In order to evaluate any such waiver request, the State Board of Education (SBE) asks that those LEAs applying for such a waiver provide the following documentation. The SBE also asks that California Department of Education (CDE) professional staff use this documentation in reviewing and making recommendations about the request. The waiver request should include all of the following:

(1) Verification that all other requirements of the independent study option in the LEA are in current statutory compliance, in both operation and documentation.

(2) Verification of the LEA’s current ADA-to-teacher ratio, as calculated under the current formula in statute (EC Section 51745.6).

(3) The requested new maximum ADA-to-teacher ratio for the LEA’s independent study program, including a description of the agency’s independent study program and the rationale for the requested ratio. The rationale should explain
how the proposed change would improve the quality of education offered to independent study students (e.g. what new or increased services would be provided with the additional revenue claimable through the waiver).

In addition, the waiver request must provide assurances that the LEA will meet the following terms as a condition of approval of the waiver:

1. The waiver request is consistent with the general purpose of the law as described above.
2. The request for a new maximum ADA-to-teacher ratio for the independent study is not greater than 10% above the ratio that would be applicable absent the waiver, and this agreed new maximum ratio will be maintained in all future years of the waiver.
3. The district will expend all revenues generated by students in independent study on services for those students, recognizing the need to allow for reasonable indirect cost charges.
4. The LEA will provide an annual report of expenditures and assurances to the CDE, using the standard report form supplied, the Local Education Agency Report to California Department of Education: Use of Apportionment Funds Generated by Students in Independent Study.

Orange County Board of Education
May 11, 2011

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): Circle One: EC or CCR portions of 51745.6, CCR, Title 5, sections 11704, and portions of 11963.4(a)(3)  j6/10/11

Topic of the waiver: Independent Study: Average Daily Attendance (ADA)  j6/10/11

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _N/A_ and date of SBE Approval______

Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No  __ Yes   If yes, please complete required information below:

Bargaining unit(s) consulted on date(s):

Name of bargaining unit and representative(s) consulted:

The position(s) of the bargaining unit(s):  __ Neutral   __ Support   __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver: Nevada County Board of Education Board Members.

Date the committee/council reviewed the waiver request: May 11, 2011.

Were there any objection(s)? No ✔ Yes ___ (If there were objections please specify)

Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver: Twin Ridges Home Study Charter School Counsel Members.

Date the committee/council reviewed the waiver request: May 31, 2011.

Were there any objection(s)? No ✔ Yes ___ (If there were objections please specify)
6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

51745.6. (a) The ratio of average daily attendance for independent study pupils 18 years of age or less to school district full-time equivalent certificated employees responsible for independent study, calculated as specified by the State Department of Education, shall not exceed the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the school district. The ratio of average daily attendance for independent study pupils 18 years of age or less to county office of education full-time equivalent certificated employees responsible for independent study, to be calculated in a manner prescribed by the State Department of Education, shall not exceed the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the high school or unified school district with the largest average daily attendance of pupils in that county. The computation of those ratios shall be performed annually by the reporting agency at the time of, and in connection with, the second principal apportionment report to the Superintendent of Public Instruction.

(b) Only those units of average daily attendance for independent study that reflect a pupil-teacher ratio that does not exceed the ratio described in subdivision (a) shall be eligible for apportionment pursuant to Section 42238.5, for school districts, and Section 2558, for county offices of education. Nothing in this section shall prevent a school district or county office of education from serving additional units of average daily attendance greater than the ratio described in subdivision (a), except that those additional units shall not be funded pursuant to Section 42238.5 or Section 2558.

(c) The calculations performed for purposes of this section shall not include either of the following:

1. The average daily attendance generated by special education pupils enrolled in special day classes on a full-time basis, or the teachers of those classes.

2. The average daily attendance or teachers in necessary small schools that are eligible to receive funding pursuant to Article 4 (commencing with Section 42280) of Chapter 7 of Part 24.

(d) The pupil-teacher ratio described in subdivision (a) in a unified school district participating in the class size reduction program pursuant to Chapter 6.10 (commencing with Section 52120) may, at the school district's option, be calculated separately for kindergarten and grades 1 to 6, inclusive, and for grades 7 to 12, inclusive.

(e) The pupils-to-certificated-employee ratio described in subdivision (a) may, in a charter school, be calculated by using a fixed pupils-to-certificated-employee ratio of 25 to one, or by being a ratio of less than 25 pupils per certificated employee. All charter school pupils, regardless of age, shall be included in pupil-to-certificated-employee ratio calculations.
7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Although the Charter is currently adhering to the 25:1 required student to teacher ratio, we are requesting permission to claim average daily attendance at levels up to 27 ADA per FTE teacher. With the current 7.2 FTE, the change would allow the Charter to accept an additional 14 students, thus creating a higher revenue source of approximately $70,000.

8. Demographic Information:

(District/school/program) Twin Ridges Home Study Charter School has a student population of 146 and is located in Nevada City (urban, rural, or small city etc.) in Nevada County.

Deputy (type or print): Deputy Signature: Date:
5 CCR Section 11704. In a charter school, for the purposes of Education Code section 51745.6, the ratio of average daily attendance for independent study pupils to full-time equivalent (FTE) certificated employees responsible for independent study shall not exceed a pupil-teacher ratio of 25:1 or the ratio of pupils to full-time equivalent certificated employees for all other educational programs operated by the largest unified school district, as measured by average daily attendance, as reported at the second principal apportionment in the prior year, in the county or counties in which the charter school operates. Units of average daily attendance for independent study that are ineligible for apportionment as provided in subdivision (b) of Education Code section 51745.6 shall also be ineligible for funding pursuant to Chapter 6 (commencing with section 47630) of Part 26.8 of the Education Code. For purposes of this section, a "full-time certificated employee" means an employee who is required to work a minimum six-hour day and 175 days per fiscal year. Part-time positions shall generate a partial FTE on a proportional basis.

5 CCR Section 11963.4 (a) (3) If the percentage calculated pursuant to paragraph (1) of subdivision (c) of section 11963.3 equals or exceeds 40 percent, the percentage calculated pursuant to paragraph (2) of subdivision (c) of section 11963.3 equals or exceeds 80 percent, and the ratio of average daily attendance for independent study pupils to full-time certificated employees responsible for independent study does not exceed a pupil-teacher ratio of 25:1 or the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the largest unified school district, as measured by average daily attendance, in the county or counties in which the charter school operates, the Advisory Commission on Charter Schools shall recommend to the State Board of Education approval of the request at 100 percent (i.e. full funding), unless there is a reasonable basis to recommend otherwise. If the recommended percentage is lower than the requested percentage, the recommendation to the State Board shall include the reasons justifying the reduction and, if appropriate, describe how any deficiencies or problems may be addressed by the charter school.
California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM W-3
### CALIFORNIA STATE BOARD OF EDUCATION
### SEPTEMBER 2011 AGENDA

**Specific Waiver**

**SUBJECT**
Request by three districts, under the authority of California *Education Code* Section 41382, to waive portions of *Education Code* sections 41376 (a), (c), and (d) relating to class size penalties for grades one through three. For grades one through three, the overall class size average is 30 to one with no class larger than 32.

Waiver Numbers: 24-6-2011, 28-6-2011, and 25-5-2011

**RECOMMENDATION**

- Approval
- Approval with conditions
- Denial

The California Department of Education (CDE), recommends approval with the conditions based on the finding below, that the class size penalty in grades one through three will be waived provided that the overall average and maximum class size is not greater than the recommended new figures as shown on Attachment 1. These waivers are good for either two years less one day or one year.

**Finding:** Given the extremely challenging fiscal environment presently facing all California schools and the specific financial circumstances described by the district in its waiver application, the State Board of Education (SBE) finds that the district's continued ability to maintain the delivery of instruction and required program offerings in all core subjects, including reading and mathematics, will be seriously compromised by the financial penalties the district would otherwise incur without the requested waiver. In these circumstances, the SBE finds specifically that the class size penalty provisions of *Education Code (EC)* Section 41376 will, if not waived, prevent the district from developing more effective educational programs to improve instruction in reading and mathematics in the classes specified in the district's application.

**SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION**

Since September 2009, the SBE has approved all grades one through three class size penalty waiver requests as proposed by CDE. Before the September 2009 board meeting, no waivers had been approved since 1999.

**SUMMARY OF KEY ISSUES**

*Education Code* Section 41382 allows the SBE to approve an exemption to the class size penalties assessed for grades one through three if the associated statutory class size requirements prevent the school and school district from developing more
SUMMARY OF KEY ISSUES (Cont.)

Effective educational programs to improve instruction in reading and mathematics. Under this authority, these districts are requesting a waiver of subdivision (a), (c), and (d) of EC Section 41376, which provides for a penalty if the average class size on a district-wide basis for grades one through three exceeds 30 students, or individual class levels exceed 32. Since this particular statute regarding class size limits was written in 1964, given the current fiscal environment in school districts statewide, consideration of this and similar waivers is warranted.

The districts listed on Attachment 1 request flexibility to temporarily increase class sizes in grades one through three to reduce expenditures in light of the statewide budget crisis and the associated reductions in revenue limit funds provided by the state. Since fiscal year 2008-09, most districts have experienced at least a 10 percent reduction in revenue limit funding in addition to the elimination of statutory cost of living adjustments. Furthermore, payments for over one-quarter of what they are due have been deferred until the next year.

A positive certification is assigned to a school district that will meet its financial obligations in the current and two subsequent fiscal years. A qualified certification is assigned when the district may not meet its financial obligations for the current or two subsequent fiscal years. A negative certification is assigned when a district will be unable to meet its financial obligations for the remainder of the current year or for the subsequent fiscal year. Each district’s most recent status is identified on Attachment 1.

To address funding reductions, districts are using various options in addition to increasing class size, including categorical program spending flexibility, reducing the number of days in the school year, employee furloughs, salary reductions, layoffs, or school closures.

Each district states that without the waiver, the core reading and math programs will be compromised by the fiscal penalties incurred. The estimated annual penalty should the district increase the class size average without a waiver is provided on Attachment 1.

The Department recommends, based on the finding above, that the class size penalty in grades one through three be waived provided the overall average and the maximum class size is not greater than the CDE recommended level shown on Attachment 1. Should any district exceed this new limit, the class size penalty would be applied per statute.

**Demographic Information:** See each individual waiver

**Authority for Waiver:** EC Section 41382

4. Authority for the waiver: \_EC 41382\_  Specific code section: EC 41376(a),(c), & (d)

Write the EC Section citation, which allows you to request, or authorizes the waiver of the specific EC Section you want to waive.

41382. The principal of any elementary school maintaining kindergarten classes or regular day classes in grades 1 to 3, inclusive, may recommend to the governing board of the school district, or the governing board may adopt a resolution determining, that an exemption should be granted from any of the provisions of Section 41376, 41378, or 41379 with respect to such classes on the basis that such provisions prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes. Upon approval of such recommendation, or the adoption of such resolution, the governing board shall make application to the State Board of Education on behalf of the school for an exemption for such classes from the specified provisions. The State Board of Education shall grant the application if it finds that the specified provisions of Section 41376, 41378, or 41379 prevent the school from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes and shall, upon granting the application, exempt the school district from the penalty provision of such sections.

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key if only portions of sections are to be waived). (Attach additional pages if necessary.)

41376. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district:

(a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class.

For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.

(b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner:

(1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board.
(2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year.

(3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above.

(c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.

(d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.

(e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

(f) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall add to the product determined under subdivision (c) of this section, the product determined under subdivision (e) of this section and decrease the average daily attendance reported under the provisions of Section 41601 by this total amount.

The governing board of each school district maintaining elementary schools shall report for the fiscal year 1964-65 and each year thereafter the information required for the determination to be made by the Superintendent of Public Instruction under the provisions of this section in accordance with instructions provided on forms furnished and prescribed by the Superintendent of Public Instruction. Such information shall be reported by the school district together with, and at the same time as, the reports required to be filed for the second principal apportionment of the State School Fund. The forms on which the data and information is reported shall include a certification by each school district superintendent or chief administrative officer that the data is correct and accurate for the period covered, according to his best information and belief.

For purposes of this section, a "full-time equivalent classroom teacher" means an employee of an elementary, high school, or unified school district, employed in a position requiring certification qualifications and whose duties require him to teach pupils in the elementary schools of that district in regular day classes for the full time for which he is employed during the regular school day. In reporting the total number of full-time equivalent classroom teachers, there shall be included, in addition to those employees defined above, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are
required to devote to teaching pupils in the elementary schools of the district in regular day classes during the regular school day.

For purposes of this section, the number of pupils enrolled in each class means the average of the active enrollment in that class on the last teaching day of each school month which ends prior to April 15th of each school year.

The provisions of this section are not applicable to school districts with less than 101 units of average daily attendance for the current fiscal year.

Although no decreases in average daily attendance shall be made for the fiscal year 1964-65, reports are required to be filed under the provisions of this section, and the Superintendent of Public Instruction shall notify each school district the amount of the decrease in state allowances which would have been effected had such decrease in average daily attendance been applied.

The Superintendent of Public Instruction shall adopt rules and regulations which he may deem necessary for the effective administration of this section. Such rules and regulations may specify that no decrease in average daily attendance reported under the provisions of Section 41601 shall be made for a school district on account of large classes due to instructional television or team teaching, which may necessarily involve class sizes at periods during the day larger than the standard set forth in this section.
7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

Saddleback Valley Unified School District (SVUSD) is seeking to temporarily increase the maximum class size in third grade combination classes (specifically 3/4 combination classes) in order to reduce expenditures. More specifically, this waiver is being requested as a result of one of the classes in our District (a 3/4 combination class) inadvertently having 33 students. While this class of 33 did not violate the class size provisions of our Saddleback Valley Educator’s Association (bargaining union) contract, it exceeded the State maximum for grades 1-3 by one student.

The District believes this waiver is necessary to facilitate local agency operations due to fiscal challenges faced by school districts across the state. SVUSD has faced enormous fiscal challenges since 2007. SVUSD has made $58 million in expenditures and program cuts during the last three years. For 2010-2011, the District cut $32.1 million in programs, class size, and employee compensation. In addition, the District has declined in enrollment 1,200 students from 2007-2010.

Increasing the class size from a maximum of 32 to a maximum of 33 in 3/4 combination classes for the 2010-2011 school year still would maintain the 1-3 grade class size average below the State required average of 30 students, and would save the District $460,619 money in penalty for the one class over the maximum class size by one student. To avoid this penalty for exceeding the state requirements, SVUSD would require a waiver of Education Code Section 41376 (a), (c) & (d).

SVUSD has a long history of academic excellence. The District has 13 National Blue Ribbon Schools and 30 State Distinguished Schools. The academic program in place will assist the District in continued achievement and successes as evidenced in the District API score of 859. In addition, 97% of our traditional schools have an API over 800. The District’s API scores have shown a steady increase for the past eight years as the District continually updates the curriculum, refines teaching strategies, provides professional development and strengthens intervention programs.

In summary, we believe that the District’s continued ability to maintain the delivery of instruction and required program offerings in all core subjects, including reading and mathematics, will be comprised by the current penalty the District will incur without the requested waiver. The loss of revenue resulting from the penalty, in the event the waiver is not granted, will require the District to reduce our already meager instructional budget, likely resulting in fewer elementary literacy coaches being retained for 2011-2012.

LEGAL CRITERIA

1. Authority for the waiver: _Education Code__ Specific code section: _41382__
   Write the EC Section citation, which allows you to request, or authorizes the waiver of the specific EC Section you want to waive.

   **41382.** The principal of any elementary school maintaining kindergarten classes or regular day classes in grades 1 to 3, inclusive, may recommend to the governing board of the school district, or the governing board may adopt a resolution determining, that an exemption should be granted from any of the provisions of Section 41376, 41378, or 41379 with respect to such classes on the basis that such provisions prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes. Upon approval of such recommendation, or the adoption of such resolution, the governing board shall make application to the State Board of Education on behalf of the school for an exemption for such classes from the specified provisions. The State Board of Education shall grant the application if it finds that the specified provisions of Section 41376, 41378, or 41379 prevent the school from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes and shall, upon granting the application, exempt the school district from the penalty provision of such sections.

2. **Education Code or California Code of Regulations or portion to be waived.**
   Section to be waived: (number)  41376  Circle One: **EC or CCR**
   Brief Description of the topic of the waiver: Exceeding 32 students in two Grade 3 classes.
3. If this is a renewal of a previously approved waiver, please list Waiver No: ______ and date of SBE approval _______. Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.

4. Collective bargaining unit information. (Not necessary for EC 56101 waivers)
   Does the district have any employee bargaining units? __ No _X_ Yes If yes, please complete required information below:
   Bargaining unit(s) consulted on date(s): May 31, 2011
   Name of bargaining units and representative(s) consulted:
   - Sylvan Educators Association—Chris Aguilar, President
   The position(s) of the bargaining unit(s): ___ Neutral _X__ Support ___ Oppose (Please specify why)
   Name of bargaining units and representative(s) consulted:
   - Classified School Employees Association #73—Isla Wiechmann, President
   The position(s) of the bargaining unit(s): ___ Neutral _X__ Support ___ Oppose (Please specify why)

5. Advisory committee or school site council that reviewed the waiver. Mary Ann Sanders Elementary School Site Council
   Per EC 33051(a) if the waiver affects a program that requires a school site council that council must approve the request.
   Date advisory committee/council reviewed request: June 9, 2011
   _X_ Approve ___ Neutral ___ Oppose
   Were there any objections? Yes ___ No _X_ (If there were objections please specify)

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key if only portions of sections are to be waived). (Attach additional pages if necessary.)

   41376. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class.
   For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.
7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

This waiver seeks to waive the financial penalty for exceeding 32 students in two Grade 3 classrooms. The classes in question were at one school and over 32 students were assigned to the classes to avoid disruption to families and with the belief that students would have moved prior to school beginning or early in the school year and would lower the actual class size below 32. With the mobility rate in the district this movement would have been expected; in these two classes, the movement out of the school did not take place. The district average did not exceed 32 and a plan is being implemented to overflow students from a school if a class size is to exceed 32 to avoid this situation in the future. If imposed, this financial penalty will compromise the district’s continued ability to maintain the delivery of instruction and required program offerings in all core subjects, including reading and mathematics. If not waived, the financial penalties will prevent our district from developing more effective educational programs to improve instruction in reading and mathematics in these classes.

8. Demographic Information:
   District has a student population of __8137__ and is located in a suburban area in Stanislaus County.

Sorensen Elementary – March 24, 2011
West Whittier Elementary – March 31, 2011

Per EC 33051(a) if the waiver affects a program that requires a school site council that council must approve the request.

Date Advisory committee/council reviewed request.

 ___ Approve ___ Neutral ___ Oppose

Were there any objection? Yes No (If there were objections please specify)

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key if only portions of sections are to be waived). (Attach additional pages if necessary.)

EC 41376 (a)(c) and (d) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of thirty two and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30. (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.
7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

Due to the current situation with the State budget, our District needs to conserve our resources by cutting back on personnel expenses. The District implemented a salary rollback for all employees in 2009-10 and 2010-11 which continues through 2011-12. There will likely be another rollback for salary and this waiver will be needed to balance the District’s budget. Whittier City School District has already made significant budget reductions since 2005-06 and is projecting additional reductions in the out-years. From 2005-06 to 2008-09, the District implemented over $1.6 million in reductions and in 2009-10, made over $300,000 in reductions. Based on budget assumptions, the District expects to implement over $1.1 million in reductions in 2011-12.

8. Demographic Information:

Whittier City School District has a student population of 6,464 and is located in an urban, rural, or small city etc.) in Los Angeles County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No Yes

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No Yes

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

SPECIFIC WAIVER REQUEST
ADDITIONAL INFORMATION

#1 Attachment – Authority for Waiver

41382. The principal of any elementary school maintaining kindergarten classes or regular day classes in grades 1 to 3, inclusive, may recommend to the governing board of the school district, or the governing board may adopt a resolution determining, that an exemption should be granted from any of the provisions of Section 41376, 41378, or 41379 with respect to such classes on the basis that such provisions prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes. Upon approval of such recommendation, or the adoption of such resolution, the governing board shall make application to the State Board of Education on behalf of the school for an exemption for such classes from the specified provisions. The State Board of Education shall grant the application if it finds that the specified provisions of Section 41376, 41378, or 41379 prevent the school from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes and shall, upon granting the application, exempt the school district from the penalty provision of such sections.
Whittier City School District had to request a waver for the Class Size Penalty for the 2009 - 2011 school year as a result of violating the maximum ratios in grades 1-3. The penalty was $180,000 and the District was qualified at the time of the First and Second Interim Reports that year. The dire financial situation required drastic action including cutting District Cabinet positions, classified and certificated jobs. The Waver allowed the District to stay in their home schools rather than transferring to another school because we had to balance the classes to prevent receiving a penalty by going over the limit.

In 2010 – 2011 we did not have any classes that were above the State Class Size Penalty. There were many that were at the maximum number of students for a teacher without going over and having to use the State waver. We think that in 2011 – 2012 school year we will need the waver to maintain all of our funding. By receiving all of our funding we will b able to continue to implement our high quality instructional program in math and language arts by using tutors, aides and current textbooks in the classroom. The larger class size has not impacted our academic performance and our schools continue to improve.
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

☐ General Waiver

SUBJECT
Request by five districts to waive portions of California Education Code Section 41376 (b) and (e), relating to class size penalties for grades four through eight. A district’s current class size maximum is the greater of the 1964 statewide average of 29.9 to 1 or the district’s 1964 average.

Waiver Numbers: 2-6-2011, 46-6-2011, 45-6-2011, 31-6-2011, and 47-6-2011

Action

☐ Consent

RECOMMENDATION

☐ Approval ☒ Approval with conditions ☐ Denial

The California Department of Education recommends approval with the following conditions: 1) the class size average is not greater than the recommended new maximum average shown on Attachment 1 for each district; 2) these waivers do not exceed two years less one day, therefore, Education Code (EC) Section 33051(b) will not apply, and the districts must reapply to continue the waiver.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Since September 2009, the State Board of Education (SBE) has approved all grades four through eight class size penalty waiver requests. Before the September 2009 board meeting, no waivers had been submitted since 1999.

SUMMARY OF KEY ISSUES

The various districts listed on Attachment 1 request a waiver of subdivisions (b) and (e) of EC Section 41376, which relates to class size penalties for grades four through eight that reduce a district’s revenue limit funding. A class size penalty is assessed for grades four through eight if a district exceeds the greater of the district’s class size average in 1964 or the statewide average set in 1964. Statewide, 292 districts out of 883, or 33 percent, of districts in California can have a class size average greater than 29.9.

The districts listed on Attachment 1 request to temporarily increase class sizes in grades four through eight to reduce expenditures in light of the statewide budget crisis and reductions in revenue limit funding. Since fiscal year 2008-09 most districts have experienced at least a 10 percent reduction in revenue limit funding in addition to the elimination of statutory cost of living adjustments. Furthermore, payments for over
one-quarter of what they are due have been deferred until the next year.

A positive certification is assigned to a school district that will meet its financial obligations in the current and two subsequent fiscal years. A qualified certification is assigned when the district may not meet its financial obligations for the current or two subsequent fiscal years. A negative certification is assigned when a district will be unable to meet its financial obligations for the remainder of the current year or for the subsequent fiscal year. Each district’s most recent status is identified on Attachment 1.

To address funding reductions, districts are using various options in addition to increasing class size, including categorical program spending flexibility, reducing the number of days in the school year, employee furloughs, salary reductions, layoffs, or school closures.

The Department recommends the class size penalty in grades four through eight be waived for each district provided the class size average is not greater than the recommended new maximum shown on Attachment 1. Should the district exceed this limit, the class size penalty would be calculated as required by statute. The estimated annual penalty should the district increase the class size average without a waiver is provided on Attachment 1.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). “The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.”

Demographic Information: See each individual waiver

Authority for Waiver: EC Section 33050

Prepared by the California Department of Education
Revised on August 22, 2011
CALIFORNIA DEPARTMENT OF EDUCATION

GENERAL WAIVER REQUEST

GW-1 (Rev. 10-2-09) http://www.cde.ca.gov/re/lr/wr/  

First Time Waiver: X  
Renewal Waiver: ___

Send Original plus one copy to: Waiver Office, California Department of Education  
1430 N Street, Suite 5602  
Sacramento, CA 95814

Send Electronic copy in Word and back-up material to: waiver@cde.ca.gov

Local educational agency: Banning Unified School District

Contact name and Title: Gordon Fisher, Assistant Superintendent

Contact person’s e-mail address: gfisher@banning.k12.ca.us

Address: 161 West Williams Street  
Banning  
CA  
92220

Phone (and extension, if necessary): (951) 922-0207
Fax Number: (951) 922-0298

Period of request: From: July 1, 2011  
To: June 30, 2012

Local board approval date: 5/19/11
Date of public hearing: 5/19/11

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number):  EC 41376 (b) and (e) Circle One: EC or CCR

Topic of the waiver: Class Size Penalty Grades 4-8.

2. If this is a renewal of a previously approved waiver, please list Waiver Number:  
and date of SBE Approval:  

Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No X Yes  
If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): 5/11/11

Name of bargaining unit and representative(s) consulted: Banning Teachers Association, Yvonne Lanthripp, President

The position(s) of the bargaining unit(s): Neutral X Support Oppose (Please specify why)

Comments (if appropriate): BTA opposes increasing the class size because small class sizes are a critical factor in student achievement.

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?  
X Notice in a newspaper X Notice posted at each school ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:  
DELAC – District English Language Acquisition Committee  
Date the committee/council reviewed the waiver request: 6/15/2011

Were there any objection(s)? No ___ Yes ___ (If there were objections please specify)
6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a *strike out key*).

See the attached EC 41367 with strike-outs through sections (b) and (e).

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The District requests a waiver to increase the district-wide average number of pupils per each FTE (Full Time Equivalent) from the current 29.9 per FTE to thirty-six (36) thirty four (34) (per GF @ district) per FTE in grades 4-8, inclusive. The reason for this waiver is the budget restraints the District is facing due to the state budget crisis. The District has maintained class sizes at less than 30 per FTE during the downturn of the economy. However, with the new budget forecasts, there is a likelihood that the number of FTE’s will have to be reduced, which will force a greater number of students per FTE.

8. Demographic Information:  
   (District/school/program)___ has a student population of 4,433 and is located in a ___small city (urban, rural, or small city etc.)__ in Riverside County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344)  
No X Yes □
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No X Yes □
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

Unit Manager (type or print): __________ Unit Manager Signature: __________ Date: __________

Division Director (type or print): __________ Division Director Signature: __________ Date: __________

Deputy (type or print): __________ Deputy Signature: __________ Date: __________
6. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district:

(a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.

(b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner:

   (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board.

   (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year.

   (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above.

(c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.

(d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.
6. Continued

(e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

(f) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall add to the product determined under subdivision (c) of this section, the product determined under subdivision (e) of this section and decrease the average daily attendance reported under the provisions of Section 41601 by this total amount.

The governing board of each school district maintaining elementary schools shall report for the fiscal year 1964-65 and each year thereafter the information required for the determination to be made by the Superintendent of Public Instruction under the provisions of this section in accordance with instructions provided on forms furnished and prescribed by the Superintendent of Public Instruction. Such information shall be reported by the school district together with, and at the same time as, the reports required to be filed for the second principal apportionment of the State School Fund. The forms on which the data and information is reported shall include a certification by each school district superintendent or chief administrative officer that the data is correct and accurate for the period covered, according to his best information and belief.

For purposes of this section, a "full-time equivalent classroom teacher" means an employee of an elementary, high school, or unified school district, employed in a position requiring certification qualifications and whose duties require him to teach pupils in the elementary schools of that district in regular day classes for the full time for which he is employed during the regular schoolday. In reporting the total number of full-time equivalent classroom teachers, there shall be included, in addition to those employees defined above, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are required to devote to teaching pupils in the elementary schools of the district in regular day classes during the regular schoolday.
For purposes of this section, the number of pupils enrolled in each class means the average of the active enrollment in that class on the last teaching day of each school month which ends prior to April 15th of each school year.

The provisions of this section are not applicable to school districts with less than 101 units of average daily attendance for the current fiscal year.

Although no decreases in average daily attendance shall be made for the fiscal year 1964-65, reports are required to be filed under the provisions of this section, and the Superintendent of Public Instruction shall notify each school district the amount of the decrease in state allowances which would have been effected had such decrease in average daily attendance been applied.

The Superintendent of Public Instruction shall adopt rules and regulations which he may deem necessary for the effective administration of this section. Such rules and regulations may specify that no decrease in average daily attendance reported under the provisions of Section 41601 shall be made for a school district on account of large classes due to instructional television or team teaching, which may necessarily involve class sizes at periods during the day larger than the standard set forth in this section.

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Parent-Teacher Councils at all elementaries (Dudley, North Country, Oak Hill, Spinelli) in the district.

Date the committee/council reviewed the waiver request: April 11, April 12, April 14 (2011)

Were there any objection(s)?  
No _X_ Yes ___ (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

   Education Code 41376 (b) and (e) (Text attached)

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

   The Center Joint Unified School District has presented a "qualified" budget to Sacramento County, the result of declining enrollment and decreased state revenues. The best-case scenario for CJUSD for school year 2011-2012 shows a budget shortfall of $2.9 million. Even after concessions from both certificated and classified employee groups (in the form of furlough days) and the reduction of the school year by 5 days, the District will suffer financial hardship unless this waiver is granted. The District intends to continue to provide high-quality instruction in the core areas to students at all grade levels, but the financial penalty incurred if a waiver is not granted may preclude the District from doing so. The District's Collective Bargaining Agreement article on Class Size, which has been waived by the union, limits class size in Grades 4-5 to 32 and Grades 6--8 to 34.

8. Demographic Information:
   Center Joint Unified School District has a student population of **4793** and is located in an urban area in Sacramento County.

41376(b) and (e) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30. (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section. (e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation: He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

### LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): 41376 (b) (e)  
   Circle One: EC or CCR

2. If this is a renewal of a previously approved waiver, please list Waiver Number:   and date of SBE Approval   
   Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? No X Yes  
   If yes, please complete required information below:

   **Union #1 – Teachers Union**
   
   Bargaining unit(s) consulted on date(s): June 2, 2011  
   Name of bargaining unit and representative(s) consulted: Inglewood Teachers’ Association (ITA)  
   President: Peter Somberg

   The position(s) of the bargaining unit(s): Neutral X Support Oppose (Please specify why)

   The ITA President made the following statement, “ITA opposes the waiver of class size maximums in grades 4-8. We too have concerns about increased class sizes having a detrimental effect on student achievement. We further see limitations in the ability to practice differentiated instruction when classes reach these proposed numbers.”

   As per the existing Collective Bargaining Agreement with Inglewood Teacher Association, the class size maximum is as follows:  
   - K-3: 32
   - 4-6: 33
   - 7-12: 34

   **Union #2 – Classified Employees Union**
   
   Bargaining unit(s) consulted on date(s): June 3, 2011

   Name of bargaining unit and representative(s) consulted: Painters and Allied Trades District on behalf of Cal Pro

   Business Representative: Chris Graeber

   The position(s) of the bargaining unit(s): Neutral Support Oppose (Please specify why)

4. Public hearing requirement:  
   How was the required public hearing advertised?

   X Notice in a newspaper X Notice posted at each school X Other:

   A notice was posted at all district locations as well as on the district website.  
   A Connect-ED message which sends a telephonic recorded message to every household in the District and to every employee was also used as a means to inform all stakeholders of the public hearing.
5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

A District advisory committee comprised of school site council members, as well as other stakeholders, was held to provide an opportunity for the review of the waiver request and to seek input.

Date the committee/council reviewed the waiver request: June 2, 2011

Were there any objection(s)? No ___ Yes _X__ (If there were objections please specify)

Parents expressed concerns in regards to possible lower student achievement as a result of the proposed increased class size. Parents were not confident in the ability to meet the diverse learning needs of the students with more students in each classroom. There was an additional recommendation made by a parent to establish a new grading

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

41376(b) and (e) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30. (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determining the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section. (e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation: He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Inglewood Unified School District is facing severe budget challenges as it continues to serve its students with significantly reduced revenue. The fiscal experts and the FCMAT team assigned to the District forecast a deficit of over $32 million for the 2011-12 school year. The District has exhausted all reduction options available including reductions in the workforce, waivers on State funding deferrals, implementation of a furlough program, and reductions in ongoing expenditures in all areas to reduce this deficit.

Over 85% of the District’s budget is comprised of salary and benefits. If the waiver on the class size penalty is approved, the District will be able to reduce staffing expenditures which will move the District toward its goal of fiscal solvency while maintaining its instructional programs.

Inglewood Unified has exhausted all reduction options available and increasing class size is one of the remaining options it has to reduce expenditures and retain its programs. The proposed increase in class size will result in a savings of approximately $10,824,440.00 in salaries and benefits.

If the waiver is not approved, a significant penalty based on California Education Code section 41378 in an approximate amount of $5.2 million will be imposed.
8. Demographic Information:
Inglewood Unified School District has a student population of 12,410 and is located in an urban city in Los Angeles County.

Period of request: (month/day/year)  7/1/11                       6/29/13
From:   8/23/11             To:  6/3/13

Local board approval date: (Required)  June 14, 2011

Date of public hearing: (Required)  June 14, 2011

ECC 7/19/11

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number):     41376(b) & (e)               Circle One: EC or CCR

2. If this is a renewal of a previously approved waiver, please list Waiver Number:  N/A   and date of SBE Approval______

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No    X Yes   If yes, please complete required information below:
   Classified School Employees Association; Panama-Buena Vista Teachers Association
   Bargaining unit(s) consulted on date(s):   CSEA- 2/23/11; PBVTA- 2/10/11; Teamsters Local 87- 3/29/11         kak 6/23/11
   Chapter President:                       Representative:        Trustee
   Vicki Billington-CSEA; Chris Coyle-PBVTA; Lillian Abarquez-Teamsters Local 87
   The position(s) of the bargaining unit(s):       X     Neutral   __  Support  __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

___X_ Notice in a newspaper   ___ Notice posted at each school   ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
   District English Learner Advisory Committee
   Date the committee/council reviewed the waiver request: March 17, 2011

Were there any objection(s)? No _X__   Yes ___ (If there were objections please specify)
6. **Education Code** or **California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**). Please see attached.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages. Please see attached.

8. Demographic Information: Panama-Buena Vista Union School District has a student population of 16,966 and is located in an urban area in Kern County.

41376(b) and (e) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30. (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section. (e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation: He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.
The district requests a waiver of subdivisions (b) and (e) of EC Section 41376, which if not granted will result in a class size penalty for grades four through eight, reducing the district’s 2011-12 and 2012-13 revenue limit funding if the district’s average class size exceeds 29.9. This particular statute regarding class size limits was written in 1964, and given the current fiscal environment in school districts statewide, consideration of waivers is warranted. A class size penalty is assessed for grades four through eight if a district exceeds the greater of the district’s class size average in 1964 or the statewide average set in 1964. In 1964, Panama-Buena Vista Union School District’s class size average was 28.2 pupils.

In an effort to resolve deficit spending of more than $31 million over the next two years, Panama-Buena Vista USD is seeking to temporarily increase class sizes in grades four through eight to reduce expenditures. For the 2009-10 second reporting period, the district qualified its financials. Based upon current projections, Panama-Buena Vista USD will not meet its financial obligations for fiscal years 2012-13 and ongoing.

If the district implements the class size increase at the requested level without a waiver, the penalty for 2011-12 and 2012-13 is estimated at approximately $3 million ($1.5 million each year), based on the 2009-10 Second Principal Apportionment data.

ECC 7/20/11 LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): 41376 (b) and (e) Circle One: [EC] or [CCR]

Topic of the waiver: Class Size Standards, Grades 4 – 8.

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval ____
Renewals of waivers must be submitted two months before the active waiver expires. N/A

3. Collective bargaining unit information. Does the district have any employee bargaining units? [ ] No [X] Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): 02.11.10

Name of bargaining unit and representative(s) consulted: Solvang Federation of Teachers, Anna Petronakis, Co-President: Allison Acosta, Secretary.

The position(s) of the bargaining unit(s): [X] Neutral [ ] Support [ ] Oppose (Please specify why)

Comments (if appropriate): Philosophically not in favor of increased class size, current budget constraints force agreement.

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?
[ ] Notice in a newspaper [X] Notice posted at each school [X] Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
Solvang School District School Site Council reviewed this waiver.

Date(s) the committee/council(s) reviewed the waiver request. 11/17/2010 and on 01/19/2011

Were there any objection(s)? No [X] Yes ___ (If there were objections please specify)
The School Site Council was initially only willing to approve the waiver for one year and had requested to revisit the situation the following year. Philosophically, the group does not believe larger class sizes are the best learning environment; however they were well informed of the budget constraints the school is operating under. On 01/19/2011 the Site Council revisited the term of the waiver and approved a (3) year request. There is a concern that there may be an increased need for remedial services and that test scores could be impacted. The district has provided temporary Intensive Remediation Specialists to help support educational needs in a wider scope. In summary, though the site council understands the reason for the waiver request, all are sensitive to the fact that class size increases at any level create additional challenges to student learning and success.
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

**Ed Code 41376 (b):** For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner:

1. Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board.

2. Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year.

3. Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above.

4. If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

   - He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the change in average daily attendance.

   - He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

**Education Code** states that class size averages in grades 4-8 cannot exceed either 29.9 or the class size average of the district in 1964. In the Solvang Elementary School District, the average class size is currently 25.4 based on an average between grades 4th – 8th; however individual class sizes have reached 34:1 and not in grade levels that will allow a combination class. With current state and federal budgetary constraints, the district is facing huge deficits. Though we have implemented numerous reductions to offset these deficits, we have had to reduce personnel costs to remain solvent. As a district with a single K-8 school site the district must adhere to credential specific personnel criteria in grades 7th – 8th.

Education Code restrictions on class size in grades K-8 limit our options to raising class size averages to an estimated 35:1 in grades 4-8. We are requesting a waiver of Education Code 41376(b) penalties to allow for an average class size in grades 4-8 from our current limit of 29.9:1 to 35:1. This waiver will allow us to distribute necessary reductions over a greater number of grade levels, thus allowing focus on meeting grade level standards. Absent this waiver, the school faces elimination of vital programs focused on addressing specific remedial intervention. We feel it is in the best interest of all district students to have greater flexibility in grades 4-8 as we work to remain fiscally solvent while providing a quality educational program for our students.

8. Demographic Information:
Solvang Elementary School District has a student population of 589 and is located in the city of Solvang, Santa Barbara Cnty.

**Is this waiver associated with an apportionment related audit penalty?** (per EC 41344) **No ☒ Yes ☐**

(If yes, please attach explanation or copy of audit finding)

**Has there been a Categorical Program Monitoring (CPM) finding on this issue?** **No ☒ Yes ☐**

ITEM W-5
Specific Waiver

SUBJECT
Request by seven districts, under the authority of California Education Code Section 41382, to waive portions of Education Code sections 41376 (a), (c), and (d) and 41378 (a) through (e), relating to class size penalties for kindergarten through grade three. For kindergarten, the overall class size average is 31 to 1 with no class larger than 33. For grades one through three, the overall class size average is 30 to 1 with no class larger than 32.

Waiver Numbers: 1-6-2011, 22-6-2011, 43-6-2011, 28-5-2011, 37-6-2011, 11-6-2011, and 30-6-2011

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education (CDE), recommends approval with conditions based on the finding below, that the class size penalties for kindergarten through grade three will be waived provided that the overall average and individual class size average is not greater than the CDE recommended class size on Attachment 1. The waivers do not exceed two years less one day.

Finding: Given the extremely challenging fiscal environment for California schools and the specific financial circumstances described by the district in its waiver application, the State Board of Education (SBE) finds that the district's continued ability to maintain the delivery of instruction and required program offerings in all core subjects, including reading and mathematics, will be seriously compromised by the financial penalties the district would otherwise incur without approval of the requested waiver. In these circumstances, the SBE finds specifically that the class size penalty provisions of Education Code (EC) sections 41376 and 41378 will, if not waived, prevent the district from developing more effective educational programs to improve instruction in reading and mathematics in the classes specified in the district's application.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Since September 2009, the SBE has approved all kindergarten through grade three class size penalty waiver requests as proposed by CDE. Before the September 2009 board meeting, no waivers had been submitted since 1999.
SUMMARY OF KEY ISSUES

*Education Code* Section 41382 allows the SBE to approve an exemption to the class size penalties assessed for kindergarten through grade three if the associated statutory class size requirements prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics. Under this authority, these districts are requesting a waiver of subdivisions (a) through (e) of *EC* Section 41378, which provide for a penalty if the average class size on a district-wide basis for kindergarten exceeds 31 students or individual class levels exceed 33, and subdivisions (a), (c), and (d) of *EC* Section 41376, which provide for a penalty if the average class size on a district-wide basis for grades one through three exceeds 30 students, or individual class levels exceed 32. Since this particular statute regarding class size limits was written in 1964, given the current fiscal environment in school districts statewide, consideration of this and similar waivers is warranted.

The districts listed on Attachment 1 request flexibility to temporarily increase class sizes in kindergarten through grade three to reduce expenditures in light of the statewide budget crisis and the associated reductions in revenue limit funds provided by the state. Since fiscal year 2008-09, most districts have experienced at least a 10 percent reduction in revenue limit funding in addition to the elimination of statutory cost of living adjustments. Furthermore, payments for over one-quarter of what they are due have been deferred until the next year.

A positive certification is assigned to a school district that will meet its financial obligations in the current and two subsequent fiscal years. A qualified certification is assigned when the district may not meet its financial obligations for the current or two subsequent fiscal years. A negative certification is assigned when a district will be unable to meet its financial obligations for the remainder of the current year or for the subsequent fiscal year. Each district’s most recent status is identified on Attachment 1.

To address funding reductions, districts are using various options in addition to increasing class size, including categorical program spending flexibility, reducing the number of days in the school year, employee furloughs, salary reductions, layoffs, or school closures.

Each district states that without the waiver, the core reading and math programs will be compromised by the fiscal penalties incurred. The estimated annual penalty should the district increase the class size average without a waiver is provided on Attachment 1.

The Department recommends, based on the finding above, that the class size penalties for kindergarten through grade three be waived provided the overall average and the individual class size average is not greater than the CDE recommended level shown on Attachment 1. Should any district exceed this new limit, the class size penalty would be applied per statute.

SPECIFIC WAIVER REQUEST

First Time Waiver:  X
Renewal Waiver:  

Send Original plus one copy to:
Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send Electronic copy in Word and
back-up material to: waiver@cde.ca.gov

Local educational agency:
Barstow Unified School District

Contact name and Title:
Tony Wardell, Assistant Superintendent Business Services

Address: 551 South Avenue H
City: Barstow
State: CA
Zip: 92311

Phone (and extension, if necessary): 760-255-6009
Fax number: 760-255-8965

Local board approval date: May 24, 2011

LEGAL CRITERIA

1. Authority for the waiver:  X  Specific code section: _EC41382
   Write the EC Section citation, which allows you to request, or authorizes the waiver of the specific EC Section you want to waive.

   EC 41382 Exemption from penalty provision: Application to State Board of Education

   Education Code or California Code of Regulations or portion to be waived.
   Section to be waived: (number)  EC 41376(a), (c) and (d) and 41378 (a) through (e)  Circle One: EC or CCR

   Brief Description of the topic of the waiver: Waiver of class size penalties for grades K-3. Under the provisions of Ed. Code sections 41376 (a), (c) and (d) and 41378 (a) through (e) to avoid class size penalties.

2. If this is a renewal of a previously approved waiver, please list Waiver No:  ______ and date of SBE approval _______. Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.

3. Collective bargaining unit information. (Not necessary for EC 56101 waivers)

   Does the district have any employee bargaining units?  _No  X  Yes  If yes, please complete required information below:

   Bargaining unit(s) consulted on date(s):  May 12, 2011    May 16, 2011

   Name of bargaining units and representative(s) consulted: Barstow Education Association –Candice Michelson, President,  California School Employees Association, Dianne Patty, President

   The position(s) of the bargaining unit(s):  _Neutral  X  Support   ___ Oppose (Please specify why)

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

   How was the required public hearing advertised?
   ___ Notice in a newspaper   X  ___ Notice posted at each school   ___ Other: (Please specify)

4. Advisory committee or school site council that reviewed the waiver. Name: Parent Advisory Committee

   Per EC 33051(a) if the waiver affects a program that requires a school site council that council must approve the request.
   Date advisory committee/council reviewed request:  May 3, 2011

   X  Approve   ___ Neutral   ___ Oppose

   Were there any objection? Yes ___ No  X  (If there were objections please specify)
5. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key if only portions of sections are to be waived). (Attach additional pages if necessary.)

EC 41378. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes. (a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils per each full-time equivalent classroom teacher, which existed in the classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above.

(b) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes. (a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils per each full-time equivalent classroom teacher, which existed in the classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (4) He shall compute the product obtained by multiplying the excess number of pupils, if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (4) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.

6. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

The District is seeking to temporarily increase class size in grade K-3 in order to reduce expenditures. The District faces severe fiscal challenges from a decade of declining enrollment: a lower than average revenue limit and persistent State funding reductions. The District is requesting that Ed Code Section 41376 (A)(C) and (d) and Ed code Section 41378 and the associated penalties be waived in order to increase class size until additional revenues are available. The waiver would end on June 29, 2012 unless otherwise extended.

7. Demographic Information:
   Barstow Unified School District has a student population of 6,373 and is located in a urban area in San Bernardino County.

Specific Waiver Request

Barstow Unified School District

Please submit the following with Barstow Unified School District Specific Waiver Request Section 7:

The penalties would cost the District an estimated $105,097.70 annually. This additional loss of revenue would result in a further decline to our classrooms resulting in reductions that reach to the core academic programs such as reading, mathematics and science. The Barstow Unified School Districts goal is to continue our academic improvements and provide our student with a quality education in the midst of this fiscal crisis. It is our hope that further reductions through penalties will not occur and our waiver will be fully considered by this Board.

Local educational agency: Bear Valley Unified School District

Contact name and Title: Tim Larson

Contact person’s e-mail address: tim_larson@bearvalleyusd.org

Address: 42271 Moonridge Road  Big Bear Lake  CA  92315

Phone (and extension, if necessary): (909) 866-4631

Fax number: (909) 866-2040

Period of request: (month/day/year)

From: 7/1/2010 To: 6/30/2012

Local board approval date: June 16, 2011

LEGAL CRITERIA

1. Authority for the waiver: EC 41382 Specific code section: EC 41376 (a) (c) and (d); EC 41378 (a) (b) (c) (d) (e).

   Write the EC Section citation, which allows you to request, or authorizes the waiver of the specific EC Section you want to waive.

   Ed. Code 41382. The principal of any elementary school maintaining kindergarten classes or regular day classes in grades 1 to 3, inclusive, may recommend to the governing board of the school district, or the governing board may adopt a resolution determining, that an exemption should be granted from any of the provisions of Section 41376, 41378, or 41379 with respect to such classes on the basis that such provisions prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes. Upon approval of such recommendation, or the adoption of such resolution, the governing board shall make application to the State Board of Education on behalf of the school for an exemption for such classes from the specified provisions. The State Board of Education shall grant the application if it finds that the specified provisions of Section 41376, 41378, or 41379 prevent the school from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes and shall, upon granting the application, exempt the school district from the penalty provision of such sections.

2. Education Code or California Code of Regulations or portion to be waived. Circle One: EC or CCR

   Brief Description of the topic of the waiver: To waive class size penalty for Kindergarten, EC 41378

   To waive the class size penalty for grades 1-3, EC 41376

3. If this is a renewal of a previously approved waiver, please list Waiver No: __N/A____ and date of SBE approval ____

   Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.

4. Collective bargaining unit information. (Not necessary for EC 56101 waivers)

   Does the district have any employee bargaining units? __ No _X_ Yes If yes, please complete required information below:

   Bargaining unit(s) consulted on date(s): June 8, 2011

   Name of bargaining units and representative(s) consulted: Bear Valley Education Association - President Scott Hird, Vice President – Debi Burton

   The position(s) of the bargaining unit(s): _XX_ Neutral ___ Support ___ Oppose (Please specify why)

   Comments (if appropriate): Although it is understood this is a necessary fiscal decision, it increases the struggles for teachers and students alike. BVEA anticipates that the district will use this on a limited basis and work with teachers to alleviate this burden when other options are available. There is language in the contract that provides for teacher support when contractual class size limits are exceeded. This request will likely enact that language.
5. Advisory committee or school site council that reviewed the waiver. Name: District Budget Advisory Committee
   Per EC 33051(a) if the waiver affects a program that requires a school site council that council must approve the request.
   Date advisory committee/council reviewed request: June 10, 2011

   ___ Approve  _XX_ Neutral ___ Oppose

   Were there any objections? Yes _XX_ No ___ (If there were objections please specify)

   Though they approved of the waiver for its necessity, the Budget Advisory Committee issued the following statement:
   “We regret having to request such drastic measures to preserve our district’s financial solvency. We believe these
   steps are necessary due to the ongoing budget crisis and political turmoil at the state level.”

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section,
   type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key
   if only portions of sections are to be waived). (Attach additional pages if necessary.)

   EC 41376 (a) (c) and (d); The Superintendent of Public Instruction, in computing apportionments and allowances from the
   State School Fund for the second principal apportionment, shall determine the following for the regular day classes of
   the elementary schools maintained by each school district:

   (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each
   class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of
   pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in
   excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts
   which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the
   excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than
   30.

   (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time
   equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall
   also determine the excess if any, of pupils enrolled in such grades in the following manner:

   (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom
   teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent
   classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for
   October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the
district on either October 30, 1964 or March 30, 1964, as selected by the governing board.

   (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the
   current fiscal year.

   (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the
   average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent
   of Public Instruction in (1) above.

   (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions
   of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of
   statewide change in average daily attendance to district change in average daily attendance. Change in average daily
   attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first
   principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding
   year.

   (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there
   were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess
   number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance
   reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.

   EC 41378 (a) (b) (c) (d) (e); The Superintendent of Public Instruction, in computing apportionments and allowances from the
   State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes
   maintained by each school district maintaining kindergarten classes. (a) The number of pupils enrolled in each kindergarten
   class, the total enrollment in all such classes, and the average number of pupils enrolled per class. (b) The total number
   of pupils which are in excess of thirty-three (33) in each class having an enrollment of more than thirty-three (33). (c) The total
   number of pupils by which the average class size in the district exceeds 31. (d) The greater number of pupils as determined
   in (b) or (c) above. (e) He shall compute the product obtained by multiplying the excess number of pupils computed pursuant
   to subdivision (d) of this section by ninety-seven hundredths (0.97). He shall decrease the average daily attendance reported
   under the provisions of Section 41601 by the resulting product.
7. Desired outcome/rationale. State what you hope to accomplish with the waiver.
The district believes this waiver is necessary to facilitate local agency operations due to fiscal challenges faced by school districts across the state. Without the waiver, Bear Valley Unified School District would be subject to penalties. The possible loss of additional revenue would further reduce funding and would cause additional financial burden. The Bear Valley Unified School District has faced enormous fiscal challenges since 2007. BVUSD has made approximately $2,500,000.00 in expenditure and program reductions during the last three years. For 2010-11, the district cut $410,000.00 in programs, class size, and employee compensation. In addition the district has experienced a decline in enrollment of 232 students from 2007 – 2010. The district projects that enrollment will continue to decline and contribute to an unfavorable budget outlook over the next several years.

Bear Valley Unified is requesting an increase in the average class size to 33 with no class exceeding 34 in grades K-3 for the 2010/11 and 2011/12 school years. This action would have a positive financial impact to our weakening budget and allow us to avoid being penalized for exceeding state requirements. To accomplish this, Bear Valley Unified School District is requesting a waiver of EC 41378 subdivisions (a) through (e), which limits the average class size on a district wide level for Kindergarten to 31 students and individual class size to 33 students. In addition, Bear Valley Unified School District is requesting a waiver of EC 41376 subdivisions (a), (c), and (d), which limits the average class size for grades one through three to 30 students district wide, with an individual class size not to exceed 32 students. This waiver would allow Bear Valley Unified important flexibility and the time over the next fiscal year to reassess its financial position to lower class sizes.

Bear Valley Unified School District has a long history of strong academic achievement. Though small, the district has 4 California Distinguished Schools. Our four elementary schools have an API in excess of 800, while our middle school and high school achieved API scores of 778 and 788 respectively on the most recent CST. Along with our strong API scores no elementary schools in our district have entered into Program Improvement status. The district is committed to continue to work on being a high performing district and expects to have improved student performance in spite of budget difficulties and increased class sizes. Increased class sizes will present a unique set of challenges, but we believe these challenges will be met through continued dedication and hard work focused on providing the best that we are able for our students.

Union contract language does not need to be renegotiated; current contract language allows our district to go up to and beyond the class sizes being requested. The language does provide for accommodations to teachers who are in classrooms that exceed the contractually agreed upon class size.

8. Demographic Information:
(District/school/program) Bear Valley Unified School District has a student population of 2,756 and is located in rural. (urban, rural, or small city etc.). Big Bear Lake in San Bernardino County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) □ No □ Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? □ No □ Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

(Attach additional pages if necessary.)

EC 41376 (a) (c) (d) attached
EC 41378 attached

8. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)
The Center Joint Unified School District has presented a "qualified" budget to Sacramento County, the result of declining enrollment and decreased state revenues. The best-case scenario for CJUSD for school year 2011-2012 shows a budget shortfall of $2.9 million. Even after concessions from both certificated and classified employee groups (in the form of furlough days) and the reduction of the school year by 5 days, the District will suffer financial hardship unless this waiver is granted. The District continues to provide high-quality instruction in the core areas to students at all grade levels, but the financial penalty incurred if a waiver is not granted may preclude the District from doing so. Union has waived CBA class size limit of 32 in grades K -- 3.

9. Demographic Information:
Center Joint Unified School District has a student population of _4793_ and is located in an urban area in Sacramento County.

41376(a)(c)(d) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district:
    (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.
    (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.

41378. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes.
    (a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils enrolled per class.
    (b) The total number of pupils which are in excess of thirty-three (33) in each class having an enrollment of more than thirty-three (33).
    (c) The total number of pupils by which the average class size in the district exceeds 31.
    (d) The greater number of pupils as determined in (b) or (c) above.
    (e) He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (d) of this section by ninety-seven hundredths (0.97). He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.
Center Joint Unified School District Statement related to Specific Waiver request

The Center Joint Unified School District is making a request to temporarily increase class size in grades K -- 3 to an average of 34 students per class, an average that exceeds the Ed Code-mandated limit on class size at those grade levels. If this waiver is not granted, the penalty imposed on the District (an estimated $606,704) would have an extremely negative impact on programs that have already been devastated by a combination of declining enrollment and state budget reductions. The District is already facing a budget shortfall of at least $1.5 million this fiscal year, which has resulted in major adjustments to core educational programs at all grade levels.

While Center Joint Unified has worked hard to provide the essential core academic programs to our students, the imposition of a penalty coupled with the anticipated loss of state revenue would deal a blow to our ability to continue to provide such quality instruction to our students. We continue to take pride in the accomplishments of all of our students, especially in the core areas of mathematics and reading instruction, and would like to continue to offer the quality educational programs our community expects and requires.

### Period of request: (month/day/year)

| From: 7/1/2010 To: 6/29/2012 |

### Local board approval date: (Required)

| 5/12/2011 |

### LEGAL CRITERIA

#### 1. Authority for the waiver:

*Education Code* Section citation, which allows you to request, or authorizes the waiver of the specific *Education Code* Section you want to waive.

**EC** Specific code section: **41376 (a), (c) and (d) and 41378 (a) through (e)**

Write the *Education Code* Section citation, which allows you to request, or authorizes the waiver of the specific *Education Code* Section you want to waive.

#### 2. Education Code or California Code of Regulations or portion to be waived.

**Section to be waived:** (number)  
**Circle One:** **EC** or **CCR**

Brief Description of the topic of the waiver: Waiver of the class size penalty for exceeding the following parameters:  
Kindergarten: Average class size not to exceed 31 students; no class larger than 33 students.  
Grades 1-3: Average class size not to exceed 30 students; no class larger than 32 students.

#### 3. If this is a renewal of a previously approved waiver, please list Waiver No: **NA** and date of SBE approval __________

Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.

#### 4. Collective bargaining unit information. (Not necessary for *EC* 56101 waivers)

Does the district have any employee bargaining units? **No** _X_ **Yes** If yes, please complete required information below:

- Bargaining unit(s) consulted on date(s): **April 21, 2011**
- Name of bargaining units and representative(s) consulted: **Etiwanda Teachers Association (ETA), Michele Jacks, ETA president**
- The position(s) of the bargaining unit(s): **Neutral** _X_ **Support** ____ **Oppose** (Please specify why)

Comments (if appropriate):

#### 5. Advisory committee or school site council that reviewed the waiver. Name:  
**District Advisory Committee**

Per *EC* 33051(a) if the waiver affects a program that requires a school site council that council must **approve** the request.  
Date advisory committee/council reviewed request: **June 21, 2011**  
_X_ **Approve** ____ **Neutral** ____ **Oppose**

Were there any objection? **Yes** ____ **No** _X_ (If there were objections please specify)

CALIFORNIA DEPARTMENT OF EDUCATION
6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key if only portions of sections are to be waived). (Attach additional pages if necessary.)

EC 41376 (a)(c) and (d) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30. (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.

EC 41378. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes. (a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils enrolled per class. (b) The total number of pupils which are in excess of thirty-three (33) in each class having an enrollment of more than thirty-three (33). (c) The total number of pupils by which the average class size in the district exceeds 31. (d) The greater number of pupils as determined in (b) or (c) above. (e) He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (d) of this section by ninety-seven hundredths (0.97). He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

The district requests a waiver to increase the average and maximum class sizes per: EC 41376(a), (c) and (d) and 41378 (a) through (e) to the following:

- **Kindergarten:** Average class size not to exceed 32 students; no class larger than 33 students.
- **Grades 1-3:** Average class size not to exceed 32 students; no class larger than 33 students.

With the current average and maximum class size per FTE in grades K-3, the district must sometimes move students to another class, hire new teachers late in the academic year or create combination classes to ensure the average and maximum size is not exceeded. This is not in the best interest of the student, staff, nor the integrity of the instructional program and is not fiscally prudent based on the current economic situation.

8. Demographic Information:
Etiwanda School District has a student population of 12997 and is located in the cities of Rancho Cucamonga and Fontana in San Bernardino County.

Amendment for Item 7 of Specific Waiver 28-5-2011

Etiwanda School District has worked to enhance and strengthen core academic programs for our students. The District has been forced to make difficult budget decisions while balancing our student’s need for strong early grade reading and math programs. Additional funding reductions imposed due to class-size penalties are estimated to be $286,055 for grades 1-3 annually. This loss of revenue would result in further impact to our classrooms resulting in reductions that reach the core academic programs such as reading, mathematics, and science. Etiwanda’s goal is to continue our momentum towards increased academic achievement, and it is our hope that additional revenue reductions due to class-size penalties will not occur.

Period of request: From: July 1, 2010 To: June 29, 2012
Local board approval date: June 21, 2011

LEGAL CRITERIA

1. Authority for the waiver: Ed Code. Specific code section: 41382
   Write the EC Section citation, which allows you to request, or authorizes the waiver of the specific EC Section you want to waive.
   41382. The principal of any elementary school maintaining kindergarten classes or regular day classes in grades 1 to 3, inclusive, may recommend to the governing board of the school district, or the governing board may adopt a resolution determining that an exemption should be granted from any of the provisions of Section 41376, 41378, or 41379 with respect to such classes on the basis that such provisions prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes. Upon approval of such recommendation, or the adoption of such resolution, the governing board shall make application to the State Board of Education on behalf of the school for an exemption for such classes from the specified provisions. The State Board of Education shall grant the application if it finds that the specified provisions of Section 41376, 41378, or 41379 prevent the school from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes and shall, upon granting the application, exempt the school district from the penalty provision of such sections.

2. Education Code or California Code of Regulations or portion to be waived.
   Section to be waived: 41388 and 41376(a)(c) and (d) Circle One: EC or CCR
   Brief Description of the topic of the waiver: Class sizes in Kindergarten and in 1st through 3rd

3. If this is a renewal of a previously approved waiver, please list Waiver No: _____ and date of SBE approval _______
   Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.

4. Collective bargaining unit information. (Not necessary for EC 56101 waivers)
   Does the district have any employee bargaining units? __ No X Yes If yes, please complete required information below:
   Bargaining unit(s) consulted on date(s): Huntington Beach Elementary Teachers Association (HBETA) (CTA) was consulted on June 7, 2011. California School Employees Association, Chapter 316 (CSEA) was consulted on June 9, 2011.
   Name of bargaining units and representative(s) consulted: HBETA – Trinon Carter, President and CSEA – Mark Francovig, President
5. Advisory committee or school site council that reviewed the waiver. Name: All Elementary school site councils reviewed the waiver.

Per EC 33051(a) if the waiver affects a program that requires a school site council that council must approve the request. Date advisory committee/council reviewed request: Eader Elementary School (June 16, 2011), Hawes Elementary School (June 16, 2011), Huntington Seacliff Elementary School (June 16, 2011), Moffett Elementary School (June 13, 2011), Perry Elementary School (June 16, 2011), Peterson Elementary School (June 16, 2011), Smith Elementary School (June 13, 2011).

X  Approve ___  Neutral ___ Oppose

Were there any objection? Yes ___ No  X (If there were objections please specify)

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key if only portions of sections are to be waived). (Attach additional pages if necessary.)

41378. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes: (a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils enrolled per class; (b) The total number of pupils which are in excess of thirty-three (33) in each class having an enrollment of more than thirty-three (33); (c) The total number of pupils by which the average class size in the district exceeds thirty (33); (d) The greater number of pupils as determined in (b) or (c) above; (e) He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (d) of this section by ninety-seven hundredths (0.97). He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

41376. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 32 in each class having an enrollment of more than 30. (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled in each class, the total enrollment in all such classes, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.
7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

The district requests a waiver to increase district-wide average number of pupils per each full-time equivalent (FTE) teacher in Kindergarten and Grades 1-3 to 32 pupils per FTE. The current class size averages in EC 41378 and EC 41376 are more restrictive than the district collective bargaining agreement. We do not seek an increase in class size maximums.

During this very difficult budget crisis facing California school districts, it’s important that Huntington Beach City School District receive this waiver to limit any further program reductions and continue to provide quality service for our students. Our staffing reality will be less than a district-wide average of 32 pupils per FTE because the district collective bargaining agreement will be more restrictive. We estimate additional funding reductions of approximately $364,000 annually if this waiver isn’t approved. Thank you for your consideration.

8. Demographic Information:
   The Huntington Beach City School District has a K-8 student population of 7,116 and is located in a small city in Orange County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344)  ☑ No  ___ Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue?  ☑ No  ___ Yes
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key if only portions of sections are to be waived). (Attach additional pages if necessary.)

EC 41378. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes. (a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils enrolled per class. (b) The total number of pupils which are in excess of thirty-three (33) in each class having an enrollment of more than thirty-three (33). (c) The total number of pupils by which the average class size in the district exceeds 31. (d) The greater number of pupils as determined in (b) or (c) above. He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (d) of this section by ninety-seven hundredths (0.97). He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

EC 41376 (a)(c) and (d) The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district: (a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class. For those districts which do not have any classes with an enrollment in excess of thirty-two (32) and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of thirty-two (32) or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30. (b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner: (1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board. (2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year. (3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above. (c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year. (d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

The District is seeking to temporarily increase average class size in grades K-3 up to the maximum class size of 33 in Kindergarten and 32 in grades 1-3 in order to reduce expenditures and avoid penalties. The District faces severe fiscal challenges from persistent State funding reductions. The District is requesting that Education Code Section 41376 (a) (c) and (d) and Ed Code Section 41378 and the associated penalties be waived in order to increase average class sizes until additional revenues are available. The waiver would end on June 30, 2013 unless otherwise extended. The staffing cost savings from a temporary increase in average class sizes is crucial as the District attempts to balance budgets.

8. Demographic Information: Manteca Unified School District has a student population of 23,199 and is located in a small city in San Joaquin County.

#7 Desired outcome/rationale:

The District’s current class size maximum matches the staffing ratios found in the Manteca Unified School District’s Collective Bargaining Agreement. In light of the current statewide budget crisis and the reduced revenue to school districts the District is interested in exploring the option of increasing the current staffing ratios in order to potentially reduce personnel costs.

Manteca Unified School District has worked to enhance and strengthen core academic programs for our students. The District has been forced to make difficult budget decisions while balancing our student’s need for strong early grade reading and math programs. Additional funding reductions imposed due to class-size penalties are estimated to be $1,300,000.00 annually. This loss of revenue would result in further impact to our classrooms resulting in reductions that reach the core academic programs such as reading, mathematics, and science. Manteca Unified’s goal is to continue our momentum towards increased academic achievement, and it is our hope that additional revenue reductions due to class-size penalties will not occur.

41382. The principal of any elementary school maintaining kindergarten classes or regular day classes in grades 1 to 3, inclusive, may recommend to the governing board of the school district, or the governing board may adopt a resolution determining, that an exemption should be granted from any of the provisions of Section 41376, 41378, or 41379 with respect to such classes on the basis that such provisions prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes. Upon approval of such recommendation, or the adoption of such resolution, the governing board shall make application to the State Board of Education on behalf of the school for an exemption for such classes from the specified provisions. The State Board of Education shall grant the application if it finds that the specified provisions of Section 41376, 41378, or 41379 prevent the school from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes and shall, upon granting the application, exempt the school district from the penalty provision of such sections.

#6

Education Code or California Code of Regulations section to be waived

#6 EC to be waived” for Kindergarten penalties.

EC 41378. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes. (a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils enrolled per class. (b) The total number of pupils which are in excess of thirty-three (33) in each class having an enrollment of more than thirty-three (33). (c) The total number of pupils by which the average class size in the district exceeds 31. (d) The greater number of pupils as determined in (b) or (c) above. (e) He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (d) of this section by ninety-seven hundredths (0.97). He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

41376. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district:

(a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class.

--- For those districts which do not have any classes with an
enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.

(b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner:

(1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board.

(2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year.

(3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above.

(c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.

(d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.

(e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:
He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

(f) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall add to the product determined under subdivision (c) of this section, the product determined under subdivision (e) of this section and decrease the average daily attendance reported under the provisions of Section 41601 by this total amount.

The governing board of each school district maintaining elementary schools shall report for the fiscal year 1964-65 and each year thereafter the information required for the determination to be made by the Superintendent of Public Instruction under the provisions of this section in accordance with instructions provided on forms furnished and prescribed by the Superintendent of Public Instruction. Such information shall be reported by the school district together with, and at the same time as, the reports required to be filed for the second principal apportionment of the State School Fund. The forms on which the data and information is reported shall include a certification by each school district superintendent or chief administrative officer that the data is correct and accurate for the period covered, according to his best information and belief.

For purposes of this section, a "full-time equivalent classroom teacher" means an employee of an elementary, high school, or unified school district, employed in a position requiring certification qualifications and whose duties require him to teach pupils in the elementary schools of that district in regular day classes for the full time for which he is employed during the regular schoolday. In reporting the total number of full-time equivalent classroom teachers, there shall be included, in addition to those employees defined above, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are required to devote to teaching pupils in the elementary schools of the district in regular day classes during the regular school day.

For purposes of this section, the number of pupils enrolled in each class means the average of the active enrollment in that class on the last teaching day of each school month which ends prior to April 15th of each school year.

The provisions of this section are not applicable to school districts with less than 101 units of average daily attendance for the current fiscal year.

Although no decreases in average daily attendance shall be made for the fiscal year 1964-65, reports are required to be filed under
the provisions of this section, and the Superintendent of Public Instruction shall notify each school district the amount of the decrease in state allowances which would have been effected had such decrease in average daily attendance been applied.

The Superintendent of Public Instruction shall adopt rules and regulations which he may deem necessary for the effective administration of this section. Such rules and regulations may specify that no decrease in average daily attendance reported under the provisions of Section 41601 shall be made for a school district on account of large classes due to instructional television or team teaching, which may necessarily involve class sizes at periods during the day larger than the standard set forth in this section.

---

#7

**Desired outcome/rationale**

The district is requesting a waiver to increase the individual number of K-3 pupils per each full-time equivalent classroom teacher to 33 per FTE in the 2010-11 school year. This is due to budget reductions and layoffs which resulted in an increase of classroom sizes, and a penalty of over approximately $600,000. We are requesting an average increase in class sizes of 33, with an individual class size maximum of 38 students per classroom teacher for the 2011-12 year. The current budget crisis has made this necessary. The Board has determined that our ability to continue the same standard of instruction for all required programs, including reading and mathematics, will be seriously compromised by the financial penalties imposed on the district without the approval of the requested waiver. Please let it be noted, that these ratios do not include pull out classes, such as Music, Art, RSP, etc, for which we provide additional certificated teachers. If these pull outs were calculated, the average class size would be lower.

If the district implements the class size increase at the requested level without a waiver, the penalty for 2010-11 will be approximately $600,000 and the penalty for 2011-12 is estimated at approximately $4.3 million.
ITEM W-6
## General Waiver

### SUBJECT

Request by Novato Unified School District for a waiver of California Education Code Section 48661(a) to permit the colocation of a community day school on the same site as a continuation high school and independent study center.

### RECOMMENDATION

- Approval

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved previous waiver requests from districts to permit the location of a community day school (CDS) on the same site as a continuation high school or independent study center when it was not feasible for a district to operate the CDS at a separate location and the district is able to ensure appropriate separation of students between the schools.

This district meets the criteria for the SBE Streamlined Waiver Policy, available at [http://www.cde.ca.gov/re/lr/wr/documents/sbestreamlined.doc](http://www.cde.ca.gov/re/lr/wr/documents/sbestreamlined.doc), achieving an Academic Performance Index (API) of 800 or above in the current scoring cycle. Therefore, this waiver has been scheduled for the consent calendar. Novato Unified School District (USD) has a 2010 API of 827.

### SUMMARY OF KEY ISSUES

California Education Code (EC) Section 48661(a) states that a CDS shall not be situated on the same site as other types of schools. EC Section 48916.1(a) requires school districts to ensure that each of their expelled students be provided an educational program during the period of expulsion.

The EC Section 48661(a) authorizes a small school district with 2,500 or fewer students to waive the separation requirement based on an annual certification by at least two-thirds of the local board that separate alternative facilities are not available. The Novato USD serves 7,873 students. This waiver, if approved, would allow Novato USD the same local determination option as a smaller district.

Given site and financial constraints, Novato USD is unable to find a fully separate location for a CDS at this time. The district has recently closed a middle school, making
that campus available for an alternative education center that is fully separate from all traditional elementary, middle, and high schools. As part of this alternative education center, the CDS would share the campus with a continuation high school and an independent study center. However, the district intends to put in place several means of maintaining complete separation of the schools. The CDS will have its own restrooms, its own campus entrance and parking, and different arrival and departure times. Fencing will provide a clear barrier in addition to a “no kid zone” immediately surrounding the CDS.

The district is requesting this waiver for one year. The district will be asked to present data to demonstrate that the colocation has been implemented safely as part of any application for a renewal waiver.

The local board voted unanimously to approve the waiver request. The local bargaining units are both supporting this request. The Community Day School Advisory Committee was consulted and had no objections.

The Department recommends approval of the waiver for the period requested, which will allow for re-evaluation before renewal is considered.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC Section 33051(a). “The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.”

Demographic Information: Novato USD has a student population of 7,873 and is located in a suburban area in Marin County.

Authority for Waiver: EC Section 33050

Period of request: August 1, 2011, to July 31, 2012

Local board approval date(s): May 3, 2011

Public hearing held on date(s): May 3, 2011
Bargaining unit(s) consulted on date(s): March 1, 2011

Name of bargaining unit/representative(s) consulted: Novato Federation of Teachers, Leslie Lipman, President; Jon Dick, Vice President; Aaron Fix, Treasurer; California School Employees Association, Richard Bethel, President; Sandie Vaughn, Past President of the Executive Board

Position of bargaining unit(s) (choose only one):
☐ Neutral ☑ Support ☐ Oppose

Comments (if appropriate):

Advisory committee(s) consulted: Community Day School Advisory Committee

Objections raised (choose one): ☒ None ☐ Objections are as follows:

Date(s) consulted: March 7, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval or denial.

ATTACHMENT(S)

Attachment 1: General Waiver Request (2 pages) (Original waiver request is signed and on file in the SBE Office or the Waiver Office.)

Attachment 2: Letter of support from Richard Bethel, President, California School Employees Association (1 page) (Original is on file in the SBE Office or the Waiver Office.)

Attachment 3: Site Map (1 page) (Original is on file in the SBE Office or the Waiver Office.)
The State Board of Education:

1) Adopts the following criteria to define eligible districts and schools for the purposes of an SBE waiver policy to streamline waiver requests from districts and schools that meet the following criteria:

For districts:
- Achieve API scores of 800 or above in the current scoring cycle.

For individual schools outside of these districts:
- Achieve API scores of 800 or above in the current scoring cycle and meet API growth targets for all subgroups; or
- Successfully meet API growth targets in three out of the past five years.

2) For these districts and schools (individual schools must, by statute, apply through their districts) waiver requests will henceforth be heard by the Board in its waiver consent calendar. By Board practice, any member of the public may, by indicating an interest beforehand, comment on any item on the consent or waiver consent calendar.

Districts and schools participating in this streamlined waiver program shall report annually to their appropriate governing body, to their community, and to CDE and the SBE regarding the way the waivers have been used and the impact on school and district outcomes, particularly including API growth for student subgroups and identification of any reallocations of personnel or funding.

Waivers approved in this program will remain in place for two years less one day.

3) Separately, the Board directs SBE and CDE staff to form a working group of superintendents and other stakeholders that will identify:
   a. Particular elements of the EC that are consistent impediments to the success of schools and districts
   b. Particular elements of the EC that are helpful and important.
All meetings of this working group will be public meetings. It is the intent of the Board that this workproduct will help educate the Board as it considers additional waiver programs and as it engages in a dialog with the legislature regarding revisions of the Education Code itself.

4) This program will be reviewed annually by SBE and CDE.

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): EC 48661(a)  
Circle One:  
EC  
CCR  

Jb 6/27/11  

Topic of the waiver: Colocation of Community Day School with Continuation High School and Independent Study

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval______  
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No _X_ Yes  
If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): March 1, 2011  

Name of bargaining unit and representative(s) consulted:  
Novato Federation of Teachers (NFT)  
Leslie Lipman, President; Jon Dick, Vice President; Aaron Fix, Treasurer  
California School Employees Association (CSEA)  
Richard Bethel, President; Sandie Vaughn, Past President of the Executive Board  
The position(s) of the bargaining unit(s):  
__ Neutral _X_ Support ___ Oppose (Please specify why)

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?  
_X_ Notice in a newspaper ___ Notice posted at each school ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:  
Community Day School Advisory Committee  

Date the committee/council reviewed the waiver request: Monday, March 7, 2011  

Were there any objection(s)?  
No _X_ Yes ____ (If there were objections please specify)
6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

48661. (a) A community day school shall not be situated on the same site as an elementary, middle, junior high, comprehensive senior high, opportunity, or continuation school, except as follows:

(1) When the governing board of a school district with 2,500 or fewer units of average daily attendance reported for the most recent second principal apportionment certifies by a two-thirds vote of its membership that satisfactory alternative facilities are not available for a community day school.

(b) A certification made pursuant to this section is valid for not more than one school year and may be renewed by a subsequent two-thirds vote of the governing board.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The Novato Unified School District (NUSD) has continued to make every effort to support all students, even during economically trying times. NUSD recently voted to move from a three middle school configuration to a two middle school configuration. One site has been used for a middle school in the past will be utilized as an alternative education center in the 2011-2012 school year. At the present time, the district is able to identify space at the alternative education center for a community day school (CDS). Given site and financial constraints, NUSD is unable to find another location for the CDS at the present time. Utilizing space at the alternative education center would mean that the CDS would exist on the same campus as the continuation high school and independent study center. However, NUSD is committed to ensuring that the CDS is separated from the other programs at the site. NUSD is able to ensure separate bathrooms, entrances/ exits, arrival and departure times for those students participating in the CDS. Fencing will also be installed to ensure that a clear barrier separates the CDS from the other programming. Further a “no kid zone” will be implemented in the area immediately surrounding the CDS.

Attached, please find a map showing the boundaries of the campus.

8. Demographic Information:
Novato Unified School District has a student population of 7,873 and is located in a suburban area in Marin County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344)  
No ☒ Yes ☐

(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue?  
No ☒ Yes ☐

(If yes, please attach explanation or copy of CPM finding)

March 2, 2011

Dear Dr. Derby,

At our meeting on March 1, 2011, with Novato Unified Staff, they shared with us their desire to bring the Community Day School to Novato Unified. The California School Employees Association is in full support of the Community Day School as a school in the Novato Unified School District.

Respectfully,

Richard Bethel
President, CSEA Chapter 312
California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM W-7
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

☑ General Waiver

SUBJECT

Request by Shasta Union High School District for a waiver of California Education Code Section 48661(a) to permit the colocation of Freedom Community Day School on the same site as Shasta High School, University Prep School, Pioneer High School, and North State Independence High School.

Waiver Number: 29-5-2011

RECOMMENDATION

☑ Approval ☐ Approval with conditions ☐ Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved previous waiver requests from districts to permit the location of a community day school (CDS) on the same site as a continuation high school, comprehensive high school, charter high school, or an independent study school when it was not feasible for a district to operate the CDS at a separate location and the district is able to ensure appropriate separation of students between the schools.

This district meets the criteria for the SBE Streamlined Waiver Policy, available at http://www.cde.ca.gov/re/lr/wr/documents/sbestreamlined.doc, achieving an Academic Performance Index (API) of 800 or above in the current scoring cycle. Therefore, this waiver has been scheduled for the consent calendar. Shasta Union High School District (HSD) has a 2010 API of 808.

SUMMARY OF KEY ISSUES

California Education Code (EC) Section 48661(a) states that a CDS shall not be situated on the same site as other types of schools. EC Section 48916.1(a) requires school districts to ensure that each of their expelled students be provided an educational program during the period of expulsion.

The Shasta Union HSD CDS has been housed in a sub-standard storefront facility at a cost of $27,000 per year. The current facility is not large enough to meet the needs of all students who need this educational placement option to be successful in school. To improve the educational setting, save the district money in a challenging fiscal period, and meet the needs of currently underserved students, the district intends to relocate...
the CDS to a large campus that currently includes a continuation high school, comprehensive high school, charter high school, and independent study school.

Consistent with the intent of the law, the district believes that it can maintain complete separation of the CDS students and students from the other schools. The CDS will be separated from these schools by a football stadium and soccer/softball fields (side-by-side). It will also be separated by a steep hill of 100 foot elevation and fencing. The entire space between the schools is easily visible from the top and bottom of the hill. The CDS will have its own bathrooms, classrooms, and exercise yard. Supervision will be provided by two full-time teachers, two full-time paraprofessionals and a security guard. CDS students (who now must provide their own transportation) will also be able to be bussed directly to the school. Finally, the CDS start and close times will be different from those of students in the other schools.

The Shasta Union HSD is requesting this waiver for one year. The district will be asked to present data to demonstrate that the colocation has been implemented safely as part of any application for a renewal waiver.

The local board voted unanimously to approve the waiver request. The local bargaining unit is neutral. The advisory committees from each of the collocated schools were consulted and had no objections. The Department recommends approval of the waiver for the period requested, which will allow for re-evaluation before renewal is considered.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC Section 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; and (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: The Shasta Union HSD has a student population of 5,889 and is located in a small city of Clearlake, a rural community in Shasta County. Freedom CDS has a student population of 35.

Authority for Waiver: EC Section 33050

Period of request: August 1, 2011, to July 31, 2012

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number):  Circle One: EC or CCR:
Topic of the waiver:  48661: Community Day school may not be situated on a school site.
(a)  jb 5/24/11

2. If this is a renewal of a previously approved waiver, please list Waiver Number:  ___ and date of SBE Approval:  ___
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units?  __ No  _X Yes  If yes, please complete required information below:
Bargaining unit(s) consulted on date(s):  3/10/11
Name of bargaining unit and representative(s) consulted:  Tom Roberts, President: Shasta Secondary Education Association  kak 6/10/2011
The position(s) of the bargaining unit(s):  _X_ Neutral  __ Support  __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement:  A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?  The SUHSD Board unanimously approved the waiver after the public hearing.
_X_ Notice in a newspaper  ___ Notice posted at each school  ___ Other:  (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
Shasta High School (SHS), University Prep School (Prep),  Pioneer High School (PHS), North State Independence High School (NSIHS)
Date the committee/council reviewed the waiver request:  SHS: 4/20/11, UPrep: 4/13/11, PHS: 5/3/11, NSIHS: 5/3/11

Were there any objection(s)?  No _X_ Yes  (If there were objections please specify)
6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

48661. (a) A community day school shall not be situated on the same site as an elementary, middle, junior high, comprehensive senior high, opportunity, or continuation school, except as follows:

(1) When the governing board of a school district with 2,500 or fewer units of average daily attendance reported for the most recent second principal apportionment certifies by a two-thirds vote of its membership that satisfactory alternative facilities are not available for a community day school.

(b) A certification made pursuant to this section is valid for not more than one school year and may be renewed by a subsequent two-thirds vote of the governing board.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Freedom Community Day School currently is housed in a store front which provides a sub standard educational facility and costs the SUHSD $27,000.00 per year. The current facility is not large enough to meet the needs of the students who are currently being under served. To improve the educational setting, save the district money, and improve the level of service the school will be relocated to SUHSD property that also houses the continuation school, charter high school, comprehensive high school and the independent study school. The new location is separated from these schools by a football stadium and soccer/softball fields (side-by-side) and resides at an elevation approximately 100 feet lower. The space between the new location and the other district schools provides easy visibility of the entire area from the bottom or the top of the steep hill. The new location will have its own bathrooms, three portable classrooms, an exercise yard and will be completely self-contained with the students under constant supervision. A fence separates the new location from the fields. The 35 students will have two full time teachers and two paraprofessionals on duty at all times. A security guard will be assigned exclusively to the Freedom campus to provide supervision before, during and after school hours for the school itself, the adjacent campuses and the surrounding neighborhood. The students will also be able to be bussed (they now must provide their own transportation) which will improve access to the school for students living in rural areas. Currently, the SUHSD buses similar students that attend the Court and Community School, thus supervision and monitored stops are already in place to deal with misbehaviors that occur on the bus. Freedom will have a 6 hour school day that will begin after Shasta High and University Preparatory students are in class and before North State and Pioneer students begin school. The release time similarly will be slightly different times than the adjacent schools.

8. Demographic Information: District: Oct 6, 2010, 5,889 Shara Presidio DS 6/9/11 (District/school/program) Freedom Community Day School has a student population of __35____ and is located in a ___(small city in ___Shasta___ County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No X Yes

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No X Yes

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

General Waiver

SUBJECT
Request by Barstow Unified School District for a waiver of California Education Code Section 48661(a) to permit the colocation of School of Opportunity, a community day school, on the same site as Central High School, a continuation high school.

Waiver Number: 4-6-2011

RECOMMENDATION

☐ Approval ☐ Approval with conditions ☐ Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved previous waiver requests from districts to permit the location of a community day school (CDS) on the same site as a continuation high school or independent study center when it was not feasible for the district to operate the CDS at a separate location and the district is able to ensure appropriate separation of students between the schools.

SUMMARY OF KEY ISSUES

The Barstow Unified School District (USD) is requesting a waiver of California Education Code (EC) Section 48661(a) which states that a CDS shall not be situated on the same site as other types of schools. EC Section 48916.1(a) requires school districts to ensure that each of their expelled students be provided an educational program during the period of expulsion.

The EC Section 48661(a) authorizes a small school district with 2,500 or fewer students to waive the separation requirement based on an annual certification by at least two-thirds of the local board that separate alternative facilities are not available. The Barstow USD serves approximately 5,853 students. This waiver, if approved, would allow Barstow USD the same local determination option as a smaller district.

In order to provide an effective learning environment for expelled and other at-risk students, the Barstow USD unanimously voted to establish a CDS. The Barstow USD evaluated sites and facilities owned by the district and potential rental sites in the surrounding community. Each fully separate site was found to be inappropriate due to factors that included location, inadequacy of the facility, difficulty in providing administrative support, and excessive costs.
The Barstow USD operates an alternative education center that is fully separate from all traditional elementary, middle, and high schools. As part of this alternative education center, the CDS would share the campus with a continuation high school, an independent study center, and a Cal-SAFE program.

Consistent with the intent of the law, Barstow USD intends to put in place several means of maintaining complete separation of the CDS students and students from the other schools. The CDS will have its own restrooms, its own campus entrance and parking, and different arrival and departure times. There will also be fencing between the schools.

The district is requesting this waiver for one year. The district will be asked to present data to demonstrate that the colocation has been implemented safely as part of any application for a renewal waiver.

The local board voted unanimously to approve the waiver request. The local bargaining units are both supporting this request. The district’s Drop Out Prevention Committee was consulted and had no objections.

The Department recommends approval of the waiver for the period requested, which will allow for re-evaluation before renewal is considered.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC Section 33051(a). “The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.”

Demographic Information: Barstow USD has a student population of 5,853 and is located in a small city in San Bernardino County.

Authority for Waiver: EC Section 33050

Period of request: August 1, 2011, to July 31, 2012

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): Circle One: EC or CCR

Topic of the waiver: 48661. Co-Location of School of Opportunity the CDS with a Central Continuation High School

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval______

Renews of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No _X_ Yes  If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): Barstow Education Association (BEA) and Classified Services Education Association (CSEA) 5/10/11 per J. James DS 6/16/11

Name of bargaining unit and representative(s) consulted: Candice Michelson (BEA President) and Diane Patty (CSEA President)

The position(s) of the bargaining unit(s): __ Neutral _X_ Support __ Oppose (Please specify why)

Comments (if appropriate): Though both unions support the opening of a Community Day School they are concerned about the cost of this program at a time when the District is looking for cuts. Response: We must service these students and by having a CDS we have a greater chance of the student being readmitted and graduating.

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held During a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

___ Notice in a newspaper _X_ Notice posted at each school ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Date the committee/council reviewed the waiver request: Drop Out Prevention Committee, April 29 2011 kak 6/8/11
Per Joni James

Were there any objection(s)? No _X__ Yes ___ (If there were objections please specify)
6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a *strike out key*).

48661. (a) A community day school shall not be situated on the same site as an elementary, middle, junior high, comprehensive senior high, opportunity, or continuation school, except as follows:

(1) When the governing board of a school district with 2,500 or fewer units of average daily attendance reported for the most recent second principal apportionment certifies by a two-thirds vote of its membership that satisfactory alternative facilities are not available for a community day school.

(b) A certification made pursuant to this section is valid for not more than one school year and may be renewed by a subsequent two-thirds vote of the governing board.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

In an effort to provide our students who are the most at-risk and at-promise with a learning environment that will prepare them to return to the comprehensive school with the resiliency they need to be successful following their expulsion or placement by SARB or Probation, the Board of Trustees unanimously voted that the District would apply to open a community day school. With this goal in mind the District Office began the search for the proper site to house the CDS that would be a safe place for students to attend. An evaluation of possible sites was conducted. District officials evaluated various sites and facilities owned by the District. During these difficult economic times it was not feasible for the District to rent a space and still cover the cost of the program. Each site was evaluated and found by the District to be inappropriate due to location, age of the facility, lack of facilities or that it created a challenge for administrative support the program must have to be successful. After much deliberation it was determined that the best location for students and staff would be a single self-contained classroom (*with own restroom*) currently located at the back of the Central High School campus, the District’s Continuation High School. Central is the home to two other alternative programs for students, Independent Study and CAL Safe. The classroom sits away from the main building which houses the classes for the continuation school. The CDS classroom is set apart from the Independent Study classrooms which are fenced to allow access to the continuation school and provides security to the classrooms. Though the CDS classroom is next door to the CALSAFE program it is *(see attached page for remainder of 7.)*

8. Demographic Information:

7. Continued

…fenced on all sides by chain link and there is no access from the CDS classroom into the Cal SAFE area. To reach the classroom the students of the School of Opportunity will enter through a gate at the back of the school and cross a parking lot to reach their classroom. They will have no contact with other students as the student from Cal Safe, Central Continuation and Independent Study all enter and exit the school through the front door of the main building and utilize a back door of the main building to gain access to their classroom. This entire area is fenced and is only accessible from the CDS classroom through a gate that is locked during school hours. The CDS students will have the support of a principal that believes in at-risk and at-promise students yet will not have access to other students and facilities.

The Board of Trustees of Barstow Unified School District found this location to be a safe location as well as providing our expelled students with an environment that will permit them to build the resiliency they need to return to the comprehensive program.

We thank you for supporting us in providing the best for all our students including those who make mistakes.
California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM W-9
General Waiver

Request by Chico Unified School District for renewal of a waiver of California Education Code Section 48661(a) to permit the colocation of Academy for Change Community Day School and the Center for Alternative Learning Opportunity School at the Fair View Continuation School.

Waiver Number: 39-5-2011

RECOMMENDATION

☑ Approval  ☐ Approval with conditions  ☐ Denial

If approved, California Education Code (EC) Section 33051(b) will apply, and the district will not have to reapply annually if the information contained on the request remains the same.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

This is a request for renewal of a waiver that was initially granted for one year in July 2010. The State Board of Education (SBE) has approved several similar requests to allow the colocation of a community day school (CDS) with other schools when the schools could not be located separately and the district has been able to ensure appropriate separation of students between the two schools.

SUMMARY OF KEY ISSUES

The Chico Unified School District (USD) requests renewal of a waiver of EC Section 48661(a) which states that a CDS shall not be situated on the same site as a continuation high school or an opportunity school. The Chico USD is seeking SBE approval to permit the continuing colocation of Academy for Change (AFC) CDS on the same site as Fair View Continuation High School (FVCHS) and the Center for Alternative Learning Opportunity School.

The EC Section 48661(a) authorizes a small school district with 2,500 or fewer students to waive the separation requirement based on an annual certification by at least two-thirds of the local board that separate alternative facilities are not available. The Chico USD serves approximately 12,200 students. This waiver, if approved, would continue to allow Chico USD the same local determination option as a smaller district.
The AFC CDS was previously located at a fully separate location where it had operated under a lease agreement for the previous five years. However, the Chico USD faced severe fiscal challenges, having been negatively certified, and was on the verge of needing a state loan. The lease agreement ended on June 30, 2010. The annual cost of the lease was $150,000. Due to the Chico USD’s fiscal crisis, the lease could not be renewed.

In order to continue to serve its expelled and other at-risk students, the Chico USD needed to relocate the AFC CDS. The FVCHS campus was selected as providing the greatest possible separation from other traditional school classrooms and students. The AFC CDS was not located on the same site as an elementary, middle, or traditional comprehensive high school. Additionally, the FVCHS campus could support complete separation of the three schools. The AFC CDS occupies two rooms on the site that are set apart by fencing from the continuation high school and the opportunity school on campus. There are different entrance and exit locations and arrival, break, lunch, and departure times for the schools. Finally, a full-time school resource officer serves the campus and a part-time probation officer is housed on the AFC CDS portion of the site, ensuring that a “no kid zone” separates the students at all times.

The coexistence of these schools on the same campus has been very successful with no negative incidents between CDS students and students from the other schools. As an extra benefit, the colocation has facilitated eventual transfer of students from the CDS to the other schools, as appropriate.

The original waiver request was due to the Chico USD’s negatively certified budget, and the need to cut costs and consolidate programs. While Chico USD currently has a qualified budget, three-year projections indicate that negative certification is, once again, likely. The district does not anticipate being able to move the CDS to a fully separate location in the foreseeable future.

Following a public hearing, the Chico USD Board of Education voted unanimously to support this waiver renewal request. The Chico Unified Teachers Association (CUTA), which was neutral a year ago, now also supports the waiver. The local chapter of the California School Employees Association (CSEA) testified at the local board hearing for the initial waiver that they were supportive of the idea but were officially on record in opposition to the waiver request because they were concerned about potential lay-offs for classified staff. The CSEA has now moved to a neutral position. Both the Fair View High School and AFC School Site Councils considered the request and had no objections.

The Department recommends approval of renewal of this waiver as requested.
SUMMARY OF KEY ISSUES (Cont.)

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC Section 33051(a). “The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.”

Demographic Information: The Chico USD has a student population of 12,239 and is located in a suburban university town in Butte County.

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?  
___ Notice in a newspaper  
X Notice posted at each school  
X Other: (Please specify)  
CUSD Website

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

School Site Council: Fair View, Academy for Change  
Date the committee/council reviewed the waiver request:  
4/26/11

Were there any objection(s)?  
No X Yes (If there were objections please specify)
6. *Education Code or California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

EC 48661a A community day school shall not be situated on the same site as an elementary, middle, junior high, comprehensive senior high, opportunity of continuation school, except as follows:

(1) When the governing board of a school district with 2,500 or fewer units of average daily attendance reported for the most recent second principal apportionment certified by a two-thirds vote of its membership that satisfactory alternative facilities are not available for a community day school.

(b) A certification make pursuant to this section is valid for not more than one school year and may be renewed by a subsequent two-thirds vote of the governing board.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Chico Unified School District applied for and received a waiver for Academy for Change (AFC), CUSD’s community day school to be housed at the same site as Fair View, the continuation high school and Center for Alternative Learning (CAL), the opportunity school. The premise for the request 2010-11 was due to CUSD’s negatively certified budget, the need to cut costs and to consolidate programs. CUSD currently has a qualified budget, however, three-year projections indicate that negative certification is, once again, looming on the horizon. Additionally, CUSD continues to receive facilities requests from dependent and independent charters. Thus, there is a continued need to house AFC on the Fair View/CAL campus for the 2011-12 school year and beyond.

Housing AFC on the Fair View/CAL campus has also afforded students additional transition opportunities between alternative education programs as well as the junior high and comprehensive high schools. The coexistence of these schools on the same campus has been very successful and without incident. The need for these schools to be housed at the same facility is clearly evident.

CUSD has demonstrated the need for and values the community day school program and would like to continue to house AFC on the Fair View/CAL campus. CUSD realizes the need for a community day school to maintain adequate separation from existing school programs. The layout of the Fair View campus (see map, attached) allowed for such separation. Two rooms on the school site are set apart from the main Fair View campus. These two rooms have been fenced to fully separate the two schools. The fencing encompasses the classrooms and allows for a single entrance and exit point for AFC students. Additional precautions have been implemented by structuring different arrival and departure times for the schools. Each school has its own staffing for instruction and supervision.

Housing AFC on the Fair View/CAL campus has been a successful endeavor. AFC students transition back to other school sites once they have fulfilled their expulsions requirements. Many of these students transition to Fair View to complete their schooling and/or may attend Fair View for a short time and then return to one of the comprehensive high schools to complete their education. This arrangement provides a full spectrum of support for students so they do not “fall through the cracks”.

The Chico Unified staff is hopeful that this waiver will be approved for the 2011-12 school year.

8. Demographic Information:

The Chico Unified School District has a student population of 12,239 students (2010-2011) and is located in a suburban university town in Butte County. The district has three secondary alternative schools. Fair View, a continuation high school, has a student population of 257; CAL, a continuation middle school, has a population of 30 (2010-11); and the Academy for Change (AFC), a community day school, serves 91 students in 2010-2011.

Christine Gordon  
Waiver Office, California Department of Education  
1430 N Street, Suite 5602  
Sacramento, CA 95814

Dear Ms. Gordon:

Please find attached a renewal waiver request for Education Code: 4866Ja with regard to the location of the Chico Unified School District community day school, Academy for Change (AFC). In fall, 2010, severe budget constraints forced us to apply for a first-time waiver to move AFC to the campus of our continuation high school, Fair View. The schools have been successfully sharing the site all year.

The intent of this waiver is to request that AFC continue to be housed on the Fair View campus in 2011-12. The facilities are such that the fully expelled students are able to enter and exit the campus from a different location. Schedules for start, lunch, break and end times are staggered to accommodate all students and allow for complete separation of the two schools. Support personnel are sufficient to ensure that all students are supervised and that a "no kid zone" separates the students at all times.

Fair View is afforded the opportunity to have a full-time School Resource Officer who has been able to extend support to the AFC staff and students. Additionally, a part-time probation officer will continue to be housed on the AFC portion of the campus to increase support for staff and students. Students in 12th grade who are transitioning out of the AFC program have the opportunity to attend Fair View and/or return to the comprehensive high schools.

It is the consensus of administration and staff at both AFC and Fair View that the coexistence of Fair View and AFC has been a very successful this year. On May 18, our Board of Trustees affirmed their belief in the success of this shared campus arrangement by unanimously voting to approve our application for a waiver renewal.

Thank you for your consideration of our request.

Sincerely,

Janet L. Brinson  
Director, Educational Services

Waiver Number: 34-5-2011

RECOMMENDATION

☑ Approval ☐ Approval with conditions ☐ Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved previous waiver requests from districts to permit the location of a community day school (CDS) on the same site as a continuation high school when it was not feasible for a district to operate the CDS at a separate location and the district is able to ensure appropriate separation of students between the schools.

SUMMARY OF KEY ISSUES

The Palo Verde Unified School District (USD) requests a waiver of California Education Code (EC) Section 48661(a) which states that a CDS shall not be situated on the same site as other types of schools. The EC Section 48916.1(a) requires school districts to ensure that each of their expelled students be provided an educational program during the period of expulsion.

The EC Section 48661(a) authorizes a small school district with 2,500 or fewer students to waive the separation requirement based on an annual certification by at least two-thirds of the local board that separate alternative facilities are not available. The Palo Verde USD serves 3,500 students. This waiver, if approved, would allow Palo Verde USD the same local determination option as a smaller district.

The campus where Palo Verde Community Day School (PVCDS) has been located is in need of substantial repair in order to meet facility standards. The district has proposed moving PVCDS into newer and more modern unused facilities on the same site as Twin Palms Continuation High School. The district maintains that the move is fiscally prudent and better for the PVCDS students and staff. Consistent with the intent of the law, the district believes that it can maintain complete separation of the PVCDS and
SUMMARY OF KEY ISSUES

continuation students. The schools will be separated by fencing and walls. Each school will have its own restrooms, parking lot, staff lounge, and other resources. This new site was also selected to avoid any interaction with students on traditional school campuses.

The district is requesting this waiver for one year. The district will be asked to present data to demonstrate that the colocation has been implemented safely as part of any application for a renewal waiver.

The local board voted unanimously to approve the waiver request. The local bargaining unit is neutral. The Twin Palms Continuation High Schoolsite Council and the English Learners Advisory Committee were consulted and had no objections.

The Department recommends approval of the waiver for the period requested, which will allow for re-evaluation before renewal is considered.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC Section 33051(a). “The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.”

Demographic Information: Palo Verde USD has a student population of 3,500 and is located in a small city in Riverside County. The PVCDS has a student population of 20.

ITEM W-11
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

General Waiver

SUBJECT
Request by Riverdale Joint Unified School District for renewal of a waiver of California Education Code Section 48916.1(d) and portions of Education Code Section 48660 to permit a community day school to serve students in grades five through six with students in grades seven through twelve.

Waiver Number: 26-5-2011

RECOMMENDATION

☐ Approval  ☑ Approval with conditions  ☐ Denial

This waiver will only apply to students in grades five through twelve, inclusive.

If approved, California Education Code (EC) Section 33051(b) will apply and the district will not have to reapply annually if the information contained on the request remains the same.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved previous waiver requests from small districts to expand the allowable grade span for a community day school (CDS) when it was not feasible for a district to operate two separate schools.

SUMMARY OF KEY ISSUES

The EC sections 48660 and 48916.1(d) provide, respectively, for the allowable grade spans of CDSs and educational services for expelled students. EC Section 48916.1(a) requires school districts to ensure that each of their expelled students be provided an educational program during the period of expulsion. Consistent with this statutory framework, the Riverdale Joint Unified School District (JUSD) originally operated a CDS for students in grades seven through twelve.

In 2010, the Riverdale JUSD identified a need to also be able to serve expelled fifth and sixth grade students in the CDS. The Fresno County Office of Education does not serve expelled students in these grades. The closest school district that serves elementary expelled students is 33 miles away, which is too distant for successful transportation.

SUMMARY OF KEY ISSUES (Cont.)
As a small rural district, the Riverdale JUSD cannot support two CDSs under the current extreme fiscal conditions. Implementation of Assembly Bill X4 2, the 2009 education budget trailer bill, froze most CDS monies to school districts for the 2007–08 school year. Indirectly, the legislation eliminated the funding of any new small district CDS funding waivers that would have made it possible for Riverdale JUSD to establish a second CDS for the additional grade span.

While expanding the grade span to include students from grade five through twelve is not ideal, the Riverdale JUSD believes that this is a workable, as well as a necessary solution. The CDS consists of one self-contained class with one teacher and an instructional aide. As a very small district, the Riverdale JUSD finds it is very hard to predict when and if a student in any specific grade level will need to be served by a CDS. This means that at any given time, all of the students might be in elementary grades, middle grades, or any combination of these grades—just as at any time it is equally possible that no student in any one of these grade spans might be enrolled. Eligibility of any student below grade seven will be determined on a case-by-case basis. At no time does the district expect more than twelve students to be enrolled, with at most half in grades five or six.

The Riverdale JUSD is requesting this waiver until the fiscal crisis is over. When that time comes, the district intends to apply to open a second CDS for elementary students, in accordance with normal statutory grade span guidelines.

The local board voted unanimously to approve the waiver request. The local bargaining unit is neutral. The schoolsite councils for the elementary, high school, and CDS were all consulted and had no objections.

The Department recommends approval of the waiver.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC Section 33051(a). “The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.”

Demographic Information: The Riverdale JUSD has a student population of 1,520 and is located in a rural community in Fresno County.
Authority for Waiver: EC Section 33050
Period of request: September 25, 2011, to September 26, 2012

Local board approval date(s): May 11, 2011

Public hearing held on date(s): May 11, 2011

Bargaining unit(s) consulted on date(s): March 8, 2011

Name of bargaining unit/representative(s) consulted:
Riverdale Teachers Association, Donna Drieth, President

Position of bargaining unit(s) (choose only one):
☒ Neutral ☐ Support ☐ Oppose

Comments (if appropriate): None submitted

Public hearing advertised by (choose one or more):
☐ posting in a newspaper ☒ posting at each school ☐ other:

Advisory committee(s) consulted: Riverdale Elementary Schoolsite Council;
Riverdale High School and Riverdale Community Day Schoolsite Council

Objections raised (choose one): ☒ None ☐ Objections are as follows:
All support the waiver request.

Date(s) consulted: Riverdale Elementary Schoolsite Council, March 28, 2011;
Riverdale High School and Riverdale Community Day Schoolsite Council,
May 2, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval or denial.

Local board approval date: (Required)
May 11, 2011

Date of public hearing: (Required)
May 11, 2011

Per Barbara Mugrare DS 6-16-11
LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular
Education Code or California Code of Regulations section(s) to be waived (number):
48660 & 48916.1d
Circle One: EC or CCR

Topic of the waiver: Grade span served in Community Day School

2. If this is a renewal of a previously approved waiver, please list Waiver Number:
15-9-2010-W-11 _ and date of SBE Approval__ 11-10-10

Renews of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No X Yes __
If yes, please complete required information below:

Bargaining unit(s) consulted on date(s):
03/08/2011

Name of bargaining unit and representative(s) consulted:
Riverdale Teacher Association-Donna Drieth, President

The position(s) of the bargaining unit(s):
X Neutral __ Support ___ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held
during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does
not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time,
date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal
notice at each school and three public places in the district.

How was the required public hearing advertised?

X Notice in a newspaper _ _ Notice posted at each school ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Date the committee/council reviewed the waiver request:
Riverdale Elementary School Site Council – 03/28/2011
Riverdale High School and Riverdale Community Day School Site Council – 05/2/2011

Were there any objection(s)? No X Yes ___ (If there were objections please specify)
6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

48660 – Ed Code
48916.1d – Ed Code
See Attached

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Riverdale Unified would like to apply for a one year waiver to change the Community Day School grade span.

We believe that in order to improve educational options for expelled students in grade 5-6 and to allow them to remain in the community, this waiver would be beneficial. Fresno County Department of Education does not offer any community or court school for students in these grades. There are no means of transportation for these students to reach a community day school at another district, as it is too far.

Currently, our programs (5-6) are fully impacted and hiring a new teacher at this time is not an option. Opening a second community day school to serve elementary students is not an option, physically not possible. Any student below 7th grade, will be decided on a case to case basis. If we have any 5th or 6th graders in our Community Day School, it would probably be a maximum of 5 students at any one time.

8. Demographic Information:
Riverdale Joint Unified School District has a student population of 1520 and is located in a rural community (urban, rural, or small city etc.) in Fresno County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No X Yes □
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No X Yes □
(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Signature of Superintendent or Designee: Title: Superintendent Date: May 11, 2011

FOR CALIFORNIA DEPARTMENT OF EDUCATION USE ONLY

Staff Name (type or print): Staff Signature: Date:

Unit Manager (type or print): Unit Manager Signature: Date:

Division Director (type or print): Division Director Signature: Date:

Deputy (type or print): Deputy Signature: Date:
48660. The governing board of a school district may establish one or more community day schools for pupils who meet one or more of the conditions described in subdivision (b) of Section 48662. A community day school may serve pupils in any of kindergarten and grades 1 to 6, inclusive, or any of grades 7 to 12, inclusive, or the same or lesser included range of grades as may be found in any individual middle or junior high school operated by the district. If a school district is organized as a district that serves kindergarten and grades 1 to 8, inclusive, but no higher grades, the governing board of the school district may establish a community day school for any kindergarten and grades 1 to 8, inclusive, upon a two-thirds vote of the board. It is the intent of the Legislature, that to the extent possible, the governing board of a school district operating a community day school for any of kindergarten and grades 1 to 8, inclusive, separate younger pupils from older pupils within that community day school. Except as provided in Section 47634, a charter school may not receive funding as a community day school unless it meets all the conditions of apportionment set forth in this article.

48916.1d If the pupil who is subject to the expulsion order was expelled from any of kindergarten or grades 1 to 6, inclusive, the educational program provided pursuant to subdivision (b) may not be combined or merged with educational programs offered to pupils in any of grades 7 to 12, inclusive. The district or county program is the only program required to be provided to expelled pupils as determined by the governing board of the school district. This subdivision, as it relates to the separation of pupils by grade levels, does not apply to community day schools offering instruction in any of kindergarten and grades 1 to 8, inclusive, and established in accordance with Section 48660.
Federal Waiver

SUBJECT

Request by seven districts for a waiver of Section 131(c)(1) of the Carl D. Perkins Career and Technical Education Improvement Act of 2006 (Public Law 109-270).

RECOMMENDATION

☒ Approval ☐ Approval with conditions ☐ Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Section 131(c)(1) of the Carl D. Perkins Career and Technical Education Improvement Act of 2006 (Public Law 109-270) (Perkins Act) requires local educational agencies (LEAs) whose allocations are less than $15,000 to enter into a consortium with other LEAs for the purpose of meeting the $15,000 minimum grant requirement. Section 131(c)(2) of the Perkins Act permits states to waive the consortium agreement if the LEA is in a rural, sparsely populated area and is unable to join a consortium.

The SBE has approved all waivers of this statute that have been presented to them to date.

SUMMARY OF KEY ISSUES

The criterion for qualifying for this waiver is demonstration that the LEAs cannot form or join a consortium that handles the Perkins funds. There are no other districts in the local area willing to join in a consortium. Districts are located in various rural counties, and have student populations ranging from 98 to 2,389. Districts are seeking waivers to function independently in order to meet the needs of the students in the district. The Department recommends approval of these waivers.
Authority for Waiver: Federal Waiver Authority (Public Law 109-270) Section 131(c)(2)

Period of request: July 1, 2011, to June 30, 2015

Local board approval date(s): Various

FISCAL ANALYSIS (AS APPROPRIATE)

Approval will enable these districts to receive an annual Perkins Act allocation that is listed on attachment 1. The waivers have no significant effect on the distribution of Perkins Act funds statewide.

U.S. Code, Section 2351(c)(1) and (2) or [P.L. 109-270 Section 131(c)(1) and (2)]

(c) Minimum Allocation
   (1) In general
   Except as provided in Paragraph (2), a local educational agency shall not receive
   an allocation under subsection (a) unless the amount allocated to such agency
   under subsection (a) is greater than $15,000. A local educational agency may
   enter into a consortium with other local educational agencies for the purposes of
   meeting the minimum allocation requirement of this paragraph.
   (2) Waiver
   The eligible agency shall waive the application of paragraph (1) in any case in
   which the local educational agency --
      (A)(i) is located in a rural, sparsely populated area, or
      (ii) is a public charter school operating a secondary school career
          and technical educational program; and
      (B) demonstrates that the local educational agency is unable to enter into
          a consortium for purposes of providing activities under this part (20
          U.S.C.A. § 2351 et seq.)

Background
Participating local education agencies (LEAs) may enter into a consortium with other
agencies for the purposes of meeting the minimum allocation requirement in the above
paragraph. However, in some remote or sparsely populated areas of the state, the
consortium plan is not possible or reasonable. In these cases, the State Board approves
multi-year waivers of the consortium requirement in keeping with (and subject to the
conditions set forth in) the evaluation guidelines below.

The California Department of Education (CDE) Waiver Office has processed many
waivers in the past, all of which were approved by the State Board of Education. CDE
staff ensures that only waiver requests consistent with the evaluation guidelines are
placed on the State Board’s consent calendar for waivers.
Evaluation Guidelines

The LEA is:

- A district or agency will be considered a rural, sparsely populated area if all high schools in the LEA are located in one of the following locale codes (as defined by National Center for Education Statistics (NCES) Locale Codes 31, 32, 33, 41, 42, and 43,

- A district or agency in a rural code 23 may be considered rural if the LEA meets the following criteria
  - located more than five miles from a city with a population of 85,000 or less, and
  - located in a suburb with a population of 7,000 or less, and
  - LEA has a total enrollment of less than 1,000 students district wide, OR

- A public charter school operating secondary vocational and technical education programs (as evidenced by a State Board of Education issued charter number), AND

The LEA:

- Demonstrates that it is unable to enter into a consortium for purposes of providing activities under this section (as evidenced by a description from the LEA or CDE of efforts to enter into a consortium).

These specific waivers shall be granted for no more than four consecutive years as a district’s annual Perkins allocation is expected to be less than the $15,000 minimum grant amount during each year of the approved waiver. A district’s eligibility under the above criteria for the consortium waiver is also expected to remain unchanged for this same time period.

For Information Only
Under SPECIAL RULE, each eligible agency distributing funds under this section shall treat a secondary school funded by the Bureau of Indian Affairs within the State as if such school were a local educational agency within the State for the purpose of receiving a distribution under this section.

CALIFORNIA DEPARTMENT OF EDUCATION  

FEDERAL WAIVER REQUEST  

Carl D. Perkins Program Waiver  

http://www.cde.ca.gov/re/lr/wr/ 

Local educational agency: DUNSMUIR JOINT UNION HIGH SCHOOL DISTRICT for Dunsmuir High School  

Address: 5805 HIGH SCHOOL WAY, DUNSMUIR, CA 96025  

Period of request: (month/day/year) (4 years maximum)  

From: 7/1/11  To: 6/30/15  

Local board approval date: (Required)  

April 13, 2011  

LEGAL CRITERIA  

2. Federal Code Section to be waived: Carl D. Perkins Career and Technical Education Improvement Act of 2006, Public Law 109-270 Section 131(c)(1), that requires local agencies whose allocations are less than $15,000 to enter into a consortium with other agencies for the purpose of meeting the $15,000 minimum grant requirement.  

Section 131(d)(2) of the Career and Technical Education and Improvement Act of 2006 permits states to waive the consortium requirement in any case in which the local agency:  

(a) in a rural, sparsely populated area, or is a public charter school operating secondary vocational and technical education programs;  

(b) demonstrates it is unable to enter into a consortium to participate in the Perkins funding.  

Please document your efforts: renewal approval request # Fed-2-2008-WC-6 7/1/08 to 6/30/11  

4. Demographic Information:  

Dunsmuir Joint Union High School District has a student population of 98 and is located in a rural area in Siskiyou County.

Carl D. Perkins Program Waiver

Local educational agency: Fowler Unified School District
Contact name and Title: Janet Torosian-Leaning Director-CTE Coordinator
Eric Cederquist, Superintendent
559-834-6080
Contact person’s e-mail address: jtorosian@fowlerusd.org

Address: 658 East Adams Ave. Fowler 701 E. Main Street Fowler
(City) CA 93625-2111 (State) Calif. 93625 (ZIP)
Phone (and extension, if necessary): 559-834-6160 EXT 4025
Fax number: 559-834-3284

Period of request: (month/day/year) (4 years maximum)
From: July 1, 2011 To: July 1, 2015
Local board approval date: (Required)
June 22, 2011

2. Federal Code Section to be waived: Carl D. Perkins Career and Technical Education Improvement Act of 2006, Public Law 109-270 Section 131(c)(1), that requires local agencies whose allocations are less than $15,000 to enter into a consortium with other agencies for the purpose of meeting the $15,000 minimum grant requirement.

Section 131(d)(2) of the Career and Technical Education and Improvement Act of 2006 permits states to waive the consortium requirement in any case in which the local agency:

(a) is in a rural, sparsely populated area, or is a public charter school operating secondary vocational and technical education programs;

(b) demonstrates it is unable to enter into a consortium to participate in the Perkins funding.

Please document your efforts: Fowler Unified is a small school district located in a rural area which makes it difficult to enter into a consortium with another school. The funding for the 2011-12 year is only $157.00 short of $15,000 and the time, cost, and the manpower required to enter into a consortium is not feasible.

4. Demographic Information:
Fowler Unified School District has a student population of 2389 and is located in a rural area in Fresno County.

District or County Certification – I hereby certify that the information provided on this application is correct.

Section 131(d)(2) of the Career and Technical Education and Improvement Act of 2006 permits states to waive the consortium requirement in any case in which the local agency:

- **(a)** is in a rural, sparsely populated area, or is a public charter school operating secondary vocational and technical education programs;
- **(b)** demonstrates it is unable to enter into a consortium to participate in the Perkins funding.

Please document your efforts: San Lorenzo Valley High School is located in a rural area and is the only comprehensive high school in the San Lorenzo Unified School District. Our current student population is 726 students serving grades 9-12. The district is 17 miles north of Santa Cruz. There are 3 main towns (Felton, Ben Lomond, Boulder Creek) that feed into the high school. Tourism provides some local jobs, but more than ½ of our parents commute to Santa Cruz or the Silicon Valley. The school district is the largest employer in San Lorenzo Valley.

4. Demographic Information:  
San Lorenzo Valley High School has a student population of 726 and is located in a rural **area in Santa Cruz County.**

FEDERAL WAIVER REQUEST

FW-1 (Rev. 10-2-2009)  http://www.cde.ca.gov/re/lr/wr/

Send Original plus one copy to:  Waiver Office, California Department of Education
Send electronic copy in Word and  back-up material to: waiver@cde.ca.gov

1430 N Street, Room 5602  Sacramento, CA 95814

Local educational agency:  Modoc Joint Unified School District
Name of school(s):  Modoc High School
Address:  900 N. Main Street  Alturas  CA  96101
Phone (and extension, if necessary):  (530) 233-7201 ext. 401
Fax number:  (530) 233-7306

Period of request:  (month/day/year) (4 years maximum)  7/1/2011 to 6/30/2015
From:  06/01/2011  To:  05/31/2015

Legal Criteria

2. Federal Code Section to be waived: Carl D. Perkins Career and Technical Education Improvement Act of 2006, Public Law 109-270 Section 131(c)(1), that requires local agencies whose allocations are less than $15,000 to enter into a consortium with other agencies for the purpose of meeting the $15,000 minimum grant requirement.

Section 131(d)(2) of the Career and Technical Education and Improvement Act of 2006 permits states to waive the consortium requirement in any case in which the local agency:

(a) is in a rural, sparsely populated area, or is a public charter school operating secondary vocational and technical education programs;

(b) demonstrates it is unable to enter into a consortium to participate in the Perkins funding.

Perkins funding was below the requirement to maintain a consortium so the consortium dissolved. The Modoc Joint Unified School District is located 100 miles from the nearest city over 10,000 people. MJUSD is expecting to receive $6,715 in Perkins funding for the 2011/12 school year which is necessary to continue operating our CTE programs.

4. Demographic Information:

Modoc High School has a student population of 247 and is located in a rural area in Modoc County.

District or County Certification – I hereby certify that the information provided on this application is correct.

ITEM W-13
## Specific Waiver

### SUBJECT

Request by Aspire East Palo Alto Charter School under the authority of California Education Code Section 47612.6(a) to retroactively modify the terms of a previous waiver of Education Code Section 47612.5(c) that waived the audit penalty for offering less instructional time in the 2007–08 fiscal year at Aspire East Palo Alto Charter School for students in grade seven (shortfall of 24,030 minutes).

Waiver Number: 49-6-2011

### RECOMMENDATION

☐ Approval  ☐ Approval with conditions  ☒ Denial

The California Department of Education recommends that the State Board of Education (SBE) deny the waiver request to retroactively modify the terms of a previously granted SBE waiver.

Aspire Palo Alto Charter School was required to offer 78,030 minutes in grade seven for fiscal year 2010-11, and reported that 76,720 minutes were offered. Since Aspire East Palo Alto Charter School did not meet the terms of the original waiver, the school will be required to pay the instructional time penalty of $137,983.

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Previous specific SBE action with respect to this waiver request is as follows:

In May 2010, the SBE approved a waiver of audit penalties for offering less instructional time than required by Education Code (EC) Section 47612.5 (a) for Aspire East Palo Alto Charter School with the condition that Aspire East Palo Alto Charter School provide the number of minutes that it was short, in addition to the required instructional minutes in grade seven in school years 2010–11 and 2011–12. The request for the waiver was made in October 2009. At the beginning of 2009–10, the requirement for grade seven was 54,000 instructional minutes. Per the approved waiver, Aspire East Palo Alto Charter School was to offer a total of 78,030 (54,000 + 24,030) instructional minutes in grade seven in 2010–11, and a total of 78,030 (54,000 + 24,030) instructional minutes in grade seven in 2011–12.

When the waiver was approved, the required instructional minutes for all grades had
SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION (Cont.)

been reduced pursuant to legislation for fiscal years 2009–10 through, and including 2012-13. The required instructional minutes for grade seven had been reduced from 54,000 to 52,457 minutes.

Aspire East Palo Alto Charter School is requesting that the amount of instructional time it is required to maintain for grade seven in 2010–11 and 2011–12, per its waiver, be consistent with instructional time required by statute plus the amount of time that it needs to make up. This equates to 76,487 (52,457 + 24,030) minutes.

This waiver is eligible for the consent calendar. The school meets the criteria for the SBE Streamlined Waiver Policy, http://www.cde.ca.gov/re/lr/wr/documents/sbestreamlined.doc, achieving a school Academic Performance Index (API) of 800 or above in the current scoring cycle. Aspire East Palo Alto Charter School has a 2010 API of 882.

SUMMARY OF KEY ISSUES

During an audit of annual instructional minutes for 2007–08, it was discovered that Aspire Public Schools failed to offer the required number of minutes at Aspire East Palo Alto Charter School for grades five, seven, and eight. The shortage occurred because one teacher in grade five, two teachers in grade seven, and two teachers in grade eight did not have valid credentials to teach core subjects in accordance with EC Section 47605 (l). The disallowed minutes were deducted from the total offered, which caused grades five, seven, and eight to have a deficit of 1,605, 24,030, and 16,110 minutes, respectively. In order to correct this problem, the school has agreed to verify documentation prior to hiring any employee.

In May 2010, the SBE approved a waiver of audit penalties for offering less instructional time than required by EC Section 47612.5 (c) for Aspire East Palo Alto Charter School with the condition that Aspire East Palo Alto Charter School provide the number of minutes that it was short, in addition to the required instructional minutes in grade seven in school years 2010–11 and 2011–12. The request for the waiver was made in October 2009. Per the approved waiver, Aspire East Palo Alto Charter School was to offer a total of 78,030 (54,000 + 24,030) instructional minutes in grade seven in 2010–11, and a total of 78,030 (54,000 + 24,030) instructional minutes in grade seven in 2011–12.

When the waiver was approved, statutorily required instructional minutes for grade seven had been reduced from 54,000 to 52,457 minutes and the school is requesting that the previously approved waiver also be modify to reflect the 52,457 annual minute requirement for a total offering of 76,487 (52,457 + 24,030) minutes. The school offered 76,720 minutes in grade seven in 2010–11. The 76,720 minutes offered was short of the 78,030 required by the SBE approved waiver, but is sufficient to meet the requested modification of 76,487 minutes.
SUMMARY OF KEY ISSUES (Cont.)

Aspire East Palo Alto Charter School met the terms of the May 2010 waiver by offering sufficient minutes in grades five and eight.

The Department recommends denial of this waiver request since Aspire East Palo Alto Charter School did not meet the terms of the waiver granted in May 2010. The condition of that waiver clearly stated that the school must offer 78,030 minutes in grade seven. As a result of failing to meet the terms of the waiver, Aspire East Palo Alto Charter School will be required to repay the $137,983 original audit penalty.

Demographic Information: Aspire East Palo Alto Charter School has a student population of 458 and is located in the city of Ravenswood in San Mateo County.

Authority for Waiver: EC Section 47612.6

Period of request: July 1, 2007 to June 30, 2008

Local board approval date(s): July 22, 2011

Bargaining unit(s) consulted on date(s): There are no bargaining units

FISCAL ANALYSIS (AS APPROPRIATE)

2007-08 penalty amount of $137,983 is calculated as follows:

49.32 Average Daily Attendance (ADA) for students in grade seven multiplied by $6,287 (base revenue limit) is equal to $310,074.84.

A 24,030 shortfall of ADA divided by the 54,000 instructional minute requirement is equal to 24.08 percent of minutes not offered.

$310,074.84 multiplied by 24.08 percent is equal to $137,983 penalty if this waiver is not approved.

October 26, 2009 (Original Waiver)
July 22, 2011 (Revised Waiver)

LEGAL CRITERIA

Authority for the waiver:
Education Code (EC) Section 47612.6. (a) The State Board of Education may waive fiscal penalties calculated pursuant to subdivision (c) of Section 47612.5 for a charter school that fails to offer the minimum number of instructional minutes required pursuant to subdivision (a) of Section 47612.5 for the fiscal year.

1. **Education Code or California Code of Regulations**

Section to be waived: Education Code (EC) Section 47612.5. (c) A reduction in apportionment made pursuant to subdivision (a) shall be proportional to the magnitude of the exception that causes the reduction. For purposes of paragraph (1) of subdivision (a), for each charter school that fails to offer pupils the minimum number of minutes of instruction specified in that paragraph, the Superintendent shall withhold from the charter school’s apportionment for average daily attendance of the affected pupils, by grade level, the sum of that apportionment multiplied by the percentage of the minimum number of minutes of instruction at each grade level that the charter school failed to offer.

2. **Required attachments:**

Following is a list of additional documentation to be enclosed with the waiver request.

- Copy of the final audit finding showing penalty amount and shortage information, and your response to the audit finding.
- At least two years worth of proposed bell schedule(s) and school calendar(s) for the required make-up of time, showing all full and partial instructional days, student free days, etc.
- Explain:
  - Why shortage occurred
  - Number of minutes short and what grade levels were affected
  - How many grade levels you serve (to be able to follow affected students for two-years)

Demographic Information:
Aspire East Palo Alto Charter School has a student population of 400 students and is located in East Palo Alto (urban) in San Mateo County.

District or county certification – I hereby certify that the information provided on this application is correct and complete.

2.

Why shortage occurred
This waiver is a request to modify the existing waiver which was approved by the State Board of Education in March 2010.

Here is the sequence of events:

- In FY 2007/8 Aspire East Palo Alto Charter School had an audit finding for having an uncredentialed teacher in 7th grade, and, therefore, the school was short of the minimum required number of minutes for 7th grade by 24,030 minutes.

- In October 2009 Aspire East Palo Alto Charter School submitted a waiver request to the California Department of Education Waiver Office to add 24,030 minutes to the minimum required minutes for 7th grade in FY 2010/11 and FY 2011/12. At the time the school submitted the waiver, the minimum number of minutes was 54,000 for 7th grade.

- The waiver was approved by the State Board of Education as submitted in March 2010. The chart below shows what the SBE approved in 2010.

- A month before the SBE approved the waiver, the state revised the audit guide showing a reduction in the minimum required instructional minutes for all grades in FY 2009/10 through FY 2011/12. For 7th grade, the minimum number of instructional minutes dropped from 54,000 to 52,457 minutes.

- In FY 2010/11, Aspire East Palo Alto Charter School added 24,030 minutes to the minimum required minutes of 52,457. However, because the waiver was originally written with a minimum required minutes of 54,000, the school is resubmitting the waiver petition. The school has added two weeks to the end of its school year and will have offered 76,500 minutes of instructional time to its 7th graders this year.

Number of minutes short and what grade levels were affected
See chart below

How many grade levels you serve (to be able to follow affected students for two-years)
Aspire East Palo Alto Charter School serves students in K-8. Because the instructional minute penalty in FY 2007/8 was for 7th grade, and the school only serves grades K-8, we are not able to follow the affected students for two years. For this reason, we are asking that the minutes be made up in the 7th grade, which the State Board of Education approved in FY 2009/10 when the original waiver was approved.

Because in 2008/09 and 2009/10, Grade 8 is making up instructional minutes for deficit minutes in Grade 8 from FY 2007/8, school requests that this instructional minute penalty for Grade 7 be addressed in FY 2010/11 and FY 2011/12.

* School only goes to 8th grade so affected students cannot be followed to 10th or 11th grades.
General Waiver

SUBJECT
Request by King City Union School District to waive California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at Del Rey Elementary School and Santa Lucia Elementary School.

(Requesting 26.4:1 student ratio on average in core classes in kindergarten, 24.7:1 grade one, 25.1:1 grade two, 28.8:1 grades three and four, and 29.9:1 for grade five at Del Rey Elementary School. Requesting 26.3:1 student ratio on average in core classes in kindergarten, 24.1:1 grade one, 25.9:1 grade two, 28.5:1 grades three and four, and 26.1 for grade five at Santa Lucia Elementary School. Also requesting the following student ratios on average in core classes for the 2011–12 school year at Del Rey Elementary School: kindergarten 20.83, grade one 21.0, grade two 20.50, grade three 20.83, grades four and five 23.0; and Santa Lucia Elementary School kindergarten 23.67, grade one 23.17, grade two 18.67, grade three 21.33, grade four 23.0, and grade five 23.60.)

Waiver Number: 52-4-2011

RECOMMENDATION

☐ Approval ☐ Approval with conditions ☒ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the May 2011 State Board of Education (SBE) Meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.
SUMMARY OF PREVIOUS (Cont.)

- 10 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.

Former SBE President Theodore R. Mitchell stated that the SBE would be willing to entertain specific petitions that meet the spirit of the QEIA regulation by setting absolute caps for average class size that are below the QEIA mandate and applying averages for grade ranges to meet targets that are appropriate given the circumstances at the schools.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including CSR, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to reduce class sizes by five students compared to class sizes in the base year (either 2005–06 or 2006–07), or to an average of 25 students per classroom, whichever is lower, with no more than 27 students per classroom regardless of the average classroom size. The calculation is done by grade level, as each grade level has a target average class size based on QEIA CSR rules. For small schools with a single classroom at each grade level, some grade level targets may be very low. If, for example, a school had a single grade four classroom of 15 students in 2005–06, the school’s target QEIA class size for grade four is 10 students. Absent a waiver, an unusually low grade level target may result in a greater number of combination classes at the school, or very small classes at the grade level, which is prohibitively costly and may result in withdrawal or termination from the program.

King City Union School District (USD) is a rural school district located in Monterey County. Del Rey Elementary School (ES) and Santa Lucia Elementary School (ES) are two of three schools in the district serving kindergarten through grade five. In 2010–11, Del Rey ES served 734 students and Santa Lucia ES served 737 students. The district provided class size information from 2005–06, the base year upon which QEIA CSR targets are calculated, showing that the average size of core classes of English, mathematics, history-social science, and science at Del Rey ES in kindergarten through grade three is 20.4, and grades four and five are 24.0 and 28.3, respectively. The average size of core classes at Santa Lucia ES in kindergarten through grade three is 20.4, and grades four and five are 24.6 and 26.5, respectively. Thus, the QEIA CSR target at Del Rey ES for kindergarten through grade three is 20.4, and grades four and five are 19.0 and 23.3, respectively. The QEIA CSR target at Santa Lucia ES for kindergarten through grade three is 20.4, and 19.6 and 21.5 for grades four and five, respectively.
SUMMARY OF KEY ISSUES (Cont.)

King City USD states that they were in severe financial duress during the period of November 2007 through October 2009. In order to improve King City USD’s fiscal condition and avoid state receivership, King City USD’s Governing Board took action to eliminate non-Special Education Home to School Transportation, cut custodial staff by fifty percent, and eliminate non-essential support staff. In addition, the Governing Board took action to lay-off thirty-two teachers and this action raised class sizes to 30:1 at all grade levels beginning in the 2009–10 school year. Neither school met the QEIA CSR targets for the 2009–10 school year and will again miss the targets in 2010–11. King City USD claims the larger class sizes did not negatively affect student achievement, as both schools had increases in Academic Performance Index and Adequate Yearly Progress scores during the 2009–10 school year.

King City USD requests a waiver of the QEIA CSR targets for the 2010–11 school year for Del Rey ES and Santa Lucia ES and the establishment of alternative CSR targets as follows:

- For Del Rey ES: 26.4 students per classroom on average in core classes in kindergarten, 24.7 in grade one, 25.1 in grade two, 28.8 in grades three and four, and 29.9 in grade five.
- For Santa Lucia ES: 26.3 students per classroom on average in core classes in kindergarten, 24.1 in grade one, 25.9 in grade two, 28.5 in grades three and four, and 26.1 in grade five.

King City USD also requests a waiver of the QEIA CSR targets for the 2011–12 school year for Del Rey ES and Santa Lucia ES and the establishment of alternative CSR targets as follows:

- For Del Rey ES: 20.83 students per classroom on average in core classes in kindergarten, 21.0 in grade one, 20.50 in grade two, 20.83 in grade three, and 23.0 in grades four and five.
- For Santa Lucia ES: 23.67 students per classroom on average in core classes in kindergarten, 23.17 in grade one, 18.67 in grade two, 21.33 in grade three, 23.0 in grade four, and 23.60 in grade five.

Both Del Rey ES and Santa Lucia ES did not meet the QEIA CSR monitoring requirements in 2009–10 and received formal notification that QEIA funding is subject to termination if any program requirements are found not to have been met in 2010–11 or any subsequent year. QEIA CSR targets have not been met again in 2010–11. Since receiving QEIA funding, class sizes have increased over 2005–06 base year amounts. (See Attachment 4.)

For school year 2009–10 and 2010–11, Del Rey ES received QEIA funding of $455,313 and $472,300, respectively. For school year 2009–10 and 2010–11, Santa Lucia ES received QEIA funding of $464,803 and $467,100, respectively.
SUMMARY OF KEY ISSUES (Cont.)

The Department recommends denial of this request based on two factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; and (2) QEIA funding is expected to be used to hire teachers resulting in significantly reduced class sizes for students at QEIA schools.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: King City Union School District has a student population of 2,394 students and is located in Monterey County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2010, to June 30, 2014

Local board approval date(s): March 16, 2011

Public hearing held on date(s): March 16, 2011

Bargaining unit(s) consulted on date(s): March 10 and 21, 2011

Name of bargaining unit/representative(s) consulted: California School Employees Association, Debbie King, President; King City Elementary Teacher’s Association, Helen Barge, President

Position of bargaining unit(s) (choose only one):
☐ Neutral  ☒ Support  ☐ Oppose:

Comments (if appropriate):

Public hearing advertised by (choose one or more):
☐ posting in a newspaper  ☒ posting at each school  ☐ other (specify)
Advisory committee(s) consulted: Del Rey Elementary School, Schoolsite Council; Santa Lucia Elementary School, School Site Council

Objections raised (choose one): ☒ None ☐ Objections are as follows:

Date(s) consulted: March 11, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the reduced class size targets based on the statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

Address: 435 Pearl Street, King City  California 93930

Phone (and extension, if necessary): 831.385.2232  
Fax Number: 831.386.0372

Period of request: From: July 1, 2009  To: June 30, 2011

Local board approval date: March 16, 2011

Date of public hearing: March 16, 2011

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number):  52055.740 (a) (1) A-D  Circle One: EC

   Topic of the waiver: Relief from class size requirements

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _n/a_ and date of SBE Approval ______ Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No  ___ Yes  If yes, please complete required information below:

   Bargaining unit(s) consulted on date(s):  March 21, 2011 (KCETA), March 10, 2011 (CSEA)

   Name of bargaining unit and representative(s) consulted:  Helen Barge, President, King City Elementary Teacher’s Assoc., Debbie King, President, California School Employees Association (King City)

   The position(s) of the bargaining unit(s):  __ Neutral  ___ Support  ___ Oppose (Please specify why)

4. Public hearing requirement:  A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

   How was the required public hearing advertised?

   ___ Notice in a newspaper   ___ Notice posted at each school  ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:  Del Rey School Site Council and Santa Lucia School Site Council

   Date the committee/council reviewed the waiver request:  March 11, 2011 and March 11, 2011 (respectively)

   Were there any objection(s)?  No ___ Yes ___ (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

52055.740. (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

(i) Meet all of the following class size requirements:

(A) For kindergarten and grades 1 to 3, inclusive, no more than 20 pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).

(B) For self-contained classrooms in grades 4 to 8, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

(i) At least five pupils fewer per classroom than was the average in 2006-07.

(ii) An average of 25 pupils per classroom.

(iii) For purposes of this subparagraph, average classroom size shall be calculated at the grade level based on the number of self-contained classrooms in that grade at the schoolsite. If the self-contained classrooms at the school averaged fewer than 25 pupils per classroom during the 2005-06 school year, that lower average shall be used as the "average in 2006-07" for purposes of this subparagraph. A school that receives funding under this article shall not have a self-contained classroom in grades 4 to 8, inclusive, with more than 27 pupils regardless of its average classroom size.

(C) For classes in English language arts, reading, mathematics, science, or history and social science courses in grades 4 to 12, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

(i) At least five pupils fewer per classroom than was the average in 2006-07.

(ii) An average of 25 pupils per classroom.

(iii) For purposes of this subparagraph, average classroom size shall be calculated at the grade level based on the number of subject-specific classrooms in that grade at the schoolsite. If the subject-specific classrooms at the school averaged fewer than 25 pupils per classroom during the 2005-06 school year, that lower average shall be used as the "average in 2006-07" for purposes of this subparagraph. A school that receives funding under this article shall not have a class in English language arts, reading, mathematics, science, or history and social science in grades 4 to 12, inclusive, with more than 27 pupils regardless of its average classroom size.

(D) Not increase any other class sizes in the school above the size used during the 2005-06 school year. If a funded school has a low-enrollment innovative class, it may increase the number of pupils in that class to a number that does not exceed the schoolwide average.
7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

When King City Union School District applied for and won approval of Quality Education Investment Act (QEIA) funding, schools in California were financed on a significantly different basis than they are today or are projected to be in the future. The District is receiving $2,400,000 less in Revenue Limit Income annually than it received during the 2007-08 school year. The King City Union School District operates two regular K-5 Elementary Schools, one K-5 Charter School and one 6-8 Middle School. Both of its regular Elementary Schools receive QEIA funding. These two schools comprise 68% of the District’s General Fund Enrollment. Due to the district’s reduction in Unrestricted Revenues, and the significant number of students participating in the QEIA program, the fiscal resources that were available at the time the district made application for the program, and were anticipated to remain available throughout the years of QEIA funding, no longer exist.

For the period of November, 2007 through October, 2009, the district was in severe financial duress and under AB1200 direct supervision by the Monterey County Office of Education, replete with a Fiscal Advisor, two Fiscal experts and a Fiscal Review by FCMAT. Our financial duress was due partially our own actions, including the sharing of administration with the King City Joint Union High School District. The district’s financial crisis was further compounded by the State’s financial difficulties. The district’s financial problems were determined to be caused by the fact that in the 2007/08 school year, the District had $23.5 million in expenditures, with only $19 million in revenue. In order to improve the district’s fiscal condition and avoid state receivership, the district’s Governing Board in mid-2008/09 took action to eliminate non-Special Ed Home to School Transportation, cut Custodial Staff by 50%, and eliminate non-essential support staff. Additionally, and most significantly, the Governing Board took action lay-off 32 teachers for the following school year. This action raised class sizes to 30:1 at all grade levels beginning in the 2009/10 school year.

Given the parameters of the QEIA formula for CSR, grades K-3 at both Santa Lucia and Del Rey Schools would have to be maintained at 20.4 or below. At Del Rey School, grades 4 and 5 would have to be reduced to class sizes of 19.6 and 21.5, respectively. At Santa Lucia School, grades 4 and 5 would have to be reduced to class sizes of 19.0 and 23.3, respectively. The District, due to its small size and fiscal resources does not have the capacity or flexibility in its Unrestricted General Fund to maintain or reduce class sizes as required in the above referenced Education Code Section. With the flexibility provisions currently in place at the state level for class size reduction, QEIA funding does not approach the full funding of these exceptionally low class sizes.

During the 2008-09 school year, both Del Rey and Santa Lucia Schools met the CSR requirements of QEIA. Neither school met the CSR target for the 2009-10 school year. The larger class sizes did not negatively affect student achievement, as both schools had significant increases in API and AYP scores during the 2009-10 school year. The chart below details the rise in achievement between 2008-09 and 2009-10.

<table>
<thead>
<tr>
<th>School</th>
<th>2008-09</th>
<th>2009-10</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>API Growth or (Loss)</td>

<td>69 pts.</td>
<td>18 of 20</td>
</tr>
<tr>
<td>Santa Lucia</td>
<td>(32 pts.)</td>
<td>9 of 17</td>
</tr>
</tbody>
</table>

The District believe both QEIA schools are fully capable of meeting all QEIA programmatic goals for student achievement without complying with the CSR provisions contained in this Ed Code Section. Districts have had to be flexible in changing their operations in response to reduced financial resources; it is unfair that the QEIA program expects the District to comply with financial commitment provisions that were conceived during a period of greater abundance. To lose QEIA funding at Del Rey and Santa Lucia Schools would significantly impact the teaching and learning happening for our students.
8. Demographic Information:
   King City Union School District has a student population of 2,394 and is located in rural, Southern Monterey County. 59.1% of our students are English learners and 82.8% of our students are Socio-Economically Disadvantaged.

Schools participating in QEIA were monitored by their county offices of education for compliance with CSR requirements for the first time at the end of the 2008-09 school year and were required to demonstrate one-third progress toward full implementation of CSR requirements. Monitoring for compliance with second-year CSR requirements was completed to ensure that schools made two-thirds progress toward full implementation in the 2009-10 school year. Schools found to have not met all program requirements by the end of the 2010-11 school year will face funding termination.

Both Schools met one-third progress for full implementation of QEIA CSR requirements in 2008-09.
Both Schools did not meet two-thirds progress for full implementation of QEIA CSR requirements in 2009-10.
Both School will not meet the full implementation requirements of QEIA CSR in 2010-11.

Prepared by the California Department of Education
Revised on August 22, 2011
California Department of Education  
Executive Office  
SBE-005 General (REV. 10/2009)  

ITEM #W-15

CALIFORNIA STATE BOARD OF EDUCATION  
SEPTEMBER 2011 AGENDA  

General Waiver  

SUBJECT  
Request by Round Valley Unified School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at Round Valley Elementary School (requesting to average class sizes to 20:1 for grades four through eight as opposed to meeting individual grade level class sizes).  

Waiver Number: 9-6-2011  

RECOMMENDATION  

Approval  
Approval with conditions  
Denial  

The California Department of Education (CDE) recommends approval with the following conditions: (1) This waiver applies only to classes in grades four through eight at Round Valley Elementary School (ES); (2) Round Valley ES must reduce the average class sizes for grades four through eight so the class size average does not exceed 20.0 students at the school level in core classes in the 2010–11 school year and in all subsequent years in which the school receives Quality Education Investment Act (QEIA) funding; and (3) Within 30 days of approval of this waiver, Round Valley Unified School District (USD) must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the class size reduction (CSR) requirement.  

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION  

From March 2009 through the July 2011 State Board of Education (SBE) meeting, the CDE Waiver Office has presented 37 waivers related to the QEIA to the SBE. Of that number:  

- 30 were related to QEIA CSR requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.  

- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.  

Revised: 9/1/2011 4:07 PM
SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including CSR, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

QEIA schools are required to reduce class sizes by five students compared to class sizes in the base year (either 2005–06 or 2006–07), or to an average of 25 students per classroom, whichever is lower, with no more than 27 students per classroom regardless of the average classroom size. The calculation is done by grade level, as each grade level has a target average class size based on QEIA CSR rules. For small schools with a single classroom at each grade level, some grade level targets may be very low. If, for example, a school had a single grade four classroom of 15 students in 2005–06, the school’s target QEIA class size for grade four is ten students. Absent a waiver, an unusually low grade level target may result in a greater number of combination classes at the school, or very small classes at the grade level, which is prohibitively costly and may result in withdrawal or termination from the program.

Round Valley USD is a rural school district located in Mendocino County and has a student population of approximately 400 students. Round Valley ES serves students in grades kindergarten through eight. Round Valley USD provided class size information from 2006–07, the base year upon which QEIA CSR targets are calculated, showing that the average size of core classes of English, mathematics, history-social science, and science in grades four through eight ranged from 14.0 to 25 students.

Round Valley USD states because of Round Valley ES’s low academic performance, the Round Valley ES School Site Council and Round Valley USD determined that Round Valley USD would provide instruction in single grade level class configurations which does not include combination classes. Round Valley USD believes that this configuration will maximize grade level instruction time. The result of the CSR limits imposed through QEIA and Round Valley ES and Round Valley USD instructional decisions have led to the development of class sizes that are too small to be able to maintain fiscally.

Round Valley USD is asking that Round Valley ES be allowed to average class sizes for grade four through eight as opposed to meeting individual grade level class sizes as determined by the formula developed through QEIA. The class size average for grades four through eight would not exceed 20.0 students per class, the average of the current Quality Education Investment Act individual grade class size limit. Round Valley USD believes approving this waiver request would meet the spirit of the QEIA legislation to significantly reduce class sizes, while also allowing sufficient flexibility for Round Valley ES to address individual grade level class size fluctuations.
The Department supports Round Valley USD’s request to average class sizes for grades four through eight to meet its CSR target. This alternative method would be consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Round Valley Elementary School has a student population of 208 and is located in the isolated, rural community of Covelo in Mendocino County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2010, to June 29, 2012

Local board approval date(s): March 17, 2011

Public hearing held on date(s): March 17, 2011

Bargaining unit(s) consulted on date(s): March 14, 2011

Name of bargaining unit/representative(s) consulted: Round Valley Teacher’s Association, Rob Ruiz, President; Joe Russ, Vice President

Position of bargaining unit(s) (choose only one):
- Neutral
- Support
- Oppose

Comments (if appropriate):

Public hearing advertised by (choose one or more):
- posting in a newspaper
- posting at each school
- other Covelo Post Office;
- Keith’s Market; Round Valley Indian Tribes; Round Valley Indian Health Center; Round Valley Indian Housing Authority, TANF; Yuki Trails
Advisory committee(s) consulted: Round Valley Elementary School Site Council

Objections raised (choose one): ☑ None  ☐ Objections are as follows:

Date(s) consulted: March 15, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the reduced class size targets based on the statute to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number):  Circle One: EC or CCR : EC

Topic of the waiver: QEIA  CSR

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval______

Renews of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units?  __ No  _X_ Yes  If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): March 14, 2011

Name of bargaining unit and representative(s) consulted:

Round Valley Teacher’s Association  Rob Ruiz/Joe Russ

President/Vice President  kak 6/8/2011

The position(s) of the bargaining unit(s):  __ Neutral  _X_ Support  __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

_ X Notice in a newspaper  _ X Notice posted at each school  _ X Other: (Please specify) Covelo Post Office; Keith’s Market; Round Valley Indian Tribes; Round Valley Indian Health Center; Round Valley Indian Housing Authority; TANF; Yuki Trails

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver: Round Valley Elementary School Site Council

Date the committee/council reviewed the waiver request: March 15, 2011

Were there any objection(s)?  No  _X_ Yes  __ (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a *strike out key*).

EC 52055.740 (a) for each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

- **Meet all of the following class size requirements:**
  - **(A)** For kindergarten and grades 1 to 3, inclusive, no more than 20 pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).
  - **(B)** For self-contained classrooms in grades 4-8, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:
    - (i) At least five pupils fewer per classroom than was the average in 2006-07
    - (ii) An average of 25 pupils per classroom.

7. **Desired outcome/rationale.** Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

   Please see Attached

8. **Demographic Information:**

   Round Valley Elementary School has a K-8 student population of 208 and is located in the isolated, rural community of Covelo in Mendocino County.

Round Valley Elementary School  
Attachment to Waiver: Item 7: Desired outcome/rationale.

Round Valley Elementary School is a rural K-8 school located in the physically isolated community of Covelo, CA. During the year prior to QEIA funding (2006-07), the school offered a single class at each grade level. At that time, the base average class size, as calculated for QEIA class size reduction targets was:

- 4th grade: 32 students
- 5th grade: 23 students
- 6th grade: 37 students
- 7th grade: 19 students
- 8th grade: 22 students

Following the formula to 1) reduce class size to 5 students fewer than the base year average per classroom per grade (class sizes less than 30) or reduce class sizes to 25 (class sizes of 30 or more), class size reduction targets to be met by 2010-11 were set at the following:

- 4th grade: 25 students
- 5th grade: 18 students
- 6th grade: 25 students
- 7th grade: 14 students
- 8th grade: 18 students

Average class size, grades 4-8 = 20.0 students

Because of Round Valley Elementary School’s low academic performance, the Round Valley Elementary School Site Council and the District determined that the District would provide instruction in single grade level class configurations which does not include combination classes. The District believes that this configuration will maximize grade level instructional time. The result of the CSR limits imposed through QEIA and the school and district instructional decisions have led to the development of class sizes that are too small to be able to maintain fiscally.

The District is asking that Round Valley Elementary School be allowed to average class sizes for grade 4-8 as opposed to meeting individual grade level class sizes as determined by the formula developed through QEIA. The class size average for grades 4-8 would not exceed 20.0 students/class, the average of the current QEIA individual grade class size limit. We believe approving this waiver request would meet the heart of the QEIA legislation to significantly reduce class sizes, while also allowing sufficient flexibility for the school to address individual grade level class size fluctuations.

History of Class Size Averages (Grade 4-8) 2006-2011:

ITEM W-16
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

☐ General Waiver

SUBJECT

Request by Sacramento City Unified School District to waive portions of California Education Code Section 52055.740(a), regarding class size reduction requirements under the Quality Education Investment Act, that this funded school reduce its class sizes by an average of five students per class by the end of the 2010–11 school year at Luther Burbank High School (requesting 18.6:1 ratio on average in core classes in grade nine).

Waiver Number: 11-4-2011

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following conditions: (1) This waiver applies only to classes in grade nine at Luther Burbank High School (HS); (2) Luther Burbank HS must reduce the average class size at the school level to 18.6 students per classroom in core classes in grade nine in the 2010–11 school year and in all subsequent years in which the school receives Quality Education Investment Act (QEIA) funding; and (3) Within 30 days of approval of this waiver, Sacramento City Unified School District (USD) must provide to the CDE a description, including costs covered by QEIA funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the class size reduction (CSR) requirement.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) meeting, the CDE Waiver Office has presented 37 waivers related to the QEIA to the SBE. Of that number:

- 30 were related to QEIA CSR requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.
- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.
SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including CSR, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to reduce class sizes by five students compared to class sizes in the base year (either 2005–06 or 2006–07), or to an average of 25 students per classroom, whichever is lower, with no more than 27 students per classroom regardless of the average classroom size. The calculation is done by grade level, as each grade level has a target average class size based on QEIA CSR rules. For small schools with a single classroom at each grade level, some grade level targets may be very low. If, for example, a school had a single grade four classroom of 15 students in 2005–06, the school’s target QEIA class size for grade four is ten students. Absent a waiver, an unusually low grade level target may result in a greater number of combination classes at the school, or very small classes at the grade level, which is prohibitively costly and may result in withdrawal or termination from the program.

Sacramento City USD is an urban school district in Sacramento County and has a student population of approximately 47,897 students. Luther Burbank HS serves students in grades nine through twelve. Sacramento City USD provided class size information from 2005–06, the base year upon which QEIA CSR targets are calculated, showing that the average size of core classes of English, mathematics, history-social science, and science in grades nine through twelve range from 15.6 to 22.18 students.

Sacramento City USD states that Luther Burbank HS had already been implementing state and federal CSR programs to get the grade nine base level of 20.6. Luther Burbank HS did not anticipate that state and federal CSR funds would end nor did they anticipate that Sacramento City USD would increase the class size ratio funding formula resulting in fewer general fund teachers being allocated to the site. The QEIA funds, without the additional funding or formula assistance, have served to significantly reduce class size but not to the required goal of 15.6 for grade nine.

Sacramento City USD requests a waiver of the QEIA CSR target for grade nine and establishment of an alternative CSR target of 18.6 on average in core classes in grade nine.

The Department supports Sacramento City USD’s request to reduce its CSR target. This alternative target would be consistent with the intent of QEIA to ensure that students at funded schools benefit from lower class sizes.
Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Luther Burbank HS has a student population of 1,966 and is located in an urban area in Sacramento County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2010, to June 29, 2012

Local board approval date(s): June 2, 2011

Public hearing held on date(s): June 2, 2011

Bargaining unit(s) consulted on date(s): March 25, 2011

Name of bargaining unit/representative(s) consulted: Sacramento City Teachers Association, Linda Tuttle, President

Position of bargaining unit(s) (choose only one):

☐ Neutral  ☑ Support  ☐ Oppose:

Comments (if appropriate):

Public hearing advertised by (choose one or more):

☐ posting in a newspaper  ☐ posting at each school  ☑ other Sacramento City Unified School District Website and Main Office

Advisory committee(s) consulted: Luther Burbank School Site Council

Objections raised (choose one): ☑ None  ☐ Objections are as follows:

Date(s) consulted: March 7, 2011
FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the reduced class size targets based on the statute to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

Date the committee/council reviewed the waiver request: March 7, 2011

Were there any objection(s)? No  X  Yes ___ (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

52055.740. (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

1. Meet all of the following class size requirements:

   (A) For kindergarten and grades 1 to 3, inclusive, no more than 20 pupils per class, as set forth in the Class Size Reduction Program (Chapter 6.10 (commencing with Section 52120)).

   (B) For self-contained classrooms in grades 4 to 8, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

      (i) At least five pupils fewer per classroom than was the average in 2006-07.

      (ii) An average of 25 pupils per classroom.

      (iii) For purposes of this subparagraph, average classroom size shall be calculated at the grade level based on the number of self-contained classrooms in that grade at the school site. If the self-contained classrooms at the school averaged fewer than 25 pupils per classroom during the 2005-06 school year, that lower average shall be used as the "average in 2006-07" for purposes of this subparagraph. A school that receives funding under this article shall not have a self-contained classroom in grades 4 to 8, inclusive, with more than 27 pupils regardless of its average classroom size.

   (C) For classes in English language arts, reading, mathematics, science, or history and social science courses in grades 4 to 12, inclusive, an average classroom size that is the lesser of clause (i) or (ii), as follows:

      (i) At least five pupils fewer per classroom than was the average in 2006-07.

      (ii) An average of 25 pupils per classroom.

      (iii) For purposes of this subparagraph, average classroom size shall be calculated at the grade level based on the number of subject-specific classrooms in that grade at the school-site. If the subject-specific classrooms at the school averaged fewer than 25 pupils per classroom during the 2005-06 school year, that lower average shall be used as the "average in 2006-07" for purposes of this subparagraph. A school that receives funding under this article shall not have a class in English language arts, reading, mathematics, science, or history and social science in grades 4 to 12, inclusive, with more than 27 pupils regardless of its average classroom size.

   (D) Not increase any other class sizes in the school above the size used during the 2005-06 school year. If a funded school has a low-enrollment innovative class, it may increase the number of pupils in that class to a number that does not exceed the school-wide average.
7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Desired Outcome: To continue to receive QEIA funds to achieve all academic goals of the QEIA grant.

Rationale: The QEIA Grant requires participating schools to reduce class size averages in the math, science, English and social science classes at each grade level to a maximum of twenty five or reduce the average by five, whichever is lower. Luther Burbank has achieved that threshold at the 10th grade (20.55) 11th grade (21.52) and 12th grade (22.18) levels. While the school has reduced the average class size in 9th grade from 20.6 to 17.6 for the 2010-2011 school year, we do not have sufficient funds to reach the required 15.6 average.

The very low 9th grade threshold of 15.6 is due to the fact that the school had already been implementing state and federal class size reduction money to get to the 20.6 base level. The school did not anticipate that state and federal CSR funds would end nor did we anticipate that the school district would increase the class size ratio funding formula resulting in fewer general fund teachers being allocated to the site. The QEIA funds, without the additional funding or formula assistance, have served to significantly reduce class size but not to the required goal of 15.6 for 9th grade classes.

Luther Burbank High School is committed to continued implementation of the QEIA program, in which significant gains on the API have already been realized. The school is requesting that the State Board of Education support the school’s efforts, and allow for an adjusted ninth-grade QEIA target of 18.6.

8. Demographic Information:
Luther Burbank High School has a student population of 32% Hispanic, 42% Asian, 17% African American, 9% Other. 45% English Learner, 84.3% Low Income and is located in an Urban Area, in Sacramento County.

ITEM W-17
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

General Waiver

SUBJECT

Request by Los Angeles Unified School District to waive California Education Code Section 52055.750(a)(9) regarding funds expenditure requirements under the Quality Education Investment Act in order to allow funds from San Fernando Middle School and Lincoln High School to follow identified students who will be transferring to San Fernando Institute of Applied Learning and Leadership in Entertainment and Media Arts to ensure that they will not lose the benefits of the Quality Education Investment Act.

Waiver Number: 71-10-2010

RECOMMENDATION

☐ Approval ☐ Approval with conditions ☒ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved and 3 were approved with conditions, and 2 were withdrawn.

The SBE approved two similar funds expenditure requirement waivers requested by the Los Angeles Unified School District (USD) for Roosevelt High School (HS) at its March 2010 meeting. The first waiver allowed the QEIA funding to follow students transferring from the QEIA-funded Roosevelt HS to new schools on the same Roosevelt HS campus; the second waiver allowed the QEIA money from Roosevelt HS to follow the students to Mendez Learning Center through 2014.
SUMMARY OF PREVIOUS (Cont.)

The SBE approved a waiver requested by the Los Angeles USD for Alain LeRoy Locke Charter High School (Locke Charter HS) at the May 2009 SBE meeting. That waiver allowed QEIA funding to follow students transferring from the QEIA-funded Locke Charter HS to new schools on the same Locke Charter HS campus through 2014.

The SBE also approved a request concerning 16 Los Angeles USD schools in January 2009, with no action taken, and for a second time at its March 2009 meeting. In March, a motion to deny the waiver failed and the waiver was automatically granted under EC 33052 because the SBE did not take formal action on the waiver within two meetings. This waiver was renewed by the SBE in March of 2010, and is now applicable through 2014.

SUMMARY OF KEY ISSUES

San Fernando Middle School (MS) and Lincoln High School (HS) were chosen to participate in the QEIA program in 2006–07 with a population of approximately 1,659 students and 2,760 students, respectively. The students have been in the program since that time. This waiver is not requesting a change in the class size targets. However, the district states that it is meeting its targets satisfactorily.

The Los Angeles USD has stated that in the 2010–11 school year, it opened two small schools: (1) San Fernando Institute of Applied Learning and (2) Leadership in Entertainment and Media Arts. The Los Angeles USD is requesting that QEIA funds be allowed to follow approximately 400 students transferring from San Fernando MS to San Fernando Institute of Applied Learning, and approximately 430 students transferring from Lincoln HS to Leadership in Entertainment and Media Arts. The Los Angeles USD states that all students transferring to either San Fernando Institute of Applied Learning or Leadership in Entertainment and Media Arts are covered by QEIA funding at San Fernando MS and Lincoln HS.

The Department recommends denial of this waiver request because its approval would not adequately address the educational needs of pupils as described in EC Section 33051(a)(1). Allowing new schools to enter the program would potentially allow San Fernando MS and Lincoln HS to continue in the program when it is questionable whether either school will meet the 2010–11 API growth requirements of QEIA. If the QEIA API growth targets are not met in 2010-11, both schools will be terminated from the program; however, both schools will receive funding through the 2011–12 school year. (See Attachment 2.)

Quality Education Investment Act program requirements preclude new schools from participating in the program primarily due to the fact that a large number of schools that originally applied for participation had been excluded from the program due to funding limitations.

Additionally, the program has specific timelines for participation, and adding schools at this late date compacts that timeline and limits the ability of the new schools to

Revised: 9/1/2011 4:07 PM
demonstrate their success in the program. Schools that do not meet program
requirements stand to lose future QEIA funding, so these new schools would only
benefit from QEIA participation for a short time if they are unable to successfully
implement the program within the truncated timeline.

Further, due to the fact that QEIA funding is limited, approval of this waiver request
would require that the state limit funding for San Fernando MS, Lincoln HS, San
Fernando Institute of Applied Learning, and Leadership in Entertainment and Media Arts
to the level that has been currently provided to San Fernando MS and Lincoln HS.
Unanticipated growth at the schools could encroach on the program’s capacity to meet
its statewide funding requirements.

Demographic Information: Los Angeles Unified School District has a student
population of 678,441 and is located in an urban area in Los Angeles County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2011, to June 30, 2014

Bargaining unit(s) consulted on date(s): October 26, 2010

Name of bargaining unit/representative(s) consulted: United Teachers Los Angeles
(UTLA), Gregg Solkovits

Position of bargaining unit(s) (choose only one):
☒ Neutral ☐ Support ☐ Oppose:

Comments (if appropriate): None

Public hearing advertised by (choose one or more):
☒ posting in a newspaper ☐ posting at each school ☐ other (specify)

Advisory committee(s) consulted: District English Learner Advisory Committee

Objections raised (choose one): ☒ None ☐ Objections are as follows:

Date(s) consulted: October 28, 2010
FISCAL ANALYSIS (AS APPROPRIATE)

Denial of this waiver will disallow QEIA funds from being distributed to the San Fernando Institute of Applied Learning School or to Leadership in Entertainment and Media Arts. Based on 2010–11 QEIA funding projections, approximately $790,000 will be returned to the state.

FISCAL ANALYSIS (AS APPROPRIATE) (Cont.)

Statutory language requires that this funding be redistributed to other QEIA programs. However, in the last two years, the unused funds have reverted to the general fund.

### LEGAL CRITERIA

1. Under the general waiver authority of *Education Code* 33050-33053, the particular *Education Code* or *California Code of Regulations* section(s) to be waived (number): **Section 52055.750.(a)** One: **EC or CCR**

   **Topic of the waiver:** **QEIA Funds Follow the Child**

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval______

   Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No  x_ Yes  If yes, please complete required information below:

   **Bargaining unit(s) consulted on date(s):** 10/26/10

   **Name of bargaining unit and representative(s) consulted:** *United Teachers Los Angeles (UTLA)*, Gregg Solkovits

   **The position(s) of the bargaining unit(s):** X Neutral  __ Support  __ Oppose (Please specify why)

   **Comments (if appropriate):**

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

   **How was the required public hearing advertised?**
   - x_ Notice in a newspaper  ___ Notice posted at each school  ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver: **District English Learner Advisory Committee**

   **Date the committee/council reviewed the waiver request:** 10/28/10

   **Were there any objection(s)?**  No  X Yes  (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

   Section 52055.750.(a) Ensure that the fund received on behalf of funded schools are expended on that school, except that during the first partial year of funding districts may use funding under this article for facilities necessary to meet the class size reduction requirements of this article, if all funds are spent on funded schools within the district.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

   This waiver is to request that funds from **2 QEIA schools, San Fernando MS and Lincoln HS**, follow the students to two small autonomous schools that opened in 2010-2011, **San Fernando Institute of Applied Media (SFIAM) and Leadership in Entertainment & Media Arts (LEMA)**, respectively. The two small schools continue to serve the same student body and the same attendance area of the 2 QEIA schools prior to 2008-09. These new small schools intend to apply for their own CDS code on 2011-2012, without a waiver request the students who transfer to these school will lose the benefit of the QEIA program in which the funds were originally intended for.

   **Expected Outcome:** QEIA funding will be allocated to the small schools with new CDS codes and allow students to continue to benefit from the program. The state would not incur any additional costs as these students are currently attending QEIA funded schools.

   **See attached additional information**

8. Demographic Information:
   The Los Angeles Unified School District has a student population of 678,441 and is located in an urban area in Los Angeles County.

A Proposal for Granting LAUSD a QEIA Funding Waiver
For 2 New Small Schools (#2)

BACKGROUND

The Los Angeles Unified School District (LAUSD) is requesting a waiver that would allow the QEIA funding to continue for students who are transferring to 2 new small schools.

San Fernando Institute of Applied Media (SFIAM) and Leadership in Entertainment & Media Arts (LEMA) are 2 new small schools serving the same student population as San Fernando MS and Lincoln HS (Both QEIA Schools), respectively. Both new schools participated in the first round of the District’s Public School Choice Resolution, an initiative voted on by the Los Angeles Unified School District’s Board of Education that calls for innovative and strong instructional plans that will address the unique instructional needs of the students in the school’s community. The resolution seeks to support transformation efforts that are grounded in research, strong parent-community engagement, and clear accountabilities. It also follows the mandate set in place by No Child Left Behind (NCLB), which requires LEAs to take dramatic action to improve chronically underperforming schools.

We are requesting a waiver to allow funds to follow approximately 400 students transferring from San Fernando MS to San Fernando Institute of Applied Media (SFIAM) and for 430 students transferring from Lincoln HS to Leadership in Entertainment & Media Arts (LEMA). SFIAM and LEMA opened in 2010-2011, serving 100% of the same population of students in San Fernando MS and Lincoln HS. These schools plan to apply for their own CDS codes in the spring of 2011. Both schools serve a large number of students requiring academic support in ELA proficiency and around 90% of their population coming from socio-economically disadvantaged families. These students deserve choices in opportunities for quality education since their educational needs are complex. With a smaller, personalized learning environment their chances for success increase as teachers are better able to respond to their needs. Moreover, we believe that this is in line with the intent of QEIA legislation to improve the quality of academic instruction and academic achievement in schools serving high poverty students.

QEIA program requirements will be maintained for these schools using baseline data from the originating schools in order to measure annual benchmark goals. Since both schools will be composed of the same QEIA students, baseline determinations for class size reduction will be similar to the originating school. With regards to baseline teacher experience, the District has established a Teacher Experience Index (TEI) of 95% for all LAUSD schools, thereby meeting the goal set by the state. According to the End of Year Report submitted by the Los Angeles County Office of Education (LACOE) to the California Department of Education (CDE), all LAUSD QEIA schools met the TEI; therefore the District believes this should no longer be an issue. Furthermore, this will continue to be monitored for all QEIA schools by the Human Resources Department to ensure they continue to meet TEI requirements.

The state would not incur any additional costs as students come from the same attendance boundaries. A reduction in QEIA funding from the originating school is offset by the flow of funds to the new school receiving those same students. Additionally, these small schools follow a school model utilizing a personalized learning environment that keeps enrollment small.

These schools will continue to incorporate their accountability and implementation plans into their Single Plans. Furthermore, the District will ensure accountability for these schools in partnership with LACOE.

## QEIA Calculation of API Growth Target:

A SCHOOL'S GROWTH TARGETS IN 2008-09, 2009-10, AND 2010-11 ARE SUMMED AND DIVIDED BY THREE, THEN COMPARED TO THE GROWTH SCORES ALSO SUMMED OVER THE SAME TIME FRAME AND DIVIDED BY THREE. IF THE AVERAGED GROWTH SCORE IS GREATER THAN THE AVERAGED GROWTH TARGET, IT HAS MET THE REQUIREMENT FOR THE FIRST THREE YEARS OF FULL FUNDING.

Prepared by the California Department of Education
Revised on August 22, 2011
ITEM W-18
General Waiver

SUBJECT

Request by Herber Elementary School District to waive California Education Code Section 52055.750(a)(9) regarding funds expenditure requirements under the Quality Education Investment Act in order to allow funds from Herber Elementary School to follow identified students who will be transferring to one new school, Dogwood Elementary School to ensure that they will not lose the benefits of the Quality Education Investment Act.

Waiver Number: 36-6-2011

RECOMMENDATION

☐ Approval  ☐ Approval with conditions  ☒ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved and 3 were approved with conditions, and 2 were withdrawn.

The SBE approved two similar funds expenditure requirement waivers requested by the Los Angeles Unified School District (USD) for Roosevelt High School (HS) at its March 2010 meeting. The first waiver allowed the QEIA funding to follow students transferring from the QEIA-funded Roosevelt HS to new schools on the same Roosevelt HS campus; the second waiver allowed the QEIA money from Roosevelt HS to follow the students to Mendez Learning Center through 2014.
SUMMARY OF PREVIOUS (Cont.)

The SBE approved a waiver requested by the Los Angeles USD for Alain LeRoy Locke Charter High School (Locke Charter HS) at the May 2009 SBE meeting. That waiver allowed QEIA funding to follow students transferring from the QEIA-funded Locke Charter HS to new schools on the same Locke Charter HS campus through 2014.

The SBE also approved a request concerning 16 Los Angeles USD schools in January 2009, with no action taken, and for a second time at its March 2009 meeting. In March, a motion to deny the waiver failed and the waiver was automatically granted under EC 33052 because the SBE did not take formal action on the waiver within two meetings. This waiver was renewed by the SBE in March of 2010, and is now applicable through 2014.

SUMMARY OF KEY ISSUES

The Heber ESD states that it operated as a single school district serving students in kindergarten through grade eight (K–8) until January 3, 2011. On that date, Heber ESD opened its second school due to overcrowded conditions at Heber Elementary School (ES). As a result of this, approximately 520 kindergarten through grade three (K–3) students were transferred to Dogwood ES leaving 630 grade four through eight students at Heber ES. Heber ESD states that if QEIA funding is based solely on the enrollment of Heber ES, that dollar amount will not generate enough funds to cover the salaries and benefits of teachers who were hired under the QEIA program to reduce class sizes in grades four through eight.

The Department recommends denial because its approval would not adequately address the educational needs of pupils as described in EC Section 33051(a)(1).

Quality Education Investment Act program requirements preclude new schools from participating in the program primarily due to the fact that a large number of schools that originally applied for participation had been excluded from the program due to funding limitations.

Additionally, the program has specific timelines for participation, and adding schools at this late date compacts that timeline and limits the ability of the new schools to demonstrate their success in the program. Schools that do not meet program requirements stand to lose future QEIA funding, so these new schools would only benefit from QEIA participation for a short time if they are unable to successfully implement the program within the truncated timeline.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory
SUMMARY OF KEY ISSUES (Cont.)

committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Heber Elementary School District has a student population of 1,146, and is located in a rural area in Imperial County.

Objections raised (choose one): ☒ None  ☐ Objections are as follows:

Date(s) consulted: June 7, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the reduced class size targets based on the statute to stay in the program.
FISCAL ANALYSIS (AS APPROPRIATE) (Cont.)

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

Phone (and extension, if necessary): 760.337.6530 Ext. 2499  
Fax Number: 760 353.3421

Period of request:  
From: July 1, 2011  
To: June 29, 2014

Local board approval date: (Required)  
June 13, 2011

Date of public hearing: (Required)  
June 13, 2011

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): 52055.750(a)(9) Circle One:  EC or  CCR  
Jb 7/7/11

Topic of the waiver: QEIA New School

2. If this is a renewal of a previously approved waiver, please list Waiver Number: N/A and date of SBE Approval______  
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units?  No  X  Yes  If yes, please complete required information below:

Bargaining unit(s) consulted on date(s):  Consulted on May 10, 2011

Name of bargaining unit and representative(s) consulted:  Heber Teachers Association (HTA):  Elena Maciel, HTA President; Michael Arzaga, Labor Negotiations, and Sonia Montaño, Labor Negotiations  per Jamie Silva jb 7/7/11

The position(s) of the bargaining unit(s):  Neutral  X  Support  __  Oppose (Please specify why)

Comments (if appropriate):  Please refer to attached email from HTA President Elena Maciel. (Appendix A)

4. Public hearing requirement:  A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

_____ Notice in a newspaper  X  Notice posted at each school  _____ Other: (Please specify)  Notices placed at three different public places in addition to the two school sites.

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:  
Per Jamie Silva jb 7/7/11

Date the committee/council reviewed the waiver request: Heber School Site Council consulted June 7, 2011.

Were there any objection(s)?  No  X  Yes  (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

Section 52055.750.(a) A school district or chartering authority that receives funding pursuant to this article shall agree to do all of the following for each funded school within its jurisdiction: (9) Ensure that the funds received on behalf of funded schools are expended on that school, except that during the first partial year of funding districts may use funding under this article for facilities necessary to meet the class size reduction requirements of this article, if all funds are spent on funded schools within the district.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Heber Elementary School District is requesting to extend Quality Education Investment Act status to Dogwood Elementary, the second school in the District that was created when Heber School, the current QEIA school, was split and kindergarten through third grade students were transferred to Dogwood Elementary.

Heber Elementary School District is a small, rural school district located in the township of Heber, California in Imperial County. Heber Elementary School District has a total enrollment of 1146 students. Approximately 60% of our students are classified as English learners and 90% of the students qualify for free or reduced meals.

Refer to appendix B for more information on the background.

8. Demographic Information:

Dogwood Elementary has a student population of 517 and is located in rural, small township in Imperial County. The District's total enrollment is 1146.

Appendix A

Hi Mr. Silva,

These are the statements I would like to include in the waiver. If you have any additional questions, feel free to call me at (760)791-0193. Thanks, Elena Heber Teachers

Bargaining Unit:
The Heber Teachers Association wholeheartedly endorses the application for continuing QEIA funding for the students at Dogwood School. This funding will continue to provide our students the benefit of class size reduction which has been proven to be one of the most effective classroom interventions. In light of our communities' vast number of English Language Learners, smaller class sizes and planning time for teachers will provide an effective method to help close the learning gap. The assurance of providing all stakeholders input into program expenditures and input from teachers into the professional development calendar will provide continued success for the program.

School Site Council:
The President for the Heber Teachers Association and a member of the School Site Council (SSC) during a Special meeting of the SSC agreed to support the waiver on the condition that all stakeholders would receive training regarding the intent and goals of QEIA. Additionally, the assurance that input will be solicited from all stakeholders will provide continued effective management of QEIA funding.
Appendix B

Despite our challenging demographics and with the use of funding provide by QEIA, Heber School has managed to significantly improve its API from 664 to 771, and the school is not and has never been a Program Improvement school.

Heber ESD operated as a single school District serving students in grades K-8 since 1908. On January 3, 2011, the school district opened its second school due to overcrowded conditions at Heber School. As a result of this, approximately 520 K-3 students were transferred to Dogwood Elementary leaving 630 4th-8th grade students at Heber School. Below is a breakdown of enrollment by grade level:

<table>
<thead>
<tr>
<th>Dogwood Elementary</th>
<th>Heber School</th>

</tbody>
</table>

If QEIA funding is based solely on the enrollment of Heber School, that dollar amount will not generate enough funds to cover the salaries and benefits of teachers who were hired under the QEIA program to reduce class sizes in grades 4th through 8th. For example, the total expense on salary and benefits for the 10 additional teachers who were hired to reduce class sizes in grades 4-8 is $653,870. If Dogwood students cannot be counted, then we will receive $750.00 per student enrolled at Heber school (629 students) equaling $471,750.00 in QEIA funds. This amount is insufficient to cover the salaries and benefits of the ten (10) additional teachers hired under QEIA, thus resulting in a deficit of $182,120.00. In light of all the cuts to education and the multiple deferrals imposed by the State to school districts in California, our District would have to cover this deficit from our unrestricted fund, and this is something we cannot afford to do.

We hope you will consider our request for a waiver to count the students at Dogwood School. They are the same students who as of January 3, 2011 were enrolled at Heber School and were counted toward QEIA funding for Heber School. We know QEIA funds will continue to assist our District improve student achievement.
ITEM W-19
## General Waiver

### SUBJECT
Request by Planada Elementary School District to waive portions of California Education Code Section 52055.740(a), regarding Teacher Experience Index requirements under the Quality Education Investment Act, that this funded school have an average experience index of classroom teachers in the school equal to or exceeding the average for the school district by the end of the 2010–11 school year at Planada Elementary School (requesting revised goal of 7.8).

Waiver Number: 61-2-2011

### RECOMMENDATION

- Approval with conditions

The California Department of Education (CDE) recommends approval with the following conditions: (1) this waiver applies only to teachers at Planada Elementary School (ES); (2) Planada ES maintains the average Teacher Experience Index (TEI) at the school level to 7.8 or greater in the 2010–11 school year; (3) throughout the term of this waiver, Planada ES must meet or exceed the district average TEI for this type of school; and (4) within 30 days of approval of this waiver, Planada Elementary School District (ESD) must provide to the CDE a description, including costs covered by Quality Education Investment Act (QEIA) funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the TEI requirement.

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) meeting, the CDE Waiver Office has presented 37 waivers related to the QEIA to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.

This is the first time waivers requesting revision of the TEI have been received by the CDE Waiver Office and presented to the SBE.
SUMMARY OF PREVIOUS (Cont.)

This school meets the criteria for the SBE Streamlined Waiver Policy, located on the CDE Waiver Policies Web page at http://www.cde.ca.gov/re/lr/wr/documents/sbestreamlined.doc, having met the Academic Performance Index growth targets both schoolwide and for all subgroups in at least three of the last five years.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The Department is recommending approval for this school based on the fact the school’s average 2010-11 TEI is within ten percent of the average 2010 TEI for this type of school within Planada Elementary School District.

Planada ESD is a rural school district located in Merced County. Planada ES serves students in kindergarten through grade five. Planada ES has a student population of approximately 800 students. Planada ESD provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average district TEI was 9.4. Planada ESD’s average TEI for 2010–11 for this type of school is 7.56.

Planada ESD states that due to teacher attrition by retirements, Planada ES is unable to replace those vacancies with teachers that have years of experience equal to that of the retirees' average. Planada ESD has transferred the more experienced teachers from the middle school that hold a multiple subject teaching credential in order to sustain the TEI average. Additionally, all efforts were made to hire teachers with several years of experience to increase the TEI, but finding experienced teachers willing and able to commute to Planada has been difficult.
SUMMARY OF KEY ISSUES (Cont.)

Planada ESD requests a waiver of the QEIA TEI target for Planada ES and establishment of an alternative TEI target of 7.8 which is based on 2010–11 TEI levels. The 2010–11 TEI alternative target of 7.8 for Planada ES is greater than Planada ESD’s 2010–11 TEI average of 7.56 for this type of school. The CDE supports Planada ESD’s request to reduce its TEI target because the alternative TEI target is within 10 percent of the district’s 2010–11 TEI for this type of school.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in California Education Code (EC) Section 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Planada ES has a student population of 793 students and is located in a small city in Merced County.

Advisory committee(s) consulted: Planada Elementary School – Schoolsite Council
Objections raised (choose one): ☑ None □ Objections are as follows:

Date(s) consulted: February 14, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the TEI targets based on statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a *strike out key*).

52055.740. (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

QEIA requires that Planada Elementary School attain a target of 9.4 years of teaching experience to be compliant with the QEIA requirements for the 2010/11 – 2013/14 school years. Due to teacher attrition by either retirements or early retirement incentives (golden handshakes), the school is unable to replace those vacancies with teachers that have equal years of experience to that of the retirees’ average. The Planada Elementary is requesting that its TEI be reduced to match the average of other QEIA schools or if that request is denied to have the TEI waived for the 2010/11 school year. Please refer to the attachment for additional information.

8. Demographic Information:
Planada is a rural, unincorporated community of almost 4,000. It lies nine miles southeast of the City of Merced. Nearly 60% of Planada residents earn less than $30,000 per year and only 12.6% of the population is a high school graduate. The student population consists of 95.2% Hispanic and 2% Asian & Caucasian. English Learners consist of 57.8% of the population and 83.8% of the students receive free or reduced price meals.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No ☒ Yes ☐
(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No ☒ Yes ☐
(If yes, please attach explanation or copy of CPM finding)

Planada Elementary School is one of two schools in the Planada Elementary School District, comprised of Planada Elementary and Cesar E. Chavez Middle School. Planada is a rural town located approximately nine miles southeast of Merced, California. In our efforts to maintain our targeted TEI, we have lost several teachers due to retirements and have made every attempt to hire teachers with teaching experience. Aside from hiring experienced teachers, we have transferred all of the teachers from our middle school that hold a multiple subject teaching credential to sustain our TEI. Currently, all teachers at the middle school hold single subject credentials. Additionally, all efforts have been made to hire teachers with several years of experience to increase the TEI, but trying to find teachers with 5 – 10 years of teaching experience who are willing and able to commute out to our community has been difficult. In order to be compliant with the QEIA requirements, we continue to hire additional teachers to sustain required Class Size Reduction in Kindergarten - 3rd grades, and at the same time reduce 4th and 5th grades by at least 5 students per class. PES currently has five teachers with 20+ years of service who will be retiring within the next few years. Once again, we will see the impact on our TEI. Due to continued attrition, and the difficulties to hire teachers with years of experience, PES is requesting that our TEI target be reestablished at the 2010-2011 school year TEI of 7.8 years or allowed for the TEI to be set to match the average district TEI of QEIA schools across the state which is 6.7 years.
California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM W-20
General Waiver

**SUBJECT**
Request by Bakersfield City School District to waive portions of California Education Code Section 52055.740(a), regarding Teacher Experience Index requirements under the Quality Education Investment Act, that this funded school have an average experience index of classroom teachers in the school equal to or exceeding the average for the school district by the end of the 2010–11 school year at Jefferson Elementary School and Mt. Vernon Elementary School (requesting revised goal of 6.8 and 7.1, respectively).

Waiver Number: 83-2-2011

**RECOMMENDATION**

☐ Approval ☐ Approval with conditions ☒ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

**SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION**

From March 2009 through the July 2011 State Board of Education (SBE) meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.
- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.

This is the first time waivers requesting revision of the Teacher Experience Index (TEI) have been received by the CDE Waiver Office and presented to the SBE.

**SUMMARY OF KEY ISSUES**

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full
SUMMARY OF KEY ISSUES (Cont.)

implementation of program requirements. Monitoring for compliance with second-year program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The Department recommends denial of this request based on three factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to result in increased teacher experience over time and the QEIA school is below the district average for this type of school; and (3) the revised TEI request is greater than 10 percent of the districts 2010–11 TEI average for this type of school.

Bakersfield CSD is an urban school district located in Kern County. Jefferson Elementary School (ES) serves students in kindergarten through grade five and Mt. Vernon ES serves students in kindergarten through grade six. Bakersfield CSD has a student population of 27,688 students. Bakersfield CSD provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average Bakersfield CSD TEI is 7.7. Bakersfield CSD’s average TEI for 2010–11 for this type of school is 8.37.

Bakersfield CSD states that due to current budget constraints, class size ratios were increased during the 2010–11 school year at non-QEIA schools and an early retirement incentive was provided to teachers. Twenty-seven teachers were hired or transferred to the three QEIA schools in order to protect the QEIA program’s CSR requirements and to replace teachers who accepted the retirement incentive. Sixteen of the twenty-seven teachers hired or transferred to QEIA schools in 2010–11 have four years or less teaching experience, creating the schools’ inability to meet the established TEI requirement. Bakersfield CSD requests a waiver of the QEIA TEI target for Jefferson ES and Mt. Vernon ES and establishment of alternative TEI targets of 6.8 and 7.1, respectively, which are based on 2010–11 TEI levels. The 2010–11 TEI alternative targets of 6.8 and 7.1 are less than Bakersfield CSD’s 2010–11 TEI average of 8.37 for this type of school.
Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Jefferson Elementary School has a student population of 522 students and Mt. Vernon Elementary School has a student population of 818 students. All schools are located in an urban area in Kern County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2010, to June 30, 2014

Local board approval date(s): February 22, 2011

Public hearing held on date(s): February 22, 2011

Bargaining unit(s) consulted on date(s): February 8, 2011

Position of bargaining unit(s) (choose only one):
☐ Neutral ☑ Support ☐ Oppose:

Comments (if appropriate):

Public hearing advertised by (choose one or more):
☒ posting in a newspaper ☑ posting at each school ☐ other

Advisory committee(s) consulted: Mt. Vernon Elementary School, College Heights Elementary School, and Jefferson Elementary School – School Site Councils

Objections raised (choose one): ☒ None ☐ Objections are as follows:

Date(s) consulted: January 26, 31, and February 1, 2011, respectively
FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the TEI targets based on statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

The position(s) of the bargaining unit(s): __ Neutral __X__ Support __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised

__X__ Notice in a newspaper __X__ Notice posted at each school ____ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Date the committee/council reviewed the waiver request: School Site Council at Mt. Vernon Elementary – 1/26/11;
School Site Council at College Heights Elementary – 1/31/11; School Site Council at Jefferson Elementary – 2/1/11.

Were there any objection(s)? No __X__ Yes ____ (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

52055.740(a)(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

In 2005-06, the California Department of Education established 7.7 years as the average Teacher Experience Index (TEI) for Bakersfield City School District’s (BCSD) four QEIA schools. Teachers with more than ten years experience have a maximum cap of ten years counted towards the school’s average.

Each QEIA school in BCSD is progressing towards full implementation of the TEI requirement. The slight decrease in Mt. Vernon’s TEI for 2008-09 and Jefferson’s TEI in 2009-10 were due to teacher retirements at each school; however, both schools met the QEIA implementation requirements for the 2008-09 and 2009-10 school years.

The average TEI per school for 2010-11 is listed below.

- **College Heights Elementary**: 7.6 Year Average removed at district request per B. Storelli kak 8/2/2011
- **Jefferson Elementary**: 6.8 Year Average
- **Mt. Vernon Elementary**: 7.2 Year Average

Due to the current budget constraints, the district increased Class Size Reduction (CSR) ratios in grades K-8 (grades K-3 increased to 21.5:1; grades 4-6 increased to 35.5:1) and provided a retirement incentive to teachers. Both measures are in effect as of the 2010-11 school year. Twenty-seven teachers were hired or transferred to three QEIA schools (listed above) in order to protect the QEIA program’s CSR requirements and to replace teachers who accepted the retirement incentive. Transfers were conducted in accordance with the BCSD Collective Bargaining Agreement. Sixteen of the twenty-seven teachers hired or transferred to QEIA schools in 2010-11 have four years or less teaching experience creating the schools inability to meet the 7.7 year average established by the CDE.

Improved student performance is measured by the Academic Performance Index (API). The API growth is listed below starting with the first year of full funding of the QEIA program (2008-09).

- In 2008-09: College Heights +23 points; Jefferson +42 points; Mt. Vernon +22 points.
- In 2009-10: College Heights +29 points; Jefferson +35 points; Mt. Vernon +34 points.

Total API growth (2008-10): College Heights +52; Jefferson +77; Mt. Vernon +56.

The desired outcome is that the State Board of Education accepts the waiver of Ed Code 52055.740(a) (4) so that improved student academic performance may continue.

8. Demographic Information:

Bakersfield City School District has a student population of 27,688 and is located in an urban area in Kern County.

**Is this waiver associated with an apportionment related audit penalty? (per EC 41344)** No ☐ Yes ☑

(If yes, please attach explanation or copy of audit finding)

**Has there been a Categorical Program Monitoring (CPM) finding on this issue?** No ☐ Yes ☐

(If yes, please attach explanation or copy of CPM finding)

**District or County Certification** – I hereby certify that the information provided on this application is correct and complete.

California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM W-21
Request by Chula Vista Elementary School District to waive portions of California Education Code Section 52055.740(a), regarding the Teacher Experience Index under the Quality Education Investment Act, that this funded school have an average experience index of classroom teachers in the school equal to or exceeding the average for the school district by the end of the 2010–11 school year at Silver Wing Elementary School (requesting revised target of 5.2).

Waiver Number: 22-4-2011

RECOMMENDATION

☐ Approval  ☐ Approval with conditions  ☒ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.

This is the first time waivers requesting revision of the Teacher Experience Index (TEI) have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year
SUMMARY OF KEY ISSUES (Cont.)

program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System (CBEDS) Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The Department recommends denial of this request based on three factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to result in increased teacher experience over time and the QEIA school is below the district average for this type of school; and (3) the revised TEI request is greater than 10 percent of the district’s 2010–11 TEI average for this type of school.

Chula Vista ESD is an urban school district located in San Diego County. Silver Wing Elementary School (ES) serves students in kindergarten through grade six. Chula Vista ESD has a student population of approximately 27,400 students. Chula Vista ESD provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average Chula Vista ESD TEI is 6.5. Chula Vista ESD’s average TEI for 2010–11 for this type of school is 8.05.

Chula Vista ESD states that its TEI was calculated using erroneous information that had been entered on the school’s CBEDS report. A recalculation of the TEI was performed with the help of the San Diego County Office of Education and discrepancies were corrected during that process. Chula Vista ESD and the Chula Vista Educators are currently negotiating a Memorandum of Understanding to implement a transfer policy and procedures to address TEI issues. Chula Vista ESD requests a waiver of the QEIA TEI target for Silver Wing ES and establishment of an alternative TEI target of 5.2 which is based on 2010–11 TEI levels. The 2010–11 TEI alternative target of 5.2 for Silver Wing ES is less than the district’s 2010–11 TEI average of 8.05 for this type of school.
SUMMARY OF KEY ISSUES (Cont.)

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC Section 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Silver King Elementary School has a student population of 418 students and is located in an urban area in San Diego County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2010, to June 30, 2011

Local board approval date(s): April 5, 2011

Public hearing held on date(s): April 5, 2011

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
GW-1 (10-2-09)

6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

52055.740(a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements.

7. **Desired outcome/rationale.** Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Chula Vista Elementary School District requests a waiver of the timeline in Ed Code Section 52055.740 solely as it pertains to the Teacher Experience Index (TEI) as referenced in 52055.740(a) for Silver Wing Elementary School. The QEIA Teacher Experience Index (TEI) was calculated using erroneous information that had been entered on the school’s CBEDS report. A recalculation of the TEI was done with the help of the San Diego County Office of Education and discrepancies during the recalculation. Chula were corrected Vista Elementary School District and Chula Vista Educators are currently negotiating a Memorandum of Understanding policy and procedures school year to implement transfer to remedy the TEI for the 2011-12 and sustain it through the remainder of the QEIA settlement agreement. The school’s current teacher experience average is 5.2 years and the target is 6.5 years. The TEI target of 6.5 years will be met through these efforts effective with the 2011-12 school year; the timeline change requested through this waiver application is approximately six (6) weeks.

8. **Demographic Information:**

Chula Vista Elementary School District has a student population of 27,400 and is located in an urban area in San Diego County.

ITEM W-22
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

☐ General Waiver

SUBJECT

Request by Cutler-Orosi Joint Unified School District to waive portions of California Education Code Section 52055.740(a), regarding Teacher Experience Index requirements under the Quality Education Investment Act, that this funded school have an average experience index of classroom teachers in the school equal to or exceeding the average for the school district by the end of the 2010–11 school year at El Monte Middle School (requesting revised goal of 5.9).

Waiver Number: 126-2-2011

☐ Action

☐ Consent

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education (CDE) recommends approval with the following conditions: (1) This waiver applies only to teachers at El Monte Middle School (MS); (2) El Monte MS maintain the average Teacher Experience Index (TEI) at the school level to 5.9 or greater in the 2010–11 school year; (3) Throughout the term of this waiver, El Monte MS must meet or exceed the district average TEI for this type of school; and (4) within 30 days of approval of this waiver, Cutler-Orosi Joint Unified School District (JUSD) must provide to the CDE a description, including costs covered by Quality Education Investment Act (QEIA) funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the TEI requirement.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) Meeting, the CDE Waiver Office has presented 37 waivers related to the QEIA to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.
SUMMARY OF PREVIOUS (Cont.)

This is the first time waivers requesting revision of the TEI have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The Department is recommending approval for this school based on the fact the school’s average 2010–11 TEI is within ten percent of the average 2010–11 TEI for this type of school within Cutler-Orosi JUSD.

Cutler-Orosi JUSD is a rural school district located in Tulare County. El Monte MS serves students in grades six through eight. Cutler-Orosi JUSD has a student population of approximately 4,100 students. The district provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average district TEI is 7.2. The district’s average TEI for 2010–11 for this type of school is 5.9.

The district states that as a result of the state’s fiscal crisis, steps were taken to reduce expenditures which included early retirement incentives to senior teaching staff. Four teachers with over 20 years experience took advantage of the incentives and left El Monte MS. In addition, six teachers, some with the maximum experience level, resigned for various reasons. During this same period, the district entered into the District Assistance and Intervention Team program which ultimately led to a number of teachers not being rehired in an effort to strengthen the district’s instructional program and student achievement. Being a small, isolated rural district makes it difficult to recruit experienced teachers who often lose salary advantages when they change districts. Layoffs by other districts during this financial crisis have resulted in an increase in the number of candidates available. However, due to the seniority rule in layoffs, these teachers do not
SUMMARY OF KEY ISSUES (Cont.)

have high experience levels. Cutler-Orosi JUSD requests a waiver of the QEIA TEI target for El Monte MS and establishment of an alternative TEI target of 5.9 which is based on 2010–11 TEI levels. The 2010–11 TEI alternative target of 5.9 is equal to the districts 2010–11 TEI average of 5.9 for this type of school.

The Department recommends approval with the above conditions.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in California Education Code (EC) Section 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: El Monte Middle School has a student population of 922 students and is located in a rural unincorporated area in Tulare County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2010, to June 29, 2011

Local board approval date(s): January 13, 2011

Public hearing held on date(s): January 13, 2011

Bargaining unit(s) consulted on date(s): December 10, 2010, and March 10, 2011

Name of bargaining unit/representative(s) consulted: Cutler-Orosi United Teachers Association, Al Reyes, President and California School Employees Association, Jessie Hureta, Jr., President

Position of bargaining unit(s) (choose only one):

**Objections raised (choose one):** ☐ None  ☒ Objections are as follows:

**Date(s) consulted:** March 3, 2011

**FISCAL ANALYSIS (AS APPROPRIATE)**

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the TEI targets based on statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

The position(s) of the bargaining unit(s):  __ Neutral _X_ Support __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

___ Notice in a newspaper  _X_ Notice posted at each school  ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:  El Monte School Site Council and English Language Advisory Committee per Craig Drennan  jb 3/10/11

Date the committee/council reviewed the waiver request: The School Site Council had a discussion about QEIA and its issues but the specific items were not itemized on the agenda. This waiver will be specifically identified on an agenda in a meeting held on March 3, 2011.

Were there any objection(s)?  No _X_ Yes ___  (If there were objections please specify)
6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

Education Code 52055.740 (a)

(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

El Monte Middle School is part of the Cutler-Orosi Joint Unified School District, which is a small, isolated, rural district on the northernmost edge of Tulare County. El Monte Middle School is the only school in the District that houses the 6th through 8th grade student population. Aside from its alternative education schools, the District consists of three elementary schools, one middle school and one high school. All of the schools are in Program Improvement (PI). The middle school is in the QEIA program; as well as two of the three elementary schools.

The County QEIA Monitor takes the calculation of the Teacher Experience Index (TEI) from the District using the QEIA Tech Center worksheet. The TEI was set by the state from CBEDS information in the 05-06 school year. At this time the financial condition of the state and the schools was still fairly good and major reductions had not taken place. The TEI for El Monte Middle School came out to be 7.2 on a scale with 10 as the maximum. This was the TEI for the other schools in the District who are also in the QEIA program. It should be noted that the school had recently converted from a junior high school to a middle school. All 6th grade students now attend the middle school, bringing with them a core of relatively new teachers. In addition, the instructional delivery method for the entire 7th grade, as well as some of the 8th grade, changed from a departmentalized instructional setting into a core subject instructional setting. This required that many new teachers be hired to staff the school.

As the state’s fiscal crisis impacted the District, the District took steps to reduce expenditures. One method that was utilized was to offer a retirement incentive program to its senior teaching staff. In the 2008-09 school year, sixteen teachers took advantage of the offer and left the District. Four of these teachers left El Monte Middle School; each had more than twenty years of experience. In the 2009-10 school year, another twenty-year, veteran teacher retired from the same middle school. In addition to the retirees an additional six teachers, some with the maximum experience level available, resigned from El Monte Middle School/District for various personal reasons.

During this same period, the District entered into the DAIT program. The District took its obligations under DAIT, to work diligently to improve student achievement, very seriously. An improved system of teacher evaluations was implemented. The evaluation process led to a number of teachers, who had several years of experience, being non-reelected to the District in its efforts to strengthen its instructional program.
As part of the DAIT program, the District’s outside evaluators had the District add intervention teachers to strengthen student achievement. Additionally, the District pulled talented teachers from each school to act as academic coaches in the areas of mathematics, language arts and English language development. These coaches worked directly with teachers to reinforce the implementation of proven research based instructional strategies. Following these DAIT plan recommendations had the net effect of helping to lower the TEI.

In order to maintain a TEI, teachers who retire must be replaced by teachers with the same or greater level of experience. Mathematically, when additional teaching staff is hired, that new staff member would have to have an experience level that is equal to or greater than the school’s TEI. As more teachers are hired to meet DAIT goals and student needs, the negative impact on the TEI is increased.

</table>

Being a small, isolated, rural district makes it difficult to recruit experienced teachers who often lose salary advantages when they change districts. Layoffs by other districts during this financial crisis have resulted in an increase in the number of candidates available. However, due to the seniority rule in layoffs, these teachers do not have high experience levels. Being a small district, with all of its schools in PI, there is no source of senior teachers to transfer, that would not harm the improvement needs of the individual schools.

The District believes that the TEI should be waived at El Monte Middle School. The school has made gains in its test scores over the last three years, which have included reaching “safe harbor” in language arts. The District has brought in a new principal for the middle school, hired academic coaches to assist staff in instructional methodology and used QEIA and Title I funds to provide significant targeted professional development. The District continues to aggressively evaluate its teachers and uses data to support its instructional program. The loss of QEIA funds would significantly reduce the resources available to continue the school on its upward trend. Loss of funding would mean an increase in class size and loss of professional development and instructional improvement resources for teachers, which would severely effect student achievement.

8. Demographic Information:
   Cutler-Orosi Joint Unified, El Monte Middle School has a student population of 922 and is located in a rural unincorporated area in Tulare County.

General Waiver

SUBJECT
Request by Dinuba Unified School District to waive portions of California Education Code Section 52055.740(a), regarding the Teacher Experience Index requirements under the Quality Education Investment Act, that this funded school have an average experience index of classroom teachers in the school equal to or exceeding the average for the school district by the end of the 2010–11 school year at John F. Kennedy Academy (requesting revised goal of 6.6).

Waiver Number: 52-3-2011

RECOMMENDATION

☐ Approval  ☐ Approval with conditions  ☒ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) Meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.
- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.

This is the first time waivers requesting revision of the Teacher Experience Index (TEI) have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year
program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The Department recommends denial of this request based on three factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to result in increased teacher experience over time and the QEIA school is below the district average for this type of school; and (3) The revised TEI request is greater than ten percent of the districts 2010–11 TEI average for this type of school.

Dinuba Unified School District (USD) is an urban fringe school district located in Tulare County. John F. Kennedy Academy serves students in grade six. Dinuba USD has a student population of 5,984 students. The district provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average district TEI is 8.1. The district’s average TEI for 2010–11 for this type of school is 7.79.

The district states that to deal with budgeting issues, retirement incentives were offered to encourage experienced teachers to retire. In fully implementing QEIA CSR requirements, all QEIA schools recruited teachers that had less experience than existing teachers. In addition, the teacher transfer articles of the collecting bargaining agreements limit teacher assignment options, making the transfer of more experienced teachers to the QEIA schools difficult. The results are that the CSR requirements of the QEIA program have been met for QEIA schools in 2010–11, but hiring less experienced teachers has created the schools’ inability to meet the established TEI requirement. Dinuba USD requests a waiver of the QEIA TEI target for John F. Kennedy Academy and establishment of alternative target of 6.6. The 2010–11 TEI alternative target for John F. Kennedy Academy is less than the districts 2010–11 TEI average of 7.79 for this type of school.
Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: John F. Kennedy Academy has a student population of 468 students and is located in an urban fringe area in Tulare County.

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the
school must implement the TEI targets based on statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted back into the general fund.

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.  

How was the required public hearing advertised?  

_ Notice in a newspaper _×_ Notice posted at each school ___ Other: (Please specify)  

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:  
John F. Kennedy Academy School Site Council  
kk 3/30/2011  

Date the committee/council reviewed the waiver request: March 23, 2011  

Were there any objection(s)? No _ × Yes ___ (If there were objections please specify)
6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a *strike out key*).

EC 52055.740 (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:

(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

EC 52055.730 (d) On or before June 30, 2007, the Superintendent, in consultation with interested parties, shall develop a uniform process that can be used to calculate average experience for purposes of reporting, analyzing, or evaluating the distribution of classroom teaching experience in grades, school sites, or subjects across the district. The uniform process shall include an index that uses the 2005-06 California Basic Educational Data System (CBEDS) Professional Assignment Information Form (PAIF), including any necessary corrections, as the base-reporting year to evaluate annual improvements of the funded schools toward balancing the index of teaching experience. The index shall be approved by the Superintendent. The uniform process shall designate teaching experience beyond 10 years as 10 years.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

By 2010-2011, QEIA schools must ensure that their average level of teaching experience meets or exceeds the average level of teaching experience among all teachers at the same type of school in the district. The average level of teaching experience that QEIA schools must meet is based on the teaching experience levels reported by the district in 2005-2006. District average experience levels or “Teacher Experience Index Targets” were calculated and have remained constant. The Teacher Experience Index (TEI) for elementary schools in the Dinuba Unified School District is 8.1. The uniform process designates teaching experience beyond 10 years as 10 years.

John F. Kennedy Academy is asking for a temporary waiver of this requirement in order to continue to benefit from the academic improvement that the QEIA grant has provided for the school. John F. Kennedy Academy is seeking a waiver of this requirement from 2010-2011 to the 2011-2012 school year. [See attached]

8. Demographic Information:

John F. Kennedy Academy is a Sixth Grade School. It has a student population of 468 students: 92.5% Hispanic, 4.7% White. All students qualify for Free or Reduced Lunch under Provision II. Over 38% of the students are English Learners. The school is located in the urban fringe of a mid-size city in northern Tulare County.

[Is this waiver associated with an apportionment related audit penalty? (per EC 41344)]

(If yes, please attach explanation or copy of audit finding)

[Has there been a Categorical Program Monitoring (CPM) finding on this issue?]

(If yes, please attach explanation or copy of CPM finding)

District or County Certification – *I hereby certify that the information provided on this application is correct and complete.*

7. Desired outcome/rationale

John F. Kennedy is a unique one grade level school. It serves the academic needs of all the grade six students in the Dinuba Unified School District. Prior to the school opening in 2004-2005, nine of the 15 staff members were first year teachers. These teachers were specifically hired to meet the special needs of the learning academy. As a result the base TEI of 6.5 was well below the district value. JFK was the outlier for the District TEI. This was in contrast to the experienced staff in the rest of the elementary schools in the District with a TEI of 8.1. Dinuba Unified School District and John F. Kennedy Academy have met a number of challenges in meeting the Teacher Experience Index. Of the 120 Local Educational Agencies with reported TEI’s only 10% have a TEI equal or greater than 8.1.

<table>
<thead>
<tr>
<th>Average Teacher Experience Index (TEI) John F. Kennedy Academy School</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>John F. Kennedy Academy’s calculated TEI (2010-2011)</td>
</tr>
</tbody>
</table>

Several factors have impacted the school’s ability to meet the TEI target of 8.1 years:

- In fully implementing the Class Size Reduction (CSR) Requirement, the school has recruited new teachers some of which have less experience. This has a negative effect on the teacher experience average. In taking the necessary steps to meet the CSR requirement, John F. Kennedy Academy has created difficulties in meeting the TEI requirement.
- The teacher transfer articles of our collective bargaining agreement limit teacher assignment options. These articles make transferring teachers to John F. Kennedy Academy to meet the TEI target difficult.
- Dinuba Unified has six schools that qualify as elementary schools and contributed to the District TEI. Three of these schools or one half are QEIA schools.
- The QEIA funding was uncertain for a significant portion of the 2009-2010 school year forcing a delay in the hiring process.
- The District has provided retirement incentives to encourage experienced teachers to retire.
- Since 2005-2006 the District has experienced a number of retirements and change in status that has reduced our teacher experience value. If we calculate the District TEI value today for all our elementary schools, using the same calculation model, we would have a value of 7.79.

The combination of new hires at John F. Kennedy Academy, difficulties in transferring experienced teachers, as well as retirements, has made it a challenge to meet the TEI requirement.

John F. Kennedy Academy has substantially met the following requirements at the previous benchmark years:

- Met the class size reduction requirements for full implementation 2010-2011.
- Teachers that are highly qualified as defined by federal requirements teach all classes. (100%)
- Forty hours of professional development provided to teachers. (100%)
- Professional development provided to paraprofessionals.
- Met all the requirements for the Williams settlement.
• Exceeded the API growth targets for the school averaged over the past three years

CALIFORNIA DEPARTMENT OF EDUCATION
GENERAL WAIVER REQUEST
7. Desired outcome/rationale (Continued)

The QEIA grant has provided the resources that have reduced class sizes, provided professional development to improve instruction, repaired facilities and increased student learning evidenced by an average API growth of 22 points. John F. Kennedy Academy has made improvement with the implementation of the QEIA grant. The method of calculating TEI is a barrier for the school making the TEI target goal of 8.1 in the 2010-2011 school year and John F. Kennedy is requesting a waiver of the TEI requirement for the 2010-2011 school year. John F. Kennedy Academy is projected to meet all the other QEIA stipulations for the 2010-2011 school year.

Jb 6/2/11
California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM W-24
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

General Waiver

SUBJECT
Request by Dinuba Unified School District to waive portions of California Education Code Section 52055.740(a), regarding Teacher Experience Index requirements under the Quality Education Investment Act, that this funded school have an average experience index of classroom teachers in the school equal to or exceeding the average for the school district by the end of the 2010–11 school year at Wilson Elementary School and Jefferson Elementary School (requesting revised goal of 7.7 and 7.5, respectively).

Waiver Numbers: 53-3-2011 and 54-3-2011

RECOMMENDATION

☐ Approval  ☑ Approval with conditions  ☐ Denial

The California Department of Education (CDE) recommends approval with the following conditions: (1) This waiver applies only to teachers at Wilson Elementary School (ES), and Jefferson ES; (2) Wilson ES and Jefferson ES maintain or increase the average teacher experience index (TEI) at the school level to 7.7 and 7.5, respectively, or greater in the 2010–11 school year; (3) Throughout the term of this waiver, Wilson ES and Jefferson ES must meet or exceed the district average TEI for this type of school; and (4) Within 30 days of approval of this waiver, Dinuba Unified School District (USD) must provide to the CDE a description, including costs covered by Quality Education Investment Act (QEIA) funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the TEI requirement.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) Meeting, the CDE Waiver Office has presented 37 waivers related to the QEIA to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.
SUMMARY OF PREVIOUS (Cont.)

This is the first time waivers requesting revision of the TEI have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The Department is recommending approval for these two schools based on the fact that each schools average 2010-11 TEI is within ten percent of the average 2010–11 TEI for this type of school within Dinuba USD.

Dinuba USD is an urban fringe school district located in Tulare County. Wilson ES and Jefferson ES serve students in kindergarten through grade five. Dinuba USD has a student population of 5,984 students. The district provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average district TEI is 8.1. The district’s average TEI for 2010–11 for this type of school is 7.79.

The district states that to deal with budgeting issues, retirement incentives were offered to encourage experienced teachers to retire. In fully implementing QEIA comprehensive school reform CSR requirements, all QEIA schools recruited teachers that had less experience than existing teachers. In addition, the teacher transfer articles of the collecting bargaining agreements limit teacher assignment options, making the transfer of more experienced teachers to the QEIA schools difficult. The results are that the CSR requirements of the QEIA program have been met for QEIA schools in 2010–11, but hiring less experienced teachers has created the schools’ inability to meet the established TEI requirement. Dinuba USD requests a waiver of the QEIA TEI target for Wilson ES and Jefferson ES and establishment of alternative TEI targets of 7.7, and 7.5, respectively, which are based on 2010–11 TEI levels. The 2010–11 TEI alternative
targets of 7.7 and 7.5 are less than the districts 2010–11 TEI average of 7.79 for similar schools.

The Department recommends approval with the above conditions.

**Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in California Education Code (EC) Section 33051(a).** The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

**Demographic Information:** Wilson Elementary School has a student population of 483 students and Jefferson Elementary School has a student population of 611 students. Both schools are located in an urban fringe area in Tulare County.

**Authority for Waiver:** EC Section 33050

**Period of request:** July 1, 2010, to June 29, 2012

**Local board approval date(s):** March 24, 2011

**Public hearing held on date(s):** March 24, 2011

**Bargaining unit(s) consulted on date(s):** March 16 and 19, 2011

**Name of bargaining unit/representative(s) consulted:**
Dinuba Teachers Association, Rich White, President; and California School Employees Association, Sage Clark, President

**Position of bargaining unit(s) (choose only one):**
☐ Neutral  ☑ Support  ☐ Oppose:

Comments (if appropriate):

**Public hearing advertised by (choose one or more):**
posting in a newspaper  ☒ posting at each school  ☐ other

Advisory committee(s) consulted: Wilson Elementary School Schoolsite Council and Jefferson Elementary School Schoolsite Council, respectively

Objections raised (choose one): ☒ None  ☐ Objections are as follows:

Date(s) consulted: March 7 and 10, 2011, respectively

FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the TEI targets based on statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted back into the general fund.

Jb 8/23/11  LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): 52055.740 (a) (4)  Circle One: EC or CCR

Topic of the waiver: Teacher Experience Index  Quality Education Investment Act

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval______
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? _ No _×_ Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): Dinuba Teachers Association DTA/CTA
California Classified School Employees Association CSEA

Name of bargaining unit and representative(s) consulted: Rich White, President, Dinuba Teachers Association
Sage Clark, President Dinuba Chapter # 152 CSEA

The position(s) of the bargaining unit(s):  __  Neutral _×_ Support _ Oppose (Please specify why)

Comments (if appropriate): Letters attached (Attachment C) jb 6/2/11

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

_  Notice in a newspaper _×_ Notice posted at each school ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Wilson School Site Council    kk 3/30/2011

Date the committee/council reviewed the waiver request: March 7, 2011 (Attachment D) kk 3/30/2011

Were there any objection(s)? No  _×_ Yes ___ (If there were objections please specify)
6. **Education Code or California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

   EC 52055.740  (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third full year of funding:
   (4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

   EC 52055.730  (d) On or before June 30, 2007, the Superintendent, in consultation with interested parties, shall develop a uniform process that can be used to calculate average experience for purposes of reporting, analyzing, or evaluating the distribution of classroom teaching experience in grades, schoolsites, or subjects across the district. The uniform process shall include an index that uses the 2005-06 California Basic Educational Data System (CBEDS) Professional Assignment Information Form (PAIF), including any necessary corrections, as the base-reporting year to evaluate annual improvements of the funded schools toward balancing the index of teaching experience. The index shall be approved by the Superintendent. The uniform process shall designate teaching experience beyond 10 years as 10 years.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

   By 2010-2011, QEIA schools must ensure that their average level of teaching experience meets or exceeds the average level of teaching experience among all teachers at the same type of school in the district. The average level of teaching experience that QEIA schools must meet is based on the teaching experience levels reported by the district in 2005-2006. District average experience levels or “Teacher Experience Index Targets” were calculated and have remained constant. The Teacher Experience Index (TEI) for elementary schools in the Dinuba Unified School District is 8.1. The uniform process designates teaching experience beyond 10 years as 10 years.

   Wilson Elementary School is asking for a temporary waiver of this requirement in order to continue to benefit from the academic improvement that the QEIA grant has provided for the school. Wilson Elementary School is seeking a waiver of this requirement from 2010-2011 to the 2011-2012 school year. [See attached]

8. Demographic Information:

   Wilson School is a K-5 Elementary School. It has a student population of 483 students: 95% Hispanic, 4% White. All students qualify for Free or Reduced Lunch under Provision II. Over 56% of the students are English Learners. The school is located in the urban fringe of a mid-size city in northern Tulare County.

Dinuba Unified School District and Wilson School have met a number of challenges in meeting the Teacher Experience Index. In 2005-2006, the District had an experienced elementary school staff and the calculated TEI was 8.1. Of the 120 Local Educational Agencies with reported TEI’s only 10% have a TEI equal or greater than 8.1.

<table>
<thead>
<tr>
<th>Average Teacher Experience Index (TEI) Wilson School</th>
</tr>
</thead>
<tbody>
<tr>
<td>District TEI Target (2005-2006)</td>
</tr>
<tr>
<td>Wilson School’s target (2008-2009)</td>

</tr>
<tr>
<td>Wilson School’s calculated TEI (2010-2011)</td>
</tr>
</tbody>
</table>

Several factors have impacted the school’s ability to meet the TEI target of 8.1 years:

- In fully implementing the Class Size Reduction (CSR) Requirement, the school has recruited new teachers some of which have less experience. This has a negative effect on the teacher experience average. In taking the necessary steps to meet the CSR requirement, Wilson has created difficulties in meeting the TEI requirement.
- The teacher transfer articles of our collective bargaining agreement limit teacher assignment options. These articles make transferring teachers to Wilson Elementary School to meet the TEI target difficult.
- Dinuba Unified has six schools that qualify as elementary schools and contributed to the District TEI. Three of these schools or one half are QEIA schools.
- The QEIA funding was uncertain for a significant portion of the 2009-2010 school year forcing a delay in the hiring process.
- The District has provided retirement incentives to encourage experienced teachers to retire.
- Since 2005-2006 the District and Wilson Elementary School have experienced a number of retirements and change in status that has reduced our teacher experience value. If we calculate the District TEI value today for all our elementary schools, using the same calculation model, we would have a value of 7.79. [Attachment A]  jb 6/2/11

The combination of new hires at Wilson Elementary School, difficulties in transferring experienced teachers, as well as retirements, has made it a challenge to meet the TEI requirement.

Wilson Elementary School has substantially met the following requirements at the previous benchmark years:

- Met the class size reduction requirements for full implementation 2010-2011.
- Teachers that are highly qualified as defined by federal requirements teach all classes. (100%)
- Forty hours of professional development provided to teachers. (100%)
- Professional development provided to paraprofessionals.
- Met all the requirements for the Williams settlement.
- Exceeded the API growth targets for the school averaged over the past three years.
The QEIA grant has provided the resources that have reduced class sizes, provided professional development to improve instruction, repaired facilities and increased student learning evidenced by a 49 point API growth this past year. Wilson Elementary School has made continuous improvement with the implementation of the QEIA grant. Baring retirement and illness the projection is that Wilson Elementary School will meet the TEI target of 8.1 in the 2011-2012 school year. [Attachment B]. Wilson Elementary School will meet all the other QEIA stipulations for the 2010-2011 school year and is requesting a waiver of the TEI requirement for the 2010-2011 school year.

- In fully implementing the Class Size Reduction (CSR) Requirement, the school has recruited new teachers some of which have less experience. This has a negative effect on the teacher experience average. In taking the necessary steps to meet the CSR requirement, Jefferson has created difficulties in meeting the TEI requirement.
- The teacher transfer articles of our collective bargaining agreement limit teacher assignment options. These articles make transferring teachers to Jefferson Elementary School to meet the TEI target difficult.
- Dinuba Unified has six schools that qualify as elementary schools and contributed to the District TEI. Three of these schools or one half are QEA schools.
- The QEA funding was uncertain for a significant portion of the 2009-2010 school year forcing a delay in the hiring process.
- The District has provided retirement incentives to encourage experienced teachers to retire.
- Since 2005-2006 the District and Jefferson Elementary School have experienced a number of retirements and change in status that has reduced our teacher experience value. If we calculate the District TEI value today for all our elementary schools, using the same calculation model, we would have a value of 7.79  

The combination of new hires at Jefferson Elementary School, difficulties in transferring experienced teachers, as well as retirements, has made it a challenge to meet the TEI requirement.

Jefferson Elementary School has substantially met the following requirements at the previous benchmark years:

- Met the class size reduction requirements for full implementation 2010-2011.
- Teachers that are highly qualified as defined by federal requirements teach all classes. (100%)
- Forty hours of professional development provided to teachers. (100%)
- Professional development provided to paraprofessionals.
- Met all the requirements for the Williams settlement.
- Exceeded the API growth targets for the school averaged over the past three years.
The QEIA grant has provided the resources that have reduced class sizes, provided professional development to improve instruction, repaired facilities and increased student learning evidenced by a three year API growth average of 35.3 points per year. Jefferson Elementary School has made continuous improvement with the implementation of the QEIA grant, including exiting of Program Improvement at the conclusion of the 2009-2010 school year. Jefferson was one of just 10 in 1100 to exit Program Improvement Year 5 status, and the QEIA grant was one contributing factor. Barring retirement and illness the projection is that Jefferson Elementary School will meet the TEI target of 8.1 in the 2011-2012 school year. [Attachment B] Jefferson Elementary School will meet all the other QEIA stipulations for the 2010-2011 school year and is requesting a waiver of the TEI requirement for the 2010-2011 school year.

jb 6/2/11
ITEM W-25
General Waiver

SUBJECT
Request by Los Angeles Unified School District to waive portions of California Education Code Section 52055.740(a), regarding the Teacher Experience Index, Highly Qualified Teacher requirements, and Williams’s settlement agreement requirements under the Quality Education Investment Act, so that the full implementation of these programmatic requirements is not required until 2012–13 at Alain LeRoy Locke Charter High School, Animo Locke #1, Animo Locke #2, Animo Locke #3, and Animo Locke ACE Academy.

Waiver Number: 8-5-2011

RECOMMENDATION

☐ Approval ☐ Approval with conditions ☒ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) Meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.

This is the first time waivers requesting revision of the Teacher Experience Index (TEI) have been received by the CDE Waiver Office and presented to the SBE.

The SBE heard a related request concerning 16 Los Angeles Unified School District (USD) schools in January 2009, with no action taken, and for a second time at the March 2009 meeting. In March, a motion to deny the waiver failed and the waiver was automatically granted under EC Section 33052 due to the fact that the SBE did not take formal action on the waiver in two meetings.
SUMMARY OF PREVIOUS (Cont.)

The SBE heard and approved a related waiver request by the Los Angeles USD for Alain LeRoy Locke Charter High School (Locke CHS) at the May 2009 SBE meeting. That waiver allowed QEIA funding to follow students transferring from the QEIA-funded Locke CHS to new schools on the same Locke CHS campus.

The SBE heard and approved another related waiver request by the Los Angeles USD for Locke CHS at the March 2010 SBE meeting. That waiver renewed the May 2009 waiver request that allowed QEIA funding to follow students transferring from the QEIA-funded Locke CHS to new schools on the same Locke CHS campus through 2014.

SUMMARY OF KEY ISSUES

The Los Angeles USD is requesting this waiver, for years 2010–11 and 2011–12, from the QEIA monitoring requirements relating to the TEI, highly qualified teachers (HQT), and the William’s settlement agreement. Los Angeles USD states that it will meet the full QEIA monitoring requirements by 2012–13.

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, HQT, and the William’s settlement, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements except for the William’s settlement requirements that were to have been fully implemented by the end of the 2008–09 school year. Monitoring for compliance with second-year program requirements was completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year. QEIA schools are required to fully implement all requirements in the 2010–11 school year.

Each of the schools affected by this waiver was required by the SBE to meet the statutory QEIA implementation timeline requirements in its approval of the March 2010 waiver request. Fifteen months later, the Los Angeles USD is requesting a waiver from implementing these requirements within that timeline.

The Department continues to be concerned that approval of this waiver request will present significant challenges for these schools in fully implementing program requirements. QEIA-funded schools are expected to provide specific and significant benefits to their students through the reduction of the class size of core classes, reduction of pupil-to-counselor ratios, and improved instruction through expanded professional development, HQT, and an average years of experience of classroom teachers in the school equal to or exceeding the average for the Los Angeles USD, among other things. For this reason, the CDE recommends denial on the basis that its approval would not adequately address the educational needs of pupils within the meaning of EC Section 33051(a)(1).
SUMMARY OF KEY ISSUES (Cont.)

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Los Angeles Unified School District has a student population of approximately 678,441 and is located in Los Angeles County. Alain LeRoy Locke Charter High School has a student population of 2,353.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2011, to June 30, 2015

Local board approval date(s): May 24, 2011

Public hearing held on date(s): May 24, 2011

Bargaining unit(s) consulted on date(s): May 11, 2011

Name of bargaining unit/representative(s) consulted: Asociacion de Maestros Unidos, Arelle Zurzolo, President; Animo Classified Employees Association, Daymond Johnson, President

Position of bargaining unit(s) (choose only one):
☐ Neutral  ☒ Support  ☐ Oppose:

Comments (if appropriate):

Public hearing advertised by (choose one or more):
☒ posting in a newspaper  ☐ posting at each school  ☐ other (specify)

Advisory committee(s) consulted: School Site Councils or other school advisory councils of the Alain LeRoy Locke Charter High School

Objections raised (choose one): ☒ None  ☐ Objections are as follows:
Date(s) consulted: April 11, 12, and 13, 2011

**FISCAL ANALYSIS (AS APPROPRIATE)**

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must fully implement all of the QEIA statute requirements to remain in the program.

The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

Phone (and extension, if necessary): 213.241.8370
Fax Number: 213.241.4710

Period of request: (month/day/year)
From: 7/1/2011 To: 6/30/2015

Local board approval date: (Required)
May 24, 2011 kak 5/23/2011

Date of public hearing: (Required)
May 24, 2011 kak 5/23/2011

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): 52055.740 (5) (b) (2) (a) jb 5/23/11 Circle One: EC or CCR

Topic of the waiver: Extension for Full Implementation of Programmatic Requirements
Teacher Experience Index kak 5/23/2011

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval______
Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No __ Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): AMU – 4/12/2011, ACEA – 4/11/2011

Name of bargaining unit and representative(s) consulted: Asociacion de Maestros Unidos (AMU) – Arielle Zurzolo, President
Animo Classified Employees Association (ACEA) - Daymond Johnson, President

The position(s) of the bargaining unit(s): __ Neutral _X_ Support __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

_X_ Notice in a newspaper ___ Notice posted at each school ___ Other: (Please specify)

Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver, Date the committee/council reviewed the waiver request:

Locke Launch to College Academy School Advisory Committee – consulted on 4/13/2011
Animo Locke 1 School Advisory Committee – consulted on 4/12/2011
Animo Locke 2 School Advisory Committee – consulted on 4/12/2011
Animo Locke 3 School Advisory Committee – consulted on 4/12/2011
Animo Locke ACE Academy School Advisory Committee – consulted on 4/11/2011
5. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a *strike out key*).

52055.740. (a) For each funded school, the county superintendent of schools for the county in which the school is located shall annually review the school and its data to determine if the school has met all of the following program requirements by the school by the end of the third FIFTH full year of funding:

52055.740 (D)(3) Ensure that each teacher in the school, including intern teachers, shall be highly qualified in accordance with the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.).

52055.740 (D)(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

6. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

In 2008-2009, the operations of Locke High School were turned over from the Los Angeles Unified School District (“LAUSD”) to Green Dot Public Schools (“Green Dot”), a non-profit charter management organization. Due to the transition, a number of veteran Locke teachers chose to leave their position at Locke in order to maintain their seniority and lifetime benefits with LAUSD. Although Locke High School/Green Dot has concentrated its efforts in hiring more veteran teachers, we have been unable to do so due to the following factors: 1) unable to replace the senior teachers who left Locke to stay with LAUSD with the same amount of experience; 2) difficulty in hiring highly qualified teachers to fill vacant positions, especially in the fields of math, science and special education where there continues to be a shortage of highly qualified teacher candidates.

Due to these reasons, we cannot meet the full implementation of personnel requirements in the areas of HQT, El Authorizations (Williams) and the inherited LAUSD Teacher Experience Index (“TEI”) of 6.8 years that we are required to meet in 2010-11. Although Locke High School has been able to meet the 1/3 and 2/3 requirement over the last two years, we are unable to reach the full implementation requirement by year three as personnel changes within a union environment take more time than other programmatic changes, such as reducing class sizes and implementing more professional development.

This waiver is to request a two year extension to reach full implementation of programmatic requirements for each of the five Locke schools which currently receive QEIA funding. Additional interim benchmarks will be set and specific action steps will be outlined to ensure Locke High School will meet its full Teacher Experience Index, HQT, and Williams requirements by 2012-2013. Please see attached supplemental report which outlines improved outcomes in API, increased attendance and increased graduation rates.

Expected Outcome: Locke High School will maintain QEIA funding in 2011-12 and 2012-13 and will meet full QEIA programmatic requirements in 2012-13.

Consequences if not approved: Locke High School would lose QEIA funding in 2012-2013 resulting in layoffs of approximately 16 certificated staff. We would not be able to continue our commitment to developing exemplary school district and school practices that will create the working conditions and classroom learning environments that will attract and retain well qualified teachers, administrators, and other staff. Furthermore, there is a risk of reversing the improved academic results due to having to increase class sizes and to restructure the entire school.

7. Demographic Information:

The Locke QEIA Schools__ have a student population of __2,353__ and is located in an _urban city_ in _Los Angeles_ County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No ☒ Yes ☐

(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No ☒ Yes ☐

(If yes, please attach explanation or copy of CPM finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Supplemental Information Re: Locke High School QEIA Waiver Request

The Locke Transformation Project is one of the most innovate reform efforts in public education today. It is a one-of-a-kind partnership between a non-profit charter school operator (Green Dot Public Schools), the stakeholders (teachers, parents, community leaders) of a public high school, and a public school district (Los Angeles Unified School District) to radically restructure an underperforming high school.

In 2008-2009, the Los Angeles Unified School District (“LAUSD”) handed over governance of Locke High School to the non-profit charter operator, Green Dot Public Schools (“Green Dot”) after the majority of tenured teachers voted to convert the school into a charter. Green Dot restructured Locke into five conversion charter schools, all of which currently receive QEIA funding.

Over the first two years of QEIA funding (2008-2009 and 2009-2010), Locke High School has been able to meet the one-third and two-thirds programmatic requirements specified in the Education Code Section 52055.700-52055.770 and per oversight of the Los Angeles County of Education office. By meeting these requirements, Locke has achieved the following outcomes:

1. Increased actual pupil attendance dramatically by over 10% from LAUSD to Green Dot:

<table>

*Animo Locke #1, #2, and #3 did not have a growth API in 2008-09 because that was their first year of operation; Animo Locke ACE Academy did not have a growth API in 2008-09 and 2009-10 because their first year of operation was in 2009-2010.

Despite the strong results, the Locke schools are currently in jeopardy of losing their QEIA allocation based on not being able to meet the full implementation of programmatic requirements in 2010-2011. In 2010-2011, the Locke schools will meet all the QEIA implementation requirements except for the requirements related to personnel. The
transition of Locke High School from LAUSD to Green Dot forced several more veteran and qualified teachers to remain with LAUSD and leave teaching at Locke, bringing down Locke’s teacher experience index. Additionally, for Green Dot, filling those vacant positions proved difficult especially with the continued shortage of highly qualified teachers in the math, science and special education fields.

The Locke schools are committed to the QEIA requirements and are not asking to waive any requirements. Instead, we are actively seeking an extension to ensure all teachers have the appropriate credentials to meet HQT, hold the appropriate EL authorizations, and meet the inherited LAUSD Teacher Experience Index of 6.8 years. The Locke schools will meet all the QEIA requirements but we are requesting 2 additional years to meet the personnel requirements due to the major restructuring efforts that have been happening at Locke. Again, the Locke schools are beginning to show strong academic gains and we do not want to lose the momentum that the schools and the students have been able to gain through QEIA class size reduction, counselor ratios, and professional development for teachers.

As stated in the waiver, there are five the Locke schools requesting to extend the full implementation deadline by two years. The five schools are as follows:

<table>
<thead>
<tr>
<th>CDS Code</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>19-64733-0119909</td>
<td>Amino Locke ACE Academy</td>
</tr>
</tbody>
</table>

Each school is requesting the full implementation extension in the following three personnel categories:

52055.740 (D)(3) Ensure that each teacher in the school, including intern teachers, shall be highly qualified in accordance with the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.).

52055.740 (D)(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

52055.740 (D)(5)(b)(4) Meet all of the requirements of the settlement agreement in Williams v. State of California (Case Number CGC-00-312236 of the Superior Court for the County of San Francisco)…

**HQT/NCLB:** Currently, there are five out of 117 teachers at the Locke schools who hold multiple subject credentials instead of a single subject credential. In order to ensure that we are able to meet the HQT requirement under NCLB, these teachers have until the end of the 2010-2011 school year to earn their single subject credential and become HQT under NCLB. To prevent future hires that are not HQT under NCLB, Green Dot has a credential specialist in our central office who reviews every candidate to ensure full compliance before an offer is extended.

**Teacher Experience Index:** In 2008-2009, Locke’s QEIA Teacher Experience Index (“TEI”) was 3.2. Over the last two years, the TEI has steadily increased to 3.9 in 2009-2010 and is expected to reach 4.7 for 2010-2011. The Green Dot wide QEIA TEI is currently 5.1. As a younger organization than LAUSD, teachers naturally have not been teaching as long with Green Dot. Furthermore, as mentioned earlier, the

Locke transition from LAUSD to Green Dot resulted in a number of veteran Locke teachers who were offered to remain and teach at Locke decline the offer due to the fact they would lose their seniority and lifetime benefits with LAUSD by transferring over to Green Dot.
All of our administrators have been informed of the need to hire more experienced teachers. The Green Dot Human Capital department is reviewing the current staffing of the Locke schools to determine each school’s hiring needs in the core content areas and ensuring that experienced candidates are placed at these sites.

**Williams Settlement/Teacher Assignment Review:** Similar to HQT/NCLB, all teachers with mis-assignments have been given until the end of the 2010-2011 school year to ensure they have the proper authorization. Additionally, our credential specialist is conducting an ongoing audit of our existing teachers to ensure that they are CLAD certified as well as teaching the proper course of study. All new Green Dot teacher candidates will not be extended an offer unless they have the proper authorization in order to teach a course of study.

The Locke schools are committed to ensuring they meet the QEIA requirements and have specific action steps to ensure (within the next two years) that all teachers have the appropriate credentials to meet HQT, hold the appropriate EL authorizations, and meet the inherited LAUSD Teacher Experience Index of 6.8 years within two years. The results demonstrate that Locke has made progress and has even exceeded the desired student achievement outcomes that the QEIA legislation intended for schools to achieve. By allowing the programmatic requirements extension in the personnel categories, Locke will be able to maintain 16 certificated positions which would otherwise need to be cut and will be able to continue serving the students of South Los Angeles and Watts with a program that is proving to generate results.

The California Department of Education (CDE) recommends approval with the following conditions: (1) This waiver applies only to teachers at Clover Flat Elementary School (ES); (2) Clover Flat ES maintain the average Teacher Experience Index (TEI) at the school level to 5.78 or greater in the 2010–11 school year; (3) Throughout the term of this waiver, Clover Flat ES must meet or exceed the district average TEI for this type of school; and (4) Within 30 days of approval of this waiver, Mountain Empire Unified School District (USD) must provide to the CDE a description, including costs covered by Quality Education Investment Act (QEIA) funds, of professional development activities and any other school improvement activities added to the school improvement plan as a result of the additional funding now available, if any, through this waiver of the TEI requirement.

<th>SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>From March 2009 through the July 2011 State Board of Education (SBE) Meeting, the CDE Waiver Office has presented 37 waivers related to the QEIA to the SBE. Of that number:</td>
</tr>
</tbody>
</table>

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.
SUMMARY OF PREVIOUS (Cont.)

This is the first time waivers requesting revision of the TEI have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The Department is recommending approval for this school based on the fact that the school’s average 2010-11 TEI is within ten percent of the average 2010–11 TEI for this type of school within Mountain Empire Unified School District.

Mountain Empire USD is a rural school district located in San Diego County. Clover Flat ES serves students in grades two through eight. Mountain Empire USD has a student population of approximately 2,400 students. The district provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average district TEI is 7.2. Clover Flat ES is the only school in the district with a grade configuration of two through eight so no comparative TEI data is available for 2010–11.

The district states that, because of its remote location and lack of decent housing, hiring qualified experienced teachers is very difficult. Teachers generally work at Clover Flat ES for one or two years and move to a more desirable area. The district has looked into the possibility of moving some experienced teachers from other schools, but this has been difficult due to morale and union issues. Mountain Empire USD requests a waiver of the QEIA TEI targets for Clover Flat ES and establishment of an alternative TEI target of 5.78 which is based on 2010–11 TEI levels.

The Department recommends approval with the above conditions.
SUMMARY OF KEY ISSUES (Cont.)

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in California Education Code (EC) Section 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Clover Flat Elementary School has a student population of 158 students and is located in a rural area in San Diego County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2010, to June 29, 2012

Local board approval date(s): March 8, 2011

Public hearing held on date(s): March 8, 2011

Bargaining unit(s) consulted on date(s): February 4, 2011

Name of bargaining unit/representative(s) consulted: Mountain Empire Teachers Association, Mari Mann, Union President

Position of bargaining unit(s) (choose only one):

- [ ] Neutral
- [x] Support
- [ ] Oppose

Comments (if appropriate):

Public hearing advertised by (choose one or more):

- [ ] posting in a newspaper
- [x] posting at each school
- [ ] other

Advisory committee(s) consulted: Clover Flat Elementary School – Schoolsite Council

Objections raised (choose one):

- [x] None
- [ ] Objections are as follows:

Date(s) consulted: November 17, 2010
FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, Clover Flat ES must implement the TEI targets based on statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds reverted to the general fund.

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

</tr>
</tbody>
</table>
6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key). Following program requirements by the school by the end of the third full year of funding:

(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.
7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

Clover Flat School is a small, rural school. There are only eight teachers plus a part-time resource teacher (RSP). While three of these teachers have more than 10 years experience (Ferguson – 22; Morris -15; Burton – 14), the other teachers have less experience than the teacher experience index of 7.5 years.

Clover Flat is situated in the small town of Boulevard, population 1454. Boulevard is approximately 35 miles from Alpine and 50 to El Centro, which are the closest towns to us. Boulevard is 65 miles from San Diego. This isolation, along with the lack of decent housing, recreation and other services, makes finding employees to work at our school very difficult. Teachers will work here one or two years, and move to a more desirable area. This year alone, the math position was offered to three teachers before we were able to find Mr. Goodson, who is our math teacher. There were several applicants for the fifth and second grade teacher positions open this year. Ms. Burton has 14 years of experience, who we were able to hire from Alpine but the second grade opening has a teacher with only two years of experience. The other applicants had even less experience.

The code states:

(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

When the formula was given for our TEI, the average was for the entire district, yet Clover Flat is not like other schools in the district, nor can it be compared to the other schools.

I am working with the superintendent to see if we can move some experienced teachers to our staff from other sites. This is difficult due to morale and union issues. Teachers in our district generally live in town and try to work in the school closest to their home, which can still be a long way away. The move to Boulevard would add many miles to their commute.

"In 2007-08 our TEI was 3.5, in 2008-09 our TEI was 5.0, in 2009-2010 our TEI was 5.5. Our projection of TEI for 2010-2011 is 5.78, which falls short of the 7.6 district average. Despite not meeting the TEI averages, Clover Flat continues to increase our TEI, is meeting CSR targets, has made academic growth as evidence of the API which has grown from 763 to 825 during the 3 years of the QEIA grant, and our staff capacity is building through our professional growth. The staff is committed to the work of the QEIA grant even though meeting TEI has been challenging.

Clover Flat Elementary School requests a waiver to not be held to the TEI of 7.6 years. This is a challenge that we cannot meet at this time."

8. Demographic Information:

(District/school/program) Clover Flat School has a student population of 158 and is located in a rural area in San Diego County.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) No ☐ Yes ☐

(If yes, please attach explanation or copy of audit finding)

Has there been a Categorical Program Monitoring (CPM) finding on this issue? No ☒ Yes ☐

(If yes, please attach explanation or copy of CPM finding)

Clover Flat Elementary School - QEIA Targets and Calculations of Class Size Averages in Recent Years

Up until the 2008-09 school year this school served only through 6th grade however starting in 2009-10 a 7th grade was be added, and 8th grade will add in 2010-11. The 7th grade target (below *) was derived from the only middle school in the district, Mountain Empire Middle School.

Waiver Request:
Clover Flat Elementary School requests a waiver to not be held the TEI of 7.6 years. This is a challenge that we cannot meet at this time.
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

General Waiver

SUBJECT

Request by Petaluma City Elementary School District to waive portions of California Education Code Section 52055.740(a), regarding Teacher Experience Index requirements under the Quality Education Investment Act, that this funded school have an average experience index of classroom teachers in the school equal to or exceeding the average for the school district by the end of the 2010–11 school year at McKinley Elementary School (requesting revised goal of 6.48).

Waiver Number: 4-4-2011

RECOMMENDATION

☐ Approval  ☐ Approval with conditions  ☑ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) Meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.

- 7 were related to adding new schools to the QEIA program: 2 were approved and 3 were approved with conditions, and 2 were withdrawn.

This is the first time waivers requesting revision of the Teacher Experience Index (TEI) have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full
SUMMARY OF KEY ISSUES (Cont.)

implementation of program requirements. Monitoring for compliance with second-year program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The CDE recommends denial of this request based on three factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to result in increased teacher experience over time and the QEIA school is below the district average for this type of school; and (3) The revised TEI request is greater than 10 percent of the district’s 2010–11 TEI average for this type of school.

Petaluma City ESD is an urban school district located in Sonoma County. McKinley Elementary School (ES) was reconfigured in 2010–11 from a kindergarten through grade six school to a grade four through six school to better serve students. Petaluma City ESD has a student population of approximately 2,400 students. Petaluma City ESD provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average Petaluma City ESD TEI was 7.2. Petaluma City ESD’s average TEI for 2010–11 for this type of school is 8.5.

Petaluma City ESD states that several experienced teachers transferred to the kindergarten through grade three school because of the reconfiguration and this left four certificated positions to be filled. Petaluma City ESD advertised the positions as requiring at least five years of experience; however, they were unable to find four applicants that met their teaching standards. Petaluma City ESD made the decision to hire teachers with less than five years experience and this ultimately affected the TEI at McKinley ES. Petaluma City ESD requests a waiver of the QEIA TEI target for McKinley ES and establishment of an alternative TEI target of 6.48 which is based on 2010–11 TEI levels. The 2010–11 TEI alternative of 6.48 for McKinley ES is less than Petaluma City ESD’s 2010–11 TEI average of 8.5 for this type of school.
Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC Section 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed; (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request; (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

**Demographic Information:** McKinley Elementary School has a student population of 212 students and is located in a small city in Sonoma County.

**Authority for Waiver:** EC Section 33050

**Period of request:** July 1, 2010, to June 30, 2014

**Local board approval date(s):** March 15, 2011

**Public hearing held on date(s):** March 15, 2011

**Bargaining unit(s) consulted on date(s):** March 9 and 10, 2011

**Advisory committee(s) consulted:** Petaluma City School – Schoolsite Council

**Objections raised (choose one):**
- [x] None
- [ ] Objections are as follows:

**Date(s) consulted:** February 10, 2011
FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the TEI targets based on statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

Local board approval date: March 15, 2011
Date of public hearing: March 15, 2011

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): 52055.730d, 52055.740D4 and 52055.750a10 Circle One: EC or CCR

Topic of the waiver: QEIA Teacher Years of Experience

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval______ Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No _X_ Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): March 9, 2011 and March 10, 2011
Name of bargaining unit and representative(s) consulted: Petaluma Federation of Teachers / Ted Russo, PFT President
The position(s) of the bargaining unit(s): __ Neutral _X_ Support __ Oppose (Please specify why)
Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?
___ Notice in a newspaper _X_ Notice posted at each school ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

Petaluma City School Site Council _kak 4/7/11 per S. Merrill
Date the committee/council reviewed the waiver request: 2/10/11

Were there any objection(s)? No _X_ Yes ___ (If there were objections please specify)
6. **Education Code** or **California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a *strike out key*).

52055.730d, 52055.740D4 Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

52055.750a10

7. **Desired outcome/rationale.** Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

We are requesting a waiver regarding the required years of experience. Our district average is 7.2 years of experience. This year we reconfigured the school from a K-6 school to a 4-6 school to better serve our students. In the reconfiguration several experienced teachers transferred to the K-3 school, leaving four certificated positions that had to be filled. Human Resources advertised the job as requiring at least five years of experience which would have allowed us to comply with the requirement of matching the district average; however after interviewing sixteen applicants, we were unable to find four applicants that met our teaching standards. Since we were unable to fill the positions before school started in August, we started school with a substitute teacher. In September we made the decision to hire a teacher with less than five years experience and currently our teachers’ average years of experience is 6.8, slightly below the district average of 7.2. In the three years that we have been receiving QEIA funds, students in the classes of the three teachers at the site with the lowest number of years of experience (three, four, and five years respectively) have shown the greatest growth in achievement. Given the many teacher lay offs in California, an experienced teacher is not inclined to give up a permanent position to take another job with no job security. In addition, many excellent teachers with less than five years experience who have been laid off are applying for positions. We are seeking a waiver to allow us to drop below the district average years of teaching experience in order to fill positions with high quality teachers.

8. **Demographic Information:**

McKinley School has a student population of 212 and is located in a small city in Sonoma County. Approximately 80% of our students are second language learners and 93% receive free/reduced lunch.

CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

General Waiver

SUBJECT

Request by San Diego Unified School District to waive portions of California Education Code Section 52055.740(a), regarding the Teacher Experience Index under the Quality Education Investment Act, that this funded school have an average experience index of classroom teachers in the school equal to or exceeding the average for the school district by the end of the 2010–11 school year at Mann Middle School (requesting revised target of 5.5).

Waiver Number: 13-5-2011

RECOMMENDATION

☐ Approval  ☑ Approval with conditions  ☐ Denial

The California Department of Education (CDE) recommends denial because its approval would not adequately address the educational needs of pupils as described in California Education Code (EC) Section 33051(a)(1).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

From March 2009 through the July 2011 State Board of Education (SBE) Meeting, the CDE Waiver Office has presented 37 waivers related to the Quality Education Investment Act (QEIA) to the SBE. Of that number:

- 30 were related to QEIA class size reduction (CSR) requirements: 25 were approved with conditions, 4 were denied, and 1 was postponed.
- 7 were related to adding new schools to the QEIA program: 2 were approved, 3 were approved with conditions, and 2 were withdrawn.

This is the first time waivers requesting revision of the Teacher Experience Index (TEI) have been received by the CDE Waiver Office and presented to the SBE.

SUMMARY OF KEY ISSUES

Schools participating in QEIA were monitored by their county offices of education for compliance with program requirements, including TEI, for the first time at the end of the 2008–09 school year. They were required to demonstrate one-third progress toward full implementation of program requirements. Monitoring for compliance with second-year
SUMMARY OF KEY ISSUES (Cont.)

program requirements was recently completed to ensure that schools made two-thirds progress toward full implementation in the 2009–10 school year.

Quality Education Investment Act schools are required to include an index that uses the 2005–06 California Basic Educational Data System Professional Assignment Information Form as the base-reporting year to evaluate annual improvements of funded schools toward balancing the index of teacher experience. The index is approved by the district superintendent and the process designates teaching experience on a scale of one to ten. QEIA schools are required to have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school and maintain or exceed this experience level for the duration of funding.

The Department recommends denial of this request based on three factors: (1) QEIA program requirements were known to the district prior to its decision to apply for program participation; (2) QEIA funding is expected to result in increased teacher experience over time and the QEIA school is below the district average for this type of school; and (3) The revised TEI request is greater than 10 percent of the district’s 2010–11 TEI average for this type of school.

San Diego USD is an urban school district located in San Diego County. Mann Middle School (MS) serves students in grades six through eight. San Diego USD has a student population of 131,466 students. The district provided teacher experience information from 2005–06, the base year upon which QEIA TEI targets are calculated, showing that the average district TEI is 6.6. The district’s average TEI for 2010–11 for this type of school is 8.22.

The district states that due to the restructuring of Mann MS, the effects of the reconfiguration resulted in a mass departure of most of the staff members at the school. Few experienced teachers applied for the vacancies which resulted in Mann MS hiring newer teachers who had less than three years of teaching experience at the time. Mann MS has maintained a stable teaching staff for the past three years, but is still below the district TEI level. San Diego USD requests a waiver of the QEIA TEI target for Mann MS and establishment of an alternative TEI target of 5.5 which is based on 2010–11 TEI levels. The 2010–11 TEI alternative target of 5.5 for Mann MS is less than the district’s 2010–11 TEI average of 8.22 for this type of school.
SUMMARY OF KEY ISSUES (Cont.)

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed schoolsite council did not approve the request; (2) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of; (3) The waiver affects a program that requires the existence of a schoolsite council and the any objections to the request by the councils or advisory committees; (4) Pupil or school personnel protections are jeopardized; (5) Guarantees of parental involvement are jeopardized; (6) The request would substantially increase state costs; or (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Mann Middle School has a student population of 1,000 students and is located in urban San Diego County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2010, to June 30, 2011

Local board approval date(s): February 22, 2011

Public hearing held on date(s): February 22, 2011

Bargaining unit(s) consulted on date(s): March 28, 2011

Advisory committee(s) consulted: Mann Middle School, Schoolsite Council

Objections raised (choose one): ☒ None ☐ Objections are as follows:

Date(s) consulted: February 1, 2011
FISCAL ANALYSIS (AS APPROPRIATE)

There are no statewide costs as a result of waiver approval. If the waiver is denied, the school must implement the TEI targets based on statute requirements to stay in the program.

Any school in the program not meeting those targets will risk the loss of future funding. Through 2009–10, schools found to have not met all program requirements will have one year to correct all shortcomings. If at the end of that year a school is still out of compliance with program requirements, it will be subject to funding termination. After 2010–11, schools found to have not met all program requirements will face potential termination of funding. The QEIA statute calls for any undistributed annual QEIA funding to be redistributed to other schools currently in the program (no new schools are funded). However, in the last two years, the unused funds have reverted to the general fund.

Legal Criteria

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number): 52055.740(a)(4) Circle One: X EC or CCR

Topic of the waiver: Quality Education Investment Act (QEIA) Teacher Experience Index

2. If this is a renewal of a previously approved waiver, please list Waiver Number: _____ and date of SBE Approval______

Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units? __ No _X_ Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): March 28, 2011 per Elizabeth Kramer jb 5/12/11

Name of bargaining unit and representative(s) consulted:
San Diego Education Association: Bill Freeman, President

The position(s) of the bargaining unit(s): __ Neutral _X_ Support __ Oppose (Please specify why)

Comments (if appropriate):

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?

__ Notice in a newspaper _X__ Notice posted at each school _X__ Other: (Please specify) Posted on district website

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:
Mann Middle School Site Council

Date the committee/council reviewed the waiver request: February 1, 2011

Were there any objection(s)? No _X_ Yes ___ (If there were objections please specify)
6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a strike out key).

EC Section 52055.740 (a)(4)

(4) Using the index established under Section 52055.730, have an average experience of classroom teachers in the school equal to or exceeding the average for the school district for this type of school.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

On behalf of Mann Middle School, the San Diego Unified School District requests an adjustment in the QEIA Teacher Experience Index target for 2010-11 school year, from 6.6 to 5.5 years of average teacher experience.

Mann Middle School has 57 teachers with 453 actual years of experience collectively. This is an average of 7.9 years. However, using the QEIA Teacher Experience Index, the average years of teaching experience is 5.7.

REQUEST BY Norwalk-La Mirada Unified School District TO WAIVE ALL OF CALIFORNIA EDUCATION CODE SECTIONS 17473 AND 17474 AND PORTIONS OF 17466, 17472, AND 17475 REGARDING COMPETITIVE BIDDING PROCESS FOR THE LEASE OF A SURPLUS PROPERTY (UNUSED FORMER SCHOOL PROPERTY).

THE DISTRICT HAS ENTERED INTO A LONG-TERM LEASE WITH BIOLA UNIVERSITY FOR APPROXIMATELY HALF OF 8.8 ACRES LOCATED AT 14540 SAN CRISTOBAL DRIVE, LA MIRADA, AND WISHES TO LEASE THE BALANCE OF FACILITY AND LAND USING NON-COMPETITIVE BIDDING.

Waiver Number: 48-6-2011

RECOMMENDATION

☐ Approval ☒ Approval with conditions ☐ Denial

The California Department of Education recommends approval with the following conditions: the proposal the governing board determines is most desirable shall be selected within 30 to 60 days of the public meeting when the proposals are received, and the reasons for that determination shall be identified in public session and included in the minutes of the meeting. Additionally, the district must comply with the surplus property requirements, regarding offers to public agencies and non-profits, specified in California Education Code (EC) sections 17464 through 17465, and 17485 et seq.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved all previous waivers regarding the bidding process and the sale of surplus property or lease of surplus property. The Norwalk-La Mirada Unified School District (USD) is requesting to waive the same provisions for the lease of surplus property.

SUMMARY OF KEY ISSUES

Under the provisions of EC sections 33050 through 33053, the Norwalk-La Mirada USD requests that specific portions of the EC sections relating to lease of district property be waived. The district believes it will benefit substantially from the potential ongoing cash flow that will be generated by a negotiated lease arrangement.
SUMMARY OF KEY ISSUES (Cont.)

The following specific waiver (strike out) is requested:

*Education Code Section 17466.* Before ordering the sale or lease of any property the governing board, in a regular open meeting, by two-thirds vote of all its members, shall adopt a resolution, declaring its intention to sell or lease the property, as the case may be. The resolution shall describe the property proposed to be sold or leased in such manner as to identify it and shall specify the minimum price or rental and the terms upon which it will be sold or leased and the commission or rate thereof, if any, which the board will pay to a licensed real estate broker out of the minimum price or rental. The resolution shall fix a time not less than three weeks thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to purchase or lease will be received and considered.

The district is requesting that the requirement of sealed proposals to purchase or lease the property be waived, allowing the district to negotiate a lease of the site that will be most beneficial to the district.

*Education Code Section 17472.* At the time and place fixed in the resolution for the meeting of the governing board, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to sell or to lease and which are made by responsible bidders, the proposal which the Board determines represents the most desirable lease of the property shall be is the highest, after deducting there from the commission, if any, to be paid a licensed real estate broker in connection therewith, shall be finally accepted, unless a higher oral bid is accepted or the board rejects all bids.

Waiving this portion would allow the district to determine what constitutes the most desirable bid, set its own terms and conditions, and would remove the requirement that an oral bid be accepted.

*Education Code Section 17473.* Before accepting any written proposal, the board shall call for oral bids. If, upon the call for oral bidding, any responsible person offers to purchase the property or to lease the property, as the case may be, upon the terms and conditions specified in the resolution, for a price or rental exceeding by at least 5 percent, the highest written proposal, after deducting the commission, if any, to be paid a licensed real estate broker in connection therewith, then the oral bid which is the highest after deducting any commission to be paid a licensed real estate broker, in connection therewith, which is made by a responsible person, shall be finally accepted. Final acceptance shall not be made, however, until the oral bid is reduced to writing and signed by the offeror.

SUMMARY OF KEY ISSUES (Cont.)

Waiving this portion would allow the Norwalk-La Mirada USD to eliminate the oral
bidding process.

*Education Code* Section 17474. In the event of a sale on a higher oral bid to a purchaser procured by a licensed real estate broker, other than the broker who submitted the highest written proposal, and who is qualified as provided in Section 17468 of this code, the board shall allow a commission on the full amount for which the sale is confirmed. One-half of the commission on the amount of the highest written proposal shall be paid to the broker who submitted it, and the balance of the commission on the purchase price to the broker who procured the purchaser to whom the sale was confirmed.

Waiving this portion, related to the oral bidding process, eliminates technical language related to commissions paid to brokers who procure the winning oral bid.

*Education Code* Section 17475. The final acceptance by the governing board may be made either at the same session or at any adjourned session of the same meeting held within the 10 days next 30 to 60 days following.

Waiving this portion would require that the district board wait to award the final bid 30 to 60 days after the meeting at which the bids are opened. The district would not be allowed to make the decision at the same meeting, nor within 10 days of opening the bid, as stated in the statute. This will allow extra time for review of the bids by the district staff, board members, and the public, before a final decision is made. In addition, when the governing board determines the most desirable bid, the reasons for that determination shall be identified in public session, and included in the minutes of that meeting.

The Department recommends approval of this waiver with conditions as stated in the recommendation (front page).

**Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a).** “The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.”

**Demographic Information:** Norwalk-La Mirada Unified School District has a student population of 24,000 and is located in an urban area in Los Angeles County.
Authority for Waiver: EC Section 33050

   **District Advisory Committee per I. Vasquez kak 7/11/11**

   **Date the committee/council reviewed the waiver request: February 24, 2011**

   **Were there any objection(s)? No X Yes (If there were objections please specify)**
6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out** key).

See attached.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The Norwalk-La Mirada Board of Education ("Board") adopted a resolution on September 27, 2010 declaring its intention to lease surplus property located at 14540 San Cristobal Drive, La Mirada (the "Property"). The Property is located on approximately 8.8 acres in a residential area of the City of La Mirada. There are six former school buildings on the Property with a total square footage of approximately 30,300. The Board used the services of an outside asset management firm to prepare a Request for Proposal to Lease Surplus School Property ("RFP"). The RFP was published and aggressively advertised by an outside asset management firm. Only two sealed bids were received and opened at the December 13, 2010 Board meeting, and after calling for oral overbids, no oral bids were received. Of the two bids received, only the bid from Biola University was responsive. The Board accepted the bid from Biola University for the lease of one-half of the Property. Given that any lease of the remainder of the Property will comprise only a portion of the Property and buildings and will need to be compatible with Biola University’s intended use of the Property, the District’s outside asset management consultant believes maximizing proceeds from a lease of the remainder of the Property will most likely be achieved through a request for proposal process that does not require compliance with the public bidding requirements contained in the Education Code. The outside consultant also believes the services of an outside real estate broker to market the Property without the public bidding requirements will be essential in maximizing lease revenues. During these difficult economic and budgetary times, maximizing surplus proper lease revenues is critical to the District ongoing fiscal health.

8. Demographic Information:

9. District has a student population of **24,000** and is located in an urban area in Los Angeles County.

Education Code Section 17466. Before ordering the sale or lease of any property the governing board, in a regular open meeting, by two-thirds vote of all its members, shall adopt a resolution, declaring its intention to sell or lease the property, as the case may be. The resolution shall describe the property proposed to be sold or leased in such manner as to identify it, and shall specify the minimum price or rental and the terms upon which it will be sold or leased and the commission or rate thereof, if any, which the board will pay to a licensed real estate broker out of the minimum price or rental. The resolution shall fix a time not less than three weeks thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to purchase or lease will be received and considered.

Education Code Section 17472. At the time and place fixed in the resolution for the meeting of the governing board, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to sell or to lease and which are made by responsible bidders, the proposal which the Board determines represents the most desirable lease of the property shall be the highest, after deducting there from the commission, if any, to be paid a licensed real estate broker in connection therewith, shall be finally accepted, unless a higher oral bid is accepted or the board rejects all bids.

Education Code Section 17473. Entire section (regarding oral bids) to be waived.

Education Code Section 17474. Entire section to be waived.

Education Code Section 17475. The final acceptance by the governing body may be made either at the same session or at any adjourned session of the same meeting held within the 10 days 30 to 60 days next following.
ITEM W-30
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

☐ General Waiver

SUBJECT

Request by Montebello Unified School District to waive portions of the California Education Code Section 15282, regarding term limits for members of a Citizens' Oversight Committee for all construction bonds in the district.

Waiver Number: 15-6-2011

☐ Action

☐ Consent

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education recommends approval of a renewal with the following conditions that four of the current members of the Citizens’ Oversight Committee (COC) be allowed to continue for an additional two-year term. The waiver will end on or before January 31, 2013, so that California Education Code (EC) Section 33051(b) will not apply and the waiver will not become permanent.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved fifteen waivers similar to this request since 2007.

SUMMARY OF KEY ISSUES

Under the provisions of EC sections 33050 through 33053, the Montebello Unified School District (USD) requests that specific language of EC Section 15282(a) relating to term limits for members of a COC be waived as follows:

Education Code Section 15282(a): The citizens’ oversight committee shall consist of at least seven members to serve for a term of two years without compensation and for no more than two consecutive terms.

The purpose of the COC is to inform the public concerning the expenditure of bond revenues. The COC reviews and reports on the proper expenditure of taxpayers’ money for school construction. The COC holds public meetings and advises the public as to whether the district is in compliance with all of the statutory requirements of the bond and school construction projects.
SUMMARY OF KEY ISSUES (Cont.)

The Montebello USD requests to retain four of the current members of the COC for an additional two-year term. These members were approved by the Montebello USD in February of 2009. The term of these members expired January 30, 2011.

The extension of time would allow the continued participation of these experienced members and would aid the district in its efforts to successfully manage school construction and modernization funds. The current members have worked diligently and have effectively aided the district in ensuring compliance with the statutory requirements of Proposition 39 bond school construction projects.

The district states that it has made numerous attempts and has done extensive outreach within the community to recruit new members but has been unsuccessful. The district will continue to recruit members to the COC.

The Department recommends approval of this waiver request for four members as can be seen on Attachment 2.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Montebello Unified School District has a student population of 35,000 and is located in an urban city in Los Angeles County.

Authority for Waiver: EC Section 33050

Period of request: February 1, 2011, to January 31, 2013

CALIFORNIA DEPARTMENT OF EDUCATION

GENERAL WAIVER REQUEST

GW-1 (10-2-09)

6. *Education Code* or *California Code of Regulations* section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

<table>
<thead>
<tr>
<th>Section 15282(a). The citizens’ oversight committee shall consist of at least seven members to serve for a term of two years without compensation and for no more than two consecutive terms.</th>
</tr>
</thead>
</table>

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The Montebello Unified School District (“District”) requests that specific language in a subsection of the *EC*, relating to term limits for members of a Bond Oversight Committee, referred to in the *EC* as a “Citizens’ Oversight Committee” be waived for the purpose of retaining the current membership (three members) whose terms expire on January 30, 2011, for one additional two-year term.

While numerous attempts to recruit new members to the Citizens’ Bond Oversight Committee (CBOC) have been made, our efforts thus far, have been unsuccessful. Nonetheless, the District will continue to recruit members to the CBOC. Until such time that new members can be obtained, and in order to remain compliant with the *EC*, we are submitting this waiver.

The current membership has diligently and effectively aided the District in ensuring compliance with the statutory requirements of Proposition 39 bond school construction projects. The approval of this waiver would allow for the continued participation of these experienced members and will aid the District in its efforts to successfully manage school construction and modernization funds.

The District wants to retain the current membership for a period of two years, less one day so that *EC 33051(c)* will not apply. The length of the term would be from February 1, 2011 to January 31, 2013.

8. Demographic Information:

Montebello USD has a student population of __35,000__ and is located in an urban city in Los Angeles County.

Montebello Unified School District
Citizens’ Oversight Committee

The following four member’s terms ended January 30, 2011:

Yvette Fimbres (At-large)
Darrell Heacock (Business Organization)
Daniel Villanueva (Parent)
Willard Yamaguchi (At-large)
ITEM W-31
### Specific Waiver

**SUBJECT**

Request by Surprise Valley Joint Unified School District under the authority of California Education Code Section 52863 for a renewal waiver of Education Code Section 52852, allowing one joint schoolsite council to function for four small schools: Surprise Valley Jr/Sr High School, Surprise Valley Elementary School, Surprise Valley Community Day School, and Great Basin Continuation High School.

Waiver Number: 37-5-2011

### RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following condition: the schoolsite council (SSC) shall be composed of the high school principal, one teacher from Surprise Valley Jr/Sr High School (HS), one teacher from Surprise Valley Elementary School (ES), one teacher from Surprise Valley Community Day School (CDS), one teacher from Great Basin Continuation High School (CHS), one school staff member from Surprise Valley ES, one parent or community member representing Surprise Valley Jr/Sr HS, one parent or community member representing Surprise Valley ES, one parent or community member representing Surprise Valley CDS and Great Basin CHS, and three high school students representing Surprise Valley Jr/Sr HS and Great Basin CHS.

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Specific authority is provided in California Education Code (EC) Section 52863 to allow the State Board of Education (SBE) to waive the SSC requirements of the School-Based Coordination Program (SBCP) Act that would hinder the success of school-based programs. These waivers must be renewed every two years. This is a renewal waiver.

All waivers of this type have been approved by the SBE for schools too small to meet the SSC composition requirements of EC Section 52852. Pursuant to the SBE Waiver Policy: Schoolsite Councils for Small Schools Sharing Common Services or Attendance Areas Web document at [http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicy.doc](http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicy.doc), schools must have small numbers of students and teachers and have a common site administration, curriculum, or other shared services, or have a geographic proximity or similar student populations.
SUMMARY OF KEY ISSUES

Surprise Valley Jr/Sr HS has a student population of 38 students. Great Basin CHS has a student population of five students and employs one teacher. Surprise Valley ES has a student population of 88 and employs one teaching principal and eight teachers. Surprise Valley CDS has a student population of six and shares one principal and teacher with Surprise Valley ES. Surprise Valley ES and Surprise Valley CDS are on the same campus and share teachers and maintain the same curriculum. All four schools are within one to two blocks of each other.

The combined SSC will identify and address the unique student and program requirements at each school. The Department recommends approval with the above stated conditions.

Demographic Information: Surprise Valley Joint Unified School District has a total student population of 137 and is located in rural Modoc County.

Authority for Waiver: EC Section 52863

Period of request: August 30, 2011, to August 30, 2013

Local board approval date(s): May 12, 2011

Bargaining unit(s) consulted on date(s): May 10, 2011

Attachment 1: Specific Waiver Request (3 pages) (Original waiver request is signed and on file in the SBE Office or the CDE Waiver Office.)
WAIVER GUIDELINES

Schoolsite Councils for Small Schools Sharing Common Services or Attendance Areas

REFERENCES: Authority: California Education Code (EC) Section 52863.

Purpose: To waive provisions of EC 52852.

HISTORICAL NOTES

A pre-existing SBE Policy exists currently, but is un-dated. This will revise that policy.

Statutory Provisions:

EC Section 52852 reads as follows:

A schoolsite council shall be established at each school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

At the elementary level the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel; and (b) parents or other community members selected by parents.

At the secondary level the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel; and (b) equal numbers of parents, or other community members selected by parents, and pupils.

At both the elementary and secondary levels, classroom teachers shall comprise the majority of persons represented under category (a).

Background:

Using the above statutory requirements an Elementary Schoolsite Council would have to consist of at least 10 people: 1 principal, 3 teachers and 1 other school employee (5 total) and 5 parents or other community members. In addition a Secondary Schoolsite Council would have to consist of at least 12 people: 1 principal, 3 teachers and 2 other school employees (6 total) and 3 parents or other community members as well as 3 students (6 total).

This is very difficult number to achieve if the total number of students and teachers in the school is small. There are many small districts with two or more small schools which share a common community, and often a common administration.

For example a small district might have an elementary school containing 7-100 students as well as a middle school with about the same numbers. In many cases the principal
Schoolsite Councils for Small Schools Sharing Common Services

(who may also be the superintendent of the whole district) is the same person for both schools. In some situations two schools are located on the same piece of property, and in all cases the schools are closely located geographically. The parent and community members are of course the same in both cases, and the total number of teaching staff is small (less than 8-10 total staff.)

In other cases, there may be small schools within any size of district that provide alternative education programs like Community Day schools, and Court and Community Schools, which have very small numbers of staff and students (from 1 to 50), and yet they serve similar populations of students, with similar goals.

In these cases, it makes sense that a joint schoolsite council could easily function for multiple schools in this alternative education setting, and a joint schoolsite council would also provide a savings in time and resources in a small community.

Many of these waivers have been granted by the State Board of Education (SBE) in the past under a pre-existing Waiver Policy. All of these waivers must be renewed every two years to ensure that the situation remains the same (per EC 52863.)

Waiver Evaluation Guidelines

California Department of Education staff places waiver requests consistent with the following evaluation guidelines on the SBE’s Consent Calendar.

- The schools affected are small: Less than – 120 pupils each.

And

- The schools have a common site administration, curriculum, or other shared services, or

- The schools have a geographic proximity or similar student populations.

Schools with greater than 120 student population may also submit a waiver; however, these will be evaluated on a case-by-case basis, and will not go to the Consent Calendar. Not meeting a Waiver Policy is not a reason to deny a waiver.

As a condition of any waiver approval the joint schoolsite council will be required to elect its parent-community, student and staff members from all of the schools and will maintain the parity requirements of EC 56852.

The Surprise Valley Joint Unified School district is located in a remote rural area of Modoc County in a far northeastern region of the state. The district is comprised of four school facilities that include Surprise Valley High School, Surprise Valley Elementary School, Surprise Valley Community Day School and Great Basin Continuation High School.

The elementary school has a teaching principal and six additional teaches, one of which is part-time, serving grades K-8, the high school has a teaching principal and five additional teachers, two of which are part-time, serving grades 9-12. The community day school and the continuation high school have one teacher each. The total enrollment for the district is currently 135 students for all four sites. Due to the size of the district and the number of students served, we are seeking a Site Council Waiver to allow one site council to serve the district.
ITEM W-32
Specific Waiver

REQUEST

Request by Merced County Office of Education under the authority of California Education Code Section 52863 for a waiver of Education Code Section 52852, allowing one joint schoolsite council to function for Valley Community School, Valley Los Banos Community Day School, Valley Atwater Community Day School, and Merced County Juvenile Hall/Community School.

Waiver Number: 14-6-2011

RECOMMENDATION

☐ Approval   ☒ Approval with conditions   ☐ Denial

The California Department of Education recommends approval with the following conditions: the schoolsite council (SSC) shall be composed of one principal, four teachers selected by teachers at each site with at least one classroom teacher from each of the following schools: Valley Community School, Valley Los Banos Community Day School, Valley Atwater Community Day School, and Merced County Juvenile Hall/Community School, one other school employee selected by other school personnel at each of the schools, a total of three parents or community members representing the schools selected by their peers, and three students selected by their peers.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

All waivers of this type have been approved by the State Board of Education (SBE) for schools too small to meet the SSC composition requirements of California Education Code (EC) Section 52852. Pursuant to the SBE Waiver Policy: Schoolsite Councils for Small Schools Sharing Common Services or Attendance Areas Web document at http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicy.doc, schools must have small numbers of students and teachers and have a common site administration, curriculum, or other shared services or have a geographic proximity or similar student populations.

SUMMARY OF KEY ISSUES

The four schools have a student population that is highly mobile, with an average stay in a school of 45 days. Students frequently attend one or more of these schools during a school year.
Demographic Information: Merced County Office of Education is located in Merced County. The 2011–12 Consolidated Application indicates that the Merced County Juvenile Hall/Community School has a population of 96 students; Valley Los Banos Community Day has a population of 133 students; Valley Atwater Community Day has a population of 110 students; Valley Community has a population of 500 students. The Merced County Office of Education indicates that students have an average stay of 45 days at any one of the schools.

The Department recommends approval with the above conditions.

   The position(s) of the bargaining unit(s): ☐ Neutral  ☑ Support  ☐ Oppose (Please specify why)
5. Advisory committee or school site council that reviewed the waiver. Name: School Site Council

Per EC 33051(a) if the waiver affects a program that requires a school site council that council must approve the request.

Date advisory committee/council reviewed request: 9/13/10

☑️ Approve ☐ Neutral ☐ Oppose

Were there any objection? Yes ☐ No ☑ (If there were objections please specify)

6. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a strike out key if only portions of sections are to be waived). (Attach additional pages if necessary.)

52852. A school site council shall be established at each school which participates in school-based program coordination. The council shall be composed of the principals and representatives of: teachers selected by teachers at the school(s); other school personnel selected by other school personnel at the school(s); parents of pupils attending the school(s) selected by such parents; and, in secondary schools, pupils selected by pupils attending the school(s).

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.) SEE APPENDIX A - ATTACHED

8. Demographic Information:

For this waiver, Valley Los Banos Community Day involved has a student population of 118* and is located in a small city in Merced County.

For this waiver, Valley Atwater Community Day involved has a student population of 92* and is located in a small city in Merced County.

For this waiver, Merced County Juvenile Hall/Community involved has a student population of 119* and is located in Merced County.

For this waiver, Valley Community involved has a student population of 909* and is located in Merced.

*Numbers provided from October 1, 2008 CBEDS count

9. For a renewal waiver only, district also must certify:

True ☑️ False ☐

☑️ The facts that precipitated the original waiver request have not changed.

☑️ The remedy for the problem has not changed.

☑️ Members of the local governing board and district staff are not aware of the existence of any controversy over the implementation of this waiver or the request to extend it.

Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344) ☑️ No ☐ Yes

(If yes, please attach explanation or copy of audit finding)

Has there been a Coordinated Compliance Review finding on this issue? ☑️ No ☐ Yes

(If yes, please attach explanation or copy of CCR finding)

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (If more space is needed, please attach additional pages.)

Merced County Office of Education’s alternative education program encompasses four schools – Valley Community, Valley Los Banos Community, Valley Atwater Community, and Merced County Juvenile Hall/Community. The mobility rate of students from one school to another is extremely high, and during the 2007-2008 academic year, the average length of enrollment within a program was 45 days. The mobility rate is indicative of students moving from one school to another within the district.

In addition to the high mobility rate, three of the schools (Valley Los Banos Community, Valley Atwater Community, and Merced County Juvenile Hall/Community) have declining enrollment and fluctuating low numbers of students. Therefore, the school administration would like to combine their site councils with the largest site – Valley Community.

As a school, we feel our students would benefit from a coordinated school site council to monitor program goals and the consistent implementation of supplemental services across the district. The collaboration between site representatives on the site council will ensure the development and monitoring of the Single Plan for Student Achievement will encompass all schools and the needs of students who regularly move from site to site. Student success and achievement is dependent on all sites working together to provide consistent instruction and services, and a consolidated site council would monitor and provide direction on this process.
ITEM W-33
Specific Waiver

SUBJECT

Request by Carpinteria Unified School District under the authority of California Education Code Section 52863 for a renewal waiver of Education Code Section 52852, to allow a reduction in the number and composition of members required for a schoolsite council for a small school, Rincon Continuation High School.

Waiver Number: 56-4-2011

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following conditions: the schoolsite council (SSC) shall be composed of one principal, two classroom teachers selected by teachers, one student selected by students, and two parents or community members selected by their peers.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Specific authority is provided in California Education Code (EC) Section 52863 to allow the State Board of Education (SBE) to waive the SSC requirements of the School-Based Coordination Program (SBCP) Act that would hinder the success of school-based programs. These waivers must be renewed every two years.

This is a request for renewal of a previously approved Waiver No. 28-5-2009- W-13 approved by the State Board of Education on September 17, 2009. All waivers of this type have been approved by the SBE for schools too small to meet the SSC composition requirements of EC Section 52852, based upon analysis of the circumstances.

SUMMARY OF KEY ISSUES

Rincon Continuation High School has a population of 45 students as reported on the latest Consolidated Application and is located in a small city in Santa Barbara County. The small number of staff, teachers and students necessitate a reduction in SSC composition.

Demographic Information: Rincon Continuation High School has a population of 45 students and is located in a small city in Santa Barbara County.
**Authority for Waiver:** EC Section 52863

Rincon Continuation High School 805-684-3277

Period of request: (month/day/year) From: March 1, 2011 To: February 28, 2013

Local board approval date: (Required) April 26, 2011

LEGAL CRITERIA

Authority for the waiver: Write the Education Code (EC) Section citation, which authorizes the waiver of the specific EC Section you want to waive: ☑ Specific code section: 52863

EC 52863 Any governing board, on behalf of a school site council, may request the State Board of Education to grant a waiver of any provision of this article. The State Board of Education may grant a request when it finds that the failure to do so would hinder the implementation or maintenance of a successful school-based coordinated program. (Effective for 2 years only, may be renewed)

The Carpinteria Unified School District Board of Trustees, on behalf of the Rincon Continuation High School Site Council, is requesting that a waiver be granted for the reduction of the composition of the School Site Council from ten to six. The reduction in the composition does not change the parity in the council.

2. California Education Code or California Code of Regulations or portion to be waived.

Section to be waived: (number) EC 52852

Requesting reduced composition in members for a small school. (Statute requires 12 members for a high schoolsite council and 10 members for elementary schoolsite council).

The composition of the Rincon Continuation High School Site Council, to ensure parity between members, will be:

a.) the principal, one teacher, and one student

   a) 1 principal, 2 teachers per Steve Powell 5/31/11 RG
   b) 1 student, 2 parents or community members

b.) three parents or community members

3. If this is a renewal of a previously approved waiver No: 28-5-2009-W-13 and SBE approval date of September 17, 2009.

Does the district have any employee bargaining units? Yes If yes, please complete required information below:

Bargaining unit(s) consulted on date(s): 2/23/11 and 3/15/11 per Jolene Colomy 5/16/11 jb

Carpinteria Association of United School Employees

Name of bargaining units and representative(s) consulted: CAUSE: President – Jay Hotchner

The position(s) of the bargaining unit(s): ☐ Neutral ☑ Support ☐ Oppose (Please specify why)

ITEM W-34
CALIFORNIA STATE BOARD OF EDUCATION
SEPTEMBER 2011 AGENDA

☑ Specific Waiver

SUBJECT
Request by Carpinteria Unified School District under the authority of California Education Code Section 52863 for a renewal waiver of Education Code Section 52852, to allow a reduction in the number and composition of members required for a schoolsite council for a small school, Summerland Elementary School.

Waiver Number: 61-4-2011

RECOMMENDATION

☐ Approval ☒ Approval with conditions ☐ Denial

The California Department of Education (CDE) recommends approval of renewal waiver with the following conditions: the schoolsite council (SSC) shall be composed of one principal, two classroom teachers selected by teachers, and three parents or community members selected by their peers.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Specific authority is provided in California Education Code (EC) Section 52863 to allow the State Board of Education (SBE) to waive the SSC requirements of the School-Based Coordination Program (SBCP) Act that would hinder the success of school-based programs. These waivers must be renewed every two years.

This is a request for renewal of a previously approved Waiver No. 22-5-2009- WC-12 approved by the State Board of Education on September 17, 2009. All waivers of this type have been approved by the SBE for schools too small to meet the SSC composition requirements of EC Section 52852, based upon analysis of the circumstances.

SUMMARY OF KEY ISSUES

Summerland School has a population of approximately 52 students, has three staff members teaching multi-grade classrooms, one office staff member, and is located in a small city in Santa Barbara County. The number of staff, teachers and students necessitate a reduction in SSC composition.

Demographic Information: Summerland School has a population of 52 students and is located in a small city in Santa Barbara County.

ITEM W-35
Specific Waiver

**SUBJECT**
Request by Kern Union High School District under the authority of California Education Code Section 52863 for a waiver of Education Code Section 52852, to allow a reduction in the number and composition of members required for a schoolsite council for a small rural school, Summit Continuation High School.

Waiver Number: 26-6-2011

**RECOMMENDATION**

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following conditions: the schoolsite council (SSC) shall be composed of one principal, two teachers selected by teachers, two parents or community members representing the school selected by their peers, and one student selected by peers.

**SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION**

Specific authority is provided in California Education Code (EC) Section 52863 to allow the State Board of Education (SBE) to waive the SSC requirements of the School-Based Coordination Program Act that would hinder the success of school-based programs. These waivers must be renewed every two years.

All waivers of this type have been approved by the SBE for schools too small to meet the SSC composition requirements of EC Section 52852, based upon analysis of the circumstances.

**SUMMARY OF KEY ISSUES**

Summit Continuation High School has one shared site administrator, approximately 14 students, and two teachers. The required composition of the schoolsite council based on staffing cannot be met.

The Department recommends approval with the above conditions.

**Demographic Information:** Summit Continuation High School has a current population of 14 students and is located in the small mountain community of Lake Isabella, in Kern County.
Authority for Waiver: EC Section 52853

Period of request: July 1, 2011, to June 30, 2013

Local board approval date(s): June 16, 2011

Bargaining unit(s) consulted on date(s): April 29, 2011

From: 7/1/11  To: 6/30/13  June 16, 2011

LEGAL CRITERIA

1. Authority for the waiver: Write the Education Code (EC) Section citation, which authorizes the waiver of the specific EC Section you want to waive:  Specific code section: 52863

   EC 52863 Any governing board, on behalf of a school site council, may request the State Board of Education to grant a waiver of any provision of this article. The State Board of Education may grant a request when it finds that the failure to do so would hinder the implementation or maintenance of a successful school-based coordinated program. (Effective for 2 years only, may be renewed)

2. California Education Code or California Code of Regulations or portion to be waived.  
   Section to be waived:  (number) EC 52852

Requesting reduced composition in members for a small school. (Statute requires 12 members for a high school site council and 10 members for elementary school site council).

3. If this is a renewal of a previously approved waiver, please list Waiver No: and date of SBE approval

   Renewals of waivers must be submitted two month before the active waiver expires.

   Does the district have any employee bargaining units?  ___ No  _X_ Yes  If yes, please complete required information below:

   Bargaining unit(s) consulted on date(s): April 29, 2011

   Name of bargaining units and representative(s) consulted:  Vickie Schoenhair, President, Kern High School Teachers Association (KHSTA)

   The position(s) of the bargaining unit(s):  ___ Neutral  _X_ Support  ___ Oppose (Please specify why)

   Comments (if appropriate):  

5. Advisory committee or school site council that reviewed the waiver (All involved are REQUIRED). Name:

   David Baker (site administrator), Linda Downen and Jennifer Babcock (teachers), Kathi Wright (secretary), Amanda Dew. Student, Tyler Walters, students, and two parents Eric Vollmer and Stephanie Crowe.

   Date advisory committee/council reviewed request:  5/13/11

   _X_ Approve  ___ Neutral  ___ Oppose

   Were there any objection?  Yes ___ No ___ (If there were objections please specify)
6. Education Code or California Code of Regulations section to be waived. Use a strike-out key if only portions of sections are to be waived.

EC 52852 A schoolsite council shall be established at each school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

The desired outcome is to have a functional school site council in a small setting that is responsive to the needs of its students. The recommendation of the KHSD Principal of Alternative Education (who oversees the five continuation school site administrators) is to have a school site council comprised of 8 people: 3 Teachers, 1 Site Administrator, and 2 Parent/Community Members and 2 students.

Please attach a brief description of the situation in this school: The number of administrative staff, teachers and students at the schools. Indicate why a composition waiver is needed rather than this school sharing a SSC with another school per the SBE Waiver Policy for Shared SSC’s available at: http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicyr.doc

Student enrollment at Summit is small (a typical “snapshot” of enrollment being roughly 10 students.) There is a site administrator, two teachers, and one secretary. This makes it very difficult to achieve the composition detailed in EC Section 52852. Partnering with the local traditional school, Kern Valley High School would not be in the best interests of either school since each school has uniquely separate budgets, program needs, and educational plans requiring different kinds of discussions and decision-making. The other option, combining with the nearest continuation high school, is not feasible because travel time is over an hour in one direction on a narrow, winding, two-lane canyon road.

8. Demographic Information:

Summit Continuation High School is located in a small mountain community, Lake Isabella, served by Kern Valley High School. Summit Continuation High School has a current student population of 14. The enrollment at any given time during the past two years has not exceeded 25 students.

Is this waiver associated with an apportionment related audit penalty? (per EC 41344)  X  No  __  Yes
(If yes, please attach explanation or copy of audit finding)

Has there been a Coordinated Compliance Review finding on this issue?  X  No  __  Yes
(If yes, please attach explanation or copy of CCR finding)

ITEM W-36
Specific Waiver

Request by Kern Union High School District under the authority of California Education Code Section 52863 for a waiver of Education Code Section 52852, to allow a reduction in the number and composition of members required for a schoolsite council for a small school, Central Valley Continuation High School.

Waiver Number: 25-6-2011

RECOMMENDATION

☐ Approval  ☑ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following conditions: the schoolsite council (SSC) shall be composed of one principal, three teachers selected by teachers, two parents or community members representing the school selected by their peers, and two students selected by their peers.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Specific authority is provided in California Education Code (EC) Section 52863 to allow the State Board of Education (SBE) to waive the SSC requirements of the School-Based Coordination Program Act that would hinder the success of school-based programs. These waivers must be renewed every two years.

All waivers of this type have been approved by the SBE for schools too small to meet the SSC composition requirements of EC Section 52852, based upon analysis of the circumstances.

SUMMARY OF KEY ISSUES

Central Valley Continuation High School has one shared site administrator, approximately 80 students and four teachers. The required composition of the schoolsite council based on staffing cannot be met.

The Department recommends approval with the above conditions.

Demographic Information: Central Valley Continuation High School is located in the rural agricultural community of Shafter, in Kern County. The school serves approximately 80 students.
Authority for Waiver: EC Section 52863

Period of request: July 1, 2011, to June 30, 2013

Local board approval date(s): June 16, 2011

Bargaining unit(s) consulted on date(s): April 29, 2011

Name of bargaining unit/representative(s) consulted: Kern High School Teachers Association (KHSTA) Vickie Schoenhair, President

Position of bargaining unit(s) (choose only one):
☐ Neutral  ☑ Support  ☐ Oppose:

Comments (if appropriate):

Advisory committee(s) consulted: Central Valley Continuation High School Schoolsite Council

Objections raised (choose one): ☑ None  ☐ Objections are as follows:

Date(s) consulted: May 18, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval or denial.

ATTACHMENT(S)

Attachment 1: Specific Waiver Request (2 pages) (Original waiver request is signed and on file in the SBE Office or the Waiver Office.)
**SPECIFIC WAIVER: SCHOOL SITE COUNCIL- COMPOSITION OF MEMBERS**

**First Time Waiver: **X**

**Renewal Waiver:** ___

Send Original plus one copy to: Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send electronic copy in Word and back-up material to: waiver@cde.ca.gov

### LEGAL CRITERIA

1. **Authority for the waiver:** Write the Education Code (EC) Section citation, which authorizes the waiver of the specific EC Section you want to waive: __ Specific code section: 52863

   **EC 52863** Any governing board, on behalf of a school site council, may request the State Board of Education to grant a waiver of any provision of this article. The State Board of Education may grant a request when it finds that the failure to do so would hinder the implementation or maintenance of a successful school-based coordinated program. (Effective for 2 years only, may be renewed)

2. **California Education Code or California Code of Regulations or portion to be waived:** Section to be waived: (number) EC 52852

   Requesting **reduced composition** in members for a small school. (Statute requires 12 members for a high school site council and 10 members for elementary school site council).

3. **If this is a renewal of a previously approved waiver, please list Waiver No:** and date of SBE approval

   Renewals of waivers must be submitted two month before the active waiver expires.

4. **Collective bargaining unit information.**

   Does the district have any employee bargaining units? ___ No  ___ Yes  If yes, please complete required information below:

   **Bargaining unit(s) consulted on date(s):** April 29, 2011

   **Name of bargaining units and representative(s) consulted:** Vickie Schoenhair, President, Kern High School Teachers Association (KHSTA)

   The position(s) of the bargaining unit(s): ___ Neutral  ___ Support  ___ Oppose (Please specify why)

   Comments (if appropriate):

5. **Advisory committee or school site council that reviewed the waiver (All involved are REQUIRED).** Name: CVHS School Site Council. Members: Rudy Gutierrez (Chair/Teacher), Carolyn Barnes (Teacher), Greg Lamb (Teacher), Theresa Terry (Teacher), Adolfo Mendez (Parent), Denise Samaripas (Parent), Cindy Herrera (Parent), Robert Vela (Student), Cristobal Madrano (Student), and Karla Salazar (Student).

   **Date advisory committee/council reviewed request:** 5/18/11

   ___ Approve  ___ Neutral  ___ Oppose
6. Education Code or California Code of Regulations section to be waived. Use a strike-out key if only portions of sections are to be waived).

   EC 52852 A schoolsite council shall be established at each school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

   The desired outcome is to have a functional school site council in a small setting that is responsive to the needs of its students. The recommendation of the KHSD Principal of Alternative Education (who oversees the five continuation school site administrators) is to have a school site council comprised of 8 people: 3 Teachers, 1 Site Administrator, and 2 Parent/Community Members and 2 students.

   Please attach a brief description of the situation in this school: The number of administrative staff, teachers and students at the schools. Indicate why a composition waiver is needed rather than this school sharing a SSC with another school per the SBE Waiver Policy for Shared SSC’s available at: http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicyr.doc

   Besides the site administrator, there are four teachers and one secretary. This has made it very difficult to achieve the current composition detailed in EC Section 52852. Partnering with another school would reduce the influence our stakeholders would have with our specific educational plan. One option is to share SSC with the local regular high school, whose parents might dominate the discussions with a traditional school focus and decision making. Another option, joining with the nearest continuation high school, is not feasible because travel time is roughly 45 minutes in one direction mostly on rural country roads.

8. Demographic Information:

   Central Valley Continuation High School is located in the rural agricultural community of Shafter, CA, served by Shafter High School. Central Valley is small, serving about 80 students.

   Is this waiver associated with an apportionment related audit penalty? (per EC 41344) _X_ No __ Yes
   (If yes, please attach explanation or copy of audit finding)

   Has there been a Coordinated Compliance Review finding on this issue? _X_ No __ Yes
   (If yes, please attach explanation or copy of CCR finding)

   District or County Certification – I hereby certify that the information provided on this application is correct and complete.

ITEM W-37
Specific Waiver

SUBJECT

Request by Sausalito Marin City School District under the authority of California Education Code Section 52863 for a renewal waiver of Education Code Section 52852, allowing one joint schoolsite council to function for two small schools, Bayside Elementary School and Martin Luther King Jr. Academy Middle School.

Waiver Number: 18-5-2011

RECOMMENDATION

☐ Approval ☒ Approval with conditions ☐ Denial

The California Department of Education recommends approval with the following conditions: the schoolsite council (SSC) shall be composed of one principal, two classroom teachers selected by teachers at Bayside Elementary School, one classroom teacher selected by teachers at Martin Luther King Jr. Academy Middle School, one other school employee selected by other school personnel at either school, and a total of five parents selected by their peers, representing Bayside Elementary School and Martin Luther King Jr. Academy Middle School with at least one parent from Martin Luther King Jr. Academy Middle School.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

All waivers of this type have been approved by the State Board of Education (SBE) for schools too small to meet the SSC composition requirements of California Education Code (EC) Section 52852. Pursuant to the SBE Waiver Policy: Schoolsite Councils for Small Schools Sharing Common Services or Attendance Areas Web document at http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicy.doc, schools must have small numbers of students and teachers and have a common site administration, curriculum, or other shared services or have a geographic proximity or similar student populations.

This is a request for renewal of a previously approved Waiver No. 26-4-2009-WC-8 by the SBE on March 8, 2007. All waivers of this type have been approved by the SBE for schools too small to meet the SSC composition requirements of EC Section 52852, based upon analysis of the circumstances.
SUMMARY OF KEY ISSUES

Demographic Information: Sausalito Marin City School District consists of two small schools with 123 students at the elementary and 47 students at the middle school. The LEA employs one principal serving both schools, and the schools serve the same families in the small suburban town in Marin County.

The Department recommends approval with the above conditions.

Authority for Waiver: EC Section 52863

   Per EC 33051(a) if the waiver affects a program that requires a school site council that council must approve the request.
   Date advisory committee/council reviewed request: MARCH 21, 2011
   X Approve ___ Neutral ___ Oppose
   Were there any objection? Yes ___ No X (If there were objections please specify)
1. Education Code or California Code of Regulations section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (or use a **strike out key** if only portions of sections are to be waived). (Attach additional pages if necessary.)

   **EC 52852** A school site council shall be established at each school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers of the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

2. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

   The district has two small schools: Bayside Elementary School serving 123 students in grades K-5, and Martin Luther King, Jr. Academy serving 47 students in grades 6-8. District funds pay for one principal. The two schools serve students from the same community. For the past four years there has been one school site council (with a CDE waiver) composed of parent and teacher representatives from each of the schools. This composition of the School Site Council has worked well. Therefore the SCC and the Board of Education are requesting a two-year renewal of the waiver that was granted on March 8, 2007.

3. Demographic Information:
   The **Sausalito Marin City School District** has a student population of **170 students** and is located in a **small suburban town** in **Marin County**.

Specific Waiver

SUBJECT
Request by Trinity Center Elementary School District under the authority of California Education Code Section 52863 for a waiver of Education Code Section 52852, to allow a reduction in the number and composition of members required for a schoolsite council for a small rural school, Trinity Center Elementary School.
Waiver Number: 7-6-2011

RECOMMENDATION
☐ Approval ☒ Approval with conditions ☐ Denial

The California Department of Education recommends approval with the following condition: the schoolsite council (SSC) shall be composed of one principal, two classroom teachers selected by teachers, and three parents or community members selected by their peers.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Specific authority is provided in California Education Code (EC) Section 52863 to allow the State Board of Education (SBE) to waive the SSC requirements of the School-Based Coordination Program (SBCP) Act that would hinder the success of school-based programs. These waivers must be renewed every two years.

All waivers of this type have been approved by the SBE for schools too small to meet the SSC composition requirements of EC Section 52852, based upon analysis of the circumstances.

SUMMARY OF KEY ISSUES

Trinity Center Elementary School has a population of 20 students in grades Kindergarten through eight, employs one teacher/principal, one teacher, and one teacher assistant, and is located in a rural area of Trinity County. The small number of teachers does not allow the school to meet the statutory composition of a ten member SSC.

The Department recommends approval with the above stated conditions.

Demographic Information: Trinity Center Elementary School has a student population of 20 and is located in a small unincorporated community in Trinity County.
Authority for Waiver: EC Section 52863

Period of request: July 1, 2011, to June 30, 2013

Local board approval date(s): April 25, 2011

Bargaining unit(s) consulted on date(s): No bargaining unit exists.

Name of bargaining unit/representative(s) consulted: No bargaining unit exists.

Position of bargaining unit(s) (choose only one):

To Whom It May Concern:

The Trinity County Office of Education has recently informed us that we need to apply for this waiver since our School Site Council consists of 6 members; 3 parents, one administrator, one classified employee, and one certificated employee. Trinity Center Elementary School District is extremely small. The student population this year is 20, Kindergarten through Eighth Grade. We have one Teacher Assistant, one Teacher, and one Teacher/Principal. There is an Administrative Assistant/Business Manager and a part-time Superintendent. Our school doesn’t have a cafeteria and doesn’t provide transportation for our students. Trinity Center School is also extremely rural so sharing a School Site Council with another school wouldn’t work. Applying for this waiver will enable us to comply with the State requirements on a smaller scale. Thank you for your consideration.

Thanks,

Jean Hunt
Teacher/Principal
ITEM W-39
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

Specific Waiver

SUBJECT
Request by Carpinteria Unified School District under the authority of California Education Code Section 52863 for a renewal waiver of Education Code Section 52852, to allow a reduction in the number and composition of members required for a schoolsite council for a small school, Carpinteria Family School.

Waiver Number: 57-4-2011

RECOMMENDATION

☐ Approval  ☑ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following conditions: the schoolsite council (SSC) shall be composed of one principal, two classroom teachers selected by teachers, and three parents or community members selected by their peers.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

Specific authority is provided in California Education Code (EC) Section 52863 to allow the State Board of Education (SBE) to waive the SSC requirements of the School-Based Coordination Program (SBCP) Act that would hinder the success of school-based programs. These waivers must be renewed every two years.

This is a request for renewal of a previously approved Waiver No. 34-5-2009- W-14 approved by the State Board of Education on September 17, 2009. All waivers of this type have been approved by the SBE for schools too small to meet the SSC composition requirements of EC Section 52852, based upon analysis of the circumstances.

SUMMARY OF KEY ISSUES

Carpinteria Family School has a population of 72 students as reported on the latest Consolidated Application and is located in a small city in Santa Barbara County. The small number of staff, teachers and students necessitate a reduction in SSC composition.

Demographic Information: Carpinteria Family School has a population of 72 students and is located in a small city in Santa Barbara County.
Authority for Waiver: EC Section 52863

Period of request: March 1, 2011, through February 28, 2013

Local board approval date(s): April 26, 2011

Bargaining unit(s) consulted on date(s): Carpinteria Association of United School Employees, February 23, 2011, and March 15, 2011.

Name of bargaining unit/representative(s) consulted: Carpinteria Association of United School Employees, Jay Hotchner, President

Position of bargaining unit(s) (choose only one):

☐ Neutral  ☑ Support  ☐ Oppose:

Comments (if appropriate):

Advisory committee(s) consulted: Carpinteria Family School Schoolsite Council

Objections raised (choose one): ☑ None  ☐ Objections are as follows:

Date(s) consulted: February 22, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval or denial.

Authority for the waiver: Write the Education Code (EC) Section citation, which authorizes the waiver of the specific EC Section you want to waive: 52863

EC 52863 Any governing board, on behalf of a school site council, may request the State Board of Education to grant a waiver of any provision of this article. The State Board of Education may grant a request when it finds that the failure to do so would hinder the implementation or maintenance of a successful school-based coordinated program. (Effective for 2 years only, may be renewed)

The Carpinteria Unified School District Board of Trustees, on behalf of the Carpinteria Family School Site Council, is requesting that a waiver be granted for the reduction of the composition of the School Site Council from ten to six. The reduction in the composition does not change the parity in the council.

2. California Education Code or California Code of Regulations or portion to be waived.
Section to be waived: (number) EC 52852

Requesting reduced composition in members for a small school. (Statute requires 12 members for a high schoolsite council and 10 members for elementary schoolsite council).

The composition of the Carpinteria Family School Site Council, to ensure parity between members, will be:
   a.) the principal and two teachers
   b.) three parents or community members

3. If this is a renewal of a previously approved waiver, please list Waiver No: 34-5-2009-W-14 and date of SBE approval September 17, 2009.

   Does the district have any employee bargaining units? Yes If yes, please complete required information below:

   Bargaining unit(s) consulted on date(s): 2/23/11 3/15/11 per Jolene Colomy 5/16/11 jb
   Name of bargaining units and representative(s) consulted: Carpinteria Association of United School Employees
   Carpineteria Association of United School Employees
   Name of bargaining units and representative(s) consulted:
   Jolene Colomy
   The position(s) of the bargaining unit(s): ☐ Neutral ☒ Support ☐ Oppose (Please specify why)
   Comments (if appropriate):
### Specific Waiver Request

**SW-1 (Rev. 02/24/09)**

5. Advisory committee or school site council that reviewed the waiver (All involved are REQUIRED). Name

<table>
<thead>
<tr>
<th>Carpinteria Family School Site Council</th>
<th>Date advisory committee/council reviewed request: February 22, 2011</th>
</tr>
</thead>
</table>

☐ Approve  ☐ Neutral  ☐ Oppose

6. Education Code or California Code of Regulations section to be waived. Use a strike-out key if only portions of sections are to be waived.

   - **EC 52852** A schoolsite council shall be established at each school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

The composition of the Carpinteria Family School Site Council, to ensure parity between members, will be:

- a.) the principal and two teachers
- b.) three parents or community members

7. Desired outcome/rationale. State what you hope to accomplish with the waiver. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. (Attach additional pages if necessary.)

**Please attach a brief description of the situation in this school:** The number of administrative staff, teachers and students at the schools. Indicate why a composition waiver is needed rather than this school sharing a SSC with another school per the SBE Waiver Policy for Shared SSC’s available at: [http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicyr.doc](http://www.cde.ca.gov/re/lr/wr/documents/schoolsitepolicyr.doc)

<table>
<thead>
<tr>
<th>6. Demographic Information:</th>

Specific Waiver

SUBJECT
Request by California Education Authority Headquarters to waive California Education Code Section 51224.5(b), the requirement that all students graduating in the 2010−11 school year be required to complete a course in Algebra I (or equivalent) to be given a diploma of graduation, for one special education student based on Education Code Section 56101, the special education waiver authority.

Waiver Number: 42-6-2011

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following conditions that the State Board of Education (SBE) conditionally approve this waiver and remove only the requirement that one student successfully completes a course in Algebra I (or its equivalent) for the 2010−11 graduating year. The student has met other course requirements stipulated by the governing board of the school district and California Education Code (EC) Section 51225.3 in order to receive a high school diploma. If the student does not graduate in 2010−11, this waiver does not relieve the student of the responsibility to continue to attempt to successfully complete a course in Algebra I (or its equivalent) in 2011−12 as required by EC Section 51224.5.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In 2000, EC Section 51224.5 was enacted to require students to complete a course in Algebra I, as a condition of receiving a high school diploma. The Algebra I requirement applied to students who were scheduled for graduation in 2003−04. All waiver requests of this type have been granted by the State Board of Education for special needs students.

SUMMARY OF KEY ISSUES

For the review of this waiver request, the district provided the following documentation:

- A valid, current copy of the student’s individualized education program (IEP), highlighting the areas of mathematic deficiencies and how the student’s needs in mathematics were addressed.
SUMMARY OF KEY ISSUES (Cont.)

- Selected pages from the student’s IEPs from three previous years showing that the student was consistently on a diploma-track, and that the IEPs were written to support the student’s participation in diploma-track math courses, particularly algebra.

- The specific assistance the district provided to this student including supplementary aids, services, accommodations, test modifications, and supports to attain the diploma-track goal, specifically, for the algebra requirement.

- A copy of the transcript for this student highlighting former attempts taking algebra and pre-algebra classes.

- The assessment summary which indicates that this student participated in the Standardized Testing and Reporting program.

The above documentation was confidentially reviewed by a special education consultant. The district’s documentation provided facts indicating that failure to approve the request would result in this student not meeting graduation requirements.

Demographic Information: The California Education Authority (CEA) Headquarters program has a student population of 1,235 and is located in rural areas of Sacramento County.

Authority for Waiver: EC Section 56101

Period of request: August 5, 2010, to July 8, 2011

Local board approval date(s): June 15, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

ITEM W-41
## Specific Waiver

### SUBJECT

Request by Castro Valley Unified School District to waive California Education Code Section 51224.5(b), the requirement that all students graduating in the 2010–11 school year be required to complete a course in Algebra I (or equivalent) to be given a diploma of graduation, for one special education student based on Education Code Section 56101, the special education waiver authority.

Waiver Number: 41-6-2011

### RECOMMENDATION

- ✔ Approval
- ✔ Approval with conditions
- ☐ Denial

The California Department of Education recommends approval with the following conditions that the State Board of Education (SBE) conditionally approve this waiver and remove only the requirement that one student successfully completes a course in Algebra I (or its equivalent) for the 2010–11 graduating year. The student must also meet other course requirements stipulated by the governing board of the school district and California Education Code (EC) Section 51225.3 in order to receive a high school diploma. If the student does not graduate in 2010–11, this waiver does not relieve the student of the responsibility to continue to attempt to successfully complete a course in Algebra I (or its equivalent) in 2011–12 as required by EC Section 51224.5.

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In 2000, EC Section 51224.5 was enacted to require students to complete a course in Algebra I, as a condition of receiving a high school diploma. The Algebra I requirement applied to students who were scheduled for graduation in 2003–04. All waiver requests of this type have been granted by the State Board of Education for special needs students.

### SUMMARY OF KEY ISSUES

For the review of this waiver request, the district provided the following documentation:

- A valid, current copy of the student’s individualized education program (IEP), highlighting the areas of mathematic deficiencies and how the student’s needs in mathematics were addressed.
Selected pages from the student’s IEPs from three previous years showing that the student was consistently on a diploma-track, and that the IEPs were written to support the student’s participation in diploma-track math courses, particularly algebra.

The specific assistance the district provided to this student including supplementary aids, services, accommodations, test modifications, and supports to attain the diploma-track goal, specifically, for the algebra requirement.

A copy of the transcript for this student highlighting former attempts taking algebra and pre-algebra classes.

The assessment summary which indicates that this student participated in the Standardized Testing and Reporting program.

The above documentation was confidentially reviewed by a special education consultant. The district’s documentation provided facts indicating that failure to approve the request would result in this student not meeting graduation requirements.

Demographic Information: Castro Valley Unified School District has a student population of 9,023 and is located in a small city in Alameda County.

Authority for Waiver: EC Section 56101

Period of request: June 17, 2011, to August 15, 2011

Local board approval date(s): June 30, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

<td>Specific Waiver</td>
<td>✔</td>
<td>☐</td>
</tr>
</tbody>
</table>

### Specific Waiver

**SUBJECT**

Request by **Simi Valley Unified School District** to waive **California Education Code** Section 51224.5(b), the requirement that all students graduating in the 2010–11 school year be required to complete a course in Algebra I (or equivalent) to be given a diploma of graduation, for one special education student based on **Education Code** Section 56101, the special education waiver authority.

Waiver Number: 55-3-2011

### RECOMMENDATION

☐ Approval   ✔ Approval with conditions   ☐ Denial

The California Department of Education recommends approval with the following conditions that the State Board of Education (SBE) approve the request to waive only the requirement that one student successfully completes a course in Algebra I (or its equivalent) for the 2010–11 graduating year. The student has met other course requirements stipulated by the governing board of the school district and **California Education Code (EC)** Section 51225.3 in order to receive a high school diploma. If the student does not graduate in 2010–11, this waiver does not relieve the student of the responsibility to continue to attempt to successfully complete a course in Algebra I (or its equivalent) in 2011–12 as required by **EC Section 51224.5**.

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In 2000, **EC Section 51224.5** was enacted to require students to complete a course in Algebra I, as a condition of receiving a high school diploma. The Algebra I requirement applied to students who were scheduled for graduation in 2003–04. All waiver requests of this type have been granted by the SBE for students with special needs.

### SUMMARY OF KEY ISSUES

- A valid and current copy of the student’s individualized education program (IEP) was provided highlighting the areas of mathematic deficiencies and how the student’s needs in mathematics were addressed.
SUMMARY OF KEY ISSUES (Cont.)

- Selected pages from the student’s IEPs from three previous years show that the student was consistently on a diploma-track, and that the IEPs were written to support the student’s participation in diploma-track math courses, particularly algebra.

- The specific assistance the district provided to this student included supplementary aids, services, accommodations, test modifications, and supports to attain the diploma-track goal, specifically, for the algebra requirement.

- A copy of the transcript for this student highlights attempts to pass algebra and pre-algebra classes.

- An assessment summary reports that this student participated in the Standardized Testing and Reporting program and failed multiple attempts to meet graduation requirements related to the algebra requirement.

The above documentation was confidentially reviewed by a special education consultant. The district’s documentation provided facts indicating that failure to approve the request would result in this student not meeting graduation requirements.

Demographic Information: The Simi Valley Unified School District has a total student population of 19,930 and is located in the city of Simi Valley, California, in Ventura County.

Authority for Waiver: EC Section 56101

Period of request: March 1, 2011, to June 15, 2011

Local board approval date(s): April 11, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

General Waiver

SUBJECT
Request by Sutter County Office of Education for a renewal to waive California Code of Regulations, Title 5, Section 3051.16(b)(3), the requirement that educational interpreters for deaf and hard of hearing pupils meet minimum qualifications as of July 1, 2009, to allow Julia Newton to continue to provide services to students until June 30, 2012, under a remediation plan to complete those minimum requirements.

Waiver Number: 40-6-2011

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education (CDE) recommends approval of the renewal waiver for Julia Newton, with the following conditions:

1. The Sutter County Office of Education (COE) must provide Ms. Newton with weekly one-on-one mentorship, based upon an individualized professional development plan, by a qualified interpreter.

2. By June 2012, the Sutter COE must provide CDE with new assessment scores for Ms. Newton. The scores must be from one of the assessments named in the California Code of Regulations, Title 5, Section 3051.16(b)(3).

3. If Ms. Newton does not meet the qualification standard, the Sutter COE will not request a waiver for the 2011-12 school year.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In 2002, the State Board of Education (SBE) approved regulations that required educational interpreters to be certified by the national Registry of Interpreters for the Deaf (RID), or equivalent, by January 1, 2007. As of July 1, 2009, they have been required to be certified by the national RID, or equivalent, or to have achieved a score of 4.0 on specified assessments.

Since 2007, 175 of these waivers have been approved by the SBE, and 21 have been denied.
SUMMARY OF KEY ISSUES

The Individuals with Disabilities Education Improvement Act of 2004 (IDEIA 2004) requires that interpreters for pupils who are deaf or hard of hearing meet state-approved or state-recognized certification, licensing, registration, or other comparable requirements, as defined in Title 34 of the Code of Federal Regulations, Section 300.156(b)(1).

To meet this federal requirement, the California Code of Regulations, Title 5 (5 CCR), Section 3051.16(b)(3) require the following:

By July 1, 2009, and thereafter, an educational interpreter shall be certified by the national Registry of Interpreters for the Deaf (RID), or equivalent; in lieu of RID certification or equivalent, an educational interpreter must have achieved a score of 4.0 or above on the Educational Interpreter Performance Assessment (EIPA), the Educational Sign Skills Evaluation-Interpreter/Receptive (ESSE-I/R), or the National Association of the Deaf/American Consortium of Certified Interpreters (NAD/ACCI) assessment. If providing Cued Language transliteration, a transliterator shall possess Testing/Evaluation and Certification Unit (TECUnit) certification, or have achieved a score of 4.0 or above on the EIPA – Cued Speech.

An explanation of the scoring on each of the above named assessments is as follows:

- The EIPA is administered by Boys Town National Research Hospital in Omaha, Nebraska. An interpreter who takes the EIPA receives a single composite score from 1-5.

- The ESSE is administered by the Signing Exact English (SEE) Center in Los Alamitos, California. An interpreter who takes the ESSE receives a score from 1-5 in expressive interpreting skills and a separate score from 1-5 in receptive skills. Expressive interpreting refers to the ability to listen to a spoken English message and interpret it in signed language. Receptive skill refers to the ability to understand a signed message, and translate it to spoken or written English. An interpreter who takes the ESSE must receive a score of 4 or above on both portions of the evaluation.

- The NAD/ACCI assessment was administered by the California Coalition of Agencies Serving the Deaf and Hard of Hearing. An interpreter who took the NAD/ACCI assessment received a single composite score from 1-5. Administration of the NAD/ACCI assessment was discontinued in 2004.

Following are descriptions of the levels of educational interpreting provided by Boys Town National Research Hospital, which administers the EIPA:

**Level 1: Beginner**

*Demonstrates very limited sign vocabulary with frequent errors in production. At times,*
SUMMARY OF KEY ISSUES (Cont.)

production may be incomprehensible. Grammatical structure tends to be nonexistent. Individual is only able to communicate very simple ideas and demonstrates great difficulty comprehending signed communication. Sign production lacks prosody and use of space for the vast majority of the interpreted message.

An individual at this level is not recommended for classroom interpreting

Level 2: Advanced Beginner

Demonstrates only basic sign vocabulary and these limitations interfere with communication. Lack of fluency and sign production errors are typical and often interfere with communication. The interpreter often hesitates in signing, as if searching for vocabulary. Frequent errors in grammar are apparent, although basic signed sentences appear intact. More complex grammatical structures are typically difficult. Individual is able to read signs at the word level and simple sentence level but complete or complex sentences often require repetitions and repairs. Some use of prosody and space, but use is inconsistent and often incorrect.

An individual at this level is not recommended for classroom interpreting.

Level 3: Intermediate

Demonstrates knowledge of basic vocabulary, but will lack vocabulary for more technical, complex, or academic topics. Individual is able to sign in a fairly fluent manner using some consistent prosody, but pacing is still slow with infrequent pauses for vocabulary or complex structures. Sign production may show some errors but generally will not interfere with communication. Grammatical production may still be incorrect, especially for complex structures, but is in general intact for routine and simple language. Comprehends signed messages but may need repetition and assistance. Voiced translation often lacks depth and subtleties of the original message. An individual at this level would be able to communicate very basic classroom content, but may incorrectly interpret complex information resulting in a message that is not always clear.

An interpreter at this level needs continued supervision and should be required to participate in continuing education in interpreting.

Level 4: Advanced Intermediate

Demonstrates broad use of vocabulary with sign production that is generally correct. Demonstrates good strategies for conveying information when a specific sign is not in her/his vocabulary. Grammatical constructions are generally clear and consistent, but complex information may still pose occasional problems. Prosody is good, with appropriate facial expression most of the time. May still have difficulty with the use of facial expression in complex sentences and adverbial non-manual markers. Fluency may deteriorate when rate or complexity of communication increases. Uses space consistently most of the time, but complex constructions or extended use of discourse cohesion may still pose problems. Comprehension of most signed messages at a
SUMMARY OF KEY ISSUES (Cont.)

The normal rate is good but translation may lack some complexity of the original message.

An individual at this level would be able to convey much of the classroom content but may have difficulty with complex topics or rapid turn taking.

Level 5: Advanced

Demonstrates broad and fluent use of vocabulary, with a broad range of strategies for communicating new words and concepts. Sign production errors are minimal and never interfere with comprehension. Prosody is correct for grammatical, non-manual markers, and affective purposes. Complex grammatical constructions are typically not a problem. Comprehension of sign messages is very good, communicating all details of the original message.

An individual at this level is capable of clearly and accurately conveying the majority of interactions within the classroom.

Another way of clarifying the meaning of the scores is as follows:

</tbody>
</table>

The Sutter COE provides special education and related services for 17 deaf and 14 hard of hearing students.

The Sutter COE’s job description for educational interpreters is reflective of the regulatory requirements.

During the 2009-10 school year, the Sutter COE was granted waivers of the regulatory requirement for four interpreters, including Ms. Newton. During the 2010-11 school year, the Sutter COE was granted waivers of the regulatory qualification standard for two educational interpreters, again including Ms. Newton. The Sutter COE has been diligent in providing training and mentoring opportunities for its educational interpreters.

At this time, the Sutter COE employs seven educational interpreters, six of whom are fully qualified. The Sutter COE is requesting a third renewal waiver of the regulatory qualification standard for Ms. Newton.
SUMMARY OF KEY ISSUES (Cont.)

Ms. Newton has been employed as an educational interpreter by the Sutter COE since October 10, 1988. In May 2009, Ms. Newton took the EIPA and achieved a score of 3.7. She took the EIPA Pre-Hire Screen in June 2010, and scored “OK to Hire.” She retook the EIPA in February 2011, and again scored 3.7. She took the ESSE in April 2011, and the results are pending.

The following is a summary of Ms. Newton’s assessment results:

<table>
<thead>
<tr>
<th>Date</th>
<th>Assessment</th>
<th>Results</th>
</tr>
</thead>
<tbody>
<tr>
<td>May 29, 2009</td>
<td>EIPA</td>
<td>3.7 (74%)</td>
</tr>
<tr>
<td>June 8, 2010</td>
<td>EIPA Pre-Hire Screen</td>
<td>“OK to Hire”</td>
</tr>
<tr>
<td>February 12, 2011</td>
<td>EIPA</td>
<td>3.7 (74%)</td>
</tr>
<tr>
<td>April 30, 2011</td>
<td>ESSE</td>
<td>Scores pending October 2011</td>
</tr>
</tbody>
</table>

*Percentages in parentheses indicate rate of accuracy of interpretation.

Ms. Newton did meet the conditions of the 2010-11 waiver by working with a mentor and retaking the EIPA exam. Her score remained the same (3.7), but with further mentoring, Ms. Newton may achieve a passing score of 4.0 or above. The CDE recommends that this waiver request be approved with conditions, to give Ms. Newton a last opportunity to meet the qualification standard.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in the California Education Code (EC) 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: The Sutter COE has a student population of 670 special education students and is located in rural Sutter County.

Authority for Waiver: EC Section 33050

Period of request: July 1, 2011, to June 30, 2012

RE: Educational Interpreter 2011-2012 Remediation Plan

This letter is to inform you that the state requires a remediation plan to be included with the waiver request. A waiver, if granted, will allow you to work as an Educational Interpreter for the 2011-2012 school year. You have been eligible to continue employment with Sutter County Superintendent of Schools due to a previous waiver issued by the California State Board of Education. A 4.0 score on an acceptable sign language assessment is the state requirement which is listed below in the California Code of Regulations (CCR).

California Code of Regulations (CCR), Title 5, Section 3051.16(b)(3) states the following: By July 1, 2009, and thereafter, an educational interpreter shall be certified by the national RID, or equivalent; in lieu of RID certification or equivalent, an educational interpreter must have achieved a score of 4.0 or above on the EIPA, the ESSE-I/R, or the NAD/ACCI assessment. If providing Cued Language transliteration, a transliterator shall possess TECUnit certification, or have achieved a score of 4.0 or above on the EIPA - Cued Speech.

At this time, you have not provided Sutter County Superintendent of Schools office any of the aforementioned assessments with a required score of 4.0. Therefore, the Remediation Plan below will be followed by you to assist you in meeting qualification requirements of a Sign Language Interpreter.

Remediation Plan:
- As soon as possible, the Sutter County Superintendent of Schools Office must provide CDE with your assessment scores (EIPA or ESSE); therefore, you are required to submit your scores to the Human Resources Department as soon as they are received by you (results anticipated by the end of July, 2011).
- You are required to take advantage of the opportunities and resources available from Sutter County Superintendent of Schools office to maximize your assessment score.

Opportunities available to you are listed below:
- Participate in individual mentoring with professional mentor who is RID Certified. You are encouraged to film samples of your work, self-assess the skill domains, and work with the mentor to determine the root causes of issues with skills.
- Participate in peer mentoring activities with other staff interpreters. We will work with the schedule to allow you to shadow other certified interpreters.
- Participate in group training sessions, workshops, conferences and any other organized professional development activities as they become available throughout the year.
June 22, 2011

Based on your prior assessments, your specific areas of focus should be:

- Processing time that is efficient and results in fluency and conveying the overall message, including the teacher’s content and intent. Focus on clear sentence boundaries to manage the flow of the delivery and to ensure semantically accurate vocabulary.
- Use of prosodic features to show emphasis, affect and emotion, specifically focusing on conveying the educational importance of the content.
- Production of non-manual markers to show adverbs and adjectives.
- Spatial organization to organize, describe, compare, and establish discourse referents.
- Increasing and improving the use of the ASL classifier system.
- Appropriate use of finger spelling and representation of key vocabulary. Improve production of numbers.
- Sign to English skills, both receptive and expressive. Specific focus on receptive finger spelling and conveying the signer’s non-manual markers and ASL morphology.

The Sutter County Superintendent of Schools Office expects your full cooperation in this remediation plan. A waiver request for the 2011-2012 school year will be submitted for the California State Board of Education’s review. Your continued employment will be contingent on the California State Board’s approval of the waiver request or a score of 4.0 on one of the CCR approved assessments. There is no guarantee that the waiver will be granted when requested.

Should you have any questions and/or concerns, please contact Wendy Bedard, Human Resources Director at (530) 822-2905. Thank you in advance for your attention and cooperation in this matter. We look forward to your successful obtainment of a passing score on an interpreter assessment in the near future.

CSEA, Local Chapter President

Director, Special Education

Director, Human Resources
ITEM W-44
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

General Waiver

SUBJECT
Request by Coachella Valley Unified School District to waive California Code of Regulations, Title 5, Section 3043(d), which requires a minimum of 20 school days of attendance of four hours each for an extended school year (ESY) (summer school) for special education students.

Waiver Number: 54-4-2011

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following conditions: (1) That special education and related services offered during the extended year period are comparable in standards, scope, and quality to the special education program offered during the regular academic year as required by California Code of Regulations, Title 5, (5 CCR), Section 3043(d), and (2) that the ESY program, for the purposes of reimbursement for average daily attendance, will provide instruction of at least as many minutes over the 14 day period as it would have during the typical 20 ESY program and will receive the reimbursement for the 20 days of instruction.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In the past, the SBE approved waivers to allow school districts to provide the required minimum amount of time in fewer days during the ESY for special education students.

Extended school year is the term for the education of special education students “between the close of one academic year and the beginning of the next,” similar to a summer school. The difference is that if a student’s individualized education program (IEP) requires an ESY, the district is required to offer the schooling, unlike most summer schools.

SUMMARY OF KEY ISSUES

The Coachella Valley Unified School District is requesting a waiver to provide an ESY program for special education students for 14 days instead of the traditional 20-day model. The ESY program, for the purposes of reimbursement for average daily attendance, will provide instruction of at least as many minutes over the 14 day period as it would have during the typical 20-day ESY program.
SUMMARY OF KEY ISSUES (Cont.)

The proposed ESY program would operate from June 14, 2011, to July 1, 2011, with June 13 serving as a teacher preparation day. This waiver would allow special education students to continue to participate in their educational program, as noted on their IEPs, without interruption and receive services that are comparable in scope and quality of those offered during the regular academic school year.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: Coachella Valley Unified School District has a student population of 17,409 and is located in a rural area in Riverside County.

Authority for Waiver: California Education Code Section 33050

Period of request: June 13, 2011, to July 1, 2011

Local board approval date(s): May 12, 2011

Bargaining unit(s) consulted on date(s): The district consulted with the Coachella Valley Teacher Association and California School Employees Association on May 5, 2011.

Name of bargaining unit/representative(s) consulted: Coachella Valley Teacher Association, Alexis Lanza, President and California School Employees Association, Leo Reyes, President

Position of bargaining unit(s) (choose only one):

   Virginia Alba, President – Special Education Parent Advisory Committee

   **Date the committee/council reviewed the waiver request:**
   May 5, 2011

   **Were there any objection(s)?**
   No _X_ Yes  (If there were objections please specify)
6. **Education Code** or **California Code of Regulations** section to be waived. If the request is to waive a portion of a section, type the text of the pertinent sentence of the law, or those exact phrases requested to be waived (use a **strike out key**).

Requested by Coachella Valley Unified School District to waive California Code of Regulation (CCR), Title 5, Section 3043 (d) which requires a minimum of 20 school days of attendance (with varied minutes depending on grade level of students) for an extended school year for special education students.

7. Desired outcome/rationale. Describe briefly the circumstances that brought about the request and why the waiver is necessary to achieve improved student performance and/or streamline or facilitate local agency operations. If more space is needed, please attach additional pages.

The Coachella Valley Unified School District is requesting a waiver to allow the district’s Special Education Extended School Year (ESY) program to run for 14 days instead of the 20 days.

The ESY program, for the purposes of reimbursement for average daily attendance, will provide instruction of at least as many minutes over the 14 day period as it would have during the typical 20 day ESY program and will receive the reimbursement for the 20 days of instruction.

8. Demographic Information:

Coachella Valley Unified School District has a student population of 17,409 and is located in a rural, agricultural area in Riverside County.

ITEM W-45
California State Board of Education

September 2011 Agenda

General Waiver

Subject

Request by National Elementary School District to waive California Code of Regulations, Title 5, Section 3043(d), which requires a minimum of 20 school days of attendance of four hours each for an extended school year service (ESY) for special education students.

Waiver Number: 18-6-2011

Recommendation

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education recommends approval with the following conditions: (1) That the State Board of Education (SBE) approve the district’s request to provide ESY services for 15 days rather than 20 days with the condition that special education and related services offered during the extended year period are comparable in standards, scope, and quality to the special education program offered during the regular academic year as required by California Code of Regulations, Title 5, (5 CCR), Section 3043(d), and (2) that the ESY program, for the purposes of reimbursement for average daily attendance, will provide instruction of at least as many minutes over the 15 day period as it would have during the typical 20 ESY program and will receive the reimbursement for the 20 days of instruction.

Summary of Previous State Board of Education Discussion and Action

In the past, the SBE approved waivers to allow school districts to provide the required minimum amount of time in fewer days during the ESY for special education students.

Extended School Year is the term for the education of special education students “between the close of one academic year and the beginning of the next,” similar to a summer school. The difference is that if a student’s individualized education program (IEP) requires an ESY service, the district is required to offer the schooling, unlike most summer schools.

Summary of Key Issues

The National School District is requesting a waiver to modify the traditional 20-day ESY program to 15 days, due to the circumstances described below. This request is for the current school year only (2010–11).
SUMMARY OF KEY ISSUES (Cont.)

National School District has approximately 89 students with IEPs who qualify for an ESY program. The district will not convene a summer school program for general education students this summer, and beginning with the 2011–12 school year, will modify its school calendar to align with other area secondary schools.

The proposed ESY calendar is for the period of June 20, 2011, through July 8, 2011. As the modified 2011–12 school year will begin 10 days later, on July 25, 2011, the district believes that a 15-day ESY program, combined with the short period of time with no school, addresses the regression and recoupment needs of identified students. This request is delayed due to contract negotiations related to realigning the school year calendar that could have potentially impacted the ESY calendar.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Demographic Information: National School District has a student population of 5,821 and is located in a small city in San Diego County.

Authority for Waiver: California Education Code Section 33050

Period of request: June 20, 2011, to July 8, 2011

Local board approval date(s): March 23, 2011

Public hearing held on date(s): March 23, 2011

Bargaining unit(s) consulted on date(s): National City Teachers Association (NCTA) on March 23, 2011 and June 29, 2011.

Name of bargaining unit/representative(s) consulted: Linda Cartwright, NCTA, President, on March 21, 2011, and Mary Ellen Brueman, California Teachers
Association, field representative, on June 29, 2011.

**Position of bargaining unit(s) (choose only one):**
- [ ] Neutral
- [x] Support
- [ ] Oppose

Comments: “Due to the calendar change, the Unions understand that students and staff will be best served with shortened sessions.”

**Public hearing advertised by (choose one or more):**
- [ ] posting in a newspaper
- [x] posting at each school
- [ ] other (specify)

**Advisory committee(s) consulted:** The district’s Leadership Committee and the parents of students who qualify for an ESY program.

**Objections raised (choose one):**
- [x] None
- [ ] Objections are as follows:

**Date(s) consulted:** Various, based upon IEP meetings.

**FISCAL ANALYSIS (AS APPROPRIATE)**

There is no significant statewide fiscal impact with waiver approval or denial.

**LEGAL CRITERIA**

1. Under the general waiver authority of Education Code 33050-33053, the particular Education Code or California Code of Regulations section(s) to be waived (number):  
   California Code of Regulations, Title 5, Section 3043(d)  
   Topic of the waiver: Extended school year for special education students

2. If this is a renewal of a previously approved waiver, please list Waiver Number: ___  
   and date of SBE Approval______  
   Renewals of waivers must be submitted two months before the active waiver expires.

3. Collective bargaining unit information. Does the district have any employee bargaining units?  
   Yes  
   If yes, please complete required information below:

   - Bargaining unit(s) consulted on date(s):  
     March 21, 2011 after the survey was completed  
   - Name of bargaining unit and representative(s) consulted: National City Teachers Association, Linda Cartwright, President  
   - The position(s) of the bargaining unit(s):  
     Neutral  
     Support  
     Oppose (Please specify why)

   - Comments (if appropriate):  
     Due to the calendar change, the Unions understands that students and staff will be best served with the shortened session.

4. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

   - How was the required public hearing advertised?  
     ___ Notice in a newspaper  
     _X_ Notice posted at each school  
     ___ Other: (Please specify)

5. Advisory committee or school site councils. Please identify the council(s) or committee that reviewed this waiver:

   - Date the committee/council reviewed the waiver request: District Leadership Committee, the shortened session has been discussed with the majority of parents of students who qualify for ESY, with no objections voiced.

   - Were there any objection(s)?  
     No  
     Yes ___  
     (If there were objections please specify)
6. *California Code of Regulations*, Title 5, Section 3043(d), which requires a minimum of 20 school days of attendance for an extended school year (summer school) for special education students.

7. National School District is requesting a waiver to modify the required 20 day extended school year (ESY) program to 15 days, due to the circumstances described below. This request is for the current school year only (2010-11).

National School District has approximately 89 students with IEPs who qualify for extended school year. There is no summer school program for any other students in the District. Beginning with the 2011-12 school year, the district will be modifying its school calendar to align with the area secondary schools, creating a much shorter time between school years. The last day of the regular 2010-11 school year is June 16, the first day of the 2011-12 school year is July 25, 2011, providing only 25 days to hold an ESY session.

A 15 day ESY program combined with a shortened 13 day period with no school, would still allow the District to address the regression and recoupment needs of identified students. An additional benefit would be a greater likelihood that the students' teachers and aides will choose to work if the session is shorter.

This request is somewhat delayed due to contract negotiations that could have potentially impacted the calendar. The contract has now been approved to realign the calendar.

8. National School District is a K-6 District and has a total student population of 5,821 students and is located in a small city in San Diego County. A total of 730 students have IEPs and 89 qualify for ESY.

Meeting Agenda Items for September 7-8, 2011

ITEM W-46
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

Specific Waiver

Request by Napa Valley Unified School District Special Education Local Plan Area under authority of California Education Code Section 56101 to waive Education Code Section 56366.1(h), the August through October 31 timeline for an annual certification renewal application, for My Therapy Company, a nonpublic agency.

Waiver Number: 62-4-2011

RECOMMENDATION

- Approval
- Approval with conditions
- Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The Napa Valley Unified School District special education local plan area (SELPA) requests to waive the annual application deadline (October 31) for submission of a renewal application for My Therapy Company, a nonpublic agency. Such requests have been routinely approved by the State Board of Education (SBE) allowing the California Department of Education (CDE), Special Education Division staff to review the renewal application beyond the statutory deadline. This waiver meets the SBE Waiver Policy #00-03 Non Public School/Agency Certification (Annual Renewal Application Deadline), available at: [http://www.cde.ca.gov/re/lr/wr/documents/nonpublicrenewal.doc](http://www.cde.ca.gov/re/lr/wr/documents/nonpublicrenewal.doc).

SUMMARY OF KEY ISSUES

The Napa Valley Unified School District states that My Therapy Company, a nonpublic agency (NPA), missed the annual application deadline as set forth in California Education Code Section 56366.1(h), which states that certification renewal applications for nonpublic agencies must be received during the August 1 through October 31 time period.

Students are currently being provided occupational therapy services and language and speech development and remediation by the NPA and continued services by the NPA are necessary to meet student service individualized education program requirements. SELPA students served by this NPA would not receive services without the approval of this waiver.
SUMMARY OF KEY ISSUES (Cont.)

Demographic Information: Napa Valley Unified School district has a student population of 17,000 and is located in a small city in Napa County.

Authority for Waiver: EC Section 56101

Period of request: October 31, 2010, to October 31, 2011

Local board approval date(s): May 19, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

There is no statewide fiscal impact of waiver approval.

ATTACHMENT(S)

Attachment 1: Specific Waiver Request (2 pages) (Original waiver request is signed and on file in the SBE Office or the Waiver Office.)
WAIVER GUIDELINES
Non Public School/Agency Certification (Annual Renewal Application Deadline)

POLICY # 00-03
DATE May 2000

REFERENCES
Education Code (EC) sections 56101 and 56366.1

HISTORICAL NOTES
None.

EC Section 56366.1(h):
The Superintendent shall annually review the certification of each nonpublic, nonsectarian school and agency. For this purpose, a certified school or agency shall annually update its application between August 1 and October 31, unless the board grants a waiver pursuant to Section 51601. The superintendent may conduct an onsite review as part of the annual review.

Background:
Nonpublic schools and agencies (NPS/NPA) are required to update their applications annually. EC Section 56366.1(h) establishes the period during which the California Department of Education (CDE) accepts and evaluates these applications. Occasionally, an individual NPS/NPA will inadvertently miss the deadline. When there is an urgent need to renew the certification (e.g., when special education students are currently being provided with services by the NPS/NPA), a local education agency (LEA) submits a waiver request to the State Board for approval.

Requests to waive the deadline (October 31) for submission of an annual renewal application have been routinely approved by the State Board in the past. Approval of such requests allows CDE Special Education Division staff to review the renewal application beyond the statutory deadline.

Evaluation Guidelines:
A school district, county office of education, or Special Education Local Plan Area (SELPA) requesting a waiver of the deadline for renew certification by an NPS/NPA must justify the request by indicating:

- Why the NPS/NPA missed the deadline; and
- How the waiver will benefit the students being served.

LEGAL CRITERIA

1. Authority for the waiver: _____ Specific code section: __________
   56101. (a) Any district, special education local plan area, county office, or public education agency, as defined in Section 56500, may request the board to grant a waiver of any provision of this code or regulations adopted pursuant to that provision if the waiver is necessary or beneficial to the content and implementation of the pupil's individualized education program and does not abrogate any right provided individuals with exceptional needs and their parents or guardians under the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), or to the implementation of a district, special education local plan area, or county office with the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. Sec. 794), and federal regulations relating thereto. (b) The board may grant, in whole or in part, any request pursuant to subdivision (a) when the facts indicate that failure to do so would hinder implementation of the pupil's individualized education program or compliance by a district, special education local plan area, or county office with federal mandates for a free, appropriate education for children or youth with disabilities.

2. Education Code or California Code of Regulations or portion to be waived.
   Section to be waived: (number) Circle One: EC or CCR
   Brief Description of the topic of the waiver: NPA Recertification: My Therapy Company
   kak 5/24/11

3. If this is a renewal of a previously approved waiver, please list Waiver No: _____ and date of SBE approval ______
   Renewals of Waivers must be approved by the local board and submitted two months before the active waiver expires.
   Not required for Special Ed. Jb 8/1/11

4. Collective bargaining unit information. (Not necessary for EC 56101 waivers) N/A
   Does the district have any employee bargaining units? __ No ___ Yes ___
   If yes, please complete required information below:
   Bargaining unit(s) consulted on date(s):

**Summary of Previous State Board of Education Discussion and Action**

The Santa Barbara County special education local plan area (SELPA) requests to waive the annual application deadline (October 31) for submission of a renewal application for The Language Center, a nonpublic agency. Such requests have been routinely approved by the State Board of Education (SBE) allowing the California Department of Education (CDE), Special Education Division staff, to review the renewal application beyond the statutory deadline. This waiver meets the SBE Waiver Policy #00-03 Non Public School/Agency Certification (Annual Renewal Application Deadline), available at [http://www.cde.ca.gov/re/lr/wr/documents/nonpublicrenewal.doc](http://www.cde.ca.gov/re/lr/wr/documents/nonpublicrenewal.doc).

**Summary of Key Issues**

The Santa Barbara County SELPA avers that The Language Center, a nonpublic agency (NPA), missed the annual application deadline as set forth in California Education Code Section 56366.1(h), which states that certification renewal applications for nonpublic agencies must be received during the August 1 through October 31 time period.

Students are currently being provided language and speech development and remediation by the NPA and continued services by the NPA are necessary to meet student service individualized education program requirements. SELPA students served by this NPA would not receive services without the approval of this waiver.
SUMMARY OF KEY ISSUES (Cont.)

Demographic Information: The Language Center NPA has a student population of two and contracts with the Solvang School District and the Santa Barbara Unified School District.

California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM W-48
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

☒ Specific Waiver

SUBJECT

Request by Poway Unified School District under authority of California Education Code Section 56101 and California Code of Regulations, Title 5, Section 3100 to waive Education Code Section 56362(c), allowing the caseload of the resource specialist to exceed the maximum caseload of 28 students by no more than four students (32 maximum). Julie Goodwin is assigned to Monterey Ridge Elementary School.

Waiver Number: 3-6-2011

RECOMMENDATION

☐ Approval  ☒ Approval with conditions  ☐ Denial

The California Department of Education (CDE) recommends approval with the following condition: (1) Instructional aide time of 6 hours per day be provided to assist with the increased caseload, exceeding the minimum requirement of 5 hours, per California Code of Regulations, Title 5, Section 3100(d)(2).

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

California Education Code (EC) Section 56101 allows the SBE to waive any provision of EC or regulation if the waiver is necessary or beneficial when implementing a student individualized education program (IEP). California Code of Regulations, Title 5, Section 3100(d)(2) specifically allows the SBE to approve waivers for resource specialists providing special education services to allow them to exceed the maximum caseload of 28 students by no more than four students. However, there are specific requirements in these regulations which must be met for approval, and if these requirements are not met, the waiver must be denied:

(1) The requesting agency demonstrates to the satisfaction of the State Board of Education (A) that the excess resource specialist caseload results from extraordinary fiscal and/or programmatic conditions and (B) that the extraordinary conditions have been resolved or will be resolved by time the waiver expires.
(2) The waiver stipulates that an affected resource specialist will have the assistance of an instructional aide at least five hours daily whenever that resource specialist's caseload exceeds the statutory maximum during the waiver's effective period.

(3) The waiver confirms that the students served by an affected resource specialist will receive all of the services called for in their individualized education programs.

(4) The waiver was agreed to by any affected resource specialist, and the bargaining unit, if any, to which the resource specialist belongs participated in the waiver's development.

(5) The waiver demonstrates to the satisfaction of the State Board of Education that the excess caseload can be reasonably managed by an affected resource specialist in particular relation to (A) the resource specialist's pupil contact time and other assigned duties and (B) the programmatic conditions faced by the resource specialist, including, but not limited to, student age level, age span, and the behavioral characteristics; number of curriculum levels taught at any one time or any given session; and intensity of student instructional needs.

The SBE receives about a dozen waivers of this type each year, and about 90 percent are approved.

SUMMARY OF KEY ISSUES

A resource specialist is a credentialed teacher who provides instruction and services to children with IEPs that are with regular education teachers for the majority of the school day. The resource specialist coordinates special education services with general education programs.

The resource specialist, Julie Goodwin, was a permanent employee of the Poway Unified School District (PUSD) during the 2010−11 school year. The CDE attempted to contact Ms. Goodwin on June 16, 2011, to verify this fact, and learned that she took a leave of absence from the PUSD to join her husband in Japan. Page four of the waiver request, dated and signed by Ms. Goodwin on May 17, 2011, indicates her agreement with the waiver request and confirms that she received 6 hours of instructional aide time per day to assist with her caseload, exceeding the minimum requirement of 5 hours, per California Code of Regulations, Title 5, Section 3100(d)(2).

President Candy Smiley of the Poway Federation of Teachers (PFT) verified the PFT's supportive position of the waiver on June 16, 2011.

The Department recommends waiver approval. There have been no prior documented complaints registered with the CDE related to the PUSD exceeding the maximum resource specialist program caseload of 28 students.
SUMMARY OF KEY ISSUES (Cont.)

Demographic Information: Poway Unified School District has a student population of 33,000 and is located in the rural city of Poway in Northern San Diego County.

Authority for Waiver: EC Section 56362(c), 5 CCR 3100

Period of request: May 16, 2011, to June 9, 2011

Local board approval date(s): May 24, 2011

Bargaining unit(s) consulted on date(s): May 16, 2011

Name of bargaining unit/representative(s) consulted: Poway Federation of Teachers, Candy Smiley, President

Position of bargaining unit(s) (choose only one):
☐ Neutral  ☒ Support  ☐ Oppose

Date(s) consulted: May 16, 2011

FISCAL ANALYSIS (AS APPROPRIATE)

During the 2010–11 school year, budget reductions were necessary to balance the District’s fiscal situation and increasing costs of staffing from the general fund was not an option.

SPECIFIC WAIVER REQUEST FOR RESOURCE SPECIALIST CASELOAD

SW-RSC (Rev. 4-24-2009) http://www.cde.ca.gov/re/lr/wr/

Page 1 of 4

Send original plus one copy to:
Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814
Send electronic copy and back-up material to: waiver@cde.ca.gov

Faxed originals will not be accepted!

Local educational agency: Poway Unified School District
Contact name and recipient of approval/denial notice: Julie Goodwin, Director, Special Ed.
Contact person’s e-mail address: mbrown@powayusd.com
Address: 15250 Avenue of Science, San Diego, CA 92128
Phone (and extension, if necessary): (858) 521-2824
Fax number: (858) 485-1501

Period of request: From May 16, 2011 To June 9, 2011

Date approved by district board or COE board, SELPA, or other public education agency as defined by EC Section 56500.

May 24, 2011

LEGAL CRITERIA

1. Authority for the waiver: Education Code (EC) Section 56101, and California Code of Regulations (CCR), Title 5, Section 3100, resource specialist caseload waiver: "A school district, special education local plan area, county office of education or any other public agency providing special education or related services may request the State Board of Education to grant a waiver of the maximum resource specialist caseload, as set forth in EC Section 56362(c), only if the waiver is necessary or beneficial to either; (1) to the content and implementation of a pupil’s individualized educational plan (IEP) and does not abrogate any right provided individuals with exceptional needs by specified federal law or; (2) to the agency’s compliance with specified federal law."

2. Education Code Section to be waived: EC 56362 (c): No resource specialist shall have a caseload that exceeds 28 students.

Note: the waiver request may be up to but no more than 4 students above the statutory caseload (32 students maximum).

3. Requesting a caseload waiver for: One (1) of resource specialists.

Please use separate SW-RSC form for Resource Specialist (RS) teachers who agree with the waiver request, and those who disagree with the waiver request.

Resource specialist(s) name: Julie Goodwin
Assigned school and mailing address: Monterey Ridge Elementary
17117 4S Ranch Parkway
San Diego CA 92127

Please add list of additional teacher names and schools/district as needed.
SPECIFIC WAIVER REQUEST FOR RESOURCE SPECIALIST CASELOAD
SW-RSC (Rev. 4-24-2009)
Page 2 of 4

Per CCR, Title 5, Section 3100(d)(4) participation of the resource specialist teacher’s bargaining unit is required in the waiver development.

Does (do) the resource specialist(s) belong to an employee bargaining unit(s)? Yes

If yes, please complete required information below:

Date(s) the bargaining unit(s) participated in the waiver development: May 16, 2010

Name of bargaining unit and/name of representative(s) consulted: Poway Federation of Teachers, Candy Smiley, Union President

Telephone contact for bargaining representative: (858) 674-2800

The position(s) of the bargaining unit(s): In agreement

Comments (if appropriate):

Note: For each resource specialist attached page 3 of 4 SW-RSC waiver request to be completed by the Administrator and page 4 of 4 SW-RSC waiver request to be completed by the Resource Specialist.

Certification- I hereby certify that the information provided on this application is correct and complete. I also certify this waiver request will never result in the same resource specialist having a caseload in excess of the statutory maximum for more than two years and that this waiver request will result in the resource specialist(s) above having the assistance of an instructional aide at least 5 hours daily.

1. Is the information in Items 1-9 on the attached SW-RSC-Administrator form an accurate reflection of your current assignments, personal data, FTE, your caseload, number of periods taught and average number of students? YES  X  NO ___  If not, please state where you believe these facts or numbers differ:

2. Will all students served received all of the services called for in their IEP’s? Can you reasonably manage the excess caseload in relation to the programmatic condition you face, including, but not limited to, student age level, age span, and behavioral characteristics; number of curriculum levels taught at any one time or any given session, and intensity of student instructional needs. Explain below.
   
   Yes. This waiver will not hinder the implementation of student services as outlined in their individualized education plan. I will be receiving additional instructional assistant support during the duration of this waiver.

3. Can you reasonably manage the excess caseload in relation to your student contact time, and other assigned duties? Explain below.
   
   Yes. This waiver will not hinder the implementation of student services as outlined in their individualized education plan. I will be receiving additional instructional assistant support during the duration of this waiver.

4. **EC** Section 56362(c) states that no resource specialist shall have a caseload which exceeds 28 students, per CCR, Title 5, Section 3100 Regulations allow your agency to request a waiver of the **EC**, providing certain conditions are met, and that in no circumstance may your caseload be raised to above 32 students.

   Indicate your position regarding this waiver request by a check mark in one box.

   X  AGREE – to the increase in my student caseload from 28 students to not more than 32 students.

   ___  DISAGREE – to an increase in my student caseload over the 28 students. If disagreeing, provide rational below:

5. Indicate a check mark in the appropriate box:

   X  I did not have a student caseload of more than 28 during the last school year.

   ___  I did have a student caseload of more than 28 during the last school year.  If yes, please respond below:

   (a) Did you have an approved waiver for this caseload?  

   (b) Specify which months/weeks you were over caseload: ___ to ___

   (c) Other pertinent information?

   ___  I have had a student caseload of more than 28 for Two consecutive years.

California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM W-49
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

**General Waiver**

**SUBJECT**

Request by Los Angeles Unified School District for Vaughn Next Century Learning Center Charter School to waive the State Testing Apportionment Information Report deadline of December 31 in the California Code of Regulations, Title 5, Section 11517.5(b)(1)(A) regarding the California English Language Development Test and Title 5, Section 1225(b)(2)(A) regarding the California High School Exit Examination.

Waiver Number: 38-6-2011

**RECOMMENDATION**

☑ Approval ☐ Approval with conditions ☐ Denial

**SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION**

The State Board of Education (SBE) has approved all waiver requests since the deadline for submission of the State Testing Apportionment Information Reports was added to the California Code of Regulations (CCR), and the SBE Waiver Policy 08-#: State Testing Apportionment Informational Report Deadline (available at [http://www.cde.ca.gov/re/lr/wr/waiverforms.asp](http://www.cde.ca.gov/re/lr/wr/waiverforms.asp)).

**SUMMARY OF KEY ISSUES**

The regulations for the State Testing Apportionment Information Report were amended in 2005 to include an annual deadline of December 31 for the return of the Apportionment Information Report for prior year testing for the Standardized Testing and Reporting (STAR) Program, the California High School Exit Examination (CAHSEE), and the California English Language Development Test (CELDT). The California Department of Education sent letters in September 2005, announcing the new deadline in regulations to every LEA. This deadline was enacted to speed the process of final reimbursement of testing costs to the LEAs.

The LEA filing for this waiver request missed the 2009–10 fiscal year deadline for requesting reimbursement due to the LEA staff responsible for this report did not receive the report until after the December 31 deadline. Staff verified that the LEA needed the waiver and had submitted its report after the deadline.
SUMMARY OF KEY ISSUES (Cont.)

The LEA is now aware of this important change in the timeline and understands that they must submit their reports to the Assessment and Accountability Division for reimbursement. Therefore, the Department recommends the approval of the waiver request as required by regulation prior to final reimbursement.

Because this is a general waiver, if the SBE decides to deny the waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Authority for Waiver: EC Section 33050

Period of request: December 31, 2010, to September 8, 2011

Local board approval date(s): March 1, 2011

Public hearing held on date(s): March 11, 2011

Bargaining unit(s) consulted on date(s): Charter school does not have a bargaining unit.

Position of bargaining unit(s) (choose only one):

☐ Neutral    ☐ Support    ☐ Oppose:

Comments (if appropriate): None

Public hearing advertised by (choose one or more):

☒ posting in a newspaper    ☐ posting at each school    ☐ other (specify)

Objections raised (choose one):

☒ None    ☐ Objections are as follows:

FISCAL ANALYSIS (AS APPROPRIATE)

If the waiver is approved, the LEA will be reimbursed for the costs of the CAHSEE and the CELDT for the 2009–10 school years. Total costs are indicated on Attachment 1.

</tr>
</tbody>
</table>

**Background**

The assessment apportionment funds for the Standardized Testing and Reporting (STAR) Program, California High School Exit Examination (CAHSEE), and California English Language Development Test (CELDT) are unrestricted funds which are used, among other things, to reimburse local educational agencies (LEAs) for local costs associated with the assessments. In order to be reimbursed for these expenses, the LEA must file a report with the California Department of Education (CDE).

All three regulations for the State Testing Apportionment Information Report were amended in 2005 to include an annual deadline of December 31 of each year (highlighted below) for the return of the Apportionment Information Report for prior year testing for STAR, CAHSEE, and CELDT to receive reimbursement.

If an LEA misses this deadline, they need to complete the entire local process to request a waiver of this deadline, and the State Board of Education must approve the waiver before the LEA can be reimbursed for the local costs associated with the assessments.

**Statutory Provisions:**

STAR program regulation CCR, Title 5 (5 CCR), Section 862 (c)(2)(A) requires that districts must send reports of the number of tests given to CDE by December 31; however in those same regulations, 5 CCR 862(c)(b)(2) allows a waiver of that deadline.
CAHSEE program regulation, 5 CCR 1225(b)(2)(A) requires that districts must send reports of the number of tests given to CDE by December 31; however, in those same regulations, 5CCR 862(c)(b)(2) allows a waiver of that deadline.

CELDT program regulation 5 CCR Section 11517.5(b)(1)(A) requires that districts must send reports of the number of tests given to CDE by December 31; however in those same regulations, 5 CCR 862(c)(b)(2) allows a waiver of that deadline.

The CDE Waiver Office has processed many waivers in the past, all of which were approved by the State Board of Education. CDE staff ensures that only waiver requests consistent with the evaluation guidelines are placed on the State Board’s consent calendar for waivers.

Evaluation Guidelines

The LEA:

- Will describe the circumstances that caused them to miss the apportionment deadline(s).
- Indicate that they are now all aware of this important change in the timeline and must submit their reports to the Standard and Assessment Division Office for reimbursement.
- Will put into place guidelines for all currently employed staff and new staff to follow so that this deadline will not be missed in the future.

Local educational agency: kak 6/28/2011

Los Angeles Unified School District for: Vaughn Next Century Learning Center

Address: 13330 Vaughn Street (City) San Fernando (ZIP) 91340

Phone (and extension, if necessary): 818-896-7461 x7900

Fax number: 818-834-9036

Local board approval date: (Required) March 1, 2011

Contact name and recipient of approval/denial notice: Dr. Yvonne Chan

Contact person’s e-mail address: ychan@vaughncharter.com

DATE

CD CODE

1 9 6 4 7 3 3

Signature of Superintendent or Designee: Title: Date:

Staff Name (type or print): Staff Signature: Date:

Unit Manager (type or print): Unit Manager Signature: Date:

Deputy (type or print): Deputy Signature: Date:

Legal Criteria

1. Under the general waiver authority of Education Code 33050-33053, the California Code of Regulations (CCR) section(s) to be waived (check one): ___ STAR – CCR, Title 5, Section 862(c)(2)(A) …postmarked by December 31…

   X CAHSEE – CCR, Title 5, Section 1225(b)(2)(A) …postmarked by December 31…

   X CELDT – CCR, Title 5, Section 11517.5(b)(1)(A) …postmarked by December 31…

2. Collective bargaining unit information. Does the district have any employee bargaining units? __ No __ Yes If yes, please complete required information below. This requirement can be achieved with a telephone call. It is vital to complete this section as not consulting the bargaining units is a reason for denial of a general waiver request.

   N/A

Bargaining unit(s) consulted on date(s):

Name of bargaining unit and representative(s) consulted:

   The position(s) of the bargaining unit(s): Neutral Support Oppose (Please specify why)

3. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

   How was the required public hearing advertised?

   X Notice in a newspaper ___ Notice posted at each school ___ Other: (Please specify)

4. Describe briefly the circumstances that caused you to miss the apportionment deadline(s). (If more space is needed, please attach additional pages.) The envelope containing the Apportionment Reports were placed in the mail bag to be picked up. Due to flooding, collapsed roof and construction, all outgoing mail was redirected to another location which caused the delay.

5. Describe guidelines that have been put into place for staff so that this deadline will not be missed in the future. The envelope containing the Apportionment Report will be taken to the U.S. Post Office and mailed directly from there.

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

FOR CALIFORNIA DEPARTMENT OF EDUCATION USE ONLY

Staff Name (type or print): Staff Signature: Date:

Unit Manager (type or print): Unit Manager Signature: Date:

Deputy (type or print): Deputy Signature: Date:
This report was compiled from information taken from the California High School Exit Examination answer documents submitted for scoring examinations administered during the fiscal year July 1, 2009 through June 30, 2010. All students are reported in the grade indicated on the answer document (answer documents indicating Post-Grade Twelve Students does not change the grade level). To receive apportionment funds, the superintendent or charter school administrator must verify the accuracy, sign, date, and return this report to the California Department of Education (CDE) postmarked by December 31, 2010. Reports postmarked later than December 31, 2010, must be accompanied by a waiver request as provided for by California Education Code Section 33050. The CDE cannot release apportionment payments for late reports without a State Board of Education approved waiver.

Title 5, Section 11517.5 of the California Code of Regulations specifies that each local educational agency (LEA) shall receive an Apportionment Information Report that shall include the number of pupils assessed with the CELDT as indicated by the number of answer documents submitted to and scored by the test contractor for each administration (July 1 through June 30). The superintendent of each school district must certify the accuracy of the apportionment information and submit the certified report to the California Department of Education, postmarked by December 31. If postmarked after December 31, the Apportionment Information Report must be accompanied by the State Testing Apportionment Information Report Waiver request as provided by California Education Code (EC) Section 33050. The amount of funding to be apportioned to the school district for the tests shall be calculated by multiplying the amount per administration established by the State Board of Education (SBE) to enable school districts to meet the requirement of EC Section 60851 by the number of pupils in the school district assessed with the CELDT during the previous fiscal year. Apportionment payments will be processed upon receipt of certified reports. Return the form by U.S. mail to the address above. Faxed reports will not be processed for payment. Keep a copy for your records.

ENTERED JAN 07 2011
CALIFORNIA STATE BOARD OF EDUCATION
SEPTEMBER 2011 AGENDA

☐ General Waiver

SUBJECT
Request by four local educational agencies to waive the State Testing Apportionment Information Report deadline of December 31 in the California Code of Regulations, Title 5, Section 11517.5(b)(1)(A) regarding the California English Language Development Test; or Title 5, Section 1225(b)(2)(A) regarding the California High School Exit Examination; or Title 5, Section 862(c)(2)(A) regarding the Standardized Testing and Reporting Program.

Waiver Numbers: 8-6-2011, 17-6-2011, 19-5-2011, and 22-5-2011

RECOMMENDATION

☐ Approval □ Approval with conditions □ Denial

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The State Board of Education (SBE) has approved all waiver requests since the deadline for submission of the State Testing Apportionment Information Reports was added to the California Code of Regulations (CCR), and the SBE Waiver Policy 08-#: State Testing Apportionment Informational Report Deadline (available at: http://www.cde.ca.gov/re/lr/wr/documents/statetesting.doc).

SUMMARY OF KEY ISSUES

The regulations for the State Testing Apportionment Information Report were amended in 2005 to include an annual deadline of December 31 for the return of the Apportionment Information Report for prior year testing for the Standardized Testing and Reporting (STAR) Program, the California High School Exit Examination (CAHSEE), and the California English Language Development Test (CELDT). The California Department of Education (CDE) sent letters in September 2005, announcing the new deadline in regulations to every LEA. This deadline was enacted to speed the process of final reimbursement of testing costs to the LEAs.

The LEAs filing for this waiver request missed the 2008-09 or the 2009-10 fiscal year deadline for requesting reimbursement due to the LEA closure during the holiday season or because the staff responsible for this report did not receive the report until after the December 31 deadline. A few LEAs reported that they were undergoing changes in administration and new
staff did not realize that there was a December 31 deadline for submitting this report. One LEA reported that their office had moved and their mail was misplaced. Staff verified that these LEAs needed the waiver and each LEA had submitted its report after the deadline.

These LEAs are now all aware of this important change in the timeline and understand that they must submit their reports to the Assessment and Accountability Division for reimbursement. Therefore, the CDE recommends the approval of these waiver requests as required by regulation prior to final reimbursement.

Because these are general waivers, if the SBE decides to deny a waiver, it must cite one of the seven reasons in EC 33051(a). The state board shall approve any and all requests for waivers except in those cases where the board specifically finds any of the following: (1) The educational needs of the pupils are not adequately addressed. (2) The waiver affects a program that requires the existence of a schoolsite council and the schoolsite council did not approve the request. (3) The appropriate councils or advisory committees, including bilingual advisory committees, did not have an adequate opportunity to review the request and the request did not include a written summary of any objections to the request by the councils or advisory committees. (4) Pupil or school personnel protections are jeopardized. (5) Guarantees of parental involvement are jeopardized. (6) The request would substantially increase state costs. (7) The exclusive representative of employees, if any, as provided in Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, was not a participant in the development of the waiver.

Authority for Waiver: EC Section 33050

Period of request: December 31, 2009, to September 8, 2011

Local board approval date(s): various dates

Public hearing held on date(s): various dates

Bargaining unit(s) consulted on date(s): various dates

Name of bargaining unit/representative(s) consulted: various

Position of bargaining unit(s) (choose only one):
☒ Neutral ☐ Support ☐ Oppose (various)

Comments (if appropriate):

Public hearing advertised by (choose one or more):
☐ posting in a newspaper ☒ posting at each school ☐ Web site, post office, and board agenda

Objections raised (choose one): ☒ None ☐ Objections are as follows:

Date(s) consulted: various dates
FISCAL ANALYSIS (AS APPROPRIATE)

If the waivers are approved, these LEAs will be reimbursed for the costs of the STAR, CAHSEE, or the CELDT for the 2008-09 and 2009-10 school years. Total costs are indicated on Attachment 1.

<td></td>
<td></td>
</tr>
</tbody>
</table>
| The position(s) of the bargaining unit(s): | [x] Neutral  
- [x] Support  
- [ ] Oppose (Please specify why) |

3. **Public hearing requirement:** A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

**How was the required public hearing advertised?**  
- [ ] Notice in a newspaper  
- [x] Notice posted at each school  
- [ ] Other: (Please specify)

4. **Desired outcome/rationale.** State what you hope to accomplish with the waiver. Describe briefly the circumstances that caused you to miss the apportionment deadline(s). (If more space is needed, please attach additional pages.)

CUSD would like to reclaim the apportionments for STAR and CELDT. As a result of eliminating various positions that dealt with processing apportionments, the 2010-11 STAR and the 2009-2010 and 2010-11 CELDT apportionments were overlooked.

This report was compiled from Standardized Testing and Reporting (STAR) Program multiple-choice answer documents submitted for scoring for the California Standards Tests (CSTs), California Modified Assessment (CMA), California Alternate Performance Assessment (CAPA), and Standards-based Test in Spanish (STS). Sign, date, and return this report to the CDE by December 31, 2010. Certified reports postmarked after December 31, 2010, cannot be paid without a waiver request approved by the State Board of Education.

Payment of late apportionment reports is contingent upon the availability of an appropriation for this purpose in the fiscal year in which the tests were administered.

- **CELDT** – CCR, Title 5, Section 11517.5(b)(1)(A) …postmarked by December 31…

2. Collective bargaining unit information. Does the district have any employee bargaining units? ___ No _X_ Yes If yes, please complete required information below. This requirement can be achieved with a telephone call. It is vital to complete this section as not consulting the bargaining units is a reason for denial of a general waiver request.

Bargaining unit(s) consulted on date(s):
- DJUHSD Southern Siskiyou Co. Teachers Assoc./CTA/NEA
- Dunsmuir Classified Employee Assoc.

Name of bargaining unit and representative(s) consulted:
- Danelle Cascarina, President (Classified)
- Greg Sprull, President, (CTA)

The position(s) of the bargaining unit(s): _X_ Neutral ___ Support ___ Oppose (Please specify why)

3. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

How was the required public hearing advertised?
- Notice in a newspaper _X_ Notice posted at each school _X_ Other: (Please specify) Web Site

4. Describe briefly the circumstances that caused you to miss the apportionment deadline(s). (If more space is needed, please attach additional pages.) Report lost.

5. Describe guidelines that have been put into place for staff so that this deadline will not be missed in the future. Placed on calendar with follow-up required.

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Waiver Office, California Department of Education
1430 N Street, Suite 5602
Sacramento, CA 95814

Send electronic copy in Word and back-up material to: waiver@cde.ca.gov

Local educational agency: Ballico-Cressey School District
Contact name and recipient of approval/denial notice: Karen Naldi
Contact person’s e-mail address: knaldi@ballico.k12.ca.us

Address: 11818 W. Gregg St. Ballico, CA 95303
Phone (and extension, if necessary): 209-632-5371
Fax number:

Period of request: From 12/31/11 to 3/30/11
Local board approval date: 3/10/11
Date of public hearing: 3/10/11

LEGAL CRITERIA

1. Under the general waiver authority of Education Code 33050-33053, the California Code of Regulations (CCR) section(s) to be waived (check one):
   - X_ STAR – CCR, Title 5, Section 862(c)(2)(A) …postmarked by December 31…
   - CAHSEE – CCR, Title 5, Section 1225(b)(2)(A) …postmarked by December 31…
   - CELDT – CCR, Title 5, Section 11517.5(b)(1)(A) …postmarked by December 31…

2. Collective bargaining unit information. Does the district have any employee bargaining units? ___ No ___ Yes If yes, please complete required information below. This requirement can be achieved with a telephone call. It is vital to complete this section as not consulting the bargaining units is a reason for denial of a general waiver request.

   Bargaining unit(s) consulted on date(s): 3/30/11  Ballico-Cressey
   Name of bargaining unit and representative(s) consulted: District Teacher’s Association: Patricia Magneson, President
   The position(s) of the bargaining unit(s): __X_ Neutral ___ Support ___ Oppose (Please specify why) per B. Ballenger

3. Public hearing requirement: A public hearing is not simply a board meeting, but a properly noticed public hearing held during a board meeting at which time the public may testify on the waiver proposal. Distribution of local board agenda does not constitute notice of a public hearing. Acceptable ways to advertise include: (1) print a notice that includes the time, date, location, and subject of the hearing in a newspaper of general circulation; or (2) in small school districts, post a formal notice at each school and three public places in the district.

   How was the required public hearing advertised?
   - Notice in a newspaper
   - X_ Notice posted at each school
   - X_ Other: (Please specify) Ballico post office, Cressey post office, BCSD website

4. Describe briefly the circumstances that caused you to miss the apportionment deadline(s). (If more space is needed, please attach additional pages.) Describe guidelines that have been put into place for staff so that this deadline will not be missed in the future.

   Because of a change in administration that occurred during the month of December 2010, the deadline was missed. This will not be a problem in the future as no future changes in administration are anticipated.

District or County Certification – I hereby certify that the information provided on this application is correct and complete.

Apportionment Information Report
2009-10 Report

County Name: MARIN
County Code: 21
Charter Number: 0000

District Name: Marin County Office of Education
District Code: 10215

Title 5, Section 11517.5 of the California Code of Regulations specifies that each local educational agency (LEA) shall receive an Apportionment Information Report that shall include the number of pupils assessed with the CELDT as indicated by the number of answer documents submitted to and scored by the test contractor for each administration (July 1 through June 30). The superintendent of each school district must certify the accuracy of the apportionment information and submit the certified report to the California Department of Education, postmarked by December 31. If postmarked after December 31, the Apportionment Information Report must be accompanied by the State Testing Apportionment Information Report Waiver request as provided by California Education Code (EC) Section 33050. The amount of funding to be apportioned to the school district for the tests shall be calculated by multiplying the amount per administration established by the State Board of Education (SBE) to enable school districts to meet the requirement of EC Section 60851 by the number of pupils in the school district assessed with the CELDT during the previous fiscal year. Apportionment payments will be processed upon receipt of certified reports. Return the form by U.S. mail to the address above. Faxed reports will not be processed for payment. Keep a copy for your records.

ITEM 17
CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

SUBJECT
Charter Renewal: Adopt Proposed California Code of Regulations, Title 5, sections 11966.4, 11966.5, 11966.6, 11966.7, 11967, and 11967.5.1.

RECOMMENDATION

The California Department of Education (CDE) recommends the State Board of Education (SBE) take the following actions:

- Approve the Final Statement of Reasons;
- Adopt the proposed regulations;
- Direct the CDE to submit the rulemaking file to the Office of Administrative Law (OAL) for approval; and
- Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

At its December 2001 meeting, the SBE approved regulations for the Criteria for the Review and Approval of Charter School Petitions by the SBE.

At its January 2010 meeting, the SBE engaged in a discussion to address its desire to have regulatory language that addressed both the renewal of charter schools and charter school appeals.

At its November 2010 meeting, the SBE approved the commencement of the rulemaking process for this regulations package. The 45-day public comment period began on November 27, 2010, and closed on January 11, 2011.
SUMMARY OF PREVIOUS (Cont.)

comment period began on March 12, 2011 and ended on March 28, 2011. The second 15-day comment period began on May 12, 2011 and ended on May 31, 2011. The third 15-day comment period began July 22, 2011 and ended on August 2, 2011. This agenda item responds to the public comments received and does not make additional changes.

SUMMARY OF KEY ISSUES

California Education Code (EC) sections 47607(a) and 47607(b) provide the process and criteria for renewal of a school’s charter by its chartering authority.

EC Section 47605(k)(3) provides the process for renewal of a school’s charter when the SBE had originally authorized the charter on appeal.

EC Section 47607.5 permits a charter school to appeal a non-renewal decision by the school district governing board or the county board of education as the chartering authority.

Through this rulemaking process, the SBE proposes to amend Division 1 Chapter 11 Subchapter 19, Article 2 of the California Code of Regulations, Title 5, by adding sections 11966.4, 11966.5, 11966.6, and 11966.7 and amending Section 11967 and 11967.5.1. The proposed regulations clarify and make specific the provisions of EC sections 47605, 47607, and 47607.5 regarding the criteria, process, and timelines for renewing a school’s charter, and the appeal process up to and including an appeal to the SBE.

Proposed Section 11966.4 includes three new provisions that are intended to:

- Detail the information that a petition for renewal must include to be considered complete.
- Set forth the criteria the governing board of a school district must use in evaluating a charter school’s petition for renewal.
- Identify the time period in which the governing board of a school district, as the chartering authority, must act on a petition for renewal before the petition is considered approved.

Proposed Section 11966.5 includes four provisions that are intended to:

- Specify the time period a charter school has to submit a petition for renewal to the county board of education after the petition is denied by the governing board of the school district.
• Detail the information that a petition for renewal to the county board of education, as either the charting authority or the appellate body, must include to be considered complete.

• Specify the grounds on which the county board of education may deny a petition for renewal.

• Identify the time period in which the county board of education has to act on an appeal before the charter school can submit a petition for renewal to the SBE due to inaction by the county board of education.

Proposed Section 11966.6 includes four provisions that are intended to:

• Specify the time period a charter school has to submit a petition for renewal to the SBE after it is denied by the county board of education.

• Detail the information that a petition for renewal must include to be considered complete.

• Specify the time period by which the SBE shall consider an action item to grant or deny the petition for renewal.

• Identify the grounds on which the SBE may deny a petition for renewal.

Proposed Section 11966.7 includes a provision that is intended to:

• Detail a charter school's eligibility to receive class size reduction funds when a school is not renewed by its charting authority but is renewed on appeal by the county office of education or the SBE and when a charter school initially approved by the SBE on appeal is subsequently renewed by the district that previously had denied the charter.

Changes to Section 11967 are proposed to ensure consistency with current statute and with the reasoning used throughout the other sections, which specify that an LEA is required to act on a petition, whether for renewal or establishment, while this obligation to act is not similarly imposed on the County Board or the SBE.

Changes to Section 11967.5.1 are proposed to ensure grammatical consistency. In addition, Section 11967.5.1(b)(3) is added to identify “an unsound educational program” as not meeting the standards for renewal pursuant to EC Section 47607(b) or not meeting the measurable pupil outcomes described in its charter.
SUMMARY OF KEY ISSUES (Cont.)

During the 45-day public comment period, the CDE received three written comments addressing the proposed regulatory package. The comments addressed a number of concerns and suggestions, including the following:

- The proposed timelines for completing the charter renewal process.
- The scope of review for a petition for charter renewal.
- Continuation of funding for charter schools that are renewed on appeal by a different authorizer.
- Application of current SBE regulations governing the criteria for the review and approval of charter school petitions and charter school renewal petitions to district governing boards and county boards of education.
- The automatic renewal provision in proposed Section 11966.4 may exceed SBE authority.
- Other minor, clarifying amendments.

The CDE recommended accepting a majority of the comments and revised the regulations.

During the 15-day public comment period, the CDE received five written comments addressing the proposed regulatory package. The comments addressed a number of concerns and suggestions, including the following:

- Clarification regarding submission and receipt of a charter petition for renewal by a county board.
- Renewal criteria to be used by a county board of education.
- Application of current SBE regulations governing the criteria for the review and approval of charter school petitions and charter school renewal petition to district and county boards of education.
- The proposed timelines for completing the charter renewal process.
- The automatic renewal provision in proposed Section 11966.4 may exceed SBE authority.
- Other minor, clarifying amendments.
The CDE recommended accepting a majority of the comments and revised the regulations.

During the second 15-day public comment period, the CDE received two written comments addressing the proposed regulations. The comments addressed a number of concerns and suggestions, including the following:

- The automatic renewal provision in proposed Section 11966.4
- Removal of current SBE regulations governing the criteria for the review and approval of charter school petitions and charter school renewal petition from being applicable to district and county boards of education.
- The removal of the signature requirement for renewal petitions.

While the CDE did not make changes to these proposed regulations in the response to these comments, the CDE amended sections 11966.5 and 11967 to ensure consistency with current statute, as reflected in Attachment 2.

During the third 15-day comment period, the CDE received three written comments. The comments included a number of concerns and suggestions, including the following:

- The automatic renewal provision in proposed Section 11966.4
- The removal of proposed changes to Section 11967

The CDE did not make changes to the proposed regulations in response to these comments.

**FISCAL ANALYSIS (AS APPROPRIATE)**

The Fiscal Impact Statement is attached which states that continuing eligibility to Class Size Reduction (CSR) funding would restore unknown and potentially significant state costs, depending on the number of schools that had previously participated in the CSR program and had lost funding due to being renewed by a different authorizer.

**ATTACHMENT(S)**

Attachment 1: Final Statement of Reasons (15 Pages)

Attachment 2: Proposed Regulations (18 Pages)

Attachment 3: Relevant Education Code and Regulations (14 Pages)

Attachment 4: Fiscal Impact Statement (4 Pages)
FINAL STATEMENT OF REASONS
CHARTER RENEWAL AND APPEAL

UPDATE OF INITIAL STATEMENT OF REASONS

SUMMARY AND RESPONSE TO COMMENTS RECEIVED DURING THE INITIAL NOTICE PERIOD OF NOVEMBER 27, 2010, THROUGH JANUARY 11, 2011, INCLUSIVE.

The originally proposed text was made available for public comment for at least 45 days from November 27, 2010, through January 11, 2011. Three written comment letters were received during that period. A public hearing was held at 9:00 a.m. on January 11, 2011, at the California Department of Education (CDE). There were no comments made at the public hearing. Pursuant to California Government Code sections 11346.9(a)(3) and (a)(5), the CDE, on behalf of the State Board of Education (SBE), has summarized and responded to the written comments as follows:

COLIN MILLER, CALIFORNIA CHARTER SCHOOLS ASSOCIATION (CCSA)
Comment A1: Section 11966.5(d). Mr. Miller states that there is a significant concern over the timelines established in the regulations for renewal appeals and the regulations must be amended to provide an opportunity for a school to reach the SBE prior to the end of the fiscal year. He proposes that the timeline for a county board of education to act be shortened from 90 to 60 days.
Accept: The CDE accepts the comment and amended the timeline for a county board to act on a petition for renewal to 60 days, with a provision that the timeline may be extended by an additional 30 days only by written mutual agreement.

Comment A2: Section 11966(a). Mr. Miller proposes the timeline for a charter school to submit a petition for renewal to the SBE be shortened from 60 to 30 days and 150 to 120 days and retaining the SBE’s discretion to act on a petition for charter renewal that is submitted past the required deadline in the proposed regulations.
Accept: The timelines are deleted because they are redundant of Education Code section 47605(j)(4).

Comment A3: Section 11966.6(d). Mr. Miller proposes the timeline for the SBE to act be shortened from 120 to 90 days.
Accept: The timelines are deleted because they are redundant of Education Code section 47605(j)(4).

Comment A4: Sections 11966.4(a) and (a)(2), 11966.5(b) and 11966.6(b): Mr. Miller requests that references to the “completeness” of a request for charter renewal be removed from the proposed regulations and be replaced with language regarding the “receipt” of materials by a governing board. He notes that this change will prevent unnecessary delays by a governing board that could repeatedly request more information from a charter school by deeming a petition “incomplete” and preventing the timeline “clock” from starting.
Accept: The CDE accepts the comment and revised the sections.
Comment A5: Section 11966.4(a)(2): Mr. Miller suggests that the review of a charter renewal petition be limited only to elements of the petition that must be revised due to changes in the law, or sections the petitioner has chosen to revise due to programmatic or operation changes. He states that this change will streamline the review process, assist the governing board in focusing on the school’s performance rather than the content of the written charter, and notes that because the governing board has already previously approved the charter elements of the charter petition that are not changing need not be reviewed.

Reject: Education Code section 47607(a)(2) states, “Renewals and material revisions of charters are governed by the standards and criteria in Section 47605, and shall include, but not be limited to, a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed.” Education Code section 47605 sets out the criteria for review of a charter petition, including the 16 required elements of a charter petition. It is the CDE’s opinion that Education Code section 47607 does not allow a limited review of a charter petition as suggested by Mr. Miller, but requires a governing board to evaluate charter renewal petitions under a two-prong analysis: (1) whether the charter school meets at least one of the charter renewal criteria under Education Code section 47607(b), and (2) whether the charter petition meets the standards as required by Education Code section 47605.

Comment A6: Sections 11966.4(b)(1), 11966.5(c)(1), and 11966.6(c)(1): Mr. Miller suggests an amendment to add “along with future plans for improvement, if any,” to the end of these proposed sections. He states that this language will clarify that although a school may have had problems in the past, the authorizer should evaluate a school’s plans for improvement in the future when reviewing a charter renewal petition.
Accept: The CDE accepts the comment and revised the sections.

Comment A7: Section 11966.7: Mr. Miller suggests broadening the language in this proposed section to address all funding and accountability issues for “continuing” charter schools beyond just class size reduction funding.
Reject: Mr. Miller’s suggestion to address all issues that impact charter schools that are deemed “new” or “continuing” by the CDE is an extremely complex matter that goes beyond the singular intent of proposed section 11966.7, which is to ensure class size reduction funding for charter schools that are deemed eligible under the proposed regulations.

SHERRY SKELLY GRIFFITH, ASSOCIATION OF CALIFORNIA SCHOOL ADMINISTRATORS (ACSA)
Comment B1: Section 11967.5.1: Ms. Griffith states the language in this section should be applied at the county and district board level as well as the SBE level, and requests that the same language be repeated under proposed sections 11966.4 and 11966.5.
Accept: The CDE accepts the comment and revised section 11967.5.1.
Comment B2: Section 11966.4(c): Ms. Griffith states the proposed section exceeds the authority of the SBE in requiring for automatic renewal if a local governing board fails to act within 60 days, and cites case law that reinforces that the statute is directory and not mandatory (e.g., Shapiro et al v. Los Angeles Unified School District, Case No. BS 121469 citing Board of Education Sacramento City Unified School District v. Sacramento County Board of Education (2001) 85 Cal.App.4th 1321, 1329). Ms. Griffith requests the automatic renewal language be removed from the proposed regulations.  
Reject: Education Code section section 47605(b) expressly requires the governing board of the school district to “either grant or deny the charter.” Education Code section 47605(b) further requires local district governing boards to make written factual findings as a condition of denying a petition for the establishment and/or renewal of a charter school. In the absence of such written factual findings, the governing board is prohibited from denying the charter. Because the governing board must either grant or deny the charter, the absence of a decision to deny is thus interpreted as the only remaining option available to the governing board granting the charter. This is in stark contrast to the permissive language governing the actions of county boards of education and the SBE. In these instances the county boards of education and the SBE are not directed to act, and in fact, inactions by county boards of education and the SBE are specifically contemplated by Education Code section 47605(j)(4). The difference in these statutory requirements are consistent with intent of the charter schools Act which seeks to make charter schools an integral part of California’s educational system, and the emphasis on local authorization (see for example Education Code sections 47605.8(b) and 47605(k)(3)).

The intent of the Legislature in requiring the local governing board to make a written factual finding in order to deny a petition is also evidenced by looking at revisions to Education Code section 47605(b) since its original adoption in 1992. Originally the language was permissive, allowing a district to grant a petition if it met the stated criteria. In 1993 (AB 544), the Legislature emphasized the intent to encourage the establishment of charter schools by local entities including parents, teachers, and community members. By including this intent in the language of Education Code section 47605(b) the amendment establishing a presumption of approval by the governing board is well grounded.

In no way do these regulations limit a local governing board’s capacity or authority ot make a determination based on their evaluation of a petition. These regulations make clear the legislature’s intent to presume approval of charter schools unless the local governing board makes a written factual finding to the contrary.

STEPHANIE MEDRANO FARLAND, CALIFORNIA SCHOOL BOARDS ASSOCIATION (CSBA)

Comment C1: Section 11967.5.1: Ms. Farland states the “criteria for renewal should be consistent at every level of the renewal process.” She requests that the same language in section 11967.5.1 regarding the criteria used by the State Board in determining whether a charter school meets the requirements for renewal be repeated in proposed sections 11966.4 and 11966.5 to apply to district and county boards.
Accept: The CDE accepts the comment and amended section 11967.5.1.

Comment C2: Section 11966.4(c): Ms. Farland also requests the automatic renewal language be removed from the proposed regulations. She states that the governing statute does not call for automatic renewal if the governing board fails to act within a certain time and the proposed language goes beyond the scope of the State Board. Ms. Farland cites case law to support this claim (Shapiro et al v. Los Angeles Unified School District, Case No. BS 121469 citing Board of Education Sacramento City Unified School District v. Sacramento County Board of Education (2001) 85 Cal.App.4th 1321, 1329).

Reject: See response to Comment B2.

AFTER THE 45-DAY COMMENT PERIOD, THE FOLLOWING CHANGES WERE MADE TO THE PROPOSED TEXT OF THE REGULATIONS AND SENT OUT FOR A 15-DAY COMMENT PERIOD.

SECTION 11966.4:

Subdivision (a) is amended to provide greater clarity regarding the timeline for review of a charter renewal petition. The revised language makes clear that the timeline is initiated upon receipt of the renewal petition, and removes reference to the “completeness” of a renewal petition here and throughout the revised regulations. This is necessary to avoid disagreement between a charter school and district governing board about a renewal petition’s “completeness.”

Subdivision (b)(1) is amended to require district governing boards to also consider a charter school’s future plans for improvement if the charter school has presented such plans to the district governing board. This is necessary to clarify that although a charter school may have had a negative finding or occurrence in its past charter term, a charter school may have a corrective action plan for improvement in the future, which the district governing board shall review when completing its comprehensive review of the school’s petition for renewal.

Subdivision (c) is amended to clarify that the 60-day timeline is initiated upon the district governing board’s receipt of the petition for renewal. This is necessary to provide greater clarity and certainty for charter schools and governing boards about the timeline because it is easier to determine the date of the governing board’s receipt of a petition for renewal (i.e., date stamp, etc.) than to determine the submission date by the charter school.

Subdivision (c)(1) is amended to clarify that the governing board is the “district governing board.” This amendment also clarifies that the 30-day extension may only be granted by written mutual agreement and no other method of agreement.

SECTION 11966.5:

Subdivision (a) is amended to provide clarity about the action taken by the governing
board, which is to adopt written factual findings and take action to deny the renewal. The revised language more closely aligns with board action. The subdivision is also amended to clarify that the 30-day extension may only be granted by written mutual agreement and no other method of agreement.

Subdivision (b) is amended to provide greater clarity regarding the timeline for review of a charter renewal petition. The revised language makes clear that the timeline is initiated upon receipt of the renewal petition, and removes reference to the “completeness” of a renewal petition. This is necessary to avoid disagreement between a charter school and county board of education about a renewal petition’s “completeness.”

Subdivision (b)(2) is amended to remove reference to the “completeness” of a renewal petition to avoid disagreement between a charter school and a county board of education about a renewal petition’s “completeness.” The subdivision also adds makes clear that the copy of charter petition that shall be submitted by the charter school is its renewal charter petition.

Subdivision (c)(1) is amended to require county boards of education to also consider a charter school’s future plans for improvement if the charter school has presented such plans to the board. This is necessary to clarify that although a charter school may have had a negative finding or occurrence in its past charter term, a charter school may have a corrective action plan for improvement in the future, which the county board of education shall review when completing its comprehensive review of the school’s petition for renewal.

Subdivision (d) is amended to clarify that the timeline is initiated upon the county board of education’s receipt of the petition for renewal. This is necessary to provide greater clarity and certainty for charter schools and governing boards about the timeline because it is easier to determine the date of the governing board’s receipt of a petition for renewal (i.e., date stamp, etc.) than to determine the submission date by the charter school. The subdivision is also amended to shorten the timeline from 90 to 60 days for the county board of education’s review, with the option to extend this date by an additional 30 days. This timeline and option for extension aligns with existing regulations in the California Code of Regulations, Title 5, section 11967(d), which give the county board of education 60 days to review an initial petition for the establishment of a charter school. This amendment is necessary to ensure an expedient review of a charter renewal petition, provide an improved chance that any renewal petition will be resolved by the end of the school year, allow parents, students, and schools to know the fate of their school before the end of the school year, and to conform with existing regulations.

Subdivision (e) is added to clarify existing statute under Education Code section 47607, which governs the renewal of a charter school, and Education Code section 47605.6, which governs the establishment of a countywide charter school. This subdivision makes clear that if a countywide charter school’s petition for renewal is denied by its authorizer (a county board of education), the school has no right to appeal the denial to
the SBE. This is consistent with Education Code section 47605.6(k), which states, “If a
county board of education denies a petition, the petitioner may not elect to submit the
petition for the establishment of a charter school to the State Board of Education.” The
new subdivision conforms to existing statute by not allowing the SBE to become the
authorizer of a countywide charter school upon establishment, nor upon renewal.

SECTION 11966.6:

The title of section 11966.6 is amended to read: § 11966.6. Charter Petitions That
Have Not Been Renewed Locally – Submission to State Board of Education (SBE).
The word “locally” was added to clarify that charter renewal petitions submitted to the
SBE for consideration are those that were not approved at the local level.

Subdivision (a) is amended to allow the SBE to consider a petition for renewal at any
time. This is necessary to avoid confusing timelines and allowing for the administrative
procedures in having the SBE consider an action item. Additionally, such timelines
would only serve to confuse petitioners, as Education Code section 47605(j)(4) already
allows for an end to the administrative process.

Subdivision (b) is amended to clarify that the timeline is initiated upon the SBE’s receipt
of the petition for renewal. This is necessary to provide greater clarity and certainty for
charter schools and the SBE about the timeline because it is easier to determine the
date of the SBE’s receipt of a petition for renewal (i.e., date stamp, etc.) than to
determine the submission date by the charter school.

Subdivision (b)(2) is amended to remove reference to the “completeness” of a renewal
petition to avoid disagreement between a charter school and the SBE about a renewal
petition’s “completeness.” The subdivision also adds makes clear that the copy of
charter petition that shall be submitted by the charter school is its renewal charter
petition.

Subdivision (b)(3) is amended to remove reference to the 120-day timeline because the
reference is unnecessary and the amendment conforms with the revised timelines in
proposed section 11966.6(a).

Subdivision (c)(1) is amended to require the SBE to also consider a charter school’s
future plans for improvement if the charter school has presented such plans to the
board. This is necessary to clarify that although a charter school may have had a
negative finding or occurrence in its past charter term, a charter school may have a
corrective action plan for improvement in the future, which the SBE shall review when
completing its comprehensive review of the school’s petition for renewal.

Subdivision (d) is deleted to provide the SBE with maximum flexibility in scheduling and
hearing charter renewal petitions. Additionally, such timelines would only serve to
confuse petitioners, as Education Code section 47605(j)(4) already allows for an end to
the administrative process.
SECTION 11967.5.1 is amended to read:

The title of this section is amended to clarify that the regulations apply to the review of charter renewal petitions as well as initial charter petitions, and the section applies to the review of charter petitions and renewal petitions by district governing boards and county boards of education as well as the SBE. This is necessary to clarify that the existing regulations, which govern the review of a charter petition as required by Education Code section 47605, also extend to the review of charter renewal petitions as required by Education Code section 47607. Further, the amendment applies the criteria specified in the existing regulations to the review of charter petitions by district governing boards and county boards of education to ensure the criteria for approval of a charter petition (initial and renewal) are the same at every level of review, from the local level up to and including the SBE. This is necessary to ensure the consistency of the review process and provide greater clarity and guidance for district governing boards and county boards of education.

SECTIONS 11967.5.1(a), (b)(1), (b)(2), (c)(1), (c)(2), (d), (f), (f)(1)(C), (f)(9)(C), (f)(13)(C), and (f)(14)(C):
These subdivisions include conforming amendments that are necessary to apply section 11967.5.1 to district governing boards and county boards of education by removing reference to the SBE, as applicable, and other minor, technical amendments.

SUMMARY AND RESPONSE TO COMMENTS RECEIVED DURING THE 15-DAY COMMENT PERIOD OF MARCH 12, 2011, THROUGH MARCH 28, 2011, INCLUSIVE.

JAN ISENBERG, LOS ANGELES COUNTY OFFICE OF EDUCATION
Comment A1: Sections 11966.4(a) and 11966.5(b): Ms. Isenberg states that the language “received when submitted” is confusing because the two actions do not necessarily occur at the same time. She states that it is possible for a document submitted by US or electronic mail to never be received and/or received several days subsequent to submission. Ms. Isenberg suggests revisions to this language.
Accept: The CDE revised sections 11966.4(a) and 11966.5(b) to provide the clarity requested.

Comment A2: Section 11966.5(a): Ms. Isenberg states that the phrase “a petition for renewal” does not preclude a charter from submitting to the county board a petition that is different from the one submitted to the school district.
Accept: No response required. This comment does not pertain to the changes proposed during the 15-day comment period.
Comment A3: Section 11966.5(b): Ms. Isenberg suggests minor changes to the language to add clarity.
Response: No response required. This comment does not pertain to the changes proposed during the 15-day comment period.

Comment A4: Section 11966.5(b)(2): Ms. Isenberg indicates that the phrase “how the charter school has met” refers to past practice by the school as an entity and does not comply with the requirement that charter petitions reflect changes to law that have occurred since the school was last authorized.
Response: No response required. This comment does not pertain to the changes proposed during the 15-day comment period.

Comment A5: Section 11966.5(d): Ms. Isenberg states that 60 days is insufficient time to review a petition.
Reject: This timeline and option for extension aligns with existing statute (Education Code section 47605(b)) as well as existing regulations, section 11967(d), which gives the county board of education 60 days to review an initial petition, on appeal from a local board, for the establishment of a charter school. This amendment is necessary to ensure an expedient review of a charter renewal petition, provide an improved chance that any renewal petition will be resolved by the end of the school year, allow parents, students, and schools to know the fate of their school before the end of the school year, and to conform with existing regulations.

Comment A6: Section 11966.5(d): Ms. Isenberg states that there is a need for regulatory and statutory language to clarify that a renewal petition for a countywide charter school is reviewed under the same criteria as it was originally reviewed and authorized.
Accept in part/Reject in part: The CDE revised section 11966.5(c)(2) to incorporate the proposed changes. The CDE cannot make changes to the Education Code.

STEPHANIE MEDRANO FARLAND, CALIFORNIA SCHOOL BOARDS ASSOCIATION (CSBA)
Comment B1: Section 11967.5.1: Ms. Farland states that during the 45-day comment period, she recommended that the language in section 11967.5.1, the criteria for SBE approval of a charter, be repeated in the renewal regulations to ensure that the renewal process is consistent at every level. However, the current proposed language in section 11967.5.1, is not limited to the renewal process, and is instead, also applied to the initial approval of petitions. She requests that the current language proposed in section 11967.5.1 be clarified to limit the application of these criteria to the charter renewal process, only.
Accept: The CDE agrees that the initial charter approval process is not within the scope of these renewal regulations. The CDE will remove language pertaining to initial charter approval from section 11967.5.1.

Comment B2: Section 11966.4(c): Ms. Farland also requests the automatic renewal language be removed from the proposed regulations. She states that the governing
statute does not call for automatic renewal if the governing board fails to act within a certain time and the proposed language goes beyond the scope of the State Board. Ms. Farland cites case law to support this claim (Shapiro et al v. Los Angeles Unified School District, Case No. BS121469 citing Board of Education Sacramento City Unified School District v. Sacramento County Board of Education (2001) 85 Cal.App.4th 1321, 1329).

Response: No response required. This comment does not pertain to the changes proposed during the 15-day comment period.

**COLIN MILLER, CALIFORNIA CHARTER SCHOOLS ASSOCIATION (CCSA)**

Comment C1: Section 11966.6: Mr. Miller states that he continues to be concerned that the timelines established in the regulations for renewal appeals takes too long. He appreciates the prior revisions made to address his concerns with the timelines. However, he states that the complete elimination of any timeline for the CDE or the SBE to consider or act on renewal appeals makes the local timelines less effective. He recommends that the regulations be revised to assure that the SBE consider any renewal appeal no later than 90 days after the request for the appeal has been received.

Reject: Because the SBE does meet as often as local boards meet, the SBE should not be compelled to take action within a given timeline. In addition, the SBE reserves the right to act or not act upon a petition. Further, it is current practice at the CDE that charter petitions received are acted upon immediately. Per a request by SBE Board President Michael Kirst, the CDE will begin to track and report to the SBE, the dates a petition is received and subsequently acted upon by the SBE. Additionally, such timelines would only serve to confuse petitioners, as Education Code section 47605(j)(4) already allows for an end to the administrative process.

Comment C2: Section 11967.5.1: Mr. Miller states that section 11967.5.1, the criteria for SBE approval of charter petitions, was enacted for the explicit purpose of SBE review, and was not initially contemplated to apply to district and county boards. He states that school district and county boards have been authorizing charter schools for years without any state imposed conditions or criteria guiding that process. Mr. Miller states that there is no basis in law or any compelling reason at this time, to undermine local discretion and authority to impose SBE criteria on local authorizers. He states that local board who wish to apply SBE criteria may already do so at their discretion. Mr. Miller recommends deleting any reference to district and county boards in section 11967.5.1.

Accept: The CDE agrees that the initial charter approval process is not within the scope of these renewal regulations. The CDE will remove the SBE’s criteria for the review and approval of charter school petitions from application to district and county boards of education. In addition, in order to preserve consistency in charter petition review, at both initial submission and renewal, the CDE will also remove language proposing SBE criteria for the review and approval of renewal petitions to be applicable to district and county boards of education. The CDE will provide language to ensure section 11967.5.1 pertains only to the SBE.
LAURA PRESTON, ASSOCIATION OF CALIFORNIA SCHOOL ADMINISTRATORS  
Comment D1: Section 11967.5.1: Ms. Preston states that some of the language inserted into the renewal process has also been inserted into the criteria to be used for the initial approval of petitions. She believes this is beyond the scope of the regulations, however, ACSA does believe renewal should be consistent at every level.  
Accept: The CDE agrees that the initial charter approval process is not within the scope of these renewal regulations. The CDE will remove language pertaining to initial charter approval from section 11967.5.1.

Comment D2: Section 11966.4(c): Ms. Preston states the proposed language exceeds the authority of the SBE in requiring for automatic renewal if a local governing board fails to act within 60 days. Ms. Preston requests the automatic renewal language be removed from the proposed regulations.  
Response: No response required. This comment does not pertain to the changes proposed during the 15-day comment period.

ERIC PREMACK, CHARTER SCHOOLS DEVELOPMENT CENTER  
Comment E1: Section 11967.5.1. Mr. Premack states that the amendments in the 15-day notice regulations constitute a huge change not just to the immediate topic of charter renewal, but reach far beyond this topic to the original granting and review of charters at the local level by local agencies. Mr. Premack suggests deleting the words “district governing boards, county boards of education, and” of the draft and returning the references to the SBE in the remainder of this section.  
Response: No response required. Comment was received one day past the closing of the comment period.

AFTER THE 15-DAY COMMENT PERIOD, THE FOLLOWING CHANGES WERE MADE TO THE PROPOSED TEXT OF THE REGULATIONS AND SENT OUT FOR A SECOND 15-DAY COMMENT PERIOD.

General changes to regulations include replacing “board” with “SBE” throughout the regulations based on comments received during this 15-day comment period.

SECTION 11966.4

Subdivision (a) is revised to provide the clarity requested by a commenter during the 15-day public comment period.

Subdivision (b)(2) is revised to provide clarity by more closely aligning with the language of Education Code section 47605.

Subdivision (c) is revised to provide clarity about when a petition is received pursuant to Education Code section 47605.
SECTION 11966.5

Subdivision (a) is revised to provide clarity by more closely aligning with the language of Education Code section 47605.

Subdivisions (b), (b)(2) and (c)(2) are revised to provide the clarity requested by a commenter during the 15-day public comment period.

SECTION 11966.6

Subdivision (b)(3) is revised to provide clarity by more closely aligning with the language of Education Code section 47605.

SECTION 11967.5.1 is amended to remove language pertaining to initial charter approval based on comments received.

Subdivision (b)(3) is amended for clarity.

Subdivision (f)(15) is amended for clarity.

SUMMARY AND RESPONSE TO COMMENTS RECEIVED DURING THE SECOND 15-DAY COMMENT PERIOD OF MAY 12, 2011, THROUGH MAY 31, 2011, INCLUSIVE.

STEPHANIE FARLAND, CALIFORNIA SCHOOL BOARDS ASSOCIATION

Comment A1: Section 11967.5.1: Ms. Farland states that, in a previous letter, she asked that the criteria for renewal be consistent at every level of the renewal process. She requested that the same language, as that found in 11967.5.1, be applied to district and county boards. She notes that this request was initially taken and implemented but was subsequently removed during the 15-day comment period. She requests that this language be re-inserted.

Reject: The CDE initially agreed to apply the SBE’s criteria for the review and renewal of a charter petition to district and county boards with the understanding that the criteria would be applied at both initial approval and renewal, to preserve consistency in the charter petition review process. However, the during the 15-day comment period, the CDE received several statements, including one from CSBA, stating that the SBE should not regulate the initial approval process of local education boards since those criteria are outlined in statute. Consequently, to preserve consistency in the charter petition review process, the CDE removed application of section 11967.5.1 from being applicable to local boards at both initial approval and renewal. If section 11967.5.1 is to be applicable to local boards, it must be applied to both the initial approval process and the renewal process.

Comment A2: Section 11966.4(c): Ms. Farland also requests the automatic renewal language be removed from the proposed regulations. She states that the governing statute does not call for automatic renewal if the governing board fails to act within a
certain time and the proposed language goes beyond the scope of the State Board. Ms. Farland cites case law to support this claim (Shapiro et al v. Los Angeles Unified School District, Case No. BS121469 citing Board of Education Sacramento City Unified School District v. Sacramento County Board of Education (2001) 85 Cal.App.4th 1321, 1329).

Response: No response required. This comment does not pertain to the changes proposed during the second 15-day comment period.

DEVON B. LINCOLN, LOZANO SMITH ATTORNEYS AT LAW

Comment 1B: Section 11966.4(c): Mr. Lincoln states that the automatic renewal procedure exceeds the limits of current law governing charter schools by diminishing districts’ discretion and control over charter schools. Mr. Lincoln sites case law to support his claim (Wilson v. State Bd of Education (1999) 75 Cal. App.4th 1125). Mr. Lozano indicates that the Wilson court highlighted a district’s ongoing control over its charter schools and underscored the district’s ability to revoke a charter. He states that a district’s power to decide not to renew the charter is analogous to the district’s power to revoke the charter.

Response: No response required. This comment does not pertain to the changes proposed during the second 15-day comment period.

Comment 2B: Section 11967.5.1(d): Mr. Lincoln states that the proposed regulation making the signature requirement of Education Code section 47605(a) inapplicable to a petition for renewal is contrary to the governing statute.

Response: No response required. This comment does not pertain to the changes proposed during the second 15-day comment period.

AFTER THE SECOND 15-DAY COMMENT PERIOD, THE FOLLOWING CHANGES WERE MADE TO THE PROPOSED TEXT OF THE REGULATIONS AND SENT OUT FOR A THIRD 15-DAY COMMENT PERIOD.

SECTION 11966.5

Subdivision (a) is amended to remove the language “and takes action to deny the renewal” because this language confused this issue of whether the county board had to take action on the petition. The deletion clarifies that the county board is not required to act, but if it does act to deny a renewal petition it must issue written factual findings.

SECTION 11967

General changes were made throughout section 11967 to replace “State Board of Education” with “SBE” for consistency.

The title was changed to “Appeals on Petitions For The Establishment of a Charter School That Have Been Denied” to clarify that this section applies to petitions for the establishment of a charter school as opposed to petitions for renewal which are governed by sections 11966.5 and 11966.6.
Subdivision (b)(2): The intent of this section is to allow for the submission of an appeal even if the written factual findings are not available to the petitioner. This is necessary to allow the petitioner to timely meet the deadlines for submission of an appeal in accordance with (a).

Subdivision (d) was re-written to clarify that a county board of education, upon receipt of an appeal for the establishment of a charter school, need not act on the petition. However, while Education Code section 47605 specifically permits inaction by a county board of education, this language preserves a timely resolution of the petitioner’s administrative remedies in the interest of timely notifying interested parents and students of the charter school’s establishment.

Subdivision (e) is amended to clarify that the SBE has 120 days to act on a petition pursuant to Education Code section 47605(j)(4): Upon the expiration of this 120 days the denial by the local governing board is subject to judicial review. This language is necessary to ensure petitioners are aware of their ability to seek judicial review and the timeline in which the SBE must act. These amendments further clarify that the 120 day timelines begin upon the SBE’s receipt of a petition appealing the denial of the charter school. Finally, these amendments clarify that to extend the 120 day time limit, there must be written mutual agreement. This is necessary to allow the SBE the flexibility to consider petitions while preserving the interests of petitioners.

SUMMARY AND RESPONSE TO COMMENTS RECEIVED DURING THE 15-DAY COMMENT PERIOD OF JULY 22, 2011, THROUGH AUGUST 2, 2011, INCLUSIVE.

Tamara Logan, Trustee, Los Altos Elementary School District
Comment A1: Section 11966.4(c): Ms. Logan recommends this section be rewritten to allow sufficient time for a school board to negotiate the terms of a charter renewal without forcing an automatic renewal if negotiation is not complete within 60 days. She states that 60 days is not sufficient time for staff review of charter performance, resolution of missing information, and revision of a charter if needed. She recommends that the 60 day timeline be extended to 90 days. In addition, should the district not act within 90 days, she recommends that approval authority should pass to the County Office of Education instead of the district.
Response: No response required. This comment does not pertain to the changes proposed during the third 15-day comment period.

SHERRY SKELLY GRIFFITH, ACSA
Comment B1: Section 11966.4(c): Ms. Griffith states the proposed section exceeds the authority of the SBE in requiring for automatic renewal if a local governing board fails to act within 60 days. Ms. Griffith states that absence of written factual findings could be the result of delays on the part of the petitioner or lack of capacity of the LEA. The recommends that this section instead focus upon what other written findings could be provided stopping short of denial.
Response: No response required. This comment does not pertain to the changes proposed during the third 15-day comment period.
COLIN MILLER, CALIFORNIA CHARTER SCHOOLS ASSOCIATION

Comment C1: Sections 11967(d): Mr. Miller recommends rejecting the addition of edits to this section. He states that this section is not related to charter school renewals and believes that any amendment to this section is not proper in this regulation packet and at this point in the process. Mr. Miller indicates that the Administrative Procedures Act (APA) only allows adoption or amendments in regulations from that which was originally made available to the public if the change is not substantial or solely grammatical, or if the changes are sufficiently related to the original text of the proposed regulatory action. He states that some of the changes proposed do not meet this criterion. Specifically, he recommends rejecting changes to subdivision (d). He states that current regulations provide that a county board of education “shall grant or deny the charter petition.” However, the proposed changes amend current regulations to allow inaction on the part of the county board of education. Although inaction is permitted by Education Code section 47605, Mr. Miller believes this is a substantial change that should not be permitted. Mr. Miller also recommends rejecting changes to subdivision (e). He states that current regulations provide the SBE 90 days to schedule an action item to grant or deny a charter petition, and allows for an additional 30 days by agreement of the SBE and the petitioners. The proposed changes provide a 120-day timeline, with a possible 30-day extension, and also subject the decision of the governing board to judicial review. He states that although the proposed changes are permissible under the Education Code, they are substantial changes and are not related to the subject of the proposed regulations which is renewal of a charter petition.

Reject: The proposed regulations package addresses a variety of sections that deal directly and indirectly with the renewal or nonrenewal of a charter school. Section 11967, while setting forth the procedures for appealing a decision to not grant a charter, mirrors the procedures set forth for a nonrenewal. The underlying statute governing renewals and non-renewals, Education Code section 47607, references the procedures set forth in the statute governing the denial of a petition, Education Code section 47605. The Notice provided to the public on November 27, 2010, noticed a range of changes all relating to Education Code sections 47605 and 47607. All members of the public with interest in these sections, in addition to the issues surrounding charter school approval, renewal, revocation, and appeal were provided notice. The statute does not differentiate an appeals process based on one or the other. Thus, when the CDE revised the language about the appeal to a County Board or the SBE from a district non-renewal, the CDE was also left to amend the language governing the timelines of a decision to not approve an initial petition. Further, the proposed changes do not propose radical changes, only edits that bring the language in line with the appeals process set forth in sections 11966.4(c), 11966.5(d), and the proposed deletions to sections 11966.6(a) and (d). Further these edits bring the language of section 11967 in line with the reasoning used throughout the other sections, which specify that an LEA is required to act on a petition, whether for renewal or establishment, while this obligation to act is not similarly imposed on the County Board or the SBE (see Final Statement of Reasons, Page 3 of 15, Comment B2).
ALTERNATIVES DETERMINATION

The SBE has determined that no alternative would be more effective in carrying out the purpose for which the regulation is proposed or would be as effective and less burdensome to affected private persons that the proposed regulation.

LOCAL MANDATE DETERMINATION

The proposed regulations do not impose any mandate on local agencies or school districts.

8-5-11 [California Department of Education]
The State Board of Education has illustrated changes to the original text in the following manner: text originally proposed to be added is underlined; text proposed to be deleted is displayed in strikeout. The 15-day text proposed to be added is in "bold underline", deleted text is displayed in "bold strikeout". The 2nd 15-day text proposed to be added is in "bold double underline"; deleted text is displayed in "bold double strikethrough". The 3rd 15-day text proposed to be added is in "underlined and shaded", deleted text is “strikeout and shaded.”

Title 5. EDUCATION

Division 1. California Department of Education

Chapter 11. Special Programs

Subchapter 19. Charter Schools

Article 2. General Provisions

(a) A petition for renewal submitted pursuant to Education Code section 47607 shall be considered received when submitted to by the district governing board upon receipt of the petition with include both of the following and shall be considered complete for action by the governing board of the school district upon receipt by the district of all of the requirements set forth in this subdivision:

(1) Documentation that the charter school meets at least one of the criteria specified in Education Code section 47607(b).

(2) A complete copy of the renewal charter petition including a reasonably comprehensive description of how the charter school has met all new charter school requirements enacted into law after the charter was originally granted or last renewed.

(A) The signature requirement set forth in Education Code section 47605(a) is not applicable to a petition for renewal.

(b)(1) When considering a petition for renewal, the district governing board shall consider the past performance of the school's academics, finances, and operation in
evaluating the likelihood of future success, along with future plans for improvement if any.

(2) The district governing board may deny a petition for renewal of a charter school only if the district governing board makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the grounds for denial set forth in Education Code section 47605(b) or facts to support a failure to meet one of the criteria set forth in Education Code section 47607(b).

(c) If within 60 days of a district governing board’s receipt of a petition for renewal, the a district a governing board fails to make has not made a written factual findings as mandated by Education Code section 47605(b) to why the charter school is not renewed within 60 days of a charter school’s submission of a complete petition for renewal, the renewal petition absence of written factual findings shall be deemed approved for the purposes of this section an approval of the petition for renewal.

(1) The district governing board and charter petitioner may extend this date by an additional 30 days only by written mutual agreement.

§ 11966.5. Charter Petitions That Have Not Been Renewed – Submission to County Board of Education.

(a) When the governing board of a school district denies a charter school’s petition for renewal, the charter school may submit a petition for renewal to the county board of education not later than 30 calendar days after the district governing board adopt make its written factual findings and takes action to deny the renewal. The county board of education and the charter petitioner may extend this date by an additional 30 days only by written mutual agreement. A petition for renewal not submitted to the county board of education within the 30 days or the alternative written timeline mutually agreed to this time shall be considered denied with no further options for administrative appeal.
(b) A petition for renewal, whether submitted to the county board of education as the chartering authority or on appeal from denial of the renewal petition by the local governing board, shall include all of the following and shall be considered received when submitted to complete for action by the county board of education upon receipt of the petition with upon receipt by the county of all of the requirements set forth in this subdivision.

1. Documentation that the charter school meets at least one of the criteria specified in Education Code section 47607(b).
2. A complete copy of the renewal charter petition, as denied by the local board, including a reasonably comprehensive description of how the charter school has met all new charter school requirements enacted into law after the charter was originally granted or last renewed.
   - (A) The signature requirement set forth in Education Code section 47605(a) is not applicable to a petition for renewal.
   - (3) When applicable, a copy of the governing board’s denial and supporting written factual findings, if available.
   - (4) A description of any changes to the renewal petition necessary to reflect the county board of education as the chartering entity.

(c)(1) When considering a petition for renewal, the county board of education shall consider the past performance of the school’s academics, finances, and operation in evaluating the likelihood of future success, along with future plans for improvement, if any.

2. The county board of education may deny a petition for renewal of a charter school only if the county board of education makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the grounds for denial set forth, as applicable, in Education Code sections 47605(b) and 47605.6(b), or failure to meet one of the criteria set forth in Education Code section 47607(b).

(d) If within 60 days of a county board of education’s receipt of a petition for renewal the county board of education does not grant or deny the petition for the renewal of a charter school within 90 calendar days of the charter school’s
submission of a complete petition pursuant to this section, the charter school may submit a petition for renewal to the State Board of Education (SBE). The county board of education and charter petitioner may extend this date by an additional 30 days only by written mutual agreement.

(e) If a county board of education denies a petition for renewal of a countywide charter school established under Education Code section 47605.6, the petitioner may not elect to submit the petition for renewal of the countywide charter school to the SBE.

(a) When the county board of education denies or takes no action on a charter school’s petition for renewal, the charter school may submit a petition for renewal to the SBE not later than 60 calendar days after the county board of education’s denial, or 150 calendar days after the charter school’s submission of a complete petition pursuant to section 11966.5(b). Any petition received by the SBE more than 60 days after the county board of education’s denial, or more than 150 days after the charter schools’ submission of a complete petition pursuant to section 11966.5(b) shall not be acted upon by the SBE.

(b) A petition for renewal shall include all of the following and shall be considered received when submitted to complete for action upon receipt by the SBE with all of the requirements set forth in this subdivision.

(1) Documentation that the charter school met at least one of the criteria specified in Education Code section 47607(b).

(2) A complete copy of the renewal charter petition, as denied, including a reasonably comprehensive description of how the charter school has met all new charter school requirements enacted into law after the charter was originally granted or last renewed.
(A) The signature requirement set forth in Education Code section 47605(a) is not applicable to a petition for renewal.

(3) A copy of the district governing board’s written factual findings denying the petition for renewal, and evidence of the county governing board’s denial or, if the county board of education failed to act, evidence that the timeline set forth in section 11966.5(d) has expired, expiration of the 120 day timeline in section 11966.5(d) and supporting written factual findings, if available.

(4) A description of any changes to the renewal petition necessary to reflect the SBE as the chartering entity.

(c)(1) When considering a petition for renewal, the SBE shall consider the past performance of the school’s academics, finances, and operation in evaluating the likelihood of future success, along with future plans for improvement, if any.

(2) The SBE may deny a petition for renewal of a charter school only if the SBE makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the grounds for denial set forth in Education Code section 47605(b) or failure to meet one of the criteria set forth in Education Code section 47607(b).

(d) Within 120 days of receiving a petition for renewal complete petition package, the SBE shall consider an action item to grant or deny the charter petition. This date may be extended by an additional 30 days if the SBE and the petitioner(s) agree to the extension.

§ 11966.7. Categorical Funding for Charter Schools Renewed by a Different Authorizer.

(a) A charter school whose charter is not renewed by the chartering authority but is subsequently approved on appeal by the county office of education or the SBE, and a charter school initially approved by the SBE on appeal and subsequently renewed by the district that previously had denied the charter, shall continue to be eligible for class
size reduction funds provided that the charter school had applied for class size
reduction funds in 2008-09 either directly or through its authorizer.

1. A charter school that applied through its authorizer in 2008-09 shall, for
purposes of Education Code section 52124.3, continue to be eligible for funding
through its authorizer for the same number of classes for which its authorizer applied
for funding on its behalf in 2008-09 and all subsequent years during which the school
was operational. In order to receive funding, a charter school must provide timely
reports of actual enrollment in each participating class, pursuant to sections 52124 and
52126, to its 2008-09 authorizer.

2. A charter school that is eligible for funding pursuant to this subdivision shall not
be eligible for class size reduction funding pursuant to section 42606.

3. This subdivision shall be in effect July 1, 2010, through fiscal year 2011-12 or
until such time as section 52124.3 is no longer in effect.

NOTE: Authority cited: Section 33031, Education Code. Reference: Sections 42605,
42606 and 52124.3, Education Code.

§ 11967. Appeals on Charter Petitions For The Establishment of a Charter School
That Have Been Denied

(a) A charter school petition that has been previously denied by the governing board
of a school district must be received by the county board of education not later than
180 calendar days after the denial. A charter school petition that has been previously
denied by a county board of education must be received by the State Board of
Education (SBE) not later than 180 calendar days after the denial. Any petition received
by the county board of education or the State Board of Education SBE more than 180
days after denial shall not be acted upon by the county board of education or the State
Board of Education SBE.

(b) When filing a petition with the county board of education or the State Board of
Education SBE for the establishment of a charter school, petitioner(s) shall provide the
following:

1. A complete copy of the charter petition as denied, including the signatures
required by Education Code section 47605.
(2) Evidence of the governing board’s action to deny the petition (e.g. meeting minutes) and the governing board's written factual findings specific to the particular petition, when available, setting forth specific facts to support one or more of the grounds for denial set forth in Education Code section 47605(b).

(3) A signed certification stating that petitioner(s) will comply with all applicable law.

(4) A description of any changes to the petition necessary to reflect the county board of education or the State Board of Education SBE as the chartering entity, as applicable.

(c) The county board of education or State Board of Education SBE shall deny a petition for the establishment of a charter school only if that board makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the grounds for denial set forth in Education Code section 47605(b)(1)-(5).

(d) Not later than 60 days after receiving a complete petition package, and following review of the petition at a duly noticed public meeting, a county board of education shall grant or deny the charter petition. This time period may be extended by an additional 30 days if the county board of education and the petitioner(s) agree to the extension. If within 60 days of a county board of education’s receipt of a petition appealing the denial to establish a charter school, the county board of education does not grant or deny the petition for the establishment of a charter school, the charter school may submit the petition for the establishment of a charter school to the SBE. The county board of education and charter petitioner may extend this date by an additional 30 days only by written mutual agreement.

(e) Not later than 90 if, within 120 days after receiving a complete petition package, of the SBE’s receipt of a petition appealing the denial to establish a charter school, the State Board of Education SBE shall schedule, at its next regular board meeting, an action item to grant or deny the charter petition, the decision of the governing board of the school district to deny the petition is subject to judicial review. The SBE and the charter petitioner may extend this date only by written mutual agreement, if the State Board of Education and the petitioner(s) agree to the extension.
(f) In considering charter petitions that have been previously denied, the county board of education or State Board of Education SBE are not limited to a review based solely on the reasons for denial stated by the school district, but must review the charter school petition pursuant to Education Code section 47605(b).

(a) For purposes of Education Code section 47605(b), a charter petition shall be "consistent with sound educational practice" if, in the State Board of Education's board's SBE's judgment, it is likely to be of educational benefit to pupils who attend. A charter school need not be designed or intended to meet the educational needs of every student who might possibly seek to enroll in order for the charter to be granted by the State Board of Education SBE.

(b) For purposes of Education Code section 47605(b)(1), a charter petition shall be "an unsound educational program" if it is either any of the following:

(1) A program that involves activities that the board State Board of Education SBE determines would present the likelihood of physical, educational, or psychological harm to the affected pupils.

(2) A program that the board State Board of Education SBE determines not to be likely to be of educational benefit to the pupils who attend.

(3) If the petition is for renewal of a charter school, and either the charter school has not met the standards for renewal pursuant to Education Code section 47607(b), as applicable, or the charter school has not met the measurable pupil outcomes as described in its charter.

(c) For purposes of Education Code section 47605(b)(2), the State Board of Education SBE shall take the following factors into consideration in determining whether charter petitioners are "demonstrably unlikely to successfully implement the program."
(1) If the petitioners have a past history of involvement in charter schools or other education agencies (public or private), the history is one that the board of Education SBE regards as unsuccessful, e.g., the petitioners have been associated with a charter school of which the charter has been revoked or a private school that has ceased operation for reasons within the petitioners' control.

(2) The petitioners are unfamiliar in the board's judgment with the content of the petition or the requirements of law that would apply to the proposed charter school.

(3) The petitioners have presented an unrealistic financial and operational plan for the proposed charter school. An unrealistic financial and operational plan is one to which any or all of the following applies:

   (A) In the area of administrative services, the charter or supporting documents do not adequately:

      1. Describe the structure for providing administrative services, including, at a minimum, personnel transactions, accounting, and payroll that reflects an understanding of school business practices and expertise to carry out the necessary administrative services, or a reasonable plan and time line to develop and assemble such practices and expertise.

      2. For any contract services, describe criteria for the selection of a contractor or contractors that demonstrate necessary expertise and the procedure for selection of the contractor or contractors.

   (B) In the area of financial administration, the charter or supporting documents do not adequately:

      1. Include, at a minimum, the first-year operational budget, start-up costs, and cash flow, and financial projections for the first three years.

      2. Include in the operational budget reasonable estimates of all anticipated revenues and expenditures necessary to operate the school, including, but not limited to, special education, based, when possible, on historical data from schools or school districts of similar type, size, and location.
3. Include budget notes that clearly describe assumptions on revenue estimates, including, but not limited to, the basis for average daily attendance estimates and staffing levels.

4. Present a budget that in its totality appears viable and over a period of no less than two years of operations provides for the amassing of a reserve equivalent to that required by law for a school district of similar size to the proposed charter school.

5. Demonstrate an understanding of the timing of the receipt of various revenues and their relative relationship to timing of expenditures that are within reasonable parameters, based, when possible, on historical data from schools or school districts of similar type, size, and location.

(C) In the area of insurance, the charter and supporting documents do not adequately provide for the acquisition of and budgeting for general liability, workers compensations, and other necessary insurance of the type and in the amounts required for an enterprise of similar purpose and circumstance.

(D) In the area of facilities, the charter and supporting documents do not adequately:

1. Describe the types and potential location of facilities needed to operate the size and scope of educational program proposed in the charter.

2. In the event a specific facility has not been secured, provide evidence of the type and projected cost of the facilities that may be available in the location of the proposed charter school.

3. Reflect reasonable costs for the acquisition or leasing of facilities to house the charter school, taking into account the facilities the charter school may be allocated under the provisions of Education Code section 47614.

(4) The petitioners personally lack the necessary background in the following areas critical to the charter school's success, and the petitioners do not have a plan to secure the services of individuals who have the necessary background in these areas:

(A) Curriculum, instruction, and assessment.

(B) Finance and business management.

(d) For purposes of Education Code section 47605(b)(3), a charter petition that "does not contain the number of signatures required by subdivision (a)" of Education
Code section 47605 shall be a petition that did not contain the requisite number of signatures at the time of the submission of the original charter to a school district governing board pursuant to Education Code section 47605(a). The board State Board of Education SBE shall not disregard signatures that may be purported to have been withdrawn or to have been determined to be invalid after the petition was denied by the school district. The signature requirement set forth in Education Code section 47605(a) is not applicable to a petition for renewal.

(e) For purposes of Education Code section 47605(b)(4), a charter petition that "does not contain an affirmation of each of the conditions described in subdivision (d)" of Education Code section 47605 shall be a petition that fails to include a clear, unequivocal affirmation of each such condition, not a general statement of intention to comply. Neither the charter nor any of the supporting documents shall include any evidence that the charter will fail to comply with the conditions described in Education Code section 47605(d).

(f) For purposes of Education Code section 47605(b)(5), the board State Board of Education SBE shall take the following factors into consideration in determining whether a charter petition does not contain a "reasonably comprehensive" description of each of the specified elements. In addition to the contents of the charter document for a petition for renewal, the board shall also consider the actual performance of the charter school on each of the elements in this section.

(1) The description of the educational program of the school, as required by Education Code section 47605(b)(5)(A), at a minimum:

(A) Indicates the proposed charter school's target student population, including, at a minimum, grade levels, approximate numbers of pupils, and specific educational interests, backgrounds, or challenges.

(B) Specifies a clear, concise school mission statement with which all elements and programs of the school are in alignment and which conveys the petitioners' definition of an "educated person in the 21st century, belief of how learning best occurs, and a goals consistent with enabling pupils to become or remain self-motivated, competent, and lifelong learners.
(C) Includes a framework for instructional design that is aligned with the needs of the pupils that the charter school has identified as its target student population.

(D) Indicates the basic learning environment or environments (e.g., site-based matriculation, independent study, community-based education, or technology-based education).

(E) Indicates the instructional approach or approaches the charter school will utilize, including, but not limited to, the curriculum and teaching methods (or a process for developing the curriculum and teaching methods) that will enable the school's pupils to master the content standards for the four core curriculum areas adopted by the State Board of Education SBE pursuant to Education Code section 60605 and to achieve the objectives specified in the charter.

(F) Indicates how the charter school will identify and respond to the needs of pupils who are not achieving at or above expected levels.

(G) Indicates how the charter school will meet the needs of students with disabilities, English learners, students achieving substantially above or below grade level expectations, and other special student populations.

(H) Specifies the charter school's special education plan, including, but not limited to, the means by which the charter school will comply with the provisions of Education Code section 47641, the process to be used to identify students who qualify for special education programs and services, how the school will provide or access special education programs and services, the school's understanding of its responsibilities under law for special education pupils, and how the school intends to meet those responsibilities.

(2) Measurable pupil outcomes, as required by Education Code section 47605(b)(5)(B), at a minimum:

(A) Specify skills, knowledge, and attitudes that reflect the school's educational objectives and can be assessed, at a minimum, by objective means that are frequent and sufficiently detailed enough to determine whether pupils are making satisfactory progress. It is intended that the frequency of objective means of measuring pupil outcomes vary according to such factors as grade level, subject matter, the outcome of previous objective measurements, and information that may be collected from
anecdotal sources. To be sufficiently detailed, objective means of measuring pupil outcomes must be capable of being used readily to evaluate the effectiveness of and to modify instruction for individual students and for groups of students.

(B) Include the school's Academic Performance Index growth target, if applicable.

(3) The method by which pupil progress is to be measured, as required by Education Code section 47605(b)(5)(C), at a minimum:

(A) Utilizes a variety of assessment tools that are appropriate to the skills, knowledge, or attitudes being assessed, including, at a minimum, tools that employ objective means of assessment consistent with paragraph (2)(A) of subdivision (f) of this section.

(B) Includes the annual assessment results from the Statewide Testing and Reporting (STAR) program.

(C) Outlines a plan for collecting, analyzing, and reporting data on pupil achievement to school staff and to pupils' parents and guardians, and for utilizing the data continuously to monitor and improve the charter school's educational program.

(4) The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement in supporting the school's effort on behalf of the school's pupils, as required by Education Code section 47605(b)(5)(D), at a minimum:

(A) Includes evidence of the charter school's incorporation as a non-profit public benefit corporation, if applicable.

(B) Includes evidence that the organizational and technical designs of the governance structure reflect a seriousness of purpose necessary to ensure that:

1. The charter school will become and remain a viable enterprise.

2. There will be active and effective representation of interested parties, including, but not limited to parents (guardians).

3. The educational program will be successful.

(5) The qualifications to be met by individuals to be employed by the school, as required by Education Code section 47605(b)(5)(E), at a minimum:

(A) Identify general qualifications for the various categories of employees the school anticipates (e.g., administrative, instructional, instructional support, non-instructional
support). The qualifications shall be sufficient to ensure the health, and safety of the
school's faculty, staff, and pupils.

(B) Identify those positions that the charter school regards as key in each category
and specify the additional qualifications expected of individuals assigned to those
positions.

(C) Specify that the all requirements for employment set forth in applicable
provisions of law will be met, including, but not limited to credentials as necessary.

(6) The procedures that the school will follow to ensure the health and safety of
pupils and staff, as required by Education Code section 47605(b)(5)(F), at a minimum:

(A) Require that each employee of the school furnish the school with a criminal
record summary as described in Education Code section 44237.

(B) Include the examination of faculty and staff for tuberculosis as described in
Education Code section 49406.

(C) Require immunization of pupils as a condition of school attendance to the same
extent as would apply if the pupils attended a non-charter public school.

(D) Provide for the screening of pupils' vision and hearing and the screening of
pupils for scoliosis to the same extent as would be required if the pupils attended a
non-charter public school.

(7) Recognizing the limitations on admissions to charter schools imposed by
Education Code section 47605(d), the means by which the school will achieve a racial
and ethnic balance among its pupils that is reflective of the general population residing
within the territorial jurisdiction of the school district to which the charter petition is
submitted, as required by Education Code section 47605(b)(5)(G), shall be presumed
to have been met, absent specific information to the contrary.

(8) To the extent admission requirements are included in keeping with Education
Code section 47605(b)(5)(H), the requirements shall be in compliance with the
requirements of Education Code section 47605(d) and any other applicable provision of
law.

(9) The manner in which annual, independent, financial audits shall be conducted,
which shall employ generally accepted accounting principles, and the manner in which
audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority, as required by Education Code section 47605(b)(5)(I), at a minimum:

(A) Specify who is responsible for contracting and overseeing the independent audit.

(B) Specify that the auditor will have experience in education finance.

(C) Outline the process of providing audit reports to the State Board of Education SBE, California Department of Education, or other agency as the board may direct, and specifying the time line in which audit exceptions will typically be addressed.

(D) Indicate the process that the charter school will follow to address any audit findings and/or resolve any audit exceptions.

(10) The procedures by which pupils can be suspended or expelled, as required by Education Code section 47605(b)(5)(J), at a minimum:

(A) Identify a preliminary list, subject to later revision pursuant to subparagraph (E), of the offenses for which students in the charter school must (where non-discretionary) and may (where discretionary) be suspended and, separately, the offenses for which students in the charter school must (where non-discretionary) or may (where discretionary) be expelled, providing evidence that the petitioners' reviewed the offenses for which students must or may be suspended or expelled in non-charter public schools.

(B) Identify the procedures by which pupils can be suspended or expelled.

(C) Identify the procedures by which parents, guardians, and pupils will be informed about reasons for suspension or expulsion and of their due process rights in regard to suspension or expulsion.

(D) Provide evidence that in preparing the lists of offenses specified in subparagraph (A) and the procedures specified in subparagraphs (B) and (C), the petitioners reviewed the lists of offenses and procedures that apply to students attending non-charter public schools, and provide evidence that the charter petitioners believe their proposed lists of offenses and procedures provide adequate safety for students, staff, and visitors to the school and serve the best interests the school's pupils and their parents (guardians).
(E) If not otherwise covered under subparagraphs (A), (B), (C), and (D):

1. Provide for due process for all pupils and demonstrate an understanding of the rights of pupils with disabilities in regard to suspension and expulsion.

2. Outline how detailed policies and procedures regarding suspension and expulsion will be developed and periodically reviewed, including, but not limited to, periodic review and (as necessary) modification of the lists of offenses for which students are subject to suspension or expulsion.

(11) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security, as required by Education Code section 47605(b)(5)(K), at a minimum, specifies the positions to be covered under each system and the staff who will be responsible for ensuring that appropriate arrangements for that coverage have been made.

(12) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools, as required by Education Code section 47605(b)(5)(L), at a minimum, specify that the parent or guardian of each pupil enrolled in the charter school shall be informed that the pupils has no right to admission in a particular school of any local educational agency (LEA) (or program of any local education agency LEA) as a consequence of enrollment in the charter school, except to the extent that such a right is extended by the local education agency LEA.

(13) The description of the rights of any employees of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school, as required by Education Code section 47605(b)(5)(M), at a minimum, specifies that an employee of the charter school shall have the following rights:

(A) Any rights upon leaving the employment of an local education agency LEA to work in the charter school that the local education agency LEA may specify.

(B) Any rights of return to employment in an local education agency LEA after employment in the charter school as the local education agency LEA may specify.

(C) Any other rights upon leaving employment to work in the charter school and any rights to return to a previous employer after working in the charter school that the
board State Board of Education SBE determines to be reasonable and not in conflict with any provisions of law that apply to the charter school or to the employer from which the employee comes to the charter school or to which the employee returns from the charter school.

(14) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter, as required by Education Code section 47605(b)(5)(N), at a minimum:

(A) Include any specific provisions relating to dispute resolution that the State Board of Education SBE determines necessary and appropriate in recognition of the fact that the State Board of Education SBE is not an local education agency LEA.

(B) Describe how the costs of the dispute resolution process, if needed, would be funded.

(C) Recognize that, because it is not an local education agency LEA, the State Board of Education SBE may choose to resolve a dispute directly instead of pursuing the dispute resolution process specified in the charter, provided that if the State Board of Education SBE intends to resolve a dispute directly instead of pursuing the dispute resolution process specified in the charter, it must first hold a public hearing to consider arguments for and against the direct resolution of the dispute instead of pursuing the dispute resolution process specified in the charter.

(D) Recognize that if the substance of a dispute is a matter that could result in the taking of appropriate action, including, but not limited to, revocation of the charter in accordance with Education Code section 47604.5, the matter will be addressed at the State Board of Education’s SBE’s discretion in accordance with that provision of law and any regulations pertaining thereto.

(15) The declaration of whether or not the charter school shall be deemed the exclusive public school employer of the employees of the charter school for the purposes of the Educational Employment Relations Act (Chapter 10.7 (commencing with Government Code § Section 3540) of Division 4 of Title 1 of the Government Code), as required by Education Code section 47605(b)(5)(O), recognizes that the State Board of Education SBE is not an exclusive public school employer, and that, therefore, the charter school must be the exclusive public school employer of the
employees of the charter school for the purposes of the Educational Employment
Relations Act (Chapter 10.7 (commencing with Government Code sSection 3540) of
Division 4 of Title 1 of the Government Code).

(g) A "reasonably comprehensive" description, within the meaning subdivision (f) of
this section and Education Code section 47605(b)(5) shall include, but not be limited to,
information that:

(1) Is substantive and is not, for example, a listing of topics with little elaboration.
(2) For elements that have multiple aspects, addresses essentially all aspects the
elements, not just selected aspects.
(3) Is specific to the charter petition being proposed, not to charter schools or
charter petitions generally.
(4) Describes, as applicable among the different elements, how the charter school
will:
   (A) Improve pupil learning.
   (B) Increase learning opportunities for its pupils, particularly pupils who have been
       identified as academically low achieving.
   (C) Provide parents, guardians, and pupils with expanded educational opportunities.
   (D) Hold itself accountable for measurable, performance-based pupil outcomes.
   (E) Provide vigorous competition with other public school options available to
       parents, guardians, and students.

Section 47605, Education Code.

6-8-11 [California Department of Education]
Education Code (EC) Section 47607: Charter term renewal; criteria; material revision of charter; revocation

EC sections 47607 (a) and 47607(b)

(a) (1) A charter may be granted pursuant to Sections 47605, 47605.5, and 47606 for a period not to exceed five years. A charter granted by a school district governing board, a county board of education or the state board, may be granted one or more subsequent renewals by that entity. Each renewal shall be for a period of five years. A material revision of the provisions of a charter petition may be made only with the approval of the authority that granted the charter. The authority that granted the charter may inspect or observe any part of the charter school at any time.

(2) Renewals and material revisions of charters are governed by the standards and criteria in Section 47605, and shall include, but not be limited to, a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed.

(b) Commencing on January 1, 2005, or after a charter school has been in operation for four years, whichever date occurs later, a charter school shall meet at least one of the following criteria prior to receiving a charter renewal pursuant to paragraph (1) of subdivision (a):

(1) Attained its Academic Performance Index (API) growth target in the prior year or in two of the last three years, or in the aggregate for the prior three years.

(2) Ranked in deciles 4 to 10, inclusive, on the API in the prior year or in two of the last three years.

(3) Ranked in deciles 4 to 10, inclusive, on the API for a demographically comparable school in the prior year or in two of the last three years.

(4) (A) The entity that granted the charter determines that the academic performance of the charter school is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school.

(B) The determination made pursuant to this paragraph shall be based upon all of the following:

(i) Documented and clear and convincing data.

(ii) Pupil achievement data from assessments, including, but not limited to, the Standardized Testing and Reporting Program established by Article 4
(commencing with Section 60640) for demographically similar pupil populations in the comparison schools.

(iii) Information submitted by the charter school.

(C) A chartering authority shall submit to the Superintendent copies of supporting documentation and a written summary of the basis for any determination made pursuant to this paragraph. The Superintendent shall review the materials and make recommendations to the chartering authoring based on that review. The review may be the basis for a recommendation made pursuant to Section 47604.5.

(D) A charter renewal may not be granted to a charter school prior to 30 days after that charter school submits materials pursuant to this paragraph.

(5) Has qualified for an alternative accountability system pursuant to subdivision (h) of Section 52052.
Education Code (EC) Section 47605: Petition process to establish charter school; public hearing to review petition; grounds for grant or denial; statewide standards and pupil assessments; requirements for school relating to programs, admissions, practices and operations; information required of petitioners; preferences given to petitioners; notice of approval; denial of petition; criteria for review; oversight responsibilities; teacher qualifications; financial audit report

EC Section 47605 (k)(3)
A charter school that has been granted its charter through an appeal to the state board and elects to seek renewal of its charter shall, prior to expiration of the charter, submit its petition for renewal to the governing board of the school district that initially denied the charter. If the governing board of the school district denies the school's petition for renewal, the school may petition the state board for renewal of its charter.

(EC) Section 47607.5: Renewal; application following denial or petition
If either a school district governing board or a county board of education, as a chartering agency, does not grant a renewal to a charter school pursuant to Section 47607, the charter school may submit its application for renewal pursuant to the procedures pertaining to a denial of a petition for establishment of a charter school, as provided in subdivision (j) of Section 47605.
(Added by Stats.2000, c. 160 (S.B.326), § 1.)
California Code of Regulations, Title 5 (5 CCR) Section 11967.5.1: Criteria for the Review and Approval of Charter School Petitions by the State Board of Education.

(a) For purposes of Education Code section 47605(b), a charter petition shall be “consistent with sound educational practice” if, in the State Board of Education’s judgment, it is likely to be of educational benefit to pupils who attend. A charter school need not be designed or intended to meet the educational needs of every student who might possibly seek to enroll in order for the charter to be granted by the State Board of Education.

(b) For purposes of Education Code section 47605(b)(1), a charter petition shall be “an unsound educational program” if it is either of the following:

(1) A program that involves activities that the State Board of Education determines would present the likelihood of physical, educational, or psychological harm to the affected pupils.

(2) A program that the State Board of Education determines not to be likely to be of educational benefit to the pupils who attend.

(c) For purposes of Education Code section 47605(b)(2), the State Board of Education shall take the following factors into consideration in determining whether charter petitioners are “demonstrably unlikely to successfully implement the program.”

(1) If the petitioners have a past history of involvement in charter schools or other education agencies (public or private), the history is one that the State Board of Education regards as unsuccessful, e.g., the petitioners have been associated with a charter school of which the charter has been revoked or a private school that has ceased operation for reasons within the petitioners’ control.

(2) The petitioners are unfamiliar in the State Board of Education's judgment with the content of the petition or the requirements of law that would apply to the proposed charter school.

(3) The petitioners have presented an unrealistic financial and operational plan for the proposed charter school. An unrealistic financial and operational plan is one to which any or all of the following applies:

(A) In the area of administrative services, the charter or supporting documents do not adequately:

1. Describe the structure for providing administrative services, including, at a minimum, personnel transactions, accounting and payroll that reflects an understanding of school business practices and expertise to carry out the
necessary administrative services, or a reasonable plan and time line to develop and assemble such practices and expertise.

2. For any contract services, describe criteria for the selection of a contractor or contractors that demonstrate necessary expertise and the procedure for selection of the contractor or contractors.

(B) In the area of financial administration, the charter or supporting documents do not adequately:

1. Include, at a minimum, the first-year operational budget, start-up costs, and cash flow, and financial projections for the first three years.

2. Include in the operational budget reasonable estimates of all anticipated revenues and expenditures necessary to operate the school, including, but not limited to, special education, based, when possible, on historical data from schools or school districts of similar type, size, and location.

3. Include budget notes that clearly describe assumptions on revenue estimates, including, but not limited to, the basis for average daily attendance estimates and staffing levels.

4. Present a budget that in its totality appears viable and over a period of no less than two years of operations provides for the amassing of a reserve equivalent to that required by law for a school district of similar size to the proposed charter school.

5. Demonstrate an understanding of the timing of the receipt of various revenues and their relative relationship to timing of expenditures that are within reasonable parameters, based, when possible, on historical data from schools or school districts of similar type, size, and location.

(C) In the area of insurance, the charter and supporting documents do not adequately provide for the acquisition of and budgeting for general liability, workers compensations, and other necessary insurance of the type and in the amounts required for an enterprise of similar purpose and circumstance.

(D) In the area of facilities, the charter and supporting documents do not adequately:

1. Describe the types and potential location of facilities needed to operate the size and scope of educational program proposed in the charter.

2. In the event a specific facility has not been secured, provide evidence of the type and projected cost of the facilities that may be available in the location of the proposed charter school.
3. Reflect reasonable costs for the acquisition or leasing of facilities to house the charter school, taking into account the facilities the charter school may be allocated under the provisions of Education Code section 47614.

(4) The petitioners personally lack the necessary background in the following areas critical to the charter school's success, and the petitioners do not have plan to secure the services of individuals who have the necessary background in these areas:

   (A) Curriculum, instruction, and assessment.

   (B) Finance and business management.

(d) For purposes of Education Code section 47605(b)(3), a charter petition that “does not contain the number of signatures required by subdivision (a)” of Education Code section 47605 shall be a petition that did not contain the requisite number of signatures at the time of its submission to a school district pursuant to Education Code section 47605(a). The State Board of Education shall not disregard signatures that may be purported to have been withdrawn or to have been determined to be invalid after the petition was denied by the school district.

(e) For purposes of Education Code section 47605(b)(4), a charter petition that “does not contain an affirmation of each of the conditions described in subdivision (d)” of Education Code section 47605 shall be a petition that fails to include a clear, unequivocal affirmation of each such condition, not a general statement of intention to comply. Neither the charter nor any of the supporting documents shall include any evidence that the charter will fail to comply with the conditions described in Education Code section 47605(d).

(f) For purposes of Education Code section 47605(b)(5), the State Board of Education shall take the following factors into consideration in determining whether a charter petition does not contain a “reasonably comprehensive” description of each of the specified elements.

   (1) The description of the educational program of the school, as required by Education Code section 47605(b)(5)(A), at a minimum:

      (A) Indicates the proposed charter school's target student population, including, at a minimum, grade levels, approximate numbers of pupils, and specific educational interests, backgrounds, or challenges.

      (B) Specifies a clear, concise school mission statement with which all elements and programs of the school are in alignment and which conveys the petitioners' definition of an “educated person in the 21st century, belief of how learning best
occurs, and a goals consistent with enabling pupils to become or remain self-motivated, competent, and lifelong learners.

(C) Includes a framework for instructional design that is aligned with the needs of the pupils that the charter school has identified as its target student population.

(D) Indicates the basic learning environment or environments (e.g., site-based matriculation, independent study, community-based education, technology-based education).

(E) Indicates the instructional approach or approaches the charter school will utilize, including, but not limited to, the curriculum and teaching methods (or a process for developing the curriculum and teaching methods) that will enable the school's pupils to master the content standards for the four core curriculum areas adopted by the State Board of Education pursuant to Education Code section 60605 and to achieve the objectives specified in the charter.

(F) Indicates how the charter school will identify and respond to the needs of pupils who are not achieving at or above expected levels.

(G) Indicates how the charter school will meet the needs of students with disabilities, English learners, students achieving substantially above or below grade level expectations, and other special student populations.

(H) Specifies the charter school's special education plan, including, but not limited to, the means by which the charter school will comply with the provisions of Education Code section 47641, the process to be used to identify students who qualify for special education programs and services, how the school will provide or access special education programs and services, the school's understanding of its responsibilities under law for special education pupils, and how the school intends to meet those responsibilities.

(2) Measurable pupil outcomes, as required by Education Code section 47605(b)(5)(B), at a minimum:

(A) Specify skills, knowledge, and attitudes that reflect the school's educational objectives and can be assessed, at a minimum, by objective means that are frequent and sufficiently detailed enough to determine whether pupils are making satisfactory progress. It is intended that the frequency of objective means of measuring pupil outcomes vary according to such factors as grade level, subject matter, the outcome of previous objective measurements, and information that may be collected from anecdotal sources. To be sufficiently detailed, objective means of measuring pupil outcomes must be capable of being used readily to evaluate the effectiveness of and to modify instruction for individual students and for groups of students.
(B) Include the school's Academic Performance Index growth target, if applicable.

(3) The method by which pupil progress is to be measured, as required by Education Code section 47605(b)(5)(C), at a minimum:

(A) Utilizes a variety of assessment tools that are appropriate to the skills, knowledge, or attitudes being assessed, including, at a minimum, tools that employ objective means of assessment consistent with paragraph (2)(A) of subdivision (f) of this section.

(B) Includes the annual assessment results from the Statewide Testing and Reporting (STAR) program.

(C) Outlines a plan for collecting, analyzing, and reporting data on pupil achievement to school staff and to pupils' parents and guardians, and for utilizing the data continuously to monitor and improve the charter school's educational program.

(4) The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement in supporting the school's effort on behalf of the school's pupils, as required by Education Code section 47605(b)(5)(D), at a minimum:

(A) Includes evidence of the charter school's incorporation as a non-profit public benefit corporation, if applicable.

(B) Includes evidence that the organizational and technical designs of the governance structure reflect a seriousness of purpose necessary to ensure that:

1. The charter school will become and remain a viable enterprise.
2. There will be active and effective representation of interested parties, including, but not limited to parents (guardians).
3. The educational program will be successful.

(5) The qualifications to be met by individuals to be employed by the school, as required by Education Code section 47605(b)(5)(E), at a minimum:

(A) Identify general qualifications for the various categories of employees the school anticipates (e.g., administrative, instructional, instructional support, non-instructional support). The qualifications shall be sufficient to ensure the health, and safety of the school's faculty, staff, and pupils.
(B) Identify those positions that the charter school regards as key in each category and specify the additional qualifications expected of individuals assigned to those positions.

(C) Specify that the all requirements for employment set forth in applicable provisions of law will be met, including, but not limited to credentials as necessary.

(6) The procedures that the school will follow to ensure the health and safety of pupils and staff, as required by Education Code section 47605(b)(5)(F), at a minimum:

(A) Require that each employee of the school furnish the school with a criminal record summary as described in Education Code section 44237.

(B) Include the examination of faculty and staff for tuberculosis as described in Education Code section 49406.

(C) Require immunization of pupils as a condition of school attendance to the same extent as would apply if the pupils attended a non-charter public school.

(D) Provide for the screening of pupils' vision and hearing and the screening of pupils for scoliosis to the same extent as would be required if the pupils attended a non-charter public school.

(7) Recognizing the limitations on admissions to charter schools imposed by Education Code section 47605(d), the means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted, as required by Education Code section 47605(b)(5)(G), shall be presumed to have been met, absent specific information to the contrary.

(8) To the extent admission requirements are included in keeping with Education Code section 47605(b)(5)(H), the requirements shall be in compliance with the requirements of Education Code section 47605(d) and any other applicable provision of law.

(9) The manner in which annual, independent, financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority, as required by Education Code section 47605(b)(5)(I), at a minimum:

(A) Specify who is responsible for contracting and overseeing the independent audit.
(B) Specify that the auditor will have experience in education finance.
(C) Outline the process of providing audit reports to the State Board of Education, California Department of Education, or other agency as the State Board of Education may direct, and specifying the time line in which audit exceptions will typically be addressed.

(D) Indicate the process that the charter school will follow to address any audit findings and/or resolve any audit exceptions.

(10) The procedures by which pupils can be suspended or expelled, as required by Education Code section 47605(b)(5)(J), at a minimum:

(A) Identify a preliminary list, subject to later revision pursuant to subparagraph (E), of the offenses for which students in the charter school must (where non-discretionary) and may (where discretionary) be suspended and, separately, the offenses for which students in the charter school must (where non-discretionary) or may (where discretionary) be expelled, providing evidence that the petitioners' reviewed the offenses for which students must or may be suspended or expelled in non-charter public schools.

(B) Identify the procedures by which pupils can be suspended or expelled.

(C) Identify the procedures by which parents, guardians, and pupils will be informed about reasons for suspension or expulsion and of their due process rights in regard to suspension or expulsion.

(D) Provide evidence that in preparing the lists of offenses specified in subparagraph (A) and the procedures specified in subparagraphs (B) and (C), the petitioners reviewed the lists of offenses and procedures that apply to students attending non-charter public schools, and provide evidence that the charter petitioners believe their proposed lists of offenses and procedures provide adequate safety for students, staff, and visitors to the school and serve the best interests the school's pupils and their parents (guardians).

(E) If not otherwise covered under subparagraphs (A), (B), (C), and (D):

(1) Provide for due process for all pupils and demonstrate an understanding of the rights of pupils with disabilities in regard to suspension and expulsion.

(2) Outline how detailed policies and procedures regarding suspension and expulsion will be developed and periodically reviewed, including, but not limited to, periodic review and (as necessary) modification of the lists of offenses for which students are subject to suspension or expulsion.

(11) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System,
or federal social security, as required by Education Code section 47605(b)(5)(K), at a minimum, specifies the positions to be covered under each system and the staff who will be responsible for ensuring that appropriate arrangements for that coverage have been made.

(12) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools, as required by Education Code section 47605(b)(5)(L), at a minimum, specify that the parent or guardian of each pupil enrolled in the charter school shall be informed that the pupil has no right to admission in a particular school of any local education agency (or program of any local education agency) as a consequence of enrollment in the charter school, except to the extent that such a right is extended by the local education agency.

(13) The description of the rights of any employees of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school, as required by Education Code section 47605(b)(5)(M), at a minimum, specifies that an employee of the charter school shall have the following rights:

(A) Any rights upon leaving the employment of a local education agency to work in the charter school that the local education agency may specify.

(B) Any rights of return to employment in a local education agency after employment in the charter school as the local education agency may specify.

(C) Any other rights upon leaving employment to work in the charter school and any rights to return to a previous employer after working in the charter school that the State Board of Education determines to be reasonable and not in conflict with any provisions of law that apply to the charter school or to the employer from which the employee comes to the charter school or to which the employee returns from the charter school.

(14) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter, as required by Education Code section 47605(b)(5)(N), at a minimum:

(A) Include any specific provisions relating to dispute resolution that the State Board of Education determines necessary and appropriate in recognition of the fact that the State Board of Education is not a local education agency.

(B) Describe how the costs of the dispute resolution process, if needed, would be funded.

(C) Recognize that, because it is not a local education agency, the State Board of Education may choose resolve a dispute directly instead of pursuing the dispute resolution process specified in the charter, provided that if the State
Board of Education intends to resolve a dispute directly instead of pursuing the dispute resolution process specified in the charter, it must first hold a public hearing to consider arguments for and against the direct resolution of the dispute instead of pursuing the dispute resolution process specified in the charter.

(D) Recognize that if the substance of a dispute is a matter that could result in the taking of appropriate action, including, but not limited to, revocation of the charter in accordance with Education Code section 47604.5, the matter will be addressed at the State Board of Education's discretion in accordance with that provision of law and any regulations pertaining thereto.

(15) The declaration of whether or not the charter school shall be deemed the exclusive public school employer of the employees of the charter school for the purposes of the Educational Employment Relations Act (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code), as required by Education Code section 47605(b)(5)(O), recognizes that the State Board of Education is not an exclusive public school employer and that, therefore, the charter school must be the exclusive public school employer of the employees of the charter school for the purposes of the Educational Employment Relations Act (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code).

(g) A “reasonably comprehensive” description, within the meaning subdivision (f) of this section and Education Code section 47605(b)(5) shall include, but not be limited to, information that:

1. Is substantive and is not, for example, a listing of topics with little elaboration.

2. For elements that have multiple aspects, addresses essentially all aspects the elements, not just selected aspects.

3. Is specific to the charter petition being proposed, not to charter schools or charter petitions generally.

4. Describes, as applicable among the different elements, how the charter school will:

   A. Improve pupil learning.

   B. Increase learning opportunities for its pupils, particularly pupils who have been identified as academically low achieving.

   C. Provide parents, guardians, and pupils with expanded educational opportunities.

   D. Hold itself accountable for measurable, performance-based pupil outcomes.
(E) Provide vigorous competition with other public school options available to parents, guardians, and students.

**California Code of Regulations, Title 5 (5 CCR) Section 11967: Appeals on Charter Petitions That Have Been Denied**

(a) A charter school petition that has been previously denied by the governing board of a school district must be received by the county board of education not later than 180 calendar days after the denial. A charter school petition that has been previously denied by a county board of education must be received by the State Board of Education not later than 180 calendar days after the denial. Any petition received by the county board of education or State Board of Education more than 180 days after denial shall not be acted upon by the county board of education or State Board of Education.

(b) When filing a petition with the county board of education or the State Board of Education for the establishment of a charter school, petitioner(s) shall provide the following:

1. A complete copy of the charter petition as denied, including the signatures required by Education Code section 47605.

2. Evidence of the governing board's action to deny the petition (e.g. meeting minutes) and the governing board's written factual findings specific to the particular petition, when available, setting forth specific facts to support one or more of the grounds for denial set forth in Education Code section 47605(b).

3. A signed certification stating that petitioner(s) will comply with all applicable law.

4. A description of any changes to the petition necessary to reflect the county board of education or the State Board of Education as the chartering entity as applicable.

(c) The county board of education or State Board of Education shall deny a petition for the establishment of a charter school only if that board makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the grounds for denial set forth in Education Code section 47605(b)(1)-(5).

(d) Not later than 60 days after receiving a complete petition package, and following review of the petition at a duly noticed public meeting, a county board of education shall grant or deny the charter petition. This time period may be extended by an additional 30 days if the county board of education and the petitioner(s) agree to the extension.
(e) Not later than 90 days after receiving a complete petition package, the State Board of Education shall schedule, at its next regular board meeting, an action item to grant or deny the charter petition. This date may be extended by an additional 30 days if the State Board of Education and the petitioner(s) agree to the extension.

(f) In considering charter petitions that have been previously denied, the county board of education or State Board of Education are not limited to a review based solely on the reasons for denial stated by the school district, but must review the charter school petition pursuant to Education Code section 47605(b).

**ECONOMIC IMPACT STATEMENT**

A. **ESTIMATED PRIVATE SECTOR COST IMPACTS** (Include calculations and assumptions in the rulemaking record.)

1. Check the appropriate box(es) below to indicate whether this regulation:

   - [ ] a. Impacts businesses and/or employees
   - [ ] b. Impacts small businesses
   - [ ] c. Impacts jobs or occupations
   - [ ] d. Impacts California competitiveness
   - [ ] e. Imposes reporting requirements
   - [ ] f. Imposes prescriptive instead of performance
   - [ ] g. Impacts individuals
   - [x] h. None of the above (Explain below. Complete the Fiscal Impact Statement as appropriate.)

   (If any box in Items 1 a through g is checked, complete this Economic Impact Statement.)

2. Enter the total number of businesses impacted: __________________________

   Describe the types of businesses (Include nonprofits):

   Enter the number or percentage of total businesses impacted that are small businesses: _________

3. Enter the number of businesses that will be created: _______ or eliminated:

   Explain:

4. Indicate the geographic extent of impacts: __________________________

   - [ ] Statewide
   - [ ] Local or regional (List areas):

5. Enter the number of jobs created: _______ or eliminated: _______

   Describe the types of jobs or occupations impacted:

6. Will the regulation affect the ability of California businesses to compete with other states by making it more costly to produce goods or services here?

   - [ ] Yes
   - [ ] No

   If yes, explain briefly:

B. **ESTIMATED COSTS** (Include calculations and assumptions in the rulemaking record.)

1. What are the total statewide dollar costs that businesses and individuals may incur to comply with this regulation over its lifetime? $ _______

   a. Initial costs for a small business: $ _______ 
      Annual ongoing costs: $ _______ 
      Years: _______

   b. Initial costs for a typical business: $ _______ 
      Annual ongoing costs: $ _______ 
      Years: _______

   c. Initial costs for an individual: $ _______ 
      Annual ongoing costs: $ _______ 
      Years: _______

   d. Describe other economic costs that may occur:

   ________________________________________________

See SAM Section 6601 - 6616 for Instructions and Code Citations
ECONOMIC AND FISCAL IMPACT STATEMENT cont. (STD. 399, Rev. 12/2008)

2. If multiple industries are impacted, enter the share of total costs for each industry:

3. If the regulation imposes reporting requirements, enter the annual costs a typical business may incur to comply with these requirements. (Include the dollar costs to do programming, record keeping, reporting, and other paperwork, whether or not the paperwork must be submitted.): $ __________

4. Will this regulation directly impact housing costs?  
   □ Yes  □ No  
   If yes, enter the annual dollar cost per housing unit: _______ and the number of units: _______

5. Are there comparable Federal regulations?  
   □ Yes  □ No  
   Explain the need for State regulation given the existence or absence of Federal regulations:

   Enter any additional costs to businesses and/or individuals that may be due to State - Federal differences: $ __________

C. ESTIMATED BENEFITS (Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.)

1. Briefly summarize the benefits that may result from this regulation and who will benefit:

2. Are the benefits the result of:  
   □ specific statutory requirements, or  □ goals developed by the agency based on broad statutory authority?  
   Explain:

3. What are the total statewide benefits from this regulation over its lifetime? $ __________

D. ALTERNATIVES TO THE REGULATION (Include calculations and assumptions in the rulemaking record. Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.)

1. List alternatives considered and describe them below. If no alternatives were considered, explain why not:

2. Summarize the total statewide costs and benefits from this regulation and each alternative considered:

   Regulation:  
   Benefit: $ _______  
   Cost: $ _______

   Alternative 1:  
   Benefit: $ _______  
   Cost: $ _______

   Alternative 2:  
   Benefit: $ _______  
   Cost: $ _______

3. Briefly discuss any quantification issues that are relevant to a comparison of estimated costs and benefits for this regulation or alternatives:

4. Rulemaking law requires agencies to consider performance standards as an alternative, if a regulation mandates the use of specific technologies or equipment, or prescribes specific actions or procedures. Were performance standards considered to lower compliance costs?  
   □ Yes  □ No  
   Explain:

E. MAJOR REGULATIONS (Include calculations and assumptions in the rulemaking record.) Cal/EPA boards, offices, and departments are subject to the following additional requirements per Health and Safety Code section 57005.
ECONOMIC AND FISCAL IMPACT STATEMENT cont. (STD. 399, Rev. 12/2008)

1. Will the estimated costs of this regulation to California business enterprises exceed $10 million?  
   □ Yes  □ No (If No, skip the rest of this section.)

2. Briefly describe each equally as an effective alternative, or combination of alternatives, for which a cost-effectiveness analysis was performed:
   Alternative 1: ____________________________
   Alternative 2: ____________________________

3. For the regulation, and each alternative just described, enter the estimated total cost and overall cost-effectiveness ratio:

   Regulation: $ __________ Cost-effectiveness ratio: $ __________
   Alternative 1: $ __________ Cost-effectiveness ratio: $ __________
   Alternative 2: $ __________ Cost-effectiveness ratio: $ __________

FISCAL IMPACT STATEMENT

A. FISCAL EFFECT ON LOCAL GOVERNMENT (Indicate appropriate boxes 1 through 6 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

   1. Additional expenditures of approximately $ __________ in the current State Fiscal Year which are reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Sections 17500 et seq. of the Government Code. Funding for this reimbursement:
      □ a. is provided in ________ , Budget Act of ________ or Chapter ________ , Statutes of ________.
      □ b. will be requested in the ________ Governor's Budget for appropriation in Budget Act of ________ (FISCAL YEAR).

   2. Additional expenditures of approximately $ __________ in the current State Fiscal Year which are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Sections 17500 et seq. of the Government Code because this regulation:
      □ a. implements the Federal mandate contained in ________
      □ b. implements the court mandate set forth by the ________ court in the case of ________ vs. ________
      □ c. implements a mandate of the people of this State expressed in their approval of Proposition No. ________ at the ________ (DATE) election;
      □ d. is issued only in response to a specific request from the ________, which is/are the only local entity(s) affected;
      □ e. will be fully financed from ________ authorized by Section ________ Code;
      □ f. provides for savings to each affected unit of local government which will, at a minimum, offset any additional costs to each such unit;
      □ g. creates, eliminates, or changes the penalty for a new crime or infraction contained in ________

   3. Savings of approximately $ __________ annually.

✓ 4. No additional costs or savings because this regulation makes only technical, non-substantive or clarifying changes to current law regulations.
B. FISCAL EFFECT ON STATE GOVERNMENT (Indicate appropriate boxes 1 through 4 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

1. Additional expenditures of approximately $__________ in the current State Fiscal Year. It is anticipated that State agencies will:
   - a. be able to absorb these additional costs within their existing budgets and resources.
   - b. request an increase in the currently authorized budget level for the _________ fiscal year.

2. Savings of approximately $__________ in the current State Fiscal Year.

3. No fiscal impact exists because this regulation does not affect any State agency or program.

4. Other. Continuing eligibility to CSR funding would restore unknown and potentially significant state costs, depending on the number of schools that had previously participated in the CSR program and had lost funding due to being renewed by a different authorized...

C. FISCAL EFFECT ON FEDERAL FUNDING OF STATE PROGRAMS (Indicate appropriate boxes 1 through 4 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.)

1. Additional expenditures of approximately $__________ in the current State Fiscal Year.

2. Savings of approximately $__________ in the current State Fiscal Year.

3. No fiscal impact exists because this regulation does not affect any federally funded State agency or program.

4. Other.

---

1. The signature attests that the agency has completed the STD.399 according to the instructions in SAM sections 6501-6516, and understands the impacts of the proposed rulemaking. State boards, offices, or department not under an Agency Secretary must have the form signed by the highest ranking official in the organization.

2. Finance approval and signature is required when SAM sections 6501-6516 require completion of Fiscal Impact Statement in the STD.399.

Fiscal Impact Statement

Fiscal Effect on Local Government

No additional costs or savings because this regulation makes only technical, non-substansive or clarifying changes to current law regulations.

Fiscal Effect on State Government

Continuing eligibility to CSR funding would restore unknown and potentially significant state costs, depending on the number of schools that had previously participated in the CSR program and had lost funding due to being renewed by a different authorizer.

Fiscal Effect on Federal Funding of State Programs

No fiscal impact exists because this regulation does not affect any federally funded State agency or program.

ITEM 18
CALIFORNIA STATE BOARD OF EDUCATION

September 2011 AGENDA

SUBJECT
Assignment of Numbers for Charter School Petitions.

☐ Action
☐ Information
☐ Public Hearing

RECOMMENDATION

The California Department of Education (CDE) recommends that the State Board of Education (SBE) assign charter numbers to the charter schools identified on the attached list.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The SBE is responsible for assigning a number to each approved charter petition. CDE staff presents this routine request for assignment of charter numbers as a standard action item.

Since the charter school law was enacted in 1992, the SBE has assigned numbers to 1360 charter schools, including some approved by the SBE after denial by local educational agencies. Separate from that numbering system, eight all-charter districts which currently serve a total of 18 school sites, have been jointly approved by the State Superintendent of Public Instruction and the SBE.

SUMMARY OF KEY ISSUES

California law allows for the establishment of charter schools. A charter school is typically approved by a local school district or county office of education. The entity that approves a charter is also responsible for ongoing oversight. A charter school must comply with all the provisions of its charter, but is exempt from many statutes and regulations governing school districts.
SUMMARY OF KEY ISSUES (Cont.)

California Education Code Section 47602 requires the SBE to assign a number to each charter school that has been approved by a local entity in the chronological order in which it was received. This numbering ensures that the state stays within a statutory cap on the total number of charter schools authorized to operate. The statutory cap for fiscal year 2011–12 is 1,550. The statutory cap is not subject to waiver.

The charter schools listed in Attachment 1 were recently approved by local boards of education as noted. Copies of the charter petitions are on file in the Charter Schools Division.

FISCAL ANALYSIS (AS APPROPRIATE)

There is no fiscal impact to the state resulting from the assignment of numbers to recently authorized charter schools.

ITEM 19
CALIFORNIA STATE BOARD OF EDUCATION

September 2011 AGENDA

SUBJECT
Revisions to the California School Accounting Manual.

SUMMARY OF THE ISSUE(s)

California Education Code Section 41010 provides that the accounting system used to record the financial affairs of school districts shall be in accordance with the California School Accounting Manual (CSAM) as approved by the State Board of Education (SBE). The California Department of Education (CDE) updates CSAM periodically to reflect changes such as new accounting pronouncements or legislative actions. Since CSAM was last updated, there have been several important changes affecting school district accounting and financial reporting. These have been disseminated to users through meetings and by letter, and must now be incorporated into the manual.

RECOMMENDATION

The CDE requests that the SBE approve the proposed revisions to the CSAM.

BRIEF HISTORY OF KEY ISSUES

The CDE is responsible for providing clear, consistent, and current advice and direction to local educational agencies (LEAs) on matters relating to budgeting, accounting, financial reporting, and fiscal solvency.

Changes necessitating revisions to CSAM include modifications to the standardized account code structure (SACS) codes, new Governmental Accounting Standards Board (GASB) pronouncements, and legislative actions affecting administration of federal and state educational programs.

This update of the CSAM includes changes and additions relating to:

1) Recent accounting pronouncements, particularly GASB Statement 54.
2) Changes in federal and state program requirements.
3) Clarification of guidance in response to inquiries from LEAs.
BRIEF HISTORY OF KEY ISSUES

The CDE formulates its guidance with input from school district and county office of education representatives including the School Financial Services Subcommittee, a subcommittee of the California County Superintendents Educational Services Association; the SACS Forum, a group of LEA staff and auditors with whom the CDE meets periodically; and smaller working groups of subject-matter experts. The most significant updates in the proposed revisions have been disseminated previously through meetings and by letter.

A summary of the proposed changes is provided as Attachment 1. The CSAM procedures containing the changes are provided as Attachments 2-33.

Note that italics in the attached documents indicate optional codes or emphasized items; they do not indicate changes. Also note that due to the inclusion of board agenda headers, some formatting or page breaks appear differently in the attachments than they will appear in the published manual.

The CSAM revisions will be reviewed by CDE Press before the manual is published. Any editing changes made subsequent to the SBE’s approval will be non-substantive.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

The SBE last approved revisions to the CSAM in March 2008.

FISCAL ANALYSIS (AS APPROPRIATE)

The updated CSAM sections, as well as the complete CSAM, will be available for download from the CDE’s Web site at no charge. CDE Press will continue to have printed copies available for purchase.

<tr>
<th>Procedure</th>
<th>Summary of Changes</th>
</tr>
</thead>
<tbody>
<tr>
<td>105 – Fund Accounting</td>
<td>• Clarified guidance regarding restricted programs and activities within the general fund to incorporate the revised definition of restricted balances, per GASB Statement 54</td>
</tr>
<tr>
<td>205 – The Accounting Cycle</td>
<td>• Revised the title of Object 9790, replacing “Undesignated” with “Unassigned,” per GASB Statement 54</td>
</tr>
</tbody>
</table>
| 210 – Budgetary Accounting | • Updated ending balance object codes and titles, per GASB Statement 54  
• Renamed the section “Recording Budgeted Reserves” to “Recording Budgeted Components of Fund Balance” and updated the associated guidance to conform with GASB Statement 54 |
| 215 – Audit Adjustments | • Revised the terminology used for fund balance components in the example of determining audit adjustment materiality, to conform with GASB Statement 54  
• Added language to clarify that Object 9793 and Object 9795 should not be used with SACS resource codes subject to deferred revenue rather than fund balance |
| 305 – Fund Classification | • Added language stating that guidance may include information that is temporarily superseded by flexibility provisions of SBX3 4 and SB 70  
• Added “(Obsolete as of 2009-10)” to the titles and definitions of optional Fund 03 and Fund 06  
• Added new Fund 10, Special Education Pass-Through Revenue Fund  
• Added reference to Procedure 750 in the definition of Fund 76 |
| 310 – Resource (Project/Reporting) Classification | • Removed references to amounts “designated,” to conform with GASB Statement 54  
• Updated the fiscal year references for obsolete resource codes  
• Deleted outdated resource codes, including resource codes ending as a result of statutory ending balance flexibility  
• Added various new resource codes  
• Added final fiscal year designation “(09-10)” to obsolete resource codes  
• Revised the titles of various resource codes  
• Struck through resource codes inactivated as a result of statutory categorical flexibility, and added explanatory footnote that resource codes are inactive due to flexibility |
## California School Accounting Manual
### Summary of Proposed Changes
#### September 2011

<table>
<thead>
<tr>
<th>Procedure</th>
<th>Summary of Changes</th>
</tr>
</thead>
</table>
| 320 – Goal Classification | • Replaced “ROC/P” with “ROCP”
  • Clarified the definition of Goal 1110, Regular Education, K -12, for circumstances in which a county office of education would use this goal |
| 325 – Function Classification | • Added language stating that guidance may include information that is temporarily superseded by flexibility provisions of SBX3 4 and SB 70
  • Updated program reference in the Function 2100 description
  • Updated regulatory reference in the Function 3110 description
  • Clarified the definition of optional Function 7410, Staff Development for noninstructional staff, to distinguish it from the optional instructional staff development Function 2140
  • Clarified the definition of Function 7700, Centralized Data Processing, to emphasize its use for agencywide data processing services of an administrative nature |
| 330 – Object Classification | • Added language stating that guidance may include information that is temporarily superseded by flexibility provisions of SBX3 4 and SB 70
  • Object 4300, Materials and Supplies – expanded definition to clarify that it would include items that are not consumable but that do not meet either the capitalization threshold or the inventory threshold
  • Object 5100, Subagreements for Services – revised the definition to provide that the first $25,000 of subagreements for services chargeable to Object 5800 is per year, not per subagreement, to reflect recent change in federal direction
  • Object 5450, Other Insurance (Optional) – expanded the definition to emphasize that employee health insurance is not chargeable to this object code
  • Object 6400, Equipment – clarified the definition for types of software purchases considered equipment, and what costs should be included in the acquisition cost of equipment
  • Object 8046, Supplemental Educational Revenue Augmentation Fund (SERAF) – added new object code
  • Object 8435, Class Size Reduction, Grades K – 3 – added “(Inactive effective 2009-10 due to statutory categorical flexibility)” to the title and definition |
## Procedure

<table>
<thead>
<tr>
<th>Summary of Changes</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Object 8480</strong>, Charter Schools Categorical Block Grant – added “(Inactive effective 2009-10 due to statutory categorical flexibility)” to the title and definition</td>
</tr>
<tr>
<td><strong>Object 8540</strong>, Deferred Maintenance Allowance – added “(Inactive effective 2009-10 due to statutory categorical flexibility)” to the title and definition</td>
</tr>
<tr>
<td><strong>Object 8629</strong>, Penalties and Interest from Delinquent Non-Revenue Limit Taxes – corrected hyphenation</td>
</tr>
<tr>
<td><strong>Object 8973</strong>, Proceeds from Lease Revenue Bonds – clarified definition by removing reference that special reserve fund for capital projects does not allow lease revenue bond transactions</td>
</tr>
<tr>
<td><strong>Object 8995</strong>, Categorical Education Block Grant Transfers – added “(Inactive effective 2009-10 due to statutory categorical flexibility)” to the title and definition</td>
</tr>
<tr>
<td><strong>Object 8997</strong>, Transfers of Restricted Balances – added “(Valid 2003-04, 2008-09 and 2009-10 only)” to the title and definition, and clarified the definition to include reference to SBX3 4</td>
</tr>
<tr>
<td><strong>Object 8998</strong> – revised title from “Categorical Flexibility Transfers per Budget Act Section 12.40” to “Categorical Flexibility Transfers,” and added “(Inactive as of 2009-10).” Clarified the definition to distinguish the use of this object in 2008-09 versus its use in prior years for Budget Act Section 12.40 transfers</td>
</tr>
<tr>
<td><strong>Objects 9700 through 9790</strong> – retained pre-GASB 54 codes, titles, and definitions, clarifying that they are valid through 2010-11, and added new section of GASB 54-compliant codes, titles, and definitions, clarifying that they are effective beginning 2011-12</td>

<tr>
<th>Section</th>
<th>Proposed Changes</th>
</tr>
</thead>
</table>
| 720 – Certificates of Participation | - Revised the COPs reserve account description with the appropriate fund balance classification, per GASB Statement 54  
- Updated ending balance object codes titles, per GASB Statement 54  
- Replaced Undesignated/Unappropriated with Unassigned/Unappropriated, per GASB Statement 54  
- Replaced Reserve for All Others with All Other Nonspendable Assets, per GASB Statement 54 |
| 730 – Short-Term Borrowings | - New procedure added to provide guidance regarding options and accounting for short-term borrowing |
| 750 – Pass-Through Grants and Cooperative Projects | - Added language that guidance may include information that is temporarily superseded by flexibility provisions of SBX3 4 and SB 70  
- Expanded guidance on the cash conduit pass-through model to include accounting for certain types of funding passed through by authorizing LEAs to charter schools |
| 755 – Special Education | - Added a new section that provides an overview of the SELPA  
- Added a new section that describes SELPA AU pass-through activities and the use of the new Fund 10, Special Education Pass-Through Revenue Fund, for those activities  
- Updated examples throughout to reflect the addition of Fund 10 |
| 760 – Regional Occupational Centers/Programs (ROCPs) | - Added language that guidance may include information that is temporarily superseded by flexibility provisions of SBX3 4 and SB 70  
- Replaced “ROC/P” with “ROCP”  
- Corrected title of Object 1100 from “Teachers’ Salaries” to “Certificated Teachers’ Salaries” |
| 770 – Distinguishing Between Supplies and Equipment | - Clarified what to include in the cost of an item when determining whether it should be capitalized |
### California School Accounting Manual
##### Summary of Proposed Changes
##### September 2011

| 775 – Accounting for Internal Service Funds | • Expanded guidance regarding recording claim or judgment payments in the self-insurance fund to emphasize the use of the appropriate object code  
• Added guidance and an illustration for recording reimbursements to the general fund for costs of administering self-insurance activities |
| 805 – Joint Powers Agreements/Agencies (JPAs) | • Added language stating that guidance may include information that is temporarily superseded by flexibility provisions of SBX3 4 and SB 70  
• Replaced “ROC/P” with “ROCP” |
| 810 – Charter Schools | • Updated reference to GASB authoritative literature regarding reporting entities  
• Clarified guidance regarding the use of functions in Fund 62  
• Objects 9700 – 9790 – retained pre-GASB 54 codes and titles clarifying that they are valid through 2010-11, and added new section of GASB 54-compliant codes and titles, clarifying that they are effective 2011-12  
• Added new Object 9796, Capital Assets, Net of Related Debt  
• Added new Object 9797, Restricted Net Assets |
| 905 – Documenting Salaries and Wages | • Clarified guidance that federal cost principles cited in the procedure apply only to federal programs that are subject to those principles, to allow for exceptions such as ARRA State Fiscal Stabilization or Ed Jobs Funds  
• Added notation regarding exception to time accounting requirements for employees who work 100% on a Schoolwide Program (SWP) plan at a school that has all programs consolidated in its SWP. |
| 910 – Program Cost Accounting | • Updated to reflect recent inclusion of charter schools funds in the Program Cost Report |
| 915 – Indirect Cost Rate | • Added link to Web site where delegation agreement number and effective date of current indirect cost plan can be found  
• Added language to emphasize that indirect costs are a subset of administrative costs, at USDE’s request  
• Updated guidance to reflect recent changes to CDE’s approved indirect cost plan, primarily relating to how the carry-forward adjustment for over- or under-recovery of indirect costs is calculated  
• Updated guidance for minor changes to amounts included in the numerator and denominator of the indirect costs calculation |
# California School Accounting Manual
## Summary of Proposed Changes
### September 2011

| Appendix A – Analysis of Salaries | Corrected the function code for certain Teacher (Object 1100) classifications |
|Appendix B – Normal Balances of Balance Sheet Accounts | Updated ending balance objects codes and titles per GASB Statement 54 |
| | Added new Object 9796, Capital Assets, Net of Related Debt |
| | Added new Object 9797, Restricted Net Assets |

| Glossary of Terms | Capital Project Funds – clarified definition to conform with GASB Statement 54 |
| | Designation for Economic Uncertainties – removed definition and added notation to refer to “Reserve for Economic Uncertainties” |
| | General fixed asset account group and general group of long term debt accounts – deleted obsolete term and definition |
| | General group of long term debt accounts – deleted obsolete term and definition |

Procedure 105  Fund Accounting

Accounting is the fiscal information system for business. The function of all accounting systems is to present fairly and with full disclosure the financial position and results of operations of a business in conformity with generally accepted accounting principles.

Local educational agencies (LEAs), like all other types of businesses, use accounting to record, analyze, and summarize their financial activities and status. Once the information is accumulated, it is the accountant's responsibility to evaluate, interpret, and communicate the results to all interested parties.

Definition and Purpose of Funds

LEA accounting (governmental accounting) shares many characteristics with commercial accounting, but it has its own information needs and reporting requirements. One of these is to enable LEAs to determine and demonstrate compliance with finance-related legal, budgetary, and contractual provisions and restrictions on the use of public resources. LEA accounting systems, like those of other governmental units, are organized and operated on a fund basis. Accounting for LEAs is referred to as fund accounting. The authoritative definition of a fund according to generally accepted accounting principles (GAAP) is the following:

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The principal role of funds is to demonstrate fiscal accountability. The financial transactions of LEAs are separated into various funds in order to permit administrators to ensure, and report on, compliance with the laws and regulations that affect LEAs.

Categories and Types of Funds
Procedure 105  Fund Accounting

The following table shows the three categories of funds defined by GAAP, the eleven types of funds within those three categories, and the measurement focus and basis of accounting used in each.

LEAs may establish and maintain those funds authorized by the California School Accounting Manual. (Individual fund types for use by California LEAs are discussed in Procedure 305.)

An LEA may maintain more than one of any type of fund except for the general fund. However, unnecessary funds result in undue complexity and inefficient financial administration. The number of funds principle provides that LEAs should use only the minimum number of funds required by law, sound financial administration, and operating requirements.

*Governmental funds* are used to account for activities that are governmental in nature. Governmental activities are typically tax-supported and include education of pupils, operation of food service and child development programs, construction and maintenance of school facilities, and repayment of long-term debt.

Of the eleven fund types defined by GAAP, five are governmental:
The *general fund* is the main operating fund of the LEA. It is used to account for all activities not accounted for in another fund. In keeping with the minimum number of funds principle, all of an LEA's activities are reported in the general fund unless there is a compelling reason to account for an activity in another fund. An LEA may have only one general fund.

*Special revenue funds* are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes, other than debt service or capital projects, and that compose a substantial portion of the inflows of the fund. Examples include the Cafeteria Special Revenue Fund and the Child Development Fund. (See "Restricted Programs and Activities Within the General Fund" later in this procedure.) The specific restricted or committed revenue sources should be expected to continue to be a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

*Capital projects funds* are used to account for financial resources that are restricted, committed, or assigned to be used for the acquisition or construction of major capital facilities and other capital assets other than those financed by proprietary funds and trust funds. An LEA's use of a capital projects fund does not mean that the LEA should account for all capital acquisition in that fund; routine purchases of capitalizable items are typically reported in the general fund. A capital projects fund should be used only for major capital acquisition or construction activities that would distort trend data if not reported separately from an LEA's operating activities. Examples are the Building Fund and the County School Facilities Fund.

*Debt service funds* are used to account for the accumulation of restricted, committed, or assigned resources for, and the payment of, principal and interest on general long-term debt. Debt service funds should be used when financial resources are being accumulated for principal and interest payments maturing in future years or when required by law. An example is the Bond Interest and Redemption Fund.
Permanent funds are used to report resources for which a formal trust agreement exists and that are restricted to the extent that the earnings, but not the principal, may be used for purposes that support the LEA's own programs.

Proprietary funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the LEA, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting.

Two of the eleven fund types defined by GAAP are proprietary:

Enterprise funds may be used to account for activities for which fees are charged to external users for goods or services. An enterprise fund must be used for any activity for which issued debt is backed solely by fees and charges and for any activity for which there is a legal requirement or a policy decision that the cost of providing services, including capital costs such as depreciation or debt service, be recovered through fees or charges. In practice, enterprise funds are sometimes used to account for activities that are only partially funded through user fees and charges, to highlight the costs of the services provided by the activity and to highlight the portion of costs borne by taxpayers. Examples are the Cafeteria Enterprise Fund and the Charter Schools Enterprise Fund.

Internal service funds are used to account for goods or services provided on a cost reimbursement basis to other funds or departments within the LEA and, occasionally, to other agencies. If other agencies are involved, the use of an internal service fund is appropriate only if the LEA is the predominant participant; otherwise, an enterprise fund should be used. The goal of an internal service fund is to measure and recover the full cost of providing goods or services through user fees or charges, normally on a break-even basis, including the cost of capital assets used in providing the service. Examples are the Self-Insurance Fund and the Warehouse Revolving Fund.

Fiduciary funds are used to account for assets held by the LEA in a trustee or agency capacity for others that cannot be used to support the LEA's own programs.
Four of the eleven funds types defined by GAAP are fiduciary:

*Pension (and other employee benefit) trust funds* are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans. An example is the Retiree Benefit Fund.

*Investment trust funds* are used by governmental agencies such as the county treasurer to report external investment pools of mingled resources. LEAs do not use investment trust funds.

*Private-purpose trust funds* are used to report formal trust arrangements under which principal and interest benefit other individuals, private organizations, or other governments. An example is the Foundation Private-Purpose Trust Fund.

*Agency funds* are used to account for resources in which the LEA's role is purely custodial, such as the receipt and remittance of fiduciary resources to individuals or other governments. All assets reported in an agency are offset by a corresponding liability to the party on whose behalf they are held. Examples are the Warrant/Pass-Through Fund and the Student Body Fund.

### Restricted Programs and Activities Within the General Fund

In California LEAs, restricted programs or activities relating to the operation of kindergarten through grade twelve (K–12) educational programs are considered a part of ordinary operations and are accounted for in the general fund rather than in a special revenue fund. Within the general fund, restricted programs or activities must be identified, accounted for, and reported separately. This requirement means that general fund activities will be divided into restricted and unrestricted segments. This is achieved through the use of the resource field of the standardized account code structure. (The resource field is discussed in Procedure 310.)

Restricted programs or activities are those funded from revenue sources subject to constraints imposed by external resource providers or by law through constitutional provisions or enabling legislation. Unrestricted
Procedure 105  Fund Accounting

revenues are those funds whose uses are not subject to external or legal constraints and may be used for any purposes not prohibited by law. Programs funded by a combination of restricted and unrestricted sources, where the contribution of unrestricted resources is required as a condition of funding or is necessary in order to operate the program, are accounted for and reported as restricted.

Funds or activities that are not subject to external or legal constraints, but rather are earmarked for particular purposes by the LEA's governing board, are accounted for and reported as unrestricted. LEAs need to review local revenue received from external sources to determine whether legally enforceable restrictions apply for purposes of accounting for the revenues as restricted or unrestricted.
The accounting cycle is a set of procedures performed to keep track of and report the financial effects of economic transactions and events directly affecting the LEA's operations and financial condition. The accounting cycle is also known as the accounting process.

Sequence of the Accounting Cycle

The accounting cycle consists of three phases: the recording phase, the summarizing and reporting phase, and the closing phase. This process is referred to as a cycle because the sequence is perpetually repeated. It consists of the following steps:

**Recording phase**—These steps are done throughout the year:

1. A source document is prepared or received for a transaction or event that has occurred. Source documents include items such as purchase orders, invoices, vouchers, checks, and receipts.
2. The transaction is analyzed to determine the fund to which it relates and to which it will be posted.
3. The transaction is analyzed to determine which object accounts within the fund are affected (e.g., cash, accounts receivable, accounts payable, revenue, expenditure) and its other identifying characteristics, such as the resource, goal, and function. The transaction will be double-entry and will result in an increase or a decrease in the balance of each account involved.
4. The transaction is recorded in the appropriate journal.
5. From the journal, the entries are posted to the appropriate accounts in the general ledger and, where applicable, in the subsidiary ledgers. At this point, the transactions are separated by fund as well as classified according to the different components of the standardized account code structure.

**Summarizing and reporting phase**—These steps are done periodically during the year and at the end of the year:
Procedure 205  The Accounting Cycle

6. Account balances are computed, and a trial balance is prepared.

7. Adjusting entries are prepared in the journals and posted in the general ledger and, where applicable, in the subsidiary ledgers.

8. An adjusted trial balance is prepared.

9. Financial statements and other reports are prepared.

Closing Phase—These steps are done at the end of the year:

10. Nominal accounts are closed, and a post-closing trial balance is prepared.

11. As an optional step, reversing entries may be prepared at the beginning of the following year. Reversing entries are discussed later in this procedure.

Budgetary Accounting

In an LEA operation, as in any governmental operation, part of the cycle will include recording the adopted budget at the beginning of the year, modifying that budget during the year, and encumbering appropriations during the year. (Budgetary accounting entries are discussed in Procedure 210.)

Source Documents

Generally, a source document is generated when a transaction occurs. These documents are the original records of financial transactions. They provide detailed information about the transactions, such as the nature, date, and amount of the transaction and the parties involved. They are an integral part of the accounting system as they provide a means of verifying the data recorded in the books of accounts. No entry should be made in the books without a supporting source document.

Examples of source documents are the following:

- Adopted budget—the basis for recording the budget
Procedure 205 The Accounting Cycle

- Checks and check stubs—the basis for cash disbursements
- Purchase invoices and receiving receipts—support for purchases
- Cash logs or similar record—support for cash receipts

Analyzing Transactions

Before a transaction is recorded in the books, it must first be analyzed to determine which funds and accounts are affected by the transaction and how they are affected. Analyzing a transaction involves the following steps:

1. Identify which fund or funds are affected by the transaction.
2. Identify the accounts in the other five SACS fields (resource, goal, project year, function, and object) that are involved in the transaction.
3. Determine whether each account combination increased or decreased to determine what will be debited and what will be credited.
4. Determine the amount by which each account combination was affected.

After this analysis the accounting entry can be determined. To illustrate, assume the following three September transactions for a school district:

1. On September 15, 2003, it received $100,000.00 from the California Department of Education for a No Child Left Behind (NCLB) grant under Title I, Part A, Basic Grants Low-Income and Neglected.
2. On September 23, it purchased $510.00 in office supplies.
3. On September 30, it paid teacher salaries of $15,000.00.

All these transactions affect Cash in County Treasury, as a result of receiving grant revenue and paying for office supplies and teachers salaries.

The following are the sample three entries. For simplicity, only the object account is illustrated here; use of the full SACS account code structure is discussed in Procedure 301.

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>

<td>Materials and Supplies</td>
<td>4300</td>
<td>510.00</td>
<td>510.00</td>
</tr>
<tr>
<td></td>
<td>Cash in County Treasury</td>
<td>9110</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

To record the purchase of office supplies.

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>9-30-xx</td>
<td>Certificated Teachers' Salaries</td>
<td>1100</td>
<td>15,000.00</td>
<td>15,000.00</td>
</tr>
<tr>
<td></td>
<td>Cash in County Treasury</td>
<td>9110</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

To record payment of teachers salaries for Sept. xxxx.

Note that Cash in County Treasury, an asset account, is debited for an increase and credited for a decrease; the revenue account is credited for an increase; and the expenditure accounts are debited for an increase. The table below shows how accounts are increased or decreased by debit and credit entries:

<table>
<thead>
<tr>
<th>To increase the account</th>
<th>Assets</th>
<th>Liabilities</th>
<th>Fund Balance</th>
<th>Revenues</th>
<th>Expenditures</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Debit</td>
<td>Credit</td>
<td>Credit</td>
<td>Credit</td>
<td>Debit</td>
</tr>
<tr>
<td>To decrease the account</td>
<td>Credit</td>
<td>Debit</td>
<td></td>
<td>Debit</td>
<td>Credit</td>
</tr>
</tbody>
</table>

The "To increase the account" row in this table shows the "normal" balance for an account (e.g., assets normally have a debit balance). A starting point to tell if an account balance is correct is to check if it has a normal balance.

Recording Transactions in Journals

The entry determined from the analysis of a transaction will be recorded in the journals. The entries shown previously are in the form of a general journal entry, which shows the debit, credit, and explanation for each entry in addition to the date and amount. In actual practice, the entries may be entered in special journals, such as the cash receipts journal, the cash
Procedure 205  The Accounting Cycle

disbursements journal, and the payroll journal. The entries made in the special journals will still have the debit and credit sides of the entries, although the formats of the journals vary.

In computerized systems, the data entered in the journals by the user may be just one side of the entry rather than a debit and a credit because the system will automatically make the opposite side of the entry. For example, in the cash receipts journal, the only data entered for a transaction might be the revenue received (the credit) and not the increase in cash (the debit). In posting the transactions to the ledger, the system automatically debits the cash account, either for each individual entry made in the journal or for the total of the entries in a batch. Therefore, there is no need to enter the debit to cash for every journal entry since the system follows the double-entry method of recording transactions.

Posting to the Ledger

The next step in the accounting cycle is posting the journal entries to the general ledger and, where applicable, to the subsidiary ledger(s). The term posting means transferring to the general ledger and, where applicable, to the subsidiary ledger(s), the individual amounts or summary totals of accounts entered in the journals.

Each amount or total is posted to the proper account in the ledger as either a debit or a credit. In the previous examples, the amounts affecting Cash in County Treasury will be posted in the general ledger as follows:

<table>
<thead>
<tr>
<th>Account 9110</th>
<th>Cash in County Treasury</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date</td>
<td>Ref #</td>
</tr>
<tr>
<td>7-01-xx</td>
<td>Beg. Bal.</td>
</tr>
<tr>
<td>9-15-xx</td>
<td>J1</td>
</tr>
<tr>
<td>9-23-xx</td>
<td>J2</td>
</tr>
<tr>
<td>9-30-xx</td>
<td>J3</td>
</tr>
</tbody>
</table>

Note that an entry is made in either the debit or credit column, and its result is reflected in the balance column. Since this is an asset account, the balance increases with a debit entry and decreases with a credit entry. An entry is also made in the last column to show that the new balance of the account is a debit (Dr).
Procedure 205  The Accounting Cycle

Part of the posting process is calculating the balances of the general ledger accounts. An account balance is simply the difference between the debit and credit entries posted in an account; it will be either a debit or a credit amount. Computerized accounting systems automatically calculate the account balances as entries are posted to the general ledger.

The "Reference" column is used to show the page number or other reference for the source of the entry. In this illustration, "J1" was entered for the September 15 transaction to indicate that the information for this posting came from the general journal (abbreviated as "J") and that it was entry number 1. Other references will be used depending on the actual journal from which the postings came. Through this method, any item in the general ledger can be traced easily to its origin.

In manual systems, posting of transactions to the general ledger is done periodically, usually once a month. In most computerized accounting systems, there is no need for a special posting process to be run at specified intervals; entries made in the journals are simultaneously posted by the system to the general ledger, and the account balances are automatically computed. Regardless of the recordkeeping method used, the basic principles of posting remain the same.

Trial Balance and Adjustments

The next step in the accounting cycle is the preparation of a trial balance. A trial balance is a listing of all the general ledger accounts and their balances. It is prepared periodically to verify that accounts are in balance. It is also helpful in verifying the accuracy of account balances and in preparing financial statements. If the account balances are correct, the total of the debits in the trial balance will equal the total of the credits, but the reverse is not necessarily true. The fact that the total debits equal the total credits does not necessarily mean that the account balances are correct.

After the trial balance has been prepared, the LEA can determine what adjustments, if any, are needed in the accounts. This does not mean that adjustments to the accounts are ascertained only after a trial balance has been prepared; adjustments needed to correct an account balance can be identified without preparing a trial balance. Using a trial balance facilitates the overall review of the accounts. Year-end adjustments include recording deferred revenue, prepaid expenditures, and accrued liabilities.
and making any necessary correcting entries. Adjustments are entered in the journal(s) and posted in the general ledger and, where applicable, in the subsidiary ledgers.

**Adjustments of Prior Year's Accruals**

Adjustments are sometimes necessary for differences between amounts accrued as receivable or payable in the prior year and amounts actually received or paid during the current year. Differences could result when accruals are estimated because the exact amounts are not available at the time of the accrual or amounts accrued do not materialize. In such cases, the adjustments should be made to current year's revenue or expenditure accounts, not to the fund balance account.

For example, assume that the LEA overestimated its revenue accounts receivable in the prior year by the following amounts:

<table>
<thead>
<tr>
<th>Revenue source</th>
<th>Prior year's accrual</th>
<th>Actually received</th>
<th>Difference (adjustment)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vocational Program</td>
<td>$20,000.00</td>
<td>$18,000.00</td>
<td>-$2,000.00</td>
</tr>
<tr>
<td>Adult Education</td>
<td>15,000.00</td>
<td>14,000.00</td>
<td>-$1,000.00</td>
</tr>
<tr>
<td>Total Adjustment</td>
<td></td>
<td></td>
<td>-$3,000.00</td>
</tr>
</tbody>
</table>

The $3,000.00 difference will be recorded as a reduction (debit) to the current year's revenue rather than as a restatement (reduction) of the beginning fund balance.

If the differences between the accrued and the actual amounts are due to errors and are material, such as accruing significant liabilities for expenditures that were not actually incurred, they should be recorded as a restatement of the beginning fund balance.

**Financial Statements**

After the adjustments have been posted and the new balances calculated, an adjusted trial balance can be prepared to verify that accounts are still in balance and to check if the account balances are now accurate. This process can be repeated until the LEA has ascertained the account balances are correct, at which time the financial statements can be prepared.
LEA financial statements and reporting are discussed in Procedure 101.

Closing the General Ledger

At the end of each fiscal year, after the LEA has prepared the financial statements, the books are "closed." Closing the books is the accounting process in which the budgetary accounts (estimated revenues, appropriations, and encumbrances) are zeroed out and the actual "temporary" or "nominal" accounts (revenue and expenditure accounts) are closed out to the fund balance. Any excess of revenues over expenditures is added to the fund balance; any excess of expenditures over revenues is deducted from the fund balance. Closing the books separates financial transactions by year and measures the results of operations of a fund for the year.

The following closing journal entries will be necessary at the end of year:

To Close Estimated Revenue and Appropriations:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>6-30-xx</td>
<td>Appropriations</td>
<td>9820</td>
<td>xxxx</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Unassigned/Unappropriated Fund Balance</td>
<td>9790</td>
<td>xxxx</td>
<td>xxxx</td>
</tr>
<tr>
<td></td>
<td>Estimated Revenue</td>
<td>9810</td>
<td>xxxx</td>
<td></td>
</tr>
</tbody>
</table>

To close the estimated revenue and appropriation accounts.

To Close Encumbrances:

All of the encumbrances that are outstanding at the end of the year are disencumbered as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>6-30-xx</td>
<td>Reserve for Encumbrances</td>
<td>9720</td>
<td>xxxx</td>
<td>xxxx</td>
</tr>
<tr>
<td></td>
<td>Encumbrances</td>
<td>9830</td>
<td>xxxx</td>
<td>xxxx</td>
</tr>
</tbody>
</table>

To close the encumbrance account.

To Close Revenues and Expenditures:
Procedure 205   The Accounting Cycle

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>06-30-xx</td>
<td>Revenue accounts</td>
<td>(Various)</td>
<td>xxxx</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Other financing sources accounts</td>
<td>(Various)</td>
<td>xxxx</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Expenditure accounts</td>

<td>xxxx</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Other financing uses accounts</td>
<td>(Various)</td>
<td>xxxx</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Unassigned/Unappropriated Fund Balance</td>
<td>9790</td>
<td>xxxx</td>
<td></td>
</tr>
</tbody>
</table>

To close the revenue and expenditure accounts.

Note that the Unassigned/Unappropriated Fund Balance will be debited if the total of the revenues and other financing sources is less than the total of the expenditure and other financing uses.

After the books have been closed, a post-closing trial balance can be prepared. If the closing entries were done and posted correctly, only the "real" or "permanent" accounts (balance sheet accounts) will have balances in the post-closing trial balance. These are the account balances that will be carried forward as beginning balances in the new fiscal year.

Reversing Entries

If an LEA uses the reversal method, entries are made at the start of a fiscal year to reverse the adjusting entries that established deferred revenues, prepaid expenditures, and accrued liabilities at the end of the prior year. Reversing entries are not required but are often used to facilitate the recording of transactions in the new year. When transactions are being recorded in the new year, there is then no need to identify those that pertained to the prior year. For example, if a reversing entry was made for liabilities accrued in the prior year, there is no need to identify which of the expenditure disbursements being recorded in the new year pertained to the liability accruals; the disbursements can all be charged to the expenditure accounts. On the other hand, if a reversing entry was not made, current year payments relating to prior year's accruals will have to be charged to the payable accounts rather than to expenditure accounts. Note that the reversal method does not eliminate the need for the LEA to monitor whether amounts accrued in the prior year are actually received and paid in the new year.
This page intentionally left blank.
Procedure 210 Budgetary Accounting

One of the unique features of fund accounting is the use of budgetary accounts, which, typically, are not used in commercial accounting. In fund accounting, the revenue and expenditure accounts are the "actual" accounts and represent the actual activity of the fund as it will be reported in the financial statements. In contrast, the budgetary accounts are projections and show how much is estimated to be spent or received during a given period of time to carry out the local educational agency's (LEA's) goals.

Budgetary Accounts and Integration

The budgetary accounts allow for the comparison of actual revenues and expenditures with estimated revenues and expenditures. Upon adoption of the budget, budgetary accounts must be established and integrated within the accounting system to provide management with timely financial information to track the status of budgetary revenues and expenditures.

The budgetary accounts prescribed for school districts and county offices of education include the following:

- Estimated Revenue (9810)
- Estimated Other Financing Sources (9815)
- Appropriations (9820)
- Estimated Other Financing Uses (9825)
- Encumbrances (9830)

Budgetary accounts have two purposes:

1. To record the estimated revenues of a fund by source and amount. The recording of actual revenues allows for a comparison of the actual revenues with the estimated revenues.
2. To record the limits that are set on the expenditure levels by the appropriations. The recording of actual expenditures allows a comparison of the actual expenditures to the amounts that are available to be committed or expended within the limits set by law or by the governing board.
Procedure 210  Budgetary Accounting

Each budgetary account is supported by a subsidiary ledger and controlled at a level specified by legal requirements to allow comparisons with actual results of financial operations. At the end of the fiscal year, budgetary accounts are closed by reversing the entries made at the beginning of the fiscal year.

Comparison of Actual Results with the Legally Adopted Budget

Governmental Accounting Standards Board (GASB) Statement No. 34, applicable to state and local governments, changed the way budget information is reported in the year-end audited financial statements. Previously, governments reported only the final budget along with the actual results of financial operations. Under GASB Statement 34, the budgetary comparison must now include the original budget, the final budget, and the actual results of financial operations for the general and major special revenue funds.

Basis of Budgeting and GAAP Reporting

The LEA's accounting system must make it possible to:

1. Present fairly and with full disclosure the financial position and results of financial operations of the governmental unit in conformity with GAAP.
2. Determine and demonstrate compliance with finance-related legal requirements.

Generally, for California LEAs the basis of budgeting should be the same as the basis of accounting used in the audited financial statements.

Budgetary accounting must conform to the account codes in the standardized account code structure. For simplicity, the illustrations used in this procedure show budgetary accounting entries at only the object level.

Recording Budgeted Revenues

The adopted budget provides the information for recording budgeted revenues in the general ledger in the budgetary account, Estimated
Revenue (9810). Each item of estimated revenue should be accounted for separately so that revenue surpluses or deficiencies are readily monitored.

The following is a sample posting of $1 million of budgeted revenues at the object level:

**Estimated Revenue**

8010–8099 Revenue Limit Sources  
8011 Revenue Limit State Aid—Current Year ........... $475,000  
8041 Secured Roll Taxes ............................................ 350,000  
8042 Unsecured Roll Taxes ........................................ 50,000  

8100–8299 Federal Revenue  
8110 Maintenance and Operations (PL 81-874) ........... 25,000  
8290 All Other Federal Revenue ................................. 5,000  

8300–8599 Other State Revenue  
8311 Other State Apportionments—Current Year ..... 20,000  
8560 State Lottery Revenue ................................. 25,000  

8600–8799 Other Local Revenue  
8799 Other Transfers In from All Others ............... 50,000  

Total Estimated Revenue ................................. $1,000,000

The total of the estimated revenue entered in the subsidiary ledger must agree with the total of the general ledger budgetary account, Estimated Revenue (9810). The same journal entry is posted to both the subsidiary ledger and the general ledger.

Preparing the Journal Entry. The general ledger and subsidiary ledger accounts and the amounts for each are listed in the journal entry as a record of the estimated revenue, as illustrated in the following example:
Procedure 210  Budgetary Accounting

$ 1,000,000

To record estimated revenue as contained in the adopted budget.

Entry J2 is a general journal entry and also carries the information needed to post to the subsidiary ledger (the subsidiary revenue ledger).

The single postings to the individual revenue ledger accounts represent the breakdown of the total shown in the estimated revenue (general ledger) account.

Posting to the General Ledger. The journal entry for recording the approved budget is posted to the general ledger, as the following examples illustrate. For purposes of this example, assume that a J1 entry for $92,981.78 representing the prior year balance brought forward has already been made.

Account 9810  Estimated Revenue

<table>
<thead>
<tr>
<th>Date</th>

<td>Health &amp; Welfare Benefits, certificated positions</td>
<td>30,000</td>
</tr>
</tbody>
</table>

September 2011  210-5
Procedure 210  Budgetary Accounting

3501  State Unemployment Insurance, certificated positions  5,000
3601  Workers' Compensation Insurance, certificated positions  10,000
3901  Other Benefits, certificated positions  5,000
Total Employee Benefits  $100,000

4000–4999  Books and Supplies
4100  Approved Textbooks and Core Curricula Materials  $5,000
4200  Books and Other Reference Materials  3,500
4300  Materials and Supplies  500
4400  Noncapitalized Equipment  1,000
Total Books and Supplies  $10,000

5000–5999  Services and Other Operating Expenditures
5200  Travel and Conferences  300
5300  Dues and Memberships  200
5400  Insurance  10,000
5500  Operations and Housekeeping Services  5,000
5600  Rentals, Leases, Repairs, and Noncapitalized Improvements  4,500
5800  Professional/Consulting Services and Operating Expenditures  5,000
Total Services and Other Operating Expenditures  $25,000

6000–6999  Capital Outlay
6100  Land  $25,000
6200  Buildings and Improvement of Buildings  22,500
6300  Books & Media for New/Major Expansion of School Libraries  1,500
6400  Equipment  26,000
Total Capital Outlay  $75,000

7000–7499  Other Outgo
7141  Other Tuition, Excess Costs, and/or Deficit Payments to School Districts  $40,000
Total Other Outgo  $40,000

Total Budgeted Expenditures  $950,000

Each budgeted expenditure item should be accounted for separately so that expenditures can be controlled within the various budget classifications. This separate accounting may be accomplished by use of a subsidiary ledger usually known as the appropriation ledger. While separate accounts should be maintained for each of the required expenditure classifications, additional subdivisions of these classes may be maintained as separate accounts if needed.
Procedure 210  Budgetary Accounting

The approved expenditure budget is subject to later adjustment as expenditure estimates change.

Preparing the Journal Entry. Total budgeted expenditures of $950,000 represent the total appropriation allotted for programs. In SACS, the goal and function codes provide a classification of expenditure usage, and the object provides a classification of expenditure type. The journal entry is shown in the following example:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-1-xx</td>
<td>Unassigned/Unappropriated Appropriations</td>
<td>9790</td>
<td>$950,000</td>
</tr>
<tr>
<td></td>
<td></td>
<td>9820</td>
<td>$950,000</td>
</tr>
</tbody>
</table>

</tbody>
</table>

To record estimated expenditures as contained in the adopted budget.

The journal entry for appropriations is similar to the one recording estimated revenue except that the total appropriations are debited to the fund balance account (9790) instead of being credited. The total appropriations for all accounts in the subsidiary appropriation ledger must agree with the balance in the general ledger control account, Appropriations (9820).

**Posting to the General Ledger.** The journal entry recording the approved appropriations is posted to the general ledger in the same manner as the entry recording estimated revenue, as illustrated in these examples:

<table>
<thead>
<tr>
<th>Account 9790</th>
<th>Unassigned/Unappropriated Fund Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date</td>
<td>Ref #</td>
</tr>
<tr>
<td>7-1-xx</td>
<td>J1</td>
</tr>
<tr>
<td></td>
<td>J2</td>
</tr>
<tr>
<td></td>
<td>J3</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Account 9820</th>
<th>Appropriations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date</td>
<td>Ref #</td>
</tr>
<tr>
<td>7-1-xx</td>
<td>J3</td>
</tr>
</tbody>
</table>

Note that the debit to the fund balance account has been subtracted from the previous credit balance to produce a new credit balance of $142,981.78. The remaining Unassigned/Unappropriated Fund Balance represents the prior year balance of $92,981.78 plus the $50,000 operating surplus from the current budget.

**Posting to the Subsidiary Ledger.** The journal entry is posted to the subsidiary appropriation ledger in a manner similar to that used for posting estimated revenue, as shown in this example:
The subsidiary appropriation ledger has additional columns for entering encumbrances in addition to expenditures. The amount appropriated for this account has been entered in the "Appropriation" column and again in the "Unencumbered Balance" column. As amounts are later entered in the "Encumbrances" column or "Expended" column, the "Unencumbered Balance" column will be adjusted accordingly.

**Recording Budgeted Components of Fund Balance**

In governmental funds, the difference between assets and liabilities is reported as fund balance. Fund balance is divided into five classifications: nonspendable, restricted, committed, assigned and unassigned. The separation of fund balance into these components is important to LEAs because it provides information on the funds available to cover unanticipated expenditures.

Nonspendable fund balance (objects 9710 – 9719) is the portion that is not available for expenditure because it is not in spendable form or is legally or contractually required to remain intact. For example, Stores, Prepaid Expenditures, and Revolving Cash are not available for spending, so the portion of fund balance represented by these items must be classified as nonspendable.

Restricted fund balance (objects 9730 – 9749) is the portion that is subject to externally imposed or legally enforceable constraints by external resource providers or through constitutional provisions or enabling legislation.

Committed fund balance (objects 9750 – 9769) is the portion in which the use is constrained by limitations imposed by the LEA through formal action of its highest level of decision-making authority. It would include amounts set aside pursuant to an economic stabilization arrangement only if the arrangement were more formal than the reserve for economic uncertainties recommended by the Criteria and Standards for Fiscal Solvency.
Assigned fund balance (objects 9770 – 9788) is the portion intended to be used for specific purposes but for which the constraints do not meet the criteria to be reported as restricted or committed.

Unassigned fund balance (9789 – 9790) is the portion not classified as nonspendable, restricted, committed or assigned in the general fund. It includes the amount identified by the governing board as reserved for economic uncertainties, pursuant to the Criteria and Standards for Fiscal Solvency, which is recorded using Object 9789.

Refer to Procedure 330 for more detailed definitions of the ending fund balance object codes.

Assuming that the budget shows $50,000 Reserve for Economic Uncertainties and $9,400 for Stores, the following journal entry will be prepared:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-1-xx</td>
<td>Unassigned/Unappropriated</td>
<td>9790</td>
<td>$59,400.00</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Nonspendable Stores</td>
<td>9712</td>
<td></td>
<td>$9,400.00</td>
</tr>
<tr>
<td></td>
<td>Reserve for Economic Uncertainties</td>
<td>9789</td>
<td></td>
<td>$50,000.00</td>
</tr>
</tbody>
</table>

To record Nonspendable Stores and Reserve for Economic Uncertainties, as contained in the adopted budget.

The journal entry is then posted to the general ledger.

<table>
<thead>
<tr>
<th>Account 9790</th>
<th>Unassigned/Unappropriated Fund Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date</td>
<td>Ref #</td>
</tr>
<tr>
<td>7-1-xx</td>

</tr>
</tbody>
</table>

**Checking the Trial Balance**

At this point the general ledger has been opened and the adopted budget recorded. The next step is to complete a trial balance to ensure that the journal entries made in integrating the budget with the general ledger are in balance. The trial balance lists the general ledger accounts and their balances. The total debits and the total credits must be equal, indicating a balanced general ledger. Taking into account the journal entries made so far, plus a few not specifically shown, the trial balance at this point should look like this:

<table>
<thead>
<tr>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cash in County Treasury</td>
<td>9110</td>
<td>$100,000</td>

<td>$1,100,000</td>
<td>$1,100,000</td>
</tr>
</tbody>
</table>

**Recording Encumbrances**

An *encumbrance* is a commitment in the form of a purchase order or offer to buy goods or services. The encumbrance account is a budgetary account that is used to prevent overspending of an appropriation.

**Encumbrances for Purchases**

A purchase generally involves the following steps:

1. Initiation of a purchase requisition. The purchase requisition is the internal document authorizing the issuance of a purchase order for...
Procedure 210  Budgetary Accounting

the desired goods or services. The purchase requisition is generally approved by a budget manager or administrator responsible for budgets and becomes the basis for the generation of a purchase order, a legal contract with the vendor for goods or services. Generally, no accounting transaction is recorded for purchase requisitions in the general or subsidiary ledgers unless a pre-encumbrance system is used.

2. Issuance of a purchase order. If funds are available and the requisition is for an appropriate expenditure, the LEA issues a purchase order to the selected vendor. Upon issuance of a purchase order, an accounting transaction is recorded, debiting the Encumbrances account (9830) and crediting the Reserve for Encumbrances account (9720) for the amount authorized in the purchase order.

3. Receipt of the goods or services. An invoice may accompany the product or may be sent separately. Generally, no accounting transaction is recorded at this point.

4. Payment of the invoice. An accounting transaction is recorded whereby the original encumbrance entry is reversed, the expenditure account is debited, and the cash account is credited.

A sample purchase order is shown as follows:

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Unit</th>
<th>Item</th>
<th>Unit price</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,000</td>
<td>Ream</td>
<td>Newsprint</td>
<td>$ 0.60</td>
<td>$ 600.00</td>
</tr>
<tr>
<td>100</td>
<td>Gross</td>
<td>#2 school pencils</td>
<td>3.00</td>
<td>300.00</td>
</tr>
<tr>
<td>300</td>
<td>Box</td>
<td>Crayons</td>
<td>0.30</td>
<td>90.00</td>
</tr>
</tbody>
</table>

$ 990.00
Procedure 210  Budgetary Accounting

Most financial software programs will automatically enter an encumbrance in the appropriation ledger and the general ledger upon the creation of a purchase order. A report on outstanding encumbrances would look like the following:

<table>
<thead>
<tr>
<th>Vendor's name</th>
<th>Appropriation account number</th>
<th>Date</th>
<th>Purchase order number</th>
<th>Amount of encumbrance</th>
</tr>
</thead>
<tbody>
<tr>
<td>J. Computer Company</td>
<td>4400</td>
<td>7-1-xx</td>
<td>1</td>
<td>$ 810.00</td>
</tr>
<tr>
<td>Student Supply Company</td>
<td>4300</td>
<td>7-1-xx</td>
<td>2</td>
<td>$ 990.00</td>
</tr>
<tr>
<td>Total</td>
<td></td>
<td></td>
<td></td>
<td>$ 1,800.00</td>
</tr>
</tbody>
</table>

The following journal entry records the encumbrance information:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-1-xx</td>
<td>Encumbrances</td>
<td>9830</td>
<td>$1,800.00</td>
<td>$1,800.00</td>
</tr>
<tr>
<td></td>
<td>Reserve for Encumbrances</td>
<td>9720</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Subsidiary Appropriation Ledger

<table>
<thead>
<tr>
<th>Object Code</th>
<th>Object Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>4300</td>
<td>Materials and Supplies</td>
</tr>
<tr>
<td>4400</td>
<td>Noncapitalized Equipment</td>
</tr>
</tbody>
</table>

To record purchase order encumbrances for July, xxxx.

The posting of the Materials and Supplies (Object 4300) item to the account in the subsidiary appropriation ledger is illustrated as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Ref #</th>
<th>Appropriation</th>
<th>Encumbrances</th>
<th>Encumbered to Date</th>
<th>Expended to Date</th>
<th>Unencumbered Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-1-xx</td>
<td>J7</td>
<td>$2,500.00</td>
<td>$990.00</td>
<td>$990.00</td>
<td>$1,510.00</td>
<td></td>
</tr>
</tbody>
</table>

Encumbrance Adjustments—Purchases

An encumbrance must be adjusted or canceled when payments to vendors or other expenditures are recorded. If a purchase order was originally encumbered for $100 but the actual payment was $99.50, the original $100 encumbrance is canceled. Partial payments on an order are liquidated.
Procedure 210  Budgetary Accounting

in the same amount as originally encumbered for items being paid, and the balance of the encumbrance is canceled when the final payment is made. Depending on the encumbrance method being used, the adjustments or liquidations are posted either directly from the purchase order or from a Purchase Order Liquidation Summary listing the purchase orders being paid.

With some systems it is more practical to cancel all encumbrances related to a purchase order and to re-encumber only that part of the order that is outstanding after the paid items have been deleted. If an encumbrance amount is canceled or changed because items ordered are unavailable or prices are changed, the adjustment is recorded in the same manner as that for routine adjustments or cancelations following payments.

Preparing the Journal Entry. The journal entry to record encumbrance adjustments shows the general ledger and subsidiary ledger accounts and the amounts for each, as shown in the following example:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>

Encumbrances for Salaries and Benefits

Unlike purchases, for which an encumbrance is recorded at the time the purchase order is issued, the annual cost of salaries and benefits can be encumbered at the beginning of the fiscal year. Salaries and benefits are disencumbered when paid, and amounts encumbered should be adjusted for personnel and rate changes.

The salary encumbrance summary may differ in detail depending on the types of accounting software used. Basic requirements are a complete accounting for all personnel having salaries to be encumbered, a grouping of these salaries to provide monthly and annual totals by budget.
classifications, and provisions for recording changes in personnel and salaries.

The journal entries to record the salary encumbrance transactions are listed as follows:

### J12

<tr>
<td>7-01-xx</td>
</tr>
<tr>
<td>7-15-xx</td>
</tr>
<tr>
<td>7-20-xx</td>
</tr>
</tbody>
</table>

In the preceding illustration it has been assumed that the changes in personnel were made prior to payment of any payroll in that year. It is important, however, that encumbrances be reduced by the unpaid installments of the annual salaries of personnel leaving the payroll and increased for the unpaid installments of personnel being added to the payroll.

Encumbrance Adjustments—Salaries
The amount of encumbrance to be adjusted or canceled when salary payments are made is the same amount that is being paid, provided such amounts have been encumbered. This procedure will leave the proper balance of encumbrance for each succeeding month if there is no change in rate of pay.

Further adjustment is necessary for changes of contracts, terminations, and the like. It is generally preferable to cancel the exact amount of the payroll posting and to pick up additional adjustments in a separate posting from a list of changes. For example, payroll expenditures of $300,000 were originally encumbered for annual teachers' salaries. A payroll expenditure of $25,000 represents the regular monthly payroll for teachers' salaries encumbered for the year. An employee was terminated in July and received less than a full month's salary. The difference between the amount encumbered for that teacher, $4,000, and the amount paid and liquidated, $3,000, represents a cancelation of $1,000 to encumbrances for July in addition to the encumbrance for the rest of the year for that teacher, $44,000 ($4,000 x 11 months), or a total cancelation of encumbrances in the amount of $45,000. The person replacing this employee was paid $1,000 in July and will earn $33,000 for the rest of the year. The additional total encumbrance is $34,000. The net change in encumbrances for these personnel transactions was a net reduction of $11,000.

In some systems, it is more practical to cancel all encumbrances for salaries at the time payroll expenditures are posted and to re-encumber the adjusted amounts for the remainder of the year.

Preparing the Journal Entry. The journal entry to record encumbrance adjustments lists the general ledger and subsidiary ledger accounts and the amounts for each, as shown in the following example:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>

</tbody>
</table>

To record salary encumbrance liquidations and adjustments for the month of July.

*Posting to the General Ledger.* The journal entry for salary encumbrance cancelations and adjustments is posted to the general ledger in the usual manner.

*Posting to the Appropriation Ledger.* Entries in the subsidiary appropriation ledger are made in the "Encumbrances" column as in the following example:

**Appropriation Ledger**

<table>
<thead>
<tr>
<th>Account 1100</th>
<th>Certificated Teachers' Salaries</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date</td>
<td>Ref #</td>
</tr>
<tr>
<td>7-01-xx</td>
<td>J3</td>
</tr>
<tr>
<td>7-01-xx</td>
<td>J12</td>
</tr>
<tr>
<td>7-15-xx</td>
<td>J13</td>
</tr>
<tr>
<td>7-20-xx</td>
<td>J14</td>
</tr>
<tr>
<td>7-30-xx</td>
<td>J18</td>
</tr>
</tbody>
</table>

The control account Encumbrances in the general ledger can be reconciled by adding the totals of the "Encumbered to Date" column in each of the subsidiary appropriation ledger accounts.

**Appropriation Ledger**

<table>
<thead>
<tr>
<th>Account 1200</th>
<th>Certificated Pupil Support Salaries</th>
</tr>
</thead>
<tbody>
<tr>

<td>J3</td>
</tr>
<tr>
<td>7-1-xx</td>
<td>J12</td>
</tr>
</tbody>
</table>

**Recording Adjustments to the Budget**

**Adjustments to Estimated Revenues**

When an LEA learns that its revenue will exceed the original estimate in the adopted budget, a new estimate of revenue is made, and the increase is
Procedure 210  Budgetary Accounting

recorded in both the general ledger and the revenue ledger. The increase in estimated revenue is recorded as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>5-31-xx</td>
<td>Estimated Revenue</td>
<td>9810</td>
<td>$1,100.00</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Unassigned/Unappropriated Fund Balance</td>
<td>9790</td>
<td></td>
<td>$1,100.00</td>
</tr>
</tbody>
</table>

**Subsidiary Revenue Ledger**

<table>
<thead>
<tr>
<th>Object Code</th>
<th>Object Title</th>
<th>Debit</th>
</tr>
</thead>
<tbody>
<tr>
<td>8311</td>
<td>Other State Apportionments—Current Year</td>
<td>$1,100.00</td>
</tr>
</tbody>
</table>

To record revised estimate of Economic Impact Aid.

This entry increases the estimated revenue in the general ledger and in the revenue ledger. It also increases the amount available for appropriation. Note that the entry simply records the amount available for appropriation. Actual appropriations may be made by governing board action only as prescribed in *Education Code* sections 42602 and 42610.

When a revised revenue estimate indicates a decrease in the amount of estimated receipts, the decrease is recorded in a similar manner, as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>5-31-xx</td>
<td>Unassigned/Unappropriated Fund Balance</td>
<td>9790</td>
<td>$1,100.00</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Estimated Revenue</td>
<td>9810</td>
<td></td>
<td>$1,100.00</td>
</tr>
</tbody>
</table>

**Subsidiary Revenue Ledger**

<table>
<thead>
<tr>
<th>Object Code</th>
<th>Object Title</th>
<th>Debit</th>
</tr>
</thead>
<tbody>
<tr>
<td>8311</td>
<td>Other State Apportionments—Current Year</td>
<td>$1,100.00</td>
</tr>
</tbody>
</table>

To record revised estimate of Economic Impact Aid.

Adjustments to Appropriations

The law provides that amounts budgeted in each major expenditure classification shall be the maximum amount that can be expended under that expenditure classification. During the fiscal year, budgets are monitored to ensure that appropriations are not overspent. Revisions to a
major expenditure classification are subject to approval by the school district's governing board.

With the standardized account code structure (SACS), school districts are able to exercise more detailed levels of control over their budgets. For example, budget controls are typically set at the resource level to demonstrate compliance with a governing board policy that requires that categorical program budgets be balanced and do not encroach on the unrestricted general fund budget.

Except when a revised appropriation budget has been adopted, adjustments involving changes among current appropriations will have no net effect on the general ledger's balances. The changes will affect only the appropriation ledger because the total amount appropriated is not changed but is simply redistributed among the appropriations accounts.

Procedure 210  Budgetary Accounting

This page intentionally left blank.
Procedure 215  Audit Adjustments

Audit adjustments as used in this section are those adjustments made to the financial statements as a result of the LEA's independent audit. They are made after the general ledger is closed but before the audited financial statements are issued. Audit adjustments relating to revenues or expenditures are posted to the general ledger in the fiscal year subsequent to the audit year as adjustments to the beginning fund balance using Object 9793, Audit Adjustments.

Reaching Agreement on Audit Adjustments

At the completion of the audit, the auditors must meet with the management of the LEA to discuss any proposed audit adjustments. It is the responsibility of the LEA to prepare all of the financial statements, notes, and schedules that are the subject of the audit. Even if these are prepared for the LEA by the auditors, they remain the responsibility of the LEA. Therefore, the LEA must agree to any adjustments identified by the auditors before the adjustments are made to the financial statements.

One of the main factors in determining whether a proposed audit adjustment should be made is the materiality of the amount. Materiality has been defined in accounting literature as "of substantial importance, of great consequence, pertinent or essential to, likely to influence." However, there is no definitive rule for determining whether a given item is material. An item material to one LEA may not be material to another. Determining materiality requires informed judgment based on the particular facts in each set of circumstances.

- One way of determining materiality is by comparing the amount of the adjustment with the fund balance, revenues, or expenditures. The following example illustrates this point:
Procedure 215 Audit Adjustments

Assume that in the general fund, the fund balance at 6-30-xx is $600,000, as follows:

<table>
<thead>
<tr>
<th>Fund Balance</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Restricted Fund Balance</td>
<td>$440,000</td>
</tr>
<tr>
<td>Unassigned Fund Balance</td>
<td>$160,000</td>
</tr>
<tr>
<td>Total Fund Balance</td>
<td>$600,000</td>
</tr>
</tbody>
</table>

A. If the auditors find that accounts payable has been understated by $80,000, they will propose the following entry be made to the financial statements:

   DR Expenditures $80,000
   CR Accounts Payable $80,000

   This is clearly a material adjustment because it will reduce the unassigned fund balance by 50 percent.

B. If the auditors find that accounts receivable has been overstated by $3,000, this adjustment would not be made to the financial statements because in this instance it does not significantly affect the unassigned fund balance.

If there is disagreement about whether an item is material, it is reasonable to expect the auditors to explain why they believe the adjustment is significant. If the LEA's management is not convinced that the item meets the definition of materiality or other criteria for adjustments, it does not have to agree to the adjustment to the financial statements.

If in the opinion of the auditors an adjustment item is material but the management of the LEA does not agree that it should be posted to the financial statements, the auditors may modify their opinion on the financial statements to a "qualified" or "adverse" opinion, depending on the significance of the item as determined by the auditors.

• After agreement has been reached on the adjustments to be incorporated into the financial statements, the auditors or the LEA will prepare the audited financial statements. One of the schedules in the annual audit report is the "Reconciliation of Annual Financial and Budget Report with Audited Financial Statements."

A sample of this schedule is shown on page 215-4. This schedule shows the impact of the audit adjustments on the fund balance.

The LEA and the auditors have the following responsibilities in relation to the audit adjustments:
Procedure 215  Audit Adjustments

<table>
<thead>
<tr>
<th>The LEA</th>
<th>The Auditors</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Review all audit adjustments proposed by the auditors.</td>
<td>1. Discuss all proposed audit adjustments with the management of the LEA.</td>

<td>2. Reach agreement with the management of the LEA on the adjustments that will be made to the financial statements.</td>
</tr>
<tr>
<td>3. Record in the following year's general ledger the audit adjustments agreed on.</td>
<td>3. Provide the LEA with a complete set of entries that support the &quot;Reconciliation of Annual Financial and Budget Report With Audited Financial Statements.&quot;</td>
</tr>
<tr>
<td>4. Provide information to the auditors on the disposition of the audit adjustments.</td>
<td></td>
</tr>
</tbody>
</table>

Suggested Steps for Booking Audit Adjustments

Once the audit adjustments are agreed on and the financial statements are prepared, the LEA can book the audit adjustments. To facilitate the process of booking the audit adjustments, the California Department of Education has developed a work sheet, "Schedule of Audit Adjustments to the _______ Fund." (The instructions for using this schedule are shown on page 215-12.)

The following steps should be followed by the LEA in booking the audit adjustments:

1. Obtain from the auditors a copy of the "Reconciliation of Annual Financial and Budget Report With Audited Financial Statements." This schedule, a required component of an LEA's audit report pursuant to Section 19815, Title 5, of the California Code of Regulations, shows in summary form the impact of the audit adjustments on the fund balance in each fund. (See the example at the end of these suggested steps. Notice that the schedule shows that there are audit adjustments in only two funds—the general fund and the cafeteria fund.)

2. Obtain from the auditors the detailed entries that support the summary entries on the "Reconciliation of Annual Financial and Budget Report with Audited Financial Statements." The detailed entries should show the account numbers. They are shown from the viewpoint that they are being made in the audit year, even
Procedure 215  Audit Adjustments

though by the time they are made the books have already been closed.

3. Review each detailed adjusting entry and determine whether any of the transactions or corrections for which the adjustments were made have already been booked in the current fiscal year. (See the table of "Common Audit Adjustments" on pages 215-7 through 215-11.)

4. Determine the entries needed in the current year's books to record the audit adjustments. Prepare a "Schedule of Audit Adjustments to the ________ Fund" for each fund with adjustments.

5. Post the entries to the books.

6. At the beginning of the audit of the current year's financial statements, provide to the auditors a copy of the "Schedule of Audit Adjustments to the ________ Fund" from the prior year's audit.

The following illustrates a sample reconciliation:

<table>
<thead>
<tr>
<th>Reconciliation of Annual Financial and Budget Report with Audited Financial Statements for Year Ended June 30, xxxx</th>

</tr>
<tr>
<td>Overaccrued accounts receivable</td>
</tr>
<tr>
<td>Fund balances per audited financial statement</td>
</tr>
</tbody>
</table>

There were no adjustments to fund balances for funds not presented above.

Audit Adjustments and Other Restatements of Fund Balance

As stated previously, audit adjustments affecting revenues and expenditures are recorded in Object 9793, Audit Adjustments. This account is an adjustment to the beginning fund balance. The prior year's
Procedure 215  Audit Adjustments

Adjustments are not made directly to Beginning Fund Balance, Object 9791, because this account must always equal the ending fund balance in the prior year.

Adjustments to the beginning fund balance other than those identified by the auditors must be recorded in Object 9795, Other Restatements. This account is used to correct material errors reported in a prior year's financial statements discovered after the completion of the audit. Any errors discovered by the LEA during the audit should be reported to the auditors for correction in the audited financial statements. Before posting any items to Object 9795, LEAs should consult with their independent auditors.

Object 9793 and Object 9795 are not used to record audit adjustments or restatements in standardized account code structure (SACS) resource codes that are subject to the deferred revenue method of revenue recognition, as there is no beginning fund balance to adjust. Rather, these adjustments are recorded to the appropriate asset, liability, revenue or expenditure accounts in offsetting amounts that have no effect on fund balance.

Common Audit Adjustments

The table of "Common Audit Adjustments" on pages 215-7 through 215-11 provides examples of common audit adjustments and the entries that should be made on the books of the LEA to record the adjustments. It is assumed that the books have been closed for the audit period and that the correcting entries shown in the third column are being made in the current fiscal year.

The following is a description of the three columns in the table of "Common Audit Adjustments":

1. **Audit Adjustments**
   This column shows the audit adjustments that have been proposed by the auditors, agreed to by the LEA, and reflected on the audited financial statements. Notice that the adjustments made by the auditors are made as if the books were still open.

2. **Processed Transactions**
**Procedure 215  Audit Adjustments**

This column shows the transactions related to the audit adjustments, which have been posted to the books (processed) by the LEA since the beginning of the current fiscal year, before the LEA agreed to the audit adjustments.

The processed transactions must be taken into account when preparing the entries needed on the books in the current year. For example:

Assume that the auditors determined that $10,000 in federal revenue should have been accrued but was not. The LEA agreed to the audit adjustment, and the following adjustment was made to the LEA's financial statements:

| DR | Accounts Receivable | $10,000 |
| CR | Revenue             | $10,000 |

When the LEA was ready to book the audit adjustment on October 1, 2003, it determined that it received the $10,000 on September 1, 2003. Since this revenue was not on the accounts receivable list, the LEA recorded it at that date as follows:

| DR | Cash       | $10,000 |
| CR | Revenue    | $10,000 |

If this processed transaction was not considered before booking the audit adjustment, the revenue would be recorded twice in the current year: once as an audit adjustment affecting the beginning fund balance and once as a credit to the current year's revenue.

*Note*: For purposes of the entries made in the "Processed Transactions" column, it is assumed that the reversal method is not used in the current year for accounts receivable and accounts payable accrued in the prior year and that the LEA credits and debits Accounts Receivable and Accounts Payable when these accruals are collected and paid, respectively, in the current year.

3. **Entries Needed on the LEA's Books**

This column shows the entries that are needed on the LEA's books to record the audit adjustment.

Notice in this column that when the audit adjustment affects a revenue or expenditure account, the LEA will post the adjustment to Object 9793, Audit Adjustments (which adjusts beginning fund balance) because the books for the year under audit have already been closed. Notice also that the entries made in this column take into account any processed transactions.
## Common Audit Adjustments

<table>
<thead>
<tr>
<th>Audit adjustments</th>

Procedure 215    Audit Adjustments

Schedule of Audit Adjustments

The following instructions correspond to the sample schedule beginning on page 215-13. Prepare one schedule for each fund that shows audit adjustments in the "Reconciliation of Annual Financial and Budget Report with Audited Financial Statements" included in the audit report.

**Line 1**—Record the audited financial statement's fund balance per the "Reconciliation of Annual Financial and Budget Report with Audited Financial Statements."

**Line 2**—Record the fund balance per the LEA's books (should be the same amount shown for that line in the "Reconciliation of Annual Financial and Budget Report with Audited Financial Statements").

**Line 3**—Subtract line 2 from line 1.

**Line 4**—Ask the auditors to provide the detailed adjusting entries that support the summary entries in the "Reconciliation of Annual Financial and Budget Report with Audited Financial Statements." Note that the entries provided by the auditors will show adjustments affecting revenue and expenditure accounts, rather than fund balance, because adjustments are made as if the books were still open. Record each of these adjusting entries in the first three columns of Line 4 and show the impact on fund balance in the column "Increase (Decrease) to Fund Balance."

**Line 5**—Sum the total of the column "Increase (Decrease) to fund balance." This total must agree with that on line 3.

**Line 6**—Research each audit adjustment recorded by the auditors (shown in line 4) to determine whether any portion of the transaction related to the audit adjustment has been posted to the books in the current year. See "Common Audit Adjustments," pages 215-7 through 215-11. Record any processed transaction on this line.

**Line 7**—Record the entries that are needed on the books of the LEA.

*Reminder:* Provide a copy of this schedule to the auditors of the current year's financial statements.

The following guidance may include some information that is temporarily superseded by the categorical flexibility provisions of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4) (Chapter 12, Statutes of 2009) as amended by SB 70 (Chapter 7, Statutes of 2011), effective 2008-09 through 2014-15. LEAs should refer to the CDE letter “Fiscal Issues Relating to Budget Reductions and Flexibility Provisions” located on the CDE accounting correspondence Web page at: http://www.cde.ca.gov/fg/ac/co/ for additional information and guidance.

The accounting systems of local educational agencies (LEAs) are organized and operated on a fund basis. A fund is a fiscal and accounting entity with a self-balancing set of accounts recording financial resources and liabilities. It is established to carry on specific activities or to attain certain objectives of an LEA in accordance with special regulations, restrictions, or limitations. Fund accounting theory and principles are discussed in procedures 101 and 105.

How the Fund Field Is Used

The funds in this procedure are authorized for use by LEAs. Certain funds are required when an LEA conducts certain activities that meet the criteria for using those funds. Other funds are optional and may be used at the LEA's discretion.

Only the minimum number of funds consistent with legal and operating requirements should be established; using unnecessary funds results in inflexibility, undue complexity, and inefficient financial administration.

The fund field is used when any accounting transaction is recorded. It applies to all accounts: revenue, expenditure, and balance sheet accounts.

Flexibility of the Fund Field

LEAs are required to code their transactions to at least the minimum fund level required by CDE. However, LEAs may also use more detailed CDE-defined optional fund codes (indicated by italics in the fund code listing) or create their own locally defined fund codes. Required and optional codes are reported to CDE; locally defined codes must be rolled up by the LEA when reporting data to CDE. For example, if an LEA were to use fund numbers 68, 69, and 70 to establish separate funds for each of...
Procedure 305  Fund Classification

its self-insurance activities, these funds must be rolled up by the LEA to Fund 67 when reporting to CDE. For further information, see "Optional and Locally Defined Codes" and "Reporting Data to the State," beginning on page 301-4.

**01 General Fund.** This is the chief operating fund for all LEAs. It is used to account for the ordinary operations of an LEA. All transactions except those accounted for in another fund are accounted for in this fund.

A charter school that reports separately from its authorizing LEA and that uses the governmental accounting model will use this fund as its chief operating fund. For charter schools operated as or by a not-for-profit public benefit corporation, see Fund 62.

The general fund for a county office of education is called the County School Service Fund (Education Code Section 1600). All references to the general fund in this manual also apply to the County School Service Fund.

Restricted projects or activities within the general fund must be identified and reported separately from unrestricted projects or activities. This is done by using codes in the resource field that identify whether the resources used are restricted or unrestricted.

**03 General Fund Unrestricted (Optional) (Obsolete as of 2009-10).** This fund may be used to account for those projects and activities that are funded with unrestricted revenues (resources 0000–1999).

**06 General Fund Restricted (Optional) (Obsolete as of 2009-10).** This fund may be used to account for those projects and activities that are funded by external revenue sources that are legally restricted or restricted by the donor to specific purposes (resources 2000–9999).

**09–20 Special Revenue Funds.** Special revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of

<td>Revenues typically reported in this fund include state special education apportionments, federal local assistance under the Individuals with Disabilities Education Act, federal preschool funding, state mental health funding, and the portion of a COE’s local property taxes restricted to special education. See Procedure 755 for appropriate recording of transactions in this fund.</td>
</tr>
</tbody>
</table>

#### 11 Adult Education Fund. This fund is used to account separately for federal, state, and local revenues for adult education programs.

The principal revenues in this fund are:

- Adult Education Block Entitlement
- Apprentice Transfer from the General Fund
- Workforce Investment Act (WIA)
- Other Federal Revenue (e.g., Adult Basic Education)
- All Other State Revenue
- Interest
- Adult Education Fees
- All Other Local Revenue

Money in this fund shall be expended for adult education purposes only. Moneys received for programs other than adult education shall not be expended for adult education (Education Code sections 52616[b] and 52501.5[a]).

Expenditures in this fund may be made only for direct instructional costs, direct support costs, and indirect costs as specified in Education Code Section 52616.4.

Other educational programs and activities that are administered by adult education staff but do not specifically serve adults should be expended in the LEA's general fund.

#### 12 Child Development Fund. This fund is used to account separately for federal, state, and local revenues to operate child development programs.

The principal revenues in this fund are:

- Child Nutrition Programs (Federal)
- State Preschool
- Child Nutrition Programs (State)
- Child Development Apportionments
- All Other State Revenue

All moneys received by an LEA for, or from the operation of, child development services covered under the Child Care and Development Services Act (Education Code Section 8200 et seq.) shall be deposited into this fund. The moneys may be used only for expenditures for the operation of child development programs. The costs incurred in the maintenance and operation of child development services shall be paid from this fund, with accounting to reflect specific funding sources (Education Code Section 8328).

Child development programs that are not subsidized by state or federal funds and that are operated with the intent of recovering the costs of the program through parent fees or other charges to users, if significant, should be accounted for in an enterprise fund.

13  Cafeteria Special Revenue Fund. This fund is used to account separately for federal, state, and local resources to operate the food service program (Education Code sections 38090–38093).

The principal revenues in this fund are:

- Child Nutrition Programs (Federal)
- Child Nutrition Programs (State)
- Food Service Sales
- Interest
- All Other Local Revenue

The Cafeteria Special Revenue Fund (Fund 13) shall be used only for those expenditures authorized by the governing board as necessary for the operation of the LEA's food service program (Education Code sections 38091 and 38100).

The governing board of an LEA may establish and maintain within Fund 13, Cafeteria Special Revenue Fund, a reserve for cafeteria equipment (Education Code Section 38102).

See Procedure 635 for appropriate recording of transactions in this fund.

</thead>
</table>
| 14   | **Deferred Maintenance Fund.** This fund is used to account separately for state apportionments and the LEA's contributions for deferred maintenance purposes (*Education Code* sections 17582–17587).  
The principal revenues in this fund are:  
Deferred Maintenance Allowance  
Interest  
Interfund Transfers In  
Moneys in this fund may be expended only for the following purposes:  
a. Major repair or replacement of plumbing, heating, air-conditioning, electrical, roofing, and floor systems  
b. Exterior and interior painting of school buildings, including a facility that a county office of education is authorized to use pursuant to *Education Code* sections 17280–17317  
c. The inspection, sampling, and analysis of building materials  
d. The encapsulation or removal of asbestos-containing materials  
e. The inspection, identification, sampling, and analysis of building materials to determine the presence of lead-containing materials  
f. Any other items of maintenance approved by the State Allocation Board  
In addition, whenever the state funds provided pursuant to *Education Code* sections 17584 and 17585 (apportionments from the State Allocation Board) are insufficient to fully match the local funds deposited in this fund, the governing board of a school district may transfer the excess local funds deposited in this fund to any other expenditure classifications in other funds of the district (*Education Code* sections 17582 and 17583).  
See Procedure 650 for appropriate recording of transactions in this fund. |

15  
**Pupil Transportation Equipment Fund.** This fund is used to account separately for state and local revenues specifically for the acquisition, rehabilitation, or replacement of equipment used to transport students (*Education Code* Section 41852[b]).  

Typical expenditures in this fund are items charged to Object 4400, Noncapitalized Equipment; Object 6400, Equipment; and Object 6500, Equipment Replacement.

<td><strong>Forest Reserve Fund (county offices).</strong> This fund exists to account separately for federal forest reserve funds received by offices of county superintendents for distribution to school districts and community college districts (<em>Education Code</em> Section 2300; <em>Government Code</em> Section 29484). See Procedure 620 for appropriate recording of transactions in this fund.</td>
</tr>
<tr>
<td>17</td>
<td><strong>Special Reserve Fund for Other Than Capital Outlay Projects.</strong> This fund is used primarily to provide for the accumulation of general fund moneys for general operating purposes other than for capital outlay (<em>Education Code</em> Section 42840). Amounts from this special reserve fund must first be transferred into the general fund or other appropriate fund before expenditures may be made (<em>Education Code</em> Section 42842). While this fund is authorized by statute, it does not meet the definition of a special revenue fund and functions effectively as an extension of the general fund. It is recommended either that it be combined with the general fund for presentation in the audited financial statements, or that the departure from GAAP be explained in the financial statements.</td>
</tr>
<tr>
<td>18</td>
<td><strong>School Bus Emissions Reduction Fund.</strong> This fund is used to accumulate money for the purchase or lease of new low- or zero-emission school buses or for the retrofitting of existing school buses (<em>Education Code</em> sections 17920–17926). The money could come from private parties as payment for the right to use emission reduction credits or from air pollution control district and air quality management district grants. Resource 7236, School Bus Emissions Reduction, may be deposited to the general fund as well as to Fund 18. More than 50 percent of the money deposited in the School Bus Emissions Reduction Fund must come from local LEA revenues. The LEA's contribution could be local sources or unrestricted general fund money but cannot be money from the existing Small School District Bus Replacement Program. This restriction also applies to any new money that the state appropriates for the purchase or lease of new low- or zero-emission school buses or for the retrofitting of existing school buses.</td>
</tr>
<tr>
<td>19</td>
<td><strong>Foundation Special Revenue Fund.</strong> This fund is used to account for resources received from gifts or bequests pursuant to <em>Education Code</em> Section 41031 under which both earnings and principal may be used for purposes that support the LEA's own programs and where there is a formal trust agreement with the donor.</td>
</tr>
</tbody>

<tbody>
<tr>
<td>Gifts or bequests not covered by a formal trust agreement should be accounted for in the general fund.</td>
<td></td>
</tr>
</tbody>
</table>

Amounts in the Foundation Special Revenue Fund (Fund 19) shall be expended only for the specific purposes of the gift or bequest (*Education Code* Section 41032).

| Special Reserve Fund for Postemployment Benefits |This fund may be used pursuant to *Education Code* Section 42840 to account for amounts the LEA has earmarked for the future cost of postemployment benefits but has not contributed irrevocably to a separate trust for the postemployment benefit plan. Amounts accumulated in this fund must be transferred back to the general fund for expenditure (*Education Code* Section 42842). |

Use of this fund is optional. The LEA may account for amounts earmarked for postemployment benefits in the General Fund (Fund 01) or the Special Reserve Fund for Other Than Capital Outlay Projects (Fund 17) instead.

While this fund is authorized by statute, it does not meet the definition of a special revenue fund and functions effectively as an extension of the general fund. It is recommended either that it be combined with the general fund for presentation in the audited financial statements, or that the departure from GAAP be explained in the financial statements.

If the LEA pays for its postemployment benefit costs entirely on a pay-as-you-go basis, there is no need to use this fund. If the LEA makes irrevocable contributions to a separate trust for the postemployment benefit plan and the plan assets are in the LEA's custody, the LEA should use Fund 71, Retiree Benefit Fund.

| Capital Project Funds | Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds). |

Capital facilities project expenditures are coded to Function 8500, Facilities Acquisition and Construction. Generally, Function 1000, Instruction; Function 2420, Instructional Library, Media and Technology; Function 7200, Other General Administration; and other operational functions are not used in a capital project fund.

| 21   | **Building Fund.** This fund exists primarily to account separately for proceeds from the sale of bonds *(Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued. Other authorized revenues to the Building Fund (Fund 21) are proceeds from the sale or lease-with-option-to-purchase of real property *(Education Code* Section 17462) and revenue from rentals and leases of real property specifically authorized for deposit into the fund by the governing board *(Education Code* Section 41003). The principal revenues and other sources in this fund are:  
   - Rentals and Leases  
   - Interest  
   - Proceeds from the Sale of Bonds  
   - Proceeds from the Sale/Lease-Purchase of Land and Buildings  
Expenditures in Fund 21, Building Fund, are most commonly made against the 6000 object codes for capital outlay. Another example of an authorized expenditure in Fund 21 is repayment of State School Building Aid out of proceeds from the sale of bonds *(Education Code* Section 16058). |
| 25   | **Capital Facilities Fund.** This fund is used primarily to account separately for moneys received from fees levied on developers or other agencies as a condition of approving a development *(Education Code* sections 17620–17626). The authority for these levies may be county/city ordinances *(Government Code* sections 65970–65981) or private agreements between the LEA and the developer. Interest earned in the Capital Facilities Fund (Fund 25) is restricted to that fund *(Government Code* Section 66006). The principal revenues in this fund are the following:  
   - Interest  
   - Mitigation/Developer Fees  
Expenditures in Fund 25, Capital Facilities Fund, are restricted to the purposes specified in *(Government Code* sections 65970–65981) or to the items specified in agreements with the developer *(Government Code* Section 66006). Expenditures incurred in another fund may be reimbursed to that fund by means of an interfund transfer. |
| 30   | **State School Building Lease-Purchase Fund.** This fund is used primarily to account separately for state apportionments for the reconstruction, remodeling, or |

<td><strong>Debt Service Funds.</strong> Debt service funds are established to account for the accumulation of resources for and the payment of principal and interest on general long-term debt.</td>
</tr>
</tbody>
</table>
| 51   | **Bond Interest and Redemption Fund.** This fund is used for the repayment of bonds issued for an LEA (*Education Code* sections 15125–15262). Typically the board of supervisors of the county issues the bonds. The proceeds from the sale of the bonds are deposited in the county treasury to the Building Fund (Fund 21) of the LEA. Any premiums or accrued interest received from the sale of the bonds must be deposited in the Bond Interest and Redemption Fund (Fund 51) of the LEA. The county auditor maintains control over the LEA's Bond Interest and Redemption Fund. The principal and interest on the bonds must be paid by the county treasurer from taxes levied by the county auditor-controller. The principal revenues in this fund are:  
  - State Subventions for Homeowners' Exemptions  
  - Other Subventions/In-lieu Taxes  
  - Secured Roll Taxes  
  - Unsecured Roll Taxes  
  - Prior Years' Taxes  
  - Interest  
  Expenditures in this fund are limited to bond interest, redemption, and related costs. Any money remaining in this fund after the payment of all bonds and coupons payable from the fund, or any money in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the general fund upon order of the county auditor (*Education Code* Section 15234). |
| 52   | **Debt Service Fund for Blended Component Units.** This fund is used to account for the accumulation of resources for the payment of principal and interest on bonds issued by Mello-Roos Community Facilities Districts and similar entities that are considered blended component units of the LEA under generally accepted accounting principles (GAAP). The Mello-Roos Community Facilities Act of 1982 (*Government Code* Section 53311 et seq.) allows any county, city, special district, school district, or joint powers authority to establish, upon approval of two-thirds of the voters in the district, a "Community Facilities District" (CFD) |

<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>expenditures) are recorded, regardless of when they are received or paid. Depreciation of capital assets is recorded.</td>
</tr>
</tbody>
</table>

An enterprise fund may be used to account for any activity that an LEA accounted for in an enterprise fund prior to the issuance of GASB Statement No. 34, even if the activity does not otherwise meet the criteria for using an enterprise fund.

Generally, use Goal 0000, Undistributed, with an enterprise fund.

61  
**Cafeteria Enterprise Fund.** The cafeteria program may be accounted for using an enterprise fund rather than a special revenue fund (Fund 13) even though its primary source of financing comes from federal and state child nutrition program revenues rather than through the price paid for meals by the students. CDE recommends that an LEA use an enterprise fund to account for its cafeteria operations only if the LEA's governing board intends to operate its cafeteria program in a manner similar to that employed by private business enterprises and to fully recover all costs of providing services, including depreciation of capital assets.

Use Function 3700 for cafeteria program operations. Use Function 6000 for non-cafeteria enterprise activities such as catering.

62  
**Charter Schools Enterprise Fund.** This fund may be used to report the activities of LEA-operated not-for-profit public benefit charter schools that use the accrual basis of accounting. It may also be used to report the activities of separately operated not-for-profit public benefit charter schools that report separately from their authorizing LEAs. Since fund accounting is inconsistent with the not-for-profit financial reporting model, in this case Fund 62 serves not as a fund but rather as a financial statement for purposes of reporting to CDE.

If Fund 62 is used for any of a charter school’s activities, it should be used for all of the charter school’s activities.

Costs reported in Fund 62 should include the function most descriptive of the activity being performed (e.g., instruction, pupil services, enterprise, plant services) rather than charging all costs to Function 6000, Enterprise, which is normally done in an enterprise fund.

Transactions of an authorizing or sponsoring LEA on behalf of a non-LEA-operated charter school, such as the receipt and subsequent

<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>pass-through of funds to the charter school, should be reported in the authorizing LEA’s general fund.</td>
</tr>
</tbody>
</table>

See Procedure 810 for further information on charter school reporting.

63 **Other Enterprise Fund.** This fund may be used to account for other business activities.

Only Function 6000, Enterprise, is applicable to Fund 63.

66–70 **Internal Service Funds.** Internal service funds are created principally to render services to other organizational units of the LEA on a cost-reimbursement basis. These funds are designed to be self-supporting with the intent of full recovery of costs, including some measure of the cost of capital assets, through user fees and charges.

An internal service fund should be used only if the LEA is the primary participant. If services are provided on a cost-reimbursement basis primarily to other LEAs and/or entities, use an enterprise fund.

An internal service fund is accounted for on the accrual basis. Capital assets and long-term debt (including all long-term debt obligations such as vacation pay and capital leases) are recorded in the fund. All revenues and expenses (rather than expenditures) are recorded, regardless of when they are received or paid. Depreciation of capital assets is recorded.

For more information on internal service funds, see Procedure 775.

66 **Warehouse Revolving Fund.** This fund is used primarily to maintain budget control and stock accounting of merchandise for an LEA's use (*Education Code* Section 42830). The Warehouse Revolving Fund (Fund 66) is reimbursed from various funds of the LEA for amounts consumed by these user funds.

Expenses in Fund 66, Warehouse Revolving Fund, may include the purchase of stores to be placed in stock and the costs of receiving, storing, and delivering stores (*Education Code* Section 42832).

See Procedure 775 for appropriate recording of transactions in this fund.

67 **Self-Insurance Fund.** Self-insurance funds are used to separate moneys received for self-insurance activities from other operating funds of an LEA. Separate funds
Procedure 305  Fund Classification

**Code**  **Definition**

may be established for each type of self-insurance activity, such as workers' compensation, health and welfare, and deductible property loss (*Education Code* Section 17566).

The principal revenues in this fund are the following:

- Interest
- In-District Premiums/Contributions
- Interagency Revenues
- All Other Local Revenue

Expense transactions in the Self-Insurance Fund (Fund 67) shall be recorded for the payment of claims, estimates of costs relating to incurred-but-not-reported (IBNR) claims, administrative costs, deductible insurance amounts, cost of excess insurance, and other related costs. Most of the activities of Fund 67 should be coded to Function 6000, Enterprise.

Amounts contributed to Fund 67, Self-Insurance Fund, are lawfully restricted for insurance purposes (*Education Code* Section 17566 and *Government Code* Section 53205).

See Procedure 775 for accounting guidance and restrictions relating to this fund.

### 71–95 FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held in a trustee or agent capacity for others that cannot be used to support the LEA's own programs.

The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

### 71–75 Pension (and Other Employee Benefit) Trust Funds and Private-Purpose Trust Funds

Pension (and other employee benefit) trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans. For a state-administered pension system such as STRS or PERS, the state, not the LEA, maintains the pension (and other employee benefit) trust funds.

</tr>
</tbody>
</table>

71  **Retiree Benefit Fund.** This fund exists to account separately for amounts held in trust from salary reduction agreements, other irrevocable contributions for employees' retirement benefit payments, or both. This fund should only be used to account for an LEA's irrevocable contributions to a postemployment benefit plan for which a formal trust exists. Amounts earmarked for postemployment benefits but not contributed irrevocably to a trust should be accounted for in the general fund or a special reserve fund.

Moneys may be contributed to the Retiree Benefit Fund (Fund 71) from other funds by periodic expense charges to those funds in amounts based on existing and future obligation requirements. Payments may be made from the fund for insurance, annuities, administrative costs, or any other authorized purpose (Education Code Section 42850).

The principal revenues in this fund are the following:

- Interest
- In-District Premiums/Contributions
- All Other Local Revenue

Expenditures in Fund 71, Retiree Benefit Fund, are made using Object 5800, Professional/Consulting Services and Operating Expenditures. Use with Function 6000, Enterprise.

73  **Foundation Private-Purpose Trust Fund.** This fund is used to account separately for gifts or bequests per Education Code Section 41031 that benefit individuals, private organizations, or other governments and under which neither principal nor income may be used for purposes that support the LEA's own programs.

This fund should be used when there is a formal trust agreement with the donor. Donations not covered by a formal trust agreement should be accounted for in the general fund. Amounts in the Foundation Private-Purpose Trust Fund shall be expended only for the specific purposes of the gift or bequest (Education Code Section 41032).

76–95  **Agency Funds**
### Procedure 305  Fund Classification

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>76</td>
<td><strong>Warrant/Pass-Through Fund.</strong> (Reporting of this fund to CDE is not required; however, it is required to be included in the audited financial statements to meet GAAP reporting requirements.) This fund exists primarily to account separately for amounts collected from employees for federal taxes, state taxes, transfers to credit unions, and other contributions. It is also used to account for those receipts for transfer to agencies for which the LEA is acting simply as a &quot;cash conduit.&quot; For more information on the cash conduit accounting model, see Procedure 750. It is recommended that two agency funds be used at a local level: one for clearing payroll withholdings and another for the pass-through of resources. If the LEA chooses to report this information to CDE, the funds would combine into one Fund 76.</td>
</tr>
<tr>
<td>95</td>
<td><strong>Student Body Fund.</strong> (Reporting of this fund to CDE is not required; however, it is required to be included in the audited financial statements to meet GAAP reporting requirements.) In the financial reports of the LEA, the Student Body Fund (Fund 95) is an agency fund and, therefore, consists only of accounts such as Cash and balancing liability accounts, such as Due to Student Groups. The student body itself maintains its own general fund, which accounts for the transactions of that entity in raising and expending money to promote the general welfare, morale, and educational experiences of the student body (<em>Education Code</em> sections 48930–48938). Sources of receipts include, but are not limited to, fund-raising ventures, student store merchandise sales, athletic and student body performances, concessions, publications, gifts, grants, and interest. Unorganized student body funds are governed by the same principles of student body accounting that govern organized student body funds (<em>Education Code</em> Section 48938). Disbursements from the student body's bank account may be made for merchandise, student body activities, food, hospitality, and student awards (<em>California Code of Regulations, Title 5, Education</em>, sections 15500 and 15501).</td>
</tr>
</tbody>
</table>
Procedure 310  Resource (Project/Reporting) Classification

The resource code is used to classify revenues and resulting expenditures in accordance with restrictions or special reporting requirements placed on either of these aspects of LEA financial activities by law or regulation. Further, because such revenues frequently are not fully expended within a fiscal year and related liabilities are not completely liquidated, the resource code is also used to reflect restrictions and special reporting obligations on balance sheet accounts.

How the Resource Field Is Used

Resource and Revenue Object Accounts

The resource field allows LEAs to account separately for activities funded with revenues that have restrictions on how the funds are spent (e.g., NCLB, Title I) and for activities funded with revenues that have financial reporting or special accounting requirements (e.g., State Lottery).

Restricted revenues are those funds received from external sources that are legally restricted or that are restricted by the donor to specific purposes. Unrestricted revenues are those funds whose uses are not subject to specific constraints and that may be used for any purposes not prohibited by law. Programs funded by a combination of restricted and unrestricted sources are accounted for and reported as restricted.

Funds or activities that are not restricted by the donor, but rather are earmarked for particular purposes by the LEA’s governing board, are accounted for and reported as unrestricted. LEAs will need to review local revenues received from external sources to determine whether legal or donor restrictions apply for purposes of accounting for them as restricted or unrestricted.

Restricted revenues are accounted for in resource codes in the 2000–9999 range. Revenues whose use is unrestricted in nature but which still have reporting requirements are accounted for in unrestricted resource codes in the 1000–1999 range. Those activities using unrestricted revenues that do not have financial reporting or special accounting requirements are accounted for in Resource 0000, Unrestricted.
In combination with the resource code, the revenue object code further classifies revenues by source: revenue limit, federal, state, and local. This identification is useful because an activity or project may be funded with revenues from federal, state, and local sources. For example, a restricted federal program could also have revenues from state and/or local sources. The resource code allows related expenditures to be grouped for reporting and information purposes.

A single source of revenue that must link to expenditures will have:

- A unique resource code
- A generic revenue object code (such as Object 8290, Other Federal Revenues)

For example:

<table>
<thead>
<tr>
<th>Resource</th>
<th>Object</th>
</tr>
</thead>
<tbody>
<tr>
<td>3010</td>
<td>8290</td>
</tr>
<tr>
<td>NCLB, Title I</td>
<td>Other Federal Revenues</td>
</tr>
</tbody>
</table>

Two or more specific sources of revenues, which must link to expenditures in the aggregate, will have:

- A unique resource code
- A separate revenue object code for each type of revenue associated with that resource

For example:

<table>
<thead>
<tr>
<th>Resource</th>
<th>Object</th>
</tr>
</thead>
<tbody>
<tr>
<td>5310</td>
<td>8220</td>
</tr>
<tr>
<td>Child Nutrition School Programs</td>
<td>Federal Child Nutrition</td>
</tr>
<tr>
<td>8520</td>
<td>State Child Nutrition</td>
</tr>
<tr>
<td>8634</td>
<td>Local Food Service Sales</td>
</tr>
</tbody>
</table>

Many revenue object codes may be used with more than one resource code. For example, Revenue Object 8281, FEMA, uses Resource 5652 and Resource 5650 for FEMA revenues for which reports to the federal government are required.
**Procedure 310  Resource (Project/Reporting) Classification**

**Resource and Balance Sheet Accounts**

The resource field also applies to balance sheet accounts. At year-end the resource field will identify the ending balance of restricted resources (e.g., Special Education, ROC/P, Instructional Materials, County Community Schools, Juvenile Court). This field will also identify deferred revenues and the amounts due to other governmental agencies (e.g., NCLB, Title I, Vocational Education, Special Education discretionary grants).

Depending on how the LEA's financial system is programmed, balance sheet accounts such as Cash and Accounts Payable may include the resource field at the time of the transaction or may be identified as a part of year-end closing procedures. However, when year-end data are submitted to the California Department of Education (CDE), the balance sheet accounts must be identified by resource because at the state level, the resource field is used to separate the unrestricted portion of the general fund from the restricted portion of the general fund. If the balance sheet accounts have not been posted with the resource field during the year, the unrestricted and restricted accounts will be out of balance, and an additional closing entry will be needed before the information is submitted to CDE.

For example, when the accounts payable staff pays the LEA's bills, the detailed expenditure transaction (the debit) is entered into the financial system by the accounts payable staff; however, the entry to the cash account (the credit) is usually an automatic entry made by the financial system.

Most financial systems have been programmed to post any automatic balance sheet entries to the resource field. LEAs using these systems will automatically have all balance sheet transactions posted to the resource field, and no additional entry is needed at year-end.

Some financial systems may not be programmed to post automatic balance sheet entries to the resource field. In these LEAs, for state reporting purposes, the unrestricted and restricted general funds will be out of balance and an entry must be made to cash to balance the restricted and unrestricted resources. (Example 3 in Procedure 605 illustrates how an LEA would prepare this entry.)

**Table of Resource Codes**
Procedure 310  Resource (Project/Reporting) Classification

The Table of Resource Codes contains the resources in numerical order with the most commonly associated revenue object codes, their number from the Catalog of Federal Domestic Assistance (CFDA), and a D/F designation. Depending on the conditions placed on the receipt or expenditure of certain restricted funds, the revenue of a restricted program is recognized in the period in which it is received, and at year-end the unspent balance, or carryover, is reflected as ending balance. These resources are indicated with F (fund balance). The revenue of other restricted resources is recognized in the period when expended, and carryover is recorded as deferred revenue. These resources are indicated with D (deferred revenue).

CDE maintains a standardized account code structure (SACS) query that provides the most current information regarding resources, including new resources established subsequent to the release of this manual. In addition, a comprehensive list of the program cost accounts (PCAs) assigned by the CDE Budget Office and associated with the resources is maintained and updated periodically with the SACS validation table updates. The reference tools are located on the SACS Web page under "Program Codes" at:

http://www.cde.ca.gov/fg/ac/ac/

Obsolete Resource Codes

If a resource becomes obsolete, it will appear in the Table of Resource Codes for one year with its final fiscal year in parentheses next to the title. For example, a resource with "(09-10)" in the California School Accounting Manual (CSAM) indicates that the last year that funding was available for this resource was fiscal year 2009-10. This resource code would then be eliminated in the subsequent edition of CSAM. LEAs may need to maintain this resource code in their general ledger to track carryover of balances for a longer period. Therefore, the resource code will remain in the matrix of valid combinations for a period of three years subsequent to the fiscal year in which funds were available for that resource. In the previous example, the resource would remain in the matrix for fiscal years 2010-11, 2011-12, and 2012-13 to allow for expenditure of carryover balances.

Flexibility of the Resource Field
LEAs are required to code their transactions to at least the minimum resource level required by CDE. However, LEAs may also use more detailed CDE-defined optional resource codes (indicated by italics in the resource code listing). LEAs may create locally defined resource codes but only within the specific ranges shown following. Required and optional codes are reported to CDE; locally defined codes must be rolled up by the LEA when reporting data to CDE. For further information, see "Optional and Locally Defined Codes" and "Reporting Data to the State," beginning on page 301-4.

Resource codes are assigned by CDE just as PCA codes are assigned by CDE's Budget Office. Generally, CDE assigns resource codes only to funding sources administered by CDE. Thus, an LEA receiving program funding directly from the United States Department of Education will establish a locally defined federal resource in the Other Federal: Locally Defined range (5800–5999).

The LEA may not create its own locally defined resource codes except within the following specified ranges:

- **0001–0999**: Unrestricted: Locally Defined
- **4230–4250**: Bilingual Education, Discretionary Grants
- **4410–4430**: Educational Technology
- **4710–4730**: Gifted and Talented Education (federal)
- **5210–5240**: Head Start
- **5800–5999**: Other Restricted Federal: Locally Defined
- **7701–7799**: State School Facilities Funds
- **7800–7999**: Other Restricted State: Locally Defined
- **9000–9999**: Other Restricted Local: Locally Defined

*Note*: The range 9000–9999, Other Local: Locally Defined, including Resource 9010, Other Restricted Local, is used only for local revenue that is restricted by the donor or by law for specific purposes. Unrestricted local revenue, including those amounts "restricted" to or earmarked for a particular purpose by the LEA governing board, should be reported using the range 0001–0999, Unrestricted: Locally Defined.

When data are submitted to CDE, LEAs must roll up all resources within these ranges to the specific resource code indicated for each in the Table of Resource Codes.
## Procedure 310  Resource (Project/Reporting) Classification

### Table of Resource Codes

*(Italicized codes are optional; if used, they must be reported to CDE.)*

(See previous section for explanation of table references.)

Procedure 320 Goal Classification

The goal field defines an objective or a set of objectives for the LEA. Another way to view the goal is to look at the instructional setting or the group of students who are receiving instructional services: regular classes, special education classes, vocational education, adult education, or community service, for example.

How the Goal Field Is Used

The goal field provides the framework for charging instructional costs and support costs to the benefiting objectives. For example, both a special education teacher (an instruction function) and a special education counselor (a guidance and counseling function) would be charged to a Special Education goal.

The goal field applies primarily to expenditure accounts, but it may be used with revenue accounts. However, a 5xxx goal is required with both special education revenue and expenditure accounts.

Those expenditures in activities (functions) that are not directly assignable to a goal at the time of expenditure are charged to Goal 0000, Undistributed. Costs remaining in Goal 0000 are eventually distributed to benefiting goals using standardized allocation factors (see Procedure 910).

In general, the following guidelines should be used in coding goals with functions:

Instructional Goals (Goals 1000–6999) and Nonagency Goals (Goals 7100–7199):

- Typically used with Function 1000, Instruction, and the Special Education instructional functions 1100 through 1199. May be used with Function 4000, Ancillary Services.
- May be used with functions 2000–2999, Instruction-Related Services, and functions 3000–3999, Pupil Services, if the expenditures can be directly identified and supported with a goal.

Community Services and Child Care Services Goals (Goals 8100 and 8500):

- Typically used with Function 5000, Community Services.
Procedure 320  Goal Classification

- May be used with Function 3600, Pupil Transportation, and Function 3700, Food Services, if the expenditures can be directly identified and supported with a goal.
- Undistributed Goal (Goal 0000):
  - May be used with those expenditures in functions 2000–2999, Instruction-Related Services; functions 3000–3999, Pupil Services; functions 7000–7999, General Administration; and functions 8000–8999, Plant Services.
  - LEAs may wish to transfer Goal 0000 costs to other goals on the basis of supporting documentation or allocation factors. The transfers are done using Object 5710, Transfers of Direct Costs, and Object 5750, Transfers of Direct Costs—Interfund. For additional information, see Procedure 615.

Flexibility of the Goal Field

LEAs are required to code their transactions to at least the minimum goal level required by CDE. However, LEAs may also create their own locally defined goal codes. Required codes are reported to CDE; locally defined codes must be rolled up by the LEA when reporting data to CDE. For further information, see "Optional and Locally Defined Codes" and "Reporting Data to the State," beginning on page 301-4.

CDE has provided two specific ranges of goals for use as locally defined codes:

- Goals 1130–1999, for local definition of regular K–12 instruction. When reporting data to CDE, LEAs must roll up these goals to Goal 1110, Regular Education, K–12
- Goals 4130–4399, for local definition of regular adult education. When reporting data to CDE, LEAs must roll up these goals to Goal 4110, Regular Education, Adult.

Importance of the Goal Field in Program Cost Accounting

The goal field provides the framework for program cost accounting. It is important to understand and apply the appropriate costing principles when
charging costs to the benefiting goals. (Procedure 910 addresses these principles.)

Salaries and wages direct-charged to a goal will, in most cases, require supporting documentation. The level of documentation needed depends on whether the funding for the program is restricted or unrestricted and whether the program is instructional or noninstructional (refer to Procedure 905).

Nonpersonnel costs direct-charged to a goal should be substantiated by documentation that identifies the program(s) that received the service, supply, or equipment. The dated signature of a program administrator on a tracking document acknowledging receipt of the service, supply, or equipment is usually sufficient to validate the charge.

Goal Code Definitions

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>0000</td>
<td>UNDISTRIBUTED</td>
</tr>
</tbody>
</table>

Undistributed expenditures are expenditures other than those for instruction, ancillary services, and community service functions that are not directly assignable at the time of transaction to a specific goal.

Expenditures accumulated in Goal 0000 can be distributed to benefiting goals based on supporting documentation or will eventually be distributed to benefiting goals using standardized allocation factors. Goal 0000 is also used for revenues and balance sheet transactions for which a goal is not required. Generally, use Goal 0000, Undistributed, with an enterprise fund. The costs in an enterprise fund are not included in the program cost report (PCR), nor are the goals of an enterprise fund necessary for the LEA’s government-wide statements.

Pursuant to guidance in Procedure 905, county offices of education that have staff within the county office or county board of education performing similar support-type activities for their own LEA and for their school districts may charge the costs as follows:

- 50 percent to Goal 0000, Undistributed (for general administrative support)
- 50 percent to Goal 8600, County Services to Districts

| 9000–9999| **Other Goals—Locally Defined.** These codes are used, at the option of the LEA, to track other local goals that are not defined elsewhere. CDE will consider these activities to be undistributed goal costs. |
| 9000     | **Other Local Goals.** Report local goals not defined elsewhere. These goals will be treated as Goal 0000, Undistributed, by the CDE financial reporting software and will be allocated among appropriate goals on the program cost report/allocation factor (PCR/PCRAF) work sheets. |
Procedure 325  Function (Activity) Classification

The following guidance may include some information that is temporarily superseded by the categorical flexibility provisions of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4) (Chapter 12, Statutes of 2009) as amended by SB 70 (Chapter 7, Statutes of 2011), effective 2008-09 through 2014-15. LEAs should refer to the CDE letter “Fiscal Issues Relating to Budget Reductions and Flexibility Provisions” located on the CDE accounting correspondence Web page at: http://www.cde.ca.gov/fg/ac/co/ for additional information and guidance.

The function field represents a general operational area in an LEA and groups together related activities. The function describes the activities or services performed in order to accomplish a set of objectives or goal. Most LEAs use all of the functions in the process of educating students or organizing the resources to educate students. For example, to provide the appropriate atmosphere for learning, school districts transport students to school, teach students, feed students, and provide health services. Each of these activities is a function.

How the Function Field Is Used

All expenditures must be coded to a function. Although the function field applies mainly to expenditure accounts, it may be used with revenue accounts and balance sheet accounts at the discretion of the LEA.

In general, the following guidelines should be used in coding functions in combination with goals:

- Expenditures coded to instructional functions (1000–1999), ancillary service functions (4000–4999), or community service functions (5000–5999) must be directly charged to a specific goal. Goal 0000, Undistributed, and Goal 5001, Special Education—Unspecified, are not allowed with these three categories of functions.

- Expenditures coded to support service functions (2000–2999, 3000–3999) may be charged to a specific goal at the time of the transaction when there is supporting documentation. Expenditures coded to these functions that cannot be identified to a specific goal...
Procedure 325 Function (Activity) Classification

are charged to Goal 0000 and subsequently distributed to specific goals using documentation or standard allocation factors.

- Expenditures coded to general administration functions (7000–7999) are normally charged to Goal 0000 and subsequently distributed as central administrative costs.

- Expenditures coded to Function 8100, Plant Maintenance and Operations, and Function 8700, Facilities Rents and Leases, may be charged to a specific goal at the time of the transaction when there is supporting documentation (refer to the description of Function 8700 for specific limitations of that function). Expenditures coded to these functions that cannot be identified to a specific goal are charged to Goal 0000 and subsequently distributed to specific goals, using documentation or standard allocation factors.

- See the procedures in Section 900, "Cost Accounting," for information regarding indirect costs and distributing support costs using the documented and allocated methods.

Flexibility of the Function Field

LEAs are required to code their transactions to at least the minimum function level required by CDE. However, LEAs may also use more detailed CDE-defined optional function codes (indicated by italics in the function code listing) or create their own locally defined function codes. Required and optional codes are reported to CDE; locally defined codes must be rolled up by the LEA when reporting data to CDE. For further information, see "Optional and Locally Defined Codes" and "Reporting Data to the State," beginning on page 301-4.

Importance of the Function Field in the Indirect Cost Rate Calculation

The function field is the basis for determining direct and indirect costs and for calculating the LEA's approved indirect cost rate. Charging expenditures to improper functions may result in an indirect cost rate that is too low or too high. An inaccurate rate may cause problems both in claiming indirect costs on federal and state programs and in calculating future rates. Therefore, it is important that LEAs have an understanding of the difference between agencywide general administration expenditures.
(indirect costs) and school- or program-level expenditures (direct costs). Care should be taken that only countywide or districtwide administrative activities remain in general administration (functions 7200–7999). (Refer to Procedure 915 for further information on the indirect cost rate process.)

<td><strong>NOT APPLICABLE.</strong> This code is used for revenues and balance sheet transactions for which a function is not required. All expenditures must be coded to one of the functions below.</td>
</tr>
</tbody>
</table>

#### 1000–1999 INSTRUCTION

Generally used with goals 1000–7000; may be used with Goal 8500, Child Care and Development Services, and Goal 4900, Other Supplemental Education.

1000  **Instruction.** Instruction includes the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom or in another location, such as a home or hospital. It may also be provided through some other approved medium, such as computers, television, radio, telephone, and correspondence. Included here are the activities of aides or classroom assistance of any type (e.g., readers, teaching machines) that assist in the instructional process. Also included are noon-duty personnel.

Expenditures for instructional technology, which include costs for computers, routers and servers, software licenses, communication lines, and computer maintenance, may be coded to Function 1000, Instruction, where they can be identified directly with the classroom.

If a stipend is paid to a teacher for any noninstructional function, the stipend should be coded to the appropriate function.

Expenditures for department chairpersons who teach part time should be prorated using the full-time-equivalent (FTE) ratio. Full-time department chairpersons' expenditures should be included in Function 2700, School Administration.

Instructional functions may not be used in capital project funds.
### Procedure 325  Function (Activity) Classification

</thead>
<tbody>
<tr>
<td>1001–1099</td>
<td><strong>Instruction for Other Than Special Education</strong>—Locally defined. LEAs may use these codes to locally track instruction expenditures other than for special education. When reporting data to CDE, LEAs must roll up these functions to Function 1000, Instruction.</td>
</tr>
<tr>
<td>1100–1199</td>
<td><strong>Special Education Instruction.</strong> Specialized instruction provided to special education students with individualized education programs (IEPs). These functions measure the salaries and associated costs of those personnel who work directly with the students to teach them. The following instructional functions must be used with the special education goals; they may not be used with Goal 5001, Special Education—Unspecified.</td>
</tr>
<tr>
<td>1110</td>
<td><strong>Special Education: Separate Classes.</strong> Salaries, supplies, and other costs to provide separate instruction requiring placement in a separate setting because of the nature or severity of the students' special needs. Instruction may be provided in special classrooms on a part-time or a full-time basis (<em>Education Code</em> Section 56364). Students may receive a full continuum of services (<em>Education Code</em> Section 56361); however, this function records the cost of only one of those services, that of the separate class.</td>
</tr>
<tr>
<td>1120</td>
<td><strong>Special Education: Resource Specialist Instruction.</strong> Salaries, supplies, and other costs to provide instruction and services for those students whose needs have been identified in an IEP, who receive services under the direction of a resource specialist, and who are assigned to another classroom or a special education separate class for a majority of a school day (<em>Education Code</em> Section 56362). Students may receive a full continuum of services (<em>Education Code</em> Section 56361); however, this function records the cost of only one of those services, that of the resource specialist.</td>
</tr>
<tr>
<td>1130</td>
<td><strong>Special Education: Supplemental Aids and Services in Regular Classrooms.</strong> Salaries, supplies, and other costs needed to allow a student to receive instruction provided in a regular education classroom or in an instructional setting other than those provided for in Function 1110, Special Education: Separate Classes; Function 1120, Resource Specialist Instruction; or Function 1180, Nonpublic Agencies/Schools. Supplemental aids and services make possible program modifications and blended programs with more flexibility for the special education student. Function 1130 services include, but are not limited to, the following:</td>
</tr>
</tbody>
</table>
### Procedure 325  Function (Activity) Classification

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>Special Education Instructional Aides.</strong> Teaching assistants necessary to allow a special education student to participate in a regular classroom.</td>
</tr>
<tr>
<td></td>
<td><strong>Interpreter Services.</strong> Sign language interpretation of spoken language through the sign system of the student and tutoring of students regarding class content through the sign system of the student.</td>
</tr>
<tr>
<td></td>
<td><strong>Braille Services.</strong> Transcription services to convert materials from print to Braille. Transcription is for textbooks, tests, work sheets, or other instructional necessities.</td>
</tr>
<tr>
<td></td>
<td><strong>Assistive Technology.</strong> Devices that allow a student to participate in a regular classroom environment.</td>
</tr>
<tr>
<td></td>
<td><strong>Special Education Home and Hospital Instruction.</strong> Instructional services provided to students with special needs who are either homebound or in a hospital.</td>
</tr>
<tr>
<td>1180</td>
<td><strong>Special Education: Nonpublic Agencies/Schools (NPA/S).</strong> Instruction in accord with an IEP provided by a certified NPA/S under contract with a district, special education local plan area (SELPA), or county office when no appropriate public education program is available (<em>Education Code</em> Section 56365).</td>
</tr>
</tbody>
</table>
| 1190 | **Special Education: Other Specialized Instructional Services.** Specialized instruction provided in accordance with an IEP on a pullout and/or blended basis to any special education student to supplement the instruction provided in a separate special education class, a nonpublic school, or a regular education setting. These services are instructional in nature and are provided by or under the supervision of certificated special education teachers. Other health, counseling, or psychological services provided to a special education student to help him or her benefit educationally from the regular instruction program are coded under the Pupil Services functions. The difference between types of services in an instructional function and a pupil services function sometimes may be difficult to distinguish. The main question to bear in mind is whether the student is receiving direct instruction or is being given a supplemental health or other professional service that facilitates instruction. For example, an adaptive physical education teacher provides an instructional service in which the main purpose of the class is to provide physical education. A nurse or dentist provides health care that enhances the physical condition of a student so that she or he is better able to participate in an instructional setting. As another example, a speech teacher may teach students using special techniques to help them speak and understand verbal...

<td></td>
<td>signals, which would be coded to Function 1190; but a speech specialist, who diagnoses specific speech disorders and refers problems for medical or other professional attention to treat speech disorders, is more properly coded to Function 3150, Speech Pathology and Audiology Services.</td>
</tr>
</tbody>
</table>

Function 1190 services include, but are not limited to, the following:

- **Language and Speech.** Instruction provided by a certificated teacher in language and speech skills to provide remedial intervention for students with difficulty understanding or using spoken language. The difficulty may result from problems with articulation, abnormal voice quality, fluency, or hearing loss.

- **Adaptive Physical Education.** Direct physical education services provided by an adaptive physical education teacher to pupils who have needs that cannot be adequately satisfied in other physical education programs.

- **Orientation and Mobility Instruction.** Instruction for students with identified visual impairments to develop skills in body awareness and movement around school and in the community.

- **Vocational Education Training.** Instruction directly related to the preparation of individuals for paid or unpaid employment. This instruction may include provision for work experience, job coaching, job placement, and situational assessment.

- **Vision Services.** This is a broad category of services provided to students with visual impairments. Assessment of an individual's visual ability should be coded to Function 3140, Health Services. The cost of classroom visual aids, such as curriculum modification and Braille textbooks, used in a general classroom setting should be coded to Function 1130. Other specialized vision services coded to Function 1190 include the student's concept development; instruction in communication skills, such as reading Braille; and career, vocational, and independent living skills.

- **Education Technological Services.** Any specialized training or technical support for the incorporation of assistive devices, adaptive computer technology, or specialized media for the educational programs of the student.

<td><strong>INSTRUCTION-RELATED SERVICES.</strong> Instruction-related services provide administrative, technical, and logistical support to facilitate and enhance instruction. These services exist as adjuncts for fulfilling the objectives of instruction, community services, and enterprise programs rather than as entities within themselves.</td>
</tr>
</tbody>
</table>
| 2100          | **Instructional Supervision and Administration.** Activities primarily for assisting instructional staff in planning, developing, and evaluating the process of providing learning experiences for students. These activities include curriculum development and staff training on techniques of instruction and awareness of how children develop and learn. This function includes both staff members who are directors or supervisors of programs, such as special education, bilingual education, or similar programs, as well as staff who are singularly involved with projects to improve curriculum and guidance of teachers in the use of instructional materials.  

This function also includes the instructional administration of special projects. Special projects are those that may have their own project directors; are approved and funded from a specific resource, including federal, state, local, or private agencies; require special project budgets and audits; and may require financial reports. Special projects usually are conducted entirely in support of an instructional program or another support program. Examples of federal special projects include NCLB: Title I, Part A, Basic Grants Low-Income and Neglected, and Special Education: IDEA Local Staff Development Grant. Examples of state special projects include Economic Impact Aid and the Quality Education Investment Act.  

Salaries and associated costs of staff members who provide supplemental administrative services for a program above the general level provided by the business office, or services normally required of program managers, should be charged here. Include costs of program monitoring and preparing program plans. |

</table>

#### 2110 Instructional Supervision (Optional). Activities associated with directing, managing, and supervising instructional services.

#### 2120 Instructional Research (Optional). Activities associated with assessing programs and instruction based on research.

#### 2130 Curriculum Development (Optional). Activities that aid teachers in developing the curriculum, preparing and utilizing special curriculum materials, and understanding and appreciating the various techniques to stimulate and motivate students.

#### 2140 In-house Instructional Staff Development (Optional). Expenditures for staff or consultants to develop curriculum for the professional or occupational growth and competence of instructional staff members during the time of their service to the school system or school. These activities include guiding teachers in the use of instructional materials, administering sabbaticals, providing the environment for in-service training, and so forth. The corresponding function for activities associated with developing training programs for non-instructional personnel is Function 7410, Staff Development.

<td>Direct charges to the instructional library, media and technology function include salaries of librarians, library clerks, audiovisual personnel, and personnel who are involved in writing, programming, and directing ongoing educational television and computer-based instructional programs; benefits for employees in this program; library books, regardless of where they are placed in the district; audiovisual materials; repair and maintenance of equipment used in this program; and acquisition and replacement of audiovisual and library equipment.</td>
</tr>
</tbody>
</table>

Examples of activities or items excluded as direct charges to the instructional library, media, and technology function are as follows:

1. Textbooks (to be charged to the appropriate instructional function)
2. Specific or special materials that are used exclusively in an instructional program or project and that are not part of the central library (to be charged to the appropriate instructional function as instructional supplies)
3. Computer-assisted instructional activities of an experimental nature (to be charged to instructional supervision and administration)

Function 2420 is generally used with Goal 0000, Undistributed. If directly identifiable with a specific instructional goal, it may be used with that goal. Support costs charged directly to a specific goal require supporting documentation indicating how the costs relate to the goal.

2490 **Other Instructional Resources.** Other activities and materials that provide students the resources to achieve appropriate student learning outcomes.

2495 **Parent Participation (Optional).** Activities designed to include the parents in the student’s education.

2700 **School Administration.** Activities concerned with directing and managing the operation of a particular school. The activities include those performed by the principal, assistant principals, and other assistants while they supervise all operations of the school, evaluate the staff members, assign duties to staff members, supervise and maintain the school records, and coordinate school instructional activities with those of the LEA. These activities also include the work of clerical staff in support of the teaching and administrative duties, including school-level attendance recording and reporting. Other school administration services include graduation expenditures and department chairpersons.

3000–3999  PUPIL SERVICES

3110  Guidance and Counseling Services. Activities involving counseling with students and parents; consulting with other staff members on learning problems; evaluating the abilities of students; assisting students as they make their own educational and career plans and choices; assisting students in personal and social development; providing referral assistance; and working with other staff members in planning and conducting guidance programs for students.

Function 3110 includes information services, appraisal services, placement services, counseling services, and record maintenance services, as follows:

Information Services. Activities for disseminating educational, occupational, personal, and social information to help acquaint students with the curriculum and with educational and vocational opportunities and requirements. Such information may be provided directly to students through activities such as

<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>group or individual guidance, or it may be provided indirectly to students through staff members or parents.</td>
</tr>
</tbody>
</table>

**Appraisal Services.** Activities that assess student characteristics. They are used in administration, instruction, and guidance to assist the student in assessing his or her purposes and progress in career and personality development.

**Placement Services.** Activities that help place students in appropriate situations while they are in school. These could be educational situations, part-time employment while they are in school, and appropriate educational and occupational situations after they leave school. These activities also help ease the student's transition from one educational experience to another. The transition may require, for example, admissions counseling, referral services, assistance with records, and follow-up communications with employers.

**Counseling Services.** Activities concerned with the relationship between one or more counselors and one or more students or between counselors and other staff members. These activities are intended to help students understand their educational, personal, and occupational strengths and limitations; relate their abilities, emotions, and aptitudes to educational and career opportunities; utilize their abilities in formulating realistic plans; and achieve satisfying personal and social development.

**Record Maintenance Services.** Activities for compiling, maintaining, and interpreting cumulative records of individual students, including systematic consideration of such factors as:

- Home and family background
- Physical and medical status
- Standardized test results
- Personal and social development
- School performance

Function 3110 is generally used with Goal 0000, Undistributed. If directly identifiable with a specific instructional goal, it may be used with that goal. It may also be used with Goal 8500, Child Care and Development Services, and Goal 8600, County Services to Districts. Support costs charged directly to a specific goal require supporting documentation indicating how the costs relate to the goal.

</table>

The following counseling services in this function should be coded to goals 5000–5999, Special Education:

**Behavior Management Services.** Services provided pursuant to an IEP to teachers, parents, or students by a professional counselor to promote lasting, positive changes in the student's behavior. These services result in the student gaining greater access to a variety of community settings, social contacts, public events, and placement in the least restrictive environment (*Title 5, California Code of Regulations, Section 3001[e]*)

**Individual Counseling.** One-on-one counseling pursuant to an IEP. Counseling may focus on educational, career, or personal aspects. It may include parents or staff members. Used with the special education goal, this service is expected to supplement the regular guidance and counseling program.

**Group Counseling.** Counseling in a group setting pursuant to an IEP. Typically, group counseling centers on social skills development, but it may also focus on educational, career, or personal aspects. It may be conducted with parents or staff. Used with the special education goal, this service is expected to supplement the regular guidance and counseling program.

**Guidance Services.** Interpersonal, intrapersonal, or family interventions pursuant to an IEP. Specific programs include social skills development, self-esteem building, parent training, and assistance to special education students. These services are expected to supplement the regular guidance and counseling program.

**Parent Counseling.** Individual or group counseling pursuant to an IEP to assist parents of special education students in better understanding and meeting their children's needs. Many counseling sessions include parenting skills or other pertinent issues. IEP-required parent counseling is expected to supplement the regular guidance and counseling program.

**Psychological Services.** Activities concerned with administering psychological tests and interpreting the results; gathering and interpreting information about student behavior; working with other staff members in planning school programs to meet the special needs of students as indicated by psychological tests and behavioral evaluations; and planning and managing a program of psychological services, including psychological counseling for students, staff, and parents.

Function 3130 is generally used with Goal 0000, Undistributed. If directly identifiable with a specific instructional goal, it may be used with that goal. It may also be used with Goal 8500, Child Care and Development Services, and Goal 8600, County Services to Districts. Support costs charged directly to a specific goal require supporting documentation indicating how the costs relate to the goal.

**Health Services.** Physical and mental health services that are not direct instruction. Included are activities that provide students with appropriate medical, dental, and nursing services, as follows:

- **Medical Services.** Activities concerned with the physical and mental health of students, such as health appraisal, including screening for vision, communicable diseases, and hearing deficiencies; screening for psychiatric services; periodic health examinations; emergency injury and illness care; and communications with parents and medical personnel.

- **Dental Services.** Activities associated with dental screening, dental care, and orthodontic activities.

- **Nursing Services.** Activities associated with nursing, such as health inspection, treatment of minor injuries, and referrals for other health services.

Function 3140 is generally used with Goal 0000, Undistributed. If directly identifiable with a specific instructional goal, it may be used with that goal. It may also be used with Goal 8500, Child Care and Development Services, and Goal 8600, County Services to Districts. Support costs charged directly to a specific goal require supporting documentation indicating how the costs relate to the goal.

Goals 5000–5999, Special Education, may include the following services in this function:

- **Assessment Testing.** Individual health assessment done by a credentialed school nurse or physician for students who have or may be determined to need individualized education programs (*Education Code* Section 56324).

- **Physical Therapy.** Services provided pursuant to an IEP by a registered physical therapist or physical therapist assistant when assessment shows a discrepancy between gross motor performance and other educational skills.
### Procedure 325  Function (Activity) Classification

<table>
<thead>

Support costs charged directly to a specific goal require supporting documentation indicating how the costs relate to the goal. Goals 5000–5999, Special Education, may include language and speech services to provide remedial intervention for individuals with difficulty understanding or using spoken language. Services include referral and assessment, monitoring, reviewing, and consultation.</td>
</tr>
<tr>
<td>3150</td>
<td><strong>Pupil Testing Services.</strong> Cost of staff or consultants assigned to coordinate the standardized testing of students in academic contents. The cost of classroom teachers administering tests to their students during the instructional day remains a part of the instructional function. Function 3160 is generally used with Goal 0000, Undistributed. If directly identifiable with a specific instructional goal, it may be used with that goal. It may also be used with Goal 8500, Child Care and Development Services, and Goal 8600, County Services to Districts. Support costs charged directly to a specific goal require supporting documentation indicating how the costs relate to the goal.</td>
</tr>
<tr>
<td>3160</td>
<td><strong>Pupil Transportation.</strong> Activities concerned with conveying students to and from school. Transportation other than from home to school is referred to as &quot;Other Miles,&quot; which includes field trips and transportation between school sites. Costs of &quot;Other Miles&quot; are instructional costs to the user program or project. Costs in the Pupil Transportation function include:</td>
</tr>
<tr>
<td></td>
<td>• Transportation supervisors, directors, bus drivers, clerks, and bus maintenance personnel</td>
</tr>
<tr>
<td></td>
<td>• Fuel, oil, tires, and parts for buses</td>
</tr>
<tr>
<td></td>
<td>• Contracted repair of buses</td>
</tr>
<tr>
<td></td>
<td>• Bus driver training and certification</td>
</tr>
<tr>
<td></td>
<td>• Contracts with individuals, other districts, and firms for transporting pupils</td>
</tr>
<tr>
<td></td>
<td>• Rental of buses</td>
</tr>
<tr>
<td></td>
<td>• Acquisition and replacement of equipment used for transporting pupils, including buses</td>
</tr>
</tbody>
</table>
Procedure 325  Function (Activity) Classification

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Costs in this function exclude:</td>
</tr>
</tbody>
</table>

- Field trips
- Student organization trips
- Summer school miles
- Financing costs (e.g., principal and interest for acquisition of buses)
- Principal and interest on school bus loans/capital leases
- Vehicles other than those used for student transportation

Costs for transportation other than home to school ("Other Miles") that are first accumulated in Function 3600 are to be transferred to other functions and/or resources using Object 5710, Transfers of Direct Costs. (See various examples in Procedure 640.) The documented method shall be used to distribute these costs. Documentation methods could include actual costs from the bus contractor or a fixed rate per mile plus the paid driver's layover time. All charges for pupil transportation services to organizations outside the district (parent-teacher associations, recreation districts, and so on) shall be made to the appropriate ancillary or community service function.

Costs for home-to-school transportation accumulated in Function 3600 may be charged to goals 1000–7000 as documented direct support costs. All other home-to-school transportation costs are charged to Goal 0000, Undistributed, and distributed to user programs (goals) using the Pupils Transported allocation factors. (Refer to Procedure 910 for additional information regarding documenting and allocating costs.)

Costs of providing specialized transportation services (e.g., buses with wheelchair lifts, aides who accompany children on the bus) specified in IEPs of special education pupils who are severely disabled or orthopedically impaired are reported in Goal 5750, Special Education, Ages 5–22 Severely Disabled. These costs are normally reported in Resource 7240, Transportation: Special Education (SD/OI), if the LEA receives a state transportation apportionment. If these costs are initially accumulated in Resource 7230, Transportation: Home to School, they are to be transferred to Resource 7240, Goal 5750, using Object 5710, Transfers of Direct Costs.

Costs of providing transportation services specified in IEPs of special education students who are not severely disabled or orthopedically impaired are reported in special education goals other than 5750. These costs are normally reported in

3700  
**Food Services.** Activities concerned with providing food to students and staff in a school or LEA. This service area includes preparing and serving regular and incidental meals, lunches, or snacks in connection with school activities and food delivery.

Costs in this function include those for:

- Food service supervisors, managers, directors, and related staff, such as bookkeepers and clerks
- Cooks and helpers
- Food purchases
- Nonfood purchases (e.g., plates, silverware, napkins) essential to providing food services to students
- Commodities
- Food services laundry
- Purchase of vehicles and other transportation costs, including insurance for those vehicles, for the purpose of transporting food from central locations to satellite locations
- Acquisition and replacement of related equipment
- Repair and maintenance of equipment used in this function
- Snacks for kindergarten classes
- Food purchased for lunches not reimbursed through the School Lunch Program

Costs in this function exclude food purchases for meetings or workshops or to instruct students on food preparation. Function 6000, Enterprise, is used for a catering service. (See the examples in Procedure 635.)

Function 3700 is generally used with Goal 0000, Undistributed.

3900  
**Other Pupil Services.** Other support services to students not classified elsewhere in the 3000 functions.

Function 3900 is generally used with Goal 0000, Undistributed. If directly identifiable with a specific instructional goal, it may be used with that goal. Support costs charged directly to a specific goal require supporting documentation indicating how the costs relate to the goal.

</tr>
</tbody>
</table>

**7100**  
**Board and Superintendent.** Activities concerned with establishing and administering policy for operating the LEA.

Generally, this function is used with Goal 0000, Undistributed.

Pursuant to guidance in Procedure 905, small school districts and charter schools that have one person performing the functions of both the principal and the superintendent may charge the costs as follows:

- 70 percent to School Administration (Function 2700)
- 30 percent to Board and Superintendent (Function 7100)

**7110**  
**Board (Optional).** Activities of the elected body that has been created according to state law and vested with responsibilities for educational activities in a given administrative unit.

Costs in this function include:

- Activities of the members of the Board of Education
- Activities of the district performed in support of school district meetings
- Legal activities in interpretation of the laws and statutes and general liability situations. Note: Legal costs identifiable with a specific activity generally may be charged to that activity (e.g., Function 2100, Instructional Supervision and Administration; Function 7300, Fiscal Services; Function 7400, Personnel/Human Resources Services; Function 8500, Facilities Acquisitions and Construction).
- Services rendered in connection with any school system election, including elections of officers and bond elections

**7120**  
**Staff Relations and Negotiations (Optional).** Incremental costs of activities, not including those of the board or superintendent or their immediate staff, concerned with staff relations systemwide and the responsibilities for contractual negotiations with both instructional and noninstructional personnel. Costs in this function are included in the LEA's indirect cost pool (see "Indirect Cost Rate Work Sheet," page 915-11).

</thead>
</table>
| 7150 | **Superintendent (Optional).** Activities associated with the overall general administration of or executive responsibility for the entire LEA. Costs in this function include:  
  * Activities performed by the superintendent and such assistants as deputy, associate, and assistant superintendents in generally directing and managing all affairs of the LEA, unless the activities of such assistants can be placed properly into an instructional or pupil service area, in which case they would be charged to that service area  
  * Personnel and materials in the office of the chief executive officer  
  * Activities associated with community/public relations  
  * Activities associated with developing and maintaining good relationships with state and federal officials  
  * Activities associated with grant procurement |
| 7180 | **Public Information (Optional).** Writing, editing, and other activities necessary for the preparation and dissemination of educational and administrative information to the public through various news media or personal contact. |
| 7190 | **External Financial Audit—Single Audit.** Annual independent financial audits conducted pursuant to both Education Code Section 14503 and the Single Audit Act as required for LEAs that expend more than $500,000 in federal funds. Costs in this function are included in the LEA's indirect cost pool (refer to "Indirect Cost Rate Work Sheet," page 915-11). |
| 7191 | **External Financial Audit—Other.** Annual independent financial audits conducted pursuant to Education Code Section 14503, where the LEA expends less than $500,000 in federal funds and a single audit is not required. |
| 7200 | **Other General Administration.** Activities other than Board and Superintendent (functions 71xx) which manage the LEA as an overall entity. Other General Administration activities include fiscal services, personnel services, and central support services. Include attendance recording and reporting activities performed at the LEA level. Attendance activities performed at the school level should be charged to Function 2700, School Administration. Certain insurance should be charged to a specific function, such as Function 1000, Instruction, for pupil insurance and driver training vehicle insurance; Function |

3600, Pupil Transportation, for insurance on buses; and Function 3700, Food Services, for insurance on food service vehicles. All other costs of property or general liability insurance not charged to a specific function should be charged to Function 7200, Other General Administration; or optionally to Function 7600, All Other General Administration.

Pursuant to guidance in Procedure 905:

The costs of assistant superintendents for instruction or equivalent positions having first-line responsibility for instructional administration and for participation in district/county policy may be charged as follows:

- 50 percent to Instructional Supervision and Administration (Function 2100)
- 50 percent to Other General Administration (Function 7200)

Small school districts and charter schools with staff performing support duties for both school administration and business office administration may charge the costs as follows:

- 70 percent to School Administration (Function 2700)
- 30 percent to Other General Administration (Function 7200)

Agencywide administrative costs are not directly expended in any fund other than the general fund. Because of the agencywide nature of the costs, with few exceptions, Function 7200 and its optional subfunctions 7300–7600 are used with unrestricted resources (0000–1999). They are normally used with Goal 0000, Undistributed; Goals 7100–7199, Nonagency; or Goal 8600, County Services to Districts.

7210  Indirect Cost Transfers. Use in combination with Object 7310, Transfers of Indirect Costs, and Object 7350, Transfers of Indirect Costs—Interfund, to record indirect cost transfers.

Use this function to record both the debit and credit for these transfers. For transfers within a fund, this function must balance to zero at the fund level. For interfund transfers, the function will have a balance at the fund level but must balance to zero across all funds.

7300  Fiscal Services (Optional). Activities concerned with the fiscal operations of the LEA. This function includes budgeting, receiving and disbursing, financial

</tbody>
</table>

Data processing costs that support instructional programs (e.g., computers in the classroom, instructional computer labs, instructional networks, library computers) should be charged to Function 2420, Instructional Library, Media, and Technology, or Function 1000, Instruction. If data processing costs are accumulated in Function 7700 (for example, because one data processing person provides technology services for all functions), any instruction-related costs must be reclassified using Object 5710, Transfers of Direct Costs, to Function 2420 or 1000, as appropriate. Methods of determining the amount of instruction-related costs to transfer include work orders or a count of workstations.

Costs in this function exclude:

- Stand-alone or networked computers used by a specific functional area
- Peripherals, including terminals and printers, used by a specific functional area
- Instructional computer networks
- Instructional technology coordinators

Function 7700 is generally used with Goal 0000, Undistributed.

8000–8999 PLANT SERVICES. Activities concerned with keeping the physical plant open, comfortable, and safe for use and keeping the grounds, buildings, and equipment in working condition and a satisfactory state of repair. These include the activities of maintaining safety in buildings, on the grounds, and in the vicinity of schools.
### Procedure 325  Function (Activity) Classification

<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><em>switchboard operators, truck drivers, operational clerks, and similar employee(s); employee benefits for all employees in this program; supplies, including brooms, brushes, disinfectants, fuses, garbage cans, light bulbs and fluorescent tubes, mops, wax, soap, toilet paper, towels, outdoor flags, weed killers, and fertilizers; office supplies; repair and maintenance of equipment used in this program; acquisition and replacement of related equipment; and nonuse fees assessed by the state for unused school sites (Education Code Section 17219).</em></td>
</tr>
<tr>
<td>8300</td>
<td><strong>Security (Optional).</strong> Activities concerned with maintaining order and safety in school buildings, on the school grounds, and in the vicinity of schools at all times. Included are police activities for school functions, traffic control on grounds and in the vicinity of schools, building alarm systems, and hall monitoring services.</td>
</tr>
<tr>
<td>8400</td>
<td><strong>Other Plant Maintenance and Operations (Optional).</strong> Operations and maintenance of plant services that cannot be classified elsewhere in functions 8100–8399.</td>
</tr>
<tr>
<td>8500</td>
<td><strong>Facilities Acquisition and Construction.</strong> Activities concerned with capital projects, such as acquiring land and buildings, remodeling buildings, constructing buildings and additions to buildings, initially installing or extending service systems and other built-in equipment, and improving sites. Capitalize projects that extend the life and value of a site, building, or major equipment and that exceed the LEA's capitalization threshold. Documented time of a project manager to a capital project may be capitalized. Include legal costs directly identifiable with a capital project. Facility costs that are not clearly identifiable to a capital project should not be charged to Function 8500. Facility planning or administration should be charged to Function 7200, Other General Administration, or to optional Function 7510, Planning, Research, Development, and Evaluation. Facility improvements that do not significantly extend the life or increase the value of a site or building or that do not meet the LEA's threshold for capitalization should be charged to Function 8100, Plant Maintenance and Operations. Most commonly used with Objects 6100–6300 but may also be used with Object 6400 and with most objects in the 1000–5999 range. Refer to Procedure 770, &quot;Distinguishing Between Supplies and Equipment,&quot; for additional information on capitalization concepts.</td>

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
</table>
| 8700 | **Facilities Rents and Leases.** Activities concerned with acquiring facilities through operating leases or rentals without the option to purchase. This function does not include capital lease payments. Capital lease payments are debt service and are charged to all other outgo. Generally, costs of leased or rented facilities are considered agencywide costs of doing business and are shared equitably by all programs. Costs may be charged to a specific program only if renting or leasing a facility is required by state or federal agencies for programmatic purposes, such as on a site where no agency-owned facilities are located. Supporting documentation of the requirement is necessary.  

As an example, a county office leases a classroom from a school district to house a special education class. The action is necessary for programmatic purposes because the special education class is required by the state to be conducted at a regular school site for mainstreaming purposes. The county office owns no regular education schools where the class could be located. The lease payments would be charged as documented direct support costs to a special education goal.  

Alternatively, a school district leases Regional Occupational Centers and Programs (ROCP) classroom space in a facility that is near the shopping center where most ROCP students are being trained. However, because housing the ROCP classes rather than other program classes in the rented facility was a district administrative decision and not a state or federal requirement, the cost of the lease payments would be charged to the Goal 0000, Undistributed, and subsequently distributed to all district programs as allocated support costs. 

The temporary rental of a facility incidental to a particular activity, such as hourly or daily rental of a hall for a staff development workshop or rental of an auditorium for a school graduation, should be charged to the same function as the benefiting activity. |
| 9000–9999 | **OTHER OUTGO**  

Used with Goal 0000, Undistributed. |
| 9100 | **Debt Service.** Servicing the debt of the LEA, including issuance costs and payments of both principal and interest. Normally, only long-term debt service (obligations exceeding one year) is recorded here. It should also be used to record that portion of direct costs for issuing tax and revenue anticipation notes |

</tbody>
</table>
Procedure 330 Object Classification

The following guidance may include some information that is temporarily superseded by the categorical flexibility provisions of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4) (Chapter 12, Statutes of 2009) as amended by SB 70 (Chapter 7, Statutes of 2011), effective 2008-09 through 2014-15. LEAs should refer to the CDE letter “Fiscal Issues Relating to Budget Reductions and Flexibility Provisions” located on the CDE accounting correspondence Web page at: http://www.cde.ca.gov/fg/ac/co/ for additional information and guidance.

The object field classifies expenditures according to the types of items purchased or services obtained. It classifies revenues by the general source and type of revenue. It also classifies balance sheet accounts as assets, liabilities, or fund balance.

How the Object Field Is Used

The object field applies to expenditures, revenues, and balance sheet accounts.

Flexibility of the Object Field

LEAs are required to code their transactions to at least the minimum object level required by CDE. However, LEAs may also use more detailed CDE-defined optional object codes (indicated by italics in the object code listing) or create their own locally defined object codes. Required and optional codes are reported to CDE; locally defined codes must be rolled up by the LEA when reporting data to CDE. For further information, see "Optional and Locally Defined Codes" and "Reporting Data to the State," beginning on page 301-4.

The fourth digit of objects 3000–3999 has been restricted by CDE to a specific definition. The third digit is available for LEA use if it is rolled up to zero when submitted to CDE. For example:

- 3401 Health and Welfare Benefits, certificated positions
- 3411 Health and Welfare Benefits, certificated positions, instructional
- 3421 Health and Welfare Benefits, certificated positions, administrative
In this example, the LEA has used locally defined objects using the third digit. These must be rolled up to Object 3401, Health and Welfare Benefits, certificated positions, when data are reported to CDE.
## Procedure 330  Object Classification

### List of Object Codes

</thead>
<tbody>
<tr>
<td>1000–7999</td>
<td>EXPENDITURES</td>
</tr>
<tr>
<td></td>
<td><em>Note:</em> See also Appendix A, &quot;Analysis of Salaries,&quot; for common function/object relationships found in salary expenditures.</td>
</tr>
<tr>
<td>1000–1999</td>
<td>Certificated Personnel Salaries. Certificated salaries are salaries for positions that require a credential or permit issued by the Commission on Teacher Credentialing. Salaries paid to an employee on leave of absence continue to be charged in the same manner and to the same account classification that was applicable while the employee was in active service of the LEA. For compensated time off, a substitute for a position recorded in objects 1000–1999 should be charged to the same goal and function as the absent employee. For other than compensated time off, such as released time for negotiations, the substitute should be charged to the applicable goal and function.</td>
</tr>
<tr>
<td>1100</td>
<td>Certificated Teachers' Salaries. Record the full-time, part-time, and prorated portions of salaries for all certificated personnel employed to teach the pupils of the district or pupils in schools maintained by a county superintendent of schools. Include salaries for teachers of children in homes or hospitals, all special education resource specialists and teachers, substitute teachers, and instructional television teachers. Include salaries of teachers who provide instruction to students on a pullout basis. The separate recording of teachers' salaries is required by <em>Education Code</em> Section 41011 and is limited to salaries of certificated employees paid to teach the pupils of the district or pupils in schools maintained by a county superintendent. The following comments, interpretations, and definitions are included to guide school officials in determining whether the total salary or a portion of the salary would be charged to Object 1100. The total salary is recorded in Object 1100 under the following conditions: The teacher is an employee of the district or office of the county superintendent in a</td>
</tr>
</tbody>
</table>
Procedure 330  Object Classification

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>position requiring certification qualifications. The teacher's duties require him or her to teach pupils of the district for at least one full instructional period on each school day for which he or she is employed, and he or she is assigned no duties other than those that are connected with, or extensions of, classroom teaching. Such activities are limited to the following:</td>
</tr>
<tr>
<td></td>
<td>• Preparation for and evaluation of classroom work</td>
</tr>
<tr>
<td></td>
<td>• Extracurricular activities that arise from classroom work and are extensions of it (e.g., class or club sponsorship or supervision at school functions)</td>
</tr>
<tr>
<td></td>
<td>• Management of and instruction in a study hall</td>
</tr>
<tr>
<td></td>
<td>• Duties that are ordinarily assigned to certificated personnel in connection with the custody and control of pupils at recess or lunchtime, after school, or at other times</td>
</tr>
</tbody>
</table>

If a certificated employee teaches at least one instructional period each day that he or she is employed to teach and is also assigned other duties neither in connection with nor as an extension of classroom teaching, his or her salary must be prorated and recorded in Object 1100 and in the other objects that provide for recording of expenditures for the other assignment(s). The amount recorded in Object 1100 is the product of the employee's complete salary and the fraction of the full-time school day that the employee spent as a classroom teacher performing duties that are in connection with, or an extension of, classroom teaching as limited herein. The remaining portion is then charged to the object(s) in which expenditures for the other assignments are recorded. Some of the other assignments may pertain to work outside the field of teaching. If a teacher performs such assignments, it will be necessary to prorate a portion of the teacher's salary to classifications other than Object 1100.

The term *other assignments* that must be recorded or prorated to other object codes includes, but is not limited to, assignments usually and specifically assigned to persons employed in the following types of positions:

Certificated:

- General supervisors, coordinators, directors, specialists, consultants, supervisors of special subjects or grades, and certificated assistants (use Function 2100, Instructional Supervision and Administration, with Object 1300, Certificated Supervisors' and Administrators' Salaries)

</tr>
</tbody>
</table>

Classified:
• School bus driver, custodian, secretary to the governing board, and supervisor of transportation

1200  Certificated Pupil Support Salaries. Record the full-time, part-time, and prorated portions of salaries of all certificated personnel performing services of librarian, social worker, or certificated personnel doing pupil personnel work; psychologists and psychometrists; counselors, as well as health services rendered by physicians, oculists, dentists, dental hygienists, nurses, optometrists, school audiometrists, psychiatrists, otologists, and other personnel as authorized in the field of physical and mental health and who are on the payroll of the LEA. Health services personnel must possess a services credential (Education Code sections 44872–44879 and 49422–49427).

1300  Certificated Supervisors' and Administrators' Salaries. Record the full-time, part-time, and prorated portions of salaries of principals, vice principals, administrative deans in individual schools, and other personnel performing similar duties; certificated personnel engaged in instructional supervision, including general supervisors, coordinators, directors, consultants, and supervisors of special subjects or grades and their certificated assistants (whether or not they supervise staff); superintendents and/or deputy, associate, area, and assistant superintendents in districts and offices of county superintendents of schools (Education Code sections 35028, 35029, 35030, 44065, 44066, and 44069).

Note: The term supervision is used to designate those activities having as their purpose the actual improvement of instruction under the direction of supervisors and assistants. Such activities include (1) personal conferences with teachers on

</thead>
<tbody>
<tr>
<td></td>
<td>instructional problems; (2) classroom visitation; (3) group conferences with teachers; and (4) demonstration teaching.</td>
</tr>
</tbody>
</table>

1900  Other Certificated Salaries. Record the full-time, part-time, and prorated portions of salaries for all certificated personnel who do not fall within one of the categories previously specified. Examples of such personnel are special education and/or other program specialists, certificated civic center employees, or resource teachers not performing duties as a classroom teacher. Object 1900 is not open to instructional functions.

2000–2999  Classified Personnel Salaries. Classified salaries are salaries for positions that do not require a credential or permit issued by the Commission on Teacher Credentialing. Salaries paid to an employee on leave of absence will continue to be charged in the same manner and to the same account classification as was applicable while the employee was in active service for the LEA.

For compensated time off, a substitute for a position recorded in objects 2000–2999 should be charged to the same goal and function as the absent employee. For other than compensated time off, such as released time for negotiations, the substitute should be charged to the applicable goal and function.

Student employees are to be coded to the goal, function, and object that represent the position they are filling. However, if the student is being paid as part of an educational program such as work experience, use Function 1000, Instruction, and Object 2900, Other Classified Salaries.

2100  Classified Instructional Salaries. Record total salaries paid to instructional aides who are required to perform any portion of their duty under the supervision of a classroom teacher or that of a special education resource specialist teacher (Education Code Section 41011). This code also includes salaries of noncertificated charter school teachers and other noncertificated instructional personnel, such as classified coaches, tutors, and drug/alcohol program mentors.

2200  Classified Support Salaries. This code is used to record the full-time, part-time, and prorated portions of salaries of classified employees not defined elsewhere who are working in the instructional media and library, student support, pupil transportation, food services, and maintenance and operations functions.

Salaries for the instructional media and library function include the salaries of library and media aides.

<td>3801–3802</td>
<td><strong>PERS Reduction.</strong> Report the transfers of funds from the LEA to the state. Object 3801 covers certificated positions; Object 3802 covers classified positions. The charge for PERS Reduction should follow the function of the related salary. Function 9200, Transfers Between Agencies, may be used instead of identifying specific functions, but either method must be used exclusively, not together. Amounts reported in objects 3801–3802 must equal the amount reported in Object 8092, PERS Reduction Transfer.</td>
</tr>
<tr>
<td>3901–3902</td>
<td>Other Benefits. Record the payment for tax-sheltered annuities, deferred compensation, cash-in-lieu, retirement incentives such as Golden Handshake, and other employee benefits not specified above. With the exception of retirement incentives, expenditures reported in objects 3901–3902 are charged to the program(s) to which the benefit-eligible employee’s salary is charged. For direction on charging retirement incentives, see Procedure 655. Object 3901 is used for certificated positions; Object 3902 is used for classified positions.</td>
</tr>
<tr>
<td>4000–4999</td>
<td><strong>Books and Supplies.</strong> Record expenditures for books and supplies, including any associated sales tax or use tax and freight and handling charges.</td>
</tr>
<tr>
<td>4100</td>
<td><strong>Approved Textbooks and Core Curricula Materials.</strong> Record expenditures for classroom instructional materials designed for use by pupils and their teachers as the basic curriculum adopted by the State Board of Education or the district board for required subject matter. Instructional materials may be printed or appear in some other form and may consist of textbooks, technology-based materials, and other educational materials, such as manipulatives (Education Code Section 60010[h]). The cost includes all consumable materials available in the approved series, such as kits, audiovisual materials, or workbooks. Teachers' manuals and editions relate to specific, basic, or supplementary textbooks and are intended for teachers' use rather than for pupils' use. They are part of the approved curriculum used in the classroom and so are part of Object 4100. Single issues of state-approved textbooks for review by research committees or curriculum directors would be coded to this object with an instruction-related service function, such as Function 2130, Curriculum Development.</td>
</tr>
<tr>
<td>4200</td>
<td><strong>Books and Other Reference Materials.</strong> Record expenditures for books and other reference materials used by district personnel. Books used for reference are further identified by the appropriate function. For example, reference books for use in the nurse's office, in the district business office, or in the cafeteria would be</td>

<tbody>
<tr>
<td></td>
<td>coded to Function 3140, Health Services; Function 7200, Other General Administration; or Function 3700, Food Services, respectively. Function 1000, Instruction, would include (1) books that have not been adopted by the proper authority for use as basic curricula; (2) books, such as reference books, that are available for general use by students even though such books may be used solely in the classroom; and (3) all other materials used for reference purposes. Generally, the purchase of library books or other reference materials is coded to Object 4200. However, expenditures for library books to stock a new school library or for material expansion are recorded in Object 6300, Books and Media for New School Libraries or Major Expansion of School Libraries. Consumable materials other than those directly related to adopted curricula (Object 4100) have a limited shelf life of less than one year. Such materials as periodicals, magazines, workbooks, drill books, exercise pads, and the like are recorded in Object 4300, Materials and Supplies. Expenditures for rentals of materials are coded to Object 5600, Rentals, Leases, Repairs, and Noncapitalized Improvements. Incidental materials and supplies included in payments to outside vendors for repair and maintenance services are coded to Object 5600, Rentals, Leases, Repairs, and Noncapitalized Improvements. Payments to outside vendors for duplication services should be coded to Object 5800, Professional/Consulting Services and Operating Expenditures.</td>
</tr>
<tr>
<td>4300</td>
<td><strong>Materials and Supplies.</strong> Record expenditures for consumable materials and supplies and nonconsumable items that do not meet the LEA’s inventory threshold to be used by students, teachers, and other LEA personnel. Instructional materials and supplies are those used in the classroom by students and teachers. Other materials and supplies included in Object 4300 are those used in services and auxiliary programs, such as food service supplies; custodial supplies; gardening and maintenance supplies; supplies for operations; transportation supplies, including gasoline; supplies for repair and upkeep of equipment or buildings and grounds; and medical and office supplies. Expenditures for rentals of materials are coded to Object 5600, Rentals, Leases, Repairs, and Noncapitalized Improvements. Incidental materials and supplies included in payments to outside vendors for repair and maintenance services are coded to Object 5600, Rentals, Leases, Repairs, and Noncapitalized Improvements. Payments to outside vendors for duplication services should be coded to Object 5800, Professional/Consulting Services and Operating Expenditures.</td>
</tr>
<tr>
<td>4400</td>
<td><strong>Noncapitalized Equipment.</strong> Record expenditures for movable personal property of a relatively permanent nature that has an estimated useful life greater than one year and an acquisition cost less than the LEA’s capitalization threshold but greater than the LEA’s inventory threshold pursuant to <em>Education Code</em> Section</td>
</tr>
</tbody>
</table>
### Procedure 330  Object Classification

<table>
<thead>
<tr>
<th>Code</th>

</tr>
</thead>
<tbody>
<tr>
<td>35168 or local policy. For information on the capitalization threshold, refer to Procedure 770.</td>
<td></td>
</tr>
<tr>
<td><strong>4700</strong> <strong>Food.</strong> Record expenditures for food used in food-service activities for which the purpose is nourishment or nutrition (i.e., breakfast, snacks, lunch, and other similar items). Include food purchased by the food service program for student meals on field trips even if not reimbursed through the school lunch program.</td>
<td>Object 4700, Food, is used only with Function 3700, Food Services. Expenditures for food used for instruction in a regular classroom (e.g., in a cooking class or as an instructional reward) are recorded in Object 4300, Materials and Supplies, with an instructional function. Expenditures for food for staff meetings and similar situations are recorded in Object 4300 with the appropriate function.</td>
</tr>
<tr>
<td><strong>5000–5999</strong> <strong>Services and Other Operating Expenditures.</strong> Record expenditures for services, rentals, leases, maintenance contracts, dues, travel, insurance, utilities, and legal and other operating expenditures. Expenditures may be authorized by contracts, agreements, purchase orders, and so forth.</td>
<td></td>
</tr>
<tr>
<td><strong>5100</strong> <strong>Subagreements for Services.</strong> Record expenditures for subagreements and subawards pursuant to certain contracts, subcontracts, and subgrants. Subagreements for Services may be formal or informal, written or verbal, and are indicated when a part or all of an instructional or support activity for which the LEA is responsible is conducted by a third party rather than by the LEA (see page 910-2, Categories of Costs, for definitions of instructional and support activities). The LEA's responsibility for the activity may originate from any grant, award, or entitlement, including general purpose entitlements. Following are general indicators of subagreements for services:</td>
<td></td>
</tr>
<tr>
<td>• Subagreements are, by definition, subordinate to something—typically to a grant, award, or entitlement, but at least to some expectation that an LEA has a responsibility for some activity.</td>
<td></td>
</tr>
<tr>
<td>• Subagreements are typically in functions 1000–3999 (and possibly 4000), but this is not the determining factor. Every contract or agreement in these functions is not necessarily a subagreement.</td>
<td></td>
</tr>
<tr>
<td>• Contracts for services between LEAs are subagreements if they have the characteristics of the &quot;Subagreements for Services&quot; model described in Procedure 750.</td>
<td></td>
</tr>
</tbody>
</table>
Subcontracted expenditures generally do not generate or benefit from an LEA's administrative services (indirect costs) to the same extent that other expenditures do because the services provided under the subagreement are carried out by the other entity.

Some examples of subagreements for services include:

- Contracts with a third party to provide services required by a grant, such as the emergency services required by an Emergency Response Safety Grant
- Contracts with other entities to provide home-to-school transportation for the LEA’s students
- Contracts with nonpublic schools for services to the LEA’s special education students
- Contracts between charter schools and management companies to provide instruction to the charter school’s students
- Cooperative projects and pass-through grants in which LEAs have both administrative and direct financial involvement (refer to Procedure 750)

Subagreements for services generally exclude:

- Pass-through grants in which LEAs have only administrative involvement (refer to Procedure 750)
- Contracts for central administrative or "other" services (see page 910-2, Categories of Costs, for definitions of these services)
- Routine purchases of standard commercial goods or services from a vendor (refer to Object 5800, Professional/Consulting Services and Operating Expenditures)

When a distinction must be made between a subagreement and a routine purchase from a vendor, the substance of the transaction is more important than the form. For example, a contract with a vendor to provide home-to-school transportation to the LEA’s students would be a subagreement, but a contract with the same vendor to rent buses for the LEA to transport its own students would be a routine purchase from a vendor. The form of the written agreements might be identical in that both might be contracts with a transportation vendor, yet the substance of the transactions is different.

Unlike other costs in objects 5000–5999, Object 5100 costs are excluded from the calculation of the indirect cost rate and from eligible program expenditures on which indirect costs are charged (see Procedure 915). However, in recognition
Procedure 330  Object Classification

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>that some general administration is necessary to process a subagreement, indirect cost guidelines allow that up to $25,000 of each individual subagreement may be coded to Object 5800, Professional/Consulting Services and Operating Expenditures, with the remainder charged to Object 5100. The amount charged to Object 5800 is included in the calculation of the indirect cost rate and in eligible program expenditures on which indirect costs are charged. The $25,000 limit per subagreement applies each year for the duration of the subagreement.</td>
</tr>
<tr>
<td>5200</td>
<td><strong>Travel and Conferences.</strong> Record actual and necessary expenditures incurred by and/or for employees and other representatives of the LEA for travel and conferences <em>(Education Code sections 35044 and 44032)</em>. Included in this object are fees paid for those individuals to attend conferences or training classes. Expenditures for employee conferences charged to this object should follow the goal and function of the employee. Expenditures for conferences sponsored by the LEA are not coded to this object but are coded to the appropriate object for specific services purchased, such as Object 4300 for food, Object 5800 for caterers, Object 5600 for room rentals, and Object 2400 for staff time in preparing for the conference, in combination with Function 2140, In-house Instructional Staff Development, or Function 7410, Staff Development. <em>(The use of Object 4700, Food, is restricted to Function 3700, Food Services.)</em> Expenditures for college tuition paid on behalf of employees are recorded to Object 5800, Professional/Consulting Services and Operating Expenditures.</td>
</tr>
<tr>
<td>5300</td>
<td><strong>Dues and Memberships.</strong> Record the membership fee of an LEA in any society, association, or organization as authorized by <em>Education Code</em> Section 35172. Object 5300 may be used for the dues of an employee, such as a chief business official or a superintendent, if it is deemed that the LEA is represented and benefits from the membership. Use objects 3901–3902 for employee dues if it is deemed that the dues are a benefit only for the employee.</td>
</tr>
<tr>
<td>5400</td>
<td><strong>Insurance.</strong> Record expenditures for all forms of insurance other than employee benefits. Use Function 9100, Debt Service, for bond insurance costs when issuing new bonds.</td>
</tr>
<tr>
<td>5440</td>
<td><strong>Pupil Insurance (Optional).</strong> Record expenditures for accidental death insurance and medical and hospital insurance for pupils. Use Function 1000, Instruction.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>5450</td>
<td><strong>Other Insurance (Optional).</strong> Record expenditures for all forms of insurance other than employee health insurance and pupils' insurance. For fire and theft liability and fidelity bond premiums, use Function 7200, Other General Administration; for school buses, use Function 3600, Pupil Transportation; for food service vehicles, use Function 3700, Food Services.</td>
</tr>
</tbody>
</table>

5500  | **Operations and Housekeeping Services.** Record expenditures for water, heating fuel, light, power, waste disposal, pest control, laundry and dry cleaning (such as laundering of curtains and cleaning of drapes), and so forth. Include contracts for these services. Object 5500 is used only with the maintenance and operation functions 8100–8500 and Function 6000, Enterprise. Cleaning of uniforms, such as band or custodial uniforms, is charged to the appropriate function and Object 5800, Professional/Consulting Services and Operating Expenditures. Fuel for pupil transportation is coded to Object 4300, Materials and Supplies. |

5600  | **Rentals, Leases, Repairs, and Noncapitalized Improvements.** Record expenditures for rentals, leases without option to purchase, and repairs or maintenance (including maintenance agreements) of sites, buildings, and equipment by outside vendors. Include incidental materials and supplies included in the cost of repairs. Include expenditures for site or building improvements that do not meet the LEA's threshold for capitalization. Capital leases should be recorded according to the accounting procedures for lease/purchase agreements in Procedure 710. Rental of facilities is normally charged to Function 8700, Facilities Rents and Leases. The temporary rental of facilities incidental to a particular activity, such as the hourly or daily rental of a hall for a staff development workshop or the rental of an auditorium for a school graduation, is charged to the function of the benefiting activity. |

5700–5799  | **Transfers of Direct Costs.** Record the transfer of costs for services, other than indirect costs, between resources, goals, functions, and/or funds. Typical transfers of direct costs between functions include services provided or products developed by the LEA, such as maintenance and repair of duplicating, audiovisual, or other equipment; photocopying expenses; field trips; district vehicle use; and information technology expenses. These types of costs may be accumulated in a particular function for ease of accounting and then transferred to |

</thead>
<tbody>
<tr>
<td></td>
<td>the benefiting function(s) based on supporting documentation. For example, costs of field trips initially recorded in Function 3600, Pupil Transportation, are instructional costs and therefore are transferred to Function 1000, Instruction (see Example 1 in Procedure 640).</td>
</tr>
<tr>
<td></td>
<td>Typical transfers of direct costs between goals include the distribution of support costs to benefiting goals. For example, expenditures initially recorded to Function 8100, Plant Maintenance and Operations, with Goal 0000, Undistributed, may be transferred to the benefiting goal(s) on the basis of documentation or standardized allocation factors.</td>
</tr>
<tr>
<td></td>
<td>This account is also used to record transfers of administrative costs on any basis other than the indirect cost rate, such as administrative costs incurred in the general fund to calculate and collect developer fees.</td>
</tr>
</tbody>
</table>

#### 5710 Transfers of Direct Costs. Record transfers within a fund for direct costs of services provided, as described above. This account must net to zero at the fund level.  

#### 5750 Transfers of Direct Costs—Interfund. Record transfers between funds for direct costs of services provided, as described above. This account will reflect a balance at the fund level for the amount of between-funds costs. The total between-funds debit and credit transactions must net to zero.  

#### 5800 Professional/Consulting Services and Operating Expenditures. Record expenditures for personal services rendered by personnel who are not on the payroll of the LEA. Professional/consulting services are delivered by an independent contractor (individual, entity, or firm) that offers its services to the public. Such services are paid on a fee basis for specialized services that are usually considered to be temporary or short term in nature, normally in areas that supplement the expertise of the LEA. This includes all related expenditures covered by the personal services contract.  

Record expenditures for services such as printing, engraving, and so forth performed by an outside agency. This includes but is not limited to copies made from masters provided by the LEA.  

Record expenditures for catering services provided by an outside vendor.  

Record expenditures for college tuition paid on behalf of employees.
## Procedure 330  Object Classification

Procedure 330  Object Classification

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
</table>

Subagreement must be recorded in Object 5100. Examples of subagreements are shown under Object 5100.

*Note:* Expenditures to nonpublic, nonsectarian schools for the education of children with exceptional needs should be charged to Object 5100, Subagreements for Services. Expenditures for excess costs and/or deficits in special education programs paid to provider school districts or county offices should be charged to objects 7141–7143, Other Tuition.

5900  
**Communications.** Record expenditures for periodic servicing of all methods of communication, including pagers, cell phones, beepers, and telephone service systems. This object also includes the monthly charges for fax lines, TV cable lines, and Internet service and lines. The cost of postage stamps and "refill" of postage meters should be coded to Communications, as should the cost of parcel service or other means used to deliver a letter or other outgoing communications. Incoming shipping of purchased goods by parcel service or other means is considered to be part of the cost of goods purchased and should not be charged to Object 5900.

Generally, communication costs should be charged to either Function 2700, School Administration, or Function 7200, Other General Administration. Communication service fees may be charged to other functions by direct documentation, such as monthly statements. The monthly bills for pagers, cell phones, cable, and Internet services may follow the user if the charges can be documented. For example, Internet fees that are part of classroom instruction may be charged to Function 1000, Instruction.

The cost of communication equipment is normally coded to Object 4400, Noncapitalized Equipment. If the cost of a unit of equipment exceeds the capitalization threshold of the LEA, use Object 6400, Equipment, or Object 6500, Equipment Replacement, as appropriate. However, if the cost is minor and the expected life short, the cost of the equipment should be coded to Object 4300, Materials and Supplies.

The cost of wiring and installing cables for communication equipment that become an integral part of the building or building service system is coded to Object 6200, Buildings and Improvement of Buildings, with Function 8500, Facilities Acquisition and Construction. Repairs to these lines would be coded to Function 8100, Plant Maintenance and Operations, with either Object 5600, Rentals, Leases, Repairs, and Noncapitalized Improvements, or with the salary or supply object codes of the maintenance budget.

</tr>
</thead>
<tbody>
<tr>
<td>6000–6999</td>
<td><strong>Capital Outlay.</strong> Record expenditures for land, buildings, equipment, capitalized complements of books for new libraries, and other intangible capital assets, such as computer software, including items acquired through leases with option to purchase. These object codes are not used in proprietary funds, in which capital assets are recorded in Objects 9400–9499 and subsequently depreciated.</td>
</tr>
<tr>
<td>6100</td>
<td><strong>Land.</strong> Record the costs of acquisition of land and additions to old sites and adjacent ways. Include incidental expenditures in connection with the acquisition of sites, such as appraisal fees, search and title insurance, surveys, and condemnation proceedings, and fees. If a site is not purchased after the appraisal or survey, record the expenditure in Object 5800, Professional/Consulting Services and Operating Expenditures. Include costs to remove buildings on newly acquired sites. Use with Function 8500, Facilities Acquisition and Construction.</td>
</tr>
<tr>
<td>6170</td>
<td><strong>Land Improvements.</strong> Record expenditures for each of the following with Function 8500, Facilities Acquisition and Construction:</td>
</tr>
<tr>
<td></td>
<td>• Improvements of sites (new and old) and adjacent ways that meet the LEA's threshold for capitalization. Include such work as grading, landscaping, seeding, and planting shrubs and trees; constructing new sidewalks, roadways, retaining walls, sewers, and storm drains; installing hydrants; treating soil and surfacing athletic fields and tennis courts; furnishing and installing fixed playground apparatus, flagpoles, gateways, fences, and underground storage tanks that are not parts of building service systems; and doing demolition work in connection with improvement of sites.</td>
</tr>
<tr>
<td></td>
<td>• Leasehold improvements to sites. Include costs of site improvements to leased property.</td>
</tr>
<tr>
<td></td>
<td>• Payment of special assessments. Include assessments against the school district for capital improvements such as streets, curbs, sewers, drains, and pedestrian tunnels whether on or off school property.</td>
</tr>
<tr>
<td>6200</td>
<td><strong>Buildings and Improvements of Buildings.</strong> Record costs of construction or purchase of new buildings (including relocatable buildings, such as portable classrooms) and additions and replacements of obsolete buildings, including advertising; architectural and engineering fees; blueprinting; inspection service (departmental or contract); tests and examinations; demolition work in connection with construction of electrical, sprinkling, or warning devices; installation of</td>
</tr>
</tbody>

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>6400</td>
<td>Equipment. Record expenditures for movable personal property, including such equipment as vehicles, machinery, computer systems, and playground equipment, that have both an estimated useful life over one year and an acquisition cost equal to or greater than the capitalization threshold established by the LEA. Acquisition cost includes tax, freight or other types of delivery charges, and installation costs, including labor. (For more detail, refer to Procedure 770.)</td>
</tr>
</tbody>
</table>

Record the initial acquisition of computer software, both downloaded and off-the-shelf, that exceeds the LEA's capitalization threshold, including research and development costs, licensing, and installation or training.

Piece-for-piece replacements of equipment are recorded in Object 6500, Equipment Replacement, if the unit cost exceeds the LEA's capitalization threshold.

Initial built-in fixtures that are integral parts of the building or building service system are recorded in Object 6200, Buildings and Improvement of Buildings.

| 6500  | Equipment Replacement. Record expenditures for equipment replaced on a piece-for-piece basis. These expenditures must be identified for purposes of the calculation of the current expense of education (Education Code Section 41372). |

| 6900  | Depreciation Expense (for proprietary and fiduciary funds only). Record the portion of the cost of a capital asset charged as an expense during the fiscal year. In accounting for depreciation, the cost of a capital asset less any anticipated salvage value is prorated over the estimated service life of the asset, and each period is charged with a portion of that cost. Through this process, the cost of the asset less salvage value is ultimately charged as an expense. |

## Procedure 330 Object Classification

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Note:</strong> Objects 7370 and 7380 are valid through 2007-08. Beginning in 2008-09, use objects 5710 and 5750, Transfers of Direct Costs, to transfer direct costs and administrative costs other than indirect costs.</td>
<td></td>
</tr>
</tbody>
</table>

7310 **Transfers of Indirect Costs.** Record transfers within a fund of indirect costs, as described above. This account must net to zero by function at the fund level.

7350 **Transfers of Indirect Costs—Interfund.** Record transfers between funds of indirect costs, as described above. This account will reflect a balance at the fund level for the amount of between-funds costs; the total between-funds debit and credit transactions must net to zero by object.

7370 **Transfers of Direct Support Costs (Valid through 2007-08).** Record transfers of direct support costs between programs within a fund. This account must net to zero by function at the fund level. The function used may be one of many support functions, such as Function 3110, Guidance and Counseling Services, or Function 8100, Plant Maintenance and Operations. This account may also be used to record transfers of administrative costs other than indirect costs using Function 7210. Use Object 5710, Transfers of Direct Costs, beginning 2008-09.

7380 **Transfers of Direct Support Costs—Interfund (Valid through 2007-08).** Record transfers of direct support costs between funds. This account will reflect a balance at the fund level but only for the amount of between-funds costs. The total between-funds debit and credit transactions must net to zero by object as well as by function. This account may also be used to record transfers of administrative costs other than indirect costs using Function 7210. Use Object 5750, Transfers of Direct Costs—Interfund, beginning in 2008-09.

7430–7439 **Debt Service.** Debt service consists of expenditures for the retirement of debt and for interest on debt, except principal and interest on current or short-term loans (money borrowed and repaid during the same fiscal year). Use with Function 9100, Debt Service.

7432 **State School Building Repayments.** Record expenditures for state school building loan repayments (*Education Code* Section 16090).

7433 **Bond Redemptions.** Record expenditures to retire the principal of bonds.

7434 **Bond Interest and Other Service Charges.** Record expenditures to pay interest and other service charges on bonds.

</table>
| 8677  | **Interagency Services Between LEAs.** Record revenue received from another LEA for contract services provided for the other LEA, except for federal moneys. Include amounts received for supervisorial oversight or for administrative or other services provided to a charter school by an authorizing LEA pursuant to *Education Code* Section 47613.  
To ensure that federal interagency revenues retain their federal identity, they should be reported in Object 8285, Interagency Contracts Between LEAs.  
Expenditures made by an LEA to fulfill contracts on behalf of another LEA should be coded to Goal 7110, Nonagency—Educational. |
| 8681  | **Mitigation/Developer Fees.** Report, in the general fund, only those fees collected by agreement between the school district and the developer that are not imposed as a condition for approving a residential development. Any fees that are collected as a condition to approving a development must be deposited in the Capital Facilities Fund (Fund 25). |
| 8689  | **All Other Fees and Contracts.** Record revenue received for all other fees and contract services from entities other than LEAs. |
| 8690–8719 | **Other Local Revenue**                                                    |
| 8691  | **Plus: Miscellaneous Funds Non-Revenue Limit (50 Percent) Adjustment.**  
Record the transfer of 50 percent of the amounts in objects 8081 and 8082 from Revenue Limit Sources to Other Local Revenue by debiting Object 8089 and crediting Object 8691. Objects 8089 and 8691 must net to zero. |
| 8697  | **Pass-Through Revenue from Local Sources.** Record the receipts of those local pass-through grants in which the recipient LEA has administrative involvement. Refer to Procedure 750 for information regarding pass-through activities.  
The disbursements of these pass-through grants should be recorded using objects 7211, 7212, and 7213, as appropriate. |
| 8699  | **All Other Local Revenue.** Record all other local revenue, except funds defined as "miscellaneous funds" in *Education Code* Section 41604, received from entities other than LEAs. Examples of revenue recorded in this account are library fines, contributions, gifts, and reimbursement for practice teaching. |
| 8710  | **Tuition.** Record tuition payments received from the following sources:    |

<td><strong>Revolving Cash Account.</strong> (1) A recording of the establishment and maintenance of a cash account for use of the chief accounting officer or other designated official of the LEA in accordance with <em>Education Code</em> sections 42800–42806, 42810, 42820, and 42821. This account is similar in use and control to accounts known as petty cash funds and includes petty cash funds. Once this account is established, it should be carried indefinitely in the general ledger and shown in all balance sheets and budgets until it is abolished. The amount recorded will vary only through increase or decrease in the total amount approved for the account. It should be noted that the revolving cash account is a reservation of cash within an already established fund and is not to be considered or accounted for as a separate fund or entity. (2) A sum of money, either in the form of currency or a special bank account, set aside for the purpose of making change or immediate payments of small amounts. The invoices for these payments are accumulated, and the account is reimbursed from the LEA's funds, thus maintaining the account at the predetermined amount. Checks drawn on a prepayment account may not be for more than $1,000, including tax and freight (<em>Education Code</em> Section 42821).</td>
</tr>
<tr>
<td>9135</td>
<td><strong>Cash with a Fiscal Agent/Trustee.</strong> Deposits with a fiscal agent, such as a third-party administrator for self-insurance. This account also includes the proceeds of certificates of participation deposited with a trustee and amounts in an escrow account.</td>
</tr>
<tr>
<td>9140</td>
<td><strong>Cash Collections Awaiting Deposit.</strong> Money received by an LEA and not yet deposited in a bank account or the county treasury (<em>Education Code</em> Section 41001). This account is usually posted on June 30 for those material revenues in the LEA safe/vault.</td>
</tr>
<tr>
<td>9150</td>
<td><strong>Investments.</strong> Investments authorized by the governing board of the LEA recorded at fair value (<em>GASB Statement 31</em>) (<em>Education Code</em> Section 41015).</td>
</tr>
<tr>
<td>9200</td>
<td><strong>Accounts Receivable.</strong> Amounts due from private persons, firms, or corporations. Accounts receivable will be limited to auditable amounts (usually based on contractual agreements); to amounts billed but not received; and, within provision of law, to amounts that were earned by the close of the fiscal year and that might have been received and deposited in the county treasury by that date except for the lack of time for settlement.</td>
</tr>
<tr>
<td>9290</td>
<td><strong>Due from Grantor Governments.</strong> This account is used to record amounts receivable from state and federal agencies. It represents amounts earned by or allocated to a school district from state sources or earned under a federal financial assistance program in excess of cash receipts during the fiscal year.</td>
</tr>

<td><strong>Due from Other Funds.</strong> Amounts due from other funds of the LEA.</td>
</tr>
<tr>
<td>9320</td>
<td><strong>Stores.</strong> Amounts of materials, supplies, and possibly certain equipment kept in a central warehouse and subject to requisition and use.</td>
</tr>
<tr>
<td>9330</td>
<td><strong>Prepaid Expenditures (Expenses).</strong> Payments made in advance of the receipt and use of services. Prepaid insurance premiums are illustrative. That portion of the premium paid in advance for coverage beyond the current fiscal year may be charged to Prepaid Expenditures. Adjustments to this account in the succeeding fiscal years apportion the premium over the period covered.</td>
</tr>
<tr>
<td></td>
<td>In governmental fund accounting, expenditures for insurance and similar services extending over more than one accounting period need not be allocated between or among accounting periods but may be accounted for as expenditures in periods of acquisition.</td>
</tr>
<tr>
<td>9340</td>
<td><strong>Other Current Assets.</strong> Assets that are available or that can be made readily available to meet operating costs or to pay current liabilities.</td>
</tr>
<tr>
<td>9400–9499</td>
<td><strong>Capital Assets.</strong> Accounts used in the proprietary or trust funds to present the assets of the LEA. These assets are of a permanent character and are intended to continue to be held or used.</td>
</tr>
<tr>
<td>9410</td>
<td><strong>Land.</strong> A capital asset account reflecting the cost of land owned by the LEA.</td>
</tr>
<tr>
<td>9420</td>
<td><strong>Land Improvements.</strong> A capital asset account reflecting the cost of permanent improvements, other than buildings, which add value to land, such as sidewalks, gutters, pavement, and fences.</td>
</tr>
<tr>
<td>9425</td>
<td><strong>Accumulated Depreciation—Land Improvements.</strong> A contra-asset account used to report the accumulation of systematic and rational allocations of the estimated cost of using land improvements on a historical cost basis over the useful life of the improvement. The depreciation expense is reported in Object 6900, Depreciation Expense, in proprietary and fiduciary funds only.</td>
</tr>
<tr>
<td>9430</td>
<td><strong>Buildings.</strong> A capital asset account reflecting the cost of permanent structures owned or held by the LEA.</td>
</tr>
</tbody>
</table>

<tr>
<td>9435</td>
<td><strong>Accumulated Depreciation—Buildings.</strong> A contra-asset account used to report the accumulation of systematic and rational allocations of the estimated cost of using buildings on a historical cost basis over the useful life of the building. The depreciation expense is reported in Object 6900, Depreciation Expense, in proprietary and fiduciary funds only.</td>
</tr>
<tr>
<td>9440</td>
<td><strong>Equipment.</strong> A capital asset account reflecting the cost of properties that do not lose their identity when removed from their location and are not changed materially or consumed immediately (e.g., within one year) by use. Equipment has relatively permanent value, and its purchase increases the total value of an LEA's physical properties. Examples include furniture, vehicles, machinery, motion-picture films, videotapes, furnishings that are not an integral part of the building or building system, and certain intangible assets, such as major software programs.</td>
</tr>
<tr>
<td>9445</td>
<td><strong>Accumulated Depreciation—Equipment.</strong> A contra-asset account used to report the accumulation of systematic and rational allocations of the estimated cost of using equipment on a historical cost basis over the useful life of the equipment. The depreciation expense is reported in Object 6900, Depreciation Expense, in the proprietary and fiduciary funds only.</td>
</tr>
<tr>
<td>9450</td>
<td><strong>Work in Progress.</strong> An asset account representing the value of partially completed work.</td>
</tr>
<tr>
<td>9500–9699</td>
<td><strong>Liabilities</strong></td>
</tr>
</tbody>
</table>
| 9500  | **Accounts Payable (Current Liabilities).** Amounts due to private persons, firms, or corporations for services rendered and goods received on or before the close of the fiscal year. Do not include encumbrances represented by purchase orders or contracts, or portions thereof, for services or goods to be furnished after the close of the fiscal year. Include salaries earned but not paid until after June 30, amounts owed to other LEAs for tuition payments, that portion of construction contracts represented by work done by the close of the fiscal period, invoices for materials or equipment received prior to June 30, and so forth. Use Object 9620, Due to Student Groups/Other Agencies, for the liabilities of a trust or agency fund. 

*Note:* Range 9501–9589 is reserved for local use, such as for payroll tax accruals. |
<p>| 9501–9589 | <strong>Accounts Payable—Locally Defined.</strong> These accounts are used at the option of LEAs to track current liabilities, such as payroll withholdings and deductions. |</p>

</tbody>
</table>
### Procedure 330  Object Classification

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>9730–9749</td>
<td><strong>Fund Balance, Restricted</strong></td>
</tr>
<tr>
<td>9740</td>
<td><strong>Restricted Balance.</strong> The portion of fund balance representing resources subject to externally imposed and legally enforceable constraints imposed either by external resource providers, e.g., grantors or creditors, or by law through constitutional provisions or enabling legislation. Examples include unspent balances of restricted state and federal grants, and unspent proceeds of general obligation bonds. All positive balances of SACS restricted resources 2000 through 9999 are reported using Object 9740.</td>
</tr>
<tr>
<td>9750–9769</td>
<td><strong>Fund Balance, Committed.</strong> The portion of fund balance representing resources whose use is constrained by limitations self-imposed by the LEA through formal action of its highest level of decision-making authority. The constraints can be modified or removed only through the same process by which they were imposed. The action imposing the constraint must be made by the end of the reporting period. The actual amounts may be determined at a later date, prior to the issuance of the financial statements.</td>
</tr>
<tr>
<td>9750</td>
<td><strong>Stabilization Arrangements.</strong> The portion of fund balance set aside pursuant to a stabilization arrangement more formal than the reserve for economic uncertainties recommended by the Criteria and Standards for Fiscal Solvency or other minimum fund balance policy. The level of constraint must meet the criteria to be reported as committed, and the circumstances in which the resources are used must be specific and nonroutine. The formal action imposing the constraint should identify and describe in sufficient detail the circumstances in which the amounts may be used. Minimum fund balance policies and other stabilization arrangements that do not meet the criteria to be reported as committed are reported as unassigned. Also see Object 9789, Reserve for Economic Uncertainties.</td>
</tr>
<tr>
<td>9760</td>
<td><strong>Other Commitments.</strong> The portion of fund balance representing commitments other than stabilization arrangements.</td>
</tr>
<tr>
<td>9770–9788</td>
<td><strong>Fund Balance, Assigned.</strong> The portion of fund balance representing resources that are intended to be used for specific purposes but for which the constraints do not meet the criteria to be reported as restricted or committed. Intent may be established either by the LEA’s highest level of decision-making authority or by a designated body or official. Constraints giving rise to assigned fund balance may be imposed at any time before the financial statements are issued, and may be modified or removed by a process less formal than is required for committed fund</td>

### 9800–9839  Budgetary Accounts

These budgetary accounts are used by LEAs to record the budget. These accounts are not reported to CDE.

- **9810  Estimated Revenue.** The budgetary account that shows all revenue estimated to be received or accrued during the fiscal year. This account is a control account in a fund's general ledger, and it must agree with the subsidiary ledger.

- **9815  Estimated Other Financing Sources.** The budgetary account that shows all the other financial resources that are estimated to be received or accrued during the fiscal year. This account is optional; LEAs may use Object 9810 to record both budgeted revenue and other sources.

- **9820  Appropriations.** Authorization granted by the governing board to make expenditures and to incur obligations for specific purposes and amounts within the fiscal year. This account is a control account in the general ledger, and it must agree with the subsidiary ledger.

- **9825  Estimated Other Financing Uses.** The budgetary account that shows all of the other financial obligations that will be paid or will accrue during the fiscal year. This account is optional; LEAs may use Object 9820 to record both appropriations and estimated other uses.

- **9830  Encumbrances.** Obligations in the form of purchase orders, contracts, salaries, or other commitments that are chargeable to an appropriation and for which part of the appropriation is reserved. Encumbrances are canceled when the obligation is paid or when the actual liability is set up. This control account represents the total amount of the appropriations that has been designated for expenditures for specified purposes. Details of encumbrances by classification or account are recorded in the same subsidiary appropriations ledger in which expenditures are recorded.

### 9840–9899  Control Accounts

These accounts are not reported to CDE.

- **9840  Revenue.** The control account for all revenue that is received or accrued during the fiscal year.
## Procedure 330  Object Classification

<tr>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>9845</td>
<td><strong>Other Financing Sources.</strong> The control account for other financing sources. This account is optional; LEAs may use Object 9840 as the control account for revenue and other financing sources.</td>
</tr>
<tr>
<td>9850</td>
<td><strong>Expenditures.</strong> The control account for all expenditures that are paid or accrued during the fiscal year.</td>
</tr>
<tr>
<td>9855</td>
<td><strong>Other Financing Uses.</strong> The control account for other financing uses. This account is optional; LEAs may use Object 9850 as the control account for expenditures and other financing uses.</td>
</tr>
<tr>
<td>9900–9979</td>
<td><strong>Nonoperating Accounts.</strong> (These accounts are not reported to CDE.)</td>
</tr>
<tr>
<td>9910</td>
<td><strong>Suspense Clearing.</strong> An account that carries charges or credits temporarily pending determination of the proper account or accounts to which they are to be posted and that may be used for posting of amounts not yet analyzed to decide whether they should be revenue, expenditure, or abatement. Charges that must be allocated or prorated may be posted in this account until such allocation or proration can be calculated. This account must balance to zero at the close of the fiscal year and should be reviewed</td>
</tr>
</tbody>
</table>
Procedure 340  Valid Account Code Combinations

All of the fields used in the standardized account code structure (SACS) must work together to form valid account code strings. Although there are hundreds of individual account codes, many are valid only in combination with certain other codes.

Tables of valid combinations are maintained and updated periodically for validating the appropriateness of the account combinations used in the data LEAs submit to CDE through the use of CDE's data collection (SACS) software. The tables are also available in an easy-to-reference spreadsheet format. The spreadsheet format provides a useful tool for users to research coding combinations prior to using them in their financial systems. The spreadsheets, available in both Microsoft Excel and PDF format, can be downloaded from CDE's Web site:

http://www.cde.ca.gov/fg/ac/ac/sprvalidcombs.asp

The following tables are abbreviated examples of the seven tables of valid combinations and discussion of the coding principles associated with each. An "x" in a cell indicates the combination is valid; however, it does not indicate that the combination is valid for every LEA type (districts, COEs, and JPAs). LEAs should refer to the complete versions of the tables to determine the LEA types for which a certain combination is valid.

Function by Object Combinations

All expenditure objects (1000–7999) are validated in combination with all functions.

<table>
<thead>
<tr>
<th>Object Codes</th>
<th>Function 1000</th>

</tr>
</tbody>
</table>
Procedure 340  Valid Account Code Combinations

2400 Clerical, Technical, and Office Staff Salaries  X  X  X  X

All expenditures must be coded to a function. Revenue and balance sheet accounts do not require a function and are not included in this table.

Certain expenditures are not appropriate in certain functions. For example, teachers perform instructional activities. Their salaries are appropriately coded to Function 1000, Instruction, but not to Function 3110, Guidance and Counseling Services, which is a pupil support activity.

Fund by Function Combinations

All functions are validated in combination with all funds.

<table>
<thead>
<tr>
<th>Function Codes</th>
<th>Fund 01 General/County School Service Fund</th>
<th>Fund 13 Cafeteria Fund</th>
<th>Fund 21 Building Fund</th>
<th>Fund 51 Bond Interest and Redemption Fund</th>
<th>Fund 63 Other Enterprise Fund</th>

</tr>
</tbody>
</table>

Certain goals are not appropriate in certain funds. For example, Goal 1110, Regular Education, K–12, is not valid in Fund 21, Building Fund, or Fund 51, Bond Interest and Redemption Fund, because specific populations of students, such as K–12 students, are not served by the activities of these funds. Rather, the activities of these funds are for the benefit of all student populations and should be coded to Goal 0000, Undistributed.

**Fund by Object Combinations**

All objects are validated in combination with all funds.

<table>

</tbody>
</table>

8200 Most resources represent restricted sources of revenue that must be spent on specific activities, and most funds exist for the accounting for specific activities. Not all resources will be appropriate with all funds. For example, Resource 5310, Child Nutrition: School Programs, is valid in Fund 13, Cafeteria Fund, because the cafeteria fund exists for the accounting of child nutrition programs, such as provided by Resource 5310. However, Resource 5310 is not valid in Fund 21, Building Fund, because the building fund exists for the accounting of capital projects, not child nutrition programs.
Procedure 340  Valid Account Code Combinations

Goal by Function Combinations

Functions in the 1000, 4000, 5000, and 7000 series (except 7210) are validated in combination with all goals.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Instructional (1xxx), ancillary services (4xxx) and community services (5xxx) functions must be coded to a specific goal. They may not be coded to Goal 0000, Undistributed, or Goal 5001, Special Education—Unspecified.

General administration functions (7xxx), except Function 7210, General Administration Cost Transfers, should generally only be coded to Goals 0000, Undistributed; 7110, Nonagency—Educational; 7150, Nonagency—Other; and 8600, County Services to Districts.

Noninstructional functions, such as the pupil support function range of 3000–3999, do not require a specific goal. They may be coded to Goal 0000, Undistributed. Therefore, combinations of noninstructional functions with specific goals are not addressed in this table, although most of these combinations are valid.

Restricted resources are generally funded by either state or federal revenues. Carryovers of restricted resources are subject to either restricted ending balance or deferred revenue. Combinations are validated to ensure that LEAs are using the correct revenue designation(s) and are accounting for carryover correctly.

The following are examples of valid and invalid combinations:

- Resource 3010, Title I, Part A, Basic Grants Low-Income and Neglected, is federal revenue and, therefore, Object 8290, All Other Federal Revenue, is open to this resource. But state objects, such as Object 8590, All Other State Revenue, are not open to this federal resource.
- A carryover balance in this same Resource 3010 is subject to deferred revenue and, therefore, Object 9650, Deferred Revenue, is open to this resource. But Object 9790, Unassigned/Unappropriated, which is a fund balance object rather than a deferred revenue object, is not.
Procedure 420 Prepaid Expenditures

LEAs often disburse cash for services or materials, a portion or all of which actually applies to a future fiscal period. The most common disbursement of this type is for insurance; the full premium is paid immediately, but the coverage extends into future years. In governmental accounting, expenditures for insurance and similar services extending over more than one accounting period may be accounted for as expenditures of the period of acquisition or allocated to subsequent accounting periods.

Assume, for example, that an LEA purchases a five-year insurance policy on July 1, 2008, for $5,000. If the LEA treats the cost of this insurance policy as an expenditure of the period of acquisition, the following entry will be made:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-1-08</td>
<td>Insurance</td>
<td>5400</td>
<td>$5,000.00</td>
<td>$5,000.00</td>
</tr>
<tr>
<td></td>
<td>Cash in County Treasury</td>
<td>9110</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

To record the payment for a five-year insurance policy.

If the LEA treats the cost of this insurance policy as a prepaid expenditure and allocates a portion of the cost to subsequent years, the following entry will be made in the year of acquisition:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-1-08</td>
<td>Insurance</td>
<td>5400</td>
<td>$1,000.00</td>
<td>$5,000.00</td>
</tr>
<tr>
<td></td>
<td>Prepaid Expenditures</td>
<td>9330</td>
<td>4,000.00</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Cash in County Treasury</td>
<td>9110</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

To record the payment for a five-year insurance policy, one year of which applies to the current year.

At the end of the year, when the books are closed, the Prepaid Expenditures asset account is included with other ending balances and becomes a part of the beginning balance for the next year.

After the books are opened for the next year, it is necessary to determine whether all or a portion of Prepaid Expenditures applies to the current year. This amount must be charged to the appropriate expenditure account of the new year, leaving as a remainder in the asset account any amounts not yet applicable. These, in turn, must be carried over as Prepaid.
Procedure 420 Prepaid Expenditures

Expenditures to the next year. A good way to determine the amount to charge to a year other than the year in which the original cash disbursement was made is to prepare a schedule of amounts and periods applicable at the time when the original cash disbursement is made, as shown in the following example:

<table>
<thead>
<tr>
<th>Policy number</th>
<th>Carrier</th>
<th>Overall total</th>
<th>Analysis of total applying to each succeeding year</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>$4,000.00</td>
<td>First year</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>$1,000.00</td>
</tr>
</tbody>
</table>

This schedule is retained for reference at the time of a future year's charge-off to ensure that the correct amounts are charged to each succeeding year in which a benefit is received. The schedule would be updated at the beginning of each year by reducing the control total by the amount of the first year succeeding, which is charged to expenditure, and by moving each figure in the next several columns one column to the left.

Charging off the portion applicable to a new year at the beginning of that year requires that a journal entry be made, with the debit charged to the appropriate expenditure account and the credit applied to Prepaid Expenditures. This entry should be one of the first entries made.

Another common example of prepaid expenditures is the payment of a fee for a teacher to attend a class that will be held during the next fiscal year. If the fee is paid in May of one year to reserve a place at a conference that will be held in the subsequent year, the charge is made to a prepaid account in the first year, to be expensed in the following year when the teacher attends the conference.

This procedure will create a timing problem if the prepayment is recorded in a categorical program subject to deferred revenues. A prepaid expenditure requires a reserve to the fund balance. Because there is not a fund balance for this type of categorical program, the reserve would generate a negative unassigned fund balance. The prepayment should therefore be recorded in an unrestricted resource and later expended against the categorical program at the time the conference is attended.

A prepaid reservation fee for a summer class to be held August 30, 2008, would appear as follows:
**Procedure 420  Prepaid Expenditures**

Procedure 420    Prepaid Expenditures

This page intentionally left blank.
Procedure 425  Fair Value: Accounting and Reporting for Certain Investments

GASB Statement 31 requires school districts and county offices to report their investments at fair value on the balance sheet. This requirement is similar to the one for businesses under Financial Accounting Standards Board (FASB) Statement 115, *Accounting for Certain Investments in Debt and Equity Securities*, and to the one for not-for-profit organizations under FASB Statement 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations*.

LEA investments affected by this statement are:

- Participating interest-earning investment contracts
- External investment pools, including cash with county treasurer
- Open-end mutual funds
- Debt securities
- Equity securities, option contracts, stock warrants, and stock rights

The provisions in GASB Statement 31 apply only to investments that are held primarily for the purpose of income or profit. Most school districts and county offices deposit their receipts and collections of moneys with their county treasurer because they are required to by *Education Code* Section 41001, not "primarily for the purpose of income or profit." The LEA's cash is nonetheless in external investment pools, however, because most of the county treasurers in California sponsor external investment pools. An external investment pool commingles (pools) the moneys of more than one entity and invests, on the participants' behalf, in an investment portfolio. Because GASB Statement 31 applies to external investment pools, LEAs should report their cash in the county treasury at fair value on the balance sheet.

GASB Statement 31 provides certain exceptions to the general rule requiring that investments be reported at fair value. These exceptions include:
Procedure 425  Fair Value: Accounting and Reporting for Certain Investments

- Investments with a remaining maturity of one year or less at the time of purchase
- Nonparticipating investment contracts, such as nonnegotiable certificates of deposit
- Investments in 2.a.7-like pools, which are external investment pools that adopt policies similar to those of private companies that operate under the Securities and Exchange Commission's Rule 2.a.7 of the Investment Company Act of 1940. They invest only in short-term securities and are required to sell securities whose market values deviate more than a set percentage from amortized costs.

Determining Fair Value

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Fair value is determined from the published market price in newspapers or trade journals and quotes from recognized stock exchanges or over-the-counter markets. For investments without a quoted market price, the fair value may be determined by using the market price of similar instruments, discounted cash flow, or any other valuation technique that provides the best estimates. The fair value of investments in external pools (i.e., cash in the county treasury) is based on the fair value of the pools' underlying portfolio. LEAs should obtain this information from the county treasurer.

Recognition and Reporting of Investment Income

All investment income, including changes in the fair value of investments, should be recognized as revenue on the operating statement. The change in fair value of investments should be captioned "net increase (decrease) in the fair value of investments." Realized gains and losses should not be reported separately from unrealized gains and losses except in the notes to the financial statements.

There are two revenue object accounts for reporting investment income:

Object 8660, Interest
Object 8662, Net Increase (Decrease) in the Fair Value of Investments
Procedure 425 Fair Value: Accounting and Reporting for Certain Investments

All investment income other than changes in the fair value of investments should be reported in Object 8660. The change in the fair value of investments, which includes realized and unrealized gains and losses, should be reported in Object 8662.

The change in the fair value of investments is defined as the ending fair value, plus proceeds from investments maturing or sold during the year, less investment purchases made during the year, less the beginning fair value. The following examples illustrate how to calculate the changes in the fair value for cash in the county treasury and the accompanying accounting entries. The examples cover two fiscal years.

Note that Object 9110, although titled Cash in County Treasury, really represents the book value of the LEA's share of an external investment fund. However, for most purposes, Object 9110 is administered as a cash account. To avoid making non-cash adjusting entries to this "cash" account, entries for unrealized gains or losses on the value of cash with the county treasurer are made to Object 9111, Fair Value Adjustment to Cash in County Treasury.

Fiscal Year 2007-08

Assume that on July 1, 2007, the school district had $100,000 cash in the county treasury with a fair value of $105,000. During the fiscal year the district had deposits of $900,000 and disbursements of $925,000. On June 30, 2008, the district has $75,000 cash in the county treasury with a fair value of $78,000.

The change in fair value is calculated as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fair Value, ending 6-30-08</td>
<td>$78,000</td>
</tr>
<tr>
<td>Add: Disbursements (comparable to proceeds of investments sold)</td>
<td>925,000</td>
</tr>
<tr>
<td>Less: Receipts (comparable to costs of investments purchased)</td>
<td>(900,000)</td>
</tr>
<tr>
<td>Less: Fair Value, beginning 7-1-07</td>
<td>(105,000)</td>
</tr>
<tr>
<td>Net increase (decrease) in fair value for fiscal year 2007-08</td>
<td>$ (2,000)</td>
</tr>
</tbody>
</table>

Although the fair value of the cash in the county treasury at the end of the fiscal year is $3,000 higher than the actual cash balance ($78,000 minus $75,000), the change in fair value during the year is a decrease of $2,000. The reason is that the fair value of the cash in the county treasury at the beginning of the fiscal year was $5,000 higher than the actual cash balance.
($105,000 minus $100,000), and the $5,000 difference would already have
been recognized by the end of the prior year.

The entry is as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>6-30-08</td>
<td>Net Increase (Decrease) in the Fair Value of Investments</td>
<td>8662</td>
<td>$2,000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Fair Value Adjustment to Cash in County Treasury</td>
<td>9111</td>
<td></td>
<td>$2,000</td>
</tr>
</tbody>
</table>

To report the ending cash balance at fair value and the current year
decrease in the fair value of investments.

**Fiscal Year 2008-09**

Assume that during fiscal year 2008-09, the district had deposits of
$1,000,000 and disbursements of $985,000. At June 30, 2009, the district
has $90,000 cash in the county treasury with a fair value of $94,000.

The change in fair value is calculated as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fair Value, ending 6-30-09</td>
<td>$94,000</td>
</tr>
<tr>
<td>Add: Disbursements (comparable to proceeds of investments sold)</td>
<td>985,000</td>
</tr>
<tr>
<td>Less: Receipts (comparable to costs of investments purchased)</td>
<td>(1,000,000)</td>
</tr>
<tr>
<td>Less: Fair Value, beginning 7-1-08</td>
<td>(78,000)</td>
</tr>
<tr>
<td>Net increase (decrease) in fair value for fiscal year 2008-09</td>
<td>$1,000</td>
</tr>
</tbody>
</table>

Although the fair value of the cash in the county treasury at the end of
the fiscal year is $4,000 higher than the actual cash balance ($94,000 minus
$90,000), the change in fair value during the year is an increase of $1,000.
The other $3,000 difference between the fair value of cash and the actual
cash balance was already recognized at the end of the prior fiscal year.

The entry is as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>6-30-09</td>
<td>Fair Value Adjustment to Cash in County Treasury</td>
<td>9111</td>
<td>$1,000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Net Increase (Decrease) in the Fair Value of Investments</td>
<td>8662</td>
<td></td>
<td>$1,000</td>
</tr>
</tbody>
</table>

To report the ending cash balance at fair value and the
current year increase in the fair value of investments.
Procedure 425  Fair Value: Accounting and Reporting for Certain Investments

To achieve an understanding of the cumulate effect of the preceding entries and those following, it is helpful to consider the entries from the perspective of the account for Object 9111, a permanent account.

Following is a recap of the changes in Object 9111:

Object Account 9111, Fair Value Adjustment to Cash in County Treasury

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>6/30/07</td>
<td>Ending Balance:</td>
<td></td>
<td>$5,000</td>
<td>($105,000 Fair Value vs. $100,000 &quot;Cash&quot; in County Treasury)</td>
</tr>
<tr>
<td>2007-08 Change in Fair Value:</td>
<td>($2,000)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6/30/08</td>

<td></td>
<td>$3,000</td>
<td>($78,000 Fair Value vs. $75,000 &quot;Cash&quot; in County Treasury)</td>
</tr>
<tr>
<td>2008-09 Change in Fair Value:</td>
<td>$1,000</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6/30/09</td>
<td>Ending Balance:</td>
<td></td>
<td>$4,000</td>
<td>($94,000 Fair Value vs. $90,000 &quot;Cash&quot; in County Treasury)</td>
</tr>
</tbody>
</table>

Alternative Method for Adjusting Fair Value

As an alternative, LEAs may choose to reverse their prior year fair value adjustments for cash in the county treasury at the beginning of each fiscal year. If the LEA chooses to reverse the prior year adjustments, the entries for 2008-09 would be as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-1-08</td>
<td>Net Increase (Decrease) in the Fair Value of Investments</td>
<td>8662</td>
<td>$3,000</td>
<td>$3,000</td>
</tr>
<tr>
<td></td>
<td>Fair Value Adjustment to Cash in County Treasury</td>
<td>9111</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

To reverse the 6-30-08 fair value adjustment to cash in county treasury.

<table>
<thead>
<tr>
<th>Date</th>
<th>Object Title</th>
<th>Object Code</th>
<th>Debit</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>6-30-09</td>
<td>Fair Value Adjustment to Cash in County Treasury</td>
<td>9111</td>
<td>$4,000</td>
<td>$4,000</td>
</tr>
<tr>
<td></td>
<td>Net Increase (Decrease) in the Fair Value of Investments</td>
<td>8662</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

To report the ending cash balance at fair value and the current year increase in the fair value of investments.

The effect on the account balances is the same by either method.

Fund Balance Classification for Unrealized Gains

The fair value changes for unrealized gains of investments are reported in the same fund balance classification as the underlying investment.
Materiality of Adjustments to Fair Value

Generally accepted accounting principles (GAAP) require that LEAs report their cash in the county treasury at fair value. However, like all other GASB statements, GASB Statement 31 states that it does not apply to nonmaterial items. For many LEAs, the difference between the fair value and the book value of their cash in the county treasury may not be material.

If an LEA chooses not to record the adjustment necessary to report its cash with the county treasurer at fair value, the LEA's independent auditor must determine whether the omission is material enough to the financial statements to require an adjustment and whether the LEA's departure from GAAP is significant enough to impact the auditor's opinion on the financial statements.
The following guidance may include some information that is temporarily superseded by the categorical flexibility provisions of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4) (Chapter 12, Statutes of 2009) as amended by SB 70 (Chapter 7, Statutes of 2011), effective 2008-09 through 2014-15. LEAs should refer to the CDE letter “Fiscal Issues Relating to Budget Reductions and Flexibility Provisions” located on the CDE accounting correspondence Web page at: http://www.cde.ca.gov/fg/ac/co/ for additional information and guidance.

The following are examples of the recording of transactions affecting balance sheet accounts in which the standardized account code structure (SACS) is used. Balance sheet accounts are classified in the object field. If the transactions are from restricted revenues, the balance sheet accounts are also coded in the resource field.

Example 1: Unrestricted Transactions Resulting in Change to Fund Balance

(a) Cash is deposited in the county treasury for the K–12 revenue limit and expended for various functions and objects. At year-end, closing of the books results in an increase in the unrestricted fund balance.

To record receipt of property taxes:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>8011</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 0000 is Unrestricted Resources.
- Project Year is not used in this example.
- Goal is generally not required for revenues (required for special education revenues) and is not required for balance sheet accounts.
- Function is not required for revenues or balance sheet accounts.
- Object 8011 is Revenue Limit State Aid—Current Year, and Object 9110 is Cash in County Treasury.
- School is not required.
Procedure 605  Balance Sheet Accounts—Coding Examples

(b) During the year many transactions occur (e.g., the payment of teachers' salaries).

To record the payment of salaries:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>1110</td>
<td>1000</td>
<td>1100</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>1110</td>
<td>1000</td>
<td>3101</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>1110</td>
<td>1000</td>
<td>3401</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
- **Resource 0000** is Unrestricted Resources.
- **Project Year** is not used in this example.
- **Goal 1110** is Regular Education, K–12.
- **Function 1000** is Instruction; a function is not required for balance sheet accounts.
- **Object 1100** is Certificated Teachers' Salaries; **Object 3101** is State Teachers' Retirement System, Certificated Positions; **Object 3401** is Health & Welfare Benefits, Certificated Positions; and **Object 9110** is Cash in County Treasury.
- **School** is not required.

(c) At year-end the books are closed and the ending fund balance has increased, changing the components of ending fund balance. The reserve for economic uncertainties is increased, reducing the unassigned fund balance.

To record fund balance designations at the end of the year:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9790</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9789</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
- **Resource 0000** is Unrestricted Resources.
- **Project Year** is not used in this example.
- **Goal** is not required for balance sheet accounts.
- **Function** is not required for balance sheet accounts.
**Procedure 605  Balance Sheet Accounts—Coding Examples**

- **Object 9789** is Reserve for Economic Uncertainties, and **Object 9790** is Unassigned/Unappropriated.
- **School** is not required.

**Example 2: Recording Components of Ending Fund Balance**

At year-end the district records the components of the ending fund balance when the books are closed (assuming that the excess of revenues over expenditures is automatically posted to **Object 9790, Unassigned/Unappropriated Fund Balance**):

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>9790</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>9711</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>9712</td>
<td>000</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>7140</td>
<td>0</td>
<td>0000</td>
<td>9789</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>7140</td>
<td>0</td>
<td>0000</td>
<td>9790</td>
<td>000</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>7156</td>
<td>0</td>
<td>0000</td>
<td>9790</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>7156</td>
<td>0</td>
<td>0000</td>
<td>9740</td>
<td>000</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
- **Resource 0000** is Unrestricted; **Resource 7140** is GATE; and **Resource 7156** is Instructional Materials Realignment, (AB 1781).
- **Project Year** is not used in this example.
- **Goal** is not required for balance sheet accounts.
- **Function** is not required for balance sheet accounts.
- **Object 9790** is Unassigned/Unappropriated; **Object 9711** is Nonspendable Revolving Cash; **Object 9712** is Nonspendable Stores; **Object 9740** is Restricted Balance; and **Object 9789** is Reserve for Economic Uncertainties.
- **School** is not required.

**Example 3: Identifying Cash by Resource**

LEAs using financial systems that do not post the resource code to the balance sheet accounts during the year will need to make an additional entry at year-end to balance the restricted and unrestricted resources.

For example, during the year-end closing, the LEA posted deferred revenue to three resources. In addition, the LEA posted restricted ending balance to two resources. The LEA must make the following year-end closing entry to separate out the cash represented by these amounts:
### Procedure 605 Balance Sheet Accounts—Coding Examples

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>3010</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>3326</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>5600</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>7140</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>7156</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
- **Resource 3010** is NCLB: Title I, Part A, Basic Grants Low Income and Neglected; **Resource 3326** is Special Ed: IDEA Preschool Capacity Building, Part B, Sec 619; **Resource 5600** is Workforce Investment Act; **Resource 7140** is Gifted and Talented Education (GATE); **Resource 7156** is Instructional Materials Realignment, IMFRP (AB 1781); and **Resource 0000** is Unrestricted Resources.
- **Project Year** is not used in this example.
- **Goal** is not required for balance sheet accounts.
- **Function** is not required for balance sheet accounts.
- **Object 9110** is Cash in County Treasury.
- **School** is not required.
Procedure 610  Revenues—Coding Examples

Revenues are classified by source and type in the object field. When the revenues are for restricted uses or have reporting requirements, they are further identified by the resource field. If the revenues are for federal projects that cross the LEA reporting fiscal year, they are also identified by the ending year of the project in the project year field.

For additional information regarding account codes, refer to the procedures in Section 300, "Chart of Accounts."

Example 1: Unrestricted Revenue

A district receives property taxes, the local portion of the revenue limit. The secured roll taxes will be coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>8041</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 0000 is Unrestricted.
- Project Year is not required in this example.
- Goal is generally not required for revenues or balance sheet transactions.
- Function is not required for revenues or balance sheet transactions.
- Object 8041 is Secured Roll Taxes, and Object 9110 is Cash in County Treasury.
- School is not required.

Example 2: Restricted Revenue

A district receives a federal grant for bilingual programs. The revenue would be coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>4230</td>
<td>3</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>4230</td>
<td>3</td>
<td>0000</td>
<td>8290</td>
<td>000</td>
</tr>
</tbody>
</table>
Procedure 610  Revenues—Coding Examples

- Fund 01 is the General Fund.
- Resource 4230 is Federal Bilingual Education Discretionary Grants.
- Project Year is 3 because this federal project ends in October 2003; project year may be used for balance sheet transactions.
- Goal is generally not required for revenues or balance sheet transactions.
- Function is not required for revenues or balance sheet transactions.
- Object 8290 is All Other Federal Revenue, and Object 9110 is Cash in County Treasury.
- School is not required.

Example 3: Transfer of Unrestricted Money to a Restricted Resource

If the district receives restricted revenue that requires a cash match by the district, the match would be recorded as a contribution from unrestricted resources. The following example shows the receipt of revenue and the recording of the cash match:

(a) To record district receipt of a federal grant that requires a match:

<table>
<thead>
<tr>
<th></th>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>5810</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>5810</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8290</td>
<td>000</td>
</tr>
</tbody>
</table>

(b) To record district match to restricted revenue from unrestricted revenues with corresponding transfer of cash:

<table>
<thead>
<tr>
<th></th>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8980</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>5810</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>5810</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8980</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 0000 is Unrestricted, and Resource 5810 is Other Federal.
- Project Year is not required in this example.
Procedure 610  Revenues—Coding Examples

- **Goal** is generally not required for revenues or balance sheet transactions.
- **Function** is not required for revenues or balance sheet transactions.
- **Object 8980** is Contributions from Unrestricted Revenues; **Object 8290** is All Other Federal Revenue; and **Object 9110** is Cash in County Treasury.
- **School** is not required.

The expenditures would be tracked by the resource. The following are the sample expenditures for this resource:

(c) To record the payment of salaries:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>5810</td>
<td>0</td>
<td>1110</td>
<td>1000</td>
<td>1100</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>5810</td>
<td>0</td>
<td>1110</td>
<td>2100</td>
<td>1300</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>5810</td>
<td>0</td>
<td>1110</td>
<td>3110</td>
<td>1200</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>5810</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
- **Resource 5810** is Other Federal.
- **Project Year** is not required in this example.
- **Goal 1110** is Regular Education, K–12; goal is generally not required for balance sheet transactions.
- **Function 1000** is Instruction; **Function 2100** is Instructional Supervision and Administration; **Function 3110** is Guidance and Counseling Services; and function is not required for balance sheet accounts.
- **Object 1100** is Certificated Teachers' Salaries; **Object 1300** is Certificated Supervisors' and Administrators' Salaries; **Object 1200** is Certificated Pupil Support Salaries; and **Object 9110** is Cash in County Treasury.
- **School 456** is Sample High School. Coding to the school field is not required; however, LEAs may wish to code expenditures for local information.

**Example 4: Multiple Revenue Sources in a Single Resource or Project**

The home-to-school transportation activities are funded from different sources. These include state apportionments, user fees, and unrestricted
Procedure 610  Revenues—Coding Examples

revenues for any encroachment. The expenditures are not required to be identified to each source; they are identified by a single resource. The following are sample transportation transactions:

(a) To record state apportionments and transportation fees:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>8311</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>8675</td>
<td>000</td>
</tr>
</tbody>
</table>

(b) To record the contribution from unrestricted revenues to transportation to cover excess costs:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>8980</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>8980</td>
<td>000</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
- **Resource 7230** is Transportation: Home-to-School, and **Resource 0000** is Unrestricted.
- **Project Year** is not required in this example.
- **Goal** is generally not required for revenues and balance sheet accounts.
- **Function** is not required for revenues and balance sheet accounts.
- **Object 8311** is Other State Apportionments—Current Year; **Object 8675** is Transportation Fees from Individuals; **Object 8980** is Contributions from Unrestricted Revenues; and **Object 9110** is Cash in County Treasury.
- **School** is not required.

(c) To record transportation expenditures:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>2200</td>
<td>000</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>4300</td>
<td>000</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>6500</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>7230</td>
<td>0</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
Procedure 610  Revenues—Coding Examples

- Resource 7230 is Transportation: Home-to-School.
- Project Year is not required in this example.
- Goal 0000 is Undistributed; goal is not required for balance sheet transactions.
- Function 3600 is Pupil Transportation; function is not required for balance sheet accounts.
- Object 2200 is Classified Support Salaries; Object 4300 is Materials and Supplies; Object 6500 is Equipment Replacement; and Object 9110 is Cash in County Treasury.
- School is not required.

Example 5: Activities Paid from Two or More Revenue Sources with Separate Reporting Requirements

The special education programs are operated with money from different revenue sources. These include federal grants, state aid, unrestricted revenues, tuition, and transfers of apportionments from other LEAs. LEAs are required to identify and report expenditures of federal revenues separately from expenditures of state and local revenues; however, they are not required to report expenditures of state and local revenues separately from each other. The following are sample special education transactions:

(a) To record the payment of instructional aide wages funded by federal IDEA grant money:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>3310</td>
<td>3</td>
<td>5750</td>
<td>2100</td>
<td>456</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>3310</td>
<td>3</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 3310 is IDEA Basic Local Assistance Entitlement.
- Project Year is 3; the project year for this federal resource extends beyond the LEAs' fiscal year.
- Goal 5750 is Special Education, Ages 5–22 Severely Disabled; goal is not required for balance sheet transactions.
- Function 1110 is Special Education: Separate Classes; function is not required for balance sheet transactions.
- Object 2100 is Classified Instructional Salaries, and Object 9110 is Cash in County Treasury.
Proceure 610 Revenues—Coding Examples

- **School 456** is Sample High School. Coding to the school field is not required; however, LEAs may wish to code expenditures for local information.

(b) To record the amount receivable from the IDEA grant:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>3310</td>
<td>3</td>
<td>0000</td>
<td>9290</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>3310</td>
<td>3</td>
<td>5001</td>
<td>8181</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 3310 is IDEA Basic Local Assistance Entitlement.
- **Project Year** is 3; the project year for this federal resource extends beyond the LEA's fiscal year.
- **Goal** 5001 is Special Education—Unspecified. A goal is required for Special Education revenue. Goal is not required for balance sheet transactions.
- **Function** is not required for revenues or balance sheet transactions.
- **Object** 9290 is Due from Grantor Governments, and Object 8181 is Special Education—Entitlement.
- **School** is not required.

(c) To record receipt of the state special education program apportionment:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>0000</td>
<td>9110</td>
<td>000</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5001</td>
<td>8311</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 6500 is Special Education.
- **Project Year** is not applicable in this example.
- **Goal** 5001 is Special Education—Unspecified. A goal is required for Special Education revenue. Goal is not required for balance sheet transactions.
- **Function** is not required for revenues or balance sheet transactions.
- **Object** 8311 is Other State Apportionments–Current Year, and Object 9110 is Cash in County Treasury.
- **School** is not required.
Procedure 610  Revenues—Coding Examples

(d)  To record contributions from unrestricted revenues to special education and the corresponding transfer of cash:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8980</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5001</td>
<td>0000</td>
<td>8980</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
- **Resource 6500** is Special Education, and **Resource 0000** is Unrestricted.
- **Project Year** is not applicable in this example.
- **Goal 5001** is Special Education—Unspecified. A goal is required for Special Education revenue. Goal is not required for balance sheet transactions.
- **Function** is not required for revenues or balance sheet transactions.
- **Object 9110** is Cash in County Treasury, and **Object 8980** is Contributions from Unrestricted Revenues.
- **School** is not required.

(e)  To record the payment of certificated teacher and speech therapist wages from the special education resource, which includes the state apportionment and contributed unrestricted moneys:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5770</td>
<td>1190</td>
<td>1100</td>
</tr>
<tr>
<td>Dr</td>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5770</td>
<td>3150</td>
<td>1200</td>
</tr>
<tr>
<td>Cr</td>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9110</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
- **Resource 6500** is Special Education.
- **Project Year** is not applicable in this example.
- **Goal 5770** is Special Education, Ages 5–22 Nonseverely Disabled; goal is not required for balance sheet accounts.
- **Function 1190** is Special Education: Other Specialized Instructional Service, and **Function 3150** is Speech Pathology and Audiology Services. Function is not required for balance sheet accounts.
### Procedure 610  Revenues—Coding Examples

- Object 1100 is Certificated Teachers' Salaries; Object 1200 is Certificated Pupil Support Salaries; and Object 9110 is Cash in County Treasury.
- School 456 is Sample High School. Coding to the school field is not required; however, LEAs may wish to code expenditures for local information.
County offices of education (i.e., offices of county superintendents of schools) perform various activities in support of school districts or other educational entities, including, but not limited to:

a. Coordination activities and professional services, such as supervision of instruction, health, guidance, attendance, and school library services (Education Code Section 1700 et seq.)

b. Financial services (Education Code Section 42100 et seq.)

c. Credential services (Education Code Section 44330)

Following are examples of common county office of education (COE) activities:

Example 1: COE Financial Office Staff Processes Districts' Payrolls.

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>

Procedure 650  Facility Maintenance Programs—Coding Examples

The following guidance may include some information that is temporarily superseded by the categorical flexibility provisions of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4) (Chapter 12, Statutes of 2009) as amended by SB 70 (Chapter 7, Statutes of 2011), effective 2008-09 through 2014-15. LEAs should refer to the CDE letter “Fiscal Issues Relating to Budget Reductions and Flexibility Provisions” located on the CDE accounting correspondence Web page at: http://www.cde.ca.gov/fg/ac/co/ for additional information and guidance.

Local educational agencies (LEAs) that participate in certain school facility programs are required by state law to establish various restricted funds or accounts for facility maintenance purposes. These facility maintenance programs, which are administered by the Office of Public School Construction (OPSC), include the Deferred Maintenance Program and the School Facility Program Restricted Maintenance Account.

For guidance and coding examples for routine facilities maintenance expenditures, refer to Procedure 770, Distinguishing Between Supplies and Equipment.

Deferred Maintenance Fund

To receive deferred maintenance money, LEAs must establish a restricted fund referred to as the Deferred Maintenance Fund (Fund 14) and make annual deposits to this fund (Section 1866, Title 2, of the California Code of Regulations). Fund 14 is established in the standardized account code structure (SACS) to account for state apportionments and LEA contributions for deferred maintenance purposes pursuant to these requirements. (For additional information, refer to the definition of Fund 14 in Procedure 305.) Deposits to the Deferred Maintenance Fund are coded to Fund 14 and Resource 6205. Both codes are necessary for proper treatment.
Procedure 650  Facility Maintenance Programs—Coding Examples

Example 1: An LEA Makes Its Deferred Maintenance Match with an Interfund Transfer from the General Fund to the Deferred Maintenance Fund.

<td>6205</td>
<td>0</td>
<td>0000</td>
<td>8660</td>
<td>000</td>
</tr>
</tbody>
</table>

- **Fund 14** is the Deferred Maintenance Fund.
- **Resource 6205** is Deferred Maintenance Apportionment.
- **Project Year** is not applicable in this example.
- **Goal** is generally not required for revenues or balance sheet transactions.
- **Function** is not required for revenues or balance sheet transactions.
- **Object 9110** is Cash in County Treasury, and **Object 8660** is Interest.
- **School** is not required.

**Example 4: An LEA Transfers Unmatched Deferred Maintenance Funds to the General Fund.**

If the deferred maintenance funds allocated by the State Allocation Board pursuant to *Education Code* sections 17584 and 17585 are insufficient to fully match the local funds deposited in the Deferred Maintenance Fund, the LEA may use the unmatched funds in various ways. The OPSC encourages LEAs to use any unmatched local funds on deferred maintenance projects. However, the OPSC also allows LEAs to count unmatched local funds toward the subsequent year's deposit. Additionally, the governing board of the LEA may adopt a resolution to transfer the excess local funds deposited in this fund to any other expenditure classifications in other LEA funds (*Education Code* Section 17583).
Procedure 650  Facility Maintenance Programs—Coding Examples

If an LEA chooses to transfer the excess funds back to the fund from which it made the initial deposit in the same fiscal year as the deposit, it should reverse that portion of the original transfer.

If an LEA chooses to transfer the excess funds in a subsequent fiscal year or to a fund other than the fund from which it made the initial deposit, the LEA would record the transfer in the following manner (example assumes transfer back to the general fund in a subsequent fiscal year):

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr</td>

<td>Cr</td>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8919</td>
</tr>
</tbody>
</table>

- Fund 14 is the Deferred Maintenance Fund, and Fund 01 is the General Fund.
- Resource 6205 is Deferred Maintenance Apportionment, and Resource 0000 is Unrestricted.
- Project Year is not applicable in this example.
- Goal 0000 is Undistributed. Goal is generally not required for revenues or balance sheet transactions.
- Function 9300 is Interfund Transfers. Function is not required for revenues or balance sheet transactions.
- Object 7619 is Other Authorized Interfund Transfers Out; Object 9110 is Cash in County Treasury; and Object 8919 is Other Authorized Interfund Transfers In.
- School is not required.

Ongoing and Major Maintenance Account

To ensure that state-funded facility projects are kept in good repair, pursuant to Education Code Section 17070.75, LEAs with a project funded by the State Allocation Board after November 1998 under the Leroy F. Greene School Facilities Act of 1998 must establish and maintain a restricted maintenance account within their general fund to be used for ongoing and major maintenance of school buildings. For the next 20 years after receiving facility funds, districts must annually make a deposit into the account that is equal to or greater than 3 percent of their total general fund budgeted expenditures, including other financing uses, for that fiscal
Procedure 650  Facility Maintenance Programs—Coding Examples

 year; for the COEs, the 3 percent requirement shall be based on the COE's county school service fund less any restricted accounts. (See Education Code Section 17070.75 for exceptions to the annual contribution requirement.)

Activity for this restricted account is recorded in Resource 8150, Ongoing and Major Maintenance Account (OMMA), which is sometimes referred to as the Restricted Maintenance Account (RMA).

LEAs must be sure to make OMMA contributions to Resource 8150 and not confuse them with contributions made to Resource 8100, Routine Repair and Maintenance (RRRMF: Education Code Section 17014). Resource 8100 is related to the Leroy F. Greene State School Building Lease-Purchase Law of 1976 and does not apply to school districts that received funds under the Leroy F. Greene School Facilities Act of 1998. Failure to correctly code the contributions may adversely affect reports such as the LEA’s Criteria and Standards report.

Example 1: An LEA Makes a Contribution to the Ongoing and Major Maintenance Account.

Procedure 655  Employment Separation Costs—Coding Examples

When an employee separates from service (e.g., retires or terminates), the LEA may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional separation costs can be categorized as "normal" or "abnormal or mass." While most separation costs can be charged to the same standardized account code structure (SACS) goal and function as the employee's regular salary, special treatment may be required for the SACS resource and object.

Normal Separation Costs

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. These normal separation costs are charged to the same goal, function, and object as the employee's regular salary. However, special consideration must be given to the resource.

Generally, federal program cost principles prohibit charging normal separation costs directly to any federal program that is subject to those cost principles; rather, another allowable resource or an unrestricted resource (0000–1999) must be used. State programs may have similar restrictions.

Optional Adjustment to the Indirect Cost Pool

Federal guidelines and California's indirect cost plan allow that normal separation costs that would have been charged to a restricted resource but, in keeping with federal guidelines, are instead charged to an unrestricted resource may be included in the LEA's indirect cost pool. LEAs that choose to do this will manually identify and enter the costs during calculation of the indirect cost rate (see Procedure 915, Indirect Cost Rate).

Example 1: Normal Separation Costs for Employees Funded from an Unrestricted Resource

A general education teacher leaves the district. In addition to receiving regular pay for the final pay period, the teacher also receives payment for
Procedure 655  Employment Separation Costs—Coding Examples

accumulated unused leave. Since the teacher's position was funded from an unrestricted resource, both the regular salary for the final pay period and the payment for accumulated unused leave can be charged to the same resource, goal, function, and object as the teacher's regular salary:

- **Fund 01** is the General Fund.
- **Resource 0000** is Unrestricted.
- **Project Year** is not applicable in this example.
- **Goal 1110** is Regular Education, K–12.
- **Function 1000** is Instruction.
- **Object 1100** is Certificated Teachers' Salaries.
- **School** is not required.

Example 2: Normal Separation Costs for an Employee Funded from a Federal Resource

An instructional aide retires from a federal Title I position. The amounts paid to the aide at separation include regular salary for the final pay period, plus normal separation costs for accumulated unused leave. Since federal guidelines prohibit charging separation costs directly to this program, the regular salary for the final pay period can be charged to the same resource, goal, function, and object as the aide's regular salary, but the separation costs must be charged to another allowable resource such as an unrestricted resource:

<table>

</tr>
<tr>
<td>------</td>
</tr>
<tr>
<td>01</td>
</tr>
</tbody>
</table>

- **Fund 01** is the General Fund.
Procedure 655  Employment Separation Costs—Coding Examples

- Resource 3010 is NCLB, Title I, Part A; Resource 0000 is Unrestricted.
- Project Year is not applicable in this example.
- Goal 1110 is Regular Education, K–12.
- Function 1000 is Instruction.
- Object 2100 is Classified Instructional Salaries.
- School is not required.

Because the normal separation costs were charged to an unrestricted resource rather than to the employee's regular restricted resource, the LEA will have the option during the indirect cost rate calculation to manually include the costs in the indirect cost pool.

Example 3: Leave Is Used Before Separation Occurs

An employee working in a federal program retires on June 30, and uses up his accumulated leave time during the period(s) leading up to retirement.

In this example, special coding is not required. The leave is charged to the same resource, goal, function, and object as the employee's regular salary. This is because federal guidelines provide that costs of leave taken during authorized absences from the job are allowable to the extent the leave is reasonable and required by law, and is consistent with employer–employee agreement or established policy of the LEA (refer to Office of Management and Budget [OMB] Circular A-87 Section 8[d][1]).

Abnormal or Mass Separation Costs

Costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have are considered abnormal or mass separation costs. The most common examples of these costs include early retirement incentives offered in the form of additional pay or added benefits (e.g., a Golden Handshake) and severance packages negotiated to effect termination.

Abnormal or mass separation costs generally may not be charged as either a direct cost or an indirect cost to a federal program subject to the federal cost principles. State programs may have similar restrictions. Note that in very limited circumstances an exception may be made to this rule, such as where a federal program is being eliminated or where a particular federal program specifically allows the costs. However, prior approval by the
Procedure 655  Employment Separation Costs—Coding Examples

federal government is normally required (such requests should be submitted to CDE).

Abnormal or mass separation costs may be charged to the same goal and function (and possibly the same object) as the employee's regular salary, but absent an approved exception, they must be charged to another allowable resource or to an unrestricted resource (0000–1999).

Required Adjustment to the Indirect Cost Pool

Unless prior federal approval has been obtained, abnormal or mass separation costs may not be charged either directly or indirectly to a federal program subject to the cost principles. Because of this requirement, LEAs must ensure that any such costs charged to an unrestricted resource are also excluded from the indirect cost pool. To do this, where there are abnormal or mass separation costs relating to employees charged to indirect activities (Function 7200, Other General Administration, and Function 7700, Centralized Data Processing), LEAs must manually identify and exclude the costs during calculation of the indirect cost rate (see Procedure 915, Indirect Cost Rate).

Example 1: Teachers Receive Enhanced Pension Benefits in Exchange for Early Retirement

Teachers are offered two extra years of retirement service credit in exchange for early retirement (e.g., a Golden Handshake), and a teacher working in a federal special education program accepts the offer. The benefit cost can be charged to the employee's regular goal and function, along with an object for Golden Handshake, but because it is a federal program and this is an abnormal or mass separation cost, the cost is charged to an unrestricted resource (0000–1999):

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>5770</td>
<td>1110</td>
<td>3901</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 0000 is Unrestricted.
- Project Year is not applicable in this example.
- Goal 5770 is Special Education, Ages 5–22 Nonseverely Disabled.
Procedure 655  Employment Separation Costs—Coding Examples

- Function 1110 is Special Education: Separate Classes.
- Object 3901 is Other Benefits, Certificated Positions.
- School is not required.

Example 2: Downsizing of Fiscal Services Staff Effects an Early Separation

An LEA is considering downsizing its fiscal services staff. Employees in the accounting office are offered a two-month salary severance package in exchange for voluntary termination of employment, and one accepts the offer. Since this position is already being coded to an unrestricted resource, the costs of the two-month salary severance package can be charged to the employee's regular resource, goal, function, and object:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>0000</td>
<td>0</td>
<td>0000</td>
<td>7200</td>
<td>2400</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 0000 is Unrestricted.
- Project Year is not applicable in this example.
- Goal 0000 is Undistributed.
- Function 7200 is Other General Administration.
- Object 2400 is Clerical, Technical, and Office Staff Salaries.
- School is not required.

However, because abnormal separation costs may not be included in the indirect cost pool, and this employee's costs are charged to a function within the pool, the LEA must manually exclude these costs during calculation of the indirect cost rate (see Procedure 915, Indirect Cost Rate).

Example 3: A Federally Funded Teacher Accepts a Salary Bonus in Exchange for Early Retirement

Teachers are offered a two-month salary bonus in exchange for early retirement, and a teacher working in a federal Title III program accepts the offer. Because this salary bonus is an abnormal or mass separation cost, it
Procedure 655  Employment Separation Costs—Coding Examples

cannot be charged to this federal program; rather, it must be coded to another allowable program or to an unrestricted resource:

<td>0000</td>
<td>0</td>
<td>4760</td>
<td>1000</td>
<td>1100</td>
<td>000</td>
</tr>
</tbody>
</table>

• Fund 01 is the General Fund.
• Resource 0000 is Unrestricted.
• Project Year is not applicable in this example.
• Goal 4760 is Bilingual.
• Function 1000 is Instruction.
• Object 1100 is Certificated Teachers' Salaries.
• School is not required.
This page intentionally left blank.
An issuance of certificates of participation (COPs) is a mechanism for providing capital to school districts and county offices to purchase equipment, finance construction projects, or refinance existing leases. This financing technique provides long-term financing through a lease with an option to purchase or a conditional sales agreement.

The major disadvantage of a COP is that there is no repayment source connected to its issuance, such as there is with an issuance of general obligation debt. The lease obligation is payable out of the general fund or from other available revenues.

The following points are important to understanding how certificates of participation are accounted for in conformity with generally accepted accounting principles (GAAP):

1. The financing of certificates of participation typically involves the following parties:

   **Lessee (Issuer)**—A school district or county office of education

   **Lessor**—A nonprofit corporation, joint powers authority, leasing company, bank, or other entity that holds title to the equipment during the lease period

   **Trustee**—A commercial bank or trust company that receives the proceeds, collects the lease payments on behalf of the lessor, and/or repays the notes. The trustee is required to adhere to the standards in the trust agreement and maintain the trust fund accounts. The trust fund accounts show all disbursements made against the certificates of participation's proceeds as well as any interest earned.

   **Underwriter**—A municipal securities dealer who commits to the purchase of the certificates and remarkets them to investors. The underwriter will charge a fee, known as the underwriter's discount, to assume the underwriting risk of the COPs.

2. At the time the proceeds of the COPs are deposited with the trustee, the money legally belongs to the local educational agency...
Procedure 720  Certificates of Participation (COPs)

(LEA). Therefore, at this time, the LEA must record the proceeds in its books.

3. The proceeds of the COPs should be reported in the fund that will be used to acquire or construct the assets. This will typically be the general fund or a capital projects fund.

School districts may identify developer fees as the repayment source for COPs. If this is the case, the LEA will record the proceeds of the COPs in the Capital Facilities Fund.

4. The LEA must review the section of the COPs' documents titled "Sources and Uses of Funds" to determine the opening entry needed on the LEA's books to account for the COPs. The following sources or uses of funds will typically be found:

Accrued Interest—The amount of interest accrued on COPs from the issue date until closing. The underwriter pays this amount to the trustee at closing, and the money is held by the trustee in the lease payment account as a credit toward the first scheduled lease payment. For this reason the accrued interest is recorded as interest payable.

Capitalized or Funded Interest—The amount of interest on a COP that will accrue from the COP's issue date to the date the project or property being financed is projected to be completed. California law precludes issuers from making lease payments unless they have constructive use or occupancy of the property being financed. The funded interest is a component of the COP's proceeds and is used to pay the investors their semiannual interest payments during the construction period. As a matter of practice, funded interest normally extends two to three months beyond the projected completion date to cover unforeseen delays.

Reserve Account (Reserve for Debt Service)—Underwriters typically require a debt service reserve funded by the proceeds of the COP. The reserve is held by the trustee to pay investors in the event of the issuer's default or in the case of late payment. If neither of these events occurs, the reserve account is used to make the final lease payment. Because the amount of the COP's proceeds that represents the Reserve for Debt Service legally may not be
spent, this amount must be shown as nonspendable fund balance at year-end.

*Underwriter's Discount*—The fee a municipal underwriter charges to assume the underwriting risk of the COP. The underwriter's fees will typically be deducted from the proceeds before the proceeds are deposited with the trustee.

5. The trustee will maintain the proceeds in various trust accounts. The trustee will provide information to the LEA on all activity in the trust accounts. The LEA must account for all such activity in its books.

6. It is not necessary to make the lease payments for COPs out of a separate debt service fund.

The following examples show the accounting for COPs in conformity with generally accepted accounting principles:

Assume that on August 1, 2007, a school district issues certificates of participation for the purchase of 193 school buses from the ABC Bus Company. The XYZ Bank is designated as trustee of the certificates and is assigned the right to enforce amounts payable by the district under the agreement. The first lease payment is due in February 2008, and the final payment is due in August 2012.

**Estimated Sources and Uses of Proceeds**

To record the second lease payment on the COPs.
Procedure 730 Short-Term Borrowings

LEAs may periodically find it necessary to finance temporary cash shortfalls resulting from budget cuts, appropriation deferrals, and normal differences in the timing of expenditures and revenue receipts. The following options may be available to alleviate these shortfalls.

Interfund Borrowings

*Education Code* Section 42603 provides that moneys held in any fund or account may be temporarily transferred to another fund or account for payment of obligations, with certain limitations.

1. Amounts transferred shall be repaid either in the same fiscal year, or in the following fiscal year if the transfer takes place within the final 120 calendar days of a fiscal year.
2. Borrowing shall occur only when the fund receiving the money will earn sufficient income during the current fiscal year to repay the amount transferred.
3. No more than 75% of the maximum of moneys held in any fund during a current fiscal year may be transferred.

Concerns regarding the legality of borrowing from certain funds or restricted programs should be discussed with legal counsel. Note that borrowings from restricted funds should be repaid with interest, if there are interest requirements relating to those programs or funds.

**Accounting for Interfund Borrowings.** *Education Code* Section 42603 provides that the transfer shall be accounted for as temporary borrowing between funds or accounts and shall not be available for appropriation or be considered income to the borrowing fund or account. The accounting is a debit to Object Code 9310, Due From Other Funds, with a credit to Cash in the lending fund, and a debit to Cash in the borrowing fund, with a credit to Object Code 9610, Due To Other Funds. These amounts are then carried on the balance sheet until the entry is reversed when the funds are repaid. Temporary borrowings are not accounted for as interfund transfers and do not affect the fund balance for either the borrowing or lending fund.
Short-Term Borrowings From External Sources

If it is not possible to alleviate temporary cash shortfalls by interfund borrowing, it may be necessary for LEAs to borrow funds on a short-term basis from external sources. Following are some possible sources.

**Tax Revenue Anticipation Notes.** Tax Revenue Anticipation Notes (TRANs) are short-term, interest bearing notes issued by a government in anticipation of tax revenues that will be received at a later date. The notes are retired from the tax revenues to which they relate. Many LEAs issue TRANs for cash flow management purposes every year.

See Procedure 715 for further information and accounting examples for transactions relating to TRANs.

**County Office of Education.** *Education Code* sections 42621 and 42622 authorize county offices of education to lend funds to school districts. The funds must be repaid either within the fiscal year or within the next fiscal year, depending on the type of loan that is granted. Certain other restrictions apply, as indicated in the applicable statutes. Such loans are discretionary and are subject to availability of funds at the county office level.

**County Treasurer.** *Education Code* Section 42620 requires the county board of supervisors to lend money to school districts when certain conditions exist. However, Section 6 of Article XVI of the Constitution of the State of California requires that such loans must be made before the last Monday in April. It may be necessary to coordinate with the county office of education regarding loan and repayment terms, as these terms vary by county.

**Accounting for Short-Term Borrowings from External Sources.** The accounting is a debit to Cash and a credit to Object Code 9640, Current Loans, in the borrowing fund. The loan is carried on the balance sheet until it is repaid. Temporary borrowings do not affect the fund balance of the borrowing fund.
Procedure 750  Pass-Through Grants and Cooperative Projects

The following guidance may include some information that is temporarily superseded by the categorical flexibility provisions of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4) (Chapter 12, Statutes of 2009) as amended by SB 70 (Chapter 7, Statutes of 2011), effective 2008-09 through 2014-15. LEAs should refer to the CDE letter “Fiscal Issues Relating to Budget Reductions and Flexibility Provisions” located on the CDE accounting correspondence Web page at: http://www.cde.ca.gov/fg/ac/co/ for additional information and guidance.

Frequently, local educational agencies (LEAs) have occasion to pass grant funds on to other LEAs. As examples, school districts and county offices of education often enter into subagreements with other LEAs to operate a program more effectively, or several LEAs may pool their resources to operate certain projects cooperatively (cooperative projects), or an LEA may simply pass funds to other LEAs (pass-through grants). There are three models commonly used to account for these transactions between LEAs: cash conduits, pass-through grants, and subagreements for services.

Cash Conduit Model

Governmental Accounting Standard Board (GASB) Statement 24, Accounting and Financial Reporting for Certain Grants and Other Financial Assistance, generally requires the original recipient LEA to report pass-through grants in a governmental fund or (more rarely, for LEAs) in a proprietary or trust fund. However, when the recipient LEA acts only as a cash conduit that transfers money to the subrecipient grantee and has no administrative or direct financial involvement in the program, the recipient LEA should report the grant in an agency fund. Unlike governmental funds, agency funds are custodial, where only the assets held for other agencies and the corresponding amounts due to those agencies are reported. Revenues and expenditures are not recorded in an agency fund.

As a practical matter, it is rare for a grant to qualify as a pure cash conduit. One of the rare circumstances exists when certain funding sources are passed through from an authorizing LEA to a charter school that is locally funded but that is not otherwise a part of the LEA. These funding sources are the Charter Schools General Purpose Entitlement, the Charter Schools Categorical Block Grant, and the charter school’s State Lottery Revenue. Because the authorizing LEA has no administrative or direct financial
involvement, the pass-through of these funding sources to a charter school should be reported by the authorizing LEA in an agency fund.

For all other charter school grants for which funding may flow through the authorizing LEA, the authorizing LEAs should consult the guidance in the following paragraphs to determine if they have administrative involvement or both administrative and financial involvement and to assess whether the pass-through of charter school revenue should be recorded in the LEA’s general fund or in an agency fund.

Pass-Through Grants and Subagreements for Services Models

For recipient LEAs that have either administrative or direct financial involvement in a pass-through grant, the pass-through transactions must be recorded in a governmental fund. The model used to account for the pass-through transactions depends on whether the recipient LEA has (1) only administrative involvement; or (2) both administrative and financial involvement. Generally, an LEA with only administrative involvement will use the pass-through grant model. An LEA with both administrative and direct financial involvement will use the subagreement for services model.

1. **Administrative Involvement Only: Pass-through Grant Model**
   A recipient LEA has only administrative involvement in a pass-through grant if it (a) monitors subrecipient LEAs for compliance with requirements; (b) determines eligibility of subrecipient LEAs, even if using grantor-established criteria; or (c) has the ability to exercise discretion in how the funds are allocated. The accounting for this type of pass-through grant is as follows:

   **Recipient LEA (administrative involvement only)**
   The recipient LEA reports the receipt of the grant revenue as a pass-through revenue using object 8287, 8587, or 8697 with the resource code for the grant. The recipient LEA reports the pass-through of funds to the subrecipient LEA as an interagency transfer using object 7211, 7212, or 7213 with Goal 0000, Undistributed, and Function 9200, Transfers Between Agencies.

   **Subrecipient LEAs**
Subrecipient LEAs report receipt of the grant revenues in the normal revenue object for the grant (e.g., 8290, All Other Federal Revenue) with the resource code for the grant. Subrecipient LEAs report their grant expenditures in the resource for the grant with the normal goals, functions, and objects.

**Exception for Special Education and ROCP**
Pass-throughs of state apportionments for special education and ROCP are accounted for as "transfers of apportionment" rather than as pass-through grants. For example, a district participating in an ROCP Joint Power Authority or Agreement (JPA) would recognize its ROCP apportionment as other state apportionments (Resource 6350 and Object 8311) and would record the pass-through of funds to the JPA as a transfer of apportionment (Resource 6350, Function 9200, and Object 7223).

2. **Administrative and Direct Financial Involvement:**
   **Subagreement for Services Model**
   A recipient LEA has direct financial involvement in a pass-through grant if it is liable for disallowed costs or if it funds part of the costs. By having financial involvement in a pass-through grant, a recipient LEA automatically has administrative involvement as well. These types of pass-through grants are commonly referred to as "subagreements for services" between LEAs, that is, transactions in which the recipient LEA to whom the funding was originally awarded contracts with subrecipient LEAs to carry out the terms of the grant under the direction of the recipient LEA. The accounting for this type of pass-through grant is as follows:

   **Recipient LEA (administrative and direct financial involvement)**
   The recipient LEA reports the receipt of the grant revenue in the normal revenue object for the grant (e.g., 8290, Other Federal Revenue) with the resource code for the grant. The recipient LEA reports the disbursement of funds to subrecipient LEAs in Object 5100, Subagreements for Services, in the normal goals and functions for the grant expenditures.

   **Subrecipient LEAs**
Procedure 750  Pass-Through Grants and Cooperative Projects

Subrecipient LEAs report the receipt of subagreement revenues in Object 8677, Interagency Services Between LEAs (or in Object 8285, Interagency Contracts Between LEAs, if the original grant is of federal origin) and in an applicable resource. Subrecipient LEAs report their subagreement expenditures in Goal 7110, Nonagency—Educational, in the normal functions and objects.

Cooperative Projects

California school districts and county offices of education often pool their resources and operate certain federal and state projects cooperatively for economic efficiency.

Some cooperative projects are formed to meet certain objectives established by the participants. This approach usually calls for the participants to pool their resources and for one school district or county office to serve as the lead and operate the project for the others. Typically this is a local decision, not a condition of the grant itself, and the appropriate accounting is the "subagreement for services" model.

Other cooperative projects are formed in order to meet specific federal grant or entitlement conditions and requirements. This approach usually requires that one LEA serve as the applicant for purposes of receiving federal funds and disbursing them to the other participating LEAs that operate their own projects. Periodic cash advances may be made directly to the applicant LEA for deposit and disbursement. The appropriate accounting for this type of cooperative project is the "pass-through" model.
Procedure 750  Pass-Through Grants and Cooperative Projects

Summary Examples of Pass-Through Transactions

I.  Transfer of Apportionment (Special Education and ROCP only)

Procedure 750  Pass-Through Grants and Cooperative Projects

Sample Journal Entries for a Cooperative Project

Small school districts may find it advantageous to pool their resources to provide programs that could not be financed by one district alone. The following example assumes that five small districts contract with the county office of education (COE) to use Tobacco-Use Prevention Education (TUPE) money to run a program designed to reach students at risk of using tobacco.

Example: COE Receives TUPE Grant Money for Administrative Purposes, and Districts Receive TUPE Money for Program Purposes; Districts and the COE Form a Cooperative Project for TUPE Services

(a) The following entries record the receipt of the TUPE grants:

For the COE:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6680</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8590</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the County School Service Fund.
- Resource 6680 is TUPE: COE Administration Grants.
- Project Year is not applicable in this example.
- Goal is not required for revenue.
- Function is not required for revenue.
- Object 8590 is All Other State Revenue.
- School is not required.

For the districts:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6690</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8590</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 6690 is TUPE: Grades Six Through Twelve.
- Project Year is not applicable in this example.
Procedure 750  Pass-Through Grants and Cooperative Projects

- **Goal** is not required for revenues.
- **Function** is not required for revenues.
- **Object 8590** is All Other State Revenue.
- **School** is not required.

(b) According to the contractual agreement, the districts use their TUPE program funds to pay the COE to operate a Friday Night Live program designed for regular education students.

The COE records the revenue received from the districts in a locally defined restricted local resource:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>9150</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8677</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the County School Service Fund.
- Resource 9150 is a locally defined restricted code for the Friday Night Live contract. Resource 9150 rolls up to Resource 9010, Other Local, when data are submitted to CDE at year-end.
- **Project Year** is not applicable in this example.
- **Goal** is not required for revenue.
- **Function** is not required for revenue.
- **Object 8677** is Interagency Services Between LEAs.
- **School** is not required.

The districts, as the original recipient LEAs, are responsible for reporting their expenditures to CDE; they use the applicable goal and functions, and the object illustrates that they subcontracted with the COE:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6690</td>
<td>0</td>
<td>1110</td>
<td>4000</td>
<td>5100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the district's General Fund.
- Resource 6690 is TUPE: Grades Six Through Twelve.
- **Project Year** is not applicable in this example.
- **Goal 1110** is Regular Education, K–12 because the Friday Night Live program targets regular education students.
- **Function 4000** is Ancillary Services.
- **Object 5100** is Subagreements for Services.
- **School** is not required.
Procedure 750  Pass-Through Grants and Cooperative Projects

(c) The COE operates the Friday Night Live program using the funds received from the districts:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>9150</td>
<td>0</td>
<td>7110</td>
<td>4000</td>
<td>1200</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the County School Service Fund.
- Resource 9150 is a locally defined restricted code for the Friday Night Live contract. Resource 9150 rolls up to Resource 9010, Other Local, when data are submitted to CDE at year-end.
- Project Year is not applicable in this example.
- Goal 7110 is Nonagency—Educational. The money of another entity is used to provide services on behalf of that entity, not on behalf of its own student population.
- Function 4000 is Ancillary Services.
- Object 1200 is Certificated Pupil Support Salaries.
- School is not required.

The districts have no further entries because they have spent their grants.

When the COE spends its own TUPE money administering the districts' TUPE programs, the TUPE resource is retained.

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6680</td>
<td>0</td>
<td>8600</td>
<td>2100</td>
<td>2400</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the County School Service Fund.
- Resource 6680 is TUPE: COE Administrative Grants.
- Project Year is not applicable in this example.
- Goal 8600 is County Service to Districts.
- Function 2100 is Instructional Supervision and Administration.
- Object 2400 is Clerical, Technical, and Office Staff Salaries.
- School is not required.

(d) At year-end, not all funds have been spent, and the remaining funds are carried over into the next year. The terms of the contract with the districts allow carryover only into the following year; money not spent in the following year must be returned to the districts.
Procedure 750  Pass-Through Grants and Cooperative Projects

The COE books deferred revenue as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>9150</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>9650</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the County School Service Fund.
- Resource 9150 is a locally defined restricted code for the Friday Night Live contract. Resource 9150 rolls up to Resource 9010, Other Local, when data are submitted to CDE at year-end.
- Project Year is not applicable in this example.
- Goal is not required for balance sheet accounts.
- Function is not required for balance sheet accounts.
- Object 9650 is Deferred Revenue.
- School is not required.
Procedure 750  Pass-Through Grants and Cooperative Projects

This page intentionally left blank.
Special Education

Special education budgets are complex and are of great interest to the public, both locally and statewide. Education Code Section 56205(b)(1) requires that a special education budget shall separately identify the following elements. This identification is facilitated by the fields of the standardized account code structure (SACS).

1. Apportionment received by the local educational agency (LEA) in accordance with the allocation plan adopted by the Special Education Local Plan Area (SELPA). (The state funding is tracked in SACS in the resource field in combination with a specific revenue code in the object field.)
2. Administrative costs of the plan. (These costs are tracked in the function field.)
3. Costs of special education services to pupils with severe disabilities and low-incidence disabilities. (This population is identified by the goal field.)
4. Costs of special education services to pupils with nonsevere disabilities. (This population is identified by the goal field.)
5. Costs of supplemental aids and services provided to meet the individual needs of pupils placed in regular education classrooms and environments. (Costs of these aids and services, which may be provided to both severe and nonsevere students, are tracked in the function field.)
6. Costs of regionalized operations and services and direct instructional support by program specialists in accordance with Part 30, Chapter 7.2, Article 6, of the Education Code, Program Specialists and Administration of Regionalized Operations and Services. (These costs are tracked in the goal field for regionalized operations and in the function field for instructional services.)
7. Use of property taxes allocated to the SELPA pursuant to Education Code Section 2572. (Property taxes allocated to the SELPA are tracked in the resource field and identified by a specific revenue code in the object field.)

Maintenance of Effort

Funds provided under Part B of the federal Individuals with Disabilities Education Act (IDEA) are subject to a maintenance of effort (MOE) requirement. This is stipulated in Section 1413 of Title 20 of the United
States Code, Title 34, Section 300.203 of the Code of Federal Regulations, and Education Code Section 56205.

The MOE requirement is that Part B IDEA funds shall not be used, except in specified situations, to reduce the level of expenditures for the education of children with disabilities made by the LEA from state and local funds or from local funds only, below the prior year's level. This test must be met on either an aggregate or a per capita basis.

Special Education Local Plan Area (SELPA)

All school districts and county offices of education are required to be members of one or more consortiums formed in geographical regions of sufficient size and scope to provide for the special education service needs of all the children residing within the region boundaries. Each region, known as a Special Education Local Plan Area or SELPA, develops a local plan describing how it will provide special education services.

SELPA structures vary in form. They include:

- Multi-District SELPAs
- Multi-District/County Office SELPAs
- Single District SELPAs
- Multi-District/Multi-County SELPAs
- Countywide SELPAs with Joint Powers Arrangements

Each SELPA has an Administrative Unit (AU), a member LEA that receives funds on behalf of the SELPA, distributes those funds to member LEAs in accordance with the local plan, and is responsible for seeing that every eligible child receives appropriate services.

SELPA AU Pass-Through Activities

The AU typically has certain financial transactions relating to its receipt and pass-through of revenues to other member LEAs that most other LEAs do not have. Were these transactions included in the AU’s general fund, they could impair meaningful comparison of LEA data by making the AU’s per-pupil revenues appear distorted in comparison to those of otherwise-similar LEAs. Accordingly, AUs that receive special education pass-through revenues and that have administrative involvement in
allocating and distributing those revenues to other member LEAs are required to use the Special Education Pass-Through Fund (Fund 10 in SACS), rather than their general fund, for special education pass-through transactions.

By definition, most AUs do have administrative involvement in the pass-through of special education revenues and should use Fund 10. A rare exception is an AU that serves purely as a cash conduit in receiving special education revenues and relaying them directly to a joint powers agency (JPA), where the JPA then performs all other AU services including allocation of the funds to member LEAs. AUs that serve purely as cash conduits, and AUs of single-district SELPAs that receive no pass-through revenues for any other LEAs, do not use Fund 10. A JPA that receives and passes through revenues to other member LEAs as described in this paragraph uses Fund 10 and the entries in this procedure.

Fund 10 is used only for pass-through revenues. Special education pass-through revenues are those revenues received by the AU on behalf of the SELPA for distribution to other member LEAs in accordance with the local plan. Such revenues typically include state special education apportionments, federal local assistance under the Individuals with Disabilities Education Act, the portion of a COE’s local property taxes restricted to special education, federal preschool funding, and state mental health funding.

Special education revenues that are not passed through to other member LEAs, but rather are retained for use by the AU in accordance with the local plan, are not accounted for in Fund 10. These revenues and the related expenditures are operational in nature and are accounted for in the AU’s own general fund.

Interfund transfers are not used in Fund 10. Reallocation of balances between the general fund and Fund 10 are made by adjusting current year revenue transactions. Ending fund balances may exist in Fund 10 because the amount of pass-through revenue received may not match the amount passed through to other member LEAs due to various local factors such as

---

1 “Administrative involvement” is defined in Governmental Accounting Standards Board (GASB) Statement 24 and in Procedure 750 of this manual. When a recipient agency has either administrative or direct financial involvement in a pass-through grant, the pass-through transactions must be reported by the recipient agency in a governmental fund, proprietary fund, or trust fund.
agreements for reserves to be maintained by the SELPA AU or timing differences relating to when amounts are passed through.

Recording Special Education Transactions

For state reporting, LEAs use the goal field to report direct special education costs for different objectives, such as the costs of providing services to infants or to severely disabled students from ages five through twenty-two. The costs are further broken down by the type of instructional service provided, such as special education instruction in separate classes, using the function field.

Shown below are discussions of how certain special education transactions are accounted for. Later in this section, examples of transactions are given to illustrate the accounting entries.

1. Salaries of certificated employees providing other specialized instructional services are recorded in Function 1190, Special Education: Other Specialized Instructional Services, with Object 1100, Certificated Teachers' Salaries.

2. Salaries of instructional aides are recorded in the special education instructional functions 1100–1199, except 1180, with Object 2100, Classified Instructional Salaries. If a classified employee provides other support services, that cost should be coded to a support function with Object 2200, Classified Support Salaries.

3. Administrative costs of the SELPA AU are recorded either in Function 2100, Instructional Supervision and Administration, or Function 2200, Administrative Unit of Multidistrict SELPA. Activities of the AU of a single-district SELPA are reported under Function 2100, while activities of the AU of a multidistrict SELPA are reported under Function 2200. A school district or county superintendent of schools may be the AU.

4. Salaries of a program specialist providing regionalized services as defined by Education Code Section 56836.23 are recorded in Goal 5060, Regionalized Program Specialist, with Function 2100, Instructional Supervision and Administration, and Object 1900, Other Certificated Salaries.
Salaries of a program specialist not providing regionalized services but instead working locally with students as a support to teachers are recorded in Function 2100, Instructional Supervision and Administration, with the appropriate special education goal, and Object 1900, Other Certificated Salaries.

5. Apportionments for regionalized operations and services and the direct instructional support of program specialists are made directly to the AU. These apportionments are recorded by the AU using Object 8311, Other State Apportionments—Current Year (or Object 8319, Other State Apportionments—Prior Year).

The AU, by agreement, may transfer these apportionments to a member agency. It can do the transfer in one of two ways: by transferring to the other LEA the responsibility for providing regionalized services or by contracting with the other LEA to provide the services while retaining the responsibility for providing the services.

*Method 1—Transferring to Another LEA the Responsibility for Providing Regionalized Services*

An AU transferring to another LEA the responsibility for providing regionalized services records the receipt of the apportionments in Fund 10 using Object 8311 or Object 8319, and records the transfer as a transfer of apportionments in Fund 10 using Function 9200, Transfers Between Agencies, and the transfers of apportionments object, such as Object 7221, Transfers of Apportionments to Districts or Charter Schools; Object 7222, Transfers of Apportionments to County Offices; or Object 7223, Transfers of Apportionments to JPAs.

The LEA receiving the apportionment under this arrangement records the revenues in Resource 6500, Special Education, in the appropriate special education goals, with a transfer of apportionments object, such as Object 8791, Transfers of Apportionments from Districts or Charter Schools; or Object 8792, Transfers of Apportionments from County Offices. The expenditures are recorded in the same goals as the revenues, in Function 2100, Instructional Supervision and Administration, and in the appropriate object (e.g., Object 1300, Certificated Supervisors’ and Administrators’ Salaries).
Procedure 755  Special Education

See Example 8 later in this procedure for a coding example for this type of transaction.

Method 2—Contracting with Another LEA to Provide Regionalized Services while Retaining the Responsibility for Providing the Services

An AU contracting with another LEA to provide regionalized services while retaining the responsibility for providing the services records the receipt of the apportionments in the general fund using Object 8311 or Object 8319, and records the payments to the other LEA as payments for contracted services, also in the general fund. The AU records these payments in Object 5100, Subagreements for Services, still in Resource 6500 with a special education goal (e.g., Goal 5xxx), and an appropriate expenditure function.

The LEA providing the services under the contract does not record the revenues and expenditures in the special education resource or a special education goal but in Resource 9010, Other Restricted Local (or a locally defined resource), and Goal 7110, Nonagency—Educational (use of this goal in this revenue transaction is optional; otherwise, use Goal 0000), with Object 8677, Interagency Services Between LEAs. It records expenditures in Goal 7110, Nonagency—Educational (whether or not Goal 7110 was used for the revenue), Function 2100, Instructional Supervision and Administration, and the appropriate objects for salaries, benefits, and supplies.

See Example 11 later in this procedure for a coding example for this type of transaction.

6. Apportionments for other than regionalized services may be allocated to districts and county offices of education in accordance with the allocation plan adopted pursuant to Education Code Section 56836.05 unless the allocation plan specifies that funds will be apportioned to the AU (Education Code Section 56195.7).

Method 1—Special Education Apportionment Allocated to the Administrative Unit (AU):
If the SELPA has elected for the apportionments to be made to the AU, the AU records the receipt of apportionment and the transfer of funds to the members basically in the same manner as recording the transfer of apportionments for program specialists and regionalized services, where the AU also transfers to the member LEA the responsibility for providing regionalized services, as discussed in Item 5, Method 1.

The member LEA records the receipt of these moneys from the AU and the expenditures basically in the same manner as discussed in that part of Item 5, Method 1.

See Example 8 later in this procedure for a coding example for this type of transaction.

**Method 2—Special Education Apportionment Allocated to Districts and County Superintendents of Schools**

If the SELPA has opted for special education apportionments (other than for regionalized services) to be made directly to the member agencies, each district or county office records the apportionment as Resource 6500, Special Education, an appropriate special education goal, such as Goal 5001, Special Education—Unspecified, and Object 8311, Other State Apportionments—Current Year.

A district, county office, or JPA billing for and receiving payment for special education excess costs or deficits, or payments for special education transportation excess costs or deficits, records the revenue received as Object 8710, Tuition, with the appropriate special education resource and an appropriate special education goal.

The LEA paying the excess costs or deficits records the payment with an appropriate resource, a special education goal, Function 9200, Transfers Between Agencies, and Object 7141, Other Tuition, Excess Costs, and/or Deficit Payments to Districts or Charter Schools; Object 7142, Other Tuition, Excess Costs, and/or Deficit Payments to County Offices; or Object 7143, Other Tuition, Excess Costs, and/or Deficit Payments to JPAs.
Procedure 755  Special Education

8. A district or county office receiving the federal Individuals with Disabilities Education Act (IDEA) basic local assistance revenue records the revenue in Resource 3310, IDEA Basic Local Assistance Entitlement, Part B, with a special education goal, in Object 8181, Special Education—Entitlement, and records the expenditures in Resource 3310, with the appropriate special education goals, functions, and objects.

9. A district or county office that receives a federal IDEA grant-in-aid for approved special projects records the revenue as Object 8182, Special Education—Discretionary Grants, with the appropriate resource and the appropriate special education goal.

10. Any AU receiving federal IDEA money of either the local assistance entitlement or a discretionary grant that is to be distributed to a district or county office records the revenue to be passed to member LEAs in Fund 10 as Object 8287, Pass-Through Revenues from Federal Sources, with the appropriate resource and Goal 5001, Special Education—Unspecified.

   The AU distributes these funds, using the appropriate resource, the appropriate special education goal, Function 9200, Transfers Between Agencies, and Object 7211, Transfers of Pass-Through Revenues to Districts or Charter Schools; Object 7212, Transfers of Pass-Through Revenues to County Offices; or Object 7213, Transfers of Pass-Through Revenues to JPAs.

   See Example 9 later in this procedure for a coding example for this type of transaction.

The following are examples of recording revenues received and expenditures incurred to educate special education students. The illustration of which codes to use for these transactions has been simplified. Only one side of the accounting entry is shown; in actual entries, the debit(s) must equal the credit(s).

Sample Journal Entries

   Example 1: Splitting an Employee's Costs Between Functions
Procedure 755  Special Education

A teaching assistant is hired to work half a day in a separate class for severely disabled children and half a day in assisting a severely disabled student who has been mainstreamed in a regular education class.

Because the teaching assistant is working solely with severely disabled students, his salary has one goal. However, his work is split between two functions.

<table>
<thead>
<tr>

<td>0</td>
<td>5750</td>
<td>1130</td>
<td>2100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 6500 is Special Education.
- Project Year is not required in this example.
- Goal 5750 is Special Education, Ages 5–22 Severely Disabled.
- Function 1110, Special Education: Separate Classes, captures the costs of running a separate class for severely disabled students; and Function 1130, Special Education: Supplemental Aids and Services in Regular Classrooms, captures the costs of providing a teaching assistant for a student who attends a regular education class.
- Object 2100 is Classified Instructional Salaries.
- School is not required.

Example 2: Splitting an Employee's Salary Between Goals

An adaptive physical education teacher is hired to provide physical education classes for special education students attending regular education classes on several campuses and for students attending special education separate classes. Some of the students are categorized as severely disabled, others as nonseverely disabled. The teacher's salary is split between two goals because two populations of students are served.

<td>1100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 6500 is Special Education.
Procedure 755  Special Education

- Project Year is not required in this example.
- Goal 5750 is Special Education, Ages 5–22 Severely Disabled, and Goal 5770 is Special Education, Ages 5–22 Nonseverely Disabled. (The salary may be coded instead to one goal during the year and split between the goals at year-end when the ratio of service to severely and nonseverely disabled students is documented.)
- Function 1190 is Special Education: Other Specialized Instructional Services. This function includes pullout services that may be provided to students who are normally found in separate classes or regular education classes.
- Object 1100 is Certificated Teachers' Salaries.
- School is not required.

Example 3: Costs for Special Education Students in Regular Education Classrooms

A student who has a low-incidence disability has been placed in a juvenile court school. His individualized education program (IEP) necessitates the presence of an interpreter and the services of a resource specialist. The following services are being provided by different resources and for different populations. The cost of the teacher in the juvenile court school is chargeable to regular education; the costs of the interpreter and the resource specialist are chargeable to special education.

The cost of the juvenile court school teacher is coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>2400</td>
<td>0</td>
<td>3600</td>
<td>1000</td>
<td>1100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the County School Service Fund.
- Resource 2400 is Juvenile Court/County Community Schools.
- Project Year is not required in this example.
- Goal 3600, Juvenile Courts, identifies the costs of educating juvenile court school students.
- Function 1000 is Instruction. General education teachers are coded to the general population they are contracted to teach. A special education student who attends a regular education class is considered a part of the general education class.
- Object 1100 is Certificated Teachers' Salaries.
Procedure 755  Special Education

- **School** is not required.

The cost of the interpreter assigned to the student who has an IEP and has been placed in the juvenile court classroom is coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5750</td>
<td>1130</td>
<td>2100</td>
<td>000</td>
</tr>
</tbody>
</table>

- **Fund 01** is the County School Service Fund.
- **Resource 6500** is Special Education.
- **Project Year** is not applicable in this example.
- **Goal 5750** is Special Education, Ages 5–22 Severely Disabled. (Students with a low-incidence disability are classified as severely disabled. The LEA may have locally defined goals to separate low-incidence disabilities from other severe disabilities if management needs to identify these costs locally.)
- **Function 1130** is Special Education: Supplemental Aids and Services in Regular Classrooms.
- **Object 2100** is Classified Instructional Salaries. (The LEA may have locally defined objects if it is important to track the costs of interpreters separately from those of classroom assistants.)
- **School** is not required.

The cost of the resource specialist who works with this student on a pullout basis is coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5750</td>
<td>1120</td>
<td>1100</td>
<td>000</td>
</tr>
</tbody>
</table>

- **Fund 01** is the County School Service Fund.
- **Resource 6500** is Special Education.
- **Project Year** is not applicable in this example.
- **Goal 5750** is Special Education, Ages 5–22 Severely Disabled. (Students with a low-incidence disability are classified as severely disabled students. The LEA may have locally defined goals to separate low-incidence disabilities from other severe disabilities if management needs to identify these costs locally.)
- **Function 1120** is Special Education: Resource Specialist Instruction. This is a resource specialist who works directly with the students in an instructional setting.
Procedure 755 Special Education

- Object 1100 is Certificated Teachers' Salaries.
- School is not required.

Example 4: Costs for Special Education Students in a Regional Occupational Center/Program (ROCP)

Some special education students are in transition, going from the special education K–12 program into the adult workforce. The students have been placed in an ROCP class, where they receive training at a fast-food business supplemented with ROCP classes. The cost of the ROCP instructor is coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6360</td>
<td>0</td>
<td>6000</td>
<td>1000</td>
<td>1100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the school district's General Fund.
- Resource 6360 is Pupils with Disabilities Attending ROCP.
- Project Year is not applicable in this example.
- Goal 6000 is Regional Occupational Center/Program.
- Function 1000 is Instruction.
- Object 1100 is Certificated Teachers' Salaries.
- School is not required.

The cost of a teaching assistant assigned to the special education students to enable them to participate in the ROCP class is coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5770</td>
<td>1130</td>
<td>2100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the school district's General Fund.
- Resource 6500 is Special Education.
- Project Year is not applicable in this example.
- Goal 5770 is Special Education, Ages 5–22 Nonseverely Disabled.
- Function 1130 is Special Education: Supplemental Aids and Services in Regular Classrooms.
- Object 2100 is Classified Instructional Salaries.
- School is not required.
Example 5: Costs of Instruction Provided on a Pullout Basis

An orientation and mobility (O & M) specialist is hired to teach students how to travel safely and independently around the school and in the community. He or she works with blind students who attend regular classes at the elementary and high schools. This service is provided on a pullout basis. The O & M specialist has a teaching credential and is trained to teach special education students.

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5750</td>
<td>1190</td>
<td>1100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 6500 is Special Education.
- Project Year is not applicable in this example.
- Goal 5750 is Special Education, Ages 5–22 Severely Disabled, which includes students with a low-incidence disability.
- Function 1190 is Special Education: Other Specialized Instructional Services. This function includes pullout services that may be provided to students who are normally found in separate classes or regular education classes.
- Object 1100 is Certificated Teachers' Salaries.
- School is not required.

Example 6: Costs of Pupil Services

A counselor is hired to provide special education students with behavior management services, a systematic implementation of procedures designed to promote lasting, positive changes in the students' behavior, resulting in greater access to a variety of community settings, social contacts, and public events, and placement in the least restrictive environment. The counselor is a licensed professional with a certificate for school service. The salary is coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5750</td>
<td>3110</td>
<td>1200</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
Procedure 755  Special Education

- Resource 6500 is Special Education.
- Project Year is not applicable in this example.
- Goal 5750 is Special Education, Ages 5–22 Severely Disabled.
- Function 3110 is Guidance and Counseling Services.
- Object 1200 is Certificated Pupil Support Salaries.
- School is not required.

The students receiving this behavior modification training are enrolled in a separate class for severely emotionally disabled students or autistic students. This class is taught by a special education teacher who works with the counselor to apply the behavior modification procedures in the classroom. The cost of the teacher is coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>6500</td>
<td>0</td>
<td>5750</td>
<td>1110</td>
<td>1100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 6500 is Special Education.
- Project Year is not applicable in this example.
- Goal 5750 is Special Education, Ages 5–22 Severely Disabled.
- Function 1110 is Special Education: Separate Classes.
- Object 1100 is Certificated Teachers' Salaries.
- School is not required.

**Example 7: Costs Related to Federal Resources**

(a) Funds from the Individuals with Disabilities Education Act (IDEA) basic local assistance entitlement were used to pay a classified assistant to work with students who are in transition from K–12 special education into gainful employment in local businesses.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

- Fund 01 is the school district's General Fund.
- Resource 3310 is Special Ed: IDEA Basic Local Assistance Entitlement, Part B, Sec 611.
Procedure 755  Special Education

- Project Year refers to the report year for this program; 7 in this case stands for federal fiscal year 2006-07, which ended September 30, 2007.
- Goal 5750 is Special Education, Ages 5-22 Severely Disabled.
- Function 1190 is Special Education: Other Specialized Instructional Services. The student has been transferred from a regular or separate classroom to a work site or other setting.
- Object 2100 is Classified Instructional Salaries.
- School is not required.

(b) An LEA uses IDEA basic local assistance entitlement funds to purchase assistive technology for a student who will use the computer to communicate with teachers and peers in a regular education classroom.

<table>

</tbody>
</table>

- Fund 01 is the General Fund.
- Resource 3310 is Special Ed: IDEA Basic Local Assistance Entitlement, Part B, Sec 611.
- Project Year refers to the report year for this program; 7 in this case stands for federal fiscal year 2006-07, which ended September 30, 2007.
- Goal 5750 is Special Education, Ages 5-22 Severely Disabled.
- Function 1130 is Special Education: Supplemental Aids and Services in Regular Classrooms. The equipment is an aid to the student in a regular classroom.
- Object 6400 is Equipment.
- School is not required.

Example 8: A County Office, as the AU, Receives the State Apportionment and Transfers It to Member LEAs.

The local plan provides that $10,000 will be used by the AU and $90,000 will be passed through.

(a) As the AU, the county office records the receipt of the state apportionment of $100,000.
Procedure 755  Special Education

$10,000 for the AU’s own operations:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>

- Fund 01 is the General Fund.
- Resource 9010 is Other Restricted Local, in this case a contract with another LEA.
- Project Year is not applicable in this example.
- Goal 7110 is Nonagency—Educational. (Use of this goal for a revenue transaction is optional; it will enable the LEA to match contract revenue with the contract expenditures.)
- Function is not required for revenue.
- Object 8677 is Interagency Services between LEAs.
- School is not required.

(c) As part of this contract, the district pays a program specialist who provides regionalized services to members of the SELPA.
Procedure 755  Special Education

- Fund 01 is the General Fund.
- Resource 9010 is Other Restricted Local.
- Project Year is not applicable in this example.
- Goal 7110 is Nonagency—Educational.
- Function 2100 is Instructional Supervision and Administration.
- Object 1900 is Other Certificated Salaries.
- School is not required.

Example 12: A County Office, as the AU, Receives Interest Earned on Special Education Balances.

The AU receives a total of $200 interest ($50 on the special education balances maintained in the general fund, and $150 on the special education balances maintained in the special education pass-through fund).

(a) Where there is a local agreement that the AU will distribute interest earned on balances in the pass-through fund to the member LEAs, the interest is posted between the general fund and the special education pass-through fund.

$50 interest earned on the general fund balance:

- Fund 01 is the County School Service Fund.
- Resource 0000 is Unrestricted.
- Project Year is not applicable in this example.
- Goal is not required for revenue except for special education revenues.
- Function is not necessary for revenue.
- Object 8660 is Interest.
- School is not required.
Procedure 755  Special Education

$150 interest earned on the special education pass–through fund balance:

<table>

• Project Year is not applicable in this example.
• Goal 5001 is Special Education—Unspecified.
• Function 7210 is Indirect Cost Transfers.
• Object 7310 is Transfers of Indirect Costs.
• School is not required.
The ROCP program is different from regular instructional programs in that *Education Code* Section 52301 allows two or more school districts to form a joint powers agency (JPA) to provide ROCP vocational training.

The California Department of Education (CDE) apportions ROCP funding to school districts and county offices of education on the basis of their ROCP average daily attendance (ADA). The school districts and county offices of education may then provide ROCP instruction themselves or contract for services or transfer the apportionment to JPAs to provide ROCP instruction. School districts, county offices of education, and joint powers agencies have structured their ROCP instruction in a variety of ways in California to meet local needs for ROCP education.

The following examples of coding address the various forms of interagency agreements between LEAs:

**Example 1: Both a County Office of Education (COE) and School Districts Receive Funding Based on ROCP ADA Reported to CDE.**

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>01</td>
<td>9635</td>
<td>0</td>
<td>0000</td>
<td>0000</td>
<td>8677</td>
<td>000</td>
</tr>
</tbody>
</table>

- **Fund 01** is the district's General Fund.
- **Resource 9635** is a unique code the district is using for its ROCP contract. This and other local restricted resources must roll up to Resource 9010, Other Local, when data are submitted to CDE.
- **Project Year** is not applicable in this example.
- **Goal** is not required for revenue.
- **Function** is not required for revenue.
- **Object 8677** is Interagency Services Between LEAs.
- **School** is not required.
(c) The district expenditures for the shop class are coded as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>
<th>Goal</th>
<th>Function</th>
<th>Object</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>9635</td>
<td>0</td>
<td>7110</td>
<td>1000</td>
<td>1100</td>
<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the district's General Fund.
- Resource 9635 is the district's code for the contract.
- Project Year is not applicable in this example.
- Goal 7110 is Nonagency—Educational. The district's expenditures are made on behalf of the COE, which retains the final responsibility for the ROCP class.
- Function 1000 is Instruction.
- Object 1100 is Certificated Teachers' Salaries.
- School is not required.

Example 3: Participating School Districts Transfer Their Apportionments to the Joint Powers Agency (JPA) Operating the ROCP.

Pursuant to Education Code Section 52301, school districts may form a JPA to operate ROCPs, and the Education Code section allows the JPA to receive the apportionments through the participating districts.

(a) The districts transfer their apportionment to the JPA.

<table>
<thead>
<tr>
<th>Fund</th>
<th>Resource</th>
<th>Project Year</th>

<td>000</td>
</tr>
</tbody>
</table>

- Fund 01 is the JPA's General Fund.
- Resource 6350 is ROCP Apportionment.
- Project Year is not applicable in this example.
- Goal 6150 is the JPA's code for trade and industry classes. LEAs have the option of tracking ROCP subject matter in the goal field as long as it rolls up to Goal 6000 when data are submitted to CDE at year-end.
- Function 1000 is Instruction.
- Object 1100 is Certificated Teachers' Salaries.
- School is not required.
Common accounting challenges LEAs face are distinguishing between supplies and equipment, between equipment and improvements of grounds, and between equipment and building fixtures or service systems. LEAs must correctly identify each item if they are to achieve the necessary uniformity of accounting.

Basics of Supplies, Noncapitalized Equipment, and Capitalized Equipment

Whether an item should be classified as a supply or equipment is determined by the length of time the item is serviceable and on its contribution to the overall value of the physical assets of the LEA. For example, supplies are constantly consumed and replaced without substantially increasing the value of the physical assets of the LEA. Equipment has relatively permanent value and substantially increases the value of the physical assets of the LEA. For accounting purposes there are two types of equipment: noncapitalized and capitalized.

Equipment with an acquisition cost less than the LEA's capitalization threshold is treated as noncapitalized equipment; otherwise, it is treated as capitalized equipment. Expenditures for noncapitalized equipment, supplies, and noncapitalized improvements are charged as current expense; that is, they are recognized as an expense of the current period rather than as an asset. Expenditures for capitalized equipment, land improvements, building fixtures, and service systems are those that result in the acquisition of capital assets or additions to capital assets.

Criteria for Distinguishing Between Supplies and Capitalized Equipment

(Note: For purposes of the following discussion, "supplies" includes both Object 4300, Materials and Supplies, and Object 4400, Noncapitalized Equipment; "capitalized equipment" includes both Object 6400, Equipment, and Object 6500, Equipment Replacement.)

Supplies are items of an expendable nature that are consumed or worn out, deteriorate in use, or are easily broken, damaged, or lost. In LEA accounting, items of equipment that are not capitalized because of their low acquisition cost are considered to be supplies.

It is sometimes difficult to classify articles as either supplies or capitalized equipment. They may have the characteristics of equipment but have a low
Procedure 770  Distinguishing Between Supplies and Equipment

unit cost or are frequently lost, broken, or worn out and replaced in normal use. To obtain uniformity, the LEA should classify items on the basis of answers to the questions below:

1. Does the item lose its original shape and appearance with use?
2. Is it consumable, with a normal service life of less than one year?
3. Is it easily broken, damaged, or lost in normal use?
4. Is it usually more feasible to replace it with an entirely new unit than to repair it?
5. Is the cost of the item below the LEA's capitalization threshold?

If the answer to any one of the preceding questions is yes, the item should normally be classified as a supply. If all the answers are no, the item should be classified as capital outlay.

A way to visualize the distinction between capitalized equipment and supplies is by using the following flowchart provided by the federal government. At the first NO, the item is declared to be a supply.

**Distinguishing Capitalized Equipment from Supplies**

<table>

At the first NO, the item is declared to be a SUPPLY.
Procedure 770  Distinguishing Between Supplies and Equipment

Inventory Requirements and Capitalization Thresholds

Property inventory requirements and capitalization thresholds are different subjects that are commonly confused because of their overlapping terminology.

An inventory is an itemized list for tracking and controlling property. Capitalization is an accounting treatment whereby an item of property is accounted for as an asset rather than as an expense of the current period. All items owned by an LEA can rightfully be considered assets; but, as a practical matter, LEAs do not need to capitalize all of the items.

Inventory Requirements

Education Code Section 35168 requires LEAs to maintain an inventory of equipment whose current value exceeds $500. However, this requirement does not mean that LEAs must capitalize all equipment costing more than $500. While all capitalized items should be inventoried, not all inventoried items should be capitalized.

For purposes of compliance, accountability, and internal control, LEAs should maintain inventories of many items they do not capitalize in their financial statements. Some LEAs set an inventory threshold lower than that required by statute, and some LEAs inventory certain items in addition to those that would be required by statute. For example, LEAs might inventory DVD players and computers for internal control purposes, even if they do not capitalize these items because of their low cost and even if these items' cost is below the threshold defined in statute.

Capitalization Threshold

The capitalization threshold is the per-unit cost at which a given item qualifies for capitalization. The cost used for determining capitalization should include tax, freight charges, and installation costs, whether included in the invoice cost of the item or paid separately. Capitalization
Procedure 770  Distinguishing Between Supplies and Equipment

thresholds may differ from one LEA to another depending on materiality. Typically, the larger the LEA, the higher is its capitalization threshold.

The Government Finance Officers Association (GFOA) recommends that capitalization thresholds be set so that about 80 percent of the dollar value of an LEA's assets are capitalized (not 80 percent of the individual items of property), but in no case should the threshold be less than $5,000. For most LEAs, a capitalization threshold of at least $5,000 is recommended. For larger LEAs, a higher capitalization threshold is appropriate.

The Office of Management and Budget (OMB) Circular A-87, Costs Principles for State, Local, and Indian Tribal Governments, allows property costing up to $5,000 to be charged to federal grants as supplies, rather than as equipment, unless the LEA's capitalization threshold is lower. If an LEA elects to set a capitalization threshold higher than $5,000 for most items, it still needs to have a separate threshold of $5,000 for items paid for with federal funds. It is recommended that LEAs set a similar threshold for items paid for with restricted state funds.

It is further recommended that LEAs capitalize any item acquired through long-term debt, such as equipment acquired through a capital lease, even if the item does not otherwise meet the LEA's threshold for capitalization. Doing so ensures that when the LEA reports the liability for the long-term debt, the LEA will also report the corresponding asset for which the debt was issued.

LEAs may wish to establish a separate, higher threshold for capitalization of site and building improvements than for capitalization of equipment. Professional judgment should be used in the application of this separate threshold so that only those improvements that meet the threshold for capitalization and that significantly enhance the value or extend the life of the site or building, regardless of the cost, are capitalized.

LEAs may choose to capitalize groups of items acquired at the same time that do not meet the threshold for capitalization individually. Examples might include major acquisitions of library books for a new library or large quantities of computers for an entire computer laboratory. However, unless the group of items would represent a very significant asset for the LEA, it is not recommended that groups of items whose unit cost does not meet the capitalization threshold be capitalized.
Procedure 770  Distinguishing Between Supplies and Equipment

Reconciling Inventory Additions to Accounting Records

It is easy to reconcile additions to the property inventory with accounting records. First, assets that are capitalized are always also inventoried. Acquisitions of capitalized assets are usually recorded in Objects 6000, Capital Assets, or occasionally in other objects in combination with Function 8500, Facilities Acquisition and Construction. Expenditures in these accounts should always reconcile to the additions of capital assets to the property inventory.

Second, acquisitions of assets that will not be capitalized but that will be inventoried are recorded in Object 4400, Noncapitalized Equipment. For example, assume that an LEA maintains an inventory of items of property costing more than $500 and that the LEA has a capitalization threshold of $5,000. The LEA would charge expenditures for items of property costing more than $500, but less than $5,000, to Object 4400, Noncapitalized Equipment. Expenditures in this account should reconcile to the additions of noncapitalized assets to the property inventory.

This LEA would charge items of property costing less than $500, such as adding machines and electric staplers, to Object 4300, Materials and Supplies. These items would be neither capitalized nor inventoried.

Criteria for Repairs, Maintenance, and Betterments

Repair parts that LEAs purchase for the maintenance of buildings, equipment, and grounds, regardless of cost, are normally charged as supplies (e.g., Object 4300, Materials and Supplies, or Object 4400, Noncapitalized Equipment).

Examples include:

- Plumbing fixtures
- Compressors (if part of a larger unit)
- Bus transmissions
- Engines
- Timer devices for automatic sprinkler systems
Procedure 770  Distinguishing Between Supplies and Equipment

Repair costs are those outlays that are necessary to keep an asset in its intended operating condition but that do not materially increase the value or physical properties of the asset. Building repair costs are charged to Function 8100, Maintenance and Operations. Equipment repair costs are charged to the function in which the equipment is used.

By contrast, all additions and betterments to capital facilities should be charged to a capital outlay account when acquired or when construction or installation is completed. An addition refers to a physical extension of some existing asset. A betterment exists when a part of an existing asset is replaced by another and the replacement provides a significant increase in the life or value of the asset.

Building additions and betterments are typically charged to Object 6200, Buildings and Improvements, in combination with Function 8500, Facilities Acquisition and Construction.

Criteria for Identification of Building Fixtures and Service Systems

The following criteria provide a uniform basis for the identification of building fixtures and service systems. To be classified as either a building fixture or a service system, as opposed to equipment, an item must conform to five criteria:

1. The item is attached permanently to the building.
2. The item functions as part of the building.
3. Removal of the item would result in appreciable damage to the building or would impair the designed use of the facility.
4. The item is generally accepted as real property (not personal property).
5. The item loses identity as a separate unit.

Building fixtures and service systems are typically charged to Object 6200, Buildings and Improvements, in combination with Function 8500, Facilities Acquisition and Construction.

Building Fixtures

Building fixtures include attachments to a building that are not subject to transfer or removal, presumably function as integral parts of the building,
and have fairly long and useful lives. Such fixtures are generally accepted as real property and lose functional identity as separate units.

Examples include bleachers installed in a gymnasium, built-in cabinetry, and walk-in freezers.

Service Systems

Service systems include any parts of a building that are intended to serve a single function throughout the building, are usually included as a part of the original construction or subsequently added in whole or in part, are built as integral parts of buildings, and are expected to have long and useful lives. Such systems are generally accepted as real property and lose identity as separate units.

Examples include air-conditioning systems and intercommunication systems.
Procedure 775  Accounting for Internal Service Funds

Generally accepted accounting principles (GAAP) permit that internal service funds may be used "to report any activity that provides goods or services to other funds, departments, or agencies of the primary government and its component units, or to other governments, on a cost-reimbursement basis." GAAP never requires the use of an internal service fund.

Internal service funds use the economic resources measurement focus and the accrual basis of accounting, similar to private-sector business enterprises. Costs relating to a given activity are accumulated so that they can be allocated to benefiting funds in the form of fees and charges.

Purpose of an Internal Service Fund

The purpose of an internal service fund is to measure the full cost of providing goods or services with the intent of fully recovering that cost, including some measure of the cost of capital assets, through user fees and charges. The use of an internal service fund is not appropriate for activities that a local educational agency (LEA) only partially intends to finance through fees and charges.

An internal service fund should be used only if the reporting LEA is the predominant participant in the internal service activity. If the LEA is not the predominant participant, the service is not “internal,” and an enterprise fund should be used instead.

A surplus or a deficit in an internal service fund may indicate that the funds and programs benefiting from the internal service activity are being over- or undercharged for the costs of the goods or services they receive from the internal service activity.

Self-Insurance Fund

Self-insurance activities are subject to various statutory provisions found in Education Code Section 17566 and Government Code Section 53205 and to accounting standards found in Governmental Accounting Standards Board (GASB) Statements 10 and 30. An actuarial valuation of the annual cost of self-insured benefits is required at least every three years.
LEAs may establish separate funds for each type of self-insurance activity, such as workers' compensation, health and welfare, and deductible property loss (*Education Code* Section 17566). If an LEA establishes more than one self-insurance fund, the LEA must roll these funds up to Fund 67, Self-Insurance Fund, when reporting data to CDE.

LEAs may also assign locally defined resource codes in the 0001–0999 range for their different self-insurance activities. The LEA must roll these resources up to Resource 0000, Unrestricted, when reporting to CDE.

Amounts contributed to a self-insurance fund are treated as expenditures of the fund from which the moneys are contributed and as revenue in the self-insurance fund. For example, a contribution from the general fund to a self-insurance fund for property and liability insurance should be recorded as an expenditure in the general fund using Object 5400, Insurance, and as revenue in the property and liability self-insurance fund using Object 8674, In-District Premiums/Contributions.

Payments from the self-insurance fund for claims or judgments and payments to independent contractors for administrative services are recorded using Object 5800, Professional/Consulting Services and Operating Expenditures. All self-insurance activities are reported in Function 6000, Enterprise.

Note that payments for claims or judgments for employee benefit programs, such as health and welfare benefits or workers’ compensation, are not recorded to an employee benefit object (3000-3999) in the self-insurance fund. Employee benefit expenditures are recognized in these object codes in the contributing fund at the time the contribution to the self-insurance fund is recognized.

To record reimbursement to the general fund for administration costs for November.

**Measurement and Recognition of Expenses and Liabilities**

LEAs that self-insure for workers' compensation, current year health and welfare benefits for active employees, and deductible property loss should recognize claims expenses and liabilities in accordance with GASB Statements 10 and 30. Liabilities for claims, including liabilities for incurred but not reported (IBNR) claims, should be based on the total estimated cost of settling the claims, including claim adjustment costs, net of any estimated recoveries.

LEAs that self-insure for postemployment benefits other than pensions (OPEB) should recognize OPEB expenses and liabilities in accordance with GASB Statement 45. LEAs should report a net OPEB obligation (or asset) equal to the cumulative difference between annual OPEB cost and the LEA’s employer contributions. The accounting for OPEB costs and employer contributions is discussed in Procedure 785.

**Surpluses and Deficits in a Self-Insurance Fund**

Amounts contributed to a self-insurance fund are lawfully restricted for that purpose (*Education Code* Section 17566 and *Government Code* Section 53205).

If amounts held in a self-insurance fund exceed amounts required as determined on an actuarial basis (a surplus), current and/or future contributions may be reduced by adjusting the rates used to charge the contributing funds.

If amounts charged by the self-insurance fund to the contributing funds do not recover the full cost of the self-insured benefits over a reasonable period of time, any deficit fund balance in the self-insurance fund should be charged back to the contributing funds by adjusting the rates used to charge those funds.

**Warehouse Revolving Fund**
Procedure 775  Accounting for Internal Service Funds

Education Code sections 42830–42833 authorize and prescribe procedures for the establishment of a revolving warehouse stock fund, more commonly called the Warehouse Revolving Fund. Permission is also given for two or more LEAs to establish a common revolving fund for this purpose.

The Warehouse Revolving Fund is an internal service fund that may be used to account for all the costs of an LEA's warehousing operations, including the purchase of inventories and the costs of receiving, storing, and delivering them. Its use is optional. For additional discussion of inventories, see Procedure 405.

The Warehouse Revolving Fund is reimbursed for all items furnished from warehouse stock to any office or school. The transactions of the warehouse revolving fund are to be conducted insofar as possible without a profit or loss and are accounted for on the accrual basis of accounting.

LEAs using the Warehouse Revolving Fund record the following in this fund:

1. The cost of the inventory.
2. The salaries and benefits of personnel working in the warehouse operation.
3. New acquisitions of land, building, and equipment for the warehouse. These items are recorded as capital assets and depreciated over their estimated useful lives.
4. The cost of other expenses for maintaining the warehouse, such as utilities, noncapitalized warehouse equipment, maintenance, and warehouse operation supplies.
5. Depreciation expense on buildings and equipment used for the warehouse.

Warehouse Revolving Fund activities are reported in Function 6000, Enterprise.

Sample Journal Entries

When inventory is purchased, the following entry is made:

To record the receipt of custodial supplies requisitioned from the warehouse, and payment by cash.

This entry recognizes the cost of custodial supplies received and payment by cash.

Note that LEAs using a warehouse revolving fund include a charge for overhead in the price of the goods charged to school sites, programs, or departments. In this example, the overhead charge is 12 percent ($300 cost of goods sold + 12% = $336). If the calculation of the overhead rate is reasonable, at the end of the year the amount of sales recorded in the
Procedure 775  Accounting for Internal Service Funds

Warehouse Revolving Fund will approximately equal the total costs incurred in that fund. The calculation of overhead is discussed in Procedure 405.

There are several accepted methods for determining the cost to be assigned to inventory requisitioned from the warehouse. These methods are discussed in Procedure 405.

The LEA should take a physical count of the inventory at least once a year. Procedures for conducting a physical inventory and adjusting the books to accurately reflect the physical inventory are provided in Procedures 410 and 405.
This page intentionally left blank.
Procedure 805 Joint Powers Agreements/Agencies (JPAs)

The following guidance may include some information that is temporarily superseded by the categorical flexibility provisions of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4) (Chapter 12, Statutes of 2009) as amended by SB 70 (Chapter 7, Statutes of 2011), effective 2008-09 through 2014-15. LEAs should refer to the CDE letter “Fiscal Issues Relating to Budget Reductions and Flexibility Provisions” located on the CDE accounting correspondence Web page at: http://www.cde.ca.gov/fg/ac/co/ for additional information and guidance.

Pursuant to Education Code Section 41023, joint powers agreements/agencies (JPAs) consisting solely of school districts and county offices of education are subject to the same restrictions (e.g., financial reporting requirements) applicable to school districts and county offices, including preparation of budget and financial statements, certifications, accounting and auditing requirements, and expenditure and appropriation controls.

Education Code Section 41023 exempts from the financial reporting requirements those JPAs established to provide insurance funds for losses and payments for such things as health and welfare benefits for employees, school district liability, and workers' compensation pursuant to Education Code Section 17567.

Guidelines for JPA Financial Reporting

The following guidelines for the standardized account code structure (SACS) budget and financial reports have been developed to standardize reporting for JPAs. The guidelines are designed to ensure that the revenues and expenditures for JPAs are not inadvertently "double counted" when financial data from all local educational agencies (LEAs) are aggregated into statewide totals.

1. When JPAs operate Regional Occupational Centers and Programs (ROCPs):

   Education Code Section 52321(a) allows ROCPs established and maintained by JPAs to receive annual operating funds from each of the participating districts.
Procedure 805   Joint Powers Agreements/Agencies (JPAs)

A district participating in a JPA in which the JPA operates the ROCP will recognize the ROCP apportionments as Other State Apportionments (Resource 6350 and Object 8311) and report the transfer of funds to the JPA as Transfers of Apportionments to JPAs (Resource 6350, Function 9200, and Object 7223).

The JPA will recognize the revenues as Transfers of Apportionments from Districts or Charter Schools (Resource 6350 and Object 8791). The expenditures will be reported in the Goal 6000, ROCP, and the appropriate functions, such as Function 1000, Instruction.

2. When JPAs are responsible for administering a Special Education Local Plan Area (SELPA):

In accordance with Education Code Section 56195.1(b), a school district may, in conjunction with one or more school districts, form a JPA and prepare a plan for the education of individuals with "exceptional needs" residing within those districts. The plan must include the designation of a "responsible local agency or alternative administrative agency" (e.g., one of the participating school districts) to receive and distribute the special education moneys.

The responsible agency will report the special education funds in the appropriate special education resource categories (Resource 6500) and report the transfer of funds to the JPA as Transfers of Apportionments to JPAs (Resource 6500, Function 9200, and Object 7223).

The JPA will recognize the revenues as Transfers of Apportionments from Districts or Charter Schools (Resource 6500 and Object 8791). The expenditures will be reported in the special education goals (goals 5000–5999) and the appropriate functions, such as Function 1000, Instruction.

3. When JPAs are organized for the purpose of providing transportation or food services:

JPAs providing transportation or food services do so either (a) as a designated single school district or (b) through a contract.
Procedure 805  Joint Powers Agreements/Agencies (JPAs)

a. **Single School District JPA.** If a JPA's sole function is to provide school transportation services or school food services, the JPA may be designated as a single school district in accordance with Education Code sections 41980(a) and 41980(b) to receive state apportionments. No activity is reported on the district's books if its transportation/food services are provided by a single district JPA.

The JPA will report the apportionments in the appropriate resource and object (Transportation—Home-to-School [Resource 7230, Object 8311]; Transportation—Special Education [Resource 7240, Object 8311]; and Child Nutrition Programs [Resource 5310, objects 8220 and 8520]). The expenditures will be reported in the appropriate functions (Function 3600, Pupil Transportation, and Function 3700, Food Services).

b. **Contracted JPAs.** When JPAs provide transportation/food services through a contract, the reporting is as follows:

The district will report the expenditures associated with the JPA using Object 5100, Subagreements for Services, within the appropriate goal and function.

The JPA will report the revenue received from the district as Object 8677, Interagency Services Between LEAs, and report the expenditures as Goal 7110, Nonagency—Educational, in the appropriate function activity (e.g., Function 3600, Pupil Transportation, and Function 3700, Food Services).

4. **When school districts or county offices contract with JPAs for certain services:**

If the reporting situations described previously do not apply, then the following guidelines should be used whenever school districts or county offices contract with JPAs for services (e.g., instructional services, support services):

The school district or county office will report the expenditures associated with the JPA as Subagreements for...
Services (Object 5100) within the appropriate goal and function.

The JPA will report the revenue received from the school district or county office using Object 8677, Interagency Services Between LEAs, and report expenditures as Goal 7110, Nonagency—Educational, in the appropriate function activity (e.g., Function 1000, Instruction, or Function 2100, Instructional Supervision and Administration).

Indirect Cost Rates for JPAs

The California Department of Education (CDE) is responsible for approving indirect cost rates for all LEAs. Although it does not generally approve indirect cost rates for JPAs, CDE can approve an indirect cost rate for a JPA if the JPA meets the following conditions:

1. The JPA has a county-district code and is included on the CDE active list of JPAs filing the SACS financial reports. (See "County-District Codes for JPAs," page 805-5.)

2. The JPA is established to provide direct instructional and support services and operates its own administrative unit (e.g., ROCP or SELPA JPAs), or the JPA is established to provide direct support services and operates its own administrative unit (e.g., pupil transportation, food services JPAs).

   Note: Indirect cost rates will not be approved for JPAs that provide only central administrative services (e.g., payroll, accounting, centralized data processing).

3. The JPA has filed a SACS financial report for the appropriate year. Under the negotiated agreement with the United States Department of Education, indirect cost rates derived from the expenditure data of one fiscal year are applicable to programs in the second succeeding fiscal year. For example, rates derived from 2007-08 expenditure data are applicable to 2009-10 fiscal year programs.

4. The JPA has assigned only those costs normally associated with central administrative services, such as agencywide budgeting, accounting, purchasing, personnel, and centralized data processing,
Procedure 805 Joint Powers Agreements/Agencies (JPAs)

To Function 7200, Other General Administration. Costs relating to the administration of the program(s) provided by the JPA should be charged according to the function definitions in Procedure 325, the same as it would be if the program was provided by the district.

For example, directors of instructional programs should be charged to Function 2100, Instructional Supervision and Administration. Directors of transportation programs should be charged to Function 3600, Transportation. Directors of food service programs should be charged to Function 3700, Food Services.

5. The JPA makes a written request to CDE to approve its rate. This request process is part of the SACS unaudited actual financial data certification form.

Note: Expenditure reports submitted by JPAs are subject to the same analysis that CDE applies to school districts and county offices of education, including verification that indirect cost rate calculations are reasonable.

County-District Codes for JPAs

The issuance of county-district codes will be limited to those JPAs that, consistent with the requirements of Education Code Section 41023, would appropriately file the SACS financial reports. JPAs established for insurance purposes under Education Code Section 17567 are excluded from the reporting requirements of Education Code Section 41023 and will not be issued county-district codes. When requesting a county-district code from CDE, the JPA must:

1. Complete an application for a county-district code for a JPA, following the instructions available on the Internet at http://www.cde.ca.gov/ds/si/ds. (For assistance or questions regarding county-district code applications, please contact CDS Administration at (916) 327-4014 or by mail at CDS Administration, Data Management Division, California Department of Education, 1430 N Street, Suite 6308, Sacramento, CA 95814.)

2. Include evidence that Government Code requirements for JPAs have been met. (See Government Code sections 6503.5 and 6503.7
Regarding filing a notice of the JPA agreement with the Office of the Secretary of State and payment of the filing fee.)

3. Submit the request through the county office of education and obtain the approval of the county superintendent.

4. List all participants in the JPA.

5. Provide a description of the type of service provided by the JPA to the educational programs. Generally, JPAs provide instructional and support services only (e.g., ROCPs, SELPAs), support services only (e.g., pupil transportation, food services, utilities, facilities acquisition, financing), or central administrative services (e.g., payroll, accounting, centralized data processing, legal). (CDE program approvals may be required for certain types of JPAs.)

6. Describe how the financial reporting will be accomplished. (See "Guidelines for JPA Financial Reporting," page 805-1.)
Procedure 810 Charter Schools

The California School Accounting Manual (CSAM) provides guidance on generally accepted accounting principles (GAAP) for all local educational agencies (LEAs) as well as specific guidance for LEAs in California. Section 15071 of Title 5 of the California Code of Regulations requires that charter schools follow the guidelines in CSAM, to the extent the guidelines apply, for reporting of financial data. Much of the guidance in CSAM is relevant to charter schools.

GAAP for Charter Schools

Governmental agencies such as traditional school districts and county offices of education use the governmental fund accounting model and the modified accrual basis of accounting for their governmental activities. Charter schools that are governmental use this basis of accounting. The authoritative source of GAAP for this model is the Governmental Accounting Standards Board (GASB).

Not-for-profit charter schools approved under Education Code Section 47604 that operate as or are operated by a nonprofit public benefit corporation pursuant to Section 501(c) (3) of the Internal Revenue Code typically use the not-for-profit accounting model and the accrual basis of accounting. The authoritative source of GAAP for this model is the Financial Accounting Standards Board (FASB).

The not-for-profit model more closely resembles private-sector (for-profit) accounting than governmental fund accounting. Nongovernmental not-for-profit entities using this model present external financial statements consisting of a statement of financial position, a statement of activities, a statement of cash flows, and notes to the financial statements.

Governmental fund accounting and the differences between the accrual and the modified accrual bases of accounting are discussed in Procedure 101, Governmental Accounting.

Reporting Charter School Financial Data to CDE

Pursuant to Education Code Section 42100, all LEAs, including charter schools, must report their unaudited actual financial data to the California Department of Education (CDE).
The decision as to whether a charter school should report to CDE as part of its authorizing LEA or separately should be based on whether the charter school is a part of the LEA or a separate reporting entity for purposes of GAAP. Authoritative guidance on the reporting entity is contained in GASB statements 14, 39, and 61. A charter school that is the same reporting entity as its authorizing LEA, as defined by GAAP, will be included in the LEA’s financial statements and will typically report to CDE as part of the LEA. A charter school that is a separate reporting entity, as defined by GAAP, will issue its own financial statements that are separate from those of its authorizing LEA and will typically report separately to CDE as well.

**Reporting Formats**

Charter data may be reported in either the standardized account code structure (SACS) format or in the alternative format for charter schools approved by the State Board of Education and titled the Charter School Unaudited Actuals Financial Report—Alternative Form (hereafter referred to as the Alternative Form). Charter schools are encouraged to discuss the reporting options with their authorizing agencies and their independent auditors before choosing a format.

Regardless of the format used, the data submitted for each charter school must be a complete report of all of the charter school's financial operations, including beginning balances, revenues, expenditures (or expenses), and ending balances.

**Using SACS for Charter School Financial Reporting**

The main operating funds available for charter schools reporting in SACS are:

- **General Fund (Fund 01) (modified accrual basis of accounting):** For charter schools reporting separately from the authorizing LEA and for charter schools reporting as part of the LEA within the LEA’s general fund.
- **Charter Schools Special Revenue Fund (Fund 09) (modified accrual basis of accounting):** For charter schools reporting as part of the authorizing LEA but reported outside of the LEA’s general fund.
Charter Schools Enterprise Fund (Fund 62) (accrual basis of accounting): For charter schools using the not-for-profit reporting model reporting either as part of the authorizing LEA or separately.

Only one main operating fund should be reported.

If a charter school reporting in Fund 01 uses additional funds, the charter school must report those funds in addition to their main operating fund.

If Fund 62 is used for any of a charter school’s activities, it should be used for all of the charter school’s activities. Note that fund accounting is inconsistent with the not-for-profit financial reporting model, so in this case Fund 62 serves as a financial statement for purposes of reporting to CDE rather than as a fund.

Costs reported in Fund 62 should include the function most descriptive of the activity being performed (e.g., instruction, school administration, pupil services, and plant services) rather than Function 6000, Enterprise, which is normally used in an enterprise fund.

Regardless of the basis of accounting, charter school financial reporting will typically be simpler than such reporting for traditional school districts because charter schools receive block grant funding in lieu of many individual categorical funds and typically operate fewer instructional programs. As with any other LEA, charter schools need use only what is necessary, required, and applicable to them. For guidance in using SACS, charter schools are encouraged to refer to applicable sections and procedures in this manual.

Using the Alternative Form for Annual Financial Reporting

Charter schools using the Alternative Form for financial reporting are encouraged to set up their accounts to align with the Alternative Form. A list of accounts that correspond to the Alternative Form is presented at the end of this procedure. Written definitions of each of the accounts (objects) can be found in Procedure 330.

Charter schools using the Alternative Form for financial reporting must use the spreadsheet version provided by CDE, and the county office of education must submit the data to CDE electronically. Because of the
brevity of the form, additional data necessary for compliance or other calculations may have to be submitted separately.

The Alternative Form allows for either the modified accrual basis of accounting used by governmental agencies or the accrual basis of accounting normally used by not-for-profit entities. Regardless of the basis of accounting, charter schools using the Alternative Form report all financial data on the form, using one basis of accounting or the other. The data submitted for each charter school must be a complete report of the charter school's financial operations, including beginning balances, revenues, expenditures (or expenses), and ending balances.

If a charter school maintains more than one fund in its own accounting system and uses the Alternative Form for reporting to CDE, it should consolidate all the financial data from all its funds on the Alternative Form.

For an Alternative Form, user's guide, and additional information about financial reporting, visit the following Web site: http://www.cde.ca.gov/fg/sf/fr.
Procedure 810 Charter Schools

Listing of Codes for the Charter School Alternative Form

The following codes from the Charter School Unaudited Actuals Financial Report Alternative Form (Alternative Form) correspond to the SACS object codes described in Procedure 330. The following codes are generally listed in the same order as they appear on the Alternative Form. Because of block granting of charter school funds, there are many more codes listed than most charter schools will need. (For more information about the object codes and their definitions, refer to Procedure 330.)

Procedure 905  Documenting Salaries and Wages

Documentation of salaries and wages is often necessary to support charges to specific funding sources (resources), instructional settings (goals), and activities (functions). Some level of formalized time documentation is normally needed for all salaries and wages paid from federally funded programs. However, for salaries and wages paid from state funds, formalized documentation is usually only necessary when the funds are restricted, when positions are split between goals or certain functions, or when program guidelines require it.

In reviewing this procedure, local educational agencies (LEAs) should keep in mind that written policies and procedures are essential to implementing an effective labor distribution system. LEAs must develop a time documentation process (i.e., forms, employee training, internal controls, and compliance checks) that meets their particular needs.

Salaries and Wages Charged to Restricted Programs

Costs of salaries and wages are usually an allowable charge to programs with a restricted funding source. However, LEAs are normally required to have time documentation to support the charging of their salaries and wages to a restricted source.

Office of Management and Budget (OMB) Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, is a policy directive affecting which costs are allowable charges to federal programs, which costs are not allowable, and how costs charged to federal programs must be documented. OMB Circular A-87 applies to all LEAs receiving federal funds subject to the cost principles. Attachment B, Section 8(h) of OMB Circular A-87 specifies the standards for documenting salaries and wages charged to federal programs. These standards are in addition to those for payroll documentation.

The time documentation requirements for charging salaries and wages to state programs are based on the OMB Circular A-87 federal time documentation guidelines. However, there is also an alternative method.

---

3 A few federal programs are not subject to the cost principles of OMB Circular A-87. Federal Impact Aid is an example.
**Procedure 905**  
**Documenting Salaries and Wages**

available to document salaries and wages charged to state restricted programs.

### Cost Objectives

OMB Circular A-87 defines a cost objective as "a function, organizational subdivision, contract, grant, or other activity for which cost data are needed and for which costs are incurred." For purposes of supporting salary and wage expenditures, the identification of cost objectives allows funding sources to be pooled for a common objective.

In practical terms, a cost objective is a set of work activities allowable under the terms and conditions of a particular funding source. In the determination of whether an employee works on a single cost objective or on multiple cost objectives, the most significant factor is not the number of funding sources supporting the salary but rather the activity being performed.

### Single Cost Objective

A set of work activities may be considered a single cost objective when both the service(s) being performed and the population(s) being served are allowable under any of the programs supporting the cost objective (i.e., the funding sources are homogeneous). Stated another way, costs allocable to that cost objective must be allowable under any of the programs that fund the activities. If these criteria are met, an activity that benefits two or more programs may be considered a single cost objective.

Homogeneous funding sources are the exception rather than the rule. If it is not clear whether the funding sources are in fact homogeneous, the activities should be treated as separate (multiple) cost objectives rather than as a single cost objective.

An example of a single cost objective at its most basic is an employee who works solely on one activity and that activity is funded by a single source. While this type of one-to-one relationship does occur, it is also possible to have a single cost objective that is funded by multiple sources. For example, if an employee works in a position that is funded by multiple federal programs, but the employee does similar activities all day and the federal programs have the same requirements with regard to allowable
costs and eligibility of participants, then that employee may be considered as working on a single cost objective.

Following are examples of employees working on a single cost objective:

1. **Single Funded Activity**: An employee who works solely (100 percent) on activities of a single federal or state restricted program or on a single nonfederal program used in meeting cost sharing or matching requirements of federal awards.

2. **NCLB Consolidated Administrative Funds**: An employee who works solely on administrative activities of the No Child Left Behind Act (NCLB) where the administrative funds have been consolidated in Resource 3155, NCLB Consolidated Administrative Funds (see Procedure 780).

3. **Schoolwide Program (SWP)**: A school-site employee working solely on an SWP plan approved by CDE. This is a single cost objective because for an approved SWP plan the LEA may use NCLB Title I funds in combination with some or all of its other federal funds and state and local general-purpose funds to upgrade the entire educational program in a school (Title I, Part A, Subpart 1, Section 1114).

Employees working on an SWP plan who are paid in part by federal programs that have not been combined in the SWP, and employees who work on both SWP and non-SWP plan activities, are not considered to be working in a single cost objective.

4. **School-Based Coordinated Programs (SBCPs)**: California's SBCPs combine several state categorical programs in a manner similar but not identical to an SWP. Under *Education Code* Section 52853, employees of an SWP at a school site funded from SWP and SBCP funds (assuming those are the only two funding sources) may be considered as funded by a single cost objective.

Prior to identifying the SWP and SBCP funds as a single cost objective, an LEA must ensure that the SBCP school plan includes the proposed expenditure of NCLB funds available to the school. If NCLB funds are not included, the existing SBCP school plan should be revised to include them. For SWP and SBCP funds to be considered as a single cost objective, the school must operate the
state-approved SWP in a manner consistent with the expenditure of funds available to the school under SBCP, which means that the SWP and SBCP funds must be used for the same purpose.

Essentially, for a school site to consider its SWP and SBCP funding sources as a single cost objective, the school's funding sources must be contained in an SBCP and a state-approved Title I SWP. That means that the school would use all the funds available to upgrade the entire educational program in the school. If all the funds are not available for all the students, the SBCP and SWP funding sources may not be considered a single cost objective. There may be individual NCLB funds used at an SBCP school, such as for Title I Targeted Assistance schools; however, those funds may not be considered a single cost objective unless they are included in a state-approved SWP that benefits all the pupils at the school.

5. **Combined Federal and State Awards:** An employee such as a drug prevention counselor or a special education instructional aide who is funded by a mixture of federal and/or state awards, where the services provided and the populations served are eligible and allowable under any of the awards (see the note following item 6).

6. **Combined Federal, State, and Local Awards:** An employee who is funded by a mixture of federal, state, and local resources, where the services provided and the populations served are allowable and eligible under any of the funding sources. For example, the salary of a cook working in a school cafeteria may be funded from a mix of federal funds (free or reduced-price meal reimbursement), state funds (additional reimbursement funds), and local funds (lunch sales). If the cook spends all of his or her time in the preparation and serving of school lunches, and if all of the activities performed by the cook are allowable under any of the funding sources, then the cook's activities can be considered a single cost objective.

Similarly, an aide working in a child care center is paid from child development funds, which may include federal, state, and local resources. If the aide spends 100 percent of his or her time providing child care to children that could be served under any of the funding sources, the aide's time may be considered a single cost objective.
Procedure 905  Documenting Salaries and Wages

Note: Items 5 and 6 are simplistic examples and are provided for explanatory purposes only. More complex situations may indicate multiple cost objectives rather than a single cost objective (refer to the discussion on homogeneous funding sources on page 905-2). To ensure that timekeeping efforts comply with OMB Circular A-87, LEAs need to evaluate each situation to determine the proper time documentation requirements.

Multiple Cost Objectives

When an employee works on more than one award and the activities performed may not be considered a single cost objective, the employee is considered to work on multiple cost objectives.

Following are examples of employees working on multiple cost objectives:

1. An employee provides similar services all day, but his or her position is supported by multiple federal awards that have different rules as to the eligibility of participants or allowable costs.

2. The employee works on dissimilar activities for more than one federal program, and the programs are not combined in an approved SWP.

3. The employee works on dissimilar activities for a mixture of federal and state programs, and those programs are not combined in an approved SWP.

4. The employee works on a mixture of federal and general-purpose activities that have not been combined in an approved SWP.

5. The employee is funded by more than one nonfederal program source, and one of the sources is used in meeting the cost sharing or matching requirements of federal awards.

6. The employee works on both an indirect cost activity (e.g., business services) and a direct cost activity (e.g., special projects administration or an approved SWP plan).
7. The employee works on an unallowable activity (e.g., school board) and an indirect cost activity or a direct cost activity.

Illustrations Showing Single and Multiple Cost Objectives

XYZ School has three federal categorical programs (F1, F2, and F3) that supplement the school's regular base funding. The following three illustrations show how different time documentation guidelines would apply:

Illustration A

In Illustration A, employees at XYZ School are multifunded, either by more than one federal program or by a federal program and other general-purpose revenues (regular base funding). The services provided and populations served vary by program. The school does not have an approved SWP.

Employees are considered to work on multiple cost objectives because the funding comes from two or more federal programs or from federal programs and general-purpose revenues, and the school does not have an approved SWP plan.

Illustration B

In Illustration B, XYZ School has an approved SWP plan. It has the same three federal categorical programs supplementing its regular base funding. In its SWP plan, XYZ School has combined F1, F2, and F3 and its regular base funding.
Employees that work solely at XYZ School on SWP activities are considered to work on a single cost objective because the school has an approved SWP plan that combines the funds.

**Illustration C**

In this illustration, XYZ School has an approved SWP plan and has combined its regular base funding, its three federal categorical programs (F1, F2, and F3), and its SBCP funds from two state categorical programs (S1 and S2).

Similar to Illustration B, Illustration C represents a single cost objective for employees that work solely at XYZ School on SWP or SBCP activities because the funds are combined by the SWP and SBCP.

**How to Document Federally Funded Salaries and Wages**

The cost objective(s) on which an employee works is the main factor in determining whether federal time documentation requirements can be
satisfied by a periodic personnel certification or whether the requirements
must be met through the more detailed form of a personnel activity report
or equivalent documentation.

Salaries and wages used in meeting cost sharing or matching requirements
of federal awards must also be supported by one of these methods.

Each LEA needs to determine its time documentation requirements based
on its own circumstances, and each LEA must ensure that its timekeeping
efforts comply with the requirements of OMB Circular A-87.

Periodic (Semiannual) Certification

Employees who work solely on a single federal award or cost objective
need only complete a periodic certification. Pursuant to OMB Circular
A-87, Attachment B, Section 8(h)(3), the periodic certification must:

- Be prepared at least semiannually.
- Be signed by the employee or the supervisory official having
  firsthand knowledge of the work performed by the employee.
- State that the employee worked solely on that single federal
  program or cost objective during the period covered by the
certification.

Where multiple employees work on the same cost objective, a blanket
certification may be used as the documentation for all employees who
worked on the cost objective. For example, a school with an approved
SWP may choose to prepare a blanket certification that lists all employees
that worked solely on the SWP. Because periodic certifications may be
signed by either the employee or supervisor and because the purpose of a
blanket certification is to simplify the time documentation process, the
school may choose to include only the signature of the supervisor, which
in this SWP example would be the school principal.

Sample periodic certifications are provided on pages 905-23 and 905-24.
These sample documents are very basic and may require enhancements to
meet time documentation requirements of certain programs.

Note: In accordance with the February 8, 2008 non-regulatory Title I
guidance issued by the United States Department of Education, at a
school that has consolidated every one of the school’s federal,
Procedure 905 Documenting Salaries and Wages

state, and local programs in the SWP plan, an employee who works 100% on the SWP is not required to complete a semi-annual certification because there is effectively no other cost objective at the school. At a school that has even one federal, state, or local program that is not consolidated in the SWP plan, an employee who works 100% on the SWP should complete a semi-annual certification.

Personnel Activity Report

Except as provided in "Substitute System for Time Accounting" (following), employees who work on multiple activities or cost objectives of which at least one is federal must complete a personnel activity report (PAR) or equivalent documentation (OMB Circular A-87, Attachment B, Section 8[h][4], [5], and [7]).

A PAR may be as detailed as a document that identifies the employee's activity daily by hours, or it may be as simple as a report of the total hours or percentage of hours spent in each categorical program or cost objective. The level of detail can generally be determined by the diversity and variation of the employee's work activities. The safest approach is to provide more documentation rather than less.

OMB Circular A-87 states that PARs or equivalent documentation must:

• Reflect an after-the-fact distribution of the actual activity of each employee.
• Account for the total activity for which each employee is compensated.
• Be prepared at least monthly and coincide with one or more pay periods.
• Be signed by the employee.

Budget estimates or other distribution percentages determined before the services are performed do not qualify as support for charges to federal awards, but these figures may be used for interim accounting purposes provided that:

• The LEA's system for establishing the estimates produces reasonable approximations of the activities actually performed.
Comparisons of budgeted distributions with actual costs based on the monthly activity reports are made at least quarterly. If the variances between total budgeted and total actual costs are 10 percent or more, adjustments must be made at least quarterly to the LEA’s financial records, including to billings made to federal grantor agencies. If the variances are less than 10 percent, the adjustments may be recorded annually.

The budget estimates or other distribution percentages are revised at least quarterly if necessary to reflect changed circumstances.

A sample PAR is provided on page 905-22. Note that the sample document is very basic and may require enhancements to meet time documentation requirements of certain programs.

Substitute System for Time Accounting

As an alternative to a PAR, OMB Circular A-87, Attachment B, Section 8(h)(6) allows for substitute systems of time accounting using sampling methods that meet statistical sampling standards for allocating salary and wages. Such substitute systems are subject to prior federal approval. The United States Department of Education has approved such a system for California's LEAs to use, at their option, for substantiating federal salary and wage charges for those employees working on multiple-funded activities or cost objectives.

The substitute system is intended to simplify recordkeeping for LEAs that must substantiate salary and wage charges to federal programs through the use of PARs or equivalent documentation. Unless the LEA uses this approved substitute system, PARs must be prepared at least monthly for employees working on multiple cost objectives whenever federal funds are involved.

Under the substitute system approved for California, PARs are required less frequently than monthly. Specifically, the approved substitute system allows LEAs to collect PARs from employees every fourth month (three times a year). The information from the PARs is used both to reconcile the federal timekeeping estimates from the previous three months and to estimate the percentage of time employees will spend on various federal programs in the next three months. This system works best when the composite workload produces an even distribution of salaries to accounts over the full 12-month period.
LEAs may choose any month to begin the cycle for the substitute system. Because the starting month establishes the recordkeeping cycle for the year, LEAs should choose a starting month that most accurately reflects their annual average labor cost experience.

The following is a description of the substitute system process. The description assumes that the LEA begins the substitute recordkeeping at the beginning of the fiscal year and the first PARs are collected in July.

- All multiple cost objective employees where at least one of the cost objectives is federally funded or is used in meeting cost sharing or matching requirements of federal awards must keep PARs for the full month of July to account for 100 percent of their time spent on activities for which they are compensated. From the PARs, labor distribution reports for July are generated to support effort distribution and charges for costs incurred in July and to provide the basis for employee salary and fringe benefit allocations for August, September, and October.

- In November and March, the multiple cost objective employees keep PARs that are used to:
  1. Support effort and labor costs incurred in November and March.
  2. Compare with and make any necessary adjustments to the budgeted effort distribution for August through October and December through February.
  3. Project salary and fringe benefit allocations for December through February and April through June.

- The process starts over again the following July to support incurred labor cost allocations for that month and to compare and adjust the budgeted effort distribution for April through June. Further, the July PARs start another round of labor distribution estimates for the second year.

- After the first full year on the system, LEAs may shift from collecting PARs three times a year (e.g., July, November, March) to two times a year (e.g., July, January) if the deviation between the total estimated time and total actual time charged is consistently less than 10 percent. Thereafter, the twice-yearly
PAR collection may be maintained as long as the deviation is consistently less than 10 percent.

Important rules for LEAs choosing to use the substitute system for time accounting are as follows:

1. All aspects of the substitute system must be implemented in accordance with the guidelines shown in this section. As with any time documentation method, adherence to the substitute system is subject to monitoring.

2. All multifunded employees who would otherwise be required to complete PARs (i.e., multiple cost objective employees) must participate in the substitute system. They will still complete PARs that cover the entire months being sampled, but the PAR reporting frequency is lessened from every month to only four times (or less) a year.

3. Employees funded solely (100 percent) from a single federal source or who work on a single cost objective must not participate in the substitute system because their data would distort the aggregate results of the multifunded data. Those employees must continue to prepare semiannual certifications.

As with all time documentation methods, written policies and procedures are essential to implementing an effective substitute system for time accounting. LEAs should develop forms and provide employee training before implementing the substitute system. It is suggested that a trial run be done before beginning the actual substitute system process.

The following elements should be addressed as an LEA develops and implements a substitute system for time accounting:

1. Proper completion of PARs, including how frequently PAR data must be recorded and what constitutes adequate documentation
2. Required review and approval cycle
3. Handling of completed forms
4. Internal review process to ensure compliance

Generally, this information should provide enough detail to permit an understanding of how the substitute system will operate from the point
Procedure 905  Documenting Salaries and Wages

labor is expended to the point it is recorded in the accounting records and charged to federal awards.

Documentation of Supplemental Employment Contracts

As stated previously, PARs or equivalent documentation must account for the total activity for which an employee is compensated. This would include additional hours worked as part of that activity, such as overtime. However, if an employee has a supplemental contract in addition to their regular position (e.g., a teacher during the school day and a coach after school), then each is evaluated to determine the time documentation needed.

Following are sample scenarios including supplemental employment contracts and the time documentation requirements for each:

1. **Regular contract requires time documentation but supplemental contract does not.** An employee has a regular contract to work as a Title I teacher during the school day and a supplemental contract to provide athletics coaching after school. Time documentation that includes 100 percent of the teacher's school day is required for the teaching position (either a PAR or semiannual certification, depending on the duties). The supplemental coaching position is outside the scope of the employee's regular position and, if funded from unrestricted monies, generally would not require time documentation.

2. **Both regular contract and supplemental contract require time documentation.** An employee has a regular contract to provide both Title I and basic education services during the school day, plus a supplemental contract to work as a tutor for the 21st Century Learning program after school. A PAR or equivalent documentation would be required for the regular contract because it is considered multiple cost objectives. The supplemental tutoring position is outside the teacher's regular position, but since it is paid for with federal funds, the rules for time documentation apply and a semiannual certification would be required.

Salaries and Wages Charged to State Funded Programs
**Procedure 905 Documenting Salaries and Wages**

LEAs are required to provide supporting documentation for salaries and wages charged to state restricted programs (resources). Documentation is also required for certain state unrestricted activities, such as when the activity has specific documentation requirements (e.g., state mandated programs), or when salaries and wages are charged to a specific program (goal), or when salaries and wages are split between a direct cost and an indirect cost activity (function).

As with federal programs, the level of documentation needed to charge salaries and wages to a state program or activity is predominately determined by whether the employee works on a single cost objective or on multiple cost objectives. LEAs must also take into consideration any specific documentation requirements a state program may have, such as if a program requires use of the state documented method (discussed following) or if a program has specific limitations or requirements regarding the type(s) of services provided, such as direct services to students.

**How to Document State Restricted Salaries and Wages**

In the absence of more stringent state program guidelines, when documenting salaries and wages charged to state restricted programs, LEAs may use the documentation methods described in "How to Document Federally Funded Salaries and Wages" beginning on page 905-7. These methods include monthly PARs, semiannual certifications, and the substitute system for time accounting.

When using federal methods to document state programs, LEAs will follow the single and multiple cost objective guidelines to determine the level of time documentation needed. For example, an employee who works on multiple state cost objectives will complete a PAR (or equivalent documentation) or participate in the substitute system for time accounting rather than completing a semiannual certification.

In addition to the federal time documentation methods, California also has an alternative method that LEAs may use to support salaries and wages charged to state restricted programs. This alternative method is referred to as the state documented method and is similar to the federal PAR process.

**The State Documented Method**
Procedure 905  Documenting Salaries and Wages

Salaries and wages paid from state restricted funds must have supporting documentation conforming to either the federal documentation methods or the alternative state documented method. For the state documented method to be used, the following criteria must be met:

1. The specific costs would not occur if the program being documented were discontinued.
2. The costs must be supported by auditable documentation, including time reports and contemporaneous records of activities.
3. All parts of the product or service (e.g., a position or service contract) must be documented.

Unless stated otherwise in the guidance following, personnel whose costs are being documented under the state documented method must complete an activity work sheet. The work sheet must include, as a minimum, the following elements, but additional information may be incorporated to meet local needs:

Activity Work Sheets

- Reporting frequency. An employee's activity work sheet must be completed at least monthly.

- Information to be reported. The following basic information must be recorded for each employee being documented:

  1. Name of the LEA
  2. Employee's name
  3. Employee's position title
  4. Period covered by the work sheet
  5. Signature of the employee
  6. Signature of the employee's supervisor
  7. Work activity (e.g., the name/description of the program or cost objective)

The basic activity work sheet generally provides the minimum required documentation when an employee's assignment is in support of only one program or cost objective. Additional information may be necessary in more complex situations or to meet specific program time documentation requirements.
Procedure 905   Documenting Salaries and Wages

Employees who are assigned to positions that serve more than one program should also record the following:

8. Name/description of each program or cost objective
9. Dates worked
10. Hours worked

Record only actual hours worked. These hours will be used as the basis for distribution of costs to the programs or cost objectives. Include overtime hours worked, whether paid or unpaid. Exclude time off (vacation, sick leave, and any other time off) or report it as a separate line item. Report to the nearest quarter hour any time worked that is less than one hour. Substantiation of the time spent for each program is to include, at a minimum, a summary time sheet plus contemporaneous records that detail the time spent on each task.

Following are examples of various categories of employees. Under the state documented method, costs documented to single or multiple state restricted programs require at least the following documentation:

**Program Staff.** An activity work sheet must be completed if the program employee's time is to be charged to a state restricted program. Use of an activity work sheet to report time spent in various programs means that the employee must be able to substantiate the information that is reported. This substantiation consists of contemporaneous documentation such as appointment calendars, caseload records, and notices of meetings. The LEA must retain such documentation for a minimum of three years after the year of audit.

Employees working in more than one state activity or position whose time is being documented (e.g., an employee working half-time as a project director and half-time as a psychologist) need to maintain time-accounting records for each activity. Employees working part-time in a teaching position and part-time in a support position also need to maintain an activity work sheet to record the time spent in the teaching activity and that spent in the support activity.

**Support Service Staff.** Positions providing a support service function that are charged to multiple state activities need to maintain time-accounting records for each activity. When only one program is charged, consistent and verifiable supporting documentation is still needed and may be
Procedure 905  Documenting Salaries and Wages

Salaries and wages charged to state unrestricted programs or funding sources generally do not require documentation; however, certain activities may require documentation, such as when:

- The activity has specific documentation requirements. For example, state mandated programs' parameters and guidelines identify documentation requirements applicable to each mandated program.

- An employee's time is charged to a specific instructional goal or to multiple instructional goals (see "Documenting Salaries and Wages to a Goal," following).

- An employee works on both a direct cost activity and an indirect cost activity (see Procedure 915 for information on indirect cost activities). A monthly PAR or equivalent document is required unless the employee works in a position that fits one of the "in-lieu" distributions provided on page 905-20. Documentation is required because a mixture of direct cost and indirect cost activities is considered multiple cost objectives (OMB Circular A-87, Attachment B, Section 8[h][4]).

- An employee works 100 percent on indirect cost activities. The employee may use the LEA's regular payroll documentation...
Procedure 905  Documenting Salaries and Wages

process to document his or her time as long as the payroll is approved by a responsible LEA official (OMB Circular A-87, Attachment B, Section 8[h][1-2]). The indirect cost activities should be properly identified, such as on a timesheet or in a contract or job description.

Documenting State Salaries and Wages to a Goal

As stated previously, documentation is required when charging salaries and wages to federal funds or state restricted funds. There are also instances when salaries and wages charged to state unrestricted funds must be substantiated, such as when the costs are direct-charged to an instructional goal. When documenting these unrestricted salaries and wages charged to a goal, a lesser level of documentation than that required for restricted salaries and wages may be acceptable.

The following are general guidelines and examples for documenting state unrestricted salaries and wages direct-charged to an instructional goal:

A. **Instructional Salaries and Wages**

   Instructional activities must be direct-charged to a specific goal. Generally, the class roster provides sufficient documentation for substantiating the salaries and wages of classroom teachers charged to specific goals.

   The documentation for instructional aides may be based on their assignment to teachers with class rosters or the category of students to whom they are assigned.

B. **Noninstructional Salaries and Wages**

   **Charged to a Single Goal:**
   When supported by verifiable documentation, noninstructional salaries and wages may be direct-charged to a single goal. Examples of documentation that would be adequate include the contract or job description of a school employee, such as a nurse or counselor, that specifies the category of student they will solely serve, such as special education students; or the contract or job description of a project director that specifies the category of
Procedure 905  Documenting Salaries and Wages

student served, such as Director of Adult Education or ROC/P Administrator.

If verifiable documentation does not exist, the costs should be charged to Goal 0000, Undistributed, and subsequently allocated to specific goals during the program cost accounting process (see "Allocating Support Costs Using Allocation Factors," page 910-4).

**Charged to Multiple Goals:**
Direct-charging noninstructional salaries and wages to multiple goals requires contemporaneous documentation supporting the amount of time spent on each goal.

The salaries and wages of certificated administrators in instruction-related services (functions 2100 through 2700) or certain pupil services (functions 3100 through 3160 and 3900) that are direct-charged to multiple goals are to be supported by activity work sheets (see 905-14). In many cases, documentation (e.g., time cards, personnel activity reports, or activity work sheets) already provided to substantiate the charging of salaries and wages to federal or state restricted programs is sufficient for documenting to a goal.

The salaries and wages of classified support staff should usually be distributed to the same goals and in the same ratio as for the certificated personnel to whom they report.

Noninstructional salaries and wages of personnel other than administrators may be supported by activity work sheets, current job descriptions, or employee contracts. If job descriptions or contracts are used for documentation, they must be regularly reviewed and updated to ensure that they are current and reflect the actual activities of the staff. The actual charges should be based on actual time spent on specific goals rather than on budgeted figures. In many situations, rather than charging noninstructional salaries and wages directly to specific goals, it is appropriate to charge them to Goal 0000, Undistributed, for later allocation to specific goals during the program cost accounting process, using standardized allocation factors (see "Allocating Support Costs Using Allocation Factors," page 910-5).
Charged to Multiple Resources and Goals:
Where salaries and wages are charged to multiple restricted funding sources (resources) and multiple goals, documentation provided to substantiate charging the costs to the resources (e.g., time cards, personnel activity reports, or activity work sheets) will also support charging the costs to the goals. For example:

A counselor, hired to serve all students, is paid with a combination of unrestricted resources, a special education apportionment, and a federal grant for low-income students. The activities performed by the counselor are varied and serve multiple cost objectives. As stated on page 905-8, because these are multiple cost objectives and part of this funding is federal, the salary split among these three resources must be documented by a personnel activity report or equivalent documentation. This documentation of time by resource will also serve as the documentation between goals.

A project director's salary is split among four state restricted funding sources. As discussed in "Salaries and Wages Charged to State Funded Programs," page 905-13, the salary split among four state resources must be documented by an activity work sheet, a personnel activity report, or equivalent documentation. This documentation of time by resource will also serve as the documentation between goals.

A school psychologist, under contract to serve all students, spends time doing assessment testing for special education children with existing individualized education programs (IEPs). If the salary is partially paid with special education money, the documentation of salaries split among resources will also support the split among goals. If the psychologist is paid solely with state unrestricted money but the LEA wishes to direct-charge this cost among goals, then those charges must be supported by time reports, calendars, or other documentation substantiating the actual time spent on the multiple goals.
Procedure 905  Documenting Salaries and Wages

Distributing Costs of State Programs Based on Activity Work Sheets

Monthly time documentation records (personnel activity reports, activity work sheets, time cards) for charges to state restricted programs detail the percentage of time employees spend on each activity and become the basis for the distribution of costs. In some instances the monthly documents support the charging of costs directly to programs during the year; in other instances the documents are used to distribute costs to programs periodically.

When state funds are involved, the distribution of costs to the specific programs or cost objectives may be done on a schedule that best meets local needs (e.g., monthly, quarterly, at the first or second interim budget reporting periods, or at some other periodic interval). To determine the distribution of costs, record the actual hours worked in each program or cost objective as reported on the time documentation. Determine a proration by computing a ratio of the time spent in each to the total time worked. Distribute the salary and wage costs on the basis of the computed proration. The same proration will be applied to all costs associated with the activity, including the cost of associated clerical staff.

Cost Distributions in Lieu of Time Documentation

The charging of state salaries and wages to more than one goal usually requires documentation of the time spent in each goal. Time documentation is usually also necessary when an employee works on a direct and an indirect activity. However, for salaries and wages paid from state unrestricted funds, certain standardized distributions may be used in lieu of time documentation. These standard time distributions are applicable for use only when the positions are paid from state unrestricted funds.

*County Office of Education Services to School Districts.* County offices with staff performing similar activities within the areas of County Services to Districts and county office support services may charge costs as follows:

- 50 percent to Goal 8600, County Services to Districts
- 50 percent to Goal 0000, Undistributed
County offices with county board of education staff (Function 7100) performing similar activities within the areas of County Services to Districts and county office general administrative support may charge costs as follows:

- 50 percent to Goal 8600, County Services to Districts
- 50 percent to Goal 0000, Undistributed

**Assistant Superintendents.** The costs of assistant superintendents for instruction or equivalent positions having first-line responsibility for instructional administration and for participation in district/county policy may be charged as follows:

- 50 percent to Function 2100, Instructional Supervision and Administration
- 50 percent to Function 7200, Other General Administration

**Small School Districts and Charter Schools.** Small school districts and charter schools with one person performing the functions of both the principal and the superintendent may charge costs as follows:

- 70 percent to Function 2700, School Administration
- 30 percent to Function 7100, Board and Superintendent

Small school districts and charter schools with staff performing support duties for both school administration and business office administration may charge costs as follows:

- 70 percent to Function 2700, School Administration
- 30 percent to Function 7200, Other General Administration

__________________________     _________________________
Employee                           Date

1This report must be prepared at least monthly and coincide with one or more pay periods.
2This report must account for the total activity for which each employee is compensated.
Caution:

- This sample form will work well in those situations when an employee's time spent on programs is fairly predictable and does not vary much during the month. However, for those employees whose time is unpredictable and varies significantly from day to day, a more detailed personnel activity report may be appropriate. Hourly time accounting is the method most accepted by auditors and the safest approach is always to provide more documentation rather than less.
- This sample form may not include sufficient detail to meet the time documentation requirements of specific programs, such as the requirements related to state mandated costs or the direct services to students and administrative costs under Title I, Part A and Economic Impact Aid.

_______________________________________________________   ____________
Supervisory Official³ (Signature, Printed Name, and Title)                    Date

This sample certification:
• Is for employees funded solely (100 percent) from a single cost objective charged to federal or state programs.
• May not meet certain program requirements, such as the direct services to students and administrative costs requirements of Title I, Part A and Economic Impact Aid.

Certification must be prepared at least semiannually and cover the entire period of the certification (e.g., six months for a semiannual certification).
Procedure 905  Documenting Salaries and Wages

3 A periodic certification must be signed by the employee or by the supervisory official having firsthand knowledge of the work performed by the employee(s). To maximize the intent of the blanket semiannual time certification, it is acceptable to design it with only the supervisory official's signature block.
Procedure 910  Program Cost Accounting

Program cost accounting provides a standardized method of identifying all costs of a particular program, including its instructional, support, and central administration costs. Such cost identification is integral to a meaningful cost-reporting system for use by state and local decision makers in assessing the fiscal impact of programs and projects.

In the standardized account code structure (SACS), the goal field provides the framework for program cost accounting. Throughout this section the terms "goal" and "program" are virtually interchangeable.

Direct-Charged Versus Allocated Costs

When costs are being assigned to programs, many costs are easily identifiable with a specific program and can be charged to that program's goal at the time of expenditure, especially costs that apply to a single program (e.g., an elementary classroom teacher's salary). But certain types of costs, such as support services, are often harder to identify with an individual program. LEAs may accumulate these costs in an "undistributed" cost pool (Goal 0000) for later distribution to programs.

Costs may be charged to a program using two methods:

- **Direct-Charged Costs.** Costs that are charged to a program at the time of expenditure or that are distributed from Goal 0000 to the program on the basis of specific documentation (e.g., time sheets or work orders) are referred to as direct-charged costs.

- **Allocated Costs.** Costs that are accumulated in a Goal 0000 cost pool and are subsequently distributed to programs on the basis of standard allocation factors (full-time-equivalents, classroom units, or pupils transported) are referred to as allocated costs. This usually applies to costs of support-type activities, such as instructional or school administration, pupil transportation, and plant maintenance and operations.

Although not required, LEAs may distribute the allocated costs in their general ledgers. Note: For statewide reporting and comparisons of LEA
Procedure 910  Program Cost Accounting

Program cost data, Goal 0000 costs will be distributed to programs based on LEA-supplied allocation factors (see "Allocating Support Costs Using Allocation Factors," page 910-5).

Categories of Costs

Identifying costs for program cost accounting follows a stair-step model, starting with those closest to the classroom. The categories of costs include:

- Instructional costs
- Support costs
- Central administration costs
- Other costs

**Instructional costs** relate directly to instructional programs. Examples include the salaries and benefits of teachers and instructional aides, payments for textbooks and instructional supplies, travel and conference expenses for all employees in the instructional programs, and payments for the repair, maintenance, acquisition, and replacement of instructional equipment. Instructional costs are always direct-charged to a specific goal.

**Support costs** relate to the peripheral services necessary to maintain the instructional programs, including supervision of instruction, library, classroom technology, school administration, pupil support services, plant maintenance and operations, facilities rentals and leases, and pupil transportation. Support costs may be direct-charged to a goal if proper documentation exists; but, more commonly, they are accumulated in Goal 0000, Undistributed, and subsequently allocated to programs on the basis of standardized program cost allocation factors.

**Central administration costs** are farthest removed from the classroom but are still necessary for programs to operate. These agencywide costs, including budgeting, personnel, accounting, centralized data processing, school board, and superintendent, are collected in Goal 0000, Undistributed, and then distributed proportionately to all programs on the basis of a central administrative ratio (percentage).

**Other costs**, such as debt service, transfers between agencies, and facilities acquisition and construction, are not associated with individual programs for cost accounting purposes.
Procedure 910  Program Cost Accounting

Each category of costs is necessary for instructional programs to exist and therefore should be considered when total program costs are identified. The following pages include explanations of the different cost categories and any steps necessary to distribute the costs to specific programs.

Instructional Costs

Instructional costs are identifiable with a specific goal indicating the instructional setting or group of students receiving the services. Instructional costs must always be direct-charged to a specific goal. Expenditures in the instructional functions (1000s), ancillary functions (4000s), and community service functions (5000s) are always classified as an instructional cost and must always be direct-charged to a specific goal.

Charging costs directly to a goal requires consistent and verifiable supporting documentation that indicates how the costs relate to the goal. Examples of supporting documentation for charging salaries and wages to a specific goal include identification with a position in the personnel/payroll system, time sheet information, language in a contract, or a class schedule with assigned student enrollment (see "Documenting State Salaries and Wages to a Goal," page 905-16).

Support Costs

Support costs are costs of activities conducted in support of instructional programs. They are typically charged to a common pool of costs by using Goal 0000, Undistributed, or Goal 9000, Other Local Goals. (For ease in reading the remainder of this section, goals 0000 and 9000 are intended whenever Goal 0000 is referenced.) Support costs may be direct-charged to a specific goal at the time of expenditure or may be subsequently transferred to a specific goal, provided that sufficient documentation exists (see "Documenting State Salaries and Wages to a Goal," page 905-16, and "Documenting Nonpersonnel Costs to a Goal," page 910-10). Before total program costs can be determined, any costs remaining in the "undistributed" goal must be allocated to the LEA's programs.

Costs in the following support functions may be accumulated in Goal 0000:

- Instruction-Related Services (functions 2000–2999)
- Pupil Services (functions 3000–3999, except 3700)
Procedure 910  Program Cost Accounting

- Plant Services (functions 8000–8999, except 8500)

To provide consistent, comparable LEA program cost information, a specific allocation methodology is used to distribute support costs remaining in Goal 0000. (See "Allocating Support Costs Using Allocation Factors," page 910-5.) Use of this allocated method provides a systematic way of distributing costs from Goal 0000 to programs without requiring the supporting documentation needed when the documented method is used.

Central Administration Costs

Central administration costs (CACs) are those business and administrative costs that are agencywide (e.g., accounting, budgeting, personnel, purchasing). CAC functions include:

- Board and Superintendent (functions 7100–7180)
- External Financial Audit (functions 7190–7191)
- Other General Administration (functions 7200–7600)
- Centralized Data Processing (Function 7700)

Because of the agencywide nature of central administration costs, they are neither documented to specific goals nor allocated using the factors. Rather, they are accumulated in CAC functions using Goal 0000, Undistributed, and then proportionately distributed to each program on the basis of a central administrative cost ratio.

It should be noted that central administration costs in program cost accounting are similar, but not identical, to the indirect cost pool used for calculation of the indirect cost rate. Differences include (1) counting board and superintendent costs in the CAC pool for program cost accounting but excluding it from the indirect cost pool; (2) including a minor portion of administrative maintenance and operations costs in the indirect cost pool but not in the CAC for program cost accounting; and (3) including all types of external financial audits in the CAC pool for program cost accounting but only single audit costs in the indirect cost pool.

The CAC ratio, expressed as a percentage, represents total central administration costs divided by direct-charged and allocated costs from all funds that historically benefit from the administrative services. The resulting ratio, or percentage, can then be multiplied by a program's total
Procedure 910  Program Cost Accounting

| direct-charged and allocated costs to arrive at the amount of central administration costs applicable to that program. |

"Other" Costs

"Other" costs are those costs that are not associated with a specific goal. They include the food service, enterprise, facilities acquisition and construction, and other outgo functions. For purposes of program cost accounting, these costs are kept separate, even if the agency direct-charges the costs to a specific goal in their accounting records.

Allocating Support Costs Using Allocation Factors

The benefit provided to instructional programs by a support service function varies with the type of support provided. The benefit to programs from certain support services varies in relation to the number of instructional staff receiving the support. The benefit to programs from other support services varies in relation to the amount of space occupied by the instructional program or the number of students being served.

Three cost allocation factors provide the basis for allocating to programs the different types of support service costs:

1. Full-Time-Equivalent Teachers (FTEs)
2. Classroom Units (CUs)
3. Pupils Transported (PTs)

Through a determination of the counts of each factor by program, Goal 0000 costs can be proportionately distributed to each goal.

Allocation Factors

<table>
<thead>
<tr>
<th>Full-Time-Equivalent (FTE) Teachers</th>
<th>Definition: The full-time-equivalent (FTE) teacher allocation factor is the number of full-time-equivalent teachers serving (assigned) in each instructional program (goal). An assignment is a specific responsibility, classroom assignment, or course section taught. Teachers or assistant teachers (certificated or classified) should be included in the FTE count if they carry active student registers and their services generate average daily attendance (ADA). Certificated and classified employees providing special</th>
</tr>
</thead>
</table>
education designated instruction services and carrying active student registers should also be included in the FTE count.

Full-time equivalency is determined on the basis of the number of hours (i.e., of actual instruction of students) that constitutes a full-time teaching assignment for the agency. Taking the ratio of assignment hours to the number of hours that constitutes a full-time assignment calculates the FTE.

The four common categories for assignments are:

1. **Single assignment**: A full-time teacher assigned to a single goal is counted as 1.0 FTE for that goal.

2. **Split assignment**: A full-time teacher assigned to two or more goals is split between the goals on the basis of the proportionate share of hours in each assignment. For purposes of determining the number of FTEs to be allocated to each assignment, preparation periods, supervision, noon duty, individualized educational program (IEP) assessments, and other ancillary assignments are to be disregarded in the FTE calculation. Study halls are considered a regular class assignment.

3. **Semester assignment**: A full-time teacher assigned to programs of one semester or less is counted as a 0.5 FTE. Full-time teachers assigned to programs of more than one semester are counted as 1 FTE.

4. **Part-time assignment**: Prorate, using the preceding basic definition. For example, a teacher instructing in a program on a one-fourth time basis would be counted as a .25 FTE.

Totaling the computed number of FTE teacher units determines the FTE teacher count for each instructional goal. If applicable, FTE teacher counts may also be calculated for the community services and child care and development services goals.

Include in the count those teachers who are assigned to programs operated in the district but who are not employed by the district (e.g., those in special education or regional occupational center/program classes in which the teachers are paid by the county office). These FTE counts are to be recorded in the nonagency activities educational program.

For consistency, the FTE teacher count may be developed at any time after classes have been established for the second semester. In a large district an efficient way to compile the total FTE units may be to have each administrator complete a count and then to combine the information into a composite work sheet. Care must be taken to ensure that more than one site administrator does not report the same FTE units.

**FTE Functions:** FTE factors are used to allocate costs in instruction-related functions.
# Procedure 910  Program Cost Accounting

| Classroom Units (CU) | Definition: The classroom unit (CU) allocation factor is the number of units of space occupied by each program. The CU provides a method of converting each program's square footage into a standardized allocation factor. Although the term "classroom unit" was derived from using an "average" classroom as the basis for the measurement, all types of space are included in the CU count, not just classrooms. When calculating CUs, count space that is occupied by an identifiable function or activity. If multiple programs share an area, the CU is allocated to each program on the basis of the percentage of hours the room is used by each program. Report noninstructional programs occupying space in district administration facilities as part of the district administration program. Common-use areas are considered to benefit all programs and are not included in the calculation of CUs. They include areas such as school offices, media centers, libraries, corridors, restrooms, faculty rooms, unoccupied rooms, and outdoor areas (swimming pools, ball fields). Instruction and office areas. For "people-occupied" areas, such as instruction or office space, a room that falls with the general range of 800 to 1,100 square feet counts as one (1.0) CU. Areas that fall outside this range are converted to CUs by dividing the actual square footage by 960. For example, a room occupying 1,200 square feet is 1.25 CU (1,200 divided by 960). Examples of areas converted to CUs by using 960 might include large areas, such as science labs, computer labs, multipurpose rooms, and gymnasiums; small areas, such as cubicles for speech therapy; and agencywide administration facilities. Operational areas. Buildings such as maintenance shops, warehouses, and transportation facilities generally require approximately one-third the amount of maintenance and upkeep required for spaces used for students and other services. Convert these operational areas to CUs by dividing square footage by 2,880 (960 x 3). Partially enclosed spaces, such as sheds or patios, may be excluded from the calculation. Food services. In the area of food services, only the kitchen and serving areas are counted as CUs. The eating area is considered common space and is omitted from the calculation unless other activities occur in this area. If a multipurpose room is used for part of the day for classes and part of the day as the eating area, the CUs for the portion of the day attributable to classes are assigned to the appropriate program, and the portion attributable to food services is omitted. CU Functions: CU factors are used to allocate costs in the plant services functions (8100 and 8700). |

| (2100, 2420, 2490, and 2700) and pupil services functions (3110, 3120, 3130, 3140, 3150, 3160, and 3900). |

| (2100, 2420, 2490, and 2700) and pupil services functions (3110, 3120, 3130, 3140, 3150, 3160, and 3900). |
### Procedure 910  Program Cost Accounting

| Pupils Transported (PT) | **Definition:** The pupils transported (PT) allocation factor is the number of students transported in the year, which is determined by counting the number of students in each program transported from home to school. This factor represents the number of students, not the number of trips.  

Special education pupils receiving home-to-school transportation may be counted in the special education program only if their IEPs require home-to-school transportation. Otherwise, these children will be counted as regular students. Pupils who receive home-to-school transportation to attend schools *other than their neighborhood schools* because of requirements of their IEPs should also be counted as special education PTs.  

**PT Function:** PT factors are used only to allocate costs in Function 3600, Pupil Transportation. |
|---|---|

Note: Effective 2004-05, the workstation allocation factor used during earlier stages of SACS implementation is no longer a part of program cost accounting. Costs reported in Function 7700, Centralized Data Processing, by definition should be agencywide and are a central administrative cost for program cost reporting and indirect cost purposes. Data processing costs that support instructional programs (e.g., computers in the classroom, instructional computer labs, instructional networks, library computers) should be charged to Function 2420, Instructional Library, Media, and Technology, or Function 1000, Instruction. If all data processing costs are accumulated in Function 7700 (for example, because one data processing person provides technology services for all functions), any instruction-related costs must be reclassified using Object 5710, Transfers of Direct Costs, to Function 2420 or 1000, as appropriate. Methods of determining the amount of instruction-related costs to transfer include work orders or a count of workstations.

Developing Allocation Factor Counts

Because the allocated method applies to costs that did not qualify to be distributed using the documented method, and the purpose of the allocated method is to distribute Goal 0000 costs in a standardized manner, it is important to compile complete factor counts for each instructional setting operated by the LEA. If a function (or group of functions) has costs in Goal 0000, unless specific exclusion conditions have been met, the factor counts for the function(s) must represent all programs operated by the LEA.

For each type of factor, the count should represent a point-in-time to prevent double counting. For instance, if FTE teacher counts were taken for some programs in the fall and for others in the spring, teachers that were reassigned in the interim could be inadvertently counted in more than one program.

Factor counts (FTE, CU, or PT) should be taken at a time that best represents each factor and can correspond with other uses of the same factor, such as pupil transportation counts taken for reports on the transportation program.

Excluding Factors from the Count
The allocated method of distributing support costs is based on the premise that all programs benefit to some degree from the services provided by the support programs. If a program does not benefit from a support service program or if the program has already been direct-charged for its share of the support service costs, the specific factor count (FTE, CU, PT) that corresponds to the nonbenefiting program is to be excluded (subtracted) from the factor count for that program. For example, if the Continuation Schools program was already direct-charged for costs of school administration, or if it did not benefit at all from the Goal 0000 school administration costs, then the FTE count for the Continuation Schools program would be excluded under the school administration function.

Excluding factors from the count is an exception to the standardized allocation process and requires that documentation exists to substantiate the exclusion. If an instructional program did not benefit from the services of a support program and is being excluded from a factor count, both the instructional program administrator and the administrator of the support service program should confirm the exclusion. If the exclusion is being made because the instructional program has already been direct-charged for a particular support service cost, documentation verifying this should be kept as backup to the count of allocation factors.

**Transferring Allocated Costs**

Once allocation factors have been calculated, the allocated support costs can be distributed from Goal 0000, Undistributed, to each benefiting program as part of the program cost report process. LEAs are not required to record this transfer of allocated costs in their accounting ledgers.

For those LEAs that choose to record the distribution of these costs, the following is an example where total Goal 0000 costs in Function 3140, Health Services, are distributed to specific goals on the basis of the number of FTE teachers in each instructional goal. A ratio for each instructional setting is determined by dividing the total FTEs in each goal by the total of all FTEs. In this example, this ratio is then applied to the costs in Function 3140, Health Services, and the prorated costs are distributed using Object 5710, Transfers of Direct Costs. (*Note:* The schedule of allocated costs in the program cost report shows, by goal, the amount of support costs allocated to each program. LEAs may wish to use the figures provided by their completed program cost report as the basis for their accounting entries.)
**Procedure 910  Program Cost Accounting**

| Dr      | 01-0000-0-1110-3140-5710 | $500,000    | Regular Ed, K–12 |
| Dr      | 01-0000-0-6000-3140-5710 | $100,000    | ROC/P            |
| Dr      | 01-0000-0-3200-3140-5710 | $100,000    | Continuation Schools |
| Dr      | 01-0000-0-5001-3140-5710 | $150,000    | Special Education |
| Cr      | 01-0000-0-0000-3140-5710 | $850,000    | Undistributed    |

In the example, costs have been credited to Goal 0000, Undistributed, and debited to specific goals but not to specific resources, which matches the level of detail in the program cost report.

**Documenting Salaries and Wages to a Goal**

Salaries and wages charged to a specific goal require supporting documentation indicating how the costs relate to the goal. For federal funds or state restricted funds, personnel activity reports, activity work sheets, or equivalent documentation are generally necessary. For state unrestricted funds charged to a specific goal, a lesser level of documentation may be allowable as long as it is consistent and verifiable, such as costs documented to a goal by identification with a position in the personnel/payroll system, an individual's contract, or a class schedule with assigned student enrollment.

For a complete discussion of salary and wage documentation requirements, see Procedure 905.

If supporting documentation is not available for support costs charged to activities (functions) other than instruction, ancillary services, and community services, the costs should be charged as Goal 0000, Undistributed, and subsequently distributed to specific goals on the basis of appropriate program cost allocation factors (see "Allocating Support Costs Using Allocation Factors," page 910-5).

**Documenting Nonpersonnel Costs to a Goal**

Nonpersonnel costs charged to a specific goal should be substantiated by documentation that identifies the program(s) that received the service, supply, or equipment. The dated signature of a program administrator on a tracking document acknowledging receipt of the service, supply, or equipment is usually sufficient to validate the charge.
Procedure 910  Program Cost Accounting

Program Cost Reporting

Reporting program costs to CDE involves a series of work sheets that use general ledger data from the general fund and the charter schools funds, by goal and function, plus allocation factors (FTEs, CUs, PTs) for the distribution of support costs to specific goals. These work sheets are largely automated in CDE's SACS financial data collection software.
The following is a brief description of each work sheet:

- **Schedule of Direct-Charged Costs:** Summarizes, by goal and function, costs direct-charged to a goal.

- **Schedule of Allocation Factors for Support Costs:** Provides for entering allocation factors (full-time-equivalent teachers, classroom units, pupils transported) by goal for functions with costs in Goal 0000, Undistributed, or Goal 9000, Other Local Goals. The factors entered provide the basis for allocating support costs to programs.

- **Schedule of Allocated Support Costs:** Uses information from the allocation factor work sheet to assign a proportionate share of costs in goals 0000 and 9000 to each goal that has factors.

- **Schedule of Central Administration Costs:** Summarizes central administration costs (CACs) and shows the ratio, expressed as a percentage, of CAC costs to non-central-administration costs. This CAC ratio is similar but not identical to an LEA's indirect cost rate (see Procedure 915).

- **Schedule of Other Costs:** Summarizes food service, enterprise, facilities acquisition and construction, and other outgo function costs, which for program cost accounting purposes are not associated with a particular goal.

- **The Program Cost Report:** Compiles information from the previous schedules to display total costs from the general fund and charter schools funds by goal and category (e.g., direct-charged, allocated support, central administration). Also includes an "other" costs section.
Summary of Program Cost Guidelines

The following are summarized guidelines that show for each group of functions the program cost category, guidelines for charging to goals, and program cost allocation rules.

Function and Title

1000–1999 Instruction
- Direct instructional cost.
- Must be charged directly to a specific goal; may not be charged to Goal 0000, Undistributed; Special Education instruction functions may not be charged to Goal 5001, Special Education—Unspecified.
- Costs may not be allocated.

2100–2999 Instruction-Related Services
  2100 Supervision of Instruction
  2420 Instructional Library, Media, and Technology
  2490 Other Instructional Resources
- Support cost.
- May be charged directly to a specific goal when documentation exists; or may be accumulated in Goal 0000, Undistributed.
- May be reclassified to a specific goal or more appropriate function when documentation exists.
- Allocation basis is FTE (full-time-equivalent teachers).

2700 School Administration
- Support cost.
- May be charged directly to a specific goal when documentation exists and the school site offers only one type of program; or may be accumulated in Goal 0000, Undistributed.
- Allocation basis is FTE (full-time-equivalent teachers).

3000–3999 Pupil Services
  3110 Guidance and Counseling Services
  3120 Psychological Services
  3130 Attendance and Social Work Services
  3140 Health Services
  3150 Speech Pathology and Audiology Services
  3160 Pupil Testing Services
- Support cost.
Procedure 910  Program Cost Accounting

- May be charged directly to a specific goal when documentation exists; or may be accumulated in Goal 0000, Undistributed.

Function and Title

- May be reclassified to a specific goal or more appropriate function when documentation exists.
- Allocation basis is FTE (full-time-equivalent teachers).

3600 Pupil Transportation
- Support cost.
- May be charged directly to a specific goal when documentation exists; or may be accumulated in Goal 0000, Undistributed.
- May be reclassified to a specific goal or more appropriate function when documentation exists.
- Allocation basis is PT (pupils transported).

3700 Food Services
- "Other" cost.
- Generally charged to a specific goal if proper documentation exists; otherwise, costs are accumulated in Goal 0000, Undistributed.
- Costs may not be allocated.

3900 Other Pupil Services
- Support cost.
- May be charged directly to a specific goal when documentation exists; or may be accumulated in Goal 0000, Undistributed.
- May be reclassified to a specific goal or more appropriate function when documentation exists.
- Allocation basis is FTE (full-time-equivalent teachers).

4000–4999 Ancillary Services
- Direct instructional cost.
- Must be charged directly to one of the following goals: 1110–Regular Education; 3100–Alternative Schools; 3200–Continuation Schools; 3400–Opportunity Schools; 3700–Specialized Secondary Programs; 7100–Nonagency.
- Costs may not be allocated.

5000–5999 Community Services
- Direct instructional cost.
Procedure 910  Program Cost Accounting

- Must be charged directly to one of the following goals: 7100–Nonagency; 8100–Community Services; 8500–Child Care and Development Services.
- Costs may not be allocated.
Procedure 910     Program Cost Accounting

Function and Title

6000–6999 Enterprise
- "Other" cost.
- Costs are accumulated in Goal 0000, Undistributed.
- Costs may not be allocated.

7000–7999 General Administration
   7100 Board and Superintendent
   7190 External Financial Audit—Single Audit
   7191 External Financial Audit—Other
   7200 Other General Administration
   7700 Centralized Data Processing
- Central administration cost.
- Generally accumulated in Goal 0000, Undistributed.
- Distributed proportionately to programs on the basis of the total amount of direct costs (i.e., direct-charged together with allocated) in each goal.

8000–8999 Plant Services
   8100 Plant Maintenance and Operations
   8700 Facilities Rents and Leases
   - Support cost.
   - May be charged directly to a specific goal when documentation exists; or may be accumulated in Goal 0000, Undistributed.
   - May be reclassified to a specific goal or more appropriate function when documentation exists.
   - Allocation basis is CU (classroom units).

8500 Facilities Acquisition and Construction
- "Other" cost.
- Generally accumulated in Goal 0000, Undistributed.
- Costs may not be allocated.

9000–9999 Other Outgo
   9100 Debt Service
   9200 Transfers Between Agencies
   9300 Interfund Transfers
   - "Other" cost.
   - Generally accumulated in Goal 0000, Undistributed.
   - Costs may not be allocated.
**Procedure 915  Indirect Cost Rate**

Costs of a local educational agency (LEA) can be categorized as direct or indirect. A cost's related activity (e.g., instruction, school administration, pupil transportation, fiscal services) rather than its type (e.g., salaries, benefits, books, supplies) is what determines if it is a direct or indirect cost. Direct costs can be identified with a particular instructional program or support service necessary to maintain the program, whereas indirect costs are more global in nature.

Indirect costs are those costs of general management that are agencywide. General management costs consist of expenditures for administrative activities necessary for the general operation of the LEA (e.g., accounting, budgeting, payroll preparation, personnel management, purchasing, centralized data processing). The standardized method to recover indirect costs from federal and state programs without having to time-account for the general administrative support provided to each program is referred to as the indirect cost rate process.

The indirect cost rate process in California is based on the California Department of Education's (CDE's) federally approved indirect cost plan for K–12 LEAs, which include school districts, joint powers agencies, county offices of education, and charter schools. California's plan includes specific guidelines on indirect cost components, including the indirect cost pool, base costs, and the carry-forward adjustment.

The United States Department of Education has approved the fixed-with-carry-forward restricted rate methodology for calculating indirect cost rates for California LEAs. CDE has been delegated authority to calculate and approve indirect cost rates annually for LEAs. The delegation agreement number and effective period are available in a frequently asked questions document on CDE’s indirect cost Web page at http://www.cde.ca.gov/fg/ac/ic/icrfaq.asp.

Definitions of key indirect cost terms are provided beginning on page 915-13.

**Components of the Indirect Cost Rate Calculation**

In simple terms, an indirect cost rate is determined by dividing an agency's indirect costs by the majority of its other expenditures, or base costs.
However, the realities of the calculation are much more complex. Compliance with federal indirect cost guidelines requires that specific rules must be followed when expenditures are categorized as indirect or base costs. Fortunately for California, the majority of these rules are built into the function code within the standardized account code structure.

An LEA's general ledger data, in combination with a minimal amount of supplemental data, are used to categorize the LEA's expenditures as indirect costs, base costs, or excluded costs. The indirect costs become the numerator of the calculation, and the base costs are the denominator. Certain costs, such as debt service and facility construction, are excluded entirely from the calculation.

**Numerator of the Calculation**

The numerator of the indirect cost rate calculation—the indirect cost pool—is the cornerstone of the calculation. Costs in the pool come from the general fund and the charter school special revenue and/or charter school enterprise fund. There are three components to the numerator: indirect costs, general administration's share of certain plant services costs (e.g., maintenance and operations, facilities rents and leases), and the carry-forward adjustment.

- **Indirect costs** consist of agencywide expenditures for general management (administrative) activities that are not readily identifiable with a particular program but are necessary for the overall operation of the LEA (e.g., accounting, budgeting, payroll preparation, personnel management, purchasing, warehousing, centralized data processing). Generally, only administrative costs charged to an unrestricted funding source (resources 0000–1999) are included in the indirect cost pool. An exception is made for joint powers agencies, which are often funded from a single restricted source.

- **Certain plant services costs** (e.g., heating, lighting, custodial services) are also included in the indirect cost pool, but only the portion attributable to the general administrative offices. (See "Supplemental Data" on page 915-4 for further information on determination of the administrative portion of plant services costs.)
Procedure 915 Indirect Cost Rate

The carry-forward adjustment is an after-the-fact adjustment for the difference between the indirect cost rate approved for use in a given year and the actual percentage (amount) of indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from estimated indirect costs. (See "Calculating the Rate" beginning on page 915-5 for an example that illustrates the use of the carry-forward adjustment.)

Denominator of the Calculation

Once indirect costs have been identified, the majority of the LEA's remaining costs in the general fund and charter school funds comprise the denominator of the calculation, referred to as base costs. Examples of base costs include:

- Instructional salaries and benefits.
- Program supplies.
- Contracts for instructional and support services.
- Board and superintendent services.
- Facility costs (plant maintenance and operations and facilities rents and leases), except for the minimal portion associated with the general administrative offices.

Base costs also include similar expenditures from four special revenue funds (adult education, cafeteria, child development, and foundation), the foundation permanent fund, and the cafeteria enterprise fund, because the activities in these funds generally benefit on an ongoing basis from the services provided by the LEA's general administrative offices.

Excluded Costs

Certain types of costs are distorting in nature or require relatively minimal general administrative support compared with the amount of dollars spent. Because these costs would distort the indirect cost process, they are excluded from both the numerator and denominator of the calculation of the indirect cost rate. Following are the notable categories of costs excluded from the calculation:
**Procedure 915 Indirect Cost Rate**

- **Subagreements for Services** (Object 5100), which include expenditures for subagreements and subawards pursuant to certain contracts, subcontracts, and subgrants.

- **Capital Outlay** (objects 6000–6999), which includes expenditures for items such as the acquisition of land; improvements to sites; construction or purchase of new buildings; books and media for new schools; major expansions of school libraries; and capitalized equipment.

- **Other Outgo** (objects 7000–7499) and **Other Financing Uses** (objects 7600–7699), which include expenditures for items such as tuition, excess cost payments, pass-through funds, transfers out, debt service, and transfers between funds.

- **Other Funds**, which include expenditures of certain governmental funds (e.g., deferred maintenance, capital facilities), the proprietary funds other than cafeteria, and the fiduciary funds.

For the same reasons that these costs are excluded from the calculation of the indirect cost rate, they are also excluded from pools of eligible program expenditures on which to charge indirect costs (see "Amount of Indirect Costs to Charge," page 915-7).

**Supplemental Data**

In some circumstances supplemental data may be required to accurately identify all indirect costs and to fully comply with federal indirect cost guidelines.

**Percent of administrative salaries and benefits.** Most facility costs (plant maintenance and operations and facilities rents and leases) are categorized as base costs in a restricted indirect cost rate calculation. However, the portion of facility costs attributable to the general administrative offices may be included in the indirect cost pool.

To ensure that LEAs use a standardized method of attributing facility costs associated with the general administrative offices, a "percentage of administrative salaries and benefits" factor is used in the indirect cost rate calculation. This ratio of salaries and
Procedure 915  Indirect Cost Rate

benefits for administration is used as a proxy for the ratio of space used by administration, which spares LEAs the necessity of annually calculating the space used by administration compared with each of their other programs and activities.

When the ratio is calculated, an adjustment may be required in those occasional circumstances where costs for administrative salaries and benefits are understated because certain administrative services, although performed on site, are provided by contract rather than by the LEA's own employees. If this occurs, LEAs may provide supplemental data to adjust the ratio for costs relating to such services.

The ratio of administrative salaries and benefits to other salaries and benefits is then multiplied by the costs of plant maintenance and operations and facilities rents and leases to assign to the indirect cost pool an "administrative offices" share of these facility costs.

Employment separation costs. Some costs relating to employees’ separation from service may have restrictions on how they can be charged (see Procedure 655, Employment Separation Costs).

"Normal" separation costs are unallowable as direct costs to most federal programs and possibly to some state programs. When unallowable as direct costs, they are allowed as indirect costs. Normal separation costs that are unallowable as direct costs to a restricted program are charged to the same goal, function, and object as the employee's regular salary, but they are charged to an unrestricted resource. The LEA may then provide supplemental data to include these costs in the indirect cost pool.

"Abnormal or mass" separation costs, such as retirement incentives or contract buyouts, are normally unallowable either as direct costs or indirect costs to most federal programs and possibly to some state programs. Abnormal or mass separation costs that are unallowable as direct costs to a restricted program are charged to the same goal, function, and object as the employee’s regular salary, but they are charged to an unrestricted resource. Where an LEA has incurred abnormal or mass separation costs for employees charged to the indirect cost pool (Function 7200, Other General Administration, or Function 7700, Centralized Data
Procedure 915  Indirect Cost Rate

Processing), the LEA must provide supplemental data to exclude these costs from the pool.

Calculating the Rate

The actual calculation of the indirect cost rate includes components from both the current year plus the second prior year (two years before the current period). The rate based on these data will then be used in the second subsequent fiscal year (two years after the current period). This span of time is characteristic of the fixed-with-carry-forward type of rate calculation.

The following example uses 2009-10 as the current reporting period and illustrates the fiscal years affected by the indirect cost rate calculation:

In 2009-10, indirect costs are charged to programs using an indirect cost rate that was calculated and approved using 2007-08 data as an estimate of the indirect costs that would be incurred in 2009-10. The calculated difference between the indirect costs that theoretically could be charged to programs in 2009-10 based on this approved rate, and the indirect costs actually incurred in that year (i.e., the theoretical over- or under-recovery of indirect costs), is called a carry-forward adjustment.

Then, based on the actual indirect costs and base costs incurred in 2009-10 and the carry-forward adjustment, a new indirect cost rate will be calculated for use in 2011-12.

Note that the carry-forward adjustment for over-recovered costs is calculated using either the lesser of the LEA’s approved rate for that year, or the highest rate that the LEA actually used to recover costs from any program in that year, if the rate used was less than the approved rate. The carry-forward adjustment for under-recovered costs is calculated using the LEA’s approved rate.

Where an LEA’s carry-forward adjustment is negative, and where the negative carry-forward adjustment would cause the proposed rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such

**Procedure 915  Indirect Cost Rate**

an extent that the LEA would sustain significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year.

LEAs submit their preliminary proposed indirect cost rates annually to CDE along with their unaudited actual financial statement data. An automated work sheet (Form ICR) in the financial reporting software calculates LEA indirect cost information. (See page 915-11 for an excerpt from the work sheet.) The work sheet uses both general ledger data (for indirect and base costs) and minimal amounts of supplemental data (see page 915-4).

These general ledger and supplemental data, along with certain second prior year indirect cost information, produce both a straight percentage of indirect costs (the indirect cost pool divided by base costs) and the fixed-with-carry-forward restricted indirect cost rate (the indirect cost pool, adjusted by the carry-forward calculation, then divided by base costs). The straight percentage of indirect costs is only for informational purposes and not for use in recovering indirect costs from programs. The fixed-with-carry-forward restricted indirect cost rate, once approved by CDE, is the rate that should be used to recover indirect costs.

**Using the Rate**

Approved indirect cost rates for K–12 LEAs, including charter schools, are posted online annually at [http://www.cde.ca.gov/fg/ac/ic](http://www.cde.ca.gov/fg/ac/ic), usually in early spring. The rates may be used, as appropriate, to budget, allocate, and recover indirect costs for federal programs, grants, and other assistance governed by the Office of Management and Budget (OMB) Circular A-87, the *Education Department General Administrative Regulations* (EDGAR), and the *Code of Federal Regulations* (CFR), Title 34. The rates may also be used for state programs, subject to any restrictions that may govern the individual programs.

**Indirect Cost Rates for Individual Schools**

Individual schools may use an indirect cost rate not to exceed their school district's rate (or county office of education's rate, if applicable). An exception to this is charter schools, which have separate indirect cost rate guidelines. The Web site given earlier includes a list of rates for school
districts and county offices of education that should be used by noncharter schools, together with a separate listing of charter school rates.

**Guidelines for Claiming Indirect Costs**

Specific guidelines for charging indirect costs may vary by program. The following are general guidelines for using the indirect cost rate.

- **Budgeting.** An estimate of indirect costs may be used for budgeting purposes. If a program has a set award amount, it is important to budget indirect costs that fit within the award amount rather than add them to the award amount. To do this, and assuming for this example that none of the award amount will be spent on excluded costs (see page 915-3), divide the award amount by 1.xx, where xx equals the decimal equivalent of the approved indirect cost rate, then subtract the result from the original award amount to arrive at the amount of budgeted indirect costs. For example, using 8 percent as the approved rate and $10,000 as the award amount, divide $10,000 by 1.08, equaling $9,259.26, and then subtract $9,259.26 from $10,000, equaling $740.74, which is the amount that may be budgeted for indirect costs ($9,259.26 + $740.74 = $10,000).

- **Amount of Indirect Costs to Charge.** The claiming of indirect costs must be done based on actual program expenditures rather than budget estimates. The maximum amount of indirect costs that may be charged to an award in a year is determined by multiplying the total direct costs of the award, less any excluded costs (see page 915-3), by the restricted indirect cost rate. In terms of SACS, this generally equates to totaling the program expenditures in objects 1000–5999, except Object 5100, and multiplying that total by the indirect cost rate approved for use with the program. Expenditures in objects 5100, 6000, and 7000 are excluded from the indirect cost process (both when the rates are calculated and indirect costs are claimed) because they receive only a minimal amount of general administrative support compared with the amount of dollars spent, and to include them would distort the process.

LEAs have the option of charging less than the approved rate when recovering indirect costs. However, indirect costs not claimed
under one award may not be shifted to another award unless specifically authorized by legislation or regulation.

- **Program Limitations on Charging Indirect Costs.** The approved indirect cost rate provides the starting point for charging indirect costs to a program. Funding applications or award letters should be consulted to determine whether programs limit or prohibit the claiming of indirect costs. Some of the more common limitations include:

  1. Limiting the indirect cost rate to the lesser of the LEA's approved rate or a program's capped rate.

  2. Limiting the indirect cost rate to the lesser of the LEA's approved rate or a statewide average rate, such as for the food service or adult education programs. Information on these statewide average rates is available at [http://www.cde.ca.gov/fg/ac/ic/icrfsae.asp](http://www.cde.ca.gov/fg/ac/ic/icrfsae.asp).

  3. Having an administrative cost cap that limits the combination of direct program administration and indirect costs charged to the program.

  4. Not allowing indirect costs (i.e., requiring that the entire award amount be spent on direct costs).

As a help in identifying the indirect cost rules for most programs, a SACS resource code query system is available on the Internet at [http://www2.cde.ca.gov/sacsquery/querybyresource.asp](http://www2.cde.ca.gov/sacsquery/querybyresource.asp). The data provided for each resource code (i.e., funding source) include the general guidelines for claiming indirect costs.

- **Administrative Cost Caps.** Indirect costs are usually a subset of the broader category of administrative costs (see page 915-13). A program with an administrative cost cap should be reviewed to determine what limitations there might be on the recovery of indirect costs. For example, in a program that has a 15 percent administrative cost cap that encompasses both direct program administration and indirect costs, if the LEA has already spent amounts equal to 11 percent of eligible program costs on direct program administration, then it can claim only an additional 4 percent of eligible program costs for indirect costs even if the
LEA's approved indirect cost rate is higher than 4 percent. Eligible program costs on which indirect costs can be charged are discussed on pages 915-7 and 915-9.

- **Multiple-Year Awards.** For program awards that cover more than one year, a single rate may not be used to recover indirect costs for the entire award; the indirect cost rate used must change as the year changes. For programs that follow the federal fiscal year (October 1 to September 30), the rates are applied using the state fiscal year as the basis. For example, the approved rate for the initial year is used for expenditures made October 1 through June 30, and the approved rate for the next year is used for expenditures made July 1 through September 30.

- **Eligible Funds and Costs.** The indirect cost rate is appropriate for use with only those operating funds and costs that are part of the calculation. For instance, costs in objects 1000–5999 (except Object 5100), in Fund 01 (general), funds 09 and 62 (charter schools), Fund 11 (adult education), Fund 12 (child development), funds 13 and 61 (cafeteria), and funds 19 and 57 (foundation) are part of the indirect cost rate calculation; therefore, expenditures in these fund and object combinations may generally have indirect costs charged against them. Costs in objects that are excluded from the calculation of the rate (e.g., subagreements for services, capital outlay, other outgo) and in funds excluded from the calculation (e.g., deferred maintenance, capital facilities) should not have indirect costs charged against them.

**Indirect Costs, Central Administration, and Program Administration**

For California LEAs, three cost accounting concepts are similar but not identical: indirect costs, central administration costs, and overall program administrative costs.

- **Indirect costs** in the restricted indirect cost rate calculation include agencywide general administration costs such as accounting, budgeting, payroll preparation, personnel management, purchasing, warehousing, and centralized data processing services, plus the minimal portion of facility costs (plant maintenance and operations and facilities rents and leases) spent in support of the general administration activities/offices.
Procedure 915   Indirect Cost Rate

- **Central administration costs** are a component of program cost accounting (see Procedure 910) and include indirect costs as described above, less the facility costs attributed to general administration, plus costs for the school board and superintendent.

- **Overall program administration costs**, in the context of indirect cost determinations or administrative cost caps, generally refers to administrative costs direct-charged to the program together with indirect costs charged to the program (see page 915-13). However, individual programs may have different definitions of administrative costs. There is currently no single definition that applies to all programs.

Because there are differences in the three cost pools, percentages or ratios calculated from them will differ. Although these differences could be minor, the three cost pools have unique purposes and are not interchangeable.

Transferring Indirect Costs

Specific function and object codes are defined in the standardized account code structure to aid in tracking the transfer of indirect costs between programs:

- Function 7210, Indirect Cost Transfers
- Object 7310, Transfers of Indirect Costs
- Object 7350, Transfers of Indirect Costs—Interfund

Where a program authorizes charges for administrative costs on a basis other than the indirect cost rate, the costs should not be transferred as indirect costs. They should either be charged directly to the program or transferred to the program as direct costs.

Indirect and direct cost transfers are illustrated in Procedure 615.
Procedure 915  Indirect Cost Rate

Indirect Cost Rate Work Sheet: Sample Calculation

Unless otherwise specified, expenditures are for the General Fund and Charter Schools Funds and include all goals that also contain objects 1000-5999 (certificated salaries, classified salaries, employee benefits, books and supplies, and services and other operating expenditures). Excluded from the calculation are costs of subagreements for services, capital outlay (sites and improvement of sites, buildings and improvements of buildings, capitalized equipment) and other outgo (tuition, transfers out to other LEAs, debt service).

A. Indirect Costs (numerator)

1. Other General Administration (fiscal services, personnel/human resources, central support) (Functions 7200–7600, except for portion charged to restricted resources or specific goals)

2. Centralized Data Processing (Function 7700, except for portion charged to restricted resources or specific goals)

3. External Financial Audit – Single Audit (Function 7190, except for portion charged to restricted resources or specific goals)

4. Staff Relations and Negotiations (Function 7120, except for portion charged to restricted resources or specific goals)

5. Plant Maintenance and Operations, portion relating to general administrative offices only (Functions 8100–8400, times the percentage of total salaries and benefits attributable to other general administration and centralized data processing [salaries and benefits are used as proxy for square footage attributable to general administration])

6. Facilities Rents and Leases, portion relating to general administrative offices only (Function 8700, times the percentage of total salaries and benefits attributable to other general administration and centralized data processing [salaries and benefits are used as proxy for square footage attributable to general administration])

7a. Employment Separation Costs: Normal separation costs paid from unrestricted resources on behalf of positions charged to restricted resources may be included in the indirect cost pool

7b. Employment Separation Costs: Abnormal or mass separation costs paid from unrestricted resources on behalf of general administrative positions charged to Functions 7200–7700 must be eliminated from the indirect cost pool

8. Total Indirect Costs (sum of lines A1 through A7a, minus line A7b)

9. Carry-Forward Adjustment for over- or under-recovery of indirect costs (over-recovery is subtracted, under-recovery is added)

10. Total Adjusted Indirect Costs (line A8 plus line A9)
Procedure 915    Indirect Cost Rate

B. Base Costs (denominator)

1. Instruction (Functions 1000–1999)
2. Instruction-Related Services (Functions 2000–2999)
3. Pupil Services (Functions 3000–3999)
4. Ancillary Services (Functions 4000–4999)
5. Community Services (Functions 5000–5999)
6. Enterprise (Function 6000)
7. Board and Superintendent (Functions 7100–7180, including portion of Function 7120 not included in Line A4)
8. External Financial Audit—Other (Function 7191) and Single Audit (Function 7190, portion not included in Line A3)
9. Other General Administration, portion charged to restricted resources or specific goals (Functions 7200–7600, portion not included in Line A1)
10. Centralized Data Processing, portion charged to restricted resources or specific goals (Function 7700, portion not included in Line A2)
11. Plant Maintenance and Operations, except portion relating to general administrative offices (Functions 8100–8400, except for portion included in Line A5)
12. Facilities Rents and Leases, except portion relating to general administrative offices (Function 8700, except for portion included in Line A6)
13a. Employment Separation Costs: Normal separation costs paid from unrestricted resources on behalf of positions charged to restricted resources, included in the indirect cost pool in Line A7a
13b. Employment Separation Costs: Abnormal or mass separation costs paid from unrestricted resources on behalf of general administrative positions charged to Functions 7200–7700, eliminated from the indirect cost pool on Line A7b
14. Adult Education (Fund 11, Functions 1000–6999, 8100–8400, and 8700)
15. Child Development (Fund 12, Functions 1000–6999, 8100–8400, and 8700)
16. Cafeteria (Funds 13 and 61, Functions 1000–6999, 8100–8400, and 8700)
17. Foundation (Funds 19 and 57, Functions 1000–6999, 8100–8400, and 8700)
18. Total Base Costs (sum of lines B1 through B12 and B13b through B17, minus Line B13a)
Procedure 915   Indirect Cost Rate

C. **Straight Indirect Cost Percentage** (before carry-forward adjustment) (line A8 divided by line B18)

D. **Indirect Cost Rate** (fixed with carry-forward rate for use in second subsequent fiscal year, subject to CDE approval) (line A10 divided by line B18)

*Note:* The following expenditures are excluded from the indirect cost rate calculation and therefore cannot have indirect costs charged against them when indirect costs are claimed: Subagreements for Services (Object 5100); Capital Outlay (Objects 6000–6999); Other Outgo (Objects 7000–7499); Other Financing Uses (Objects 7600–7699); Facilities Acquisition and Construction (Function 8500); and Debt Service, Transfers Between Agencies, and Interfund Transfers (Functions 9000–9999) (see page 915-8, Amount of Indirect Costs to Charge).
Procedure 915  Indirect Cost Rate

Definitions of Indirect Cost Terms

Administrative costs. Any costs, indirect or direct, that are administrative in nature and support the management of a program. Costs of program administration may encompass both direct costs (e.g., salaries of program administrators, costs of program monitoring and preparing program plans) and indirect costs (e.g., personnel/human resources, accounting, and procurement).

Pursuant to the U.S. Department of Education's Indirect Cost Determination: Guidance for State and Local Government Agencies, various education programs have statutory or regulatory limitations on the costs of administration, which can encompass both personnel and non-personnel costs and both direct and indirect costs. Therefore, the statutory or regulatory limitation applies to the combined charges for indirect costs and direct program administration costs.

Approved rate. Same as indirect cost rate.

Base costs. Pool of direct costs from the general, charter schools, adult education, cafeteria, child development, and foundation funds minus any excluded costs, such as subagreements for services, major equipment purchases, facility construction, debt service, and transfers to other agencies.

Carry-forward adjustment. An adjustment used in calculating the indirect cost rate where the difference between the estimated indirect costs and the actual indirect costs is "carried forward." The adjustment takes into account (1) the LEA's approved indirect cost rate for the year, (2) the original carry-forward amount used to calculate that rate, and (3) that year's estimated indirect costs (i.e., base costs times the approved rate).

Consistent cost treatment. Costs incurred for the same purpose in like circumstances should be treated as only direct or only indirect. A cost may not be charged to a program as a direct cost if other costs incurred for the same purpose are allocated to programs as an indirect cost.

For example, if an employee provides services that would normally be performed by the business office, the cost should be charged as an indirect cost activity (Function 7200) even if the employee spends 100 percent of
his or her time working on a particular program. This consistent cost treatment prevents a program from being charged for business office services as a direct cost and then again when indirect costs are charged to the program. However, if an employee provides supplemental services above the level provided by the business office or if he or she provides services normally required of program managers, the cost would be considered a project-related administration cost (Function 2150) rather than an indirect cost.

Direct costs. Costs that provide measurable, direct benefits to particular programs, including costs for instructional programs, and support costs that relate to the peripheral services necessary to maintain the instructional programs. Examples of direct costs include salaries and benefits of teachers and instructional aides, payments for textbooks, instructional supply purchases, and pupil service costs (e.g., counseling, health services, pupil transportation).

Estimated indirect costs. The amount of indirect costs arrived at by multiplying the base costs by the approved rate for that year.

Excluded costs. Costs excluded from the indirect cost rate calculation because the activities are distorting in nature or require relatively minimal general administrative support compared to the amount of dollars spent. For example, subagreements for services, capital outlay (sites, improvement of sites, buildings, improvement of buildings, new or major expansions of school libraries, capitalized equipment), and other outgo (tuition, transfers to other agencies, debt service, financing uses).

Fixed-with-carry-forward. For California LEAs, the restricted indirect cost rate is computed and "fixed" for a specific period on the basis of an estimate of that period's level of operations. Once the actual costs of that period are known, the difference between the estimated and actual indirect costs is "carried forward" as an adjustment to the new calculation.

Form ICR. A work sheet within CDE's financial data collection software that calculates the LEA's percentage of indirect costs and its fixed-with-carry-forward indirect cost rate.

Function code. The field in the standardized account code structure that identifies a cost's general operational area and distinguishes whether it is an indirect or base cost.
Procedure 915  Indirect Cost Rate

Indirect cost percentage. A percentage arrived at by dividing the current period's indirect costs by the base costs.

Indirect cost pool. The indirect costs of the agency together with the portion of plant maintenance and operations and facilities rents and leases spent in support of indirect cost activities (i.e., general administration offices).

Indirect cost rate (ICR). An allocation technique used to distribute indirect costs to federal, state, and local programs. The indirect cost rate is the ratio (expressed as a percentage) of the adjusted indirect costs to the direct base costs. For California LEAs, the indirect cost rate represents a fixed-with-carry-forward restricted indirect cost rate used to recover indirect costs from federal and state programs.

Indirect costs. Agencywide general management costs not readily identifiable with a particular program but necessary for the overall operation of the agency (e.g., costs of accounting, budgeting, payroll preparation, personnel management, purchasing, warehousing, centralized data processing).

OMB Circular A-87. The Office of Management and Budget (OMB) Circular A-87, titled Cost Principles for State, Local, and Indian Tribal Governments. OMB Circular A-87 includes the general cost principles that govern California's indirect cost plan and process. Note: OMB Circular A-87 was relocated August 31, 2005, to Title 2 in the Code of Federal Regulations (2 CFR), Subtitle A, Chapter II, part 225.

Restricted rate. Same as indirect cost rate.

*Accumulated depreciation accounts are contra-asset accounts that reduce the carrying value of the capital assets to which they relate. Accumulated depreciation accounts may technically be reported either as debit accounts with negative balances or as credit accounts with positive balances. For clarity of presentation and consistency of LEA data statewide, accumulated depreciation accounts shall be reported as debit accounts with their credit balances displayed as negatives.

### Nonoperating Accounts
Appendix B Normal Balances of Balance Sheet Accounts

9910 Suspense Clearing ......................................................................................Dr, Cr
A

Abatement. A complete or partial cancelation of an expenditure or revenue.

Abatement of expenditures. Cancelation of part or all of a charge previously made, usually because of refunds, rebates, resale of materials originally purchased by the local educational agency (LEA), or collections for loss or damage to the LEA’s property. An abatement of expenditure applies to current expenditures and capital outlay expenditures from all funds.

Abatement of revenue. The cancelation of all or some part of any specific revenue previously recorded.

Account group. A self-balancing set of accounts that list government's fixed assets and long-term debt and that are not otherwise a part of governmental funds.

Accounting period. A period of time for which records are maintained and at the end of which financial statements are prepared covering the period.

Account numbers or letters. Numbers and/or letters that are assigned to the ordinary titles of accounts for classification of accounts and ease of reference.

Accounts payable. Amounts due and owed to private persons, business firms, governmental units, or others for goods received and/or services rendered prior to the end of the fiscal year. Includes amounts billed but not paid. Does not include amounts due to other funds of the same LEA.

Accounts receivable. Amounts due and owed from private persons, business firms, governmental units, or others for goods received and/or services rendered prior to the end of the fiscal year. Includes amounts billed but not received. Does not include amounts due from other funds of the same LEA.

Accrual basis. That method of accounting in which revenue is recorded when earned, even though it has not yet been collected, and in which expenses are recorded when the liabilities are incurred, even if they have not been paid yet.

Accrued expenditures. Expenditures incurred during the current accounting period that are not paid until a subsequent accounting period.

Accrued revenue. Revenue earned during the current accounting period that is not collected until a subsequent accounting period.

Accumulated depreciation. A contra-asset account used to report the accumulation of depreciation. (See also Depreciation.)

Actuarial basis. A basis used in computing the amount of contributions to be made periodically to a fund so that the total contributions plus the compounded earnings thereon will equal the required payments to be made out of the fund. The factors taken into account in arriving at the amount
include the length of time over which each collection or payment is to be made and the rate of return compounded on such amounts over its life.

*Ad valorem tax.* A tax based on a percentage of the value of goods or services.

*Agency fund.* A fund consisting of resources received and held by an LEA as an agent for others.

*Allocation.* Division or distribution in accordance with a predetermined plan.

*Allowable costs.* Costs that meet the specific criteria of a granting agency.

*Allowance.* A provision for valuing an asset at net, such as an allowance for bad debts. The allowance for bad debts would be deducted from accounts receivable to reflect the receivables that are likely to be collectable.

*Apportionment.* Allocation of state or federal aid, district taxes, or other moneys among LEAs or other governmental units.

*Apportionment notice.* A document notifying LEAs when moneys were deposited with the county treasurer.

*Appraisal.* An estimate of property value made by the use of systematic procedures based on physical inspection and inventory, engineering studies, and other economic factors.

*Appropriation.* An authorization, granted by the governing board, to make expenditures and to incur obligations for special purposes. An appropriation is usually limited in purpose, amount, and the time period during which it may be expended.

*Appropriation ledger.* A subsidiary ledger containing an account for each appropriation. Each account usually shows the amount originally appropriated in the budget, budget increases or decreases during the year, expenditures, encumbrances, unencumbered balances, and other related information.

*Arbitrage.* The profit earned (i.e., interest earnings in excess of interest costs) from the investments of the proceeds of lower-interest tax-exempt securities in higher yielding taxable securities.

*Assessed valuation.* Value placed on personal and real property by a governmental unit for purposes of taxation.

*Assets.* Resources that are held or owned by an LEA and that have monetary value.

*Audit.* An examination of documents, records, and accounts for the purpose of (1) determining the propriety of transactions; (2) ascertaining whether all transactions are recorded properly; and (3) determining whether statements that are drawn from accounts reflect an accurate picture of financial operations and financial status for a given period of time.

*Audit finding.* A weakness in internal controls or an instance of noncompliance with applicable laws and regulations that is presented in the audit report.

*Audit program.* A detailed outline of work to be done and the procedures to be followed during an audit.
Glossary of Terms

Available cash. Cash that is on hand or on deposit in a given fund and that is unencumbered and can be used for meeting current obligations.

Average daily attendance (ADA). Total approved days of attendance in the LEA divided by the number of days the schools in the LEA are in session for at least the required minimum day. (Refer to Education Code Section 46300 and California Code of Regulations, Title 5, Education, sections 400–424.)

B

Balance sheet. A statement that shows the assets, liabilities, and fund balance or fund deficit of an entity at a specific date and that is properly classified to exhibit the financial condition of the entity as of that specific date.

Basis of accounting. The time at which revenues, expenditures, transfers, and related liabilities and assets are recognized in the accounts and are reported in the financial statements.

Bond. A certificate containing a written promise to pay a specified sum of money, called the face value, at a fixed time in the future, called the date of maturity, and specifying interest at a fixed rate, usually payable periodically.

Bond discount. The excess of the face value of a bond over the price for which it is acquired or sold. (The price does not include accrued interest at the date of acquisition or sale.)

Bonded debt. That portion of indebtedness represented by outstanding bonds.

Bonded debt service. Expenditures for interest and redemption of bonds.

Bond premium. The excess of the price at which a bond is acquired or sold over its face value. (The price does not include accrued interest at the date of acquisition or sale.)

Bonds authorized and unissued. Legally authorized bonds that have not been sold and that may be sold without further authorization.

Book value. The cost or stated costs of assets less accumulated depreciation as shown by the books of accounts.

Budget. A plan of financial operation consisting of an estimate of proposed revenue and expenditures for a given period and purpose. The term usually indicates a financial plan for a single fiscal year.

Budgetary accounts. Those accounts that make it possible for a budgetary-type fund (governmental fund) to show how (1) estimated revenue and revenue realized to date compare; and (2) expenditures and encumbrances compare with appropriations during the fiscal period. The budgetary accounts are estimated revenues, appropriations, and encumbrances.

Budgetary control. The management of financial transactions in accord with an approved plan of estimated revenue and expenditures.
Glossary of Terms

**Budgeting.** The process of allocating the available resources of an organization among potential activities to achieve the objectives of the organization; planning for the use of resources.

**Budget revision.** Net increases and decreases to the budget. They may include increases due to new grant funds and decreases due to the need to reduce appropriations to keep spending within available revenues.

**Budget transfer.** Changes among budgeted items. They do not increase or decrease the total budget.

C

**Capital assets.** See **Fixed assets.**

**Capital lease.** A lease agreement that meets one or more of the following criteria is classified as a capital lease:

- Ownership is transferred to the lessee at the end of the lease term.
- The agreement contains a "bargain purchase" option.
- The lease agreement is 75 percent or more of the estimated useful life of the property.
- The present value of the minimum lease payment is 90 percent or more of the fair market value of the property.

**Capital outlay.** Amounts paid for fixed assets or additions to fixed assets, including land or existing buildings, the improvements of grounds, construction of buildings, additions to buildings, remodeling of buildings, or initial and additional equipment.

**Capital projects funds.** Funds established to account for financial resources that are to be used for the acquisition or construction of major capital facilities and other capital assets.

**Cash.** Currency, checks, postal and express money orders, and bankers' drafts on hand or on deposit with an official or agent designated as custodian of cash and bank deposits. Any restriction or limitation as to the availability of cash should be indicated.

**Cash advance.** Cash apportioned in advance of the usual apportionment period.

**Cash basis.** Method of accounting in which revenue and expenditures are recorded only when cash is actually received or disbursed. The cash basis is not acceptable for use in LEAs.

**Cash collections awaiting deposit.** Receipts on hand or moneys in a bank clearing account awaiting deposit in the county treasury.

**Cash discount.** An allowance made on a purchase if payment is made within a stated period. (This term is not to be confused with **trade discount.**)

**Cash in bank.** Balances in separate bank accounts, such as student body accounts, school farm accounts, and cafeteria accounts.
Glossary of Terms

Cash in county treasury. Cash balances on deposit in the county treasury for the various funds of the LEA.

Categorical aid. Funds from state or federal sources that are in addition to the general-purpose funding to serve a specific pupil population or to provide specific services and activities. These funds have fiscal and program compliance requirements of varying degree.

Certificates of participation (COPs). A financing technique that provides long-term financing through a lease (with an option to purchase or a conditional sale agreement).

Chart of accounts. A systematically arranged list of accounts that are applicable to a specific LEA. All account names and numbers, if any, are listed in numerical order.

Check. A bill of exchange drawn on a bank and payable on demand; a written order on a bank to pay on demand a specific sum of money to a named person, to his or her order, or to a bearer out of money on deposit to the credit of the maker. A check differs from a warrant in that a warrant is not necessarily payable on demand and may not be negotiable; a check differs from a voucher in that a voucher is not an order to pay. A voucher-check combines the distinguishing characteristics of a voucher and a check; it shows the propriety of a payment and is an order to pay.

Classification. The naming or identification of an item or a category, such as the designation of the particular account into which a receipt or an expenditure is to be recorded or the separation of data into acceptable groupings so that financial facts can be stated more clearly.

Classroom unit (CU). The approximate area usually occupied by a classroom, varying from 800 to 1,100 square feet but generally about 960 square feet.

Clearing accounts. Accounts used to accumulate total receipts or expenditures for later distribution among the accounts to which such receipts or expenditures are properly allocable.

Closing entries. Entries recorded at the end of each fiscal period to transfer the balances in the revenue and expenditure (or expense) accounts to the permanent equity accounts (fund balance or retained earnings) of an accounting entity.

Code. (1) A distinguishing reference number or symbol; (2) a statement of the laws of a specific field (e.g., Education Code, Penal Code, Civil Code, and Labor Code).

Compensated absences. Absences for which compensation is paid (e.g., vacation and sick leave).

Component unit. An organization that is legally separate and for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Comprehensive Annual Financial Report (CAFR). Financial reporting consisting of three sections:

(1) introductory section (general information on the LEA's structure, services, and environment);
(2) financial section (basic financial statements and required supplementary information, together with information on individual funds and discretely presented component units not reported.
Glossary of Terms

separately in the financial statements); and (3) statistical section (trend and nonfinancial data useful in interpreting the basic financial statements).

Contingent liabilities. Items that may become liabilities as a result of conditions undetermined at a given date (e.g., guarantees, pending lawsuits, judgments and appeals, and unsettled disputed claims).

Contra account. An account to record offsetting transactions (e.g., abatements).

Contract. An agreement between two or more people or entities to do something. Contracts are usually in writing and are enforceable by law.

Contracted services. Expenditures for services rendered under contract by personnel who are not on the payroll of the LEA, including all related expenditures covered by the contract.

Control account. A summary account, usually maintained in the general ledger, in which is entered the aggregate of the debit and the credit postings to a number of identical, similar, or related accounts called subsidiary accounts. Its balance equals the sum of the balances of the detail accounts.

Cost. The amount of money or its equivalent value paid or agreed to be paid for property or services. Cost may be incurred even before money is paid; that is, as soon as a liability is assumed. Ultimately, however, money or its equivalent must be given in exchange. The cost of some property or service may in turn become part of the cost of another property or service. For example, the cost of materials will be reflected in the cost of articles made from such materials.

County School Service Fund (CSSF). A fund established to control the financial operations of county offices of education.

Credit. The right side of a double-entry posting. Credits will reduce assets and expenditures and increase liabilities, revenue, and fund balance.

Current assets. Assets that are available or can be made readily available to meet the cost of operations or to pay current liabilities.

Current expense of education. The current general fund operating expenditures of an LEA for kindergarten and grades one through twelve, excluding expenditures for food services, community services, nonagency activities, fringe benefits for retired persons, acquisition and construction of facilities, and objects 6000 and 7000.

Current liabilities. Amounts due and payable for goods and services received prior to the end of the fiscal year. Current liabilities should be paid within a relatively short period of time, usually within a year.

Current loans. Loans payable in the same fiscal year in which the money was borrowed.

Debit. The left side of a double-entry posting. A debit will increase assets and expenditures and reduce liabilities, revenue, and fund balance.
Glossary of Terms

Debt limit. The maximum amount of legally permitted debt.

Debt service. Expenditures for the retirement of debt and for interest on debt.

Debt service funds. Funds established to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Deferred revenue. Revenue received in a given period, but unearned, which is set up as a liability to be included as revenue in subsequent periods.

Deficit. The amount by which a sum of money falls short of a required amount (e.g., apportionment deficits or budget deficits).

Deficit financing. The amount to be provided when estimated expenditures exceed the estimated revenues.

Deficit fund balance. The excess of liabilities of a fund over its assets.

Deficit spending. The excess of actual expenditures over actual revenues (also referred to as an operating deficit).

Delinquent taxes. Taxes remaining unpaid after the close of the year in which levied. (See also Prior years' taxes, in most cases the preferred term.)

Depreciation. Estimated loss in value or service life of fixed assets because of wear and tear through use, elapse of time, inadequacy, or obsolescence.

Designation for economic uncertainties. See Reserve for economic uncertainties.

Direct expenses or costs. Expenses that can be separately identified and charged as parts of the cost of a product, service, or department.

Direct support charges. Charges for a support program and services that directly benefit other programs.

Disbursements. Payments by currency, check, or warrant. (The term is not synonymous with expenditures.)

Double entry. A system of bookkeeping that requires an amount credited for every corresponding amount debited. Thus, the double-entry ledger maintains equality of debits and credits.

Earned interest revenue. A sum of money received or due to be received for the use of money loaned or invested.

EDGAR (Education Department General Administrative Regulations). The regulations of the U.S. Department of Education incorporating certain circulars from the Office of Management and Budget. EDGAR is found in The Code of Federal Regulations, Title 34, parts 74, 75, 76, 77, 79, 80, 81, 82, 85, and 86. It is defined in The Code of Federal Regulations, Title 34, part 77.1.
Glossary of Terms

Employee benefits. Amounts paid by the LEA on behalf of employees. These amounts are not included in the gross salary but are over and above. They are fringe-benefit payments; and while not paid directly to employees, they are nevertheless part of the cost of salaries and benefits. Examples are (1) group health or life insurance payments; (2) contributions to employee retirement; (3) OASDI (Social Security) taxes; (4) Workers' Compensation payments; and (5) payments made to personnel on sabbatical leave.

Encroachment. The use of unrestricted moneys to support restricted program expenditures.

Encumbrances. Obligations in the form of purchase orders, contracts, salaries, and other commitments chargeable to an appropriation for which a part of the appropriation is reserved.

Enterprise funds. Funds used to account for those ongoing activities of the LEA that because of their income-producing character are similar to those found in the private sector.

Entitlement. An apportionment that is based on specific qualifications or formula defined in statute. (This term should not be used as a basis for determining how to account for unspent balances of categorical aid.)

Equity accounts. These accounts represent the difference between the assets and liabilities of a fund.

Estimated revenues. For revenue accounts kept on the accrual basis, this term designates the amount of revenue estimated to accrue during a given period regardless of whether it is all to be collected during the period.

Expendable trust fund. A trust fund in which principal and earnings may be expended.

Expenditures. The costs of goods delivered or services rendered, whether paid or unpaid, including expenses, provision for debt retirement not reported as a liability of the fund from which retired, and capital outlay.

Expenses. Charges incurred, whether paid or unpaid, for operations, maintenance, interest, and other charges that are presumed to benefit the current fiscal period. Expense accounts are used in certain trust funds and in proprietary-type funds.

F

Face value. As applied to securities, the amount stated in the security document.

Fair value of investments. The amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

Fees. Amounts collected from or paid to individuals or groups for services or for use of a school or other facility.

Fidelity bond. A form of insurance that provides for the indemnification of the LEA or other employer for losses arising from the theft or dishonesty of employees.
Glossary of Terms

Fiscal year. A period of one year, the beginning and the ending dates of which are fixed by statute. For LEAs it is the period beginning July 1 and ending on June 30.

Fixed assets. Assets of a permanent character having continuing value (e.g., land, buildings, machinery, furniture, and equipment), with a cost over the capitalization threshold set by the LEA.

Full-time-equivalent (FTE). The ratio of time expended in a part-time position to that of a full-time position. The ratio is derived by dividing the amount of time of employment required in the part-time position by the amount of employed time required in a corresponding full-time position.

Function. An act, service, or group of services proper to a person, thing, or institution and aimed at accomplishing a certain end. Under SACS, function refers to those activities or services performed to accomplish a goal.

Fund. A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accord with special regulations, restrictions, or limitations.

Fund balance. The difference between assets and liabilities. The fund equity of governmental and trust funds.

G

General fund. The fund used to finance the ordinary operations of the LEA. It is available for any legally authorized purpose.

General journal. A book of original entry for all entries of financial transactions that are not recorded in a special journal, such as a cash receipts journal, a voucher register, or a cash disbursements journal.

General ledger. A book, file, or other device that contains the accounts needed to reflect, in summary and in detail, the financial position, the results of financial operations, and the changes in equities of a fund or an account group used by an LEA.

General long-term debt. Long-term debt that is legally payable from general revenue and backed by the full faith and credit of an LEA.

Generally accepted accounting principles (GAAP). Uniform minimum standards of, and guidelines to, financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. These principles encompass the conventions, rules, and procedures necessary to define accepted accounting practices and procedures. Generally accepted accounting principles provide a standard by which to measure financial presentations. The primary authoritative source on the application of these principles to state and local governments is the Governmental Accounting Standards Board (GASB).
Glossary of Terms

Generally accepted auditing standards (GAAS). Measures of the quality of the performance of auditing procedures and the objectives to be attained through their use. The standards are concerned with the auditor's professional qualities and with the judgment exercised in the performance of an audit. Generally accepted auditing standards are established by the American Institute of Certified Public Accountants (AICPA).

Generally accepted governmental auditing standards (GAGAS). Generally accepted auditing standards for government are established by the U.S. Government Accounting Office in Standards and Procedures for Audits of Governmental Organizations, Programs, Activities, and Functions.

Gift. Anything of value received from any source for which no repayment or service to the contributor is expected.

Goal. Under SACS a goal defines an objective or a set of objectives for the LEA. It is used to account for the cost of instruction and other services by the instructional goals and objectives of an LEA.

Governmental Accounting Standards Board (GASB). The organization established to issue standards of financial accounting and reporting with respect to activities and transactions of state and local governmental entities. It is the successor organization to the National Council on Governmental Accounting (NCGA).

Grade level. Assigned classification of students according to age and school progress (e.g., kindergarten or first grade).

Grant. A contribution, either in money or material goods, made by one governmental entity to another. Grants may be for specific or general purposes. (This term should not be used as a basis for determining how to account for unspent balances of categorical aid.)

Grants-in-aid. See Grant.

H

Holding accounts. Suspense accounts that are used temporarily to accumulate costs that will ultimately be charged to other user programs.

I

Income. A term used in accounting for a proprietary-type fund to represent the excess of revenues earned over the expenses incurred in carrying on the fund's operations. The term income should not be used in lieu of revenue in governmental-type funds.

Indirect cost. Elements of cost necessary in the operation of the LEA or in the performance of a service that are of such nature that the amount applicable to each accounting unit cannot be determined readily and accurately or for which the cost of such determination exceeds the benefit of the determination. It consists of those business and administrative costs that benefit the entire LEA (e.g., accounting, budgeting, personnel, purchasing).
Indirect cost rate (ICR). A method for claiming reimbursement of indirect costs from federal and state categorical funds. It is the ratio (expressed as a percentage) of the indirect costs to direct base costs.

Indirect support charges. Charges for routine services not performed as a special service for a particular program but allocated to user programs.

In lieu of taxes. Revenue to replace the loss of tax revenue resulting from property that is exempted from taxation.

Interest. A fee charged to a borrower for the use of money.

Interfund accounts. Accounts in which transactions between funds are reflected.

Interfund transfers. Money that is taken from one fund under the control of the governing board and added to another fund under the board's control. Interfund transactions other than loans, quasi-external transactions, and reimbursement. Interfund transfers are not revenues or expenditures of the LEA. (See also Operating transfers or Residual equity transfers.)

Interim borrowing. (1) Short-term loans to be repaid from general revenues during the course of a fiscal year; (2) short-term loans in anticipation of tax collections or bond insurance.

Interim reports. Reports prepared as of a date or a period during the fiscal year. They include budgetary estimates, financial transactions during current year-to-date, and end-of-year projections.

Internal audit. An appraisal activity within an LEA that (1) determines the adequacy of the system of internal control; (2) verifies and safeguards assets; (3) determines the reliability of the accounting and reporting system; (4) ascertains compliance with existing policies and procedures; and (5) appraises the performance of activities and work programs.

Internal control. A plan of organization under which employees' duties are so arranged, and records and procedures so designated, as to provide a system of self-checking, thereby enhancing accounting control over assets, liabilities, revenue, and expenditures. Under such a system the employees' work is subdivided so that no single employee performs a complete cycle of operation. Such procedures call for proper authorization by designated officials.

Internal service funds. Funds created to render services on a cost-reimbursement basis to other organizational units of the LEA. Such funds are generally intended to be self-supporting.

Inventory. A detailed list showing the quantities and a description of the property on hand at a given time. It may also include units of measure, unit prices, and values.

Investments. Usually, securities and real estate held for the purpose of generating revenues, such as interest, dividends, or rental payments.

Invoice. An itemized statement of charges for merchandise sold or services rendered to the purchaser.
Glossary of Terms

*Job account.* An account established to record the accumulation of costs of a specific piece of work; work orders showing charges for material and labor used.

*Journal.* Any accounting record in which the financial transactions of an LEA are formally recorded for the first time (e.g., the cash receipts book, check register, and general journal).

*Journal voucher.* A form provided for the recording of certain transactions or information in place of, or supplementary to, the journal or registers.

*Judgments.* Amounts due to be paid or collected by the LEA as the result of court decisions.

*L*

*LEA.* See Local educational agency.

*Lease-purchase agreements.* Contractual agreements which are termed "leases" but which in substance amount to purchase contracts.

*Levy.* The imposition of taxes or special assessments for the support of governmental activities; also, the total amount of taxes, special assessments, or service charges imposed by a governmental unit.

*Liabilities.* Legal obligations (with the exception of encumbrances) that are unpaid.

*Line-item budgeting.* A budget system emphasizing a "balanced budget" through comparison of estimated revenues with projected expenditures. Budgetary divisions are listed by organizational units, such as departments or activities, and expenditures are divided into major categories of personal services, contracted services and supplies, and capital outlay. For budgetary control, further breakdowns of expenditures are made through detailed object accounts based on the wide range of services, supplies and equipment.

*Local educational agency (LEA).* Typically, a local school district, county office of education, or joint powers agreement entity engaged in providing educational services.

*Long-term debt.* Debt that matures more than one year after the date of issuance.

*M*

*Management's discussion and analysis (MD & A).* The narrative introducing the financial statements and providing an analytical overview of the LEA's financial performance for the year. It should contain sufficient information for users of the financial statements to evaluate whether the financial position of the LEA has improved or deteriorated as a result of the year's activities.

*Modified accrual basis.* The accrual basis of accounting adapted to the governmental fund type. Under it, revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. Most expenditures are recognized (recorded) when the related liability is incurred.
Glossary of Terms

Multiyear financial plan. A plan that presents financial estimates of programs in tabular form for a period of years. These estimates reflect the future financial impact of current decisions. The data in the plan should be organized along the lines of the program structure.

N

Net income. A proprietary fund's excess of revenues and operating transfers in over expenses and operating transfers out.

Not-for-profit organization (NPO). An entity that meets the definition in the Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards No.116, Accounting for Contribution Received and Contribution Made. An entity with the following characteristics that separates it from a business enterprise:

- It receives contributions of significant amounts of resources from providers who do not expect a commensurate or proportionate pecuniary return.
- Its operating purposes are other than to provide goods or services at a profit.
- Unlike business enterprises, it does not have an interest in ownership.

O

Object. As used in an expenditure classification, object applies to the article purchased or to the service obtained.

Obligations. Amounts that the LEA may be legally required to meet from its resources. They include not only actual liabilities but also unliquidated encumbrances.

Operating transfers. All interfund transfers other than residual equity transfers.

Order (for payment). A written demand by the governing board of an LEA requiring the county superintendent of schools to draw his or her requisition on the county auditor for the payment of a claim against the LEA.

Other financing sources. Governmental fund general long-term debt proceeds, operating transfers in, and material proceeds of fixed asset dispositions. Such amounts are classified separately from revenues.

Other financing uses. Governmental funds' operating transfers out. Such amounts are classified separately from expenditures.

Overdraft. The amount by which checks, drafts, or other demands for payment on the treasury or on a bank account exceed the amount of the balance on which they are drawn; or the amount by which encumbrances and expenditures exceed the appropriation to which they are chargeable.

Overhead. See Indirect cost.
Glossary of Terms

P

Payroll register. A document accompanying one or more orders on a fund of an LEA for the payment of salaries or wages to employees; contains the names of such employees and provides information substantiating such orders.

Payroll warrant. A document used as an order or a requisition on a fund of an LEA for the purpose of paying salaries or wages.

Perpetual inventory. A system whereby the inventory of units of property at any date may be obtained directly from the records without resorting to an actual physical count. A record is provided for each item or group of items to be inventoried and is divided to provide a running record of goods ordered, received, and withdrawn and the balance on hand in units and cost.

PERS. Public Employees' Retirement System. Unless exempted by state law, classified employees, their district, and the state contribute to this retirement fund.

Personal property. All property except real property. (See also Real property.)

Petty cash. A sum of money set aside for the purpose of making change or immediate payments of small amounts. (See also Revolving cash fund.)

Physical inventory. The annual physical count of an LEA's inventory. This count is often taken at the end of the year and observed by the LEA's auditors. Periodically, physical inventories are conducted to test the accuracy of the perpetual inventory records.

Posting. The act of transferring to an account in a ledger the data, either detailed or summarized, contained in a book of original entry.

Prepaid expenses. Expenditures for which payment has been made but for which benefits have not been realized as of a certain date (e.g., prepaid rent, prepaid interest, and premiums on unexpired insurance).

Prior years' taxes. Taxes collected within the current fiscal year for levies in previous fiscal years.

Program. A group of related activities that operate together to accomplish specific purposes or objectives.

Program cost accounting. A method to identify program costs in a standard manner. Under SACS the goal field provides the framework for program cost accounting.

Program structure. The hierarchical arrangement of programs that represents the interrelationship of activities to goals and objectives. The program structure contains categories of activities with common outputs and objectives. Programs may cut across existing departments and agencies.

Project year. A field in SACS that is used to distinguish the activities of the same grant with different project years within the fiscal year. In most cases the grant is a federal one; however, in some instances, state grants have different years.
**Glossary of Terms**

*Prorating.* The allocating of expenditures or revenue from a single source to two or more accounts to show the correct distribution of charges or revenue.

*Purchase order.* A document issued to a vendor that authorizes the delivery of specified merchandise or the performance of certain services and the making of a charge for them.

**R**

*Real property.* Property consisting of land, buildings, minerals, timber, landscaping, and all improvements thereto.

*Rebate.* See *Abatement or Refund*.

*Receipts.* Cash received.

*Reclassification.* Redesignation of the current year's revenue or expenditure items previously posted to one account and later determined to be more properly charged to a different account.

*Refund.* An amount paid back or credit allowed because of an overcollection.

*Registered warrant.* A warrant that is registered by the county treasurer for future payment because of a present lack of funds and that is to be paid with interest in the order of its registration.

*Registers.* A listing of transactions of like kind that may be totaled and summarized for convenience in posting (e.g., payroll registers, warrant registers, and attendance registers).

*Reimbursement.* Cash or other assets received as a repayment of the cost of work or services performed; or repayment of expenditures made for or on behalf of another governmental unit, fund, or department.

*Requisition.* A document submitted initiating a purchase order to secure specified articles, services, or issuance of materials from stores or a warehouse.

*Reserve for economic uncertainties.* The portion of the fund balance that has been designated (set aside) by the governing board to provide for emergencies or economic events, such as revenue shortfalls, that could not be anticipated.

*Reserve for encumbrances.* An account used to segregate a portion of a fund balance for outstanding encumbrances.

*Residual equity transfers.* Nonrecurring or nonroutine transfers of equity between funds of the LEA (e.g., transfers of residual balances of discontinued funds to the general fund or contribution of internal service fund capital by the general fund).

*Resource.* A field in SACS that is used to classify revenues and resulting expenditures in accord with restrictions or special reporting requirements placed on either aspects of LEA financial activities by law or regulation. Further, because such revenues frequently are not fully expended within a fiscal year, and related liabilities are not completely liquidated, the resource code is also to reflect restrictions and special reporting obligations on balance sheet accounts.
Glossary of Terms

Restricted funds. Money whose use is restricted by legal requirement or by the donor.

Revenues. The increases in a fund's financial resources other than from interfund transfers or debt issue proceeds. Revenues are the primary financial resource of a fund. Revenues are recognized when assets are increased without increasing liabilities or incurring an expenditure reimbursement.

Revolving cash fund. An account used primarily for emergency or small disbursements and reimbursed periodically through properly documented expenditures, which are summarized and charged to proper accounting classifications.

S

Schedules. Explanatory or supplementary statements that accompany the balance sheet or other financial statements.

Secured roll. Assessed value of real property, such as land, buildings, secured personal property, or anything permanently attached to land, as determined by each county assessor.

Securities. Bonds, notes, mortgages, or other forms of negotiable or nonnegotiable instruments.

Serial annuity bonds. Serial bonds in which the annual installments of bond principal are so arranged that the combined payments for principal and interest are approximately the same each year.

Serial bonds. Bonds whose principal is repaid in periodic installments over the life of the issue.

Shared revenue. Revenue that is levied by one governmental unit but that is shared, usually in proportion to the amount collected, with another unit of government or class of governments.

Short-term debt. Debt with a maturity of one year or less after the date of issuance. Short-term debt usually includes bond anticipation notes payable and tax and revenue anticipation notes (TRANs) payable.

Source document. Any voucher, invoice, or other data that support an entry in the accounting records.

Special revenue funds. Funds established to account for the proceeds from specific revenue sources that are restricted or committed to finance particular activities other than capital projects or debt service and not held in trust for other individuals or entities.

Standardized account code structure (SACS). A uniform, comprehensive, and minimum chart of accounts for classifying the financial activities of California LEAs.

Statements. (1) In a general sense, all of those formal written presentations that set forth financial information; (2) in technical accounting, those presentations of financial data that show the financial position and the results of financial operations of a fund, a group of accounts, or an entire LEA for a particular accounting period.

State School Fund. A special revenue fund within the State Treasury used for apportionments to school districts and county offices of education on the basis of the revenue limit and certain other
Glossary of Terms

special-purpose apportionments. Apportionments are made by the State Controller and are based on certifications from the Department of Education.

Stores. Goods that are on hand in storerooms and that are subject to requisition.

STRS. State Teachers' Retirement System. State law requires certificated employees, school districts, and the state to contribute to this retirement fund.

Student body fund. An agency fund to control the receipts and the disbursements of student associations' activities; it consists only of assets and liabilities.

Subsidiary ledger. A supporting ledger consisting of a group of accounts, the total of which is in agreement with a control account (e.g., payroll ledger and appropriations ledger).

Subvention. Provision of assistance or financial support, usually from a superior governmental unit; a grant.

Supply. An item of an expendable nature that is consumed, wears out, or deteriorates in use; or one that loses its identity through fabrication or incorporation into a different or more complex unit or substance.

Surety bond. A written promise to pay damages or to indemnify against losses caused by the party or parties named in the document, through nonperformance or through defalcation (e.g., a surety bond given by a contractor or by an official who handles cash or securities).

Suspense account. An account that temporarily carries charges or credits pending the determination of the proper account or accounts.

T

Tax and revenue anticipation notes (TRANs). Notes issued in anticipation of collection of taxes, usually retirable only from tax collections and frequently only from the proceeds of the tax levy whose collection they anticipate.

Tax liens. Claims by governmental units on properties for which taxes levied remain unpaid.

Tax rate. The amount of tax stated in terms of a unit of the tax base.

Tax rate limit. The maximum rate of tax that a governmental unit may levy.

Tax redemption. Proceeds from the sale of tax-delinquent property.

Tax relief subventions. Funds ordinarily paid to compensate for taxes lost because of tax relief measures.

Tax roll. The list showing the amount of taxes levied against each taxpayer or property.

Taxes. Compulsory charges levied by a governmental unit for the purpose of financing services performed for the common benefit.

Taxes, protested. Tax money paid under protest and held by the county auditor pending settlement of the protest.
Glossary of Terms

**Taxes receivable.** An asset account representing the uncollected portion of taxes levied.

**Term bond.** A bond whose entire principal matures on a single date.

**Trade discount.** A reduction of the list price, usually expressed as a percentage and related to the volume of business transacted. (The term is not to be confused with *Cash discount.*)

**Transfer.** Interdistrict or interfund payments or receipts not chargeable to expenditures or credited to revenue. (See also *Budget transfer.*)

**Trial balance.** A list of the balances of the accounts in a ledger kept by double entry, with the debit and credit balances shown in separate columns. If the totals of the debit and credit columns are equal or if their net balances agree with a control account, the ledgers from which the figures are taken are said to be "in balance."

**Trust fund.** A fund used to account for assets held by a government in a trustee capacity for individuals, private organizations, other governments, and/or other funds.

**Tuition.** An amount charged for educational services provided to a student.

**U**

**Unaudited actuals.** An annual statement reporting the financial activities of the LEA in which the data are not yet audited.

**Unencumbered balance.** That portion of an appropriation or allotment not yet expended or obligated.

**Unit cost.** The total expenditure for a product, program, or service divided by the total quantity obtained or some other quantitative measure (e.g., the total expenditure for desks divided by the number of desks equals the cost per desk).

**Unrealized revenue.** Estimated revenue less revenue received to date; also, the estimated revenue for the remainder of the fiscal year.

**Unsecured roll.** Assessed value of personal property other than secured property.

**V**

**Voucher.** A written document which evidences the propriety of transactions and usually indicates the amounts that are to be recorded.

**W**

**Warrant.** A written order, drawn by the LEA's governing board or its authorized officer(s) or employee(s), approved by the county superintendent of schools and allowed by the county auditor, directing the county treasurer to pay a specified amount to a designated payee.
Glossary of Terms

**Warrants payable.** The amount of warrants issued, outstanding, and unpaid.

**Withholding.** The process of deducting from a salary or wage payment an amount, specified by law or regulation, representing the individual's estimated federal or state income tax that the employer must pay to the taxing authority.

**Work in process.** The value of partially completed products manufactured or processed, such as a partially completed printing job.

**Work order.** A written authorization for the performance of a particular job containing a description of the nature and location of the job and specifications for the work that is to be performed. Such authorizations are usually assigned job numbers, and provision is made for accumulating and reporting labor, material, and other costs.

**Work station.** Computer, personal computers, or work areas assigned for data processing purposes.
SUMMARY OF THE ISSUE(s)
Each local educational agency (LEA) must submit a complete and accurate Consolidated Application (ConApp) each fiscal year in order for the California Department of Education (CDE) to send funding to LEAs for any or all of the categorical funds contained in the ConApp for which they are eligible. The ConApp is the annual fiscal companion to the LEA Plan. The State Board of Education (SBE) is asked to annually approve the ConApps for approximately 1,535 school districts, county offices of education, and direct-funded charter schools.

RECOMMENDATION
The CDE recommends that the SBE approve the 2011–12 Consolidated Applications (ConApps) submitted by LEAs in Attachment 1.

BRIEF HISTORY OF KEY ISSUES
Each year, the CDE, in compliance with California Code of Regulations, Title 5, Section 3920, recommends that the SBE approve applications for funding Consolidated Categorical Aid Programs submitted by LEAs. Prior to receiving funding, the LEA must also have a SBE-approved LEA Plan that satisfies the SBE’s and CDE’s criteria for utilizing federal and state categorical funds.

Approximately $2.9 billion of state and federal funding is distributed annually through the ConApp process. The 2011–12 ConApp consists of six federal programs and only one state-funded program. The state funding source is Economic Impact Aid (which is used for State Compensatory Education and/or English learners). The federal funding sources include:
• Title I, Part A Basic Grant (Low Income);
• Title I, Part D (Delinquent);
• Title II, Part A (Teacher Quality);
• Title III, Part A (Immigrant);
• Title III, Part A (Limited English Proficient Students); and
• Title VI, Part B (Rural, Low-Income).

The CDE provides the SBE with two levels of approval recommendations. Regular approval is recommended when an LEA has submitted a correct and complete ConApp, Part I, and has no compliance issues or is making satisfactory progress toward resolving one or two noncompliant issues that are less than 365 days. Conditional approval is recommended when an LEA has submitted a correct and complete ConApp, Part I, but has one or more noncompliant issues that is/are unresolved for over 365 days. Conditional approval by the SBE provides authority to the LEA to spend its categorical funds under the condition that it will resolve or make significant progress toward resolving noncompliant issues. In extreme cases, conditional approval may include the withholding of funds.

Attachment 1 identifies the LEAs that have no outstanding noncompliant issues or are making satisfactory progress toward resolving one or two noncompliant issues that is/are unresolved for less than 365 days. The CDE recommends regular approval of the 2011–12 ConApp for these 1,516 LEAs. Attachment 1 also includes ConApp entitlement figures from school year 2010–11 because the figures for 2011–12 have not yet been determined. Fiscal data are absent if an LEA is new or is applying for direct funding for the first time.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

For fiscal year 2010–11, the SBE approved ConApps for 1,535 LEAs. Attachment 1 represents the first set of 2011–12 ConApps presented to the SBE for approval.

FISCAL ANALYSIS (AS APPROPRIATE)

The CDE provides resources to track the SBE approval status of the ConApps for more than 1,500 LEAs. The cost to track the noncompliant status of LEAs related to programs within the ConApp is covered through a cost pool of federal funds and Economic Impact Aid funds. CDE staff communicates with LEA staff on an ongoing basis to determine the evidence needed to resolve issues, reviews the evidence provided by LEA staff, and maintains a tracking system to document the resolution process.

ATTACHMENT(S)

Attachment 1: Consolidated Applications (ConApp) List (2011–12) - Regular Approvals (53 pages)
Consolidated Applications (ConApp) List (2011–12) – Regular Approvals

The following local educational agencies (LEAs) have submitted a correct and complete ConApp, Part I, and have no compliance issues or are making satisfactory progress toward resolving one or two noncompliant issues that are less than 365 days. The California Department of Education recommends regular approval of these applications.

### RECOMMENDATION

The California Department of Education (CDE) recommends that the State Board of Education (SBE) take the following actions:

- Approve the Final Statement of Reasons;
- Adopt the proposed regulations;
- Direct the CDE to submit the rulemaking file to the Office of Administrative Law (OAL) for approval; and
- Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In May 2011, the SBE took action to begin the rulemaking process for the adoption of regulations pursuant to California *Education Code (EC)* Section 52052.1 that would allow test scores and other accountability data of enrolled pupils who were referred by the school and/or school district of residence to an alternative education program (AEP) be included in the Academic Performance Index (API) of the school and school district of residence. The 45-day public comment period for the proposed regulations closed on July 11, 2011.
SUMMARY OF KEY ISSUES

The CDE received no public comments on the proposed regulations during the 45-day public comment period. No amendments or edits have been made to the proposed regulations.

FISCAL ANALYSIS (AS APPROPRIATE)

The Economic and Fiscal Impact Statement was previously submitted in the May 2011 Agenda, and no fiscal impact was indicated.

ATTACHMENT(S)

Attachment 1: Final Statement of Reasons (1 Page)

Attachment 2: Proposed California Code of Regulations, Title 5, Sections 1039.2 and 1039.3 (4 Pages)
FINAL STATEMENT OF REASONS
INCLUSION OF ALTERNATIVE EDUCATION PROGRAM ACCOUNTABILITY
RESULTS IN THE ACADEMIC
PERFORMANCE INDEX

UPDATE OF INITIAL STATEMENT OF REASONS

The original proposed text was made available for public comment for at least 45 days from May 27, 2011, through July 11, 2011. No written comments were received during that period.

A public hearing was held at 9:00 a.m. on July 11, 2011, at the California Department of Education. There were no comments made at the public hearing.

No changes were made to the regulations.

ALTERNATIVES DETERMINATION

The State Board of Education has determined that no alternative would be more effective in carrying out the purpose for which the regulation is proposed or would be as effective and less burdensome to affected private persons than the proposed regulation.

LOCAL MANDATE DETERMINATION

The proposed regulations do not impose any mandate on local agencies or school districts.

SUMMARY AND RESPONSE TO COMMENTS RECEIVED DURING THE INITIAL NOTICE PERIOD OF MAY 27, 2011 THROUGH JULY 11, 2011, INCLUSIVE.

No comments were received.

Title 5. EDUCATION
Division 1. California Department of Education
Chapter 2. Pupils
Subchapter 4. Statewide Testing of Pupils and Evaluation Procedures
Article 1.8. Inclusion of Alternative Education Program Accountability Results and Middle School Dropouts in the Academic Performance Index (API)

§ 1039.2. Definitions.
For purposes of this Article, the following terms shall have the following meanings unless the context indicates otherwise:

(a) “Alternative education program (AEP)” means a school that is eligible for the Alternative Schools Accountability Model (ASAM) and/or an independent study program within a local educational agency (LEA).

(1) Schools eligible for the ASAM include continuation, district and county community day, opportunity, county community, juvenile court, and California Education Authority, Division of Juvenile Justice schools, and others as identified in the ASAM Alternative School of Choice and Charter School Application. This document, located at http://www.cde.ca.gov/ta/ac/am/documents/altapplication.doc, is hereby incorporated by reference.

(b) “Continuously enrolled” for the purposes of Education Code section 52052(a)(4)(C) and this Article means a pupil who was enrolled in the same school, school district, or county office of education with no gap in enrollment of more than 30 consecutive calendar days.

(1) Test scores shall be assigned to the API of a school or LEA if the pupil is continuously enrolled at that school or LEA between the first Wednesday in October through the first day of testing of the academic year.

(2) For purposes of determining if a fall (August through December) test taker on the California High School Exit Examination (CAHSEE) is continuously enrolled, enrollment
between the first Wednesday in October of the prior school year and date of the
CAHSEE examination shall be used.
(c) “Correctional or judicial officials” includes probation officers.
(d) “Local educational agency (LEA)” means a school district or county office of
education.
(e) “Other accountability data” means the dropout rate that is added to the API
pursuant to Education Code section 52052.1(a)(3).
(f) “Referred by the school or school district of residence” includes, but is not limited
to the voluntary transfer of a pupil to an independent study program or to an AEP
charter school.
(g) “School district of residence” means the LEA of the last non-AEP school in which
the pupil was enrolled.
(h) “School of residence” means the last non-AEP school the pupil attended.
(i) “Test scores” means results of standardized state-wide tests included in the API.

NOTE: Authority cited: Sections 33031 and 52052, Education Code. Reference:
Sections 51745, 52052, 52052.1 and 60851, Education Code.

§ 1039.3. Criteria for Assigning Pupil Accountability Results to the School and
School District of Residence API.
(a) Test scores and other accountability data shall be assigned to the school and/or
school district of residence for each fiscal year in accordance with annual API
calculations.
(b)(1) If a pupil was continuously enrolled pursuant to this Article in the AEP, the
pupil’s test scores shall be assigned to the AEP’s API for that year.
(2) If the pupil was continuously enrolled pursuant to this Article in the LEA of the
AEP in the current year, the pupil’s test scores shall be assigned to the LEA API for that
year.
(c) If a pupil was referred by the school or school district of residence to an AEP
school and the pupil was not continuously enrolled pursuant to this Article in the AEP in
the current year, the pupil’s test scores shall be assigned to the API of the pupil’s school
of residence for that year under either of the following circumstances:
(1) The pupil was enrolled in the school of residence at the start of the current year; subsequently enrolled in an AEP; and either stayed at the AEP, returned to the school of residence, enrolled in another AEP school, or dropped out without being continuously enrolled pursuant this Article in any school.

(2) The pupil was enrolled in an AEP school at the start of the current year; subsequently enrolled in the school of residence for over 30 consecutive calendar days; and either stayed at the school of residence, returned to the AEP, enrolled in another AEP school, or dropped out without being continuously enrolled pursuant to this Article in any school.

(d) If a pupil was referred by the school or school district of residence to an AEP school and the pupil was not continuously enrolled pursuant to this Article in the LEA of the AEP or in any LEA in the current year, the pupil’s test scores shall be assigned to the API of the pupil’s school district of residence for that year under either of the following circumstances:

(1) The pupil was enrolled in the school district of residence at the start of the current year; subsequently enrolled in the LEA of the AEP; and either stayed at the LEA of the AEP, returned to the school district of residence, enrolled in another LEA of an AEP school, or dropped out without being continuously enrolled pursuant to this Article in any LEA.

(2) The pupil was enrolled in the LEA of the AEP at the start of the current year; subsequently enrolled in the school district of residence for over 30 consecutive calendar days; and either stayed at the school district of residence, returned to the LEA of the AEP, enrolled in another LEA of an AEP school, or dropped out without being continuously enrolled pursuant to this Article in any LEA.

(e) Other accountability data shall be assigned to the API of the pupil’s school or school district of residence in accordance with subdivisions (b), (c), and (d) if the pupil was referred to an AEP by the pupil’s school or school district of residence and was enrolled in the AEP for fewer than 125 consecutive calendar days.

(f) Other accountability data shall be assigned to the API of an AEP school and its LEA if the pupil was referred to the AEP by the pupil’s school or school district of residence and was enrolled in the AEP for 125 consecutive calendar days or more.
(g) If a pupil was referred to an AEP school by a juvenile court judge or other correctional or judicial official or expelled pursuant to section 52052.1(a)(1), was enrolled in that AEP school and its LEA, and was not continuously enrolled pursuant to this Article in any school or LEA, the pupil's test scores and other accountability data shall be assigned as follows:

(1) Test scores shall not be assigned to the API of any school or LEA.

(2) Other accountability data shall be assigned to the API of the school or school district of residence if the pupil was enrolled in the AEP school or LEA for fewer than 125 consecutive calendar days.

(3) Other accountability data shall be assigned to the API of the AEP school or its LEA if the pupil was enrolled in the AEP school or LEA for 125 consecutive calendar days or more.

California State Board of Education

Meeting Agenda Items for September 7-8, 2011

ITEM 22
SUBJECT

Permits to Employ and Work – Adopt Proposed California Code of Regulations, Title 5, Sections 10120.1 through 10121.

RECOMMENDATION

The California Department of Education (CDE) recommends that the State Board of Education (SBE) take the following actions:

• Approve the Final Statement of Reasons;
• Adopt the proposed regulations;
• Direct the CDE to submit the rulemaking file to the Office of Administrative Law (OAL) for approval; and
• Authorize the CDE to take any necessary ministerial action to respond to any direction or concern expressed by the OAL during its review of the rulemaking file.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In May 2011, the SBE approved the Notice of Proposed Rulemaking, the Initial Statement of Reason, and approved the commencement of the proposed regulations.

SUMMARY OF KEY ISSUES

The proposed regulations specify the Statement of Intent to Employ a Minor and Request for Work Permit/Certificate of Age (CDE Form B1-1) form will be used as the Certificate of Age pursuant to Education Code Section 49114. The proposed regulations also specify the condition under which a minor does not require a work permit.

FISCAL ANALYSIS (AS APPROPRIATE)

Fiscal Impact Statement previously submitted with May 2011 agenda item. No fiscal impact.
ATTACHMENT(S)

Attachment 1: Final Statement of Reasons (1 Page)
Attachment 2: Proposed Regulations, California Code of Regulations, Title 5, sections 10120.1 through 10121 (1 Page)
FINAL STATEMENT OF REASONS
Permits to Employ and Work (SBE)

UPDATE OF INITIAL STATEMENT OF REASONS

The original proposed text was made available for public comment for at least 45 days from May 27, 2011, through July 11, 2011. No written comments were received during that period.

A public hearing was held at 9:00 a.m. on July 11, 2011, at the California Department of Education. There were no comments made at the public hearing.

No changes were made to the regulations.

SUMMARY AND RESPONSE TO COMMENTS RECEIVED DURING THE INITIAL NOTICE PERIOD OF MAY 27, 2011, THROUGH JULY 11, 2011, INCLUSIVE.

No comments were received.

ALTERNATIVES DETERMINATION

The SBE has determined that no alternative would be more effective in carrying out the purpose for which the regulation is proposed or would be as effective as and less burdensome to affected private persons than the proposed regulation.

LOCAL MANDATE DETERMINATION

The proposed regulations do not impose any mandate on local agencies or school districts.

07-12-11 [California Department of Education]
The State Board of Education has illustrated changes to the original text in the following manner: text originally proposed to be added is underlined; text proposed to be deleted is displayed in strikeout.

Division 1. California Department of Education
Chapter 10. Courses of Study
Subchapter 1. High School Courses of Study
Article 7. Work Permits

§ 10120.1 Certificate of Age.
A Statement of Intent to Employ A Minor and Request For Work Permit/Certificate of Age (CDE Form B1-1 revised 07-10) shall be completed by the parent or guardian to certify age in place of a Certificate of Age.

Work permits are not required for minors who meet all of the following conditions:
(a) the minor is not receiving pay or financial reimbursement for services rendered in volunteer services or educational purposes;
(b) the minor is not in an employer-employee relationship in accordance with The Fair Labor Standards Act and the minor is an unpaid trainee, volunteer, or in-school placement; and
(c) the minor has parental permission and has submitted written evidence thereof with the school district, charter school, or private school of enrollment.

ITEM#23

CALIFORNIA STATE BOARD OF EDUCATION

SEPTEMBER 2011 AGENDA

SUBJECT

☐ Action
☐ Information
☐ Public Hearing

RECOMMENDATION

The California Department of Education (CDE) recommends that the State Board of Education (SBE) consider the recommendations from Carmella S. Franco, State Trustee of the Alisal Union Elementary School District (AUESD), and Norma Martinez, State Trustee of Greenfield Union School District (GUESD), on the progress to date and proposed next steps and take action as appropriate.

SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

In April 2011, the corrective action plans submitted by the State Trustees for AUESD and GUESD were provided to the SBE as Information Memoranda and can be viewed at http://www.cde.ca.gov/be/pn/im/infomemoapr2011.asp.

At its November 2010 meeting, the SBE approved performance objectives and comprehensive assessment of the district, presented by Carmella S. Franco, State Trustee of the AUESD, pursuant to the Memorandum of Understanding (MOU) between the SBE and the AUESD State Trustee found at http://www.cde.ca.gov/be/ag/ag/yr10/agenda201010.asp.

At its September 2010 meeting, the SBE approved performance objectives presented by Norma Martinez, State Trustee of the GUESD, pursuant to the MOU between the SBE and the GUESD State Trustee, found at http://www.cde.ca.gov/be/ag/ag/yr10/agenda201009.asp.

At its May 2010 meeting, the SBE took action to:

- Assign a Trustee with full authority of the local superintendent and governing board in AUESD for not less than three years unless progress has been achieved, defining expectations for the work of the Trustee to be included in a MOU among the Trustee, AUESD, and the SBE.
• Assign a Trustee with “stay and rescind” authority in GUESD for not less than three years unless progress has been achieved, defining expectations for the work of the Trustee to be included in a MOU among the Trustee, GUESD, and the SBE.

SUMMARY OF KEY ISSUES

Local governance issues were identified as a key factor impeding teaching and learning in each district. Specific trustees were assigned to AUED and GUESD in May 2010. Since that time significant academic and governance improvements have occurred in each district. Since the November 2010 SBE meeting, the State Trustees for AUED and GUESD have submitted summary reports of actions taken for all recommendations in their districts’ comprehensive needs assessments and corrective action plans. Each report reflects progress toward remedying the issues identified in the district’s Memorandum of Understanding.

Attachment 1 is the Academic Achievement Data for AUED and GUESD.

FISCAL ANALYSIS (AS APPROPRIATE)

Costs associated with payment of each Trustee are borne by the LEA.

Re: Recommendation for Change of Governance Authority from Option B to Option A for the Alisal Union Elementary School District

**Background:**

The Alisal Union Elementary School District has operated under the Option B governance model since May 5, 2010. It was under the general authority of Education Code Section 52055.57(c)(3) that the State Board of Education approved a State Trustee. As background information, the scope of authority for Option A and Option B is defined as follows.

**Option A (Trustee with authority to stay or rescind governing board actions):**

The local governing board will generally retain its existing powers and authorities, including its authorities with respect to the district superintendent. The local governing board will exercise its powers and authorities to implement the details of the corrective action plan. During the period of service, the trustee may stay or rescind any action of the local governing board that, in the sole judgment of the trustee, is inconsistent with the corrective action plan or which otherwise may adversely impact the LEA.

**Option B (Trustee with full authority to administer the affairs of the LEA):**

Under Option B, the trustee will assume all the legal rights, duties, and powers of the local governing board, including its authorities with respect to the district superintendent. Throughout the term of service, the local governing board shall serve only as an advisory body reporting to the trustee, with no rights, duties, or powers with respect to the LEA. Members of the local governing board are not entitled to any stipend, benefits, or other compensation from the LEA during the term of service.
I officially reported and began my work with the District on May 24, 2010. During the 2010-11 school year, the following major reports were completed and submitted.

- Initial Assessment
- Comprehensive Assessment
- Goals and Performance Objectives
- Corrective Action Plan
- End of Year Report for 2010-11

A status report for 2011 was prepared based on the Goals and Performance Objectives adopted by the State Board of Education in November 2010. The Corrective Action Plan, which was implemented during 2010-11, contains information that supports the status of the Goals and Performance Objectives. A comprehensive Communication Plan also was developed and specific actions identified for implementation. In addition, the Alisal Union Elementary School District 2011 test scores show gains in student progress on the STAR test. As of this date, one school, Bardin Elementary, will be exiting from Program Improvement status. All of these documents can be located at the www.alisal.org website under the State Trustee webpage.

**Rationale:**

The Alisal Board of Trustees has shown progress in meeting criteria which were approved by the State Trustee in April 2011. An update has been developed for the document titled *Establishment of Criteria for the Alisal Union Elementary School District to Move from Option B to Option A*. Of particular note was the Board’s commitment to participate in 24 study sessions/workshops/retreats (January 1, 2011 through August 10, 2011). This was above and beyond attendance at the 12 Regular Trustee/Board meetings, as shown in the document titled *2011 Board Meeting and Study Session/Workshop/Retreat Dates*. Additionally, the Board has participated in the full review and revision of one-third of the District’s Board Policies as cited on the District website. The remaining policies will be completed in 2011-12. The Board has worked together during Option B, and will benefit from continued oversight as it regains some of its authority. By virtue of transitioning to Option A Stay and Rescind Governance model, the State Board of Education retains the oversight authority over the State Trustee. The documents mentioned in this section can be found via the www.alisal.org website under the State Trustee webpage.
Trustee's Recommendations:

Based on these factors, I am recommending that the Alisal Union Elementary School District move from the Option B to Option A governance model, effective September 21, 2011. This date provides time for a Special Board meeting to precede it whereby criteria for a move from Option A to a full governance model can be finalized.

I also recommend that the Alisal Board of Trustees receive professional development reccompense retroactive to May 1, 2011 ($30 per workshop and $60 per Saturday retreat). Upon the effective date of approval of the Option A governance model, the Board would begin to receive its regular monthly Board stipend and health benefits in accordance with the Alisal Board of Trustee’s Bylaws and Policies.

Long-term Vision:

Once the District is operating under the Option A governance model, it is anticipated that a transitioning of authority to independent governance would occur no later than June 30, 2012. Examples of criteria for this governance transition include the following.

- 100% of Board policies reviewed, revised, and approved
- Board member attendance at a minimum of six governance workshops (one per month)
- Board member enrollment and attendance at CSBA Masters in Governance training
- Full understanding of roles and responsibilities by Board and Interim Superintendent as evidenced by observance of Board Operating Procedures
- Stay and rescind authority not exercised by State Trustee for four consecutive Board meetings
- Continued progress by District and schools towards reaching 800 on the API
- Continued improvement on test scores by a minimum of 10% on the AYP annually
- Determination by State Trustee that the local Board is ready for full governance authority
Dr. Michael W. Kirst, President  
State Board of Education  
August 23, 2011

**Long-Term Vision (continuance):**

<table>
<thead>
<tr>
<th>Goal Areas</th>
<th>Benchmarks</th>
<th>Timeline</th>
</tr>
</thead>
</table>
| **Board Governance**        | • Board /Interim Superintendent/State Trustee are working together as a team.  
                             • Board is operating in a cooperative and effective manner. Indicators would include the following:  
                               - Actions taken in alignment with the Corrective Action Plan and in the best interests of the District.  
                               - Minutes are acted on in a timely manner, e.g. meeting-to-meeting.  
                               - Board is observing its Operating Procedures, e.g. leaves personnel matters to district staff. | Ongoing  |
| **Improved Student Achievement** | • Schools continue to exhibit growth on the California Standards Test and a trend of improvement is established.  
                                          • Multiple schools exit Program Improvement status.                                                                                           | Ongoing  |
| **Highly Qualified Work Force** | • Board supports the hiring of highly qualified teachers, effective employees, and allows management to carry out an accountability system.  
                                         • Educational Services Department continues as the cornerstone for supporting instruction in the schools.                                  | Ongoing  |
| **Fiscal Responsibility**   | • Board ensures that District is operating in a fiscally conservative and responsible manner, e.g. District reserves are built to assist with the elimination of the structural deficit factor.                 | Ongoing  |

Your consideration of the above-mentioned is appreciated.

Re: Recommendation for Change of Governance Authority from Option A to Full Local Governing Authority with Demonstrated Substantial Progress

Dear Dr. Kirst,

As you are aware, I was appointed as the trustee for Greenfield Union School District and given the following Scope of Authority and Duration of Responsibilities as follows: The State Superintendent of Public Instruction (SSPI) recommended that the trustee have stay and rescind powers over decisions of the local governing board and district superintendent. The State Board of Education approved this recommendation as presented. This Option A “Scope of Authority” directs Trustee Martinez to “monitor and review the operation of the LEA throughout the term of the service”. This Option A further directs that: “Within the first 120 days of the term of service, the trustee will conduct a written assessment determining the source, pervasiveness and severity of the LEA’s performance problems. Within 60 days of the completion of the assessment, the trustee will develop a corrective action plan designed to correct the performance problems and remedy the corrective action status of the LEA. The local governing board will generally retain its existing powers and authorities, including its authorities with respect to the district superintendent. The local governing board will exercise its powers and authorities to implement the details of the corrective action plan. During the period of service, the trustee may stay or rescind any action of the local governing board that, in the sole judgment of the trustee, is inconsistent with the corrective action plan or which otherwise may adversely impact the LEA.” To accomplish full implementation of the oversight and direction as described in Option A, Trustee Martinez developed an extensive Corrective Action Plan.

Recommendation
After almost sixteen months of careful oversight and constructive change in governance brought about through specific implementation of the Corrective Action Plan, I would like to make the following recommendation:
The Board of Trustees and Superintendent have made great progress towards becoming an effective governing team and should be prepared to assume full governing authority before the end of the three year minimum term specified in the SBE’s May 2010 motion. It is recommended that the State Board authorize the SBE President and Executive Director to move the district from Option A to full local governing authority on or before June 30, 2012 and/or as soon as they are satisfied that the local board has substantially met the following criteria:

- 100% of board policies and administrative regulations adopted and implemented for at least 6 months.
- Each board member has attended a minimum of 12 governance training sessions
- Each board member has enrolled and regularly attending, or completed, CBSA masters in Governance Training.
- Board and Superintendent have demonstrated understanding regarding their roles and responsibilities as outlined in Board Policies; fully implement the Governance Handbook including commitments, protocols, and agreements.
- The trustee has not had to exercise stay and rescind authority for 4 consecutive board meetings.
- District schools will show progress toward reaching 800 on their API.
- Schools will improve their test scores by a minimum of 10% on the AYP annually.
- Trustee, based on her experience and observation, determines the local board is ready.

**Rationale**

At the August 24, 2011 Board meeting I provided the GUSD Trustees with a preview of my recommendation to the State Board of Education of how the district can move from Option A Authority to full local governance.

The attached *Performance Objectives Progress Report* clearly indicates that significant progress has been made in the areas noted on the report. This report is a scheduled agenda item for the September 14, 2011 Board meeting. Trustees will have an opportunity to discuss the report, criteria, and progress toward attaining full local governance. This earlier than expected dialogue is possible, given my observation as a State Appointed Trustee that progress has been made.

**Steps for the Future**

Once SBE has determined that the above mentioned criteria have been substantially satisfied and the district begins operating under full local governing authority, it is anticipated that the State Appointed Trustee would exit no later than June 30, 2012. This would ensure that systems and academic changes, as noted in the Corrective Action Plan, remain firmly in place.

</thead>
</table>
| 1. Conduct an Assessment of District Needs | Complete Comprehensive Assessment of the District’s problems/deficits contributing to the underperformance of students | DAIT provider will complete district capacity study.  
The DAIT provider will work with the Trustee and Superintendent to complete all assessments and reports of the district’s problems and/or deficits contributing to the severe underperformance of students.  
Submitted to State Board of Education and approved prior to September 30, 2010 | The following was accomplished:  
Submitted to State Board of Education and approved prior to September 30, 2010 |
| 2. Develop a District Corrective Action Plan | A Corrective Action Plan will be created based on the findings of the Comprehensive Needs Assessment Report | The district will be required to implement the identified needs addressed in the Corrective Action Plan in the following areas: Governance, Instruction, Fiscal, Human Resources, Data Systems, Professional Development, & Parent/Community Involvement.  
*Performance objectives will be revised according to additional findings in assessment report.* | The following was accomplished:  
Submitted to State Board of Education by November 30, 2010 and posted as an informational memo on April, 2011. This extensive Corrective Action Plan was developed and systematically implemented through:  
1) Approval of local Board of Trustees (November 18, 2010),  
2) Review and implementation by the District Leadership Team;  
3) Delivery of strategies through District mainstream and Special Education teachers as well as instructional support |
| 3. Improve District Governance | Review all district Board policies, administrative regulations and protocols to conform to state and federal requirements. | All necessary revisions, additions, deletions of district board policies and administrative regulations will be reviewed by California School Board Association (CSBA) and district staff for board adoption as appropriate. | The following was accomplished: 80% OF Board Policies and AR’s were completed by July 1, 2011. The commitment is to complete all of the board policies and post them on-line for users. The Superintendent and her assistant have been designated to verify that all managers, schools and educational community committees have electronic access to up-to-date policies. Eight (8) Governance Training Sessions with the Superintendent and the Board conducted by CSBA were completed by July, 2011. The school board has a new Governance Handbook; a mission and vision statement; commitment statements; a code of conduct; a protocol for conducting public meetings; and a firm commitment to improved governance. All can be viewed on the GUSD Webpage. All board members have or will participate in CSBA’s Master’s in Governance program. Two Board members currently enrolled in Masters in Governance Training sessions through CSBA. Two of Board members hold a Certificate of Completion of Masters in Governance through CSBA. One member will be enrolled in the 2011-2012 school year. |
| 4. Establish an Effective Communication Plan | Create a two-way communication plan for | A Communication Plan will be developed with structures and calendars. | The following was accomplished: All actions which included systems, structures and calendars have... |
| Communication Process | all stakeholders regarding student achievement, academic expectations and accountability requirements. | protocols that outline the flow and means of communication among and between all employee groups and community. The Communication Plan will convey information about district initiatives, student achievement, academic expectations and accountability requirements. A list with calendared dates for Board meetings, agendas and minutes will be developed. All Board meetings will be followed by electronic communication to district administrators and principals of meeting outcomes and actions. An annual calendar and agenda format will be established for administrative meetings with outcomes communicated to participants and the Board of Education. A district bulletin system and administrative handbook will be developed. | *been completed.* A comprehensive communication plan was developed by the interim superintendent and was board approved in March, 2011. The purpose of the plan is to present a clear and concise framework for communicating with the school community. The plan addresses two main types of school district audiences: 1) internal (student, staff, administration, board of trustees) and 2) external (parents, businesses, civic groups, religious groups and other members of the Greenfield community). Examples include weekly newsletters to parents, community forums, media outreach, superintendent newsletters, board highlights, e-mail blasts, and other activities that give the district visibility in the community. |

<p>| 5. Improve Student Academic Achievement | Improve student performance at all schools: • Two Schools out of four (Chavez &amp; Oak) with an API of 700+ will exit Program Improvement | Review all relevant student data for improving instruction for students. Strict adherence and implementation of the Corrective Action Plan to improve student performance at all schools. | The following was accomplished: By June 2011: Chavez &amp; Oak Schools will have exited PI status. The district is awaiting results. <em>Chavez</em>: STAR Test data will be released on August 24, 2011. Based on preliminary review of student by student data, it is anticipated that the District will have to complete some data correction during the October timeline provided by the CDE. With this anticipated |</p>

</tbody>
</table>
| | The focus of 2010-11 has been refinement of data protocols. During 2011-12, principals and coaches will work with teachers to engage
| 7. Evaluation Systems of District Employees | Create effective evaluation documents and protocols for evaluating staff. | Design effective evaluation tools for administrators and teachers. Formulate, define, and adopt systems for evaluation which include student performance as one criterion. | The following was accomplished: The State Trustee has implemented a district systematic plan to build specific leadership skills that ensure principal support and increased student achievement. All programs have been fully implemented; formative data collected; collaborative settings have been used to review results and discuss next steps to improve instruction quarterly; and teachers have received real time feedback on student achievement. Principals have participated in all the collaborative meetings. An executive coach has assisted principals to improve their skills and will continue in 2011-2012. Revision of the teacher evaluation process has been slated for action for the 2011-2012 school year by the district leadership and the Greenfield’s Teacher’s Association. A review of the existing administrator evaluation process and timelines was begun in the fall of 2010. However, the subsequent retirement of the superintendent postponed progress in this area pending a selection of the permanent superintendent. |
| 8. Improve Data Collection & Data Analysis | All school sites will uniformly administer and analyze common district benchmark assessments. | District will be using the On-line Assessment Reporting System (OARS) operating system to develop formative assessments appropriate to grade levels, and INSPECT Formative Assessments were used three times to measure standards-based learning. Data were reviewed by all school sites. |
| 9. Collective Bargaining Contracts | The district’s collective bargaining agreements will be negotiated and ratified. | Meet as necessary with the union leadership to meet and confer regarding negotiation and ratification of the collective bargaining contract. | The following was accomplished:
By November, 2010, Superintendent and District team successfully negotiated with the Greenfield Teachers Association completion of the 2008-2009, 2009-2010, and 2010-2011 bargaining agreements, which had not been current. Both teams are in the beginning stages of negotiating the new contract for the 2011-2012.

Regularly scheduled monthly meetings with GTA/CSEA (part of communication plan) lead to resolution of both certificated and classified issues as they arose including the sensitive personnel in teacher re-assignments necessary for meeting the needs of children for the 2011-2012 school year.

There was one CSEA grievance that was filed and resolved amicably recognizing that no contract violation had occurred for the entire year.

This positive relationship allowed the focus to remain on curriculum restructuring, professional development, and a system that is student focused and data driven. |
|---|---|---|---|
| 10. School Facilities | A District Facilities Master Plan will be developed and | Trustee will work with Superintendent and staff to design the new facilities master plan for potential student | The following was accomplished:
The current Facility Master Plan is four years old. However, on November 18, 2010, a comprehensive District facility update was |
implemented.  presented to the Board of Trustees, in the context of bond measure, redevelopment fees, and deferred maintenance allocations. All projects were delineated by specific site.

The District is currently working with VANIR Associates to complete a feasibility review for constructing a new school at the original Greenfield Elementary School site. The District has secured funding of $74,000 grant for initial Toxic Substance Control study and report.

Plans are underway through staff and VANIR Associates to request funding through one or more School Facility Program projects. The Board has taken action to designate District representatives to accomplish the task of obtaining funding for a new school.

| 11. Systems | Develop structures and systems at the district, site and classroom levels for long-term student success | Program Advisories will be a standard format for school and district communication throughout the system and communicate the full implementation of the Academic Program. | The following was accomplished: Previous Superintendent developed a template for the “Program Advisory”. Upon her retirement on December 31, 2010, this particular action step was deferred for implementation in year 2011-2012. |
