

# 2023–24 Interim Assessments by Grade

California Department of Education • August 2023

Interim assessments are one component of the California assessment system. The interim assessments are optional tests that measure what students know and can do. This document lists all interim assessments available, by grade level, during the 2023–24 school year for the following assessment programs:

- Smarter Balanced English language arts/literacy (ELA)
- Smarter Balanced mathematics
- California Science Test (CAST)
- English Language Proficiency Assessments for California (ELPAC)

The interim assessments provide meaningful information to guide instruction and support student learning. The interim assessments are versatile and can be administered to students in either a standardized (e.g., benchmark) or nonstandardized (e.g., formative) manner, or used by school and district staff for professional development. They can be administered to students at any grade level (i.e., kindergarten through grade twelve).
