Multi-district Special Education Local Plan Areas (SELPAs) must submit a worksheet providing the allocation of their proportionate share funds among member local educational agencies (LEAs).

Pursuant to AO-400 grant condition 5, payment will be withheld from the grantee pending receipt of the Proportionate Share Calculation Worksheet and a worksheet providing the allocation of proportionate share funds for its member LEAs receiving Individuals with Disabilities Education Act (IDEA) 611 Part B Resource 3310 funds.

SELPA Name:

SELPA Code

Step 1:

In order to perform an accurate proportionate share calculation, please adhere to the following guidelines and complete the calculation below:

1. The LEA where the parentally-placed children with disabilities in private schools is located is responsible for child find and providing special education and related services.
2. LEAs must use the proportionate share of their IDEA 611 Part B Resource 3310 funds to provide special education and related services to parentally-placed children with disabilities enrolled in private schools and who attend private schools located in the LEA. There is no exception for out-of-state parentally-placed children with disabilities attending private schools located in the LEA. Therefore, out-of-state parentally-placed children with disabilities must be included in the group of parentally-placed children with disabilities whose needs are considered in determining which parentally-placed private school children with disabilities will be served and the types and amounts of services to be provided.
3. LEAs must spend the entire proportionate share of IDEA 611 Part B Resource 3310 funds on parentally-placed private school children with disabilities, regardless of the availability of state and local funds. In other words, state and local funds can no longer be used as a substitute for the proportionate share of IDEA 611 Part B Resource 3310 funds.

Step 2:
