B - The school did not have a base API and will not have any growth information

\*\*\* means this API is calculated for a small school, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. The API is asterisked if the school was small in either 2012 or 2013. APIs based on small numbers of students are less reliable and, therefore, should be carefully interpreted.

- The Growth API is not displayed when there are less than 11 valid scores

( - ) The student group is not numerically significant, therefore no growth determination was made

none - schools with less than 100 valid schools did not receive a similar school rank
