Standards Implementation Steering Committee
A Coordinated and Inclusive Approach to Supporting California Standards Implementation
Implementing State Academic Standards

Standards Implementation Steering Committee

Working together...

• SBE, CCSESA, and CDE working together to create practice and policy levers for high quality standards implementation

• Using the California Frameworks as key drivers

• Involving key stakeholders to drive policy and practice
Implementing State Academic Standards

Standards Implementation Steering Committee

Understanding the challenges...

- 6.2 million students
- 1.4 million English learners
- 93% of teachers serve English learners
- Region 6 – 57 districts
- Region 7 – 124 districts
- 1/2 of LEAs are smaller than 2500 students
A Statewide System of Support

Content Specific Collaboration Committees

• COE Specialists, teachers, administrators, and partner organizations working together to create and promote a multi-year plan for standards and assessment implementation that will support a common understanding, language, and approach for each content area

• Help align our work with partners

• Strengthen communication
A Statewide System of Support

Communities of Practice

• Convening of content experts that are leading professional learning for educators across California

• Focusing on building capacity, sharing best practices, developing useful resources and organizing the work in each county/region

• Working to build systems that make positive change in every California classroom
Communities of Practice

The goal: Use California’s 58 COEs as a vehicle to leverage the expertise of many to build the capacity for all

Roles and Responsibilities:
1. Professional learning of the group
2. Networking and sharing of best practices
3. Regional action planning
The Standards Implementation Ecosystem

Math Collaboration Committee...

Involved Stakeholders

• County Office Specialists
• CDE Specialists
• State Board of Education
• Instructional Quality Commission members
• California Math Project
• CTA Instructional Leadership Corp
• District and site leadership (ACSA)
• California Mathematics Council
• CISC Members
• ELD Experts
• WestEd
Math Collaboration Committee...

Four Goals/Focus Areas

- Content knowledge and pedagogy
- Support and training for administrators
- Access and equity
- Communication
Math Community of Practice...

December 15-16, 2016
“Access and Equity”
• Ivan Cheng – Connections in Math and Relation to Issues in Equity
• Jo Boaler – Mathematical Mindsets and Questioning Strategies

Upcoming Meetings
March 30-31, 2017
June 15-16, 2017
Science Collaboration Committee…

Involved Stakeholders

- County Office Specialists
- CDE Specialists
- State Board of Education
- Instructional Quality Commission members
- California Science Project
- CTA Instructional Leadership Corp
- District and site leadership (ACSA)
- California Science Teachers Association
- CISC Members
- ELD Experts
- K-12 Alliance at WestEd
- Ten Strands
Science Collaboration Committee...

Four Goals/Focus Areas

- Professional learning
- Support and training for administrators
- District level policy development
- Communication
December 15-16, 2016
“Kids Like Learning This Way”
• Phenomenon-based NGSS instruction
• Janine Benyus – Biomimicry – Natural Science and Innovation
• Mark Windschitl – Anchoring Phenomena

Upcoming Meetings
February 9-10, 2017
June 22-23, 2017
Upcoming meeting on January 17th, 2017 in Sacramento, CA

- Collaboration Committee members have been identified
- Goals/focus areas being created
Recent Collaboration Committee meetings were Aug. 26th at LACOE and virtually on Oct. 13th

- Collaboration Committee members have been identified
- Committee members designed core Framework sessions “Content Development and Run Through” occurred on Dec. 14th
- Framework rollout event scheduled January 31st, 2017 at UC Davis (sponsored by the CA History Project)
Where are we now? Where are we headed?

- **Summer 2015** – Creation of the Standards Steering Committee
- **Spring 2016** – Initial Formation of Collaboration Committees for Math and Science
- **Fall/Winter 2016** – COP begins work on key goals/focus areas
- **2017 and beyond** – Work of the Standards Implementation ecosystem builds educator capacity statewide
Presentation to:
California State Board of Education
January 11, 2017
