i If you are viewing data for a school, district, or county on the *Test Results at a Glance* screen, that entity can be added to the comparison by selecting the **Add to Compare** tile on the right navigation bar.

5 Add any of the following results you wish to compare:

- For statewide results, select the **Add State to Comparison** button.
- For county, district, and school results, use the drop-down menus to make selections, and then select the **Add Selected to Comparison** button.
- A **Keyword Search** box is also available, which allows you to search for an entity by county-district-school code, zip code, or key word.

i Three entities is the maximum number that can be compared. Comparisons can be made between levels (e.g., district to state) or at the same level (e.g., school to school).

6 All entity selections will be displayed at the top of the page. Select the **X** next to the entity to remove it from your comparison.

7 Select the **Compare Now** button.

i **Data Detail** includes the following:

- **Overall Performance:** Provides the mean scale score and the percentage of students in each of the three proficiency levels.

i Hovering over the information icon next to each row label will display additional information about the data in that row.
