How to View Change Over Time for Test Results

The Change Over Time report displays information from year to year so counties, districts, or schools can view information about improvement.

1   Navigate to https://caaspp-elpac.cde.ca.gov/.

English Language Arts/Literacy and Mathematics

Smarter Balanced Summative Assessments

2   Select the **English Language Arts/Literacy and Mathematics** tile.

3   Search for an entity by entering a School, District, County, ZIP, or CDS Code.

Type a School, District, County, ZIP...

CHANGE OVER TIME →

View how a group/cohort of students has progressed.

4   Select the **Change Over Time** tile located in the navigation bar to the right of the results you are viewing.

5   Select an end year from the **End Year** drop-down menu.

6   Select a grade from the **Grade** drop-down menu.

ⓘ   *Only grade levels where testing takes place in the prior grade level will appear in this menu. Grade three is not an available option because students in grade two are not tested, so there is no previous year with which to compare. Grade eleven is not an option because students are tested only once in high school, so there is no previous year with which to compare.*

7   Select a student group from the **Student Group** drop-down menu (optional).

8   Select the **Apply Selections** button.

Report Options

End Year:	Grade:	Student Group:	
2018–19	Grade 6	All Students (Default)	Apply Selections

ⓘ   *Information will be displayed for the selected grade from the selected end year as well as data for the preceding grades from the previous two years in a side-by-side view.*

ⓘ   *This view does not provide a matched group of students. For example, due to student transfers, the grade five data for 2018–19 may not include data for exactly the same students who were in grade three in 2016–17.*

ⓘ   ***Data Detail** includes the following:*

    Areas: Includes the percentage of students in the three levels for each claim area.

9   Select the **Achievement Level Descriptors** link to view information about the achievement level descriptors. Select the **Scale Score Ranges** link to view scale score ranges for each subject.
