

California Assessment of Student Performance and Progress (CAASPP) Institute
Matching Student Needs Notetaking Guide

1. Diverse Student Population Notes:

2. Student Accessibility:

What access barriers might students with diverse learning needs encounter during classroom instruction? _____

What are you currently doing to support students' access to classroom instruction?

3. Reflection Questions:

In what ways might you increase the effective, appropriate use of accessibility resources in daily instruction in your LEA to enhance teaching and learning for all students? _____

What actions would need to be taken to increase the effective and appropriate use of accessibility resources in daily instruction in your LEA? _____

How might you use the Resources and Comparison Crosswalk to connect current classroom instructional practices to the accessibility resources? _____

4. Reflection Questions:

To what extent are students being directly taught how to use resources?

To what extent are students using similar resources in daily classroom instruction?

To what extent are students being provided with multiple opportunities to practice using the selected accessibility resources in the testing environment? _____

What are possible next action steps in your LEA to support the effective, appropriate use of CAASPP accessibility resources to enhance teaching and learning for all students?
