M Misleading Can occur more rapidly in technology than mythology. Look for:
- “Dated” popular fiction
- Obsolete information
- Books containing racial, cultural or sexual stereotyping

U Ugly Refers to the physical condition of the book.
- Antiquated appearance
- Worn-out, frayed, dirty
- Unable to mend

S Superseded There may be newer copies available.
- Duplicate copies
- Almanacs, yearbooks, encyclopedias superseded by newer editions

T Trivial Look for appropriateness for the collection. Check for poor writing, inaccurate information, an inappropriate interest or reading level for students.

Y Your collection has no use for the book. It is irrelevant to your curriculum.

Why Weed?
It does not matter how many books you may have, but whether they are good or not.

WEEDING THE COLLECTION

DEFINITION
Weeding is the removing of materials from a library collection in a systematic and deliberate way. It is an ongoing part of collection development, a planned and thoughtful action that will ensure library materials are current and enticing.

DEVELOP A WEEDING POLICY AND CRITERIA
A part of the district selection policy should include a plan for weeding the school library collection. This weeding policy should include a justification, rationale, a plan for teacher evaluation of materials being considered for discard and a process for disposal.

The following criteria should be considered in developing such a policy:

- **Copyright**: a clue to look more carefully at the content.
- **Content**: look for relevance to the needs and curriculum of the school.
- **Physical condition**: look for ease of repair. Is there sufficient time and staff to complete major repairs?
- **Number of circulations**: including last circulation. If not circulated for 5-10 years determine why.
- **Superseded**: is there newer information available?

INFORMAL WEEDING
An ongoing process that often occurs as materials are checked-in or checked-out.

FORMAL WEEDING
A planned process that is not superseded by informal weeding. A rotation schedule can be established allowing for systematic weeding over time.
