Section A: Executive Summary

Staff from CTB/McGraw-Hill conducted the California English Language Development Test (CELDT) Standard Setting using the Bookmark Standard Setting Procedure during a workshop held in Sacramento, California, February 12–16, 2006. The purpose of the Standard Setting was to establish new, baseline, proficiency-level cut scores for the CELDT. Participants participated in three rounds of activities in which they determined two cut scores (Early Intermediate and Early Advanced). These scores were then used to establish cut scores for all five proficiency levels: Beginning, Early Intermediate, Intermediate, Early Advanced, and Advanced.

Participants were recruited from across the State of California and were selected based on their expertise with English Language Development, their experience in the field of education, and their knowledge of the CELDT. The participants were divided into two groups. One group evaluated the Reading and Writing portions of the test while the other group evaluated Listening and Speaking portions. Each group had 10 to 14 participants. Thus, approximately 100 educational experts participated to set cut scores for the eight groups (four grades; two groups per grade). Participants decided on cut scores for Grades 2, 4, 7, and 10 for the skill areas of Reading and Writing and Grades 1, 4, 7, and 10 for the skill areas of Listening and Speaking.

During the standard setting, CTB used data from the Standard Setting to help determine Intermediate and Advanced proficiency cut scores and to interpolate or extrapolate cut scores for the remaining grades (Grades K, 3, 5, 6, 8, 9, 11, and 12 for Reading and Writing; Grades 2, 3, 5, 6, 8, 9, 11, and 12 for Listening and Speaking). In addition, participants engaged in discussions to smooth data and to produce a set of proficiency levels that best reflect English language development at all grades. Table

Leaders and CTB/McGraw-Hill staff participated in the final smoothing of the cut scores. Table A1 summarizes the final cut scores that were determined following the standard setting and smoothing.

This report summarizes the 2006 CELDT Standard Setting process and results. A round-by-round synopsis of the workshop is provided in Section B with the workshop agenda in Section C. Section D provides the training and orientation materials used with workshop leaders and participants. This section includes example items, or check set, used to calibrate decision making. In Section E, detailed results of each round of the participants' recommendations are provided by grade and content area. Section E also reports estimated percentages of students at each proficiency level + 1, 2, and 3 Standard Error (SE) for the participants' recommended cut scores for each grade and content area. Finally, Section F provides the executive summary for the CELDT Linkage and Alignment Study. This study further evaluated the CELDT and provided implications to future development efforts.

Table A1 Final Proficiency Level Cut Scores by Grade Level and Skill Area

Proficiency Level*	Grade Level												
	K	1	2	3	4	5	6	7	8	9	10	11	12
	Reading												
Early Intermediate			421**	448	474	478	481	485	497	509	521	521	521
Intermediate				482	491	504	516	529	543	557	571	571	571
Early Advanced				542	560	564	568	572	588	605	621	621	621
Advanced		473	554	577	600	604	609	613	627	648	665	665	665

Notes. * Each scale score cut represents a given student's mastery of content expected up to that proficiency level. ** Bold-faced values represent recommendations made during the Standard Setting. Other cut scores were determined through interpolation, extrapolation, and smoothing.

Section B: CELDT Bookmark Standard Setting Process and Results

The Bookmark Standard Setting Procedure (BSSP) was used to set standards for 16 grade and content areas: Grades 2, 4, 7, and 10 in Reading and Writing and Grades 1, 4, 7, and 10 in Listening and Speaking. Participants in each grade/content area participated in several rounds of activities in which they determined two cut scores (*Early Intermediate* and *Early Advanced*). During the standard setting, the remaining cuts (*Intermediate* and *Advanced*) were determined. These four cuts define five proficiency levels: *Beginning*, *Early Intermediate*, *Intermediate*, *Early Advanced*, and *Advanced*.

Approximately 100 participants were recruited from across California to establish the cut scores. Participants for each grade were divided into two groups, one group working with Reading then Writing, the other group working with Listening then Speaking. The groups ranged in size from 10 to 14 people; most had 12 participants. Within each group, participants were divided into two tables.

The CELDT Standard Setting process consisted of training, orientation, three or four rounds of judgments, smoothing of the cut scores, and description writing over a period of four days. Table Leaders were trained to lead and facilitate group discussions. After the participants finished the task of setting two cut points per skill area, CTB staff used data to determine the remaining cuts (*Intermediate* and *Advanced*) and to interpolate or extrapolate the cut scores for the remaining grades: Grades K, 3, 5, 6, 8, 9, 11, and 12 for Reading and Writing and Grades 2, 3, 5, 6, 8, 9, 11, and 12 for

Listening and Speaking. Subsequently, the participants engaged in discussions to help smooth the data.

Each group also wrote descriptors for each of the five categories based on items falling below the cut score. Table Leaders participated in a final examination of the articulation of the cut scores; they edited the descriptors to improve consistency and to ensure that scores progressed across the grades.

Bookmark Roles

CTB Staff

The Standard Setting Team included Donald Ross Green, Ph.D., Daniel Lewis, Ph.D., Ricardo Mercado, Adele Brandstrom, Hillory White, and Marie Huchton. Dr. Green has been the CTB Project Manager for CELDT from its inception. Dr. Lewis and Dr. Green conducted the standard setting. Mr. Mercado and Ms. Brandstrom served as Standard Setting Specialists, and Ms. White and Ms. Huchton served as Research Associates. This team prepared all materials for the workshop, facilitated the workshop, trained participants, entered participant bookmarks into a database, and tracked secure materials. Following the workshop, the team helped to prepare the technical report with assistance from Anne Murphy, M.Ed. Lorena Houston served as Development Manager and Kobi Goessel served as the Program Manager for CEDLT. Hilary Silver, Program Office Coordinator, for CELDT was assisted by Beth Naranjo, CTB Program Office Coordinator. Keith Boughton, Ph.D., also attended the standard setting as Co-Project Manager for CELDT.

Group Leaders

Group Leaders provided direction for sessions in which participants were working in breakout rooms. For each grade and content area, the Group Leader served as a facilitator and was in charge of time management, focused participants’ attention on the task, and interacted with the participants. Group Leaders also facilitated large-group discussions and were in charge of security and data management, collecting Bookmark data from participants, and communicating with CTB Research and staff. Group Leaders did not vote due to their CTB affiliation. Group Leaders’ names are listed in Table B1.

Table B1 Group Leaders for Each Grade/Content Area

Content Area	Grade	Group Leader
Listening and Speaking	1	Debbie Busch
	4	Suzanne Romero
	7	Hoda Behnam
	10	Kenneth Boyte & Kathy Wendell
Reading and Writing	2	Peggy Tharpe
	4	Nicole Saunders
	7	Lori Sheirich
	10	Mark Rathjen

Table Leaders

Each grade and content area had two Table Leaders. Table Leaders were voting participants in their grade/content areas. These leaders’ primary role was to monitor the group discourse by providing focus, keeping time, and facilitating discussions and participation.

Participants

Participants made recommendations for CELDT cut scores came from across California. They provided the necessary expertise and insight needed to set meaningful

and rational performance standards, and were full, voting members of their Standard Setting committees. Table B2 shows the number of participants in each grade/content area. Within each grade/content area participants were divided into two tables, each with a Table Leader.

Table B2 Number of Participants in Each Grade/Content Area

Content Area	Grade	Number of Participants
Listening and Speaking	1	12
	4	14
	7	12
	10	12
Reading and Writing	2	12
	4	12 (13 for Writing)
	7	10
	10	12

Following the Standard Setting, participants completed evaluations and their demographic information was summarized. Tables B3 and B4 show the educational background and work experience of the participants, respectively.

Table B3 Educational Background of Participants in Each Grade/Content Area

Content Area	Grade	N	Bachelor's	Master's	Doctorate
Overall		88	27.3%	65.9%	6.8%
Listening and Speaking	1	11	18.2%	72.7%	9.1%
	4	13	15.4%	76.9%	7.7%
	7	12	8.3%	83.3%	8.3%
	10	10	40.0%	40.0%	20.0%
Reading and Writing	2	11	27.3%	72.7%	0.0%
	4	12	33.3%	66.7%	0.0%
	7	11	36.4%	54.5%	9.1%
	10	8	50.0%	50.0%	0.0%

Table B4 Work experience of Participants in Each Grade/Content Area

Content Area	Grade	N	Teacher	Administrato r	Other
Overall		88	53.4%	22.7%	23.9%
Listening and Speaking	1	11	63.6%	18.2%	18.2%
	4	13	23.1%	30.8%	46.2%
	7	12	41.7%	41.7%	16.7%
	10	10	50.0%	20.0%	30.0%
Reading and Writing	2	10	50.0%	40.0%	10.0%
	4	12	66.7%	8.3%	25.0%
	7	11	81.8%	9.1%	9.1%
	10	9	55.6%	11.1%	33.3%

Bookmark Materials

Ordered Item Booklets

Ordered Item Booklets (OIBs) were comprised of items from the 2005 administration of CELDT, supplemented by items from the 2004 administration. Table B5 provides the number of items and score points in each OIB by grade and content area.

Table B5 Number of Items/score Points in Ordered Item Booklets by Grade/Content Area

Grade	Number of Items/Score Points	Number of Items/Score Points
	Reading	Writing
Grade 2	60	60
Grade 4	60	55
Grade 7	60	56
Grade 10	62	60
	Speaking	Listening
Grade 1	47	48
Grade 4	60	52
Grade 7	59	51
Grade 10	60	48

Item Maps

Item maps summarized information about each item in the OIB and consisted of nine columns: The first column indicated each item's order of difficulty. Next, a column provided the empirical location of that item on the scale. A third column indicated the form of the CELDT. Other columns provided information to indicate item number in the test booklet, item type (MC for a multiple-choice item, CR for a constructed-response item, DCR for a dichotomous constructed-response item), score key (correct response for an MC item and score points for a CR or DCR item), and content standard that the item measures. Participants filled in the final two columns as they studied the items in

the OIB. In these columns, participants responded to the questions, “What does this item measure? That is, what do you know about a student who can respond successfully to this item/score point?” and, “Why is this item more difficult than the preceding items?”

Day 1 Activities

Table Leader Training

Table Leaders were trained on the afternoon of the first day of the CELDT Standard Setting. During this training session, Table Leaders were given an overview of the rationale for Standard Setting and were instructed in the details of the Bookmark Standard Setting Procedure and were given a synopsis of each day’s activities as well as their responsibilities. The workshop agenda is included in Section C, and the training overheads presented to the Table Leaders are included in Section D.

Day 2 Activities

Opening Session

Staff from the California Department of Education (CDE) welcomed the participants to the CELDT Standard Setting and introduced key staff. Dr. Ross Green provided a brief history of the testing program, Lorena Houston discussed the proficiency level descriptions, and Dr. Daniel Lewis provided an overview of Standard Setting processes (see Section D). Following the opening session, participants moved to their assigned breakout rooms.

Breakout Room Activities

In their breakout rooms, participants reviewed the operational CELDT for the first of their respective grade/content areas. Participants were engaged all the activities for their first grade/content area before repeating the activities for a second grade/content area. For groups evaluating on Reading and Writing cut scores, standards were set for Reading first followed by Writing. For groups evaluating Listening and Speaking, standards were set for Listening first followed by Speaking. Subtests for Listening and Reading were comprised of only multiple-choice items, except for Grade 1 Listening which included dichotomous constructed-response items. For Speaking and Writing, Group Leaders conducted a discussion of item rubrics, and, for Writing, a review of the anchor papers as well. Participants at each table then studied items in the OIB, inspecting each item and its score point, the construct it measures, and asking why it is more difficult than the items preceding it.

Bookmark Training and Check Set Calibration

In a final portion of the first day's activities, Dr. Lewis and Dr. Green instructed participants regarding how to place their bookmarks. Following Bookmark training, participants were assessed to evaluate their understanding of bookmark placement with a short check set. The check set results were discussed with each group and misconceptions corrected. Check set questions and the results are presented in Tables B6 and B7, respectively; check set graphics are included in Section D.

Table B6 Questions in the Check Set

	Question
1.	Which items does a student need to master to just make it into the <i>Early Intermediate</i> proficiency level?
2.	If a student mastered only items 1 through 5, in which proficiency level would this student be?
3.	Suppose a student mastered items 1 through 6. Which proficiency level is this student in?
4.	For students who are classified as <i>Early Intermediate</i> , with at least what likelihood will they be able to answer item 6?
5.	Will the items BEFORE the <i>Early Intermediate</i> bookmark be more or less difficult to answer than the items AFTER the bookmark or about the same?

Table B7 Results of the Check Set

Question	Total Count	Count Correct	Percent Correct
1	83	69	83%
2	83	71	86%
3	83	63	76%
4	83	70	84%
5	83	81	98%

Section E reports detailed results of each round of the participants' judgments for each grade and content area. *Section F reports estimated percentages of students at each proficiency level + 1, 2, and 3 Standard Error (SE) for the participants' recommended cut scores for each grade and content area. Section G reports graphical representations of participants' judgments and SE, and Section H provides participants' evaluation results.*

Round 1

Once participants understood bookmark placement, they placed their Round 1 bookmarks for *Early Intermediate* and *Early Advanced*, while incorporating proficiency-

level definitions and the California ELD Standards. Leaders emphasized that bookmark placement is always an individual activity based on each participants expert judgment.

Round 2

Table Leaders facilitated participant discussions of their bookmark placements in small groups at their tables. Participants were instructed to discuss those items for which there was disagreement within the small group; thus, groups discussed a range of items between the lowest and highest bookmarks for each proficiency level. After this discussion, participants again placed their bookmarks. Participants were reminded that bookmark placement is always an individual activity.

Round 3

At the beginning of Round 3, participants were presented with their Round 2 results and impact data. They were shown "contextual" impact data that showed how students performed in 2005 using the existing cuts. Group Leaders then facilitated discussion among the participants regarding their bookmark placements. After this discussion, participants again placed bookmarks. Throughout participants were reminded that bookmark placement is an individual activity. All Reading and Listening groups finished their Round 3 bookmark placements by the end of the first day with the exception of Grade 4 Listening. CTB used these data to interpolate the *Intermediate* cuts between the *Early Intermediate* and *Early Advanced* cuts and between the *Early Advanced* and highest possible score for the *Advanced cut*. The data were also used to interpolate or extrapolate all the cuts for the other grades.

Day 3 Activities

Participants from Listening gathered for a presentation of the interpolated *Intermediate* and *Advanced* cuts and the interpolated or extrapolated the cuts for the other grades. Participants aided in smoothing the data? In the afternoon, participants from Reading gathered for a similar presentation. After these presentations, the following groups chose to place bookmarks for Round 4: Grade 7/Reading and Grade 10/Reading.

Second Content Area

Participants received their packets for their second content area. Participants who finished Reading portion began to evaluate Writing, and participants who finished the Listening portion went on to Speaking. Participants repeated the tasks for examining the items in the ordered item booklets for their second content area, round by round. They placed their Round-1, Round-2, and Round-3 bookmarks, discussing items for which there was disagreement. CTB used these data to interpolate the *Intermediate* and *Advanced* cuts and to interpolate or extrapolate all the cuts for the other grades.

Day 4 Activities

Participants from Listening and Speaking gathered for a smoothing discussion of all the cross-grade data. After the presentation, Grade 4/Listening and Grade 4/Speaking placed their Round 3 bookmarks. The following groups chose to place bookmarks for Round 4 for their second content area: Grade 7/Speaking, Grade 10/Speaking, and Grade 10/Writing.

Descriptor Writing

Participants edited the existing proficiency level descriptors that detail the skills needed to be classified in each proficiency level for Grades 2, 4, 7, and 10 in Reading and Writing and Grades 1, 4, 7, and 10 for Listening and Speaking.

Evaluations

Participants were asked to complete an evaluation of the CELDT Standard Setting. The results of the evaluation are included in Section H.

Day 5 Activities

Table Leaders met to review the cut scores and descriptors for articulation across the levels in each content area and completed the task by noon.

Effectiveness of Training

Evaluation results indicated that in general participants believed that they understood the goals and tasks of the Standard Setting. Table B8 presents participants' responses regarding how to place their bookmarks. Table B9 summarizes the percentage of participants who agreed that bookmark training made the task of bookmark placement clear. Table B10 summarizes the percentage of participants who agreed that the training materials were helpful. Once more, participants generally agreed that the training materials were helpful. Table B11 shows that most participants agreed that the Bookmark Procedure was described well, and, results also show that most participants agreed that the goals of the process was clear (Table B12).

Table B8 Participants' agreement/disagreement with the statement, "I understood how to place my bookmarks."

Content Area	Grade	N	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
Overall		88	0.0%	4.5%	3.4%	45.5%	46.6%

	10	9	0.0%	0.0%	33.3%	55.6%	11.1%

Perceived Validity

Another indication of the successfulness of the standard setting may be found in the participants' perceived validity of the Bookmark Standard Setting Procedure itself. Table B13 reports the percentage of participants who agreed/disagreed that the Bookmark Procedure produced appropriate cut scores. Most participants agreed or strongly agreed that the Bookmark Procedure produced appropriate cut scores. Table B14 reports that the participants' satisfaction with their group's final decisions: most participants agreed that they were satisfied with their group's final bookmarks.

Table B13 Participants' agreement/disagreement with the statement, "I am confident that the Bookmark Procedure produced appropriate cut scores."

Quality Control Procedures

The CTB Standard Setting Team adhered to quality control procedures to foster the accuracy of the materials used and the results presented during the Standard Setting. Prior to the workshop, the Standard Setting Team cross-checked the ordering of items in the OIBs, the accuracy of information in the item maps, and the accuracy of the macros and software used to generate results. During the workshop, all data were

scanned and any results that appeared questionable were further investigated and resolved.

Resulting Cut Scores

Table B15 summarizes the final cut scores that were determined from the standard setting. Results strongly reflect the recommendations of the workshop participants. Scale score cuts are reported for all grades and skill areas at each proficiency level and reflect the CELDT common, vertical scaling.

Table B15 Final Proficiency Level Cut Scores by Grade Level and Skill Area

Proficiency Level*	Grade Level												
	K	1	2	3	4	5	6	7	8	9	10	11	12
	Reading												
Early Intermediate		421**	448	474	478	481	485	497	509	521	521	521	
Intermediate			482	491	504	516	529	543	557	571	571	571	
Early Advanced			542	560	564	568	572	588	605	621	621	621

Advanced	509	509	520	532	543	556	568	581	595	610	624	624	624
		Overall											
Early Intermediate	357	357	389	415	433	438	442	447	453	458	464	464	464
Intermediate	407	407	447	460	473	483	492	502	510	518	528	528	528
Early Advanced	456	456	496	514	531	539	552	556	569	579	591	591	591
Advanced	505	505	540	557	575	587	602	610	623	638	652	652	652

Notes. * Each scale score cut represents a given student's mastery of content expected up to that proficiency level. ** Bold-faced values represent recommendations made during the Standard Setting. Other cut scores were determined through interpolation, extrapolation, and smoothing.

Section C: Workshop Master Agenda

The workshop agenda details the events of the Bookmark Standard Setting process chronologically. Each participant received the agenda to assist them through workshop activities and to set expectations for tasks. The agenda includes training, bookmark decision making, descriptor writing, and smoothing procedures.

**CELDT 2006
Bookmark Standard Setting Master Agenda**

February 12, 2006 – Training

- **2:00 – 7:00 PM: *Participant Registration***
 - Participants receive participant agendas, contracts, non-disclosure agreements, and nametags at the registration desk.
- **3:00 – 6:00 PM: *Table Leader Training***
 - CTB welcomes the table leaders, provides a brief overview of ELD, and the purpose of the standard setting
 - CTB provides an orientation to the ELD assessment and scoring rubrics, the standard setting process, and reviews the role of the Group Leaders and Table Leaders at each part of the standard setting.
- **6:00 – 7 PM: *CTB meeting***

February 13, 2006 – Listening & Reading

- **7:00 – 8:00 AM: *Continental breakfast and Participant Registration***
- **8:00 – 8:30 AM: *Complete Participant Registration in General Assembly Room***
 - Participants receive participant agendas, contracts, non-disclosure agreements, and nametags at the registration desk.
- **8:30 – 9:45 AM: *Opening Session***
 - CDE: Welcome by the California Department of Education and introduction of key staff.
 - Ross Green: A Brief History of CELDT
 - Lorena Houston: CELDT and revised Proficiency Level descriptions
 - Daniel Lewis: Standard Setting Overview
- **9:45 – 10 AM: *Break***

- **10 – 10:30 AM: *Move into Breakout rooms, sign out materials, review the Form E test***
 - Materials in break-out room:
 - participant packet: test book (Form E2 for RD/WR or E11 for LI/SP), ordered item booklet, item map, rating form, passage booklet (listening and reading)
 - table materials: examiners manual, scoring guide (SP/WR) notepads, pens, highlighters, index cards
 - Group Leader materials in the room: CD/CD player for Speaking example responses, overhead projector, overhead slides, overhead pens, post-its, paper clips, and binder clips.
 - All secure materials are printed on colored paper.
 - **Group Leader Responsibilities**
 1. Conduct brief introductions around each table (Be careful, if each participant takes 1 minute, you lose 15 minutes. Keep it to 15 seconds, just name, title, and work locale).
 2. Pass out material packets and have participants sign material tracking form.
 3. Have participants sign each piece of secure material (test booklets and all secure materials on colored paper)
 4. Direct participants to the Listening or Reading Section of the Form E book. When all participants have their books open to the right section (Table Leaders please confirm), have participants take 20 minutes to read the section from beginning to end, including all text (directions and items) and answer the questions. *For Listening, serve as the examiner while participants answer in their test books. For Grade 2 Reading, serve as administrator as required. Reading groups should focus on reading the passages and observing the configuration of items and passages (items reviewed in detail later).*
 - **Table Leader Responsibilities:** See that participants write their names on test books and all secure materials when prompted by Group Leader.
 - **General Note:** Participants tend to want to spend time critiquing the items; however, extended discussion of this type will not be useful and should be discouraged. Announce that participants may write comments about items on the provided index cards and that they will be reviewed.
- **10:30 – Noon: *Begin study of Listening or Reading ordered item booklets (OIBs) and Item Maps***
 - **Group Leader Responsibilities:**
 1. Introduce the activity by identifying the OIB, item map, and passages.
 2. Have each Table Leader designate a scribe to keep an accurate record of the discussions on the item maps. It is recommended that the Table Leader not serve as scribe, so he or she can focus on facilitating the discussion.
 3. Participants review the Listening or Reading ordered item booklets, item by item, from the easiest to the hardest, discussing what each item measures and what makes items harder than items that precede it. Participants note these observations on the item map.
 - **Table Leader Responsibilities:** Facilitate this activity. Monitor your small group—if the group is not proceeding efficiently, work with the group to bring greater focus to the task. Each member of the group should be examining the same item. If you see the group breaking up into cliques, work to bring the group together. Keep track of time to stay on schedule. If you see problems developing, notify the Group Leader.
- **12 – 12:45 PM: *Lunch***

- **12:45 – 1:30 PM: Complete study of the Ordered Item Booklet**
- **1:30 – 2:15 PM: Bookmark Training in the General Assembly Room**
 - **Group Leader Responsibilities**
 - **Direct participants to the general assembly room at this time even if they have not yet completed the OIB. They can complete it after training if necessary.**
 - CTB Research provides an overview of how to place the Early Intermediate and Early Advanced English Learner bookmarks and how to record their judgments.
- **2:15 – 3:30 PM: Complete Rounds 1 and 2 ratings**
 1. **Group leader** directs participants to place Round 1 bookmarks individually for EA and EI, in that order, indicate their ratings on the rating forms provided (write and bubble), and provide their completed rating forms to the Table Leader.
 2. **Table Leaders** should note their participants' bookmark judgments on the form provided and turn in the individual rating forms to the Group Leader.
 3. **Table Leaders** begin facilitating Round 2 activities as directed in training.
 - a. Discuss range of Early Advanced items from first to last bookmark (See *Example in box below*)
 - b. Q: Should "just" Early Advanced Students be expected to master the skill reflected by the item?
 - c. After discussing the range of Early Advanced items, participants make individual Round 2 Early Advanced ratings on rating form (write and bubble)
 - d. Repeat for Early Intermediate bookmarks
 - e. Pass completed forms to Group Leader

Table C1 Sample Table 1 Round 1 Results Provided Before Round 2
 (Table Leader creates this table on the form provided)

Table 1 Round 1	Early Intermediate Bookmark on page	Early Advanced Bookmark on page
Participant 1	19	32
Participant 2	20	45
Participant 3	22	45
Participant 4	24	48
Participant 5	17	48

Round 2 Procedures using Table 1 data

• Table 1 Leader facilitation of Round 2 using sample output above

- Facilitate discussion of your table’s Early Intermediate bookmark results and make Round 2 ratings.
 - Have each participant place a bookmark (post-it) in his/her ordered item booklet that shows where each of the other participants in the small group made their Early Advanced bookmark placements. According to the sample Round 1 results above, for the Early Advanced bookmark, each participant would place a post-it on pages 32, 45, and 48.
 - Direct the participants’ attention to the items between the first and last bookmarks. Using the sample results above, these would be items 32 to 47.
 - Facilitate a group discussion of these items in terms of what they are measuring, and whether a student just at the Early Advanced cut score should master the skills reflected by these items.
 - Following discussion of all these items, direct each participant to make a Round 2 Early Advanced bookmark rating based on each participant’s new perspective and transfer to the rating form. This should be done independently for each participant. Participants do not have to agree.
- Repeat for the Early Intermediate bookmarks
- When rating forms are all complete, collect participant rating forms and turn them in to the Group Leader.

- **3:30 – 4:45 PM: Large Group Discussion and Round 3 ratings.**
 - When results have been processed the Round 2 results will be presented on an overhead by a Research Monitor. (See *Example in box below*)
 - **The Group Leader** facilitates a discussion of the items between the two tables' median bookmarks, beginning with the Early Advanced bookmark, in a manner similar to what occurred at each table in Round 2. When the conversation is complete, have participants make their Round 3 Early Advanced ratings on the rating form. Repeat for the Early Intermediate results.
 - When both ratings are complete, collect the rating forms and provide them to a Research Monitor.

Table C2 Sample Round 2 Results Presented before Round 3 Ratings

	Basic Proficiency Proficient Bookmark	Proficient Bookmark	Advanced Bookmark
Table 1	20	45	55
Table 2	20	37	51
Group Median	20	36	53

Impact data: estimated percent of students in each performance level based on current Large Group median		
Beginning	Early Intermediate and Intermediate	Early Advanced and Advanced
? %	? %	? %

- **4:45 – 5:00 PM: *Collection of secure materials***
 - It is very important that all secure materials be organized prior to participant departure each evening. In order to account for all secure materials, the group leader should lead the materials collection process in a highly structured and organized manner.

Group Leader procedures for collecting materials:

1. Get the attention of all participants and Table Leaders. *Do not proceed until all eyes are on you!*
 2. Tell the participants that it is very important that they follow your instructions exactly, placing their materials in the order you specify in one stack per participant.
 - The Group Leader places the provided overhead listing each secure material on the projector.
 - Call out the first secure material, for example, “ordered item booklet.”
 - Ask each Table Leader to watch and let you know when each of his/her participants has placed that item on the table in front of them.
 - Proceed in this manner through the list of secure materials, one at a time, until each is accounted for, with each piece placed on top of the previous piece, in one stack for each participant.
 - Any additional materials the participants would like to leave overnight may be placed *beneath the stack* inside the rubber band.
 3. Group Leader reviews collected materials before dismissing the participants.
- **5:15 – 5:30 PM: *Table Leader debriefing with CTB and CDE***
 - Meet to discuss how the day went for each group, any problems that may have occurred, etc.

February 14, 2006 – Speaking and Writing

- **7:00 – 8:00 AM: *Continental Breakfast***
 - Participants go immediately to their break-out rooms following breakfast.
- **8:00 – 8:45 AM: *Review the Form E Speaking or Writing test***
 - Sign out materials as for Day 1 (assign materials to participants and complete tracking form)
 - Have participants sign secure materials.
 - Have participants review the Form E Speaking or Writing test.
 - *Speaking Group Leader* reads the “say” text for the Speaking items. Have Table Leaders show and point to the associated cue pictures. Note you will only go through the stimuli. You will review sample responses in the next session.
- **8:45 – 9:30 AM: *Review Speaking or Writing rubrics and anchors.***
 - *Speaking Speech Functions, Choose and Give Reasons, and 4-Picture Narrative Items*
 - Speech Functions and Choose and Give Reasons items have possible score points of 0-3 while 4-Picture Narrative items have possible score points of 0-4. We will listen to examples for each score point. All item types’ example responses are on one CD. A

transcript for each of the responses is in each participant packet. Direct participants to the transcripts before you begin the CD.

- **Writing Sentences and Writing Short Composition Items**
 - Writing Sentences items have possible score points of 0-3 while Short Composition items have possible score points of 0-4. The rubrics are new for Form F and some time should be spent familiarizing the participants with the new scoring rules. One sample response for each score point is included in each participant packet. Direct participants to read the sample responses.

- **9:30 – 9:45 AM: Break**

- **9:45 AM– Noon: Begin study of Speaking or Writing ordered item booklets**
 - Table Leader facilitates study of the OIB as done the previous day.

- **12 – 12:45 PM: Lunch**

- **12:45 – 1:15 PM: Complete study of ordered item booklets and make Round 1 ratings**
 - Table Leader completes facilitating discussion of OIB and directs participants to make their Round 1 Early Advanced and Early Intermediate bookmark ratings, collects rating forms, and notes participants ratings on the form provided.

- **1:15 – 2:30 PM: Round 2 ratings.**

- **2:30 – 3:45 PM: Round 3 ratings.**

- **3:45 – 4:45 PM: Research Smoothing**
 - If needed, Research will bring groups together to smooth cut scores across the common scale.

- **4:45 – 5:00 PM: Collection of Secure Materials.**

- **5:00 – 5:15 PM: Table Leader debriefing with CTB and CDE**
 - Meet to discuss how the day went for each group, any problems that may have occurred, etc.

- **5:15 PM: CTB and CDE debrief and plan for Day 3**

February 15, 2006 – Descriptor Writing

- **7:00 – 8:00 AM: Continental Breakfast**
 - Participants go immediately to their break-out rooms after breakfast.

- **8:00 – 9:30 AM: Research Smoothing**
 - If needed, Research will bring groups together to smooth cut scores across the common scale.

- **9:30 – 10:15 AM: *Begin Descriptor Writing—Listening or Reading.*** This activity is facilitated by the Development Group Leaders.
 - Group Leaders will introduce the current descriptors and train the participants in the process they will follow to produce new descriptors using descriptor-writing guidelines.
 - Participants will mark on their test maps the cut score ranges for Beginning, Early Intermediate, Intermediate, Early Advanced, and Advanced.
 - Participants will review their notes on each of the items within the Early Intermediate range and compare the skills described with the text in the corresponding descriptor.
 - They will make any adjustments to the descriptor text to reflect the skills that are now represented within the new cut scores.
 - They will continue similarly with the Intermediate, Early Advanced, Advanced, and Beginning proficiency levels.

- **10:15 –10:30 AM: *Break***

- **10:30 AM – Noon: *Complete Descriptor Writing—Listening or Reading***

- **Noon – 1:00 PM: *Lunch***

- **1:00 – 2:30 PM: *Begin Descriptor Writing—Speaking or Writing***
 - Participants repeat the above process for the next content area.

- **2:30 – 2:45 PM: *Snack Break***

- **2:45 – 3:30 PM: *Complete Descriptor Writing—Speaking or Writing***
 - **3:30 – 5:00 PM: *Complete Evaluations and Collect Secure Material***
 1. **Group Leader** has participants complete evaluations
 2. Participants cannot take test materials or personal notes made during discussions with them. Only non-secure materials printed on white pieces of paper may be taken by participants. They can take the colored bookmarks home if they like, but all other colored paper must be accounted for.
 3. Separate all participants Item Maps (make sure the scribe's Map is designated appropriately). The Maps will be used by Content to finalize the descriptors.
 4. Keep the Group and Table Leader packets separate as they will be used Thursday morning to finalize the cuts and descriptors.
 5. Collect secure materials using the same systematic process used the prior day.

February 16, 2006 – Review Smoothed Cut scores and Descriptors

- **7:00 – 8:00 AM: *Continental Breakfast for Table Leaders***

- **8:00 – 10:00 AM: *Research Smoothing***

- Table Leaders will split into two groups, one for Listening/Speaking and the other Reading/Writing.
- Each group will review the smoothed cut scores set by the participants across all grade spans and the impact data for these cuts. Any final discussion or changes will be made, and participants will be able to see all four final cut scores on the new common scale.
- **10:00 – 11:00 AM: *Finalize Descriptors***
 - Working with the Content Group Leaders, Table Leaders should review, edit, and finalize descriptors for all proficiency levels based upon the final cut scores.
- **11:00 – 11:15 AM: *Final Materials Collection from Table Leader***
 - Collect secure materials and participants are dismissed.
 - All Group Leader and Table Leader materials will be collected and brought back to CTB as reference copies.

Section D: Training Materials

Section D provides the introductory and training materials used with all participants of the CELDT Standard Setting. First, we provide the contents of the presentation introducing the workshop, its context and purpose, as well as the research basis for the Bookmark Standard Setting process including images of slides with visual representations. Next, we provide training materials specific to deriving the new CELDT cut scores. Finally, the check set materials that were used to calibrate participants' decision making are included.

CELDT Standard Setting Introduction

A Brief History of CELDT 1999-2006

- Mandated by California Legislature 1997-1999
- K–12 (K & 1 Listening/Speaking only)
- Administered by trained staff
- Initial & Annual assessment
- 5 Proficiency levels

Development of blueprint

- Winter 1999 – Spring 2000
- By CTB & CDE and committees of ELD & ELA teachers and professionals

Development

- Items written and tryout materials for Form A produced Summer, 2000
- About 70% of the Listening, Speaking, and Writing items were from the Language Assessment Scales (LAS)
- Reading items were new
- Field test Fall, 2000 (voluntary)
- Common scale developed

Changes after 2001 Administration

- Changes from Form A
- Story Retelling replaced by 4 picture narratives
- Phonemic Awareness deleted
- Reading test shortened
- Writing essay deleted and replaced by sentences and short composition
- Oral comprehension added
- All LAS items replaced
- Reasons for revisiting Cut Scores
- The test has changed
- The population has changed
- New common scale
- New separate listening score
- New separate speaking score
- Revision of Proficiency Level Definitions to represent more rigor and a shift toward more academic language

Reasons for revisiting Cut Scores

- Discontinuities when students move to next grade span

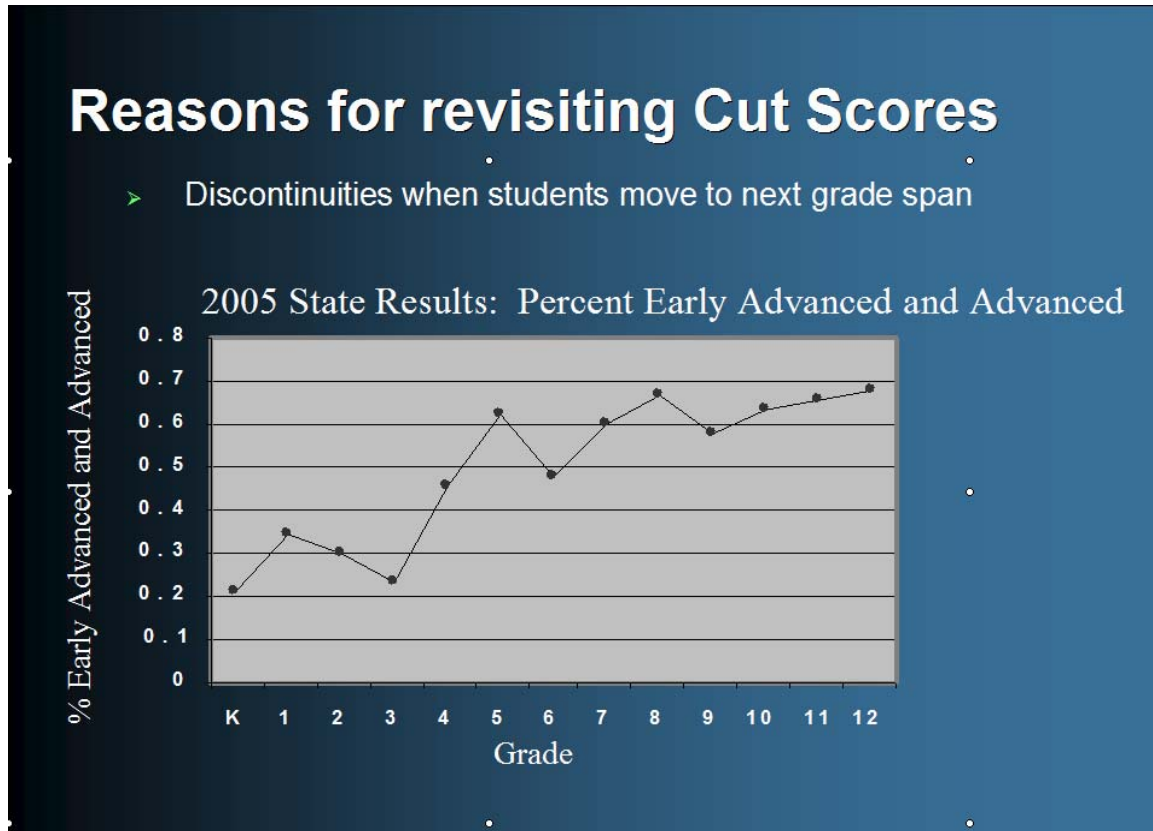

Figure D1 Training Slide: 2005 State Results

Advisory Panel Recommendations

- Raise the cut-scores for all proficiency levels, all grades and grade spans
- Significantly increase the standards for IFEP for Kindergarten and Grade 1
- Advisory Panel recommendations to raise cut scores, particularly in Kindergarten and Grade 1

Figure D2 Training Slide: Reasons for Revisiting Cut Scores

Revised CELDT Proficiency Level Descriptions

Beginning: Students performing at this level of English language proficiency may demonstrate little or no receptive or productive English skills. They are beginning to understand a few concrete details during unmodified instruction. They may be able to respond to some communication and learning demands, but with many errors. Oral and written production is usually limited to disconnected words and memorized statements and questions. Frequent errors make communication difficult.

Early Intermediate: Students performing at this level of English language proficiency continue to develop receptive and productive English skills. They are able to identify and understand more concrete details during unmodified instruction. They may be able to respond with increasing ease to more varied communication and learning demands with a reduced number of errors. Oral and written production is usually limited to phrases and memorized statements and questions. Frequent errors still reduce communication.

Intermediate: Students performing at this level of English language proficiency begin to tailor the English language skills to meet communication and learning demands with increasing accuracy. They are able to identify and understand more concrete details and some major abstract concepts during unmodified instruction. They are able to respond with increasing ease to more varied communication and learning demands with a reduced

number of errors. Oral and written production has usually expanded to sentences, paragraphs, and original statements and questions. Errors still complicate communication. **Early Advanced:** Students performing at this level of English language proficiency begin to combine the elements of the English language in complex, cognitively demanding situations and are able to use English as a means for learning in content areas. They are able to identify and summarize most concrete details and abstract concepts during unmodified instruction in most content areas. Oral and written production is characterized by more elaborate discourse and fully-developed paragraphs and compositions. Errors are less frequent and rarely complicate communication.

Advanced: Students performing at this level of English language proficiency communicate effectively with various audiences on a wide range of familiar and new topics to meet social and learning demands. In order to attain the English proficiency level of their native English-speaking peers, further linguistic enhancement and refinement are still necessary. They are able to identify and summarize concrete details and abstract concepts during unmodified instruction in all content areas. Oral and written production reflects discourse appropriate for content areas. Errors are infrequent and do not reduce communication.

4 Cut Scores Determine the 5 CELDT Proficiency Levels

Figure D3 Training Slide: Placing Cuts

Target Student for whom we set the cut score

- The “just” Early Advanced Student
- We want to consider the required knowledge, skills, and abilities of the student who is just barely Early Advanced

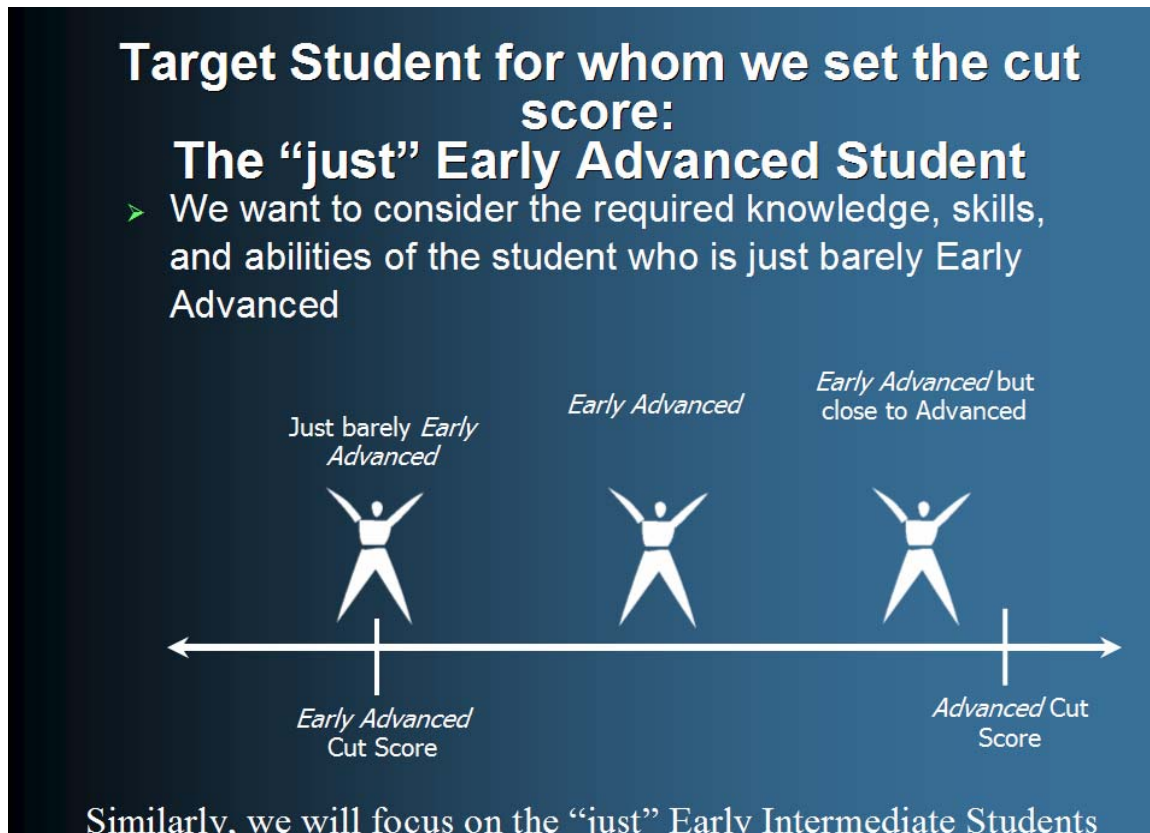

Figure D4 Training Slide: Target Student

Standard Setting Configuration

- Eight Committees will focus on one grade per grade span and skill area
- Listening and Speaking Grade 1
- Listening and Speaking Grade 4
- Listening and Speaking Grade 7
- Listening and Speaking Grade 10
- Reading and Writing Grade 2
- Reading and Writing Grade 4
- Reading and Writing Grade 7
- Reading and Writing Grade 10

Committee Roles

- Group Leader
- Table Leader
- Participants

- CTB Staff (process and logistics)
- CDE (policy)

Day 1 Agenda: Listening/Reading

- Sign out secure materials and review Form E
- Study the ordered item booklet
- Training in making cut score recommendations
- Round 1: Individual recommendations
- Round 2: Recommendations after table discussion
- Round 3: Recommendations after group discussion
- Secure materials collection
-

Day 2 Agenda: Speaking/Writing

- Sign out secure materials and review Form E
- Study CR rubrics and anchors
- Study the ordered item booklet
- Round 1: Individual recommendations
- Round 2: Recommendations after table discussion
- Round 3: Recommendations after group discussion
- Smoothing of Listening and Reading (if necessary)
- Complete evaluations
- Secure materials collection

Day 3 Agenda: Description Writing

- Ordered Item Booklets
- One item per page
- Easiest item first, hardest item last
- Items ascend by difficulty

View Sample OIB

- Study ordered item booklets

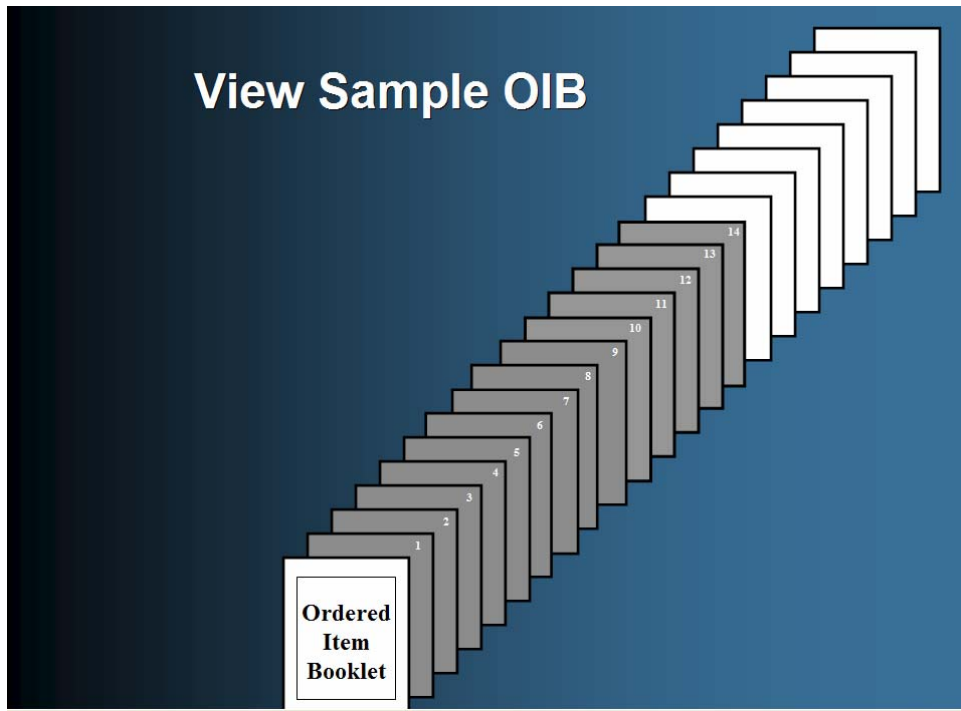

Figure D5 Training Slide: OIB Graphic

Sample Item Map

Sample Item Map								
Order of difficulty	Location	Form	Item No.	Item Type	Score Key	Standard	What does this item measure? That is, what do you know about a student who can respond successfully to this item/score point?	Why is this item more difficult than the preceding items?
9	426	E1	5	MC	3	76.01		
10	429	E1	21	CR	1 of 3	51.01		
14	442	E12	6	MC	1	76.01		
15	444	E1	21	CR	2 of 3	51.01		
20	455	E1	2	MC	2	76.01		
54	572	E1	21	CR	3 of 3	51.01		

Figure D6 Training Slide: Sample Item Map

Room Assignments (These assignments were reviewed for participants.)

Setting the Cut Score

Review

- CELDT Bookmark Training
- Target Student
- We want to describe the skills held in common by all these students.
- These are the skills of the Just Early Advanced student (similarly for Early Intermediate).
- Bookmark Placement
- Items preceding your Bookmark reflect skills that you believe all students at the Early Advanced cut score should master.
- For MC items, this means you believe that Early Advanced students should know the correct responses.
- For CR items this means that you believe that Early Advanced students should obtain at least that score point.
- Students may get some items right after the bookmark but will not have mastery of them.

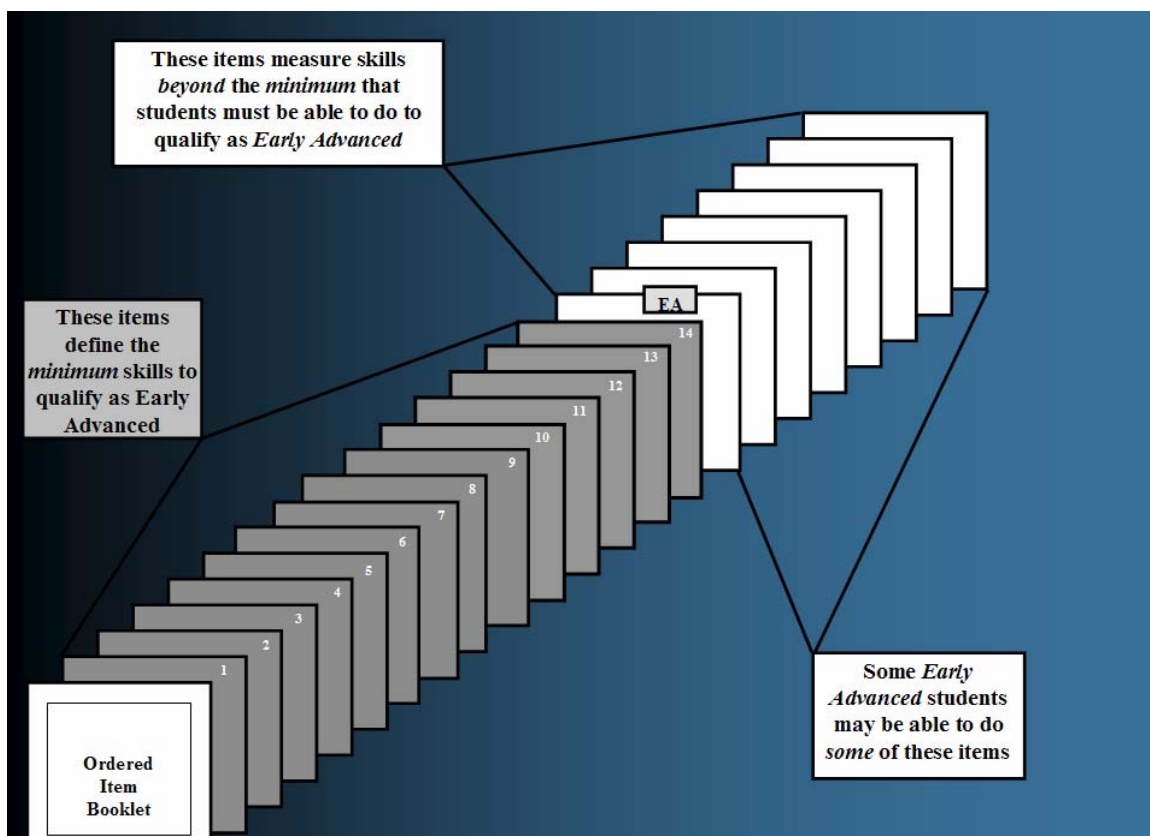

Figure D7 Training Slide: OIB Graphic 2

Test Scale

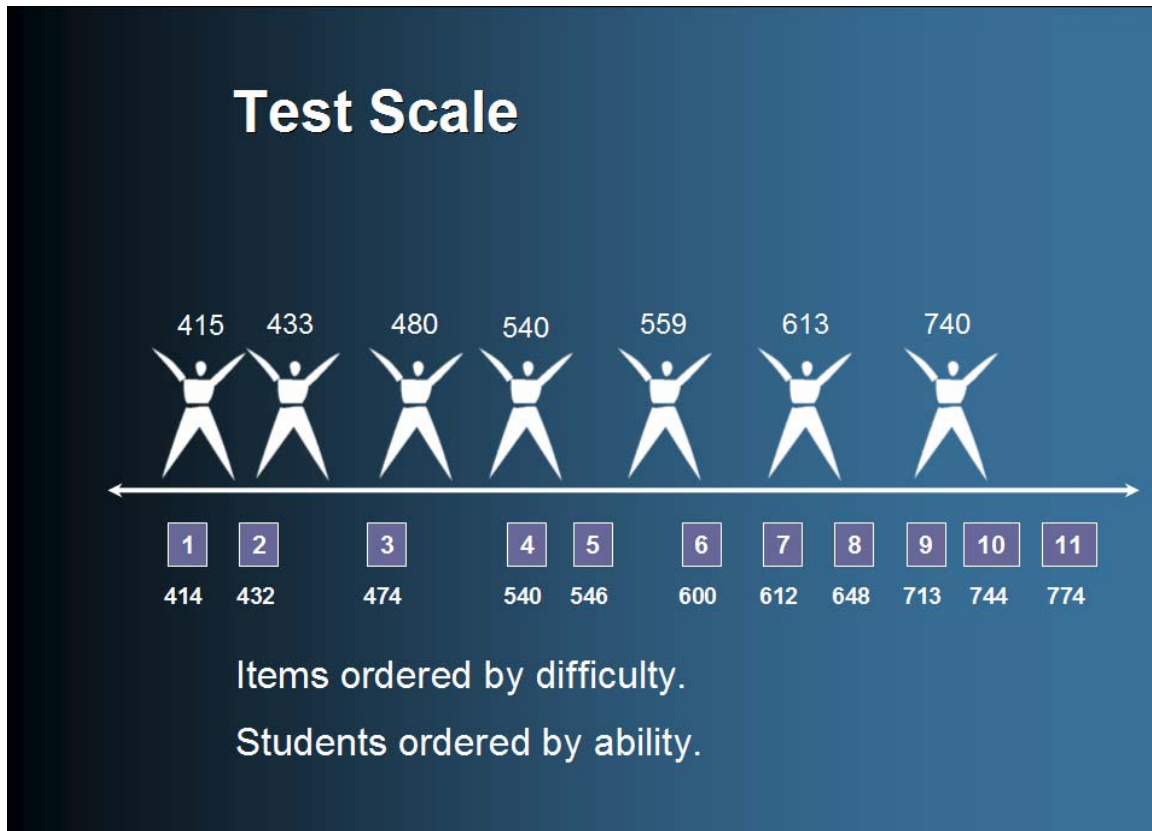

Figure D8 Training Slide: Test Scale

Mastery and Your Bookmark Placement

- Students show mastery when they have at least a 2/3 chance of answering an item correctly.
- Decision to use 2/3 based on research
- Place the bookmark at the first point where you feel that a student who has mastered the skills reflected by the items before the bookmark has demonstrated sufficient skills to be Early Advanced.

Mastery and the Target Student

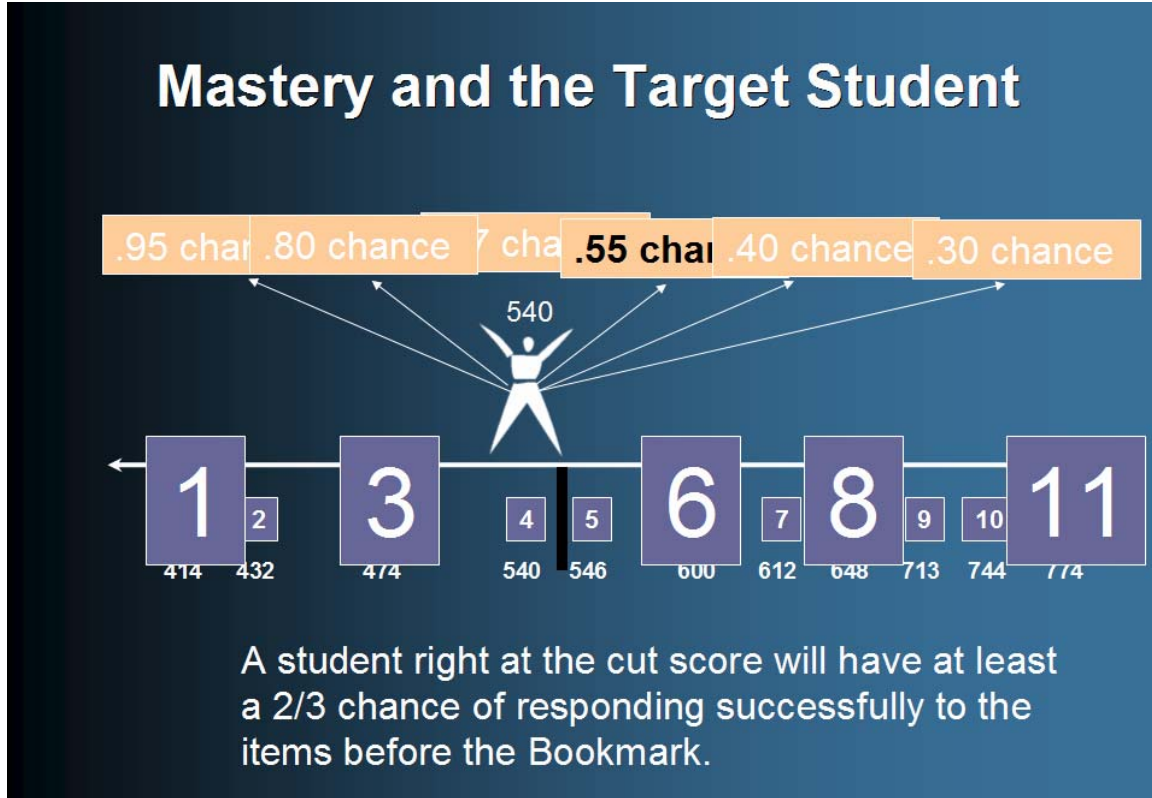

Figure D9 Training Slide: Mastery and the Target Student

Contextual Bookmarks

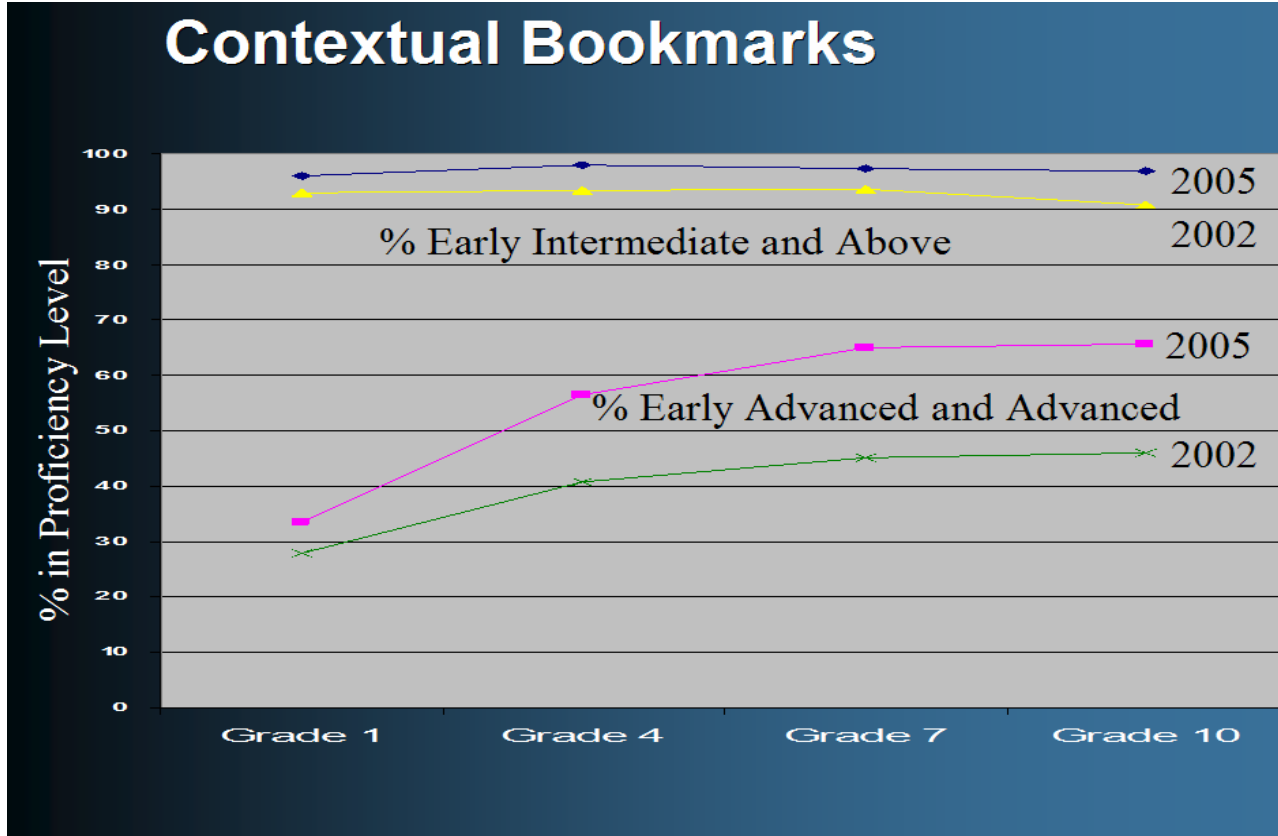

Figure D10 Training Slide: Contextual Bookmarks

- Example: Contextual Cut Scores: Listening Grade 1
- Bookmarks based on current cut scores and those associated with 2002 impact data
- Your judgments are in no way bound by these intervals; they are provided as contextual information.
- All ratings must be made on the rating form provided

Bookmark Placement

These directions are written for placing the *Early Advanced* bookmark and apply analogously to the *Early Intermediate* bookmark. They were used with participants in the 2006 CELDT Standard Setting.

For whom am I placing this bookmark? The Target Student

When you place your *Early Advanced* bookmark, you are targeting the student who just qualifies as *Early Advanced*. A student with less skill than this Target Student would not yet be considered *Early Advanced*.

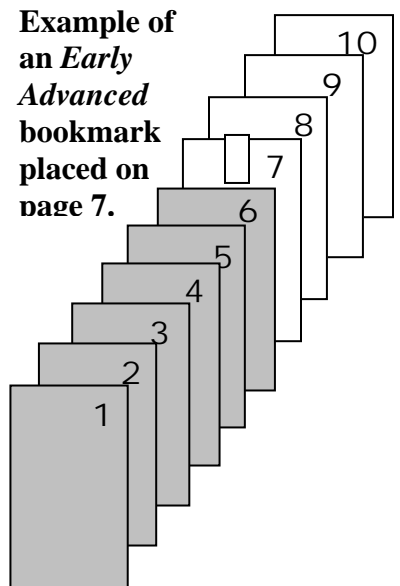

How do I place my bookmark? The Mechanics

The bookmark is exactly that: a bookmark. It separates the minimum set of skills that *Early Advanced* students are expected to have from more advanced skills. In the example below, a participant has placed the *Early Advanced* bookmark on page 7. With this bookmark placement, the participant says that a student should have the skills represented in items 1 through 6 to be *Early Advanced*.

To place your bookmark, start at page 1 in the Ordered Item Booklet (OIB). Page through the OIB **looking at the skills covered** until you find the **first** page where you think a student has demonstrated a sufficient body of evidence to indicate that the student is *Early Advanced* relative to the ELD standards. These are the skills you are saying an *Early Advanced* student needs to master to just make it into the *Early Advanced* level.

Place your bookmark on the page AFTER the last item you expect the student to master. This page number is your bookmark. Write and bubble it on your Rating Form.

Hint: It may be helpful to first identify the interval of items in which you are reasonably certain the bookmark should be placed; then you can place the bookmark within that interval. If you are uncertain about where to place your bookmark, make your best decision; you will have another opportunity to reconsider your bookmark in the next round.

What does my *Early Advanced* Bookmark mean? Some Answers

- You expect *Early Advanced* students to have the skills reflected by the items *before* your bookmark. They may have some of the skills reflected by items after the bookmark, but not enough to make it into the *Advanced* category.
- For multiple-choice items, *Early Advanced* students should know the correct response. For constructed-response items, *Early Advanced* students should achieve the score points before the bookmark, but not necessarily the score points after the bookmark.

Is my bookmark the same as a raw score? NO

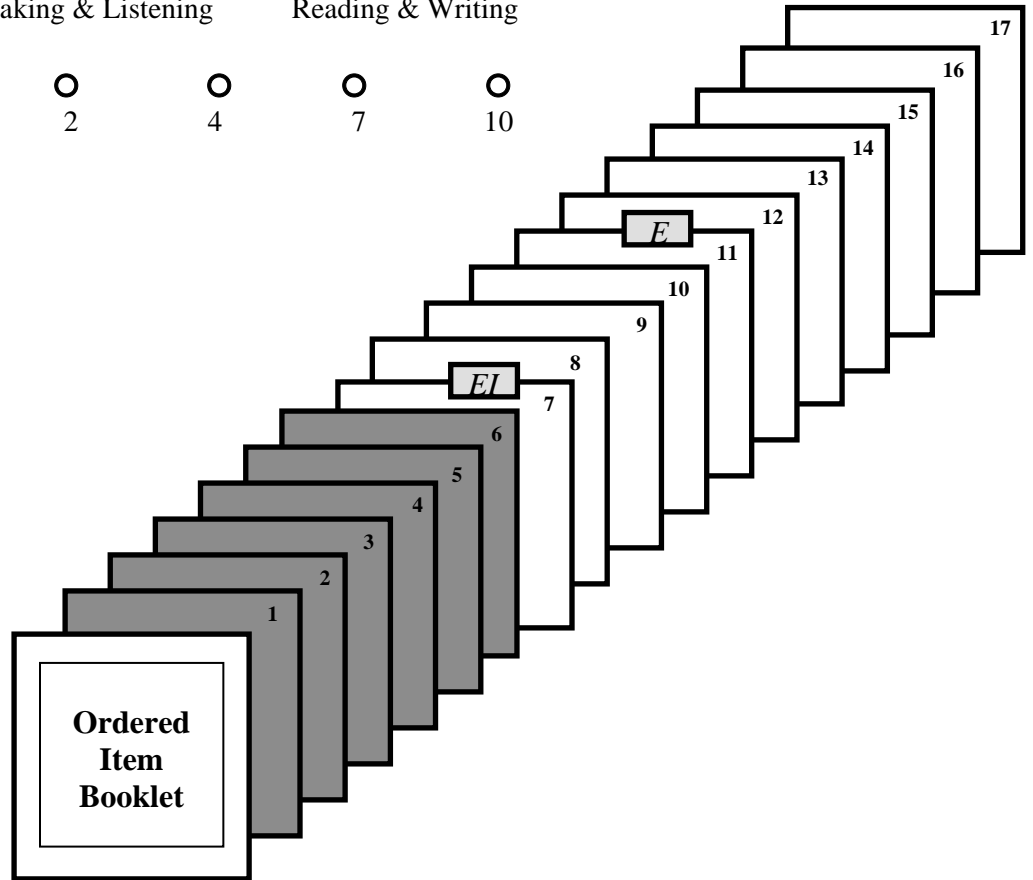

- It is very important to remember that your bookmark placement is *not* equal to a raw score. In the example above, the *Early Advanced* bookmark was placed on page 7. The participant was *not* saying that a student must get six items correct to be classified as *Early Advanced*. This participant is saying that a just *Early Advanced* student should have the skills represented in the items on pages 1 through 6. The numbers in the OIB correspond to the rank order of difficulty of each item. These numbers do *not* correspond to raw scores. Students may miss some of the items before the bookmark and will most likely get some of the items right after the bookmark.

Check Set

Content Area:
 Speaking & Listening Reading & Writing

Grade:
 1 2 4 7 10

CELDT 2006

Suppose the bookmarks were placed in this sample ordered item booklet as follows:

	Early Intermediate Bookmark on Page #	Early Advanced Bookmark on Page #
Round 1	7	11

1. Which items does a student need to master to just make it into the *Early Intermediate* proficiency level?

<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1 to 5	1 to 6	1 to 7	1 to 8

2. If a student mastered only items 1 through 5, in which proficiency level would this student be?

<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Beginning	Early Intermediate	Intermediate	Early Adv	Adv

3. Suppose a student mastered items 1 through 6. Which proficiency level is this student in?

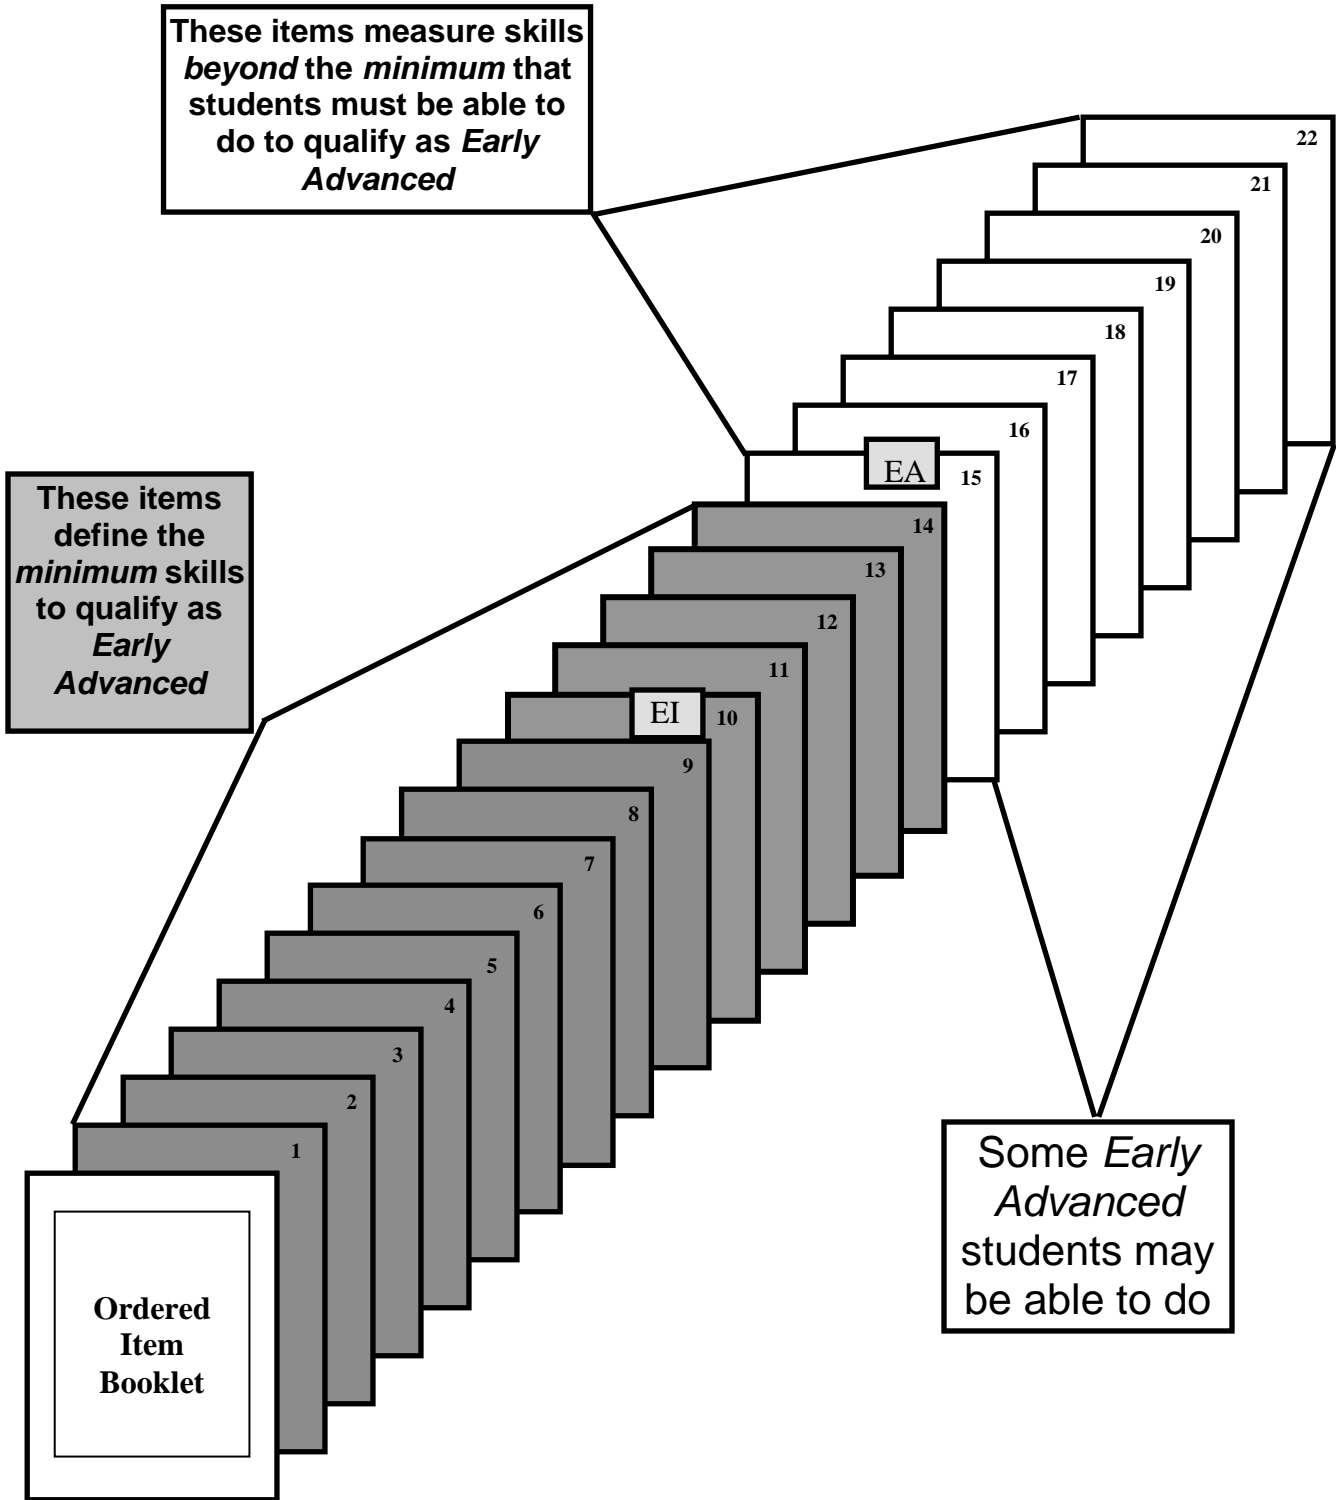

<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Beginning	Early Intermediate	Intermediate	Early Adv	Adv

4. For students who are classified as *Early Intermediate*, with at least what likelihood will they be able to answer item 6?

<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1/3	1/2	2/3	3/4

5. Will the items BEFORE the *Early Intermediate* bookmark be more or less difficult to answer than the items AFTER the bookmark or about the same?

<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
More difficult to answer	About the same	Less difficult to answer

Section E: Standard Setting Results

The Section E first presents the round-by-round results of the CELDT Standard Setting by skill area (Listening, Reading, Speaking, and Writing) and grade evaluated. These tables (E1-E270) include bookmark placement decisions, cut scores, and summaries of bookmark placements and cut scores and the impact data accompanying each change. Also, standard error is discussed and the error associated with final decisions are reported (Tables E271-E286)

Calculating a Meaningful Standard Error for the Bookmark Cut Score

In the Bookmark Standard Setting Procedure for a given grade and content area, participants are assigned to roughly equivalent small groups that work independently through Round 2. Thus, the set of Round 2 cut scores provide some information about the stability of consensus in Bookmark cut scores across independent small group replications. To quantify this degree of consensus, we calculate the cluster sample standard error (Cochran, 1963, p. 210) of the Round 2 mean cut score. Cluster sample standard errors are appropriate when, as may be reasonably assumed here, data are collected from groups and independence can be assumed between groups but not within groups.

For the Bookmark Procedure, the standard error of the Bookmark cut score (SE_{cut}) is based on the cluster sample standard error of the Round 2 mean cut score. Because the final Bookmark cut scores are based on the median of the group instead of the mean, this cluster sample standard error (SE_{cut}) is adjusted by $\sqrt{\frac{\pi}{2}}$ (Huynh, 2003). The standard error of the Bookmark cut score is:

$$SE_{cut} = \left(\sqrt{\frac{\pi}{2}} \right) \left(\sqrt{\frac{S^2}{N} \left[1 + \left(\frac{N}{n} - 1 \right) r \right]} \right),$$

where s^2 is the sample variance of individual Round 2 cut scores, r is the Round 2 intraclass correlation, N is the number of participants, and n is the number of groups. To be precise, if Y_{ik} is the cut score from the i^{th} participant in the k^{th} group, \bar{Y}_k is the average cut score for group k , and \bar{Y} is the average of all Round 2 cut scores, then

$$r = \frac{\text{Var}(\bar{Y}_k)}{\text{Var}(\bar{Y}_k) + \text{Var}(Y_{ik} - \bar{Y}_k)} \quad \text{and} \quad S^2 = \frac{1}{N-1} \sum_{n,k} (Y_{nk} - \bar{Y})^2$$

If we have only two groups ($n=2$) and perfect dependence (agreement) within groups

($r=1$), then the cluster sample standard error simplifies to $SE_{cut} = \left(\sqrt{\frac{\pi}{2}} \right) \left(\frac{|Y_1 - Y_2|}{2} \right)$, which is

the standard error formula employed by NAEP for two independent replications of a

modified Angoff procedure (ACT, 1983, pp. 4-8). If, on the other hand, individual

participants acted independently of their groups ($r=0$), then the cluster sample standard

error simplifies to the traditional standard error of the mean for independent observations,

$SE_{cut} = \left(\sqrt{\frac{\pi}{2}} \right) \left(\sqrt{\frac{S^2}{N}} \right)$. In this manner, SE_{cut} provides a simple, flexible, and general way to

quantify the amount of uncertainty associated with final Bookmark cut scores.

It is appropriate (if statistically imprecise) to say that repeated replications of this very standard setting procedure with different judges sampled from the same population of potential judges would result in a range of cut scores, most of which would fall in a band of width $4 * SE_{cut}$. Reported here, we depict such an interval centered at the median of the

Round 3 cut to illustrate the amount of error at each proficiency level. Tables in Section F report the SE_{cut} .

Section F: Linkage and Alignment Study

Executive Summary

Under Title III of No Child Left Behind Act of 2001 (NCLB), English language development (ELD) standards must be linked to content standards and the English language proficiency test must be appropriately aligned to the ELD standards. States are held accountable for the academic progress of English learners (EL) and for their ability to sustain academic performance after they exit EL programs. This report details the evaluation study conducted for the State of California to provide evidence of linkage and alignment. *Linkage* is defined here as the correspondence between the ELD standards and content standards, and *alignment* is defined here as the correspondence between the ELD standards and the ELD assessment.

Sato, Lagunoff, Worth, Bailey, and Butler (2005) developed an approach appropriate to assessments of ELD to evaluate linkage and alignment based on research in the areas of education and applied linguistics. Their approach looked for correspondences across standards and tests in terms of *language demands*. The language demands include both *linguistic features* (phonological, lexical, syntactic) as well as *academic language functions* (discourse) commonly learned in the K – 12 context. This study used the language-demands approach in the evaluation of linkage of the California ELD standards to the state content standards. The content areas of English Language Arts, Mathematics, and Science were analyzed for four grade levels (Grades 2, 5, 7, and 9); in Grade 9, Biology and Algebra I were analyzed for Science and Mathematics, respectively. Also, the study evaluated the alignment of the Form E California English Language Development Test (CELDT, CTB/McGraw-Hill, 2005) to the ELD standards. All

ELD standards at four grade spans (K – 2, 3 – 5, 6 – 8, and 9 – 12) and 396 CELDT Form E items were used to evaluate alignment.

Analyses examined (a) *ratability* (whether sufficient evidence exists in the items themselves to rate language demands); (b) *modality* (whether an item’s language demands occur in *listening, speaking, reading, and writing*); (c) *complexity* (related to depth-of-knowledge and the nature of the content or skills reflected in an item or standard); and, (d) *specific language demands* (types of linguistic skill and/or academic language function codes).

A total of 1,381 content and ELD standards were analyzed with an overall ratability of 74.0%. Few standards in Mathematics and Science provided enough information to allow for a rating on a language dimension (21.1% and 21.9%, respectively) while most ELD and English Language Arts (ELA) standards were ratable (96.2% and 95.8%, respectively). A total of 396 CELDT Form E items were analyzed with 100% ratability. These 396 items, 99 per grade span, represented 20 ELD standards in Grade K – 2, 25 in Grades 3 – 5, 21 in Grades 6 – 8, and 19 in Grades 9 – 12.

Overall, the findings of this study confirm many of the results reported by Sato, et al. (2005). Linkage was inconsistent across groups of standards. Most ELD and ELA standards were ratable (greater than 90%); however, only 13% to 38% of the Math and Science standards were ratable using both the standards themselves and accompanying frameworks documents. There were variable degrees of alignment between ELD standards and the CELDT depending on language demands and proficiency levels. Strongest alignment appeared in items in the Reading and Writing sections on the language-demand dimensions. Reading and Speaking items generally showed moderate

to strong alignment across sections of the test on all dimensions (i.e., ratability, modality, complexity, and language demands), especially in the lower two grade spans. Items in the Writing sections were weakly aligned on the modality and complexity dimensions, and Listening items showed the weakest alignment on all dimensions. The 6 – 8 grade span showed the weakest alignment of the four spans, especially on complexity and language-demands dimensions.

Implications of the study are described below.

1. If the correspondence between California’s ELD standards and content standards is strengthened on all language dimensions, the CELDT can be better aligned to the content standards. The development of CELDT items that reflect more academic language functions and higher levels of complexity would improve overall alignment of the system.
2. The CELDT item development should target the following priorities for the purpose of strengthening alignment: (a) items that incorporate academic language functions in the form of high-frequency, non-specific, academic vocabulary; (b) items that address specific language demands at the word and sentence levels (e.g., *identification, labeling and enumeration, description*); and (c) items that reflect greater depth (i.e., complexity). Given that the ELD standards and the CELDT tend to have lower complexity ratings, higher levels of complexity in item development will improve alignment, as well as the test’s ability to discriminate at the higher proficiency levels.

3. Although classroom and formative assessments are well suited to assess certain academic language functions at the discourse level, increased emphasis on academic language functions is needed in order to bring the ELD standards and CELDT into better compliance with NCLB Title I and Title III requirements.
4. Each content area has standards with unique linguistic demands, lexicons, expectations, and assumptions. Further work to understand these unique aspects of content standards and how they are related on the language demands dimensions would help to inform the effort to bring the ELD standards and the CELDT into better compliance with NCLB Title I and Title III requirements.
5. The linkage and alignment methodology used for this study promises to be a useful tool for item development and has the potential for aiding in the development of curricular materials. The approach taken here will help test developers and state assessment decision makers by to improve the processes that guide item development and fill gaps in alignment.
