

Information Memorandum

Date: July 31, 2003

To: MEMBERS, STATE BOARD OF EDUCATION

From: Sue Stickel, Deputy Superintendent, Curriculum & Instruction Branch

Subject: Update on Persistently Dangerous Schools

There are no public schools, kindergarten through grade twelve, that have met the State Board policy definition for designation as “persistently dangerous,” as of July 24, 2003. This determination is based on student expulsion information that has been submitted to the California Department of Education (CDE) by local educational agencies (LEAs) on the 2003-2004 Consolidated Application (ConApp) for Funding Categorical Aid Programs, Part I.

An additional 71 applications have been received since July 7, 2003. As of July 24, 2003, the total number of ConApps received by the CDE from LEAs is 1,139 and the total number of applications outstanding is 115.

Attached for your reference is a listing of the LEAs that have not submitted a ConApp as of July 24, 2003. The outstanding LEAs are circled. The outstanding LEAs are mostly charter schools except for the 22 school districts and county offices of education (COEs). Staff in the Safe and Healthy Kids Program Office, CDE has made follow-up telephone calls to these 22 LEAs. Twenty of these LEAs have informed the CDE staff that they do not have any schools that meet the “persistently dangerous” school policy definition. The CDE staff has not yet been able to confirm with two of the LEAs, Biggs Unified School District, and the Stanislaus COE, on whether they have any schools that meet the “persistently dangerous” school policy definition.

115 LEA's in the Report

85 are direct funded charter schools

Note: If there is a "C" in the first column it indicates that the LEA is a direct funded charter school.
