quality Education Investment Act (Class Size Reduction Requirements)

Item W-23 General
Subject: Request by West Contra Costa Unified School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at Helms Middle School (requesting 24.7:1 ratio on average in core classes in grade seven and 25:1 ratio in grade eight).
Waiver Number: 122-2-2011
(APPROVAL WITH CONDITIONS)

Quality Education Investment Act (Class Size Reduction Requirements)

Item W-24 General
Subject: Request by San Diego Unified School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce their class sizes by an average of five students per class by the end of the 2010–11 school year at Roosevelt International Baccalaureate Middle School (requesting 20.9:1 ratio on average in core classes in grade six, 20.7:1 in grade seven, and 21.1:1 for grade eight).
Waiver Number: 16-5-2011
(APPROVAL WITH CONDITIONS)

END OF PROPOSED WAIVER CONSENT ITEMS
NON-CONSENT WAIVER ITEMS

Class Size Penalties (Over Limit on Grades 4-8)

Item W-1 General
Subject: Request by eight districts to waive portions of California Education Code Section 41376 (b) and (e), relating to class size penalties for grades four through eight. A district’s current class size maximum is the greater of the 1964 statewide average of 29.9 to one or the district’s 1964 average.
Waiver Numbers: 3-4-2011, 25-4-2011, 9-5-2011, 32-4-2011, 4-5-2011, 55-4-2011, 17-4-2011, and 86-2-2011

ACTION: Member Chan moved to approve the waiver with CDE’s recommended conditions. Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina.

No votes: None.

Not present: Member Ramos.

Recused: Member Rucker.

Class Size Penalties (Over limit on Kindergarten - Grade 3)

Item W-2 Specific
Subject: Request by three districts, under the authority of California Education Code Section 41382, to waive portions of Education Code sections 41376 (a), (c), and (d) and 41378 (a) through (e), relating to class size penalties for kindergarten through grade three. For kindergarten, the overall class size average is 31 to one with no class larger than 33. For grades one through three, the overall class size average is 30 to one with no class larger than 32.
Waiver Numbers: 26-4-2011, 3-5-2011 and 27-5-2011
(APPROVAL WITH CONDITIONS)

ACTION: Member Aschwanden moved to approve the waiver with CDE’s recommended conditions. Member Molina seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina.

No votes: None.

Not present: Member Ramos.

Recused: Member Rucker.
Class Size Penalties (Over limit on Grades 1-3)

Item W-3 Specific
Subject: Request by San Jacinto Unified School District, under the authority of California Education Code Section 41382, to waive portions of Education Code sections 41376 (a), (c), and (d) relating to class size penalties for grades one through three. For grades one through three, the overall class size average is 30 to one with no class larger than 32.
Waiver Number: 7-5-2011
(APPROVAL WITH CONDITIONS)

ACTION: Member Aschwanden moved to approve the waiver with CDE’s recommended conditions. Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina.
No votes: None.
Not present: Member Ramos.
Recused: Member Rucker.

School District Reorganization (Lapsation of a Small District)

Item W-6 General

Subject: Request by Santa Barbara County Office of Education to waive portions of California Education Code sections 35576, 35782, and 35784 to allow removal of required timelines for the lapsation of a district and to provide a more equitable allocation of existing bonded indebtedness after lapsation.
Waiver Number: 14-4-2011
(APPROVAL WITH CONDITIONS)

ACTION: Member Aschwanden moved to approve the waiver with CDE’s recommended conditions. Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.
No votes: None.
Not present: Member Ramos.
School District Reorganization (Lapsation of a Small District)

Item WC-9
Subject: Request by La Grange Elementary School District to waive portions of California Education Code Section 35786 in its entirety, which requires a lapsation to be effective on the date of the lapsation order, and a portion of Education Code Section 35782, which requires a public hearing on lapsation to be conducted within 30 days of the close of the school year.
Waiver Number: 10-5-2011
(APPROVAL WITH CONDITIONS)

ACTION: Member Aschwanden moved to approve the waiver with the conditions recommended by CDE. Member Chan seconded the vote.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Molina, Rucker, Straus.

No votes: None.

Not present: Member Ramos.

Quality Education Investment Act (Class Size Reduction Requirements)

Item W-20 General

Subject: Request by King City Union School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010-2011 school year at Del Rey Elementary School and Santa Lucia Elementary School (requesting waiver of all Quality Education Investment Act class size reduction requirements).
Waiver Number: 52-4-2011
(Recommended for DENIAL)

No action was taken on this item; moved to September meeting.

Quality Education Investment Act (Money to Follow Identified Students)

Item W-25 General

Subject: Request by Los Angeles Unified School District to waive California Education Code Section 52055.750(a)(9) regarding funds expenditure requirements under the Quality Education Investment Act in order to allow funds from Carver Middle School and Los Angeles Academy Middle School to follow identified students
who will be transferring to one new school, Central Region Middle School #7 to ensure that they will not lose the benefits of the Quality Education Investment Act. 
Waiver Number: 34-10-2010
(Recommended for DENIAL)

This item was withdrawn by the district.

Quality Education Investment Act (Money to Follow Identified Students)

Item W-26 General

Subject: Request by Los Angeles Unified School District to waive California Education Code Section 52055.750(a)(9) regarding funds expenditure requirements under the Quality Education Investment Act in order to allow funds from San Fernando Middle School and Lincoln High School to follow identified students who will be transferring to San Fernando Institute of Applied Learning and Leadership in Entertainment and Media Arts to ensure that they will not lose the benefits of the Quality Education Investment Act.
Waiver Number: 71-10-2010
(Recommended for DENIAL)

The item was withdrawn by the district, to be rescheduled for the September 7-8, 2011, State Board of Education meeting.

REGULAR CONSENT CALENDAR

The following items were proposed for the regular (non-waiver) consent calendar: 6, 8, 9, 10, 11, and 12.

ACTION: Member Rucker moved to approve the consent calendar items as recommended by CDE, with a technical correction to Item 12. Member Ramos seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Molina, Rucker, Ramos, Straus.

No votes: None.

Item 6
Subject: Inclusion of Middle School Dropouts in the Academic Performance Index – Adopt Amendments to California Code of Regulations, Title 5, Section 1039.1.

Item 8
Subject: Assignment of Numbers for Charter School Petitions.
Item 9  
**Subject:** Approval of 2010-11 Consolidated Applications.

Item 10  
**Subject:** State Instructional Materials Fund – Approve Tentative Encumbrances and Allocations for Fiscal Year 2011-12.

Item 11  
**Subject:** Elementary and Secondary Education Act: Approval of Local Educational Agency Plans, Title I, Section 1112.

Item 12  
**Subject:** School Accountability Report Card: Approval of the 2010–11 Template.

END OF CONSENT CALENDAR

Item 13  
**Subject:** PUBLIC COMMENT.  
Public Comment is invited on any matter not included on the printed agenda. Depending on the number of individuals wishing to address the State Board, the presiding officer may establish specific time limits on presentations.

No action was taken on this item.

***ADJOURNMENT OF DAY’S SESSION***

Public Session  
July 14, 2011

CLOSED SESSION  
There was no Closed Session.

Item 14  
**Subject:** Update on and Discussion of the Activities of the California Department of
Education and State Board of Education Regarding Implementation of the Common Core State Standards.

No action was taken.

Superintendent’s Report

No action was taken.

Item 15

Subject: STATE BOARD PROJECTS AND PRIORITIES.

Including, but not limited to, future meeting plans; agenda items; and officer nominations and/or elections; State Board office budget, staffing, appointments, and direction to staff; declaratory and commendatory resolutions; update on litigation; bylaw review and revision; Board policy; approval of minutes; Board liaison reports; training of Board members; and other matters of interest.

ACTION: Member Williams moved to reappoint the following members of the Advisory Commission on Charter Schools and allow them to continue serving out their current two year terms ending on December, 31, 2012:

1. Vicki Barber, County Superintendent of Schools, El Dorado County, representing county superintendents;
2. Brian Bauer, Executive Director, Granada Hills Charter High School, representing charter school principals;
3. Gary Davis, representing parents; and

Member Williams also moved to appoint the following new members to serve the remainder of 2011 and to begin to serve a two year term ending December 31, 2013:

2. John Porter, Superintendent, Franklin McKinley School District, representing superintendents;
3. Mark Ryan, Superintendent, Oakland Military Institute, representing charter school administrators; and
4. Christopher Thomsen, Member, Sequoia Union High School District Governing Board, representing board members.

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No vote: None.

Not present: Member Ramos

**ACTION:** Member Chan moved to appoint Maureen Burness and Susan Martinez to serve a four year term on the Advisory Commission on Special Education. Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No vote: None.

Not present: Member Ramos.

**ACTION:** Member Chan moved to adopt the draft minutes for the July 2010; August 2, 2010; August 24, 2010; September 2010; November 2010; December 2010; January 2011; February 2011; March 2011, April 21, 2011; and May 2011.

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Ramos, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No vote: None.

---

**Item 16**

**Subject:** Review of Chronic Absence Data in Early Grades to Reduce the Number of California Dropouts.

*No action was taken on this item.*

---

**Item 17**
**Subject:** Proposed Formation of the Bonsall Unified School District from the Bonsall Union School District and that Portion of the Fallbrook Union High School District in San Diego County.

**ACTION:** Member Strauss moved to move the unification process forward, to allow Bonsall Unified School District to conduct and fund the CEQA study upon approval of Bonsall’s governing board, with the understanding that the full issue may return to the SBE at a future date.

Member Chan seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No vote: None.

Not present: Member Ramos

---

***PUBLIC HEARINGS***

**Item 18**

**Subject:** Kingsburg Elementary Charter School District: Consideration of Petition to Renew Districtwide Charter.

**ACTION:** Member Chan moved to renew the Kingsburg ECSD charter renewal petition for a five-year charter term beginning July 1, 2011, and ending June 30, 2016, with the following provisions recommended by CDE:

- Modifications to the charter in accordance with the CDE report as set forth in detail in Attachment 1 and as follows:
  - Health and Safety Procedures, EC Section 47605(b)(5)(F): revisions to health and safety procedures to include the requirement that volunteers and contractors, in addition to employees, will submit a tuberculosis test and periodic testing thereafter.

Member Strauss seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No vote: None.

Not present: Member Ramos
Item 19

Subject: California College, Career, and Technical Education Center: Consider Issuing a Notice of Violation Pursuant to Education Code Section 47607(d).

ACTION: Member Aschwanden moved to approve CDE’s recommendation to issue a Notice Violation pursuant to Education Code (EC) Section 47607(d) to the California College, Career, and Technical Education Center (CCCTEC). Member Rucker seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Kirst, Williams, Straus, Molina, Rucker.

No vote: None.

Not present: Member Ramos

***END OF PUBLIC HEARINGS***

Item 20

ACTION: Member Chan moved to approve the Request for Proposals (RFP), Evaluation of California’s Public Charter Schools Grant Program (PCSGP), 2010–2015, to be amended to include a focus on an evaluation of CDE’s administration of the grant in the “Purpose” section, and in other relevant areas of the grant.

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Williams, Straus, Molina, Rucker.

No vote: None.

Not present: Members Kirst, Ramos

Item 21

Subject: Charter Renewal: Approve Commencement of Third 15-Day Public
Comment Period for Proposed Changes to the *California Code of Regulations*, Title 5, sections 11966.5, and 11967.

**ACTION:** Member Chan moved to adopt CDE’s recommendation to take the following actions:

- Approve the proposed changes to the proposed regulations;
- Direct that the proposed changes be circulated for a third 15-day public comment period in accordance with the Administrative Procedure Act;
- If no relevant comments to the proposed changes are received during the third 15-day public comment period, the proposed amendments with changes are deemed adopted, and the CDE is directed to complete the rulemaking package and submit it to the Office of Administrative Law (OAL) for approval and provide an update of the status at the SBE’s next regularly scheduled board meeting;
- If any relevant comments to the proposed changes are received during the third 15-day public comment period, the CDE is directed to place the proposed regulations on the SBE’s September 2011 agenda for action; and
- Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Williams, Straus, Molina.

No vote: Member Rucker.

Not present: Members Kirst, Ramos

---

**Item 22**

**Subject:** Charter Revocation and Revocation Appeals – Approve Commencement of a Third 15-Day Public Comment Period for Proposed Amendments to *California Code of Regulations*, Title 5, sections 11965, 11968.1, 11968.5.1, 11968.5.2, 11968.5.3, 11968.5.4, 11968.5.5, and 11969.1 and Authorize a Request to the Office of Administrative Law for an Extension of the 120-Day Deadline to Resubmit the Rulemaking File.

**ACTION:** Member Rucker moved to adopt CDE’s recommendation to take the
following actions:

- Approve the proposed changes to the proposed regulations;

- Direct that the proposed changes be circulated for a third 15-day public comment period in accordance with the Administrative Procedure Act;

- If no relevant comments to the proposed changes are received during the third 15-day public comment period, the proposed regulations with changes are deemed adopted, and the CDE is directed to complete the rulemaking package and resubmit it to the Office of Administrative Law (OAL) for approval;

- If any relevant comments to the proposed changes are received during the third 15-day public comment period, the CDE is directed to place the proposed regulations on the SBE’s September 2011 agenda for action; and

- Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

- Authorize the CDE to submit a request to OAL extending the 120-day timeline for resubmission of the rulemaking file because the 120-day time period will expire on July 23, 2011.

Member Cohn seconded the motion.

Yes votes: Members Aschwanden, Chan, Cohn, Williams, Straus, Molina, Rucker.

No vote: None.

Not present: Members Kirst, Ramos

Item 23

ACTION: Member Aschwanden moved to approve the requests as recommended by the CDE and the Advisory Commission on Charter Schools (ACCS). Member Rucker seconded the motion.
Yes votes: Members Aschwanden, Chan, Cohn, Williams, Straus, Molina, Rucker.

No vote: None.

Not present: Members Kirst, Ramos

---

**Item 24**

**Subject:** Consideration of Requests From Nonclassroom-based Charter Schools for “Reasonable Basis”/Mitigating Circumstances Changes in Funding Determinations Based on the *California Code of Regulations*, Title 5, Section 11963.4(e) for Academy of Personalized Learning, Golden Valley Virtual Charter, California Virtual Academy Los Angeles, Mark West Charter, Merced Scholars Charter, Mountain Peak Charter, Independence Charter and Sherman Thomas Charter.

**ACTION:** Member Rucker moved to approve 100 percent of funding requests as recommended by CDE (as detailed in Attachment 1 for Item 24). Member Molina seconded.

Yes votes: Members Aschwanden, Chan, Cohn, Williams, Straus, Molina, Rucker.

No votes: None.

Not present: Members Kirst, Ramos

CALIFORNIA STATE BOARD OF EDUCATION  
SEPTEMBER 2011 AGENDA

SUBJECT
Assessment and Accountability Update, Including, but Not Limited to, Standardized Testing and Reporting Results, California High School Exit Examination Results, and the Accountability Progress Reporting System 2011 Release.

RECOMMENDATION
The California Department of Education (CDE) recommends that the State Board of Education (SBE) take action as deemed necessary and appropriate. There is no specific action recommended at this time.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION
The CDE has provided the results of the Standardized Testing and Reporting (STAR) and California High School Exit Examination (CAHSEE) administrations, as well as the Accountability Progress Reporting (APR) system that includes results from the 2011 Growth Academic Performance Index (API), 2011 Adequate Yearly Progress (AYP), and 2011–12 Program Improvement (PI) Reports to the SBE annually.

SUMMARY OF KEY ISSUES
STAR
On August 15, 2011, State Superintendent of Public Instruction (SSPI) Tom Torlakson is scheduled to release the 2011 STAR Program results. The news release and accompanying summary of results, Attachments 1 and 2, will be provided as an Item Addendum.

The STAR Program consists of the California Standards Test (CST), California Modified Assessment (CMA), California Alternate Performance Assessment (CAPA), and the Standards-based Tests in Spanish (STS). The results of the CSTs, the CMA, and the CAPA are the major components used to calculate the API for local educational agencies (LEAs), schools, and subgroups. These results also are used to determine whether elementary and middle schools have made AYP as required by the federal Elementary and Secondary Education Act. The grade ten CAHSEE results are used in conjunction with the CAPA results to meet this requirement for high schools.
SUMMARY OF KEY ISSUES (Cont.)

The 2011 STAR Program results for LEAs, schools, counties, and the state are available on the CDE STAR Web site at http://star.cde.ca.gov and include test results for more than 4.7 million students.

CAHSEE
On August 24, 2011, SSPI Tom Torlakson is scheduled to release the annual summary results from the 2010–11 CAHSEE administration on the CDE DataQuest Web page at http://dq.cde.ca.gov/dataquest/. The news release and accompanying summary of results, Attachments 5 and 6, will be provided as an Item Addendum. The CDE CAHSEE Web page at http://www.cde.ca.gov/ta/tg/hs/ will display:

- Summary results for the July, October, November, and December 2010 administrations, as well as the February, March, and May 2011 administrations
- Summary results at the school, school district, county, and state levels
- Summary results for students by grade, gender, race/ethnicity, language fluency, socioeconomic status, and special education program participation
- Summary reports by economic status and race/ethnicity by county and school district

APR System
On August 31, 2011, SSPI Tom Torlakson is scheduled to release the 2010–11 APR system results on the CDE APR Web page at http://www.cde.ca.gov/ta/ac/ar/. The APR system generates reports that meet state as well as federal accountability requirements. The summary of APR results includes the proportion of:

- Schools that made all state API growth targets
- Schools that met federal AYP requirements
- Federal Title I schools and LEAs in California that are identified for PI

FISCAL ANALYSIS (AS APPROPRIATE)

All costs associated with the activities related to the:

- Recent STAR administrations are included in the current STAR contract
- Recent CAHSEE administrations are included in the current Educational Testing Service and Human Resources Research Organization contracts
- APR system are included in the Assessment and Accountability Division’s budget

Attachment 4: 2010–11 CAHSEE Annual Summary of Results (11 Pages).

Attachment 5: News Release: State Schools Chief Tom Torlakson Releases 2010–11 Accountability Progress Report will be provided in an Item Addendum.

Attachment 6: 2010–11 Accountability Progress Reporting (APR) System: Summary of Results will be provided in an Item Addendum.
2011 STAR Results Show Steady Improvement Statewide

RESEDA—California’s students continue to steadily improve their performance across the board, with a larger proportion than ever scoring proficient or higher on the 2011 Standardized Testing and Reporting (STAR) Program exams in English-language arts, mathematics, science, and history–social science, State Superintendent of Public Instruction Tom Torlakson announced today.

Approximately 4.7 million students participated in the 2011 STAR program, with 54 percent scoring proficient or above in English-language arts and 50 percent scoring at proficient or above in mathematics, the highest percentage since the program’s inception in 2003.

The full results can be found on the California Department of Education Standardized Testing and Reporting Web page at http://star.cde.ca.gov/.

“The significant and sustained improvements we’ve seen for nine consecutive years prove how hard teachers, school employees, administrators, and parents are working to help students achieve despite budget cuts that have affected our schools,” Torlakson said. “Their heroic teamwork is paying off for California.”

Coming a week after the release of his Transition Advisory Team’s report, A Blueprint for Great Schools focusing on preparing students to succeed in the global economy, Torlakson also noted that the STAR results show more students both taking and scoring as proficient or above in science and mathematics areas.

Some 55 percent of students taking the Summative High School Mathematics exam scored proficient or above and 49 percent of students taking the biology exam scored proficient or above.
“California had 44,000 more students proficient in Summative High School Mathematics and 147,000 more students testing proficient in biology than just eight years ago,” Torlakson said. “That’s significant progress, and it shows the enormous potential we have to accomplish even more as we carry out the Blueprint for Great Schools and focus on preparing even more students to thrive in our competitive economy.”

While the STAR results show an increase in proficiency levels among all subgroups, a troubling and persistent achievement gap exists for African American, Latino, English-learner, and low-income students, compared to their peers.

“We have more work to do to make sure every student receives the world-class education he or she deserves and has the opportunity to achieve their dreams and contribute to the success of our state,” Torlakson said. “I’m committed to that effort—and to working with California’s leaders to provide our schools and our communities with the resources they need.”

Under the STAR program, California students attain one of five levels of performance for each subject tested: advanced, proficient, basic, below basic, and far below basic.

The State Board of Education has established the “proficient” level as the desired achievement goal for all students. That level represents a solid performance in which students demonstrate a competent and adequate understanding of the knowledge and skills measured by the assessment at a particular grade, in a particular content area. This achievement goal is consistent with school growth targets for state accountability and requirements of the federal Elementary and Secondary Education Act. The state target is for all students to score at the proficient or advanced level.

In the nine years since all the CSTs have been completely aligned to the California content standards, the percentage of students scoring at the proficient or advanced level increased by 19 points in English–language arts, or from 35 percent to 54 percent (Table 1); and 15 points in mathematics, from 35 percent to 50 percent (Table 6).

Since last year, the percentage of students at or above the proficient level increased by 2 points in English–language arts and 2 points in mathematics (Table 1 and Table 6, respectively).
The STAR Program consists of the following exams:

- California Standards Tests (CSTs), standards-based tests that measure the achievement of state content standards for English–language arts, mathematics, science, and history–social science.

- California Modified Assessment (CMA), designed for students with disabilities whose individualized education program team determines that the CMA is appropriate and who meet State Board of Education-adopted eligibility criteria. The CMA is designed to provide students an accessible assessment of their achievement of the California content standards for English–language arts, mathematics, and science.

- California Alternate Performance Assessment (CAPA), for students who have significant cognitive disabilities and assesses them in the content areas of English–language arts, mathematics, and science.

- Standards-based Tests in Spanish (STS), for Spanish-speaking, English learner students who either receive instruction in Spanish or have been enrolled in a school in the United States for less than 12 months. The STS assesses these students in reading/language arts and mathematics. Students who complete the STS also complete the CST and/or CMA for their grade level.

The results of these exams, with the exception of the STS, are included in state and federal accountability reports. Students who complete the STS also complete the CST and/or CMA for their grade level.

###

The California Department of Education (CDE) is a state agency led by State Superintendent of Public Instruction Tom Torlakson. For more information, please visit [http://www.cde.ca.gov](http://www.cde.ca.gov) or by mobile device at [http://m.cde.ca.gov](http://m.cde.ca.gov). You may also follow Superintendent Torlakson on Twitter at [http://www.twitter.com/TorlaksonSSPI](http://www.twitter.com/TorlaksonSSPI) and Facebook at [http://www.facebook.com/CAEducation](http://www.facebook.com/CAEducation).
Standardized Testing and Reporting (STAR) Program:

Summary of 2011 Results

Background

- The 2011 STAR Program consists of four key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA); the California Alternate Performance Assessment (CAPA); and the Standards-based Tests in Spanish (STS).

- In spring 2011, the following CSTs were required for all students:
  - English-language arts (ELA) for grades two through eleven;
  - Mathematics for grades two through nine;
  - Science for grades five, eight, and ten (life science);
  - History–social science for grades eight and eleven (U.S. history).

- Students also were able to take end-of-course tests in mathematics (grades seven through eleven), science (grades nine through eleven), and history–social science (grades nine through eleven) if they were scheduled to complete the corresponding courses by the end of the school year.

- In 2011, students who had an individualized education program (IEP) and met the State Board of Education-adopted eligibility criteria were able to take the CMA for ELA in grades three through eleven, the CMA for mathematics in grades three through eleven, the CMA for Algebra I, the CMA for Geometry, and the CMA for science in grades five, eight, and ten (life science) instead of the corresponding grade-level and content-area CSTs. Students in grade eight who took the CMA for ELA and/or science were also required to take the CST for history–social science.

- Students with disabilities who were unable to take the CSTs with accommodations or modifications or were unable to take the CMA with accommodations took the CAPA in ELA, mathematics, and science (approximately 1 percent of the tested population).

- Spanish-speaking English learners (ELs) who either received instruction in Spanish or were enrolled in a school in the United States for less than 12 months were required to take the STS in addition to the CSTs or CMA. At the option of the school district, schools may have also tested Spanish-speaking ELs who had been in school in the United States 12 months or more who were not receiving instruction in Spanish.

Reporting STAR Program Results

- Five performance levels are used for reporting the results for all assessments in the STAR Program: advanced, proficient, basic, below basic, and far below basic. The state target is for all students to score at the proficient level or above.
(advanced). The percentage of students scoring at each performance level is reported by grade and subject for all students and for student subgroups.

- With the inclusion of the CMA in the STAR Program, caution may be needed when interpreting STAR results at the district and school levels, depending on the number of students who were assessed using the CMA.

- Because the grade ten and eleven CMA for ELA and the CMA for Geometry are in the standard-setting process, the proficiency levels for these assessments have not yet been assigned. Student reports, therefore, will show only raw scores and the percent of items correct in those grades and subjects.

Summary of CST Results

A summary of statewide student performance on the CSTs follows, organized by content area. Note that while final data for years 2003 through 2010 are available, the results reported for 2011 are preliminary and include only the results for students who tested through June 30, 2011.

English–Language Arts

- This year, students in nearly every grade level showed an increase in the percentage of students scoring at the proficient level and above on the ELA CSTs with the exception of grade six.

- The percentage of students in grades two through eleven scoring at the proficient level and above increased approximately 19 percentage points between 2003 and 2011. The one-year increase in 2011 was 2 percentage points (see Table 1).

- Since 2003, the percentage of students scoring at the proficient level and above in grade eight has increased by 26 percentage points; in grade four by 25 percentage points; in grade five by 23 percentage points; in grade seven by 21 percentage points; and in grade two by 20 percentage points. In 2011, grades two, eight, and ten showed the greatest one-year increase of 3 percentage points (see Table 1).

- The percentage of students in grades two through eleven scoring at the below basic and far below basic levels decreased approximately 13 percentage points between 2003 and 2011 (see Table 2).

- The percentage of students scoring at the below basic and far below basic levels in grade eight decreased by 17 percentage points since 2003. Grade seven showed the next greatest decrease in the percentage scoring below basic and far below basic with a decrease of 15 percentage points. The greatest one-year decrease of 4 percentage points was shown by students in grade eleven. The next greatest one-year decrease of 3 percentage points was shown by students in grades nine and ten (see Table 2).

- Filipino students showing the greatest improvement since 2003 in achieving the proficient level and above (an increase of 23 percentage points). Hispanic or
Latino students increased their achievement of the proficient level and above by 22 percentage points. Asian students increased their achievement of the proficient level and above by 21 percentage points. Black or African American students increased their achievement of the proficient level and above by 19 percentage points. Native Hawaiian or Pacific Islander students and White students increased their achievement of the proficient level and above by 18 percentage points. American Indian or Alaskan Native students increased their achievement of the proficient level and above by 16 percentage points (see Table 3).

- For 2011, the percentage of not economically disadvantaged Black or African American students achieving the proficient level and above is the same as the percentage of economically disadvantaged white students (53 percent). The percentage of not economically disadvantaged Hispanic or Latino students achieving the proficient level and above (57 percent) is four points above that of the economically disadvantaged white students (see Tables 4 and 5).

Mathematics

- In 2011, the percentage of students scoring at the proficient level and above in mathematics showed a one-year increase of approximately 2 percentage points. From 2003 to 2011, the overall percentage of students scoring at the proficient level and above increased by 15 percentage points (see Table 6).

- From 2010 to 2011, all grade-level and end-of-course results showed an increase in the percentage of students scoring at the proficient level and above. The largest one-year increase was 4 percentage points in grade two and in Geometry, increasing from 62 percent to 66 percent of students in grade two and from 27 percent to 31 percent of students taking the CST for Geometry (see Table 6).

- Between 2003 and 2011, the increase in the percentage of students in grades two through seven taking the grade-level mathematics CSTs and achieving the proficient level and above reached double digits: grade five, 28 percentage points; grade four, 26 percentage points; grade three, 22 percentage points; grade seven, 20 percentage points; grade six, 19 percentage points; and grade two, 13 percentage points. During the same time period, the increase in the percentage of students achieving the proficient level and above on the CST for Algebra I and Summative High School Mathematics also reached double digits, with an increase of 11 percentage points and 12 percentage points respectively (see Table 6).

- In 2011, the percentage of students scoring at the below basic and far below basic levels in mathematics showed a one-year decrease of approximately 1 percentage point. From 2003 to 2011, the overall percentage of students scoring at the below basic and far below basic levels decreased by 11 percentage points (see Table 7).
• The number of students taking the CST for Algebra I showed, continuing last year's trend, a decrease of 11,276 between 2010 and 2011. The number of students taking the CST for Geometry showed a first-time decrease, which numbered 2,112. The numbers of students taking the CSTs for Algebra II and Summative High School Mathematics continued an upward trend, with an increase of 12,233 and 9,358, respectively (see Table 8).

• The subgroups of students showing the greatest one-year improvement in 2011 in achieving the proficient level and above were economically disadvantaged students, students receiving special education services, and English learners, with an increase of 3 percentage points each (see Table 9).

• The racial/ethnic subgroups of students showing the greatest improvement since 2003 in the percentage of students scoring at the proficient level and above were Filipino students and Hispanic or Latino students, with an increase of 18 percentage points. Asian students increased their achievement of the proficient level and above by 16 percentage points, followed by Black or African American students and Native Hawaiian or Pacific Islander students by 15 percentage points. White students increased their achievement of the proficient level and above by 14 percentage points. American Indian or Alaska Native students increased their achievement of the proficient level and above by 11 percentage points (see Table 9).

• For 2011, the percentage of not economically disadvantaged Black or African American students achieving the proficient level and above (40 percent) is seven percentage points lower than economically disadvantaged white students. The percentage of not economically disadvantaged Hispanic or Latino students achieving the proficient level and above (48 percent) is one point above that of the economically disadvantaged white students (see Tables 10 and 11).

Science

• In 2011, the percentage of students scoring at the proficient level and above across all grade-level tests increased by 3 percentage points. Grade five showed an increase of 3 percentage points and grades eight and ten showed the greatest one-year increase of 4 percentage points each. Notable gains were also seen in all grade levels since the assessments were first administered (see Table 12).

• From 2010 to 2011, all grade-level and end-of-course results showed an increase in the percentage of students scoring at the proficient level and above. The largest one-year increase was 4 percentage points in grades eight, ten, and in Integrated 2, increasing from 59 percent to 63 percent of students in grade eight, from 46 percent to 50 percent of students in grade ten, and from 15 percent to 19 percent of students taking the Integrated 2 (see Tables 12 and 13).

• The percentage of students achieving at the proficient level and above has increased on all end-of-course tests since 2003, with the greatest increase has been on the CST for Physics, at 23 percentage points during that time period.
Gains for all of the end-of-course tests made between 2010 and 2011 were 3 percentage points, while those same tests showed gains of 14 percentage points between 2003 and 2011 (see Table 13).

- In 2011, approximately 1.2 million students in grades nine through eleven took science end-of-course CSTs. Between 2010 and 2011, the number of students taking the CST for Biology increased by 6,715, and the number of students taking the CST for Chemistry increased by 8,474. Since 2003, the number of students taking the CST for Biology has increased by 218,801, the greatest increase among the science end-of-course CSTs. Though the number of test-takers is decreasing over the past two years, for Earth Science, there is an increase of 126,180 students taking that test since 2003. Within the same period, notably, the number of students taking the CST for Chemistry increased by 111,866 (see Table 14).

**History–Social Science**

- The number of students who scored at the proficient level and above on the grade-eight CST for History–Social Science increased by 3 percentage points between 2010 and 2011 and by 23 percentage points between the years of 2003 and 2011 (see Table 15).

- In 2011, the number of students achieving the proficient level and above on the grade-eleven CST for U.S. History increased by 3 percentage points, a gain of 14 percentage points between the years of 2003 and 2011 (see Table 15).

- The percentage of students in grades nine, ten, and eleven achieving the proficient level and above on the end-of-course CST for World History increased by 2 percentage point between 2010 and 2011 yet gained 17 percentage points between the years 2003 and 2011 (see Table 15).

**Summary of CMA Results**

- The CMA was first administered in grades three through five in 2008, grades six through eight in 2009, grade nine in 2010, and grades ten and eleven in 2011.

- The percentage of students scoring at the proficient level and above on the CMA for ELA in grades four, five, and eight increased by 5 percentage points (see Table 16).

- From 2010 to 2011, the largest increases in the percentage of students scoring at the proficient level and above were for the CMA for mathematics in grade five, at 7 percentage points; and for science in grade eight, at 6 percentage points (see Table 16).

- Since 2008, performance in grade five on the CMA for Mathematics has increased by 15 percentage points (see Table 16).
Summary of STS Results

- From 2010 to 2011, the majority of the STS results for reading/language arts (RLA) and mathematics showed an increase in the percentage of students scoring at the proficient level and above. The largest increase in the percentage of students scoring at the proficient level and above was in mathematics for grade seven at 5 percentage points (see Table 17).

- From 2008 to 2011, the largest increase in the percentage of students scoring at the proficient level and above for RLA was 7 percentage points in grade four, from 30 to 37 (see Table 17).

- From 2008 to 2011, the largest increase in students achieving at the proficient level and above in mathematics was in grade four, which increased by 10 percentage points, from 48 to 58. Grades two and three mathematics showed increases of 7 and 6 percentage points respectively (see Table 17).

Percentages included in this table may differ from the percentages printed on the Internet reports due to rounding.

**Data shows changes between 2007 and 2011.

†Prior to 2007, Algebra I was an end-of-course test for grades eight through eleven students. Beginning in 2007, students in grades seven were allowed to take the Algebra I test.

Note: The results for Integrated Mathematics 2 and 3 are not reported due to the small numbers of test-takers.

*Data for 2008 through 2010 are final statewide results. The 2011 data are preliminary and include results for approximately 99% of the students in the state. Complete results will be available during September 2011. This table includes results from the Standards-based Tests in Spanish (STS) only. Percentages included in this table may differ from the percentages printed on the Internet reports due to rounding.

**Data show changes between 2009 and 2011.

Students who completed the STS also completed the grade-level CST and/or CMA (if designated in the student’s IEP). Results from the STS are not used in state and federal accountability calculations.
2010–11 California High School Exit Examination Results Released; Achievement Gap Continues to Narrow

SACRAMENTO — Nearly 95 percent of students from the Class of 2011 met the California High School Exit Examination (CAHSEE) requirement, and tests administered over the last school year also showed improvement among the state’s African American and Hispanic students, State Superintendent of Public Instruction Tom Torlakson announced today.

“It is heartening to see that our students continue to learn and achieve despite the painful toll that budget cuts are taking on our schools,” Torlakson said. “The results of this year’s exit examination—and the progress schools are making to close the achievement gap—are yet another sign of the remarkable commitment that teachers, school employees, and administrators have to the students of California.”

The results are posted on the CDE Web site at http://cahsee.cde.ca.gov/.

The 2010–11 exam results show increasing passing rates among most demographic subgroups of students by the end of their senior year. Overall, approximately 94.6 percent or 422,558 students in the Class of 2011 successfully passed both the English-language arts (ELA) and the mathematics portions of the CAHSEE by the end of their senior year (See Tables 1 and 3).

This year’s overall passing rate did not include students with disabilities as these students are currently exempt from meeting the CAHSEE requirement, except for taking the exam in grade ten to meet state and federal requirements. Many of the students, however, continue to take the exam. For the Class of 2011, the passing rate for students with disabilities was 54.6 percent compared to 47.8 percent for students with disabilities from the Class of 2006 (See Table 3).
From the Class of 2011, the percentage of African American students meeting the CAHSEE requirement was 90.9 percent compared to last year’s 89.6 percent; Hispanic students: 92.3 percent over last year’s 91.4 percent; Asian students: 97.7 percent over 97.4 percent; and white students: 98.4 percent over 98.1 percent (See Table 3).

The gap between Hispanic and white students has narrowed by 11.6 percentage points from the Class of 2006, the first class required to meet the CAHSEE requirement to the Class of 2013 (who were tenth graders this past school year) for the ELA portion of the CAHSEE. For the mathematics portion, the gap between Hispanic and white students has narrowed by 12 percentage points from the Class of 2006 to the Class of 2013 (See Table 6).

Similarly, the gap between African American and white students has narrowed by 6.5 percentage points from the Class of 2006 to the Class of 2013 in ELA. And in mathematics, the gap between African American and white students has narrowed by 9.9 percentage points from the Class of 2006 to the Class of 2013 (See Table 7).

Comparing only Hispanic students in the Class of 2011 to the Class of 2010, there is a 0.9 percentage point increase in passage rate; while comparing the Hispanic population in the Class of 2011 to the Class of 2006, there is an increase of 6.8 percentage points in the passing rate (See Table 3).

African American students in the Class of 2011 display the largest increase in passing rates of 1.3 and 7.2 percentage points, respectively when compared to African American students in the Classes of 2010 and 2006 at the same point in time of their senior year (See Table 3).

The percentage of students passing the CAHSEE in the tenth grade, which is the first opportunity they have to take the exam, has steadily increased. Some 82.4 percent of the Class of 2013 has already passed the ELA portion, compared to 80.6 percent of the Class of 2012. As for mathematics, the passage rate for first-time test takers in the Class of 2013 was 82.7 percent, compared to 80.7 percent of the Class of 2012 (See Tables 4 and 5).

Current law specifies that all public high school students must take the CAHSEE for the first time in grade ten. Students who do not pass the CAHSEE in grade ten have
two opportunities in grade eleven and at least three and up to five opportunities in grade twelve to pass the examination.

The results for 2010–11 school year are provided at the school, district, county, and state levels and cover test administrations given in July, October, November, December 2010 and February, March, May 2011.

###

The California Department of Education (CDE) is a state agency led by State Superintendent of Public Instruction Tom Torlakson. For more information, please visit [http://www.cde.ca.gov](http://www.cde.ca.gov) or by mobile device at [http://m.cde.ca.gov](http://m.cde.ca.gov). You may also follow Superintendent Torlakson on Twitter at [http://www.twitter.com/TorlaksonSSPI](http://www.twitter.com/TorlaksonSSPI) and Facebook at [http://www.facebook.com/CAEducation](http://www.facebook.com/CAEducation).
Background

- In 1999, state law authorized the development of the California High School Exit Examination (CAHSEE), requiring students in California public schools to pass this test to earn a high school diploma in addition to other graduation requirements.

- The standards assessed on the CAHSEE are aligned to the state content standards for English-language arts (ELA) and mathematics.

- Current law specifies that all public high school students must take the CAHSEE for the first time in grade ten, including students with disabilities (SWDs). Students who do not pass the CAHSEE in grade ten have two opportunities in grade eleven and at least three and up to five opportunities in grade twelve to pass the examination.

- Beginning with the 2009–10 school year, SWDs were exempted from passing the CAHSEE as a graduation requirement; however SWDs must take the CAHSEE in grade ten to fulfill the requirements of the federal Elementary and Secondary Education Act (20 U.S.C. Sec. 7114).

- On July 14, 2010, the State Board of Education (SBE) determined that alternative means to the CAHSEE for eligible SWDs are feasible and on February 9, 2011, the SBE adopted permanent regulations extending the implementation date of alternative means to July 1, 2012. The exemption from meeting the CAHSEE requirement remains in place for eligible SWDs until alternative means are implemented.

Summary of CAHSEE Results

A summary of statewide student performance on the CAHSEE is provided below. Note that while final data are available for years 2004 through 2010, the results reported for 2011 are preliminary.

The data displayed on Tables 1, 2, and 3 are taken from reports produced by the CAHSEE independent evaluator, Human Resources Research Organization (HumRRO). In the annual report to be released in the fall 2011, HumRRO will provide additional CAHSEE results by grade.

Table 1 Findings

The results presented in Table 1 display the estimated cumulative percentage of students meeting the CAHSEE requirement for the Class of 2011 in grades ten, eleven, and twelve. (These data are taken from reports produced by HumRRO.) The passing
rates presented in Table 1 for grades ten and eleven include SWDs in all demographic subgroups. The grade twelve passing rates exclude SWDs in all demographic subgroups, as SWDs are exempt from meeting the CAHSEE graduation requirement.

- Nearly 95 percent of the students from the Class of 2011 met the CAHSEE requirement.
- Almost 55 percent of the SWDs met the CAHSEE requirement by his/her senior year.
- Approximately 82 percent of the English learners (ELs) met the CAHSEE requirement by the end of their senior year.

Table 2 Findings

The results displayed in Table 2 show the estimated cumulative percentage of students meeting the CAHSEE requirement by grade for the Classes of 2006, 2007, 2008, 2009, 2010, and 2011. The passing rates presented in Table 2 for grades ten and eleven include SWDs. The grade twelve passing rates exclude SWDs, as SWDs are exempt from meeting the CAHSEE graduation requirement.

- Almost 6 percentage points more grade ten students from the Class of 2011 met the CAHSEE requirement on their first attempt as compared to the grade ten students from the Class of 2006.
- Approximately 5.5 percentage points more grade eleven students from the Class of 2011 met the CAHSEE requirement as compared to grade eleven students from the Class of 2006.
- More than 4 percentage points of the grade twelve students from the Class of 2011 met the CAHSEE requirement as compared to grade twelve students from the Class of 2006.

Table 3 Findings

Table 3 displays a point-in-time comparison of the percentage of students for each class meeting the CAHSEE requirement by May in their respective senior years. Table 3 includes SWDs in all subgroups for the Classes of 2008 and 2009. For the Classes of 2006, 2007, 2010, and 2011, SWDs were exempted from passing the CAHSEE as a graduation requirement and have been excluded for all subgroups except the special education subgroup.

- Nearly 95 percent of students from the Class of 2011 have met the CAHSEE requirement by the end senior year.
• The Achievement Gap for meeting the CAHSEE requirement for Black or African American and Hispanic or Latino students is narrowing when compared to White students. The percent change for Black or African American and Hispanic or Latino students from the Classes of 2006 and 2011 has improved by more than six percentage points compared to White students, 7.2, 6.8, and 1.1 respectively. (See Table 3.)

• Hispanic or Latino students in the Class of 2011 display an increase in passing rates when compared to students in the Classes of 2010 and 2006 (0.9 and 6.8 percentage points, respectively) at the same point in time of their senior year.

• Black or African American students in the Class of 2011 display the largest increase in passing rates of 1.3 and 7.2 percentage points, respectively when compared to students in the Classes of 2010 and 2006 at the same point in time of their senior year.

• ELs in the Class of 2011 display an increase in passing rates of 5.7 percentage points when compared to the ELs in the Class of 2006 at the same point in time of their senior year.

• SWDs in the Class of 2011 show an increase in passing rates of 1.3 and 6.8 percentage points, respectively when compared to SWDs in the Classes of 2010 and 2006.

Tables 4 and 5 Findings

Tables 4 and 5 present the passing rates for grade ten students in ELA and mathematics, respectively. The grade ten passing rates presented in Tables 4 and 5 include SWDs in all subgroups.

• The passing rate on the ELA portion of the CAHSEE for grade ten students in the Class of 2013 was 82.4 percent, an improvement of 7.7 percentage points from the passing rate for grade ten students in the Class of 2006. (See Table 4.)

• The Achievement Gap for the ELA portion of the CAHSEE is narrowing for Black or African American and Hispanic or Latino students when compared to White students. The percent change between White students from the Classes of 2006 and 2013 is 3.1 percent. The percent change for Black or African American students during the same time period is three times greater (9.6 percent) compared to White students and Hispanic or Latino students have improved almost five times greater (14.7 percent) compared to White students. (See Table 4.)

• Improvements from the Class of 2006 to the Class of 2013 in the ELA passing rates for subgroups of grade ten students include an increase of 14.7 percentage points for Hispanic or Latino students, and 9.6 percentage points for Black or African American students. (See Table 4.)
• Economically disadvantaged grade ten students in the Class of 2013 compared to economically disadvantaged grade ten students in the Class of 2006 have increased passing rates of 15.0 and 15.7 percentage points in ELA and mathematics, respectively. Additionally, the change in percent for economically disadvantage students compared to non-economically disadvantaged is approximately ten percentage points higher for both of the ELA and mathematics portions of the CAHSEE. (See Tables 4 and 5.)

• For the mathematics portion of the CAHSEE, the passing rate for the students in the Class of 2013 was 82.7 percent, a 9.0 percentage point increase over the passing percentage for grade ten students in the Class of 2006. (See Table 5.)

• The Achievement Gap for the mathematics portion of the CAHSEE is narrowing for Black or African American and Hispanic or Latino students when compared to White students. The percent change between White students from the Classes of 2006 and 2013 is 4.1 percent. The percent change for Black or African American students during the same time period is 3.5 times greater (14.0 percent) compared to White students and Hispanic or Latino students have improved almost four times greater (16.1 percent) compared White students. (See Table 5.)

• Improvements from the Class of 2006 to the Class of 2013 in the mathematics passing rates for subgroups of grade ten students include an increase of 16.1 percentage points for Hispanic or Latino students and 14.0 percentage points for Black or African American students. (See Table 5.)

Tables 6 and 7 Findings

Tables 6 and 7 display the differences in the proportion of Hispanic or Latino and Black or African American grade ten students passing the CAHSEE compared to white students (i.e., gap) from the Classes of 2006, 2007, 2008, 2009, 2010, 2011, 2012, and 2013 for ELA and mathematics. The grade ten data presented in Tables 6 and 7 includes SWDs in the passing rates.

• For the ELA portion of the CAHSEE, the gap between Hispanic or Latino and white students has narrowed by 11.6 percentage points from the Class of 2006 to the Class of 2013. For the mathematics portion of the CAHSEE, the gap between Hispanic or Latino and white students has narrowed by 12.0 percentage points from the Class of 2006 to the Class of 2013. (See Table 6.)

• For the ELA portion of the CAHSEE, the gap between Black or African American and white students has narrowed by 6.5 percentage points from the Class of 2006 to the Class of 2013. For the mathematic portion of the CAHSEE, the gap between Black or African American and white students has narrowed by 9.9 percentage points from the Class of 2006 to the Class of 2013. (See Table 7.)

1 For the purposes of this table, “meeting the CAHSEE requirement” is defined as passing both the English-language arts and mathematics portions of the CAHSEE. Students who satisfied the CAHSEE requirement through the local waiver process are not included in this table.

2 Cohorts for classes are determined when student meets the CAHSEE requirement in grades 10 or 11, or when the student takes the CAHSEE for the first time in grade 12. The repeat or fifth-year grade 12 student’s class is determined when the student took the CAHSEE the first time in grade 12 for the Classes of 2006 through 2011.

3 Students with disabilities who used modifications are excluded from analyses.

4 Students with disabilities in grade 12 were excluded from all of these rows.

California State Board of Education
Meeting Agenda Items for September 7-8, 2011

ITEM 14
Subject

Annual Report on Dropouts in California.

Summary of the Issue(s)

Senate Bill 651 was enacted in February 2009 and established the Annual Report on Dropouts in California (Education Code Section 48070.6). The law requires that the contents of the report be presented orally to the state board at a regularly scheduled meeting. The first report must be submitted to the Governor, the Legislature and the state board by August 1, 2011, and annually thereafter.

Recommendation

The California Department of Education (CDE) recommends that the State Board of Education (SBE) consider policy implications related to decreasing the dropout rate and increasing the graduation rate. No action is requested or required by this item.

Brief History of Key Issues

The California Department of Education (CDE) annually calculates and publically posts dropout rates. Historically, one-year dropout rates and four-year dropout rates for schools can be located on the CDE Web site, commonly known as DataQuest. These rates have been calculated and publically posted since the 1991-92 school year and are disaggregated by gender, race/ethnicity, socioeconomically disadvantaged, special education, migrant education and English learners.

For years, dropout rates have been estimated by dividing the count of dropouts throughout the year divided by a single day of enrollment taken on the first Wednesday of October, known as CBEDS Information Day. These rates were based on aggregate
data and could not account for enrollment increases or decreases and could not account for students who transferred into or out of the public school system throughout the year.

In school year 2005-06, all schools began obtaining statewide student identifiers (SSIDs) for all K-12 public school students. The SSIDs are now used to collect the official enrollment, graduation and dropout counts for schools. With the data collected in the fall of 2010 (for the graduating class of 2010) through the California Longitudinal Pupil Achievement Data System (CALPADS), the CDE was able to use four years of longitudinal data to calculate graduation and dropout rates. The four-year cohort graduation and dropout rates replace the former rates. The four-year cohort rates use the SSIDs for the first-time ninth graders in 2006-07 and follow them through their expected graduation class of 2010. Students who transferred in are added to the cohort and students who transfer out are removed from the cohort.

A cohort rate is calculated by following the cohort (i.e., the group of students) over a period of time. In order to do this, the data must be available at the student level in order to track a student’s progress within a school year as well as from year to year. Essentially, a cohort dropout or graduation rate is defined as follows:

\[
\text{Numerator: } \text{Number of cohort members who dropped out (or graduated) during a period of time} \\
\text{Denominator: } \text{Number of total cohort members for a period of time}
\]

For example, a four-year cohort dropout rate is the number of cohort members who dropped out of school over the course of four years divided by the number of first time 9th graders from fall four years ago plus students who transfer in, minus students who transfer out or die during the four years.

### 2009-10 Statewide Graduation and Dropout Rates

<table>
<thead>
<tr>
<th></th>
<th>Total Cohort</th>
<th>Cohort Graduates</th>
<th>Cohort Dropouts</th>
<th>Cohort Still Enrolled</th>
<th>Cohort Special Education (certificate of completion)</th>
<th>Cohort GED Passer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Cohort</td>
<td>519,247</td>
<td>386,222</td>
<td>94,312</td>
<td>34,086</td>
<td>2,676</td>
<td>1,951</td>
</tr>
<tr>
<td>Cohort Graduates</td>
<td></td>
<td>74.4%</td>
<td>18.2%</td>
<td>6.6%</td>
<td>0.5%</td>
<td>0.4%</td>
</tr>
<tr>
<td>Cohort Dropouts</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Cohort Still Enrolled</td>
<td></td>
<td></td>
<td></td>

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>GED Passer</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Because the new cohort graduation rate is based on a new and different method of calculation, it is not possible to calculate the exact percentage of change from the graduating class of 2009, though the data indicate an increase in the graduation rate and a decrease in dropout rate.
SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Background information on SB 651 and information about the calculation of dropout rates was sent to the SBE on November 25, 2009.
http://www.cde.ca.gov/be/pn/im/infomemo1209.asp

FISCAL ANALYSIS (AS APPROPRIATE)

In response to SB 651, a budget change proposal (BCP) was submitted by the CDE for $177,000 to produce the annual report. The bill required a significant increase to the current workload of the Data Management Division. No funding was approved for the BCP and CDE has had additional budget cuts since 2009. The report, therefore, does not contain all components of SB 651. Given time and resources, the reports regarding middle school rates, number of school moves, progress toward graduation, and completion of career technical education are possible. Reports regarding GED earning rates and chronic absentee rates are not possible with the data currently collected.

Introduction

Background

In February 2009, Senate Bill (SB) 651 (Chapter 197 of 2009) added Section 48070.6 to the Education Code (EC). Section 48070.6 specifies that on or before August 1, 2011, and annually thereafter, utilizing data produced by the California Longitudinal Pupil Achievement Data System (CALPADS) and other available data, the Superintendent shall submit to the Governor, the Legislature, and the State Board of Education (SBE), an Annual Report on Dropouts in California. It is the intent of the Legislature that this report be usable by schools, districts, policymakers, researchers, parents, and the public for purposes of identifying and understanding trends, causal relationships, early warning indicators, and potential points of intervention to address the high rate of dropouts in California.

This first Annual Report on Dropouts in California Using CALPADS and Other Available Data responds to the requirements to report available data pursuant to SB 651 and is divided into three sections:

- The Available Graduation, Dropout, and Related Reports section provides tables reflecting currently available data from the most recent year, which is data from the 2009-10 school year in most cases. Subsequent annual reports shall include data from the most recent year and, when available, the two prior years.

- The Future Dropout, Graduation, and Related Reports section describes data that are not currently available for this 2009-10 report but are anticipated to be available in 2010-11 or in the next few years.

- The Reports Unable to be Produced section discusses issues that prevent the CDE from reporting on certain reporting requirements pursuant to SB 651.

The first section provides available information on dropouts, graduates, and other related data:

**EC Section 48070.6** specifies that data in this report be presented, if possible, by state, by county, by district, and by school. This report summarizes data for the state overall. Because inclusion of county, district, and school level data would render this written report unwieldy, the available county, district, and school reports are provided separately on the CDE DataQuest Web page at [http://dq.cde.ca.gov/dataquest/](http://dq.cde.ca.gov/dataquest/).

**EC Section 48070.6** also specifies that data in this report be presented, if possible, by subgroups to include the following categories:

- Grade level
- Racial and ethnic
- Gender
- Socioeconomic status
- English learners
- Special education status

When possible, the data in this report is presented by these subgroups. A subgroup is defined as consisting of at least 50 pupils and constituting at least 15 percent of the total population of pupils at a school. This definition of subgroups is the same definition used for API and Adequate Yearly Progress (AYP) reports. Specifically, a subgroup with between zero to 49 students is not reported. A subgroup with between 50 to 99 students is reported only if those students make up at least 15 percent of the school’s total population. A subgroup with 100 or more students is always reported.
EC Section 48070.6 also specifies that this report shall include data from alternative middle and high schools, including continuation high schools, community day schools, schools attended by wards of the Department of Corrections and Rehabilitation, Division of Juvenile Justice (DJJ). Unless otherwise noted, this report provides data at the state, county, district, and school levels, and the data reported includes alternative middle and high schools defined above. For purposes of this report, dropouts are defined using the exit/withdrawal codes developed by the CDE.

Please note that reporting of CALPADS data by local educational agencies (LEAs) for 2009-10 included most but not all schools and districts. Because they did not certify their 2009-10 data submission through the CALPADS, data are not available from eight LEAs and three independently reporting charter schools:

These LEAs and schools represent 0.014 percent of the K-12 student enrollment for 2009-10. Tables 1 through 5 that are based on 2009-10 CALPADS data in this report do not include these eight LEAs and three charter schools.

Definition of Cohort Rates

A cohort rate is calculated by following the cohort (i.e., the group of students) over a period of time. In order to do this, the data must be available at the student level in order to track a student’s progress within a school year as well as from year to year. In the past, the CDE has been unable to calculate cohort rates because four years of longitudinal data was not available.
Fundamentally, a dropout rate is determined from the number of students who dropped out of a school divided by the number of students enrolled in the school. Similarly, a graduation rate is determined from the number of graduates in a school divided by the number of students enrolled at the school. Prior to CALPADS, the CDE calculated dropout and graduation rates from aggregate, school level data. Dropout rates were calculated as the number of students at a school who dropped out during the year divided by point-in-time enrollment (i.e., enrollment on fall Census Day) at the school. The graduation rate was also calculated from point-in-time data using aggregate, school level data. This method of reporting, in some cases, led to erroneous rates and conclusions for small schools and districts.

With the implementation of CALPADS, the CDE is now able to track students longitudinally (i.e., over time), thus enabling the calculation of cohort rates. In August 2011, the CDE released a four year adjusted cohort graduation rate for the first time for the class of 2009-10.

This report provides rates in terms of cohort data. For this report, a cohort dropout or graduation rate is defined as follows:

- **Numerator:** Number of cohort members who dropped out (or graduated) during a period of time
- **Denominator:** Number of total cohort members for a period of time

For example, a four-year cohort dropout rate is the number of cohort members who dropped out of school over the course of four years divided by the number of first time 9th graders from fall four years ago plus students who transfer in and minus students who transfer out during the last four years. Transfers out typically include students that transfer out of the California public schools system and students who died.

The CDE began reporting cohort graduation and dropout rates on the CDE DataQuest Web page in August 2011 beginning with 2009-10 data.

**Contact Information**

Questions about this report should be addressed to the Data Management Division by phone at 916-327-0219 or by e-mail at eddemo@cde.ca.gov.
Available Dropout, Graduation, and Related Reports

Four-year Cohort Graduation Rates, Grade 9 to 12 Cohort

EC Section 48070.6 (c)(1) requires the CDE to report rates at which students graduate in four, five, and six years, pursuant to EC Section 52052 (a)(4)(A), which refers to reporting graduation rates for the Academic Performance Index (API). Currently, only four year cohort graduation rates are available for the class of 2009-10. Five year cohort rates will be available for the class of 2010-11, and six year cohort rates will be available for the class of 2011-12.

Table 1 provides a summary of four-year statewide grade 9 to 12 cohort graduation rates overall and by subgroup. This rate is calculated as follows:

Numerator: Number of cohort members who earned a regular high school diploma or passed the California High School Proficiency Exam (CHSPE) by the end of the 2009-10 school year

Denominator: Number of first time 9th graders in fall 2006 (starting cohort) plus students who transfer in, minus students who transfer out, emigrate, or die during school years 2006-07, 2007-08, 2008-09, and 2009-10

Data source: CALPADS
Table 1 shows that nearly three out of four students who started high school in 2006 graduated with their class in 2010. The 74.4 percent statewide graduation rate was for the first time based on four-year cohort information collected about individual students using the CALPADS. Graduation rates continue to show a significant attainment gap between students who are Hispanic, African American, or English learners (ELs) and their peers.

The county, district, and school reports are provided separately on the CDE DataQuest Graduates Web page at [http://dq.cde.ca.gov/dataquest/](http://dq.cde.ca.gov/dataquest/).

**Rates of Graduates Who Completed UC/CSU Course Criteria**

*EC Section 48070.6 (c)(2)* requires the CDE to report on the percentage of high school graduates who completed courses that are certified by the University of California (UC) as meeting admission requirement criteria for the UC and California State University (CSU) systems. The CDE currently reports the number of twelfth-grade graduates who completed all the courses required for UC and/or CSU entrance with a grade of "C" or better for a school year. This represents only a portion of the entrance requirements for UC or CSU.

Table 2 provides a summary of the statewide percentages of graduates who completed all UC/CSU course criteria. This rate is calculated as follows:

- **Numerator:** Number of grade 12 graduates who earned a regular high school diploma and completed all the courses required for UC and/or CSU entrance with a grade of “C” or better by the end of the 2009-10 school year
- **Denominator:** Number of grade 12 graduates who earned a regular high school diploma by the end of the 2009-10 school year
Table 2: Grade 12 Graduates Completing All Courses Required for UC and/or CSU Entrance, 2009-10

Data source: CALPADS

Table 2 shows that 35.6 percent of twelfth-grade graduates in the class in 2010 completed all the courses required for UC and/or CSU entrance with a grade of "C" or better for a school year. This percentage reflects a slight increase of 0.3 percent from the previous year's class of 2009.

The county, district, and school reports are provided separately on the CDE DataQuest Graduates Web page at http://dq.cde.ca.gov/dataquest/.

Four-year Cohort Dropout Rates, Grade 9 to 12 Cohort

EC Section 48070.6 (a)(2) requires the CDE to report on four-year cohort dropout rates for grades 9 to 12, inclusive. Table 3 provides a summary of four-year statewide grade 9 to 12 cohort dropout rates overall and by subgroup. This rate is calculated as follows:

Numerator: Number of cohort members who drop out from 2006-07 to 2009-10

Denominator: Number of first time 9th graders in fall 2006 (starting cohort) plus students who transfer in, minus students who transfer out during school years 2006-07, 2007-08, 2008-09, and 2009-10

</tbody>
</table>

Data source: CALPADS

Table 3 shows that slightly more than 18 percent of students who started high school in 2006 dropped out rather than complete or continue their K-12 education with their class in 2010. The 18.2 percent statewide dropout rate was for the first time based on four-year cohort information collected about individual students using the CALPADS. Dropout rates continue to show gaps between students who are Hispanic, African American, or English learners (ELs) and their peers.

The county, district, and school reports are provided separately on the CDE DataQuest Dropouts Web page at [http://dq.cde.ca.gov/dataquest/](http://dq.cde.ca.gov/dataquest/).

One-Year Dropout Rates for Middle Schools, Grade 8 and Grade 9

*EC Section 48070.6 (a)(3)* requires the CDE to report two- or three-year cohort dropout rates, as appropriate, for middle schools. Currently, only one-year cohort dropout rates for grades 8 and 9 are available for the class of 2008-09. These are the rates calculated pursuant to *EC Section 52052.1 (a)(3)*. Two-year and three-year cohort dropout rates for middle schools will be available for the class of 2009-10 and 2010-11 in subsequent reports.

Tables 4 and 5 provide a summary of one-year statewide dropout rates for grade 8 and for grade 9 respectively overall. Subgroup data are not available at this time. Subgroup data will be available in the future. The rates are calculated as follows:
Numerator: Number of academic year dropouts (plus transition dropouts for LEA and state level reports)

Denominator: Number of academic year dropouts plus prospective students

Table 4: One-Year Dropout Rates, Grade 8
2008-09

<table>
<thead>
<tr>
<th>Demographic Subgroup</th>
<th>Grade 9 Prospective Students</th>
<th>Grade 8 Academic Year Dropouts</th>
<th>Grade 8 Transition Dropouts</th>

</thead>
<tbody>
<tr>
<td>Overall</td>
<td>3,356</td>
<td>8</td>
<td>49</td>
<td>57</td>
<td>1.7%</td>
</tr>
</tbody>
</table>

Data source: CALPADS. The state-level grade nine dropout rate is calculated using only data from middle schools with grade nine students.

Table 5 shows that 57, or 1.7 percent, grade nine students in 2008-09 dropped out before entering grade ten. Grade nine dropouts for purposes of this report include only middle schools with grade nine students and do not include grade nine students in high schools.

Grade eight and grade nine dropouts from the 2009-10 school year are planned for inclusion in the 2011 Base API in the spring of 2012, pending approval of the State Board of Education. The county, district, and school reports are provided separately on the CDE API Web page at [http://api.cde.ca.gov/](http://api.cde.ca.gov/).

---

1 Transition dropouts are for the LEA and state reports only. A transition dropout means a student who (1) was enrolled in grade eight (or grade nine) at the end of the academic school year and (2) did not begin attending grade nine (or grade ten) or any other grade in any school by the first Wednesday in October of the subsequent academic school year as determined by CALPADS. These dropouts are attributed to the grade eight (or grade nine) LEA in which the student completed grade eight (or grade nine).
Passage Rates for CAHSEE, Grades 10-12

EC Section 48070.6 (a)(9) requires the CDE to report on passage rates on the high school exit examination adopted pursuant to EC 60850 (a). Table 6 provides a summary for the class of 2010 of the grade 10, grade 11, and grade 12 estimated cumulative percentage of students meeting the CAHSEE requirement overall and by subgroup. For the purposes of this table, “meeting the CAHSEE requirement” is defined as passing both the English-language arts (ELA) and mathematics portions of the CAHSEE. Students who satisfied the CAHSEE requirement through the local waiver process or exemption are not included in this table. Students identified as grade 12 from the classes of 2006, 2007, 2008, and 2009 are excluded from the 2010 calculation. Current grade 12 students who also tested as grade 12 in the classes of 2006, 2007, 2008, and 2009 are excluded from this table. The rates are calculated as follows:

Numerator: Cumulative number in the class of 2010 who met the CAHSEE requirement

Denominator: Cumulative number in the class of 2010 tested on both the CAHSEE in ELA and mathematics

Table 6: Class of 2010, Grade 10-12 Estimated Cumulative Percentage Meeting the CAHSEE Requirement

<table>

</tbody>
</table>

2 Students with disabilities in grade 12 were excluded from all rows except the last row due to the exemption.
Table 6 shows that by the end of their senior year, approximately 94.4 percent of students in the class of 2010 successfully passed both the ELA and mathematics portions of the CAHSEE. The results among subgroups of students show the achievement gap is narrowing. By the end of their senior year, the cumulative passing rate for Black or African American students was 89.6 percent; Hispanic or Latino students, 91.4 percent; Asian students, 97.4 percent, and white students, 98.1 percent.

Tables 7 and 8 provide summaries of Grade 10 CAHSEE separate passing rates for ELA and mathematics for 2009-10 overall and by subgroup. The rates are calculated as follows:

**Numerator:** Number of 10th graders who passed the CAHSEE in English-language arts (ELA) or mathematics in the 2009-10 school year

**Denominator:** Number of 10th graders tested on the CAHSEE in ELA or mathematics in the 2009-10 school year

Data source: CAHSEE 2009-10 DataQuest

Table 8 shows that 80.7 percent of the grade ten class of 2012 passed the mathematics portion. These percentages for both ELA and mathematics reflect continuing increases from prior years.

The county, district, and school reports are provided separately on the CDE CAHSEE Web page at [http://cahsee.cde.ca.gov/](http://cahsee.cde.ca.gov/).

Suspension, Expulsion, and Truancy Rates

EC Sections 48070.6 (c)(5) and 48070.6 (c)(6) require the CDE to report on behavioral data by school and district, including suspensions, expulsions, and truancies. Table 9 provides a summary of suspensions and expulsions overall for 2009-10. Table 10 provides a summary of truancies and the truancy rate overall for 2009-10.

The Consolidated Application Part I currently collects school-level incident data related to school climate through the School Reporting Form for the Uniform Management Information Reporting System (UMIRS). Subgroup data are not available at this time.
through the UMIRS. However, UMIRS data is scheduled to eventually be phased into and collected by the CALPADS as student-level data. At that time, subgroup data is scheduled to become available.

Data source: Advance Data Collection for the Uniform Management Information Reporting System (UMIRS) for the Consolidated Application, Part I

Table 9 shows that approximately 750,000 student suspensions and 21,000 student expulsions occurred in California in 2009-10. This table shows statewide counts rather than rates of suspensions and expulsions. Rates are unable to be determined because an unduplicated count of students who receive suspensions and expulsions during the school year is not collected at this time.

The truancy rate is calculated as follows:

Numerator: Number of students with unexcused absence or tardy of more than 30 minutes on three different days or more (truant) for the 2009-10 school year

Denominator: Number of students enrolled for the 2009-10 school year

Table 10: Truancy Rate, 2009-10

Data source: Advance Data Collection for the Uniform Management Information Reporting System (UMIRS) for the Consolidated Application, Part I

Table 10 shows that 28.2 percent of California students were considered truant during 2009-10.

The county, district, and school reports are provided separately on the CDE DataQuest Expulsion, Suspension, and Truancy Web page at http://dq.cde.ca.gov/dataquest/.

---

3 Does not include non-public schools data. Not all agencies submitted data.
**School Climate and Student Engagement Data**

*EC Section 48070.6 (f)* specifies that the CDE may report on relevant data on school climate and pupil engagement from the California Healthy Kids Survey (CHKS). Because inclusion of the state and local reports for the CHKS would render this written report unwieldy, the state and local reports are provided separately online. The state reports are on the CHKS Web pages (outside source) at [http://chks.wested.org/reports](http://chks.wested.org/reports) and [http://chks.wested.org/indicators](http://chks.wested.org/indicators). The county and district level reports are provided on the CDE DataQuest CHKS Web page at [http://dq.cde.ca.gov/dataquest/](http://dq.cde.ca.gov/dataquest/).

The information provided by the CHKS is limited. The CHKS reports are available at the LEA level but not at the school level. The CHKS is administered only at grades five, seven, nine, and eleven, and, therefore, the Safe and Healthy Kids Program Office reports the CHKS data only for those grade levels. In addition, not all LEAs administer and report data on the CHKS because not all LEAs are required to do so. The CHKS is reported only by LEAs that receive federal or state funding that requires it.

Continued funding for the CHKS is currently uncertain, and LEAs do not report the data each year. School districts receiving Title IV funding were previously required to administer the CHKS once every two years. The federal Title IV grant ended in June 2010, and, therefore, there is no longer a mandatory reporting requirement that necessitates implementation of the CHKS for most schools and districts.

A recent California bill, AB 1368, proposes to establish the CHKS in statute and would require school districts to administer the survey when funding is available. However, this bill is currently in suspension.

The state’s Tobacco Use and Prevention Education grant provides state funding to 59 districts and requires CHKS data to be reported by those districts.

The CDE received a one-time, four-year federal Safe and Supportive Schools (S3) grant in 2010 to measure school climate and programmatic interventions in the lowest achieving high schools. As part of the grant requirement, participating districts must administer the CHKS and other school climate surveys in 2011 and 2014. Currently, 58 districts and 204 high schools are participating. The grant period is from October 2010 to September 2014. After 2014, federal funding for school climate is uncertain.

It is important to interpret the CHKS results with caution. Results can be significantly impacted by response rates, the type of parental consent used (passive or active), gender differences, regional variations, and other issues. More information about the CHKS data collection is available at [http://www.cde.ca.gov/ls/he/at/datacollection.asp](http://www.cde.ca.gov/ls/he/at/datacollection.asp).
Future Dropout, Graduation, and Related Reports

One-Year on Track for Credits to Graduate

EC Section 48070.6 (a)(5) requires the CDE to report on the percentage of high school students for each of grades 9 to 12, inclusive, who are on track to earn sufficient credits to graduate. Reporting whether students are on track to graduate according to “sufficient” credits to graduate is not currently possible to determine with current or future data that CALPADS is planning to collect. Although CALPADS will eventually be collecting the number of credits a student attempted and the number of credits a student earned, CDE will still be unable to calculate whether the student has earned sufficient credits to graduate because districts do not use a common standard in assigning number of credits nor a common standard for the minimum number of credits to graduate. Until common standards are implemented statewide, this requirement of SB 651 will not be possible to report.

California’s statewide minimum graduation requirements pursuant to EC 51225.3 specifies the minimum number of years (rather than number of credits) required in the subject areas of English, mathematics, social science, science, foreign language, visual and performing arts, physical education, and electives. However, the number of credits assigned for a year of English, for example, varies across districts. Similarly, graduation requirements for the number of total credits for each content area vary across districts. It is not possible to accurately determine if a student is on track to graduate until there are mandated statewide common standard definitions for credit assignments and a statewide minimum number of credits to graduate for each content area.

Five- and Six-Year Cohort Graduation Rates, Grades 9 to 12

EC Section 48070.6 (c)(1) requires the CDE to report rates at which students graduate in four, five, and six years, pursuant to EC Section 52052 (a)(4)(A), which refers to reporting graduation rates for the API. Currently, only four year cohort graduation rates are available for the class of 2009-10, and are included in this report (see Table 1). Five year cohort rates will be available for the class of 2010-11, and six year cohort rates will be available for the class of 2011-12.

On the API Web page at http://api.cde.ca.gov, graduation rates are also compared to school growth targets. Four-year adjusted cohort graduation rates are posted on DataQuest for the first time for the class of 2009-10.

Rates of Graduates Who Completed Two or More CTE Courses

EC Section 48070.6 (c)(3) requires the CDE to report on the percentage of high school graduates who completed two or more classes in career technical education (CTE). The CDE does not currently collect summary information on CTE course taking patterns. Although CALPADS includes course characteristics data elements that indicate if a
course is related to CTE, statewide course data is not available for 2009-10. It is uncertain how soon course data may be available in the near future.

The CALPADS will include a data element that indicates if a student completes a CTE pathway by completing capstone courses and by passing locally developed and administered assessment, thus demonstrating competence in a specific CTE course sequence (pathway). This indicator is not available for 2009-10 but may be available in the near future.

Rates of Graduates Who Completed UC/CSU and CTE courses

EC Section 48070.6 (c)(4) requires the CDE to report on the percentage of high school graduates who completed both course sequences, i.e., completing UC/CSU courses and completing two or more CTE classes. As noted in the prior section, CTE information will not be available for 2009-10 but may be available in the near future.

One-Year Cohort Dropout Rates, Each of Grades 7 to 12

EC Section 48070.6 (a)(1) requires the CDE to report one-year dropout rates for each of grades 7 to 12, inclusive. One-year dropout rates for middle schools are provided in this report (Tables 4 and 5). One-year dropout rates for each of grades 7 to 12 for 2009-10 are not available for this report, but they are scheduled to be available for 2010-11.

"Full-year" Four-Year Dropout Rates for Alternative Schools

EC Section 48070.6 (a)(7) requires the CDE to report “full-year” dropout rates for alternative schools, including dropout recovery high schools, calculated using a methodology to appropriately reflect dropout rates in each type of alternative school. These rates are not available for 2009-10 for this report, but they are scheduled to be available for 2010-11. EC Section 48070.6 (a)(8) requires the CDE to identify and describe the methodology used to calculate “full-year” dropout rates. Although the rates will not be available for this report, the CDE has identified a methodology to calculate “full-year” dropout rates.

Students in alternative and dropout recovery high schools tend to be highly mobile and often transfer in and out of the school within a school year. Regular dropout rates do not adjust for high mobility in schools. As a result, alternative schools tend to have higher dropout rates than regular schools. To account for highly mobile populations and report “full year” dropout rates, the CDE proposes that the four-year cohort dropout rates for alternative schools, including dropout recovery high schools, use an adjusted method of calculation. This adjusted method would include students in the calculation only if they were enrolled at the school at least a minimum number of days (to be determined) within the four-year cohort time span. This approach would eliminate from the calculation students who were enrolled at an alternative or a dropout recovery high
school a short time only who would have had a greater likelihood of dropping out. Data for alternative schools would be included in the district totals.

The proposed cohort rate for each alternative school type would be calculated as follows.

Numerator: Number of cohort members who were enrolled at least the minimum number of days (to be determined) and who drop out from 2006-07 to 2009-10

Denominator: Number of first time 9th graders in fall 2006 (starting cohort) plus students who transfer in, minus students who transfer out, and who were enrolled for at least the minimum number of days (to be determined) during school years 2006-07, 2007-08, 2008-09, and 2009-10

The “full-year” dropout rates would apply to alternative and dropout recovery schools only. In the rest of this report, results of alternative and dropout recovery high schools are included in calculations with all other schools (i.e., Tables 1-10 in this report). In Tables 1-10, alternative and dropout recovery high schools are treated the same as all other schools in the calculations. In contrast, “full-year” four year dropout rates would include only alternative and dropout recovery high schools and would use an adjusted calculation methodology to account for the unique mobility challenges of these schools with highly mobile student populations.

Alternative schools for purposes of this report would include dropout recovery high schools, continuation high schools, community day schools, juvenile court schools, special schools, opportunity schools, and schools attended by wards of the DJJ. For purposes of this report, "dropout recovery high school" has the same meaning as defined in EC 52052, i.e., a high school in which 50 percent or more of its students have been designated as dropouts pursuant to the exit/withdrawal codes developed by the CDE for CALPADS.

One-Year Cohort Promotion Rates, Grade 9 to Grade 10

EC Section 48070.6 (a)(4) requires the CDE to report on grade 9 to grade 10 promotion rates. One-year statewide grade 9 to 10 cohort promotion rates for 2009-10 are not available for this report but are scheduled to be available for 2010-11.

Non-promotional School Moves, Grades 6 to 12

EC Section 48070.6 (a)(6) requires the CDE to report on the average number of non-promotional school moves that students make between grades 6 to 12, inclusive. Although CALPADS includes the date a student enrolls, the date a student exits, and the reason for the transfer, it does not contain a sufficient number of years of data to
report non-promotional school moves for all of grades 6 through 12. The data for grades 6 through 12 may be available in 2011-12 or 2012-13.

**Other available data**

*EC* Section 48070.6 (a)(10) requires the CDE to report other available data relating to dropout or graduation rates or pupil progress toward high school graduation. There is no additional data to report at this time. Other available data may be reported for 2010-11.
Reports Unable to be Produced

Rates of Dropouts Who Completed UC/CSU Course Criteria

EC Section 48070.6 (c)(2) requires the CDE to report on the percentage of high school dropouts who completed courses that are certified by the UC as meeting admission requirement criteria for the UC and CSU systems. This data is not available and not in the scope of the CALPADS contract.

Rates of Dropouts Who Completed Two or More CTE Courses

EC Section 48070.6 (c)(3) requires the CDE to report on the percentage of high school dropouts who completed two or more classes in CTE. This data is not available and not in the scope of the CALPADS contract.

Rates of Dropouts Who Completed UC/CSU and CTE courses

EC Section 48070.6 (c)(4) requires the CDE to report on the percentage of high school dropouts who completed both course sequences described in the prior two sections above. This data is not available and not in the scope of the CALPADS contract.

GED Earning Rates

EC Section 48070.6 (c)(7) requires the CDE to report on General Education Development (GED) test earning rates. Although the CALPADS includes an exit code on whether an individual completed the GED without a diploma, the CDE is unable to determine GED earning rates through CALPADS because CALPADS does not have data on whether an individual attempted the GED. The GED Testing Service provides annual reports of statewide GED results, however, the data is aggregated at the state level only. Regardless, the counts of those passing GED in CALPADS may not include all persons who passed the GED. This is because not all individuals allow release of their GED test information, and the individual identifiers under GED (SSNs) are different from those used for CALPADS (SSID). In addition, to be eligible to take the GED, a person must be 18 years or older or within 60 days of his or her 18th birthday or 17 years of age with certain restrictions. Because the GED is administered according to age and not according to grade level, it is not possible to attribute results by grade level. Similarly, because the GED is administered at test centers and not at schools or LEAs, it is not possible to attribute results by school or LEA. Until these issues are resolved, this report requirement is unable to be produced.

Chronic Absentee Rates

EC Section 48070.6 (c)(8) requires the CDE to report on chronic absentee rates, as defined in Section 60901. Section 60901 specifies that, contingent upon the receipt of
federal funds, the CDE shall prepare CALPADS to include data on a quarterly rate of pupil attendance to include rates of absence and chronic absentees. Federal funding for this purpose is currently uncertain, and the CDE has not yet begun the process to include the data in CALPADS. Until funding issues are resolved, this report requirement is unable to be produced.
CALPADS Finds Statewide Graduation Rate of 74.4 Percent
Data System Provides Most Accurate Measure of Student Success

SACRAMENTO—State Superintendent of Public Instruction Tom Torlakson announced today that nearly three out of four California students who started high school in 2006 graduated with their class in 2010, with slightly more than 18 percent dropping out rather than completing their K-12 educations.

The graduation and dropout rates continue to show a significant achievement gap between students who are Hispanic, African American, or English learners and their peers. The 74.4 percent statewide graduation rate and 18.2 percent statewide dropout rate—as well as rates calculated for counties, districts, and schools across California—were for the first time based on four-year cohort information collected about individual students using the state’s California Longitudinal Pupil Achievement Data System (CALPADS).

“For far too long, the discussion about graduation and dropout rates has revolved around how the results were obtained. Now, we can focus on the much more important issue of how to raise the number of graduates and lower the number of dropouts,” Torlakson said.

To download state, county, district, and school graduation and dropout rates, please visit the CDE DataQuest Web site at http://dq.cde.ca.gov/dataquest/.

Beyond the 74.4 percent graduation rate and the 18.2 percent dropout rate, the remaining 7.4 percent of this cohort are students who are neither graduates nor dropouts. Some are still enrolled in school (6.6 percent); others are non-diploma special education students (0.5 percent), and those who passed the General Educational Development Test® (0.4 percent).

More…more…
The new cohort graduation rate will now serve as a baseline in 2011. In 2012, it will also replace the previous formula to determine graduation rates as required by U.S. law. The previous formula, called the “National Center for Education Statistics (NCES) completer rate” is used to determine whether schools have met their targets for increasing the graduation rate for Adequate Yearly Progress reporting under the federal accountability system. The NCES completer rate was needed until California had four years of longitudinal student data to calculate a cohort rate.

The new cohort graduation rate of 74.4 percent for the class of 2010 should not be compared to any rates from previous years because it is based on a different method of calculation. For example, the NCES completer rate did not account for students who transferred into or out of schools over four years and overestimated the graduation rate. The new cohort rate takes student mobility into account. Also because the new cohort graduation rate is based on a different method of calculation, it is not possible to calculate the exact percentage of change from the graduating class of 2009, though the data clearly indicate an increase in the graduation rate and a decrease in dropout rate.

The new cohort dropout rate also will serve as a baseline in 2011. It is calculated with the same four-year cohort as the graduation rate. The new cohort dropout rate of 18.2 percent for the class of 2010 should not be compared to any rates from previous years because it is based on a different method of calculation. Also, it is not possible to calculate the exact percentage of change from the class of 2009.

Dropout rates for traditional high schools will tend to be lower than the state rate and graduation rates will tend to be higher because many students at risk of dropping out are often transferred to county-run dropout recovery or educational option programs. If students drop out after they transfer, then these students would be attributed to the county-run or educational option program, rather than to the traditional high school.

People must use caution when analyzing dropout rates for schools with high mobility, such as alternative schools or dropout recovery high schools. In many cases, these schools serve only those students who are already at the greatest risk of dropping out of school because of their prior academic challenges. So it is also inappropriate to compare dropout rates for these schools to local comprehensive high schools.
The new cohort dropout rate is calculated for high school students, grades nine through twelve. However, there are significant numbers of students who drop out of school during the middle school years. California Education Code Section 52052.1 requires the inclusion of grade eight and grade nine dropout rates in a school’s Academic Performance Index (API), the state accountability system. Grade eight and grade nine dropouts from the 2009–10 school year are planned for inclusion beginning with the 2011 Base API in the spring of 2012, pending approval of the State Board of Education. The baseline data indicate that more than 17,000 grade eight students in 2008-09 dropped out of school before entering grade nine. This report can be accessed on the API Reports on the California Department of Education Web site at:

“The new cohort data collection system shines a light on the middle school dropout problem,” added Torlakson. “Our research shows that chronic absence from school, even as early as kindergarten, is a strong indicator of whether a child will drop out of school later. Clearly, we need to invest more in programs designed to keep elementary and middle school students in school.”

The new cohort rates indicate that there is still a significant gap that persists between Hispanic and African American students and their peers. While there remains a significant graduation rate gap for Hispanic students at 67.7 percent, it is encouraging that about 4,700 more Hispanics graduated in 2010, by far the largest increase by any other subgroup of students. Most troubling are the 59.0 percent graduation rate among African American students and the 56.3 percent graduation rate among English learners.

Consistent with the graduation rates, the dropout rates also illustrate that African American students (30.1 percent) and English learners (31.1 percent) are more likely to drop out than their peers.

“Sadly, the graduation rates of these subgroups of students are too low and their dropout rates are too high,” added Torlakson. “As I mentioned during my presentation of A Blueprint for Great Schools last Tuesday, our job is to provide every child the best chance to succeed—whether they speak English, come from a family in poverty, have health issues, or special needs. The Blueprint offers a vision about how to get there.
"These new cohort rates are only the first glimpse of the data-rich information that will come from CALPADS. It is a wise investment for the state to have accurate information from which to make good policy decisions. I am grateful for the continued support of CALPADS from the Governor and the Legislature.

“I also want to thank school staff throughout California for their hard work in submitting data to CALPADS. Their work is helping to provide valuable information to keep students in school and learning so they’ll have a better future.”

For more information on Torlakson’s A Blueprint for Great Schools, please visit http://www.cde.ca.gov/blueprint/.

CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

<table>
<thead>
<tr>
<th>SUBJECT</th>
<th>Action</th>
<th>Information</th>
<th>Public Hearing</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standardized Testing and Reporting Program: Approval of California Modified Assessment Proposed Performance Standards Setting for English-Language Arts in Grade Ten and Eleven and Geometry and to Conduct the Regional Public Hearings.</td>
<td>☑️</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**RECOMMENDATION**

The California Department of Education (CDE) recommends that the State Board of Education (SBE) approve the State Superintendent of Public Instruction’s (SSPI’s) proposed performance standards (levels) for the California Modified Assessment (CMA) for English-language arts (ELA) in grades ten and eleven and Geometry.

The CDE also recommends that the SBE direct CDE and SBE staff to conduct regional public hearings on the proposed performance standards (levels) for the CMA for ELA in grades ten and eleven and Geometry to be brought to the SBE in November 2011 for adoption; in compliance with California Education Code (EC) Section 60605 requiring the SBE to adopt statewide performance standards (levels).

**SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND**

At the January 2011 meeting, the SBE adopted performance standards (levels) for the CMA for ELA in grade nine, Algebra 1, and life science in grade ten.

At the November 2009 meeting, the SBE adopted performance standards (levels) for the CMA for ELA in grades six through eight; mathematics in grades six and seven; and science in grade eight.

At the November 2008 meeting, the SBE adopted performance standards (levels) for the CMA for ELA and mathematics in grades three through five, and science in grade five.

**SUMMARY OF KEY ISSUES**

California EC Section 60605 requires the SBE to adopt statewide performance standards (levels) in the core curriculum areas of reading, writing, mathematics, history-social science, and science and to conduct regional public hearings prior to the adoption of the performance standards (levels).

**SUMMARY OF KEY ISSUES (Cont.)**
As with previous standard settings, a group of educators and stakeholders convened to recommend performance standards (levels) for the CMA for ELA in grades ten and eleven and Geometry. The standard setting process is used to determine the depth and breadth of understanding of the content standards a student must achieve at each of the five performance levels: advanced, proficient, basic, below basic, and far below basic.

One of the most widely used approaches to standard setting in large scale assessments is the Bookmark Method. The Bookmark Method is an item mapping procedure in which panelists consider content covered by items in a specially constructed book where items are ordered from easiest to hardest based on operational performance data from the spring 2011 administration. Panelists enter markers (or bookmarks) indicating their judgment on the placement of cut scores. These judgments were guided by the SBE-adopted policy definitions to help the development of the performance levels. In California, the Bookmark Method has been used in standard setting for:

- CMA for ELA in grades three through nine
- CMA for mathematics in grades three through seven
- CMA for science in grades five and eight
- CMA for life science in grade ten
- CMA for Algebra I
- Standards-based Tests in Spanish (STS) for reading/language arts in grades two through seven
- STS for mathematics in grades two through seven
- California Standards Tests (CSTs) for science in grades five and eight
- CST for life science in grade ten
- CST for earth science
- CST for chemistry
- CST for physics
- CST for biology
- CST for integrated/coordinated science 1–4
- CST for history-social science
- CST for world history
- CST for United States history
- California High School Exit Examination
- California English Language Development Test

SUMMARY OF KEY ISSUES (Cont.)
The CMA performance standard setting group for ELA and mathematics will meet on August 15–19, 2011. The SSPI’s recommendations for the proposed performance standards (levels) for the CMA will be provided (Attachment 1) in an item addendum along with the standard setting panel’s recommendations for the proposed performance standards (levels) (Attachment 2).

**FISCAL ANALYSIS (AS APPROPRIATE)**

All costs associated with these activities are included in the current Standardized Testing and Reporting Program contract.

**ATTACHMENT(S)**

Attachment 1: State Superintendent of Public Instruction’s Recommendations for the Proposed Performance Standards (Levels) for the California Modified Assessment will be provided as an Item Addendum.

Attachment 2: Standard Setting Panel’s Recommendations for the Proposed Performance Standards (Levels) for the California Modified Assessment will be provided as an Item Addendum.
California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM 16
CALIFORNIA STATE BOARD OF EDUCATION
SEPTEMBER 2011 AGENDA

SUBJECT
California College, Career, and Technical Education Center: Hold a Public Hearing and Consider Revocation Pursuant to Education Code Section 47607(e).

RECOMMENDATION

If on September 7, 2012, the State Board of Education (SBE) issues a Notice of Intent to Revoke the charter of the California College, Career, and Technical Education Center (CCCTEC), the California Department of Education (CDE) recommends that the SBE hold a public hearing to consider the revocation of the CCCTEC charter.

If the SBE finds sufficient grounds for revocation, the CDE recommends that the SBE adopt the Final Decision to Revoke and Notice of Facts in Support of the Revocation of the California College, Career, and Technical Education Center Charter (Attachment 1), effective 4 pm, Friday, September 9, 2011.

If the SBE adopts Attachment 1, CCCTEC is directed to comply immediately with the closure procedures set forth in its charter and in Appendix E of the Memorandum of Understanding between the SBE and CCCTEC, with the exception of keeping the school until 4 pm, Friday, September 9, 2011, for the purpose of transitioning all CCCTEC students to a new school. As set forth in Appendix E, CCCTEC will immediately identify an individual who will serve as the single point of contact for CCCTEC regarding the school's closure activities and will notify the family of each student enrolled of CCCTEC's closure and assist the students and the Yolo County Office of Education in that transition.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

On June 27, 2011, the SBE president issued a letter to CCCTEC informing the school that it would be considered by the SBE on July 14, 2011, regarding a proposed Notice of Violation. At the July 14, 2011, meeting, the SBE acted to adopt the June 27, 2011, letter as a Notice of Violation to CCCTEC.

On September 7, 2011, the SBE is scheduled to consider evidence provided by CCCTEC, as well as recommendations of the Advisory Commission on Charter Schools.
SUMMARY OF PREVIOUS … (Cont.)

(ACCS) and CDE analysis and recommendations, and if it deems appropriate, issue a Notice of Intent to Revoke the CCCTEC charter.

SUMMARY OF KEY ISSUES

EC Section 47607(c) states that a charter may be revoked by the authority that granted the charter “if the authority finds, through a showing of substantial evidence, that the charter school did any of the following:

(1) Committed a material violation of any of the conditions, standards, or procedures set forth in the charter.

(2) Failed to meet or pursue any of the pupil outcomes identified in the charter.

(3) Failed to meet generally accepted accounting principles, or engaged in fiscal mismanagement.

(4) Violated any provision of the law.

Pursuant to EC Section 47607(d) that specifies, “prior to revocation, the authority that granted the charter shall notify the charter public school of any violation of this section and give the school a reasonable opportunity to remedy the violation,” the SBE notified CCCTEC of the alleged violations on June 22, 2011, and the SBE issued a Notice of Violation to CCCTEC at its July 14, 2011, meeting.

CCCTEC was given until July 22, 2011, to submit evidence to the SBE that refuted, remedied, or proposed to remedy the alleged violations. In addition, CCCTEC was given the opportunity to present evidence at the July 28, 2011, meeting of the Advisory Commission on Charter Schools (ACCS). At that meeting, the ACCS recommended that the SBE issue a Notice of Intent to Revoke the CCCTEC charter.

The SBE is scheduled to consider the evidence provided by CCCTEC, along with the ACCS and CDE recommendations at its September 7, 2011, meeting. If the SBE finds sufficient evidence that CCCTEC is unable to refute, remedy, or propose to remedy the alleged violations, the SBE may issue a Notice of Intent to Revoke the CCCTEC charter.

If the SBE issues a Notice of Intent to Revoke, it must provide written findings of fact in support of revocation to CCCTEC, along with a notice of public hearing.

The CDE recommends that if, at the public hearing, the SBE finds that CCCTEC cannot present evidence that it can refute, remedy, or propose to remedy the alleged violations, the SBE adopt the Final Decision to Revoke and Written Factual Findings to Support the Revocation of the California College, Career, and Technical Education Center Charter (Attachment 1), effective September 9, 2011 at 4:00 PM.
FISCAL ANALYSIS (AS APPROPRIATE)

There would essentially be no state cost related to revocation of the CCCTEC charter. If the SBE were to revoke the charter, some shifting of state expenditures would occur from CCCTEC to other local educational agencies (due to the transfer of students), but state expenditures would essentially be unchanged. There would be a minor loss of revenue to the CDE from the oversight fees collected from CCCTEC. However, the revenue loss would be offset by the reduction in costs for oversight activities.

If CCCTEC were to close, remaining obligations to the State include, but are not limited to, repayment of 2010–11 overpaid apportionment funds in the amount of $219,068 and repayment of its Charter Schools Revolving Loan in the amount of $100,786. In addition, the CDE is currently working with CCCTEC to validate a number of PCSGP expenditures. CCCTEC would be invoiced for any PCSGP expenditures that cannot be validated or are otherwise disallowed by CDE.

Dear Mr. Preston and Mr. McPherson:

**Subject: Final Decision to Revoke and Notice of Facts in Support of Revocation Pursuant to Education Code (EC) Section 47607(e)**

This letter serves as notification that the State Board of Education (SBE) made a final decision to revoke the California College, Career, and Technical Education Center Charter School (CCCTEC) effective 4 pm, Friday, September 9, 2011, pursuant to *Education Code (EC) 47607(e)*. CCCTEC is hereby directed to immediately comply with the closure procedures set forth in its charter and in Appendix E of the Memorandum of Understanding between CCCTEC and the SBE, with the exception of keeping the school open until 4 pm, Friday, September 9, 2011, for the purpose of transitioning all CCCTEC students to a new school. As set forth in Appendix E, CCCTEC will immediately notify the family of each student enrolled of CCCTECs closure and assist the students and the Yolo County Office of Education in that transition.

On August 26, 2011, you were sent a letter, and contacted via e-mail, notifying you that the SBE would consider issuing a Notice of Intent to Revoke the CCCTEC charter and a Notice of Facts in Support of Revocation on September 7, 2011, and that, should the SBE issue such a notice, a hearing would be held...
on September 8, 2011 regarding final revocation of the CCCTEC charter. On September 7, 2011, CDE staff contacted you regarding the Board’s action and to provide you notification of the hearing on September 8, 2011.

_Education Code (EC) Section 47607(c)_ provides that a school’s charter may be revoked by the authority that granted the charter if the authority finds, through a showing of substantial evidence, that the charter school did any of the following:

1. Committed a material violation of any of the conditions, standards, or procedures set forth in the charter.

2. Failed to meet or pursue any of the pupil outcomes identified in the charter.

3. Failed to meet generally accepted accounting principles, or engaged in fiscal mismanagement.

The State Board of Education (SBE) issued a Notice of Violation dated July 18, 2011, informing the California College, Career, and Technical Education Center (CCCTEC) that it may have violated _EC Section 47607(c)(3) and (c)(4)_, and that these violations could be the basis for an action to revoke the CCCTEC charter. On June 22, 2011, CCCTEC was notified in writing regarding the violations alleged in the Notice.

The Notice provided CCCTEC with an opportunity to submit evidence to the SBE by July 22, 2011, that refuted, remedied, or proposed to remedy the alleged violations. CCCTEC was also given the opportunity to present that evidence to the Advisory Commission on Charter Schools (ACCS) at its July 28, 2011, meeting.

After consideration of the evidence presented by CCCTEC, the ACCS and the CDE conclude that CCCTEC has failed to refute, remedy, or propose to remedy the violations included in the Notice of Violation as follows:

**Facts relating to _EC Section 47607(c)(3)_ that CCCTEC has failed to meet generally accepted accounting principals or engaged in fiscal mismanagement that may hinder its ability to open and operate in the 2011–12 school year:**

CCCTEC has failed to provide a budget and cash flow statement that includes all sources of revenue and liabilities, including, but not limited to, the following items: (a) revenues for the remainder of the current fiscal year and through February 2012; and (b) liabilities for the remainder of the current fiscal year and through February 2012.
Based on CDE analysis of the materials submitted by CCCTEC on July 22, 2011, CDE is unable to ascertain whether CCCTEC can operate until February 2012. The budget provided by CCCTEC lacked a narrative or sufficient detail to make an accurate analysis, no cash flow statements were provided, and the budget contained information that contradicts information obtained by the CDE.

CCCTEC presented in its written evidence that it would remedy the cash flow shortage by reapplying for a loan from the Revolving Loan Fund. However, these funds are not guaranteed, and CDE finds no evidence that a new CCCTEC application would provide a sufficient basis to issue a loan.

CCCTEC also proposed to remedy problems with its attendance accounting and reporting system by contracting with a new vendor and providing training for staff. However, no evidence was included that described the services being contracted or evidence of dates and details of any staff training.

In response to concerns regarding lack of payment of teachers’ salaries, CCCTEC included in its evidence an assurance that “as funds become available to CCCTEC any past amounts owed to employees will be paid.” However, there is no indication that any funds are available to do so, and no substantiating evidence to indicate how much is actually owed to each teacher.

Similarly, CCCTEC addresses concerns regarding a lack of payment to Yolo County Office of Education for the California State Teachers Retirement System (CALSTRS) by stating that “as funds become available to CCCTEC any past amounts owed to the State Teachers Retirement System will be paid” and that “CCCTEC has agreed to work with the back office provider to insure [sic] clear communication exists to prevent a repeat of this type of event.” The CDE cannot find any evidence of funds becoming available to enable CCCTEC to make CALSTRS payment. In addition, CDE finds a lack of evidence regarding the relationship between CCCTEC and a back office provider.

CCCTEC addresses concerns regarding the federal Carol M. White Physical Education Program (PEP) grant findings that require CCCTEC to return PEP grant funds by stating that “CCCTEC feels that with further review of the expenditures the amount identified by the PEP program will again be substantially reduced.” However, all communications as of July 21, 2011, between the CDE and the PEP grant office indicate that there has been no change to the findings, and that, in fact, CCCTEC has
become further out of compliance with the requirements of the grant. PEP grant staff also indicated that CCCTEC would not be allowed to draw down year two funds from the PEP grant program. CCCTEC provides no evidence to indicate there has been communication with PEP grant staff or that PEP grant staff have lowered the amounts owed as indicated in their May 31, 2011, monitoring report.

- CCCTEC provides in its evidence that it has receivables available in the amount of $306,000 from the Public Charter Schools Grant Program (PCSGP) that it could sell in order to generate cash flow. However, PCSGP staff issued a letter to CCCTEC dated July 18, 2011, indicating that CCCTEC was out of compliance with the terms of the grant and had until August 1, 2011, to remedy issues raised in the letter. Failure to remedy the issues described would indicate in an invoice being issued to CCCTEC for return of PCSGP funds. In addition, CCCTEC would not be considered in good standing with the PCSGP and would be unlikely to secure an agreement to sell PCSGP receivables.

- CCCTEC submitted documents describing its insurance policies as requested; however no evidence was provided that indicated whether premiums had been paid. An invoice for 2011–12 was provided that showed an amount due of $16,263.88. However, the only indication of any payment is a hand-written note on the invoice that states “PAID $3000.00 7/1/11 owe $13,263.88 for 2011–12.”

- CCCTEC was asked to provide evidence of any outstanding invoices due to vendors. While CCCTEC did provide invoices that had not yet been disclosed to the CDE, CCCTEC did not provide invoices to several vendors that have provided unpaid invoices to the CDE. In addition, CCCTEC provided little to no detail regarding the amounts due to teachers and staff, and no detail regarding a plan to pay past due salary taxes and benefit payments. This lack of evidence increases the CDE’s significant concerns regarding the capacity of CCCTEC to use generally accepted accounting principles to manage its accounts.

Facts relating to EC Section 47607(c)(4): that CCCTEC may have violated a provision of law, EC Section 47605(l), that requires teachers of core subjects to possess an appropriate credential or other document authorizing them to teach the subjects to which they are assigned:

CCCTEC has failed to provide evidence of highly-qualified status and proper credentialing for all core teachers employed in the 2010–11 and 2011–12 school years and a detailed plan regarding plans to recruit and hire highly-qualified and properly credentialed teachers for the 2011–12 school year, including master schedules that identify teacher assignments for each course.
In the evidence submitted by CCCTEC, CCCTEC states that “all students were appropriately supervised with an appropriately credentialed teacher in all core classes” and that “CCCTEC does have 2 teachers who are interns in Fortune School and National University.” As evidence, CCCTEC provides copies of teacher credentials. However, the CDE cannot draw conclusions regarding the appropriateness of the provided credentials, as no teacher assignments were aligned to them. In addition, no master schedule was provided, so there is no way for CDE to discern how many teachers of core subjects were or will be hired and whether those teachers were properly credentialed.

CCCTEC also proposes that it will work with the CDE to “clarify staff assignments and show matching credentials with CDE staff in the future including teachers in intern programs.” The CDE finds that this proposal lacks sufficient detail to ensure that credentialing requirements are met. Specifically, the CDE finds that CCCTEC may not understand that enrollment in an intern program does not constitute appropriate credentialing.

Final Decision to Revoke

Based upon these facts, the SBE issued hereby issues this Final Decision to Revoke the CCCTEC charter effective 4 pm, Friday, September 9, 2011. This revocation is based upon EC Section 47607(c)(3): that CCCTEC has failed to meet generally accepted accounting principals or engaged in fiscal mismanagement that may hinder its ability to open and operate in the 2011–12 school year; and EC Section 47607(c)(4): that CCCTEC may have violated a provision of law, EC Section 47605(l), that requires teachers of core subjects to possess an appropriate credential or other document authorizing them to teach the subjects to which they are assigned.

CCCTEC is hereby directed to immediately comply with the closure procedures set forth in its charter and in Appendix E of the Memorandum of Understanding between CCCTEC and the SBE, with the exception of keeping the school open until 4 pm, Friday, September 9, 2011, for the purpose of transitioning all CCCTEC students to a new school. As set forth in Appendix E, CCCTEC will immediately identify an individual who will serve as the single point of contact for CCCTEC regarding the school’s closure activities and will notify the family of each student enrolled of CCCTEC’s closure and assist the students and the Yolo County Office of Education in that transition.

If you have any questions or need any additional information regarding this Final Decision to Revoke and Notice of Facts Supporting Revocation, please contact Sue Burr, Executive Director, SBE at 916-319-0938 or via e-mail at SBurr@cde.ca.gov.
Sincerely,

Dr. Michael Kirst  
President  
California State Board of Education

Excerpts from the Memorandum of Understanding Between the California State Board of Education and the California College, Career, and Technical Education Center Closure Procedures and Appendix E

Memorandum of Understanding Section 4.5: Notification Regarding Closure, Revocation, or Renewal

At the beginning of any closure or revocation process, the School shall immediately provide at its own expense a written notification to every parent, guardian, or caregiver describing all options available for students to transfer, including specific schools. The School shall also offer administrative assistance to parents, guardians, or caregivers to provide for a timely transfer of students to other schools.

One year before a renewal is to be considered, the School shall provide at its own expense a written notification to every parent, guardian, or caregiver describing the renewal process.

Memorandum of Understanding Section 4.7: Revocation

The State Board of Education (SBE) retains the right to revoke the charter pursuant to Education Code (EC) sections 47604.5 or 47607 for specified reasons with written notice to the School that shall specify concerns, alleged violations, and issues of non-compliance. The California Department of Education (CDE) will adhere to the requirements in EC sections 47607(c) through (e), and any regulations approved by the SBE and the Office of Administrative Law prior to revocation of the charter.

During the period prior to revocation, the School shall have the opportunity to work collaboratively with the CDE or its designee to address the concerns and develop a plan to remediate all areas to the satisfaction of the CDE and the SBE. During this period of time, the School shall attempt to resolve the concerns and complete remediation. This provision may require an amendment to the charter.
Under circumstances where the CDE determines there is a severe and imminent threat to the health or safety of students, the CDE may take immediate action to assure the safety and well being of the students including but not limited to closure of the School. The SBE will be apprised of the situation before any action is taken.

Memorandum of Understanding Section 4.8: Closure Procedures

The School’s charter will include a description of the procedures to be used in the event the School closes. The procedures must, at a minimum, contain all of the elements in California Code of Regulations, Title 5, Section 11962 (see Appendix E).

If the School is to close permanently for any reason, the CDE will serve written notice on the School that the School’s closure procedures have been invoked. The School will immediately notify the CDE of the specific individual responsible for coordinating the School’s closure procedures. The CDE will identify a CSD staff member to work with the School to complete all closure activities.

Pursuant to EC Section 47604.3, the School expressly acknowledges the right of the CDE on behalf of the State Superintendent of Public Instruction to take immediate and direct control of the School’s student and business records at any time after the CDE gives written notice that it is invoking the closure procedures.

At the point the charter school is dissolved, the student and business records shall come under the exclusive control of the CDE which shall distribute, maintain, or dispose of the records as it determines appropriate.

The charter school shall terminate all present leases, service agreements and other contracts not necessary for the close out of the school. Leases, service agreements, and contracts should be terminated in a cost effective manner in order to minimize expenses.

The charter school shall return grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law as appropriate. A final expenditure report for all grants will be submitted within fourteen days. Federal grants must be closed out, including the filing of the required Final Expenditure Reports and Final Performance Reports. Federal Forms 269 and 269a may apply if the school was receiving funds directly from the U.S. Department of Education.

Close all financial records of the school as of revocation or closure date.

The charter school shall provide the CDE within fourteen days with a description of current and projected payroll and payroll benefits commitments through closure, including a list of each employee, and their job duties, and a projection of the funds necessary to: (1) transition the students and records; (2) complete all administrative closure related tasks; and (3) complete contracts and grants.

The charter school shall provide CDE within fourteen days with notice of any outstanding payments to staff and the method by which the school will make the payments.

The charter school will within fourteen days contact the California State Teachers' Retirement System (CalSTRS), California Public Employees' Retirement System (CalPERS), and the county office of education and follow their procedures for dissolving contracts and reporting, copying the CDE on all correspondence.

Prior to final closeout, the charter school shall do all of the following on behalf of the school’s employees:

- File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.
- File the Federal Notice of Discontinuance with the Department of Treasury (Treasury Form 63).
- Make final federal tax payments (employee taxes, etc.)
- File the final withholding tax return (Treasury Form 165).
- File the final return with the IRS (Form 990 and Schedule).

</table>
The charter school, within 30 days, shall prepare and deliver to the CDE a plan for the proposed disposal of all property owned by the school (and acquired with public funds) in order to maximize revenue in accordance with law, payment of any and all liabilities and the disbursement of any remaining assets of the school, liquidation of assets to pay off any and all outstanding liabilities, bearing in mind that assets paid for by state funds may be transferred in accordance with the nonprofit corporation’s bylaws to another public agency such as another charter school. Assets donated to the school may be returned to donors or disposed of in accordance with donor’s wishes. Net assets, (after the payment of outstanding liabilities), if any, may be transferred to another public agency such as another charter school.

The charter school shall arrange for preliminary (if necessary) and final closure audits to be paid for from the special reserve or bond revenue. The auditor engaged to perform the audit(s) shall be from the list of approved school auditors maintained by the California State Controller’s Office and shall be approved by the CDE. The audit(s) at a minimum shall determine the disposition of all assets and liabilities of the charter school and shall verify the school’s comprehensive list of creditors and debtors, and the amounts owed or owing, as well as verify the school’s comprehensive list of all assets by source, noting any restrictions on each asset’s use.

Based on the audit findings, and with the approval of the CDE, the charter school shall expend any identified assets to liquidate any identified liabilities.

California State Board of Education
Meeting Agenda Items for September 7-8, 2011

ITEM W-1
General Waiver

SUBJECT
Request by one county office of education and eight school districts to waive portions of California Code of Regulations, Title 5, Section 11960(a), to allow the charter school attendance to be calculated as if it were a regular multi-track school (5 tracks; 175 days).

Waiver Numbers: 16-6-2011, 27-6-2011, 50-6-2011, 1-7-2011, 2-7-2011, 3-7-2011, 5-7-2011, 6-7-2011, and 8-7-2011

RECOMMENDATION

Approval with conditions

The California Department of Education recommends approval with the following conditions:

1. Each charter school will operate five tracks; each will offer a minimum of 175 days and required number of minutes.

2. For each track, each charter school will offer the minimum annual instructional minutes as specified by California Education Code (EC) Section 47612.5.

3. No track will have fewer than 55 percent of its school days completed prior to April 15.

4. Average daily attendance (ADA) will be calculated separately for each track by the method set forth in California Code of Regulations Title 5 (5 CCR), Section 11960, and then the resulting attendance figures will be totaled.

Because this waiver is granted for two consecutive years, EC 33051(b) will apply, and the County Office of Education and the districts will not be required to reapply annually if information contained in the request remains current.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At its July 2000 meeting, the State Board of Education (SBE) approved SBE’s Policy #00-05 Charter School ADA: Alternative Calculation Method, available at http://www.cde.ca.gov/re/lr/wr/documents/charterschoolada.doc, which applies to this
SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION (Cont.)

waiver request. Many multi-track calendar waivers for charter schools have been approved by the SBE in the past eleven years.

SUMMARY OF KEY ISSUES

Section 11960(a) of 5 CCR defines regular ADA in a charter school and establishes the calculation for determining ADA. The calculation divides the total number of pupil-days attended by the total number of days school was actually taught. This section also requires a proportional reduction in a charter school's funding for each day less than 175 days if the school operates fewer than 175 days in any fiscal year.

As referenced in the SBE Policy #00-05:

"Attendance" means the attendance of charter school pupils while engaged in educational activities required of them by their charter schools, on days when school is actually taught in their charter schools. "Regular average daily attendance" shall be computed by dividing a charter school's total number of pupil-days of attendance by the number of calendar days on which school was actually taught in the charter school. For purposes of determining a charter school's total number of pupil-days of attendance, no pupil may generate more than one day of attendance in a calendar day.

A multi-track calendar waiver is typically requested by charter schools that operate on a multi-track, year-round education calendar in order to claim the full ADA. In a multi-track calendar, the total number of days that school is taught may exceed 200 days. However, each track of students is only provided instruction for the number of days in a given track, typically 175 or 180 days. Therefore, a waiver is necessary for a multi-track charter school to separately calculate ADA in each track, rather than for the school as a whole.

One county office of education and eight school districts (Attachment 1) are requesting these waivers on behalf of nine charter schools to allow the charter schools to operate a five-track calendar. Each of the schools provides its accountability data under the Alternative Schools Accountability Model.

The total number of days each school is actually teaching per year is 240. However, each track of students will be offered a minimum of 175 days of instruction. The reason for operating a multi-track calendar is that all of the schools’ target populations, comprised mainly of at-risk students, benefit from a calendar with staggered start dates.

Waivers of this section will allow the schools to operate five tracks with a minimum of 175 days of instruction and separately calculate the ADA for each track, rather than for entire schools. This is consistent with how ADA is calculated for a regular school with multiple tracks. The charter has proven that no track has fewer than 55 percent of its school days occurring prior to April 15, one criterion of the SBE waiver policy.
SUMMARY OF KEY ISSUES (Cont.)

On the basis of this analysis and with the conditions as listed, the Department recommends approval of these waivers. Because these waivers are granted for two consecutive years, \textit{EC 33051(b)} will apply, and the district will not be required to reapply annually if information contained on the request remains current.

Because these are general waivers, if the SBE decides to deny the waivers, it must cite one of the seven reasons in \textit{EC 33051(a)}. The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; and (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: See each individual waiver

\textbf{Authority for Waiver:} \textit{EC Section 33050}

\textbf{Period of request:} July 1, 2011 to June 30, 2013

\textbf{Local board approval date(s):} See Attachment 1

\textbf{Public hearing held on date(s):} See Attachment 1

\textbf{Bargaining unit(s) consulted on date(s):} None of the charter schools has a bargaining unit.

\textbf{Name of bargaining unit/representative(s) consulted:} None of the charter schools has a bargaining unit.

\textbf{Position of bargaining unit(s) (choose only one):}

☐ Neutral ☐ Support ☐ Oppose:

Comments (if appropriate): The charter schools do not have a bargaining unit.

\textbf{Public hearing advertised by (choose one or more):}

☐ posting in a newspaper ☐ posting at each school ☒ posting at district office

\textbf{Advisory committee(s) consulted:} See Attachment 1
Objections raised (choose one): ☐ None ☐ Objections are as follows:

Date(s) consulted: See Attachment 1

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

Title 5, California Code of Regulations (5 CCR), Section 11960:
Regular Average Daily Attendance for Charter Schools.

5 CCR 11960 defines regular average daily attendance (ADA) in a charter school, and established the calculation for determining ADA. The calculation divides the total number of pupil-days attended by the total number of days school was actually taught. This section also requires a proportional reduction in a charter school’s funding for each day less than 175 if the school operates fewer than 175 days in any fiscal year. Specifically, the section states:

(a) As used in EC Section 47612, "attendance" means the attendance of charter school pupils while engaged in educational activities required of them by their charter schools, on days when school is actually taught in their charter schools. "Regular average daily attendance" shall be computed by dividing a charter school's total number of pupil-days of attendance by the number of calendar days on which school was actually taught in the charter school. For purposes of determining a charter school's total number of pupil-days of attendance, no pupil may generate more than one day of attendance in a calendar day.

(b) The State Superintendent of Public Instruction shall proportionately reduce the amount of funding that would otherwise have been apportioned to a charter school on the basis of average daily attendance for a fiscal year, if school was actually taught in the charter school on fewer than 175 calendar days during that fiscal year.

Background
This waiver is typically requested by charter schools that operate on a multi-track year-round education calendar. In a multi-track calendar, the total number of days that school is taught may actually exceed 200 days. However, each track of students is only provided instruction for the number of days in a given track, typically 175 days. Therefore, a waiver would be necessary for a multi-track charter school to separately calculate ADA in each track, rather than for the school as a whole.
Evaluation Guidelines
A waiver of this regulation is necessary for a charter school that operates on a multi-track calendar to separately calculate ADA in each track, rather than using the total number of days school is actually taught as the basis for a single, overall ADA calculation. In order to evaluate any such waiver request, the State Board of Education (SBE) asks that those districts applying for such a waiver provide documentation which the California Department of Education (CDE) professional staff are then asked to use in reviewing and making recommendations about the request. The waiver request should include the following:

1. Identification of the charter school for which the district is requesting the waiver;
2. A copy of the charter school’s calendar for the year(s) for which the waiver is requested;
3. The number of tracks that the school operates;
4. The total number of days school is taught in the charter school;
5. The total number of days school is taught in each track; and,
6. The reason why the school is operating on multi-track.

Possible reasons for operating a multi-track calendar might include:

- The charter school is a conversion of an existing school which operated on a multi-track calendar prior to conversion.
- The school has limited facilities which require multi-track operation to adequately house the pupil population.
- The educational program, or target population of the school is best served by offering multiple tracks, for reasons explained in the waiver application.

In addition to a description of the school’s program as set forth above, the waiver request must provide assurances that the charter school will meet the following terms as a condition of approval of the waiver:

1. If the charter school is a start-up school, it will operate not more than five tracks; if it is a conversion school, it will operate no more than the number of tracks it operated prior to conversion;
2. If the charter school is a start-up school, each track will operate a minimum of 175 days; if the charter school is a conversion school, the school may continue its
previous schedule as long as it provides no less than 163 days of instruction in each track;

3. For each track, the charter school will provide the total number of instructional minutes contained in Education Code Section 46201.5(a)(2);

4. No track will have fewer than 55 percent of its school days prior to April 15; and

5. ADA will be calculated separately for each track by the method set forth in 5 CCR 11960, and then the resulting figures will be totaled.

Send Original plus one copy to:
Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send Electronic copy in **Word** and back-up material to: waiver@cde.ca.gov

---

**CD CODE**

| 0 | 1 | 1 | 9 | 9 | 9 | 0 |

---

**Legal Criteria**

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number):

   Circle One: **EC** or **CCR**

   11960(a)

   Topic of the waiver: **Multi Track School**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _No_ and date of SBE Approval_____

3. Collective bargaining unit information. Does the district have any employee bargaining units? _X_ No ___ Yes If yes, please complete required information below:

   Bargaining unit(s) consulted on date(s):

   Name of bargaining unit and representative(s) consulted:

   The position(s) of the bargaining unit(s): ___ Neutral ___ Support ___ Oppose (Please specify why)

   Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

   How was the required public hearing advertised?

   ____ Notice in a newspaper   ____ Notice posted at each school   _X_ Other: (Please specify) Notice Posted at District Office

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

   Parent Advisory Committee

   Date the committee/council reviewed the waiver request: June 8, 2011

   Were there any objection(s)? No _X_ Yes ___ (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key). 35256. School Accountability Report Card
   Apply for waiver under CCR-Title 5 Section 11960 (a), to allow the Charter school attendance to be calculated as a regular multi track school.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.
   This Waiver is being requested because this Charter School proposes to operate a multi-track year round education calendar, with no more than 5 tracks. As a result, the number of days this school is actually teaching per year is 240. However, each track of students will be offered school for a minimum of 175 days of instruction and no track will have fewer than 55% of its school days prior to April 15th. Therefore the waiver is requested to separately calculate ADA in each track (rather than the school as a whole) by method set forth in CCR Title 5 Section 11960 (a) and then total the resulting figures. This is the same method required for non-charter schools that operate on a multi-track year round calendar. The reason for operating a multi-track calendar is our school is an ASAM school and our student population is comprised of mainly at-risk students who will benefit for a year round calendar which helps them catch up academically to ensure they get back on the road to earning a high school diploma.

8. Demographic Information:
   Mission View Public Charter, Inc. has a student population of 417 and is located in the city of Santa Clarita in Los Angeles County.

---

**Is this waiver associated with an apportionment related audit penalty? (per EC 41344)**

School Fax: (619) 286-0791

Period of request: (month/day/year)
From: 7/1/2011 To: 6/30/13
Local board approval date: (Required)
June 23, 2011
Date of public hearing: (Required)
May 10, 2011

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): Circle One: EC or CCR

11960(a)

Topic of the waiver: Multi Track School

2. If this is a renewal of a previously approved waiver, please list Waiver Number:  _No_ and date of SBE Approval  ______

3. Collective bargaining unit information. Does the district have any employee bargaining units?  _X_ No  _X_ Yes  If yes, please complete required information below:

Bargaining unit(s) consulted on date(s):

Name of bargaining unit and representative(s) consulted:

The position(s) of the bargaining unit(s):  _X_ Neutral  _X_ Support  __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

___ Notice in a newspaper  ___ Notice posted at each school  _X_ Other: (Please specify) Notice Posted at District Office

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Parent Advisory Council per M. Rukofski  kak 7/13/11

Date the committee/council reviewed the waiver request: May 10, 2011

Were there any objection(s)?  No  _X_ Yes  _X_ (If there were objections please specify)
6. **Education Code** or **California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

   **School Accountability Report Card**

   Apply for waiver under CCR-Title 5 Section 11960 (a), to allow the Charter school attendance to be calculated as a regular multi track school.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

   This Waiver is being requested because this Charter School proposes to operate a multi-track year round education calendar, with no more than 5 tracks. As a result, the number of days this school is actually teaching per year is 240. However, each track of students will be offered school for a minimum of 175 days of instruction and no track will have fewer than 55% of its school days prior to April 15th. Therefore the waiver is requested to separately calculate ADA in each track (rather than the school as a whole) by method set forth in CCR Title 5 Section 11960 (a) and then total the resulting figures. This is the same method required for non-charter schools that operate on a multi-track year round calendar. The reason for operating a multi-track calendar is our school is an ASAM school and our student population is comprised of mainly at-risk students who will benefit for a year round calendar which helps them catch up academically to ensure they get back on the road to earning a high school diploma.

8. Demographic Information:

Diego Hills Public Charter, Inc. has a student population of 523 and is located in the city of San Diego in San Diego County.

**Is this waiver associated with an apportionment related audit penalty? (per EC 41344)**

No ☐ Yes ☐

(If yes, please attach explanation or copy of audit finding)

**Has there been a Categorical Program Monitoring (CPM) finding on this issue?**

No ☒ Yes ☐

(If yes, please attach explanation or copy of CPM finding)

**District or County Certification** – I hereby certify that the information provided on this application is correct and complete.

School: Skip Hansen, Sr. Vice President

Contact person’s e-mail address:
kogden@sdcoe.net
shansen@learn4life.org

Address:  (City)  (State)  (ZIP)
District: 1704 Cape Horn, Julian, CA 92036
School: 237 East Main Street, El Cajon, CA 92020

Period of request:  (month/day/year)
From:  7/1/2011 To: 6/30/13

Local board approval date: (Required)
May 11, 2011

Date of public hearing: (Required)
5/10/2011

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number):  Circle One:  EC  or  CCR 11960(a)

Topic of the waiver:  Multi Track School

2. If this is a renewal of a previously approved waiver, please list Waiver Number:  No  and date of SBE Approval:

3. Collective bargaining unit information. Does the district have any employee bargaining units?  X  No  ____  Yes  If yes, please complete required information below:

   Bargaining unit(s) consulted on date(s):

   Name of bargaining unit and representative(s) consulted:

   The position(s) of the bargaining unit(s):  __ Neutral  __ Support  __ Oppose (Please specify why)

   Comments (if appropriate):

4. Public hearing requirement:  A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

   How was the required public hearing advertised?

   ___ Notice in a newspaper  ___ Notice posted at each school  X  Other:  (Please specify)  Notice Posted at District Office

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

   Parent Advisory Council

   Date the committee/council reviewed the waiver request:  May 10, 2011

   Were there any objection(s)?  No  X  Yes  If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

   35256. School Accountability Report Card

   Apply for waiver under CCR-Title 5 Section 11960 (a), to allow the Charter school attendance to be calculated as a regular multi track school.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

   This Waiver is being requested because this Charter School proposes to operate a multi-track year round education calendar, with no more than 5 tracks. As a result, the number of days this school is actually teaching per year is 240. However, each track of students will be offered school for a minimum of 175 days of instruction and no track will have fewer than 55% of its school days prior to April 15th. Therefore the waiver is requested to separately calculate ADA in each track (rather than the school as a whole) by method set forth in CCR Title 5 Section 11960 (a) and then total the resulting figures. This is the same method required for non-charter schools that operate on a multi-track year round calendar. The reason for operating a multi-track calendar is our school is an ASAM school and our student population is comprised of mainly at-risk students who will benefit for a year round calendar which helps them catch up academically to ensure they get back on the road to earning a high school diploma.

8. Demographic Information:

   Diego Valley Public Charter has a student population of 215 and is located in the city of El Cajon in San Diego County.

---

**Is this waiver associated with an apportionment related audit penalty?** (per EC 41344)  No ☒  Yes ☐

(If yes, please attach explanation or copy of audit finding)

**Has there been a Categorical Program Monitoring (CPM) finding on this issue?**  No ☒  Yes ☐

(If yes, please attach explanation or copy of CPM finding)

**District or County Certification** — I hereby certify that the information provided on this application is correct and complete.

CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

General Waiver

Request by Nevada County Office of Education to waive portions of California Education Code Section 51745.6, and California Code of Regulations, Title 5, Section 11704, and portions of Section 11963.4(a)(3), related to charter school independent study pupil-to-teacher ratios to allow an increase from 25:1 to a 27.5:1 pupil-to-teacher ratio at Twin Ridges Home Study Charter School.

Waiver Number: 38-5-2011

RECOMMENDATION

☐ Approval ☒ Approval with conditions ☐ Denial

The California Department of Education recommends approval of this waiver with the following conditions: (1) if Twin Ridges Home Study Charter School (TRHSCS) does not meet its Academic Performance Index (API) growth target for 2010–11 and 2011–12, the waiver will not be recommended for renewal; and (2) that the waiver be granted for two years less one day, thus Education Code (EC) Section 33051(b) will not apply, and the charter school will be required to reapply for the waiver.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In April 2001, the California State Board of Education (SBE) adopted Waiver Policy #01-03, Independent Study: Average Daily Attendance (ADA)-to-Teacher Ratio, available at http://www.cde.ca.gov/re/lr/wr/documents/independentstudy.doc, which allows placement on the consent calendar any request to increase the pupil-to-teacher ratios for district and county independent study programs up to 10 percent over what is specified by law.

Although TRHSCS is a charter school, it meets the same criteria as the other local educational agencies covered by Waiver Policy #01-03.

SUMMARY OF KEY ISSUES

Education Code Section 51745.6, and California Code of Regulations, Title 5, Section 11704, and portions of Section 11963.4(a)(3), establish minimum requirements for ADA-to-teacher ratios in independent study that apply to non-classroom based charter schools. In essence, these sections require that the ratio meet the following criteria:
1. The ratio cannot exceed the equivalent ratio of ADA-to-full-time certificated employees for all other educational programs operated by the high school or unified school district with the largest ADA of pupils in that county.

2. In a charter school, the ratio may be calculated by using a fixed ADA-to-certificated-employee ratio of 25:1, or by a ratio of less than 25 pupils per certificated employee.

Twin Ridges Home Study Charter School is requesting to increase the ADA-to-teacher ratio from 25:1 to 27.5:1. This constitutes a 10 percent increase. TRHSCS requests this increase to create a higher revenue source of approximately $70,000 by accepting an additional 14 students.

In the 2009–10 school year, TRHSCS had a 2010 Growth API score of 775, constituting a 19 point growth, thus exceeding its API growth target of 5 points by 14 points. Twin Ridges Home Study Charter School has one significant subgroup: white students, who exceeded its API performance target. The school did not make the 2010 Adequate Yearly Progress and met six out of seven corresponding criteria.

The Department recommends approval of this waiver with the following conditions: (1) if TRHSCS does not meet its API growth target for 2011–12 and 2012–13, the waiver will not be recommended for renewal; and (2) because the waiver is only granted for two years less one day, through June 29, 2013, EC Section 33051(b) will not apply, and the charter school will be required to reapply for the waiver in order to maintain the higher ratio.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) the educational needs of the pupils are not adequately addressed; (2) the waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) the appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) pupil or school personnel protections are jeopardized; (5) guarantees of parental involvement are jeopardized; (6) the request would substantially increase state costs; and (7) the exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: TRHSCS currently serves 131 students. The school is authorized by the Nevada County Office of Education (Nevada COE).

Authority for Waiver: EC Section 33050

Period of request: July 1, 2011, to June 29, 2013 (two years less one day)
SUMMARY OF KEY ISSUES (Cont.)

Local board approval date(s): May 11, 2011

Public hearing held on date(s): May 11, 2011

Bargaining unit(s) consulted on date(s): TRHSCS does not have a bargaining unit.

Name of bargaining unit/representative(s) consulted: TRHSCS does not have a bargaining unit.

Public hearing advertised by (choose one or more):

- [ ] posting in a newspaper
- [ ] posting at each school
- [ ] posting at the United States Post Office
- [X] other: postings at the Nevada COE, the Nevada COE Annex, and the Terence K. McAteer Resource Center

Advisory committee(s) consulted: Nevada County Board of Education; TRHSCS Charter Council

Objections raised (choose one): [X] None

- [ ] Objections are as follows:

Date(s) consulted: May 11, 2011 (Nevada County Board of Education); May 31, 2011 (TRHSCS Charter Council)

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval or denial.

ATTACHMENT(S)

Attachment 1: General Waiver Request (4 Pages) (Original waiver request is signed and on file in the SBE Office or the Waiver Office.)
Independent Study: Average Daily Attendance (ADA)-to-Teacher Ratio

EC Section 51745.6:
(a) The ratio of average daily attendance for independent study pupils 18 years of age or less to school district full-time equivalent certificated employees responsible for independent study, calculated as specified by the State Department of Education, shall not exceed the equivalent ratio of pupils to full-time certificated employees for all other education programs operated by the school district. The ratio of average daily attendance for independent study pupils 18 years of age or less to county office of education full-time equivalent certificated employees responsible for independent study, to be calculated in a manner prescribed by the State Department of Education, shall not exceed the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the high school or unified school district with the largest average daily attendance of pupils in that county. The computation of those ratios shall be performed annually by the reporting agency at the time of, and in connection with, the second principal apportionment report to the Superintendent of Public Instruction.

(b) Only those units of average daily attendance for independent study that reflect a pupil-teacher ratio that does not exceed the ratio described in subdivision (a) shall be eligible for apportionment pursuant to Section 42238.5, for school districts, and Section 2558, for county offices of education. Nothing in this section shall prevent a school district or county office of education from serving additional units of average daily attendance greater than the ratio described in subdivision (a), except that those additional units shall not be funded pursuant to Section 42238.5 or Section 2558.

(c) The calculations performed for purposes of this section shall not include either of the following:

1. The average daily attendance generated by special education pupils enrolled in special day classes on a full-time basis, or the teachers of those classes.

2. The average daily attendance or teachers in necessary small schools that are eligible to receive funding pursuant to Article 4 (commencing with Section 42280) of Chapter 7 of Part 24.

(d) The pupil-teacher ratio described in subdivision (a) in a unified school district participating in the class size reduction program pursuant to Chapter 6.10 (commencing...
with Section 52120) may, at the school district's option, be calculated separately for kindergarten and grades 1 to 6, inclusive, and for grades 7 to 12, inclusive.

Background:  
The purpose of the ADA-to-teacher ratio requirement in state law is to ensure the students served through independent study receive access to instruction and support from appropriately certificated staff that is reasonably comparable to other students in the local education agency (LEA) who are served in regular classroom programs. The requirement was enacted specifically to stop perceived abuses where LEAs offered independent study with very high ADA-to-teacher ratios and, as a result, generated revenues to support other educational programs within those agencies.

Changes in statute which offered incentives to lower class sizes at the elementary and high school level have resulted in a commensurate lowering of the ADA-to-teacher ratio for independent study, even though independent study is not allowed to participate in the funding incentives for these programs. In addition, students in independent study may actually have a greater need for services in some areas, such as instructional materials, computer labs, and counseling services, than do students served in a classroom setting.

Evaluation Guidelines:  
The purpose of the waiver request of the entire EC Section 51745.6 may be to provide a quality educational program which is “reasonably comparable” to that provided to students within the same LEA who attend regular classrooms, and may also be considered appropriate if the purpose of the higher ADA-to-teacher ratio is to redirect resources to pay, for other services for the direct benefit of students in independent study, such as intensive counseling services provided by appropriately credentialed staff.
