How to Compare Test Results

2. Select the **Alternate English Language Arts/Literacy and Mathematics** tile.

3. Select the **Search/Compare Results** link in the upper navigation bar.

4. Add any of the following results you wish to compare:
   - Statewide results: Select the **Add State to Comparison** button.
   - County, district, and school results: Use the drop-down menus to make selections and then select the **Add Selected to Comparison** button.
     A **Keyword Search** box also is available, which allows you to search for an entity by School, District, County, ZIP, or CDS Code.

5. Three entities is the maximum number that can be compared. Comparisons can be made between levels (e.g., district to state) or at the same level (e.g., school to school).

6. All entity selections will be displayed at the top of the page. Select the X next to the entity to remove it from your comparison.

7. Select the **Compare Now** button.

8. The comparison will display the percentage of students in each of the three performance levels for both English language arts/literacy and mathematics.

9. **Data Detail** includes the following:
   - **Overall Achievement**: Includes the mean scale score (if a specific grade is selected) and the percentage of students in each performance level.

10. Hovering over the information icon next to each row label will display additional information about the data in that row.
