## State Accountability Report Card

## Reported Using Data from the 2020-21 School Year

The federal Elementary and Secondary Education Act (ESEA) requires each state to produce an annual report card that summarizes data of students statewide and disaggregated by student groups.

On December 10, 2015, President Obama signed the bipartisan Every Student Succeeds Act (ESSA), which reauthorizes the ESEA of 1965, and requires states to have a new multiple measures accountability system
in effect by 2017-18.
The recent enactment of the ESSA gives states greater discretion to implement academic content standards, administer statewide and local assessments, and set ambitious performance goals to direct evidence-based improvement strategies and interventions to improve student performance. ESSA requires each state to continue to implement the state report card requirements specified under Title I, Part A of the ESEA, as amended by No Child Left Behind.

For further information regarding the ESSA, visit the U.S. Department of Education ESSA web page at https://www2.ed.gov/policy/elsec/leg/essa/index.html.

On September 8, 2016, the State Board of Education adopted a new accountability system and first released the California School Dashboard, referred to as the Dashboard, in Spring 2017. The Dashboard shows how districts and schools are performing on test scores, graduation rates, and other measures of student success.

Questions about the State Accountability Report Card (STARC) may be directed to the Accountability Development and Policy Analysis Unit by phone at 916-319-0406.

## California Department of Education <br> May 2023

## Accountability

## California School Dashboard Accountability System

The federal Elementary and Secondary Education Act (ESEA) no longer requires states to produce Adequate Yearly Progress (AYP), but requires states to develop a new accountability system by 2017-2018. The California School Dashboard (Dashboard) was first released in Spring 2017.

The Dashboard was produced for California's 10,000 public schools in over 1,000 local educational agencies ${ }^{1}$ (LEAs). The Dashboard is California's new accountability system that is based on multiple measures. These measures are used to determine LEA and school progress toward meeting the needs of their students. The measures are based on factors that contribute to a quality education, including high school graduation rates, college/career readiness, student test scores, English learner (EL) progress, suspension rates, and parent engagement. In the Dashboard, charter schools' (local funded and direct funded) data are not "rolled up" or included in the LEA-level data.

To view LEA and school information provided on the Dashboard, visit the California School Dashboard and System of Support web page at https://www.cde.ca.gov/ta/ac/cm/.

For detail information about the California School Dashboard, please refer to the Dashboard Technical Guide web page at https://www.cde.ca.gov/ta/ac/cm/dashboardguide22.asp.

[^0]
## State High School Graduation Rate (Four-Year Cohort)

The Four-Year Adjusted Cohort Graduation Rate (ACGR) is the number of students who graduate from high school in four years with a regular high school diploma, divided by the number of students who form the adjusted cohort for the graduating class.

The four-year cohort is based on the number of students who enter grade 9 for the first time adjusted by adding into the cohort any student who transfers in later during grade 9 or during the next three years and subtracting any student from the cohort who transfers out, emigrates to another country, transfers to a prison or juvenile facility, or dies during that same period.

For more information on the ACGR, visit the Information about Adjusted Cohort Graduation Rate web page at https://www.cde.ca.gov/ds/ad/acgrinfo.asp.

2020-21 State High School Graduation Rate (Four-Year Cohort) by Student Group

| Student Group | Number of Students in Cohort | Number of Cohort Graduates | Cohort Graduation Rate |
| :---: | :---: | :---: | :---: |
| Statewide | 500,179 | 417,919 | 83.6\% |
| Female | 242,007 | 211,564 | 87.4\% |
| Male | 257,982 | 206,237 | 79.9\% |
| Non-Binary | 190 | 118 | 62.1\% |
| American Indian or Alaska Native | 2,611 | 1,905 | 73.0\% |
| Asian | 46,959 | 44,172 | 94.1\% |
| Black or African American | 28,294 | 20,502 | 72.5\% |
| Filipino | 14,098 | 13,220 | 93.8\% |
| Hispanic or Latino | 271,381 | 218,492 | 80.5\% |
| Native Hawaiian or Pacific Islander | 2,431 | 1,985 | 81.7\% |
| Two or More Races | 16,304 | 13,941 | 85.5\% |
| White | 114,889 | 101,363 | 88.2\% |
| English Learners | 67,519 | 45,308 | 67.1\% |
| Foster Youth | 5,981 | 3,330 | 55.7\% |
| Homeless | 33,935 | 22,992 | 67.8\% |
| Socioeconomically Disadvantaged | 343,353 | 275,960 | 80.4\% |
| Not Socioeconomically Disadvantaged | 156,826 | 141,959 | 91.0\% |
| Students Receiving Migrant Education Services | 5,387 | 4,276 | 79.4\% |
| Students with Disabilities | 63,319 | 43,436 | 68.6\% |
| Students with No Reported Disabilities | 436,860 | 374,483 | 86.0\% |

Note 1: Due to rounding, the sum of the cohort graduation rate may not total 100 percent.
Note 2: Socioeconomically disadvantaged (SED) students are defined as students: (1)
who are eligible for the free or reduced-price lunch program (also known as the National School Lunch Program, or NSLP), or have a direct certification for free or reduced-price meals, or (2) who are migrant, homeless, or foster youth, or (3) where neither of the parents were a high school graduate.

## School Improvement Funds

The ESSA requires the California Department of Education (CDE) to determine school eligibility for comprehensive support and improvement (CSI) (ESSA Section 1003 funds) based on the criteria in California's ESSA State Plan. This requirement went into effect for the first time in the 2018-2019 school year. Schools were selected for the first time in January 2019 based on the 2018 California School Dashboard.

California's ESSA State plan defines LEAs as school districts, county offices of education (COEs), and direct-funded charter schools.

The ESSA requires LEAs with schools that meet the criteria for CSI must partner with stakeholders to locally develop and implement a plan to improve student outcomes.

- Support LEAs to meaningfully address the CSI prompts in the Plan Summary of the Local Control and Accountability Plan (LCAP) related to CSI activities.
- Review and approve the CSI prompts in the LEA LCAP Plan Summary.

For more information on the CSI visit the Comprehensive Support and Improvement web page at https://www.cde.ca.gov/sp/sw/t1/csi.asp.

## 2020-21 LEAs with School Improvement Funds

The 2020-21 LEAs with School Improvement Funds data is available within each 2020-21 LEA Accountability Report Card (LARC). The LARCs are located on the Local Educational Agency Accountability Report Card web page at https://www.cde.ca.gov/ta/ac/le/.

## CAASPP Test Results

The California Assessment of Student Performance and Progress (CAASPP) System was established on January 1, 2014. The CAASPP System replaced the Standardized Testing and Reporting Program, which became inoperative on July 1, 2013.

California has adopted more rigorous academic standards that emphasize not only subject knowledge, but also the critical thinking, analytical writing, and problem-solving skills students need to be successful in college and career. These standards set a higher bar for California students to help ensure they are prepared to succeed in the future.

The primary purpose of the CAASPP System is to assist teachers, administrators, students, and parents by promoting high-quality teaching and learning through the use of a variety of assessment approaches and item types.

The CAASPP System encompasses the following assessments and student participation requirements:

1. Smarter Balanced Summative Assessments and California Alternative Assessments (CAAs) for English language arts/literacy (ELA) in grades three through eight and grade eleven.
2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

## 2020-21 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessments for ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more gradelevel[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a locally determined assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021.

As a result of this flexibility in administering the statewide assessments, approximately 25 percent of eligible students participated in the Smarter Balanced Summative Assessments for ELA and mathematics and are not representative sample of the state's student population. Therefore, the statewide results for 2020-21 assessments are not provided.

Further CAASPP information can be found on the CDE CAASPP System web page at https://www.cde.ca.gov/ta/tg/ca/.

The Smarter Balanced Summative Assessments are comprehensive end-of-year assessments for ELA and mathematics that are aligned with the Common Core State Standards (CCSS) for ELA and mathematics of grade-level learning that measure progress toward college and career readiness.

Information on the Smarter Balanced Summative Assessments can be found at the CDE Smarter Balanced Summative Assessments web page at https://www.cde.ca.gov/ta/tg/sa/sbacsummative.asp.

CAA items are aligned with alternate achievement standards, which are linked with the CCSS for students with significant cognitive disabilities. The CAA was field tested during the 2014-2015 school year and became operational during the 2015-2016 school year.

Further CAA information can be found on the CDE California Alternative Assessments for ELA and Math web page at https://www.cde.ca.gov/ta/tg/ca/altassessment.asp.

The CDE developed a science assessment called CAST based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST is aligned with these standards. The CAST was administered operationally during the 2018-19 school year.

Science assessments include both the CAST and the CAA for Science for students with an Individualized Education Program designating an alternate assessment. Students take the CAST or CAA for Science assessment in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

Information about the CAASPP System science assessments can be found at the CDE California Science Test web page at https://www.cde.ca.gov/ta/tg/ca/caasppscience.asp.

The data displayed in the State Accountability Report Card (STARC) may differ from other data sources because the inclusion and exclusion rules are different for the STARC.

## Student Achievement Two-Year Trend CAASPP Test Results 2019-20 and 2020-21

ELA - Grades Three through Eight and Grade Eleven

| Grade | Year | Total <br> Enrollment | Number <br> Tested | Percent <br> Tested | Percent <br> Not <br> Tested | Percent <br> Met or <br> Exceeded |

| Students with Disabilities | N/A | N/A | N/A | N/A | N/A |
| Students with No Reported Disabilities | N/A | N/A | N/A | N/A | N/A |

Note: The 2020-21 statewide assessment results are not provided. Due to the COVID19 pandemic, during 2020-21 school year, where a statewide summative assessment was not the most viable option, the LEAs were allowed to administer locally determined assessments. As a result, approximately 25 percent of eligible students participated in the Smarter Balanced Summative Assessments for ELA and mathematics and are not representative sample of the state's student population.

## Teacher Qualifications

Information on teacher qualifications required by the federal ESEA can be found at the CDE Improving Teacher \& Principal Quality web page at https://www.cde.ca.gov/nclb/sr/tq/.

Detailed information on teacher qualification data can be found on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/.

For information on
refer to the Updated
Teacher Equity Definitions web page at https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp.

## 2020-21 Teacher Credentials and Misassignments

## Teacher Preparation and Placement

| Authorization/Assignment | Number | Percent |
| :--- | :---: | :---: |
| Fully (Preliminary or Clear) Credentialed for Subject and <br> Student Placement (properly assigned) | $228,366.1$ | $83.12 \%$ |
| Intern Credential Holders Properly Assigned | $4,205.9$ | $1.53 \%$ |
| Teachers Without Credentials and Misassignments <br> ("ineffective" under ESSA) | $11,216.7$ | $4.08 \%$ |
| Credentialed Teachers Assigned Out-of-Field <br> ("out-of-field" under ESSA) | $12,115.8$ | $4.41 \%$ |
| Unknown | $18,854.3$ | $6.86 \%$ |
| Total Teaching Positions | $274,759.1$ | $100.00 \%$ |

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered "ineffective" under ESSA)

| Authorization/Assignment | Number |
| :--- | ---: |
| Permits and Waivers | $2,341.50$ |
| Misassignments | $8,829.50$ |
| Vacant Positions | 45.70 |
| Total Teachers Without Credentials and Misassignments | $11,216.70$ |

Credentialed Teachers Assigned Out-of-Field (considered "out-of-field" under ESSA)

| Indicator | Number |
| :--- | ---: |
| Credentialed Teachers Authorized on a Permit or Waiver | $1,940.80$ |
| Local Assignment Options | $10,175.00$ |
| Total Out-of-Field Teachers | $12,115.80$ |

Class Assignments

| Indicator | Percent |
| :--- | :---: |
| Misassignments for English Learners (a percentage of all the classes <br> with English learners taught by teachers that are misassigned) | $5.00 \%$ |
| No credential, permit or authorization to teach (a percentage of all the <br> classes taught by teachers with no record of an authorization to teach) | $4.00 \%$ |

## 2020-21 Teacher Education Levels

Teacher Education Levels

| Education Level | Percent |
| :--- | :---: |
| Doctorate degree | $0.94 \%$ |
| Master's degree plus 30 or more semester hours | $12.26 \%$ |
| Master's degree | $31.67 \%$ |
| Bachelor's degree plus 30 or more semester hours | $27.02 \%$ |
| Bachelor's degree | $26.14 \%$ |
| Less than Bachelor's Degree | $0.18 \%$ |
| None Reported | $1.26 \%$ |

## National Assessment of Educational Progress Test Results

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, and other subjects. Student scores for the NAEP are reported as scale scores and performance levels (i.e., NAEP Basic, NAEP Proficient, and NAEP Advanced). The participation of students with disabilities and English language learners is reported based on the number of students identified, excluded, and assessed.

The U.S. Department of Education administers NAEP assessments in reading and mathematics, and reports state-level results on the Nation's Report Card. The NAEP assessments had been administered in January through March of every oddnumbered year. However, due to the impact of the COVID-19 pandemic, in late November 2020, the National Center for Education Statistics Commissioner, with support of the National Assessment Governing Board (NAGB), decided to postpone the NAEP 2021 assessments.

The postponement moves the grades four and eight mathematics and reading assessments to the 2021-22 school year. Under Every Student Succeeds Act (ESSA) of 2015, state/district applications for Title I funds must include an assurance that the state/district will participate in the biennial NAEP Mathematics and Reading assessments in grades four and eight.

On March 5, 2021, NAGB released an updated assessments calendar, available on the Nation's Report Card Assessment Schedule web page at https://www.nagb.gov/naep/assessment-schedule.html, moving the grades four and eight mathematics and reading assessments from every odd-numbered year to every even-numbered year (i.e., 2022, 2024, 2026, etc.).

Therefore, as of May 2023, the most recent state-level NAEP results in reading and mathematics available are from 2022. The data in the following four tables reflect results from NAEP assessments that took place during the 2021-22 school year.

Detailed information regarding the NAEP results, including participation rates and test results for each subject and grade level, can be found on the National Center for Education Statistics Nation's Report Card website at https://nces.ed.gov/nationsreportcard/.
