Braille ² (embossed and refreshable)	Speech-to-text
Speech-to-text	Word prediction ²
Word prediction ²	
Non-Embedded	
Abacus	
Alternate response options	
Braille ²	

Unlisted Resources

To obtain approval to use an unlisted resource, a local educational agency may submit a request in the Test Operations Management System on behalf of a student with a disability, 10 business days prior to administering the online test.

Alternate Assessment Resources

All eligible students shall have any instructional supports and/or accommodations, including the language of instruction, used in their daily instruction in accordance with each student's IEP. Depending on the student's disability or needs, the California Alternate Assessments (CAAs) may or may not include the student's independent use of the testing interface. Because the CAAs are given to students one-on-one by a test examiner, some embedded resources are not provided.

¹ Basic calculator for grade five; scientific calculator for grade eight and high school.

³ Available only for the paper-pencil test.

² Resource not available for the CAAs.
