Tools for Math Success: Leveraging the Framework, Instructional Materials, and Smarter Balanced Summative Assessment

To advance the State Superintendent of Public Instruction Tony Thurmond's Moving the Needle Initiative, the California Department of Education (CDE) is proud to announce the Tools for Math Success: Leveraging the Framework, Instructional Materials, and Smarter Balanced Summative Assessment on **November 7, 2025**, from **1:30 p.m. to 3 p.m.** This webinar will support educators in strengthening their instructional practices by providing guidance on how to effectively use the 2023 *Mathematics Framework*, high-quality mathematics instructional materials, and summative assessments. Participants will explore strategies for aligning classroom instruction with the framework, integrating resources that promote deeper mathematical understanding, and leveraging assessment data to inform teaching. By combining these tools, the webinar aims to equip educators with practical approaches to improve mathematics learning outcomes for all students.
