How to View Test Results

1. Navigate to the English Language Proficiency Assessments for California (ELPAC) test results web page at [https://www3.cde.ca.gov/elpac/](https://www3.cde.ca.gov/elpac/).

2. Select the **Search ELPAC Results** button on the right side of the page.

3. Select the county, district, and/or school for which you want to view results.

   **County, District and School are optional search fields.**
   If only a county is selected, countywide results will be displayed. If county and district are selected, districtwide results will be displayed. If all three are selected, schoolwide results will be displayed. If no options are selected, statewide results will be displayed.

4. Select the **View Test Results** button.

   A keyword search box is also available. Enter the name, county-district-school code, or zip code and select the **Keyword Search** button to display available options. Then select the **View Test Results** link next to the county, district, and school for which you want to view results.

5. Review data as needed.

   Data can be displayed as the number of students, percentage of students, or both number and percentage of students.

   The tables of results show:

   - Number of students tested and the mean scale scores for overall, oral, and written.

   - Number and percentage of students in each performance level by grade for overall, oral, written, and domain.
