13	Eliana Howe	Eagle Collegiate Academy	<p>My name is Eliana Howe. I hold a Multiple Subject and a special education (CA) Teaching Credential. I speak on behalf of the faculty and students of Eagle Collegiate Academy. I worked at two different charter schools and I was continually impressed with the level of service and commitment that I have seen charter school teachers provide their students. Also, I have seen the incredible dedication from parents and staff to make resources and tools available to students in order to help them become successful adults. I believe ECA will reach the goal of having parents and staff work closely together to ensure students practice what they learn in the classroom in order to internalize their learning. Your approval of ECA will also provide job opportunities to our community and most importantly it will also give parents an additional educational option for their children. I urge you to please grant approval for ECA today. Thank you very much for your help in making this school a reality. Sincerely, Eliana Howe</p>

22	Debi Rodriguez	Eagle Collegiate Academy	I continue to represent a large pro-school choice community in and around the Santa Clarita Valley. So many families from the SCV, Acton-Agua Dulce, Castaic, Fillmore, Frazier Park, Woodland Hills, San Fernando Valley, and the Antelope Valley have been and are still waiting to attend Eagle Collegiate Academy. Location is not and has never been an issue! We know how important family support is for our school and we are all eager to donate our time, talents, and treasures to have this educational choice for our children. Eagle will no doubt exceed their conservative number of enrollment applications as the interest in their educational program remains and continues to grow. Their program is highly desired and needed. With your support, our families will have Eagle Collegiate Academy as an educational choice for our children.

I was convinced after reviewing the petition that special education population needs are addressed and resources to support them were addressed in the petition. This is important to me because I have a special education student. I need ECA for my child. Thanks. 5. I am a parent of students who travelled from Canyon Country to Castaic to go to school because multi grades students were on the same site. However, I had to dis-enroll them from the school in Castaic because it took them 2 and half hours one way to come home from school. Now that Eagle Collegiate Academy will be located in our city, my children would just go to school in their neighborhood. Please approve ECA for my kids and our community. We like having our children on the same site. Thank you. 6. I asked my daughter what she liked about Eagle Collegiate Academy after we attended the presentation about the school. She told me that she likes the way the school is well organized. 34	Dawn Hakim	Eagle Collegiate Academy	<p>I am writing this email to voice my support of Eagle Collegiate Academy. Never has there been a time more than now for students to have the option of attending a school with an International Baccalaureate Program. Our community does not offer many school options for our families. We live in a global community. I have been working with EA for two years. While the schools are good in our area, they tend to be larger in size or small religious private schools. I have two children who will not be able to attend EC since they are incoming fifth and eighth graders. My son, Zane Hakim, attended the hearing last year to speak on behalf of EC. After the petition was denied, Zane opted to attend a small private school. Being in a small school is the right choice for some kids. For those who know me, I tend to be a harsh critic. I have high standards and expectations. Over the past two years, I have had the opportunity to get to know Dr. Johnson. She is a passionate and brilliant educator. My daughter who has been in a local public school has had four principals in six years (she started in TK). The Principals were nice but I didn't witness great passion or a desire to improve the quality of education. Dr. Jonson shares my same high standards. She will work tirelessly to maintain a rigorous program. Thank you, Dawn Hakim</p>

38	Mark T. Young	Donahoe and Young, LLP	As a recent addition to the Eagle Collegiate Academy ("ECA") Board of Directors, I am proud to apply my 40 years of legal experience to ensure that ECA exceeds all required standards for corporate governance. I have known Dr. Ogo Okoye-Johnson and Ken Higginbotham for over a decade through our Church; I know them to be passionate, dedicated, highly competent, thoroughly ethical, and selfless. My children are adults, but my grandchild (one so far) is 2½. It is my fervent hope that her educational options will include ECA. My wife Sherry and I moved to Santa Clarita as newlyweds in 1990; we raised our two daughters here (both are Saugus High alumnae). I

In 1999 I formed a two-lawyer firm with a longtime colleague; I moved my office to Valencia in 2007, where we have grown to six attorneys and seven assistants (see attached Profile). I am one of the founders of Bridge to Home SCV, a 501(c)(3) that has provided services and shelter for those experiencing homelessness in the Santa Clarita Valley since 1997. 39	Rosanne Gercke	Eagle Collegiate Academy	<p>I would like to express my favorable personal opinion of Dr. Ogo Johnson after working with her in her years at Taft High School, in Woodland Hills. She had the duty to oversee the Health Office which I ran as the school nurse. In my seventeen years at Taft, she was the administrator I came to value most for so many of her qualities. She has great personal integrity, the ability to listen well, get to the root of the problem and actually take action to solve the problem. She had innate intelligence expressed in a calm, deliberate manner, accompanied by a certain joy of life. Her integrity is beyond reproach. She treated each individual as being worthy and deserving to be treated with dignity and respect. She sought to bring out the best in people. She encouraged students and staff to be ethical, thoughtful and a contributing member of our school and society. She understood to be our best, we can develop many aspects of our personalities. I would trust her to run a school, to let no one fall through the cracks, and to bring out the best in her staff and students. I believe she has readying herself her whole life to accomplish the task of running an excellent school, specifically the Eagle Collegiate Academy.</p>

40	Alma Johnson	Eagle Collegiate Academy	I am petitioning in support of Eagle Collegiate Academy and pray its doors will open soon. The academy plans to offer a rigorous program that will allow its students to become competitive and productive future leaders. It is important that young people start early in their educational pursuits so that they can maximize their potential. Research has shown that because people learn differently, they need to be taught via diverse methods that may vary from those utilized in public school settings. Please support and approve the rights for all students to be given educational options. Who among you would not want your child or any child to receive an education that leads to a successful future?
