On the California School Dashboard (Dashboard), comprehensive (or traditional) high schools receive a combined four- and five-year graduation rate for the Graduation Rate Indicator. This rate is based on the number of high school students who graduate with a regular high school diploma in either four or five years. The 2022 Graduation Rate Indicator includes students from the most recent graduation cohort (Class of 2022) as well as students from the prior cohort (Class of 2021) who graduated in their fifth year of high school.

Note: Only students who receive a regular high school diploma are counted as graduates. Students who earn a Special Education Certificate of Completion, a California High School Equivalency Certificate, or an adult education diploma are included as non-graduates. For information about the graduation rate for alternative schools, access the Dashboard Alternative School Status (DASS) Graduation Rate flyer on the California Department of Education (CDE) DASS web page at https://www.cde.ca.gov/ta/ac/dass.asp.

Restarting Accountability

For the past two school years, California accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on education communities. The requirements to hold districts and schools accountable for student outcomes resumes with the 2021–22 school year and release of the 2022 Dashboard.

However, due to the restrictions imposed by Assembly Bill 130, California is required to only report current year data (or Status) for the 2022 Dashboard. Therefore, unlike in prior years, the 2022 Dashboard will not display the difference from prior year (also known as Change) or performance level colors. Results will fall into one of five Status levels, ranging from “Very High” to “Very Low.”

Calculating Current Year Data Only

Status for the 2022 Graduation Rate Indicator will be calculated as follows:

\[
\text{Graduation Rate} = \frac{\text{Number of Students in Class of 2022 Who Earned a Regular High School Diploma within 4 years} + \text{Number of Students from Class of 2021 Who Earned a Regular High School Diploma within 5 years}}{\text{Total Number of Students in the Class of 2022} + \text{Number of Students from Class of 2021 Who Earned a Regular High School Diploma within 5 years}}
\]

*Graduation rate is used to determine Status level for this indicator.
