The Graduation Rate Indicator

TOM TORLAKSON
State Superintendent
of Public Instruction

Graduation Rate Indicator

- The Every Student Succeeds Act (ESSA) requires states to identify high schools with a graduation rate less than 67 percent for potential interventions.
- Therefore, the cut point for the **Status** of “Very Low” was set at less than 67 percent.

See Handout 1 for graduation formula.

Status Cut Points

Status: The following table provides the proposed cut points for each status level:

Status Level	Status Cut Point
Very Low	Graduation rate is less than 67%
Low	Graduation rate is 67% to less than 85%
Median	Graduation rate is 85% to less than 90%
High	Graduation rate is 90% to less than 95%
Very High	Graduation rate is 95% or greater

Change Cut Points

Change: The following table provides the proposed cut points for each change level:

Change Level	Change Cut Point
Declined Significantly	Graduation rate declined by more than 5%
Declined	Graduation rate declined by 1% to 5%
Maintained	Declined or increased by less than 1%
Increased	Graduation rate increased by 1% to less than 5%
Increased Significantly	Graduation rate increased by 5% or more

NOTE: Change is based on a three-year average (i.e., current graduation rate minus three-year average).

Performance Categories

Red Performance Category:

- ESSA requires all schools with a graduation rate below 67% to be identified for support.
- The Red Performance Category is different for the graduation rate than the other indicators (i.e., all local educational agencies and schools with a graduation rate below 67% will be placed in the red performance category).

State Superintendent
of Public Instruction

Performance Categories (Cont.)

Blue Performance Category:

- Any LEA or school with a graduation rate at or above 95% will be categorized in the Blue Performance Category regardless of their “Change” level (e.g., a school with a graduation rate of 98% in the prior year and a graduation rate of 96% in the current year would be classified as Blue).

State Superintendent
of Public Instruction

Example of Performance on Graduation Rate Indicator

Example: A school with a **Change** of Declined and a **Status** of High would have an overall performance of **Yellow** for the graduation rate indicator.

Change

Level	Change				
	Declined Significantly by more than 5%	Declined by 1% to 5%	Maintained Declined or improved by less than 1%	Increased by 1% to less than 5%	Increased Significantly by 5% or more

Statewide Summary Results

	N/A	Red	Orange	Yellow	Green	Blue
ALL DISTRICTS* (515)	N/A	70 (13.6%)	122 (23.7%)	106 (20.6%)	81 (15.7%)	136 (26.4%)
ALL SCHOOLS* (1221)	N/A	99 (8.1%)	85 (7.0%)	186 (15.2%)	298 (24.4%)	553 (45.3%)

See Handouts 4, 5, and 6 for statewide district, school, and student group results.

* Alternative schools, county offices of education, and schools with less than 30 enrolled students were excluded from the count.

Discussion Questions

- Is the Red performance category appropriate (i.e., less than 67%), which will trigger interventions for schools, and possibly for LEAs?
- Is the Green performance category, which establishes a statewide goal of 90% appropriate for all non-alternative schools and LEAs?

2015 Four-Year Cohort Graduation Rate Formula

Number of students who earn a regular high school diploma*
by the end of 2014–15 cohort

divided by

Number of first-time grade nine students in 2011–12 plus students who transfer in,
minus students who transfer out, emigrate, or die during school years 2011–12,
2012–13, 2013–14, and 2014–15.

For example, the Class of 2014–15 had a four-year cohort of 488,612 students**. Out of that cohort 401,957 students graduated with a regular high school diploma by the end of 2014–15.

$$\frac{401,957}{488,612} = 82.3\% \text{ Graduation Rate}$$

*Students who earn a Special Education Certificate of Completion or a General Education Degree (GED) are not counted as high school graduates but are included in the denominator.
