Dear Parent/Guardian of Anita Rocco:

This report shows Anita's results on the English Language Proficiency Assessments for California (ELPAC), the newly developed state test of English language proficiency. The ELPAC provides information about your child's annual progress toward English language proficiency. Because the ELPAC measures new English language development standards, your child's ELPAC results should not be compared to prior test results from the California English Language Development Test (CELDT).

Below is information to help you understand the ELPAC, as well as ideas to support your child's continued English language development.

Sincerely,

Tom Torlakson
 State Superintendent of Public Instruction

What Is the ELPAC?

The ELPAC Summative Assessment measures student progress toward meeting the California English Language Development Standards (ELD Standards), which describe the English language skills that students need to succeed in school.

The ELPAC Summative Assessment:

- Is given each spring to students who have been identified as English learners
- Includes questions about Listening, Speaking, Reading, and Writing

Your child's ELPAC results:

- Are one measure of English proficiency that should be viewed with other available information, such as classroom tests, assignments, and grades
- Can be used to help talk to your child's teacher about your child's progress in English language development
- Can be used to determine if a student is ready to be reclassified as fluent English proficient (RFEP)
