

Exciting Professional Growth Opportunity for California Teachers!

The California Department of Education (CDE) is looking for motivated, credentialed California teachers—who provide instruction to students in English language arts/literacy or mathematics—to join the **Smarter Balanced Tools for Teachers State Network of Educators (SNE)**.

Contact the CDE by email at sne@cde.ca.gov to learn more about SNE membership.

Members of the SNE will

- develop and contribute formative assessment resources for inclusion in Tools for Teachers;
- review and offer feedback on resources contributed by other SNE members; and
- serve as ambassadors of Smarter Balanced Tools for Teachers resources within their local context.

SNE membership offers a unique opportunity to collaborate with educators throughout California and other Smarter Balanced member states!
