

The California School Dashboard (Dashboard) is an online tool designed to help communities across the state access important information about kindergarten through grade twelve schools and districts. The Dashboard features easy-to-read reports on multiple measures of school success.

The Dashboard is just one step in a series of changes in the past decade that have raised the bar for student learning, increased the focus on equity, and expanded the review of performance data to a specific set of state and local indicators. ## 11 Measures of School Success

### State Measures

**Six** state measures allow for comparisons across schools and districts.

- Academic Performance
- Chronic Absenteeism
- College/Career Readiness\*
- English Learner Progress
- High School Graduation Rate
- Suspension Rate

Schools and districts receive one of five Status levels on each of the state measures. For the 2022 Dashboard, the Status levels are reflective of the performance achieved during the 2021–22 school year.

Results are presented for all districts, schools, and defined student groups (e.g., racial/ethnic groups, low income, English learners, homeless, foster youth, and students with disabilities).

*\*Note: The College/Career Readiness measure is not reported on the 2022 Dashboard. Reporting of this measure will resume in 2023.*

### Local Measures

**Five** local measures are based on information collected by districts, county offices of education, and charter schools.

- **Basic Conditions**
  - Teacher assignments, safe and clean buildings, instructional materials for all students
- **Implementation of Academic Standards**
- **School Climate Surveys**
  - Student safety, connection to the school
- **Parent Involvement and Family Engagement**
- **Access to Courses**

Districts receive one of **two** ratings for each of the local measures:

- Met
- Not Met

School and student group information is not available for local measures.
